

Seller/Servicer

PDF

Current as of Bulletin 2023-15, Published on 07/05/23

This is a PDF of the Freddie Mac *Single-Family Seller/Servicer Guide* (“Guide”) chapters current as of Bulletin 2023-15, published on July 5, 2023. This comprehensive file contains all of the Guide chapters.

Compilation of Guide Chapters

This PDF is a compilation of the separate Guide chapters. The footers are updated by chapter and reflect the date of the last time that each specific chapter was updated. Therefore, while this Guide PDF includes all Guide chapters as of July 5, 2023, only the chapters that were updated on July 5, 2023 have that date in the footer.

Certain sections within the segment may have future revisions with effective dates after the date of this Guide PDF. If the future effective version of a section has been published by July 5, 2023, that version is included in this PDF.

The Official Electronic Version of the Guide is available on the AllRegs® website

The current official electronic version of the Guide is posted on the AllRegs® website of ICE Mortgage, Inc., and is available free of charge through the "AllRegs" link on the following web page: <https://guide.freddiemac.com/app/guide/>. **Seller/Servicers are advised to view the Guide and Guide Bulletins on the AllRegs website for the most current Guide requirements.** Seller/Servicers are responsible for compliance with the Guide and Bulletins containing specific Guide changes with corresponding effective dates, as posted on the AllRegs website.

Chapter 1101: The Guide

1101.1: Introduction to the Guide (06/07/23)

This section provides an overview of the content and organization of the Guide.

The Guide consists of Freddie Mac's requirements relating to the purchase, sale, and Servicing of Mortgages. The Guide's structure reflects how and when Seller/Servicers interact with Freddie Mac and is organized to aid in locating the provisions related to the Seller/Servicer's daily workflow.

(a) Segments

The Guide is grouped into three segments:

- Freddie Mac Seller/Servicer Relationship
- Selling
- Servicing

The Guide's design places the provisions applicable to all Seller/Servicers in one central location (Freddie Mac Seller/Servicer Relationship), and then differentiates between those for selling and Servicing. Although the Guide has distinct Selling and Servicing Segments, there may be information and/or cross references for Servicers in the Selling Segment and for Sellers in the Servicing Segment.

Additionally, the Guide contains exhibits, forms, the Glossary and the Directory.

(b) Series and topics

Within each segment there are three distinct series of topics relating to that segment, totaling nine series. The series of topics within each segment are described below.

Description of Series	Summary of Topics
Freddie Mac Seller/Servicer Relationship	
Series 1000, General Contract Terms Series 1000 covers the contractual relationship between the Seller/Servicer and Freddie Mac.	<ul style="list-style-type: none"> ■ Legal effect of the Guide ■ Freddie Mac policies ■ General Seller/Servicer representation and warranties ■ Electronic transactions ■ Types of Seller purchase contracts
Series 2000, Doing Business with Freddie Mac Series 2000 covers Seller/Servicer eligibility and other requirements for doing business with Freddie Mac.	<ul style="list-style-type: none"> ■ Becoming a Freddie Mac Seller/Servicer ■ Establishing third-party relationships (for example, Document Custodians) ■ Access and use of Freddie Mac systems ■ Disqualifying or suspending a Freddie Mac Seller/Servicer
Series 3000, Risk Management and Remedies Series 3000 covers management of risks related to the purchase and Servicing of Mortgages.	<ul style="list-style-type: none"> ■ Freddie Mac Exclusionary List and FHFA Suspended Counterparty Program ■ Fraud prevention, detection and reporting ■ Mortgage file contents and retention ■ Quality control programs ■ Review of Servicer performance ■ Remedies (including repurchase and termination of Servicing)
Selling	
Series 4000, Mortgage Eligibility Series 4000 covers the eligibility of Mortgages for sale to Freddie Mac.	<ul style="list-style-type: none"> ■ Uniform Instruments ■ General Mortgage eligibility ■ Loan purpose ■ Special Mortgage eligibility requirements ■ Affordable Mortgages and Duty to Serve ■ Special Freddie Mac Mortgage products ■ Insurance requirements

Series 5000, Origination and Underwriting Series 5000 covers underwriting the Borrower and determining the adequacy of the property securing the Mortgage.	<ul style="list-style-type: none"> ■ Determining Borrower eligibility ■ Credit assessment ■ Stable monthly income and asset qualification sources ■ Evaluation of monthly obligations ■ Assets ■ Property eligibility and appraisal requirements ■ Condominium and Cooperative Projects ■ ■ Uniform Closing Dataset ■ Automated income and asset assessment with Loan Product Advisor®
Series 6000, Selling and Delivery Series 6000 covers Freddie Mac Mortgage purchase programs and Mortgage delivery requirements.	<ul style="list-style-type: none"> ■ Cash programs ■ Guarantor and MultiLender Swap Programs ■ Mortgage delivery instructions ■ Assessment and payment of fees ■ Delivery and custody of Mortgage documents ■ Warehouse financing arrangements
Servicing	
Series 7000, Transfers of Servicing Series 7000 covers the process for facilitating Transfers of Servicing.	<ul style="list-style-type: none"> ■ Transfer of Servicing requirements ■ Reporting to Freddie Mac ■ Document Custody transfer
Series 8000, Servicing All Mortgages Series 8000 covers general requirements for Servicing.	<ul style="list-style-type: none"> ■ Day-to-day Servicer responsibilities ■ Investor accounting and remitting ■ Custodial funds management ■ Escrow and insurance ■ Property-related matters ■ Servicer compensation ■ Servicer reports

<p>Series 9000, Servicing Default Management</p> <p>Series 9000 covers Servicing Mortgages in default.</p>	<ul style="list-style-type: none"> ■ Ongoing Servicer responsibilities ■ Collection efforts ■ Alternatives to foreclosure ■ Foreclosure ■ Bankruptcy ■ REO ■ Reimbursement of expenses
---	---

(c) Chapters and sections

Each topic contains at least one chapter, and each chapter contains at least one section. The titles of topics, and chapters and sections within topics, are intended to facilitate navigation and searching capabilities.

(d) Numbering format

The numbering system of the Guide reflects how the provisions are grouped by segment, series and topics.

The format is as follows:

- **XXXX.XX** – The first digit indicates the series number (For example, Series 6000, Selling and Delivery, or Series 5000, Origination and Underwriting)
- **XXXX.XX** – The second digit indicates the topic number, which can have one or many chapters
- **XXXX.XX** – The last 2 digits before the decimal point indicate the chapter number
- **XXXX.XX** – The 2 digits after the decimal indicates the section number

For example, in Section 1101.1:

- **1101.1** – The first “1” represents that this section is located in Series 1000, General Contract Terms
- **1101.1** – The second “1” represents that this section is located in the first topic of Series 1000, Topic 1100 – The Guide
- **1101.1** – The “01” before the decimal point represents that this section is located in the first chapter within Topic 1100, Chapter 1101, The Guide

- 1101.1 – The “1” after the decimal point represents that this is the first section in Chapter 1101, Section 1101.1, Introduction to the Guide.

This numbering can help in locating specific content. For example, these are the steps a Seller/Servicer could take if it wants to locate the Guide requirements about reporting fraud and other Suspicious Activity:

- First, the **segment** should be identified. This is a requirement that applies to both Sellers and Servicers and is contained within the Freddie Mac Seller/Servicer Relationship Segment.
- Second, the **series** should be found. As this is part of risk management, the relevant series is Series 3000, Risk Management and Remedies.
- Next, the **topic** needs to be determined. These requirements are contained within topic 3200: Fraud Prevention, Detection and Reporting; Reporting Other Suspicious Activity.
- Finally, the **chapter and section** within the topic need to be located. In this case, the chapter title mirrors the topic heading, Chapter 3201: Fraud Prevention, Detection and Reporting; Reporting Other Suspicious Activity. The specific provisions about this subject are contained in Section 3201.2: Fraud and other Suspicious Activity reporting requirements.

The numerical reference to this provision, then, is Section 3201.2.

(e) Exhibits, forms, the Glossary and the Directory

The Guide also includes:

- **Exhibits**

Exhibits referenced in the Guide are Freddie Mac exhibits unless otherwise indicated.

- **Forms**

Forms referenced in the Guide are Freddie Mac forms unless otherwise indicated.

- **Glossary**

The Glossary contains definitions of select terms used in the Guide.

- **Directory**

The Directory contains Freddie Mac contact information (addresses, telephone numbers, fax numbers and e-mail addresses) to be utilized for specific questions, requests and

documentation. Guide references to the Directory are indicated with a bolded parenthetical (e.g., “(see **Directory 5**)”).

1101.2: Legal effect of the Guide and other Purchase Documents (04/12/23)

(a) Status as a contract

(i) Effect of the Guide and other Purchase Documents

The Guide governs the business relationship between a Seller/Servicer and Freddie Mac relating to the sale of Mortgages to, and Servicing of such Mortgages for, Freddie Mac. Each Seller/Servicer must complete and submit an Annual Certification Report that certifies that the Seller/Servicer has access to the Guide and complies with all requirements of the Purchase Documents.

In connection with the sale of a Mortgage or pool of Mortgages to Freddie Mac, the Seller/Servicer agrees that each transaction is governed by the Guide, the applicable Purchase Contract and all other Purchase Documents and Seller/Servicer makes all applicable representations and warranties to, and agreements and covenants with, Freddie Mac as set forth in the Purchase Documents.

In connection with the sale of each Mortgage to Freddie Mac, regardless of the Servicing option selected upon a sale of Mortgages to Freddie Mac, a Seller/Servicer agrees to service all such Mortgages that the Seller/Servicer has sold to Freddie Mac in accordance with the requirements set forth in the Seller/Servicer’s Purchase Documents. In addition, as set forth in Guide Section 7101.2 and the applicable Transfer of Servicing agreement, each Transferee Servicer agrees to service all Mortgages related to a Transfer of Servicing in accordance with the requirements set forth in the Transferee Servicer’s Purchase Documents. All of a Seller/Servicer’s obligations to service Mortgages for Freddie Mac constitute, and must be performed pursuant to, the Servicing Contract, and the servicing obligations assumed pursuant to any contract to sell Mortgages to Freddie Mac are merged into and must be performed pursuant to, such Servicing Contract. Upon the Settlement Date of the sale of a Mortgage or group of Mortgages to Freddie Mac, Seller/Servicer agrees, and upon the Effective Date of Transfer of any Transfer of Servicing, Transferee Servicer agrees, that the Servicing Contract and related Servicing Contracts Rights that are the subject of a Concurrent or Subsequent Transfer of Servicing, as well as any proceeds to be paid to the Seller/Servicer as Transferor Servicer for such Transfer of Servicing, are subject to the Lien described in Section 1101.2(c)(vi).

A Seller/Servicer acknowledges that Freddie Mac’s agreement to purchase Mortgages from the Seller/Servicer pursuant to any individual Purchase Contract is based upon the Seller/Servicer’s agreement that the Mortgages purchased will be serviced by such Seller/Servicer pursuant to the Servicing Contract, which Servicing Contract and related

Servicing Contract Rights may be assigned to another Servicer pursuant to a Transfer of Servicing, subject to obtaining Freddie Mac's prior written approval as set forth in Chapter 7101. Under no circumstance does a Seller/Servicer retain any legal ownership of the Servicing Contract or any related Servicing Contract Rights. Freddie Mac acknowledges that a Seller/Servicer may recognize Servicing Contract Rights as assets on its balance sheet in the form of "mortgage servicing rights" in accordance with generally accepted accounting principles (GAAP); however, such recognition as under GAAP does not confer to a Seller/Servicer any legal ownership interest in any Servicing Contract Rights. The Seller/Servicer agrees that any failure to service any Mortgage in accordance with the terms of the Servicing Contract, or any breach of any of the Seller/Servicer's obligations under any aspect of the Servicing Contract, shall be deemed to constitute a breach of the entire contract and shall entitle Freddie Mac to terminate all or a portion of the Servicing Contract and any related Servicing Contract Rights. The termination of a portion of the Servicing Contract shall not alter the unitary, indivisible nature of the Servicing Contract.

If a Servicer that services Mortgages for Freddie Mac is not also the Seller of the Mortgages to Freddie Mac, the Servicer must agree to service Mortgages for Freddie Mac by separate agreement (e.g., Form 960 of Servicing of Single-Family Mortgages or Electronic Agreement for Subsequent Transfer of Servicing of Single-Family Mortgages (STOS Agreement)), which incorporates the applicable Purchase Documents. In such case, the separate agreement shall be deemed to be one of the "Purchase Documents" that constitute the Servicing Contract.

In addition, in certain cases, a Seller and/or Servicer who uses certain Freddie Mac services will, by virtue of the provisions of the Guide, be deemed to have agreed upon certain terms and conditions related to such services and their use.

(ii) Amendments to the Guide

Freddie Mac may, in its sole discretion, amend or supplement the Guide from time to time. Amendments to the Guide may be a paper Record or an Electronic Record, as those terms are defined in Chapter 1401. The Guide may not be amended orally. Freddie Mac may amend the Guide by:

- Publishing Bulletins, which apply to all Sellers/Servicers, or
- Entering into a Purchase Contract or other written or Electronic agreement, which applies to the Seller/Servicer that is a party to the Purchase Contract or agreement

Bulletins expressly amend, supplement, revise or terminate specific provisions of the Guide. An amendment, supplement, revision or termination of a provision in the Guide is effective as of the date specified by Freddie Mac in the applicable Bulletin.

A Purchase Contract or other written agreement or Electronic agreement amends or supplements specific provisions of the Guide for purposes of such Purchase Contract or

other agreement, as applicable. Such amendments or supplements to the Guide are effective as of the date specified in the Purchase Contract or other agreement. See Section 1501.2(d) for information about how amendments and supplements to the Guide amend or otherwise apply to a Seller's Purchase Contracts and other Purchase Documents.

See also Section 1301.9 relating to the Servicer's agreement to comply with any instruction, request or requirement issued by Freddie Mac and Section 9102.1(f) concerning Freddie Mac's right to impose on a Servicer additional Servicing requirements as Freddie Mac deems appropriate.

(iii) Publication of Guide and Bulletins

The Guide is posted on the AllRegs® website of ICE Mortgage Technology, Inc., which operates the AllRegs brand ("AllRegs") and which posts the Guide under license from and with the express permission of Freddie Mac. AllRegs is the exclusive third-party electronic publisher of the Guide. Seller/Servicers also can access the Guide on the AllRegs website by using the link on FreddieMac.com.

Freddie Mac makes no representation or warranty regarding availability, features or functionality of the AllRegs website.

By using the website, Seller/Servicers acknowledge and agree (individually and on behalf of the entity for which they access the Guide) neither Freddie Mac nor AllRegs shall be liable to them (or the entity for which they access the Guide) for any Claims whatsoever resulting directly or indirectly from Freddie Mac's designation of the Guide as found on the AllRegs website as the official Electronic version, as an Electronic Record, and AllRegs expressly disclaims any warranty as to the results to be obtained by Seller/Servicers (and the entity for which Seller/Servicers access the Guide) from use of the AllRegs website, and AllRegs shall not be liable to Seller/Servicers (and the entity for which Seller/Servicers access the Guide) for any damages arising directly or indirectly out of the use of the AllRegs website by them (and the entity for which they access the Guide).

Bulletins are published on AllRegs and FreddieMac.com. A Seller/Servicer with an AllRegs subscription may receive notice of Bulletins directly from AllRegs. If a Seller/Servicer does not receive notice of Bulletins through AllRegs, the Seller/Servicer must take the steps necessary to receive the applicable Freddie Mac Single-Family Update e-mails, which will notify Seller/Servicer of Bulletin publications. A Seller/Servicer's failure to take the appropriate steps to receive notices of Bulletins does not relieve the Seller/Servicer of its legal obligations to comply with the terms of the Bulletins.

(iv)Effective Date

The effective date of each section of the Guide is located at the beginning of each section, to the right of the section number and name.

(b) Reliance

By entering into a Purchase Contract or into the Servicing Contract with Freddie Mac (e.g., in connection with the sale of Mortgages to Freddie Mac or a Concurrent or Subsequent Transfer of Servicing), the Seller/Servicer acknowledges that it is not relying upon Freddie Mac or any employee, agent or representative thereof, in making its decision to enter into the contract and that it has relied upon the advice and counsel of its own employees, agents and representatives as to the regulatory, business, corporate, tax, accounting and other consequences of entering into and performing its obligations under a Purchase Contract or the Servicing Contract.

(c) Assignments; security interests

Except as set forth below, for purposes of this subsection (c), the following terms have the prescribed meanings set forth below or in Exhibit 33, Acknowledgment Agreement Incorporated Provisions, notwithstanding that a Seller/Servicer may not have executed and delivered an Acknowledgment Agreement to Freddie Mac:

- Acknowledgment Agreement
- Collateral
- Conveyance
- Covered Mortgages
- Default – means any misrepresentation or breach of warranty or the failure to observe or perform any covenant or agreement (after the passage of an applicable cure period or the giving of notice to any party, but only to the extent expressly provided in the Guide or any other Purchase Document) in favor of Freddie Mac in the Guide, any other Purchase Document, or the Servicing Contract.
- Freddie Mac Collateral – means all of Seller/Servicer's right and interest in, to, and under all of the following, whether now or hereafter owned, held or acquired and wherever located:
 - (i) the Servicing Contract, including the Servicing Contract Rights;
 - (ii) all books, correspondence, files, data and records, including computer disks and other records or physical or virtual data or information, related to the foregoing (but excluding computer programs); and

(iii) all monies due or to become due to Seller/Servicer relating to any of the foregoing, including, but not limited to, all cashflows derived from the foregoing and all proceeds relating to any of the foregoing.

- Financing
- Financing Documents
- Lien – means any lien, pledge, grant, charge, security interest, security title, Mortgage, hypothecation, option or preferential arrangement which has the practical effect of constituting a security interest or encumbrance or servitude of any kind in respect of any interest or asset to secure or assure payment of any indebtedness or other obligations, including any guaranty, whether by consensual agreement or by operation of statute or other law, or by any agreement, contingent or otherwise, to provide any of the foregoing
- Person
- Secured Obligations – means (i) each and every representation, warranty, covenant and agreement of Seller/Servicer set forth in the Guide, any other Purchase Document, and the Servicing Contract, and (ii) Freddie Mac's Claims
- UCC

(i) General prohibition

A Seller/Servicer shall not enter into a Conveyance agreement or otherwise complete a Conveyance without Freddie Mac's prior written consent. Any purported or attempted Conveyance without Freddie Mac's prior written consent is prohibited and shall be null and void.

(ii) Servicer request for Freddie Mac's consent to a Conveyance regarding Financing

In order to request Freddie Mac's consent to a Conveyance regarding a Financing, a Servicer may send an e-mail to Freddie Mac (**see Directory 1**) with the following information:

- The purpose of the Financing
- A term sheet or draft Financing Documents; and
- Identification of the Covered Mortgages (e.g., all loans serviced under one or more Seller/Servicer number(s) or a loan list that includes the Freddie Mac loan number, Servicer loan number and Seller/Servicer number for each loan in either CSV format or as an MS Excel® spreadsheet, etc.)

Freddie Mac reserves the right to request additional information and documents from the Servicer and its proposed Secured Party (as defined in the Acknowledgment Agreement) concerning the terms and conditions of the Financing. Freddie Mac may require revisions to the Financing Documents and other elements of the Financing as a condition to its consent to the proposed Financing.

For an overview of the operational process related to requesting and obtaining Freddie Mac's consent to a Conveyance regarding Financing, Servicers should review the *Process Overview: Financing Freddie Mac Servicing Contract Rights – Process Overview* available at <https://sf.freddiemac.com/content/assets/resources/fact-sheet/fre-financing-servicing-contract-rights-process-overview-final.pdf>

(iii) Freddie Mac consent to a Conveyance regarding a Financing

Other than a Transfer of Servicing, which requires separate Freddie Mac consent pursuant to Series 7000, or a Seller/Servicer's grant of security interest to Freddie Mac under Section 1101.2(c)(vi), Freddie Mac will indicate its consent to a Conveyance regarding Financing by executing an Acknowledgment Agreement, which also must be executed by the Servicer and its Secured Party (together with any other parties named therein), in a form and substance acceptable to Freddie Mac.

A Servicer's grant to a Secured Party of a security interest in the Servicing Contract Rights, as more specifically defined in the Acknowledgment Agreement, notwithstanding the date, time, method, manner or order of grant, attachment or perfection of any other liens, (i) is subject and subordinate in each and every respect to all rights, powers, and prerogatives of Freddie Mac and the first-priority and continuing Lien of Freddie Mac in the Freddie Mac Collateral, and (ii) may be made only for a purpose as set forth in Exhibit 33 and any other purpose as specified in the Freddie Mac Acknowledgment Agreement provided to the Servicer. Any purported or attempted grant of a security interest in any other rights or interest of the Servicer under the Servicing Contract, or for the purpose of securing any other type of obligation, is prohibited and shall be null and void. In addition, a Servicer's purported or attempted grant to a lender of a security interest in the Servicing Contract Rights without the Servicer and the lender also having executed an Acknowledgment Agreement acceptable to, and executed by, Freddie Mac is prohibited and shall be null and void.

The Collateral encumbered by the Secured Party's security interest must not include (i) servicing advance reimbursement rights, (ii) Borrower payments of principal, interest, or Escrow Funds, (iii) the right to perform Servicing, (iv) the right to designate who may perform the Servicing, (v) the right to terminate the Servicer or the Servicing Contract, or (vi) the right to transfer any of the Collateral. No Financing transaction shall be construed as a division of the Servicing Contract Rights.

A Servicer may make a separate request to Freddie Mac for consent to enter into a financing transaction secured by advance reimbursement rights, defined as an Advance Financing pursuant to Section 9701.23 and Exhibit 103. In no event shall any Advance

Financing be cross-collateralized with any Collateral under any Servicing Contract Rights Financing. Any Collateral under any Servicing Contract Rights Financing is and will continue to be at all times separate and distinct from any and all collateral under any Advance Financing.

(iv) Unauthorized Conveyances

Any unauthorized Conveyance constitutes grounds for suspension (to the extent such Secured Party is a Freddie Mac Seller/Servicer) or disqualification of both the Seller/Servicer and the purported Secured Party as Seller/Servicers. In addition, Freddie Mac may exercise any of its other rights under the Purchase Documents. An unauthorized Servicer's Conveyance without Freddie Mac's written consent as set forth in an Acknowledgment Agreement consistent with the requirements of this section and Exhibit 33 will result in the assessment of a compensatory fee determined by Freddie Mac not to exceed 1% of Freddie Mac's share of the UPB of the Mortgages that were related to the unauthorized Conveyance. The imposition of this compensatory fee does not limit Freddie Mac's rights to exercise any of its other rights under the Purchase Documents including, but not limited to, suspension (to the extent such Secured Party is a Freddie Mac Seller/Servicer) or disqualification of both the Seller/Servicer and its purported Secured Party as Seller/Servicers. If an unauthorized Conveyance occurs, the Servicer and purported Secured Party, to the extent such Secured Party is a Freddie Mac Seller/Servicer, are jointly and severally liable to Freddie Mac with respect to Claims incurred by Freddie Mac arising out of or related to the unauthorized Conveyance. In the event that the Secured Party involved in an unauthorized Conveyance is not a Freddie Mac Seller/Servicer, Freddie Mac reserves the right to add such Secured Party to the Freddie Mac Exclusionary List per Section 3101.1.

(v) Freddie Mac's rights to assign its rights and interests

Freddie Mac has the unconditional right to sell, assign, convey, hypothecate, pledge or in any way transfer, in whole or in part, its rights and interest under the Purchase Documents with respect to any Mortgage it purchases. Freddie Mac has the right to direct the Servicer to send remittances, notices, reports and other communications to any party designated by Freddie Mac and may designate any such party to exercise any and all of Freddie Mac's rights hereunder.

(vi) Seller/Servicers grant of a security interest to Freddie Mac

- (a) Seller/Servicers hold, and may hold in the future, Servicing Contract Rights related to the Servicing Contract it has entered into, and continues to enter into, with Freddie Mac upon the sale of loans to Freddie Mac and/or in connection with the entry into the Servicing Contract and assumption of the Servicing Contract Rights as a Transferee Servicer in connection with a Transfer of Servicing. Upon (1) a Seller's sale of loans to Freddie Mac through Loan Selling Advisor®, (2) a Transferee Servicer's entry into the Servicing Contract and assumption of the Servicing Contract Rights in connection with a Transfer of Servicing, or (3) in

connection with any Servicer's continuing Servicing of Mortgages by virtue of such Servicer's access to any Freddie Mac system via Servicing Gateway, each Seller/Servicer agrees to the provisions of this Section 1101.2(c)(vi).

- (b) Seller/Servicer pledges its Servicing Contract Rights and the other Freddie Mac Collateral to Freddie Mac, as security for the prompt payment and/or performance by Seller/Servicer of the Secured Obligations.
- (c) Seller/Servicer's agreement to the provisions of this Section 1101.2(c)(vi) is a material inducement to Freddie Mac permitting or continuing to permit the Seller/Servicer to (i) sell Mortgages to Freddie Mac under the Purchase Documents, (ii) perform Servicing of the Mortgages pursuant to the Servicing Contract, and (iii) generally conduct business with Freddie Mac.
- (d) Seller/Servicer pledges, hypothecates, assigns, transfers, sets over and delivers unto Freddie Mac all its right and interest to, and hereby grants to Freddie Mac a first-priority and continuing Lien on, all of Seller/Servicer's right and interest in, to, and under the Freddie Mac Collateral.
- (e) The Lien created under this Section 1101.2(c)(vi) is granted to Freddie Mac, to secure the prompt performance and payment in full of all of the Secured Obligations.
- (f) Seller/Servicer authorizes Freddie Mac and its designees, attorneys and agents to file (at Seller/Servicer's expense, at any time (whether such filing has previously occurred or will occur in the future) and in each jurisdiction deemed necessary or appropriate by Freddie Mac, including without limitation, Seller/Servicer's State of formation, a financing statement naming Seller/Servicer as debtor and Freddie Mac as secured party and describing the Freddie Mac Collateral, including amendments and continuation statements) to perfect, protect, or more fully evidence Freddie Mac's first-priority Lien in the Freddie Mac Collateral. Seller/Servicer agrees to promptly notify Freddie Mac in writing of any change in (i) its legal name, (ii) its identity or type of organization or corporate structure, (iii) the jurisdiction of its organization, or (iv) Seller/Servicer's chief executive office, principal place of business, or location of its books and records relating to the Freddie Mac Collateral, in each case, in accordance with the timeframes set forth in Section 2101.12. Seller/Servicer agrees to promptly pay the expense of such filings as set forth on invoices to be sent to Seller/Servicer from time to time and, to the extent not paid, the expenses shall become Freddie Mac's Claims.
- (g) In furtherance of this Section 1101.2(c) and the further assurances provided by Seller/Servicer to Freddie Mac pursuant to Section 3601.1, and only if specifically requested by Freddie Mac, Seller/Servicer shall execute and deliver to Freddie Mac, within five (5) Business Days of such request, a stand-alone pledge and security agreement, in the form of Exhibit 105, Pledge and Security Agreement, further evidencing the Seller/Servicer's grant of a Lien to Freddie Mac in the Freddie Mac

Collateral, consistent with purposes of this Section 1101.2(c)(vi), and with such state-specific revisions as necessary as to Seller/Servicer's jurisdiction of its organization. Notwithstanding the foregoing, any executed pledge and security agreement delivered to Freddie Mac, now or in the future, shall remain enforceable in all respects regardless of whether Freddie Mac specifically requested the document or not.

(h) **Freddie Mac's Appointment as Attorney-In-Fact; Lien.**

- i. Seller/Servicer irrevocably constitutes and appoints Freddie Mac, and any officer or agent thereof, with full power of substitution, as its true and lawful attorney-in-fact with full irrevocable power and authority in the place and stead of Seller/Servicer and in the name of Seller/Servicer or in its own name, from time to time in Freddie Mac's discretion, if a Default shall have occurred and be continuing, to take any and all appropriate action and to execute and deliver any and all documents and instruments which may be necessary or desirable to accomplish the purposes of this Section 1101.2(c)(vi) and, without limiting the generality of the foregoing, Seller/Servicer gives Freddie Mac the power and right, on behalf of Seller/Servicer, without assent by, but with notice to, Seller/Servicer, if a Default shall have occurred and be continuing, to do the following:
 1. in the name of Seller/Servicer or its own name, or otherwise, to take possession of and endorse and collect any checks, drafts, notes, acceptances or other instruments for the payment of moneys due with respect to any Freddie Mac Collateral and to file any claim or to take any other action or proceeding in any court of law or equity or otherwise deemed appropriate by Freddie Mac for the purpose of collecting any and all such moneys due with respect to any Freddie Mac Collateral whenever payable; and
 2. (i) to direct any party liable for any payment under any Freddie Mac Collateral to make payment of any and all moneys due or to become due thereunder directly to Freddie Mac or as Freddie Mac shall direct; (ii) to demand and collect any and all moneys, claims and other amounts due or to become due at any time in respect of or arising out of any Freddie Mac Collateral; (iii) to sign and endorse any invoices, assignments, verifications, notices and other documents in connection with any Freddie Mac Collateral; (iv) to commence and prosecute any suits, actions or proceedings at law or in equity in any court of competent jurisdiction to collect the Freddie Mac Collateral or any part thereof and to enforce any other right in respect of any Freddie Mac Collateral; (v) in connection with the above, to give such discharges or releases as Freddie Mac may deem appropriate; and (vi) generally, to sell, transfer, pledge and make any agreement with respect to or otherwise deal with any of the Freddie Mac Collateral as fully and completely as though Freddie Mac were the absolute owner thereof for all purposes, and to do, at Freddie Mac's option and Seller/Servicer's expense,

at any time, or from time to time, all acts and things which Freddie Mac deems necessary to protect, preserve or realize upon the Freddie Mac Collateral and the Lien of Freddie Mac thereon and to effect the intent of this Section 1101.2(c)(vi), all as fully and effectively as Seller/Servicer might do.

- ii. In furtherance of the foregoing, Seller/Servicer shall execute and deliver to Freddie Mac, within one (1) Business Day of a request by Freddie Mac, documentation further evidencing the limited power of attorney granted pursuant to this Section 1101.2(c)(vi), in such a form as set forth in Section 2.21(c) of Exhibit 33, and with such revisions as necessary to be enforceable in the applicable jurisdiction. Seller/Servicer ratifies all that said attorneys shall lawfully do or cause to be done by virtue of this Section 1101.2(c)(vi). The power of attorney is a power coupled with an interest and is irrevocable.
- iii. Seller/Servicer authorizes Freddie Mac, at any time and from time to time, to execute, in connection with any sale or assignment, as applicable, provided for in this Section 1101.2(c), any endorsements, assignments or other instruments of conveyance or transfer reasonably required with respect to the Freddie Mac Collateral.
- iv. The powers conferred on Freddie Mac under this Section 1101.2(c)(vi) are solely to protect Freddie Mac's first-priority Lien in the Freddie Mac Collateral and shall not impose any duty upon Freddie Mac to exercise any such powers. Freddie Mac shall be accountable only for amounts that it receives as a result of the exercise of such powers, and neither Freddie Mac nor any of its officers, directors, or employees shall be responsible to Seller/Servicer for any act or failure to act under this Section 1101.2(c)(vi). The powers conferred on Freddie Mac under this Section 1101.2(c)(vi) shall be deemed to be in addition to, and shall not limit the scope of, any power of attorney granted by Seller/Servicer to Freddie Mac in the Guide, in connection with any Acknowledgment Agreement or in any other power of attorney.

(i) **Remedies for Default of this Section 1101.2.**

- i. Seller/Servicer agrees upon the occurrence of any Default under this Section 1101.2(c)(vi) that is continuing, Freddie Mac, in addition to all other rights and remedies under the Guide and the other Purchase Documents or otherwise, shall have the right to require Seller/Servicer to assemble at Seller/Servicer's expense all of the Freddie Mac Collateral in its possession and shall have all the rights and remedies provided under applicable law, which rights shall be cumulative and shall be exercised at Freddie Mac's sole discretion. All actual out-of-pocket costs incurred by Freddie Mac in the collection of Seller/Servicer's obligations pursuant to this Section 1101.2(c)(vi) and the other Purchase Documents, and the enforcement of its rights under this Section 1101.2(c)(vi), including reasonable attorneys' fees, court costs, and other expenses and the reasonable

fees and expenses of accountants, investment banks and any other experts reasonably engaged by Freddie Mac to assist it with the enforcement of remedies under this Section 1101.2 (c)(vi)(i), shall be paid out of the Freddie Mac Collateral prior to the payment of any other amounts due as provided in this Section 1101.2(c)(vi). Any sale or assignment, as applicable, of the Freddie Mac Collateral pursuant to applicable law shall be conducted in a commercially reasonable manner and in accordance with applicable law. Seller/Servicer acknowledges to the extent notice of sale or assignment, as applicable, shall be required by applicable law, at least ten (10) calendar days' notice to Seller/Servicer of the time and place of any public sale or assignment, as applicable, or the time after which any private sale or assignment, as applicable, is to be made shall constitute reasonable notice, but notice given in any other reasonable manner or at any other reasonable time shall also constitute reasonable notification. Seller/Servicer agrees that in any sale or assignment, as applicable, of any of the Freddie Mac Collateral, Freddie Mac is hereby authorized to comply with any limitation or restriction in connection with such sale or assignment, as applicable, (A) as it may be advised by counsel is necessary in order to avoid any violation of applicable law, rule or regulation, the Guide, the other Purchase Documents, and/or the Servicing Contract, or (B) in order to obtain any required approval of the sale or assignment, as applicable, or of the purchaser or Transferee Servicer by any governmental authority (including, without limitation, compliance with such procedures as may restrict the number of prospective bidders and purchasers or Transferee Servicers, require that such prospective bidders and purchasers or Transferee Servicers have certain qualifications, including, but not limited to, that any potential purchaser or Transferee Servicer be an approved Freddie Mac Single-Family Seller/Servicer and restrict such prospective bidders and purchasers or Transferee Servicers to Persons who will represent and agree that they are purchasing or assuming for their own account for investment and not with a view to the distribution or resale or reassignment of such Freddie Mac Collateral, as applicable), and Seller/Servicer further agrees that such compliance shall not result in such sale or assignment, as applicable, being considered or deemed not to have been made in a commercially reasonable manner. Freddie Mac shall not be liable for any sale or assignment, as applicable, private or public, conducted in accordance with this Section 1101.2(c)(vi). All proceeds from each sale or assignment, as applicable, of, or other realization upon, all or any part of the Freddie Mac Collateral following a Default shall be applied to Freddie Mac's Claims subject to the payment or reimbursement of Freddie Mac's out-of-pocket costs as set forth above (with Seller/Servicer being liable for any deficiency) with the balance (if any), paid to whomsoever is entitled thereto in accordance with the terms and provisions of this Section 1101.2(c)(vi) and applicable law.

- ii. Freddie Mac may, in addition to and not in abrogation of the rights set forth in this Section 1101.2(c)(vi) and the Purchase Documents, proceed by a suit or suits in law or in equity or by any other appropriate proceeding or remedy to

either (A) specifically enforce payment or the performance of any term, covenant, condition or agreement of this Section 1101.2(c)(vi) or any other right, and/or (B) pursue any other remedy available to it, all as Freddie Mac determines at its sole discretion.

- iii. Seller/Servicer waives any right to require any marshaling of assets and any similar right

(j) **Representations and Warranties.** Seller/Servicer represents and warrants to Freddie Mac as follows:

- i. Formation. Seller/Servicer is duly organized or chartered and validly existing in the State of its formation or validly chartered under applicable federal law. The correct legal name of Seller/Servicer and Seller/Servicer's place of formation are set forth in Seller/Servicer's annual certification documents submitted to Freddie Mac pursuant to Section 2101.10.
- ii. Liens. None of the Freddie Mac Collateral is subject or will be subject to any Lien or to any agreement purporting to grant to any third party a security interest or lien in any or all of the Freddie Mac Collateral, except for the Lien granted under this Section 1101.2(c) and the rights of Freddie Mac pursuant to the Guide and the other Purchase Documents, and only to the extent applicable, a grant of a subordinate lien expressly made pursuant to an executed and delivered Acknowledgment Agreement. Seller/Servicer represents and warrants that the Lien in, the pledge of, and the assignment and delivery of (if applicable), the Freddie Mac Collateral under this Section 1101.2(c) creates a valid, perfected (upon the filing of a financing statement), first-priority Lien in favor of Freddie Mac in and to the Freddie Mac Collateral.
- 1. Chief Executive Office. The chief executive office and principal place of business of Seller/Servicer and the location of Seller/Servicer's books and records relating to the Freddie Mac Collateral have been previously provided to Freddie Mac pursuant to Seller/Servicer's annual certification documents submitted to Freddie Mac pursuant to Guide Section 2101.10.
- 2. Authority, etc. Seller/Servicer has the requisite organizational power and authority to pledge and grant a Lien in the Freddie Mac Collateral in the manner done or contemplated under this Section 1101.2(c)(vi).
- 3. No Violation. The agreement by Seller/Servicer under, and performance of the Seller/Servicer pursuant to, this Section 1101.2(c)(vi) and the exercise by Freddie Mac of its rights and remedies under this Section 1101.2(c)(vi) do not and will not result in the violation of the organizational documents of Seller/Servicer or any agreement, indenture or instrument, any license, judgement, decree, order, law, statute or other governmental rule or regulation

4. No Approval. No consent, filing, approval, registration or recording is required (i) for the pledge by Seller/Servicer of the Freddie Mac Collateral pursuant to this Section 1101.2(c)(vi) or (ii) to perfect the Lien created by this Section 1101.2(c)(vi), except for the filing of a UCC-1 financing statement (which Seller/Servicer consents to such filing by Freddie Mac pursuant to this Section 1101.2(c)(vi)).
- (k) **Covenants.** Seller/Servicer unconditionally covenants and agrees as follows as to the Freddie Mac Collateral:
- i. Defending Title to Freddie Mac Collateral. Seller/Servicer covenants and agrees, at its sole cost and expense, that it will defend Freddie Mac's right, title, and Lien in and to the Freddie Mac Collateral and the proceeds thereof against the claims and demands of all Persons whomsoever
 - ii. Books and Records. Seller/Servicer shall keep accurate, complete and adequate books and records relating to the Freddie Mac Collateral, the Mortgages, the Servicing Contract, and the Purchase Documents in accordance with the Servicing Contract, the Guide and the other Purchase Documents
- (l) **Reimbursement of Freddie Mac.** In addition to any other rights to reimbursement provided by this Guide, Seller/Servicer agrees to pay upon demand to Freddie Mac the amount of any and all reasonable expenses, including reasonable attorneys' fees and the reasonable disbursements and other charges of its counsel and of any experts or agents, that Freddie Mac may incur in connection with (i) the administration of this Section 1101.2(c) including, but not limited to, the actual cost of filing a financing statement in connection with the pledge granted under this Section 1101.2(c) to protect Freddie Mac's rights in the Freddie Mac Collateral, (ii) the custody or preservation of, or any sale or assignment, as applicable, of, collection from, or other realization upon any of the Freddie Mac Collateral, (iii) the exercise or enforcement of any of the rights of Freddie Mac under the Guide and applicable Purchase Documents, and (iv) the failure by Seller/Servicer to perform or observe any of the provisions of this Section 1101.2(c). Any such amounts payable as provided under this Section 1101.2(c) shall be additional Secured Obligations.
- (m) **Indemnification.** Seller/Servicer agrees to indemnify and hold Freddie Mac and any entity controlling, controlled by, or under common control with Freddie Mac and any officer, attorney, director, shareholder, agent or employee of Freddie Mac or any such entity (each an "**Indemnified Person**"), harmless from and against any Claims, brought against or incurred by an Indemnified Person, in any manner arising out of or, directly or indirectly, related to or connected with this Section 1101.2(c), including the exercise by Freddie Mac of any of its rights and remedies under this Section 1101.2(c) or any other action taken by Freddie Mac pursuant to the terms of this Section 1101.2(c); *provided, however,* Seller/Servicer shall not be

liable to an Indemnified Person for any Claims to the extent that such Claims are solely and directly the result of the gross negligence or willful misconduct of such Indemnified Person as determined by a final non-appealable order from a court of competent jurisdiction. Seller/Servicer's obligations under this Section 1101.2(c) shall survive the payment in full of the Secured Obligations.

- (n) **Continuing Lien.** Seller/Servicer and Freddie Mac agree that the Lien created by this Section 1101.2(c) in the Freddie Mac Collateral shall not terminate and shall continue and remain in full force and effect until released by Freddie Mac in writing as determined by Freddie Mac in its sole and absolute discretion.
- (o) **Cumulative Rights; No Waiver.** Notwithstanding anything in this Section 1101.2(c) to the contrary, all of Freddie Mac's rights and remedies provided in the Guide or any other Purchase Document together with those granted by law or at equity, are cumulative and may be exercised by Freddie Mac at any time and from time to time. Freddie Mac's exercise of any right or remedy shall not constitute a cure of any Default, unless all sums then due and payable to Freddie Mac under this Section 1101.2(c) are repaid and Seller/Servicer has cured all other Defaults. Neither the failure on the part of Freddie Mac to exercise, nor the delay on its part in exercising any right, power or remedy hereunder, nor any course of dealing between Freddie Mac and Seller/Servicer shall operate as a waiver or modification thereof, nor shall any single or partial exercise of any such right, power, or remedy hereunder preclude any other or the further exercise thereof or the exercise of any other right, power or remedy.

(vii) Release of the security interest granted to Freddie Mac

- (a) Solely as it relates to a Transferor Servicer in connection with a Freddie Mac-approved Transfer of Servicing (including a VPC Transfer of Servicing or Flow VPC Transfer of Servicing as defined in Exhibit 30 or Exhibit 31, respectively), effective as of the Effective Date of Transfer, and without the need for any action by any Person or Freddie Mac, Freddie Mac shall be deemed to automatically release (in each case, a "Freddie Mac Partial Release") its Lien in the Freddie Mac Collateral pertaining to Transferor Servicer's Servicing Contract Rights subject to the Transfer of Servicing. For the avoidance of doubt, to the extent an unauthorized transfer of servicing occurs as to any of Transferor Servicer's Servicing Contract Rights, Freddie Mac shall retain its Lien in all Freddie Mac Collateral, including, without limitation, any "Proceeds" as defined under the UCC in connection with such unauthorized transfer of servicing pertaining to such Servicing Contract Rights. Notwithstanding the occurrence of any Freddie Mac Partial Release, Freddie Mac shall continue to retain any and all of its rights against Seller/Servicer pursuant to the Guide and the Purchase Documents, at law or in equity, and no Freddie Mac Partial Release shall be

deemed a waiver, release, discharge, impairment or otherwise affect Seller/Servicer's obligations to Freddie Mac pursuant to the Guide and the other Purchase Documents.

- i. In the event that Transferor Servicer desires that a UCC financing statement filed in connection with this Section 1101.2(c) be terminated, Transferor Servicer must send a written request to Freddie Mac for authorization for Transferor Servicer to file, at Transferor Servicer's sole cost and expense, such UCC termination statement. Following the filing by Transferor Servicer of such Freddie Mac-authorized UCC termination statement, Transferor Servicer will promptly provide evidence of such filing to Freddie Mac.
- (b) Solely as it relates to a Transferee Servicer in connection with a Transfer of Servicing, effective as of the Effective Date of Transfer, such Transferee Servicer shall be deemed, automatically, without the need for any action by Freddie Mac or Seller/Servicer pursuant to this Section 1101.2(c), to have granted to Freddie Mac a Lien in the Freddie Mac Collateral pertaining to Transferee Servicer's Servicing Contract Rights subject to the Transfer of Servicing.

(d) Notice

(i) Seller/Servicer notices to Freddie Mac

Except as otherwise provided in the Guide or other Purchase Documents, any communication, advice, consent, document, notice or direction given, made, sent or withdrawn by the Seller/Servicer pursuant to the Purchase Documents must be in writing and will be deemed to have been duly given to and received by Freddie Mac on the day such communication, advice, consent, document, notice or direction is actually received by Freddie Mac at the address specified below:

Address: In writing to Freddie Mac (**see Directory 1**) by first class mail

Other addresses may be substituted for the above upon notice of the substitution.

(ii) Freddie Mac notices to Seller/Servicer

Any communication, advice, consent, document, notice or direction given, made, sent or withdrawn by Freddie Mac pursuant to the Purchase Documents may be in writing or may be in electronic form in accordance with Chapter 1401. Such notice will be deemed to have been duly given to the Seller/Servicer on the date such communication, advice, consent, document, notice or direction is:

- Received in writing by first class mail by the Seller/Servicer at the address set forth in the Purchase Documents, or

- Received in electronic form (e-mail) as an Electronic Record by the Seller/Servicer's computer information processing system at its internet e-mail address provided to Freddie Mac by the Seller/Servicer, or
- Received in electronic form (facsimile) as a Record or Electronic Record by the Seller/Servicer's electronic facsimile machine or system at the facsimile telephone number provided to Freddie Mac by the Seller/Servicer

Other addresses may be substituted for the above upon notice of the substitution.

(e) Severability

If any provision of this Guide shall be held invalid, the legality and enforceability of all remaining provisions shall not in any way be affected or impaired thereby, and this Guide shall be interpreted as if such invalid provision were not contained herein.

(f) Defined terms

Initial capitalization of words in the Guide generally denotes terms that are defined in (i) the Glossary, (ii) the chapter in which capitalized words appear, or (iii) an expressly referenced chapter.

(g) Construction of the Guide

This Guide shall not be construed against Freddie Mac as being the drafter hereof.

(h) Entire agreement

This Guide, including the exhibits attached to the Guide and all Purchase Documents incorporated by reference in the Guide, constitutes the entire understanding between Freddie Mac and the Seller/Servicer and supersedes all other agreements, covenants, representations, warranties, understandings and communications between the parties, whether oral or written or Electronic, with respect to the transactions contemplated by the Guide.

(i) Governing law

This Guide shall be construed, and the rights and obligations of Freddie Mac and the Seller/Servicer hereunder determined, in accordance with the laws of the United States. Insofar as there may be no applicable precedent, and insofar as to do so would not frustrate any provision of this Guide or the transactions governed thereby, the laws of the State of New York shall be deemed reflective of the laws of the United States.

(j) Copyright

The Guide (including related supplements and Bulletins) and Industry Letters are copyrighted. Limited permission to reproduce the Guide is granted to Seller/Servicers strictly

for their own use in originating and selling Mortgages to, and in Servicing Mortgages for, Freddie Mac. No part of the Guide may be reproduced for any other reason (in any form or by any means) without the express written permission of Freddie Mac. Requests for such permission to reproduce the Guide must be sent to Freddie Mac (**see Directory 1**).

Requests will be reviewed and answered by Freddie Mac in the ordinary course of business.

Freddie Mac reserves the right to revoke permission to reproduce the Guide upon 60 days' notice to any and all Seller/Servicers. Under no circumstances will Freddie Mac permit the Guide to be reproduced by any Electronic or mechanical means, including, but not limited to, reproduction in, or as a component of, any information storage and retrieval system.

(k) Headings and design features

Headings and design features are written for convenience of reference only and do not constitute a part of this Purchase Document.

1101.3: Occurrence of a Claims Event; resulting liability immediately due and owing to Freddie Mac (10/12/22)

Upon the occurrence of any Claims Event, all of Freddie Mac's Claims related to the Seller/Servicer shall be deemed immediately and automatically due and payable, without the need for further action by Freddie Mac or any other party. The calculation of Freddie Mac's Claims shall be conclusive absent manifest error.

With respect to those Claims Events for which Freddie Mac's approval or consent is required, a Seller/Servicer must pay, unconditionally and in full, any and all of Freddie Mac's Claims as a condition to receipt of Freddie Mac's approval of or consent to such Claims Event, if applicable; provided, however, that Freddie Mac may at any time expressly waive or defer such payment obligation in writing in its sole and absolute discretion.

Chapter 1201: General Freddie Mac Policies

1201.1: Objective of Freddie Mac's purchase programs (03/02/16)

Freddie Mac was created by Congress in 1970 to stabilize the nation's residential mortgage markets and expand opportunities for homeownership and affordable rental housing (Federal Home Loan Mortgage Corporation Act, 12 U.S.C. 1451 et. seq.). Freddie Mac's public mission is to provide liquidity, stability and affordability to the United States housing market. Freddie Mac does this primarily by purchasing residential Mortgages originated by mortgage lenders. In most instances, Freddie Mac packages these Mortgages into mortgage-related securities, which are guaranteed by Freddie Mac and sold in the global capital markets. Freddie Mac also invests in Mortgages and mortgage-related securities. Freddie Mac does not originate Mortgages or lend money directly to consumers.

Freddie Mac supports the United States housing market and the overall economy by:

- Providing America's families with access to mortgage funding at lower rates
- Helping distressed borrowers keep their homes and avoid foreclosure, and
- Providing consistent liquidity to the multifamily mortgage market, which includes providing financing for affordable rental housing

Freddie Mac is also working with the FHFA, Freddie Mac's customers and the industry to build a stronger housing finance system for the nation.

1201.2: Overview of Freddie Mac's purchase programs (04/12/23)

Freddie Mac purchase programs provide for the purchase of conventional Home Mortgages on a whole loan basis. Freddie Mac does not set a minimum loan amount for purchases and encourages the Seller to make loans of any amount.

Mortgages under all purchase programs are purchased by Freddie Mac on a Required Net Yield basis to Freddie Mac. Freddie Mac compensates Seller/Servicers for Servicing Mortgages in an amount equal to the amount of interest payments received on the Mortgages that is over and above the Required Net Yield and authorizes Seller/Servicers to retain such compensation out of such interest payments. Under no circumstance does a Seller/Servicer retain any legal ownership in any portion of the interest due or received under a Mortgage that is owned by Freddie Mac. When a Mortgage is purchased, the Seller must select a Minimum Servicing Spread in an amount that provides adequate Servicing compensation to the Seller/Servicer.

Freddie Mac reserves the right to supplement, modify or terminate any purchase program at any time without prior notice.

1201.3: Characterization and nature of Mortgage purchase transactions (04/12/23)

The Seller and Freddie Mac agree that each and every Mortgage purchase and sale transaction entered into under the Purchase Documents (including, without limitation, any purchase and sale under the Cash, Guarantor or MultiLender Swap programs) — whether sold with or without recourse — is expressly intended by the Seller and Freddie Mac:

- To be construed as the Seller's sale, transfer, conveyance and delivery of all such Mortgages to Freddie Mac, and
- To be construed as Freddie Mac's purchase and receipt of such Mortgages, and
- Not to be construed as the Seller's pledge to secure a debt or any other obligation

The Seller and Freddie Mac intend for the sale, transfer, conveyance and delivery of all Mortgages to Freddie Mac by the Seller to be true, absolute and unconditional sales conveying all of the Seller's right, title and interest in and to the Mortgages and all proceeds from the Mortgages. The Seller represents and warrants to, and covenants and agrees with Freddie Mac, that it does not retain any rights or legal ownership interests in the Mortgages it sells to Freddie Mac or in any payment due under or proceeds from such Mortgages, including, but not limited to, (i) any portion of the interest due or received under such Mortgages or (ii) the Servicing Contract Rights. Freddie Mac acknowledges that a Seller/Servicer may recognize Servicing Contract Rights as assets on its balance sheet in the form of "mortgage servicing rights" in accordance with generally accepted accounting principles (GAAP); however, such recognition as under GAAP does not confer any legal ownership interest in any Servicing Contract Rights or the Mortgage.

If despite the intent of the Seller and Freddie Mac, the Mortgages (or any of them) are determined to be property of the Seller (i.e., the sale was not a true sale), Freddie Mac and the Seller agree that:

- The Purchase Documents created a security agreement within the meaning of the Uniform Commercial Code (UCC) in effect in the applicable State, conveying to Freddie Mac a security interest in all of the Seller's right, title, and interest in and to the Mortgage and all proceeds from the Mortgage
- Freddie Mac is the secured party under such security agreement

- The possession by Freddie Mac or its designee (including, without limitation, any applicable Document Custodian) of the Notes (and any related documents) shall be deemed to be possession by the secured party for purposes of perfecting the security interest pursuant to the UCC
- The Seller shall assist Freddie Mac with any reasonable actions necessary to ensure that Freddie Mac receives a perfected security interest of first priority under applicable law; and
- Freddie Mac will have all of the rights and remedies of a secured party and creditor under the UCC and may execute and file UCC financing statements as reasonably necessary

1201.4: Limitation on Mortgage purchases and commitments (03/02/16)

(a) Limitation on number and amount of Mortgage purchases and commitments

Freddie Mac reserves the right to:

- Limit the number and/or aggregate dollar amount of Mortgage commitments it will accept from any Seller. Maximums are subject to change by Freddie Mac at any time without prior notice or publication
- Establish the Maximum Annual Mortgage Purchase Amount that Freddie Mac will purchase from a Seller in any calendar year. Freddie Mac will notify a Seller in writing if Freddie Mac has established a Maximum Annual Mortgage Purchase Amount for that Seller for that calendar year and will inform the Seller of the maximum amount for that year. The Maximum Annual Mortgage Purchase Amount will not be adjusted by a purchase tolerance, and the purchase tolerances in Section 6401.1 will not apply to the Maximum Annual Mortgage Purchase Amount.
- Limit the number and/or aggregate dollar amount of Home Mortgages it will purchase in any subdivision, tract, Condominium Project, Planned Unit Development (PUD), or ground lease community
- Establish maximum Mortgage purchase amounts for time frames other than one year
- Establish maximum purchase amounts for specific types of Mortgages based on Mortgage characteristics or any other basis Freddie Mac deems appropriate, at its sole discretion
- Establish minimum Mortgage purchase amounts

(b) Review of aggregate purchase amount

If Freddie Mac has established a Maximum Annual Mortgage Purchase Amount with respect to the Seller, Freddie Mac will, after a commitment has been made, review the aggregate amount of Mortgages purchased from the Seller to date in the current calendar year. Freddie Mac will notify the Seller if the contract commitment amount stated in the Purchase Contract, when added to the aggregate amount of Mortgage purchases to date from the Seller for that calendar year, would cause the Seller to exceed the Maximum Annual Mortgage Purchase Amount established for the Seller. In such case, Freddie Mac, in its sole and absolute discretion, may purchase Mortgages from the Seller in an amount that exceeds the Seller's Maximum Annual Mortgage Purchase Amount or may rescind, in whole or in part, any Purchase Contract (including any Purchase Contract entered into by any other Freddie Mac authorized method) that will result in the Seller's exceeding its Maximum Annual Mortgage Purchase Amount. The Seller agrees that any such rescission shall be made without the payment by Freddie Mac of any Seller claims.

1201.5: Servicing in accordance with Purchase Documents (03/02/16)

Mortgages purchased by Freddie Mac must be serviced by a Servicer in accordance with applicable law and the applicable Purchase Documents. For performing Servicing duties, Freddie Mac will compensate the Servicer in accordance with Chapter 8103.

Freddie Mac reserves the right to refuse to purchase any Mortgage that, in its sole discretion, Freddie Mac determines cannot be adequately serviced by the Seller (if also a Servicer), its assignee or its duly authorized Servicing Agent.

1201.6: Transfer costs (03/02/16)

The Seller agrees to pay documentary stamp taxes, recording fees, transfer taxes and all other expenses payable in connection with Mortgages purchased by Freddie Mac.

1201.7: Sale of Mortgages by Freddie Mac (04/12/23)

Freddie Mac may, from time to time, sell in whole or in part Mortgages it has purchased pursuant to the Purchase Documents.

For information regarding a termination of the Servicing Contract and related Servicing Contract Rights related to the sale of Mortgages by Freddie Mac, refer to Section 3603.6.

1201.8: Receipt and treatment of confidential information (04/12/23)

(a) Receipt and treatment of Freddie Mac confidential information

In connection with its relationship with Freddie Mac, Seller/Servicer may obtain, or Freddie Mac may provide the Seller/Servicer with, information and documentation that Freddie Mac identifies or has identified as confidential (collectively, “Freddie Mac confidential information”). Freddie Mac confidential information may include, but is not limited to, information and documentation concerning the development, negotiation, operation or terms of various products or programs, technology, business terms, trade secrets and commercial and financial information. In addition, information that Seller/Servicer is required by applicable law to treat as confidential, and information that Seller/Servicer knows or should know should be treated as confidential are considered Freddie Mac confidential information, whether or not Freddie Mac has identified the information as confidential. All information and materials that are based on, or include, Freddie Mac confidential information (“derivative information”), including without limitation, information and materials created by Seller/Servicer, are also considered Freddie Mac confidential information. Confidential information may include confidential information belonging to third parties.

(i) Treatment of Freddie Mac confidential information

The Seller/Servicer must treat all Freddie Mac confidential information as strictly confidential and proprietary to Freddie Mac. The Seller/Servicer must not release or disclose or permit the release or disclosure of Freddie Mac confidential information, or any portion thereof, for any purpose at any time except to the following extent (the “Permitted Purposes”):

- Allowed by this Section 1201.8
- Expressly required or consented to by Freddie Mac in writing, or
- Ordered by a court or administrative agency of competent jurisdiction

In the event the Seller/Servicer anticipates that it may be required, for any reason, to release or disclose Freddie Mac confidential information (other than as allowed in the first two bullets of the preceding sentence), the Seller/Servicer shall immediately notify Freddie Mac (**see Directory 1**), and provide reasonable cooperation to Freddie Mac, to allow Freddie Mac to take any actions it deems necessary to prevent or limit the release or disclosure of the Freddie Mac confidential information in question.

(ii) Copies of Freddie Mac confidential information

The Seller/Servicer shall not copy or permit copies to be made of the Freddie Mac confidential information or any portion thereof, except to the extent necessary for the

Permitted Purposes. The Seller/Servicer shall mark “Confidential” in a prominent location on all Freddie Mac confidential information and copies.

(iii)Authorized parties

To the extent necessary to fulfill its Servicing obligations under the Servicing Contract or other obligations to Freddie Mac (except as set forth below regarding the Freddie Mac Exclusionary List), the Seller/Servicer may provide Freddie Mac confidential information and copies thereof, to the following persons (“Persons”):

- Officers, directors, principals, partners, employees of the Seller/Servicer
- Its regulators, auditors, counsel and accountants
- Any MI or other vendor
- Any prospective Transferee Servicer, but only with respect to copies of a Transferor Servicer’s Purchase Documents applicable to the Mortgages related to the Transfer of Servicing required to be provided pursuant to Section 7101.2

The Seller/Servicer also may provide Freddie Mac confidential information and copies thereof to Persons to the extent counsel for the Seller/Servicer determines that such sharing is legally required. The Seller/Servicer must notify any Persons receiving the Freddie Mac confidential information (and any copy thereof) that such Person has the same obligations as the Seller/Servicer to keep the Freddie Mac confidential information (and any copy thereof) confidential and may use it only for the Permitted Purpose for which the information was provided to such Person. The Seller/Servicer is responsible for compliance by all such Persons with the provisions of this Section 1201.8. The Seller/Servicer will deliver to Freddie Mac a list of all such Persons promptly upon request.

Notwithstanding the preceding provisions of this Section 1201.8, under no circumstances may a Seller/Servicer provide or otherwise make available the Exclusionary List to any Person or entity (other than to the Seller/Servicer’s officer, director, principal, partner or employee with a need to have the Exclusionary List for the purposes set forth in this section) without the prior express written authorization of Freddie Mac.

(iv)Exclusions

Confidential information does not include:

- Any information that is:
 - Generally available to the public without violation of the provisions of this Section 1201.8

- Provided to the Seller/Servicer by a third party that is not itself under a confidentiality obligation with respect to the information, or
- Independently developed by the Seller/Servicer without use of the Freddie Mac confidential information, derivative information or any portion thereof

In addition, nothing in this Section 1201.8(a) will be deemed to preclude the Seller/Servicer from disclosing Freddie Mac confidential information to the extent ordered by a court or agency of competent jurisdiction, as long as (i) if legally permissible, Seller/Servicer promptly notifies Freddie Mac of the order and provides Freddie Mac with a reasonable opportunity to respond in such manner as Freddie Mac deems appropriate to limit the disclosure, and (ii) Seller/Servicer notifies the court or agency in writing before any disclosure that the information is Freddie Mac confidential information.

(b) Treatment of Seller/Servicer confidential information

In response to Freddie Mac's request, Seller/Servicer may provide Freddie Mac with the following information and documentation that Seller/Servicer identifies as confidential (collectively, "Seller/Servicer confidential information"):

- Information regarding Seller/Servicer's financial condition,
- Seller/Servicer's responses to Freddie Mac's security questionnaire,
- Information about Seller/Servicer's information security policies,
- Information related to Seller/Servicer's business continuity/disaster recovery plans, and
- Information in Seller/Servicer's SOC-1 or SOC-2 report and other third-party audit reports

Seller/Servicer confidential information does not include information that is publicly available, provided to us by a third party that is not to Freddie Mac's knowledge itself under an obligation to keep the information confidential or independently developed by Freddie Mac or another third party.

Freddie Mac may use Seller/Servicer confidential information for the purposes for which the information was provided to Freddie Mac and for other internal business purposes (the "Freddie Mac Purposes"). Freddie Mac will exercise at least the same degree of care to preserve the confidentiality of Seller/Servicer confidential information that Freddie Mac exercise to protect its own information of a similar level of sensitivity, but in no event less than a reasonable degree of care. Freddie Mac may disclose Seller/Servicer confidential information as necessary or appropriate for the Freddie Mac Purposes. Freddie Mac also may disclose it to the extent ordered by a court or agency of competent jurisdiction, as long as (i) if legally permissible, Freddie Mac promptly notifies Seller/Servicer of the order and provide it with a reasonable opportunity to respond in such manner as it deems appropriate to limit

the disclosure, and (ii) Freddie Mac notifies the court or agency in writing before any disclosure that the information is Seller/Servicer confidential information. Freddie Mac also may disclose Seller/Servicer confidential information to the FHFA or Freddie Mac's other regulators without regard to the requirements of this section.

1201.9: The Mortgage file, Mortgage data and related records (10/09/19)

(a) Ownership

All documents in the Mortgage file, all data related to Mortgages owned or guaranteed by Freddie Mac to which the Servicer obtains access in connection with any agreement with Freddie Mac, including, without limitation, data in the documents in the Mortgage file (collectively, Mortgage data) and all other documents and records related to the Mortgage of whatever kind or description (whether prepared or originated by the Servicer or others, or whether prepared or maintained or held by the Servicer or others acting for and on behalf of the Servicer), including all current and historical computerized data files, will be, and will remain at all times, the property of Freddie Mac. All of these records and Mortgage data in the possession of the Servicer are retained by the Servicer in a custodial capacity only.

(b) Permitted use of Mortgage data

The Servicer may use these records and Mortgage data only for the following purposes:

- Servicing Mortgages (and, in compliance with the provisions of the Guide, retaining subservicers to service Mortgages) on behalf of, and in the interest of, Freddie Mac
- As background information for the Servicer's use related to marketing or cross-selling of the Servicer's own primary market products and services in compliance with applicable laws, provided that such marketing and cross-selling does not involve disclosure of these records or Mortgage data to any third parties, other than vendors assisting the Servicer in its marketing activities who are themselves bound by these requirements
- As necessary to enable a vendor to provide analytic services to the Servicer with respect to the Servicer's Servicing portfolio, for the Servicer's internal use only, provided the vendor is bound by these requirements, and
- As necessary to enable the Servicer to comply with its obligations under applicable law including, without limitation, any disclosures required in connection with audits by regulatory agencies with jurisdiction over the Servicer's operations

Except as expressly authorized by Freddie Mac in writing, Servicers may not use or disclose, or authorize or permit third parties to use or disclose, these records or Mortgage data for any other purpose including, without limitation, resale or licensing of Mortgage data, either alone

or with other data. See Section 8101.7 for additional information related to Freddie Mac audits and access to Mortgage records and Section 8101.8 for additional requirements related to confidentiality.

1201.9: The Mortgage file, Mortgage data and related records (Future effective date 08/01/23)

(a) Ownership

All documents in the Mortgage file, all data related to Mortgages owned or guaranteed by Freddie Mac to which the Servicer obtains access in connection with any agreement with Freddie Mac, including, without limitation, data in the documents in the Mortgage file (collectively, Mortgage data) and all other documents and records related to the Mortgage of whatever kind or description (whether prepared or originated by the Servicer or others, or whether prepared or maintained or held by the Servicer or others acting for and on behalf of the Servicer), including all current and historical computerized data files, will be, and will remain at all times, the property of Freddie Mac. All of these records and Mortgage data in the possession of the Servicer are retained by the Servicer in a custodial capacity only.

(b) Permitted use of Mortgage data

The Servicer may use these records and Mortgage data only for the following purposes:

- Servicing Mortgages (and, in compliance with the provisions of the Guide, retaining subservicers to service Mortgages) on behalf of, and in the interest of, Freddie Mac
- As background information for the Servicer's use related to marketing or cross-selling of the Servicer's own primary market products and services in compliance with applicable laws, provided that such marketing and cross-selling does not involve disclosure of these records or Mortgage data to any third parties, other than vendors assisting the Servicer in its marketing activities who are themselves bound by these requirements
- As necessary to enable a vendor to provide analytic services to the Servicer with respect to the Servicer's Servicing portfolio, for the Servicer's internal use only, provided the vendor is bound by these requirements, and
- As necessary to enable the Servicer to comply with its obligations under applicable law including, without limitation, any disclosures required in connection with audits by regulatory agencies with jurisdiction over the Servicer's operations

Except as expressly authorized by Freddie Mac in writing, Servicers may not use or disclose, or authorize or permit third parties to use or disclose, these records or Mortgage data for any other purpose including, without limitation, resale or licensing of Mortgage data, either alone or with other data. See Section 8101.7 for additional information related to Freddie Mac

audits and access to Mortgage records and Section 8101.8 for additional requirements related to confidentiality.

(c) Language

All documents in the Mortgage file related to the origination of the Mortgage must be in English or must be translated into English by the document originator or an unaffiliated third-party translation service. Such translations must be attached to each non-English document, and the Seller represents and warrants to Freddie Mac that the translation is complete and accurate.

1201.10: Minority-Owned, Women-Owned and Disabled-Owned Business Enterprises (03/02/16)

It is Freddie Mac's policy to provide, to the maximum extent possible in balance with financially safe and sound business practices, the opportunity for Minority-Owned, Women-Owned and Disabled-Owned Business Enterprises to compete fairly as suppliers, contractors and subcontractors in Freddie Mac's business activities, taking into account both price and quality. As an aspect of this policy, Freddie Mac encourages Seller/Servicers to ensure that Minority-Owned, Women-Owned and Disabled-Owned Business Enterprises are given the opportunity to compete fairly in supplying services to Seller/Servicers.

1201.11: Audit confirmation requests (02/10/21)

Sellers or Servicers requiring confirmation from Freddie Mac with respect to the Mortgages sold to and serviced for Freddie Mac must use a format similar to that provided in Exhibit 65, Audit Confirmation Request. The confirmation request must be submitted to Freddie Mac via e-mail at Audit_Confirmation@FreddieMac.com. An e-mail response will be provided to the auditor within five Business Days.

Below is an example of the e-mail response for Audit Confirmation that will be sent to the auditor(s):

8250 Jones Branch Drive McLean, VA 22102

August 7, 2020

Subject: Seller/Servicer # 123456 trial balance report for 07/31/2020

Dear Auditor:

We recently received your request for confirmation of accounting information in connection with your audit. According to our records, the following information contained in the attached report is as of the requested accounting cycle.

A trial balance report has been provided for you with summarized information regarding the requested accounting cycle. You need to manually reconcile these transactions to the Trial Balance.

Freddie Mac does not agree or disagree with your calculation; the Trial Balance provided reflects the information from our system.

If you have any questions concerning the information contained in this trial balance or need assistance to resolve discrepancies, please contact the Seller or Servicer client in which you are auditing.

CYCLE	SERVICER	LOAN_STATUS	ACTIVE_UPB	INACTIVE_UPB	FREDDIE_MAC_SHARE	LOAN_COUNT
202007	123456	Active	\$11,222,333.44	\$0.00	\$11,222,333.44	1000
202007	123456	Delinquent	\$1,222,333.44	\$1,222,333.44	\$1,222,333.44	50
202007	123456	Foreclosure	\$0.00	\$11,222.33	\$11,222.33	5

Sincerely,
Audit Confirmation Team
audit_confirmation@freddiemac.com

Chapter 1301: General Responsibilities of the Seller/Servicer

1301.1: Submission of data to Freddie Mac (03/02/16)

The Seller/Servicer warrants that all data and/or other information submitted to Freddie Mac is true, complete and accurate. The Seller/Servicer agrees to complete all Freddie Mac forms according to the instructions or guidance provided by Freddie Mac. With respect to data and/or other information transmitted to Freddie Mac through a permitted electronic medium, the Seller/Servicer warrants that the:

- Transmission complies with the requirements of the applicable Purchase Documents
- Transmission contains all the required information
- Terms, conditions and requirements stated in the Purchase Documents have been fully satisfied and adhered to

1301.2: Compliance with applicable law (07/03/23)

(a) Seller/Servicer obligations

The Seller/Servicer agrees to comply with all applicable federal, State and local laws, ordinances, regulations, orders and regulator guidance (collectively, “Applicable Laws”), including, without limitation and as amended, the following Applicable Laws:

1. Title VI of the Civil Rights Act of 1964
2. Title VIII of the Civil Rights Act of 1968, as amended
3. Section 527 of the National Housing Act
4. The Equal Credit Opportunity Act
5. The Fair Credit Reporting Act
6. All Applicable Laws governing consumer protection, data privacy and/or the safeguarding of Borrower personal information including, without limitation, the Gramm-Leach-Bliley Act

7. Executive Order 11063, Equal Opportunity in Housing, issued by the President of the United States on November 20, 1962
8. The foreign assets control regulations, 31 C.F.R. Chapter V, as amended, and any authorizing legislation or executive order relating thereto, as administered by the Office of Foreign Assets Control (OFAC) within the United States Department of the Treasury (collectively “OFAC Regulations”)
9. The Bank Secrecy Act, the Money Laundering Control Act and Title III of the USA PATRIOT Act
10. Section 5 of the Federal Trade Commission Act and similar laws that prohibit unfair or deceptive acts or practices
11. The Truth-in-Lending Act
12. The Real Estate Settlement Procedures Act
13. The Fair Debt Collections Practices Act
14. The Homeowners Protection Act of 1998
15. Judicial and professional rules of conduct governing discussions with opposing parties in litigation when represented by counsel (e.g., solicitation of delinquent Borrowers in bankruptcy or Borrowers engaged in litigation with the Servicer)
16. The U.S. Bankruptcy Code
17. The Electronic Signatures in Global and National Commerce Act, as enacted by the United States government (“E-SIGN”)
18. The Uniform Electronic Transactions Act, as enacted by the applicable State (“UETA”) unless superseded by E-SIGN

Without limiting the preceding provisions of this Section 1301.2, the Servicer must make such disclosures to Borrowers and other individuals as are required by, and must otherwise comply with, the requirements of applicable state privacy and consumer protection laws, including without limitation, the California Consumer Privacy Act of 2018 and its implementing regulations (“the CCPA”) and similar State laws and regulations now existing or that may be effective in the future. The Servicer certifies that it is and will be aware of the requirements of such laws and regulations and covenants that it will comply with their requirements and restrictions. In addition, upon Freddie Mac’s request, the Seller/Servicer shall cooperate with Freddie Mac in connection with responding to and complying with consumer requests and other requests received by Freddie Mac or on behalf of persons who wish to exercise their rights under the CCPA and similar State laws and regulations.

The Seller/Servicer agrees to indemnify and hold Freddie Mac harmless from and against all claims, judgments, losses, costs and expenses incurred by Freddie Mac arising out of the Seller/Servicer's violation of any Applicable Law.

The Seller/Servicer acknowledges that it cannot assume that because it complies with all applicable Freddie Mac requirements that the Seller/Servicer therefore complies with all Applicable Laws.

(b) OFAC screening; notice of OFAC match

Seller/Servicers are expected to establish and maintain an effective OFAC compliance program that ensures compliance with OFAC Regulations.

Sellers must screen each Borrower against OFAC's most recent list of Specially Designated Nationals and Blocked Persons ("OFAC SDN List") prior to delivery to Freddie Mac. If a Borrower is on the OFAC SDN List, the Mortgage is ineligible for sale to Freddie Mac.

The Servicer must periodically screen the Mortgages that it services for Freddie Mac against the OFAC SDN List. The frequency of such screening should be based on the Servicer's OFAC compliance program and be commensurate with the Servicer's OFAC risk profile (i.e., Servicers could screen Freddie Mac Mortgages with the same frequency as they do their own portfolio). A Servicer that identifies a valid Borrower match against the OFAC SDN List must notify Freddie Mac via e-mail within 24 hours of identifying such match to discuss potential changes to the Servicing of the associated Mortgage, which may include, but are not limited to, the blocking and/or segregation of Mortgage-related funds and ceasing certain Servicing-related activities (**see Directory 1**).

Such e-mail notification must also provide the following information:

- Freddie Mac loan number
- Borrower name
- Name, title, e-mail address, and telephone number for the point of contact at the Servicer who will be able to discuss the OFAC SDN List match

Upon receipt of the notice, a representative from Freddie Mac will contact the Servicer to discuss the OFAC SDN List match and any next steps. Freddie Mac may require the Servicer to provide additional documentation or information regarding the OFAC SDN List match.

Notifying Freddie Mac of a confirmed match against the OFAC SDN List does not absolve the Servicer from any of its responsibilities under OFAC Regulations.

(c) Anti-money laundering (AML) compliance; reporting AML non-compliance and Suspicious Activity

Seller/Servicers subject to the AML provisions of the Bank Secrecy Act are expected to establish and maintain a compliance program that ensures compliance with all applicable provisions of the Bank Secrecy Act and implementing federal regulations.

Seller/Servicers must, as permitted by law, notify Freddie Mac (**see Directory 1**) within seven Business Days of confirmation of any instances of the Seller/Servicer's own non-compliance or compliance failure related to the AML requirements of the Bank Secrecy Act, the Money Laundering Control Act, or Title III of the USA Patriot Act, and applicable implementing federal regulations.

All Seller/Servicers, including those not subject to the AML provisions of the Bank Secrecy Act, must develop internal controls, policies and procedures designed to detect Suspicious Activity, and to report such Suspicious Activity to Freddie Mac (**see Directory 1**) in accordance with Section 3201.2.

(d) FHFA Suspended Counterparty Program

Seller/Servicers must comply with the requirements set forth in Section 3101.2 applicable to FHFA's Suspended Counterparty Program.

(e) Seller lending practices

The Seller must employ business practices that promote fair lending.

(f) Servicer maintained fair lending data elements

Servicers must maintain the following fair lending data elements for all Freddie Mac Mortgages originated on or after March 1, 2023 provided they were obtained during the origination process:

- Race of Borrower(s)
- Age of Borrower(s)
- Ethnicity of Borrowers(s)
- Gender of Borrower(s)
- Preferred language of Borrower(s)

These data must be stored in a format that can be searched, queried and transferred.

For each Transfer of Servicing on or after March 1, 2023, if the fair lending data was obtained during the origination process and is available, the Transferor Servicer must transmit the fair lending data listed above to the Transferee Servicer. Upon Transfer of Servicing, the Transferee Servicer must begin to maintain this data in accordance with the above requirements.

As of the Effective Date of Transfer, the Transferee Servicer must begin to maintain this data in accordance with the above requirements.

Note: In the event of a future Transfer of Ownership or assumption of the Mortgage, Servicers may, but are not required to, update these data elements.

(g) Servicer responsibility for incident response program and notice of an incident

Servicers must maintain a “Response Program” consistent with the requirements of the Interagency Guidance on Response Programs for Unauthorized Access to Customer Information and Customer Notice (the “Interagency Guidance”) (12 CFR Parts 208 and 225).

If the Servicer believes there has been a Security Incident or Privacy Incident (each as defined in Section 1302.2(b)) that compromises the security, confidentiality or integrity of “sensitive customer information” (as defined in the Interagency Guidance) maintained by the Servicer or in its possession or control or any other information about one or more Borrowers or other individuals that is the subject of any state breach notification law, and if that Security Incident or Privacy Incident is related to Mortgages owned by Freddie Mac, then, in addition to—and not in limitation of—its notification requirements under Section 1302.2(b), the Servicer must send the following notifications to Freddie Mac (**see Directory 1**)

- Written notice of the Security Incident or Privacy Incident, including a detailed description of its scope and root cause (to the extent then understood) and a description of the notices provided to affected Borrowers, within a reasonable time after the Security Incident or Privacy Incident; and
- If the Servicer determines not to send notices to any Borrowers and/or other individuals affected by a certain Security Incident or Privacy Incident, the Servicer must provide written notice to Freddie Mac including a rationale and explanation for not sending notice to all affected Borrowers and other individuals as soon as practicable after the Security Incident or Privacy Incident. Notwithstanding the Servicer’s determination not to provide such notices, Freddie Mac may direct the Servicer to provide notices to the affected Borrowers at the Servicer’s expense.

If the Servicer intends to refer to Freddie Mac in any notices it sends to Borrowers and others on Mortgages whose information was affected by the Security Incident or Privacy Incident, the Servicer must notify Freddie Mac within a reasonable time prior to sending those notices. Freddie Mac must have the opportunity to review the content of the notices prior to their delivery.

In all Security Incidents or Privacy Incidents, the Servicer must cooperate with Freddie Mac including, without limitation, by providing all information and assistance requested to enable Freddie Mac to comply with its legal obligations, technical forensics information to determine the extent of the Security Incident or Privacy Incident and other information and assistance to identify, evaluate and manage any issues arising out of the Security Incident or Privacy Incident as Freddie Mac deems necessary or advisable.

(h) Servicers diversity practices – minority, women and disabled inclusion

In accordance with regulations adopted by the Federal Housing Finance Agency, 12 C.F.R. Pt. 1207, pursuant to the Housing and Economic Recovery Act of 2008, 12 U.S.C. § 4520 (“HERA”), each Servicer will:

1. Practice the principles of equal employment opportunity and non-discrimination in all its business activities
2. Contractually require each subcontractor that the Servicer engages to provide services or goods to Freddie Mac to practice the principles of equal employment opportunity and non-discrimination in all its business activities, and
3. Upon request, provide Freddie Mac with information and appropriate certifications regarding:
 - The diversity status of the Servicer
 - The diversity status of subcontractors the Servicer engages to provide services or goods to Freddie Mac with respect to Servicing under the Purchase Documents
 - The amounts Freddie Mac pays to the Servicer for Servicing under the Purchase Documents
 - The amounts the Servicer pays to subcontractors to provide services or goods to Freddie Mac with respect to Servicing under the Purchase Documents, and
 - Any other information Freddie Mac requests to comply with HERA and applicable diversity and inclusion regulations

(i) Servicer adverse action notices

If Freddie Mac participated in evaluating a Borrower for a workout or relief option that is not approved, Freddie Mac will provide the reasons why it did not approve the workout or relief option to the Servicer. If Freddie Mac participated in the decision and if the decision gives rise to an obligation to provide the Borrower a notice or notices under applicable law, including, but not limited to, adverse action notices required by the Equal Credit Opportunity

Act or the Fair Credit Reporting Act, then the Servicer must provide such notices to the Borrower on behalf of Freddie Mac. In these cases, the notices provided by the Servicer to the Borrower must identify both the Servicer and Freddie Mac as having participated in the evaluation of the workout or relief option and the decision to deny the request.

(j) Repurchase requests related to compliance with laws representations and warranties

(i) Freddie Mac will only issue a repurchase request for Seller violations of law that:

- Could be expected to impair Freddie Mac's or its Servicer's ability to enforce the Note or Mortgage
- Impose assignee liability, or
- Are found to have been violations of, or if Freddie Mac has made a finding based on the facts available to Freddie Mac that a violation may have occurred of, one or more of the following laws or related regulations:
 - OFAC Regulations
 - The Fair Housing Act
 - Anti-discrimination provisions of the Equal Credit Opportunity Act (ECOA)
 - Unfair, deceptive, or abusive acts or practices under federal and State laws (UDAAP), and
 - The Securities Exchange Act of 1934

With respect to UDAAP, Freddie Mac will take into consideration published federal and State announcements of interpretations as well as all published judicial and administrative decisions and will not enforce a repurchase if the matter can be cured by remediation to the injured party and the Seller makes such remediation. However, three or more years after the Settlement Date of a Mortgage, Freddie Mac may not seek repurchase on UDAAP grounds regarding a specific practice unless a lender self-reports or if a federal or State enforcement authority has indicated, asserted or claimed that such practice violates or may violate UDAAP, or a federal or State court has held that a specific practice violates UDAAP.

(ii) A repurchase demand based on a compliance with law violation by the Seller will include supporting facts and findings made by Freddie Mac in the course of considering the facts and circumstances before it. Freddie Mac's determination that a violation has occurred must be consistent with the facts and circumstances provided by the Seller and any other information obtained by Freddie Mac as part of its evaluation of the situation.

- (iii) When Freddie Mac issues a repurchase request to the Seller in connection with a failure to comply with laws and there is pending litigation underway involving that same issue or a government agency with authority to make a determination regarding the issue has publicly stated that it is reviewing the issue, the Seller will not be required to repurchase until 30 days after the litigation has been dismissed, settled or concluded at trial in an adjudication or the governmental agency has made a final determination, as applicable (collectively, “the Resolution”). After the Resolution, the Seller may request that Freddie Mac review the appropriateness of the repurchase request in light of the Resolution. Freddie Mac will withdraw the repurchase request where appropriate.
- (iv) Freddie Mac will not issue a repurchase request to the Seller based on violations of the ability to repay provisions under the Truth-in-Lending Act (“ATR”) unless a court or regulator concludes the Mortgage did not comply with ATR.
- (v) This section does not limit Freddie Mac’s rights to issue repurchase requests for Servicer breach of its obligations regarding compliance with Applicable Laws.

(j) Address confidentiality programs

A Borrower may be a participant in a State-sponsored address confidentiality program (“ACP”) that provides the Borrower with a substitute mailing address to be used instead of the Borrower’s home address for all mail correspondence. Sellers must comply with the applicable federal and State laws related to ACPS.

Within five Business Days after the Funding Date of any Mortgage for which the Borrower is a participant in an ACP, the Seller must provide the following information to Freddie Mac at the e-mail address Loan_Delivery_Funding_Ops@FreddieMac.com:

- Freddie Mac Loan Number
- Borrower Name
- Borrower ACP Mailing Address (including, when applicable, any lot number or required uniquely identifiable number)

Freddie Mac will use the provided substitute ACP mailing address when mailing correspondence to the Borrower, such as the mortgage transfer disclosures required under the Truth-in-Lending Act.

1301.3: Inspection of records (04/12/23)

The Seller/Servicer agrees to allow Freddie Mac, during normal business hours, to inspect all of the Seller/Servicer’s books and records pertaining to its Mortgage operations and to any Mortgages purchased by Freddie Mac, including, without limitation, any Seller/Servicer (a)

organizational and associated documents such as its articles of organization, operating agreement, employment agreements and management agreements, and (b) contract(s) with a Related Third Party.

Additionally, when Freddie Mac requests, either before or after termination of the Servicing Contract and related Servicing Contract Rights, whether in whole or in part, the Servicer must permit Freddie Mac at any time during normal business hours to inspect the Mortgage files and all of the Servicer's records pertaining to Mortgage operations related to Freddie Mac.

1301.4: Reliance on the Seller/Servicer warranties and representations (03/02/16)

The Seller/Servicer should carefully read the Purchase Documents. The Seller/Servicer acknowledges that Freddie Mac and any transferees or assignees of Freddie Mac purchase Mortgages and trade in any related securities in reliance on the accuracy and truth of the Seller/Servicer's warranties and representations and on its compliance with the agreements, requirements, terms and conditions set forth in the Purchase Documents.

1301.5: Review of Mortgages by Freddie Mac prior to purchase (06/03/19)

Before the Freddie Mac Funding Date (Cash programs) or Settlement Date of the UMBS®, MBS, Supers® or WAC ARM PC (Guarantor programs), Freddie Mac may, in its discretion, refuse to purchase any Mortgage if it determines any of the following:

- The Mortgage is not of investment quality
- The Seller has failed to satisfy or has breached any of the provisions of the Purchase Documents
- Any of the warranties or representations of the Seller to Freddie Mac are untrue
- The Seller has failed to provide Freddie Mac with information that is true, complete and accurate as to the Mortgage

For each Mortgage it refuses to purchase, Freddie Mac may require the Seller to substitute in its place another Mortgage that is satisfactory to Freddie Mac.

1301.6: Seller authorized to sell Mortgage (06/03/19)

The Seller must have the full legal authority, must have taken all action required by law and by its organizational documents and must have obtained any consents required, to sell, transfer and assign a Mortgage to Freddie Mac free and clear of all claims, security interests or other encumbrances.

The Note and the Security Instrument must be enforceable by the Seller. Transfer of the Note and the Security Instrument in whole or in part to any subsequent purchaser must not detract from their enforceability. The Purchase Contract must have been duly authorized, executed and delivered by the Seller and must be valid, binding and enforceable according to its terms and conditions.

Compliance with the terms and conditions of the Purchase Documents by the Seller must not conflict with, result in a breach of or default under or be adversely affected by the following:

- Any terms and conditions of the charter or bylaws or other type of organization constituent documents of the Seller
- Any agreement or instrument to which the Seller is a party
- Any judgment, order or regulation to which the Seller is subject

Each Seller that is an “insured depository institution,” as that term is defined in Section 1813(c)(2) of Title 12 of the United States Code, as amended, acknowledges, agrees, covenants, represents and warrants to Freddie Mac that the Seller’s Master Agreements and other applicable Purchase Documents entered into by and between the Seller and Freddie Mac:

- Are in writing or are Records or Electronic Records, as those terms are defined in Section 1401.2
- Were executed or authenticated by the Seller and Freddie Mac contemporaneously with the agreement reached by the Seller and Freddie Mac for sale of Mortgages by the Seller to Freddie Mac in return for cash and/or UMBS®, MBS, Supers® or WAC ARM PCs received by the Seller
- Were approved by the Seller’s board of directors or the Seller’s officers or employees who were duly authorized by the board of directors to enter into such agreements and board approvals, resolutions and/or delegations of authority are reflected in the minutes of the board, and
- Have been, continuously, from the time of their execution or authentication, official records of the Seller

1301.7: Servicer authorized to service (03/02/16)

The Servicer must be eligible to service Mortgages for Freddie Mac under the requirements of the Purchase Documents. The Servicer warrants that it has complied with all applicable laws related to licensing, qualification to do business or approval to service Mortgages. The Servicer also warrants that the Purchase Documents have been duly authorized, executed and delivered and are valid and enforceable according to their terms. The Servicer further warrants that compliance with the terms and conditions thereof will not conflict with, result in a breach of or default under, or be adversely affected by the following:

- Any terms and conditions of the Servicer's charter
- Any agreement or instrument to which the Servicer is a party
- Any judgment, order or regulation to which the Servicer is subject

1301.8: Warranties and representations by the Seller (04/05/23)

As of the Delivery Date, the Funding Date or the Settlement Date (as applicable), and the date of any substitution of Mortgages pursuant to the Purchase Documents, the Seller makes the warranties and representations in this section for each Mortgage purchased by Freddie Mac. The Seller is fully liable for all warranties and representations made to Freddie Mac, regardless of whether the Seller originated the Mortgage.

(a) General warranties and representations

1. The terms, conditions and requirements stated in the Purchase Documents have been fully satisfied
2. All warranties and representations of the Seller are true and correct
3. The Seller is in compliance with its agreements contained in the Purchase Documents
4. The Seller has not misstated, misrepresented or omitted any material fact about the Mortgage
5. The Seller has given correctly and on a timely basis to the Borrower all disclosures and notices required under Applicable Laws and the terms of the Note and the Security Instrument
6. With respect to each ARM, the Seller has calculated any and all adjustments to the interest rate or the monthly payment correctly and given on a timely basis any and all

notices of such adjustments completely in accordance with the terms of the Note and the Security Instrument and with the requirements of applicable law

7. The Seller has adopted Exhibit 31, Home Valuation Code of Conduct, and for each conventional Mortgage, the appraisal was obtained in a manner consistent with the Home Valuation Code of Conduct
8. No person or entity on the Freddie Mac Exclusionary List as of the Note Date played a role, as described in Section 3101.1, in the origination or sale of such Mortgage or the related real estate transaction
9. Solely with respect to a Mortgage registered with MERS®, MERS is the mortgagee of record (either by being named in the Security Instrument as nominee for the Seller, or by being named as the assignee in a recorded assignment of the Security Instrument), or, where applicable, MERS is not the mortgagee of record for purposes of MERS iRegistration

Upon Freddie Mac's written request, either before or after the Funding Date, the Seller will supply evidence satisfactory to Freddie Mac of the Seller's compliance with any provision of the Purchase Documents. Before the Funding Date, the Seller must obtain Freddie Mac's written approval of any waivers or modifications to the provisions of the Purchase Documents.

The Seller represents and warrants that all persons executing documents on behalf of the Seller are duly authorized to do so.

The Seller warrants that it and, if applicable, the originator of the Mortgages it sells to Freddie Mac have complied with all applicable laws relating to licensing, qualification to do business or approval to originate Mortgages.

Before the Funding Date, the Seller may contact Freddie Mac to request review of a Mortgage in order to obtain a waiver of the warranty requirements of Sections 3101.1(d) and 1301.8(a)(8). The Seller should make such request to the Freddie Mac Fraud Mailbox at Mortgage_Fraud_Report@FreddieMac.com. As part of the request, the Seller must inform Freddie Mac of the nature and extent of the role played by the person or entity on the Exclusionary List in connection with the Mortgage and must provide other relevant information upon request. If Freddie Mac reviews the Mortgage and subsequently elects to purchase the Mortgage, Freddie Mac will provide the Seller with written notice of such election, in which case the warranty concerning the involvement of an excluded person or entity will not be applicable to the sale of the Mortgage. All other requirements of the Purchase Documents relating to the sale of the Mortgage will remain in full force and effect. Freddie Mac's election to review and its decision to purchase such a Mortgage are within its sole discretion.

(b) Seller sole Mortgage owner; Mortgage not subject to any other interest

- (i) As of the Delivery Date, the Seller must be the sole owner of the Mortgage.

As of the Funding Date or the Settlement Date, whichever is applicable, all Mortgages purchased by Freddie Mac must be free and clear of all claims, security interests or other encumbrances. The Seller agrees to take or cause to be taken such further actions, including without limitation, the preparation, execution and filing of additional documents and instruments, as may be reasonably necessary to assure and confirm to Freddie Mac that the Mortgages purchased by Freddie Mac are free and clear of any and all security interests as of the Funding Date or the Settlement Date.

- (ii) The Seller warrants to Freddie Mac that as of the Freddie Mac Funding Date (Cash programs) or Settlement Date of the UMBS®, MBS, Supers® or WAC ARM PC (Guarantor programs), the Mortgage is not subject to any other interest.

The Seller further warrants and agrees not to sell, assign, convey, hypothecate, pledge or in any other way transfer, conditionally or otherwise, its interest in a Mortgage that Freddie Mac has purchased, except as expressly permitted in the Purchase Documents.

(c) eMortgage representations and warranties

For additional representations and warranties related to eMortgages, see Section 1402.8(c)(viii).

1301.9: Servicer agreements (06/12/19)

In addition to general warranty statements elsewhere in this Guide, the Servicer agrees that, in Servicing Mortgages and REO for Freddie Mac, the Servicer will:

- Comply with the Purchase Documents and any instruction, request or requirement issued by Freddie Mac
- Abide by Freddie Mac's decision with respect to any of the Mortgages or REO
- Hold Freddie Mac harmless for any loss the Servicer may suffer from any decision made by Freddie Mac with respect to any of the Mortgages or REO
- Reimburse Freddie Mac for any expenses (including court costs and reasonable attorney fees) incurred by Freddie Mac, at its sole discretion, in remedying or correcting any failure of the Servicer to service a Mortgage or REO in accordance with the requirements of the Purchase Documents

- Reimburse Freddie Mac for any costs incurred by Freddie Mac as a result of a Servicer's delays in meeting the foreclosure or bankruptcy timelines when the delay results from any failure of a Seller/Servicer to originate a Mortgage or service a Mortgage or REO in accordance with the requirements of the Purchase Documents; such costs to be determined in Freddie Mac's sole discretion.

1301.10: Survival of warranties; remedies (03/02/16)

The warranties and representations in the Purchase Documents for any Mortgage purchased by Freddie Mac survive payment of the purchase price by Freddie Mac. The warranties and representations are not affected by any investigation made by, or on behalf of, Freddie Mac, except when expressly waived in writing by Freddie Mac.

When any party has purchased a Mortgage from Freddie Mac that Freddie Mac previously purchased from a Seller, Freddie Mac may exercise any rights or remedies at law or in equity on behalf of the party to the extent that the party does not affirmatively do so. Freddie Mac may also exercise its discretion to disqualify or suspend a Seller or a Servicer pursuant to Chapter 2301 or Section 9102.1.

For each Mortgage purchased by Freddie Mac, the Seller and the Servicer agree that Freddie Mac may, at any time and without limitation, require the Seller or the Servicer, at the Seller's or the Servicer's expense, to make such endorsements to and assignments and recordations of any of the Mortgage documents so as to reflect the interests of Freddie Mac and/or its successors and assigns.

1301.11: Enforcement of representations and warranties related to underwriting of the Borrower, Mortgaged Premises and project (05/03/23)

Freddie Mac will not exercise its remedies, including the issuance of a repurchase request, in connection with the Seller/Servicer's breaches of certain selling representations and warranties as described below. Mortgages that are processed by the Seller through Freddie Mac Loan Advisor® (Loan Collateral Advisor® and Loan Product Advisor®) may also qualify for additional enforcement relief related to value, condition and marketability, provided certain conditions are met. See Section 5602.2 for details.

Selling representation and warranty framework

The requirements below are effective for Mortgages with Freddie Mac Settlement Dates on and after July 1, 2014.

(a) Representations and warranties

For Mortgages, including Mortgages sold pursuant to negotiated provisions, that comply with the eligibility requirements set forth in (b) below, Freddie Mac will not exercise its remedies, including the issuance of a repurchase request, in connection with the Seller/Servicer's breaches of selling representations and warranties in the topics, chapters and sections of the Guide listed in the table below¹, relating to:

- The underwriting of the Borrower, which includes the Seller's assessment of the Borrower's loan terms, credit history, employment and income, assets, and other financial information used for qualifying the Borrower for the Mortgage
- The underwriting of the Mortgaged Premises, which is the analysis of the description and valuation of the Mortgaged Premises to determine its adequacy as collateral for the Mortgage
- The underwriting of the project in which the Mortgaged Premises is located, which is the analysis of the Planned Unit Development (PUD), Condominium Project or Cooperative Project

¹ This includes the topics, chapters and sections as amended by the Seller's Purchase Documents, if applicable.

For Guide provisions not listed in this table, the Seller/Servicer will continue to be responsible for representations and warranties for the life of the loan.

Guide topic/chapter/section	Title of topic, chapter or section and where noted, exclusions to provisions in the topic/chapter/section
Section 4101.1	The Mortgage Application

(b) Eligible Mortgages

Freddie Mac will not exercise its remedies in connection with breaches of representations and warranties described in Section 1301.11(a) for Mortgages that meet the following requirements:

- The Mortgage must have a Freddie Mac Settlement Date on or after July 1, 2014
- The Mortgage must be a conventional Mortgage delivered to Freddie Mac through a flow purchase contract

- The Mortgage must not be a Mortgage that Freddie Mac and the Seller/Servicer have agreed is subject to any credit enhancement other than primary mortgage insurance
- The Mortgage must have either an acceptable payment history or a satisfactory conclusion of a Freddie Mac quality control review as more fully described below:

Acceptable payment history

The Mortgage has an acceptable payment history if it meets the following eligibility requirements:

- For Mortgages other than Freddie Mac Relief RefinanceSM Mortgages and Enhanced Relief RefinanceSM Mortgages:
 - Following the Freddie Mac Settlement Date, the Borrower (i) made the first 36 monthly payments due with no more than two 30-day Delinquencies, and no 60-day or greater Delinquencies; and (ii) must not be 30 or more days delinquent with respect to the 36th monthly payment
- For Relief Refinance Mortgages and Enhanced Relief Refinance Mortgages:
 - Following the Freddie Mac Settlement Date, the Borrower made the first 12 monthly payments due with no 30-day or greater Delinquencies, or
 - Following the Freddie Mac Settlement Date, the Borrower (i) made the first 36 monthly payments due with no more than two 30-day Delinquencies, and no 60-day or greater Delinquencies; and (ii) must not be 30 or more days delinquent with respect to the 36th monthly payment
- In addition, during the applicable payment history period:
 - With the exception of temporary subsidy buydown arrangements permitted by the Purchase Documents, neither the Seller/Servicer nor any third party may escrow or advance funds to be used for payment of any monthly installment, principal, interest or other charge payable under the terms of the Mortgage
 - The Mortgage must not have been subject to a repayment plan, or otherwise have been modified from its original terms, except as otherwise stated below for a disaster-related forbearance plan
 - The Mortgage must not have an outstanding request for a repurchase, a repurchase alternative or a make-whole

- The Mortgage may have been subject to a disaster-related forbearance plan during the applicable payment period history period as a result of the Borrower being impacted by an Eligible Disaster pursuant to Chapter 8404, provided that:
 - The Mortgage is fully reinstated, as described in Section 9203.3, or
 - The Borrower agrees to a repayment plan and complies with the terms of the repayment plan, restoring the Mortgage to a current status, or
 - The disaster-related forbearance transitions into a permanent modification, restoring the Mortgage to a current status

For all three options described above, payments due during the disaster-related forbearance period are considered to have been made on time for the purposes of this section.

[NOTE: The Servicer must report the Borrower's payment status of the Mortgage in accordance with Section 8303.3.]

Satisfactory conclusion of a Freddie Mac quality control review

For a Mortgage to obtain a satisfactory conclusion of a Freddie Mac quality control review, it must meet one of the following requirements:

- Freddie Mac completes a quality control review of the Mortgage file, which includes a review of the credit underwriting and eligibility of the Borrower, the Mortgaged Premises (including its value), and the project in which the Mortgaged Premises is located, if applicable ("quality control review"), and determines that the Mortgage is acceptable (that is, the Mortgage is not subject to a repurchase request)
- Freddie Mac completes the quality control review and determines the Mortgage is not acceptable because of a loan deficiency that is curable, and the Seller/Servicer cures the deficiency to Freddie Mac's satisfaction. For example, if the Mortgage file delivered to Freddie Mac did not contain the required verification of income, the loan deficiency would be deemed to be corrected if the Seller/Servicer provided the missing documentation within the time frame specified. Another example of an action taken to correct a loan deficiency is rectifying a prior lien by producing evidence of a recorded satisfaction or release of such prior lien within the time frame specified.
- Freddie Mac completes the quality control review and determines the Mortgage is not acceptable, but Freddie Mac and the Seller/Servicer agreed upon an alternative to repurchase that has since expired or terminated by its terms. For example, if Freddie Mac determined a Mortgage was not acceptable and, as a repurchase alternative, Freddie Mac and the Seller/Servicer agreed that the Mortgage would be subject to recourse for five years, then the Seller/Servicer will be relieved from Freddie Mac's

enforcement of the representations and warranties described in Section 1301.11(a) at the end of the five-year period. Other possible repurchase alternatives include indemnification, make-whole arrangements, and certain split loss agreements.

(c) Life-of-loan representations and warranties

For Mortgages that meet the eligibility requirements set forth in (b) above, the Seller/Servicer will not be relieved from Freddie Mac's enforcement of its representations and warranties with respect to the following matters, even if such issues are referenced in the Guide topics, chapters or sections in the table above. Instead, the Seller/Servicer will be responsible for all such representations and warranties for the life of the loan.

- **Charter matters.** Each Mortgage must be eligible for purchase under the Freddie Mac Charter Act in the following respects:

- The Mortgage must be secured by a residential property that is located within any of the 50 States, the District of Columbia, Guam, Puerto Rico or the U.S. Virgin Islands at the time of Freddie Mac's purchase, as set forth in Section 4201.1 and the definition of a State in the Glossary
- The original UPB of the Mortgage must not exceed the maximum original loan amounts set forth in Sections 4203.3 and 4603.2
- The Mortgage must not be secured by vacant land or property primarily used for agriculture, farming or commercial enterprise at the time of Freddie Mac's purchase
- The Mortgage must be secured by a residential property consisting of 1-4 dwelling units at the time of Freddie Mac's purchase
- Any Mortgage with an LTV ratio in excess of 80% at the time of Freddie Mac's purchase must (i) have mortgage insurance on the portion of the Mortgage in excess of 80% of the property's value (determined in accordance with Section 4701.1, or in the case of Relief Refinance Mortgages and Enhanced Relief Refinance Mortgages, meet the applicable mortgage insurance requirements in the Guide), (ii) be sold with recourse, within the meaning of Section 6201.7(a)

- **Misstatements, misrepresentations and omissions**

The Mortgage must not have any misstatements, misrepresentations or omissions ("misrepresentations"), by any party to the Mortgage transaction (including, but not limited to, the Seller, Borrowers, property sellers, builders, real estate agents, lenders, mortgage brokers, loan officers, originators, appraisers, appraisal companies, closing agents, title companies or other third party vendors) pertaining to the requirements described in the topics, chapters and sections of the Guide set forth in the table above that are made with or without the Seller's knowledge, and that:

- Involve three or more Mortgages sold to Freddie Mac by the same Seller, and
- Were made pursuant to a common pattern of activity in connection with the Mortgage origination or sale, based on information in the Mortgage file or other facts or circumstances that existed on the Settlement Date, which involved at least one party common to all the Mortgages (if the common party is the Seller, then the same individual; if the common party is a third party, then the same individual or entity), and
- Are “significant” in that, using true and accurate information, either Freddie Mac determines that:
 1. The Mortgage would not have been eligible for sale under the terms of the Seller’s Purchase Documents in effect on the Settlement Date, or
 2. The Mortgage would have been eligible for sale, but under different terms

For purposes of finding three or more Mortgages to constitute the pattern, both Mortgages that have obtained relief under the framework and Mortgages that have not obtained relief may be counted. If Mortgages that have not obtained relief are counted for purposes of establishing a pattern, those Mortgages must meet all requirements of this exclusion (i.e., three or more Mortgages, common pattern of activity, significance) in order for Freddie Mac to enforce a remedy for each Mortgage.

In determining whether a misrepresentation is significant, Freddie Mac will rely on its Loan Product Advisor simulator, which approximates the Risk Class at the time of delivery. Freddie Mac will compare the Loan Product Advisor simulator assessment using true and accurate information with the Loan Product Advisor simulator assessment received at the time of delivery.

A misrepresentation will be considered significant only if the Mortgage receives a worse Loan Product Advisor assessment from the simulator than was received at the time of delivery to Freddie Mac, except that Freddie Mac will also take into account any applicable negotiated terms of business and the impact of any undisclosed concessions, concealed transaction terms or other violations of the Seller’s Purchase Documents that are involved in the misrepresentation but are not assessed by the Loan Product Advisor simulator when determining significance. Freddie Mac will notify the Seller/Servicer of any such undisclosed matters or violations that are considered in connection with determining significance and will provide the Seller/Servicer with documentation supporting the significance determination.

If Freddie Mac determines that the Mortgage would have been eligible for sale but under different terms than those under which the Mortgage was sold, as described in number 2 of the third bullet above, Freddie Mac will not seek repurchase, but instead

will re-price the Mortgage, consistent with the Seller's Purchase Documents in effect on the Settlement Date, to reflect the true risk profile of the Mortgage.

As an exception to the above, Mortgages involving fraud will be subject to repurchase, regardless of whether the above test (three or more Mortgages, common pattern of activity, significance) has been met. For purposes of this life-of-loan representation and warranty only, "fraud" is established either by:

- An adjudicated claim affirming fraud by or against the Seller or other party to the Mortgage transaction, or
- Freddie Mac finding clear and convincing evidence that a Seller or other party to the Mortgage transaction knowingly executed or participated in a scheme or artifice in connection with the underwriting, origination or sale of a Mortgage to:
 - Defraud Freddie Mac or any other party to the Mortgage transaction, or
 - Obtain any moneys, funds, credits, assets, securities, or other properties from Freddie Mac or any other party to the Mortgage transaction by means of fraudulent pretenses, representations or promises

- **Data inaccuracies**

The Mortgage must not have any Uniform Loan Delivery Dataset (ULDD) data inaccuracies pertaining to the requirements described in the topics, chapters and sections of the Guide set forth in the table above, if and to the extent:

- The data inaccuracies affect five or more Mortgages and involve the same delivery data element(s), and
- The ULDD data differs from the information in the Mortgage file, and
- The data inaccuracies are "significant" in that, using the information in the Mortgage file to qualify the Borrower, Mortgaged Premises and/or project in which the Mortgaged Premises is located, either Freddie Mac determines that:
 1. The Mortgage would not have been eligible for sale under the terms of the Seller's Purchase Documents in effect on the Settlement Date, or
 2. The Mortgage would have been eligible for sale, but under different terms

For purposes of finding five or more Mortgages involving the same delivery data element inaccuracy, both Mortgages that have obtained relief under the framework and Mortgages that have not obtained relief may be counted. If Mortgages that have not obtained relief are counted for purposes of establishing that there were five or

more Mortgages with the same delivery data element inaccuracy, those Mortgages must meet all other requirements of this exclusion (i.e., same delivery data elements, data differs from information in the Mortgage file, significance) in order for Freddie Mac to enforce a remedy for each Mortgage.

In determining whether the data inaccuracy is significant, Freddie Mac will rely on its Loan Product Advisor simulator, which approximates the Risk Class at the time of delivery. Freddie Mac will compare the Loan Product Advisor simulator assessment using true and accurate information with the Loan Product Advisor simulator assessment received at the time of delivery.

A data inaccuracy will be considered significant only if the Mortgage receives a worse Loan Product Advisor assessment from the simulator than was received at the time of delivery to Freddie Mac, except that Freddie Mac will also take into account any applicable negotiated terms of business when determining significance. Freddie Mac will provide the Seller/Servicer with documentation supporting the significance determination.

If Freddie Mac determines that the Mortgage would have been eligible for sale but under different terms than those under which the Mortgage was sold, as described in number 2 of the third bullet above, Freddie Mac will not seek repurchase, but instead will re-price the Mortgage, consistent with the Seller's Purchase Documents in effect on the Settlement Date, to reflect the true risk profile of the Mortgage.

- **Clear title/First Lien priority.** The Mortgage must be enforceable as a First Lien (with no pending condemnation proceedings) and have clear title through foreclosure.
- **Compliance with laws.** The Mortgage must comply with all applicable federal, State and local laws, ordinances, regulations and orders, including, without limitation, State anti-predatory lending laws and regulations.

For all Mortgages with Application Received Dates on or after July 1, 2021, and all Mortgages with Settlement Dates after August 31, 2021, in addition to ensuring compliance with applicable laws, Sellers must ensure that all ATR Covered Mortgages satisfy the QM requirements of the Revised General QM Rule, even if the Seller is not required by law or regulation to comply with the Revised General QM Rule.

- **Unacceptable Mortgage products**

The Mortgage must be a Mortgage product acceptable for sale to Freddie Mac. The Seller/Servicer will not be relieved of Freddie Mac's enforcement of its representations and warranties for unacceptable Mortgage products, including, but not limited to, the following:

- A Mortgage with an interest-only feature
- A Graduated Payment Mortgage
- A Mortgage originated with stated or no income and/or asset documentation (Relief Refinance Mortgages and Enhanced Relief Refinance Mortgages are not considered a Mortgage originated with stated or no income and/or asset documentation)
- A Mortgage subject to negative amortization
- A construction loan (other than a Construction Conversion Mortgage)
- A daily simple interest Mortgage
- A Prepayment Penalty Mortgage with an Application Received Date on or after January 10, 2014 or a Freddie Mac Settlement Date after July 31, 2014
- A reverse Mortgage
- A Mortgage with balloon payments (with or without a reset option)
- A second Mortgage

1301.12: Non-discrimination (03/15/18)

Freddie Mac expects all Seller/Servicers with whom Freddie Mac does business to practice the principles of equal opportunity and non-discrimination in all business activities. As such, Seller/Servicers must not discriminate on the basis of race, color, religion, sex, age, marital status, disability, veteran status, genetic information (including family medical history), pregnancy, parental status, familial status, national origin, ethnicity, sexual orientation, gender identity or other characteristics protected by law.

Privacy Incident requirements

The Seller/Servicer must...

- 1.** Excepting only Non-critical Privacy Events for which there is a different reporting requirement (as defined and described below), notify Freddie Mac via e-mail at **Privacy_Incident_Management@FreddieMac.com** as soon as possible, but no later than 48 hours after discovering the Privacy Incident. Thereafter:
 - A. Provide the name, phone number and e-mail address of the contact leading the Privacy Incident investigation
 - B. Promptly investigate, correct and mitigate the Privacy Incident at the Seller/Servicer's expense, including identifying all Freddie Mac confidential information or Protected Information affected by the Privacy Incident and preventing the continuation and recurrence of the Privacy Incident
 - C. Comply in a timely manner with Applicable Laws (as defined in Section 1301.2) concerning notification requirements, giving Freddie Mac the opportunity to first review and comment on any notifications to Borrowers (if Freddie Mac is directly or indirectly identified in such notifications) or to regulatory or other State offices
 - D. Promptly following a request by Freddie Mac, provide Freddie Mac and its designees all information and assistance needed to enable Freddie Mac to evaluate the need for, and to timely make, any notification it deems necessary or advisable concerning the Privacy Incident
 - E. Provide Freddie Mac with such information, including technical and forensic reports if available, as Freddie Mac may reasonably request to assist Freddie Mac in evaluating the effect of the Privacy Incident on Freddie Mac's infrastructure and impacted Borrowers or employees. Within 48 hours after discovering the Privacy Incident, and thereafter as requested, provide Freddie Mac via e-mail at **Privacy_Incident_Management@FreddieMac.com** (or by such other means as Freddie Mac may otherwise request) all known details of the Privacy Incident, including related internal and external investigations and point of contact information for the Seller/Servicer and any law enforcement agencies involved for further inquiries.

Privacy Incident requirements

The Seller/Servicer must...

2. Ongoing reporting requirements in the event of a Privacy Incident – Seller/Servicer must report to Freddie Mac at Privacy_Incident_Management@FreddieMac.com (or by such other means as Freddie Mac may otherwise request), and provide the following information:
- A. Details and information as to the nature and impact of the Privacy Incident on Freddie Mac confidential information or Protected Information;
 - B. The nature and details of the information accessed, taken or exposed;
 - C. The likelihood of misuse and all facts and information relevant to actual or potential misuse;
 - D. All risk factors and potential damage estimates associated with the Privacy Incident (including reputational risk);
 - E. All actions that are being and will be taken to remediate the Privacy Incident and its cause, to protect individuals, business assets and Freddie Mac confidential information and Protected Information in the future, and to comply with Applicable Laws;
 - F. All postmortem and similar after-action reports generated; and
 - G. As and when requested by Freddie Mac, any other details and information concerning the Privacy Incident (e.g., final incident closure report, Certificate of Compliance (in form and substance requested by Freddie Mac evidencing, among other things, that the Seller/Servicer has, with respect to the Privacy Incident, complied with applicable federal, State and local data breach notification laws and regulations and the Guide), details such as causation factors and remediation actions or workarounds and lessons learned from the incident) and copies of any communications to Borrowers, State and federal agencies and offices, regulators, credit reporting agencies or others, and any interim status updates Freddie Mac may request, including details on information gained and progress made since the last update, until Freddie Mac is satisfied that there has been compliance with Applicable Laws and the event giving rise to the Privacy Incident is fully resolved and closed

If a Privacy Incident affects ten or fewer Freddie Mac Borrowers (“Non-critical Privacy Events”), a Seller/Servicer is required to respond to the Privacy Incident in accordance with all Applicable Laws, but a Seller/Servicer is not required to report such Non-critical Privacy Events to Freddie Mac within the 48-hour reporting window referenced above.

Seller/Servicers must report Non-critical Privacy Events to Freddie Mac on a quarterly basis. Seller/Servicers must submit such reports to Freddie Mac by the 15th day of each January, April, July and October, in each case covering Non-critical Privacy Events in the three immediately preceding calendar months.

For clarity and notwithstanding the exception for Non-critical Privacy Events, if a Privacy Incident involves any of the issues listed below, a Seller/Servicer must report the Privacy Incident to Freddie Mac within 48 hours (in accordance with this Section 1302.2) and comply with this Section 1302.2, regardless of the number of impacted individuals:

- A malicious actor caused the breach;
- There is suspicion or confirmation that the exposure has led or will lead to improper use of the breached data;
- The impacted States/territories or federal statute require the Seller/Servicers to notify State or federal regulators;
- There is active or anticipated media coverage of the Privacy Incident;
- Law enforcement has been or will be contacted regarding the Privacy Incident;
- The Seller/Servicer receives notice from a regulator that it is not or may not be compliant with its breach response obligations; or
- The Seller/Servicer is aware of or reasonably should anticipate material risk to Borrowers, investors, Freddie Mac (including without limitation, Freddie Mac's infrastructure or its reputation) or others, based on specific facts and circumstances

Security Incident requirements	
The Seller/Servicer must...	
	<p>1. As soon as possible, but no later than 48 hours after discovering the Security Incident, notify Freddie Mac via e-mail at Information_Security@FreddieMac.com of the Security Incident. Thereafter, the Seller/Servicer must:</p> <ul style="list-style-type: none"> A. Provide the name, phone number and e-mail address of the contact leading the Security Incident investigation B. Promptly investigate, correct and mitigate the Security Incident at the Seller/Servicer's expense, including identifying all Freddie Mac confidential information or Protected Information affected by the Security Incident and preventing the continuation and recurrence of the Security Incident C. Comply in a timely manner with Applicable Laws (as defined in Section 1301.2) concerning notification requirements, first giving Freddie Mac the opportunity to review and comment on any notification that in any way refers to or identifies Freddie Mac. Promptly following a request by Freddie Mac, provide Freddie Mac and its designees all information and assistance needed to enable Freddie Mac to timely make any notification it deems necessary or advisable concerning the Security Incident. D. Provide Freddie Mac with such information, including technical and forensic reports, as Freddie Mac may reasonably request to assist Freddie Mac in evaluating the effect of the Security Incident on Freddie Mac, Freddie Mac confidential information, Protected Information, Freddie Mac's operations and impacted Borrowers E. Within 48 hours after discovering the Security Incident, and thereafter as requested, provide Freddie Mac via e-mail at Information_Security@FreddieMac.com (or by such other means as Freddie Mac may otherwise request) all known details of the Security Incident, including related internal and external investigations and technical indicators of compromise (e-mail addresses, hash values, IP addresses, malware code, vector of compromise, etc.), all tactics, techniques, and procedures associated with the incident, details surrounding the attack methodology and timing of the incident, and point of contact information for the Seller/Servicer and any law enforcement agencies involved for further inquiries
2.	<p>Ongoing reporting requirements in the event of a Security Incident – Seller/Servicers must report to Freddie Mac at Information_Security@FreddieMac.com (or by such other means as Freddie Mac may otherwise request):</p> <ul style="list-style-type: none"> A. Details and information as to whether, and if so the extent to which, Freddie Mac data was accessed, taken or exposed;

Security Incident requirements	
The Seller/Servicer must...	
	<ul style="list-style-type: none"> B. The nature of the information accessed, taken or exposed; C. The likelihood of misuse of the information and, if applicable, how the information was misused; D. Any potential damage estimates associated with the Security Incident (including reputational risk); E. All actions that are being taken to remediate the Security Incident and its cause and to protect individuals and business assets in the future; and F. Any resulting after-action reports generated
3.	<p>Provide to Freddie Mac, as and when requested, other details concerning the Security Incident (final incident closure report, details such as remediation actions, workarounds or corrections that resolved the incident and restored service to its best quality, eradication and recovery steps taken, and lessons learned from the Security Incident) and copies of any communications to Borrowers, State and federal agencies, regulators, credit reporting agencies or others, as well as any interim status updates Freddie Mac may request, including details on information gained and progress made since the last update, until Freddie Mac is satisfied that the event giving rise to the Security Incident is fully resolved and closed.</p>

If a provision of the Guide or a Seller/Servicer's other Purchase Documents require more stringent Minimum Requirements or reporting of Security Incidents or Privacy Incidents, then the Seller/Servicer must adhere to those more stringent requirements.

1302.3: Business continuity planning (07/03/23)

A Freddie Mac Seller/Servicer must have a written business continuity plan in place to support its ongoing ability to conduct business operations and maintain or restore Freddie Mac Mortgage proprietary information, Mortgage files, data, Protected Information and records in the event of a disaster or other interruption to business operations and processes. A Seller/Servicer must be able to maintain and restore any such information it is required to retain, including following Freddie Mac's termination of Seller/Servicer's right to sell or service Mortgages. When electronic or other information is destroyed, it must be rendered unreadable and incapable of being re-created. Hard copy records must be properly and securely destroyed and must be accompanied by a certificate of destruction (or other applicable evidence of destruction). Upon request, Seller/Servicers will provide to Freddie Mac certificates of destruction or other evidence demonstrating the fact and manner of destruction, be it electronic, paper, hard drive or other media that contained the affected information.

At a minimum, the Seller/Servicer must:

1. Establish and maintain a written business continuity policy and plan that is approved by management, addresses potential disruptions and is reviewed and updated not less than annually
2. Establish a governing body or committee to provide guidance for the Seller/Servicer's business continuity plan
3. Not less than annually, conduct:
 - A business disruption impact analysis of the organization, and
 - A test of the Seller/Servicer's business continuity plan. This includes recovering predefined critical business functions.
4. Conduct a formal risk and threat assessment of the organization at least every two years, and more frequently as significant changes to business operations occur
5. Establish and develop a plan for activating a formal crisis management team that is responsible for, among other things, implementing a documented crisis management plan and determining whether an event constitutes a crisis
6. Review, maintain and update not less than annually the documented crisis management plan and share such plan with Freddie Mac upon written request
7. Require any Related Third Party to (a) comply with requirements substantially similar to those imposed on the Seller/Servicer under Section 1302.2 and this Section 1302.3 and (b) refrain from interfering with or impairing any obligations of the Seller/Servicer to Freddie Mac, under a Purchase Document or elsewhere, of which any member of the Related Third Party's Senior Management has actual knowledge
8. Designate Freddie Mac as an express, intended third-party beneficiary of each agreement with a Related Third Party, a breach of which may have a Material Adverse Effect and include in the agreement the obligations referenced in the foregoing paragraph 7. Notwithstanding the foregoing, the third-party designation requirement shall not apply to agreements with any of the Seller/Servicer's counterparties that have direct relationship(s) with Freddie Mac relative to the same subject matter and Freddie Mac has direct standing to enforce the terms of the subject agreement. (MIs, credit bureaus or Warehouse Lenders, for example, may qualify as such counterparties.) In determining whether the third-party designation requirement applies to a specific counterparty, the Seller/Servicer shall seek clarification from Freddie Mac.
9. Indemnify Freddie Mac and its directors, officers, employees, agents, successors and assigns and hold each harmless from and against any and all liabilities, losses, claims,

actions, damages, including, but not limited to, indirect, incidental, special or consequential damages, whether foreseeable or not, judgments, costs and expenses, including reasonable attorneys' fees, arising directly or indirectly out of or relating to any breach of a Seller/Servicer representation, warranty, covenant and/or obligation under Section 1302.2 or this Section 1302.3, whether such breach arises out of its own action or inaction or the action or inaction of a Related Third Party or of any Seller/Servicer or Related Third Party director, officer, employee, subcontractor, partner, principal, agent, successor or assign. Freddie Mac shall provide the Seller/Servicer with notice of any such claim after it comes to Freddie Mac's attention

Chapter 1302: Information Security and Business Continuity Planning

1302.1: Overview of information security and business continuity planning requirements (07/03/23)

To minimize Freddie Mac's risk of loss in the event of a disaster or unexpected disruption to critical business processes, a Seller/Servicer must have and maintain an information security program and business continuity plan(s) that ensure its ongoing ability to conduct business operations with Freddie Mac. Information security program and business continuity plan requirements must extend to the confidentiality, integrity and availability of Freddie Mac confidential information (as defined in Section 1201.8(a)) and Protected Information (as defined in Section 8101.8) retained by a Seller/Servicer following Freddie Mac's termination of the Seller/Servicer's right to sell or service Mortgages.

This chapter contains the minimum information security program requirements Seller/Servicers must implement to reduce the impact and likelihood of unauthorized persons (or authorized persons with malicious or unlawful intentions) from gaining access to Freddie Mac's proprietary information, data and Protected Information in:

- Systems, as defined in Section 2401.1
- Seller/Servicers' files, records, storage facilities and systems
- Files, records, storage facilities and systems of any Related Third Party

This chapter also includes the minimum requirements for a Seller/Servicer's business continuity plan to support continuation of critical business processes necessary to comply with the Seller/Servicer's Purchase Documents.

These information security and business continuity minimum requirements (together, the "Minimum Requirements") are not intended to replace the Seller/Servicer's standards, policies and procedures but are intended to require certain minimum controls that must be in place as part of such standards, policies and procedures. If a Seller/Servicer's regulator has established information security and/or business continuity plan requirements that exceed Freddie Mac's Minimum Requirements, or if a provision of the Guide or the Seller/Servicer's other Purchase Documents requires more stringent minimum requirements, then the more rigorous requirements shall apply. A Seller/Servicer's compliance with the Minimum Requirements will not relieve the Seller/Servicer from any liability arising or accruing under any other provision in the Purchase Documents. A Seller/Servicer's failure to comply with the Minimum Requirements may result in

termination of the Seller/Servicer's access to any or all Systems. In addition, Freddie Mac may take other actions available under the Guide, the Seller/Servicer's other Purchase Documents, any user agreement or law.

The [**Federal Financial Institutions Examination Council**](#) and [**National Institute of Standards in Technology**](#) provide detailed guidance on the components of a successful information security program, business continuity plan and related activities. Seller/Servicers are strongly encouraged to review this guidance.

1302.2: Information security (07/03/23)

(a) Relevant terms

Seller/Servicers should be familiar with the following terms as they relate to information security requirements:

- **Authentication:** The process in which a system verifies the identity of an individual, usually based on some form of credential(s) (password/ID, token, etc.)
- **Encryption:** The process of encoding or obfuscating messages or information in such a way that only authorized parties can read it
- **Vulnerability management:** The process of identifying and testing known software vulnerabilities within a system and prioritizing remediation according to each vulnerability's likelihood of occurrence and how the exploitation of the vulnerability would impact the system

(b) Information security minimum requirements

(i) Information security program

Seller/Servicers must define an individual or group of individuals responsible for the development of information security requirements, including the adoption, implementation, maintenance and administration of written minimum-security standards, policies and procedures that responsibly address critical issues such as user responsibilities (e.g., "Acceptable Use"); ownership of and access to information; baseline security practices; physical, administrative and technical security protection mechanisms and other requirements.

Not less than annually, Seller/Servicers must review and assess the adequacy of their information security policies and procedures used in connection with the selling and Servicing of Freddie Mac Mortgages to ensure compliance with the Guide, their other Purchase Documents and industry best practices (including as set forth by the Federal Financial Institutions Examination Council and National Institute of Standards in Technology). Upon request of Freddie Mac,

Seller/Servicers must make their information security program policies and procedures available and provide an attestation of the adequacy of these policies and procedures, including following Freddie Mac's termination of a Seller/Servicer's right to sell or service Mortgages.

(ii) Human resources security

- Pre-employment screening: Seller/Servicers must conduct, or retain a qualified third party to conduct, thorough background verification checks (screening) for all candidates for employment or contractor status who will have access to Freddie Mac confidential information, Protected Information or Systems
- Code of conduct or non-disclosure agreement: Prior to being granted access to Freddie Mac confidential information, Protected Information or Systems, Seller/Servicers must require all employees, contractors and third parties to (i) sign a non-disclosure agreement or (ii) be subject to a code of conduct, which in either case includes obligations to restrict the use or disclosure of and to maintain as confidential all Freddie Mac confidential information
- Protected Information and information related to or contained in Systems: The code of conduct must be acknowledged by the employee, contractor or third party, and must address at least the following subjects:
 - Appropriate use of company assets
 - Information protection, including non-disclosure and confidentiality
 - Records management
 - Information security and privacy
 - Business courtesies
 - Personal investments and insider trading
 - Conflicts of interest
- Information security awareness, education and training: At least annually, Seller/Servicers must provide information security awareness training to all employees, contractors and third parties who have access to Freddie Mac confidential information, Protected Information and/or Systems. The awareness training must be current in substance and reflect up-to-date vulnerabilities, threats and techniques, including information about phishing campaigns and techniques. At a minimum, the training must provide details on roles and responsibilities for all users in protecting information at the

Seller/Servicer, along with practical ways to incorporate information security into daily routines.

(iii)Physical and environmental security controls

Seller/Servicers must create and maintain:

- A physical security control program of the organization's buildings and facilities that contain information systems, designed to detect, monitor and prevent unauthorized access and to respond to physical security incidents using real-time physical intrusion alarms and surveillance equipment
- An updated list of personnel with authorized access to facilities where information systems reside, including an access privilege review performed not less than annually and upon the departure of any authorized personnel
- Environmental controls to monitor, mitigate and protect the organization with regards to a loss of connectivity, access to or integrity of information and damage caused by natural disasters or man-made incidents such as fire, earthquake, flood, hurricane, tornado or weather-related adverse conditions

(iv)Communications and operations management

Seller/Servicers must implement technical security measures designed to monitor for, mitigate against and prevent malicious software, stop unwanted spam and traffic and to protect against unauthorized use of wireless connections. Measures must include those provided in the remainder of this section or meet industry best practices, whichever is more stringent.

(v) Data transmission and data loss prevention

Seller/Servicers must:

- Maintain a data loss prevention/transmission protection mechanism and related written policy establishing requirements to protect the confidentiality and integrity of information exchange using technology applications or information systems
- Ensure adequate and up-to-date data loss prevention software is used and a corresponding management process is in place to scan for sensitive information stored on media and outgoing transmissions over public communication paths as well as to restrict the transfer of data to USB and other removable media devices at the desktop level.

(vi)Anti-virus program/updates

Seller/Servicers must install anti-virus software to protect servers and end user systems and must keep all such software up to date with the latest anti-virus software and definitions.

(vii) Network security

Seller/Servicers must:

- Implement information technology controls such as stateful firewalls to block all traffic inbound from, and outbound to, public networks that have not been expressly permitted by policy (i.e., “deny by default”)
- Manage and restrict ports, protocols, and services to only those that are required and approved for business operations
- Formally recertify and authorize firewall rules upon each significant change (including, but not limited to, physical appliance updates, firmware updates and other changes to firewall technology) in infrastructure and otherwise not less than annually

(viii) Mobile computing

Seller/Servicers must maintain a written mobile device/computing management (MDM) policy that has been approved by management and communicated to all appropriate personnel. This policy must reflect current and best practices, specifying parameters including but not limited to:

- Approved and prohibited applications
- Cryptographic mechanisms to ensure data security
- Identity and access management requirements
- Software updates

(ix) Wireless networks

Seller/Servicers must control, secure, and monitor wireless access points. In addition, Seller/Servicers that offer wireless networks for network users must:

- Implement and keep up to date a strong Wireless Local Area Network (WLAN) Authentication method that meets or exceeds the current industry standard Encryption strength and technology
- Prohibit use of outdated wireless technologies such as Wired Equivalent Privacy (WEP)

- At least annually, perform reviews of approved wireless networks to validate and verify authorized users and access points
- Password protect and control administrative access to the router

(x) Vulnerability management

Seller/Servicers must conduct vulnerability testing on a regular basis and have a process in place to analyze and remediate identified vulnerabilities. To accomplish this, the Seller/Servicer must:

- Not less than annually, employ a qualified and independent third party to conduct penetration testing on systems or system components used to store, access, process and/or transmit Freddie Mac confidential information or Protected Information or connect to Systems
- Maintain a written vulnerability assessment process and policy that has been approved by management, communicated to appropriate personnel and has an owner that implements, maintains and reviews the policy at least annually to ensure that it consistently reflects industry best practices
- Remediate all identified vulnerabilities
- Maintain a record of all identified vulnerabilities and their remediation status

(xi) Configuration and patch management

Seller/Servicers must:

- Implement and maintain a written patch management process and a policy that has been approved by management, communicated to all appropriate personnel and has a designated owner that reviews, implements and maintains the policy to ensure that it consistently reflects industry best practices
- Develop and execute a process for developing and maintaining secure configuration baselines (also known as hardening guides, baseline secure configurations) of infrastructure components
- Deploy intrusion detection and/or prevention systems (IDS and IPS) patch management with generated events fed into centralized systems for analysis
- Define, implement and maintain preventive controls designed to block malicious messages and attachments from entering the environment

- Designate qualified personnel responsible for performing timely software updates and patches and maintain a process for testing and installing software updates as they become available

(xii) Auditing, logging and monitoring

Seller/Servicers must:

- Develop, implement and maintain written guidelines and requirements for the logging and monitoring of activities and action within information systems. If the Seller/Servicer uses an enterprise log management function, the subject requirements must be integrated with such log management function.
- Develop, implement and maintain written log retention and handling requirements to ensure logs retain relevant, useable and timely information sufficient to identify user access and/or system activities
- Perform an independent security assessment of the control environment not less than annually and upon the occurrence of any data Security Incident or Privacy Incident (defined below).

(xiii) Software and application development life cycle (SDLC)

If a Seller/Servicer develops applications or software that store, access, process or transmit Freddie Mac confidential information, Protected Information or connects to Systems, the Seller/Servicer must develop, implement and maintain a written SDLC process and policy that has been approved by management. This policy must include at minimum:

- Management and separation of production and development environments that reflect contemporary best practices
- Secure coding requirements
- Open-source requirements
- Code development and scanning pre- and post-deployment

(xiv) Data Encryption

Seller/Servicers must:

- Maintain a formal Encryption and cryptography use policy that has been approved by management, has been communicated to appropriate personnel and has an owner that implements, maintains and reviews the policy to ensure it consistently reflects industry best practices

- Ensure the protection, integrity and confidentiality of Freddie Mac confidential information and Protected Information in transit and at rest
- Deploy cryptography standards that meet or exceed the then-current industry standard Encryption strength and technology and prohibit use of outdated technologies
- Use Encryption mechanisms on portable end-user devices to protect data if the hardware (laptop, mobile device, etc.) is lost or stolen
- Deploy data-at-rest and data-in-transit Encryption or commensurate data protections for Freddie Mac confidential information and Protected Information

(xv) Incident management

Seller/Servicers must:

- Develop and maintain, and implement when triggered, an incident response plan that provides a roadmap for implementing incident response capabilities and defines the resources and management support needed
- Annually, unless formally activated, test the effectiveness of the incident response plan and capabilities

(xvi) Secure transmission of data to Systems

Seller/Servicers must not transmit to Systems, through an API or otherwise, any materials that contain bugs, viruses, worms or other functions, routines, devices or instructions that may create any unauthorized access, or damage the protection, integrity and confidentiality of data in transit.

(xvii) Access control

A. Access management policy

A Seller/Servicer must:

- Establish, implement and maintain an access management policy that aligns with industry best practices, including a process for granting and removing system access, requirements for Authentication and rules of behavior
- Define and enforce access and authentication requirements for system administrators and other privileged accounts

- Define and enforce remote access requirements, including acceptable use, approvals and recertification processes
- Define and enforce requirements around locked accounts after multiple failed login attempts and timeout requirements
- Establish and enforce access control methods that limit access to systems, physical or virtual resources and grant access to users on a need-to-know basis
- Define and enforce requirements for multi-factor authentication where applicable (privileged sessions, remote connectivity, applications housing Freddie Mac confidential information or Protected Information, etc.)
- Manage user accounts for Systems, in accordance with the Guide and the other Purchase Documents. Seller/Servicers must monitor account access for users who transfer roles or are terminated or no longer need access to their accounts. Seller/Servicers must notify Freddie Mac (**see Directory 8**) within one Business Day after any transfer or termination.

Refer to and comply with the instructions to update systems access for relevant applications at <https://sf.freddiemac.com/tools-learning/technology-login>

B. Granting, removing and reviewing access

Seller/Servicers must maintain and enforce written procedures for the following:

- Approval of access requests
- Removal of access for terminations and transfers
- Analysis of user access and removal of access that is inactive or no longer needed
- At least annual review of all user access privileges and certification of access according to the minimum information necessary to access permission rules
- Prohibit or prevent using the same service account identifiers and passwords in both production and non-production environments

C. Authentication requirements and guidelines

Seller/Servicers must require employees to authenticate or prove their identity to the system through a private, protected method or process that includes, but is not limited to, user identification codes, passwords, personal identification numbers, a smart card and/or a token device. If passwords are used, the Authentication policy must mandate, and Seller/Servicers must enforce, minimum guidelines for password complexity, reuse timelines and password change timelines.

D. Asset management

Seller/Servicers must maintain an inventory management system to track physical and software assets, such as end-user technology, servers, network devices, and corresponding asset ownership. The inventory management system must be reconciled to actual inventory at least annually to verify all assets are included.

Documented procedures must be in place detailing guidelines and requirements for tracking the removal of assets from a facility.

E. Cloud computing

When a Seller/Servicer consumes or provides cloud services that store, process, access or transmit Freddie Mac confidential information or Protected Information or connect to any System, the Seller/Servicer must maintain a formal cloud computing policy that has been approved by management and communicated to appropriate personnel, and the Seller/servicer must designate an owner to maintain and review the policy to ensure it consistently reflects industry best practices.

F. Vendor risk management program

Seller/Servicers must implement a vendor risk management program to formally evaluate, track and measure third-party risk; to assess its impact on all aspects of the organization's business; and to develop compensating controls or other forms of mitigation to safeguard and protect Freddie Mac confidential information and Protected Information from unauthorized persons, malicious software or other harmful computer information, commands, codes or programs.

Seller/Servicers must maintain with all Related Third Parties that store, process, access or transmit Freddie Mac confidential information or Protected Information a written agreement that obligates them to comply with Minimum Requirements similar to what is outlined within this chapter.

(xviii) Breach notification and related obligations

If a Seller/Servicer knows or believes, or if a reasonable information or cyber security professional could conclude from the circumstances and available information, that (a) there has been any unauthorized acquisition of data or computing resources, or unauthorized access to data or computing resources or any other security related issue that may compromise the security, confidentiality, availability, integrity or privacy of Freddie Mac confidential information or Protected Information (“Security Incident”) or (b) Freddie Mac confidential information or Protected Information has been exposed, accessed or used without authorization (“Privacy Incident”), the Seller/Servicer must follow the requirements in the applicable tables below:

Privacy Incident requirements

The Seller/Servicer must...

- 1.** Excepting only Non-critical Privacy Events for which there is a different reporting requirement (as defined and described below), notify Freddie Mac via e-mail at **Privacy_Incident_Management@FreddieMac.com** as soon as possible, but no later than 48 hours after discovering the Privacy Incident. Thereafter:
 - A. Provide the name, phone number and e-mail address of the contact leading the Privacy Incident investigation
 - B. Promptly investigate, correct and mitigate the Privacy Incident at the Seller/Servicer's expense, including identifying all Freddie Mac confidential information or Protected Information affected by the Privacy Incident and preventing the continuation and recurrence of the Privacy Incident
 - C. Comply in a timely manner with Applicable Laws (as defined in Section 1301.2) concerning notification requirements, giving Freddie Mac the opportunity to first review and comment on any notifications to Borrowers (if Freddie Mac is directly or indirectly identified in such notifications) or to regulatory or other State offices
 - D. Promptly following a request by Freddie Mac, provide Freddie Mac and its designees all information and assistance needed to enable Freddie Mac to evaluate the need for, and to timely make, any notification it deems necessary or advisable concerning the Privacy Incident
 - E. Provide Freddie Mac with such information, including technical and forensic reports if available, as Freddie Mac may reasonably request to assist Freddie Mac in evaluating the effect of the Privacy Incident on Freddie Mac's infrastructure and impacted Borrowers or employees. Within 48 hours after discovering the Privacy Incident, and thereafter as requested, provide Freddie Mac via e-mail at **Privacy_Incident_Management@FreddieMac.com** (or by such other means as Freddie Mac may otherwise request) all known details of the Privacy Incident, including related internal and external investigations and point of contact information for the Seller/Servicer and any law enforcement agencies involved for further inquiries.

Privacy Incident requirements

The Seller/Servicer must...

2. Ongoing reporting requirements in the event of a Privacy Incident – Seller/Servicer must report to Freddie Mac at Privacy_Incident_Management@FreddieMac.com (or by such other means as Freddie Mac may otherwise request), and provide the following information:
- A. Details and information as to the nature and impact of the Privacy Incident on Freddie Mac confidential information or Protected Information;
 - B. The nature and details of the information accessed, taken or exposed;
 - C. The likelihood of misuse and all facts and information relevant to actual or potential misuse;
 - D. All risk factors and potential damage estimates associated with the Privacy Incident (including reputational risk);
 - E. All actions that are being and will be taken to remediate the Privacy Incident and its cause, to protect individuals, business assets and Freddie Mac confidential information and Protected Information in the future, and to comply with Applicable Laws;
 - F. All postmortem and similar after-action reports generated; and
 - G. As and when requested by Freddie Mac, any other details and information concerning the Privacy Incident (e.g., final incident closure report, Certificate of Compliance (in form and substance requested by Freddie Mac evidencing, among other things, that the Seller/Servicer has, with respect to the Privacy Incident, complied with applicable federal, State and local data breach notification laws and regulations and the Guide), details such as causation factors and remediation actions or workarounds and lessons learned from the incident) and copies of any communications to Borrowers, State and federal agencies and offices, regulators, credit reporting agencies or others, and any interim status updates Freddie Mac may request, including details on information gained and progress made since the last update, until Freddie Mac is satisfied that there has been compliance with Applicable Laws and the event giving rise to the Privacy Incident is fully resolved and closed

If a Privacy Incident affects ten or fewer Freddie Mac Borrowers (“Non-critical Privacy Events”), a Seller/Servicer is required to respond to the Privacy Incident in accordance with all Applicable Laws, but a Seller/Servicer is not required to report such Non-critical Privacy Events to Freddie Mac within the 48-hour reporting window referenced above.

Seller/Servicers must report Non-critical Privacy Events to Freddie Mac on a quarterly basis. Seller/Servicers must submit such reports to Freddie Mac by the 15th day of each January, April, July and October, in each case covering Non-critical Privacy Events in the three immediately preceding calendar months.

For clarity and notwithstanding the exception for Non-critical Privacy Events, if a Privacy Incident involves any of the issues listed below, a Seller/Servicer must report the Privacy Incident to Freddie Mac within 48 hours (in accordance with this Section 1302.2) and comply with this Section 1302.2, regardless of the number of impacted individuals:

- A malicious actor caused the breach;
- There is suspicion or confirmation that the exposure has led or will lead to improper use of the breached data;
- The impacted States/territories or federal statute require the Seller/Servicers to notify State or federal regulators;
- There is active or anticipated media coverage of the Privacy Incident;
- Law enforcement has been or will be contacted regarding the Privacy Incident;
- The Seller/Servicer receives notice from a regulator that it is not or may not be compliant with its breach response obligations; or
- The Seller/Servicer is aware of or reasonably should anticipate material risk to Borrowers, investors, Freddie Mac (including without limitation, Freddie Mac's infrastructure or its reputation) or others, based on specific facts and circumstances

Security Incident requirements	
The Seller/Servicer must...	
	<p>1. As soon as possible, but no later than 48 hours after discovering the Security Incident, notify Freddie Mac via e-mail at Information_Security@FreddieMac.com of the Security Incident. Thereafter, the Seller/Servicer must:</p> <ul style="list-style-type: none"> A. Provide the name, phone number and e-mail address of the contact leading the Security Incident investigation B. Promptly investigate, correct and mitigate the Security Incident at the Seller/Servicer's expense, including identifying all Freddie Mac confidential information or Protected Information affected by the Security Incident and preventing the continuation and recurrence of the Security Incident C. Comply in a timely manner with Applicable Laws (as defined in Section 1301.2) concerning notification requirements, first giving Freddie Mac the opportunity to review and comment on any notification that in any way refers to or identifies Freddie Mac. Promptly following a request by Freddie Mac, provide Freddie Mac and its designees all information and assistance needed to enable Freddie Mac to timely make any notification it deems necessary or advisable concerning the Security Incident. D. Provide Freddie Mac with such information, including technical and forensic reports, as Freddie Mac may reasonably request to assist Freddie Mac in evaluating the effect of the Security Incident on Freddie Mac, Freddie Mac confidential information, Protected Information, Freddie Mac's operations and impacted Borrowers E. Within 48 hours after discovering the Security Incident, and thereafter as requested, provide Freddie Mac via e-mail at Information_Security@FreddieMac.com (or by such other means as Freddie Mac may otherwise request) all known details of the Security Incident, including related internal and external investigations and technical indicators of compromise (e-mail addresses, hash values, IP addresses, malware code, vector of compromise, etc.), all tactics, techniques, and procedures associated with the incident, details surrounding the attack methodology and timing of the incident, and point of contact information for the Seller/Servicer and any law enforcement agencies involved for further inquiries
2.	<p>Ongoing reporting requirements in the event of a Security Incident – Seller/Servicers must report to Freddie Mac at Information_Security@FreddieMac.com (or by such other means as Freddie Mac may otherwise request):</p> <ul style="list-style-type: none"> A. Details and information as to whether, and if so the extent to which, Freddie Mac data was accessed, taken or exposed;

Security Incident requirements	
The Seller/Servicer must...	
	<ul style="list-style-type: none"> B. The nature of the information accessed, taken or exposed; C. The likelihood of misuse of the information and, if applicable, how the information was misused; D. Any potential damage estimates associated with the Security Incident (including reputational risk); E. All actions that are being taken to remediate the Security Incident and its cause and to protect individuals and business assets in the future; and F. Any resulting after-action reports generated
3.	<p>Provide to Freddie Mac, as and when requested, other details concerning the Security Incident (final incident closure report, details such as remediation actions, workarounds or corrections that resolved the incident and restored service to its best quality, eradication and recovery steps taken, and lessons learned from the Security Incident) and copies of any communications to Borrowers, State and federal agencies, regulators, credit reporting agencies or others, as well as any interim status updates Freddie Mac may request, including details on information gained and progress made since the last update, until Freddie Mac is satisfied that the event giving rise to the Security Incident is fully resolved and closed.</p>

If a provision of the Guide or a Seller/Servicer's other Purchase Documents require more stringent Minimum Requirements or reporting of Security Incidents or Privacy Incidents, then the Seller/Servicer must adhere to those more stringent requirements.

1302.3: Business continuity planning (07/03/23)

A Freddie Mac Seller/Servicer must have a written business continuity plan in place to support its ongoing ability to conduct business operations and maintain or restore Freddie Mac Mortgage proprietary information, Mortgage files, data, Protected Information and records in the event of a disaster or other interruption to business operations and processes. A Seller/Servicer must be able to maintain and restore any such information it is required to retain, including following Freddie Mac's termination of Seller/Servicer's right to sell or service Mortgages. When electronic or other information is destroyed, it must be rendered unreadable and incapable of being re-created. Hard copy records must be properly and securely destroyed and must be accompanied by a certificate of destruction (or other applicable evidence of destruction). Upon request, Seller/Servicers will provide to Freddie Mac certificates of destruction or other evidence demonstrating the fact and manner of destruction, be it electronic, paper, hard drive or other media that contained the affected information.

At a minimum, the Seller/Servicer must:

1. Establish and maintain a written business continuity policy and plan that is approved by management, addresses potential disruptions and is reviewed and updated not less than annually
2. Establish a governing body or committee to provide guidance for the Seller/Servicer's business continuity plan
3. Not less than annually, conduct:
 - A business disruption impact analysis of the organization, and
 - A test of the Seller/Servicer's business continuity plan. This includes recovering predefined critical business functions.
4. Conduct a formal risk and threat assessment of the organization at least every two years, and more frequently as significant changes to business operations occur
5. Establish and develop a plan for activating a formal crisis management team that is responsible for, among other things, implementing a documented crisis management plan and determining whether an event constitutes a crisis
6. Review, maintain and update not less than annually the documented crisis management plan and share such plan with Freddie Mac upon written request
7. Require any Related Third Party to (a) comply with requirements substantially similar to those imposed on the Seller/Servicer under Section 1302.2 and this Section 1302.3 and (b) refrain from interfering with or impairing any obligations of the Seller/Servicer to Freddie Mac, under a Purchase Document or elsewhere, of which any member of the Related Third Party's Senior Management has actual knowledge
8. Designate Freddie Mac as an express, intended third-party beneficiary of each agreement with a Related Third Party, a breach of which may have a Material Adverse Effect and include in the agreement the obligations referenced in the foregoing paragraph 7. Notwithstanding the foregoing, the third-party designation requirement shall not apply to agreements with any of the Seller/Servicer's counterparties that have direct relationship(s) with Freddie Mac relative to the same subject matter and Freddie Mac has direct standing to enforce the terms of the subject agreement. (MIs, credit bureaus or Warehouse Lenders, for example, may qualify as such counterparties.) In determining whether the third-party designation requirement applies to a specific counterparty, the Seller/Servicer shall seek clarification from Freddie Mac.
9. Indemnify Freddie Mac and its directors, officers, employees, agents, successors and assigns and hold each harmless from and against any and all liabilities, losses, claims,

actions, damages, including, but not limited to, indirect, incidental, special or consequential damages, whether foreseeable or not, judgments, costs and expenses, including reasonable attorneys' fees, arising directly or indirectly out of or relating to any breach of a Seller/Servicer representation, warranty, covenant and/or obligation under Section 1302.2 or this Section 1302.3, whether such breach arises out of its own action or inaction or the action or inaction of a Related Third Party or of any Seller/Servicer or Related Third Party director, officer, employee, subcontractor, partner, principal, agent, successor or assign. Freddie Mac shall provide the Seller/Servicer with notice of any such claim after it comes to Freddie Mac's attention

Chapter 1401: Electronic Transactions

1401.1: Electronic Transactions (06/12/19)

This chapter sets forth the requirements for Electronic Transactions, as defined in Section 1401.2. The Electronic Transactions permitted or required hereunder are Eligible Electronic Transactions, as such term is defined in Section 1401.2. See Chapter 1402 for Freddie Mac's selling and Servicing requirements for Mortgages with Electronic Notes (eNotes).

A Seller/Servicer who wishes to sell and/or service eMortgages (as defined in Section 1402.2) for Freddie Mac should contact its Freddie Mac account representative or the Freddie Mac eMortgage Team (eMortgage_Team@FreddieMac.com) to begin the process of determining its eligibility to sell and/or service eMortgages for Freddie Mac.

1401.2: Defined terms (01/13/22)

The following defined terms are used throughout Chapter 1401, other chapters of the Guide and the Seller/Servicer's other Purchase Documents for all Eligible Electronic Transactions. Any defined term in Section 1401.2 that is used in the definition of another defined term in Section 1401.2 will be in quotes (" ") unless the defined term is in a title.

Closing Documents: All loan documents (excluding eNotes) provided to a Borrower at the closing (settlement) of a Mortgage, as required by: (i) Federal, State and/or local law, regulations, rules or ordinances; (ii) the originating lender; and (iii) Freddie Mac

Confidential Means of Access: A private, protected method or process used to enter Freddie Mac's applications and systems, which includes, but is not limited to, user identification codes, passwords, personal identification numbers or other Freddie Mac permitted methods of or processes to access Freddie Mac's confidential and proprietary "Systems"

Electronic: Relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities, as defined in the "UETA" and/or "E-SIGN"

Electronic Notarization: Notarization by "Electronic" means of a person's "Electronic Signature," after proper identification by a Notary Public, licensed or otherwise authorized by the State in which the Notary Public is domiciled, which complies with the State's laws, regulations and rules, including, without limitation, the "UETA" and/or "E-SIGN"

Electronic Payment Deferral Agreement means an agreement that is an Electronic Record that complies with the applicable Payment Deferral requirements of the Guide, as set forth in and subject to Chapter 9203.

Electronic Record: A “Record” created, generated, sent, communicated, received, or stored by “Electronic” means, as defined in the “UETA” and/or “E-SIGN.” The term also includes a paper document converted into an Electronic Record.

Electronic Recording:

- Recording a copy of a paper Security Instrument or other paper document (together referred to as a “Paper Document”) with respect to which: (i) the Paper Document was created, executed, witnessed (if applicable) and notarized, in writing, using paper, pen and ink; (ii) the Seller, or its closing or title agent, electronically delivers an “Electronic” copy of the Paper Document to recorder’s office for recording; (iii) the recorder’s office returns to the Seller or its closing or title agent: (a) an “Electronic” or paper copy of the recorded copy of the Paper Document or (b) other form of confirmation containing the recording information; or
- Recording an “Electronic” copy of an “Electronic” Security Instrument or other “Electronic” document (together referred to as an, “Electronic Document”) with respect to which: (i) the Electronic Document was created, executed, witnessed (if applicable) and notarized, electronically, using “Electronic Records,” “Electronic Signatures” and “Electronic Notarization” or “Remote Online Notarization”; (ii) the Seller or its closing or title agent electronically delivers an “Electronic” copy of the Electronic Document to the recorder’s office for recording; and (iii) the recorder’s office returns to the Seller or its closing or title agent: (a) an “Electronic” or paper copy of the recorded copy of the Electronic Document, or (b) other form of confirmation containing the recording information

Electronic Signature: An “Electronic” sound, symbol or process attached to, or logically associated with, a contract or other “Record” and executed or adopted by a person with the intent to sign the “Record,” as defined in the “UETA” and/or “E-SIGN”

Electronic Transaction: An action or set of actions occurring between two or more persons relating to the conduct of business, commercial, or governmental affairs, using “Electronic” means, as defined in the “UETA” and/or “E-SIGN”

Eligible Electronic Transaction: An “Electronic Transaction” that Freddie Mac has required or permitted the Seller/Servicer to engage in and/or conduct, as specified in Chapter 1401, other chapters of the Guide or the Seller/Servicer’s other Purchase Documents

eModification Agreement means an agreement that is an Electronic Record that complies with the applicable modification requirements of the Guide and includes, with respect to paper Notes, Electronic modification agreements and Electronic assumption and release of liability agreements under Chapters 9206 and 8406, respectively.

E-SIGN: The federal Electronic Signatures in Global and National Commerce Act (15 U.S. Code, Chapter 96)

Federal Financial Institutions Examination Council or FFIEC: U.S. government interagency body empowered to prescribe uniform principles, standards, and report forms for the federal

examination of financial institutions by its members, which membership consists of: (i) Board of Governors of the Federal Reserve Board (FRB); (ii) Federal Deposit Insurance Corporation (FDIC); (iii) National Credit Union Administration (NCUA); (iv) the Office of the Comptroller of the Currency (OCC); and (v) Consumer Financial Protection Bureau (CFPB)

Federally Regulated Seller/Servicer: A Seller/Servicer that is regulated by one of the following federal regulators: (i) FRB; (ii) FDIC; (iii) NCUA; (iv) OCC; and (v) CFPB

Initial Loan Documents: All documents provided to a Borrower before the closing (settlement) of a Mortgage, as required by: (i) federal, State and/or local law, regulations, rules or ordinances, (ii) the originating lender and (iii) Freddie Mac

Record: Information that is inscribed on a tangible medium or that is stored in an electronic or other medium and is retrievable in perceivable form as defined in the “UETA” and/or “E-SIGN.” A Record may be a paper or an “Electronic” document.

Remote Online Notarization: A notarial act performed by means of an Electronic device or process that allows a notary public and a principal, who is not in the same physical location as the notary public, to complete a notarial act and communicate with each other simultaneously by sight and sound.

Systems: All computers, servers, fax machines, other Electronic devices, hardware, websites, Internet, private networks, telephone lines or wireless communications, together with software applications, security measures, proprietary coding, interfaces and/or connectivity used to create, present, sign, transfer, transmit, send, submit, deliver, receive, retrieve maintain and/or store Records, Electronic Records or Electronic Signatures in order to engage in and/or conduct Electronic Transactions

TPPs: Third-party providers, which include Correspondents, Mortgage Brokers, independent contractors, agents, Outsourced Vendors or other third parties, including a servicing, secondary marketing or other agent or other Related Third Party

UETA: The Uniform Electronic Transactions Act of 1999, promulgated by the U.S. Uniform Law Commission for consideration and enactment by the States. Reference to the UETA herein, means the UETA as promulgated by the U.S. Uniform Law Commission or the UETA as enacted by an applicable State.

1401.3: Requirements applicable to all Eligible Electronic Transactions (12/09/19)

The following requirements and applicable requirements in Chapter 1302 apply to all Eligible Electronic Transactions that Freddie Mac permits or requires the Seller/Servicer to engage in or conduct in this Chapter 1401, other Guide chapters, the Seller/Servicer’s other Purchase Documents and any user agreement(s) by and between the Seller/Servicer and Freddie Mac.

(Examples of some Eligible Electronic Transactions include, but are not limited to, use of Loan Selling Advisor®, Loan Product Advisor® and the Servicing Tools available through the Servicing Gateway.)

If these requirements conflict with requirements in other Guide chapters, the Seller/Servicer's other Purchase Documents or any user agreement(s) by and between the Seller/Servicer and Freddie Mac, the requirements in the other Guide chapters, the Seller/Servicer's other Purchase Documents or any user agreement(s) shall control and prevail over these requirements, but only to the extent necessary to resolve the conflict. If the Seller/Servicer believes there is any such conflict, the Seller/Servicer should contact Freddie Mac to discuss any such conflict in an effort to resolve it.

1401.4: Consent and agreement to engage in and conduct Eligible Electronic Transactions (03/02/16)

When the Seller/Servicer engages in or conducts Eligible Electronic Transactions with Freddie Mac, the Seller/Servicer agrees:

- That the Seller/Servicer consents to engage in or conduct Eligible Electronic Transactions with Freddie Mac
- To adopt (among other Electronic Signatures the Seller/Servicer adopts, from time to time) the Seller/Servicer's Freddie Mac Seller/Servicer number(s), a copy or representation of the Seller/Servicer's representative's written signature and/or Electronic Signature and/or such other symbols or processes as expressly required or permitted by Freddie Mac ("Seller/Servicer's Electronic Signature(s)")
- That Freddie Mac can rely on any paper Records (with or without Electronic Signatures) or Electronic Records (with or without Electronic Signatures) that are delivered to Freddie Mac
- That the Seller/Servicer will be bound by all Eligible Electronic Transactions the Seller/Servicer engages in or conducts with Freddie Mac
- That the Seller/Servicer will be bound by all Eligible Electronic Transactions that the Seller/Servicer engages in or conducts with Freddie Mac based upon telephone conversations, including those telephone conversations recorded by Freddie Mac in the ordinary course of business; provided, however, under no circumstances will Freddie Mac be bound by any telephone conversations recorded by the Seller/Servicer

1401.5: Security standards for all Eligible Electronic Transactions engaged in or conducted by the Seller/Servicer (05/02/16)

Freddie Mac will provide the Seller/Servicer with, or require the Seller/Servicer to create, a Confidential Means of Access (“CMA”) to Freddie Mac’s Systems or other Systems in connection with Eligible Electronic Transactions with Freddie Mac.

A breach of security by the Seller/Servicer (or any of the Seller/Servicer’s vendors, independent contractors, agents or other third parties, if applicable) with respect to the Seller/Servicer’s CMA to Freddie Mac’s Systems may result in unauthorized persons (or authorized persons with malicious or unlawful intentions) gaining access to Freddie Mac’s Systems. Such persons may: (i) destroy, damage or misappropriate Freddie Mac property or (ii) introduce malicious software (“Malware”) or other harmful computer information, commands, codes or programs (“Harmful Software”) into Freddie Mac’s Systems. Any such unlawful entry or intrusion into Freddie Mac’s Systems may result in substantial harm to Freddie Mac including, without limitation, damage to Freddie Mac’s Systems, Records and/or data or theft of confidential proprietary information and/or consumer personal private financial information.

The Seller/Servicer is responsible for protecting and safeguarding the Seller/Servicer’s CMA to Freddie Mac’s System and any third-party System, if applicable, from any and all malicious conduct or theft by any of its employees, vendors, independent contractors, agents or third parties, unauthorized persons, and Malware and Harmful Software that may:

- Enable unauthorized access to Freddie Mac’s Systems
- Cause or facilitate the destruction, corruption, malfunction or appropriation of, or damage or change to, any of Freddie Mac’s Systems or the Electronic Records and data (e.g., financial information, proprietary information, confidential information or personal private information) stored in Freddie Mac’s Systems

Refer to Section 1302.2 for information regarding Freddie Mac’s minimum information security program requirements.

The Seller/Servicer must notify Freddie Mac immediately in the event the Seller/Servicer:

- Sustains a breach of security in connection with the Seller/Servicer’s CMA to Freddie Mac’s Systems, or
- Becomes aware of the loss, theft or unauthorized disclosure or use of the Seller/Servicer’s CMA to Freddie Mac’s Systems or other Systems, or
- Has any reason to believe that the Seller/Servicer’s CMA to Freddie Mac’s Systems may be, has been or will be compromised and is no longer safe or secure

The Seller/Servicer's compliance with Freddie Mac's requirements in Section 1302.2 will not relieve the Seller/Servicer from any liability set forth in this chapter; provided, however, adopting and maintaining such minimum security standards should assist the Seller/Servicer in managing and mitigating the Seller/Servicer's security risks. The Seller/Servicer will be solely responsible for implementing and updating its security standards and assessing whether the Seller/Servicer should adopt more rigorous minimum security standards.

The Seller/Servicer's failure to adopt, implement, maintain, administer and update the required minimum security standards may result in termination of the Seller/Servicer's access to any or all of Freddie Mac's Systems. In addition, Freddie Mac may take other actions available under the Guide, the Seller/Servicer's other Purchase Documents, any user agreement or law.

1401.6: Security standards for Eligible Electronic Transactions engaged in or conducted by the Seller/Servicer's TPPs (05/02/16)

A Federally Regulated Seller/Servicer, that is expressly approved by Freddie Mac in the Sellers/Servicer' Purchase Documents to permit the Seller/Servicer's TPPs to engage in or conduct Eligible Electronic Transactions for or on behalf of the Seller/Servicer (or in connection with doing business with the Seller/Servicer) must contractually require its TPPs to comply with the following:

- The Seller/Servicer must require the TPPs to adopt the minimum security standards (or higher standards) as described in Section 1401.5
- The Seller/Servicer must require use of the mandatory minimum security standards (or higher standards) in the Seller/Servicer's written agreements with its TPPs
- The Seller/Servicer must require its TPPs to initially (and annually thereafter) certify to the Seller/Servicer that they have adopted and implemented the minimum security standards (or higher standards) before the TPP may conduct any Eligible Electronic Transactions for or on behalf of (or in connection with doing business with) the Seller/Servicer

The Seller/Servicer's TPPs' adoption of and compliance with the minimum security standards (or higher standards) in Section 1401.5 will not relieve the Seller/Servicer from any liability set forth in this chapter; provided, however, requiring the Seller/Servicer's TPPs to adopt and maintain such minimum security standards (or higher standards) should assist the Seller/Servicer and its TPPs to manage and mitigate the Seller/Servicer's and the TPP's security risks. The Seller/Servicer will be solely responsible for updating and implementing its minimum security standards and assessing whether the Seller/Servicer should adopt (and require its TPPs to adopt) the security practices recommended by the Seller/Servicer's federal regulator or even higher minimum security standards.

The Seller/Servicer's failure to require its TPPs to adopt, implement, maintain, administer and update the required minimum security standards (or higher standards) may result in termination of the Seller/Servicer's access to any or all of Freddie Mac's Systems and/or applications. In addition, Freddie Mac may take other actions available under the Guide, the Seller/Servicer's other Purchase Documents or law.

1401.7: Seller's due diligence requirements for the Seller's Systems used to engage in or conduct Eligible Electronic Transactions (03/02/16)

The Seller must conduct due diligence reviews on the Seller's Systems before the Seller may engage in or conduct any Eligible Electronic Transactions with Freddie Mac, to confirm that:

- The Seller's Systems are in compliance with the Seller's minimum security standards
- The Seller's Systems create valid, enforceable and effective Records, Electronic Records and Electronic Signatures in compliance with E-SIGN, as applicable
- When conducting Electronic Transactions in connection with Borrowers (consumers) the Seller's Systems electronically create and permit Borrowers (consumers) to electronically sign an Electronic Transaction "consumer consent" and provide the Borrower (consumer) with the Electronic Transaction disclosures, in compliance with E-SIGN
- The Seller's Systems comply with all State and federal laws

The Seller's confirmation process would include having the Seller's Systems reviewed by internal or external computer technology and security experts and legal experts.

1401.8: Seller's due diligence requirements for TPP's Systems used for Eligible Electronic Transactions (03/02/16)

The Seller must confirm that its TPPs have conducted due diligence reviews of the Systems the TPPs intend to use before the Seller may permit its TPPs to Conduct Eligible Electronic Transactions for, or on behalf of, the Seller (or in connection with doing business with the Seller).

The Seller must use its reasonable and prudent judgment in determining whether its TPPs have conducted sufficient and appropriate due diligence on the TPP's Systems. The TPPs must conduct the same level of due diligence required of the Seller in Section 1401.7. The Seller will be held responsible for the acts, errors and omissions of its TPPs and the TPPs' Systems.

1401.9: Electronic Signatures (03/02/16)

Unless otherwise provided in the Guide or Seller/Servicer's other Purchase Documents, an Electronic Signature includes, but is not limited to, an Electronic copy or representation of a written signature or other Electronic signing process (permitted or required by Freddie Mac) that is attached to or logically associated with a paper Record or Electronic Record. An Electronic Record includes, but is not limited to:

- A facsimile ("fax") machine copy of a paper Record
- A fax machine copy of an Electronic Record
- An e-mail
- An e-mail with Electronic Record(s) attached
- A scanned copy of a paper Record or Electronic Record
- A paper Record converted into an Electronic Record
- Electronic information communicated or transmitted using Electronic means permitted or required by Freddie Mac

1401.10: Additional requirements for Initial Loan Documents and Closing Documents (03/02/16)

Sections 1401.10 through 1401.16 provide requirements specifically related to Initial Loan Documents and Closing Documents. The Seller must comply with these requirements in addition to compliance with all other sections in Chapter 1401.

1401.11: Eligible Electronic Initial Loan Documents and Electronic Closing Documents – Retail Mortgages (04/12/23)

A Federally Regulated Seller may sell Retail Mortgages to Freddie Mac which are originated using Electronic Initial Loan Documents and closed using Electronic Closing Documents, excluding Mortgages with Electronic Notes (eNotes), set forth in Exhibit 7, provided that the Seller:

- Is and remains at all times, a Federally Regulated Seller

- Adopts, implements, manages, maintains, administers and updates minimum security standards for its Systems
- Adopts, implements, manages, maintains and administers an initial (and annually thereafter) due diligence and certification process, to certify that the Seller's System complies with the Seller's minimum security standards and E-SIGN and/or the UETA, as applicable
- Maintains Records of its initial and annual due diligence and certification process so that such information may be reviewed by Freddie Mac at any time
- Represents and warrants to, and covenants with, Freddie Mac that each Electronic Initial Loan Document and Electronic Closing Document the Seller creates and uses in the origination and closing processes, (i) complies with all applicable federal and/or State laws and regulations and (ii) is valid, enforceable and effective in accordance with the terms therein
- Stores all such Electronic Initial Loan Documents and Electronic Closing Documents in accordance with the requirements of the Guide and, if there is a Transfer of Servicing, the Seller must securely transfer all such Electronic Initial Loan Documents and Electronic Closing Documents to the Transferee Servicer

1401.12: Eligible Electronic Initial Loan Documents and Electronic Closing Documents – Wholesale Home Mortgages (04/12/23)

A Federally Regulated Seller that has been expressly approved by Freddie Mac to sell Wholesale Home Mortgages to Freddie Mac in the Seller's Purchase Documents may permit its Correspondents and/or Mortgage Brokers to create and use Electronic Initial Loan Documents and Electronic Closing Documents, as set forth in Exhibit 7, provided that the Seller:

- Is and remains, at all times, a Federally Regulated Seller
- Requires the Correspondents and/or Mortgage Brokers to adopt, implement, maintain and administer the Seller's minimum security standards as set forth in Section 1401.5
- Requires its Correspondents and/or Mortgage Brokers to initially (and annually thereafter) certify to the Seller that the Correspondents and Mortgage Brokers Systems comply with the Seller's minimum security standards and E-SIGN and/or the UETA, as applicable
- Obtains an annual certification from each Correspondent and/or Mortgage Broker, duly signed by a Vice President or higher ranking officer (or their equivalent), that certifies that the Systems that the Correspondents and/or Mortgage Brokers use comply with the Seller's minimum security standards and E-SIGN and/or the UETA, as applicable

- Requires its Correspondents and/or Mortgage Brokers to maintain Records of its initial and annual due diligence and certification processes so that such information may be reviewed by the Seller (or Freddie Mac) at any time
- Requires its Correspondents and Mortgage Brokers to represent and warrant to, and covenant with, the Seller that each Electronic Initial Loan Document and Electronic Closing Document that the Correspondent and/or Mortgage Broker creates and uses in the loan origination and/or closing processes: (i) complies with all applicable federal and/or State laws and regulations and (ii) is valid, enforceable and effective in accordance with the terms therein
- Represents and warrants to, and covenants with, Freddie Mac that each Electronic Initial Loan Document and Electronic Closing Document that the Correspondent and/or Mortgage Broker creates and uses in the loan origination and/or closing processes: (i) complies with all applicable federal and/or State laws and regulations and (ii) is valid, enforceable and effective in accordance with the terms therein
- Requires its Correspondents and/or Mortgage Brokers to transfer such Electronic Initial Loan Documents and Electronic Closing Documents to the Seller and the Seller must receive and store all such Electronic Initial Loan Documents and Electronic Closing Documents in accordance with the requirements of the Guide and, if there is a Transfer of Servicing, the Seller must transfer such Electronic Initial Loan Documents and Electronic Closing Documents to the Transferee Servicer

1401.13: Electronic real estate purchase and sale agreements (03/02/16)

(a) Local customary real estate broker contracts

A local customary real estate broker purchase and sale agreement (“Contract”), used in the ordinary course of the residential real estate business in a State (excluding contracts for the purchase and sale of residential REO and short sales) delivered to the Seller as a paper copy of a Record or as an Electronic Record, which has been signed by the buyer and/or the seller of real estate using a copy or representation of their respective written signature or an Electronic Signature, which is attached thereto or logically associated therewith, is acceptable in lieu of obtaining an original paper Contract or copy of an original paper Contract signed with a pen and ink signature, provided that:

- The Electronic Contract process is managed by a licensed real estate broker
- The Electronic Contract otherwise complies with all of Freddie Mac’s requirements
- The Electronic Contract is true, complete, accurate and duly signed by the parties

- Any affidavits or other notarized documents associated with such Electronic Contract must be original paper documents signed with pen and ink signatures and must be notarized and stamped with a traditional notary seal, if applicable

(b) REO Contracts

An Electronic REO Contract, for the purchase and sale of residential real estate, signed by Freddie Mac (or its designee) as the seller of the REO and/or the buyer of the REO using an Electronic Signature is acceptable in lieu of obtaining an original signed paper Contract or copy of an original paper Contract signed with a pen and ink signature, provided that:

- The Electronic Contract process is managed by a licensed real estate broker
- The Electronic Contract otherwise complies with all of Freddie Mac's requirements
- The Electronic Contract is true, complete, accurate and duly signed by the parties
- Any required affidavits or other notarized documents associated with such Electronic Contract must be original paper documents signed with pen and ink signatures and must be notarized and stamped with a traditional notary seal, if applicable

(c) Short sale Contracts

Short sale Contracts, for the purchase and sale of residential real estate, signed by the seller and/or the buyer of the real estate using Electronic Signatures is acceptable in lieu of a paper original or copy of a paper original Contract signed with a pen and ink signature, provided that:

- The Electronic Contract process is managed by a licensed real estate broker
- The Electronic Contract otherwise complies with all other Freddie Mac requirements
- The Electronic Contract is true, complete, accurate and duly signed by the parties
- Any required Short sale affidavits or other notarized documents associated with such Short sale Contract, must be original paper documents signed with pen and ink signatures and must be notarized and stamped with a traditional notary seal, if applicable

1401.14: Electronic Recording of paper Closing Documents and post-closing documents (10/14/20)

(a) Eligibility of Electronic recording of paper Closing Documents and post-closing documents

Mortgages that (i) have “paper closing documents”, such as Security Instruments and other paper closing documents and “paper post-closing documents”, such as assignments of Mortgages and modification agreements (collectively, “Original Paper Document(s)” or “OPD(s)”) and (ii) that have been electronically recorded in the applicable local government land records recorder’s offices (“Recorder’s Office(s)”) in accordance with applicable law, are eligible for delivery and Servicing by the Seller/Servicer, provided that:

- Such Mortgages were originated in States that permit Recorder’s Office(s) to
 - Provide Seller/Servicers with Electronic delivery access to the Recorder’s Office(s) to electronically record OPD(s)
 - Return to Seller/Servicers, after recording, either Electronic or paper copies of the electronically recorded OPDs, with recording information therein and/or another form of Recorder’s Office(s) Electronic recording confirmation (“Recording Confirmation(s)”), with recording information therein
- The Seller/Servicer agrees that it will promptly obtain, at the Seller/Servicer’s expense, Recorder’s Office(s) certified copies (paper or Electronic) of any electronically recorded OPD(s) whenever:
 - Necessary for the Servicing of such Mortgages and/or
 - Required by Freddie Mac, in its sole discretion
- The Seller/Servicer agrees that, as a Transferor Servicer, it will inform any prospective Transferee Servicer that certain Mortgages have OPD(s) that are Mortgage file documents that:
 - Are stored electronically in the Seller/Servicer’s eStorage System (as defined in Section 1402.2) and
 - Would be electronically transferred to the Transferee Servicer’s eStorage System, if applicable, as part of any Transfer of Servicing, subject to the requirements in Section 7101.8(a)(i) under which the Transferor Servicer may be required to convert the documents and records to the form of storage utilized by the Transferee Servicer or generate paper copies of all documents and records for the Transferee Servicer

- The promissory notes and any related modification agreements for all such Mortgages are original paper instruments that have been duly executed by Borrowers in pen and ink, with the related promissory notes duly endorsed in blank by the Seller/Servicer and the promissory notes and any related modification agreements delivered to the Document Custodian
- The title insurers that issued title insurance policies for such Mortgages have not made any exceptions in the final title insurance policies with respect to the fact that the Security Instrument and/or any other OPD(s) were electronically delivered to and electronically recorded by the Recorder's Office(s)
- The Seller/Servicer represents and warrants to, and covenants with, Freddie Mac that:
 - The Electronic recording and Electronic storage of Electronic copies of the OPD(s) will not in any way adversely affect the validity, enforceability or effectiveness of the OPD(s)
 - The Electronic copies of the electronically recorded OPD(s) comply with all applicable laws, including, without limitation, E-SIGN and/or the UETA
 - All OPD(s) that have been electronically recorded have:
 - Created valid First Liens on the applicable Mortgaged Premises
 - Been copied as Electronic Records and the Seller/Servicer has securely stored, protected and maintained such Electronic Records, with recording information therein, in the Seller/Servicer's eStorage System, and
 - Been delivered to the Document Custodian, as OPDs together with paper copies of electronically recorded OPD(s) with recording information therein, as applicable
- The Seller/Servicer acknowledges and agrees that this Section 1401.14 applies to:
 - Mortgages sold to Freddie Mac in which there are paper closing documents and/or paper post-closing documents that have been electronically recorded and
 - Mortgages serviced for Freddie Mac in which there are paper closing documents and/or paper post-closing documents that have been electronically recorded

(b) Delivery and storage requirements

The Seller/Servicer must securely store and protect all Electronic copies of electronically recorded OPD(s) with recording information therein or Recording Confirmation(s) with recording information therein in the Seller/Servicer's eStorage System and maintain the validity, effectiveness and enforceability of such Electronic Mortgage file documents for the life of each Mortgage plus seven years.

The Seller/Servicer must comply with the following delivery and storage requirements for electronically recorded OPD(s):

If the Seller/Servicer receives back from the Recorder's Office(s)...	Then the Seller/Servicer must...
1. Paper copies of the electronically recorded OPD(s), with recording information therein or Recording Confirmation(s)	<ul style="list-style-type: none"> (a) If, under the Guide, the OPD(s) must be delivered to the Document Custodian, deliver such OPD(s) and paper copies of such electronically recorded OPD(s), with recording information therein or Recording Confirmation(s), to the Document Custodian, and (b) Store and maintain Electronic copies of the electronically recorded OPD(s), with recording information therein or Recording Confirmation(s), in the Seller/Servicer's eStorage System for the life of each of the Mortgages plus seven years
2. Electronic copies of the electronically recorded OPD(s), with recording information therein or Recording Confirmation(s)	<ul style="list-style-type: none"> (a) If, under the Guide, the OPD(s) must be delivered to the Document Custodian, deliver such OPD(s) and Electronic copies of electronically recorded OPD(s), with recording information therein or Recording Confirmation(s), to the Document Custodian, and (b) Store and maintain Electronic copies of the electronically recorded OPD(s), with recording information therein or Recording Confirmation(s), in the Seller/Servicer's eStorage System for the life of each of the Mortgages plus seven years

Note: If the Seller/Servicer is required to deliver an Electronic copy of the document to the Document Custodian per requirements set forth above in this Section 1401.14 and the Document Custodian is not able to receive Electronic copies of the documents, Seller/Servicer must deliver a paper copy of the document to the Document Custodian.

1401.15: Electronic Recording of Electronic Closing Documents (10/14/20)

(a) Eligibility of Electronic recording of Electronic closing documents

Mortgages that have (i) “electronically created closing documents,” such as Security Instruments and other electronically created closing document(s) and “electronically created post-closing documents”, such as assignments of Mortgages and eModification Agreements (collectively, “Electronically Created Document(s)” or “ECD(s)”), and (ii) have been electronically recorded in the applicable local government land records recorder’s offices (“Recorder’s Office(s)”) in accordance with applicable law, are eligible for delivery and Servicing by the Seller/Servicer, provided that:

- Such Mortgages were originated in States that permit Recorder’s Office(s) to:
 - Provide Seller/Servicers with Electronic delivery access to the Recorder’s Office(s) to electronically record ECD(s), and
 - Return to Seller/Servicers Electronic or paper copies of:
 - The electronically recorded ECDs, with recording information therein, and/or
 - Other form of Recorder’s Office(s) Electronic recording confirmations (“Recording Confirmation(s)”) with recording information therein
- The Seller/Servicer represents and warrants to, and covenants with, Freddie Mac that:
 - The Electronic recording and Electronic storage of Electronic copies of the electronically recorded ECD(s) will not in any way adversely affect the validity, enforceability and effectiveness of the ECD(s)
 - Each electronically created Security Instrument and each eModification Agreement has been duly electronically recorded and creates a valid, effective and enforceable First Lien on each applicable Mortgaged Premises
 - Each eModification Agreement complies with the applicable requirements of Chapters 8406 and 9206
 - Each electronic power of attorney complies with the applicable requirements of Chapter 6301
 - All other ECD(s) have been duly electronically recorded, as required, and are valid, effective and enforceable

- That all ECD(s) that are Mortgage file documents are securely stored, protected and maintained with recording information therein in the Seller/Servicer's eStorage System (as defined in Section 1402.2)
- ECD(s) that are custodial file documents have been copied on paper and the paper copies with recording information therein have been delivered to the Document Custodian, and
- The Electronic copies of the electronically recorded ECD(s) comply with all applicable laws including, but not limited to, E-SIGN and/or UETA
- The Seller/Servicer will promptly obtain, at the Seller/Servicer's expense, Recorder's Office(s) certified copies (paper or Electronic) of Security Instruments and other electronically recorded ECD(s) whenever:
 - Necessary for the Servicing of such Mortgages and/or
 - Required by Freddie Mac, in its sole discretion
- The Seller/Servicer agrees that, as Transferor Servicer, it will inform any prospective Transferee Servicer that certain Mortgages have ECD(s) that are Mortgage file documents that:
 - Are stored electronically in the Seller/Servicer's eStorage System and
 - Would be electronically transferred to the Transferee Servicer's eStorage System, if applicable, as part of any Transfer of Servicing, subject to the requirements in Section 7101.8(a)(i) under which the Transferor Servicer may be required to convert the documents and records to the form of storage utilized by the Transferee Servicer or generate paper copies of all documents and records for the Transferee Servicer
- The promissory notes for all such Mortgages are original paper instruments that have been signed by Borrowers in pen and ink, duly endorsed in blank by the Seller/Servicer and delivered to the Document Custodian
- The title insurers that issued title insurance policies for such Mortgages have not made any exceptions in the final title insurance policies with respect to fact that the Electronic Security Instruments or other ECD(s) have been electronically delivered to and electronically recorded by the Recorder's Office(s)
- The Seller/Servicer acknowledges and agrees that this Section 1401.15 applies to Mortgages
 - Sold to Freddie Mac in which there are electronically created closing documents and/or post-closing documents that have been electronically recorded and

- Serviced for Freddie Mac in which there are electronically created closing documents and/or post-closing documents that have been electronically recorded

(b) Storage and delivery requirements

The Seller/Servicer must securely store and protect all ECD(s) and Electronic copies of electronically recorded ECD(s) with the recording information therein or Recording Confirmation(s) with the recording information therein in the Seller/Servicer's eStorage System and maintain the validity, effectiveness and enforceability of such Electronic Mortgage file documents for the life of each such Mortgage plus seven years.

The Seller/Servicer must comply with the following delivery and storage requirements for electronically recorded ECD(s):

If the Seller/Servicer receives back from the Recorder's Office(s)...	Then the Seller/Servicer...
<p>1. Paper copies of the electronically recorded ECD(s) with recording information therein or Recording Confirmation(s)</p>	<p>(a) If, under the Guide, the ECD(s) must be delivered to the Document Custodian, deliver the Electronic copies of ECD(s) and Electronic scanned copies of the electronically recorded ECD(s), with recording information therein or Recording Confirmation(s), to the Document Custodian, and</p> <p>(b) Store and maintain Electronic copies of the electronically recorded ECD(s), with recording information therein or Recording Confirmation(s), in the Seller/Servicer's eStorage System for the life of each of the Mortgages plus seven years</p>

If the Seller/Servicer receives back from the Recorder's Office(s)...	Then the Seller/Servicer...
2. Electronic copies of the electronically recorded ECD(s) with recording information therein or Recording Confirmation(s)	<p>(a) If, under the Guide, the ECD(s) must be delivered to the Document Custodian, deliver the Electronic copies of ECD(s) and Electronic copies of the electronically recorded ECD(s), with recording information therein or Recording Confirmation(s), to the Document Custodian, and</p> <p>(b) Store and maintain Electronic copies of the electronically recorded ECD(s), with recording information therein or Recording Confirmation(s), in the Seller/Servicer's eStorage System for the life of each of the Mortgages plus seven years</p>

Note: If the Seller/Servicer is required to deliver an Electronic copy of the document to the Document Custodian and the Custodian is not able to receive Electronic copies of the documents, Seller/Servicer must deliver a paper copy of the document to the Document Custodian.

1401.16: Electronically Notarized (In-Person or Remote Online) Electronic Documents (12/08/21)

Mortgages in which in-person Electronic Notarization or Remote Online Notarization was used in connection with the Electronic Security Instrument, other Electronic closing Documents (“Electronic Closing Documents”) and/or Electronic assignments and other post-closing documents (“Electronic Post-Closing Documents”), are eligible for purchase by Freddie Mac, provided that:

- The signers’ Electronic Signatures are: (i) attached to or logically associated with the Electronic Closing Documents and/or Electronic Post-Closing Documents, as applicable
- The notary public is licensed and domiciled in the State in which the Mortgaged Premises is located and the Electronic Notarization law was enacted or, with respect to Remote Online Notarization, each notary public must be located in a State which authorizes licensed notaries to engage in Remote Online Notarization and must be licensed in that State to engage in Remote Online Notarization
- The final title insurance policy does not make any exceptions regarding the fact that the Electronic Closing Document(s) and/or Electronic Post-Closing Documents have been

electronically created, executed, witnessed, and if applicable, notarized electronically in person or remotely and electronically recorded

- The Seller delivers the recorded document with the recording information thereon to the Document Custodian
- The Seller represents and warrants to, and covenants with, Freddie Mac that each: (i) Electronic Security Instrument that has been electronically signed, notarized electronically in person or remotely and recorded is a valid, effective and enforceable first lien; and (ii) any other Electronic Closing Document and Electronic Post-Closing Document that has been electronically signed, electronically (in person or remotely) notarized and recorded is a valid, effective and enforceable document
- The Seller represents and warrants to, and covenants with, Freddie Mac that each Electronic Closing Document and Electronic Post-Closing Document that has been electronically signed, electronically (in person or remotely) notarized and recorded complies with the UETA and/or E-SIGN, as applicable
- The system used for the Remote Online Notarization meets the following minimum standards:
 - At least two-factor identity authentication, including using a government-issued photo ID that has a signature, credential analysis and identity-proofing
 - Tamper-sealed notarized documents and system security sufficient to: (A) prevent interference with the authenticity, integrity and security of the notarial ceremony or corruption or loss of the recording of the same, and (B) protect the communication technology, electronic record and backup record from unauthorized use
 - The remote online notary must keep a secure electronic journal of the notarial act, including evidence of identity of the principal (a video and audio conference can be the basis for satisfactory evidence of identification) and maintain a backup of the electronic record; and
 - Recording of the notarial ceremony with storage for greater of (a) the minimum period required by applicable laws of the State in which the notary is licensed, or (b) 10 years, with the system providers making arrangements with participating notaries to provide access to Sellers and current and future Servicers

In addition, Mortgages closed using the Remote Online Notarization process must meet the following requirements:

- Mortgaged Premises must be located in one of the States listed on Exhibit 48
- The Mortgages must not be Texas Equity Section 50(a)(6) Mortgages

- If the Borrower and the Mortgaged Premises are located in a State different from the State in which the notary public is licensed and located, the State law in the State where the notary public is licensed and located must authorize the notary public to engage in such interstate Remote Online Notarization transactions
- The signers' Electronic Signatures are remotely, electronically notarized using a system meeting the minimum technical standards listed above in this section
- The Seller must record the electronically signed and remotely, electronically notarized Closing Documents and/or Post-Closing Documents in the applicable public land records recorder's office, in compliance with the requirements of the Guide
 - If necessary for enforcement or upon Freddie Mac's request, the current Servicer must obtain access to the recording of the notarial ceremony for greater of (a) the minimum period required by laws of the State in which the notary is licensed, or (b) 10 years
- If Borrowers request other notary options that are permitted by a State where the Borrower and the Mortgaged Premises are located, the Seller must not require Remote Online Notarization
- The Seller represents and warrants to, and covenants and agrees with, Freddie Mac that:
 - The Seller has confirmed, that all documents that are electronically created, executed, notarized and recorded:
 - Comply with all applicable laws, regulations and rules of each State that permits Remote Online Notarization and the State in which the Mortgaged Premises is located; and
 - Are recordable in the public land records of the State in which the Mortgaged Premises is located
- The Seller must deliver ULDD Data Point, Investor Feature Identifier, "J22," in compliance with Section 6302.5
- The Seller must promptly advise Freddie Mac of any adverse events that arise (actual or threatened legal action(s), governmental official statements, attorneys general opinions or announcements, enacted or filed legislation, State or federal court decisions) of which Seller becomes aware in the normal course of business which may have an adverse effect on interstate Remote Online Notarization, as contemplated in this section;
- In the event the Seller wishes to include the seller of the Mortgaged Premises in the Electronic Closings process, the Seller must comply with the following:

- The Borrower and the seller of the Mortgaged Premises must give their individual, specific and express Electronic consent to their respective Electronic Signatures on an Electronic warranty deed and other purchase and sale documents;
- The title insurer must insure the validity, enforceability and effectiveness of the Electronic warranty deed;
- The use of Electronic warranty deeds and other purchase and sale documents must be permitted under the law of the State in which the Mortgaged Premises is located;
- The Electronic warranty deed must be recorded in the local recorder's office in the State in which the Mortgaged Premises is located;
- Long-term storage of the electronically recorded Electronic warranty deeds must be approved by the title insurer, Borrower and seller of the Mortgaged Premises; and
- All such Electronic warranty deeds and other closing documents must comply with ESIGN and/or the applicable UETA and all other applicable laws

1401.17: Electronic Transactions conducted between Servicer and Borrower (08/14/19)

In lieu of using paper documents, such as Form 710, Mortgage Assistance Application, explanation letters, modification agreements, solicitation letters, evaluation notices and other forms and documents in connection with consideration for a reinstatement, relief or workout option as required in Chapters 9102, 9201, 9203, 9204 and 9206 (documents referred to as "loss mitigation documents"), the Servicer may either:

- Mail, fax or electronically transmit copies of the loss mitigation documents (excluding letters a Borrower must provide) to a Borrower or permit a Borrower to copy, print or download a copy of the loss mitigation documents via a secure Servicer-provided Internet website and permit the Borrower to complete, sign and fax copies (or e-mail copies) of the signed loss mitigation documents to the Servicer (Note: Under some State laws, an individual may not be required to transmit his/her Social Security number over an unsecured Electronic channel), or
- Give the Borrower a secure means of access through which a Borrower may prepare and electronically sign loss mitigation documents (including letters a Borrower must provide) and submit them to Servicer.

In the event the Servicer permits Borrowers to provide any of the loss mitigation documents as Electronic Records, the Servicer:

- May create an Electronic substitute for Form 710 and any other required forms, provided that the information requested is the same information requested on Form 710 and the other required forms
- Must comply with all applicable requirements in the Guide and other Purchase Documents including, but not limited to, Chapters 1401 and 1402 and Section 9206.19
- Must consult with its legal counsel to determine that the Servicer's use of fax and/or other Electronic copies of loss mitigation documents, complies with the requirements of the federal Electronic Signatures in Global and National Commerce Act (E-SIGN) and/or the Uniform Electronic Transaction Act (UETA), as enacted in the jurisdiction in which the property securing each Mortgage is located, as applicable, and all other applicable laws
- Must use security measures, processes and procedures that protect the confidentiality and privacy of the Borrowers' personal and financial information in accordance with all applicable laws, including, without limitation, the Gramm-Leach-Bliley Act and its implementing regulations
- Must securely store and maintain all such Electronic Records for the same period of time as required by the Guide and other applicable Purchase Documents for paper forms and other loss mitigation documents
- Represents and warrants to Freddie Mac that the loss mitigation documents prepared, signed and submitted by a Borrower electronically are authentic and enforceable against the Borrower
- Must provide Borrowers with fax numbers, e-mail addresses, website addresses and/or other Electronic transmission destinations specifically dedicated to the secure receipt and, if applicable, storage of such Electronic Records

The Servicer acknowledges and agrees that Freddie Mac's above consent to the Servicer's conducting Electronic Transactions with Borrowers is limited to Electronic Transactions and communications between the Servicer and Borrowers in connection with the preparation, execution and submission of loss mitigation documents. The Servicer must continue to provide loss mitigation documents and information to Freddie Mac in the manner required by the Guide and other Purchase Documents. The Servicer may not permit Borrowers to submit any loss mitigation documents directly to Freddie Mac electronically without Freddie Mac's express written or Electronic consent.

Servicers must obtain a Borrower's express consent in accordance with E-SIGN before permitting a Borrower to use Electronic Records and Electronic Signatures in connection with the execution and/or delivery of any loss mitigation documents, communications or other servicing documents. In addition, Servicers must continue to provide and accept all loss mitigation documents on paper for Borrowers who choose not to use Electronic Records and Electronic Signatures. Under no circumstances may a Borrower be required to use Electronic Records and Electronic Signatures.

In addition, the Servicer acknowledges and agrees that the provisions of section 101 of E-SIGN (which permits the use of Electronic Signatures and Electronic Records) do not apply to any notice of default, acceleration, repossession, foreclosure, or eviction, or the right to cure, under a credit agreement secured by, or a rental agreement for, a primary residence of an individual. Accordingly, all such notices must be in writing and delivered in accordance with otherwise applicable State and/or federal law to Borrowers and all individuals on the title to the Mortgaged Premises.

1401.18: Representations, warranties and covenants for Eligible Electronic Transactions engaged in or conducted by the Seller/Servicer with Freddie Mac (03/02/16)

The Seller/Servicer represents and warrants to, and covenants with, Freddie Mac, that:

- The Seller/Servicer's Systems are compatible with Freddie Mac's Systems and the Seller/Servicer is able to receive, view, retrieve, print, send and store Electronic Records in connection with conducting Eligible Electronic Transactions with Freddie Mac
- The Seller/Servicer's Systems permit the Seller/Servicer to deliver Electronic Records, with or without Electronic Signatures, to Freddie Mac
- Copies of paper Records and Electronic Records, delivered to Freddie Mac have been duly authorized by the Seller/Servicer and are true, complete and correct
- Records delivered to Freddie Mac which have a copy or representation of the Seller/Servicer's representative's written signature or Electronic Signature affixed thereto, attached thereto or logically associated therewith, shall be conclusive verification that the Seller/Servicer: (i) duly authorized the completion, execution and delivery of such Records to Freddie Mac; and (ii) intended to be bound and is bound by the terms and conditions in such Records
- The Seller/Servicer waives any and all defenses, claims, counterclaims and/or assertions that Records delivered to Freddie Mac with the Seller/Servicer's representative's written signature or Electronic Signature affixed thereto, attached thereto or logically associated therewith, was not authorized by the Seller/Servicer
- The Seller/Servicer shall also be bound to such terms and conditions in such Records if Seller/Servicer: (i) performs any of the duties or undertakes any of the obligations set forth in such Records; or (ii) uses any of the services, rights, privileges or benefits made available to the Seller/Servicer in such Records

- If the Seller/Servicer is required or permitted by Freddie Mac to conduct Eligible Electronic Transactions, the Seller/Servicer shall not alter any language, the organization of information or the display of information in any Freddie Mac forms, documents, exhibits, uniform instruments or any other paper Records or Electronic Records used in connection with any such Eligible Electronic Transactions without Freddie Mac's express written consent

1401.19: Representations, warranties and covenants for Eligible Electronic Transactions engaged in or conducted by the Seller/Servicer's TPPs (03/02/16)

The Seller/Servicer represents and warrants to, and covenants with, Freddie Mac that:

- Each TPP's Systems are compatible with the Seller/Servicer's Systems
- Each TPP's Systems are able to readily print, store, send, receive, store and retrieve Electronic Records or Electronic Signatures that may be sent to the Seller/Servicer or received from the Seller/Servicer in connection with conducting Eligible Electronic Transactions
- Records or Electronic Records delivered to the Seller/Servicer by any TPP that contain a copy or representation of the TPP's representative's written signature or Electronic Signature affixed thereto, attached thereto or logically associated therewith, is valid, enforceable, effective and has been duly authorized by the TPP
- Electronic Records delivered to the Seller/Servicer by the Seller/Servicer's TPPs (with or without the Electronic Signatures) are true, correct and complete Electronic Records and the TPPs are bound by the terms and conditions in such Electronic Records
- The Seller/Servicer waives any and all defenses, claims, counterclaims and/or assertions that any Electronic Records delivered to the Seller/Servicer by the TPPs (with or without Electronic Signatures) were not authorized by the TPPs

1401.20: Indemnification (03/02/16)

With respect to all Electronic Transactions engaged in or conducted by the Seller/Servicer with Freddie Mac or all Electronic Transactions conducted by the TPPs with the Seller/Servicer, the Seller/Servicer agrees to indemnify, defend and hold Freddie Mac and Freddie Mac's technology provider(s) harmless from and against any and all losses, costs, claims, actions, damages including, but not limited to, indirect, incidental, special or consequential damages, whether foreseeable or not, liabilities, judgments, legal fees, counterclaims or defenses that Freddie Mac or Freddie Mac's technology provider(s) become subject to or incur as a result of any challenge, dispute or lawsuit relating to:

- The loss, theft, unauthorized or improper disclosure or use of Confidential Means of Access to Freddie Mac's Systems caused by the errors, omissions or negligence of the Seller/Servicer or its TPPs
- The destruction, corruption, malfunction or appropriation of, or damage or change to any part of Freddie Mac's Systems, Electronic Records, Electronic Signatures or data (e.g., financial information, proprietary information, confidential information or personal private information) stored in Freddie Mac's Systems, caused by the Seller/Servicer's or the Seller/Servicer's TPPs' errors, omissions or negligence
- The Seller/Servicer's or the Seller/Servicer's TPPs' failure to adopt, maintain and administer minimum security standards to safeguard and protect Freddie Mac's Systems from unauthorized persons, malicious software or other harmful computer information, commands, codes or programs
- The Seller/Servicer's or the Seller/Servicer's TPPs' claim or defense that certain Electronic Transactions conducted by the Seller/Servicer or the Seller/Servicer's TPP were not authorized by the Seller/Servicer, the Seller/Servicer's TPPs or any other party, or that certain Records or Electronic Records (with or without Electronic Signatures) delivered to Freddie Mac were not authorized by the Seller/Servicer or the Seller/Servicer's TPPs or any other party
- The Seller/Servicer's or any of the Seller/Servicer's TPPs' signature, Electronic Signature, Record or Electronic Record is (or are) Electronic
- The Seller/Servicer's repudiation of:
 - The Seller/Servicer's signature or Electronic Signature affixed to, attached to or logically associated with a Record or Electronic Record (or copy thereof) delivered to Freddie Mac, or
 - A copy or representation of the Seller/Servicer's representative's signature or Electronic Signature affixed to, attached to or logically associated with a Record or Electronic Record that has been sent to Freddie Mac by the Seller/Servicer using a fax machine, computer or other Electronic device and received by Freddie Mac using a fax machine, computer or other Electronic device as a Record or Electronic Record
- The Seller/Servicer's TPPs' repudiation of:
 - A copy or representation of any TPP's representative's written signature or Electronic Signature affixed to, attached to or logically associated with a Record or Electronic Record (or copy thereof) delivered to the Seller/Servicer
 - A copy or representation of any TPP's representative's written signature or Electronic Signature, that is affixed to, attached to or logically associated with a Record or

Electronic Record that has been sent to the Seller/Servicer by the Seller/Servicer or the Seller/Servicer's TPP using a fax machine, computer or other Electronic device, and received by the Seller/Servicer or Freddie Mac, using a fax machine, computer or other Electronic device, as a copy of the Record or Electronic Record

- The authenticity, validity, enforceability or effectiveness of any Record, Electronic Record or Electronic Signature delivered to Freddie Mac by the Seller/Servicer or delivered to the Seller/Servicer by the Seller/Servicer's TPPs

1401.21: Electronic Transaction liability (03/02/16)

Freddie Mac shall not be liable to the Seller/Servicer or any other party participating in any Electronic Transactions for any delays or other failures in performing Freddie Mac's obligations under any Eligible Electronic Transactions where such delay or failure:

- Is caused by any event beyond Freddie Mac's control
- Could not be reasonably foreseen at the time of the Electronic Transaction
- The consequences of which could not be avoided or overcome, or
- Is caused by Freddie Mac's, the Seller/Servicer's, the Correspondent's and/or Mortgage Broker's or any other party's Internet service provider

In addition, Freddie Mac shall not be liable to the Seller/Servicer or any other party participating in any Electronic Transactions for indirect, incidental, special or consequential damages of any type arising out of or relating in any manner to the electronic transmission of Records, Electronic Records or Electronic Signatures whether under contract, tort or any other theory of liability, even if Freddie Mac is aware of the possibility of such damages.

The Seller/Servicer and any other party participating in Electronic Transactions shall be liable for any and all losses, costs, expenses, legal fees and/or damages including, but not limited to, indirect, incidental, special or consequential damages, whether foreseeable or not, incurred by Freddie Mac or Freddie Mac's technology provider and which are the result of the Seller/Servicer's, the Seller/Servicer's technology provider's, the Correspondent's and/or Mortgage Broker's or any other party's failure to comply with Freddie Mac's requirements in connection with conducting Eligible Electronic Transactions.

1401.22: Law governing Electronic Transactions (03/02/16)

The law governing Electronic Transactions shall be E-SIGN and/or the UETA, as enacted by an applicable State. Under no circumstances will any Electronic Transaction be governed by the

Uniform Computer Information Transactions Act (UCITA), unless Freddie Mac expressly agrees in a written or Electronic amendment to the Seller/Servicer's Purchase Documents.

1401.23: Delivery requirements for Mortgages closed using Remote Online Electronic Notarization (03/31/20)

As of March 31, 2020, Section 1401.23 has been deleted.

1401.24: Remote Ink Notarization (06/02/21)

Mortgages with Closing Documents or Pre-Closing Documents that have been notarized using audio-visual technology to facilitate an ink-signed notarization of an ink-signed paper document (a Remote Ink Notarization or "RIN"), are eligible for purchase by Freddie Mac, provided that:

- The RIN process has been expressly authorized under applicable law
- The notary public is licensed and domiciled in the State in which the Mortgaged Premises is located, and the RIN law was enacted
- The RIN process is performed in accordance with and is legally valid under the laws and regulations of the State in which the notarization is performed, at the time it was performed.
- The Mortgage is not a Texas Equity Section 50(a)(6) Mortgage
- The final title insurance policy does not make any exceptions regarding the fact that the any document was notarized using a RIN process
- All documents notarized using a RIN process are recordable in the public land records of the State in which the Mortgaged Premises is located
- The Seller makes all representations and warranties in the Guide related to validity, enforceability and lien priority, including that each Mortgage utilizing a RIN process is a valid, effective and enforceable First Lien on the Mortgaged Premises
- The RIN process and any audio-visual communication technology utilized meets the following minimum standards:
 - At least two-factor identity authentication, including using a government-issued photo ID that has a signature, credential analysis and identity-proofing

- System security sufficient to: (A) prevent interference with the authenticity, integrity and security of the notarial ceremony or corruption or loss of the recording of the same, and (B) protect the communication technology
 - A secure electronic journal of the notarial act, including evidence of identity of the principal and a backup of the electronic record
 - Recording of the notarial ceremony with storage for greater of (a) the minimum period required by applicable laws of the State in which the notary is licensed, or (b) 10 years
 - The notarial certificate (acknowledgment) on the notarized document includes an indication that communication technology was utilized in the notarization process
- The Seller must deliver ULDD Data Point, Investor Feature Identifier “J95” in compliance with Section 6302.5

Note: The RIN process to which this section applies should not be confused with Remote Online Notarization (RON) covered in Section 1401.16, as RON is electronic notarization of electronically signed documents.

Chapter 1402: Freddie Mac eMortgage Requirements

1402.1: Introduction to eMortgages (06/12/19)

(a) Introduction

An eMortgage is a Mortgage that is originated using an eNote. The Security Instrument and other Mortgage documents may be paper or Electronic Records.

Most types of Mortgages are eligible for delivery to Freddie Mac as eMortgages. Mortgages that are not currently eligible for sale to Freddie Mac as eMortgages, due to additional risks associated with such Mortgages, are set forth in Section 1402.7.

This Chapter 1402 sets forth Freddie Mac's requirements that Seller/Servicers, custodians and System Providers must comply with to create, store, sell and service eMortgages. The requirements and specifications in this chapter are based, for the most part, on the requirements of E-SIGN and the UETA.

(b) Interpreting requirements set forth in this Chapter 1402

Seller/Servicers of eMortgages must comply with all selling and Servicing requirements of the Guide and the Seller/Servicer's other Purchase Documents, as applicable, including the special requirements set forth in this chapter. With the exception of a Seller/Servicer's obligation to comply with applicable law, the requirements set forth in this chapter prevail over conflicting or contradictory requirements in other chapters of the Guide or the Seller/Servicer's other Purchase Documents with respect to any eMortgage.

(c) Complying with eMortgage requirements

A Seller/Servicer must obtain Freddie Mac's prior written approval, which it may provide in its sole discretion, to sell to and/or service eMortgages for Freddie Mac, which approval shall be a Purchase Document and may include additional restrictions, requirements, conditions or stipulations relating to the sale and/or Servicing of eMortgages. Seller/Servicers of eMortgages must ensure that they and their System Providers (and if applicable, Correspondents and/or Mortgage Brokers) comply with the requirements specified in this chapter. In addition, contracts between the Seller/Servicer and any System Providers (and if applicable, Correspondents and/or Mortgage Brokers) regarding the provision of eMortgage closing services and eNote Vault System services, must contain certain terms and conditions that may be prescribed by Freddie Mac in its approval or other Purchase Documents.

The Seller/Servicer is solely, and, if applicable, with any Servicing Agent are jointly, responsible for any failure to comply with the provisions of the MERS® eRegistry membership agreement, including, but not limited to, any rules, and procedures and any

liability that it, or its applicable Servicing Agent, or Freddie Mac incurs as a result of Seller/Servicer's registration of (or failure to timely register) eNotes in the MERS eRegistry. A Transfer of Control identifying Freddie Mac as the Controller of an eNote registered in the MERS eRegistry does not relieve the Seller/Servicer and, if applicable, any Servicing Agent, from its responsibility to comply with all applicable provisions of the MERS eRegistry rules, the Guide, and the Seller/Servicer's other Purchase Documents.

1402.2: Defined terms (08/03/22)

Capitalized terms used in this chapter that are not otherwise defined in Sections 1401.2, 1402.2 or the Glossary shall have the meanings ascribed to such terms in E-SIGN and UETA.

The following defined terms are used throughout Chapter 1402, other chapters of the Guide and the Seller/Servicer's other Purchase Documents with respect to eMortgages:

AES means the advanced encryption standard, which is a symmetric block cipher implemented in software and hardware to encrypt sensitive data.

Alteration means a change to the terms or conditions of a Record or Electronic Record and/or a change in the variable information added to the Record or Electronic Record after it is signed or, if it is not required to be signed, after it has been delivered.

Authoritative Copy means the copy of the Transferable Record (eNote) that has been registered in the MERS® eRegistry and is stored by the entity named in the Location specified in the MERS eRegistry.

Borrower means, as applicable to eMortgages delivered under this chapter, in addition to the definition contained in the Glossary, a person defined as a consumer under E-SIGN, to the extent E-SIGN applies to a transaction. For the purposes of this chapter, "Borrower" also includes any and all persons obligated under the terms of any applicable eNote, as the context shall permit or require.

Copy of the Authoritative Copy means a copy of the eNote that has been registered in the MERS eRegistry.

Consumer Consent Form is a form to be electronically signed by each Borrower prior to the Borrower's use of an eClosing System.

Control means that a Holder has the authority to manage and take action with respect to the Authoritative Copy of an eNote if a system employed for evidencing the transfer of interests in the eNote reliably establishes that the Holder is the Holder to whom the eNote was issued or transferred pursuant to Section 16 of UETA and Title II, Section 201 of E-SIGN.

Controller means the entity named in the MERS eRegistry as the entity who has Control of the Authoritative Copy of the eNote.

Custodial Documents mean (i) the Note or Authoritative Copy of the eNote and any Note or eNote addenda; and (ii) all other documents required to be delivered to the Document Custodian as identified in Section 6301.8(a).

Document Type Definitions (DTDs) is a set of markup declarations that define a document type for a family markup language, such as hypertext or extensible markup language.

Delegatee means a member of the MERS eRegistry authorized by the Controller to perform certain MERS eRegistry transactions on the Controller's behalf.

Digital Signature means the result of encrypting a Hash Value with a private key. Digital Signatures in the mortgage industry are also known as Tamper Seals, Tamper Seal Signatures, and Tamper Evident Signatures.

Electronic has the meaning set forth in Section 1401.2.

eClosing System means an Electronic system that uses computer hardware and software that provides a Borrower the ability to electronically sign some or all of the closing documents and applies a Tamper Seal.

Electronic Payment Deferral Agreement has the meaning set forth in Section 1401.2 and, solely for purposes of this Chapter 1402, also includes Electronic Payment Deferrals for eMortgages.

Electronic Record has the meaning set forth in Section 1401.2.

Electronic Signature has the meaning set forth in Section 1401.2.

eModification Agreement has the meaning set forth in Section 1401.2 and, solely for purposes of this Chapter 1402, also includes Electronic modifications of eMortgages.

eMortgage means a Mortgage that was originated using an eNote. An eMortgage may also have an Electronic or paper Security Instrument and certain other paper or Electronic Records, which are part of the Mortgage File Documents.

eStorage System means an Electronic computer storage system in which the Seller/Servicer stores Electronic Mortgage File Documents safely, securely, confidentially in accordance with the Guide and other Purchase Documents.

eNote means an Electronic Record that would be a promissory note if it was issued in paper, and that the Borrower has agreed to issue it as a Transferable Record.

eNote Vault System or eVault means an Electronic storage system that uses computer hardware and software to store and maintain eNotes and other Electronic Records.

E-SIGN has the meaning set forth in Section 1401.2.

Hash Value means the result of a Hashing Algorithm and is a unique, fixed-sized computed value that represents any arbitrary length string (such as a document). Hash Values are also known as message digests, hash codes, hash sums, or simply hashes.

Hashing Algorithm means a mathematical function that maps any arbitrary length string (such as a document) to a unique computed fixed length value. Since this value is unique to the document, if the document were altered, the result from applying the Hashing Algorithm to the altered document would be different from applying the mathematical function to the original document. The difference in results from the Hashing Algorithm indicates tampering of the data integrity of the original document.

Holder means a person described in Section 16(d) of UETA and in Title II, Section 201(d) of E-SIGN who has Control of a Transferable Record and who is named as the Controller in the MERS eRegistry. (Also known as Note Holder.)

Location means the organization (business entity) named on the MERS eRegistry that stores and maintains the Authoritative Copy of the eNote either as Controller or as a designated custodian on behalf of the Controller.

MERS eDelivery means a MERS system (operated by MERSCORP Holdings, Inc.) that is used by MERS eRegistry members to deliver documents and data (“eMortgage Packages”) from one MERS eRegistry member to another using the same infrastructure, open system-to-system interface and standards of the MERS eRegistry.

MERS eRegistry means the Electronic registry (operated by MERSCORP Holdings, Inc.) that serves as the system of record to identify the current Controller and Location of the Authoritative Copy of an eNote, and the Delegatee, if any, who is authorized by the Controller to make certain updates in the MERS eRegistry on behalf of the Controller.

MERS eRegistration History means an Electronic or paper printout of the record of all status changes and required actions that occurred during the life of the eMortgage as set forth in the MERS eRegistry.

MISMO® means Mortgage Industry Standards Maintenance Organization, which is the body created by the Mortgage Bankers Association of America (MBA) in October 1999 to develop, promote, and maintain voluntary Electronic commerce standards for the mortgage industry.

Mortgage File Documents means all Mortgage documents from the Mortgage closing (including paper or Electronic Records), including copies of the Custodial Documents, but not including the eNote or Authoritative Copy of the eNote, any eNote addendums, any ARM conversion instrument, any balloon/reset instrument, any modification agreements, assumption agreements (with or without a release of liability), power of attorney and any intervening or other assignments.

PIN means personal identification number.

Pledged eMortgage means a Pledged Mortgage that is an eMortgage.

Pledged eNote means an eNote related to a Pledged eMortgage.

Process means a series of actions or steps necessary to perform a particular task or meet a particular requirement. Except where applicable law or the context requires otherwise, a Process may be deployed through Electronic means, or involve steps or actions that are non-Electronic, or may involve a combination of both Electronic and non-Electronic means, steps or actions.

Record has the meaning set forth in Section 1401.2.

Remote Online Notarization has the meaning set forth in Section 1401.2.

RSA means RSA Data Security, Inc., a developer and publisher of public key cryptography standards.

S/Key means a one-time password system developed for authentication of a user to access certain operating systems where a user's password is combined with a short set of characters generated by an offline device to form a single-use password that may never be used again.

Secured Party means the participant named on the MERS® eRegistry that has been sold, pledged, assigned, or granted a security interest in the eNote by the Controller.

Secured Party Delegatee means the participant authorized by the Secured Party to perform certain MERS eRegistry transactions for the eNote on the Secured Party's behalf.

SHA means the cryptography application programming interface name for secure Hashing Algorithm.

Smart Card Authentication means a two-factor user authentication process that uses certain software and hardware to access the user's digital private keys stored on a smart card placed into a smart card reader once the user supplies the requisite password or personal identification number.

SMART Document means an Electronic document created to conform to a specification standardized by MISMO. A SMART Document locks together data and presentation in such a way that it can be system-validated to guarantee the integrity of the document. There are different categories of SMART Documents as specified by MISMO.

SSL means Secure Sockets Layer, which is a standard security protocol used for establishing encrypted links between a web server and a browser in an online communication.

System means either the eClosing System or the eNote Vault System.

Systems means both the eClosing System and the eNote Vault System.

System Provider means an entity providing a System, or any component of such System, used to create, register, sign, transfer, store, maintain, retrieve, and/or secure eNotes or other Mortgage File Documents.

Tamper Seal, Tamper Seal Signatures, Tamper Evident Seal and Tamper Evident Signatures mean a Digital Signature applied to an Electronic Record. The Tamper Seal can be verified to ensure that no changes have been made to the Electronic Record since the seal was put in place.

TLS means Transport Layer Security, which is a cryptographic protocol that provides end-to-end communications security over networks and is widely used for internet communications and transactions.

Transfer of Control means the transfer, within an eNote registry, by a transferor with Control of an eNote, to a transferee, for the purpose of transferring the: (i) right, title, and/or interest in an eNote; and/or (ii) custody of an eNote. The purpose of a Transfer of Control must be provided in an agreement duly executed by the transferor and transferee. If the MERS eRegistry is the designated Note Holder registry, it means a change of Control and Controller.

Transferable Record means an Electronic Record as described in Section 16 of UETA and in Title II, Section 201 of E-SIGN. A Transferable Record is referred to herein as an eNote.

UCC means the Uniform Commercial Code, as amended from time to time, which is a model commercial transactions statute promulgated by the National Conference of Commissioners on Uniform State Laws (NCCUSL) and which has been published and distributed by members of NCCUSL to the states, territories and possessions of the United States for enactment. UCC Article 3 governs negotiable instruments, including paper notes.

UETA has the meaning set forth in Section 1401.2.

X.509 means the internationally recognized standard for digital certificates that defines their required parts.

1402.3: Selling eMortgages (02/08/23)

(a) Seller approval

A Seller/Servicer who wishes to sell eMortgages to Freddie Mac must contact its Freddie Mac account representative or the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) to determine its eligibility and obtain Freddie Mac's prior written approval.

Freddie Mac's approval of a Seller to sell eMortgages to Freddie Mac does not necessarily mean that the Seller will also be approved as a Servicer of eMortgages for Freddie Mac or vice versa. The approval process to service eMortgages is set forth in Section 1402.9(a). Before delivering an eMortgage to Freddie Mac, an approved Seller of eMortgages must either be approved as a Servicer of eMortgages or be approved to engage in a Concurrent Transfer of Servicing involving eMortgages to a Servicer (Transferee Servicer) who has been approved to service eMortgages for Freddie Mac (see Section 1402.13(a)).

(b) eClosing and eNote Vault Systems review and approval

As part of Freddie Mac's review and approval process to determine a Seller's eligibility to sell eMortgages, Freddie Mac will conduct an initial review of the eClosing System and eNote Vault System to confirm compliance with requirements set forth in Sections 1402.4 and 1402.5. In addition, Freddie Mac, in its discretion, may conduct periodic and as needed reviews of the eClosing System and eNote Vault Systems to confirm continued compliance with Freddie Mac eMortgage requirements.

(c) System review and approval process

If the eClosing System and eNote Vault Systems to be used by the Seller/Servicer were not previously reviewed and approved by Freddie Mac, the Systems must go through the following review and approval process (Note: Some of these steps can be performed simultaneously):

- The Seller or its System Provider must provide a demonstration of these Systems for Freddie Mac's review
- The Seller must complete testing that includes verification of integration with MERS® eRegistry and eDelivery systems, among other things
- If using System Provider's Systems, the Seller must submit to Freddie Mac a certification executed by the System Provider's Chief Technology/Security Officer (or comparable titled officer of the System Provider) using the certification form provided by Freddie Mac
- If using proprietary Systems, the Seller must submit to Freddie Mac a certification executed by the Seller's Chief Technology/Security Officer (or comparable titled officer of Seller/Servicer) using the certification form provided by Freddie Mac
- Freddie Mac will obtain a legal analysis of these Systems and the associated processes and procedures by an attorney selected and paid for by Freddie Mac

If Freddie Mac, in its sole discretion, determines that the Systems are acceptable, and the Seller is otherwise in good standing with Freddie Mac, the Seller will be approved to sell eMortgages to Freddie Mac, subject to any terms and conditions set forth in a term of business that will be issued to the Seller/Servicer.

Despite Freddie Mac's legal analysis or technical and security analysis of the Seller/Servicer and any System Provider, and the eClosing System and/or eNote Vault Systems: (i) the Seller/Servicer remains solely responsible and liable for any error, omission, System malfunction and/or negligence caused by: the System Provider, eClosing System, eNote Vault System, and/or Seller/Servicer; and (ii) Freddie Mac undertakes no responsibility and/or liability whatsoever in connection with any error, omission, System malfunction and/or negligence caused by the System Provider, eClosing System, eNote Vault System, and/or Seller/Servicer in connection with Seller/Servicer's use of such eClosing System and/or eNote Vault System.

(d) Systems previously reviewed by Freddie Mac

If an eClosing System and eNote Vault System was previously reviewed and approved by Freddie Mac (<https://sf.freddiemac.com/working-with-us/electronic-loan-documents/reviewed-vendor-list>), the System review and approval process will consist only of testing to verify integration of the Systems with MERS eRegistry and eDelivery systems.

However, if material modifications are made to a Freddie Mac reviewed and approved System as part of a Seller/Servicer's implementation, the Seller must provide a demonstration of these modified Systems for Freddie Mac's review and submit to Freddie Mac a certification executed by the Seller/Servicer's Chief Technology/Security Officer (or comparable titled officer of Seller/Servicer) using the certification form provided by Freddie Mac.

Freddie Mac reserves the right to require a full technical, security and legal review and analysis of any previously approved System Provider and related Systems.

Freddie Mac reserves the right, in its sole discretion, to require that the legal analysis and security review be updated in the event of any significant change to the operation or effectiveness of the eClosing System and eNote Vault Systems.

(e) Notice of significant changes to eClosing System and/or eNote Vault System

Significant proposed changes to the Seller eMortgage Closing System and/or Seller/Servicer eNote Vault System are those that may materially and adversely affect the performance of the Seller eMortgage Closing System and/or Seller/Servicer eNote Vault System, and include, but are not limited to, any change that would be reasonably likely to adversely affect the enforceability of the eNotes or other eMortgage documents or compliance with E-SIGN and/or the UETA.

The Seller/Servicer must provide the Freddie Mac eMortgage Team (eMortgage_Team@FreddieMac.com) 90 days' advance written notice of any significant proposed change to the: (i) Seller eMortgage Closing System and/or Seller/Servicer eNote Vault System; and (ii) Seller's eMortgage Closing policies, procedures and/or processes.

Seller/Servicer must complete the Freddie Mac review and approval process outlined in Section 1402.3(c) if Seller/Servicer wishes to use an eClosing System or eNote Vault System that is different from what was communicated by the Seller/Servicer at the time of initial approval, and such eClosing System or eNote Vault System is either a customized version of a Freddie Mac reviewed eMortgage System (<https://sf.freddiemac.com/working-with-us/electronic-loan-documents/reviewed-vendor-list>), or a System that was not previously reviewed by Freddie Mac. Further, as set forth in Section 1402.3(d), if a proposed eClosing System and eNote Vault System was previously reviewed and approved by Freddie Mac, the System review and approval process will consist only of testing to verify integration of the System with MERS eRegistry and eDelivery systems.

(f) Ongoing reviews

The Seller/Servicer must (or cause the System Provider to) submit to Freddie Mac an annual certification executed by Seller/Servicer's (or System Provider's) Chief Technology/Security Officer using the certification form provided by Freddie Mac. Freddie Mac may require an audit of the eClosing System and/or eNote Vault Systems conducted in accordance with the Statement on Standards for Attestation Engagements (SSAE) 18 or other comparable type of audit acceptable to Freddie Mac, in its sole discretion. A copy of the audit must be provided to Freddie Mac within 30 days of its completion.

Freddie Mac will provide Seller/Servicer with 30 days' notice before the Seller/Servicer (and/or the System Provider) is required to provide an SSAE 18 or other comparable type of audit report or an updated legal analysis, technical review and security review, unless such review is being conducted pursuant to Guide Series 1000, 2000 and/or 3000.

(g) Requirements for eMortgages that are Wholesale Home Mortgages

An approved eMortgage Seller may also deliver eMortgages originated by the Seller's Correspondents and Mortgage Brokers to Freddie Mac, provided that:

- The eClosing Systems and eNote Vault Systems used by the Correspondent or Mortgage Broker are either (i) already listed as Freddie Mac reviewed eMortgage Systems (<https://sf.freddiemac.com/working-with-us/electronic-loan-documents/reviewed-vendor-list>), or (ii) reviewed by Freddie Mac before the Seller delivers eMortgages; and
- All eClosing Systems and eNote Vault Systems used by the Correspondent or Mortgage Broker and Seller comply (and remain in compliance) with the requirements in this chapter at all times

The Seller must require its Correspondents and Mortgage Brokers to agree in writing to:

- Identify their eClosing and eNote Vault System Providers to the Seller;
- Represent and warrant to, and covenant with, the Seller that:

- Each such eClosing System and eNote Vault System complies with E-SIGN and the applicable UETA and Freddie Mac's requirements in this chapter, and
- All eMortgages sold to the Seller by such Correspondent or Mortgage Broker and sold and delivered to Freddie Mac comply with all other applicable laws and regulations, requirements in the Seller's Purchase Documents
- Comply with the eNote recourse requirements in Section 1402.8(c)(v) and eNote transfer warranty requirements in Section 1402.8(c)(vii)

The Seller must always know and approve the eClosing Systems and eNote Vault Systems being used by its Correspondents and Mortgage Brokers.

The Seller is solely and absolutely responsible for (A) all acts, omissions and errors of each Correspondent and Mortgage Broker in connection with eMortgages sold to the Seller and which the Seller delivers and sells to Freddie Mac; and (B) its Correspondents' and Mortgage Brokers' eClosing Systems and eNote Vault Systems compliance with Freddie Mac's selling requirements.

1402.4: eClosing requirements (08/03/22)

(a) eClosing System requirements

The eClosing System used by the Seller/Servicer to originate eMortgages must:

- Verify the Borrower's identity and authority to sign the eNote and other Electronic Records
- Clearly identify the symbol or Process used as an Electronic Signature by the Borrower and the purpose of the Electronic Signature
- Present Electronic Records in compliance with all applicable laws concerning the content, display and format of information and retention (as required for paper Records). As an illustration only, some of the formatting and display requirements that must be observed include:
 - Physical location of particular information, such as disclosures that are required to appear just above the signature line, and
 - Requirements that certain information is boxed, segregated, or separately displayed
- Clearly identify the Electronic Record being signed. Before each Borrower ("Consumer") uses an eClosing System, the Consumer must be given a "Consumer Consent Form," including a "clear and conspicuous" disclosure statement in accordance with the

requirements in Section 101(c)(1) of E-SIGN. Each Borrower must electronically sign the Consumer Consent Form before signing the eNote or any other Electronic Record. If the signed Consumer Consent Form was obtained prior to the closing, there is no need to obtain another signed Consumer Consent Form at the closing. The signed Consumer Consent Form must be securely stored either with the eNote or with other Electronic Records. For Electronic Records signed electronically at closing, the eClosing System must show (e.g., by screen text, “I agree” button, audit logs, etc.) the Borrower’s intent to affix such Borrower’s Electronic Signature to a particular Electronic Record and to be bound by it.

- Assure that the Borrower is aware of the legal consequences of the use of an Electronic Signature. The eClosing System and/or Process used for electronically signing eNotes and other Electronic Records with Electronic Signatures must:
 - Provide the Borrower with notice of the effect the Electronic Signature will have
 - Provide a mechanism or process for the Borrower to confirm that the Borrower intends to electronically sign the Electronic Record(s) presented
 - Provide the Borrower with notice that an Electronic Signature will be attached to, or logically associated with, an eNote and other Electronic Records, as applicable; and
 - Capture the Borrower’s acknowledgment that his or her Electronic Signature has been attached to, or logically associated with, the eNote or other Electronic Records, as applicable
- Present each Electronic Record individually and clearly identify it for Borrower to review and sign. For each Electronic Record that is required to be signed, the Borrower must take an action that expresses the Borrower’s intent to sign the Electronic Record being presented. A single Electronic Signature must not be applied to multiple Electronic Records when one or more of those Records must be separately signed by the Borrower.
- Attach the Borrower’s Electronic Signature to, or associate the Electronic Signature with, the eNote and any other Electronic Records that must be executed by the Borrower
- Establish to Freddie Mac’s satisfaction, that the Borrower electronically signed the Consent Form, eNote and any other related Electronic Records. For example, the Borrower may enter information into the System that is personal and attributable only to the Borrower such as, a confidential user ID, password and/or PIN before electronically signing an eNote or any other Electronic Record.
- Include the Borrower’s printed name in a visible and legible manner on the Electronic Record
- Record the time and the date of Borrower’s execution of the eNote and any other Electronic Records

- Apply a Tamper Seal to the eNote and any other SMART Documents after each Borrower signs and immediately after the last Borrower signs and deliver it to Seller's eNote Vault System, which must then register the eNote with the MERS® eRegistry
- Log any interim and all final Tamper Seals of eNotes' and any other SMART Documents
- Create and store a Record of each eNote and Electronic Record presented and signed ("eClosing Transaction Record"). The eClosing System must also, among other things, track and log actions related to the creation, signing and transferring of the eNote and other Electronic Records using the System. Such information must be contained in the eClosing Transaction Record. The eClosing Transaction Record must be retained and maintained by the Seller/Servicer and each subsequent Transferee Servicer. The eClosing Transaction Record, at all times, must be stored and maintained in a manner that preserves the integrity and reliability of the eClosing Transaction Record for the life of the applicable eMortgage plus seven years.
- Provide reasonable evidence that Electronic Records created and maintained by the System are not (and have not been) subject to unauthorized access or Alteration. In the event of unauthorized access or Alteration, the System Provider must have processes in place to promptly notify affected Seller/Servicers, Borrowers, other parties and Freddie Mac, as applicable.
- Have disaster recovery, business continuity, redundancy, data back-up, archival and retrieval capabilities, and be supported by well-documented plans and annual tests
- Be capable of accurately reproducing the fonts, styling, margins, formatting, and other features of the eNotes and other Electronic Records when electronically displayed and printed post-execution and as required by applicable law. In addition, the System must permit the party viewing or printing the Electronic Record to ascertain:
 - The content of the Electronic Record;
 - The name of the Borrower signing the Electronic Record and the legal capacity in which the Borrower signed; and
 - The time and date the Electronic Record was signed

(b) Mandatory Electronic Record types and Tamper Seals

The Seller/Servicer must use the following Electronic document types:

- The eNote must be a valid, Version 1.02 MISMO Category 1 SMART Document, signed using an Electronic Signature process, and secured by a Tamper Seal; and

- All other Mortgage File Documents in Electronic form may be MISMO Category 1, Category 2 or 4 Version 1.02 SMART Documents or an Electronic format (e.g., portable document format (PDF)) acceptable to Freddie Mac

(c) Document licenses

All eNotes and other Electronic Records, regardless of format, must have no licensing conditions that would prohibit, limit or inhibit Freddie Mac from using the eNote and other Electronic Records for any customary business purpose or otherwise prevent Freddie Mac from selling or transferring any or all of its ownership interests in an eNote or eMortgage and related Electronic Records. In addition, Seller/Servicer must ensure that Freddie Mac will not be required to pay any royalties or any other fees for its use of the eNotes and Electronic Records and agrees to indemnify Freddie Mac for any all such royalties or other fees that might be assessed against Freddie Mac for its use of the eNotes, eMortgages and related Electronic Records delivered to, or serviced for, Freddie Mac by Seller/Servicer.

(d) Ineligible Types of Electronic Signatures

Freddie Mac will not purchase an eMortgage if any of the Electronic Signatures is an audio or video recording or is solely created using a biometric (such as fingerprint, voice, facial, or retinal) data recognition system.

1402.5: eNote Vault System requirements (04/22/20)

The Seller/Servicer represents and warrants to, agrees and covenants with, Freddie Mac that the eNote Vault System used by the Seller/Servicer stores the Authoritative Copies of eNotes before and at the time the eMortgages are purchased by Freddie Mac and, thereafter, stores Copies of the Authoritative Copies of the eNotes, and at all times complies with following requirements such that it:

- Interfaces with MERS® eRegistry to register the eNote with the MERS eRegistry and has the capability to transfer eNotes and any other Electronic Mortgage File Documents in the eNote Vault System to another eNote Vault System using MERS eDelivery
- Supports the MISMO industry standard document version in which the eNote and other Electronic documents were originally created for the life of loan plus seven years.
- Supports multifactor authentication methods such as combinations of unique user ID/password, S/Key, password tokens, biometrics, Smart Card Authentication and X.509 digital certificates
- Protects System integrity through appropriate measures, including, but not limited to, safeguarding against malware, and the use of firewall and network perimeter security controls, etc.

- Has disaster recovery, business continuity, redundancy, data back-up, archival and retrieval capabilities and is supported by well-documented plans and annual tests
- Verifies document integrity including, but not limited to, compliance with eNote Document Type Definition (DTD) or schema and eNote Tamper Evident Seal before accepting documents
- Logs the re-computations and validations of eNotes' and any other SMART Documents' Tamper Seals and permits Seller/Servicer and Freddie Mac to verify the same
- Prevents unauthorized viewing of the most sensitive data and documents through restricted access
- Provides a screen on which the Authoritative Copy appears that states that the eNote being viewed is the Authoritative Copy
- Provides a screen on which a Copy of Authoritative Copy appears that states that the eNote being viewed is a Copy of the Authoritative Copy

If Seller/Servicer wishes to use a different method to identify the Authoritative Copy and/or a Copy of the Authoritative Copy, the Seller/Servicer must contact the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) and request Freddie Mac's prior written approval.

1402.6: eNote Vault System/eClosing Systems encryption requirements (06/12/19)

The Seller/Servicer must ensure that the Systems meet the following minimum encryption requirements with respect to the protection of sensitive data and information:

- Encryption algorithms compliant with National Institute of Standards and Technology (NIST) and Federal Information Processing Standards (FIPS) 140-2 guidance, as may be amended, updated or superseded by subsequent NIST FIPS guidance
- X.509 digital certificates for device/server-based TLS/SSL session authentication which support a minimum SHA-256 signing hash
- TLS session that use a minimum of 2048-bit Rivest–Shamir–Adleman public-key cryptosystems (RSA) key and 128-bit AES key

The Seller/Servicer must conduct due diligence on a digital certificate issuing authority's compliance with industry standards. Failure to do so may result in greater susceptibility to encryption eavesdropping (such as man-in-the-middle attacks) and fraudulent Digital Signatures,

which increases the risk to data integrity and confidentiality. The Seller/Servicer is responsible for losses due to such noncompliance.

1402.7: Eligible eMortgage types and products (04/05/23)

Upon obtaining Freddie Mac's written approval to sell eMortgages to Freddie Mac and subject to Section 1402.3(a), the Seller/Servicer may sell all Mortgage types and products eligible under the Seller's Purchase Documents to Freddie Mac as eMortgages, except for the following:

- Mortgages secured by Mortgaged Premises located in Puerto Rico
- Texas Equity Section 50(a)(6) Mortgages
- New York Consolidation, Extension and Modification Agreement ("NYCEMA") Mortgages. (Note: An eMortgage may be refinanced into NYCEMA using the NYCEMA process provided in Section 1402.17.)
- Mortgages for which the Borrower is a trust of any type, including Living Trust, or any Mortgage where a non-individual entity is required to sign the loan documents, including the eNote
- Cooperative Share Loans

Note:

- The Seller/Servicer may sell Land Trust Mortgages and Community Land Trust Mortgages as eMortgages to Freddie Mac since the Borrowers on such Mortgages are individuals and not trust entities
- The Seller/Servicer may sell Section 184 Native American Mortgages as eMortgages in which the Borrower is an individual

1402.8: Closing and delivering eMortgages (02/08/23)

(a) eMortgage delivery requirements

To deliver an eMortgage to Freddie Mac, a Seller/Servicer must:

- Close the eMortgage with the applicable Fannie Mae/Freddie Mac Uniform Security Instrument. See Exhibit 5 for mandatory eNote language to be used with the applicable Uniform Note.

- Provide the Borrower at closing with a paper copy of the executed eNote and all other Mortgage documents, unless the Borrower expressly agrees, in writing or electronically, to receive an Electronic copy of the eNote and all other Mortgage File Documents and provide copies of the eNote and other Mortgage File Documents, if requested by the Borrower in the future.
- Register an eNote with the MERS® eRegistry, using a MIN, as soon as possible, but no later than one (1) Business Day after the eMortgage loan closing date and before certification of the eMortgage by Freddie Mac as set forth in Section 1402.8(b).
- Deliver the Authoritative Copy of the eNote, using MERS eDelivery, to Freddie Mac's or a Freddie Mac approved third-party eNote custodian's eNote Vault System. Upon receipt of an eNote, the eNote Vault System will validate (re-compute) the eNote's Tamper-Seals and compare them with the corresponding Tamper-Seals in the MERS eRegistry.
- Retain a Copy of the Authoritative Copy of the eNote in Seller/Servicer's eNote Vault System.
- Send an offer of Transfer of Control of the eNote to Freddie Mac and Location of the eNote to Freddie Mac or a Freddie Mac approved third-party eNote custodian, as applicable, using the MERS eRegistry. For eMortgages delivered through Cash-Released XChange®, an offer of Transfer of Control and Transfer of Location must be sent to Freddie Mac.
- Deliver data point eNote Indicator (Sort ID 233) as “True” in Loan Selling Advisor to identify the Mortgage as an eMortgage. Also, insert the IFI J22 code in one of the IFI fields, if the eMortgage loan is closed using the Remote Online Notarization process.
- If the eNote was executed by a person acting as attorney-in-fact pursuant to authority granted by a Borrower under a paper power of attorney (POA), the Seller should comply with the below delivery requirements:
 - Deliver an Electronic copy of the following, along with the eNote, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) using MERS eDelivery:
 - The original POA (signed in ink by the Borrower), or
 - A copy of the POA, or
 - A copy of the POA showing the recordation information
 - If applicable law requires an original POA (signed in ink by the Borrower) for enforcement or foreclosure purposes, the Seller must deliver an original POA (signed in ink by the Borrower) to the Document Custodian

- If the POA is recorded, whether or not it is required, and the copy of the POA with recordation information is not delivered along with the eNote, the Seller must deliver an Electronic copy of the POA with recordation information received from the recording office to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable), using MERS eDelivery, within 30 days of receipt

Refer to Sections 6301.4 and 1401.14 for additional delivery requirements.

Note: If MERS eDelivery is not available, for delivery of the Electronic documents, delivery by electronic means (e.g., e-mail) to Freddie Mac or the Freddie Mac approved third-party eNote custodian is acceptable. If Freddie Mac is the eNote custodian, deliver the Electronic documents to Loan_Delivery_Funding_Ops@FreddieMac.com.

- If the eNote was executed by a person acting as attorney-in-fact pursuant to authority granted by a Borrower under an Electronic POA, the Seller must comply with the following delivery requirements:
 - The Seller must deliver the Electronic POA, along with the eNote, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) using MERS eDelivery
 - If the POA is recorded, whether or not it is required, and the copy of the POA with recordation information is not delivered along with the eNote, the Seller must deliver an Electronic copy of the POA with recordation information received from the recording office to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable), using MERS eDelivery, within 30 days of receipt

Refer to Sections 6301.4 and 1401.15 for additional delivery requirements.

Note: If MERS eDelivery is not available, for delivery of the Electronic documents, delivery by electronic means (e.g., e-mail) to Freddie Mac or the Freddie Mac approved third-party eNote custodian is acceptable. If Freddie Mac is the eNote custodian, deliver the Electronic documents to Loan_Delivery_Funding_Ops@FreddieMac.com.

- See Sections 1402.8(c) and 6302.5(b)(ii) for additional delivery requirements.

(b) eNote certification

Freddie Mac will not purchase an eMortgage delivered by a Seller/Servicer to Freddie Mac until Freddie Mac or a Freddie Mac approved third-party eNote custodian has certified that the eNote data matches that data delivered in Loan Selling Advisor. Any other certification arrangement must be expressly approved by Freddie Mac.

Freddie Mac may agree to provide either its automated eNote certification process, or its manual eNote certification process to Seller/Servicer. Freddie Mac will make that determination at the time of the Seller/Servicer's approval to sell eMortgages.

(i) Automated eNote certification

Freddie Mac and Freddie Mac approved third-party eNote custodians provide automated eNote certification services for eNotes delivered to Freddie Mac. Such automated eNote certification will occur after the eNotes are in Freddie Mac's or the Freddie Mac approved third-party eNote custodian's eNote Vault System and Seller/Servicer has provided all required loan data to Loan Selling Advisor.

(ii) Manual eNote certification

In the event Freddie Mac or a Freddie Mac approved third-party eNote custodian determines that Seller/Servicer must use the manual eNote certification process, in addition to applicable Note verification requirements as identified in Section 6304.3(a), Freddie Mac or a Freddie Mac approved third-party eNote custodian must verify that:

- Loan Selling Advisor properly identifies eMortgages by confirming that:
 - The term "EMTG" is on the Form 1034E in Loan Selling Advisor or on a printed version of Form 1034E; or
 - The "Enote Indicator" column in the data export from Loan Selling Advisor is "true"; or
 - A check mark is in a column denoted with or labeled with a lower case "e," in the certification screens in Loan Selling Advisor
- The MIN in Loan Selling Advisor from the Electronic Security Instrument is the same as the MIN on the eNote;
- The Tamper Seal on the eNote matches the Tamper Seal stored in the MERS eRegistry;
- Freddie Mac is the Controller of the eNote and Freddie Mac or a Freddie Mac approved third-party eNote custodian is the Location of the eNote in the MERS eRegistry;
- When the eNote is viewed in the eNote Vault System, there is a representation of the Borrower's typed name and Electronic Signature (which may or may not include a time and date stamp), and the Borrower's legal signing capacity, if signing other than in an individual capacity;

- When the eNote is viewed in the eNote Vault System, MERSCORP Holdings, Inc., a Delaware corporation, has been named as the “Operator of the Registry” in the eNote Uniform Instrument;
- The eNote is a valid Version 1.02 MISMO Category 1 SMART Document; and
- When the Borrower’s holographic signature is not consistent with a typed or printed name below the signature line on the Note or in Loan Selling Advisor, a signature affidavit or name affidavit is not required for eMortgages since the eClosing System involves authentication of the Borrower and has an associated audit trail

The Seller/Servicer is responsible for resolving discrepancies before certification can be completed. If the eNote does not meet certification requirements and the Seller/Servicer has been unable to resolve outstanding issues, the eNote will be transferred back to the Seller/Servicer and purchase by Freddie Mac will not occur.

(c) eMortgage post-closing corrections and other requirements

(i) Major corrections

If the Seller/Servicer discovers a major error or omission (such as loan amount, Note Date, Floor Rate Percent, Ceiling Rate Percent, etc.) that affects the enforceability of the eNote, Electronic Security Instrument or other Electronic Mortgage File Documents (“Major Error”) after closing, but before delivery to Freddie Mac, Seller/Servicer may correct such Major Error by having the Borrower re-execute the eNote, Electronic Security Instrument or other Electronic Mortgage File Document, as applicable.

(ii) Minor corrections

If the Seller/Servicer discovers a scrivener’s or ministerial error or omission (such as misspelled City, State or Street names, etc.) that does not adversely affect the enforceability of the eNote, Electronic Security Instrument or Electronic Mortgage File Documents or affecting the First Lien status of the eMortgage (“Minor Error”) in any eNote, Electronic Security Instrument or Electronic Mortgage File Documents after closing, but before delivery to Freddie Mac, Seller may correct any such Minor Error using the procedures and processes below:

- The Seller/Servicer may, pursuant to a limited power of attorney or closing compliance authorization agreement duly executed by the Borrower:
 - Make corrections only to a Seller/Servicer certified paper copy of the eNote, Electronic Security Instrument or Electronic Mortgage File Document marked “Copy,” as applicable; and
 - Execute an affidavit similar to the sample provided in Exhibit 45 and insert the applicable information on a form similar to the sample provided in Exhibit 46

- The Seller/Servicer must: (i) store Electronic copies of such documents in Seller/Servicer's eNote Vault System or eStorage System; (ii) deliver such documents to Freddie Mac's or a Freddie Mac approved third-party eNote custodian's eNote Vault System as Electronic Records, in an Electronic format acceptable to Freddie Mac for storage with related eNotes; and (iii) deliver a paper copy of such documents to the Borrower on the day such documents are executed
- The Seller/Servicer represents and warrants to, and agrees and covenants with Freddie Mac that eNotes, Electronic Security Instruments and Electronic Mortgage File Documents corrected as set forth herein are accurate, valid, effective, enforceable, and in First Lien position and in compliance with all applicable laws, rules, and regulations, including, without limitation, E-SIGN and the UETA, as enacted in the applicable jurisdiction
- The Seller/Servicer may not use this procedure to correct any eNote, Electronic Security Instrument or Electronic Mortgage File Document after the eMortgage has been delivered to Freddie Mac, unless the Seller/Servicer obtains Freddie Mac's prior written approval

The Minor Error correction process in this Section 1402.8(c)(ii) is provided as a convenience for the Seller/Servicer and not as legal advice. The Seller/Servicer is (and remains) solely responsible for the validity, effectiveness and enforceability of any eNote or other Electronic Record and the First Lien status of the eMortgage corrected in this manner. The Seller/Servicer must confer with its legal counsel before using this process in any State. Freddie Mac assumes no liability for the correction process used by the Seller/Servicer.

(iii) Electronic Record image quality

If an Electronic Record is delivered to Freddie Mac's or a Freddie Mac approved third-party eNote custodian's eNote Vault System and Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, determines that the image quality of the Electronic Record is unacceptable, Freddie Mac may require the Seller/Servicer to provide an Electronic copy of the Electronic Record that is acceptable to Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable.

(iv) eMortgage file documentation management

The Mortgage File Documents for eMortgages delivered may contain paper and Electronic documents, so long as Seller/Servicer: (i) maintains Records in the Mortgage file, eNote Vault System, and/or eStorage System that cross-reference the paper and Electronic documents, and (ii) promptly delivers the Electronic Custodial Documents to Freddie Mac, its designee or a Freddie Mac approved third-party eNote custodian, as applicable, and paper Custodial Documents to the Document Custodian in the format required by applicable law and/or Freddie Mac's requirements.

If some of the Mortgage File Documents are paper and some are Electronic, the paper documents must be delivered and retained as required by other parts of the Guide, and the other Electronic Mortgage File Documents must be retained in the Seller/Servicer's eNote Vault System. If the eNote Vault System does not allow storage of Electronic Mortgage File Documents other than the eNote, these Electronic Mortgage File Documents must be stored securely in an eStorage System in compliance with the requirements of this chapter, the Guide and the Seller/Servicer's other Purchase Documents.

Note: Sections 1401.14 and 1401.15 and Chapters 3301 and 3302 contain most of Freddie Mac's Mortgage file document retention requirements.

The eStorage System must:

- Support multifactor authentication; acceptable methods may include a username and password, biometrics, and/or a key token
- Be setup with appropriate firewall and network perimeter security controls and measures to safeguard against malware, etc.
- Prevent unauthorized viewing or disclosure of the most sensitive data and documents through restricted access

(v) Selling eNotes with or without recourse

Unless the Seller/Servicer and Freddie Mac have agreed (or subsequently agree) in the Seller/Servicer's other Purchase Documents to the contrary, all eNotes sold to Freddie Mac are sold by the Seller/Servicer "without recourse," as that term is used and described in Article 3 of the UCC and Section 6201.7(b) of the Guide. Despite the sale of eNotes being sold "without recourse" to Freddie Mac, the Seller/Servicer remains responsible and liable for: (i) for all of its representations, warranties, covenants and agreements under Seller/Servicer's Purchase Documents including, without limitation, any repurchase or indemnification agreements applicable to any eMortgage sold hereunder and (ii) the eNote transfer warranties set forth in Section 1402.8(c)(vii).

Note: Endorsements are not applicable for eNotes because eNotes are Transferable Records under UETA and E-SIGN and not subject to the UCC endorsement requirements applicable to paper promissory notes and other negotiable instruments.

(vi) Title insurance requirements

Each eMortgage must be insured by a lender's title insurance policy that complies with the requirements of Section 4702.2.

(vii) eNote (negotiable instrument) transfer warranties

Despite the transfer warranties or anything else contained in Section 3-416 of Article 3 of the UCC, the Seller/Servicer, as transferor of each eNote transferred to Freddie Mac for consideration, represents and warrants to, and agrees and covenants with, Freddie Mac, as transferee, and to Freddie Mac's successors and/or assigns, as successor transferees, that:

- Each eNote is being maintained in an eNote Vault System that satisfies the requirements of Section 16(b) and (c) of the UETA, and Section 201(b) and (c) of E-SIGN, and eNote Vault System requirements specified in this chapter;
- The transferor is duly authorized to transfer each eNote;
- The transferor is a person or an organization entitled to enforce each eNote;
- All Electronic Signatures attached to or logically associated with each eNote, and in connection with any prior authorization to transfer, are authentic, authorized, genuine and enforceable against the party purporting to have electronically signed the eNote;
- Each eNote has not been altered since it was executed by the Borrower;
- Each eNote is not subject to a defense or a claim of recoupment of any party that can be asserted against the transferor;
- The transferor has no knowledge of any insolvency proceeding commenced or threatened with respect to the Borrower on each eNote; and
- Each eNote has at all times been maintained by a person identified as the Holder: (a) to whom the eNote was issued or transferred; and (b) asserting Control of the eNote, or that Holder's designated custodian

Freddie Mac and any successor transferee accepting a Transfer of Control and Location of the eNotes sold hereunder in good faith may recover from the Seller/Servicer (as transferor) damages for breach of any of the representations, warranties, agreements and covenants set forth in this Section 1402.8(c)(vii), in an amount equal to the loss suffered as a result of the breach, but not more than the unpaid principal balance of the applicable eNote at the time of any such breach, plus expenses, loss of interest, and other amounts secured by the related eMortgage that are incurred as a result of the breach. The foregoing is not in limitation of any remedies of Freddie Mac contained in other chapters of the Guide or available under applicable law.

The Seller/Servicer and Freddie Mac agree that under no circumstances shall the transfer warranties or any conditions precedent to enforcement of such transfer warranties contained in Section 3-416 of Article 3 of the UCC (or in the UCC as enacted in the State in which the Mortgaged Premises is located) apply to eNotes sold to Freddie Mac.

(viii) eMortgage representations, warranties and covenants

In addition to making all applicable representations and warranties elsewhere in the Guide and in the Seller/Servicer's other Purchase Documents, the Seller/Servicer further represents and warrants to, and agrees and covenants with, Freddie Mac, with respect to each and every eMortgage (both Retail Mortgages and Wholesale Home Mortgages) sold to Freddie Mac, that:

- All Borrowers electronically signed an Electronic consent form ("Electronic Consent Form") in advance of being presented with any Electronic Record to be electronically signed;
- The eNote and other Electronic Mortgage documents, the Systems and Processes used to create, register, transfer, store, retrieve, maintain and secure these documents, and the Electronic Signature Process used by Borrower to electronically sign these documents comply with: (a) Seller/Servicer's Purchase Documents; (b) E-SIGN and/or the UETA, as enacted by the applicable jurisdiction, including, without limitation, Section 201 of Title II of E-SIGN and Section 16 of UETA; and (c) all other applicable laws, regulations and rules;
- The Electronic Record identified as an eNote is a Transferable Record and is a valid, Version 1.02 MISMO Category 1 SMART Document;
- All required disclosures under applicable law, were provided to the Borrower either on paper or electronically. If the disclosures were provided electronically, then they were provided after the Borrower was presented with and executed the Electronic Consent Form;
- Each eMortgage sold to Freddie Mac was originated using the same credit, collateral and underwriting requirements applicable to identical paper Mortgages as set forth in the Seller/Servicer's Purchase Documents;
- Each eNote is registered with the MERS® eRegistry; and
- No eMortgage was funded at loan closing by the proceeds from the sale of such eMortgage to Freddie Mac.

(d) Use of eMortgage Warehouse Lender

This Section 1402.8(d) supplements and amends Chapter 6305 by setting forth the requirements for Seller/Servicers and their Warehouse Lenders with respect to eMortgages. A Freddie Mac approved Seller/Servicer that is also approved by Freddie Mac to originate and sell eMortgages to Freddie Mac, may enter into an eMortgage Warehousing Agreement with Freddie Mac reviewed eMortgage Warehouse Lenders (<https://sf.freddiemac.com/working-with-us/electronic-loan-documents/emortgage-enote-warehouse-lenders>) to facilitate the closing or purchase of eMortgages, and may grant

the Warehouse Lender a lien, interest and/or security interest in such eMortgages and related eNotes.

If a Seller wishes to use Warehouse Lenders that are not Freddie Mac reviewed eMortgage Warehouse Lenders (<https://sf.freddiemac.com/working-with-us/electronic-loan-documents/emortgage-enote-warehouse-lenders>), the Warehouse Lender must work with Freddie Mac eMortgage team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) to obtain Freddie Mac approval, before Seller can deliver and sell any Pledged eMortgages to Freddie Mac. The approval process includes a review of the eNote Vault System used by the Warehouse Lender in accordance with the process described in Section 1402.3, as applicable, and the Warehouse Lender executing and delivering a completed Form 994SF, Warehouse Lender Agreement, to Freddie Mac. Either the original paper Form 994SF signed by the Warehouse Lender has to be sent to Freddie Mac by mail or a scanned copy of the Warehouse Lender signed Form 994SF has to be electronically delivered to Freddie Mac at [Counterparty Authorization@FreddieMac.com](mailto:Counterparty_Authorization@FreddieMac.com). The requirements applicable to Seller/Servicers and Warehouse Lenders for the delivery of Pledged eMortgages are set forth in Section 1402.16.

(e) Post purchase support

A Seller/Servicer that creates, stores or transfers an eNote purchased by Freddie Mac must cooperate with Freddie Mac in all activities necessary to enforce the Security Instrument and eNote. Promptly upon request by Freddie Mac, the Seller/Servicer must provide or, if applicable, cause their third-party System Provider to provide to Freddie Mac an affidavit or certification regarding the creation and/or maintenance of the eNote, other Electronic Records in the Mortgage file and other Custodial Documents in connection with the eMortgage. The affidavit or certification must be in a form appropriate to ensure admissibility of the eNote, other Electronic Records in the Mortgage file and other Custodial Documents in a legal proceeding and must include, among other things:

- A description of how the executed eNote and other Electronic Records have been stored to prevent against unauthorized access and unauthorized Alteration and a description of how the System can detect such unauthorized access or Alteration;
- A description of the System controls in place to ensure compliance with E-SIGN and the UETA, including, without limitation, Section 201 of Title II of E-SIGN and Section 16 of UETA;
- A description of the steps followed by a Borrower to execute the eNote or other Electronic Record using the eClosing System;
- A copy of each screen, as it would have appeared to the Borrower, of the eNote or other Electronic Record that Freddie Mac is trying to enforce when the Borrower signed the eNote or other Electronic Record;

- A description of the System controls in place at the time of signing to ensure the integrity of the data; and
- Testimony by an authorized official or employee of the Seller/Servicer and/or System Provider and/or Correspondent or Mortgage Broker to support admission of the eNote and other Electronic Records into legal proceeding to defend and enforce the eMortgage

1402.9: Servicing eMortgages (04/12/23)

(a) Becoming an eMortgage Servicer

A Servicer who wishes to service eMortgages for Freddie Mac must contact its Freddie Mac account representative or the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) to determine its eligibility and obtain Freddie Mac's prior written approval.

Freddie Mac's approval of a Servicer to service eMortgages for Freddie Mac does not necessarily mean that the Servicer will also be approved as a Seller of eMortgages to Freddie Mac or vice versa. The approval process to sell eMortgages is set forth in Section 1402.3. (Note: An approved Servicer of eMortgages may only engage in a Transfer of Servicing involving eMortgages in accordance with Section 1402.13(a).)

To obtain and maintain approval to service eMortgages, a Servicer shall at all times meet the following requirements or use the services of a Freddie Mac approved eMortgage Servicer as a Servicing Agent:

- Be a MERS eDelivery and MERS eRegistry participant
- Have an approved eNote Vault System. (See Section 1402.5 for eNote Vault System requirements and Section 1402.3(f) for ongoing reviews.) (Note: If the eNote Vault System was not previously reviewed by Freddie Mac, the eNote Vault System must go through a review and approval process, similar to the process described in Section 1402.3, as applicable.) The eNote Vault System must have the ability to:
 - Maintain a Copy of the Authoritative Copy of the eNote and its Tamper Evident Seal for the life of the eMortgage plus seven years
 - Identify and track all eMortgages that the Servicer services for Freddie Mac
 - Record all status changes and required actions that occur during the life of the eMortgage in the MERS® eRegistry
 - Accept an offer of change of Control from Freddie Mac, in the event of a foreclosure or other Freddie Mac Default Legal Matters with respect to an eMortgage, as applicable

- Create an offer of change of Control to Freddie Mac, in the event of termination of a foreclosure or other Freddie Mac Default Legal Matters with respect to an eMortgage, as applicable
- Confirm that the MERS eRegistry accurately reflects the Controller and Location at all times
- Accept a transfer of the Authoritative Copy of the eNote from Freddie Mac's eNote Vault System using MERS eDelivery, in the event of an eMortgage repurchase by the Seller
- Securely store Electronic copies of Mortgage File Documents. (Note: A Servicer can store all Electronic Mortgage File Documents in its eNote Vault System, if the eNote Vault System allows such storage. If the eNote Vault System does not permit storage of Electronic Mortgage File Documents other than the eNote, the Servicer must have a secure eStorage System for storing such documents. (See Section 1402.8(c)(iv) for eStorage System requirements.)
- Have written eMortgage Servicing policies and procedures in place
- Meet any other eMortgage requirements imposed by Freddie Mac

The Servicing requirements of this chapter are applicable only to the Servicing of eMortgages. Servicers must not apply any of the requirements set forth in this chapter to a non-eMortgage, but rather, should continue Servicing such Mortgages in accordance with all other applicable Servicing requirements of the Servicing Contract.

Freddie Mac may exercise any and all of its rights under the Guide and applicable Purchase Documents, including, without limitation, the right set forth in Section 3603.1(a) to terminate for cause a Servicer's Servicing Contract, in whole or in part, if the Servicer fails to continue to meet the eligibility requirements set forth above, including, but not limited to, the Servicer's MERS eRegistry participation (or their Servicing Agent's MERS eRegistry participation, if applicable) being terminated or if the Servicer is unable to record status changes and required actions that occur during the life of the eMortgage in the MERS eRegistry. Upon such termination, the Servicer agrees to facilitate a Transfer of Servicing of Freddie Mac's eMortgages to Freddie Mac's designated eMortgage Servicer at Servicer's own expense.

(b) Becoming an eMortgage Servicing Agent

Subject to Chapter 8102, a Servicer approved to service eMortgages for Freddie Mac may, as a Master Servicer, engage a Servicer as its Servicing Agent to service such eMortgages.

An eMortgage Servicing Agent is not required to be separately approved to service eMortgages provided the eMortgage Servicing Agent uses the Master Servicer's approved

eNote Vault System and Servicing staff to record status changes and required actions that occur during the life of the eMortgage in the MERS eRegistry and to create/accept offers of change of Control and Location requests, as applicable, during the Servicing of an eMortgage. However, if an eMortgage Servicing Agent intends on using its own eNote Vault System, the eMortgage Servicing Agent must be separately approved to service eMortgages for Freddie Mac and its eNote Vault System must comply with the requirements of this chapter.

If the eMortgage Servicing Agent intends on using its own eNote Vault System, the eMortgage Servicing Agent must provide to the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) its eMortgage Servicing policies and procedures as part of its approval process to service eMortgages for Freddie Mac.

Regardless of the eNote Vault System used by the eMortgage Servicing Agent, the Master Servicer and the eMortgage Servicing Agent must have obtained Freddie Mac's approval of their fully executed Form 479A, Single-Family Servicing Agent Certification and Agreement, with an effective date on or after September 18, 2018. For a Master Servicer and its eMortgage Servicing Agent that have been approved by Freddie Mac based on their submission of Form 479A with an effective date prior to September 18, 2018, the Master Servicer and its eMortgage Servicing Agent must execute a new Form 479A and submit it to Freddie Mac and obtain Freddie Mac's prior approval in accordance with Section 8102.1. When a Master Servicer and its eMortgage Servicing Agent submit a fully executed Form 479A to Freddie Mac, a copy must also be submitted to the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)).

Consistent with Section 8201.1, a Master Servicer may use only one eMortgage Servicing Agent for eMortgages being serviced under a particular Freddie Mac Seller/Servicer number at any one time. Freddie Mac's approval of an eMortgage Servicing Agent is limited to the Master Servicer designated on the approved Form 479A. A separate fully executed Form 479A must be submitted to obtain Freddie Mac's prior written approval before an eMortgage Servicing Agent may subservice eMortgages for another Master Servicer.

1402.10: Servicing performing eMortgages (10/14/20)

(a) eMortgage recast modification requirements

Upon a recast modification of an eMortgage under Section 8103.7, the Seller/Servicer must update the MERS® eRegistry to provide notice of the modification agreement.

(i) Paper modification agreement

If the modification of an eMortgage is memorialized in a paper modification agreement, the Seller/Servicer must comply with the requirements set forth in Section 9206.17.

(ii) eModification Agreement

If the modification of an eMortgage is memorialized in an eModification, the Seller/Servicer must comply with the following requirements:

- Create and execute the eModification Agreement on a SMART Document version that meets the MERS eRegistry requirements
- Register the eModification Agreement with the MERS eRegistry to associate the eModification Agreement with the previously registered eNote
- Assure that the MIN assigned to the eModification Agreement is the same as the MIN assigned to the previously registered eNote
- Assure that the signing platform has a robust audit trail of all key events starting from the creation of the eModification Agreement through and including the Borrower and Servicer execution that the Servicer can reproduce upon request by Freddie Mac

(iii) Delivery requirements

If the eModification Agreement must be recorded and will not be recorded electronically	<ol style="list-style-type: none">1. Deliver an Electronic copy of the executed eModification Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within 25 days after receiving it from the Borrower.2. Deliver an Electronic scanned copy of the recorded eModification Agreement, with recording information therein or Recording Confirmation by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within five Business Days of receipt.
If the eModification Agreement must be recorded and will be recorded electronically	<ol style="list-style-type: none">1. Deliver an Electronic copy of the executed eModification Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within 25 days after receiving it from the Borrower.2. Deliver an Electronic copy of the eModification Agreement, with recording information therein or Recording Confirmation by means of MERS

	eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within five Business Days of receipt.
If the recordation is not required	Deliver an Electronic copy of the executed eModification Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within 25 days of receiving it from the Borrower.

Note: If MERS eDelivery is not available for delivery of the Electronic documents, delivery by other electronic means (e.g., e-mail) to Freddie Mac or the Freddie Mac approved third-party eNote custodian is acceptable. If Freddie Mac is the eNote custodian, deliver the Electronic documents to

[Loan Delivery Funding Ops@FreddieMac.com](mailto:Loan_Delivery_Funding_Ops@FreddieMac.com).

(b) Assumption of eMortgages

Upon an assumption (with or without a release of liability) of an eMortgage under Chapter 8406, the Seller/Servicer must update the MERS eRegistry to provide notice of the assumption agreement.

(c) eMortgage payoffs

In States that require the return of a paper Note marked “paid-in-full” upon payoff of an eMortgage, the Seller/Servicer must provide the Borrower with a paper copy of the eNote (**marked “Copy” and “paid-in-full”**) and a letter to the Borrower that explains that the Borrower is receiving a paper copy of the eNote, which was originally registered in the MERS eRegistry, and that the Seller/Servicer has caused the eNote to be de-activated on the MERS eRegistry due to the eMortgage having been paid in full.

(d) Conversion of the eNote to a paper Note

Neither the Seller/Servicer nor any other party may convert an eNote owned by Freddie Mac into a paper-based Note without Freddie Mac’s prior written approval, subject to any Freddie Mac instructions. A Seller/Servicer must contact the Freddie Mac Legal Division ([Legal eMortgage@FreddieMac.com](mailto:Legal_eMortgage@FreddieMac.com)) to obtain such approval. The one exception to this requirement is when a Seller/Servicer is Servicing an eMortgage originated in New York and the same Borrower later wishes to refinance the eMortgage using the New York Consolidation, Modification and Extension Agreement (NYCEMA) process and documents. In such case, the Seller/Servicer must comply with the requirements in Section 1402.17.

1402.11: Servicing non-performing eMortgages (12/08/21)

(a) Electronic Payment Deferral documents

If an eMortgage is eligible for Payment Deferral in accordance with the requirements set forth in Chapter 9203, and if it is memorialized in a paper Payment Deferral Agreement, the Seller/Servicer must comply with the requirements set forth in Section 9203.23. If the Payment Deferral is memorialized in an Electronic Payment Deferral Agreement, in addition to the requirements set forth in Section 9203.27, the Seller/Servicer must comply with the following delivery requirements:

If the Borrower signature is not required	Within 25 days of the effective date of the Payment Deferral, the Servicer must deliver an Electronic copy of the Servicer executed Electronic Payment Deferral Agreement, by means of MERS® eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote Custodian, if applicable) that contains the Authoritative Copy of the eNote.
If the Borrower signature is required and recordation is not required	Within 25 days of the effective date of the Payment Deferral, the Servicer must deliver an Electronic copy of the fully executed Electronic Payment Deferral Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote Custodian, if applicable) that contains the Authoritative Copy of the eNote.
If recordation is required, and will not be recorded electronically	<ol style="list-style-type: none">1. Within 25 days of the effective date of the Payment Deferral, the Servicer must deliver an Electronic copy of the fully executed electronic Payment Deferral Agreement by means of MERS eDelivery to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote Custodian, if applicable) that contains the Authoritative Copy of the eNote, and2. The Servicer must also deliver an Electronic scanned copy of the recorded Electronic Payment Deferral Agreement with recording information therein or Recording Confirmation by means of MERS eDelivery to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote Custodian, if applicable) that contains the Authoritative Copy of the eNote within five Business Days of receipt from the recorder's office

If recordation is required, and will be recorded electronically	<ol style="list-style-type: none"> 1. Within 25 days of the effective date of the Payment Deferral, the Servicer must deliver an Electronic copy of the fully executed electronic Payment Deferral Agreement by means of MERS eDelivery to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote Custodian, if applicable) that contains the Authoritative Copy of the eNote, and 2. The Servicer must also deliver an electronically recorded Electronic Payment Deferral Agreement with recording information therein or Recording Confirmation by means of MERS eDelivery to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote Custodian, if applicable) that contains the Authoritative Copy of the eNote within five Business Days of receipt from the recorder's office
--	---

If MERS eDelivery is not available for delivery of the Electronic documents, delivery by Electronic means (e.g., e-mail) to Freddie Mac or the Freddie Mac approved third-party eNote custodian is acceptable. If Freddie Mac is the eNote custodian, deliver the Electronic documents to Loan_Delivery_Funding_Ops@FreddieMac.com.

(b) eMortgage modification requirements

Upon a modification of an eMortgage under Chapter 9206 or other applicable Purchase Documents, the Seller/Servicer must update the MERS® eRegistry to provide notice of the modification agreement.

(i) Paper modification agreement

If the modification of an **eMortgage** is memorialized in a paper modification agreement, the Seller/Servicer must comply with the requirements set forth in Section 9206.17.

(ii) eModification Agreement

If the modification of an eMortgage is memorialized in an eModification Agreement, the Seller/Servicer must comply with the following requirements

- Create and execute the eModification Agreement on a SMART Document version that meets the MERS eRegistry requirements
- Register the eModification Agreement with the MERS eRegistry to associate the eModification Agreement with the previously registered eNote
- Assure that the MIN assigned to the eModification Agreement is the same as the MIN assigned to the previously registered eNote

- Assure that the signing platform has a robust audit trail of all key events starting from the creation of the eModification Agreement through and including the Borrower and Servicer execution that the Servicer can reproduce upon request by Freddie Mac

(iii) Delivery requirements

If the eModification Agreement must be recorded and will not be recorded electronically	<ol style="list-style-type: none"> 1. Deliver an Electronic copy of the executed eModification Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within 25 days after receiving it from the Borrower. 2. Deliver an Electronic scanned copy of the recorded eModification Agreement, with recording information therein or Recording Confirmation by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within five Business Days of receipt.
If the eModification Agreement must be recorded and will be recorded electronically	<ol style="list-style-type: none"> 1. Deliver an Electronic copy of the executed eModification Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within 25 days after receiving it from the Borrower. 2. Deliver an Electronic copy of the recorded eModification Agreement, with recording information therein or Recording Confirmation by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the Authoritative Copy of the eNote within 5 Business Days of receipt.
If the recordation is not required	Deliver an Electronic copy of the executed eModification Agreement, by means of MERS eDelivery, to the Freddie Mac eVault (or to the eVault of the Freddie Mac approved third-party eNote custodian, if applicable) that contains the

	Authoritative Copy of the eNote within 25 days after receiving it from the Borrower.
--	--

Note: If MERS eDelivery is not available for delivery of the Electronic documents, delivery by electronic means (e.g., e-mail) to Freddie Mac or the Freddie Mac approved third-party eNote custodian is acceptable. If Freddie Mac is the eNote custodian, deliver the Electronic documents to [Loan Delivery Funding Ops@FreddieMac.com](mailto:Loan_Delivery_Funding_Ops@FreddieMac.com).

(c) Workout Mortgage assumption of eMortgages

Upon a workout Mortgage assumption (with or without a release of liability) of an eMortgage under Chapter 9207, the Seller/Servicer must update the MERS eRegistry to provide notice of the assumption agreement.

(d) Short sale or deed-in-lieu of foreclosure involving an eMortgage

In States that require the return of a paper Note upon a short sale or deed-in-lieu of foreclosure involving an eMortgage, the Seller/Servicer must provide the Borrower with a Seller/Servicer certified paper copy of the eNote (**marked “Copy” and “canceled”**). In such States, the Seller/Servicer must also deliver a letter to the Borrower that explains that the Borrower is receiving a paper copy of the eNote, which was originally registered in the MERS eRegistry, and that the Seller/Servicer has caused the eNote to be deactivated on the MERS eRegistry due to the eMortgage having been canceled as a result of the short sale or deed-in-lieu of foreclosure.

(e) Foreclosure, bankruptcy or other legal proceedings

In States in which the Seller/Servicer must be the holder of an eNote prior to commencing foreclosure or to take legal action, such as responding to the bankruptcy of a Borrower, bringing or defending a lawsuit or other litigation relating to the maturity, prepayment, repurchase, substitution, conversion, modification, or assumption of a Mortgage or other Freddie Mac Default Legal Matters with respect to an eMortgage, the Seller/Servicer must deliver Form 1036 to Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, to request a change of Control of the eNote in the MERS eRegistry from Freddie Mac to the Seller/Servicer. If Freddie Mac is the eNote custodian, Form 1036 must be sent to Freddie Mac ([Loan Delivery Funding Ops@FreddieMac.com](mailto:Loan_Delivery_Funding_Ops@FreddieMac.com)) at least three Business Days before the change of Control is needed. Once the Seller/Servicer's request is confirmed, Freddie Mac or a Freddie Mac approved third-party eNote custodian, as applicable, will create an offer of change of Control of such eNote to the Seller/Servicer, which the Seller/Servicer must accept.

Immediately upon Seller/Servicer's acceptance of the offer of change of Control: (i) Freddie Mac or the applicable Freddie Mac approved third-party eNote custodian shall be automatically and conclusively deemed to be the Seller/Servicer's designated custodian, as the term “designated custodian” is defined or described in the UETA and E-SIGN, and will maintain the eNote in its eNote Vault System, in trust, for the benefit of the Seller/Servicer;

and (ii) the Seller/Servicer shall be automatically and conclusively deemed to be the holder of such eNote, as the term “holder” is defined in Article 1 of the UCC, as enacted in the applicable State. The Seller/Servicer will be responsible for confirming that the Seller/Servicer is identified as the Controller of the eNote in the MERS eRegistry.

During the period for which the Seller/Servicer is identified as the Controller under this Section 1402.11(e), Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, will remain the Location in the MERS eRegistry and Freddie Mac or the applicable Freddie Mac approved third-party eNote custodian shall maintain the Authoritative Copy of the eNote as the Seller/Servicer’s designated custodian, except where the Location was transferred to the Seller/Servicer. Freddie Mac shall at all times, however, be the owner or beneficial owner of the eNote.

When the legal proceeding is concluded, the Seller/Servicer must promptly create an offer of change of Control of the eNote in the MERS eRegistry to Freddie Mac and change of Location, if applicable, to Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable. Upon Freddie Mac’s acceptance of the change of Control, Freddie Mac shall be the Controller, and Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, shall automatically and immediately cease maintaining the eNote, in trust, for the benefit of the Seller/Servicer as its designated custodian and resume maintaining the eNote for Freddie Mac.

(f) Producing the eNote for legal proceedings

If the Seller/Servicer is required to produce a copy of the eNote for foreclosure or other Freddie Mac Default Legal Matters with respect to an eMortgage, the Seller/Servicer must produce a Seller/Servicer certified paper copy of the eNote (marked “Copy”) together with any required affidavit.

1402.12: Mortgage File Documents management requirements (08/14/19)

(a) Cross-referencing paper Mortgage File Documents to eMortgages

Paper documents that are part of the Mortgage File Documents related to an eMortgage must be cross-referenced to all Electronic Records that are stored in the eNote Vault System for that eMortgage and, as necessary, the eStorage System, such that all the Records (both paper and Electronic) are identified and cross-referenced to the applicable eMortgage. (See Section 1402.8(c)(iv) for eStorage System requirements.)

(b) Obtaining access to Custodial Documents

The Seller/Servicer must complete and send to the Document Custodian Form 1036 to obtain any Custodial Document in the Document Custodian’s custody.

1402.13: Transfer of Servicing involving eMortgages (03/04/20)

(a) Transfer of Servicing involving eMortgages

A Transferor Servicer may engage in a Transfer of Servicing involving eMortgages provided the Transferee Servicer is also a Servicer who has been approved to service eMortgages for Freddie Mac. (Note: The approval process to service eMortgages is set forth in Section 1402.9(a)).

(b) Transfer of Servicing and custody

In connection with a Transfer of Servicing involving eMortgages, and in completing Form 1034T, the Transferor Servicer must deliver a Copy of the Authoritative Copy of eNote to the Transferee Servicer's eNote Vault System and change the "Servicer" designation in the MERS® System and the MERS eRegistry to the legal name and MERS organizational identifier and MERS eRegistry organizational identifier of the Transferee Servicer (who must have already received Freddie Mac's approval to service eMortgages for Freddie Mac).

If a Transferee Servicer is using a Freddie Mac approved third-party eNote custodian for eNote custody, the Transferor Servicer must create an offer of change in the MERS eRegistry of the Location of the eNote to the Transferee Servicer's eNote custodian.

If a Transferee Servicer is using Freddie Mac as the eNote custodian, unless Freddie Mac is already designated as the Location in the MERS eRegistry, the Transferor Servicer must create an offer of change in the MERS eRegistry of the Location of the eNote to Freddie Mac.

(c) Transfer of Custodial Documents and Mortgage File Documents

Prior to requesting Freddie Mac's approval of a Transfer of Servicing involving eMortgages, if some or all of the Mortgage File Documents are Electronic Records, the Transferor Servicer must confirm that the Transferee Servicer has an eNote Vault System or other eStorage System that can store such Electronic Mortgage File Documents.

In the event the Transferee Servicer does not have a document and records maintenance system capable of storing the Electronic Mortgage File Documents (other than the Copy of the Authoritative Copy of the eNote), the Transferor Servicer must, in accordance with Section 7101.8(a)(i), either convert the documents and records to the form of storage utilized by the Transferee Servicer or generate paper copies of all documents and records for the Transferee Servicer.

Consistent with the requirements in Section 7101.9, the Transferor Servicer must instruct the Document Custodian that is storing and maintaining paper documents related to all

eMortgages related to the Transfer of Servicing, to transfer such paper documents to the Transferee Servicer's Document Custodian.

1402.14: Special eMortgage Servicing representations and warranties (10/12/20)

A Servicer approved to service eMortgages for Freddie Mac represents and warrants to, and agrees and covenants with, Freddie Mac that:

- The Servicer maintains (or causes its Servicing Agent to maintain) at all times connectivity to the MERS® System, MERS eRegistry and MERS eDelivery
- The Servicer is at all times in compliance (or ensures that its Servicing Agent is in compliance) with the provisions of the MERS Membership Agreements and MERS Rules of Membership
- The Servicer has not, and will not, through any act or omission on its part, cause any eMortgage it services for Freddie Mac to become invalid, ineffective or unenforceable or to lose its First Lien status

1402.15: Voluntary eMortgage repurchase request (06/12/19)

In addition to complying with the Guide's other repurchase requirements, when a Seller/Servicer makes a request to repurchase an eMortgage, the Seller/Servicer must identify such eMortgage as an "eMortgage" in its request to Freddie Mac.

1402.16: Warehouse Lender requirements (03/04/20)

This section contains the requirements for Pledged eMortgages to be delivered to Freddie Mac for sale. The contents of Form 994SF, Warehouse Lender and Freddie Mac Pledged eMortgage Agreement, are incorporated by this reference into the Seller's Purchase Documents and are made a part thereof.

(a) eMortgage Warehouse Lending agreement form

The Seller may deliver certain Pledged eMortgages and the related Pledged eNotes to Freddie Mac or a Freddie Mac approved third-party eNote custodian, from time to time, that are eligible for purchase under the Seller's Purchase Documents. To facilitate the Seller's sale of Pledged eMortgages to Freddie Mac, the Warehouse Lender must execute

Form 994SF and deliver it to Freddie Mac at
Counterparty_Authorization@FreddieMac.com.

(b) Delivery and Transfer of Control to Freddie Mac

If the Warehouse Lender or its agent has previously accepted the delivery and Transfer of Control and Location of the eNote, then the Seller, Warehouse Lender and Freddie Mac agree that Warehouse Lender or its agent will: (i) eDeliver the related Pledged eNotes from Warehouse Lender or its agent's eNote Vault System to Freddie Mac's or a Freddie Mac approved third-party eNote custodian's eNote Vault System using MERS® eDelivery; and (ii) transfer Control to Freddie Mac and Location to either Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, using MERS eRegistry.

If the Warehouse Lender desires to be in the Secured Party field, then the Seller, Warehouse Lender and Freddie Mac agree that Seller having Control of the eNote will: (i) populate the Secured Party field with the Warehouse Lender's MERS eRegistry organizational identifier and Secured Party Delegatee field with the Warehouse Lender's delegatee's MERS eRegistry organizational identifier, as applicable, and eDeliver the related Pledged eNotes from Seller's eNote Vault System to Freddie Mac's or a Freddie Mac approved third-party eNote custodian's eNote Vault System using MERS eDelivery; and (ii) transfer Control to Freddie Mac and Location to either Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, using MERS eRegistry.

Freddie Mac or the applicable Freddie Mac approved third-party eNote custodian will maintain and store the related Pledged eNotes for Warehouse Lender's benefit commencing on the date and at the time the eRegistry reflects that Freddie Mac is the Controller and Freddie Mac or the Freddie Mac approved third-party eNote custodian is the Location of the related Pledged eNotes in the MERS eRegistry.

(c) Accepted Purchase Offer

If Freddie Mac accepts Seller's purchase offer, Freddie Mac shall purchase the Pledged eMortgages and related Pledged eNotes by sending the Purchase Proceeds, on the Funding Date or Settlement Date, by wire transfer in accordance with the wire transfer instructions in Form 996E, executed by Warehouse Lender and delivered by Warehouse Lender to Freddie Mac. At the moment Freddie Mac sends the Purchase Proceeds, Seller's and/or Warehouse Lender's: (i) rights, title and/or interest in such Pledged eMortgages and related Pledged eNotes shall be immediately, automatically, absolutely and unconditionally conveyed, transferred and assigned to Freddie Mac and/or (ii) security interest in or lien upon such Pledged eMortgages and related Pledged eNotes shall be immediately, automatically, absolutely and unconditionally released and relinquished to Freddie Mac. Thereafter, Freddie Mac shall be the sole and absolute owner of any and all rights, title, interest in such Pledged eMortgages and related Pledged eNotes, free and clear of any and all claims, interests, security interests and/or liens.

(d) Declined Purchase Offer

Seller agrees that if Freddie Mac declines to purchase the Pledged eMortgages, Warehouse Lender or its agent will: (i) accept the eDelivery of related Pledged eNotes back to Warehouse Lender or its agent's eNote Vault from Freddie Mac's or a Freddie Mac approved third-party eNote custodian's eNote Vault using MERS eDelivery; and (ii) accept the Transfer of Control from Freddie Mac and Location from Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, of such related Pledged eNotes using MERS eRegistry.

If the Warehouse Lender desires to be in the Secured Party field, then the Seller and Warehouse Lender agree that Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, will populate the Secured Party field with the Warehouse Lender's MERS eRegistry organizational identifier ORG ID and Secured Party Delegatee field with the Warehouse Lender's delegatee's MERS eRegistry organization identifier, as applicable, and transfer the Control and Location of the eNote to Seller using MERS eRegistry.

(e) Amendments to Chapter 6305

In connection with delivery of eMortgages pursuant to this Chapter 1402, Chapter 6305 is amended and supplemented as follows:

- Section 6305.1 is supplemented and amended to add the following definitions “Pledged eMortgages” and “Pledged eNotes” and paragraph as the final terms in Section 6305.1:
 - “Pledged eMortgages” means the same thing as “Pledged Mortgages,” as defined in Section 6305.1, except that the evidence of indebtedness for a Pledged eMortgage is an eNote (Transferable Record) governed by the UETA and/or E-SIGN
 - “Pledged eNotes” means the eNotes that are pledged to the Warehouse Lender together with the related “Pledged eMortgages,” as defined above”
 - “For eMortgages, whenever the terms “Pledged Mortgages” and “Notes” are used in Chapter 6305, substitute the terms “Pledged eMortgages” and related “Pledged eNotes”

(f) Ancillary custodial documents

At the time Seller instructs the Warehouse Lender to: (i) deliver to Freddie Mac or a Freddie Mac approved third-party eNote custodian certain Pledged eNotes related to certain Pledged eMortgages that are eligible for purchase by Freddie Mac under Seller's Purchase Documents; and (ii) transfer Controller and Location status of the related Pledged eNotes, registered in the MERS® eRegistry, to Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, Seller must concurrently deliver paper ancillary custodial documents to its Document Custodian or Designated Custodian, as applicable, which shall store and maintain custody and possession of such paper documents under Seller's Custodial Agreement, Form 1035, Document Custodial Agreement: Single-Family Mortgages. In the

event Freddie Mac does not purchase certain Pledged eMortgages and related Pledged eNotes, Seller is responsible for arranging for the return of the ancillary custodial documents from the Document Custodian or Designated Custodian, as applicable.

(g) eNote certification

After Seller's delivery of Pledged eMortgages and related Pledged eNotes to Freddie Mac or a Freddie Mac approved third-party eNote custodian, but before each Settlement Date/Funding Date for such Pledged eMortgages and related Pledged eNotes, all such related Pledged eNotes will be automatically certified by Freddie Mac or the Freddie Mac approved third-party eNote custodian, as applicable, provided the data meets the requirements of Section 1402.8(b). In the event automated certification is unavailable, Pledged eNotes that meet the data requirements of Section 1402.8(b) will be certified manually.

(h) Termination of procedures

The warehousing procedures and process set forth in this Section 1402.16 may be terminated by Seller, Warehouse Lender or Freddie Mac by written notice delivered to the other parties. Such notice may specify an effective date for such termination, but in no event shall the termination be effective less than thirty (30) days after such notice is sent; provided, however, the provisions of Section 1402.16 shall automatically terminate on: (i) the date Freddie Mac disqualifies or suspends Seller/Servicer's eligibility to sell Mortgages or eMortgages to or service Mortgages or eMortgages for Freddie Mac, or (ii) the date of Seller's dissolution. Notwithstanding anything contained herein, the Seller's Purchase Documents or any other agreement to the contrary: (a) any and all representations, warranties, covenants, conveyances, assignments and transfers given by Seller to Freddie Mac in connection with Freddie Mac's purchase of eligible Pledged eMortgages and (b) any and all representations, warranties, covenants, conveyances, assignments, transfers, relinquishments and releases given by Warehouse Lender to Freddie Mac in connection with Freddie Mac's purchase of eligible Pledged eMortgages, shall survive the termination hereof and shall remain in full force and effect, and be valid and enforceable.

1402.17: New York CEMA Refinance of New York eMortgage (06/10/20)

A New York Consolidation, Extension and Modification Agreement Mortgage ("NYCEMA Mortgage") may not be closed as an eMortgage and sold to Freddie Mac; provided, however, Servicer may: (i) refinance eMortgages using the NYCEMA Mortgage process and documentation or (ii) assist and cooperate with other lenders originating a refinance of eMortgages (serviced by Servicer) that wish to use the NYCEMA Mortgage origination process and documentation; provided that:

1. Servicer requests a change of Control in the MERS® eRegistry from Freddie Mac to Servicer by sending a completed Form 1036 to Freddie Mac or the Freddie Mac approved third-party

eNote custodian, as applicable, with the reason: “Servicer (or another lender) is originating a NYCEMA refinance of an eMortgage serviced by Servicer.” If Freddie Mac is the eNote custodian, Form 1036 must be sent to Freddie Mac ([Loan Delivery Funding Ops@FreddieMac.com](mailto:Loan_Delivery_Funding_Ops@FreddieMac.com)) at least three Business Days before the change of Control is needed.

2. If such request is confirmed to be in compliance with Freddie Mac requirements, Freddie Mac or a Freddie Mac approved third-party eNote custodian, as applicable, will send an offer of change of Control of such eNote to Servicer via MERS eRegistry;
3. Servicer promptly accepts the offer of change of Control from Freddie Mac or a Freddie Mac approved third-party eNote custodian, as applicable
4. After Servicer has accepted the offer of change of Control of the eNote, Servicer will confirm that: (i) the MERS eRegistry reflects that Servicer is the Controller, as Holder, of such eNote and (ii) Freddie Mac or a Freddie Mac approved third-party eNote custodian is the Location
5. From the moment that Servicer accepts change of Control of such eNote, Servicer shall have Control of such eNote and shall be the Controller of such eNote entitled to enforce such eNote for the benefit of Freddie Mac, the eNote owner
6. Servicer prints all pages of the eNote being refinanced under the NYCEMA Mortgage process to paper and certifies the paper copy is true, correct and complete in a blank space on the face of the eNote
7. Servicer requests MERS Registration History of the eNote from MERS eRegistry and attaches such history to the Servicer certified paper copy of the eNote
8. Servicer, in consultation with its in-house or outside legal counsel, must prepare an affidavit to be signed by a duly authorized officer of Servicer and attach the affidavit to the Servicer certified paper copy of the eNote; and
9. The affidavit to be prepared by Servicer must include the following statements:
 - The affiant is a duly appointed and authorized officer of Servicer, the “Controller” of the eNote, which was registered in the MERS® eRegistry on or about _____, 20____ and has a MERS eRegistry Identification number of [INSERT MIN NUMBER]
 - The affidavit is attached to a complete, accurate, true and correct Servicer certified paper copy of the eNote, which evidences the borrower’s indebtedness
 - The eNote will be stored and maintained by the owner of the eNote throughout the New York Consolidation, Extension and Modification Agreement Mortgage (NYCEMA) refinance process

- The Servicer certified paper copy of the eNote, to which the affidavit and MERS Registration History of the eNote are attached, is intended to be delivered to the lender originating a NYCEMA refinance Mortgage
 - The Servicer certified paper copy of the eNote, together with the affidavit and MERS Registration History of the eNote attached thereto, shall automatically convert into and become the one and only valid, effective and enforceable paper Note evidencing the borrower's indebtedness upon Servicer's receipt of all amounts due and payable under the eNote
 - The Servicer will de-activate the eNote in the MERS eRegistry after Servicer's receipt of all amounts due and payable under the eNote from the lender originating NYCEMA refinance Mortgage
 - The Servicer will notify the lender originating the NYCEMA refinance Mortgage that the eNote has been de-activated on the MERS eRegistry, and
10. In the event the NYCEMA refinance Mortgage **closes** as a paper NYCEMA Mortgage, it is eligible for purchase by Freddie Mac if the originating lender is a Freddie Mac Seller/Servicer and the paper NYCEMA Mortgage complies with the Seller/Servicer's Purchase Documents; and
11. In the event the NYCEMA refinance Mortgage **fails to close**, Servicer must: (i) not deactivate the eNote on the MERS eRegistry; (ii) promptly send Freddie Mac an offer of change of Control of the eNote using MERS eDelivery; and (iii) confirm that Freddie Mac is once again the Controller of the eNote

1402.18: eNote custodian requirements (02/08/23)

(a) Becoming a Freddie Mac approved third-party eNote custodian

A Document Custodian who wishes to be approved for eNote custody must contact the Freddie Mac eMortgage Team (eMortgage_Team@FreddieMac.com) to determine its eligibility and obtain Freddie Mac's prior written approval.

As part of Freddie Mac's review and approval process, Freddie Mac will have to review and approve the Document Custodian's eNote Vault System in accordance with the processes described in Sections 1402.3(c) and (d), as applicable.

If Freddie Mac, in its sole discretion, determines that the Document Custodian's eNote Vault System is acceptable and the Document Custodian is otherwise in good standing with Freddie Mac, the Document Custodian will be approved for eNote custody and certification of eMortgages, subject to any terms and conditions set forth by Freddie Mac in Form 1035A and the related third-party agreement.

In addition to the requirements set forth below, the Document Custodian must also abide by the requirements of Chapter 2202.

(b) Notice of significant changes to eNote Vault System

Significant proposed changes to the Document Custodian's eNote Vault System are those that may materially and adversely affect the performance of the Document Custodian's eNote Vault System and include, but are not limited to, any change that would be reasonably likely to adversely affect the enforceability of the eNotes or other eMortgage documents or compliance with E-SIGN and/or the UETA. The Document Custodian must provide the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) with 90 days' advance written notice of any significant proposed change to the Document Custodian's eNote Vault System.

If the Document Custodian wishes to use an eNote Vault System that is different from what was communicated at the time of initial approval, the Document Custodian must contact the Freddie Mac eMortgage Team ([eMortgage Team@FreddieMac.com](mailto:eMortgage_Team@FreddieMac.com)) to determine its eligibility and the process steps required to continue as a Freddie-Mac approved third-party eNote custodian.

(c) Ongoing reviews

The Document Custodian must, or cause the System Provider to, submit to Freddie Mac an annual certification executed by the Document Custodian's (or System Provider's) Chief Technology/Security Officer using the certification form provided by Freddie Mac. Freddie Mac may require an audit of the eNote Vault System conducted in accordance with the Statement on Standards for Attestation Engagements (SSAE) 18 or other comparable type of audit acceptable to Freddie Mac, in its sole discretion. A copy of the audit must be provided to Freddie Mac within 30 days of its completion.

Freddie Mac will provide the Document Custodian with 30 days' notice before the Document Custodian (and/or the System Provider) is required to provide an SSAE 18 or other comparable type of audit report or an updated legal analysis, technical review and security review, unless such review is being conducted pursuant to Guide Series 1000, 2000 or 3000.

At all times, the Document Custodian's eNote Vault System must comply with the requirements set forth in Sections 1402.5, 1402.6 and 1402.12.

(d) Contracting with Seller/Servicer

A Freddie Mac-approved eMortgage Seller/Servicer choosing to use a Freddie Mac approved third-party eNote custodian must execute an Addendum to Document Custodial Agreement (Form 1035A) with the Freddie Mac approved third-party eNote custodian and Freddie Mac and any other agreements required by the Guide, including Section 2202.3.

The Freddie Mac approved third-party eNote custodian or Freddie Mac can terminate the Form 1035A in accordance with the provisions set forth in Section 2202.6. Termination of the Form 1035A will not impact or interfere with the continuation of the Tri-Party Agreement (Form 1035), but termination of the Form 1035 will terminate the Form 1035A unless the parties agree otherwise in writing, in advance.

(e) Freddie Mac approved third-party eNote custodian's duties to Freddie Mac

In addition to the requirements set forth in Chapter 2202, the Freddie Mac approved third-party eNote custodian covenants to Freddie Mac that it will do the following:

- (i) Accept eNote Authoritative Copy deliveries and Transfers of Location of eNotes coming into their eNote Vault System after validating the Tamper Evident Seal against the MERS eRegistry
- (ii) Accept and store Electronic Custodial Documents in their eNote Vault System or eStorage System
- (iii) Review the eNote to verify that the information in Loan Selling Advisor® reflects the terms of the eNote, Freddie Mac is listed as the Controller of the eNote and the Freddie Mac approved third-party eNote custodian is listed as the Location of the eNote as per the requirements set forth in Section 1402.8(b)
- (iv) Maintain additional ancillary paper documents related to the eMortgage in a related Note file and have a cross reference between paper and Electronic documents as required by Section 1402.12
- (v) Manage the administration of outgoing Transfers of Control and Location on behalf of Freddie Mac and manage the incoming Transfer of Control requests to Freddie Mac
- (vi) Validate the Tamper Evident Seal, Controller, and Location of the eNotes received through transfers of custody
- (vii) Semi-annually revalidate the Tamper Evident Seal of each eNote against the MERS eRegistry and verify that Freddie Mac is the Controller, and Document Custodian is the Location of the eNotes, and notify Freddie Mac
[Loan Delivery Funding Ops@FreddieMac.com](mailto:Loan_Delivery_Funding_Ops@FreddieMac.com) of any issues

Chapter 1501: Seller Master Agreements, other Pricing Identifier Terms and Guide Plus Additional Provisions

1501.1: Master Agreements and other Pricing Identifier Terms (05/04/22)

This chapter covers the terms relating to or associated with Master Agreements, other Pricing Identifier Terms and Guide Plus Additional Provisions. See Section 1501.3 for information specific to Guide Plus Additional Provisions.

Freddie Mac has identified Master Agreements, other Pricing Identifier Terms and other Purchase Contracts as “confidential information” as defined in Section 1201.8.

Pursuant to Section 7101.2, Freddie Mac requires that the Transferor Servicer must provide to the Transferee Servicer copies of:

- All of the Transferor Servicer’s Purchase Documents applicable to the Mortgages related to the Transfer of Servicing (excluding any Credit Fees in Yield and other Credit Fees); and
- All of the Purchase Documents of any preceding Transferor Servicer that are applicable to the Mortgages related to the Transfer of Servicing (excluding any other Credit Fees in Yield and Credit Fees)

Refer to Section 1201.8(d) for applicable exclusions regarding the receipt and treatment of confidential information and derivative information.

(a) Binding contract

Freddie Mac and Sellers may enter into Master Agreements, other Pricing Identifier Terms and/or other Purchase Contracts that provide Seller-specific, negotiated terms for the purchase and sale and Servicing of Mortgages

A binding contract between Freddie Mac and the Seller is established when the following occur, as applicable:

Document	Actions by Seller to Indicate Acceptance of Terms of the Contract
Master Agreement	Seller signs and returns the Master Agreement
Pricing Identifier Terms	<p>If contained in a Purchase Contract other than a Master Agreement and:</p> <ul style="list-style-type: none"> ■ The Pricing Identifier Terms require signature: the Seller signs and returns the Purchase Contract ■ In all other cases: the Seller delivers Mortgages under the Pricing Identifier Terms

(b) Amendments to Purchase Contracts (including Master Agreements and other Pricing Identifier Terms)

From time to time, Freddie Mac will provide the Seller with amendments to the Seller's Purchase Contracts. Freddie Mac may issue the amendments under provisions in the Seller's Purchase Contract or the Guide that allow Freddie Mac to amend, supplement, revise or terminate a provision. Freddie Mac and the Seller may enter into amendments that either amend existing provisions of, or add new provisions to, the Seller's Purchase Contracts.

Amendments become binding:

- On the date Freddie Mac and the Seller have signed the amendment and the Seller has returned the signed amendment; or
- On the date stated in the amendment, when Freddie Mac has issued the amendment under a Master Agreement, other Pricing Identifier Terms or Guide provision that allows Freddie Mac to amend, supplement, revise or terminate a provision; or
- If either the Master Agreement or other Pricing Identifier Terms, as applicable, does not require the Seller to sign the amendment, when the Seller has delivered Mortgages under the Master Agreement or other Pricing Identifier Terms, as applicable; the Seller's delivery of Mortgages is deemed to be acceptance of all terms and conditions of the amendment

(c) Transmission of Master Agreements, other Pricing Identifier Terms and/or Amendments

When Freddie Mac provides the Seller with a new or an amendment to a Master Agreement and/or other Pricing Identifier Terms (collectively referred to as the "Document") and if

execution of the Document by the Seller is required, the Seller will have a time period specified in the Document to sign and return the Document either:

- By facsimile transmission to the fax number contained in the cover letter accompanying the Document, or
- As an Electronic Record attached to an Internet e-mail transmission sent to an e-mail address specifically and expressly authorized by Freddie Mac and provided to the Seller

The execution and delivery of a Document as stated above is an Eligible Electronic Transaction, as defined in and governed by Chapter 1401.

Unless stated otherwise in the Document, a Seller's failure to sign and return the executed Document within the specified period may, at Freddie Mac's option, render Freddie Mac's offer null and void.

(d) Part and section headings of Master Agreements and other Pricing Identifier Terms

Part and section headings set forth in Master Agreements and/or other Pricing Identifier Terms are for convenience of reference only and will not be construed as part of the Master Agreement and/or other Pricing Identifier Terms.

(e) Defined terms

Capitalized terms used in a Master Agreement and/or other Pricing Identifier Terms and not otherwise defined in the Master Agreement and/or other Pricing Identifier Terms shall have the meanings ascribed to them in the Guide. References in a Master Agreement and/or other Pricing Identifier Terms to Freddie Mac's Mortgage Products and delivery programs shall have the meanings ascribed to them in the Guide.

1501.2: Terms of Master Agreements and other Pricing Identifier Terms (05/04/22)

(a) Master Agreements

The Master Agreement sets forth terms relating to the purchase and sale of Mortgages, including:

1. Any Mortgage Products or programs not eligible for sale under the Guide
2. Any negotiated provisions that may vary from the provisions of the Guide
3. Any other relevant terms and conditions

From time to time, Freddie Mac may negotiate alternative Master Agreement structures that do not include some or all of the above provisions.

(b) Other Pricing Identifier Terms, when issued under a Master Agreement

Other Pricing Identifier Terms, when issued under a Master Agreement, incorporate the terms of the Master Agreement and set forth the remaining terms relating to the purchase and sale of Mortgages under the Master Agreement, including:

1. The Commitment Amount
2. The Pricing Identifier Effective Date for Delivery
3. The Pricing Identifier Expiration Date
4. Any negotiated provisions that may vary from the Guide or the Master Agreement
5. Whether delivery is mandatory (that is, the Seller is obligated to sell Mortgages under the Pricing Identifier Terms) or optional (that is, the Seller has the option to sell Mortgages under the Pricing Identifier Terms)
6. If applicable, a stated tolerance for purchases that are either in excess of or less than the Commitment Amount
7. The Credit Fees in Yield for Mortgages eligible for sale under the Guarantor and MultiLender Swap programs. For all other delivery paths and executions, the increase referred to above will be reflected in the pricing provided to Sellers.
8. Whether the Seller may sell Mortgages with recourse. Mortgages sold under Pricing Identifier Terms issued under a Master Agreement will be sold without recourse subject to any other specified requirements as to certain provisions or credit enhancement, unless otherwise stated in the Purchase Documents
9. Any other relevant terms and conditions

(c) Pricing Identifier Terms issued without a Master Agreement

Pricing Identifier Terms issued without a Master Agreement sets forth all the terms relating to the purchase and sale of Mortgages, including:

1. The Commitment Amount
2. The Pricing Identifier Effective Date
3. The Pricing Identifier Expiration Date

4. Whether delivery is mandatory (that is, the Seller is obligated to sell Mortgages under the Pricing Identifier Terms) or optional (that is, the Seller has the option to sell Mortgages under the Pricing Identifier Terms)
5. If applicable, a stated tolerance for purchases that are either in excess of or less than the Commitment Amount
6. Any restrictions on the delivery program that may be used (Cash program only; Guarantor program only; Guarantor and MultiLender Swap programs only; Cash and Guarantor and MultiLender Swap programs), subject to the requirements of the Purchase Documents
7. Any Mortgage Products or programs not eligible for sale under the Guide
8. Any negotiated provisions that may vary from the provisions of the Guide
9. Whether the Seller may sell Mortgages with recourse. Mortgages sold under Pricing Identifier Terms without a Master Agreement will be sold without recourse subject to any other specified requirements as to certain provisions or credit enhancement, unless otherwise stated in the Purchase Documents.
10. The Credit Fees in Yield for Mortgages eligible for sale under the Guarantor and MultiLender Swap programs. For all other delivery paths and executions, the increase referred to above will be reflected in the pricing provided to Sellers.
11. Any other relevant terms and conditions

(d) Changes to Master Agreements and other Pricing Identifier Terms

Freddie Mac may amend, supplement, revise or terminate the provisions of a Seller's Master Agreement or other Pricing Identifier Terms, in whole or in part, upon written notice during the term of the Master Agreement or other Pricing Identifier Terms.

The terms and conditions of the Master Agreement remain in full force and effect unless or until Freddie Mac provides the Seller with written notice of a change to all or part of the Master Agreement or unless state otherwise in the Master Agreement. Such changes are effective as of the date specified in the written notice.

An amendment to the Guide that affects any negotiated provision of the Seller's Master Agreement or other Pricing Identifier Terms is effective as of the date specified by Freddie Mac in a written notice to the Seller indicating how the negotiated provision will be affected by the Guide amendment. The notice may be provided in a Bulletin.

1501.3: Guide Plus Additional Provisions (08/04/21)

Certain Sellers may be eligible to deliver Mortgages in accordance with the requirements of Guide Plus Additional Provisions. Freddie Mac has identified Guide Plus Additional Provisions as “confidential information” as defined in Section 1201.8.

The Seller’s delivery of Mortgages constitutes acceptance of all terms and conditions of the Guide Plus Additional Provisions, as amended from time to time.

(a) Accessing Guide Plus Additional Provisions

(i) Guide Plus Additional Provisions

Access to Guide Plus Additional Provisions will be provided to the Seller through AllRegs®.

(ii) Authorized Users

The Seller must authorize a designated representative (“Guide Access Manager”) to be responsible for providing and maintaining user access to Guide Plus Additional Provisions. An authorized representative of the Seller must sign and submit Form 905, Guide Access Manager Authorization Form, designating the Guide Access Manager to the Guide Plus mailbox at guideplus@freddiemac.com. The Seller must submit a new Form 905 each time a new Guide Access Manager is designated; submission and completion of Form 905 is not required to add or delete employee users who are not Guide Access Managers. The Seller, through the designated Guide Access Manager, is responsible for authorizing and managing employee access to Guide Plus through AllRegs.

The Seller must safeguard and protect the User IDs, passwords and Personal Identification Numbers (PINs) that allow the Seller to access Guide Plus terms, and adopt security measures to prevent their loss, theft or unauthorized disclosure or use.

(b) Changes to Guide Plus Additional Provisions

Freddie Mac reserves the right to amend, supplement, revise or terminate any or all of the Seller’s Guide Plus Additional Provisions. All updates and notifications related to Guide Plus Additional Provisions will be announced through notification e-mails from guideplus@freddiemac.com or “AllRegs Alerts” from elliemae.com or ice.com e-mail domains. Notifications may also be published in the Announcements section of the AllRegs web site. E-mail communications and/or publication constitute written communication and notice from Freddie Mac. Amendments are effective on the date specified by Freddie Mac.

The Seller is responsible for ensuring spam filters are set to allow e-mails from the e-mail domains above and must comply with all amendments to Guide Plus Additional Provisions,

regardless of the Seller's spam filter settings and regardless of whether the Seller has unsubscribed from the e-mail notifications.

(c) Consent to conduct Electronic Transactions

The Seller's consent to conduct Electronic Transactions with Freddie Mac under Chapter 1401 applies to Electronic Transactions conducted in connection with Guide Plus Additional Provisions, including, but not limited to, using Records, Electronic Records and Electronic Signatures in accordance with Chapter 1401.

1501.4: Contracts, delivery programs and procedures (08/03/20)

The Seller may sell Mortgages to Freddie Mac by entering into:

- Fixed-Rate Cash and ARM Cash Contracts
- Fixed-Rate Guarantor Contracts or WAC ARM Guarantor Contracts under the Guarantor program or MultiLender Swap Contracts under the MultiLender Swap program, or
- Both cash contracts and Guarantor or MultiLender Swap contracts

(a) Cash contracts

The Seller may sell Mortgages under the Cash program to Freddie Mac using the functionality that Freddie Mac, in its sole discretion, makes available to the Seller. The provisions of the Purchase Documents including, but not limited to, Chapters 2403, 6101 and 6102, any additional Guide chapters providing for use of specific Loan Selling Advisor® functionality, and any additional terms and conditions contained within Loan Selling Advisor, will apply to the sale of Mortgages for cash.

(b) Guarantor and MultiLender Swap contracts

If the Seller is eligible to sell Mortgage Products under the Guarantor or MultiLender Swap programs, the Seller may sell those Mortgage Products to Freddie Mac as set forth in Section 6201.1 under the Guarantor program and, subject to the terms of the Purchase Documents, the MultiLender Swap program in exchange for:

- UMBS™
- MBS
- Supers™

- WAC ARM PCs

1501.5: Credit toward a Commitment Amount or any dollar amount stated in a Master Agreement (07/12/17)

The aggregate UPB of Mortgages purchased pursuant to Purchase Contracts taken out under the Guarantor or MultiLender Swap programs will be credited to the Commitment Amount and, if applicable, to any amount stated in the Seller's Master Agreement. Such Purchase Contracts will be so credited until the earliest occurrence of one of the following:

- Freddie Mac has purchased Mortgages with an aggregate UPB equal to:
 - The Commitment Amount, including the allowable purchase tolerance; or
 - Any dollar amount stated in the Seller's Master Agreement, or
- The Pricing Identifier Expiration Date

Unless the Pricing Identifier Terms provide otherwise, cash purchases are eligible to fulfill the Commitment Amount. At the Seller's request, the aggregate UPB of Mortgages specified in any Cash Purchase Contract may be credited to the Seller's outstanding Commitment Amounts. For any Seller that concurrently has two or more Pricing Identifiers outstanding, the allocation of cash contracts will be made to the Pricing Identifier specified when entering into the cash contract.

1501.6: Contract tolerances, pairoffs (07/12/17)

Purchase tolerances for Commitment Amounts are stated in the Pricing Identifier Terms.

In the event the Seller delivers Mortgages with an aggregate UPB greater than the Commitment Amount plus the purchase tolerance set forth in the Pricing Identifier Terms, Freddie Mac reserves the right to charge a fee if it agrees to accept the delivery.

A Cash Purchase Contract is subject to:

- The purchase tolerances applicable to Cash Purchase Contracts for fixed-rate Mortgages and ARMs and
- Pairoff fees as set forth in Section 6401.1

The Seller may pair off a mandatory Commitment Amount in accordance with the procedures set forth in Section 6401.1. Any pairoff fees assessed for failure to fulfill a mandatory Commitment Amount shall be in addition to the pairoff fees assessed for failure to satisfy the mandatory

delivery requirements for fixed-rate Mortgages or for ARMs delivered under Cash Purchase Contracts.

1501.7: Remittance cycles (05/01/19)

Effective May 1, 2019, this section is deleted.

1501.8: Revocation of Master Agreement and/or other Pricing Identifier Terms (07/12/17)

The terms, provisions and any waivers of Guide requirements set forth in the Master Agreement and/or other Pricing Identifier Terms are expressly conditional upon:

- Compliance by the Seller with the terms and conditions set forth in the Master Agreement and/or other Pricing Identifier Terms, the Guide and the other Purchase Documents, and
- The truth and accuracy of the representations and warranties made by the Seller under the Purchase Documents

In the event of a breach by the Seller of any of the Purchase Document terms and conditions or in the event any representation or warranty proves to have been untrue at the time made, Freddie Mac may immediately revoke the Master Agreement and/or other Pricing Identifier Terms in whole or in part for future deliveries.

Chapter 2101: Seller/Servicer Institutional Eligibility

2101.1: Eligibility criteria (12/14/22)

(a) Approval required

An institution must be approved by Freddie Mac as a Seller/Servicer before it can sell Mortgages to and/or service Mortgages for Freddie Mac. Once approved, the Seller/Servicer must comply with all the applicable requirements in the Purchase Documents, including the requirements in this chapter.

A Seller/Servicer must be separately and specifically approved before it can sell eMortgages to and/or service eMortgages for Freddie Mac. (See Sections 1402.3 and 1402.9.)

(b) Representations, warranties, covenants and agreements

The Seller/Servicer represents and warrants to, and covenants and agrees with, Freddie Mac that at all times it shall:

- Be a viable organization and, as applicable, able effectively to:
 - Originate or otherwise acquire Mortgages acceptable for sale to Freddie Mac in accordance with the Guide and applicable Purchase Documents and/or
 - Service Mortgages in accordance with the Servicing Contract
- Maintain an Acceptable Net Worth (see Section 2101.2)
- Comply with any additional requirements, as deemed appropriate by Freddie Mac in its sole discretion. Freddie Mac will provide Seller/Servicer with notice of any additional requirements
- Provide audited or Reviewed Financial Statements, as may be required by Freddie Mac, at the time of approval and otherwise as may be required by Freddie Mac, including audited or Reviewed Financial Statements for the Seller/Servicer's parent, subsidiaries, and affiliates
- Maintain fidelity and errors and omissions insurance coverages as set forth in Sections 2101.6 through 2101.9
- Maintain a quality control program that is acceptable to Freddie Mac (see Chapter 3402)

- Be able to demonstrate to Freddie Mac's satisfaction, that it has sufficient capitalization, profitability, liquidity and funding sources to support its ongoing operations and its commitments to Freddie Mac
- Comply with the information security and business continuity planning requirements in Chapter 1302, and
- Upon request, provide information related to Related Third Parties, including but not limited to the nature of the relationship and address of the Related Third Party

Freddie Mac's determinations regarding Seller/Servicer's compliance with the representations, warranties, covenants and agreements listed above shall be conclusive and in Freddie Mac's sole discretion.

(c) Freddie Mac may request additional organizational documents

In addition to the other information and documents required at the time of application in accordance with the [**Freddie Mac Single-Family Seller/Servicer Application Document Checklist**](#), Freddie Mac in its sole discretion may request the applicant provide additional information related to its application including, without limitation, any or all of the following:

- Articles of Incorporation/Organization of the applicant and any amendments thereto
- Operating Agreement/Bylaws of the applicant and any amendments thereto
- Certificate of Formation of the applicant
- Identification information for every person who directly or indirectly has the right to vote a material portion of a class of a voting interest of the company or has the power to sell or direct the sale of a material portion of a class of voting interests of the company

(d) Special purpose entities

For applicants whose ownership structure or affiliate relationships may pose a bankruptcy consolidation risk (such as special purpose entities, special purpose vehicles or organizations that have or are requested by Freddie Mac to have a similar organizational structure), Freddie Mac may require that the applicant (and its parent) adopt some or all of the separateness covenants substantially similar to those in Exhibit 115, Special Purpose Entity ("SPE") Covenants Sample Provisions.

Freddie Mac may require a non-consolidation opinion from a law firm generally acceptable to Freddie Mac and containing only industry standard qualifications and assumptions. Freddie Mac may deny approval or request additional assurances if an applicant is a recycled entity or vehicle.

2101.1: Eligibility criteria (Future effective date 09/30/23)

(a) Approval required

An institution must be approved by Freddie Mac as a Seller/Servicer before it can sell Mortgages to and/or service Mortgages for Freddie Mac. Once approved, the Seller/Servicer must comply with all the applicable requirements in the Purchase Documents, including the requirements in this chapter.

A Seller/Servicer must be separately and specifically approved before it can sell eMortgages to and/or service eMortgages for Freddie Mac. (See Sections 1402.3 and 1402.9.)

(b) Representations, warranties, covenants and agreements

The Seller/Servicer represents and warrants to, and covenants and agrees with, Freddie Mac that at all times it:

- Is a viable organization and, as applicable, able effectively to:
 - Originate or otherwise acquire Mortgages acceptable for sale to Freddie Mac in accordance with the Guide and applicable Purchase Documents and/or
 - Service Mortgages in accordance with the Servicing Contract
- Maintains a minimum Tangible Net Worth and other financial requirements (see Section 2101.2)
- Will comply with any additional requirements, as deemed appropriate by Freddie Mac in its sole discretion. Freddie Mac will provide Seller/Servicer with notice of any additional requirements
- Will provide audited or Reviewed Financial Statements, as may be required by Freddie Mac, at the time of approval and otherwise as may be required by Freddie Mac, including audited or Reviewed Financial Statements for the Seller/Servicer's parent, subsidiaries, and affiliates
- Maintains fidelity and errors and omissions insurance coverages as set forth in Sections 2101.6 through 2101.9
- Maintains a quality control program that is acceptable to Freddie Mac (see Chapter 3402)
- Is able to demonstrate to Freddie Mac's satisfaction, that it has sufficient capitalization, profitability, liquidity and funding sources to support its ongoing operations and its commitments to Freddie Mac

- Complies with the information security and business continuity planning requirements in Chapter 1302, and
- Upon request, provides information related to Related Third Parties, including but not limited to the nature of the relationship and address of the Related Third Party

Freddie Mac's determinations regarding Seller/Servicer's compliance with the representations, warranties, covenants and agreements listed above shall be conclusive and in Freddie Mac's sole discretion.

(c) Freddie Mac may request additional organizational documents

In addition to the other information and documents required at the time of application in accordance with the **Freddie Mac Single-Family Seller/Servicer Application Document Checklist**, Freddie Mac in its sole discretion may request the applicant provide additional information related to its application including, without limitation, any or all of the following:

- Articles of Incorporation/Organization of the applicant and any amendments thereto
- Operating Agreement/Bylaws of the applicant and any amendments thereto
- Certificate of Formation of the applicant
- Identification information for every person who directly or indirectly has the right to vote a material portion of a class of a voting interest of the company or has the power to sell or direct the sale of a material portion of a class of voting interests of the company

(d) Special purpose entities

For applicants whose ownership structure or affiliate relationships may pose a bankruptcy consolidation risk (such as special purpose entities, special purpose vehicles or organizations that have or are requested by Freddie Mac to have a similar organizational structure), Freddie Mac may require that the applicant (and its parent) adopt some or all of the separateness covenants substantially similar to those in Exhibit 115, Special Purpose Entity (“SPE”) Covenants Sample Provisions.

Freddie Mac may require a non-consolidation opinion from a law firm generally acceptable to Freddie Mac and containing only industry standard qualifications and assumptions. Freddie Mac may deny approval or request additional assurances if an applicant is a recycled entity or vehicle.

2101.2: Acceptable Net Worth and other financial requirements (06/08/22)

(a) Defined terms

Seller/Servicers should be familiar with the following terms used in this section as they relate to financial requirements:

- **Agency Mortgage Servicing:** The aggregate UPB of all Mortgages secured by 1- to 4-unit residential properties serviced for Freddie Mac, Fannie Mae and Ginnie Mae (a quarterly Chief Financial Officer certification of this information will be required). The UPB of any Mortgages for which a Servicer is engaged by another entity to service those Mortgages as a subservicer will be excluded.
- **Tangible Net Worth:** Total equity less receivables due from related entities, less goodwill and other intangible assets, less carrying value of pledged assets net of associated liabilities
- **Liquidity:** Cash and cash equivalents (unrestricted) and certain investment grade securities that are available for sale or held for trade (including single-family mortgage-backed securities backed solely by Agency Mortgage Servicing, obligations of Government Sponsored Enterprises, and Treasury obligations)

(b) Seller/Servicers that are depository institutions

Seller/Servicers that are depository institutions must at all times maintain an Acceptable Net Worth of \$2,500,000 plus a dollar amount equivalent to 25 basis points of the Seller/Servicer's UPB of all Mortgages secured by 1- to 4-unit residential properties that it services directly, regardless of whether the Mortgages are owned by the Servicer or by a third-party investor. Freddie Mac will exclude from the Acceptable Net Worth calculation the UPB of any Mortgages for which a Servicer is engaged by another entity to service those Mortgages as a subservicer. Seller/Servicers that are depository institutions must maintain compliance with their applicable capital and liquidity requirements imposed by their regulators.

(c) Seller/Servicers that are not depository institutions

Seller/Servicers that are not depository institutions must at all times maintain the Acceptable Net Worth requirements applicable to depository institutions above, and must also maintain a:

- Tangible Net Worth/total assets ratio greater than or equal to 6%, and

- Liquidity equal to or exceeding 3.5 basis points times Agency Mortgage Servicing plus 200 basis points times the sum of nonperforming (90 or more days delinquent) Agency Mortgage Servicing that exceed 6% of Agency Mortgage Servicing

(d) Additional requirements

Notwithstanding the above, Freddie Mac may, as it deems appropriate and in its sole discretion:

- Modify a Seller/Servicer's Acceptable Net Worth requirement
- Impose limitations, restrictions or qualifications on the sale of Mortgages to, or the Servicing of Mortgages for Freddie Mac by any Seller/Servicer, and
- Impose additional financial requirements on any Seller/Servicer, including, but not limited to, (i) requirements relating to liquidity and profitability, regardless of the Seller/Servicer's Acceptable Net Worth, and (ii) the requirement that any Seller/Servicer execute and deliver a Collateral Pledge Agreement, in substantially the form and substance of Exhibit 104, whereby the Seller/Servicer will pledge certain collateral (whether cash, securities or otherwise), as pledgor, to Freddie Mac, as secured party, in such amount as determined by Freddie Mac, in its sole discretion

Freddie Mac will provide the Seller/Servicer with notice of any modification to the Seller/Servicer's Acceptable Net Worth or other financial requirements, any additional requirements, and any limitations, restrictions or qualifications on the sale of Mortgages or Servicing of Mortgages.

2101.2: Acceptable Net Worth and other financial requirements (Future effective date 09/30/23)

(a) Defined terms

Seller/Servicers should be familiar with the following terms used in this section as they relate to financial requirements:

- **Agency Mortgage Servicing:** The aggregate Residential First Lien Mortgage Servicing UPB of all Mortgages serviced for the Enterprises and Ginnie Mae
- **Enterprise:** Freddie Mac and Fannie Mae, each an "Enterprise" and collectively the "Enterprises."
- **Large Non-Depository Institutions:** Non-depository institutions with \$50 billion or more in Residential First Lien Mortgage Servicing UPB plus Other Servicing UPB as determined at the end of each calendar quarter.

- **Liquidity:** Cash and cash equivalents (unrestricted), certain unpledged investment grade securities that are available for sale or held for trade (including single-family mortgage-backed securities backed solely by Agency Mortgage Servicing, obligations of the Enterprises, and Treasury obligations), and 50% of committed/unused Agency Mortgage Servicing advance lines of credit.
- **Other Servicing UPB:** Using the fields from the Form 1055, Mortgage Bankers' Financial Reporting Form (MBFRF), the outstanding UPB of a Seller/Servicer's portfolio of one- to four- unit residential First Lien Mortgages the Seller/Servicer is contractually obligated to service for all investors other than the Enterprises and Ginnie Mae, plus the following regardless of the investor:
 - Second lien Mortgages,
 - Funded home equity lines of credit,
 - Reverse Mortgages, plus
 - Construction and land development Mortgages

This does not include the outstanding UPB of Mortgages serviced under a subservicing arrangement.

- **Residential First Lien Mortgage Servicing UPB:** Using the fields from the Form 1055, Mortgage Bankers' Financial Reporting Form (MBFRF), the outstanding UPB of a Seller/Servicer's portfolio of one- to four- unit residential First Lien Mortgages the Seller/Servicer is contractually obligated to service for the Enterprises and Ginnie Mae, as applicable, excluding:
 - Funded home equity lines of credit,
 - Reverse Mortgages, plus
 - Construction and land development Mortgages

This does not include the outstanding UPB of Mortgages serviced under a subservicing arrangement.

- **Tangible Net Worth:** Total equity (as determined by generally accepted accounting principles (GAAP)) less receivables due from related entities, less goodwill and other intangible assets, less carrying value of pledged assets net of associated liabilities, less deferred tax assets net of associated deferred tax liabilities.

Note: If the deferred tax liabilities are greater than the deferred tax assets, then the deduction from the Tangible Net Worth will be zero.

(b) Seller/Servicers that are depository institutions

Seller/Servicers that are depository institutions must maintain at all times a Tangible Net Worth of \$2,500,000 plus a dollar amount equal to or exceeding the sum of:

- 25 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises,
- 25 basis points of the Other Servicing UPB, plus
- 35 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for Ginnie Mae

Seller/Servicers that are depository institutions must maintain compliance with their applicable capital and liquidity requirements imposed by their regulators.

(c) Seller/Servicers that are non-depository institutions

Seller/Servicers that are non-depository institutions must maintain at all times the Tangible Net Worth requirements applicable to depository institutions above, and must also maintain:

- A Tangible Net Worth/total assets ratio greater than or equal to 6%, where total assets are determined in accordance with GAAP, and
- A base Liquidity of eligible assets equal to or exceeding the sum of:
 - 7 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises, if the Seller/Servicer remits (or an Enterprise draws) interest or principal, or both, as scheduled, regardless of whether principal or interest has been collected from the Borrower,
 - 3.5 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises, if the Seller/Servicer remits (or an Enterprise draws) the interest and principal only as actually collected from the Borrower,
 - 3.5 basis points of the Seller/Servicer's Other Servicing UPB, plus
 - 10 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for Ginnie Mae

(d) Seller/Servicers that are Large Non-Depository Institutions

In addition to the Liquidity requirements specified in subsection (c) above, all Seller/Servicers that are Large Non-Depository Institutions must at all times maintain supplemental Liquidity equal to or exceeding the sum of:

- 2 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises, and
- 5 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for Ginnie Mae

(e) Additional requirements

Notwithstanding the above, Freddie Mac may, as it deems appropriate and in its sole discretion:

- Modify a Seller/Servicer's Tangible Net Worth requirement
- Impose limitations, restrictions or qualifications on the sale of Mortgages to, or the Servicing of Mortgages for Freddie Mac by any Seller/Servicer, and
- Impose additional financial requirements on any Seller/Servicer, including, but not limited to, (i) requirements relating to liquidity and profitability, regardless of the Seller/Servicer's Tangible Net Worth, and (ii) the requirement that any Seller/Servicer execute and deliver a Collateral Pledge Agreement, in substantially the form and substance of Exhibit 104, whereby the Seller/Servicer will pledge certain collateral (whether cash, securities or otherwise), as pledgor, to Freddie Mac, as secured party, in such amount as determined by Freddie Mac, in its sole discretion

Freddie Mac will provide the Seller/Servicer with notice of any modification to the Seller/Servicer's Tangible Net Worth or other financial requirements, any additional requirements, and any limitations, restrictions or qualifications on the sale of Mortgages or Servicing of Mortgages.

2101.2: Acceptable Net Worth and other financial requirements (Future effective date 12/31/23)

(a) Defined terms

Seller/Servicers should be familiar with the following terms used in this section as they relate to financial requirements:

- **Agency Mortgage Servicing:** The aggregate Residential First Lien Mortgage Servicing UPB of all Mortgages serviced for the Enterprises and Ginnie Mae

- **Enterprise:** Freddie Mac and Fannie Mae, each an “Enterprise” and collectively the “Enterprises.”
- **Large Non-Depository Institutions:** Non-depository institutions with \$50 billion or more in Residential First Lien Mortgage Servicing UPB plus Other Servicing UPB as determined at the end of each calendar quarter.
- **Liquidity:** Cash and cash equivalents (unrestricted), certain unpledged investment grade securities that are available for sale or held for trade (including single-family mortgage-backed securities backed solely by Agency Mortgage Servicing, obligations of the Enterprises, and Treasury obligations), and 50% of committed/unused Agency Mortgage Servicing advance lines of credit.
- **Long-Term Senior Unsecured Debt Rating:** A rating assigned to a financial obligation with an original maturity of one year or more that reflects both on the likelihood of a default on contractually promised payments on senior unsecured debts and the expected financial loss suffered in the event of default on such debts from a Rating Agency.
- **Long-Term Corporate Family Rating:** A long-term rating that reflects the relative likelihood of a default on a corporate family’s debt and debt-like obligations and the expected financial loss suffered in the event of default from a Rating Agency.
- **Other Servicing UPB:** Using the fields from the Form 1055, Mortgage Bankers’ Financial Reporting Form (MBFRF), the outstanding UPB of a Seller/Servicer’s portfolio of one- to four- unit residential First Lien Mortgages the Seller/Servicer is contractually obligated to service for all investors other than the Enterprises and Ginnie Mae, plus the following regardless of the investor:
 - Second lien Mortgages,
 - Funded home equity lines of credit,
 - Reverse Mortgages, plus
 - Construction and land development Mortgages

This does not include the outstanding UPB of Mortgages serviced under a subservicing arrangement.

- **Rating Agency:** An entity that is a “Nationally Recognized Statistical Rating Organization” as defined by Section 78c(a) of Title 15 of the United States Code (15 U.S.C. 78c(a)).
- **Residential First Lien Mortgage Servicing UPB:** Using the fields from the Form 1055, Mortgage Bankers’ Financial Reporting Form (MBFRF), the outstanding UPB of a Seller/Servicer’s portfolio of one- to four- unit residential First Lien Mortgages the

Seller/Servicer is contractually obligated to service for the Enterprises and Ginnie Mae, as applicable, excluding:

- Funded home equity lines of credit,
- Reverse Mortgages, plus
- Construction and land development Mortgages

This does not include the outstanding UPB of Mortgages serviced under a subservicing arrangement.

- **Servicer Rating:** An evaluation of a servicer for its capacity to carry out servicing business, which is different from evaluations of financial instruments or credit standing of corporations, from a Rating Agency. Servicer Ratings may be conducted based upon the type of servicing actions performed, including evaluations for entities that act as primary servicers, special servicers or master servicers.
- **Small Seller:** A Seller that originates \$1 billion or less in one- to four- unit residential first lien Mortgages (excluding reverse Mortgages, one-to four-unit residential construction and land development loans to home buyers, and lot loans to consumers) in the most recent four-quarter period.
- **Tangible Net Worth:** Total equity (as determined in accordance with generally accepted accounting principles (GAAP)) less receivables due from related entities, less goodwill and other intangible assets, less carrying value of pledged assets net of associated liabilities, less deferred tax assets net of associated deferred tax liabilities.

Note: If the deferred tax liabilities are greater than the deferred tax assets, then the deduction from the Tangible Net Worth will be zero.

(b) Seller/Servicers that are depository institutions

Seller/Servicers that are depository institutions must maintain at all times a Tangible Net Worth of \$2,500,000 plus a dollar amount equal to or exceeding the sum of:

- 25 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises,
- 25 basis points of the Other Servicing UPB, plus
- 35 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for Ginnie Mae

Seller/Servicers that are depository institutions must maintain compliance with their applicable capital and liquidity requirements imposed by their regulators.

(c) Seller/Servicers that are non-depository institutions

Seller/Servicers that are non-depository institutions must maintain at all times the Tangible Net Worth requirements applicable to depository institutions above, and must also maintain:

- A Tangible Net Worth/total assets ratio greater than or equal to 6%, where total assets are determined in accordance with GAAP, and
- A base Liquidity of eligible assets equal to or exceeding the sum of:
 - 7 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises, if the Seller/Servicer remits (or an Enterprise draws) interest or principal, or both, as scheduled, regardless of whether principal or interest has been collected from the Borrower,
 - 3.5 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises, if the Seller/Servicer remits (or an Enterprise draws) the interest and principal only as actually collected from the Borrower,
 - 3.5 basis points of the Seller/Servicer's Other Servicing UPB, plus
 - 10 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for Ginnie Mae
- An origination Liquidity* equal to or exceeding 50 basis points of the sum of the following as reported by Seller/Servicer using the fields from the Form 1055, Mortgage Bankers' Financial Reporting Form (MBFRF):
 - One-to-four unit residential first lien (excluding reverse Mortgages, one-to-four-unit residential construction and land development loans to home buyers, and lot loans to consumers) Mortgages held for sale, at lower of cost or market,
 - One-to-four unit residential first lien (excluding reverse Mortgages, one-to-four-unit residential construction and land development loans to home buyers, and lot loans to consumers) Mortgages held for sale, at fair value, plus
 - UPB of interest rate lock commitments after fallout adjustments.

*Note: These origination Liquidity requirements do not apply to Small Sellers.

(d) Seller/Servicers that are Large Non-Depository Institutions

In addition to the Liquidity requirements specified in subsection (c) above, all Seller/Servicers that are Large Non-Depository Institutions must at all times maintain supplemental Liquidity equal to or exceeding the sum of:

- 2 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for the Enterprises, plus
- 5 basis points of that portion of the Seller/Servicer's Residential First Lien Mortgage Servicing UPB serviced for Ginnie Mae

(e) Additional requirements

Notwithstanding the above, Freddie Mac may, as it deems appropriate and in its sole discretion:

- Modify a Seller/Servicer's Tangible Net Worth requirement
- Impose limitations, restrictions or qualifications on the sale of Mortgages to, or the Servicing of Mortgages for Freddie Mac by any Seller/Servicer, and
- Impose additional financial requirements on any Seller/Servicer, including, but not limited to, (i) requirements relating to liquidity and profitability, regardless of the Seller/Servicer's Tangible Net Worth, and (ii) the requirement that any Seller/Servicer execute and deliver a Collateral Pledge Agreement, in substantially the form and substance of Exhibit 104, whereby the Seller/Servicer will pledge certain collateral (whether cash, securities or otherwise), as pledgor, to Freddie Mac, as secured party, in such amount as determined by Freddie Mac, in its sole discretion

Freddie Mac will provide the Seller/Servicer with notice of any modification to the Seller/Servicer's Tangible Net Worth or other financial requirements, any additional requirements, and any limitations, restrictions or qualifications on the sale of Mortgages or Servicing of Mortgages.

2101.3: Activity thresholds and no-activity fee (04/07/21)

Beginning January 1, 2014, a Seller/Servicer that does not meet certain activity thresholds may be assessed a no-activity fee.

To avoid being assessed the no-activity fee, Seller/Servicers must meet at least one of the following activity thresholds:

- Sell to Freddie Mac during the immediately preceding 36 months, or
- Service, or be a Servicing Agent for, a Mortgage portfolio for Freddie Mac as of December 31 of the immediately preceding calendar year

New Seller/Servicers are exempt from the fee until they have been approved by Freddie Mac for three years.

The no-activity fee may also be assessed for each subsequent calendar year in which the Seller/Servicer does not meet the activity threshold but remains an approved Freddie Mac Seller/Servicer. The fee will be assessed and paid in accordance with the requirements of Chapter 6303.

2101.4: Financial reporting (03/02/16)

The Seller/Servicer must at all times comply with the following reporting requirements:

- Each Seller/Servicer must submit annual audited financial statements to Freddie Mac, except that:
 - A federally insured depository institution need not submit such statements, and
 - A Seller/Servicer that is approved only to sell Mortgages to Freddie Mac may submit Reviewed Financial Statements
- Each Seller/Servicer that is a subsidiary of another institution and that is required to submit audited financial statements (as noted above) may submit audited financial statements prepared at the Seller/Servicer level or at its parent level, with a consolidating worksheet
- An annual audited report on internal controls is required only if audited financial statements are required by Freddie Mac. This internal control report should be a separate report stating whether the independent public accountant (IPA) noted any material weaknesses during the audit of the financial statements. The report should be prepared in accordance with Interpretation 1 of Statement and Auditing Standards (SAS) No. 60, “Communication of Internal Control Structure Related Matters Noted in an Audit,” titled, “Reporting on the Existence of Material Weaknesses” (AICPA, Professional Standards, vol. I, AU sec. 9325).

If audited financial statements and internal control reports are required by Freddie Mac, the audited financial statements and internal control reports must be prepared by an IPA who is a licensed certified public accountant (CPA) or a public accountant licensed on or before December 31, 1970, who complies with the applicable provisions of the public accountancy law and rules of the jurisdiction(s) where the audit is conducted and the jurisdiction(s) in which the IPA is licensed.

Freddie Mac reserves the right to require audited financial statements, audited reports on internal controls, additional financial statements and other information relevant to the Seller/Servicer's eligibility, including audited or Reviewed Financial Statements for the Seller/Servicer's parent, subsidiaries and affiliates, at any time and regardless of the Seller/Servicer's annual eligibility reporting requirements.

2101.4: Financial reporting (Future effective date 12/31/23)

(a) All Seller/Servicers

The Seller/Servicer must at all times comply with the following reporting requirements:

- Each Seller/Servicer must submit annual audited financial statements to Freddie Mac, except that:
 - A federally insured depository institution need not submit such statements, and
 - A Seller/Servicer that is approved only to sell Mortgages to Freddie Mac may submit Reviewed Financial Statements
- Each Seller/Servicer that is a subsidiary of another institution and that is required to submit audited financial statements (as noted above) may submit audited financial statements prepared at the Seller/Servicer level or at its parent level, with a consolidating worksheet
- An annual audited report on internal controls is required only if audited financial statements are required by Freddie Mac. This internal control report should be a separate report stating whether the independent public accountant (IPA) noted any material weaknesses during the audit of the financial statements. The report should be prepared in accordance with Interpretation 1 of Statement and Auditing Standards (SAS) No. 60, "Communication of Internal Control Structure Related Matters Noted in an Audit," titled, "Reporting on the Existence of Material Weaknesses" (AICPA, Professional Standards, vol. I, AU sec. 9325).

If audited financial statements and internal control reports are required by Freddie Mac, the audited financial statements and internal control reports must be prepared by an IPA who is a licensed certified public accountant (CPA) or a public accountant licensed on or before December 31, 1970, who complies with the applicable provisions of the public accountancy law and rules of the jurisdiction(s) where the audit is conducted and the jurisdiction(s) in which the IPA is licensed.

Freddie Mac reserves the right to require audited financial statements, audited reports on internal controls, additional financial statements and other information relevant to the

Seller/Servicer's eligibility, including audited or Reviewed Financial Statements for the Seller/Servicer's parent, subsidiaries and affiliates, at any time and regardless of the Seller/Servicer's annual eligibility reporting requirements.

(b) Seller/Servicers that are Large Non-Depository Institutions

All Large Non-Depository Institutions, as defined in Section 2101.2, must obtain an assessment of the Seller/Servicer's performance and creditworthiness by a qualified, independent third-party on an annual basis. The assessment must be made available to Freddie Mac upon request, must substantiate that the Seller/Servicer has adequate capacity to perform its financial obligations in an adverse stress environment and must meet the following criteria:

- One primary Servicer Rating or master Servicing Rating, as applicable, as defined in Section 2101.2, for Large Non-Depository Institutions that have greater than or equal to \$50 billion in Servicing UPB; and
- One primary Servicer Rating or master Servicing Rating, as applicable, and one third-party Long-Term Senior Unsecured Debt Rating or Long-Term Corporate Family Rating, each as defined in Section 2101.2, for Large Non-Depository Institutions that have greater than \$100 billion in Servicing UPB; and
- One primary Servicer Rating or master Servicing Rating, as applicable, and issued by two Rating Agencies, each of which must issue either a third-party Long-Term Senior Unsecured Debt Rating or Long-Term Corporate Family Rating for Large Non-Depository Institutions that have greater than \$150 billion in Servicing UPB

2101.4: Financial reporting (Future effective date 03/31/24)

(a) All Seller/Servicers

The Seller/Servicer must at all times comply with the following reporting requirements:

- Each Seller/Servicer must submit annual audited financial statements to Freddie Mac, except that:
 - A federally insured depository institution need not submit such statements, and
 - A Seller/Servicer that is approved only to sell Mortgages to Freddie Mac may submit Reviewed Financial Statements
- Each Seller/Servicer that is a subsidiary of another institution and that is required to submit audited financial statements (as noted above) may submit audited financial

statements prepared at the Seller/Servicer level or at its parent level, with a consolidating worksheet

- An annual audited report on internal controls is required only if audited financial statements are required by Freddie Mac. This internal control report should be a separate report stating whether the independent public accountant (IPA) noted any material weaknesses during the audit of the financial statements. The report should be prepared in accordance with Interpretation 1 of Statement and Auditing Standards (SAS) No. 60, “Communication of Internal Control Structure Related Matters Noted in an Audit,” titled, “Reporting on the Existence of Material Weaknesses” (AICPA, Professional Standards, vol. I, AU sec. 9325).

If audited financial statements and internal control reports are required by Freddie Mac, the audited financial statements and internal control reports must be prepared by an IPA who is a licensed certified public accountant (CPA) or a public accountant licensed on or before December 31, 1970, who complies with the applicable provisions of the public accountancy law and rules of the jurisdiction(s) where the audit is conducted and the jurisdiction(s) in which the IPA is licensed.

Freddie Mac reserves the right to require audited financial statements, audited reports on internal controls, additional financial statements and other information relevant to the Seller/Servicer’s eligibility, including audited or Reviewed Financial Statements for the Seller/Servicer’s parent, subsidiaries and affiliates, at any time and regardless of the Seller/Servicer’s annual eligibility reporting requirements.

(b) Seller/Servicers that are Large Non-Depository Institutions

All Large Non-Depository Institutions, as defined in Section 2101.2, must obtain an assessment of the Seller/Servicer’s performance and creditworthiness by a qualified, independent third-party on an annual basis. The assessment must be made available to Freddie Mac upon request, must substantiate that the Seller/Servicer has adequate capacity to perform its financial obligations in an adverse stress environment and must meet the following criteria:

- One primary Servicer Rating or master Servicing Rating, as applicable, as defined in Section 2101.2, for Large Non-Depository Institutions that have greater than or equal to \$50 billion in Servicing UPB; and
- One primary Servicer Rating or master Servicing Rating, as applicable, and one third-party Long-Term Senior Unsecured Debt Rating or Long-Term Corporate Family Rating, each as defined in Section 2101.2, for Large Non-Depository Institutions that have greater than \$100 billion in Servicing UPB; and
- One primary Servicer Rating or master Servicing Rating, as applicable, and issued by two Rating Agencies, each of which must issue either a third-party Long-Term Senior

Unsecured Debt Rating or Long-Term Corporate Family Rating for Large Non-Depository Institutions that have greater than \$150 billion in Servicing UPB

Additionally, Large Non-Depository Institutions must submit to Freddie Mac, annually on or before March 31, a capital and liquidity plan that describes how the Seller/Servicer intends to manage its capital and liquidity consistent with Freddie Mac requirements. Acceptable capital and liquidity plans must, at a minimum:

- Include a description of the Seller/Servicer's corporate governance over the capital and liquidity planning process, such as oversight responsibilities of Senior Management and its board of directors, and a discussion of the Seller/Servicer's risk management framework;
- Describe processes to monitor and measure liquidity risks, such as business activity reports and financial forecast and cashflow projections;
- Contain capital and liquidity contingency funding plans and provide for testing and reaffirmation of such plans at least annually;
- Provide for an annual liquidity stress test, including a stress test of the value of Servicing Contract Rights in an adverse scenario (1) developed by the Seller/Servicer or (2) that may be prescribed by Freddie Mac, or both. The Servicing Contract Rights stress test may be conducted either in-house or using a third-party vendor; and
- Require notice to Freddie Mac within five (5) Business Days following any material change to or material deviation from the plan. During times of stress, material changes must require immediate notification within one (1) Business Day.

2101.5: Mortgage bankers financial reporting (09/30/20)

Each Seller/Servicer that is a mortgage banker must submit a complete and accurate Form 1055, Mortgage Bankers' Financial Reporting Form, on a quarterly basis. For reporting purposes, mortgage bankers are firms other than federally insured depositories originating mortgages for sale in the secondary market and/or servicing mortgages. This includes Sellers/Servicers that are mortgage banker subsidiaries of federally insured depositories.

Form 1055 must be completed and submitted as follows:

- For reporting periods ending March 31, June 30 or September 30, Form 1055 must be filed no later than 30 days after the end of the reporting period. For reporting periods ending on December 31, the Form 1055 must be filed no later than 60 days after the end of the reporting period. Mortgage bankers with fiscal years that do not end on December 31 should refer to the instructions for Form 1055 at <http://www.mbrf.org>.

- Form 1055 may be printed from the website and must be completed and submitted online at <http://www.mbrf.org>
- Seller/Servicer's CEO, CFO or an equivalent officer must certify that Form 1055 was prepared in accordance with generally accepted accounting principles (GAAP) and that the information submitted is true and accurate.

Failure to submit Form 1055 as described herein may result in suspension or disqualification of the Seller/Servicer.

2101.6: Seller/Servicer insurance requirements (08/10/22)

(a) Coverage levels

(i) Limits of insurance

The Seller/Servicer must maintain in effect, at all times and at its expense, a fidelity bond and a mortgagee's errors and omissions (E&O) insurance policy.

If the Seller/Servicer uses its parent's bond or policy, as permitted in Section 2101.6, the minimum limit of insurance must be based on the consolidated base amount for the parent and for all institutions related to the parent that are covered by the parent's bond or policy, as applicable.

Freddie Mac will accept bonds or policies that provide for an aggregate limit of insurance for a bond's or policy's term provided that the aggregate at least equals the minimum limit per loss or occurrence calculated in accordance with this Section 2101.6.

For fidelity bond and E&O insurance, the higher minimum Freddie Mac Multifamily coverage limit applies if:

- The Seller/Servicer is also a Freddie Mac Multifamily Seller/Servicer
- The required fidelity or mortgagee's E&O coverage is provided under the same insurance contract that covers both Home Mortgages and Multifamily Mortgages and
- The *Freddie Mac Multifamily Seller/Servicer Guide* requires a higher limit of fidelity or mortgagee's E&O coverage

(A) Limits of fidelity bond

The minimum acceptable limits per fidelity loss or occurrence are as follows:

Base*	Minimum required insurance limit
\$100 million or less	\$300,000
\$500 million or less	\$300,000 +0.15% of base over \$100 million
\$1 billion or less	\$300,000 +0.15% of \$400 million (i.e., \$600,000) +0.125% of base over \$500 million
Over \$1 billion	\$300,000 +0.15% of \$400 million (i.e., \$600,000) +0.125% of \$500 million (i.e., \$625,000) +0.1% of base over \$1 billion

* Base = The highest of total annual Home Mortgage and Multifamily Mortgage origination, sale or servicing volume including Home Mortgages and Multifamily Mortgages held in portfolio.

(B) Limits of E&O insurance

Mortgagee's E&O coverage must be maintained at a minimum limit equal to the higher of (i) \$300,000 or (ii) 20% of the fidelity coverage required in the table above. If the base consists of Home Mortgages only, the limit of mortgagee's E&O insurance may be capped at \$10 million.

For mortgagee's E&O insurance, Freddie Mac will accept policies providing coverage per Mortgage if the insurance limit per Mortgage is no less than the UPB of the largest Mortgage originated and/or sold by the Seller or serviced by the Servicer, whichever is highest.

For mortgagee's E&O insurance, Freddie Mac will accept a policy that provides lower limits of insurance for losses other than those caused by lack or insufficiency of property insurance on Mortgaged Premises, if any such lower limit of insurance is the maximum liability that the insurer will assume for similar losses by institutions similar to the Seller/Servicer.

Examples of calculations of the required minimum insurance limits are as follows:

Base	Calculation	Minimum required insurance limit for fidelity bond
\$90 million	not applicable	\$300,000*
\$400 million	\$300,000 +0.15% of \$300 million \$750,000	\$750,000*
\$750 million	\$300,000 +0.15% of \$400 million +0.125% of \$250 million \$1,212,500	\$1,212,500*
\$1.5 billion	\$300,000 +0.15% of \$400 million +0.125% of \$500 million +0.1% of \$500 million \$2,025,000	\$2,025,000**

* \$300,000 in mortgagee's E&O coverage (the higher of \$300,000 or 20% of the required fidelity coverage)

** \$405,000 in mortgagee's E&O coverage (the higher of \$300,000 or 20% of the required fidelity coverage)

(ii) Deductibles

The maximum deductible allowed for any one fidelity loss is the higher of:

- 5% of the minimum limit of fidelity insurance required by Freddie Mac, or
- \$100,000

The maximum deductible allowed for any one mortgagee's E&O loss is the higher of:

- 5% of the minimum limit of mortgagee's E&O insurance required by Freddie Mac, or
- \$100,000

The deductible may not be calculated based on the actual limit of insurance in force. For example, Freddie Mac requires a Servicer to maintain at least \$5 million in fidelity insurance. The Servicer actually maintains \$7 million in fidelity insurance. The maximum deductible allowed is 5% of \$5 million or \$250,000.

(b) Acceptable insurer

Freddie Mac will accept coverage underwritten by an insurer that is rated A- (A-minus) or better by the A.M. Best Company.

(c) Parent institution's coverage

When the Seller/Servicer is a subsidiary of an institution with fidelity and/or mortgagee's E&O insurance that meets Freddie Mac's requirements, Freddie Mac will accept the insurance of the Seller/Servicer's parent as adequate for the Seller/Servicer if:

- The Seller/Servicer is named as joint insured, and
- Coverage under the parent's policy or policies of insurance does not restrict or otherwise limit the Seller/Servicer's ability to comply with all of Freddie Mac's insurance requirements

(d) Other obligations of the Seller/Servicer

The Seller/Servicer must maintain at its offices a complete and accurate copy of its fidelity bonds and mortgagee's E&O policies for the current year and the past five years. Copies of these bonds and policies shall be provided to Freddie Mac upon request.

The Seller/Servicer authorizes Freddie Mac to obtain copies of the bonds and policies and all related information from the Seller/Servicer's insurer and/or agent or representative of the insurer.

Freddie Mac's requirements for fidelity and mortgagee's E&O insurance do not diminish, restrict or otherwise limit the Seller/Servicer's responsibilities and obligations stated in the Purchase Documents.

The Seller/Servicer must familiarize itself with the terms of the fidelity and mortgagee's E&O coverages and take all actions necessary to preserve the coverage and maximum benefits of such insurance for the Seller/Servicer and Freddie Mac, as applicable.

2101.7: Fidelity insurance coverage (04/13/16)

(a) Documentation

Fidelity insurance coverage may be documented on a bond form acceptable to Freddie Mac or on the standard bond form currently mandated by or acceptable to the government agency that has regulatory or supervisory authority over the Seller/Servicer. If the Seller/Servicer is not regulated or supervised, Freddie Mac will accept coverage documented on the bond form commonly issued to institutions similar to the Seller/Servicer. The coverage may be provided in policy forms with names that include, but are not limited to, Fidelity Bond, Mortgage

Bankers Bond, Financial Institution Bond, Financial Institution Crime Policy or Bankers Blanket Bond. Whichever policy form is relied upon to document the coverage required by Freddie Mac, the Seller/Servicer warrants that the terms of such coverage meet all of the requirements in Section 2101.7(b).

(b) Scope

Fidelity insurance coverage must protect the Seller/Servicer against loss resulting from dishonesty, theft and/or fraud committed by officers and/or employees of the Seller/Servicer as well as by persons duly authorized to act on the Seller/Servicer's behalf in the origination and/or sale of Mortgages and/or Servicing of Mortgages or REO, including, but not limited to, the following:

- Employees of outside firms while providing legal services to the Seller/Servicer or performing as data processors of checks or other accounting records for the Seller/Servicer — unless such firms have provided to the Seller/Servicer satisfactory evidence of fidelity insurance at least equal to that required of the Seller/Servicer by Freddie Mac
- Persons assigned to the Seller/Servicer through an intervening employer or agency to perform the usual duties of an employee of the Seller/Servicer on a contingent or temporary basis, and
- Interns

For this section, REO includes the following:

- REO held for investment
- REO acquired in the settlement of Mortgages (e.g., foreclosed Mortgages)

Fidelity insurance must also:

- Protect Freddie Mac, as an investor, against losses that Freddie Mac incurs in connection with dishonesty, theft and/or fraud committed by any partner, sole proprietor or major shareholder of the Seller/Servicer
- Not be limited solely to dishonesty, theft and/or fraud committed for improper personal gain
- Provide that the insurer will name Freddie Mac, as an investor, as sole loss payee on payment drafts the insurer issues for losses that Freddie Mac incurs in connection with acts covered by the insurance, and
- Give Freddie Mac, as an investor, the right to file a claim directly with the insurer for losses that Freddie Mac incurs in connection with acts covered by insurance, irrespective

of whether the Seller/Servicer tenders a claim under the bond in connection with the events that give rise to the claim filed by Freddie Mac

2101.8: Mortgagee's errors and omissions (E&O) insurance coverage (06/10/20)

(a) Documentation

Mortgagee's errors and omissions (E&O) insurance coverage must be documented on policy forms commonly issued to institutions similar to the Seller/Servicer. The coverage may be provided in policy forms with names that include, but are not limited to, Mortgage Bankers Bond, Mortgage Errors & Omissions, Mortgage Impairment, Mortgage Holders Liability, Professional Liability or Mortgage Protection. Whichever policy form is relied upon to document the coverage required by Freddie Mac, the Seller/Servicer warrants that the terms of such coverage meet all of the requirements in Section 2101.8(b) below.

(b) Scope

The coverage must protect the Seller/Servicer against loss resulting from negligence, errors or omissions committed by the persons required to be covered by the Seller/Servicer's fidelity insurance, under Section 2101.7(b), while performing their duties with respect to Mortgages originated and/or sold by the Seller and/or Mortgages or REO serviced by the Servicer. Such duties include, but are not limited to, the following:

- Determining whether the Mortgaged Premises are located in Special Flood Hazard Areas (SFHA) as defined by the Director of the Federal Emergency Management Agency (FEMA)
- Ensuring that the Mortgaged Premises are insured in accordance with Chapter 4703
- Maintaining, where applicable, FHA insurance, VA guaranty, RHS guaranty or mortgage insurance on the Mortgages
- Complying with applicable reporting requirements of the FHA, VA, RHS or MI, and
- Ensuring the payment of property taxes and any other mandatory assessments on the Mortgaged Premises or REO

For this section, REO includes the following:

- REO held for investment
- REO acquired in the settlement of Mortgages (e.g., foreclosed Mortgages)

Mortgagee's E&O insurance coverage must also:

- Provide that the insurer will name Freddie Mac, as an investor, as sole loss payee on payment drafts the insurer issues for losses that Freddie Mac incurs in connection with acts covered by the insurance, and
- Give Freddie Mac, as an investor, the right to file a claim directly with the insurer for losses that Freddie Mac incurs in connection with acts covered by the insurance, irrespective of whether the Seller/Servicer tenders a claim under the policy in connection with the events that give rise to the claim filed by Freddie Mac

2101.9: Seller/Servicer insurance reporting requirements (12/07/20)

(a) Certificate of insurance

Within 30 days of obtaining or renewing fidelity and/or mortgagee's errors and omissions (E&O) insurance, the Seller/Servicer must submit to Freddie Mac (**see Directory 1**) a certificate of insurance and related documentation showing the following information:

- Name and address of insurer and insurance broker
- Bond or policy number
- The Seller/Servicer as named insured or joint named insured
- Type of insurance and coverage; limit of liability on a per loss, occurrence or mortgage basis (specify) and/or any applicable aggregate limit of coverage; and effective dates of coverage
- Deductible amounts
- Any endorsement or optional coverage modifying the original bond or policy if the endorsement or optional coverage reinforces compliance with Freddie Mac's requirements or effectively reduces the coverage required by Freddie Mac. Reference to a form number is not acceptable. A copy of the endorsement or optional coverage is required if the endorsement or optional coverage cannot be summarized substantively on the certificate.
- The insurer's agreement to notify Freddie Mac (**see Directory 1**) at least 30 calendar days before the insurer, on its own initiative, cancels or non-renews the Seller/Servicer's coverage for any reason

- The insurer's agreement to notify Freddie Mac (see **Directory 1**) within 10 Business Days after the insurer, on its own initiative, reduces or restrictively modifies the Seller/Servicer's coverage for any reason or, at the Seller/Servicer's request, cancels or non-renews the Seller/Servicer's coverage
- The insurer's agreement to notify Freddie Mac (see **Directory 1**) within 10 Business Days after the insurer's payment to the Seller/Servicer of a claim that (i) applies to a coverage written with an aggregate limit of insurance and (ii) depletes such aggregate limit of insurance by more than 50%

(b) Annual certification

The Seller/Servicer must certify compliance with Freddie Mac's requirements for fidelity and mortgagee's E&O insurance on its Annual Certification Report, submitted in accordance with Sections 2101.10 and 2101.11.

(c) Notice of loss or change in coverage

The Seller/Servicer must report to Freddie Mac the following events within 10 Business Days of their occurrence using the Change and Activity Report, submitted in accordance with Section 2101.12:

- The determination that any single act of embezzlement, theft of funds or fraud or mortgagee's E&O loss has caused loss exceeding \$100,000, whether or not Freddie Mac's interests are affected or a claim is filed with the insurer, or
- The receipt of a notice from the insurer that the insurer has taken or intends to take action to cancel, reduce, not renew or restrictively modify the Seller/Servicer's fidelity and/or mortgagee's E&O insurance for any reason. The Seller/Servicer must include a copy of the insurer's notice and detail the reasons for the insurer's action or intended action if not stated in the insurer's notice. The Seller/Servicer must also report its effort to obtain replacement coverage or otherwise satisfy Freddie Mac's insurance requirements.

2101.10: Annual certification (12/07/20)

Freddie Mac makes the Annual Certification available to each Seller/Servicer on or about the end of the Seller/Servicer's fiscal year. The Annual Certification Report requires certain information about the Seller/Servicer and its operations and the Seller/Servicer's certification that it continues to meet Freddie Mac's eligibility requirements and comply with the provisions and requirements of the Guide and the Seller/Servicer's other Purchase Documents. If the Seller/Servicer does not meet or comply with one or more requirements, it must identify each such failure on the Annual Certification Report together with such information concerning remediation of such failure as Freddie Mac may request.

See Section 2101.11 for information and requirements regarding submission of the Annual Certification Report.

2101.11: Annual reporting requirements (12/07/20)

The following must be completed with information as of the Seller/Servicer's fiscal year-end and submitted to Freddie Mac within 90 days after the end of that fiscal year:

- Annual Certification Report (see Section 2101.10)
- Audited or reviewed financial statements, as required by Section 2101.4, and
- Any other documentation requested by Freddie Mac

Seller/Servicers must access and complete an Annual Certification Report using the Unified Counterparty Experience® (UCount®) system and any required audited financial statements and auditor's reports (see Section 2101.4) must be submitted using UCount or electronically as attachment to an e-mail to Institutional_Eligibility@FreddieMac.com.

The Seller/Servicer is responsible for truthfulness, completeness and accuracy of the information in the electronically executed and submitted Annual Certification Report (including any required or supplemental information submitted with the Annual Certification Report) to the same degree as if the Seller/Servicer's duly authorized representative made the submission to Freddie Mac in paper and signed in ink.

A Seller/Servicer that is suspended from selling Mortgages to or Servicing Mortgages for, or is not approved to sell Mortgages to or service Mortgages for Freddie Mac is not required to submit Annual Certification Report unless directed to do so by Freddie Mac. Failure of any other Seller/Servicer to submit the Annual Certification Report as set forth in this Section 2101.11 may result in suspension or disqualification of that Seller/Servicer.

2101.12: Reporting of changes in Seller/Servicer's organization or status (10/12/22)

A Seller/Servicer must submit a Change and Activity Report to Freddie Mac using the Unified Counterparty Experience® (UCount®) system at least 60 calendar days before a major change in its ownership or organization, including, but not limited to, a:

- (a) Merger
- (b) Consolidation (including a regulatory agency-assisted transaction)
- (c) Change of Control

- (d) Charter change (such as a State-chartered bank becoming federally chartered)
- (e) Conversion (such as a thrift institution converting from mutual to stock form), or such other change of a Seller/Servicer's identity or type of organization
- (f) Transfer of all of the Seller/Servicer's assets or assets of a mortgage-related function, without the transfer of accompanying liabilities, to a Freddie Mac-approved Seller/Servicer

A Seller/Servicer must submit a Change and Activity Report to Freddie Mac using UCount at least fourteen (14) calendar days before any of the following events:

1. A name change, including a change relating to a fictitious or alias name
2. A change concerning:
 - (a) Relationships with any Affiliate
 - (b) External auditors
 - (c) Fiscal year-end
 - (d) Any contract between a Seller/Servicer and a Related Third Party that will have or is reasonably likely to have a Material Adverse Effect
3. The jurisdiction of its organization or State of formation
4. Any change in Seller/Servicer's chief executive office, principal place of business or change in the location of its books and records (other than a non-material change in the location of its books and records in the normal course of its business in selling or servicing Mortgages)

A Seller/Servicer must submit a Change and Activity Report to Freddie Mac using UCount within one Business Day after it:

1. Is terminated by a mortgage insurance company, secondary marketing agency or other secondary mortgage investor
2. Voluntarily files a petition under federal bankruptcy or State insolvency laws, or answers an involuntary proceeding admitting insolvency or inability to pay debts
3. Fails to obtain a vacation or stay of involuntary proceedings brought for its reorganization, dissolution or liquidation
4. Is adjudged bankrupt or insolvent
5. Has a trustee, conservator or receiver is appointed for the Seller/Servicer or its property

6. Makes an assignment for the benefit of its creditors
7. Is put on probation or has its activities restricted in any manner by any agency of the federal or of State government
8. Becomes subject to an active or threatened (overtly and in writing) class action legal proceeding or a regulatory or supervisory action, proceeding or investigation including, without limitation, any judgment, order, finding or settlement that may have a Material Adverse Effect
9. With respect to any Warehouse Lender or any Secured Party under an Acknowledgment Agreement or Consent Agreement:
 - (a) Notifies the Warehouse Lender or Secured Party, or is notified by the Warehouse Lender or Secured Party of a breach or default under a Warehouse Agreement or other relevant contract (including an Acknowledgment Agreement or Consent Agreement), or of Seller/Servicer's violation of any financial covenant (e.g., covenants relating to Seller/Servicer's working capital, debt or equity, servicing portfolio or net worth) of a Warehouse Agreement or other relevant contract (including an Acknowledgment Agreement or Consent Agreement); or
 - (b) Agrees to or becomes aware of any other major event regarding the agreements referenced in the foregoing Guide Section 2101.12(9)(a), such as execution of a new agreement or cancelation, termination or substantive modification to an existing agreement or other relevant contract
10. Without derogating from the generality of Section 2101.12(8), with respect to any dispute, litigation or other adversary proceeding with a Related Third Party or other party that may have a Material Adverse Effect:
 - (a) Receives notice of a dispute not subject to litigation or other adversary proceeding, no later than one Business Day after Seller/Servicer's reasonable determination that such dispute may have a Material Adverse Effect
 - (b) Initiates litigation or other adversary proceedings asserting claims by or on behalf of the Seller/Servicer that may have a Material Adverse Effect, no later than one Business Day after the initiation of such litigation or proceedings; and
 - (c) Receives notice of litigation or other adversary proceedings asserting claims against the Seller/Servicer that may have a Material Adverse Effect, no later than one Business Day after notice to the Seller/Servicer of any such litigation or proceedings

The Seller/Servicer must keep Freddie Mac apprised in writing of any major developments in any such dispute, litigation or other adversary proceedings and must provide, at Freddie Mac's request, copies of any pleadings or other documents related to the dispute, litigation or other

adversary proceedings. Freddie Mac may also require the Seller/Servicer to provide additional information concerning any event covered by this Section 2101.12(10) and reserves the right to take any action it deems necessary based on such information and change.

A Seller/Servicer submitting a Change and Activity Report should also review its (i) Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or (ii) Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable, to determine if a new Certificate of Incumbency (and board of directors or other governing body resolution) should be submitted with new or modified wire transfer instructions, Automated Clearing House (ACH) instructions, or other payment instructions. Refer to Section 2201.1 for Certificate of Incumbency delivery instructions.

For example, the Seller/Servicer may need to submit one or more of the following with the new Certificate of Incumbency:

- Form 483, Wire Transfer Authorization,
- Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) for Seller/Servicers
- Form 1132A, Authorization for Automatic Transfer of Funds from Principal and Interest Custodial Account through the Automated Clearing House (ACH)

Refer to Section 2201.2 for delivery instructions for Form 483, Section 2405.1 for delivery instructions for Form 1132 (for Servicers), Section 6303.2 for delivery instructions for Form 1132 (for Sellers) and Section 8303.3 for delivery instructions for Form 1132A.

2101.13: Transfer of assets to an entity that is not a Freddie Mac-approved Seller/Servicer (12/07/20)

Failure to comply with all of the requirements of this Section 2101.13 within the prescribed time frame may result in suspension or disqualification of the Seller/Servicer.

A Seller/Servicer must complete a Change and Activity Report and submit relevant information to Freddie Mac using the Unified Counterparty Experience® (UCount®) system at least 75 Business Days prior to the proposed transfer of:

- All of its assets without the transfer of accompanying liabilities, to an entity that is not a Freddie Mac-approved Seller/Servicer, or
- The assets of a Mortgage-related function (for example, originations or Servicing), without the transfer of accompanying liabilities, to an entity that is not a Freddie Mac-approved Seller/Servicer

In such situations, Freddie Mac does not consider that the Seller/Servicer has transferred its Freddie Mac approval and Seller/Servicer number to the transferee.

Freddie Mac may require the Seller/Servicer to provide additional information concerning the proposed transfer of assets.

The proposed transferee must obtain Freddie Mac's approval as a Seller/Servicer prior to the effective date of the asset transfer. To obtain such approval, the proposed transferee must apply to become an approved Seller/Servicer concurrent with the Seller/Servicer's submission of the Change and Activity Report. If the proposed transferee fails to receive approval as a Freddie Mac Seller/Servicer, it will be precluded from selling Mortgages to or Servicing Mortgages for, Freddie Mac. Information on applying for approval as a Freddie Mac Seller/Servicer may be obtained by contacting Freddie Mac (see **Directory 1**) or by visiting:
<https://sf.freddiemac.com/working-with-us/become-a-seller-servicer/overview>.

2101.14: Seller/Servicer changes that result in a Transfer of Servicing (12/07/20)

A change in a Seller/Servicer's organization may also involve a Transfer of Servicing. If the change will result in a Transfer of Servicing as defined in the Glossary, the Seller/Servicer must comply with the notification requirements in Sections 2101.12 and 2101.13, and all requirements for Subsequent Transfers of Servicing in Chapter 7101, including the requirement that the request for approval of the transfer be submitted to Freddie Mac at least 45 Business Days prior to the requested Effective Date of Transfer.

If a proposed transfer of assets includes a Transfer of Servicing, the request for approval of the proposed Transfer of Servicing should be submitted along with the application to become a Seller/Servicer, but no later than 45 Business Days prior to the Effective Date of the Transfer.

If a Transfer of Servicing will result from an organizational or status change, the request for approval of Transfer of Servicing must be submitted 45 Business Days prior to the requested Effective Date of Transfer even though the notification of the organizational change is not required until after the change has occurred.

Chapter 2201: Additional Documentation Requirements

2201.1: Seller/Servicer Certificate of Incumbency requirements (06/08/22)

(a) As to Seller/Servicers

Each Seller, Servicer and Seller/Servicer (hereafter in this section, each a “Seller/Servicer”) must provide Freddie Mac with a certificate of incumbency (“Certificate of Incumbency” or “COI”) as follows: (i) Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, (ii) Form 988SF – HFA, Certificate of Incumbency for Housing Finance Agency, or (iii) Form 989SF, Certificate of Incumbency for Limited Partnerships, together with a resolution (“Resolution”) of the Seller/Servicer’s board of directors, board of members, sole member, general partner or other governing body (“Governing Body”) that empowers and authorizes certain employees to, individually and singularly, provide Freddie Mac with instructions (or modified instructions) to transfer funds or securities by wire transfer, Automated Clearing House (ACH) or other funds transfer system expressly approved and designated by Freddie Mac in connection with the sale of Mortgages to and/or Servicing of Mortgages for Freddie Mac (such instructions or modified instructions, “Wire Transfer Instructions”).

A certified copy of the Seller/Servicer’s Resolution, in the form provided electronically to the Seller/Servicer by Freddie Mac unless applicable law requires otherwise, must be attached to the executed COI as Exhibit A. For each duly authorized employee (“Authorized Employee”), the COI must contain either such Authorized Employee’s original pen and ink signature or an Electronic copy or representation of the original pen and ink signature.

The COI, Resolution, and any other required documents or forms must be delivered to Freddie Mac either as: (i) paper Records, as defined in Section 1401.2, signed by the Seller/Servicer’s Secretary, Assistant Secretary or in-house counsel (a “Signatory”) using a pen and ink, or (ii) Electronic Records, as defined in Section 1401.2, using a Portable Document Format (PDF) with a copy or representation of the pen and ink signature of the Seller/Servicer’s Signatory attached thereto or logically associated therewith as an Electronic Signature, as defined in Section 1401.2. The Seller/Servicer agrees that delivery of these documents as Electronic Records to Freddie Mac, with the Electronic Signature of the Seller/Servicer’s Signatory attached thereto or logically associated therewith is as valid, effective and enforceable as the Seller/Servicer’s delivery of an original paper Record of such documents signed using a pen and ink. Freddie Mac and the Seller/Servicer agree that delivery of Electronic Records with Electronic Signatures is an Eligible Electronic Transaction, as defined in Section 1401.2 and governed by Chapter 1401. Any such Electronic Record must be a PDF attached to an e-mail and delivered to Freddie Mac at: counterparty_authorization@freddiemac.com.

By executing the COI and delivering it and the Resolution to Freddie Mac, the Seller/Servicer represents and warrants to, and covenants with, Freddie Mac that:

- Each person listed under paragraph numbered 2 of the COI is the Seller/Servicer's employee who has been (and continues to be) duly authorized by the Seller/Servicer's Governing Body as an Authorized Employee, who is individually and singularly empowered to provide Freddie Mac with Wire Transfer Instructions
- Each Authorized Employee (a) holds the position or title as an employee of the Seller/Servicer that is set forth directly across from the employee's name and (b) is duly authorized individually and singularly to:
 - Execute any and all paper Records or Electronic Records, instruments, documents or forms that are necessary or proper or required by Freddie Mac to effectuate the authority set forth in paragraph numbered 1 of the COI, by having the Authorized Employee either sign paper Records with a pen and ink or electronically sign Electronic Records by attaching or logically associating a copy or representation of the Authorized Employee's pen and ink signature as the Authorized Employee's Electronic Signature and
 - Deliver the duly executed paper Record or Electronic Record
- The specimen signature set forth directly across from each Authorized Employee's name and position or title is the true and genuine original pen and ink signature or Electronic Signature of each such Authorized Employee, and Freddie Mac may conclusively rely on the accuracy, genuineness, good faith, validity, effectiveness and enforceability of any paper Record or Electronic Record provided to Freddie Mac bearing an Authorized Employee's signature
- Each Authorized Employee is duly authorized to engage in and conduct Electronic Transactions, as defined in Chapter 1401, to provide Freddie Mac with Wire Transfer Instructions, and the Seller/Servicer consents to such Electronic Transactions
- Each COI is a Purchase Document and all capitalized terms used in such forms that are not defined therein, shall have the meanings ascribed to such terms in the Guide
- The information set forth in any COI delivered to Freddie Mac is true and correct and Freddie Mac may conclusively rely upon the information in the COI and any addendum, Resolution, paper Record or Electronic Record attached to (or associated with) the COI that is delivered to Freddie Mac, until the Seller/Servicer delivers a new COI to Freddie Mac that is reviewed and accepted by Freddie Mac

Freddie Mac reserves the right to verify or authenticate any Seller/Servicer request for a change, and the Seller/Servicer may not consider Freddie Mac's failure to do so an act of negligence.

In an urgent situation, the Seller/Servicer may request Freddie Mac to remove the name of an employee who is listed as an Authorized Employee from the Seller/Servicer's COI by sending an e-mail or facsimile transmission with a copy of (i) a cover letter signed by a Signatory directing Freddie Mac to remove an Authorized Employee's name and position or title from the list of Authorized Employees, and (ii) a copy of the Seller/Servicer's most recent COI provided to Freddie Mac with the Authorized Employee's name struck through (lined-out) (**see Directory 8**). The Seller/Servicer should promptly deliver a new COI together with any new Wire Transfer Instructions, if necessary. Freddie Mac will make every effort to act promptly on such urgent requests to remove the name and position or title of such Authorized Employee, but cannot guarantee that it will be able to prevent wire transfers of funds or securities made in accordance with Wire Transfer Instructions previously provided to Freddie Mac by such Authorized Employee.

Any Wire Transfer Instructions provided by an Authorized Employee on the Seller/Servicer's behalf remain in effect and are valid until modified by such Authorized Employee or another Authorized Employee. The Seller/Servicer is solely responsible for any and all Wire Transfer Instructions. If the Seller/Servicer has requested that Freddie Mac remove an Authorized Employee from its COI, the Seller/Servicer should review all existing Wire Transfer Instructions to determine if any other changes are necessary.

If a Seller/Servicer has requested that Freddie Mac remove the sole Authorized Employee assigned to the Loan Selling Advisor® user role of Setup Manager from the Seller/Servicer's COI, the Seller/Servicer must concurrently assign the role of Setup Manager to another Authorized Employee on the Seller/Servicer's COI. In addition, if the Seller/Servicer has requested that Freddie Mac remove from the Seller/Servicer's COI the Authorized Employee(s) who executed the most recently delivered Form 483, Wire Transfer Instructions, Form 987E, Wire Transfer Authorization for a Cash Warehouse Delivery, Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) for Seller/Servicers or Form 1132A, Authorization for Automatic Transfer of Funds from Principal and Interest Custodial Account through the Automated Clearing House (ACH), the Seller/Servicer must submit new Forms 483, 987E, 1132, and/or 1132A, as applicable, signed by an Authorized Employee on the Seller COI.

Refer to Section 2201.2 for delivery instructions for Form 483, Section 2405.1 for delivery instructions for Form 1132 (for Servicers), Section 6303.2 for delivery instructions for Form 1132 (for Sellers), Section 6305.3 for delivery instructions for Form 987E and Section 8303.3 for delivery instructions for Form 1132A.

A new Seller/Servicer will not be given access to Loan Selling Advisor until Freddie Mac has accepted the Seller/Servicer's COI and all other required forms and documents. A Servicer will not receive expense reimbursements and incentive payments via ACH credit entries into their commercial accounts until Freddie Mac has accepted the Servicer's COI and all other required forms and documents, including Form 1132.

Each Seller/Servicer must renew and update its COI every two years and its Resolution every four years, and determine if such renewal requires new or modified Wire Transfer

Instructions. Freddie Mac will notify the Seller/Servicer of the renewal approximately 120 days before the renewal due date. The Seller/Servicer remains responsible for timely renewal even if Freddie Mac does not provide notification.

If a Seller/Servicer fails to deliver an acceptable COI by the due date specified by Freddie Mac, Freddie Mac has the right, in its sole discretion, to do the following until a renewal COI has been accepted by Freddie Mac and any other Freddie Mac requirements have been met:

- Disable the Seller/Servicer's access to Loan Selling Advisor and/or cancel or postpone any pending Settlement Date or Funding Date
- For a Servicer, cancel or postpone receipt of expense reimbursements and incentive payments via ACH credit entries

The Seller/Servicer shall indemnify and hold Freddie Mac, its directors, officers, employees, successors, assigns and fiscal and transfer agents harmless from and against the consequences of any such cancellation or postponement by Freddie Mac, as set forth in Section 6301.8.

(b) As to Related Third Parties

Each Seller/Servicer shall require each of its Related Third Parties that are to be paid by Freddie Mac to sign and complete Form 99V, Certificate of Incumbency for Vendors, prior to submitting any requests for expense reimbursements or other payment.

Before a Related Third Party may begin receiving expense reimbursements and incentive payments, the Related Third Party must have completed Form 99V and met the process requirements herein. Freddie Mac must have accepted the Related Third Party's COI and all other required forms and documents before Related Third Party may receive reimbursement.

To receive expense reimbursement and incentive payments, Related Third Parties must authorize Freddie Mac to make such payments and receive debits, via Wire Instructions or ACH into their commercial checking accounts. Vendors must complete Form 98, Authorization for the Automatic Transfer of Funds for Vendors, and submit the form to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a PDF (or other Electronic Record format commonly used in the Mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) attached to an e-mail and delivered to Freddie Mac at the following e-mail address:
counterparty_authorization@freddiemac.com.

2201.2: Establishing and maintaining wire transfer instructions for cash proceeds (12/09/20)

In order to make timely and accurate wire transfers of cash proceeds for the purchase of Mortgages, Freddie Mac maintains a centralized database containing individual wire instructions as provided by the Seller on Form 483, Wire Transfer Authorization. This file is maintained and controlled in the Freddie Mac office in McLean, Virginia.

Freddie Mac will not wire transfer any cash proceeds for the purchase of Mortgages unless and until the Seller has submitted to Freddie Mac a Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable, that lists “Authorized Employees” who are authorized and empowered to provide Freddie Mac with instructions (or modified instructions) to transfer funds (cash or securities) by wire transfer on the Seller’s behalf in connection with the sale of Mortgages to Freddie Mac. See Section 2201.1 for additional information regarding certificate of incumbency (“Certificate of Incumbency” or “COI”) requirements.

Freddie Mac accepts wire transfer instructions only if submitted to Freddie Mac on Form 483 signed by an authorized officer of the Seller who is designated as an Authorized Employee (as defined in Section 2201.1) on the Seller’s COI. The officer’s signature on Form 483 must be acknowledged by a notary public. (Wire transfer instructions will not be accepted by telephone.)

Any questions concerning Certificate(s) of Incumbency or wire transfer instructions may be directed to Freddie Mac (**see Directory 8**).

Form 483 is the Seller’s legal authorization to allow Freddie Mac to wire transfer funds to a designated bank. Settlements cannot be made if wire transfer instructions are not on file with Freddie Mac. The Seller must ensure that the wire transfer instructions on file at the time of Mortgage delivery are complete and correct. Once instructions are on file, all future settlements will be transferred according to the same instructions, unless the instructions are changed in accordance with the Guide. The Seller can change the wire transfer instructions only by submitting a new, executed and authorized Form 483 to Freddie Mac. At least five Business Days are required by Freddie Mac to process a change. Wire transfer instructions given in connection with the payment of Purchase Proceeds to a Warehouse Lender for Pledged Mortgages must comply with Chapter 6305.

To use multiple wire transfer instructions, the Seller must complete and execute a new Form 483 for each set of wire transfer instructions. In each instance, the Form 483, executed by an Authorized Employee on the Seller’s most recently accepted COI, must be submitted to Freddie Mac at the address on the form.

The Seller agrees to indemnify, defend and hold Freddie Mac, its successors, assigns and transfer agents harmless from and against any and all losses, claims, demands, actions, suits, damages,

costs and expenses (including reasonable attorney fees) of every nature and character that may arise or be made against or be incurred by Freddie Mac as a result of any of the following:

- The Seller's failure to provide a COI that lists Authorized Employees authorized and empowered to provide Freddie Mac with instructions (or modified instructions) to transfer funds (cash or securities) by wire transfer on the Seller's behalf in connection with the sale of Mortgages to Freddie Mac
- The Seller's failure to provide Freddie Mac with a resolution of the board of directors or other governing body resolution that authorizes and empowers the employees identified by the Seller as Authorized Employees in the COI
- Freddie Mac's transfer of any cash proceeds in connection with the sale of Mortgages to Freddie Mac in accordance with the Purchase Documents and Seller's wire transfer instructions on Form 483 and the Seller's listing and designation of Authorized Employees on the Seller's COI
- The Seller's failure to provide complete, accurate and authorized wire transfer instructions
- The Seller's failure to promptly notify Freddie Mac of any necessary or desired changes to the authorized wire transfer instructions
- Security interests, claims or encumbrances of any third party, including a Warehouse Lender, if any

The Seller will deliver or transmit a completed Form 483 to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and submit as either:

- An attachment to an email and delivered to Freddie Mac at cashcollections@freddiemac.com, or
- An upload through the Freddie Mac eBill system

By delivering or transmitting to Freddie Mac a properly completed Electronic Form 483 with a copy or representation of the Seller's Authorized Employee's handwritten signature as an Electronic Signature (as defined in Section 1401.2) attached to, logically associated with or contained on such Electronic Form 483, the Seller:

- Consents to conduct Electronic Transactions (as defined in Section 1401.2) with Freddie Mac using fax copies of Records, Electronic Records and/or Electronic Signatures in connection with the delivery of an Electronic Form 483

- Adopts as its Electronic Signature the Electronic Signature of its Authorized Employee as it appears on the Electronic Form 483
- Agrees that its Authorized Employee intended to sign the Form 483 with the authority and intent to bind the Seller to the terms and conditions contained therein

Chapter 2202: Document Custodian and Document Custody

2202.1: Document Custodian (10/05/22)

For each Seller/Servicer number, the Seller/Servicer must contract with at least one Document Custodian, which may be a Designated Custodian or another approved Document Custodian chosen by the Seller/Servicer, on the Tri-Party Agreement, in accordance with the requirements of Sections 2202.2 and 2202.3.

Seller/Servicers may enter into Tri-Party Agreements with up to 10 Document Custodians per Seller/Servicer number. Compensation for each Document Custodian's services is the sole responsibility of the Seller/Servicer.

For requirements related to eMortgages, refer to Chapter 1402.

2202.2: Document Custodian eligibility (04/12/23)

(a) General requirements

The Seller/Servicer must choose a Document Custodian that will:

- Enter into a Tri-Party Agreement with the Seller/Servicer and Freddie Mac (see Section 2202.3)
- Meet and maintain all applicable eligibility requirements of this section
- Comply with:
 - All Guide requirements pertaining to Notes and assignments held for Freddie Mac including, but not limited to, Sections 4101.9 and 7101.9 and other requirements for Notes, assignments and related documents. If the requirements are amended in the Guide, then the Tri-Party Agreement will be deemed amended as necessary to conform with such amended requirements.
 - All terms of the Tri-Party Agreement
 - Any other requirements which Freddie Mac may specify to ensure the safety and security or enforceability of the Notes and assignments held by the Document Custodian

- Such standards, including custodial performance, and such fiduciary responsibilities as may be prescribed by Freddie Mac, in its discretion, from time-to-time
- Notify Freddie Mac and the Seller/Servicer if, at any time, it fails to meet any applicable eligibility requirement

The Seller/Servicer must have its own oversight process to monitor its Document Custodian(s) to ensure they remain in good standing and meet Freddie Mac eligibility requirements. The Seller/Servicer will notify Freddie Mac within one Business Day at Institutional_Eligibility@FreddieMac.com, if at any time, the Document Custodian fails to meet any applicable eligibility requirement.

Freddie Mac is not approving new Document Custodians until further notice. The eligibility requirements stated in this chapter and elsewhere in the Guide are requirements for continuing eligibility as a Freddie Mac Document Custodian. This does not limit the ability of Freddie Mac approved Document Custodians to obtain Freddie Mac approval to provide eNote custody. (See Section 1402.18 regarding eNote custodian requirements.)

(b) Basic eligibility requirements

An eligible Document Custodian must:

1. Be:
 - A financial institution that is supervised and regulated by the Federal Deposit Insurance Corporation (FDIC), Board of Governors of the Federal Reserve System, or the Office of the Comptroller of the Currency (OCC)
 - A subsidiary of a supervised and regulated financial institution listed above, authorized to perform trust services under applicable law, or
 - A Federal Home Loan Bank chartered pursuant to the Federal Home Loan Bank Act
2. Not be in receivership, conservatorship or liquidation, and may not be a subsidiary of a, federally-regulated parent that is in receivership, conservatorship or liquidation
3. Maintain an acceptable risk threshold based upon Freddie Mac's confidential tolerance standards calculated using various key metrics or have an Acceptable Net Worth of at least \$500,000,000 if it is one of the following:
 - An entity applying to be a Document Custodian
 - A Document Custodian with existing custodial relationship(s) or entering into new custodial relationships with Freddie Mac Seller/Servicers

Servicers and Document Custodians will be notified if a Document Custodian is below the acceptable risk threshold **and** does not have an Acceptable Net Worth of at least \$500,000,000.

4. Be equipped with secure, fire-resistant storage facilities with adequate controls on access to ensure the safety and security of the Notes and assignments in its custody. The vault must provide a minimum of two hours fire protection, and the fireproof certificate must be renewed annually; however, if a Document Custodian's regulator requires a higher standard of fire protection, then that higher standard shall apply.
5. Maintain the Notes and assignments in such a manner as to ensure security and confidentiality and to prohibit unauthorized access to or use of information contained in the Notes and assignments
6. Use employees who are knowledgeable in the handling of Notes and assignments and of the functions and duties of a Document Custodian as required by Freddie Mac, including access to and use of Loan Selling Advisor®. (See Section 2403.11 for information on obtaining Loan Selling Advisor access and user roles.)
7. Access the electronic version of the Guide through the link on <https://sf.freddiemac.com/tools-learning/sellerservicer-guide/overview> or arrange for a current subscription to the electronic Guide via AllRegs®
8. Maintain the following insurance coverages, at a minimum:
 - Financial institution bond, or equivalent insurance, covering any loss resulting from:
 - Employee dishonesty
 - Physical damage or destruction to, or loss of, any Notes and assignments while such documents are located on the Document Custodian's premises
 - Physical damage or destruction to, or loss of, any Notes and assignments while such documents are in transit between the Document Custodian's premises and any destination, regardless of the means by which they are transported, if the Document Custodian has contractually agreed with the Seller/Servicer to assume liability for Notes and assignments while in transit. (See Section 2202.5(c) for Seller/Servicer insurance requirements if the parties have not so agreed).
 - Errors and omissions insurance covering claims resulting from the Document Custodian's breach of duty, neglect, errors or omissions, misstatements, misleading statements or other wrongful acts committed in the conduct of its services

For the purpose of these insurance coverages, the Notes are to be defined as "Negotiable Instruments" per Section 3-104 of the Uniform Commercial Code (UCC).

Freddie Mac's insurance requirements as stated above do not diminish, restrict or otherwise limit the Document Custodian's responsibilities and obligations as stated in any Tri-Party Agreement.

The required insurance coverages must:

- Be underwritten by an insurer that has an A- (A minus) or better rating according to the A.M. Best Company
- Be maintained in amounts that are deemed adequate for the number of Notes held in custody and appropriate based on prudent business practice
- Each have a deductible amount of no more than the greater of 5% of the Document Custodian's generally accepted accounting principles (GAAP) net worth or \$100,000, but in no case be more than \$10,000,000

A Document Custodian may be covered under its parent's insurance program rather than maintaining its own insurance only if:

- The acceptable deductible amount for each insurance coverage does not exceed the greater of 5% of the parent's GAAP net worth or \$100,000, but in no case be more than \$10,000,000
- The Document Custodian is a named insured
- The parent's insurance policy(ies) meets the insurance requirements for Document Custodians as stated in this section

In the event of cancelation or non-renewal of any of the required insurance coverages, the Document Custodian or its insurer, insurance broker or agent must provide the Seller/Servicer and Freddie Mac's Counterparty Credit Risk Management Department (see **Directory 1**) 30 days advance written notice thereof.

9. Have and maintain a document tracking and reporting system that, at minimum:

- Provides, in an electronic format acceptable to Freddie Mac, an accounting of all Notes held for Freddie Mac identified by Freddie Mac loan number and the six-digit Seller/Servicer number
- Monitors the receipt of Notes and assignments, including related or trailing documentation (for example, modifying instruments or powers of attorney)
- Monitors the release of Notes and assignments
- Tracks the physical location of Notes and related documents

- Cross references the Freddie Mac loan number for each Mortgage with the loan number assigned by the Seller/Servicer
- Accurately accounts for documents transferred or released

The Document Custodian must provide screen prints of its document tracking system to Freddie Mac with its request for initial approval, annually as part of its eligibility certification, and upon Freddie Mac's request.

10. Have and maintain a disaster recovery plan that documents, at a minimum:

- The process by which the physical recovery/restoration of documents will occur
- The recovery of tracking system data, including any electronically maintained information
- The relocation/restoration of the facilities to ensure continuing ability to perform required custodial functions
- Provisions for the testing and maintenance of the plan
- A provision to notify Freddie Mac (**see Directory 9**) of a disaster within 24 hours of the disaster according to the requirement in Section 8107.2(a)

11. Have and implement written procedures that ensure compliance with Freddie Mac requirements and prudent practices in performing the duties of a Document Custodian with respect to the Notes and associated documents, including, at minimum:

- Certification and maintenance
- Release and transfer
- Access
- Tracking and reporting

(c) Eligibility requirements for the Seller/Servicer acting as its own Document Custodian

Subject to Freddie Mac's approval and in Freddie Mac's sole discretion, the Seller/Servicer may act as its own Document Custodian if it satisfies all requirements in Sections 2202.2(a) and 2202.2(b) and if the Notes and assignments for Mortgages serviced for Freddie Mac in its custody are entrusted to a department that:

- Is established and operated under trust powers granted by the Seller/Servicer's primary regulator

- Has custodial officers who are duly authorized to act on behalf of the Document Custodian in its trust capacity and empowered to enter into a Tri-Party Agreement with the Seller/Servicer and Freddie Mac
- Is subject to periodic review, examination and inspection by the regulator granting trust powers
- Is independently and separately managed from any functional area that performs Mortgage origination, selling or Servicing
- Maintains separate records, files and operations
- Uses personnel not engaged in the functions of Mortgage origination, selling or Servicing to perform the custodial function

(d) Eligibility requirements for a third-party Document Custodian that is not an affiliate of the Seller/Servicer

An institution that is not an affiliate of the Seller/Servicer may act as a Document Custodian if:

- It meets all requirements in Sections 2202.2(a) and 2202.2(b)
- Within the institution, the document custodial function:
 - Is independently and separately managed from any functional area that performs Mortgage origination, selling or Servicing
 - Maintains separate records, files and operations
 - Is performed by personnel not engaged in the functions of Mortgage origination, selling or Servicing

(e) Eligibility requirements for a third-party Document Custodian that is an affiliate of the Seller/Servicer

Subject to Freddie Mac's approval and in Freddie Mac's sole discretion, a third-party that is an affiliate of the Seller/Servicer may act as a Document Custodian if:

- It meets all the requirements in Sections 2202.2(a) and 2202.2(b)
- It is independently and separately managed from the Seller/Servicer. The third-party Document Custodian may occupy the same premises as the Seller/Servicer, as long as the Seller/Servicer is not involved in the management or operations of the third-party custodian.

- Within the institution, the document custodial function:
 - Is independently and separately managed from any functional area that performs Mortgage origination, selling or Servicing
 - Maintains separate records, files and operations
 - Is performed by personnel not engaged in the functions of Mortgage origination, selling or Servicing

(f) Additional eligibility requirements for a Document Custodian that is an affiliate of a Warehouse Lender

Freddie Mac recognizes that there may be instances where, for operational efficiency, the document custodial function shares personnel with the institution's warehouse lending function. This sharing of personnel will be allowed only when the document custodial function has:

- A separate tracking and reporting system that provides a clear distinction between Freddie Mac's assets and the collateral held for the Warehouse Lender
- Separate record keeping from other functional areas, including warehouse lending
- Operating controls that provide a clear distinction between:
 - Activities that an employee performs for the benefit of the Warehouse Lender and activities performed for Freddie Mac
 - Management decisions that apply to collateral held as security for the warehouse line and those that apply to Notes that are held in trust for the sole benefit of Freddie Mac

2202.3: Contracting with a Document Custodian (04/12/23)

(a) Contracting with a Document Custodian other than a Designated Custodian

Before delivering any Notes and assignments to a Document Custodian other than a Designated Custodian, a paper version of Form 1035, Document Custodial Agreement: Single-Family Mortgages, executed by the Seller/Servicer and the Document Custodian must be delivered to and approved by Freddie Mac (see **Directory 1**). Form 1035 is the Tri-Party Agreement among Freddie Mac, a Document Custodian and a Seller/Servicer governing the verification and custody of all Notes and assignments for Mortgages delivered for sale to or serviced for Freddie Mac by a Seller/Servicer. Additional application requirements to

become a Freddie Mac approved Document Custodian may be obtained from Freddie Mac (see **Directory 1**).

After reviewing the Document Custodian application and any other required documentation, if Freddie Mac determines that the applicant meets the eligibility requirements, Freddie Mac will assign a Document Custodian number to the Document Custodian and assign a Tri-Party Agreement number to identify that relationship.

Freddie Mac will:

- Execute the Form 1035
- Provide the Seller/Servicer and the Document Custodian each with a copy of the fully executed Form 1035, and
- Inform the respective parties of the Document Custodian number and the Document Custodial agreement number

Freddie Mac will maintain the original fully executed Form 1035.

The Document Custodian will be assigned only one Document Custodian number for all Seller/Servicer relationships approved at that location. It must, however, complete a separate application, including a Form 1035 executed by the Seller/Servicer and the Document Custodian, for each Seller/Servicer that wishes to use its custodial services. A Document Custodian with an assigned Document Custodian number must insert the number in the appropriate space on the Form 1035.

Seller/Servicers may not make a delivery pursuant to Section 6301.8 until Freddie Mac has executed the Form 1035 and provided written confirmation of the approval and its effective date.

For Document Custodians other than the Designated Custodians, Freddie Mac relies on the representations and warranties of the Seller/Servicer in Form 1035 that the Document Custodian satisfies the eligibility requirements of Section 2202.2. Freddie Mac and/or its auditors may perform, with or without prior notice, on-site audits of all records and documents held by the Document Custodian that relate to the Notes and assignments held for Freddie Mac. Freddie Mac also reserves the right to perform on-site audits at any time to evaluate the Document Custodian's compliance with Freddie Mac requirements and to assess its internal controls. Freddie Mac's execution of Form 1035 will not be deemed to be an approval of the Document Custodian or a waiver of any rights to enforce the eligibility conditions.

(b) Contracting with a Designated Custodian

Servicers may use a Freddie Mac Designated Custodian to hold the Notes for Mortgages they service for Freddie Mac, except as set forth in Sections 2202.3(c) and (d).

To establish a custodial relationship with a Designated Custodian, the Seller/Servicer must complete:

- A Tri-Party Agreement on Form 1035DC for BNYM or Form 1035CS for Computershare Trust Company, N.A. (“Computershare”), and
- All other forms required by, and available from, the Designated Custodian (**see Directory 4**).

Note that Form 1035DC and Form 1035CS differ from Form 1035.

Freddie Mac has assigned each Designated Custodian a Document Custodian number to insert on the application package and in the Tri-Party Agreement. Freddie Mac will review each application and, if approved, will notify the Seller/Servicer of the effective date of the related Tri-Party Agreement.

Questions about the Designated Custodians and Form 1035DC or Form 1035CS should be directed to Freddie Mac (**see Directory 1**).

Questions about BNYMs Designated Custodian Registration Forms or Computershare’s customer forms should be directed to the appropriate entity (**see Directory 4**).

(c) Special requirements – Mortgages sold through Cash-Released XChange

For Mortgages other than eMortgages, Sellers selling Mortgages to Freddie Mac through Cash-Released XChange, and Servicers participating in that process, must use a Document Custodian set forth in Exhibit 43. If the Document Custodian used by the Seller/Servicer is a Designated Custodian, the requirements in Section 2202.3(b) apply; in all other cases, the Seller/Servicer should refer to the requirements in Section 2202.3(a).

For deliveries and Transfers of Servicing of eMortgages sold through Cash-Released XChange, Seller/Servicers must use Freddie Mac as the eNote Custodian (**see Directory 4** and Chapter 1402).

(d) Special requirements for eMortgages

Seller/Servicers selling or Servicing eMortgages must comply with the document custody requirements of Chapter 1402 and the Seller’s other Purchase Documents.

(e) Terminating the document custodial relationship

Any party may terminate a Tri-Party Agreement as set forth in Section 2202.6. The Document Custodian must transfer all Notes and assignments for Mortgages held pursuant to the agreement being terminated to a Transferee Document Custodian as described in Sections 2202.6 and 7101.9. The Document Custodian may not refuse, or fail to fulfill, its custodial

responsibilities or obligations under the Tri-Party Agreement being terminated until all Notes and assignments have been received by the Transferee Document Custodian.

2202.4: Document Custodian duties to Freddie Mac (05/04/20)

Document Custodian covenants to Freddie Mac that it will:

1. Maintain physical custody of all Mortgage documents delivered to it, such as original paper Notes, addendums, riders, assignments, powers of attorney and modification agreements, and, for Cooperative Share Loans, the documents listed in Section 6304.2(b); such documents include any copies provided to the Document Custodian, in trust for the benefit of Freddie Mac. For example:
 - For an original executed paper document (other than a Note) that has been electronically recorded, the Seller/Servicer must deliver the original executed paper document and a paper copy of such electronically recorded document (showing its recordation information), and the Document Custodian will maintain such original executed paper document and such paper copy of the electronically recorded original paper document
 - For an electronically created document (other than a Note) that has been electronically recorded, the Seller/Servicer must deliver a paper copy of such electronically recorded document (containing its recordation information), and the Document Custodian will maintain such paper copy of the electronically recorded Electronic (as defined in Section 1401.2) document; and
 - For an electronically created document (other than a Note) that is not required by State law to be recorded, the Seller/Servicer must deliver a paper copy of the unrecorded electronically created document, certified by the Seller/Servicer as a true and correct copy, and the Document Custodian will maintain such certified paper copy of the document

Note: Seller/Servicer delivery requirements pertaining to Electronic recording of closing and post-closing documents are found in Sections 1401.14 and 1401.15.

2. Make available for review by Freddie Mac or its designee, at any time during normal business hours, with or without prior notice, Notes and assignments and the facilities in which they are stored, maintenance and release procedures, and control and tracking systems, and other evidence of compliance with eligibility requirements as requested
3. Make the custodial staff available for interview by Freddie Mac or its designee at any time during normal business hours, with or without prior notice, for an assessment of the staff's familiarity with and adherence to Freddie Mac's custodial requirements and the Document Custodian's internal controls

4. Indemnify Freddie Mac for such losses as may occur as a result of any negligence by the Document Custodian in the performance of its duties under the Guide and the Tri-Party Agreement pertaining to Freddie Mac Notes and assignments in the custody of the Document Custodian
5. Maintain physical custody of the Note and assignments, in trust, for the benefit of the Seller/Servicer in circumstances when the Document Custodian receives a completed and signed Form 1036 from the Seller/Servicer requesting constructive possession
6. Provide, in an electronic format acceptable to Freddie Mac, an accounting of all Notes and assignments, as described in Section 2202.2(b)(9), that the Document Custodian has in its physical custody: (i) in trust for the benefit of Freddie Mac or (ii) in trust for the benefit of the Seller/Servicer when the Seller/Servicer has constructive possession of the Notes
7. Consent and agree to conduct Electronic Transactions, as defined in Chapter 1401, with the Seller/Servicer and Freddie Mac in connection with its functions, duties and obligations under this section and Form 1035
8. Adopt, as its signature and its Electronic Signature, as defined in Chapter 1401, its Freddie Mac Document Custodian number and comply with the applicable requirements of Chapter 1401 as if each reference to the word “Seller/Servicer” were a reference to the words “Document Custodian” and/or “Designated Custodian,” as applicable

Freddie Mac may, at any time, and in its sole discretion, require a Document Custodian to segregate the Notes and assignments that it maintains, in trust, for the benefit of Freddie Mac from those it maintains for other investors.

The Document Custodian may not enter into any understanding, agreement, or relationship with any party by which any such party would obtain, retain or claim any interest (including an ownership or security interest) in the Notes and any assignments or the underlying Mortgages, unless otherwise specifically and expressly approved by Freddie Mac in writing.

If the Document Custodian’s facilities are affected by a disaster, the Document Custodian must promptly notify Freddie Mac (**see Directory 9**), but such notification shall occur no later than 24 hours after the discovery of such disaster, time being of the essence.

2202.5: Seller/Servicer and the Document Custodian (11/01/20)

(a) Responsibility for documents and Document Custodian compliance

The Seller/Servicer agrees to indemnify Freddie Mac and hold Freddie Mac harmless for any loss, damage or expense (including court costs and reasonable attorney fees) that Freddie

Mac may incur as a result of the Seller/Servicer's Document Custodian holding Notes and any other documents. The Servicer is responsible at all times for the original Note. If a Note is lost or destroyed, the Servicer must follow the procedures set forth in Section 8107.1(d).

Except with respect to the Designated Custodians, the Seller/Servicer is responsible for verifying that its Document Custodian complies with all applicable Freddie Mac requirements regarding Note custody. Freddie Mac's Document Custody Procedures Handbook is located and available to Seller/Servicers and Document Custodians on the Internet at AllRegs.com, or at <https://sf.freddiemac.com/working-with-us/selling-delivery/delivery-options-pricing/document-custody>. Seller/Servicers and Document Custodians will find this handbook to be a useful resource in fulfilling these requirements.

(b) Monitoring the eligibility status of the Document Custodian

The Seller/Servicer is responsible for monitoring its Document Custodian for compliance with Freddie Mac's Document Custodian eligibility requirements and must ensure that the Document Custodian complies with all eligibility requirements at all times, with the exception of (i) the Designated Custodians and (ii) certification and verification services performed outside of the United States by Document Custodians. Freddie Mac will monitor the Designated Custodians and any activities of Document Custodians that Freddie Mac has contractually authorized to be conducted overseas.

If, at any time, the Document Custodian (including a Designated Custodian) fails to comply with any eligibility requirement or violates a provision of the Guide or Tri-Party Agreement, the Seller/Servicer must contact Freddie Mac (**see Directory 1**) in writing within one day of the Seller/Servicer learning of the noncompliance. Freddie Mac, at its discretion, may allow the Seller/Servicer a period of time to work with its Document Custodian to ensure that the Document Custodian takes all necessary steps to meet the requirements. However, Freddie Mac reserves the right to immediately terminate a Tri-Party Agreement. Further, Freddie Mac may direct the Seller/Servicer to transfer the Notes to a Designated Custodian or a new Document Custodian pursuant to Sections 2202.1 through 2202.3, and transfer all Notes and assignments for Mortgages serviced for Freddie Mac from the old Document Custodian to the new Document Custodian, pursuant to Section 2202.6(a).

(c) Transit insurance requirements

Unless the Servicer has agreed with the Document Custodian in writing for the Document Custodian to assume liability for Notes and assignments while in transit, the Servicer must obtain insurance covering physical damage or destruction to, or loss of, any Notes and assignments while such documents are in transit between the Document Custodian's vault and anywhere, regardless of the means by which they are transported. For the purpose of this insurance, Mortgage Notes are to be referred to as "Negotiable Instruments" as that term is defined in Section 3-104 of the model Uniform Commercial Code (UCC), promulgated by the National Conference of Commissioners on Uniform State Laws, and enacted in the applicable State.

At a minimum, the required insurance coverage must:

- Be underwritten by an insurer that has an A- (A minus) or better rating according to the A.M. Best Company
- Be maintained in amounts that are deemed adequate for the number of Notes and assignments held in custody and that are deemed appropriate based on prudent business practice
- Each have a deductible amount no more than the greater of 5% of the Seller/Servicer's GAAP net worth or \$100,000, but in no case greater than \$10,000,000
- Not exclude from coverage Negotiable Instruments that are, under Article 3 of the Uniform Commercial Code, bearer paper (e.g., Notes with blank endorsements) with an endorsement that does not identify a payee

If a Servicer is covered under its parent's insurance program rather than by its own insurance:

- The acceptable deductible amount for each insurance coverage may be no more than the greater of 5% of the parent's GAAP net worth or \$100,000, but in no case greater than \$10,000,000
- The Servicer must be a named insured
- The parent's insurance policy(ies) must meet requirements as stated in this subsection

In the event of cancelation or non-renewal of any of the required insurance coverages, the Servicer or the Servicer's insurer, insurance broker or agent must provide Freddie Mac (**see Directory 1**) a minimum of 30 days advance written notice thereof.

Freddie Mac's insurance requirements as stated in this subsection do not diminish, restrict or otherwise limit the Servicer's responsibilities and obligations as stated in the Tri-Party Agreement or otherwise in the Purchase Documents.

2202.6: Transfer of custody and terminating Tri-Party Agreements (11/01/20)

(a) Transfers and terminations initiated by Freddie Mac

Upon 30 days written notice to the Seller/Servicer and the Document Custodian and at its sole discretion, Freddie Mac may terminate a Tri-Party Agreement without cause and require the transfer of all Notes and assignments held by the Document Custodian to another Document Custodian or to a Designated Custodian (**see Directory 4**).

Freddie Mac may immediately terminate a Tri-Party Agreement upon written notice to a Seller/Servicer and the Document Custodian and require the transfer of all Notes and assignments to another Document Custodian or as directed by Freddie Mac upon the occurrence of any of the following:

- Disqualification or suspension of the Seller/Servicer pursuant to Section 2201.2
- Failure of the Document Custodian to meet Freddie Mac's eligibility requirements. (See Section 2202.2)
- Freddie Mac's determination that the Document Custodian's performance has been unsatisfactory
- Any other circumstance with respect to the Document Custodian, the Notes or assignments that might adversely affect the Notes or assignments or Freddie Mac's interests

(b) Transfers and terminations initiated by Seller/Servicers

To change Document Custodians for a group of Mortgages or to terminate a Tri-Party Agreement, the Seller/Servicer must have a new Tri-Party Agreement in place with another Document Custodian. (See Sections 2202.2 and 2202.3.) The Document Custodian must transfer custody of all Notes and assignments held pursuant to the Tri-Party Agreement being terminated to the Transferee Document Custodian within 30 days after Freddie Mac's written approval of the transfer of custody or by such other date requested by the Seller/Servicer and approved by Freddie Mac; however, Freddie Mac may require the Notes and assignments to be transferred immediately.

(c) Terminations initiated by Document Custodians

A Document Custodian may terminate a Tri-Party Agreement upon 90 days prior written notice to the Seller/Servicer and to Freddie Mac (see **Directory 1**). The Document Custodian must transfer custody of all Notes and assignments held pursuant to the Tri-Party Agreement being terminated to a new Document Custodian no later than 30 days after Freddie Mac's written approval of transfer of custody or by such other date approved by Freddie Mac; however, Freddie Mac may require the Notes and assignments to be transferred immediately.

(d) Additional responsibilities

A Document Custodian may not refuse or fail to fulfill its custodial obligations under a Tri-Party Agreement or for any Mortgage in a transfer of custody until the Notes and assignments have been transferred to the Transferee Document Custodian.

The Transferee Document Custodian must deliver Form 1034T, Subsequent Transfer Document Custodial Certification Schedule, executed by the Seller/Servicer and the Transferee Document Custodian to Freddie Mac (see **Directory 9**) no later than 180 days

after the termination date of the Tri-Party Agreement or approved Date of Transfer. By submitting Form 1034T to Freddie Mac, the Seller/Servicer and the Transferee Document Custodian represent and warrant to Freddie Mac that the information in the Form 1034T is correct and complete and that each of them shall be bound by the certifications contained in Form 1034T.

Chapter 2203: MERS® Membership

2203.1: MERS® membership (03/02/16)

(a) MERS® membership

A Seller/Servicer must comply with the requirements of the MERS Governing Documents if the Seller/Servicer is a MERS Member and sells to and/or services on behalf of Freddie Mac, as applicable, Mortgages registered on the MERS System. If any requirements of the MERS Governing Documents conflict with the requirements of the Guide, the Seller/Servicer must comply with the requirements of the Guide.

(b) Termination of MERS membership

If a Seller/Servicer's membership in MERS is terminated for any reason, the Seller/Servicer must promptly notify Freddie Mac at mers@freddiemac.com, subject line: MERS Membership Termination. For each Mortgage registered on the MERS System that will be sold to or is being serviced for Freddie Mac, the Seller/Servicer must, upon such termination, and as applicable, either (i) prepare an assignment of the Mortgage from MERS to itself, have the assignment executed, and, where required by law, record the executed assignment in the applicable public land records, or (ii) where there is a transfer of such Servicing to a Transferee Servicer, follow the Concurrent Transfer of Servicing obligations under Section 6301.6(d) depending on whether or not the Transferee Servicer is a MERS Member.

Chapter 2301: Disqualification or Suspension of a Seller/Servicer

2301.1: Disqualification or suspension of Seller's eligibility to sell (04/12/23)

Freddie Mac, in its discretion, may disqualify or suspend a Seller from eligibility to sell Mortgages to Freddie Mac. The Seller will be ineligible to obtain new purchase commitments during a period of disqualification or suspension. During the period of Seller disqualification or suspension, Freddie Mac may, at its discretion, determine whether outstanding commitments held by the Seller must be honored or the outstanding balance of the commitment fulfilled by using the pairoff procedure (see Section 6401.1). Freddie Mac will determine the length of any suspension period and may prescribe the terms and conditions for reinstatement. The notice of disqualification or suspension and the opportunity of a Seller to respond to and appeal the action are governed by the procedures in Sections 2301.3 through 2301.6.

For information regarding outstanding purchase commitments when Freddie Mac terminates the Servicing Contract and related Servicing Contract Rights with or without cause, see Section 3603.5.

2301.2: Disqualification or suspension of the Seller or the Servicer (04/12/23)

(a) Disqualification or suspension with cause

Without limiting Freddie Mac's right to take whatever other action it deems appropriate to protect its interests and enforce its rights (including disqualification or suspension for reasons not listed below), Freddie Mac may disqualify or suspend a Seller or a Servicer for any of the following reasons:

1. Impending or actual insolvency of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer
2. The filing of a voluntary petition by the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer under federal bankruptcy or State insolvency laws
3. The filing of an answer by the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, in an involuntary proceeding admitting insolvency or inability to pay debts
4. The adjudication of the Seller or Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, as bankrupt

5. The appointment of a trustee or receiver for the Seller or the Servicer or its property, or for its parent, an affiliate or subsidiary of the Seller or the Servicer or for the property of such entities
6. The execution by the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, of an assignment for the benefit of creditors
7. The failure of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, to obtain a vacation or stay of involuntary proceedings brought for its reorganization, dissolution or liquidation
8. The Seller's or the Servicer's failure to maintain qualified loan origination or Servicing staff and/or adequate facilities to assure (i) the investment quality of the Mortgages sold to Freddie Mac or (ii) the adequacy of the Servicing of Mortgages purchased by Freddie Mac
9. Any weakness or notable change in the financial or organizational status or management of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, including any adverse change in profitability or liquidity, that, in the opinion of Freddie Mac, could adversely affect Freddie Mac
10. The failure of the Seller or the Servicer to meet any requirement as may be prescribed by Freddie Mac for eligibility as a Seller or a Servicer, including, but not limited to, a Seller or Servicer's failure to maintain an Acceptable Net Worth and/or failure to meet any other financial requirements related to the Seller or Servicer's eligibility required by Freddie Mac (see Section 2101.2)
11. The placement of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, on probation or restriction of its activities, or the activities of its parent, or an affiliate or subsidiary of the Seller or the Servicer, in any manner by a federal or State government agency
12. Any judgment, order, finding or regulatory action to which the Seller or Servicer (or its management), its parent, or an affiliate or subsidiary of the Seller or the Servicer, is subject that would adversely affect the Seller's or Servicer's ability to comply with the terms and conditions of the Purchase Documents
13. Freddie Mac's determination that the Seller's or Servicer's warranty obligations are disproportionate to its capital and/or assets
14. The Seller's failure to deliver any documents under a Freddie Mac mandatory delivery purchase program
15. The Seller's or the Servicer's failure to observe or comply with any term or provision of the Purchase Documents

16. The Seller's or the Servicer's misstatement, misrepresentation or omission of any material fact on any application, certification or other document submitted, or in any oral representation made, to Freddie Mac
17. The Seller's or the Servicer's assigning or attempting to assign its interests, rights or obligations under the Purchase Documents without Freddie Mac's written consent
18. The Servicer's failure or inability to account properly for the disposition of all monies required to be safeguarded in Custodial Accounts or buydown accounts
19. Seller's or Servicer's default or failure to perform under any contract with Freddie Mac including, but not limited to, contracts not directly related to the sale or Servicing of Mortgages and contracts relating to Mortgages purchased or serviced other than pursuant to this Guide
20. The Seller's or Servicer's having a 30-, 60- or 90+-day Delinquency rate or an REO rate more than 50% higher than the average 30-, 60- or 90+-day Delinquency rate or REO rate for any or all Mortgages owned or guaranteed by Freddie Mac nationally or in the same geographical area (which may include Standard Metropolitan Statistical Area, county, or State) in which the Mortgaged Premises that secure the Mortgages either sold by the Seller or serviced by the Servicer are located and with similar Mortgage and Borrower characteristics, such as origination year, loan-to-value ratio, and documentation type (e.g., full documentation, reduced documentation)
21. The Seller/Servicer's failure to submit a complete and accurate Annual Certification Report within the time frame prescribed by Section 2101.11
22. The failure of the Seller/Servicer that is a mortgage banker to submit a complete and accurate Form 1055, Mortgage Bankers' Financial Reporting Form, within the time frame prescribed by Section 2101.5
23. The Seller/Servicer's failure to comply with the provisions of Section 3101.1 regarding the Freddie Mac Exclusionary List
24. Placement on the Exclusionary List of the Seller or Servicer, its parent, or an affiliate or subsidiary of the Seller or Servicer
25. The Seller/Servicer's failure to submit a complete and accurate Change and Activity Report within the time frame required in Section 2101.12 or 2101.13
26. Freddie Mac's determination that the Servicer's overall performance is unacceptable pursuant to Section 3501.2. Freddie Mac considers the Servicer Success Scorecard results (see Section 3501.2), together with other factors, including, but not limited to, Servicer Success File Reviews, trends in performance, adequacy of staffing, audit results, and/or

- compliance with all requirements of the Purchase Documents in evaluating whether the Servicer's overall performance is unacceptable.
- 27. The failure of the Seller to deliver a minimum volume of Mortgages (measured by dollar amount or number of Mortgages) within the time frame specified by Freddie Mac
 - 28. The Seller/Servicer's failure to maintain the confidentiality of the Exclusionary List or information contained on the Exclusionary List
 - 29. The Seller/Servicer's failure to fulfill any obligation to Freddie Mac when due including, but not limited to, the failure to repurchase a Mortgage, pay fees or other monies, and remit custodial or buydown funds
 - 30. The Seller/Servicer's failure to provide audited or Reviewed Financial Statements for its parent, subsidiaries and affiliates upon Freddie Mac request

When the Seller is also a Servicer, suspension or disqualification as a Seller is sufficient cause for suspension or disqualification as a Servicer or termination of all or a portion of the Servicing Contract and related Servicing Contract Rights with cause. Whether or not Freddie Mac terminates the Servicing Contract and related Servicing Contract Rights, any of the above events is cause for revocation of the power of attorney granted to the Servicer in accordance with Section 8101.2. When the Servicer is also a Seller, suspension or disqualification as a Servicer or termination of all or a portion of the Servicing Contract and related Servicing Contract Rights with cause under Chapter 3603 is sufficient cause for suspension or disqualification as a Seller.

(b) Disqualification or suspension without cause

Freddie Mac may disqualify or suspend a Seller or a Servicer without cause. Disqualification or suspension of a Seller or a Servicer without cause will be effective immediately upon notice of the disqualification or suspension, unless the notice specifies a later date. During the period of Seller disqualification or suspension, Freddie Mac may, at its discretion, determine whether outstanding commitments held by the Seller must be honored or the outstanding balance of the commitment fulfilled by using the pairoff procedure (see Section 6401.1). A Seller will not be entitled to a termination fee or any other compensation from Freddie Mac for any reason or cause relating to any consequential, incidental or indirect damages arising out of, or in connection with, its disqualification or suspension without cause.

Notwithstanding Sections 2301.3 through 2301.6, Freddie Mac's decision to suspend or disqualify a Seller without cause or to terminate Servicing without cause is conclusive.

2301.2: Disqualification or suspension of the Seller or the Servicer (Future effective date 09/30/23)

(a) Disqualification or suspension with cause

Without limiting Freddie Mac's right to take whatever other action it deems appropriate to protect its interests and enforce its rights (including disqualification or suspension for reasons not listed below), Freddie Mac may disqualify or suspend a Seller or a Servicer for any of the following reasons:

1. Impending or actual insolvency of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer
2. The filing of a voluntary petition by the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer under federal bankruptcy or State insolvency laws
3. The filing of an answer by the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, in an involuntary proceeding admitting insolvency or inability to pay debts
4. The adjudication of the Seller or Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, as bankrupt
5. The appointment of a trustee or receiver for the Seller or the Servicer or its property, or for its parent, an affiliate or subsidiary of the Seller or the Servicer or for the property of such entities
6. The execution by the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, of an assignment for the benefit of creditors
7. The failure of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, to obtain a vacation or stay of involuntary proceedings brought for its reorganization, dissolution or liquidation
8. The Seller's or the Servicer's failure to maintain qualified loan origination or Servicing staff and/or adequate facilities to assure (i) the investment quality of the Mortgages sold to Freddie Mac or (ii) the adequacy of the Servicing of Mortgages purchased by Freddie Mac
9. Any weakness or notable change in the financial or organizational status or management of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, including any adverse change in profitability or liquidity, that, in the opinion of Freddie Mac, could adversely affect Freddie Mac
10. The failure of the Seller or the Servicer to meet any requirement as may be prescribed by Freddie Mac for eligibility as a Seller or a Servicer, including, but not limited to, a Seller

or Servicer's failure to maintain a minimum Tangible Net Worth and/or failure to meet any other financial requirements related to the Seller or Servicer's eligibility required by Freddie Mac (see Section 2101.2)

11. The placement of the Seller or the Servicer, its parent, or an affiliate or subsidiary of the Seller or the Servicer, on probation or restriction of its activities, or the activities of its parent, or an affiliate or subsidiary of the Seller or the Servicer, in any manner by a federal or State government agency
12. Any judgment, order, finding or regulatory action to which the Seller or Servicer (or its management), its parent, or an affiliate or subsidiary of the Seller or the Servicer, is subject that would adversely affect the Seller's or Servicer's ability to comply with the terms and conditions of the Purchase Documents
13. Freddie Mac's determination that the Seller's or Servicer's warranty obligations are disproportionate to its capital and/or assets
14. The Seller's failure to deliver any documents under a Freddie Mac mandatory delivery purchase program
15. The Seller's or the Servicer's failure to observe or comply with any term or provision of the Purchase Documents
16. The Seller's or the Servicer's misstatement, misrepresentation or omission of any material fact on any application, certification or other document submitted, or in any oral representation made, to Freddie Mac
17. The Seller's or the Servicer's assigning or attempting to assign its interests, rights or obligations under the Purchase Documents without Freddie Mac's written consent
18. The Servicer's failure or inability to account properly for the disposition of all monies required to be safeguarded in Custodial Accounts or buydown accounts
19. Seller's or Servicer's default or failure to perform under any contract with Freddie Mac including, but not limited to, contracts not directly related to the sale or Servicing of Mortgages and contracts relating to Mortgages purchased or serviced other than pursuant to this Guide
20. The Seller's or Servicer's having a 30-, 60- or 90+-day Delinquency rate or an REO rate more than 50% higher than the average 30-, 60- or 90+-day Delinquency rate or REO rate for any or all Mortgages owned or guaranteed by Freddie Mac nationally or in the same geographical area (which may include Standard Metropolitan Statistical Area, county, or State) in which the Mortgaged Premises that secure the Mortgages either sold by the Seller or serviced by the Servicer are located and with similar Mortgage and Borrower characteristics, such as origination year, loan-to-value ratio, and documentation type (e.g., full documentation, reduced documentation)

21. The Seller/Servicer's failure to submit a complete and accurate Annual Certification Report within the time frame prescribed by Section 2101.11
22. The failure of the Seller/Servicer that is a mortgage banker to submit a complete and accurate Form 1055, Mortgage Bankers' Financial Reporting Form, within the time frame prescribed by Section 2101.5
23. The Seller/Servicer's failure to comply with the provisions of Section 3101.1 regarding the Freddie Mac Exclusionary List
24. Placement on the Exclusionary List of the Seller or Servicer, its parent, or an affiliate or subsidiary of the Seller or Servicer
25. The Seller/Servicer's failure to submit a complete and accurate Change and Activity Report within the time frame required in Section 2101.12 or 2101.13
26. Freddie Mac's determination that the Servicer's overall performance is unacceptable pursuant to Section 3501.2. Freddie Mac considers the Servicer Success Scorecard results (see Section 3501.2), together with other factors, including, but not limited to, Servicer Success File Reviews, trends in performance, adequacy of staffing, audit results, and/or compliance with all requirements of the Purchase Documents in evaluating whether the Servicer's overall performance is unacceptable.
27. The failure of the Seller to deliver a minimum volume of Mortgages (measured by dollar amount or number of Mortgages) within the time frame specified by Freddie Mac
28. The Seller/Servicer's failure to maintain the confidentiality of the Exclusionary List or information contained on the Exclusionary List
29. The Seller/Servicer's failure to fulfill any obligation to Freddie Mac when due including, but not limited to, the failure to repurchase a Mortgage, pay fees or other monies, and remit custodial or buydown funds
30. The Seller/Servicer's failure to provide audited or Reviewed Financial Statements for its parent, subsidiaries and affiliates upon Freddie Mac request

When the Seller is also a Servicer, suspension or disqualification as a Seller is sufficient cause for suspension or disqualification as a Servicer or termination of all or a portion of the Servicing Contract and related Servicing Contract Rights with cause. Whether or not Freddie Mac terminates the Servicing Contract and related Servicing Contract Rights, any of the above events is cause for revocation of the power of attorney granted to the Servicer in accordance with Section 8101.2. When the Servicer is also a Seller, suspension or disqualification as a Servicer or termination of all or a portion of the Servicing Contract and related Servicing Contract Rights with cause under Chapter 3603 is sufficient cause for suspension or disqualification as a Seller.

(b) Disqualification or suspension without cause

Freddie Mac may disqualify or suspend a Seller or a Servicer without cause. Disqualification or suspension of a Seller or a Servicer without cause will be effective immediately upon notice of the disqualification or suspension, unless the notice specifies a later date. During the period of Seller disqualification or suspension, Freddie Mac may, at its discretion, determine whether outstanding commitments held by the Seller must be honored or the outstanding balance of the commitment fulfilled by using the pairoff procedure (see Section 6401.1). A Seller will not be entitled to a termination fee or any other compensation from Freddie Mac for any reason or cause relating to any consequential, incidental or indirect damages arising out of, or in connection with, its disqualification or suspension without cause.

Notwithstanding Sections 2301.3 through 2301.6, Freddie Mac's decision to suspend or disqualify a Seller without cause or to terminate Servicing without cause is conclusive.

2301.3: Notice of intent to disqualify or suspend the Seller or the Servicer (03/02/16)

Freddie Mac will not provide the Seller or the Servicer with prior written notice of an intent to disqualify or suspend the Seller or the Servicer, unless Freddie Mac determines, in its discretion, that the giving of prior notice will in no way adversely affect Freddie Mac's interests. In such cases, 30 days' prior written notice will be given. Certain violations of this Guide (such as the commission of fraudulent acts or the failure to deliver under a mandatory delivery purchase program) are viewed with particular seriousness by Freddie Mac. In such cases, Freddie Mac will tend to act without prior written notice to disqualify or suspend the Seller. If prior written notice is not provided, disqualification or suspension will become effective upon oral notice from Freddie Mac to the Seller. Written confirmation of that oral notice will follow.

Any prior written notice or written confirmation of oral notice will contain a brief statement of the basis for the disqualification or suspension and may advise the Seller or the Servicer of its right to obtain a review of Freddie Mac's action or proposed action if permitted in accordance with the procedures in Section 2301.5.

Before giving notice of disqualification or suspension, Freddie Mac may, in its discretion, notify a Seller or a Servicer that it has violated, is violating or may be about to violate provisions of this Guide or other Purchase Documents, and that unless corrective action is taken within a specified time period, disqualification or suspension may result. Freddie Mac may give the notification as part of an audit report or as a result of any other review or investigation of the Seller or the Servicer by Freddie Mac. Any such notification may be issued by means determined by Freddie Mac including, but not limited to, electronic mail to the Seller's or Servicer's e-mail address provided to Freddie Mac by the Seller or Servicer in accordance with Freddie Mac's requirements.

2301.4: Request for voluntary termination of status as a Freddie Mac Seller or Servicer (12/07/20)

A Seller/Servicer may ask for a voluntary termination of its status as a Freddie Mac-approved Seller and/or Servicer by submitting a request to Freddie Mac. The request may be submitted in writing or may be submitted or transmitted in the form of a Record or Electronic Record, as those terms are defined in Section 1401.2, by the Seller/Servicer's authorized employee or representative. If the request is Electronic, it must be signed using the Seller/Servicer's Electronic Signature and will be subject to Chapter 1401. The request will be deemed to have been duly given to and received by Freddie Mac on the date such request is:

- Received in writing by Freddie Mac (**see Directory 1**) via first class mail, or
- Received in electronic form (e-mail) as an Electronic Record by Freddie Mac's computer information processing system via the Internet, at its Internet e-mail address (**see Directory 1**)
- Received as a Record or Electronic Record in electronic form (facsimile) by Freddie Mac's electronic facsimile machine or system at Freddie Mac (**see Directory 1**)

Other addresses may be substituted for the above upon notice of the substitution.

The Seller/Servicer may also request the termination of its status as a Freddie Mac-approved Seller and/or Servicer by submitting a Change and Activity Report as described in Section 2101.12.

The Seller/Servicer's voluntary termination shall not be effective until an authorized representative of Freddie Mac has approved the request in writing or in a Record or Electronic Record. Freddie Mac may condition its approval of a voluntary termination on requirements such as full satisfaction of the Seller or Servicer's outstanding obligations due Freddie Mac, the transfer of any portfolio, and/or compensation to Freddie Mac for a negatively-valued portfolio. In the event of a portfolio transfer, the Servicer is responsible for all transfer-related expenses, and remains responsible and liable to Freddie Mac for all representations and warranties arising prior to the transfer.

2301.5: Appeal (03/02/16)

The provisions of this section and Section 2301.6 do not apply to Sellers and Servicers approved by Freddie Mac on or after October 3, 2012 to sell and/or service Mortgages. Those Sellers and Servicers do not have a right to appeal Freddie Mac's notice of determination to disqualify or suspend.

A Seller or Servicer approved to sell and/or service Mortgages for Freddie Mac prior to October 3, 2012 may write to Freddie Mac (**see Directory 1**) to appeal a determination to disqualify or suspend with cause pursuant to Section 2301.2(a).

The appeal must be postmarked or hand delivered no later than 15 days:

- From the date the Seller or the Servicer received written notice of Freddie Mac's intention to suspend or disqualify, or
- If prior written notice was not provided by Freddie Mac, from the date the Seller or Servicer received written confirmation of Freddie Mac's oral notice to suspend or disqualify

If an appeal is not filed within the 15-day period, the Seller or Servicer will be deemed to have waived its right to appeal.

Any appeal must provide Freddie Mac with information and documentation that clearly supports the Seller's or Servicer's request for reconsideration of Freddie Mac's disqualification or suspension determination.

2301.6: Final decision (03/02/16)

Freddie Mac's Vice President — Counterparty Credit Risk Management, or that person's designee, will review the appeal of the Seller/Servicer if eligible to file an appeal under Section 2301.5 before rendering a final decision.

The Vice President — Counterparty Credit Risk Management, or that person's designee, will then render a final decision in writing to the Seller/Servicer either affirming, reversing or modifying Freddie Mac's prior determination to disqualify or suspend.

Chapter 2401: Master Systems License

2401.1: Master Systems License (12/14/22)

(a) Scope and applicability

Immediately upon a User's first access to a System on or after the Effective Date, the Seller/Servicer shall be bound by the terms and conditions of this Section 2401.1 (i.e., the "Master Systems License") and, to the extent applicable, any System-Specific License. Except with respect to Section 2401.1(f) and the Seller/Servicer's use of Freddie Mac Access Manager, neither this Master Systems License nor any System-Specific License shall apply to any Excluded Servicing Tool, which shall continue to be governed by its separate license, user agreement or similar document.

(b) Definitions

The definitions below apply solely for purposes of this Master Systems License and each System-Specific License. Capitalized terms used but not defined in this Master Systems License have the meaning set forth in the Glossary or as otherwise specified in the Guide.

- "Access Manager" has the meaning set forth in Section 2401.1(f)(i)
- "Administrator" has the meaning set forth in Section 2401.1(f)(i)
- "Aggregate Data" has the meaning set forth in Section 2401.1(g)(vi)
- "Authentication Credentials" has the meaning set forth in Section 2401.1(f)(i)
- "Authorized User" means any employee or contract worker of the Seller/Servicer or of a Related Third Party who is authorized by the Seller/Servicer or such Related Third Party to access and use the Licensed Materials in connection with his or her responsibilities to the Seller/Servicer and/or the Related Third Party. Authorized Users are sometimes referred to in Purchase Documents as "Permitted Users"
- "Distributed Code" means any application or operating system software provided or made available by Freddie Mac (or third parties on behalf of Freddie Mac) to the Seller/Servicer for implementation at a Seller/Servicer location in connection with the Purpose
- "Documentation" means user guides, job aids, training materials, any written instructions (including such instructions as they relate to administering Authentication Credentials and any other Confidential Means of Access), and any other documentation relating to a System that Freddie Mac provides or makes available to the Seller/Servicer, as amended from time to time

- “Effective Date” shall be the date, set forth in the Guide Bulletin pursuant to which the Master Systems License and each System-Specific License is published, on or after which a User’s access to a System will bind the Seller/Servicer or Related Third Party, as applicable, to the Master Systems License and each System-Specific License
- “Enhancements” has the meaning set forth in Section 2401.1(g)(iii)
- “Excluded Servicing Tool” means a Servicing Tool that is governed by a separate license, user agreement or similar document (whether in the Guide or elsewhere) other than a System-Specific License
- “Form” has the meaning set forth in Section 2401.1(f)(i)
- “License” has the meaning set forth in Section 2401.1(k)(iii)
- “Licensed Materials” means, individually and collectively, the Systems, Output and Documentation
- “Master Systems License” has the meaning set forth in the first paragraph of this Section 2401.1
- “Output” means any reports, findings, feedback certificates, messages (including those in such reports, findings or certificates), data, information or other content generated by a System that is provided or made available to the Seller/Servicer
- “Purpose” has the meaning set forth in Section 2401.1(c)(i)
- “Related Third Party” has the meaning set forth in the Glossary
- “Specifications” has the meaning set forth in Section 2402.1(b)
- “Support Services” means services provided by Freddie Mac or its contractors to support the operation and maintenance of a System
- “System” means, individually and collectively, a Freddie Mac-owned, -leased, -licensed or -controlled technology platform whether or not identified in a System-Specific License including, without limitation, Distributed Code, Specifications, any related computer, other hardware or electronic device, application or operating system software, web site, private data or other communication network, interface (including any application programming interface, or “API” created and hosted by Freddie Mac to facilitate back-end access to its systems) and/or connectivity which, in each instance, Freddie Mac provides or makes available to the Seller/Servicer in connection with the Purpose; provided, however, that the term “System” as used in this Master Systems License and any System-Specific License shall not include any Excluded Servicing Tool or the Uniform Collateral Data Portal; and provided further that the term “System” shall include

Access Manager. The term “System,” as used within this Master Systems License and any System-Specific License, is to be construed as within the meaning of the term “Systems” as this latter term is defined in Chapter 1401.

- “System Data” has the meaning set forth in Section 2401.1(g)(v)
- “System-Specific License” means each license set forth in Chapter 2402
- “Third Parties” has the meaning set forth in Section 2401.1(i)(iv)(A)
- “User” means any individual who gains access to the Licensed Materials directly or indirectly through the Seller/Servicer or a Related Third Party, and includes Authorized Users
- “User IDs” has the meaning set forth in Section 2401.1(f)(i)

(c) Royalty free use license

- (i)** Freddie Mac grants to the Seller/Servicer a limited, revocable, non-exclusive, non-transferable license to access and use the Licensed Materials through its Authorized Users during the term of this Master Systems License and any System-Specific License; provided, however, that such access and use shall be solely for the Seller/Servicer’s internal business purposes in connection with its origination and/or Servicing of Mortgages, as applicable (collectively, the “Purpose”).
- (ii)** Upon the prior written consent of Freddie Mac obtained in accordance with Section 1101.2(d), the Seller/Servicer may allow Related Third Parties to access and use the Licensed Materials solely to the extent necessary to discharge their respective responsibilities to the Seller/Servicer in connection with the Purpose, except to the extent prohibited by or, if permitted, subject to any requirements set forth in, any applicable Purchase Document; provided, however, the Seller/Servicer shall obligate each such Related Third Party in writing to comply with the terms of this Master Systems License and each applicable System-Specific License, as set forth in Section 2401.1(e)(iv).
- (iii)** Except as otherwise indicated by Freddie Mac in any relevant Documentation or Purchase Document, Freddie Mac does not currently assess a fee in connection with the Seller/Servicer’s use of any System, but expressly reserves the right to do so in the future. The Seller/Servicer acknowledges that it may incur (and will be responsible for) costs from third parties such as credit reporting agencies, other vendors and other Related Third Parties in connection with its use of certain Systems.

(d) Licensed Materials; use and other limitations

- (i)** Use of the Licensed Materials is subject to, and the Seller/Servicer shall comply at all times with, (A) the terms of this Master Systems License and any applicable System-

Specific License, (B) the Documentation, and (C) all other applicable requirements of the Purchase Documents (including, but not limited to, requirements relating to confidentiality such as those set forth in Section 1201.8). The Seller/Servicer's use of each System constitutes an Eligible Electronic Transaction, as such term is defined in Section 1401.2, using Freddie Mac Systems within the meaning of the Guide, including, without limitation, Chapter 1401.

- (ii) Under no circumstances shall the Seller/Servicer (A) provide access to or otherwise make the Freddie Mac Exclusionary List available to a Related Third Party or any other party except as permitted under and in accordance with Section 1201.8(a)(iii), or (B) enable or permit any person or entity on the Freddie Mac Exclusionary List to access or use the Licensed Materials, whether directly or indirectly through the Seller/Servicer or any Related Third Party.
- (iii) The Seller/Servicer is and shall remain fully responsible and liable for use of the Licensed Materials by each Related Third Party and any User and expressly consents to the sharing and receipt of Output, data and information among and between the Seller/Servicer and each Related Third Party as permitted by a System and described in its Documentation.
- (iv) The Seller/Servicer shall have controls in place to ensure that each Related Third Party and Authorized Users comply with the terms of this Master Systems License and any System-Specific License in their use of the Licensed Materials.
- (v) Freddie Mac reserves the right, at any time and in its sole discretion, to modify, enhance, retire or otherwise cease providing the Licensed Materials or the Support Services. To the extent possible, Freddie Mac will endeavor to provide reasonable notice of any such action, unless it is legally required to cease providing the Licensed Materials immediately. Regardless of such action by Freddie Mac, the Seller/Servicer agrees that it will remain in full compliance with all applicable law in connection with its origination and Servicing of Mortgages.
- (vi) The Seller/Servicer shall (A) not make any copies of the Distributed Code, other than for the limited purpose of creating a single archival or backup copy, (B) use only the most recent version of the Distributed Code provided or made available by Freddie Mac, (C) follow Freddie Mac's instructions concerning the cessation of use of the Distributed Code (including any old or retired versions thereof), and (D) except to the extent otherwise permitted by Freddie Mac in writing, not distribute to or otherwise share any Output with, a party not otherwise licensed by Freddie Mac to access such Output, except with respect to a consumer to whom such Output relates, upon his or her request.
- (vii) The Seller/Servicer shall (A) not make any representation, statement or suggestion to a third party regarding any capability of any Licensed Materials that purport to be, or might reasonably be construed to be, made on behalf of Freddie Mac, (B) not issue any press release regarding its use of the Licensed Materials, or otherwise use Freddie Mac's name or marks in any marketing or promotional materials without the prior written consent of a

duly authorized officer of Freddie Mac, and (C) permit Freddie Mac, from time to time upon reasonable notice, to audit facilities and systems used in conjunction with the Licensed Materials to confirm compliance with the requirements of this Master Systems License and any System-Specific License.

(e) System access; interface development and maintenance; Related Third Parties

- (i)** The Seller/Servicer may access a System by means of a (A) web server hosted by or on behalf of Freddie Mac, (B) system-to-system interface between the System and the Seller/Servicer's platform which is developed and maintained by the Seller/Servicer and approved in writing by Freddie Mac, and/or (C) System interface with a Related Third Party-provided loan origination or other loan manufacturing tool or Servicing Tool.
- (ii)** With respect to its System access under Section 2401.1(e)(i)(B), Freddie Mac may provide the Specifications to the Seller/Servicer pursuant to Section 2402.1 so as to facilitate the Seller/Servicer's design, development and maintenance of the system-to-system interface with such System. With respect to its System access under Section 2401.1(e)(i)(C), Freddie Mac may have conducted limited testing on Related Third Party interfaces with loan origination or other loan manufacturing tools or Servicing Tools, and those interfaces which have been deemed to be compatible with identified Systems are listed on Freddie Mac's web site.
- (iii)** Notwithstanding any Freddie Mac-conducted testing or web site identification, and, without limiting the application of any other provision of this Master Systems License or a System-Specific License, Freddie Mac assumes no responsibility for, and shall bear no liability whatsoever arising out of or related to any interface identified in Sections 2401.1(e)(i)(B) or 2401.1(e)(i)(C), despite the fact that such an interface provides access to a System, or that Freddie Mac may have conducted limited testing or provided Support Services or other assistance with respect to the same.
- (iv)** As permitted under Section 2401.1(c)(ii), the Seller/Servicer may engage Related Third Parties to assist it in its furtherance of the Purpose. Freddie Mac does not endorse any Related Third Party or sanction any engagement by the Seller/Servicer of any Related Third Party. The Seller/Servicer shall maintain a separate, independent contract with each Related Third Party concerning the Seller/Servicer's use of such party's platform, product or service. As part of such contract, the Seller/Servicer may appoint a Related Third Party to act as the Seller/Servicer's agent for purposes of gaining access to a System, including entering data into the System, ordering and receiving consumer credit data through the System, and obtaining Output, in each instance on behalf of its principal, the Seller/Servicer. The Seller/Servicer shall be responsible for and bear all liability arising out of or related to any act or omission of its Related Third Parties, including any act or omission that causes a Seller/Servicer to violate any applicable law and/or any provision of the Guide or other Purchase Document, and under no circumstances shall Freddie Mac assume any responsibility or bear any liability whatsoever arising out of or related to any act or omission of a Related Third Party, notwithstanding that Freddie Mac may have facilitated the relationship between the Seller/Servicer and such Related Third Party.

- (v) The Seller/Servicer shall include in its separate, independent contracts with Related Third Parties provisions that bind each Related Third Party to the terms and conditions of this Master Systems License and each System-Specific License, including, without limitation, Sections 2401.1(d), 2401.1(f), 2401.1(h)(ii), 2401.1(h)(iii) and 2401.1(h)(iv). The Seller/Servicer shall (A) specifically designate Freddie Mac as an express, intended third-party beneficiary of each contract referenced in this Section 2401.1(e)(v) solely for the purpose of enforcing Freddie Mac's rights under such contract, and (B) monitor the performance of its Related Third Parties so as to ensure the compliance of each with this Master Systems License and each System-Specific License.
- (vi) Freddie Mac may also maintain separate, independent contracts with Related Third Parties regarding their respective provision of platforms and services to other entities, including the Seller/Servicer. Freddie Mac may from time to time and in its sole discretion terminate any such contract, which termination could result in the need for the Seller/Servicer to obtain an alternate platform, product and/or service from an alternative provider. Freddie Mac will attempt to notify the Seller/Servicer of such termination, but shall have no liability arising out of or in connection with any such termination, whether or not prior notice is provided to the Seller/Servicer.

(f) Authorized User registration; access management and security; requirements for Excluded Servicing Tools

- (i) To facilitate its provision of System access to a Related Third Party for use on its behalf as provided hereunder, the Seller/Servicer may share Authorized Users' identification codes ("User IDs") and passwords, PIN or other access codes, including system-level access codes ("Sys-to-Sys Credentials"), together with User IDs, the "Authentication Credentials," with such Related Third Party. In addition, Freddie Mac may provide or make available to the Seller/Servicer: (i) an electronic or paper registration form for the provisioning of Authentication Credentials and Authorized Users ("Form") and/or (ii) Access Manager, an automated access and credential management application designed to facilitate the Seller/Servicer's management of Authentication Credentials and its Authorized Users, which may also include one or more Forms (collectively, "Access Manager"). The Seller/Servicer shall, and, if applicable, shall cause each Related Third Party to, specifically identify each Authorized User for the System in Access Manager. Access Manager may require the designation of one or more Authorized Users to perform administrative functions for the particular System (each, an "Administrator") such as:
- Identifying other Authorized Users to whom Freddie Mac may grant System(s) access
 - Receiving the Authentication Credentials from Freddie Mac, and
 - Adding or deleting Authorized Users and modifying or submitting new User IDs and completing additional Forms in accordance with the Documentation

- (ii) Without limiting the application of any information security or other similar requirement of a Purchase Document including, without limitation, any contained in Chapter 1302, the Seller/Servicer shall safeguard and protect all information it provides to Access Manager, as well as all Authentication Credentials and other Confidential Means of Access (as that term is defined in Section 1401.2), and shall adopt security measures to prevent the loss, theft, unauthorized access, disclosure, compromise or use of any of the foregoing. Such measures shall include the maintenance of up-to-date virus detection software to protect against malware and other malicious software. As soon as practicable, and, in any event, no later than within one Business Day of an Administrator's name change, or an employee's or contractor's termination, the Seller/Servicer shall either (i) utilize Access Manager to register the Administrator name change, or remove or otherwise delete such employee or contract worker as an Authorized User, or (ii) notify Freddie Mac of such name change or termination so that Freddie Mac may register the name change or revoke the employee's or contractor's access to each System.
- (iii) The Seller/Servicer shall notify Freddie Mac as soon as practicable and, in any event, no later than within one Business Day in the event:
- Of any actual or suspected loss, theft or unauthorized access, disclosure, compromise or use of any System, Authentication Credential, or any other Confidential Means of Access
 - The Seller/Servicer has reason to believe that an Administrator's access to a System, including Access Manager, is no longer secure for any reason
 - An unauthorized User has gained access to a System
 - An Authorized User has gained access to a System that he or she is not authorized to access or use, or
 - An Authorized User has used a System for purposes other than the Purpose
- (iv) From time to time an Administrator may be required by Access Manager to engage in campaigns to recertify the authorizations and roles of Authorized Users. The Administrator shall comply with all reasonable instructions, including any provided through Access Manager, for any such campaign.
- (v) The Seller/Servicer shall reset Authentication Credentials (other than User IDs) no less than once every 90 days, except with respect to Sys-to-Sys Credentials, which shall be reset no less than once every 365 days. In the event such resets do not occur, or if Authentication Credentials have not been used for a period of at least 90 days, or Sys-to-Sys Credentials have not been used for a period of at least 365 days, then, in any such event, Freddie Mac may, in its sole discretion, deactivate System access associated with any such Authentication Credential.

- (vi) Without limiting the application of any other provision of this Section 2401.1(f) or a Purchase Document, the Seller/Servicer agrees to implement and maintain industry best practices with respect to the security of, and access to, each System, including the imposition and enforcement of requirements against sharing of Authentication Credentials between and among Users, and accepts all risks and liability resulting from any failure to adopt and maintain such industry best practices.
- (vii) The Seller/Servicer shall manage each of its Authorized Users' access to those Excluded Servicing Tools that Freddie Mac designates from time to time in accordance with the Authorized User registration, access management, and security requirements set forth in this Section 2401.1(f), except that the Seller/Servicer may not permit a Related Third Party to access an Excluded Servicing Tool unless otherwise permitted by Freddie Mac in writing (e.g., under another section of the Guide, other Purchase Document, applicable user agreement, system license or related system documentation). Until Freddie Mac designates an Excluded Servicing Tool as subject to this Section 2401.1(f), including through the issuance of a Form identifying such Excluded Servicing Tool, the Seller/Servicer must continue to follow the user access and security requirements applicable to such Excluded Servicing Tool.

(g) Ownership of the Licensed Materials; rights in data

- (i) The Licensed Materials are the sole and exclusive property of Freddie Mac (or, as applicable, its third-party licensors). The Seller/Servicer acknowledges that it has no ownership or other rights or interests in the Licensed Materials, except to the extent of the rights expressly granted in this Master Systems License and any System-Specific License, and covenants that it will treat all nonpublic information and data concerning the Licensed Materials and any Support Services as strictly confidential in accordance with Section 1201.8.
- (ii) The Seller/Servicer will not modify, enhance, disassemble or reverse engineer any Licensed Materials in any manner or for any reason. All rights in and to copyrights, trade secrets, patents, trademarks and other rights in and to the Licensed Materials shall be the property of and remain with Freddie Mac (or, as applicable, its third-party licensors).
- (iii) The Seller/Servicer agrees that Freddie Mac shall be the sole and exclusive owner of any actual or proposed changes, modifications, upgrades or enhancements in functionality, design or otherwise, to the Licensed Materials and any successor products or systems (collectively, the "Enhancements"), and the Seller/Servicer hereby assigns, and agrees to assign, to Freddie Mac all rights in the Enhancements, without any recourse to the Seller/Servicer. The Seller/Servicer understands and acknowledges that Freddie Mac shall not be under any obligation to consider or implement any Enhancements it may suggest or recommend to Freddie Mac.
- (iv) The Seller/Servicer shall reproduce without modification on any copy of the Output, Specifications or Documentation all copyright, confidentiality and other proprietary

notices included on the original version or otherwise provided or made available by the System or Freddie Mac.

- (v) The Seller/Servicer acknowledges and agrees that Freddie Mac may use, modify, reproduce and retain all data (A) submitted by a User to any System, (B) generated in the utilization of a System that pertains to the functionality or performance of the System, and/or (C) necessary or useful in assisting Freddie Mac in the provision of Support Services (all such data collectively referenced in this Section 2401.1(g)(v)(A)-(C) as the “System Data”) for all purposes related to such System, the underlying software and models, and any actual or potential Mortgage to which such data relate, including, without limitation, for analytic, statistical, quality control and similar purposes.
- (vi) Freddie Mac may provide statistical, comparative and summary information derived from the System Data (i.e., the “Aggregate Data”) to Freddie Mac’s customers and other third parties; provided, however, that except to the extent permitted or required by applicable law, Aggregate Data shall be anonymized, and shall not specifically identify or be linked to any consumer.
- (vii) Notwithstanding the foregoing, Freddie Mac will not disclose System Data or Aggregate Data in a manner that either associates the Seller/Servicer with a particular Mortgage file, or enables the recipient of any such data to determine that the Seller/Servicer submitted such Mortgage file to the System, in either case unless (A) required by applicable law, a subpoena or a court order, or (B) consented to by the Seller/Servicer.
- (viii) Notwithstanding anything to the contrary contained in this Master Systems License or any System-Specific License, Freddie Mac may provide System Data and Aggregate Data to the FHFA, any agency of the federal government or any State government, or as otherwise permitted by the Purchase Documents.
- (ix) As set forth in Sections 1201.9 and 3301.1, and notwithstanding anything to the contrary contained in this Master Systems License or any System-Specific License, all System Data, Aggregate Data and other data and information associated with a Mortgage that is purchased or guaranteed by Freddie Mac shall be the sole and exclusive property of Freddie Mac, which it may use for any purpose including, but not limited to, such purposes set forth in this Section 2401.1(g).

(h) Representations and warranties; indemnification

- (i) The Seller/Servicer acknowledges and agrees that:

- (A) All of the representations and warranties it is deemed to make under applicable Purchase Documents with respect to loan documentation, data and other information it provides to Freddie Mac shall apply to any such materials it or any User provides to Freddie Mac through any System, as well as to the Seller/Servicer’s use of the Licensed Materials, and

- (B)** Freddie Mac will have all rights and remedies available to it under the Purchase Documents with respect to a breach by the Seller/Servicer of any such representation or warranty or any Seller/Servicer misrepresentation.
- (ii)** In addition to the provisions of Section 2401.1(h)(i) or any other provision of a Purchase Document pertaining to its compliance with laws including, without limitation, Section 1301.2 and Chapter 4202, the Seller/Servicer represents, warrants and agrees that it has obtained or, if applicable, will obtain, legal counsel and has developed policies, systems and procedures to ensure that its use of the Licensed Materials is, and, at all times relevant to this Master Systems License and any System-Specific License, shall remain, in full compliance with:
- (A)** All federal, State and local laws, rules and regulations applicable to its activities in connection with which any Licensed Materials are used, including, without limitation, the Real Estate Settlement Procedures Act, the Truth-in-Lending Act, the Fair Credit Reporting Act, the Equal Credit Opportunity Act and the Home Mortgage Disclosure Act, and each of their implementing regulations and commentary, as applicable, and
- (B)** All applicable laws, rules, regulations and conventions relating to data privacy, international communications and the importation and exportation of software and data.
- (iii)** The Seller/Servicer bears sole responsibility for complying with all laws, rules, regulations and conventions referenced in the preceding Section 2401.1(h)(ii), and shall not rely on the Licensed Materials in connection with its compliance efforts. The Seller/Servicer acknowledges and agrees that (A) the Licensed Materials do not analyze compliance with laws, regulations, or ordinances, or with any requirements that may be imposed by any regulator, and (B) the Seller/Servicer's compliance obligations shall in no event be imposed upon, assumed or shared by Freddie Mac as a result of the Seller/Servicer's (or any Related Third Party's) use of the Licensed Materials.
- (iv)** In addition to the provisions of Section 2401.1(h)(i), the Seller/Servicer further represents, warrants and agrees that:
- (A)** Each Administrator is an officer of the Seller/Servicer or is otherwise specifically authorized by the Seller/Servicer to perform such administrative functions,
- (B)** Each User is duly authorized to act on behalf of, and has full authority to legally bind the Seller/Servicer by such User's acts and omissions,
- (C)** Freddie Mac is entitled to rely on the truth, accuracy and completeness of all data and information submitted by each Administrator and any other User to each System, including any data and information submitted through a Form, and

- (D)** No computer virus, including any malware, time bomb or any code designed to cause the System to malfunction or self-destruct or allow unauthorized access or cause harm to the System shall be introduced into the System by or through the Seller/Servicer.
- (v)** In addition to its obligations under the provisions of any Purchase Document, including Chapter 1401, the Seller/Servicer shall indemnify Freddie Mac and its directors, officers, employees, agents, successors and assigns and hold each harmless from and against any and all liabilities, losses, claims, damages, costs and expenses, including reasonable attorneys' fees, arising directly or indirectly out of or relating to any (i) User's use of the Licensed Materials, and/or (ii) breach of a Seller/Servicer representation, warranty, covenant and/or obligation under this Master Systems License or any System-Specific License, whether such breach arises out of its own action or inaction or the action or inaction of a Related Third Party, any User, or of any Seller/Servicer or Related Third Party director, officer, employee, subcontractor, partner, principal, agent, successor or assign. Freddie Mac shall provide the Seller/Servicer with notice of any such claim after it comes to Freddie Mac's attention.

(i) Limited warranty; liability limitation

- (i)** Freddie Mac represents and warrants that it has the right to grant the Seller/Servicer the rights specified in this Master Systems License and any System-Specific License
- (ii)** EXCEPT AS EXPRESSLY PROVIDED IN SECTION 2401.1(i)(i), THE LICENSED MATERIALS AND THE SUPPORT SERVICES ARE PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS, AND ALL USES OF THE FOREGOING ARE AT THE SELLER/SERVICER'S, A RELATED THIRD PARTY'S AND EACH USER'S SOLE RISK. FREDDIE MAC MAKES NO REPRESENTATIONS OR WARRANTIES WITH RESPECT TO ANY DATA OR OTHER INFORMATION OBTAINED, PROVIDED OR TRANSMITTED THROUGH ANY SYSTEM, INCLUDING, WITHOUT LIMITATION, ANY DATA OR OTHER INFORMATION CONTAINED IN A CONSUMER REPORT. EXCEPT TO THE EXTENT EXPRESSLY PROVIDED IN SECTION 2401.1(i)(i), ALL WARRANTIES (BOTH EXPRESS AND IMPLIED) CONCERNING THE LICENSED MATERIALS AND THE SUPPORT SERVICES ARE HEREBY EXPRESSLY DISCLAIMED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY, ACCURACY AND/OR FITNESS FOR A PARTICULAR PURPOSE.
- (iii)** ONE OR MORE SYSTEMS MAY INCLUDE COLOR DESIGNATIONS IN THEIR RESPECTIVE OUTPUT, SOME OF WHICH MAY BE EMBEDDED IN ICONS. ANY SUCH COLOR DESIGNATION (INCLUDING ANY ICON IN WHICH SUCH A DESIGNATION IS EMBEDDED) IS INTENDED SOLELY AS A VISUAL GUIDE FOR INDICATING THE NEED (IF ANY) FOR AN AUTHORIZED USER TO REVIEW DATA FILES FOR ERRORS OR INCONSISTENCIES, AS SET FORTH IN THE LICENSED MATERIALS. SUCH DESIGNATIONS AND ICONS ARE NOT PROVIDED FOR ANY OTHER REASON, NOR SHOULD THEY BE USED OR RELIED UPON EXCEPT FOR PURPOSES OF TRIGGERING DATA FILE REVIEWS

AS SET FORTH IN THE LICENSED MATERIALS. NO OUTPUT (INCLUDING ANY DESIGNATION OR ICON) GENERATED BY A SYSTEM SHALL BE INTERPRETED OR CONSTRUED AS GIVING RISE TO ANY AGREEMENT OR OBLIGATION ON THE PART OF FREDDIE MAC TO PURCHASE ANY MORTGAGE ASSOCIATED WITH THE OUTPUT.

(iv) NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS MASTER SYSTEMS LICENSE OR IN ANY SYSTEM-SPECIFIC LICENSE:

(A) FREDDIE MAC WILL HAVE NO LIABILITY TO (i) THE SELLER/SERVICER, OR (ii) ANY RELATED THIRD PARTY, ANY USER OR ANY OTHER INDIVIDUAL OR ENTITY (COLLECTIVELY, "THIRD PARTIES") FOR INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY TYPE WHATSOEVER, INCLUDING, WITHOUT LIMITATION, LOST PROFITS, ARISING OUT OF OR RELATING IN ANY MANNER WHATSOEVER TO THE LICENSED MATERIALS, THE SUPPORT SERVICES, OR ANY USE THEREOF, WHETHER UNDER A CONTRACT, TORT OR ANY OTHER THEORY OF LIABILITY, EVEN IF FREDDIE MAC, SELLER/SERVICER OR ANY THIRD PARTY IS AWARE OF THE POSSIBILITY OF SUCH DAMAGES.

(B) FREDDIE MAC WILL HAVE NO LIABILITY TO ANY THIRD PARTY FOR ANY CLAIMS ARISING OUT OF OR RELATING TO THE LICENSED MATERIALS, THE SUPPORT SERVICES, OR ANY USE OF OR INABILITY TO USE THE LICENSED MATERIALS OR SUPPORT SERVICES.

(C) WITHOUT LIMITING THE PROVISIONS OF SECTIONS 2401.1(i)(iv)(A) AND (B), FREDDIE MAC'S SOLE LIABILITY ARISING OUT OF OR RELATING TO THE LICENSED MATERIALS OR THE SUPPORT SERVICES FROM ANY SOURCE AND UNDER ANY THEORY OF LIABILITY WHATSOEVER, INCLUDING, WITHOUT LIMITATION, LIABILITY ARISING OUT OF CONTRACT, NEGLIGENCE OR STRICT LIABILITY, OR IN TORT OR WARRANTY, WILL CONSIST OF ACTUAL MONETARY DAMAGES UP TO, BUT NOT TO EXCEED, AN AGGREGATE OF FIVE THOUSAND DOLLARS (\$5,000).

(v) FREDDIE MAC AND THE SELLER/SERVICER EXPRESSLY ACKNOWLEDGE AND AGREE THAT THE LIMITATIONS AND EXCLUSIONS CONTAINED HEREIN (A) REPRESENT THE PARTIES' AGREEMENT AS TO THE ALLOCATION OF RISK BETWEEN THEM (INCLUDING, WITHOUT LIMITATION, THE POSSIBILITY THAT A REMEDY MAY FAIL ITS ESSENTIAL PURPOSE AND CAUSE CONSEQUENTIAL LOSS), WITHOUT WHICH THE PARTIES WOULD NOT HAVE BEEN WILLING TO ENTER INTO THIS MASTER SYSTEMS LICENSE OR ANY SYSTEM-SPECIFIC LICENSE INCORPORATED HEREIN, AND (B) FORM AN ESSENTIAL BASIS OF THE BARGAIN BETWEEN THE PARTIES.

(j) Term and Termination

- (i)** The term of this Master Systems License shall commence upon a User's first access to any System on or after the Effective Date, and, except as set forth in this Section 2401.1(j), shall continue in full force and effect until terminated by the Seller/Servicer upon thirty (30) days' prior written notice to Freddie Mac, or by Freddie Mac upon ten (10) days' prior written notice to the Seller/Servicer.
- (ii)** Without limiting Freddie Mac's rights to terminate any User's access to a System as provided for in this Master Systems License, Freddie Mac may terminate this Master Systems License and/or any System-Specific License and/or Seller/Servicer's rights to access and use any specific System pursuant to this Master Systems License, effective immediately, upon notice to the Seller/Servicer in the event of any default by the Seller/Servicer under this Master Systems License, or any default by the Seller/Servicer under the terms of any Purchase Document or other agreement between Freddie Mac and the Seller/Servicer, including any System-Specific License.
- (iii)** The Seller/Servicer's rights under this Master Systems License will automatically terminate if and when the Seller/Servicer ceases to be an approved Freddie Mac Seller/Servicer. Freddie Mac may terminate an Authorized User's rights to use any System if an Authorized User or Related Third Party identified in the Freddie Mac Exclusionary List (or any of its employees, contractors, directors or officers identified in the Freddie Mac Exclusionary List) participates as described in Section 3101.1 in the origination, sale, quality control or Servicing of a Mortgage or in the underlying real estate transaction.
- (iv)** All System-Specific Licenses and the rights of all Authorized Users to use each System will terminate as of the effective date of termination of this Master Systems License. Freddie Mac may terminate, in its sole discretion and without notice, what it believes to be unauthorized access to any System by any User.
- (v)** Upon termination of the Seller/Servicer's right to use a System, the Seller/Servicer will have no further right to access such System or any associated Documentation, Output or Support Services, except that the Seller/Servicer may retain and continue to use a copy of any Output associated with the System to the extent required by (A) the Purchase Documents, (B) the Seller/Servicer's normal internal quality control processes or document retention protocols, or (C) applicable law, in each case subject to the provisions of this Master Systems License and any applicable System-Specific License. Upon termination, the Seller/Servicer will promptly, and in no event later than thirty (30) days after the effective date of such termination, return to Freddie Mac (or, if requested by Freddie Mac, destroy and have an officer of the Seller/Servicer certify in writing that it has destroyed) all copies of Distributed Code and Documentation.
- (vi)** Any provisions of this Master Systems License and any System-Specific License that contemplate their continuing effectiveness following termination of this Master Systems

License and any System-Specific License including, but not limited to, Sections 2401.1(d), 2401.1(g), 2401.1(h), 2401.1(i), 2401.1(j)(vi) and 2401.1(k) hereof shall survive any termination of this Master Systems License and such System-Specific License.

(k) Miscellaneous

- (i)** The Seller/Servicer shall not assign any of its rights or obligations under this Master Systems License or any System-Specific License in any manner whatsoever without Freddie Mac's prior written consent.
- (ii)** All notices required or permitted hereunder, including, but not limited to, notice of an amendment to the terms of this Master Systems License or any System Specific License, shall be in accordance with Section 1101.2(d) or Section 1302.2(b), as applicable, and may be provided via the applicable System.
- (iii)** The failure of either party to exercise in any respect any right or remedy provided for in this Master Systems License shall not be deemed a waiver of such right or remedy. No waiver at any time of any provision of this Master Systems License or any System-Specific License (any such license, a "License") will be deemed a waiver of any other provision of that License or any other License, or a waiver of that or any other provision of this License or any other License at any other time.
- (iv)** The Seller/Servicer recognizes that it is responsible for (A) obtaining and maintaining connectivity to each System, and (B) developing and maintaining its own record-keeping processes and systems for Output, in each instance at its own expense in accordance with the Documentation.
- (v)** This Master Systems License and each System-Specific License will be construed, and the rights and obligations of the parties hereunder determined, in accordance with the laws of the Commonwealth of Virginia, without regard to provisions concerning conflicts of law. Any dispute arising out of or in connection with this Master Systems License and any System-Specific License shall be settled in a proceeding brought in the United States District Court for the Eastern District of Virginia, and the Seller/Servicer irrevocably submits to the jurisdiction and venue of that Court. Subject to the provisions of Section 2401.1(i) above, the rights and remedies of the parties are cumulative and are in addition to, and not in lieu of, all rights and remedies available at law and in equity.
- (vi)** If any provision of this Master Systems License or a System-Specific License is held invalid, illegal or unenforceable, such provision will to that extent be deemed omitted from this Master Systems License or such System-Specific License, and the remaining provisions of the Master Systems License or System-Specific License will continue to be valid and enforceable and will not be affected in any way.
- (vii)** This Master Systems License and each System-Specific License is binding upon the parties and (as permitted under Section 2401.1(k)(i)) their respective successors and

assigns. In the event of a conflict between a term or condition of this Master Systems License and a term or condition of any System-Specific License, the term or condition of the System-Specific License shall prevail.

- (viii) Freddie Mac may amend this Master Systems License and each System-Specific License by providing notice to the Seller/Servicer of the terms of such amendment in accordance with Section 2401.1(k)(ii). The Seller/Servicer's use of any System on and after the effective date of any such amendment shall constitute the Seller/Servicer's consent to, and agreement with, the terms of the amendment.

Chapter 2402: System-Specific Licenses for Selling Tools and Systems

2402.1: System-Specific License for Specifications (05/17/17)

(a) Scope and applicability

The Specifications are licensed pursuant to this System-Specific License and the Master Systems License.

Immediately upon a User's first receipt of any Specifications on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Consumer Message” means a finding or message developed by the Seller/Servicer that is readily understood by a consumer and is made available to such consumer by the Seller/Servicer through the Lender Platform
- “Interface” means one or more technical or user interfaces developed, owned and/or maintained by or on behalf of the Seller/Servicer that enables Users to communicate with and use one or more Systems through the transmission and receipt of data and other information to and from, each such System by means of the Lender Platform
- “L2C Specifications” means any lender-to-consumer Specifications provided to the Seller/Servicer that enable it to develop Consumer Messages
- “Lender Platform” means a custom loan origination or other technology platform (including any web-based application, software or system, as well as each Interface and all releases, upgrades and other modifications thereto) developed, owned and/or maintained by or on behalf of the Seller/Servicer
- “Lender Test Materials” has the meaning set forth in Section 2402.1(c)(v)

- “Specifications” mean the specifications, including L2C Specifications, integration guides and any related technical documentation provided by or on behalf of Freddie Mac to enable the development and maintenance of each Interface, and Consumer Message, as applicable, including any Specification Update
- “Specification Update” has the meaning set forth in Section 2402.1(c)(iii)

(c) Provision of the Specifications; development and use of the Interface

- (i) Freddie Mac shall provide discrete sets of Specifications to the Seller/Servicer to facilitate the Seller/Servicer’s development of Consumer Messages and one or more Interfaces relating to one or more Systems. Each set of Specifications is incorporated into this System-Specific License by this reference, and constitutes confidential information for purposes of Sections 1201.8 and 2401.1(g)(i). The terms and conditions of this System-Specific License shall apply to all Specifications separately provided by Freddie Mac.
- (ii) The Seller/Servicer shall develop and maintain the Interface and each Consumer Message solely and exclusively at its own direction, cost and expense, and shall have complete and exclusive ownership of the Interface and each Consumer Message subject to the license set forth in Section 2402.1(c)(vi).
- (iii) The Seller/Servicer shall be solely responsible for the accuracy, technical sufficiency and functionality of the Interface. The Interface shall at all times comply in all respects with the Specifications, including any modifications to or replacements of the Specifications (each such modified or replaced version of a Specification referred to herein as a “Specification Update”) as Freddie Mac may undertake from time to time.
- (iv) The Seller/Servicer shall be solely responsible for the accuracy of each Consumer Message, each of which shall at all times comply in all respects with (i) the Specifications, including the L2C Specifications, and (ii) all federal, State and local laws, rules and regulations applicable to a Consumer Message including, without limitation, the Real Estate Settlement Procedures Act, the Truth-in-Lending Act, the Fair Credit Reporting Act, the Equal Credit Opportunity Act and the Home Mortgage Disclosure Act and each of their implementing regulations and commentary, as applicable. Freddie Mac has the right, but not the obligation, to review and comment on each Consumer Message. The Seller/Servicer shall promptly make (or cause to be made) any modifications to a Consumer Message that Freddie Mac may request, and in no event shall any Consumer Message contain any (x) Output including, without limitation, any credit risk categorization or loan purchase eligibility such as “Accept” or “Eligible,” or (y) reference to Freddie Mac or a System which reference has not previously been approved in writing by an officer of Freddie Mac.
- (v) Except as set forth below in Section 2402.1(c)(vi), the Seller/Servicer and Freddie Mac may mutually agree to test the Seller/Servicer’s implementation of the Specifications. In such event, Freddie Mac may retain a third-party vendor to perform such testing on

Freddie Mac's behalf, and the Seller/Servicer shall provide to Freddie Mac and/or its vendor (i) one access privilege or one copy of the Lender Platform, (ii) one copy of each export and any other file (including any Consumer Message), along with any associated documentation that includes the results of the Seller/Servicer's testing (collectively with the Lender Platform, the "Lender Test Materials") and (iii) reasonable assistance in such testing. The Seller/Servicer shall use commercially reasonable efforts to correct any defects in the Interface revealed by any such testing. In addition to the foregoing, the Seller/Servicer will correct any "bugs" or other defects in the Interface promptly after it receives notice thereof from Freddie Mac.

- (vi) From time to time Freddie Mac may make Specification Updates available to the Seller/Servicer, which the Seller/Servicer shall implement in accordance with the timelines and testing requirements (if any) set forth in each Specification Update.
- (A) Freddie Mac will provide the Seller/Servicer with as much notice as is practicable under the circumstances with respect to each Specification Update, including any such update that Freddie Mac directs the Seller/Servicer to implement on an emergency basis
- (B) If Freddie Mac does not specify an implementation timeline for a Specification Update, the implementation date shall be ninety (90) days after publication of the Specification Update
- (C) If a Specification Update sets forth testing requirements, the Seller/Servicer shall not implement an associated version of its Interface or any related Consumer Message until Freddie Mac has successfully conducted its review and, as applicable, testing with the Seller/Servicer
- (vii) The Seller/Servicer hereby grants to Freddie Mac a royalty free, nonexclusive, nontransferable license to use the Lender Test Materials for testing and evaluation purposes as permitted under this Section 2402.1(c).

(d) Representations and warranties

In addition to representations and warranties made and otherwise referenced in the Master Systems License, the Seller/Servicer represents and warrants to Freddie Mac that (i) the Interface will comply with the Specifications, (ii) each Consumer Message will comply with all laws and regulations as set forth in Section 2402.1(c)(iv), (iii) the Interface will accurately transmit to the System all data and information input into the Interface, (iv) the Lender Platform will not violate any patents, copyrights or other proprietary rights belonging to third parties and (v) the Seller/Servicer will use its best efforts to ensure that the Lender Platform will at all times be and remain free of computer viruses and any code designed to cause the System to malfunction or self-destruct or to allow unauthorized access or cause harm to the System.

2402.2: System-Specific License for Freddie Mac Loan Advisor® (12/14/22)

(a) Scope and applicability

Freddie Mac Loan Advisor® is the collection of Systems and their associated services that is licensed pursuant to this System-Specific License, other System-Specific Licenses referenced in this Section 2402.2, and the Master Systems License.

Immediately upon a User's first access to any System within Freddie Mac Loan Advisor on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License (and, as applicable, any other System-Specific License governing such System) and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Correspondent Assignment Center” has the meaning set forth in Section 2402.2(k)
- “Freddie Mac Loan Advisor” is the collection of Systems and their associated services which currently include Condo Project Advisor®, Loan Closing Advisor®, Loan Collateral Advisor®, Loan Coverage Advisor®, Loan Product Advisor®, Loan Quality Advisor®, Loan Selling Advisor®, Portal Business Intelligence and Quality Control Advisor®, all as described in their respective Documentation
- “Portal/Business Intelligence” has the meaning set forth in Section 2402.2I
- “Uniform Appraisal Dataset” is a common data set that defines all fields required for an appraisal submission on specific appraisal forms, and standardizes definitions and responses for a key subset of data fields
- “Uniform Closing Dataset” is a common data set that allows information on the Settlement/Closing Disclosure Statement to be communicated electronically in a standardized format

- “Uniform Collateral Data Portal®” is a portal through which the Seller/Servicer submits appraisal data to Freddie Mac that conforms to the Uniform Appraisal Dataset standards and requirements. Uniform Collateral Data Portal is not a System, and is not to be construed as such.

(c) Portal/Business Intelligence

Portal/Business Intelligence is a System licensed pursuant to this System-Specific License that provides Authorized Users with access to certain other Systems, and which makes available certain dashboard and other tracking features and business intelligence functionality and reporting on various System usage and other trends (i.e., “Output,” within the meaning of the Master Systems License). The Output is generally based in significant part on data and other information Users submit to and through Portal/Business Intelligence and other Systems accessed through Portal/Business Intelligence.

(d) Loan Product Advisor

Loan Product Advisor is licensed pursuant to Section 2402.3.

(e) Loan Quality Advisor

Loan Quality Advisor is licensed pursuant to Section 2402.4.

(f) Loan Collateral Advisor

Loan Collateral Advisor is a System licensed pursuant to this System-Specific License that Authorized Users may use to submit appraisal files to the System via the Uniform Collateral Data Portal. Authorized Users shall submit such files in a format that is consistent with the Uniform Appraisal Dataset requirements. Utilizing proprietary and publicly available databases, Loan Collateral Advisor performs assessments of (i) appraisers’ opinions of value, (ii) appraisal quality, and (iii) support for value conclusions in any files so submitted, and returns findings (i.e., “Output,” within the meaning of the Master Systems License) to Authorized Users.

Without limiting the generality of any provision of the Master Systems License or this System-Specific License, Seller/Servicer shall not distribute to or otherwise share any Loan Collateral Advisor Output with an appraiser where such Output specifically relates to an appraisal generated by such an appraiser.

(g) Loan Closing Advisor

Loan Closing Advisor is a System licensed pursuant to this System-Specific License that Authorized Users may use to submit loan files containing data obtained at settlement to the System. Authorized Users shall submit such files in a format that is consistent with the Uniform Closing Dataset requirements. Loan Closing Advisor will evaluate each such loan

file against the Uniform Closing Dataset and other data values and provide related findings as to various data validation and other data quality issues (i.e., “Output,” within the meaning of the Master Systems License) to Authorized Users.

(h) Loan Coverage Advisor

Loan Coverage Advisor is licensed pursuant to Section 2402.5.

(i) Loan Selling Advisor

Loan Selling Advisor is licensed pursuant to Section 2402.6.

(j) Quality Control Advisor

Quality Control Advisor is licensed pursuant to Section 2402.8.

(k) Condo Project Advisor

Condo Project Advisor is a System licensed pursuant to this System-Specific License that Authorized Users may use to:

- Request approvals for single-unit condominium exceptions. Condo Project Advisor will assess each such request, and, if granted, provide approval and related findings (i.e., “Output,” within the meaning of the Master Systems License) to Authorized Users.
- Submit a Condominium Project name. Condo Project Advisor will compare the project name to existing project names that have been evaluated against proprietary and publicly available databases to assess if certain project review requirements are met and provide approval and related findings (i.e., “Output,” within the meaning of the Master Systems License) to Authorized Users.

2402.2: System-Specific License for Freddie Mac Loan Advisor® (Future effective date 07/28/23)

(a) Scope and applicability

Freddie Mac Loan Advisor® is the collection of Systems and their associated services that is licensed pursuant to this System-Specific License, other System-Specific Licenses referenced in this Section 2402.2, and the Master Systems License.

Immediately upon a User’s first access to any System within Freddie Mac Loan Advisor on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License (and, as applicable, any other System-Specific License governing such System) and

the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Correspondent Assignment Center” has the meaning set forth in Section 2402.2(k)
- “Freddie Mac Loan Advisor” is the collection of Systems and their associated services which currently include Condo Project Advisor®, Loan Closing Advisor®, Loan Collateral Advisor®, Loan Coverage Advisor®, Loan Product Advisor®, Loan Quality Advisor®, Loan Selling Advisor®, Portal Business Intelligence and Quality Control Advisor®, all as described in their respective Documentation
- “Portal/Business Intelligence” has the meaning set forth in Section 2402.2(c)
- “Uniform Appraisal Dataset” is a common data set that defines all fields required for an appraisal submission on specific appraisal forms, and standardizes definitions and responses for a key subset of data fields
- “Uniform Closing Dataset” is a common data set that allows information on the Settlement/Closing Disclosure Statement to be communicated electronically in a standardized format
- “Uniform Collateral Data Portal®” is a portal through which the Seller/Servicer submits appraisal data to Freddie Mac that conforms to the Uniform Appraisal Dataset standards and requirements. Uniform Collateral Data Portal is not a System, and is not to be construed as such.

(c) Portal/Business Intelligence

Portal/Business Intelligence is a System licensed pursuant to this System-Specific License that provides Authorized Users with access to certain other Systems, and which makes available certain dashboard and other tracking features and business intelligence functionality and reporting on various System usage and other trends (i.e., “Output,” within the meaning of the Master Systems License). The Output is generally based in significant part on data and other information Users submit to and through Portal/Business Intelligence and other Systems accessed through Portal/Business Intelligence.

(d) Loan Product Advisor

Loan Product Advisor is licensed pursuant to Section 2402.3.

(e) Loan Quality Advisor

Loan Quality Advisor is licensed pursuant to Section 2402.4.

(f) Loan Collateral Advisor

Loan Collateral Advisor is a System licensed pursuant to this System-Specific License that Authorized Users may use to submit appraisal files to the System via the Uniform Collateral Data Portal. Authorized Users shall submit such files in a format that is consistent with the Uniform Appraisal Dataset requirements. Utilizing proprietary and publicly available databases, Loan Collateral Advisor performs assessments of (i) appraisers' opinions of value, (ii) appraisal quality, and (iii) support for value conclusions in any files so submitted, and returns findings (i.e., "Output," within the meaning of the Master Systems License) to Authorized Users.

Without limiting the generality of any provision of the Master Systems License or this System-Specific License, Seller/Servicer shall not distribute to or otherwise share any Loan Collateral Advisor Output with an appraiser where such Output specifically relates to an appraisal generated by such an appraiser.

(g) Loan Closing Advisor

Loan Closing Advisor is a System licensed pursuant to this System-Specific License that Authorized Users may use to submit loan files containing data obtained at settlement to the System. Authorized Users shall submit such files in a format that is consistent with the Uniform Closing Dataset requirements. Loan Closing Advisor will evaluate each such loan file against the Uniform Closing Dataset and other data values and provide related findings as to various data validation and other data quality issues (i.e., "Output," within the meaning of the Master Systems License) to Authorized Users.

(h) Loan Coverage Advisor

Loan Coverage Advisor is licensed pursuant to Section 2402.5.

(i) Loan Selling Advisor

Loan Selling Advisor is licensed pursuant to Section 2402.6.

(j) Quality Control Advisor

Quality Control Advisor is licensed pursuant to Section 2402.8.

(k) Condo Project Advisor

Condo Project Advisor is a System licensed pursuant to this System-Specific License that Authorized Users may use to:

- Request approvals for single-unit condominium exceptions. Condo Project Advisor will assess each such request, and, if granted, provide approval and related findings (i.e., “Output,” within the meaning of the Master Systems License) to Authorized Users.
- Submit a Condominium Project name. Condo Project Advisor will compare the project name to existing project names that have been assessed to determine if certain project review requirements are met and provide related findings (i.e., “Output,” within the meaning of the Master Systems License) to Authorized Users.

2402.3: System-Specific License for Loan Product Advisor[®] (05/04/22)

(a) Scope and applicability

Loan Product Advisor[®] is the System licensed pursuant to this System-Specific License and the Master Systems License. As set forth in its Documentation, Loan Product Advisor is a successor System to Loan Prospector[®].

Immediately upon a User’s first access to Loan Product Advisor on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Applicant” means any consumer with respect to whom Loan Application Information is submitted to the System
- “Closed Loan” has the meaning set forth in Section 2402.3(c)
- “Credit Report” has the meaning set forth in Section 2402.3(d)(i)
- “Credit Reporting Agency” has the meaning set forth in Section 2402.3(d)(i)

- “Eligible Mortgage” has the meaning set forth in Section 2402.3(f)(i)
- “HVE®” is the System described in its Documentation and licensed pursuant to Section 2402.7
- “Loan Application Information” means data and information concerning any actual and/or potential Mortgage (including Credit Reports) a User submits to the System
- “Open Loan” has the meaning set forth in Section 2402.3(c)

(c) License limitation

In addition to the provisions of Section 2401.1(c), an Authorized User may enter data into the System solely in connection with (1) an existing Mortgage in which the Seller/Servicer or a Related Third Party has a beneficial ownership interest (i.e., a “Closed Loan”), or (2) a potential Mortgage for which Loan Application Information has been obtained by the Seller/Servicer or a Related Third Party (i.e., an “Open Loan”). Freddie Mac may include additional limitations in the Documentation on the types of Open Loans, Closed Loans, Mortgages and Loan Application Information that may be submitted to the System.

(d) Credit Report retrieval

- (i)** With respect to any Closed Loan or Open Loan submitted to the System, the Seller/Servicer may use the System to request and obtain a consumer credit report (“Credit Report”) on Applicant(s) and/or Borrower(s) associated with such loans from a credit repository or credit bureau (each a “Credit Reporting Agency”). To effect any such request for and receipt of a Credit Report, the Seller/Servicer shall submit to the Credit Reporting Agency, via the System, its subscriber number(s), including any merged credit reference number and/or other authenticating credential(s) issued to the Seller/Servicer under its contract with the Credit Reporting Agency.
- (ii)** With respect to any Credit Report retrieved as set forth in this Section 2402.3(d), the Seller/Servicer hereby:
 - (A)** Certifies that it has a permissible purpose under applicable State and federal fair credit reporting laws to obtain the Credit Report retrieved in conjunction with an Open Loan or a Closed Loan
 - (B)** Authorizes the System, on behalf of the Seller/Servicer, to retrieve, process, assess, store and share with its Related Third Parties the Credit Report; and
 - (C)** Appoints the System as its limited agent for the sole purpose of having the System effect such Credit Report retrieval, processing, assessment, storage and sharing with the Seller/Servicer and its Related Third Parties.

- (iii) This System-Specific License does not create any principal or agency relationship other than the limited agency set forth in the preceding Section 2402.3(d)(ii)(C), and (except with respect to its agency relationship required under Section 2401.1(e)(iv) of the Master Systems License), the Seller/Servicer shall not assert or represent to any third party the existence of any other principal or agency relationship arising from or in connection with this System-Specific License or otherwise.
- (iv) The Seller/Servicer acknowledges and agrees that Credit Reports constitute System Data for purposes of Chapter 2401.

(e) HVE® Data

- (i) From time to time, the Seller/Servicer may receive HVE Data (as defined in Section 2402.7(b)) directly through Loan Product Advisor (as opposed to by means of an authorized HVE distributor or re-seller).
- (ii) Immediately upon a User's first receipt of HVE Data via Loan Product Advisor, the Seller/Servicer shall be bound by the HVE System-Specific License (see Section 2402.7).

(f) Excess capacity timesharing

- (i) Freddie Mac provides the System in part to assist the Seller/Servicer in assessing whether an actual or potential Mortgage may be eligible for sale to Freddie Mac, which eligibility is determined, among other things, by the Mortgage amount not exceeding the UPB amount that Freddie Mac is permitted to purchase (any such Mortgage, an "Eligible Mortgage").
- (ii) The System has excess capacity beyond that required for identifying Eligible Mortgages, and the Seller/Servicer may, consistent with the Purpose and on a timesharing basis, use the System to assess Mortgages other than Eligible Mortgages.

(g) Related Third Parties; Servicing transfers and sales; prospective purchasers

- (i) The Seller/Servicer may from time to time purchase or consider purchasing a Mortgage from a Related Third Party that such Related Third Party processed through the System. The Seller/Servicer shall not rely on any Output provided to the Related Third Party with respect to any such Mortgage, but, rather, shall rely exclusively on any representations and warranties made by the Related Third Party in connection with the Seller/Servicer's actual or potential purchase of such Mortgage.
- (ii) With respect to any Mortgage processed through the System for which the Seller/Servicer seeks to or does effect a Concurrent Transfer of Servicing, Subsequent Transfer of Servicing or sale of such Mortgage, the Seller/Servicer may provide the Output associated with such Mortgage to the Transferee Servicer or purchaser prior to and after the Transfer of Servicing or sale; provided, however, that the Seller/Servicer binds the Transferee Servicer or purchaser, as applicable, to non-disclosure obligations that are

substantially similar to those in the Guide to which the Seller/Servicer is bound with respect to the Output. Under no other circumstances shall the Seller/Servicer or any Related Third Party provide any Output to any other third party, except to a consumer to whom such Output relates upon his or her request.

- (iii) Seller may share a Feedback Certificate with a third-party service provider in connection with a securitization or with a prospective purchaser, provided the following requirements are met:

- (A) The Feedback Certificate relates to a Closed Loan
- (B) The Feedback Certificate is shared solely for the purpose of the assessment of the Mortgage associated with the Feedback Certificate in order to determine eligibility for a related pool/security or to make a purchase decision regarding the Mortgage
- (C) The Feedback Certificate includes, or the Seller has provided to the third-party service provider or prospective purchaser in writing concurrently with its sharing of the Feedback Certificate, the following notice:

This Feedback Certificate (i) is not a consumer report; (ii) does not constitute an approval or denial by Loan Product Advisor or Freddie Mac of any consumer loan application; (iii) may only be shared or distributed by the Loan Product Advisor licensee, including the Seller/Servicer, as permitted in Freddie Mac Seller/Servicer Guide Sections 2401.1 and 2402.3

(h) Representations and warranties

Without limiting the representations, warranties and agreements set forth in Section 2401.1(h), the Seller/Servicer further represents, warrants and agrees that:

- (i) Each Seller/Servicer shall provide any adverse action or other notice as and in the manner required under applicable law to be provided to an Applicant for which the Seller/Servicer or, as applicable, a Related Third Party, has taken “adverse action” (as that term is defined under applicable law) with respect to such Applicant, and
- (ii) It shall exercise its own independent judgment in determining (A) whether to extend credit, or (B) the terms of any credit offered, and shall not rely on any Output as the determining factor in its decisions.

2402.4: System-Specific License for Loan Quality Advisor[®] (09/14/17)

(a) Scope and applicability

Loan Quality Advisor[®] is the System licensed pursuant to this System-Specific License and the Master Systems License.

Immediately upon a User's first access to Loan Quality Advisor on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Applicant” means any consumer with respect to whom Loan Application Information is submitted to the System
- “Closed Loan” has the meaning set forth in Section 2402.4(c)
- “Credit Report” has the meaning set forth in Section 2402.4(d)(i)
- “Credit Reporting Agency” has the meaning set forth in Section 2402.4(d)(i)
- “Loan Application Information” means data and information concerning any actual and/or potential Mortgage (including Credit Reports) a User submits to the System
- “Open Loan” has the meaning set forth in Section 2402.4(c)

(c) License limitation

In addition to the provisions of Section 2401.1(c), an Authorized User may enter data into the System solely in connection with (1) an existing Mortgage in which the Seller/Servicer or a Related Third Party has a beneficial ownership interest (i.e., a “Closed Loan”), or (2) a potential Mortgage for which Loan Application Information has been obtained by the Seller/Servicer or a Related Third Party (i.e., an “Open Loan”). Freddie Mac may include additional limitations in the Documentation on the types of Closed Loans, Open Loans, Mortgages and Loan Application Information that may be submitted to the System.

(d) Credit Report retrieval

- (i)** With respect to any Closed Loan or Open Loan submitted to the System, the Seller/Servicer may use the System to request and obtain a consumer credit report (“Credit Report”) on Applicant(s) and/or Borrower(s) associated with such loans from a credit repository or credit bureau (each a “Credit Reporting Agency”). To effect any such request for and receipt of a Credit Report, the Seller/Servicer shall submit to the Credit Reporting Agency, via the System, its subscriber number(s), including any merged credit reference number and/or other authenticating credential(s) issued to the Seller/Servicer under its contract with the Credit Reporting Agency.
- (ii)** With respect to any Credit Report retrieved as set forth in this Section 2402.4(d), the Seller/Servicer hereby:
 - (A)** Certifies that it has a permissible purpose under applicable State and federal fair credit reporting laws to obtain the Credit Report retrieved in conjunction with an Open Loan or a Closed Loan
 - (B)** Authorizes the System, on behalf of the Seller/Servicer, to retrieve, process, assess, store and share with its Related Third Parties the Credit Report; and
 - (C)** Appoints the System as its limited agent for the sole purpose of having the System effect such Credit Report retrieval, processing, assessment, storage and sharing with the Seller/Servicer and its Related Third Parties
- (iii)** This System-Specific License does not create any principal or agency relationship other than the limited agency set forth in the preceding Section 2402.4(d)(ii)(C), and (except with respect to its agency relationship required under Section 2401.1(e)(iv) of the Master Systems License), the Seller/Servicer shall not assert or represent to any third party the existence of any other principal or agency relationship arising from or in connection with this System-Specific License or otherwise.
- (iv)** The Seller/Servicer shall establish or, as applicable, amend separate contractual relationships with any Credit Reporting Agency from which the System retrieves a Credit Report as set forth in this Section 2402.4(d) to require the Consumer Reporting Agency to denote in a consumer's file that any Credit Report retrieved through the System on an Open Loan or a Closed Loan is an account review inquiry, or "soft pull," as that term is commonly understood in the credit reporting industry.
- (v)** The Seller/Servicer acknowledges and agrees that Credit Reports constitute System Data for purposes of Chapter 2401.

(e) Representations and warranties

Without limiting the representations, warranties and agreements set forth in Section 2401.1(h), the Seller/Servicer further represents, warrants and agrees that:

- (i) It shall use the System solely in connection with Open Loans and Closed Loans for purposes of (A) obtaining the System's view of the risk associated with such loan, (B) determining whether such loan may be eligible for sale to Freddie Mac, (C) validating that the data associated with the last file submission in Loan Product Advisor® is the same as that in the file currently submitted through the System, and (D) obtaining an assessment of whether such loan, if sold to Freddie Mac, might be eligible for certain representation and warranty relief; and
- (ii) It shall not use the System as a basis for any credit determination.

(f) Additional system disclaimer

IN ADDITION TO AND NOT IN LIMITATION OF ANY DISCLAIMER IN SECTION 2401.1(i), ANY COLOR DESIGNATION (INCLUDING ANY SUCH DESIGNATION EMBEDDED IN AN ICON) GENERATED BY THIS SYSTEM AS PART OF ANY RISK ASSESSMENT OUTPUT IS INTENDED ONLY AS A VISUAL GUIDE FOR INDICATING THE RISK CLASS ASSOCIATED WITH THE DATA FILE. SUCH DESIGNATION AND ICON ARE NOT PROVIDED FOR ANY OTHER REASON, NOR SHOULD THEY BE USED OR RELIED UPON EXCEPT FOR PURPOSES OF TRIGGERING DATA FILE REVIEWS AS SET FORTH IN THE LICENSED MATERIALS.

2402.5: System-Specific License for Loan Coverage Advisor® (07/11/16)

(a) Scope and applicability

Loan Coverage Advisor® is the System licensed pursuant to this System-Specific License and the Master Systems License.

Immediately upon a User's first access to Loan Coverage Advisor on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definition below applies for purposes of this System-Specific License. Any capitalized term used but not defined in this System-Specific License shall have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

“Loan Coverage Advisor Output” means Output generated by Loan Coverage Advisor.

(c) Loan Coverage Advisor; Source of Loan Coverage Advisor output

- (i)** As more fully described in its Documentation, Loan Coverage Advisor calculates, tracks and publishes the date on which the Seller/Servicer is relieved of certain specified selling representations and warranties related to its underwriting of the Borrower, Mortgaged Premises and any project in which the Mortgaged Premises is located for Mortgages sold to Freddie Mac.
- (ii)** Loan Coverage Advisor Output is provided to the Seller/Servicer for informational purposes to assist it in assessing its potential liabilities for representation and warranty obligations to Freddie Mac, and is based on or derived directly from the following:
 - (A)** Loan-level delivery data provided by the original Seller/Servicer of each Mortgage in connection with Freddie Mac’s purchase of such Mortgage, and any additional or corrective loan delivery data provided by the Seller/Servicer after such Mortgage purchase; and
 - (B)** Investor accounting and reporting data provided by the Seller/Servicer to Freddie Mac as required by the Guide
- (iii)** All Loan Coverage Advisor Output is subject to final verification for accuracy by Freddie Mac. This may result in a change in the date upon which certain of the Seller/Servicer's representations and warranties expire under Section 1301.11.
- (iv)** If the Seller/Servicer finds that any Loan Coverage Advisor Output is not consistent with the Seller/Servicer's loan data, including the loan-level delivery data, or the investor accounting and reporting data for any Mortgage, the Seller/Servicer should contact its Freddie Mac representative or 800-FREDDIE.

2402.6: System-Specific License for Loan Selling Advisor[®] (09/10/18)

(a) Scope and applicability

Loan Selling Advisor[®] is licensed pursuant to this System-Specific License and the Master Systems License.

Immediately upon a User’s first access to Loan Selling Advisor on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific

License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

Any capitalized term used but not defined in this System-Specific License shall have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

(c) Limitation on Authorized Users

Notwithstanding anything to the contrary in Section 2401.1, only employees of a Seller, a Selling Agent, a Document Custodian, a Warehouse Lender or other Related Third Party shall be Authorized Users under Section 2401.1, the Guide and other Purchase Documents. Accordingly, and for the avoidance of doubt, Seller shall provide or make access to the System available only to its employees, employees of its Selling Agent, Document Custodians, Warehouse Lenders and other Related Third Parties, subject to the limitations and requirements of Section 2401.1, the Guide and other Purchase Documents.

(d) Relation to Chapter 2403

This Section 2402.6 is in addition to and not in limitation of Chapter 2403, the latter of which addresses rights and obligations associated with the sale of Mortgages to Freddie Mac by means of Loan Selling Advisor.

2402.7: System-Specific License for HVE® (10/02/19)

(a) Scope and applicability

HVE® is the System licensed pursuant to this System-Specific License and the Master Systems License.

Immediately upon the first to occur on or after the Effective Date of a User's (i) receipt of HVE Data as provided under Section 2402.3(e), or (ii) access to HVE, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Any capitalized term used but not defined in this System-Specific License shall have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Affiliated Third Parties” means third-party brokers, correspondent lenders and Outsourced Vendors who are contractually affiliated with the Seller/Servicer.
- “HVE Data” means Output generated by HVE, as described in the Documentation.
- “Legal Requirements” has the meaning set forth in Section 2402.7(c)(iii).

(c) Uses, disclosure and copying of HVE Data

The provisions of this Section 2402.7(c) shall be in addition to and not in limitation of Sections 1201.8 and 2401.1(g)(i).

- (i)** The Seller/Servicer shall treat all HVE Data as strictly confidential. Without limiting the foregoing:
 - (A)** The Seller/Servicer shall keep all HVE Data, including any notes, files or reports that are based on HVE Data, confidential except to the extent Freddie Mac agrees otherwise in writing; and
 - (B)** Except to the extent otherwise (1) agreed upon by Freddie Mac in writing, (2) required under the Home Mortgage Disclosure Act and its implementing regulations and associated regulatory guidance, or (3) expressly permitted in this System-Specific License, the Seller/Servicer shall not disclose HVE Data, except to its employees, contractors and Affiliated Third Parties who need access to such data for the Seller/Servicer’s and Affiliated Third Parties’ internal mortgage business purposes and use it only for the purposes permitted herein
- (ii)** The Seller/Servicer shall exercise at least the same degree of care to preserve the confidentiality of the HVE Data that it exercises to protect its own confidential information of a similar level of sensitivity, but in no event less than a reasonable standard of care. Without limiting the application of Section 2401.1(h), in its use of HVE Data, the Seller/Servicer shall comply with all applicable laws, including, but not limited to, the privacy provisions of the Gramm-Leach-Bliley Act of 1999 (Public Law 106-102, 113 Stat. 1138), as it may be amended from time to time, and the applicable regulations promulgated thereunder, as such regulations are amended from time to time.
- (iii)** The Seller/Servicer also may disclose HVE Data to the extent, and only to the extent, necessary to comply with orders or subpoenas issued by a court of competent jurisdiction or with regulatory examiners with jurisdiction over the Seller/Servicer, or to the extent otherwise required by applicable law (the “Legal Requirements”), provided that prior to any particular such disclosure:
 - (A)** The Seller/Servicer provides to Freddie Mac reasonable notice of the Legal Requirement and takes, at its own expense, such actions as may be necessary or reasonably requested by Freddie Mac to provide Freddie Mac with a reasonable

opportunity to seek either a protective order or otherwise to minimize the required disclosure; and

(B) The Seller/Servicer notifies all auditors and regulators and any other recipients of the HVE Data in writing that the HVE Data may not be copied or used for any purpose other than review or examination of the Seller/Servicer except to the extent ordered by a court of competent jurisdiction, and, further, that the HVE Data is proprietary to Freddie Mac and its use is strictly limited under Chapter 2401 and this Section 2402.7.

- (iv) If the Seller/Servicer is contemplating (A) a Concurrent Transfer of Servicing or a Subsequent Transfer of Servicing, or (B) the sale of any Mortgages for which HVE Data provided by Freddie Mac may be retained in the Mortgage file, the Seller/Servicer shall have the right to disclose the HVE Data with respect to the Mortgages included in such Transfer of Servicing or such sale, as the case may be, to the Transferee Servicer or purchaser.
- (v) If the Seller/Servicer uses the HVE Data as permitted in this System-Specific License, and such use results in a Mortgage or mortgage insurance related decision that has a direct financial impact on the Borrower, the HVE Data in question may be disclosed to the Borrower. In addition, the Seller/Servicer may disclose to the loan applicant(s) HVE Data developed in connection with the Seller/Servicer's credit determination. When disclosing the HVE Data to a Borrower or loan applicant, unless Freddie Mac notifies the Seller/Servicer to use a different disclaimer, the Seller/Servicer should include the following:

DISCLAIMER:

Data are generated by Freddie Mac's proprietary automated property valuation product, Home Value Explorer® (HVE®). HVE values are calculated using various models and techniques proprietary to Freddie Mac. An HVE value is not an appraisal and is not prepared by a certified or licensed appraiser. A lender may have used a different property value to make its credit determination. If you have questions regarding Freddie Mac's HVE information, please see Freddie Mac's website at <https://sf.freddiemac.com/tools-learning/home-value-suite/home-value-explorer>.

Home Value Explorer® and HVE® are registered trademarks of Freddie Mac. All rights reserved.

(d) Permitted uses; restrictions on use

The provisions of this Section 2402.7(d) shall be in addition to and not in limitation of Section 2401.1(c)(i).

- (i) The Seller/Servicer may disclose and use HVE Data (A) in connection with activities associated with the origination of a Freddie Mac Enhanced Relief Refinance® Mortgage

backed by the value of the collateral, and (B) to review a property value included in an appraisal provided during the loan origination process.

- (ii) Any use other than those specified in Section 2402.7(d)(i) is prohibited unless Freddie Mac consents to the use in writing. The following are three examples of prohibited uses:
 - (A) Any use that could be construed as being connected to “predatory lending” such as generating high-rate/high cost loans covered by the Home Ownership and Equity Protection Act of 1994 (HOEPA);
 - (B) Uses associated with identifying potential customers, including but not limited to generating marketing or mailing lists for solicitation purposes, except to the extent expressly permitted by Freddie Mac in writing; and
 - (C) Uses associated with endeavoring to reverse engineer HVE Data to discover the underlying models
- (iii) HVE Data must be clearly identified as Freddie Mac property and cannot be presented as any other brand or merged with valuation data generated by any other model.
- (iv) The Seller/Servicer may not make HVE Data available or disclose it to (A) any agency, instrumentality or entity formed or controlled by a State, city or local government, or (B) any agency or instrumentality of the United States government, except as required by applicable law.

(e) Intellectual property rights

The provisions of this Section 2402.7(e) shall be in addition to and not in limitation of Section 2401.1(g).

- (i) The models underlying HVE Data and all HVE Data are the sole and exclusive property of Freddie Mac, and Freddie Mac reserves all rights thereto. HVE Data provided to the Seller/Servicer have not been, and are not being, sold to the Seller/Servicer. The Seller/Servicer shall have no title or ownership interest in the models underlying HVE Data, in HVE Data or in any copies thereof.
- (ii) The Seller/Servicer may not reverse engineer, modify, summarize, add to or delete information from the HVE Data or create derivative products from the HVE Data. Nothing herein shall be deemed to transfer to the Seller/Servicer any rights in any Freddie Mac trademark, patent, copyright or other intellectual property.
- (iii) In the event Freddie Mac receives notice of any claim that either the HVE Data or the model underlying the HVE Data violate or infringe on any patent, trade secret, copyright or other proprietary right of any third party, Freddie Mac may elect to suspend or

terminate the Seller/Servicer's right to use HVE Data, which action shall in no event be deemed to give rise to any claim against Freddie Mac.

(f) Relation to other agreements

This System-Specific License and the Master Systems License constitute the only agreement relating to Freddie Mac's provision of HVE Data directly to the Seller/Servicer by any means (electronic or otherwise). For the avoidance of doubt, if the Seller/Servicer has (i) executed an "End-User Agreement" with an authorized "reseller" of the System, (ii) executed a "Reseller Agreement" with an authorized "Distributor" of the System, or (iii) entered into a "Distributor Agreement" with Freddie Mac, the terms of such agreements do not apply to the provision of HVE Data directly to the Seller/Servicer outside of the distribution channel provided for in such agreements.

2402.8: System-Specific License for Quality Control Advisor[®] (06/26/17)

(a) Scope and applicability

Quality Control Advisor[®] is the System licensed pursuant to this System-Specific License and the Master Systems License. Quality Control Advisor hosts certain remedy management information and quality control loan management data for Mortgages Freddie Mac owns or guarantees.

Immediately upon a User's first access to the System on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

(b) Definitions

Any capitalized term used but not defined in this System-Specific License shall have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

(c) System access and use; loan classification

Notwithstanding anything to the contrary in Section 2401.1(c)(i), the Seller/Servicer shall use the System only in connection with Mortgages that Freddie Mac owns or guarantees. Notwithstanding Section 2401.1(f) or any other applicable Purchase Document, the Seller/Servicer shall only access and use the System with Authentication Credentials and

other Confidential Means of Access that are specifically assigned or provisioned to an Authorized User by means of the System.

In connection with its quality control efforts, Freddie Mac may classify within the System the loan and remedy management status of the Seller/Servicer Mortgages or otherwise assign labels to such Mortgages. The Seller/Servicer understands and agrees that any such classifications, labels or designations that Freddie Mac assigns to Mortgages tracked in the System do not constitute a waiver by Freddie Mac of any rights and remedies available to it under the Guide, any other Purchase Document or applicable law with respect to any such Mortgage, and Freddie Mac hereby expressly reserves all such rights and remedies.

2402.9: System-Specific License for Freddie Mac Servicing Data Corrections (12/09/19)

Effective December 9, 2019, this section has been deleted.

Chapter 2403: Selling Mortgages through Loan Selling Advisor[®]

2403.1: Sale of Mortgages through Loan Selling Advisor[®] (12/11/17)

This chapter sets forth requirements for the sale of Mortgages through Loan Selling Advisor[®].

By virtue of its use of Loan Selling Advisor, each Seller agrees to be bound by the Purchase Documents including, but not limited to, Chapter 1401, the applicable terms of this chapter, the terms of any additional Guide chapters or other Purchase Documents.

This Section 2403.1 is in addition to, and not in limitation of, Chapter 2401 and Section 2402.6, which address the license terms applicable to the Sellers' and Selling Agents' use of Loan Selling Advisor in connection with the sale of Mortgages to Freddie Mac.

2403.2: Termination of eligibility (12/11/17)

Effective December 11, 2017, the content of this section has moved from Section 2403.4.

The Seller acknowledges and agrees that at any time and in addition to any other remedies Freddie Mac is entitled to under the Purchase Documents, Freddie Mac (i) may revoke or suspend its consent for a Seller to use the provisions of this chapter or any chapter providing terms for the sale of Mortgages to Freddie Mac using Loan Selling Advisor[®] and (ii) may terminate a Seller's eligibility to use any application or functionality within Loan Selling Advisor.

2403.3: Use of Selling Agents (02/02/22)

(a) Definitions

Capitalized terms used herein, but not defined herein have the meanings set forth in the Glossary, Form 478, Secondary Market Advisor Selling Agent Agreement, Chapter 2401, Chapter 2402 or elsewhere in the Guide.

(b) Use of Selling Agent

A Secondary Market Advisor (SMA) and the Seller engaging the SMA must request Freddie Mac's consent for the SMA to access and enter Loan Selling Advisor[®] to perform secondary

market services for the Seller on the Seller's behalf, as Selling Agent, for each such Seller. The Seller and the SMA must comply with the following:

- Every SMA must complete, execute and deliver to Freddie Mac a one-time Form 478. A single Form 478 applies to all Sellers for which secondary market services are performed.
- The SMA must enter, or have entered, into a services agreement with one or more Sellers
- The Seller must designate duly authorized employees, as described in Section 2403.11, of the Selling Agent who have been assigned roles ("User Roles") to access, enter and use Loan Selling Advisor, on behalf of their employer, the Selling Agent, to perform services for the Seller.

For cash or guarantor executions, the User Roles may be as follows: Closer/Shipper, Exclusionary List, Loan Manager, Pipeline Manager and Secondary Analyst. The specific roles for cash executions may be Cash SMO or Price Sheet Analyst. The specific roles for guarantor executions may be Guarantor SMO, Security Wire Assignor or Rate Sheet Analyst.

Immediately upon any of the SMA's duly authorized employee's first access to Loan Selling Advisor, the Seller, by and through the SMA, as Selling Agent, shall be bound by the terms and conditions of Sections 2401.1 and 2402.6.

(c) Selling Agent and Related Third Party

The SMA agrees that if Freddie Mac gives the SMA access to Loan Selling Advisor to perform secondary market services for a Seller, as principal, the SMA shall do so as such Seller's duly authorized Selling Agent and a Related Third Party as defined in the Glossary.

(d) Former Form 900SA exception

Any Seller that has: (i) an SMA that is performing secondary market services for the Seller in Loan Selling Advisor under a services agreement, (ii) completed, signed and delivered to Freddie Mac either a form titled "Selling System Price Sheet Analyst User ID Request Form" and/or Form 900SA and/or Form 900 that was delivered to Freddie Mac on or before April 2, 2022, and (iii) authorized the SMA's authorized employees to perform secondary market services in Loan Selling Advisor (excluding the User Roles of Setup Administrator or Setup Manager), is not immediately required to identify User Roles as required in Section 2403.11 to Freddie Mac, **unless and until** it is necessary to do so because the SMA and/or Seller need to: (A) add, modify or delete any SMA authorized employees and/or (B) add or change secondary market services and "User Roles."

(e) Loan Selling Advisor access and security

The Seller and Selling Agent both acknowledge and agree that Loan Selling Advisor is Freddie Mac's proprietary system and access to Loan Selling Advisor is provided by Freddie

Mac in its sole and absolute discretion. The Seller and Selling Agent also agree that each will keep the Seller-provided information updated and current by making sure that the authorized users identified are accurate and true. Changes to the authorized users identified must be made according to this section and Sections 2401.1(f) and 2403.11.

The Seller and Selling Agent represent and warrant to (and covenant with) Freddie Mac that only duly authorized employees of the SMA have been provided with their own individual access to Loan Selling Advisor. Without limiting the application of any other representation or warranty to (or covenant with) Freddie Mac under the Guide or any other agreement, the Seller and Selling Agent further represent and warrant to (and covenant with) Freddie Mac that the Seller and Selling Agent shall:

- Safeguard User IDs and passwords to Loan Selling Advisor
- Adopt security measures to prevent sharing, loss, theft, or unauthorized disclosure or use of User IDs and passwords to Loan Selling Advisor and information in Loan Selling Advisor
- Notify Freddie Mac as soon as practicable and, in any event, no later than within one Business Day in the event:
 - Any authorized User's (a) name change, (b) position/title change, (c) employment termination, (d) authorization termination or (e) authorization expiration.
Notification may be made by submitting changes per Section 2403.11 or by emailing Freddie Mac at csa_operations@freddiemac.com.
 - Of any loss, theft or unauthorized disclosure or use of any authorized User's User ID and password to Loan Selling Advisor by emailing Freddie Mac at csa_operations@freddiemac.com; and
 - Either the Seller or Selling Agent become aware of or has reason to believe that an authorized user's access to Loan Selling Advisor is no longer secure for any reason by emailing Freddie Mac at csa_operations@freddiemac.com

(f) Indemnification

Without limiting the application of any other representation or warranty to (or covenant with) Freddie Mac under the Guide or any other agreement, the Seller hereby indemnifies and holds Freddie Mac and its respective directors, officers, employees, agents, designees, successors and assigns harmless for any and all liabilities, obligations, damages, penalties, actions, judgments, suits, disbursements, losses, costs and expenses of any kind or nature, including reasonable legal fees and expenses of counsel, court costs and costs of appeal which may be imposed on, incurred by, or asserted against Freddie Mac as the result of any of Selling Agent's errors, omissions, negligence, breaches, gross negligence, willful misconduct or malicious conduct when accessing, entering and/or using Loan Selling Advisor.

(g) Form 478

Every SMA which is already in Loan Selling Advisor on behalf of a Seller must complete, execute and deliver Form 478 to Freddie Mac. Failure to do so may result in suspension of the SMA's access to Loan Selling Advisor.

2403.4: Termination of eligibility (12/11/17)

Effective December 11, 2017, this section is deleted and the content has moved to Section 2403.2.

2403.5: Incorporation of Loan Selling Advisor® into the Purchase Documents (12/11/17)

Loan Selling Advisor® is a Purchase Document. Any amendments, modifications, revisions, changes, and/or updates made to Loan Selling Advisor by Freddie Mac will be automatically incorporated into and made a part of the Purchase Documents whenever such amendments, modifications, revisions, changes, and/or updates are published, disseminated or otherwise made available to a Seller by Freddie Mac.

2403.6: Special representations and warranties (12/11/17)

Effective December 11, 2017, this section is deleted.

2403.7: Consent to conduct Electronic Transactions (12/11/17)

The Seller consents to conduct Electronic Transactions, as defined in Chapter 1401, with Freddie Mac using Loan Selling Advisor® including, but not limited to, using Records, Electronic Records and Electronic Signatures in accordance with and as defined in Chapter 1401 and agrees that the Seller will be bound by the terms and conditions of such Electronic Transactions. When using Loan Selling Advisor, the Seller will make on-screen selections by "clicking on" certain designated items, icons or buttons to signify the Seller's selection and/or agreement with various terms and conditions presented within Loan Selling Advisor. The Seller's Electronic Signature, includes, but is not necessarily limited to, the process or action of "clicking on" such designated items, icons or buttons.

2403.8: System security (02/02/22)

Without limiting the provisions of Chapter 2401, Freddie Mac, in its sole discretion, will provide Sellers, Document Custodians and Warehouse Lenders with, or require Sellers, Document Custodians and Warehouse Lenders to create, user IDs, passwords, personal identification numbers and/or access codes, as applicable, to permit secure access to Loan Selling Advisor®. Sellers, Document Custodians and Warehouse Lenders must adopt security measures in accordance with Sections 1302.2, 1401.5, 1401.6, 2401.1 and 2403.3(g), as applicable.

When a previously authorized user's access must be terminated, the Seller, Document Custodian or Warehouse Lender must revoke the authorized user's access as described in Section 2403.11. Alternatively, if a Seller, Document Custodian or Warehouse Lender is not enrolled in Freddie Mac Access Manager, they may request termination of access of a previously authorized employee by notifying Freddie Mac at csa_operations@freddiemac.com. Freddie Mac will make commercially reasonable efforts to prevent the terminated employee from accessing Loan Selling Advisor promptly after the initial request, but cannot guarantee that it can prevent that employee from accessing Loan Selling Advisor before access has been terminated.

Although Freddie Mac reserves the right to verify the information relating to any new authorized user identified, neither the Seller, Document Custodian nor Warehouse Lender may consider our failure to do so an act of negligence.

2403.9: Access to copies of transaction records (12/11/17)

The Seller acknowledges and agrees that its ongoing access to copies of Records and Electronic Records related to any Electronic Transactions, as those terms are defined in Chapter 1401, conducted by Seller using Loan Selling Advisor® will be:

- Paper copies the Seller prints out using Seller's computer print capabilities and its printer, or
- Electronic copies Seller is able to download to its computer or copy to a disk

Accordingly, the Seller assumes responsibility for obtaining and retaining copies of any such Records and Electronic Records for the Seller's future reference. If the Seller is unable to print, download or copy any of the Records or Electronic Records, the Seller may contact Freddie Mac for assistance in obtaining copies of the Electronic Records that Freddie Mac may have stored.

2403.10: System requirements (12/11/17)

Effective December 11, 2017, this section is deleted.

2403.11: User roles (02/02/22)

(a) Seller roles

In connection with use of Loan Selling Advisor®, the Seller must provide information to Freddie Mac regarding authorized Loan Selling Advisor users and their designated user roles. The Seller must submit its duly authorized employees, or, if using a Selling Agent, the Seller may designate the Selling Agent's duly authorized employees as described in Section 2403.3 by completing and submitting the Freddie Mac Access Manager Administrator Registration form (i.e., FAM Form) or the Loan Advisor Registration form (i.e., LAR Form).

Upon receipt of the FAM Form or LAR Form, Freddie Mac will provide the Seller with user IDs and passwords for the designated individuals. See Section 2403.8 with respect to system security and Seller's responsibility.

Any employee identified within the FAM Form or within the LAR Form as performing the External Seller Setup Manager role must be designated by the Seller as an Authorized Employee, authorized to provide Freddie Mac with instructions (or modify instructions) to transfer funds or securities on the Seller's behalf in connection with the sale of Mortgages to Freddie Mac on the Seller's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, Form 988SF-HFA, Certificate of Incumbency for Housing Finance Agency, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable. (See Section 2201.1 for more information regarding Certificate of Incumbency requirements.) In addition, any Administrator designated as such on the FAM Form shall likewise be designated by the Seller in the applicable Certificate of Incumbency identified above.

(b) Document Custodian roles

In connection with use of Loan Selling Advisor, the Document Custodian must provide information to Freddie Mac regarding Document Custodian's authorized Loan Selling Advisor users and their designated user roles by completing and submitting the FAM Form or LAR Form. The Document Custodian must submit this information to Freddie Mac for each Seller with which the Document Custodian has established a custodian relationship, in accordance with Section 2202.3.

Upon receipt of the completed FAM Form or LAR Form, Freddie Mac will assign user roles in Loan Selling Advisor and issue user IDs and/or passwords to Authorized Users.

By executing the FAM or LAR Form, the Document Custodian represents and warrants to, and covenants with, Freddie Mac that Freddie Mac may rely on the information contained in the completed FAM Form and LAR Form. To add, remove or change a user role, a Document Custodian must submit a FAM Form or LAR Form. See Section 2403.8 for requirements related to information security.

(c) Warehouse Lender roles

In connection with use of Loan Selling Advisor, the Warehouse Lender must provide information to Freddie Mac regarding the Warehouse Lender's authorized Loan Selling Advisor Administrators, other Authorized Employees and their designated user roles. (See Section 6305.12(c) regarding the Warehouse Lender's use of and access to Loan Selling Advisor.) The Warehouse Lender must submit this information to Freddie Mac by completing and submitting Form 990SF, Agreement and Certificate of Incumbency: Warehouse Lender and adding its Authorized Employees in Loan Selling Advisor. To add, remove or change any user role, a Warehouse Lender must submit a FAM Form or LAR Form.

By executing Form 990SF, the Warehouse Lender represents and warrants to, and covenants with, Freddie Mac that Freddie Mac may rely on the information on the Form 990SF until the Warehouse Lender adds, modifies, or removes an Authorized Employee by submitting a new Form 990SF. See Section 2403.8 for requirements related to information security.

2403.12: Post-Fund Data Correction tool (07/01/20)

Seller/Servicer shall use the Post-Fund Data Correction tool, which is a "System" as defined in Section 2401.1(b) to correct data on Seller/Servicer's Mortgages previously entered into Loan Selling Advisor®, and shall access such corrected data by means of the Post-Fund Data Correction tool in accordance with Section 2401.1 and any directions provided by Freddie Mac, including, without limitation, any instructions set forth in the Documentation as defined in Section 2401.1(b). Except to the extent consented to by Freddie Mac in writing, Seller/Servicer will not permit any third parties to use the Post-Fund Data Correction tool, either directly or through Seller/Servicer.

Chapter 2404: System-Specific Licenses for Servicing Tools and Systems

2404.1: System-Specific License for Specifications (12/09/19)

(a) Scope and applicability

The Specifications are licensed pursuant to this System-Specific License and the Master Systems License.

Immediately upon a User's first receipt of any Specifications on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

Notwithstanding any applicable Purchase Document, the Servicer shall only access and use a System with Authentication Credentials and other Confidential Means of Access that are specifically assigned or provisioned to an Authorized User by means of a System.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Interface” means one or more technical or user interfaces developed, owned and/or maintained by or on behalf of the Seller/Servicer that enables Users to communicate with and use one or more Systems through the transmission and receipt of data and other information to and from, each such System by means of the Lender Platform
- “Lender Platform” means a custom or other Servicing technology platform (including any web-based application, software or system, as well as each Interface and all releases, upgrades and other modifications thereto) developed, owned and/or maintained by or on behalf of the Seller/Servicer
- “Lender Test Materials” has the meaning set forth in Section 2404.1(c)(iv)
- “Specifications” mean the specifications integration guides and any related technical documentation provided by or on behalf of Freddie Mac to enable the development and maintenance of each Interface, including any Specification Update

- “Specification Update” has the meaning set forth in Section 2404.1(c)(iii)

(c) Provision of the Specifications; development and use of the Interface

- (i) Freddie Mac may provide discrete sets of Specifications to the Seller/Servicer to facilitate the Seller/Servicer’s development of one or more Interfaces relating to one or more Systems. Each set of Specifications is incorporated into this System-Specific License by this reference and constitutes confidential information for purposes of Sections 1201.8 and 2401.1(g)(i). The terms and conditions of this System-Specific License shall apply to all Specifications separately provided by Freddie Mac.
- (ii) The Seller/Servicer shall develop and maintain the Interface solely and exclusively at its own direction, cost and expense, and shall have complete and exclusive ownership of the Interface subject to the license set forth in Section 2404.1(c)(vi).
- (iii) The Seller/Servicer shall be solely responsible for the accuracy, technical sufficiency and functionality of the Interface. The Interface shall at all times comply in all respects with the Specifications, including any modifications to or replacements of the Specifications (each such modified or replaced version of a Specification referred to herein as a “Specification Update”) as Freddie Mac may undertake from time to time.
- (iv) Except as set forth below in Section 2402.1(c)(v), the Seller/Servicer and Freddie Mac may mutually agree to test the Seller/Servicer’s implementation of the Specifications. In such event, Freddie Mac may retain a third-party vendor to perform such testing on Freddie Mac’s behalf, and the Seller/Servicer shall provide to Freddie Mac and/or its vendor (i) one access privilege or one copy of the Lender Platform, (ii) one copy of each export and any other file, along with any associated documentation that includes the results of the Seller/Servicer’s testing (collectively with the Lender Platform, the “Lender Test Materials”) and (iii) reasonable assistance in such testing. The Seller/Servicer shall use commercially reasonable efforts to correct any defects in the Interface revealed by any such testing. In addition to the foregoing, the Seller/Servicer will correct any “bugs” or other defects in the Interface promptly after it receives notice thereof from Freddie Mac.
- (v) From time to time Freddie Mac may make Specification Updates available to the Seller/Servicer, which the Seller/Servicer shall implement in accordance with the timelines and testing requirements (if any) set forth in each Specification Update.
 - (A) Freddie Mac will provide the Seller/Servicer with as much notice as is practicable under the circumstances with respect to each Specification Update, including any such update that Freddie Mac directs the Seller/Servicer to implement on an emergency basis
 - (B) If Freddie Mac does not specify an implementation timeline for a Specification Update, the implementation date shall be ninety (90) days after publication of the Specification Update

(C) If a Specification Update sets forth testing requirements, the Seller/Servicer shall not implement an associated version of its Interface or any related Consumer Message until Freddie Mac has successfully conducted its review and, as applicable, testing with the Seller/Servicer

(vi) The Seller/Servicer hereby grants to Freddie Mac a royalty free, nonexclusive, nontransferable license to use the Lender Test Materials for testing and evaluation purposes as permitted under this Section 2402.1(c).

(d) Representations and warranties

In addition to representations and warranties made and otherwise referenced in the Master Systems License, the Seller/Servicer represents and warrants to Freddie Mac that (i) the Interface will comply with the Specifications, (ii) the Interface will accurately transmit to the System all data and information input into the Interface, (iii) the Lender Platform will not violate any patents, copyrights or other proprietary rights belonging to third parties and (iv) the Seller/Servicer will use its best efforts to ensure that the Lender Platform will at all times be and remain free of computer viruses and any code designed to cause the System to malfunction or self-destruct or to allow unauthorized access or cause harm to the System.

2404.2: Servicing Gateway System-Specific License (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

(a) Scope and applicability

Freddie Mac Servicing Gateway is the collection of Systems and their associated services that is licensed pursuant to this System-Specific License, other System-Specific Licenses referenced in this Section 2404.2 (subject to the proviso set forth in Section 2404.2(b) below), and the Master Systems License.

Immediately upon a User's first access to any System within the Servicing Gateway on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License (and, as applicable, any other System-Specific License governing such System) and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

Notwithstanding any applicable Purchase Document, the Servicer shall only access and use a System with Authentication Credentials and other Confidential Means of Access that are specifically assigned or provisioned to an Authorized User by means of a System.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Servicing Gateway” is the collection of Systems and their associated services which currently include BPOdirect®, Cash Manager, Default Fees Appeal System, Foreclosure Sale Reporting, EDR, Loan Level Reporting, PAID (Payments Automated Intelligent and Dynamic), Post Funding Data Corrections, Real Estate Valuation and Pricing, Servicing Data Corrections, Servicer Performance Profile, Servicing Transfer Manager, Total MI and Workout Prospector®, all as described in their respective Documentation; provided, however, that while references to Servicing Gateway shall also be deemed to include third-party owned and maintained applications that are directly licensed to Servicers by such third parties (see Section 2407.1), such third-party applications are not Systems for purposes of Chapters 2401, 2404, 2405 and 2406. These applications constitute Excluded Servicing Tools within the meaning of Section 2401.1(b).

(c) BPOdirect

BPOdirect is a System licensed pursuant to Section 2406.4.

(d) Cash Manager

Cash Manager is a System licensed pursuant to this System-Specific License that Authorized Users may use to receive certain reports that provide insight on amounts Freddie Mac will draft from the P&I Custodial Account throughout the month.

(e) Default Fees Appeal System (“DFAS”)

DFAS is a System licensed pursuant to this System-Specific License that Authorized Users may use to obtain information regarding foreclosure-related compensatory fees, file appeals and monitor the status of Freddie Mac’s review of such appeals.

(f) Foreclosure Sale Reporting (“FSR”)

FSR is a System licensed pursuant to this System-Specific License that Authorized Users may use to report the results of foreclosure sales and deed-in-lieu of foreclosure activity.

(g) EDR

EDR is a System licensed pursuant to this System-Specific License that Authorized Users may use to report required delinquency or bankruptcy data on Freddie Mac Mortgages.

(h) Loan Level Reporting (“LLR”)

LLR is a System licensed pursuant to this System-Specific License that Authorized Users may use to report monthly loan level transactions on performing and non-performing loans.

(i) PAID (Payments Automated Intelligent and Dynamic)

PAID is a System licensed pursuant to Chapter 2405.

(j) Post-Fund Data Correction tool (“PFDC”)

PFDC is a System licensed pursuant to this System-Specific License that Authorized Users may use to correct and access data on the Servicer’s Mortgages, which data had been previously entered into Loan Selling Advisor.

(k) Real Estate Valuation and Pricing (“REVP”)

REVP is a System licensed pursuant to this System-Specific License that Authorized Users may use to obtain estimated market values, minimum net proceeds for short sale transactions, and credit bid amounts for a foreclosure sale that Freddie Mac will accept for a third-party sale.

(l) Servicing Data Corrections (“SDC”)

SDC is a System licensed pursuant to this System-Specific License that Authorized Users may use to electronically submit data correction requests related to adjustments to third-party foreclosure sales, short sales, charge-offs, mortgage modification settlements, ARM rates, modifications to principal and interest payments and rollbacks. Notwithstanding anything to the contrary in Section 2401.1(c)(i), the Servicer shall use the System only in connection with Mortgages that Freddie Mac owns or guarantees.

(m) Servicer Performance Profile (“SPP”)

SPP is a System licensed pursuant to this System-Specific License that Authorized Users may use to gain insight into Servicing performance using several tools, including:

- Servicer Success Scorecard (“Scorecard”) – A confidential monthly performance review for all Servicers which measures a Servicer’s performance based on key criteria in several categories, including investor reporting and remitting, and default management
- Manager Series Reports – Various reports that contain high-level summary and loan-level detail data to give a Servicer additional insight into its performance results, including

results reflected on their Scorecard. Reports are accessible via corresponding tiles in the SPP such as “Default Reporting,” “Repayment Plans,” “Modifications,” “Incentives,” “Timelines,” “Liquidations,” “Foreclosures” and “REO.”

(n) Servicing Transfer Manager (“STM”)

STM is a System licensed pursuant to this System-Specific License that Authorized Users may use to manage Subsequent Transfers of Servicing and Intra-Servicer Portfolio Moves (as defined by Section 7101.2(e)).

(o) Total MI

Total MI is a System licensed pursuant to this System-Specific License that Authorized Users may use to manage certain mortgage insurance processes including, but not limited to, reconciliations, claims, and cancellations.

(p) Workout Prospector (“WP”)

WP is a System licensed pursuant to this System-Specific License that Authorized Users may use to analyze and deliver workouts, receive reports, and access specific loan information from the System.

2404.2: Servicing Gateway System-Specific License (Future effective date 08/31/23)

(a) Scope and applicability

Freddie Mac Servicing Gateway is the collection of Systems and their associated services that is licensed pursuant to this System-Specific License, other System-Specific Licenses referenced in this Section 2404.2 (subject to the proviso set forth in Section 2404.2(b) below), and the Master Systems License.

Immediately upon a User’s first access to any System within the Servicing Gateway on or after the Effective Date, the Seller/Servicer shall be bound by this System-Specific License (and, as applicable, any other System-Specific License governing such System) and the Master Systems License. This System-Specific License is incorporated into and made a part of the Master Systems License by this reference. Any reference herein to the System-Specific License shall be deemed to include this System-Specific License and the Master Systems License.

Notwithstanding any applicable Purchase Document, the Servicer shall only access and use a System with Authentication Credentials and other Confidential Means of Access that are specifically assigned or provisioned to an Authorized User by means of a System.

(b) Definitions

The definitions below apply for purposes of this System-Specific License. Capitalized terms used but not defined in this System-Specific License have the meaning set forth in the Glossary, the Master Systems License (Chapter 2401) or elsewhere in the Guide.

- “Servicing Gateway” is the collection of Systems and their associated services which currently include BPOdirect®, Cash Manager, Default Fees Appeal System, Foreclosure Sale Reporting, EDR, Loan Level Reporting, PAID (Payments Automated Intelligent and Dynamic), Post Funding Data Corrections, Real Estate Valuation and Pricing, Resolve®, Servicing Data Corrections, Servicer Performance Profile, Servicing Transfer Manager, Total MI and Workout Prospector®, all as described in their respective Documentation; provided, however, that while references to Servicing Gateway shall also be deemed to include third-party owned and maintained applications that are directly licensed to Servicers by such third parties (see Section 2407.1), such third-party applications are not Systems for purposes of Chapters 2401, 2404, 2405 and 2406. These applications constitute Excluded Servicing Tools within the meaning of Section 2401.1(b).

(c) BPOdirect

BPOdirect is a System licensed pursuant to Section 2406.4.

(d) Cash Manager

Cash Manager is a System licensed pursuant to this System-Specific License that Authorized Users may use to receive certain reports that provide insight on amounts Freddie Mac will draft from the P&I Custodial Account throughout the month.

(e) Default Fees Appeal System (“DFAS”)

DFAS is a System licensed pursuant to this System-Specific License that Authorized Users may use to obtain information regarding foreclosure-related compensatory fees, file appeals and monitor the status of Freddie Mac’s review of such appeals.

(f) Foreclosure Sale Reporting (“FSR”)

FSR is a System licensed pursuant to this System-Specific License that Authorized Users may use to report the results of foreclosure sales and deed-in-lieu of foreclosure activity.

(g) EDR

EDR is a System licensed pursuant to this System-Specific License that Authorized Users may use to report required delinquency or bankruptcy data on Freddie Mac Mortgages.

(h) Loan Level Reporting (“LLR”)

LLR is a System licensed pursuant to this System-Specific License that Authorized Users may use to report monthly loan level transactions on performing and non-performing loans.

(i) PAID (Payments Automated Intelligent and Dynamic)

PAID is a System licensed pursuant to Chapter 2405.

(j) Post-Fund Data Correction tool (“PFDC”)

PFDC is a System licensed pursuant to this System-Specific License that Authorized Users may use to correct and access data on the Servicer’s Mortgages, which data had been previously entered into Loan Selling Advisor.

(k) Real Estate Valuation and Pricing (“REVP”)

REVP is a System licensed pursuant to this System-Specific License that Authorized Users may use to obtain estimated market values, minimum net proceeds for short sale transactions, and credit bid amounts for a foreclosure sale that Freddie Mac will accept for a third-party sale.

(l) Resolve

Resolve is a System licensed pursuant to this System-Specific License that Authorized Users may use to assess Borrowers for relief and workouts options and alternatives to foreclosure.

(m) Servicing Data Corrections (“SDC”)

SDC is a System licensed pursuant to this System-Specific License that Authorized Users may use to electronically submit data correction requests related to adjustments to third-party foreclosure sales, short sales, charge-offs, mortgage modification settlements, ARM rates, modifications to principal and interest payments and rollbacks. Notwithstanding anything to the contrary in Section 2401.1(c)(i), the Servicer shall use the System only in connection with Mortgages that Freddie Mac owns or guarantees.

(n) Servicer Performance Profile (“SPP”)

SPP is a System licensed pursuant to this System-Specific License that Authorized Users may use to gain insight into Servicing performance using several tools, including:

- Servicer Success Scorecard (“Scorecard”) – A confidential monthly performance review for all Servicers which measures a Servicer’s performance based on key criteria in several categories, including investor reporting and remitting, and default management

- Manager Series Reports – Various reports that contain high-level summary and loan-level detail data to give a Servicer additional insight into its performance results, including results reflected on their Scorecard. Reports are accessible via corresponding tiles in the SPP such as “Default Reporting,” “Repayment Plans,” “Modifications,” “Incentives,” “Timelines,” “Liquidations,” “Foreclosures” and “REO.”

(o) Servicing Transfer Manager (“STM”)

STM is a System licensed pursuant to this System-Specific License that Authorized Users may use to manage Subsequent Transfers of Servicing and Intra-Servicer Portfolio Moves (as defined by Section 7101.2(e)).

(p) Total MI

Total MI is a System licensed pursuant to this System-Specific License that Authorized Users may use to manage certain mortgage insurance processes including, but not limited to, reconciliations, claims, and cancellations.

(q) Workout Prospector (“WP”)

WP is a System licensed pursuant to this System-Specific License that Authorized Users may use to analyze and deliver workouts, receive reports, and access specific loan information from the System.

2404.3: Freddie Mac Servicing Reporting Tools incorporated into the Guide (12/09/19)

Effective December 9, 2019, this section has been deleted.

2404.4: Amendments (12/09/19)

Effective December 9, 2019, this section has been deleted.

2404.5: Special representations and warranties, covenants and agreements (12/09/19)

Effective December 9, 2019, this section has been deleted.

2404.6: Electronic Transactions (12/09/19)

Effective December 9, 2019, this section has been deleted.

2404.7: Security and Servicer responsibilities (12/09/19)

Effective December 9, 2019, this section has been deleted.

2404.8: Access to copies of Electronic Transaction Records (12/09/19)

Effective December 9, 2019, this section has been deleted.

Chapter 2405: PAID (Payments Automated Intelligent and Dynamic)

2405.1: Process for requesting expense reimbursement and for receiving reimbursement of expenses (09/27/21)

The Servicer must submit a request for reimbursement via PAID (Payments Automated Intelligent and Dynamic) (available at <https://sf.freddiemac.com/working-with-us/servicing/overview>) in accordance with the requirements of this chapter.

Any Servicer submitting an expense reimbursement request for the first time must obtain access to PAID through Access Manager.

To be reimbursed for expenses, Servicers must authorize Freddie Mac to make such payments and receive debits via Automated Clearing House (ACH) credit entries into their commercial checking accounts. To authorize receipt of ACH credit entries or to make changes to ACH credit account instructions previously provided, Servicers must complete and execute Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) For Sellers/Servicers.

Submit the exhibit to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:

- Attach to an e-mail and deliver to Freddie Mac at the following e-mail address: cashcollections@freddiemac.com; or
- Upload through the Freddie Mac eBill system

Servicers may submit ACH credit-related questions or concerns to expense@freddiemac.com.

Servicers may access the [PAID Online Help Section](#) for additional information and assistance with PAID.

The employee authorized to execute Form 1132 on the Servicer's behalf must be designated as an "Authorized Employee" on the Servicer's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable.

Before a Servicer may receive expense reimbursements and incentive payments via ACH credit entries, the Servicer must have completed the certificate of incumbency (“COI”) process requirements in Section 2201.1, and Freddie Mac must have accepted the Servicer’s COI and all other required forms and documents.

2405.2: Servicer bound by use of PAID (Payments Automated Intelligent and Dynamic) (09/27/21)

By virtue of Servicer’s use of PAID (Payments Automated Intelligent and Dynamic), the Servicer agrees and is deemed to be bound by the provisions of: (i) Chapter 1401; (ii) Section 2401.1, (iii) this Chapter 2405; (iv) Chapter 9701; and (v) all other applicable terms and conditions of the Guide and other Purchase Documents.

2405.3: Consent to conduct Electronic Transactions (09/27/21)

Servicers should refer to Chapter 1401 for the definition of the following terms used in this section:

- Electronic Record
- Electronic Signature
- Electronic Transaction
- Record

Servicer consents to conduct Electronic Transactions with Freddie Mac using PAID (Payments Automated Intelligent and Dynamic) including, but not limited to, Records, Electronic Records and Electronic Signatures in accordance with Chapter 1401 and agrees that Servicer will be bound by the terms and conditions of such Electronic Transactions. When using PAID, the Servicer will make on-screen selections by “clicking on” certain designated terms, items, icons or buttons to signify Servicer’s agreement with various terms and conditions presented within PAID. Servicer’s Electronic Signature, includes, but is not necessarily limited to, the process or action of “clicking on” such designated items, icons or buttons.

2405.4: System security (09/27/21)

Effective September 27, 2021, Section 2405.4 is deleted.

2405.5: Access to copies of Electronic Transaction Records (09/27/21)

Servicers should refer to Chapter 1401 for the definition of the following terms used in this section:

- Electronic
- Electronic Record
- Electronic Transaction
- Record
- System

The Servicer acknowledges and agrees that its ongoing access to copies of Records and Electronic Records related to any Electronic Transactions conducted by Servicer using PAID (Payments Automated Intelligent and Dynamic) will be:

- Paper copies Servicer prints out using its Systems, print capabilities and its printer, or
- Electronic copies Servicer is able to download to its computer or copy to a disk or other Electronic device

Accordingly, the Servicer assumes responsibility for obtaining and retaining copies of any such Records and Electronic Records for Servicer's future reference. If the Servicer is unable to print, download or copy any of the Records or Electronic Records, the Servicer may contact (800) FREDDIE and select option four for Servicing for assistance in obtaining copies of the Electronic Records.

2405.6: User access requirements (09/27/21)

Servicer acknowledges and agrees that Freddie Mac has provided Servicer with written or Electronic, as defined in Chapter 1401, information that describes the minimum hardware, software, browser and other Internet connectivity requirements necessary to conduct Electronic Transactions, as defined in Chapter 1401, with Freddie Mac using PAID (Payments Automated Intelligent and Dynamic).

2405.7: Use of PAID (Payments Automated Intelligent and Dynamic) by Related Third Parties and process for Related Third Parties to receive reimbursement of expenses (06/08/22)

The Servicer may grant PAID (Payments Automated Intelligent and Dynamic) access to one or more of its vendors which provide services in connection with Mortgages serviced for Freddie Mac. Each vendor is a “Related Third Party” within the meaning of the Guide. Related Third Parties are allowed access to PAID for the purposes of:

- Submitting requests for pre-approval (RPAs) via the RPA functionality in PAID pursuant to Section 9701.3
- Submitting expenses for Servicer reimbursement based on the expense and income codes, subject to any associated expense limits, listed in Exhibits 57, 57A and 74, Expense and Income Codes for Expense Reimbursement Claims

Freddie Mac, at any time and in its sole discretion, may terminate a Related Third Party’s access to PAID and/or direct the Servicer to terminate a Related Third Party’s access.

The Servicer must comply with the following requirements related to use of PAID by a Related Third Party:

- The Servicer must ensure that Related Third Parties sign and comply with their separate, independent contracts under Sections 2401.1(e)(iv) and 2401.1(v). The Servicer must maintain auditable records of such contracts
- The Servicer must monitor its Related Third Party to ensure compliance with all applicable requirements of the Guide and any other Purchase Documents and applicable law and have written policies and procedures in place for doing so
- The Servicer must have written policies and procedures in place that document its criteria for selecting Related Third Party and how the Servicer will monitor the Related Third Party’s use of PAID
- The Servicer must periodically review and analyze the types and dollar amounts of expenses requested by Related Third Parties to ensure compliance with all applicable requirements
- For property preservation services, if Freddie Mac requires that competitive bids be obtained from multiple vendors, the Servicer is responsible for obtaining the multiple bids and keeping records of the bids

To be reimbursed for expenses and paid incentives (see Section 9204.6 regarding Servicer compensation for alternatives to foreclosure), Related Third Parties must authorize Freddie Mac

to make such payments and receive debits via Automated Clearing House (ACH) credit entries into their commercial checking accounts. To authorize receipt of ACH credit entries or to make changes to ACH credit account instructions previously provided, vendors must complete and execute Form 98, Authorization for the Automatic Transfer of Funds for Vendors, and submit the form to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a PDF (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) attached to an e-mail and delivered to Freddie Mac at the following e-mail address:

counterparty_authorization@freddiemac.com.

Related Third Parties also agree to authorize Freddie Mac to initiate ACH drafts from accounts designated on Form 98 for overpayments of expenses.

The employee authorized to execute Form 98 on the vendor's behalf must be designated as an "Authorized Employee" on the vendor's Form 99V, Certificate of Incumbency for Vendors. Before a vendor may receive expense reimbursements and incentive payments, the vendor must have completed the certificate of incumbency ("COI") process requirements in Section 2201.1, and Freddie Mac must have accepted the vendor's COI and all other required forms and documents.

2405.8: Servicer's responsibilities for the Reimbursement System (09/27/21)

Section 2405.8 will be deleted effective September 27, 2021.

Chapter 2406: Additional Servicing Tools and Systems

2406.1: Workout Prospector® User Agreement (12/09/19)

Effective December 9, 2019, this section has been deleted.

2406.2: Quality Control Advisor® (06/26/17)

Quality Control Advisor® is a system that hosts for Freddie Mac certain quality control loan management data and remedy management information for Mortgages Freddie Mac owns or guarantees. Each Seller/Servicer that accesses Quality Control Advisor, by virtue of such access, will be deemed to have agreed to the terms and conditions set forth in Sections 2401.1, 2402.2 (if applicable) and 2402.8.

2406.3: Freddie Mac Loan Coverage Advisor® (02/08/23)

Effective February 8, 2023, Section 2406.3 is deleted. Seller/Servicers' use of Loan Coverage Advisor® continues to be subject to the terms and conditions set forth in Sections 2401.1 and 2402.5 and the Seller/Servicer's other applicable Purchase Documents, as amended from time to time.

2406.4: Managing access to and obtaining a property value via BPODirect® (03/31/22)

When Freddie Mac requires that a property value be obtained through **BPODirect®**, the Servicer must obtain the property value via the **Servicing Gateway**.

Note: Consistent with the requirement in Section 8101.1 to act in the most timely, efficient and responsible manner to protect Freddie Mac's interests, a Servicer must not order a new BPO through **BPODirect** for a:

- 1- or 2-unit property when evaluating a Borrower for a modification if the Servicer is required to use an available HVE® point value estimate or automated value in

accordance with the requirements of Option One or Option Two set forth in Section 9206.8

- 1-unit property when evaluating a Borrower for a workout Mortgage assumption if the Servicer is required to use an available automated value in accordance with the requirements set forth in Section 9207.4

(a) Managing access to BPODirect

- The Servicer must ensure that only active employees of the Servicer or its Related Third Parties with a need to use **BPODirect** are provided access, which shall be facilitated and managed through Access Manager pursuant to Section 2401.1(f)
- If the Servicer engages a Related Third Party to perform loss mitigation activities including the use of **BPODirect** in connection with the Servicing of Freddie Mac Mortgages, the Servicer must monitor its Related Third Party to ensure compliance with all applicable requirements of the Guide and any other Purchase Documents and applicable law and have written policies and procedures in place for doing so

(b) Obtaining a property value via BPODirect

When a Servicer accesses **BPODirect**, the website may display an automated value if one is available. If Freddie Mac permits the use of an automated value to evaluate the Borrower for a specific relief or workout option, then the Servicer must, unless otherwise noted below, use the available automated value provided in **BPODirect**. If an automated value is not available in **BPODirect** or through another permitted source (e.g., via HVE or the *Automated Valuation Model (AVM)* report), or the MI requires a BPO/property valuation, the Servicer must submit a new property valuation request to Freddie Mac (i.e., order a new BPO from **BPODirect**), if necessary. There is no cost associated with automated values obtained through **BPODirect**. If Freddie Mac requires a BPO for the situation the Servicer is evaluating, then, unless otherwise noted below, the Servicer must take the additional step of ordering a new BPO from **BPODirect**. Once the BPO valuation is complete, the BPO value will be available to the Servicer in **BPODirect**.

Notwithstanding the requirements above, if the Servicer has previously obtained a Freddie Mac-compliant property valuation (i.e., Freddie Mac-provided BPO, Freddie Mac-provided appraisal or an appraisal obtained in compliance with Topic 5600), the Servicer must use the Freddie Mac-compliant property valuation provided it meets the property valuation requirements for the specific relief or workout option. The Servicer may not obtain a new property valuation in this circumstance.

Note: If the Mortgage is covered by mortgage insurance, the Servicer must ensure that the property value it obtains is based on a property valuation type that is consistent with the MI's requirements.

2406.5: Freddie Mac Default Fee Appeal System (12/09/19)

Effective December 9, 2019, this section has been deleted.

Chapter 2407: Third-Party Servicing Tools Made Available Via Servicing Gateway

2407.1: Attorney Data Reporting (12/09/19)

Attorney Data Reporting (ADR) is an application available via **Servicing Gateway**. ADR is managed and hosted by a third-party Freddie Mac vendor called Quandis pursuant to terms and conditions available on its website at www.quandis.com. ADR is an Excluded Servicing Tool for purposes of Section 2401.1(b).

Chapter 2408: Servicing Mortgages Through Servicing Gateway and Other Servicing Tools

2408.1: Relation to Chapters 2404, 2405, 2406 and 2407 (04/12/23)

Chapter 2408 addresses rights and obligations associated with the Servicing of Mortgages on behalf of Freddie Mac by means of the Servicing Tools and is in addition to and not in limitation of (a) Chapters 2404, 2405 and 2406, which, along with Chapter 2401, address the licensing of Freddie Mac Servicing Tools, and (b) Chapter 2407, which addresses the third-party licensing of Excluded Servicing Tools.

2408.2: Using Servicing Tools and Excluded Servicing Tools (12/09/19)

This chapter sets forth special requirements associated with the use of Servicing Tools and Excluded Servicing Tools for reporting loan-level information to Freddie Mac and performing other Mortgage Servicing activities.

The Servicer should refer to Chapter 1401 for the definitions of the following terms used in this chapter:

- Electronic
- Electronic Record
- Electronic Signature
- Electronic Transaction
- Record

The Servicer should refer to the following sections and chapters for information on reporting requirements:

- Section 9102.8 for default reporting requirements
- Section 9102.7 for reporting requirements for Mortgages for which a Servicer is pursuing an alternative to foreclosure

- Chapters 8301 and 8303 for monthly loan-level exception and non-exception activity reporting requirements

To service Mortgages using any and all of the Servicing Tools, the Servicer must comply with the terms and conditions of (a) Chapters 2401 through 2408 (including any third-party terms and conditions referenced in Chapter 2407), (b) other applicable Guide provisions, and (c) the Servicer's other Purchase Documents.

2408.3: Freddie Mac Servicing Tools incorporated into the Guide (12/09/19)

The Servicing Tools, including, without limitation, all visual content displayed on screens and pages, system processes, system rules, terms and conditions, privacy policy, user guides and instructions, are, by this reference, incorporated into and made a part of the Guide and other Purchase Documents.

2408.4: Amendments (12/09/19)

The Servicer acknowledges and agrees that Freddie Mac may amend, revise and/or update the Servicing Tools, this chapter and/or any other applicable Purchase Documents, and any such amendment, revision and/or update will be effective as of the date specified by Freddie Mac.

2408.5: Special representations and warranties, covenants and agreements (01/13/22)

The Servicer represents and warrants to, covenants and agrees with Freddie Mac that the Servicer is in compliance with and will continue to comply with all of the requirements of this chapter, any other applicable Purchase Documents, system processes and rules, terms of use, privacy policy, security standards and any user guides and instructions in connection with Servicing Freddie Mac Mortgages using the Servicing Tools.

The Freddie Mac Exclusionary List is made available to Servicers at <https://sf.freddiemac.com/fmel>. Each time the Servicer accesses any Freddie Mac Servicing Tool, the Servicer represents and warrants to Freddie Mac that Servicer has never (i) provided access to or otherwise made the Exclusionary List available to a Related Third Party or any other party except as permitted under and in accordance with Section 1201.8(a)(iii), or (ii) enabled or permitted any person or entity on the Exclusionary List to access or use any Servicing Tool whether directly or indirectly through the Servicer or any Related Third Party. Further, the Servicer covenants and agrees that it will not, under any circumstances, do so in the future.

2408.6: Electronic Transactions (12/09/19)

(a) Consent to conduct Electronic Transactions

The Servicer consents to conduct Electronic Transactions with Freddie Mac using the Freddie Mac Servicing Tools and Excluded Servicing Tools including, but not limited to, using Electronic Records and Electronic Signatures in accordance with Chapter 1401. The Servicer agrees that the Servicer's employees may use Electronic Signatures, which shall be the Servicer's adopted and authorized Electronic Signatures, as defined in Section 1401.4, which also includes the process of using a computer mouse to "click on" terms, words, items, images, numbers or buttons on screens in the Servicing Tools and Excluded Servicing Tools.

(b) Servicing Tools requirements

The Servicer acknowledges that Freddie Mac has provided the Servicer with the minimum hardware, software, browser and other Internet connectivity requirements the Servicer needs to conduct Electronic Transactions using the Servicing Tools.

2408.7: Access to copies of Electronic Transaction Records (12/09/19)

The Servicer acknowledges and agrees that the Servicer's ongoing access to copies of Records and Electronic Records related to any Electronic Transactions conducted by the Servicer in the Servicing Tools will be either:

- Paper copies printed by the Servicer, or
- Electronic copies the Servicer is able to download or save to its computers or copy

The Servicer acknowledges that it is responsible for making or obtaining copies of such Records and Electronic Records. If the Servicer is unable to print, download or copy any of the Records or Electronic Records, the Servicer may contact Freddie Mac for possible assistance.

Chapter 3101: Freddie Mac Exclusionary List and FHFA Suspended Counterparty Program

3101.1: Freddie Mac Exclusionary List (06/02/21)

(a) Purpose of the Exclusionary List

Freddie Mac maintains the Freddie Mac Exclusionary List to protect the integrity of its Mortgage purchase and Servicing functions. The names of persons or entities whose conduct presents risks to Freddie Mac, as determined by Freddie Mac in its sole discretion, may be placed on the Exclusionary List, in which case such persons or entities are prohibited from doing business with Freddie Mac in any role described in Section 3101.1(b).

(b) Use of the Exclusionary List

The Seller/Servicer must use the Exclusionary List only for the following purposes:

(i) Screen parties involved in the origination of the Mortgage

Prior to the sale of each Mortgage to Freddie Mac, the Seller must use the Exclusionary List to determine whether, as of the Note Date, a person or entity whose name is on the Exclusionary List performed any of the following roles in the origination of the Mortgage or in the underlying real estate transaction:

- Borrower(s)
- Property seller(s)
- Mortgage loan originator and loan origination company, including but not limited to loan officers, third party originators, retail lenders, mortgage brokers and correspondents
- Real estate agent(s) and real estate company(ies)
- Settlement agent and settlement company
- Appraiser and appraisal company

If a party whose name is on the Exclusionary List performed one of the listed roles in the origination of a Mortgage or the underlying real estate transaction, the Mortgage is not eligible for sale to Freddie Mac.

(ii) Screen parties involved in sales, quality control and Servicing functions for Freddie Mac Mortgages

The Seller/Servicer must use the Exclusionary List to ensure that none of the Seller/Servicer's own employees engaged in the sales, quality control or Servicing of Freddie Mac Mortgages have their name on the Exclusionary List. This prohibition includes both the Seller/Servicer's own employees and any third parties to whom sales, quality control or Servicing functions regarding Freddie Mac Mortgages are outsourced or assigned.

The Seller/Servicer must also ensure that the buyer of a short sale property is not on the Exclusionary List.

Prohibited roles in sales functions include, without limitation, parties involved in the delivery of Freddie Mac Mortgages. Prohibited roles in quality control functions include, without limitation, those reviewing eligibility of Freddie Mac Mortgages and those involved in reporting adverse findings to Freddie Mac.

(c) Process for placement on the Exclusionary List

Freddie Mac will generally provide an individual or entity written notice of the proposed placement of their names on the Exclusionary List, along with an opportunity to submit a written response. However, Freddie Mac may determine, in its sole discretion, that circumstances require placement of a person or entity's name on the Exclusionary List immediately, without prior written notice. Examples of grounds for placement on the Exclusionary List include, without limitation:

- Fraud or possible fraud
- Misrepresentations, misstatements or omissions of facts
- Theft or misappropriation of funds
- Willful or reckless violation of statutory or regulatory requirements
- Business practices that Freddie Mac determines present risks to Freddie Mac
- Lack of business controls to ensure the integrity of the Mortgages sold to or serviced for Freddie Mac
- Evidence which demonstrates a lack of integrity or business competence
- Other grounds that in Freddie Mac's judgment may adversely affect Freddie Mac

Freddie Mac, in its sole discretion, will render a final decision regarding placement on the Exclusionary List after reviewing the response, if any, submitted by the proposed individual or entity.

(d) Seller warranties regarding the Exclusionary List

The Seller represents and warrants that, as of the Note Date, no person or entity whose name is listed on the Exclusionary List performed a role designated in Section 3101.1(b)(i) in the origination or sale of a Mortgage to Freddie Mac or in the underlying real estate transaction or in the sales, quality control or Servicing functions as set forth in Section 3101.1(b)(ii).

Furthermore, the Seller represents and warrants that it will maintain sufficient controls, and supporting documentation of such, to meet this warranty obligation.

(e) Waiver of Seller warranties regarding the Exclusionary List

Before the Funding Date, a Seller may contact Freddie Mac to request a waiver of the warranty requirements of Sections 3101.1(d) and 1301.8(a)(8) with respect to a particular Mortgage. The Seller should make such request to the Freddie Mac fraud mailbox at mortgage_fraud_reporting@freddiemac.com.

As part of the request, the Seller must inform Freddie Mac of the nature and extent of the role played by the person or entity whose name is on the Exclusionary List in connection with the Mortgage and must provide other relevant information, upon request. If Freddie Mac reviews the request and subsequently elects to grant the waiver, Freddie Mac will provide the Seller with written notice of such election, in which case the warranty concerning the involvement of an excluded person or entity will not be applicable to the sale of the Mortgage. All other requirements of the Purchase Documents relating to the sale of the Mortgage will remain in full force and effect. Freddie Mac's election to review and its decision to purchase such a Mortgage are within its sole discretion.

(f) Servicer warranties regarding the Exclusionary List

The Servicer represents and warrants that no individual or entity whose name is on the Exclusionary List will perform a role in any Servicing or quality control functions relating to a Mortgage. The Servicer acknowledges that this prohibition includes both the Servicer's own employees and any third parties to whom Servicing or quality control functions regarding Freddie Mac Mortgages are outsourced or assigned. The Servicer also warrants that the buyer of a short sale property is not on the Exclusionary List.

Furthermore, the Servicer warrants that it will maintain sufficient controls, and supporting documentation of such, to meet this warranty obligation.

(g) Waiver of Servicer warranties regarding the Exclusionary List

The Servicer must contact Freddie Mac to request a written waiver prior to performing a function or entering into a transaction that would violate the Servicer's representation and warranty set forth in Section 3101.1(f).

The Servicer should make such request to the Freddie Mac fraud mailbox at mortgage_fraud_reporting@freddiemac.com.

As part of the request, the Servicer must inform Freddie Mac of the nature and extent of the role played by the person or entity whose name is on the Exclusionary List in the proposed transaction, and must provide other relevant information upon request. If Freddie Mac elects to grant the waiver, Freddie Mac will provide the Servicer with written notice of such election, in which case the warranty concerning the involvement of an excluded person or entity will not be applicable to such transaction. All other requirements of the Purchase Documents relating to the Servicing of the Mortgage will remain in full force and effect. Freddie Mac's decision regarding the waiver of such warranties is within its sole discretion.

(h) Reporting obligations of the Seller/Servicer

The Seller/Servicer must immediately report the discovery of any possible breach of warranties regarding the Exclusionary List contained in Section 3101.1 to the Freddie Mac fraud mailbox at mortgage_fraud_reporting@freddiemac.com.

(i) Confidentiality and use of the Exclusionary List

The identities of the persons and entities on the Exclusionary List whose names are not publicly available, and the Exclusionary List is considered "Confidential Information" of Freddie Mac for purposes of Section 1201.8. The Seller/Servicer represents and warrants that it will keep the Exclusionary List confidential in accordance with the terms and conditions of Section 1201.8. The Seller/Servicer may use the Exclusionary List only as required in Section 3101.1(b), and may not use or disclose the Exclusionary List for any other purpose without Freddie Mac's written permission. The Seller/Servicer agrees to indemnify Freddie Mac for any loss, damage, or expense resulting from its failure to maintain the confidentiality of the Exclusionary List or information contained on the Exclusionary List.

(j) Access to the Exclusionary List

The Exclusionary List is updated at least monthly by Freddie Mac and is electronically available to Seller/Servicers at <https://sf.freddiemac.com/fmel> and through various Freddie Mac systems, including Freddie Mac Loan Advisor®. The Seller/Servicer must ensure that it uses only the most current version of the Exclusionary List, and must obtain an authorized ID and password to access the Exclusionary List. The Seller/Servicer may obtain additional information on how to access the Exclusionary List by calling 800-FREDDIE or their Freddie Mac account representative.

(k) Remedies

Freddie Mac's remedies for a breach of the warranties, obligations or requirements of the Seller/Servicer regarding the Exclusionary List include all remedies available to Freddie Mac under the Purchase Documents including, without limitation, suspension or termination of the Seller or Servicer, and repurchase of the Mortgage.

3101.2: FHFA Suspended Counterparty Program (03/02/16)

FHFA maintains a Suspended Counterparty Program (SCP) and requires Freddie Mac to refrain from and/or cease conducting business with individuals and entities listed on FHFA's SCP list ("Named Parties"), subject to any conditions or exclusions set forth in an applicable Named Party's final suspension order.

Freddie Mac requires Seller/Servicers to establish and maintain procedures to ensure they do not employ or contract with Named Parties for any purpose directly related to the origination, underwriting, or Servicing of a Freddie Mac Mortgage, subject to any conditions or exclusions set forth in an applicable SCP Named Party's final suspension order.

A Seller may not sell any Mortgage to Freddie Mac and a Servicer may not engage in any Servicing activity in connection with a Freddie Mac Mortgage in which a Named Party is a necessary signatory on the Note, Security Instrument, modification agreement, deed of sale (e.g., short sale, third-party sale, etc.) or other Servicing-related contract related to such Mortgage, subject to any conditions or exclusions set forth in the applicable Named Party's final suspension order.

Seller/Servicers are responsible for reviewing FHFA's SCP list and related final suspension orders, which can be found on FHFA's web site at

<http://www.fhfa.gov/SupervisionRegulation/LegalDocuments/Pages/SuspendedCounterpartyProgram.aspx>.

Chapter 3201: Fraud Prevention, Detection and Reporting; Reporting Other Suspicious Activity

3201.1: Prevention and detection (03/02/16)

The Seller/Servicer must have comprehensive practices and procedures to prevent and detect fraud throughout each stage of the origination and Servicing of a Mortgage and in related real estate transactions.

This section identifies basic fraud prevention and detection requirements related to:

- Employee hiring and training
- Origination and Servicing
- Seller/Servicer's in-house quality control program

Freddie Mac encourages Seller/Servicers to implement additional practices and procedures, as deemed necessary, in order to ensure that an effective fraud prevention and detection plan is in place.

(a) Hiring and training

The Seller/Servicer must have screening and hiring practices in place to ensure the integrity of its employees. Employees and any entity or individual engaged to handle or perform functions typically handled by employees, and in a position to notice or report fraud and suspected fraud, must receive training in each applicable area of its mortgage business about:

- Common and emerging fraud schemes
- Red flags that may signal fraud and the need for more review

Also, the Seller/Servicer must communicate its procedures (including requirements of this chapter) for prevention, detection and reporting of fraud and suspected fraud to employees as well as entities and individuals referenced above.

Parties engaged to handle or perform functions typically performed by employees and in a position to notice or report fraud or suspected fraud may include parties such as contract underwriters, contract processing services (including loan processors), contract quality control firms, Borrower outreach companies, loss mitigation services and collection companies.

The training must include periodic updates no less frequently than on an annual basis to ensure that employees and parties referenced above are aware of emerging fraud scenarios.

The Seller/Servicer must either provide the training directly, hire a third party to provide the training, or obtain an annual written verification from the engaged entity or individual confirming that training has already been received from another party in accordance with the requirements of this section.

(b) Origination and Servicing

The Seller/Servicer must take the following minimum steps to prevent and detect fraud in the areas of origination and Servicing:

- Ensure that information indicating suspected fraud that is received from any source including, but not limited to, Borrowers and participants in the Mortgage and related real estate transactions, is escalated internally and properly investigated
- Ensure that information indicating suspected fraud that is received from any source in connection with Servicing functions relating to a Mortgage or REO including, but not limited to, any loss mitigation activities or transactions, such as forbearance plans, loan modifications, foreclosures, deeds-in-lieu of foreclosure or short sales of the underlying property, is escalated internally and properly investigated
- Investigate unusual patterns or discrepancies or other red flags, such as first and early-payment defaults
- Comply with Section 3101.1 regarding screening through the Freddie Mac Exclusionary List
- Comply with all other Guide provisions relating to fraud prevention and detection

It is also important for Seller/Servicers to know the parties with whom they do business.

- Sellers must approve, evaluate and monitor Mortgage Brokers, Correspondents, Mortgage Service Providers, and appraisers
- Servicers must approve, evaluate and monitor appraisers and any third party to whom Servicing functions relating to a Mortgage or REO are outsourced or assigned including, but not limited to, any loss mitigation activities or transactions such as foreclosures, deeds-in-lieu of foreclosure or short sales of the underlying property

(c) Seller/Servicer's in-house quality control program

Pre- and post-funding quality control reviews are an integral part of fraud prevention and detection in the mortgage process.

Specifically, the Seller/Servicer must:

- Use discretionary samples to evaluate the work of a particular employee or Mortgage transaction participant when there is a reason to suspect fraud
- Target and sample loans to better identify and highlight potential trends such as early payment defaults or other red flags that could indicate suspected fraud
- Comply with all other Guide provisions relating to quality control reviews

The Seller/Servicer must periodically update its quality control policies and procedures to address emerging fraud scenarios.

3201.2: Fraud and other Suspicious Activity reporting requirements (06/02/21)

(a) Procedures for reporting and what to report

The Seller/Servicer must have written procedures for reporting fraud and suspected fraud and other Suspicious Activity in connection with a Mortgage sold to, or serviced for, Freddie Mac and discovered at any time including, but not limited to, during origination, quality control reviews, Servicing activities or loss mitigation efforts.

Specifically, a Seller/Servicer must report to Freddie Mac when the Seller/Servicer has a reasonable belief that one of the following is occurring or has occurred during origination or Servicing of a Mortgage including, but not limited to, any loss mitigation activity:

- Misrepresentation, misstatement or omission related to the Borrower including, but not limited to, identification, employment, income, assets, sources of funds, indebtedness and property occupancy
- Misrepresentation, misstatement or omission related to the Mortgaged Premises including, but not limited to, property valuation, property value and property use
- Misrepresentation, misstatement or omission of any other information related to a Mortgage or related real estate transaction including, but not limited to, undisclosed Seller or other third-party incentives, loan performance, mortgage purpose, kickbacks, an undisclosed relationship between parties to the transaction when Freddie Mac requires that the transaction is an “arm’s length” transaction
- A person or entity on the Freddie Mac Exclusionary List is involved or was involved in the origination, sale or Servicing of the Mortgage or in the related real estate transactions in violation of Section 3101.1

- A person or entity on the FHFA Suspended Counterparty Program list is involved or was involved in the origination, sale or Servicing of the Mortgage or in the related real estate transactions in violation of Section 3101.2
- Termination or denial of mortgage insurance based on fraud

(b) Reporting within 60 days

- (i)** The Seller/Servicer must report misrepresentations, misstatements or omissions identified in Section 3201.2(a) to the extent that they are associated with the origination of a Mortgage, whether discovered through a postclosing quality control review or by any other means. This information must be reported to Freddie Mac in accordance with the reporting requirements in Section 3402.10.
- (ii)** The Seller/Servicer must report all other information identified in Section 3201.2(a) by submitting Freddie Mac's **Mortgage Fraud Reporting Form – Servicing**, located at https://sf.freddiemac.com/content/_assets/resources/xls/fact-sheet/servicing_fraud_reporting_form_final.xls to the Freddie Mac fraud mailbox at mortgage_fraud_reporting@freddiemac.com.

(c) Immediate notification and reporting

Notwithstanding the requirements of Section 3201.2(b), the Seller/Servicer must notify Freddie Mac of the following circumstances immediately:

- Theft of custodial funds, lack of collateral, non-remittance of pay-off funds or multiple deliveries of the same Mortgage
- A substantial likelihood that the fraud or suspected fraud or other Suspicious Activity will receive significant public exposure or publicity
- A Seller/Servicer is notified of the entry of a civil judgment, guilty plea or criminal conviction indicating lack of integrity and relating to a participant in a Mortgage or related real estate transaction, or relating to a board member, officer, employee or contractor of the Seller/Servicer
- The Seller/Servicer is notified by law enforcement or another governmental authority that such authority is conducting an investigation or prosecution of fraud relating to Mortgages owned by, or serviced for, Freddie Mac or relating to a board member, officer, employee or contractor of the Seller/Servicer
- A scheme or pattern of (i) more than five Mortgages sold to, or serviced for, Freddie Mac, or (ii) Mortgages sold to, or serviced for, Freddie Mac with an aggregate UPB of at least \$1 Million

- Actual or possible terrorist financing or ongoing or possible money laundering schemes or activity

To notify Freddie Mac immediately, the Seller/Servicer must submit Freddie Mac's Mortgage Fraud Reporting Form, located at

https://sf.freddiemac.com/content/_assets/resources/xls/factsheet/servicing_fraud_reporting_form_final.xls, to the Freddie Mac fraud mailbox at mortgage_fraud_reporting@freddiemac.com.

Seller/Servicers are not required and must not disclose to Freddie Mac any Financial Crimes Enforcement Network Suspicious Activity Reports (SARs) or draft SARs, documents or information revealing the existence of a SAR or indicating whether or not a SAR has been filed, or where disclosure of Suspicious Activity would otherwise be prohibited by law.

3201.3: Cooperation requirements (03/02/16)

The Seller/Servicer must cooperate with Freddie Mac to prevent and investigate fraud and other Suspicious Activity. Cooperation includes making available to Freddie Mac individuals with knowledge of relevant facts. Cooperation also includes providing and assisting Freddie Mac, when permitted by law, in obtaining all information, documentation and records requested by Freddie Mac relating to a Mortgage and related real estate transactions including, but not limited to, closing or settlement agent files, Mortgage files, Borrower payment records and reverifications of employment, income, occupancy and assets. The Seller/Servicer must comply with the deadlines specified by Freddie Mac for providing information, documentation, records, access to individuals or any other requested cooperation.

3201.4: Additional requirements (03/02/16)

Seller/Servicers are reminded of their continuing obligation to comply with all applicable federal, State and local laws, including those relating to fraud and anti-money laundering (see Section 1301.2). Also, Seller/Servicers must document their procedures for fraud prevention, detection and reporting, and detection and reporting of Suspicious Activity, including the requirements of this chapter, and must make these procedures available to Freddie Mac upon request.

3201.5: Additional fraud mitigation resources (06/02/21)

Seller/Servicers can access information on preventing, detecting and investigating potential mortgage fraud and other suspicious activity on Freddie Mac's website at <https://sf.freddiemac.com/working-with-us/fraud-prevention/overview>.

Seller/Servicers may also consult the Freddie Mac fraud hotline at 800-4FRAUD8 (800-437-2838) for additional information or the **Freddie Mac Exclusionary List**.

Chapter 3301: Mortgage File Contents

3301.1: Mortgage file (06/07/23)

The Seller (if it services the Mortgage for Freddie Mac) and any Transferee Servicer must maintain the Mortgage file in accordance with Chapter 3302 for so long as each services the Mortgage for Freddie Mac. The Mortgage file must contain all applicable documents listed in Chapter 3401 and in this chapter. Sellers that sell Mortgages under the Servicing-Released Sales Process must comply with the Mortgage file and related data retention requirements set forth in Exhibit 28A, Loan Servicing Purchase and Sale Agreement for Cash-Released XChange®.

Except with respect to Mortgages sold under the Servicing-Released Sales Process as set forth above, for convenience with Transfers of Servicing, the Transferor Servicer may maintain copies of the Mortgage file content.

Sellers and Transferor Servicers that retain copies of any or all of the Mortgage file must do so until the later of seven years after all associated representation and warranty obligations expire as set forth in Loan Coverage Advisor® or after any Transfer of Servicing. The Mortgage file, its contents and any copies (and all associated data and information, whether stored electronically or otherwise) are and remain at all times the property of Freddie Mac. See Section 1201.9 for additional information regarding Freddie Mac's ownership of the Mortgage file, Mortgage data and related records in the possession of a Servicer.

The Seller may redact or delete the Borrower's Social Security number from all documents in the Mortgage file, provided that the Seller:

- Delivers to Freddie Mac a complete Social Security number for each Borrower as required in Section 6302.9,
- Delivers unredacted documents to Freddie Mac whenever the Mortgage file is submitted to Freddie Mac for quality control review in accordance with Section 3401.1,
- Maintains the Borrower's Social Security number in its electronic files as part of the Mortgage file, and
- Provides the Servicing Transferee with the Borrower's Social Security number in connection with any Transfer of Servicing

3301.2: Security Instrument (05/01/20)

For Security Instruments that were recorded in paper format, the Mortgage file must contain either:

- The original paper Security Instrument with recordation notation, or
- A paper or Electronic (as defined in Section 1401.2) copy of the Security Instrument, with recordation notation on the copy of the Security Instrument or in a separate document maintained with such copy

If the Seller/Servicer maintains an Electronic copy of the Security Instrument (as noted above), it must comply with the requirements set forth in Section 3302.2(b).

If the Security Instrument was electronically recorded, the Seller/Servicer must comply with the requirements set forth in Sections 1401.14 and 1401.15 related to Electronic Recording of paper Closing Documents and Electronic Recording of Electronic Closing Documents, respectively.

If the Mortgage is secured by a Manufactured Home, see Section 5703.7(c), paragraph 3.

3301.3: New York Consolidation, Extension and Modification Agreement (05/01/20)

For Mortgages secured by property in New York State that are documented using a New York Consolidation, Modification and Extension Agreement (NY CEMA), the Mortgage file must contain the following:

- A copy of the Consolidated Note showing all endorsements
- Unless Original Notes are required by Section 3401.3, copies of the Original Old Money Note and any Original New Money (Gap) Notes
- Original NY CEMA, with recordation notation. Where recorders keep the original documents, a copy certified by the recorder will suffice.

For Mortgages secured by property in New York State that are documented using an NY CEMA Form 3172, 1/01 or Form 3172, 1/01 (rev. 5/01), the Mortgage file must contain the following additional documents:

- If the most recent prior Mortgage was originated as a consolidated Mortgage using NY CEMA Form 3172, 1/01 or Form 3172, 1/01 (rev. 5/01), the NY CEMA with all exhibits attached from the prior consolidation, the original Consolidated Note from the prior Consolidation, the Original Old Money Note, and the Original New Money (Gap) Note, and, if new funds were advanced to the Borrower at the time of the current consolidation, the Original Old Money Note and Original New Money (Gap) Note, if applicable, must be the original Note signed by the Borrower and endorsed in blank.
- If the most recent prior Mortgage was originated as a consolidated Mortgage using the NY CEMA Form 3172 7/86, the Original Old Money Note, the NY CEMA with all exhibits

attached from the prior Consolidation, the Original New Money (Gap) Note, and if new funds were advanced to the Borrower at the time of the current consolidation, the Original Old Money Note and Original New Money (Gap) Note, if applicable, must be original Notes signed by the Borrower and endorsed in blank.

- If the most recent prior Mortgage was not originated using an NY CEMA Form 3172, 1/01, Form 3172, 1/01 (rev. 5/01), or Form 3172 7/86 (that is, the most recent prior Mortgage was not a consolidated Mortgage), the Original Old Money Note, and the Original New Money (Gap) Note, and, if new funds were advanced to the Borrower at the time of the current consolidation, the Original Old Money Note and Original New Money (Gap) Note, if applicable, must be original Notes signed by the Borrower and endorsed in blank.

3301.4: Assignment instrument (05/01/20)

The Intervening Assignments must be sent to and held by the Document Custodian, unless the Mortgage is registered with (MERS®) and the Seller/Servicer has elected to retain all assignments for MERS-registered Mortgages in the Mortgage files. The Seller/Servicer must supply its Document Custodian with documents indicating that the Seller/Servicer has elected to hold all assignments in the Mortgage files.

See Section 6301.8 for additional information.

3301.5: Power of attorney (03/04/20)

If the Note was executed by a person acting as attorney-in-fact pursuant to authority granted by a Borrower under a power of attorney, except for eMortgages, the copy of the power of attorney must be attached to the copy of the Note kept in the file. Refer to Section 6301.4 for documentation delivery requirements for powers of attorney and to Section 1402.8(a) for eMortgage delivery requirements.

3301.6: Plat of survey (03/02/16)

The file must contain a plat of survey, if required by Section 4702.2(e).

3301.7: Property insurance policies (03/02/16)

The file must contain property insurance policies, properly endorsed, or suitable evidence of insurance as described in Section 8202.8, unless the Seller/Servicer carries Mortgage impairment insurance instead of maintaining possession of property insurance policies.

3301.8: Assurance of water supply (03/02/16)

If the Mortgaged Premises are dependent for assurance of an adequate supply of water on a water or irrigation company that supplies water only to its shareholders, the file must contain a stock certificate, duly endorsed to Freddie Mac, entitling the property owner to an adequate supply of water.

3301.9: Mortgage insurance policy (03/02/16)

If the Mortgage is required to be insured, the file must contain the mortgage insurance policy or proof of insurance.

3301.10: Leasehold estate (07/25/18)

Documents affecting the leasehold estate, if any, securing the indebtedness must be included in the file. This includes an original executed or certified copy of the lease containing the recordation location.

3301.11: Additional documentation to be retained in Mortgage file (11/04/20)

The Seller/Servicer must retain in the Mortgage file all other Mortgage-related documents, including any documents required under the Guide or other Purchase Documents, requested by Freddie Mac or otherwise commonly maintained in files of private institutional mortgage investors or servicers.

For each Mortgage secured by a Condominium Unit or a unit in a Planned Unit Development (PUD), or, for each Cooperative Share Loan, the Seller/Servicer must retain additional documentation required by Freddie Mac (e.g., for a Mortgage secured by a Condominium Unit, the declaration of condominium, bylaws and regulations, etc.). The Seller/Servicer agrees to deliver the documentation at its own expense to Freddie Mac when requested. Unless specifically required by the Seller's Purchase Documents, the documentation pertaining to a project does not need to be maintained in a Mortgage file. For Cooperative Share Loans, also see Section 5705.11(c).

The Taxpayer First Act requires that the taxpayer's consent be obtained prior to any disclosure of the taxpayer's tax return or tax return information to a third party. If consent is required under the Act, the signed consent form must be obtained in a timely manner and placed in the Mortgage file.

In addition, the Servicer must retain a copy of the signed consent form in the Mortgage file for each Mortgage for which a Servicer obtains tax return information on or after December 28, 2019 as part of its Servicing activity for a Mortgage owned or securitized by Freddie Mac.

Chapter 3302: Mortgage File Retention

3302.1: Maintaining Mortgage file (03/02/16)

The Servicer must maintain an individual file for each Mortgage serviced for Freddie Mac. The file must contain all documents required to be held by the Seller, as stated in Chapter 3301 of this Guide, as well as all legal notices, correspondence, forms and reports concerning the Mortgage and the Mortgaged Premises or REO.

The Servicer must also maintain adequate records of collection efforts and make the records available for Freddie Mac's inspection on request. At a minimum, the records must show:

- The dates when letters and notices were mailed
- Dates and results of all collection activities with Borrowers
- Reasons for prior and current defaults
- Terms of any arrangements for curing the Delinquency and/or providing alternatives to foreclosure
- Documentation of property inspections, as required in Section 9202.11

3302.2: Form of Mortgage file documents (08/05/20)

(a) Paper originals

The Servicer must maintain the paper original of each of the following documents:

- The certificate of title, with the lien properly noted, if the Mortgage is secured by a Manufactured Home in a certificate of title State where there is no procedure for canceling the certificate of title. In jurisdictions where applicable law requires the owner of the Manufactured Home to retain the original certificate of title, the Servicer may maintain a copy of the original certificate of title. Refer to Section 5703.7(c)3.
- If not electronically recorded in accordance with Sections 1401.14 or 1401.15, the recorded assignment of the Mortgage to MERS®, if applicable, and any Intervening Assignments, if the Servicer has elected to retain the assignments for MERS-registered Mortgages
- For Mortgages documented using a New York Consolidation, Extension and Modification Agreement (NY CEMA), the Original Old Money Notes, Original New

Money Notes (Gap Notes) and, if applicable, Original Consolidated Notes from prior consolidations as required by Sections 4101.5, 3401.3 and 3301.3

The above documents and the Mortgage file must be kept in a fire-resistant storage area. Freddie Mac may, at any time, require that, at the Servicer's expense, the Servicer or the Document Custodian affix the Freddie Mac loan number to the face of each Note.

In addition to maintaining the paper original of the documents above, the Servicer should maintain back-up paper or Electronic (as defined in Section 1401.2) copies of such original paper documents in the Mortgage file.

(b) Security Instruments

The Mortgage file must contain the Security Instrument in accordance with Section 3301.2.

When stored as paper documents, such Security Instruments must be stored and maintained in the same manner as the original paper documents in Section 3302.2(a) above.

When such Security Instruments are stored as Electronic Mortgage file documents, the Servicer:

- Agrees that it will promptly obtain, at the Servicer's expense, certified paper or Electronic copies from the recorder's office of any recorded Security Instrument whenever:
 - Necessary for the Servicing of such Mortgages; or
 - Required by Freddie Mac, in its sole discretion

Note: Such requests would ordinarily be on a case-by-case basis, unless Freddie Mac requires the Servicer to obtain certified copies of all such recorded Security Instruments to protect Freddie Mac's interests and enforce its rights.

- Agrees that, as a Transferor Servicer, it will inform any prospective Transferee Servicer that certain Mortgages have Electronic copies of the Security Instruments that:
 - Are stored electronically in the Servicer's Electronic storage System (as defined in Section 1401.2) for Mortgage file documents ("eStorage System"); and
 - Would be electronically transferred to the Transferee Servicer's eStorage System, if applicable, as part of any Transfer of Servicing, subject to the requirements in Section 7101.8(a)(i) under which the Transferor Servicer may be required to convert the documents and records to the form of storage utilized by the Transferee Servicer or generate paper copies of all documents and records for the Transferee Servicer
- Represents and warrants to, and covenants with, Freddie Mac that:

- The Electronic storage of Electronic copies of the Security Instruments will not in any way adversely affect the validity, enforceability or effectiveness of the Security Instruments
- The Electronic copies of the Security Instruments comply with all applicable laws, including, without limitation, E-SIGN and the UETA; and
- All Security Instruments that have been recorded have:
 - Created valid First Liens on the related Mortgaged Premises; and
 - Been copied as Electronic Records and the Servicer has securely stored, protected and maintained such Electronic Records, showing recordation information, in the Servicer's eStorage System
- Indemnifies and holds Freddie Mac harmless from any delay in enforcement of the Mortgages and any failure or inability to collect amounts due under any Mortgage, in addition to any costs, loss, damages, expenses, legal fees, or any costs of any kind which arise out of or occur in connection with or as a result of the Servicer's decision to not store the original recorded Security Instruments as paper Mortgage file documents; and
- Agrees to secure and protect all Electronic copies of the Security Instruments with recordation information or Recording Confirmation(s) with recording information in the Servicer's eStorage System and maintain the validity, effectiveness and enforceability of such Electronic Mortgage file documents for the life of each Mortgage plus seven years

If the original Security Instrument was electronically recorded, the Seller/Servicer must comply with the requirements set forth in Sections 1401.14 and 1401.15 related to Electronic Recording of paper Closing Documents and Electronic Recording of Electronic Closing Documents, respectively.

If the copies of the recorded Security Instruments are Electronic Records, the Servicer must also maintain copies (paper or Electronic) of the original recorded Security Instruments in the Mortgage file at a storage area that is geographically remote from and not susceptible to the same disasters as the primary storage facility site.

(c) Reproductions of original paper documents

Except for the documents noted above, which must be maintained as paper originals or in the same manner as paper originals, the Servicer may maintain paper or Electronic copies of Mortgage file documents reproduced from the original paper documents by any photographic, photostatic, microfilm, microfiche, electronic imaging, optical disk or laser disk storage process; provided that:

- The copies are allowed under laws or regulations to which the Servicer is subject and in the jurisdiction where the Mortgaged Premises are located

- The Servicer has a written opinion of its counsel that the copies are admissible evidence in court
- The copies were made in the regular course of business pursuant to a written policy of the Servicer applicable to all its Mortgage files
- The copies were made by a process that accurately reproduces or forms a durable medium for reproducing the originals
- If the Servicer maintains Electronic copies of such paper Mortgage file documents, the Servicer must store such Electronic copies in a manner that preserves (i) the view (visual computer screen image or printed paper image) of such Electronic documents and any data contained in or associated with the Electronic document for the life of each associated Mortgage plus seven years
- The Servicer maintains Systems, as defined in Chapter 1401, on the premises where the copies are kept, that permit the viewing or reading of the copies and the reproduction of such copies into legible paper copies. The Servicer must make such Systems available for use by Freddie Mac's representatives as needed.
- Servicers may not make copies of original paper Mortgage file documents for any Mortgage file documents (excluding the paper original Mortgage file documents noted above, which must always be maintained and stored as paper originals) using microfilm or microfiche for Mortgages with Note Dates after June 30, 2013. Servicers may copy original paper Mortgage file documents using scanning systems and maintain copies of such documents as Portable Document Format (PDF), Tagged Image File (TIF) format, Joint Photographic Experts Group (JPEG) format or other Electronic document formats commonly used in the regular course of business.

(d) Electronic Mortgage file documents

If any of the Servicer's Mortgage files contain: (i) some Electronic Mortgage file documents that were paper and (ii) some Electronic Mortgage file documents that were originally created as Electronic documents, as permitted by Chapter 1401 or elsewhere in the Servicer's Purchase Documents, and the Servicer determines that it is a business necessity to convert such Electronic Mortgage file documents to a different Electronic document format (e.g., due to technological innovation, changes to the Servicer's Systems, merger of the Servicer with a Servicer that has different Systems, or a Transfer of Servicing to a Servicer with different Systems), such Electronic Mortgage file documents may be converted to another Electronic document format; provided that the view (visual computer screen image) of and the content (data contained in or associated with the Electronic documents) in the Electronic Mortgage file documents are not altered, garbled, lost or destroyed.

(e) Additional document retention and Document Custodian requirements

In addition to the requirements set forth above, Servicers must comply with the document retention and Document Custodian requirements set forth in Sections 9206.17, 9205.11(b) and 9205.20.

3302.3: Mortgage file control and identification (05/01/20)

Regardless of the form in which Mortgage files and records are kept, the Servicer must have control and identification features in place to:

- Permit ready identification of the Freddie Mac loan number assigned to each Mortgage serviced for Freddie Mac
- Permit ready identification of which Mortgages are MERS®-registered and of those that are closed with MERS as original mortgagee of record
- Permit prompt retrieval and, if applicable, delivery to Freddie Mac of a file or individual components of a file by Freddie Mac loan number
- Permit prompt preparation and delivery to Freddie Mac of scheduled and unscheduled reports that Freddie Mac may require by Freddie Mac loan number

If, for any reason, Freddie Mac changes a loan number, the Servicer must upon notice promptly make the necessary changes to the applicable Mortgage file and records to reflect the new Freddie Mac loan number and instruct its Document Custodian to take similar action.

The Servicer must maintain the Mortgage file while Freddie Mac retains an interest in the applicable Mortgage and for at least seven years from the date Freddie Mac's interest in the Mortgage is satisfied.

If the Mortgage was paid in full, the Mortgage file must contain a copy of the canceled Note. If the Mortgage was repurchased by the Servicer to effectuate a Transfer of Ownership that is not allowed by or does not meet Freddie Mac's requirements, the Mortgage file must contain a copy of the executed Transfer of Ownership or assumption/release of liability instrument.

3302.4: Damage or loss of Mortgage file (05/01/20)

The Servicer must bear the entire cost of promptly restoring Mortgage files and related documents and records damaged or lost for any reason.

3302.5: Transfer of Mortgage files; security of Mortgage file information (05/01/20)

Freddie Mac may at any time require the Servicer to deliver the following documents to a Document Custodian approved by Freddie Mac or a transferee designated by Freddie Mac:

- Any original Note, Security Instrument, assignment and modifying instrument still in the Servicer's custody
- Any Mortgage file, document within a Mortgage file or other related documents and records in the Servicer's or its Document Custodian's custody, whether maintained as originals or as copies in accordance with Section 3302.2

The Servicer may, without Freddie Mac's prior approval, entrust custody of all or part of the Mortgage file to the Document Custodian holding Notes and assignments under Section 2202.2. When requested, the Servicer must be able to identify to Freddie Mac those file items held by the Document Custodian and document to Freddie Mac the Document Custodian's acknowledgment that such file items:

- Are Freddie Mac's property
- Will be maintained by the Document Custodian according to standards at least equal to those set in this chapter
- Will be maintained in such a way as to ensure the security and confidentiality of the information; protect against anticipated threats or hazards to the security or integrity of the information; and protect against unauthorized access to or use of such information
- Will be surrendered to Freddie Mac at any time Freddie Mac may request them

The Servicer agrees to indemnify Freddie Mac and hold Freddie Mac harmless for any loss, damage or expense (including court costs and reasonable attorney fees) that Freddie Mac may incur as a result of the Document Custodian's holding all or part of the Mortgage file.

The Servicer must maintain a copy (in a form allowable under Section 3302.2) of any original document that has been entrusted to the Document Custodian for safekeeping. If all or part of the Mortgage file is held by the Servicer's Document Custodian, the Servicer agrees to recover from the Document Custodian (at the Servicer's expense) and provide to Freddie Mac (at the place and within the time frame specified by Freddie Mac) any Document Custodian-held original document requested by Freddie Mac for the postfunding quality control detailed in Chapter 3301 or in conjunction with a Freddie Mac desktop or on-site review of the Servicer's Servicing operations.

Chapter 3401: Freddie Mac's Postfunding Quality Control Review

3401.1: Postfunding quality control (05/04/22)

(a) Defined terms

As used in this Section 3401.1, the following terms have the meanings ascribed to them below:

Component Based Review: Freddie Mac's postfunding quality control review of certain components of the Mortgage file. A Component Based Review does not constitute a Full-File Review.

Correction: Action taken by the Seller/Servicer, typically through delivery of documentation or information to Freddie Mac, that demonstrates that the identified Significant Defect (i) did not, in fact, exist at the time of Mortgage purchase, or (ii) has been corrected in the time frame and manner specified in the Purchase Documents such that the Defect is no longer considered by Freddie Mac to be a Significant Defect. Examples of Corrections include, but are not limited to, De Minimis Corrections and the acquisition of required insurance.

Counterparty Status: Freddie Mac's assessment of a Seller/Servicer's financial capacity which could determine which Remedy Freddie Mac will offer to a Seller/Servicer for a Mortgage with a Significant Defect.

Defect: A loan-level deficiency that breaches a term contained in the Purchase Documents in effect at the time of Mortgage purchase.

De Minimis Correction: Minor amount not to exceed \$500 (or such higher amount as the Seller/Servicer and Freddie Mac may agree) that, when remitted, refunded, or otherwise provided, corrects or otherwise resolves an identified Significant Defect. A De Minimis Correction cannot be made: (a) in connection with any Mortgage where the correction would result in a specific required minimum Borrower contribution not being met, or (b) to correct a violation of the requirements set forth in the Freddie Mac Charter Act.

Finding: One or more Defects that, when considered with other Mortgage features, does not necessitate a change in the price of the Mortgage or result in the Mortgage being unacceptable even if the true and accurate facts about the Mortgage had been known at the time Freddie Mac purchased the Mortgage.

Full-File Review: Freddie Mac's postfunding quality control review of the full Mortgage file.

Price-Adjusted Loan (“PAL”): One or more Defects that, when considered with other Mortgage features, and based on the facts of the Mortgage as delivered to Freddie Mac, result in a Mortgage that was otherwise eligible for delivery to Freddie Mac had the correct data been delivered and Credit Fees been paid to Freddie Mac by the Seller/Servicer.

Remedy: An action to resolve a Significant Defect elected by Freddie Mac pursuant to the Purchase Documents in effect at the time of Mortgage purchase.

Repurchase Alternative: Remedies other than repurchase of the identified Mortgage. Repurchase Alternatives could include, but are not limited to:

Performing Loans	Non-Performing Loans
Recourse/repurchase agreement	Make-whole payment
Indemnification agreement	Split loss
Mortgage insurance stand-in agreement	Loss reimbursement
Collateralized indemnification agreements (collateral in lieu of repurchase or collateralized recourse)	

Significant Defect: One or more Defects that either necessitate a change to the price for which the Mortgage was purchased or result in the Mortgage being unacceptable for purchase had the true and accurate information about the Mortgage been known at time of purchase. Mortgages with Findings and PALs are not Mortgages with Significant Defects.

In determining whether there is a Significant Defect, Freddie Mac must give due consideration to the severity of the Defect. In addition, in order to be a Significant Defect, the Defect must relate to one of the following:

- The underwriting of the Borrower’s creditworthiness and capacity (e.g., Borrower’s income, Borrower credit/liabilities and Borrower assets) or Borrower eligibility and qualification (e.g., Area Median Income, First-Time Homebuyer, lawful presence in the United States)
- The underwriting criteria related to property or project eligibility (e.g., residential use and condominium eligibility), the property appraisal, or the physical condition of the Mortgaged Premises
- Mortgage or product terms and criteria (e.g., products that may require special Seller/Servicer approval as a prerequisite for delivery and the criteria described in the Purchase Documents such as loan-to-value (LTV) ratio, occupancy, Credit Score, Mortgage purpose and Mortgage Product, and terms such as ineligible transaction types

and limitations on cash out to the Borrower that determines the type of refinance) or any terms and criteria set forth in any negotiated provision)

- A life-of-loan representation and warranty (as described in Section 1301.11)
- Requirements applicable at time of Mortgage purchase (e.g., no defaults, all taxes and insurances have been paid or escrows established, and no modification, encumbrance, subordination or release of Mortgage)
- The warranties and obligations of Seller/Servicer set forth in Section 3101.1 regarding the Freddie Mac Exclusionary List or in Section 3101.2 regarding the FHFA Suspended Counterparty Program
- The existence, sufficiency or enforceability of any required insurance or guaranty, or
- The form and/or execution of Freddie Mac required Mortgage documents that without which make the Mortgage ineligible for sale or limit the enforceability of the required Mortgage terms (e.g., Uniform Residential Loan Application, power of attorney, Texas 50(a)(6) Mortgage documents or nonstandard and special purpose documents such as Living Trusts)

(b) General quality control policy

Freddie Mac reserves the right to conduct a postfunding quality control review of any Mortgage sold to Freddie Mac. This review may be a Component Based Review or a Full-File Review.

Freddie Mac will underwrite each Mortgage selected for postfunding quality control review to verify that the Mortgage:

- Is of investment quality (as defined in Section 4201.1)
- Is based on a determination that the Borrower has acceptable credit reputation and capacity
- Is secured by collateral that is adequate for the transaction, and
- Otherwise complies with Freddie Mac's underwriting guidelines and other requirements set forth in the Purchase Documents, including compliance with applicable anti-predatory lending laws

Freddie Mac's determination of whether a Mortgage is of investment quality and otherwise complies with all requirements of the Purchase Documents is conclusive, unless the IDR Process described in Section 3602.8 is elected, in which case the decision of the Neutral (as such term is defined in the IDR Document) shall be binding.

(c) FICO® scores

Freddie Mac obtains FICO scores for Mortgages purchased and uses such scores and the accompanying reason codes as one of the sampling criteria for postfunding quality control reviews. If the Seller delivers and documents an Indicator Score in accordance with the provisions of Section 5203.2(f), Freddie Mac will use the Seller-delivered score.

(d) Reviewing Accept Mortgages

For Accept Mortgages, the Borrower will be considered creditworthy and no further assessment of Borrower creditworthiness will be made in the postfunding review if:

- The Seller has submitted to Loan Product Advisor® all required information and has complied with the terms applicable to Accept Mortgages in the Guide
- The information submitted is true, complete, accurate and documented in the loan file

(e) Mortgage file submission requirements

Freddie Mac will notify the Seller/Servicer via e-mail that certain Mortgages have been selected for postfunding quality control review and will provide a checklist of documents that must be submitted to Freddie Mac for each selected Mortgage. Unless otherwise instructed by Freddie Mac, the Seller/Servicer must submit:

- All credit, income, employment, collateral and asset documentation used by the Seller to make the Mortgage underwriting decision
- The documents listed in Sections 3401.3 through 3401.30, as applicable
- The source documentation for any Indicator Score
- Any other documents listed on the checklist, and
- If requested by Freddie Mac, any other Mortgage-related documents that the Seller/Servicer is required to maintain in the Mortgage file including any documents required under the Guide or other Purchase Documents

In addition, for nonperforming Mortgages requested for postfunding quality control review, the checklist includes, among other things, records of all collection efforts, including Borrower contacts, property inspections, attempts to develop a workout plan and bankruptcy and/or foreclosure tracking logs and notes.

The Seller/Servicer must provide all documents indicated on the applicable postfunding quality control checklist in an electronic media format and file size as specified on the Quality Control webpage located at <https://sf.freddiemac.com/general/specifications-for-electronic-file-delivery-for-qc-loan-file-reviews>. Freddie Mac reserves the right, in its sole

discretion, to take any appropriate action if a Seller/Servicer does not deliver the required documents in accordance with the specified media format and file size requirements. Such action may include, but is not limited to, assessing a noncompliance fee to compensate Freddie Mac for costs incurred by having to manually process file deliveries.

All documentation sent to Freddie Mac will be used in the postfunding quality control review, even if the Seller/Servicer includes documentation that is not required, with the exception of trended credit data, as described in Section 5202.3, which will not be considered by Freddie Mac. The Seller/Servicer is responsible for the accuracy and authenticity of all documentation in the Mortgage file.

Within 30 days after Freddie Mac requests a Mortgage file for postfunding quality control review, Freddie Mac must receive the requested Mortgage files containing all the specified documentation. If Freddie Mac does not receive the requested Mortgage file within that time frame, Freddie Mac may issue a repurchase request, and failure to submit a Mortgage file as requested may result in a Seller's or Servicer's suspension or disqualification. Freddie Mac, in its sole discretion, may specify a shorter or longer period for receipt of the requested Mortgage files.

An offer by the Seller/Servicer to repurchase the Mortgage will not exempt the Seller/Servicer from submitting the documents for postfunding quality control.

(f) Process for remedying selling and origination defects

The steps below describe the process that Freddie Mac will follow to categorize Defects, allow Corrections to Defects, and remedy Defects through either a repurchase request or Repurchase Alternative.

(i) Step 1 – Identification of Findings, PALs and Significant Defects

After a postfunding quality control review is completed, Freddie Mac will designate any Defect(s) as resulting in a Finding, PAL or Significant Defect. Freddie Mac's repurchase letters will continue to detail the specific Significant Defects found during the quality control review.

If Freddie Mac designates the Defect as resulting in a Finding, Freddie Mac will not require a Correction or a Remedy from the Seller/Servicer. However, Freddie Mac may request a data update from the Seller/Servicer.

If Freddie Mac designates the Defect as resulting in a PAL, the Seller/Servicer must pay to Freddie Mac the applicable Credit Fees that should have been paid when the Mortgage was purchased by Freddie Mac had the true and accurate facts about the Mortgage been known at the time of purchase, which will be paid in accordance with Section 6303.2. Freddie Mac may not demand repurchase of a PAL. The Seller/Servicer may not voluntarily repurchase a PAL.

If Freddie Mac identifies a Significant Defect, Freddie Mac will require repurchase of the Mortgage or may offer the Seller a Repurchase Alternative.

Freddie Mac also checks for data discrepancies (which could be independent of a Full-File Review) that may result in the assessment of or an adjustment to a Credit Fee.

(ii) Step 2 – Correcting certain significant Defects

During the Appeal Process described in Section 3602.8, a Seller/Servicer has the right to provide a Correction of any Significant Defects. Any additional documentation or information that the Seller/Servicer provides is subject to the same standard of quality control review as the initial Mortgage file documentation.

The documentation submitted to correct a Significant Defect must be based on information or data that either:

- Was available at the time of underwriting (and no later than the Note Date), or
- Covers the time of underwriting so long as such evidence meets the applicable documentation requirements set forth in the Purchase Documents

During the appeals process, Seller/Servicers have the ability to correct Defects related to property, flood or mortgage insurance.

If a Seller/Servicer does not repurchase the Mortgage or perform any Repurchase Alternative in accordance with the Purchase Documents, such Seller/Servicer continues to have the obligation to correct any Significant Defect in accordance with the Purchase Documents.

(iii) Step 3 – Freddie Mac review of Seller response and Mortgage reassessment

During the Appeal Process described in Section 3602.8, Freddie Mac will conduct a Mortgage reassessment by reviewing any Corrections submitted by the Seller/Servicer in accordance with the applicable Purchase Documents in order to determine whether a Significant Defect still exists.

If a Seller/Servicer submits additional documentation and/or information or takes steps which correct all Significant Defects in accordance with the Purchase Documents, Freddie Mac will rescind the Remedy request.

If, following reassessment, all Significant Defects have not been corrected in accordance with the Purchase Documents, the Seller/Servicer must comply with the Remedy request in a timely manner.

If, following reassessment, Freddie Mac determines that the Mortgage is a PAL, the Seller/Servicer must pay Freddie Mac the applicable Credit Fees, in accordance with

Section 6303.2, that should have been paid when the Mortgage was purchased by Freddie Mac had the true and accurate facts about the Mortgage been known at the time of purchase.

Freddie Mac may consider a Mortgage with a Significant Defect for a Repurchase Alternative depending on Freddie Mac's commercially reasonable determination that the Mortgage is retainable. Freddie Mac will determine whether the Mortgage is retainable based on the Seller/Servicer's Counterparty Status and whether the Mortgage was an acceptable investment at the time of purchase.

At any time during the appeals process, a Seller/Servicer has the right to propose a Repurchase Alternative following the identification of a Significant Defect. Freddie Mac will in good faith consider and respond to the Seller/Servicer's proposed Repurchase Alternative.

Freddie Mac may offer or decline to offer the Seller/Servicer certain Repurchase Alternatives based on the Seller/Servicer's Counterparty Status to the extent there are future obligations required as part of the Repurchase Alternative. Other factors to be considered by Freddie Mac may include, but are not limited to, the failure to maintain a quality loan origination process and the Seller/Servicer's ability and willingness to comply with other provisions of the Purchase Documents.

If a Mortgage has multiple Significant Defects, and the Seller/Servicer is successful in correcting some, but not all, of the Significant Defects, Freddie Mac may continue to pursue repurchase as a Remedy if the Mortgage has Significant Defects after the Mortgage reassessment is complete. If a Mortgage has multiple Significant Defects and the Seller/Servicer is successful in correcting all of them, but there remains a Defect that makes the Mortgage a PAL after reassessment, Freddie Mac may subsequently notify the Seller/Servicer of the Credit Fee that remains due. Such Credit Fee will be paid in accordance with Section 6303.2.

(iv) Step 4 – Range of possible outcomes

(A) Finding

If the Mortgage has had a Full-File Review completed with only Findings discovered, the Seller/Servicer will be relieved from Freddie Mac's enforcement of certain selling representations and warranties related to such Mortgage (as described in Section 1301.11(a)) provided all other requirements in Section 1301.11 are met. If a Mortgage has not had a Full-File Review, the Seller/Servicer may still be relieved from Freddie Mac's enforcement of certain selling representations and warranties through other provisions under the selling representation and warranty framework described in Section 1301.11.

(B) PAL

The appeals process for a PAL will result in one of the following outcomes:

- Rescission of the request for the payment of the Credit Fee, or
- Payment of the Credit Fee

If the PAL has had a Full-File Review completed without the identification of any Significant Defects, the Seller/Servicer will be relieved from Freddie Mac's enforcement of certain selling representations and warranties related to such Mortgage (as described in Section 1301.11(a)) when the Seller/Servicer pays the Credit Fee, provided all other requirements in Section 1301.11 are met. A PAL that has not had a Full-File Review will not be relieved from Freddie Mac's enforcement of certain selling representations and warranties (as described in Section 1301.11(a)) when the Seller/Servicer pays the Credit Fee, but the Seller/Servicer may still be relieved from Freddie Mac's enforcement of certain selling representations and warranties through other provisions under the selling representation and warranty framework described in Section 1301.11.

(C) Significant Defects

The appeals process for Mortgages with Significant Defects may result in a range of outcomes, including:

- Rescission of the Remedy request
- Agreement on a Repurchase Alternative, or
- Fulfillment of the Remedy request

If Freddie Mac offers a Repurchase Alternative after a repurchase demand has been issued, the Seller/Servicer has the option to repurchase the Mortgage instead of accepting the Repurchase Alternative.

If a Mortgage with a Significant Defect has had a Full-File Review, the Seller/Servicer will be relieved from Freddie Mac's enforcement of certain selling representations and warranties related to such Mortgage (as described in Section 1301.11(a)) if (i) all Significant Defects have been corrected, or (ii) a Repurchase Alternative has been offered and accepted, and fully executed and completed by the Seller/Servicer in compliance with any related terms, including the expiration of all applicable time frames, provided all other requirements set forth in Section 1301.11 are met.

At its sole discretion, Freddie Mac, in addition to its other contractual and legal remedies, will require repurchase of each Mortgage that does not comply with the

requirement(s) set forth in the Purchase Documents to submit requested Mortgage documentation for postfunding quality control review within the allotted time, unless the IDR Process is elected, in which case the decision of the Neutral (as such term is defined in the IDR Document) shall be binding.

3401.2: Credit enhancer postfunding review (03/02/16)

Freddie Mac may elect to obtain a credit enhancement on some or all of the Mortgages it purchases, either concurrently with or subsequent to the purchase of the Mortgages. In such event, the Seller, as the Servicer of the Mortgages, or any transferee Servicer, may receive an electronic request from Freddie Mac to provide the credit enhancer with Mortgage files or other Mortgage information or documentation (“Mortgage information”) related to the credit-enhanced Mortgages for review.

Freddie Mac’s request to the Seller or transferee Servicer, as applicable, will identify the credit enhancer requesting the Mortgage information, authorize the release of the specific Mortgage information, and provide the name and contact information for the individual at the credit enhancer to whom the Mortgage information should be directed. The Seller or any transferee Servicer, as applicable, must provide the Mortgage information no later than:

- 30 days after receipt of the request, or
- The agreed-upon written deadline as negotiated between the credit enhancer and the Seller or transferee Servicer, as applicable

With respect to each request for Mortgage information:

- The Seller or transferee Servicer, as applicable, will not be entitled to receive notice of any action taken by the credit enhancer, and
- If the Seller or transferee Servicer, as applicable, fails to cooperate with the credit enhancer and such failure jeopardizes Freddie Mac’s ability to maintain the credit enhancement, Freddie Mac may exercise any or all of its rights and remedies under the Seller’s Purchase Documents or, as applicable, the transferee Servicer’s Purchase Documents.

Requests for Mortgage information by a credit enhancer do not in any way modify, mitigate or nullify any of Freddie Mac’s rights under the Purchase Documents including, but not limited to, the right to conduct a quality control review of the Mortgages at any time in the future and to issue remedies for Mortgages Freddie Mac determines are ineligible. As provided in Section 1301.10, the Seller’s representations and warranties are not affected by any investigation by the credit enhancer or by any subsequent investigation made by, or on behalf of, Freddie Mac.

3401.3: Note (05/01/20)

A legible copy of the Note, with all required accompanying documents (see the definition of “Note” in the Glossary) and showing all endorsements, must be maintained in the Mortgage file. The endorsement from the Seller, as required in Section 6301.3, does not need to appear on the copy of the Note submitted for postfunding quality control review.

For Mortgages secured by property in New York State that are documented using a New York Consolidation, Extension and Modification Agreement (NY CEMA), the Mortgage files must contain legible copies of the following documents:

- Consolidated Note showing all endorsements
- Original Old Money Note and, if applicable, Original New Money (Gap) Note
- All other documents specified in Section 4101.5(b)

3401.4: Modifying instrument or assumption of indebtedness agreement (03/02/16)

The following documents must be included in the Mortgage file:

- The modification or conversion agreement, or the ownership transfer instrument and assumption of indebtedness agreement, if the Mortgage has been modified or converted from an ARM to a fixed-rate Mortgage or if the ownership of the Mortgaged Premises has been transferred in any way; however, the Seller/Servicer does not need to submit for postfunding quality control review a copy of any modifying instrument that by its terms ceases to be effective upon purchase of the Mortgage by Freddie Mac
- The Construction Conversion Modification Agreement for Construction Conversion Mortgages and Renovation Mortgages; and
- The Mortgage application, credit report, employment and income verifications for the current Borrowers, if the Mortgaged Premises is currently owned by anyone other than the original Borrowers. A certification of the terms of the sale of the Mortgaged Premises (for example, a copy of the purchase agreement signed by the seller and purchaser) must also be included.

3401.5: Underwriting summary (07/25/18)

A completed Form 1077, Uniform Underwriting and Transmittal Summary, or equivalent form (e.g., a Feedback Certificate), must be included in the Mortgage file.

3401.6: Title insurance (02/03/22)

The Mortgage file must contain a copy of a title commitment for title insurance on an American Land Title Association (ALTA) form (or its equivalent if a certificate of title or attorney opinion of title is being delivered) including all schedules and proposed endorsements. The Mortgage file must also contain a copy of the final title insurance policy, unless it has not been received prior to the delivery of the loan to Freddie Mac. The final policy, once issued, must be maintained in the Mortgage file and must include all required endorsements.

For Cooperative Share Loans recognized as personal property, the Mortgage file is not required to contain a copy of the title commitment or final title insurance policy. See Section 4702.6 for title insurance requirements for Cooperative Share Loans.

3401.6: Title insurance (Future effective date 10/02/23)

Except as stated below, the Mortgage file must contain a copy of a title commitment for title insurance on an American Land Title Association (ALTA) form (or its equivalent if a certificate of title or attorney opinion of title is being delivered) including all schedules and proposed endorsements. The Mortgage file must also contain a copy of the final title insurance policy, unless it has not been received prior to the delivery of the loan to Freddie Mac. The final policy, once issued, must be maintained in the Mortgage file and must include all required endorsements.

For Cooperative Share Loans recognized as personal property and HeritageOneSM Mortgages that are leasehold Mortgages, the Mortgage file is not required to contain a copy of the title commitment or final title insurance policy. See Sections 4702.6 and 4702.7 for title insurance requirements for Cooperative Share Loans and HeritageOne Mortgages, respectively.

3401.7: Residential loan application (03/01/23)

The Mortgage file must include the following:

- A Record (as that term is defined in Section 1401.2) of the initial Form 65, Uniform Residential Loan Application
- The final signed application, and

- A Record of Form 1103, Supplemental Consumer Information Form

The final signed application must match the file documentation. If there are any discrepancies between the information on the application and the information in the credit, income and assets verifications, a written explanation of such discrepancies must also be included in the Mortgage file.

3401.8: Credit documentation (03/02/16)

A credit report must be included in the Mortgage file. If Credit Scores were obtained for underwriting, they must be included in the Mortgage file. For any Mortgage underwritten with Credit Scores, the Credit Score selected for each Borrower and the process used to select the Credit Score must be noted on Form 1077, Uniform Underwriting and Transmittal Summary, or another similar document in the Mortgage file. Source documentation also must be retained in the Mortgage file.

3401.9: Verification of employment and income (12/04/19)

Documentation of employment and income verification and a written analysis of the income used to qualify the Borrower must be retained in the Mortgage file.

3401.10: Underwriting explanation (10/02/19)

When either the total monthly housing expense-to-income ratio guideline of 28% or the monthly debt payment-to-income ratio guideline of 36% is exceeded on Manually Underwritten Mortgages, a written explanation fully supporting the Seller's underwriting decision must be retained in the Mortgage file.

3401.11: Property valuation documentation (03/31/22)

Except for Loan Product Advisor® Mortgages for which the Seller is offered and accepts an appraisal waiver in accordance with Section 5602.3, the Mortgage file must include all documentation used to determine that the Mortgaged Premises is acceptable including, but not limited to, an appraisal report and any completion report for appraisals subject to conditions.

3401.12: Appraisal form rental information (03/01/19)

Rental information on completed appraisal forms (i.e., Form 1000, Single Family Comparable Rent Schedule or Form 72, Small Residential Income Property Appraisal Report, as applicable), in accordance with the requirements of Chapter 5306, must be included in the Mortgage file.

3401.13: Leasehold Mortgage (07/25/18)

If the Mortgaged Premises is on a leasehold estate, a copy of the lease with recordation information must be retained in the Mortgage file.

3401.14: Buydown agreement (03/02/16)

For Mortgages with a temporary subsidy buydown plan, the Mortgage file must contain a copy of the executed buydown agreement.

3401.15: Mortgage insurance certificate (03/03/21)

If mortgage insurance is required, a copy of the mortgage insurance certificate or electronic evidence of mortgage insurance coverage, as well as all documents and information relating to any change in mortgage insurance from that provided at delivery including, but not limited to, notices of cancellation, rescission or termination of mortgage insurance, and denials of claims must be included in the Mortgage file.

3401.16: Mortgage payment history (03/02/16)

The Mortgage file must include a payment history from the first payment Due Date to the Delivery Date. This Mortgage payment history must:

- Demonstrate no Delinquencies of 30 days or more
- Be understandable without code translation

3401.17: Verification of source of funds (12/04/19)

The Mortgage file must include evidence of verification of all eligible sources of funds used to qualify the Borrower for the Mortgage transaction.

3401.18: Verification of previous Mortgage/rental payment history (10/02/19)

Evidence of verification of Mortgage payment history and/or rental payment history for the 12-month period prior to the date of the Mortgage application must be included in the Mortgage file for Manually Underwritten Mortgages.

3401.19: Sales contract (03/02/16)

For purchase Mortgages, a copy of the fully executed sales contract and all addenda must be included in the Mortgage file.

3401.20: Closing statements (10/31/18)

Effective October 31, 2018, this section is deleted.

3401.21: Documentation of flood zone determination (03/02/16)

The flood zone determination must be documented in the Mortgage file.

3401.22: Evidence of flood insurance (03/02/16)

If flood insurance is required, the Mortgage file must include acceptable final evidence of flood insurance.

If final evidence of flood insurance is not available at the time of the quality control review, one of the following documents is acceptable:

- Completed and executed NFIP Flood Insurance Application PLUS a copy of the Borrower's premium check or agent's paid receipt

OR

- Completed and executed NFIP Flood Insurance Application PLUS the final Settlement/Closing Disclosure Statement reflecting the flood insurance premium collected at closing

OR

- Completed and executed NFIP General Change Endorsement Form showing the assignment of the current flood insurance policy by the property seller to the Borrower

If the flood insurer is not the NFIP, the insurer's equivalent of the applicable NFIP form is acceptable.

If the flood zone determination documentation shows the insurable improvements are in a Special Flood Hazard Area (SFHA) but flood insurance was waived, the Mortgage file must include the documentation which served as the basis for the waiver.

3401.23: Other documentation (05/01/19)

The Seller/Servicer agrees to maintain in the Mortgage file and submit to Freddie Mac:

- The most recent Feedback Certificate and responses, including Risk Class results and underwriting requirements
- All documents necessary to evidence compliance with all applicable anti-predatory lending laws and regulations including, for example, any required reasonable tangible net benefit analysis, Borrower disclosures or disclosures relating to affiliated business or service providers
- All other documents required under the Guide or other Purchase Documents, requested by Freddie Mac or otherwise commonly maintained in files of private institutional Mortgage investors or servicers
- Freddie Mac may require that the requested documents be delivered to Freddie Mac, an agent of Freddie Mac, or to a Document Custodian.

3401.24: Mortgage secured by a Manufactured Home (04/06/22)

For a Mortgage secured by a Manufactured Home, the Mortgage file must include documentation evidencing that the Manufactured Home is legally classified as real property, the

Manufactured Home is properly titled and the lien on the Manufactured Home is properly created, evidenced and perfected.

For a Mortgage on a new Manufactured Home, the Mortgage file must contain a copy of the manufacturer's invoice and Manufactured Home Purchase Agreement in the Mortgage file.

If the Manufactured Home is a new installation, the Mortgage file must contain evidence that the Manufactured Home was installed in compliance with applicable HUD Codes for Manufactured Homes (HUD Codes).

3401.25: Settlement/Closing Disclosure Statement (03/06/19)

The Mortgage file must include the final Settlement/Closing Disclosure Statement and any related documentation evidencing all costs to the homebuyer and property seller, if applicable.

3401.26: Secondary financing (10/31/18)

For each Mortgage that is concurrently originated with a subordinate lien (i.e., the Mortgage and subordinate lien are originated on the same day), the Seller must include in the Mortgage file a copy of the following documentation for the subordinate lien:

- Note or other evidence of subordinate lien terms
- The Settlement/Closing Disclosure Statement or an alternative form required by law that evidences the fees and costs paid by the Borrower at closing in connection with the secondary financing
- For Home Equity Lines of Credit (HELOCs), the HELOC agreement indicating all fees and costs paid by the Borrower at closing, and the maximum permitted credit advance

For refinance Mortgages, the Mortgage file must include evidence of subordination of outstanding secondary financing.

3401.27: Freddie Mac Relief Refinance MortgageSM – Same Servicer (10/02/19)

Effective October 2, 2019, Section 3401.27 is deleted.

3401.28: Electronic Records and Electronic Signatures (03/02/16)

If a Mortgage is originated using any Electronic Records expressly permitted by Freddie Mac in the Guide or in a Seller/Servicer's other Purchase Documents, the Seller/Servicer's Mortgage file may contain a combination of paper documents and Electronic Records and must contain:

- The clear and conspicuous statement of certain information required by E-Sign (see Title I, Section 101(c)(1)(B)(i)-(iv) and (C)(i) of E-Sign) and satisfactory evidence that the Borrower received the information before consenting to Electronic Records
- The "Consent to Electronic Records" required by E-Sign (see Title I, Section 101(c)(1)(A) and (C)(i)-(ii) of E-Sign) and satisfactory evidence that "reasonably demonstrates" that the Borrower was able to access the information required by E-Sign (see preceding bullet) before electronically consenting or confirming consent to Electronic Records
- Federal or State disclosures that were electronically presented to and accessed by the Borrower electronically, with satisfactory evidence of when and how the electronic disclosures were received and, if required, signed by the Borrower using an Electronic Signature
- Any other paper documents and/or Electronic Records required by the Seller/Servicer's Purchase Documents, with satisfactory evidence of when and how the paper documents and/or Electronic Records were received and, if required, signed by the Borrower either in writing or using an Electronic Signature, as applicable

In all cases, the paper documents and/or Electronic Records (including Electronic Signatures) in the Mortgage file must be sufficient to permit Freddie Mac to perform a postfunding quality control review and, among other things, obtain a reverification of the Borrower's employment and income from employers and/or other third parties.

If the Seller/Servicer's Mortgage files contain a combination of paper documents and Electronic Records, the Seller/Servicer must maintain a computerized tracking system that cross-references the locations of both paper documents and Electronic Records for each Mortgage. Such computerized information must be made available to Freddie Mac promptly upon request.

3401.29: Community Land Trust Mortgage (11/05/18)

For Community Land Trust Mortgages, the Mortgage file must include:

- If applicable, written approval signed by the Community Land Trust or its authorized representative permitting the Borrower to enter into a refinance transaction

- An original executed or certified copy of the Community Land Trust ground lease and Form 490, Community Land Trust Ground Lease Rider, containing the recordation information

3401.30: GreenCHOICE Mortgages® (05/01/19)

For GreenCHOICE Mortgages®, the Seller/Servicer must ensure that the Mortgage file includes:

- Documentation of the cost of the proposed energy and/or water efficiency improvements, such as receipts and/or invoices
- Documentation that the property has a level of energy efficiency greater than that of a “standard” (i.e., non-energy efficient) property as required by Section 5401.1, and
- Except as permitted in Section 4606.7, the documentation must be an energy report meeting the requirements in Section 4606.6

Chapter 3402: Seller's In-House Quality Control Program

3402.1: Seller's quality control program (06/02/21)

The Seller must operate a quality control program for Home Mortgages that is acceptable to Freddie Mac. Organizations with a commitment to quality control recognize that quality begins before an application is taken and continues throughout the entire Mortgage origination process.

The purpose of a quality control program is to monitor and evaluate the integrity of the origination process and to provide feedback to the organization about its originations. This feedback is used to adjust and improve production processes.

Effective quality control programs are designed to monitor and evaluate the specific characteristics of the Seller's organization, and reflect:

- The size and structure of the organization
- The experience and expertise of the staff
- The geographic areas of operation
- The branch structure
- The volume and types of Mortgages originated
- The origination sources used (for example, from Mortgage Brokers or Correspondents or via the Internet)
- Any significant changes in the product lines, origination sources or production process
- Controls in place to ensure that internal policies and procedures are followed

Although no single specific quality control program can meet the needs of all Sellers, there are certain characteristics found in all effective quality control programs. The Seller's quality control program must:

- Be in writing
- Provide for standard operating procedures for all employees who will be involved with or affected by the quality control process
- Be capable of evaluating and monitoring the overall quality of Mortgage production on a regular and timely basis

- Include preclosing and postclosing quality control reviews
- Include procedures to ensure that sample selection, Mortgage file reviews and the reporting of findings to senior management are conducted in a timely manner

The Seller may use any combination of preclosing or postclosing quality control reviews based on its specific operations and needs. The Seller's postclosing in-house quality control program must operate independently of the Mortgage origination and underwriting departments. However, for Sellers with annual production of less than 5,000 Home Mortgages, the postclosing quality control function may be housed with the origination and underwriting departments.

The Seller must also comply with the requirements of Section 3201.1(c) relating to fraud prevention and detection in its quality control program, as well as other applicable requirements of Chapter 3201 relating to fraud prevention, detection and reporting.

A variety of reference guides, tools and technology resources designed to assist Seller/Servicers with their in-house quality control program can be found on Freddie Mac's website at <https://sf.freddiemac.com/working-with-us/selling-delivery/delivery-options-pricing/quality-control>.

3402.2: Use of third-party quality control services (03/02/16)

The Seller may use third-party quality control services for all or part of its quality control program. The Seller using third-party quality control services must:

- Ensure that the services performed by third-party quality control services comply with Freddie Mac's requirements
- Monitor and evaluate the performance of third-party quality control services on a regular basis

The Seller must review third-party quality control findings and take the same corrective actions as it would with respect to quality control findings made by its own staff.

3402.3: Transfers of Servicing (10/02/19)

The Seller's postclosing quality control program must include policies and procedures addressing Transfers of Servicing.

When Servicing is transferred, the Seller must:

- Retain copies of the file documents to complete the quality control reviews, or

- Make arrangements with the new Servicer to assist in the quality control reviews

Records of completed quality control reviews must be provided to the new Servicer upon request.

3402.4: Postclosing sample selection (11/04/20)

The Seller's postclosing quality control sample must, at a minimum, consist of three sample types:

- Random
- Targeted
- Discretionary

(a) Random sample

Home Mortgages in the random sample are randomly selected from the population so that every Mortgage has an equal chance of selection.

Loan Product Advisor® Mortgages must make up a representative portion of the Seller's quality control sample.

Except as provided under the last paragraph of this section, the Seller must:

- Select for quality control review at least 10% of one of the following production populations:
 - Total annual Home Mortgage production, or
 - Total annual secondary market Home Mortgage production, or
 - Total annual Freddie Mac Home Mortgage production

However, any Mortgages excluded from the Seller's quality control sample selection process, as set forth in the remaining provisions of this section, are not eligible for sale to Freddie Mac.

- Schedule its sampling procedures so that every Home Mortgage within the selected population has a chance of being selected for review within 90 days of the Note Date
- Assign to quality control personnel the authority to conduct additional reviews at their discretion

- Warrant that over the course of each 12-month period, the selected samples are representative of the full scope of the Seller's product line and production process within the selected population

The full scope of the Seller's product line and origination process includes all of the following:

- Home Mortgages from all product lines
- Home Mortgages from all States of operation
- Home Mortgages from each branch office
- Home Mortgages from each third party involved in the origination process
- Home Mortgages with high-risk characteristics (for example, high loan-to-value ratios, ARMs, 3- to 4-unit properties, Manufactured Homes, cash-out refinance Mortgages, Investment Property Mortgages and Caution Mortgages)

A Seller with a total annual production volume in excess of 5,000 Home Mortgages may substitute a statistically based sampling methodology that is of sufficient size to ensure a confidence level of 95% and a margin of error not to exceed 2% on an annual basis based on the defect rates for Mortgages recently reviewed by the Seller's quality control.

(b) Targeted sample

Each month, the Seller must select an appropriate risk-based sample of Mortgages sold to Freddie Mac that become 60 days or more past due in the first six months following the Note Date. These Mortgages must be carefully evaluated to determine the presence of any fraud or other deficiency.

(c) Discretionary sample

Mortgages in a discretionary sample are selected on a non-random basis from a specific population.

When selecting Mortgages to be reviewed as part of the Seller's discretionary post-closing quality control sample, the Seller may choose to make targeted Mortgage selections that focus on a specific characteristic of the Mortgage, such as product, business source or underwriting component (for example, income and employment, assets, credit or property).

When conducting these discretionary reviews, the Seller must consider the purpose of the targeted selection when determining whether certain reverifications are necessary. For example, if the purpose of the targeted selection is to focus specifically on income calculations, then reverification of assets or a review of the appraisal is not within the scope of the review and is not required to be completed; however, reverifications of income and

employment are required. If the purpose of the targeted selection is to review Mortgages originated through a new source of business, then all aspects of the Mortgage are within the scope of the review and all reverifications noted in Section 3402.5 must be performed.

As required in Section 3201.1(c), discretionary samples must be selected to evaluate the work of a particular employee or Mortgage transaction participant when there is a reason to suspect fraud. Discretionary samples should also be selected as needed in order to:

- Review the work of a new branch office, employee or third-party originator
- Validate that a new product or offering is being originated in accordance with the Seller's policies and procedures
- Comply with a request from Freddie Mac to review loans in a specific population

3402.5: Reverifications made by Seller (11/06/22)

The Seller must make certain reverifications on Loan Product Advisor® and Non-Loan Product Advisor Mortgages selected for postclosing quality control review. The purposes of the reverification process include:

- Evaluating the validity, accuracy and quality of the information used in the original underwriting decision
- Protecting the Seller against fraud and misrepresentation

Sellers should begin reverifying the information listed in this section as soon as possible after the sample selection to facilitate the Mortgage file review.

Reverifications may be in written or verbal form.

All reverification documentation must be retained in the Mortgage file.

(a) Verifications of employment, income and sources of funds

(i) Reverifications

Except as noted below, for postclosing quality control reviews, the Seller must reverify all employment, income and sources of funds used in the original underwriting process and based on the minimum documentation required at the time of origination. Copies of the original verifications should be submitted to the issuers with a request that they confirm the accuracy of the documentation. The Seller must pay any applicable fees that are charged for the reverification information.

The following chart contains exceptions to the reverification requirements which are permitted provided the Mortgage file contains no evidence of misrepresentation in connection with the Borrower's application, documentation or any part of the underwriting of the Mortgage:

Documentation	Requirement for reverification
Income, employment or sources of funds used in the original underwriting process received from a third-party service provider designated by Freddie Mac (as of the date of the post-closing quality control review), or from a Freddie Mac financial institution verification report, for the income or asset type used to qualify the Borrower ¹	Reverification not required for eligible income types (see Sections 5901.2(b) and 5904.2(b)) or eligible asset types (see Section 5902.2(b)) when the report is accessed directly from the service provider's electronic database
10-day pre-closing verification (10-day PCV) confirmed by the Feedback Certificate or verification report	If the Note Date is on or before the "close-by date" (provided on the Feedback Certificate or verification report) indicating the 10-day PCV requirement is met, reverification of employment is not required. See Chapter 5905 for Automated Employment Assessment with Loan Product Advisor Using Account Data requirements.

¹The list of third-party service providers currently designated by Freddie Mac can be found at <https://sf.freddiemac.com/tools-learning/loan-advisor/our-solutions/aim-asset-income-modeler>.

The following chart contains requirements for reverifications:

Method of reverification	Requirements
Verbal reverifications of employment, income and source of funds	<p>Must be documented in writing and include the following:</p> <ul style="list-style-type: none"> ■ Identify the name of the quality control reviewer who made the contact ■ Identify the name of the business (employer, bank, etc.) ■ Identify the name and title of the individual who provided the verification (employer contact, gift donor, etc.) ■ Show the date(s) of the contact ■ Confirm that the information in the original verification was accurate or identify any inaccuracy ■ Identify the phone number for the individual contacted. The phone number must be obtained from an acceptable third-party source. ■ Identify the name of the third-party source used to obtain the phone number (phone directory, reliable internet source, 411 information services, etc.)
E-mail reverifications of employment and income	<ul style="list-style-type: none"> ■ Be an e-mail exchange with the Borrower's employer from the independently obtained employer's work e-mail address that, at a minimum, includes all of the following: <ul style="list-style-type: none"> □ Borrower's name and employer's name □ Name and title of the individual contacted at the employer, date of contact and the individual's work e-mail address □ Borrower's current employment status ■ In addition, the Mortgage file must include: <ul style="list-style-type: none"> □ Information about the third-party source used to obtain the employer's e-mail (e.g., a reliable internet source), and □ Name, title and employer of the representative who contacted the Borrower's employer and obtained the e-mail verification

As part of quality control review, Freddie Mac may require, in its discretion, that the Seller reverify the information contained in any Mortgage file submitted to Freddie Mac. Freddie Mac reserves the right to independently reverify the information contained in any Mortgage file.

(ii) Tax information

Except as noted below, for postclosing quality reviews, the Seller must obtain the Internal Revenue Service (IRS) income information using Form 4506-C (or an alternate form acceptable to the IRS that authorizes the release of comparable tax information) for each Mortgage selected for quality control review.

The following chart contains exceptions to the 4506-C requirements, which are permitted provided the Mortgage file contains no evidence of misrepresentation in connection with the Borrower's application, documentation or any part of the underwriting of the Mortgage:

Documentation	Requirement for 4506-C
All of the income used to qualify the Borrower is received from a third-party service provider designated by Freddie Mac (as of the date of the post-closing quality control review) or from a Freddie Mac financial institution verification report for the income type used to qualify the Borrower ¹	Not required for eligible income types (see Sections 5901.2(b) and 5904.2(b)) when the report is accessed directly from the service provider's electronic database
IRS income information was received during the origination process	Not required

¹ The list of third-party service providers currently designated by Freddie Mac can be found at <https://sf.freddiemac.com/tools-learning/loan-advisor/our-solutions/aim-asset-income-modeler>

For Borrowers with income that is derived from sources in Puerto Rico, Guam or the U.S. Virgin Islands that are exempt from federal income taxation under the Internal Revenue Code, the above requirements apply, except as follows:

- For Borrowers with income that is derived from sources in Puerto Rico, the Seller must submit the Commonwealth of Puerto Rico Form 2907 titled "Request For Copy of the Return, Estate or Gift Certificate of Release" (Modelo SC 2907 "Solicitud De Copia De Planilla, Relevo De Herencia Y De Donacion") to the Puerto Rico Department of the Treasury, Internal Revenue Area
- For Borrowers with income that is derived from sources in Guam or the U.S. Virgin Islands, the Seller must submit the Form 4506-C (or an alternate form that authorizes the release of comparable tax information to a third party) to the Guam Department of Taxation and Revenue or Virgin Islands Bureau of Internal Revenue, as applicable

(b) Borrower's Social Security number

For Mortgages included in postclosing quality control samples, the Seller must validate the Social Security number provided by each Borrower.

The Seller is not required to validate the Social Security number during the postclosing quality control review, if:

- The Seller validated the Social Security number during the loan origination process or a preclosing quality control review; and
- The Social Security number was not initially validated by a Mortgage Broker or Correspondent; and
- The Mortgage file indicates there were no misrepresentations in connection with the Borrower's application or the underwriting of the Mortgage

(c) Credit reports

For Loan Product Advisor Mortgages, the Seller is not required to obtain a new credit report. The Seller must verify that the identifying information for any Borrower (name, current and previous address and Social Security number) is true, complete and accurate and that it was properly input into Loan Product Advisor on or before the Note Date. Any credit information obtained from sources other than Loan Product Advisor must be reviewed.

For Loan Product Advisor Accept Mortgages, the Seller is not required to review the Loan Product Advisor provided credit reports to determine that the credit report was properly underwritten, or that it is in compliance with credit underwriting guidelines, except as noted below.

For Accept Mortgages, the Seller must verify that the Loan Product Advisor provided credit reports are for the correct Borrower.

For one out of every 10 Non-Loan Product Advisor Mortgages selected for postclosing quality control review, the Seller must obtain either a new Residential Mortgage Credit Report or a three-repository merged in-file credit report.

For the remaining Non-Loan Product Advisor Mortgages in the Seller's postclosing quality control sample, the Seller must obtain new in-file credit reports containing information from one or more of the national repositories.

For Manually Underwritten Mortgages, the Seller must re-underwrite the credit and continue to review the Mortgage file documents in accordance with Section 3402.7 to determine that the Mortgage was underwritten to Freddie Mac's requirements.

For all Mortgages selected for postclosing quality control review, the Seller must determine whether additional credit was granted and considered in qualifying when the Borrower's credit report reveals inquiries within the previous 90-day period.

(d) Verification of owner-occupancy

For all Mortgages secured by Primary Residences that are selected for postclosing quality control review, the Seller must verify that the Borrower is occupying the Mortgaged Premises as a Primary Residence.

(e) Property valuation

As part of the Seller's quality control program, for Mortgages selected for post-closing quality control reviews, the Seller must ensure the appraisal, or if applicable, other property valuation, meets Freddie Mac requirements. The process is expected to utilize desk reviews, field reviews, automated valuation models, multiple listing service data, public records data, online tools and/or other appropriate methods in order to validate and ensure the quality of origination information. Enhanced Relief Refinance® Mortgages may be excluded from property valuation reviews.

In the event the Seller's quality control review determines that a quality control finding affects the eligibility of a Mortgage sold to Freddie Mac on the Settlement Date, the Seller must report the finding to Freddie Mac within 90 days or within 60 days of the finding if fraud or possible fraud is involved, consistent with Section 3402.10.

For the Mortgages selected for quality control review, the Seller must comply with the following:

(i) Mortgages originated with appraisals

(A) Review of appraisal reports that did not receive appraised value representation and warranty relief

For Mortgages originated with appraisals except as described in (B) below, the Seller must obtain a desk review of the appraisal report to ensure that it accurately reflects the market value, condition, and marketability of the subject property and that the Mortgaged Premises is adequate collateral for the Mortgage. The desk review is not required to be performed by an appraiser (i.e., a Uniform Standards of Professional Appraisal Practice compliant appraisal review meeting Standards 3 and 4 is not required). However, the reviewer must be familiar with the subject's market area and be qualified to do the following:

- Address the appropriateness of the data presented in the report
- Address the appropriateness of the comparable sales, and
- Conclude that the appraiser's rationale for the final reconciliation of value was supported and the appraisal and property eligibility meet Freddie Mac requirements

If the Seller determines that the characteristics of the property or the scope of the desk review is insufficient to determine the accuracy of the appraisal or the adequacy of the collateral, a field review performed by an appraiser unaffiliated with the origination appraiser or appraisal firm documented on one of the following forms, as applicable, is required:

- If the Mortgage is secured by a one-unit property and a field review is obtained, the results must be reported on Form 1032, One-Unit Residential Appraisal Field Review Report
- If the Mortgage is secured by a 2- to 4-unit property and a field review is obtained, the results must be reported on Form 1072, Two- to Four-Unit Residential Appraisal Field Review Report

Note: The Seller does not need to obtain a field review during the quality control review if one was obtained during the origination process and adequately supported the eligibility of the Mortgage for sale to Freddie Mac.

(B) Review of appraisal reports with appraised value representation and warranty relief (Loan Collateral Advisor® risk score less than or equal to 2.5)

The Seller must ensure that the Mortgage meets the requirement of Section 5602.2, and the Seller is required to comply with (A) above, except that Seller is not required to review the accuracy of the appraiser's opinion of market value. For example, the selection of comparable sales and adjustments may be excluded from the review. The Seller's review of the appraisal should focus on the data quality, condition and marketability of the property and ensuring the Mortgaged Premises is adequate collateral for the Mortgage.

(ii) Mortgages originated with an automated collateral evaluation appraisal waiver

For Mortgages originated with an automated collateral evaluation appraisal waiver as described in Section 5602.3, the Seller is not required to comply with (i)(A) and (B) above. However, for such Mortgages, the Seller must conduct a review to ensure that the data submitted to Loan Product Advisor were accurate and the eligibility requirements of Section 5602.3 were met.

3402.6: Data integrity review (02/02/22)

The Seller's postclosing quality control review procedures for all Mortgages must include a review of the completeness and accuracy of the information obtained in the Mortgage origination process.

The data integrity review of the information must include a process for checking data fields entered in Loan Product Advisor® and ensuring that all data submitted is valid.

The Seller must perform a data integrity review on all Mortgages sampled to ensure that the loan data is accurate and consistent. Source documentation to be reviewed includes:

- Form 65, Uniform Residential Loan Application(s)
- Employment and income verifications
- Sales contracts
- Tax returns
- Credit data
- Asset documentation
- Property valuation documentation
- Mortgage delivery data, including the Key Number when applicable. If the business area that conducts the postclosing quality control review does not have access to the delivery data, including the Key Number, this portion of the review may be conducted by another business area if there are documented controls in place to mitigate any delivery data errors.

3402.7: Documentation review (08/03/22)

For Mortgages included in the postclosing quality control sample, the Seller must review and affirm:

- The existence and accuracy of documentation necessary to determine compliance with applicable law, as required in Section 4202.1
- Compliance with the eligibility and underwriting requirements and guidelines of the Seller, the MI and Freddie Mac, as applicable, including:
 - Compliance with the Seller's warranties regarding Freddie Mac's Exclusionary List
 - The Settlement/Closing Disclosure Statement and related documentation to determine that all conditions of closing have been satisfied

Alternatively, a Seller may choose to perform reviews of the existence and accuracy of documentation required by applicable law on a postclosing quality control sample separate from the review of eligibility and underwriting requirements, but the review must be performed on no fewer Mortgages than required by Section 3402.4(a). In the event a Seller chooses to conduct

this separate sample, the Seller must have a process to review for compliance with applicable law all Mortgages identified through its review of eligibility and underwriting requirements that may:

- Exceed Home Ownership and Equity Protection Act of 1994 (HOEPA) Mortgage thresholds
- Meet the definition of a Higher-Priced Mortgage Loan (HPML) or Higher-Priced Covered Transaction (HPCT), as defined in the Glossary, or
- Exceed the points and fees limitation indicated in Section 4202.6

The Seller must also include the following documents in its quality control review for comparison with the reverifications received:

- Form 65, Uniform Residential Loan Application
- Credit documentation
- Employment and income documentation*
- Asset documentation*
- Property valuation documentation
- Sales contract
- Form 1077, Uniform Underwriting and Transmittal Summary or equivalent form (e.g., a Feedback Certificate)

*The following chart contains exceptions with respect to evaluating the validity, accuracy and quality of the information used in the original underwriting decision for Loan Product Advisor Automated Income and Asset Assessment:

Document Type	Representation and Warranty Result	Loan Product Advisor Feedback Message	Evaluation Exceptions
Income Verification Report	“Eligible for Income Representation and Warranty Relief” or “Eligible for Partial Income Representation and Warranty Relief”	Indicates no further documentation is required for this income.	Seller is not required to recalculate such income for eligible income types described in Section 5901.2(b) that are on the verification report.

Document Type	Representation and Warranty Result	Loan Product Advisor Feedback Message	Evaluation Exceptions
Income Calculation Report	“Eligible for Income Representation and Warranty Relief” or “Eligible for Partial Income Representation and Warranty Relief”	Indicates no further documentation is required for this income.	<p>Seller is not required to:</p> <ul style="list-style-type: none"> ■ Recalculate income for eligible self-employed income described in Section 5903.2(b) that is on the Income Calculation Report, and ■ Perform the business and income analysis described in Section 5304.1(d) for eligible self-employed income that is on the Income Calculation Report
	“Eligible” for tax return data representation and warranty relief	N/A	The Seller is not responsible for accuracy and integrity of the tax return data for eligible income described in Section 5903.2(b) that is on the Income Calculation Report.
Asset Verification Report	“Eligible”	N/A	Seller is not required to recalculate eligible asset types described in Section 5902.2(b) that are indicated on the asset verification report.
Income Report using Account Data	“Eligible for Income Representation and Warranty Relief” or “Eligible for Partial Income Representation and Warranty Relief”	Indicates no further documentation is required for this income.	Seller is not required to recalculate such income for eligible income types described in Section 5904.2(b) that are on the verification report.

The Seller must include the following applicable closing documents in its postclosing quality control review to ensure that the information is accurate, complete and consistent with other documents in the Mortgage file:

- Notes and riders
- Security Instruments and assignments
- Mortgage insurance certificate or policy or Mortgage guaranty certificate
- Modification or assumption agreement
- Title binder or final title insurance policy (both if available) or other evidence of title
- Plat or survey
- Settlement/Closing Disclosure Statements and related documentation
- Leasehold estate documents
- Hazard insurance policy or certificate
- Flood insurance policy or certificate or flood zone determination documents
- Underwriter's approval and any conditions of closing
- Closing instructions

3402.8: Preclosing quality control reviews (02/02/22)

The Seller's quality control program must include a process to perform quality control reviews on a sampling of its Mortgages prior to closing. The goal of an effective preclosing review process is to monitor the Seller's origination policies, ensure the accuracy of the Mortgage data and prevent the closing of Mortgages with deficiencies such as fraud, inaccurate data and insufficient documentation.

The Seller's in-house preclosing quality control process should operate independently of the Mortgage origination and underwriting departments when operationally possible.

(a) Procedures

The Seller's preclosing review process should include procedures for:

- Sample selection and timing that permits reviews to be completed prior to closing

- Reporting deficiencies and taking appropriate corrective measures
- Documenting the resolution of defects
- Canceling or postponing settlement when the preclosing review reveals deficiencies or when the review cannot be completed prior to the scheduled settlement

(b) Sample selection

The Seller's sampling process should include Mortgages that are representative of the full scope of the Seller's product line and production process as defined in Section 3402.4(a). The Seller should regularly assess its sampling methodology to ensure that its preclosing quality control process is effective. Additionally, the Seller should target samples, as needed, in order to:

- Review the work originated by a new branch office, employee or third-party originator
- Validate that a new product or offering is being originated in accordance with the Seller's policies and procedures
- Evaluate the work of a particular employee or Mortgage transaction participant when there is a reason to suspect fraud as required in Section 3201.1(c)

(c) Validation and reverification

An effective preclosing quality control review process should include validation or reverification of:

- Data entered into Loan Product Advisor®
- Social Security number provided by each Borrower, unless the Seller validated the number during the loan origination process
- Income documentation and calculation
- Employment
- Assets required to close or meet reserves requirements
- Property valuation documentation or property valuation data
- Mortgage insurance commitment reflecting adequate coverage
- Whether additional credit was granted and considered in qualifying when the Borrower's credit report reveals inquiries within the previous 90-day period

See Sections 3402.5 and 3402.7 for reverification exceptions and requirements.

3402.9: Documenting reviews (03/02/16)

The Seller must:

- Maintain complete records for each Mortgage file selected for a preclosing or a postclosing quality control review
- Document and explain discrepancies or inconsistencies found in the Mortgage file that affect the eligibility of the Mortgage based on the requirements of the Seller, the MI or Freddie Mac

3402.10: Reporting requirements (05/05/21)

The Seller's quality control program must provide that all preclosing and postclosing quality control activities be fully documented in writing and reviewed by management on a regular basis.

The results of quality control reviews must be reported in writing to the Seller's senior management within 90 days of selection of the Mortgage files for review. The Seller must thoroughly analyze findings affecting the acceptability or eligibility of Mortgages and initiate any necessary corrective actions.

The Seller must notify Freddie Mac within 90 days of the Seller's determination that a quality control finding affects the eligibility of a Mortgage sold to Freddie Mac. If the finding is related to fraud or possible fraud, Freddie Mac must be notified within 60 days of the finding.

The Seller must notify Freddie Mac Quality Control at Seller_Servicer_QC_Report@FreddieMac.com of findings that relate to the following:

- Misrepresentations, misstatements or omissions identified in Section 3201.2(a) to the extent that they are associated with the origination of a Mortgage, whether discovered through a postclosing quality control review or by any other means. All other findings related to fraud, suspected fraud or other Suspicious Activity must be reported in accordance with Section 3201.2.
- The underwriting of the Borrower's creditworthiness and capacity (e.g., Borrower's income, Borrower credit/liabilities and Borrower assets) or Borrower eligibility and qualification (e.g., area median income, First-Time Homebuyer, lawful presence in the United States)
- The underwriting criteria related to property or project eligibility (e.g., residential use and condominium eligibility), the property appraisal or the physical condition of the Mortgaged Premises

- Mortgage or product terms and criteria (e.g., products that may require special Seller/Servicer approval as a prerequisite for delivery and the criteria described in the Purchase Documents, such as loan-to-value ratio, occupancy, credit score, Mortgage purpose and Mortgage Product, and terms such as ineligible transaction types and limitations on cash out to the Borrower that determines the type of refinance) or any terms and criteria set forth in any negotiated provision
- A life-of-loan representation and warranty (as described in Section 1301.11)
 - Charter matters
 - Misstatements, misrepresentations and omissions
 - Data inaccuracies
 - Clear title/First Lien priority
 - Compliance with laws
 - Unacceptable Mortgage products
- Requirements applicable at time of Mortgage purchase (e.g., no defaults, all taxes and insurances have been paid or escrows established, and no modification, encumbrance, subordination or release of Mortgage)
- The existence, sufficiency or enforceability of any required insurance or guaranty; or
- The form and/or execution of Freddie Mac required Mortgage documents that without which make the Mortgage ineligible for sale or limit the enforceability of the required Mortgage terms (e.g., Form 65, Uniform Residential Loan Application, power of attorney, Texas 50(a)(6) Mortgage documents or nonstandard and special purpose documents such as Living Trusts)

Freddie Mac reserves the right to increase the sampling or to impose other requirements on a case-by-case basis.

3402.11: Retention of Seller's quality control records (07/07/21)

For at least three years from the date of the preclosing or postclosing quality control review, the Seller must retain all records of its quality control findings, along with documentation of any corrective action taken. These records must be made available to Freddie Mac and upon request to the new Servicer if a Transfer of Servicing occurs. Upon request by Freddie Mac, the Seller must provide records that clearly indicate:

- The Freddie Mac loan number
- The Seller's final determination (from its quality control department) of whether the Mortgage is an investment quality Mortgage, and
- Other loan-level information that is requested by Freddie Mac

Chapter 3403: Servicer's Quality Control Program

3403.1: Servicer's quality control program (06/14/23)

The Servicer must implement a quality control program with respect to its Servicing of Mortgages for Freddie Mac, and, in implementing this program, it may leverage its existing processes. Freddie Mac may review and require changes to a Servicer's quality control program. Servicers must have written policies and procedures documenting its quality control program's requirements and must consistently monitor compliance with these policies and procedures as part of a prudent risk management framework. As part of its Servicing quality control program, the Servicer must regularly review and assess the adequacy of its internal controls, procedures and systems used in connection with Servicing of Freddie Mac Mortgages to ensure compliance with the Guide and other Purchase Documents.

The Servicer must take remedial steps, as appropriate, to address any deficiencies identified regardless of whether such deficiencies are discovered by the Servicer, identified and communicated by Freddie Mac, identified by a Borrower and confirmed by the Servicer, or identified by a third party (e.g., external auditor, law firm, or regulatory agency) and confirmed by the Servicer. The Servicer must formally document the results of its reviews and assessments and make the results, including any remediation plan or completed remediation, available to Freddie Mac upon request.

A Servicer must provide evidence of its quality control program upon Freddie Mac's request. At a minimum, a Servicer's quality control program must:

- Comply with the requirements of Section 3201.1(c) relating to fraud prevention and detection in its quality control program, as well as other applicable requirements of Chapter 3201 relating to fraud prevention, detection and reporting
- Evaluate whether the Servicer is maintaining accurate and complete records as required by Chapter 3302 and the document retention and Document Custodian requirements set forth in Sections 9206.17, 9205.11(b) and 9205.20
- Establish control and identification features for all Mortgage files, in accordance with Section 3302.3
- Provide for periodic reviews of the Servicer's cash accounting, investor reporting and remitting, escrow management and notifications to Borrowers, and custodial accounts management processes and controls, using a Mortgage sample size that reflects a meaningful representation of the UPB of the Mortgages the Servicer services for Freddie Mac
- Assess ARM adjustment accuracy and notifications to Borrowers

- Periodically perform quality control reviews or audits on any authorized Outsourced Vendor's use of any Servicing Tool to ensure compliance with the Guide and other Purchase Documents, including Section 2406.1
- Evaluate whether its operations personnel and, if applicable, Outsourced Vendors, are complying with and accurately conducting the pre-foreclosure referral Mortgage File Review requirements of Sections 9101.2(c), 9102.4(b), and 9301.4 and pre-foreclosure sale account review requirements of Section 9301.29
- Periodically review notices of default, notices of acceleration, right to cure notices, and, where applicable, right to appeal a loan modification denial notice, to ensure that they are properly dated, timely sent, and otherwise provides Borrowers with all rights required by applicable law and assess whether all condition precedents to proceeding with foreclosure are met
- Periodically review compliance with Freddie Mac's loss mitigation requirements, which includes compliance with Freddie Mac's modification program requirements and short sales
- Maintain policies and procedures that are reasonably designed to ensure that the Servicer investigates, responds to and makes corrections in response to complaints or errors asserted by Borrowers

Chapter 3501: Freddie Mac Servicer Success File Reviews and Performance Criteria

3501.1: Freddie Mac Servicer Success File Reviews (03/02/16)

As part of the Servicing Success Program, as described at

https://sf.freddiemac.com/content/_assets/resources/pdf/step-by-step-guides/serv_success_prog.pdf, Freddie Mac will be conducting reviews of delinquent Mortgage files from time to time as discussed below. These file reviews (“Servicer Success File Reviews” or “File Reviews”) are in addition to any audit of Mortgage files specified in Section 8101.7.

(a) Types of File Reviews

Freddie Mac will notify a Servicer in writing that certain Mortgages have been selected for a Servicer Success File Review. Freddie Mac may conduct the following types of File Reviews:

- Prudent Servicing Review: An assessment of the Servicer’s collection activities, loss mitigation activities, timeline management, and property preservation processes
- Short Sale Compliance Review: An assessment of the Servicer’s compliance with the requirements of the Guide, and other Purchase Documents, as applicable, regarding completed short sales
- Loan Modification Compliance Review: An assessment of the Servicer’s compliance with the requirements of the Guide and other Purchase Documents, as applicable, regarding completed modifications

Freddie Mac may modify or expand the types of File Reviews from time to time.

(b) File Review requests

Freddie Mac will notify a Servicer in writing that certain Mortgages have been selected for a File Review.

Servicers must comply with the instructions and any requirements set forth in a File Review request from Freddie Mac, which will:

- Include the Freddie Mac loan numbers associated with the Mortgage files being requested
- Specify the documentation that must be included with each type of file (e.g., short sale under Chapter 9204 or modification under Chapter 9204 or Chapter 9205)

- Provide detailed instructions on the manner in which the documents are to be submitted to Freddie Mac, and
- State that Freddie Mac must receive the requested file documentation within 30 calendar days from the date of the letter requesting the documentation or such other time frame Freddie Mac specifies in the request

All documentation sent to Freddie Mac may be used in the File Review, even if the Servicer includes documentation that is not required. Freddie Mac may request additional Mortgage files and/or additional documents during the File Review. The Servicer must submit the requested documentation in the manner specified by Freddie Mac or Freddie Mac may refuse to accept the documentation. A Servicer's failure to submit requested documentation will be considered a violation of the Purchase Documents, and Freddie Mac will pursue all rights and remedies available under the Purchase Documents and applicable law. Additionally, failure to submit the documentation is considered a file defect and may be considered in determining a Servicer's overall performance in accordance with Section 3501.2.

Upon completion of the File Review, Freddie Mac will provide its conclusions, including any defects, in writing to the Servicer. Servicers may provide Freddie Mac with a response or appeal to the findings noted in Freddie Mac's conclusions up to 15 Business Days after the date of Freddie Mac's written conclusions. If an identified defect was the result of a missing or incorrect document, that document may be submitted with the Servicer's appeal to support clearing the defect. If the Servicer failed to submit any documents in response to Freddie Mac's initial File Review request on a Mortgage, and the overall result is "Fail – Missing Docs," the Servicer may not appeal the defect for that Mortgage. Freddie Mac's decision on the File Review shall be deemed conclusive and may be considered as a factor in determining a Servicer's overall performance in accordance with Section 3501.2. Freddie Mac, in its sole and absolute discretion, may choose to rely on such conclusions or upon any other available information in determining whether to pursue any other right or remedy available to Freddie Mac under the Purchase Documents or applicable law.

Note: File Reviews are not a substitute for the Servicer's own internal quality control for default management activities.

3501.2: Servicer performance metrics (03/13/19)

(a) Servicer performance

The Servicer Success Scorecard is a confidential monthly performance review for all Servicers which measures a Servicer's performance based on key metrics in certain categories, such as investor reporting and default management. Each Servicer's performance results are published monthly in a Servicer Success Scorecard at https://sf.freddiemac.com/content/_assets/resources/pdf/step-by-step-guides/serv_success_prog.pdf. The Servicer Success Scorecard performance metrics, and changes thereto by Freddie Mac, are incorporated into and made a part of the Guide and other

Purchase Documents by this reference. Certain Servicers may have individual performance goals based on the metrics in the Servicer Success Scorecard that are incorporated into their Purchase Documents.

Freddie Mac reserves the right to amend the performance metrics, modify how the rankings are determined (as described below) and revise the content of the Servicer Success Scorecard or Freddie Mac Servicer Honors and Rewards Program (SHARP)SM (as described below) at any time. Each Servicer Success Scorecard is considered to be “confidential information” for purposes of Section 1201.8.

Refer to Section 9201.5 for additional information on Freddie Mac’s default management performance category. Refer to Section 8301.3 for additional information on Freddie Mac’s investor reporting performance category.

(b) Servicer performance results

Freddie Mac will regularly monitor each Servicer’s performance against the metrics in the Servicer Success Scorecard. Servicers will be placed into groups based upon similarities in Servicers’ portfolios (each a “rank group”). The rank groups will be determined based upon portfolio composition parameters determined by Freddie Mac.

For certain rank groups, the Servicer Success Scorecard will provide a Servicer with overall rankings, monthly and annual (for that calendar year), as applicable, compared to other Servicers in such Servicer’s rank group in the default management category. A Servicer will be presumed to have an unacceptable Servicer Success Scorecard result if the Servicer’s overall monthly or annual ranking in the default management category is in the bottom 25% of ranked Servicers in the Servicer’s rank group.

Freddie Mac considers factors such as trends in performance, adequacy of staffing, audit results, the Servicer Success Scorecard results, Servicer Success File Reviews, and/or compliance with all requirements of the Purchase Documents in evaluating whether the Servicer’s overall performance is unacceptable for purposes of Section 2301.2.

(c) Freddie Mac Servicer Honors and Rewards Program

For details on the Freddie Mac Servicer Honors and Rewards Program (SHARP), Freddie Mac’s rewards and recognition program based on Servicer performance results, visit the Freddie Mac SHARP web page at: <https://sf.freddiemac.com/working-with-us/servicing/servicing-solutions/sharp/overview>.

Chapter 3601: Remedies (Including Repurchase and Termination of Servicing)

3601.1: Freddie Mac remedies (04/12/23)

(a) Remedies and related requirements

In addition to any other remedies it may have at law or in equity or elsewhere in any Purchase Document, for any Mortgage it purchased, Freddie Mac may require the Seller or Servicer to (and the Seller or Servicer agrees to):

- Indemnify Freddie Mac and hold it harmless for any loss, damage or expense (including court costs and reasonable attorney fees) that it may sustain, and/or
- Repurchase Freddie Mac's interest in the Mortgage at any time if the Borrower or any other party in the Mortgage transaction has made any misstatement, misrepresentation or omission in conjunction with such transaction, whether or not the Seller or Servicer was a party to or had knowledge of such false representation, and/or
- Repurchase Freddie Mac's interest in the Mortgage or comply with the terms of any repurchase alternatives at any time under any of the other circumstances set forth in Sections 3602.2 and 3602.3, and/or
- Terminate the Servicing Contract and related Servicing Contract Rights pursuant to Chapter 3603, and/or
- Set off any amounts owed by a Seller/Servicer to Freddie Mac against any other funds that Freddie Mac owes to a Seller/Servicer, including but not limited to, workout incentives, expense reimbursements or any other amounts

(b) Additional actions

In addition to the foregoing and any other remedies it may have at law, in equity and pursuant to the Purchase Documents, Freddie Mac has the right to take (and the Seller or Servicer agrees to comply with) additional actions, including, without limitation:

- Engage in more frequent dialogue, quality control or quality assurance reviews or onsite reviews, and/or require the Seller/Servicer to provide additional information or data
- Require the Seller/Servicer to provide an action, business continuity or remediation plan acceptable to Freddie Mac to address specific requirements not met
- Demand further reasonable assurances or information

- Issue a demand for any other specific corrective action
- Limit the risk characteristics of Mortgages to be acquired by Freddie Mac from the Seller/Servicer
- Limit negotiated terms of business to Mortgages acquired by Freddie Mac from the Seller/Servicer
- Limit or deny the acceptability of Seller/Servicer's and affiliate's products or services in connection with Freddie Mac's business
- Restrict or deny participation in new products, initiatives or programs offered by Freddie Mac
- Impose additional fees upon Mortgages acquired by Freddie Mac from the Seller/Servicer
- Revoke Freddie Mac Servicer Honors and Rewards Program (SHARP) designation, servicing rewards or other honorary accolades
- Set off or recoup any amounts or obligations that Freddie Mac owes to the Seller/Servicer against any amounts or obligations owed by the Seller/Servicer to Freddie Mac under any Purchase Document or any other agreement by and between Seller/Servicer and Freddie Mac
- Require posting of collateral, in cash or cash equivalent
- Impose business volume limits for Mortgages to be acquired by Freddie Mac from the Seller/Servicer
- Limit additional servicing that can be acquired by the Seller/Servicer
- Add Seller/Servicer's Senior Management to the Freddie Mac Exclusionary List
- Require engagement of a Servicing Agent or replacement of an existing Servicing Agent
- Voluntary or involuntary Transfer of Servicing, in whole or in part, including without limitation to Voluntary Partial Cancelations (VPCs), require repurchase on all Mortgages in default
- Suspend Seller/Servicer
- Terminate Seller/Servicer
- Terminate, in whole or in part, the Servicing Contract and related Servicing Contract Rights

(c) Occurrence of a Claims Event; resulting liability immediately due and owing to Freddie Mac

Upon the occurrence of any Claims Event, all of Freddie Mac's Claims related to the Seller/Servicer shall be deemed immediately and automatically due and payable, without the need for further action by Freddie Mac or any other party.

A Seller/Servicer must pay, unconditionally and in full, any and all of Freddie Mac's Claims as a condition to receipt of Freddie Mac's approval of or consent to such Claims Event, if applicable, the calculation of Freddie Mac's Claims being conclusive absent manifest error; provided, however, that Freddie Mac may at any time expressly waive or defer such payment obligation, in whole or in part, in writing in its sole and absolute discretion.

Chapter 3602: Repurchases

3602.1: Defined terms (05/04/20)

As used in this chapter, the following terms have the meanings ascribed to them below:

- **Appeal Process:** The first appeal process and the second appeal process described in Sections 3602.8 and 3602.9, as applicable
- **IDR Document:** The Independent Dispute Resolution Document set forth at https://sf.freddiemac.com/content/_assets/resources/pdf/forms/idr_tolling_agreement.pdf and https://sf.freddiemac.com/content/_assets/resources/pdf/step-by-step-guides/serv_success_prog.pdf, which sets forth the details regarding the IDR Process, and which is by this reference incorporated into the Guide and made a part of the Guide as if set forth in the Guide in full
- **IDR Eligible Seller/Servicer:** A Seller/Servicer that has not been suspended, disqualified or terminated by Freddie Mac. The Seller/Servicer's ability to participate in the IDR Process cannot be assigned. For the avoidance of doubt, any dispute concerning the suspension, disqualification or termination of a Seller/Servicer cannot be subject to the IDR Process. In addition, a Seller/Servicer shall not be an IDR Eligible Seller/Servicer if the Seller/Servicer has:
 1. Failed to timely comply with an IDR award related to any Mortgage (or Mortgages) that has/have been resolved through the IDR Process; and/or
 2. Failed to timely comply with any Repurchase Demand or Servicing Remedy letter after the time for challenging the Repurchase Demand or Servicing Remedy letter through the Appeal Process, Impasse Process, Management Escalation Process and IDR Process, as applicable, has expired; and/or
 3. Any outstanding amount that is owed and past due to any IDR Program Administrator
- **IDR Process:** The process described in Sections 3602.8 and 3602.9, as applicable, and in the IDR Document
- **IDR Program Administrator:** The entity so named in the IDR Document
- **Impasse Process:** The process described in Sections 3602.8 and 3602.9, as applicable
- **Management Escalation Process:** The process described in Sections 3602.8 and 3602.9, as applicable

- **Repurchase Demand:** A request issued by Freddie Mac to a Seller/Servicer to provide a specific remedy as provided in Purchase Documents due to an alleged loan-level breach of selling representations and/or warranties
- **Servicing Correction:** Action taken by the Servicer that demonstrates that the identified Servicing Defect either (i) did not, in fact, exist, or (ii) has been corrected in the time frame specified by Freddie Mac, such that the Servicing Defect is no longer considered by Freddie Mac to be a Servicing Defect.
- **Servicer Counterparty Status:** Freddie Mac's assessment of a Seller/Servicer's financial capacity which could determine whether to offer the Seller/Servicer certain Servicing Repurchase Alternatives for a Servicing Violation.
- **Servicing Defect:** A loan-level deficiency based on a Servicing Violation resulting from a breach of a requirement, term or condition contained in the Purchase Documents in effect at the time of the Servicing Violation.
- **Servicing Remedy:** An action to resolve a Servicing Defect elected by Freddie Mac in accordance with the Purchase Documents which may be either a Servicing Repurchase Alternative or a repurchase.
- **Servicing Repurchase Alternative:** Remedies other than repurchase of the identified Mortgage including, after foreclosure, the REO property that compensates Freddie Mac for damages, expenses and losses resulting from the identified Servicing Defect. The Servicing Repurchase Alternative offered by Freddie Mac will be based on the individual Servicing Defect and the costs associated with any Servicing Repurchase Alternative could include, but are not limited to:
 - A daily carrying cost that is not duplicative of any other cost or fee below
 - Property maintenance costs
 - Property taxes
 - Property and mortgage insurance
 - Condominium/homeowners association (HOA) or Cooperative Corporation assessments, Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents
 - Appraisal/BPO costs
 - Legal fees and costs
 - Property inspection costs

- Utility costs
- Any documented property value decline, where appropriate
- Costs to repair
- Outstanding fees/fines/liens
- **Servicing Repurchase Defect:** A Servicing Defect attributable to a Servicing Violation for which a repurchase request could be issued without first issuing a notice of Servicing Defect, or a Servicing Repurchase Alternative demand letter. Servicing Repurchase Defects are limited to Servicing Defects that:
 - Cause Freddie Mac's lien, security interest or other property interest to be subordinated, extinguished or become inadequate for the realization of the benefits of the security against the related Mortgaged Premises
 - Pose a significant reputational risk to Freddie Mac
 - Result from the Servicer modifying a Mortgage that was sold to Freddie Mac with recourse or full indemnification in violation of Freddie Mac's modification eligibility requirements
 - Result in the Mortgage to not be, or no longer be, supported by Freddie Mac's Servicing systems; or
 - Cause irreparable damage to the physical improvements to the Mortgaged Premises or REO property or render the Mortgaged Premises or REO property uninhabitable
- **Servicing Violation:** A breach of any Servicer requirement or obligation contained in the Purchase Documents related to Servicing functions including, but not limited to, processing of payments, delinquency management, communications, loss mitigation, property preservation and ensuring appropriate insurance is on the Mortgage or property.

3602.2: Repurchases required by Freddie Mac due to violations of sale representations and warranties (08/17/16)

Effective August 17, 2016, the contents of former Section 3602.1 have moved to this section.

For Mortgages sold to Freddie Mac, the Seller, the Seller as Servicer, any prior Servicer and/or the current Transferee Servicer of the Mortgages (in this Section 3602.2, the "Seller/Servicer") are jointly and severally liable for all selling and origination representations, covenants and warranties in the Purchase Documents with respect to the Mortgages, unless specifically

otherwise provided in the Purchase Documents. In addition to any other remedies it may have at law or in equity for any Mortgage it purchased, Freddie Mac may require the Seller/Servicer to repurchase Freddie Mac's interest in a Mortgage if Freddie Mac has designated any loan-level deficiency that breaches a term contained in the Purchase Documents in effect at the time of Mortgage purchase as resulting in a Significant Defect (as such term is defined in Section 3401.1).

Freddie Mac will require the Seller/Servicer to repurchase Freddie Mac's interest in a Mortgage if the repurchase is required under the terms of the Purchase Documents.

Freddie Mac's decision to require the Seller/Servicer to repurchase a Mortgage shall be conclusive. Failure to comply with Freddie Mac's repurchase requirement may result in suspension of selling and/or Servicing privileges or disqualification as a Freddie Mac Seller and/or Servicer. Suspension or disqualification shall not limit Freddie Mac's right to take other action to enforce its rights or protect its interests.

The Seller/Servicer must repurchase Freddie Mac's interest in the identified Mortgage within 60 days of the date of Freddie Mac's request or within such other time frame as specified by Freddie Mac. Any appeal of Freddie Mac's repurchase request must be made in accordance with the requirements of Section 3602.8.

Freddie Mac may, at its sole discretion, provide the Seller/Servicer with a Repurchase Alternative (as such term is defined in Section 3401.1(a)) of the identified Mortgage in accordance with Section 3401.1(f). In each such case, Freddie Mac will notify the Seller/Servicer of the type and terms of the Repurchase Alternative.

For purposes of this Section 3602.2, Mortgages that are subject to repurchase include active Mortgages, inactive Mortgages and REO and all other post-foreclosure situations pursuant to the provisions of Section 3602.5.

3602.3: Repurchases and repurchase alternatives required by Freddie Mac due to Servicing violations (12/01/16)

(a) Process for remediating Servicing Violations and related Servicing Defects

The steps below describe the process that Freddie Mac will follow to categorize Servicing Defects, allow Servicing Corrections to Servicing Defects through a notice of Servicing Defect, and remedy Servicing Defects through a Servicing Remedy letter (either a repurchase request or Servicing Repurchase Alternative demand letter).

(i) Step 1 – Determination of whether to send a notice of Servicing Defect or a Servicing Remedy letter

(A) Notices of Servicing Defect and Servicing Remedy letters

If Freddie Mac identifies a Servicing Violation, Freddie Mac may issue either a notice of Servicing Defect or a Servicing Remedy letter.

Notwithstanding the foregoing, Freddie Mac will issue a notice of Servicing Defect or a Servicing Remedy letter for a title-related defect only after liquidation of the Mortgage (i.e., after foreclosure or following completion of a deed-in-lieu of foreclosure), unless a prior foreclosure has extinguished Freddie Mac's Mortgage or Freddie Mac has determined that the title-related defect prevents foreclosure or other enforcement of Freddie Mac's rights under the Note or Mortgage (e.g., the title-related defect prevents completion of a deed-in-lieu of foreclosure).

(I) Notice of Servicing Defect

If Freddie Mac determines that the Servicing Defect resulting from a Servicing Violation can be reasonably corrected by the Servicer, Freddie Mac will issue a notice of Servicing Defect.

(II) Servicing Remedy letter

If Freddie Mac deems the Servicing Defect resulting from a Servicing Violation to be uncorrectable by the Servicer, Freddie Mac will issue a Servicing Remedy letter. A Servicing Remedy letter may also be issued if a Servicing Defect (a) is not corrected by the Servicer during the Servicing Correction period, if applicable, or (b) caused or will cause Freddie Mac losses, expenses or damages, notwithstanding any Servicing Correction.

If a Servicer fails to comply with any Servicing Remedy letter, Freddie Mac may pursue other available rights and remedies under the Guide and the other Purchase Documents, including repurchase.

The following are limited instances in which a Servicing Defect resulting from a Servicing Violation may be deemed to be uncorrectable. Therefore, a Servicing Remedy letter may be issued in lieu of a notice of Servicing Defect when a Servicing Defect:

- Extinguishes the lien, security interest or other property interest, or the lien, security interest or other property interest becomes inadequate for the realization of the benefits of the security against the related Mortgaged Premises
- Causes irreparable damage to the physical improvements to the Mortgaged Premises or REO property or renders the Mortgaged Premises or REO property uninhabitable

- Is a result of a foreclosure sale to a third-party purchaser, completed short sale, or completed deed-in-lieu of foreclosure that was not compliant with the Guide and the other Purchase Documents
- Extinguishes Freddie Mac's ability to either file an insurance claim or seek full recovery of an insurance claim amount, for any insurance or guarantee type; or
- Results in a property that was not preserved and maintained in accordance with the Guide and the other Purchase Documents, and, following acquisition of the property, Freddie Mac needs to make any repairs to the REO property as a result of the Servicer's failure to preserve and maintain the property in accordance with the Guide and the other Purchase Documents.

(III) Servicing Repurchase Alternative demand letter

A Servicing Repurchase Alternative demand letter will be issued for Servicing Defects not constituting Servicing Repurchase Defects, including, if applicable, after a Servicing Correction period. Freddie Mac will issue any such Servicing Repurchase Alternative demand letter within 60 days after the expiration of the Servicing Correction period, including any extensions and resolution of any appeals (see Section 3602.9), unless Freddie Mac provides notice to the Servicer that it is unable to provide the Servicing Repurchase Alternative demand letter within such time frame. Any such notice will describe the anticipated time frame for issuing the related Servicing Repurchase Alternative demand letter.

A repurchase request will be issued for any Servicing Repurchase Defect. For purposes of this Section 3602.3, repurchase requests include active Mortgages, inactive Mortgages and REO and all other post-foreclosure situations pursuant to the provisions of Section 3602.5.

If there are multiple Servicing Defects caused by a Servicing Violation or Violations, Freddie Mac may either issue a (i) repurchase request if any Servicing Violation constitutes a Servicing Repurchase Defect, or (ii) a Servicing Repurchase Alternative demand letter for all Servicing Defects, in each case based on each specific Servicing Violation.

(B) Contents of notices of Servicing Defect and Servicing Remedy letters

The notice of Servicing Defect or Servicing Remedy letter will include the following information:

- The specific Servicing Violation(s) and/or related Servicing Defect(s)
- For a notice of Servicing Defect, the Servicing Correction period

- For a Servicing Repurchase Alternative demand letter, the Servicing Repurchase Alternative amount, including calculation of the Servicing Repurchase Alternative amount. (For a repurchase request, details regarding the calculation of the repurchase price as described in Section 3602.5.)
- For a Servicing Remedy letter, the time frame for completing the repurchase or payment of the Servicing Repurchase Alternative, and information regarding the Servicer's right to appeal and time frame for appeal pursuant to Section 3602.9

(ii) Step 2 – Servicing Corrections

During the Servicing Correction period identified in a notice of Servicing Defect, a Servicer must correct the related Servicing Defect(s) in the specified time frame required in the notice of Servicing Defect. Following the Servicing Correction period, Freddie Mac will assess any Servicing Correction made by the Servicer to determine whether a Servicing Remedy letter will be issued. If the Servicer provides an acceptable Servicing Correction, Freddie Mac will not pursue a repurchase; however, Freddie Mac may still issue a Servicing Repurchase Alternative demand letter for any damages, expenses or losses suffered as a result of the Servicing Violation. If Freddie Mac determines it will not issue a Servicing Remedy letter, Freddie Mac will notify the Servicer that the related notice of Servicing Defect has been closed.

Notwithstanding the foregoing, a Servicer may attempt to correct the Servicing Defect identified in a Servicing Remedy letter following the expiration of the Servicing Correction period and issuance of the Servicing Remedy letter; however, once the Appeal Process has concluded, or if applicable, the impasse period has expired, as described in Section 3602.9, the Servicer can no longer submit a Servicing Correction for consideration by Freddie Mac.

(iii) Step 3 – Appeals of Servicing Remedy letters

All Servicing Remedy letters issued to a Servicer are subject to the Appeal Process, which may be initiated by the Servicer in accordance with Section 3602.9.

(b) Other representations and warranties

In addition to any other remedies it may have at law or in equity for any Mortgage it purchased, Freddie Mac may require the Servicer to repurchase Freddie Mac's interest in a Mortgage if, in Freddie Mac's sole discretion, Freddie Mac determines that the Servicer has failed to comply with any contractual representation and warranty, as prescribed in the Guide and the other Purchase Documents.

Contractual representations and warranties include, but are not limited to, compliance with Chapter 3201 regarding fraud, compliance with the Freddie Mac Charter Act, warranties and obligations of the Servicer regarding the Freddie Mac Exclusionary List or the Federal Housing Finance Agency's Suspended Counterparty Program, and compliance with applicable law, all as related to the Servicing of a Mortgage.

3602.4: Repurchases requested by the Seller/Servicer (08/17/16)

Effective August 17, 2016, the contents of former Section 3602.3 have moved to this section.

Under exceptional circumstances, the Seller/Servicer may be allowed to repurchase Freddie Mac's interest in a Mortgage. Each repurchase must have Freddie Mac's prior written approval and be documented in the applicable Mortgage file. To request a repurchase, the Seller/Servicer must complete a Form 105, Multipurpose Loan Servicing Transmittal, and submit it to Freddie Mac via e-mail at Repurchase@FreddieMac.com (see **Directory 1** for additional submission options).

Generally, only a Mortgage that is 90 or more days delinquent or being foreclosed upon may be repurchased under this section. Without Freddie Mac's prior written approval, a Seller/Servicer may not voluntarily repurchase a Price-Adjusted Loan (as such term is defined in Section 3401.1(a)).

3602.5: Repurchase price (06/12/19)

The repurchase price is calculated as follows:

■ **Active Mortgages (see Section 8303.1):**

- The amount of the UPB of the Mortgage, including any Negative Amortization on an ARM
- PLUS accrued interest at the applicable net yield rate from the first day of the month of repurchase through the day before repurchase

■ **Inactive Mortgages (see Section 8303.1):**

- The amount of the UPB of the Mortgage, including any Negative Amortization on an ARM
- PLUS accrued interest at the applicable net yield rate from the DDLPI through the day before repurchase
- PLUS any expenses reimbursed by Freddie Mac to the Servicer
- PLUS any other costs incurred by Freddie Mac and the Servicer in connection with foreclosure or the liquidation of the Mortgage in default
- MINUS any mortgage insurance proceeds, sale proceeds, other proceeds, rental income or refunds remitted to Freddie Mac by or on behalf of the Servicer

- **REO and all other post-foreclosure situations:**

- The amount of the UPB of the Mortgage as of the acquisition date or the date of acceptance of a deed-in-lieu of foreclosure, including any Negative Amortization on an ARM
 - PLUS accrued interest at the:
 - Accounting Net Yield (ANY) from the DDLPI through the earlier of the day before the repurchase due date or the 150th day from the DDLPI
 - Average of the prime rate for the month preceding the repurchase request date minus one half of 1% from the 151st day from the DDLPI through the earlier of the day before the repurchase due date or 60 days after the settlement date of the sale of the REO (if applicable)
 - PLUS any expenses reimbursed by Freddie Mac to the Servicer
 - PLUS all costs associated with the acquisition, maintenance, rehabilitation and disposition of the property acquired, including any incentive or below market financing provided by Freddie Mac and the Servicer of the Mortgage in connection with the REO property
 - PLUS an allocation for general and administrative expenses
 - PLUS any other cost incurred by Freddie Mac and the Servicer in connection with the REO property, foreclosure or the liquidation of Mortgages in default
 - PLUS the cost of advancing payment for expenses net of any proceeds received at the:
 - ANY from the DDLPI through the earlier of the day before the repurchase due date or the 150th day from the DDLPI
 - The average of the prime rate for the month preceding the repurchase request date minus one half of 1% from the 151st day from the DDLPI through the earlier of the day before the repurchase due date or 60 days after the settlement date of the sale of the REO
 - MINUS any mortgage insurance proceeds, sale proceeds, other proceeds, rental income or refunds remitted to Freddie Mac by or on behalf of the Servicer

The Seller/Servicer agrees that, in the event of repurchase, it will pay all documentary stamp taxes, recording fees, transfer taxes and all other expenses payable in connection with the transfer of Mortgages.

At Freddie Mac's discretion, the repurchase price may also include any premium paid for Mortgages we purchased, or with respect to Mortgage delivery through the Guarantor program, the premium (expressed as a percentage) that was or would have been applicable to the Pool comprising the particular Mortgages, based on market conditions existing on the Settlement Date as determined by Freddie Mac, multiplied by the outstanding UPB of the particular Mortgage on the repurchase date. In addition, the repurchase price will include an amount equal to any buyup proceeds paid by Freddie Mac to the Seller in connection with the sale of the Mortgage to Freddie Mac and an amount equal to any loss, damage or expense, including court costs and reasonable attorney fees, as incurred by Freddie Mac in connection with its purchase, ownership and resale to the Seller of the Mortgage.

The Seller/Servicer must remit the repurchase funds or comply with the repurchase appeal requirements in Section 3602.8 or Section 3602.9, as applicable, within 60 days of the date of Freddie Mac's repurchase letter. If the Seller/Servicer does not submit a written appeal to Freddie Mac within 60 days or within such other time frame as specified by Freddie Mac, it will be assumed that the Seller/Servicer does not contest the repurchase and that the repurchase funds are due to Freddie Mac. Thereupon the Appeal Process will no longer be available to the Seller/Servicer for that particular repurchase request.

If the Seller/Servicer fails to report an involuntary repurchase in accordance with Section 8303.14 and the late reported payoff-repurchase results in a delayed Payoff Date or if the Seller/Servicer fails to have sufficient funds available for Freddie Mac to draft on the Payoff Draft Date, then the Seller/Servicer may be charged a draft delay fee each month on the total amount owed. The rate of interest on the late remittance amount will equal the highest quoted prime rate printed on the last Business Day following the month in which the repurchase funds are due plus 3% (300 basis points). The prime rate is published in *The Wall Street Journal's* "Money Rates" column or comparable section. If the prime rate is not published, Freddie Mac will determine a comparable rate. The amount of any repurchase late fee will appear on the Seller account activity statement described in Section 6303.1(e) and will be drafted from the Seller's Automated Clearing House (ACH) account in accordance with Section 6303.2(g).

Refer to Section 8303.42 for details on how Freddie Mac calculates the draft delay fee and the fee structure.

3602.6: Documenting and reporting repurchases (08/17/16)

Effective August 17, 2016, the contents of former Section 3602.5 have moved to this section.

All repurchases must be documented in the applicable Mortgage files and are subject to Freddie Mac review. In addition, for any repurchase made to allow a Transfer of Ownership under Section 3602.3, the Seller/Servicer must also retain the documentation required in Section 8406.9 after the transfer has occurred.

Repurchases, other than those for which the Seller/Servicer has received written demand by Freddie Mac, must have Freddie Mac's prior written approval. Refer to Section 3602.4 for information on submitting a request to repurchase a Mortgage.

A repurchase is not completed until the reporting and remitting requirements of Section 8303.14 have been satisfied.

3602.7: Survival of Freddie Mac's remedies; misrepresentations by the Seller or Servicer (04/12/23)

Freddie Mac's decision to require or allow a repurchase in no way diminishes its right to pursue further action such as disqualification, suspension or termination, in whole or in part, of the Servicing Contract and related Servicing Contract Rights under the provisions of Chapter 2301 and/or 3603. Freddie Mac may also exercise these remedies when its inspection of the documentation of a repurchased Mortgage reveals facts materially different from those for which Freddie Mac originally approved this repurchase.

3602.8: Appealing a repurchase request due to violations of selling and origination representations and warranties (08/17/16)

Effective August 17, 2016, the contents of former Section 3602.7 have moved to this section.

Upon receipt of a Repurchase Demand for any violation described in Section 3602.2, if the recipient of the Repurchase Demand (in this Section 3602.8, referred to as the "Seller/Servicer") has additional supporting information and/or documentation that may affect Freddie Mac's decision, the Seller/Servicer may file an appeal. See Section 3401.1(f) for information regarding Freddie Mac's review of Corrections (as defined in Section 3401.1(a)) submitted by the Seller/Servicer.

(a) First appeal

Within 60 days from the date of Freddie Mac's Repurchase Demand or within such other time frame as may be specified by Freddie Mac, the Seller/Servicer may submit the first appeal. If a first appeal is not received within the 60-day period or within such other time frame as may be specified by Freddie Mac, the Seller/Servicer will have no further right to challenge such Repurchase Demand, and will not be able to avail itself of the Impasse Process, the Management Escalation Process or the IDR Process. Below is the process for the first appeal:

1. The first appeal must be sent in writing to the Freddie Mac office requesting the repurchase

2. The Seller/Servicer's appeal package must contain:
 - A statement of all relevant facts concerning the Mortgage
 - An explanation of why these facts were not disclosed in the file during the origination of the Mortgage
 - A statement of why Freddie Mac's decision should be reversed
 - All available documentation supporting the basis for the first appeal
3. If the Seller/Servicer submits a timely appeal, Freddie Mac will review the appeal and advise the Seller/Servicer in writing of the appeal decision
4. At any time during the first appeal process, the Seller/Servicer has the right to provide a Correction of an alleged Significant Defect (as defined in Section 3401.1)
5. If the first appeal is denied, the Seller/Servicer must:
 - Comply with the terms of the Repurchase Demand within 15 days from the date of Freddie Mac's denial letter or within such other time frame as specified by Freddie Mac; or
 - Submit a second appeal as set forth in Section 3602.8(b) below
6. In order for Freddie Mac to have the right to seek a remedy based on the breach(es) alleged in the Repurchase Demand, Freddie Mac must respond to the Seller/Servicer's first written appeal within 60 days of receipt of the Seller/Servicer's written appeal

(b) Second appeal

If information that was not available at the time of the first appeal (and was therefore not submitted to Freddie Mac for consideration) becomes available after submission of the first appeal, the Seller/Servicer may submit an additional appeal ("second appeal") of the Repurchase Demand in writing within 15 days from the date of Freddie Mac's denial letter of the first appeal. The second appeal must provide new material documentation or information that was not previously available, and must contain the items described in Section 3602.8(a)(2). Below is the process for the second appeal:

1. Freddie Mac will review the second appeal and attempt to resolve the dispute
2. At any time during the second appeal process, the Seller/Servicer may provide a Correction of an alleged Significant Defect as set forth in the Guide

3. If the second appeal is denied, the Seller/Servicer must, within 15 days from the date of Freddie Mac's denial letter, initiate the Impasse Process pursuant to the terms of Section 3602.8(c) or implement the remedy requested by the Repurchase Demand
4. If the Impasse Process is not initiated within the 15-day period, the Seller/Servicer will:
 - Have no further right to challenge the Repurchase Demand
 - Not be able to avail itself of the Impasse Process, the Management Escalation Process, or the IDR Process in connection with the Mortgage in question, and
 - Be obligated to timely comply with the terms of the Repurchase Demand
5. In order for Freddie Mac to have the right to seek a remedy based on the breach(es) alleged in the Repurchase Demand, Freddie Mac must respond to the Seller/Servicer's first written appeal within 60 days of receipt of the Seller/Servicer's written appeal

If new material information is not available after submission of the first appeal, the Seller/Servicer may initiate the Impasse Process (described in Section 3602.8(c) below) within 15 days from the date of Freddie Mac's denial letter of the first appeal.

(c) Impasse Process

Below is the description and requirements for the Impasse Process:

1. If the Seller/Servicer wishes to challenge the Repurchase Demand after conclusion of the Appeal Process, the Seller/Servicer must initiate the Impasse Process through a written request to Freddie Mac requesting such escalation within 15 days of the date of Freddie Mac's denial of the first or second appeal, as applicable. The request for such escalation must be sent in writing to the Freddie Mac office that denied the prior appeal and, if any new information is available, the request must include the items described in Section 3602.8(a)(2) above.
2. Within 30 days (or such longer period of time to which both parties agree) from the date the Impasse Process is initiated (the "impasse period") a representative from each of the Seller/Servicer and Freddie Mac will attempt to resolve the dispute
3. The Seller/Servicer may provide a Correction of an alleged Significant Defect at any time during the impasse period
4. All information, facts, and documents that the Seller/Servicer or Freddie Mac wishes to be considered during the Impasse Process must be submitted no later than the end of the impasse period or such information will not be considered in the Management Escalation Process, any subsequent IDR Process or any other attempts to resolve the dispute
5. If the parties agree during the impasse period that no breach occurred, Freddie Mac will withdraw the Repurchase Demand. If the parties agree during the impasse period that a

breach did occur, the Seller/Servicer will implement the remedy specified in the Repurchase Demand (or such other remedy as agreed to by the parties).

6. If, after the impasse period, Freddie Mac reaffirms its Repurchase Demand, the Seller/Servicer may continue to dispute the Repurchase Demand by initiating the Management Escalation Process within 15 days of receiving Freddie Mac's reaffirmation of its decision
7. If the Management Escalation Process is not initiated within this 15-day period, the Seller/Servicer will:
 - Have no further right to challenge the Repurchase Demand
 - Not be able to avail itself of the Management Escalation Process or the IDR Process, and
 - Be obligated to comply with the terms of the Repurchase Demand within 15 days from the end of the impasse period
8. The Impasse Process is available only for Repurchase Demands concerning Mortgages with Settlement Dates on and after January 1, 2016

(d) Management Escalation Process

Below is the description and requirements for the Management Escalation Process:

1. If the dispute is not resolved by the Appeal Process or the Impasse Process, the Seller/Servicer may initiate the Management Escalation Process by submitting a written request to Freddie Mac no later than 15 days from the end of the impasse period. The Seller/Servicer's request shall identify its officer contact for the Management Escalation Process.
2. No new information, facts, or documents or Corrections may be submitted by the Seller/Servicer, and no new information, facts or documents may be submitted by Freddie Mac as part of the Management Escalation Process
3. Within 30 days (or such longer time period to which both parties may agree) after the Seller/Servicer initiates the Management Escalation Process (the "management escalation period"), an officer outside of Freddie Mac's Quality Control group and an officer of the Seller/Servicer will attempt to resolve the dispute. If Freddie Mac and the Seller/Servicer reach agreement regarding the Repurchase Demand in question during the management escalation period, Freddie Mac will withdraw the Repurchase Demand, or the Seller/Servicer will implement the remedy specified in the Repurchase Demand (or such other remedy as agreed to by Freddie Mac and the Seller/Servicer), no later than 30 days after an agreement is reached.
4. If the dispute is not resolved by the end of the management escalation period, the Seller/Servicer must initiate the IDR Process within 15 days of the expiration of the

management escalation period to continue to attempt to resolve the dispute. If the Seller/Servicer does not initiate the IDR Process within this 15-day period, the Seller/Servicer will:

- Have no further right to challenge the Repurchase Demand
 - Not be able to avail itself of the IDR Process in connection with the Mortgage in question, and
 - Be obligated to comply with the terms of the Repurchase Demand within 30 days from the end of the management escalation period
5. The Management Escalation Process is available only for Repurchase Demands concerning Mortgages with Settlement Dates on and after January 1, 2016

(e) IDR Process

Below is the description and requirements for the IDR Process:

1. The IDR Process is available to resolve factual disputes regarding Repurchase Demands that involve an alleged breach of a selling and/or origination representation and warranty
2. If the dispute is not resolved by the Management Escalation Process, an IDR Eligible Seller/Servicer may initiate the IDR Process by following the steps set forth in Section 3.2 of the **IDR Document**
3. As a prerequisite to using the IDR Process, the Seller/Servicer must have timely challenged the Repurchase Demand through the Appeal Process, the Impasse Process and the Management Escalation Process
4. If the Seller/Servicer has not initiated the IDR Process within 15 days of the expiration of the management escalation period, Freddie Mac may initiate the IDR Process within six months of the expiration of the management escalation period by following the steps set forth in Section 3.2 of the **IDR Document**
5. If the IDR Process is selected by the Seller/Servicer or Freddie Mac, the Seller/Servicer and Freddie Mac must both execute the **tolling agreement** tolling any applicable statute of limitations and statute of repose. The tolling agreement shall be executed by the Seller/Servicer and Freddie Mac within seven days of initiation of the IDR Process.
6. Once either party initiates the IDR Process, both the Seller/Servicer and Freddie Mac shall follow the process set forth in the **IDR Document**
7. No new information, facts, or documents or Corrections may be submitted by the Seller/Servicer, and no new information, facts or documents may be submitted by Freddie Mac as part of the IDR Process

3602.9: Appealing a repurchase request or repurchase alternative issued due to Servicing violations (12/01/16)

Upon receipt of a repurchase request or a Servicing Repurchase Alternative demand letter for any Servicing Violation or other violation described in Section 3602.3, the Servicer may initiate the processes set forth herein if the Servicer has additional supporting information and/or documentation that may affect:

- Freddie Mac's decision to exercise a Servicing Remedy
- Freddie Mac's determination that a Servicing Defect is uncorrectable or is a Servicing Repurchase Defect pursuant to Section 3602.3

The processes to resolve a dispute include the following:

- The Appeal Process
- The Impasse Process and Management Escalation Process (the "escalation processes")
- The IDR Process

If the processes set forth herein to resolve a dispute are not initiated timely, the procedures in this section will be unavailable to the Servicer, and the Servicer will be obliged to remit payment for the repurchase or Servicing Repurchase Alternative. Additionally, Freddie Mac's decision in the processes above will be conclusive, unless the IDR Process (described in Section 3602.9(c) below) is initiated, in which case the decision of the Neutral (as such term is defined in the IDR Document) shall be binding.

(a) The Appeal Process

The Appeal Process is as follows:

1. Within 60 days from the date of Freddie Mac's letter requiring repurchase or providing a Servicing Repurchase Alternative, or within such other time frame as may be specified by Freddie Mac, the Servicer may submit the first appeal. If no written appeal is received within the 60-day period or within such other time frame as may be specified by Freddie Mac, the Servicer will have no further right to challenge such repurchase or Servicing Repurchase Alternative, and will not be able to avail itself of the Impasse Process, the Management Escalation Process or the IDR Process. The first appeal must be sent in writing to the Freddie Mac office referenced in the Servicing Remedy letter.
2. The appeal package must contain:
 - A statement of all relevant facts concerning the Servicing of the Mortgage

- A statement of why Freddie Mac's decision should be reversed, in whole or in part
 - All available documentation supporting the basis for the appeal
3. If the Servicer submits a timely appeal, Freddie Mac will review the first appeal and advise the Servicer in writing of the appeal decision
 4. If the first appeal is denied, then:
 - The Servicer must remit payment for the repurchase or Servicing Repurchase Alternative within 15 days from the date of Freddie Mac's denial letter or within such other time frame as may be specified by Freddie Mac, or
 - If new material information that was not available at the time of the first appeal, and was therefore not submitted to Freddie Mac for consideration, becomes available after submission of the first appeal, the Servicer may submit an additional appeal ("second appeal") of the request within 15 days from the date of Freddie Mac's denial letter. The second appeal must be sent in writing to the Freddie Mac office that denied the prior appeal and must contain the items described in Section 3602.9(a)(2) above.
 - If new material information is not available, the Servicer may initiate the Impasse Process (described in Section 3602.9(b) below) within 15 days from the date of Freddie Mac's denial letter of the first appeal
 5. At any time during the Appeal Process, the Servicer has the right to provide a Servicing Correction pursuant to Section 3602.3
 6. In order for Freddie Mac to have the right to seek a Servicing Remedy based on the breach(es) alleged in the repurchase request or Servicing Repurchase Alternative demand letter, Freddie Mac must respond to the Servicer's first written appeal (and second written appeal, as applicable) within 60 days of receipt of the Servicer's written appeal
 7. If there is a second appeal and the second appeal is denied, then:
 - The Servicer must remit payment for the repurchase or Servicing Repurchase Alternative within 15 days from the date of Freddie Mac's denial letter or within such other time frame as may be specified by Freddie Mac, or
 - The Servicer may initiate the Impasse Process within 15 days from the date of Freddie Mac's denial letter of the second appeal
 8. If the Impasse Process is not initiated timely following denial of the first or second appeal, the Servicer will:

- Have no further right to challenge the repurchase request or Servicing Repurchase Alternative demand letter
 - Not be able to avail itself of the Impasse Process, the Management Escalation Process or the IDR Process in connection with the Mortgage in question, and
 - Be obligated to timely comply with the terms of the Servicing Remedy letter
- 9. In the event the first or second appeal results in the determination that a Servicing Defect can be corrected, or that the Servicer provided a Servicing Correction during the Appeal Process, the Servicing Remedy letter will be considered withdrawn, and, if applicable, Freddie Mac will issue a notice of Servicing Defect as described in Section 3602.3.
- 10. If the first or second appeal and denial of such appeal was in response to Freddie Mac's notification to the Servicer regarding a Servicing Repurchase Alternative, Freddie Mac will not consider any further appeal if Freddie Mac subsequently requests repurchase and the repurchase request is due to the same violation identified in the Servicing Repurchase Alternative demand letter

(b) The escalation processes

(i) The Impasse Process

The Impasse Process is as follows:

1. If the Servicer wishes to challenge the Servicing Remedy letter after conclusion of the Appeal Process, the Servicer must initiate the Impasse Process through a written request to Freddie Mac requesting such escalation within 15 days from the date of Freddie Mac's denial letter for the first or second appeal, as applicable. The request for such escalation must be sent in writing to the Freddie Mac office that denied the prior appeal and, if any new information is available, the request must include the items described in Section 3602.9(a)(2) above.
2. Within 30 days (or such longer period of time to which both parties agree) from the date the Impasse Process is initiated (the "impasse period"), a representative from the Servicer and a representative from Freddie Mac will attempt to resolve the dispute
3. The Servicer may provide a Servicing Correction pursuant to Section 3602.3 at any time during the impasse period
4. All information, facts and documents that the Servicer or Freddie Mac wishes to be considered during the Impasse Process must be submitted no later than the end of the impasse period or such information will not be considered in the Management Escalation Process, any subsequent IDR Process or any other attempts to resolve the dispute

5. If the parties agree during the impasse period that no Servicing Violation occurred or that no Servicing Defect exists, the Servicing Remedy letter will be considered withdrawn. If the parties agree that a Servicing Defect can be corrected, or that the Servicer provided a Servicing Correction during the impasse period, the Servicing Remedy letter will be considered withdrawn, and if applicable, Freddie Mac will issue a notice of Servicing Defect described in Section 3602.3. If the parties agree during the impasse period that a Servicing Violation occurred or that a Servicing Defect exists, the Servicer will implement the remedy specified in the repurchase request or Servicing Repurchase Alternative demand letter.
6. If, after the impasse period, Freddie Mac reaffirms its Servicing Remedy letter, the Servicer may continue to dispute the Servicing Remedy letter by initiating the Management Escalation Process within 15 days of receiving Freddie Mac's reaffirmation of its decision
7. If the Management Escalation Process is not initiated within this 15-day period, the Servicer will:
 - Have no further right to challenge the repurchase request or Servicing Repurchase Alternative demand letter
 - Not be able to avail itself of the Management Escalation Process or the IDR Process in connection with the Mortgage in question, and
 - Be obligated to timely comply with the terms of the Servicing Remedy letter

(ii) **The Management Escalation Process**

The Management Escalation Process is as follows:

1. If the dispute is not resolved by the Appeal Process or the Impasse Process, the Servicer may initiate the Management Escalation Process by submitting a written request to Freddie Mac no later than 15 days of receiving Freddie Mac's reaffirmation of its decision. The request for such escalation must be sent in writing to the Freddie Mac office referenced in the letter reaffirming the Servicing Remedy, and the Servicer must identify its officer contact for the Management Escalation Process.
2. No new information, facts or documents, or Servicing Corrections pursuant to Section 3602.3, may be submitted by the Servicer, and no new information, facts or documents may be submitted by Freddie Mac as part of the Management Escalation Process
3. Within 30 days (or such longer period of time to which both parties may agree) after the Servicer initiates the Management Escalation Process ("management escalation

period”), an officer from the Servicer and Freddie Mac will attempt to resolve the dispute

4. If the parties agree during the management escalation period that no Servicing Violation occurred or that no Servicing Defect exists, the Servicing Remedy letter will be considered withdrawn. If the parties agree during the management escalation period that a Servicing Violation occurred or that a Servicing Defect exists, the Servicer will implement the remedy specified in the Servicing Remedy letter no later than 30 days after an agreement is reached.
5. If the dispute is not resolved by the end of the management escalation period and the dispute is related to Freddie Mac’s determination that a Servicing Defect exists, the Servicer must initiate the IDR Process within 15 days of the expiration of the management escalation period to continue to attempt to resolve the dispute. If the Servicer does not initiate the IDR process within this 15-day period, the Servicer will:
 - Have no further right to challenge the repurchase request or Servicing Repurchase Alternative demand letter
 - Not be able to avail itself of the IDR Process in connection with the Mortgage in question, and
 - Be obligated to timely comply with the terms of the Servicing Remedy letter

(c) The IDR Process

The IDR Process is as follows:

1. The IDR Process is available to resolve factual disputes regarding Servicing Remedy letters that involve an alleged Servicing Defect. The IDR Process will only address loan-level Servicing Remedy letters and whether the Servicing Defect exists at the time the IDR Process is commenced. The IDR Process will not address Servicing Remedies or any other issue or dispute.
2. If the Servicer disputes Freddie Mac’s determination that a Servicing Defect exists, and the dispute is not resolved by the Management Escalation Process, an IDR Eligible Seller/Servicer may initiate the IDR Process within 15 days from the expiration of the management escalation period. The IDR Process and requirements are set forth in the **IDR Document**.
3. As a prerequisite to using the IDR Process, the Servicer must have timely challenged the repurchase request or the Servicing Repurchase Alternative demand letter through the Appeal Process, the Impasse Process and the Management Escalation Process
4. If the Servicer has not initiated the IDR Process within 15 days of the expiration of the management escalation period, Freddie Mac may initiate the IDR Process within six

months of the expiration of the management escalation period by following the steps in Section 3.2 of the **IDR Document**

5. If the IDR Process is elected by the Servicer or Freddie Mac, the Servicer and Freddie Mac must both execute the **tolling agreement** tolling any applicable statute of limitations and statute of repose. The tolling agreement shall be executed by the Servicer and Freddie Mac within seven days of initiation of the IDR Process.
6. Once either party initiates the IDR Process, both the Servicer and Freddie Mac shall follow the process set forth in the **IDR Document**
7. No new information, facts or documents, or Servicing Corrections pursuant to Section 3602.3, may be submitted by the Servicer, and no new information, facts or documents may be submitted by Freddie Mac as part of the IDR Process

(d) Other considerations

At any time during the Appeal Process or any processes set forth herein, the Servicer may propose a Servicing Repurchase Alternative. Freddie Mac will, in good faith, review and advise the Servicer of its decision.

Freddie Mac may offer or decline to offer the Servicer certain Servicing Repurchase Alternatives based on the Servicer Counterparty Status (described in Section 3602.1) to the extent there are future obligations required as part of the Servicing Repurchase Alternative. Other factors to be considered by Freddie Mac may include, but are not limited to, the failure to maintain a quality Servicing practice and the Servicer's ability and willingness to comply with other provisions of the Guide and the other Purchase Documents.

If the Servicer does not comply with the terms of the Servicing Remedy letter and does not remit payment or initiate the Appeal Process or any processes set forth herein timely, Freddie Mac may then pursue other rights and remedies for failure to comply, including repurchase; however, the repurchase appeal provisions of this Section 3602.9 will not be available to the Servicer.

Chapter 3603: Termination of Servicing

3603.1: Termination of Servicing (04/12/23)

Freddie Mac may terminate all or any portion of the Servicer's Servicing Contract and related Servicing Contract Rights, in whole or in part, at any time with cause or without cause as provided in this chapter. See Section 3603.6 for requirements for termination of the Servicing Contract and related Servicing Contract Rights in connection with the sale of Mortgages by Freddie Mac.

A termination of a given portion of the Servicing Contract and related Servicing Contract Rights shall not waive or impair Freddie Mac's future right, in the exercise of its sole discretion, to terminate all or further portions of the remaining Servicing Contract Rights under the Servicing Contract for any reason listed in Section 2301.2, regardless of whether or not the reason relates to Mortgages subject to the termination of the given portion of the Servicing Contract and related Servicing Contract Rights. In addition, Freddie Mac may use its sole discretion in selecting which Mortgages shall be subject to a partial termination of the Servicing Contract and related Servicing Contract Rights.

In lieu of termination of all or a portion of the Servicing Contract and related Servicing Contract Rights, Freddie Mac may also require the Servicer to engage a Servicing Agent for all or a portion of the Mortgages, for such period of time as determined by Freddie Mac. The Servicing Agent must be approved by Freddie Mac, in its sole discretion, and the Servicer must comply with all other applicable requirements of the Guide. The retention and use of the Servicing Agent by the Servicer must occur within such time as specified by Freddie Mac. The Servicer is responsible for all expenses and costs incurred with respect to the Servicing Agent.

Regardless of whether all or a portion of the Servicing Contract and related Servicing Contract Rights is terminated or subject to the engagement of a Servicing Agent pursuant to this section, the Servicer remains responsible and liable to Freddie Mac for all Servicing representations and warranties as provided in Section 8102.1.

Freddie Mac's election of a remedy under this section does not waive its right to elect any other remedy or combination of remedies, including termination of all or a portion of the Servicing Contract and related Servicing Contract Rights. The Transferee Servicer's assumption of responsibilities, representations and warranties upon a Transfer of Servicing does not release the Transferor Servicer of its responsibilities, representations and warranties with respect to the transferred Mortgages.

(a) Termination with cause

Freddie Mac may terminate all or any portion of the Servicing Contract and related Servicing Contract Rights by the Servicer at any time with cause for any of the

reasons for disqualification and/or suspension cited in Section 2301.2. Sections 2301.3 through 2301.6 govern the notice of termination of the Servicing Contract and related Servicing Contract Rights with cause and the Servicer's opportunity to appeal, if applicable. Termination of the Servicing Contract and related Servicing Contract Rights with cause is a basis for immediate disqualification or suspension as a Seller/Servicer. A Transfer of Servicing with cause does not relieve the Servicer of any of its obligations under the Purchase Documents with respect to the Mortgages related to such Transfer of Servicing.

(i) Servicer compensation/Freddie Mac reimbursement

Upon termination of the Servicing Contract and related Servicing Contract Rights with cause, the Servicer will have no right to service such applicable Mortgages for Freddie Mac or to receive any compensation for the performance of such Servicing. In addition, no Termination Fee as described in Section 3603.1(b)(ii) below will be paid to the Servicer.

If the Servicing Contract and related Servicing Contract Rights are terminated with cause and Freddie Mac obtains a Transferee Servicer, Freddie Mac is entitled to reimbursement from the former Servicer for any loss, damage or expense incident to the Transfer of Servicing. Such expenses include, but are not limited to, court costs, reasonable attorney fees, copying costs, costs of the physical transfer of files and the cost of an audit or examination of the Servicer's records, if Freddie Mac determines that such a procedure is appropriate ("transfer-related expenses").

(ii) Other requirements

The provisions of Sections 3603.2, 3603.3 and 3603.4 apply to termination of the Servicing Contract and related Servicing Contract Rights with cause.

(b) Termination without cause

(i) Notice Period and Servicer right to transfer

Freddie Mac may terminate all or any portion of the Servicing Contract and related Servicing Contract Rights at any time without cause with respect to any Mortgage owned or guaranteed by Freddie Mac. Freddie Mac will notify the Servicer in writing 90 days before the scheduled date of the termination of the Servicing Contract and related Servicing Contract Rights without cause. Within that 90-day period (the "Notice Period"), the Servicer may arrange a Transfer of Servicing to a Transferee Servicer that is approved by Freddie Mac to service the particular Servicing portfolio being transferred. Such a Transfer of Servicing is subject to the requirements of Chapter 7101 and, if approved, must be completed 60 days from the date that Freddie Mac approves the transfer.

If the Servicer is unable to arrange a Transfer of Servicing within the Notice Period or if the approved Transfer of Servicing is not completed timely, Freddie Mac will terminate the Servicing Contract and related Servicing Contract Rights and will engage in a Transfer of Servicing to a Transferee Servicer of Freddie Mac's choice.

(ii) Termination Fee

In the event Freddie Mac terminates the Servicing Contract and related Servicing Contract Rights without cause and engages in a Transfer of Servicing to a Transferee Servicer of Freddie Mac's choice (under clause (b)(i) above), Freddie Mac will pay the terminated Servicer a termination fee ("Termination Fee") calculated based on conditions existing as of the transfer date in an amount equal to the lesser of the following:

- Two times the Net Servicing Rate, as defined below, times the UPB of the transferring Mortgages that are not delinquent as of the transfer date (no Termination Fee will be paid for Mortgages that are delinquent as of the transfer date). For purposes of this calculation, a Mortgage will be deemed to be delinquent if as of a month end of the Effective Date of Transfer any payment is outstanding. In the event of a Transfer of Servicing that takes place other than at month end, a Mortgage will be deemed to be delinquent if there is any payment outstanding as of the month end immediately preceding the Effective Date of Transfer. No Termination Fee will be paid for a delinquent Mortgage as of the Effective Date of Transfer, or
- The market value of the Servicing Contract and related Servicing Contract Rights to service the Mortgages as established by a qualified market leader in servicing valuations using costs reflective of Freddie Mac's costs to engage a Servicing Agent, applying protocols appropriate for the risk of the portfolio as determined by Freddie Mac in its sole discretion (such value, as so established, shall be conclusive)

For calculation of the Termination Fee, the "Net Servicing Rate" means the Note Rate of the Mortgage less all of the following, expressed as an annualized fractional percentage:

- The pass-through rate due Freddie Mac
- Any Credit Fee in Yield due Freddie Mac
- Any excess Servicing not retained by the Servicer
- Any lender-paid mortgage insurance, and

- Any other component of the Note Rate that the Servicer is not entitled or authorized to retain as Freddie Mac's compensation for its Servicing of the Mortgage

Any dispute concerning the Termination Fee shall not delay the Transfer of Servicing. Freddie Mac shall deduct the amount of its transfer-related expenses as described in subsection 3603.1(a)(i) from the Termination Fee. Before Freddie Mac's payment of a Termination Fee, the Servicer must complete all repurchases required under Chapter 3602 and fulfill any other outstanding obligations of the Servicer to Freddie Mac. If the Servicer fails to do so, Freddie Mac will offset the sum of such repurchases and any other outstanding obligations of the Servicer against the Termination Fee.

Freddie Mac's payment to a Servicer of the Termination Fee will constitute the entire compensation payable in consideration of the termination of the Servicing Contract and related Servicing Contract Rights. A Servicer will not be entitled to any additional compensation from Freddie Mac for any reason or cause relating to any consequential, incidental or indirect damages arising out of, or in connection with, the termination of the Servicing Contract and related Servicing Contract Rights. A Transfer of Servicing without cause does not relieve the Servicer of its obligations under the Purchase Documents with respect to the Mortgages related to such Transfer of Servicing.

(iii) Other requirements

The provisions of Sections 3603.2, 3603.3 and 3603.4 apply to termination of the Servicing Contract and related Servicing Contract Rights without cause.

Notwithstanding Sections 2301.3 through 2301.6, Freddie Mac's decision to suspend or disqualify a Seller without cause or to terminate the Servicing Contract and related Servicing Contract Rights without cause is conclusive.

(c) Extinguishment of rights in Collateral related to a Conveyance or Financing

Upon a Termination With Cause or a Termination Without Cause, any previously Freddie Mac approved Conveyance related to a Financing whether characterized as a pledge of the Servicing Contract Rights or characterized for tax or accounting purposes as a "sale" of cashflow derived from Servicing Contract Rights, is automatically terminated without the need for further action by any person, and does not survive such termination. Upon a Termination With Cause or a Termination Without Cause, the Financing's lender/cashflow "buyer" has no further right, title or interest whatsoever in the Collateral, with the sole exception of any interest in the Termination Fee or Surplus Proceeds, if any and as applicable, all such rights having been conclusively extinguished. Except as otherwise defined in Exhibit 33, Acknowledgement Agreement Incorporated Provisions, capitalized terms in this Section 3603.1(c) have the meanings ascribed to them in the **Glossary**. This Section

3603.1(c) applies solely to the extinguishment of rights in Collateral related to a Conveyance or Financing.

3603.2: Transfer (04/12/23)

If Freddie Mac transfers all or a portion of the Servicing Contract and related Servicing Contract Rights to any Mortgages, the Servicing compensation (as stated in Section 8105.1) is paid to the Transferee Servicer, except as otherwise set forth in applicable Purchase Documents with that Transferee Servicer. Freddie Mac reserves the right to negotiate a Servicing fee with the subsequent Servicer. Freddie Mac will have the exclusive right to receive any amount that may be paid by the Transferee Servicer for the right to the Servicing compensation under the Servicing Contract.

3603.3: Documents and records (04/12/23)

Upon termination of the Servicing Contract and related Servicing Contract Rights to any Mortgage, the Servicer is responsible for supplying and (if applicable) causing its Custodian to supply all reports, documents and information (including, but not limited to, all Mortgage records specified in Section 8101.7) requested by Freddie Mac on the date specified by Freddie Mac. The material, including an accounting of the current status of each Mortgage for which the Servicing Contract and related Servicing Contract Rights are being terminated, must be prepared in the form requested by Freddie Mac and delivered to the Transferee Servicer and the new Custodian, if applicable, designated by Freddie Mac.

3603.4: Remittance to Freddie Mac (04/12/23)

The remittance to Freddie Mac of Mortgage collections for each Mortgage for which the Servicing Contract and related Servicing Contract Rights are terminated must be made on the date specified by Freddie Mac (notwithstanding Freddie Mac's regular remittance requirements). Additionally, all Escrow Funds, Escrow accounts and prepaid installments held by the Servicer for each Mortgage for which the Servicing Contract and related Servicing Contract Rights are being terminated must be transferred to the Transferee Servicer on the date specified by Freddie Mac.

The Servicer must use its best efforts to effect the orderly and efficient Transfer of Servicing to the Transferee Servicer.

3603.5: Outstanding purchase commitments (04/12/23)

If the terminated Servicer holds outstanding commitments for the purchase by Freddie Mac of additional Mortgages, Freddie Mac, in its discretion, may:

- Transfer the Servicing of those Mortgages to a Transferee Servicer immediately upon funding the purchases of the Mortgages, or
- Assign the outstanding commitments to another Seller, or
- Pair off the outstanding commitments, or
- Cancel the outstanding commitments

3603.6: Termination of the Servicing Contract and related Servicing Contract Rights related to sale of Mortgages by Freddie Mac (04/12/23)

If Freddie Mac sells Mortgages it has purchased pursuant to the Purchase Documents (see Section 1201.7), Freddie Mac will notify the Servicer upon receipt of an accepted bid and at least 30 days before the scheduled closing of the purchase. If the acquirer of such Mortgages does not require Freddie Mac to engage in a transfer of the Servicing to a Transferee Servicer in connection with the sale of the Mortgages, then the Servicer will continue to service the Mortgages on behalf of the acquirer and Freddie Mac will not pay the Servicer any compensation in connection with the Mortgage sale or any servicing compensation for such Servicing that occurs on or after the date of such sale.

If, however, Servicing is transferred to a Transferee Servicer, then Freddie Mac will pay the Servicer a Termination Fee that will be calculated in accordance with the requirements for calculation of the Termination Fee when the Servicing Contract and related Servicing Contract Rights are terminated without cause as described in Section 3603.1(b).

The requirements of Sections 3603.2, 3603.3 and 3603.4 apply to a Transfer of Servicing related to the sale of Mortgages by Freddie Mac.

Chapter 4101: Uniform Instruments

4101.1: The Mortgage application (02/01/23)

(a) Required use of Form 65, Uniform Residential Loan Application

Form 65, Uniform Residential Loan Application, must be used for all Mortgage applications.

The Seller must use the version of Form 65 that is current as of the date of the loan application. See Exhibit 4A, Single-Family Uniform Instruments, for the date of the current version of Form 65 and the most current version of the Uniform Mortgage Data Program® (UMDP®) Instructions for Completing the Uniform Residential Loan Application.

Seller may make changes to the style and formatting of the Form 65 and its components – Borrower Information, Additional Borrower, Continuation Sheet, Lender Loan Information and the Unmarried Addendum, if applicable, in accordance with the **UMDP Rendering Options for the Uniform Residential Loan Application, Document revised 1/2020** (the “Rendering Options”) as it may be amended from time to time. As provided in the Rendering Options, the fields names, descriptions, and order of sections may not be altered in anyway. Form fields within a section may be moved within that section if additional field length is needed. Any adjustments made to the format of the form must be made pursuant to all applicable law.

Translation aids for Form 65 and its components are available on Freddie Mac’s **Multi-language Resources for Lenders and Other Housing Professionals web page**. These translation aids complement the applicable English-language documents and may be provided to consumers as supplemental education material when originating single-family residential Mortgages. The translation aids are for reference only and are not to be executed.

(b) Completion instructions

A completed Form 65 is used to begin the process of determining the Borrower’s credit reputation and capacity to repay the Mortgage. If a residential mortgage credit report (RMCR) is ordered, the information on the Form 65 must be provided to the consumer reporting agency that is to issue the RMCR. The Seller may elect to complete the liabilities portion of the application directly from the credit reports either manually or through an automated process.

If the credit reports identify fewer than three open Tradelines (except for Accept Mortgages), the Seller should ask the Borrower if any additional Tradeline references exist (see Section 5202.1).

The final Form 65 must reflect accurate and complete information as of the Note Date. All of the Borrower’s debts incurred through the Note Date must be included on the final Form 65

and must be considered in the calculation of the Borrower's monthly debt payment-to-income ratio (see Section 5401.2). The final Form 65, if used, must be complete, legible, dated and signed by the Borrowers signing the Note.

Information on the initial application must be entered as originally provided by the Borrower and/or, if applicable, as listed on the credit reports, whether handwritten or typed. The information given by the Borrowers on the application must be consistent with both the identifying information in the credit reports as well as with the verifications in the Mortgage file. For any Mortgage in which there is a material discrepancy, the Seller must prepare a written statement explaining the discrepancy.

(c) Electronic and fax copies of loan applications

Freddie Mac agrees that the Seller may receive an initial Form 65 from a Borrower as an Electronic Record or fax copy. The Freddie Mac Form 65 contains language in the Acknowledgements and Agreements Section in the Borrower Information component that permits the Borrower to:

- Physically sign a paper Form 65 with pen and ink and deliver a fax copy of the signed Form 65 to the Seller via facsimile transmission or
- Electronically sign an electronic Form 65 using an Electronic Signature and deliver the electronic Form 65 to the Seller as an Electronic Record via the Internet or other form of electronic transmission

The Seller represents and warrants that any initial Form 65 received from a Borrower as an Electronic Record or fax copy has been duly signed by the Borrower and complies with the federal Electronic Signatures in Global and National Commerce Act ("E-Sign") and all other applicable State and federal laws and regulations including, without limitation, all State and federal consumer disclosure laws and regulations. The Seller agrees that the initial Form 65 received from a Borrower as an Electronic Record or fax copy are subject to the representations, warranties, covenants, agreements and requirements contained in Section 1401.11 or Section 1401.12, as applicable.

The final loan application delivered by the Borrower to the Seller at loan closing must be an original paper Form 65 if necessary, either physically signed by the Borrower using a pen or signed electronically by the Borrower at closing (settlement) using an Electronic Signature that meets the requirements in Chapter 1401.

The Seller may maintain copies of the original signed paper Form 65 in accordance with the requirements of Section 3302.2.

4101.2: Home Mortgage Uniform Instruments (02/01/23)

(a) Use of Uniform Instruments

The Security Instrument and Note must be executed on the Uniform Instruments (1-4 Family) for the jurisdiction where the Mortgaged Premises are located. The Uniform Instruments used for a Mortgage must be the versions current as of the Mortgage Note Date. See Exhibit 4A, Single-Family Uniform Instruments, for the current dates of revisions of all Uniform Instruments.

For any Mortgage secured by one of the following types of property, Freddie Mac requires both:

- The single-family Fannie Mae/Freddie Mac Uniform Security Instrument for the jurisdiction where the Mortgaged Premises are located, and
- One of the following types of riders, as applicable:

Property Type	Form
Condominium Unit	Condominium Rider Form 3140
Planned Unit Development unit	Planned Unit Development Rider Form 3150
1- to 4-unit Investment Property	1- to 4-Family Rider Form 3170
2- to 4-unit Primary Residence	1- to 4-Family Rider Form 3170
Second home	Second Home Rider Form 3890

(b) Additional Mortgage documentation requirements

In addition to the Uniform Instruments required by this Section 4101.2, certain Mortgage products have additional loan documentation requirements stated elsewhere in the Guide as follows:

- Section 4301.7 for Texas Equity Section 50(a)(6) Mortgages
- Section 4402.3 for Seller-Owned Converted Mortgages

- Sections 5703.7(d) and 5703.7(e) for Mortgages secured by Manufactured Homes
- Section 4602.3 for Construction Conversion and Renovation Mortgages
- Chapter 4205 for Government Funded, Guaranteed or Insured Mortgages
- Chapter 4502 for Community Land Trust Mortgages

(c) Mortgage instruments for ARMs

(i) Required ARM Uniform Instruments

ARMs must be closed on the Uniform Instruments for the applicable ARM product described in the charts below.

The Uniform Instruments for an ARM consist of an ARM Note, the Fannie Mae/Freddie Mac Security Instrument and any applicable property type riders, and an ARM rider to the Security Instrument. The Seller must use the most current version of the State-specific Fannie Mae/Freddie Mac Single Family Security Instrument prepared for use in the jurisdiction in which the Mortgaged Premises are located and the most current version of any applicable property type riders. The Seller must also use the most current version of the ARM Note and ARM rider.

The most current version of the Uniform Instruments is the version in effect as of the Note Date of the Mortgage. See Exhibit 4A, Single-Family Uniform Instruments, for the current dates of revisions of all Uniform Instruments. See Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application, for authorized changes to the Uniform Instruments.

The ARM Note and ARM rider must be completed in accordance with the terms of the applicable ARM product. See Section 4101.2(c)(iii) for instructions for completion of Section 4(D) of an ARM Note.

For certain ARM products, State-specific versions of the ARM Note have been prepared for Alaska, Florida, New Hampshire, Puerto Rico, Vermont, Virginia, West Virginia and Wisconsin. If a State-specific version of an ARM Note has been prepared, it must be used for ARMs secured by Mortgaged Premises located in that State. The multistate version of the ARM Note, with the required changes stated in Exhibit 5A, must be used in all other States.

Freddie Mac makes available Uniform Instruments for use with ARM products with various features.

The Uniform Instruments have the following features embedded in the form itself (hard-coded):

- Index
- Lookback Period
- Assumability

The Uniform Instruments have blanks to be completed by the Seller for the following features (soft-coded):

- Maturity Date (determines the term)
- First Interest Change Date (determined by the Initial Period)
- Maximum interest rate at the first Interest Change Date (determined by the Initial Cap)
- Maximum increase or decrease in the interest rate at each adjustment after the first Interest Change Date (Periodic Cap); the Periodic Cap is hard-coded 1% for 30-day Average SOFR Index (SOFR)-indexed Assumable Life of Loan and Assumable after Initial Period with 45 day Lookback Period
- Maximum interest rate for the life of the loan (Lifetime Ceiling, determined by the Life Cap)
- Minimum interest rate for the life of the loan (Lifetime Floor, which must equal the Margin stated in the Note)

In determining which Uniform Instrument to use with each ARM product, the Seller must select the form with the applicable hard-coded information and complete the soft-coded information as appropriate. Because many of the features of an ARM product are soft-coded, the same Uniform Instrument may be used for different ARM products.

The 6-Month SOFR-indexed ARM Note and rider may be used with a 3/6-Month, 5/6-Month, 7/6-Month, and 10/6-Month SOFR-indexed ARM with the same Lookback Period and assumability period.

The Uniform Instruments may be used for ARM products that do not meet the eligibility requirements for sale to Freddie Mac. Freddie Mac encourages the Seller to use Uniform Instruments, if available, for originating ARM loans even if the ARM product is not eligible for sale.

The following charts describe the Uniform Instruments available for different hard-coded features for ARM products:

	ARMs	
	SOFR	
	6-Month	
	Note	Rider
Lookback = 45 Days Preceding the Interest Change Date		
Assumable for life of loan	3441*	3141*
Assumable after Initial Period	3442*	3142*

*Hard-coded with a 1% Periodic Cap

All ARM Uniform Instruments are available on Freddie Mac's website at <https://sf.freddiemac.com/tools-learning/uniform-instruments/overview>.

(ii) Use of Fannie Mae ARM instruments

The Seller may use Fannie Mae's ARM instruments only in accordance with the provisions of this subparagraph. The Seller must consult its own legal counsel when using a Fannie Mae instrument for a particular Freddie Mac ARM product.

The Seller originating ARMs on Fannie Mae instruments represents and warrants that the Fannie Mae instrument, when completed, is appropriate for the applicable Freddie Mac ARM product and can be serviced in accordance with the Guide.

(iii) Instructions for completing Section 4(D) of an ARM Note

The Seller must complete Section 4(D), Limits on Interest Rate Changes, of an ARM Note as follows:

1. Insert in the first blank of the first sentence, referring to the Initial Cap (the maximum interest rate on the first Interest Change Date), the interest rate that is equal to the sum of the initial Note Rate for the Mortgage, plus the applicable Initial Cap for that ARM program
2. Insert in the second blank of the first sentence, referring to the minimum interest rate on the first Interest Change Date, the interest rate that is equal to the initial Note Rate for the Mortgage, minus the applicable Initial Cap. If this difference is less than the Margin stated in the Note, insert the value of the Margin.

3. Insert in the first blank in the last sentence, referring to the Lifetime Ceiling (the maximum interest rate during the life of the Mortgage), the initial Note Rate plus the applicable Life Cap for that ARM product
4. In the second blank in the last sentence, referring to the Lifetime Floor (the minimum interest rate during the life of the Mortgage), insert the Margin stated in the Note

4101.3: Authorized changes to Uniform Instruments (02/01/23)

The Seller must not make any changes or additions to the Uniform Instruments that have any force or effect after purchase of the Mortgage by Freddie Mac, except for changes and modifications that:

- Are accomplished by use of Fannie Mae/Freddie Mac Uniform Instrument Riders
- Pertain to an assumption or an alteration of the principal, Note Rate, payment amount or date, or maturity date of the Mortgage, or
- Are required or permitted by the provisions in Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application

If a change or addition permitted under this section is made to the instrument in the form of an addendum or rider, the addendum or rider must:

- Be referenced in the instrument it is modifying
- Reference the instrument, and
- Be firmly attached to the instrument

The Seller agrees that no changes or additions to the Uniform Instruments otherwise permitted here will be made if such changes or additions would adversely affect the negotiability of the Note.

The Uniform Instruments may require modification for use with Construction Conversion Mortgages and Renovation Mortgages. Sellers that use the Uniform Instruments for construction or renovation loans may make changes or additions necessary for that purpose. These changes and additions should be provided in a Note addendum or Security Instrument rider. The changes or additions do not need to contain a statement that they become void upon purchase by Freddie Mac if the changes or additions are necessary to assure the first priority of the Mortgage lien or if, by their terms, the changes or additions cease to be effective before the Settlement Date.

See Section 4602.3 for information on documenting Construction Conversion Mortgages and Renovation Mortgages.

4101.4: Master Form and Short Form Security Instruments (02/01/23)

(a) Master Form and Short Form Security Instruments

Certain States have statutes that allow originating lenders to record a Master Form Security Instrument in a given county and then to record a Short Form Security Instrument for each subsequent Mortgage originated and recorded in that county. The Short Form Security Instrument contains the loan-specific information (e.g., Borrower name, lender name, loan amount, description of property) and identifies the provisions of the Master Form Security Instrument that are being incorporated into the Short Form Security Instrument.

The State-specific Fannie Mae/Freddie Mac Uniform Master Form Security Instrument and Short Form Security Instrument are available from Freddie Mac's website at <https://sf.freddiemac.com/tools-learning/uniform-instruments/2021-updated-instruments>. See Exhibit 4A, Single-Family Uniform Instruments, for the list of currently available Master Form Security Instruments and Short Form Security Instruments and the current dates of these instruments.

Freddie Mac will purchase Mortgages originated on a Short Form Security Instrument provided the requirements stated in this Section 4101.4 are satisfied.

The Seller must not use or record a Short Form Security Instrument unless it has already recorded a Master Form Security Instrument in the recorder's office serving the recording jurisdiction in which the Mortgaged Premises is located. In North Carolina, a Master Form may not be recorded in certain designated counties stated in the North Carolina statute.

A copy of the recorded Master Form Security Instrument must be provided to the Borrower.

(i) Master Form Security Instrument – The Master Form Security Instrument is the Master Form Mortgage or Deed of Trust that is permitted under certain State statutes to be recorded by originating lenders in a given recording jurisdiction in the State. The Master Form Security Instrument for each State (with the exception of Ohio) consists of (1) a title page (the name of the title page differs in different States), which contains the information required under the State statute to record the Master Form Security Instrument in that State and (2) the current Fannie Mae/Freddie Mac Uniform Security Instrument for that State.

In Ohio, there is no title page; the Master Form Security Instrument is the current Fannie Mae/Freddie Mac Ohio Mortgage with the required Master Form information provided on the first page of the Ohio Mortgage form itself.

(ii) Short Form Security Instrument – The Short Form Security Instrument is the Mortgage or Deed of Trust recorded for each individual Mortgage made and recorded in the recording jurisdiction where the Master Form Security Instrument is recorded; the Short Form Security Instrument contains loan-specific information and incorporates by reference the provisions of the previously recorded Master Form Security Instrument. A Seller must not use or record a Short Form Security Instrument unless the Seller has already recorded a Master Form Security Instrument in the recorder's office serving the recording jurisdiction in which the Mortgaged Premises is located.

(b) Instructions for use of Master Form Security Instrument; Short Form Security Instrument

(i) Master Form Security Instrument – The Seller must:

1. Complete the title page by inserting the names and relevant information in the applicable places and have the title page signed and acknowledged, if required
2. Attach the title page to the front of the current Security Instrument for the State
3. Record the title page and Security Instrument together in the recorder's office serving the recording jurisdiction(s) in which the Seller anticipates subsequently recording Short Form Security Instruments
4. In Ohio, complete the information in the box at the top of the first page of the Master Mortgage Form by inserting the names and relevant information in the applicable places and have the first page signed in the box at the top of the first page. Do not complete information outside of the box other than "Return to" information.

The Security Instrument to which the title page is attached (or in Ohio, on which the Master Form information is provided) should not have any information completed and should not be signed or acknowledged.

In the event Freddie Mac revises the Uniform Security Instrument for the applicable State, the Seller must record the revised Master Form Security Instrument in all applicable local recording offices. The previously recorded Master Form Security Instrument must not be released or superseded.

Mortgages originated after the effective date of a revised Uniform Security Instrument must be originated using a Short Form Security Instrument that references the new recorded Master Form Security Instrument.

(ii) Short Form Security Instrument – The Seller must:

1. Insert the recording information from the Master Form Security Instrument in the first paragraph of the "Definitions" section. (The recording information must be that of the

Master Form Security Instrument that was recorded in the recording jurisdiction in which the Mortgaged Premises is located.)

2. Insert information for all blank spaces in the “Definitions” section
3. Check the applicable Rider boxes
4. Insert the property description information
5. Provide the Borrower with an exact copy of the recorded Master Form Security Instrument (the completed title page with recordation information and the applicable current Fannie Mae/Freddie Mac Uniform Security Instrument for the State)
6. Arrange for the Short Form Security Instrument to be executed by the Borrower(s) and acknowledged
7. Arrange for any applicable Riders to be executed by the Borrower(s). In Pennsylvania, attach a copy of the Fannie Mae/Freddie Mac Pennsylvania Uniform Mortgage under the caption: “General Provisions Incorporated by Reference and Not to be Recorded with this Document” after the Rider(s), if any.
8. Record the Short Form Security Instrument and any applicable Riders in the recorder’s office serving the recording jurisdiction in which the Mortgaged Premises is located

4101.5: Origination and delivery of Mortgages using a New York Consolidation, Extension and Modification Agreement (the “NY CEMA”) (02/01/23)

Freddie Mac will purchase refinance Mortgages secured by property located in New York State that are documented using an NY CEMA. The NY CEMA combines into one set of rights and obligations all of the promises and agreements stated in existing Notes and Mortgages secured by the Mortgaged Premises including, if new funds are advanced to the Borrower at the time of the consolidation, a new Note and Mortgage. The result is that the Borrower has one consolidated loan obligation, evidenced by a Consolidated Note that is paid in accordance with the terms of the NY CEMA.

In this section:

- The original Note executed by the Borrower that is being consolidated, extended and modified by the newly executed NY CEMA is referred to as the Original Old Money Note

- The original Note executed by the Borrower at the time the current NY CEMA is executed that represents new funds advanced to the Borrower at the time of the current consolidation is referred to as the Original New Money (Gap) Note

In connection with the current financing transaction evidenced by the NY CEMA, the Borrower must execute a new original Note, referred to as the Consolidated Note, that consolidates, extends and modifies the Original Old Money Note and the Original New Money (Gap) Note, if any.

(a) Documentation

When documenting a Mortgage using an NY CEMA, the Seller must use the most current version of the New York Consolidation, Extension and Modification Agreement Single-Family Fannie Mae/Freddie Mac Uniform Instrument (Form 3172). The current version can be found on Freddie Mac's website at <https://sf.freddiemac.com/tools-learning/uniform-instruments/2021-updated-instruments>.

In addition, the Borrower must execute a Consolidated Note.

(b) Delivery package for NY CEMA

For a Mortgage originated using the NY CEMA, the Seller must deliver the complete NY CEMA delivery package listed below to its Document Custodian.

The complete NY CEMA delivery package must include the following documents:

(i) NY CEMA

The original NY CEMA or a copy certified by the recorder's office.

(ii) NY CEMA exhibits

Complete set of NY CEMA exhibits, as follows:

- Exhibit A — A list, or a copy of a list, of the obligations being consolidated, modified and extended. All Notes, security instruments, assignments, consolidation agreements and related agreements that modify, consolidate or extend prior underlying obligations and which predate the current NY CEMA must be listed separately in Exhibit A.
- Exhibit B — The property description of the Mortgaged Premises. A copy of Schedule A (Property Description) to the New York Mortgage may be used but should be marked as Exhibit B to identify it as an NY CEMA exhibit.
- Exhibit C — A copy of the Consolidated Note (including any applicable addenda), with fixed-rate or adjustable-rate Note language inserted at the top of the first page.

(The required language is stated in (iii) below.) Because this is a form document, Borrower signatures are not required.

- Exhibit D — The most current version of the New York Single-Family Fannie Mae/Freddie Mac Uniform Security Instrument (Form 3033) with all blanks completed and any applicable riders attached. Because this is a form document, Borrower signatures are not required.

(iii)The original Consolidated Note

An original Note executed by the Borrower and endorsed in blank. The Consolidated Note must be the most current version of the applicable Single-Family Fannie Mae/Freddie Mac Uniform Note with all blanks completed and any applicable addendum or addenda. The Consolidated Note must have the following language, as applicable, inserted at the top of the document:

- For Fixed-Rate Notes:

Consolidated Note

This Note amends and restates in their entirety, and is given in substitution for, the Notes described in Exhibit A of the New York Consolidation, Extension and Modification Agreement dated the same date as this Note.

- For Adjustable-Rate Notes:

Consolidated Adjustable-Rate Note

This Note amends and restates in their entirety, and is given in substitution for, the Notes described in Exhibit A of the New York Consolidation, Extension and Modification Agreement dated the same date as this Note.

(c) Mortgage file requirements

With respect to Mortgages documented with the NY CEMA, Seller represents and warrants that the Mortgage file contains the documentation required by Sections 3301.3, 3302.2 and 3401.3.

4101.6: Availability of Uniform Instruments (02/01/23)

Fannie Mae/Freddie Mac Uniform Instruments (including condominium rider and Planned Unit Development (PUD) rider forms) and Freddie Mac-specific Uniform Instruments are available from Freddie Mac's website at <https://sf.freddiemac.com/tools-learning/uniform-instruments/2021-updated-instruments>.

Sellers may reprint the Uniform Instruments on their own letterhead, by computer or in any other way that Sellers may choose. However, the text of the Uniform Instruments must remain unchanged and the tagline that identifies the instrument as a Uniform Instrument must remain part of the document and be included on each page.

4101.7: Seller's duties regarding Uniform Instruments (03/02/16)

The Seller agrees that any action taken when enforcing its rights under the Mortgage documents will not violate the terms of any covenant in the Mortgage documents. The Seller also agrees to enforce its rights under the Uniform Instruments based on instructions or guidance provided by Freddie Mac.

4101.8: Signatures required (02/01/23)

The Security Instrument must be signed by all individuals with an ownership interest in the Mortgaged Premises. (See Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application, for permissible changes to the Fannie Mae/Freddie Mac Uniform Instruments.) The Security Instrument must also be signed by each individual whose signature is necessary under the applicable statutory or decisional law of the State to create a valid lien, pass clear title, waive inchoate rights to property or assign earnings. The Note or applicable assumption agreement must be signed by any individual whose income or financial strength is needed to meet the Freddie Mac credit underwriting guidelines. If the Mortgage is delivered as an owner-occupied Mortgage, the Note must be signed by an Owner-Occupant.

Refer to Section 5103.5(5) for information on signatures required and forms of signature if a Borrower is a Living Trust and Section 5103.7(b) for a Land Trust Mortgage.

4101.9: Execution, acknowledgment and recordation of the Security Instrument (03/02/16)

The Security Instrument must be properly executed, acknowledged, delivered and recorded in all places necessary to perfect a First Lien security interest in the Mortgaged Premises in favor of the mortgagee.

If a Mortgage is registered with MERS® and is originated naming MERS as the original mortgagee of record, solely as nominee for the lender named in the Security Instrument and the Note, and the lender's successors and assigns, the Seller must ensure that the Security Instrument is properly executed, acknowledged, delivered and recorded in all places necessary to perfect a First Lien security interest in the Mortgaged Premises in favor of MERS, solely as nominee for

the lender named in the Security Instrument and the Note, and the lender's successors and assigns.

Refer to Section 1301.7 for specific representations and warranties with respect to MERS registration for Mortgages purchased by Freddie Mac.

4101.10: Due-on-sale provisions (02/01/23)

(a) Description of due-on-sale clauses

The Uniform Instruments include provisions governing whether the loan will be accelerated if the Borrower sells or transfers the Mortgaged Premises or any interest in the Mortgaged Premises, or whether instead the loan may be assumed by a third party who acquires the Mortgaged Premises or any interest in the Mortgaged Premises by sale or transfer. These provisions are sometimes referred to as "due-on-sale" clauses. Uniform Instruments for different Mortgage products may have different due-on-sale clauses. The type of due-on-sale clause set forth in the Uniform Instruments used to originate a particular Mortgage determines whether or not the Mortgage is assumable by the party to whom the Mortgaged Premises is transferred.

The Uniform Instruments used in connection with the origination of ARMs contain due-on-sale provisions governing whether the loan will be accelerated if the Borrower sells or transfers the Mortgaged Premises or any interest in the Mortgaged Premises, or whether instead the loan may be assumed by a third party who acquires the Mortgaged Premises or any interest in the Mortgaged Premises.

(b) Types of due-on-sale clauses

(i) Nonassumable during the life of the loan

Some due-on-sale clauses provide that the lender will require immediate payment in full of all sums secured by the Security Instrument (generally referred to as accelerating the loan) if the Borrower sells or transfers the Mortgaged Premises. The effect of this type of due-on-sale clause is that the Mortgage is nonassumable for the life of the loan. The Uniform Instruments used with fixed-rate Mortgages include this type of due-on-sale clause.

(ii) Assumable during the life of the loan

Some due-on-sale clauses state that the lender will not accelerate the loan if the lender evaluates the proposed sale or transfer as if a new loan were being made to the intended transferee, and if the lender determines the lender's security would not be impaired by the loan assumption. The effect of this type of due-on-sale clause is that the Mortgage is

assumable for the life of the loan. Freddie Mac makes available ARM Uniform Instruments for all ARM indices that include this type of due-on-sale clause.

(iii) Assumable until a specified event, then nonassumable

Some due-on-sale clauses provide that the loan is assumable until the occurrence of a specified event, but after that specified event has occurred, the loan is nonassumable.

(iv) Nonassumable during a specified period of time and assumable thereafter

Some due-on-sale clauses provide that during an initial specified period of time the loan is nonassumable, but after that specified period of time, the loan is assumable provided certain conditions are met. With respect to an ARM, the specified period of time is the end of the Initial Period. ARMs must be assumable during the entire period during which the interest rate is adjustable.

Freddie Mac makes available ARM Uniform Instruments for 6-Month SOFR-indexed ARMs that include this type of due-on-sale clause, and the Mortgages become assumable after the end of the Initial Period when the Note Rate begins to adjust.

(v) Nonassumable during a specified period of time and thereafter assumable until a specified event, and then nonassumable

Some due-on-sale clauses provide (i) an initial specified period during which the Mortgage is nonassumable, (ii) after the initial specified period of time, the loan is assumable provided certain conditions are met, and (iii) upon the occurrence of a specified event, the loan is nonassumable.

(c) Summary of due-on-sale characteristics

Fixed-rate Mortgages must be originated as follows:

- For all fixed-rate Mortgages other than those listed in the bullet below, on Uniform Instruments that provide for the Mortgage to be nonassumable
- For fixed-rate assumable Mortgages sold under the Guarantor program, on Uniform Instruments that provide for the Mortgage to be nonassumable and were executed with a Note Addendum and a Security Instrument Rider that provide for the Mortgage to be assumable subject to certain conditions (an “Assumable Mortgage”). The Note Addendum and Security Instrument Rider are available on Freddie Mac’s Uniform Instrument web page at <https://sf.freddiemac.com/tools-learning/uniform-instruments/2021-updated-instruments>.

The Seller must obtain Freddie Mac’s written approval before selling Assumable Mortgages to Freddie Mac by contacting its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE.

All 6-Month SOFR-indexed ARMs may be originated on Uniform Instruments that provide either for the Mortgage to be assumable during the life of the Mortgage or for the Mortgage to be nonassumable during the Initial Period and assumable thereafter.

For eligible Mortgage products that are not originated on Uniform Instruments, such as FHA/VA Mortgages, the due-on-sale characteristics may be different from those specified above.

(d) Exceptions for applicable laws and certain circumstances

Regardless of the type of due-on-sale clause stated in the Uniform Instrument used to originate a Mortgage, Freddie Mac will permit a Mortgage, which under its terms is nonassumable, to be assumed if required by federal or State law or under the circumstances as described in Sections 8406.4 and 8406.5.

4101.11: Advances (03/02/16)

(a) Future advances made before purchase

Freddie Mac will purchase Home Mortgages on which future advances have been made before the Delivery Date, provided that:

- The advances have been consolidated with the outstanding principal amount secured by the Mortgage, and the secured principal amount, as consolidated, bears a single interest rate and repayment term
- The lien securing the consolidated principal amount is expressly insured as having First Lien priority by a title insurance policy, by an endorsement to the policy insuring the consolidated mortgagee's interest or by other title evidence acceptable to Freddie Mac as specified in this Guide
- The consolidated principal amount does not exceed the original loan amount

Sellers originating Mortgages on Uniform Instruments that do not contain a covenant permitting future advances, and who wish to allow future advances, may execute a rider permitting future advances. The rider must contain language providing that the terms shall have no force or effect subsequent to a specified date which must be before the sale of the Mortgage, in whole or in part, to Freddie Mac. In addition, the rider must contain the following provision:

Notwithstanding the foregoing provisions, the ability of the lender, its successors and assigns, to enforce the repayment of future advances made prior to the sale of the Mortgage to Freddie Mac shall remain in full force and effect.

(b) Advances made after purchase

On Home Mortgages that have been sold to Freddie Mac, in whole or in part, the Seller or Servicer may not make additional advances.

Chapter 4201: General Mortgage Eligibility

4201.1: Investment quality Mortgage (07/01/21)

Effective for Mortgages with Application Received Dates on or after July 1, 2021, and all Mortgages with Settlement Dates after August 31, 2021, unless otherwise stated.

An investment quality Mortgage is a Mortgage that is made to a Borrower from whom repayment of the debt can be expected, is adequately secured by real property and is originated in accordance with the requirements of the Purchase Documents. The Seller warrants that all Mortgages sold to Freddie Mac have the characteristics of an investment quality Mortgage and that all ATR Covered Mortgages sold to Freddie Mac satisfy the QM requirements in the Revised General QM Rule.

4201.2: Mortgage valid First Lien; no prior liens; Mortgage not modified (03/02/16)

The Mortgage must be a valid First Lien on the Mortgaged Premises. The Mortgaged Premises must be free and clear of all prior liens and encumbrances and no rights or condition may exist that could give rise to such liens, except for:

- Liens for real estate taxes and special assessments not yet due and payable
- Rights and conditions specified in Section 4702.4

The Mortgage must be a legal, valid and binding obligation of the Borrower, enforceable according to its terms and conditions, and free from any right of setoff, counterclaim or other claim or defense. No part of the Mortgaged Premises may have been released from the Mortgage.

The terms of the Mortgage may not in any material manner have been modified, amended or in any way waived or changed, except as permitted by Freddie Mac for Mortgages eligible for sale as Construction Conversion Mortgages or Renovation Mortgages which use Modification Construction Conversion Documentation, Seller-Owned Converted Mortgages, Seller-Owned Modified Mortgages or refinance Mortgages secured by property in New York State that are documented using a New York Consolidation, Modification and Extension Agreement.

4201.3: Amortization (03/02/16)

The Note must provide for full amortization by maturity through regular monthly payments. Amortization must begin no later than 62 days after final disbursement of the Mortgage proceeds.

4201.4: Term (07/01/21)

The original maturity of all Mortgages delivered to Freddie Mac must not exceed 30 years from the Origination Date. For the 10-year program, the original maturity of the Mortgage must be greater than 84 months and must not exceed 10 years from the Origination Date. For the 15-year program, the original maturity of the Mortgage must be greater than 84 months and must not exceed 15 years from the Origination Date. For the 20-year program, the original maturity must be greater than 15 years and must not exceed 20 years from the Origination Date. For the 30-year program, the original maturity of the Mortgage must be greater than 15 years and must not exceed 30 years from the Origination Date.

For Construction Conversion Mortgages or Renovation Mortgages, the term must start on the Effective Date of Permanent Financing.

4201.5: Closed Mortgages and Settlement Date requirements (05/03/23)

(a) Closed Mortgages

The Mortgage must be closed before delivery to Freddie Mac. Final disbursement of the Mortgage proceeds constitutes closing of the Mortgage. Construction Conversion and Renovation Mortgages must be delivered after the Effective Date of Permanent Financing. The Mortgage must be closed in the Seller's name as lender or validly assigned and endorsed to the Seller as a holder-in-due-course.

(b) Settlement Date requirements

Except as provided in Section 4201.5(c), the Settlement Date must occur no more than six months after the:

- Note Date
- Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages

- Modification Date, if the Mortgage is a Seller-Owned Modified Mortgage, or conversion date, if the Mortgage is a Seller-Owned Converted Mortgage. See Chapter 4402 for special eligibility requirements for the purchase of these Mortgages.
- Date of the New York Consolidation, Extension and Modification Agreement (NY CEMA) for a refinance Mortgage secured by property located in New York State documented using the NY CEMA. See Section 4101.5 for eligibility requirements for the purchase of these Mortgages.

(c) Delivery of CHOICERenovation® Mortgages

The Settlement Date for CHOICERenovation Mortgages with Settlement Dates after completion of renovations must comply with the requirements in Section 4607.4(a).

(d) Additional requirements for Mortgages with Settlement Dates more than 120 days after the Note Date

In addition to the requirements in this section, certain Mortgages with Settlement Dates more than 120 days after the Note Date have additional requirements stated elsewhere in the Guide. Refer to:

- Section 5602.3(g) for appraisal waivers
- Section 5604.3(a)(iii) for appraisals
- Sections 5701.1(c)(iv) and 5701.2(b) for Condominium Unit Mortgages
- Section 5705.2(b) for Cooperative Share Loans

4201.6: Principal amount advanced; no mandatory future advances; outstanding balance (03/02/16)

The full principal amount of the Mortgage must have been disbursed or advanced to the Borrower or disbursed or advanced according to the direction of the Borrower. The Borrower may not have an option under the Security Instrument to borrow additional funds secured by the Security Instrument. The outstanding principal balance of the Mortgage must be as represented by the Seller to Freddie Mac and must be fully secured by the Security Instrument.

4201.7: Mortgage not in default (05/03/23)

As of the Freddie Mac Funding Date,

- No part of the Borrower's monthly installment of principal and interest (and, if applicable, monthly Escrow payment) may have been 30 days or more delinquent (see definition of Delinquency)
- There may not have been any other default under the terms and conditions of the Mortgage that remained uncured for 30 days or more after notice of the default to the Borrower

All costs, fees and expenses incurred in making, closing and recording the Mortgage must have been paid. Before the Delivery Date, there must not have been any advance of funds by the Seller or any prior holder of the Mortgage, nor by another at the request of the Seller or any prior holder of the Mortgage, to or on behalf of the Borrower to be used by the Borrower for the payment of any monthly installment, principal, interest or other charge payable under the terms of the Mortgage.

4201.8: Assumption of Mortgage (03/02/16)

A Mortgage not owned by Freddie Mac with respect to which the original Borrower has conveyed the Mortgaged Premises to a new owner is eligible for purchase by Freddie Mac, provided that the new owner is obligated by a written assumption agreement to repay the indebtedness secured by the Mortgaged Premises and has been fully underwritten and qualified according to the requirements of Topics 5100 through 5500 and the provisions of any other Guide sections applicable to the particular Mortgage being assumed. For example, if the Mortgaged Premises is a Manufactured Home, the provisions of Chapter 5703 must be satisfied.

4201.9: Biweekly Mortgages and payment plans (02/05/20)

Effective February 5, 2020, Section 4201.9 is deleted.

4201.10: Wholesale Home Mortgages (06/02/21)

Freddie Mac will purchase Wholesale Home Mortgages under the terms of the Purchase Documents and this section.

For Wholesale Home Mortgages, the Correspondent or Mortgage Broker (or their authorized third parties) may perform all or some of the origination, processing, underwriting, packaging, funding and/or closing functions described in the Purchase Documents as obligations or requirements of the Seller. Although these functions may not be performed directly by the Seller, the Seller is responsible for compliance with all Purchase Documents requirements.

(a) Representations and warranties

The Seller must represent and warrant with respect to each Wholesale Home Mortgage it sells to Freddie Mac that the Seller has management controls in place that:

- Ensure the Mortgage complies with the terms of the Purchase Documents
- Correspond to the scope and types of risks associated with its wholesale business. Factors to be considered include, but are not limited to, the:
 - Number of Correspondents and Mortgage Brokers the Seller uses
 - Length of time the business relationship has been established
 - Types of services provided by the Correspondent or Mortgage Broker

(b) Delivery Instructions

The Seller is required to deliver one of the following ULDD Data Points, as applicable, for each Wholesale Home Mortgage:

- *Loan Originator Type* of “Correspondent,” or
- *Loan Originator Type* of “Broker”

4201.11: Location of the Mortgaged Premises (03/31/22)

Effective March 31, 2022, Section 4201.11 is deleted. Refer to Section 5601.1(a) for additional information regarding eligibility requirements.

4201.12: General property insurance requirements (06/10/20)

The requirements of Chapters 8202 and 4703 for property and casualty insurance must be met at the time a Mortgage is sold to Freddie Mac and continually thereafter for as long as Freddie Mac owns an interest in the Mortgage.

4201.13: No circumstances adversely affecting value of Mortgage (03/02/16)

No proceeding may be pending for condemnation of all or any part of the Mortgaged Premises. There may be no circumstances or conditions of which the Seller is aware involving the Mortgage, the Mortgaged Premises or the creditworthiness of the Borrower that would adversely affect the value or marketability of the Mortgage.

4201.14: Mortgages secured by Primary Residences (04/06/22)

Except as stated below for active-duty military Borrowers, a Mortgage will not qualify to be an owner-occupied property Mortgage unless the Borrower is an individual or individuals, and at least one of the Borrowers is, as of the Delivery Date, occupying all or part of the Mortgaged Premises as a Primary Residence. For Manually Underwritten Mortgages, when the loan-to-value ratio is greater than 90%, each Borrower whose income or financial strength was used for qualification purposes must, as of the Delivery Date, occupy all or part of the Mortgaged Premises as a Primary Residence.

A Mortgage to an active-duty military Borrower who is unable to occupy the Primary Residence prior to the Delivery Date due to military service is considered an owner-occupied property Mortgage. The Mortgage file must contain the Borrower's military orders verifying the Borrower is temporarily unable to occupy the Primary Residence due to the military assignment. See Section 6302.8 for delivery requirements for Mortgages to active-duty military Borrowers unable to occupy the property as a Primary Residence due to military service.

Rental income generated from a Mortgage secured by a Primary Residence is not permitted to qualify the Borrower, except as stated in Section 4501.9 and Chapter 5306.

Refer to Section 5103.1 for requirements when the Mortgage includes a non-occupying borrower.

Refer to Section 4408.2 for a special occupancy requirement for Mortgages made pursuant to employee relocation programs.

Refer to Section 4607.3(b) for a special occupancy requirement for CHOICERenovation® Mortgages delivered pursuant to Section 4607.1(b).

4201.15: Second home Mortgages (05/04/22)

Freddie Mac will purchase Mortgages secured by second homes under the terms of the Purchase Documents and this section.

(a) Eligibility requirements

The following eligibility requirements apply to second home Mortgages:

- The Mortgage must be secured by a 1-unit property
- The Borrower must occupy the second home for some portion of the year
- The Borrower must keep the property available primarily (i.e., more than half of the calendar year) for the Borrower's personal use and enjoyment
- The Borrower may rent the property on a short-term basis provided that the property is not subject to any rental pools or agreements that require the Borrower to rent the property, give a management company or entity control over the occupancy of the property or involve revenue sharing between any owners and the developer or another party
- The Mortgaged Premises must be in such a location to function reasonably as a second home
- The second home must be suitable for year-round occupancy with the following exception: a second home with seasonal limitations on year-round occupancy (e.g., lack of winter accessibility) is eligible provided the appraiser includes at least one comparable sale with similar seasonal limitations to demonstrate the marketability of the subject property. See Section 5601.1 for property eligibility requirements.
- The property must not be subject to any timesharing or other shared ownership arrangement

Freddie Mac's determination of whether a property is a second home is conclusive. A 2-unit property used as a second home is considered an Investment Property and must meet all of the requirements of Section 4201.16.

A Mortgage secured by a second home must be an Accept Mortgage to be eligible for delivery.

(b) Special underwriting requirements

Each second home Mortgage must meet the following requirements:

- (i) For newly constructed homes that are purchase transactions, the Borrower may not be affiliated with or related to the builder, developer or the property seller
- (ii) Each Borrower individually and all Borrowers collectively must not be obligated on (e.g., Notes, land contracts and/or any other debt or obligation) more than 10 1- to 4-unit

financed properties, including the subject property and the Borrower's Primary Residence, provided that, when the number of 1- to 4-unit financed properties (including the subject property and the Borrower's Primary Residence) is greater than six, the Mortgage must have a minimum Indicator Score of 720. Examples of financed properties that do not have to be counted in these limitations include:

- Commercial real estate
- Multifamily (five or more units) real estate
- Timeshares
- Undeveloped land
- Manufactured homes not titled as real property (chattel lien), unless the property is situated on the land that is titled as real property
- Property titled in the name of the Borrower's business provided that the Borrower, in his or her individual capacity, is not obligated on Notes, land contracts and/or any debt or obligation related to such property
- Property titled in the name of a trust where the Borrower is a trustee, provided that the Borrower, in his or her individual capacity, is not obligated on Notes, land contracts and/or any debt or obligation related to such property

- (iii) The reserves requirements in Sections 5501.2 and 5501.3 must be met
- (iv) Rental income from the Borrower's second home may not be considered as stable monthly income in the credit qualification analysis
- (v) The monthly housing expense related to a Borrower's current Primary Residence must be used in computing the Borrower's monthly housing expense-to-income ratio
- (vi) The monthly payment amount (as described in Section 5401.2) on the second home must be considered in calculating the Borrower's monthly debt payment-to-income ratio

(c) Other requirements

Form 3890, Multistate Second Home Rider, is required for all Mortgages secured by second homes.

(d) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to second home Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

4201.16: Investment Property Mortgages (02/01/23)

Freddie Mac will purchase Investment Property Mortgages under the terms of the Purchase Documents and this section.

(a) Eligible Mortgages

- (i) Each Investment Property Mortgage must comply with Section 4203.4
- (ii) Each Investment Property Mortgage must be an Accept Mortgage
- (iii) Mortgages with temporary subsidy buydowns are not eligible for delivery as Investment Property Mortgages
- (iv) Freddie Mac will purchase Investment Property Mortgages made to Borrowers who own more than one financed Investment Property, provided that the Investment Property Mortgage being sold to Freddie Mac is:
 - An eligible fixed-rate, level-payment Mortgage, or
 - A 7/6-Month or 10/6-Month ARM

(b) Special underwriting requirements

An Investment Property Mortgage delivered to Freddie Mac must meet the following special underwriting requirements:

- (i) For newly constructed homes that are purchase transactions, the Borrower may not be affiliated with or related to the builder, developer or property seller. For these purposes, “affiliated with” means that the Borrower may not have an ownership interest in or employment with the builder, developer or property seller.
- (ii) Each Borrower individually and all Borrowers collectively must not be obligated on (e.g., Notes, land contracts and/or any other debt or obligation) more than 10 1- to 4-unit financed properties, including the subject property and the Borrower’s Primary Residence, provided that, when the number of 1- to 4-unit financed properties (including the subject property and the Borrower’s Primary Residence) is greater than six, the Mortgage must have a minimum Indicator Score of 720. Examples of financed properties that do not have to be counted in these limitations include:
 - Commercial real estate
 - Multifamily (five or more units) real estate
 - Timeshares

- Undeveloped land
 - Manufactured homes not titled as real property (chattel lien), unless the property is situated on the land that is titled as real property
 - Property titled in the name of the Borrower's business provided that the Borrower, in his or her individual capacity, is not obligated on Notes, land contracts and/or any debt or obligation related to such property
 - Property titled in the name of a trust where the Borrower is a trustee, provided that the Borrower, in his or her individual capacity, is not obligated on Notes, land contracts and/or any debt or obligation related to such property
- (iii) The monthly housing expense related to the Borrower's current Primary Residence must be used in calculating the Borrower's monthly housing expense-to-income ratio
- (iv) Regardless of whether rental income from the Mortgaged Premises is used in qualifying, the reserves requirements in Sections 5501.2 and 5501.3 must be met
- (v) Refer to Chapter 5306 for requirements related to rental income
- (vi) Gift funds, gift of equity or grants, as described in Section 5501.3(c) are not permitted

(c) Additional documentation requirement

An Investment Property Mortgage must be originated using the 1-4 Family Rider, Form 3170. See Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application, Section VIII for authorized changes to the 1-4 Family Rider for Investment Property Mortgages.

(d) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to Investment Property Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

4201.17: Purchase requirements for Mortgages secured by properties with resale restrictions (11/05/18)

Effective November 5, 2018, the content of Section 4201.17 has been moved to Chapter 4406 and Section 4201.17 has been deleted.

Freddie Mac will purchase Mortgages secured by properties subject to resale restrictions including, but not limited to, income-based resale restrictions and age-based resale restrictions (such as senior housing or units restricted to one or more occupants age 55 and over), if the requirements of Chapter 4406 are met.

4201.18: Impact of Contaminated Sites (03/31/22)

If the Seller knows of the existence of a Contaminated Site in the neighborhood where the property is located, it must do all of the following:

- Inform the appraiser of such a site when ordering the appraisal (see Section 5603.3(a))
- Form an opinion on the impact that such a site may have on the investment quality of the Mortgage
- Document the Mortgage file with a description of the site and its location relative to the property and the Seller's opinion on the investment quality of the Mortgage

4201.19: Legal description requirements (03/31/22)

Effective March 31, 2022, Section 4201.19 is deleted. Refer to Section 5605.3(a) for additional information about legal description requirements.

4201.20: Blanket Mortgages (03/31/22)

Effective June 2, 2021, Section 4201.20 is deleted. Refer to Section 5601.6 for two or more adjoining parcels eligibility requirements.

4201.21: Land Trusts (12/14/17)

Effective December 14, 2017, this section is deleted. Refer to Section 5103.7 for Land Trust Mortgage eligibility requirements.

4201.22: Cooperative Share Loans (05/04/20)

Effective May 4, 2020, Section 4201.22 is deleted.

4201.23: Escrow accounts (11/07/19)

(a) Escrow requirements

Freddie Mac does not require Escrow accounts except with respect to the collection of Borrower-paid mortgage insurance paid monthly as described in Section 4701.2 and when required by applicable law.

(b) Seller policy for not requiring Escrow accounts

Sellers that sell Mortgages without Escrow accounts must establish and maintain a written policy for determining when Escrow accounts are not required. The Seller's determination that Escrow accounts are not required for a Mortgage must be based on the evaluation of the Borrower's ability to make all payments for the expenses to be paid under the Mortgage as they become due. These expenses include, but are not limited to, taxes, special assessments, ground rents and other charges that are or may become First Liens on the Mortgaged Premises, as well as property insurance premiums. Sellers may not waive the requirement for Escrow accounts with respect to collection of Borrower-paid mortgage insurance and when Escrows are required by law.

(c) Best practices

Although not required, Freddie Mac encourages Sellers to require Escrows for the following Mortgages:

- Mortgages to Borrowers that are First-Time Homebuyers
- Home Possible® Mortgages
- HomeOne® Mortgages
- Mortgages secured by 2- to 4-unit properties
- Mortgages secured by Manufactured Homes
- Second home Mortgages
- Investment Property Mortgage
- Mortgages where the Borrower has less than six months of reserves
- Refinance Mortgages where taxes were past due on the Mortgage being refinanced

Chapter 4202: Responsible Lending

4202.1: Compliance with law (07/01/21)

(a) Applicable law

The Mortgage and the Servicing of the Mortgage, Mortgage transaction and the Mortgaged Premises must be in compliance with all requirements of all applicable federal, State and local laws, rules and regulations including, without limitations, truth-in-lending laws, licensing laws, doing-business laws, usury laws and anti-predatory lending and similar laws. Any right of rescission involving the Mortgage under such laws, rules or regulations must have expired.

(b) Compliance with QM requirements

Effective for Mortgages with Application Received Dates on or after July 1, 2021, and all Mortgages with Settlement Dates after August 31, 2021, unless otherwise stated.

In addition to ensuring compliance with applicable laws, Sellers must ensure that all ATR Covered Mortgages satisfy the QM requirements of the Revised General QM Rule, even if the Seller is not required by law or regulation to comply with the Revised General QM Rule.

Refer to Section 4202.6 for additional information about the ATR/QM Rule requirements.

4202.2: State anti-predatory lending laws and regulations (03/02/16)

Mortgages secured by Mortgaged Premises in the following States that are designated as “high-cost,” “high-risk” or similar Mortgages are not eligible for purchase by Freddie Mac:

- **Arkansas:** Mortgages with Note Dates on or after July 17, 2003 that are “high-cost home loans” under the Arkansas Home Loan Protection Act, A.C.A. § 23-53-101, et seq.
- **Colorado:** Mortgages with Note Dates on or after January 1, 2003 that are “covered loans” under the Consumer Equity Protection Act, C.R.S. 5-3.5-101, et seq.
- **Georgia:** Mortgages with Note Dates between October 1, 2002 and March 7, 2003 that are governed by the Georgia Fair Lending Act, O.C.G.A. § 7-6A-1, et seq., and Mortgages with Note Dates on and after March 7, 2003 that are “high-cost home loans”
- **Illinois:** Mortgages with Note Dates on or after January 1, 2004 that are “high-risk home loans” under the High-Risk Home Loan Act, 815 ILCS 137/1, et seq.

- **Indiana:** Mortgages with Note Dates on or after January 1, 2005 that are “high cost home loans” under Article 9 (Home Loan Practices) of the Indiana Code concerning trade regulations; consumer sales and credit, Burns Ind. Code Ann. § 24-9-1-1, et seq.
- **Kentucky:** Mortgages with Note Dates on or after June 25, 2003 that are “high-cost home loans” under the Kentucky Revised Statutes Chapter 360, KRS § 360.100
- **Maine:** Mortgages with Note Dates on or after September 13, 2003 that are “high rate, high fee mortgages” under Article 8-A (the Maine Consumer Credit Code – Truth-in-Lending), 9-A MRSA § 8-501, et seq.
- **Massachusetts:** Mortgages with Note Dates on or after November 7, 2004 that are “high cost home mortgage loans” under the Predatory Home Loan Practices Act, ALM GL ch. 183C, § 1, et seq.
- **New Jersey:** Mortgages with Note Dates on or after November 27, 2003 that are “high-cost home loans” under the New Jersey Home Ownership Security Act of 2002, N.J. Stat. § 46:10B-22, et seq.
- **New Mexico:** Mortgages with Note Dates on or after January 1, 2004 that are “high-cost home loans” under the Home Loan Protection Act, N.M. Stat. Ann. § 58-21A-1, et seq.
- **New York:** Mortgages with initial application dates after April 1, 2003 that are “high-cost home loans” under the New York Banking Law, NY CLS Bank § 6-1. In addition, Mortgages with Note Dates on or after September 1, 2008 that are “subprime home loans” under the New York Banking Law, NY CLS Bank § 6-m.
- **Oklahoma:** Mortgages with Note Dates on or after January 1, 2004 that are “subsection 10 mortgages” under Article 1, Part 3 of the Consumer Credit Code, 14A Okl. St. § 1-301
- **Rhode Island:** Mortgages with Note Dates on or after December 31, 2006 that are “high-cost home loans” under the Rhode Island Home Loan Protection Act, R.I. Gen. Laws § 34-25.2-1, et seq.
- **Tennessee:** Mortgages with Note Dates on or after January 1, 2007 that are “high-cost home loans” under the Tennessee Home Loan Protection Act, Tenn. Code Ann. § 45-20-101, et seq.

Such Mortgages are ineligible for purchase by Freddie Mac regardless of whether the lender and/or Seller/Servicer enjoys preemption based on its charter or whether the law provides for an exemption for particular lenders and/or Seller/Servicers based on their charters or for particular Mortgages based on their purchase by Freddie Mac or another entity.

In addition, the Seller/Servicer represents and warrants that:

- It has in place policies and procedures based on the requirements of each law identified above to ensure that it does not inadvertently deliver an ineligible Mortgage to Freddie Mac for purchase

- It has received representations and warranties from any person or entity from which the Seller purchased the Mortgage that they are not “high-cost,” “high-risk” or similar Mortgages under the laws identified above, and
- No person, with the intent to avoid the application or evade the provisions of one of the laws identified above, divided a loan transaction into separate parts (by creating a concurrent subordinate lien or otherwise) or performed any other subterfuge

4202.3: Predatory lending practices (07/01/21)

Freddie Mac actively opposes predatory lending and has implemented a number of policies designed to combat it. Freddie Mac-approved Seller/Servicers should have policies designed to identify and avoid predatory lending practices.

To further implement certain Freddie Mac anti-predatory lending policies, when selling a Mortgage to Freddie Mac, a Seller represents and warrants with respect to Mortgages with Application Received Dates on or after January 10, 2014:

- Compliance with the requirements of Sections 1301.2, 4202.1, 4202.2, 4202.4, 4202.5, 4202.6, 4202.7, 4202.9, and 4301.2; and
- No Borrower who qualified for a lower-cost loan product has been “steered” to a higher-cost loan product. A Seller should offer or direct applicants who seek financing through the Seller’s higher-priced subprime or non-prime lending channel toward its standard Mortgage line if the applicants qualify for one of the standard products.

For additional information regarding Freddie Mac anti-predatory lending requirements, see the following locations:

Topic	Location
Compliance With Applicable Law	Section 1301.2
Anti-Predatory Lending Laws and Regulations	Section 4202.2
Home Ownership and Equity Protection Act of 1994 (HOEPA) Mortgages	Section 4202.4
Higher-Priced Mortgage Loans and Higher-Priced Covered Transactions	Section 4202.5
Credit Insurance — Single-Premium Credit Insurance	Section 4202.7

Underwriting the Borrower	Topics 5100 - 5500
Credit Reporting Requirements	Section 8106.6

4202.4: HOEPA Mortgages (03/02/16)

For Primary Residences, purchase transaction Mortgages and refinance Mortgages that exceed the thresholds under the Home Ownership and Equity Protection Act of 1994 (HOEPA) and its implementing regulations are ineligible for purchase by Freddie Mac.

4202.5: Higher-Priced Mortgage Loans and Higher-Priced Covered Transactions (07/01/21)

For Mortgages with Application Received Dates on or after October 15, 2014, Freddie Mac will purchase Higher-Priced Mortgage Loans (HPMLs) and Higher-Priced Covered Transactions (HPCTs), as defined in the Glossary, under the terms of the Purchase Documents and this section.

HPMLs and HPCTs eligible for sale to Freddie Mac must be one of the following Mortgage Products:

- A fixed-rate Mortgage
- An ARM with an Initial Period of five, seven or ten years

For additional information regarding Freddie Mac HPML and HPCT requirements, see the following locations:

4202.6: ATR/QM Rule eligibility and compliance (10/01/21)

This section provides the requirements related to the ATR/QM Rule and specifies which Mortgages Freddie Mac will purchase and under what conditions those Mortgages will be purchased.

Note: For ATR Covered Mortgages originated under the GSE Patch, Construction Conversion Mortgages that are documented using Integrated Documentation or Modification Documentation without a new Note for the permanent financing with Application Received Dates prior to July 1, 2021 and Settlement Dates before March 1, 2022 are eligible for sale to Freddie Mac if originated in accordance with the GSE Patch.

- Definitions related to the ATR/QM Rule (Section 4202.6(a))
- Eligibility requirements for ATR Covered Mortgages and Exempt Mortgages (Section 4202.6(b))
- Points and fees limitations (Section 4202.6(c))
- APR/APOR threshold limitations (Section 4202.6(d))
- Term – Interim Construction Financing (Section 4202.6(e))
- Life of loan representation and warranty (Section 4202.6(f))
- Determination of regulatory compliance with the ATR/QM Rule (Section 4202.6(g))
- Responsible lending (Section 4202.6(h))
- Government funded, guaranteed or insured Mortgages (Section 4202.6(i))
- Assumptions (Section 4202.6(j))
- Other Guide provisions related to the ATR/QM Rule (Section 4202.6(k))
- Related Guide Bulletins (Section 4202.6(l))

(a) Definitions related to the ATR/QM Rule

The following chart contains definitions related to the ATR/QM Rule and are incorporated within this section for ease of use. The definitions are also contained in the Glossary.

Term	Definition
ATR Covered Mortgage	An ATR Covered Mortgage is a consumer credit transaction secured by a dwelling that is covered by the ATR/QM Rule and is not an Exempt Mortgage.
ATR/QM Rule	Regulation Z's Ability to Repay (ATR) rule (12 C.F.R. § 1026.43) that implements the Truth-in-Lending Act's provisions requiring a creditor to determine a borrower's ability to repay a Mortgage loan. QMs are a subset of loans under the ATR requirements.
Exempt Mortgage	<p>There are two classifications of Exempt Mortgages, as follows:</p> <ul style="list-style-type: none"> ■ TILA Exempt Mortgage: A TILA Exempt Mortgage is a Mortgage exempt from TILA and, as such, is exempt from the ATR requirements in Regulation Z. TILA Exempt Mortgages include business purpose loans as defined in 12 C.F.R. § 1026.3. ■ ATR Exempt Mortgage: An ATR Exempt Mortgage is a Mortgage that is exempt from the ATR requirements in Regulation Z as set forth in 12 C.F.R. § 1026.43(a)(3)
GSE Patch	GSE Patch refers to the Consumer Financial Protection Bureau (CFPB) temporary QM rule definition in Regulation Z, 12 C.F.R. § 1026.43(e)(4), that became effective January 10, 2014, under which Mortgages were considered to be QMs if they satisfied certain requirements and were eligible for purchase by Freddie Mac.
PSPA	Amended Senior Preferred Stock Purchase Agreement by and between Freddie Mac and the Treasury.
QM	A qualified mortgage as defined in the ATR/QM Rule.
Revised General QM Rule	Revised General QM Rule refers to the CFPB QM rule in Regulation Z, 12 C.F.R. § 1026.43(e)(2) that became effective on March 1, 2021.

(b) Eligibility requirements for ATR Covered Mortgages and Exempt Mortgages

(i) ATR Covered Mortgages

All ATR Covered Mortgages must meet the requirements of the Revised General QM Rule.

Revised General QM Rule Requirement Reference Summary¹	
Regulatory Reference²	Requirement
1026.43(e)(2)(i)	Mortgage must be fully amortizing with regular periodic payments that are substantially equal and that do not result in an increase of the principal balance or allow the Borrower to defer repayment of principal.
1026.43(e)(2)(ii)	Mortgage term cannot exceed 30 years.
1026.43(e)(2)(iii)	Mortgage must not exceed the applicable points and fees limitations specified in the Revised General QM Rule.
1026.43(e)(2)(iv)	The monthly payment for mortgage-related obligations must be taken into account when underwriting the Mortgage using: <ul style="list-style-type: none">■ The maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due■ Periodic payments of principal and interest that will repay the loan amount over the loan term
1026.43(e)(2)(v)	Mortgage must meet consider and verify requirements specified in the ATR/QM Rule.
1026.43(e)(2)(vi)	Mortgage must not equal or exceed the applicable APR-APOR QM spread thresholds specified in the Revised General QM Rule.

¹ Chart is included for illustrative purposes only. Sellers remain responsible for compliance with all aspects of the ATR/QM Rule, including the Revised General QM Rule requirements.

² Regulatory Section References are to the Revised General QM Rule at 12 C.F.R. § 1026.43.

(ii) Exempt Mortgages

Exempt Mortgages are not subject to the Revised General QM Rule; however, they must meet:

- Points and fees limitations set forth below for Exempt Mortgages; and

- APR/APOR threshold limitations set forth below for Exempt Mortgages

Sellers are responsible for determining whether or not the Mortgage is an Exempt Mortgage.

(c) Points and fees limitations

Effective for Mortgages with Application Received Dates on or after January 10, 2014

(i) Points and fees limitations for ATR Covered Mortgages

ATR Covered Mortgages with points and fees exceeding 3% of the total loan amount (or such other applicable limits for lower balance Mortgages) as specified under the Truth-in-Lending Act and its implementing regulations, 12 C.F.R. 1026.43(e)(3), will not be eligible for sale to Freddie Mac. Sellers must use the points and fees calculation that is required for QMs under the Truth-in-Lending Act and its implementing regulations that are found at 12 C.F.R. 1026.43(e)(3) and 12 C.F.R. § 1026.32(b) to determine compliance with applicable requirements.

(ii) Points and fees limitations for Exempt Mortgages

Exempt Mortgages will be eligible for sale to Freddie Mac if the following conditions are met:

- Such Mortgages are exempt from Regulation Z, 12 C.F.R. § 1026.43(a) (ATR Exempt Mortgages) or are not subject to the Truth-in-Lending Act (TILA Exempt Mortgages); and
- The points and fees do not exceed 5% of the total loan amount. Sellers must use the points and fees calculation that is required for high-cost Mortgages under the Home Ownership and Equity Protection Act of 1994 and its implementing regulations, 12 C.F.R. § 1026.32(b).

(d) APR-APOR threshold limitations

(i) The permissible spread between the APR and the APOR on the date the interest rate is set depends on ATR coverage:

- **ATR Covered Mortgages:** The Mortgage's APR may not exceed the APOR by 2.25 percentage points or more or such other applicable threshold as specified in the Revised General QM Rule for ATR Covered Mortgages, calculated in accordance with the provisions of that rule; and
- **Exempt Mortgages:** The Mortgage's APR may not exceed the APOR by 6.5 percentage points or more for TILA Exempt and ATR Exempt Mortgages calculated

in accordance with the provisions of the ATR/QM Rule

(ii) Short-term ARMs QM APR Calculation

For all ARMs with an initial fixed period of five years or less that are ATR Covered Mortgages, Sellers must calculate the APR in accordance with the Revised General QM Rule.

Note: When calculating the APR for APR-APOR threshold purposes for 3/6-Month SOFR and 5/6-Month SOFR ARMs that are ATR Covered Mortgages, Sellers must calculate the APR using the maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due.

(e) Term – Interim Construction Financing

Sellers must structure any Interim Construction Financing to be exempt from the ability to repay provisions of Regulation Z, 12 C.F.R. § 1026.43(a)(3) so that the Mortgage term does not exceed 30 years.

(f) Life of loan representation and warranty

Sellers are responsible for representations and warranties related to requirements set forth in Section 4202.6 for the life of the loan and Freddie Mac's rights to exercise remedies related to violations of these requirements will not be waived.

(g) Determination of regulatory compliance with the ATR/QM Rule

Freddie Mac will not make the determination of whether a Mortgage, including a Mortgage assessed through Loan Product Advisor® or Loan Product Advisor Asset and Income Modeler (AIM), or delivered through Loan Selling Advisor®, complies with or is exempt from the ATR/QM Rule, including the Revised General QM Rule, or whether a Seller's designation of the status of a Mortgage under the Revised General QM Rule is correct.

These determinations of compliance with the Revised General QM Rule and other applicable laws are the Seller's responsibility.

(h) Responsible lending

In addition to ensuring compliance with applicable laws, Sellers must ensure that all ATR Covered Mortgages satisfy the QM requirements of the Revised General QM Rule, even if the Seller is not required by law or regulation to comply with the Revised General QM Rule.

(i) Government funded, guaranteed or insured Mortgages

Refer to Chapter 4205 for government funded, guaranteed or insured Mortgages.

(j) Assumptions

Sellers must comply with the Revised General QM Rule with respect to a Borrower's assumption of a Mortgage when the assumption is being used, in whole or in part, to acquire title to the Mortgaged Premises or is otherwise an ATR Covered Mortgage.

(k) Other Guide provisions related to the ATR/QM Rule

Refer to the following Guide provisions for additional information related to ATR/QM Rule eligibility and compliance:

Guide Provision	Guide Location
Compliance with applicable law	Sections 1301.2 and 4202.1
Representation and warranties	Sections 1301.11(II)(a) and 1301.11(II)(c)
Higher Priced Covered Transactions (HPCTs)	Section 4202.5 and Glossary
Investment quality Mortgage	Section 4201.1
Amortization	Section 4201.3
Term	Section 4201.4
ARM qualifying rates	Section 4401.8

Bulletin 2013-16	August 20, 2013

4202.7: Credit insurance (03/02/16)

Freddie Mac will not purchase or securitize any Mortgage if the Borrower obtained a prepaid single-premium credit-life, credit disability, credit unemployment or credit property insurance policy in connection with the origination of the Mortgage, regardless of whether the premium was financed in the Mortgage amount or paid from the Borrower's funds. This prohibition does not apply to credit insurance products where premiums are calculated, earned and paid on a monthly or other regular periodic basis or to prepaid hazard, flood or mortgage insurance policies.

4202.8: Mortgages with private transfer fee covenants (07/01/23)

Mortgages on properties encumbered by private transfer fee covenants prohibited by 12 C.F.R. Part 1228 are ineligible for purchase by Freddie Mac if those covenants were created on or after February 8, 2011.

In addition, the Seller/Servicer represents and warrants that:

- It has controls in place to ensure that it does not inadvertently deliver an ineligible Mortgage to Freddie Mac as described above, and
- If applicable, it has received representations and warranties from any person or entity from which the Seller purchased the Mortgage that the property securing the Mortgage is not encumbered by private transfer fee covenants created on or after February 8, 2011

However, private transfer fees are permissible if all of the following conditions are met for the Mortgage secured by a property encumbered by a private transfer fee:

- The Mortgage is a shared equity loan;
- The Mortgage meets the Duty to Serve shared equity loan program criteria identified in 12 CFR 1282.34(d)(4) (other than the Duty to Serve 100 percent of Area Median Income limit); and

- The Mortgage has a Note Date on or after July 1, 2023 but no later than December 31, 2024

4202.9: Mandatory arbitration (03/02/16)

Freddie Mac will not purchase any Mortgage if any of the Mortgage documents – including the Note, any Note addendum, the Security Instrument or any Security Instrument rider – contain a “mandatory arbitration” clause, that is, a clause that obligates the Borrower to submit to arbitration any dispute arising out of or relating in any way to the mortgage transaction.

Freddie Mac’s Uniform Instruments do not provide for mandatory arbitration, and the addition of a mandatory arbitration clause is not an authorized change to the Uniform Instruments. No ancillary Mortgage document may contain a mandatory arbitration provision.

Chapter 4203: Maximum Loan Amounts and LTV, TLTV and HTLTV Ratios

4203.1: Value (03/31/22)

(a) Loan Product Advisor[®] Mortgages and Non-Loan Product Advisor Mortgages

For a purchase transaction, “value” is the lesser of the appraised value of the Mortgaged Premises as of the appraisal report effective date or the purchase price of the Mortgaged Premises.

For a purchase transaction involving a newly constructed home, multiple contracts may be combined to determine the purchase price of the Mortgaged Premises (for example, a new home purchase contract and a new swimming pool contract may be added together to establish the purchase price).

For a refinance, “value” is the appraised value of the Mortgaged Premises as of the appraisal report effective date.

For certain Loan Product Advisor Mortgage transactions, Freddie Mac may accept the “value” to be the Seller-provided estimate of value or the purchase price as the basis for the underwriting of the Mortgage. See Section 5602.3 for more information on automated collateral evaluation.

The value used to determine the loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios for Freddie Mac Enhanced Relief Refinance[®] Mortgages must be determined in accordance with the requirements in Section 4304.7.

For the value used to determine the LTV, TLTV and HTLTV ratios for Community Land Trust Mortgages, see Section 4502.8.

For the value used to determine the LTV, TLTV and HTLTV ratios for Mortgages subject to resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, see Section 4406.1(g)(ii).

(b) New York State mortgage insurance requirements

Solely for the purpose of determining whether mortgage insurance is required or should be canceled, for Loan Product Advisor and Non-Loan Product Advisor Mortgages, the “value” of Mortgaged Premises located in the State of New York, is the appraised value of the Mortgage Premises on the Note Date. For purchase transaction Cooperative Share Loans, solely for the purpose of determining whether mortgage insurance is required, the

sales price of the Cooperative Interest may be used. If mortgage insurance is required, see Section 4701.5.

(This definition of the “value” of Mortgaged Premises located in the State of New York applies only to the above-stated mortgage insurance requirements and is not applicable for any other purposes under the terms of the Purchase Documents.)

(c) Construction Conversion, Renovation and CHOICERenovation® Mortgages

The value used to determine the LTV, TLTВ and HTLTV ratios for Construction Conversion and Renovation Mortgages, must be determined in accordance with the requirements in Section 4602.10.

The value used to determine the LTV, TLTВ and HTLTV ratios for CHOICERenovation Mortgages must be determined in accordance with the requirements in Section 4607.4.

(d) Mortgages secured by energy and/or water efficient properties

The value used to determine the LTV, TLTВ and HTLTV ratios for GreenCHOICE Mortgages®, must be determined in accordance with the requirements in Section 4606.2.

4203.2: Calculating LTV, TLTВ and HTLTV ratios (07/11/16)

Loan Product Advisor® calculates the loan-to-value (LTV) ratio, total LTV (TLTВ) ratio, and Home Equity Line of Credit (HELOC) TLTВ (HTLTV) ratio based on the data submitted by the Seller.

For Non-Loan Product Advisor Mortgages:

- The LTV ratio is obtained by dividing the First Lien Mortgage amount by value, as defined in Section 4203.1
- The TLTВ ratio is obtained by dividing the sum of the First Lien Mortgage amount and the disbursed amount of the HELOC and any other secondary financing by value, as defined in Section 4203.1
- The HTLTV ratio is obtained by dividing the sum of the First Lien Mortgage amount and the total HELOC credit line limit and any other secondary financing by value, as defined in Section 4203.1

To determine if a Mortgage meets LTV, TLTВ or HTLTV ratio requirements, round each ratio up to the next whole number.

Freddie Mac will calculate the LTV ratio for each Mortgage it purchases based on data delivered by the Seller. Freddie Mac will calculate the LTV ratio to two decimal places and round the result of that calculation up to the next whole number. For example, 94.01% will be rounded up to 95%.

4203.3: Maximum original loan amounts for Home Mortgage purchases (01/01/23)

The following maximum original loan amounts* apply to Home Mortgages with Funding or Settlement Dates on or after January 1, 2023. Except for the Mortgage Products, offerings and characteristics listed below, the loan amount used to determine compliance with the original loan amount limits is the original loan amount:

Number of Units	Maximum Original Loan Amount	Properties in Alaska, Guam, Hawaii or U.S. Virgin Islands
1	\$726,200	\$1,089,300
2	\$929,850	\$1,394,775
3	\$1,123,900	\$1,685,850
4	\$1,396,800	\$2,095,200

*Mortgages with higher loan amounts may be eligible for sale provided they meet the requirements of Chapter 4603.

For the Mortgage Product, offering or characteristic listed below, the loan amount used to determine compliance with the original loan amount limits is stated in the following chart:

Mortgage Product, offering or characteristic	Loan amount to be used to determine compliance with maximum loan amounts
Seller-Owned Modified Mortgages (as described in Chapter 4402 and Section 6302.27)	The loan amount of the Mortgage as stated in the original Note

Mortgage Product, offering or characteristic	Loan amount to be used to determine compliance with maximum loan amounts
Seller-Owned Converted Mortgages (as described in Chapter 4402 and Section 6302.19)	The loan amount of the Mortgage as stated in the ARM Note
Construction Conversion Mortgages and Renovation Mortgages originated using Integrated Documentation (as described in Chapter 4602 and Section 6302.28)	The loan amount of the Interim Construction Financing as stated in the integrated Note for the Interim Construction Financing and Permanent Financing
Construction Conversion Mortgages and Renovation Mortgages originated using Modification Documentation (as described in Chapter 4602 and Section 6302.28)	The higher of (i) the loan amount of the Interim Construction Financing as stated in the Note for the Interim Construction Financing or (ii) the loan amount of the Permanent Financing as stated in the Construction Conversion Modification Agreement
Construction Conversion Mortgages and Renovation Mortgages originated using Separate Documentation (as described in Chapter 4602 and Section 6302.28)	The loan amount of the Permanent Financing as stated in the Note for the Permanent Financing
Mortgages with future advances made before the Delivery Date consolidated with the outstanding principal amount (as described in Section 4101.11(a))	The loan amount of the Mortgage as stated in the original Note (which must be equal to or greater than the consolidated principal amount)
Mortgages with a principal curtailment made before the Delivery Date (as described in Section 6302.32)	The loan amount of the Mortgage as stated in the Note
Mortgages with financed mortgage insurance premiums (as described in Section 4701.2)	The loan amount of the Mortgage as stated in the Note (which includes the financed mortgage insurance premium)

For the Mortgage Products, offerings and characteristics listed in the chart above, the loan amount for purposes of determining compliance with the maximum loan amount limits provided in this section may be different from the amount delivered in the ULDD Data Point

Note Amount and from the amount used to calculate the LTV ratio. See Chapter 6302 for delivery instructions.

4203.4: Maximum LTV, TLTВ and HTLTV ratios (07/06/22)

The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTВ (HTLTV) ratios for the following may differ from those ratios identified in this section and may be found in the Sections listed below:

- Mortgages secured by a Manufactured Home – Section 5703.3(f)
- Home Possible® Mortgages – Section 4501.10
- Freddie Mac HomeOne® Mortgages – Chapter 4605
- Mortgages to Borrowers with a credit history that includes a previous Mortgage foreclosure, a conveyance of a deed-in-lieu of foreclosure, or a short sale – Section 5202.5(a)
- Mortgages that use a Streamlined Project Review – Section 5701.4
- Community Land Trust Mortgages – Section 4502.7
- Freddie Mac Enhanced Relief Refinance® Mortgages – Section 4304.3
- Freddie Mac Refi Possible® Mortgages – Section 4302.5

PURCHASE AND “NO CASH-OUT” REFINANCE MORTGAGES (Fixed-Rate and ARMs)	
Property Type	Maximum LTV/TLTV/HTLTV ratio
1-unit Primary Residence	95%
2-unit Primary Residence	85%
3- and 4-unit Primary Residences	80%
Second home	90%

**PURCHASE AND “NO CASH-OUT” REFINANCE MORTGAGES
(Fixed-Rate and ARMs)**

Property Type	Maximum LTV/TLTV/HTLTV ratio
1-unit Investment Property	85%
2- to 4-unit Investment Property	75%

**CASH-OUT REFINANCE MORTGAGES
(Fixed-Rate and ARMs)**

Property Type	Maximum LTV/TLTV/HTLTV ratio
1-unit Primary Residence	80%
2- to 4-unit Primary Residence	75%
Second home	75%
1-unit Investment Property	75%
2- to 4-unit Investment Property	70%

Note: The minimum Indicator Score requirements for Mortgages sold to Freddie Mac can be found in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

4203.4: Maximum LTV, TLTV and HTLTV ratios (Future effective date 10/02/23)

The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios for the following may differ from those ratios identified in this section and may be found in the Sections listed below:

- Mortgages secured by a Manufactured Home – Section 5703.3(f)

- Home Possible® Mortgages – Section 4501.10
- Freddie Mac HomeOne® Mortgages – Chapter 4605
- Mortgages to Borrowers with a credit history that includes a previous Mortgage foreclosure, a conveyance of a deed-in-lieu of foreclosure, or a short sale – Section 5202.5(a)
- Mortgages that use a Streamlined Project Review – Section 5701.4
- Community Land Trust Mortgages – Section 4502.7
- Freddie Mac Enhanced Relief Refinance® Mortgages – Section 4304.3
- Freddie Mac Refi Possible® Mortgages – Section 4302.5
- HeritageOneSM Mortgages – Section 4504.6

**PURCHASE AND “NO CASH-OUT” REFINANCE MORTGAGES
(Fixed-Rate and ARMs)**

Property Type	Maximum LTV/TLTV/HTLTV ratio
1-unit Primary Residence	95%
2-unit Primary Residence	85%
3- and 4-unit Primary Residences	80%
Second home	90%
1-unit Investment Property	85%
2- to 4-unit Investment Property	75%

**CASH-OUT REFINANCE MORTGAGES
(Fixed-Rate and ARMs)**

Property Type	Maximum LTV/TLTV/HTLTV ratio
1-unit Primary Residence	80%
2- to 4-unit Primary Residence	75%
Second home	75%
1-unit Investment Property	75%
2- to 4-unit Investment Property	70%

Note: The minimum Indicator Score requirements for Mortgages sold to Freddie Mac can be found in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

Chapter 4204: Secondary Financing and Other Financing Arrangements

4204.1: Mortgages with secondary financing (05/04/22)

(a) General requirements

Secondary financing is all financing that is subordinate in lien priority to the First Lien Mortgage. Freddie Mac will purchase First Lien Mortgages with secondary financing under the terms of the Purchase Documents and this section. Terms of any secondary financing must be disclosed to the appraiser and to the MI. The terms of the secondary financing that must be disclosed include, but are not limited to, the Note Rate and the institution or individual providing the financing. The Seller may not indicate a value needed to support the transaction, or provide any information to the appraiser about an expected loan-to-value (LTV) ratio.

Except as specifically stated in Section 4204.2 with respect to Affordable Seconds®, the terms of secondary financing must not permit the provider or another party to share in the appreciation of the Mortgaged Premises (equity sharing).

Secondary financing is not eligible for sale to Freddie Mac.

For special requirements for Affordable Seconds, see Section 4204.2.

(b) Special requirements for new secondary financing

Secondary financing originated concurrently with the First Lien Mortgage (i.e., the First Lien Mortgage and the junior lien are originated on the same day) must meet the following requirements:

■ Maturity date

The maturity date or amortization basis of the junior lien must not be less than five years after the Note Date of the First Lien Mortgage delivered to Freddie Mac, unless the junior lien is fully amortizing or a Home Equity Line of Credit (HELOC). In addition, the junior lien must not contain a call provision within the five-year period, unless the junior lien is a HELOC.

If the secondary financing is an Employer Assisted Homeownership (EAH) Benefit, the terms of the secondary financing may not require repayment in full unless:

1. The Borrower terminates his or her employment for any reason, or
2. The employer terminates the Borrower's employment for any reason other than long-term disability, the elimination of the employee's position or reduction-in-force

- **Scheduled payments**

The terms of the secondary financing must provide for regular monthly payments sufficient to meet the interest due; interest may not accrue.

If the secondary financing is an EAH Benefit and the monthly payment of principal and interest or interest only begins on or after the 61st monthly payment under the First Lien Mortgage or if repayment of the principal is due only upon sale or default, the amount of the monthly payment may be excluded from the monthly housing expense-to-income ratio and monthly debt payment-to-income ratio. Otherwise, the required monthly payment must be included in both the ratios.

- **Documentation requirements**

The Seller must include a copy of the following documentation in the Mortgage file:

- Note or other evidence of subordinate lien terms
- Settlement/Closing Disclosure Statement or an alternative form required by law that evidences the fees and costs paid by the Borrower at closing in connection with the secondary financing
- For HELOCs, the HELOC agreement indicating all fees and costs paid by the Borrower at closing, and the maximum permitted credit advance

See Section 4302.5 for special requirements for Refi Possible® Mortgages with new secondary financing.

(c) Special requirements for existing secondary financing

Freddie Mac will purchase First Lien refinance Mortgages with existing junior liens (including HELOCs) that are not paid off from the proceeds of the refinance Mortgage provided that:

- Evidence of subordination of outstanding secondary financing is retained in the Mortgage file
- The junior lien has scheduled payments sufficient to meet the interest due

(d) Credit Fees and other delivery instructions for Mortgages with secondary financing

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to Mortgages with secondary financing. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

See Section 6302.34 for delivery instructions for Mortgages with secondary financing.

4204.2: Affordable Seconds® (07/05/23)

(a) Special requirements for Affordable Seconds®

Affordable Seconds must comply with the requirements of Section 4204.1(a) and the requirements of this section regardless of whether the Affordable Second is originated concurrently with the First Lien Mortgage (i.e., the First Lien Mortgage and the Affordable Second are originated on the same day) or the Affordable Second is being subordinated to the First Lien Mortgage in a refinance transaction. A checklist for Affordable Seconds is available as an additional resource at

https://sf.freddiemac.com/content/_assets/resources/pdf/factsheet/affordable_seconds_guidelines_factsheet.pdf.

The special requirements in Section 4204.2(b) must be met if:

- The proceeds of an Affordable Second are used to subsidize the sales price of a property and, as a result, the property becomes subject to income-based resale restrictions; or
- An Affordable Second is secured by a property subject to an equity sharing agreement

Affordable Seconds on Manufactured Homes and CHOICEHomes® must meet the additional requirements in Sections 5703.3 and 5703.9.

(i) Funding source

The Affordable Second must not be funded in any way through the First Lien Mortgage transaction, including differential pricing in rate, discount points or fees for individual loans.

The Seller may not participate in an equity sharing agreement with respect to the Mortgaged Premises unless it meets the requirements of Section 4204.2(b)(ii).

The terms and conditions of the Seller's secondary financing or financial assistance program must be made available by the Seller to Freddie Mac upon request.

(A) Non-Seller-funded Affordable Seconds

An Affordable Second must be provided by an Agency, credit union or community development financial institution (CDFI) under an established, ongoing, documented secondary financing or financial assistance program.

With respect to the subject Mortgage, the Agency or credit union must not:

- Be the Seller or have participated in any aspect of the Mortgage origination process, other than to assess the Borrower's ability to meet the requirements of the program and to fund the Affordable Second

- Be affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process such as the property seller, builder, developer or real estate agent

With respect to the subject Mortgage, a CDFI working with an Agency must:

- Be a CDFI that has received CDFI certification from the Treasury's CDFI Fund (a "Certified CDFI")
- Remain a Certified CDFI through the date the Mortgage is sold to Freddie Mac
- Not be the Seller

The Agency with which the CDFI is working may participate in the origination of the subject Mortgage.

The Agency may be affiliated with, under contract to or financed by the Certified CDFI if the Agency is a nonprofit entity and third-party originator that works with the Certified CDFI.

For these purposes, "affiliated with" means that the Agency and the Seller or other party are related to each other as a consequence of one entity directly or indirectly controlling the other party, being controlled by the other party or being under common control with that party.

The Affordable Second must not be funded by the property seller or another interested party to the transaction, except as provided in Section 4204.2(a)(i)(B) below.

(B) Seller-funded Affordable Seconds

A Seller may be the source of an Affordable Second if the following requirements are met:

- If the Seller is not a CDFI, it must:
 - Be a depository institution
 - Have an Affordable Seconds program that supports its affordable lending and/or mission focused program(s), or a program designed to broadly support its Community Reinvestment Act (CRA) requirements, or
- If the Seller is a credit union that is not required by law to participate in CRA, the credit union must have an Affordable Seconds program in accordance with its affordable lending and/or mission-focused program

- If the Seller is a CDFI, it may be a non-depository institution if the established Affordable Seconds program supports affordable lending and the credit needs of prospective homebuyers in their respective market(s)

(ii) Eligible First Lien Mortgages

(A) Non-Seller-funded Affordable Seconds

For non-Seller-funded Affordable Seconds, the First Lien Mortgage must be:

- A fixed-rate Mortgage or an ARM with an initial fixed-rate period of five years or greater
- A purchase transaction or a “no cash-out” refinance, and
- Secured by a 1-4 unit Primary Residence

(B) Seller-funded Affordable Seconds

For Seller-funded Affordable Seconds, including Sellers that are credit unions or CDFIs, the First Lien Mortgage must be:

- A Home Possible® Mortgage
- A fixed-rate Mortgage or an ARM with an initial fixed-rate period of five years or greater
- Submitted to Loan Product Advisor® in accordance with Chapter 5101 and receive a Risk Classification of Accept
- A purchase transaction
- Secured by a 1-unit Primary Residence, and
- A Retail Mortgage

(iii) Maturity date

The terms of the Affordable Second must not require a balloon payment that becomes due before the maturity date or payment in full of the First Lien Mortgage.

If the Affordable Second is an Employer Assisted Homeownership Benefit, the terms of the secondary financing must not require repayment in full, except when:

- The Borrower terminates his or her employment for any reason, or

- The employer terminates the Borrower's employment for any reason other than long-term disability, the elimination of the employee's position or reduction-in-force

(iv) Scheduled payments

The Affordable Second may be forgivable or repayable. The interest rate of the Affordable Second must not be more than 2% higher than the interest rate of the First Lien Mortgage. Interest accruals that are added to principal may not at any time during the term of the First Lien Mortgage increase the total loan-to-value (TLTV) ratio beyond the maximum TLTV ratio allowed for the First Lien Mortgage.

If monthly payments on the Affordable Second are required and begin before the due date of the 61st monthly payment under the First Lien Mortgage, such monthly payments must be included in the Borrower's monthly housing expense-to-income ratio and monthly debt payment-to-income ratio. If monthly payments on the Affordable Second begin on or after the due date of the 61st monthly payment under the First Lien Mortgage or if repayment of the Affordable Second is due only upon sale or default, the amount of the Affordable Second monthly payment may be excluded from both ratios.

(v) Financing structure

The Affordable Second financing must not be a HELOC.

(vi) Documentation requirements

The Seller must maintain in the Mortgage file the following documentation for the Affordable Second:

- A Note or other evidence of the terms of the Affordable Second
- The Settlement/Closing Disclosure Statement or an alternative form required by law that evidences the fees and costs paid by the Borrower at closing in connection with a new Affordable Second
- For refinance transactions, evidence of subordination of an existing Affordable Second

(vii) Affordable Seconds proceeds

Proceeds from the Affordable Second may be used toward the Down Payment or Closing Costs.

(viii) Special delivery requirements

See Section 6302.34(b)(i) for special delivery instructions for Mortgages with Affordable Seconds.

(b) Special requirements for Affordable Seconds secured by properties subject to income-based resale restrictions or by properties subject to equity sharing agreements

(i) Affordable Seconds secured by properties subject to income-based resale restrictions

If the proceeds of an Affordable Second are used to subsidize the property's sales price and, as a result, the secondary financing or financial assistance program imposes income-based resale restrictions on the property, the difference between the market sales price and the resale-restricted sales price represents the subsidy amount provided by the Affordable Second. The terms of the Affordable Second must not restrict Freddie Mac's ability to sell or transfer the Mortgaged Premises if Freddie Mac acquires title to the Mortgaged Premises. See Section 4406.1(e) for requirements for resale-restricted properties that are subject to a right of first refusal.

When the proceeds of an Affordable Second are used to subsidize the sales price of a property and, as a result, the property becomes subject to income-based resale restrictions, the proceeds of the Affordable Second must not be used toward the Down Payment or Closing Costs.

The source of the Affordable Second may be a government agency or a non-profit entity that acts as the program administrator for the government agency. The non-profit entity may also act as the property seller on behalf of the government agency.

The source of the Affordable Second may be a non-profit entity that is also the property seller but is not affiliated with a government agency, if the Seller confirms the:

- Mortgage file contains the Internal Revenue Code 501(c) determination letter that allows for federal tax exemption of non-profit entities,
- Non-profit entity has the financial capacity to provide the Affordable Second, and
- Affordable Second meets all other applicable Guide requirements

(ii) Affordable Seconds secured by properties subject to equity sharing agreements

For-profit entities may not share in the appreciation of the Mortgaged Premises.

If the terms of an Affordable Second permit the Agency or subsidy provider to share in the appreciation of the Mortgaged Premises, the following requirements must be met:

- At the time of origination of the Affordable Second, the share of appreciation to which the Agency or subsidy provider is entitled, expressed as a percentage, must not exceed the original principal amount of the Affordable Second divided by value, using a value as determined in accordance with Section 4203.1 ("the percentage of

the Affordable Second”), except as stated in the next paragraph. For example, if the original principal amount of the Affordable Second is equal to 5% of value, the percentage of the Affordable Second is 5%, and the maximum share of appreciation the Agency or subsidy can receive is 5%.

- The share of appreciation to which the Agency or subsidy provider is entitled may exceed the percentage of the Affordable Second if the following requirements are met:
 - The Agency or subsidy provider must not charge interest on the Affordable Second
 - The share of appreciation must not exceed 75% unless the Affordable Second provider is a subsidy provider or program administrator managing an income-based resale restriction program and the Seller confirms that:
 - The special requirements for Mortgages secured by properties subject to income-based resale restrictions in Section 4406.2 are met; and
 - The subsidy provider or program administrator has processes in place to allow the Borrower to receive a share of the proceeds of a subsequent sale of the property in instances where the resale sales price is higher than the subsidized sales price paid by the Borrower to purchase the property
- The terms of the Affordable Second must allow the Borrower to recover all the following before the Agency or subsidy provider is able to share in the appreciation:
 - Any portion of the Down Payment paid from Borrower funds
 - Customary costs incurred by the Borrower in selling the property
 - Payments of principal made under the First Lien Mortgage
- The right of the Agency or subsidy provider to share in the appreciation must be clearly subordinate to the First Lien Mortgage

(iii)Special delivery instructions

See Section 6302.34(b)(i)(A) for special delivery instructions for Mortgages with Affordable Seconds.

4204.2: Affordable Seconds® (Future effective date 10/02/23)

(a) Special requirements for Affordable Seconds®

Affordable Seconds must comply with the requirements of Section 4204.1(a) and the requirements of this section regardless of whether the Affordable Second is originated concurrently with the First Lien Mortgage (i.e., the First Lien Mortgage and the Affordable Second are originated on the same day) or the Affordable Second is being subordinated to the First Lien Mortgage in a refinance transaction. A checklist for Affordable Seconds is available as an additional resource at

https://sf.freddiemac.com/content/_assets/resources/pdf/factsheet/affordable_seconds_guidelines_factsheet.pdf.

The special requirements in Section 4204.2(b) must be met if:

- The proceeds of an Affordable Second are used to subsidize the sales price of a property and, as a result, the property becomes subject to income-based resale restrictions; or
- An Affordable Second is secured by a property subject to an equity sharing agreement

Affordable Seconds on Manufactured Homes and CHOICEHomes® must meet the additional requirements in Sections 5703.3 and 5703.9.

For special requirements for HeritageOneSM Mortgages with Affordable Seconds, see Section 4504.5.

(i) Funding source

The Affordable Second must not be funded in any way through the First Lien Mortgage transaction, including differential pricing in rate, discount points or fees for individual loans.

The Seller may not participate in an equity sharing agreement with respect to the Mortgaged Premises unless it meets the requirements of Section 4204.2(b)(ii).

The terms and conditions of the Seller's secondary financing or financial assistance program must be made available by the Seller to Freddie Mac upon request.

(A) Non-Seller-funded Affordable Seconds

An Affordable Second must be provided by an Agency, credit union or community development financial institution (CDFI) under an established, ongoing, documented secondary financing or financial assistance program.

With respect to the subject Mortgage, the Agency or credit union must not:

- Be the Seller or have participated in any aspect of the Mortgage origination process, other than to assess the Borrower's ability to meet the requirements of the program and to fund the Affordable Second
- Be affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process such as the property seller, builder, developer or real estate agent

With respect to the subject Mortgage, a CDFI working with an Agency must:

- Be a CDFI that has received CDFI certification from the Treasury's CDFI Fund (a "Certified CDFI")
- Remain a Certified CDFI through the date the Mortgage is sold to Freddie Mac
- Not be the Seller

The Agency with which the CDFI is working may participate in the origination of the subject Mortgage.

The Agency may be affiliated with, under contract to or financed by the Certified CDFI if the Agency is a nonprofit entity and third-party originator that works with the Certified CDFI.

For these purposes, "affiliated with" means that the Agency and the Seller or other party are related to each other as a consequence of one entity directly or indirectly controlling the other party, being controlled by the other party or being under common control with that party.

The Affordable Second must not be funded by the property seller or another interested party to the transaction, except as provided in Section 4204.2(a)(i)(B) below.

(B) Seller-funded Affordable Seconds

A Seller may be the source of an Affordable Second if the following requirements are met:

- If the Seller is not a CDFI, it must:
 - Be a depository institution
 - Have an Affordable Seconds program that supports its affordable lending and/or mission focused program(s), or a program designed to broadly support its Community Reinvestment Act (CRA) requirements, or

- If the Seller is a credit union that is not required by law to participate in CRA, the credit union must have an Affordable Seconds program in accordance with its affordable lending and/or mission-focused program
- If the Seller is a CDFI, it may be a non-depository institution if the established Affordable Seconds program supports affordable lending and the credit needs of prospective homebuyers in their respective market(s)

(ii) Eligible First Lien Mortgages

(A) Non-Seller-funded Affordable Seconds

For non-Seller-funded Affordable Seconds, the First Lien Mortgage must be:

- A fixed-rate Mortgage or an ARM with an initial fixed-rate period of five years or greater
- A purchase transaction or a “no cash-out” refinance, and
- Secured by a 1-4 unit Primary Residence

(B) Seller-funded Affordable Seconds

For Seller-funded Affordable Seconds, including Sellers that are credit unions or CDFIs, the First Lien Mortgage must be:

- A Home Possible® Mortgage
- A fixed-rate Mortgage or an ARM with an initial fixed-rate period of five years or greater
- Submitted to Loan Product Advisor® in accordance with Chapter 5101 and receive a Risk Classification of Accept
- A purchase transaction
- Secured by a 1-unit Primary Residence, and
- A Retail Mortgage

(iii) Maturity date

The terms of the Affordable Second must not require a balloon payment that becomes due before the maturity date or payment in full of the First Lien Mortgage.

If the Affordable Second is an Employer Assisted Homeownership Benefit, the terms of the secondary financing must not require repayment in full, except when:

- The Borrower terminates his or her employment for any reason, or
- The employer terminates the Borrower's employment for any reason other than long-term disability, the elimination of the employee's position or reduction-in-force

(iv) Scheduled payments

The Affordable Second may be forgivable or repayable. The interest rate of the Affordable Second must not be more than 2% higher than the interest rate of the First Lien Mortgage. Interest accruals that are added to principal may not at any time during the term of the First Lien Mortgage increase the total loan-to-value (TLTV) ratio beyond the maximum TLTV ratio allowed for the First Lien Mortgage.

If monthly payments on the Affordable Second are required and begin before the due date of the 61st monthly payment under the First Lien Mortgage, such monthly payments must be included in the Borrower's monthly housing expense-to-income ratio and monthly debt payment-to-income ratio. If monthly payments on the Affordable Second begin on or after the due date of the 61st monthly payment under the First Lien Mortgage or if repayment of the Affordable Second is due only upon sale or default, the amount of the Affordable Second monthly payment may be excluded from both ratios.

(v) Financing structure

The Affordable Second financing must not be a HELOC.

(vi) Documentation requirements

The Seller must maintain in the Mortgage file the following documentation for the Affordable Second:

- A Note or other evidence of the terms of the Affordable Second
- The Settlement/Closing Disclosure Statement or an alternative form required by law that evidences the fees and costs paid by the Borrower at closing in connection with a new Affordable Second
- For refinance transactions, evidence of subordination of an existing Affordable Second

(vii) Affordable Seconds proceeds

Proceeds from the Affordable Second may be used toward the Down Payment or Closing Costs.

(viii) Special delivery requirements

See Section 6302.34(b)(i) for special delivery instructions for Mortgages with Affordable Seconds.

(b) Special requirements for Affordable Seconds secured by properties subject to income-based resale restrictions or by properties subject to equity sharing agreements

(i) Affordable Seconds secured by properties subject to income-based resale restrictions

If the proceeds of an Affordable Second are used to subsidize the property's sales price and, as a result, the secondary financing or financial assistance program imposes income-based resale restrictions on the property, the difference between the market sales price and the resale-restricted sales price represents the subsidy amount provided by the Affordable Second. The terms of the Affordable Second must not restrict Freddie Mac's ability to sell or transfer the Mortgaged Premises if Freddie Mac acquires title to the Mortgaged Premises. See Section 4406.1(e) for requirements for resale-restricted properties that are subject to a right of first refusal.

When the proceeds of an Affordable Second are used to subsidize the sales price of a property and, as a result, the property becomes subject to income-based resale restrictions, the proceeds of the Affordable Second must not be used toward the Down Payment or Closing Costs.

The source of the Affordable Second may be a government agency or a non-profit entity that acts as the program administrator for the government agency. The non-profit entity may also act as the property seller on behalf of the government agency.

The source of the Affordable Second may be a non-profit entity that is also the property seller but is not affiliated with a government agency, if the Seller confirms the:

- Mortgage file contains the Internal Revenue Code 501(c) determination letter that allows for federal tax exemption of non-profit entities,
- Non-profit entity has the financial capacity to provide the Affordable Second, and
- Affordable Second meets all other applicable Guide requirements

(ii) Affordable Seconds secured by properties subject to equity sharing agreements

For-profit entities may not share in the appreciation of the Mortgaged Premises.

If the terms of an Affordable Second permit the Agency or subsidy provider to share in the appreciation of the Mortgaged Premises, the following requirements must be met:

- At the time of origination of the Affordable Second, the share of appreciation to which the Agency or subsidy provider is entitled, expressed as a percentage, must not exceed the original principal amount of the Affordable Second divided by value, using a value as determined in accordance with Section 4203.1 (“the percentage of the Affordable Second”), except as stated in the next paragraph. For example, if the original principal amount of the Affordable Second is equal to 5% of value, the percentage of the Affordable Second is 5%, and the maximum share of appreciation the Agency or subsidy can receive is 5%.
- The share of appreciation to which the Agency or subsidy provider is entitled may exceed the percentage of the Affordable Second if the following requirements are met:
 - The Agency or subsidy provider must not charge interest on the Affordable Second
 - The share of appreciation must not exceed 75% unless the Affordable Second provider is a subsidy provider or program administrator managing an income-based resale restriction program and the Seller confirms that:
 - The special requirements for Mortgages secured by properties subject to income-based resale restrictions in Section 4406.2 are met; and
 - The subsidy provider or program administrator has processes in place to allow the Borrower to receive a share of the proceeds of a subsequent sale of the property in instances where the resale sales price is higher than the subsidized sales price paid by the Borrower to purchase the property
 - The terms of the Affordable Second must allow the Borrower to recover all the following before the Agency or subsidy provider is able to share in the appreciation:
 - Any portion of the Down Payment paid from Borrower funds
 - Customary costs incurred by the Borrower in selling the property
 - Payments of principal made under the First Lien Mortgage
 - The right of the Agency or subsidy provider to share in the appreciation must be clearly subordinate to the First Lien Mortgage

(iii)Special delivery instructions

See Section 6302.34(b)(i)(A) for special delivery instructions for Mortgages with Affordable Seconds.

4204.3: Interested party contributions (07/06/17)

Effective July 6, 2017, the contents of this section are moved to Section 5501.5.

4204.4: Temporary subsidy buydown plans (10/01/21)

Freddie Mac will purchase Mortgages with temporary subsidy buydown plans (buydown plans) under the terms of the Purchase Documents and this section. Buydown plans allow the Borrower to benefit from temporary subsidies of the monthly payment of principal and interest.

(a) Eligibility

Buydown plans are not permitted for Mortgages with the following characteristics:

- 3/6-Month ARMs
- Cash-out refinance Mortgages
- “No cash-out” refinance Mortgages with a buydown plan funded from lender credit derived from an increase in the interest rate
- Investment Property Mortgages
- Mortgages secured by Manufactured Homes

Home Possible® Mortgages with buydown plans must meet the requirements of this section and Section 4501.5.

For any Mortgage with a buydown plan, the initial interest rate may not be more than three percentage points below the Note Rate. Also, the buydown plan may not extend for more than three years after the first scheduled payment date.

(b) Special underwriting requirements for Limited Buydown Mortgages

For a Limited Buydown Mortgage, the initial interest rate is:

- Temporarily reduced to no more than two percentage points below the Note Rate
- Increased by no more than one percentage point annually for no more than two years

Property Type	Fixed-Rate, 7/6-Month ARMs and 10/6-Month ARMs	5/6-Month ARMs
1-unit Primary Residence and second home	Yes	Yes
2-unit Primary Residence	Yes	Yes
3- to 4-unit Primary Residence	Yes	No

Borrower qualification:

- For fixed-rate Mortgages, the Borrower must be qualified using monthly payments calculated at the Note Rate. The qualifying rate must, at a minimum, equal the maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due, based on the loan amount over the loan term.
- For ARMs, the Borrower must be qualified using monthly payments calculated in accordance with Section 4401.8
- If reserves are required, the reserves must be calculated using the Note Rate

(c) Special underwriting requirements for Extended Buydown Mortgages

Freddie Mac will purchase Extended Buydown Mortgages with initial interest rates that are:

- Temporarily reduced no more than three percentage points below the Note Rate
- Increased by no more than one percentage point annually for more than two but no more than three years

Property Type	Fixed-Rate, 7/6-Month and 10/6-Month ARMs	5/6-Month ARMs
1-unit Primary Residence and second home	Yes	Yes
2-unit Primary Residence	Yes	Yes
3- to 4-unit Primary Residence	Yes	No

Borrower qualification:

- For fixed-rate Mortgages, the Borrower must be qualified using monthly payments calculated at the Note Rate. The qualifying rate must, at a minimum, equal the maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due, based on the loan amount over the loan term.
- For ARMs, the Borrower must be qualified using monthly payments calculated in accordance with Section 4401.8
- If reserves are required, the reserves must be calculated using the Note Rate

(d) Delivery requirements for Mortgages with a buydown plan

See Section 6302.18 for information on the delivery and pooling requirements for Mortgages with a buydown plan.

(e) Special documentation requirements for Mortgages with buydown plans

(i) Application of buydown funds

The Borrower must agree in writing that the buydown funds in the buydown account will be automatically applied each month to reduce the monthly payment of principal and interest to the extent provided under the subsidy buydown agreement. The buydown agreement must provide that the Borrower will not be relieved of the obligation to make the full monthly Mortgage payments required by the terms of the Mortgage Note if, for any reason, the buydown funds are not available or the buydown funds are not paid.

The Mortgage file must contain a copy of the executed buydown agreement and must clearly show the Seller's calculations of the total cost of the temporary subsidy buydown, any interested party contribution and the annual percentage increase in the Borrower's monthly principal and interest payment.

(ii) Custodial Account requirements for buydowns

Each subsidy buydown must be fully funded at origination. See Sections 8302.1(b) and 8302.4 for Custodial Account requirements for buydown plans.

The buydown agreement must state that the Borrower will not assign, transfer or close the account, or withdraw buydown funds, except as permitted by the terms of the buydown agreement.

(iii) References

No references to the buydown plan are permitted in the Note and Security Instruments.

(iv) Interest rate and monthly payments

The interest rate and monthly payments shown in the Note must be calculated without reference to the temporary buydown subsidy. In no event may the temporary subsidy buydown agreement change the terms of the Note or Mortgage.

(v) Servicing requirements

If the Mortgage is foreclosed, the funds in the buydown account must be used to reduce the Mortgage debt. If the Mortgage is paid in full, the funds must be distributed in accordance with the buydown agreement. If the property is sold and the Mortgage is assumed by the purchaser, the funds may continue to be used to reduce the Mortgage payments under the original terms of the buydown agreement.

4204.4: Temporary subsidy buydown plans (Future effective date 10/02/23)

Freddie Mac will purchase Mortgages with temporary subsidy buydown plans (buydown plans) under the terms of the Purchase Documents and this section. Buydown plans allow the Borrower to benefit from temporary subsidies of the monthly payment of principal and interest.

(a) Eligibility

Buydown plans are not permitted for Mortgages with the following characteristics:

- 3/6-Month ARMs
- Cash-out refinance Mortgages
- “No cash-out” refinance Mortgages with a buydown plan funded from lender credit derived from an increase in the interest rate

- Investment Property Mortgages
- Mortgages secured by Manufactured Homes

Home Possible® Mortgages and HeritageOneSM Mortgages with buydown plans must meet the requirements of this section and Sections 4501.5 and 4504.5, respectively.

For any Mortgage with a buydown plan, the initial interest rate may not be more than three percentage points below the Note Rate. Also, the buydown plan may not extend for more than three years after the first scheduled payment date.

(b) Special underwriting requirements for Limited Buydown Mortgages

For a Limited Buydown Mortgage, the initial interest rate is:

- Temporarily reduced to no more than two percentage points below the Note Rate
- Increased by no more than one percentage point annually for no more than two years

Property Type	Fixed-Rate, 7/6-Month ARMs and 10/6-Month ARMs	5/6-Month ARMs
1-unit Primary Residence and second home	Yes	Yes
2-unit Primary Residence	Yes	Yes
3- to 4-unit Primary Residence	Yes	No

Borrower qualification:

- For fixed-rate Mortgages, the Borrower must be qualified using monthly payments calculated at the Note Rate. The qualifying rate must, at a minimum, equal the maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due, based on the loan amount over the loan term.
- For ARMs, the Borrower must be qualified using monthly payments calculated in accordance with Section 4401.8

- If reserves are required, the reserves must be calculated using the Note Rate

(c) Special underwriting requirements for Extended Buydown Mortgages

Freddie Mac will purchase Extended Buydown Mortgages with initial interest rates that are:

- Temporarily reduced no more than three percentage points below the Note Rate
- Increased by no more than one percentage point annually for more than two but no more than three years

Property Type	Fixed-Rate, 7/6-Month and 10/6-Month ARMs	5/6-Month ARMs
1-unit Primary Residence and second home	Yes	Yes
2-unit Primary Residence	Yes	Yes
3- to 4-unit Primary Residence	Yes	No

Borrower qualification:

- For fixed-rate Mortgages, the Borrower must be qualified using monthly payments calculated at the Note Rate. The qualifying rate must, at a minimum, equal the maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due, based on the loan amount over the loan term.
- For ARMs, the Borrower must be qualified using monthly payments calculated in accordance with Section 4401.8
- If reserves are required, the reserves must be calculated using the Note Rate

(d) Delivery requirements for Mortgages with a buydown plan

See Section 6302.18 for information on the delivery and pooling requirements for Mortgages with a buydown plan.

(e) Special documentation requirements for Mortgages with buydown plans

(i) Application of buydown funds

The Borrower must agree in writing that the buydown funds in the buydown account will be automatically applied each month to reduce the monthly payment of principal and

interest to the extent provided under the subsidy buydown agreement. The buydown agreement must provide that the Borrower will not be relieved of the obligation to make the full monthly Mortgage payments required by the terms of the Mortgage Note if, for any reason, the buydown funds are not available or the buydown funds are not paid.

The Mortgage file must contain a copy of the executed buydown agreement and must clearly show the Seller's calculations of the total cost of the temporary subsidy buydown, any interested party contribution and the annual percentage increase in the Borrower's monthly principal and interest payment.

(ii) Custodial Account requirements for buydowns

Each subsidy buydown must be fully funded at origination. See Sections 8302.1(b) and 8302.4 for Custodial Account requirements for buydown plans.

The buydown agreement must state that the Borrower will not assign, transfer or close the account, or withdraw buydown funds, except as permitted by the terms of the buydown agreement.

(iii) References

No references to the buydown plan are permitted in the Note and Security Instruments.

(iv) Interest rate and monthly payments

The interest rate and monthly payments shown in the Note must be calculated without reference to the temporary buydown subsidy. In no event may the temporary subsidy buydown agreement change the terms of the Note or Mortgage.

(v) Servicing requirements

If the Mortgage is foreclosed, the funds in the buydown account must be used to reduce the Mortgage debt. If the Mortgage is paid in full, the funds must be distributed in accordance with the buydown agreement. If the property is sold and the Mortgage is assumed by the purchaser, the funds may continue to be used to reduce the Mortgage payments under the original terms of the buydown agreement.

4204.5: Shared equity plans (07/06/17)

Freddie Mac does not approve individual shared equity plans. Freddie Mac will, however, consider purchasing Mortgages using such plans if the following requirements are met:

- The Seller must obtain a Mortgage application, financial statements and credit reports for both the Owner-Occupant and owner-investor

- The Freddie Mac credit guidelines are satisfied
- The shared equity plan is a written agreement, a copy of which is retained in the Mortgage file

The Seller warrants the following:

1. A minimum Down Payment of at least 5% was made by the Owner-Occupant from Borrower personal funds as described in Section 5501.3(b)
2. The owner-investor made an additional Down Payment of at least 5%
3. Both the Owner-Occupant and owner-investor signed the Note and Security Instrument
4. Both the Owner-Occupant and owner-investor are individuals, i.e., not corporations, limited partnerships, partnerships or trusts
5. No agreement requiring sale of the property or buyout of either owner's interest may be in effect within seven years of the date of the Note and Security Instrument
6. The seller of the property or other interested party to the transaction (such as a builder or a real estate broker or agent) is not a party to the agreement
7. The Seller or the Servicer is able to service the Mortgage according to all the requirements of the Guide

Chapter 4205: Government funded, guaranteed or insured Mortgages

4205.1: Section 502 GRH Mortgages (05/03/23)

(a) Overview

Freddie Mac will purchase Section 502 GRH Mortgages in accordance with the provisions of this chapter and the Purchase Documents.

The Seller should be familiar with Freddie Mac's definitions in the Glossary for:

- Section 502 GRH Mortgage
- RHS
- Government Mortgage

The following additional terms apply for purposes of this section:

- **Lender Agreement:** The current RHS Agreement for Participation in Single Family Guaranteed/Insured Loan Programs of the United States Government Lender Agreement — Form RD 1980-16 executed by the Seller
- **Guaranteed Regulations:** The RD Instructions 1980D of Title 7, Part 1980, Subpart D of the Code of Federal Regulations, collectively with the forms, agreements, manuals and other material and documents issued by RHS, as may be modified by RHS from time to time
- **Conditional Commitment:** The current Conditional Commitment for Single Family Housing Loan Guarantee — Form RD 1980-18
- **Lender Record Change:** The current Guaranteed Rural Housing Lender Record Change — Form RD 1980-11
- **Loan Guarantee:** The current RHS guarantee issued on Form RD 1980-17

Each Section 502 GRH Mortgage must be originated in compliance with all of the requirements of the Guaranteed Regulations and the Lender Agreement, unless these requirements are either:

- Modified or waived in writing by RHS, and Freddie Mac has approved those modifications or waivers, or

- Specifically restricted or modified by this chapter

(b) Eligible Mortgages

A Section 502 GRH Mortgage must be:

- An assumable or nonassumable first-lien secured by a Primary Residence
- A purchase transaction or “no cash-out” refinance of existing Section 502 GRH Mortgage
- A 30-year fully amortizing fixed-rate Mortgage
- A Non-Loan Product Advisor Mortgage

Section 502 GRH Mortgages must be sold to Freddie Mac with recourse, within the meaning of Section 6201.7(a).

The Seller must obtain Freddie Mac’s written approval, which must be expressly included in the Seller’s Purchase Documents, to sell Section 502 GRH Mortgages. The Seller should request this written approval by calling its account manager or 800-FREDDIE.

(c) Loan limits

No Section 502 GRH Mortgage may have an original principal balance in excess of the maximum principal loan amount allowed under the RHS Guaranteed Regulations, or in excess of the maximum loan amounts for conventional Mortgages stated in Section 4203.3, whichever is less. A Section 502 GRH Mortgage may not be a super conforming Mortgage.

(d) Requirements

Each Section 502 GRH Mortgage must comply with the provisions of the Guide, except that if there are Guaranteed Regulations applicable to the following matters, the Guaranteed Regulations will apply:

- Borrower underwriting
- Loan-to-value (LTV) ratios and total LTV (TLTV) ratios
- Sources of funds for Down Payment, Closing Costs and reserves
- Financing concessions and temporary subsidy buydown plans
- Secondary financing
- Property eligibility

- Title insurance
- Property insurance, and
- Mortgage insurance

Each Section 502 GRH Mortgage must comply with the Guaranteed Regulations for LTV/TLTV ratios, and the LTV/TLTV ratios must not exceed 115%, as calculated under the requirements in Section 4203.2.

(e) Special RHS documentation instructions

- Loan Guarantee

Freddie Mac will purchase Section 502 GRH Mortgages prior to the receipt of the Loan Guarantee if:

- RHS has issued its Conditional Commitment and the conditions precedent to the issuance of the Loan Guarantee stated in the Guaranteed Regulations and the Conditional Commitment have been satisfied
- The Seller has delivered the Guaranteed Loan Closing Report, current Form RD 1980-19, to RHS and has paid the RHS Loan Guarantee fee
- As of the Delivery Date, the Seller represents and warrants that there is no basis for RHS to fail to issue the Loan Guarantee and that it has not been notified by RHS that the Loan Guarantee has been denied

- Lender Record Change

The Seller must complete and execute the Lender Record Change and submit it to the appropriate RHS Servicing Office within 15 calendar days after the Delivery Date of each Section 502 GRH Mortgage. For purposes of completing the Lender Record Change, the Seller is the “Selling Lender,” Freddie Mac is the “Purchasing (Holding) Lender,” and the Seller is the “Lender’s Servicing Agent.” Freddie Mac’s lender identification number is 52-0904874. Leave the “Purchasing Lender Agency Assigned Branch No.” blank.

(f) Mortgage file contents

In addition to the documents required in Chapters 3401 and 3301, the Mortgage file for each Section 502 GRH Mortgage must contain:

- A Conditional Commitment
- A Loan Guarantee

- A Lender Record Change

(g) Special Seller warranties

The Seller warrants to Freddie Mac, as of the Delivery Date of each Section 502 GRH Mortgage, that:

- The Seller has obtained a determination from RHS that the Seller is eligible to participate as an originating lender for Section 502 GRH Mortgages
- The Seller has executed the Lender Agreement that is and will remain in full force and effect
- The Loan Guarantee by RHS of the Section 502 GRH Mortgage is in full force and in effect as of the Delivery Date
- The Seller has complied and will continue to comply with the RHS Guaranteed Regulations, the RHS Lender Agreement and all other applicable RHS guidelines, regulations and requirements

(h) Mortgage instruments

If the Section 502 GRH Mortgage is assumable, it must be originated on Mortgage instruments approved by the FHA for FHA-insured assumable fixed-rate Mortgages with all applicable riders and addenda required by FHA.

If a Section 502 GRH Mortgage is not assumable, it must be originated on the then current Fannie Mae/Freddie Mac Uniform Instruments including all applicable riders required in Section 4101.2 for the jurisdiction in which the Mortgaged Premises are located.

For all Section 502 GRH Mortgages, the monthly payment due date stated in the Note must be the first day of the month.

(i) Delivery instructions

See Section 6302.15 for delivery and pooling requirements for Section 502 GRH Mortgages sold to Freddie Mac.

(j) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to Section 502 GRH Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

4205.2: Home Possible® Mortgages with RHS Leveraged Seconds (12/01/22)

(a) Overview

Freddie Mac will purchase a Home Possible Mortgage with an RHS Leveraged Second in accordance with the provisions of this chapter and the Purchase Documents. Freddie Mac will not purchase the RHS Leveraged Second.

The Seller should be familiar with Freddie Mac's definition in the Glossary for RHS Leveraged Second. The following additional terms apply for the purposes of this section:

- Second Loan Documents are all of the following RHS documents:
 - Promissory Note, Form RD 1940-16 (Rev. 10-96)
 - Real Estate [Deed of Trust] or [Mortgage] for [the State in which the Mortgaged Premises are located], Form RHS 3550-14 (Rev. 10-96)
 - Subsidy Repayment Agreement, Form RD 3550-12 (Rev.10-96)
 - Interest Credit Agreement (Section 502 RHS Loans), Form FmHA 1944-6 (Rev. 12-95), and
 - Agreement with Prior Lienholder, Form FmHA 1927-8 (Rev. 1-92)
- Second Loan Regulations are the provisions applicable to:

Section 502 direct leveraged Mortgages originated by RHS contained in Part 3550 of Title 7 of the Code of Federal Regulations and the RHS Direct Single Family Housing Loans and Grants Field Service Handbook and Centralized Servicing Center Handbook collectively with the forms, agreements, manuals and other material and documents issued by RHS, as may be modified by RHS from time to time.

(b) Eligible Mortgages

The Home Possible Mortgage purchased by Freddie Mac must be:

- A first-lien, purchase transaction, 30-year fully amortizing fixed-rate Mortgage
- Secured by a 1-unit Primary Residence

(c) Maximum loan-to-value (LTV) and total LTV (TLTV) ratio limits

The maximum LTV ratio of the Home Possible Mortgage is 50% and the maximum TLTV ratio, including the RHS Leveraged Second and all other secondary financing, is the lesser of 95% or the maximum allowed under the second loan regulations.

(d) RHS requirements

The Seller must comply with all Freddie Mac requirements for Home Possible Mortgages. Freddie Mac may allow the Borrower underwriting and qualification flexibilities with Home Possible Mortgages that are not permitted for the first Mortgage under the Second Loan Regulations. In the following areas, the Seller must comply with the provisions of the Second Loan Regulations pertaining to the first Mortgage even in situations where the underwriting and qualification requirements for Home Possible Mortgages are more flexible.

- Temporary subsidy buydown plans
- Maximum allowable qualifying ratios
- Borrower income limits
- Amount and source of funds for the Down Payment and Closing Costs
- Borrower reserves
- Rural designation as defined by RHS
- Property inspection
- Homeownership education

Financing concessions, if used as a source of funds, must be limited to such Closing Costs as are customary in the market where the Mortgaged Premises are located.

(e) Additional documentation

In addition to documentation required for the Home Possible Mortgage, the Mortgage file must contain:

- A Borrower's Certification of Eligibility, Form RD 1944.59 (Rev. 10-96)
- Copies of the executed Second Loan Documents and any other documents executed by the Borrower in connection with the RHS Leveraged Second

(f) Special Seller warranties

The Seller warrants that the RHS Leveraged Second:

- Has been closed and all proceeds advanced to the Borrower or at the Borrower's designation, prior to the Delivery Date of the Home Possible Mortgage
- At all times after the Note Date of the Home Possible Mortgage, the debt obligation and lien or other restriction on the Mortgaged Premises, of the RHS Leveraged Second and any recorded Second Loan Document are subordinate to the Home Possible Mortgage
- Was originated on the Second Loan Documents. Any changes or modifications to the Second Loan Documents must be approved by Freddie Mac.
- Was originated by RHS pursuant to the Second Loan Regulations in effect on the closing date of the RHS Leveraged Second. Any waivers or modifications to the RHS Second Loan Regulations with respect to an individual Borrower must be approved by Freddie Mac.
- Was originated by a Seller approved by RHS

In addition, the Borrower must be underwritten and approved by the RHS Field Office for the RHS Leveraged Second.

(g) Delivery instructions

See Section 6302.14 for delivery and pooling requirements for Home Possible Mortgages with RHS Leveraged Seconds sold to Freddie Mac.

(h) Credit Fees

For Credit Fees and Credit Fee Caps related to Home Possible Mortgage with an RHS Leveraged Second, the Seller must refer to Exhibit 19, Credit Fees, and Exhibit 19A, Credit Fee Cap Eligibility Criteria. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

See Section 4501.14 for information regarding Credit Fees applicable to Home Possible Mortgages.

4205.3: Section 184 Native American Mortgages (05/03/23)

(a) Overview

Freddie Mac will purchase Section 184 Native American Mortgages in accordance with the provisions of this chapter and the Purchase Documents.

The Seller should be familiar with Freddie Mac's definitions in the Glossary for:

- Section 184 Native American Mortgages
- Government Mortgage

Additionally, the following terms apply for purposes of this section:

- An Indian is any person recognized as being Indian or Alaska Native by an Indian Tribe, the federal government or any State and includes the term "Native American"
- An Indian Tribe is any Indian or Alaska Native tribe, band, rancheria, colony, pueblo, nation or other organized group or community of Indians or Alaska Natives recognized as eligible for services provided to Indians or Alaska Natives by the U.S. Secretary of the Interior because of its status as such an entity, or that is an eligible recipient under Chapter 67 of Title 31, of the U.S. Code
- The Section 184 Regulations are the Indian Housing Loan Guarantee Program Processing Guidelines, dated February 2003, collectively with the forms, agreements, manuals and other material and documents issued by HUD, and as may be modified in writing by HUD from time to time

(b) Eligible Mortgages and ineligible Mortgages

Each Section 184 Native American Mortgage must:

- Be a first-lien, purchase transaction, fully amortizing, assumable, fixed-rate Mortgage
- Have an original UPB within the maximum loan amount allowed under the Section 184 Regulations, or the maximum loan amount for conventional Mortgages stated in Section 4203.3, whichever is less
- Be a Non-Loan Product Advisor Mortgage

Each Section 184 Native American Mortgage must not be:

- Originated in connection with other FHA/VA programs, such as Section 203(k) of the National Housing Act
- A super conforming Mortgage
- A Community Land Trust Mortgage
- A Mortgage secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)

Each Section 184 Native American Mortgage must be sold to Freddie Mac with recourse, within the meaning of Section 6201.7(a).

The Seller must obtain Freddie Mac's approval to sell Section 184 Native American Mortgages. The Seller should request this approval by calling its account manager or 800-FREDDIE.

(c) Compliance with Freddie Mac's requirements

Each Section 184 Native American Mortgage must comply with the provisions of the Guide, except that if there are Section 184 Regulations applicable to the following matters, the Section 184 Regulations apply:

- Eligible Borrowers
- Borrower underwriting
- Loan-to-value (LTV) ratio and total LTV (TLTV) ratio
- Source of funds for the Down Payment and Closing Costs
- Reserves
- Secondary financing
- Temporary subsidy buydown plans
- Interested party contributions
- Appraisals
- Mortgage and property insurance
- Mortgage instruments

(d) Title status report

When the title to the Mortgaged Premises is an unrestricted fee simple, the provisions of Chapter 4702 apply. When title to the Mortgaged Premises is other than unrestricted fee simple, the Seller must obtain a title status report and any other documentation required by the Section 184 Regulations. The Seller must record the Security Instrument, and all other Mortgage documents required to be recorded, in accordance with the terms of the Section 184 Regulations.

(e) Mortgage file documentation

In addition to the documents required by Chapters 3401 and 3301, the Mortgage file must contain the following documents:

- Documentation of the land status and court system that has jurisdiction over the property
- The Indian Loan Guarantee Certificate (HUD Form 53039)

(f) Special Seller warranties

The Seller represents and warrants with respect to each Section 184 Native American Mortgage that:

- The HUD guarantee on each Section 184 Native American Mortgage is in full force and effect as of the Delivery Date and will not be canceled while Freddie Mac has an ownership interest in the Mortgage
- Each Section 184 Native American Mortgage was originated in compliance with all the requirements of the Section 184 Regulations, unless those requirements were modified or waived in writing by HUD and the Bureau of Indian Affairs and Freddie Mac approved the modifications and waivers
- The Borrower's Indian Tribe received authorization from HUD to participate in the Mortgage loan program described in the Section 184 Regulations and adopted, and is enforcing, a legal and administrative framework and procedures for foreclosure, evictions, establishing priority of liens and leasing, that meets the requirements of the Section 184 Regulations
- The HUD guarantee fee was paid
- The Seller received the Indian Loan Guarantee Certificate (HUD Form 53039) endorsed for guarantee by an authorized agent of the Assistant Secretary for Public and Indian Housing

(g) Delivery instructions

See Section 6302.13 for delivery and pooling requirements for Section 184 Native American Mortgages sold to Freddie Mac.

(h) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to Section 184 Native American Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

4205.4: FHA/VA Mortgages (05/04/22)

(a) General requirements

FHA/VA Mortgages eligible for purchase must have the following characteristics:

- Each Mortgage is a fixed-rate, level payment, fully amortizing, first-lien FHA Mortgage or VA Mortgage
- The following Mortgages may not be delivered:
 - Graduated-payment Mortgages
 - ARMs
 - Super conforming Mortgages
 - Home Improvement Loans
 - Multifamily Mortgages
 - Community Land Trust Mortgages
 - Mortgages secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)
 - Second Mortgages
- Each Mortgage meets all requirements applicable to the program under which it is insured or guaranteed

- Each Mortgage meets the requirements set forth in the Guide, except to the extent that (i) the requirements of the Guide are inconsistent with the requirements of the program under which the Mortgage is insured or guaranteed or (ii) the requirements of the Guide are specifically modified by this chapter
- Each Mortgage is sold to Freddie Mac with recourse, within the meaning of Section 6201.7(a)
- See Section 6302.12 for delivery and pooling requirements for FHA/VA Mortgages sold to Freddie Mac

The Seller must file a Mortgage Record Change (Form HUD-92080) with HUD to report the sale of an FHA Mortgage and provide HUD with required information on the Seller or selling mortgagee, on Freddie Mac or purchase or holding mortgagee, and on the Servicer. The HUD Mortgagee number for Freddie Mac is 92304-0999-4.

The Seller must obtain Freddie Mac's approval before selling FHA/VA Mortgages to Freddie Mac by calling either its Freddie Mac representative or 800-FREDDIE.

(b) Additional requirements

Notwithstanding any requirements applicable to the program under which an FHA/VA Mortgage is insured or guaranteed:

- No Mortgage may have an original maturity in excess of 30 years
- No FHA Mortgage may have an original principal balance in excess of the maximum principal amount as determined under the National Housing Act or in excess of the maximum loan amounts for conventional Mortgages in Section 4203.3, whichever is less
- The original principal balance of a VA Mortgage may not exceed the maximum loan amount for a conventional 1-unit Home Mortgage as described in Section 4203.3
- Each Mortgage must be covered by a paid-up Mortgage title insurance policy written by a title insurer and in a form acceptable to the Secretary of HUD or the VA Administrator, as applicable. Such policy may not be subject to any exceptions other than those previously approved by the Secretary of HUD or the VA Administrator. The protection and benefits of such policy in the amounts required by HUD and the VA must run to Freddie Mac and to the Secretary of HUD or the VA Administrator, as applicable. With respect to any FHA Mortgage on a property formerly held by HUD, a title insurance policy is not required if the Secretary of HUD is obligated to:
 - Waive any objection to title by reason of any lien or other adverse interest that was senior to the FHA Mortgage on the date such FHA Mortgage was filed for record, or

- Accept an assignment of the FHA Mortgage if the mortgagee is unable to complete foreclosure because of a defect in the FHA Mortgage instrument, a defect in the FHA Mortgage transaction or a defect in the title which existed at or before the time the FHA Mortgage was filed for record

Prior encumbrances on the Mortgaged Premises are not acceptable unless such encumbrances were previously approved by the FHA or VA and, as determined by Freddie Mac, do not detract from the value of the Mortgaged Premises or affect the First Lien priority or the marketability of the Mortgage or the Mortgaged Premises.

Notwithstanding any requirements applicable to Mortgages generally under the Guide, the following classes of requirements do not apply to FHA or VA Mortgages offered for sale to Freddie Mac:

- Property appraisal
- Credit underwriting
- Mortgage insurance
- Owner-occupancy

All Mortgages must be originated on Mortgage instruments approved by the FHA or the VA, as applicable.

Notwithstanding the modification made in this section with respect to the document delivery requirements of the Guide, the Seller must submit such other documents as Freddie Mac may request for any FHA or VA Mortgage delivered pursuant to the Purchase Documents.

(c) Mortgage file requirements

In addition to the documentation specified in the Guide, the Mortgage file retained by the Seller for FHA/VA Mortgages must contain the following documents:

- The Mortgage application of the original Borrower and, if available and applicable, that of the current Borrower
- The credit report on the original Borrower and, if available and applicable, on the current Borrower
- The original FHA or VA commitment and, if available and applicable, the FHA Escrow Commitment Certificate and related documents
- With respect to VA Mortgages, the VA Certificate of Reasonable Value
- The FHA Mortgage Insurance Certificate or VA Loan Guaranty Certificate, as applicable

- Any other documents that are required to be retained by federal or State laws, statutes or regulations

(d) Special Seller warranties

For all FHA/VA Mortgages, the Seller further represents and warrants that:

- The FHA insurance or the VA guaranty is in full force and effect as of the Delivery Date
- The Seller has complied and will continue to comply with all applicable FHA and/or VA guidelines, regulations and requirements including, but not limited to, those relating to loan origination and Servicing

(e) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to FHA/VA Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

4205.5: Mortgage previously sold to the Government National Mortgage Association (GNMA) (03/02/16)

A Mortgage previously sold to the Government National Mortgage Association (GNMA) and repurchased from GNMA, or a Mortgage on which a GNMA price differential has been paid, is eligible for purchase by Freddie Mac, provided it meets all of the requirements of the Purchase Documents at the time it is offered for sale to Freddie Mac.

Chapter 4301: Refinance Mortgages

4301.1: Refinance Mortgages (08/30/21)

A refinance Mortgage is either:

1. A Mortgage the proceeds of which are used to pay off an existing Mortgage or Mortgages secured by the Mortgaged Premises with the cancelation of the existing promissory note(s) and the execution of a new promissory note and a new Security Instrument, or
2. A Mortgage secured by Mortgaged Premises previously owned free and clear by the Borrower

A Mortgage the proceeds of which are used to pay off an Interim Construction Financing must meet requirements of Chapter 4602 for Construction Conversion and Renovation Mortgages, including, but not limited to, how the transaction type (purchase or refinance) is determined.

Freddie Mac will purchase refinance Mortgages under the terms of the Purchase Documents and this chapter.

Freddie Mac offers the following types of refinance Mortgages:

- A “no cash-out” refinance, including:
 - Freddie Mac Enhanced Relief Refinance® Mortgages
 - Freddie Mac Refi PossibleSM Mortgages
- A cash-out refinance
- A special purpose cash-out refinance

4301.2: General requirements for all refinance Mortgages (09/06/22)

For all refinance Mortgages:

- The refinance Mortgage must comply with Section 4203.4
- When an existing Mortgage will be satisfied as a result of a refinance transaction, one of the following requirements must be met:

- At least one Borrower on the refinance Mortgage was a Borrower on the Mortgage being refinanced; or
- At least one Borrower on the refinance Mortgage held title to and resided in the Mortgaged Premises as a Primary Residence for the most recent 12-month period and the Mortgage file contains documentation evidencing that the Borrower has been making timely Mortgage payments, including the payments for any secondary financing, for the most recent 12-month period; or
- At least one Borrower on the refinance Mortgage inherited or was legally awarded the Mortgaged Premises (for example, in the case of divorce, separation or dissolution of a domestic partnership)

A Living Trust may be made irrevocable by a Settlor's death. To be an eligible Borrower at the time of the refinance transaction, the Borrower must continue to be a Living Trust that meets Freddie Mac's revocability and, as applicable, other eligibility requirements.

In addition, a refinance Mortgage that exceeds the thresholds under the Home Ownership and Equity Protection Act of 1994 and its implementing regulations is ineligible for purchase by Freddie Mac.

See Section 6302.16 for delivery and pooling requirements for refinance Mortgages sold to Freddie Mac.

4301.3: Refinance practices (08/30/21)

(a) Allowable refinance practices

A Seller/Servicer may present refinance or payoff information to any Borrower who requests such information. A Seller/Servicer may also conduct broad-based refinance advertising, telephone or other campaigns directed at broad categories of Borrowers such as:

- All Borrowers who have Mortgages in the Servicing portfolio (including those Mortgages owned by the Servicer as well as those it services for others)
- All Borrowers who have Mortgage coupons above a certain level
- All Borrowers who have certain Mortgage products, such as conventional fixed-rate Mortgages or ARMs
- All Borrowers whose Mortgages are secured by Mortgaged Premises located in certain geographical areas

(b) Unacceptable refinance practices

Except as stated in Section 4302.2 for Refi PossibleSM Mortgages, in advertising or implementing refinance terms, a Seller/Servicer may not intentionally target Freddie Mac-owned Mortgages. A Seller/Servicer also may not segregate Mortgages in its own portfolio from those sold to Freddie Mac for different treatment in terms of refinance advertising, offers or practices.

A Seller may not deliver any Mortgage to Freddie Mac obtained from a Mortgage Broker or Correspondent if the Seller has knowledge or reason to believe that the Mortgage Broker or Correspondent, as the case may be, has received an application to refinance or has agreed to refinance the Mortgage (even if the agreement is not in writing). It is likewise unacceptable to sell or deliver a Mortgage to Freddie Mac if the Seller has knowledge or reason to believe that the Borrower has entered into, or has agreed to enter into, a refinancing arrangement (even if the agreement is not in writing).

Freddie Mac expects the Seller/Servicer to monitor the prepayment levels of its Mortgages, particularly refinance Mortgages. If the Seller/Servicer becomes aware of circumstances likely to result in unusually high prepayment rates on Mortgages purchased from it by Freddie Mac, it must notify its Freddie Mac Account Manager immediately. If requested to do so by Freddie Mac, the Seller/Servicer is obligated to cooperate fully and promptly with Freddie Mac personnel and to provide adequate information in trying to determine the reason and a solution for any such high prepayment rates. Freddie Mac reserves the right to initiate on its own an investigation of high prepayment rates of a particular Seller/Servicer.

A Seller/Servicer must incorporate adequate controls in its origination and refinancing procedures to prevent unacceptable refinance practices by the Seller/Servicer or any of its Mortgage Brokers and Correspondents.

A Seller may not sell or deliver a Mortgage to Freddie Mac without full and accurate disclosure of all material information about the Mortgage (see Sections 6201.16, 4201.1, 4201.13 and 8101.8). Any information related to refinancing or proclivity for refinancing is considered material information to Freddie Mac. A Seller/Servicer that has any questions about compliance with Freddie Mac requirements should contact its Freddie Mac Account Manager (or other designated Freddie Mac personnel) to ensure compliance with Freddie Mac's requirements and to facilitate full and accurate disclosure of all pertinent information.

A Seller/Servicer that (i) engages in unacceptable refinance practices, (ii) knowingly sells or delivers Mortgages to Freddie Mac from Mortgage Brokers or Correspondents it knew, or should have known, were engaging in unacceptable refinance practices, or (iii) fails to maintain proper controls for such Mortgages being sold or delivered to Freddie Mac, will be subject to any or all of the remedies available to Freddie Mac at law or in equity and pursuant to this Guide and relevant Purchase Documents. Those remedies include, but are not limited to, disqualification, suspension and/or requiring the Seller/Servicer to make Freddie Mac whole for losses, including losses associated with repurchases at par for Mortgages purchased at premium prices and/or losses associated with claims made by security investors.

With respect to claims by such investors, the disposition of such claims is solely within the discretion of Freddie Mac.

When a Seller originates a cash-out refinance Mortgage or a purchase transaction Mortgage with the intention of refinancing that Mortgage as a “no cash-out” refinance Mortgage prior to sale to Freddie Mac, the “no cash-out” refinance Mortgage is ineligible for sale to Freddie Mac. See Section 4301.4 for requirements related to the required age of the Mortgage being refinanced when the subject transaction is a “no cash-out” refinance Mortgage.

4301.4: “No cash-out” refinance Mortgages (05/04/22)

A “no cash-out” refinance Mortgage must meet the applicable requirements in Sections 4301.2 and 4203.4.

A “no cash-out” refinance Mortgage is a Mortgage for which the proceeds may be used only to:

- Pay off the first Mortgage, regardless of its age, used to acquire the property; for Construction Conversion Mortgages and Renovation Mortgages, the amount of the Interim Construction Financing secured by the Mortgaged Premises is considered an amount used to pay off the first Mortgage
- Pay off the first Mortgage, originated as a refinance transaction, with a Note Date no less than thirty days prior to the Note Date of the “no cash-out” refinance Mortgage, as documented in the Mortgage file (e.g., on the credit report or the title commitment); for Construction Conversion Mortgages and Renovation Mortgages, the amount of the Interim Construction Financing secured by the Mortgaged Premises is considered an amount used to pay off the first Mortgage
- Pay off or pay down any junior liens secured by the Mortgaged Premises, that were used in their entirety to acquire the subject property. Any remaining balance must be subordinated to the refinance Mortgage.
- Pay related Closing Costs

Note: Real estate taxes that are past due and/or delinquent, as defined by the taxing authority, may not be paid with the proceeds of the “no cash-out” refinance Mortgage, except that if the transaction results in cash out as permitted in the following bullet, these funds may be used to pay the delinquent taxes.

- Disburse cash out to the Borrower (or any other payee) up to the greater of 1% of the new refinance Mortgage or \$2,000
- Pay off the outstanding balance of a land contract or contract for deed if the requirements in Section 4404.1 are met

- Pay off a Property Assessed Clean Energy (PACE) or PACE-like obligation, subject to the additional requirements in Section 4301.8
- For GreenCHOICE® Mortgages, pay off existing debts incurred to make energy and/or water efficiency improvements, with such debt being limited to 15% of the appraised value, subject to the additional requirements in Section 4606.4(b)
- For GreenCHOICE Mortgages, finance energy and/or water efficiency improvements, subject to the additional requirements in Section 4606.4(a)
- For CHOICERenovation® Mortgages, pay off the existing Mortgage debt and/or finance the eligible renovations described in Section 4607.6, subject to the additional requirements in Sections 4607.8(b) and 4607.8(c), as applicable

In the event there are remaining proceeds from the “no cash-out” refinance Mortgage after the proceeds are applied as described above:

- The Mortgage amount must be reduced, or
- The excess amount must be applied as a principal curtailment to the new refinance Mortgage at closing and must be clearly reflected on the Settlement/Closing Disclosure Statement

Under no circumstances may cash disbursed to the Borrower (or any other payee) exceed the maximum permitted for “no cash-out” refinance Mortgages.

See Section 4302.5 for special requirements for use of proceeds of a Refi PossibleSM Mortgage.

(a) Secondary financing

The Borrower is not required to satisfy outstanding junior liens secured by the Mortgaged Premises, provided that the junior lien meets the requirements of Section 4204.1 and/or 4204.2, as applicable.

(b) Special documentation requirements

If a junior lien was paid off as part of the “no cash-out” refinance transaction, the Seller must maintain documentation in the Mortgage file demonstrating that the full amount of the lien was used for the purchase of the subject property.

(c) Delivery and pooling

See Section 6302.16 for delivery and pooling requirements for “no cash-out” refinance Mortgages.

See Section 6302.35 for delivery and pooling requirements if a principal curtailment is applied to the “no cash-out” refinance Mortgage at closing.

4301.5: Cash-out refinance Mortgages (03/07/23)

A cash-out refinance Mortgage must meet the applicable requirements in Sections 4203.4 and 4301.2.

A cash-out refinance Mortgage must be an Accept Mortgage or a Manually Underwritten Mortgage with a minimum Indicator Score set forth in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements, to be eligible for delivery.

A cash-out refinance Mortgage is a Mortgage in which the use of the loan amount is not limited to specific purposes.

Cash-out refinance Mortgage used to pay off a First Lien Mortgage

When proceeds of a cash-out refinance Mortgage are used to pay off a First Lien Mortgage, the First Lien Mortgage being refinanced must be seasoned for at least 12 months (i.e., at least 12 months must have passed between the Note Date of the Mortgage being refinanced and the Note Date of the cash-out refinance Mortgage), as documented in the Mortgage file (e.g., on the credit report or title commitment).

The requirement that the Mortgage being refinanced must be seasoned for at least 12 months does not apply when:

- The cash-out refinance Mortgage is a special purpose cash-out refinance Mortgage that meets the requirements in Section 4301.6, or
- The First Lien Mortgage being refinanced is a Home Equity Line of Credit (HELOC)

Cash-out refinance Mortgage on a property owned free and clear

A Mortgage placed on a property previously owned free and clear by the Borrower is considered a cash-out refinance Mortgage, except for

- CHOICERenovation® Mortgages when proceeds are used only to finance the eligible renovations as described in Section 4607.6. These CHOICERenovation Mortgages are considered “no cash-out” refinance Mortgages. For more information, see Sections 4301.4 and 4607.4(b).
- GreenCHOICE® Mortgages when proceeds are used only to finance eligible energy and/or water efficiency improvements as described in Section 4606.4(a). These GreenCHOICE Mortgages are considered “no cash-out” refinance Mortgages. For more information, see Sections 4301.4 and 4606.4(a).

At least one Borrower must have been on the title to the subject property for at least six months prior to the Note Date, except as specified below:

- For cases in which the property is a leasehold estate, at least one Borrower must have been lessee on the ground lease or lease agreement of the subject leasehold estate for at least six months
- For cases in which the property is a Cooperative Unit, at least one Borrower must have held Cooperative Shares corresponding to the Cooperative Unit that is the subject of the Cooperative Share Loan for at least six months
- For cases in which title to the property is held by a limited liability company (LLC) or limited partnership (LP), the time the property was titled in the name of the LLC or LP may be included in the six-month requirement provided:
 - At least one Borrower must have been the majority owner or had control of the LLC or LP since the date the property was acquired by the LLC or LP, and
 - Title must be transferred from the LLC or LP into the Borrower's name prior to the Note Date

If none of the Borrowers have been on the title to the subject property for at least six months prior to the Note Date of the cash-out refinance Mortgage, the following requirement(s) must be met:

- At least one Borrower on the refinance Mortgage inherited or was legally awarded the subject property (for example, in the case of divorce, separation or dissolution of a domestic partnership)

OR, all of the following (for Borrowers seeking delayed financing):

- The Settlement/Closing Disclosure Statement or an alternative form required by law from the purchase transaction must reflect that no financing secured by the subject property was used to purchase the subject property. A recorded trustee's deed or equivalent documentation may be used when a Settlement/Closing Disclosure Statement or an alternative form required by law was not used for the purchase transaction.
- The preliminary title report for the refinance transaction must reflect the Borrower as the owner of the subject property and must reflect that there are no liens on the property
- The source of funds used to purchase the subject property must be fully documented
- If funds were borrowed to purchase the subject property:
 - Cash-out proceeds must be used to pay off or pay down the borrowed funds, as reflected on the Settlement/Closing Disclosure Statement for the refinance transaction
 - Additional cash-out is permitted only when all borrowed funds are paid in full

- The payment on any remaining outstanding balance of the borrowed funds must be included in the debt payment-to-income ratio as described in Section 5401.2
- The amount of the refinance Mortgage must not exceed the sum of the original purchase price and related Closing Costs as documented by the Settlement/Closing Disclosure Statement or an alternative form required by law for the purchase transaction, less any gift funds used to purchase the subject property. A recorded trustee's deed or equivalent documentation may be used when a Settlement/Closing Disclosure Statement or an alternative form required by law was not used for the purchase transaction.
- There must have been no affiliation or relationship between the buyer and seller of the purchase transaction

(a) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to certain cash-out refinance Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

(b) Delivery and pooling

See Section 6302.16 for delivery and pooling requirements for cash-out refinance Mortgages.

4301.6: Special purpose cash-out refinance Mortgages (05/04/22)

A cash-out refinance Mortgage where the owner of a property uses the proceeds of the refinance transaction to buy out the equity of a co-owner is a special purpose cash-out refinance Mortgage. A special purpose cash-out refinance Mortgage must meet the applicable requirements of Section 4301.2, the loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio requirements for cash-out refinance Mortgages in Sections 4203.4, 5703.3, and 4603.3, and the minimum Indicator Score requirements in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

The loan amount of a special purpose cash-out refinance Mortgage is limited to amounts used to buy out the equity of the co-owner, which may include:

- Paying off the first Mortgage, regardless of age
- Paying off junior liens secured by the Mortgaged Premises
- Paying related Closing Costs

In addition, the following conditions must be met:

- The Borrower and the co-owner receiving the buy-out proceeds must have jointly owned the property for a minimum of 12 months prior to the initial loan application (parties who inherited an interest in the property are exempt from this requirement)
- The Borrower and the co-owner receiving the buy-out proceeds must provide evidence that they occupied the subject property as their Primary Residence (parties who inherited an interest in the property are exempt from this requirement)
- The Borrower and the co-owner receiving the buy-out proceeds must provide a written agreement, signed by all parties, stating the terms of the property transfer and the disposition of the proceeds from the refinancing transaction
- The Borrower who retains sole ownership of the property may not receive any of the proceeds from the refinance transaction

(a) Secondary financing

The Borrower is not required to satisfy outstanding junior liens secured by the Mortgaged Premises provided that the junior lien meets the requirements of Section 4204.1 and/or 4204.2, as applicable.

(b) Special documentation requirements

The Seller must retain the following in the Mortgage file:

- Documentation evidencing that the Borrower and the co-owner jointly occupied the Mortgaged Premises as their Primary Residence, if applicable
- A copy of the written agreement stating the terms of property transfer and the disposition of the refinance proceeds

(c) Credit Fees

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to special purpose cash-out refinance Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

(d) Delivery and pooling

See Section 6302.16 for delivery and pooling requirements for special purpose cash-out refinance Mortgages.

4301.7: Texas Equity Section 50(a)(6) Mortgages (10/06/21)

(a) Eligibility to sell and service Texas Equity Section 50(a)(6) Mortgages

Unless otherwise notified in writing, Sellers are eligible to deliver Texas Equity Section 50(a)(6) Mortgages.

The Servicer must be eligible to service Texas Equity Section 50(a)(6) Mortgages in accordance with Section 8104.1 and related Servicing provisions.

(b) Eligible Mortgages

A Texas Equity Section 50(a)(6) Mortgage must be a conventional First Lien Mortgage that is a:

- Fixed-rate Mortgage, or
- 3/6-Month, 5/6-Month, 7/6-Month or 10/6-Month ARM

A Texas Equity Section 50(a)(6) Mortgage must be a cash-out refinance Mortgage, as described in Section 4301.5, or a “no cash-out” refinance Mortgage as described in Section 4301.4, depending on the applicable facts.

A Texas Equity Section 50(a)(6) Mortgage may not be a special purpose cash-out refinance Mortgage.

The generally accepted commercial terms used to describe Mortgages originated under Article XVI of the Texas Constitution (“cash-out refinance,” “rate-term refinance”) may not correspond to the meaning given the same or comparable terms when used in Chapter 4301. Sellers must understand the distinctions between Freddie Mac’s refinance definitions in Chapter 4301 and the provisions of Section 50(a)(6) and determine when Section 50(a)(6) applies, regardless of the definitions of cash-out and “no cash out” refinance transactions used in Chapter 4301.

The Seller is responsible for determining whether the proposed refinance of a Mortgage secured by the Borrower’s homestead in the State of Texas is a Mortgage that must be originated pursuant to Section 50(a)(6) of Article XVI of the Texas Constitution.

(c) Refinances of Texas Equity Section 50(a)(6) Mortgages

Seller may refinance a Texas Equity Section 50(a)(6) Mortgage into (i) another Texas Equity Section 50(a)(6) Mortgage, or (ii) a refinance Mortgage permitted by Section 50(a)(4) of Article XVI of the Texas Constitution (a “Section 50(a)(4) Mortgage”). Section 50(a)(4) Mortgages used to pay off a Texas Equity Section 50(a)(6) Mortgage and meeting all applicable Texas Constitutional requirements are not subject to the requirements of this section and are eligible for sale to Freddie Mac as “no cash-out” refinance Mortgages, provided all requirements of Section 4301.4 are met.

(d) Mortgaged Premises; appraisal; fair market value

Each Mortgage must be secured by a Mortgaged Premises that is:

- A 1-unit Primary Residence
- Located in the State of Texas, and
- The Borrower's homestead

A Living Trust that meets the eligibility requirements of Section 5103.5 may be a Borrower for a Texas Equity Section 50(a)(6) Mortgage if the Living Trust meets the requirements for a "qualifying trust" under Texas law for purposes of owning residential property that qualifies for the homestead exemption.

The Seller must provide an appraisal that meets Freddie Mac requirements and complies with Section 50(a)(6)(Q)(ix) and Section 50(h) of Article XVI of the Texas Constitution.

The Seller and the owner of the homestead must execute a written acknowledgment of the "fair market value" of the homestead property as of the date the extension of credit is made. The appraisal report must be attached to the acknowledgment.

(e) LTV and TLTVA Ratios

The maximum loan-to-value (LTV) and total LTV (TLTV) ratios for Texas Equity Section 50(a)(6) Mortgages must not exceed 80% and must be lower if necessary to comply with the provisions of Sections 4203.4 and 4301.4 for "no cash out" and cash out refinances, as applicable.

(f) Texas Equity Uniform Instruments and other documents

Texas Equity Section 50(a)(6) Mortgages must be originated using the most recent version of the following special Fannie Mae/Freddie Mac Texas Home Equity Uniform Instruments:

(i) Note

- Texas Home Equity Note (Fixed Rate - First Lien) - Fannie Mae/Freddie Mac UNIFORM INSTRUMENT Form 3244.1
- Texas Home Equity Fixed/Adjustable Rate Note – 30-day Average SOFR (First Lien) Form 3442.44

(ii) Security Instrument

Texas Home Equity Security Instrument (First Lien) - Fannie Mae/Freddie Mac UNIFORM INSTRUMENT Form 3044.1

(iii)Rider

Texas Home Equity Fixed/Adjustable Rate Rider – 30-day Average SOFR (First Lien)
Form 3142.44

(iv)Borrower Affidavit

Texas Home Equity Affidavit and Agreement (First Lien) - Fannie Mae/Freddie Mac UNIFORM INSTRUMENT Form 3185. The affidavit must be recorded together with the Security Instrument and any applicable riders.

(v) Condominium Rider

Texas Home Equity Condominium Rider - Fannie Mae/Freddie Mac UNIFORM INSTRUMENT Form 3140.44, if the property is a Condominium Unit

(vi)Planned Unit Development (PUD) Rider

Texas Home Equity Planned Unit Development Rider - Fannie Mae/Freddie Mac UNIFORM INSTRUMENT Form 3150.44, if the property is in a PUD.

Seller may access the Fannie Mae/Freddie Mac Texas Home Equity Uniform Instruments at <https://sf.freddiemac.com/tools-learning/uniform-instruments/overview>.

The Seller must prepare, obtain and/or provide any and all other documentation that the Seller determines is necessary to originate Texas Equity Section 50(a)(6) Mortgages in compliance with all applicable laws.

(g) Special representations and warranties

Seller represents and warrants that:

1. Neither the Seller nor its Correspondents or Mortgage Brokers has been found by any federal regulatory agency to have engaged in the practice of refusing to make loans because the applicants for the loans reside in a certain area or the property proposed to secure the loans is located in a certain area
2. All refinance Mortgages that fall within the provisions of Section 50(a)(6) of the Article XVI of the Texas Constitution have been originated as Texas Equity Section 50(a)(6) Mortgages and comply with Section 50(a)(6) of Article XVI and related provisions of the Texas Constitution, as amended, and all other applicable laws

In connection with this representation and warranty, Freddie Mac recommends that the Seller obtain advice from Texas legal counsel that confirms that the Seller's lending and servicing policies, procedures, and practices are in compliance with Section 50(a)(6) of

Article XVI of the Texas Constitution, all other applicable Texas Constitutional provisions, statutes, court decisions, regulations and rules and applicable State and federal law.

3. The estate or interest in the Mortgaged Premises is vested in the Borrower. There is no defect in the Borrower's title to the Mortgaged Premises
4. The Mortgage is a valid and enforceable First Lien on the Mortgaged Premises

(h) Specific remedies

Any action taken, or not taken, in connection with the origination of a Texas Equity Section 50(a)(6) Mortgage that results in any of the following (even if such action is a result of lender's effort to cure a failure to comply with the provision of the Section 50(a)(6)) is a breach of the representations and warranties in this Section 4301.7 and Freddie Mac shall be entitled to any of the remedies stated in Section 3601.1, including the right to require the Seller to repurchase the Mortgage immediately upon Freddie Mac's request, at a price determined in accordance with Section 3602.4:

- A forfeiture of any principal or interest due under the Mortgage
- The invalidation of the Mortgage as a First Lien
- The abatement of accrual of interest and the Borrower's obligations under the Mortgage
- A reduction in the principal amount of the Mortgage
- Any modification of the amount, interest rate, term or other provision of the Mortgage

(i) Delivery and pooling

See Section 6302.16 for delivery and pooling requirements for Texas Equity Section 50(a)(6) Mortgages.

(j) Related provisions

In addition to the requirements in this section, other requirements related to Texas Equity Section 50(a)(6) Mortgages are described in the following locations:

Topic	Location
Delivery Requirements	Section 6302.16
Refinance Mortgages	Chapter 4301
Title Insurance	Section 4702.1, 4702.3 and 4702.5

4301.8: Refinance of Mortgages secured by properties subject to an energy retrofit loan (10/02/19)

For the purposes of the Guide, a Property Assessed Clean Energy (PACE) or PACE-like obligation (either referred to as a “PACE obligation”) refers to any energy retrofit loan that is:

- Used to finance energy efficiency improvements, and
- Repaid through a property tax assessment

For the “no-cash out” refinance of Mortgages secured by properties subject to PACE obligations that result in or provide for First Lien priority and where the PACE obligations are paid off with the Mortgage proceeds, the following requirements apply:

- The new refinance Mortgage must be originated in accordance with the requirements of Section 4301.4
- The Mortgage being refinanced must be owned in whole or in part or securitized by Freddie Mac
- The PACE obligation must be paid in full
- The Mortgage file must include evidence that the obligation being paid off is a PACE obligation that results in or provides for First Lien priority
- The Seller must deliver the Mortgage in accordance with the special delivery instructions for a Freddie Mac-owned “no cash-out” refinance Mortgage in Section 6302.16(b)(ii)

For the cash-out refinance of Mortgages secured by properties subject to PACE obligations and where the PACE obligations are paid off with the Mortgage proceeds, the following requirements apply:

- The new refinance Mortgage must be originated in accordance with the requirements of Section 4301.5
- If the PACE obligation results in or provides First Lien priority, the PACE obligation must be paid in full with the Mortgage proceeds

Mortgages secured by properties that are energy efficient and are also subject to PACE obligations may be eligible for purchase under the provisions of Chapter 4606.

Chapter 4302: Freddie Mac Refi PossibleSM Mortgages

4302.1: Purchase of Refi PossibleSM Mortgages (08/30/21)

Refi PossibleSM is a “no cash-out” refinance offering for low-income Borrowers originated in accordance with the Guide and this chapter.

4302.2: Acceptable refinance practices (08/30/21)

(a) Advertising and solicitation

The Seller may target Mortgages owned or securitized by Freddie Mac for the Refi PossibleSM offering, provided that the Borrower’s income is less than or equal to 100% of the area median income (AMI) and the Seller simultaneously applies the same advertising and solicitation activities with respect to Borrowers with Mortgages owned or securitized by Fannie Mae.

(b) Advertising and other communications with Borrowers

If a Seller chooses to reach out to Borrowers and the Seller’s communication includes a reference to Freddie Mac, then the communication must also include the following (or substantively similar) verbiage:

- (i) Freddie Mac and Fannie Mae have adopted a new refinance option for Mortgages to Borrowers with incomes at or below 100% of the area median income. If your Mortgage is owned or guaranteed by either Freddie Mac or Fannie Mae, you may be eligible to refinance your Mortgage under one of these refinance options.

You can determine whether your Mortgage is owned by Freddie Mac by checking Freddie Mac’s website at <https://loanlookup.freddiemac.com/>.

4302.3: Eligibility requirements for the Mortgage being refinanced (01/31/22)

The following eligibility requirements apply to the Mortgage being refinanced under the Freddie Mac Refi PossibleSM offering:

Topic	Eligibility requirements for Mortgage being refinanced
General eligibility requirements	<p>The Mortgage being refinanced must:</p> <ul style="list-style-type: none"> ■ Be a First Lien, conventional Mortgage currently owned by Freddie Mac, in whole or in part, or securitized by Freddie Mac ■ Be seasoned for at least 12 months (i.e., the Note Date of the Mortgage being refinanced must be at least 12 months prior to the Note Date of the Refi Possible Mortgage)
Ineligible Mortgages	<p>The Mortgage being refinanced must not be:</p> <ul style="list-style-type: none"> ■ A Freddie Mac Relief Refinance MortgageSM ■ A Freddie Mac Enhanced Relief Refinance[®] Mortgage ■ A Refi Possible Mortgage ■ A Mortgage subject to an outstanding repurchase request ■ A Mortgage subject to recourse, indemnification, or another credit enhancement other than mortgage insurance unless requirements in Section 4302.6 are met
Payment history	<p>The Mortgage being refinanced must have a payment history that indicates the following:</p> <ul style="list-style-type: none"> ■ The Mortgage has not been 30 days delinquent in the most recent six months, and ■ The Mortgage has not been 30 days delinquent more than once in the most recent 12 months, and ■ The Mortgage has not been 60 or more days delinquent in the most recent 12 months <p>The credit report can be relied on for determination of payment history through the date the Mortgage tradeline was last reported.</p> <p>The Seller is responsible for the payment history between the date the Mortgage tradeline was last reported and the Note Date. If the Borrower has missed payments due to COVID-19 forbearance and those payments have been resolved according to the temporary eligibility requirements in Bulletin 2020-17, those missed payments are not considered delinquencies for the purpose of meeting the payment history requirements.</p>
Loan Product Advisor[®] assessment	<p>Loan Product Advisor will assess whether the Mortgage being refinanced complies with the above eligibility requirements with the following exceptions:</p> <ul style="list-style-type: none"> ■ The Seller is responsible for ensuring the Mortgage is seasoned at least 12 months and no more than 120 months as of the Note Date of the Refi Possible Mortgage, and ■ The Seller must consider the payment history after the date the Mortgage

Topic	Eligibility requirements for Mortgage being refinanced
	tradeline is last reported on the credit report and through the Note Date when determining whether the payment history requirements have been met

4302.4: Borrower eligibility (01/31/22)

The following Borrower eligibility requirements apply to Freddie Mac Refi PossibleSM Mortgages:

Topic	Borrower eligibility requirements
Borrower income	<ul style="list-style-type: none"> ■ The Borrower's qualifying income converted to an annual basis must not exceed 100% of the area median income (AMI) for the location of the Mortgaged Premises. ■ To determine if the Borrower's income exceeds the income limits, the Seller must rely on the income used to qualify the Borrower ■ For Loan Product Advisor Mortgages, Loan Product Advisor will use the income used to qualify the Borrower that was submitted to determine the income eligibility of the Mortgage ■ For non-Loan Product Advisor Mortgages, the Seller must use the Home Possible® Income & Property Eligibility tool. The Seller may not use other published AMI versions (such as AMIs posted on https://www.huduser.gov/portal/home.html) to determine Mortgage or product eligibility.
Change in Borrowers	<ul style="list-style-type: none"> ■ The Borrower(s) obligated on the Note for the Refi Possible Mortgage must be the same as the Borrower(s) obligated on the Note for the Mortgage being refinanced, except that a Borrower obligated on the Note for the Mortgage being refinanced may be omitted from the Note for the Refi Possible Mortgage provided that: <ul style="list-style-type: none"> □ The Mortgage file contains evidence that the remaining Borrower has been making the Mortgage payments, including the payments for any secondary financing, for the most recent 12-month period from their own funds; or □ In the case of death, the Seller obtains and retains in the Mortgage file documentation of the Borrower's death ■ In all cases, at least one Borrower from the Mortgage being refinanced must be retained

4302.5: Special eligibility and underwriting requirements for Refi PossibleSM (04/06/22)

The following table describes the special requirements for Refi PossibleSM Mortgages:

Topic	Special eligibility and underwriting requirements for Refi Possible Mortgages (Applicable to Loan Product Advisor[®] Mortgages and Manually Underwritten Mortgages, except as specifically stated otherwise)
Underwriting path	<p>The Refi Possible Mortgage must be:</p> <ul style="list-style-type: none">■ Submitted to Loan Product Advisor in accordance with the requirements of Chapter 5101, or■ Manually underwritten in accordance with the requirements of the Guide except as specifically stated otherwise in this chapter. The Mortgage must be otherwise eligible for manual underwriting in accordance with the Guide.
General eligibility requirements	<ul style="list-style-type: none">■ The Refi Possible Mortgage must be a fixed-rate Mortgage■ The Refi Possible Mortgage must not be:<ul style="list-style-type: none"><input type="checkbox"/> A Mortgage with a temporary interest rate buydown<input type="checkbox"/> A super conforming Mortgage<input type="checkbox"/> Originated pursuant to Section 50(a)(6) of Article XVI of the Texas Constitution. Refer to Section 4301.7 for additional information regarding Texas Equity Section 50(a)(6) Mortgages.
Secondary financing	<p>An existing junior lien:</p> <ul style="list-style-type: none">■ Must be subordinated to the Refi Possible Mortgage and must meet requirements for secondary financing in Chapter 4204■ May be refinanced simultaneously with the existing First Lien provided that:<ul style="list-style-type: none"><input type="checkbox"/> The unpaid principal balance (UPB) of the new junior lien is not more than the UPB, at the time of payoff, of the junior lien being refinanced,<input type="checkbox"/> There is no increase in the monthly Principal and Interest payment of the junior lien <p>No new subordinate financing is permitted, except to replace existing subordinate financing as stated above.</p>
Occupancy and property eligibility	<ul style="list-style-type: none">■ The Refi Possible Mortgage must be secured by a one-unit Primary Residence■ The Mortgaged Premises must be an attached or detached dwelling, a Manufactured Home, a unit in a Condominium Project or Planned Unit Development, or, if the Seller is permitted to deliver Cooperative Share Loans

Topic	Special eligibility and underwriting requirements for Refi Possible Mortgages (Applicable to Loan Product Advisor® Mortgages and Manually Underwritten Mortgages, except as specifically stated otherwise)								
	under its Purchase Documents, a Cooperative Unit ■ For Mortgages secured by Condominium Units or Cooperative Share Loans, the Seller is not required to evaluate if the Condominium or Cooperative Project meets the project eligibility requirements, provided that: <ul style="list-style-type: none"> □ The Seller represents and warrants that the project is not located in a Condominium Hotel or a cooperative hotel, houseboat project, timeshare project or project with segmented ownership; and □ The project has insurance that meets the applicable insurance requirements of Chapter 4703 								
Maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios	<table border="1" data-bbox="512 747 1462 1142"> <thead> <tr> <th data-bbox="512 747 1067 868">Property/transaction type</th><th data-bbox="1067 747 1462 868">Max LTV/TLTV/ HTLTV ratios</th></tr> </thead> <tbody> <tr> <td data-bbox="512 868 1067 925">1-unit other than Manufactured Homes</td><td data-bbox="1067 868 1462 925">97%*</td></tr> <tr> <td data-bbox="512 925 1067 982">Manufactured Homes</td><td data-bbox="1067 925 1462 982">95%</td></tr> <tr> <td data-bbox="512 982 1067 1142">Mortgage with a non-occupying Borrower, whether or not secured by a Manufactured Home</td><td data-bbox="1067 982 1462 1142">95%*</td></tr> </tbody> </table> <p data-bbox="512 1142 1543 1220">*A TLTV ratio up to 105% is permitted when the Mortgage is not secured by a Manufactured Home and secondary financing is an Affordable Second®.</p>	Property/transaction type	Max LTV/TLTV/ HTLTV ratios	1-unit other than Manufactured Homes	97%*	Manufactured Homes	95%	Mortgage with a non-occupying Borrower, whether or not secured by a Manufactured Home	95%*

	commission income	and the earnings for the most recent calendar year and ■ 10-day pre-closing verification of employment
	Military income (basic pay, entitlements, Reserve and National Guard income)	YTD Military Leave and Earnings Statement
	Self-employment	■ Complete federal individual and business income tax returns for the most recent one-year period, and ■ Verification of the current existence of the business through a third-party source obtained either no more than 120 calendar days prior to Note Date or after the Note Date but prior to the Delivery Date
	Alimony, child support or separate maintenance	■ Documentation to evidence receipt of the alimony, child support and/or separate maintenance payment amount for the most recent one month, and ■ Copy of the signed court order, legally binding separation agreement and/or final divorce decree verifying the payor's obligation for the previous one month, including the amount and the duration of the obligation
	■ All other income types must be documented in accordance with the Streamlined Accept and Standard Documentation Level requirements in Topic 5300 ■ All other documentation requirements, including Chapter 5302 and additional requirements for certain employment characteristics in Section 5303.2, apply	
Asset documentation requirements	■ When funds required for closing are more than \$500, sufficient Borrower funds must be documented in accordance with Topic 5500, except that funds in a depository, securities or retirement account used for closing must be documented with one-month account statement or a direct account verification ■ When funds required for closing are \$500 or less, verification of funds is not	

Topic	Special eligibility and underwriting requirements for Refi Possible Mortgages (Applicable to Loan Product Advisor® Mortgages and Manually Underwritten Mortgages, except as specifically stated otherwise)
	required
Property valuation requirements	<ul style="list-style-type: none"> ■ The Seller must obtain an appraisal with an interior and exterior inspection that meets the requirements of Topic 5600 unless the Last Feedback Certificate includes an automated collateral evaluation offer stating that the Mortgage is eligible for collateral representation and warranty relief with an appraisal waiver and the Seller has accepted the offer. See Section 5602.3 for more information on automated collateral evaluation. ■ Refi Possible Mortgages secured by Manufactured Homes must meet the appraisal and valuation requirements of Chapter 5703 and are not eligible for automated collateral evaluation or appraisal waiver ■ An appraisal cost offset credit will be provided if an appraisal was obtained for the transaction and the loan is delivered without an appraisal waiver ■ The appraisal cost offset credit as described in Exhibit 19 must be passed to the Borrower
Negotiated provisions	Unless specifically made applicable to Refi Possible Mortgages, negotiated underwriting provisions that impact the underwriting or eligibility requirements of Refi Possible Mortgages must not be used with these Mortgages.

4302.6: Credit enhancements (08/30/21)

(a) Mortgages with recourse and indemnification

A Refi PossibleSM Mortgage that is a refinance of a Mortgage with recourse or indemnification is eligible to be delivered to Freddie Mac if:

- (i) The Seller of the Refi Possible Mortgage is also the Servicer on the Mortgage being refinanced
- (ii) The Mortgage is delivered with recourse or indemnification; and
- (iii) The Mortgage meets the requirements in the table below:

If...	Then...
■ The Mortgage being refinanced was sold to Freddie Mac with recourse or	The Refi Possible Mortgage must be sold to Freddie Mac with recourse or indemnification, as

If...	Then...
<p>indemnification for the life of the Mortgage, or</p> <ul style="list-style-type: none"> ■ The Mortgage was credit enhanced with recourse or indemnification for the life of the Mortgage after it was sold to Freddie Mac 	applicable, for the life of the Mortgage.
<ul style="list-style-type: none"> ■ The Mortgage being refinanced was sold to Freddie Mac with recourse or indemnification for a term that is less than the life of the Mortgage, or ■ The Mortgage was credit enhanced with recourse or indemnification for a term that is less than the life of the Mortgage after it was sold to Freddie Mac 	The Refi Possible Mortgage must be sold to Freddie Mac with recourse or indemnification, as applicable, with the same remaining term as the credit enhancement on the Mortgage being refinanced.

(b) Mortgages with pool insurance or another negotiated credit enhancement

If the Mortgage being refinanced has Mortgage pool insurance or another negotiated credit enhancement, it is eligible for refinancing provided the LTV ratio of the Refi Possible Mortgage is less than or equal to 80%. Refi Possible Mortgages with LTV ratios greater than 80% that are refinances of Mortgages with pool insurance or another negotiated credit enhancement are eligible to be delivered to Freddie Mac only if they are delivered with the same credit enhancement and the Seller of the Refi Possible Mortgage is the Servicer of the Mortgage being refinanced.

4302.7: Delivery and pooling (08/30/21)

See Section 6302.46 for delivery requirements for Refi PossibleSM Mortgages.

4302.8: Credit Fees (05/04/22)

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to Refi PossibleSM Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4303: Freddie Mac Relief Refinance MortgagesSM – Open Access

Effective October 2, 2019, Chapter 4303 is deleted.

4303.1: Freddie Mac Relief Refinance MortgagesSM – Open Access (10/02/19)

Effective October 2, 2019, Section 4303.1 is deleted.

4303.2: Freddie Mac Relief Refinance MortgagesSM – Open Access: Eligibility requirements, eligible Mortgages and ineligible Mortgages (10/02/19)

Effective October 2, 2019, Section 4303.2 is deleted.

4303.3: Requirements for Freddie Mac Relief Refinance MortgagesSM – Open Access (10/02/19)

Effective October 2, 2019, Section 4303.3 is deleted.

4303.4: Delivery and pooling requirements for Freddie Mac Relief Refinance MortgagesSM – Open Access (10/02/19)

Effective October 2, 2019, Section 4303.4 is deleted.

4303.5: Credit Fees in Price and other assessments and credits for Freddie Mac Relief Refinance MortgagesSM – Open Access (10/02/19)

Effective October 2, 2019, Section 4303.5 is deleted.

4303.6: Other Guide provisions related to Freddie Mac Relief Refinance MortgagesSM – Open Access (10/02/19)

Effective October 2, 2019, Section 4303.6 is deleted.

Chapter 4304: Freddie Mac Enhanced Relief Refinance® Mortgages

4304.1: General eligibility requirements for Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.2: Underwriting Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.3: Minimum and maximum LTV, TLTV and HTLTV ratios for Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.4: Borrower eligibility for Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.5: Additional underwriting requirements for certain Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.6: Incentives and contributions for Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.7: Property eligibility and valuation for Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.8: Mortgage insurance and credit enhancements for Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

4304.9: Cash adjustor under fixed-rate Cash for Freddie Mac Enhanced Relief Refinance® Mortgages (09/01/21)

Enhanced Relief Refinance® Mortgages with Application Received Dates on or after July 1, 2021 and all Enhanced Relief Refinance Mortgages with Settlement Dates after August 31, 2021 are not eligible for delivery until further notice.

Chapter 4305: Purchase Transaction Mortgages

4305.1: General requirements for all purchase transaction Mortgages (10/02/19)

(a) Purchase transaction Mortgages

A purchase transaction Mortgage is a Mortgage the proceeds of which are used to:

- Acquire the Mortgaged Premises, or
- Acquire the Mortgaged Premises and finance improvements to the property as permitted under the Seller's Purchase Documents, or
- Pay off an Interim Construction Financing in accordance with requirements of Chapter 4602 for Construction Conversion and Renovation Mortgages, or
- Pay off the outstanding balance under a land contract or contract for deed in accordance with requirements of Chapter 4404

(b) Cash back on purchase transaction Mortgages

The Borrower may receive cash back, or a principal curtailment may be made, only as a result of the following:

- Reimbursement for the overpayment of costs, fees and charges paid by the Borrower in connection with the purchase transaction Mortgage. Examples of such overpayments include, but are not limited to, an earnest money deposit exceeding the required down payment amount, a fee paid at loan application that is covered by a financing concession (as described in Section 5501.5(b)) at loan closing, a Closing Cost that is reduced after closing, or gift funds given at loan closing and exceeding the amount needed for closing
- In jurisdictions where real estate taxes are paid in arrears, receipt of funds from the property seller for real estate taxes that cover a period prior to the Note Date
- Refunds mandated by federal laws or regulations

The minimum Borrower contribution, if applicable, must be met at closing (See Sections 5501.3(b)(i) and 4501.10). If the projected cash back, as described above, results in the Borrower not meeting the minimum Borrower contribution at closing, the excess amount of the cash back must be applied as a principal curtailment.

Any cash back or principal curtailment, as described above, must be reflected on the Settlement/Closing Disclosure Statement. In instances of reimbursement for the overpayment of costs, fees and charges, and/or refunds mandated by federal law or regulation, the Mortgage file must include documentation supporting the amount and the reason for the reimbursement and/or refund.

4305.1: General requirements for all purchase transaction Mortgages (Future effective date 10/02/23)

(a) Purchase transaction Mortgages

A purchase transaction Mortgage is a Mortgage the proceeds of which are used to:

- Acquire the Mortgaged Premises, or
- Acquire the Mortgaged Premises and finance improvements to the property as permitted under the Seller's Purchase Documents, or
- Pay off an Interim Construction Financing in accordance with requirements of Chapter 4602 for Construction Conversion and Renovation Mortgages, or
- Pay off the outstanding balance under a land contract or contract for deed in accordance with requirements of Chapter 4404

(b) Cash back on purchase transaction Mortgages

The Borrower may receive cash back, or a principal curtailment may be made, only as a result of the following:

- Reimbursement for the overpayment of costs, fees and charges paid by the Borrower in connection with the purchase transaction Mortgage. Examples of such overpayments include, but are not limited to, an earnest money deposit exceeding the required down payment amount, a fee paid at loan application that is covered by a financing concession (as described in Section 5501.5(b)) at loan closing, a Closing Cost that is reduced after closing, or gift funds given at loan closing and exceeding the amount needed for closing
- In jurisdictions where real estate taxes are paid in arrears, receipt of funds from the property seller for real estate taxes that cover a period prior to the Note Date
- Refunds mandated by federal laws or regulations

The minimum Borrower contribution, if applicable, must be met at closing (see Sections 5501.3(b)(i), 4501.10(a)(ii) and 4504.7(a)). If the projected cash back, as described above, results in the Borrower not meeting the minimum Borrower contribution at closing, the excess amount of the cash back must be applied as a principal curtailment.

Any cash back or principal curtailment, as described above, must be reflected on the Settlement/Closing Disclosure Statement. In instances of reimbursement for the overpayment of costs, fees and charges, and/or refunds mandated by federal law or regulation, the Mortgage file must include documentation supporting the amount and the reason for the reimbursement and/or refund.

Chapter 4401: ARMs

4401.1: Eligible ARMs (03/02/16)

Freddie Mac will purchase rate-capped ARMs that are fully amortizing First Lien Mortgages with an original maturity not exceeding 30 years. For Higher-Priced Mortgage Loan and Higher-Priced Covered Transaction requirements, see the Glossary and Section 4202.5.

Many of the sections of this chapter have charts that set forth specific requirements for eligible ARM products, such as the Index and Lookback Period applicable to each ARM product, the Initial Cap and Periodic Cap of each ARM product and the Uniform Instruments to be used in connection with the origination of each ARM product. Exhibit 17S, Available Mortgage Products, provides a consolidated summary of certain information contained in the charts of this chapter regarding eligible ARM products.

4401.2: Eligible ARM products (10/01/21)

ARMs eligible for purchase by Freddie Mac have an Initial Period followed by subsequent Note Rate adjustments that occur as specified in the Note. The following chart shows, for each eligible ARM product, the applicable Initial Period.

Eligible ARM Product	Initial Period	Periodic Adjustments (Subsequent to the Initial Period)
3/6-Month ARM	36 months	6 months
5/6-Month ARM	60 months	6 months

Eligible ARM Product	Initial Period	Periodic Adjustments (Subsequent to the Initial Period)
7/6-Month ARM	84 months	6 months
10/6-Month ARM	120 months	6 months

4401.3: Eligible ARM Index and Lookback Period (10/01/21)

ARMs eligible for purchase by Freddie Mac are subject to periodic Note Rate adjustments based on the value of an Index at a specified time, as set forth in the Note. The time interval for establishing the Index value is referred to as the Lookback Period. The 3/6-, 5/6-, 7/6-, and 10/6-Month ARMs each use the 30-day Average Secured Overnight Financing Rate and a 45-day Lookback Period.

4401.4: General ARM requirements (10/01/21)

(a) Due Date

The Due Date must occur on the first day of the month.

(b) Payment Change Date

The Payment Change Date must occur on the first day of the month following each Interest Change Date.

(c) Calculation of monthly payment amount

The monthly payment amount that is calculated following each Interest Change Date must be sufficient to amortize the UPB fully over the remaining term of the ARM.

(d) Margin

For all SOFR-indexed ARMs, the Margin must be equal to or greater than 100 basis points and less than or equal to 300 basis points.

(e) Lifetime Ceiling

The Lifetime Ceiling must equal the sum of the Note Rate at origination plus the Life Cap stated in the Note, as described in Section 4401.5(c).

(f) Lifetime Floor

For ARMs with Lifetime Floors, the Lifetime Floor must equal the Margin stated in the Note, as specified in Section 4401.5(c).

4401.5: ARM Note Rate change requirements (10/01/21)

ARMs eligible for purchase by Freddie Mac must comply with the requirements of this Section 4401.5 regarding the timing of, and Periodic Caps for, Interest Change Dates and how adjustments to the Note Rate are made and disclosed. In all cases, Note Rate adjustments must comply with the terms of the Note and with applicable law.

(a) Interest Change Date

Each Interest Change Date, stated in the Note, must occur on the first day of the month. After the first interest change date, subsequent interest changes occur every six months.

The following chart shows the time frame within which the first Interest Change Date must occur:

Eligible ARM Product	1st Interest Change Date Period Between 1st Payment Due Date and 1st Interest Change Date
3/6-Month ARM	36 months
5/6-Month ARM	60 months
7/6-Month ARM	84 months
10/6-Month ARM	120 months

(b) Calculation of adjustments

The new Note Rate must be calculated in accordance with the terms of the Note. Additionally, the following requirements must be met:

- The SOFR Index value must be truncated to the third decimal place before adding the Margin in calculating the rate
- For all SOFR-indexed ARMs, the Seller must inform the Borrower in writing on or before the Note Date and in each Note Rate adjustment notice that the Index value used to calculate the new Note Rate for each Interest Change Date is:
 - The 30-day Average SOFR as published by, or on the website of, the Federal Reserve Bank of New York

(c) Limits on Note Rate adjustments

Each ARM Note must specify limits on the periodic adjustments (the Lifetime Ceiling, the Lifetime Floor and the Periodic Cap) to the Note Rate.

1. The Note Rate may not exceed the Lifetime Ceiling or be less than the Lifetime Floor, which must equal the Margin as required by Section 4401.4(f)
2. The Note Rate at the first Interest Change Date may not exceed the value of the Note Rate at origination plus the Initial Cap or be less than the value of the Note Rate at origination minus the Initial Cap
3. Adjustments on subsequent Interest Change Dates are subject to the Periodic Cap

For information on underwriting requirements for ARMs and permissible “teaser rates,” see Section 4401.8.

(d) Applicable caps for eligible ARM products

All eligible ARM products have (in percentage points) a Periodic Cap of 1% and a Life Cap of 5%.

The following chart shows (in percentage points) the applicable Initial Cap for ARM products eligible under ARM Cash and WAC ARM Guarantor program:

Eligible ARM Product	Index	Initial Cap
3/6-Month ARM	30-day Average SOFR*	2%
5/6-Month ARM	30-day Average SOFR	2%
7/6-Month ARM	30-day Average SOFR	5%
10/6-Month ARM	30-day Average SOFR	5%

*SOFR = Secured Overnight Financing Rate

4401.6: Mortgage insurance requirements for ARMs (03/02/16)

The Seller must provide mortgage insurance on all ARMs in accordance with Section 4701.1.

4401.7: Title insurance requirements for ARMs (03/02/16)

The Seller must provide title insurance in accordance with Chapter 4702.

4401.8: Underwriting requirements for ARMs (10/01/21)

(a) Special ARM qualifications

For 3/6-Month ARMs and 5/6-Month ARMs that are less than one year old at the time of delivery, the initial Note Rate cannot be more than three percentage points below the fully-

indexed rate. For purposes of this Section 4401.8, the fully-indexed rate is the sum of the Margin plus a value of the applicable Index at any time within 90 days preceding the Note Date, rounded to the nearest one-eighth of 1% (0.125%).

(b) ARM qualifying rates

For all SOFR ARMs, the Borrower must be qualified as follows:

SOFR ARM Type	Borrower Qualified at no less than the:
3/6-Month ARM ¹	Note Rate + Life Cap (5%)
5/6-Month ARM ¹	Greater of the Note Rate plus two percentage points or the fully-indexed rate
7/6-Month ARM 10/6-Month ARM	<ul style="list-style-type: none">■ Note Rate for Mortgages that are not Higher-Priced Covered Transactions (HPCTs) or Higher-Priced Mortgage Loans (HPMLs)■ Greater of the Note Rate or the fully-indexed rate for Mortgages that are HPCTs or HPMLs

¹The qualifying rate must, at a minimum, equal the maximum interest rate that may apply during the first five years after the date on which the first regular periodic payment will be due, based on the loan amount over the loan term. If the ARM qualifying rate requirements above are more restrictive, those requirements must be satisfied.

(c) Buydowns

For ARMs that are Financed Permanent Buydown Mortgages and ARMs with temporary subsidy buydown plans, the Borrower must be qualified in accordance with the requirements of this section.

For additional buydown provisions related to ARMs, refer to Section 4204.4 for ARMs with temporary subsidy buydown plans and Chapter 4601 for Financed Permanent Buydown Mortgages.

4401.9: Credit Fees for ARMs (05/04/22)

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to certain ARMs. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4402: Seller-Owned Converted and Seller-Owned Modified Mortgages

4402.1: Common requirements for Seller-Owned Converted and Seller-Owned Modified Mortgages (06/21/21)

(a) Eligible Mortgages

(i) Requirements related to the Mortgage prior to conversion or modification

Prior to conversion or modification, the Mortgage must have had the following characteristics:

- The Mortgage must have been secured by a First Lien on a 1- to 4-unit Primary Residence; if the Mortgage is a Home Possible® Mortgage it must have been secured by a 1-unit Primary Residence
- The occupancy type of the Mortgage Premises must not have changed since the Note Date or since the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage
- The Mortgage met all Freddie Mac's eligibility and underwriting requirements on the Note Date or on the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage
- The loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios did not exceed the limits in Section 4203.4 or, for Home Possible Mortgages, Section 4501.10(a)(i) as of the Note Date or as of the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage
- The principal balance of the Mortgage has not increased since the Note Date, or since the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage, and the loan amount of the Mortgage prior to modification did not exceed the maximum loan amount in Section 4203.3 in effect on the Note Date (The Mortgage may not be a super conforming Mortgage)
- The Mortgage was not in default and otherwise meets the requirements in Section 4201.7

- The Mortgage was a conventional, fully amortizing Mortgage and the Mortgage had an original amortization term no greater than 30 years from the Note Date or from the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage
- The Mortgage was not an interest-only Mortgage prior to conversion or modification

(ii) Eligibility of the Seller-Owned Converted or Seller-Owned Modified Mortgage

A Seller-Owned Converted or Seller-Owned Modified Mortgage must have the following characteristics:

- The Mortgage meets all Freddie Mac's eligibility and underwriting requirements in effect on the Delivery Date
- The current LTV, TLTV and HTLTV ratios do not exceed the limits in Section 4203.4 or, for Home Possible Mortgages, Section 4501.10(a)(i) as of the Delivery Date. The current ratios are calculated by dividing the UPB of the Mortgage as of the Delivery Date by the value as defined in Section 4203.1.
- The Mortgage must comply with the maximum original loan amounts stated in Section 4203.3 in effect on the Settlement Date. (The Mortgage may not be a super conforming Mortgage.)
- The Seller may not have assessed a prepayment penalty in connection with the conversion or modification of the Mortgage
- The Borrowers are the same as the Borrowers on the Mortgage prior to conversion or modification, except that a Borrower who contributed no qualifying income, assets or reserves to the Mortgage may have been removed
- The Mortgage is a conventional, fully amortizing Mortgage and the Mortgage term may not extend beyond 30 years from the Note Date or from the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage

A Mortgage originated as a Construction Conversion or Renovation Mortgage is a Seller-Owned Modified Mortgage if:

- The terms of the Permanent Financing have been modified or if an ARM, converted to a fixed-rate Mortgage, after the Effective Date of Permanent Financing; and
- It meets the requirements of this Chapter 4402, and
- It is not a Mortgage secured by a Manufactured Home

(b) Special underwriting requirements

The following special underwriting requirements apply to Seller-Owned Modified Mortgages that are not Home Possible Accept Mortgages and to Seller-Owned Converted Mortgages:

- Except as modified by this chapter, the Seller is required to manually underwrite and requalify each Borrower using Freddie Mac's eligibility and underwriting requirements in accordance with Topics 5100 through 5500 as in effect as of the Delivery Date.
- A Seller-Owned Converted or Seller-Owned Modified Mortgage is not eligible to be submitted to Loan Product Advisor® for assessment
- The Seller-Owned Converted or Seller-Owned Modified Mortgage will not receive any representation and warranty relief relating to the assessment of the Mortgage through Loan Product Advisor and any previous relief provided is of no force and effect in connection with the Mortgage

The following special underwriting requirements apply to all Seller-Owned Converted and Seller-Owned Modified Mortgages:

- The Seller-Owned Converted or Seller-Owned Modified Mortgage eligibility and underwriting requirements must be based on the loan purpose as of the Note Date
- The Mortgage must comply with the minimum Indicator Score requirements set forth in Exhibit 25 for an applicable Mortgage product, and must meet the requirements of Topics 5100 through 5500. If no Borrower has a usable Credit Score and as a result, the Mortgage does not have an Indicator Score, the Mortgage is not eligible for purchase.

Home Possible Mortgages must be either Manually Underwritten Mortgages or Loan Product Advisor Accept Mortgages.

(c) Special documentation requirements

The Seller must maintain in the Mortgage file:

- All documentation required by the Purchase Documents as of the Note Date or as of the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage
- All documentation associated with the conversion or modification of the Mortgage
- The Mortgage payment history of the Mortgage for the 12-month period prior to the Delivery Date (or the full length of Mortgage payment history, if less than 12 months) documented by a new credit report or a Servicer generated payment history

- Credit, employment and income documentation required to requalify each Borrower in accordance with the Standard Documentation requirements in Topic 5300 for the Seller-Owned Converted or Seller-Owned Modified Mortgage including, but not limited to:
 - New Uniform Residential Loan Application
 - New credit report meeting the requirements of Section 5203.1
 - Verification of income and employment

This requirement does not apply to Seller-Owned Modified Mortgages that are Home Possible Mortgages.

- Any other documentation required as of the Delivery Date (e.g., the Indicator Score). If Freddie Mac required a minimum Indicator Score for the Mortgage at time of origination, the Seller must note this Indicator Score in addition to the Indicator Score required for delivery under this chapter on the Form 1077, Uniform Underwriting and Transmittal Summary.

Underwriting documentation must be obtained within 120 days prior to the modification or Conversion Date.

(d) Property value warranty requirements

The Seller must provide a new appraisal with an effective date no more than 120 days prior to the modification or Conversion Date. The appraisal must meet Freddie Mac requirements. The Seller warrants that the property value has not declined since the effective date of the most recent appraisal if the Mortgage was originated as a Construction Conversion or Renovation Mortgage. The new appraisal must not be used to determine the original LTV, TLTVA and HTLTV ratios for the Mortgage or the current LTV, TLTVA and HTLTV ratios as of the Delivery Date.

(e) Planned Unit Development, leasehold estate and condominium warranty requirements

For Mortgages secured by Condominium Units, the Seller must underwrite the Condominium Project, and based on such evaluation, must represent and warrant that the Condominium complies with the requirements set forth in Chapter 5701.

Mortgages secured by leasehold estates must meet the special warranties set forth in Chapter 5704 as applicable.

Mortgages secured by Planned Unit Developments must meet the special warranties set forth in Chapter 5702 as applicable.

(f) Mortgage insurance requirements

- For a Mortgage that had an LTV ratio greater than 80% on the Note Date or on the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage, and has a current LTV ratio greater than 80%, the required level of mortgage insurance coverage will be determined by the requirements in this Guide as of the Note Date or as of the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage
- The Seller is not required to increase existing mortgage insurance coverage to comply with Section 4701.1 if Freddie Mac's minimum coverage amounts have increased between the (i) Note Date or the Effective Date of Permanent Financing if the Mortgage was originated as a Construction Conversion or Renovation Mortgage, and (ii) the Delivery Date
- The Seller/Servicer must warrant that conversion or modification has not altered or impaired the coverage under the mortgage insurance policy. If the Seller/Servicer cannot warrant that the insurance policy has not been impaired, the Seller/Servicer must obtain an endorsement which brings the policy into compliance with the requirements of Section 4701.1.
- Lender-paid mortgage insurance is permitted
- The custom mortgage insurance option described in Section 4701.1 and financed mortgage insurance premiums described in Section 4701.2(a) are not permitted

(g) Form 1077, Uniform Underwriting and Transmittal Summary

On Form 1077, or on another document in the Mortgage file, the Seller must state that the loan is a Seller-Owned Converted Mortgage or a Seller-Owned Modified Mortgage. If applicable, Seller must state that the Mortgage was originated as a Construction Conversion or Renovation Mortgage.

(h) Title insurance

The Mortgage must meet the title insurance requirements of Chapter 4702. The Seller/Servicer must warrant that conversion or modification has not altered or impaired coverage under the title insurance policy or attorney's opinion of title.

(i) Quality control

If the Mortgage is selected for Freddie Mac's post funding quality control, the Seller/Servicer must provide the original underwriting file and the underwriting file required to requalify the Borrower at the time of conversion or modification.

4402.2: Special requirements for Seller-Owned Converted Mortgages (05/01/21)

(a) Overview

Credit related waivers to Guide requirements negotiated elsewhere in the Purchase Documents may apply to Seller-Owned Converted Mortgages unless the credit related waivers, provisions, products or offerings conflict with the requirements of this Chapter, in which case, the requirements of this Chapter will apply unless expressly stated otherwise in the Purchase Documents.

(b) Eligible Mortgages

- A Community Land Trust Mortgage is not eligible for sale as a Seller-Owned Converted Mortgage
- A Mortgage secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii) is not eligible for sale as a Seller-Owned Converted Mortgage
- A Mortgage with a temporary subsidy buydown plan is not eligible for sale as a Seller-Owned Converted Mortgage. If the original Mortgage included a temporary subsidy buydown, any remaining funds in the buydown account at time of conversion must be distributed in accordance with the buydown agreement
- The Seller must warrant that all the original Note and Security Instrument terms for converting the Mortgage to a fixed rate of interest have been met
- The Seller-Owned Converted Mortgage Note must be negotiable, and the entire indebtedness must be fully enforceable against the Borrower and secured by a First Lien on the Mortgaged Premises
- The Seller-Owned Converted Mortgage Note must have a fixed rate of interest with level monthly principal and interest payments
- A fully enforceable due-on-sale clause, such as contained in Freddie Mac's current fixed-rate Uniform Instruments, must be in effect after conversion to fixed-rate

(c) Delivery requirements

See Section 6302.19 for delivery and pooling requirements for Seller-Owned Converted Mortgages.

4402.2: Special requirements for Seller-Owned Converted Mortgages (Future effective date 10/02/23)

(a) Overview

Credit related waivers to Guide requirements negotiated elsewhere in the Purchase Documents may apply to Seller-Owned Converted Mortgages unless the credit related waivers, provisions, products or offerings conflict with the requirements of this Chapter, in which case, the requirements of this Chapter will apply unless expressly stated otherwise in the Purchase Documents.

(b) Eligible Mortgages

- A Community Land Trust Mortgage is not eligible for sale as a Seller-Owned Converted Mortgage
- A HeritageOneSM Mortgage is not eligible for sale as a Seller-Owned Converted Mortgage
- A Mortgage secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii) is not eligible for sale as a Seller-Owned Converted Mortgage
- A Mortgage with a temporary subsidy buydown plan is not eligible for sale as a Seller-Owned Converted Mortgage. If the original Mortgage included a temporary subsidy buydown, any remaining funds in the buydown account at time of conversion must be distributed in accordance with the buydown agreement
- The Seller must warrant that all the original Note and Security Instrument terms for converting the Mortgage to a fixed rate of interest have been met
- The Seller-Owned Converted Mortgage Note must be negotiable, and the entire indebtedness must be fully enforceable against the Borrower and secured by a First Lien on the Mortgaged Premises
- The Seller-Owned Converted Mortgage Note must have a fixed rate of interest with level monthly principal and interest payments
- A fully enforceable due-on-sale clause, such as contained in Freddie Mac's current fixed-rate Uniform Instruments, must be in effect after conversion to fixed-rate

(c) Delivery requirements

See Section 6302.19 for delivery and pooling requirements for Seller-Owned Converted Mortgages.

4402.3: Uniform Instruments and nonstandard documents for Seller-Owned Converted Mortgages (03/02/16)

The original convertible ARM may have been originated using Uniform Instruments in accordance with Section 4101.2 or nonstandard documents. Documentation for the Seller-Owned Converted Mortgage should consist of the following:

- The original Security Instrument and Convertible Adjustable Rate Rider; and
- A document evidencing the conversion of the ARM to a fixed-rate Mortgage; the conversion document must be recorded if necessary to establish that the Seller-Owned Converted Mortgage is a First Lien. The Seller may use the Freddie Mac Multistate Agreement to Convert, Freddie Mac Uniform Instrument Form 3180, to evidence the ARM conversion. If the Seller uses a loan instrument other than the Agreement to Convert, the Seller represents and warrants that the instrument, when completed, contains substantially identical provisions to the Freddie Mac Agreement to Convert and is appropriate for use to evidence the conversion of the Convertible ARM; and
- Either:
 - The original Convertible Adjustable Rate Note with the document evidencing the conversion attached, or
 - A new fixed-rate Note

If a new Note is executed, the Seller must use the Fannie Mae/Freddie Mac Fixed-Rate Note as required by Section 4101.2.

If the Seller-Owned Converted Mortgage is documented with the original documents and a document evidencing the ARM conversion, the following requirements apply:

(a) Original Security Instrument and Convertible Adjustable Rate Rider

The original Security Instrument and Convertible Adjustable Rate Rider must be either:

- The version of the Fannie Mae/Freddie Mac Uniform Security Instrument for the State in which the Mortgaged Premises are located in effect on the Note Date, with either the Fannie Mae or Freddie Mac Uniform Convertible Adjustable Rate Rider, or

- A nonstandard document that contains provisions comparable to the provisions of the version of the Fannie Mae/Freddie Mac Uniform Security Instrument in effect on the Note Date for the State in which the Mortgaged Premises are located, including the provisions relating to:
 - Default and foreclosure rights
 - The use of hazard insurance proceeds, condemnation, and hazardous waste
 - No waivers of homestead rights, dower or similar marital rights
 - Matters that affect the security for the Mortgage, including charges and liens and property preservation
 - Borrower Mortgage payment and escrow obligations
 - Rights of the lender in the event of Borrower bankruptcy

(b) Original Convertible Adjustable Rate Note

The original Convertible Adjustable Rate Note must be either:

- The applicable version of the Fannie Mae or Freddie Mac Uniform Convertible Adjustable Rate Note in effect on the Note Date, or
- A nonstandard Convertible Adjustable Rate Note, provided the Convertible Adjustable Rate Note contains provisions that are consistent with the provisions in the Fannie Mae or Freddie Mac Convertible Adjustable Rate Note for ARMs originated on the Note Date. The Seller must review the Convertible Adjustable Rate Note for consistency, including the provisions relating to the following, and determine that:
 - The late payment fee does not exceed the maximum fee allowed by State law and this Guide
 - There are no provisions allowing skipped payments, a grace period following a partial payment or a grace period for other hardship or other reasons
 - There are no waivers of homestead rights, dower or similar marital rights

(c) Seller-Owned Converted Mortgages originated as a Construction Conversion or Renovation Mortgage

For a Seller-Owned Converted Mortgage that was originated as a Construction Conversion or Renovation Mortgage, the conversion of Interim Construction Financing to Permanent Financing must have occurred prior to the conversion from a Convertible ARM to a fixed-rate Mortgage and must have been documented in accordance with Section 4602.3. The

conversion from a Convertible ARM to a fixed-rate Mortgage must be documented in accordance with this Section 4402.3.

4402.4: Special requirements for Seller-Owned Modified Mortgages (01/01/22)

(a) Overview

Credit-related waivers to the Guide requirements negotiated elsewhere in the Purchase Documents shall not apply to Seller-Owned Modified Mortgages.

(b) Ineligible Mortgages

A Seller-Owned Modified Mortgage may not have been originated as:

- A Mortgage using an Automated Valuation Model (AVM)
- A Freddie Mac HomeOne® Mortgage
- A Community Land Trust Mortgage
- A Mortgage secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)

(c) Special requirements

The Mortgage must only be modified for the purpose of a reduction in interest rate of the First Lien Mortgage.

(d) Delivery requirements

See Section 6302.27 for delivery and pooling requirements for Seller-Owned Modified Mortgages.

4402.4: Special requirements for Seller-Owned Modified Mortgages (Future effective date 10/02/23)

(a) Overview

Credit-related waivers to the Guide requirements negotiated elsewhere in the Purchase Documents shall not apply to Seller-Owned Modified Mortgages.

(b) Ineligible Mortgages

A Seller-Owned Modified Mortgage may not have been originated as:

- A Mortgage using an Automated Valuation Model (AVM)
- A Freddie Mac HomeOne® Mortgage
- A Community Land Trust Mortgage
- A HeritageOneSM Mortgage
- A Mortgage secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)

(c) Special requirements

The Mortgage must only be modified for the purpose of a reduction in interest rate of the First Lien Mortgage.

(d) Delivery requirements

See Section 6302.27 for delivery and pooling requirements for Seller-Owned Modified Mortgages.

4402.5: Uniform Instruments for Seller-Owned Modified Mortgages (03/02/16)

Documentation for a Seller-Owned Modified Mortgage should consist of all of the following:

(a) Security Instrument

The Security Instrument with all applicable riders. The Security Instrument must be either:

- The version of the Fannie Mae/Freddie Mac Uniform Security Instrument for the State in which the Mortgaged Premises are located in effect on the Note Date, or
- A nonstandard document that has been modified to conform to the current Fannie Mae/Freddie Mac Uniform Security Instrument for the State in which the Mortgaged Premises are located

(b) Note

The promissory note must be either:

- The original Fannie Mae/Freddie Mac Uniform Fixed-Rate Note with the loan modification agreement attached, or
- A new Note; a new Note must be used if the Seller-Owned Modified Mortgage is not a fixed-rate Mortgage. If a new Note is executed, Seller must use the applicable Uniform Instrument Note as required by Section 4101.2 for the modified Mortgage Product.

(c) Loan Modification Agreement

A document evidencing the loan modification. The loan modification agreement must be recorded if necessary to establish that the Seller-Owned Modified Mortgage is a First Lien.

The loan modification agreement must contain the following information with respect to the modifications on the Seller-Owned Modified Mortgage:

- The effective date of the loan modification
- The current outstanding principal balance on the Seller-Owned Modified Mortgage
- Whether the interest rate on the Seller-Owned Modified Mortgage is a fixed or adjustable interest rate
- The yearly interest rate on the Seller-Owned Modified Mortgage
- Amount of monthly payments on the Seller-Owned Modified Mortgage
- Date the monthly payments on the Seller-Owned Modified Mortgage begin
- The maturity date of the Seller-Owned Modified Mortgage

If the original Mortgage is either (i) a fixed-rate Mortgage originated on the Fannie Mae/Freddie Mac Uniform Fixed-Rate Note and after modification will remain a fixed-rate Mortgage, or (ii) a Mortgage that is being modified to a fixed-rate Mortgage using the Fannie Mae/Freddie Mac Uniform Fixed-Rate Note, the Seller may use the Freddie Mac Multistate Loan Modification to a Fixed Interest Rate, Freddie Mac Uniform Instrument Form 5161 as the loan modification agreement. If Seller uses a different instrument to evidence the loan modification for a fixed-rate Seller-Owned Modified Mortgage, the Seller represents and warrants that the instrument, when completed, contains substantially identical provisions to the Freddie Mac Loan Modification to a Fixed Interest Rate and is appropriate for use to evidence the modification of the Mortgage.

(d) Seller-Owned Modified Mortgages originated as a Construction Conversion or Renovation Mortgage

For a Seller-Owned Modified Mortgage that was originated as a Construction Conversion or Renovation Mortgage, the conversion of Interim Construction Financing to Permanent Financing must have occurred prior to the modification and must have been documented in accordance with Section 4602.3. The modification of the Permanent Financing that occurs after the Effective Date of Permanent Financing must be documented in accordance with this Section 4402.5.

Chapter 4403: Mortgages with Capitalized Balances

4403.1: Mortgages with capitalized balances (06/03/19)

(a) Overview

Mortgages having principal balances that include capitalization of interest, taxes, hazard insurance premiums and/or late charges are eligible for purchase under certain conditions.

The following Mortgages are not eligible for sale as Mortgages with capitalized balances:

- Community Land Trust Mortgages
- Mortgages secured by properties subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)

(b) General requirements

By delivery of Mortgages with capitalized balances, the Seller represents and warrants the following requirements have been met as of the Delivery Date:

1. Capitalization is permitted under the Mortgage documents and applicable State law
2. The Note is negotiable, and the entire indebtedness, including all amounts capitalized, is fully enforceable against the Borrower and secured by a First Lien
3. The UPB of the Mortgage, including all amounts capitalized, does not exceed the original loan amount as reflected in the Note
4. No capitalization will occur after the Purchase Contract Date of Acceptance
5. The Mortgage is fully amortizing in substantially equal monthly installments of principal and interest over a period of up to 10, 15, 20 or 30 years, respectively (depending on whether the Mortgage is to be included in a 10-, 15-, 20- or 30-year Pool) following the Delivery Date. If, as a result of the capitalization, the Note maturity date could have exceeded the maximum term to maturity for the related Pool after delivery to Freddie Mac or could have resulted in a balloon payment at maturity, the Seller must have reamortized the Mortgage before delivery to Freddie Mac. For each Mortgage that has been reamortized or for which the stated maturity date has been extended, the Seller makes the following additional representations and warranties:

- Each affected Borrower has been informed of the capitalization, and
- If such Borrower's Mortgage contains a stated maturity date, that capitalization will result in installments becoming due after such stated maturity date or an increase in the monthly payment

6. All computations of maturity dates are correct

(c) Delivery requirements

Refer to Section 6302.22 for delivery requirements for Mortgages with capitalized balances.

Chapter 4404: Land Contract; Contract for Deed

4404.1: Land contract; contract for deed (06/05/19)

When the proceeds of a Mortgage are used to pay the outstanding balance under a land contract or contract for deed, the Mortgage may be considered either a purchase or a “no cash-out” refinance Mortgage if the requirements in this section are met.

A copy of the executed land contract or contract for deed must be included in the Mortgage file.

(a) Purchase

For the transaction to be considered a purchase transaction:

- The land contract or contract for deed must have been executed less than 12 months prior to the Application Received Date
- All of the loan proceeds must be used to pay the outstanding balance under the land contract or contract for deed and no loan proceeds may be disbursed to the Borrower
- The loan-to-value (LTV) ratio must be calculated using the lesser of the following:
 - The current appraised value of the Mortgaged Premises, or
 - The total acquisition cost (the purchase price indicated in the original land contract or contract for deed, plus any cost the Borrower has expended for rehabilitation, renovation, refurbishment or energy improvements). The Mortgage file must contain sufficient documentation on which to calculate the total acquisition cost.

(b) “No cash-out” refinance

For the transaction to be considered a “no cash-out” refinance transaction:

- The land contract or contract for deed must have been executed at least 12 months prior to the Application Received Date
- The LTV ratio must be calculated using the current appraised value of the Mortgaged Premises
- The Mortgage file must include third-party documentation evidencing payments in accordance with the land contract or contract for deed for the most recent 12-month period

- The Mortgage must meet the requirements for “no cash-out” refinance Mortgages in Section 4301.4

Chapter 4405: Energy Conservation Improvements

4405.1: Energy conservation improvements (05/01/19)

Effective May 1, 2019, this section is deleted. See Chapter 4606 for requirements for GreenCHOICE® Mortgages.

Chapter 4406: Mortgages Secured by Properties Subject to Resale Restrictions

4406.1: General requirements (08/03/22)

(a) Overview

Freddie Mac purchases Mortgages secured by properties subject to resale restrictions including, but not limited to, income-based restrictions and age-based restrictions (such as senior housing or units restricted to one or more occupants age 55 and over), if the requirements of this chapter and the Seller's other Purchase Documents are met. The resale restrictions must be in compliance with all federal, State and local laws, rules and regulations.

Freddie Mac allows use of the 2021 Model Declaration of Affordability Covenants with Refinance and Resale Restriction and Purchase Option, the Commentary to the Model Declaration and the Model Subordinate Mortgage. Collectively, they are referred to as the "Model Declaration." The Model Declaration was developed to promote best practices and standardization for deed restricted affordable housing programs while also providing flexibility in program design.

The Model Declaration is intended to be used by shared equity homeownership programs (affordable housing programs managed by a government agency or nonprofit that are designed to keep properties permanently affordable by restricting resale prices) by providing an alternative to the 2011 Model Ground Lease. The Model Declaration will allow shared equity programs that use deed covenants or deed restrictions in lieu of a ground lease to also have standardized documents. The Model Declaration documents may be found [here](#).

(b) General purchase requirements for all Mortgages secured by properties subject to resale restrictions

The Mortgages must be First Lien, conventional Mortgages. Freddie Mac purchase requirements including, but not limited to, all applicable Condominium Project and Planned Unit Development (PUD) requirements must be met.

The restrictions must be binding on current and subsequent property owners, and remain in effect (i.e., survive) until they are formally removed or modified, or terminate automatically in accordance with their terms, such as upon completion of foreclosure or recordation of a deed-in-lieu of foreclosure and, if necessary, upon recordation of the associated deed transferring the property to Freddie Mac or third-party purchaser.

See Section 4406.2 for special additional requirements applicable to Mortgages secured by properties subject to income-based resale restrictions.

NOTE: The requirements of this chapter do not apply to resale restrictions related to Community Land Trust Mortgages. See Chapter 4502 for requirements applicable to Community Land Trust Mortgages.

(c) Length of resale restrictions; effect of foreclosure or deed-in-lieu of foreclosure

There are no restrictions on the length of the period in which the resale restrictions may remain in place on the property.

A Mortgage secured by a property subject to resale restrictions is eligible for purchase if the resale restrictions:

- Survive conveyance of the subject property following foreclosure or recordation of a deed-in-lieu of foreclosure, or
- Terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure

If the resale restrictions survive foreclosure or recordation of a deed-in-lieu of foreclosure, the subsidy provider is not entitled to obtain any proceeds from the initial sale or transfer of the property after foreclosure or a deed-in-lieu of foreclosure, from the foreclosing mortgage holder who obtained the property at foreclosure or pursuant to a deed-in-lieu of foreclosure.

Whether the resale restrictions survive or terminate upon foreclosure or recordation of a deed-in-lieu of foreclosure, once Freddie Mac has acquired title to the property as an REO, the subsidy provider is not entitled to obtain any “excess proceeds” from Freddie Mac’s sale or transfer of the REO property except as provided in Section 4406.2(h) for Mortgages secured by properties subject to income-based resale restrictions.

(d) Public land records

The terms of the resale restrictions must appear in the public land records for the property in a manner discoverable by a routine title search.

(e) Right of first refusal

For properties subject to resale restrictions, any right of first refusal must run to:

- The enabling authority or jurisdiction that imposed the resale restrictions, or
- The subsidy provider or program administrator

When a Mortgage secured by a resale-restricted property is in foreclosure and/or subject to an approved short sale, the right of first refusal must have a time period not exceeding 120 days from the date of written notice to the parties to which the notice runs that the resale restricted property is being offered for sale.

(f) Payment of financial obligations

Any requirement included in a mortgage, deed covenant or any other agreement executed by or on behalf of the owner of the property requiring the owner of the property to make payments under certain circumstances or requiring repayment of financial subsidies must state that the payment obligation is subordinate to the lien of the First Lien Mortgage.

(g) Appraisal requirements for properties subject to resale restrictions

The appraisal report must note the existence of any resale restrictions. Additionally, the appraisal must include an analysis that addresses any impact the resale restrictions have on the property's value or marketability. Mortgages for properties with age-based resale restrictions may qualify for an appraisal waiver. See Section 5602.3 for details regarding automated collateral evaluation appraisal waiver.

(i) Resale restrictions survive foreclosure or recordation of a deed-in-lieu of foreclosure

When the resale restrictions survive foreclosure or recordation of a deed-in-lieu of foreclosure, the appraisal must reflect the impact the restrictions have on the subject property's value and when available, be supported by comparable sales with similar restrictions.

If recent comparable sales with similar resale restrictions are not available in the subject neighborhood, the appraiser should then use similarly restricted older comparable sales from the subject neighborhood or consider recent and older similarly restricted sales from competing neighborhoods as comparable sales or as supporting market data. When comparable sales with similar resale restrictions are not available, the appraiser may use comparable sales with different resale restrictions or comparable sales without resale restrictions as long as the appraiser can justify and support their use in the appraisal report.

(ii) Resale restrictions terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure

When the resale restrictions terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, the appraisal **must** reflect the market value of the property without resale restrictions by using comparable sales that are not resale restricted.

The Seller, or any third party authorized by the Seller, must ensure that the Borrower and appraiser are aware of the resale restrictions and must advise the appraiser that he or she must include the following statement in the appraisal report:

"This appraisal is made on the basis of a hypothetical condition that the property rights being appraised are without resale and other restrictions that are terminated"

automatically upon the latter of foreclosure or the expiration of any applicable redemption period, or upon recordation of a deed-in-lieu of foreclosure.”

(h) Value for the calculation of loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios

(i) Resale restrictions survive foreclosure or recordation of a deed-in-lieu of foreclosure

For a purchase transaction when an appraisal is obtained, value is the lesser of the appraised value or the purchase price of the Mortgaged Premises. When an appraisal waiver is offered and accepted, value is the purchase price of the Mortgaged Premises.

For a refinance transaction when an appraisal is obtained, value is the appraised value of the Mortgaged Premises. When an appraisal waiver is offered and accepted, value is the estimated value of the Mortgaged Premises submitted by the Seller.

(ii) Resale restrictions terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure

For purchase and refinance transactions, value is the appraised value of the property without resale restrictions as determined in accordance with the requirements of Section 4406.1(g)(ii).

(i) Underwriting

Mortgages secured by properties subject to resale restrictions may be manually underwritten or submitted to Loan Product Advisor®. When using Loan Product Advisor, for a Mortgage secured by property subject to resale restrictions that terminate upon foreclosure or recordation of a deed-in-lieu of foreclosure, the Seller must enter the appraised value determined in accordance with Section 4406.1(g)(ii) in the purchase price field and the appraised value field.

(j) Special delivery requirements

See Section 6302.37 for additional special delivery instructions for Mortgages secured by properties subject to resale restrictions, including special instructions for Mortgages secured by properties subject to resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii).

4406.2: Special requirements for all Mortgages secured by properties subject to income-based resale restrictions (01/01/22)

(a) Overview

Mortgages secured by properties subject to income-based resale restrictions must meet the requirements of this section in addition to the requirements of Section 4406.1. For Mortgages secured by income-based resale restricted properties with Affordable Seconds used to subsidize the sales price of such properties, the requirements of Section 4204.2 also apply.

Affordable housing programs use income-based resale restrictions to create affordable housing opportunities. These affordable housing programs are often based on State or local inclusionary housing policies, which typically require a specified number or percentage of properties in a designated area to be dedicated as housing individuals and households with very low, low- or moderate-incomes. These resale restrictions are typically administered by a subsidy provider or program administrator. The Seller must review the terms and conditions of the affordable housing program including, but not limited to, any provisions that describe the resale restrictions.

The income-based resale restrictions restrict the initial sales price and subsequent resale price of properties subject to such restrictions. The resale restricted price provides a form of subsidy to the homebuyer in an amount equal to the difference between the sales price and the market value of the property without resale restrictions. The restrictions must be stated in a separate covenant, restriction, easement, or condition in a deed or other instrument executed by or on behalf of the owner of the land or property and must be recorded against that land or property. These restrictions may be in effect for a certain number of years or continue in perpetuity.

(b) Property type and occupancy

The Mortgage must be secured by a 1- or 2-unit Primary Residence that is not a Manufactured Home unless the Manufactured Home is a CHOICEHome®. (For requirements for CHOICEHome Mortgages, see Section 5703.9). The property must be an attached or detached dwelling unit located on an individual lot or in a Condominium Project, Cooperative Project, or Planned Unit Development (PUD).

(c) Special requirements for cash-out refinance Mortgages

Cash-out refinance Mortgages are only permitted if the subsidy provider or program administrator approves the transaction and the transaction meets the requirements of the applicable program. The Mortgage file must contain evidence of the required approval and the approved amount of the proceeds that the Borrower may receive.

(d) Ineligible Mortgages

The following Mortgages are ineligible for purchase if the property securing the Mortgage is subject to income-based restrictions

- Construction Conversion and Renovation Mortgages
- CHOICERenovation® Mortgages
- GreenCHOICE® Mortgages

Additionally, the following Mortgages are not eligible for purchase if the property securing the Mortgage is subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure and property value is determined in accordance with Section 4406.1(g)(ii):

- Financed Permanent Buydown Mortgages
- Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Enhanced Relief Refinance® Mortgages

(e) Minimum Down Payment requirements

For Mortgages secured by properties subject to income-based resale restrictions, minimum Down Payment requirements are based on the resale-restricted price.

(f) Eligible Borrowers

Borrowers must meet the program eligibility requirements established by the subsidy provider or program administrator. When the First Lien Mortgage is a Home Possible® Mortgage, the Seller must use the Home Possible income limits to determine Borrower eligibility even if the subsidy provider or program administrator limits are different.

(g) Resale restriction controls

The resale restriction controls must be administered by the subsidy provider or a program administrator.

(h) Excess proceeds

If the income-based resale restrictions survive foreclosure or recordation of a deed-in-lieu of foreclosure, the subsidy provider may be entitled to obtain “excess proceeds” (not to exceed an amount equal to the subsidy provided to the previous property owner by the subsidy provider and secured by a subordinate lien) from Freddie Mac’s sale or transfer of the REO property if the resale restrictions allow a foreclosing mortgage holder, who acquires title to a restricted property as real estate owned, to recover from the initial sale or transfer of the real estate owned property an amount satisfying the total indebtedness previously secured by the property, as well as any amount incurred during the real estate owned holding period attributable to the real estate owned property.

Note: The subsidy provider may be entitled to obtain proceeds from any future sale(s) or transfer(s) of the property following Freddie Mac’s sale or transfer of the REO property.

(i) Additional requirements for subsidy providers and program administrators

By delivery of a Mortgage originated under the provisions of this section, the Seller/Servicer represents and warrants that the following requirements are met:

- The subsidy provider is, or is managed by, or is housed within, a State or local government, a government sponsored program or a non-profit corporation that is legally chartered in the State in which it is located and has a 501(c)3 tax exemption from the IRS. The subsidy provider may employ a third-party non-profit or, as allowed by the applicable jurisdiction, a for-profit corporation, as a program administrator to manage the affordable housing program, its resale restrictions and controls.
- The resale restrictions are imposed by State or local governments, municipalities or nonprofit entities, to create and preserve affordable housing (including entities administering governmental sponsored subsidy programs)
- The subsidy provider or program administrator provides home counseling services or has established partnerships with at least one organization that does
- The subsidy provider or program administrator has established procedures for screening, processing applicants and approving transactions (when applicable, i.e., cash-out refinance transactions)
- The subsidy provider or program administrator has procedures to approve capital improvements on the property and guidelines to allow the Borrower to receive credit for

any costs of capital improvements paid by the Borrower that are eligible by the subsidy provider's program

Chapter 4407: Properties Affected by Disasters

4407.1: Eligibility of properties impacted by a disaster (03/31/22)

The Seller represents and warrants that properties securing Mortgages sold to Freddie Mac meet the property eligibility requirements stated in the Purchase Documents including, but not limited to, the collateral representation and warranties requirements identified in Section 5602.1 regarding the value, condition and marketability of the Mortgaged Premises. The Seller must have policies and procedures in place to assess whether there has been any adverse effect on the Mortgaged Premises that needs to be considered before the Mortgage is eligible for delivery to Freddie Mac. If the Mortgage is a Condominium Unit Mortgage, the Seller's assessment should include damage to Condominium Project Common Elements, separate from any specific Condominium Unit damage.

With respect to the condition of the Mortgaged Premises, Mortgages for which the Seller has obtained appraisal reports and Mortgages with automated collateral evaluation appraisal waivers, the following requirements must be met for a Mortgage secured by a property impacted by a disaster to be eligible for sale to Freddie Mac:

- The property damage does not impact the safety, soundness, or structural integrity of the Mortgaged Premises. In this instance, the Seller must ensure all damage is documented and is covered by insurance as required in Chapter 4703; or
- If the property securing the Mortgage has been damaged such that the damage impacts the safety, soundness, or structural integrity of the Mortgaged Premises, the property is not acceptable as security for the Mortgage and the Mortgage is not eligible for sale to Freddie Mac until all repairs to the property are documented and completed

4407.2: Representation and warranty relief for automated collateral evaluation appraisal waiver offers and Loan Collateral Advisor® (03/31/22)

For Mortgaged Premises secured by properties located in an Eligible Disaster Area, depending on the extent of the disaster's impact, Freddie Mac may decide to systematically suspend automated collateral evaluation appraisal waiver eligibility and appraised value representation and warranty relief eligibility on new Loan Product Advisor® or Loan Collateral Advisor® submissions, respectively. Freddie Mac will notify Sellers in a Guide Bulletin when a disaster requiring a systematic suspension occurs. Freddie Mac will monitor market developments within the impacted areas and reinstate eligibility at its discretion.

See Chapter 5602 for automated collateral evaluation appraisal waiver and Loan Collateral Advisor appraised value representation and warranty relief eligibility requirements.

4407.3: Age of documentation and Loan Product Advisor® submission requirements in Eligible Disaster areas (03/31/22)

The following age of documentation flexibilities and Loan Product Advisor® submission requirements apply to all Mortgages secured by properties located in Eligible Disaster Areas and will remain in effect for six months from the disaster declaration date announced by the Federal Emergency Management Agency (FEMA).

The following age of documentation flexibilities and requirements apply to property valuation:

- The effective date of the appraisal report must be no more than 180 days before, as applicable, the Note Date, the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages or any applicable assumption agreement date
- The Feedback Certificate message that offers the Seller an automated collateral evaluation appraisal waiver is valid for 180 days as long as the Seller does not make any loan data changes that invalidate the appraisal waiver. (See Section 5602.3 for additional information on maintaining appraisal waiver eligibility.) If the appraisal waiver offered on the Feedback Certificate is more than 180 days old on the Note Date, the Seller must resubmit the Mortgage to Loan Product Advisor to determine if the Mortgage is still eligible for an automated collateral evaluation appraisal waiver or if an appraisal report is required.

The following age of documentation flexibilities and requirements apply to underwriting the Borrower:

- Any required credit and capacity underwriting documentation including, but not limited to, credit reports, verifications of income, employment and sources of funds, must be dated no more than 180 days before, as applicable, the Note Date, the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages or any applicable assumption agreement date
- For Loan Product Advisor Mortgages, the Mortgage must be submitted to Loan Product Advisor no more than 180 days before and no later than the Note Date, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing

Note: Loan Product Advisor will automatically pull a new credit report for Mortgages that are submitted or resubmitted more than 120 days after the date of the credit report used in the Loan Product Advisor assessment.

The requirements for the 10-day pre-closing verification of employment in accordance with Section 5302.2 and a verification of the current existence of the self-employed Borrower's business in Section 5304.1(g) continue to apply.

Sellers may apply the special flexibilities provided for Freddie Mac Enhanced Relief Refinance® Mortgages secured by properties in areas impacted by disasters. In the event an HVE® value estimate has been systematically suspended for the Mortgaged Premises on a subsequent submission to Loan Product Advisor, Sellers may use the HVE value obtained on the original submission.

Delivery requirements

See Section 6302.44 for special delivery requirements for Mortgages utilizing the age of documentation flexibility.

Chapter 4408: Mortgages Made Pursuant to Employee Relocation Programs

4408.1: Eligibility of Mortgages made pursuant to employee relocation programs (05/03/23)

The provisions of this chapter apply to Mortgages made pursuant to an employee relocation program. These Mortgages must be made to a newly hired or transferred employee to finance the purchase of a 1- to 4-unit Primary Residence at a new job location pursuant to an employee relocation program that:

- Establishes the terms and conditions under which the employer relocates employees, and
- Is administered by the employer or its agent

The following Mortgages are not eligible for purchase as Mortgages made pursuant to an employee relocation program:

- Community Land Trust Mortgages
- Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages

4408.2: Special occupancy requirement for Mortgages made pursuant to employee relocation programs (08/07/19)

The Mortgaged Premises will be deemed owner-occupied as of the Delivery Date if the Borrower occupies the Mortgaged Premises as a Primary Residence by no later than 90 days after the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages.

4408.3: Special underwriting requirements for Mortgages made pursuant to employee relocation programs (08/07/19)

(a) Loan Product Advisor® or Manually Underwritten Mortgages

A Mortgage made pursuant to an employee relocation program may be submitted to Loan Product Advisor® or may be a Manually Underwritten Mortgage, except as otherwise stated below.

(i) Loan Product Advisor

The Borrower's credit reputation is acceptable if the Mortgage is submitted to Loan Product Advisor in accordance with Chapter 5101 and receives a Risk Class of Accept. Loan Product Advisor Mortgages that receive a Risk Class of Caution are not permitted.

(ii) Manually Underwritten Mortgages

Manually Underwritten Mortgages must meet the requirements of this chapter and Topics 5100 through 5500 including, but not limited to, the requirement that each Borrower individually, and all Borrowers collectively, have an acceptable credit reputation as described in Topics 5100 and 5200. If the Borrower does not have an established credit history in the United States, the Seller may use documentation of the alternative sources described below in Section 4408.3(d) to establish Borrower creditworthiness for a Manually Underwritten Mortgage.

(b) Pending sale of current Primary Residence

If the Borrower's current Primary Residence is pending sale and the sale will not close before the Note Date of the Mortgage (or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing), the monthly payment amount for the property pending sale may be excluded from the monthly debt payment-to-income ratio if the employee relocation program terms include a buyout agreement for the purchase of the Borrower's current Primary Residence and either:

- The buyout agreement is executed by the Borrower; or
- The buyout agreement is not executed, and:
 - The Borrower has sufficient reserves, in addition to any other reserves required in the Guide, to pay the monthly payment amount for the property pending sale until the expiration date of the buyout offer as indicated in the buyout agreement; and

- The Seller obtains and retains in the Mortgage file a signed statement from the Borrower indicating his or her intention to accept the buyout agreement if the current Primary Residence is not sold prior to the expiration date of the buyout agreement

(c) Special income and asset requirements

(i) Housing allowance

A housing allowance provided as part of an employee relocation program may be considered stable monthly income and may be included in the Borrower's gross monthly income without documented evidence of the most recent 12 months' receipt, provided that all other requirements of Chapters 5301 and 5303 are met.

(ii) 10-day pre-closing verification (10-day PCV)

For Borrowers transferring to a new location with the same employer, a 10-day PCV is not required.

(iii) Borrower's revolving credit card (charges/cash advances) or unsecured line of credit

The amounts charged by a Borrower on credit cards to pay fees associated with the Mortgage application process (e.g., origination fees, commitment fees, lock-in fees, appraisal, credit report and flood certifications) or a cash advance taken by the Borrower on a revolving credit card account or an unsecured line of credit to pay such fees may be considered Borrower personal funds as described in Section 5501.3(b). If the employee relocation program provides that the employer will reimburse the Borrower for the fees that were charged or paid by the Borrower:

- There is no maximum limit on the amount of fees associated with the Mortgage application process that may be charged or advanced by the Borrower, if the employee relocation agreement specifically identifies such fees as subject to reimbursement by the employer;
- The Borrower is not required to have sufficient verified funds to pay these fees; and
- No estimated payment based on the amount charged or advanced must be included when determining the Borrower's monthly debt payment-to-income ratio as described in Section 5401.2

(iv) Employer Assisted Homeownership (EAH) Benefit

An Employer Assisted Homeownership (EAH) Benefit may be used as a source of funds to qualify the Borrower for the Mortgage transaction if the terms of the EAH Benefit meet the requirements of Section 5501.4, except as modified below:

(A) Unsecured loan

If the monthly loan payment of principal and interest or interest only begins on or after the 24th monthly payment under the First Lien Mortgage, the amount of the monthly payment may be excluded from the monthly debt payment-to-income ratio; otherwise, the required monthly payments must be included in the monthly debt payment-to-income ratio.

(B) Secondary financing

If the monthly payment of principal and interest or interest only begins on or after the 24th monthly payment under the First Lien Mortgage, the amount of the monthly payment may be excluded from the monthly housing expense-to-income ratio; otherwise the required monthly payments must be included in the monthly housing expense-to-income ratio.

(d) Establishing Borrower credit reputation with foreign credit references

For Manually Underwritten Mortgages (see Section 4408.3(a)(ii)), when the Borrower does not have the minimum required number of payment references established in the United States as required in Section 5202.1, or when the Borrower does not have a usable Credit Score, the Seller may determine that the Borrower has established an acceptable credit reputation in a foreign country, if:

- Except as provided herein, all other requirements of Topics 5100 through 5500, including requirements applicable to Seller documentation and evaluation of credit history, are met;
- The determination is based on a minimum of three Tradelines. Noncredit Payment References established outside of the United States are not eligible; and
- The Mortgage file must contain a credit report meeting the requirements of Section 5203.1 to confirm that the Borrower does not have a sufficient number of payment references established in the United States

4408.4: Special documentation requirements for Mortgages made pursuant to employee relocation programs (08/07/19)

(a) Mortgage file documentation requirements

When a Mortgage made pursuant to an employee relocation program is originated in accordance with any provisions of this chapter, the Seller must obtain and retain the following documentation in addition to any other documentation required in the Guide and the Seller's Purchase Documents:

- Complete documentation of the employee relocation program detailing the relocation benefits, including the employer's contribution to Mortgage financing, such as Closing Costs, buydowns or other Mortgage financing costs, and payment of expenses incurred in selling the employee's former residence, if applicable, as well as documentation evidencing that the Borrower is eligible for the employee relocation program; or
- The employer's agreement with the Borrower detailing the terms of the employee relocation program and any related benefits, including the employer's contribution to Mortgage financing, such as closing costs, buydowns or other Mortgage financing costs, and payment of expenses incurred in selling the employee's former residence, if applicable

4408.5: Special pooling and delivery requirements for Mortgages made pursuant to employee relocation programs that meet the definition of a relocation Mortgage (08/07/19)

Fixed-rate Mortgages made pursuant to an employee relocation program that meet the definition of a relocation Mortgage in Section 6202.3(f)(iv) must comply with the pooling and delivery requirements in Sections 6202.3(f)(iv) and 6302.17, respectively.

There are no special delivery or pooling requirements for relocation ARMs.

Chapter 4501: Home Possible® Mortgages

4501.1: Purchase of Home Possible® Mortgages (04/07/21)

This chapter details requirements for Home Possible® Mortgages.

As provided in Section 1201.4(a), bullet five, Freddie Mac in its sole discretion may establish maximum purchase amounts for an individual Seller, or in the aggregate, for Home Possible Mortgages.

4501.2: Home Possible Advantage® Mortgages (10/29/18)

Effective October 29, 2018, this section is deleted.

4501.3: Eligible and ineligible Home Possible® Mortgages (05/03/23)

(a) Eligible Mortgages

Home Possible® Mortgages eligible for purchase must be First Lien Mortgages that are fully amortizing and must be one of the following conventional Mortgage products:

- Fixed-rate Mortgages
- 7/6-Month or 10/6-Month ARMs
- 5/6-Month ARMs if secured by a property other than a Manufactured Home

Home Possible Mortgages, other than Mortgages secured by Manufactured Homes, must have an original maturity date not greater than 30 years.

Home Possible Mortgages secured by Manufactured Homes must have a maximum original maturity not greater than that specified in Section 5703.3(d).

Home Possible Mortgages may be any offering eligible under the Guide unless specifically described as ineligible below.

(b) Ineligible Mortgages

Mortgages with the following characteristics are not eligible for purchase as Home Possible Mortgages:

- Financed Permanent Buydown Mortgages
- Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Freddie Mac Enhanced Relief Refinance[®] Mortgages
- Freddie Mac HomeOne[®] Mortgages
- Freddie Mac Refi PossibleSM Mortgages

4501.3: Eligible and ineligible Home Possible[®] Mortgages (Future effective date 10/02/23)

(a) Eligible Mortgages

Home Possible[®] Mortgages eligible for purchase must be First Lien Mortgages that are fully amortizing and must be one of the following conventional Mortgage products:

- Fixed-rate Mortgages
- 7/6-Month or 10/6-Month ARMs
- 5/6-Month ARMs if secured by a property other than a Manufactured Home

Home Possible Mortgages, other than Mortgages secured by Manufactured Homes, must have an original maturity date not greater than 30 years.

Home Possible Mortgages secured by Manufactured Homes must have a maximum original maturity not greater than that specified in Section 5703.3(d).

Home Possible Mortgages may be any offering eligible under the Guide unless specifically described as ineligible below.

(b) Ineligible Mortgages

Mortgages with the following characteristics are not eligible for purchase as Home Possible Mortgages:

- Financed Permanent Buydown Mortgages
- Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Freddie Mac Enhanced Relief Refinance® Mortgages
- Freddie Mac HomeOne® Mortgages
- Freddie Mac Refi PossibleSM Mortgages
- HeritageOneSM Mortgages

4501.4: Loan purpose for Home Possible® Mortgages (03/02/16)

A Home Possible® Mortgage must be either a purchase transaction or “no cash-out” refinance Mortgage. A Home Possible Mortgage may not be a cash-out refinance Mortgage.

4501.5: Temporary subsidy buydown plans for Home Possible® Mortgages (03/02/16)

Temporary subsidy buydown plans as described in Section 4204.4 are permitted for Home Possible® Mortgages secured by 1- to 2-unit properties, other than Manufactured Homes. If a Home Possible Mortgage with a temporary subsidy buydown plan is subject to secondary financing, including an Affordable Second® that requires repayment to begin before the Due

Date of the 61st monthly payment under the Home Possible Mortgage, the secondary financing must have a fixed-interest rate.

4501.6: Eligible property and appraisal requirements for Home Possible® Mortgages (02/01/23)

(a) Eligible property

A Home Possible Mortgage must be secured by a 1- to 4-unit Primary Residence. Home Possible Mortgages secured by Manufactured Homes must comply with all requirements of Chapter 5703 and this chapter. Mortgages secured by a CHOICEHome® Manufactured Home must comply with the requirements of Section 5703.9 and this chapter.

Where the requirements of Chapter 5703 and this chapter conflict, the following will apply:

1. Second homes are not eligible
2. Cash-out refinance transactions are not eligible
3. The eligible sources of funds used to qualify the Borrower for the Mortgage transaction are those permitted for Home Possible Mortgages
4. Mortgage insurance coverage levels must be those used for Mortgages secured by a Manufactured Home

(b) Appraisal requirements

The Seller must obtain an appraisal that meets the requirements of Topic 5600 unless the Last Feedback Certificate includes an automated collateral evaluation offer stating that the Mortgage is eligible for collateral representation and warranty relief with an appraisal waiver and the Seller has accepted the offer. See Section 5602.3 for more information on automated collateral evaluation.

4501.7: Eligible Borrowers for Home Possible® Mortgages (09/16/19)

(a) Income limits

The Borrower's qualifying income converted to an annual basis must not exceed 80% of the Area Median Income for the location of the Mortgaged Premises. To determine whether the Borrower's income exceeds the income limits, the Seller must rely on the income used to

qualify the Borrower and submitted to Loan Product Advisor® for Loan Product Advisor Mortgages.

For Loan Product Advisor Mortgages, Loan Product Advisor will determine the income eligibility of the Mortgage.

For Non-Loan Product Advisor Mortgages, the Seller must use the **Home Possible® Income & Property Eligibility tool**. The Seller may not use other published Area Median Income versions (such as Area Median Incomes posted on <https://www.huduser.gov/portal/home.html>) to determine Mortgage or product eligibility.

(b) Occupancy

At least one Borrower must occupy the property secured by a Home Possible Mortgage as their Primary Residence.

Non-occupying Borrowers are permitted provided that:

- The Mortgage is secured by a 1-unit property
- The loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios must not exceed:
 - 95% for Loan Product Advisor Accept Mortgages, except that for fixed-rate Mortgages with Affordable Seconds®, the TLTV ratio must not exceed 105%
 - 90% for Manually Underwritten Mortgages, except that for fixed-rate Mortgages with Affordable Seconds, the TLTV ratio must not exceed 105%
- For Manually Underwritten Mortgages, the occupant Borrower's:
 - Monthly housing expense-to-income ratio should not exceed 35% of the occupant Borrower's stable monthly income; and
 - Monthly debt payment-to-income (DTI) ratio must not exceed 43% of the occupant Borrower's stable monthly income

Funds used to qualify for the Mortgage may come from the occupying and/or the non-occupying Borrower

(c) Ownership of other property

The occupying Borrower(s) must not have an ownership interest in more than two financed residential properties, including the subject property, as of the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages.

4501.8: Underwriting requirements for Home Possible® Mortgages (01/01/22)

A Home Possible® Mortgage may be submitted to Loan Product Advisor® or may be a Manually Underwritten Mortgage, except as otherwise stated below. For special requirements for submitting Mortgages with Affordable Seconds®, see Section 4204.2.

(a) Loan Product Advisor

The Borrower's credit reputation is acceptable if the Mortgage is submitted to Loan Product Advisor in accordance with Chapter 5101 and receives a Risk Class of Accept.

A Home Possible Mortgage secured by a Manufactured Home must be submitted to Loan Product Advisor.

A Home Possible Mortgage that is secured by a Manufactured Home and has a term greater than 20 years and a loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio greater than 90% and less than or equal to 95% must receive a Risk Class of Accept.

A Home Possible Mortgage that is a super conforming Mortgage must be submitted to Loan Product Advisor and receive a Risk Class of Accept.

(b) Manually Underwritten Mortgages

Manually Underwritten Mortgages must meet the requirements of this chapter and Topics 5100 through 5500 including, but not limited to, the requirement that each Borrower individually, and all Borrowers collectively, have an acceptable credit reputation as described in Topics 5100 and 5200.

An individual Borrower with insufficient credit history, for whom the Seller cannot document a credit reputation because the Borrower does not have sufficient credit history, is considered to have an acceptable credit reputation provided that:

1. The Borrower has no evidence of any derogatory credit, such as a lien, judgment or collection, paid or unpaid, reflected on the credit report or elsewhere in the Mortgage file, and
2. At least one other Borrower whose income and assets are used for qualification has an acceptable credit reputation as described in Topics 5100 and 5200.

For Manually Underwritten Mortgages, the minimum Indicator Scores are:

Property/Mortgage Type	Minimum Indicator Score
1-unit fixed-rate Mortgages that are purchase transactions	660
■ 1-unit ARMs ■ 1-unit Mortgages that are “no cash-out” refinance transactions	680
2- to 4-unit properties	700
Manufactured Homes	680

If none of the Borrowers have a usable Credit Score, Mortgages that are not (i) Home Possible Mortgages with LTV, TLTVA or HTLTV ratios greater than 95%, or (ii) secured by Manufactured Homes, may be manually underwritten without Credit Scores provided that for these Mortgages, in addition to meeting the requirements in Chapter 5202, each Borrower's credit history for the most recent 24 months must show:

- No unpaid judgments, tax liens or collections
- No payments 60 days or more past due
- No more than two payments 30 days past due
- No housing payments past due

Home Possible Mortgages with LTV, TLTVA or HTLTV ratios greater than 95% for which none of the Borrowers has a usable Credit Score are not eligible for sale to Freddie Mac.

A Home Possible Mortgage secured by a Manufactured Home may be a Manually Underwritten Mortgage only when the Mortgage:

- Meets the Minimum Indicator Score required in this section, and
- Has a term of 20 years or less, or an LTV/TLTVA/HTLTV ratio of 90% or less, and
- Was submitted to Loan Product Advisor and received an evaluation status of invalid, ineligible, or incomplete, or a Risk Class of Caution

4501.9: Borrower income and qualifying ratios for Home Possible® Mortgages (06/01/22)

Home Possible® Mortgages must comply with the requirements of Topics 5300 and 5400 and the requirements of this section. In the event of a conflict, the Seller must comply with the requirements of this section.

(a) Rental income from 1-unit Primary Residence

Rental income from a 1-unit Primary Residence may be considered as stable monthly income (as defined in Section 5301.1) provided it meets the requirements in Section 5306.1 AND:

- Section 5306.2 for rental income from a live-in aide, OR
- Section 5306.3 for rental income generated from an ADU OR
- The following requirements:
 - The person providing the rental income:
 - Is not obligated on the Mortgage and does not have an ownership interest in the Mortgaged Premises
 - Has resided with the Borrower for at least one year
 - Will continue residing with the Borrower in the new residence
 - Provides appropriate documentation to evidence residency with the Borrower (i.e., copy of a driver's license, bill, bank statement, etc., that shows the address of that person to be the same as the Borrower's address)
 - Is not the Borrower's spouse or domestic partner
 - Rental income from the person residing in the Mortgaged Premises:
 - Has been paid to the Borrower for the past 12 months
 - Can be verified by the Borrower with evidence showing receipt of regular payments of rental income to the Borrower for at least nine of the past 12 months (i.e., copies of canceled checks)
 - Must be averaged over 12 months for qualifying purposes when fewer than 12 months of payments are documented
 - Does not exceed 30% of total income used to qualify for the Mortgage

- The Mortgage file must contain a written statement in the form of a signed letter or e-mail directly from the Borrower affirming:
 - The source of the rental income
 - The fact that the person providing the rental income has resided with the Borrower for the past year and intends to continue residing with the Borrower in the new residence for the foreseeable future

Rental income that meets the above requirements may be generated from an ADU. In addition, refer to Topic 5600 for property eligibility and appraisal requirements.

(b) Contribution to total qualifying income from Borrowers with insufficient credit history

For Manually Underwritten Mortgages, the Seller may consider as qualifying income, the income contributed by a Borrower with insufficient credit history, as described in Section 4501.8(b), provided the amount contributed by the Borrower with insufficient credit history is not more than 30% of the total qualifying income.

(c) Qualifying ratios

There is no maximum monthly housing expense-to-income ratio.

Debt payment-to-income ratios must not exceed the following limits:

Underwriting Path	Home Possible® Mortgages
Loan Product Advisor® Mortgages	Determined by Loan Product Advisor
Manually Underwritten Mortgages	45%

4501.10: LTV/TLTV/HTLTV ratios, Borrower contribution, reserves, sources of funds for Home Possible® Mortgages (03/02/22)

(a) Loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios, Borrower contribution

(i) LTV/TLTV/HTLTV ratios

The following requirements apply to purchase and “no cash-out” refinance transactions:

Property Type	Maximum LTV/TLTV/HTLTV ratios for Mortgages other than super conforming Mortgages	Maximum LTV/TLTV/HTLTV ratios for super conforming Mortgages
Fixed-Rate Mortgages		
1-unit	97%*	95%*
2-unit	95%*	85%
3- and 4-unit	95%*	80%
ARMs		
1-unit	95%*	95%
2-unit	95%*	85%
3- and 4-unit	75%*	75%
Manufactured Home	See Chapter 5703	N/A

*A TLTV ratio up to 105% is permitted when secondary financing is an Affordable Second.

See Section 4501.3(a) for additional information for Home Possible Mortgages that are ARMs, and for Affordable Seconds, see Section 4204.2.

See Section 5701.4 for Home Possible Mortgages secured by a unit in a Condominium Project for Streamlined review maximum LTV/TLTV/HTLTV ratio

requirements, Section 4205.2 for additional LTV/TLTV ratio requirements for Home Possible Mortgages with RHS Leveraged Seconds, Section 4502.7(b) for value requirements applicable to Community Land Trust Mortgages, Section 4501.7 for additional LTV/TLTV/HTLTV ratio requirements for Home Possible Mortgages with non-occupying Borrowers, Section 4301.7 for additional LTV/TLTV ratio requirements for Texas Equity Section 50(a)(6) Mortgages, Section 4607.4(d) for value determination requirements applicable to CHOICERenovation® Mortgages and Section 5703.9(f)(ii) for maximum LTV/TLTV/HTLTV ratio requirements and value calculation requirements applicable to CHOICEHome® Mortgages.

(ii) Borrower contribution requirements

The following requirements apply to purchase transactions:

Minimum contribution from Borrower personal funds, as described in Section 4501.10(c)(i)			
Property Type	Home Possible Mortgages with LTV, TLTВ and HTLTV ratios ≤ 80%	Home Possible Mortgages with LTV, TLTВ or HTLTV ratios >80% ≤95%	Home Possible Mortgages with LTV, TLTВ or HTLTV ratios >95%
1-unit	None	None	None
Manufactured Home	None	None	N/A
2- to 4-unit	None	3% of value	3% of value

(b) Reserves

For Loan Product Advisor® Mortgages, the Seller must verify all reserves required by Loan Product Advisor, as stated on the Feedback Certificate.

For Manually Underwritten Mortgages, the Borrower must have the following minimum reserves, using the monthly payment amount as described in Sections 5501.2 and 5501.3:

- 1-unit: None required
- 2- to 4-unit: Two months

(c) Sources of funds

The following sources of funds are permitted and must meet the requirements in Sections 4501.10(c)(i), 4501.10(c)(ii) and 4501.10(c)(iii), below:

Use	Permitted Sources of Funds
Minimum Borrower contribution	Borrower personal funds
Down Payment	Borrower personal funds Other eligible sources of funds
Paying down the principal balance of the Mortgage being refinanced for a “no cash-out” refinance transaction	Borrower personal funds Other eligible sources of funds
Closing Costs	Borrower personal funds Other eligible sources of funds Flexible sources of funds
Reserves	Borrower personal funds Other eligible sources of funds

(i) Borrower personal funds

When used with Home Possible Mortgages, Borrower personal funds include:

1. Borrower personal funds as described in Section 5501.3(b)
2. Cash on hand, if the following requirements are met:
 - The Seller reasonably concludes, and can support, that the Borrower is a cash-basis individual and that the cash on hand is not borrowed and could be saved by the Borrower
 - The Mortgage file contains the following documents supporting the Seller’s conclusion:
 - Documentation confirming that the total monthly residual income available for savings is a positive number. The use of Exhibit 23, Monthly Budget and Residual Analysis Form, is optional; however, it reflects information that may be necessary to confirm that the total monthly residual income available for savings is a positive number.
 - Copies of six months’ cash receipts (e.g., rent or utility receipts) or other alternative documentation (e.g., direct verifications or wire transfers) meeting the requirements of Section 5202.2(b) to verify that recurring obligations,

including the payment of revolving and installment debt, are customarily paid in cash

- A credit report, obtained at the time of loan application, meeting the requirements of Section 5203.1. The credit report must not show more than three Tradelines.
 - Copies of three months' statements for any open revolving account that reveal cash advances are not the source of Borrower funds. Any cash advances must be explained and documented (i.e., a cash advance used in an emergency situation).
 - An updated credit report obtained approximately one week before closing that does not show any new accounts or a substantial increase to an existing account that approximates, or exceeds, the amount of cash on hand provided by the Borrower
- The Mortgage file must have no indication that the Borrower typically uses checking, savings or similar accounts
- Evidence that all funds used to qualify the Borrower for the Mortgage transaction are deposited in a financial institution or are held in an institutional escrow account prior to closing

(ii) Other eligible sources of funds

When used with Home Possible Mortgages, other eligible sources of funds used to qualify the Borrower for the Mortgage transaction, include:

1. Other eligible sources of funds as described in Section 5501.3(c)
2. A gift or grant from the Seller as the originating lender, provided that a contribution of at least 3% of value (as described in Section 4203.1) is made from Borrower personal funds and/or other eligible sources of funds as described in this section. The gift or grant must not be funded through the Mortgage transaction, including differential pricing in rate, discount points, or fees for individual loans or across the Home Possible offering.
3. For purchase transactions, proceeds from an unsecured loan from the following sources:
 - Except as stated in item 6 below, an Agency that is not:
 - The Seller or has participated in any aspect of the Mortgage origination process

- Affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process

For these purposes, “affiliated with” means that the Agency and the Seller or other party are related to each other as a consequence of one entity directly or indirectly controlling the other party, being controlled by the other party or being under common control with that party.
- A Related Person, or
- A Community Savings System (funds in excess of the Borrower contribution to the Community Savings System)

An unsecured loan must meet the following requirements:

- Must not contain provisions that allow or could result in negative amortization
- Must have a maturity date that:
 - Does not exceed the maturity date of the Mortgage
 - Is at least five years after the Note Date of the Mortgage, unless the unsecured loan is fully amortizing
- Must have an interest rate that is no greater than the Note Rate on the Mortgage
- Must not be a cash advance from a credit card or unsecured line of credit
- Must have its source, terms and conditions documented on the Form 65, Uniform Residential Loan Application

If the monthly payment of principal and interest or interest only begins on or after the 61st monthly payment under the First Lien Mortgage or if repayment of the loan is due only upon sale or default, the amount of the monthly payment may be excluded from the monthly debt payment-to-income ratio; otherwise, the required monthly payments must be included in calculating the monthly debt payment-to-income ratio.

4. Sweat equity, if the following conditions are met:

Sweat equity is credit for labor performed on the Mortgaged Premises and/or materials furnished for the Mortgaged Premises by the Borrower. Such credit must be fully explained and documented.

Any labor performed must be completed in a skillful and workmanlike manner to support the appraised value. A certification of completion (Form 442) must be obtained verifying the work has been completed. The full amount of the Borrower’s Down Payment may be in the form of sweat equity or a combination of sweat equity

and Borrower personal funds as described in Sections 4501.10(c)(i) and 4501.10(c)(ii). Sweat equity can also be used in combination with an Affordable Second.

(A) Eligible repairs and improvements

Sweat equity is an eligible source of funds in connection with the following repairs and improvements:

- All repairs and improvements to be completed by the Borrower that are listed in the sales contract and included in the appraisal report
- Repairs or improvements that are reflected on the appraisal report that are outstanding at the time of the appraisal. Credit for work completed prior to the original property inspection by the appraiser is not eligible for sweat equity.

(B) Determining the value of the sweat equity

The value of the sweat equity that may be used as an eligible source of funds equals the value of the labor performed plus the value of the materials furnished, documented as follows:

- The value of the labor performed must be estimated by the appraiser or a cost estimating service and documented in the appraisal report or separately in the Mortgage file; and
- The value for materials furnished must either be estimated by the appraiser or a cost estimating service, or be calculated using receipts from the purchase of the materials. The estimates or costs as evidenced by receipts must be documented in the Mortgage file.

(C) Maximum loan-to-value (LTV) and total LTV (TLTV) ratios

For Home Possible Mortgages that use sweat equity as an eligible source of funds, the maximum LTV/TLTV ratios in Section 4501.10(a)(i) apply.

(D) No cash out at closing

If sweat equity is used as an eligible source of funds, the Borrower must not receive cash back at closing. All excess funds must result in a reduction of the principal balance on the Mortgage.

(E) Special delivery requirements

See Section 6302.14 for special delivery requirements for Home Possible Mortgages originated with sweat equity as a credit towards the Down Payment and/or Closing Costs.

5. Proceeds from an Affordable Second or other secondary financing that meets the requirements in Chapter 4204. When the TLT ratio exceeds 97%, the secondary financing subordinated to a Home Possible Mortgage must be an Affordable Second.
6. Funds provided by an Agency that is affiliated with, under contract to, or financed (directly or indirectly) by the Seller as the originating lender, when:
 - The source of funds is an eligible source meeting all applicable Guide requirements (for example, a gift or grant from an Agency must meet the requirements in Section 5501.3(c))
 - A contribution of at least 3% of value (as described in Section 4203.1) is made from Borrower personal funds and/or other eligible sources of funds as described in this section; and
 - The source of funds is not funded through the Mortgage transaction, including differential pricing in rate, discount points, or fees for individual loans or across the Home Possible offering

(iii) Flexible sources of funds

When used with Home Possible Mortgages, flexible sources of funds include:

1. Financing concessions as described in Section 5501.5(b) meeting the applicable requirements of Section 5501.5
2. Lender credit, as described in Section 5501.6 and as documented on the Settlement/Disclosure Statement
3. Proceeds from an unsecured loan from the Seller as originating lender meeting the following requirements:
 - Must not contain provisions that allow or could result in negative amortization
 - Must have a maturity date that:
 - Does not exceed the maturity date of the Mortgage
 - Is at least five years after the Note Date of the Mortgage, unless the unsecured loan is fully amortizing

- Must have an interest rate that is no greater than the Note Rate on the Mortgage
- Must not be a cash advance from a credit card or unsecured line of credit
- Must have its source, terms and conditions documented on Form 65

If the monthly payment of principal and interest or interest only begins on or after the 61st monthly payment under the First Lien Mortgage or if repayment of the loan is due only upon sale or default, the amount of the monthly payment may be excluded from the monthly debt payment-to-income ratio; otherwise, the required monthly payments must be included in calculating the monthly debt payment-to-income ratio.

4501.11: Mortgage insurance for Home Possible® Mortgages (07/01/16)

The required coverage levels for mortgage insurance for Home Possible® Mortgages are stated in Section 4701.1.

Lender-paid and financed mortgage insurance premiums described in Section 4701.2 are permitted. See Section 4701.1 for mortgage insurance options available for Mortgages secured by Manufactured Homes.

4501.12: Homeownership education and landlord education for Home Possible® Mortgages (10/29/18)

(a) Homeownership education

At least one occupying Borrower must participate in a homeownership education program before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, in each of the following instances:

- For purchase transactions when all occupying Borrowers are First-Time Homebuyers, or
- For any transaction when the credit reputation for all Borrowers is established using only Noncredit Payment References

Refer to Section 5103.6 for other requirements related to homeownership education.

(b) Landlord education (2- to 4-unit Primary Residences)

- Purchase Transactions — At least one qualifying Borrower must participate in a landlord education program before the Note Date, or the Effective Date of Permanent Financing

for Construction Conversion and Renovation Mortgages. Landlord education must not be provided by an interested party to the transaction, the originating lender or the Seller.

A copy of a certificate evidencing successful completion of the landlord education program must be retained in the Mortgage file.

- Refinance Transactions — Landlord education is not required but is recommended for Borrowers who have not previously attended a program.

(c) Post-purchase and Early Delinquency Counseling

The Seller, as Servicer, must provide (at no cost to the Borrower) Early Delinquency Counseling to all Borrowers who experience problems meeting their Mortgage obligations, in accordance with Sections 9101.2(c) and 9102.4(c).

4501.13: Delivery and pooling for Home Possible® Mortgages (03/02/16)

See Section 6302.14 for delivery and pooling requirements for Home Possible® Mortgages.

4501.14: Credit Fees for Home Possible® Mortgages (12/01/22)

For Credit Fees related to Home Possible® Mortgages, Sellers must refer to Exhibit 19, Credit Fees, and Exhibit 19A, Credit Fee Cap Eligibility Criteria. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4502: Affordable Housing Preservation: Shared Equity Programs – Community Land Trusts

4502.1: Overview (04/07/21)

Under the Community Land Trust model, the Community Land Trust owns land and leases it under a long-term ground lease to a homebuyer who purchases the structure on the land.

Freddie Mac will purchase Community Land Trust Mortgages that meet the requirements of this chapter and the Guide. The requirements include use of a specified form of ground lease (“Community Land Trust Ground Lease”) and Form 490, Community Land Trust Ground Lease Rider, each as further specified in Section 4502.10.

Unless specifically made applicable to Community Land Trust Mortgages, negotiated underwriting provisions stated in the Purchase Documents do not apply to these Mortgages. In addition, unless specifically permitted, the special negotiated Mortgage products or offerings described in the Purchase Documents may not be used with Community Land Trust Mortgages.

4502.2: Eligible Borrowers for Community Land Trust Mortgages (11/05/18)

Based on its focus on affordability, the Community Land Trust typically has Borrower eligibility requirements in addition to restrictions on the resale of the property improvements. Eligible Borrowers must meet the program requirements established by the Community Land Trust.

Completion, execution and recordation of the Community Land Trust Ground Lease serves as confirmation that the Borrower has met the eligibility requirements set forth by the Community Land Trust.

4502.3: Eligible and ineligible Community Land Trust Mortgages (05/03/23)

(a) Eligible Mortgages

Community Land Trust Mortgages eligible for purchase include:

- First Lien conventional fixed-rate Mortgages
- Condominium Unit Mortgages secured by a Detached Condominium Unit
- Condominium Unit Mortgages not secured by a Detached Condominium Unit, with prior written approval

(b) Ineligible Mortgages

Mortgages with the following characteristics are not eligible for purchase as Community Land Trust Mortgages:

- Financed Permanent Buydown Mortgages
- Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403
- Construction Conversion and Renovation Mortgage
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Enhanced Relief Refinance® Mortgages
- Cooperative Share Loans

4502.3: Eligible and ineligible Community Land Trust Mortgages (Future effective date 10/02/23)

(a) Eligible Mortgages

Community Land Trust Mortgages eligible for purchase include:

- First Lien conventional fixed-rate Mortgages
- Condominium Unit Mortgages secured by a Detached Condominium Unit
- Condominium Unit Mortgages not secured by a Detached Condominium Unit, with prior written approval

(b) Ineligible Mortgages

Mortgages with the following characteristics are not eligible for purchase as Community Land Trust Mortgages:

- Financed Permanent Buydown Mortgages
- Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403
- Construction Conversion and Renovation Mortgage
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Enhanced Relief Refinance® Mortgages
- Cooperative Share Loans
- HeritageOneSM Mortgages

4502.4: Loan purpose for Community Land Trust Mortgages (11/05/18)

A Community Land Trust Mortgage may be a purchase, “no cash-out” or cash-out refinance Mortgage.

In addition to the requirements of Chapter 4301 relating to refinance Mortgages, any refinance transaction must comply with the applicable requirements of the Community Land Trust including, but not limited to, the amount of the refinance Mortgage, and in the case of a cash-out refinance Mortgage, the amount of proceeds disbursed to the Borrower. The Seller must obtain and retain in the Mortgage file documentation signed by the Community Land Trust or its authorized representative permitting the Borrower to enter into a refinance transaction.

4502.5: Eligible property and occupancy types for Community Land Trust Mortgages (11/02/22)

A Community Land Trust Mortgage must be secured by a 1- or 2-unit Primary Residence that is not a Manufactured Home except that a Community Land Trust Mortgage secured by a 1-unit Primary Residence may be a CHOICEHome®. (For requirements for CHOICEHome Mortgages, see Section 5703.9.)

4502.6: Underwriting requirements for Community Land Trust Mortgages (03/28/22)

A Community Land Trust Mortgage may be submitted to Loan Product Advisor® or may be a Manually Underwritten Mortgage.

Note: For Community Land Trust Mortgages, minimum Down Payment requirements are based on the purchase price.

4502.7: Maximum LTV/TLTV/HTLTV ratios and value for Community Land Trust Mortgages (04/07/21)

(a) Maximum LTV/TLTV/HTLTV ratios

The loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) LTV (HTLTV) ratios are based upon the appraised value of the leasehold interest, without the resale and other restrictions included in the Community Land Trust Ground Lease. See Section 4203.4 for maximum LTV/ TLTV/ HTLTV ratios for purchase and “no cash-out” refinance Mortgages.

The maximum LTV/TLTV/HTLTV ratio for cash-out refinance Mortgages is 65%.

(b) Value

For both purchase and refinance transactions, “value” is the appraised value of the Mortgaged Premises on the Note Date. The appraised value must be determined in accordance with Section 4502.8.

The LTV ratio is obtained by dividing the First Lien Mortgage amount by the appraised value as illustrated below:

Example of calculating LTV ratio	
Appraised value	\$300,000
Purchase price	\$225,000
Subsidy amount	\$75,000
First Lien Mortgage amount	\$225,000
LTV ratio	75%
Minimum required Borrower contribution for Down Payment*	\$0

*Minimum required Borrower contribution for Down Payment is determined by the product selected for Mortgages with an LTV of greater than 80%. See Section 5501.3(b)(i).

The purchase price excludes the subsidy amount that was provided to acquire the property. For this reason, the purchase price may not be a reliable indicator of appraised value since it reflects the subsidy amount.

The LTV ratio is obtained by dividing the First Lien Mortgage amount by the “value” as described above.

4502.8: Appraisal requirements for Community Land Trust Mortgages (09/02/20)

In addition to the other Guide requirements related to appraisals, an appraisal for each Community Land Trust Mortgage must meet the requirements in this section.

Freddie Mac requires the appraiser to develop the opinion of value for the leasehold interest based on the hypothetical condition that the property rights being appraised are the leasehold interest without the resale and other restrictions included in the Community Land Trust Ground Lease, which are removed by Form 490, Community Land Trust Ground Lease Rider, upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure.

Appraisal requirements include:

- The Seller must ensure that the appraiser is knowledgeable and experienced in appraising a property subject to a leasehold estate held by a Community Land Trust
- The appraiser must analyze the property subject to the Community Land Trust Ground Lease
- The appraiser must describe the terms and restrictions of the Community Land Trust Ground Lease and Form 490
- The appraised value of the property must be well supported and correctly developed by the appraiser
- The appraiser must develop the opinion of value for the leasehold interest based on the hypothetical condition that the property rights being appraised are the leasehold interest without the resale and other restrictions included in the Community Land Trust Ground Lease, which are removed by Form 490 upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure
- On the appraisal report form, the appraiser must:
 - Indicate “leasehold” as the property rights appraised
 - Report the applicable ground rent paid to the Community Land Trust
- For a property subject to a leasehold interest created by a Community Land Trust, the appraiser should use sales of similar properties that are subject to other types of leasehold interests as comparable sales. If this is not possible, the appraiser may use sales of properties that are owned in fee simple. The appraiser should make appropriate adjustments to reflect the differences in market value for the properties subject to the other types of leasehold interests based on the terms of leases and the properties that are owned in fee simple.
- When the community or neighborhood has sales activity for other leasehold interests created by a Community Land Trust, the appraiser should analyze and report them in the appraisal report, but not use them as comparable sales if their sales prices were impacted or limited by restrictions in the ground lease
- Because Freddie Mac’s appraisal report forms do not include space to provide all the details required for appraising a property subject to a leasehold interest held by a Community Land Trust, the appraiser must attach an addendum to the appraisal report to provide any information that cannot otherwise be presented on the appraisal report form. The appraiser must check the box “as is” and include in the addendum an expanded discussion of the comparable sales used and considered. The addendum must also include the following statement:

“This appraisal is made based on the hypothetical condition that the property rights being appraised are the leasehold interest without resale and other restrictions that are removed by Form 490 upon foreclosure.”

4502.9: Community Land Trust eligibility requirements (04/07/21)

Effective April 7, 2021, Section 4502.9 is deleted.

4502.10: Requirements for Community Land Trust Ground Lease and Ground Lease Rider (02/02/22)

(a) Community Land Trust Ground Lease

The Seller must review and determine that the Community Land Trust's Ground Lease conforms to either the National Community Land Trust Network (NCLTN) 2011 Community Land Trust Network Model Ground Lease or the Institute for Community Economics (ICE) Model Ground Lease. Optional language as provided in either of such models must be selected but no additional changes may be made without Freddie Mac's prior written approval. The resale restrictions in the Community Land Trust's Ground Lease can be imposed by State or local governments, municipalities, instrumentalities or nonprofit entities to create and preserve affordable housing (including entities administering governmental sponsored subsidy programs).

In addition, the Community Land Trust Ground Lease must:

- Have a term of at least 30 years
- Include a resale formula that limits the homeowner's proceeds at resale. The restrictions must be binding on current and subsequent property owners, and remain in effect (i.e., survive) until they are formally removed or modified, or terminate automatically in accordance with their terms, such as at a foreclosure sale or upon recordation of a deed-in-lieu of foreclosure
- Provide the Community Land Trust or its assignee the right to a preemptive option to purchase the home from the homeowner at resale ("the right of first refusal")
- State that the Community Land Trust must review and approve any refinances and home equity lines of credit

For each Community Land Trust Mortgage sold to Freddie Mac, the Seller represents and warrants that the Community Land Trust Ground Lease is valid, enforceable and in full force and effect.

With prior written approval from Freddie Mac, Community Land Trusts certified under a Freddie Mac-approved certification program may be exempt from Seller review of the Community Land Trust's ground lease, and Sellers will be relieved from enforcement of

representations and warranties that the Community Land Trust Ground Lease is valid, enforceable and in full force and effect. The Seller must obtain Freddie Mac's written approval before selling Mortgages without review of the Community Land Trust's ground lease by contacting its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE.

(b) Leasehold estate eligibility requirements

The leasehold estate created by the Community Land Trust Ground Lease must constitute real property under applicable law.

(c) Community Land Trust Ground Lease Rider

Freddie Mac has developed Form 490, Community Land Trust Ground Lease Rider, that must be completed, executed and recorded in the land records, together with the Community Land Trust Ground Lease.

(d) Mortgage file requirements

The Mortgage file must contain an original executed or certified copy of the Community Land Trust Ground Lease and the Form 490 containing the recordation information.

4502.11: Security Instruments for Community Land Trust Mortgages (02/01/23)

The Uniform Security Instrument must describe the Mortgaged Premises as a leasehold interest created by a recorded ground lease in the property described in the legal description. In addition, the Seller must comply with Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application, Section IV, for Leasehold Estates.

4502.12: Title insurance requirements for Community Land Trust Mortgages (09/02/20)

Community Land Trust Mortgages must be insured by a title insurance policy or a policy and endorsements that meet the requirements of Chapter 4702. The title insurance policy or an endorsement to the policy must insure the following:

- The Community Land Trust Ground Lease was recorded
- Form 490, Community Land Trust Ground Lease Rider, was recorded
- The Community Land Trust Mortgage is a First Lien on the leasehold estate and the improvements

- There are no existing mortgages, loans or other liens on the fee estate, except as may be permitted under Form 490
- The Community Land Trust Ground Lease reversionary interest is subordinate to the Community Land Trust Mortgage; and
- There are no related Community Land Trust Ground Lease occupancy and resale restrictions, covenants, or agreements that are valid, existing, or effective as of the date of the policy except as may be permitted under Form 490

4502.13: Other requirements for Community Land Trust Mortgages (02/10/21)

(a) Special Servicing requirements

See Chapter 8701 for special Servicing requirements for Community Land Trust Mortgages.

(b) Delivery requirements

See Section 6302.42 for special delivery requirements for Community Land Trust Mortgages.

(c) Mortgage file requirements

See Section 3401.29 for special Mortgage file requirements for Community Land Trust Mortgages.

4502.14: Landlord education (11/02/22)

For Mortgages secured by a 2-unit property, at least one qualifying Borrower must meet one of the following requirements:

- Participate in a landlord education program before the Note Date, or
- Have at least one year of previous landlord experience

Landlord education cannot be provided by the originating lender, the Seller or any other interested party to the transaction.

The Seller must retain in the Mortgage file a copy of the certificate evidencing successful completion of the landlord education program.

Chapter 4503: Affordable Housing Preservation: Shared Equity Programs – Resale Restrictions

4503.1: Shared Equity Programs – Resale Restrictions (11/05/18)

Freddie Mac will purchase Mortgages secured by properties subject to resale restrictions including, but not limited to, income-based restrictions and age-based restrictions (such as senior housing or units restricted to one or more occupants age 55 and over). The resale restrictions may be imposed to create and preserve affordable housing by limiting the occupancy and resale of the property to individuals or households of very-low, low- or moderate-incomes. See Chapter 4406 for purchase requirements for Mortgages secured by properties subject to resale restrictions.

Chapter 4504: HeritageOneSM Mortgages

4504.1: Purchase of HeritageOneSM Mortgages (Future effective date 10/02/23)

Mortgages secured by properties located in Tribal Areas and made to Borrowers who are enrolled members of Native American Tribes that meet the requirements of this chapter and the Seller's other Purchase Documents will be eligible for sale to Freddie Mac as HeritageOneSM Mortgages.

4504.2: Overview of HeritageOneSM Mortgages (Future effective date 10/02/23)

(a) Seller requirements

The Seller must obtain Freddie Mac's written approval to sell HeritageOneSM Mortgages to Freddie Mac by contacting its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE.

(b) Negotiated underwriting provisions

Unless specifically made applicable to HeritageOne Mortgages, negotiated underwriting provisions in the Seller's Purchase Documents may not apply to HeritageOne Mortgages and cannot be used with HeritageOne Mortgages.

(c) Defined terms

As used in this chapter, the following terms have the meanings ascribed to them below:

- **BIA:** U.S. Department of the Interior Bureau of Indian Affairs
- **Eligible Native American Tribe:** A Native American Tribe that either:

- Is listed as a participating tribe in HUD's most recent Section 184 Participating Tribes List; or
 - Has entered into a memorandum of understanding with Freddie Mac that, to the Seller's knowledge, is and will remain in full force and effect

A list of Eligible Native American Tribes is available on Freddie Mac's website at <https://sf.freddiemac.com/working-with-us/origination-underwriting/mortgage-products/heritageone>.

- **Native American Tribe:** A federally recognized Indian tribe of the United States that is included in the BIA's most recent publication of the notice titled "Indian Entities Recognized by and Eligible To Receive Services From the United States Bureau of Indian Affairs". As used in this chapter, "Native American Tribe" includes any housing authority, utility, corporation, partnership or other entity that is partially or wholly owned by the Native American Tribe.
- **Tribal Area:** A census tract, or any portion thereof, that is designated as both a HUD Indian Housing Block Grant (IHBG) Area and a rural area under FHFA's Duty to Serve Regulation and is identified as an "Indian area" in the current version of the FHFA's Indian Areas File

(d) Eligible property

The Mortgaged Premises must be located in the Tribal Area of an Eligible Native American Tribe.

Mortgages must be secured by 1- to 4-unit Primary Residences, which may include:

- Manufactured Homes, including Manufactured Homes that are CHOICEHomes®
- Condominium Units
- Units located in Planned Unit Developments (PUD)
- Properties with ADUs

(e) First Lien priority

The Seller must comply with all statutory and regulatory requirements and obtain all approvals and signatures necessary to establish and maintain a valid First Lien on the Mortgaged Premises.

The Security Instrument must be signed by all individuals or entities with an ownership interest in the Mortgaged Premises. See Section 4101.8 for additional information on signatures required for the Security Instrument.

If necessary to establish or maintain the First Lien, the Seller must:

- Obtain any necessary approvals from the U.S. Secretary of the Interior or the BIA, as applicable; and
- Record the Security Instrument and all other Mortgage documents required to be recorded in the appropriate jurisdiction

Even if not necessary to establish or maintain the First Lien, it is recommended that the Security Instrument and all other Mortgage documents required to be recorded also be recorded in the locality in which the Mortgaged Premises are located.

(f) Assumable Mortgages

Mortgages sold under the Guarantor program that meet the requirements of Section 4101.10(c) and this chapter may be assumable Mortgages, if permitted under the Seller's Purchase Documents.

(g) Delivery requirements

See Section 6302.50 for delivery requirements for HeritageOne Mortgages.

(h) Special Servicing requirements

See Chapter 8901 for special Servicing requirements for HeritageOne Mortgages, including requirements for post-closing Borrower counseling, Transfers of Servicing and Transfers of Ownership.

4504.3: Eligible Borrowers for HeritageOneSM Mortgages (Future effective date 10/02/23)

The following Borrower eligibility requirements apply to HeritageOneSM Mortgages:

Topic	Borrower Eligibility Requirements
Eligible Borrowers	<p>At least one Borrower must:</p> <ul style="list-style-type: none">■ Be an enrolled member of a Native American Tribe; and■ Occupy the Mortgaged Premises as their Primary Residence <p>The Borrower may be an enrolled member of a Native American Tribe other than the Eligible Native American Tribe within whose Tribal Area the Mortgaged Premises are located.</p> <p>The Borrower cannot be a Native American Tribe.</p>
Borrower income	Borrowers are not subject to maximum income limits.
Occupancy	For 1-unit properties and Manufactured Homes, non-occupying Borrowers are permitted.

Topic	Borrower Eligibility Requirements
	<p>Funds used to qualify for the Mortgage transaction may come from occupying and/or non-occupying Borrowers.</p> <p>For 2- to 4-unit properties, all Borrowers must occupy the Mortgaged Premises as their Primary Residence.</p>
Ownership of other property	<p>As of the Note Date or, for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing, occupying Borrowers must not have an ownership interest in more than two financed residential properties, including the subject property.</p>

4504.4: Ineligible Mortgages (Future effective date 10/02/23)

Mortgages with the following characteristics are not eligible for sale to Freddie Mac as HeritageOneSM Mortgages:

- Mortgages secured by properties on Hawaiian Home Lands
- Cash-out refinance Mortgages
- Super conforming Mortgages (as described in Chapter 4603)
- Government Mortgages
- ARMs
- Mortgages secured by second homes
- Mortgages secured by Investment Properties
- Cooperative Share Loans
- Community Land Trust Mortgages
- Manually Underwritten Mortgages for which none of the Borrowers has a usable Credit Score
- Mortgages with RHS Leveraged Seconds
- Mortgages with associated Home Equity Lines of Credit (HELOCs)

- Financed Permanent Buydown Mortgages
- Seller-Owned Modified Mortgages
- Seller-Owned Converted Mortgages
- Mortgages with capitalized balances (as described in Chapter 4403)
- Freddie Mac Enhanced Relief Refinance® Mortgages
- Freddie Mac HomeOne® Mortgages
- Freddie Mac Refi PossibleSM Mortgages
- Freddie Mac Home Possible® Mortgages
- Texas Equity Section 50(a)(6) Mortgages

4504.5: General eligibility requirements for HeritageOneSM Mortgages (Future effective date 10/02/23)

The following general eligibility requirements apply to HeritageOneSM Mortgages:

Topic	General Eligibility Requirements
Loan limits	The loan amount may not exceed the applicable maximum original loan amount specified in Section 4203.3.
Mortgage purpose	The Mortgage must be either a purchase transaction Mortgage or a “no cash-out” refinance Mortgage.
Temporary subsidy buydown plans	<p>Temporary subsidy buydown plans described in Section 4204.4 are permitted if the Mortgage is:</p> <ul style="list-style-type: none"> ■ Secured by a 1-unit property; or ■ An Accept Mortgage secured by a 2-unit property
Secondary financing	<p>The following are permitted secondary financing arrangements:</p> <ul style="list-style-type: none"> ■ Secondary financing that meets the requirements of Section 4204.1

Topic	General Eligibility Requirements
	<ul style="list-style-type: none"> ■ Affordable Seconds® that meet the requirements of Section 4204.2, except that: <ul style="list-style-type: none"> □ For Affordable Seconds provided by an Agency, although Section 4204.2(a)(i)(A) provides otherwise, the Agency may be affiliated with, under contract to, or financed (directly or indirectly) by the Seller as the originating lender □ For Seller-funded Affordable Seconds, although Section 4204.2(a)(i)(B) provides otherwise, the Mortgage cannot be a Home Possible® Mortgage and may be a HeritageOne Mortgage □ For Manufactured Homes with Affordable Seconds, although Section 5703.3(e) provides otherwise, the Mortgage cannot be a Home Possible Mortgage and may be a HeritageOne Mortgage <p>For a Mortgage with a temporary subsidy buydown plan, if the secondary financing requires repayment to begin before the Due Date of the 61st monthly payment under the Mortgage, the secondary financing must have a fixed interest rate.</p>
Rental income	<p>When determining the stable monthly income (as described in Section 5301.1), rental income may be considered if generated from:</p> <ul style="list-style-type: none"> ■ A subject 1-unit property, with or without an ADU, if the requirements in Section 4501.9(a) or Section 5306.2 are met ■ An ADU on a subject 1-unit property, if the requirements in Section 5306.3 are met ■ A subject 2- to 4-unit property, if the requirements in Section 5306.4 are met, and excluding any rental income generated from an ADU ■ A non-subject Investment Property, if the requirements in Section 5306.4 are met
Homebuyer education	<p>For purchase transaction Mortgages where all occupying Borrowers are First-Time Homebuyers:</p> <ul style="list-style-type: none"> ■ At least one occupying Borrower must complete a homeownership education program before the Note Date or, for Construction Conversion and Renovation

Topic	General Eligibility Requirements
	<p>Mortgages, the Effective Date of Permanent Financing; and</p> <ul style="list-style-type: none"> ■ Although Section 5103.6(a)(i) provides otherwise, homeownership education may be provided by a Native community development financial institution (CDFI), even if the Native CDFI is the originating lender and/or the Seller <p>See Section 5103.6 for other requirements related to homeownership education.</p>
Landlord education for 2- to 4-unit properties	<p>For purchase transaction Mortgages, at least one qualifying Borrower must:</p> <ul style="list-style-type: none"> ■ Complete a landlord education program before the Note Date or, for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing; or ■ Have a minimum of one year of previous landlord experience <p>For “no cash-out” refinance Mortgages, landlord education is not required but is recommended for Borrowers who have not previously completed a landlord education program.</p> <p>Landlord education may not be provided by an interested party to the Mortgage transaction, except for a Native CDFI, even if the Native CDFI is the originating lender and/or the Seller.</p>
Resale restrictions	<p>The Mortgaged Premises may be subject to resale restrictions if the requirements of Chapter 4406 are met.</p> <p>Mortgages with income-based resale restrictions may not be secured by Manufactured Homes unless the Manufactured Home is a CHOICEHome®.</p>
Right of first refusal	<p>Any right of first refusal must run to:</p> <ul style="list-style-type: none"> ■ The Eligible Native American Tribe; and ■ Any lessor other than the Eligible Native American Tribe (if applicable) <p>When the Mortgage is subject to foreclosure proceedings and/or an approved short sale, the right of first refusal may not continue beyond 120 days after the date of written notice that the Mortgaged Premises are being offered for sale.</p>

Topic	General Eligibility Requirements
	Any right of first refusal may not adversely impact the rights of Freddie Mac or the Seller/Servicer to foreclose or acquire title to the Mortgaged Premises, accept a deed or assignment in lieu of foreclosure, or transfer title to or lease the Mortgaged Premises, if acquired.

4504.6: Underwriting requirements, qualifying ratios and maximum LTV/TLTV ratios for HeritageOneSM Mortgages (Future effective date 10/02/23)

(a) Underwriting requirements

A HeritageOneSM Mortgage may be a Loan Product Advisor[®] Mortgage or a Manually Underwritten Mortgage.

Mortgages secured by 2- to 4-unit properties must be submitted to Loan Product Advisor and receive a Risk Class of Accept.

For Manually Underwritten Mortgages:

- Each Borrower individually, and all Borrowers collectively, must have an acceptable credit reputation (as described in Topics 5100 and 5200 for Manually Underwritten Mortgages)
- An individual Borrower with insufficient credit history for whom the Seller cannot document a credit reputation is considered to have an acceptable credit reputation if:
 - No evidence of derogatory credit, such as a lien, judgment or collection, paid or unpaid, is reflected on the credit report or elsewhere in the Mortgage file with respect to such Borrower; and
 - At least one other Borrower whose income and assets are used for qualification has an acceptable credit reputation.

Any income contributed by the Borrower with insufficient credit history may be considered as qualifying income if the amount contributed by such Borrower is not more than 30% of the total qualifying income.

The minimum Indicator Scores for Manually Underwritten Mortgages are:

Property/Mortgage Type	Minimum Indicator Score
Purchase transaction Mortgages secured by 1-unit properties	660
“No cash-out” refinance Mortgages secured by 1-unit properties	680
Manufactured Homes	680

The minimum Indicator Scores are also in Exhibit 25.

(b) Qualifying ratios

There is no maximum monthly housing expense-to-income ratio, except for Manually Underwritten Mortgages with non-occupying Borrowers. See Section 5103.1 for additional requirements for Mortgages with non-occupying Borrowers.

For Loan Product Advisor Mortgages, the maximum monthly debt payment-to-income (DTI) ratio is determined by Loan Product Advisor.

For Manually Underwritten Mortgages, the maximum monthly DTI ratios are:

Property/Mortgage Type	Maximum Monthly DTI Ratio
1-unit properties ¹	45%
Manufactured Homes that are Caution Mortgages	36%

¹ See Section 5103.1 for additional requirements for Mortgages with non-occupying Borrowers.

Note: The Borrower’s monthly DTI ratio must be underwritten pursuant to Section 5401.2.

(c) Maximum loan-to-value (LTV)/total LTV (TLTV) ratios

The value used to calculate the LTV/TLTV ratios must be established pursuant to Section 4203.1.

The following maximum LTV/TLTV ratios apply to both purchase transaction and “no cash-out” refinance Mortgages:

Property/Mortgage Type	Maximum LTV/TLTV Ratios
1-unit properties ¹	97% ²

Property/Mortgage Type	Maximum LTV/TLTV Ratios
2- to 4-unit properties	95% ²
CHOICEHomes®	97% ²
Manufactured Homes ^{1, 3}	See Chapter 5703

¹ See Section 5103.1 for additional requirements for Mortgages with non-occupying Borrowers.

² A TLTV ratio not exceeding 105% is permitted when secondary financing is an Affordable Second®.

³ If permitted under the Seller's Purchase Documents, see Section 5706.5 for additional requirements for Manufactured Homes on leasehold estates.

Note: The LTV/TLTV ratios may be lower for Condominium Unit Mortgages depending on the project review type or whether the Mortgage is exempt from project review (see Chapter 5701).

4504.7: Borrower contributions and reserves, and source of funds for HeritageOne™ Mortgages (Future effective date 10/02/23)

(a) Borrower contribution requirements

The following minimum Borrower contributions from Borrower personal funds apply to purchase transaction Mortgages (based on the maximum loan-to-value (LTV)/total LTV (TLTV) ratios):

Property/Mortgage Type	LTV/TLTV Ratios ≤ 80%	LTV/TLTV ratios > 80% and ≤ 95%	LTV/TLTV Ratios > 95%
1-unit properties	None	None	None
2- to 4-unit properties	None	3% of value	3% of value
Manufactured Homes	None	None	None

(b) Reserves

Reserves are not required for:

- Accept Mortgages secured by 1-unit properties, unless Loan Product Advisor® determines reserves are necessary to offset other underwriting factors
- Manually Underwritten Mortgages secured by 1-unit properties

For Mortgages secured by 2- to 4-unit properties, the Seller must verify all reserves required by Loan Product Advisor.

(c) Source of funds

The following sources of funds are permitted:

Use	Permitted Sources of Funds
Minimum Borrower contribution	Borrower personal funds
Down Payment	<ul style="list-style-type: none">■ Borrower personal funds■ Other eligible sources of funds
Paying down the principal balance of the Mortgage being refinanced for a “no cash-out” refinance Mortgage	<ul style="list-style-type: none">■ Borrower personal funds■ Other eligible sources of funds
Closing Costs	<ul style="list-style-type: none">■ Borrower personal funds■ Other eligible sources of funds■ Flexible sources of funds
Reserves	<ul style="list-style-type: none">■ Borrower personal funds■ Other eligible sources of funds

(i) Borrower personal funds

Borrower personal funds include:

1. Borrower personal funds described in Section 5501.3(b)
2. Cash on hand, if the requirements in Section 4501.10(c)(i)(2) are met

(ii) Other eligible sources of funds

Other eligible sources of funds include:

1. Other eligible sources of funds described in Section 5501.3(c)
2. Gift or grant funds provided by the Seller as the originating lender, if a contribution of at least 3% of value is made from Borrower personal funds and/or other eligible sources of funds. The gift or grant may not be funded through the Mortgage transaction (i.e., through premium pricing).

3. Although Section 5501.3(c) provides otherwise, funds may be provided by an Agency affiliated with, under contract to, or financed (directly or indirectly) by the Seller as the originating lender, if:
 - The source of funds (i.e., a gift or grant, an unsecured loan or an Affordable Second[®]) is an eligible source of funds that meets all other Guide requirements; and
 - The source of funds is not funded through the Mortgage transaction
4. For purchase transaction Mortgages, funds from an unsecured loan, if the requirements in Section 4501.10(c)(ii)(3) are met, except that the funds may be provided by an Agency pursuant to Section 4504.7(c)(ii)(3) or Section 4504.7(d)
5. Sweat equity as a credit towards the Down Payment and/or Closing Costs, if the sweat equity requirements in Section 4501.10(c)(ii)(4) are met, except that the maximum LTV/TLTV ratios in this chapter and the special delivery requirements in Section 6302.50 apply
6. Funds from an Affordable Second or other secondary financing arrangement

(iii) Flexible sources of funds

Flexible sources of funds include:

1. Financing concessions described in Section 5501.5(b), if the applicable requirements in Section 5501.5 are met
2. Lender credits described in Section 5501.6(a) that are documented on the Settlement/Closing Disclosure Statement
3. An unsecured loan provided by the Seller as the originating lender, if the requirements in Section 4501.10(c)(iii)(3) are met

(d) Agency-provided funds

For a gift or grant, an unsecured loan or an Affordable Second provided by an Agency that is a Native American Tribe:

- The Native American Tribe providing the funds must be the Eligible Native American Tribe; or
- The Borrower must be an enrolled member of the Native American Tribe providing the funds

4504.8: HeritageOneSM Mortgages that are leasehold Mortgages (Future effective date 10/02/23)

(a) General requirements

For leasehold Mortgages, the Mortgaged Premises must be located on either tribal trust land or allotted trust land and cannot be located on land that is owned in fee simple.

Leasehold Mortgages must meet the requirements of Chapter 5704 and all other provisions in the Seller's Purchase Documents applicable to leasehold estates.

Leasehold Mortgages secured by Manufactured Homes must meet the requirements of Chapter 5706 and all other provisions in the Seller's Purchase Documents applicable to Manufactured Homes, except that the Manufactured Home is not required to be located in a ground lease community (although Section 5706.2 provides otherwise).

(b) Lease agreement requirements

The term of the lease agreement must be a minimum of 25 years with an automatic 25-year renewal.

The term of the lease agreement (before renewal) must expire at least five years after the term of the Mortgage expires. If necessary, approval must be obtained from the U.S. Secretary of the Interior or the BIA, as applicable, to extend the term of the lease agreement to a period longer than 25 years.

The Seller must maintain in the Mortgage file a copy of the recorded lease agreement, including any amendments or riders thereto.

(c) Form of lease agreement

It is recommended (but not required) that the most recent version of the standard lease form in HUD's Section 184 Program be used for leasehold Mortgages.

The lease agreement may not adversely impact the rights of Freddie Mac or the Seller/Servicer to foreclose or acquire title to the Mortgaged Premises, accept a deed or assignment in lieu of foreclosure, or transfer title to or lease the Mortgaged Premises, if acquired.

4504.9: Appraisal requirements for HeritageOneSM Mortgages (Future effective date 10/02/23)

The following appraisal requirements apply to HeritageOneSM Mortgages:

Topic	Appraisal Requirements
Appraiser qualifications	<p>In addition to the appraiser qualifications in Section 5603.1, the Seller must ensure the appraiser has the knowledge and experience required to perform appraisals for properties located in Tribal Areas. By way of example and not of limitation, the appraiser must be knowledgeable about and have experience with the various types of land ownership interests (e.g., tribal trust land, allotted trust land, unrestricted or restricted fee simple land, etc.) and have access to all appropriate data sources.</p> <p>Although traditional appraisal data sources (e.g., multiple listing service, public land records, etc.) remain important sources of data, the appraiser may need access to other sources of data and information, such as those maintained by the BIA and the Eligible Native American Tribe, to develop a fully supported and sufficiently documented opinion of market value.</p>
Appraisal type and automated collateral evaluation (ACE) eligibility	<p>The appraisal must meet the requirements of Topic 5600. Unless an ACE appraisal waiver is offered and accepted in accordance with Section 5602.3:</p> <ul style="list-style-type: none"> ■ An appraisal with an interior and exterior inspection is required; and ■ The Seller must maintain in the Mortgage file all property valuation documentation
Appraised value representation and warranty relief	<p>If an appraisal is obtained and the sales comparison approach was used, the Mortgage may be eligible for appraised value representation and warranty relief, if the requirements in Section 5602.2 are met.</p>
Appraisal cost offset credit	<p>If an appraisal is obtained for the Mortgage transaction, Freddie Mac will issue an appraisal cost offset credit, which must be passed to the Borrower.</p> <p>The appraisal cost offset credit will be detailed in the Seller's Purchase Documents.</p>
Sales comparison approach and cost approach	<p>When a sufficient number of comparable sales (i.e., a minimum of three closed comparable sales) are available, the sales comparison approach (with any support provided from the cost approach or income approach, as applicable) must be used by the appraiser. It is acceptable to use comparable</p>

Topic	Appraisal Requirements
	<p>sales that are older than, distant from or dissimilar to the subject property, if the applicable requirements in Section 5605.6 are met.</p> <p>For market areas without a sufficient number of comparable sales to develop a fully supported and sufficiently documented opinion of market value using the sales comparison approach, although Sections 5605.6 and 5605.7(a) provide otherwise, an appraisal that relies solely on the cost approach for the opinion of market value is acceptable, if the appraiser:</p> <ul style="list-style-type: none"> ■ Provides: <ul style="list-style-type: none"> □ A well-developed cost approach and fully completes the cost approach section of the report □ Sufficient detail to allow the Seller to replicate the cost approach; and □ In the reconciliation section of the report, an explanation of how the value was derived ■ Uses the revised scope of work, statements of assumptions and limiting conditions, and appraiser's certifications (which will be provided in the Seller's Purchase Documents), and the additional form instructions set forth below; and ■ Completes all fields in the report, other than the comparable sales data in the sales comparison approach grid <p>An appraisal may not rely solely on the cost approach for the opinion of market value if the Mortgage is secured by a:</p> <ul style="list-style-type: none"> ■ Property subject to resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure ■ Condominium Unit ■ 2- to 4-unit property; or ■ Property with an ADU
Additional form instructions	<p>For an appraisal that relies solely on the cost approach for the opinion of market value, the report must include the text identifier "Heritage1" in the "File #" field in the appraisal report form.</p>

Topic	Appraisal Requirements
	<p>The appraiser must complete all applicable fields for the subject property in the sales comparison approach grid, including, but not limited to:</p> <ul style="list-style-type: none"> ■ Location ■ View ■ Quality of Construction ■ Condition ■ Gross Living Area
Site value	<p>For properties on land that is owned in fee simple, for appraisals that rely solely on the cost approach for the opinion of market value, a site value must be developed and reported.</p> <p>For leasehold Mortgages, if there is no ground rent due under the lease agreement and no upfront payment was made, the leased fee value is zero and no value is attributable to the underlying land.</p>
UCDP	<p>The appraisal must be submitted to the Uniform Collateral Data Portal® (UCDP®) and receive a “Successful” status prior to delivery of the Mortgage.</p>
Additional resources	<p>Sellers are encouraged to review the Appraisal Institute’s appraisal training curriculum for performing property valuations in tribal areas.</p>

4504.10: Mortgage insurance for HeritageOneSM Mortgages (Future effective date 10/02/23)

Information related to mortgage insurance for HeritageOneSM Mortgages will be detailed in the Seller’s Purchase Documents.

4504.11: Credit Fees for HeritageOneSM Mortgages (Future effective date 10/02/23)

Credit Fees related to HeritageOneSM Mortgages will be detailed in the Seller’s Purchase Documents.

4504.12: Title insurance requirements for HeritageOneSM Mortgages (Future effective date 10/02/23)

See Section 4702.7 for title insurance requirements for HeritageOneSM Mortgages.

4504.13: Mortgage file requirements for HeritageOneSM Mortgages (Future effective date 10/02/23)

For HeritageOneSM Mortgages, the Seller must maintain in the Mortgage file:

- Evidence that the Eligible Native American Tribe is included in the BIA's most recent publication of the notice titled "Indian Entities Recognized by and Eligible To Receive Services From the United States Bureau of Indian Affairs" and:
 - A copy of the fully executed memorandum of understanding between the Eligible Native American Tribe and Freddie Mac, if applicable
 - A printout showing the Eligible Native American Tribe in the list of Eligible Native American Tribes on [Freddie Mac's website](#)
 - A printout showing the Eligible Native American Tribe in HUD's Section 184 Participating Tribes List; or
 - Documentation issued by HUD indicating unconditional approval of the Eligible Native American Tribe as a participating tribe
- Documentation verifying the Borrower is an enrolled member of a Native American Tribe:
 - A copy of the Borrower's tribe-issued enrollment card; or
 - A copy of a tribe-issued letter indicating the Borrower's enrollment as a member of the Native American Tribe
- Evidence of the land ownership interest (e.g., tribal trust land, allotted trust land, unrestricted or restricted fee simple land, etc.) of the Mortgaged Premises and the court system that has jurisdiction over the Mortgaged Premises
- A copy of the certified title status report(s) obtained from the BIA, if applicable
- To the extent possible, the Eligible Native American Tribe's contact information:

- If different from the contact information listed in the Tribal Leaders Directory maintained by the BIA, documentation listing the Eligible Native American Tribe's contact information in a substantially similar format
 - Contact information for the Eligible Native American Tribe's office of real estate services, if applicable; and
 - For leasehold Mortgages, the contact information for the party that manages lease agreements on behalf of the Eligible Native American Tribe or the lessor (e.g., management company), if applicable
- For purchase transaction Mortgages secured by 2- to 4-unit properties, evidence of completion of the landlord education program, if required

Chapter 4601: Financed Permanent Buydown Mortgages

4601.1: Eligible Financed Permanent Buydown Mortgages (01/01/22)

Financed Permanent Buydown Mortgages must have the following characteristics:

- The Mortgage must be an eligible fixed-rate, level payment Mortgage or a 5/6-Month, 7/6-Month or 10/6-Month ARM
- The Mortgage must not be a Home Possible® Mortgage
- The Mortgage must not be an FHA Mortgage, a VA Mortgage, a Section 502 GRH Mortgage, or a Section 184 Native American Mortgage
- The Mortgage must not be a Freddie Mac HomeOne® Mortgage
- The Mortgage must not be a Community Land Trust Mortgage
- The Mortgage must not be secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)
- Temporary subsidy buydowns are not permitted

4601.1: Eligible Financed Permanent Buydown Mortgages (Future effective date 10/02/23)

Financed Permanent Buydown Mortgages must have the following characteristics:

- The Mortgage must be an eligible fixed-rate, level payment Mortgage or a 5/6-Month, 7/6-Month or 10/6-Month ARM
- The Mortgage must not be a Home Possible® Mortgage
- The Mortgage must not be an FHA Mortgage, a VA Mortgage, a Section 502 GRH Mortgage, or a Section 184 Native American Mortgage
- The Mortgage must not be a Freddie Mac HomeOne® Mortgage

- The Mortgage must not be a Community Land Trust Mortgage
- The Mortgage must not be a HeritageOneSM Mortgage
- The Mortgage must not be secured by property subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)
- Temporary subsidy buydowns are not permitted

4601.2: Underwriting Financed Permanent Buydown Mortgages (03/02/16)

For purposes of this chapter, the following definitions apply:

- **Base Mortgage Amount:** The Mortgage amount without the financed discount points
- **Gross loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios:** The LTV, TLTV or HTLTV ratio calculated using the Mortgage amount, which includes the financed discount points

Eligibility of Financed Permanent Buydown Mortgages is determined using the Gross LTV, TLTV, and HTLTV ratios.

Financed Permanent Buydown Mortgages must comply with the following requirements:

1. The Gross LTV, TLTV and HTLTV ratios must not exceed the LTV, TLTV, or HTLTV ratios specified in Section 4203.4
2. The amount of the mortgage insurance coverage must meet the coverage level requirements in Section 4701.1, using the Gross LTV ratio
3. The maximum amount a Borrower can finance for a permanent buydown is three discount points, calculated based upon the Base Mortgage Amount
4. For fixed-rate Mortgages, Borrower qualification is based on the monthly housing expense-to-income ratio calculated using the monthly payment at the permanent bought down Note Rate. For ARMs, Borrower qualification is based on monthly payments calculated in accordance with Section 4401.8.
5. For ARMs, the permanent buydown is in effect for the initial Note Rate and each Note Rate adjustment for the entire term of the Mortgage. The Lifetime Ceiling will be calculated using

the permanent bought down initial Note Rate. The permanent buydown does not affect the Margin, Initial Cap or Periodic Cap.

4601.3: Other requirements for Financed Permanent Buydown Mortgages (05/04/22)

(a) Delivery requirements

See Section 6302.24 for pooling and delivery requirements for Financed Permanent Buydown Mortgages.

(b) Calculation of applicable Credit Fees

Applicable Credit Fees will be assessed and billed based on the UPB of the Mortgage (including the financed permanent buydown points) and the Gross loan-to-value (LTV) ratio.

The Seller must refer to Exhibit 19, Credit Fees. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4602: Construction Conversion and Renovation Mortgages

4602.1: Replacement of Interim Construction Financing overview (03/02/16)

A transaction where Mortgage proceeds are used to replace Interim Construction Financing must meet requirements of this chapter to be eligible for sale to Freddie Mac.

4602.2: Eligible and ineligible Construction Conversion and Renovation Mortgages (11/05/18)

Construction Conversion and Renovation Mortgages that are eligible for purchase must be First Lien Mortgages and may be any Mortgage Product or offering eligible under this Guide unless specifically described as ineligible in this chapter.

The following Mortgages are ineligible for delivery as Construction Conversion or Renovation Mortgages:

- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Community Land Trust Mortgages
- Mortgages secured by property subject to income-based resale restrictions

Certain types of refinance Mortgages and certain property types may also be ineligible for delivery as Construction Conversion or Renovation Mortgages. See Sections 4602.5(b) and 4602.7 for additional restrictions on the eligible Mortgage purpose and property types.

4602.3: Documentation of Permanent Financing (02/01/23)

With a Construction Conversion Mortgage or a Renovation Mortgage, conversion of the Interim Construction Financing to Permanent Financing may be accomplished using one of the following structures:

- Integrated Construction Conversion Documentation
- Separate Construction Conversion Documentation
- Modification Construction Conversion Documentation

(a) Required Uniform Instruments; Uniform Security Instrument

The Permanent Financing must be closed on the Uniform Instruments permitted under this Guide to be used with the applicable Mortgage Product being used for the Permanent Financing.

The Seller must use the most current version of the State-specific Fannie Mae/Freddie Mac Single-Family Security Instrument prepared for use in the jurisdiction in which the Mortgaged Premises are located and the most current version of any applicable property type riders. The most current version of the Uniform Instruments is the version in effect as of the date the Security Instrument for the Permanent Financing is executed. See Exhibit 4A, Single-Family Uniform Instruments, for the current dates of revisions of all Uniform Instruments. See Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application, for authorized changes to the Uniform Instruments.

(b) Types of documentation of Permanent Financing

The Interim Construction Financing and Permanent Financing of Construction Conversion and Renovation Mortgages must be documented as follows:

Type Mortgage	Documentation Structure	Closings	Required Documentation
Integrated Documentation	<p>Single set of Mortgage loan instruments with construction financing terms incorporated into the Note for the Permanent Financing</p> <p>No change to the Note at conversion of Interim Construction Financing except to reduce the principal balance</p> <p>No modification agreement</p>	Single closing at time of Interim Construction Financing to execute the Mortgage loan instruments	<ul style="list-style-type: none"> • Uniform Security Instrument • Uniform Note applicable to the Permanent Financing Mortgage Product with changes needed for terms of the Interim Construction Financing. Interim Construction Financing terms should be in an addendum to the Note
Separate Documentation	<p>Two sets of Mortgage loan instruments: one set for the Interim Construction Financing and a second set for the Permanent Financing</p> <p>No modification agreement</p>	Two closings: (i) to execute the Interim Construction Financing loan instruments, and (ii) to execute the Permanent Financing loan instruments	<ul style="list-style-type: none"> • Interim Construction Financing may be documented using non-Uniform Instruments • Uniform Security Instrument for Permanent Financing • Uniform Note applicable to the Mortgage Product for Permanent Financing

Type Mortgage	Documentation Structure	Closings	Required Documentation
Modification Documentation	<p>(i) One Security Instrument for both Interim Construction and Permanent Financing, (ii) the Note for Interim Construction Financing, and (iii) a modification agreement, which may include a new Note for Permanent Financing if different from the Interim Construction Financing, the Note used for the Interim Construction Financing was a non-Uniform Instrument or was for a different Mortgage Product</p> <p>Construction Conversion Modification Agreement used at time of conversion of Interim Construction Financing to Permanent Financing</p>	<p>Two closings: (i) at the time of the Interim Construction Financing, to execute the Mortgage loan instruments, and (ii) at the time of Permanent Financing, to execute the Construction Conversion Modification Agreement and if necessary, a new Note</p>	<ul style="list-style-type: none"> • Uniform Security Instrument • Uniform Note applicable to Mortgage Product for Interim Construction Financing; non-Uniform Note may be used but must execute new Uniform Note with modification agreement • Construction Conversion Modification Agreement (see subsection (c) below for version of Construction Conversion Modification Agreement to be used) • New Uniform Note applicable to Mortgage Product for Permanent Financing if the Note used for the Interim Construction Financing was a non-Uniform Note or was for a different Mortgage Product • Additional riders to the Security Instrument if needed for the Permanent Financing Mortgage Product (for example, an ARM Rider may be needed)

(c) Construction Conversion Modification Agreements to be used under special circumstances

The following requirements apply in these circumstances when using Modification Documentation:

Interim Construction Financing is on Uniform Note for same Mortgage Product as the Permanent Financing	Borrower must execute Construction Conversion Modification Agreement applicable to the Mortgage Product; new Uniform Note not required. ■ As examples, see Freddie Mac Multistate Construction Conversion Modification Agreement - Fixed-Interest Rate (Modification of Note) (Form 5162), or Freddie Mac Construction Conversion Modification Agreement - Adjustable Interest Rate (Modification of Note) (Form 5163)
Interim Construction Financing is on Uniform Note for different Mortgage Product from that used for Permanent Financing	Borrower must execute Construction Conversion Modification Agreement and new Uniform Note and any necessary Riders appropriate for the Mortgage Product being used for the Permanent Financing ■ As an example, see Freddie Mac Multistate Construction Conversion Modification Agreement (New Note) (Form 5164) As an alternative, if the Interim Construction Financing was on a Uniform Note for a Mortgage Product other than a fixed-rate Mortgage and the Permanent Financing is fixed-rate financing, the Borrower may execute a Construction Conversion Modification Agreement with fixed-rate terms incorporated into the modification. ■ As an example, see Freddie Mac Multistate Construction Conversion Modification Agreement - Fixed Interest Rate (Embedded Fixed-rate Financing Terms for use with modification into a Fixed Interest Rate) (Form 5165)

<p>Interim Construction Financing is not on a Uniform Note</p>	<p>Borrower must execute Construction Conversion Modification Agreement and new Uniform Note and any necessary Riders appropriate for the Mortgage Product being used for the Permanent Financing.</p> <ul style="list-style-type: none"> ■ As an example, see Freddie Mac Multistate Construction Conversion Modification Agreement (New Note) (Form 5164)
---	--

The Seller may use the applicable Freddie Mac Construction Conversion Modification Agreement(s) described in the chart above or develop its own modification agreement using Freddie Mac's examples. However, the Seller's modification agreement must not incorporate the terms of the Note for the Permanent Financing in those situations where Freddie Mac requires that a new Uniform Note be used.

If the Seller uses a different Construction Conversion Modification Agreement than those described above to evidence the terms of the Permanent Mortgage, Seller represents and warrants that the instrument, when completed:

- Contains substantially identical provisions to the comparable Freddie Mac Construction Conversion Modification Agreement form, and
- Is appropriate for use to evidence the conversion of Interim Construction Financing to Permanent Financing

4602.4: Mortgage term for Construction Conversion and Renovation Mortgages (03/02/16)

For Construction Conversion Mortgages and Renovation Mortgages, the term of the Permanent Financing begins on the Effective Date of Permanent Financing.

Construction Conversion Mortgages secured by Manufactured Homes must have a maximum original maturity not greater than that specified in Section 5703.3(d).

4602.5: Mortgage purpose for Construction Conversion and Renovation Mortgages (07/06/22)

(a) Mortgage purpose

Construction Conversion Mortgages and Renovation Mortgages may be for purchase transactions, "no cash-out" or cash-out refinance transactions as shown in the chart below. A

Construction Conversion Mortgage or a Renovation Mortgage may not be used for the purpose of making a single disbursement of funds to a builder or contractor or for the assumption of an existing Mortgage.

If, prior to the closing of the Interim Construction Financing, the Borrower is . . .	Then the transaction is a . . .	And proceeds from the Interim Construction Financing may be used to. . .
Not the owner of record of the land, or If the home is on a leasehold estate, not the lessee of the leasehold estate	Purchase transaction	<ul style="list-style-type: none"> ■ Purchase the land or acquire a leasehold interest in the land ■ For Renovation Mortgages, purchase the site-built home ■ Pay construction or renovation costs of the site-built home ■ For a Manufactured Home, acquire the Manufactured Home and pay construction costs, including costs to install and anchor the Manufactured Home on a permanent foundation system
The owner of record of the land, or If the home is on a leasehold estate, the lessee of the leasehold estate	Refinance transaction	<ul style="list-style-type: none"> ■ Pay off any existing liens on the land and on the improvements, if the Mortgage is a Renovation Mortgage ■ Pay off any existing liens on the land, if the Mortgage is a Construction Conversion Mortgage ■ Pay all Closing Costs ■ Pay construction or renovation costs of the site-built home ■ For a Manufactured Home, acquire the Manufactured Home and pay construction costs, including costs to install and anchor the Manufactured Home on a permanent foundation system on land owned by the Borrower

(b) Requirements for refinance transactions

(i) “No cash-out” refinance transactions

“No cash-out” refinance transactions must meet the requirements in Section 4301.4, except as stated below.

For purposes of Section 4301.4, the amount of the Interim Construction Financing secured by the Mortgaged Premises is considered an amount used to pay off the first Mortgage as described in Section 4301.4. The proceeds of the Permanent Financing may be used to pay off a junior lien(s) secured by the Mortgaged Premises provided the lien(s) were used in their entirety for the construction and/or renovation of the subject property, as applicable, as documented in the Mortgage file.

Paying off unsecured liens or construction costs paid by the Borrower outside of the secured Interim Construction Financing is considered cash out to the Borrower, if above \$2,000 or 1% of the loan amount, whichever is greater.

(ii) Cash-out refinance transactions

Cash-out refinance transactions must meet the requirements in Section 4301.5. Cash-out refinance Mortgages that are Construction Conversion Mortgages and Renovation Mortgages may not be secured by Manufactured Homes.

At least one Borrower must have been on the title to the land for six months or more prior to the Effective Date of Permanent Financing.

Special purpose cash-out refinance Mortgages are ineligible as Construction Conversion Mortgages and Renovation Mortgages.

4602.6: Eligible Borrowers for Construction Conversion and Renovation Mortgages (03/02/16)

The Borrower on a Construction Conversion Mortgage or a Renovation Mortgage must satisfy the following requirements:

- The Borrower on the Permanent Financing must be the Borrower on, and obligated to repay, the Interim Construction Financing, and any other outstanding prior financing, including installation financing or outstanding prior Mortgages except as follows:
 - A Borrower may be omitted in the event of death or divorce, or

- A Borrower who is a Related Person may be added, provided that all Borrowers on the Permanent Financing are owner-occupants of the Mortgaged Premises and considered in the underwriting of the Permanent Financing
- The builder/developer must not be obligated to repay the Interim Construction Financing or any Mortgage on the land or the improvements except when the builder/developer is the Borrower on the Permanent Financing and will occupy the Mortgaged Premises as his or her Primary Residence

4602.7: Eligible property for Construction Conversion and Renovation Mortgages (07/06/22)

Construction Conversion Mortgages and Renovation Mortgages must be secured by Mortgaged Premises that satisfy the following requirements.

- The Mortgaged Premises must be:

Construction Conversion Mortgage	A newly built or constructed 1- to 4-unit site-built home, or A newly purchased Manufactured Home that has never been attached to a foundation.
Renovation Mortgage	An existing 1- to 4-unit site-built home

- Prior to the start of construction or renovation work, the Borrower must own the land in fee simple or have a leasehold estate meeting the requirements of Chapter 5704. The Borrower may have acquired the land through a purchase, inheritance, gift or divorce settlement.

Completion status as of sale of the Mortgage to Freddie Mac

All improvements must be fully completed before the sale of the Mortgage to Freddie Mac except for Mortgages secured by site-built homes meeting the requirements in Section 5601.3 and for which completion escrows are established in accordance with the requirements of Section 5601.3.

For a Manufactured Home, the installation must be fully complete, including permanent utility connections and construction of any site-built improvements such as garages, decks, or porches, before the Mortgage can be sold to Freddie Mac as evidenced by a satisfactory completion report.

For both site-built homes and Manufactured Homes, Sellers must provide evidence that the property is complete. See the requirements in Section 5605.8.

4602.8: Underwriting the Permanent Financing (07/06/17)

(a) Original and subsequent underwriting

The Seller is required to underwrite the Mortgage for the Permanent Financing that will be sold to Freddie Mac prior to the Effective Date of the Permanent Financing. For Construction Conversion Mortgages and Renovation Mortgages, underwriting may occur prior to or after closing of the Interim Construction Financing.

Changes in the terms of the financing or in the Mortgage Product are permitted prior to the Effective Date of the Permanent Financing. A change in Borrowers is permitted provided that requirements of Section 4602.6 are met. If there are changes in the terms of the Permanent Financing or if the property value has declined after the Mortgage has been underwritten, then:

If a Non-Loan Product Advisor Mortgage, it must be re underwritten, or

If a Loan Product Advisor[®] Mortgage, it may require resubmission of the Mortgage to Loan Product Advisor as described in Section 4602.8(b).

Resubmission of Loan Product Advisor Mortgages

Loan Product Advisor Mortgages must meet the requirements in Chapter 5101 including the resubmission requirements in Section 5101.6 except that resubmission of a Mortgage to Loan Product Advisor is not required if there is:

- A change from the previous submission if the change involves one of the exceptions in Section 5101.6
- A decrease in the loan amount, provided the Permanent Financing complies with the following conditions:
 - When there is an increase in the Down Payment, all funds used to reduce the loan amount must meet the requirements of Chapter 5501
 - When there is a decrease in the reserves amount, the amount of verified reserves is no less than the reserves required to be verified on the Feedback Certificate
 - The decrease in the loan amount does not change the level of mortgage insurance coverage. For example, if the property value is \$120,000 and the loan amount is

\$114,000 (which equals a 95% loan-to-value (LTV) ratio), the loan amount may decrease to \$109,200 (91% LTV ratio). However, if the loan amount decreases to \$108,000 (90% LTV ratio) the loan must be resubmitted.

- A change from an ARM to a fixed-rate Mortgage, provided the Permanent Financing complies with the following conditions:
 - The Permanent Financing is not subject to a temporary subsidy buydown plan
 - In the prior submission, the Borrower was qualified with an ARM monthly housing expense payment equal to or greater than the fixed-rate monthly housing expense
 - The Mortgage term of the fixed-rate Mortgage is the same as the Mortgage term for the ARM
- A decrease in the reserves amount, provided that the amount of verified reserves is no less than the reserves required to be verified on the Feedback Certificate

4602.9: Appraisal requirements for Construction Conversion and Renovation Mortgages (03/31/22)

The Seller must obtain an appraisal with an interior and exterior inspection that meets Freddie Mac requirements.

The Seller represents and warrants that the originating lender provided the appraiser with all the appraisal information required in Topic 5600, including plans and specifications.

The appraiser's opinion of value must provide the "as completed" value.

The effective date of the appraisal must be prior to the Effective Date of Permanent Financing and the appraisal must meet the requirements of Topic 5600, including Section 5604.3.

4602.10: Calculation of value for Construction Conversion and Renovation Mortgages (09/01/21)

Value used to determine the loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios must be established as follows:

Purchase Transaction		
Property Type	Value	
	Construction Conversion Mortgages	Renovation Mortgages
1- to 4-unit site-built home	<p>Value is the lesser of:</p> <ul style="list-style-type: none"> • The purchase price of the Mortgaged Premises (the purchase price of the land* and total construction costs), or • Appraised value of the Mortgaged Premises, as completed. 	<p>Value is the lesser of:</p> <ul style="list-style-type: none"> • The purchase price of the Mortgaged Premises prior to the renovation plus the renovation costs (costs of demolition and reconstruction), or • Appraised value of the Mortgaged Premises, as completed.
1-unit Manufactured Home	<p>Value is the lesser of:</p> <ul style="list-style-type: none"> • The purchase price of the Manufactured Home, plus the lowest purchase price at which the land was sold during the most recent 12-month period*, or • Appraised value of the Mortgaged Premises, as completed. 	Not eligible

* If the Borrower acquired the land as a gift or by inheritance, the value of the land as reported on the appraisal may be used in lieu of the purchase price of the land.

Any item that is included in the calculation of cost to construct or renovate the home must be commonly and customarily included in the cost to construct other homes in the area where the Mortgaged Premises is located. The cost to construct must not include items such as furniture, electronic and home entertainment equipment or other personal items.

“No Cash-out” Refinance Transactions		
Property Type	Value	
	Construction Conversion Mortgages	Renovation Mortgages
1- to 4-unit site-built home	Appraised value of the Mortgaged Premises, as completed	
1-unit Manufactured Home	Appraised value of the Mortgaged Premises, as completed	Not eligible

Cash-out Refinance Transactions	
Construction Conversion and Renovation Mortgages	
Property Type	Value
1- to 4-unit site-built home	Appraised value of the Mortgaged Premises, as completed
1-unit Manufactured Home	Not eligible

4602.11: Seller-Owned Modified and Seller-Owned Converted Mortgages (07/29/18)

The Seller-Owned Modified and Seller-Owned Converted Mortgage offering described in Chapter 4402 may not be used to convert or modify the Interim Construction Financing to Permanent Financing.

After the Effective Date of Permanent Financing, if the terms of the Permanent Financing have been modified or if an ARM converted to a fixed-rate Mortgage, the resulting Mortgage is a Seller-Owned Modified or Seller-Owned Converted Mortgage that must meet the requirements of Chapter 4402 and other provisions related to these Mortgages, including requirements excluding the Home Possible® Mortgages, Freddie Mac HomeOne® Mortgages and Mortgages

secured by Manufactured Homes from eligibility as Seller-Owned Modified or Seller-Owned Converted Mortgages.

4602.12: Mortgage file documentation for Construction Conversion and Renovation Mortgages (07/07/21)

The Mortgage file for each Construction Conversion or Renovation Mortgage must contain:

- Documentation that supports classification of the Mortgage as a Construction Conversion or a Renovation Mortgage
- Sufficient documentation (for example: purchase contracts, plans and specifications, receipts, invoices, lien waivers etc.) on which to validate the actual cost to construct or renovate the home
- A document that clearly shows the Seller's calculation of the purchase price and/or cost to construct
- The Settlement/Closing Disclosure Statement or an alternative form required by law evidencing all costs to homebuyer and property seller at closing of the Interim Construction Financing
- The Settlement/Closing Disclosure Statement for the closing of the Permanent Financing

In addition, the Mortgage file must contain the following documentation, when applicable:

- For a Mortgage secured by a Manufactured Home, the manufacturer's invoice and the Manufactured Home Purchase Agreement
- For a cash-out refinance Mortgage, documentation that supports at least one Borrower has been on title to the land for six months or more prior to the Effective Date of Permanent Financing
- Appropriate documentation to verify the acquisition and transfer of ownership of the land if the Borrower acquired the land as a gift or by inheritance

4602.13: Residential loan application and uniform underwriting and transmittal summary forms for Construction Conversion and Renovation Mortgages (03/01/21)

Effective for Mortgages with Application Received Dates on or after March 1, 2021, Section 4602.13 is deleted.

4602.14: Delivery requirements for Construction Conversion and Renovation Mortgages (03/02/16)

See Section 6302.28 for delivery and pooling requirements for Construction Conversion and Renovation Mortgages.

4602.15: Credit Fees for Construction Conversion and Renovation Mortgages (05/04/22)

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to Construction Conversion and Renovation Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4603: Super Conforming Mortgages

4603.1: Purchase of super conforming Mortgages (03/02/16)

Freddie Mac will purchase super conforming Mortgages under the terms of the Purchase Documents and this chapter. Super conforming Mortgages are Mortgages that are secured by properties located in designated High-Cost Areas and have original loan amounts meeting the loan limits in Section 4603.2.

Unless specifically prohibited, the special negotiated Mortgage underwriting provisions, products and offerings described in the Purchase Documents may be used with super conforming Mortgages provided that the more restrictive provisions of this chapter or the Seller's other Purchase Documents apply.

Unless otherwise notified in writing, Sellers are eligible to deliver super conforming Mortgages.

4603.2: Minimum and maximum original loan amounts for super conforming Mortgages (01/01/23)

The following minimum and maximum original loan amounts apply to super conforming Mortgages that have Freddie Mac Funding or Settlement Dates on or after January 1, 2023 and Freddie Mac Funding or Settlement Dates on or before December 31, 2023:

Units	Minimum/Maximum Original Loan Amount		Properties in Alaska, Hawaii, Guam and the U.S. Virgin Islands	
	Minimum Loan Amount	Maximum Loan Amount	Minimum Loan Amount	Maximum Loan Amount**
	Permanent (HERA)*	Permanent (HERA)*		
1	\$726,201	\$1,089,300	>\$1,089,300	None in 2023
2	\$929,851	\$1,394,775	>\$1,394,775	None in 2023
3	\$1,123,901	\$1,685,850	>\$1,685,850	None in 2023
4	\$1,396,801	\$2,095,200	>\$2,095,200	None in 2023

*These are the maximum potential loan limits for designated High-Cost Areas, as determined under the provisions of the Housing and Economic Recovery Act of 2008 (HERA). Actual loan limits are established for each county (or equivalent) and the loan limits for specific High-Cost Areas may be lower. The original principal balance of a Mortgage must not exceed the maximum loan limit for the specific area in which the Mortgaged Premises is located. For specific loan limits for each High-Cost Area, as released by the Federal Housing Finance Agency, visit:

<https://www.fhfa.gov/DataTools/Downloads/Pages/Conforming-Loan-Limit.aspx>.

** There are no properties in Alaska, Hawaii, Guam or the U.S. Virgin Islands with loan limits higher than the applicable base conforming limits for 2023. As a result, there are no super conforming limits specific to Alaska, Hawaii, Guam or the U.S. Virgin Islands for 2023.

For super conforming Mortgages, the Seller must use the loan amount of the Mortgage stated in the Note to determine compliance with the maximum loan limits stated above.

4603.3: General eligibility requirements for super conforming Mortgages (01/01/22)

(a) Eligible Mortgages

A super conforming Mortgage must be a:

- Fixed-rate Mortgage, or
- 5/6-Month, 7/6-Month or 10/6-Month ARM

Freddie Mac Enhanced Relief Refinance® Mortgages may be super conforming Mortgages provided the Mortgage meets the applicable requirements for that offering in Chapter 4304.

Super conforming Mortgages may be any of the following provided the Mortgage meets the applicable requirements for that offering and this chapter. If there is a conflict between any of the requirements for the following products or offerings, the more restrictive requirements will apply:

- Home Possible® Mortgages originated in accordance with Chapter 4501
- Texas Equity Section 50(a)(6) Mortgages originated in accordance with Section 4301.7
- Community Land Trust Mortgages originated in accordance with Chapter 4502
- Mortgages secured by properties subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)

(b) Ineligible Mortgages

Super conforming Mortgages must not be:

1. ARMs with Initial Periods of less than five years
2. Mortgages secured by a Manufactured Home
3. Seller-Owned Converted Mortgages
4. Seller-Owned Modified Mortgages
5. FHA/VA Mortgages
6. Section 502 GRH Mortgages
7. Section 184 Native American Mortgages
8. Mortgages using an Automated Valuation Model (AVM)
9. Mortgages with custom mortgage insurance
10. Mortgages with annual or monthly lender-paid mortgage insurance premiums
11. Freddie Mac HomeOne® Mortgages

(c) Maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTB (HTLTB) ratios

See Section 4203.4 for maximum LTV/TLTV/HTLTB ratios.

(d) Mortgage insurance requirements

Standard mortgage insurance coverage is required in accordance with Section 4701.1. Lender-paid mortgage insurance with single premiums and financed mortgage insurance premiums described in Section 4701.2(a) are permitted.

The custom mortgage insurance option described in Section 4701.1 is not permitted.

(e) Monthly debt payment-to-income ratio

The maximum monthly debt payment-to-income ratio for super conforming Manually Underwritten Mortgages is 45%.

For Manually Underwritten Mortgages, the debt-to-income ratio must be underwritten in accordance with Section 5401.2.

4603.3: General eligibility requirements for super conforming Mortgages (Future effective date 10/02/23)

(a) Eligible Mortgages

A super conforming Mortgage must be a:

- Fixed-rate Mortgage, or
- 5/6-Month, 7/6-Month or 10/6-Month ARM

Freddie Mac Enhanced Relief Refinance® Mortgages may be super conforming Mortgages provided the Mortgage meets the applicable requirements for that offering in Chapter 4304.

Super conforming Mortgages may be any of the following provided the Mortgage meets the applicable requirements for that offering and this chapter. If there is a conflict between any of the requirements for the following products or offerings, the more restrictive requirements will apply:

- Home Possible® Mortgages originated in accordance with Chapter 4501
- Texas Equity Section 50(a)(6) Mortgages originated in accordance with Section 4301.7

- Community Land Trust Mortgages originated in accordance with Chapter 4502
- Mortgages secured by properties subject to income-based resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure, where the property value must be determined in accordance with Section 4406.1(g)(ii)

(b) Ineligible Mortgages

Super conforming Mortgages must not be:

1. ARMs with Initial Periods of less than five years
2. Mortgages secured by a Manufactured Home
3. Seller-Owned Converted Mortgages
4. Seller-Owned Modified Mortgages
5. FHA/VA Mortgages
6. Section 502 GRH Mortgages
7. Section 184 Native American Mortgages
8. Mortgages using an Automated Valuation Model (AVM)
9. Mortgages with custom mortgage insurance
10. Mortgages with annual or monthly lender-paid mortgage insurance premiums
11. Freddie Mac HomeOne® Mortgages
12. HeritageOneSM Mortgages

(c) Maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios

See Section 4203.4 for maximum LTV/TLTV/HTLTV ratios.

(d) Mortgage insurance requirements

Standard mortgage insurance coverage is required in accordance with Section 4701.1. Lender-paid mortgage insurance with single premiums and financed mortgage insurance premiums described in Section 4701.2(a) are permitted.

The custom mortgage insurance option described in Section 4701.1 is not permitted.

(e) Monthly debt payment-to-income ratio

The maximum monthly debt payment-to-income ratio for super conforming Manually Underwritten Mortgages is 45%.

For Manually Underwritten Mortgages, the debt-to-income ratio must be underwritten in accordance with Section 5401.2.

4603.4: Underwriting requirements for super conforming Mortgages (01/01/22)

(a) Loan Product Advisor® Mortgages

All super conforming Mortgages must be submitted to Loan Product Advisor.

The Borrower's credit reputation is acceptable if the Mortgage receives a Risk Class of Accept.

If the Mortgage receives a risk assessment status of invalid, ineligible or incomplete, the Seller must take all steps possible in accordance with Chapter 5101 to correct the information and resubmit the Mortgage.

Super conforming Mortgages that have never been submitted to Loan Product Advisor are not eligible for delivery.

The Seller must enter the Key Number (which is referred to as the Loan Prospector® AUS Key Number in Loan Selling Advisor®) in the *ULDD Data Point Automated Underwriting Case Identifier* for all super conforming Mortgage transactions.

(b) Non-Loan Product Advisor Mortgages

Super conforming Mortgages with a risk assessment status of invalid, ineligible or incomplete must be manually underwritten in accordance with Topics 5100 through 5500 and this chapter.

Noncredit Payment References are prohibited to establish an acceptable credit reputation for super conforming Mortgages.

To be eligible for sale to Freddie Mac, a minimum Indicator Score is required for super conforming Manually Underwritten Mortgages. The minimum Indicator Score requirements for Mortgages sold to Freddie Mac can be found in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

4603.5: Appraisal requirements for super conforming Mortgages (03/31/22)

The Seller must obtain an appraisal with an interior and exterior inspection that meets Freddie Mac requirements unless the Last Feedback Certificate includes an automated collateral evaluation offer stating that the Mortgage is eligible for collateral representation and warranty relief with an appraisal waiver and the Seller has accepted the offer. See Section 5602.3 for more information on automated collateral evaluation.

4603.6: Delivery and pooling requirements for super conforming Mortgages (03/02/16)

See Section 6302.31 for delivery and pooling requirements for super conforming Mortgages.

4603.7: Credit Fees for super conforming Mortgages (05/04/22)

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to super conforming Mortgages. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4604: Affordable Merit Rate® Mortgages

4604.1: Purchase of Affordable Merit Rate® Mortgages (01/01/22)

Effective January 1, 2022, Section 4604.1 is deleted.

4604.2: Eligible Affordable Merit Rate® Mortgages (01/01/22)

Effective January 1, 2022, Section 4604.2 is deleted.

4604.3: Special underwriting requirements for Affordable Merit Rate® Mortgages (01/01/22)

Effective January 1, 2022, Section 4604.3 is deleted.

4604.4: Other requirements for Affordable Merit Rate® Mortgages (01/01/22)

Effective January 1, 2022, Section 4604.4 is deleted.

Chapter 4605: HomeOne® Mortgages

4605.1: Purchase of HomeOne® Mortgages (07/29/18)

HomeOne® Mortgages are Mortgages with loan-to-value (LTV), total LTV (TLTV) and/or Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios above 95% originated in accordance with the requirements of the Guide and this chapter.

4605.2: Eligibility and delivery for HomeOne® Mortgages (05/03/23)

(a) Eligibility requirements

The following requirements apply to HomeOne® Mortgages:

	Topic	Requirement
1.	Underwriting path	HomeOne Mortgages must be Loan Product Advisor® Mortgages with a Risk Class of Accept
2.	Amortization type	HomeOne Mortgages must be fixed-rate Mortgages
3.	Ineligible Mortgages	<ul style="list-style-type: none">■ Financed Permanent Buydown Mortgages■ Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages■ Mortgages with capitalized balances as described in Chapter 4403■ FHA and VA Mortgages■ Section 502 GRH Mortgages■ Section 184 Native American Mortgages■ Super conforming Mortgages as described in Chapter 4603■ Home Possible® Mortgages■ Enhanced Relief Refinance® Mortgages■ Refi Possible® Mortgages
4.	Number of units/property type	HomeOne Mortgages must be secured by 1-unit properties that are not Manufactured Homes

	Topic	Requirement
5.	Occupancy	All Borrowers must occupy the Mortgaged Premises as their Primary Residence
6.	Maximum LTV/TLTV/ HTLTV ratios	<p>The maximum loan-to-value (LTV)/total LTV (TLTV)/ Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios for the Mortgages are as follows:</p> <ul style="list-style-type: none"> ■ Maximum LTV ratio: 97% ■ Maximum TLTV ratio for Mortgages with secondary financing that are not Affordable Seconds®: 97% ■ Maximum TLTV ratio for Mortgages with Affordable Seconds: 105% ■ Maximum HTLTV ratio: 97%
7.	Mortgage purpose	<p>HomeOne Mortgages must either be:</p> <ul style="list-style-type: none"> ■ Purchase transaction Mortgages, or ■ “No cash-out” refinance Mortgages meeting the following requirements: <ul style="list-style-type: none"> <input type="checkbox"/> For Mortgages with LTV and/or HTLTV ratios greater than 95%, the Mortgage being refinanced must be owned in whole or in part or securitized by Freddie Mac <input type="checkbox"/> For Mortgages with TLTV ratios greater than 95% with secondary financing that is not an Affordable Second, the Mortgage being refinanced must be owned in whole or in part or securitized by Freddie Mac <input type="checkbox"/> For Mortgages with TLTV ratios greater than 95% with secondary financing that is an Affordable Second, the Mortgage being refinanced does not have to be owned or securitized by Freddie Mac
8.	Borrower eligibility	<ul style="list-style-type: none"> ■ For purchase transaction and “no cash-out” refinance Mortgages, at least one Borrower on the transaction must have a usable Credit Score as determined by Loan Product Advisor ■ For purchase transaction Mortgages, at least one Borrower must be a First-Time Homebuyer

	Topic	Requirement
9.	Homeownership education	For purchase transaction Mortgages, when all Borrowers are First-Time Homebuyers, at least one Borrower must participate in a homeownership education program according to the requirements in Section 5103.6

(b) Delivery requirements

See Section 6302.41 for special delivery requirements for HomeOne Mortgages that are purchase transaction Mortgages.

See Section 6302.16 for delivery requirements for HomeOne Mortgages that are “no cash-out” refinance Mortgages.

4605.2: Eligibility and delivery for HomeOne® Mortgages (Future effective date 10/02/23)

(a) Eligibility requirements

The following requirements apply to HomeOne® Mortgages:

	Topic	Requirement
1.	Underwriting path	HomeOne Mortgages must be Loan Product Advisor® Mortgages with a Risk Class of Accept
2.	Amortization type	HomeOne Mortgages must be fixed-rate Mortgages
3.	Ineligible Mortgages	<ul style="list-style-type: none"> ■ Financed Permanent Buydown Mortgages ■ Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages ■ Mortgages with capitalized balances as described in Chapter 4403 ■ FHA and VA Mortgages ■ Section 502 GRH Mortgages ■ Section 184 Native American Mortgages ■ Super conforming Mortgages as described in Chapter 4603 ■ Home Possible® Mortgages

	Topic	Requirement
		<ul style="list-style-type: none"> ■ Enhanced Relief Refinance® Mortgages ■ Refi Possible® Mortgages ■ HeritageOneSM Mortgages
4.	Number of units/property type	HomeOne Mortgages must be secured by 1-unit properties that are not Manufactured Homes, unless the Manufactured Homes are CHOICEHomes®
5.	Occupancy	All Borrowers must occupy the Mortgaged Premises as their Primary Residence
6.	Maximum LTV/TLTV/ HTLTV ratios	<p>The maximum loan-to-value (LTV)/total LTV (TLTV)/ Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios for the Mortgages are as follows:</p> <ul style="list-style-type: none"> ■ Maximum LTV ratio: 97% ■ Maximum TLTV ratio for Mortgages with secondary financing that are not Affordable Seconds®: 97% ■ Maximum TLTV ratio for Mortgages with Affordable Seconds: 105% ■ Maximum HTLTV ratio: 97%
7.	Mortgage purpose	<p>HomeOne Mortgages must either be:</p> <ul style="list-style-type: none"> ■ Purchase transaction Mortgages, or ■ “No cash-out” refinance Mortgages meeting the following requirements: <ul style="list-style-type: none"> □ For Mortgages with LTV and/or HTLTV ratios greater than 95%, the Mortgage being refinanced must be owned in whole or in part or securitized by Freddie Mac □ For Mortgages with TLTV ratios greater than 95% with secondary financing that is not an Affordable Second, the Mortgage being refinanced must be owned in whole or in part or securitized by Freddie Mac □ For Mortgages with TLTV ratios greater than 95% with secondary financing that is an Affordable Second, the Mortgage being refinanced does not have to be owned or securitized by Freddie Mac

	Topic	Requirement
8.	Borrower eligibility	<ul style="list-style-type: none"> ■ For purchase transaction and “no cash-out” refinance Mortgages, at least one Borrower on the transaction must have a usable Credit Score as determined by Loan Product Advisor ■ For purchase transaction Mortgages, at least one Borrower must be a First-Time Homebuyer

See Section 6302.16 for delivery requirements for HomeOne Mortgages that are “no cash-out” refinance Mortgages.

Chapter 4606: GreenCHOICE® Mortgages

4606.1: Eligible Mortgages and eligible properties (05/01/19)

This chapter details the requirements for GreenCHOICE® Mortgages (i.e., Mortgages secured by properties that have energy and/or water efficiency improvements). Mortgages eligible for purchase under Chapter 4606 may be purchase transaction or “no cash-out” refinance transactions. Mortgages must be secured by one of the following:

- A 1- to 4-unit property including a Condominium Unit or a Cooperative Unit, if permitted under the Seller’s Purchase Documents
- A Manufactured Home, provided the improvements do not impact the structural integrity of the property

4606.2: Determination of value for LTV/TLTV/HTLTV ratios (02/04/20)

(a) Purchase transaction

The value is the lesser of:

- The “as completed” appraised value of the Mortgaged Premises, or
- The total acquisition cost (i.e., the price paid for the Mortgaged Premises plus the costs of the energy and/or water efficiency improvements). The Mortgage file must contain sufficient documentation to calculate the total acquisition cost.

(b) “No cash-out” refinance transaction to finance energy and/or water efficiency improvements

The value is the “as completed” value of the Mortgaged Premises.

(c) “No cash-out” refinance transaction in which proceeds are used to pay off existing outstanding energy and/or water efficiency related debt

The value is the appraised value of the Mortgaged Premises.

4606.3: Monthly housing expense-to-income ratio and monthly debt payment-to-income ratio (05/01/19)

For expanded expense-to-income ratios applicable to Mortgages secured by energy efficient properties, see Section 5401.1.

For expanded debt payment-to-income ratios applicable to Mortgages secured by energy efficient properties, see Section 5401.2.

4606.4: Purchase and “no cash-out” refinance Mortgage requirements (03/31/22)

(a) Purchase and “no cash-out” refinance Mortgage to finance energy and/or water efficiency improvements

The proceeds from a purchase or “no cash-out” refinance transaction may be used to finance energy and/or water efficiency improvements completed after the Note Date subject to the following requirements:

- The maximum amount of the proceeds that may be used for the purchase and installation of energy and/or water efficiency improvements is limited to 15% of the “as completed” value of the Mortgaged Premises. The Seller/Servicer must obtain and retain in the Mortgage file copies of all invoices and/or receipts, as applicable, related to the cost of the energy and/or water efficiency improvements.
- Proceeds sufficient to cover the cost of the energy and/or water efficiency improvements must be deposited into a completion escrow account on the Note Date. The escrow account must meet the requirements of Section 5601.3.
- The Seller/Servicer may reimburse the Borrower from funds in the escrow account for costs associated with materials purchased to complete improvements being made. The Seller/Servicer may not reimburse the Borrower for any labor performed by the Borrower. Any funds remaining in the escrow account after the cost of all improvements has been paid to the appropriate party must be used to reduce the UPB, unless the Mortgage is delinquent. If the Mortgage is delinquent, the Seller/Servicer must apply such funds in accordance with the application of payment requirements in the Note and Security Instrument. If any funds remain after the Mortgage is brought current, then the Seller/Servicer must apply the funds as set forth in this bullet for a current Mortgage.
- If the transaction is a “no cash-out” refinance transaction, remaining proceeds may be disbursed to the Borrower, provided the total amount disbursed to the Borrower at closing and from the unused funds does not exceed the maximum amount allowed pursuant to Section 4301.4, which is up to the greater of 1% of the new refinance Mortgage or \$2,000

- The Seller must obtain an interior and exterior inspection appraisal with an “as completed” value of the subject property subject to the energy and/or water efficiency improvements being completed. See Section 5601.4 for detailed appraisal requirements.
- After completion of the improvements, the Seller/Servicer must have the appraiser:
 - Inspect the property to verify that the improvements have been completed, and
 - Provide the Seller/Servicer with a completion report, which must include photographs of the completed items. The Seller/Servicer must retain the completion report in the Mortgage file.
- All energy and/or water efficiency improvements must be completed within 180 days of the Note Date
- The Seller/Servicer must obtain and retain in the Mortgage file an energy report meeting the requirements in Section 4606.6, except as permitted in Section 4606.5

(b) “No cash-out” refinance Mortgage to pay off existing outstanding energy and/or water efficiency related debt

The proceeds may be used to pay off or partially pay off an existing outstanding debt for funds that were used to finance energy and/or water efficiency improvements completed prior to the Note Date subject to the following:

- The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios in Section 4203.4 apply
- For Home Possible® and HomeOne® Mortgages with LTV/TLTV/HTLTV ratios that are greater than 95% but less than or equal to 97%, the following must apply:
 - The Mortgage being paid off must currently be owned by Freddie Mac, in whole or in part, or securitized by Freddie Mac
 - The Mortgage must be an Accept Mortgage that is a fixed-rate Mortgage secured by a 1-unit Primary Residence
 - Non-occupant Co-Borrowers are not permitted
 - The Mortgage may be secured by a Manufactured Home only if the Manufactured Home is a CHOICEHome® as described in Section 5703.9
- The maximum payoff of outstanding energy related debt is limited to 15% of the appraised value of the property

- If proceeds are used to partially pay off (pay down) outstanding energy related debt, the remaining balance must be included in the calculation of the debt payment-to-income ratio. If the remaining balance is reamortized, the Seller must obtain and maintain in the Mortgage file sufficient documentation evidencing the new payment, including a copy of the new promissory note, if applicable.
- For “no cash-out” refinance transactions, remaining proceeds may be disbursed to the Borrower, provided the total amount disbursed to the Borrower at closing and from the unused funds does not exceed the maximum amount allowed pursuant to Section 4301.4, which is up to the greater of 1% of the new refinance Mortgage or \$2,000
- The Mortgage file must include documentation (e.g., invoices, receipts, etc.) that the funds were used to pay off existing debt incurred for financing energy and/or water efficiency improvements completed prior to the Note Date
- An interior and exterior inspection appraisal is required. The appraisal must reflect all energy and/or water efficiency improvements that were made. See Section 5601.4 for detailed appraisal requirements.
- The Settlement/Closing Disclosure Statement must reflect that the funds were paid directly to debt holder
- An energy report is not required under Section 4606.4(b)

See Sections 4301.4 and 4301.8 for payoff of PACE obligation requirements.

See Section 6302.16 for delivery requirements for GreenCHOICE Mortgages that are “no cash-out” refinance Mortgages to pay off existing outstanding energy and/or water efficiency related debt.

4606.5: Basic energy and water efficiency improvements (05/01/19)

For basic energy and/or water efficiency improvements with an aggregate cost less than or equal to \$6,500, the requirements of Section 4606.4 must be met with the exception that an energy report is not required. The Seller/Servicer must document the cost of the energy and/or water efficiency improvements by obtaining copies of all receipts and/or invoices, as applicable, and retain these in the Mortgage file in accordance with Chapters 3301 and 3401.

Eligible basic energy and/or water efficiency improvements include the following:

- Programmable thermostats
- Caulking or weather stripping

- Adding ceiling, wall or floor insulation
- Air sealing
- Air conditioning/heating replacement to high efficiency
- Solar water heaters
- Low-flow water fixtures
- High efficiency refrigerators/freezers, water heaters and light bulbs
- Replacement of windows and doors

4606.6: Energy reports (03/31/22)

(a) Eligible energy reports

Energy reports required under Section 4606.4(a) must be one of the following:

- A Home Energy Rating Systems (HERS) report completed by a certified Residential Energy Services Network (RESNET®) home energy rater
- A Department of Energy Home Energy Score Report completed by a Home Energy Score Certified Assessor™
- Comparable rating report or audit completed by a certified home energy rater or consultant indicating the property is a high-performing energy-efficient property

(b) Energy report requirements

Energy reports must:

- Identify the recommended energy improvements and expected costs of the completed improvements
- Specify the actual or expected monthly or annual energy savings, and
- Verify that the recommended energy improvements are cost effective. Energy improvements are determined to be cost effective when the cost of the improvements, including maintenance, is less than the present value of the energy saved over the useful life of the improvements

- Not be dated earlier than 24 months prior to the Note Date. The cost of the energy report may be included in the total cost of the improvements and must be identified on the Settlement Statement if the Borrower is to be reimbursed.

(c) Energy report exception when proceeds are used to finance renewable energy sources

In the event an energy report is not available to demonstrate the cost effectiveness of energy improvements related to the installation of renewable energy sources, including solar panels, water efficiency devices, wind turbines or geothermal systems, the cost effectiveness may be demonstrated by obtaining a copy of invoices or receipts for the cost of the systems or devices and comparing the cost of the systems or devices to the income produced over the life of the systems or devices. When the income produced exceeds the net cost (including any tax credits and rebates) of the systems or devices, the cost effectiveness has been demonstrated. The appraiser must document the projected income by utilizing PV Value, Ei Value, or a similar tool as referenced in Section 5601.4.

4606.7: Transfers of Servicing (05/01/19)

For GreenCHOICE® Mortgages originated under the provisions of this Chapter 4606, where energy and/or water efficiency improvements will be completed after the Note Date (see Section 4606.4), a Transfer of Servicing involving such Mortgages is prohibited until all energy and/or water efficiency improvements have been completed and the appraiser has provided a completion report pursuant to Section 4606.4.

Accordingly, GreenCHOICE Mortgages originated under the provisions of this Chapter 4606, may not be sold through Cash Released XChange® or involved in any other Concurrent Transfers of Servicing.

See Chapter 7101 regarding Transfers of Servicing.

4606.8: Delivery requirements and Credit Fees (12/01/22)

See Section 6302.23 for special delivery requirements for GreenCHOICE® Mortgages.

For Credit Fees related to GreenCHOICE Mortgages, the Seller must refer to Exhibit 19, Credit Fees, and Exhibit 19A, Credit Fee Cap Eligibility Criteria. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 4607: Freddie Mac CHOICERenovation® Mortgages

4607.1: Purchase of CHOICERenovation® Mortgages (02/01/23)

A CHOICERenovation® Mortgage is a Mortgage, the proceeds of which are used to finance repairs and/or improvements to the Mortgaged Premises (the “renovations”) and which meets the other requirements of this chapter.

The proceeds from the CHOICERenovation Mortgage can be used to finance renovations that will be completed before or after delivery to Freddie Mac.

(a) Mortgages with Settlement Dates after completion of renovations

The Seller is not required to obtain Freddie Mac’s prior written approval if the renovations are completed prior to the Settlement Date. Such CHOICERenovation Mortgages will not be subject to the Seller responsibilities for renovation work and process described in Sections 4607.10(a)(1), 4607.10(a)(2), 4607.10(b)(1), 4607.10(b)(2) or 4607.10(b)(3), the contingency reserve requirements described in Section 4607.12(b), or the recourse requirements described in Section 4607.15; however, they will be subject to all other requirements in this Chapter 4607.

Mortgages with renovations that are substantially complete such that the only remaining incomplete improvements meet the requirements of Section 5601.3 may be delivered to Freddie Mac as CHOICERenovation Mortgages with Settlement Dates after completion of renovations.

(b) Mortgages with Settlement Dates prior to completion of the renovations

Except for CHOICEReno eXPress® Mortgages described in Section 4607.1(c) below, the Seller must obtain Freddie Mac’s prior written approval before delivering CHOICERenovation Mortgages in connection with which the renovations are not completed by the Settlement Date. Such CHOICERenovation Mortgages must be sold to Freddie Mac with recourse (see Section 4607.15) and meet all requirements of this chapter and the Seller’s Purchase Documents. The Seller can request approval by calling its Freddie Mac representative or the Customer Contact Center at 800-FREDDIE.

See Section 4607.3(b) for a special occupancy requirement for CHOICERenovation Mortgages delivered pursuant to this Section 4607.1(b).

(c) CHOICEReno eXPress Mortgages

CHOICEReno eXPress Mortgages are CHOICERenovation Mortgages with renovations not completed by the Settlement Date that may be sold to Freddie Mac without recourse, provided the following requirements are met:

- All renovations must be completed within 180 days of the Note Date in accordance with Section 4607.4(a)
- The maximum financed renovation costs for CHOICEReno eXPress Mortgages must meet the requirements of Section 4607.8

The Seller is not required to obtain Freddie Mac's prior written approval before delivering CHOICEReno eXPress Mortgages.

CHOICEReno eXPress Mortgages will not be subject to the Seller responsibilities for renovation work and process described in Section 4607.10(a)(1), the minimum contingency reserve requirements described in Section 4607.12(b), or the recourse requirements described in Section 4607.15; however, they will be subject to all other requirements in this Chapter 4607.

All requirements set forth in this Chapter 4607, including those related to CHOICERenovation Mortgages delivered pursuant to this Section 4607.1(c) and CHOICEReno eXPress Mortgages, are Selling obligations to be fulfilled by the Seller in its capacity as Seller/Servicer. (Also, see Section 4607.18 regarding Transfers of Servicing.)

4607.2: Eligible and ineligible Mortgages (05/03/23)

(a) Eligible Mortgages

CHOICERenovation® Mortgages must be First Lien Mortgages and may be any Mortgage Product or offering eligible under this Guide unless specifically described as ineligible below.

(b) Ineligible Mortgages

Mortgages with the following characteristics are not eligible for purchase as CHOICERenovation Mortgages:

- Financed Permanent Buydown Mortgages
- Seller-Owned Modified Mortgages and Seller-Owned Converted Mortgages
- Mortgages with capitalized balances as described in Chapter 4403

- Special Purpose Cash Out Refinance Mortgages
- FHA and VA Mortgages
- Section 502 GRH Mortgages
- Section 184 Native American Mortgages
- Freddie Mac Enhanced Relief Refinance® Mortgages
- Freddie Mac Refi PossibleSM Mortgages
- Community Land Trust Mortgages

4607.3: Property eligibility and occupancy (11/01/21)

(a) Property eligibility

CHOICERenovation® Mortgages must be secured by one of the following:

- 1- to 4-unit Primary Residence
- Second home
- 1-unit Investment Property
- A Manufactured Home, including a Manufactured Home that is a CHOICEHome® described in Section 5703.9
- A Condominium Unit, a unit located in a Planned Unit Development (PUD), or a Cooperative Unit if permitted under the Seller's Purchase Documents

(b) Special occupancy requirement for CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b)

For CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b) that are secured by Primary Residences, if the Borrower does not occupy the Mortgaged Premises during the course of renovations, the Mortgaged Premises will be deemed owner-occupied as of the Delivery Date so long as the Borrower occupies the Mortgaged Premises as a Primary Residence within 60 days of the last disbursement made and distributed from the Custodial Account for Renovation Funds (as described in Section 4607.13).

4607.4: General eligibility requirements (02/01/23)

(a) Completion and Settlement Date requirements

Except for CHOICEReno eXPress® Mortgages, all renovations must be completed within 450 days of the Note Date. For CHOICEReno eXPress Mortgages, all renovations must be completed within 180 days of the Note Date. For CHOICERenovation® Mortgages with Settlement Dates after completion of renovations (see Section 4607.1(a)), such CHOICERenovation Mortgages must also have Settlement Dates no more than 450 days after the Note Date.

(b) Mortgage purpose

CHOICERenovation Mortgages must be either purchase transaction or “no cash-out” refinance Mortgages with proceeds used as follows:

- For purchase transaction Mortgages, CHOICERenovation Mortgage proceeds may be used to purchase the Mortgaged Premises and to pay for the eligible renovations described in Section 4607.6
- For “no cash-out” refinance Mortgages, CHOICERenovation Mortgage proceeds may be used as described in Section 4301.4, except that proceeds may not be used to disburse cash out to the Borrower. A CHOICERenovation Mortgage secured by a property previously owned free and clear by the Borrower is considered a “no cash-out” refinance Mortgage if the proceeds are used only to finance the eligible renovations described in Section 4607.6. At least one Borrower must have been on the title to the subject property for at least six months prior to the Note Date unless one of the exceptions to this title requirement that are specified in Section 4301.5 applies.

(c) Maximum LTV/TLTV/HTLTV ratios

Each CHOICERenovation Mortgage must have maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios that comply with the LTV/TLTV/HTLTV ratios in Section 4203.4 and any other applicable LTV/TLTV/HTLTV ratio requirement for the specific Mortgage Product or offering.

(d) Determining value

The value used to determine the LTV, TLTV and HTLTV ratios must be established as follows:

Purchase transaction	“No cash-out” refinance
Value is the lesser of:	Value is the appraised value of the Mortgaged Premises, as completed

<ul style="list-style-type: none"> ■ The purchase price of the Mortgaged Premises prior to the renovations plus the total renovation costs, or ■ Appraised value of the Mortgaged Premises, as completed 	
--	--

(e) Secondary financing

Secondary financing must comply with Guide requirements for the specific Mortgage Product or offering.

4607.5: Underwriting CHOICERenovation® Mortgages (06/19/19)

(a) Residential loan application

The Seller must code the Purpose of Loan on Form 65, Uniform Residential Loan Application, as either Purchase or Refinance (as applicable) and not as Construction or Construction-Permanent.

The Seller must code the Loan Purpose on Form 1077, Uniform Underwriting and Transmittal Summary, as either Purchase or No Cash-Out Refinance (as applicable) and not as Home Improvement. The Seller must indicate in the Underwriter Comments if the Mortgage is a CHOICERenovation® Mortgage.

(b) Loan Product Advisor®

All CHOICERenovation Mortgages must be submitted to Loan Product Advisor in accordance with the requirements of Chapter 5101 and must receive a Risk Class of Accept.

If the Mortgage receives a Loan Product Advisor assessment status of invalid, ineligible or incomplete, it is ineligible for sale to Freddie Mac.

4607.6: Eligible renovations (02/01/23)

(a) Eligible and ineligible uses of Mortgage proceeds

CHOICERenovation® Mortgage proceeds must only be used to finance renovations that are made to a property with an existing dwelling, and may include:

- Fees related to plans and specifications, permits, title updates, appraisals, draw inspections and the final inspection
- An amount up to, but no more than, six monthly payments of principal, interest, taxes and insurance (PITI)
- Contingency reserve funds pursuant to Section 4607.12(b)
- The payoff of short-term financing that provided the Borrower with funds to repair, restore, rehabilitate or renovate an existing home pursuant to Section 4607.6(d)
- Adding or renovating outdoor structures used for leisure and recreation, including, but not limited to, swimming pools, decking, screening and porch and patio additions. (Note: Pursuant to Section 4607.12(b), CHOICERenovation Mortgages whose proceeds are used exclusively to finance the addition or renovation of outdoor structures used for leisure and recreation will not be subject to the minimum contingency reserve requirements.)
- Renovations or repairs to a property that has been damaged in a disaster or for renovations that will protect the Mortgaged Premises in case of a future disaster (e.g., storm surge barriers, foundation retrofitting for earthquakes, retaining walls, etc.)
- Renovations to improve the energy and/or water efficiency of the Mortgaged Premises. (See Section 4607.17(b) for special requirements when CHOICERenovation Mortgage proceeds finance such renovations and the eligibility for the credit for Credit Fees for GreenCHOICE Mortgages®.)
- Adding or renovating an ADU, including a Manufactured Home ADU. (See Section 5601.2 for requirements for a property with an ADU.) In lieu of the maximum financed renovation costs described in Section 4607.8(c), Mortgages secured by properties with Manufactured Home ADUs will be subject to the maximum financed renovation costs described in either Section 4607.8(a), for purchase transactions, or Section 4607.8(b), for “no cash-out” refinance Mortgages, as applicable. (Note: Regarding the payoff of short-term financing that financed the addition or renovation of an ADU prior to the Note Date, see this Section 4607.6(d).)

Proceeds may not be used:

- To raze an existing structure and build a new primary dwelling unit

- For personal property with the exception of new appliances

There are no further restrictions on the type of renovations that may be financed in accordance with this offering.

(b) Compliance with applicable laws and project documents

Renovations must comply with all applicable State and local laws and regulations, including zoning regulations. All required permits and approvals must be obtained. Renovations of properties located in Planned Unit Developments (PUDs), Condominium Projects or Cooperative Projects must comply with all applicable project conditions, covenants and restrictions.

(c) Renovations to Manufactured Homes

Renovations to a primary dwelling unit that is a Manufactured Home or a Manufactured Home ADU are allowed, provided the Manufactured Home remains in compliance with HUD's property acceptability criteria for Manufactured Homes and the requirements in Sections 5703.2(a), 5703.2(b) and 5601.2, as applicable.

Renovations may include the removal of a Manufactured Home on the property that is not the primary dwelling unit, provided any effect of its removal on the value of the Mortgaged Premises is reported by the appraiser when determining the "as completed" value of the property pursuant to Section 4607.9.

(d) Payoff of short-term financing that financed renovations completed prior to the Note Date

For CHOICERenovation Mortgages that are "no cash-out" refinance Mortgages, CHOICERenovation Mortgage proceeds can be used to pay off short-term financing that financed renovations, including, but not limited to, the addition or renovation of an ADU, completed prior to the Note Date, provided the following requirements are met:

- The CHOICERenovation Mortgage is not secured by a Manufactured Home
- The CHOICERenovation Mortgage is not a CHOICEReno eXPress® Mortgage
- The Borrower on the CHOICERenovation Mortgage must be the Borrower on, and obligated to repay, the short-term financing, except as follows:
 - A Borrower may be omitted in the event of death or divorce, or

- A Borrower who is a Related Person may be added, provided that all Borrowers on the CHOICERenovation Mortgage are owner-occupants of the Mortgaged Premises and considered in the underwriting of the CHOICERenovation Mortgage
- All renovations financed by the short-term financing:
 - Are completed prior to the Note Date of the CHOICERenovation Mortgage and no obligations related to such financing are outstanding
 - Must be completed prior to the appraisal, and the appraisal must reflect such renovations having been made. Additionally, the appraisal report obtained in accordance with Section 4607.9 must only be completed subject to completion of any proposed renovations also being financed with the CHOICERenovation Mortgage.
- The Mortgage file must contain copies of all relevant documentation, including, but not limited to:
 - The short-term financing agreement
 - Sufficient documentation (e.g., purchase contracts, plans and specifications, receipts, invoices, lien waivers, etc.) on which to validate the actual cost of all renovations financed by the short-term financing
 - A document clearly showing the calculation of the short-term financing
 - The Settlement/Closing Disclosure Statement or an alternative form required by law for the closing of the short-term financing
 - The payoff statement

4607.7: Advancing the cost of materials (11/01/21)

Except as otherwise stated in Section 4607.11(a), a percentage of the cost of materials may be advanced at closing in lieu of such funds being deposited into the completion escrow account or Custodial Account for Renovation Funds (as described in Sections 4607.12 and 4607.13), as applicable, as follows:

- For contractor(s) and/or tradespersons chosen by the Borrower to complete the renovations in accordance with Section 4607.10(b)(3), up to 50% of the cost of materials may be advanced to the contractor(s) and/or tradespersons
- For renovations purchased from a home improvement store in accordance with Section 4607.11(b), up to 100% of the cost of materials may be advanced to the home improvement store

4607.8: Maximum financed renovation costs for CHOICERenovation® Mortgages (11/01/21)

(a) Purchase transactions

The table below lists the maximum financed renovation costs for purchase transaction Mortgages secured by Mortgaged Premises that are not Manufactured Homes:

For...	The total cost of the financed renovations must not exceed...	Of the lesser of the...
CHOICERenovation® Mortgages delivered pursuant to Sections 4607.1(a) and 4607.1(b)	75%	<ul style="list-style-type: none">■ Sum of the purchase price of the property plus the estimated total of the renovation costs, or■ “As completed” value of the property as determined by the appraiser pursuant to Section 4607.9
CHOICEReno eXPress® Mortgages located in designated Duty to Serve high-needs areas (refer to Exhibit 40, Duty to Serve High-Needs Areas)	15%	
CHOICEReno eXPress Mortgages not in Duty to Serve high-needs areas	10%	

(b) Refinance Mortgages

The table below lists the maximum financed renovation costs for “no cash-out” refinance Mortgages secured by Mortgaged Premises that are not Manufactured Homes:

For...	The total cost of the financed renovations must not exceed...	Of the...
CHOICERenovation Mortgages delivered pursuant to Sections 4607.1(a) and 4607.1(b)	75%	“As completed” value of the property as determined by the appraiser pursuant to Section 4607.9

For...	The total cost of the financed renovations must not exceed...	Of the...
CHOICEReno eXPress Mortgages located in designated Duty to Serve high-needs areas	15%	
CHOICEReno eXPress Mortgages not in Duty to Serve high-needs areas	10%	

(c) Manufactured Homes

The table below lists the maximum financed renovation costs for purchase transaction and “no cash-out” refinance Mortgages secured by Manufactured Homes:

For...	The total cost of the financed renovations must not exceed the lesser of \$50,000 or...	Of the...
CHOICERenovation Mortgages delivered pursuant to Sections 4607.1(a) and 4607.1(b)	50%	“As completed” value of the property as determined by the appraiser pursuant to Section 4607.9
CHOICEReno eXPress Mortgages located in designated Duty to Serve high-needs areas	15%	
CHOICEReno eXPress Mortgages not in Duty to Serve high-needs areas	10%	

4607.9: Appraisal requirements for CHOICERenovation® Mortgages (06/01/22)

The Seller must obtain an appraisal report based on an interior and exterior inspection. The appraisal report must include an “as completed” value of the subject property. If there are

proposed renovations being financed with the CHOICERenovation® Mortgage, the appraisal report must be completed subject to completion of the proposed renovations.

The Seller must provide the appraiser with the cost estimates, plans and specifications for the renovations.

If, after the appraiser provides the “as completed” value, changes are made to the original plans and specifications in accordance with Section 4607.10(a)(ii), the Seller must notify the appraiser of the changes and provide change documentation to the appraiser. The appraiser must provide a new appraisal to reflect the changes and account for the impact on the “as completed” value.

Upon completion of all proposed renovations, the appraiser must perform a final inspection of the property in accordance with Section 5605.8 and complete a certification of completion. The completion report must document that all renovations were completed in accordance with the plans and specifications and must include photographs of the completed renovations.

4607.10: Seller responsibilities for renovation work and process (02/01/23)

(a) Responsibilities during the renovation period

During the renovation period, the Seller is responsible for managing:

1. The Custodial Account for Renovation Funds (as described in Section 4607.13) and corresponding draws
2. Any changes to the plans and specifications the Borrower has requested during the course of renovations. If any changes are made to the plans and specifications and/or the estimated time of completion for the renovations, the changes must be agreed upon via a change order by the Borrower and the contractor and approved by the Seller. Documentation evidencing the change order must be signed by the Borrower and the contractor and must include the following, as applicable:
 - Detailed description of the changes
 - Updated itemized renovation costs
 - Updated total cost of the renovations
 - Any changes to the estimated completion date
3. The Seller may not approve changes to the plans and specifications if such changes impact the loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio or the property such that either the Mortgage:

- Would not have been eligible for sale under the terms of the Seller's Purchase Documents in effect on the Settlement Date, or
- Would have been eligible for sale but under different terms

(b) Other Seller responsibilities

The Seller is responsible for compliance with the following requirements:

1. The Mortgage file must contain all relevant documentation, including, but not limited to, copies of costs of the renovations, purchase contracts, bids, appraisal(s), renovation contract(s), plans and specifications, permits and applicable homeowners association approvals, documents related to change orders and draws, certification of completion, close-out documentation for the Custodial Account for Renovation Funds and title updates. (Also, see Section 4607.6(d) regarding Mortgage file documentation requirements when CHOICERenovation Mortgage proceeds are used to pay off short-term financing that provided the Borrower with funds to repair, restore, rehabilitate or renovate an existing home.)
2. The Seller must notify Freddie Mac at **CHOICERenovation@FreddieMac.com** if there are any concerns that the renovations will not be completed by the required completion date in accordance with Section 4607.4(a), or if there are any changes that impact the “as completed” value of the property as determined by the appraiser pursuant to Section 4607.9
3. Unless otherwise noted below, all contractor(s) and/or tradespersons chosen by the Borrower to complete the renovations must:
 - Have entered into an executed, binding renovation contract with the Borrower to complete the renovations within a reasonable time period after the Note Date, not to exceed 180 days or 450 days, as applicable. (See Section 4607.4(a) regarding the required completion date for CHOICERenovation Mortgages.) The contract must include an indemnification provision requiring the contractor to indemnify the Borrower for any property loss or damage caused by the contractor, its employees or its subcontractors.
 - Be licensed and insured as required by local and/or State requirements, and
 - Be financially able to perform the duties necessary to complete the renovation work in a timely manner

The above requirements do not apply if the Borrower, acting as general contractor, performs all of the work in accordance with Section 4607.11(a) or if renovations are purchased from a home improvement store in accordance with Section 4607.11(b).

4. The Seller must obtain title updates as necessary to ensure that the CHOICERenovation® Mortgage meets all title insurance requirements in Chapter 4702
5. After all renovations are completed, there must be no outstanding liens related to the renovations and the CHOICERenovation Mortgage must remain a valid First Lien in accordance with Section 4201.2

(c) Seller responsibilities for third parties

For a CHOICERenovation Mortgage, a third party may perform all or some of the processing, management and performance of draw inspections and/or maintenance and management of disbursements from the completion escrow account or Custodial Account for Renovation Funds (as described in Sections 4607.12 and 4607.13), as applicable, and other requirements described above as responsibilities or obligations of the Seller. (Note: Except as otherwise provided in Section 4607.18(a), a third party may not open and perform ongoing maintenance of the Custodial Account for Renovation Funds.) Although these functions may not be performed directly by the Seller, the Seller is responsible for the accuracy and integrity of the information provided by the third party and for compliance with these and all requirements in the Purchase Documents.

4607.11: Contractors (02/01/23)

See Section 4607.10(b)(3) for contractor(s) and/or tradespersons chosen by the Borrower to complete the renovations.

(a) Borrower as contractor

The Borrower may act as the general contractor for the renovations if the Borrower is a licensed contractor. The Borrower may perform some or all of the work to complete the renovations as long as the Borrower is licensed and qualified to do so. In connection with Borrowers who act as the general contractor and/or perform renovation work, the following requirements apply:

- The Borrower must submit to the Seller a plan detailing the work items the Borrower will perform, and
- CHOICERenovation® Mortgage proceeds may be used to reimburse the Borrower for the cost of materials but may not be used to reimburse the Borrower for labor costs

(b) Renovations purchased from a home improvement store

Up to 100% of the renovation costs identified in the renovation contract (including labor costs) may be paid to a home improvement store at closing in lieu of such funds being deposited into the completion escrow account or Custodial Account for Renovation Funds (as described in Sections 4607.12 and 4607.13), as applicable, if the below requirements are met.

(Also, see Section 4607.7 regarding advancing the costs of materials for renovations purchased from a home improvement store.)

If the Borrower chooses a home improvement store to have the renovation work completed and the home improvement store's renovation program requires payment-in-full at the point of purchase, renovations may be purchased from the home improvement store at closing, provided the following requirements are met:

- The CHOICERenovation Mortgage is a “no cash-out” refinance Mortgage
- The Seller must review the home improvement store’s renovation program to determine that the following requirements are met:
 - The home improvement store is financially able to perform the duties necessary to have the renovation work completed in a timely manner and pay the contractor(s) and/or tradespersons chosen by the home improvement store to complete the renovations. A contractor and/or tradesperson may not require payment directly from the Borrower.
 - The home improvement store has a robust contractor approval process that is managed, maintained and updated regularly
 - The contractor(s) and/or tradespersons chosen by the home improvement store to complete the renovations is licensed and insured as required by local and/or State requirements, and they must be approved under the home improvement store’s contractor approval process during the course of renovations. In the event a contractor and/or tradesperson becomes unapproved or is unable to complete the renovation work in a timely manner, the home improvement store must choose other approved contractor(s) and/or tradespersons to complete the renovations.
- The Borrower may not be chosen by the home improvement store to complete the renovations, even if the Borrower is a licensed contractor and/or is licensed and qualified to complete the renovations
- The home improvement store must have entered into an executed, binding renovation contract with the Borrower to complete the renovations within a reasonable time period after the Note Date, not to exceed 180 days or 450 days, as applicable. (See Section 4607.4(a) regarding the required completion date for CHOICERenovation Mortgages.) The contract must include an indemnification provision requiring the home improvement store to indemnify the Borrower for any property loss or damage caused by the contractor(s) and/or tradespersons chosen by the home improvement store to complete the renovations.

4607.12: Funds for renovations and contingency reserve requirements (02/01/23)

(a) Renovation funds

On the Note Date, the renovation funds (sufficient to cover the total cost of the renovations minus any advances for the cost of materials pursuant to Section 4607.7 and/or renovation costs paid to a home improvement store pursuant to Section 4607.11(b)) must be deposited into a completion escrow account meeting the requirements of Section 5601.3. For CHOICERenovation® delivered pursuant to Section 4607.1(b), the renovation funds must be deposited into a Custodial Account for Renovation Funds (as described in Section 4607.13) on or before the Settlement Date.

After taking into consideration any advances for the cost of materials pursuant to Section 4607.7 and/or renovation costs paid to a home improvement store pursuant to Section 4607.11(b), the renovation costs identified in the renovation contract(s) must be consistent with the amount of renovation funds deposited into the completion escrow account or Custodial Account for Renovation Funds, as applicable. If the CHOICERenovation Mortgage proceeds are insufficient to cover the contracted cost of the renovations, the Borrower must deposit sufficient funds to pay the remaining amount into the completion escrow account or Custodial Account for Renovation Funds, as applicable.

(b) Contingency reserve

In addition to the renovation funds required to be deposited into the completion escrow account or Custodial Account for Renovation Funds, as applicable, the Seller must also deposit a contingency reserve to cover unforeseen renovation costs. Contingency reserve funds may come from the CHOICERenovation Mortgage proceeds or directly from the Borrower.

(i) Minimum contingency reserve

The contingency reserve amount must be greater than or equal to the following:

- Unless otherwise specified below, for CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b), 10% of the total renovation costs identified in the renovation contract(s), except that if the property utilities are not operable as referenced in the renovation contract(s) and/or plans and specifications, then the minimum contingency reserve amount must be greater than or equal to 15% of the total renovation costs identified in the renovation contract(s)

A contingency reserve is not required for CHOICERenovation Mortgages whose proceeds are used exclusively to finance the addition or renovation of outdoor structures used for leisure and recreation. (See Section 4607.6 for a description of eligible renovations.)

(ii) Maximum contingency reserve

For CHOICERenovation Mortgages, the contingency reserve amount must be less than or equal to 20% of the total renovation costs identified in the renovation contract(s).

While a contingency reserve is not required for CHOICEReno eXPress® Mortgages or CHOICERenovation Mortgages whose proceeds are used exclusively to finance the addition or renovation of outdoor structures used for leisure and recreation, if the Seller chooses to establish a contingency reserve, the contingency reserve amount must be less than or equal to 20% of the total renovation costs identified in the renovation contract(s).

(c) Unused funds

If the CHOICERenovation Mortgage is current, any funds remaining in the completion escrow account or Custodial Account for Renovation Funds, as applicable, after the costs of all renovations have been paid to the appropriate parties must be used to reduce the UPB or used for additional renovations as described below. If the transaction is a “no cash-out” refinance transaction, remaining proceeds may be disbursed to the Borrower, provided the total amount disbursed to the Borrower at closing and from the unused funds does not exceed the maximum amount allowed under Section 4301.4. If the Borrower funded the contingency reserve with his or her own funds, he or she may receive those unused funds back.

If the remaining funds are used for additional renovations, the Seller must:

- Document that additional renovations were paid for from the completion escrow account or Custodial Account for Renovation Funds, as applicable, and verify the funds are being used to further improve the Mortgaged Premises, and
- Verify the additional renovation work has been completed by obtaining a completion report pursuant to Section 4607.9

If the CHOICERenovation Mortgage is delinquent, any unused funds (including contingency reserve funds provided by the Borrower, if applicable) must be applied in accordance with the application of payment requirements in the Note and Security Instrument. After the CHOICERenovation Mortgage is brought current, any remaining unused funds (including contingency reserve funds not provided by the Borrower) may be used to reduce the UPB or used for additional renovations (as noted above).

If the transaction is a “no cash-out” refinance transaction, remaining proceeds may be disbursed to the Borrower provided the total amount disbursed to the Borrower at closing and from the unused funds does not exceed the maximum amount allowed under Section 4301.4. Unused funds in the completion escrow account or Custodial Account for Renovation Funds, as applicable, that were provided by the Borrower may be returned to the Borrower after the CHOICERenovation Mortgage is brought current and all renovations are completed.

4607.13: Custodial Accounts for Renovation Funds (11/01/21)

Pursuant to Sections 4607.1(a) and 4607.1(c), the below requirements do not apply to CHOICERenovation® Mortgages with Settlement Dates after completion of renovations and CHOICEReno eXPress® Mortgages.

For each Seller/Servicer number associated with one or more CHOICERenovation Mortgage(s), the Seller must open and maintain a separate completion escrow account solely to retain the CHOICERenovation Mortgage proceeds and any other deposited funds to be used to complete the renovations of Mortgaged Premises securing CHOICERenovation Mortgages (such funds, the “Renovation Funds” and each such account, the “Custodial Account for Renovation Funds”). The Seller must open and maintain each Custodial Account for Renovation Funds in accordance with the requirements of this section and the account must be utilized exclusively for the CHOICERenovation Mortgages it sells to Freddie Mac under a particular Seller/Servicer number.

The Custodial Account for Renovation Funds may not carry a negative balance, even if permitted by its depository institution. The Seller must maintain a separate account record for each CHOICERenovation Mortgage’s Renovation Funds retained in the Custodial Account for Renovation Funds until all appropriate parties have been paid and the renovation work is completed and all unused funds have been disbursed in accordance with Section 4607.12(c). Each separate account record may not reflect a negative balance.

(a) Opening the Custodial Account for Renovation Funds

Each Custodial Account for Renovation Funds must meet the requirements in Sections 8302.3, 8302.4, 8302.6(c) and 8302.7. (Note: Custodial Accounts for Renovation Funds are not subject to the tier rating requirements in Section 8302.5.)

With respect to Section 8302.6(c), the Seller may not designate the Custodial Account for Renovation Funds using the abbreviated designation “Freddie Mac Escrow Custodial Account” and also may not commingle Renovation Funds with Escrow Funds in the same Custodial Account. Rather, the Seller must establish a separate Custodial Account for Renovation Funds which may be named “Freddie Mac Escrow Completion Custodial Account” or “Freddie Mac Renovation Funds Custodial Account.”

(b) Changing or transferring Custodial Accounts for Renovation Funds

See Sections 8304.10 through 8304.12 for Freddie Mac’s requirements for changing or transferring established Custodial Accounts, including Custodial Accounts for Renovation Funds.

(c) Freddie Mac’s rights

Freddie Mac reserves the right to request that the Seller submit copies of Custodial Account for Renovation Funds records, such as bank account statements, detailed trial balances and completed reconciliations, variance logs, and supporting documentation for such records.

(d) Seller responsibilities related to maintaining the Custodial Account

The Seller must manage Custodial Accounts for Renovation Funds as required in Sections 8304.3, 8304.4, 8304.6, 8304.8 through 8304.10, 8304.11(a), 8304.12 and 8304.13.

4607.14: Property insurance (06/10/20)

CHOICERenovation® Mortgages must meet the property insurance requirements in Chapter 4703. Insurance coverage may need to be adjusted during the course of renovations and/or upon completion of all renovations based on the “as completed” value of the property (as determined by the appraiser pursuant to Section 4607.9) to meet the property insurance requirements in Chapter 8202.

4607.15: Recourse (11/01/21)

CHOICERenovation® Mortgages delivered pursuant to Section 4607.1(b) must be sold with recourse within the meaning of Section 6201.7, except that Freddie Mac may require the Seller to repurchase the CHOICERenovation Mortgage if it becomes 120 days delinquent while subject to recourse.

The recourse will remain in full force and effect until all renovations are completed, the Seller requests removal of recourse in writing indicating the applicable Freddie Mac loan number, and provides the certification of completion, including photographs of the renovations, and Freddie Mac approves the removal of recourse, subject to the requirements below.

In order to request removal of recourse the Seller must submit all required documentation mentioned above to Freddie Mac at CHOICERenovation@FreddieMac.com, and the following requirements must be met:

- The Borrower is not delinquent at the time of the request
- The Borrower has not been 30 days delinquent more than once during the renovation period, except that the recourse may be removed at a later date once the Borrower has made 36 consecutive monthly payments with no Delinquencies

The Seller represents and warrants that, as of the date Freddie Mac approves the Seller's request for removal of recourse, all requirements in this Chapter 4607 have been met.

4607.16: Representations and warranties for CHOICERenovation® Mortgages (06/19/19)

The Selling representation and warranty framework described in Section 1301.11 applies to CHOICERenovation® Mortgages that meet the requirements of this Chapter 4607 provided that, starting on the date that the payments are paid by the Borrower and not from the completion escrow account or Custodial Account for Renovation Funds (as described in Sections 4607.12 and 4607.13), as applicable, the Borrower:

1. Made the first 36 monthly payments due with no more than two 30-day Delinquencies and no 60-day or greater Delinquencies, and
2. Is not 30 or more days delinquent with respect to the 36th monthly payment

4607.17: Delivery requirements for CHOICERenovation® Mortgages and credit for Credit Fees (02/01/23)

(a) Delivery requirements for CHOICERenovation® Mortgages

See Section 6302.43 for special delivery requirements for CHOICERenovation Mortgages.

(b) Special requirements when renovations improve the energy and/or water efficiency of the Mortgaged Premises

When CHOICERenovation Mortgage proceeds finance renovations completed after the Note Date to improve the energy and/or water efficiency of the Mortgaged Premises, the CHOICERenovation Mortgage may be eligible for the credit for Credit Fees for GreenCHOICE Mortgages® (see Exhibit 19, Credit Fees), provided the following:

- Except as stated below, the requirements in Section 4606.4(a) for GreenCHOICE Mortgages are met for the subject Mortgage. This includes, but is not limited to:
 - The cost of the financed renovations to improve the energy and/or water efficiency of the Mortgaged Premises must not exceed 15% of the “as completed” value of the property. (Note: In all cases, the maximum financed renovation costs must comply with the requirements in Section 4607.8, as applicable.)
 - Basic energy and/or water efficiency improvements with an aggregate cost of less than or equal to \$6,500 may be completed without obtaining an energy report. If the energy and/or water efficiency improvements should exceed \$6,500, an energy report

meeting the requirements in Section 4606.6 must be obtained, and the energy report must be included in the Mortgage file.

- ❑ The energy report exception stated in Section 4606.6(c), when proceeds are used to finance renewable energy sources, may apply so long as the appraiser documents the projected income by utilizing PV Value, Ei Value or a similar tool as referenced in Section 5601.4, and that the cost effectiveness has been demonstrated
- All renovations, including renovations to improve the energy and/or water efficiency of the Mortgaged Premises, must be completed by the required completion date in accordance with Section 4607.4(a)
- The renovation funds are deposited into a completion escrow account or Custodial Account for Renovation Funds (as described in Sections 4607.12 and 4607.13), as applicable, and
- If the CHOICERenovation Mortgage is current, any funds remaining in the completion escrow account or Custodial Account for Renovation Funds, as applicable, after the costs of all renovations have been paid to the appropriate parties either must be used to reduce the UPB or may be used for additional renovations, as described in Section 4607.12(c)

To receive the credit for Credit Fees for GreenCHOICE Mortgages, the Seller must meet the special delivery requirements in Section 6302.43(c). Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

4607.18: Transfers of Servicing (11/01/21)

For Sellers that have obtained Freddie Mac's prior written approval, Concurrent Transfers of Servicing involving CHOICERenovation® Mortgages delivered pursuant to Section 4607.1(b) are permitted, provided the special requirements in this Section 4607.18(a) are met. (See this Section 4607.18(b) regarding Subsequent Transfers of Servicing involving such CHOICERenovation Mortgages and Transfers of Servicing involving CHOICEReno eXPress® Mortgages.)

(a) Special requirements for CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b) related to a Concurrent Transfer of Servicing

Consistent with Section 7101.15, the Seller, as Transferor Servicer, remains jointly liable with the Transferee Servicer for all selling representation and warranty obligations, including obligations in this Chapter 4607 related to the completion of the renovations, even if such obligations are performed after the Effective Date of Transfer. This includes, but is not limited to, ensuring completion of all renovations and fulfilling the recourse obligation in the event that Freddie Mac does not approve removal of recourse pursuant to Section 4607.15.

In addition to the requirements governing Concurrent Transfers of Servicing set forth elsewhere in the Guide, the Transferor Servicer must inform the Transferee Servicer whether the Transfer of Servicing involves CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b) and must provide a list of such CHOICERenovation Mortgages (identified, at a minimum, by Transferor Servicer loan number and Freddie Mac loan number) to the Transferee Servicer.

A Transferee Servicer may engage an Outsourced Vendor or Servicing Agent, which may be the Seller, to perform some or all of the activities as set forth in Section 4607.10(c). The Transferee Servicer must ensure that it has established appropriate processes and communication protocols with any Outsourced Vendor or Servicing Agent it engages to perform the obligations in this Chapter 4607 related to the completion of the renovations, including, but not limited to:

- Ensuring that any remaining funds in the Custodial Account for Renovation Funds (as described in Section 4607.13) are remitted to the Servicer to be used to reduce the UPB or returned to the Borrower, as applicable, in accordance with Section 4607.12(c)
 - Note: The Servicer may outsource the opening and ongoing maintenance of the Custodial Account for Renovation Funds only to its Servicing Agent, if applicable. An Outsourced Vendor may be an authorized party to the account's signature card and act as an agent of the primary account holder (either the Servicer or Servicing Agent, as applicable).
- Notifying the Outsourced Vendor of any defaults related to the CHOICERenovation Mortgage and ensuring appropriate actions are being taken, such as:
 - Relaying adverse information related to the Mortgaged Premises
 - If the CHOICERenovation Mortgage is delinquent, applying any unused funds in accordance with the application of payment requirements in the Note and Security Instrument (see Section 4607.12(c))
- Notifying the Outsourced Vendor in the event the Servicer or its Servicing Agent, if any, determines that the Borrower was added to the OFAC Specially Designated Nationals list and notifying Freddie Mac in accordance with Section 1301.2(b)
- Ensuring that any Mortgage proceeds allocated to make monthly payments of principal, interest, taxes and insurance (PITI) pursuant to Section 4607.6(a) are remitted from the Custodial Account for Renovation Funds to the Servicer in a timely manner for posting to the Borrower's Mortgage account
- Ensuring that all documentation maintained by any Outsourced Vendor related to the completion of renovations as required by this Chapter 4607 are provided to the Servicer for inclusion in the Mortgage file

- Ensuring that property insurance is adequately maintained as required under Section 4607.14

(b) Prohibited Transfers of Servicing

The following Transfers of Servicing involving CHOICERenovation Mortgages are prohibited:

- Subsequent Transfers of Servicing involving CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b) are prohibited until all renovations have been completed, the Seller has obtained a completion report pursuant to Section 4607.9 and Freddie Mac has approved removal of recourse pursuant to Section 4607.15. (See Chapter 7101 regarding Transfers of Servicing.)
- Transfers of Servicing involving CHOICEReno eXPress Mortgages are prohibited until all renovations have been completed and the Seller has obtained a completion report pursuant to Section 4607.9

CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b) and CHOICEReno eXPress Mortgages may not be sold through Cash-Released XChange®. Additionally, CHOICEReno eXPress Mortgages may not be involved in any other Concurrent Transfers of Servicing.

Chapter 4701: Mortgage Insurance and Late Charges

4701.1: Mortgage insurance (12/01/22)

A Freddie Mac-approved mortgage insurance policy issued by an MI that, as of the Delivery Date, is a Freddie Mac-approved MI (see Exhibit 10, Freddie Mac-Approved Mortgage Insurers) is required on each conventional Mortgage Freddie Mac purchases that has a loan-to-value (LTV) ratio of more than 80%. The LTV ratio is obtained by dividing the original loan amount by the value, as defined in Section 4203.1. The “value” of Mortgaged Premises located in the State of New York, as used solely for the purpose of determining whether mortgage insurance is required or should be canceled, is the appraised value of the Mortgaged Premises on the Note Date of the Mortgage. (This definition of the “value” of Mortgaged Premises located in the State of New York applies only to the above-stated mortgage insurance requirements, and is not applicable for any other purposes under the terms of the Purchase Documents. In particular, this definition of “value” is not applicable in determining the LTV ratios for the required percentage of mortgage insurance coverage.) See Section 4701.5 for special requirements for Cooperative Share Loans when the Cooperative Unit is located in the state of New York.

The required mortgage insurance must be in full force and effect as of the Delivery Date. Mortgage insurance coverage must not be subject to any exclusion besides those exclusions stated in the MI’s master policy. Coverage must run to the benefit of Freddie Mac for a whole loan or a participation loan insured under a participation policy, or to the Seller for any other insured participation loan. No action may have been taken, or no action may have failed to be taken, that would impair the rights of Freddie Mac or the Seller. Participation policies with provisions inconsistent with this section or that impose premium payment or reporting requirements on Freddie Mac are not acceptable.

The insurance must remain in force until canceled in accordance with the requirements of Sections 8203.2 through 8203.7 or pursuant to applicable law. The Seller warrants that the Borrower has been given all disclosures required by law, including, but not limited to, the Homeowners Protection Act of 1998 (HPA), as amended, relating to the terms on which Borrower-paid mortgage insurance may be canceled. This includes all disclosures required by the HPA at loan origination to describe the Borrower’s mortgage insurance cancelation rights under the HPA.

Mortgage insurance coverage must continue to be carried with the MI that insured the Mortgage when it was delivered to Freddie Mac, except as provided for in Section 8203.10.

Freddie Mac’s mortgage insurance coverage level options

Freddie Mac offers two mortgage insurance coverage level options: standard mortgage insurance and custom mortgage insurance.

Custom mortgage insurance option provides an alternative to standard mortgage insurance coverage.

Custom mortgage insurance is available only for Accept Mortgages. The premiums for custom mortgage insurance may not be financed as part of the principal amount of the Mortgage. The lender-paid mortgage insurance option may not be used in conjunction with custom mortgage insurance.

Custom mortgage insurance is not permitted for super conforming Mortgages.

The Seller must refer to Exhibit 19, Credit Fees, for Credit Fees related to custom mortgage insurance.

Mortgages sold to Freddie Mac with custom mortgage insurance may be delivered through the Cash, Guarantor or MultiLender Swap programs and may be pooled with other conventional/conforming loans.

The standard and custom minimum coverage levels apply as stated in the table below:

Transaction type	Mortgage insurance coverage	LTV ratio			
		> 80% & ≤85%	> 85% & ≤90%	> 90% & ≤95%	>95% & ≤97%
Fixed rate, term ≤ 20 years	Standard	6%	12%	25%	35%
	Custom*	N/A	N/A	16%	18%
■ Fixed rate, term > 20 years ■ ARMs¹; and ■ Manufactured Homes¹	Standard	12%	25%	30%	35%
	Custom*	6%	12%	16%	18%
Home Possible® Mortgages, fixed rate, term ≤ 20 years	Standard	6%	12%	25%	25%
	Custom*	N/A	N/A	16%	18%
	Standard	12%	25%	25%	25%

Transaction type	Mortgage insurance coverage	LTV ratio			
		> 80% & ≤85%	> 85% & ≤90%	> 90% & ≤95%	>95% & ≤97%
Home Possible Mortgages: <ul style="list-style-type: none">■ Fixed rate, term > 20 years■ ARMs¹; and■ Manufactured Homes¹	Custom*	6%	12%	16%	18%

1 Except for Mortgages secured by a CHOICEHome® as described in Section 5703.9, Manufactured Homes and ARMs are limited to a maximum LTV ratio of 95%.

* If custom mortgage insurance is chosen, in addition to all other applicable Credit Fees, the custom mortgage insurance Credit Fee in Price in Exhibit 19 applies, including on Home Possible Mortgages.

4701.2: Mortgage insurance premiums (07/06/22)

Eligible Mortgage insurance premiums include the following:

- **Monthly premium:** Premiums paid monthly from accumulated escrow deposits (with no initial payment at closing)
- **Annual premium:** An initial premium paid at closing to cover the first year's premium and annual renewal premium payments thereafter paid from accumulated escrow deposits
- **Single-premium:** A lump-sum premium paid at closing to purchase life of Mortgage coverage
- **Split-premium:** An initial up-front payment premium paid at closing and an ongoing monthly premium paid from accumulated escrow deposits

For Borrower-paid mortgage insurance premiums, the Borrower must pay the mortgage insurance premium by a single payment at closing, through monthly Escrow payments or as a combination of the two. A Mortgage that includes a Borrower-paid mortgage insurance premium in the Note Rate is not eligible for sale to Freddie Mac.

Lender-paid mortgage insurance premiums for annual and monthly premium programs must be included in the Servicing Spread included in the Note Rate on the Mortgage (see Section 4701.2(b)). Mortgages with single-premium lender-paid mortgage insurance do not require an adjustment to the Minimum Servicing Spread.

(a) Borrower-paid financed premiums

For purposes of this section, the following definitions apply:

- **Base LTV ratio:** The loan-to-value (LTV) ratio calculated using the Mortgage amount without the financed mortgage insurance premium
- **Gross LTV ratio:** The LTV ratio calculated using the Mortgage amount which includes the financed mortgage insurance premium

Mortgages for which the Borrower-paid mortgage insurance premium is included as part of the principal amount of the Mortgage (that is, a financed premium) are eligible for purchase provided the Mortgage complies with the requirements below:

- The Base LTV ratio must not exceed the maximum LTV ratio permitted for the Mortgage Product or offering
- The Gross LTV ratio must not exceed 95%, except for Home Possible® Mortgages and HomeOne® Mortgages, for which the Gross LTV ratio must not exceed 97%
- The Mortgaged Premises must be a 1- to 4-unit Primary Residence or a 1-unit second home
- The Mortgage is a fixed-rate, fully amortizing Mortgage or an ARM
- The amount of coverage meets the standard coverage level requirements in Section 4701.1 using the Base LTV ratio
- The mortgage insurance premium must be paid with a Borrower-paid single-premium or split-premium payment.

Financed mortgage insurance premium endorsement

The mortgage insurance policy must include an endorsement, generally referred to as the “financed mortgage insurance premium endorsement.” This endorsement states that adjustments will be made to the claim calculation to meet the required exposure level for the Base LTV ratio.

Maximum original loan amount

The maximum original loan amounts provided in Section 4203.3 apply to Mortgages with financed mortgage insurance premiums. The original loan amount of the Mortgage inclusive of the amount of any financed mortgage insurance premium may not exceed the maximum original loan limits provided in Section 4203.3.

Delivery requirements for Mortgages with financed mortgage insurance premium

See Section 6302.21 for delivery requirements. Any applicable Credit Fees will be assessed based on the Mortgage's Gross LTV ratio and the UPB, which includes the financed mortgage insurance premium.

(b) Lender-paid mortgage insurance

Freddie Mac will purchase Mortgages with single, annual or monthly premium lender-paid mortgage insurance as follows:

(i) For annual and monthly premiums:

- The Mortgage is a fixed-rate, fully amortizing Mortgage or a non-convertible ARM
- The Mortgage is not a super conforming Mortgage
- For monthly and annual premium programs, premium payments are made from the Servicing Spread compensation.

To ensure that the Servicer receives sufficient Servicing compensation after premium payments are made:

- For fixed-rate Mortgages, the Minimum Contract Servicing Spread must be at least 0.250% and the maximum Servicing Spread may not exceed 0.500%. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread. The Minimum Contract Servicing Spread must be no less than the sum of the Minimum Servicing Spread plus the amount necessary to pay the mortgage insurance premium when due and must not exceed 0.500%.
- For non-convertible ARMs, see the Minimum Contract Servicing Spread requirements in Sections 6102.8 and 6201.3(c)
- Coverage will be maintained for the life of the Mortgage. A change in MI may be allowed if approved by Freddie Mac (see Chapter 8203).
- The Mortgage is sold under the Guarantor or MultiLender Swap program

The Seller must obtain Freddie Mac's approval to sell Mortgages with annual or monthly premium lender-paid mortgage insurance to Freddie Mac. The Seller should request this approval by calling its account manager or 800-FREDDIE.

(ii) For single premiums:

- The Mortgage is a Mortgage eligible for purchase under the Purchase Documents

- Coverage will be maintained for the life of the Mortgage. A change in MI may be allowed if approved by Freddie Mac (see Chapter 8203).
- The Seller must ensure that the required mortgage insurance for the Mortgage is in full force and effective on the Delivery Date of the Mortgage regardless of whether the entire mortgage insurance premium is paid by the Seller prior to the Delivery Date. The Seller must obtain and be able to produce evidence of any required mortgage insurance (including, but not limited to, a certificate of insurance).

See Section 6302.21 for delivery requirements for Mortgages with lender-paid mortgage insurance.

4701.2: Mortgage insurance premiums (Future effective date 10/02/23)

Eligible Mortgage insurance premiums include the following:

- **Monthly premium:** Premiums paid monthly from accumulated escrow deposits (with no initial payment at closing)
- **Annual premium:** An initial premium paid at closing to cover the first year's premium and annual renewal premium payments thereafter paid from accumulated escrow deposits
- **Single-premium:** A lump-sum premium paid at closing to purchase life of Mortgage coverage
- **Split-premium:** An initial up-front payment premium paid at closing and an ongoing monthly premium paid from accumulated escrow deposits

For Borrower-paid mortgage insurance premiums, the Borrower must pay the mortgage insurance premium by a single payment at closing, through monthly Escrow payments or as a combination of the two. A Mortgage that includes a Borrower-paid mortgage insurance premium in the Note Rate is not eligible for sale to Freddie Mac.

Lender-paid mortgage insurance premiums for annual and monthly premium programs must be included in the Servicing Spread included in the Note Rate on the Mortgage (see Section 4701.2(b)). Mortgages with single-premium lender-paid mortgage insurance do not require an adjustment to the Minimum Servicing Spread.

(a) Borrower-paid financed premiums

For purposes of this section, the following definitions apply:

- **Base LTV ratio:** The loan-to-value (LTV) ratio calculated using the Mortgage amount without the financed mortgage insurance premium
- **Gross LTV ratio:** The LTV ratio calculated using the Mortgage amount which includes the financed mortgage insurance premium

Mortgages for which the Borrower-paid mortgage insurance premium is included as part of the principal amount of the Mortgage (that is, a financed premium) are eligible for purchase provided the Mortgage complies with the requirements below:

- The Base LTV ratio must not exceed the maximum LTV ratio permitted for the Mortgage Product or offering
- The Gross LTV ratio must not exceed 95%, except for Home Possible® Mortgages, HomeOne® Mortgages and HeritageOneSM Mortgages, for which the Gross LTV ratio must not exceed 97%
- The Mortgaged Premises must be a 1- to 4-unit Primary Residence or a 1-unit second home
- The Mortgage is a fixed-rate, fully amortizing Mortgage or an ARM
- The amount of coverage meets the standard coverage level requirements in Section 4701.1 using the Base LTV ratio
- The mortgage insurance premium must be paid with a Borrower-paid single-premium or split-premium payment.

Financed mortgage insurance premium endorsement

The mortgage insurance policy must include an endorsement, generally referred to as the “financed mortgage insurance premium endorsement.” This endorsement states that adjustments will be made to the claim calculation to meet the required exposure level for the Base LTV ratio.

Maximum original loan amount

The maximum original loan amounts provided in Section 4203.3 apply to Mortgages with financed mortgage insurance premiums. The original loan amount of the Mortgage inclusive of the amount of any financed mortgage insurance premium may not exceed the maximum original loan limits provided in Section 4203.3.

Delivery requirements for Mortgages with financed mortgage insurance premium

See Section 6302.21 for delivery requirements. Any applicable Credit Fees will be assessed based on the Mortgage's Gross LTV ratio and the UPB, which includes the financed mortgage insurance premium.

(b) Lender-paid mortgage insurance

Freddie Mac will purchase Mortgages with single, annual or monthly premium lender-paid mortgage insurance as follows:

(i) For annual and monthly premiums:

- The Mortgage is a fixed-rate, fully amortizing Mortgage or a non-convertible ARM
- The Mortgage is not a super conforming Mortgage
- For monthly and annual premium programs, premium payments are made from the Servicing Spread compensation.

To ensure that the Servicer receives sufficient Servicing compensation after premium payments are made:

- For fixed-rate Mortgages, the Minimum Contract Servicing Spread must be at least 0.250% and the maximum Servicing Spread may not exceed 0.500%. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread. The Minimum Contract Servicing Spread must be no less than the sum of the Minimum Servicing Spread plus the amount necessary to pay the mortgage insurance premium when due and must not exceed 0.500%.
- For non-convertible ARMs, see the Minimum Contract Servicing Spread requirements in Sections 6102.8 and 6201.3(c)
- Coverage will be maintained for the life of the Mortgage. A change in MI may be allowed if approved by Freddie Mac (see Chapter 8203).
- The Mortgage is sold under the Guarantor or MultiLender Swap program

The Seller must obtain Freddie Mac's approval to sell Mortgages with annual or monthly premium lender-paid mortgage insurance to Freddie Mac. The Seller should request this approval by calling its account manager or 800-FREDDIE.

(ii) For single premiums:

- The Mortgage is a Mortgage eligible for purchase under the Purchase Documents

- Coverage will be maintained for the life of the Mortgage. A change in MI may be allowed if approved by Freddie Mac (see Chapter 8203).
- The Seller must ensure that the required mortgage insurance for the Mortgage is in full force and effective on the Delivery Date of the Mortgage regardless of whether the entire mortgage insurance premium is paid by the Seller prior to the Delivery Date. The Seller must obtain and be able to produce evidence of any required mortgage insurance (including, but not limited to, a certificate of insurance).

See Section 6302.21 for delivery requirements for Mortgages with lender-paid mortgage insurance.

4701.3: Commissions, fees or other compensation on insurance (03/02/16)

The Seller warrants that in connection with the placement or renewal of any mortgage insurance, including insurance on any other Mortgages it owns, to the Seller's knowledge, the insurer (including its parent company or any affiliate thereof) has not caused or permitted any consideration or thing of value (other than the protection provided by its mortgage insurance) to be paid to or received by any of the following:

- The Mortgage lender
- Any officer, director or employee of the lender or any member of their immediate families
- Any insurance agency, corporation (other than the insurer), partnership, trust or other business entity (including any service corporation, whether organized for profit or otherwise) in which the lender or any of its officers, directors, employees or their immediate family members have financial interest, or
- Any designee, trustee, nominee or other agent or representative of any of the foregoing

This requirement applies to any commission, fee or other compensation on all mortgage insurance presently in force or to be placed in the future.

4701.4: Late charges (03/02/16)

The Uniform Single Family Note provides blanks for inserting the amounts of late charges and the grace period after which such charges are assessable. Any amount and period stated must be permissible under applicable law.

For Mortgages purchased by Freddie Mac, the Seller agrees to collect late charges only on monthly installments more than 15 days late. If the 15-day period ends on a weekend or holiday,

it is extended to the next Business Day. The Seller also agrees not to collect late charges of more than 5% of the late principal and interest payment. The Seller may retain any late charge collected as additional Servicing compensation.

If the late charge stated in the Note is more than 5% of the principal and interest payment and/or is to be assessed on a monthly installment late 15 days or less, the Seller agrees to notify the Borrower in writing of Freddie Mac's late charge and grace period requirements and to retain a copy of the written notification in the Mortgage file for each Mortgage purchased by Freddie Mac.

4701.5: Mortgage insurance for Cooperative Share Loans (05/04/20)

Notwithstanding the requirements of Section 4701.1, for New York properties, the sales price of the Cooperative Interest may be used solely for the purpose of determining whether mortgage insurance is required for purchase transaction Cooperative Share Loans. If mortgage insurance is required, the requirements of Section 4701.1 apply for determining the loan-to-value ratio for the required percentage of mortgage insurance coverage and for purposes of determining whether mortgage insurance should be canceled.

Chapter 4702: Title Insurance

4702.1: General Freddie Mac title insurance requirements (05/04/20)

Each Mortgage purchased by Freddie Mac must be covered by one of the following:

- A paid-up Mortgage title insurance policy meeting the requirements in Section 4702.2, or
- An attorney's title opinion or certificate meeting the requirements in Section 4702.3

A title insurance policy is mandatory for Mortgages secured by units in a Condominium Project, dwellings on leasehold estates, Cooperative Projects, Manufactured Homes, properties subject to restrictive agreements or restrictive covenants, Texas Equity Section 50(a)(6) Mortgages, Community Land Trust Mortgages and for Mortgages executed using a power of attorney.

4702.2: Title insurance policy requirements (11/02/22)

Each title insurance policy must meet the following minimum requirements:

(a) Title insurer

The title insurance policy must be written by a title insurer legally able to do business in the jurisdiction where the Mortgaged Premises are located.

The policy must be fully enforceable and protective of the mortgagee's rights and comply with all other requirements of this section.

If a preliminary binder or commitment is issued, it must be issued by the same title insurer that issues the final title insurance policy.

Selection or acceptance of the title insurance company by the Seller must be based solely on considerations, such as the comprehensiveness of the policy, the financial ability of the company to stand behind its commitment, the company's record on settling claims and other considerations normally employed by institutional investors originating or purchasing Mortgages in the jurisdiction where the Mortgaged Premises are located. The selection or acceptance must not be based on receipt of any fee or other consideration by the Seller or its employees, officers or directors.

(b) Amount of protection

The title insurance policy must protect the mortgagee up to at least the current principal balance of the Mortgage.

(c) Insured

The title insurance protection must run to Freddie Mac for Mortgages purchased in their entirety by Freddie Mac.

If a Mortgage is registered with MERS® and is originated naming MERS as original mortgagee of record, solely as nominee for the Lender named in the Security Instrument and the Note, and Lender's successors and assigns, then the "insured Mortgage" covered by the title insurance policy must be identified in the title insurance policy as the Security Instrument given to MERS, solely as nominee for Lender and Lender's successors and assigns. However, under no circumstances may MERS be named as an insured in a title insurance policy.

Furthermore, if a Mortgage is registered with MERS, the Seller/Servicer must arrange for all insurance drafts, notices, policies, invoices, etc., to be delivered directly to the Seller/Servicer. Although the MERS address appears in local public land records, the address for MERS must not be given to organizations that normally direct mail to the Seller/Servicer or Servicing Agent.

(d) Forms

The title insurance policy must be written on:

- Effective for Mortgages with Note Dates up to December 31, 2023, Freddie Mac will accept either the 2006 (adopted 6/17/06) or 2021 (adopted 7/1/2021) versions of the following policy forms:
 - The American Land Title Association (ALTA) Loan Policy
 - The ALTA Short Form Residential Loan Policy One-to-Four-Family or
 - The ALTA Expanded Coverage Residential Loan Policy One- to Four-Family
- Effective for Mortgages with Note Dates on or after January 1, 2024, only the 2021 versions of the above policy forms will be accepted

Whichever policy is used, it must be permitted to be issued in the State where the Mortgaged Premises is located under applicable law (e.g., Seller cannot deliver a 2021 Loan Policy in New York until the State of New York has approved use of that form policy).

Sellers may use a title insurance policy written on a form other than one of the ALTA insurance policy forms described above, provided the Seller warrants that the coverage the policy provides is at least as broad as the coverage provided by the applicable ALTA title insurance policy.

Regardless of the title insurance policy form used, endorsements must be attached to or, where applicable, incorporated by reference into the policy. The following endorsements must correspond to the year of the title insurance policy form used (e.g., an endorsement used only with the ALTA 2006 Loan policy cannot be used with the ALTA 2021 Loan Policy):

- An ALTA Form 8.1, Environmental Protection Lien Endorsement. Form 8.1 may make an exception only for specific State statutes that provide for possible subsequent “superliens” that could take priority over the Mortgage
- For all ARMs, the appropriate ALTA form for Variable Rate Mortgages (ALTA Form 6, Variable Rate Mortgage; ALTA Form 6.1, Variable Rate Mortgage — regulations; or ALTA Form 6.2, Variable Rate Mortgage — Negative Amortization)
- An ALTA Form 4 endorsement or its equivalent for each Condominium Unit Mortgage
- An ALTA Form 5 endorsement or its equivalent for each Mortgage secured by a Planned Unit Development (PUD) unit
- An ALTA Form 13.1 endorsement or its equivalent for all leasehold Mortgages and Community Land Trust Mortgages
- An ALTA Form 7.1 endorsement in States where available, or Form 7 endorsement in other States, or its equivalent for each Mortgage secured by a Manufactured Home. The title policy must identify the Manufactured Home located on the land and insure against any loss if the Manufactured Home is not real property.
- An ALTA Form 9 endorsement or its equivalent meeting the requirements of Section 4702.4(d) (3rd bullet) for each Mortgage secured by property subject to a restrictive agreement or restrictive covenant

A Seller may accept an ALTA Form 47.1 (Operative Law) endorsement for jurisdictions where State and Native American Indian tribal authorities overlap, and tribal law could potentially govern real estate interests in the Mortgaged Premises. However, the endorsement may not contain any exclusions to coverage, which are noted as optional in the endorsement. Sellers must review the endorsement to ensure that the exclusions to coverage are removed or not present.

A Seller may accept evidence of title insurance under a master title insurance policy for any Home Mortgage. Any Seller that accepts evidence of title insurance under a master title insurance policy represents and warrants as follows:

- The Seller has reviewed the title insurer's master policy documents, including the certificate of title insurance or short-form title policy, the master policy with all endorsements and any other applicable documents, and, based on this review and on certifications from the title insurer, the Seller has confirmed that the master policy provides at least the amount and scope of coverage given by the applicable ALTA title insurance policy and that the master policy otherwise meets the requirements of this Section 4702.2
- The Seller has obtained from the title insurer a fully executed master title insurance policy issued in the Seller's name as insured and assigns to Freddie Mac its rights in the policy
- The master policy has been approved by the applicable State or local authority where such approval is required
- The insurer will replace the title insurance certificate with a full individual ALTA or similar policy upon 10 days' notice by Freddie Mac

Freddie Mac may refuse to accept the master title insurance policy of any title insurer.

(e) Survey requirements

If the title company insuring the Mortgage or the attorney rendering the opinion of title requires a survey to remove exceptions to survey matters, the Seller must provide a survey of the Mortgaged Premises. The survey provided must conform to:

- The title insurance company's or attorney's standards, and
- Any applicable legal standards relating to surveys

(f) Exceptions

When the title insurance policy takes exception to survey matters, other than those permitted under Section 4702.4, the Seller must provide whatever information is required by the title insurance company to either remove the exception or obtain an endorsement providing the insurance required. If the title company will not issue a policy without a survey exception, Freddie Mac will not purchase the Mortgage. In addition, the title policy must not be subject to any title exceptions other than those permitted under Section 4702.4.

4702.3: Opinions of title (certificates of title) (09/01/22)

An attorney's opinion of title is acceptable to Freddie Mac in lieu of a title insurance policy if all of the following conditions are met without exception:

1. The opinion must be addressed to the Seller and all successors in interest of the Seller

2. The opinion must provide the following statement:

We [I] agree to indemnify you and your successors in interest in the [Mortgage] [deed of trust] opined hereto, to the full extent of any loss attributable to a breach of our [my] duty to exercise reasonable care and skill in the examination of the title and the giving of this opinion.

3. The opinion must be given by an attorney licensed to practice law in the jurisdiction where the Mortgaged Premises is located. The attorney must also be insured against malpractice in rendering opinions of title in an amount commonly prevailing in the jurisdiction, taking into account the volume of opinions rendered by the attorney.
4. The opinion must not take exception to survey matters. When the attorney's opinion takes exception to survey matters, the Seller must provide whatever information is required by the attorney to remove the exception. If the attorney will not issue the title opinion without a survey exception, Freddie Mac will not purchase the Mortgage. In addition, the opinion must not be subject to any title exceptions other than those permitted under Section 4702.4.
5. The Mortgage must not be:
 - Secured by a unit in a Condominium Project
 - A Cooperative Share Loan
 - Secured by a dwelling on a leasehold estate
 - Secured by a Manufactured Home
 - Secured by property subject to restrictive agreements or restrictive covenants
 - Executed using a power of attorney
 - A Texas Equity Section 50(a)(6) Mortgage
 - A Community Land Trust Mortgage
6. An attorney's opinion of title must be commonly acceptable in lieu of title insurance by private institutional Mortgage investors in the area where the Mortgaged Premises are located
7. The following opinion relating to prior environmental protection liens must be given in lieu of the American Land Title Association (ALTA) Endorsement 8.1 in an attorney's opinion of title. Item (i) of the opinion refers to environmental liens at the time the opinion is issued; item (ii) refers to State lien statutes that could give rise to a priority lien. An attorney may include an exception in item (ii) for possible subsequent superliens that could take priority

over the Mortgage only if the Mortgaged Premises is located in a State whose State statutes provide for such a superlien:

“There is (i) no environmental protection lien recorded in those records established under State statutes for the purpose of imparting constructive notice of matters relating to real property to purchasers for value and without knowledge, or filed in the records of the clerk of the United States district court for the district in which the land is located, nor (ii) are there any environmental protection liens provided for by any State statute in effect on the date of this opinion, which could achieve priority over the Mortgage except those listed below (list any State statute that allows a lien for environmental protection that can attain priority over the lien of the insured Mortgage; if none, state ‘none’).”

8. The following opinion must be given in lieu of the applicable ALTA form for ARMs, if applicable:

“The law of the State in which the property securing the Mortgage is located provides that (i) the lien of the Mortgage will not become invalid or unenforceable resulting from provisions in the Mortgage which provide for changes in the interest rate calculated pursuant to the formula provided in the Mortgage, and (ii) priority of the lien of the Mortgage for the UPB of the loan, together with interest as changed and other sums advanced by the Noteholder in accordance with the provisions of the Mortgage, will not be lost as a result of changes in the rate of interest calculated pursuant to the formula provided in the Mortgage.”

9. Mortgages secured by units in Planned Unit Developments (PUDs) for which an attorney’s opinion of title was obtained in lieu of a title insurance policy shall be eligible for purchase, provided that:

- The opinion of title meets the requirements of this Section 4702.3 and in addition includes the following statements:
 - There is no violation of any restrictive covenants that are in the PUD constituent documents and restrict the use of the land
 - All dues applicable to the Mortgaged Premises are current and not delinquent
 - No recorded right of first refusal to purchase the land was exercised or could have been exercised on or before the closing date of the Mortgage and the undersigned is unaware of the existence or the exercise of any right of first refusal on or before the closing date of the Mortgage, and
- The Seller maintains a copy of the attorney’s opinion of title in the Mortgage file

See Section 6302.47 for delivery requirements for each Mortgage delivered with an attorney’s opinion of title letter in lieu of a title insurance policy.

4702.4: Acceptable exceptions to the title insurance policy or to the attorney's opinion of title (03/02/21)

The following exceptions to the title insurance policy or to the attorney's opinion of title are acceptable:

(a) Subsurface public utility easements

Exceptions for subsurface public utility easements for local residential distribution, such as lines for gas and water, and cable for electric, telephone or television utilities, are acceptable provided that the location of the easements is ascertainable and fixed. The exercise of the rights thereunder must not interfere with the use and enjoyment of any present improvements on the Mortgaged Premises or proposed improvements on which the appraisal or Mortgage is based.

(b) Surface public utility easements

Exceptions for surface easements for public utilities for local residential distribution are acceptable provided that the location of the easements is ascertainable and fixed. The exercise of the rights thereunder must not interfere with the use and enjoyment of any of the following:

- Present improvements on the Mortgaged Premises
- Proposed improvements upon which the appraisal or Mortgage is based
- Part of the Mortgaged Premises outside the easement and not occupied by improvements

(c) Encroachments on public utility easements

Exceptions for encroachments on easements for public utilities by a garage, tool shed or similar structure that is not attached to, or a portion of, the dwelling structure are acceptable provided that the encroachments do not interfere with the use and enjoyment of the easements or the exercise of rights of repair and maintenance in connection therewith.

(d) Restrictive agreements and restrictive covenants

Exceptions for restrictive agreements or restrictive covenants of record related to cost, use, setback, resale restrictions, right of first refusal, minimum size and building materials, and architectural, aesthetic or similar matters (other than single-family-use restrictions on 2- to 4-unit properties) are acceptable provided that the following conditions are met:

- The restrictive agreements or restrictive covenants do not create or provide for any lien that would be prior to the lien of the Home Mortgage nor provide for the elimination of the lien of the Home Mortgage

- The terms and provisions of the restrictive agreements or restrictive covenants are commonly acceptable to private institutional Mortgage investors in the area where the Mortgaged Premises are located
- An endorsement to the title insurance policy affirmatively insures that no violation of any such restrictive agreement or restrictive covenant exists and that any future violation shall not result in forfeiture or reversion of title

(e) Mutual easement agreements

Exceptions for mutual easement agreements of record that establish a joint driveway or a party wall are acceptable if such improvements are constructed in any of the following ways:

- Partly on the Mortgaged Premises and partly on adjoining property, or
- Wholly on the Mortgaged Premises, or
- Wholly on the adjoining property

The easement agreement must allow all present and future owners and their heirs, successors and assigns forever, unlimited use and enjoyment of the driveway or party wall without any restriction other than restriction by reason of the mutual easement owners' rights in common and duties for joint maintenance.

(f) Fence misplacements

Exceptions for fence misplacements on either side of the property line of the Mortgaged Premises, are acceptable provided that neither the misplacement, nor a future correction thereof, will interfere with the use and enjoyment of any improvements on the Mortgaged Premises nor with the use and enjoyment of the balance of the Mortgaged Premises not occupied by improvements. The definition of fence in this section shall not include retaining walls or other permanent structures.

(g) Encroachments on the Mortgaged Premises by improvements on adjoining property

Exceptions for encroachments on the Mortgaged Premises by improvements on adjoining property are acceptable provided that the following conditions are met:

- The encroachment must not touch any improvements on the Mortgaged Premises
- The encroachment must not interfere with the use and enjoyment of any improvements on the Mortgaged Premises nor with the use and enjoyment of the Mortgaged Premises not occupied by improvements

(h) Encroachments on adjoining property

Exceptions for encroachments on adjoining property by eaves or other projections attached to improvements on the Mortgaged Premises, or by structures such as tool sheds, or by a driveway appurtenant to the Mortgaged Premises are acceptable provided that there is an endorsement to the title insurance policy whereby the policy affirmatively insures against loss suffered by reason of the entry of a decree or court order requiring the removal of the encroachment.

(i) Oil, gas, water and mineral rights

Exceptions for outstanding oil, gas, water or mineral rights are acceptable if commonly granted by private institutional Mortgage investors in the area where the Mortgaged Premises is located, and:

- The exercise of such rights will not result in damage to the Mortgaged Premises or impairment of the use or marketability of the Mortgaged Premises for residential purposes and there is no right of surface or subsurface entry within 200 feet of the residential structure, or
- There is a comprehensive endorsement to the title insurance policy that affirmatively insures the lender against damage or loss due to the exercise of such rights

(j) Liens for taxes not due

Exceptions for liens for real estate or ad valorem taxes and assessments that specifically state that such liens are not yet due and payable are acceptable.

(k) Sums readvanced

This includes the priority of the lien for any sum repaid and subsequently readvanced under the terms of the Mortgage insured thereby.

(l) Tenants in possession

Exceptions for rights of tenants in possession, as tenants only, under prior unrecorded leases, are acceptable.

(m) Liens and leases for solar panels

Exceptions for liens and leases, including UCC-1 Financing Statements, for solar panels are acceptable provided the exception is for a lien or lease that lists only the solar panels as the collateral.

(n) Other exceptions

Any exception not set forth above in Sections 4702.4(a) through 4702.4(l) is acceptable only if all of the following conditions are met:

1. The subject of the exception must not interfere with the use and enjoyment of any present or proposed improvements on the Mortgaged Premises or with the use and enjoyment of the balance of the Mortgaged Premises not occupied by improvements
2. The subject of the exception must not affect the marketability of the Mortgaged Premises
3. The subject of the exception must have no or minimal effect on the value of the Mortgaged Premises
4. The subject of the exception must be acceptable to the MI if the Mortgage is insured
5. The subject of the exception must be commonly acceptable to private institutional Mortgage investors in the area where the Mortgaged Premises is located

The Seller shall warrant that all exceptions to the title insurance policy or to the attorney's opinion of title are permissible under this section. Freddie Mac will not issue any letters addressing the acceptability of particular exceptions nor waivers of the above requirements.

4702.5: Special title insurance requirements for Texas Equity Section 50(a)(6) Mortgages (03/02/16)

Texas Equity Section 50(a)(6) Mortgages must be covered by a title insurance policy meeting the requirements of Chapter 4702 with the endorsements described below.

- An Equity Loan Mortgage Endorsement (Form T-42). The Form T-42 endorsement must include the optional coverage provided by paragraph 2(f) of the endorsement and there must not be any exceptions to, or deletions of, paragraphs 2(a) through 2(e) of the Form T-42 endorsement.
- A Supplemental Coverage Equity Loan Mortgage Endorsement (Form T 42.1). There must not be any exceptions to, or deletions of, paragraphs 1(a) through 1(k) of the Form T-42.1 endorsement, or any subsequent subparagraphs added to Paragraph 1 by any revision of the Form T 42.1 approved by the Texas Insurance Commission.
- Any other endorsement that provides additional optional mortgagee coverage that is approved by the State of Texas Insurance Commission. The endorsement must be obtained by the Seller for Texas Equity Section 50(a)(6) Mortgages originated on and after the date the endorsement becomes legally available. There must be no exceptions to, or deletions of, any paragraphs providing additional coverage in any such endorsement.

4702.6: Title insurance requirements for Cooperative Projects and Cooperative Share Loans (02/03/22)

(a) Cooperative Projects

The Cooperative Project must be covered by a title insurance policy that meets the requirements of the Seller's Purchase Documents.

(b) Cooperative Share Loans

When a Cooperative Share Loan is recognized as real property, a title insurance policy is required to evidence that:

- The Shareholder has good and marketable title to the Shares, and
- The Cooperative Corporation has good and marketable title to the Cooperative Project

When a Cooperative Share Loan is recognized as personal property, the Seller represents and warrants that:

- The Shareholder has good and marketable title to the Cooperative Shares,
- The Cooperative Corporation has good and marketable title to the Cooperative Project, and
- A title lien search was obtained prior to closing or delivery of the Cooperative Share Loan and a copy is retained in the Mortgage file

4702.7: Title insurance requirements for HeritageOneSM Mortgages (Future effective date 10/02/23)

The following title insurance requirements apply to HeritageOneSM Mortgages:

Land Ownership Interest	Title Insurance Requirements
Tribal trust land or allotted trust land	Although Section 4702.1 provides otherwise, title insurance is not required for leasehold Mortgages, including where there is a Condominium Unit or Manufactured Home on the leasehold estate and/or the leasehold estate is subject to restrictive agreements or restrictive covenants, if:

	<ul style="list-style-type: none"> ■ A certified title status report(s) is obtained from the U.S. Department of the Interior Bureau of Indian Affairs (BIA) and, if applicable, any other land claims recordation system maintained by the Eligible Native American Tribe (as defined in Section 4504.2(c)); and ■ All other requirements of Chapter 4702 are met <p>The effective date of the title status report(s) must be no more than 365 days before the Delivery Date.</p> <p>If the Seller elects to purchase title insurance, the cost may not be passed to the Borrower.</p>
Land that is owned in fee simple	<p>In addition to meeting all requirements of Chapter 4702, the title insurance policy may not make any specific exclusion or exception for the laws, ordinances or regulations of the Eligible Native American Tribe.</p> <p>An attorney's opinion of title is not acceptable in lieu of a title insurance policy.</p>

See Chapter 4504 for additional requirements for HeritageOne Mortgages.

Chapter 4703: Property Insurance

4703.1: General property insurance requirements (01/01/23)

For Mortgages sold to Freddie Mac, the Seller must ensure that the Mortgaged Premises are covered by insurance meeting the requirements in this Chapter 4703. The Seller must obtain evidence of insurance meeting the requirements of Section 8202.8.

(a) Licensing of insurer

All insurance companies (insurers) and insurance companies which guarantee coverages provided by other insurance companies (reinsurers) must be licensed, or otherwise authorized by law, to conduct business in the jurisdictions where the Mortgaged Premises are located.

(b) Assessments

Insurance contracts must provide that no assessment may be made against the Seller/Servicer or Freddie Mac and that any assessment made against others may not become a lien on the Mortgaged Premises superior to the lien of the Freddie Mac Mortgage.

(c) Rating of insurer

The required insurance must be provided by one of the following insurers:

1. An insurer with a current rating that meets the requirements below:
 - For an insurer rated by AM Best Company (AM Best), a minimum Financial Strength Rating of B+, as reported online at <http://www.ambest.com>
 - For an insurer rated by Demotech, Inc., a minimum Financial Stability Rating of A as reported online at <http://www.demotech.com>
 - For an insurer rated by S&P Global, a minimum Insurer Financial Strength Rating of BBB as reported online at <http://www.standardandpoors.com>
 - For an insurer rated by Kroll Bond Rating Agency (KBRA), a minimum Insurance Financial Strength Rating of BBB as reported online at <https://www.kbra.com>
2. An insurer with coverage that is guaranteed by a reinsurer under all of the following conditions:

- The reinsurer's current rating meets the requirements below:
 - For a reinsurer rated by AM Best, a minimum Financial Strength Rating of B+; or
 - For a reinsurer rated by S&P Global, a minimum Insurer Financial Strength Rating of BBB
 - The reinsurer assumes by endorsement 100% of the insurer's liability for any covered loss payable but unpaid by the insurer for reason of insolvency
 - The reinsurer assumes by endorsement to give the policyholder, the Seller/Servicer and insurer 90-day written notice before canceling or otherwise terminating the guarantee
 - The above endorsements are attached to each property insurance policy accepted by the Seller/Servicer on account of the endorsements
3. A state insurance pool created by statutory authority to provide insurance for geographic areas or insurance lines which suffer from lack of voluntary market availability (such pool may be designated as a property insurance plan, a Fair Access to Insurance Requirements (FAIR) plan, an underwriting association, a joint underwriting association or an insurance authority)
4. A non-admitted insurer with a current rating that meets the requirements below:
- For an insurer rated by AM Best, a minimum Financial Strength Rating of A, or
 - For an insurer rated by S&P Global, a minimum Insurer Financial Strength Rating of AA-
5. An insurer with coverage that is guaranteed by the National Flood Insurance Program (NFIP) under a Standard Flood Insurance Policy issued pursuant to the National Flood Insurance Act of 1968, as amended

Insurers rated by more than one rating company need only meet one of the rating requirements.

4703.2: Minimum property insurance types and amounts (01/05/23)

(a) 1- to 4-unit properties

At a minimum, the insurable improvements on the Mortgaged Premises must be insured for loss or damage from fire, lightning and other perils (windstorm, hail, explosion, riot, civil

commotion, damage by aircraft, damage by vehicles and damage by smoke) covered within the scope of standard extended coverage. If any of the preceding perils (e.g., windstorm) is excluded from the primary insurance policy, coverage of the excluded peril must be picked up through a secondary insurance policy such as may be written by a state insurance pool under Section 4703.1(c)(3). The insurance limits must at least equal the higher of:

- The unpaid principal balance (UPB) of the Mortgage
- 80% of the full replacement cost value (RCV) of the insurable improvements

RCV is the amount of money needed to repair the insurable improvements at current prices of building supplies at time of damage, without any deduction for depreciation.

The coverage required in accordance with the above formula must not exceed the replacement cost of the insurable improvements, even when the UPB of the Mortgage exceeds such replacement cost.

The table below describes how to calculate the required amount of insurance.

Step	Description
1	Determine the UPB and the RCV.
2	If the RCV is less than the UPB, the required insurance coverage is the RCV, and no further calculation is required. If the RCV is greater than the UPB, go to step 3.
3	If the RCV is greater than the UPB, calculate 80% of the RCV and then go to step 4 or 5.
4	If this calculation is equal to or less than the UPB, the UPB is the amount of coverage required or
5	If this calculation is greater than the UPB, the 80% calculation is the amount of coverage required.

Examples:

	Property A: The RCV is less than the UPB	Property B: 80% of the RCV is equal to or less than the UPB	Property C: 80% of the RCV is greater than the UPB
RCV	\$80,000	\$90,000	\$90,000
UPB	\$85,000	\$80,000	\$65,000
80% of replacement cost	\$64,000	\$72,000	\$72,000
Required insurance coverage	\$80,000	\$80,000	\$72,000

The Seller/Servicer must ensure that adequate insurance coverage is in force even when the improvements are vacant or unoccupied and must notify all insurers of any such change in occupancy in order to preserve its rights as mortgagee under the applicable insurance policy.

The deductible for fire, water (not caused by flooding) or wind damage to the insured improvements (generally designated as “dwelling” in the insurance policy) may not exceed 5 percent of the limit maintained for dwelling coverage.

(b) Planned Unit Developments (PUDs) and ground lease communities

Unit owners within a Planned Unit Development (PUD) and leasehold lessees within a ground lease community with residential properties similar to 1- to 4- unit properties can insure their units individually, provided that the requirements in Section 4703.2(a) are met.

If the individual units are covered by insurance purchased by their respective owners or leasehold lessees, the PUD homeowners association or the fee simple landowner/lessor of the ground lease community, the Seller is not required to verify insurance for its Common Elements.

Freddie Mac will also accept a master or blanket insurance policy covering all units in the PUD or ground lease community if called for in the PUD’s governing documents or in the lease. Such coverage must meet the requirements applicable to each PUD or ground lease community unit and the Seller is not required to verify if a master or blanket insurance policy provides insurances for Common Elements.

Mortgages secured by units in a PUD with a master or blanket insurance policy that combines insurance coverage for multiple unaffiliated PUDs are eligible for sale to Freddie Mac provided that each covered PUD has a dedicated policy limit and a specific dedicated deductible that does not exceed the requirements below. Also, the policy must clearly state that each association is a named insured. The policy limit needs to cover the full replacement cost required for the Common Elements, and to the extent required, the units. The Seller/Servicer must obtain the insurance policy and endorsements to adequately evaluate the insurance coverage. Additionally, the insurance policy must meet all requirements of the Guide and other Purchase Documents applicable to master or blanket insurance policies covering affiliated PUDs such as:

- The insurance company underwriting the master or blanket policy must meet Freddie Mac insurance ratings requirements
- The protected perils must include those normally covered in policies for similar types of PUDs; and
- If applicable, the building ordinance or law endorsement and/or equipment breakdown endorsement

Projects that are under the same master association and/or share the use of common facilities, whether those facilities are individually owned or owned as part of a master association or development, are considered to be affiliated projects. Multiple projects that do not meet one of these criteria, even if they are under the management of the same management company, are not considered to be affiliated projects.

A policy with a coinsurance clause, and inclusion of an agreed amount endorsement or selection of the agreed value option (which waives the requirement for coinsurance) is considered acceptable evidence that the 100% replacement cost requirement has been met. If an agreed amount/agreed value provision is used, the agreed amount must be no less than the estimated replacement cost. If a coinsurance clause is included in the PUD homeowners association's policy or the fee simple landowner/lessor's policy, the policy is still eligible if the amount of coverage is at least equal to 100% replacement cost.

The homeowners association or fee simple landowner/lessor must also obtain any additional coverage commonly required by private mortgage investors for developments similar in construction, location and use, including the following:

- Inflation guard endorsement – this endorsement is required when it is applicable to the coverage and available in the insurance market
- Building ordinance or law endorsement – this endorsement is not required if the building is legally conforming under current building, zoning or land use laws, or is not available; however, it is required if the enforcement of any law or ordinance results in increased costs such as demolition or loss to the undamaged portions of the building and the coverage is available in the insurance market
- Steam boiler and machinery or equipment breakdown endorsement – this endorsement is required if a building in the project has a central heating ventilation and cooling (HVAC) system and the coverage is available in the insurance market

The insurance limit per covered mechanical breakdown or equipment failure must equal the lesser of:

- 100% of the replacement cost of the building housing the equipment, or
- \$2 million

If a higher limit is required by private mortgage investors for PUDs similar in construction, location and use, the PUD homeowners association must maintain the higher insurance limit.

The deductible for fire, water (not caused by flooding) or wind damage to the insured improvements (generally designated as "building" in the insurance policy) may not exceed five percent of the limit maintained for building coverage.

The insurance policy of the PUD homeowners association or fee simple landowner/lessor of the ground lease community must name the insured in substantially the same language indicated below:

For PUDs: Association of Owners of the [Name of PUD] Planned Unit Development for the use and benefit of the individual owners (designated by name, if required by law or the governing documents).

For ground lease communities: [Name of the lessor] of the [Name of the ground lease community] for the use and benefit of the individual lessees (designated by name, if required by law or by the lease).

(c) Condominiums

The Project Documents will define the insurance requirements for the homeowners association and the individual unit owner in a Condominium Project, including a Detached Condominium Project and a 2- to 4-unit Condominium Project. The insurance requirements will define the extent to which the homeowners association will insure the individual units and the unit owner responsibility for individual insurance.

There are two acceptable options for unit coverage depending on what the governing documents indicate:

- The condominium homeowners association must insure the building and structures in the Condominium Project as well as fixtures, machinery, equipment and supplies maintained for the service of the Condominium Project. To the extent required the homeowners association must also insure fixtures, improvements, alterations and equipment within the individual Condominium Units, regardless of ownership. To the extent the condominium homeowners association's policy does not cover the interior of the Condominium Unit or the improvements to the Condominium Unit, the Borrower must maintain an HO-6 unit owner policy. Coverage for the HO-6 unit owner policy must be sufficient to repair the Condominium Unit to at least its condition prior to the claim.
- If the Project Documents allow Condominium Unit owners to insure their Condominium Units individually, in lieu of a master policy, the Mortgages secured by the Condominium Units are eligible for sale to Freddie Mac provided the requirements in Section 4703.2(a) are met. Common Elements must be covered through the condominium homeowners association policy and the homeowners association must maintain all other applicable insurance coverages required in Chapter 4703.

The condominium homeowners association must insure Common Elements and property for 100% of their replacement cost under a *Condominium Association Coverage Form* of the ISO or equivalent commercial package policy which covers, at a minimum, loss from causes identified in the ISO's *Commercial Property Causes of Loss — Special Form* endorsement. The insurance coverage must provide for loss or damage settlement at replacement cost.

A policy with one of the following is also acceptable to reach full replacement cost:

- Extended replacement cost – provides an extension to the insurable replacement cost
- Guaranteed replacement cost – provides replacement for the property regardless of cost

Mortgages secured by a Condominium Unit in a Condominium Project with a master or blanket insurance policy that combines insurance coverage for multiple unaffiliated Condominium Projects are eligible for sale to Freddie Mac provided that each covered Condominium Project has a dedicated policy limit and a specific dedicated deductible that does not exceed the requirements below. Also, the policy must clearly state that each association is a named insured. The policy limit needs to cover the full replacement cost required for the Common Elements, and to the extent required, the Condominium Units. The Seller/Servicer must obtain the insurance policy and endorsements to adequately evaluate the insurance coverage. Additionally, the insurance policy must meet all requirements of the Guide and other Purchase Documents applicable to master or blanket insurance policies covering affiliated Condominium Projects such as:

- The insurance company underwriting the master or blanket policy must meet Freddie Mac insurance ratings requirements;
- The protected perils must include those normally covered in policies for similar types of Condominium Projects; and
- If applicable, the building ordinance or law endorsement and/or equipment breakdown endorsement.

Condominium Projects that are under the same master association and/or share the use of common facilities, whether those facilities are individually owned or owned as part of a master association or development, are considered to be affiliated projects. Multiple Condominium Projects that do not meet one of these criteria, even if they are under the management of the same management company, are not considered to be affiliated projects.

A policy with a coinsurance clause, and inclusion of an agreed amount endorsement or selection of the agreed value option (which waives the requirement for coinsurance) is considered acceptable evidence that the 100% replacement cost requirement has been met. If an agreed amount/agreed value provision is used, the agreed amount must be no less than the estimated replacement cost. Also, if a coinsurance clause is included in the Condominium Project's policy, the policy is still eligible if the amount of coverage is at least equal to 100% replacement cost.

The condominium homeowners association must also obtain any additional coverage commonly required by private mortgage investors for developments similar in construction, location and use, including the following:

- Inflation guard endorsement – this endorsement is required when it is applicable to the coverage and available in the insurance market
- Building ordinance or law endorsement – this endorsement is not required if the building is legally conforming under current building, zoning or land use laws, or is not available; however, it is required if the enforcement of any law or ordinance results in increased costs such as demolition or loss to the undamaged portions of the building and the coverage is available in the insurance market
- Steam boiler and machinery or equipment breakdown endorsement – this endorsement is required if a building in the project has an HVAC system and the coverage is available in the insurance market

The insurance limit per covered mechanical breakdown or equipment failure must equal the lesser of:

- 100% of the replacement cost of the building housing the equipment, or
- \$2 million

If a higher limit is required by private mortgage investors for Condominium Projects similar in construction, location and use, the condominium homeowners association must maintain the higher insurance limits.

The condominium homeowners association's policy deductible for fire, water (not caused by flooding) or wind damage to the insured improvements (generally designated as "building" in the insurance policy) may not exceed 5% of the limit maintained for building coverage.

If the deductible exceeds the 5% maximum due to a per unit deductible for named perils specific to a geographic area, the Mortgage is eligible for sale to Freddie Mac if the Borrower's unit is covered by an owner's HO-6 policy. The Borrower's owner's policy must include the same perils as the condominium association's master policy, cover master policy assessments levied on the unit owner and carry a sufficient coverage amount to cover the per unit amount over the permissible 5% limit.

For example:

- Condominium association policy limit: \$6,000,000
- Number of units: 20
- Condominium association policy deductible: \$80,000
- Condominium association separate per unit deductible for ice dam coverage: \$40,000

The master deductible of \$80,000 is 1.33% of the building coverage (\$80,000/\$6,000,000) and does not exceed the 5% deductible requirement. However, the per unit deductible is 13.3% (($\$40,000 \times 20$ units)/\$6,000,000)) which is above the 5% maximum requirement and the policy is not acceptable.

The maximum per unit deductible needed to meet the 5% deductible requirement is \$15,000 (($\$6,000,000/20$) x .05)). To be eligible, the unit owner needs an HO-6 policy that would cover the \$25,000 per unit coverage ($\$40,000 - \$15,000 = \$25,000$).

The insurance policy of the condominium homeowners association must name the insured in substantially the same language indicated below:

Association of Owners of the [Name of Condominium Project] Condominium for the use and benefit of the individual owners (designated by name, if required by law or the governing documents).

In the event the HO-6 unit owner policy is required, the policy must include the standard Mortgage clause required in Section 4703.6.

(d) Cooperative Corporations

The Cooperative Corporation must maintain insurance under a commercial package policy that covers, at a minimum, causes of loss identified in the Insurance Services Office's (ISO) Commercial Property Causes of Loss-Special Form endorsement for the following:

- Buildings and structures in the Cooperative Project
- Fixtures, machinery, equipment and supplies maintained for the service of the Cooperative Project; and
- Fixtures, improvements, alterations and equipment within the individual Cooperative Units

To the extent the Cooperative Corporation policy does not cover the interior of the Cooperative Unit or the improvements to the Cooperative Unit (the fixtures, improvements, alterations and equipment within the individual Cooperative Units), the Borrower must maintain an HO-6 unit owner's policy. Coverage for the HO-6 unit owner policy must be sufficient to repair the Cooperative Unit to at least its condition prior to the claim. If the Cooperative Corporation policy fully covers the interior or the improvements to the Cooperative Unit, an HO-6 unit owner policy is not required.

Coverage must be for 100% of the insurable replacement costs of the buildings, structures or property described above and provide for loss settlement at replacement cost.

A Cooperative Corporation's policy with a coinsurance clause and inclusion of an agreed amount endorsement or selection of the agreed value option (which waives the requirement

of coinsurance) is considered acceptable evidence that the 100% replacement cost requirement has been met. If an agreed amount/agreed value provision is used, the agreed amount must be no less than the estimated replacement cost. Also, if a coinsurance clause is included in the Cooperative Corporation's policy, the policy is still eligible if the amount of coverage is at least equal to 100% of the replacement cost.

A policy with one of the following is also acceptable to reach full replacement cost:

- Extended replacement cost - provides an extension to the insurable replacement cost
- Guaranteed replacement cost - provides replacement for the property regardless of cost

The Cooperative Corporation must also obtain any additional coverage commonly required by private mortgage investors for Cooperative Projects similar in construction, location, and use, including the following:

- Inflation guard endorsement – required when it is applicable to the coverage and available in the insurance market
- Building ordinance or law endorsement – not required if the building is legally conforming under current building, zoning or land use laws or is not available; however, it is required if the enforcement of any law or ordinance results in increased costs such as demolition or loss to the undamaged portions of the building and the coverage is available in the insurance market
- Steam boiler and machinery or equipment breakdown endorsement – required if a building in the Cooperative Project has a central heating ventilation and cooling system and the coverage is available in the insurance market.

The insurance limit per covered mechanical breakdown or equipment failure must equal the lesser of:

- 100% of the replacement cost of the building housing the equipment, or
- \$2 million

The deductible for fire, water (not caused by flooding) or wind damage to the insured improvements (generally designated as "building" in the insurance policy) may not exceed 5% of the limit maintained for building coverage.

If the deductible exceeds the 5% maximum due to a per unit deductible for named perils specific to a geographic area, the Cooperative Share Loan is eligible for sale to Freddie Mac if the Borrower's unit is covered by an owner's HO-6 policy. The Borrower's owner's policy must include the same perils as the Cooperative Corporation's master policy, cover master policy assessments levied on the Shareholder and carry a sufficient coverage amount to cover the per unit amount over the permissible 5% limit.

See Section 4703.2(c) above for an example of how to calculate sufficient coverage to meet the 5% maximum deductible requirement for Cooperative Corporation Units.

Shareholders within a Cooperative Project of detached Cooperative Units can insure their units individually, provided that the requirements in Section 4703.2(a) are met and the Cooperative Corporation bylaws permit.

4703.3: Flood insurance (06/10/20)

Effective June 10, 2020, the content of this section has moved from Section 8202.3.

(a) Determining if a property requires flood insurance

A flood zone determination (FZD) must be made for each property securing a Mortgage sold to Freddie Mac.

An FZD must be documented by a completed FEMA Standard Flood Hazard Determination Form, FEMA Form 086-0-032 (Exhibit 13, Standard Flood Hazard Determination Form [SFHDF]) in accordance with federal law. The SFHDF may be used in a printed, computerized or electronic manner and must be retained for the life of the Mortgage in either hard copy or electronic format. Any alternative electronic format must contain all mandatory fields indicated on the SFHDF.

The date in the “Date of Determination” field on the SFHDF must be a date that is no more than 120 days before the Note Date of the Mortgage, or, if applicable, the Note Date of the refinance Mortgage. However, the “Date of Determination” field on the SFHDF may be a date that is more than 120 days before the Note Date of the Mortgage or, if applicable, the Note Date of the refinance Mortgage, if the Seller uses a “life of loan” FZD where the third party providing the FZD provides a “life of loan” certificate assuring that the Mortgage is monitored for compliance.

The loan number or other identifying information in the “Loan Identifier” field on the SFHDF must be the loan number or other identifying information for the Mortgage or, if applicable, the refinance Mortgage.

The Seller/Servicer warrants that any FZD made by a party other than the Seller/Servicer is guaranteed by the FZD maker to be accurate, in accordance with federal law. The Seller/Servicer, however, remains responsible to Freddie Mac for the accuracy of any FZD made by the Seller/Servicer or any party other than the Seller/Servicer.

If the SFHDF identifies the insurable improvements on the Mortgaged Premises as located in an area that has been identified as a Special Flood Hazard Area (SFHA) containing the letter “A” or “V” within its designated zone on a flood map (Flood Hazard Boundary Map or Flood

Insurance Rate Map) of FEMA, the Seller/Servicer must ensure that flood insurance is obtained and maintained on such improvements for the term of the Mortgage.

The Seller/Servicer may waive or discontinue the flood insurance requirement if:

- The Borrower and the Seller/Servicer have obtained, following a joint request to FEMA as provided under federal law, a Letter of Determination Review (LODR) concluding that the insurable improvements are not in the SFHA, or
- The Borrower has provided the Seller/Servicer with a Letter of Map Amendment (LOMA) from FEMA excluding the insurable improvements or the entire property from the SFHA, or
- The Borrower has provided the Seller/Servicer with a Letter of Map Revision (LOMR) from FEMA removing the community's SFHA designation

The Borrower must maintain flood insurance on the insurable improvements until FEMA issues a LOMA, LOMR or LODR. Upon issuance of a LOMA, LOMR or LODR, the Borrower may request from FEMA a refund of paid flood insurance premiums through the insurance agent servicing the flood insurance policy. A copy of the LOMA, LOMR or LODR, as applicable, must be maintained in the Mortgage file in accordance with Chapters 3401, 3301 and 3302.

If the insurable improvements on the Mortgaged Premises are located in an SFHA but the community does not participate in the National Flood Insurance Program (NFIP) ("nonparticipating community"), the Mortgage is not eligible for sale to Freddie Mac.

If the insurable improvements on the Mortgaged Premises are located in an area that has not been mapped by FEMA and the Seller/Servicer is not aware of any flood risks to which the improvements are exposed, the Mortgage is eligible for sale to Freddie Mac without the benefit of flood insurance. If the area has not been mapped by FEMA but the Seller/Servicer is aware that the insurable improvements are exposed to flood risks, the Mortgage is not eligible for sale to Freddie Mac without flood insurance on the improvements.

(b) Acceptable flood insurance policies

The flood insurance policy may be one of the following:

- A standard policy issued by the NFIP, or
- A policy issued by a private insurer that is qualified under Section 4703.1, with at least equivalent terms and conditions to the standard NFIP policy for the types of improvements insured, including coverage, deductibles and exclusions and conditions offered

(c) Coverage required

(i) 1- to 4-unit properties

If the community where the Mortgaged Premises are located participates in the Emergency Program of the NFIP, the flood insurance coverage on the insurable improvements must at least equal the lowest of the following:

- The UPB of the Mortgage
- The maximum amount of coverage currently sold under the Emergency Program of the NFIP for the type of improvements insured
- The replacement cost of the insurable improvements

The Seller/Servicer must ensure that the Borrower increases flood insurance coverage on the insurable improvements when the community moves into the Regular Program of the NFIP as described below.

If the community where the Mortgaged Premises are located participates in the Regular Program of the NFIP, the flood insurance coverage on the insurable improvements must at least equal the lowest of the following:

- The UPB of the Mortgage
- The maximum amount of coverage currently sold under the Regular Program of the NFIP for the type of improvements insured
- The replacement cost of the insurable improvements

The deductible may not exceed the maximum deductible amount currently allowed under the NFIP for the type of improvements insured.

For 1- to 4-unit properties, the Seller/Servicer may waive the flood insurance requirements for structures on the Mortgaged Premises that are detached from the primary residential structure and do not serve as a residence.

(ii) PUD or ground lease community units

Flood insurance requirements for 1- to 4-unit properties apply to similar residential properties within a PUD or ground lease community.

(iii) Condominium Units

Flood insurance requirements for 1- to 4-unit properties apply to similar residential properties in a 2- to 4-Unit Condominium Project or Detached Condominium Project.

If the Condominium Unit securing a Mortgage sold to or serviced for Freddie Mac is in a building in a Condominium Project other than a 2- to 4-Unit Condominium Project or Detached Condominium Project and all or part of the building is in an SFHA, the following flood insurance coverage, as applicable, is required:

A. Condominium owners association's coverage

The condominium owners association must maintain building coverage on the building for the lower of (i) 80% of the building's replacement cost or (ii) \$250,000 multiplied by the number of residential units in the building.

The condominium owners association must maintain contents coverage on the building for the lower of (i) the actual cash value of the contents in the building that are owned in common by the association members or (ii) the maximum amount of contents coverage sold by the NFIP for a condominium building.

The deductible of the condominium owners association's coverage may not exceed the maximum deductible amount currently allowed under the NFIP for condominium association building coverage. The deductible for association building contents may not exceed the maximum deductible amount currently allowed under the NFIP for association building contents.

B. Unit owner's coverage

To the extent the condominium owners association's building coverage meets the minimum requirements above, but the Condominium Unit allocation does not meet the 1- to 4-unit coverage requirement, the Borrower must maintain supplemental coverage on the Condominium Unit. The coverage must be at least equal to the difference between the condominium associations' building coverage allocated to that Condominium Unit and the amount required on a 1- to 4-unit property.

The deductible may not exceed the maximum deductible allowed for a 1- to 4-unit property.

(iv) Cooperative Corporations

The Cooperative Corporation must maintain flood insurance on each building that is located in an SFHA.

The building coverage must be the lower of (i) 100% of the building's replacement cost, or (ii) the maximum amount of building coverage sold by the NFIP.

The contents coverage must be the lower of (i) 100% of the insurable replacement cost of all contents owned by the Cooperative Corporation, or (ii) the maximum amount of contents coverage sold by the NFIP.

The deductible of the Cooperative Corporation coverage may not exceed the maximum deductible amount currently allowed under NFIP for building coverage. The deductible for Cooperative Corporation building contents may not exceed the maximum deductible amount currently allowed under the NFIP for contents coverage.

A blanket policy of flood insurance covering more than one building or structure in the Cooperative Project is acceptable if each building or structure covered by the blanket policy is insured for at least the individual building and contents limits stated above.

4703.4: Liability insurance for Condominium Projects and Cooperative Projects (06/10/20)

Effective June 10, 2020, the content of this section has moved from Section 8202.5.

Liability insurance is required for all Condominium Projects and Cooperative Projects, except the following:

- Condominium Projects reviewed under the streamlined project review type in Section 5701.4
- Condominium Projects and Condominium Unit Mortgages that meet the requirements in Section 5701.7 and are delivered as Exempt From Review
- Cooperative Share Loans that meet the requirements in Section 5701.7 and are delivered as Exempt From Review
- Freddie Mac Enhanced Relief Refinance® Mortgages

The condominium homeowners association or Cooperative Corporation must maintain commercial general liability (CGL) insurance covering all common areas, Common Elements, commercial spaces and public ways in the Condominium Project or Cooperative Project.

If not already included in the terms of the CGL coverage, there must be a “severability of interest” endorsement precluding the insurer’s denial of a unit owner’s claim because of negligent acts by the association, corporation or other unit owners.

The insurer’s limit of liability per occurrence for personal injury, bodily injury or property damage under the terms of the above coverages must be at least \$1 million and the coverage must provide for claim settlements on an occurrence basis.

4703.5: Fidelity or employee dishonesty insurance for Condominium Project and Cooperative Projects (06/10/20)

Effective June 10, 2020, the content of this section has moved from Section 8202.6.

Fidelity or employee dishonesty insurance is required for Condominium Projects and Cooperative Projects, except the following:

- Condominium Projects reviewed under the streamlined project review type in Section 5701.4
- Condominium Projects and Condominium Unit Mortgages that meet the requirements in Section 5701.7 and are delivered as Exempt From Review
- Cooperative Share Loans that meet the requirements in Section 5705.7 and are delivered as Exempt From Review
- Freddie Mac Enhanced Relief Refinance® Mortgages
- Condominium or Cooperative Projects consisting of 20 units or less
- Condominium or Cooperative Projects where the calculated amount of required coverage is less than or equal to \$5,000 (based on the coverage requirement below)

Freddie Mac requires all condominium homeowners associations or Cooperative Corporations to obtain and maintain fidelity or employee dishonesty insurance that meets the terms and conditions of coverage detailed in this section. In States that require condominium homeowners associations or Cooperative Corporations to obtain and maintain fidelity or employee dishonesty insurance on terms or conditions different from Freddie Mac's, Freddie Mac will deem compliance with the State's requirements to be in compliance with Freddie Mac's requirements.

The condominium homeowners association or Cooperative Corporation must maintain fidelity or employee dishonesty insurance covering losses resulting from dishonest or fraudulent acts committed by directors, managers, trustees, employees or volunteers who manage the funds collected and held or administered for the condominium homeowners association or Cooperative Corporation. A professional management firm must be insured to the same extent as an association or corporation that manages its own operation. The management firm must submit evidence of such coverage or must be insured under the condominium homeowners association's or Cooperative Corporation's policy.

Fidelity or employee dishonesty insurance coverage must have all of the following characteristics:

- The policy must name the condominium homeowners association or Cooperative Corporation as the insured, and premiums must be paid as a common expense by the association or corporation.
- The coverage must equal no less than the maximum amount of funds in the custody of the condominium homeowners association, Cooperative Corporation or the management firm at any one time. A lower coverage limit is acceptable if the Project Documents require the

condominium homeowners association or Cooperative Corporation and any management firm to adhere to certain financial controls. However, in such case, the coverage limit must at least equal the sum of three months of assessments or Maintenance Fees on all units in the Condominium Project or Cooperative Project.

Freddie Mac will accept reduced fidelity or employee dishonesty insurance coverage based on greater financial controls if such controls include at least one of the following provisions:

- The condominium homeowners association, Cooperative Corporation or management firm maintains separate accounts for the operating budget and the reserve fund. The depository institution in which funds are deposited sends copies of the monthly account statements directly to the association or corporation.
- Separate records and accounts are maintained for each condominium homeowners association, Cooperative Corporation or other community association using the management firm's services. The management firm does not have the authority to draw checks on or to transfer funds from the reserve fund of the condominium homeowners association or Cooperative Corporation.
- Two or more members of the board of directors must sign any checks drawn on the reserve fund

4703.6: Mortgage clause (06/10/20)

Effective June 10, 2020, the content of this section has moved from Section 8202.7.

All policies documenting insurance coverage(s) obtained in accordance with Freddie Mac's requirements for 1- to 4-unit properties must have the insurance industry's standard mortgage clause. Such clause must provide that the insurer will notify the named mortgagee at least 10 days before cancelation of the policy.

If the Mortgage is owned by Freddie Mac, "(name of Seller/Servicer), its successors and assigns" should be named as mortgagee instead of Federal Home Loan Mortgage Corporation. In deed-of-trust jurisdictions, the mortgagee should be designated as "(name of Seller/Servicer), its successors and assigns, beneficiary."

If the Federal Home Loan Mortgage Corporation must be named as mortgagee, the endorsement must show the Seller's address in lieu of Freddie Mac's, as shown in the example below:

FEDERAL HOME LOAN MORTGAGE CORPORATION
C/O ABC SAVINGS AND LOAN ASSOCIATION
100 MAIN STREET
HOMETOWN USA 12345

If the Mortgage is registered with MERS® and is originated naming MERS as the original mortgagee of record, under no circumstances may MERS be named as loss payee on any property insurance policy.

Regardless of how the mortgage clause is endorsed, or if the Mortgage is registered with MERS, the Seller/Servicer must arrange for all insurance drafts, notices, policies, invoices, etc. to be delivered directly to the Seller/Servicer. Although the MERS address appears in county land records, the address for MERS must not be given to organizations that normally direct mail to the Seller/Servicer or subservicer.

When a mortgage clause is not applicable (e.g., in a separate policy of commercial general liability), a certificate of insurance must be provided to the Seller/Servicer. This certificate must contain the information required for certificates or other evidence of insurance in Section 8202.8, with the Seller/Servicer named as certificate holder instead of mortgagee.

4703.7: Localized perils insurance (06/10/20)

Effective June 10, 2020, the content of this section has moved from Section 8202.10.

If the Seller/Servicer becomes aware of localized perils (i.e., sinkhole, mine subsidence, volcanic eruption, landslides) that are not covered by standard property insurance, then the Seller/Servicer must require the Borrower to obtain appropriate insurance coverage in accordance with the terms of the Security Instrument and applicable law.

Chapter 5101: Using Loan Product Advisor[®]

5101.1: General information for using Loan Product Advisor[®] (05/03/23)

(a) Access to and use of Loan Product Advisor[®]

Loan Product Advisor is an automated loan assessment system that indicates whether a Mortgage will be eligible for purchase by Freddie Mac, provided other conditions are met. Use of Loan Product Advisor can eliminate many of the manual processing and underwriting requirements of traditional Mortgage processing. Although Freddie Mac will continue to purchase manually processed Mortgages, Freddie Mac prefers and recommends that most Mortgages be processed through Loan Product Advisor.

Loan Product Advisor may be accessed from a commercial Loan Origination System (LOS), a custom LOS system or directly via an Internet connection. Loan Product Advisor utilizes the information obtained from:

- Data input by the originator
- Credit repositories
- HVE[®]

Loan Product Advisor uses statistical models and judgmental rules to analyze the data received and then returns a Feedback Certificate. Loan Product Advisor will return credit information and for certain Mortgages will provide HVE support for the Mortgaged Premises.

(b) Loan Product Advisor Mortgages

In order for a Mortgage to qualify as a Loan Product Advisor Mortgage, the Mortgage must meet all of the following criteria:

- Be submitted to Loan Product Advisor no more than 120 days before and no later than the Note Date, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing or, for Seller-Owned Modified Mortgages that are Home Possible[®] Mortgages, the modification date
- Have all credit reports (including the Loan Product Advisor credit reports) dated no more than 120 days before and no later than on the Note Date, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing

- Receive an automated underwriting service (AUS) status of “complete” on the Feedback Certificate based on the last submission to Loan Product Advisor on or before the Note Date, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing
- Comply with all of the requirements of this Chapter 5101

Mortgages that are submitted to Loan Product Advisor and receive a status of ineligible, invalid or incomplete must be manually underwritten as Non-Loan Product Advisor Mortgages.

For each Mortgage submitted, or to be submitted, to Loan Product Advisor, the Seller must consider each application without regard to the Borrower’s race, color, religion, national origin, age, sex, marital status, familial status or handicap.

(c) Last Feedback Certificate

The Last Feedback Certificate:

- Is, except as stated in Chapter 4602 and Section 5101.6, based on true, complete and accurate data as required by the Seller’s Purchase Documents
- Is used by Freddie Mac to determine the Risk Class, Documentation Level and, Credit Fees
- Must be retained in the Mortgage file

In delivering the Mortgage to Freddie Mac, the Seller represents and warrants that the applicable Feedback Certificates are retained in the Mortgage file and meet all of the requirements of Chapter 5101. If Freddie Mac subsequently determines that the Feedback Certificates are not in the Mortgage file, any representation and warranty relief, Documentation Levels granted and/or payment or non-payment of fees are subject to change based on the actual contents of the Mortgage file.

The purchase restrictions on the Loan Product Advisor Last Feedback Certificate are not customized for a Seller’s specific Purchase Documents. Therefore, Sellers with Master Agreement terms or Guide Plus Additional Provisions may receive purchase restrictions on the Last Feedback Certificate that conflict with their negotiated terms. In such cases, the negotiated terms apply rather than any conflicting purchase restrictions.

The Last Feedback Certificate may be transferred without restriction prior to delivery of the Mortgage to Freddie Mac. However, the Last Feedback Certificate and the conditions indicated on it are effective only with respect to Freddie Mac and only when the Mortgage is delivered to Freddie Mac by a Freddie Mac Seller in compliance with the Seller’s Purchase Documents. (An example of a Feedback Certificate is included in the ***Loan Product Advisor User Guide***.)

(d) Key Number

The Key Number is a unique identifier assigned to a Mortgage by Loan Product Advisor when the Mortgage is first submitted to Loan Product Advisor. The Key Number is returned to the Seller on the Feedback Certificate and is used by the Seller and Freddie Mac to identify an individual Mortgage (e.g., a purchase, a refinance, etc.) from application through closing and delivery.

A Key Number is valid for use with only one Mortgage. Once that Mortgage has been closed, regardless of whether the Mortgage is sold to Freddie Mac, the Key Number may be used only in delivering that Mortgage to Freddie Mac or for the Seller's quality control process. The Key Number from a previously closed Mortgage may not be re-used to process or originate another Mortgage. Additionally, if the Borrower has more than one Mortgage in process, each loan must have a separate application and a different Key Number.

The Seller may resubmit the Mortgage to Loan Product Advisor using the original Key Number, provided Freddie Mac has not removed the Key Number from Loan Product Advisor.

For each Loan Product Advisor Mortgage delivered to Freddie Mac, the Seller must deliver the Key Number in the ULDD Data Point *Automated Underwriting Case Identifier*. A Mortgage delivered without a Key Number will be considered a Non-Loan Product Advisor Mortgage.

The Seller is not required to deliver the Key Number on the following Mortgages, as they are considered Non-Loan Product Advisor Mortgages:

- Mortgages, other than Mortgages secured by Manufactured Homes, submitted to Loan Product Advisor on or before the Note Date, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing, that received an AUS status of invalid, ineligible or incomplete; the Seller must deliver the Key Number for Mortgages secured by Manufactured Homes that received an AUS status of invalid, ineligible or incomplete
- Mortgages submitted to Loan Product Advisor for the first time after the Note Date
- Mortgages delivered as Seller-Owned Converted Mortgages or Seller-Owned Modified Mortgages that are not Home Possible Accept Mortgages

(e) Invalid, ineligible or incomplete status

Loan Product Advisor may return an assessment status of invalid, ineligible or incomplete. If resubmission with new and/or corrected information does not correct the status, the Mortgage cannot be processed through Loan Product Advisor. The Mortgage must be manually underwritten and delivered as a Non-Loan Product Advisor Mortgage.

(f) Number of Borrowers

Loan Product Advisor cannot assess more than five Borrowers on a single application. When there are more than five Borrowers the Seller must manually underwrite the Mortgage.

(g) Compliance with Loan Product Advisor requirements

If the Mortgage and/or the Seller fail to comply with all Loan Product Advisor requirements, including, except as stated in Chapter 4602 and Section 5101.6, submission of true, complete and accurate data to Loan Product Advisor, the benefits and terms associated with the Loan Product Advisor Mortgage may not apply and the Mortgage may be subject to the terms and requirements for a Non-Loan Product Advisor and/or a Manually Underwritten Mortgage.

(h) Required and optional data fields

Loan Product Advisor requires submission of specific data elements in order to process the information and return a complete result with a Risk Class and Documentation Level. Complete details of the required and optional data fields as well as the data field specifications can be found in the [**Loan Product Advisor User Guide**](#).

5101.2: Accuracy of data submitted to Loan Product Advisor® (07/11/16)

Because Loan Product Advisor® is an automated system, it relies heavily on information from other sources. Consequently, accurate data and accurate data entry are critical. The Seller is responsible for the accuracy and completeness of the data it submits to Loan Product Advisor. The Seller must ensure that the identifying information for any Borrower and property (name, current and previous address and social security number and property address) are true, complete and accurate and that they are properly input into Loan Product Advisor on or before the Note Date. Except as stated in Chapter 4602 and Section 5101.6, all data that was submitted to Loan Product Advisor for the Last Feedback Certificate must be true, complete and accurate, as required by the Purchase Documents.

5101.3: Loan Product Advisor® Risk Class (05/01/23)

The Risk Class on the Last Feedback Certificate establishes the extent of underwriting required. Based on its analysis of the data, Loan Product Advisor® will return a Risk Class of:

- Accept, or
- Caution

(a) Accept Mortgage

An Accept Mortgage is a Loan Product Advisor Mortgage that receives a Risk Class of Accept. An Accept Risk Class confirms that Loan Product Advisor has determined that the Borrower's creditworthiness is acceptable, provided that the requirements in Topics 5100 through 5500 applicable to Accept Mortgages are met.

(b) Caution Mortgage

A Caution Mortgage is a Loan Product Advisor Mortgage that receives a Risk Class of Caution.

For a Caution Mortgage, the Caution Risk Class indicates that the Mortgage is unlikely to comply with Freddie Mac's eligibility and underwriting requirements because there is a strong indication of excessive layering of risk as described in Section 5102.2. A Caution Mortgage must be:

- Manually underwritten as a Caution Mortgage in accordance with Topics 5100 through 5500, including Section 5102.2(b), and
- Delivered as a Caution Mortgage with the Key Number in accordance with Section 6302.10

5101.4: Documentation requirements when using Loan Product Advisor® (01/01/22)

The Documentation Level shown on the Last Feedback Certificate indicates the minimum level of documentation that Freddie Mac will accept for the Mortgage.

Streamlined Accept Documentation

A Streamlined Accept Documentation Mortgage requires significantly less documentation than a Standard Documentation Mortgage.

Standard Documentation

Standard Documentation is required for higher-risk Accept Mortgages, Caution Mortgages and all Non-Loan Product Advisor Mortgages. This is the most comprehensive level of documentation.

Specific feedback messages will describe the type of documentation needed for employment, income and asset verification based on the data input into Loan Product Advisor®. The specific feedback messages are for guidance purposes only. For complete details regarding employment and income documentation requirements using Streamlined Accept and Standard Documentation

Levels, see Chapters 5303 through 5307. For complete details regarding asset documentation requirements using Streamlined Accept and Standard Documentation Levels, see Section 5501.3.

The Seller is responsible for documenting information in the Mortgage file and, except as stated in Chapter 4602 and Section 5101.6, must make sure that the information submitted to Loan Product Advisor matches what is documented in the Mortgage file.

The Seller must have processes in place to ensure that the requirements on the Feedback Certificate and other applicable requirements of the Guide and the Seller's other Purchase Documents are met. If the Mortgage delivered to Freddie Mac does not comply with the requirements of the Last Feedback Certificate, the Guide or the Seller's other Purchase Documents, Freddie Mac may require additional documentation.

5101.5: Property and appraisal feedback messages (10/07/20)

The Feedback Certificate will advise the Seller of the minimum type of appraisal report required.

5101.6: Resubmission requirements/Loan Product Advisor® tolerances (06/21/21)

A Mortgage may be resubmitted to Loan Product Advisor® however, the Risk and/or Documentation Classes might change. Loan Product Advisor minimizes the number of times that the Documentation Class will change, even if the Risk Class changes.

(a) Resubmission required

The Risk Class and Documentation Level on the Last Feedback Certificate must be based on submission of accurate data to Loan Product Advisor. Except as indicated in this section and Chapter 4602, resubmission of a Mortgage to Loan Product Advisor prior to the Delivery Date is required if:

- Information on the previous submission was not true, complete or accurate
- The most recent submission on or before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages (including the date of the Loan Product Advisor credit report(s)) exceeds the date requirements in Section 5203.1(i); resubmission must occur on or before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages
- Any information submitted to Loan Product Advisor changes, except as indicated below

If resubmission of a Mortgage to Loan Product Advisor is after the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, refer to the additional requirements in Section 5101.7.

(b) Resubmission not required

A change from the previous submission involving the following does not require resubmission:

(i) Debts/income:

- The monthly debt payment (including monthly housing expense (see Section 5401.1) decreases
- The income for any Borrower increases; however, for Home Possible® Mortgages, resubmission is required if the income used to qualify the Borrower increases
- The income for any Borrower decreases and/or the monthly debt payment (including monthly housing expense) increases, and
 - The total new debt payment-to-income ratio does not exceed 45%, and
 - The total difference does not change the total debt payment-to-income ratio by more than three percentage points

(ii) Assets/reserves:

- The amount of verified assets increases
- The amount of verified reserves increases
- The amount of verified reserves decreases to an amount that is no less than the reserves required to be verified on the Feedback Certificate

(iii) Loan amount changes on refinance transactions:

(A) Loan amount decreases

- The loan amount decreases by no more than 5% on a refinance transaction and at the time of the most recent Loan Product Advisor submission mortgage insurance is not required on the Mortgage, OR
- The loan amount decreases by no more than 5% on a refinance transaction and at the time of the most recent Loan Product Advisor submission mortgage insurance on the Mortgage is required, and

- The change does not impact the amount of the mortgage insurance coverage, and
- The amount of the mortgage insurance premium collected by the Seller is based on the new loan amount and the Seller obtains a new mortgage insurance certificate

AND

- For Mortgages that qualify for an appraisal waiver, the Seller has not accepted the appraisal waiver offer

(B) Loan amount increase

- On a refinance transaction, the loan amount increases by no more than \$500 or up to 1% of the loan amount, whichever is less and based on the new loan amount mortgage insurance is not required on the Mortgage, OR
- On a refinance transaction, the loan amount increases by no more than \$500 or up to 1% of the loan amount, whichever is less and based on the new loan amount mortgage insurance on the Mortgage is required, and
 - The change does not impact the amount of the mortgage insurance coverage, and
 - The amount of the mortgage insurance premium collected by the Seller is based on the new loan amount and the Seller obtains a new mortgage insurance certificate

AND

- For Mortgages that qualify for an appraisal waiver, the Seller has not accepted the appraisal waiver offer
- The increase in the monthly debt payment results in a debt payment-to-income ratio that meets the requirements in Section 5101.6(b)(i) above, *Debts/income*

Refer to Section 4602.8(b) for Loan Product Advisor resubmission requirements for Construction Conversion and Renovation Mortgages.

Any other changes in the information submitted to Loan Product Advisor require resubmission.

(iv) Interest rate reduction

- Seller-Owned Modified Mortgages that are Home Possible Mortgages modified for the purpose of a reduction in interest rate of the First Lien Mortgage (see Section 4402.4(c))

5101.7: Resubmission to Loan Product Advisor® after the Note Date (06/21/21)

If the Seller determines after the Note Date, the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages or the modification date for Seller-Owned Modified Mortgages that are Home Possible® Mortgages that the information entered into Loan Product Advisor® was not true, complete, and accurate and does not match the terms of the Mortgage to be delivered to Freddie Mac, except as otherwise permitted in Section 5101.6 and unless otherwise prohibited below, the Mortgage must be resubmitted to Loan Product Advisor after the Note Date or the Effective Date of Permanent Financing, as applicable, but prior to the Delivery Date.

The Seller must select “Post Closing Quality Control” as the Loan Processing Stage.

A Mortgage cannot be resubmitted to Loan Product Advisor after the Note Date or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages if:

- Resubmission is more than 120 days after the Loan Product Advisor Assessment Expiration Date displayed on the Feedback Certificate in effect as of the Note Date; or
- A Borrower is being added or deleted, or a change is being made to a Borrower’s last name or Social Security Number; or
- A new credit report company needs to be selected; or
- The single or joint merged credit report indicator changes; or
- The order of Borrowers changes on a joint merged credit request; or
- The merged credit report number does not match the merged credit report number from the most recent complete transaction

If the Mortgage cannot be resubmitted to Loan Product Advisor after the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, the Mortgage must be manually underwritten and is considered a Non-Loan Product Advisor Mortgage.

5101.8: Representation and warranty relief for creditworthiness (05/03/23)

Representation and warranty relief for Borrower creditworthiness (see Sections 5102.1, 5102.2, 5401.1 and 5401.2 and Chapter 5201) granted to the Seller are valid for the life of the Mortgage, provided all of the following conditions are met:

- The Last Feedback Certificate returned a Risk Class of Accept
- The Mortgage and the Seller comply with all requirements of the Purchase Documents including, but not limited to, Section 4201.13 and Chapter 5101
- The Last Feedback Certificate complies with Chapter 5101
- The Last Feedback Certificate matches the terms of the transaction delivered to Freddie Mac and, except as stated in Section 5101.7 and Chapter 4602, information entered into Loan Product Advisor® was true, complete and accurate
- The Mortgage was not sold to Freddie Mac as a Seller-Owned Modified Mortgage, unless the Seller-Owned Modified Mortgage is a Home Possible® Accept Mortgage, or a Seller-Owned Converted Mortgage
- The property address returned on the Last Feedback Certificate is the address of the Mortgaged Premises
- The Mortgage met all applicable manual eligibility requirements found in the Seller's Purchase Documents and the Last Feedback Certificate
- The Mortgage was not originated based on fraudulent and/or misrepresented information and/or documentation

Representation and warranty relief is terminated if Freddie Mac determines that:

- The Mortgage was ineligible to have been submitted to Loan Product Advisor and is a Non-Loan Product Advisor Mortgage, or
- The Mortgage is not an Accept Mortgage, or
- All requirements in Chapter 5101 were not met

5101.9: A-minus Mortgages (01/01/22)

Effective January 1, 2022, Section 5101.9 is deleted.

Chapter 5102: Underwriting a Mortgage for Sale to Freddie Mac

5102.1: Underwriting a Mortgage (03/31/22)

(a) Three “Cs” of underwriting

Freddie Mac purchases Mortgages that meet standards and requirements included in the Guide. Freddie Mac requirements establish the information that must be analyzed and documented in the Mortgage file and, when applicable, warranted by the Seller for each Mortgage sold to Freddie Mac. The conclusion that a Mortgage is acceptable must be based on a determination that the Borrower is creditworthy (acceptable credit reputation and capacity) and the Mortgaged Premises (collateral) is adequate for the transaction. Credit reputation, capacity and collateral are often called the “three Cs” of underwriting. If one of these components is not acceptable or if there is excessive layering of risk across components, the Mortgage is not acceptable for sale to Freddie Mac.

Topics 5100 through 5500 include Freddie Mac’s requirements for determining that the Borrower has acceptable credit reputation and capacity. These topics also cover layering of risk within the three components and how to determine excessive layering of risk.

In addition, other specific requirements related to Borrower credit reputation and Borrower capacity for special Mortgage products, offerings and special features are provided in the following locations:

Subject	Location
Second home Mortgages	Section 4201.15(b)
Investment Property Mortgages	Section 4201.16(a)
Secondary financing	Section 4204.1(b)
Temporary subsidy buydown plans	Sections 4204.4(b) and 4204.4(c)
Cash-out refinance Mortgages	Section 4301.5
ARMs	Section 4401.8(b)

Subject	Location
Seller-Owned Converted and Seller-Owned Modified Mortgages	Sections 4402.1(b) and 4402.4(c)
Home Possible® Mortgages	Sections 4501.8 and 4501.9
Section 502 GRH Mortgages, Home Possible Mortgages with RHS Leveraged Seconds, Section 184 Native American Mortgages	Sections 4205.1(d), 4205.2(d) and 4205.3(c)
Underwriting Financed Permanent Buydown Mortgages	Section 4601.2
Construction Conversion and Renovation Mortgages	Section 4602.8
Super conforming Mortgages	Chapter 4603
Unsecured loans	Sections 4501.10(c) and 5501.4(b)
Manufactured Homes	Sections 5703.3(a), 5703.5(a) and 5703.5(e)

See Topic 5600 for requirements regarding collateral.

(b) Underwriting information

All information used to evaluate the creditworthiness of the Borrower must be supported by documentation in the Mortgage file and must be obtained before, as applicable, the Note Date, or:

- For Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing
- The modification date for Seller-Owned Modified Mortgages
- The Conversion Date for Seller-Owned Converted Mortgages

- The date of the applicable assumption agreement

(c) Number of Borrowers

Freddie Mac does not limit the number of Borrowers on the Mortgage or require that they be related. When multiple Borrowers are involved, the overall creditworthiness of each Borrower and all Borrowers collectively must be evaluated. The presence of more than one Borrower on the Mortgage helps to reduce risk.

5102.2: Methods of underwriting (01/01/22)

Borrower creditworthiness is established and excessive layering of risk is identified by one of the following methods:

(a) Submitting the Mortgage to Loan Product Advisor®

In many cases, the most effective way to assess Borrower creditworthiness and identify excessive layering of risk is to submit the Mortgage to Loan Product Advisor. Loan Product Advisor performs an overall assessment of the credit risks in the Mortgage file based on the information provided by the Seller and credit repositories and returns a Risk Class of either Accept or Caution on the Feedback Certificate.

See Chapter 5101 for additional details regarding Loan Product Advisor Mortgages.

(i) Borrower creditworthiness

A Seller is relieved of the requirements to represent and warrant that the Borrower is creditworthy if the requirements in Section 5101.8 are met.

(ii) Layering of risk

For all Accept Mortgages, Loan Product Advisor has determined that the layering of risk is acceptable. The Seller does not have to make this determination.

For all Caution Mortgages, the Seller must manually underwrite the Mortgages in accordance with Section 5102.2(b). For such Mortgages, there is a strong indication that the layering of risk is excessive and that acceptability and compliance with Freddie Mac requirements is unlikely.

(b) Manually underwriting the Mortgage

Mortgages for which the Seller evaluates the Mortgage data and makes the final determination regarding Borrower creditworthiness and excessive layering of risk are referred to as “Manually Underwritten Mortgages.” Manual underwriting is required for Loan Product Advisor Mortgages that received a Risk Class of Caution and the following Non-Loan Product Advisor Mortgages:

- Mortgages that were never submitted to Loan Product Advisor
- Mortgages that were submitted to Loan Product Advisor and received an assessment status of invalid, ineligible or incomplete

For Manually Underwritten Mortgages, the Seller's conclusion that Borrower credit reputation and capacity are acceptable must be based on the documentation included in the Mortgage file and described on Form 1077, Uniform Underwriting and Transmittal Summary, or another document in the Mortgage file.

(i) Borrower creditworthiness

For Manually Underwritten Mortgages, the Seller must manually underwrite Borrower creditworthiness as required in Topics 5100 through 5500, in order to determine that the Borrower is creditworthy. The Seller must confirm that the Borrower has the minimum Indicator Score, if applicable, as indicated in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

Another part of determining the Borrower's creditworthiness is evaluating the Borrower's capacity to repay the Mortgage and other monthly obligations.

The Seller must determine capacity by analyzing file documentation of the following factors:

- Stable monthly income
- Monthly housing expense-to-income and monthly debt payment-to-income ratios
- Reserves and other liquid assets
- Information about how the Borrower has paid obligations in the past

The following characteristics specific to the Mortgage request may introduce an additional layer of risk that must be considered in evaluating capacity:

- The payoff of a junior lien from the proceeds of a refinance Mortgage
- A cash-out refinance Mortgage
- A Borrower with low reserves or no reserves

Based on its analysis, the Seller must provide a written, well-reasoned conclusion that the Borrower has the ability to meet current obligations, including the new Mortgage.

When multiple risk factors are present, more conservative underwriting must be undertaken to assess whether the Mortgage is acceptable. The Seller must document in the Mortgage file all offsetting factors and an overall conclusion that the Borrower has the ability to meet current obligations, including the new Mortgage.

For Non-Loan Product Advisor Mortgages, the Seller must presume the Borrower's capacity to repay is not acceptable when the following conditions exist:

- The transaction is a cash-out refinance, and
- The monthly debt payment-to-income ratio exceeds 42%, and
- Any Borrower has an Underwriting Score less than 700, and
- The total loan-to-value (TLTV) ratio is greater than 75%

A Borrower who increases debt and then periodically uses refinance or debt consolidation to reduce payments to a manageable level presents a higher degree of risk. The Seller should consider the Borrower's short- term and long- term ability to repay the Mortgage.

Freddie Mac requires that the Seller use objective criteria to evaluate the Borrower's creditworthiness and apply underwriting requirements and guidelines consistently to each Borrower, regardless of race, color, religion, national origin, age, sex, marital status, familial status or handicap. (See also Section 1301.2 for equal opportunity compliance requirements.)

When properly applied, Freddie Mac's underwriting requirements and guidelines will result in an evaluation of the Borrower's overall creditworthiness rather than an evaluation that focuses on minor exceptions to specific policies.

(ii) Layering of risk

For all Manually Underwritten Mortgages, the Seller is responsible for determining that the Mortgage is acceptable for sale to Freddie Mac by performing a detailed risk assessment. Multiple characteristics that increase risk without sufficient offsetting factors are likely to result in excessive risk layering. An offsetting factor does not need to be established for each risk factor if the overall risk is balanced.

The Seller's conclusion that a Mortgage has acceptable layering of risk must be documented in the file and at a minimum include:

- The identified risk factors
- The identified offsetting factors
- Documentation of the offsetting factors
- A written conclusion that the Mortgage does not exhibit excessive layering of risks

The Seller must determine that each component (credit reputation, capacity and collateral) is acceptable and that the overall layering of risk is acceptable. A conclusion that the Mortgage is acceptable cannot be reached by looking only at a single underwriting component or by placing the most weight on a single component, but may result from balancing the weakness of one component against the strength of the other

two components. For example, a Borrower with weak capacity may be found to be acceptable because of strong collateral and credit reputation, but a Borrower with weak capacity and weak credit reputation is not acceptable because only collateral is strong.

Even when each of the three components is acceptable, layered risk may make a Mortgage unacceptable. Characteristics specific to the Mortgage request, such as the type of Mortgage product, the purpose of the Mortgage and the property type securing the Mortgage, add layers of risk that must be considered. For instance:

- An ARM adds an additional layer of capacity risk to a Mortgage request that would not be present in a fixed-rate Mortgage
- A cash-out refinance Mortgage adds an additional layer of capacity risk to a Mortgage request that would not be present in a “no cash-out” refinance Mortgage
- A Mortgage secured by a 2- to 4-unit property or a Condominium Unit adds a layer of collateral risk that would not be present in a Mortgage secured by a 1-unit detached dwelling

Whenever there is evidence of layered risk, more conservative underwriting must be undertaken to assess whether the Mortgage is acceptable for sale to Freddie Mac.

The following chart gives examples of loan characteristics that increase risk in a Mortgage. This list does not identify all possible risk factors or combinations of risks in a Mortgage file; nor is it intended to imply that an individual characteristic is unacceptable. But the chart does illustrate how layering of risk can be assessed. Read vertically, the chart shows how risk may be layered within a component; read horizontally, it shows how risk may be layered across components.

Credit Reputation	Capacity	Collateral
Adverse or derogatory credit information	A housing payment-to-income ratio in excess of guidelines	Low equity/Down Payment
High balances-to-limits	A debt payment-to-income ratio in excess of guidelines	Maximum financing
High overall utilization of revolving credit	A debt payment-to-income ratio in excess of guidelines	Cooperative Interest
Credit history of short duration	Cash-out refinance	2- to 4-unit property

Credit Reputation	Capacity	Collateral
A significant change in the Borrower's credit history	No reserves	Manufactured Home
Several inquiries	ARM	Condominium Unit

The Seller must determine that each component and the layering of risk across components are acceptable and document that conclusion in the Mortgage file.

(iii) Additional requirements for Caution Mortgages

For all Caution Mortgages, the Seller must manually underwrite the Mortgages and assess the Borrower's capacity to repay in accordance with Topics 5100 through 5500. For such Mortgages, there is a strong indication that the layering of risk is excessive and that acceptability and compliance with Freddie Mac requirements is unlikely.

When the Borrower has derogatory credit information on the credit report and at least two Feedback Messages are related to nonpayment of obligations, the Seller must presume the derogatory information is significant. The Seller must document the extenuating circumstances or conclude that the difficulties were due to financial mismanagement. See Section 5202.5 for more information about adverse or derogatory credit information.

What constitutes an acceptable credit reputation for Freddie Mac may vary according to the Mortgage product or type. The Seller may also be able to conclude that a Mortgage receiving a Caution Risk Class from Loan Product Advisor due to significant derogatory information has an acceptable credit reputation by documenting that the derogatory credit was attributable to extenuating circumstances. The requirements for establishing and documenting extenuating circumstances are set forth in Section 5202.5(a).

The Seller must analyze all risk factors present in the Mortgage file, including those identified in the Feedback Certificate, and document in the Mortgage file offsetting factors satisfactory to ensure that the Mortgage is acceptable. The offsets used must provide information not considered by Loan Product Advisor.

The Seller may not use information already considered by Loan Product Advisor to determine that the capacity is acceptable when the Feedback Certificate contains credit risk comments related to capacity. Factors not considered by Loan Product Advisor, such as the existence of verified income that is not included in the submission or energy savings from an energy-efficient property (see Section 5401.1), may be used by the Seller in making a case that capacity is acceptable.

The Seller cannot use the following factors as a basis for concluding that excessive layering of risk is not present because Loan Product Advisor has already considered them:

- TLTV or LTV ratio below the maximum allowable financing
- Qualifying monthly housing expense-to-income ratio or monthly debt payment-to-income ratio below Freddie Mac's guidelines
- The level of reserves
- The type of Mortgage product
- The type of property securing the Mortgage
- FICO® score, or
- Any combination of these factors

The Seller must presume the Borrower's capacity to repay is not acceptable when the Caution Mortgage is a cash-out refinance transaction and at least one credit risk comment related to the monthly debt payment-to-income ratio is returned on the Feedback Certificate.

5102.3: General requirements for verifying documents (08/29/18)

This section and Sections 5102.4, 5202.2(b) and 5501.3 and Chapters 5302 through 5307 describe the requirements for verifications.

(a) Written verifications

Written verifications must meet all of the following requirements:

- Standard verification forms, such as the original verification of employment (VOE), verification of deposit (VOD), direct verification of Tradelines and Noncredit Payment References, including Mortgage payment history and verification of rental payments must be sent directly from the originator to the Borrower's employer, depository, creditor or landlord and, upon completion, returned directly from that entity to the originator
- Facsimile verification forms are acceptable if it is clear from the document that the information was sent by facsimile transmission directly from the source to the originator and are considered to be originals
- The original documents must not contain any alterations, erasures, correction fluid or correction tape

- The Seller's Mortgage file contains legible copies of the originals
- The copies must have been made by the originator or the applicant directly from the originals. Copies provided by any other source, such as the agent or builder, are not acceptable.

An electronic verification is a computer-generated document, accessed and printed from an Intranet or Internet, that may be used to verify information such as the Borrower's employment, income or funds on deposit. This includes on-line bank statements, investment account statements, employment and/or income statements. The Borrower may provide the verification directly, or the originator may obtain it directly from the employer, depository or other institution.

The Borrower may provide verification of income, employment and assets in the form of a photocopy (including a picture of a document), facsimile or electronic verification. If the Borrower has provided electronic verifications, photocopies or facsimiles of other verifications, where the originator did not view and copy the original documents directly, the Seller is strongly encouraged to reverify the information through the quality control process.

(b) Documents of foreign origin

All documents of foreign origin must be filled out in English or the originator must provide a translation, attached to each document, and warrant that the translation is complete and accurate. All foreign currency amounts must be converted to U.S. dollars. See Section 5501.3 for requirements when the source of funds needed for closing costs is, or otherwise originates from, asset(s) located outside the United States and its territories.

(c) Quality control reverification

As part of quality control review, Freddie Mac may require, in its discretion, that the Seller reverify the information contained in any Mortgage file submitted to Freddie Mac. Freddie Mac reserves the right to independently reverify the information contained in any Mortgage file.

5102.3: General requirements for verifying documents (Future effective date 08/01/23)

This section and Sections 5102.4, 5202.2(b) and 5501.3 and Chapters 5302 through 5307 describe the requirements for verifications.

(a) Written verifications

Written verifications must meet all of the following requirements:

- Standard verification forms, such as the original verification of employment (VOE), verification of deposit (VOD), direct verification of Tradelines and Noncredit Payment References, including Mortgage payment history and verification of rental payments must be sent directly from the originator to the Borrower's employer, depository, creditor or landlord and, upon completion, returned directly from that entity to the originator
- Facsimile verification forms are acceptable if it is clear from the document that the information was sent by facsimile transmission directly from the source to the originator and are considered to be originals
- The original documents must not contain any alterations, erasures, correction fluid or correction tape
- The Seller's Mortgage file contains legible copies of the originals
- The copies must have been made by the originator or the applicant directly from the originals. Copies provided by any other source, such as the agent or builder, are not acceptable.

An electronic verification is a computer-generated document, accessed and printed from an Intranet or Internet, that may be used to verify information such as the Borrower's employment, income or funds on deposit. This includes on-line bank statements, investment account statements, employment and/or income statements. The Borrower may provide the verification directly, or the originator may obtain it directly from the employer, depository or other institution.

The Borrower may provide verification of income, employment and assets in the form of a photocopy (including a picture of a document), facsimile or electronic verification. If the Borrower has provided electronic verifications, photocopies or facsimiles of other verifications, where the originator did not view and copy the original documents directly, the Seller is strongly encouraged to reverify the information through the quality control process.

(b) Documents of foreign origin and documents in a foreign language

All documents in the Mortgage file must be in English or translated into English in accordance with the requirements in Section 1201.9.

All foreign currency amounts must be converted to U.S. dollars. See Section 5501.3 for requirements when the source of funds needed for closing costs is, or otherwise originates from, asset(s) located outside the United States and its territories.

(c) Quality control reverification

As part of quality control review, Freddie Mac may require, in its discretion, that the Seller reverify the information contained in any Mortgage file submitted to Freddie Mac. Freddie

Mac reserves the right to independently reverify the information contained in any Mortgage file.

5102.4: Age of documentation (06/01/22)

Verifications of employment, income, current receipt of income, source of funds and payment history must be dated no more than 120 days before, as applicable the Note Date, the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages or the applicable assumption agreement date, and must be used in evaluating the creditworthiness of the Borrower. Any information verified more than 120 days before, as applicable, the Note Date, the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages or any applicable assumption agreement date, must be reverified. Verifications made after the Note Date, the Effective Date of Permanent Financing or applicable assumption agreement date do not satisfy the requirements of this section. See Chapter 4402 for the requirements for Seller-Owned Modified and Seller-Owned Converted Mortgages.

Refer to Section 5302.2(a) for additional requirements for year-to-date paystubs.

Refer to Section 5302.4(b) for age of tax return requirements.

For Mortgages using automated income assessment with Loan Product Advisor® using tax return data, see Section 5903.6 for age of tax return requirements.

In addition, no more than 10 Business Days prior to the Note Date, the Seller must confirm the Borrower's employment by obtaining a 10-day pre-closing verification of employment in accordance with the requirements of Section 5302.2.

For Mortgages using automated employment assessment with Loan Product Advisor using account data, see Section 5905.3 for verification report requirements.

For a self-employed Borrower, the Seller must obtain a verification of the current existence of the Borrower's business no more than 120 calendar days prior to the Note Date in accordance with the requirements of Section 5304.1(g).

Alternatively, the Seller may obtain the verification of employment or the existence of business, as applicable, after the Note Date but prior to the Delivery Date. See Chapters 5302, 5303 and 5304 for additional information regarding 10-day pre-closing verifications of employment and applicable documentation requirements.

Chapter 5103: Special Borrower Eligibility

5103.1 Mortgages including a non-occupying Borrower (07/03/23)

When a Mortgage includes a non-occupying Borrower, the following apply:

- For Accept Mortgages:
 - The loan-to-value (LTV) ratio must not exceed 95%
 - The Seller is not required to calculate or evaluate the occupant Borrower's monthly housing expense-to-income ratio or the occupant Borrower's monthly debt payment-to-income ratio
- For Manually Underwritten Mortgages:
 - The LTV ratio must not exceed 90%
 - The occupant Borrower's monthly housing expense-to-income ratio should not exceed 35% of the occupant Borrower's stable monthly income and the occupant Borrower's monthly debt payment-to-income ratio must not exceed 43% of the occupant Borrower's stable monthly income
- For Accept Mortgages and Manually Underwritten Mortgages:
 - The non-occupying Borrower must not be an interested party to the transaction (for example, the builder, property seller, real estate agent or broker)
 - The funds used to qualify for the Mortgage may come from the occupant and/or the non-occupant Borrower

See Section 4302.5 for special requirements for Refi Possible® Mortgages that include a non-occupying Borrower.

See Section 4501.7 for special requirements for Home Possible Mortgages® that include a non-occupying Borrower.

See Section 5103.3 for special requirements when a non-occupying Borrower is an endorser, guarantor or surety.

5103.1 Mortgages including a non-occupying Borrower (Future effective date 10/02/23)

When a Mortgage includes a non-occupying Borrower, the following apply:

- For Accept Mortgages:
 - The loan-to-value (LTV) ratio must not exceed 95%
 - The Seller is not required to calculate or evaluate the occupant Borrower's monthly housing expense-to-income ratio or the occupant Borrower's monthly debt payment-to-income ratio
- For Manually Underwritten Mortgages:
 - The LTV ratio must not exceed 90%
 - The occupant Borrower's monthly housing expense-to-income ratio should not exceed 35% of the occupant Borrower's stable monthly income and the occupant Borrower's monthly debt payment-to-income ratio must not exceed 43% of the occupant Borrower's stable monthly income
- For Accept Mortgages and Manually Underwritten Mortgages:
 - The non-occupying Borrower must not be an interested party to the transaction (for example, the builder, property seller, real estate agent or broker)
 - The funds used to qualify for the Mortgage may come from the occupant and/or the non-occupant Borrower

See Section 4302.5 for special requirements for Refi Possible® Mortgages that include a non-occupying Borrower.

See Section 4501.7 for special requirements for Home Possible Mortgages® that include a non-occupying Borrower.

See Section 5103.3 for special requirements when a non-occupying Borrower is an endorser, guarantor or surety.

See Section 4504.3 for special requirements for HeritageOneSM Mortgages that include a non-occupying Borrower.

5103.2: Permanent and nonpermanent resident aliens (03/02/16)

A non-U.S. citizen who is lawfully residing in the U.S. as a permanent or nonpermanent resident alien is eligible for a Mortgage on the same terms as a U.S. citizen.

A Mortgage to a non-U.S. citizen who has no lawful residency status in the United States is not eligible for sale to Freddie Mac.

5103.3: Endorser, guarantor and surety (07/03/23)

A Mortgage with a personal endorser, guarantor and/or surety may be eligible for purchase by Freddie Mac provided the following requirements are met:

- The endorsement, guaranty or surety agreement must not be qualified or limited in any manner
- The endorser, guarantor or surety must not be an interested party to the transaction (for example, the builder, property seller, real estate agent or broker)

Endorsers, guarantors and sureties that do not occupy the Mortgaged Premises must comply with all requirements for non-occupying Borrowers, including those in Section 5103.1.

5103.4: Creditworthiness of a previous Borrower (03/02/16)

Freddie Mac does not consider the creditworthiness of a previous Borrower who has sold the Mortgaged Premises or whose Mortgage has been assumed by another. For a Mortgage that has undergone an ownership transfer of the Mortgaged Premises, the new owner must be obligated by a written assumption agreement to repay the entire indebtedness and must be fully underwritten and qualified according to the requirements in Topics 5100 through 5500.

5103.5: Living Trust (11/09/16)

The Seller warrants and represents that the Living Trust meets Freddie Mac's revocability and all other eligibility requirements as of the Delivery Date and the Funding Date.

A Living Trust is an eligible Borrower for a Home Mortgage if it meets all of the following conditions:

1. Special underwriting requirement

The Mortgage applicants must include an Underwritten Settlor (or at least one Underwritten Settlor if there is more than one Settlor)

2. Trust requirements

- The Settlor (or each Settlor, if there is more than one) is the primary beneficiary of the trust
- The trustee(s) must be the Settlor (or at least one Settlor if there is more than one), or a Settlor and one or more co-trustees. A financial institution customarily engaged in trust functions in the applicable jurisdiction may serve as a co-trustee.
- The trustee(s) must be specifically authorized to:
 - Borrow money for the benefit of an Underwritten Settlor
 - Purchase, construct or encumber realty to secure a loan to an Underwritten Settlor

3. Property type, occupancy and ownership requirements

- The Mortgage is secured by:
 - A 1- to 4-unit Primary Residence occupied by an Underwritten Settlor, or
 - A second home occupied for some portion of the year by an Underwritten Settlor, or
 - A 1- to 4-unit Investment Property
- If a Living Trust is a Borrower, then:
 - The occupancy of the property/Mortgaged Premises by an Underwritten Settlor of that Living Trust will be considered to be occupancy by the Borrower of the property/Mortgaged Premises
 - The Underwritten Settlor is an individual who is deemed to be the owner of the property/Mortgaged Premises

4. Title and title insurance

■ Title

The title to the property is vested in the trustee(s) on behalf of the trust (or in such other manner as is customary in the jurisdiction for Living Trusts)

■ The title insurance policy

- States that title to the Mortgaged Premises is vested in the trustee(s) on behalf of the Living Trust (or in such other manner as is customary in the jurisdiction for Living Trusts)
- Does not list any exceptions arising from the trust ownership of the property
- The Seller must verify that:
 - Title vested in the trustee(s) on behalf of the trust (or in such other manner as is customary in the jurisdiction for Living Trusts) does not lessen in any way Freddie Mac's interest in the Mortgage, such as Freddie Mac's ability to obtain clear and marketable title to the Mortgaged Premises in the event of a foreclosure of the Mortgage
 - The title insurance policy provides full title insurance protection to Freddie Mac

5. Signatures required; forms of signature

Set forth below are the required forms of signatures (Note) and required forms of signatures and acknowledgment (Security Instrument). If the Seller elects to use the Note with signature addendum to the Note ("Signature Addendum") alternative:

- (a) The form of Signature Addendum, and its use, must comply with all applicable laws
- (b) The use of the Signature Addendum must result in a properly signed and legally enforceable Note
- (c) The Signature Addendum must not impair Freddie Mac's status as a "holder in due course" or any of Freddie Mac's rights under the Purchase Documents
- (d) The Seller indemnifies Freddie Mac from any loss or damage Freddie Mac may incur as a result of the use of the Signature Addendum

NOTE	
Loan documents	Required forms of signatures (See Exhibit 9A, Note Signature Forms for Living Trusts)
Note	<ul style="list-style-type: none"> ■ Each Underwritten Settlor individually; and ■ One or more trustees on behalf of the trust, indicating the complete legal name of the trust, using the form prescribed in Exhibit 9A. An Underwritten Settlor executing the Note both

NOTE	
Loan documents	<p>Required forms of signatures</p> <p>(See Exhibit 9A, Note Signature Forms for Living Trusts)</p>
	individually and as a trustee must use one of the methods prescribed in Exhibit 9A.
Note with Signature Addendum alternative	<ul style="list-style-type: none"> ■ May be used if there is not enough space on the Note for the signatures of the trustee(s). The Note must clearly reference the existence of the Signature Addendum. ■ Each Underwritten Settlor (regardless of whether the Underwritten Settlor also is signing as a trustee) must sign individually in the Borrower's signature lines on the Note itself; only the signature(s) of the trustee(s) may be included on the Signature Addendum
Signature Addendum requirements	<ul style="list-style-type: none"> ■ The Signature Addendum must: <ul style="list-style-type: none"> □ Be permanently affixed to the Note □ Clearly identify the Note by referencing the following: <ul style="list-style-type: none"> ■ Name(s) of the Borrower(s) ■ Note Date ■ Property address ■ Original Principal Balance of the Note

SECURITY INSTRUMENT	
Loan documents	<p>Required forms of signatures and acknowledgment</p> <p>(See Exhibit 9B, Security Instrument Signature and Acknowledgement Forms for Living Trusts)</p>
Security Instrument	<ul style="list-style-type: none"> ■ Executed by the trustee(s) on behalf of the trust, indicating the complete legal name of the trust, using the form prescribed in Exhibit 9B ■ Acknowledged by each Underwritten Settlor on the Security Instrument in the form prescribed by Exhibit 9B

SECURITY INSTRUMENT	
Loan documents	Required forms of signatures and acknowledgment (See Exhibit 9B, Security Instrument Signature and Acknowledgement Forms for Living Trusts)
Security Instrument with Rider as alternative form of Underwritten Settlor acknowledgment	<ul style="list-style-type: none"> ■ The Security Instrument is executed by the trustee(s) on behalf of the trust, indicating the complete legal name of the trust ■ The Seller may use a rider to the Security Instrument that meets all of the requirements in Exhibit 9B including that the rider: <ul style="list-style-type: none"> <input type="checkbox"/> Is signed by the trustee(s) of the Living Trust; and <input type="checkbox"/> Is acknowledged by each Underwritten Settlor of the Living Trust

Note:

The Seller may exclude any institutional trustee and any individual trustee who is not an Underwritten Settlor from personal liability under the Note and the Security Instrument provided that:

- The Seller verifies that such exclusion applies specifically to that trustee, and the Seller excludes only that trustee from liability; and
- Such exclusion does not impair the exercise of any rights and remedies under the Note and/or the Security Instrument

6. Seller review

The Seller must review:

- Either (a) the trust agreement for the Living Trust or, (b) an abstract, certification or other summary of the trust agreement if and to the extent the laws of the applicable jurisdiction require or permit a third-party dealing with a trustee to rely on such abstract, certification or other summary. Based on such review, the Seller must determine that:
 - The Settlor (or each Settlor, if there is more than one) has retained the power to revoke or amend the trust
 - There is specific authorization for the trustee(s) to borrow money and to purchase, construct, or encumber realty as more fully described in Section 5103.5(2) above

- There is no unusual risk or impairment of lenders' rights (such as distributions required to be made in specified amounts from other than net income)
- The beneficiary need not grant written consent for the trust to borrow money or, if such consent is required, it has been granted in writing for purposes of the Mortgage
- If the trust agreement requires more than one trustee to borrow money or to purchase, construct or encumber realty, that the requisite number of trustees have signed the loan documents
- The deed conveying the Mortgaged Premises to the trustee or trust to verify that title is vested in the trustee(s) on behalf of the Living Trust (or is vested in such other manner as is customary in the jurisdiction for Living Trusts)

7. The Mortgage file

- In addition to other requirements in the Purchase Documents, when the Borrower is a Living Trust, the Mortgage file also must contain either:
 - A complete copy of the trust agreement
 - An abstract, certification or other summary of the trust agreement if and to the extent the laws of the applicable jurisdiction require or permit a third-party dealing with a trustee to rely on such abstract, certification or other summary

8. Delivery requirements

See Section 6302.9 for special delivery requirements when the Borrower is a Living Trust.

9. Freddie Mac resources

The following are useful Freddie Mac resources related to this section:

Document Custodian Procedures Handbook, Chapter 3, Document Delivery and Processing Procedures, Borrower's Signature

5103.6: Homeownership education (12/31/19)

(a) General requirements

At least one Borrower must participate in a homeownership education program before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, in each of the following instances:

- For purchase transaction Home Possible® Mortgages when all occupying Borrowers are First-Time Homebuyers,
- For purchase transaction Freddie Mac HomeOne® Mortgages when all Borrowers are First-Time Homebuyers, or
- For any transaction when the credit reputation for all Borrowers is established using only Noncredit Payment References

(i) Acceptable education providers and format

Homeownership education must not be provided by an interested party to the transaction, the originating lender or by the Seller.

(A) Homeownership education programs

Homeownership education programs may use different formats and require different lengths of time to complete. The following are acceptable:

- Programs provided by mortgage insurance companies, HUD-approved counseling agencies, Housing Finance Agencies (HFAs) or Community Development Financial Institutions (CDFIs)
- Programs that meet the standards of the National Industry Standards for Homeownership Education and Counseling (www.homeownershipstandards.org)

(B) Homeownership education program alternative

As an alternative to the programs listed above, Freddie Mac's free homeownership education curriculum, **CreditSmart® Homebuyer U**, meets the homeownership education requirements.

(b) Documentation

A copy of Exhibit 20, Homeownership Education Certification, or another document (such as the **CreditSmart® Homebuyer U** certificate of completion) containing comparable information must be retained in the Mortgage file.

(c) Delivery requirements

For homeownership education delivery requirements refer to the following:

- Section 6302.9(b)(ii) for any transaction when the credit reputation for all Borrowers is established using only Noncredit Payment References
- Section 6302.14 for purchase transaction Home Possible Mortgages when all occupying Borrowers are First-Time Homebuyers
- Section 6302.41 for purchase transaction HomeOne Mortgages when all Borrowers are First-Time Homebuyers

5103.6: Homeownership education (Future effective date 10/02/23)

(a) General requirements

At least one Borrower must participate in a homeownership education program before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, in each of the following instances:

- For purchase transaction Home Possible® Mortgages when all occupying Borrowers are First-Time Homebuyers,
- For purchase transaction Freddie Mac HomeOne® Mortgages when all Borrowers are First-Time Homebuyers, or
- For any transaction when the credit reputation for all Borrowers is established using only Noncredit Payment References

(i) Acceptable education providers and format

Homeownership education must not be provided by an interested party to the transaction, the originating lender or by the Seller.

For special homeownership education requirements for HeritageOneSM Mortgages, see Section 4504.5.

(A) Homeownership education programs

Homeownership education programs may use different formats and require different lengths of time to complete. The following are acceptable:

- Programs provided by mortgage insurance companies, HUD-approved counseling agencies, Housing Finance Agencies (HFAs) or Community Development Financial Institutions (CDFIs)
- Programs that meet the standards of the National Industry Standards for Homeownership Education and Counseling (www.homeownershipstandards.org)

(B) Homeownership education program alternative

As an alternative to the programs listed above, Freddie Mac's free homeownership education curriculum, **CreditSmart® Homebuyer U**, meets the homeownership education requirements.

(b) Documentation

A copy of Exhibit 20, Homeownership Education Certification, or another document (such as the **CreditSmart® Homebuyer U** certificate of completion) containing comparable information must be retained in the Mortgage file.

(c) Delivery requirements

For homeownership education delivery requirements refer to the following:

- Section 6302.9(b)(ii) for any transaction when the credit reputation for all Borrowers is established using only Noncredit Payment References
- Sections 6302.14 and 6302.50 for purchase transaction Home Possible and HeritageOne Mortgages, respectively, when all occupying Borrowers are First-Time Homebuyers
- Section 6302.41 for purchase transaction HomeOne Mortgages when all Borrowers are First-Time Homebuyers

5103.7: Land Trust (12/14/17)

Freddie Mac will purchase Land Trust Mortgages under the terms of this section, the requirements of the Guide and the Seller's other Purchase Documents.

(a) General eligibility requirements

(i) Location of Mortgaged Premises

The Mortgaged Premises must be located in a State that by statute recognizes and permits the use of Land Trusts.

(ii) Beneficiary of a Land Trust

At least one beneficiary of the Land Trust must be a Borrower.

Each beneficiary who is a Borrower has been fully underwritten and is a qualified Borrower in the beneficiary's individual capacity.

(iii) Trust requirements

All beneficiaries of the Land Trust must be individuals.

The trustee of the Land Trust must be a corporation or financial institution customarily engaged in the business of acting as trustee for land trusts in the applicable jurisdiction.

The Mortgaged Premises must be the only asset of the Land Trust.

(iv) Property and occupancy types; ownership requirements

Each Land Trust Mortgage must be secured by:

- A 1- to 4-unit Primary Residence occupied by a beneficiary of the Land Trust who is a Borrower, or
- A second home occupied for some portion of the year by a beneficiary of the Land Trust who is a Borrower, or
- A 1- to 4-unit Investment Property, provided at least one beneficiary of the Land Trust is a Borrower

For Land Trust Mortgages, a beneficiary of the Land Trust Mortgage who is a Borrower is deemed to be an owner of the property/Mortgaged Premises.

(b) Signatures and documentation

(i) Uniform Instrument signatures

(A) Form of signature for Note

Each beneficiary of a Land Trust who is a Borrower must sign the Note in that beneficiary's individual capacity.

(B) Signature required on Security Instrument

The trustee of the Land Trust must execute the Security Instrument.

See Section 4101.8 for additional Note and Security Instrument signature requirements.

(ii) Special documentation: Collateral Assignment of Beneficial Interest (“Collateral Assignment”)

(A) Collateral Assignment requirements

Each beneficiary of the Land Trust who is a Borrower must execute a Collateral Assignment under which the beneficiary:

- Grants the lender named in the Security Instrument and the Note and the lender's successors and assigns (the “Lender”) a security interest in all of the beneficiary's rights, title, powers and interests in, under and to the Land Trust, the property held in the Land Trust (including any rights to earnings or proceeds from that property), and the Land Trust agreement (including any powers of direction or control over the trustee of the Land Trust or the property) (collectively, the “Collateral”)

- Certifies that no prior security interest in the Collateral has been granted
- Agrees not to make any further assignment or take any other action by which all or any part of the Collateral is transferred in any way without the written approval of the Lender; and
- Agrees that the Collateral Assignment is for collateral security only, that no liability under the Land Trust agreement accrues to the Lender by virtue of the Collateral Assignment, and that signing the Collateral Agreement does not relieve the beneficiary of any responsibility or liability under the Land Trust agreement

(B) Collateral Assignment signatures requirements

The Collateral Assignment must be signed by the appropriate parties as follows:

- Each beneficiary of the Land Trust who is a Borrower must individually execute the Collateral Assignment
- The lender named in the Security Instrument and the Note in whose favor the beneficiary of the Land Trust grants a security interest under the Collateral Assignment (the “Assignee”) must accept the Collateral Assignment
- The trustee of the Land Trust must receive and agree to, endorse and/or acknowledge, as appropriate in the applicable jurisdiction, the Collateral Assignment

(C) Collateral Assignment form

(I) Sample Illinois Collateral Assignment form

Form 50 is a sample form of Collateral Assignment for Land Trust Mortgages secured by Mortgaged Premises located in Illinois. The Seller may use Freddie Mac’s form for Land Trust Mortgages secured by Mortgaged Premises located in Illinois or an alternative form that Seller has determined meets Illinois requirements.

(II) Collateral Assignment forms for use in other jurisdictions

For Land Trust Mortgages secured by property located in jurisdictions other than Illinois, the Seller must use a form of Collateral Assignment that reflects the requirements of the jurisdiction in which the Mortgaged Premises is located (unless the Seller determines that the use of Form 50 is appropriate for the specific jurisdiction).

(D) Collateral Assignment representations and warranties

In addition to all other representations and warranties specified in the Seller's Purchase Documents, the Seller makes the following representations and warranties:

- The Collateral Assignment is appropriately executed by each beneficiary of the Land Trust who is a Borrower, is accepted by the lender named in the Security Instrument and the Note in whose favor the beneficiary of the Land Trust grants a security interest under the Collateral Assignment (the "Assignee") and is appropriately received and agreed to, endorsed and/or acknowledged, as appropriate in the applicable jurisdiction, by the trustee of the Land Trust
- If (i) the Land Trust Mortgage is secured by Mortgaged Premises located in a jurisdiction other than Illinois or (ii) the Land Trust Mortgage is secured by Mortgaged Premises located in Illinois and the Seller uses a form of Collateral Assignment other than Form 50, the Seller also represents and warrants that the Collateral Assignment is valid, enforceable and meets any specified criteria under the provisions of the applicable jurisdiction, including relevant statutes, regulations and judicial decisions

(c) Title and title insurance

The Land Trust Mortgage must constitute a valid first lien.

The Land Trust Mortgage must be covered by a title insurance policy that meets the requirements of Chapter 4702.

(d) The Mortgage file

In addition to other requirements in the Purchase Documents, for Land Trust Mortgages the Mortgage file also must contain:

- **Copy of Land Trust agreement:** A copy of the original Land Trust agreement or an abstract if required by the jurisdiction
- **Documentation of power of direction:** Documentation evidencing that the beneficiary(ies) of the Land Trust holding the power of direction as provided in the trust documents have authorized and directed the trustee of the trust to execute the Mortgage documents. If the trust documents require more than one beneficiary holding the power of direction to so authorize and direct the trustee, then the documentation must evidence that the requisite number of beneficiaries have so directed the trustee; and
- **Collateral Assignment:** A fully executed or certified copy of Collateral Assignment, as described below for the applicable jurisdiction. A "Fully Executed Collateral Assignment" is the original Collateral Assignment executed by each

beneficiary of the Land Trust who is a Borrower in that beneficiary's individual capacity, accepted by the lender named in the Security Instrument and the Note in whose favor the beneficiary of the Land Trust grants a security interest under the Collateral Assignment (the "Assignee"), and received and agreed to or endorsed and/or acknowledged by the trustee. A "Certified Copy of Collateral Assignment" is a copy, certified by the trustee as a true and complete copy, of the Fully Executed Collateral Assignment.

Mortgaged Premises located in Illinois: For Mortgaged Premises located in Illinois:

- **Certified Copy of Collateral Assignment:** A Certified Copy of Collateral Assignment. Seller must ensure that the Fully Executed Collateral Assignment can be obtained from the trustee upon request by a Seller/Servicer and/or by Freddie Mac.
- **Facsimile Assignment of Beneficial Interest:**

If:

- An Illinois jurisdiction requires recording of a facsimile assignment of beneficial interest (or similar document) ("facsimile"), and
- Until the trustee is provided with the recorded facsimile, the trustee will not receive and agree to and/or endorse and/or acknowledge the Collateral Assignment executed by each beneficiary of the Land Trust who is a Borrower in that beneficiary's individual capacity and accepted by the Assignee,

Then:

- The Seller may retain in the Mortgage file copies of the executed and accepted Collateral Assignment and the facsimile sent for recording, provided that Seller also retains in the Mortgage file a letter of intent confirming that the Seller will
 - Obtain the trustee receipt and agreement/endorsement/acknowledgement upon receipt of the recorded facsimile, and
 - Place the Certified Copy of Collateral Assignment in the Mortgage file

Mortgaged Premises located in a State other than Illinois: For Mortgaged Premises located in any other State that by statute recognizes and permits the use of Land Trusts: The Fully Executed Collateral Assignment

5103.8: Parent or disabled child occupying the Mortgaged Premises (02/06/19)

A Borrower may be considered an occupying Borrower, for purposes of the Guide, if the Mortgaged Premises is occupied as a Primary Residence by an individual(s) who:

- Is the Borrower's parent(s), or
- Has a disability and the Borrower is the individual(s)'s parent or legal guardian

Chapter 5201: Credit Assessment with Loan Product Advisor®

5201.1: Credit assessment with Loan Product Advisor® (06/07/23)

(a) Documenting Borrower's credit reputation

To document the credit reputation for Loan Product Advisor® Accept Mortgages, the Seller must use the following:

- The Uniform Residential Loan Application
- The credit reports (see Section 5203.1 for details)
- The Feedback Certificate
- An underwriting summary such as Form 1077, Uniform Underwriting and Transmittal Summary

Direct verification of Mortgage debt, rental payments and other debts not shown on the credit reports are typically not required for Accept Mortgages. For Accept Mortgages with Borrowers who do not have a usable Credit Score, the requirements in Section 5201.1(c) below apply.

The Seller is not required to obtain or document an explanation of adverse or derogatory information on Accept Mortgages.

(b) Assessing Borrower's credit reputation

For Accept Mortgages, Loan Product Advisor has assessed the Borrower's credit reputation, and determined that the credit reputation is acceptable.

(c) Special requirements for Accept Mortgages with Borrowers who do not have a usable Credit Score

(i) Mortgages where not all Borrowers have a usable Credit Score

(A) Mortgages originally submitted to Loan Product Advisor prior to May 14, 2017 AND re-submitted to Loan Product Advisor prior to May 19, 2018

For Mortgages where not all Borrowers have a usable Credit Score, the following requirements apply.

- All of the following requirements must be met in order for Loan Product Advisor to assess a transaction where not all Borrowers have a usable Credit Score:
 - At least one Borrower on the transaction must have a usable Credit Score, as determined by Loan Product Advisor
 - The transaction must be a purchase or “no cash-out” refinance Mortgage
 - The Mortgage must be secured by a 1-unit property and all Borrowers must occupy the property as their Primary Residence
 - Borrowers with a usable Credit Score must contribute more than 50% of the total monthly income
 - Borrowers without a usable Credit Score must not be self-employed
- For all Borrowers without usable Credit Scores, any debt that is not reported to the credit repositories must be verified to have a satisfactory payment history and the payment must be included in the monthly debt payment-to-income ratio

(B) Mortgages originally submitted to Loan Product Advisor on and after May 14, 2017 or Mortgages originally submitted to Loan Product Advisor prior to May 14, 2017 AND re-submitted to Loan Product Advisor on and after May 19, 2018

For Mortgages where not all Borrowers have a usable Credit Score, Loan Product Advisor will apply the following requirements:

- At least one Borrower on the transaction must have a usable Credit Score, as determined by Loan Product Advisor
- The transaction must be a purchase or “no cash-out” refinance Mortgage
- The Mortgage must be secured by a 1-unit property and all Borrowers must occupy the property as their Primary Residence

In addition, for Mortgages other than Refi Possible® Mortgages, if the Borrower(s) without a usable Credit Score contributes 50% or more of the total monthly income, the Seller must determine that the Mortgage meets the following requirements:

- Each Borrower without a usable Credit Score must have at least two payment references in the United States comprised of Noncredit Payment References and/or Tradelines not appearing on the credit report. If two or more Borrowers without a usable Credit Score have the same payment reference, then the payment reference may count for each of those Borrowers.

Additionally:

- Each payment reference must have existed for at least the most recent 12 months
- At least one Borrower without a usable Credit Score must have a **housing payment history** as one of the payment references; and:
 - In the event more than one Borrower without a usable Credit Score has a housing payment history, then all such housing payment histories for the most recent 12 months (or length of housing payment history if less than 12 months) must be verified
 - All housing payment histories must have no 30-day or greater Delinquencies in the most recent 12 months
- For all payment references **other than housing**:
 - Only one payment reference may have one 30-day Delinquency in the most recent 12 months; and
 - All payment references must have no 60-day or greater Delinquencies in the most recent 12 months
- Each payment reference must:
 - Meet the requirements for written verifications in Section 5102.3,
 - Meet the age of documentation requirements in Section 5102.4, and
 - Be documented in accordance with Section 5202.2(b)
- Each Borrower without a usable Credit Score must have no collections (other than medical), judgments or tax liens filed in the most recent 24 months

(ii) Mortgages where no Borrower has a Credit Score

For Mortgages where no Borrower has a Credit Score, Loan Product Advisor will apply the following requirements:

- The transaction must be a purchase or “no cash-out” refinance Mortgage
- The Mortgage must be secured by a 1-unit property and all Borrowers must occupy the property as their Primary Residence

- The loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios must not exceed 95%
- The Mortgage must be a fixed-rate Mortgage
- The Mortgage must not be a super conforming Mortgage
- The Mortgage must not be a Refi Possible Mortgage

In addition, the Seller must determine that the Mortgage meets the following requirements:

- Each Borrower must have at least two payment references in the United States comprised of Noncredit Payment References and/or Tradelines not appearing on the credit report. If two or more Borrowers have the same payment reference, then the payment reference may count for each of those Borrowers.
- Additionally:
- Each payment reference must have existed for at least the most recent 12 months
 - At least one Borrower must have a **housing payment history** as one of the payment references; and:
 - In the event more than one Borrower has a housing payment history, then all such housing payment histories for the most recent 12 months (or length of housing payment history if less than 12 months) must be verified
 - All housing payment histories must have no 30-day or greater Delinquencies in the most recent 12 months
 - For all payment references **other than housing**:
 - Only one payment reference may have one 30-day Delinquency in the most recent 12 months; and
 - All payment references must have no 60-day or greater Delinquencies in the most recent 12 months
 - Each payment reference must:
 - Meet the requirements for written verifications in Section 5102.3,
 - Meet the age of documentation requirements in Section 5102.4, and
 - Be documented in accordance with Section 5202.2(b)

- Each Borrower must have no collections (other than medical), judgments or tax liens filed in the most recent 24 months
- When the credit reputation for all Borrowers is established using only Noncredit Payment References, then at least one Borrower must participate in a homeownership education program before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages. Refer to Section 5103.6 for requirements related to homeownership education.

(d) Authorized user Tradelines

For Accept Mortgages, when a Borrower's credit report contains Tradelines for accounts for which the Borrower is not the primary account holder but is listed as an authorized user, Loan Product Advisor will return a feedback message indicating when the following requirements must be met:

- The Mortgage file must contain documentation evidencing that for each authorized user account:
 - Another Borrower on the Mortgage owns the Tradeline in question, or
 - The Tradeline is owned by the Borrower's spouse, or
 - The Borrower has been making the payments on the account for the last 12 months

OR

- If the Seller is unable to document one of the above requirements for each authorized user account, the Seller may make the determination that the authorized user accounts have an insignificant impact on the Borrower's overall credit history and the information on the credit report is representative of the Borrower's own credit reputation. The Seller should base its determination on the number of the Borrower's own Tradelines, as well as their age, type, size and the payment history, as compared to the authorized user accounts. The Seller must document its determination in the Mortgage file.

If the Seller is unable to document any of the above four requirements when the feedback message is returned, the Seller must consider the Loan Product Advisor assessment invalid and manually underwrite the Mortgage as a Non-Loan Product Advisor Mortgage.

(e) Inquiries

Inquiries on the credit report generally reflect the Borrower's requests for new or additional credit. Inquiries made for other purposes, such as general solicitations not initiated by the Borrower or monitoring inquiries by current creditors, typically are not shown on the credit report.

When the credit report indicates that a creditor has made an inquiry within the previous 90-day period, the Seller must determine whether additional credit was granted. If additional credit was granted, the Seller must obtain verification of the debt and must consider the debt when qualifying the Borrower subject to the requirements in Section 5401.2, Monthly debt payment-to-income ratio.

(f) Rent payment history included in Loan Product Advisor's assessment

(i) Overview

For certain Mortgages, a Borrower's rent payment history may positively impact the Loan Product Advisor credit assessment. For Mortgages that meet the requirements below, Loan Product Advisor will retrieve and assess a verification report obtained by the Seller that includes the depository account(s) from which a Borrower pays rent to determine if it can identify a rent payment history. In instances where Loan Product Advisor identifies a history of recurring rent payments, the history will be included in Loan Product Advisor's credit assessment provided the requirements of this section are met.

(ii) Eligibility requirements

The following requirements must be met for Loan Product Advisor to consider a Borrower's rent payment history in the credit assessment:

1. The Seller must submit to Loan Product Advisor the current monthly rent amount paid by the Borrower and obtain a verification report of the depository account(s) from which the Borrower makes their rent payments. The verification report must meet the requirements in section (iii) below.
2. The Mortgage must be a purchase transaction Mortgage secured by a Primary Residence
3. At least one Borrower with a rent payment history must:
 - A. Have a usable Credit Score, as determined by Loan Product Advisor, and
 - B. Be a First-Time Homebuyer who intends to occupy the subject property as their Primary Residence, and
 - C. Have been renting for a minimum of 12 months with a monthly rent payment of at least \$300 that is paid from the depository account(s) in the verification report obtained by the Seller

(iii) Verification reports

The verification report obtained by the Seller must be produced by a third-party service provider designated by Freddie Mac or produced through a Freddie Mac-supplied application programming interface (API) using data transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

For each verification report obtained, the Seller must:

1. Confirm that each depository account is owned by the Borrower and that the account(s) is the one from which the Borrower pays rent
2. Confirm that the age of the verification report complies with the requirements of Section 5102.4
3. Ensure that the most current version of the verification report is used by Loan Product Advisor. If the Seller obtains an updated report, the Mortgage must be resubmitted to Loan Product Advisor to ensure assessment of the most current information.
4. Maintain the verification report in the Mortgage file for transactions where the Feedback Certificate includes a feedback message that the rent payment history was successfully identified in Loan Product Advisor, resulting in a Risk Class of Accept

(g) Borrower cash flow included in Loan Product Advisor's assessment

(i) Overview

For certain Mortgages, a Borrower's monthly cash flow may positively impact Loan Product Advisor's credit assessment. Loan Product Advisor will assess the transaction patterns present in the Borrower's checking, savings, investment and retirement accounts and changes in account balances using data transmitted by a third-party service provider designated by Freddie Mac or transmitted by the Seller through an API. The Seller must obtain Freddie Mac's written approval to transmit data through an API.

(ii) Eligibility requirements

The following requirements must be met for Loan Product Advisor to consider cash flow in the credit assessment:

1. At least one Borrower on the transaction must have a usable Credit Score as determined by Loan Product Advisor
2. At least 12 months of account data must be transmitted to Loan Product Advisor

(iii) Verification reports

The verification report obtained by the Seller must be produced by a third-party service provider designated by Freddie Mac or through a Freddie Mac-supplied API using data

transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

For each verification report obtained, the Seller must:

1. Confirm that each asset in the verification report is owned by at least one Borrower and such Borrower has access to the funds
2. Confirm that the age of the verification report complies with the requirements of Section 5102.4
3. Ensure that the most current version of the verification report is used by Loan Product Advisor. If the Seller obtains an updated report, the Mortgage must be resubmitted to Loan Product Advisor to ensure assessment of the most current information.
4. Maintain the verification report in the Mortgage file if the Feedback Certificate includes a feedback message that positive Borrower cash flow was identified and resulted in a Risk Class of Accept

Chapter 5201: Credit Assessment with Loan Product Advisor®

5201.1: Credit assessment with Loan Product Advisor® (11/06/22)

(a) Documenting Borrower's credit reputation

To document the credit reputation for Loan Product Advisor® Accept Mortgages, the Seller must use the following:

- The Uniform Residential Loan Application
- The credit reports (see Section 5203.1 for details)
- The Feedback Certificate
- An underwriting summary such as Form 1077, Uniform Underwriting and Transmittal Summary

Direct verification of Mortgage debt, rental payments and other debts not shown on the credit reports are typically not required for Accept Mortgages. For Accept Mortgages with Borrowers who do not have a usable Credit Score, the requirements in Section 5201.1(c) below apply.

The Seller is not required to obtain or document an explanation of adverse or derogatory information on Accept Mortgages.

(b) Assessing Borrower's credit reputation

For Accept Mortgages, Loan Product Advisor has assessed the Borrower's credit reputation, and determined that the credit reputation is acceptable.

(c) Special requirements for Accept Mortgages with Borrowers who do not have a usable Credit Score

(i) Mortgages where not all Borrowers have a usable Credit Score

(A) Mortgages originally submitted to Loan Product Advisor prior to May 14, 2017 AND re-submitted to Loan Product Advisor prior to May 19, 2018

For Mortgages where not all Borrowers have a usable Credit Score, the following requirements apply.

- All of the following requirements must be met in order for Loan Product Advisor to assess a transaction where not all Borrowers have a usable Credit Score:
 - At least one Borrower on the transaction must have a usable Credit Score, as determined by Loan Product Advisor
 - The transaction must be a purchase or “no cash-out” refinance Mortgage
 - The Mortgage must be secured by a 1-unit property and all Borrowers must occupy the property as their Primary Residence
 - Borrowers with a usable Credit Score must contribute more than 50% of the total monthly income
 - Borrowers without a usable Credit Score must not be self-employed
- For all Borrowers without usable Credit Scores, any debt that is not reported to the credit repositories must be verified to have a satisfactory payment history and the payment must be included in the monthly debt payment-to-income ratio

(B) Mortgages originally submitted to Loan Product Advisor on and after May 14, 2017 or Mortgages originally submitted to Loan Product Advisor prior to May 14, 2017 AND re-submitted to Loan Product Advisor on and after May 19, 2018

For Mortgages where not all Borrowers have a usable Credit Score, Loan Product Advisor will apply the following requirements:

- At least one Borrower on the transaction must have a usable Credit Score, as determined by Loan Product Advisor
- The transaction must be a purchase or “no cash-out” refinance Mortgage
- The Mortgage must be secured by a 1-unit property and all Borrowers must occupy the property as their Primary Residence

In addition, for Mortgages other than Refi PossibleSM Mortgages, if the Borrower(s) without a usable Credit Score contributes 50% or more of the total monthly income, the Seller must determine that the Mortgage meets the following requirements:

- Each Borrower without a usable Credit Score must have at least two payment references in the United States comprised of Noncredit Payment References and/or Tradelines not appearing on the credit report. If two or more Borrowers without a usable Credit Score have the same payment reference, then the payment reference may count for each of those Borrowers.

Additionally:

- Each payment reference must have existed for at least the most recent 12 months
- At least one Borrower without a usable Credit Score must have a **housing payment history** as one of the payment references; and:
 - In the event more than one Borrower without a usable Credit Score has a housing payment history, then all such housing payment histories for the most recent 12 months (or length of housing payment history if less than 12 months) must be verified
 - All housing payment histories must have no 30-day or greater Delinquencies in the most recent 12 months
- For all payment references **other than housing**:
 - Only one payment reference may have one 30-day Delinquency in the most recent 12 months; and
 - All payment references must have no 60-day or greater Delinquencies in the most recent 12 months
- Each payment reference must:
 - Meet the requirements for written verifications in Section 5102.3,
 - Meet the age of documentation requirements in Section 5102.4, and
 - Be documented in accordance with Section 5202.2(b)
- Each Borrower without a usable Credit Score must have no collections (other than medical), judgments or tax liens filed in the most recent 24 months

(ii) Mortgages where no Borrower has a Credit Score

For Mortgages where no Borrower has a Credit Score, Loan Product Advisor will apply the following requirements:

- The transaction must be a purchase or “no cash-out” refinance Mortgage
- The Mortgage must be secured by a 1-unit property and all Borrowers must occupy the property as their Primary Residence

- The loan-to-value (LTV), total LTV (TLTV) and Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios must not exceed 95%
- The Mortgage must be a fixed-rate Mortgage
- The Mortgage must not be a super conforming Mortgage
- The Mortgage must not be a Refi Possible Mortgage

In addition, the Seller must determine that the Mortgage meets the following requirements:

- Each Borrower must have at least two payment references in the United States comprised of Noncredit Payment References and/or Tradelines not appearing on the credit report. If two or more Borrowers have the same payment reference, then the payment reference may count for each of those Borrowers.
- Additionally:
- Each payment reference must have existed for at least the most recent 12 months
 - At least one Borrower must have a **housing payment history** as one of the payment references; and:
 - In the event more than one Borrower has a housing payment history, then all such housing payment histories for the most recent 12 months (or length of housing payment history if less than 12 months) must be verified
 - All housing payment histories must have no 30-day or greater Delinquencies in the most recent 12 months
 - For all payment references **other than housing**:
 - Only one payment reference may have one 30-day Delinquency in the most recent 12 months; and
 - All payment references must have no 60-day or greater Delinquencies in the most recent 12 months
 - Each payment reference must:
 - Meet the requirements for written verifications in Section 5102.3,
 - Meet the age of documentation requirements in Section 5102.4, and
 - Be documented in accordance with Section 5202.2(b)

- Each Borrower must have no collections (other than medical), judgments or tax liens filed in the most recent 24 months
- When the credit reputation for all Borrowers is established using only Noncredit Payment References, then at least one Borrower must participate in a homeownership education program before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages. Refer to Section 5103.6 for requirements related to homeownership education.

(d) Authorized user Tradelines

For Accept Mortgages, when a Borrower's credit report contains Tradelines for accounts for which the Borrower is not the primary account holder but is listed as an authorized user, Loan Product Advisor will return a feedback message indicating when the following requirements must be met:

- The Mortgage file must contain documentation evidencing that for each authorized user account:
 - Another Borrower on the Mortgage owns the Tradeline in question, or
 - The Tradeline is owned by the Borrower's spouse, or
 - The Borrower has been making the payments on the account for the last 12 months

OR

- If the Seller is unable to document one of the above requirements for each authorized user account, the Seller may make the determination that the authorized user accounts have an insignificant impact on the Borrower's overall credit history and the information on the credit report is representative of the Borrower's own credit reputation. The Seller should base its determination on the number of the Borrower's own Tradelines, as well as their age, type, size and the payment history, as compared to the authorized user accounts. The Seller must document its determination in the Mortgage file.

If the Seller is unable to document any of the above four requirements when the feedback message is returned, the Seller must consider the Loan Product Advisor assessment invalid and manually underwrite the Mortgage as a Non-Loan Product Advisor Mortgage.

(e) Inquiries

Inquiries on the credit report generally reflect the Borrower's requests for new or additional credit. Inquiries made for other purposes, such as general solicitations not initiated by the Borrower or monitoring inquiries by current creditors, typically are not shown on the credit report.

When the credit report indicates that a creditor has made an inquiry within the previous 90-day period, the Seller must determine whether additional credit was granted. If additional credit was granted, the Seller must obtain verification of the debt and must consider the debt when qualifying the Borrower subject to the requirements in Section 5401.2, Monthly debt payment-to-income ratio.

(f) Rent payment history included in Loan Product Advisor's assessment

(i) Overview

For certain Mortgages, a Borrower's rent payment history may positively impact the Loan Product Advisor credit assessment. For Mortgages that meet the requirements below, Loan Product Advisor will retrieve and assess a verification report obtained by the Seller that includes the depository account(s) from which a Borrower pays rent to determine if it can identify a rent payment history. In instances where Loan Product Advisor identifies a history of recurring rent payments, the history will be included in Loan Product Advisor's credit assessment provided the requirements of this section are met.

(ii) Eligibility requirements

The following requirements must be met for Loan Product Advisor to consider a Borrower's rent payment history in the credit assessment:

1. The Seller must submit to Loan Product Advisor the current monthly rent amount paid by the Borrower and obtain a verification report of the depository account(s) from which the Borrower makes their rent payments. The verification report must meet the requirements in section (iii) below.
2. The Mortgage must be a purchase transaction Mortgage secured by a Primary Residence
3. At least one Borrower with a rent payment history must:
 - A. Have a usable Credit Score, as determined by Loan Product Advisor, and
 - B. Be a First-Time Homebuyer who intends to occupy the subject property as their Primary Residence, and
 - C. Have been renting for a minimum of 12 months with a monthly rent payment of at least \$300 that is paid from the depository account(s) in the verification report obtained by the Seller

(iii) Verification reports

The verification report obtained by the Seller must be produced by a third-party service provider designated by Freddie Mac or produced through a Freddie Mac-supplied application programming interface (API) using data transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

For each verification report obtained, the Seller must:

1. Confirm that each depository account is owned by the Borrower and that the account(s) is the one from which the Borrower pays rent
2. Confirm that the age of the verification report complies with the requirements of Section 5102.4
3. Ensure that the most current version of the verification report is used by Loan Product Advisor. If the Seller obtains an updated report, the Mortgage must be resubmitted to Loan Product Advisor to ensure assessment of the most current information.
4. Maintain the verification report in the Mortgage file for transactions where the Feedback Certificate includes a feedback message that the rent payment history was successfully identified in Loan Product Advisor, resulting in a Risk Class of Accept

(g) Borrower cash flow included in Loan Product Advisor's assessment

(i) Overview

For certain Mortgages, a Borrower's monthly cash flow may positively impact Loan Product Advisor's credit assessment. Loan Product Advisor will assess the transaction patterns present in the Borrower's checking, savings and investment accounts and changes in account balances using data transmitted by a third-party service provider designated by Freddie Mac or transmitted by the Seller through an API. The Seller must obtain Freddie Mac's written approval to transmit data through an API.

(ii) Eligibility requirements

The following requirements must be met for Loan Product Advisor to consider cash flow in the credit assessment:

1. At least one Borrower on the transaction must have a usable Credit Score as determined by Loan Product Advisor
2. At least 12 months of account data must be transmitted to Loan Product Advisor

(iii) Verification reports

The verification report obtained by the Seller must be produced by a third-party service provider designated by Freddie Mac or through a Freddie Mac-supplied API using data

transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

For each verification report obtained, the Seller must:

1. Confirm that each asset in the verification report is owned by at least one Borrower and such Borrower has access to the funds
2. Confirm that the age of the verification report complies with the requirements of Section 5102.4
3. Ensure that the most current version of the verification report is used by Loan Product Advisor. If the Seller obtains an updated report, the Mortgage must be resubmitted to Loan Product Advisor to ensure assessment of the most current information.
4. Maintain the verification report in the Mortgage file if the Feedback Certificate includes a feedback message that positive Borrower cash flow was identified and resulted in a Risk Class of Accept

Chapter 5202: Credit Assessment for Manually Underwritten Mortgages

5202.1: Establishing Borrower credit reputation for Manually Underwritten Mortgages (06/26/17)

To establish an acceptable credit reputation, there must be at least a minimum amount of credit history available. There may be situations in which a credit history of short duration is sufficient to demonstrate an acceptable reputation as long as the history contains a sufficient number of payment references. A credit history of short duration adds a layer of risk that must be considered in evaluating the Borrower's credit reputation.

At least one Borrower whose income or assets are used for qualification must have a minimum number of payment references comprised of:

- At least three Tradelines, whether or not on the credit report, or
- If a Borrower does not have three Tradelines, at least four Noncredit Payment References or a total of four Tradelines and Noncredit Payment References

A Tradeline for an account for which the Borrower is not the primary account holder, but is listed as an authorized user, may be considered a Borrower's Tradeline if the Seller obtains and retains in the Mortgage file documentation that evidences at least one of the following:

- Another Borrower on the Mortgage owns the Tradeline in question
- The Tradeline is owned by the Borrower's spouse, or
- The Borrower has been making the payments on the account for the last 12 months

To be used to establish a minimum payment history, a Noncredit Payment Reference must have existed for at least 12 months. A Borrower with a credit reputation established using only Noncredit Payment References adds an additional layer of risk that must be considered by the Seller. In addition, when the credit reputation for all Borrowers is established using only Noncredit Payment References, then at least one Borrower must participate in a homeownership education program before the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages. Refer to Section 5103.6 for requirements related to homeownership education.

When the Borrower has a housing payment history, the Seller must verify both current and prior housing payment histories for no less than the most recent 12 months (or length of housing payment history if less than 12 months) in accordance with Section 5202.2(b).

Documented payments of a voluntary nature, such as deposits to a savings account, contributions to a payroll savings plan or contributions to a stock purchase plan of at least 12 months may be included as one of the Noncredit Payment References if the history shows periodic deposits (at least quarterly) resulting in a growing balance over the year.

As long as a permanent or nonpermanent resident alien Borrower has established the minimum number of payment references required above in the United States, a U.S. credit history may be supplemented with a credit history from a foreign country to establish an acceptable credit reputation. Documentation from a foreign country must meet the standards set forth in Sections 5102.3, 5102.4, 5202.2(b) and 5203.1.

5202.2: Documenting Borrower credit reputation for Manually Underwritten Mortgages (02/05/20)

(a) Required documentation

The Seller is required to document the Borrower's credit reputation and the Seller's determination that the Borrower's reputation is acceptable. Although the documentation necessary to establish an acceptable credit reputation may vary, Freddie Mac requires that the Mortgage file documentation clearly demonstrates the Borrower met his or her obligations over an extended period of time.

To document the Borrower's credit reputation for Manually Underwritten Mortgages, the Seller must use the following documentation:

- The Uniform Residential Loan Application
- The credit reports (see Section 5203.1 for details)
- For Caution Mortgages, the Feedback Certificate
- Any direct verification of payment histories
- An underwriting summary such as Form 1077, Uniform Underwriting and Transmittal Summary
- Additional documentation may be required depending on the Borrower's credit history

The first step in documenting credit reputation is to document the Borrower's existing credit history. This must be done by documenting a history of payments made by the Borrower through the credit reporting process as detailed in Section 5203.1 and/or by direct verification. If the credit report does not contain a reference for each significant open debt, including housing debt, listed on the Mortgage application, the Seller must obtain a separate written verification for each unreported debt. Accounts listed on the credit report as "will rate by mail only" or "need written authorization" also require separate verification by the Seller.

The Seller must document in the Mortgage file and describe on Form 1077 or another document in the Mortgage file:

- Any additional risks uncovered during the evaluation of the credit history
- The Seller's analysis and conclusion that the Borrower's credit reputation is acceptable

The documents used to establish the Borrower's credit history must be consistent with each other and with the Borrower information found on the Mortgage application. The Mortgage file must also include any supporting documentation necessary to address derogatory information or other risks identified by other sources.

When underwriting with Credit Scores, the Seller must identify on Form 1077, or another document in the Mortgage file, the Credit Score selected for each Borrower and the process used to select that Credit Score from among all Credit Scores received for that Borrower. An explanation for any Credit Scores found to be unusable due to an insufficient number of Tradelines or inaccurate information should also be included.

See Section 5202.5(b) for documentation of the Borrower's explanation of adverse or derogatory credit information.

(b) Documentation of Tradelines and Noncredit Payment References

Tradelines (e.g., installment loans, revolving charge accounts and Mortgages) and Noncredit Payment References (e.g., rent, utilities and insurance) may appear on a credit report meeting the requirements of Section 5203.1 or the Seller may obtain a direct verification from the creditor or other acceptable documentation of payment history meeting the requirements of this section.

If the verification of a Noncredit Payment Reference on the credit report or direct verification is provided by a source other than a professional business, the Mortgage file must also include other documentation supporting the payment history, for example, canceled checks, depository statements, documentation from a third-party money transfer application or service or receipts issued by the creditor, subject to requirements below.

(i) Direct verification

A direct verification may be either a completed verification form or a computer-generated payment history obtained by the Seller directly from the creditor and signed by the individual providing the verification.

Direct verifications must contain sufficient information to establish the following:

- The name and address of the creditor
- The name of the payor
- The name and title of the individual providing the credit reference

- The telephone number of the creditor
- The account number, if applicable
- The nature of the obligation (rent, utilities, payment for purchases, insurance, etc.)
- The highest credit balance, if applicable
- The amount of the payment due
- The outstanding balance
- The current and historical status of the account. The completed verification form must indicate the number of times and duration of times past due. The historical account status format should be “0 x 30, 0 x 60, 0 x 90 days” late. However, alternative formats are acceptable as long as the meaning is clear. Statements such as “current,” “as agreed,” or “satisfactory” are not acceptable by themselves because they are too vague.
- For a housing payment history, age of the reference if the length of housing payment history is less than 12 months

General reference letters without the above information are not sufficient documentation for establishing an acceptable credit reputation.

(ii) Other acceptable documentation

In lieu of a direct verification from the creditor, the Seller may obtain canceled checks, receipts issued by the creditor in accordance with the requirements of subsection (iii) below, documentation from a third-party money transfer application or service or depository account statements from the Borrower. The Mortgage file must also contain documentation that substantiates the terms of the debt repayment (e.g., a copy of a fully executed lease agreement for a rental verification).

For rental verification, if the Seller obtains a copy of a fully executed lease agreement and either canceled checks, depository account statements, documentation from a third-party money transfer application service or receipts from the creditor for payments in cash in accordance with the requirements of subsection (iii) below, and the Seller confirms that the Borrower has made timely payments in accordance with the terms of the lease for the most recent 12 months, the documentation requirements of this subsection (ii) are met.

The obtained documentation must contain sufficient information to establish the following:

- The name and address of the creditor
- The name of the payor

- The nature of the obligation (rent, utilities, payment for purchases, insurance, etc.)
- The highest credit balance, if applicable
- The amount of the payment due
- The outstanding balance
- The current and historical status of the account, including number of times past due and how many days past due
- For a housing payment history, age of the reference if the length of housing payment history is less than 12 months

Documented payments of a voluntary nature, such as deposits to a savings account, contributions to a payroll savings plan or contributions to a stock purchase plan of at least 12 months may be included as one of the Noncredit Payment References if the history shows periodic deposits (at least quarterly) resulting in a growing balance over the year. If a savings history is used as one of the Noncredit Payment References, the Mortgage file must contain documentation, such as depository account statements that meet the requirements of Section 5501.3(a).

(iii) Special requirements for receipts

Receipts from the creditor are acceptable documentation only if the payments being verified were made in cash and there is no evidence in the Mortgage file that the payments were made by checks or direct bank transfers.

5202.3: Evaluating Borrower credit reputation for Manually Underwritten Mortgages (09/01/21)

The Borrower's credit reputation may be evaluated by any of the following methods:

- For Borrowers with usable Credit Scores, manually underwriting with FICO® scores and reason codes and analyzing the information in each of the Borrower's credit reports and other verifications as required by this section and Section 5202.4. When a minimum Indicator Score is required, it must be met or exceeded for the Mortgage to be eligible for delivery to Freddie Mac.
- For Borrowers without usable Credit Scores, manually underwriting without FICO scores, and analyzing all information contained in each of the Borrower's credit reports and other verifications, with the exception of trended credit data, which must not be considered.

Trended credit data is expanded credit information reflecting historical Tradeline data such as balances, scheduled payments and actual payments reported for each month over an extended period of time.

See Section 5203.2 for more information about Credit Scores and Indicator Scores, including when minimum Indicator Scores are required for a Mortgage to be eligible for sale to Freddie Mac.

The Seller must review the credit reports and direct verifications and thoroughly evaluate the Borrower's credit reputation in accordance with the requirements set forth in this section and document in the Mortgage file the Seller's conclusion the reputation is acceptable. The Seller must determine that each Borrower individually, and that all Borrowers collectively, have acceptable credit reputations. The acceptable credit reputation of one Borrower cannot be used to offset the unacceptable credit reputation of another.

An acceptable credit reputation is established by a history that, when viewed as a whole, evidences a Borrower's willingness to make ongoing payments and ability to manage obligations as agreed. The Seller must perform a detailed review of all aspects of the Borrower's credit history, with the exception of trended credit data, as described above, which must not be considered. To ensure that the Seller has satisfactorily established the Borrower's willingness to repay and ability to manage obligations as agreed, the Seller must:

- Review the credit report to determine that the credit report meets the requirements of Section 5203.1
- Review the credit report and all credit documentation to determine that the data is accurate and the documentation in the Mortgage file is consistent with the credit report
- Evaluate the Borrower(s) overall credit reputation using the factors described in this section and Sections 5202.4 through 5202.6, especially those listed in the reason codes accompanying the FICO score
- Identify and document credit-related offsets for the risks indicated by the reason codes; for example, if the reason codes indicate nonpayment of obligations, the Seller may establish that the Borrower was unable to meet credit obligations because he or she experienced financial difficulties attributable to extenuating circumstances (see Section 5202.5(a) for more information on extenuating circumstances)
- Identify and document credit-related offsets for significant derogatory information included in the credit history, such as bankruptcy, foreclosure, short sale or recent late housing payments (see Section 5202.5(a))
- After credit reputation is established, evaluate the overall layering of risk (see Section 5102.2(b))
- Document its evaluation and conclusion that the credit reputation is acceptable on Form 1077, Uniform Underwriting and Transmittal Summary, or on a separate document in the Mortgage file

For Manually Underwritten Mortgages, the Seller's evaluation of the Borrower's credit reputation must be based on the entire credit history documented in the Mortgage file, with the exception of trended credit data, as described above, which must not be considered. The Seller must weigh the following factors in arriving at a conclusion that the Borrower's credit reputation is acceptable:

1. The type and amount of credit outstanding
2. How long the Borrower has had credit
3. How the Borrower uses available credit, including revolving balances-to-limits
4. Recent changes in the number of open accounts or overall amount of credit outstanding
5. The payment history and status of all accounts
6. Any recent inquiries shown on the credit report
7. Any public record or collection items

If a Borrower's credit history includes both Tradelines and Noncredit Payment References, the Seller must put more weight on the Tradelines when evaluating the Borrower's credit reputation and cannot use Noncredit Payment References to offset derogatory credit in a Tradeline reference. If a Borrower's credit history includes housing obligations (rental or Mortgage), the Seller should put more weight on how housing payments were made than non-housing payments, but must not ignore any derogatory information in the credit history.

The Seller must also consider layering of risk in its evaluation of credit reputation. A stronger credit reputation may be required if either capacity or collateral is weak. (See Sections 5102.1 and 5102.2(b) for more information on how to evaluate the overall risk of the Mortgage using the "three Cs" (credit reputation, capacity and collateral).)

5202.4: Additional requirements for Borrowers with usable Credit Scores (11/09/16)

For Manually Underwritten Mortgages, Freddie Mac requires the use of FICO® scores with accompanying reason codes in underwriting the Borrower's credit reputation. A FICO Score is an effective tool in evaluating a Borrower's credit reputation; however, it does not necessarily indicate that the Borrower's credit reputation is acceptable. The reason codes indicate the most important reasons why a FICO score is not higher and must be used by the Seller to identify the credit factors that need to be addressed in determining the Borrower has an acceptable credit reputation. Because FICO scores evaluate the information in the Borrower's repository credit file at the time the FICO score was created, a Seller underwriting with FICO scores will find much of

the evaluation of the Borrower's credit reputation is already reflected in the FICO score and accompanying reason codes.

Sellers must select one Credit Score from all usable Credit Scores obtained for an individual Borrower that quantifies the credit reputation risk for that individual Borrower. For Borrowers with a usable Credit Score, a minimum Indicator Score of 620 is required.

Sellers should refer to Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements, and to the Guide sections referenced in Exhibit 25 for minimum Indicator Score requirements. Additionally, Sellers should also review the Guide and other Purchase Documents for additional special requirements, which may not appear in Exhibit 25 to determine the eligibility of Mortgages for which Freddie Mac requires a minimum Indicator Score.

When manually underwriting with FICO scores, the Seller must not use the following factors as offsets for weaknesses in the Borrower's credit reputation because they have already been considered in creating the FICO score:

1. The absence of, or age of, derogatory information
2. The number/proportion of accounts paid as agreed versus delinquent
3. The types of accounts paid as agreed versus the types of accounts that are delinquent
4. Recent pay-down or consolidation of account balances by the Borrower
5. The length of the Borrower's credit history
6. Any combinations of the above factors

5202.5: Adverse or derogatory credit information (10/06/21)

(a) Evaluating adverse or derogatory credit information

Adverse credit information in and of itself does not mean the Borrower's credit reputation is unacceptable. When there is adverse or derogatory information in the Borrower's credit history, the Seller must determine whether the derogatory information is significant.

For Manually Underwritten Mortgages underwritten using FICO® scores with at least two reason codes related to nonpayment of obligations, the Seller must presume the derogatory information is significant and the Seller must document the extenuating circumstances or conclude that the difficulties were due to financial mismanagement. See Sections 5202.3 and 5202.4 for additional information regarding the requirements necessary to determine a

Borrower has an acceptable credit reputation for Manually Underwritten Mortgages using FICO scores in underwriting.

For all other Manually Underwritten Mortgages with or without FICO scores, the Seller must weigh the amount of derogatory information against the rest of the credit history and decide whether it is significant. In making its determination, the Seller should not ignore any derogatory credit, but must give more weight to late housing payments and to derogatory information or late payments occurring within the past two years. Generally, the more recent the adverse or derogatory credit information, the more likely it is significant.

The Seller must consider all of the following:

- The number, timing and extent of the adverse or derogatory credit information
- The number, type and size of accounts with adverse or derogatory credit information
- Public record information, such as judgments and collection accounts
- Other characteristics listed in this section

For example, Freddie Mac considers a 30-day late housing payment to have more weight than a 30-day late nonhousing payment, and a collection account to have more weight than a 30-day late payment on a revolving account.

Although there may be many situations involving derogatory credit information that are less clear, especially when disputes about obligations are involved, the derogatory credit information is not significant when it consists only of isolated late payments, even if several accounts show sporadic late payments, provided all of the following exist:

- The late payments were not recent
- The late payments did not extend beyond one month
- The number and size of delinquent accounts is not large in relation to the overall credit
- The credit history does not show multiple revolving accounts with high balances-to-limits or high overall utilization of revolving credit
- All other credit has been paid as agreed

However, the derogatory information is significant if any of the following exist:

- There are several accounts showing recent late payments
- There are multiple 60- or 90-day late payments

- There is more than one 30-day late housing payment in the last 12 months
- There are more than two 30-day or more than one 60-day late housing payments within the most recent two years
- The number and size of the delinquent accounts are large in relation to the overall credit
- There are multiple episodes of late payments extending over a period of time
- The credit history shows derogatory credit information within the two most recent years combined with multiple revolving accounts with high balances-to-limits
- The public record information reveals several occurrences of derogatory credit information, including judgments, tax liens and/or collection accounts
- There is a bankruptcy, foreclosure, deed-in-lieu of foreclosure, or short sale within the last seven years that is disclosed on a credit report, disclosed by the Borrower on the Form 65, Uniform Residential Loan Application, or is evidenced by other documentation contained in the Mortgage file

If the Seller decides that the derogatory information is not significant, it must provide documentation supporting its conclusion in the Mortgage file. If the Seller decides that the derogatory information is significant, it must determine whether the problems were due to extenuating circumstances or to financial mismanagement.

For additional information on manually underwriting Caution Mortgages with adverse or derogatory credit information, refer to Section 5102.2.

(i) Handling significant adverse or derogatory information caused by extenuating circumstances for Manually Underwritten Mortgages

Freddie Mac considers an extenuating circumstance to be a nonrecurring or isolated circumstance, or set of circumstances, that was beyond the Borrower's control and that significantly reduced income and/or increased expenses and rendered the Borrower unable to repay obligations as agreed, resulting in significant adverse or derogatory credit information.

In addition, if the Borrower's credit history includes significant adverse or derogatory credit within the most recent two years, even if it was caused by extenuating circumstances, the Borrower's credit reputation cannot be considered acceptable.

When the Seller uses extenuating circumstances to justify that the Borrower's credit reputation is acceptable despite significant adverse or derogatory information, the Seller must confirm the extenuating circumstances and that the Borrower has reestablished an acceptable credit reputation. If the Seller cannot obtain third-party documentation confirming the extenuating circumstances and reestablishment of credit, it cannot

consider the extenuating circumstance as an acceptable offset to significant adverse or derogatory credit information.

The Mortgage file must contain all of the following documentation:

- A written statement from the Borrower, in the form of a signed letter or an e-mail directly from the Borrower, attributing the cause of the financial difficulties to outside factors beyond the Borrower's control that are not ongoing and are unlikely to recur
- Third-party documentation confirming that the events related by the Borrower in the explanation were an isolated occurrence and significantly reduced the Borrower's income and/or increased expenses and rendered the Borrower unable to repay as agreed
- An underwriting analysis on Form 1077, Uniform Underwriting and Transmittal Summary, or on a separate document in the Mortgage file, relating the Borrower's explanation to the Mortgage file documentation and leading to a reasonable conclusion that:
 - The events causing the financial difficulties were beyond the Borrower's control, are not ongoing and are unlikely to recur; and
 - The Borrower has reestablished an acceptable credit reputation
- Evidence on the credit report and other documentation in the Mortgage file of the length of time since completion of the significant derogatory event to the date of application and of completion of the recovery time period requirements below. In addition to the recovery time period requirements, the following additional requirements below must also be met:

Significant Derogatory Event	Recovery Time Periods for Reestablishment of Credit with Extenuating Circumstances	Additional Requirements
Foreclosure	<ul style="list-style-type: none">■ 36 months from the completion date as reported on the credit report, or■ When foreclosure resulted from a	Whenever a Borrower has had a previous foreclosure, deed-in-lieu of foreclosure or a short sale within the last seven years, the Mortgage must either be:

Significant Derogatory Event	Recovery Time Periods for Reestablishment of Credit with Extenuating Circumstances	Additional Requirements
	<p>Mortgage that was extinguished in Chapter 7 bankruptcy, the recovery time period for a Chapter 7 bankruptcy caused by extenuating circumstances, as described below, may be applied and counted from the date of the bankruptcy discharge, provided that:</p> <ul style="list-style-type: none"> <input type="checkbox"/> The Mortgage file must include documentation supporting that the foreclosure resulted from a Mortgage that was extinguished in the Chapter 7 bankruptcy, and <input type="checkbox"/> The foreclosure proceedings did not begin before the bankruptcy filing, and <input type="checkbox"/> The Mortgage was not reaffirmed through the bankruptcy 	<ul style="list-style-type: none"> ■ A purchase transaction Mortgage secured by a Primary Residence with a maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit TLTV (HTLTV) ratio of the lesser of 90% or the maximum LTV/TLTV/HTLTV ratio for the transaction, or ■ A “no cash-out” refinance Mortgage that meets the requirements of Chapter 4301 <p>Additionally, the Mortgage file must contain evidence of the completion of the foreclosure, deed-in-lieu of foreclosure or short sale.</p>

Other significant adverse or derogatory credit information	24 months from the most recent significant adverse or derogatory credit information	N/A

(ii) Handling significant adverse or derogatory information caused by financial mismanagement for Manually Underwritten Mortgages

If the Seller is unable to document extenuating circumstances in accordance with Freddie Mac's requirements, then it must conclude that the problems were due to financial mismanagement.

In order to conclude that the Borrower's credit reputation is still acceptable despite the previous financial mismanagement, the Seller must explain on Form 1077 or on a separate document in the Mortgage file, the rationale supporting its determination that the financial mismanagement is unlikely to recur and the Borrower's credit reputation is acceptable. Making a case that the Borrower is sufficiently willing to repay obligations when significant derogatory information was caused by financial mismanagement is very difficult. It will take a longer and more convincing reestablishment period to overcome derogatory information caused by financial mismanagement than would be needed if the Borrower had experienced financial difficulties due to extenuating circumstances.

When the Seller determines that the Borrower's credit reputation is acceptable despite significant adverse or derogatory information caused by financial mismanagement, the Mortgage file must contain all of the following documentation:

- Evidence that the Borrower has reestablished an acceptable credit reputation as required in Topics 5100 and 5200 for Manually Underwritten Mortgages
- Evidence on the credit report and other credit documentation in the Mortgage file of the length of time since completion of the significant derogatory event to the date of the application, and of completion of the recovery time period requirements below. In addition to the recovery time period requirements, the following additional requirements below must also be met:

Significant Derogatory Event	Recovery Time Periods for Reestablishment of Credit with Financial Mismanagement	Additional Requirements

(b) Documenting Borrower explanation of adverse or derogatory information

As part of its review of Manually Underwritten Mortgages, the Seller may need to request that the Borrower provide a written explanation, in the form of a signed letter or an email directly from the Borrower, of the circumstances causing the payment difficulty. The decision to require an explanation letter should be based on such factors as the age of the delinquent account, the frequency and severity of late payments, the size of the account balance and payment, when the late payments occurred and the status of the Borrower's other credit accounts.

For example, a Borrower's credit history shows a 30-day late payment on a single charge account ten months ago. The Borrower has several other charge accounts, an installment loan and a Mortgage, all showing timely payments. The Seller may decide not to obtain a letter of explanation. However, if several of the Borrower's credit accounts showed late payments, or the Borrower's Mortgage or installment loan were also late, the single late on the charge account ten months ago may be considered significant, so the Seller should obtain a letter of explanation from the Borrower and include it in the Mortgage file.

A written explanation is required for significant derogatory information. The purpose for requiring a written explanation is to assist the Seller in determining whether the Borrower's credit problems were due to extenuating circumstances (factors clearly beyond the control of the Borrower) or whether they reflect financial mismanagement (the Borrower's disregard for the payment of obligations when due).

In order to accomplish this purpose, it may be necessary to allow someone to assist the Borrower in preparing the explanation. If the Borrower needs assistance in preparing a written explanation, another party, such as the real estate agent or loan officer, should be encouraged to assist the Borrower in preparing the explanation. As long as the explanation accurately reflects the facts as related by the Borrower (as evidenced by the Borrower's signature attesting accuracy), the Seller should accept the explanation as documentation for its review.

A written explanation in and of itself does not satisfy the Seller's responsibility to determine the Borrower's willingness to repay. When adverse or derogatory information is considered significant, as explained in Section 5202.5(a), the Seller must relate the reasons for the late payments, as stated by the Borrower, to the other information about the Borrower's credit history contained in the Mortgage file. The Seller must reasonably be able to conclude that:

- The explanation is consistent with the adverse information reported and the other information in the Mortgage file
- The explanation establishes a credible cause for the late payments
- The Borrower represents an acceptable credit risk and exhibits the ability and willingness to repay the Mortgage

5202.6: Evaluating other credit information (09/09/18)

(a) Inquiries

Inquiries on the credit report generally reflect the Borrower's requests for new or additional credit. Inquiries made for other purposes, such as general solicitations not initiated by the Borrower or monitoring inquiries by current creditors, typically are not shown on the credit report.

When the credit report indicates that a creditor has made an inquiry within the previous 90-day period, the Seller must determine whether additional credit was granted. If additional credit was granted, the Seller must obtain verification of the debt and must consider the debt when qualifying the Borrower subject to the requirements in Section 5401.2, Monthly debt payment-to-income ratio.

When underwriting with FICO® scores, a reason code will alert the Seller that the number of inquiries affected the Borrower's FICO score and, therefore, should not be overlooked in underwriting. In this case and when underwriting without FICO scores, the Seller must decide whether the number of recent inquiries, especially when combined with other credit information, increases the risk of the Borrower's credit profile.

Several inquiries within the most recent 12 months generally increase risk and, when combined with high balances-to-limits on revolving accounts may indicate that the Borrower is in danger of becoming overextended. In addition, several recent inquiries, combined with a credit history of short duration may make even mild derogatory credit information significant.

To address how risk evidenced by several recent inquiries, layered with other credit reputation risks, affects the Borrower's overall credit reputation, the Seller must look at:

- The Borrower's payment history
- The age of the Borrower's other credit
- The type of credit being sought
- The total amount of credit outstanding, and
- The overall credit utilization reflected on the report

(b) Age of accounts

For Manually Underwritten Mortgages, the Seller must review the age of the Borrower's credit obligations to determine whether there has been a recent, significant increase in the number of open accounts. The age of an account is found on a credit report by referring to the "date opened" column. The length of a Borrower's credit history can be measured from the oldest account.

Like inquiries, several recently opened accounts may be a warning that the Borrower could become overextended and require a more conservative approach to reviewing both Borrower credit reputation and capacity. A credit history with all recently opened accounts may indicate that the Borrower lacks sufficient experience managing financial obligations.

The Seller should also review the age of accounts to determine if there has been a significant change in the Borrower's credit profile. A change in the Borrower's pattern of credit use,

which includes several newly opened revolving accounts, several inquiries and high utilization of revolving Tradelines, introduces significant layering of risk to the Borrower's credit reputation.

When underwriting with FICO scores, a reason code will alert the Seller that the age of accounts affected the Borrower's FICO score and, therefore, should not be overlooked in underwriting. In this case and when underwriting without FICO scores, the Seller must decide whether the age of accounts, combined with other credit information, increases the risk of the Borrower's profile.

To address how the age of a Borrower's accounts, layered with other credit risks, affects the Borrower's credit reputation, the Seller must consider:

- The Borrower's payment history
- The amount of outstanding credit
- The overall utilization of revolving accounts, and
- Recent inquiries

(c) Balances-to-limits/high overall utilization of revolving credit

For Manually Underwritten Mortgages, the Seller must compare the current balance for each open account to the high credit or limit to determine whether there is a pattern of accounts with balances at or near their limits. Multiple revolving accounts with balances more than 50% of their limits must be considered as additional risk when evaluating credit reputation. The more accounts with high balances-to-limits and the higher the percentage used, the higher the risk.

High balances-to-limits may also indicate the Borrower is making minimum payments on revolving accounts rather than reducing the debt and may be at or near payment capacity. Any derogatory information in a credit history within the most recent two years combined with several revolving accounts at or near their limits should be considered significant derogatory information when evaluating the credit reputation.

In addition to evaluating balances-to-limits, the Seller must compare the overall amount of outstanding revolving credit to the overall amount of revolving credit available to the Borrower, as shown on the credit report, to determine credit utilization. Usage of more than 60% of available revolving credit must be considered a risk factor when evaluating credit reputation. The higher the Borrower's overall utilization of revolving credit, the higher the amount of risk.

A pattern of revolving accounts at or near their limits, and utilization of a high proportion of the overall revolving credit available to the Borrower, especially when combined with newly opened accounts, indicates that the Borrower is becoming overextended and there is

significant risk in the Borrower's credit reputation. The Seller may not use the lack of adverse or derogatory credit information as an offset for high balances-to-limits or high overall utilization of revolving credit.

For a Caution Mortgage with at least two Feedback Certificate messages related to high balances-to-limits or high overall utilization of revolving credit, the Seller should presume the Borrower's credit reputation is unacceptable.

When underwriting with FICO scores, a reason code will alert the Seller that the balances on revolving accounts are too high or the proportion of balance to high credit on bank revolving or all revolving accounts is too high and affected the Borrower's FICO score.

The Seller must determine whether the balances-to-limits and overall revolving utilization, combined with other credit information, make the Borrower's credit reputation unacceptable.

For example, a Borrower with multiple revolving accounts with balances at or near limits, overall utilization of revolving credit of 90%, and less than four years of credit history would have an unacceptable credit reputation, even if there were no derogatory information in the credit report, unless the Borrower had sufficient cash reserves to pay off all revolving account balances and the Borrower's total debt-to-income ratio was within guidelines.

To address how high balances-to-limits, when layered with other credit risks, affect the Borrower's overall credit reputation, the Seller should look at:

- The Borrower's payment history
- The age of the Borrower's credit
- The number of accounts with outstanding balances
- Recent inquiries, and
- The total amount of credit outstanding

Chapter 5203: Credit Reports and Credit Scores

5203.1: Credit reports (05/04/22)

For Manually Underwritten and Loan Product Advisor® Mortgages, each Mortgage file submitted to Freddie Mac must contain one or more written credit reports meeting the requirements of this section.

The Seller must determine that the consumer reporting agency/bureau or credit repositories accessed the correct credit file by confirming the Borrower's identifying information (name, current and previous address and Social Security number) on the credit reports returned. The Seller is required to re-request the credit reports if a data entry error was made, or if the credit reports contain incorrect identifying information.

(a) Repository of credit information

A repository of credit information is an organization engaged primarily in gathering, recording, updating, storing and distributing financial and public record information concerning the debt repayment histories of individuals being considered for credit extension. The following national organizations meet this definition:

- Equifax Credit Information Services, Inc.
- Experian Information Solutions, Inc.
- Trans Union

(b) Consumer reporting agency or bureau

A consumer reporting agency is an organization engaged in the preparation and sale of credit reports used by credit grantors to determine the credit and public record history of an individual. These reports contain data obtained from the repositories of credit information. The reports may also contain information and verifications obtained from other sources.

(c) In-file credit reports

An in-file credit report is issued by a credit repository and contains "as is" information which is information that has not been updated or re-verified as a result of a credit inquiry.

If the Seller chooses to use in-file credit reports for a Manually Underwritten Mortgage, Freddie Mac requires the Seller to obtain reports from at least two credit repositories for each Borrower.

(d) Merged credit reports

A merged credit report is issued by a credit repository or a consumer reporting agency or bureau and includes the credit information from at least two credit repositories. A merged credit report includes all credit repository credit data for an individual Borrower. A joint merged credit report includes all credit repository credit data on two individual Borrowers.

The credit information from each credit repository may be presented in a stacked merged credit report (that is, all records from all repositories are included in the report), or the consumer reporting agency or bureau may eliminate duplicate records through an automated merge process. Each consumer reporting agency or bureau may have a slightly different merge logic to eliminate duplicate records.

If the Seller chooses to use merged or joint merged credit reports, Freddie Mac requires the credit repository or consumer reporting agency or bureau to obtain reports from at least two credit repositories for each Borrower.

(e) Residential Mortgage Credit Report

A Residential Mortgage Credit Report (RMCR) is a detailed account of the credit, employment and residence history as well as public records information prepared by a consumer reporting agency for an individual Borrower or two individual Borrowers. The RMCR was designed for use in mortgage financing of 1- to 4-unit dwellings. Credit information from two national repositories is merged and verified by a consumer reporting agency or bureau before it is sent to the user. The consumer reporting agency or bureau may also verify other information not contained in repository records.

(f) Credit report standards

All credit reports must meet the applicable standards from the following table:

Standard	In-file credit report	Merged credit report	RMCR
Must have no erasures, alterations, correction fluid or correction tape and must be filed in the Mortgage file	X	X	X

Standard	In-file credit report	Merged credit report	RMCR
Show the names of the national credit repositories from which the information was obtained. The report must contain information from at least two national credit repositories for each area in which the Borrower has resided during the most recent two-year period. For Borrowers with frozen credit, no more than one of the national credit repositories can have frozen credit information. Separate credit repository inquiries are necessary when multiple Borrowers have maintained credit individually.	X	X	X
Be issued by a consumer reporting agency that obtains or verifies all information from sources other than the applicant	X	X	X
Present all credit data in a format that is easy to read and free of excessive coding. All codes must be clearly defined.	X	X	X
Identify the full name, address and telephone number of the repository, consumer reporting agency or bureau issuing the report	X	X	X

Standard	In-file credit report	Merged credit report	RMCR
Identify who ordered the report and who was billed for it (if different from the party who ordered it), unless the billed party has a documented agent or corporate relationship with the lender who ordered the report			X
Be delivered to the office of the requestor	X	X	X
Show responsive statements concerning items on the report. For example, the consumer reporting agency must report “unable to verify” or “employer refused to verify.” The same responsive reporting applies to trade and credit history.			X
List all inquiries made within the previous 90 days	X	X	X

Standard	In-file credit report	Merged credit report	RMCR
Show a positive statement that the consumer reporting agency attempted to verify the Borrower's current employment and, if obtainable, income. The report must show the date of verification. Verification may be made by telephone. If there has been a change in employment in the past two years, the report must also state the Borrower's previous employment and income. In cases in which employment was not verified, the report must indicate why it was not.			X
Include all available public records information. The legal search must disclose whether any judgments, foreclosures, tax liens or bankruptcies were discovered in the public records. Adverse items must be reported as provided under the Fair Credit Reporting Act.	X	X	X

Standard	In-file credit report	Merged credit report	RMCR
<p>List, in all cases, the historical status of each account. This status must be in a “number of times past due” format. Freddie Mac prefers the format of “0 x 30, 0 x 60, 0 x 90 days” late. However, the format of R1, R2, etc., is acceptable if the meaning of the ratings is given and the credit report also gives historical negative ratings, such as “was R3 in 6/84.” As long as its meaning is clear from the credit report, a consecutive numbering sequence for payment history — such as “00010000...” is also acceptable. Statements such as “current,” “as agreed,” or “satisfactory” are not acceptable by themselves because they are too vague.</p>	X	X	X
<p>The consumer reporting agency must interview the subjects of the credit report when the agency has incomplete information or when it discovers information that indicates the possible existence of undisclosed credit information or public records. The interview may be conducted by telephone and should obtain any information necessary to provide a credit report that is factually correct and complete.</p>			X

Standard	In-file credit report	Merged credit report	RMCR
Indicate the dates the accounts were last updated with the creditors. Each account with a balance must have been checked with the creditor within 90 days of the date of the credit report.			X
Indicate the dates the accounts were last updated with the creditors	X	X	
Contain all credit and legal activity that has occurred within a minimum of the last seven years	X	X	X

Standard	In-file credit report	Merged credit report	RMCR
Credit reports received from foreign countries must meet the requirements and standards for domestic reports, including the requirement for information for an RMCR as described in Section 5203.1, including the requirement to contact two national repositories for each area in which the Borrower has resided during the most recent two years. Any credit report that does not meet these standards is not acceptable as documentation for a Mortgage sold to Freddie Mac. All foreign credit reports must be completed in English, or the Seller must provide a translation and warrant that the translation is complete and accurate.	X	X	X

Note:

In addition to reviewing the files delivered by the Seller, Freddie Mac will spot-check credit reports and make other checks to ensure the quality of credit reports used in the underwriting process. If Freddie Mac, in its discretion, determines that a credit report is inadequate, Freddie Mac reserves the right to declare as unacceptable the consumer reporting agency originating the report and the Seller may not use that consumer reporting agency for Mortgages sold to Freddie Mac.

(g) FICO scores

Loan Product Advisor will automatically request Fair Isaac Corporation (FICO®) scores for each Borrower. If the Mortgage is not submitted to Loan Product Advisor, the Seller must request the credit agency or repository to include FICO scores from

all credit repositories on all credit reports. See Section 5203.2 for additional details on FICO scores.

(h) Credit report options for Loan Product Advisor Mortgages

The Seller must include in the Mortgage file a complete set of credit reports for all Borrowers. All credit reports used by the Seller to evaluate the Borrower's creditworthiness, including the calculation of total monthly debt payments, must be of the same type. For example, the Seller may not use a merged credit report for one Borrower and an RMCR for another Borrower.

Freddie Mac encourages the Seller to use the merged or joint merged credit reports obtained through Loan Product Advisor.

If the Seller chooses to use Loan Product Advisor provided merged credit reports, then only those credit reports must be retained in the Mortgage file.

However, the Seller may also use the following credit reports obtained outside of Loan Product Advisor:

- In-file credit reports
- Merged or joint merged credit reports
- RMCR

If the Seller chooses to use credit reports obtained outside of Loan Product Advisor and also prints reports from Loan Product Advisor, the Seller must include in the Mortgage file any credit reports received from Loan Product Advisor and the credit reports obtained outside of Loan Product Advisor.

The Seller may use any of the above credit reports to assess the Borrower's credit reputation and to calculate total monthly debt payments (see also Section 5401.2).

(i) Credit report options for Non-Loan Product Advisor Mortgages

The Seller must include in the Mortgage file a complete set of credit reports for all Borrowers. All credit reports must be of the same type. All in-file credit reports for any one Borrower must be dated within 14 days of each other.

The Seller may use the following types of credit reports:

- In-file credit reports
- Merged or joint merged credit reports
- RMCR

(j) Requirements for credit reports

All credit reports must be dated within 120 days before, as applicable, the Note Date, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing, the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages or the date of the assumption agreement. See Chapter 4402 for the requirements for Seller-Owned Modified and Seller-Owned Converted Mortgages.

5203.2: Credit Scores (05/01/23)

Freddie Mac requires the Seller to use Credit Scores to underwrite Manually Underwritten Mortgages. A Credit Score used to underwrite a Borrower's credit reputation is referred to as an "Underwriting Score." See Sections 5202.3 and 5202.4 for information needed to determine the Borrower has an acceptable credit reputation.

Freddie Mac may require that one Credit Score be identified and delivered for a Mortgage for reasons such as eligibility or pricing. When one Credit Score is required, the Credit Score is referred to as the "Indicator Score." The Indicator Score must be identified in accordance with Section 5203.2(e) and must be delivered in accordance with the requirements of Section 5203.2(f).

To expand the range of Mortgage products with higher-risk characteristics that Freddie Mac is able to purchase, the eligibility of such Mortgages may be limited to those having a minimum Indicator Score. When a minimum Indicator Score is required, it must be met or exceeded for the Mortgage to be eligible for delivery to Freddie Mac.

For example, to be eligible for sale to Freddie Mac, a minimum Indicator Score is required for Manually Underwritten Mortgages that are:

- Mortgages secured by 2- to 4-unit Primary Residences, or
- Cash-out Refinance Mortgages

The minimum Indicator Score requirements are noted in Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements. If the Borrower does not have a usable Credit Score in connection with a purchase transaction or "no cash-out" refinance Mortgage secured by a 1- to 4-unit Primary Residence that is not a super conforming Mortgage, then the use of Noncredit Payment References as described in Section 5202.2(b) is acceptable.

For Loan Product Advisor® Mortgages, Credit Scores are obtained by Loan Product Advisor and provided with the merged credit report(s). A minimum Indicator Score, in most cases, is not required for Accept Mortgages since Loan Product Advisor has made the determination that the Borrower's credit reputation and the Mortgage product are acceptable. If Exhibit 25 requires a minimum Indicator Score for Loan Product Advisor

Mortgages, the Indicator Score delivered by Seller will be used to assess whether or not the minimum Indicator Score requirements have been met. If, however, the Seller does not deliver an Indicator Score, then the Indicator Score determined by Loan Product Advisor will be used to assess whether or not the minimum Indicator Score requirements have been met. An Indicator Score does not indicate that the Borrower's credit reputation is acceptable. Even when the Indicator Score for the Mortgage exceeds the minimum required, the Seller must determine that each Borrower individually, and that all Borrowers collectively, have an acceptable credit reputation.

For Mortgages sold through Cash-Released XChange®, the Seller must deliver ULDD Data Point *Loan Level Credit Score Value* regardless of whether the Mortgage is a Loan Product Advisor Mortgage.

For Non-Loan Product Advisor Mortgages, an Indicator Score is required (see Exhibit 25 for Indicator Score requirements). With the exception of a purchase transaction or "no cash-out" refinance Mortgage secured by a 1- to 4-unit Primary Residence, other than a Manufactured Home, if no Borrower has a usable Credit Score, there can be no Indicator Score for the Mortgage and it is not eligible for sale to Freddie Mac. If the Borrower does not have a usable Credit Score in connection with a purchase transaction or "no cash-out" refinance Mortgage secured by a 1- to 4-unit Primary Residence that is not a super conforming Mortgage, underwriting without credit scores as described in Sections 5202.3 and 5202.5 through 5202.6 is acceptable to evaluate the Borrower's credit reputation.

If no Borrower has a usable Credit Score and an Indicator Score is not required for the Mortgage to be eligible, see Section 5203.2(f) for delivery requirements.

The methods used to obtain, select and identify both Underwriting Scores and Indicator Scores are described in Sections 5203.2(d) and (e).

(a) Types of Credit Scores

Freddie Mac requires the Seller to use a FICO® score, whenever a usable Credit Score is required. FICO scores have different names at each of the three major United States credit reporting companies. All of these scores, however, are developed using the same methods by FICO.

FICO scores are known as:

Credit Reporting Company	FICO Score
Equifax®	Equifax FICO Classic v5
Experian®	Experian/Fair Isaac Risk Model v2
TransUnion®	TransUnion FICO Risk Score 04

Freddie Mac has identified a strong correlation between Mortgage performance and FICO Bureau scores (FICO score). FICO scores range from 300 to 850. The lower the FICO score, the greater the risk of default.

(b) Obtaining FICO scores

FICO scores can be obtained by requesting a credit reporting company (often called a consumer reporting agency, a credit repository or a credit bureau) to provide them as part of the required credit report. The Seller must request FICO scores and accompanying reason codes from at least two of the credit repositories, for each Borrower.

The three credit repositories are:

- Equifax Credit Information Services
- Experian Information Systems and Services
- TransUnion Credit Information Company

The following versions of the FICO score are required for Manually Underwritten Mortgages:

- Equifax FICO Classic v5
- Experian/Fair Isaac Risk Model v2
- TransUnion FICO Risk Score 04

It is unusual for a Borrower who reports credit obligations on the application not to have a FICO score. If no FICO score is received for such a Borrower, the Seller must re-check the information provided when ordering the FICO scores and resubmit a request if an error is identified.

The Seller must obtain FICO scores no more than 120 days prior to, as applicable, the Note Date, the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages or assumption agreement date.

For Construction Conversion and Renovation Mortgages, the Seller must obtain FICO scores no more than 120 days prior to the Effective Date of Permanent Financing.

(c) Usable credit/FICO scores

For Manually Underwritten Mortgages, the Seller must determine that each Credit Score (FICO score) received is usable. For a FICO score to be usable it must be based

on sufficient, accurate information. Too little information, or information that is significantly inaccurate, makes the FICO score unusable for Mortgage underwriting. This is important both to ensure that the FICO score is adequately indicative of a Borrower's credit reputation and to ensure fairness for Borrowers in using Credit Scores to evaluate their overall credit reputation.

(i) Insufficient information

Although FICO scores may be generated if a repository's file includes only one Tradeline, the Seller must not use any FICO score based on fewer than three Tradelines. This is important both to ensure that the FICO score is adequately indicative of a Borrower's credit reputation and to ensure fairness for Borrowers in using Credit Scores to evaluate their overall credit reputation.

Because a merged credit report or Residential Mortgage Credit Report (RMCR) may show more Tradelines than were included in the particular repository's file used to generate the FICO score, the Seller should request that the credit reporting company indicate on the credit report the number of Tradelines that were used to create each FICO score. Alternatively, the Seller may wish to obtain the in-file report used to create each FICO score and use the in-file report to determine if the FICO score was based on at least three Tradelines.

(ii) Inaccurate information

If the credit reporting company reports that the repository file used to create a FICO score contains inaccurate information about a Borrower's credit history, the Seller must determine if the inaccuracy is significant and, if so, it must disregard that FICO score and explain the decision on Form 1077, Uniform Underwriting and Transmittal Summary, or another document in the Mortgage file. However, minor discrepancies in the balances owed or payment amounts on open accounts belonging to the Borrower are not to be considered significant. FICO scores based on information that includes minor discrepancies must be used to select an Underwriting Score for each Borrower and identify an Indicator Score for the Mortgage.

The Seller must disregard FICO scores based on significant inaccuracies. Significant inaccuracies include:

- Public records information on a bankruptcy, foreclosure, judgment or collection that does not belong to the Borrower
- Delinquencies that are reported in error
- One or more Tradelines that do not belong to the Borrower
- Tradelines for accounts for which the Borrower is not the primary account holder, but is listed as an authorized user (authorized user accounts). However, the Seller does not have to disregard the FICO score if the Seller

obtains and retains evidence in the Mortgage file of at least one of the following for each authorized user account:

- Another Borrower on the Mortgage owns the Tradeline in question
- The Tradeline is owned by the Borrower's spouse, or
- The Borrower has been making the payments on the account for the last 12 months

If the Seller is unable to document one of the above three requirements for each authorized user account, the FICO score does not have to be disregarded if the Seller determines that the authorized user accounts have an insignificant impact on the Borrower's overall credit history and the information on the credit report is representative of the Borrower's own credit reputation. The Seller should base its determination on the number of the Borrower's own Tradelines, as well as their age, type, size and the payment history, as compared to the authorized user accounts. The Seller must document its determination on Form 1077 or another document in the Mortgage file.

The Seller must not attempt to adjust the value of a FICO score because some information used to create the score is inaccurate. The Seller may obtain and use a different FICO score from another repository if the score obtained from that repository was not based on similar inaccurate information. This is important both to ensure that the FICO score is adequately indicative of a Borrower's credit reputation and to ensure fairness for Borrowers in using Credit Scores to evaluate their overall credit reputation.

For each Mortgage that the Seller has determined the inaccurate information is significant, the Mortgage file must contain written documentation from the repository of credit information or the creditor reporting the inaccurate information affirming the errors. In addition, the Seller is strongly encouraged to inform the Borrower that, pursuant to rights granted under the federal Fair Credit Reporting Act, the Borrower has a right to contact both the consumer reporting agency (repository) from which the inaccurate FICO score was obtained and the furnisher of the inaccurate credit information to require the disputed credit information to be reinvestigated and corrected. The requirements of this paragraph do not apply to authorized user accounts.

(d) Identifying the Underwriting Score for each Borrower

To use Credit Scores to underwrite the Borrower's credit reputation, the Seller must select a single FICO score for each qualifying Borrower from the FICO scores that were received and determined to be usable as described above.

To identify the Underwriting Score, the Seller must use the middle/lower method.

- If three usable FICO scores are obtained for a Borrower, the Underwriting Score for that Borrower is the one with the middle value. For example, if the FICO scores are 660, 656, 640, the single FICO score selected by the Seller would be 656. When there is a duplicate score, the Seller would select that score to be the Underwriting Score. If the FICO scores for a Borrower are 660, 660 and 640, the Seller would select 660.
- If two usable FICO scores are obtained for a Borrower, the Underwriting Score for that Borrower is the lower of the two FICO scores
- If only one usable FICO score is obtained for a Borrower, that FICO score is the Underwriting Score

(e) Identifying the Indicator Score for the Mortgage when a minimum Indicator Score is required

When a minimum Indicator Score is required to establish eligibility for the product offering, it must be met or exceeded for the Mortgage to be eligible for delivery to Freddie Mac.

Before the Seller can identify an Indicator Score, the Seller must select a single FICO score for each qualifying Borrower as described above.

If a Borrower has no usable FICO score, so no Underwriting Score can be identified for that Borrower, the Seller may use the Underwriting Scores for the remaining Borrowers to identify the Indicator Score. If no Borrower has a usable FICO score, and an Indicator Score is required for the Mortgage to be eligible, there can be no Indicator Score for the Mortgage and it is not eligible for sale to Freddie Mac.

The minimum Indicator Score requirements for Mortgages are noted in the individual chapters or sections for the product offerings and in Exhibit 25.

There are three methods of identifying an Indicator Score, as described in more detail below. Freddie Mac:

- Permits the Seller to use any one of three methods
- Prefers the Seller use one method for all their loans
- Recommends the Seller use the middle/lower then lowest method to identify an Indicator Score

(i) Middle/lower then lowest method

To use the middle/lower then lowest method, the Seller must follow the requirements in the Sections 5203.2(a) through 5203.2(d) to find an Underwriting Score for each qualifying Borrower, and then choose the lowest Underwriting Score as the Indicator Score for the Mortgage. If there is only one qualifying

Borrower, that Borrower's Underwriting Score is the Indicator Score for the Mortgage.

(ii) Middle/lower then average method

The Seller must follow all of the requirements in Sections 5203.2(a) through 5203.2(d) except the Indicator Score would be the average value of all Underwriting Scores.

(iii) Average/average method

The Seller must follow all of the requirements in Sections 5203.2(a) through 5203.2(d) except that the Underwriting Score for each qualifying Borrower would be the average value calculated from all usable FICO scores received for the Borrower. The Indicator Score is the average value of all Underwriting Scores.

The middle/lower then lowest method is the most predictive of the overall credit reputation of the Mortgage.

(f) Documenting and delivering Underwriting and Indicator Scores

When delivering a Minimum Indicator Score, the Seller must:

- Note the Underwriting Scores, the Indicator Score, and how they were identified, on Form 1077 or another similar document in the Mortgage file
- Retain the source documentation for the Indicator Score in the Mortgage file

The Seller must deliver the Indicator Score in the ULDD Data Point *Loan Level Credit Score Value* and must deliver the ULDD Data Point *Loan Level Credit Score Selection Method Type* as follows:

- “Middle Or Lower Then Lowest,” “Middle or Lower Then Average,” or “Average Then Average”
- If the Seller enters a usable Credit Score value in the ULDD Data Point *Loan Level Credit Score Value*, then the Seller must enter a Credit Score method of “Middle Or Lower Then Lowest,” “Middle or Lower Then Average,” or “Average Then Average” in the ULDD Data Point *Loan Level Credit Score Selection Method Type*, as applicable
- If the Seller determines there is no usable Indicator Score in the Mortgage file due to insufficient credit information, the Seller must select the valid value of “Insufficient Credit History” in the ULDD Data Point *Credit Score Impairment Type*, as applicable
- If the Seller determines there is no usable Indicator Score in the Mortgage file due to significant inaccurate credit information, the Seller must select the valid value

of “Significant Errors Score” in the ULDD Data Point *Credit Score Impairment Type*, as applicable

If the Seller does not deliver an Indicator Score for Loan Product Advisor Mortgages, the Seller must enter the Key Number (which is referred to as the Loan Prospector® AUS Key Number in Loan Selling Advisor®) in the ULDD Data Point *Automated Underwriting Case Identifier* so that Freddie Mac may use the Indicator Score from the Last Feedback Certificate to determine the Mortgage Indicator Score. If the Seller does not deliver the Key Number, the Mortgage will not qualify as a Loan Product Advisor Mortgage.

(g) Assessment of Credit Fees for Mortgages with certain Indicator Scores

The Base Grid Credit Fees in Price, by Loan Purpose Type, in Exhibit 19, Credit Fees, assume that the middle/lowest then lowest method has been used to identify the Mortgage Indicator Score.

The Alt FICO Credit Fee in Price in Exhibit 19 will be assessed when a Base Grid Credit Fee in Price, by Loan Purpose Type, is applicable with a credit fee rate greater than 0% and a method other than the middle/lowest then lowest method is used for identifying the Mortgage Indicator Score.

Unless the Mortgage is sold through Cash-Released XChange, for Base Grid Credit Fees in Price, by Loan Purpose Type, in Exhibit 19, applicable to Loan Product Advisor Mortgages, the applicable Credit Fee in Price will be assessed using the loan-to-value (LTV) ratio calculated by Freddie Mac based on data delivered by the Seller and the Indicator Score found on the Last Feedback Certificate.

For Mortgages sold through Cash-Released XChange, the Mortgage will be assessed a Base Grid Credit Fee in Price, by Loan Purpose Type, in Exhibit 19, based on the ULDD Data Point *Loan Level Credit Score Value*.

If the Seller does not deliver an Indicator Score or, in lieu of an Indicator Score, the Key Number, the Mortgage may be assessed the < 640 Base Grid Credit Fee in Price, by Loan Purpose Type, in Exhibit 19.

For Mortgages delivered with no usable Credit Score due to insufficient information or inaccurate information in accordance with Section 5203.2(f), Freddie Mac will not assess the Base Grid Credit Fee in Price, by Loan Purpose Type, in Exhibit 19.

The Seller must refer to Exhibit 19, Credit Fees, for information related to Credit Scores. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

Chapter 5301: General Requirements for All Stable Monthly Income and Asset Qualification Sources

5301.1: General requirements for all stable monthly income (12/01/21)

(a) Analysis of stable monthly income amount

The analysis, verification, calculation and determination of the stable monthly income amount is integral to the overall qualification of the Borrower and determination of the Borrower's capacity to repay the Mortgage and other monthly obligations.

Topic 5300 provides requirements and guidance for the determination of stable monthly income. The Seller must determine when additional analysis and documentation is needed to support the determination of stable and consistent monthly income.

If the Borrower is obligated to pay alimony and has more than 10 months remaining, the amount of the monthly alimony payment must be deducted from the stable monthly income. See Section 5401.2(a)(3).

(b) General requirements for all stable monthly income

Stable monthly income is the Borrower's verified gross monthly income from all acceptable and verifiable sources that can reasonably be expected to continue for at least the next three years. For each income source used to qualify the Borrower, the Seller must determine that both the source and the amount of the income are stable, with a consistent level of earnings. Income that is paid to the Borrower in cryptocurrency may not be used for qualification.

Regardless of the underwriting path, the income used to qualify the Borrower (whether or not specifically addressed in Topic 5300) and the documentation in the Mortgage file must be evaluated for stable monthly income qualification requirements and must meet the requirements of Topic 5300. Income that does not meet these requirements or is not calculated correctly may invalidate the Loan Product Advisor Risk Class on the Feedback Certificate.

The Seller must include a written analysis of the income and amount in the Mortgage file. In addition, all documentation used to establish stable monthly income must be retained in the Mortgage file.

(c) Income stability and history requirements

The Seller must consider the length of history of the income and whether the earnings have been level and consistent. When evaluating stability of income based upon historical receipt, additional layering of risk may be present depending upon the degree of income fluctuation. As a result, the Seller must determine when additional documentation (e.g., an additional year of earnings history) is necessary to support income stability.

In most instances, a two-year history of receiving a consistent level of income is required in order for the income to be considered stable and used for qualifying. While the source of income may vary, the Borrower must have a consistent level of income despite changes in the sources of income. If the Borrower has less than a two-year history of receiving income, the Seller must provide a written analysis to justify the determination that the income that is used to qualify the Borrower is stable.

Refer to Section 5303.4 for income calculation guidance and requirements.

(d) Continuance

For all income used to qualify the Borrower, the Seller must determine whether the income is reasonably expected to continue. This determination must focus on the Borrower's past employment/self-employment history, history of receipt of other income and the probability of continued consistent receipt of the income used to qualify the Borrower. At a minimum, the Seller must base the determination on the requirements of Topic 5300, and any other documentation contained in the Mortgage file. Additional documentation may be required, as described in Section 5302.1.

The Seller may consider all income for qualifying the Borrower, provided the Seller does not have knowledge, information or documentation that contradicts a reasonable expectation of continuance or probability of consistent receipt over at least the next three years.

Continuance of income is categorized as follows:

- Income and earnings types typically without documentable continuance (likely to continue) (**Chart A**)
- Income types with documentable continuance (**Chart B**)
- Income types that may or may not have documentable continuance, depending upon the source (e.g., government program, private insurer) and terms of the specific income type (e.g., retirement, long-term disability) (**Chart C**)

Chart A:**Income and earnings types typically without documentable continuance**

For earnings and income types that typically do not have documentable continuance, the Seller is not required to obtain documentation to verify income continuance, absent any knowledge or information that the income is no longer being received or is likely to cease. However, when the Seller has knowledge or information that the income may not be reasonably expected to continue, the Seller must conduct additional evaluation and/or obtain documentation in order to determine if the income can be used. For example, if a Borrower has been receiving additional employed income such as overtime or bonus, but the Seller has information or documentation evidencing that the income is already discontinued or will be discontinued due to the completion of a project or termination of a bonus program, the “likely to continue” requirement would not be met and the income cannot be used for qualification purposes.

Earnings types and income types	Continuance requirements
Base non-fluctuating employment earnings	
Fluctuating hourly employment earnings	
Commission income	
Bonus income	
Overtime income	
Restricted stock and restricted stock units subject to performance-based vesting provisions	Income must be likely to continue for at least the next three years. The Seller is not required to obtain documentation to verify income continuance, absent any knowledge, information or documentation that the income is no longer being received or is likely to cease.
Tip income	
Automobile allowance	
Military entitlements	
Military Reserve or National Guard	
Unemployment (associated with seasonal employment)	

Chart A:**Income and earnings types typically without documentable continuance**

Self-employment income
Royalty payments (two-year history)
Foster-care income
Housing or parsonage allowance
Mortgage Credit Certificate
Rental income
Tax-exempt income

Chart B:**Income types with documentable continuance**

For income types with documentable continuance, the documentation requirements for each individual income type listed within Topic 5300 provide the minimum documentation required in order for the Seller to verify income continuance for at least three years.

Highlights of the requirements from the individual income types are provided for illustrative purposes only.

Income types	Continuance requirement highlights
Mortgage differential	
Notes receivable	
Royalty payments (one-year history)	Document duration of payments
Restricted stock and restricted stock units subject to time-based vesting provisions	(Refer to Sections 5303.3, 5305.1 and 5305.2)
Trust income (fixed payment)	

Chart B:**Income types with documentable continuance**

Alimony, child support and/or separate maintenance	Document duration of obligation (Refer to Sections 5305.1 and 5305.2)
Homeownership Voucher Program (HOV)	Document duration of HOV term limit for assistance (Refer to Sections 5305.1 and 5305.2)
Dividend and interest	
Capital gains	
Trust income (fluctuating payments)	Document sufficient assets (Refer to Sections 5305.1 and 5305.2)
Retirement account distributions as income	

Chart C:**Income types that may or may not have documentable continuance**

Certain income types are comprised of multiple income sources, each of which may have specific requirements with respect to continuance, whether defined or undefined. For this reason, this grouping of income types may or may not have documentable continuance. For example, if the source of retirement income is Social Security retirement benefits, no additional documentation of continuance is required; however, if the source is a retirement annuity from an insurance company, there will generally be a defined term in which case continuance must be documented.

Highlights of the requirements from the individual income topics are provided for illustrative purposes only.

Chart C: Income types that may or may not have documentable continuance	
Income types	Continuance requirement highlights
Retirement income^(b) (e.g., Social Security, defined benefit pension, annuity, other similar benefits)	
Survivor and dependent benefits^(b) (e.g., Social Security Survivor Benefits, Survivors' Department of Veterans Affairs (VA) benefits, other similar benefits)	Sellers must be knowledgeable about the source of the specific income type in order to determine whether or not documentable continuance is applicable. This includes, but is not limited to, knowledge of factors with respect to whether the payments are received pursuant to a written agreement, government program, law and/or regulation, as well as the applicable eligibility criteria governing the continued receipt of the income.
Long-term disability income^{(a), (b)} (e.g., Social Security disability benefits, VA disability compensation, worker's compensation, private disability insurance)	<p>^(a) Pending or current re-evaluation of medical eligibility for insurance and/or benefit payments is not considered an indication that the insurance and/or benefit payment will not continue.</p> <p>^(b) Refer to Section 5305.1 for general requirements for these income types and Section 5305.2 for topic-specific requirements for these income types.</p>
Social Security Supplemental Security Income (SSI)^{(a), (b)}	
Public assistance income^(b) (e.g., Temporary Assistance for Needy Families (TANF))	

5301.2: General requirements for all stable monthly asset qualification sources (07/06/17)

Effective July 6, 2017, the content of this section has moved from Section 5301.1.

In addition to the income sources described above, asset qualification sources that meet the requirements of Topic 5300, including Chapter 5307, may also be used to qualify the Borrower for the Mortgage. For each asset qualification source used to qualify the Borrower, the Seller must determine that both the source of the asset and the amount of the asset source used to qualify the Borrower are reasonable and stable.

Regardless of the underwriting path, the asset qualification sources used to qualify the Borrower and the documentation in the Mortgage file must be evaluated for stable monthly asset qualification requirements. Asset qualification sources that do not meet these requirements or are not calculated correctly may invalidate the Loan Product Advisor Risk Class on the Feedback Certificate.

The Seller must include a written analysis of the asset qualification source and amount in the Mortgage file. In addition, all documentation used to establish stable monthly asset qualification must be retained in the Mortgage file.

5301.3: Note Date references (07/06/17)

Effective July 6, 2017, the content of this section has moved from Section 5301.1.

For the purposes of Topic 5300, all references to the Note Date refer to the modification date for Seller-Owned Modified Mortgages, the Conversion Date for Seller-Owned Converted Mortgages, the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, or the assumption agreement date, as applicable.

Chapter 5302: General Requirements for Documentation Used to Verify Employment and Income

5302.1: Introduction to documentation requirements (12/01/21)

For all income and each qualification source used to qualify the Borrower, the Seller must obtain the required documentation and verifications, as listed in the respective income sections of Topic 5300. Additional documentation may be necessary to evaluate, justify and explain the qualification of the Borrower. This includes scenarios in which the Seller has knowledge that the documentation originally provided by the Borrower may not be reflective of the Borrower's current level of income, even though it meets the age of documentation requirements. For example, a more recent paystub may be necessary if the Borrower's industry was impacted by economic conditions or wide-spread business closures after the original paystub was provided, potentially affecting hours worked and income received. All documentation must be maintained in the Mortgage file.

For information about general requirements for verifying documents and age of documentation, refer to:

- Section 5102.3 for general requirements for verifying documents
- Section 5102.4 for age of documentation requirements

5302.2: Employed income documentation and verification requirements (06/01/22)

This section contains income documentation and verification requirements for the following subjects:

- Year-to-date (YTD) paystub (Section 5302.2(a))
- W-2 form (Section 5302.2(b))
- Written verification of employment (written VOE) (Section 5302.2(c))
- 10-day pre-closing verification (10-day PCV) (Section 5302.2(d))

(a) YTD paystub(s)

The following chart contains requirements and guidance pertaining to YTD paystubs:

Subject	Requirements
YTD paystubs	<p>The YTD paystub(s) must enable the Seller to determine and support the stable monthly income used for qualification. At a minimum, the paystub must:</p> <ul style="list-style-type: none">■ Be dated no more than 30 days before the Application Received Date in addition to complying with the age of documentation requirements in Section 5102.4■ Clearly identify the employer's name, the Borrower as the employee and the date issued■ Show the time period covered, the current pay period dates and earnings, and the complete YTD earnings <p>YTD paystubs with less than the required information</p> <p>When the YTD paystub does not contain the required information (e.g., paystubs that are handwritten or typed by the employer and do not contain YTD earnings), the Seller must verify the required information by obtaining additional documentation (e.g., written VOE, a review of payroll deposits on bank statements).</p>

(b) W-2 forms

W-2 form(s) must be the complete Internal Revenue Service (IRS) Form W-2 distributed by the employer issued for the preceding tax year(s).

The following documentation may be used in lieu of the W-2 form:

Subject	Requirements
Year-end YTD paystub or military Leave and Earnings Statement	The year-end YTD paystub(s) or military Leave and Earnings Statement may be used in lieu of the W-2 form(s) provided the documentation reflects the complete income earned in the previous calendar year
W-2 transcript for all income and earnings types	The W-2 transcript(s) may be used in lieu of the W-2 form(s) provided the transcript reflects the complete income earned in the previous calendar year

(c) Written VOE

All written VOEs must contain the following information:

- Signature, printed name, title and contact information (e.g., phone number) of the authorized employer representative who verified the information and the date completed
- Borrower's name and employer's name and address

If the employer provides additional information, such as the probability of continued employment and/or income, or comments, the Seller must consider the information with the income and employment analysis.

Refer to Section 5102.3 for additional information about verifying documents.

The following chart contains additional requirements pertaining to written VOEs:

Subject	Requirements
Current employment and income	<ul style="list-style-type: none">■ Date employment began■ Current position■ Gross base non-fluctuating earnings per pay period (e.g., monthly, bi-weekly)■ Fluctuating hourly earnings and rate of hourly pay■ Year-to-date earnings with paid through date■ Earnings from either the most recent one or two-year calendar period, in accordance with the requirements in Chapter 5303■ Earnings (e.g., base non-fluctuating, fluctuating hourly, bonus, overtime, tips, commissions) must be split into separate categories for both YTD and prior year(s) earnings
Current military active-duty employment base (basic) pay and entitlement income	<ul style="list-style-type: none">■ Date employment began■ Current position■ Base (basic) monthly pay■ Current monthly entitlement income (e.g., rations, clothing, quarters)■ Year-to-date earnings with paid through date■ Earnings from most recent one-year calendar period

Subject	Requirements
Current military Reserve or National Guard income	<ul style="list-style-type: none"> ■ Date employment began ■ Current position ■ Year-to-date earnings with paid through date ■ Earnings from most recent one-year calendar period
Previous employment and income	<ul style="list-style-type: none"> ■ Date employment began ■ Date employment concluded ■ Position held ■ Gross earnings amount

(d) 10-day pre-closing verification (10-day PCV)

Verification of the Borrower's current employment (10-day PCV) must be obtained in accordance with the requirements of this section. Refer to Sections 5303.2(c), 5303.2(e) and 5303.3 for additional information about when a 10-day PCV is required.

The 10-day PCV, when required, must either be obtained no more than 10 Business Days prior to the Note Date, or after the Note Date but prior to the Delivery Date.

The following chart contains requirements for eligible 10-day PCV types:

10-day PCV types	Requirements
Verbal verification of employment (verbal VOE)	<p>The Mortgage file must include Form 90, Verbal Verification of Employment, or a similar written document that includes all of the following:</p> <ul style="list-style-type: none"> ■ Name of the Borrower, employer's name, name and title of the individual contacted at employer, date of contact, and the phone number used to contact the employer ■ Name of the third-party source used to obtain the phone number for the employer (e.g., phone directory, reliable internet source, directory assistance, etc.) ■ Borrower's current employment status ■ Any additional information that was verified ■ Name, title and employer of the representative who contacted the Borrower's employer and completed the Verbal VOE

10-day PCV types	Requirements
E-mail verification of employment (e-mail VOE)	<p>The Mortgage file must include an e-mail exchange with the Borrower's employer from the independently obtained employer's work e-mail address that, at a minimum, includes all of the following:</p> <ul style="list-style-type: none"> ■ Borrower's name and employer's name ■ Name and title of the individual contacted at the employer, date of contact and the individual's work e-mail address ■ Borrower's current employment status <p>In addition, the Mortgage file must include:</p> <ul style="list-style-type: none"> ■ Information about the third-party source used to obtain the employer's e-mail (e.g., a reliable internet source), and ■ Name, title and employer of the representative who contacted the Borrower's employer and obtained the e-mail verification
Employment commencing after the Note Date (refer to Section 5303.2 (e))	<p>In addition to the verbal or e-mail VOE requirements above, for employment commencing after the Note Date (refer to Section 5303.2(e)), the Seller must confirm and include on the verbal or e-mail VOE document that the terms reflected on the non-contingent offer letter or employment contract accepted by the Borrower have not changed since the acceptance date, including employment start date, base non-fluctuating salary and any other relevant income or employment information used to qualify the Borrower</p>
Written VOE	<p>A written VOE verifying the current employment status of the Borrower in accordance with the requirements of Section 5302.2(c)</p>
Military Leave and Earnings Statement	<p>A military Leave and Earnings Statement dated no more than 120 days prior to the Note Date</p>
Third-party employment verification service provider – electronically generated	<p>Refer to Section 5302.3 for third-party verification requirements.</p>
Automated employment assessment with Loan	<p>Refer to Chapter 5905 for verification requirements.</p>

10-day PCV types	Requirements
Product Advisor® using account data	

5302.3: Third-party verification service providers: employment and income verifications (03/02/22)

Employment, income and 10-day pre-closing verifications obtained through third-party verification service providers are acceptable, provided that the following qualifications are met:

- The verifications must be received by the originator directly from the third-party verification service provider
- If any required information is missing, the Seller must obtain additional documentation to supplement the third-party verification
- The Seller is responsible for ensuring the accuracy and integrity of the information provided by the third-party verification service providers
- The Seller must verify that all third-party verification service providers have procedures to comply with quality control requests for reverification from Freddie Mac, the Seller and/or Servicer

(a) Employment and income verifications

A copy of the verification must be retained in the Mortgage file and must meet the following requirements:

- Employment and income verifications must contain sufficient information to determine stable monthly income in accordance with the requirements of Topic 5300
- If the verification is completed using employment and/or income information from an electronic database, the verification must evidence that the information in the database is no more than 35 days old

Refer to Section 5102.4 for more information about the age of documentation requirements.

In lieu of the requirements of this section, for Mortgages using automated income assessment with Loan Product Advisor® using employer data that receive a Risk Class of Accept and are underwritten using income types that are eligible for representation and warranty relief as described in Section 5901.5(a), see Section 5901.3 for requirements pertaining to third-party verification service providers and income verifications from third-party verification service providers.

In lieu of the requirements of this section, for Mortgages using automated income assessment with Loan Product Advisor using account data that receive a Risk Class of Accept and are underwritten using income types that are eligible for representation and warranty relief as described in Section 5904.5(a), see Section 5904.3 for requirements pertaining to third-party service providers and the verification reports.

(b) 10-day pre-closing verifications (10-day PCV)

Verification of the Borrower's current employment (10-day PCV) must be obtained in accordance with the requirements of this section. Refer to Sections 5303.2(c), 5303.2(e) and 5303.3 for additional information about when a 10-day PCV is required.

The 10-day PCV, when required, must either be obtained no more than 10 Business Days prior to the Note Date, or after the Note Date but prior to the Delivery Date.

Employment information must be verified and documented by the third-party verification service provider directly through the electronic database of the employer or the employer's third-party payroll services provider and must contain the following information:

- Name of Borrower
- Name of employer
- Borrower's current employment status
- Any additional information that was verified
- Date employment information was issued from the employer to the third-party verification services provider (e.g., effective date, current as of date)
- Date verification was issued to the Seller by third-party verification services provider

The form used by the third-party verification services provider must contain the name and contact information of the provider.

5302.4: Tax returns and tax return information: Documentation and verification requirements (02/01/23)

This section contains requirements for the following topics:

- Tax return requirements (Section 5302.4(a))

- Age of tax return requirements (Section 5302.4(b))
- Internal Revenue Service (IRS) tax transcripts (Section 5302.4(c))
- When tax returns are required (Section 5302.4(d))
- Unreimbursed employee expenses reported on tax returns (Section 5302.4(e))

Under certain circumstances, the Taxpayer First Act requires that the taxpayer's consent be obtained prior to the use and disclosure of the taxpayer's tax return or tax return information to a third party. If taxpayer consent is required under the Act, Sellers must ensure that the form of consent obtained from the taxpayer permits the use and sharing of the tax return or tax return information with and by any actual or potential owners of the Mortgage, as well as their service providers, successors and assigns. The signed consent form must be obtained in a timely manner and placed in the Mortgage file. See Section 3301.11.

(a) Tax return requirements

Tax returns must be:

- The Borrower's signed copy of the U.S. federal income tax return(s) that were most recently filed with the Internal Revenue Service (IRS)
- A complete tax return, including all applicable schedules and forms (which includes all W-2s, K-1s and 1099s)

The following are acceptable alternatives for the Borrower's signature on the tax return(s):

- Evidence the tax returns were filed electronically (e.g., signed Form 8879, IRS e-file Signature Authorization or equivalent), or
- Tax transcripts that validate the information on the unsigned tax returns, or
- A completed IRS Form 4506-C signed by the Borrower, or alternate form acceptable to the IRS that authorizes the release of comparable tax information to a third party

(b) Age of tax return requirements

The most recent federal income tax return is the last tax return, individual and/or business, that was filed with the IRS by the Borrower and, if applicable, the Borrower's business. Sellers are encouraged to always confirm with the Borrower that the tax returns provided are the tax returns most recently filed with the IRS.

The Seller must determine the stable monthly income which may require additional documentation and analysis. Refer to Section 5304.1(d) for additional guidance about self-employed income when the tax returns for the most recent calendar year are not yet available.

At a minimum, the following date and documentation requirements must be met, based on the Application Received Date and the Note Date for the Mortgage:

(i) For Mortgages with Note Dates on or after November 1, 2022

Application Received Date	Note Date	Age of tax return and other documentation requirements
Before: April 18, 2023	On or after: November 1, 2022 Before: May 31, 2023	<ul style="list-style-type: none"> ■ Most recent federal income tax return(s) filed with the IRS ■ The most recent tax return(s) must be no older than 2021
On or after: April 18, 2023	Before: May 31, 2023	If the Borrower has not filed the 2022 tax return(s) with the IRS: <ul style="list-style-type: none"> ■ The most recent tax returns must be no older than 2021 ■ The Seller must obtain: <ul style="list-style-type: none"> □ IRS confirmation verifying tax transcript(s) are not yet available for the tax return(s) (individual, and business, if applicable) from the 2022 tax year¹; and □ Evidence of completed IRS tax filing extension(s) for the 2022 tax year (e.g., if using IRS tax extension forms to evidence tax filing extension, include IRS Form(s) 4868 and/or 7004, as applicable)²;
All	On or after: May 31, 2023 Before: November 1, 2023	<ul style="list-style-type: none"> ■ The most recent tax return(s) must be no older than 2022 ■ Use of a tax filing extension for the 2022 tax year is not permitted.
All	On or after: November 1, 2023	

¹ If the IRS extends the tax filing due date, the IRS confirmation is required for Mortgages with Application Received Dates on or after the IRS income tax filing due date, or May 31, 2023, whichever occurs first; and Note Dates on or after the last day of the month following the IRS income tax filing due date, or June 30, 2023, whichever occurs first.

² If the IRS extends the tax filing due date, evidence of the completed IRS tax filing extension is required for Mortgages with Application Received Dates on or after the IRS income tax filing due date and Note Dates on or after the last day of the month following the IRS income tax filing due date.

For Mortgages using automated income assessment with Loan Product Advisor® using tax return data, see Section 5903.6 for age of tax return requirements.

(ii) For Mortgages with Note Dates before November 1, 2022 and Settlement Dates on or after February 1, 2023

Apply the age of tax return and other documentation requirements as shown in the table in Section 5302.4(b)(i); however, the prior calendar year may replace the calendar year shown in the table.

For Mortgages using automated income assessment with Loan Product Advisor using tax return data, see Section 5903.6 for age of tax return requirements.

(c) IRS tax transcripts

If a tax transcript is obtained and contains information sufficient to meet verification requirements in Topic 5300, it may be used in lieu of other required documentation (e.g., IRS Form W-2); however, the information provided on the tax transcript often lacks certain information needed to fully evaluate the stable monthly income.

For example, individual rental property data, partnership and S corporation information is not clearly delineated in the tax transcripts. Conversely, the sole proprietorship information for Schedule C that is contained in a tax transcript may be an effective documentation alternative when reviewing the impact of a business loss incurred by self-employment. Refer to Section 5304.1(e) for additional information.

IRS confirmation verifying transcripts are not yet available for the prior calendar year are always recommended, and in certain instances are required. Refer to Section 5302.4(b) for additional information about age of tax return requirements.

(d) When tax returns are required

The Seller must obtain the Borrower's most recent federal income tax return(s) for certain types of income and/or employment characteristics if using the income to qualify the Borrower. Links to the topic specific requirements are provided in the chart below.

Income types and/or employment characteristics	Location
Tip income – Cash and charge tips reported on IRS Form 4137	Section 5303.3
Income from employment by a family member, property seller, broker or other interested party to the transaction	Section 5303.2(d)
Employed income from a foreign source	Section 5303.2(d)
Income reported on IRS Form 1099	Section 5303.2(d), Chapter 5304
Self-employed income	Chapter 5304

Income types and/or employment characteristics	Location
Dividend and interest income	Section 5305.2
Capital gains income	Section 5305.2
Royalty payments	Section 5305.2
Trust income	Section 5305.2
Non-employment/non-self-employment income from a foreign source	Section 5305.2
Tax-exempt income (optional)	Section 5305.2
Rental income	Chapter 5306

(e) Unreimbursed employee expenses reported on tax returns

Unreimbursed employee expenses reported on the Borrower's federal individual income tax returns are not required to be deducted from the Borrower's income.

5302.5: IRS Form 4506-C requirements for all income and asset qualification sources (03/02/22)

All Borrowers, whose income is used to qualify or whose assets are used as a basis for repayment of obligations in accordance with the requirements in Section 5307.1, are required to sign Internal Revenue Service (IRS) Form 4506-C (or an alternate form acceptable to the IRS that authorizes the release of comparable tax information to a third party). The Form 4506-C must be signed no later than the Note Date.

If submitting the Form 4506-C to the IRS, the Seller must ensure that the IRS receives the form prior to the form's expiration date. The Seller must retain the tax documentation received back from the IRS in the Mortgage file.

For Borrowers with income that is derived from sources in Puerto Rico, Guam or the U.S. Virgin Islands that are exempt from federal income taxation under the Internal Revenue Code, the above requirements apply, except as follows:

- In lieu of a Form 4506-C, Borrowers with income that is derived from sources in Puerto Rico must sign the most recent version of Commonwealth of Puerto Rico Form 2907 titled "Request For Copy of the Return, Estate or Gift Certificate of Release" (Modelo SC 2907 "Solicitud De Copia De Planilla, Relevo De Herencia Y De Donacion") for submission to the Puerto Rico Department of the Treasury, Internal Revenue Area

- Borrowers with income that is derived from sources in Guam or the U.S. Virgin Islands must sign the Form 4506-C (or an alternate form that authorizes the release of comparable tax information to a third party) for submission to the Guam Department of Taxation and Revenue or Virgin Islands Bureau of Internal Revenue, as applicable

For Mortgages using automated income assessment with Loan Product Advisor® using employer data that receive a Risk Class of Accept and are underwritten using income types that are eligible for representation and warranty relief as described in Section 5901.5(a), see Section 5901.5(b) for requirements pertaining to IRS Form 4506-C.

For Mortgages using automated income assessment with Loan Product Advisor using account data that receive a Risk Class of Accept and are underwritten using income types that are eligible for representation and warranty relief as described in Section 5904.5(a), see Section 5904.5(b) for requirements pertaining to IRS Form 4506-C.

Chapter 5303: Employed Income

5303.1: General requirements for all employed income (05/05/21)

The Seller must determine that the Borrower's income is stable and likely to continue at the level used to qualify for at least the next three years. The Seller must analyze all income documentation while taking into consideration the characteristics of the employed income (e.g., employment source, income type, and stability of the employment history, including any gaps in employment).

A Borrower who has had different types of employment in the past may be considered to have stable income if the income amount has remained at a consistent level. When evaluating a Borrower who has changed jobs frequently, the Seller must focus on whether the changes have affected the Borrower's ability to pay the Borrower's obligations.

5303.2: Primary and secondary employment and income (02/05/23)

Primary employment is considered as the Borrower's primary source of employed income whether derived from employment such as full-time employment, part-time employment, full-time and/or part-time seasonal employment.

Secondary employment is considered as any type of employment (e.g., second part-time job or multiple jobs) that is in addition to the Borrower's primary employment.

(a) Employment history requirements – primary and secondary employment

(i) Primary employment

In most instances, the Borrower should have at least a two-year history of primary employment documented on Form 65, Uniform Residential Loan Application and verified in accordance with Topic 5300.

For Borrowers who are active-duty members of the United States Armed Forces, a history of military employment is not required for the employment to be considered stable.

The tenure of the Borrower's employment with the same employer or in the same or similar industry lends support to the analysis of employment stability.

When a Borrower has less than a two-year history of primary employment, the Seller must provide its justification for determining that the employment is stable. When making this determination, the Seller must take into consideration factors such as income and/or employment characteristics and the overall layering of risk factors, including the Borrower's demonstrated ability to repay obligations.

Examples that may support less than a two-year history of primary employment include, but are not limited to, the following:

- For a Borrower returning to the workforce after a period of extended absence, for any reason, documentation is provided to support a stable employment history that directly preceded the extended absence
- For a Borrower new to the workforce, documentation is provided that supports the Borrower's recent attendance at school or in a training program prior to their current employment

When the Borrower's employed income is derived from fluctuating hourly employment earnings, in no event may the employment history be less than 12 months.

(ii) Secondary employment

In most instances, the Borrower should have at least a two-year history of secondary employment for the employment to be considered stable. Under certain circumstances, when a Borrower has less than a two-year secondary employment history but has at least a 12-month history, the Seller may be able to justify and determine the employment is stable. Examples that may support less than a two-year history of secondary employment include, but are not limited to, the following:

- The Borrower previously held a job with base non-fluctuating earnings working 40 hours per week for multiple years; however, due to reasons such as position elimination, work force reduction, or illness, the Borrower is no longer employed at this job and is now working at multiple part-time jobs that are similar in hours and pay, when combined, to the previous full-time job. Since the Borrower's full-time employment ended 18 months ago, the length of employment at each part-time job is in the range of 13 to 15 months. In this scenario, the Seller may be able to justify an employment history of less than two years for the secondary and additional jobs provided the earnings are consistent and the Borrower has exhibited the ability to repay obligations.

- The Borrower is employed in the educational system as a teacher. During the previous summer the Borrower taught summer school within the same educational system and is now starting summer school teaching for the current year. Although the two-year history is not yet fully developed, given the job type and current employment situation, the Seller may be able to justify including the summer school income provided an accurate qualifying amount can be established and documented based on the previous and current earnings. Additional documentation to determine the stable monthly income may be appropriate (e.g., how many classes, how much, is it similar to prior year).

The requirements and guidance in this section are to be used in conjunction with the requirements and guidance in this chapter and in Section 5301.1.

(b) Earnings types – requirements and guidance

The following requirements and guidance apply to all primary and secondary employed income and all applicable employment characteristics including, but not limited to, full-time, part-time and seasonal employment.

Refer to Section 5303.4 for information about income calculation requirements and guidance.

Earnings type	Requirements and guidance
Base non-fluctuating employment earnings	<p>For the purpose of determining stable monthly income, base non-fluctuating employment earnings are considered to be earnings with a pre-determined and agreed upon rate of pay and number of hours worked each pay period.</p> <ul style="list-style-type: none"> The pay rate and number of hours worked must be reflected on an ongoing consistent basis for each pay period and be fully supported by the year-to-date income. In addition, if the annual salary is reported on the income verification documentation, that may be considered additional confirmation of base non-fluctuating earnings. Base non-fluctuating earnings may include both salaried and hourly earnings; however, the pay rate and number of hours worked must not fluctuate between pay periods Base non-fluctuating earnings may include military base (basic) pay. For members of the United States Armed Forces, active-duty pay is considered base non-fluctuating

Earnings type	Requirements and guidance
	<p>earnings.</p> <ul style="list-style-type: none"> ■ Base non-fluctuating earnings may include part-time earnings, provided the number of hours worked each pay period are pre-determined and the same, as outlined above <p>Base non-fluctuating earnings do not include additional employed income (e.g., commission, bonus, overtime, tips). Refer to Section 5303.3 for requirements and guidance pertaining to additional employed income.</p>
Fluctuating hourly employment earnings	<p>For the purpose of determining stable monthly income, fluctuating hourly employment earnings are considered to be wages that are based on an hourly rate of pay and where the number of hours fluctuate each pay period. The required minimum 12-month history must be derived from either the Borrower's current hourly employment or a combination of current and prior hourly employment. Fluctuating hourly employment earnings are typically representative of non-exempt earnings.</p> <p>Fluctuating hourly earnings do not include additional employed income (e.g., commission, bonus, overtime, tips). Refer to Section 5303.3 for requirements and guidance pertaining to additional employed income.</p>

(c) Documentation requirements

This chart contains documentation requirements pertaining to earnings types for primary and secondary employment.

Refer to:

- Section 5303.2(b) for additional information about base non-fluctuating and fluctuating hourly earnings types
- Section 5303.2(d) for additional documentation that may be required based on employment characteristics
- Section 5303.4 for additional information about income calculation requirements and guidance

Primary and secondary employment earnings types	Documentation requirements
	<i>Streamlined Accept and Standard Documentation Level(s)</i>
Primary employment earnings: <ul style="list-style-type: none"> ■ Base non-fluctuating earnings and ■ Fluctuating hourly earnings 	<p>All of the following: YTD paystub(s) documenting all YTD earnings, W-2 form(s) for the most recent calendar year, and a 10-day pre-closing verification (10-day PCV) (refer to Section 5302.2(d))</p> <p>Or all of the following: Written verification of employment (VOE) documenting all YTD earnings and the earnings for the most recent calendar year, and a 10-day PCV (refer to Section 5302.2(d))</p>
Primary employment earnings: Military base (basic) pay	<p>All of the following: YTD Military Leave and Earnings Statement and W-2 form(s) for the most recent calendar year</p> <p>Or all of the following: Written VOE documenting all YTD earnings and the earnings for the most recent calendar year, and a 10-day PCV</p>
Secondary employment earnings: <ul style="list-style-type: none"> ■ Base non-fluctuating earnings and ■ Fluctuating hourly earnings 	<p>All of the following: YTD paystub(s) documenting all YTD earnings, W-2 forms for the most recent two calendar years, and a 10-day PCV</p> <p>Or all of the following: Written VOE documenting all YTD earnings and the earnings for the most recent two calendar years, and a 10-day PCV</p>

(d) Employment/income characteristics

For all employment and/or income characteristics below, the Seller must determine whether the employment and/or income represents primary or secondary employment and/or income and use the applicable requirements for history, continuance, earnings type, documentation and calculation in this chapter and in conjunction with Chapters 5301 and 5302, unless specifically stated otherwise. For certain employment and/or income characteristics, additional documentation and/or analysis may be needed, as described below.

Employment/income characteristics		Additional requirements
Full-time and part-time employment	Full-time and part-time employment may be either primary or secondary employment, and may be comprised of base non-fluctuating earnings, fluctuating hourly earnings and/or additional employed income.	None
Seasonal employment	Seasonal employment may be primary employment (e.g., highway construction and road work in colder regions) or secondary employment (e.g., educators teaching summer school). The Borrower's earnings may be comprised of base non-fluctuating earnings, fluctuating hourly earnings and/or additional employed income.	When unemployment income associated with the seasonal employment is being used as stable monthly income: <ul style="list-style-type: none">■ A documented two-year history of seasonal employment and income receipt is required, and■ The requirements for unemployment income associated with seasonal employment in Section 5303.3 must be met

Employment/income characteristics	Additional requirements
Union members <p>Certain union members may work in industries where they may switch employers frequently and the union facilitates the next position. In that case, the Borrower may have multiple YTD paystubs and W-2s, all of which can be used for the verification and calculation of stable monthly income. The Borrower's earnings may be comprised of base non-fluctuating earnings, fluctuating hourly earnings and/or additional employed income.</p> <p>A Borrower may exhibit a stable and consistent employment and income history, regardless of the number of employers.</p> <p>The Borrower may or may not be in between employers at the time of closing. If the Seller determines that the Borrower's employment and income history is stable and it is documented that the Borrower has multiple jobs as described above, it may be acceptable to obtain the 10-day PCV (refer to Section 5302.2(d)) from the union. The Seller must make this determination based on a review of all employment and income characteristics.</p>	None

Employment/income characteristics	Additional requirements
Borrower employed by a family member or by the property seller, real estate broker or other interested party to the transaction	<p>When a Borrower is employed by a family member or by an interested party to the transaction, the employment and income is not arm's length. Due to the increased layering of risk inherent in non-arm's length transactions, further in-depth analysis is required to determine stability of the income.</p>
Employed income from a foreign source	<p>When a Borrower receives employed income from a foreign source, the income may be considered for qualifying income provided the income is reported on the Borrower's U.S. federal individual income tax return for the most recent year, in addition to meeting the requirements in Chapter 5303.</p> <p>Refer to Chapter 5305 for all other non-employment/non-self-employment income from a foreign source.</p>

Employment/income characteristics	Additional requirements
Employment contracts <p>(i) Employment contracts in the educational industry: It is common for Borrowers who work in the educational industry, such as teachers, to be employed under renewable or term employment contracts. For the educational field, if the Borrower provides an annually renewable or term contract, it is reasonable to consider continuance of receipt, provided the Seller does not have knowledge or documentation to the contrary.</p>	None

Employment/income characteristics	Additional requirements
	<p>(ii) Employment contracts in other industries:</p> <p>If an employment contract is provided, it may also be considered for the purposes of determining stable monthly income.</p> <p>When making the determination of employment history, income stability and the monthly income amount, the Seller must take into consideration factors such as whether or not employment contracts are reasonably common to the particular employment field and/or region, the pay structure outlined within the terms of the contract and whether the Borrower has demonstrated the ability to maintain consistent employment and income with this form or a similar form of pay structure over the most recent two years.</p>
Temporary help services employment	<p>Some contract firms and temporary staffing firms contract out the services of their employees to other employers.</p> <p>When making the determination of employment history, income stability and the monthly income amount, the Seller must take into consideration factors such as whether the Borrower has demonstrated the ability to maintain steady and continuous employment and income with this employment structure</p>

Employment/income characteristics	Additional requirements
	over the most recent two-year period.
Income reported on Internal Revenue Service (IRS) Form 1099 for services performed	<p>At times, Borrowers receive IRS Form 1099(s) for services performed; this pay structure is often referred to in terms such as contractor or contingent worker.</p> <p>Income received on IRS Form 1099 for services performed may be reported on Schedule C and may represent a sole proprietorship. The Seller must treat this income either as:</p> <ul style="list-style-type: none"> ■ Self-employed income in accordance with the requirements and guidance in Chapter 5304, <p>OR</p> <ul style="list-style-type: none"> ■ Non-self-employed income in accordance with the requirements in this section if the IRS Schedule C from the most recent calendar year tax return evidences that: <ul style="list-style-type: none"> □ Gross receipts or sales are equal to the total amount(s) reported on the IRS Form 1099(s), □ Total expenses are \leq 5% of gross receipts or sales, after deducting non-cash expenses (e.g., depreciation), □ Cost of goods sold = \$0, and □ 12-month history of 1099 income and <p>Minimum documentation:</p> <ul style="list-style-type: none"> ■ All 1099s for the most recent two-year period, and ■ YTD paystubs and/or other equivalent and reasonably reliable third-party documentation (e.g., YTD earnings statements or evidence of payments for services performed) documenting YTD income received by the Borrower, and ■ Pages 1 and 2 of the Borrower's federal individual income tax returns, and the applicable schedules (i.e., Schedule C, Schedule 1), covering the most recent one-year period <p>History of receipt: Most recent two years; however, in certain instances, a shorter history of income with this pay structure may still be considered stable if the Seller provides a written analysis and sufficient supporting documentation justifying the determination of stability (e.g., a prior history of employment earnings at a similar level). In no event may the history of receipt for this pay structure documented on the tax returns be less than 12 months.</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Average must be based on the required and documented history of receipt and support a consistent level of income in accordance with the requirements of Section 5301.1(c). The 1099 income must be reduced by</p>

Employment/income characteristics	Additional requirements																		
	<p>reported expenses is present</p> <p>If the above expense factor is not met but expenses are within a close range (e.g., 6%), the Seller may perform additional analysis to determine whether income reported on Schedule C remains characteristic of non-self-employed income. Factors the Seller may consider when making this determination include, but are not limited to, the principal business or profession, gross receipts or sales, cost of goods sold and the type and level of expenses reported. If the Seller determines that the Borrower is a sole proprietor, refer to the requirements and guidance in Chapter 5304.</p> <p>the expenses (excluding non-cash items) reported on Schedule C. Apply an average of the verified expenses to the 1099 income without verified expenses.</p> <table border="1" data-bbox="1085 393 1824 1192"> <thead> <tr> <th colspan="2" data-bbox="1085 393 1824 447">Calculation Example</th></tr> </thead> <tbody> <tr> <td data-bbox="1085 447 1537 703">Scenario: Borrower has an 18-month history of documented 1099 income, with 12 months of income and expenses reflected on the most recent Schedule C and reasonably reliable verification of YTD income for the most recent 6 months. Prior employment (W-2) for 5 years with similar income level and employment field.																			
1099(s) reported as gross receipts/sales:	(+) \$100,000																		
Less: Schedule C Expenses (less non-cash expenses)	(-) \$4,000 (4%)																		
Subtotal (most recent year Schedule C)	\$96,000																		
Verified YTD 1099 income (6 months):	(+) \$50,000																		
Less: 4% expense rate (based on most recent year Schedule C)	(-) \$2,000 (4%)																		
Subtotal (Current YTD)	\$48,000																		
Income calculation: \$144,000 (combined subtotals) / 18 months	\$8,000/mo																		

Employment/income characteristics	Additional requirements
	perform services for the provider(s) of the 1099 income as close to the Note Date as possible.
Borrowers with business ownership interest(s) less than 25% <p>For use of ordinary income (loss) or guaranteed payments for services reported on IRS Schedule K-1 as stable monthly qualifying income, the Seller must meet either:</p> <ul style="list-style-type: none"> ■ The self-employed requirements in Chapter 5304, or ■ All requirements in this section in conjunction with the general requirements and guidance in Section 5301.1 and Chapter 5302. <p>The Borrower should not have an ownership interest of 25% or more in any business.</p> <p>When using ordinary business income for qualification, the historical cash distributions must be reasonably consistent with the ordinary business income reported on the K-1s.</p> <p>Note: For use of W-2 income, the Seller must meet the requirements of Chapter 5303 or Chapter 5304; the additional requirements in this row do not apply.</p>	<p>Schedule K-1 income from Partnerships and S Corporations</p> <p>Minimum documentation:</p> <ul style="list-style-type: none"> ■ Schedule K-1s for the most recent two calendar years for Partnerships and S Corporations ■ Documentation of all YTD income must be obtained if available (e.g., most recent YTD paystub or equivalent). If YTD information is not attainable (e.g., due to year-end payment structures), the Seller may document and justify the income stability without this information. ■ The Schedule K-1(s) must evidence less than 25% ownership interest for the individual Borrower ■ Verification of current existence of business in accordance with Section 5304.1(g) <p>History of receipt:</p> <ul style="list-style-type: none"> ■ Ordinary business income: Most recent two years ■ Guaranteed payments for services: Most recent two years; however, in certain instances, a shorter history may still be considered stable if the Seller provides a written analysis and sufficient supporting documentation justifying the determination of stability (e.g., recently changed from an employee of the same firm to a partner with a nominal ownership interest).

Employment/income characteristics	Additional requirements
	<p>In no event may the history be less than 12 months.</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Average must be based on the required and documented history of receipt and support a consistent level of income in accordance with the requirements of Section 5301.1(c).</p> <p>The Seller must determine if more information and/or documentation is needed to support and justify the stable monthly income based on the individual circumstances.</p>

(e) Income commencing after the Note Date

For Borrowers starting new employment or receiving a future salary increase from their current employer, income commencing after the Note Date may be considered a stable source of qualifying income, provided that either all requirements for option one, or all requirements for option two in the following table are met.

Subject	Option one	Option two
Eligible employment and income	<p>Employment and income must meet the following requirements:</p> <ul style="list-style-type: none"> ■ Income must be from new primary employment or a future salary increase with the current primary employer ■ Income must be non-fluctuating and salaried (e.g., hourly earnings are not permitted), and ■ The Borrower's employer must not be a family member or an interested party to the real estate or Mortgage transaction 	<p>Employment and income must meet the following requirements:</p> <ul style="list-style-type: none"> ■ Income must be from new primary employment ■ Income must be non-fluctuating and salaried (e.g., hourly earnings are not permitted), and ■ The Borrower's employer must not be a family member or an interested party to the real estate or Mortgage transaction ■ As of the Delivery Date, the income must be no less than that used to qualify the Borrower for the Mortgage
Start date of the new employment or future salary increase, as applicable	<ul style="list-style-type: none"> ■ Must be no later than 90 days after the Note Date ■ May be before or after the Delivery Date 	<ul style="list-style-type: none"> ■ No limit on the number of days after the Note Date ■ Must be before the Delivery Date
Eligible loan purpose	<p>The Mortgage must be originated for one of the following purposes:</p> <ul style="list-style-type: none"> ■ Purchase transaction ■ “No cash-out” refinance 	<p>The Mortgage must be originated for one of the following purposes:</p> <ul style="list-style-type: none"> ■ Purchase transaction ■ “No cash-out” refinance ■ Cash-out refinance
Eligible Mortgaged	The Mortgaged Premises must be a 1-unit Primary Residence	The Mortgaged Premises must be one of the following:

Subject	Option one	Option two
Premises		<ul style="list-style-type: none"> ■ 1- to 4-unit Primary Residence ■ Second home ■ 1- to 4-unit Investment Property
Verification of additional funds	<p>In addition to funds required to be paid by the Borrower and Borrower reserves, the Seller must verify additional funds in the Borrower's depository and/or securities account(s) that equal no less than the sum of the monthly housing expense, as described in Section 5401.1, and other monthly liabilities, as described in Section 5401.2, multiplied by the number of months between the Note Date and the start date of the new employment/future salary increase, plus one additional month. A partial month is counted as one month for the purpose of this calculation.</p> <p>The amount of the required additional funds, as described above, may be reduced by the amount of verified gross income that any Borrower on the Mortgage is expected to receive between the Note Date and the start date of the new employment, whether or not this income is used to qualify for the Mortgage or is expected to continue after the start date of the new employment/future salary increase.</p>	<p>The following requirements apply when there are more than 15 calendar days between the Note Date and the start date of the new employment:</p> <p>In addition to funds required to be paid by the Borrower and Borrower reserves, the Seller must verify additional funds in the Borrower's depository and/or securities account(s) that equal no less than the sum of the monthly housing expense, as described in Section 5401.1, and other monthly liabilities, as described in Section 5401.2, multiplied by the number of months between the Note Date and the start date of the new employment, plus one additional month. A partial month is counted as one month for the purpose of this calculation.</p> <p>The amount of the required additional funds, as described above, may be reduced by the amount of verified gross income that any Borrower on the Mortgage is expected to receive between the Note Date and the start date of the new employment, whether or not this income is used to qualify for the Mortgage or is expected to continue after the start date of the new employment.</p>

	Sellers may use the following worksheet to assist with the additional funds calculation:	
Calculation for Verification of Additional Funds Worksheet		
1	Total monthly housing expense (Section 5401.1)	\$ _____
2	Monthly debt payment (Section 5401.2)	\$ _____
3	Line 1 + Line 2	\$ _____
4	Number of months between Note Date and start date of new employment/future salary increase (a partial month = 1 month) + 1 month	_____
5	(Line 3) x (Line 4)	\$ _____
6	Borrower's verified gross income expected between Note Date and start date of new employment	\$ _____
7	Line 5 – Line 6	\$ _____ (This is the amount of additional funds the Seller must verify)
Required documentation	<p>The following documentation is required:</p> <ul style="list-style-type: none"> ■ Copy of the employment offer letter, employment contract or other evidence of the future salary increase from the current employer that: <ul style="list-style-type: none"> <input type="checkbox"/> Is fully executed and accepted by the Borrower <input type="checkbox"/> Is non-contingent or provide 	<p>The following documentation is required:</p> <ul style="list-style-type: none"> ■ Copy of the employment offer letter or employment contract that: <ul style="list-style-type: none"> <input type="checkbox"/> Is fully executed and accepted by the Borrower, and <input type="checkbox"/> Includes the terms of employment, including but not limited to, employment start date and annual income based on non-fluctuating

	<p>documentation, such as a letter or e-mails from the employer verifying all contingencies have been cleared, and</p> <ul style="list-style-type: none"> <input type="checkbox"/> Includes the terms of employment, including employment start date and annual income based on non-fluctuating earnings ■ For a future salary increase provided by the Borrower's current employer, the above documentation must indicate that the increase is fully approved and is explicitly granted to the Borrower ■ A 10-day pre-closing verification (PCV) verifying the terms of the employment offer letter, contract or future salary increase have not changed (refer to Section 5302.2(d)) ■ Documentation of additional funds, as required above 	<p>earnings</p> <ul style="list-style-type: none"> ■ Paystub, written verification of employment (VOE) or a third-party employment verification supporting the income used for qualifying the Borrower ■ Documentation of additional funds, as required above

5303.3: Additional employed income (12/02/20)

This section contains general and topic-specific stable monthly income history, continuance, calculation and documentation requirements for the following income types:

- Commission income
- Bonus income
- Overtime income

- Restricted stock (RS) and restricted stock units (RSU) subject to performance-based vesting provisions
- Restricted stock (RS) and restricted stock units (RSU) subject to time-based vesting provisions
- Tip income – Reported by the employer
- Tip income – Cash and charge tips reported on Internal Revenue Service (IRS) Form 4137
- Automobile allowance
- Mortgage differential
- Military entitlements
- Military Reserves and National Guard
- Unemployment compensation associated with seasonal employment

(a) General overview

A Borrower may receive additional income from employment such as commission, bonus and overtime pay. Generally, additional employed income is received in connection with the primary or secondary employment; however, there are instances where the income is received through separate sources, such as the military Reserve or National Guard. If the Seller includes additional employed income to qualify the Borrower, the Seller must determine that the amount of income used to qualify the Borrower is stable and complies with the requirements below for each income type. All income must be either expected to continue or have documented continuance for at least three years as defined in the topic specific requirements within this section.

The following requirements and guidance are to be used in conjunction with the requirements and guidance in Section 5301.1.

(b) Income history and stability – requirements and guidance

Many additional employed income types are fluctuating income. The stability of fluctuating income is determined based primarily upon historical earnings so it is imperative that a sufficient income history has been established. For this reason, most income

types that fluctuate have a history requirement of two years. In certain instances, a shorter history may still be considered stable if the Seller provides a written analysis and sufficient supporting documentation justifying the determination of stability. When making this determination, the Seller must take into consideration factors such as income and/or employment characteristics and the overall layering of risk factors, including the Borrower's demonstrated ability to repay obligations. In no event may the history be less than 12 months.

Refer to Section 5303.4 for information with respect to employed income calculation requirements and guidance.

(c) Earnings types for additional employed income

(i) Fixed earnings

For the purposes of determining stable monthly income, fixed additional employed income earnings are considered to be earnings that are based on a pre-determined and agreed upon fixed amount of pay that is fully documented, such as an automobile allowance, mortgage differential or military entitlement(s).

(ii) Fluctuating earnings

For the purposes of determining stable monthly income, fluctuating additional employed income earnings are considered to be earnings that fluctuate on a regular basis, often based on factors such as hours worked, job type and performance. Fluctuating earnings may include, but are not limited to, income types such as commissions, overtime, bonus, tips, Reserve and National Guard, and unemployment compensation associated with seasonal employment.

Refer to Section 5303.4 for information with respect to employed income calculation requirements and guidance.

(d) Stable monthly income and documentation requirements for additional employed income

To help ensure the most accurate analysis and calculation of stable monthly income from additional employed income (e.g. commission, bonus, overtime, tips), a documented breakdown between the base non-fluctuating earnings or fluctuating hourly earnings and the additional employed income should be obtained and retained in the Mortgage file.

The chart below includes the stable monthly income and documentation requirements for additional employed income:

Income type	Stable monthly income requirements	Documentation requirements
		<i>Streamlined Accept and Standard Documentation Levels</i>
Commission income	<p>History of receipt: Two years, consecutive¹</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Refer to Section 5303.4(b) for calculation guidance and requirements</p>	<p>All of the following:</p> <ul style="list-style-type: none"> ■ YTD paystub(s) documenting all YTD earnings, W-2 forms for the most recent two calendar years and a 10-day PCV (refer to Section 5302.2(d)) <p>Or all of the following:</p> <ul style="list-style-type: none"> ■ Written verification of employment (VOE) documenting all YTD earnings and the earnings for the most recent two calendar years and a 10-day PCV
Bonus income	<p>History of receipt: Two years, consecutive¹</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Refer to Section 5303.4(b) for calculation guidance and requirements</p>	<p>All of the following:</p> <ul style="list-style-type: none"> ■ YTD paystub(s) documenting all YTD earnings, W-2 forms for the most recent two calendar years and a 10-day PCV <p>Or all of the following:</p> <ul style="list-style-type: none"> ■ Written VOE documenting all YTD earnings and the earnings for the most recent two calendar years and a 10-day PCV

Mortgage differential	<p>History of receipt: A history of receipt is not required for the income to be considered stable</p> <p>Continuance: Must continue for at least the next three years</p> <p>Calculation: Payments from the Borrower's employer for all or part of the housing payment differential between the Borrower's present and proposed Mortgage payment. The Seller may add the mortgage differential payments to the Borrower's income. The payments may not be used to offset the monthly housing payment amount used for qualification.</p>	<p>Agreement from the employer stating the terms including, but not limited to, the scheduled amount and duration of the payments.</p> <p>The documentation must show that the payments are pursuant to an established, ongoing and documented employer program. The employer must not be an interested party to the transaction.</p>
Military entitlements (e.g., as flight or hazard duty, rations, clothing allowance or quarters allowance)	<p>History of receipt: A history of receipt is not required for the income to be considered stable</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Current fixed monthly amount</p>	<p>All of the following:</p> <ul style="list-style-type: none"> ■ YTD Military Leave and Earnings Statement and W-2 form for the most recent calendar year <p>Or all of the following:</p> <ul style="list-style-type: none"> ■ Written VOE documenting the current monthly fixed entitlement amount(s) and type(s) and the earnings for the most recent calendar year, and a 10-day PCV

Income type	Stable monthly income requirements	Documentation requirements
		<i>Streamlined Accept and Standard Documentation Levels</i>
Military Reserve and National Guard income	<p>History of receipt: One year</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: 12-month average</p>	<p>All of the following:</p> <ul style="list-style-type: none"> ■ YTD Military Leave and Earnings Statement and W-2 form for the most recent calendar year <p>Or all of the following:</p> <ul style="list-style-type: none"> ■ Written VOE documenting all YTD earnings and the earnings for the most recent calendar year, and a 10-day PCV
Unemployment compensation associated with seasonal employment	<p>History of receipt: Two years, consecutive¹</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Refer to Section 5303.4(b) for calculation guidance and requirements</p>	Proof of receipt of unemployment compensation for the most recent two-year period (e.g., IRS Form 1099-G(s) and/or equivalent documentation)

¹See Section 5303.3(b) for when a history of less than two years, but not less than one year, may be acceptable.

5303.4: Employed income calculation guidance and requirements (07/02/20)

For all income, the Seller must determine how the Borrower is paid in order to accurately analyze and calculate the stable monthly income used for qualifying. The documentation in the Mortgage file must support the Seller's income analysis and calculation. If the documentation does not support the income used for qualifying purposes, further analysis is required and additional documentation would be necessary to support the stability of the income and the amount of income used to qualify. A written analysis of the income used to qualify the Borrower must be retained in the Mortgage file.

(a) Base non-fluctuating employment earnings

Base non-fluctuating earnings may include both salaried and hourly earnings; however, the pay rate and number of hours worked must not fluctuate between pay periods. The income documentation must support base non-fluctuating earnings.

Refer to Section 5303.2(b) for additional information about base non-fluctuating earnings types.

The following chart describes the calculation methods for base non-fluctuating employment earnings taking into consideration the typical pay periods of weekly, bi-weekly, semi-monthly and monthly.

Calculation of base non-fluctuating employment earnings (Refer to Section 5303.2(b))	
Pay period type	Calculation
Weekly	Multiply the base non-fluctuating weekly gross pay by 52 pay periods and divide by 12 months
Bi-Weekly (Every two weeks)	Multiply the base non-fluctuating biweekly gross pay by 26 pay periods and divide by 12 months
Semi-Monthly (Twice per month)	Multiply the base non-fluctuating semi-monthly gross pay by 24 pay periods and divide by 12 months
Monthly	Use the base non-fluctuating monthly gross pay
Annual base non-fluctuating salary paid out over less than 12 months per year	For some Borrowers, such as certain employees in the educational field, the annual base non-fluctuating salary may be paid over a time period of less than 12 months. For example, if the annual base non-fluctuating salary is paid out over 10 months of the year, multiply the monthly base salary amount by 10 months and divide by 12.

(b) Fluctuating employment earnings

These requirements apply to fluctuating hourly employment earnings and additional fluctuating employment earnings (e.g., commission, bonus, overtime and tip income).

Refer to Sections 5303.2(b) for information about fluctuating hourly earnings and Section 5303.3 for information about other types of additional employed fluctuating income (e.g., bonus, overtime).

Subject	Requirements and guidance
Income analysis and calculation (does not apply to restricted stock (RS) and restricted stock units (RSU))	<p>The degree of fluctuation and the length of receipt of the income must be considered when calculating income used to qualify for the Mortgage. The Seller must evaluate the income trend and use the amount that is most likely to continue for the next three years.</p> <p>Consistent and increasing income trends</p> <p>If the income is consistent or the trend is increasing, the Seller must average the most recent year(s) and YTD income over the applicable number of months documented. However, if the increase between the prior year(s) and YTD earnings exceeds 10%, additional analysis is required and additional documentation may be necessary to determine income stability in order to use the higher amount when calculating the qualifying income. The analysis and documentation must support the amount of income used to qualify the Borrower. Acceptable factors include, but are not limited to, promotion and income increasing consistently year over year.</p> <p>Declining trend</p> <p>The Seller must use the year-to-date income and must not include the previous higher level unless there is documentation of a one-time occurrence (e.g., injury) that prevented the Borrower from working or earning full income for a period of time and evidence that the Borrower is back to the income amount that was previously earned.</p> <p>If the decline between the prior year(s) and/or YTD earnings exceeds 10%, the Seller must conduct further analysis and additional documentation may be necessary to determine whether the income is currently stable. This analysis must include the reason for the declining trend, and support that the current income has stabilized.</p> <p>If a Borrower is currently on temporary leave, follow the guidance in Section 5303.5.</p> <p>Refer to Section 5303.2(b) for fluctuating hourly employment earnings.</p>
Calculation RS and RSU subject to performance-based	<p>Based on the form in which vested RS or RSU are distributed to the Borrower (i.e., as shares or its cash equivalent), the Seller must use the applicable method(s) below to calculate the monthly income:</p>

Subject	Requirements and guidance
vesting provisions	<p>RS or RSU distributed as shares</p> <p>Multiply the 52-week average stock price as of the Application Received Date by the total number of vested shares distributed (pre-tax) to the Borrower in the past two years, then divide by 24. (e.g., if 200 vested shares were distributed (pre-tax) in the past two years and the 52-week average stock price as of the Application Received Date is \$10, multiply 200 x \$10 then divide by 24= \$83.33 monthly income)</p> <p>RS or RSU distributed as cash equivalent</p> <p>Use the total dollar amount distributed (pre-tax) from the cash equivalent of vested shares in the past two years and divide by 24.</p> <p>Refer to Section 5303.3 for more information about additional employed income – fluctuating earnings.</p>
Calculation RS and RSU subject to time-based vesting provisions	<p>Based on the form in which vested RS or RSU are distributed to the Borrower (i.e., as shares or its cash equivalent), the Seller must use the applicable method(s) below to calculate the monthly income:</p> <p>RS or RSU distributed as shares</p> <p>Multiply the 52-week average stock price as of the Application Received Date by the number of vested shares distributed (pre-tax) to the Borrower in the past year, then divide by 12. (e.g., if 50 vested shares were distributed (pre-tax) in the past year and the 52-week average stock price as of the Application Received Date is \$10, multiply 50 x \$10 then divide by 12 = \$41.67 monthly income)</p> <p>RS or RSU distributed as cash equivalent</p> <p>Use the total dollar amount distributed (pre-tax) from the cash equivalent of vested shares in the past year and divide by 12.</p> <p>Refer to Section 5303.3 for more information about additional employed income – fluctuating earnings.</p>

5303.5: Income while on temporary leave (12/07/22)

The following section provides requirements and guidance to Sellers for underwriting Borrowers on temporary leave from their current employment.

Temporary leave

Temporary leave from an employer may encompass various circumstances (e.g., family and medical, short-term disability, maternity, other temporary leaves with or without pay). Temporary leave is generally short in duration. The period of time that a Borrower is on temporary leave may be determined by various factors such as applicable law, employer policies and short-term insurance policy and/or benefit terms. Leave ceases being considered temporary when the Borrower does not intend to return to the current employer or does not have a commitment from the current employer to return to employment.

The requirements and guidance for income while on temporary leave do not extend to employer-initiated actions such as furloughs and layoffs.

Refer to Chapter 5305 regarding long-term disability income if the Seller has knowledge the Borrower has applied for, is receiving or will be receiving long-term disability benefits or long-term insurance benefits.

Determining qualifying income and Borrower capacity to meet obligations while on temporary leave

During a temporary leave, a Borrower's income may be reduced and/or completely interrupted. The Seller must determine that during and after the temporary leave the Borrower has capacity to repay the Mortgage and all other monthly obligations in accordance with Topics 5100 through 5500. The Seller's determination must be based on required documentation, Seller knowledge and available information.

(a) For Borrowers returning to their current employer prior to or on the first Mortgage payment due date:

The Seller may use for qualifying income the Borrower's pre-leave gross monthly income.

(b) For Borrowers returning to their current employer after the first Mortgage payment due date:

- The Seller may use for qualifying income the Borrower's gross monthly income amount being received for the duration of the temporary leave
- In the event that the income has been reduced or interrupted, the Seller may use for qualifying income the monthly reduced income amount (this amount may be zero) being received for the duration of the leave combined with the Borrower's available liquid assets, as necessary. Available liquid assets may be used as a partial or complete income supplement up to the amount of the income reduction. The "Asset calculation for establishing the debt payment-to-income ratio" described in Section 5307.1(b) does not apply to the calculation of assets as an income supplement when determining qualifying income and Borrower capacity to meet obligations while on temporary leave. Assets that are required for the transaction (e.g., Down Payment, Closing Costs and reserves) may not be considered as available assets.
- The total qualifying income must not exceed the Borrower's pre-leave gross monthly income amount

Documentation requirements

The following documentation is required for all Borrowers on temporary leave:

- Documentation to verify the Borrower's pre-leave income and employment in accordance with Topic 5300, regardless of leave status
- Written statement, in the form of a signed letter or an e-mail directly from the Borrower, confirming the Borrower's intent to return to the current employer and the intended date of return
- Documentation generated by current employer confirming the Borrower's eligibility to return to the current employer after temporary leave. Acceptable forms of employer documentation that the Seller may obtain from the Borrower include, but are not limited to: an employer-approved leave request, a Family Medical Leave Act document, or other documentation generated by the employer or a third-party verifier on behalf of the employer.

In addition, the following documentation is required for Borrowers returning to the current employer after the first Mortgage payment due date:

- Documentation evidencing amount and duration of all temporary leave income being used to qualify the Borrower (e.g., short-term disability benefits or insurance, sick leave benefits, temporarily reduced income from employer) that are being received during the temporary leave
- All available liquid assets used to supplement the reduced income for the duration of the temporary leave must meet the requirements of and be verified in accordance with the Streamlined Accept Documentation or Standard Documentation requirements, as applicable, listed in Section 5501.3
- A written rationale explaining the analysis used to determine the qualifying income, regardless of the underwriting path

Chapter 5304: Self-Employed Income

5304.1: Stable monthly income and documentation requirements for self-employed Borrowers (02/05/23)

This chapter provides the requirements to determine the appropriate qualifying income for a self-employed Borrower.

- Self-employed Borrower definition and verification of ownership interest percentage (Section 5304.1(a))
- Loan Product Advisor® (Section 5304.1(b))
- Self-employment history requirements (Section 5304.1(c))
- Business and income analysis (Section 5304.1(d))
- Self-employment income not used for qualification (Section 5304.1(e))
- Business assets used for closing (Section 5304.1(f))
- Verification of the current existence of the business (Section 5304.1(g))
- Documentation requirements (Section 5304.1(h))

Refer to Section 5301.1 for additional information with respect to income stability and continuance.

(a) Self-employed Borrower definition and verification of ownership interest percentage

The business structure determines the reporting method of the business and self-employment income to the Internal Revenue Service (IRS). The federal income tax returns for the business usually document the percentage of ownership interest in the business.

The following chart contains requirements and guidance for determining self-employment and verifying the Borrower's business ownership percentage:

Business structure	Self-employment definition and verification of ownership interest percentage
Partnerships, S Corporations and Corporations	<ul style="list-style-type: none"> ■ A Borrower who has an ownership interest of 25% or more in a Partnership (general or limited), S Corporation and/or Corporation is considered to be self-employed ■ The ownership interest percentage must be verified by a review of the federal income tax returns for the business, including the IRS Schedule K-1(s) or IRS Form 1125-E, Compensation of Officers. If these documents do not provide this information, the ownership interest percentage must be verified with a letter from the accountant for the business or similar documents. ■ If the Borrower has ownership interest in one or more businesses, but the ownership interest is not 25% or more for any business, refer to the requirements and guidance in Section 5303.2(d) for employment/income characteristics or use the requirements in this chapter
Sole Proprietorships and Schedule C	<p>Sole proprietorships are unincorporated businesses. A sole proprietor owns 100% of the business and reports the income and expenses from that business on Schedule C of the federal individual income tax return. There is no associated federal business tax return.</p> <p>Note: For IRS Form 1099 income received for services performed and reported on Schedule C, Sellers may refer to Section 5303.2(d) for additional information with respect to determining whether this income may be treated as non-self-employed income.</p>

(b) Loan Product Advisor

The Seller must indicate to Loan Product Advisor that a Borrower is self-employed when the Borrower meets Freddie Mac's definition of self-employed as stated in Section 5304.1(a). This is required in all cases where the self-employment income and/or loss is used to determine the Borrower's stable monthly income for qualifying.

For Borrowers with self-employed income assessed using automated income assessment with Loan Product Advisor using tax return data, refer to Chapter 5903.

(c) Self-employment history requirements

The following chart contains requirements and guidance pertaining to self-employment history:

Self-employment history	
Subject	Requirements and guidance
Length of history requirement	A two-year history of current self-employment is required in most instances to ensure that income is stable. The self-employment must be documented on Form 65, Uniform Residential Loan Application and verified in accordance with this chapter.
Self-employment less than two years	In certain instances, a Borrower may not have a current two-year history of self-employment; however, the income and employment may still be considered stable if the Seller provides a written analysis justifying the determination of stability, and sufficient supporting documentation is obtained. When making this determination, the Seller must take into consideration the overall layering of risk, including the Borrower's demonstrated ability to repay obligations. When the Borrower has been self-employed for less than two years, prior to considering the income for qualifying purposes, at a minimum the Seller must: <ul style="list-style-type: none">■ Document that the Borrower has a two-year history of receipt of income at the same or greater level in the same or similar occupation■ Consider and evaluate the Borrower's experience in the business■ Consider and evaluate the acceptance of the company's service or products in the marketplace Analysis of current business activity through a review of the year-to date (YTD) financial statement and/or the most recent three months of business bank statements may provide support to this evaluation.
Minimum history of receipt of income	The Borrower's federal income tax returns must reflect at least one year of self-employment income

Self-employment history	
Subject	Requirements and guidance
Geographical relocation	<p>If the Borrower is relocating to a different geographic area, prior to considering the income for qualifying purposes, at a minimum the Seller must:</p> <ul style="list-style-type: none"> ■ Consider and evaluate the acceptance of the company's service or products in the marketplace. Additional information, such as market studies or relevant industry research, may support this evaluation. ■ Provide a written analysis justifying the Borrower's income will continue at the same level in the new location

(d) Business and income analysis

The following chart contains requirements and guidance pertaining to business and income analysis:

Analysis	
Topic	Requirements and guidance
Business and income analysis	<p>Business review and analysis:</p> <p>The Seller's analysis of the business must support that the business has sufficient liquidity and is financially capable of producing stable monthly income for the Borrower.</p> <ul style="list-style-type: none">■ The analysis must include a review of the business tax returns■ The Seller's review must include, at a minimum, an analysis of gross receipts or sales, cost of goods sold and gross profits. All should be typical for the type of business and reflect consistent year over year trends. In addition, the business expenses should be reasonable for the type of business activity and level of business income. Business tenure should be considered.■ The Seller may determine that review and analysis of the business financial statements, business asset statements, and in the case of Partnerships and S corporations, an analysis of the historical cash distributions, is necessary to establish the financial and liquidity standing of the business. In addition, the Seller may calculate and consider the liquidity ratios of the business using generally accepted accounting practices when analyzing the liquidity of the business. <p>Use of business income reported on the Borrower's federal individual income tax returns</p> <ul style="list-style-type: none">■ For sole proprietorships, stable monthly income must be based on the income reported on Schedule C of the Borrower's federal individual income tax returns■ For Partnerships and S corporations, stable monthly income may be based on the Borrower's proportionate share of income (e.g., ordinary income, guaranteed payments) carried from the Form 1065 or 1120 S, through the Schedule K-1 and onto the Borrower's federal individual income tax returns. Although cash distributions reported on the Schedule K-1 may not be used as qualifying income, they may be used to establish business liquidity and access to business funds,

Analysis	
Topic	Requirements and guidance
	<p>provided they are reasonably consistent with the ordinary income.</p> <ul style="list-style-type: none"> ■ For S corporations and corporations, stable monthly income may be based on the income reported on the Borrower's W-2 from the business. The corporate tax returns and Form 1125-E if applicable, must be reviewed for confirmation of the Borrower's W-2 income from the business. <p>Use of business income not reported on the Borrower's federal individual income tax returns</p> <ul style="list-style-type: none"> ■ Income reported on the business tax returns but not on the personal tax returns may be considered as stable monthly income, provided the Seller's analysis confirms that based on the financial strength of the business, the use of these funds as personal income would not have a detrimental impact on the business <p>Access to business income</p> <p>Documentation is not required to verify access to business income for the following:</p> <ul style="list-style-type: none"> ■ Sole proprietorships ■ Ordinary income, net rental real estate income, other net rental income and guaranteed payments received from partnerships and S corporations ■ W-2 income received from S corporations and corporations, ■ Corporations, if the Borrower holds 100% ownership interest <p>If business income not reported on the Borrower's federal individual income tax returns is being used to qualify and none of the categories above apply, then the Seller must verify that the Borrower's legal right to the business income that is used as stable monthly income is not encumbered, restricted or prevented by the corporate resolution, partnership agreement, or other comparable document.</p> <p>Income calculation</p> <p>The Seller's calculation of a self-employed Borrower's average monthly income must be based on a review of the Borrower's complete federal individual income tax returns (Form 1040) including W-2's and Schedule K-1's (if applicable) and the Borrower's complete federal income tax returns for the business</p>

Analysis	
Topic	Requirements and guidance
	<p>(Forms 1120, 1120 S and 1065), when applicable.</p> <p>The Seller must analyze the tax returns and document the calculation of the Borrower's self-employed income on Form 91, Income Calculations, or a similar alternative form.</p> <p>Income fluctuation</p> <ul style="list-style-type: none"> ■ As part of the analysis, the Seller must consider whether the Borrower's self-employed income has increased or decreased over the previous two years when the Seller's analysis includes a review of documentation covering a history greater than one year ■ If the analysis reflects that the Borrower's income has significantly increased or decreased, the Seller must provide sufficient documentation and justification to support the determination that the income used to qualify the Borrower is stable and likely to continue for the next three years ■ It may be necessary to obtain additional years' tax returns when the Borrower's self-employment income fluctuates in order to determine the stability of the income
Business financial statements	<p>Business financial statements typically consist of a profit and loss statement and a balance sheet for the business that cover a specified period of time (e.g., YTD, quarterly, annual).</p> <ul style="list-style-type: none"> ■ Financial statements for the business may be prepared by multiple parties, including but not limited to, the Certified Public Accountant (CPA), accountant or tax preparer that prepares the tax returns for the business, or the Borrower ■ Financial statements may not be used for the calculation of stable monthly income (unless audited); however, they may provide additional support for the Seller's business and income analysis ■ Financial statements for the business may be used to assist in evaluating and determining various components of self-employment analysis, including, but not limited to, business liquidity, income stability when tax returns are on extension, evaluating a newer business and the impact of business fund withdrawals
Business and/or	If the Borrower's federal individual and/or business income tax

Analysis	
Topic	Requirements and guidance
individual tax return(s) - most recent calendar year not yet available	<p>returns for the most recent calendar year, or fiscal year as applicable, are not available (e.g., Borrower and/or Borrower's business filed an IRS extension, tax returns are not yet filed with the IRS), examples of factors and documentation to consider when using older tax returns to determine continued income stability include, but are not limited to, the following:</p> <ul style="list-style-type: none"> ■ Business review and analysis of current business activity through a review of the most recent financial statement(s) that cover the period since the last tax return filing(s) ■ Business review and analysis of current business activity through a review of at least the most recent three months of business bank statements ■ Signed IRS Form 941, Employer's Quarterly Federal Tax Return, for the prior calendar year and current calendar year quarter(s) that supports wages and other compensation documented on the most recent business tax return ■ Review of tax liability reported with IRS tax filing extension(s) (e.g., IRS Form 4868, IRS Form 7004) to determine consistency with tax liability reported on prior year(s) tax return(s) ■ Review of W-2s, 1099s and/or K-1s from the most recent calendar year, if available <p>If the continued stability of the income cannot be determined, then the Borrower's federal individual and/or business income tax returns from the most recent calendar year may need to be obtained to make the determination.</p> <p>Refer to Section 5302.4(b) for additional information about age of tax return requirements.</p>
Income analysis – adjustments (examples)	<p>The following list includes common examples of items that may be considered for inclusion in income when performing the self-employed income calculations on Form 91, or a similar alternative form.</p> <p>Non-cash deductions Non-cash items such as depreciation, depletion and amortization</p> <p>Non-recurring losses</p>

Analysis	
Topic	Requirements and guidance
	<p>Documented nonrecurring losses, such as casualty losses and loss carry-overs from previous tax years</p> <p>Mortgages and notes payable in less than one year</p> <ul style="list-style-type: none"> ■ The Seller must analyze the terms of the Mortgages and notes payable in less than one year and determine whether the income should be reduced by the debt when performing the income analysis ■ The analysis must include factors such as whether the business has sufficient liquidity to pay off the debt without a negative impact to the business, if the business type is indicative of debt that would continually roll over, and/or if the debt is a line of credit that is consistently renewable. If these factors are present, the income does not need to be reduced by the debt when performing the income analysis.
Borrower debt paid by business	Refer to Section 5401.2(b)(iv) for requirements for self-employed Borrower's debt paid by the Borrower's business.
IRS Form 8825, Rental Real Estate Income and Expenses of a Partnership or an S Corporation	<p>Rental real estate income and expenses reported on Form 8825</p> <p>All rental real estate income and expenses reported on IRS Form 8825 for partnerships and S corporations are to be treated as self-employment income, regardless of whether or not the Borrower is personally obligated on the Note and regardless of the Borrower's percentage of ownership interest in the partnership or S corporation. The requirements of Section 5401.2(b)(iv) are not applicable.</p> <p>Refer to Form 91 for the appropriate treatment and calculation of the Borrower's proportionate share of the net rental real estate income or loss.</p>

(e) Self-employment income not used for qualification

The following chart contains requirements and guidance pertaining to self-employment income not used for qualification:

Self-employment income not used for qualification	
Subject	Requirements and guidance
Self-employment disclosed on Form 65, Uniform Residential Loan Application (or other documentation) but not used to qualify	<p>The Seller is not required to obtain any additional documentation or evaluate the income or loss from the self-employment for each Borrower on the Mortgage who:</p> <ul style="list-style-type: none"> ■ Has a primary source of income, other than self-employment, used for qualifying for the Mortgage (e.g., salaried income from primary employment), and ■ Is self-employed and self-employment income is a secondary source of income <p>For each Borrower on the Mortgage who is self-employed and does not have another source of income that is used in qualifying for the Mortgage, the following requirements apply:</p> <ul style="list-style-type: none"> ■ The Seller must obtain pages 1 and 2 of the Borrower's federal individual income tax returns, and the applicable schedules (e.g., Schedule C, Schedule E), to determine if there is a business loss that may have an impact on the stable monthly income. Refer to Section 5302.4(b) for information about using IRS tax transcripts to meet certain portions of this requirement. □ If a business loss is reported and the Borrower qualifies with the loss, then the Seller is not required to obtain any additional documentation relating to the business loss □ If a business loss is reported and the Borrower does not qualify with the loss, then the Seller must perform a business and income analysis to determine whether depreciation adjustments or other factors such as business closure or evidence of a one-time non-recurring event justify a reduction of the reported loss when calculating the stable monthly income. The Seller must obtain additional documentation needed in order to fully evaluate the loss and support the analysis (e.g., business tax returns (final or otherwise), evidence of a one-time non-recurring event). ■ If the tax returns or other documentation in the Mortgage file (e.g., IRS tax transcripts, additional Schedule K-1's) reflect positive income from self-employment but that

Self-employment income not used for qualification	
Subject	Requirements and guidance
	income is not used to qualify, additional documentation (e.g., complete business or federal individual income tax return(s)) is not required

(f) Business assets used for closing

The following chart contains requirements and guidance pertaining to business assets used for closing:

Subject	Requirements and guidance
Business assets used for closing	<ul style="list-style-type: none"> ■ Withdrawals of assets from the business may have a negative impact on the ability of the business to continue operating. When business assets are being used for the Down Payment, Closing Costs and/or reserves, the Seller must determine that the withdrawal of the funds will not have a detrimental effect on the business. In addition to a review and analysis of the personal and business tax returns, the Seller may review and analyze the current financial statement and/or the last three months of the business bank statements to confirm the deposits, withdrawals and balances are supportive of a viable business and are aligned with the level and type of income and expenses reported on the business tax returns. ■ The factors contributing to the determination that the withdrawal will not negatively impact the business must be included on the Seller's written analysis of the income source and amount <p>The business assets must be verified in accordance with the documentation requirements in Sections 5102.3, 5102.4 and 5501.3.</p>

(g) Verification of current existence of the business

The following chart contains requirements and guidance pertaining to verification of current existence of the business:

Topic	Requirements and guidance
Verification of current existence of business	Verification of the current existence of the business is required when positive income from the business is used as stable monthly income
Acceptable third party sources	<p>Acceptable third party sources include, but are not limited to:</p> <ul style="list-style-type: none"> ■ Regulatory agency ■ Phone directory ■ Internet source (e.g., Better Business Bureau) ■ Directory assistance ■ Applicable licensing bureau <p>Verification of current existence of the business obtained verbally from an acceptable third party source must be documented and include all of the following:</p> <ul style="list-style-type: none"> ■ Name and address of the business ■ Name of individual and entity contacted to obtain the verification ■ Date information verified ■ Name and title of the individual who completed the verification for the Seller
Alternative sources	<p>The Seller may consider alternative sources if the above are not available, such as:</p> <ul style="list-style-type: none"> ■ Preparer of the tax returns for the business (e.g., accountant), provided the preparer has an arm's length relationship with the Borrower ■ At least one months' business bank statement that supports the current existence of the business and the level and type of income and expenses reported on the business tax returns
Date requirements	The verification must be completed prior to the Delivery Date, but no more than 120 days prior to the Note Date

(h) Documentation requirements

The Seller must establish and calculate the stable monthly income using at least the following required documentation. Additional documentation may be needed to support income stability, as described within this chapter.

- Form 91, Income Calculations, or a similar alternative form (e.g., Income Calculation Report as described in Chapter 5903)
- Verification of the current existence of the business as described in Section 5304.1(g)
- Federal income tax returns, as required in the chart below, including all applicable schedules and forms must reflect at least 12 months of self-employed income
- Verification of how long the business has been in existence:
 - For partnerships, S corporations and corporations, the federal income tax return(s) for the business must indicate the number of years that the business has been in existence
 - For sole proprietorships, the federal individual income tax return(s) and any other documentation or information received must not contradict the number of years that the business has been in existence as documented on Form 65, Uniform Residential Loan Application

Business structure	Streamlined Accept and Standard Documentation Levels	
	Business in existence greater than or equal to five years¹	Business in existence less than five years
Sole Proprietorship	Complete signed federal individual (Form 1040) income tax return for the most recent year.	Complete signed federal individual (Form 1040) income tax returns for the most recent two years.
Partnership	Complete signed federal individual and partnership (Form 1065) income tax returns, including the Schedule K-1(s) for the most recent year.	Complete signed federal individual and partnership (Form 1065) income tax returns, including the Schedule K-1(s) for the most recent two years.
S Corporation	Complete signed federal individual and S corporation (Form 1120S) income tax returns, including the Schedule K-1(s), Form 1125-E and W-2(s) if applicable, for the most recent year.	Complete signed federal individual and S corporation (Form 1120S) income tax returns, including the Schedule K-1(s), Form 1125-E and W-2(s) if applicable, for the most recent two years.
Corporation	Complete signed federal individual and corporation (Form 1120) income tax returns, including Form 1125-E and W-2(s) as applicable, for the most recent year.	Complete signed federal individual and corporation (Form 1120) income tax returns, including Form 1125-E and W-2(s) as applicable, for the most recent two years.

¹ The Borrower must be self-employed (i.e., have an ownership interest of 25% or more) in the same business for at least five years

Chapter 5305: Other Income

5305.1: General requirements for all other income (non-employment/non-self-employment) (07/06/17)

The Seller must evaluate the stability and consistency of receipt of all other non-employment/non self-employment income in accordance with the requirements of Topic 5300.

Factors that must be considered in determining the likelihood of continued consistent receipt of all other non-employment/non-self-employment income below include, but are not limited to, the following:

1. Whether the payments are received pursuant to a written agreement, court decree, government program, law and/or regulation
2. The length of time the payments have been received
3. The regularity of receipt of the income
4. The consistency of the amount of income
5. The availability of procedures to compel payment
6. Whether full or partial payments have been made
7. The age of each child for which support and/or benefit payments are made (if applicable)
8. Applicable eligibility criteria governing the continued receipt of the income

For general requirements with respect to income history, stability and continuance, refer to Section 5301.1.

5305.2: Specific requirements for other income types (12/01/21)

This section contains stable monthly income and documentation requirements for the following income types:

- Notes receivable
- Dividend and interest
- Capital gains
- Royalty payments
- Trust income
- Retirement income
- Retirement account distributions as income
- Survivor and dependent benefit income
- Long-term disability income
- Social Security Supplemental Security Income
- Public assistance income
- Homeownership Voucher Program
- Foster-care income
- Alimony, child support or separate maintenance payments
- Housing or parsonage allowance

- Income from a foreign source
- Mortgage Credit Certificates
- Tax-exempt income

For income types that require evidence of sufficient remaining assets to establish likely continuance, those assets may not be in the form of cryptocurrency.

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
Notes receivable	<p>History of receipt: Receipt of payments for the most recent 12 months on a regular monthly basis</p> <p>Continuance: Note must have a remaining term of at least three years</p> <p>Calculation: Use the full scheduled payment amount documented on the note</p>	Copy of the note evidencing the terms including, but not limited to, the scheduled amount and duration of payments, and proof of receipt of payments for the most recent 12 months
Dividend and interest	<p>History of receipt: Most recent two-years</p> <p>Continuance: Document that sufficient assets remain after closing to support continuance of the dividend and interest income, at the level used for qualifying, for at least the next three years</p> <p>Calculation: 24-month average</p>	<p>Copy of either:</p> <ul style="list-style-type: none"> ■ Complete federal individual income tax returns for the most recent two-year period <p>or</p> <ul style="list-style-type: none"> ■ Year-end asset account statements for the most recent two years evidencing all dividend and interest income for each year for the income producing asset(s), <p>and</p>

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels <ul style="list-style-type: none"> ■ Evidence of sufficient assets to support the qualifying income
Capital gains	<p>History of receipt: Most recent two-years of realized capital gains</p> <p>Continuance: Document that sufficient assets remain after closing to support continuance of the capital gain income, at the level used for qualifying, for at least the next three years</p> <p>Calculation: 24-month average</p>	<ul style="list-style-type: none"> ■ Copy of complete federal individual income tax returns for the most recent two-year period reflecting capital gain income, and, ■ Evidence of sufficient assets to support the qualifying income
Royalty payments	<p>For Borrowers who have less than a two-year history:</p> <p>History of receipt: Most recent one-year receipt of payments on a regular basis</p> <p>Continuance: Royalty contract(s) and/or lease agreements must evidence eligibility for payment continuance for at least the next three years</p> <p>Calculation: 12-month average</p> <p>For Borrowers who have a history of two years or more:</p> <p>History of receipt: Most recent two-years receipt of payments on a regular basis</p> <p>Continuance: Must be likely to continue for at least</p>	<p>For Borrowers who have less than a two-year history:</p> <ul style="list-style-type: none"> ■ Copy of complete federal individual income tax return for the most recent one-year period, and ■ Copy of royalty contract(s) or lease agreement(s) evidencing the terms including, but not limited to, the duration of payment eligibility <p>For Borrowers who have a history of two years or more:</p> <ul style="list-style-type: none"> ■ Copy of complete federal individual income tax returns for the most recent two-year period

	<p>the next three years</p> <p>Calculation: 24-month average</p>	
Trust income	<p>History of receipt:</p> <ul style="list-style-type: none"> ■ Most recent two-years if the income is based on historical fluctuating payments from a trust asset (e.g., dividends and interest) ■ A history of receipt is not required if the trust specifies pre-determined fixed payment amounts occurring at regular intervals for a duration of at least three years <p>Continuance: Document that sufficient assets remain after closing to support continuance of the trust income for at least the next three years</p> <p>Calculation:</p> <ul style="list-style-type: none"> ■ For fluctuating payments: 24-month average ■ For pre-determined fixed payments: Use the fixed payment amount documented in the trust agreement 	<p>For trust income based on historical fluctuating payments from a trust asset:</p> <ul style="list-style-type: none"> ■ Copy of fully executed trust agreement outlining payment terms, and ■ Copy of complete federal individual income tax returns for the most recent two-year period, and ■ Evidence of sufficient assets to support the qualifying income (e.g., letter from trustee, bank statements) <p>or</p> <p>For trust income based on a pre-determined fixed payment amount:</p> <ul style="list-style-type: none"> ■ Copy of fully executed trust agreement specifying fixed payment amount occurring at set intervals (e.g., monthly, quarterly) and duration of payments, and ■ Document current receipt with a copy of a bank statement or other equivalent documentation, and ■ Evidence of sufficient assets to support the qualifying income (e.g., letter from trustee, bank statements)
Retirement income (e.g.,	Existing and established retirement income:	For existing and established sources of retirement

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
Social Security, pension, annuity, other similar benefits; not including retirement account distributions as income)	<p>Evidence of the type, source, pre-determined payment amount, payment frequency and current receipt must be obtained</p> <ul style="list-style-type: none"> ■ History of receipt: A history of receipt is not required for the income to be considered stable ■ Continuance: Must be likely to continue for at least the next three years ■ Calculation: Use the documented fixed monthly payment amount <p>Newly established retirement income:</p> <p>If the retirement income is newly established, verification of current receipt is not required; however, the finalized terms of the new income must be documented. The income must commence prior to or on the first Mortgage payment due date.</p> <p>The terms that must be verified include, but are not limited to, the source, type, effective date of income commencement, payment frequency and pre-determined payment amount that will commence prior to or on the first Mortgage payment due date.</p>	<p>income:</p> <ul style="list-style-type: none"> ■ Document income type, source, payment frequency, pre-determined payment amount and current receipt with one or more of the following documents, as needed: a copy of a benefit verification letter, award letter, pay statement, 1099, bank statement(s) or other equivalent documentation. ■ Age of documentation requirements as described in Section 5102.4 do not have to be met for verification of income type, source, payment frequency or pre-determined payment amount. ■ For Social Security retirement benefits, the Seller must obtain either: (i) a copy of the Social Security Administration benefit verification letter or (ii) documentation evidencing current receipt, but is not required to obtain both. <p>For newly established sources of retirement income:</p> <ul style="list-style-type: none"> ■ Document the finalized terms of the newly established income including, but not limited to, the source, type, effective date of income commencement, payment frequency and pre-determined payment amount with a copy of the benefit verification letter, notice of award letter or other equivalent documentation from the payor that provides and establishes these terms. The income must commence prior to or on the first Mortgage payment due date. The documentation must

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
		be dated no more than 120 days prior to the Note Date. Verification of current receipt is not required.
Retirement account distributions as income (e.g., 401(k), IRA)	<p>Eligibility requirements: Distributions from retirement accounts recognized by the Internal Revenue Service (IRS) (e.g., 401(k), IRA) that are not subject to penalty (e.g., early withdrawal penalty) may be considered stable monthly qualifying income. Evidence of the income source, type, distribution frequency, distribution amount(s), current receipt (as applicable) and history of receipt (as applicable), must be documented.</p> <p>Required Minimum Distributions: If distributions are being taken in accordance with certain IRS rules, such as the Required Minimum Distributions (RMD) rule (i.e., excise tax penalty applies if distributions are not taken), and evidence of current receipt of the required minimum distribution amount is obtained, history of receipt is not required for the income to be considered stable.</p> <p>History and stability requirements and guidance: Due to the multiple variables inherent with distributions from retirement accounts, including, but not limited to, fixed and fluctuating income amounts, the history of receipt necessary to justify a stable monthly qualifying income amount may vary. This</p>	<ul style="list-style-type: none"> ■ Copy of most recent retirement account statement(s), documentation from financial institution holding retirement account that verifies regularly scheduled distribution arrangements, 1099(s) and/or other equivalent documentation showing income source, type, distribution frequency, distribution amounts and history of receipt (as applicable), and ■ Copy of bank statement(s) or other equivalent documentation evidencing current receipt (as applicable), and ■ Evidence of sufficient assets among all retirement accounts used to support the qualifying income amount and continuance <p>If the retirement distributions are not scheduled monthly payments (e.g., annual, semi-annual, quarterly), the most recent distribution verified through a copy of the retirement account statement, 1099 and/or other equivalent documentation, as applicable, is sufficient in lieu of current receipt; however, verification of receipt of multiple distributions may be necessary to determine frequency of distributions, history of receipt and amount of stable monthly qualifying income.</p>

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
	<p>may include a range of history from zero to 24 months, depending upon the individual circumstances. As with all income, the Seller must determine that the source and amount of the income are stable. Factors that the Seller must consider when determining that the income used to qualify the Borrower is stable, and when determining the history of receipt necessary to justify a stable monthly qualifying income amount include, but are not limited to the following:</p> <ul style="list-style-type: none"> ■ Frequency and regularity of receipt of the distributions ■ Length of time the distributions have been taken and whether or not they establish a stable pattern of receipt over a given period of time. For example, consider whether or not the distributions are fixed amounts occurring with regular frequency or are fluctuating amounts occurring with or without regular frequency. For fixed amounts occurring with regular frequency, a lesser history of receipt may be needed in order to determine the amount and stability of the qualifying income than would be needed for fluctuating amounts. For fluctuating amounts, it may be necessary to obtain a longer history of receipt in order to determine the amount and stability of the qualifying income while taking into consideration whether or not the overall 	

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
	<p>payments are similar when viewed year over year or with another similar measure, such as quarter over quarter.</p> <ul style="list-style-type: none"> ■ Rules governing distributions (e.g., IRS rules governing exceptions to early withdrawal penalties and Required Minimum Distributions (RMD), employer retirement plan rules and designs governing scheduled distribution terms). Certain rules may provide support for the frequency and regularity of receipt as well as continued receipt, thereby enabling a lesser amount of history to justify a stable monthly qualifying income amount. <p>A written rationale explaining the analysis used to determine the qualifying income must be provided, regardless of the underwriting path.</p> <p>Continuance: Document that sufficient assets remain in the retirement account(s) after closing to support continuance of the retirement account distributions as income for at least the next three years.</p> <p>If the retirement account(s) from which the Borrower is currently taking distribution is projected to be depleted within three years, the Borrower's additional retirement accounts may be considered when determining continuance of income used for qualifying. The Seller must verify that the Borrower has sufficient eligible retirement assets in aggregate</p>	

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
	to support the amount of qualifying income for at least three years after the Note Date. The additional retirement assets used to verify continuance may not be used as a source of funds for closing or reserves, as a current source of income for the Borrower, or for the calculation of assets as a basis for repayment of obligations described in Section 5307.1.	

Income type	Stable monthly income requirements	Documentation requirements

		Mortgage payment due date. The documentation must be dated no more than 120 days prior to the Note Date. Verification of current receipt is not required.
Homeownership Voucher Program payments (formerly referred to as Section 8 homeownership assistance payments)	<p>History of receipt: A history of receipt is not required for the income to be considered stable</p> <p>Continuance: Homeownership Voucher Program assistance term limit must have a remaining term of at least three years</p> <p>Calculation: Use the fixed monthly payment amount documented by the public housing agency that issued the voucher. The payments may not be used to offset the monthly housing payment amount used for qualification.</p>	Copy of documentation from the public housing agency that issued the homeownership voucher verifying the terms including, but not limited to, the source, benefit type, payment frequency, payment amount and duration of the term limit for assistance
Foster-care income received from a state- or county-sponsored organization	<p>History of receipt: Most recent two-years</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: 24-month average</p>	Documentation to evidence receipt of foster-care income for the most recent two-year period
Alimony, child support or separate maintenance payments	<p>History of receipt: Most recent six months</p> <p>If the payor has been obligated to make payments for less than six months, if the payments are not for the full amount or are not received on a consistent basis, the income must not be considered for qualifying.</p>	<ul style="list-style-type: none"> ■ Documentation to evidence receipt of the alimony, child support and/or separate maintenance payment amount for the most recent six months, and ■ Copy of the signed court order, legally binding separation agreement and/or final divorce decree verifying the payor's obligation for the previous six

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
	<p>Continuance: Document and verify the payor is obligated to make payment to the Borrower for at least the next three years</p> <p>Calculation: Use the documented fixed monthly payment amount</p>	<p>months, including the amount and the duration of the obligation, and</p> <ul style="list-style-type: none"> ■ For child support income, proof of the ages of the children for which child support is received
Housing or parsonage allowance (for military housing entitlements refer to Section 5303.3(d)). For housing allowance received pursuant to an employee relocation program, refer to Section 4408.3(c))	<p>History of receipt: Most recent 12 months</p> <p>Continuance: Must be likely to continue for at least the next three years</p> <p>Calculation: Use the documented monthly payment amount</p> <p>The housing allowance may not be used to offset the monthly housing payment.</p>	<ul style="list-style-type: none"> ■ Written verification of employment (VOE), a letter from the employer or paystubs documenting the amount of the housing or parsonage allowance and the terms under which it is paid, and ■ Documented evidence of the most recent 12 months' receipt of the housing or parsonage allowance
Income from a foreign source (i.e., non-employment/non-self-)	<p>Requirements: The income must be reported on the Borrower's most recent U.S. federal individual income tax return</p> <p>Refer to the income type(s) listed in this chapter for the requirements applicable to the income type</p>	<ul style="list-style-type: none"> ■ Copy of the Borrower's most recent complete signed U.S. federal individual income tax return, and ■ Documentation for the applicable income type in accordance with the requirements of this chapter

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels
employment income)	received from the foreign source (e.g., history of receipt, continuance, calculation, documentation).	
Mortgage Credit Certificates (MCCs)	<p>History of receipt: A history of receipt is not required</p> <p>Calculation:</p> <ul style="list-style-type: none"> ■ The amount used as qualifying income must be calculated as follows: (Mortgage amount) x (Note Rate) x (Mortgage Credit Certificate rate %) divided by 12 ■ The amount used as qualifying income cannot exceed the maximum Mortgage interest credit permitted by the IRS 	Copy of the MCC
Tax-exempt income	<p>History of receipt: A history of receipt is not required</p> <p>Continuance: Must be likely to continue to remain tax exempt</p> <p>Calculation: To determine the amount to adjust (i.e., “gross-up”) the Borrower’s income, use:</p> <ul style="list-style-type: none"> ■ 25% of the tax exempt portion of the income or ■ The current federal and state income tax withholding tables 	<p>Copy of complete federal individual income tax return for the most recent one-year period or other documentation evidencing that the income, or a portion of the income, is tax exempt.</p> <p>For Social Security income (i.e., retirement income, disability benefits, survivor benefits and Supplemental Security Income), the Seller may gross up 15% of the income without obtaining additional documentation. For example, if the Borrower’s Social Security income is \$1,000/month, the Seller can gross up \$150 (i.e., 15% of \$1,000) without obtaining documentation that this portion of the income is tax exempt. Using 25% as the income adjustment factor, the income is calculated as follows:</p>

Income type	Stable monthly income requirements	Documentation requirements
		Streamlined Accept and Standard Documentation Levels <p>\$150 x 25% = \$37.50 \$1,000 + \$37.50 = \$1,037.50 \$1,037.50 can be used for qualifying without obtaining tax returns or other documentation evidencing that the income is tax exempt. The Seller must obtain additional documentation in order to gross up the entire amount of income (i.e., \$1,000) for use in qualifying the Borrower.</p>

Chapter 5306: Rental Income

5306.1: Rental income overview (06/01/22)

This chapter contains requirements and guidance for the use of rental income:

- General eligibility requirements (Refer to Section 5306.1(a))
- Rental income from a live-in aide residing in the Borrower's 1-unit Primary Residence, regardless of the type of housing provided (Refer to Section 5306.2)
- Rental income generated from an ADU on a subject 1-unit Primary Residence (Refer to Section 5306.3)
- Rental income from the Borrower's 2- to 4-unit Primary Residence, subject 1- to 4-unit Investment Property and non-subject investment property (Refer to Section 5306.4)
- Establishing the debt payment-to-income ratio (Refer to Section 5306.4(b))
- IRS Form 8825, Rental Real Estate Income and Expenses of a Partnership or an S Corporation (Refer to Section 5306.4(c))
- Data delivery requirements for rental income from a 2- to 4-unit Primary Residence, subject 1- to 4-unit investment property and non-subject investment property (Refer to Section 5306.4(d))
- Other Guide provisions related to rental income (Refer to Section 5306.4(e))

(a) General eligibility requirements

Stable monthly rental income must be generated from acceptable and verifiable sources and must be reasonably expected to continue for at least the next three years. For each income source used to qualify the Borrower, the Seller must determine that both the source and the amount of the income are stable. Refer to Section 5301.1 for additional information about income stability and continuance.

(i) Rental income eligibility

Rental income generated from the following property and occupancy types may be considered when determining the stable monthly income:

- 1-unit Primary Residence:
 - Rental income from a live-in aide, regardless of the type of housing provided, or

- Rental income from an ADU
- 2- to 4-unit Primary Residence (rental income is eligible from units that are not occupied by the Borrower)
- Subject 1- to 4-unit Investment Property
- Non-subject investment property owned by the Borrower (not restricted to residential property (e.g., commercial permitted))

(ii) ADUs

When determining stable monthly income, rental income generated from an ADU may be considered for:

- Subject 1-unit Primary Residence with an ADU
- Subject 1-unit Investment Property
- Non-subject investment property

The rental income requirements in this chapter must be met. Refer to Sections 5306.3 and 4501.9(a) for information relating to additional rental income eligibility for a 1-unit Primary Residence with an ADU. Refer to Chapter 5601 for the property eligibility and appraisal requirements related to the subject property with an ADU.

(iii) Second homes

Rental income generated from the Borrower's second home may not be used as stable monthly income.

5306.2: Rental income from live-in aide residing in a 1-unit Primary Residence (06/01/22)

The following chart contains requirements related to rental income from a Borrower's 1-unit Primary Residence:

1-unit Primary Residence rental income eligibility requirements	
Eligibility	Rental income generated from the Borrower's 1-unit Primary Residence, including rental income from an ADU may be used to qualify a Borrower with a disability provided the rental income is from a live-in aide. Typically, a live-in aide will receive room and board payments through Medicaid waiver funds from which rental payments are made to the Borrower.
Documentation	Evidence that the Borrower has received stable rental income from a live-in aide for the most recent 12 months
Qualification	The rental income may be considered in an amount up to 30% of the total stable monthly income that is used to qualify the Borrower for the Mortgage

Refer to Section 4501.9(a) for use of rental income generated from the Borrower's 1-unit Primary Residence securing a Home Possible® Mortgage.

5306.3: Rental income generated from an ADU on a subject 1-unit Primary Residence (09/01/22)

Rental income from a subject 1-unit Primary Residence that does not meet the requirements in Sections 4501.9(a) or 5306.2 and is generated from an ADU is eligible for use in qualifying the Borrower provided it meets the requirements of this section.

(a) Eligible loan purpose

The Mortgage must be a purchase or “no cash-out” refinance transaction.

(b) Documentation requirements

(i) Minimum income documentation requirements

The following chart contains minimum documentation required to establish net rental income from an ADU on a 1-unit Primary Residence.

Purchase transactions	“No cash-out” refinance transactions – Rental income from an ADU placed in service in current calendar year	“No cash-out” refinance transactions – Rental income from an ADU owned in prior calendar year
<p>The Seller must make reasonable efforts to determine lease availability, including review of the appraisal, comparable rent data, purchase contract, a discussion with the Borrower and/or any other applicable and reasonable method.</p> <p>If a lease is available, then:</p> <ul style="list-style-type: none"> ■ The lease must be used to determine the net rental income <p>and</p> <ul style="list-style-type: none"> ■ ADU rental analysis, as described in Section 5306.3(b)(iii), must support the income reflected on the lease <p>If a lease is not available, the ADU rental analysis must be used to determine the net rental income.</p>	<ul style="list-style-type: none"> ■ A lease must be used to determine the net rental income <p>and</p> <ul style="list-style-type: none"> ■ ADU rental analysis, as described in Section 5306.3(b)(iii), must support the income reflected on the lease <p>and</p> <ul style="list-style-type: none"> ■ The Mortgage file must contain documentation reflecting the date the ADU was placed in service 	<ul style="list-style-type: none"> ■ The Borrower's complete federal income tax returns (IRS Form 1040), including Schedule E, for the most recent year must be used to determine the net rental income, except as stated below ■ A lease and ADU rental analysis, as described in Section 5306.3(b)(iii), may be used if: <ul style="list-style-type: none"> □ The property was out of service for any time period in the prior year and the Mortgage file contains a documented event such as a renovation and the Schedule E supports this by a reduced number of days in use and reflects repair costs; or □ The property was purchased later in the calendar year and the Schedule E supports this by a reduced number of days in use <p>In either of the above instances, an ADU rental analysis is required to support the income reflected on the lease.</p>

(ii) Lease requirements

When a lease is obtained in accordance with the minimum income documentation requirements above, the lease must be current and fully executed, with a minimum original term of one year. If the lease is documented as assigned from the property seller to the Borrower and is in the automatically renewable month-to-month phase of an original one-year (or longer) term lease, then a month-to-month term is acceptable.

(iii) Additional appraisal requirements

The following information on the ADU is required within the appraisal report:

- Information on the ADU must include the:
 - General condition of unit
 - Square feet of finished area
 - Total number of rooms including number of bedrooms and baths
- The appraisal report must indicate the ADU is allowed per zoning and land use requirements (i.e., legal, legal non-conforming, no zoning)
- Comparable sales within the *Sales Comparison Approach* section must include at least one comparable sale with an ADU that is rented
- The rental analysis must include a minimum of three comparable rentals to support the opinion of market rent applicable to the ADU. At least one of the comparable rentals must include a rented ADU to support the market rent for ADUs. The appraiser may provide this rental analysis data in narrative form within the appraisal report or by attaching a separate rent schedule to the appraisal report.

See Section 5601.2 for additional requirements for a property with an ADU.

(c) Net rental income calculation requirements

The following chart contains requirements for calculating net rental income used for qualifying the Borrower.

Rental income documentation	Net rental income calculation requirements
Lease	75% of the gross monthly rent or gross monthly market rent.
ADU rental analysis	The 25% adjustment is made to compensate for vacancies, operating and maintenance costs and any other unexpected expenses.
Schedule E	Calculate the net rental income from Schedule E using Form 92, Net Rental Income Calculations – Schedule E, or a similar alternative form.

The rental income generated from an ADU may be considered in an amount up to 30% of the total stable monthly income that is used to qualify the Borrower for the Mortgage.

(d) Landlord education

For purchase transactions, at least one qualifying Borrower must participate in a landlord education program prior to the Note Date, or the Effective Date of Permanent Financing for Construction Conversion and Renovation Mortgages, unless the Borrower has a minimum of one-year Investment Property management experience or ADU rental management experience. Landlord education must not be provided by an interested party to the transaction, the originating lender or the Seller. A copy of a certificate evidencing successful completion of the landlord education program must be retained in the Mortgage file.

(e) Delivery requirements

Refer to Section 6302.8(a) for delivery requirements for each Mortgage where rental income from an ADU on a 1-unit Primary Residence is used to qualify the Borrower.

5306.4: Rental income from a 2- to 4-unit Primary Residence, subject 1- to 4-unit Investment Property and non-subject Investment Property (06/01/22)

(a) Rental income from the Borrower's 2- to 4-unit Primary Residence, subject 1- to 4-unit Investment Property and non-subject Investment Property

This section contains requirements and guidance for the calculation, documentation, analysis, history and determination of stable monthly net rental income.

(i) Net rental income calculation requirements

The following chart contains requirements pertaining to net rental income calculation.

Net rental income	
Rental income documentation	Calculation requirements
Lease	75% of the gross monthly rent or gross monthly market rent.
Forms 72 or 1000	The 25% adjustment is made to compensate for vacancies, operating and maintenance costs and any other unexpected expenses.
Schedule E	<p>The net rental income for each individual property is determined based on the history of income and expenses reported on Schedule E. Calculate the net rental income from Schedule E using Form 92, Net Rental Income Calculations – Schedule E, or a similar alternative form, as follows:</p> <p>Rents received</p> <ul style="list-style-type: none"> - Less total expenses <p><i>Add back the following expenses:</i></p> <ul style="list-style-type: none"> + Insurance + Mortgage interest paid to banks, etc. + Taxes (real estate taxes only) + Depreciation and/or depletion + Homeowners association dues (if specifically reported as an expense) + One time losses (e.g., casualty loss due to documented catastrophic event); + Non-cash deductions (e.g., amortization); <p>Result: Net rental income (calculated to a monthly amount)</p> <p>When calculating the net rental income for each individual property, the following expenses reported on Schedule E (and noted above) can only be added back if they are included in the payment amount being used to establish the debt payment-to-income ratio for that property: insurance, mortgage interest paid to banks, real estate taxes, homeowners association dues.</p>

(ii) Appraisal form requirements documentation and analysis

The following chart contains requirements related to appraisal form documentation and analysis:

Appraisal forms – comparable rent data	
Topic	Requirements¹
Documentation	Subject 1-unit Investment Properties: Form 1000, Single Family Comparable Rent Schedule Subject 2- to 4-unit Primary Residences and Subject 2- to 4-unit Investment Properties: Form 72, Small Residential Income Property Appraisal Report
Analysis	The Seller's analysis of the rental information must include, at a minimum, the following factors: <ul style="list-style-type: none">■ Rental market viability and income producing potential for subject property■ Whether the current market rents reasonably support the gross rents reported on Schedule E or the gross monthly lease income, if applicable If the current market rents do not reasonably support the gross rents reported on Schedule E or the gross monthly lease income, the Seller must: <ul style="list-style-type: none"><input type="checkbox"/> Determine if additional documentation is necessary to support income stability, and<input type="checkbox"/> Provide a written analysis explaining the discrepancy and justifying the determination that the rental income used to qualify the Borrower is stable and reasonably expected to continue

¹ Appraisal form requirements may also apply to a non-subject property, as described in Section 5306.4(a)(iii)

(iii) Documentation, history and analysis

The following charts contain requirements and guidance for documentation, analysis and history.

Rental income from purchases and property acquired or placed in service in the current calendar year		
Topic	Subject property purchase transaction	Subject property refinance transaction or non-subject property:
Documentation and analysis Streamlined Accept and Standard Documentation Levels	<ul style="list-style-type: none"> ■ A lease, if available, must be used to determine the net rental income. The Seller must make reasonable efforts to determine lease availability, including review of the appraisal, comparable rent data, purchase contract, a discussion with the Borrower and/or any other applicable and reasonable method. or ■ If a lease is not available, Forms 72 or 1000, as applicable, may be used to determine the net rental income 	<ul style="list-style-type: none"> ■ Lease must be used to determine the net rental income; and <ul style="list-style-type: none"> <input type="checkbox"/> Form 72 or 1000 supporting the income reflected on the lease; or <input type="checkbox"/> Documentation (e.g., bank statements evidencing deposit or electronic transfer of rental payments, canceled rent checks) supporting two months of receipt of rental income ¹ ■ Purchase date or conversion date, as applicable, must be documented
Lease requirements	Leases must be current and fully executed, with a minimum original term of one year. If the lease is documented as assigned from the property seller to the Borrower and is in the automatically renewable month-to-month phase of an original one-year (or longer) term lease, then a month-to-month term is acceptable.	

Maximum eligible amount of net rental income	<ul style="list-style-type: none"> ■ The Borrower must currently own a Primary Residence to use rental income to qualify when purchasing a new rental property in the current calendar year. In such instances, net rental income can only offset the principal, interest, taxes and insurance (PITI) and when applicable, mortgage insurance premiums, leasehold payments, homeowners association dues (excluding unit utility charges) and payments on secondary financing (full monthly payment) of the new rental property. ■ If the Borrower's current Primary Residence is being converted to a rental property, net rental income can only offset the full monthly payment of that Primary Residence. ■ If the net rental income exceeds the full monthly payment of the new rental property or the converted Primary Residence, as applicable, the excess rental income cannot be added to the Borrower's gross monthly income to qualify unless the file documentation demonstrates the Borrower has a minimum of one-year investment property management experience.
---	---

¹ Form 72 or 1000 is always required for the subject property, as described in Section 5306.4(a)(ii)

Topic	Rental income from property owned in the prior calendar year
Documentation Streamlined Accept and Standard Documentation Levels	<p>The Seller must obtain the Borrower's complete federal income tax returns (Internal Revenue Service (IRS) Form 1040) including the Schedule E for the most recent year. Except as set forth below when use of a signed lease may be permitted, if the subject property has been owned for at least one year and income from the subject property is reported on the Borrower's federal income tax returns, the Seller must use the Schedule E to determine the net rental income or loss.</p> <ul style="list-style-type: none"> ■ A signed lease may be used if: <ul style="list-style-type: none"> □ The property was out of service for any time period in the prior year and the Mortgage file contains a documented event such as a renovation and the Schedule E supports this by a reduced number of days in use and reflects repair costs; or □ The property was purchased later in the calendar year and the Schedule E supports this by a reduced number of days in use; <p>And, in either of the above instances, additional documentation provided as follows:</p> <ul style="list-style-type: none"> ■ Form 72 or 1000 supporting the income reflected on the lease; or ■ Documentation (e.g., bank statements evidencing deposit or electronic transfer of rental payments, canceled rent checks) supporting two months of receipt of rental income ¹

	Unless the above requirements are met, a signed lease may not be used and the rental income or loss from the Schedule E must be used and annualized for qualifying purposes.
Lease requirements	Leases must be current and fully executed, with a minimum original term of one year. If the lease is in the automatically renewable month-to-month phase of an original one-year (or longer) term lease, then a month-to-month term is acceptable.

¹ Form 72 or 1000 is always required for the subject property, as described in Section 5306.4(a)(ii)

(b) Establishing the debt payment-to-income ratio

The following chart contains requirements pertaining to establishing the debt payment-to-income (“DTI”) ratio.

DTI ratio using net rental income	
Topic	Requirements
Net rental income amount and usage	When establishing the DTI ratio, refer to Section 5306.4(a)(i) for the net rental income calculation requirements. Refer to Section 5306.4(a)(i) for maximum eligible amount of net rental income.
2- to 4-unit Primary Residence	<ul style="list-style-type: none"> ■ The monthly housing expense (as described in Section 5401.1) must be calculated without the use of rental income ■ The net rental income may be added to the stable monthly income
Subject 1- to 4-unit Investment Property	<p>Subtract the monthly payment amount (as described in Section 5401.2(a)(8)) from the net rental income:</p> <ul style="list-style-type: none"> ■ If the result is positive, add it to the stable monthly income ■ If the result is negative, add it to the monthly liabilities
Rental income from non-subject investment property owned by the Borrower	<p>Subtract the monthly payment amount (as described in Section 5401.2(a)(8)) from the net rental income:</p> <ul style="list-style-type: none"> ■ If the result is positive, add it to the stable monthly income ■ If the result is negative, add it to the monthly liabilities <p>For multiple non-subject investment properties, apply the calculation above to each property, and:</p> <ul style="list-style-type: none"> ■ If the combined result is positive, add it to the stable monthly income ■ If the combined result is negative, add it to the monthly liabilities

(c) IRS Form 8825, Rental Real Estate Income and Expenses of a Partnership or an S Corporation

Refer to Chapter 5304 for the treatment of all rental real estate income or loss reported on the IRS Form 8825, which reflects all income and expenses for the rental property and the IRS Schedule K-1, which reflects the Borrower's proportionate share of the net rental income or loss. The requirements of Chapter 5304 are applicable regardless of the Borrower's percentage of ownership interest in the partnership or S corporation and regardless of whether the Borrower is personally obligated on the Note.

(d) Data delivery requirements for rental income

Refer to Section 6302.8 for delivery requirements for rental income. Regardless of whether rental income from the subject Investment Property is being used to qualify the Borrower, the Seller must deliver the ULDD Data Point *Property Dwelling Unit Eligible Rent Amount* for:

- Subject 1-unit Investment Property
- Each non-owner occupied unit in a 2- to 4-unit Primary Residence
- Each unit in a subject 2- to 4-unit Investment Property

(e) Other Guide provisions related to rental income

Refer to the following Guide provisions for additional information related to the rental income topic:

Guide Provision	Guide Location
Appraisal form rental information	Section 3401.12
Investment Property Mortgages	Section 4201.16
Home Possible® Mortgages	Section 4501.9(a)
General requirements for verifying documents	Section 5102.3
Age of documentation	Section 5102.4
General requirements for all stable monthly income	Section 5301.1
General requirements for documentation used to verify employment and income	Chapter 5302

Guide Provision	Guide Location
IRS Form 8825, Rental Real Estate Income and Expenses of a Partnership or an S Corporation	Section 5304.1(d)
Monthly housing expense	Section 5401.1
Monthly payment amount	Section 5401.2(a)(8)
Reserves	Section 5501.2
Property eligibility and appraisal requirements	Topic 5600
Property data required for all Mortgages	Section 6302.8

Chapter 5307: Asset Qualification Sources

5307.1: Assets as a basis for repayment of obligations (12/01/21)

Assets that will be used by the Borrower for the repayment of their monthly obligations may be used to qualify the Borrower for the Mortgage, provided that, regardless of the underwriting path of the Mortgage, the requirements of this section are met. Form 65, Uniform Residential Loan Application, should include information pertaining to the Borrower's employment and income, even if the Borrower qualifies for the Mortgage solely based on assets.

(a) Mortgage eligibility requirements

The assets described in this Section 5307.1 may only be used to qualify the Borrower if the Mortgage meets all of the following requirements:

- The Mortgage is secured by a 1- or 2-unit Primary Residence or a second home
- The Mortgage is either a purchase transaction Mortgage, "no cash-out" refinance Mortgage or Freddie Mac Enhanced Relief Refinance® Mortgage
- The Mortgage has a maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio of 80%, unless the Mortgage is an Enhanced Relief Refinance Mortgage, in which case the maximum ratios in Section 4304.3 apply

(b) Asset calculation for establishing the debt payment-to-income ratio

To determine the amount used to establish the debt payment-to-income ratio, the Seller must use the net eligible assets (as described below), divided by 240.

The amount of net eligible assets is calculated by subtracting the following from the total eligible assets:

- Any funds required to be paid by the Borrower to complete the transaction (e.g., Down Payment and Closing Costs),
- Any gift funds and borrowed funds, and
- Any portion of assets pledged as collateral for a loan or otherwise encumbered

(c) Asset eligibility and documentation requirements

The assets described below may be used to qualify the Borrower for the Mortgage, provided that the assets meet the following requirements:

Asset type	Asset eligibility requirements	Streamlined Accept and Standard Documentation requirements
Retirement Assets	<ul style="list-style-type: none">■ The retirement assets must be in a retirement account recognized by the Internal Revenue Service (IRS) (e.g., 401(k), IRA)■ Borrower must be the sole owner■ The asset must not currently be used as a source of income by the Borrower■ As of the Note Date, the Borrower must have access to withdraw the funds in their entirety, less any portion pledged as collateral for a loan or otherwise encumbered, without being subject to a penalty or an additional early distribution tax■ The Borrower's rights to the funds in the account must be fully vested■ Cryptocurrency may not be considered in the calculation of net eligible assets for establishing the debt payment-to-income ratio described in Section 5307.1(b)	<ul style="list-style-type: none">■ Most recent retirement asset account statement■ Documentation evidencing asset eligibility requirements are met

Asset type	Asset eligibility requirements	Streamlined Accept and Standard Documentation requirements
Lump-sum distribution funds not deposited to an eligible retirement asset	<p>If the lump-sum distribution funds have been deposited to an eligible retirement asset, follow the requirements for retirement assets described above.</p> <ul style="list-style-type: none"> ■ Lump-sum distribution funds must be derived from a retirement account recognized by the IRS (e.g., 401(k), IRA) and must be deposited to a depository or non-retirement securities account ■ A Borrower must have been the recipient of the lump-sum distribution funds ■ Parties not obligated on the Mortgage may not have an ownership interest in the account that holds the funds from the lump-sum distribution ■ The proceeds from the lump-sum distribution must be immediately accessible in their entirety ■ The proceeds from the lump-sum distribution must not have been or currently be subject to a penalty or early distribution tax 	<ul style="list-style-type: none"> ■ Employer distribution letter(s) and/or check-stub(s) evidencing receipt and type of lump-sum distribution funds; IRS 1099-R (if it has been received) ■ Satisfactorily documented evidence of the following: <ul style="list-style-type: none"> <input type="checkbox"/> Funds verified in the non-retirement account and used for qualification must have been derived from eligible retirement assets <input type="checkbox"/> Lump-sum distribution funds must not have been or currently be subject to a penalty or early distribution tax
Depository accounts and Securities (as described in Section	<ul style="list-style-type: none"> ■ The Borrower must solely own assets or, if asset is owned jointly, each asset owner must be a Borrower on the Mortgage and /or 	<ul style="list-style-type: none"> ■ <i>Streamlined Accept:</i> Provide an account statement covering a one-month period or a direct account verification (i.e., VOD) ■ <i>Standard Documentation:</i>

Asset type	Asset eligibility requirements	Streamlined Accept and Standard Documentation requirements
5501.3(b)(ii)	<p>on the title to the subject property</p> <ul style="list-style-type: none"> ■ At least one Borrower who is an account owner must be at least 62 years old ■ As of the Note Date, the Borrower must have access to withdraw the funds in their entirety, less any portion pledged as collateral for a loan or otherwise encumbered, without being subject to a penalty ■ Account funds must be located in a United States- or State-regulated financial institution and verified in U.S. dollars ■ Cryptocurrency may not be considered in the calculation of net eligible assets for establishing the debt payment-to-income ratio described in Section 5307.1(b) 	<p>Provide account statement(s) covering a two-month period or a direct account verification (i.e., VOD)</p> <p>OR, regardless of the Documentation Level:</p> <p>For securities only, if the Borrower does not receive a stock/security account statement</p> <ul style="list-style-type: none"> <input type="checkbox"/> Provide evidence the security is owned by the Borrower, and <input type="checkbox"/> Verify value using stock prices from a financial publication or web site <p>■ Documentation evidencing asset eligibility requirements are met</p> <p>■ Sourcing deposits:</p> <ul style="list-style-type: none"> <input type="checkbox"/> The Seller must document the source of funds for any deposit exceeding 10% of the Borrower's total eligible assets in depository accounts and securities, and verify the deposit does not include gifts or borrowed funds, or reduce the eligible assets used to qualify the Borrower by the amount of the deposit <input type="checkbox"/> When the source of funds can be clearly identified from the deposit information on the account statement (e.g., direct payroll deposits) or other documented income or asset source in the Mortgage file, the Seller is not required to obtain additional documentation

Asset type	Asset eligibility requirements	Streamlined Accept and Standard Documentation requirements
Assets from the sale of the Borrower's business	<ul style="list-style-type: none"> ■ The Borrower(s) must be the sole owner(s) of the proceeds from the sale of the business that were deposited to the depository or non-retirement securities account ■ Parties not obligated on the Mortgage may not have an ownership interest in the account that holds the proceeds from the sale of the Borrower's business ■ The proceeds from the sale of the business must be immediately accessible in their entirety ■ The sale of the business must not have resulted in the following: retention of business assets, existing secured or unsecured debt, ownership interest or seller-held notes to buyer of business 	<ul style="list-style-type: none"> ■ Most recent three months' depository or securities account statements ■ Fully executed closing documents evidencing final sale of business to include sales price and net proceeds ■ Contract for sale of business ■ Most recent business tax return prior to sale of business ■ Satisfactorily documented evidence of the following: <ul style="list-style-type: none"> □ Funds verified in the non-retirement account and used for qualification must have been derived from the sale of the Borrower's business

(d) Data delivery requirements

Refer to Section 6302.33 for special delivery requirements for Mortgages using assets as a basis for repayment of obligations.

Chapter 5401: Evaluation of Monthly Obligations

5401.1: Monthly housing expense-to-income ratio (05/03/23)

(a) Calculation of monthly housing expense-to-income ratio

(i) Mortgages secured by Primary Residences

The following expenses must be included in the calculation of the monthly housing expense-to-income ratio:

- The monthly housing expense, which is the sum of the following monthly charges on the Mortgaged Premises:
 - Principal and interest payments on the Mortgage
 - Property hazard insurance premiums
 - Real estate taxes
 - When the actual real estate tax amount is not yet available because the property is newly constructed, the real estate tax amount included in the monthly housing expense must be based on the value of the improvements plus the value of the land
 - When the Mortgaged Premises is located in a jurisdiction where transfer of ownership causes or results in a recalculation of the amount of real estate tax, the monthly housing expense must include an estimate of the recalculated real estate tax amount
 - When there is a partial or complete real estate tax abatement on the property, or the Borrower is exempt from real estate taxes, the Seller may use the reduced real estate tax amount in the monthly housing expense calculation or exclude the real estate tax amount from the monthly housing expense calculation, as applicable. The Mortgage file must contain evidence of the tax abatement or exemption, and the documentation must show that the tax abatement or exemption will continue for at least five years after the Note Date. If the tax exemption is due to the Borrower's age or disability, documentation verifying five years' continuance is not required, provided; however, the exemption must not have a predetermined expiration date within five years of the Note Date.
 - When applicable:

- Mortgage insurance premiums
- Flood insurance premiums
- Leasehold payments
- Special assessments with more than 10 monthly payments remaining
- Homeowners association dues (excluding unit utility charges)
- Maintenance Fees (excluding unit utility charges)
- Payments on secondary financing, including a Home Equity Line of Credit (HELOC).

HELOC payments must be included in the housing expense-to-income ratio when there is an outstanding balance on the account. In the absence of a monthly payment on the credit report, and if there is no documentation in the Mortgage file indicating a monthly payment amount, 1.5% of the outstanding balance will be considered to be the HELOC monthly payment amount. Refer to Section 4204.1 for when documentation of HELOC terms is required and to Section 5501.3 when HELOC proceeds are used for the transaction.

(ii) Mortgages secured by second homes and Investment Properties

For Mortgages secured by second homes and Investment Properties, the monthly housing expense is the sum of the monthly charges described in Section 5401.1(a)(i) above for each Borrower's Primary Residence. If the Borrower does not own, but rents, their principal domicile (i.e., the primary residential property physically occupied by the Borrower), the Borrower's rental payment for that principal domicile must be included in the calculation of the monthly housing expense-to-income ratio.

(iii) Mortgages with a non-occupying Borrower

For Mortgages that include a non-occupying Borrower, the monthly housing expense is the sum of the monthly charges described in Section 5401.1(a)(i) above for each Borrower's Primary Residence. If the Borrower does not own, but rents, their principal domicile (i.e., the primary residential property physically occupied by the Borrower), the Borrower's rental payment for that principal domicile must be included in the calculation of the monthly housing expense-to-income ratio.

(iv) Documentation requirements

The amounts of the monthly charges and rental payments included in the monthly housing expense-to-income ratio, as required above, must be documented in the Mortgage file.

The following documentation is required to verify the monthly rental payment amount:

- Direct verification of rent from a management company, or
- Direct verification of rent from an individual landlord supported by two months of canceled checks or other evidence of two months' payments, or
- A copy of the current, fully executed lease agreement supported by two months of canceled checks or other evidence of two months' payments, or
- Six months of canceled checks or bank statements supporting consistent payments in the amount used in qualifying

(b) Mortgages underwritten with Loan Product Advisor®

Loan Product Advisor® calculates and assesses the Borrower's qualifying ratios based on input from the Seller. For Accept Mortgages, Loan Product Advisor has determined that the Borrower's qualifying ratios are acceptable.

(c) Manually Underwritten Mortgages

For Manually Underwritten Mortgages, the Seller must evaluate the Borrower's ability to pay the monthly housing expense and other obligations. As a guideline, the monthly housing expense-to-income ratio should not be greater than 25% to 28% of the Borrower's stable monthly income. The Borrower may exceed the monthly housing expense-to-income ratio and monthly debt payment-to-income ratio only on an exception basis with an offset documented in the Mortgage file.

Examples of conditions that might support the use of higher monthly payment ratios are found in Section 5401.2. Generally, however, more flexibility is appropriate for the monthly housing expense-to-income ratio than for the monthly debt payment-to-income ratio. Less flexibility is appropriate for situations involving additional layers of risk, such as ARMs, a marginal credit reputation, minimal reserves or maximum financing.

For any Manually Underwritten Mortgage for which either of the ratio guidelines is exceeded, the Seller must prepare and retain in the Mortgage file a written explanation justifying its underwriting decision.

(d) GreenCHOICE Mortgages®

If the GreenCHOICE Mortgage is a Manually Underwritten Mortgage, higher housing expense-to-income ratio and debt payment-to-income ratio may be appropriate. In its underwriting analysis, the Seller should consider the impact utility charges have on the Borrower's ability to meet the monthly housing expense and properly maintain the property. An energy-efficient property results in lower utility charges, allowing the owner to apply more income to housing expense. If higher ratios are used, the Seller/Servicer must maintain in the Mortgage file evidence/documentation that the property has a level of energy efficiency greater than that of a "standard" (i.e., non-energy efficient) property. The documentation must be one of the following:

- A Home Energy Rating Systems (HERS) report completed by a certified Residential Energy Services Network (RESNET®) Home Energy Rater reflecting a HERS Index of 90 or below (<http://www.resnet.us/directory/search>), or
- A Department of Energy (DOE) Home Energy Score Report completed by an independent Home Energy Score Certified Assessor™ reflecting a DOE Home Energy Score of six or greater ([https://betterbuildingsolutioncenter.energy.gov/home-energy-score/home-energy-score-partner-map](https://betterbuildingssolutioncenter.energy.gov/home-energy-score/home-energy-score-partner-map))

The appraiser must be provided with the documentation required under Section 5401.1(a) above. See Section 5601.4 for detailed appraisal requirements.

(e) Other Guide provisions related to the monthly housing expense-to-income ratio

Refer to the following Guide provisions for additional information related to the monthly housing expense-to-income ratio topic:

Guide Provision	Guide Section
ARM qualifying rates	Section 4401.8
Temporary subsidy buydown plans	Sections 4204.4(b) and 4204.4(c)
Special underwriting requirements for second home Mortgages	Section 4201.15(b)
Special underwriting requirements for Investment Property Mortgages	Section 4201.16(b)
Mortgages including a non-occupying Borrower	Section 5103.1

5401.2: Monthly debt payment-to-income ratio (07/03/23)

(a) Liabilities included in the monthly debt payment-to-income ratio

The Borrower's liabilities must be reflected on the Mortgage application (Form 65, *Uniform Residential Loan Application*) and considered when qualifying the Borrower. Sellers must review the Mortgage application, credit report, Borrower's paystubs (if provided) and other file documentation for Borrower liabilities.

All of the Borrower's debts incurred through the Note Date must be considered when qualifying the Borrower.

When the Borrower pays off or pays down an existing debt in order to qualify for the Mortgage, the Seller must document the source of funds used to pay off or pay down the debt. The source of funds must meet the eligibility and documentation requirements in Section 5501.3.

Documentation of all monthly payment amounts for the following liabilities must be included in the Mortgage file, and the monthly payment amount must be included in the debt payment-to-income ratio:

1. **Monthly housing expense** (see Section 5401.1)
2. **Payments on all installment debts** with more than 10 months of payments remaining, including debts that are in a period of either deferment or forbearance
For installment debts being omitted from the debt payment-to-income ratio due to 10 or fewer months of payments remaining, the information on the credit report or other Mortgage file documentation must show that there are 10 or fewer months of payments remaining.

(i) Student loans

(A) Student loans in repayment, deferment or forbearance

For student loans in repayment, deferment or forbearance:

- If the monthly payment amount is greater than zero, use the monthly payment amount reported on the credit report or other file documentation, or
- If the monthly payment amount reported on the credit report is zero, use 0.5% of the outstanding loan balance, as reported on the credit report

(B) Student loan forgiveness, cancelation, discharge and employment-contingent repayment programs

The student loan payment may be excluded from the monthly debt payment-to-income ratio provided the Mortgage file contains documentation that indicates the following:

- The student loan has 10 or less monthly payments remaining until the full balance of the student loan is forgiven, canceled, discharged or in the case of an employment-contingent repayment program, paid, or
- The monthly payment on a student loan is deferred or is in forbearance and the full balance of the student loan will be forgiven, canceled, discharged or in the case of an employment-contingent repayment program, paid, at the end of the deferment or forbearance period

AND

- The Borrower is eligible or approved, as applicable, for the student loan forgiveness, cancelation, discharge or employment-contingent repayment program, and the Seller is not aware of any circumstances that will make the Borrower ineligible in the future. Evidence of eligibility or approval must come from the student loan program or the employer, as applicable.

(ii) Other installment debt

When a monthly payment on an installment debt, other than a student loan, is not reported on the credit report or is listed as deferred or in forbearance, the Seller must obtain documentation verifying the monthly payment amount.

Payments on installment debts secured by financial assets, other than cryptocurrencies, in which repayment may be obtained by liquidating the asset, may be excluded from the monthly debt payment-to-income ratio when qualifying the Borrower, regardless of the payment amount or number of payments remaining. The loan secured by the financial asset must have been made by a financial institution. The Seller may consider only the portion of the funds that exceeds the loan balance as funds used to qualify the Borrower for the Mortgage transaction. See Chapter 5501 for more information.

3. Alimony or maintenance payments with more than 10 months of payments remaining

The monthly payment amount must be documented in the Mortgage file with a copy of the signed court order, legally binding separation agreement and/or final divorce decree, or equivalent documentation.

For alimony and maintenance payments being omitted from the debt payment-to-income ratio due to 10 or fewer months of payments remaining, the Mortgage file documentation must show that there are 10 or fewer months of payments remaining.

In lieu of including these payments in the calculation of the debt, the payments must be deducted from the Borrower's stable monthly income as determined in accordance with Section 5301.1. The reduced stable monthly income must be used to qualify the Borrower.

When entering an alimony obligation in Loan Product Advisor®, select "Alimony" under "Income Type" and enter it as a negative number. If the Borrower also receives alimony income, select "Alimony" under "Income Type" and enter the amount received.

4. Child support payments with more than 10 months of payments remaining

The monthly payment amount must be documented with a copy of the signed court order, legally binding separation agreement and/or final divorce decree, or equivalent documentation.

For child support payments being omitted from the debt payment-to-income ratio due to 10 or fewer months of payments remaining, the Mortgage file documentation must show that there are 10 or fewer months of payments remaining.

5. Monthly payments on revolving or 30-day accounts

(i) Revolving accounts

Regardless of the balance of a revolving account, in the absence of a monthly payment on the credit report, and if there is no documentation in the Mortgage file indicating the monthly payment amount, 5% of the outstanding balance will be considered the required monthly payment amount.

(ii) 30-day accounts

For 30-day accounts (i.e., accounts that require the balance to be paid in full monthly), the full amount of the outstanding account balance must be included in the debt payment-to-income ratio, or the Seller must verify that the Borrower has sufficient funds to pay off the outstanding account balance. The funds must be in addition to any funds used to qualify the Borrower for the Mortgage transaction, and the source of funds must be an eligible source as described in Section 5501.3.

6. Monthly lease payments, regardless of the number of payments remaining, with the exception of payments for solar panels subject to a lease agreement, power purchase agreement (PPA) or similar type of agreement that meets the requirements of Section 5401.2(b)(v)

7. Monthly payment amounts for properties for which rental income is being considered for qualification purposes

Refer to Chapter 5306 for requirements with respect to treatment of debt when using rental income. Refer to Chapter 5304 for requirements with respect to treatment of debt when all rental income and expenses are reported on IRS Form 8825, Rental Real Estate Income and Expenses of a Partnership or an S Corporation.

8. Monthly payment amounts for other properties, including principal and interest on the First Lien and any secondary financing (including a Home Equity Line of Credit (HELOC), as stated below), bridge loan payment, taxes and insurance (e.g., hazard and flood insurance premiums) and, when applicable, mortgage insurance premiums, leasehold payments, homeowners association dues (excluding unit utility charges), special assessments with more than 10 monthly payments remaining and Maintenance Fees (excluding unit utility charges). Refer to Sections 4401.8 and 4204.4 for additional information about qualifying rates for the Mortgage secured by the subject property.

HELOC payments must be included in the monthly debt payment-to-income ratio when there is an outstanding balance on the account. In the absence of a monthly payment on the credit report, and if there's no documentation in the Mortgage file indicating a monthly payment amount, 1.5% of the outstanding balance will be considered to be the HELOC monthly payment amount. Refer to Section 4204.1 for when documentation of HELOC terms is required and to Section 5501.3 when HELOC proceeds are used for the transaction.

If the Borrower's current Primary Residence is pending sale and the sale will not close before the Note Date of the Mortgage, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing, the monthly payment amount for the property pending sale may be excluded from the monthly debt payment-to-income ratio if the Mortgage file contains an executed sales contract for the property pending sale. If the executed sales contract includes a financing contingency, the Mortgage file must also contain evidence that the financing contingency has been cleared or a lender's commitment to the buyer of the property pending sale.

For Borrowers being relocated pursuant to an employee relocation program, the monthly payment amount for the property pending sale may be excluded from the monthly debt payment-to-income ratio if the Mortgage meets the requirements for Mortgages made pursuant to an employee relocation program in Chapter 4408.

(b) Liabilities that may be excluded from the monthly debt payment-to-income ratio

(i) Contingent liabilities

A contingent liability may be excluded from the monthly debt payment-to-income ratio when meeting the requirements in the table below. The documentation used to exclude the liability must meet the age of documentation requirements in Section 5102.4.

Debt type	Eligibility and documentation requirements
<ul style="list-style-type: none"> ■ Installment (not including Mortgages) ■ Revolving ■ Monthly lease payment 	<p>Documentation in the Mortgage file must indicate the following:</p> <ul style="list-style-type: none"> ■ A party other than the Borrower has been making timely payments for the most recent 12 months (regardless of whether the party is obligated on the debt) ■ The party making the payments is not an interested party to the subject real estate or Mortgage transaction*
<ul style="list-style-type: none"> ■ Mortgage payment ■ Other property-related expenses (e.g., taxes, insurance, homeowners association dues, etc.) 	<p>Documentation in the Mortgage file must indicate the following:</p> <ul style="list-style-type: none"> ■ A party other than the Borrower has been making timely payments for the most recent 12 months ■ When a Mortgage payment is being excluded, the party making the Mortgage payments must be obligated on the Note ■ The party making the payments is not an interested party to the subject real estate or Mortgage transaction*

* For examples of an interested party, see Section 5501.5

The Seller must evaluate the validity of circumstances under which the payments are being made by another party. For example, payments on multiple student loans made by the Borrower's parent represent a common situation. However, additional investigation and documentation might be necessary when a Borrower's multiple installment and revolving debts are being paid by the Borrower's spouse who is not on the subject Mortgage.

(ii) Assumed Mortgage

A Mortgage may be excluded from the monthly debt payment-to-income ratio when the Borrower is listed as the Borrower on a Mortgage that has been assumed by another party.

If the Borrower has not been legally released from liability on the assumed Mortgage by the Servicer or owner of the Mortgage, the monthly payment for the assumed Mortgage may be excluded from the monthly debt payment-to-income ratio when:

- The Mortgage file contains documentation of the property transfer, evidencing that the Borrower no longer owns the property, and

- The assignee has made timely payments for at least the most recent 12 months, as documented by:
 - A copy of the fully executed Mortgage assumption agreement, and
 - Evidence of timely payments on the assumed Mortgage for the most recent 12 months as documented on the Borrower's credit report

(iii) Assigned debt

A liability on a debt, including a Mortgage, may be excluded from the monthly debt payment-to-income ratio if the obligation to make the payments on a debt of the Borrower:

- Has been assigned to another by court order, such as a divorce decree, regardless of whether the Borrower is legally released from liability by the creditor, and
- The Seller documents the order (e.g., provides appropriate pages from the separation agreement or divorce decree)

(iv) Self-employed Borrower's debt paid by the Borrower's business

When a self-employed Borrower is obligated on a debt that has been paid by the Borrower's business for 12 months or longer, the monthly payment for the debt may be excluded from the monthly debt payment-to-income ratio if the following requirements are met:

- The Mortgage file contains evidence that the debt has been paid timely by the Borrower's business for no less than the most recent 12 months, and
- The tax returns evidence that business expenses associated with the debt (e.g., interest, lease payments, taxes, insurance) have been reported and support that the debt has been paid by the business

(v) Payments for solar panels subject to a lease agreement, PPA or similar type of agreement

Lease payments for solar panels may be excluded from the monthly debt payment-to-income ratio if the lease:

- Provides for delivery of a specific amount of energy for an agreed upon payment during a given period; and

- Includes a production guarantee under which the Borrower is compensated on a prorated basis when the energy produced by the solar panels is less than the level required in the lease agreement

Payments for solar panels subject to a PPA or similar type of agreement may be excluded from the monthly debt payment-to-income ratio if the payment is calculated based only on the generated energy.

The Mortgage file must contain a copy of the lease agreement, PPA or similar type of agreement, as applicable.

(c) Evaluating debt ratios

Loan Product Advisor calculates and evaluates the Borrower's qualifying ratios. For Accept Mortgages, Loan Product Advisor has determined that the Borrower's qualifying ratios are acceptable.

For Manually Underwritten Mortgages, the Seller must evaluate the Borrower's ability to pay the monthly housing expense and other obligations. When the Borrower's monthly debt payment to income ratio exceeds 45%, the loan is ineligible for sale to Freddie Mac. As a guideline, the monthly debt payment-to-income ratio should not be greater than 33% to 36% of the Borrower's stable monthly income.

When the Borrower's monthly debt payment-to-income ratio exceeds 36%, the Seller must document in the file the justification for the higher qualifying ratio.

Except in rare circumstances, the Borrower's debt payment-to-income ratio should not exceed 36% for the following Mortgages:

- Cash-out refinance Mortgages
- Mortgages secured by 2- to 4-unit properties
- Mortgages where there is evidence that the Borrower increases debt and then periodically uses refinance or debt consolidation loans to reduce payments to a manageable level

The following factors may be considered in justifying a debt payment-to-income ratio that exceeds 36% but is not greater than 45%:

- The Mortgage is secured by an energy efficient property, as described in Section 5401.1
- The Borrower's probability for increased earnings based on education, job training or time employed or practiced in a profession
- Documented rent paid by Related Persons living in the house

- The Borrower demonstrated ability to carry a higher housing expense or higher debt level while maintaining a good credit history for at least 12 months
- The existence of verified income that is not included within the definition of “stable monthly income” in Section 5301.1 when there is an expectation that future expenses will be lower (such as child-support income that is scheduled to cease in one year when a child becomes an adult. In this case, the expectation would be that either future household expenses will be lower or that additional income will be provided by the new adult.)

In addition, the examples listed below may be used to justify higher qualifying ratios for Non-Loan Product Advisor Mortgages. These examples may not be used to justify higher qualifying ratios for Caution Mortgages because they have already been considered by Loan Product Advisor.

1. The Borrower’s verified liquid assets are substantial enough to evidence an ability to repay the Mortgage regardless of income
2. A down payment on the purchase of the property of at least 25%
3. The Borrower’s strong Credit Score (for example, a 740 or higher FICO® score) and the Seller’s confirmation that the Borrower’s credit reputation is excellent

For any Manually Underwritten Mortgage for which either of the ratio guidelines is exceeded, the Seller must prepare and retain in the Mortgage file a written explanation justifying its underwriting decision.

See Section 5103.1 for special requirements when a non-occupying Borrower is present.

See Section 4302.5 for maximum debt payment to income ratio requirements for Refi Possible® Mortgages.

5401.2: Monthly debt payment-to-income ratio (Future effective date 08/01/23)

(a) Liabilities included in the monthly debt payment-to-income ratio

The Borrower’s liabilities must be reflected on the Mortgage application (Form 65, *Uniform Residential Loan Application*) and considered when qualifying the Borrower. Sellers must review the Mortgage application, credit report, Borrower’s paystubs (if provided) and other file documentation for Borrower liabilities.

All of the Borrower’s debts incurred through the Note Date must be considered when qualifying the Borrower.

When the Borrower pays off or pays down an existing debt in order to qualify for the Mortgage, the Seller must document the source of funds used to pay off or pay down the debt. The source of funds must meet the eligibility and documentation requirements in Section 5501.3.

Documentation of all monthly payment amounts for the following liabilities must be included in the Mortgage file, and the monthly payment amount must be included in the debt payment-to-income ratio:

1. **Monthly housing expense** (see Section 5401.1)
2. **Payments on all installment debts** with more than 10 months of payments remaining, including debts that are in a period of either deferment or forbearance
For installment debts being omitted from the debt payment-to-income ratio due to 10 or fewer months of payments remaining, the information on the credit report or other Mortgage file documentation must show that there are 10 or fewer months of payments remaining.

(i) Student loans

(A) Student loans in repayment, deferment or forbearance

For student loans in repayment, deferment or forbearance:

- If the monthly payment amount is greater than zero, use the monthly payment amount reported on the credit report or other file documentation, or
- If the monthly payment amount reported on the credit report is zero, use 0.5% of the outstanding loan balance, as reported on the credit report

(B) Student loan forgiveness, cancelation, discharge and employment-contingent repayment programs

The student loan payment may be excluded from the monthly debt payment-to-income ratio provided the Mortgage file contains documentation that indicates the following:

- The student loan has 10 or less monthly payments remaining until the full balance of the student loan is forgiven, canceled, discharged or in the case of an employment-contingent repayment program, paid, or
- The monthly payment on a student loan is deferred or is in forbearance and the full balance of the student loan will be forgiven, canceled, discharged or in the case of an employment-contingent repayment program, paid, at the end of the deferment or forbearance period

AND

- The Borrower is eligible or approved, as applicable, for the student loan forgiveness, cancellation, discharge or employment-contingent repayment program, and the Seller is not aware of any circumstances that will make the Borrower ineligible in the future. Evidence of eligibility or approval must come from the student loan program or the employer, as applicable.

(ii) Internal Revenue Service (IRS) installment agreements

When the Borrower is obligated on an installment agreement approved by the IRS for payment of past-due federal taxes, the following requirements must be met:

- The monthly payment must be included in the Borrower's debt payment-to-income ratio if there are more than 10 months of payments remaining on the installment agreement, and
- The Seller must obtain and retain in the Mortgage file a copy of the installment agreement approved by the IRS. The installment agreement must reflect the payment terms and verify the monthly payment amount and balance, and
- The Seller must document in the Mortgage file that the Borrower is not past due under the terms of the installment agreement, and
- There must be no indication, and the Seller must have no knowledge, that the IRS has filed a Note of Federal Tax Lien for the taxes owed under the installment agreement

(iii) Other installment debt

When a monthly payment on an installment debt, other than a student loan, is not reported on the credit report or is listed as deferred or in forbearance, the Seller must obtain documentation verifying the monthly payment amount.

Payments on installment debts secured by financial assets, other than cryptocurrencies, in which repayment may be obtained by liquidating the asset, may be excluded from the monthly debt payment-to-income ratio when qualifying the Borrower, regardless of the payment amount or number of payments remaining. The loan secured by the financial asset must have been made by a financial institution. The Seller may consider only the portion of the funds that exceeds the loan balance as funds used to qualify the Borrower for the Mortgage transaction. See Chapter 5501 for more information.

3. Alimony or maintenance payments with more than 10 months of payments remaining

The monthly payment amount must be documented in the Mortgage file with a copy of the signed court order, legally binding separation agreement and/or final divorce decree, or equivalent documentation.

For alimony and maintenance payments being omitted from the debt payment-to-income ratio due to 10 or fewer months of payments remaining, the Mortgage file documentation must show that there are 10 or fewer months of payments remaining.

In lieu of including these payments in the calculation of the debt, the payments must be deducted from the Borrower's stable monthly income as determined in accordance with Section 5301.1. The reduced stable monthly income must be used to qualify the Borrower.

When entering an alimony obligation in Loan Product Advisor®, select "Alimony" under "Income Type" and enter it as a negative number. If the Borrower also receives alimony income, select "Alimony" under "Income Type" and enter the amount received.

4. Child support payments with more than 10 months of payments remaining

The monthly payment amount must be documented with a copy of the signed court order, legally binding separation agreement and/or final divorce decree, or equivalent documentation.

For child support payments being omitted from the debt payment-to-income ratio due to 10 or fewer months of payments remaining, the Mortgage file documentation must show that there are 10 or fewer months of payments remaining.

5. Monthly payments on revolving or 30-day accounts

(i) Revolving accounts

Regardless of the balance of a revolving account, in the absence of a monthly payment on the credit report, and if there is no documentation in the Mortgage file indicating the monthly payment amount, 5% of the outstanding balance will be considered the required monthly payment amount.

(ii) 30-day accounts

For 30-day accounts (i.e., accounts that require the balance to be paid in full monthly), the full amount of the outstanding account balance must be included in the debt payment-to-income ratio, or the Seller must verify that the Borrower has sufficient funds to pay off the outstanding account balance. The funds must be in

addition to any funds used to qualify the Borrower for the Mortgage transaction, and the source of funds must be an eligible source as described in Section 5501.3.

6. **Monthly lease payments**, regardless of the number of payments remaining, with the exception of payments for solar panels subject to a lease agreement, power purchase agreement (PPA) or similar type of agreement that meets the requirements of Section 5401.2(b)(v)
7. **Monthly payment amounts for properties for which rental income is being considered for qualification purposes**

Refer to Chapter 5306 for requirements with respect to treatment of debt when using rental income. Refer to Chapter 5304 for requirements with respect to treatment of debt when all rental income and expenses are reported on IRS Form 8825, Rental Real Estate Income and Expenses of a Partnership or an S Corporation.

8. **Monthly payment amounts for other properties**, including principal and interest on the First Lien and any secondary financing (including a Home Equity Line of Credit (HELOC), as stated below), bridge loan payment, taxes and insurance (e.g., hazard and flood insurance premiums) and, when applicable, mortgage insurance premiums, leasehold payments, homeowners association dues (excluding unit utility charges), special assessments with more than 10 monthly payments remaining and Maintenance Fees (excluding unit utility charges). Refer to Sections 4401.8 and 4204.4 for additional information about qualifying rates for the Mortgage secured by the subject property.

HELOC payments must be included in the monthly debt payment-to-income ratio when there is an outstanding balance on the account. In the absence of a monthly payment on the credit report, and if there's no documentation in the Mortgage file indicating a monthly payment amount, 1.5% of the outstanding balance will be considered to be the HELOC monthly payment amount. Refer to Section 4204.1 for when documentation of HELOC terms is required and to Section 5501.3 when HELOC proceeds are used for the transaction.

If the Borrower's current Primary Residence is pending sale and the sale will not close before the Note Date of the Mortgage, or for Construction Conversion and Renovation Mortgages, the Effective Date of Permanent Financing, the monthly payment amount for the property pending sale may be excluded from the monthly debt payment-to-income ratio if the Mortgage file contains an executed sales contract for the property pending sale. If the executed sales contract includes a financing contingency, the Mortgage file must also contain evidence that the financing contingency has been cleared or a lender's commitment to the buyer of the property pending sale.

For Borrowers being relocated pursuant to an employee relocation program, the monthly payment amount for the property pending sale may be excluded from the monthly debt payment-to-income ratio if the Mortgage meets the requirements for Mortgages made pursuant to an employee relocation program in Chapter 4408.

(b) Liabilities that may be excluded from the monthly debt payment-to-income ratio

(i) Contingent liabilities

A contingent liability may be excluded from the monthly debt payment-to-income ratio when meeting the requirements in the table below. The documentation used to exclude the liability must meet the age of documentation requirements in Section 5102.4.

Debt type	Eligibility and documentation requirements
<ul style="list-style-type: none">■ Installment (not including Mortgages)■ Revolving■ Monthly lease payment	<p>Documentation in the Mortgage file must indicate the following:</p> <ul style="list-style-type: none">■ A party other than the Borrower has been making timely payments for the most recent 12 months (regardless of whether the party is obligated on the debt)■ The party making the payments is not an interested party to the subject real estate or Mortgage transaction*
<ul style="list-style-type: none">■ Mortgage payment■ Other property-related expenses (e.g., taxes, insurance, homeowners association dues, etc.)	<p>Documentation in the Mortgage file must indicate the following:</p> <ul style="list-style-type: none">■ A party other than the Borrower has been making timely payments for the most recent 12 months■ When a Mortgage payment is being excluded, the party making the Mortgage payments must be obligated on the Note■ The party making the payments is not an interested party to the subject real estate or Mortgage transaction*

* For examples of an interested party, see Section 5501.5

The Seller must evaluate the validity of circumstances under which the payments are being made by another party. For example, payments on multiple student loans made by the Borrower's parent represent a common situation. However, additional investigation and documentation might be necessary when a Borrower's multiple installment and revolving debts are being paid by the Borrower's spouse who is not on the subject Mortgage.

(ii) Assumed Mortgage

A Mortgage may be excluded from the monthly debt payment-to-income ratio when the Borrower is listed as the Borrower on a Mortgage that has been assumed by another party.

If the Borrower has not been legally released from liability on the assumed Mortgage by the Servicer or owner of the Mortgage, the monthly payment for the assumed Mortgage may be excluded from the monthly debt payment-to-income ratio when:

- The Mortgage file contains documentation of the property transfer, evidencing that the Borrower no longer owns the property, and
- The assignee has made timely payments for at least the most recent 12 months, as documented by:
 - A copy of the fully executed Mortgage assumption agreement, and
 - Evidence of timely payments on the assumed Mortgage for the most recent 12 months as documented on the Borrower's credit report

(iii) Assigned debt

A liability on a debt, including a Mortgage, may be excluded from the monthly debt payment-to-income ratio if the obligation to make the payments on a debt of the Borrower:

- Has been assigned to another by court order, such as a divorce decree, regardless of whether the Borrower is legally released from liability by the creditor, and
- The Seller documents the order (e.g., provides appropriate pages from the separation agreement or divorce decree)

(iv) Self-employed Borrower's debt paid by the Borrower's business

When a self-employed Borrower is obligated on a debt that has been paid by the Borrower's business for 12 months or longer, the monthly payment for the debt may be excluded from the monthly debt payment-to-income ratio if the following requirements are met:

- The Mortgage file contains evidence that the debt has been paid timely by the Borrower's business for no less than the most recent 12 months, and
- The tax returns evidence that business expenses associated with the debt (e.g., interest, lease payments, taxes, insurance) have been reported and support that the debt has been paid by the business

(v) Payments for solar panels subject to a lease agreement, PPA or similar type of agreement

Lease payments for solar panels may be excluded from the monthly debt payment-to-income ratio if the lease:

- Provides for delivery of a specific amount of energy for an agreed upon payment during a given period; and
- Includes a production guarantee under which the Borrower is compensated on a prorated basis when the energy produced by the solar panels is less than the level required in the lease agreement

Payments for solar panels subject to a PPA or similar type of agreement may be excluded from the monthly debt payment-to-income ratio if the payment is calculated based only on the generated energy.

The Mortgage file must contain a copy of the lease agreement, PPA or similar type of agreement, as applicable.

(c) Evaluating debt ratios

Loan Product Advisor calculates and evaluates the Borrower's qualifying ratios. For Accept Mortgages, Loan Product Advisor has determined that the Borrower's qualifying ratios are acceptable.

For Manually Underwritten Mortgages, the Seller must evaluate the Borrower's ability to pay the monthly housing expense and other obligations. When the Borrower's monthly debt payment to income ratio exceeds 45%, the loan is ineligible for sale to Freddie Mac. As a guideline, the monthly debt payment-to-income ratio should not be greater than 33% to 36% of the Borrower's stable monthly income.

When the Borrower's monthly debt payment-to-income ratio exceeds 36%, the Seller must document in the file the justification for the higher qualifying ratio.

Except in rare circumstances, the Borrower's debt payment-to-income ratio should not exceed 36% for the following Mortgages:

- Cash-out refinance Mortgages
- Mortgages secured by 2- to 4-unit properties
- Mortgages where there is evidence that the Borrower increases debt and then periodically uses refinance or debt consolidation loans to reduce payments to a manageable level

The following factors may be considered in justifying a debt payment-to-income ratio that exceeds 36% but is not greater than 45%:

- The Mortgage is secured by an energy efficient property, as described in Section 5401.1
- The Borrower's probability for increased earnings based on education, job training or time employed or practiced in a profession
- Documented rent paid by Related Persons living in the house
- The Borrower demonstrated ability to carry a higher housing expense or higher debt level while maintaining a good credit history for at least 12 months
- The existence of verified income that is not included within the definition of "stable monthly income" in Section 5301.1 when there is an expectation that future expenses will be lower (such as child-support income that is scheduled to cease in one year when a child becomes an adult. In this case, the expectation would be that either future household expenses will be lower or that additional income will be provided by the new adult.)

In addition, the examples listed below may be used to justify higher qualifying ratios for Non-Loan Product Advisor Mortgages. These examples may not be used to justify higher qualifying ratios for Caution Mortgages because they have already been considered by Loan Product Advisor.

1. The Borrower's verified liquid assets are substantial enough to evidence an ability to repay the Mortgage regardless of income
2. A down payment on the purchase of the property of at least 25%
3. The Borrower's strong Credit Score (for example, a 740 or higher FICO® score) and the Seller's confirmation that the Borrower's credit reputation is excellent

For any Manually Underwritten Mortgage for which either of the ratio guidelines is exceeded, the Seller must prepare and retain in the Mortgage file a written explanation justifying its underwriting decision.

See Section 5103.1 for special requirements when a non-occupying Borrower is present.

See Section 4302.5 for maximum debt payment to income ratio requirements for Refi Possible® Mortgages.

Chapter 5501: Assets

5501.1: Funds required for the Mortgage transaction (05/04/22)

The Seller must verify that the Borrower has sufficient funds to qualify for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves) except as follows:

- The transaction is a refinance transaction, and
- Funds required to be paid by the Borrower are \$500 or less, and
- No reserves are required for the transaction (i.e., as specified in Section 5501.2 or required by the Feedback Certificate), and
- The Mortgage is a Loan Product Advisor® Mortgage with a Risk Class of Accept

All funds used to qualify the Borrower for the Mortgage transaction, including, but not limited to, funds for Down Payment, Closing Costs and reserves, must come from the eligible sources described in Section 5501.3.

When an interested party is contributing to the Mortgage transaction, the requirements in Section 5501.5 must be met.

Prorated real estate tax credits contributed by the property seller in areas where real estate taxes are paid in arrears may not be considered when determining the funds required to be verified for the Mortgage transaction, except when the Settlement/Closing Disclosure Statement indicates that an Escrow account is established and includes the portion of real estate taxes owed by the property seller for the period they owned the property. In such cases, a prorated tax credit from the property seller offsets that portion of the charge for the establishment of the Escrow account.

When lender credit is being used for the Mortgage transaction, the requirements in Section 5501.6(a) must be met.

5501.2: Reserves (05/01/21)

(a) Calculation of reserves

Reserves are Borrower's assets remaining after the Mortgage closing. The source of funds used for reserves, when needed to qualify the Borrower for the Mortgage transaction, must meet the eligibility and documentation requirements in Section 5501.3. Reserves are

measured by the number of months of the monthly payment amount for the property. The monthly payment amount is the sum of the following monthly charges:

- Principal and interest payments on the Mortgage
- Property hazard insurance premiums
- Real estate taxes
- When applicable:
 - Mortgage insurance premiums
 - Leasehold payments
 - Homeowners association dues (excluding unit utility charges)
 - Payments on secondary financing

When calculating reserves for the subject property, the principal and interest payment of the monthly payment amount must be based, at a minimum, on the Note Rate. When calculating reserves for other properties, the monthly payment amount for the property must be no less than the current monthly payment amount.

The minimum reserves requirements, as described below, must be met.

(b) Minimum required reserves

For Loan Product Advisor® Mortgages, the Seller must verify all reserves required by Loan Product Advisor, as stated on the Feedback Certificate. The amount of reserves stated on the Feedback Certificate and required to be verified for Loan Product Advisor Mortgages secured by second homes and Investment Properties includes the following additional reserves:

Number of financed properties	Additional required reserves for second home or Investment Property Mortgages
When each Borrower individually, and all Borrowers collectively, are obligated on one to six financed properties, including the subject property and the Borrower's Primary Residence	Two months of the monthly payment amount (as described in Section 5501.2(a)) on each additional second home and/or 1- to 4-unit Investment Property that is financed and on which the Borrower is obligated
When each Borrower individually, and all Borrowers collectively, are obligated on seven to 10 financed properties, including the subject property and the Borrower's Primary Residence	Eight months of the monthly payment amount (as described in Section 5501.2(a)) on each additional second home and/or 1- to 4-unit Investment Property that is financed and on which the Borrower is obligated

For Manually Underwritten Mortgages, the verified reserves must equal or exceed the following reserves requirements:

Subject property	Required reserves
Primary Residence - 1-unit	None
Primary Residence - 2- to 4-unit	Six months for the subject property

For Home Possible® Mortgages, refer to Section 4501.10 for minimum reserves requirements.

5501.2: Reserves (Future effective date 10/02/23)

(a) Calculation of reserves

Reserves are Borrower's assets remaining after the Mortgage closing. The source of funds used for reserves, when needed to qualify the Borrower for the Mortgage transaction, must

meet the eligibility and documentation requirements in Section 5501.3. Reserves are measured by the number of months of the monthly payment amount for the property. The monthly payment amount is the sum of the following monthly charges:

- Principal and interest payments on the Mortgage
- Property hazard insurance premiums
- Real estate taxes
- When applicable:
 - Mortgage insurance premiums
 - Leasehold payments
 - Homeowners association dues (excluding unit utility charges)
 - Payments on secondary financing

When calculating reserves for the subject property, the principal and interest payment of the monthly payment amount must be based, at a minimum, on the Note Rate. When calculating reserves for other properties, the monthly payment amount for the property must be no less than the current monthly payment amount.

The minimum reserves requirements, as described below, must be met.

(b) Minimum required reserves

For Loan Product Advisor® Mortgages, the Seller must verify all reserves required by Loan Product Advisor, as stated on the Feedback Certificate. The amount of reserves stated on the Feedback Certificate and required to be verified for Loan Product Advisor Mortgages secured by second homes and Investment Properties includes the following additional reserves:

Number of financed properties	Additional required reserves for second home or Investment Property Mortgages
When each Borrower individually, and all Borrowers collectively, are obligated on one to six financed properties, including the subject property and the Borrower's Primary Residence	Two months of the monthly payment amount (as described in Section 5501.2(a)) on each additional second home and/or 1- to 4-unit Investment Property that is financed and on which the Borrower is obligated
When each Borrower individually, and all Borrowers collectively, are obligated on seven to 10 financed properties, including the subject property and the Borrower's Primary Residence	Eight months of the monthly payment amount (as described in Section 5501.2(a)) on each additional second home and/or 1- to 4-unit Investment Property that is financed and on which the Borrower is obligated

For Manually Underwritten Mortgages, the verified reserves must equal or exceed the following reserves requirements:

Subject property	Required reserves
Primary Residence - 1-unit	None
Primary Residence - 2- to 4-unit	Six months for the subject property

For Home Possible® and HeritageOne™ Mortgages, refer to Sections 4501.10(b) and 4504.7(b), respectively, for minimum reserves requirements.

5501.3: Asset eligibility and documentation requirements (12/07/22)

This section describes eligibility and documentation requirements for sources of funds used to qualify the Borrower for the Mortgage transaction (i.e., any funds required to be paid by the

Borrower and Borrower reserves). Eligible sources of funds are listed in the charts in Sections 5501.3(b)(ii) and 5501.3(c) below.

(a) General documentation requirements

All documentation of funds used to qualify the Borrower for the Mortgage transaction must meet the requirements of this section and Sections 5102.3 and 5102.4.

(i) Requirements for direct account verifications and asset account statements

Direct account verifications and asset account statements used to verify the Borrower's accounts held in financial institutions must meet the following additional requirements:

- Direct account verifications (i.e., verification of deposit form (VOD)) must:
 - Identify the financial institution
 - Identify the account owner(s)
 - Identify the account number, which at a minimum must include the last four digits
 - Identify the type of account
 - Identify account open date
 - Identify the current account balance
 - Identify the average balance for the previous two months
 - Identify any outstanding loans secured by the asset
 - Include the title, signature and phone number of the depository representative who completed the verification

For purchase transactions, when using a direct account verification, the Seller must include documentation of the source of funds when an account is opened within 90 days of verification and/or when the current balance in an account exceeds the average balance by more than 50% of the sum of:

- The total monthly qualifying income for the Mortgage, and
 - The amount derived from the asset calculation for establishing the debt payment-to-income ratio in accordance with the requirements of Section 5307.1, if applicable
- Asset account statements must:

- Identify the financial institution
- Identify the account owner(s)
- Identify the account number, which at a minimum must include the last four digits
- Show all transactions
- Show the period covered
- Show the ending balance
- Show any outstanding loans secured by the asset

A transaction history that is computer-generated and downloaded by the Borrower from the internet or by a financial institution representative from the institution's system is acceptable. The transaction history must identify the name of the institution and the source, and includes the information required above for asset account statements, unless:

- It is used in combination with other asset verifications containing the missing information, and
- It can clearly establish that the transaction history pertains to the same account

(ii) Third-party asset verifications

Asset verifications obtained through third-party verification service providers are acceptable. The verifications must be received by the originator directly from the third-party verification service provider and must contain the same information as required for direct account verifications or asset account statements above except as follows for verifications that are generated electronically and are not completed or provided by a representative of the employer or the depository institution, as applicable:

- The representative's information is not required
- The verification may identify the account with a minimum of the last two digits of the account number

If any required information is missing, the Seller must obtain additional documentation to supplement the third-party verification. The Seller is responsible for ensuring the accuracy and integrity of the information provided by the third-party verification services.

In lieu of the requirements above for third-party asset verifications, for Mortgages for which automated asset assessment with Loan Product Advisor® using account data was requested that receive a representation and warranty result of “Eligible” in the Last Feedback Certificate, see Section 5902.3 for requirements pertaining to third-party asset verifications.

(iii) Evaluation of deposits in the Borrower’s accounts

(A) Deposits requiring verification

Except as stated below, the Seller is not required to document the sources of unverified deposits for purchase or refinance transactions. However, when qualifying the Borrower, the Seller must consider any liabilities resulting from all borrowed funds.

For all transactions, when an unverified deposit is used to pay off or pay down an existing debt in order to qualify for the Mortgage, the source of funds must be documented.

For purchase transactions, when evaluating deposits in the Borrower’s accounts, the following requirements apply:

- The Seller must document the source of funds for any “large deposit,” as described below, if the deposit is needed to qualify the Borrower for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves)

A “large deposit” is any single deposit exceeding 50% of the sum of:

- The total monthly qualifying income for the Mortgage and
 - The amount derived from the asset calculation for establishing the debt payment-to-income ratio in accordance with the requirements of Section 5307.1, if applicable
- When a single deposit consists of both verified and unverified portions, the Seller may use just the unverified amount when determining whether the deposit is a large deposit as described above
- When a large deposit is not verified and is not needed to qualify the Borrower for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves), the Seller must reduce the funds used for qualification purposes by the amount of the unverified deposit. For Loan Product Advisor® Mortgages, the Seller must enter the reduced amount of the asset into Loan Product Advisor.

- When the source of funds can be clearly identified from the deposit information on the account statement (e.g., direct payroll deposits) or other documented income or asset source in the Mortgage file (e.g., tax refund amounts appearing on the tax returns in the file), the Seller is not required to obtain additional documentation.

(B) Acceptable sources of deposit

When a deposit requires verification as stated above, the Seller must determine:

- Whether the source of the deposit is acceptable
- That the funds belong to the Borrower, and
- That the funds are eligible for the transaction

Acceptable sources include, but are not limited to:

- The Borrower's income
- Funds awarded to the Borrower (e.g., disaster relief funds, lottery winnings, court-awarded settlement) provided the source is not an interested party to the real estate or Mortgage transaction
- Funds derived from eligible asset types stated in Sections 5501.3(b) and 5501.3(c) below

(b) Special requirements for Borrower personal funds

(i) Minimum Borrower contribution

For a purchase transaction Mortgage, the Borrower must make a minimum contribution from Borrower personal funds when specifically required in the Guide, as summarized in the chart below.

Minimum contribution from Borrower personal funds			
Mortgage type	Guide section number	Mortgages with LTV/TLTV/HTLTV ratios ≤ 80%	Mortgages with LTV/TLTV/HTLTV ratios > 80%
Mortgage secured by a 1- and 2-unit Primary Residence	N/A	None	

Minimum contribution from Borrower personal funds			
Mortgage type	Guide section number	Mortgages with LTV/TLTV/HTLTV ratios ≤ 80%	Mortgages with LTV/TLTV/HTLTV ratios > 80%
Mortgage secured by a 3- and 4-unit Primary Residence	N/A	None	N/A
Mortgage secured by a second home	5501.3(c)	None	5% of value, when gift funds or grants are used for the transaction
Mortgage secured by an Investment Property	4201.16	All funds used for the transaction must be Borrower personal funds	
Mortgages with shared equity plans	4204.5	5% of value (must be Owner-Occupant's personal funds)	

See Section 4501.10 for requirements for minimum contribution from Borrower personal funds for Home Possible® Mortgages.

(ii) Eligible asset types and documentation requirements for Borrower personal funds

Asset types that are considered Borrower personal funds and the applicable documentation requirements are described in the chart below. The eligibility and documentation requirements apply to all funds used to qualify the Borrower for the Mortgage transaction, including reserves. Any limitations on the use of an asset type are specified in the chart.

All accounts held in financial institutions must be owned by the Borrower and the Borrower must have access to the funds. Funds in accounts that are owned jointly by the Borrower and a non-Borrower are considered Borrower personal funds. Accounts held in the name of a Living Trust are considered to be owned by the Borrower when the Borrower is the Settlor of the Living Trust. When the Borrower is a Living Trust, the Underwritten Settlor is considered to be the owner of accounts held in the name of the trust.

For Loan Product Advisor Mortgages, the Documentation Level shown on the Feedback Certificate indicates the minimum level of documentation acceptable for a Loan Product Advisor Mortgage. The Seller must provide the documentation required in this chapter for the Documentation Level returned.

All Manually Underwritten Mortgages must at least be documented according to Standard Documentation.

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
1. Depository accounts Depository accounts used to deposit and withdraw cash, such as: <ul style="list-style-type: none"> ■ Checking ■ Savings ■ Money market ■ Certificate of deposit (CD) ■ Other depository accounts 	Provide an account statement covering a one-month period or a direct account verification (i.e., VOD)	Provide account statement(s) covering a two-month period or a direct account verification (i.e., VOD)
2. Securities Securities that are traded on an exchange or marketplace, generally available to the public such as: <ul style="list-style-type: none"> ■ Stocks ■ Vested stock options ■ Bonds ■ Mutual funds ■ United States government securities ■ Other securities* Value must not include margin accounts. Stock with limitations on its accessibility (e.g., restricted stock which has not vested and been	Provide an account statement covering a one-month period or a direct account verification (i.e., VOD)	Provide account statement(s) covering a two-month period or a direct account verification (i.e., VOD)

--	--

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
unsecured line of credit to pay fees associated with the Mortgage application process.		
<p>14. Credit card reward points</p> <p>The reward points must be redeemed for cash.</p>	<p>Provide the following for reward points that are not yet deposited in the Borrower's account:</p> <ul style="list-style-type: none"> ■ Evidence of the Borrower's ownership of the reward points and their cash value, and ■ Evidence that the reward points are redeemed for cash prior to closing, which may include a direct transfer of the cash to the settlement or closing agent <p>For reward points redeemed for cash and deposited in the Borrower's account, refer to the requirements for evaluation of deposits in the Borrower's accounts in Section 5501.3(a)(iii).</p>	
<p>15. Cash value of a life insurance policy (not the face value)</p> <p>The Borrower must be the owner of the policy and not the beneficiary.</p>	<p>Provide documentation from the life insurance company verifying the following information:</p> <ul style="list-style-type: none"> ■ Policy owner(s) ■ Period covered and current cash value, and ■ Any outstanding loans <p>When cash value of the life insurance policy is needed for closing, evidence of liquidation is required.</p>	
<p>16. Rent credits</p> <p>The portion of rental payments paid by the Borrower credited towards the Down Payment and/or Closing Costs under a documented rental/purchase agreement. The credit must not exceed the</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ A copy of the rental/purchase agreement ■ Evidence of rental payments (see Section 5202.2(b) for acceptable documentation for rental verification) 	

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>difference between the market rent and actual rent paid. The rental/purchase agreement must have an original term of at least 12 months and the rent must be based on a minimum of 12 months rental payments.</p>	<ul style="list-style-type: none"> ■ Appraiser's determination of the market rent for the subject property 	
<p>17. Trade equity: Net proceeds of the trade-in of the Borrower's previously owned residence</p> <p>The Borrower's equity in the previously-owned residence is determined by subtracting any outstanding liens on the previously-owned residence, plus any transfer costs, from the lesser of the appraised value of the previously-owned residence or its trade-in price as shown in the trade-in contract.</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ The appraisal of the Borrower's previously-owned residence ■ A copy of the trade-in contract 	

*When assets that are invested in stocks, bonds, mutual funds, U.S. government securities, retirement accounts or other securities are needed for closing, evidence of liquidation is required unless the combined value of the assets is at least 20% greater than the amount from these assets needed for closing. Any amount of cryptocurrency must be exchanged for U.S. dollars if it will be used as a source of funds for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves).

See Section 4501.10(c) for additional sources of Borrower personal funds for Home Possible Mortgages.

(iii) Earnest money deposit (EMD)

When an EMD for a purchase transaction is used to qualify the Borrower for the Mortgage transaction, the Seller must obtain evidence that the EMD check cleared the Borrower's account (e.g., copy of the canceled check, asset account statement or written statement from the EMD holder verifying receipt of the funds).

When the EMD is needed to meet the minimum contribution from Borrower personal funds, the Seller must:

- Verify that the source of the EMD is an eligible asset type and document it in accordance with the applicable requirements in this section
- Provide account statement(s) (based on Streamlined Accept or Standard documentation requirements, as applicable) or a direct account verification (i.e., VOD) that covers the period up to and including the date the EMD funds cleared the account

The EMD must not be counted twice in the evaluation of the Mortgage (i.e., deducted from the funds to close and counted in assets).

If the source of the Borrower's EMD is gift funds, see Section 5501.3(c)(1) below.

(iv) Business assets

Funds from a Borrower's business account may be used to qualify the Borrower for the Mortgage transaction, provided they meet the requirements of this chapter, except as stated below.

Documentation of large deposits, as described in Section 5501.3(a)(iii), is not required provided that the Seller:

- Reviews a minimum of the most recent two months of the business account statements, and
- Determines the deposits are typical for the Borrower's business

See Section 5304.1(f) for additional requirements when self-employed income from the business is used for qualifying.

(v) Source of funds from outside the United States and its territories

When the source of funds needed for closing is, or otherwise originates from, asset(s) located outside the United States and its territories:

- Funds must be transferred into a United States or State regulated financial institution and verified in U.S. dollars prior to the closing of the Mortgage transaction, or
- Combined value of the assets must be at least 20% greater than the amount from these assets needed for closing

See Section 5102.3(b) for additional requirements when funds from outside the United States and its territories are used to qualify the Borrower for the Mortgage transaction.

(c) Special requirements for other eligible sources of funds

Other sources of funds eligible to be used to qualify the Borrower for the Mortgage transaction and the applicable documentation requirements are described in the chart below. The eligibility and documentation requirements apply to all funds used to qualify the Borrower of the Mortgage transaction including reserves. Any limitations on the use of an asset type are specified in the chart.

For Loan Product Advisor Mortgages, the Documentation Level shown on the Feedback Certificate indicates the minimum level of documentation acceptable for a Loan Product Advisor Mortgage. The Seller must provide the documentation required in this chapter for the Documentation Level returned.

All Manually Underwritten Mortgages must at least be documented according to Standard Documentation.

Asset type and eligibility requirements	Streamlined Accept and Standard Documentation requirements
<p>1. Gift funds or a gift of equity</p> <p>Gift funds or a gift of equity are an eligible source of funds for a Mortgage secured by a Primary Residence or second home provided that funds do not have to be repaid and the donor is:</p> <ul style="list-style-type: none"> ■ A Related Person,, or ■ A trust established by a Related Person, or ■ The estate of a Related Person <p>When a Mortgage is secured by a second home and the LTV/TLTV/HTLTV ratio is greater than 80%, the gift is permitted only if the Borrower has made a Down Payment of at least 5% from Borrower personal funds as described in Section 5501.3(b). Gift funds or gift of equity are not an eligible source of funds for Investment Property Mortgages.</p> <p>Except as stated below for earnest money deposits, gift funds must be transferred directly from the donor's account in a financial institution to the Borrower's account or to the settlement or closing agent. For earnest money deposits, the donor may also provide the gift funds directly to a builder or real estate agent.</p>	<p>Provide a gift letter signed by the donor. When the gift is provided by a trust or an estate, the gift letter must be signed by the trustee or the authorized representative of the estate, as applicable.</p> <p>Information provided in the gift letter must:</p> <ul style="list-style-type: none"> ■ State the donor's name and that the funds are given by a Related Person, a trust established by a Related Person or the estate of a Related Person, as applicable ■ Include the donor's mailing address and telephone number. When the donor is a trust or an estate, provide the mailing address and telephone number of the trustee or authorized representative, as applicable. ■ State the actual or the maximum amount of the gift funds or gift of equity ■ Establish that the gift funds or gift of equity are a gift that does not have to be repaid <p>Gift funds:</p>

Asset type and eligibility requirements	Streamlined Accept and Standard Documentation requirements
	<p>The Seller must provide evidence of one of the following:</p> <ol style="list-style-type: none"> 1. Transfer of funds from the donor's account in a financial institution to the Borrower's account. For example, copies of bank statements from both the donor and the Borrower's accounts, a copy of a canceled gift check or a copy of a donor's withdrawal slip and the Borrower's deposit slip, or 2. Transfer of the funds from the donor's account in a financial institution to the settlement or closing agent. For example, a copy of a cashier's check or wire transfer confirmation. 3. For an earnest money deposit paid by the donor directly to the builder or real estate agent, transfer of funds from the donor's account in a financial institution to the earnest money deposit holder. For example, a copy of a canceled gift check, a copy of a cashier's check or wire transfer confirmation. <p>Funds transferred using a third-party money transfer application or service are acceptable only when the documentation included in the Mortgage file evidences that the funds were transferred using the application or service directly from the donor's bank account to the Borrower's bank account or to the settlement or closing agent.</p> <p>Gift of equity: A gift of equity must be reflected on the Settlement/Closing Disclosure Statement.</p>

Asset type and eligibility requirements	Streamlined Accept and Standard Documentation requirements

Asset type and eligibility requirements	Streamlined Accept and Standard Documentation requirements
<p>6. Proceeds from an unsecured loan that is an Employer Assisted Homeownership (EAH) Benefit</p> <p>Proceeds from an unsecured loan that is an EAH Benefit are an eligible source of funds provided that the eligibility and documentation requirements in Section 5501.4 are met.</p>	

5501.3: Asset eligibility and documentation requirements (Future effective date 10/02/23)

This section describes eligibility and documentation requirements for sources of funds used to qualify the Borrower for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves). Eligible sources of funds are listed in the charts in Sections 5501.3(b)(ii) and 5501.3(c) below.

(a) General documentation requirements

All documentation of funds used to qualify the Borrower for the Mortgage transaction must meet the requirements of this section and Sections 5102.3 and 5102.4.

(i) Requirements for direct account verifications and asset account statements

Direct account verifications and asset account statements used to verify the Borrower's accounts held in financial institutions must meet the following additional requirements:

- Direct account verifications (i.e., verification of deposit form (VOD)) must:
 - Identify the financial institution
 - Identify the account owner(s)
 - Identify the account number, which at a minimum must include the last four digits
 - Identify the type of account
 - Identify account open date
 - Identify the current account balance

- Identify the average balance for the previous two months
- Identify any outstanding loans secured by the asset
- Include the title, signature and phone number of the depository representative who completed the verification

For purchase transactions, when using a direct account verification, the Seller must include documentation of the source of funds when an account is opened within 90 days of verification and/or when the current balance in an account exceeds the average balance by more than 50% of the sum of:

- The total monthly qualifying income for the Mortgage, and
- The amount derived from the asset calculation for establishing the debt payment-to-income ratio in accordance with the requirements of Section 5307.1, if applicable
- Asset account statements must:
 - Identify the financial institution
 - Identify the account owner(s)
 - Identify the account number, which at a minimum must include the last four digits
 - Show all transactions
 - Show the period covered
 - Show the ending balance
 - Show any outstanding loans secured by the asset

A transaction history that is computer-generated and downloaded by the Borrower from the internet or by a financial institution representative from the institution's system is acceptable. The transaction history must identify the name of the institution and the source, and includes the information required above for asset account statements, unless:

- It is used in combination with other asset verifications containing the missing information, and
- It can clearly establish that the transaction history pertains to the same account

(ii) Third-party asset verifications

Asset verifications obtained through third-party verification service providers are acceptable. The verifications must be received by the originator directly from the third-party verification service provider and must contain the same information as required for direct account verifications or asset account statements above except as follows for verifications that are generated electronically and are not completed or provided by a representative of the employer or the depository institution, as applicable:

- The representative's information is not required
- The verification may identify the account with a minimum of the last two digits of the account number

If any required information is missing, the Seller must obtain additional documentation to supplement the third-party verification. The Seller is responsible for ensuring the accuracy and integrity of the information provided by the third-party verification services.

In lieu of the requirements above for third-party asset verifications, for Mortgages for which automated asset assessment with Loan Product Advisor® using account data was requested that receive a representation and warranty result of "Eligible" in the Last Feedback Certificate, see Section 5902.3 for requirements pertaining to third-party asset verifications.

(iii) Evaluation of deposits in the Borrower's accounts

(A) Deposits requiring verification

Except as stated below, the Seller is not required to document the sources of unverified deposits for purchase or refinance transactions. However, when qualifying the Borrower, the Seller must consider any liabilities resulting from all borrowed funds.

For all transactions, when an unverified deposit is used to pay off or pay down an existing debt in order to qualify for the Mortgage, the source of funds must be documented.

For purchase transactions, when evaluating deposits in the Borrower's accounts, the following requirements apply:

- The Seller must document the source of funds for any "large deposit," as described below, if the deposit is needed to qualify the Borrower for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves)

A “large deposit” is any single deposit exceeding 50% of the sum of:

- The total monthly qualifying income for the Mortgage and
 - The amount derived from the asset calculation for establishing the debt payment-to-income ratio in accordance with the requirements of Section 5307.1, if applicable
- When a single deposit consists of both verified and unverified portions, the Seller may use just the unverified amount when determining whether the deposit is a large deposit as described above
- When a large deposit is not verified and is not needed to qualify the Borrower for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves), the Seller must reduce the funds used for qualification purposes by the amount of the unverified deposit. For Loan Product Advisor® Mortgages, the Seller must enter the reduced amount of the asset into Loan Product Advisor.
- When the source of funds can be clearly identified from the deposit information on the account statement (e.g., direct payroll deposits) or other documented income or asset source in the Mortgage file (e.g., tax refund amounts appearing on the tax returns in the file), the Seller is not required to obtain additional documentation.

(B) Acceptable sources of deposit

When a deposit requires verification as stated above, the Seller must determine:

- Whether the source of the deposit is acceptable
- That the funds belong to the Borrower, and
- That the funds are eligible for the transaction

Acceptable sources include, but are not limited to:

- The Borrower’s income
- Funds awarded to the Borrower (e.g., disaster relief funds, lottery winnings, court-awarded settlement) provided the source is not an interested party to the real estate or Mortgage transaction
- Funds derived from eligible asset types stated in Sections 5501.3(b) and 5501.3(c) below

(b) Special requirements for Borrower personal funds

(i) Minimum Borrower contribution

For a purchase transaction Mortgage, the Borrower must make a minimum contribution from Borrower personal funds when specifically required in the Guide, as summarized in the chart below.

Minimum contribution from Borrower personal funds				
Mortgage type	Guide section number	Mortgages with LTV/TLTV/HTLTV ratios ≤ 80%	Mortgages with LTV/TLTV/HTLTV ratios > 80%	
Mortgage secured by a 1- and 2-unit Primary Residence	N/A	None		
Mortgage secured by a 3- and 4-unit Primary Residence	N/A	None	N/A	
Mortgage secured by a second home	5501.3(c)	None	5% of value, when gift funds or grants are used for the transaction	
Mortgage secured by an Investment Property	4201.16	All funds used for the transaction must be Borrower personal funds		
Mortgages with shared equity plans	4204.5	5% of value (must be Owner-Occupant's personal funds)		

See Sections 4501.10(a)(ii) and 4504.7(a) for requirements for minimum contribution from Borrower personal funds for Home Possible® and HeritageOne™ Mortgages, respectively.

(ii) Eligible asset types and documentation requirements for Borrower personal funds

Asset types that are considered Borrower personal funds and the applicable documentation requirements are described in the chart below. The eligibility and documentation requirements apply to all funds used to qualify the Borrower for the Mortgage transaction, including reserves. Any limitations on the use of an asset type are specified in the chart.

All accounts held in financial institutions must be owned by the Borrower and the Borrower must have access to the funds. Funds in accounts that are owned jointly by the Borrower and a non-Borrower are considered Borrower personal funds. Accounts held in the name of a Living Trust are considered to be owned by the Borrower when the Borrower is the Settlor of the Living Trust. When the Borrower is a Living Trust, the Underwritten Settlor is considered to be the owner of accounts held in the name of the trust.

For Loan Product Advisor Mortgages, the Documentation Level shown on the Feedback Certificate indicates the minimum level of documentation acceptable for a Loan Product Advisor Mortgage. The Seller must provide the documentation required in this chapter for the Documentation Level returned.

All Manually Underwritten Mortgages must at least be documented according to Standard Documentation.

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>1. Depository accounts</p> <p>Depository accounts used to deposit and withdraw cash, such as:</p> <ul style="list-style-type: none">■ Checking■ Savings■ Money market■ Certificate of deposit (CD)■ Other depository accounts	Provide an account statement covering a one-month period or a direct account verification (i.e., VOD)	Provide account statement(s) covering a two-month period or a direct account verification (i.e., VOD)

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>2. Securities</p> <p>Securities that are traded on an exchange or marketplace, generally available to the public such as:</p> <ul style="list-style-type: none"> ■ Stocks ■ Vested stock options ■ Bonds ■ Mutual funds ■ United States government securities ■ Other securities* <p>Value must not include margin accounts.</p> <p>Stock with limitations on its accessibility (e.g., restricted stock which has not vested and been distributed to the recipient) is not eligible.</p>	<p>Provide an account statement covering a one-month period or a direct account verification (i.e., VOD)</p> <p>If the Borrower does not receive a stock/security account statement:</p> <ul style="list-style-type: none"> ■ Provide evidence the security is owned by the Borrower, and ■ Verify value using current stock prices from a financial publication or website <p>See below for when evidence of liquidation is required*</p>	<p>Provide account statement(s) covering a two-month period or a direct account verification (i.e., VOD)</p>

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>3. Retirement accounts</p> <p>Independent retirement accounts and Internal Revenue Service (IRS)-qualified employer retirement plan accounts such as:</p> <ul style="list-style-type: none"> ■ 401K ■ 403b ■ IRAs (traditional and Roth) ■ SEP-IRA ■ SIMPLE-IRA ■ KEOGH ■ State retirement savings plans ■ Other independent and IRS-qualified employer retirement plan accounts 	<p>Provide an account statement covering a one-month period or a direct account verification (i.e., VOD)</p>	<p>Provide account statement(s) covering a two-month period or a direct account verification (i.e., VOD)</p>
	<p>See below for when evidence of liquidation is required*</p> <p>When evidence of liquidation is not obtained:</p> <p>In order to use the vested amount of an IRS-qualified employer retirement account to qualify the Borrower for the Mortgage transaction, the Mortgage file must include documentation confirming that the Borrower is permitted to make withdrawals, and severance from the Borrower's current employment is not required.</p>	
<p>4. Government bonds (federal, state or municipal)</p> <p>The value used must be based on the lower of the purchase price or current redeemable value.</p>	<p>Provide documentation verifying the ownership and the value.</p>	<p>See below for when evidence of liquidation is required.*</p>
<p>5. Proceeds from a loan fully secured by the Borrower's assets other than real property</p> <p>The loan must not be provided by an interested party to the real estate or Mortgage transaction. When the loan is secured by a financial asset used to qualify the Borrower for the</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ Documentation verifying the value and ownership of the asset and which supports that the loan is secured by that asset ■ Evidence of receipt of the loan proceeds 	

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>Mortgage transaction, the value of the asset must be reduced by the amount of the loan proceeds and any associated fees.</p> <p>See Section 5401.2(a) for when the monthly payment on a loan secured by the Borrower's financial asset may be excluded from the monthly debt payment-to-income ratio.</p>		
<p>6. Proceeds from the sale of the Borrower's real property or proceeds from a loan secured by the Borrower's real property (including proceeds from a 1031 exchange, a Home Equity Line of Credit (HELOC) or a bridge loan)</p> <p>For refinance Mortgages, the cash-out proceeds from the subject cash-out refinance transaction and any cash back received on the subject "no cash-out" refinance transaction are not eligible sources of funds for reserves.</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ The Settlement/Closing Disclosure Statement or an alternative form required by law verifying the proceeds from the sale or refinance of the Borrower's real property, and/or ■ An executed buy-out agreement that is part of an employer relocation plan that takes responsibility for the outstanding Mortgage(s) ■ For HELOCs, provide the following: <ul style="list-style-type: none"> □ Evidence the HELOC is secured by the Borrower's real property, and □ Evidence of the Borrower's receipt of the disbursed HELOC proceeds 	
<p>7. Proceeds from the sale of the Borrower's assets other than real property or exchange-traded securities</p> <p>The purchaser of the Borrower's asset must not be an interested party to the real estate or Mortgage transaction.</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ A signed bill of sale documenting the asset and transfer of ownership ■ Evidence of receipt of the proceeds 	
<p>8. Borrower's real estate commission</p>	The Settlement/Closing Disclosure Statement must reflect the commission	

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
Borrower's real estate commission is an eligible source of funds for Down Payment and/or Closing Costs when the Borrower is a licensed real estate agent that is due to receive a sales commission from their purchase of the subject property.	earned by the Borrower and credited toward the Mortgage transaction.	
<p>9. Funds from a trust</p> <p>The Borrower must be the beneficiary and have access to the funds as of the date of the loan closing.</p> <p>The Borrower's portion of undistributed trust funds may be used as reserves only.</p>	<p>Provide a copy of the trust agreement or a signed statement from the trustee or trust manager that documents the following information:</p> <ul style="list-style-type: none"> ■ Identifies the Borrower as the beneficiary ■ Confirms that the Borrower has access to all or a certain specific amount of the funds ■ Confirms that the trust has sufficient assets to disburse funds needed by the Borrower <p>When trust funds are needed for closing, evidence of receipt of the disbursed funds from the trust is required.</p>	
<p>10. Individual Development Account (IDA) – Agency matching funds not subject to Recapture</p> <ul style="list-style-type: none"> ■ With respect to the subject Mortgage, the Agency must not: <ul style="list-style-type: none"> <input type="checkbox"/> Be the Seller or have participated in any aspect of the Mortgage origination process <input type="checkbox"/> Be affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process 	<p>Provide documentation of the IDA program verifying:</p> <ul style="list-style-type: none"> ■ The matching funds are not subject to Recapture ■ The ratio of matching funds by the Agency ■ Regular payments made to the IDA by the Borrower and the matching organization ■ The vested balance or the percentage of vesting 	

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>For these purposes, “affiliated with” means that the Agency and the Seller or other party are related to each other as a consequence of one entity directly or indirectly controlling the other party, being controlled by the other party or being under common control with that party.</p> <ul style="list-style-type: none"> ■ Any matching funds may be considered Borrower personal funds ■ A maximum of a 4 to 1 match by an Agency’s funds is permitted ■ The Borrower must satisfy any vesting requirements of the matching IDA program 		
<p>11. Community Savings System accounts – Borrower contributions</p> <p>Funds on deposit in a Community Savings System that are deposited by the Borrower.</p> <p>A non-profit community organization must administer the savings system.</p>		<p>Provide Community Savings Systems account statements or a direct account verification identifying the non-profit community organization as the administrator and showing all Borrower contributions.</p>
<p>12. Pooled funds</p> <p>Pooled funds are funds on deposit provided by the Borrower and other member(s) of a group of Related Persons who:</p> <p>Have resided together for at least one year, and</p>		<p>Provide the following:</p> <ul style="list-style-type: none"> ■ Evidence that the Borrower and the Related Person have resided together for at least one year ■ Documentation verifying the pooled funds per the requirements for the applicable asset type contained in this

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>Will continue residing together in the new residence, and</p> <p>Are “pooling” their funds to buy a home</p> <p>Funds provided by Related Persons who do not reside with the Borrower are subject to the requirements of the chart in Section 5501.3(c) for gift funds</p>	<p>chart or the chart in Section 5501.3(c), as applicable</p> <ul style="list-style-type: none"> ■ A written statement, in the form of a signed letter or an e-mail directly from the Borrower, executed at application attesting to all of the following: <ul style="list-style-type: none"> <input type="checkbox"/> The source of the pooled funds <input type="checkbox"/> The fact that the pooled funds were not borrowed by the contributing Related Person <input type="checkbox"/> The relationship between the contributing Related Person and the Borrower. (For example, the affidavit might state that the Related Person is the Borrower’s uncle or that the Related Person is the cousin of the Borrower’s spouse.) <input type="checkbox"/> That the Related Person has resided with the Borrower for the past year and intends to continue residing with the Borrower in the new residence for the foreseeable future <p>The written statement need not be notarized or acknowledged but must be kept in the Mortgage file.</p>	

<p>13. Borrower's revolving credit card (charges/cash advances) or unsecured line of credit</p> <p>Borrower's revolving credit card (charges/cash advances) or unsecured line of credit used to pay fees associated with the Mortgage application process (e.g., origination fees, commitment fees, lock-in fees, appraisal, credit report and flood certifications) are subject to the following requirements:</p> <ul style="list-style-type: none"> ■ The maximum amount charged or advanced may not exceed the greater of 2% of the Mortgage amount or \$1,500 <p>And</p> <ul style="list-style-type: none"> ■ The Borrower must have sufficient verified funds to pay these fees (in addition to the funds needed to qualify for the Mortgage transaction; however, the Borrower is not required to pay off these charges at closing; or ■ The amount charged or advanced must be included in the Borrower's total outstanding debt and the repayment of such amount must be included when determining the Borrower's monthly debt payment-to-income ratio as described in Section 5401.2 <p>Refer to Section 4408.3(c) when the Borrower uses a revolving credit card or unsecured line of credit to pay fees that will be reimbursed pursuant to an employee relocation program. --	--

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
unsecured line of credit to pay fees associated with the Mortgage application process.		
<p>14. Credit card reward points</p> <p>The reward points must be redeemed for cash.</p>	<p>Provide the following for reward points that are not yet deposited in the Borrower's account:</p> <ul style="list-style-type: none"> ■ Evidence of the Borrower's ownership of the reward points and their cash value, and ■ Evidence that the reward points are redeemed for cash prior to closing, which may include a direct transfer of the cash to the settlement or closing agent <p>For reward points redeemed for cash and deposited in the Borrower's account, refer to the requirements for evaluation of deposits in the Borrower's accounts in Section 5501.3(a)(iii).</p>	
<p>15. Cash value of a life insurance policy (not the face value)</p> <p>The Borrower must be the owner of the policy and not the beneficiary.</p>	<p>Provide documentation from the life insurance company verifying the following information:</p> <ul style="list-style-type: none"> ■ Policy owner(s) ■ Period covered and current cash value, and ■ Any outstanding loans <p>When cash value of the life insurance policy is needed for closing, evidence of liquidation is required.</p>	
<p>16. Rent credits</p> <p>The portion of rental payments paid by the Borrower credited towards the Down Payment and/or Closing Costs under a documented rental/purchase agreement. The credit must not exceed the</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ A copy of the rental/purchase agreement ■ Evidence of rental payments (see Section 5202.2(b) for acceptable documentation for rental verification) 	

Asset type and eligibility requirements	Streamlined Accept documentation requirements	Standard documentation requirements
<p>difference between the market rent and actual rent paid. The rental/purchase agreement must have an original term of at least 12 months and the rent must be based on a minimum of 12 months rental payments.</p>	<ul style="list-style-type: none"> ■ Appraiser's determination of the market rent for the subject property 	
<p>17. Trade equity: Net proceeds of the trade-in of the Borrower's previously owned residence</p> <p>The Borrower's equity in the previously-owned residence is determined by subtracting any outstanding liens on the previously-owned residence, plus any transfer costs, from the lesser of the appraised value of the previously-owned residence or its trade-in price as shown in the trade-in contract.</p>	<p>Provide the following:</p> <ul style="list-style-type: none"> ■ The appraisal of the Borrower's previously-owned residence ■ A copy of the trade-in contract 	

*When assets that are invested in stocks, bonds, mutual funds, U.S. government securities, retirement accounts or other securities are needed for closing, evidence of liquidation is required unless the combined value of the assets is at least 20% greater than the amount from these assets needed for closing. Any amount of cryptocurrency must be exchanged for U.S. dollars if it will be used as a source of funds for the Mortgage transaction (i.e., any funds required to be paid by the Borrower and Borrower reserves).

See Sections 4501.10(c)(i) and 4504.7(c)(i) for additional sources of Borrower personal funds for Home Possible and HeritageOne Mortgages, respectively.

(iii) Earnest money deposit (EMD)

When an EMD for a purchase transaction is used to qualify the Borrower for the Mortgage transaction, the Seller must obtain evidence that the EMD check cleared the Borrower's account (e.g., copy of the canceled check, asset account statement or written statement from the EMD holder verifying receipt of the funds).

When the EMD is needed to meet the minimum contribution from Borrower personal funds, the Seller must:

- Verify that the source of the EMD is an eligible asset type and document it in accordance with the applicable requirements in this section
- Provide account statement(s) (based on Streamlined Accept or Standard documentation requirements, as applicable) or a direct account verification (i.e., VOD) that covers the period up to and including the date the EMD funds cleared the account

The EMD must not be counted twice in the evaluation of the Mortgage (i.e., deducted from the funds to close and counted in assets).

If the source of the Borrower's EMD is gift funds, see Section 5501.3(c)(1) below.

(iv) Business assets

Funds from a Borrower's business account may be used to qualify the Borrower for the Mortgage transaction, provided they meet the requirements of this chapter, except as stated below.

Documentation of large deposits, as described in Section 5501.3(a)(iii), is not required provided that the Seller:

- Reviews a minimum of the most recent two months of the business account statements, and
- Determines the deposits are typical for the Borrower's business

See Section 5304.1(f) for additional requirements when self-employed income from the business is used for qualifying.

(v) Source of funds from outside the United States and its territories

When the source of funds needed for closing is, or otherwise originates from, asset(s) located outside the United States and its territories:

- Funds must be transferred into a United States or State regulated financial institution and verified in U.S. dollars prior to the closing of the Mortgage transaction, or
- Combined value of the assets must be at least 20% greater than the amount from these assets needed for closing

See Section 5102.3(b) for additional requirements when funds from outside the United States and its territories are used to qualify the Borrower for the Mortgage transaction.

(c) Special requirements for other eligible sources of funds

Other sources of funds eligible to be used to qualify the Borrower for the Mortgage transaction and the applicable documentation requirements are described in the chart below. The eligibility and documentation requirements apply to all funds used to qualify the Borrower of the Mortgage transaction including reserves. Any limitations on the use of an asset type are specified in the chart.

For Loan Product Advisor Mortgages, the Documentation Level shown on the Feedback Certificate indicates the minimum level of documentation acceptable for a Loan Product Advisor Mortgage. The Seller must provide the documentation required in this chapter for the Documentation Level returned.

All Manually Underwritten Mortgages must at least be documented according to Standard Documentation.

Asset type and eligibility requirements	Streamlined Accept and Standard Documentation requirements
<p>1. Gift funds or a gift of equity</p> <p>Gift funds or a gift of equity are an eligible source of funds for a Mortgage secured by a Primary Residence or second home provided that funds do not have to be repaid and the donor is:</p> <ul style="list-style-type: none">■ A Related Person,, or■ A trust established by a Related Person, or■ The estate of a Related Person <p>When a Mortgage is secured by a second home and the LTV/TLTV/HTLTV ratio is greater than 80%, the gift is permitted only if the Borrower has made a Down Payment of at least 5% from Borrower personal funds as described in Section 5501.3(b). Gift funds or gift of equity are not an eligible source of funds for Investment Property Mortgages.</p> <p>Except as stated below for earnest money deposits, gift funds must be transferred directly from the donor's account in a financial institution to the Borrower's account or to the settlement or closing agent. For earnest money deposits, the donor may</p>	<p>Provide a gift letter signed by the donor. Individual Development Account (IDA) – Agency matching funds subject to Recapture</p> <p>Agency matching funds subject to Recapture are an eligible source of funds provided that:</p> <ul style="list-style-type: none"> ■ The matching funds must be considered a gift or grant from an Agency as described in this chart ■ A maximum of a 3-to-1 match by an Agency's funds is permitted ■ The Borrower must satisfy any vesting requirements of the matching IDA program 	<p>Provide documentation of the IDA program verifying:</p> <ul style="list-style-type: none"> ■ The matching funds are subject to Recapture ■ The ratio of matching funds by the Agency ■ Regular payments made by the Borrower and the matching organization ■ The vested balance or the percentage of vesting <p>Documentation of matching funds subject to a Recapture provision must also meet the requirements of this chart for a gift or grant from an Agency, except that the Seller does not have to establish that the funds do not have to be repaid.</p>
<p>6. Proceeds from an unsecured loan that is an Employer Assisted Homeownership (EAH) Benefit</p> <p>Proceeds from an unsecured loan that is an EAH Benefit are an eligible source of funds provided that the eligibility and documentation requirements in Section 5501.4 are met.</p>	

See Sections 4501.10(c)(ii) and 4504.7(c)(ii) for other eligible sources of funds for Home Possible and HeritageOne Mortgages, respectively.

5501.4: Employer Assisted Homeownership (EAH) Benefit (10/02/19)

(a) General requirements

An Employer Assisted Homeownership (EAH) Benefit may be used as a source of funds to qualify the Borrower for the Mortgage transaction if the terms of the EAH Benefit comply with the following:

1. The EAH Benefit is provided to an employee from the employer pursuant to an established, ongoing and documented employer benefit program, provided (i) the employer is not an interested party (as described in Section 5501.5) and (ii) the funds were not obtained from an interested party either directly or through a third party
2. The Mortgage is secured by a 1- to 4-unit Primary Residence

(b) Types of benefits

The EAH Benefit may be any of the following structures meeting the applicable requirements:

Type of benefit	Requirements
Grant	See requirements for gift or grant from an Agency in Section 5501.3(c). With respect to the subject Mortgage, the requirement that the Agency must not be the Seller or have participated in any aspect of the Mortgage origination process, and must not be affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process, does not apply.
Individual Development Account (IDA)	See requirements for matching funds for IDAs in Sections 5501.3(b) and 5501.3(c). With respect to the subject Mortgage, the requirement that the Agency must not be the Seller or have participated in any aspect of the Mortgage origination process, and must not be affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process, does not apply.

Type of benefit	Requirements
Unsecured loan	<p>An unsecured loan may be fully repayable, deferred payment or forgivable. The source, terms and conditions must be documented on Form 65, Uniform Residential Loan Application.</p> <p>The proceeds from an unsecured loan that is an EAH Benefit may be used to fund all or part of the Down Payment or Closing Costs. The terms of the EAH Benefit may not require repayment in full unless:</p> <ul style="list-style-type: none"> ■ The Borrower terminates his or her employment for any reason, or ■ The employer terminates the Borrower's employment for any reason other than long-term disability, the elimination of the employee's position or reduction-in-force <p>If the EAH Benefit is fully repayable, the required monthly payment must be included when calculating the monthly debt payment-to-income ratio. If the monthly payment of principal and interest or interest only begins on or after the 61st monthly payment under the First Lien Mortgage or if repayment of the loan is due only upon sale or default, the amount of the monthly payment may be excluded from the monthly debt payment-to-income ratio.</p> <p>Refer to Section 4408.3(c) for requirements when an EAH Benefit is used as a source of funds to qualify for a Mortgage made pursuant to an employee relocation program.</p>
Secondary financing	<p>Secondary financing may be fully repayable, deferred payment or forgivable, and must meet the requirements in Section 4204.1(a) and Section 4204.1(b).</p> <p>The terms of the EAH Benefit may not require repayment in full unless:</p> <ul style="list-style-type: none"> ■ The Borrower terminates his or her employment for any reason, or ■ The employer terminates the Borrower's employment for any reason other than long-

Type of benefit	Requirements
	<p>term disability, the elimination of the employee's position or reduction-in-force</p> <p>If the monthly payment of principal and interest or interest only begins on or after the 61st monthly payment under the First Lien Mortgage or if repayment of the loan is due only upon sale or default, the amount of the monthly payment may be excluded from the monthly debt payment-to-income ratio; otherwise, the required monthly payments must be included in calculating the monthly housing expense-to-income ratio.</p> <p>Refer to Section 4408.3(c) for requirements when an EAH Benefit is used as a source of funds to qualify for a Mortgage made pursuant to an employee relocation program.</p>
Affordable Second	<p>An Affordable Second may be fully repayable, deferred payment or forgivable, and must meet the requirements of Section 4204.2.</p> <p>With respect to the subject Mortgage, the requirement that the Agency must not be the Seller or have participated in any aspect of the Mortgage origination process, and must not be affiliated with, under contract to, or financed (directly or indirectly) by the Seller or any party that participated in the Mortgage origination process, does not apply.</p> <p>The terms of the EAH Benefit may not require repayment in full unless:</p> <ul style="list-style-type: none"> ■ The Borrower terminates his or her employment for any reason, or ■ The employer terminates the Borrower's employment for any reason other than long-term disability, the elimination of the employee's position or reduction-in-force <p>If the monthly payment of principal and interest or interest only begins on or after the 61st monthly payment under the First Lien Mortgage or if repayment of the loan is due only upon sale or default, the amount of the monthly payment may be excluded from the monthly debt payment-to-income ratio; otherwise, the required monthly</p>

Type of benefit	Requirements
	payments must be included in calculating the monthly housing expense-to-income ratio.

(c) Documentation requirements

In addition to the documentation requirements for specific benefit types, the following requirements must be met:

- EAH Benefits must be documented with a copy of the employer benefit program that provides the amount of the benefit and the terms of the program
- Evidence of receipt of the EAH Benefit must be provided (e.g., funds on deposit in Borrower's account or funds reflected on the Settlement/Closing Disclosure Statement)

(d) Related provisions

Delivery requirements related to EAH Benefits are described in Section 6302.29.

5501.5: Interested party contributions (04/06/22)

(a) Types of interested party contributions and eligibility requirements

Freddie Mac will purchase Mortgages that include interested party contributions under the terms of the Purchase Documents and this section.

Interested parties include, but are not limited to:

- Builder
- Developer
- Seller of the property
- Real estate agent

Interested party contributions may include either financing and/or sales concessions. Freddie Mac considers the following to be interested party contributions:

- Funds from the Seller, originating lender, an employer, a municipality, a non-profit organization and a Related Person, are subject to the interested party contributions requirements if the contributing party is affiliated with any of the interested parties as stated in the paragraph above, except as stated below for gifts from a Related Person and lender credit.

- Funds from an interested party that flow through a third-party organization or a non-profit agency to the Borrower
- Funds from an interested party, including a third-party organization or a non-profit agency, used to pay costs associated with the Mortgage transaction on the Borrower's behalf
- Funds that are donated to a third party, which in turn provides the funds to pay some or all of the Borrower's Closing Costs

Gift funds or gift of equity from a Related Person who is also the seller of the subject property is not subject to the requirements of this section, provided that:

- The donor has no affiliation with the builder, real estate agent or any other interested party to the transaction, and
- All of the requirements pertaining to gift funds or gift of equity from a Related Person as stated in Section 5501.3 are met

When a Seller or originating lender is affiliated with an interested party to the transaction, a lender credit is not considered an interested party contribution when it is derived from an increase in the interest rate.

Mortgages with abatements (that are funds provided to a lender or third party by an interested party to pay or reimburse in whole or in part a certain number of monthly payments of principal, interest, taxes, insurance and/or other assessments on the Borrower's behalf in excess of Prepaid/Escrows associated with the Mortgage closing) are not eligible for sale to Freddie Mac.

The payment of no more than 12 months of homeowners association (HOA) dues by an interested party is not considered an abatement but is considered an interested party contribution, subject to the requirements of this section. The funds for the payment of the HOA dues must be collected at closing and transferred directly to the HOA, as documented on the Settlement/Closing Disclosure Statement.

(b) Financing concessions

(i) Acceptable use of financing concessions

Financing concessions are funds that originate from an interested party to the transaction, as described in Section 5501.5(a), that are used to:

- Reduce permanently the interest rate on the Mortgage

- Fund a buydown plan to temporarily subsidize the Borrower's monthly payment on the Mortgage (see Section 4204.4)
- Make contributions in any way related to the Borrower's Closing Costs, including up to 12 months of HOA dues

(ii) Maximum limit

Based on "value," as defined in Section 4203.1, the maximum permitted financing concessions are as follows:

Occupancy	LTV/TLTV ratios >90%	LTV/TLTV ratios > 75% and ≤ 90%	LTV/TLTV ratios ≤ 75%
Primary Residences and second homes	3%	6%	9%
Investment Properties	2%	2%	2%

The amount of any financing concessions in excess of the limitations set forth above will be considered a sales concession, except as follows: the maximum financing concession limits above do not apply to the concessions contributed by Freddie Mac as the property seller for Mortgages originated for the purchase of Freddie Mac REO properties. In all cases, financing concessions must be used as described in Section 5501.5(b)(i).

Funds paid by the property seller that are fees or costs customarily paid by the property seller according to local convention are not subject to the maximum financing concession limitations above.

In areas where real estate taxes are paid in arrears, prorated real estate tax credits contributed by the property seller are not considered interested party contributions and are not subject to the financing concession limits stated above.

(c) Sales concessions

Sales concessions include:

- Financing concessions in excess of the maximum financing concession limitations in Section 5501.5(b)
- Any contributions such as vacations, furniture, automobiles, securities or other giveaways granted by any interested party to the transaction

- Interested party contributions used to reimburse the Borrower for payment of fees charged to process or negotiate a short sale (commonly referred to as short sale processing fees, short sale negotiation fees, buyer discount fees, or short sale buyer fees)

For purposes of determining the value of the Mortgaged Premises pursuant to Section 4203.1, the dollar amount of any excess financing concessions, the value of any contributions and/or the dollar amount of any short sale fee reimbursements granted by an interested party to the transaction must be deducted from the purchase price. The LTV ratio is then calculated using the lower of the reduced purchase price (after the reduction for all sales concessions has been made) or the appraised value of the Mortgaged Premises.

(d) Unplanned buydowns

In calculating the total value of financing concessions, Freddie Mac does not include amounts paid as an “unplanned buydown.”

An unplanned buydown is comprised of any funds paid at closing by an interested party to reduce the effective interest rate on the Borrower’s Mortgage to a rate closer to or equal to the rate specified in the sales contract. Unplanned buydowns arise from an increase in Mortgage market interest rates between the date of the sales contract and the Note Date. Typically, unplanned buydowns arise in transactions involving properties that are newly constructed. For example, if prevailing interest rates in the Mortgage market rise during construction, the builder may increase the amount of his financing concessions, using funds from his profit margin to maintain the sales contract financing terms.

In order for a financing concession to be considered an unplanned buydown, the following conditions must be met:

- The sales price of the property must be fixed in the sales contract and the transaction must be closed at that price
- The terms of the financing must be specified in the sales contract. The interest rate must be either specified in the contract or sufficiently identified so as to be fixed (for example, prevailing VA rate) in the contract
- The amount paid as an unplanned buydown must have been caused by an increase in Mortgage market interest rates between the date of the sales contract and the Note Date
- Any unplanned buydown that is a temporary subsidy buydown plan must comply with the provisions of Section 4204.4

The following items are not unplanned buydowns and must not exceed the limitations specified in Section 5501.5(b) above:

- Costs and charges to which the property seller agreed in the sales contract

- Costs and charges resulting from financing terms contained in the sales contract that were more favorable to the Borrower than market conditions that existed as of the date of the sales contract

(e) Special documentation requirements

The amount and the source of all interested party contributions must be documented in the Mortgage file and be clearly shown on the Settlement/Closing Disclosure Statement.

Mortgages with interested party contributions paid outside of closing and not disclosed on the Settlement/Closing Disclosure Statement are not eligible for sale to Freddie Mac.

When the Settlement/Closing Disclosure Statement discloses financing concessions that exceed Freddie Mac's limits and an unplanned buydown was involved, the Mortgage file must contain a written analysis and documentation evidencing that the unplanned buydown met each of the conditions in Section 5501.5(d) above.

For Loan Product Advisor® Mortgages, the Seller must ensure that the data submitted to Loan Product Advisor accurately reflects the presence of any financing and sales concessions.

5501.5: Interested party contributions (Future effective date 08/01/23)

(a) Types of interested party contributions and eligibility requirements

Freddie Mac will purchase Mortgages that include interested party contributions under the terms of the Purchase Documents and this section.

Interested parties include, but are not limited to:

- Builder
- Developer
- Seller of the property
- Real estate agent

Interested party contributions may include either financing and/or sales concessions. Freddie Mac considers the following to be interested party contributions:

- Funds from the Seller, originating lender, an employer, a municipality, a non-profit organization and a Related Person, are subject to the interested party contributions

requirements if the contributing party is affiliated with any of the interested parties as stated in the paragraph above, except as stated below for gifts from a Related Person and lender credit.

- Funds from an interested party that flow through a third-party organization or a non-profit agency to the Borrower
- Funds from an interested party, including a third-party organization or a non-profit agency, used to pay costs associated with the Mortgage transaction on the Borrower's behalf
- Funds that are donated to a third party, which in turn provides the funds to pay some or all of the Borrower's Closing Costs

Gift funds or gift of equity from a Related Person who is also the seller of the subject property is not subject to the requirements of this section, provided that:

- The donor has no affiliation with the builder, real estate agent or any other interested party to the transaction, and
- All of the requirements pertaining to gift funds or gift of equity from a Related Person as stated in Section 5501.3 are met

When a Seller or originating lender is affiliated with an interested party to the transaction, a lender credit is not considered an interested party contribution when it is derived from an increase in the interest rate.

Mortgages with abatements (that are funds provided to a lender or third party by an interested party to pay or reimburse in whole or in part a certain number of monthly payments of principal, interest, taxes, insurance and/or other assessments on the Borrower's behalf in excess of Prepaid/Escrows associated with the Mortgage closing) are not eligible for sale to Freddie Mac.

The payment of no more than 12 months of homeowners association (HOA) dues by an interested party is not considered an abatement but is considered an interested party contribution, subject to the requirements of this section. The funds for the payment of the HOA dues must be collected at closing and transferred directly to the HOA, as documented on the Settlement/Closing Disclosure Statement.

(b) Financing concessions

(i) Acceptable use of financing concessions

Financing concessions are funds that originate from an interested party to the transaction, as described in Section 5501.5(a), that are used to:

- Reduce permanently the interest rate on the Mortgage
- Fund a buydown plan to temporarily subsidize the Borrower's monthly payment on the Mortgage (see Section 4204.4)
- Make contributions in any way related to the Borrower's Closing Costs, including up to 12 months of HOA dues

(ii) Maximum limit

Based on "value," as defined in Section 4203.1, the maximum permitted financing concessions are as follows:

Occupancy	LTV/TLTV ratios >90%	LTV/TLTV ratios > 75% and ≤ 90%	LTV/TLTV ratios ≤ 75%
Primary Residences and second homes	3%	6%	9%
Investment Properties	2%	2%	2%

The amount of any financing concessions in excess of the limitations set forth above will be considered a sales concession, except as follows: the maximum financing concession limits above do not apply to the concessions contributed by Freddie Mac as the property seller for Mortgages originated for the purchase of Freddie Mac REO properties. In all cases, financing concessions must be used as described in Section 5501.5(b)(i).

Funds paid by the property seller that are fees or costs customarily paid by the property seller according to local convention are not subject to the maximum financing concession limitations above.

In areas where real estate taxes are paid in arrears, prorated real estate tax credits contributed by the property seller are not considered interested party contributions and are not subject to the financing concession limits stated above.

(c) Sales concessions

Sales concessions include:

- Financing concessions in excess of the maximum financing concession limitations in Section 5501.5(b)

- Any contributions such as vacations, furniture, automobiles, securities or other giveaways granted by any interested party to the transaction
- Interested party contributions used to reimburse the Borrower for payment of fees charged to process or negotiate a short sale (commonly referred to as short sale processing fees, short sale negotiation fees, buyer discount fees, or short sale buyer fees)

For purposes of determining the value of the Mortgaged Premises pursuant to Section 4203.1, the dollar amount of any excess financing concessions, the value of any contributions and/or the dollar amount of any short sale fee reimbursements granted by an interested party to the transaction must be deducted from the purchase price. The LTV ratio is then calculated using the lower of the reduced purchase price (after the reduction for all sales concessions has been made) or the appraised value of the Mortgaged Premises.

(d) Special documentation requirements

The amount and the source of all interested party contributions must be documented in the Mortgage file and be clearly shown on the Settlement/Closing Disclosure Statement.

Mortgages with interested party contributions paid outside of closing and not disclosed on the Settlement/Closing Disclosure Statement are not eligible for sale to Freddie Mac.

For Loan Product Advisor® Mortgages, the Seller must ensure that the data submitted to Loan Product Advisor accurately reflects the presence of any financing and sales concessions.

5501.6: Seller contributions (06/06/19)

(a) Lender credit

Lender credit may be used for the Mortgage transaction provided it meets all of the following requirements:

- The amount of the lender credit must:
 - Be derived from an increase in the interest rate (i.e., premium pricing), or
 - Be funded directly by the Seller
- The lender credit must not require repayment
- The Seller must not use funds from a third party to provide a lender credit

- Lender credit may only be used as a credit towards the Borrower's Closing Costs. In the event the lender credit exceeds the amount of the Borrower's Closing Costs, the following requirements apply:
 - The lender credit must be reduced so it does not exceed the amount of the Borrower's Closing Costs, or
 - The amount of the lender credit that exceeds the Borrower's Closing Costs must be applied as a principal curtailment to the Mortgage, and must be clearly reflected on the Settlement/Closing Disclosure Statement. (See Section 6302.32 for delivery requirements for Mortgages with principal curtailments.)
- Lender credit derived from an increase in the interest rate (i.e., premium pricing) must not be used as a credit towards funding a temporary subsidy buydown plan on a "no cash-out" refinance Mortgage

(b) Lender incentives

The Seller may provide the Borrower with a cash or a cash-like (e.g., a gift card) incentive that is not lender credit toward the Mortgage transaction as described in Section 5501.6(a), provided that:

- The amount of the incentive does not exceed \$500.00
- No repayment is required, and
- The amount is documented in the Mortgage file

The incentive is not considered cash out to the Borrower and does not have to be included in the calculation of the Mortgage proceeds, including the calculation of cash back to the Borrower.

These requirements apply regardless of whether the incentive is provided before, at or after the Mortgage closing.

Chapter 5601: Property Eligibility

5601.1: Property eligibility requirements (06/01/22)

Freddie Mac expects the Seller to place as much emphasis on the adequacy of the property as collateral as it does on underwriting the Borrower's creditworthiness. The conclusion that a Mortgage is eligible for sale to Freddie Mac must be based on the determination that the Borrower is creditworthy (acceptable credit reputation and capacity) and the Mortgaged Premises is adequate and acceptable collateral for the Mortgage transaction. The Seller is responsible for determining the eligibility of the property and the acceptability of the appraisal report.

(a) Eligible properties

Freddie Mac will purchase eligible Mortgages secured by residential properties in urban, suburban and rural market areas as long as the Mortgaged Premises is adequate collateral for the Mortgage transaction based on the value, condition and marketability of the property.

The Mortgaged Premises must:

- Be located in a State
- Be primarily residential in nature based on the characteristics of the property
- Be an attached, semi detached or detached dwelling unit(s) located on an individual lot, in a Planned Unit Development (PUD), in a Condominium Project or in a Cooperative Project. See Chapter 5701 for special requirements for condominiums. See Chapter 5705 for special requirements for cooperatives.
- Be safe, sound and structurally secure
- Be complete unless the requirements of Section 5601.3 are met
- Represent the highest and best use of the property as improved (or as proposed per plans and specifications) in accordance with Section 5605.4
- Have an eligible zoning compliance in accordance with Section 5605.4
- Have legal access (ingress and egress) (see Section 5605.4)
- Be suitable for year-round occupancy regardless of the location, except as specifically permitted otherwise in Section 4201.15 for certain second homes
- Have utilities that meet community standards (see Section 5605.4)

- Have mechanical systems that meet community standards
- Have property insurance coverage that meets Freddie Mac's requirements and coverage for hazards specific to the location of the property
- Not be subject to a pending legal proceeding for condemnation in whole or in part

(b) Ineligible properties

Freddie Mac does not purchase Mortgages secured by:

- Vacant land, undeveloped land or land development properties
- Properties used primarily for agriculture or farming
- Properties used primarily for commercial enterprises (including, but not limited to, bed and breakfasts, boarding houses, Condominium Hotels and units located in a PUD operating as a hotel or similar type of transient housing that includes hotel type services and characteristics)

A property being used as a group home for individuals with disabilities is not considered an ineligible property. A Mortgage secured by such a property may be eligible for sale to Freddie Mac, provided it meets the requirements of the Guide, including but not limited to the residential requirements described above in Section 5601.1(a) and the occupancy requirements identified in Sections 4201.14 and 4201.16.

See Section 5701.3 for a list of ineligible project types and Section 5705.3 for a list of ineligible cooperative project types.

5601.2: Eligibility of a property with an ADU (06/01/22)

Freddie Mac will purchase an eligible Mortgage secured by a 1-, 2- or 3-unit property that has one ADU. An ADU is an additional living area that:

- Includes a kitchen
- Includes a bathroom
- Includes a separate entrance
- Is independent of the primary dwelling unit
- Is subordinate in living area, and

- Contributes less to the value of the property than the primary dwelling unit

Examples of eligible ADU configurations include a 1-, 2-, or 3-unit dwelling with an ADU above a garage, a dwelling with an attached or detached ADU or a dwelling with an ADU in the basement.

A 1-, 2-, or 3-unit dwelling with an ADU must be legal, legal non-conforming, or located in an area without zoning; however, an ADU on a 1-unit dwelling that does not comply with zoning requirements (illegal zoning) may be eligible if the requirements in Section 5601.2(c) are met.

The appraiser must identify and report the appraisal on the appropriate form if the subject property has an ADU. Zoning and land use requirements must be considered by the appraiser to make this identification. The appraiser must also consider all property characteristics, specifically the unit's utility and the property's highest and best use, when making this determination.

If the appraiser determines the subject property has an ADU, the appraisal report must include a description of the ADU and reflect any effect the ADU has on the market value or marketability of the subject property. The description of the ADU must include, but is not limited to, the general condition of the ADU, the room count specifying the number of bedrooms and baths and the square footage of the ADU's living area.

(a) Ineligible property types

Mortgages secured by the following property types are not eligible for purchase by Freddie Mac:

- A 2- or 3-unit property with an ADU that does not comply with zoning and land use requirements (illegal zoning)
- A 1-, 2- or 3-unit property with two or more ADUs
- A 4-unit property with an ADU

(b) Comparable requirements for properties with legal or legal non-conforming zoning compliance or locations without zoning

If the subject property ADU complies with the zoning and land use requirements (legal or legal non-conforming or locations without zoning), the appraisal report must include the following:

- At least one comparable sale with an ADU, when available, to demonstrate the property's conformity and marketability to its market area. If a recent comparable sale with an ADU is not available in the subject neighborhood, the appraiser can use an older sale with an ADU from the subject neighborhood or a sale with an ADU from a competing neighborhood as a comparable sale or as supporting market data. The appraiser may always use more than three comparable sales, including contract sales (pending sales)

and/or current listings, to justify and support his or her adjustments and opinion of market value, as long as at least three are actual closed (settled) sales.

- If a comparable sale with an ADU is not available, the appraiser can use a comparable sale in the subject neighborhood without an ADU as long as the appraiser can justify and support such use in the appraisal report. Freddie Mac will purchase eligible Mortgages secured by a property with an ADU if the appraiser can develop an accurate opinion of market value for the property.

If rental income from an ADU on a subject 1-unit Primary Residence is used to qualify the Borrower(s), see Section 5306.3 for comparable sales and rental requirements.

(c) Comparable requirements for properties with illegal zoning compliance

If the subject property ADU does not comply with the zoning and land use requirements (illegal zoning), the Mortgage is eligible if:

- The subject property is a 1-unit property with an ADU
- The “Site” section of the appraisal report indicates that the ADU does not comply with zoning and land use requirements
- At least two comparable sales with an ADU must be included in the appraisal report. The ADU of each comparable sale must also be non-compliant with the zoning and land use requirements (illegal zoning) to demonstrate the marketability of the subject property to its market area; and
- The Seller confirms that the existence of the ADU will not jeopardize future hazard insurance claims

Note: 2- or 3-unit properties with an ADU that do not comply with the zoning and land use requirements (illegal zoning) are not eligible for sale to Freddie Mac.

(d) Manufactured Home ADU

Freddie Mac will purchase a Mortgage secured by a 1-, 2-, or 3-unit property that contains a Manufactured Home ADU that meets the requirements for a property with an ADU and the following:

- The Manufactured Home meets the property eligibility requirements of Section 5703.2 and titling and lien requirements of Section 5703.7
- The Manufactured Home ADU must be legally classified as real property
- A Manufactured Home ADU must have a minimum of 400 square feet of gross living area and meet the HUD Codes for Manufactured Homes (HUD Codes)

- A Manufactured Home may not be an ADU for a Mortgage secured by a Manufactured Home. However, this does not apply when the Mortgage is secured by a CHOICEHome®.
- The appraisal report for a 1-, 2- or 3-unit property with a Manufactured Home ADU accessory unit must include the following:
 - Confirmation that the HUD Data Plate/Compliance Certificate is attached to the dwelling. If not attached, the appraiser must provide the data source(s) for the HUD Data Plate/Compliance Certificate information reported.
 - Confirmation that the Wind, Roof Load and Thermal Zones meet the minimum HUD requirements for the location of the subject property. If the unit does not meet these requirements, the appraiser must address.
 - Confirmation that the HUD Certification Label is attached to the exterior of each section of the dwelling. If not attached, the appraiser must provide the data source(s) for the HUD Certification Label information reported.
 - Manufacturer's Serial #(s)/VIN #(s)
 - HUD Certification Label #(s)
 - Manufacturer's Name
 - Trade/Model
 - Date of Manufacture
 - Describe any additions or modifications made to the Manufactured Home (decks, rooms, remodeling, etc.). See Section 5703.2 for property eligibility for Manufactured Homes.

5601.2: Eligibility of a property with an ADU (Future effective 11/02/23)

Freddie Mac will purchase an eligible Mortgage secured by a 1-, 2- or 3-unit property that has one ADU. An ADU is an additional finished area that:

- Includes a kitchen
- Includes a bathroom
- Includes a separate entrance

- Is independent of the primary dwelling unit
- Is smaller in size than the primary dwelling unit (i.e., the ADU's finished area is less than the primary dwelling unit's finished area, and
- Contributes less to the value of the property than the primary dwelling unit

Examples of eligible ADU configurations include a 1-, 2-, or 3-unit dwelling with an ADU above a garage, a dwelling with an attached or detached ADU or a dwelling with an ADU in the basement.

A 1-, 2-, or 3-unit dwelling with an ADU must be legal, legal non-conforming, or located in an area without zoning; however, an ADU on a 1-unit dwelling that does not comply with zoning requirements (i.e., illegal zoning) may be eligible if the requirements in Section 5601.2(c) are met.

The appraiser must determine whether the subject property has an ADU and report the appraisal on the appropriate form. When determining whether the subject property has an ADU, the appraiser must consider zoning and land use requirements and all property characteristics, specifically the unit's utility and the property's highest and best use.

If the appraiser determines the subject property has an ADU, the appraisal report must include a description of the ADU and reflect any effect the ADU has on the market value or marketability of the subject property. The description of the ADU must include, but is not limited to, the general condition of the ADU, the room count specifying the number of bedrooms and baths and the square footage of the ADU's finished area.

(a) Ineligible property types

Mortgages secured by the following property types are not eligible for purchase by Freddie Mac:

- A 2- or 3-unit property with an ADU that does not comply with zoning and land use requirements (illegal zoning)
- A 1-, 2- or 3-unit property with two or more ADUs
- A 4-unit property with an ADU

(b) Comparable requirements for properties with legal or legal non-conforming zoning compliance or locations without zoning

If the subject property ADU complies with the zoning and land use requirements (legal or legal non-conforming or locations without zoning), the appraisal report must include the following:

- At least one comparable sale with an ADU, when available, to demonstrate the property's conformity and marketability to its market area. If a recent comparable sale with an ADU is not available in the subject neighborhood, the appraiser can use an older sale with an ADU from the subject neighborhood or a sale with an ADU from a competing neighborhood as a comparable sale or as supporting market data. The appraiser may always use more than three comparable sales, including contract sales (pending sales) and/or current listings, to justify and support his or her adjustments and opinion of market value, as long as at least three are actual closed (settled) sales.
- If a comparable sale with an ADU is not available, the appraiser can use a comparable sale in the subject neighborhood without an ADU as long as the appraiser can justify and support such use in the appraisal report. Freddie Mac will purchase eligible Mortgages secured by a property with an ADU if the appraiser can develop an accurate opinion of market value for the property.

If rental income from an ADU on a subject 1-unit Primary Residence is used to qualify the Borrower(s), see Section 5306.3 for comparable sales and rental requirements.

(c) Comparable requirements for properties with illegal zoning compliance

If the subject property ADU does not comply with the zoning and land use requirements (illegal zoning), the Mortgage is eligible if:

- The subject property is a 1-unit property with an ADU
- The “Site” section of the appraisal report indicates that the ADU does not comply with zoning and land use requirements
- At least two comparable sales with an ADU must be included in the appraisal report. The ADU of each comparable sale must also be non-compliant with the zoning and land use requirements (illegal zoning) to demonstrate the marketability of the subject property to its market area; and
- The Seller confirms that the existence of the ADU will not jeopardize future hazard insurance claims

Note: 2- or 3-unit properties with an ADU that do not comply with the zoning and land use requirements (illegal zoning) are not eligible for sale to Freddie Mac.

(d) Manufactured Home ADU

Freddie Mac will purchase a Mortgage secured by a 1-, 2-, or 3-unit property that contains a Manufactured Home ADU that meets the requirements for a property with an ADU and the following:

- The Manufactured Home meets the property eligibility requirements of Section 5703.2 and titling and lien requirements of Section 5703.7
- The Manufactured Home ADU must be legally classified as real property
- A Manufactured Home ADU must have a minimum of 400 square feet of finished area and meet the HUD Codes for Manufactured Homes (HUD Codes)
- A Manufactured Home may not be an ADU for a Mortgage secured by a Manufactured Home. However, this does not apply when the Mortgage is secured by a CHOICEHome®.
- The appraisal report for a 1-, 2- or 3-unit property with a Manufactured Home ADU accessory unit must include the following:
 - Confirmation that the HUD Data Plate/Compliance Certificate is attached to the dwelling. If not attached, the appraiser must provide the data source(s) for the HUD Data Plate/Compliance Certificate information reported.
 - Confirmation that the Wind, Roof Load and Thermal Zones meet the minimum HUD requirements for the location of the subject property. If the unit does not meet these requirements, the appraiser must address.
 - Confirmation that the HUD Certification Label is attached to the exterior of each section of the dwelling. If not attached, the appraiser must provide the data source(s) for the HUD Certification Label information reported.
 - Manufacturer's Serial #(s)/VIN #(s)
 - HUD Certification Label #(s)
 - Manufacturer's Name
 - Trade/Model
 - Date of Manufacture
 - Describe any additions or modifications made to the Manufactured Home (decks, rooms, remodeling, etc.). See Section 5703.2 for property eligibility for Manufactured Homes.

5601.3: Eligibility of a property with incomplete improvements (04/05/23)

A Mortgage is only eligible for delivery to Freddie Mac prior to the completion of improvements when all of the following conditions are satisfied:

1. The appraiser has provided the ‘as completed’ value as the opinion of market value
2. The appraiser has provided a list of the incomplete items and the appraiser or a disinterested (but relevant) party has provided a cost to complete the incomplete items.

An example of a disinterested (but relevant) party is a contractor/painter who provides an estimate to paint interior walls. A relevant party includes, but is not limited to, a representative of a home improvement store or an independent contractor that performs the services needed to complete the improvements.

3. The incomplete items do not adversely affect the safety, soundness or structural integrity of the Mortgaged Premises
4. The Seller determines that the improvements cannot be completed for valid reasons; examples include, but are not limited to, inclement weather or temporary shortages of building materials. This requirement does not apply to GreenCHOICE Mortgages®.
5. The improvements will be satisfactorily completed no more than 180 days after the Note Date
6. The Mortgage is not secured by a Manufactured Home. This requirement does not apply to GreenCHOICE Mortgages or CHOICERenovation® Mortgages.
7. The cost to complete the incomplete items does not exceed 10% of the ‘as completed’ value of the Mortgaged Premises; provided, however, if the Mortgage is a GreenCHOICE Mortgage meeting the requirements of Chapter 4606, the cost to complete the incomplete items may not exceed 15% of the “as completed” value of the Mortgaged Premises
8. The Seller has established a completion escrow account for the incomplete improvements. The Seller and the Borrower must execute a written escrow agreement detailing how the funds will be managed and disbursed. A copy of the escrow agreement must be retained in the Mortgage file.
9. The mortgage insurance and title insurance will not be impaired or adversely affected during and after the completion period
10. Upon completion of all improvements, the Seller/Servicer must obtain a completion report. The completion report must document that the property has been completed and must be retained in the Mortgage file. (See Section 5605.8 for more information.)

Note: Third parties may perform certain incomplete improvement functions identified above as obligations or requirements of the Seller or the Servicer. However, the Seller remains responsible for compliance with these and all requirements of the Purchase Documents. (See Section 4201.10 for more details.)

5601.4: Eligibility of properties with energy efficient improvements and properties with solar panels (03/31/22)

(a) Properties with energy-efficient improvements

Energy-efficient features (e.g., photovoltaic systems, water efficient improvements, energy-efficient windows) or high-performing energy-efficient homes must be identified and any impact to market value must be recognized in the appraisal report. The contributory value of energy improvements and any premium paid for a high-performing energy-efficient home must be measured based on the market reaction, similar to any other property feature.

Appraisers must be familiar with energy reports, energy ratings or other new concepts that may be developed to identify the energy efficiency of a home. If relied upon, any reports must be generally acceptable and, if available, these reports and information must be included in the appraisers' analysis.

If the high-performing energy-efficient home or energy improvements are new to the market, there may be a lack of sales with similar features or a lack of data available from traditional data sources. As a result, additional due diligence on behalf of the appraiser may be necessary. The Appraisal Institute's Form 820.05, Residential Green and Energy Efficient Addendum, may be used to collect and report energy efficiency data associated with a property. When performing the analysis to determine the contributory value of the energy efficient improvements, the appraiser should consider whether methods such as the income approach, cost analysis, discounted cash flows, market surveys or any other applicable methods are appropriate. If the appraiser's analysis concludes an adjustment is necessary, the appraiser must justify and support the analysis and conclusions. This information may be included in an addendum or in supplementary documentation, if necessary.

Visit the following webpages for Seller resources related to energy-efficient properties and the appraisal of properties with energy-efficient features:

- **Resources** provided by The Appraisal Institute (including the use of the Residential Green and Energy Efficient Addendum)
- **The Home Energy Rating System (HERS®) Index** provided by the Residential Energy Services Network (RESNET®)

- The **Home Energy Score** provided by the U.S. Department of Energy's Better Buildings® initiative
- Ei Value – Tool used in the valuation of photovoltaic systems and/or the energy related efficiency of a property (income and cost approaches)
- PV value - Tool used in the valuation of photovoltaic systems (income approach)

(b) Properties with solar panels

Freddie Mac purchases Mortgages secured by properties with solar panels. The Seller must take into consideration ownership of the solar panels and any liens upon the property relating to debt or lease payments used to obtain the solar panels. For example, solar panels not owned by the Borrower can be financed via several types of agreements such as lease agreements or a power purchase agreement (PPA). The Seller must review any UCC-1 Financing Statement or lease agreement associated with the solar panels to determine if liens are against the real estate or against the solar panels. The property must maintain access to electrical utilities consistent with community standards.

The Seller must adhere to the following requirements when solar panels are present on the Mortgaged Premises based on whether the solar panels are leased, financed or owned:

	Solar Power Purchase Agreement (PPA)	Solar Panel Lease	Solar Panels Financed as Personal Property	Solar Panel Financed as a Fixture to Real Estate	Solar Panels Owned Free and Clear
Description	The Borrower purchases power produced by the solar panels, and the Borrower is not the owner of the solar panels.	The Borrower does not own the solar panels and the Borrower pays monthly lease payments to have access to the solar panels.	The Borrower owns the solar panels, purchased the solar panels with a note/security agreement and is entitled to power produced by the panels.		Borrower owns the solar panels and has no related debt.
Title	UCC-1 Financing Statement or lease agreement associated with the solar panels recorded in the applicable land records and claiming an interest in the solar panels but not the real estate; the Seller does not need			UCC-1 Financing Statement recorded against title to	There must be no UCC-1 Financing Statement or notice

	Solar Power Purchase Agreement (PPA)	Solar Panel Lease	Solar Panels Financed as Personal Property	Solar Panel Financed as a Fixture to Real Estate	Solar Panels Owned Free and Clear
	to obtain a subordination agreement of the UCC-1 Financing Statement.			the Mortgaged Premises, creating a lien on the real estate itself (i.e., claiming an interest in both the solar panels and the real estate, not just the solar panels); it must be subordinated or released.	recorded against the Mortgage Premises. In the event there is a UCC-1 Financing Statement, it must be released.
Appraisal	The solar panels must not be included in the appraised value of the property. The appraiser must comment on the marketability of the home with solar panels present and identify solar panels and system features.			The solar panels must not be included in the appraised value of the property if the lender may repossess the solar panels for default on the financing terms.	Seller must ensure the appraiser has recognized the existence of the solar panels and considered the solar panels in the appraiser's opinion of the market value of the property.
Debt payment-to-income (DTI) ratio	Lease payments for solar panels may be excluded from the monthly DTI ratio if the lease: ■ Provides for delivery of a specific amount of energy for an agreed upon		Payment to solar company or lender is included in the DTI ratio	Payment to solar company or lender is included in the DTI ratio	N/A – no payment required

	Solar Power Purchase Agreement (PPA)	Solar Panel Lease	Solar Panels Financed as Personal Property	Solar Panel Financed as a Fixture to Real Estate	Solar Panels Owned Free and Clear
	<p>payment during a given period, and</p> <ul style="list-style-type: none"> ■ Includes a production guarantee under which the Borrower is compensated on a prorated basis when the energy produced by the solar panels is less than the level required by the lease agreement <p>Payments for solar panels subject to a PPA or similar type of agreement may be excluded from the monthly DTI ratio if the payment is calculated based only on the generated energy.</p>				
Total loan-to-value (TLTV) ratio	Not included in the TLTV ratio			Included in the TLTV ratio	N/A
Obtain a copy of the lease, PPA or note/security agreement	<p>Damage that occurs as a result of installation, malfunction, or the removal of the solar panels is the responsibility of the owner of the equipment. The owner must be obligated to repair the damage and return the improvements to their original or prior condition.</p> <p>In the event of foreclosure, the Seller/Servicer may:</p> <ul style="list-style-type: none"> ■ Terminate the lease agreement or PPA and require the owner of the equipment to remove the panels and supporting equipment ■ Become the beneficiary of the Borrower's lease agreement or PPA without incurring a transfer fee; or ■ Enter into a new lease agreement or PPA with the owner of the equipment under terms no less favorable than the existing lease agreement or PPA 			N/A	

	Solar Power Purchase Agreement (PPA)	Solar Panel Lease	Solar Panels Financed as Personal Property	Solar Panel Financed as a Fixture to Real Estate	Solar Panels Owned Free and Clear
Homeowner's Insurance	The owner of the solar panels agrees to not be a loss payee (or named insured) on the homeowner's insurance policy covering the property.				N/A

See Section 5401.2(b)(v) for requirements related to solar panels subject to a lease agreement, PPA or similar type of agreement and the monthly debt payment-to-income ratio of the Borrower(s).

Any title insurance policy exceptions due to the existence of the lease agreement, PPA or similar type of agreement must comply with Section 4702.4.

5601.5: Eligibility of a property with mixed-use (04/06/22)

A residential property with mixed-use must meet the following requirements:

- The property must be located in a residential neighborhood, be primarily residential, and must be typical for the properties in the market area
- The mixed-use must represent a legal, permissible use of the property under the local zoning requirements
- The property must be a 1-unit Primary Residence
- If the property has a commercial use, the Borrower must be the owner and the operator of the business
- The dwelling may not be modified in a manner that has an adverse impact on its marketability as a residence
- The commercial use must not have an adverse effect on the habitability and safety of the property or site

The appraiser must provide the following when appraising a mixed-use property:

- An appraisal with an interior and exterior inspection

- A detailed description of any accommodations made for the commercial use of the subject property
- A discussion of any positive or adverse impacts of the commercial use and whether the cost to restore the property to solely residential use will affect its value
- A statement describing any market resistance to the commercial use, and adjustments for any commercial features made to the comparable sales
- An opinion of market value based on the property's residential nature

(See Section 5701.8(b)(ii) for Condominium Unit live-work requirements.)

5601.6: Eligibility of a property with two or more adjoining parcels (06/01/22)

When the Mortgaged Premises includes two or more parcels of real estate, the following requirements apply:

- The parcels must be adjoining
- The Mortgaged Premises must contain only one residence. An ADU is only allowed on the parcel that contains the residence if the requirements of Section 5601.2 are met.
- The residence or improvements may be built across the lot lines
- Non-residential improvements such as garages or outbuildings are acceptable on any parcel
- The Mortgage must be a valid First Lien on each parcel
- Each parcel must have the same basic zoning (e.g., residential or agricultural)
- Each parcel must be conveyed in its entirety
- The site description must accurately describe the land and any improvements included on each of the parcels

The only exception to the above requirement that the parcels be adjoining is when parcels, that would otherwise be adjoined, are separated by a road (e.g., a waterfront property where the parcel without the residence offers access to the water). The parcel without the residence must be non-buildable but may include non-residential improvements such as a garage or dock. The Seller must provide evidence in the Mortgage file that the parcel without the residence cannot be improved with a dwelling.

In addition, the appraiser must consider how the existence of two or more parcels, adjoining or not, influence the value use and marketability of the property. (See Section 5601.1 for additional eligibility requirements.)

5601.7: Overview of appraisal report forms (03/31/22)

Effective March 31, 2022, Section 5601.7 is deleted. See Section 5604.1 for information related to appraisal report forms and inspection types.

5601.8: Age of appraisal reports and appraisal update requirements, age of automated collateral evaluation offers and re-use of an appraisal report for a subsequent transaction (03/31/22)

Effective March 31, 2022, Section 5601.8 is deleted. See Section 5602.3 for information related to automated collateral evaluation and Section 5604.3 for information related the age of an appraisal report, appraisal update requirements and the reuse of an appraisal for a subsequent transaction.

5601.9: Seller representations and warranties regarding the Mortgaged Premises (03/31/22)

Effective March 31, 2022, Section 5601.9 is deleted. See Chapter 5602 for information related to collateral representations and warranties, Loan Collateral Advisor® and automated collateral evaluation.

5601.10: Required exhibits and addenda for appraisal report forms (03/31/22)

Effective March 31, 2022, Section 5601.10 is deleted. See Section 5604.2 for information related to exhibits and addenda for appraisal report forms.

5601.11: Appraisals completed subject to completion, repairs or alterations, or an inspection (03/31/22)

Effective March 31, 2022, Section 5601.11 is deleted. See Section 5605.8 for information related to appraisals completed subject to completion, repairs, alterations or an inspection.

5601.12: Property description and analysis (03/31/22)

Effective March 31, 2022, Section 5601.12 is deleted. See Chapter 5605 for information related to appraisal requirements, including property description and analysis.

5601.13: Obtaining subsequent appraisal reports and reconciling multiple opinions of market value (03/31/22)

Effective March 31, 2022, Section 5601.13 is deleted. See Section 5604.4 for information related to subsequent appraisal reports and the reconciliation of multiple opinions of market value.

5601.14: Appraisal data and delivery; Uniform Appraisal Dataset (UAD) and Uniform Collateral Data Portal® (UCDP®) (03/31/22)

Effective March 31, 2022, Section 5601.14 is deleted. See Chapter 5606 for information related to appraisal data and delivery, the Uniform Appraisal Dataset and the Uniform Collateral Data Portal®.

5601.15: Electronic transmission of appraisal reports (03/31/22)

Effective March 31, 2022, Section 5601.15 is deleted. See Chapter 5606 for information related to the electronic transmission of appraisal reports.

Chapter 5602: Collateral Representations and Warranties, Loan Collateral Advisor® and Automated Collateral Evaluation (ACE)

5602.1: Collateral representations and warranties (04/06/22)

In addition to all other representations and warranties specified in the Seller's Purchase Documents, the Seller makes the following representations and warranties.

(a) Value warranty

The Seller represents and warrants that the appraisal accurately reflects the market value of the Mortgaged Premises. See Section 5604.3 for information regarding requirements for Mortgages with Settlement Dates more than 120 days after the Note Date.

(b) Condition warranty

As of the Settlement Date, the Seller represents and warrants that the Mortgaged Premises is not in C5 or C6 condition. For property types not required to utilize the Uniform Appraisal Dataset (UAD) condition ratings, the Seller represents that the property is in a condition consistent with condition ratings C1 through C4.

(c) Marketability warranty

As of the Settlement Date, the Seller represents and warrants that the Mortgaged Premises is acceptable to typical purchasers in the market area in which the property is located.

5602.2 Loan Collateral Advisor® (04/05/23)

(a) Overview

For Mortgages with appraisals submitted to the Uniform Collateral Data Portal® (UCDP®) and assessed through Loan Collateral Advisor® that meet the eligibility requirements below, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the appraised value of the Mortgaged Premises. The selling representation and warranty relief described in this subsection will be referred to as "appraised value representation and warranty relief."

(b) Eligible Mortgages

The following requirements must be met for Mortgages to be eligible for appraised value representation and warranty relief:

- The Mortgage must have a loan-to-value (LTV)/total TLTVA (TLTV)/Home Equity Line of Credit (HELOC) TLTVA (HTLTV) ratio less than or equal to 95%
- The Mortgage must be secured by a 1-unit dwelling, including units in a Condominium Project or a Planned Unit Development (PUD)
- The Borrower must be an individual or a Living Trust
- The UCDP feedback message FRE4000 must be returned. It indicates “This appraisal is eligible for representation and warranty relief for property value, pending an assessment of the loan.”

Note: For Sellers that utilize Loan Collateral Advisor, representation and warranty relief eligibility will correspond to an appraisal with a risk score less than or equal to 2.5. Loan Collateral Advisor will also display a representation and warranty relief indicator of “eligible.” Upon submission to Loan Product Advisor® and/or Loan Quality Advisor®, a corresponding representation and warranty relief message will also be provided in the feedback certificate.

- The final submission to Loan Selling Advisor® must indicate the representation and warranty relief status is “Y” or “Yes”

(c) Ineligible Mortgages

The following Mortgages are not eligible for appraised value representation and warranty relief:

- Mortgages secured by Manufactured Homes
- Mortgages secured by leasehold estates
- Mortgages secured by Mortgaged Premises subject to resale restrictions, excluding those subject to age-based resale restrictions
- Freddie Mac Enhanced Relief Refinance Mortgages®
- Community Land Trust Mortgages
- Cooperative Share Loans

(d) Loan Collateral Advisor appraised value representation and warranty exceptions

For Mortgages that meet the eligibility requirements above, the Seller/Servicer remains responsible for compliance with the requirements below and will not be relieved from Freddie Mac's enforcement of remedies, even if such matters are related to appraised value

- The requirement that the Mortgaged Premises (including units in a Condominium Project or a PUD, if applicable) meets Freddie Mac's property eligibility requirements (e.g., not vacant or undeveloped land, not primarily used for agricultural or farming purposes or for a commercial enterprise, etc.) See Sections 5601.1 and 5701.2.
- The requirement that the Mortgaged Premises (including units in a Condominium Project or PUD, if applicable) not be subject to a pending legal proceeding for condemnation in whole or in part. (See Section 5601.1.)
- The requirement that, when applicable, Form 442, Appraisal Update and/or Completion Report, or Form 400, Warranty of Completion of Construction, is obtained verifying that any outstanding conditions of the appraisal have been satisfied. (See Section 5605.8.)
- The requirement to ensure the appraiser's description of the subject property must be complete and accurate (e.g., accuracy of quality and condition ratings, photographs that support the quality and condition of the property, etc.) (See applicable language in Chapter 5605.)

For Mortgages that are eligible for appraised value representation and warranty relief as described above, the Seller/Servicer is not responsible for underwriting the appraisal to ensure compliance with the following requirements:

- The appraisal report must justify and support the appraiser's opinion of market value and that the appraiser must explain how the final value conclusion was determined. (See applicable language in Section 5605.7.)
- The appraiser must make appropriate adjustments. (See applicable language in Section 5605.6.)
- The opinion of market value of the subject property must be accurate and adequately supported. (See applicable language in Section 5605.1.)

Nothing in this Section 5602.2 is meant to imply that the Seller is not responsible for compliance with other requirements of the Purchase Documents.

5602.3 Automated collateral evaluation (ACE) – appraisal waiver (05/03/23)

(a) Overview

For certain Loan Product Advisor[®] Mortgages, the automated collateral evaluation provides a Seller with the option to accept an appraisal waiver and originate the Mortgage without an appraisal.

When the appraisal waiver option is accepted, Freddie Mac will accept the purchase price submitted by the Seller for purchase transactions or the estimated value submitted by the Seller for refinance transactions for the purposes of underwriting the Mortgage, and will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to value, condition, and marketability of the Mortgaged Premises.

(b) Process for qualifying for and accepting the appraisal waiver offer

For a Mortgage to qualify for an appraisal waiver:

- The Seller must submit the Mortgage to Loan Product Advisor and receive a Risk Class of Accept
- Upon evaluation by Loan Product Advisor, the Last Feedback Certificate must indicate that the Mortgage is eligible for representation and warranty relief with an appraisal waiver (this represents the “offer”); and
- The final submission of the Mortgage to Loan Selling Advisor[®] must indicate the representation and warranty relief status is “Y” or “Yes”

For Mortgages that receive the appraisal waiver offer, in order to accept the offer, the Seller must deliver the Mortgage with the ULDD Data Points described in the data delivery instructions in Section 6302.10(c).

(c) Eligible Mortgages

The following requirements must be met for Mortgages to be eligible to receive an appraisal waiver offer:

- The Mortgage must be secured by a 1-unit dwelling, including a Condominium Unit
- The Mortgage must be secured by a Primary Residence or second home
- The Mortgage must comply with the following maximum LTV/TLTV ratio requirements:

Mortgage Purpose	Property Type	Maximum LTV/TLTV ratios
Purchase	Primary Residence or second home	80%
No-cash out refinance	Primary Residence or second home	90%
Cash-out refinance	Primary Residence	70%
	Second home	60%

(d) Ineligible Mortgages

The following Mortgages are not eligible for an appraisal waiver:

- Mortgages for which an appraisal has been obtained in connection with the Mortgage
- Texas Equity Section 50(a)(6) Mortgages
- Mortgages secured by one of the following:
 - A Manufactured Home, or
 - A leasehold estate
- Mortgages secured by Mortgaged Premises subject to resale restrictions, excluding those subject to age-based resale restrictions
- Construction Conversion and Renovation Mortgages
- Freddie Mac Enhanced Relief Refinance® Mortgages
- Community Land Trust Mortgages
- Purchases of Mortgages secured by a property when the purchase transaction is a Non-arm's Length Transaction or the property owner at the time of sale (i.e., the property seller) is a lender or a government entity
- Mortgages with an estimate of value or purchase price greater than \$1,000,000
- GreenCHOICE Mortgages®
- CHOICERenovation® Mortgages

- Cooperative Share Loans
- Seller-Owned Modified Mortgages that are Home Possible® Mortgages

In addition, Sellers may not accept the appraisal waiver offer if any of the following apply:

- The Seller is required by law or regulation to obtain an appraisal
- The Seller is using rental income from the subject 1-unit Primary Residence ADU for qualification purposes
- The Seller is aware of conditions that warrant an appraisal being obtained.

Examples include, but are not limited to:

- A contaminated site or hazardous substance exists affecting the property or the neighborhood in which the property is located
- Adverse physical property conditions that are apparent based on the review of the sales contract, property inspection, disclosure from the Borrower, etc.

(e) Acceptable age of the appraisal waiver offer

The appraisal waiver offer provided through the Loan Product Advisor Feedback Certificate message is valid for 120 days. If the offer is more than 120 days old on the Note Date, a resubmission to Loan Product Advisor is required to determine ongoing appraisal waiver eligibility.

(f) Maintaining appraisal waiver eligibility

If the Seller changes loan data (e.g., address of the property, loan amount, purchase price, estimate of value, loan type, property type, occupancy of the property) in a subsequent submission, the original offer will be invalidated, and Loan Product Advisor may provide a different appraisal waiver eligibility determination.

(g) Appraisal waiver requirements for Settlement Dates more than 120 days after the Note Date

If the Settlement Date is more than 120 days after the Note Date, the Seller must warrant the value of the subject property at the time of the Settlement Date is not less than the estimated value or sales price used to underwrite the Mortgage in Loan Product Advisor.

(h) Appraisal waiver eligibility in disaster areas

Sellers may continue to accept an appraisal waiver offer if the Seller can represent and warrant the value and marketability of the Mortgaged Premises has not been adversely impacted. See Section 4407.1 for property condition requirements.

(i) Seller representation of property review or valuation

A Seller that has accepted the appraisal waiver offer in connection with a Mortgage must not make any representation that Freddie Mac has performed a property review or obtained a valuation of the Mortgaged Premises.

Chapter 5603: Seller Requirements for Appraiser Independence Requirements, Appraiser Engagement and Qualifications, Information Disclosure and Unacceptable Appraisal Practices

5603.1: Appraiser Independence Requirements, Seller selection of appraisers and appraiser qualifications (03/31/22)

The Seller is responsible for compliance with the Appraiser Independence Requirements, the selection of the appraiser, the appraiser's use of the appropriate Freddie Mac appraisal report forms, compliance with the Uniform Appraisal Dataset (UAD) and a successful submission of the appraisal report to the Uniform Collateral Data Portal® (UCDP®), all as specified in more detail in this topic.

Freddie Mac does not select or approve individual appraisers or appraisal management companies. The Seller, or a third party specifically authorized by the Seller, approves and selects the appraiser. The Seller warrants that the appraisal services provided comply with the USPAP, applicable laws, and Freddie Mac requirements.

(a) Appraiser Independence Requirements

With respect to each conventional Mortgage sold to Freddie Mac, the Seller represents and warrants that the appraisal was obtained in a manner consistent with the requirements of Exhibit 35, Appraiser Independence Requirements.

The Seller must ensure that the individuals ordering and underwriting appraisal reports and performing collateral reviews are independent of loan production staff. If absolute lines of independence cannot be achieved as a result of the Seller's small size and limited staff, the Seller must be able to clearly demonstrate that it has prudent safeguards to isolate its collateral evaluation process from influence or interference from its Mortgage production process.

Freddie Mac requires Sellers to obtain appraisals in a manner consistent with the Appraiser Independence Requirements. Freddie Mac does not require the use of appraisal management companies or any other third-party vendor to order appraisals. The Appraiser Independence Requirements allow the use of staff (or in-house) appraisers and independent fee appraisers.

The appraisal report must be signed by an appraiser that the Seller, or a third party specifically authorized by the Seller, has approved.

(b) Appraiser and supervisory appraiser qualification

The appraiser or supervisory appraiser must:

- Be State-licensed or State-certified in the State in which the subject property is located (See subsection (c) below regarding unlicensed and trainee (or similar classification) appraisers)
- Have knowledge and experience in appraising the property type in the market area, and
- Have access to applicable data sources

(c) Unlicensed and trainee appraisers

Freddie Mac permits unlicensed and trainee (or similar classification) appraisers to complete an appraisal in accordance with State law. If an appraisal form is completed by an unlicensed or trainee (or similar classification) appraiser, a supervisory appraiser must sign the appraisal form. A supervisory appraiser is not required to inspect the subject property or comparable sales unless required by State law.

(d) Seller representations and warranties regarding appraisers and appraisal reports

In addition to the representations and warranties with respect to the Appraiser Independence Requirements, with respect to each appraisal report, the Seller represents and warrants that:

1. All information known to the Seller that may affect the estimate of market value or marketability has been provided to the appraiser in conjunction with the appraisal request
2. It has reviewed the report and has concluded that the Mortgaged Premises is adequate collateral for the Mortgage transaction, in accordance with the requirements of Section 4201.1
3. The appraisal report complies with all applicable requirements in Seller's Purchase Documents
4. The appraisal report is of professional quality and supports all of the appraiser's assumptions, data, analyses, rationale and conclusions that were relied upon in the appraiser's opinion of the market value of the property and in addressing the marketability of the Mortgaged Premises
5. The information in the appraisal report is accurate, internally consistent, written in clearly understandable language, fully supported and sufficiently documented

Deficient appraisals will be considered a breach of the Seller's warranty as to the acceptability of the Mortgage and will subject the Seller to the remedies available to Freddie

Mac. In addition to reviewing the appraisal report submitted by the Seller, Freddie Mac may make property inspections and/or other investigations to assure property eligibility and proper underwriting of the Mortgages offered for sale to and sold to Freddie Mac.

(e) Representations by appraisers and unacceptable appraisers

Appraisers and appraisal management companies must not make any representation to third parties as being approved by Freddie Mac.

Freddie Mac may at any time refuse to accept appraisal reports made by a particular appraiser. (See Section 3101.1 for additional requirements on the Freddie Mac Exclusionary List and Section 3101.2 for additional requirements on the Federal Housing Finance Agency Suspended Counterparty Program.)

5603.2: Seller verification of subject property owner of record (03/31/22)

Owner of Record

When a new appraisal is required, the Seller must verify:

- For purchase transactions:
 - The property seller listed on the sales contract is the Owner of Record of the subject property or
 - If the transaction involves the sale of land separate from the dwelling, the property seller listed on the sales contract for the land is the Owner of Record for the land
- For refinance transactions, the Borrower is an Owner of Record of the subject property
- For transactions that involve the payoff of a land contract, the property seller is the vendor on the recorded land contract and the Owner of Record of the subject property; and the Borrower is a vendee on the recorded land contract

If the property seller for purchase transactions or the Borrower for refinance transactions is not the Owner of Record, the Seller must investigate the circumstances of the transaction to ensure that the transaction is legitimate. The Seller must retain documentation evidencing the verification or legitimacy of the transaction in the Mortgage file. Such documentation may include, but is not limited to, the appraiser's analysis and conclusions in the appraisal, a property sales history report, a copy of the recorded deed, a copy of a property tax bill, or the title commitment or binder indicating the legal ownership of the property.

5603.3: Information supplied to the appraiser and Borrower (03/31/22)

(a) Information supplied to the appraiser

The Seller or a third party specifically authorized by the Seller must provide the following information on the subject property, as applicable, to the appraiser in conjunction with all appraisal requests:

1. The complete legal description (see Section 5605.3 for legal description requirements)
2. The complete sales contract for purchase transactions, including:
 - All non-realty items
 - Financing terms
 - Financing and sales concessions granted by anyone associated with the transaction, and
 - Any gifts, buydowns or down payment assistance provided by anyone on behalf of the Borrowers

Note: A sales contract on a new home should state the base price of the house and itemize each option.

The Seller is not required to provide the appraiser with an updated sales contract unless the updated terms impact the physical description or condition of the property. In such cases, the Seller must obtain an updated appraisal for the property. Changes to the sales contract that are not required to be provided to the appraiser include, but are not limited to:

- Changes to the transaction terms such as sales price, financing or sale concessions, and
 - Date revisions, corrections to typographical errors, etc.
3. Any known affiliation between the property seller and the purchaser. (Refer to Section 5605.3(b).)
 4. Income and expense statements and property leases
 5. Generally acceptable energy reports such as the Home Energy Rating System (HERS[®]) report and U.S. Department of Energy (DOE) Home Energy Score report, if applicable; and

6. Any other information that the Seller is aware of that may adversely affect the market value, condition or marketability of the property. This information includes, but is not limited to, the presence of any Contaminated Site, Hazardous Substance or other adverse conditions affecting the property or neighborhood in which the property is located. (Refer to Section 5605.4(b).)
7. Ground lease for leasehold properties. (Refer to Section 5704.3.)

(b) Information supplied to the Borrower

For purchase transactions, the Seller must provide the Borrower with information regarding environmental hazards directly impacting the subject property that have not been mitigated or remediated, provided the Borrower does not already have notice of such hazard(s), such as through the purchase contract or property inspection. Such hazard(s) must be disclosed to the Borrower when they come to the Seller's attention during the underwriting of the Mortgage prior to the Note Date and the hazard(s) adversely affects the market value, condition or marketability of the subject property. This includes, but is not limited to, the presence of any Contaminated Site, Hazardous Substance or other environmental conditions, not yet mitigated or remediated, which adversely affect the subject property.

5603.4: Unacceptable appraisal practices (10/05/22)

Unacceptable appraisal practices

The following are examples of unacceptable appraisal practices. Evidence of any of the practices listed in this section will be a breach of Seller's warranty as to the professional quality of the appraisal.

1. Consideration of the race, color, religion, sex, sexual orientation, gender identity, age, marital status, disability, familial status, exercise of any federally protected civil right, receipt of income derived from any public assistance program, birthplaces of residents at the property or in the neighborhood, national origin of the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property. (See also Section 1301.2 for equal opportunity compliance requirements.)
2. Use of unsupported or subjective terms to assess or rate, such as, but not limited to, "high," "low," "good," "bad," "fair," "poor," "strong," "weak," "rapid," "slow," "fast" or "average" without providing a foundation for analysis and contextual information
3. Incorporating terminology or veiled language that may be code words that could indicate underlying bias that include, but are not limited to, "pride of ownership," "crime-ridden area," "desirable neighborhood or location" or "undesirable neighborhood or location," "gentrified," "preferred community," "up and coming," predominantly Hispanic or Black neighborhood, substantial amount of Black or Hispanic residents at the property, diverse

school system, amenities specifically geared to a race, ethnic or religious group or using terms such as Millennials, Generation X or Baby Boomers

4. Inclusion of inaccurate or incomplete data about the subject property, the neighborhood or any comparable sale used in the appraisal analysis
5. Failure to report and/or consider any apparent factor that has an adverse effect on the value and/or marketability of the subject property
6. Consideration of the age or location of a dwelling or the age of the neighborhood or census tract where the dwelling is located in a manner that has a discriminatory effect
7. Reliance in the appraisal analysis on comparable sales that were not personally inspected by the appraiser. A personal inspection requires at least a visual inspection of the exterior of the comparable property.
8. Reliance in any appraisal analysis on inappropriate comparable sales, or the failure to use comparable sales that are more similar to or nearer to the subject property without adequate explanation
9. Use of comparable sales data provided by interested parties to the transaction without verification by a disinterested party
10. The use of inordinate adjustments for differences between the subject property and the comparable sales that do not reflect the market's reaction to such differences, or the failure to make proper adjustments when they are clearly necessary
11. Development of value and/or marketability conclusions that are not supported by available market data
12. The appraiser's or supervisory appraiser's breach of a certification or Statement of Assumptions and Limiting Conditions or comparable statements as found on any Freddie Mac approved appraisal report form or addendum.

See Section 5606.3 for unacceptable appraisal and inspection practices when using Electronic Signatures and using and maintaining Electronic Records.

Chapter 5604: Appraisal Report Forms, Inspection Types and Exhibits, Age of Appraisal Reports, Appraisal Updates, Appraisal Re-use and Reconciliation of Multiple Opinions of Market Value

5604.1: Appraisal report forms and inspection types (04/05/23)

For each Mortgage transaction that requires an appraisal, the Mortgage file must contain an appraisal report that meets Freddie Mac's requirements to evidence that the Mortgaged Premises is acceptable collateral. For Loan Product Advisor® Mortgages, the Feedback Certificate will advise the Seller of the minimum type of appraisal report required. The feedback message is valid for 120 days. If the effective date of the Feedback Certificate is more than 120 days before the Note Date, the transaction must be resubmitted to Loan Product Advisor.

(a) Appraisal report forms by property type and inspection type

The following table lists Freddie Mac's appraisal report forms and the applicable inspection types. For each Mortgage transaction that requires an appraisal, the appraisal report must be based on an interior and exterior property inspection, unless the Mortgage meets the requirements for delivery with a desktop appraisal in Section 5604.1(b). An appraisal report based on an exterior-only property inspection is acceptable for an appraisal update and a subsequent opinion of market value.

Appraisals reported on Forms 70, 70D, 2055, 465 and 466, must be completed using the Uniform Appraisal Dataset (UAD) in accordance with Appendix D, UAD Field-Specific Standardization Requirements, of the Uniform Appraisal Dataset Specification ("UAD Specification") when reporting an appraisal for a conventional Mortgage. (See Section 5606.1.)

Freddie Mac does not require the UAD to be used for appraisals reported on Forms 70B, 72 or [Fannie Mae Form 2090](#). However, these forms may be completed using the standards contained in the UAD Specification to the extent those standards are applicable.

See Section 5604.2 for information about appraisal exhibits and addenda. See Section 5604.4 for information related to obtaining subsequent appraisal reports and reconciling multiple opinions of value.

Appraisal Report Forms by Property Type and Inspection Type		
Property Type	Form Number and Title	Type of Inspection and Reporting Considerations
1-unit property, including: <ul style="list-style-type: none">■ A unit in a Planned Unit Development (PUD)■ A 1-unit property with an ADU	Form 70, Uniform Residential Appraisal Report	<p>Interior and exterior inspection.</p> <p>Form 70 may be used for a Detached Condominium Unit if the appraiser includes information about the project and its condition.</p> <p>The form may not be used for an appraisal of a Manufactured Home or a unit in an attached Condominium Project.</p>
	Form 70D, Uniform Residential Appraisal Report (Desktop)	<p>No physical inspection</p> <p>Note: See (b) below for the detailed requirements with respect to the use of Form 70D.</p>
	Form 2055, Exterior-Only Inspection Residential Appraisal Report	<p>Exterior-only inspection.</p> <p>Form 2055 may be used for a Detached Condominium Unit if the appraiser includes information about the project and its condition.</p> <p>The form may not be used for an appraisal of a Manufactured Home or a unit in an attached Condominium Project.</p> <p>Note: See (c) below for the conditions when Form 2055 must be upgraded to a Form 70.</p>
Condominium Unit, including <ul style="list-style-type: none">■ Attached units or	Form 465, Individual Condominium Unit Appraisal Report	Interior and exterior inspection.

Appraisal Report Forms by Property Type and Inspection Type		
Property Type	Form Number and Title	Type of Inspection and Reporting Considerations
■ Detached units	Form 466, Exterior-Only Inspection Individual Condominium Unit Appraisal Report	Exterior-only inspection. Note: See (c) below for the conditions when Form 466 must be upgraded to a Form 465.
Manufactured Home, including: ■ A Manufactured Home in a Planned Unit Development (PUD) or ■ A Manufactured Home located in a Condominium Project	Form 70B, Manufactured Home Appraisal Report	Interior and exterior inspection. Form 70B must be used for all Mortgages secured by a Manufactured Home. When Form 70B is utilized for a Manufactured Home located in a Condominium Project the appraiser is required to inspect the project and complete the project information section of the Form 465, Individual Condominium Unit Appraisal Report, and attach it as an addendum to Form 70B.
2- to 4-unit property, including a 2- or 3-unit property with an ADU	Form 72, Small Residential Income Property Appraisal Report	Interior and exterior inspection. When Form 72 is utilized for a 2- or 3-unit property with an ADU, the ADU is included as an additional unit.
Cooperative Share Loan, including: ■ Attached units or ■ Detached units	Fannie Mae Form 2090, Individual Cooperative Interest Appraisal Report	Interior and exterior inspection.

Appraisal Report Forms by Property Type and Inspection Type		
Property Type	Form Number and Title	Type of Inspection and Reporting Considerations
Any, as required by the original appraisal	Form 442, Appraisal Update and/or Completion Report	Interior and exterior inspection or exterior-only inspection. Refer to Section 5604.3 for information regarding appraisal updates and Section 5605.8 for information regarding completion reports.
Any, as required by the original appraisal	Form 400, Warranty of Completion of Construction	Interior and exterior inspection or exterior-only inspection. Refer to Section 5605.8 for information regarding completion reports.

(b) Form 70D, Uniform Residential Appraisal Report (Desktop)

(i) Desktop appraisal requirements

Mortgages that meet the following requirements may be delivered with a desktop appraisal in lieu of an interior and exterior appraisal:

- A. Each Mortgage must be an Accept Mortgage
- B. The Last Feedback Certificate must indicate that the Mortgage is eligible for a desktop appraisal
- C. Each Mortgage must be delivered with the ULDD Data Points described in the data delivery instructions in Section 6302.8(a)
- D. Each Mortgage must be a purchase transaction Mortgage secured by a 1-unit Primary Residence, and
- E. Each Mortgage must have a loan-to-value (LTV) ratio less than or equal to 90%. For purposes of desktop appraisal eligibility, the LTV ratio is calculated using the sales price.

Note: Freddie Mac will accept Mortgages originated with a desktop appraisal with an LTV ratio higher than 90% as calculated using the value obtained from the desktop appraisal if the loan amount does not increase and all other eligibility requirements continue to be met,

including the requirement that the LTV ratio calculated using the sales price is less than or equal to 90%. LTV ratios greater than 90% that occur as a result of loan amount increases require an upgrade to an interior and exterior inspection appraisal (Form 70).

(ii) Ineligible Mortgages

The following Mortgages are not eligible for a desktop appraisal:

- Mortgages secured by a Condominium Unit
- Mortgages secured by a Manufactured Home
- Mortgages secured by a property that is undergoing renovation or rehabilitation
- Mortgages secured by purchase transactions that are Non-arm's Length Transactions or when the property owner at the time of sale (i.e., the property seller) is a lender or a government entity
- Mortgages secured by Mortgaged Premises subject to resale restrictions, excluding those subject to age-based resale restrictions
- Construction Conversion and Renovation Mortgages
- Community Land Trust Mortgages
- GreenCHOICE Mortgages®
- CHOICERenovation® Mortgages
- Cooperative Share Loans

(iii) Form 70D upgrade requirements

The appraisal must be upgraded to Form 70 when one or more of the following conditions exist:

- The appraiser cannot obtain sufficient information about both the interior and exterior physical characteristics of the subject property from third-party data sources in order to develop an accurate and adequately supported appraisal
- The appraiser cannot reconcile significant discrepancies (e.g., room count, gross living area, size, condition, etc.) among available data sources
- The subject property is undergoing renovation or rehabilitation

The data sources used to develop the appraisal, including the sales contract, reflect the presence of physical deficiencies or an adverse condition(s) indicating the property has a condition rating of C5 or C6 or the quality rating is Q6. (Refer to Section 5605.5(a) for additional information related to property condition and quality of construction.)

(c) Form 2055 or Form 466 upgrade requirements

The appraisal based on an exterior-only property inspection, reported on either Form 2055 or Form 466, must be upgraded to a Form 70 or Form 465, as applicable, when one or more of the following conditions exist:

- The appraiser cannot obtain sufficient information about both the interior and exterior physical characteristics of the subject property from third-party data sources in order to develop an accurate and adequately supported appraisal
- The appraiser cannot reconcile all significant discrepancies (e.g., size, condition, room count, gross living area, etc.) among available data sources
- The appraiser's exterior-only inspection does not provide sufficient information to develop an accurate and adequately supported appraisal, including the inability to view the property improvements from the street
- The subject property is new construction
- The subject property is undergoing renovation or rehabilitation
- The data sources used to develop the appraisal, including the sales contract, reflect the presence of physical deficiencies or an adverse condition(s) indicating the property has a condition rating of C5 or C6 or the quality rating is Q6. (Refer to Section 5605.5(a) for additional information related to property condition and quality of construction.)
- The exterior-only inspection reveals apparent physical deficiencies or adverse property conditions

(d) Appraisal report review forms by property type and inspection type

The following table lists the Freddie Mac appraisal review report forms and the applicable inspection types.

Appraisal Report Review Forms by Property Type and Inspection Type		
Property Type	Form Number and Title	Type of Inspection
1-unit property, including a unit in a: <ul style="list-style-type: none"> ■ Planned Unit Development (PUD) ■ Condominium Project or ■ Cooperative Project 	Form 1032, One-Unit Residential Appraisal Field Review Report	Exterior-only inspection
1-unit property, including a unit in a <ul style="list-style-type: none"> ■ Planned Unit Development (PUD) ■ Condominium Project or ■ Cooperative Project 	Form 1033, One-Unit Residential Appraisal Desk Review Report	No inspection
2- to 4-unit property	Form 1072, Two- to Four-Unit Residential Appraisal Field Review Report	Exterior-only inspection

(e) Statement of Assumptions and Limiting Conditions and Appraiser's Certification

The Statement of Assumptions and Limiting Conditions, Appraiser's Certification and Supervisory Appraiser's Certification are incorporated into each appraisal report form. Modifications or deletions to these are not permitted. However, additional certifications that do not constitute material alterations to the report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

5604.2: Exhibits and addenda for appraisal reports (04/05/23)

At a minimum each appraisal report must meet the requirements provided in this section and include the exhibits specified based on the property inspection or appraisal form type.

(a) Exhibit requirements for appraisal reports

(i) Photographs

Photographs of the subject property must be original images that are in color and illustrative of the property. The photographs must be clear, appropriately identified and must clearly show the improvements, including any physical deterioration of the property, Amenities, conditions and external influences that have a material effect on the market value or marketability of the subject property.

Photographs of the comparable sales must be clear images. Copies of multiple listing service (MLS) photographs are acceptable.

(ii) Building sketch and floor plan

A building sketch is required for interior and exterior inspection appraisals and desktop appraisals. The building sketch must include dimensions and calculations reflecting the gross living area of the subject property. When the property is a 2- to 4-unit property, the sketch must also include each unit's floor plan and indicate the square feet of living area per unit and the gross building area (GBA).

For attached units, an interior perimeter sketch is acceptable. Appraisers may rely on the dimensions and estimates for gross living area as shown on the plat or exhibits of Project Documents or provide legible photocopies of floor plans or individual unit plats that include the dimensions and calculations.

If the appraisal being performed is a desktop appraisal or the subject property is atypical, or functionally obsolete such that its market appeal is limited in comparison with competitive properties in the neighborhood, a floor plan with dimensions, including interior walls, is required. See Section 5605.5(c) for additional guidance on unusual floor plans.

(iii) Location map

The location map must identify the location of the subject property and any comparables including sale, rental and listing comparables as applicable.

(b) Exhibits required for appraisals with interior and exterior inspections (Forms 70, 70B, 72 and 465 and Fannie Mae Form 2090)

The following exhibits that meet the requirements in Section 5604.2(a) are required for appraisal reports with interior and exterior inspections:

(i) Photographs of the subject property

The appraisal report must include at least the following:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property
- The main living area of the subject property

The appraisal must include additional photographs, as needed, to show any physical deterioration, improvements, amenities, conditions and external influences that materially impact market value or marketability.

(ii) Photographs of comparable sales

The appraisal report must include at least one clear photograph that shows the front of each comparable sale.

The appraisal must include additional photographs, as needed, to show the improvements, amenities or external influences that materially impact market value or marketability.

(iii) Building sketch and floor plan

The appraisal report must include a building sketch and floor plan that meets the requirements in Section 5604.2(a).

(iv) Location map

The appraisal report must include a location map that meets the requirements in Section 5604.2(a).

(c) Exhibits required for desktop appraisal (Form 70D)

A desktop appraisal report must include the following:

(i) Photographs of the subject property

The appraisal report must include at least the following:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property
- The main living area of the subject property

(ii) Photographs of comparable sales

The appraisal report must include at least one clear photograph that shows the front of each comparable sale.

(iii) Building sketch and floor plan

The appraisal report must include a building sketch and floor plan that meets the requirements in Section 5604.2(a).

(iv) Location map

The appraisal report must include a location map that meets the requirements in Section 5604.2(a).

(d) Exhibits required for appraisals with exterior-only inspections (Forms 466 and 2055)

An appraisal report based on an exterior-only inspection must include all the following that meet the requirements of Section 5604.2(a):

- At least one photograph that shows the front view of the subject property
- Location map

(e) Exhibits required for appraisal updates (Form 442)

If the photographs in the original appraisal report represent the subject property accurately, new photographs of the subject property are not required.

Photographs of any factors that affect the value, condition or marketability of the subject property should be provided if not already part of the original appraisal report.

(f) Exhibits required for completion reports (Forms 442 and 400)

The completion report must include at least the following photographs:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property
- The main living area of the subject property
- For a Manufactured Home, the HUD Data Plate, HUD Certification Label(s) and CHOICEHome® notice, if applicable

The completion report must include additional photographs, as needed, to show items identified as subject to completion in the original appraisal report are now complete.

If the photographs in the original appraisal report represent the subject property's completion accurately, new photographs of the subject property are not required.

(g) Other necessary exhibits and addenda for appraisal reports

The appraiser must provide any additional information or data that is needed to provide the lender/client with an accurate and adequately supported appraisal. The Seller may request that the appraiser provide additional exhibits or addenda as part of the appraisal scope of work. Any exhibit or addenda must be incorporated into the appraisal.

5604.2: Exhibits and addenda for appraisal reports (Future effective date 11/02/23)

At a minimum each appraisal report must meet the requirements provided in this section and include the exhibits specified based on the property inspection or appraisal form type.

(a) Exhibit requirements for appraisal reports

(i) Photographs

Photographs of the subject property must be original images that are in color and illustrative of the property. The photographs must be clear, appropriately identified and must clearly show the improvements, including any physical deterioration of the property, Amenities, conditions and external influences that have a material effect on the market value or marketability of the subject property.

Photographs of the comparable sales must be clear images. Copies of multiple listing service (MLS) photographs are acceptable.

(ii) Building sketch and floor plan

When required, a building sketch must include perimeter dimensions with calculations reflecting the measured areas of the dwelling unit(s). All levels of the dwelling unit(s) must be represented on the building sketch. A separate building sketch is required for each additional structure(s) on the subject property. Each building sketch must include exterior dimensions and, when applicable, room labels.

When required, the floor plan must include the following:

- Interior walls
- Doorways
- Staircases
- Exterior ingress/egress
- Labels for each room, and
- The dimensions of all exterior walls

See Section 5605.5(c) for additional guidance on unusual floor plans.

(A) Building sketch, compliance with ANSI Standard for measuring the subject property and floor plan requirements

Requirements for building sketches, compliance with the American National Standards Institute Standard, Square Footage – Method for Calculating: (ANSI® Z765) (ANSI Standard) for measuring the subject property, and floor plans are in the table below.

When ANSI compliant measurement is required, the ANSI Standard that is current as of appraisal report effective date must be utilized for measuring, calculating, and reporting areas outlined in Section 5604.2(a)(ii)(B).

Property type	Appraisal form	Inspection or data collection type	Building sketch and measurement requirements	Floor plan requirements
1-unit property, including: <ul style="list-style-type: none">■ PUD■ With an ADU■ Detached Condominium Units, if appraiser includes information about the Condominium Project and its condition	Form 70	Interior/ exterior	<ul style="list-style-type: none">■ Building sketch required■ ANSI compliant measurement required³	Required when atypical ¹

2 to 4 unit, including 2 or 3 unit with ADU	Form 72	Interior/ exterior	<ul style="list-style-type: none"> ■ Building sketch required and must include: <ul style="list-style-type: none"> <input type="checkbox"/> square feet of living area per unit and <input type="checkbox"/> gross building area ■ ANSI compliant measurement not required² 	Floor plan required for each unit
Coop Loan, including: <ul style="list-style-type: none"> ■ Attached Units ■ Detached Units 	<u>Fannie Mae Form 2090</u>	Interior/ exterior	<ul style="list-style-type: none"> ■ Building sketch required ■ ANSI compliant measurement required^{2,3} 	Required when atypical ¹
Any, as required by the original appraisal	Form 442	As required for assignment	<ul style="list-style-type: none"> ■ Not required 	Not required

¹ Required if the subject property is atypical or functional obsolete such that its market appeal is limited in comparison with competitive properties in the market area.

² Not required for a Condominium Unit or a Cooperative Unit in a garden, mid-rise or high-rise building or for 2- to 4-unit properties. Instead, the appraiser may measure the unit or building(s) or rely on the dimensions and estimates of square footage as shown on the plat, exhibits of Project Documents, floor plans or individual unit plats that include the dimensions and calculations.

³ When sketching or 3D scanning software is used, the resulting output must also conform to the ANSI Standard.

(B) Measurement terminology and appraisal reporting

The table below lists the terms that must be used for areas measured and calculated using the ANSI Standard and identifies where those identified areas are reported on the appraisal report forms.

Terms	Description	Appraisal Reporting Requirements
