Finished area	<p>Finished above-grade area as defined by the ANSI Standard.</p>	<p>Used for calculating and reporting living area.</p> <p>Rooms in the finished area must be included in the above-grade room count.</p> <p>This area must be reported on the appraisal report on all Gross Living Area fields, including the Improvements Section, Sales Comparison Approach Section and Cost Approach Section, as applicable.</p>
Non-standard finished area (NSFA)	<p>Finished above-grade area that does not meet the ANSI Standard for finished area.</p> <p>An example of NSFA is area that does not meet the ANSI Standard by having a minimum ceiling height of seven feet.</p>	<p>This area must be reported on the appraisal report on the first blank line of the Sales Comparison Approach adjustment grid, when applicable.</p> <p>Rooms located in NSFA must be included in the room counts (Total Rooms, Bedrooms, Bath(s)) in the Improvement section and in the Sales Comparison Approach grid of the appraisal report to comply with Uniform Appraisal Dataset requirements, when applicable.</p> <p>The FEATURE column of the Sales Comparison Approach Grid must include “NSFA” when used to report non-standard finished area.</p> <p>There must be no other entries on this Sales Comparison Approach row when it is used to report NSFA.</p>

Terms	Description	Appraisal Reporting Requirements
Below grade/basement area, finished and unfinished area	<p>The ANSI Standard considers a level to be below-grade if any portion of it is below-grade, regardless of the quality of finish or the window area of any room. Therefore, any below-grade area, irrespective of whether the basement has finished area, would not be included in the above-grade finished area or room count.</p>	<p>Below-grade finished and unfinished areas and rooms, must be reported on the Basement & Finished Rooms Below Grade lines of the Sales Comparison Approach adjustment grid, when applicable.</p>
Above-grade unfinished area (UA)	<p>Above-grade area that is accessible from the interior finished area of the dwelling and does not meet the ANSI definition of finished area or non-standard finished area.</p> <p>An example of UA is an unfinished/storage area over an attached garage that is accessed from the hallway of the second floor of the dwelling.</p>	<p>These features and their associated finished and unfinished areas should be reported on the Additional Features field on page 1 of the appraisal report, and adjusted for in the Sales Comparison Approach grid, as appropriate.</p>
Attached and detached ADUs	<p>ADU finished and unfinished areas, as defined by the ANSI Standard, must be measured and calculated using the ANSI Standard.</p>	<p>Measured areas must be reported separately from the primary dwelling's measured areas.</p>
Detached structures	<p>Detached structures are independent of the Primary Residence.</p>	

(C) ANSI adherence and declarations

If adherence to the ANSI Standard is not possible the appraisal report must include:

- The identifier “GXX001-“ at the beginning of the Additional Features field,
- An explanation that addresses the lack of adherence, and
- One of the ANSI prescribed declarations that address departure from the Standard.

Examples that would require the use of an ANSI departure declaration include:

- Dwelling measurements are made without an interior inspection
- The area calculations for a proposed dwelling are based on plans and specifications
- Direct physical measurement of the dwelling dimensions is not possible

(iii) Location map

The location map must identify the location of the subject property and any comparables including sale, rental and listing comparables as applicable.

(b) Exhibits required for appraisals with interior and exterior inspections (Forms 70, 70B, 72 and 465 and Fannie Mae Form 2090)

The following exhibits that meet the requirements in Section 5604.2(a) are required for appraisal reports with interior and exterior inspections:

(i) Photographs of the subject property

The appraisal report must include at least the following:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property

- The main living area of the subject property

The appraisal must include additional photographs, as needed, to show any physical deterioration, improvements, amenities, conditions and external influences that materially impact market value or marketability.

(ii) Photographs of comparable sales

The appraisal report must include at least one clear photograph that shows the front of each comparable sale.

The appraisal must include additional photographs, as needed, to show the improvements, amenities or external influences that materially impact market value or marketability.

(iii) Building sketch and floor plan

The appraisal report must include a building sketch and floor plan that meets the requirements in Section 5604.2(a).

(iv) Location map

The appraisal report must include a location map that meets the requirements in Section 5604.2(a).

(c) Exhibits required for desktop appraisal (Form 70D)

A desktop appraisal report must include the following:

(i) Photographs of the subject property

The appraisal report must include at least the following:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property
- The main living area of the subject property

(ii) Photographs of comparable sales

The appraisal report must include at least one clear photograph that shows the front of each comparable sale.

(iii) Building sketch and floor plan

The appraisal report must include a building sketch and floor plan that meets the requirements in Section 5604.2(a).

(iv) Location map

The appraisal report must include a location map that meets the requirements in Section 5604.2(a).

(d) Exhibits required for appraisals with exterior-only inspections (Forms 466 and 2055)

An appraisal report based on an exterior-only inspection must include all the following that meet the requirements of Section 5604.2(a):

- At least one photograph that shows the front view of the subject property
- Location map

(e) Exhibits required for appraisal updates (Form 442)

If the photographs in the original appraisal report represent the subject property accurately, new photographs of the subject property are not required.

Photographs of any factors that affect the value, condition or marketability of the subject property should be provided if not already part of the original appraisal report.

(f) Exhibits required for completion reports (Forms 442 and 400)

The completion report must include at least the following photographs:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property

- The main living area of the subject property
- For a Manufactured Home, the HUD Data Plate, HUD Certification Label(s) and CHOICEHome® notice, if applicable

The completion report must include additional photographs, as needed, to show items identified as subject to completion in the original appraisal report are now complete.

If the photographs in the original appraisal report represent the subject property's completion accurately, new photographs of the subject property are not required.

(g) Other necessary exhibits and addenda for appraisal reports

The appraiser must provide any additional information or data that is needed to provide the lender/client with an accurate and adequately supported appraisal. The Seller may request that the appraiser provide additional exhibits or addenda as part of the appraisal scope of work. Any exhibit or addenda must be incorporated into the appraisal.

5604.3: Age of appraisal reports, appraisal update requirements and re-use of an appraisal report for a subsequent transaction (05/03/23)

(a) Age of appraisal reports and appraisal update requirements

(i) Acceptable age of appraisal reports

- With the exception of desktop appraisals, if the effective date of the appraisal report is more than 120 days, but not more than 12 months before the Note Date, an appraisal update is required. The effective date of an appraisal update must be no more than 120 days before the Note Date.

For the purpose of Section 5604.3(a), the Note Date is equivalent to the Effective Date of Permanent Financing when the Mortgage is sold to Freddie Mac as a Construction Conversion or Renovation Mortgage.

- If the effective date of the appraisal report is more than 12 months before the Note Date, a new appraisal with an interior and exterior inspection is required
- For desktop appraisals, if the effective date of the appraisal report is more than 120 days before the Note Date, a new desktop appraisal is required

(ii) Appraisal update reporting requirements

Appraisal updates must be reported on Form 442, Appraisal Update and/or Completion Report.

- If the update indicates that the value of the subject property has not declined, a new appraisal is not required
- If the update indicates that the value of the subject property has declined, the Seller must obtain a new appraisal, based on either:
 - An exterior-only inspection reported on the appropriate Freddie Mac form for the property type (Form 2055 or 466, as applicable), or
 - An interior and exterior inspection reported on the appropriate Freddie Mac form for the property type (Form 70, 70B, 72 or 465, or **Fannie Mae Form 2090**, as applicable)

The original appraiser should perform the appraisal update. If the original appraiser is not available to perform the update, another appraiser may be used. Freddie Mac will accept an appraisal update performed by an unlicensed or trainee (or similar classification) appraiser if a supervisory appraiser signs the appraisal update.

See Section 5604.2(d) for appraisal update exhibit requirements.

(iii) Appraisal requirements for Settlement Dates more than 120 days after the Note Date

If the Settlement Date is more than 120 days after the Note Date, the Seller must warrant the value of the subject property at the time of the Settlement Date is not less than the appraised value as of the effective date of the appraisal.

(b) Re-use of an appraisal report for a subsequent transaction

When an appraisal is required for a subsequent transaction secured by the Mortgaged Premises, the original appraisal report may be re-used if the following requirements are met:

- (i)** The Borrowers on the new transaction must be the Borrowers on the original transaction. The only exception is in the event of a divorce or legal separation. The Borrower for the new transaction must be one of the Borrowers on the original transaction, and the file must document that the Borrower for the new transaction obtained the property through a divorce or legal separation.
- (ii)** Since the effective date of the original appraisal report, the Mortgaged Premises must not have undergone any substantial rehabilitation or renovation or have been affected by disaster to the extent that the improvement or deterioration of the property would affect the value, condition or marketability
- (iii)** The new transaction must be a “no cash-out” refinance

- (iv) The appraisal report from the original transaction must meet all of the following requirements:
- The effective date of the appraisal report must not be more than 12 months prior to the Note Date of the subsequent transaction. When the effective date of the appraisal is more than 120 days prior to the Note Date of the subsequent transaction, an appraisal update is required. The appraisal update must meet all requirements in Section 5604.3(a) and reflect the current Borrower(s) and lender/client.

The lender/client is the Seller or a third party specifically authorized by the Seller of the original transaction valuation of the Mortgaged Premises.

5604.4: Obtaining subsequent appraisal reports and reconciling multiple opinions of market value (03/31/22)

(a) Reviewing appraisal reports

The Seller is required to evaluate an appraisal report to determine whether or not it meets the requirements of this topic and the Seller's other Purchase Documents, and that the opinion of market value is accurate and adequately supported.

Before rejecting an appraisal report, the Seller should request the appraiser to provide additional information and/or address any deficiencies with the appraisal report. If the appraiser does not adequately address the Seller's concerns and the Seller is unable to conclude that the appraisal report meets Freddie Mac requirements, then the appraisal must be rejected and a new appraisal must be obtained.

(b) Obtaining subsequent appraisal reports, appraisal desk review reports and appraisal field review reports

Exhibit 35, Appraiser Independence Requirements, (AIR) permits the Seller to obtain a second or subsequent appraisal (which may include an appraisal desk review or field review) if:

- There is a reasonable basis to believe that the initial appraisal was flawed or tainted and such basis is clearly and appropriately noted in the Mortgage file
- The appraisal is obtained pursuant to written, pre-established bona fide pre- or post-funding appraisal review or quality control processes or underwriting guidelines as long as the Seller adheres to a policy of selecting the most reliable appraisal, rather than the appraisal that states the highest value; or

- It is required by law

(c) Reconciling multiple opinions of market value

If the initial appraisal report was not rejected and a second or subsequent appraisal report, appraisal desk review report or an appraisal field review report is obtained in compliance with the requirements of this chapter, the Seller's other Purchase Documents and the AIR, the Seller must determine which of the opinions of market value is the most accurate.

The Seller must comply with the AIR and adhere to a policy of selecting the most reliable appraisal, rather than the appraisal that states the highest value. The Seller's appraisal review and reconciliation process must result in the Seller relying on the most accurate and adequately supported opinion of market value.

A copy of all valuation documents used in the analysis as well as written documentation justifying the decision as to which appraisal (or appraisal desk or field review) report was used to underwrite the Mortgage must be retained in the Mortgage file.

The value used to underwrite the Mortgage is the basis for the Seller's value warranty and is the value that must be provided to Freddie Mac as part of the delivery data. As identified in Section 5606.2, if the appraisal used to underwrite the Mortgage is able to be submitted to the Uniform Collateral Data Portal® (UCDP®), the appraisal must be submitted to the UCDP and receive a "Successful" status prior to delivery of the Mortgage. If an appraisal desk or field review is used to underwrite the Mortgage, it must be retained in the Mortgage file.

Chapter 5605: Appraisal Requirements

5605.1: Appraisal report requirements, property description and analysis (03/31/22)

Freddie Mac requires that the Seller obtain an appraisal report that accurately reflects the market value, condition and marketability of the property.

Freddie Mac's requirements relating to the appraisal report (including the certifications) convey our expectations for the property valuation and appraisal reporting processes, the appraiser's accountability for the quality of his or her appraisal report, and the appraiser's compliance with both the Uniform Standards of Professional Appraisal Practice (USPAP) and Freddie Mac's requirements. Freddie Mac's requirements are supplemental to those of USPAP. See Section 5604.1 for more information on appraisal report forms and Section 5605.8 for appraisal completion certification requirements.

The appraiser's description of the subject property must be complete and accurate, and the opinion of the market value of the subject property must be accurate and adequately supported. In addition, the appraiser must have knowledge and experience appraising in the market area in which the property is located. This is particularly important when the property is located in a rural area because there are often a variety of different property types and land uses, which may result in a more challenging appraisal assignment.

The appraisal report forms require the appraiser to certify that the appraiser did not base, either partially or completely, their analysis and/or opinion of market value in the appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.

These sections are intended to provide the Seller with information for reviewing the appraisal report and underwriting the property and are organized in the general order that the information is addressed on appraisal reports.

5605.2: Definition of market value (03/31/22)

Definition of market value

An appraisal must be based on the following definition of market value:

The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus.

Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

1. Buyer and seller are typically motivated
2. Both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest
3. A reasonable time is allowed for exposure in the open market
4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto, and
5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third-party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar-for-dollar cost of the financing or concession, but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

The market value estimate of the subject property must not include value assigned to furniture or any other personal property.

5605.3: Subject property, contract and neighborhood description (03/31/22)

(a) Identification of subject property address, legal description, occupancy status, property rights, listing information and lender/client

(i) Subject property address and owner of record

The “Subject” section of the appraisal report must identify the subject property by providing a complete property address and legal description, and by identifying the

owner of public record for the property. For appraisal reports that are required to be completed using the Uniform Appraisal Dataset (UAD), the format of the property address must conform to the United States Postal Service (USPS) Address Standards in Publication 28. (Refer to Section 5606.1.)

(ii) Legal description

For each Mortgage purchased by Freddie Mac, the appraisal report must identify the subject property by providing the legal description. If a legal description is lengthy, the appraiser may attach it as an addendum to the report and for each Mortgage purchased by Freddie Mac, the legal description as stated in the Security Instrument and title insurance policy or other evidence of title must be in one of the following forms:

(A) Metes and bounds

A metes and bounds description should comply with the following standards:

- The beginning point should be established by a monument located at the beginning point or by reference to a nearby monument
- The sides of the Mortgaged Premises must be described by the distances and bearings of each. In place of bearings, the interior angle method is acceptable if the beginning point is on a dedicated public street line or a fixed line on other property, or if the course of the first side can be otherwise properly fixed.
- The distances, bearings and angles should be taken from a recent instrument survey or recently recertified instrument survey by a licensed civil engineer or registered surveyor
- Curved courses should be described by data including the length of arc, the radius of circle for the arc and the chord distance and bearing. When a survey course is part of a dedicated public street or road line, the course may be described by indicating the distance and direction the course takes along the street line from the end of the previous course, if commonly accepted by private institutional Mortgage investors in the area where the Mortgaged Premises is located.
- The legal description should be a single perimeter description of the entire plot. Division into parcels must be avoided unless serving a special purpose of the Mortgage. Division is necessary, however, if the plot is located on two sides of a public way. It is also customary in many areas to describe an easement appurtenant to a fee parcel by using a separate parcel description.

(B) Lot and block

A description composed of lots and/or blocks including a reference to a recorded map or plat that shows the lots or blocks is usually adequate.

When all of the lots or blocks in the description do not appear on the same recorded map or plat; however, a reference to the location of the apparently identical sides of lots or blocks in different recorded maps or plats, fixed in both maps or plats by the same monuments (a rare situation) is usually adequate.

(C) Additional acceptable forms

Although encountered in only a few cases, a description of a parcel bounded on all sides by dedicated streets or alleys can acceptably refer only to the bounding lines of the streets or alleys.

A description of registered property is acceptable if in the form required by the local Torrens Act.

(D) Consistency of legal description

The Mortgage, title insurance policy (or substitute evidence of title), survey, lease, mortgage insurance policy, property insurance policies and all other documents pertaining to the Mortgage or the Mortgaged Premises must each have a legal description consistent with that in the other documents.

(iii) Occupancy status, property rights and listing information

The occupancy status of the property must be identified as either owner, tenant or vacant as of the effective date of the appraisal. The property rights appraised must be reported as either fee simple or leasehold, and the report also must indicate whether the property is currently offered for sale or was offered for sale within the 12 months prior to the effective date of the appraisal. The appraisal report must also state the data source(s) used, offering price(s), date(s) and the days on market for the subject property.

(iv) Lender/client identification

The appraisal report must include the name of the lender on the lender/client line. Any applicable appraisal management company should be reported in the appraiser's certification section of the appraisal report form.

(b) Contract analysis

Freddie Mac requires the contract for sale to include the sale or contract price, date of contract and loan charges to be paid by the property seller, and the financing and sales concessions to be paid by the property seller or any other interested party to the transaction.

The Seller is responsible for the appraiser being provided the complete contract for sale for the subject property with the appraisal request regardless of whether the appraisal is ordered by the Seller or another lender.

The “Contract” section of the appraisal report must include the results of the appraiser’s analysis of the contract for sale, the contract price, the date of contract and to acknowledge if the property seller is the owner of public record, and the data source(s) used. The appraiser must have the necessary and appropriate data sources for the area in which the subject property is located. The appraisal report must also include the total dollar amount and description of any financial assistance (loan charges, sales concessions, gift or downpayment assistance, etc.) to be paid by any party on behalf of the Borrower.

For appraisal reports that are required to be completed using the UAD, the “Contract” section of the appraisal report must also indicate the type of sale for the transaction. Valid UAD sale types include REO sale, short sale, court ordered sale, estate sale, relocation sale, non-arms length sale and arms length sale. (Refer to Section 5606.1.)

(c) Neighborhood description and analysis

The “Neighborhood” section of the appraisal report requires the appraiser to: identify the neighborhood boundaries; describe the neighborhood characteristics as either “Urban,” “Suburban” or “Rural”; describe the percent built-up as either “Over 75%,” “25-75%” or “Under 25%”; describe the growth rate as either “Rapid,” “Stable” or “Slow”; and to report on market conditions, one-unit housing trends, price and age ranges and present land uses for the properties in the neighborhood.

Mortgages secured by residential properties in urban, suburban and rural market areas are eligible for delivery to Freddie Mac as long as the Mortgaged Premises is adequate collateral for the transaction based on the value, condition and marketability of the property. Market conditions and neighborhood or market area characteristics vary based on property location.

Freddie Mac will purchase eligible Mortgages in all markets whether market values are increasing, stable, or declining. The appraiser must perform an analysis of listings and contract sales in addition to closed sales to determine the trend of neighborhood property values and marketing times. Appraisers must pay particular attention to the use of sales or financing concessions in a neighborhood or market area as they may be an indication of over-supply, extended marketing times, and declining market values. The appraiser must include an explanation of their conclusions in the appraisal report.

Neighborhood or market area characteristics that are typical in certain locations may not exist in other locations; therefore, they must be viewed in the context of the location of the property.

For example:

Urban locations often consist of a variety of different property types that have different uses. It is not unusual to find properties with mixed-uses such as residential properties that also have a commercial use in urban neighborhoods. Additionally, rural locations may have agricultural zoning and/or consist of a variety of different property types and land uses, such as large sites with an outbuilding(s), farms, ranches and undeveloped land, etc.

A mixed-use property or the existence of non-residential property types or land uses such as agricultural properties, undeveloped land and land development properties within the neighborhood or market area are characteristics that the appraiser considers when performing the neighborhood or market area analysis. These non-residential properties or land uses in the neighborhood or market area do not make the residential properties in those locations ineligible. For example, a property located in a rural area where agricultural activities are prevalent may be eligible if it is determined the subject property is residential based on the subject property's characteristics and land use.

5605.4: Site and location analysis (06/01/22)

(a) Property characteristics

The “Site” section of the appraisal report must accurately describe the physical characteristics of the site, site improvements, site view and available utilities, and must fully analyze any locational factors affecting the site.

(i) Zoning

The appraisal report must accurately state:

- The zoning classification
- A description of the zoning classification
- Whether the land use of the subject property represents a legal, legal non-conforming (commonly referred to as grandfathered use), illegal use, or if there is no zoning

(A) Eligible zoning classification

Freddie Mac does not limit Mortgage purchases to Mortgages secured by properties with specific zoning classifications. However, the subject property's zoning classification is an important characteristic to consider when determining whether the Mortgage is eligible for sale to Freddie Mac. For example, if a property is zoned for agricultural use, the Seller must ensure that the property is residential in nature, its residential use is a permissible use under the zoning classification and its use does not primarily involve commercial activities such as farming or ranching.

(B) Eligible zoning compliance

The Mortgaged Premises must conform to the jurisdiction's zoning and land use requirements. The zoning compliance must be either legal or legal non-conforming; however, if a 1-unit property has an ADU that does not comply with the jurisdiction's zoning and land use requirements (illegal zoning compliance), the Mortgaged Premises may be eligible if the requirements of Section 5601.2 are met. Additionally, the zoning compliance for a 2- or 3-unit property with an ADU must be either legal or legal non-conforming. Mortgaged Premises that are located in jurisdictions with no zoning are acceptable.

For Mortgaged Premises with a land use that is legal non-conforming, the appraisal report must reflect any adverse effect the non-conforming use has on the opinion of market value.

A Mortgage is ineligible for sale to Freddie Mac if the Mortgage is secured by property that is subject to coastal tideland, wetland or setback laws and/or regulations that prevent the rebuilding or maintenance of the property improvements if they are damaged or destroyed.

(ii) Highest and best use

For the Mortgage to be eligible for sale to Freddie Mac, the appraiser must report that the Mortgaged Premises' present use represents the highest and best use of the property as improved (or as proposed per plans and specifications).

(iii) Utilities

The utilities serving the subject property must meet community standards. In addition, the comparable sales should have utilities similar to the subject property. When differences in utilities exist between the subject property and the comparable sales, any adjustments or lack of adjustments made to the comparable sales for significant differences must be explained in the comments area or on an attached addendum. In addition, the appraisal must evaluate the effect these differences have on the subject property's value or marketability.

(iv) Streets

The subject property must have legal ingress and egress by streets constructed and maintained in a manner that meets community standards. Refer to Section 4702.4(e) for requirements related to access provided by a private road, joint-driveway or easement.

The appraiser should use comparable sales with street access, ownership, maintenance and materials similar to the subject property. When differences in street access, ownership, maintenance or materials exist between the subject property and a

comparable sale, the appraiser must justify and support adjustments, or lack of adjustments, made to the comparable sale. The appraiser should evaluate and explain the effect these differences have on the subject property's value or marketability.

(v) Site size

Freddie Mac does not limit Mortgage purchases based on the size of the site. The appraiser must appraise the entire site. In addition, the comparable sales should have similar site sizes. When differences in site size exist between the subject property and the comparable sales, any adjustments or lack of adjustments made to the comparable sales for significant differences must be explained in the comments area or on an attached addendum, and the appraiser must explain the effect these differences have on the subject property's value or marketability. See Section 5601.6.

(vi) Flood hazard area

The appraiser is not required to complete this section if the flood zone is determined by another party, such as a non-appraiser on the staff of the Seller, a surveyor or a specialized flood zone determination company.

If the property is in a “Special Flood Hazard Area” (SFHA) as identified by the Federal Emergency Management Agency (FEMA) through the National Flood Insurance Program (NFIP), the appraiser must comment on and consider any impacts this has on the subject property's market value or marketability.

See Section 4703.3 for flood zone determination and flood insurance requirements.

(b) Environmental issues and detrimental conditions

(i) Impact of Contaminated Sites, Hazardous Substances and other adverse conditions

The appraiser must consider any known environmental issues such as Contaminated Sites or Hazardous Substances and other adverse conditions that affect the property or the neighborhood in which the property is located. The appraiser must also report the presence of Contaminated Sites or Hazardous Substances and other adverse conditions, and make appropriate adjustments to reflect any impact on market value, and comment on any effect on the marketability of the subject property.

Examples of matters about which the appraiser must note and comment include but are not limited to:

- Any presence of asbestos, urea-formaldehyde or any similar insulation in the dwelling
- Proximity of the property and/or its neighborhood to a Contaminated Site

- Proximity of the property to ground water contamination, chemical or petroleum spills or other Hazardous Substances that are expected to impact the area for more than one year
- Proximity of the property to areas that may affect the value or marketability of the property including, but not limited to, the following:
 1. Industrial sites
 2. Waste or water treatment facilities
 3. Commercial establishments (other than retail establishments that serve the residential neighborhood)
 4. Airport approach paths
 5. Floodplains
 6. Landslide areas

(ii) Detrimental conditions

The appraiser must note the presence of detrimental conditions, such as expansive soils, underground mines or subsidence in the immediate area of the subject property. In addition, the appraiser must note any evidence of dampness, infestation or abnormal settlement observed in the subject property and call for correction of the observed condition or professional inspections to determine the seriousness of the condition. The appraiser must also consider the effect of such conditions in estimating the subject property's market value and/or any effect on marketability.

For any appraisal that is made subject to inspections or conditions due to detrimental conditions, the Seller must include in the Mortgage file evidence of corrective action as called for by the inspector or appraiser. The evidence of the corrective action must meet Freddie Mac requirements. (See Section 5605.8 for requirements for final inspection and the completion report.)

5605.5: Improvements analysis (04/06/22)

(a) Property condition and quality of construction

The appraisal report must contain an accurate description of the improvements and describe any factors that may affect the market value or marketability of the subject property. The appraiser is responsible for reporting the condition and quality that best describes the overall condition and quality of the subject property. For appraisal reports that are required to be completed using the Uniform Appraisal Dataset (UAD), the appraiser must utilize the

condition and quality ratings and the level of updating definitions identified in Exhibit 36. For appraisal reports not required to be completed using the UAD, the UAD specifications may be utilized to the extent that they are applicable to the particular appraisal report form.

The condition and quality ratings must be based on a holistic view of the property and any improvements. When selecting the condition and quality ratings, an appraiser must:

- Consider all improvements to determine an overall condition and quality rating. The appraiser should then select the rating that best reflects the holistic view of the property. However, if any portion of the improvements has a quality of construction consistent with the Q6 quality rating, the property must be identified with a Q6 quality rating. If any portion of the improvements is impacted by one or more deficiencies that are consistent with a C5 or C6 condition rating, the property must be identified with a C5 or C6 condition rating.
- Describe the subject property as of the effective date of the appraisal on an absolute basis, meaning the property must be rated on its own merits. The rating should not be selected on a relative basis, meaning it is not selected on how the property relates or compares to other properties in the neighborhood. The condition and quality ratings for comparable properties must also be made on an absolute basis and reflect the property as of the date of sale of the comparable property.
- As necessary, provide additional commentary, descriptions and explanations to enable the intended users of the appraisal to understand the property condition and quality

(i) Properties with a Q6 quality rating

Unless otherwise noted below, a Mortgaged Premises with an overall quality rating of Q6 is not acceptable collateral to secure a Mortgage sold to Freddie Mac unless all issues that caused the property to be rated with a Q6 quality rating are cured prior to delivery of the Mortgage. In such cases, the appraisal must be completed “subject to” and the reported quality rating must reflect the hypothetical condition that the repairs or alterations have been completed. See Section 5605.8 for additional information related to appraisals completed “subject to” completion, repairs or alterations, or an inspection.

Examples of conditions indicating the property has a Q6 quality rating and as a result has conditions that must be cured include, but are not limited to:

- Quality such that the property is not habitable as a year-round residence
- Minimal or non-existent electrical, plumbing, and/or other mechanical systems
- Substandard additions to the original structure, or
- Any other quality related items needed to make the Mortgaged Premises acceptable to typical purchasers in the market area in which the property is located

For CHOICERenovation® Mortgages delivered pursuant to Section 4607.1(b), all issues that caused the property to be rated with a Q6 quality rating may be cured after delivery to Freddie Mac, provided these issues are cured as part of the completed renovations and such renovations are considered eligible renovations as described in Section 4607.6.

(ii) Properties with a C5 or C6 condition rating

Unless otherwise noted as below, a Mortgaged Premises with an overall condition rating of C5 or C6 is not acceptable collateral to secure a Mortgage sold to Freddie Mac unless all issues that caused the property to be rated with a C5 or C6 condition rating are cured prior to delivery of the Mortgage. In such cases, the appraisal must be completed “subject to” and the reported condition rating must reflect the hypothetical condition that the repairs or alterations have been completed. See Section 5605.8 for additional information related to appraisals completed “subject to” completion, repairs or alterations, or an inspection.

Examples of deficiencies identified by the appraiser that indicate the property is in C5 or C6 condition include, but are not limited to:

- Active roof leaks
- Water seepage or significant plumbing leaks
- Uncapped wiring
- Curled, cupped, or missing roof shingles
- Damaged or failing foundations
- A mechanical system where it is apparent it has exceeded its expected life or mechanical systems that are non-functional, or
- A sanitary system with evidence of failure

For CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b), all issues that caused the property to be rated with a C5 or C6 condition rating may be cured after delivery to Freddie Mac, provided these issues are cured as part of the completed renovations and such renovations are considered eligible renovations as described in Section 4607.6.

(iii) Appraisals completed “subject to” an inspection

If an appraiser observes conditions that require further investigation, the appraiser must make the appraisal “subject to” an inspection by an appropriately licensed professional or another person trained in the particular field of concern. Examples of conditions that may require an inspection include, but are not limited to, observations of severe cracks in

foundations or walls, active infestation, significant water damage and/or wet basements or crawl spaces, or a potentially contaminated water source. See Section 5605.8 for additional information related to appraisals completed “subject to” completion, repairs or alterations, or an inspection.

(iv) Existing properties with minor needed repairs or deficiencies or deferred maintenance

Freddie Mac allows an appraisal to be completed “as is” for an existing property when there are minor needed repairs or deficiencies, or deferred maintenance. The appraiser must make appropriate adjustments for these conditions in the appraisal report, when necessary.

Examples of acceptable minor needed repairs or deficiencies, or deferred maintenance items include, but are not limited to:

- Worn floor finishes or coverings
- Minor cracks in windows
- Minor damage to interior walls
- Damaged or missing interior doors
- Damaged or missing window screens or cabinetry doors
- Missing handrails
- Damaged or deteriorating countertops
- Missing hardware such as handles
- Missing light fixtures, electrical switches or faceplates
- Damaged or missing trim
- Minor plumbing leaks that do not cause damage (such as dripping faucets), or
- Deteriorated sidewalks

(b) Required permits

If the appraiser notes that additions or alterations were made without required permits, the appraisal report should also contain comments on the quality and appearance of the work.

(c) Unusual floor plans

An unusual floor plan, such as a home with tandem bedrooms or a bathroom off the kitchen, does not make a property ineligible for financing. The appraiser should address whether an unusual floor plan or similar obsolescence is also found in other properties in the neighborhood, and to the extent possible, comparables used should also have similar obsolescence in order to demonstrate marketability and support value.

(d) Rehabilitated or renovated property

For properties that have recently undergone rehabilitation or renovation, the appraiser must list the changes made and provide photographs of the rehabilitation or renovation. The photographs must meet the requirements of Section 5604.2(a).

(e) Non-conformity to the neighborhood and non-traditional or unique property types

When the subject property does not conform to its neighborhood in terms of type, design, age, materials or techniques used in its construction, the appraisal must evaluate the effect the nonconformance has on the property's value and marketability.

Mortgages secured by non-traditional types of properties are eligible for delivery to Freddie Mac. Examples of non-traditional or unique property types include, but are not limited to, “barndominiums” (barn conversions or barn-style buildings), “shouses” (living-space and work/storage combinations), berm homes, log homes and geodesic dome dwellings. The appraiser must demonstrate that the dwelling type or style is marketable and must ensure the property has an acceptable quality and condition rating. Additional analysis may be required to determine whether the design or style represents a mixed-use configuration. (See Section 5601.5 for mixed-use requirements.)

The appraiser may use traditional homes as comparable sales for non-traditional or unique properties as long as the appraiser determines and adjusts for any differences between the subject property and the comparable sales and can justify and support the use of the comparable sales in the appraisal report.

(f) Outbuildings on a property

Outbuildings on a property, such as barns or stables, must be considered in the underwriting process to determine whether the property is primarily residential or non-residential. A property with a small barn or stable may be acceptable if the contributory value of the outbuilding(s) is minimal in relation to the total appraised value of the subject property. The appraiser must demonstrate in the appraisal (e.g., through the use of comparable sales, pending sales or listings) that these characteristics are typical for residential properties in the market area.

When a property has a large outbuilding, such as a large barn, or silo, or multiple outbuildings or facilities for farm-type animals, it may indicate that the property is

agricultural or non-residential regardless of whether the appraiser assigns value to these improvements, and ineligible as security for a Freddie Mac Mortgage.

5605.6: Sales comparison approach (03/31/22)

Freddie Mac requires the use of the sales comparison approach in the development of the appraisal report.

(a) Adjustments

Each comparable sale must be analyzed for similarities and differences between it and the subject property. When the appraiser's analysis concludes an adjustment is necessary, the appraiser must make an adjustment for differences and indicate the dollar amount of the adjustment to reflect the value of the differences to the market. The appraiser may also need to consider whether the income approach, cost analysis, market surveys or other methods are appropriate for supporting adjustments. The appraiser must provide a sufficient explanation of the basis and rationale for all adjustments (or, if necessary, lack of adjustments) within the appraisal report or addenda.

Comparable sales must be adjusted to the subject property, except for sales and financing concessions that must be adjusted to the market at the time of the sale. Large adjustments typically occur in rural markets, and with unique properties, due to limited market activity. Freddie Mac does not have limitations on gross or net adjustment percentages.

(b) Sales and financing concessions

The appraiser must independently verify and analyze all pending and recent sales of comparable properties, report how the sales were verified and whether concessions were granted. At least three verified, closed (settled) sales of comparable properties must be analyzed and market-based adjustments made for significant differences between the comparable sales and the subject property.

Sales or financing concessions are offered by interested parties to the transaction (e.g., the builder, developer, property seller or real estate agent). Because the effect of concessions on sale prices can vary with the type and amount of the concessions, any adjustments to comparable sales must be based on the market reaction to them. The appraiser should provide comparable sales that sold without concessions to justify and support the adjustments made in determining the market reaction to the concessions. Adjustments may not be based solely on dollar-for-dollar deductions equal to the dollar value of the concessions. If comparable sales without concessions are not available, adjustments to comparable sales with concessions must reflect the differences between what the comparable sales actually sold for with the concessions and what they would have sold for without the concessions.

The appraiser's opinion of market value must reflect the value of the subject property without the concessions. The appraiser must also provide the dollar value of the concessions as a comment in the appraisal report.

For Seller treatment of concessions, see Section 5501.5.

(c) Market condition adjustments

The appraisal report must include time adjustments to reflect any change in market conditions over the period analyzed. This is essential to determine an accurate market value for the subject property. Time adjustments reflect market condition changes from the time a comparable went under contract to the effective date of the subject property appraisal. Adjustments may be either positive or negative and should be supported by comparables that may include listings, contract sales or closed sales. The appraiser must provide an explanation for the use of time adjustments.

(d) Location

For appraisal report forms that are required to be completed using the UAD, the appraisal report form must include a rating of the location of the subject property and each comparable sale by providing a rating of either "Neutral," "Beneficial" or "Adverse." The location rating is for the location of the subject property within the neighborhood or market area and is not a rating for the overall neighborhood or market area. See Appendix D – Field Specific Standardization Requirements of the Uniform Appraisal Dataset Specification ("UAD Specification") for additional requirements regarding location.

The location rating (which will be abbreviated as N, B, or A in the appraisal report form) should describe the overall effect on value and marketability of the location of the property within the neighborhood.

The Seller should be aware that there are varying conditions that characterize different types of locations. Conditions that are typical of certain locations may not be present in other locales. This does not mean that the conditions are unacceptable, rather that they must be viewed in context with the nature of the area in which the Mortgaged Premises is located.

For example: When the Mortgaged Premises is located in a suburban or urban area, the appraiser would most likely use comparable sales in the immediate vicinity of the property since suburban and urban areas are usually more densely developed and comparable sales are typically available in the subject neighborhood.

Rural areas often have less real estate sales activity than more populated locations. Property sales in rural locations often involve a variety of property types and may have relatively large parcels as compared to other locations. Given the potential challenges with appraising properties in these market areas, the appraiser must be knowledgeable about the varying conditions that characterize properties in a particular geographic area. In such cases, appraisers may have to use older comparable sales, comparable sales that are located a

considerable distance from the subject property or comparable sales that are not similar to the subject property. The appraiser must justify and support such use in the appraisal report. For example, if the subject property is a ranch-style home on a large parcel of land (e.g., 44 acres), the most relevant comparable sales may be two-story homes located on smaller parcels (e.g., 6-12 acres) that are located some distance from the subject property (e.g., 8-18 miles away). If an appraiser uses comparable sales such as the ones in this example, he or she must provide a reasonable justification for the use and make appropriate adjustments to account for the differences between the properties and/or location.

(e) View

For appraisal report forms that are required to be completed using the UAD, the overall view associated with the subject property and each comparable sale must be rated as either “Neutral,” “Beneficial” or “Adverse.” The UAD view rating (which will be abbreviated as N, B, or A in the appraisal) should describe the overall effect on value and marketability of the view associated with the property. See Appendix D – Field Specific Standardization Requirements of the UAD Specification for additional requirements regarding view.

Refer to Section 5606.1 for additional information related to the Uniform Appraisal Dataset (UAD) requirements.

(f) Condition and quality

In all appraisals, appropriate adjustments must be made for differences in condition and quality between the subject property and each comparable property to reflect the value, if any, of the differences to the market. Sometimes, it may be appropriate for an appraiser to make an adjustment for differences in quality and condition between the subject property and a comparable property even though the properties have the same UAD quality or condition rating.

Refer to Sections 5605.5 for information related to property condition and quality of construction, 5606.1 for additional information related to the Uniform Appraisal Dataset (UAD) requirements and Exhibit 36.

(g) Selection of comparable sales and analysis

The appraiser must report a minimum of three comparable sales as part of the sales comparison approach. The appraiser may submit more than three comparable sales, including contract sales (pending sales) and/or current listings, to justify and support his or her opinion of market value, as long as at least three are actual closed (settled) sales. Generally, the appraiser should use comparable sales that have been closed within the last 12 months. However, the appraiser may use older comparable sales, as long as the appraiser can justify and support such use in the appraisal report. The appraiser must comment on the reasons for using any comparable sales that are more than six months old.

The proper selection of comparable properties minimizes both the need for, and the size of, any price adjustments. Occasionally, there may be no similar or truly comparable sales for a

particular property because of the uniqueness of the property or other conditions. As a result, additional due diligence on behalf of the appraiser may be necessary. In such cases, the appraiser must use knowledge and judgment to select comparable sales that represent the best indicators of value for the subject property.

Comparable sales may be taken from a competing neighborhood if:

- The appraiser has established that the neighborhoods are comparable and compete for the same buyers, and
- Comparable sales taken from the competing neighborhood are better indicators of current market trends in the subject neighborhood than the existing comparable sales available in the subject neighborhood

(i) Comparable sale requirements for properties in established subdivisions, units in established Planned Unit Developments (PUDs) or units in Established Condominium Projects

For properties located in established subdivisions, units in established PUDs or units in Established Condominium Projects, the appraiser should use comparable sales from within the subject subdivision or project when they are the best indicators of value for the subject property.

See Section 5705.8 for specific requirements regarding selection of comparable sales for units in a Cooperative Project.

(ii) Comparable sale requirements for properties in new subdivisions, units in new PUDs or units in recently converted or New Condominium Projects

To demonstrate the marketability and develop an opinion of market value for units in new subdivisions, units in new PUDs or units in recently converted or New Condominium Projects, the appraiser must comply with the following requirements:

- One comparable sale must be from inside the subject subdivision, PUD or project, when available. Additionally:
 - The comparable sale from inside the subject subdivision, PUD or project can be a sale by the builder or developer of the subject property
 - If there are no closed comparable sales from inside the subject subdivision, PUD or project, contract sales may be used from inside the subject subdivision, PUD or project to satisfy this requirement. However, the use of contract sales must be in addition to the three actual closed sales obtained from outside the subject subdivision, PUD or project.

- In the event the subject subdivision, PUD or project is so new that a closed sale or a contract sale is not available, comparable sales from outside the subject subdivision, PUD or project may be used. However, the appraiser must comment on the marketability of the new subdivision, PUD or project and justify and support the use of the comparable sales from outside the new subdivision, PUD or project.
- One comparable sale must be from outside the subject subdivision, PUD or project, and
- The third comparable sale may be from either inside or outside the subject subdivision, PUD or project

When resales are available from inside the subject subdivision or project, they are preferable and should be given significant consideration as they provide a reliable indicator of the market value of units within the subdivision, PUD or project.

At a minimum, at least two comparable sales must be sales in which the builder or developer of the subject property is not involved in the sale transaction.

See Section 5705.8 for specific requirements regarding selection of comparable sales for units in a Cooperative Project.

(h) Sale and listing history

The appraiser must research, verify, analyze and report:

- Any current agreement for sale for the subject property
- Any offering for sale of the subject property in the twelve months prior to the effective date of the appraisal
- Any prior sales or transfers of the subject property for the three years prior to the effective date of the appraisal
- Any prior sales or transfers of each comparable sale for the year prior to the date of sale of each comparable sale

The Seller's review of the acceptability of each appraisal should include an analysis of the sale and listing history. The Seller must confirm that the sale price trend in relation to the appraiser's opinion of market value is reasonable and representative of the market.

For purchase transactions, the Seller should analyze the appraisal report and the current contract for sale for the subject property.

For both purchase and refinance transactions, the Seller's underwriting analysis of the appraisal report should include any current listing or offering for sale for the subject property, the sales history of the subject property and comparable sales, and the current ownership of the subject property.

To reduce the Seller's risk of liability resulting from fraudulent or inaccurate appraisals, the Seller should analyze the subject property and comparable sales and evaluate the time elapsed between the date(s) the property was acquired, and the date(s) resold, or the date of the current resale contract, if applicable. If the sales history of the subject property or comparable sales indicates current or prior sale prices may be excessive, and resale dates occurred shortly after the property seller's acquisition of the property, the appraisal report should provide evidence to justify and support a rapidly appreciating real estate market, significant improvements that resulted in a corresponding increase in the property value or a previous sale that was below market value due to a distress or tax sale.

5605.6: Sales comparison approach (Future effective date 10/02/23)

Freddie Mac requires the use of the sales comparison approach in the development of the appraisal report.

For special appraisal requirements for HeritageOneSM Mortgages, see Section 4504.9.

(a) Adjustments

Each comparable sale must be analyzed for similarities and differences between it and the subject property. When the appraiser's analysis concludes an adjustment is necessary, the appraiser must make an adjustment for differences and indicate the dollar amount of the adjustment to reflect the value of the differences to the market. The appraiser may also need to consider whether the income approach, cost analysis, market surveys or other methods are appropriate for supporting adjustments. The appraiser must provide a sufficient explanation of the basis and rationale for all adjustments (or, if necessary, lack of adjustments) within the appraisal report or addenda.

Comparable sales must be adjusted to the subject property, except for sales and financing concessions that must be adjusted to the market at the time of the sale. Large adjustments typically occur in rural markets, and with unique properties, due to limited market activity. Freddie Mac does not have limitations on gross or net adjustment percentages.

(b) Sales and financing concessions

The appraiser must independently verify and analyze all pending and recent sales of comparable properties, report how the sales were verified and whether concessions were granted. At least three verified, closed (settled) sales of comparable properties must be

analyzed and market-based adjustments made for significant differences between the comparable sales and the subject property.

Sales or financing concessions are offered by interested parties to the transaction (e.g., the builder, developer, property seller or real estate agent). Because the effect of concessions on sale prices can vary with the type and amount of the concessions, any adjustments to comparable sales must be based on the market reaction to them. The appraiser should provide comparable sales that sold without concessions to justify and support the adjustments made in determining the market reaction to the concessions. Adjustments may not be based solely on dollar-for-dollar deductions equal to the dollar value of the concessions. If comparable sales without concessions are not available, adjustments to comparable sales with concessions must reflect the differences between what the comparable sales actually sold for with the concessions and what they would have sold for without the concessions.

The appraiser's opinion of market value must reflect the value of the subject property without the concessions. The appraiser must also provide the dollar value of the concessions as a comment in the appraisal report.

For Seller treatment of concessions, see Section 5501.5.

(c) Market condition adjustments

The appraisal report must include time adjustments to reflect any change in market conditions over the period analyzed. This is essential to determine an accurate market value for the subject property. Time adjustments reflect market condition changes from the time a comparable went under contract to the effective date of the subject property appraisal. Adjustments may be either positive or negative and should be supported by comparables that may include listings, contract sales or closed sales. The appraiser must provide an explanation for the use of time adjustments.

(d) Location

For appraisal report forms that are required to be completed using the UAD, the appraisal report form must include a rating of the location of the subject property and each comparable sale by providing a rating of either "Neutral," "Beneficial" or "Adverse." The location rating is for the location of the subject property within the neighborhood or market area and is not a rating for the overall neighborhood or market area. See Appendix D – Field Specific Standardization Requirements of the Uniform Appraisal Dataset Specification ("UAD Specification") for additional requirements regarding location.

The location rating (which will be abbreviated as N, B, or A in the appraisal report form) should describe the overall effect on value and marketability of the location of the property within the neighborhood.

The Seller should be aware that there are varying conditions that characterize different types of locations. Conditions that are typical of certain locations may not be present in other

locales. This does not mean that the conditions are unacceptable, rather that they must be viewed in context with the nature of the area in which the Mortgaged Premises is located.

For example: When the Mortgaged Premises is located in a suburban or urban area, the appraiser would most likely use comparable sales in the immediate vicinity of the property since suburban and urban areas are usually more densely developed and comparable sales are typically available in the subject neighborhood.

Rural areas often have less real estate sales activity than more populated locations. Property sales in rural locations often involve a variety of property types and may have relatively large parcels as compared to other locations. Given the potential challenges with appraising properties in these market areas, the appraiser must be knowledgeable about the varying conditions that characterize properties in a particular geographic area. In such cases, appraisers may have to use older comparable sales, comparable sales that are located a considerable distance from the subject property or comparable sales that are not similar to the subject property. The appraiser must justify and support such use in the appraisal report. For example, if the subject property is a ranch-style home on a large parcel of land (e.g., 44 acres), the most relevant comparable sales may be two-story homes located on smaller parcels (e.g., 6-12 acres) that are located some distance from the subject property (e.g., 8-18 miles away). If an appraiser uses comparable sales such as the ones in this example, he or she must provide a reasonable justification for the use and make appropriate adjustments to account for the differences between the properties and/or location.

(e) View

For appraisal report forms that are required to be completed using the UAD, the overall view associated with the subject property and each comparable sale must be rated as either “Neutral,” “Beneficial” or “Adverse.” The UAD view rating (which will be abbreviated as N, B, or A in the appraisal) should describe the overall effect on value and marketability of the view associated with the property. See Appendix D – Field Specific Standardization Requirements of the UAD Specification for additional requirements regarding view.

Refer to Section 5606.1 for additional information related to the Uniform Appraisal Dataset (UAD) requirements.

(f) Condition and quality

In all appraisals, appropriate adjustments must be made for differences in condition and quality between the subject property and each comparable property to reflect the value, if any, of the differences to the market. Sometimes, it may be appropriate for an appraiser to make an adjustment for differences in quality and condition between the subject property and a comparable property even though the properties have the same UAD quality or condition rating.

Refer to Sections 5605.5 for information related to property condition and quality of construction, 5606.1 for additional information related to the Uniform Appraisal Dataset (UAD) requirements and Exhibit 36.

(g) Selection of comparable sales and analysis

The appraiser must report a minimum of three comparable sales as part of the sales comparison approach. The appraiser may submit more than three comparable sales, including contract sales (pending sales) and/or current listings, to justify and support his or her opinion of market value, as long as at least three are actual closed (settled) sales. Generally, the appraiser should use comparable sales that have been closed within the last 12 months. However, the appraiser may use older comparable sales, as long as the appraiser can justify and support such use in the appraisal report. The appraiser must comment on the reasons for using any comparable sales that are more than six months old.

The proper selection of comparable properties minimizes both the need for, and the size of, any price adjustments. Occasionally, there may be no similar or truly comparable sales for a particular property because of the uniqueness of the property or other conditions. As a result, additional due diligence on behalf of the appraiser may be necessary. In such cases, the appraiser must use knowledge and judgment to select comparable sales that represent the best indicators of value for the subject property.

Comparable sales may be taken from a competing neighborhood if:

- The appraiser has established that the neighborhoods are comparable and compete for the same buyers, and
- Comparable sales taken from the competing neighborhood are better indicators of current market trends in the subject neighborhood than the existing comparable sales available in the subject neighborhood

(i) Comparable sale requirements for properties in established subdivisions, units in established Planned Unit Developments (PUDs) or units in Established Condominium Projects

For properties located in established subdivisions, units in established PUDs or units in Established Condominium Projects, the appraiser should use comparable sales from within the subject subdivision or project when they are the best indicators of value for the subject property.

See Section 5705.8 for specific requirements regarding selection of comparable sales for units in a Cooperative Project.

(ii) Comparable sale requirements for properties in new subdivisions, units in new PUDs or units in recently converted or New Condominium Projects

To demonstrate the marketability and develop an opinion of market value for units in new subdivisions, units in new PUDs or units in recently converted or New Condominium Projects, the appraiser must comply with the following requirements:

- One comparable sale must be from inside the subject subdivision, PUD or project, when available. Additionally:
 - The comparable sale from inside the subject subdivision, PUD or project can be a sale by the builder or developer of the subject property
 - If there are no closed comparable sales from inside the subject subdivision, PUD or project, contract sales may be used from inside the subject subdivision, PUD or project to satisfy this requirement. However, the use of contract sales must be in addition to the three actual closed sales obtained from outside the subject subdivision, PUD or project.
 - In the event the subject subdivision, PUD or project is so new that a closed sale or a contract sale is not available, comparable sales from outside the subject subdivision, PUD or project may be used. However, the appraiser must comment on the marketability of the new subdivision, PUD or project and justify and support the use of the comparable sales from outside the new subdivision, PUD or project.
- One comparable sale must be from outside the subject subdivision, PUD or project, and
- The third comparable sale may be from either inside or outside the subject subdivision, PUD or project

When resales are available from inside the subject subdivision or project, they are preferable and should be given significant consideration as they provide a reliable indicator of the market value of units within the subdivision, PUD or project.

At a minimum, at least two comparable sales must be sales in which the builder or developer of the subject property is not involved in the sale transaction.

See Section 5705.8 for specific requirements regarding selection of comparable sales for units in a Cooperative Project.

(h) Sale and listing history

The appraiser must research, verify, analyze and report:

- Any current agreement for sale for the subject property
- Any offering for sale of the subject property in the twelve months prior to the effective date of the appraisal

- Any prior sales or transfers of the subject property for the three years prior to the effective date of the appraisal
- Any prior sales or transfers of each comparable sale for the year prior to the date of sale of each comparable sale

The Seller's review of the acceptability of each appraisal should include an analysis of the sale and listing history. The Seller must confirm that the sale price trend in relation to the appraiser's opinion of market value is reasonable and representative of the market.

For purchase transactions, the Seller should analyze the appraisal report and the current contract for sale for the subject property.

For both purchase and refinance transactions, the Seller's underwriting analysis of the appraisal report should include any current listing or offering for sale for the subject property, the sales history of the subject property and comparable sales, and the current ownership of the subject property.

To reduce the Seller's risk of liability resulting from fraudulent or inaccurate appraisals, the Seller should analyze the subject property and comparable sales and evaluate the time elapsed between the date(s) the property was acquired, and the date(s) resold, or the date of the current resale contract, if applicable. If the sales history of the subject property or comparable sales indicates current or prior sale prices may be excessive, and resale dates occurred shortly after the property seller's acquisition of the property, the appraisal report should provide evidence to justify and support a rapidly appreciating real estate market, significant improvements that resulted in a corresponding increase in the property value or a previous sale that was below market value due to a distress or tax sale.

5605.7: Cost and income approaches, and reconciliation (04/06/22)

(a) Cost approach

The cost approach is required for appraisals of Manufactured Homes. It is not required for all other property types. (See Section 5703.6 for Manufactured Homes requirements.)

The Seller may request the appraiser to develop and report the cost approach when not required for the transaction. The appraiser must develop and report the result of any approach to value that is applicable and necessary for an appraisal, even if the Seller did not request it.

In markets with unique property styles, a lack of comparable sales, or the presence of unique features such as outbuildings, the cost approach can provide support for adjustments made in the sales comparison approach. The cost approach may be appropriate especially when appraising properties that are:

- New or proposed construction
- Under renovation
- Unique because of property features (e.g., outbuildings, stables, pole-barns, or shops)
- Unique because of their styles or construction methods (e.g., barn conversions (“barndominiums”), “shouses” (living-space and work/storage combinations), berm homes, log homes, or geodesic dome dwellings), or
- Not typical for the market area or have functional obsolescence

When the cost approach is developed, the appraiser must make proper adjustments for any items detrimental to stability or marketability, such as physical, functional and external depreciation that are not typical for the market area.

Appraisals that rely solely on the cost approach for the opinion of market value are unacceptable.

Freddie Mac does not require an estimate of remaining economic life.

(b) Income approach

The income approach is required for appraisals of 2- to 4-unit properties. The Seller may request the appraiser to develop and report the income approach when not required for the transaction. The appraiser must develop and report the result of any approach to value that is applicable and necessary for an appraisal, even if the Seller did not request it.

Appraisals that rely solely on the income approach for the opinion of market value are unacceptable.

(c) Reconciliation of data and valuation approaches

The data, valuation approaches and information presented in the appraisal report must justify and support the appraiser’s opinion of market value. The appraiser must explain how the final value conclusion was determined, and the rationale must be consistent with the comments, conclusions and assumptions stated throughout the appraisal report.

The reconciliation must contain any conditions of the appraisal on which the final opinion of market value is based.

If the subject transaction involves sales or financing concessions, the appraiser’s opinion of market value must reflect the value of the subject property without the concessions. The appraiser must also provide the dollar value of the concessions as a comment in the appraisal report.

5605.7: Cost and income approaches, and reconciliation (Future effective date 10/02/23)

(a) Cost approach

The cost approach is required for appraisals of Manufactured Homes. It is not required for all other property types. (See Section 5703.6 for Manufactured Homes requirements.)

The Seller may request the appraiser to develop and report the cost approach when not required for the transaction. The appraiser must develop and report the result of any approach to value that is applicable and necessary for an appraisal, even if the Seller did not request it.

In markets with unique property styles, a lack of comparable sales, or the presence of unique features such as outbuildings, the cost approach can provide support for adjustments made in the sales comparison approach. The cost approach may be appropriate especially when appraising properties that are:

- New or proposed construction
- Under renovation
- Unique because of property features (e.g., outbuildings, stables, pole-barns, or shops)
- Unique because of their styles or construction methods (e.g., barn conversions (“barndominiums”), “shouses” (living-space and work/storage combinations), berm homes, log homes, or geodesic dome dwellings), or
- Not typical for the market area or have functional obsolescence

When the cost approach is developed, the appraiser must make proper adjustments for any items detrimental to stability or marketability, such as physical, functional and external depreciation that are not typical for the market area.

Except for HeritageOneSM Mortgages, appraisals that rely solely on the cost approach for the opinion of market value are unacceptable. For special appraisal requirements for HeritageOne Mortgages, see Section 4504.9.

Freddie Mac does not require an estimate of remaining economic life.

(b) Income approach

The income approach is required for appraisals of 2- to 4-unit properties. The Seller may request the appraiser to develop and report the income approach when not required for the transaction. The appraiser must develop and report the result of any approach to value that is applicable and necessary for an appraisal, even if the Seller did not request it.

Appraisals that rely solely on the income approach for the opinion of market value are unacceptable.

(c) Reconciliation of data and valuation approaches

The data, valuation approaches and information presented in the appraisal report must justify and support the appraiser's opinion of market value. The appraiser must explain how the final value conclusion was determined, and the rationale must be consistent with the comments, conclusions and assumptions stated throughout the appraisal report.

The reconciliation must contain any conditions of the appraisal on which the final opinion of market value is based.

If the subject transaction involves sales or financing concessions, the appraiser's opinion of market value must reflect the value of the subject property without the concessions. The appraiser must also provide the dollar value of the concessions as a comment in the appraisal report.

5605.8: Appraisals completed subject to completion, repairs or alterations, or an inspection (04/05/23)

(a) Appraisals made subject to completion per plans and specifications

For appraisals for new or proposed construction that are made subject to completion per plans and specifications, Freddie Mac will accept one of the following completion reports to verify the completion of the property:

- Form 442, Appraisal Update and/or Completion Report, provided by an appraiser documenting that the property has been completed. Freddie Mac will accept a completion report performed by an unlicensed or trainee (or similar classification) appraiser if a supervisory appraiser signs the completion report. The completion report must be:
 - Dated before the Settlement Date unless the requirements for incomplete improvements or GreenCHOICE Mortgages® or CHOICERenovation® Mortgages, as described in Sections 5601.3, 4606.4(a) and 4607.9, respectively, have been met.
 - Retained in the Mortgage file
- Form 400, Warranty of Completion of Construction, or other substantially similar form, provided by the Seller and signed by the Borrower(s) and the builder confirming that the property has been completed as appraised. By providing this completion report, the Seller represents and warrants that the property has been completed in accordance with the plans and specifications and that there were no material or significant changes to the

plans and specifications after completion of the appraisal report. The completion report must:

- ❑ Be dated before the Settlement Date unless requirements for incomplete improvements have been met, as described in Section 5601.3
- ❑ Not be used for GreenCHOICE Mortgages or CHOICERenovation Mortgages
- ❑ Be retained in the Mortgage file

The following photographs indicating completion must be included with Forms 442 and 400, if not already part of the original appraisal report:

- A front view of the subject property
- A rear view of the subject property
- A street scene identifying the location of the subject property and showing neighboring improvements
- The kitchen of the subject property
- All bathrooms of the subject property
- The main living area of the subject property
- For a Manufactured Home, the HUD Data Plate, HUD Certification Label(s) and CHOICEHome® notice, if applicable

(b) Appraisals made subject to repairs or alterations

For appraisals that are made subject to repairs or alterations, an appraiser must perform the final inspection of the property and provide Form 442 documenting that the property has been completed. Freddie Mac will accept a completion report performed by an unlicensed or trainee (or similar classification) appraiser if a supervisory appraiser signs the completion report. The completion report must:

- Be documented on Form 442
- Include photographs of the completed items
- Be dated before the Settlement Date unless requirements for GreenCHOICE Mortgages or CHOICERenovation Mortgages have been met, as described in Sections 4606.4(a) and 4607.9, respectively
- Be retained in the Mortgage file

(c) Appraisals made subject to an inspection of the property

For appraisals that are made subject to an inspection of the property, a licensed professional or another person trained in the particular field of concern (e.g., structural engineer, plumber, pest inspector, etc.) must perform the inspection of the property.

The inspector must provide either:

- A report stating that a repair(s) is not required, or
- A signed report or invoice stating that the repair has been completed and the issue corrected. The report or invoice must provide the professional's license number when available.

The report or invoice must be:

- Dated before the Settlement Date
- Retained in the Mortgage file

5605.9: Special property appraisal requirements (04/06/22)

(a) 2- to 4-unit properties

In addition to the other requirements and guidelines set forth in this topic, the following requirements and guidelines are applicable to completing Form 72, Small Residential Income Property Appraisal Report, for 2- to 4-unit properties.

(i) Comparable rent data for 2- to 4-unit properties

At least three rental comparables must be analyzed in the "comparable rental data" section. These rental comparables must:

- Have current rental information
- Be units similar to and located near the subject property

The appraisal report should state that the units and properties selected as rental comparables are comparable to the subject property (both the units and the overall property) and should accurately represent the rental market for the subject property unless otherwise stated in the report.

(ii) Subject's rent schedule for 2- to 4-unit properties

This section contains the subject property's current actual rents and the estimated market rents. The estimated market rents for the subject property must be supported in the appraisal report and be consistent with the data presented throughout the report.

(iii) Sales comparison approach for 2- to 4-unit properties

In addition to the other requirements in this topic, the appraisal must contain the unadjusted units of comparison for the comparable sales. If the appraisal is prepared in conjunction with a purchase transaction, the units of comparison must be provided for the subject property as well. These units of comparison are the sales price per square foot of gross building area (GBA), per unit and per room and the gross rent multiplier (GRM). The comment area of the sales comparison analysis must reconcile the adjusted sales prices of the comparable sales and the unadjusted units of comparison, as appropriate, according to the manner in which such properties sell in the defined market area.

The appraiser must indicate in the comments area which factors are deemed most consistent and which factors typical investors or purchasers in that market area consider when purchasing a similar property.

(b) Condominium Units

See Section 5701.8(a) for appraisal requirements for units in Condominium Projects.

(c) Manufactured Homes

See Section 5703.6 for appraisal requirements for Manufactured Homes.

(d) Leasehold estates

See Section 5704.3 for appraisal requirements for leasehold estates

(e) Cooperative Share Loans

See Chapter 5705 for appraisal requirements for Cooperative Units.

Chapter 5606: Appraisal Data and Delivery, Uniform Appraisal Dataset (UAD), Uniform Collateral Data Portal® (UCDP®) and Electronic Transmission of Appraisal Reports

5606.1: Uniform Appraisal Dataset (UAD) (03/31/22)

(a) Overview

This section contains information and requirements relating to the Uniform Appraisal Dataset (UAD), the Uniform Appraisal Dataset Specification (“UAD Specification”), which includes the UAD Field-Specific Standardization Requirements (“Appendix D”).

- The UAD standardizes key appraisal data elements for a subset of fields on certain uniform residential appraisal report forms and includes all data points required to complete these appraisal report forms.
- The UAD Specification documents the business and technical requirements for the implementation of the UAD.

Appendix D provides field-specific standardization requirements for completing Freddie Mac’s residential appraisal report forms that are required to be completed using the UAD. It lists the requirements for the data that must be included in specific forms and how the data should be reported on the appraisal report form.

(b) Uniform Appraisal Dataset (UAD)

The following appraisal report forms must be completed using the UAD in accordance with Appendix D when reporting results of an appraisal:

- Form 70, Uniform Residential Appraisal Report
- Form 70D, Uniform Residential Appraisal Report (Desktop)
- Form 465, Individual Condominium Unit Appraisal Report
- Form 466, Exterior-Only Inspection Individual Condominium Unit Appraisal Report
- Form 2055, Exterior-Only Inspection Residential Appraisal Report

Other appraisal report forms may be completed using the standards contained in the UAD Specification to the extent those standards are applicable to that particular form.

The UAD Specification may be amended from time to time. The current version can be found on www.freddiemac.com.

Sellers must validate that appraisal reports meet the requirements of Appendix D. Compliance with the UAD does not relieve the Seller from other Freddie Mac appraisal requirements and does not affect Seller representations and warranties regarding appraisals and the Mortgaged Premises.

5606.2: Uniform Collateral Data Portal (UCDP) (03/31/22)

(a) Overview

This section contains information and requirements relating to the Uniform Collateral Data Portal® (UCDP®). The UCDP is a portal for the electronic collection and delivery of certain appraisal report forms and the associated appraisal data to Freddie Mac.

(b) Delivery of appraisals through the UCDP

For Mortgages that require appraisal reports, the following appraisal report forms, including all exhibits and addenda, must be submitted to the UCDP and receive a “Successful” status before the Delivery Date of the Mortgage:

- Form 70, Uniform Residential Appraisal Report
- Form 70B, Manufactured Home Appraisal Report
- Form 70D, Uniform Residential Appraisal Report (Desktop)
- Form 72, Small Residential Income Property Appraisal Report
- Form 465, Individual Condominium Unit Appraisal Report
- Form 466, Exterior-Only Inspection Individual Condominium Unit Appraisal Report
- Form 2055, Exterior-Only Inspection Residential Appraisal Report
- **Fannie Mae Form 2090, Individual Cooperative Interest Appraisal Report**

Sellers have the option of submitting Form 442, Appraisal Update and/or Completion Report, to the UCDP.

Freddie Mac appraisal report forms not listed above must not be submitted to the UCDP.

Sellers may use the UCDP as a tool to aid in determining UAD compliance. However, the submission of appraisal report forms to the UCDP does not relieve the Seller from Freddie Mac appraisal requirements, including the requirement that the appraisal must comply with Appendix D of the UAD and does not affect Seller representations and warranties regarding appraisals and the Mortgaged Premises.

The Seller's ability to select an appraisal management company or other party in connection with the use of the UCDP does not constitute Freddie Mac's endorsement or approval of the appraisal management company or other party and does not relieve Seller of any obligations pursuant to the Guide or Seller's other Purchase Documents, including the requirements in Section 3101.1 related to the Freddie Mac Exclusionary List.

(c) UCDP messaging

When an appraisal report is submitted to the UCDP, the Seller may receive a variety of feedback messages designed to assist the Seller in evaluating the appraisal report to determine whether it meets the requirements of this topic (e.g., the accuracy of the appraiser's opinion of market value, UAD compliance, etc.). The Seller should be prepared to address these feedback messages as part of their appraisal report review and property underwriting process.

For certain Mortgages, the Seller may receive a message indicating the appraisal is eligible for collateral representation and warranty relief. See Section 5602.2 for more details and eligibility requirements related to this representation and warranty relief.

Note: The presence of one or more feedback message(s) with a "warning" severity indicator does not prevent the "successful" submission of an appraisal report to the UCDP, and does not deem the property ineligible or the appraisal report unacceptable. In addition, the absence of feedback messages does not represent Freddie Mac's acceptance of the appraised value or relief from Seller representations and warranties.

(d) Information and data submitted to the UCDP

Freddie Mac and its agents and contractors have the right to use, reproduce, modify, disclose, sublicense, distribute and retain all information and data submitted to the UCDP and designated for delivery to Freddie Mac, including, but not limited to, any field on an appraisal report and the contents thereof, all information and data entered by Seller or on Seller's behalf, and any other information and data obtained by or transmitted through the UCDP, (collectively, the "UCDP Data") as follows: (i) for all purposes related to the UCDP, the appraisal, the loan and any securities to which the UCDP Data relates, (ii) for analytic, modeling, quality control, fraud detection, information security and similar purposes, (iii) in connection with other data and services obtained or provided by Freddie Mac, (iv) for internal purposes, including, without limitation, system monitoring, maintenance and security, (v) as required to comply with applicable laws, regulations, court orders and the

order of an agency that either regulates or has jurisdiction over Freddie Mac, and (vi) in order to enforce Freddie Mac's rights and remedies.

5606.3: Electronic transmission of appraisal reports (03/31/22)

The Seller may use and maintain an Electronic Record of the appraisal report as an original Mortgage file document if all of the following conditions are met:

- The electronic appraisal report otherwise complies with the applicable requirements of Topic 5600
- The appraiser electronically transmits the electronic appraisal report directly to the Seller or any third party specifically authorized by the Seller, as applicable
- The electronically transmitted photographs and any addenda are clear and otherwise satisfy the requirements of Section 5604.2
- The Seller represents and warrants that the appraiser's Electronic Signature, and a supervisory appraiser's signature if applicable, are attached to or logically associated with the electronic appraisal report in accordance with the federal Electronic Signatures in Global and National Commerce Act ("E-SIGN") and other applicable State and federal laws
- The Seller represents and warrants that the electronic appraisal report is as effective, enforceable and valid as a paper original of the appraisal report duly executed by the appraiser, and the supervisory appraiser if applicable

In addition to the unacceptable appraisal practices set forth in Section 5603.4, the following are unacceptable electronic appraisal report practices and will constitute a breach of the Seller's warranty of the professional quality of the appraisal report:

- Failure of the appraiser to take reasonable precautions to protect his or her electronic signature from identity and signature theft, including granting a trainee, administrative personnel or other third party permission to use the appraiser's or supervisory appraiser's electronic signature
- Failure to maintain proper security controls to protect against alteration of the appraisal report or data used in connection with preparing the report by someone other than the appraiser, or supervisory appraiser if applicable, ultimately responsible for the report
- Failure to securely store the electronic appraisal report, including all original photographs, maps and supporting documents, as originally reported by the appraiser

The Seller retains liability for the authenticity and accuracy of the electronic appraisal report, including all original photographs, maps and supporting documents. In the event the Seller is concerned about the accuracy or reliability of the electronic appraisal report or photographs, maps and supporting documents, the Seller shall immediately obtain a paper duplicate of the electronic appraisal report signed with pen and ink by the appraiser, and the supervisory appraiser if applicable, and maintain the paper duplicate of the electronic appraisal report in the Mortgage file. The Seller shall provide the electronic or original appraisal report and photographs, as applicable, to Freddie Mac at any time upon Freddie Mac's request. After receiving the paper duplicate of the original appraisal report signed with pen and ink by the appraiser, and the supervisory appraiser if applicable, the Seller may maintain a copy of the paper duplicate of the original appraisal report and photographs reproduced from the original of such documents, in accordance with the requirements of Section 3302.2. The Seller shall provide Freddie Mac with a copy of the original appraisal report and photographs upon Freddie Mac's request.

The Seller represents and warrants that any appraisal report, including photographs received from an appraiser by the Seller or any third party specifically authorized by the Seller as an Electronic Record, is a copy of the original appraisal report, including photographs, that was signed by the appraiser and a supervisory appraiser if applicable, and that it complies with applicable State and federal laws and regulations. The Seller agrees that the appraisal report and photographs received from an appraiser by the Seller or any third party specifically authorized by the Seller as an Electronic Record are subject to the Seller's representations, warranties, covenants, agreements and requirements contained in Chapter 1401.

In the event the Seller becomes aware of the unauthorized or improper use of the appraiser's signature and a supervisory appraiser's signature if applicable, in connection with any electronic appraisal report, including photographs, or if the Seller suspects unauthorized alteration of any appraisal report, the Seller must notify Freddie Mac immediately.

Chapter 5701: Condominiums

5701.1: Seller's assessment of project risks; terms used in this chapter (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

(a) Seller's assessment of project risks

Freddie Mac requires a Condominium Project review to address certain project risks including, but not limited to, the marketability and condition of the project, the marketability of the units within the project, the financial stability and viability of the project, project-level litigation, restrictions on unit owners' rights to occupy the unit, ownership and use of the Common Elements and Amenities and the adequacy of insurance coverage to protect the project from damage and loss.

Freddie Mac expects the Seller to have staff that is experienced and knowledgeable about Condominium Project risks and to place as much emphasis on the adequacy of the property as collateral as it does on underwriting the Borrower's creditworthiness. The quality of a Mortgage secured by a unit in a Condominium Project can be impacted by the financial stability and viability of the particular project, among other project characteristics. The conclusion that a Mortgage is acceptable to Freddie Mac must be based on the determination that the Borrower is creditworthy and the Mortgaged Premises is adequate collateral for the Mortgage transaction.

If a Seller determines that an Established Condominium Project does not meet certain Freddie Mac project eligibility requirements and concludes that the Mortgaged Premises is still adequate collateral for the Mortgage transaction, then the Seller may request that Freddie Mac consider a waiver. See Section 5701.1(c) for information on requesting Freddie Mac to consider a waiver of its project eligibility requirements.

(b) Glossary definitions and other terms used in this chapter

(i) Glossary definitions: Condominium Projects and unit type

The Seller should be familiar with the Glossary definitions of the following terms:

Project/Unit Type	Glossary Definition
2- to 4-Unit Condominium Project	A project that is comprised of at least two but no more than four units that are each separately deeded with

Project/Unit Type	Glossary Definition
	separate legal descriptions. The units may be attached, detached or semi detached units or a mixture of attached, detached and/or semi detached units. The units may also be a mixture of residential units and no more than one commercial unit.
Detached Condominium Project	A Condominium Project comprised solely of Detached Condominium Units.
Detached Condominium Unit	A Condominium Unit that is completely detached from any other unit in a Condominium Project. A Detached Condominium Unit can be in a Detached Condominium Project or in a Condominium Project that contains a mixture of attached, detached and/or semi detached units.
Established Condominium Project	<p>An Established Condominium Project is a Condominium Project in which:</p> <ul style="list-style-type: none"> ■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are complete and not subject to any additional phasing ■ At least 75% of the total units in the project have been conveyed to the unit purchasers, and ■ The unit owners control the homeowners association
New Condominium Project	<p>A New Condominium Project is a Condominium Project in which:</p> <ul style="list-style-type: none"> ■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are not complete, or are subject to additional phasing ■ Fewer than 75% of the total number of units in the project must have been conveyed to the unit purchasers, or ■ The developer has not turned control of the homeowners association over to the unit owners

(ii) Other Glossary definitions

The Seller should also be familiar with Freddie Mac's Glossary definitions of the following terms:

- Alternative Dispute Resolution (ADR)
- Amenities
- Common Elements
- Condominium Hotel
- Condominium Project
- Condominium Unit
- Condominium Unit Mortgage
- Gut Rehabilitation
- Limited Common Elements
- Master Association
- Non-Gut Rehabilitation
- Project Documents

(iii) Other terms

The following additional terms are used in this chapter:

Term	Definition
Condo Project Advisor® Feedback Certificate	The printed or printable document returned by Condo Project Advisor that details the approval of a Project Waiver Request (PWR) submission or details the Project Assessment Request (PAR) findings.
Homeowners Association (HOA)	A Homeowners Association is an association comprised of unit owners that maintains the Common Elements for the benefit of the unit owners. In a Condominium Project, the association has no ownership interest in the Common Elements.

(c) Condo Project Advisor - Project Waiver Request (PWR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor®, allows authorized Sellers to submit a request for single loan exceptions (referred to as a Project Waiver Request (PWR)) for Established Condominium Projects that do not meet certain Condominium Project eligibility requirements. Approved PWRs are issued a Condo Project Advisor Feedback Certificate.

(i) General eligibility

(A) Established Condominium Project

To be eligible for a PWR, the Condominium Unit Mortgage must be secured by a Condominium Unit in an Established Condominium Project. However, a Condominium Project that meets all other requirements for an Established Condominium Project, other than the 75% percentage conveyance to unit purchasers, may still be considered as an Established Condominium Project on a case-by-case basis if:

1. The developer retained more than 25% of the units for rental purposes; and
2. The developer has owned these units for a minimum of 10 years

(B) Project eligibility categories

The Condominium Project must comply with the project eligibility requirements for Established Condominium Projects detailed in Section 5701.5 and all other applicable requirements in Chapter 5701, except for the following Condominium Project eligibility categories:

1. Delinquent assessments – Section 5701.5(d)
2. Excessive commercial space – Section 5701.3(d)
3. Pending litigation (includes ADR proceedings) – Section 5701.3(i)
4. Owner occupancy (referred to as ‘Project Unit Occupancy’ in Condo Project Advisor) – Section 5701.5(b)
5. Reserves for capital expenditures and deferred maintenance – Section 5701.5(c)
6. Excessive single investor concentration (referred to as ‘Single Entity Ownership’ in Condo Project Advisor) – Section 5701.3(j)
7. Project in which the unit owners do not possess sole ownership of the Common Elements (referred to as “Leased Amenities” in Condo Project Advisor) – Section 5701.3(h)

(C) Submission timing

The PWR may be submitted at any time during the loan origination process, but must be submitted prior to sale of the related Condominium Unit Mortgage to Freddie Mac

(D) Mortgage identification

An approved PWR is applicable to only the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in the “Enter ID/Key” field in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier
2. The Fannie Mae Desktop Underwriter® key alphanumeric identifier (referred to as Casefile ID in Desktop Underwriter), or
3. The Doc File ID alphanumeric identifier issued in connection with submission of the appraisal data to the Uniform Collateral Data Portal®

(ii) Documentation requirements for Mortgages with approved PWRs

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file.

(iii) Representations and warranties

In connection with a Mortgage with an approved PWR, Freddie Mac will accept the Condo Project Advisor Feedback Certificate, and will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller’s selling representations and warranties related to the Condominium Project review and eligibility requirements identified on the Condo Project Advisor Feedback Certificate. The Seller remains responsible for compliance with all other requirements of their Purchase Documents.

(iv) Delivery requirements

Condominium Unit Mortgages with approved PWRs, must be delivered to Freddie Mac within 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PWR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

(v) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

(d) Condo Project Advisor - Project Assessment Request (PAR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor, allows authorized Sellers to submit a Project Assessment Request (PAR) by entering a Condominium Project name in its Project Assessment Request data entry screen to obtain feedback (referred to as the PAR findings) regarding the project's compliance with the project review requirements that Condo Project Advisor assesses. Seller is not responsible for ensuring compliance with the project review requirements that Condo Project Advisor assesses if Condo Project Advisor finds that the project complies with the requirement(s) and the PAR findings are detailed on a Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The PAR findings are applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and are not transferable to other Mortgages. See Section 5701.1(d)(vi) below for more details.

(i) Mortgages eligible for purchase

The Mortgage must be secured by a Condominium Unit in an Established Condominium Project. See (iii)(B) below.

The Mortgage must be a Loan Product Advisor Mortgage.

(ii) Assessed project review requirements for streamlined review and Established Condominium Projects

Condo Project Advisor assesses the following project review requirements for streamlined review and Established Condominium Projects:

A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Assesses	
Section	Project Review Requirement
Glossary	Definition of an Established Condominium Project
5701.3(b)	Condominium Hotel or similar type of transient housing
5701.3(c)	Project with multi-dwelling units
5701.3(d)	Project with excessive commercial or non-residential space
5701.3(e)	Tenancy-in-common apartment project
5701.3(f)	Timeshare project or project with segmented ownership
5701.3(g)	Houseboat project
5701.3(h)	Project in which the unit owners do not possess sole ownership of the Common Elements
5701.3(j)	Project with excessive single investor concentration
5701.3(k)	Continuing Care Retirement Community (CCRC)
5701.3(l)	Manufactured Homes
5701.3(m)	Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

(iii)PAR findings

(A) Green status

If Condo Project Advisor finds that the Condominium Project complies with all the requirements it assesses, Condo Project Advisor will assign a “Green” status to the project. See (viii) below for more details.

(B) Yellow status

If Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Condo Project Advisor will assign a “Yellow” status to the project.

If one of the project review requirements identified is that the project may not be an Established Condominium Project, the Seller must first determine that the project meets the Glossary definition of an Established Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with a “Yellow” status may be eligible for sale to Freddie Mac if it is determined that the project is an Established Condominium Project and the Seller fully analyzes the project review and general eligibility requirements identified on the Condo Project Advisor Feedback Certificate and determines the project complies with the requirement(s). See (viii) below for more details.

(C) Incomplete Assessment status

If Condo Project Advisor is unable to perform the assessment, Condo Project Advisor will assign an “Incomplete Assessment” status to the Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with an “Incomplete Assessment” status may be eligible for sale to Freddie Mac if the Seller fully analyzes all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)) and determines the project complies with all the requirements. See (viii) below for more details.

(iv)Non-assessed project review and general eligibility requirements for streamlined review and Established Condominium Projects

Condo Project Advisor does not assess the following project review requirements for streamlined review and Established Condominium Projects:

- A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Project Review Requirement
5701.2(a)(3)	Expiration of project review is within one year prior to the Note Date
5701.2(a)(4)	The Condominium Project remains in full compliance with applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project
5701.3(a)	Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located
5701.3(i)	Project in litigation
Bulletin 2021-38	Projects in need of Critical Repairs
Bulletin 2021-38	Special assessments

B. Streamlined review (Section 5701.4)

Condo Project Advisor Does NOT Assess	
Section	Streamlined Review Requirement
5701.4(b)	Maximum loan-to-value/total LTV/Home Equity Line of Credit TLTV ratios

C. Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Established Condominium Project Review Requirement
5701.5(b)	Owner-occupancy requirements for Established Condominium Projects
5701.5(c)	Project budget requirements for Established Condominium Projects
5701.5(d)	Delinquent assessments for Established Condominium Projects
5701.5(e)	Requirements when a Seller relies on a project reserve study for Established Condominium Projects
5701.5(f)	Manufactured Homes

Condo Project Advisor does not assess the general Condominium Project eligibility requirements in Section 5701.2(b).

(v) Submission timing

The PAR may be submitted at any time during the loan origination process but must be submitted prior to sale of the related Mortgage to Freddie Mac.

(vi) Mortgage identification

The PAR is applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier, or
2. Seller loan number/identifier

For Retail Mortgages, the Loan Product Advisor key or the Seller loan number must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key or Seller loan number delivered to Freddie Mac.

For non-Retail Mortgages, the Loan Product Advisor key must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key delivered to Freddie Mac.

(vii) Documentation requirements for Mortgages with PAR findings

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file. The Note Date of the applicable Mortgage must be within one year of the issue date of the Condo Project Advisor Feedback Certificate.

(viii) Representations and warranties

For a subject Mortgage secured by a Condominium Unit in a Condominium Project with a Green or Yellow status PAR finding, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the project review requirements that Condo Project Advisor assessed, if Condo Project Advisor found the project complied with the requirement(s) and the PAR findings are detailed on a non-transferrable Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The Seller remains responsible for compliance with all other requirements of the Purchase Documents, including the temporary requirements published in Bulletin 2021-38.

For a Green status PAR finding, Seller does not need to ensure compliance with all the project review requirements assessed by Condo Project Advisor.

For a Yellow status PAR finding, when Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Seller must ensure compliance with such identified requirement(s).

For both Green and Yellow status PAR findings, Seller must ensure compliance with the project review and general eligibility requirements that Condo Project Advisor does not assess.

For an Incomplete Assessment status PAR finding, Seller must ensure compliance with all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)).

(ix) Delivery requirements

Mortgages with PAR findings must be delivered to Freddie Mac within 120 days after the Note Date. If the Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PAR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

In connection with the sale of each Mortgage, Seller must deliver “K01” as the Investor Feature Identifier. See Section 6302.20 for more information.

(x) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

5701.1: Seller's assessment of project risks; terms used in this chapter (Future effective date 07/28/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Refer to Bulletin 2023-15, which announced updates to Condo Project Advisor® Project Assessment Request (PAR). Sellers may implement the new requirements prior to the mandatory effective September 4, 2023 version of this section.

(a) Seller's assessment of project risks

Freddie Mac requires a Condominium Project review to address certain project risks including, but not limited to, the marketability and condition of the project, the marketability of the units within the project, the financial stability and viability of the project, project-level

litigation, restrictions on unit owners' rights to occupy the unit, ownership and use of the Common Elements and Amenities and the adequacy of insurance coverage to protect the project from damage and loss.

Freddie Mac expects the Seller to have staff that is experienced and knowledgeable about Condominium Project risks and to place as much emphasis on the adequacy of the property as collateral as it does on underwriting the Borrower's creditworthiness. The quality of a Mortgage secured by a unit in a Condominium Project can be impacted by the financial stability and viability of the particular project, among other project characteristics. The conclusion that a Mortgage is acceptable to Freddie Mac must be based on the determination that the Borrower is creditworthy and the Mortgaged Premises is adequate collateral for the Mortgage transaction.

If a Seller determines that an Established Condominium Project does not meet certain Freddie Mac project eligibility requirements and concludes that the Mortgaged Premises is still adequate collateral for the Mortgage transaction, then the Seller may request that Freddie Mac consider a waiver. See Section 5701.1(c) for information on requesting Freddie Mac to consider a waiver of its project eligibility requirements.

(b) Glossary definitions and other terms used in this chapter

(i) Glossary definitions: Condominium Projects and unit type

The Seller should be familiar with the Glossary definitions of the following terms:

Project/Unit Type	Glossary Definition
2- to 4-Unit Condominium Project	A project that is comprised of at least two but no more than four units that are each separately deeded with separate legal descriptions. The units may be attached, detached or semi detached units or a mixture of attached, detached and/or semi detached units. The units may also be a mixture of residential units and no more than one commercial unit.
Detached Condominium Project	A Condominium Project comprised solely of Detached Condominium Units.
Detached Condominium Unit	A Condominium Unit that is completely detached from any other unit in a Condominium Project. A Detached Condominium Unit can be in a Detached Condominium Project or in a Condominium Project that contains a mixture of attached, detached and/or semi detached units.
Established Condominium Project	An Established Condominium Project is a Condominium Project in which:

Project/Unit Type	Glossary Definition
	<ul style="list-style-type: none"> ■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are complete and not subject to any additional phasing ■ At least 75% of the total units in the project have been conveyed to the unit purchasers, and ■ The unit owners control the homeowners association
New Condominium Project	<p>A New Condominium Project is a Condominium Project in which:</p> <ul style="list-style-type: none"> ■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are not complete, or are subject to additional phasing ■ Fewer than 75% of the total number of units in the project must have been conveyed to the unit purchasers, or ■ The developer has not turned control of the homeowners association over to the unit owners

(ii) Other Glossary definitions

The Seller should also be familiar with Freddie Mac's Glossary definitions of the following terms:

- Alternative Dispute Resolution (ADR)
- Amenities
- Common Elements
- Condominium Hotel
- Condominium Project
- Condominium Unit
- Condominium Unit Mortgage
- Gut Rehabilitation
- Limited Common Elements

- Master Association
- Non-Gut Rehabilitation
- Project Documents

(iii) Other terms

The following additional terms are used in this chapter:

Term	Definition
Condo Project Advisor Feedback Certificate	The printed or printable document returned by Condo Project Advisor that details the approval of a Project Waiver Request (PWR) submission or details the Project Assessment Request (PAR) findings.
Homeowners Association (HOA)	A Homeowners Association is an association comprised of unit owners that maintains the Common Elements for the benefit of the unit owners. In a Condominium Project, the association has no ownership interest in the Common Elements.

(c) Condo Project Advisor - Project Waiver Request (PWR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor®, allows authorized Sellers to submit a request for single loan exceptions (referred to as a Project Waiver Request (PWR)) for Established Condominium Projects that do not meet certain Condominium Project eligibility requirements. Approved PWRs are issued a Condo Project Advisor Feedback Certificate.

(i) General eligibility

(A) Established Condominium Project

To be eligible for a PWR, the Condominium Unit Mortgage must be secured by a Condominium Unit in an Established Condominium Project. However, a Condominium Project that meets all other requirements for an Established Condominium Project, other than the 75% percentage conveyance to unit purchasers, may still be considered as an Established Condominium Project on a case-by-case basis if:

1. The developer retained more than 25% of the units for rental purposes; and
2. The developer has owned these units for a minimum of 10 years

(B) Project eligibility categories

The Condominium Project must comply with the project eligibility requirements for Established Condominium Projects detailed in Section 5701.5 and all other applicable requirements in Chapter 5701, except for the following Condominium Project eligibility categories:

1. Delinquent assessments – Section 5701.5(d)
2. Excessive commercial space – Section 5701.3(d)
3. Pending litigation (includes ADR proceedings) – Section 5701.3(i)
4. Owner occupancy (referred to as ‘Project Unit Occupancy’ in Condo Project Advisor) – Section 5701.5(b)
5. Reserves for capital expenditures and deferred maintenance – Section 5701.5(c)
6. Excessive single investor concentration (referred to as ‘Single Entity Ownership’ in Condo Project Advisor) – Section 5701.3(j)
7. Project in which the unit owners do not possess sole ownership of the Common Elements (referred to as “Leased Amenities” in Condo Project Advisor) – Section 5701.3(h)

(C) Submission timing

The PWR may be submitted at any time during the loan origination process, but must be submitted prior to sale of the related Condominium Unit Mortgage to Freddie Mac

(D) Mortgage identification

An approved PWR is applicable to only the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in the “Enter ID/Key” field in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier
2. The Fannie Mae Desktop Underwriter® key alphanumeric identifier (referred to as Casefile ID in Desktop Underwriter), or
3. The Doc File ID alphanumeric identifier issued in connection with submission of the appraisal data to the Uniform Collateral Data Portal®

(ii) Documentation requirements for Mortgages with approved PWRs

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file.

(iii) Representations and warranties

In connection with a Mortgage with an approved PWR, Freddie Mac will accept the Condo Project Advisor Feedback Certificate, and will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the Condominium Project review and eligibility requirements identified on the Condo Project Advisor Feedback Certificate. The Seller remains responsible for compliance with all other requirements of their Purchase Documents.

(iv) Delivery requirements

Condominium Unit Mortgages with approved PWRs, must be delivered to Freddie Mac within 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PWR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

(v) Condo Project Advisor license

Condo Project Advisor is a "System" within the meaning of Section 2401.1, and as such, the Seller's use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

(d) Condo Project Advisor - Project Assessment Request (PAR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor, allows authorized Sellers to submit a Project Assessment Request (PAR) by entering a Condominium Project name in its Project Assessment Request data entry screen to obtain feedback (referred to as the PAR findings) regarding the project's compliance with the project review requirements that Condo Project Advisor assesses. Seller is not responsible for ensuring compliance with the project review requirements that Condo Project Advisor assesses if Condo Project Advisor finds that the project complies with the requirement(s) and the PAR findings are detailed on a Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The PAR findings are applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and are not transferable to other Mortgages. See Section 5701.1(d)(vi) below for more details.

(i) Mortgages eligible for purchase

The Mortgage must be secured by a Condominium Unit in an Established Condominium Project. See (iii)(B) below.

The Mortgage must be a Loan Product Advisor Mortgage.

(ii) Assessed project review requirements for streamlined review and Established Condominium Projects

Condo Project Advisor assesses the following project review requirements for streamlined review and Established Condominium Projects:

- A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Assesses	
Section	Project Review Requirement
Glossary	Definition of an Established Condominium Project
5701.3(b)	Condominium Hotel or similar type of transient housing
5701.3(c)	Project with multi-dwelling units
5701.3(d)	Project with excessive commercial or non-residential space
5701.3(e)	Tenancy-in-common apartment project
5701.3(f)	Timeshare project or project with segmented ownership
5701.3(g)	Houseboat project
5701.3(h)	Project in which the unit owners do not possess sole ownership of the Common Elements
5701.3(j)	Project with excessive single investor concentration
5701.3(k)	Continuing Care Retirement Community (CCRC)
5701.3(l)	Manufactured Homes
5701.3(m)	Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

(iii)PAR findings

(A) Green status

If Condo Project Advisor finds that the Condominium Project complies with all the requirements it assesses, Condo Project Advisor will assign a “Green” status to the project. See (viii) below for more details.

(B) Yellow status

If Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Condo Project Advisor will assign a “Yellow” status to the project.

If one of the project review requirements identified is that the project may not be an Established Condominium Project, the Seller must first determine that the project meets the Glossary definition of an Established Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with a “Yellow” status may be eligible for sale to Freddie Mac if it is determined that the project is an Established Condominium Project and the Seller fully analyzes the project review and general eligibility requirements identified on the Condo Project Advisor Feedback Certificate and determines the project complies with the requirement(s). See (viii) below for more details.

(C) Incomplete Assessment status

If Condo Project Advisor is unable to perform the assessment, Condo Project Advisor will assign an “Incomplete Assessment” status to the Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with an “Incomplete Assessment” status may be eligible for sale to Freddie Mac if the Seller fully analyzes all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)) and determines the project complies with all the requirements. See (viii) below for more details.

(iv) Non-assessed project review and general eligibility requirements for streamlined review and Established Condominium Projects

Condo Project Advisor does not assess the following project review requirements for streamlined review and Established Condominium Projects:

- A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Project Review Requirement
5701.2(a)(3)	Expiration of project review is within one year prior to the Note Date
5701.2(a)(4)	The Condominium Project remains in full compliance with applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project
5701.3(a)	Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located
5701.3(i)	Project in litigation

Bulletin 2021-38	Projects in need of Critical Repairs
Bulletin 2021-38	Special assessments

B. Streamlined review (Section 5701.4)

Condo Project Advisor Does NOT Assess	
Section	Streamlined Review Requirement
5701.4(b)	Maximum loan-to-value/total LTV/Home Equity Line of Credit TLTV ratios

C. Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Established Condominium Project Review Requirement
5701.5(b)	Owner-occupancy requirements for Established Condominium Projects
5701.5(c)	Project budget requirements for Established Condominium Projects
5701.5(d)	Delinquent assessments for Established Condominium Projects
5701.5(e)	Requirements when a Seller relies on a project reserve study for Established Condominium Projects
5701.5(f)	Manufactured Homes

Condo Project Advisor does not assess the general Condominium Project eligibility requirements in Section 5701.2(b).

(v) Submission timing

The PAR may be submitted at any time during the loan origination process but must be submitted prior to sale of the related Mortgage to Freddie Mac.

(vi) Mortgage identification

The PAR is applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier, or
2. Seller loan number/identifier

For Retail Mortgages, the Loan Product Advisor key or the Seller loan number must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key or Seller loan number delivered to Freddie Mac.

For non-Retail Mortgages, the Loan Product Advisor key must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key delivered to Freddie Mac.

(vii) Documentation requirements for Mortgages with PAR findings

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file. The Note Date of the applicable Mortgage must be within one year of the issue date of the Condo Project Advisor Feedback Certificate.

(viii) Representations and warranties

For a subject Mortgage secured by a Condominium Unit in a Condominium Project with a Green or Yellow status PAR finding, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the project review requirements that Condo Project Advisor assessed, if Condo Project Advisor found the project complied with the requirement(s) and the PAR findings are detailed on a non-transferrable Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The Seller remains responsible for compliance with all other requirements of the Purchase Documents, including the temporary requirements published in Bulletin 2021-38.

For a Green status PAR finding, Seller does not need to ensure compliance with all the project review requirements assessed by Condo Project Advisor.

For a Yellow status PAR finding, when Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Seller must ensure compliance with such identified requirement(s).

For both Green and Yellow status PAR findings, Seller must ensure compliance with the project review and general eligibility requirements that Condo Project Advisor does not assess.

For an Incomplete Assessment status PAR finding, Seller must ensure compliance with all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)).

(ix) Delivery requirements

Mortgages with PAR findings must be delivered to Freddie Mac within 120 days after the Note Date. If the Mortgage is not delivered within 120 days after the Note Date, the

Seller must submit a new PAR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

In connection with the sale of each Mortgage, Seller must deliver “K01” as the Investor Feature Identifier. See Section 6302.20 for more information.

(x) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

5701.1: Seller’s assessment of project risks; terms used in this chapter (Future effective date 09/04/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

(a) Seller’s assessment of project risks

Freddie Mac requires a Condominium Project review to address certain project risks including, but not limited to, the marketability and condition of the project, the marketability of the units within the project, the financial stability and viability of the project, project-level litigation, restrictions on unit owners’ rights to occupy the unit, ownership and use of the Common Elements and Amenities and the adequacy of insurance coverage to protect the project from damage and loss.

Freddie Mac expects the Seller to have staff that is experienced and knowledgeable about Condominium Project risks and to place as much emphasis on the adequacy of the property as collateral as it does on underwriting the Borrower’s creditworthiness. The quality of a Mortgage secured by a unit in a Condominium Project can be impacted by the financial stability and viability of the particular project, among other project characteristics. The conclusion that a Mortgage is acceptable to Freddie Mac must be based on the determination that the Borrower is creditworthy and the Mortgaged Premises is adequate collateral for the Mortgage transaction.

If a Seller determines that an Established Condominium Project does not meet certain Freddie Mac project eligibility requirements and concludes that the Mortgaged Premises is still adequate collateral for the Mortgage transaction, then the Seller may request that Freddie Mac consider a waiver. See Section 5701.1(c) for information on requesting Freddie Mac to consider a waiver of its project eligibility requirements.

(b) Glossary definitions and other terms used in this chapter

(i) Glossary definitions: Condominium Projects and unit type

The Seller should be familiar with the Glossary definitions of the following terms:

Project/Unit Type	Glossary Definition
2- to 4-Unit Condominium Project	A project that is comprised of at least two but no more than four units that are each separately deeded with separate legal descriptions. The units may be attached, detached or semi detached units or a mixture of attached, detached and/or semi detached units. The units may also be a mixture of residential units and no more than one commercial unit.
Detached Condominium Project	A Condominium Project comprised solely of Detached Condominium Units.
Detached Condominium Unit	A Condominium Unit that is completely detached from any other unit in a Condominium Project. A Detached Condominium Unit can be in a Detached Condominium Project or in a Condominium Project that contains a mixture of attached, detached and/or semi detached units.
Established Condominium Project	An Established Condominium Project is a Condominium Project in which: <ul style="list-style-type: none">■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are complete and not subject to any additional phasing■ At least 75% of the total units in the project have been conveyed to the unit purchasers, and■ The unit owners control the homeowners association
New Condominium Project	A New Condominium Project is a Condominium Project in which: <ul style="list-style-type: none">■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are not complete, or are subject to additional phasing■ Fewer than 75% of the total number of units in the project must have been conveyed to the unit purchasers, or

Project/Unit Type	Glossary Definition
	<ul style="list-style-type: none"> ■ The developer has not turned control of the homeowners association over to the unit owners

(ii) Other Glossary definitions

The Seller should also be familiar with Freddie Mac's Glossary definitions of the following terms:

- Alternative Dispute Resolution (ADR)
- Amenities
- Common Elements
- Condominium Hotel
- Condominium Project
- Condominium Unit
- Condominium Unit Mortgage
- Gut Rehabilitation
- Limited Common Elements
- Master Association
- Non-Gut Rehabilitation
- Project Documents

(iii) Other terms

The following additional terms are used in this chapter:

Term	Definition
Condo Project Advisor® Feedback Certificate	The printed or printable document returned by Condo Project Advisor that details the approval of a Project Waiver Request (PWR) submission or details the Project Assessment Request (PAR) findings.

Term	Definition
Homeowners Association (HOA)	A Homeowners Association is an association comprised of unit owners that maintains the Common Elements for the benefit of the unit owners. In a Condominium Project, the association has no ownership interest in the Common Elements.

(c) Condo Project Advisor - Project Waiver Request (PWR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor®, allows authorized Sellers to submit a request for single loan exceptions (referred to as a Project Waiver Request (PWR)) for Established Condominium Projects that do not meet certain Condominium Project eligibility requirements. Approved PWRs are issued a Condo Project Advisor Feedback Certificate.

(i) General eligibility

(A) Established Condominium Project

To be eligible for a PWR, the Condominium Unit Mortgage must be secured by a Condominium Unit in an Established Condominium Project. However, a Condominium Project that meets all other requirements for an Established Condominium Project, other than the 75% percentage conveyance to unit purchasers, may still be considered as an Established Condominium Project on a case-by-case basis if:

1. The developer retained more than 25% of the units for rental purposes; and
2. The developer has owned these units for a minimum of 10 years

(B) Project eligibility categories

The Condominium Project must comply with the project eligibility requirements for Established Condominium Projects detailed in Section 5701.5 and all other applicable requirements in Chapter 5701, except for the following Condominium Project eligibility categories:

1. Delinquent assessments – Section 5701.5(d)
2. Excessive commercial space – Section 5701.3(d)
3. Pending litigation (includes ADR proceedings) – Section 5701.3(i)
4. Owner occupancy (referred to as ‘Project Unit Occupancy’ in Condo Project Advisor) – Section 5701.5(b)

5. Reserves for capital expenditures and deferred maintenance – Section 5701.5(c)
6. Excessive single investor concentration (referred to as ‘Single Entity Ownership’ in Condo Project Advisor) – Section 5701.3(j)
7. Project in which the unit owners do not possess sole ownership of the Common Elements (referred to as “Leased Amenities” in Condo Project Advisor) – Section 5701.3(h)

(C) Submission timing

The PWR may be submitted at any time during the loan origination process, but must be submitted prior to sale of the related Condominium Unit Mortgage to Freddie Mac

(D) Mortgage identification

An approved PWR is applicable to only the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in the “Enter ID/Key” field in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier
2. The Fannie Mae Desktop Underwriter® key alphanumeric identifier (referred to as Casefile ID in Desktop Underwriter), or
3. The Doc File ID alphanumeric identifier issued in connection with submission of the appraisal data to the Uniform Collateral Data Portal®

(ii) Documentation requirements for Mortgages with approved PWRs

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file.

(iii) Representations and warranties

In connection with a Mortgage with an approved PWR, Freddie Mac will accept the Condo Project Advisor Feedback Certificate, and will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller’s selling representations and warranties related to the Condominium Project review and eligibility requirements identified on the Condo Project Advisor Feedback Certificate. The Seller remains responsible for compliance with all other requirements of their Purchase Documents.

(iv) Delivery requirements

Condominium Unit Mortgages with approved PWRs, must be delivered to Freddie Mac within 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PWR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

(v) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

(d) Condo Project Advisor - Project Assessment Request (PAR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor, allows authorized Sellers to submit a Project Assessment Request (PAR) by entering a Condominium Project name in its Project Assessment Request data entry screen to obtain feedback (referred to as the PAR findings) regarding the Condominium Project’s compliance with the project review requirements that Condo Project Advisor assesses. Seller is not responsible for ensuring compliance with the project review requirements that Condo Project Advisor assesses if Condo Project Advisor finds that the project complies with the requirement(s) and the PAR findings are detailed on a Condo Project Advisor Feedback Certificate to be maintained in the Mortgage file. The PAR findings are applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and are not transferable to other Mortgages. See Section 5701.1(d)(vi) below for more details.

See Sections 5701.1(d)(iii)(A) and 5701.1(e) for applicable requirements when Condo Project Advisor assigns a “Project Certified” status to a Condominium Project.

(i) Mortgages eligible for purchase

The Mortgage must be secured by a Condominium Unit in an Established Condominium Project. See (iii)(C) below.

The Mortgage must be a Loan Product Advisor Mortgage.

(ii) Assessed project review requirements for streamlined review and Established Condominium Projects

Condo Project Advisor assesses the following project review requirements for streamlined review and Established Condominium Projects:

- A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Assesses

Section	Project Review Requirement
Glossary	Definition of an Established Condominium Project
5701.3(b)	Condominium Hotel or similar type of transient housing
5701.3(c)	Project with multi-dwelling units
5701.3(d)	Project with excessive commercial or non-residential space
5701.3(e)	Tenancy-in-common apartment project
5701.3(f)	Timeshare project or project with segmented ownership
5701.3(g)	Houseboat project
5701.3(h)	Project in which the unit owners do not possess sole ownership of the Common Elements
5701.3(j)	Project with excessive single investor concentration
5701.3(k)	Continuing Care Retirement Community (CCRC)
5701.3(l)	Manufactured Homes
5701.3(m)	Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

(iii)PAR findings

(A) Project Certified status

If Condo Project Advisor finds that the Condominium Project complies with all requirements it assesses for this status, Condo Project Advisor will assign a “Project Certified” status to the project. See Section 5701.1(e) below for applicable requirements.

(B) Green status

If Condo Project Advisor finds that the Condominium Project complies with all the requirements it assesses, Condo Project Advisor will assign a “Green” status to the project. See (viii) below for more details.

(C) Yellow status

If Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Condo Project Advisor will assign a “Yellow” status to the project.

If one of the project review requirements identified is that the project may not be an Established Condominium Project, the Seller must first determine that the project meets the Glossary definition of an Established Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with a “Yellow” status may be eligible for sale to Freddie Mac if it is determined that the project is an Established Condominium Project and the Seller fully analyzes the

project review and general eligibility requirements identified on the Condo Project Advisor Feedback Certificate and determines the project complies with the requirement(s). See (viii) below for more details.

(D) Incomplete Assessment status

If Condo Project Advisor is unable to perform the assessment, Condo Project Advisor will assign an “Incomplete Assessment” status to the Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with an “Incomplete Assessment” status may be eligible for sale to Freddie Mac if the Seller fully analyzes all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)) and determines the project complies with all the requirements. See (vii) below for more details.

(iv) Non-assessed project review and general eligibility requirements for streamlined review and Established Condominium Projects

Condo Project Advisor does not assess the following project review requirements for streamlined review and Established Condominium Projects:

- A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Project Review Requirement
5701.2(a)(3)	Expiration of project review is within one year prior to the Note Date
5701.2(a)(4)	The Condominium Project remains in full compliance with applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project
5701.3(a)	Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located
5701.3(i)	Project in litigation
Bulletin 2021-38	Projects in need of Critical Repairs
Bulletin 2021-38	Special assessments

- B. Streamlined review (Section 5701.4)

Condo Project Advisor Does NOT Assess

Section	Streamlined Review Requirement
5701.4(b)	Maximum loan-to-value/total LTV/Home Equity Line of Credit TLTVA ratios

C. Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Established Condominium Project Review Requirement
5701.5(b)	Owner-occupancy requirements for Established Condominium Projects
5701.5(c)	Project budget requirements for Established Condominium Projects
5701.5(d)	Delinquent assessments for Established Condominium Projects
5701.5(e)	Requirements when a Seller relies on a project reserve study for Established Condominium Projects
5701.5(f)	Manufactured Homes

Condo Project Advisor does not assess the general Condominium Project eligibility requirements in Section 5701.2(b).

(v) Submission timing

The PAR may be submitted at any time during the loan origination process but must be submitted prior to sale of the related Mortgage to Freddie Mac.

(vi) Mortgage identification

The PAR is applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier, or
2. Seller loan number/identifier

For Retail Mortgages, the Loan Product Advisor key or the Seller loan number must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key or Seller loan number delivered to Freddie Mac.

For non-Retail Mortgages, the Loan Product Advisor key must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key delivered to Freddie Mac.

(vii) Documentation requirements for Mortgages with PAR findings

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file. Except for Mortgages with a Project Certified status PAR finding, the Note Date of the applicable Mortgage must be within one year of the issue date of the Condo Project Advisor Feedback Certificate. See Section 5701.1(e)(v) for documentation requirements for Mortgages with Project Certified status PAR findings.

(viii) Representations and warranties

For a subject Mortgage secured by a Condominium Unit in a Condominium Project with a Green or Yellow status PAR finding, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the project review requirements that Condo Project Advisor assessed, if Condo Project Advisor found the project complied with the requirement(s) and the PAR findings are detailed on a non-transferrable Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The Seller remains responsible for compliance with all other requirements of the Purchase Documents, including the temporary requirements published in Bulletin 2021-38.

For a Green status PAR finding, Seller does not need to ensure compliance with all the project review requirements assessed by Condo Project Advisor.

For a Yellow status PAR finding, when Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Seller must ensure compliance with such identified requirement(s).

For both Green and Yellow status PAR findings, Seller must ensure compliance with the project review and general eligibility requirements that Condo Project Advisor does not assess.

For an Incomplete Assessment status PAR finding, Seller must ensure compliance with all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)).

(ix) Delivery requirements

Mortgages with PAR findings must be delivered to Freddie Mac within 120 days after the Note Date. If the Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PAR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

In connection with the sale of each Mortgage, Seller must deliver "K01" as the Investor Feature Identifier. See Section 6302.20 for more information.

(x) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

(e) Condo Project Advisor – Established Condominium Projects with a Project Certified status

Condo Project Advisor will provide a Feedback Certificate with a Project Certified status if the project meets the requirements assessed by Condo Project Advisor, as specified in 5701.1(e)(ii) below. The term “Project Certified” means that Condo Project Advisor is assessing only the requirements of the Glossary definition of an Established Condominium Project and Section 5701.3 regarding Ineligible Condominium Projects and Section 5701.5 regarding Established Condominium Projects.

Seller is not responsible for compliance with the project review requirements listed in 5701.1(e)(ii) if the Condominium Project has a Project Certified status, and the PAR findings are detailed on a Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The PAR findings are applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and are not transferable to other Mortgages.

Seller remains responsible for compliance with the project review requirements listed in Sections 5701.1(e)(iii) and (iv) below.

In addition to complying with the requirements below, Condominium Projects that receive a Project Certified status PAR finding must comply with the requirements for submission timing and Mortgage identification detailed in Sections 5701.1(d)(v) and (vi) that apply to Mortgages with PAR findings.

(i) Mortgages eligible for purchase

The Mortgage must be a Loan Product Advisor Mortgage.

(ii) Assessed project review requirements for Condominium Projects with a Project Certified status

Condo Project Advisor only assesses the project review requirements in the following sections for Condominium Projects with a Project Certified status:

Condo Project Advisor Assesses	
Section	Project Review Requirements
Glossary	Definition of an Established Condominium Project
5701.3	Ineligible Projects

Condo Project Advisor Assesses	
5701.5	Established Condominium Projects

(iii) Non-assessed general eligibility requirements for Condominium Projects with a Project Certified status

Condo Project Advisor does not assess the general Condominium Project eligibility requirements in Section 5701.2(b).

(iv) Owner-occupancy requirements in Section 5701.5(b)(2) for Established Condominium Projects with a Project Certified status

Seller remains responsible for assessing owner-occupancy requirements for Investment Property Mortgages in Section 5701.5(b)(2) when specified on the Feedback Certificate.

(v) Documentation requirements for Mortgages with Project Certified status PAR findings

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file. The Note Date of the applicable Mortgage must be within 120 days of the issue date of the Condo Project Advisor Feedback Certificate.

(vi) Representations and warranties

For a subject Mortgage secured by a Condominium Unit in a Condominium Project with a Project Certified status PAR finding, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the project review requirements that Condo Project Advisor assessed, if Condo Project Advisor found the project complied with the requirement(s) and the PAR findings are detailed on a non-transferrable Condo Project Advisor Feedback Certificate maintained in the Mortgage file. Except as provided by this Section 5701.1(e), the Seller remains responsible for compliance with all other requirements of the Purchase Documents.

(vii) Delivery requirements

Mortgages with Project Certified status PAR findings must be delivered to Freddie Mac within 120 days after the Note Date. If the Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PAR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

In connection with the sale of each Mortgage with a Project Certified status PAR finding, Seller must deliver "J97" as the Investor Feature Identifier. See Section 6302.20 for more information.

Note: If the requirements for Condominium Projects with a Project Certified status in this Section 5701.1(e) are met, then Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.6, 5701.7 and 5701.9.

5701.1: Seller's assessment of project risks; terms used in this chapter (Future effective date 09/18/23)

(a) Seller's assessment of project risks

Freddie Mac requires a Condominium Project review to address certain project risks including, but not limited to, the marketability and condition of the project, the marketability of the units within the project, the financial stability and viability of the project, project-level litigation, restrictions on unit owners' rights to occupy the unit, ownership and use of the Common Elements and Amenities and the adequacy of insurance coverage to protect the project from damage and loss.

Freddie Mac expects the Seller to have staff that is experienced and knowledgeable about Condominium Project risks and to place as much emphasis on the adequacy of the property as collateral as it does on underwriting the Borrower's creditworthiness. The quality of a Mortgage secured by a unit in a Condominium Project can be impacted by the financial stability and viability of the particular project, among other project characteristics. The conclusion that a Mortgage is acceptable to Freddie Mac must be based on the determination that the Borrower is creditworthy and the Mortgaged Premises is adequate collateral for the Mortgage transaction.

If a Seller determines that an Established Condominium Project does not meet certain Freddie Mac project eligibility requirements and concludes that the Mortgaged Premises is still adequate collateral for the Mortgage transaction, then the Seller may request that Freddie Mac consider a waiver. See Section 5701.1(c) for information on requesting Freddie Mac to consider a waiver of its project eligibility requirements.

(b) Glossary definitions and other terms used in this chapter

(i) Glossary definitions

(A) Condominium Projects and unit type

The Seller should be familiar with the Glossary definitions of the following terms:

Project/Unit Type	Glossary Definition
2- to 4-Unit Condominium Project	A project that is comprised of at least two but no more than four units that are each separately deeded with

Project/Unit Type	Glossary Definition
	separate legal descriptions. The units may be attached, detached or semi detached units or a mixture of attached, detached and/or semi detached units. The units may also be a mixture of residential units and no more than one commercial unit.
Detached Condominium Project	A Condominium Project comprised solely of Detached Condominium Units.
Detached Condominium Unit	A Condominium Unit that is completely detached from any other unit in a Condominium Project. A Detached Condominium Unit can be in a Detached Condominium Project or in a Condominium Project that contains a mixture of attached, detached and/or semi detached units.
Established Condominium Project	<p>An Established Condominium Project is a Condominium Project in which:</p> <ul style="list-style-type: none"> ■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are complete and not subject to any additional phasing ■ At least 75% of the total units in the project have been conveyed to the unit purchasers, and ■ The unit owners control the homeowners association
New Condominium Project	<p>A New Condominium Project is a Condominium Project in which:</p> <ul style="list-style-type: none"> ■ The Condominium Project (all Condominium Units, Common Elements and Amenities) and related facilities owned by any Master Association are not complete, or are subject to additional phasing ■ Fewer than 75% of the total number of units in the project must have been conveyed to the unit purchasers, or ■ The developer has not turned control of the homeowners association over to the unit owners

(B) Repair type

The Seller should be familiar with the Glossary definitions of the following terms:

Repair Type	Glossary Definition
Critical Repairs (includes material deficiencies and significant deferred maintenance)	<p>Repairs and replacements that significantly impact the safety, soundness, structural integrity or habitability of the project's building(s) and/or that impact unit values, financial viability or marketability of the project.</p> <p>These include:</p> <ul style="list-style-type: none"> ■ Material deficiencies which, if left uncorrected, have the potential to result in or contribute to critical element or system failure within one year ■ Any mold, water intrusions or potentially damaging leaks to the project's building(s) that have not been repaired ■ Advanced physical deterioration ■ Any project that failed to pass state, county, or other jurisdictional mandatory inspections and/or certifications specific to structural soundness, safety, and habitability; or ■ Any unfunded repairs costing more than \$10,000 per unit that should be undertaken within the next 12 months (does not include repairs made by the unit owner or repairs funded through a special assessment) <p>Examples of some items to consider include, but are not limited to, sea walls, elevators, waterproofing, stairwells, balconies, foundation, electrical systems, parking structures or other load-bearing structures.</p>
Routine Repairs	<p>These repairs are not considered to be critical and include work that is:</p> <ul style="list-style-type: none"> ■ Preventative in nature or part of normal capital replacements (e.g., focused on keeping the project fully functioning and serviceable); and ■ Accomplished within the project's normal operating budget or through special assessments that are within guidelines

(ii) Other Glossary definitions

The Seller should also be familiar with Freddie Mac's Glossary definitions of the following terms:

- Alternative Dispute Resolution (ADR)
- Amenities

- Common Elements
- Condominium Hotel
- Condominium Project
- Condominium Unit
- Condominium Unit Mortgage
- Gut Rehabilitation
- Limited Common Elements
- Master Association
- Non-Gut Rehabilitation
- Project Documents

(iii) Other terms

The following additional terms are used in this chapter:

Term	Definition
Condo Project Advisor® Feedback Certificate	The printed or printable document returned by Condo Project Advisor that details the approval of a Project Waiver Request (PWR) submission or details the Project Assessment Request (PAR) findings.
Homeowners Association (HOA)	A Homeowners Association is an association comprised of unit owners that maintains the Common Elements for the benefit of the unit owners. In a Condominium Project, the association has no ownership interest in the Common Elements.

(c) Condo Project Advisor - Project Waiver Request (PWR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor®, allows authorized Sellers to submit a request for single loan exceptions (referred to as a Project Waiver Request (PWR)) for Established Condominium Projects that do not meet certain Condominium Project eligibility requirements. Approved PWRs are issued a Condo Project Advisor Feedback Certificate.

(i) General eligibility

(A) Established Condominium Project

To be eligible for a PWR, the Condominium Unit Mortgage must be secured by a Condominium Unit in an Established Condominium Project. However, a Condominium Project that meets all other requirements for an Established Condominium Project, other than the 75% percentage conveyance to unit purchasers, may still be considered as an Established Condominium Project on a case-by-case basis if:

1. The developer retained more than 25% of the units for rental purposes; and
2. The developer has owned these units for a minimum of 10 years

(B) Project eligibility categories

The Condominium Project must comply with the project eligibility requirements for Established Condominium Projects detailed in Section 5701.5 and all other applicable requirements in Chapter 5701, except for the following Condominium Project eligibility categories:

1. Delinquent assessments – Section 5701.5(d)
2. Excessive commercial space – Section 5701.3(d)
3. Pending litigation (includes ADR proceedings) – Section 5701.3(i)
4. Owner occupancy (referred to as ‘Project Unit Occupancy’ in Condo Project Advisor) – Section 5701.5(b)
5. Reserves for capital expenditures and deferred maintenance – Section 5701.5(c)
6. Excessive single investor concentration (referred to as ‘Single Entity Ownership’ in Condo Project Advisor) – Section 5701.3(j)
7. Project in which the unit owners do not possess sole ownership of the Common Elements (referred to as “Leased Amenities” in Condo Project Advisor) – Section 5701.3(h)

(C) Submission timing

The PWR may be submitted at any time during the loan origination process, but must be submitted prior to sale of the related Condominium Unit Mortgage to Freddie Mac

(D) Mortgage identification

An approved PWR is applicable to only the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in the “Enter ID/Key” field in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier
2. The Fannie Mae Desktop Underwriter® key alphanumeric identifier (referred to as Casefile ID in Desktop Underwriter), or
3. The Doc File ID alphanumeric identifier issued in connection with submission of the appraisal data to the Uniform Collateral Data Portal®

(ii) Documentation requirements for Mortgages with approved PWRs

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file.

(iii) Representations and warranties

In connection with a Mortgage with an approved PWR, Freddie Mac will accept the Condo Project Advisor Feedback Certificate, and will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller’s selling representations and warranties related to the Condominium Project review and eligibility requirements identified on the Condo Project Advisor Feedback Certificate. The Seller remains responsible for compliance with all other requirements of their Purchase Documents.

(iv) Delivery requirements

Condominium Unit Mortgages with approved PWRs, must be delivered to Freddie Mac within 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PWR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

(v) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

(d) Condo Project Advisor - Project Assessment Request (PAR)

Condo Project Advisor, accessible through Freddie Mac Loan Advisor, allows authorized Sellers to submit a Project Assessment Request (PAR) by entering a Condominium Project name in its Project Assessment Request data entry screen to obtain feedback (referred to as the PAR findings) regarding the Condominium Project's compliance with the project review requirements that Condo Project Advisor assesses. Seller is not responsible for ensuring compliance with the project review requirements that Condo Project Advisor assesses if Condo Project Advisor finds that the project complies with the requirement(s) and the PAR findings are detailed on a Condo Project Advisor Feedback Certificate to be maintained in the Mortgage file. The PAR findings are applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and are not transferable to other Mortgages. See Section 5701.1(d)(vi) below for more details.

See Sections 5701.1(d)(iii)(A) and 5701.1(e) for applicable requirements when Condo Project Advisor assigns a "Project Certified" status to a Condominium Project.

(i) Mortgages eligible for purchase

The Mortgage must be secured by a Condominium Unit in an Established Condominium Project. See (iii)(C) below.

The Mortgage must be a Loan Product Advisor Mortgage.

(ii) Assessed project review requirements for streamlined review and Established Condominium Projects

Condo Project Advisor assesses the following project review requirements for streamlined review and Established Condominium Projects:

A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Assesses	
Section	Project Review Requirement
Glossary	Definition of an Established Condominium Project
5701.3(b)	Condominium Hotel or similar type of transient housing
5701.3(c)	Project with multi-dwelling units
5701.3(d)	Project with excessive commercial or non-residential space
5701.3(e)	Tenancy-in-common apartment project
5701.3(f)	Timeshare project or project with segmented ownership
5701.3(g)	Houseboat project
5701.3(h)	Project in which the unit owners do not possess sole ownership of the Common Elements
5701.3(j)	Project with excessive single investor concentration
5701.3(k)	Continuing Care Retirement Community (CCRC)
5701.3(l)	Manufactured Homes

5701.3(m)	Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities
-----------	---

(iii)PAR findings

(A) Project Certified status

If Condo Project Advisor finds that the Condominium Project complies with all requirements it assesses for this status, Condo Project Advisor will assign a “Project Certified” status to the project. See Section 5701.1(e) below for applicable requirements.

(B) Green status

If Condo Project Advisor finds that the Condominium Project complies with all the requirements it assesses, Condo Project Advisor will assign a “Green” status to the project. See (viii) below for more details.

(C) Yellow status

If Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Condo Project Advisor will assign a “Yellow” status to the project.

If one of the project review requirements identified is that the project may not be an Established Condominium Project, the Seller must first determine that the project meets the Glossary definition of an Established Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with a “Yellow” status may be eligible for sale to Freddie Mac if it is determined that the project is an Established Condominium Project and the Seller fully analyzes the project review and general eligibility requirements identified on the Condo Project Advisor Feedback Certificate and determines the project complies with the requirement(s). See (viii) below for more details.

(D) Incomplete Assessment status

If Condo Project Advisor is unable to perform the assessment, Condo Project Advisor will assign an “Incomplete Assessment” status to the Condominium Project.

A Mortgage secured by a Condominium Unit in a Condominium Project with an “Incomplete Assessment” status may be eligible for sale to Freddie Mac if the Seller fully analyzes all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)) and determines the project complies with all the requirements. See (viii) below for more details.

(iv) Non-assessed project review and general eligibility requirements for streamlined review and Established Condominium Projects

Condo Project Advisor does not assess the following project review requirements for streamlined review and Established Condominium Projects:

- A. Streamlined review (Section 5701.4) and Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Project Review Requirement
5701.2(a)(3)	Expiration of project review is within one year prior to the Note Date
5701.2(a)(4)	The Condominium Project remains in full compliance with applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project
5701.3(a)	Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located
5701.3(i)	Project in litigation
5701.3(n)	Projects in need of Critical Repairs
5701.3(o)	Project with an evacuation order

- B. Streamlined review (Section 5701.4)

Condo Project Advisor Does NOT Assess	
Section	Streamlined Review Requirement
5701.4(b)	Maximum loan-to-value/total LTV/Home Equity Line of Credit TLTVA ratios
5701.4(c)	Special assessments

- C. Established Condominium Projects (Section 5701.5)

Condo Project Advisor Does NOT Assess	
Section	Established Condominium Project Review Requirement
5701.5(b)	Owner-occupancy requirements for Established Condominium Projects
5701.5(c)	Project budget requirements for Established Condominium Projects
5701.5(d)	Delinquent assessments for Established Condominium Projects

5701.5(e)	Requirements when a Seller relies on a project reserve study for Established Condominium Projects
5701.5(f)	Manufactured Homes

Condo Project Advisor does not assess the general Condominium Project eligibility requirements in Section 5701.2(b).

(v) Submission timing

The PAR may be submitted at any time during the loan origination process but must be submitted prior to sale of the related Mortgage to Freddie Mac.

(vi) Mortgage identification

The PAR is applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and is not applicable to any other Mortgage secured by a Condominium Unit located in the same Condominium Project. The Mortgage identified will be the Mortgage in connection with which the Seller enters one of the following in Condo Project Advisor:

1. The Loan Product Advisor key alphanumeric identifier, or
2. Seller loan number/identifier

For Retail Mortgages, the Loan Product Advisor key or the Seller loan number must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key or Seller loan number delivered to Freddie Mac.

For non-Retail Mortgages, the Loan Product Advisor key must be entered into Condo Project Advisor, and it must be identical to the Loan Product Advisor key delivered to Freddie Mac.

(vii) Documentation requirements for Mortgages with PAR findings

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file. Except for Mortgages with a Project Certified status PAR finding, the Note Date of the applicable Mortgage must be within one year of the issue date of the Condo Project Advisor Feedback Certificate. See Section 5701.1(e)(v) for documentation requirements for Mortgages with Project Certified status PAR findings.

(viii) Representations and warranties

For a subject Mortgage secured by a Condominium Unit in a Condominium Project with a Green or Yellow status PAR finding, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the project review requirements that

Condo Project Advisor assessed, if Condo Project Advisor found the project complied with the requirement(s) and the PAR findings are detailed on a non-transferrable Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The Seller remains responsible for compliance with all other requirements of the Purchase Documents, including the general Condominium Project eligibility requirements in Section 5701.2(b).

For a Green status PAR finding, Seller does not need to ensure compliance with all the project review requirements assessed by Condo Project Advisor.

For a Yellow status PAR finding, when Condo Project Advisor finds that the Condominium Project does not comply with one or more of the requirements it assesses, Seller must ensure compliance with such identified requirement(s).

For both Green and Yellow status PAR findings, Seller must ensure compliance with the project review and general eligibility requirements that Condo Project Advisor does not assess.

For an Incomplete Assessment status PAR finding, Seller must ensure compliance with all project review requirements (Section 5701.2(a)) and general eligibility requirements (Section 5701.2(b)).

(ix) Delivery requirements

Mortgages with PAR findings must be delivered to Freddie Mac within 120 days after the Note Date. If the Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PAR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

In connection with the sale of each Mortgage, Seller must deliver “K01” as the Investor Feature Identifier. See Section 6302.20 for more information.

(x) Condo Project Advisor license

Condo Project Advisor is a “System” within the meaning of Section 2401.1, and as such, the Seller’s use of Condo Project Advisor is licensed pursuant to the terms of Section 2401.1 and Section 2402.2(k).

(e) Condo Project Advisor – Established Condominium Projects with a Project Certified status

Condo Project Advisor will provide a Feedback Certificate with a Project Certified status if the project meets the requirements assessed by Condo Project Advisor, as specified in 5701.1(e)(ii) below. The term “Project Certified” means that Condo Project Advisor is only assessing the requirements of the Glossary definition of an Established Condominium Project and Section 5701.3 regarding Ineligible Condominium Projects and Section 5701.5 regarding Established Condominium Projects.

Seller is not responsible for compliance with the project review requirements listed in 5701.1(e)(ii) if the Condominium Project has a Project Certified status, and the PAR findings are detailed on a Condo Project Advisor Feedback Certificate maintained in the Mortgage file. The PAR findings are applicable only to the Mortgage identified on the Condo Project Advisor Feedback Certificate and are not transferable to other Mortgages.

Seller remains responsible for compliance with the project review requirements listed in Sections 5701.1(e)(iii) and (iv) below.

In addition to complying with the requirements below, Condominium Projects that receive a Project Certified status PAR finding must comply with the requirements for submission timing and Mortgage identification detailed in Sections 5701.1(d)(v) and (vi) that apply to Mortgages with PAR findings.

(i) Mortgages eligible for purchase

The Mortgage must be a Loan Product Advisor Mortgage.

(ii) Assessed project review requirements for Condominium Projects with a Project Certified status

Condo Project Advisor only assesses the project review requirements in the following sections for Condominium Projects with a Project Certified status:

Condo Project Advisor Assesses	
Section	Project Review Requirements
Glossary	Definition of an Established Condominium Project
5701.3	Ineligible Projects
5701.5	Established Condominium Projects

(iii) Non-assessed general eligibility requirements for Condominium Projects with a Project Certified status

Condo Project Advisor does not assess the general Condominium Project eligibility requirements in Section 5701.2(b).

(iv) Owner-occupancy requirements in Section 5701.5(b)(2) for Established Condominium Projects with a Project Certified status

Seller remains responsible for assessing owner-occupancy requirements for Investment Property Mortgages in Section 5701.5(b)(2) when specified on the Feedback Certificate.

(v) Documentation requirements for Mortgages with Project Certified status PAR findings

The Condo Project Advisor Feedback Certificate must be maintained in the applicable Mortgage file. The Note Date of the applicable Mortgage must be within 120 days of the issue date of the Condo Project Advisor Feedback Certificate.

(vi) Representations and warranties

For a subject Mortgage secured by a Condominium Unit in a Condominium Project with a Project Certified status PAR finding, Freddie Mac will not exercise its remedies, including the issuance of repurchase requests, in connection with a breach of the Seller's selling representations and warranties related to the project review requirements that Condo Project Advisor assessed, if Condo Project Advisor found the project complied with the requirement(s) and the PAR findings are detailed on a non-transferrable Condo Project Advisor Feedback Certificate maintained in the Mortgage file. Except as provided by this Section 5701.1(e), the Seller remains responsible for compliance with all other requirements of the Purchase Documents.

(vii) Delivery requirements

Mortgages with Project Certified status PAR findings must be delivered to Freddie Mac within 120 days after the Note Date. If the Mortgage is not delivered within 120 days after the Note Date, the Seller must submit a new PAR and obtain a new Condo Project Advisor Feedback Certificate prior to delivery.

In connection with the sale of each Mortgage with a Project Certified status PAR finding, Seller must deliver "J97" as the Investor Feature Identifier. See Section 6302.20 for more information.

Note: If the requirements for Condominium Projects with a Project Certified status in this Section 5701.1(e) are met, then Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.6, 5701.7 and 5701.9.

5701.2: Condominium Project review and general Condominium Project eligibility requirements (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

The Seller must determine compliance with Freddie Mac's project review and eligibility requirements in this section.

(a) Condominium Project review requirements

Except for Condominium Unit Mortgages delivered in accordance with the requirements in Section 5701.7, the Seller must ensure that:

1. The Condominium Unit Mortgage, the Condominium Unit and the Condominium Project comply with project eligibility requirements for **one** of the following project review types:
 - Streamlined reviews (Section 5701.4)
 - Established Condominium Projects (Section 5701.5)
 - New Condominium Projects (Section 5701.6)
 - Reciprocal project reviews (Section 5701.9)
2. The project is not an ineligible project (Section 5701.3)

Note: If the Condominium Unit Mortgage to be delivered complies with the requirements in Section 5701.9(a), then compliance with Section 5701.3 is not required.

3. The Seller reviews and determines that a Condominium Project complies with Freddie Mac's requirements as follows:

Project review type	Expiration of project review
Streamlined reviews (Section 5701.4) Established Condominium Projects (Section 5701.5)	Within one year prior to the Note Date
New Condominium Projects (Section 5701.6)	Within 180 days prior to the Note Date

If the Condominium Project does not meet Freddie Mac's project eligibility requirements on the Note Date, the Seller may deliver the Condominium Unit Mortgage at the time the Condominium Project complies with all of the project eligibility requirements as long as all other applicable requirements have been met.

4. The Condominium Project remains in full compliance with the applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project

(b) General Condominium Project eligibility requirements

The Seller must also review and determine compliance with the following requirements:

1. The project must have insurance that complies with the applicable requirements of Chapter 4703
2. The Condominium Unit must be covered by a title insurance policy that complies with requirements of Chapter 4702
3. If a Condominium Project is on a leasehold estate, the lease must comply with the requirements of Chapter 5704
4. The Seller must deliver a Condominium Unit Mortgage no later than 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must update the review and determination of the Condominium Project eligibility.
5. The Seller must have policies and procedures in place, and must take appropriate steps to ensure that the Condominium Unit, the Condominium Unit Mortgage and the Condominium Project comply with applicable requirements
6. The Seller must retain all documentation related to the review of the Condominium Project. Upon request, the Seller must provide the project information and documentation to Freddie Mac.

(c) Freddie Mac right to review

Freddie Mac reserves the right to conduct its own review of the Condominium Project for Condominium Unit Mortgages delivered to Freddie Mac

(d) Overview of Condominium Project review and eligibility requirements and project review types

Below is a table illustrating an overview of our Condominium Project Review and eligibility requirements and project review types:

Seller must determine compliance with			
	Project review requirements in Section 5701.2(a)	General project eligibility requirements in Section 5701.2(b)	Ineligible projects Section 5701.3
Freddie Mac project review types			
<i>Streamlined reviews¹</i> Section 5701.4	X	X	X
<i>Established Condominium Projects</i> Section 5701.5	X	X	X
<i>New Condominium Projects</i> Section 5701.6	X	X	X
<i>Reciprocal project reviews – Fannie Mae-approved and certified projects</i> Section 5701.9(a)		X	
<i>Reciprocal project reviews – FHA-Approved Project review for condominiums</i> Section 5701.9(b)		X	X
If delivered in accordance with the requirements in Section 5701.7:			
<i>2- to 4- Unit Condominium Projects</i>		X	See Note 2
<i>Detached Condominium Units</i>		X	See Note 2
<i>Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgage</i>		X	See Note 2
<i>Refi Possible® Mortgage</i>		X	See Note 2

¹Condominium Project must meet the Glossary definition of an Established Condominium Project.

²Condominium Project must not be a Condominium Hotel or similar type of transient housing, houseboat project, timeshare project or project with segmented ownership. The Condominium Project must not include Manufactured Homes, unless the Condominium Unit Mortgage is a Refi Possible Mortgage.

5701.2: Condominium Project review and general Condominium Project eligibility requirements (Future effective date 07/28/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Refer to Bulletin 2023-15, which announced updates to Condo Project Advisor® Project Assessment Request. Sellers may implement the new requirements prior to the mandatory effective September 4, 2023 version of this section.

The Seller must determine compliance with Freddie Mac's project review and eligibility requirements in this section.

(a) Condominium Project review requirements

Except for Condominium Unit Mortgages delivered in accordance with the requirements in Section 5701.7, the Seller must ensure that:

1. The Condominium Unit Mortgage, the Condominium Unit and the Condominium Project comply with project eligibility requirements for **one** of the following project review types:
 - Streamlined reviews (Section 5701.4)
 - Established Condominium Projects (Section 5701.5)
 - New Condominium Projects (Section 5701.6)
 - Reciprocal project reviews (Section 5701.9)
2. The project is not an ineligible project (Section 5701.3)

Note: If the Condominium Unit Mortgage to be delivered complies with the requirements in Section 5701.9(a), then compliance with Section 5701.3 is not required.

3. The Seller reviews and determines that a Condominium Project complies with Freddie Mac's requirements as follows:

Project review type	Expiration of project review
Streamlined reviews (Section 5701.4) Established Condominium Projects (Section 5701.5)	Within one year prior to the Note Date
New Condominium Projects (Section 5701.6)	Within 180 days prior to the Note Date

If the Condominium Project does not meet Freddie Mac's project eligibility requirements on the Note Date, the Seller may deliver the Condominium Unit Mortgage at the time the Condominium Project complies with all of the project eligibility requirements as long as all other applicable requirements have been met.

4. The Condominium Project remains in full compliance with the applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project

(b) General Condominium Project eligibility requirements

The Seller must also review and determine compliance with the following requirements:

1. The project must have insurance that complies with the applicable requirements of Chapter 4703
2. The Condominium Unit must be covered by a title insurance policy that complies with requirements of Chapter 4702
3. If a Condominium Project is on a leasehold estate, the lease must comply with the requirements of Chapter 5704
4. The Seller must deliver a Condominium Unit Mortgage no later than 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must update the review and determination of the Condominium Project eligibility.
5. The Seller must have policies and procedures in place, and must take appropriate steps to ensure that the Condominium Unit, the Condominium Unit Mortgage and the Condominium Project comply with applicable requirements
6. The Seller must retain all documentation related to the review of the Condominium Project. Upon request, the Seller must provide the project information and documentation to Freddie Mac.

(c) Freddie Mac right to review

Freddie Mac reserves the right to conduct its own review of the Condominium Project for Condominium Unit Mortgages delivered to Freddie Mac

(d) Overview of Condominium Project review and eligibility requirements and project review types

Below is a table illustrating an overview of our Condominium Project Review and eligibility requirements and project review types:

Seller must determine compliance with			
	Project review requirements in Section 5701.2(a)	General project eligibility requirements in Section 5701.2(b)	Ineligible projects Section 5701.3
Freddie Mac project review types

¹Condominium Project must meet the Glossary definition of an Established Condominium Project.

²Condominium Project must not be a Condominium Hotel or similar type of transient housing, houseboat project, timeshare project or project with segmented ownership. The Condominium Project must not include Manufactured Homes, unless the Condominium Unit Mortgage is a Refi Possible Mortgage.

5701.2: Condominium Project review and general Condominium Project eligibility requirements (Future effective date 09/04/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

The Seller must determine compliance with Freddie Mac's project review and eligibility requirements in this section.

(a) Condominium Project review requirements

Except for Condominium Unit Mortgages delivered in accordance with the requirements in Sections 5701.1(e) relating to Condominium Projects with a Project Certified status or 5701.7 relating to Exempt from Review, the Seller must ensure that:

1. The Condominium Unit Mortgage, the Condominium Unit and the Condominium Project comply with project eligibility requirements for **one** of the following project review types:
 - Streamlined reviews (Section 5701.4)
 - Established Condominium Projects (Section 5701.5)

- New Condominium Projects (Section 5701.6)
 - Reciprocal project reviews (Section 5701.9)
2. The project is not an ineligible project (Section 5701.3)

Note: If the Condominium Unit Mortgage to be delivered complies with the requirements in Section 5701.9(a), then compliance with Section 5701.3 is not required.

3. The Seller reviews and determines that a Condominium Project complies with Freddie Mac's requirements as follows:

Project review type	Expiration of project review
Streamlined reviews (Section 5701.4) Established Condominium Projects (Section 5701.5)	Within one year prior to the Note Date
New Condominium Projects (Section 5701.6)	Within 180 days prior to the Note Date

If the Condominium Project does not meet Freddie Mac's project eligibility requirements on the Note Date, the Seller may deliver the Condominium Unit Mortgage at the time the Condominium Project complies with all of the project eligibility requirements as long as all other applicable requirements have been met.

4. The Condominium Project remains in full compliance with the applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project

(b) General Condominium Project eligibility requirements

The Seller must review and determine compliance with the following requirements:

1. The project must have insurance that complies with the applicable requirements of Chapter 4703
2. The Condominium Unit must be covered by a title insurance policy that complies with requirements of Chapter 4702
3. If a Condominium Project is on a leasehold estate, the lease must comply with the requirements of Chapter 5704
4. The Seller must deliver a Condominium Unit Mortgage no later than 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the

Note Date, the Seller must update the review and determination of the Condominium Project eligibility.

5. The Seller must have policies and procedures in place, and must take appropriate steps to ensure that the Condominium Unit, the Condominium Unit Mortgage and the Condominium Project comply with applicable requirements
6. The Seller must retain all documentation related to the review of the Condominium Project. Upon request, the Seller must provide the project information and documentation to Freddie Mac.

(c) Freddie Mac right to review

Freddie Mac reserves the right to conduct its own review of the Condominium Project for Condominium Unit Mortgages delivered to Freddie Mac

(d) Overview of Condominium Project review and eligibility requirements and project review types

¹Condominium Project must meet the Glossary definition of an Established Condominium Project.

²Condominium Project must not be a Condominium Hotel or similar type of transient housing, houseboat project, timeshare project or project with segmented ownership. The Condominium Project must not include Manufactured Homes, unless the Condominium Unit Mortgage is a Refi Possible Mortgage.

³Condominium Project must comply with the owner-occupancy requirements for Investment Property Mortgages in Section 5701.5(b)(2) when specified on the Feedback Certificate.

5701.2: Condominium Project review and general Condominium Project eligibility requirements (Future effective date 09/18/23)

The Seller must determine compliance with Freddie Mac's project review and eligibility requirements in this section.

(a) Condominium Project review requirements

Except for Condominium Unit Mortgages delivered in accordance with the requirements in Sections 5701.1(e) relating to Condominium Projects with a Project Certified status or 5701.7 relating to Exempt from Review, the Seller must ensure that:

1. The Condominium Unit Mortgage, the Condominium Unit and the Condominium Project comply with project eligibility requirements for **one** of the following project review types:
 - Streamlined reviews (Section 5701.4)
 - Established Condominium Projects (Section 5701.5)
 - New Condominium Projects (Section 5701.6)
 - Reciprocal project reviews (Section 5701.9)
2. The project is not an ineligible project (Section 5701.3)

Note: If the Condominium Unit Mortgage to be delivered complies with the requirements in Section 5701.9(a), then compliance with Section 5701.3 is not required.

3. The Seller reviews and determines that a Condominium Project complies with Freddie Mac's requirements as follows:

Project review type	Expiration of project review
Streamlined reviews (Section 5701.4) Established Condominium Projects (Section 5701.5)	Within one year prior to the Note Date
New Condominium Projects (Section 5701.6)	Within 180 days prior to the Note Date

If the Condominium Project does not meet Freddie Mac's project eligibility requirements on the Note Date, the Seller may deliver the Condominium Unit Mortgage at the time the Condominium Project complies with all of the project eligibility requirements as long as all other applicable requirements have been met.

4. The Condominium Project remains in full compliance with the applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing the Condominium Project

(b) General Condominium Project eligibility requirements

The Seller must review and determine compliance with the following requirements:

1. The project must have insurance that complies with the applicable requirements of Chapter 4703
2. The Condominium Unit must be covered by a title insurance policy that complies with requirements of Chapter 4702
3. If a Condominium Project is on a leasehold estate, the lease must comply with the requirements of Chapter 5704
4. The Seller must deliver a Condominium Unit Mortgage no later than 120 days after the Note Date. If the Condominium Unit Mortgage is not delivered within 120 days after the Note Date, the Seller must update the review and determination of the Condominium Project eligibility.
5. The Seller must have policies and procedures in place, and must take appropriate steps to ensure that the Condominium Unit, the Condominium Unit Mortgage and the Condominium Project comply with applicable requirements
6. The Seller must retain all documentation related to the review of the Condominium Project. Upon request, the Seller must provide the project information and documentation to Freddie Mac.

(c) Freddie Mac right to review

Freddie Mac reserves the right to conduct its own review of the Condominium Project for Condominium Unit Mortgages delivered to Freddie Mac

(d) Overview of Condominium Project review and eligibility requirements and project review types

Below is a table illustrating an overview of our Condominium Project Review and eligibility requirements and project review types:

Seller must determine compliance with			
	Project review requirements in Section 5701.2(a)	General project eligibility requirements in Section 5701.2(b)	Ineligible projects Section 5701.3

<i>Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgage</i>		X	See Notes 2 & 4
<i>Refi Possible® Mortgage</i>		X	See Notes 2 & 4

¹Condominium Project must meet the Glossary definition of an Established Condominium Project.

²Condominium Project must not be a Condominium Hotel or similar type of transient housing, houseboat project, timeshare project or project with segmented ownership. The Condominium Project must not include Manufactured Homes, unless the Condominium Unit Mortgage is a Refi Possible Mortgage.

³Condominium Project must comply with the owner-occupancy requirements for Investment Property Mortgages in Section 5701.5(b)(2) when specified on the Feedback Certificate.

⁴Condominium Project is not in need of Critical Repairs and does not have an evacuation order. (See Sections 5701.3(n) and 5701.3(o) for details.)

5701.3: Ineligible projects (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Except Condominium Unit Mortgages delivered in accordance with the requirements in Section 5701.7, Mortgages secured by units in any of the following types of projects are not eligible for sale to Freddie Mac.

(a) Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located

A project in which, when control of the Homeowners Association (HOA) has been or will be turned over to the unit owners, the unit owners do not have either: (1) an undivided ownership interest in the land on which the project is located; or (2) a leasehold interest in the land on which the project is located.

(b) Condominium Hotel or similar type of transient housing

Any project that is a Condominium Hotel or similar type of transient housing.

1. Projects with one or more of the following characteristics are considered a Condominium Hotel and are ineligible projects:

- i. Projects and/or HOAs that are licensed, have a permit to operate, or are registered, as a hotel or a motel, even though the units may be individually owned
 - ii. Projects that impose mandatory rental-pooling (or similar agreements that restrict the unit owner's ability to occupy the unit for living purposes such as blackout dates or occupancy limits on personal use) to assure an inventory of units for rent on a frequent basis, such as daily, weekly, monthly or seasonally
 - iii. Projects with revenue-sharing agreements between unit owners and the HOA, property management, and/or rental operator contracted by the HOA or property management
2. Projects with one or more of the following characteristics are considered a type of transient housing and are ineligible projects:
 - i. Projects and/or HOAs that are licensed (or have a designated licensed agent), have a permit to operate, or are registered, as a type of transient housing (e.g., vacation rental license, short term rental registrant, etc.) for the rental of non-HOA owned units
 - ii. Condominium Projects that are conversions of a hotel (or a conversion of a similar type of transient housing) unless the project was a Gut Rehabilitation and the resulting Condominium Units no longer have the characteristics of a hotel or similar type of transient housing
 - iii. The HOA receives revenue from, or pays expenses for, hotel type services including but not limited to:
 - Registration desk services. This includes a project's front desk staff also serving as a vacation rentals employee or assisting with an onsite rental operator's registration desk or any payments received from renting units on a transient basis via the rental registration desk. It does not include any market rate rent paid by a third party for the use of a registration desk.
 - A rental registration website/hosting platform
 - iv. The HOA charges a fee, paid by either the unit owner or the unit owner's transient renters, when a unit is rented on a transient basis. This includes any surcharge to unit owners who do not elect to rent their units through the HOA's and/or property management's preferred rental operator(s). This does not include any fees charged to reimburse the cost of the wear and tear to the project's facilities and/or Amenities from the transient renters or any fees charged for reviewing the terms of the transient rental contract.
 - v. The HOA and/or its management agent, as rental operator or licensed agent, collects and remits required taxes to all applicable jurisdictions (city, county and State) such

- as transient, short term rental, and/or hotel occupancy taxes as well as sales taxes, excise taxes, etc.
- vi. The HOA provides a designated space (e.g., an HOA-owned unit, an area in the project's lobby or other Common Elements area, etc.) for the operation of an on-site rental operator free of charge to that rental operator
 - vii. Unit owners are required through the Project Documents or other contractual agreement to use a specific rental agency(ies) for their transient rentals
 - viii. The entity that manages the Condominium Project also manages its transient rentals. This does not include an entity that has independent divisions for property management and for transient rentals management, the property management division manages the Condominium Project, and unit owners are not mandated to contract with its transient rentals division.
 - ix. Residential units have restrictions on interior decorating that are imposed by the HOA or its management agent

The following are examples of personalized services and centralized systems that are common red flags of a Condominium Hotel or similar type of transient housing:

- Personalized services
 - Daily cleaning services
 - Porters/luggage service
 - Room service
- Centralized systems
 - Any central telephone service
 - Central key systems

Condominium Projects with short-term rentals, personalized services and/or centralized systems may be eligible if the Seller fully analyzes all the characteristics of the project and related information to determine if the project is not a Condominium Hotel or transient housing as described above.

As required in Section 5701.2(b)(6), the Seller must retain, and provide upon request, documentation to support its analysis that the Condominium Project is not a Condominium Hotel or similar type of transient housing as described above. Such documentation may include, but is not limited to, Project Documents (e.g., by-laws, project budgets and financial

statements), offering statements (or their equivalent) and marketing materials, websites, contracts for sale and appraisal reports.

(c) Project with multi-dwelling units

A project in which an owner may hold a single deed evidencing ownership of more than one dwelling unit.

(d) Project with excessive commercial or non-residential space

A project in which more than 35% of the total above and below grade square footage of the project (or more than 35% of the total above and below grade square footage of the building in which the project is located) is used as commercial or non-residential space.

The division of the total commercial or non-residential square footage by the total square footage of the project or building will determine the total amount of commercial or non-residential space. In calculating the amount of commercial or non-residential space, Sellers must determine:

- The total square footage of the project (or the building in which the project is located);
- The square footage of the commercial or non-residential space; and
- The residential space square footage

Below is a table illustrating what must be included or may be excluded from the calculation of commercial or non-residential space:

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Retail and other commercial or non-residential space (for example, restaurants and stores)	Yes
Residential rental apartments, hotels, motels and other similar types of space, although such space may have residential characteristics	Yes
Non-residential space that the HOA does not own, but that is owned by a private individual or entity outside of the HOA structure (for example, private fitness facilities that are membership-based rather than owned by the HOA for the sole use of the residential unit owners)	Yes

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
The total square footage of commercial or non-residential space even when the HOA representing the residential owners is different from the association representing the commercial owners	Yes
Commercial parking facilities	No
Project Amenities and facilities that are residential in nature, owned by the HOA or unit owners, and allocated for the sole use of the residential unit owners	No

(e) Tenancy-in-common apartment project

A tenancy-in-common apartment project is owned by several owners as tenants-in-common or by a Homeowners Association (HOA). Individuals have an undivided interest in the residential apartment building (including the units) and land on which the building is located, and may or may not have the right of exclusive occupancy of a specific apartment unit in the building.

(f) Timeshare project or project with segmented ownership

A project in which there is an arrangement under which a purchaser receives an interest in real estate and the right to use a unit or Amenities, or both, for a specified period and on a recurring basis such as the 15th week of the year, or ownership that is for a limited period such as for the subsequent five years.

(g) Houseboat project

A project comprised of boats that have been designed or modified to be used primarily as dwelling units.

(h) Project in which the unit owners do not possess sole ownership of the Common Elements

Unit owners in a Condominium Project must have the sole ownership in and the right to the use of the Common Elements, including all buildings, roads, parking, facilities and Amenities except as specified below.

A project with shared Amenities is eligible if two or more HOAs share the Amenities (such as recreational or fitness facilities, swimming pools and clubhouses) for the sole use of the unit owners, and the HOAs have an agreement specifying:

1. A description of the shared Amenities and the terms of the unit owners' permitted use of the shared Amenities
2. How the shared Amenities will be funded, managed and maintained, and
3. The method for resolving disputes between the HOAs regarding the shared Amenities

The developer must not retain any ownership interest in the Common Elements, facilities and Amenities, except as unit owner. The Common Elements, including parking and Amenities, such as recreational facilities, must not be subject to a lease between the unit owners or the HOA (as lessee) and any other party (as lessor), with the exception of commercial leases for parking, or permit arrangements for parking, entered into with parties unrelated to the developer.

(i) Project in litigation

A project in which: (i) the HOA is named as a party to pending litigation or the Seller discovers that the HOA is a party to an Alternative Dispute Resolution (ADR) proceeding, such as arbitration or mediation, or (ii) the project sponsor or developer is named as a party to pending litigation, or the Seller discovers that the project sponsor or developer is a party in an ADR proceeding and, in either case, the dispute relates to the safety, structural soundness, functional use or habitability of the project.

If the Seller determines that the pending litigation or ADR proceeding involves only minor matters that do not affect the safety, structural soundness, functional use or habitability of the project, the project is eligible if the litigation or ADR proceeding is limited to one of the following:

1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy;
2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (ii) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the HOA, or settlement with the HOA, including punitive damages, will likely be covered by the HOA's insurance policy. If the attorney indicates the matter will not likely be covered by the HOA's insurance policy, then the project is ineligible;
3. The matter involves:

- i. A non-monetary neighbor dispute or right of quiet enjoyment, whether litigated or in an ADR proceeding, or
 - ii. A dispute in which the HOA is the plaintiff in a foreclosure action or action for past due HOA assessments, or
 - iii. A dispute in which the HOA is the plaintiff in the litigation or a party to an ADR proceeding and is seeking reimbursement for expenditures made to repair the project's component(s). The expenditures may have included items that related to the safety, structural soundness, functional use or habitability of the project, provided that the repair permanently resolved the defect or issue, and the expenditures did not significantly impact the financial stability or future solvency of the HOA.
4. The estimated or known amount in dispute in the litigation or ADR proceeding is not expected to exceed 10% of the project's funded reserves, provided that use of the project's funded reserves to pay for project litigation or dispute resolution does not violate the applicable jurisdiction's laws and regulations

The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above.

(j) Project with excessive single investor concentration

Any project in which an individual or a single entity such as an investor group, partnership or corporation owns more than the following total number of units in the project:

Number of units in the project	Total number of units owned by individual or single entity
Five to 20	Two
21 or more	25%

- 1. For purchase transactions, a project with single investor concentration greater than specified above will be eligible provided:
 - i. The purchase transaction will result in a reduction of the single investor concentration
 - ii. The single investor must not own more than 49% of the units in the project
 - iii. The Seller obtains evidence that the single investor is marketing units for sale with the goal to decrease the single investor concentration to 25% or less of the units in the project
 - iv. The single investor is current on all HOA assessments, and

- v. There are no planned or current special assessments in the project
- 2. The following may be excluded from the single investor concentration calculation:
 - i. Vacant units being actively marketed by the developer. Any units leased by the developer must be included in the calculation of the developer's percentage of ownership.
 - ii. Units that a non-profit entity controls or owns for the purpose of providing affordable housing
 - iii. Units held in affordable housing programs (including units subject to non-eviction rent regulation codes), and
 - iv. Units retained for workforce housing by higher-education institutions

(k) Continuing Care Retirement Community (CCRC)

A CCRC is a residential project designed to meet the health and housing needs of seniors as their needs change over time. CCRCs are distinguished from age-restricted communities in that residents in CCRCs contract in advance for a lifetime commitment from the facility to care for them, regardless of the future health or housing needs. CCRCs may also be known as Life-Care Facilities.

(l) Manufactured Homes

Condominium Projects that contain Manufactured Homes are ineligible, except when they comply with the requirements in Section 5701.5 (refer to Section 5701.5(f) for additional information), or they have an "Approved by Fannie Mae" status designation in Fannie Mae's Condo Project ManagerTM (refer to Section 5701.9(a) for additional information).

(m) Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

Projects with mandatory dues or similar membership fees, including initiation or joining fees, which allow for the use of Amenities such as clubhouses or recreational facilities are ineligible unless the HOA and/or Master Association solely own the Amenities and Condominium Unit owners within the HOA or Master Association are the only persons or

entities eligible for membership. Full rights and privileges to the use of these Amenities are the primary benefit of membership.

5701.3: Ineligible projects (Future effective date 07/28/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Refer to Bulletin 2023-15, which announced updates to Condo Project Advisor® Project Assessment Request. Sellers may implement the new requirements prior to the mandatory effective September 4, 2023 version of this section.

Except Condominium Unit Mortgages delivered in accordance with the requirements in Section 5701.7, Mortgages secured by units in any of the following types of projects are not eligible for sale to Freddie Mac.

(a) Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located

A project in which, when control of the Homeowners Association (HOA) has been or will be turned over to the unit owners, the unit owners do not have either: (1) an undivided ownership interest in the land on which the project is located; or (2) a leasehold interest in the land on which the project is located.

(b) Condominium Hotel or similar type of transient housing

Any project that is a Condominium Hotel or similar type of transient housing.

1. Projects with one or more of the following characteristics are considered a Condominium Hotel and are ineligible projects:
 - i. Projects and/or HOAs that are licensed, have a permit to operate, or are registered, as a hotel or a motel, even though the units may be individually owned
 - ii. Projects that impose mandatory rental-pooling (or similar agreements that restrict the unit owner's ability to occupy the unit for living purposes such as blackout dates or occupancy limits on personal use) to assure an inventory of units for rent on a frequent basis, such as daily, weekly, monthly or seasonally
 - iii. Projects with revenue-sharing agreements between unit owners and the HOA, property management, and/or rental operator contracted by the HOA or property management

2. Projects with one or more of the following characteristics are considered a type of transient housing and are ineligible projects:
 - i. Projects and/or HOAs that are licensed (or have a designated licensed agent), have a permit to operate, or are registered, as a type of transient housing (e.g., vacation rental license, short term rental registrant, etc.) for the rental of non-HOA owned units
 - ii. Condominium Projects that are conversions of a hotel (or a conversion of a similar type of transient housing) unless the project was a Gut Rehabilitation and the resulting Condominium Units no longer have the characteristics of a hotel or similar type of transient housing
 - iii. The HOA receives revenue from, or pays expenses for, hotel type services including but not limited to:
 - Registration desk services. This includes a project's front desk staff also serving as a vacation rentals employee or assisting with an onsite rental operator's registration desk or any payments received from renting units on a transient basis via the rental registration desk. It does not include any market rate rent paid by a third party for the use of a registration desk.
 - A rental registration website/hosting platform
 - iv. The HOA charges a fee, paid by either the unit owner or the unit owner's transient renters, when a unit is rented on a transient basis. This includes any surcharge to unit owners who do not elect to rent their units through the HOA's and/or property management's preferred rental operator(s). This does not include any fees charged to reimburse the cost of the wear and tear to the project's facilities and/or Amenities from the transient renters or any fees charged for reviewing the terms of the transient rental contract.
 - v. The HOA and/or its management agent, as rental operator or licensed agent, collects and remits required taxes to all applicable jurisdictions (city, county and State) such as transient, short term rental, and/or hotel occupancy taxes as well as sales taxes, excise taxes, etc.
 - vi. The HOA provides a designated space (e.g., an HOA-owned unit, an area in the project's lobby or other Common Elements area, etc.) for the operation of an on-site rental operator free of charge to that rental operator
 - vii. Unit owners are required through the Project Documents or other contractual agreement to use a specific rental agency(ies) for their transient rentals
 - viii. The entity that manages the Condominium Project also manages its transient rentals. This does not include an entity that has independent divisions for property

management and for transient rentals management, the property management division manages the Condominium Project, and unit owners are not mandated to contract with its transient rentals division.

- ix. Residential units have restrictions on interior decorating that are imposed by the HOA or its management agent

The following are examples of personalized services and centralized systems that are common red flags of a Condominium Hotel or similar type of transient housing:

- Personalized services
 - Daily cleaning services
 - Porters/luggage service
 - Room service
- Centralized systems
 - Any central telephone service
 - Central key systems

Condominium Projects with short-term rentals, personalized services and/or centralized systems may be eligible if the Seller fully analyzes all the characteristics of the project and related information to determine if the project is not a Condominium Hotel or transient housing as described above.

As required in Section 5701.2(b)(6), the Seller must retain, and provide upon request, documentation to support its analysis that the Condominium Project is not a Condominium Hotel or similar type of transient housing as described above. Such documentation may include, but is not limited to, Project Documents (e.g., by-laws, project budgets and financial statements), offering statements (or their equivalent) and marketing materials, websites, contracts for sale and appraisal reports.

(c) Project with multi-dwelling units

A project in which an owner may hold a single deed evidencing ownership of more than one dwelling unit.

(d) Project with excessive commercial or non-residential space

A project in which more than 35% of the total above and below grade square footage of the project (or more than 35% of the total above and below grade square footage of the building

in which the project is located) is used as commercial or non-residential space.

The division of the total commercial or non-residential square footage by the total square footage of the project or building will determine the total amount of commercial or non-residential space. In calculating the amount of commercial or non-residential space, Sellers must determine:

- The total square footage of the project (or the building in which the project is located);
- The square footage of the commercial or non-residential space; and
- The residential space square footage

Below is a table illustrating what must be included or may be excluded from the calculation of commercial or non-residential space:

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Retail and other commercial or non-residential space (for example, restaurants and stores)	Yes
Residential rental apartments, hotels, motels and other similar types of space, although such space may have residential characteristics	Yes
Non-residential space that the HOA does not own, but that is owned by a private individual or entity outside of the HOA structure (for example, private fitness facilities that are membership-based rather than owned by the HOA for the sole use of the residential unit owners)	Yes
The total square footage of commercial or non-residential space even when the HOA representing the residential owners is different from the association representing the commercial owners	Yes
Commercial parking facilities	No
Project Amenities and facilities that are residential in nature, owned by the HOA or unit owners, and allocated for the sole use of the residential unit owners	No

(e) Tenancy-in-common apartment project

A tenancy-in-common apartment project is owned by several owners as tenants-in-common or by a Homeowners Association (HOA). Individuals have an undivided interest in the residential apartment building (including the units) and land on which the building is located, and may or may not have the right of exclusive occupancy of a specific apartment unit in the building.

(f) Timeshare project or project with segmented ownership

A project in which there is an arrangement under which a purchaser receives an interest in real estate and the right to use a unit or Amenities, or both, for a specified period and on a recurring basis such as the 15th week of the year, or ownership that is for a limited period such as for the subsequent five years.

(g) Houseboat project

A project comprised of boats that have been designed or modified to be used primarily as dwelling units.

(h) Project in which the unit owners do not possess sole ownership of the Common Elements

Unit owners in a Condominium Project must have the sole ownership in and the right to the use of the Common Elements, including all buildings, roads, parking, facilities and Amenities except as specified below.

A project with shared Amenities is eligible if two or more HOAs share the Amenities (such as recreational or fitness facilities, swimming pools and clubhouses) for the sole use of the unit owners, and the HOAs have an agreement specifying:

1. A description of the shared Amenities and the terms of the unit owners' permitted use of the shared Amenities
2. How the shared Amenities will be funded, managed and maintained, and
3. The method for resolving disputes between the HOAs regarding the shared Amenities

The developer must not retain any ownership interest in the Common Elements, facilities and Amenities, except as unit owner. The Common Elements, including parking and Amenities, such as recreational facilities, must not be subject to a lease between the unit owners or the HOA (as lessee) and any other party (as lessor), with the exception of commercial leases for parking, or permit arrangements for parking, entered into with parties unrelated to the developer.

(i) Project in litigation

A project in which: (i) the HOA is named as a party to pending litigation or the Seller discovers that the HOA is a party to an Alternative Dispute Resolution (ADR) proceeding, such as arbitration or mediation, or (ii) the project sponsor or developer is named as a party to pending litigation, or the Seller discovers that the project sponsor or developer is a party in an ADR proceeding and, in either case, the dispute relates to the safety, structural soundness, functional use or habitability of the project.

If the Seller determines that the pending litigation or ADR proceeding involves only minor matters that do not affect the safety, structural soundness, functional use or habitability of the project, the project is eligible if the litigation or ADR proceeding is limited to one of the following:

1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy;
2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (ii) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the HOA, or settlement with the HOA, including punitive damages, will likely be covered by the HOA's insurance policy. If the attorney indicates the matter will not likely be covered by the HOA's insurance policy, then the project is ineligible;
3. The matter involves:
 - i. A non-monetary neighbor dispute or right of quiet enjoyment, whether litigated or in an ADR proceeding, or
 - ii. A dispute in which the HOA is the plaintiff in a foreclosure action or action for past due HOA assessments, or
 - iii. A dispute in which the HOA is the plaintiff in the litigation or a party to an ADR proceeding and is seeking reimbursement for expenditures made to repair the project's component(s). The expenditures may have included items that related to the safety, structural soundness, functional use or habitability of the project, provided that the repair permanently resolved the defect or issue, and the expenditures did not significantly impact the financial stability or future solvency of the HOA.
4. The estimated or known amount in dispute in the litigation or ADR proceeding is not expected to exceed 10% of the project's funded reserves, provided that use of the project's funded reserves to pay for project litigation or dispute resolution does not violate the applicable jurisdiction's laws and regulations

The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above.

(j) Project with excessive single investor concentration

Any project in which an individual or a single entity such as an investor group, partnership or corporation owns more than the following total number of units in the project:

Number of units in the project	Total number of units owned by individual or single entity
Five to 20	Two
21 or more	25%

1. For purchase transactions, a project with single investor concentration greater than specified above will be eligible provided:
 - i. The purchase transaction will result in a reduction of the single investor concentration
 - ii. The single investor must not own more than 49% of the units in the project
 - iii. The Seller obtains evidence that the single investor is marketing units for sale with the goal to decrease the single investor concentration to 25% or less of the units in the project
 - iv. The single investor is current on all HOA assessments, and
 - v. There are no planned or current special assessments in the project
2. The following may be excluded from the single investor concentration calculation:
 - i. Vacant units being actively marketed by the developer. Any units leased by the developer must be included in the calculation of the developer's percentage of ownership.
 - ii. Units that a non-profit entity controls or owns for the purpose of providing affordable housing
 - iii. Units held in affordable housing programs (including units subject to non-eviction rent regulation codes), and
 - iv. Units retained for workforce housing by higher-education institutions

(k) Continuing Care Retirement Community (CCRC)

A CCRC is a residential project designed to meet the health and housing needs of seniors as their needs change over time. CCRCs are distinguished from age-restricted communities in that residents in CCRCs contract in advance for a lifetime commitment from the facility to care for them, regardless of the future health or housing needs. CCRCs may also be known as Life-Care Facilities.

(I) Manufactured Homes

Condominium Projects that contain Manufactured Homes are ineligible, except when they comply with the requirements in Section 5701.5 (refer to Section 5701.5(f) for additional information), or they have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project ManagerTM (refer to Section 5701.9(a) for additional information).

(m) Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

Projects with mandatory dues or similar membership fees, including initiation or joining fees, which allow for the use of Amenities such as clubhouses or recreational facilities are ineligible unless the HOA and/or Master Association solely own the Amenities and Condominium Unit owners within the HOA or Master Association are the only persons or entities eligible for membership. Full rights and privileges to the use of these Amenities are the primary benefit of membership.

5701.3: Ineligible projects (Future effective date 09/04/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Except Condominium Unit Mortgages delivered in accordance with the requirements in Sections 5701.1(e) or 5701.7, Mortgages secured by units in any of the following types of projects are not eligible for sale to Freddie Mac.

(a) Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located

A project in which, when control of the Homeowners Association (HOA) has been or will be turned over to the unit owners, the unit owners do not have either: (1) an undivided ownership interest in the land on which the project is located; or (2) a leasehold interest in the land on which the project is located.

(b) Condominium Hotel or similar type of transient housing

Any project that is a Condominium Hotel or similar type of transient housing.

1. Projects with one or more of the following characteristics are considered a Condominium Hotel and are ineligible projects:
 - i. Projects and/or HOAs that are licensed, have a permit to operate, or are registered, as a hotel or a motel, even though the units may be individually owned
 - ii. Projects that impose mandatory rental-pooling (or similar agreements that restrict the unit owner's ability to occupy the unit for living purposes such as blackout dates or occupancy limits on personal use) to assure an inventory of units for rent on a frequent basis, such as daily, weekly, monthly or seasonally
 - iii. Projects with revenue-sharing agreements between unit owners and the HOA, property management, and/or rental operator contracted by the HOA or property management
2. Projects with one or more of the following characteristics are considered a type of transient housing and are ineligible projects:
 - i. Projects and/or HOAs that are licensed (or have a designated licensed agent), have a permit to operate, or are registered, as a type of transient housing (e.g., vacation rental license, short term rental registrant, etc.) for the rental of non-HOA owned units
 - ii. Condominium Projects that are conversions of a hotel (or a conversion of a similar type of transient housing) unless the project was a Gut Rehabilitation and the resulting Condominium Units no longer have the characteristics of a hotel or similar type of transient housing
 - iii. The HOA receives revenue from, or pays expenses for, hotel type services including but not limited to:
 - Registration desk services. This includes a project's front desk staff also serving as a vacation rentals employee or assisting with an onsite rental operator's registration desk or any payments received from renting units on a transient basis via the rental registration desk. It does not include any market rate rent paid by a third party for the use of a registration desk.
 - A rental registration website/hosting platform
 - iv. The HOA charges a fee, paid by either the unit owner or the unit owner's transient renters, when a unit is rented on a transient basis. This includes any surcharge to unit owners who do not elect to rent their units through the HOA's and/or property management's preferred rental operator(s). This does not include any fees charged to

- reimburse the cost of the wear and tear to the project's facilities and/or Amenities from the transient renters or any fees charged for reviewing the terms of the transient rental contract.
- v. The HOA and/or its management agent, as rental operator or licensed agent, collects and remits required taxes to all applicable jurisdictions (city, county and State) such as transient, short term rental, and/or hotel occupancy taxes as well as sales taxes, excise taxes, etc.
 - vi. The HOA provides a designated space (e.g., an HOA-owned unit, an area in the project's lobby or other Common Elements area, etc.) for the operation of an on-site rental operator free of charge to that rental operator
 - vii. Unit owners are required through the Project Documents or other contractual agreement to use a specific rental agency(ies) for their transient rentals
 - viii. The entity that manages the Condominium Project also manages its transient rentals. This does not include an entity that has independent divisions for property management and for transient rentals management, the property management division manages the Condominium Project, and unit owners are not mandated to contract with its transient rentals division.
 - ix. Residential units have restrictions on interior decorating that are imposed by the HOA or its management agent

The following are examples of personalized services and centralized systems that are common red flags of a Condominium Hotel or similar type of transient housing:

- Personalized services
 - Daily cleaning services
 - Porters/luggage service
 - Room service
- Centralized systems
 - Any central telephone service
 - Central key systems

Condominium Projects with short-term rentals, personalized services and/or centralized systems may be eligible if the Seller fully analyzes all the characteristics of the project and related information to determine if the project is not a Condominium Hotel or transient housing as described above.

As required in Section 5701.2(b)(6), the Seller must retain, and provide upon request, documentation to support its analysis that the Condominium Project is not a Condominium Hotel or similar type of transient housing as described above. Such documentation may include, but is not limited to, Project Documents (e.g., by-laws, project budgets and financial statements), offering statements (or their equivalent) and marketing materials, websites, contracts for sale and appraisal reports.

(c) Project with multi-dwelling units

A project in which an owner may hold a single deed evidencing ownership of more than one dwelling unit.

(d) Project with excessive commercial or non-residential space

A project in which more than 35% of the total above and below grade square footage of the project (or more than 35% of the total above and below grade square footage of the building in which the project is located) is used as commercial or non-residential space.

The division of the total commercial or non-residential square footage by the total square footage of the project or building will determine the total amount of commercial or non-residential space. In calculating the amount of commercial or non-residential space, Sellers must determine:

- The total square footage of the project (or the building in which the project is located);
- The square footage of the commercial or non-residential space; and
- The residential space square footage

Below is a table illustrating what must be included or may be excluded from the calculation of commercial or non-residential space:

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Retail and other commercial or non-residential space (for example, restaurants and stores)	Yes
Residential rental apartments, hotels, motels and other similar types of space, although such space may have residential characteristics	Yes

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Non-residential space that the HOA does not own, but that is owned by a private individual or entity outside of the HOA structure (for example, private fitness facilities that are membership-based rather than owned by the HOA for the sole use of the residential unit owners)	Yes
The total square footage of commercial or non-residential space even when the HOA representing the residential owners is different from the association representing the commercial owners	Yes
Commercial parking facilities	No
Project Amenities and facilities that are residential in nature, owned by the HOA or unit owners, and allocated for the sole use of the residential unit owners	No

(e) Tenancy-in-common apartment project

A tenancy-in-common apartment project is owned by several owners as tenants-in-common or by a Homeowners Association (HOA). Individuals have an undivided interest in the residential apartment building (including the units) and land on which the building is located, and may or may not have the right of exclusive occupancy of a specific apartment unit in the building.

(f) Timeshare project or project with segmented ownership

A project in which there is an arrangement under which a purchaser receives an interest in real estate and the right to use a unit or Amenities, or both, for a specified period and on a recurring basis such as the 15th week of the year, or ownership that is for a limited period such as for the subsequent five years.

(g) Houseboat project

A project comprised of boats that have been designed or modified to be used primarily as dwelling units.

(h) Project in which the unit owners do not possess sole ownership of the Common Elements

Unit owners in a Condominium Project must have the sole ownership in and the right to the use of the Common Elements, including all buildings, roads, parking, facilities and Amenities except as specified below.

A project with shared Amenities is eligible if two or more HOAs share the Amenities (such as recreational or fitness facilities, swimming pools and clubhouses) for the sole use of the unit owners, and the HOAs have an agreement specifying:

1. A description of the shared Amenities and the terms of the unit owners' permitted use of the shared Amenities
2. How the shared Amenities will be funded, managed and maintained, and
3. The method for resolving disputes between the HOAs regarding the shared Amenities

The developer must not retain any ownership interest in the Common Elements, facilities and Amenities, except as unit owner. The Common Elements, including parking and Amenities, such as recreational facilities, must not be subject to a lease between the unit owners or the HOA (as lessee) and any other party (as lessor), with the exception of commercial leases for parking, or permit arrangements for parking, entered into with parties unrelated to the developer.

(i) Project in litigation

A project in which: (i) the HOA is named as a party to pending litigation or the Seller discovers that the HOA is a party to an Alternative Dispute Resolution (ADR) proceeding, such as arbitration or mediation, or (ii) the project sponsor or developer is named as a party to pending litigation, or the Seller discovers that the project sponsor or developer is a party in an ADR proceeding and, in either case, the dispute relates to the safety, structural soundness, functional use or habitability of the project.

If the Seller determines that the pending litigation or ADR proceeding involves only minor matters that do not affect the safety, structural soundness, functional use or habitability of the project, the project is eligible if the litigation or ADR proceeding is limited to one of the following:

1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy;
2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (ii) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the HOA, or settlement with the HOA, including punitive damages, will likely be

covered by the HOA's insurance policy. If the attorney indicates the matter will not likely be covered by the HOA's insurance policy, then the project is ineligible;

3. The matter involves:
 - i. A non-monetary neighbor dispute or right of quiet enjoyment, whether litigated or in an ADR proceeding, or
 - ii. A dispute in which the HOA is the plaintiff in a foreclosure action or action for past due HOA assessments, or
 - iii. A dispute in which the HOA is the plaintiff in the litigation or a party to an ADR proceeding and is seeking reimbursement for expenditures made to repair the project's component(s). The expenditures may have included items that related to the safety, structural soundness, functional use or habitability of the project, provided that the repair permanently resolved the defect or issue, and the expenditures did not significantly impact the financial stability or future solvency of the HOA.
4. The estimated or known amount in dispute in the litigation or ADR proceeding is not expected to exceed 10% of the project's funded reserves, provided that use of the project's funded reserves to pay for project litigation or dispute resolution does not violate the applicable jurisdiction's laws and regulations

The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above.

(j) Project with excessive single investor concentration

Any project in which an individual or a single entity such as an investor group, partnership or corporation owns more than the following total number of units in the project:

Number of units in the project	Total number of units owned by individual or single entity
Five to 20	Two
21 or more	25%

1. For purchase transactions, a project with single investor concentration greater than specified above will be eligible provided:
 - i. The purchase transaction will result in a reduction of the single investor concentration
 - ii. The single investor must not own more than 49% of the units in the project

- iii. The Seller obtains evidence that the single investor is marketing units for sale with the goal to decrease the single investor concentration to 25% or less of the units in the project
 - iv. The single investor is current on all HOA assessments, and
 - v. There are no planned or current special assessments in the project
2. The following may be excluded from the single investor concentration calculation:
- i. Vacant units being actively marketed by the developer. Any units leased by the developer must be included in the calculation of the developer's percentage of ownership.
 - ii. Units that a non-profit entity controls or owns for the purpose of providing affordable housing
 - iii. Units held in affordable housing programs (including units subject to non-eviction rent regulation codes), and
 - iv. Units retained for workforce housing by higher-education institutions

(k) Continuing Care Retirement Community (CCRC)

A CCRC is a residential project designed to meet the health and housing needs of seniors as their needs change over time. CCRCs are distinguished from age-restricted communities in that residents in CCRCs contract in advance for a lifetime commitment from the facility to care for them, regardless of the future health or housing needs. CCRCs may also be known as Life-Care Facilities.

(l) Manufactured Homes

Condominium Projects that contain Manufactured Homes are ineligible, except when they comply with the requirements in Section 5701.5 (refer to Section 5701.5(f) for additional information), or they have an "Approved by Fannie Mae" status designation in Fannie Mae's Condo Project ManagerTM (refer to Section 5701.9(a) for additional information).

(m) Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

Projects with mandatory dues or similar membership fees, including initiation or joining fees, which allow for the use of Amenities such as clubhouses or recreational facilities are ineligible unless the HOA and/or Master Association solely own the Amenities and Condominium Unit owners within the HOA or Master Association are the only persons or

entities eligible for membership. Full rights and privileges to the use of these Amenities are the primary benefit of membership.

5701.3: Ineligible projects (Future effective date 09/18/23)

Except Condominium Unit Mortgages delivered in accordance with the requirements in Sections 5701.1(e) or 5701.7, Mortgages secured by units in any of the following types of projects are not eligible for sale to Freddie Mac.

(a) Projects in which the unit owners do not have an undivided ownership interest or leasehold interest in the land on which the project is located

A project in which, when control of the Homeowners Association (HOA) has been or will be turned over to the unit owners, the unit owners do not have either: (1) an undivided ownership interest in the land on which the project is located; or (2) a leasehold interest in the land on which the project is located.

(b) Condominium Hotel or similar type of transient housing

Any project that is a Condominium Hotel or similar type of transient housing.

1. Projects with one or more of the following characteristics are considered a Condominium Hotel and are ineligible projects:
 - i. Projects and/or HOAs that are licensed, have a permit to operate, or are registered, as a hotel or a motel, even though the units may be individually owned
 - ii. Projects that impose mandatory rental-pooling (or similar agreements that restrict the unit owner's ability to occupy the unit for living purposes such as blackout dates or occupancy limits on personal use) to assure an inventory of units for rent on a frequent basis, such as daily, weekly, monthly or seasonally
 - iii. Projects with revenue-sharing agreements between unit owners and the HOA, property management, and/or rental operator contracted by the HOA or property management
2. Projects with one or more of the following characteristics are considered a type of transient housing and are ineligible projects:
 - i. Projects and/or HOAs that are licensed (or have a designated licensed agent), have a permit to operate, or are registered, as a type of transient housing (e.g., vacation rental license, short term rental registrant, etc.) for the rental of non-HOA owned units

- ii. Condominium Projects that are conversions of a hotel (or a conversion of a similar type of transient housing) unless the project was a Gut Rehabilitation and the resulting Condominium Units no longer have the characteristics of a hotel or similar type of transient housing
- iii. The HOA receives revenue from, or pays expenses for, hotel type services including but not limited to:
 - Registration desk services. This includes a project's front desk staff also serving as a vacation rentals employee or assisting with an onsite rental operator's registration desk or any payments received from renting units on a transient basis via the rental registration desk. It does not include any market rate rent paid by a third party for the use of a registration desk.
 - A rental registration website/hosting platform
- iv. The HOA charges a fee, paid by either the unit owner or the unit owner's transient renters, when a unit is rented on a transient basis. This includes any surcharge to unit owners who do not elect to rent their units through the HOA's and/or property management's preferred rental operator(s). This does not include any fees charged to reimburse the cost of the wear and tear to the project's facilities and/or Amenities from the transient renters or any fees charged for reviewing the terms of the transient rental contract.
- v. The HOA and/or its management agent, as rental operator or licensed agent, collects and remits required taxes to all applicable jurisdictions (city, county and State) such as transient, short term rental, and/or hotel occupancy taxes as well as sales taxes, excise taxes, etc.
- vi. The HOA provides a designated space (e.g., an HOA-owned unit, an area in the project's lobby or other Common Elements area, etc.) for the operation of an on-site rental operator free of charge to that rental operator
- vii. Unit owners are required through the Project Documents or other contractual agreement to use a specific rental agency(ies) for their transient rentals
- viii. The entity that manages the Condominium Project also manages its transient rentals. This does not include an entity that has independent divisions for property management and for transient rentals management, the property management division manages the Condominium Project, and unit owners are not mandated to contract with its transient rentals division.
- ix. Residential units have restrictions on interior decorating that are imposed by the HOA or its management agent

The following are examples of personalized services and centralized systems that are common red flags of a Condominium Hotel or similar type of transient housing:

- Personalized services
 - Daily cleaning services
 - Porters/luggage service
 - Room service
- Centralized systems
 - Any central telephone service
 - Central key systems

Condominium Projects with short-term rentals, personalized services and/or centralized systems may be eligible if the Seller fully analyzes all the characteristics of the project and related information to determine if the project is not a Condominium Hotel or transient housing as described above.

As required in Section 5701.2(b)(6), the Seller must retain, and provide upon request, documentation to support its analysis that the Condominium Project is not a Condominium Hotel or similar type of transient housing as described above. Such documentation may include, but is not limited to, Project Documents (e.g., by-laws, project budgets and financial statements), offering statements (or their equivalent) and marketing materials, websites, contracts for sale and appraisal reports.

(c) Project with multi-dwelling units

A project in which an owner may hold a single deed evidencing ownership of more than one dwelling unit.

(d) Project with excessive commercial or non-residential space

A project in which more than 35% of the total above and below grade square footage of the project (or more than 35% of the total above and below grade square footage of the building in which the project is located) is used as commercial or non-residential space.

The division of the total commercial or non-residential square footage by the total square footage of the project or building will determine the total amount of commercial or non-residential space. In calculating the amount of commercial or non-residential space, Sellers must determine:

- The total square footage of the project (or the building in which the project is located);

- The square footage of the commercial or non-residential space; and
- The residential space square footage

Below is a table illustrating what must be included or may be excluded from the calculation of commercial or non-residential space:

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Retail and other commercial or non-residential space (for example, restaurants and stores)	Yes
Residential rental apartments, hotels, motels and other similar types of space, although such space may have residential characteristics	Yes
Non-residential space that the HOA does not own, but that is owned by a private individual or entity outside of the HOA structure (for example, private fitness facilities that are membership-based rather than owned by the HOA for the sole use of the residential unit owners)	Yes
The total square footage of commercial or non-residential space even when the HOA representing the residential owners is different from the association representing the commercial owners	Yes
Commercial parking facilities	No
Project Amenities and facilities that are residential in nature, owned by the HOA or unit owners, and allocated for the sole use of the residential unit owners	No

(e) Tenancy-in-common apartment project

A tenancy-in-common apartment project is owned by several owners as tenants-in-common or by a Homeowners Association (HOA). Individuals have an undivided interest in the residential apartment building (including the units) and land on which the building is located, and may or may not have the right of exclusive occupancy of a specific apartment unit in the building.

(f) Timeshare project or project with segmented ownership

A project in which there is an arrangement under which a purchaser receives an interest in real estate and the right to use a unit or Amenities, or both, for a specified period and on a recurring basis such as the 15th week of the year, or ownership that is for a limited period such as for the subsequent five years.

(g) Houseboat project

A project comprised of boats that have been designed or modified to be used primarily as dwelling units.

(h) Project in which the unit owners do not possess sole ownership of the Common Elements

Unit owners in a Condominium Project must have the sole ownership in and the right to the use of the Common Elements, including all buildings, roads, parking, facilities and Amenities except as specified below.

A project with shared Amenities is eligible if two or more HOAs share the Amenities (such as recreational or fitness facilities, swimming pools and clubhouses) for the sole use of the unit owners, and the HOAs have an agreement specifying:

1. A description of the shared Amenities and the terms of the unit owners' permitted use of the shared Amenities
2. How the shared Amenities will be funded, managed and maintained, and
3. The method for resolving disputes between the HOAs regarding the shared Amenities

The developer must not retain any ownership interest in the Common Elements, facilities and Amenities, except as unit owner. The Common Elements, including parking and Amenities, such as recreational facilities, must not be subject to a lease between the unit owners or the HOA (as lessee) and any other party (as lessor), with the exception of commercial leases for parking, or permit arrangements for parking, entered into with parties unrelated to the developer.

(i) Project in litigation

A project in which: (i) the HOA is named as a party to pending litigation or the Seller discovers that the HOA is a party to an Alternative Dispute Resolution (ADR) proceeding, such as arbitration or mediation, or (ii) the project sponsor or developer is named as a party to pending litigation, or the Seller discovers that the project sponsor or developer is a party in an ADR proceeding and, in either case, the dispute relates to the safety, structural soundness, functional use or habitability of the project.

If the Seller determines that the pending litigation or ADR proceeding involves only minor matters that do not affect the safety, structural soundness, functional use or habitability of the project, the project is eligible if the litigation or ADR proceeding is limited to one of the following:

1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy;
2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (ii) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the HOA, or settlement with the HOA, including punitive damages, will likely be covered by the HOA's insurance policy. If the attorney indicates the matter will not likely be covered by the HOA's insurance policy, then the project is ineligible;
3. The matter involves:
 - i. A non-monetary neighbor dispute or right of quiet enjoyment, whether litigated or in an ADR proceeding, or
 - ii. A dispute in which the HOA is the plaintiff in a foreclosure action or action for past due HOA assessments, or
 - iii. A dispute in which the HOA is the plaintiff in the litigation or a party to an ADR proceeding and is seeking reimbursement for expenditures made to repair the project's component(s). The expenditures may have included items that related to the safety, structural soundness, functional use or habitability of the project, provided that the repair permanently resolved the defect or issue, and the expenditures did not significantly impact the financial stability or future solvency of the HOA.
4. The estimated or known amount in dispute in the litigation or ADR proceeding is not expected to exceed 10% of the project's funded reserves, provided that use of the project's funded reserves to pay for project litigation or dispute resolution does not violate the applicable jurisdiction's laws and regulations

The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above.

(j) Project with excessive single investor concentration

Any project in which an individual or a single entity such as an investor group, partnership or corporation owns more than the following total number of units in the project:

Number of units in the project	Total number of units owned by individual or single entity
Five to 20	Two
21 or more	25%

1. For purchase transactions, a project with single investor concentration greater than specified above will be eligible provided:
 - i. The purchase transaction will result in a reduction of the single investor concentration
 - ii. The single investor must not own more than 49% of the units in the project
 - iii. The Seller obtains evidence that the single investor is marketing units for sale with the goal to decrease the single investor concentration to 25% or less of the units in the project
 - iv. The single investor is current on all HOA assessments, and
 - v. There are no planned or current special assessments in the project
2. The following may be excluded from the single investor concentration calculation:
 - i. Vacant units being actively marketed by the developer. Any units leased by the developer must be included in the calculation of the developer's percentage of ownership.
 - ii. Units that a non-profit entity controls or owns for the purpose of providing affordable housing
 - iii. Units held in affordable housing programs (including units subject to non-eviction rent regulation codes), and
 - iv. Units retained for workforce housing by higher-education institutions

(k) Continuing Care Retirement Community (CCRC)

A CCRC is a residential project designed to meet the health and housing needs of seniors as their needs change over time. CCRCs are distinguished from age-restricted communities in that residents in CCRCs contract in advance for a lifetime commitment from the facility to care for them, regardless of the future health or housing needs. CCRCs may also be known as Life-Care Facilities.

(I) Manufactured Homes

Condominium Projects that contain Manufactured Homes are ineligible, except when they comply with the requirements in Section 5701.5 (refer to Section 5701.5(f) for additional information), or they have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (refer to Section 5701.9(a) for additional information).

(m) Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

Projects with mandatory dues or similar membership fees, including initiation or joining fees, which allow for the use of Amenities such as clubhouses or recreational facilities are ineligible unless the HOA and/or Master Association solely own the Amenities and Condominium Unit owners within the HOA or Master Association are the only persons or entities eligible for membership. Full rights and privileges to the use of these Amenities are the primary benefit of membership.

(n) Project in need of Critical Repairs

Mortgages secured by units in Condominium Projects in need of Critical Repairs, as defined in the Glossary, are not eligible for sale to Freddie Mac.

For both current and planned (i.e., unit owners approved but the board has not initiated collection yet) special assessments, Seller must obtain and review the following information for each special assessment to determine if the funds are for a Critical Repair:

- The purpose of the special assessment,
- When the special assessment was approved,
- The original amount of the special assessment,
- The amount remaining to be collected, and
- The expected date the special assessment will be paid in full

If a structural and/or mechanical inspection has been completed within 3 years of Seller’s project review date, Seller must review that inspection report. There must not be any Critical Repairs needed, as well as no current evacuation orders or similar regulatory actions.

Projects in need of Critical Repairs remain ineligible until the required repairs and/or inspection report have been completed and documented. Sellers must review an engineer’s report or substantially similar document to determine that the repairs resolved the building’s safety, soundness, structural integrity, or habitability concerns.

If damage or deferred maintenance is isolated to one or a few units and does not affect the overall safety, soundness, structural integrity, or habitability of the project, then this project eligibility requirement does not apply.

This requirement does not apply to Routine Repairs, as defined in the Glossary.

Sellers may need to review a combination of documents to determine a project meets our physical condition requirements. Some examples include but are not limited to:

- Homeowners association board meeting minutes
- Engineer's reports
- Structural and/or mechanical inspection reports
- Reserve studies
- List of necessary repairs provided by the HOA or management company,
- List of special assessments provided by the HOA or management company, and/or
- Other substantially similar documentation

This list is not prescriptive or exhaustive. Sellers are responsible for determining which documents they need to review to ensure compliance with this requirement

(o) Project with an evacuation order

A project with an evacuation order due to an unsafe condition, either for a partial or total evacuation of the project's building(s), is ineligible until the unsafe condition has been remediated and the building(s) is safe for occupancy.

5701.4: Streamlined reviews (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

In addition to the project review and eligibility requirements in Section 5701.2, Condominium Unit Mortgages must comply with all of the following requirements to be eligible for the streamlined project review type.

(a) Project type

The Condominium Unit must be located in an Established Condominium Project.

(b) Maximum loan-to-value/total LTV/Home Equity Line of Credit TLTV ratios

The Mortgage must not exceed the loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) (HTLTV) ratios for the occupancy type as indicated in the following charts:

Occupancy type	Maximum LTV/TLTV/HTLTV ratios	
	Projects not located in Florida	Projects located in Florida
Primary Residence	90%	75/90/90%
Second Home	75%	70/75/75%
Investment Property	75%	70/75/75%

Note: If the requirements for streamlined reviews in this Section 5701.4 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.5, 5701.6, 5701.7 and 5701.9.

5701.4: Streamlined reviews (Future effective date 09/18/23)

In addition to the project review and eligibility requirements in Section 5701.2, Condominium Unit Mortgages must comply with all of the following requirements to be eligible for the streamlined project review type.

(a) Project type

The Condominium Unit must be located in an Established Condominium Project.

(b) Maximum loan-to-value/total LTV/Home Equity Line of Credit TLTV ratios

The Mortgage must not exceed the loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) (HTLTV) ratios for the occupancy type as indicated in the following charts:

Occupancy type	Maximum LTV/TLTV/HTLTV ratios	
	Projects not located in Florida	Projects located in Florida
Primary Residence	90%	75/90/90%

Second Home	75%	70/75/75%
Investment Property	75%	70/75/75%

(c) Special assessments

No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of each special assessment.

Note: If the requirements for streamlined reviews in this Section 5701.4 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.5, 5701.6, 5701.7 and 5701.9.

5701.5: Established Condominium Projects (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

To be eligible for the Established Condominium Projects review type, the Condominium Project must meet the definition of an Established Condominium Project.

In addition to the project review and eligibility requirements in Section 5701.2, if the Mortgages secured by Condominium Units in Established Condominium Projects do not comply with the eligibility requirements for streamlined reviews in Section 5701.4, the Mortgages must comply with all of the following eligibility requirements:

(a) Project completion requirements for Established Condominium Projects

All units, Common Elements and Amenities must be complete.

(b) Owner-occupancy requirements for Established Condominium Projects

1. If the property will be used as a Primary Residence or second home, there is no owner-occupancy requirement for the Condominium Project
2. If the property will be used as an Investment Property, at least 50% of the total number of Condominium Units in the Condominium Project must have been conveyed to purchasers who occupy their units as a Primary Residence or second home

(c) Project budget requirements for Established Condominium Projects

The project's budget for the current fiscal year must comply with the following:

1. Be consistent with the nature of the project
2. Appropriate assessments must be established to manage the project
3. There must be appropriate allocations for line items pertinent to the type and status of the Condominium Project
4. There must be adequate funding for insurance deductible amounts
5. At least 10% of the budget must provide funding for replacement reserves for capital expenditures and deferred maintenance based on the project's age, estimated remaining life and replacement cost of major Common Elements
 - The replacement reserve percentage is determined by dividing: (i) the annual budgeted replacement reserve allocation by (ii) the homeowners association's (HOA's) annual budgeted assessment income (including regular common expense fees)
 - The calculation may exclude: (i) special assessment income, (ii) income allocated to or in reserve accounts, (iii) incidental income not relied upon for maintenance operations or capital improvements and (iv) amounts collected from unit owners (but usually paid individually by them) for items or utilities such as internet access
6. A Seller may rely on a reserve study instead of the project budget providing a replacement reserve of at least 10%, provided the conditions in section (e) below are met
7. An HOA must not receive more than 10% of its budgeted income from the rental or leasing of commercial parking facilities

(d) Delinquent assessments for Established Condominium Projects

No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of their HOA assessments.

(e) Requirements when a Seller relies on a project reserve study for Established Condominium Projects

The reserve study must comply with the following requirements:

1. The reserve study generally must include:
 - An inventory of major components of the project
 - Financial analysis and evaluation of current reserve fund adequacy, and
 - Proposed annual reserve funding plan

2. A reserve study's financial analysis must validate that the project has appropriately allocated the recommended reserve funds to provide the Condominium Project with sufficient financial protection comparable to Freddie Mac's standard budget requirements for replacement reserves
3. The reserve study's annual reserve funding plan, which details total costs identified for replacement components, must meet or exceed the study's recommendation and conclusion
4. The most current reserve study (or update) must be dated within 36 months of the Seller's determination that a Condominium Project is eligible (see Section 5701.2(a)(3))
5. The reserve study must be prepared by an independent expert skilled in performing such studies (such as a reserve study professional, a construction engineer, a certified public accountant who specializes in reserve studies or any professional with demonstrated experience and knowledge in completing reserve studies)
6. The reserve study must meet or exceed requirements set forth in any applicable state statutes
7. The reserve study must comment favorably on the project's age, estimated remaining life, structural integrity and the replacement of major components

If the Seller relies on a reserve study that meets the requirements of this section, the project's budget must contain appropriate allocations to support the costs identified in the study.

The Seller must obtain and retain in the Mortgage file a copy of the reserve study. The Seller must also perform an analysis of the study and retain this analysis in the Mortgage file.

(f) Manufactured Homes

To be eligible:

1. The Mortgage must be secured by a Detached Condominium Unit
2. The subject Manufactured Home must meet the requirements in Chapter 5703
3. The subject Manufactured Home must not be a single-wide Manufactured Home
4. Although Section 5701.3(a) states otherwise, the Condominium Project's unit owners must only have an undivided ownership interest in the land on which the project is located
5. The Condominium Project must not have campgrounds or other facilities for transient or mobile units

For Condominium Unit Mortgages secured by Condominium Units located in Condominium Projects that contain Manufactured Homes that do not comply with these requirements, the projects must have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (refer to Section 5701.9(a) for additional information) for the Mortgages to be eligible for sale to Freddie Mac.

Note: If the requirements for Established Condominium Projects in this Section 5701.5 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.6, 5701.7 and 5701.9.

5701.5: Established Condominium Projects (Future effective date 07/28/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Refer to Bulletin 2023-15, which announced updates to Condo Project Advisor® Project Assessment Request. Sellers may implement the new requirements prior to the mandatory effective September 4, 2023 version of this section.

To be eligible for the Established Condominium Projects review type, the Condominium Project must meet the definition of an Established Condominium Project.

In addition to the project review and eligibility requirements in Section 5701.2, if the Mortgages secured by Condominium Units in Established Condominium Projects do not comply with the eligibility requirements for streamlined reviews in Section 5701.4, the Mortgages must comply with all of the following eligibility requirements:

(a) Project completion requirements for Established Condominium Projects

All units, Common Elements and Amenities must be complete.

(b) Owner-occupancy requirements for Established Condominium Projects

1. If the property will be used as a Primary Residence or second home, there is no owner-occupancy requirement for the Condominium Project
2. If the property will be used as an Investment Property, at least 50% of the total number of Condominium Units in the Condominium Project must have been conveyed to purchasers who occupy their units as a Primary Residence or second home

(c) Project budget requirements for Established Condominium Projects

The project's budget for the current fiscal year must comply with the following:

1. Be consistent with the nature of the project
2. Appropriate assessments must be established to manage the project
3. There must be appropriate allocations for line items pertinent to the type and status of the Condominium Project
4. There must be adequate funding for insurance deductible amounts
5. At least 10% of the budget must provide funding for replacement reserves for capital expenditures and deferred maintenance based on the project's age, estimated remaining life and replacement cost of major Common Elements
 - The replacement reserve percentage is determined by dividing: (i) the annual budgeted replacement reserve allocation by (ii) the homeowners association's (HOA's) annual budgeted assessment income (including regular common expense fees)
 - The calculation may exclude: (i) special assessment income, (ii) income allocated to or in reserve accounts, (iii) incidental income not relied upon for maintenance operations or capital improvements and (iv) amounts collected from unit owners (but usually paid individually by them) for items or utilities such as internet access
6. A Seller may rely on a reserve study instead of the project budget providing a replacement reserve of at least 10%, provided the conditions in section (e) below are met
7. An HOA must not receive more than 10% of its budgeted income from the rental or leasing of commercial parking facilities

(d) Delinquent assessments for Established Condominium Projects

No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of their HOA assessments.

(e) Requirements when a Seller relies on a project reserve study for Established Condominium Projects

The reserve study must comply with the following requirements:

1. The reserve study generally must include:
 - An inventory of major components of the project

- Financial analysis and evaluation of current reserve fund adequacy, and
 - Proposed annual reserve funding plan
2. A reserve study's financial analysis must validate that the project has appropriately allocated the recommended reserve funds to provide the Condominium Project with sufficient financial protection comparable to Freddie Mac's standard budget requirements for replacement reserves
 3. The reserve study's annual reserve funding plan, which details total costs identified for replacement components, must meet or exceed the study's recommendation and conclusion
 4. The most current reserve study (or update) must be dated within 36 months of the Seller's determination that a Condominium Project is eligible (see Section 5701.2(a)(3))
 5. The reserve study must be prepared by an independent expert skilled in performing such studies (such as a reserve study professional, a construction engineer, a certified public accountant who specializes in reserve studies or any professional with demonstrated experience and knowledge in completing reserve studies)
 6. The reserve study must meet or exceed requirements set forth in any applicable state statutes
 7. The reserve study must comment favorably on the project's age, estimated remaining life, structural integrity and the replacement of major components

If the Seller relies on a reserve study that meets the requirements of this section, the project's budget must contain appropriate allocations to support the costs identified in the study.

The Seller must obtain and retain in the Mortgage file a copy of the reserve study. The Seller must also perform an analysis of the study and retain this analysis in the Mortgage file.

(f) Manufactured Homes

To be eligible:

1. The Mortgage must be secured by a Detached Condominium Unit
2. The subject Manufactured Home must meet the requirements in Chapter 5703
3. The subject Manufactured Home must not be a single-wide Manufactured Home

4. Although Section 5701.3(a) states otherwise, the Condominium Project's unit owners must only have an undivided ownership interest in the land on which the project is located
5. The Condominium Project must not have campgrounds or other facilities for transient or mobile units

For Condominium Unit Mortgages secured by Condominium Units located in Condominium Projects that contain Manufactured Homes that do not comply with these requirements, the projects must have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (refer to Section 5701.9(a) for additional information) for the Mortgages to be eligible for sale to Freddie Mac.

Note: If the requirements for Established Condominium Projects in this Section 5701.5 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.6, 5701.7 and 5701.9.

5701.5: Established Condominium Projects (Future effective date 09/04/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

To be eligible for the Established Condominium Projects review type, the Condominium Project must meet the definition of an Established Condominium Project.

If the Mortgages secured by Condominium Units in Established Condominium Projects do not comply with the eligibility requirements for (i) Condominium Projects with a Project Certified PAR status or (ii) streamlined reviews, the Mortgages must comply with all of the following eligibility requirements in addition to the project review and eligibility requirements in Section 5701.2. See Section 5701.1(e) for Project Certified requirements and Section 5701.4 for streamlined review requirements.

(a) Project completion requirements for Established Condominium Projects

All units, Common Elements and Amenities must be complete.

(b) Owner-occupancy requirements for Established Condominium Projects

1. If the property will be used as a Primary Residence or second home, there is no owner-occupancy requirement for the Condominium Project

2. If the property will be used as an Investment Property, at least 50% of the total number of Condominium Units in the Condominium Project must have been conveyed to purchasers who occupy their units as a Primary Residence or second home

(c) Project budget requirements for Established Condominium Projects

The project's budget for the current fiscal year must comply with the following:

1. Be consistent with the nature of the project
2. Appropriate assessments must be established to manage the project
3. There must be appropriate allocations for line items pertinent to the type and status of the Condominium Project
4. There must be adequate funding for insurance deductible amounts
5. At least 10% of the budget must provide funding for replacement reserves for capital expenditures and deferred maintenance based on the project's age, estimated remaining life and replacement cost of major Common Elements
 - The replacement reserve percentage is determined by dividing: (i) the annual budgeted replacement reserve allocation by (ii) the homeowners association's (HOA's) annual budgeted assessment income (including regular common expense fees)
 - The calculation may exclude: (i) special assessment income, (ii) income allocated to or in reserve accounts, (iii) incidental income not relied upon for maintenance operations or capital improvements and (iv) amounts collected from unit owners (but usually paid individually by them) for items or utilities such as internet access
6. A Seller may rely on a reserve study instead of the project budget providing a replacement reserve of at least 10%, provided the conditions in section (e) below are met
7. An HOA must not receive more than 10% of its budgeted income from the rental or leasing of commercial parking facilities

(d) Delinquent assessments for Established Condominium Projects

No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of their HOA assessments.

(e) Requirements when a Seller relies on a project reserve study for Established Condominium Projects

The reserve study must comply with the following requirements:

1. The reserve study generally must include:
 - An inventory of major components of the project
 - Financial analysis and evaluation of current reserve fund adequacy, and
 - Proposed annual reserve funding plan
2. A reserve study's financial analysis must validate that the project has appropriately allocated the recommended reserve funds to provide the Condominium Project with sufficient financial protection comparable to Freddie Mac's standard budget requirements for replacement reserves
3. The reserve study's annual reserve funding plan, which details total costs identified for replacement components, must meet or exceed the study's recommendation and conclusion
4. The most current reserve study (or update) must be dated within 36 months of the Seller's determination that a Condominium Project is eligible (see Section 5701.2(a)(3))
5. The reserve study must be prepared by an independent expert skilled in performing such studies (such as a reserve study professional, a construction engineer, a certified public accountant who specializes in reserve studies or any professional with demonstrated experience and knowledge in completing reserve studies)
6. The reserve study must meet or exceed requirements set forth in any applicable state statutes
7. The reserve study must comment favorably on the project's age, estimated remaining life, structural integrity and the replacement of major components

If the Seller relies on a reserve study that meets the requirements of this section, the project's budget must contain appropriate allocations to support the costs identified in the study.

The Seller must obtain and retain in the Mortgage file a copy of the reserve study. The Seller must also perform an analysis of the study and retain this analysis in the Mortgage file.

(f) Manufactured Homes

To be eligible:

1. The Mortgage must be secured by a Detached Condominium Unit
2. The subject Manufactured Home must meet the requirements in Chapter 5703

3. The subject Manufactured Home must not be a single-wide Manufactured Home
4. Although Section 5701.3(a) states otherwise, the Condominium Project's unit owners must only have an undivided ownership interest in the land on which the project is located
5. The Condominium Project must not have campgrounds or other facilities for transient or mobile units

For Condominium Unit Mortgages secured by Condominium Units located in Condominium Projects that contain Manufactured Homes that do not comply with these requirements, the projects must have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (refer to Section 5701.9(a) for additional information) for the Mortgages to be eligible for sale to Freddie Mac.

Note: If the requirements for Established Condominium Projects in this Section 5701.5 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.6, 5701.7 and 5701.9.

5701.5: Established Condominium Projects (Future effective date 09/18/23)

To be eligible for the Established Condominium Projects review type, the Condominium Project must meet the definition of an Established Condominium Project.

If the Mortgages secured by Condominium Units in Established Condominium Projects do not comply with the eligibility requirements for (i) Condominium Projects with a Project Certified PAR status or (ii) streamlined reviews, the Mortgages must comply with all of the following eligibility requirements in addition to the project review and eligibility requirements in Section 5701.2. See Section 5701.1(e) for Project Certified requirements and Section 5701.4 for streamlined review requirements.

(a) Project completion requirements for Established Condominium Projects

All units, Common Elements and Amenities must be complete.

(b) Owner-occupancy requirements for Established Condominium Projects

1. If the property will be used as a Primary Residence or second home, there is no owner-occupancy requirement for the Condominium Project
2. If the property will be used as an Investment Property, at least 50% of the total number of Condominium Units in the Condominium Project must have been conveyed to purchasers who occupy their units as a Primary Residence or second home

(c) Project budget requirements for Established Condominium Projects

The project's budget for the current fiscal year must comply with the following:

1. Be consistent with the nature of the project
2. Appropriate assessments must be established to manage the project
3. There must be appropriate allocations for line items pertinent to the type and status of the Condominium Project
4. There must be adequate funding for insurance deductible amounts
5. At least 10% of the budget must provide funding for replacement reserves for capital expenditures and deferred maintenance based on the project's age, estimated remaining life and replacement cost of major Common Elements
 - The replacement reserve percentage is determined by dividing: (i) the annual budgeted replacement reserve allocation by (ii) the homeowners association's (HOA's) annual budgeted assessment income (including regular common expense fees)
 - The calculation may exclude: (i) special assessment income, (ii) income allocated to or in reserve accounts, (iii) incidental income not relied upon for maintenance operations or capital improvements and (iv) amounts collected from unit owners (but usually paid individually by them) for items or utilities such as internet access
6. A Seller may rely on a reserve study instead of the project budget providing a replacement reserve of at least 10%, provided the conditions in section (e) below are met
7. An HOA must not receive more than 10% of its budgeted income from the rental or leasing of commercial parking facilities

(d) Delinquent assessments for Established Condominium Projects

1. No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of their HOA assessments
2. No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of each special assessment

(e) Requirements when a Seller relies on a project reserve study for Established Condominium Projects

The reserve study must comply with the following requirements:

1. The reserve study generally must include:
 - An inventory of major components of the project
 - Financial analysis and evaluation of current reserve fund adequacy, and
 - Proposed annual reserve funding plan
2. A reserve study's financial analysis must validate that the project has appropriately allocated the recommended reserve funds to provide the Condominium Project with sufficient financial protection comparable to Freddie Mac's standard budget requirements for replacement reserves
3. The reserve study's annual reserve funding plan, which details total costs identified for replacement components, must meet or exceed the study's recommendation and conclusion
4. The most current reserve study (or update) must be dated within 36 months of the Seller's determination that a Condominium Project is eligible (see Section 5701.2(a)(3))
5. The reserve study must be prepared by an independent expert skilled in performing such studies (such as a reserve study professional, a construction engineer, a certified public accountant who specializes in reserve studies or any professional with demonstrated experience and knowledge in completing reserve studies)
6. The reserve study must meet or exceed requirements set forth in any applicable state statutes
7. The reserve study must comment favorably on the project's age, estimated remaining life, structural integrity and the replacement of major components

If the Seller relies on a reserve study that meets the requirements of this section, the project's budget must contain appropriate allocations to support the costs identified in the study.

The Seller must obtain and retain in the Mortgage file a copy of the reserve study. The Seller must also perform an analysis of the study and retain this analysis in the Mortgage file.

(f) Manufactured Homes

To be eligible:

1. The Mortgage must be secured by a Detached Condominium Unit
2. The subject Manufactured Home must meet the requirements in Chapter 5703

3. The subject Manufactured Home must not be a single-wide Manufactured Home
4. Although Section 5701.3(a) states otherwise, the Condominium Project's unit owners must only have an undivided ownership interest in the land on which the project is located
5. The Condominium Project must not have campgrounds or other facilities for transient or mobile units

For Condominium Unit Mortgages secured by Condominium Units located in Condominium Projects that contain Manufactured Homes that do not comply with these requirements, the projects must have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (refer to Section 5701.9(a) for additional information) for the Mortgages to be eligible for sale to Freddie Mac.

Note: If the requirements for Established Condominium Projects in this Section 5701.5 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.6, 5701.7 and 5701.9.

5701.6: New Condominium Projects (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

To be eligible for the New Condominium Projects review type, the Condominium Project must meet the definition of a New Condominium Project.

In addition to the project review and eligibility requirements in Section 5701.2, Mortgages secured by Condominium Units in New Condominium Projects must comply with all of the following requirements:

(a) Project completion requirements

The subject legal phase (or the subject building) and any prior legal phases in which units have been offered for sale are substantially complete. “Substantially complete” indicates that the Common Elements are complete and the units are complete subject to the selection of buyer preference items.

For the purpose of determining project completion under this Section 5701.6, a single building can only have one legal phase regardless of whether the Condominium Project is comprised solely of that single building or multiple buildings. Legal phases are defined by the Project Documents. Construction or marketing phases developed for the convenience of the developer are not necessarily legal phases and are not eligible.

(b) Owner-occupancy requirements for New Condominium Projects

At least 50% of the total units in the project (or at least 50% of the sum of the subject legal phase and prior legal phases) must have been conveyed or must be under contract to purchasers who will occupy the units as their Primary Residences or second homes.

For the purpose of calculating owner-occupancy under this Section 5701.6, a single building can only have one legal phase regardless of whether the Condominium Project is comprised solely of that single building or multiple buildings. Legal phases are defined by the Project Documents. Construction or marketing phases developed for the convenience of the developer are not necessarily legal phases and are not eligible.

(c) Project budget requirement for New Condominium Projects

The project's budget for the current fiscal year must comply with the following:

1. The homeowners association's (HOA's) assessments must begin once the developer has ceased to pay operating expenses attributable to the Condominium Project, whether or not all units have been sold. When any unit owner other than the developer pays assessments, the developer must pay the assessments attributable to the unsold units
2. The project's budget (or its projected budget if the project has not been turned over to the unit owners) must be consistent with the nature of the project
3. Appropriate assessments must be established to manage the project
4. There must be appropriate allocations for line items pertinent to the type and status of the Condominium Project
5. If the project was recently converted, the developer must have initially funded a working capital fund, through contributions made by the developer and/or purchasers of the Condominium Units, in an amount consistent with the estimated remaining life of the Common Elements
6. There must be adequate funding for insurance deductible amounts
7. At least 10% of the budget must provide funding for replacement reserves for capital expenditures and deferred maintenance based on the project's age, estimated remaining life and replacement cost of major Common Elements
 - The replacement reserve percentage is determined by dividing (i) the annual budgeted replacement reserve allocation by (ii) the HOA's annual budgeted assessment income (including regular common expense fees)
 - The calculation may exclude: (i) special assessment income, (ii) income allocated to or in reserve accounts, (iii) incidental income not relied upon for maintenance,

- operations or capital improvements and (iv) amounts collected from unit owners (but usually paid individually by them) for items or utilities such as internet access
8. If the budget does not provide a replacement reserve of at least 10%, a Seller may rely on either: (i) a reserve study, provided the conditions in Section 5701.6(k) below are met; or (ii) contributions to a working capital fund, provided the conditions in Section 5701.6(l) below are met. These contributions can be in addition to or in lieu of any working capital fund contributions made by the developer in the case of a recently converted project.
 9. An HOA must not receive more than 10% of its budgeted income from the rental or leasing of commercial parking facilities

(d) Delinquent assessments for New Condominium Projects

No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of their HOA assessments.

(e) Compliance with laws

The Condominium Project has been created and exists in full compliance with the applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing creation of the Condominium Project.

(f) Limitations on ability to sell/Right of first refusal

Any right of first refusal in the Project Documents will not adversely impact the rights of a mortgagee or its assignee to:

- Foreclose or take title to a Condominium Unit pursuant to the remedies in the Mortgage
- Accept a deed or assignment in lieu of foreclosure in the event of default by a mortgagor, or
- Sell or lease a unit acquired by the mortgagee or its assignee

(g) Conversions

For a Condominium Project that was created by conversion of a building(s) with a prior use the following requirements must be met for the Seller's review and determination of project eligibility:

- For a conversion involving a Non-Gut Rehabilitation of a prior use of the building that was legally created within the past three years, the engineer's report (or functionally equivalent documentation for jurisdictions that do not require an engineer's report) must state that the project is structurally sound, the condition and remaining useful life of the major project components are sufficient to meet the residential needs of the project, and

that there is no evidence that any of these conditions have not been met. Major components include the roof, elevators and mechanical systems such as HVAC, plumbing and electricity.

- All rehabilitation work involved in the conversion (Non-Gut Rehabilitation **and** Gut Rehabilitation) must be completed in a professional manner
- A review of the engineer's report (or functionally equivalent documentation) is not required for conversions involving:
 - A Gut-Rehabilitation, and
 - A Non-Gut Rehabilitation if more than three years have elapsed since the legal creation of the project

(h) Mortgagee consent

1. The Project Documents or applicable State law must provide that amendments of a material adverse nature to First Lien mortgagees be agreed to by mortgagees that represent at least 51% of the unit votes (based on one vote for each first Mortgage owned) subject to First Lien Mortgages
2. The Project Documents or applicable State law must provide that any action to terminate the legal status of the project or to use insurance proceeds for any purpose other than to rebuild, must be agreed to by First Lien mortgagees that represent at least 51% of the unit votes (based on one vote for each first Mortgage owned) that are subject to First Lien Mortgages
3. The Project Documents may allow implied approval to be assumed when the then current mortgagee of record fails to submit a response to any written proposal for an amendment within 60 days after the then current mortgagee of record actually receives proper notice of the proposal, provided the notice was delivered by certified or registered mail, with a "return receipt" requested

(i) Rights of Condominium mortgagees and guarantors

The Project Documents, applicable State law, or any applicable insurance policy must give the mortgagee and guarantor of the Mortgage on any unit in a Condominium Project the right to timely written notice of:

1. Any condemnation or casualty loss that affects either a material portion of the Condominium Project or the unit securing its Mortgage
2. Any 60-day Delinquency in the payment of assessments or charges owed by the owner of any unit for which it holds the Mortgage

3. A lapse, cancelation, or material reduction of any insurance policy maintained by the HOA
4. Any proposed action that requires the consent of a specified percentage of mortgagees

(j) First mortgagee's rights confirmed

The Project Documents must not give a Condominium Unit owner or any other party priority over any rights of the first mortgagee of the Condominium Unit pursuant to its Mortgage in the case of payment to the unit owner of proceeds from termination, or insurance proceeds or condemnation awards for losses to or a taking of Condominium Units and/or Common Elements.

(k) Requirements when a Seller relies on a project reserve study for New Condominium Projects

The reserve study must comply with the following requirements:

1. The reserve study generally must include:
 - An inventory of major components of the project
 - Financial analysis and evaluation of current reserve fund adequacy, and
 - Proposed annual reserve funding plan
2. A reserve study's financial analysis must validate that the project has appropriately allocated the recommended reserve funds to provide the Condominium Project with sufficient financial protection comparable to Freddie Mac's standard budget requirements for replacement reserves
3. The reserve study's annual reserve funding plan, which details total costs identified for replacement components, must meet or exceed the study's recommendation and conclusion
4. The most current reserve study (or update) must be dated within 36 months of the Seller's determination that a Condominium Project is eligible (see Section 5701.2(a)(2))
5. The reserve study must be prepared by an independent expert skilled in performing such studies (such as a reserve study professional, a construction engineer, a certified public accountant who specializes in reserve studies, or any professional with demonstrated experience and knowledge in completing reserve studies)
6. The reserve study must meet or exceed requirements set forth in any applicable state statutes

7. The reserve study must comment favorably on the project's age, estimated remaining life, structural integrity and the replacement of major components

If the Seller relies on a reserve study that meets the requirements of this section, the project's budget must contain appropriate allocations to support the costs identified in the study.

The Seller must obtain and retain in the Mortgage file a copy of the reserve study. The Seller must also perform an analysis of the study and retain this analysis in the Mortgage file.

(l) Requirements when a Seller relies on contributions to a working capital fund for New Condominium Projects

The following requirements must be met:

- The Project Documents require the purchaser of a Condominium Unit to pay a non-refundable and non-transferable assessment to a working capital fund which must be established for the periodic maintenance, repair and replacement of the Common Elements
- The assessment must be equal to a minimum of at least two months of the HOA fees attributable to the Condominium Unit and be due and payable at closing
- The developer is in control of the HOA

(m) New Condominium Project sold with excessive Seller contributions

If a builder, developer or property seller offers financing or sale arrangements (such as rent-backs, payments of principal, interest, taxes and insurance) for Condominium Unit Mortgages in a New Condominium Project these contributions must comply with the requirements of Section 5501.5.

(n) New Condominium Projects in Florida

Mortgages secured by attached units in New Condominium Projects in Florida are not eligible, except when the projects have an "Approved by Fannie Mae" status designation in Fannie Mae's Condo Project Manager™ (refer to Section 5701.9(a) for additional information).

Note: If the requirements for New Condominium Projects in this Section 5701.6 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.7 and 5701.9.

5701.6: New Condominium Projects (Future effective date 09/18/23)

To be eligible for the New Condominium Projects review type, the Condominium Project must meet the definition of a New Condominium Project.

In addition to the project review and eligibility requirements in Section 5701.2, Mortgages secured by Condominium Units in New Condominium Projects must comply with all of the following requirements:

(a) Project completion requirements

The subject legal phase (or the subject building) and any prior legal phases in which units have been offered for sale are substantially complete. “Substantially complete” indicates that the Common Elements are complete and the units are complete subject to the selection of buyer preference items.

For the purpose of determining project completion under this Section 5701.6, a single building can only have one legal phase regardless of whether the Condominium Project is comprised solely of that single building or multiple buildings. Legal phases are defined by the Project Documents. Construction or marketing phases developed for the convenience of the developer are not necessarily legal phases and are not eligible.

(b) Owner-occupancy requirements for New Condominium Projects

At least 50% of the total units in the project (or at least 50% of the sum of the subject legal phase and prior legal phases) must have been conveyed or must be under contract to purchasers who will occupy the units as their Primary Residences or second homes.

For the purpose of calculating owner-occupancy under this Section 5701.6, a single building can only have one legal phase regardless of whether the Condominium Project is comprised solely of that single building or multiple buildings. Legal phases are defined by the Project Documents. Construction or marketing phases developed for the convenience of the developer are not necessarily legal phases and are not eligible.

(c) Project budget requirement for New Condominium Projects

The project’s budget for the current fiscal year must comply with the following:

1. The homeowners association’s (HOA’s) assessments must begin once the developer has ceased to pay operating expenses attributable to the Condominium Project, whether or not all units have been sold. When any unit owner other than the developer pays assessments, the developer must pay the assessments attributable to the unsold units

2. The project's budget (or its projected budget if the project has not been turned over to the unit owners) must be consistent with the nature of the project
3. Appropriate assessments must be established to manage the project
4. There must be appropriate allocations for line items pertinent to the type and status of the Condominium Project
5. If the project was recently converted, the developer must have initially funded a working capital fund, through contributions made by the developer and/or purchasers of the Condominium Units, in an amount consistent with the estimated remaining life of the Common Elements
6. There must be adequate funding for insurance deductible amounts
7. At least 10% of the budget must provide funding for replacement reserves for capital expenditures and deferred maintenance based on the project's age, estimated remaining life and replacement cost of major Common Elements
 - The replacement reserve percentage is determined by dividing (i) the annual budgeted replacement reserve allocation by (ii) the HOA's annual budgeted assessment income (including regular common expense fees)
 - The calculation may exclude: (i) special assessment income, (ii) income allocated to or in reserve accounts, (iii) incidental income not relied upon for maintenance, operations or capital improvements and (iv) amounts collected from unit owners (but usually paid individually by them) for items or utilities such as internet access
8. If the budget does not provide a replacement reserve of at least 10%, a Seller may rely on either: (i) a reserve study, provided the conditions in Section 5701.6(k) below are met; or (ii) contributions to a working capital fund, provided the conditions in Section 5701.6(l) below are met. These contributions can be in addition to or in lieu of any working capital fund contributions made by the developer in the case of a recently converted project.
9. An HOA must not receive more than 10% of its budgeted income from the rental or leasing of commercial parking facilities

(d) Delinquent assessments for New Condominium Projects

1. No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of their HOA assessments
2. No more than 15% of the total number of units in a project are 60 or more days delinquent in the payment of each special assessment

(e) Compliance with laws

The Condominium Project has been created and exists in full compliance with the applicable State law, the requirements of the jurisdiction in which the Condominium Project is located, and with all other applicable laws and regulations governing creation of the Condominium Project.

(f) Limitations on ability to sell/Right of first refusal

Any right of first refusal in the Project Documents will not adversely impact the rights of a mortgagee or its assignee to:

- Foreclose or take title to a Condominium Unit pursuant to the remedies in the Mortgage
- Accept a deed or assignment in lieu of foreclosure in the event of default by a mortgagor, or
- Sell or lease a unit acquired by the mortgagee or its assignee

(g) Conversions

For a Condominium Project that was created by conversion of a building(s) with a prior use the following requirements must be met for the Seller's review and determination of project eligibility:

- For a conversion involving a Non-Gut Rehabilitation of a prior use of the building that was legally created within the past three years, the engineer's report (or functionally equivalent documentation for jurisdictions that do not require an engineer's report) must state that the project is structurally sound, the condition and remaining useful life of the major project components are sufficient to meet the residential needs of the project, and that there is no evidence that any of these conditions have not been met. Major components include the roof, elevators and mechanical systems such as HVAC, plumbing and electricity.
- All rehabilitation work involved in the conversion (Non-Gut Rehabilitation **and** Gut Rehabilitation) must be completed in a professional manner
- A review of the engineer's report (or functionally equivalent documentation) is not required for conversions involving:
 - A Gut-Rehabilitation, and
 - A Non-Gut Rehabilitation if more than three years have elapsed since the legal creation of the project

(h) Mortgagee consent

1. The Project Documents or applicable State law must provide that amendments of a material adverse nature to First Lien mortgagees be agreed to by mortgagees that represent at least 51% of the unit votes (based on one vote for each first Mortgage owned) subject to First Lien Mortgages
2. The Project Documents or applicable State law must provide that any action to terminate the legal status of the project or to use insurance proceeds for any purpose other than to rebuild, must be agreed to by First Lien mortgagees that represent at least 51% of the unit votes (based on one vote for each first Mortgage owned) that are subject to First Lien Mortgages
3. The Project Documents may allow implied approval to be assumed when the then current mortgagee of record fails to submit a response to any written proposal for an amendment within 60 days after the then current mortgagee of record actually receives proper notice of the proposal, provided the notice was delivered by certified or registered mail, with a “return receipt” requested

(i) Rights of Condominium mortgagees and guarantors

The Project Documents, applicable State law, or any applicable insurance policy must give the mortgagee and guarantor of the Mortgage on any unit in a Condominium Project the right to timely written notice of:

1. Any condemnation or casualty loss that affects either a material portion of the Condominium Project or the unit securing its Mortgage
2. Any 60-day Delinquency in the payment of assessments or charges owed by the owner of any unit for which it holds the Mortgage
3. A lapse, cancelation, or material reduction of any insurance policy maintained by the HOA
4. Any proposed action that requires the consent of a specified percentage of mortgagees

(j) First mortgagee's rights confirmed

The Project Documents must not give a Condominium Unit owner or any other party priority over any rights of the first mortgagee of the Condominium Unit pursuant to its Mortgage in the case of payment to the unit owner of proceeds from termination, or insurance proceeds or condemnation awards for losses to or a taking of Condominium Units and/or Common Elements.

(k) Requirements when a Seller relies on a project reserve study for New Condominium Projects

The reserve study must comply with the following requirements:

1. The reserve study generally must include:
 - An inventory of major components of the project
 - Financial analysis and evaluation of current reserve fund adequacy, and
 - Proposed annual reserve funding plan
2. A reserve study's financial analysis must validate that the project has appropriately allocated the recommended reserve funds to provide the Condominium Project with sufficient financial protection comparable to Freddie Mac's standard budget requirements for replacement reserves
3. The reserve study's annual reserve funding plan, which details total costs identified for replacement components, must meet or exceed the study's recommendation and conclusion
4. The most current reserve study (or update) must be dated within 36 months of the Seller's determination that a Condominium Project is eligible (see Section 5701.2(a)(2))
5. The reserve study must be prepared by an independent expert skilled in performing such studies (such as a reserve study professional, a construction engineer, a certified public accountant who specializes in reserve studies, or any professional with demonstrated experience and knowledge in completing reserve studies)
6. The reserve study must meet or exceed requirements set forth in any applicable state statutes
7. The reserve study must comment favorably on the project's age, estimated remaining life, structural integrity and the replacement of major components

If the Seller relies on a reserve study that meets the requirements of this section, the project's budget must contain appropriate allocations to support the costs identified in the study.

The Seller must obtain and retain in the Mortgage file a copy of the reserve study. The Seller must also perform an analysis of the study and retain this analysis in the Mortgage file.

(l) Requirements when a Seller relies on contributions to a working capital fund for New Condominium Projects

The following requirements must be met:

- The Project Documents require the purchaser of a Condominium Unit to pay a non-refundable and non-transferable assessment to a working capital fund which must be established for the periodic maintenance, repair and replacement of the Common Elements
- The assessment must be equal to a minimum of at least two months of the HOA fees attributable to the Condominium Unit and be due and payable at closing
- The developer is in control of the HOA

(m) New Condominium Project sold with excessive Seller contributions

If a builder, developer or property seller offers financing or sale arrangements (such as rent-backs, payments of principal, interest, taxes and insurance) for Condominium Unit Mortgages in a New Condominium Project these contributions must comply with the requirements of Section 5501.5.

(n) New Condominium Projects in Florida

Mortgages secured by attached units in New Condominium Projects in Florida are not eligible, except when the projects have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (refer to Section 5701.9(a) for additional information).

Note: If the requirements for New Condominium Projects in this Section 5701.6 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.7 and 5701.9.

5701.7: Exempt From Review (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

To be eligible under Exempt From Review:

1. The Mortgage must be:
 - Secured by a Condominium Unit in a 2- to 4-Unit Condominium Project, or
 - Secured by a Detached Condominium Unit, or
 - A Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgage, or

- A Refi Possible® Mortgage

2. The Condominium Project:

- Is not a Condominium Hotel or similar type of transient housing, a houseboat project, a timeshare project, or a project with segmented ownership (all as described in Section 5701.3)
- Must not include Manufactured Homes, unless the Condominium Unit Mortgage is a Refi Possible Mortgage

3. The applicable requirements in the following table must be met:

2- to 4-Unit Condominium Projects	The Condominium Project meets the Glossary definition of a 2- to 4-Unit Condominium Project. (Note: The Glossary definitions of Established Condominium Project and New Condominium Project are not applicable.)
Detached Condominium Units	The Condominium Unit securing the Condominium Unit Mortgage meets the Glossary definition of a Detached Condominium Unit
Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgages	If the Condominium Unit Mortgage being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac then the Mortgage is exempt from project review provided the following requirements are met: <ul style="list-style-type: none"> ■ The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio is 80% ■ If available, proof of the ULDD Data Point <i>Related Investor Loan Identifier</i> of the existing Condominium Unit Mortgage is provided in the Mortgage file ■ The delivery requirements in Section 6302.16(b)(ii) are met
Refi Possible Mortgages	If the Condominium Unit Mortgage being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac and the Mortgage is being refinanced under the Refi Possible offering, then the Mortgage is exempt from project review provided that: <ul style="list-style-type: none"> ■ The Mortgage meets all applicable requirements in Chapter 4302 ■ The delivery requirements in Section 6302.46 are met

4. The general project eligibility requirements in Section 5701.2(b) must be met

Attached and semi detached units within projects containing Detached Condominium Units may not be delivered as Exempt From Review unless the attached or semi detached units are within a 2- to 4-Unit Condominium Project or meet the requirements for Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgages or Refi Possible Mortgages.

Note: If the requirements for Exempt From Review in this Section 5701.7 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.6 and 5701.9.

5701.7: Exempt From Review (Future effective date 09/18/23)

To be eligible under Exempt From Review, the requirements below must be met.

(a) Eligible Mortgages

The Mortgage must be:

1. Secured by a Condominium Unit in a 2- to 4-Unit Condominium Project, or
2. Secured by a Detached Condominium Unit, or
3. A Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgage, or
4. A Refi Possible® Mortgage

(b) Condominium Projects

The Condominium Project must:

1. Not be a Condominium Hotel or similar type of transient housing, a houseboat project, a timeshare project, or a project with segmented ownership (all as described in Section 5701.3)
2. Not include Manufactured Homes, unless the Condominium Unit Mortgage is a Refi Possible Mortgage
3. For Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgages and for Refi Possible Mortgages, the Condominium Project is not in need of Critical Repairs and does not have an evacuation order. (See Sections 5701.3(n) and 5701.3(o) for details.)

(c) Additional requirements

The applicable requirements in the following table must be met:

2- to 4-Unit Condominium Projects	The Condominium Project meets the Glossary definition of a 2- to 4-Unit Condominium Project. (Note: The Glossary definitions of Established Condominium Project and New Condominium Project are not applicable.)
Detached Condominium Units	The Condominium Unit securing the Condominium Unit Mortgage meets the Glossary definition of a Detached Condominium Unit
Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgages	If the Condominium Unit Mortgage being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac then the Mortgage is exempt from project review provided the following requirements are met: <ul style="list-style-type: none">■ The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio is 80%■ If available, proof of the ULDD Data Point <i>Related Investor Loan Identifier</i> of the existing Condominium Unit Mortgage is provided in the Mortgage file■ The delivery requirements in Section 6302.16(b)(ii) are met
Refi Possible Mortgages	If the Condominium Unit Mortgage being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac and the Mortgage is being refinanced under the Refi Possible offering, then the Mortgage is exempt from project review provided that: <ul style="list-style-type: none">■ The Mortgage meets all applicable requirements in Chapter 4302■ The delivery requirements in Section 6302.46 are met

(d) General project eligibility requirements

The general project eligibility requirements in Section 5701.2(b) must be met.

Attached and semi detached units within projects containing Detached Condominium Units may not be delivered as Exempt From Review unless the attached or semi detached units are within a 2- to 4-Unit Condominium Project or meet the requirements for Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgages or Refi Possible Mortgages.

Note: If the requirements for Exempt From Review in this Section 5701.7 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.6 and 5701.9.

5701.8: Condominium appraisal and underwriting requirements (03/31/22)

(a) Appraisal requirements for Condominium Units

(i) General appraisal requirements

The appraiser must report the project name, the assessments, including special assessments and the property rights for each comparable sale and must compare them to the subject project. The appraiser must also identify the Common Elements including the Amenities available to the unit owners, comment on their condition and analyze how they compare to the Common Elements and Amenities of competing projects.

Comparable sales must be from Condominium Projects in the same market, be similar to the subject Project and compete for the same purchasers.

(ii) Comparable sales selection

Refer to Section 5605.6(g) for specific requirements applicable to units in Established Condominium Projects or in recently converted or New Condominium Projects.

(iii) Additional appraisal requirements for Detached Condominium Units

The appraiser must use similar Detached Condominium Unit comparable sales from the same project or from the same market area. The appraiser may use other types of 1-unit detached comparable sales that are not located in a Condominium Project only if the appraiser supports the use of such sales in the appraisal report and reflects any effect that the condominium form of ownership has on the market value and marketability of the subject property. Each appraisal report must comply with the requirements in Sections 5604.1 and 5604.2 and Chapter 5605.

(b) Underwriting considerations for Condominium Projects with mixed uses and Condominium Projects with live-work Condominium Units

(i) Condominium Projects with mixed uses

Freddie Mac will purchase eligible Condominium Mortgages in Condominium Projects with a combination of residential, commercial, industrial, office and/or institutional uses

provided that the Condominium Mortgages comply with all applicable Freddie Mac requirements, including the requirements of Section 5701.2 and Section 5701.3(d).

(ii) Live-work Condominium Units

Freddie Mac will purchase eligible Condominium Mortgages in Condominium Projects with live-work Condominium Units provided that:

- The Condominium Mortgage complies with all applicable Freddie Mac requirements, including the requirements of Section 5701.2, and
- The primary use of the live-work Condominium Unit is residential and the non-residential use of such Condominium Unit is secondary

(c) Underwriting considerations for Common Elements and Amenities

The project's Common Elements, including Amenities and Limited Common Elements, must be consistent with the nature of the project and similar to competing Condominium Projects in the market area.

(d) Financing of Limited Common Elements

Limited Common Elements are portions of Common Elements reserved for use by one or more unit owners but not all unit owners. Limited Common Elements are defined in the Project Documents, and may include, but are not limited to, balconies or patios serving a single unit, assigned parking spaces or storage bins.

Limited Common Elements that are purchased as part of the Condominium Unit may be financed as part of the Mortgage, and the cost of such Limited Common Elements may be included when determining the sale price and loan-to-value (LTV) ratio.

Only Limited Common Elements may be financed along with the Condominium Unit. Facilities serving the Condominium Unit which are made available to the Condominium Unit by a permit, license or lease (other than in a leasehold condominium), must not be financed as part of a Mortgage, and the cost of the use of such facilities may not be included when determining the sale price and LTV ratio.

5701.9: Reciprocal project reviews (04/05/23)

Condominium Unit Mortgages secured by Condominium Units located in Condominium Projects approved by other secondary market participants are eligible for sale to Freddie Mac if the Condominium Unit Mortgages comply with the following requirements:

(a) Fannie Mae-approved and certified projects

Freddie Mac will purchase Mortgages secured by 1-unit residential dwellings in Condominium Projects that: (i) have an “Approved by Fannie Mae” status designation in Fannie Mae’s Condo Project Manager™ (CPM™) (Condo Project Manager and CPM are trademarks of Fannie Mae), or (ii) the Seller approved as a Fannie Mae “Full Review,” ensured all data entered into CPM were correct and received a “Certified by Lender” status designation in Fannie Mae’s legacy or updated CPM platform, if the Mortgage complies with the requirements below.

As of the Settlement Date:

1. The project complies with all applicable Fannie Mae eligibility requirements and lender warranties
2. The approval or certification and any terms and conditions set forth in the approval or certification have not expired
3. The Mortgage complies with any stated CPM delivery restrictions (e.g., occupancy type restriction, maximum LTV ratios, etc.)
4. The Seller complies with Fannie Mae’s additional obligations for projects approved or certified through CPM. Pursuant to these obligations, if the Seller notified Fannie Mae’s CPM Management team of any new information that may impact a project’s eligibility (e.g., significant deferred maintenance, litigation, etc.), prior to selling the Mortgage to Freddie Mac, the Seller must confirm that the project retained its approved status.
5. The Mortgage file contains documentation of Fannie Mae’s approval as evidenced by an “Approved by Fannie Mae” status designation (e.g., a copy of the appropriate CPM screen showing that the Condominium Project has an “Approved by Fannie Mae” status designation or documentation of the Seller’s project approval as a Fannie Mae “Full Review” with a “Certified by Lender” status designation from Fannie Mae’s legacy CPM (certification exported from Fannie Mae Connect) or Fannie Mae’s updated CPM platform (certification printed from the updated CPM platform)
6. The Condominium Project complies with the general project eligibility requirements in Section 5701.2(b)

As required in Section 5701.2(b)(6), the Seller must retain, and provide upon request, documentation to support its analysis that the Condominium Project meets Fannie Mae’s “Full Review” requirements when the Seller received a “Certified by Lender” status designation in Fannie Mae’s legacy or updated CPM platform.

For Mortgages secured by attached Condominium Units in Established Condominium Projects in Florida with a “Certified by Lender” status designation in CPM, the Seller also warrants that:

1. The loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit TLTV (HTLTV) ratio is 75/90/90% or less for a Primary Residence
2. The LTV/TLTV/HTLTV ratio is 70/75/75% or less for a second home or an Investment Property

Mortgages secured by attached Condominium Units in New Condominium Projects in Florida are only eligible for sale to Freddie Mac if the project has an “Approved by Fannie Mae” status designation in CPM.

Mortgages secured by Condominium Units in Condominium Projects comprised of Manufactured Homes are only eligible for sale to Freddie Mac if the project has an “Approved by Fannie Mae” status designation in CPM or when they comply with the requirements in Section 5701.5(f).

(b) FHA-Approved Project review for condominiums

To be eligible under FHA-Approved Project review for condominiums:

- (i) The Mortgage must be secured by a 1-unit residential dwelling in a Condominium Project that:
 1. Appears on the list of projects approved by FHA, either by the FHA HUD Review and Approval Process (HRAP) or the FHA Direct Endorsement Lender Review and Approval Process (DELRAP), provided that the Mortgage is an FHA Mortgage, VA Mortgage, Section 502 GRH Mortgage, or HUD-Guaranteed Section 184 Native American Mortgage that complies with the applicable requirements of the Guide, or:
 2. Appears on the list of projects approved by FHA by the FHA HUD Review and Approval Process (HRAP) only, provided that the Mortgage is a conventional Mortgage and:
 - The Condominium Project must meet the definition of an Established Condominium Project
 - The Condominium Project is not an ineligible project (Section 5701.3)
 - All general project eligibility requirements in Section 5701.2(b) must be met, and
 - The Mortgage must comply with all other applicable requirements of the Guide
- (ii) When the Seller sells Freddie Mac a Mortgage secured by a unit in a project that meets the requirements in (i) above, the Seller warrants all of the following as of the Settlement Date:

1. The project is in the “approved” status, complies with any FHA-approval conditions noted on the FHA website, the approval has not yet expired and has not been rescinded or modified in any way
2. The Mortgage file contains documentation of FHA’s approved status (for example, a copy of the appropriate webpage showing that the project is approved and that the approval is current)
3. The Seller is not aware of any circumstances that would make the project ineligible for approval

Note: If the requirements for reciprocal project reviews in this Section 5701.9 are met, then the Seller is not required to comply with the requirements for any of the other project review types in Sections 5701.4, 5701.5, 5701.6 and 5701.7.

5701.10: Condominium Hotel (10/17/18)

Effective October 17, 2018, Section 5701.10 is deleted.

5701.11: Projects with excessive commercial or non-residential space (10/02/19)

Effective October 2, 2019, the content of Section 5701.11 has moved to Section 5701.3 and Section 5701.11 is deleted.

5701.12: Delivery requirements (09/01/22)

(a) Uniform underwriting and transmittal summary form

The Seller must select the appropriate project classification on Form 1077, Uniform Underwriting and Transmittal Summary, or indicate the appropriate project classification on an alternative equivalent form, and check the appropriate boxes based upon the Uniform Loan Delivery Dataset (ULDD) valid values in the chart below. These categories correspond to the valid values to be delivered, as indicated.

Project/Unit Type or Project Review Type	Project classification - Form 1077, Uniform Underwriting Transmittal Summary or alternative equivalent form	<i>Project Classification Identifier (Sort ID 42)</i>
Streamlined reviews (see Section 5701.4)	Streamlined Review	Streamlined Review *see "Notes" for Sort ID 42 in Section 6302.20(b)
Established Condominium Projects (see Section 5701.5)	Established Project	Full Review
New Condominium Projects (see Section 5701.6)	New Project	Full Review
2- to 4-Unit Condominium Project (see Section 5701.7)	Exempt From Review	Exempt From Review
Detached Condominium Project (see Section 5701.7)	Exempt From Review	Exempt From Review *see "Notes" for Sort ID 42 in Section 6302.20(b)
Detached Condominium Units (see Section 5701.7)	Exempt From Review	Exempt From Review

Project/Unit Type or Project Review Type	Project classification - Form 1077, Uniform Underwriting Transmittal Summary or alternative equivalent form	<i>Project Classification Identifier (Sort ID 42)</i>
Freddie Mac-owned “no cash-out” refinance Condominium Unit Mortgage (see Section 5701.7)	Exempt From Review	Exempt From Review
Refi Possible® Mortgage (see Section 5701.7)	Exempt From Review	Exempt From Review
Reciprocal project reviews – Fannie Mae-approved and Seller certified projects (see Section 5701.9)	Reciprocal review and enter CPM Project ID# in the CPM Project ID# field	Condo Project Manager™ Review
Reciprocal review – FHA Approved Project (see Section 5701.9)	Reciprocal review and FHA-approved	FHA_Approved

The Seller must use only one category of Freddie Mac’s project classifications listed on Form 1077 or an alternative equivalent form. Below are examples of the appropriate category to select for an Established Condominium Project with a streamlined review and a Condominium Project that contains a mix of attached and detached units.

Example 1: Established Condominium Project with a streamlined review

Although the Seller could classify a Condominium Project in more than one category (i.e., an Established Condominium Project with a streamlined review could be coded either as an “Established project” or a “Streamlined review”), the Seller should classify such a Condominium Project as a “Streamlined review”; the Seller should select the “Established project” category only if Seller is unable to use the Streamlined review and must do a Full Review for an Established project.

Example 2: Condominium Project that contains a mix of attached, detached and semi detached units

If a Condominium Project contains a mix of attached, detached and semi detached units and the valid value for ULDD Data Point, *Project Attachment Type*, (Sort ID 41) is “Attached,” the Seller may perform a streamlined review in compliance with the requirements of Section 5701.4. In this case, the Seller must select the appropriate project classification of “Streamlined review” on Form 1077 or alternative equivalent form.

The Seller should select the “Exempt From Review” category and enter “Detached Project” for the valid value for ULDD Data Point, *Project Attachment Type*, (Sort ID 41) only if the project meets the Glossary definition of a Detached Condominium Project (i.e., is comprised solely of Detached Condominium Units).

When a “Reciprocal Review” is identified, the Seller must also provide additional information as shown above. For Fannie Mae-approved and certified projects, the CPM Project ID# must be entered in the “Fannie Mae Condo Project Manager™ Project ID” field.

(b) Other delivery requirements

See Section 6302.20 for delivery and pooling requirements for Condominium Unit Mortgages, in addition to delivery requirements for Fannie Mae-approved and certified projects.

(c) Homeowners Association (HOA) taxpayer identification number(s) (TIN(s))

Sellers are encouraged to obtain and deliver the TIN(s) for the HOA.
See Section 6302.20(b)(i) for details.

Chapter 5702: Planned Unit Developments

5702.1: Requirements for Planned Unit Developments (PUDs) (10/07/20)

Freddie Mac requires the Seller to identify if a unit is located in a Planned Unit Development (PUD). Freddie Mac defines a PUD as a real estate project in which:

- Each unit owner holds title to the lot and the improvements on the lot
- The homeowners association holds title to the Common Elements
- The unit owners have a right to the use of the Common Elements, and
- The unit owners pay a fee to the homeowners association to maintain the Common Elements for their benefit

Note: Zoning is not a basis for classifying a project or subdivision as a PUD. To be classified as a PUD, units in projects or subdivisions must meet all the requirements above.

Sellers should also be familiar with the following Glossary terms:

- Common Elements
- Limited Common Elements
- Amenities
- Project Documents
- Master Association

(a) PUD and Homeowners Association

When reviewing a PUD to determine if it meets the requirement in this section, Sellers must consider all units and spaces that the Homeowners Association holds title to or has insured.

A Homeowners Association is comprised of unit owners that maintain the Common Elements in a PUD for the benefit of the unit owners. In PUDs, the Homeowners Association owns the Common Elements, and maintains them for the benefit of the unit owners.

(b) Condominium Units in PUDs

If a Condominium Unit is located in a PUD, the Seller must comply with the Condominium requirements and warranties in Chapter 5701 and the PUD requirements and warranties in this chapter.

(c) Leasehold estates

If the PUD unit or any PUD Common Element is on a leasehold estate, the Seller must comply with the leasehold estate requirements in Chapter 5704 and the PUD requirements and warranties in this chapter.

(d) Manufactured Homes in a PUD

If a Manufactured Home is located in a PUD, the Seller must comply with the Manufactured Home requirements and warranties in Chapter 5703 and the PUD requirements and warranties in this Chapter 5702.

(e) Insurance

The Seller must represent and warrant that the property insurance requirements in Sections 4703.2, 4703.3 and 4703.7 have been met.

5702.2: Seller warranties for Planned Unit Developments (PUDs) (03/22/17)

Effective March 22, 2017, the content of this section has moved to Section 5702.1.

5702.3: Appraisal requirements for units in Planned Unit Developments (PUDs) (03/22/17)

Effective March 22, 2017, this section is deleted.

5702.4: Reciprocal project reviews for Planned Unit Developments (PUDs) (10/07/20)

Effective October 7, 2020, this section is deleted.

Chapter 5703: Manufactured Homes

5703.1: Purchase of Mortgages secured by Manufactured Homes (03/02/16)

Freddie Mac will purchase Mortgages secured by Manufactured Homes under the terms of the Guide and this chapter.

Unless specifically made applicable to Mortgages secured by Manufactured Homes, negotiated underwriting provisions stated in the Purchase Documents will not apply to such Mortgages. In addition, unless specifically permitted, the special negotiated Mortgage products described in the Purchase Documents may not be used with Mortgages secured by Manufactured Homes.

Sellers should be familiar with the following terms used in this chapter.

HUD Codes for Manufactured Homes (HUD Codes)

The HUD Codes for Manufactured Homes (HUD Codes) refer to a series of regulations that establish requirements for Manufactured Homes in compliance with the National Manufactured Home Construction and Safety Standards Act of 1974, 42 U.S.C. 5401-5426. The codes are administered by HUD and include but are not necessarily limited to:

- Federal Manufactured Home Construction and Safety Standards (MHCSS; 24 C.F.R. Part 3280)
- Manufactured Home Procedural and Enforcement Regulations (24 C.F.R. Part 3282)
- Model Manufactured Home Installation Standards (MIS; 24 C.F.R. Part 3285 or 3286)
- Other codes incorporated by reference, e.g. FEMA 85, Manufactured Home Installation in Flood Hazard Areas

HUD Certification Label (HUD label or tag)

The HUD Certification Label is a metal plate that is affixed to the exterior of each transportable section of the Manufactured Home. The HUD Certification Number appears on each HUD Certification Label and evidences compliance with the Federal Manufactured Home Construction and Safety Standards.

HUD Data Plate/Compliance Certificate (Data Plate)

The HUD Data Plate/Compliance Certificate is a paper label mounted in the Manufactured Home that contains, among other things, the manufacturer's name, trade/model name, year manufactured and serial number, a list of the Certification Label number(s), etc. The Data Plate

is typically affixed in a readily accessible and visible location (e.g., near the main electrical panel, or in a kitchen cabinet, or a bedroom closet).

New Manufactured Home

A New Manufactured Home is a Manufactured Home that is purchased directly from a retailer or a developer, has never been occupied, and has never been affixed to a permanent foundation on another site.

5703.2: Property eligibility for Manufactured Homes (07/06/22)

(a) A Manufactured Home must have the following characteristics:

- The Manufactured Home must have been built on or after June 15, 1976
- The Manufactured Home must be built on a permanent chassis in compliance with the applicable HUD Codes for Manufactured Homes (HUD Codes) in effect as of the date the Manufactured Home was constructed

To evidence the Manufactured Home is built in compliance with the Federal Manufactured Home Construction and Safety Standards, both the HUD Certification Label and HUD Data Plate must be present and legible. The HUD Data Plate section of the Manufactured Home Appraisal Report (Form 70B) must be completed with the information from both sources.

When either the HUD Certification Label or the HUD Data Plate is not present or not legible, Freddie Mac will accept the following alternative documentation as evidence of compliance:

HUD Certification Label (HUD label or tag)

A “HUD Label Verification Letter,” with the same information contained on the HUD Certification Label, from the Institute for Building Technology and Safety (IBTS)

HUD Data Plate/Compliance Certificate (Data Plate)

- A duplicate Data Plate or substitute Data Plate; a Performance Verification Certificate (PVC) from the IBTS, or
- A copy of the Data Plate from the In-Plant Primary Inspection Agency (IPIA) or manufacturer (a list of IPIA offices is posted on HUD’s website)

If the original or alternative documentation of compliance cannot be obtained for both the HUD Certification Label and HUD Data Plate, a Mortgage secured by a Manufactured Home is not eligible for sale to Freddie Mac.

- The Manufactured Home must be legally classified as real property; it must be a 1-unit dwelling that is permanently affixed to a permanent foundation in a way that makes it part of the real property
- The anchoring system must comply with the HUD Codes.

If the Manufactured Home was installed prior to October 20, 2008, the anchoring system must comply with the manufacturer's design or a design by a licensed (registered) professional engineer.

Anchoring systems refer to all components of the anchoring and support systems such as piers, footings, ties, anchoring equipment, anchoring assemblies, and any other equipment, materials, and methods of construction that support and secure the Manufactured Home to the ground.

- The permanent foundation must be designed for the site conditions, home design features, and the loads the home was designed to withstand in accordance with the manufacturer's instructions or a design by a licensed (registered) professional engineer. The foundation must meet all local, State or federal codes, as applicable.
- The Manufactured Home must be at least 12 feet wide and have a minimum of 600 square feet of gross living area. This requirement does not apply when the Manufactured Home is an ADU. See Section 5601.2 for Manufactured Home ADU requirements.

(b) A Manufactured Home must meet the following requirements:

- If any structural modifications or add-ons have been made to a 1-unit dwelling and any portion of the dwelling is a Manufactured Home, the Mortgage securing such property must be delivered as a Manufactured Home in compliance with the requirements of this chapter
- The Manufactured Home must be a 1-unit dwelling comprised of a single section (a "single-wide Manufactured Home") or multiple sections (a "multiwide Manufactured Home")
- The wheels, axles, and towing hitches must be removed from the Manufactured Home
- The land on which the Manufactured Home is situated must be owned by the Borrower in fee simple, except as stated below:

- Mortgages secured by Manufactured Homes located in a Condominium Project are eligible for sale to Freddie Mac if the Seller ensures compliance with the project eligibility requirements in either Section 5701.5 or Section 5701.9
- Mortgages secured by Manufactured Homes located in a Planned Unit Development are eligible for sale to Freddie Mac if the Seller ensures compliance with the project eligibility requirements in Chapter 5702
- Mortgages secured by Manufactured Homes located on leasehold estates are eligible for sale to Freddie Mac with prior written approval and must meet the requirements in Chapter 5706
- A multiwide Manufactured Home may be located on an individual lot or in a subdivision or Planned Unit Development.
- A Mortgage secured by a single-wide Manufactured Home is eligible for sale to Freddie Mac if the Manufactured Home is located in a Planned Unit Development or if located in a Condominium Project, and project eligibility is determined through a reciprocal review. See Section 5701.9.
- A Mortgage secured by a single-wide Manufactured Home may be eligible for sale to Freddie Mac when located on an individual lot or in a subdivision if the Seller obtains Freddie Mac's written approval to sell such Mortgage to Freddie Mac by contacting its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE. For a Mortgage to be eligible:
 - The Manufactured Home must be a Primary Residence
 - The transaction must be a purchase or "no-cash out" refinance
 - The Manufactured Home must have a date of manufacture that is 10 years or less as of the effective date of the appraisal
- The Manufactured Home must be permanently connected to utilities in compliance with the HUD Codes. Utilities include power, water, and a sewage disposal system.
- The Mortgaged Premises must conform to all applicable use restrictions and must be zoned for residential use, and not commercial or business uses
- The square footage and room dimensions must be acceptable to typical purchasers in the market area
- The Manufactured Home must be permanently affixed to the original permanent foundation, in compliance with the HUD Codes.

If the installation was prior to October 20, 2008, the foundation must be designed for the site conditions, home design features, and the loads the home was designed to withstand in accordance with the manufacturer's instructions or a design by a licensed (registered) professional engineer.

- The foundation must meet all applicable local, State or federal codes.
- Any structural modifications to an existing Manufactured Home must be approved by a licensed professional engineer or the local, State or federal authority.
- Any improvements, modifications or repairs that affect the safety, soundness or habitability of the Manufactured Home must be completed prior to the sale of the Mortgage to Freddie Mac

(c) Other types of factory-built housing

Freddie Mac does not include other types of factory-built housing not subject to the National Manufactured Construction and Safety Standards Act, such as modular or panelized housing, in the definition of Manufactured Homes. Freddie Mac will purchase a Mortgage secured by one of those other types of factory-built housing, as long as Freddie Mac's Mortgage and property eligibility requirements are met.

5703.2: Property eligibility for Manufactured Homes (Future effective date 09/11/23)

(a) Manufactured Home requirements:

- The Manufactured Home must have been built on or after June 15, 1976
- The Manufactured Home must be built on a permanent chassis in compliance with the applicable HUD Codes for Manufactured Homes (HUD Codes) in effect as of the date the Manufactured Home was constructed.

To evidence the Manufactured Home is built in compliance with the Federal Manufactured Home Construction and Safety Standards, both the HUD Certification Label and HUD Data Plate must be present and legible.

- The HUD Data Plate section of the Manufactured Home Appraisal Report (Form 70B) must be completed with the information from both sources

When either the HUD Certification Label or the HUD Data Plate is not present or not legible, Freddie Mac will accept the following alternative documentation as evidence of compliance:

HUD Certification Label (HUD label or tag)

A “HUD Label Verification Letter,” with the same information contained on the HUD Certification Label, from the Institute for Building Technology and Safety (IBTS)

HUD Data Plate/Compliance Certificate (Data Plate)

- A duplicate Data Plate or substitute Data Plate; a Performance Verification Certificate (PVC) from the IBTS, or
- A copy of the Data Plate from the In-Plant Primary Inspection Agency (IPIA) or manufacturer. (A list of IPIA offices is posted on HUD’s website.)

If the original or alternative documentation of compliance cannot be obtained for both the HUD Certification Label and HUD Data Plate, a Mortgage secured by a Manufactured Home is not eligible for sale to Freddie Mac.

- The Manufactured Home must be legally classified as real property; it must be a 1-unit dwelling that is permanently affixed to a permanent foundation in a way that makes it part of the real property
- The wheels, axles and towing hitches must be removed from the Manufactured Home
- The anchoring system must comply with the HUD Codes.

If the Manufactured Home was installed prior to October 20, 2008, the anchoring system must comply with the manufacturer’s design or with a design by a licensed (registered) professional engineer.

Anchoring systems refer to all components of the anchoring and support systems such as piers, footings, ties, anchoring equipment, anchoring assemblies, and any other equipment, materials, and methods of construction that support and secure the Manufactured Home to the ground.

- The permanent foundation must be designed for the site conditions, home design features, and the loads the home was designed to withstand in accordance with the manufacturer’s instructions or a design by a licensed (registered) professional engineer. The foundation must meet all local, State or federal codes, as applicable.
- The Manufactured Home must be permanently affixed to the original permanent foundation, in compliance with the HUD Codes.

If the foundation was installed prior to October 20, 2008, the foundation must be designed for the site conditions, home design features, and the loads the home was

designed to withstand in accordance with the manufacturer's instructions or with a design by a licensed (registered) professional engineer.

- The foundation must meet all applicable local, State and federal codes
- The Manufactured Home must be permanently connected to utilities in compliance with the HUD Codes. Utilities include power, water and a sewage disposal system.
- The land on which the Manufactured Home is situated must be owned by the Borrower in fee simple, except as stated below:
 - Mortgages secured by Manufactured Homes located in a Condominium Project are eligible for sale to Freddie Mac if the Condominium Project complies with the project eligibility requirements in either Section 5701.5 or Section 5701.9
 - Mortgages secured by Manufactured Homes located on leasehold estates that meet the requirements in Chapter 5706 are eligible for sale to Freddie Mac with prior written approval
- The Manufactured Home must be at least 12 feet wide and have a minimum of 600 square feet of gross living area. This requirement does not apply when the Manufactured Home is an ADU. See Section 5601.2 for Manufactured Home ADU requirements.
- If any structural modifications or add-ons have been made to a 1-unit dwelling and any portion of the 1-unit dwelling is a Manufactured Home, the Mortgage securing such property must be delivered as a Manufactured Home in compliance with the requirements of this chapter
- Any structural modifications to an existing Manufactured Home must be verified as approved by a licensed professional engineer or the local, State or federal authority
- Any improvements, modifications or repairs that affect the safety, soundness or habitability of the Manufactured Home must be completed prior to the sale of the Mortgage to Freddie Mac
- The Manufactured Home must be a 1-unit dwelling comprised of a single section (a "single-wide Manufactured Home") or multiple sections (a "multiwide Manufactured Home")
- A Manufactured Home may be located on an individual lot or on a unit in a Condominium Project or Planned Unit Development
- If a Mortgage is secured by a single-wide Manufactured Home in a Planned Unit Development or a Condominium Project, the project eligibility must be determined through a reciprocal review, and the requirements in Section 5701.9 must be met

(b) Other types of factory-built housing

Freddie Mac does not include other types of factory-built housing not subject to the National Manufactured Construction and Safety Standards Act, such as modular or panelized housing, in the definition of Manufactured Homes. Freddie Mac will purchase a Mortgage secured by one of those other types of factory-built housing, as long as Freddie Mac's Mortgage and property eligibility requirements are met.

5703.2: Property eligibility for Manufactured Homes (Future effective date 11/02/23)

(a) Manufactured Home requirements:

- The Manufactured Home must have been built on or after June 15, 1976
- The Manufactured Home must be built on a permanent chassis in compliance with the applicable HUD Codes for Manufactured Homes (HUD Codes) in effect as of the date the Manufactured Home was constructed.

To evidence the Manufactured Home is built in compliance with the Federal Manufactured Home Construction and Safety Standards, both the HUD Certification Label and HUD Data Plate must be present and legible.

- The HUD Data Plate section of the Manufactured Home Appraisal Report (Form 70B) must be completed with the information from both sources

When either the HUD Certification Label or the HUD Data Plate is not present or not legible, Freddie Mac will accept the following alternative documentation as evidence of compliance:

HUD Certification Label (HUD label or tag)

A “HUD Label Verification Letter,” with the same information contained on the HUD Certification Label, from the Institute for Building Technology and Safety (IBTS)

HUD Data Plate/Compliance Certificate (Data Plate)

- A duplicate Data Plate or substitute Data Plate; a Performance Verification Certificate (PVC) from the IBTS, or
- A copy of the Data Plate from the In-Plant Primary Inspection Agency (IPIA) or manufacturer. (A list of IPIA offices is posted on HUD’s website.)

If the original or alternative documentation of compliance cannot be obtained for both the HUD Certification Label and HUD Data Plate, a Mortgage secured by a Manufactured Home is not eligible for sale to Freddie Mac.

- The Manufactured Home must be legally classified as real property; it must be a 1-unit dwelling that is permanently affixed to a permanent foundation in a way that makes it part of the real property
- The wheels, axles and towing hitches must be removed from the Manufactured Home
- The anchoring system must comply with the HUD Codes.

If the Manufactured Home was installed prior to October 20, 2008, the anchoring system must comply with the manufacturer's design or with a design by a licensed (registered) professional engineer.

Anchoring systems refer to all components of the anchoring and support systems such as piers, footings, ties, anchoring equipment, anchoring assemblies, and any other equipment, materials, and methods of construction that support and secure the Manufactured Home to the ground.

- The permanent foundation must be designed for the site conditions, home design features, and the loads the home was designed to withstand in accordance with the manufacturer's instructions or a design by a licensed (registered) professional engineer. The foundation must meet all local, State or federal codes, as applicable.
- The Manufactured Home must be permanently affixed to the original permanent foundation, in compliance with the HUD Codes.

If the foundation was installed prior to October 20, 2008, the foundation must be designed for the site conditions, home design features, and the loads the home was designed to withstand in accordance with the manufacturer's instructions or with a design by a licensed (registered) professional engineer.

- The foundation must meet all applicable local, State and federal codes
- The Manufactured Home must be permanently connected to utilities in compliance with the HUD Codes. Utilities include power, water and a sewage disposal system.
- The land on which the Manufactured Home is situated must be owned by the Borrower in fee simple, except as stated below:
 - Mortgages secured by Manufactured Homes located in a Condominium Project are eligible for sale to Freddie Mac if the Condominium Project complies with the project eligibility requirements in either Section 5701.5 or Section 5701.9

- Mortgages secured by Manufactured Homes located on leasehold estates that meet the requirements in Chapter 5706 are eligible for sale to Freddie Mac with prior written approval
- The Manufactured Home must be at least 12 feet wide and have a minimum of 600 square feet of finished area. This requirement does not apply when the Manufactured Home is an ADU. See Section 5601.2 for Manufactured Home ADU requirements.
- If any structural modifications or add-ons have been made to a 1-unit dwelling and any portion of the 1-unit dwelling is a Manufactured Home, the Mortgage securing such property must be delivered as a Manufactured Home in compliance with the requirements of this chapter
- Any structural modifications to an existing Manufactured Home must be verified as approved by a licensed professional engineer or the local, State or federal authority
- Any improvements, modifications or repairs that affect the safety, soundness or habitability of the Manufactured Home must be completed prior to the sale of the Mortgage to Freddie Mac
- The Manufactured Home must be a 1-unit dwelling comprised of a single section (a “single-wide Manufactured Home”) or multiple sections (a “multiwide Manufactured Home”)
- A Manufactured Home may be located on an individual lot or on a unit in a Condominium Project or Planned Unit Development
- If a Mortgage is secured by a single-wide Manufactured Home in a Planned Unit Development or a Condominium Project, the project eligibility must be determined through a reciprocal review, and the requirements in Section 5701.9 must be met

(b) Other types of factory-built housing

Freddie Mac does not include other types of factory-built housing not subject to the National Manufactured Construction and Safety Standards Act, such as modular or panelized housing, in the definition of Manufactured Homes. Freddie Mac will purchase a Mortgage secured by one of those other types of factory-built housing, as long as Freddie Mac’s Mortgage and property eligibility requirements are met.

5703.3: General eligibility requirements for Mortgages secured by Manufactured Homes (05/03/23)

(a) Eligible Mortgages

A Mortgage secured by a Manufactured Home must be submitted to Loan Product Advisor®. The following Mortgages are eligible:

- An Accept Mortgage, or
- A Mortgage that was submitted to Loan Product Advisor and received:
 - An evaluation status of invalid, ineligible or incomplete, or
 - A Risk Class of Caution

And

- A fully amortizing fixed-rate Mortgage, or
- A 7/6-Month ARM or 10/6-Month ARM

(b) Ineligible Mortgages

A Mortgage secured by a Manufactured Home must not be:

- An ARM, other than those listed in Section 5703.3(a)
- A Non-Loan Product Advisor Mortgage that has never been submitted to Loan Product Advisor
- A Mortgage subject to a temporary subsidy buydown
- A Renovation Mortgage
- A Seller-Owned Converted Mortgage
- A Seller-Owned Modified Mortgage
- An Investment Property Mortgage
- A Mortgage securing a Manufactured Home that was moved from its original site and was previously occupied or installed on a permanent foundation
- A HomeOne® Mortgage
- A Community Land Trust Mortgage
- A Mortgage secured by property subject to income-based resale restrictions
- Secured by a unit in a Cooperative Project

(c) Occupancy

A Manufactured Home must be a Primary Residence or a second home.

An Investment Property Mortgage secured by a Manufactured Home is ineligible for delivery.

(d) Maximum loan term

For a purchase or “no cash-out” refinance transaction secured by a Primary Residence that is an Accept Mortgage, the maximum loan term is:

- 30 years, for Mortgages with loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios less than or equal to 95%

For a purchase or “no cash-out” refinance transaction secured by a Primary Residence that was submitted to Loan Product Advisor and received an evaluation status of invalid, ineligible or incomplete, or a Risk Class of Caution, the maximum loan term is:

- 20 years, for Mortgages with LTV/TLTV/HTLTV ratios greater than 90% and less than or equal to 95%
- 30 years, for Mortgages with LTV/TLTV/HTLTV ratios less than or equal to 90%

For a purchase or “no cash-out” refinance transaction secured by a second home, the maximum loan term is:

- 30 years, for Mortgages with LTV/TLTV/HTLTV ratios less than or equal to 85%

For a cash-out refinance transaction secured by a Primary Residence, the maximum loan term is:

- 20 years, for Mortgages with LTV/TLTV/HTLTV ratios less than or equal to 65%

(e) Manufactured Homes with Affordable Seconds®

Manufactured Homes that comply with the requirements in Chapter 5703 may be originated with Affordable Seconds, provided that:

- The Manufactured Home is a 1-unit Primary Residence
- The Mortgage is a Home Possible® Mortgage that meets the requirements of Chapter 4501, and

- If the Manufactured Home is in a Condominium Project, the Condominium Project meets the requirements of Section 5701.5(f)(1) through (f)(5)

(f) Maximum LTV/TLTVA/HTLTV ratios

The maximum LTV/TLTVA/HTLTV ratios for a Mortgage secured by a Manufactured Home are as follows:

PURCHASE AND “NO CASH-OUT” REFINANCE TRANSACTIONS

ACCEPT MORTGAGES

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 30-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	95%

CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 30-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	90%

CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 20-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	95%

ACCEPT MORTGAGES, CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 30-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Second home	85%

CASH-OUT REFINANCE TRANSACTIONS

ACCEPT MORTGAGES, CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 20-year loan term)

Occupancy Type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	65%

(g) Mortgage insurance requirements

A Mortgage secured by a Manufactured Home must have mortgage insurance coverage as stated in Section 4701.1.

The Mortgage can include Borrower-paid mortgage insurance premiums as provided for in Section 4701.2.

5703.3: General eligibility requirements for Mortgages secured by Manufactured Homes (Future effective date 09/11/23)

(a) Eligible Mortgages

A Mortgage secured by a Manufactured Home must be submitted to Loan Product Advisor®. The following Mortgages are eligible:

- An Accept Mortgage, or
- A Mortgage that was submitted to Loan Product Advisor and received:
 - An evaluation status of invalid, ineligible or incomplete, or
 - A Risk Class of Caution

Note: A Mortgage secured by a single-wide Manufactured Home must be an Accept Mortgage.

And

- A fully amortizing fixed-rate Mortgage, or
- A 7/6-Month ARM or 10/6-Month ARM

(b) Ineligible Mortgages

A Mortgage secured by a Manufactured Home must not be:

- An ARM, other than those listed in Section 5703.3(a)
- A Non-Loan Product Advisor Mortgage that has never been submitted to Loan Product Advisor
- A Mortgage subject to a temporary subsidy buydown
- A Renovation Mortgage
- A Seller-Owned Converted Mortgage
- A Seller-Owned Modified Mortgage
- An Investment Property Mortgage
- A Mortgage securing a Manufactured Home that was moved from its original site and was previously occupied or installed on a permanent foundation
- A HomeOne® Mortgage
- A Community Land Trust Mortgage
- A Mortgage secured by a property subject to income-based resale restrictions, unless the Manufactured Home is a CHOICEHome®
- Secured by a unit in a Cooperative Project

(c) Occupancy

A Mortgage secured by a multiwide Manufactured Home must be a Primary Residence or a second home.

A Mortgage secured by a single-wide Manufactured Home must be a Primary Residence.

An Investment Property Mortgage secured by a Manufactured Home is ineligible for delivery.

(d) Maximum loan term

For a purchase or “no cash-out” refinance transaction secured by a Primary Residence that is an Accept Mortgage, the maximum loan term is:

- 30 years, for Mortgages with loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTB (HTLTB) ratios less than or equal to 95%

For a purchase or “no cash-out” refinance transaction secured by a Primary Residence that was submitted to Loan Product Advisor and received an evaluation status of invalid, ineligible or incomplete, or a Risk Class of Caution, the maximum loan term is:

- 20 years, for Mortgages with LTV/TLTV/HTLTB ratios greater than 90% and less than or equal to 95%
- 30 years, for Mortgages with LTV/TLTV/HTLTB ratios less than or equal to 90%

For a purchase or “no cash-out” refinance transaction secured by a second home, the maximum loan term is:

- 30 years, for Mortgages with LTV/TLTV/HTLTB ratios less than or equal to 85%

For a cash-out refinance transaction secured by a Primary Residence, the maximum loan term is:

- 20 years, for Mortgages with LTV/TLTV/HTLTB ratios less than or equal to 65%

(e) Manufactured Homes with Affordable Seconds®

Manufactured Homes that comply with the requirements in Chapter 5703 may be originated with Affordable Seconds, provided that:

- The Manufactured Home is a 1-unit Primary Residence
- The Mortgage is a Home Possible® Mortgage that meets the requirements of Chapter 4501, and
- If the Manufactured Home is in a Condominium Project, the Condominium Project meets the requirements of Section 5701.5(f)(1) through (f)(5)

(f) Maximum LTV/TLTV/HTLTB ratios

The maximum LTV/TLTB/HTLTB ratios for a Mortgage secured by a Manufactured Home are as follows:

PURCHASE AND “NO CASH-OUT” REFINANCE TRANSACTIONS

ACCEPT MORTGAGES

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 30-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	95%

CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 30-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	90%

CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 20-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	95%

ACCEPT MORTGAGES, CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 30-year loan term)

Occupancy type	Maximum LTV/TLTV/HTLTV ratio
Second home	85%

CASH-OUT REFINANCE TRANSACTIONS

ACCEPT MORTGAGES, CAUTION MORTGAGES AND MORTGAGES THAT WERE SUBMITTED TO LOAN PRODUCT ADVISOR AND RECEIVED AN EVALUATION STATUS OF INVALID, INELIGIBLE OR INCOMPLETE

(Fixed-rate, 7/6-Month ARM and 10/6-Month ARM with a maximum 20-year loan term)

Occupancy Type	Maximum LTV/TLTV/HTLTV ratio
Primary Residence	65%

(g) Mortgage insurance requirements

A Mortgage secured by a Manufactured Home must have mortgage insurance coverage as stated in Section 4701.1.

The Mortgage can include Borrower-paid mortgage insurance premiums as provided for in Section 4701.2.

5703.4: Eligible transaction types for Mortgages secured by Manufactured Homes (02/01/23)

A Mortgage secured by a Manufactured Home may be a purchase transaction, “no cash-out” refinance transaction or a cash-out refinance transaction.

For a new Manufactured Home, whether it is affixed to a permanent foundation prior to or after the application date, the Seller must obtain a copy of the manufacturer’s invoice and Manufactured Home Purchase Agreement.

(a) Purchase transactions

A purchase transaction is one in which the loan proceeds are used to finance the purchase of the Manufactured Home. The proceeds may also be used to purchase the land when the Borrower does not separately own the land.

- The purchase price may include documented costs for delivery and setup, site development, installation, and permanent utility connections, including well and/or septic systems

- Credits for wheels and axles, and any Manufactured Home retailer rebates, must be deducted from the purchase price along with any sales concessions in accordance with Section 5501.5
- Financing of any forms of insurance, except for mortgage insurance, or other costs is not allowed for purchase transactions

(i) Newly built Manufactured Home

The maximum loan-to-value (LTV) (and total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios, if applicable) for a purchase transaction Mortgage secured by a newly built Manufactured Home (i.e., not previously owned) and/or not affixed to a permanent foundation as of the application date, is based on value calculated as the lower of:

- The purchase price of the Manufactured Home and land, or
- The purchase price of the Manufactured Home, and
 - If the land was purchased less than 12 months prior to the application date, the lowest purchase price at which the land was sold during that 12-month period, or
 - If the land was purchased 12 months or more prior to the application date, the current appraised value of the land, or
- The current appraised value of the Manufactured Home and land

(ii) Previously owned Manufactured Home affixed to a permanent foundation

The LTV ratio (and TLTV/HTLTV ratio, if applicable) for a purchase transaction Mortgage secured by a previously owned Manufactured Home that is affixed to a permanent foundation prior to the application date is based on value calculated as the lower of:

- The purchase price of the Manufactured Home and land, or
- The current appraised value of the Manufactured Home and land, or
- If the Manufactured Home was affixed to a permanent foundation less than 12 months prior to the application date, the lowest price at which the Manufactured Home was previously sold during that 12-month period, and the lower of:
 - The current appraised value of the land, or

- The lowest price at which the land was sold during that 12-month period (provided there was such a sale)

(iii) Existing Manufactured Home in a new or existing Manufactured Home subdivision

The LTV ratio (and TLTVA/HTLTV ratio, if applicable) for a purchase transaction Mortgage secured by an existing Manufactured Home that is permanently affixed to its foundation, if the Manufactured Home is sold by a builder or a developer, or a manufacturer acting as a developer, as part of a new or existing Manufactured Home subdivision, is based on the value calculated as the lower of:

- The purchase price of the Manufactured Home and land, or
- The current appraised value of the Manufactured Home and land

See Chapter 4602 for the requirements for purchase transaction Construction Conversion Mortgages secured by a Manufactured Home as well as for calculation of value used to determine the LTV ratio (and TLTVA/HTLTV ratio, if applicable) for those Mortgages.

(b) “No cash-out” refinance transactions

A “no cash-out” refinance transaction involves the payoff of an existing Mortgage secured by the Manufactured Home and land. The loan amount is limited to the amounts used to:

- Pay off the existing first Mortgage secured by the Manufactured Home and the land
- Pay off the existing Mortgage or junior lien(s) obtained by the Borrower solely to acquire either the Manufactured Home or the land if the Manufactured Home and land are separately encumbered
- Pay related Closing Costs
- Disburse cash out to the Borrower (or any other payee) up to the greater of 1% of the new refinance Mortgage or \$2,000

A “no cash-out” refinance Mortgage must also meet the requirements in Sections 4301.4(a) and 4301.4(b).

The LTV ratio (and TLTVA/HTLTV ratio, if applicable) for a “no cash-out” refinance transaction, including a Construction Conversion Mortgage, is based on the current appraised value of the Manufactured Home and land.

(c) Cash-out refinance transactions

A cash-out refinance transaction may involve:

- The payoff of an existing Mortgage secured by the Manufactured Home and land
- The payoff of existing liens if the Manufactured Home and land are separately encumbered
- Enabling the Borrower to obtain a Mortgage on a property that does not have an existing Mortgage against it, and

These refinance options permit the Borrower to take equity out of the property in the form of Mortgage proceeds. To be eligible for a cash-out refinance, the Borrower must have owned both the Manufactured Home and land for 12 months or more prior to the application date.

The value for a cash-out refinance Mortgage is based on the current appraised value of the Manufactured Home and land.

5703.4: Eligible transaction types for Mortgages secured by Manufactured Homes (Future effective date 09/11/23)

A Mortgage secured by a Manufactured Home may be a purchase transaction, “no cash-out” refinance transaction or a cash-out refinance transaction. A Mortgage secured by a single-wide Manufactured Home must be a purchase or “no cash-out” refinance.

For a new Manufactured Home, whether it is affixed to a permanent foundation prior to or after the application date, the Seller must obtain a copy of the manufacturer’s invoice and Manufactured Home Purchase Agreement.

(a) Purchase transactions

A purchase transaction is one in which the loan proceeds are used to finance the purchase of the Manufactured Home. The proceeds may also be used to purchase the land when the Borrower does not separately own the land.

- The purchase price may include documented costs for delivery and setup, site development, installation, and permanent utility connections, including well and/or septic systems
- Credits for wheels and axles, and any Manufactured Home retailer rebates, must be deducted from the purchase price along with any sales concessions in accordance with Section 5501.5
- Financing of any forms of insurance, except for mortgage insurance, or other costs is not allowed for purchase transactions

(i) Newly built Manufactured Home

The maximum loan-to-value (LTV) (and total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios, if applicable) for a purchase transaction Mortgage secured by a newly built Manufactured Home (i.e., not previously owned) and/or not affixed to a permanent foundation as of the application date, is based on value calculated as the lower of:

- The purchase price of the Manufactured Home and land, or
- The purchase price of the Manufactured Home, and
 - If the land was purchased less than 12 months prior to the application date, the lowest purchase price at which the land was sold during that 12-month period, or
 - If the land was purchased 12 months or more prior to the application date, the current appraised value of the land, or
- The current appraised value of the Manufactured Home and land

(ii) Previously owned Manufactured Home affixed to a permanent foundation

The LTV ratio (and TLTV/HTLTV ratio, if applicable) for a purchase transaction Mortgage secured by a previously owned Manufactured Home that is affixed to a permanent foundation prior to the application date is based on value calculated as the lower of:

- The purchase price of the Manufactured Home and land, or
- The current appraised value of the Manufactured Home and land, or
- If the Manufactured Home was affixed to a permanent foundation less than 12 months prior to the application date, the lowest price at which the Manufactured Home was previously sold during that 12-month period, and the lower of:
 - The current appraised value of the land, or
 - The lowest price at which the land was sold during that 12-month period (provided there was such a sale)

(iii) Existing Manufactured Home in a new or existing Manufactured Home subdivision

The LTV ratio (and TLTV/HTLTV ratio, if applicable) for a purchase transaction Mortgage secured by an existing Manufactured Home that is permanently affixed to its foundation, if the Manufactured Home is sold by a builder or a developer, or a

manufacturer acting as a developer, as part of a new or existing Manufactured Home subdivision, is based on the value calculated as the lower of:

- The purchase price of the Manufactured Home and land, or
- The current appraised value of the Manufactured Home and land

See Chapter 4602 for the requirements for purchase transaction Construction Conversion Mortgages secured by a Manufactured Home as well as for calculation of value used to determine the LTV ratio (and TLT/HTLTV ratio, if applicable) for those Mortgages.

(b) "No cash-out" refinance transactions

A "no cash-out" refinance transaction involves the payoff of an existing Mortgage secured by the Manufactured Home and land. The loan amount is limited to the amounts used to:

- Pay off the existing first Mortgage secured by the Manufactured Home and the land
- Pay off the existing Mortgage or junior lien(s) obtained by the Borrower solely to acquire either the Manufactured Home or the land if the Manufactured Home and land are separately encumbered
- Pay related Closing Costs
- Disburse cash out to the Borrower (or any other payee) up to the greater of 1% of the new refinance Mortgage or \$2,000

A "no cash-out" refinance Mortgage must also meet the requirements in Sections 4301.4(a) and 4301.4(b).

The LTV ratio (and TLT/HTLTV ratio, if applicable) for a "no cash-out" refinance transaction, including a Construction Conversion Mortgage, is based on the current appraised value of the Manufactured Home and land.

(c) Cash-out refinance transactions

A cash-out refinance transaction may involve:

- The payoff of an existing Mortgage secured by the Manufactured Home and land
- The payoff of existing liens if the Manufactured Home and land are separately encumbered
- Enabling the Borrower to obtain a Mortgage on a property that does not have an existing Mortgage against it

These refinance options permit the Borrower to take equity out of the property in the form of Mortgage proceeds. To be eligible for a cash-out refinance, the Borrower must have owned both the Manufactured Home and land for 12 months or more prior to the application date.

The value for a cash-out refinance Mortgage is based on the current appraised value of the Manufactured Home and land.

5703.5: Underwriting requirements for Mortgages secured by Manufactured Homes (01/01/22)

(a) Loan Product Advisor® Mortgages

All Mortgages secured by Manufactured Homes must be submitted to Loan Product Advisor.

Non-Loan Product Advisor Mortgages secured by Manufactured Homes that have never been submitted to Loan Product Advisor are not eligible for delivery.

Mortgages that are submitted to Loan Product Advisor and receive a Risk Class of Caution or an assessment status of invalid, ineligible or incomplete, must be manually underwritten in accordance with the requirements of Topics 5100 through 5500 and must have the Minimum Indicator Scores required on Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

(b) Borrower funds

Refer to Section 5501.3 for eligible sources of Borrower personal funds.

(c) Land

If the Borrower owns the land on which the Manufactured Home is being permanently attached, the land may be used as an equity contribution. In such event, the Borrower's equity contribution is equal to:

- The current appraised value of the land if the Borrower has owned the land for 12 months or more prior to the application date, or
- The lower of the current appraised value of the land or the purchase price of the land if the Borrower has owned the land for less than 12 months

If the Borrower purchased the land less than 12 months prior to the application date, the Seller must document the Borrower's equity contribution with:

- A certified copy of the Settlement/Closing Disclosure Statement, and

- A copy of the warranty deed evidencing there are no liens against the subject property, or a copy of the release for any prior lien(s)

If the Borrower acquired the land as a gift, an inheritance or by some other non-purchase transaction less than 12 months prior to the application date, the Seller must obtain appropriate documentation to verify the acquisition and transfer of ownership of the land. In such event, the value of the land will be its current appraised value.

(d) Trade equity

If the subject transaction involves trade equity from the Borrower's existing Manufactured Home, the requirements of this subsection must be met.

The maximum equity contribution from the traded Manufactured Home must be determined as follows:

- If the Borrower has owned the traded Manufactured Home for 12 months or more prior to the application date, 90% of the retail value based on the N.A.D.A. Manufactured Housing Appraisal Guide®, or
- If the Borrower has owned the traded Manufactured Home for less than 12 months prior to the application date, the maximum equity contribution is the lesser of 90% of the retail value or the lowest price at which the Manufactured Home was sold during that 12-month period

Any costs resulting from the removal of the Manufactured Home or any outstanding indebtedness secured by liens on the Manufactured Home must be deducted from the maximum equity contribution.

The trade equity must be documented by a lien search in the appropriate real property or personal property records to verify ownership and existence of liens on the Manufactured Home and land, if included. The seller of the new Manufactured Home must provide proof of title transfer and satisfaction of any existing liens on the traded Manufactured Home.

(e) Layering of risk

A Manufactured Home adds a layer of collateral risk that must be considered when evaluating the overall risk of the Mortgage using the three Cs of underwriting (credit reputation, capacity and collateral). The Seller must consider this high-risk characteristic in evaluating the overall risk of the Mortgage and avoid combining a Manufactured Home with weaknesses in the components of capacity and credit reputation. See Section 5102.2 for more information on evaluating layering of risk and how to document that the overall risk of the Mortgage is acceptable.

For example, a Mortgage secured by a Manufactured Home with maximum financing is acceptable if the Borrower has a strong credit reputation and strong capacity to offset the

high risk within the collateral component. However, if the Borrower has weaknesses in credit reputation, such as a credit history of short duration or derogatory credit information, the layering of risk across credit reputation and collateral is excessive and would make the Mortgage unacceptable.

5703.5: Underwriting requirements for Mortgages secured by Manufactured Homes (Future effective date 09/11/23)

(a) Loan Product Advisor® Mortgages

All Mortgages secured by Manufactured Homes must be submitted to Loan Product Advisor.

A Mortgage secured by a single-wide Manufactured Home must be an Accept Mortgage.

Non-Loan Product Advisor Mortgages secured by Manufactured Homes that have never been submitted to Loan Product Advisor are not eligible for delivery.

Mortgages that are submitted to Loan Product Advisor and receive a Risk Class of Caution or an assessment status of invalid, ineligible or incomplete, must be manually underwritten in accordance with the requirements of Topics 5100 through 5500 and must have the Minimum Indicator Scores required on Exhibit 25, Mortgages with Risk Class and/or Minimum Indicator Score Requirements.

(b) Borrower funds

Refer to Section 5501.3 for eligible sources of Borrower personal funds.

(c) Land

If the Borrower owns the land on which the Manufactured Home is being permanently attached, the land may be used as an equity contribution. In such event, the Borrower's equity contribution is equal to:

- The current appraised value of the land if the Borrower has owned the land for 12 months or more prior to the application date, or
- The lower of the current appraised value of the land or the purchase price of the land if the Borrower has owned the land for less than 12 months

If the Borrower purchased the land less than 12 months prior to the application date, the Seller must document the Borrower's equity contribution with:

- A certified copy of the Settlement/Closing Disclosure Statement, and

- A copy of the warranty deed evidencing there are no liens against the subject property, or a copy of the release for any prior lien(s)

If the Borrower acquired the land as a gift, an inheritance or by some other non-purchase transaction less than 12 months prior to the application date, the Seller must obtain appropriate documentation to verify the acquisition and transfer of ownership of the land. In such event, the value of the land will be its current appraised value.

(d) Trade equity

If the subject transaction involves trade equity from the Borrower's existing Manufactured Home, the requirements of this subsection must be met.

The maximum equity contribution from the traded Manufactured Home must be determined as follows:

- If the Borrower has owned the traded Manufactured Home for 12 months or more prior to the application date, 90% of the retail value based on the N.A.D.A. Manufactured Housing Appraisal Guide®, or
- If the Borrower has owned the traded Manufactured Home for less than 12 months prior to the application date, the maximum equity contribution is the lesser of 90% of the retail value or the lowest price at which the Manufactured Home was sold during that 12-month period

Any costs resulting from the removal of the Manufactured Home or any outstanding indebtedness secured by liens on the Manufactured Home must be deducted from the maximum equity contribution.

The trade equity must be documented by a lien search in the appropriate real property or personal property records to verify ownership and existence of liens on the Manufactured Home and land, if included. The seller of the new Manufactured Home must provide proof of title transfer and satisfaction of any existing liens on the traded Manufactured Home.

(e) Layering of risk

A Manufactured Home adds a layer of collateral risk that must be considered when evaluating the overall risk of the Mortgage using the three Cs of underwriting (credit reputation, capacity and collateral). The Seller must consider this high-risk characteristic in evaluating the overall risk of the Mortgage and avoid combining a Manufactured Home with weaknesses in the components of capacity and credit reputation. See Section 5102.2 for more information on evaluating layering of risk and how to document that the overall risk of the Mortgage is acceptable.

For example, a Mortgage secured by a Manufactured Home with maximum financing is acceptable if the Borrower has a strong credit reputation and strong capacity to offset the high risk within the collateral component. However, if the Borrower has weaknesses in credit reputation, such as a credit history of short duration or derogatory credit information, the layering of risk across credit reputation and collateral is excessive and would make the Mortgage unacceptable.

5703.6: Appraisal requirements for Manufactured Homes (03/31/22)

The Seller must obtain an appraisal with an interior and exterior inspection that meets Freddie Mac requirements:

(a) Additional appraiser qualifications for appraisals of Manufactured Homes

In addition to the appraiser qualifications stated in Section 5603.1, the Seller must determine that the appraiser demonstrates the knowledge and experience to perform quality appraisals for Manufactured Homes. The appraiser must:

- Have adequate experience and must have previously completed real property appraisals of Manufactured Homes
- Have adequate education and/or training related to the appraisal of Manufactured Homes
- Understand the unique features that affect the quality of Manufactured Homes and the factory construction techniques for Manufactured Homes
- Understand the manufacturers' and federal, State and local requirements for the installation of Manufactured Homes
- Be knowledgeable concerning the local Manufactured Home market, and
- Have access to appropriate data sources to establish an opinion of value

Traditional appraisal data sources may not provide sufficient quality Manufactured Home data for the appraiser to develop a supportable and well-documented appraisal. Although the Multiple Listing Service and public records information remain an important source of data, the appraiser must develop other sources such as Manufactured Home retailers and builders experienced in the installation of Manufactured Homes.

The N.A.D.A. Manufactured Housing Appraisal Guide® and Marshall & Swift® Residential Cost Handbook may also be used to provide support for the appraiser's quality adjustments and value conclusions.

(b) Manufactured Home information provided to appraiser

In addition to the requirements in Section 5603.3, when applicable, the Seller must provide the appraiser with:

- A complete copy of the executed contract for sale of the Manufactured Home and the land, or if the Manufactured Home and land have separate contracts, the executed contract for each is required. If the Borrower has owned the land for 12 months or more as of the Application Date, a copy of the executed contract for the land is not required.
- A copy of the manufacturer's invoice and the Manufactured Home Purchase Agreement when:
 - The Manufactured Home is a New Manufactured Home as identified in Section 5703.1 and the transaction is a purchase transaction; or
 - The Mortgage is a Construction Conversion Mortgage and the transaction is either a purchase transaction or "no cash-out" refinance transaction

(c) Appraisal requirements for a Manufactured Home

In addition to the requirements of Topic 5600, the appraiser must:

- Match the manufacturer's serial number(s) and the HUD Certification Label number(s) on the dwelling to the number(s) on the contract for sale, manufacturer's invoice, and any other documentation provided
 - If the numbers do not match, the appraisal report must clearly state that the Manufactured Home is not the same dwelling referenced on the contract for sale or other applicable documentation
- Analyze the contract for sale and other documents for the transaction, including, if required, the manufacturer's invoice and Manufactured Home Purchase Agreement
- Develop an opinion of the market value of the Manufactured Home excluding non-realty items, including but not limited to insurance, warranties or furniture
- Develop the cost approach
- Report the analyses, opinions and conclusions on Form 70B, Manufactured Home Appraisal Report

(d) Sales comparison approach for Manufactured Homes excluding CHOICEHome®

- The appraiser must state the specific number of Manufactured Home sales and listings as well as the respective price ranges that were used in the analysis

- The appraisal report for the Manufactured Home must contain at least two comparable Manufactured Home sales of similar configuration (i.e., single-wide comparable sales for a single-wide subject property and multi-wide comparable sales for a multi-wide subject property) and similar quality

The appraiser may use either site-built housing or a different type of factory built-housing as the third comparable sale if the appraiser explains the reason for selecting the comparable and makes and supports the adjustments in the appraisal report.

- More than three comparable sales, to include contract sales and listings, may be used as needed to adequately support the appraiser's opinion of value.

If the Manufactured Home is in a controlled market (such as a new subdivision or project, a newly converted project or an area where the property seller owns a substantial number of units), at least one comparable sale must be outside the influence of the developer, builder or property seller.

- Resales from within the subject project or subdivision may be used to meet this requirement.
- When comparable sales from outside the subject project or subdivision are used, they must also be outside the influence of the subject property's developer, builder or property seller.

The appraiser must not create comparable sales by combining vacant land sales with the contract purchase price of the Manufactured Home. If the appraiser is unable to develop an appraisal based on at least two comparable sales of similar Manufactured Homes, the Mortgage is not eligible for sale to Freddie Mac.

(e) Cost approach for Manufactured Homes

A detailed cost approach to value based on published sources and supported by market data is required for all Manufactured Home appraisals. It must, at a minimum, provide the information indicated on Form 70B, and provide sufficient information and data to allow the Seller or other reviewers to replicate the cost figures and calculations.

The cost figures must come directly from a published cost service without modification by the appraiser. The appraiser must report the source of the cost data and the effective date of cost data.

The appraiser must provide a quality rating from the cost service used. The appraiser's quality rating must be based on objective criteria.

The appraiser must provide an opinion of site value supported by a summary of comparable land sales or other methods used for estimating site value.

(f) Income approach for Manufactured Homes

The income approach to value is not required; however, the appraiser must consider the income approach to value and develop it if applicable and necessary to develop a credible report.

(g) Completion documentation for Manufactured Homes

If the appraisal is performed before the Manufactured Home is delivered and installed on a permanent foundation, the Seller must document that the Manufactured Home is complete. If a new appraisal is required, the appraiser must provide an analysis of previously unavailable information. If the new appraisal is an appraisal update that also acts as documentation of completion, the appraiser must state that the conditions of the underlying appraisal have been satisfied.

5703.6: Appraisal requirements for Manufactured Homes (Future effective date 09/11/23)

The Seller must obtain an appraisal with an interior and exterior inspection that meets Freddie Mac requirements:

(a) Additional appraiser qualifications for appraisals of Manufactured Homes

In addition to the appraiser qualifications stated in Section 5603.1, the Seller must determine that the appraiser demonstrates the knowledge and experience to perform quality appraisals for Manufactured Homes. The appraiser must:

- Have adequate experience and must have previously completed real property appraisals of Manufactured Homes
- Have adequate education and/or training related to the appraisal of Manufactured Homes
- Understand the unique features that affect the quality of Manufactured Homes and the factory construction techniques for Manufactured Homes
- Understand the manufacturers' and federal, State and local requirements for the installation of Manufactured Homes
- Be knowledgeable concerning the local Manufactured Home market, and
- Have access to appropriate data sources to establish an opinion of value

Traditional appraisal data sources may not provide sufficient quality Manufactured Home data for the appraiser to develop a supportable and well-documented appraisal. Although the Multiple Listing Service and public records information remain an important source of data, the appraiser must develop other sources such as Manufactured Home retailers and builders experienced in the installation of Manufactured Homes.

The N.A.D.A. Manufactured Housing Appraisal Guide® and Marshall & Swift® Residential Cost Handbook may also be used to provide support for the appraiser's quality adjustments and value conclusions.

(b) Information provided to appraiser for new Manufactured Homes

In addition to the requirements in Section 5603.3, when the Manufactured Home is new, the Seller must provide the appraiser with:

- A complete copy of the executed contract for sale of the Manufactured Home and the land, or if the Manufactured Home and land have separate contracts, the executed contract for each is required.

If the Borrower has owned the land for 12 months or more as of the Application Date, a copy of the executed contract for the land is not required.

- A copy of the manufacturer's invoice and the Manufactured Home Purchase Agreement when:
 - The Manufactured Home is a New Manufactured Home as identified in Section 5703.1 and the transaction is a purchase transaction; or
 - The Mortgage is a Construction Conversion Mortgage and the transaction is either a purchase transaction or "no cash-out" refinance transaction
- If the Manufactured Home is not yet attached to the land, the appraiser must have access to the plans and specifications or an existing model Manufactured Home and may complete the appraisal report based on either the plans and specifications or the existing model Manufactured Home.

(c) Appraisal requirements for a Manufactured Home

In addition to the requirements of Topic 5600, the appraiser must:

- Match the manufacturer's serial number(s) and the HUD Certification Label number(s) on the dwelling to the number(s) on the contract for sale, manufacturer's invoice, and any other documentation provided

- If the numbers do not match, the appraisal report must clearly state that the Manufactured Home is not the same dwelling referenced on the contract for sale or other applicable documentation
- Analyze the contract for sale and other documents for the transaction, including, if required, the manufacturer's invoice and Manufactured Home Purchase Agreement
- Include photos of the HUD Data Plate and HUD Certification Label(s)
- Develop the sales comparison approach to support an opinion of the market value of the Manufactured Home that excludes non-realty items, such as, but not limited to, insurance, warranties or furniture
- Develop the cost approach
- Report the analyses, opinions and conclusions on Form 70B, Manufactured Home Appraisal Report

(d) Sales comparison approach for Manufactured Homes excluding CHOICEHomes®

- The appraiser must state the specific number of Manufactured Home sales and listings as well as the respective price ranges that were used in the analysis
- The appraisal report for the Manufactured Home must include at least two comparable Manufactured Home sales of similar configuration (i.e., single-wide comparable sales for a single-wide subject property and multi-wide comparable sales for a multi-wide subject property) and similar quality
- The appraiser may use either site-built housing or a different type of factory built-housing as the third comparable sale if the appraiser explains the reason for selecting the comparable and makes and supports the adjustments in the appraisal report
- More than three comparable sales, to include contract sales and listings, may be used as needed to comply with these requirements and to support the appraiser's opinion of value

If the Manufactured Home is in a controlled market (such as a new subdivision or project, a newly converted project or an area where the property seller owns a substantial number of units), at least one comparable sale must be outside the influence of the developer, builder or property seller.

- Resales from within the subject project or subdivision may be used to meet this requirement
- When comparable sales from outside the subject project or subdivision are used, they must also be outside the influence of the subject property's developer, builder or property seller

The appraiser must not create comparable sales by combining vacant land sales with the contract purchase price of the Manufactured Home. If the appraiser is unable to develop an appraisal based on at least two comparable sales of similar Manufactured Homes, the Mortgage is not eligible for sale to Freddie Mac.

(e) Cost approach for Manufactured Homes

A detailed cost approach to value based on published sources and supported by market data is required for all Manufactured Home appraisals. The appraisal report must, at a minimum, provide the information indicated on Form 70B, and provide sufficient information and data to allow the Seller or other reviewers to replicate the cost figures and calculations. The appraiser should fully develop the cost approach to support quality of construction determinations and any adjustments made by the appraiser to account for differences in quality of construction.

The cost figures must come directly from a published cost service without modification by the appraiser. The appraiser must report the source of the cost data and the effective date of cost data.

The appraiser must use the cost data to provide a quality rating that is based only on objective criteria. The appraiser may use other sources of objective information, such as the Uniform Appraisal Dataset Specifications (as found in Exhibit 36, Condition and Quality Ratings and Level of Updating Definitions) ratings and definitions, to support the quality rating.

The appraiser must provide an opinion of site value supported by a summary of comparable land sales or other methods used for estimating site value.

(f) Income approach for Manufactured Homes

The income approach to value is not required; however, the appraiser must consider the income approach to value and develop it if applicable and necessary to develop a credible report.

(g) Completion documentation for Manufactured Homes

If the appraisal is performed before the Manufactured Home is delivered and installed on a permanent foundation, the Seller must document that the Manufactured Home is complete. If a new appraisal is required, the appraiser must provide an analysis of previously unavailable information. If the new appraisal is an appraisal update that also acts as documentation of completion, the appraiser must state that the conditions of the underlying appraisal have been satisfied.

5703.7: Title issues and lien requirements relating to Manufactured Homes (04/12/23)

(a) Real property requirements

To be eligible for delivery to Freddie Mac, a Mortgage must be secured by a perfected First Lien on real estate that consists of the Manufactured Home and the land on which the Manufactured Home is permanently affixed, and the Manufactured Home must be legally classified as real property under applicable State law, including relevant statutes, regulations and judicial decisions.

The Seller must be:

- Familiar with, and comply with, all State laws and regulations and complete all steps necessary to ensure that all of the property securing the Mortgage, including the Manufactured Home, is real property
- Aware of all State laws relating to titling the Manufactured Home and creating and perfecting liens on the Manufactured Home

If a State has laws, regulations or administrative policies that establish procedures allowing for the surrender and cancelation of the certificate of title, the Seller must comply with these procedures.

If a State does not have procedures allowing for the surrender and cancelation of the certificate of title, the Seller must comply with requirements for evidencing and perfecting a lien on the Manufactured Home on the certificate of title.

For example, if a State has laws, regulations or administrative policies that establish procedures allowing for the surrender and cancelation of the certificate of title, the Borrower may have to file an evidence of intent or affidavit of affixture for a Manufactured Home to be converted to real property. Or, a State may require a foundation form to be recorded in the land records and filed with the agency governing manufactured housing to complete the process for converting it to real property.

A Mortgage secured by a real estate lien on a Manufactured Home evidenced and perfected using a certificate of title is eligible for delivery only if a State has no statutory, regulatory or formal administrative process for surrendering and canceling a certificate of title or exemption of a Manufactured Home from the certificate of title requirements.

(b) Real property classification

Generally, a State will classify or recognize a Manufactured Home as real property using one of the following approaches:

(i) Non-certificate of title States

The Manufactured Home is classified as real property when it meets the requirements imposed by the State, including but not limited to, the permanent attachment of the Manufactured Home to the land. The State does not require that the owner of the Manufactured Home obtain a certificate of title for the Manufactured Home (“non-certificate of title States”).

In non-certificate of title States, title to the Manufactured Home is evidenced and conveyed by deed and the lien on the Manufactured Home and the land is created and perfected by a recorded Security Instrument.

(ii) Certificate of title surrender States

The Manufactured Home is classified as real property when it meets the requirements imposed by the State, including but not limited to:

- The Manufactured Home is permanently affixed to the land
- The certificate of title is surrendered to the appropriate State agency, and
- The certificate of title is canceled by the State agency (“certificate of title surrender States”)

Some certificate of title surrender States also provide for an exemption from the issuance of a certificate of title upon the surrender of the manufacturer’s statement of origin if the Manufactured Home is permanently affixed to the land and meets the other requirements for a surrender and cancellation of a certificate of title.

In certificate of title surrender States, after the certificate of title has been canceled or otherwise exempted, title to the Manufactured Home is evidenced and conveyed by deed and the lien on the Manufactured Home and the land is created and perfected by a recorded Security Instrument.

(iii) Certificate of title States

The Manufactured Home is recognized as part of the real property when it meets the requirements imposed by the State, including but not limited to:

- The Manufactured Home is permanently affixed to the land, and
- The Manufactured Home meets all other conditions to be legally recognized as real property when a certificate of title has been issued by the State but not surrendered (“certificate of title States”)

In a certificate of title State, the State does not have procedures allowing for the surrender and cancellation of the certificate of title.

In a certificate of title State:

- Ownership of the Manufactured Home is shown on the certificate of title and ownership of the land is shown on the recorded deed to the real property
- Transfer of ownership of the Manufactured Home is either noted on the certificate of title or by the issuance of a new certificate of title showing the purchaser as the owner, and transfer of ownership of the land is done through a recorded deed of transfer
- The lien on the land is created by the Security Instrument and is evidenced and perfected by recording the Security Instrument in the land records. The lien on the Manufactured Home is created by the same Security Instrument but is evidenced and perfected by its notation on the certificate of title to the Manufactured Home and/or filing with the appropriate State agency, or another specified method.

(c) Documentation requirements

In all cases, notwithstanding the different processes required by State law, the Seller must maintain in the Mortgage file documentation evidencing that:

- The Manufactured Home is legally classified as real property, and
- The Manufactured Home is properly titled, and
- The lien on the Manufactured Home and the land on which it is permanently affixed has been properly created, evidenced and perfected

The documentation must include the serial number(s)/vehicle identification number(s) (VIN) for each section of the Manufactured Home.

(i) Special requirements for non-certificate of title States

The Seller must maintain the following in the Mortgage file:

- Information stating the legal basis (statutory or common law) for determining that the Manufactured Home is real property that is exempt from certificate of title requirements. This information may be included in the documentation from the title insurance company that the Manufactured Home is real property, and
- Evidence that a certificate of title has not been issued such as the manufacturer's statement of origin (provided that the manufacturer's statement of origin is not required to be surrendered to a State agency)

(ii) Special requirements for certificate of title surrender States

The Seller must provide documentation from the appropriate State authority to evidence that the certificate of title has been surrendered and canceled (or in the case of a new Manufactured Home, the manufacturer's statement of origin has been surrendered and no certificate of title was issued). The Seller must provide as evidence:

- A certificate of cancelation, notification letter or other acknowledgement from the Department of Motor Vehicles (DMV) or the appropriate State agency to which the certificate of title was surrendered, or
- A copy of the documents submitted in connection with the surrender, along with evidence that the documents were delivered and received by the appropriate State agency

And

- Copies of documents recorded in the land records as part of the title surrender procedures to show the Manufactured Home has been converted to real property, such as an affidavit of affixture

(iii) Special requirements for certificate of title States

The Seller must comply with the following special requirements for Mortgages secured by Manufactured Homes located in certificate of title States:

- In addition to the requirements for perfecting a lien on the land to which the Manufactured Home is permanently affixed, the Seller must take all necessary action to perfect the lien on the Manufactured Home. This may include adding a notation of the Seller's security interest in the Manufactured Home on the certificate of title in the name of Seller and its successors in interest and assigns, and/or recording its lien with the State motor vehicles administration or other authorized agency.
- The Seller must verify that ownership of the Manufactured Home as shown on the certificate of title and ownership of the land as shown on the deed are identical, and that the owner of the Manufactured Home and the land is the Borrower under the Note and Security Instrument
- The Seller/Servicer is not required to note the assignment of the security interest in the Manufactured Home to the Federal Home Loan Mortgage Corporation (Freddie Mac) on the certificate of title. However, if it deems necessary to protect its interests, at its sole discretion and at any time, Freddie Mac may require a Seller/Servicer, at the Seller/Servicer's expense, to note the assignment of its security interest in the Manufactured Home to Freddie Mac in one or more of the following ways, depending on State law:

- Notation on the certificate of title, and/or
- Recording the assignment to Freddie Mac with the State motor vehicles administration or other authorized agency
- For assignments of the lien on the Manufactured Home, the Seller/Servicer must ensure that the chain of assignments as noted on the certificate of title is complete from the original mortgagee on the certificate of title to the Seller, and the full chain of assignments noted on the certificate of title is recorded in the State motor vehicles administration or other authorized agency, if required. If the Seller enters into a Concurrent or Subsequent Transfer of Servicing, an assignment to the new Servicer must be noted on the certificate of title and/or must be recorded in the State motor vehicles administration or other authorized agency, if required.

The following requirements must be completed by the Seller when preparing and completing assignments of the security interest in the Manufactured Home for Concurrent or Subsequent Transfers of Servicing in a certificate of title State:

- If the Borrower holds the original certificate of title, and the original certificate of title must be produced to note the assignment, the Seller/Servicer must obtain the original certificate of title from the Borrower and follow the applicable procedures to note the assignment on the certificate of title
- The Transferor must note any intervening assignments from the original mortgagee to the Transferor on the certificate of title and, if required, record the complete chain of assignments from the original mortgagee to the Transferor with the State motor vehicles administration or other authorized agency
- The Transferor must note the assignment of its interest in the Manufactured Home to the Transferee on the original certificate of title and, if required, record the assignment with the State motor vehicles administration or other authorized agency
- If the Borrower holds the original certificate of title, the Transferor must retain a copy of the original certificate with the noted assignments before returning the original certificate of title with the noted assignments to the Borrower in accordance with applicable procedures
- The Transferor must deliver the certificate of title (or, if applicable, a copy of the certificate of title) evidencing the complete chain of title to the Transferee who must retain the certificate of title or a copy of the certificate of title, as applicable, in the Mortgage file

The Seller must maintain the following documents in the Mortgage file for certificate of title States.

- The original certificate of title showing all intervening assignments and ending with the Seller and its successors in interests and assigns as lienholder if State law does not require the original certificate of title to be held by the Manufactured Home owner, or
- A copy of the certificate of title showing all intervening assignments and ending showing the Seller and its successors in interests and assigns as lienholder if State law requires the original certificate of title to be held by the Manufactured Home owner, and
- Evidence on the certificate of title (original or copy, as applicable) of the assignment of the security interest in the Manufactured Home from the Transferor to the Transferee Servicer if there has been a Transfer of Servicing

Note: Mortgages secured by Manufactured Homes in certificate of title States are not eligible for registration with the MERS®.

(d) Borrower and Seller affidavit

The Borrower and, if required, the Seller, must sign an affidavit that acknowledges their intent for the Manufactured Home to be permanently part of the real property that secures the Mortgage and that contains any specific language that may be required by applicable law. The affidavit must be recorded, if permitted, and either a copy of the affidavit showing the record location or the original after its return from recordation must be maintained in the Mortgage file.

(e) Uniform Instruments

The financing of the Manufactured Home and the land must be evidenced by a valid and enforceable single real estate First Lien Security Instrument that includes the Manufactured Home as part of the real property collateral and is recorded in the land records.

Mortgages secured by Manufactured Homes must be evidenced by:

- The current Fannie Mae/Freddie Mac Uniform fixed-rate Note or acceptable ARM Note, and
- The current Fannie Mae/Freddie Mac State-specific Security Instrument

The Note or the Security Instrument may not contain any statement that provides for the waiver of the rights of holders of due course or provides that an assignee Note holder may be held liable for claims the Borrower may have against other parties.

A Manufactured Home must be described in the Security Instrument and the description must include the year, make, model and serial number(s)/VIN(s) for each section of the Manufactured Home and any other information required by applicable law to identify the Manufactured Home.

(f) Title insurance

The Mortgage must be covered under a standard real estate title insurance policy that complies with Chapter 4702, and that identifies the Manufactured Home located on the real property and insures against any loss if the Manufactured Home is not real property.

The Seller must provide one of the following title policy endorsements for each Manufactured Home:

- An ALTA Form 7.1, where available, or ALTA Form 7 endorsement, or
- An endorsement required in the applicable jurisdiction that insures that the Manufactured Home constitutes real property, such as the T-31 endorsement in the State of Texas

Note: The ALTA Form 7 endorsement does not insure the Manufactured Home has been properly converted to real property. If the State has statutory, regulatory or formal administrative process for surrendering and canceling a certificate of title, the Seller is responsible for ensuring that all steps necessary to convert the Manufactured Home to real property have been completed and documentation evidencing the conversion is in the Mortgage file.

(g) Closing instructions

The Seller must provide its closing agents closing instructions that instruct the agent to obtain the required documentation evidencing that the Manufactured Home is affixed to a permanent foundation on the land.

In non-certificate of title States, the closing instructions must instruct the closing agent to provide documentation for retention in the Mortgage file showing that the Manufactured Home is real property that does not require a certificate of title, including documentation that the Manufactured Home has been permanently installed.

In certificate of title surrender States, the closing instructions must instruct the closing agent to perform all necessary procedures to assure that the certificate of title to the Manufactured Home is properly canceled (or the manufacturer's statement of origin properly surrendered), and provide the Seller with supporting documentary evidence for retention in the Mortgage file.

Except for States where insured closing protection letters are not allowed under State law or regulations, the Seller must obtain an insured closing protection letter for each Mortgage that is secured by a Manufactured Home. If any of the documentation related to the conversion of the Manufactured Home to real property cannot be obtained until after closing, the Seller should obtain a properly circumscribed power of attorney from the Borrower that may be used to complete the post-closing items as intended.

5703.8: Taxation of Mortgaged Premises (03/02/16)

If State law or the local taxing authority, as of the Origination Date, requires or permits the Mortgaged Premises to be taxed as real estate, the Mortgaged Premises must be taxed as real estate by the jurisdiction where it is located.

If State law or the local taxing authority, as of the Origination Date, requires the Mortgaged Premises to be taxed as personal property, the Mortgaged Premises may be taxed as personal property by the jurisdiction where it is located provided:

- The taxation does not affect the status of the property as real property, and
- The Servicer's escrow systems are adjusted to escrow for both real estate and personal property taxes, and
- If the taxing authority has provisions for notifying secured lenders of tax delinquencies, the Seller has taken all necessary action to ensure that the Seller/Servicer will receive any applicable notice of tax delinquency

All of our requirements relating to real estate taxes apply equally to personal property taxes applicable to a Mortgage secured by a Manufactured Home.

Note: The taxation of the Mortgaged Premises as real property is not evidence that all the appropriate steps to convert a Manufactured Home to real property have been completed or that a Manufactured Home is legally classified as real property.

5703.9: Mortgages secured by a CHOICEHome® (04/05/23)

(a) Overview

CHOICEHome® is a type of Manufactured Home with aesthetics, architectural elements and dwelling specifications that exceed the minimum standards required for HUD-coded manufactured homes. These factory-built properties have features comparable to conventional, site-built properties.

The Seller must verify that the subject property meets CHOICEHome property eligibility requirements by obtaining an appraisal report and, when required, a final inspection that evidences the presence of the CHOICEHome element requirements and the following:

- The CHOICEHome notice ("Notice"), located in proximity to the HUD Data Plate
- The HUD Data Plate

- The HUD Certification Label

The presence of a Notice only certifies a dwelling was manufactured to the CHOICEHome specifications that were in place as of its manufacture date and does not guarantee eligibility for participation in the CHOICEHome program. There are site ownership and field-installed feature requirements that the Seller must verify to ensure CHOICEHome program eligibility. The Seller is responsible for ensuring these requirements are satisfied.

Freddie Mac will purchase Mortgages that are secured by a CHOICEHome and meet the requirements of this chapter and section.

(b) Eligible Mortgages

The Mortgage must be a purchase transaction Mortgage or “no cash-out” refinance Mortgage secured by a 1-unit Primary Residence that is a CHOICEHome Manufactured Home.

The Mortgage must be a fixed-rate Mortgage or a 5/6-Month, 7/6-Month or 10/6-Month ARM; provided, however, Home Possible® and HomeOne® Mortgages must be fixed-rate Mortgages.

(c) Ineligible Mortgages

The Mortgage must not be a:

- Super conforming Mortgage, or
- Seller-Owned Converted and Seller-Owned Modified Mortgage

(d) Eligible property

The CHOICEHome must meet the property requirements in Section 5703.2(b) except as otherwise indicated by specific CHOICEHome eligibility requirements.

A single-wide Manufactured Home is not eligible as a CHOICEHome.

(e) Underwriting requirements for CHOICEHome

The Mortgage must be assessed through Loan Product Advisor® and be an Accept Mortgage. The Seller must select the following in Loan Product Advisor:

- “Detached” as the subject property “Attachment Type”
- “Manufactured” as the subject property “Construction Method Type”
- “MultiWide” as the subject property Manufactured “Home Width Type”; and

- “CHOICEHome” as the subject property “Loan Program Identifier”

The Seller must not accept an appraisal waiver offer from Loan Product Advisor, stating an automated collateral evaluation (ACE) appraisal waiver is acceptable.

(f) Maximum LTV/TLTV/HTLTV ratios and value

(i) Maximum LTV/TLTV/HTLTV ratios

The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios are as follows:

	Maximum LTV ratio	Maximum TLTV ratio	Maximum HTLTV ratio
Fixed-rate Mortgages			
All Mortgages except Home Possible and HomeOne	95%	95%	95%
Home Possible Mortgages and HomeOne Mortgages	97%	97%	97%
Home Possible Mortgage with an Affordable Second® and HomeOne Mortgages with an Affordable Second	97%	105%	97%
ARMs			
All Mortgages*	95%	95%	95%

*Pursuant to Section 5703.9(b), Home Possible and HomeOne Mortgages must be fixed-rate Mortgages

(ii) Value

Although Sections 5703.4(a) and 5703.4(b) provide otherwise:

A. For purchase transactions, the LTV/TLTV/HTLTV ratios must be based on a value calculated on the lesser of:

- The purchase price of the CHOICEHome and purchase price of the land, or

- The current appraised value of the CHOICEHome and land
- B. For “no cash-out” refinance transactions, the LTV/TLTV/HTLTV ratios must be based on a value calculated on the current appraised value of the CHOICEHome and land

(g) Use of proceeds

The uses of Mortgage proceeds permitted under Sections 5703.4(a) and 5703.4(b) apply respectively to purchase transaction and “no cash-out” transaction Mortgages originated in accordance with this section.

(h) Mortgage insurance

Before the Seller submits a Mortgage with an LTV ratio greater than 95% to an MI the Seller must verify that the MI will cover a Mortgage that has an LTV ratio greater than 95% and is secured by a Manufactured Home.

Although Section 4701.1 states otherwise, a Mortgage secured by a Manufactured Home that is originated under this section and has an LTV ratio greater than 95% but less than or equal to 97% is eligible for mortgage insurance under Section 4701.1, provided that the Seller obtains mortgage insurance from the MI as indicated above.

(i) Appraisal requirements

Each Mortgage transaction requires an appraisal report completed on Form 70B, Manufactured Home Appraisal Report. The appraisal report must reflect a value opinion based on the real property as completed, consisting of the CHOICEHome, all site improvements, and the land on which the property is situated.

The appraisal report must include photos of:

- The CHOICEHome notice
- The HUD Data Plate
- The HUD Certification Label
- The property and site features including dormers, porches, garages, carports and any other attached or detached structures

The appraiser must comply with Section 5605.6 and the following:

- The appraisal report should contain at least one comparable CHOICEHome sale

- If no comparable CHOICEHome sales are available, the appraiser must use the most appropriate site-built homes as comparable sales.
- Traditional HUD-coded Manufactured Homes are not required as comparable sales. However, if used, the appraiser must include an explanation that supports its use as a comparable sales(s) considering CHOICEHome's elements and specifications.

(j) Construction elements

The required CHOICEHome construction elements include:

Foundation and Elevation	<p>The permanent foundation must comply with the following requirements:</p> <ul style="list-style-type: none"> ■ Meet HUD's Permanent Foundation Guide for Manufactured Housing ■ Be engineer designed and certified for the specific dwelling and site; and ■ Include a perimeter mortared masonry blocking wall set on a poured perimeter footer ■ Elevation design must be a low-profile/residential set finished floor set ■ The elevation should not exceed 30 inches from the bottom of the first-floor joist to the exterior grade for the front or entry ■ This is an installation standard, not a manufacturing requirement ■ Site topography or other considerations may affect actual placement and will not disqualify the property from its CHOICEHome classification
Elevation Features	<p>Elevation design must include one of the following feature pairings:</p> <ul style="list-style-type: none"> ■ Dormer(s) and covered porch (minimum 72 sq. ft.); or ■ Dormer(s) and attached/detached carport/garage with space to accommodate one or two cars (materials and finishes must be at least equivalent to the primary

	<p>structure; or</p> <ul style="list-style-type: none"> ■ Covered porch (minimum 72 sq. ft.) and attached/detached carport/garage with space to accommodate one or two cars (materials and finishes must be at least equivalent to the primary structure)
--	--

(k) Delivery requirements

See Section 6302.25(b)(ii) for special delivery requirements for CHOICEHome Mortgages.

5703.9: Mortgages secured by a CHOICEHome® (Future effective date 10/02/23)

(a) Overview

CHOICEHome® is a type of Manufactured Home with aesthetics, architectural elements and dwelling specifications that exceed the minimum standards required for HUD-coded manufactured homes. These factory-built properties have features comparable to conventional, site-built properties.

The Seller must verify that the subject property meets CHOICEHome property eligibility requirements by obtaining an appraisal report and, when required, a final inspection that evidences the presence of the CHOICEHome element requirements and the following:

- The CHOICEHome notice (“Notice”), located in proximity to the HUD Data Plate
- The HUD Data Plate
- The HUD Certification Label

The presence of a Notice only certifies a dwelling was manufactured to the CHOICEHome specifications that were in place as of its manufacture date and does not guarantee eligibility for participation in the CHOICEHome program. There are site ownership and field-installed feature requirements that the Seller must verify to ensure CHOICEHome program eligibility. The Seller is responsible for ensuring these requirements are satisfied.

Freddie Mac will purchase Mortgages that are secured by a CHOICEHome and meet the requirements of this chapter and section.

(b) Eligible Mortgages

The Mortgage must be a purchase transaction Mortgage or “no cash-out” refinance Mortgage secured by a 1-unit Primary Residence that is a CHOICEHome Manufactured Home.

The Mortgage must be a fixed-rate Mortgage or a 5/6-Month, 7/6-Month or 10/6-Month ARM; provided, however, Home Possible® Mortgages, HomeOne® Mortgages and HeritageOne™ Mortgages must be fixed-rate Mortgages.

(c) Ineligible Mortgages

The Mortgage must not be a:

- Super conforming Mortgage, or
- Seller-Owned Converted and Seller-Owned Modified Mortgage

(d) Eligible property

The CHOICEHome must meet the property requirements in Section 5703.2(b) except as otherwise indicated by specific CHOICEHome eligibility requirements.

A single-wide Manufactured Home is not eligible as a CHOICEHome.

(e) Underwriting requirements for CHOICEHome

The Mortgage must be assessed through Loan Product Advisor® and be an Accept Mortgage. The Seller must select the following in Loan Product Advisor:

- “Detached” as the subject property “Attachment Type”
- “Manufactured” as the subject property “Construction Method Type”
- “MultiWide” as the subject property Manufactured “Home Width Type”; and
- “CHOICEHome” as the subject property “Loan Program Identifier”

The Seller must not accept an appraisal waiver offer from Loan Product Advisor, stating an automated collateral evaluation (ACE) appraisal waiver is acceptable.

(f) Maximum LTV/TLTV/HTLTV ratios and value

(i) Maximum LTV/TLTV/HTLTV ratios

The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios are as follows:

	Maximum LTV ratio	Maximum TLTВ ratio	Maximum HTLTВ ratio
Fixed-rate Mortgages			
All Mortgages except Home Possible, HomeOne and HeritageOne Mortgages	95%	95%	95%
Home Possible, HomeOne and HeritageOne Mortgages	97%	97%	97%
Home Possible Mortgage with an Affordable Second®, HomeOne Mortgage with an Affordable Second and HeritageOne Mortgage with an Affordable Second	97%	105%	97%
ARMs			
All Mortgages*	95%	95%	95%

*Pursuant to Section 5703.9(b), Home Possible, HomeOne and HeritageOne Mortgages must be fixed-rate Mortgages

(ii) Value

Although Sections 5703.4(a) and 5703.4(b) provide otherwise:

- A. For purchase transactions, the LTV/TLTV/HTLTВ ratios must be based on a value calculated on the lesser of:
 - The purchase price of the CHOICEHome and purchase price of the land, or
 - The current appraised value of the CHOICEHome and land
- B. For “no cash-out” refinance transactions, the LTV/TLTV/HTLTВ ratios must be based on a value calculated on the current appraised value of the CHOICEHome and land

(g) Use of proceeds

The uses of Mortgage proceeds permitted under Sections 5703.4(a) and 5703.4(b) apply respectively to purchase transaction and “no cash-out” transaction Mortgages originated in accordance with this section.

(h) Mortgage insurance

Before the Seller submits a Mortgage with an LTV ratio greater than 95% to an MI the Seller must verify that the MI will cover a Mortgage that has an LTV ratio greater than 95% and is secured by a Manufactured Home.

Although Section 4701.1 states otherwise, a Mortgage secured by a Manufactured Home that is originated under this section and has an LTV ratio greater than 95% but less than or equal to 97% is eligible for mortgage insurance under Section 4701.1, provided that the Seller obtains mortgage insurance from the MI as indicated above.

(i) Appraisal requirements

Each Mortgage transaction requires an appraisal report completed on Form 70B, Manufactured Home Appraisal Report. The appraisal report must reflect a value opinion based on the real property as completed, consisting of the CHOICEHome, all site improvements, and the land on which the property is situated.

The appraisal report must include photos of:

- The CHOICEHome notice
- The HUD Data Plate
- The HUD Certification Label
- The property and site features including dormers, porches, garages, carports and any other attached or detached structures

The appraiser must comply with Section 5605.6 and the following:

- The appraisal report should contain at least one comparable CHOICEHome sale
- If no comparable CHOICEHome sales are available, the appraiser must use the most appropriate site-built homes as comparable sales.
- Traditional HUD-coded Manufactured Homes are not required as comparable sales. However, if used, the appraiser must include an explanation that supports its use as a comparable sales(s) considering CHOICEHome’s elements and specifications.

(j) Construction elements

The required CHOICEHome construction elements include:

Foundation and Elevation	<p>The permanent foundation must comply with the following requirements:</p> <ul style="list-style-type: none">■ Meet HUD's Permanent Foundation Guide for Manufactured Housing■ Be engineer designed and certified for the specific dwelling and site; and■ Include a perimeter mortared masonry blocking wall set on a poured perimeter footer■ Elevation design must be a low-profile/residential set finished floor set■ The elevation should not exceed 30 inches from the bottom of the first-floor joist to the exterior grade for the front or entry■ This is an installation standard, not a manufacturing requirement■ Site topography or other considerations may affect actual placement and will not disqualify the property from its CHOICEHome classification
Elevation Features	<p>Elevation design must include one of the following feature pairings:</p> <ul style="list-style-type: none">■ Dormer(s) and covered porch (minimum 72 sq. ft.); or■ Dormer(s) and attached/detached carport/garage with space to accommodate one or two cars (materials and finishes must be at least equivalent to the primary structure; or■ Covered porch (minimum 72 sq. ft.) and attached/detached carport/garage with space to accommodate one or two cars (materials and finishes must be at least equivalent to the primary structure)

(k) Delivery requirements

See Section 6302.25(b)(ii) for special delivery requirements for CHOICEHome Mortgages.

5703.10: Other requirements for Mortgages secured by Manufactured Homes (12/01/22)

Effective May 1, 2019, the contents of Section 5703.10 were moved from Section 5703.9.

(a) Delivery requirements

See Section 6302.25 for special delivery requirements for Mortgages secured by Manufactured Homes, including CHOICEHome® Mortgages.

(b) Credit Fees

For Credit Fees and Credit Fee Caps related to Manufactured Homes, including CHOICEHome Mortgages, the Seller must refer to Exhibit 19, Credit Fees, and Exhibit 19A, Credit Fee Cap Eligibility Criteria. Credit Fees are paid in accordance with the Credit Fee provisions outlined in Chapter 6303.

Chapter 5704: Leasehold Estates

5704.1: Purchase of leasehold Mortgages (06/07/23)

Freddie Mac will purchase a Mortgage secured by either a leasehold estate or a leasehold estate in a ground lease community where there is a demonstrated market acceptance of this type of property ownership. The Mortgage must be secured by a leasehold interest in the land or ground lease and the property improvements to be a leasehold Mortgage.

The following property types are eligible to secure leasehold Mortgages:

- 1- to 4-unit properties
- Planned Unit Development (PUD) units
- Condominium Units

See Chapter 4502 for Community Land Trust Mortgage requirements.

See Chapter 5706 for requirements for Manufactured Homes located on leasehold estates.

(a) Terms

The following terms apply for purposes of this section:

■ Basic rent

The amount paid for the use of the leasehold estate under the terms of the lease (or sublease, if applicable). Basic rent does not include:

- Taxes
- Insurance
- Utilities for the leasehold estate or common areas, or
- Use fees or operating expenses for the common areas, facilities and services

■ Ground lease community

A planned residential development, including infrastructure, common areas and community facilities for use by the individual lessee, with the following characteristics:

- Under the terms of the lease, the individual lessee holds a real property leasehold estate in a parcel of land improved by a dwelling and has an undivided common interest in the infrastructure, common areas and community facilities
- The ground lease community is either a Planned Unit Development (PUD) or Condominium Project, administered by a HOA; or the community is administered by the fee simple land owner/lessor that owns, and is obligated under the lease to maintain, the infrastructure, common areas and community facilities for the common use and benefit of the individual lessees

■ **Leasehold mortgagee**

The mortgagee that has a lien on the lessee's (or sublessee's) leasehold estate including improvements.

(b) Leasehold estate eligibility requirements

The lender must ensure that the following eligibility requirements are met:

- The leasehold estate and property improvement must:
 - Constitute real property
 - Be covered by a title insurance policy that complies with the applicable requirements in Chapter 4702
- The lease (and any sublease including all amendments) must be:
 - Recorded in the appropriate land records
 - In full force and effect, and
 - Binding and enforceable against the lessor (and sublessor)
- The leasehold estate and Mortgage must not be impaired by any merger of the fee interest and leasehold interest in the event the same person or entity acquires both interests
- The term of the leasehold estate must run for at least five years beyond the maturity date of the Mortgage unless the fee simple title vests at an earlier date
- All basic rent and amounts due (for taxes, insurance, utilities and use fees or operating expenses) relating to the land and improvements must be current and the Borrower must not be in default under any provision of the lease nor may the lessor have claimed such a default

6. The lease must not preclude the Borrower from retaining voting rights in the homeowners association, if applicable
7. All applicable Servicing requirements under the Guide and other Purchase Documents must be met

(c) Lease provisions

1. The lease must permit assignments, transfers, mortgaging and subletting of the leasehold (or subleasehold) estate, including any improvements on the leasehold estate
2. The lease must provide that for a notice of lessee's default (monetary or non-monetary) to be valid, the lessor must send written notice of the lessee's default to the leasehold mortgagee not more than 30 days after such default.

The lease is not required to include a notice of default provision if the Mortgaged Premises is located in Maryland and applicable State law provides for all lessors to register residential leases with the State and requires the lessor to send written notice of default to the leasehold mortgagee no less than 30 days prior to the lessor filing an action of possession.

3. The lease must provide for the right of the leasehold mortgagee, in its sole discretion, to cure a default for the lessee's (or sublessee, if applicable) account within the time permitted to lessee or take over the rights under the lease (sublease)
4. The lease cannot contain default provisions allowing forfeiture or termination of the lease for non-monetary default
5. The lease must provide for protection of the mortgagee's interests including an insurable interest in the subject property unless otherwise required by law, and interest in the lease, ground lease community and leasehold estate
6. The lease may, but is not required to, include an option for the Borrower to purchase the fee interest; provided, however, there can be no time limit on when the option must be exercised, and the lease and option to purchase must be assignable

5704.1: Purchase of leasehold Mortgages (Future effective date 10/02/23)

Freddie Mac will purchase a Mortgage secured by either a leasehold estate or a leasehold estate in a ground lease community where there is a demonstrated market acceptance of this type of property ownership. The Mortgage must be secured by a leasehold interest in the land or ground lease and the property improvements to be a leasehold Mortgage.

The following property types are eligible to secure leasehold Mortgages:

- 1- to 4-unit properties
- Planned Unit Development (PUD) units
- Condominium Units

See Chapter 4502 for Community Land Trust Mortgage requirements.

See Chapter 5706 for requirements for Manufactured Homes located on leasehold estates.

See Chapter 4504 for requirements for HeritageOneSM Mortgages, including the special requirements for HeritageOne Mortgages that are leasehold Mortgages in Section 4504.8.

(a) Terms

The following terms apply for purposes of this section:

■ Basic rent

The amount paid for the use of the leasehold estate under the terms of the lease (or sublease, if applicable). Basic rent does not include:

- Taxes
- Insurance
- Utilities for the leasehold estate or common areas, or
- Use fees or operating expenses for the common areas, facilities and services

■ Ground lease community

A planned residential development, including infrastructure, common areas and community facilities for use by the individual lessee, with the following characteristics:

1. Under the terms of the lease, the individual lessee holds a real property leasehold estate in a parcel of land improved by a dwelling and has an undivided common interest in the infrastructure, common areas and community facilities
2. The ground lease community is either a Planned Unit Development (PUD) or Condominium Project, administered by a HOA; or the community is administered by the fee simple land owner/lessor that owns, and is obligated under the lease to maintain, the infrastructure, common areas and community facilities for the common use and benefit of the individual lessees

- **Leasehold mortgagee**

The mortgagee that has a lien on the lessee's (or sublessee's) leasehold estate including improvements.

(b) Leasehold estate eligibility requirements

The lender must ensure that the following eligibility requirements are met:

1. The leasehold estate and property improvement must:
 - Constitute real property
 - Be covered by a title insurance policy that complies with the applicable requirements in Chapter 4702
2. The lease (and any sublease including all amendments) must be:
 - Recorded in the appropriate land records
 - In full force and effect, and
 - Binding and enforceable against the lessor (and sublessor)
3. The leasehold estate and Mortgage must not be impaired by any merger of the fee interest and leasehold interest in the event the same person or entity acquires both interests
4. The term of the leasehold estate must run for at least five years beyond the maturity date of the Mortgage unless the fee simple title vests at an earlier date
5. All basic rent and amounts due (for taxes, insurance, utilities and use fees or operating expenses) relating to the land and improvements must be current and the Borrower must not be in default under any provision of the lease nor may the lessor have claimed such a default
6. The lease must not preclude the Borrower from retaining voting rights in the homeowners association, if applicable
7. All applicable Servicing requirements under the Guide and other Purchase Documents must be met

(c) Lease provisions

1. The lease must permit assignments, transfers, mortgaging and subletting of the leasehold (or subleasehold) estate, including any improvements on the leasehold estate

2. The lease must provide that for a notice of lessee's default (monetary or non-monetary) to be valid, the lessor must send written notice of the lessee's default to the leasehold mortgagee not more than 30 days after such default.

The lease is not required to include a notice of default provision if the Mortgaged Premises is located in Maryland and applicable State law provides for all lessors to register residential leases with the State and requires the lessor to send written notice of default to the leasehold mortgagee no less than 30 days prior to the lessor filing an action of possession.

3. The lease must provide for the right of the leasehold mortgagee, in its sole discretion, to cure a default for the lessee's (or sublessee, if applicable) account within the time permitted to lessee or take over the rights under the lease (sublease)
4. The lease cannot contain default provisions allowing forfeiture or termination of the lease for non-monetary default
5. The lease must provide for protection of the mortgagee's interests including an insurable interest in the subject property unless otherwise required by law, and interest in the lease, ground lease community and leasehold estate
6. The lease may, but is not required to, include an option for the Borrower to purchase the fee interest; provided, however, there can be no time limit on when the option must be exercised, and the lease and option to purchase must be assignable

5704.2: Projects on leasehold estates (11/19/18)

Freddie Mac will purchase a Mortgage secured by a unit in a Condominium Project (see Section 5701.2(b)(3)) or Planned Unit Development (see Section 5702.1(c)) situated on a leasehold estate if the requirements in Section 5704.1 are met.

5704.3: Appraisal requirements for leasehold Mortgages (03/02/16)

In addition to the other Guide requirements related to appraisals, an appraisal for each leasehold Mortgage must meet the requirements in this section.

For leasehold Mortgages, the appraiser must develop a detailed description of the terms, conditions, and restrictions of the ground lease. The appraiser must consider and report any effect the terms of the lease have on the value and marketability of the Mortgaged Premises.

When there are similar leasehold sales available that have the same lease terms, the appraiser should use these sales as comparable sales. If sales of properties with the same lease terms are

not available, the appraiser should use other similar leasehold sales having different lease terms as comparable sales. The appraiser must describe the differences in the terms of the leases, and report any effect the differences have on the value and marketability of the Mortgaged Premises.

If there are no sales of leasehold properties, the appraiser should use sales of similar properties owned in fee simple as comparable sales. The appraiser must explain why the use of sales with different property rights is appropriate, and make appropriate adjustments to reflect the market's reaction to these differences.

For Condominium Projects and Planned Unit Developments on leasehold estates, the appraiser must also:

- Provide a description of the Common Elements including Amenities
- Comment on the ground rent for the subject property and the competing properties

5704.3: Appraisal requirements for leasehold Mortgages (Future effective date 10/02/23)

In addition to the other Guide requirements related to appraisals, an appraisal for each leasehold Mortgage must meet the requirements in this section.

For special appraisal requirements for HeritageOneSM Mortgages that are leasehold Mortgages, see Section 4504.9.

For leasehold Mortgages, the appraiser must develop a detailed description of the terms, conditions, and restrictions of the ground lease. The appraiser must consider and report any effect the terms of the lease have on the value and marketability of the Mortgaged Premises.

When there are similar leasehold sales available that have the same lease terms, the appraiser should use these sales as comparable sales. If sales of properties with the same lease terms are not available, the appraiser should use other similar leasehold sales having different lease terms as comparable sales. The appraiser must describe the differences in the terms of the leases, and report any effect the differences have on the value and marketability of the Mortgaged Premises.

If there are no sales of leasehold properties, the appraiser should use sales of similar properties owned in fee simple as comparable sales. The appraiser must explain why the use of sales with different property rights is appropriate, and make appropriate adjustments to reflect the market's reaction to these differences.

For Condominium Projects and Planned Unit Developments on leasehold estates, the appraiser must also:

- Provide a description of the Common Elements including Amenities

- Comment on the ground rent for the subject property and the competing properties

5704.4: Ground lease requirements for leasehold Mortgages (07/25/18)

A copy of the lease, with recordation information, must be maintained in each leasehold Mortgage file. The documents must be provided to Freddie Mac upon request.

5704.5: Security Instruments for leasehold Mortgages (02/01/23)

The Uniform Security Instrument must describe the Mortgaged Premises as a leasehold interest created by a recorded lease in the property described in the legal description. In addition, the Seller must comply with Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application, Section IV, for leasehold estates.

Chapter 5705: Cooperative Projects and Cooperative Share Loans

5705.1: Cooperative Share Loans (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Freddie Mac purchases Cooperative Share Loans secured by an ownership interest in Cooperative Projects that meet Freddie Mac's eligibility requirements.

Sellers must obtain written approval to be eligible to deliver Cooperative Share Loans to Freddie Mac. A Seller should contact its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE to discuss how to obtain the applicable term of business. Freddie Mac reserves the right to cease approving Sellers or accepting deliveries of Cooperative Share Loans from any or all Sellers.

The term "Mortgage" as used in the Guide includes as the context requires the term "Cooperative Share Loan." Requirements pertaining to Mortgages apply to Cooperative Share Loans.

(a) Seller's assessment of project risks

Freddie Mac requires a Cooperative Project review to address certain project risks including, but not limited to, the marketability and condition of the project, the marketability of the units within the project, the financial stability and viability of the project, project-level litigation, restrictions on Shareholders' rights to occupy the unit, and the adequacy of insurance coverage to protect the project from damage and loss.

Freddie Mac expects the Seller to have staff that is experienced and knowledgeable about Cooperative Project risks and to place as much emphasis on the adequacy of the Cooperative Interest as collateral as it does on underwriting the Borrower's creditworthiness. The quality of a Cooperative Share Loan can be impacted by the financial stability and viability of the particular project, among other project characteristics. The conclusion that a Cooperative Share Loan is acceptable to Freddie Mac must be based on the determination that the Borrower is creditworthy and the Cooperative Interest in the Cooperative Corporation is adequate collateral for the Cooperative Share Loan transaction.

(b) Seller Approval for Cooperative Share Loans

To be approved to sell Cooperative Share Loans, Sellers/Servicers must meet minimum requirements to be considered for approval to sell Cooperative Share Loans, including:

1. Possess sufficient expertise with Cooperative Projects and Cooperative Share Loans, capacity and resources to ensure that the Cooperative Project is likely to be successful, does not expose Freddie Mac to material credit risk and meets eligibility requirements
2. Possess substantial experience in the geographic market in which Cooperative Share Loans are being originated
3. Demonstrate volume of Cooperative Share Loans correlates to years of experience
4. Engage dedicated project review staff with experience in underwriting Cooperative Projects, and retain legal counsel (or have access to legal counsel) familiar with Cooperative Projects and Cooperative Project eligibility requirements
5. Maintain written policies and procedures consistent with Freddie Mac's project eligibility requirements; the policies and procedures must address pre-sale and owner-occupancy requirements, declining market trends, project completion, and any other issues that layer additional risk for Cooperative Share Loans. The policies and procedures for identifying the Cooperative Share Loans to be sold to Freddie Mac may be no less stringent than the policies and procedures for the Seller's investment decisions.
6. Maintain controls for monitoring performance of Cooperative Share Loans it originates (e.g., a 60-day Delinquency within the first three months or any 90 or more day Delinquency ever) as well as policies and procedures to implement default management corrective actions which also evaluate and monitor the performance of the Cooperative Share Loans following implementation of such corrective action. Seller/Servicer must not be aware of any quality or servicing issues related to the Cooperative Share Loans it originates.
7. Provide project-related reporting and any project underwriting documentation or Cooperative Project Documents upon request from Freddie Mac, or request the documentation from the Cooperative Corporation on Freddie Mac's behalf, if applicable

(c) Glossary definitions and other terms used in this chapter

(i) Glossary definitions

The Seller should be familiar with Freddie Mac's Glossary definitions of the following terms:

- Alternative Dispute Resolution (ADR)
- Cooperative Corporation
- Cooperative Housing Corporation
- Cooperative Interest

- Cooperative Project
- Cooperative Project Documents
- Cooperative Share
- Cooperative Share Loan
- Cooperative Unit
- Gut Rehabilitation
- Maintenance Fees
- Non-Gut Rehabilitation
- Pro Rata Share
- Proprietary Lease
- Recognition Agreement
- Shareholder

(ii) Other terms

The following additional terms are used in this chapter:

Term	Definition
Blanket Mortgage	A mortgage secured by a Cooperative Project; is also referred to as an “underlying mortgage.”
Established Cooperative Project	<p>An Established Cooperative Project is a Cooperative Project in which:</p> <ul style="list-style-type: none"> ■ The Cooperative Project is complete, and is not subject to additional phasing, and ■ The sponsor/developer (or Holder of Unsold Shares) has turned control of the Cooperative Corporation over to the Cooperative Unit owners.

Term	Definition
Holder of Unsold Shares	<p>Any of the following persons or Entities that (a) hold Cooperative Shares in Cooperative Units, (b) except as described below, do not intend to cause the Cooperative Units to be occupied, and (c) intend to lease the Cooperative Units or keep the Cooperative Units vacant:</p> <ul style="list-style-type: none"> ■ Sponsor/developer ■ Persons/entities that the sponsor/developer designates as holders of unsold Cooperative Shares; and ■ Subsequent transferees of such unsold Cooperative Shares which retain their character as unsold Cooperative Shares until one of the occupancy events described below occurs. <p>For purposes of this definition, intending to cause the Cooperative Unit to be occupied means occupancy by the persons holding the Cooperative Shares in the Cooperative Unit (i.e., subsequent transferees), or by the principals of an Entity holding such Cooperative Shares, or by any family members of the persons holding the Cooperative Shares, employees or persons affiliated with such Entities holding the Cooperative Shares.</p>
New Cooperative Project	<p>A New Cooperative Project is a Cooperative Project in which:</p> <ul style="list-style-type: none"> ■ The Cooperative Project is not complete, or is subject to additional phasing, or ■ The sponsor/developer (or Holder of Unsold Shares) has not turned control of the Cooperative Corporation over to the unit owners

5705.1: Cooperative Share Loans (Future effective date 09/18/23)

Freddie Mac purchases Cooperative Share Loans secured by an ownership interest in Cooperative Projects that meet Freddie Mac's eligibility requirements.

Sellers must obtain written approval to be eligible to deliver Cooperative Share Loans to Freddie Mac. A Seller should contact its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE to discuss how to obtain the applicable term of business. Freddie Mac reserves the right to cease approving Sellers or accepting deliveries of Cooperative Share Loans from any or all Sellers.

The term "Mortgage" as used in the Guide includes as the context requires the term "Cooperative Share Loan." Requirements pertaining to Mortgages apply to Cooperative Share Loans.

(a) Seller's assessment of project risks

Freddie Mac requires a Cooperative Project review to address certain project risks including, but not limited to, the marketability and condition of the project, the marketability of the units within the project, the financial stability and viability of the project, project-level litigation, restrictions on Shareholders' rights to occupy the unit, and the adequacy of insurance coverage to protect the project from damage and loss.

Freddie Mac expects the Seller to have staff that is experienced and knowledgeable about Cooperative Project risks and to place as much emphasis on the adequacy of the Cooperative Interest as collateral as it does on underwriting the Borrower's creditworthiness. The quality of a Cooperative Share Loan can be impacted by the financial stability and viability of the particular project, among other project characteristics. The conclusion that a Cooperative Share Loan is acceptable to Freddie Mac must be based on the determination that the Borrower is creditworthy and the Cooperative Interest in the Cooperative Corporation is adequate collateral for the Cooperative Share Loan transaction.

(b) Seller Approval for Cooperative Share Loans

To be approved to sell Cooperative Share Loans, Sellers/Servicers must meet minimum requirements to be considered for approval to sell Cooperative Share Loans, including:

1. Possess sufficient expertise with Cooperative Projects and Cooperative Share Loans, capacity and resources to ensure that the Cooperative Project is likely to be successful, does not expose Freddie Mac to material credit risk and meets eligibility requirements
2. Possess substantial experience in the geographic market in which Cooperative Share Loans are being originated
3. Demonstrate volume of Cooperative Share Loans correlates to years of experience

4. Engage dedicated project review staff with experience in underwriting Cooperative Projects, and retain legal counsel (or have access to legal counsel) familiar with Cooperative Projects and Cooperative Project eligibility requirements
5. Maintain written policies and procedures consistent with Freddie Mac's project eligibility requirements; the policies and procedures must address pre-sale and owner-occupancy requirements, declining market trends, project completion, and any other issues that layer additional risk for Cooperative Share Loans. 6. Maintain controls for monitoring performance of Cooperative Share Loans it originates (e.g., a 60-day Delinquency within the first three months or any 90 or more day Delinquency ever) as well as policies and procedures to implement default management corrective actions which also evaluate and monitor the performance of the Cooperative Share Loans following implementation of such corrective action. Seller/Servicer must not be aware of any quality or servicing issues related to the Cooperative Share Loans it originates.
7. Provide project-related reporting and any project underwriting documentation or Cooperative Project Documents upon request from Freddie Mac, or request the documentation from the Cooperative Corporation on Freddie Mac's behalf, if applicable

(c) Glossary definitions and other terms used in this chapter

(i) Glossary definitions

The Seller should be familiar with Freddie Mac's Glossary definitions of the following terms:

- Alternative Dispute Resolution (ADR)
- Cooperative Corporation
- Cooperative Housing Corporation
- Cooperative Interest
- Cooperative Project
- Cooperative Project Documents
- Cooperative Share
- Cooperative Share Loan

- Cooperative Unit
- Gut Rehabilitation
- Maintenance Fees
- Non-Gut Rehabilitation
- Pro Rata Share
- Proprietary Lease
- Recognition Agreement
- Shareholder

The Seller should also be familiar with the Glossary definitions of the following terms:

Repair Type	Glossary Definition
Critical Repairs (includes material deficiencies and significant deferred maintenance)	<p>Repairs and replacements that significantly impact the safety, soundness, structural integrity or habitability of the project's building(s) and/or that impact unit values, financial viability or marketability of the project.</p> <p>These include:</p> <ul style="list-style-type: none"> ■ Material deficiencies which, if left uncorrected, have the potential to result in or contribute to critical element or system failure within one year ■ Any mold, water intrusions or potentially damaging leaks to the project's building(s) that have not been repaired ■ Advanced physical deterioration ■ Any project that failed to pass state, county, or other jurisdictional mandatory inspections and/or certifications specific to structural soundness, safety, and habitability; or ■ Any unfunded repairs costing more than \$10,000 per unit that should be undertaken within the next 12 months (does not include repairs made by the unit owner or repairs funded through a special assessment) <p>Examples of some items to consider include, but are not limited to, sea walls, elevators, waterproofing, stairwells,</p>

Repair Type	Glossary Definition
	balconies, foundation, electrical systems, parking structures or other load-bearing structures.
Routine Repairs	<p>These repairs are not considered to be critical and include work that is:</p> <ul style="list-style-type: none"> ■ Preventative in nature or part of normal capital replacements (e.g., focused on keeping the project fully functioning and serviceable); and ■ Accomplished within the project's normal operating budget or through special assessments that are within guidelines

(ii) Other terms

The following additional terms are used in this chapter:

Term	Definition
Blanket Mortgage	A Mortgage secured by a Cooperative Project; is also referred to as an “underlying mortgage.”
Established Cooperative Project	An Established Cooperative Project is a Cooperative Project in which: <ul style="list-style-type: none"> ■ The Cooperative Project is complete, and is not subject to additional phasing, and ■ The sponsor/developer (or Holder of Unsold Shares) has turned control of the Cooperative Corporation over to the Cooperative Unit owners.
Holder of Unsold Shares	Any of the following persons or Entities that (a) hold Cooperative Shares in Cooperative Units, (b) except as described below, do not intend to cause the Cooperative Units to be occupied, and (c) intend to lease the Cooperative Units or keep the Cooperative Units vacant: <ul style="list-style-type: none"> ■ Sponsor/developer

Term	Definition
	<ul style="list-style-type: none"> ■ Persons/entities that the sponsor/developer designates as holders of unsold Cooperative Shares; and ■ Subsequent transferees of such unsold Cooperative Shares which retain their character as unsold Cooperative Shares until one of the occupancy events described below occurs. <p>For purposes of this definition, intending to cause the Cooperative Unit to be occupied means occupancy by the persons holding the Cooperative Shares in the Cooperative Unit (i.e., subsequent transferees), or by the principals of an Entity holding such Cooperative Shares, or by any family members of the persons holding the Cooperative Shares, employees or persons affiliated with such Entities holding the Cooperative Shares.</p>
New Cooperative Project	<p>A New Cooperative Project is a Cooperative Project in which:</p> <ul style="list-style-type: none"> ■ The Cooperative Project is not complete, or is subject to additional phasing, or ■ The sponsor/developer (or Holder of Unsold Shares) has not turned control of the Cooperative Corporation over to the unit owners

5705.2: Cooperative Project review and general Cooperative Project eligibility requirements (03/31/22)

The Seller must determine compliance with Freddie Mac's Cooperative Project review and eligibility requirements in this section.

(a) Cooperative Project review requirements

Except for Freddie Mac-owned “no cash-out” refinance Cooperative Share Loans delivered in accordance with the requirements in Section 5705.7, the Seller must ensure that:

1. The Cooperative Project, the Cooperative Unit, and Cooperative Share Loan comply with the following sections in this chapter:
 - Cooperative Project eligibility (Section 5705.4)
 - Legal requirements for New Cooperative Projects (Section 5705.6)
2. The project must not be an ineligible Cooperative Project (Section 5705.3)
3. The Seller must review and determine that a Cooperative Project complies with Freddie Mac’s requirements as follows:

Type of Cooperative Project	Expiration of project review
Established Cooperative Project	Within one year prior to the Note Date
New and Newly Converted Cooperative Projects	Within 180 days prior to the Note Date

If the Cooperative Project does not meet Freddie Mac’s project eligibility requirements on the Note Date, the Seller may deliver the Cooperative Share Loan at the time the Cooperative Project complies with all of the project eligibility requirements as long as all other applicable requirements have been met.

4. The Cooperative Project, Cooperative Project Documents and Cooperative Share Loan documents must comply with all applicable laws, ordinances and regulations for the State and local jurisdiction in which the project is located, and all documents must be enforceable under the laws, ordinances and regulations of the applicable jurisdiction

(b) General Cooperative Project eligibility requirements

The Seller must also review and determine compliance with the following requirements:

1. The project must have insurance that complies with the applicable requirements of Chapter 4703
2. The Cooperative Unit and the Cooperative Project must be covered by a title insurance policy that complies with requirements of Chapter 4702
3. The Cooperative Project and Cooperative Unit must comply with all applicable requirements of Topic 5600

4. The Cooperative Project must be designed primarily for residential use
5. The Cooperative Share Loan must comply with all applicable requirements in Section 5705.5
6. A Cooperative Share Loan must be delivered to Freddie Mac within 120 days after the Note Date. If the Cooperative Share Loan is not delivered within 120 days after the Note Date, Seller must update the project review and eligibility determination prior to delivery
7. The Seller must have policies and procedures in place and must take appropriate steps to ensure that the Cooperative Unit, Cooperative Share Loan and the Cooperative Project comply with applicable requirements
8. The Seller must retain all documentation related to the review of the Cooperative Project. Upon request, the Seller must provide the project information and documentation to Freddie Mac

(c) Freddie Mac right to review

Freddie Mac reserves the right to conduct its own review of the Cooperative Project for Cooperative Share Loans delivered to Freddie Mac.

5705.3: Ineligible Cooperative Projects (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Except for Freddie Mac-owned “no cash-out” refinance Cooperative Share Loans delivered in accordance with the requirements in Section 5705.7, Cooperative Share Loans in any of the following types of Cooperative Projects are ineligible for sale to Freddie Mac:

(a) Ownership of Cooperative Project land and Cooperative Units

Any Cooperative Corporation that does not own:

- The land on which the Cooperative Project is located in fee simple; and
- The Cooperative Units in the Cooperative Project

(b) Cooperative hotel

Any project that is a cooperative hotel or similar type of transient housing.

Projects that have one or more of the following characteristics are considered a cooperative hotel, or similar type of transient housing, and are ineligible projects:

- Projects that include hotel type services and characteristics, such as registration services, rentals of Cooperative Units on a daily basis and restrictions on interior decorating
- Cooperative Projects that are conversions of a hotel (or a conversion of a similar type of transient housing) unless the Cooperative Project was a Gut Rehabilitation and the resulting Cooperative Units no longer have the characteristics of a hotel or similar type of transient housing
- Projects with mandatory or voluntary rental-pooling and revenue-sharing agreements (or similar agreements that restrict the Shareholder's ability to occupy the Cooperative Unit such as blackout dates and occupancy limits) to assure an inventory of Cooperative Units for rent on a frequent basis, such as daily, weekly, monthly or seasonally
- Cooperative Projects that are licensed as a hotel, motel, or similar type of transient housing

The following are examples of personalized services and centralized systems that are common red flags of a Condominium Hotel or similar type of transient housing:

- Personalized services
 - Daily cleaning services
 - Porters/luggage service
 - Room service
- Centralized systems
 - Any central telephone service
 - Central key systems

If Shareholders of Cooperative Corporations in Cooperative Projects in resort locations rent their units (either individually or through a rental management company) on a short-term basis, the project has personalized services and/or the project has centralized systems, this alone does not indicate that the project is to be considered a cooperative hotel. Sellers must fully analyze all the characteristics of the project and related information to determine if the project is a cooperative hotel. Related informational resources may include but are not limited to, Cooperative Project Documents (e.g., by-laws, project budgets and financial statements), offering statements (or their equivalent) and marketing materials, websites, contracts for sale and appraisal reports.

(c) Cooperative Project with multi-dwelling units

A Cooperative Project that permits a Cooperative Interest in more than one dwelling unit, with ownership of all owned Cooperative Units or Cooperative Shares financed by a single Cooperative Share Loan.

(d) Cooperative Project with excessive commercial or non-residential space

A Cooperative Project in which more than 35% of its total above and below grade square footage (or more than 35% of the total above and below grade square footage of the building in which the Cooperative Project is located) is used as commercial or non-residential space.

The division of the total commercial or non-residential square footage by the total square footage of the project or building will determine the total amount of commercial or non-residential space. In calculating the amount of commercial or non-residential space, Sellers must determine:

- The total square footage of the project (or the building in which the project is located)
- The square footage of the commercial or non-residential space; and
- The residential space square footage

Below is a table illustrating what must be included or may be excluded from the calculation of commercial or non-residential space.

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Retail and other commercial or non-residential space (for example, restaurants and stores)	Yes
Residential rental apartments, hotels, motels and other similar types of space, although such space may have residential characteristics	Yes
Non-residential space that the Cooperative Corporation does not own, but that is owned by a private individual or entity outside of the Cooperative Corporation (for example, private fitness facilities that are membership-based rather than owned by the Cooperative Corporation for the sole use of the Shareholders)	Yes

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
The total square footage of commercial or non-residential space even when the Cooperative Corporation representing the Shareholders is different from the association representing the commercial owners	Yes
Commercial parking facilities	No
Project Amenities and facilities that are residential in nature, owned by the Cooperative Corporation, and allocated for the sole use of the Shareholders	No

(e) Tenancy-in-Common Cooperative Project

A Cooperative Project owned by several owners as tenants-in-common. Individuals have an undivided interest in the Cooperative Project (including the Cooperative Units) and land on which the Cooperative Project is located and may or may not have the right of exclusive occupancy of a specific Cooperative Unit.

(f) Timeshare Cooperative Project with segmented ownership

A Cooperative Project in which there is an arrangement under which a Shareholder receives an interest in real estate and the right to use a Cooperative Unit, Amenities, or both, for a specified period and on a recurring basis (such as the 15th week of the year), or ownership that is for a limited period (such as for the subsequent five years).

(g) Houseboat Cooperative Project

A Cooperative Project comprised of boats that have been designed or modified to be used primarily as dwelling units.

(h) Ownership and use of Common Elements in Cooperative Project

Except as stated in the bullets below, a Cooperative Corporation must be the sole owner of and the Shareholders must have the sole right to the use of the Common Elements, including all buildings, roads, parking, facilities and Amenities. The sponsor/developer must not retain any ownership interest in the Common Elements, facilities and Amenities, except as a Holder of Unsold Shares.

A Cooperative Project with shared Amenities is eligible if two or more Cooperative Projects share the Amenities (e.g., recreational or fitness facilities, swimming pools and clubhouses) for the sole use of the Shareholders. The Cooperative Corporations must have an agreement specifying:

- A description of the shared Amenities and the terms of the Shareholders' permitted use of the shared Amenities
- How the shared Amenities will be funded, managed and maintained; and
- The method for resolving disputes between the Cooperative Projects regarding the shared Amenities

The Common Elements, including Amenities such as parking and recreational facilities, must not be subject to a lease between the Cooperative Corporation (as lessee) and the sponsor/developer or any affiliate of the sponsor/developer (as lessor).

Parking provided under commercial leases or permit arrangements with parties unrelated to the developer are acceptable.

(i) Cooperative Project in litigation

A Cooperative Project in which: (i) the Cooperative Corporation is named as a party to pending litigation or the Seller discovers that the Cooperative Corporation is a party to an Alternative Dispute Resolution (ADR) proceeding, such as arbitration or mediation, or (ii) the project sponsor or developer is named as a party to pending litigation, or the Seller discovers that the project sponsor or developer is a party in an ADR proceeding and, in either case, the dispute relates to the safety, structural soundness, functional use or habitability of the Cooperative Project.

If the Seller determines that the pending litigation or ADR proceeding involves only minor matters that do not affect the safety, structural soundness, functional use or habitability of the Cooperative Project, the Cooperative Project is eligible if the litigation or ADR proceeding is limited to one of the following:

1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy;
2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (ii) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the Cooperative Corporation, or settlement with the Cooperative Corporation, including punitive damages will likely be covered by the Cooperative Corporation's insurance policy. If the attorney letter indicates that the matter will not likely be fully

covered by the Cooperative Corporation's insurance policy, then the Cooperative Project is ineligible;

3. The matter involves any of the following:
 - i. A non-monetary neighbor dispute or right of quiet enjoyment, whether litigated or in an ADR proceeding, or
 - ii. A dispute in which the Cooperative Corporation is the plaintiff in a foreclosure action; or
 - iii. A dispute in which the Cooperative Corporation is the plaintiff in the litigation or a party to an ADR proceeding and is seeking reimbursement for expenditures made to repair the Cooperative Project's component(s). The expenditures may have included items that related to the safety, structural soundness, functional use or habitability of the project, provided that the repair permanently resolved the defect or issue, and the expenditures did not significantly impact the financial stability or future solvency of the Cooperative Corporation; or
4. The estimated or known amount in the dispute in the litigation or ADR proceeding is known and is not covered by the insurance policy but is not expected to exceed 10% of the Cooperative Project's funded reserves, provided that use of the project's funded reserves to pay for project litigation or dispute resolution does not violate the applicable jurisdiction's laws and regulations.

The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above.

(j) Cooperative Project with excessive single-investor concentration

Any Cooperative Project in which a single entity owns Cooperative Shares that represent more than the following:

Number of units in the project	Total number of units owned by individual or single entity
Two to four	One
Five to 20	Two
21 or more	20%

1. For purchase transactions, a project with single investor concentration greater than specified above will be eligible provided:
 - i. The purchase transaction will result in a reduction of the single investor concentration

- ii. The single investor must not own more than 49% of the units in the project
 - iii. The Seller obtains evidence that the single investor is marketing units for sale with the goal to decrease the single investor concentration to 20% or less of the units in the project
 - iv. The single investor is current on all Maintenance Fees and assessments, and
 - v. There are no planned or current special assessments in the project
2. The following may be excluded from the single investor concentration calculation:
- i. Vacant Cooperative Units being actively marketed by the sponsor/developer (or Holder of Unsold Shares). Any units leased by the sponsor/developer must be included in the calculation of the developer's percentage of ownership.
 - ii. Cooperative Units that a non-profit entity controls or owns for the purpose of providing affordable housing
 - iii. Cooperative Units held in affordable housing programs (including units subject to non-eviction rent regulation codes), and
 - iv. Cooperative Units retained for workforce housing by higher-education institutions
3. When a sponsor/developer (or Holder of Unsold Shares) has been prevented from selling Cooperative Interests because of the need to comply with rent control or tenant-protection laws, the 20% single entity ownership limitation may be increased to 49% if the following requirements are met:
- i. The Cooperative Interests owned by the sponsor/developer in excess of 20% must be subject to rent control or tenant-protection laws,
 - ii. The Seller must retain documentation, such as a regulation agreement, evidencing that the Cooperative Units retained by the sponsor/developer (or Holder of Unsold Shares) are subject to rent control or tenant-protection laws, and
 - iii. The Seller meets one of the following:
 - A. Seller must document that the rental income from the tenant-protected and/or leased Cooperative Units owned by the sponsor/developer is sufficient to cover the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased, and vacant Cooperative Units; or
 - B. If the rental income from the tenant-protected and/or leased Cooperative Units owned by the sponsor/developer is not sufficient to cover the Pro Rata Share of

the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased and vacant units, the sponsor/developer (or Holder of Unsold Shares) must have demonstrated the ability and willingness to meet any shortfall in the payment of the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased and/or vacant Cooperative Units. In such cases, the sponsor/developer (or Holder of Unsold Shares) must:

- Be current on all financial obligations for the subject Cooperative Project and on all financial obligations relating to any other project in which the sponsor/developer (or Holder of Unsold Shares) owns or holds more than 10% of the Cooperative Shares
- Have sufficient funds to meet any shortfall in the payment of the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased and vacant Cooperative Units; and
- Provide financial statements of the Cooperative Corporation that indicate financial stability for the Cooperative Project with no negative impact to the Cooperative Project due to sponsor/developer (or Holder of Unsold Shares) ownership

(k) Continuing Care Retirement Community (CCRC)

A CCRC is a residential Cooperative Project designed to meet the changing health and housing needs of seniors over time. CCRCs are distinguished from age-restricted communities in that residents in CCRCs contract in advance for a lifetime commitment from the facility to care for them, regardless of future health or housing needs. CCRCs may also be known as Life-Care Facilities.

(l) Cooperative Projects comprised of Manufactured Homes

A Cooperative Project comprised of one or more Manufactured Homes.

(m) Cooperative Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

A Cooperative Project with mandatory dues or similar membership fees, including initiation or joining fees, that allow for the use of Amenities, such as clubhouses or recreational facilities, unless the Cooperative Corporation solely owns the Amenities and only Shareholders are members. Full rights and privileges to the use of these Amenities are the primary benefit of membership.

(n) Limited Equity Cooperative Project

A Cooperative Project that limits gain from appreciation upon resale of the Cooperative Shares associated with the Cooperative Unit, except as permitted under Section 5705.5(f). Cooperative Projects located on land owned by Community Land Trusts are also ineligible Cooperative Projects.

(o) Leasing Cooperative

A Cooperative Project that involves the leasing of both the land and the improvements to the Cooperative Project including the Common Elements, even if the Cooperative Corporation owns part of the building.

(p) Sponsor/developer interest in Cooperative Project

The sponsor/developer (or any Holder of Unsold Shares) cannot retain any ownership interest in the Cooperative Project except for its interest in any unsold Cooperative Units.

5705.3: Ineligible Cooperative Projects (Future effective date 09/18/23)

Except for Freddie Mac-owned “no cash-out” refinance Cooperative Share Loans delivered in accordance with the requirements in Section 5705.7, Cooperative Share Loans in any of the following types of Cooperative Projects are ineligible for sale to Freddie Mac:

(a) Ownership of Cooperative Project land and Cooperative Units

Any Cooperative Corporation that does not own:

- The land on which the Cooperative Project is located in fee simple; and
- The Cooperative Units in the Cooperative Project

(b) Cooperative hotel

Any project that is a cooperative hotel or similar type of transient housing.

Projects that have one or more of the following characteristics are considered a cooperative hotel, or similar type of transient housing, and are ineligible projects:

- Projects that include hotel type services and characteristics, such as registration services, rentals of Cooperative Units on a daily basis and restrictions on interior decorating
- Cooperative Projects that are conversions of a hotel (or a conversion of a similar type of transient housing) unless the Cooperative Project was a Gut Rehabilitation and the

resulting Cooperative Units no longer have the characteristics of a hotel or similar type of transient housing

- Projects with mandatory or voluntary rental-pooling and revenue-sharing agreements (or similar agreements that restrict the Shareholder's ability to occupy the Cooperative Unit such as blackout dates and occupancy limits) to assure an inventory of Cooperative Units for rent on a frequent basis, such as daily, weekly, monthly or seasonally
- Cooperative Projects that are licensed as a hotel, motel, or similar type of transient housing

The following are examples of personalized services and centralized systems that are common red flags of a Condominium Hotel or similar type of transient housing:

- Personalized services
 - Daily cleaning services
 - Porters/luggage service
 - Room service
- Centralized systems
 - Any central telephone service
 - Central key systems

If Shareholders of Cooperative Corporations in Cooperative Projects in resort locations rent their units (either individually or through a rental management company) on a short-term basis, the project has personalized services and/or the project has centralized systems, this alone does not indicate that the project is to be considered a cooperative hotel. Sellers must fully analyze all the characteristics of the project and related information to determine if the project is a cooperative hotel. Related informational resources may include but are not limited to, Cooperative Project Documents (e.g., by-laws, project budgets and financial statements), offering statements (or their equivalent) and marketing materials, websites, contracts for sale and appraisal reports.

(c) Cooperative Project with multi-dwelling units

A Cooperative Project that permits a Cooperative Interest in more than one dwelling unit, with ownership of all owned Cooperative Units or Cooperative Shares financed by a single Cooperative Share Loan.

(d) Cooperative Project with excessive commercial or non-residential space

A Cooperative Project in which more than 35% of its total above and below grade square footage (or more than 35% of the total above and below grade square footage of the building in which the Cooperative Project is located) is used as commercial or non-residential space.

The division of the total commercial or non-residential square footage by the total square footage of the project or building will determine the total amount of commercial or non-residential space. In calculating the amount of commercial or non-residential space, Sellers must determine:

- The total square footage of the project (or the building in which the project is located)
- The square footage of the commercial or non-residential space; and
- The residential space square footage

Below is a table illustrating what must be included or may be excluded from the calculation of commercial or non-residential space.

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Retail and other commercial or non-residential space (for example, restaurants and stores)	Yes
Residential rental apartments, hotels, motels and other similar types of space, although such space may have residential characteristics	Yes
Non-residential space that the Cooperative Corporation does not own, but that is owned by a private individual or entity outside of the Cooperative Corporation (for example, private fitness facilities that are membership-based rather than owned by the Cooperative Corporation for the sole use of the Shareholders)	Yes
The total square footage of commercial or non-residential space even when the Cooperative Corporation representing the Shareholders is different from the association representing the commercial owners	Yes
Commercial parking facilities	No

Type of commercial or non-residential space	Include in the commercial or non-residential space calculation?
Project Amenities and facilities that are residential in nature, owned by the Cooperative Corporation, and allocated for the sole use of the Shareholders	No

(e) Tenancy-in-Common Cooperative Project

A Cooperative Project owned by several owners as tenants-in-common. Individuals have an undivided interest in the Cooperative Project (including the Cooperative Units) and land on which the Cooperative Project is located and may or may not have the right of exclusive occupancy of a specific Cooperative Unit.

(f) Timeshare Cooperative Project with segmented ownership

A Cooperative Project in which there is an arrangement under which a Shareholder receives an interest in real estate and the right to use a Cooperative Unit, Amenities, or both, for a specified period and on a recurring basis (such as the 15th week of the year), or ownership that is for a limited period (such as for the subsequent five years).

(g) Houseboat Cooperative Project

A Cooperative Project comprised of boats that have been designed or modified to be used primarily as dwelling units.

(h) Ownership and use of Common Elements in Cooperative Project

Except as stated in the bullets below, a Cooperative Corporation must be the sole owner of and the Shareholders must have the sole right to the use of the Common Elements, including all buildings, roads, parking, facilities and Amenities. The sponsor/developer must not retain any ownership interest in the Common Elements, facilities and Amenities, except as a Holder of Unsold Shares.

A Cooperative Project with shared Amenities is eligible if two or more Cooperative Projects share the Amenities (e.g., recreational or fitness facilities, swimming pools and clubhouses) for the sole use of the Shareholders. The Cooperative Corporations must have an agreement specifying:

- A description of the shared Amenities and the terms of the Shareholders' permitted use of the shared Amenities
- How the shared Amenities will be funded, managed and maintained; and

- The method for resolving disputes between the Cooperative Projects regarding the shared Amenities

The Common Elements, including Amenities such as parking and recreational facilities, must not be subject to a lease between the Cooperative Corporation (as lessee) and the sponsor/developer or any affiliate of the sponsor/developer (as lessor).

Parking provided under commercial leases or permit arrangements with parties unrelated to the developer are acceptable.

(i) Cooperative Project in litigation

A Cooperative Project in which: (i) the Cooperative Corporation is named as a party to pending litigation or the Seller discovers that the Cooperative Corporation is a party to an Alternative Dispute Resolution (ADR) proceeding, such as arbitration or mediation, or (ii) the project sponsor or developer is named as a party to pending litigation, or the Seller discovers that the project sponsor or developer is a party in an ADR proceeding and, in either case, the dispute relates to the safety, structural soundness, functional use or habitability of the Cooperative Project.

If the Seller determines that the pending litigation or ADR proceeding involves only minor matters that do not affect the safety, structural soundness, functional use or habitability of the Cooperative Project, the Cooperative Project is eligible if the litigation or ADR proceeding is limited to one of the following:

1. The litigation amount is known, the insurance company has committed to provide the defense and the litigation amount is covered by the insurance policy;
2. The litigation amount is unknown, the Seller has documented the Mortgage file with a copy of the complaint, or the most recent amended complaint, and with an attorney letter that supports the Seller's determination that the litigation involves minor matters. The attorney letter must state: (i) the reason for the litigation; (ii) that the insurance company has committed to provide the defense; and (iii) that any potential monetary judgment against the Cooperative Corporation, or settlement with the Cooperative Corporation, including punitive damages will likely be covered by the Cooperative Corporation's insurance policy. If the attorney letter indicates that the matter will not likely be fully covered by the Cooperative Corporation's insurance policy, then the Cooperative Project is ineligible;
3. The matter involves any of the following:
 - i. A non-monetary neighbor dispute or right of quiet enjoyment, whether litigated or in an ADR proceeding, or

- ii. A dispute in which the Cooperative Corporation is the plaintiff in a foreclosure action; or
 - iii. A dispute in which the Cooperative Corporation is the plaintiff in the litigation or a party to an ADR proceeding and is seeking reimbursement for expenditures made to repair the Cooperative Project's component(s). The expenditures may have included items that related to the safety, structural soundness, functional use or habitability of the project, provided that the repair permanently resolved the defect or issue, and the expenditures did not significantly impact the financial stability or future solvency of the Cooperative Corporation; or
4. The estimated or known amount in the dispute in the litigation or ADR proceeding is known and is not covered by the insurance policy but is not expected to exceed 10% of the Cooperative Project's funded reserves, provided that use of the project's funded reserves to pay for project litigation or dispute resolution does not violate the applicable jurisdiction's laws and regulations.

The Seller must retain documentation to support its analysis that the reason for the dispute meets Freddie Mac's requirements for minor matters as described above.

(j) Cooperative Project with excessive single-investor concentration

Any Cooperative Project in which a single entity owns Cooperative Shares that represent more than the following:

Number of units in the project	Total number of units owned by individual or single entity
Two to four	One
Five to 20	Two
21 or more	20%

- 1. For purchase transactions, a project with single investor concentration greater than specified above will be eligible provided:
 - i. The purchase transaction will result in a reduction of the single investor concentration
 - ii. The single investor must not own more than 49% of the units in the project
 - iii. The Seller obtains evidence that the single investor is marketing units for sale with the goal to decrease the single investor concentration to 20% or less of the units in the project
 - iv. The single investor is current on all Maintenance Fees and assessments, and

- v. There are no planned or current special assessments in the project
2. The following may be excluded from the single investor concentration calculation:
- i. Vacant Cooperative Units being actively marketed by the sponsor/developer (or Holder of Unsold Shares). Any units leased by the sponsor/developer must be included in the calculation of the developer's percentage of ownership.
 - ii. Cooperative Units that a non-profit entity controls or owns for the purpose of providing affordable housing
 - iii. Cooperative Units held in affordable housing programs (including units subject to non-eviction rent regulation codes), and
 - iv. Cooperative Units retained for workforce housing by higher-education institutions
3. When a sponsor/developer (or Holder of Unsold Shares) has been prevented from selling Cooperative Interests because of the need to comply with rent control or tenant-protection laws, the 20% single entity ownership limitation may be increased to 49% if the following requirements are met:
- i. The Cooperative Interests owned by the sponsor/developer in excess of 20% must be subject to rent control or tenant-protection laws,
 - ii. The Seller must retain documentation, such as a regulation agreement, evidencing that the Cooperative Units retained by the sponsor/developer (or Holder of Unsold Shares) are subject to rent control or tenant-protection laws, and
 - iii. The Seller meets one of the following:
 - A. Seller must document that the rental income from the tenant-protected and/or leased Cooperative Units owned by the sponsor/developer is sufficient to cover the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased, and vacant Cooperative Units; or
 - B. If the rental income from the tenant-protected and/or leased Cooperative Units owned by the sponsor/developer is not sufficient to cover the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased and vacant units, the sponsor/developer (or Holder of Unsold Shares) must have demonstrated the ability and willingness to meet any shortfall in the payment of the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased and/or vacant Cooperative Units. In such cases, the sponsor/developer (or Holder of Unsold Shares) must:

- Be current on all financial obligations for the subject Cooperative Project and on all financial obligations relating to any other project in which the sponsor/developer (or Holder of Unsold Shares) owns or holds more than 10% of the Cooperative Shares
- Have sufficient funds to meet any shortfall in the payment of the Pro Rata Share of the Cooperative Project's financial obligations that are applicable to the tenant-protected, leased and vacant Cooperative Units; and
- Provide financial statements of the Cooperative Corporation that indicate financial stability for the Cooperative Project with no negative impact to the Cooperative Project due to sponsor/developer (or Holder of Unsold Shares) ownership

(k) Continuing Care Retirement Community (CCRC)

A CCRC is a residential Cooperative Project designed to meet the changing health and housing needs of seniors over time. CCRCs are distinguished from age-restricted communities in that residents in CCRCs contract in advance for a lifetime commitment from the facility to care for them, regardless of future health or housing needs. CCRCs may also be known as Life-Care Facilities.

(l) Cooperative Projects comprised of Manufactured Homes

A Cooperative Project comprised of one or more Manufactured Homes.

(m) Cooperative Project with mandatory dues or similar membership fees for use of Amenities such as clubhouses or recreational facilities

A Cooperative Project with mandatory dues or similar membership fees, including initiation or joining fees, that allow for the use of Amenities, such as clubhouses or recreational facilities, unless the Cooperative Corporation solely owns the Amenities and only Shareholders are members. Full rights and privileges to the use of these Amenities are the primary benefit of membership.

(n) Limited Equity Cooperative Project

A Cooperative Project that limits gain from appreciation upon resale of the Cooperative Shares associated with the Cooperative Unit, except as permitted under Section 5705.5(f). Cooperative Projects located on land owned by Community Land Trusts are also ineligible Cooperative Projects.

(o) Leasing Cooperative

A Cooperative Project that involves the leasing of both the land and the improvements to the Cooperative Project including the Common Elements, even if the Cooperative Corporation owns part of the building.

(p) Sponsor/developer interest in Cooperative Project

The sponsor/developer (or any Holder of Unsold Shares) cannot retain any ownership interest in the Cooperative Project except for its interest in any unsold Cooperative Units.

(q) Project in need of Critical Repairs

Cooperative Share Loans secured by Cooperative Interests in Cooperative Projects in need of Critical Repairs, as defined in the Glossary, are not eligible for sale to Freddie Mac.

For both current and planned (i.e., Shareholders approved but the board has not initiated collection yet) special assessments, Seller must obtain and review the following information for each special assessment to determine if the funds are for a Critical Repair:

- The purpose of the special assessment,
- When the special assessment was approved,
- The original amount of the special assessment,
- The amount remaining to be collected, and
- The expected date the special assessment will be paid in full

If a structural and/or mechanical inspection has been completed within 3 years of Seller's project review date, Seller must review that inspection report. There must not be any Critical Repairs needed, as well as no current evacuation orders or similar regulatory actions.

Projects in need of Critical Repairs remain ineligible until the required repairs and/or inspection report have been completed and documented. Sellers must review an engineer's report or substantially similar document to determine that the repairs resolved the building's safety, soundness, structural integrity, or habitability concerns.

If damage or deferred maintenance is isolated to one or a few units and does not affect the overall safety, soundness, structural integrity, or habitability of the project, then this project eligibility requirement does not apply.

This requirement does not apply to Routine Repairs, as defined in the Glossary.

Sellers may need to review a combination of documents to determine a project meets our physical condition requirements. Some examples include but are not limited to:

- Cooperative board meeting minutes
- Engineer's reports
- Structural and/or mechanical inspection reports
- Reserve studies
- List of necessary repairs provided by the Cooperative Corporation or management company, and/or
- Other substantially similar documentation

This list is not prescriptive or exhaustive. Sellers are responsible for determining which documents they need to review to ensure compliance with this requirement.

(r) Project with an evacuation order

A project with an evacuation order due to an unsafe condition, either for a partial or total evacuation of the project's building(s), is ineligible until the unsafe condition has been remediated and the building(s) is safe for occupancy.

5705.4: Cooperative Project eligibility (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

Except for Freddie Mac-owned "no cash-out" refinance Cooperative Share Loans delivered in accordance with the requirements in Section 5705.7, the Cooperative Project must comply with all of the following eligibility requirements:

(a) Cooperative Project completion requirements

The Cooperative Project, including all Cooperative Units and Common Elements within the Cooperative Project, must be complete and cannot be subject to additional phasing or annexation.

(b) Owner-occupancy requirements

Cooperative Interests (i.e., both ownership and the accompanying occupancy rights) that represent at least 50% of the total number of Cooperative Units in the project must have been sold and conveyed or, for New Cooperative Projects (as defined in Section 5705.1(c)(iii)), must be under contract for sale to Shareholders who occupy their Cooperative Units as a Primary Residence or second home.

(c) Cooperative Project budget requirements

The Cooperative Project's budget must meet all the following requirements:

(i) Financial strength and viability of Cooperative Project

Seller must underwrite the Cooperative Project to determine the financial strength and viability of the Cooperative Project. If the most recent budget is not available, the Seller may rely on a review of the Cooperative Corporation's most recent audited financial statements or corporate tax returns.

The Cooperative Project's most recent operating budget, audited financial statements, or corporate tax returns must:

- Be consistent with the nature of the Cooperative Project
- Except as stated in Section 5705.4(c)(ii) below, provide for adequate cash flow to service the current debt and operating expenses, and
- Provide for adequate replacement and operating reserves

For an existing building that is converted to a Cooperative Project and is undergoing or has undergone a Non-Gut Rehabilitation, the sponsor/developer must have contributed to the replacement reserve fund for the expired life of the components that were used prior to the conversion of the building(s).

(ii) Negative cash flow of Cooperative Project

The negative cash flow for the present year will not exceed 5% of the Cooperative Project's annual operating budget as demonstrated by the most recent audited financial statements, provided that the prior year's cash flow was not negative by more than 5%.

The negative cash flow must be attributable to an isolated expense, or the Cooperative Project must have supplemental income from sources, such as stock transfer fee/flip taxes or assessments, that demonstrates the Cooperative Project has adequate cash flow to service all obligations.

If the negative cash flow is attributable to tenant-protected, leased and vacant Cooperative Units, the sponsor/developer (or Holder of Unsold Shares) must:

- Be current on all financial obligations for the subject Cooperative Project and on all financial obligations relating to any other Cooperative Project in which the sponsor/developer (or Holder of Unsold Shares) owns or holds more than 10% of the Cooperative Shares;

- Not have pledged any Cooperative Shares of the Cooperative Project as security for any loan other than to secure the financing obtained to acquire the Cooperative Project; and
- Provide financial statements of the Cooperative Corporation that indicate financial stability for the Cooperative Project with no negative impact to the Cooperative Project due to negative cash flow related to sponsor/developer (or Holder of Unsold Shares) ownership.

Seller must retain documentation that demonstrates the Cooperative Project has adequate cash flow to service all of its obligations.

(d) Financial obligations of Cooperative Project

The Cooperative Project must have good financial management including the following:

- The Cooperative Corporation has not been 30 or more days delinquent in the last 12 months on any payments due under any underlying Blanket Mortgage, or for taxes, insurance and other financial obligations
- No more than 15% of the Shareholders are more than 60 days delinquent in the payment of Maintenance Fees and assessments

(e) Market acceptance

The Cooperative Project must be located in an area in which there is a demonstrated market acceptance of the cooperative form of ownership.

(f) Minimum number of Cooperative Units

The Cooperative Project must consist of two or more 1-unit dwellings.

(g) Subsidies or other benefits for Cooperative Project

If the Cooperative Project is the recipient of any subsidies or similar benefits (e.g., tax or assessment abatements) that will be reduced or eliminated within three years of the Note Date of the Cooperative Share Loan, Seller must evaluate the impact that the elimination of such benefits will have on the Cooperative Project and include any higher monthly fees in a borrower's monthly liabilities when qualifying the borrower for the Cooperative Share Loan.

(h) Requirements for the underlying Blanket Mortgage for Cooperative Project

The Blanket Mortgage for the Cooperative Project may be either a conventional mortgage or an FHA-Insured Mortgage that has an interest rate that is at the market rate and not at a subsidized or otherwise reduced rate.

If the Blanket Mortgage is a balloon Mortgage:

- The remaining term cannot be less than six months; or
- Has an adjustable-rate feature, and the remaining term is less than two years but not less than six months, the current interest rate may not be subject to an interest rate adjustment.

(i) Prior Cooperative Project financing

The Seller represents and warrants that the Cooperative Project's Blanket Mortgage is:

- (i) In compliance with the requirements imposed by the mortgagee of the underlying Blanket Mortgage
- (ii) If the Blanket Mortgage includes a due-on-encumbrance clause and the Cooperative Project is located in a State in which Cooperative Share Loans are considered to be an encumbrance on the Cooperative Project, the mortgagee of the Blanket Mortgage must consent to the Cooperative Share Loan

5705.4: Cooperative Project eligibility (Future effective date 09/18/23)

Except for Freddie Mac-owned “no cash-out” refinance Cooperative Share Loans delivered in accordance with the requirements in Section 5705.7, the Cooperative Project must comply with all of the following eligibility requirements:

(a) Cooperative Project completion requirements

The Cooperative Project, including all Cooperative Units and Common Elements within the Cooperative Project, must be complete and cannot be subject to additional phasing or annexation.

(b) Owner-occupancy requirements

Cooperative Interests (i.e., both ownership and the accompanying occupancy rights) that represent at least 50% of the total number of Cooperative Units in the project must have been sold and conveyed or, for New Cooperative Projects (as defined in Section 5705.1(c)(iii)), must be under contract for sale to Shareholders who occupy their Cooperative Units as a Primary Residence or second home.

(c) Cooperative Project budget requirements

The Cooperative Project's budget must meet all the following requirements:

(i) Financial strength and viability of Cooperative Project

Seller must underwrite the Cooperative Project to determine the financial strength and viability of the Cooperative Project. If the most recent budget is not available, the Seller may rely on a review of the Cooperative Corporation's most recent audited financial statements or corporate tax returns.

The Cooperative Project's most recent operating budget, audited financial statements, or corporate tax returns must:

- Be consistent with the nature of the Cooperative Project
- Except as stated in Section 5705.4(c)(ii) below, provide for adequate cash flow to service the current debt and operating expenses, and
- Provide for adequate replacement and operating reserves

For an existing building that is converted to a Cooperative Project and is undergoing or has undergone a Non-Gut Rehabilitation, the sponsor/developer must have contributed to the replacement reserve fund for the expired life of the components that were used prior to the conversion of the building(s).

(ii) Negative cash flow of Cooperative Project

The negative cash flow for the present year will not exceed 5% of the Cooperative Project's annual operating budget as demonstrated by the most recent audited financial statements, provided that the prior year's cash flow was not negative by more than 5%.

The negative cash flow must be attributable to an isolated expense, or the Cooperative Project must have supplemental income from sources, such as stock transfer fee/flip taxes or assessments, that demonstrates the Cooperative Project has adequate cash flow to service all obligations.

If the negative cash flow is attributable to tenant-protected, leased and vacant Cooperative Units, the sponsor/developer (or Holder of Unsold Shares) must:

- Be current on all financial obligations for the subject Cooperative Project and on all financial obligations relating to any other Cooperative Project in which the sponsor/developer (or Holder of Unsold Shares) owns or holds more than 10% of the Cooperative Shares;
- Not have pledged any Cooperative Shares of the Cooperative Project as security for any loan other than to secure the financing obtained to acquire the Cooperative Project; and

- Provide financial statements of the Cooperative Corporation that indicate financial stability for the Cooperative Project with no negative impact to the Cooperative Project due to negative cash flow related to sponsor/developer (or Holder of Unsold Shares) ownership.

Seller must retain documentation that demonstrates the Cooperative Project has adequate cash flow to service all of its obligations.

(d) Financial obligations of Cooperative Project

The Cooperative Project must have good financial management including the following:

- The Cooperative Corporation has not been 30 or more days delinquent in the last 12 months on any payments due under any underlying Blanket Mortgage, or for taxes, insurance and other financial obligations
- No more than 15% of the Shareholders are more than 60 days delinquent in the payment of Maintenance Fees and assessments
- No more than 15% of the Shareholders are more than 60 days delinquent in the payment of each special assessment

(f) Market acceptance

The Cooperative Project must be located in an area in which there is a demonstrated market acceptance of the cooperative form of ownership.

(j) Minimum number of Cooperative Units

The Cooperative Project must consist of two or more 1-unit dwellings.

(k) Subsidies or other benefits for Cooperative Project

If the Cooperative Project is the recipient of any subsidies or similar benefits (e.g., tax or assessment abatements) that will be reduced or eliminated within three years of the Note Date of the Cooperative Share Loan, Seller must evaluate the impact that the elimination of such benefits will have on the Cooperative Project and include any higher monthly fees in a borrower's monthly liabilities when qualifying the borrower for the Cooperative Share Loan.

(l) Requirements for the underlying Blanket Mortgage for Cooperative Project

The Blanket Mortgage for the Cooperative Project may be either a conventional mortgage or an FHA-Insured Mortgage that has an interest rate that is at the market rate and not at a subsidized or otherwise reduced rate.

If the Blanket Mortgage is a balloon Mortgage:

- The remaining term cannot be less than six months; or
- Has an adjustable-rate feature, and the remaining term is less than two years but not less than six months, the current interest rate may not be subject to an interest rate adjustment.

(m) Prior Cooperative Project financing

The Seller represents and warrants that the Cooperative Project's Blanket Mortgage is:

- (i) In compliance with the requirements imposed by the mortgagee of the underlying Blanket Mortgage
- (ii) If the Blanket Mortgage includes a due-on-encumbrance clause and the Cooperative Project is located in a State in which Cooperative Share Loans are considered to be an encumbrance on the Cooperative Project, the mortgagee of the Blanket Mortgage must consent to the Cooperative Share Loan

5705.5: Cooperative Share Loan eligibility (11/04/20)

All Cooperative Share Loans must comply with the following eligibility requirements:

(a) Occupancy requirement for Cooperative Unit

The Shareholder must occupy the Cooperative Unit as a Primary Residence or second home.

The Shareholder must have a right to occupy the Cooperative Unit pursuant to a Proprietary Lease for a period of time that extends at least to the maturity date of the Cooperative Share Loan.

(b) Loan-to-value (LTV) ratios for Cooperative Share Loans

The loan-to-value (LTV) ratio is determined by dividing the original unpaid balance of the Cooperative Share Loan by the lower of either the sale price or the appraised value of the Cooperative Interest.

Note: The Cooperative Unit's Pro Rata Share of the Cooperative Corporation's debt is not included in the calculation of the LTV ratio.

(c) Borrower qualification

If the Cooperative Unit Maintenance Fees include unit utility charge, the Maintenance Fees may be reduced by the documented amount of unit utility charges that are included, prior to calculating the housing expense-to-income ratio and debt-to-income ratio.

(d) Maximum Pro Rata Share

The Pro Rata Share related to the Cooperative Unit must not exceed 35% of the sum of the Cooperative Unit's Pro Rata Share plus the lower of the (i) sales price or (ii) appraised value of the Cooperative Interest. However, the Pro Rata Share may be increased to 40% when there are significant and documented compensating factors to support the use of the higher percentage, such as a Cooperative Project in strong financial condition with significant cash reserves and good cash flow.

If the Cooperative Corporation has obtained a line of credit, the Seller must include the full available amount of the line of credit as part of the Cooperative Corporation's debt (i.e., Blanket Mortgage and if applicable second mortgage) when calculating the maximum Pro Rata Share.

Example:

Blanket Mortgage balance = \$4,000,000

Subordinate financing balance = \$1,000,000

Cooperative Shares issued and outstanding = 10,000

Subject unit's Cooperative Shares = 40

Sales price/appraised value of the Cooperative Interest (not including the Pro Rata Share of the Cooperative Corporation's debt) = \$100,000

Pro Rata Cooperative Share of the Cooperative Corporation's debt = \$20,000

Calculation:

[Blanket Mortgage balance] plus [Subordinate financing balance] = Cooperative Corporation's total debt

[4,000,000] plus [1,000,000] = \$5,000,000

[Cooperative Corporation's total debt] divided by [Cooperative Shares issued and outstanding] = pro rata debt by share

[5,000,000] divided by [10,000] = \$500

[Pro rata debt by share] times [Subject unit's Cooperative Shares] = Pro Rata Cooperative Share of the Cooperative Corporation's debt

[500] times [40] = \$20,000

[pro rata \$ amount] divided by [pro rata \$ amount + appraised value] = pro rata % of value/price

[\$20,000] divided by [\$20,000 + \$100,000] = 16.66%

(e) Subordinate financing

Subordinate financing is permitted for Cooperative Units that are Primary Residences.

(f) Cooperative Share Loans subject to stock transfer fee (“flip tax”)

Cooperative Share Loans that are subject to the payment of a flip tax are permitted so long as the Cooperative Project Documents permit the imposition of a flip tax and provide for one of the following:

- The Seller is exempt from paying the flip tax if the Seller acquires the Cooperative Unit as a result of a foreclosure, in a transfer by the Shareholder in lieu of foreclosure, or any other transfer of the Shareholder’s interest in the Cooperative Unit in full or partial satisfaction of the Shareholder’s obligations under the Cooperative Share Loan
- The flip tax is payable when the sales price exceeds the existing Shareholder’s purchase price (i.e., based on property appreciation) and then is assessed only on the amount of the appreciation in value (flip tax is profit-based); or
- The amount of the flip tax is less than or equal to 5% of the value of the Cooperative Interest (calculated as the lesser of appraised value or sales price of the Cooperative Interest) and is a flat fee, fee per share, percentage of the appraised value or sales price of the Cooperative Interest, or dollar amount per room

(g) Cooperative Share Loan lien priority

A Cooperative Share Loan must be a lien that has priority over all other claims or liens against the Shareholder’s Cooperative Shares in the Cooperative Project except that the lien may be subordinated to the Cooperative Corporation’s lien against the Cooperative Shares for unpaid assessments that represent the Pro Rata Share of the Cooperative Corporation’s payments for the Blanket Mortgage and/or the current year’s real estate taxes. For Cooperative Projects located in New York, a Cooperative Share Loan may additionally be subordinated to unpaid Maintenance Fees and assessments accrued after the origination date of the Cooperative Share Loan and collection expenses.

The Seller must also ensure that the following requirements are met:

- (i) The Shareholder has the right to encumber his or her Cooperative Interest in the Cooperative Corporation
- (ii) The Shareholder’s right to occupy the Cooperative Unit pursuant to the Proprietary Lease extends through the Maturity Date of the Cooperative Share Loan either by its term or through renewals
- (iii) The Cooperative Share Loan is secured by a pledge or trust of the Cooperative Shares, the assignment of interest in the Proprietary Lease, and any other documents appropriate under individual State or local laws, ordinances, and practices

- (iv) The Cooperative Share Loan is a valid, enforceable first lien on the Shareholder's Cooperative Interest in the Cooperative Corporation
- (v) All UCC-1 and renewal statements as applicable are current and valid. In States where Cooperative Units are considered real property, perfection of the lien must comply with applicable State or local laws.
- (vi) The Seller has obtained the following:
 1. An assignment of the Proprietary Lease for each Cooperative Share Loan sold to Freddie Mac
 2. The stock power or other equivalent document authorizing the Seller/Servicer to transfer Cooperative Shares in the event of a default
 3. Valid financing statements and assignments of financing statements (executed and filed if necessary) to perfect Freddie Mac's security interest under the Uniform Commercial Code of the State in which the Cooperative Unit is located

(h) Cooperative Corporation's approval

The Seller represents and warrants that if the purchaser's right to a Cooperative Share or occupancy of a Cooperative Unit is subject to any right of the Cooperative Corporation to give approval, then the Seller is required to furnish evidence to clearly show that such approval has been given before the Cooperative Share Loan is eligible for Freddie Mac purchase or securitization

(i) Cooperative Project that is not a Cooperative Housing Corporation

For a Cooperative Share Loan to be eligible for Freddie Mac purchase or securitization, the Cooperative Project must meet the Internal Revenue Service (IRS) requirements (Section 216) for a Cooperative Housing Corporation in effect as of the Delivery Date.

Shareholders in a Cooperative Housing Corporation can claim their Pro Rata Share of mortgage interest and real-property taxes as income tax deductions.

5705.6: Legal requirements for New Cooperative Projects (11/03/21)

Except for Freddie Mac-owned "no cash-out" refinance Cooperative Share Loans delivered in accordance with the requirements in Section 5705.7, when a Seller delivers a Cooperative Share Loan secured by a Cooperative Interest in a New Cooperative Project to Freddie Mac, the Seller represents and warrants all of the following:

(a) Compliance with law

The Cooperative Corporation is a validly formed Entity authorized to carry out its independent purposes and is in compliance with all applicable State and local laws and ordinances.

(b) Right of first refusal

If the Cooperative Corporation has retained the right to provide a substitute purchaser, the right to have the first option to purchase a Cooperative Unit, or the right to approve a purchaser, those rights will not be exercised in a way that could be interpreted as discrimination or that could impair the marketability of the Cooperative Units in the Cooperative Project.

(c) Amendments to Documents

The Shareholders have the right to amend the Cooperative Project Documents.

(d) Rights of Cooperative Shareholders and Sellers

The Cooperative Corporation is legally bound to notify the Seller of changes that are of a material and adverse nature to Sellers including, but not limited to, the following:

- (i) Any threatened or actual condemnation, eminent domain proceeding or acquisition, or any actual loss whether covered by insurance, that affects any portion of the Cooperative Project or Cooperative Unit
- (ii) The inability of Shareholders to deduct their Pro Rata Share of mortgage interest from their taxable income per the Internal Revenue Code (i.e., the Cooperative Corporation no longer qualifies as a Cooperative Housing Corporation pursuant to Section 216 of the Internal Revenue Code)
- (iii) Any 30-day Delinquency by the Cooperative Corporation in payments due under any underlying Blanket Mortgage, whether the payments are for real estate taxes, assessments, or charges imposed by a government entity or public utility, or under the terms of any ground lease
- (iv) Any lapse, cancelation or material modification of any insurance or fidelity insurance coverage maintained by the Cooperative Project
- (v) Any 90-day Delinquency by the Shareholder that is related to the payment of his or her Maintenance Fees or other assessments; and
- (vi) Any proposed action that requires the consent of a specified percentage of eligible lenders of Cooperative Share Loans

(e) Cooperative membership

The Cooperative Project Documents must meet all the following requirements:

- (i) Require that the sale or transfer of Cooperative Shares, stock or membership certificates in the Cooperative Corporation be in compliance with federal and State security disclosure laws
- (ii) Require the Shareholders to own Shares, stock or a membership certificate, and permit the Cooperative Shares, stock, or membership certificates to be pledged and registered in the Cooperative Corporation
- (iii) Give the Shareholder a right to occupy the Cooperative Unit for a period that extends at least to the maturity date of the Cooperative Share Loan in accordance with the terms and conditions of a Proprietary Lease between the Shareholder and the Cooperative Corporation
- (iv) Prohibit the Cooperative Corporation from imposing unreasonable limitations on the Shareholder's ability to sell, transfer, or convey his or her Cooperative Share

(f) Cooperative Corporation's lien position

The Cooperative Corporation has a good and marketable title to the Cooperative Project land, Cooperative Units and Common Elements, and the Cooperative Project is free and clear of liens and encumbrances except the underlying Blanket Mortgage.

(g) Assignment of Shareholder's Cooperative Interest

The Cooperative Project Documents and the Recognition Agreement do not permit the Cooperative Corporation to restrict the sale, conveyance or transfer of a Cooperative Unit owned by a lender, its successors or assigns; or do not place any limits on the assignment of the Proprietary Lease to the lender, its successors or assigns; and provide further as follows:

- The lender may transfer the Cooperative Shares and Proprietary Lease if the Shareholder defaults on the Cooperative Share Loan
- If the Cooperative Project Documents require that a Shareholder be a natural person, they must permit the lender to select a non-corporate designee for any transfer of the Cooperative Shares and Proprietary Lease in the event of a foreclosure

(h) Cooperative Corporation Responsibilities and Seller/Servicer Rights

The Cooperative Project Documents or Recognition Agreement must include provisions to recognize specific rights of the lender that finances a Cooperative Share Loan, and the Cooperative Corporation's responsibilities to that lender, its successors or assigns. The

Cooperative Project Documents provide for at least the following corporation responsibilities and lender rights:

1. The Cooperative Project Documents, Recognition Agreement or other legal documents include, but are not limited to, the following responsibilities of the Cooperative Corporation:
 - (i) In the event of Shareholder's default on the Cooperative Share Loan and at the request of the lender of the Cooperative Share Loan, the Cooperative Corporation must evict the Shareholder and must terminate the Shareholder's Proprietary Lease at the lender's expense
 - (ii) In the event of the Shareholder's default on the Cooperative Share Loan, the Cooperative Corporation must issue Cooperative Share(s) and the Proprietary Lease in the name of the lender or its designee
2. **Lender Rights.** The Cooperative Project Documents or Recognition Agreement must grant the lender of a Cooperative Share Loan the right to:
 - (i) Cure the Shareholder's default in payment of Maintenance Fees or other assessments
 - (ii) Review and approve the following actions:
 - Any surrender, cancelation, modification, assignment or pledge of any documents evidencing ownership, possession, and use of the Shareholder's Cooperative Unit
 - Any further or additional pledge or mortgage of any documents evidencing ownership, possession, and use of the Cooperative Unit
 - Any action to change the size, existence or form of ownership of the Cooperative Project

5705.7: Exempt From Review (07/05/23)

Refer to Bulletin 2023-15, which announced updates to requirements for Condominium and Cooperative Projects in need of Critical Repairs. Sellers may implement the new requirements prior to the mandatory effective September 18, 2023 version of this section.

To be eligible under Exempt From Review:

1. The Mortgage must be:
 - A Freddie Mac-owned “no cash-out” refinance Cooperative Share Loan, or
 - A Refi Possible® Mortgage

2. The Cooperative Project is not a cooperative hotel, houseboat project, timeshare project or project with segmented ownership (all as described in Section 5705.3)
3. The applicable requirements in the following table must be met:

Freddie Mac-owned “no cash-out” refinance Cooperative Share Loan	<p>If the Cooperative Share Loan being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac, then the Mortgage is exempt from project review provided the following requirements are met:</p> <ul style="list-style-type: none"> ■ The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio is 80% ■ If available, proof of the ULDD Data Point Related Investor Loan Identifier of the existing Cooperative Share Loan is provided in the Mortgage file ■ The delivery requirements in Section 6302.45 are met
Refi Possible Mortgage	<p>If the Cooperative Share Loan being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac and the Mortgage is being refinanced under the Refi Possible offering, then the Mortgage is exempt from project review provided that:</p> <ul style="list-style-type: none"> ■ The Mortgage meets all applicable requirements in Chapter 4302 ■ The delivery requirements in Section 6302.46 are met

4. The general project eligibility requirements in Section 5705.2(b) must be met

5705.7: Exempt From Review (Future effective date 09/18/23)

To be eligible under Exempt From Review:

1. The Mortgage must be:
 - A Freddie Mac-owned “no cash-out” refinance Cooperative Share Loan, or
 - A Refi Possible® Mortgage
2. The Cooperative Project is not a cooperative hotel, houseboat project, timeshare project or project with segmented ownership (all as described in Section 5705.3)
3. The Cooperative Project is not in need of Critical Repairs and does not have an evacuation order. (See Sections 5705.3(q) and 5705.3(r) for details.)
4. The applicable requirements in the following table must be met:

<p>Freddie Mac-owned “no cash-out” refinance Cooperative Share Loan</p>	<p>If the Cooperative Share Loan being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac, then the Mortgage is exempt from project review provided the following requirements are met:</p> <ul style="list-style-type: none"> ■ The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratio is 80% ■ If available, proof of the ULDD Data Point Related Investor Loan Identifier of the existing Cooperative Share Loan is provided in the Mortgage file ■ The delivery requirements in Section 6302.45 are met
<p>Refi Possible® Mortgage</p>	<p>If the Cooperative Share Loan being refinanced is currently owned by Freddie Mac in whole or in part or securitized by Freddie Mac and the Mortgage is being refinanced under the Refi Possible offering, then the Mortgage is exempt from project review provided that:</p> <ul style="list-style-type: none"> ■ The Mortgage meets all applicable requirements in Chapter 4302 ■ The delivery requirements in Section 6302.46 are met

5. The general project eligibility requirements in Section 5705.2(b) must be met

5705.8: Appraisal requirements for Cooperative Units (03/31/22)

The Seller must obtain an appraisal of the Cooperative Unit with an interior and exterior property inspection reported on **Fannie Mae Form 2090**, Individual Cooperative Interest Appraisal Report, which must be submitted to the Uniform Collateral Data Portal® (UDCP®) in accordance with the requirements in Chapter 5606 and must receive a “Successful” status before the Delivery Date of the Cooperative Share Loan.

(a) Cooperative Interest

The Cooperative Interest is the Cooperative Shares (or ownership interest) in the Cooperative Corporation and the related occupancy rights, excluding the Cooperative Interest’s Pro Rata Share of the underlying Blanket Mortgage. In other words, the Cooperative Interest is the equity portion that is over and above the Pro Rata Share of the Blanket Mortgage(s).

(b) General appraisal requirements for units in Cooperative Projects

When appraising a Cooperative Unit, appraisers must develop the opinion of market value for the Cooperative Interest. To determine the value of the Cooperative Interest, appraisers must report and analyze including, but not limited to, the following information:

- Number of shares attributable to the subject unit
- Number of shares issued and outstanding for the Cooperative Corporation
- Lienholder name, lien position, and the amount and repayment terms for all the Cooperative Project’s blanket financing
- Pro Rata Share of the Blanket Mortgage payments attributable to the subject unit, determined by dividing the number of shares attributable to the subject unit by the total number of project shares
- Pro Rata Share of each lien attributable to the subject unit
- Any tax abatements or exemptions that are attributable to the subject unit
- Remaining term for any tax abatements or exemptions and provisions for escalation of real estate taxes (dollar amount by which the taxes will increase and the year in which the increase occurs); and

- Any monthly Maintenance Fees, including:
 - Utility charges (if included in the fee)
 - Special assessments
 - Ground rent; and
 - Other fees for the use of the facilities that are attributable to the unit (fee type, amount, and term)

This information can generally be developed through Request for Cooperative Project Information (**Fannie Mae Form 1074**), if the management agent, Cooperative Corporation, or project sponsor/developer uses the form to respond to Seller or appraiser inquiries for project information. When **Fannie Mae Form 1074** is used, appraisers may either report the appropriate information in the appraisal report form or attach the **Fannie Mae Form 1074** to the appraisal report as an addendum.

When reporting the information applicable to the Cooperative Unit and Cooperative Project, appraisers must:

- Use reliable sources to obtain data on the Cooperative Project, the individual subject unit, and the comparable properties, and indicate each source by name on the appraisal report or in an addendum to the appraisal report
- Address any factors that could result in an increase to the monthly debt service for the subject unit
- Indicate the dollar amount of the monthly Maintenance Fees for each of the comparable sales in the Sales Comparison Approach
- Report the value of the Cooperative Interest, excluding the Pro Rata Share of the Blanket Mortgage(s). This value reflects the market value of the Cooperative Interest for the subject unit. For example, if the indicated value of the unit encumbered by the Blanket Mortgage(s) is \$100,000, and the unit's Pro Rata Share of the Blanket Mortgage(s) is \$25,000, then the market value estimate that the appraiser must report for the Cooperative Interest is \$100,000 - \$25,000 = \$75,000.
- Include a certification in the appraisal report that the Pro Rata Share of the Blanket Mortgage(s) on the real estate has not been included in the opinion of the market value of the Cooperative Interest

(c) Comparable sale requirements for units in Cooperative Projects

Appraisers must comment on the acceptance of housing cooperatives in the market area. The degree of acceptance is generally reflected in the availability of similar comparable sales data

for Cooperative Units. If there is limited market acceptance of the cooperative form of ownership or if cooperative forms of ownership are relatively new in the market area, appraisers must address any effect that has on the value and marketability of the Cooperative Unit that is being appraised. The appraiser must compare the subject unit to the general market area as well as to other units in the subject Cooperative Project. This comparison will demonstrate the market acceptance of Cooperative Units in the area.

Comparable sales must be from similar types of projects that have similar Common Elements and recreational facilities including, but not limited to, townhouses and mid-rise and high-rise buildings.

Appraisers must use sales from Cooperative Units as comparables when they are available. However, appraisers may use condominium units as comparable sales if Cooperative Units are not available. If the appraiser must use condominium units as comparable sales, they must explain why those types of comparables were used and adjust the condominium comparables to reflect the reaction of the market to the Cooperative Unit when there is a preference for condominium ownership in the subject market area. See Section 5605.6(g) for general requirements regarding comparable sales selection.

(i) Comparable sale requirements for units in Established Cooperative Projects

For Cooperative Units located in Established Cooperative Projects, the appraiser should use comparable sales from within the Cooperative Project when they are the best indicators of value for the subject property. The use of comparable sales that are located outside of the established subject neighborhood must be explained in the appraisal analysis.

When the subject Cooperative Unit is in an Established Cooperative Project, appraisers should use the following as comparable sales:

- Two comparable sales from within the subject Cooperative Project, when available; and
- One comparable sale from a competing Cooperative Project

See Section 5605.6(g), for general requirements regarding selection of comparable sales.

(ii) Comparable sale requirements for units in recently converted or New Cooperative Projects

If the subject Cooperative Unit is in a recently converted or New Cooperative Project, appraisers should use the following as comparable sales:

- One comparable sale from the subject Cooperative Project, when available; and
- Two comparable sales from outside of the Cooperative Project

In the event the subject project is so new that a closed (settled) sale is not available, comparable sales from competing projects must be used. The appraiser must comment on the marketability of the new project and justify and support the use of the comparable sales from outside the Cooperative Project.

See Section 5605.6(g) for general requirements regarding comparable sales selection.

5705.9: Combined Cooperative Units (11/04/20)

Cooperative Units that have been physically and legally combined to create a single Cooperative Unit must meet the following requirements.

(a) Number of units after Cooperative Units are combined

The Cooperative Project must be comprised of at least two Cooperative Units after any units are combined.

(b) Requirements to combine Cooperative Units

Prior to sale of the Cooperative Share Loan to Freddie Mac:

- The Cooperative Corporation must approve the combination of two or more adjoining Cooperative Units into a single Cooperative Unit
- The construction to combine the Cooperative Units into a single Cooperative Unit must be complete
- The Cooperative Corporation must:
 1. Assign a single unit designation, i.e., a mailing address, to the combined single Cooperative Unit
 2. Designate the number of Cooperative Shares applicable to the combined single Cooperative Unit
 4. Adjust the Maintenance Fees based on the total number of Cooperative Shares assigned to the combined single Cooperative Unit

(c) Loan purpose for combined Cooperative Units

The Cooperative Share Loan may be either:

- (i) A purchase transaction for the two or more adjoining Cooperative Units on the Note Date; or

- (ii) A refinance transaction, if a Shareholder owns one Cooperative Unit and is purchasing one or more additional adjoining Cooperative Units; the proceeds from the refinance Cooperative Share Loan may only be used to:
- (a) Purchase the additional adjoining units
 - (b) Pay off the current Cooperative Share Loan on the Cooperative Unit in which the Shareholder has a Cooperative Interest
 - (c) Pay the costs of construction to combine the Cooperative Units into a single unit
 - (d) Pay any related Closing Costs, Financing Costs, and Prepaid/Escrows up to 2.5% of the UPB of the refinance loan amount; and
 - (e) Disburse cash to the Shareholder up to 1% of the UPB of the refinance Cooperative Share Loan or \$2,000 whichever is less, provided that the cash disbursed does not exceed 5% of the amount of the Cooperative Share Loan

(d) Appraisal requirements for combined Cooperative Units

The Cooperative Units must be appraised as a combined single unit.

(e) Closing requirements for combined Cooperative Units

In connection with the closing of the Cooperative Share Loan secured by the combined single Cooperative Unit, the following requirements must be met

- All loan documents must use the single unit designation of the combined single unit that was assigned by the Cooperative Corporation
- The Cooperative Share Loan must be secured by a first lien on the Cooperative Interest (i.e., rights of ownership and occupancy rights) to the Cooperative Units that were combined into the single unit

(f) Servicing/foreclosure requirements for combined Cooperative Units

The Cooperative Share Loan must be serviced as a 1-unit dwelling and in the event of a foreclosure, the Cooperative Share Loan secured by a pledge or trust of the Cooperative Shares must be foreclosed as a combined single 1-unit dwelling.

5705.10: Cooperative Project Conversions (05/04/20)

For a Cooperative Project that was created by the conversion of a building(s) with a prior use, the following requirements must be met for Seller's review and determination of Cooperative Project eligibility in addition to all other applicable requirements for Cooperative Projects in the Guide.

(a) Cooperative Project conversions with prior use

- Conversions involving a Non-Gut Rehabilitation of a Cooperative Project that was legally created within three years of underwriting the Cooperative Project must comply with the following:
 1. The engineer's report must confirm that the Cooperative Project is structurally sound
 2. The condition and remaining useful life of the major Cooperative Project components are sufficient to meet the residential needs of the Cooperative Project; major Cooperative Project components include the roof, elevators and mechanical systems, such as HVAC, plumbing and electricity
 3. All rehabilitation work involved in the conversion was completed in a professional manner; and
 4. There is no evidence of any adverse conditions
- Conversions involving a Gut-Rehabilitation and Non-Gut Rehabilitation of a Cooperative Project if more than three years have elapsed since the legal creation of the Cooperative Project, a review of the engineer's report is not required

(b) Cooperative Project conversion documents

For a Cooperative Project that was created by the conversion of a building(s) with a prior use within three years of underwriting the Cooperative Project, the Seller's project review and determination of project eligibility must include a review of all the Cooperative Project Documents.

A review of all the Cooperative Project Documents is not required for an existing Cooperative Project and Cooperative Project conversions if more than three years have elapsed since the legal creation of the Cooperative Project.

(c) Prior Cooperative Project financing

In a conversion, the mortgagee of the Blanket Mortgage agrees to the use of the building as a Cooperative Project and, in the event of a default on the Blanket Mortgage, it will not wipe out the Cooperative Shares of the Shareholders who are current in the payment of Maintenance Fees or assessments.

5705.11: Documents to be delivered to the Document Custodian and other documents to be maintained by Seller (11/04/20)

(a) Document Custodian

See Section 6304.2(b) for documents that Seller/Servicers must submit to the Document Custodian.

(b) Other file documents

Seller must maintain the following documentation on the Cooperative Corporation and the Cooperative Project:

- (i) Most recent two year's financial statements including income and expense statement and all footnotes
- (ii) Current fiscal year's operating budget
- (iii) One of the following forms of evidence that the Cooperative Project meets insurance requirements:
 - A. Original policy (including a commercial package policy under which the required coverages may be provided in whole or in part) and applicable endorsements
 - B. Copy of the original policy and applicable endorsements, if the copy meets the requirements of Chapter 3302; or
 - C. Certificate, evidence or declarations of insurance providing at least the following information:
 - Name of insured Cooperative Corporation (i.e., the Cooperative Corporation must be named as "First Named Insured")
 - Name and address of Cooperative Project mortgagee(s)
 - Address of insured Cooperative Project
 - Type, limit and effective dates of coverage
 - Deductible amount and coverage to which each such deductible applies
 - Any endorsement or optional coverage obtained and made part of the original policy

- Insurer's agreement to provide at least 10 days' notice to the Cooperative Corporation, the Cooperative Project mortgagee and the Cooperative Unit mortgagee before any reduction in coverage or cancelation of the policy; and
- Signature of an authorized representative of the insurer

The Servicer must maintain a specimen of each policy and endorsement for which a certificate, evidence or declarations of insurance is maintained in lieu of the policy and endorsements.

The Seller/Servicer must retain all Cooperative Project documentation that supports its warranty that the Cooperative Project meets Freddie Mac requirements for as long as Freddie Mac retains an interest in the applicable Cooperative Share Loan, and for at least seven years from the date Freddie Mac's interest in the Cooperative Share Loan is satisfied.

(c) Mortgage file documentation

A copy of the Recognition Agreement and a copy of the Proprietary Lease must be maintained in the Mortgage file.

5705.12: Pooling and delivery requirements for Cooperative Share Loans (05/04/20)

See Section 6202.3(f)(vii) for information on pooling and delivery requirements for fixed-rate Cooperative Share Loans under the fixed-rate Guarantor and MultiLender Swap programs.

See Section 6302.45 for special delivery requirements for Cooperative Share Loans.

There are no special pooling or delivery requirements for adjustable-rate Cooperative Share Loans.

Chapter 5706: Manufactured Homes on Leasehold Estates

5706.1: Purchase of Mortgages secured by Manufactured Homes on leasehold estates (07/06/22)

Freddie Mac will purchase a Mortgage secured by a Manufactured Home on a leasehold estate when there is demonstrated market acceptance. Mortgages that are secured by a Manufactured Home on a leasehold estate must meet the requirements of this Chapter 5706.

The Seller must obtain Freddie Mac's written approval before selling Mortgages secured by a Manufactured Home on a leasehold estate to Freddie Mac by contacting its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE.

Mortgages secured by Manufactured Homes on leasehold estates must satisfy the provisions of Chapter 5703 and related Guide sections pertaining to Manufactured Homes and Chapter 5704 and related Guide sections pertaining to leasehold estates.

5706.2: Property eligibility for Mortgages secured by Manufactured Homes on leasehold estates (07/06/22)

To be eligible for purchase by Freddie Mac, a Manufactured Home on a leasehold estate must be:

- A one-unit dwelling comprised of multiple sections (a “multiwide Manufactured Home”)
- Located on a leasehold estate meeting the requirements of Chapter 5704; and
- Located in a ground lease community
 - For ground lease communities that are Condominium Projects, the Seller must comply with the Condominium Project requirements and warranties in Chapter 5701
 - For ground lease communities that are Planned Unit Developments (PUDs), the Seller must comply with the PUD requirements and warranties in Chapter 5702

A Manufactured Home on a leasehold estate must not include an ADU.

5706.2: Property eligibility for Mortgages secured by Manufactured Homes on leasehold estates (Future effective date 10/02/23)

To be eligible for purchase by Freddie Mac, a Manufactured Home on a leasehold estate must be:

- A one-unit dwelling comprised of multiple sections (a “multiwide Manufactured Home”)
- Located on a leasehold estate meeting the requirements of Chapter 5704; and
- Located in a ground lease community
 - For ground lease communities that are Condominium Projects, the Seller must comply with the Condominium Project requirements and warranties in Chapter 5701
 - For ground lease communities that are Planned Unit Developments (PUDs), the Seller must comply with the PUD requirements and warranties in Chapter 5702

A Manufactured Home on a leasehold estate must not include an ADU.

See Chapter 4504 for requirements for HeritageOneSM Mortgages, including the special requirements for HeritageOne Mortgages that are leasehold Mortgages secured by Manufactured Homes in Section 4504.8.

5706.3: Lease provisions (07/06/22)

In addition to the requirements in Section 5704.1(c), the lease must also provide that subleasing is allowed if the leasehold mortgagee or its designee takes title to the Manufactured Home and the leasehold estate.

5706.4: Value of leasehold estates (07/06/22)

The provisions of Section 5703.4 pertaining to calculating the treatment of the land in determining value for computing the loan-to-value ratio in different types of financing transactions structures do not apply to leasehold estates.

The provisions of Section 5703.5 pertaining to the use of the land as an equity contribution do not apply to the leasehold estate.

The provisions of Section 5703.6 pertaining to the appraisal requirements for Manufactured Homes do apply.

Although Section 5704.3 pertaining to appraisal requirements for leasehold Mortgages allows for the use of comparable sales that are not on a leasehold estate, at least two comparable properties that are also on a leasehold estate must be included in the appraisal report to demonstrate market acceptance.

5706.5: Underwriting requirements for Mortgages secured by Manufactured Homes on leasehold estates (07/06/22)

(a) Loan Product Advisor® Mortgages

All Mortgages secured by Manufactured Homes on leasehold estates must be submitted to Loan Product Advisor and be an Accept Mortgage.

(b) Maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios and value

The maximum LTV, TLTV and HTLTV ratios for Mortgages secured by Manufactured Homes on leasehold estates are as follows:

Purchase transactions and “no cash-out” refinance transactions		
Primary Residence		
Maximum LTV	Maximum TLTV	Maximum HTLTV
95%	95%	95%

5706.6: Eligible transaction types for Mortgages secured by Manufactured Homes on leasehold estates (07/06/22)

A Mortgage secured by a Manufactured Home located on a leasehold estate may be a purchase transaction or a “no cash-out” refinance transaction.

For a new Manufactured Home, whether it is affixed to a permanent foundation prior to or after the application date, the Seller must obtain a copy of the manufacturer’s invoice and Manufactured Home Purchase Agreement.

(a) Purchase transactions

A purchase transaction is one in which the loan proceeds are used to finance the purchase of the Manufactured Home. The proceeds may also be used to purchase the leasehold interest in the land, as the Borrower does not separately own the land.

- The purchase price may include documented costs for delivery and setup, installation and permanent utility connections, including well and/or septic systems
- Credits for wheels and axles and any Manufactured Home retailer rebates must be deducted from the purchase price along with any sales concessions in accordance with Section 5501.5
- Financing of any forms of insurance, except for mortgage insurance, or other costs is not allowed for purchase transactions

The maximum loan-to-value (LTV)/total LTV (TLTV)/Home Equity Line of Credit (HELOC) TLTV (HTLTV) ratios (if applicable) for a purchase transaction Mortgage secured by a newly built Manufactured Home (not previously owned) and/or not affixed to a permanent foundation as of the application date are based on value calculated as the lower of:

- The purchase price of the Manufactured Home and leasehold interest in the land, or
- The current appraised value of the Manufactured Home and leasehold interest in the land

The LTV ratio (and TLTV/HTLTV ratio, if applicable) for a purchase transaction Mortgage secured by a previously owned Manufactured Home that is affixed to a permanent foundation prior to the application date is based on value calculated as the lower of:

- The purchase price of the Manufactured Home and leasehold interest in the land, or
- The current appraised value of the Manufactured Home and leasehold interest in the land

(b) “No cash-out” refinance transactions

A “no cash-out” refinance transaction involves the payoff of an existing Mortgage secured by the Manufactured Home and leasehold interest in the land. The loan amount is limited to the amounts used to:

- Pay off the existing first Mortgage secured by the Manufactured Home and leasehold interest in the land
- Pay off the existing Mortgage or junior lien(s) obtained by the Borrower solely to acquire the Manufactured Home
- Pay related Closing Costs

- Disburse cash out to the Borrower (or any other payee) up to the greater of 1% of the new refinance Mortgage or \$2,000

A “no cash-out” refinance Mortgage must also meet the requirements in Sections 4301.4(a) and 4301.4(b).

5706.7: Title issues and lien requirements relating to Manufactured Homes on leasehold estates (07/06/22)

(a) State permits surrender of certificate of title

A Manufactured Home on a leasehold estate must be located in a State that permits surrender of a certificate of title, regardless of whether the land on which the Manufactured Home is located is owned by the owner of the Manufactured Housing.

(b) Title insurance

In addition to the requirements in Section 5703.7(f), the American Land Title Association (ALTA) Form 13.1 endorsement must be attached to the title insurance policy. The title insurance policy must include the Manufactured Home as part of the lessee’s leasehold improvements and must include the value of the lessee’s leasehold improvements, including the Manufactured Home, in the insured estate. All requirements necessary to obtain title insurance, including ALTA Form 13.1 and Form 7 endorsements, must be satisfied, including any requirements necessary to ensure the leasehold transaction such as a recordation of the lease or a short form lease that incorporates the various provisions of the unrecorded lease.

An attorney’s opinion of title is not acceptable in lieu of a title insurance policy.

Chapter 5801: Uniform Closing Dataset

5801.1: Uniform Closing Dataset and Loan Closing Advisor[®] (10/31/18)

(a) Overview

This section contains information and requirements relating to:

- The Uniform Closing Dataset (UCD)
- Appendix I, UCD Delivery Specification, of the Uniform Closing Dataset (UCD) Specification (“Appendix I”)
- Loan Closing Advisor[®]

The UCD is a common industry dataset that allows information on the Settlement/Closing Disclosure Statement to be communicated electronically.

Appendix I provides field-specific standardization requirements for preparing the UCD in proper XML format for file transmission to Freddie Mac.

Loan Closing Advisor is Freddie Mac’s electronic collection solution for the UCD that helps Sellers validate that their closing data aligns with the UCD. Loan Closing Advisor assesses the data against Appendix I, checking for the completeness, validity and accuracy of certain calculated values, as well as consistency of the data.

(b) Uniform Closing Dataset

The UCD XML file with the embedded Settlement/Closing Disclosure Statement (PDF) is required on all Mortgages sold to Freddie Mac with a Note Date on and after **September 25, 2017**.

The requirement to submit the UCD through Loan Closing Advisor is satisfied when the transaction has received data quality feedback messages and the final Settlement/Closing Disclosure Statement PDF is embedded in the UCD XML file.

Appendix I may be amended from time to time. The current version can be found at https://sf.freddiemac.com/content/_assets/resources/xls/requirements/appendix_i_uniform_closing_dataset.xls.

(c) UCD messaging through Loan Closing Advisor

When the UCD XML file is submitted to Loan Closing Advisor, the Seller will receive a variety of feedback messages designed to assist the Seller in evaluating the closing data against the UCD delivery specification requirements and to determine if the associated

Mortgage meets the requirements of Appendix I, including those pertaining to the completeness, validity and accuracy of certain calculated values and consistency of the data.

The presence of one or more feedback message(s) with a warning severity indicator at the time of delivery does not prevent a submission from satisfying the UCD submission requirement.

Chapter 5901: Automated Income Assessment with Loan Product Advisor® Using Employer Data

5901.1: Automated income assessment with Loan Product Advisor® using employer data overview (06/07/23)

Automated income assessment with Loan Product Advisor® using employer data, part of asset and income modeler (AIM), provides Sellers with the option to use Loan Product Advisor to determine whether the Seller is eligible for relief from enforcement of certain representations and warranties related to the Borrower's income. The Seller must obtain a verification report of the Borrower's income from a third-party verification service provider designated by Freddie Mac. Based on information submitted, Loan Product Advisor will retrieve the income verification report, assess for representation and warranty relief eligibility, and return the results of the assessment on the Feedback Certificate.

5901.2: Automated income assessment with Loan Product Advisor® using employer data eligibility requirements (06/07/23)

(a) Eligible Mortgages

To be eligible for automated income assessment with Loan Product Advisor® using employer data, the Mortgage must be:

- A conventional Mortgage
- An Accept Mortgage

(b) Eligible income types

The following income types are eligible for automated income assessment with Loan Product Advisor using employer data:

(i) Base non-fluctuating employment earnings and fluctuating hourly employment earnings as described in Section 5303.2, except for the following income:

- Military pay
- Earnings with the following employment/income characteristics:
 - Earnings of a Borrower employed by a family member, the property seller, real estate broker or other interested party to the transaction
 - Employed income from foreign sources
 - Income reported on Internal Revenue Service (IRS) Form 1099 for services performed
 - Borrowers with business ownership interest(s) less than 25%

(ii) The following additional employed income types as described in Section 5303.3:

- Overtime income
- Bonus income
- Commission income

5901.3: Third-party verification service providers and income verification reports (06/07/23)

Third-party verification service providers (“service providers”) designated by Freddie Mac must be used to obtain income verification reports.

The method used to produce the income verification report must be an automated process whereby the data for the report is accessed directly from the service provider's electronic database of employer-provided income information.

All income shown on the income verification report must be in U.S. dollars.

The Seller must confirm that the information on the verification report is for the correct Borrower and employer.

In the event the Borrower has taken a temporary leave of absence from his or her employment, the income verification report must indicate that, as of the date of the verification report, the Borrower has returned to work for at least 30 days following the leave.

The age of the income verification report must comply with the requirements of Section 5102.4, and the income verification report must be maintained in the Mortgage file for Mortgages with income that is eligible for representation and warranty relief as described in Section 5901.5(a).

For employed income documentation, the Seller must obtain and maintain in the Mortgage file verification of the Borrower's current employment (10-day pre-closing verification) in accordance with the requirements of Section 5302.2 (d) when applicable.

5901.4: Loan Product Advisor® requirements (06/07/23)

For Loan Product Advisor® to assess the Mortgage for income representation and warranty relief, the Seller must:

- Submit the most current version of the verification report to Loan Product Advisor. If the Seller obtains an updated report, the updated information must be submitted to Loan Product Advisor.
- Evaluate the verification report, the information contained in Form 65, Uniform Residential Loan Application, including the Borrower's income and employment representations, and any other documentation in the Mortgage file
- Submit to Loan Product Advisor the income amount the Seller used to underwrite the Mortgage
- Investigate and resolve any inconsistent or contradictory information between the verification report, information contained in Form 65 and the Mortgage file and, if applicable, update information in Loan Product Advisor with the correct information

- Have no knowledge, information or documentation that contradicts a reasonable expectation of continuance of income or probability of consistent receipt of income for at least the next three years

5901.5: Representation and warranty relief and additional requirements (06/07/23)

(a) Representation and warranty relief

The income representation and warranty eligibility result is provided on the Last Feedback Certificate. The representation and warranty relief available, as well as the corresponding verification and documentation requirements are as follows:

Eligibility result	Representation and warranty relief	Income documentation requirements
Eligible for Income Representation and Warranty Relief	<p>The Seller is relieved from enforcement of the following representations and warranties:</p> <ol style="list-style-type: none"> 1. Accuracy of the income calculation related to eligible income types described in Section 5901.2(b) that are on the income verification report, and 2. Accuracy and integrity of the data represented on the income verification report 	<p>For eligible income types (as described in Section 5901.2(b)) that are on the verification report, the income verification report is acceptable documentation as described in Section 5901.3.</p> <p>When there are multiple income sources and one or more is eligible for income representation and warranty relief, for the income source(s) not eligible for representation and warranty relief, the Seller must either:</p> <ol style="list-style-type: none"> 1. Verify and document the income as required by the Guide, or 2. Remove the income and resubmit the Mortgage to Loan Product Advisor®

Eligibility result	Representation and warranty relief	Income documentation requirements
Eligible for Partial Income Representation and Warranty Relief	<p>The Seller relieved from enforcement of representations and warranties related to the Borrower's income as confirmed by Loan Product Advisor feedback messages. When partial income representation and warranty relief is granted for a source(s), the Seller is relieved from:</p> <ol style="list-style-type: none"> 1. Accuracy of the income calculation related to eligible income types described in Section 5901.2(b) that are on the income verification report, and 2. Accuracy and integrity of the data represented on the income verification report 	<p>For eligible income types (as described in Section 5901.2(b)) that are on the verification report, the income verification report is acceptable documentation as described in Section 5901.3.</p> <p>When there are multiple income sources and one or more income sources are needed to qualify the Borrower, document the income source(s) as required by the feedback messages.</p>
Not Eligible for Income Representation and Warranty Relief	<p>The Seller is not eligible for relief from enforcement of representations and warranties related to the Borrower's income. Loan Product Advisor did not return a feedback message indicating representation and warranty relief was granted.</p>	<p>The income must be verified and documented as required by the Guide.</p>
Unable to Assess for Income Representation and Warranty Relief	<p>The Seller is not eligible for relief from enforcement of representations and warranties related to the Borrower's income. Loan Product Advisor was unable to assess the Borrower's income. This could be due to missing or incomplete information from the service provider or a system being down.</p>	<p>The income must be verified and documented as required by the Guide.</p>

(b) Internal Revenue Service (IRS) Form 4506-C

For Mortgages that receive an income representation and warranty result of either “Eligible for Income Representation and Warranty Relief” or “Eligible for Partial Income Representation and Warranty Relief” with a feedback message indicating that no further documentation is required for the income reflected on the income verification report, if all the income of a Borrower is from an eligible income type described in Section 5901.2(b) and is on the income verification report, the Seller does not need to obtain and maintain in the Mortgage file the following:

- An IRS Form 4506-C (or an alternate form acceptable to the IRS that authorizes the release of comparable tax information to a third party) signed by the Borrower, or
- A Commonwealth of Puerto Rico Form 2907 or Form 4506-C (or an alternate form that authorizes the release of comparable tax information to a third party), as applicable, signed by the Borrower for income that is derived from sources in Puerto Rico, Guam or the U.S. Virgin Islands and is exempt from federal income taxation under the Internal Revenue Code

For all other Mortgages, the requirements of Section 5302.5 apply.

Chapter 5902: Automated Asset Assessment with Loan Product Advisor® Using Account Data

5902.1: Automated asset assessment with Loan Product Advisor® using account data overview (06/07/23)

Automated asset assessment with Loan Product Advisor® using account data, part of asset and income modeler (AIM), provides Sellers with the option to use Loan Product Advisor to determine whether the Seller is eligible for relief from enforcement of certain representations and warranties related to the Borrower's assets. The Seller must obtain a verification report as described in Section 5902.3. Based on information submitted, Loan Product Advisor will retrieve the verification report, assess for asset representation and warranty relief eligibility, and return the results of the assessment on the Feedback Certificate.

5902.2: Automated asset assessment with Loan Product Advisor® using account data eligibility requirements (06/07/23)

(a) Eligible Mortgages

To be eligible for automated asset assessment with Loan Product Advisor® using account data, the Mortgage must be:

- A conventional Mortgage
- An Accept Mortgage

(b) Eligible asset types

The following depository accounts, as described in Section 5501.3, are eligible for automated asset assessment with Loan Product Advisor using account data:

- Checking accounts
- Savings accounts
- Money market accounts

- Borrower's business checking, savings and/or money market accounts (see Section 5304.1(f) for additional requirements when self-employed income from a business is used for qualifying)

The Mortgage must not be a Mortgage for which any of the following are being used to qualify the Borrower:

- Gift funds
- Cash on hand
- Assets that will be used by the Borrower for repayment of Borrower's monthly obligations as described in Section 5307.1

5902.3: Verification reports (06/07/23)

The Seller must obtain a verification report that is produced:

- By a third-party service provider designated by Freddie Mac
- Through a Freddie Mac-supplied application programming interface (API) using data transmitted by a third-party service provider designated by Freddie Mac, or
- Through a Freddie Mac-supplied API using data transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

The verification report must comply with the age of documentation requirements in Section 5102.4.

For each verification report obtained, the Seller must confirm:

- Each asset on the verification report is owned by at least one Borrower and such Borrower has access to the funds in the asset account
- All assets shown on the verification report are in U.S. dollars located in a U.S. or State-regulated financial institution
- There are no outstanding loans secured by any of the asset accounts included on the verification report

For Mortgages that are eligible for asset representation and warranty relief as described in Section 5902.5, the Seller must maintain a copy of the verification report in the Mortgage file.

5902.4: Loan Product Advisor® requirements and assessment results (03/06/19)

(a) Loan Product Advisor® requirements

The Seller must ensure that the most current version of the asset verification report is used by Loan Product Advisor. If the Seller obtains an updated report, the Mortgage must be resubmitted to Loan Product Advisor to ensure assessment of the most current information.

The Seller is responsible for investigating and resolving any inconsistent or contradictory information between the asset verification report and the Mortgage file and, if necessary, must update information in Loan Product Advisor based on such information.

(b) Loan Product Advisor results

The results of the automated asset assessment with Loan Product Advisor using account data are provided in the Feedback Certificate. The possible results and meanings are as follows:

- **Eligible** – Loan Product Advisor assessed the Borrower’s assets and the Seller is eligible for relief from enforcement of certain selling representations and warranties, described in Section 5902.5, related to the Borrower’s assets
- **Not Eligible** – Loan Product Advisor assessed the Borrower’s assets and the Seller is not eligible for relief from enforcement of selling representations and warranties related to the Borrower’s assets
- **Unavailable** – Loan Product Advisor was unable to assess the Borrower’s assets. This could be due to missing or incomplete information from the service provider or a system being down. The Seller is not eligible for relief from enforcement of selling representations and warranties related to the Borrower’s assets.

5902.5: Representation and warranty relief (03/29/20)

For Mortgages that receive a Risk Class of Accept and an asset representation and warranty result of “Eligible” on the Last Feedback Certificate, the Seller is relieved from enforcement of the following representations and warranties:

- The sufficiency of the Borrower’s assets to cover the “Total Funds to be Verified” amount indicated on the Last Feedback Certificate; and
- The accuracy and integrity of the data represented on the asset verification report

The Seller continues to be responsible for verification of additional funds required for the Mortgage transaction that are not included in the “Total Funds to be Verified” amount.

5902.6: Asset verification and documentation requirements (12/09/18)

For Mortgages that receive an asset representation and warranty result of “Eligible” on the Last Feedback Certificate:

- The asset verification report is acceptable documentation for verification of the “Total Funds to be Verified” amount indicated on the Last Feedback Certificate, and the asset verification report must be maintained in the Mortgage file; and
- The Seller must verify and document, as required by the Guide for the asset type, additional funds required for the Mortgage transaction that are not included in the “Total Funds to be Verified” amount indicated on the Last Feedback Certificate, and the documentation must be maintained in the Mortgage file

For Mortgages that receive an asset representation and warranty result of “Not Eligible” or “Unavailable” on the Last Feedback Certificate, the Seller must verify and document the Borrower’s assets as required by the Guide for the asset type, and the documentation must be maintained in the Mortgage file.

5902.7: Seller’s in-house quality control program (06/07/23)

Effective June 7, 2023, Section 5902.7 is deleted.

Chapter 5903: Automated Income Assessment with Loan Product Advisor® Using Tax Return Data

5903.1: Automated income assessment with Loan Product Advisor® using tax return data overview (04/15/22)

Automated income assessment with Loan Product Advisor® using tax return data, part of asset and income modeler (AIM), provides Sellers with the option for Loan Product Advisor to determine if the Seller is eligible for relief from enforcement of certain representations and warranties related to the Borrower's self-employed income based on tax return data.

Pursuant to this offering, the Seller will upload the Borrower's federal income tax returns to a third-party service provider designated by Freddie Mac (the "service provider"), which will produce a report ("Income Calculation Report") consisting of data extracted from the Borrower's tax returns. After the Seller reviews and verifies the Income Calculation Report and reuploads it to the service provider, the Borrower's tax return data will be retrieved from the service provider by Loan Product Advisor for assessment of income representation and warranty relief eligibility, and the result of the assessment will be returned on the Feedback Certificate.

The Seller may also request from the Internal Revenue Service (IRS), via the service provider, a tax transcript of the Borrower's federal individual income tax return(s). If the transcript is provided, Loan Product Advisor will compare data from the Borrower's tax return to data from the tax transcript for assessment of tax return data representation and warranty relief eligibility. The result of the assessment will be returned on the Feedback Certificate.

5903.2: Automated income assessment with Loan Product Advisor® using tax return data eligibility requirements (06/07/23)

(a) Eligible Mortgages

To be eligible for automated income assessment with Loan Product Advisor® using tax return data, the Mortgage must be:

- A conventional Mortgage
- An Accept Mortgage

(b) Eligible self-employed income

Self-employed income is an eligible income type for automated assessment of self-employed income using tax return data if it is derived from the following business structures:

- Sole proprietorships reported on Internal Revenue Service (IRS) Schedule C
- S corporations reported on IRS Form 1120S (including compensation of officers reported on IRS Form W-2), IRS Form 8825 and IRS Schedule K-1 (Form 1120S)
- Partnerships reported on IRS Form 1065, IRS Form 8825 and IRS Schedule K-1 (Form 1065)

5903.3: Income Calculation Report generation and underwriting requirements (04/15/22)

(a) Generating the Income Calculation Report

A service provider designated by Freddie Mac must be used to obtain the Income Calculation Report.

To generate an Income Calculation Report, the Seller must upload the Borrower's federal income tax returns to the service provider.

The service provider will then:

1. Use its proprietary optical character recognition technology to extract data from Borrower's tax returns and create the Income Calculation Report, which details the line item data extraction from the tax returns

2. Provide the Income Calculation Report to the Seller, along with a unique identifying reference number assigned to the Mortgage (the “Mortgage reference number”)

The Seller must then:

1. Review and verify the Income Calculation Report against information in the Mortgage file to determine if any adjustments must be made. If so, the Seller must update the Income Calculation Report and upload it to the service provider, along with any additional documentation necessary to support the updates.
2. Submit to Loan Product Advisor® the Mortgage reference number, which will be used by Loan Product Advisor to retrieve from the service provider the data extracted from the Borrower tax returns. Loan Product Advisor will assess this data using its calculation and eligibility rules and return to the Seller the results of the assessment on the Feedback Certificate.

(b) Underwriting requirements

For Mortgages that receive a Risk Class of Accept and are underwritten using self-employed income that is eligible for representation and warranty relief as described in Section 5903.5(a):

- The Borrower must have been self-employed and received income from the same eligible income source (i.e., business) on the Income Calculation Report for the most recent two years. When the Borrower’s business has been in existence for less than five years, or the Borrower has owned the business for less than five years, the Borrower’s federal income tax returns must reflect at least two years of receipt of income and/or losses from the business.
- Income reported on the business tax returns but not on personal tax returns must not be considered as stable monthly income
- The Seller must verify the current existence of the business in accordance with the requirements below:

Topic	Requirements and guidance for verification of existence of the business
Verification of current existence of business	Verification of the current existence of the business is required when positive income from the business is used as stable monthly income
Acceptable third party sources	<p>Acceptable third party sources for verification of existence of the business include, but are not limited to:</p> <ul style="list-style-type: none"> ■ Regulatory agency ■ Phone directory ■ Internet source (e.g., Better Business Bureau) ■ Directory assistance ■ Applicable licensing bureau <p>Verification of current existence of the business obtained verbally from an acceptable third-party source must be documented and include all of the following:</p> <ul style="list-style-type: none"> ■ Name and address of the business ■ Name of individual and entity contacted to obtain the verification ■ Date information verified ■ Name and title of the individual who completed the verification for the Seller
Alternative sources for verification of current existence of the business	The Seller may consider alternative sources if the above are not available, such as:

Topic	Requirements and guidance for verification of existence of the business
	<ul style="list-style-type: none"> ■ Preparer of the tax returns for the business (e.g., accountant), provided the preparer has an arm's length relationship with the Borrower ■ At least one month's business bank statement that supports the current existence of the business and the level and type of income and expenses reported on the business tax returns
Date requirements	The verification of the existence of the business must be completed prior to the Delivery Date, but no more than 120 days prior to the Note Date

- If business assets are used for closing, the requirements below must be met:

Subject	Requirements and guidance
Business assets used for closing	<ul style="list-style-type: none"> ■ Withdrawals of assets from the business may have a negative impact on the ability of the business to continue operating. When business assets are being used for the Down Payment, Closing Costs and/or reserves, the Seller must determine that the withdrawal of the funds will not have a detrimental effect on the business. In addition to a review and analysis of the personal and business tax returns, the Seller may review and analyze the current financial statement and/or the last three months of the business bank statements to confirm the deposits, withdrawals and balances are supportive of a viable

Subject	Requirements and guidance
	<p>business and are aligned with the level and type of income and expenses reported on the business tax returns.</p> <ul style="list-style-type: none"> ■ The factors contributing to the determination that the withdrawal will not negatively impact the business must be included on the Seller's written analysis of the income source and amount <p>The business assets must be verified in accordance with the documentation requirements in Sections 5102.3, 5102.4 and 5501.3.</p>

- The Seller is responsible for investigating and resolving any inconsistent or contradictory information contained in the Income Calculation Report, federal income tax returns and/or the Mortgage file. For example:
 - If the Seller determines that a business from which positive Borrower income is calculated is no longer in operation, the Seller must exclude it from the qualifying income, or
 - If the Mortgage receives a tax return data representation and warranty result of "Not Eligible," as described in Section 5903.5(a)(ii), due to inconsistencies between the tax transcript returned by the Internal Revenue Service (IRS) via the service provider and the tax return(s) uploaded to the service provider, the Seller is required to resolve the discrepancy

If the Seller finds discrepancies, it must update the information in Loan Product Advisor and/or the Income Calculation Report and resubmit the data as necessary.

For Mortgages that receive a tax return data representation and warranty result of "Eligible" as described in Section 5903.5(a)(ii), Loan Product Advisor has compared the data from uploaded tax return(s) to data from IRS tax transcripts and has found the data to be consistent; therefore, for eligible income, the Seller is not responsible for investigating inconsistent information between these documents.

- The Seller must have no knowledge, information or documentation that contradicts a reasonable expectation of continuance of income or probability of consistent receipt for at least the next three years

5903.4: Loan Product Advisor[®] requirements (06/07/23)

For Loan Product Advisor[®] to assess the Mortgage for income representation and warranty relief, the Seller must:

- Submit the most current version of the Income Calculation Report to Loan Product Advisor. If the Income Calculation Report is updated or additional income documentation is provided, the Seller must upload the updated report and/or income documentation to the service provider and submit the updated information to Loan Product Advisor. Loan Product Advisor will assess, on an individual Borrower-level and an individual business-level basis, the calculation of income and/or losses from the eligible self-employed income based on data from the federal income tax returns and the Income Calculation Report.
- Submit the Mortgage to Loan Product Advisor with the Mortgage reference number assigned by the service provider. Loan Product Advisor accepts only one Mortgage reference number for each Mortgage.
- Indicate to Loan Product Advisor that a Borrower is self-employed

5903.5: Representation and warranty relief and additional requirements (08/03/22)

(a) Representation and warranty relief

Two types of relief from enforcement of representations and warranties are available through automated income assessment with Loan Product Advisor[®] using tax return data: income representation and warranty relief and tax return data representation and warranty relief. Eligibility for each type of representation and warranty relief is determined separately. The representation and warranty relief available and corresponding requirements are as follows in the two subsections below:

(i) Income representation and warranty relief

Relief from enforcement of representations and warranties related to eligible income may be available for Mortgages when the Borrower's tax return data is retrieved from the service provider by Loan Product Advisor for assessment. The income representation and warranty relief eligibility result, and the corresponding requirements are as follows:

Eligibility result	Representation and warranty relief	Income documentation requirements
Eligible for Income Representation and Warranty Relief	<p>The Seller is relieved from enforcement of the following representations and warranties:</p> <ol style="list-style-type: none"> 1. The accuracy of the income calculation for the eligible self-employed income shown on the Income Calculation Report, and 2. The business and income analysis described in Section 5304.1(d), including the analysis of the eligible self-employed income to support that the business has sufficient liquidity and is financially capable of producing stable monthly income for the Borrower 	<p>For eligible self-employed income (as described in Section 5903.2(b)) that is on the Income Calculation Report:</p> <ol style="list-style-type: none"> 1. The Income Calculation Report is acceptable documentation as an alternative to Form 91, Income Calculations 2. The requirements of Section 5903.6 must be met <p>When there are multiple income sources and one or more is eligible for income representation and warranty relief, the income source(s) not eligible for representation and warranty relief, the Seller must either:</p> <ol style="list-style-type: none"> 1. Verify and document the income as required by the Guide, or 2. Remove the income and resubmit the Mortgage to Loan Product Advisor®
Eligible for Partial Income Representation and Warranty Relief	<p>The Seller is relieved from enforcement of representations and warranties related to the Borrower's income as confirmed by Loan Product Advisor feedback messages. When partial income representation and warranty relief is granted for a source(s), the Seller is relieved from:</p>	<p>For eligible self-employed income (as described in Section 5903.2(b)) that is on the Income Calculation Report:</p> <ol style="list-style-type: none"> 1. The Income Calculation Report is acceptable documentation as an alternative to Form 91, Income Calculations

Eligibility result	Representation and warranty relief	Income documentation requirements
	<ol style="list-style-type: none"> 1. The accuracy of the income calculation for the eligible self-employed income shown on the Income Calculation Report, and 2. The business and income analysis described in Section 5304.1(d), including the analysis of the eligible self-employed income to support that the business has sufficient liquidity and is financially capable of producing stable monthly income for the Borrower 	<p>2. The requirements of Section 5903.6 must be met</p> <p>When there are multiple income sources and one or more income source(s) are needed to qualify the Borrower, document the income source(s) as required by the feedback messages.</p>
Not Eligible for Income Representation and Warranty Relief	<p>The Seller is not eligible for relief from enforcement of representations and warranties related to the Borrower's income. Loan Product Advisor did not return a feedback message indicating representation and warranty relief was granted.</p>	<p>The income must be verified and documented as required by the Guide.</p>
Unable to Assess for Income Representation and Warranty Relief	<p>The Seller is not eligible for relief from enforcement of representations and warranties related to the Borrower's income. Loan Product Advisor was unable to assess the Borrower's income. This could be due to missing or incomplete information from the service provider or a system being down.</p>	<p>The income must be verified and documented as required by the Guide.</p>

(ii) Tax return data representation and warranty relief

Relief from the enforcement of representations and warranties related to the accuracy and integrity of tax return data may be available for Mortgages when the tax transcript is requested via the service provider and Loan Product Advisor compares the data from uploaded tax returns(s) to data from the Internal Revenue Service (IRS) tax transcripts. The tax return data representation and warranty relief eligibility result is provided on the Last Feedback Certificate and is described in the following chart:

Tax return data representation and warranty eligibility result	Representation and warranty relief
Eligible	<p>The Seller is relieved from enforcement of representations and warranties related to the accuracy and integrity of the data from tax return(s) uploaded to the service provider for eligible income (as described in Section 5903.2(b)) that is on the Income Calculation Report.</p> <p>For all other income types, the Seller does not receive data representation and warranty relief and must follow the requirements of Section 5302.5.</p>
Not Eligible	<p>The Seller is not eligible for relief from enforcement of representations and warranties related to the accuracy and integrity of the data from the tax return(s) uploaded to the service provider.</p>
Unavailable	<p>Loan Product Advisor was unable to assess the accuracy and integrity of the data. This could be due to a system being down.</p> <p>The Seller is not eligible for relief from enforcement of representations and warranties related to the accuracy and integrity of the data from the tax return(s) uploaded to the service provider.</p>

(b) Internal Revenue Service (IRS) Form 4506-C

The requirements of Section 5302.5 must be met for all Mortgages.

(c) Seller's in-house quality control program

Effective February 2, 2022, the requirements in Section 5903.5(c) have been relocated to Sections 3402.5(a), 3402.7 and 3402.8(c).

5903.6: Documentation requirements (02/01/23)

For Mortgages underwritten with self-employed income that is eligible for representation and warranty relief described in Section 5903.5(a), the documentation requirements below must be met.

(a) General documentation requirements

- The Borrower's self-employment must be documented on Form 65, Uniform Residential Loan Application
- The Seller must maintain in the Mortgage file:
 - The most recent Income Calculation Report and, if applicable, documentation to support adjustments as described in Section 5903.3(a)
 - All documentation submitted to the service provider as well as the Income Calculation Report used by Loan Product Advisor®

(b) Federal income tax return requirements

The Seller must maintain in the Mortgage file the following federal income tax returns:

Business structure	Business in existence greater than or equal to five years¹	Business in existence less than five years
Sole Proprietorship²	Complete signed federal individual (Form 1040) income tax return for the most recent year.	Complete signed federal individual (Form 1040) income tax returns for the most recent two years.
Partnership	Complete signed federal individual and partnership (Form 1065) income tax returns, including the Schedule K-1(s) for the most recent year.	Complete signed federal individual and partnership (Form 1065) income tax returns, including the Schedule K-1(s) for the most recent two years.
S Corporation	Complete signed federal individual and S corporation (Form 1120S) income tax returns, including the Schedule K-1(s), Form 1125-E and W-2(s) if applicable, for the most recent year.	Complete signed federal individual and S corporation (Form 1120S) income tax returns, including the Schedule K-1(s), Form 1125-E and W-2(s) if applicable, for the most recent two years.

¹ The Borrower must be self-employed (i.e., have an ownership interest of 25% or more) in the same business for at least five years.

² For sole proprietorships, the Seller must document on Form 65, Uniform Residential Loan Application, the number of years that the business has been in existence, and this length of time must not be contradicted by the Borrower's federal individual income tax return(s) and any other documentation or information received.

- The tax returns submitted to the service provider must be the Borrower's individual and business (if applicable) U.S. federal income tax return(s) that were most recently filed with the Internal Revenue Service (IRS). Sellers are encouraged to always confirm with the Borrower that the tax return(s) provided are the tax return(s) most recently filed with the IRS.

- The individual tax return year most recently filed with the IRS must correspond to the business tax return year most recently filed with the IRS for all businesses (e.g., when the most recently filed individual tax return year is 2020, the most recently filed business tax return year must also be 2020).
- The income and/or loss reflected in the federal income tax returns must be reported for the same business on the same tax form structure (e.g., the business cannot be reported as a sole proprietorship and then converted to a partnership)
- The tax returns must not be:
 - Filed on a fiscal year basis
 - Handwritten
 - An amended return, or
 - From a U.S. Territory

(c) Age of tax return requirements

The following date and documentation requirements (as described in Section 5903.6(b)) for 2021 and 2022 federal income tax return(s) must be met, based on the Application Received Date and the Note Date for the Mortgage:

Application Received Date	Note Date	Age of tax return(s) and other documentation requirements
Before: April 18, 2023	Before: May 31, 2023	<ul style="list-style-type: none"> ■ Most recent federal income tax return(s) filed with the IRS ■ The most recent tax return(s) must be no older than 2021
On or after: April 18, 2023	Before: May 31, 2023	<p>If Borrower has not filed the 2022 tax return(s) with the IRS:</p> <ul style="list-style-type: none"> ■ The most recent tax return(s) must be no older than 2021 ■ The Seller must obtain: <ul style="list-style-type: none"> <input type="checkbox"/> IRS confirmation verifying transcript(s) are not yet available for the tax returns (individual and business as applicable) from the 2022 tax year¹, and <input type="checkbox"/> Evidence of completed IRS tax filing extension(s) for 2022 tax year²; <ul style="list-style-type: none"> ■ IRS Form(s) 4868 for the individual tax return, and ■ Documented IRS tax filing extension for the business tax return, if applicable (e.g., IRS Form 7004)
All	On or after: May 31, 2023 Before: November 1, 2023	

Application Received Date	Note Date	Age of tax return(s) and other documentation requirements
All	On or after: November 1, 2023	<ul style="list-style-type: none"> ■ The most recent tax return(s) must be no older than 2022 ■ Use of a tax filing extension for the 2022 tax year is not permitted

¹ If the IRS extends the tax filing due date, the IRS confirmation is required for Mortgages with Application Received Dates on or after the IRS income tax filing due date, or May 31, 2023, whichever occurs first; and Note Dates on or after the last day of the month following the IRS income tax filing due date, or June 30, 2023, whichever occurs first.

² If the IRS extends the tax filing due date, evidence of the completed IRS tax filing extension is required for Mortgages with Application Received Dates on or after the IRS income tax filing due date and Note Dates on or after the last day of the month following the IRS income tax filing due date.

(d) Tax transcript obtained by the service provider

The Seller must maintain in the Mortgage file the tax transcript received from the IRS via the service provider.

Chapter 5904: Automated Income Assessment with Loan Product Advisor® Using Account Data

5904.1: Automated income assessment with Loan Product Advisor® using account data overview (06/07/23)

Automated income assessment with Loan Product Advisor® using account data, part of asset and income modeler (AIM), provides Sellers with the option to use Loan Product Advisor to determine whether the Seller is eligible for relief from enforcement of certain representations and warranties related to the Borrower's income.

The Seller must obtain a verification report as described in Section 5904.3.

The verification report will reflect income amounts (payment streams) deposited into the Borrower's depository accounts as automated clearing house (ACH) deposits (the "direct deposit data") and, if applicable, a copy of and extracted data from the Borrower's current paystub(s). Based on information submitted, Loan Product Advisor will retrieve the verification report, assess for representation and warranty relief eligibility, and return the results of the assessment on the Feedback Certificate.

5904.2: Automated income assessment with Loan Product Advisor® using account data – eligibility requirements (06/07/23)

(a) Eligible Mortgages

To be eligible for automated income assessment with Loan Product Advisor® using account data, the Mortgage must be:

- A conventional Mortgage
- An Accept Mortgage

(b) Eligible income types

The following income types are eligible for automated income assessment with Loan Product Advisor using account data:

- The following employment earnings as described in Section 5303.2:

- Base non-fluctuating employment earnings
- Fluctuating hourly employment earnings
- Military base (basic) pay
- Employed income earnings including employment characteristics as described in Section 5303.2(d) are eligible for assessment:
 - Full-time and part-time employment
 - Earnings of a Borrower employed by a family member, the property seller, real estate broker or other interested party to the transaction
 - Employed income from foreign sources
- The following additional employed income earnings as described in Section 5303.3:
 - Overtime income
 - Bonus income
 - Commission income
 - Military entitlements
- The following other income types as described in Section 5305.2:
 - Retirement income from Social Security and pensions
 - Social Security Survivors benefits
 - Social Security disability benefits
 - Social Security Supplemental Security Income (SSI)
 - Veterans Affairs (VA) disability compensation, and
 - Alimony, child support or separate maintenance payments

(c) Income history

When determining stable monthly income, Loan Product Advisor's assessment generally requires the following depository history in order for the Mortgage to be eligible for representation and warranty relief. However, in certain instances for employed income, a

shorter history may still be acceptable based on the automated assessment determining that the Borrower's monthly income is stable:

- Borrower's employment income described in Section 5904.2(b) above, and in Section 5303.2 for at least the most recent 12 months (including employment characteristics described in Section 5904.2(b) above and in Section 5303.2(d)), except that 24 months is required for secondary employment
- Borrower's additional employed earnings described in Section 5904.2(b) above, and in Section 5303.3 for the most recent 24 months, except for military entitlements, which only require a 12-month history
- Borrower's Social Security, pension or VA disability compensation income described in Section 5904.2(b) above, and in Section 5305.2 for at least the most recent two months, and
- Borrower's alimony, child support or separate maintenance payment income described in Section 5904.2(b) above, and in Section 5305.2 for at least the most recent six months

5904.3: Verification reports (06/07/23)

The Seller must obtain a verification report that is produced:

- By a third-party service provider designated by Freddie Mac,
- Through a Freddie Mac-supplied application programming interface (API) using data transmitted by a third-party service provider designated by Freddie Mac, or
- Through a Freddie Mac-supplied API using data transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

The verification report and any paystubs provided to the third-party service provider must comply with the age of documentation requirements in Section 5102.4.

For each verification report obtained, the Seller must:

- Confirm that each account is owned by at least one Borrower
- Confirm that all assets shown on the verification report are in U.S. dollars located in a U.S. or State-regulated financial institution
- Confirm, using the information in the Mortgage file, that the payor(s) is one of the following:
 - The Borrower's current employer

- The pension fund(s)
- The Social Security Administration or Veterans Affairs (VA), and/or
- For alimony, child support or maintenance payments, that the payments are made either by, or on behalf of, the responsible party identified in the signed court order, legally binding separation agreement and/or final divorce decree
- Maintain a copy of the verification report and any paystubs provided to the third-party service provider in the Mortgage file for Mortgages with income that is eligible for representation and warranty relief described in Section 5904.5(a).

For employed income documentation, the Seller must obtain and maintain in the Mortgage file verification of the Borrower's current employment (10-day pre-closing verification) in accordance with the requirements of Section 5302.2(d) when applicable.

5904.4: Loan Product Advisor® requirements (06/07/23)

For Loan Product Advisor® to assess the Mortgage for income representation and warranty relief, the Seller must:

- Submit the most current version of the verification report to Loan Product Advisor. If the Seller obtains an updated report, the updated information must be submitted to Loan Product Advisor.
- Submit to Loan Product Advisor the income amount it used to underwrite the Mortgage
- Investigate and resolve any inconsistent or contradictory information between the verification report, information contained in Form 65, Uniform Residential Loan Application (including the Borrower's income and employment representations) and the Mortgage file and, if applicable, update information in Loan Product Advisor with the correct information
- Have no knowledge, information or documentation that contradicts a reasonable expectation of continuance of income or probability of consistent receipt of income for at least the next three years.

5904.5: Representation and warranty relief and additional requirements (08/03/22)

(a) Representation and warranty relief

The income representation and warranty eligibility result is provided on the Last Feedback Certificate. The representation and warranty relief available and the corresponding verification and documentation requirements are as follows:

Eligibility result	Representation and warranty relief	Income documentation requirements
Eligible for Income Representation and Warranty Relief	<p>The Seller is relieved from enforcement of the following representations and warranties:</p> <ol style="list-style-type: none">1. Accuracy of the income amount calculation related to eligible income types that are on the verification report, and2. Accuracy and integrity of the direct deposit data on the verification report	<p>For eligible income types (as described in Section 5904.2(b)) that are on the verification report, the verification report is acceptable documentation as described in Section 5904.3.</p> <p>If alimony/child support /separate maintenance payment income is used, the documentation requirements found in (a)(i) must be met</p> <p>When there are multiple income sources and one or more is eligible for income representation and warranty relief, for the income source(s) not eligible for representation and warranty relief, the Seller must either:</p> <ol style="list-style-type: none">1. Verify and document the income as required by the Guide, or

Eligibility result	Representation and warranty relief	Income documentation requirements
		2. Remove the income and resubmit the Mortgage to Loan Product Advisor®
Eligible for Partial Income Representation and Warranty Relief	<p>The Seller is relieved from enforcement of representations and warranties related to the Borrower's income as confirmed by Loan Product Advisor feedback messages. When partial income representation and warranty relief is granted for a source(s), the Seller is relieved from:</p> <ol style="list-style-type: none"> 1. Accuracy of the income calculation related to eligible income types that are on the verification report, and 2. Accuracy and integrity of the direct deposit data on the verification report 	<p>For eligible income types (as described in Section 5904.2(b)) that are on the verification report, the verification report is acceptable documentation.</p> <p>If alimony/child support/separate maintenance payment income is used, the documentation requirements found in (a)(i) must be met</p> <p>When there are multiple income source(s) and one or more income sources are needed to qualify the Borrower, document the income source(s) as required by the feedback messages.</p>
Not Eligible for Income Representation and Warranty Result	The Seller is not eligible for relief from enforcement of representations and warranties related to the Borrower's income. Loan Product Advisor did not return a feedback message indicating representation and warranty relief was granted.	The income must be verified and documented as required by the Guide.
Unable to Assess for Income Representation	The Seller is not eligible for relief from enforcement of representations and warranties related to the Borrower's income. Loan Product Advisor was unable to assess the Borrower's income. This could be due to missing or	The income must be verified and documented as required by the Guide.

Eligibility result	Representation and warranty relief	Income documentation requirements
and Warranty Relief	incomplete information from the third-party service provider designated by Freddie Mac or from the financial institution's data, or a system being down.	

(i) Documentation Seller is required to obtain

For alimony, child support or separate maintenance payment income, the Seller must obtain and maintain in the Mortgage file:

- A copy of the signed court order, legally binding separation agreement and/or final divorce decree verifying the payor's obligation for the previous six months, including the amount and the duration of the obligation, and
- For child support income, proof of the ages of the children for which child support is received

(b) Internal Revenue Service (IRS) Form 4506-C

For Mortgages that receive an income representation and warranty result of either "Eligible for Income Representation and Warranty Relief" or "Eligible for Partial Income Representation and Warranty Relief", with a feedback message indicating that no further documentation is required for the income reflected on the verification report, if all of the Borrower's income is from an eligible income type described in Section 5904.2(b), the Seller does not need to obtain and maintain in the Mortgage file the following:

- An IRS Form 4506-C (or alternate form acceptable to the IRS that authorizes the release of comparable tax information to a third party) signed by the Borrower, or
- A Commonwealth of Puerto Rico Form 2907 or Form 4506-C (or an alternate form that authorizes the release of comparable tax information to a third party), as applicable, signed by the Borrower for income that is derived from sources in Puerto Rico, Guam or the U.S. Virgin Islands and is exempt from federal income taxation under the Internal Revenue Code

For all other Mortgages, the requirements of Section 5302.5 apply.

(c) Seller's in-house quality control program

The requirements of Sections 3402.5(a), 3402.7 and 3402.8(c) apply.

5904.6: Delivery requirements (06/01/23)

Effective June 1, 2023, Section 5904.6 is deleted.

Chapter 5905: Automated Employment Assessment with Loan Product Advisor® Using Account Data

5905.1: Automated employment assessment with Loan Product Advisor® using account data overview (06/07/23)

Automated employment assessment with Loan Product Advisor® using account data, part of asset and income modeler (AIM), provides Sellers with the option for an automated solution to meet the 10-day pre-closing verification (PCV) requirement which verifies the Borrower's current employment as described in Section 5302.2(d).

The Seller must obtain a verification report as described in Section 5905.3.

The verification report will reflect income deposited into the Borrower's depository accounts as automated clearing house deposits. The assessment will use the transmitted data to determine whether the payroll deposits reflected in the Borrower's accounts are sufficient to verify employment and will return a message indicating a specific PCV close-by date.

5905.2: Automated employment assessment with using account data eligibility requirements (11/06/22)

(a) Eligible Mortgages

To be eligible for automated employment assessment using account data, the Mortgage must:

- Be a conventional Mortgage
- Be delivered with an asset verification report as described in Section 5902.3 or a verification report as described in Section 5904.3. Verification reports may be obtained in conjunction with any of the automated offerings in Topic 5900 or they may be independently obtained and used as an automated solution to meet the 10-day pre-closing verification requirement.

(b) Depository history

For purposes of verifying the Borrower's employment, the Borrower's depository history must be transmitted to Freddie Mac with a minimum of three consecutive payroll deposits from the same payor(s).

5905.3: Verification reports (06/07/23)

The Seller must obtain a verification report that is produced:

- By a third-party service provider designated by Freddie Mac,
- Through a Freddie Mac-supplied application programming interface (API) using data transmitted by a third-party service provider designated by Freddie Mac, or
- Through a Freddie Mac-supplied API using data transmitted by the Seller. The Seller must obtain Freddie Mac's written approval to transmit data through the API.

The verification report must comply with the age of documentation requirements in Section 5102.4.

Regardless of the type of verification report(s) obtained, the Seller must:

- Confirm that each account is owned by at least one Borrower
- Confirm that all assets shown on the verification report are in U.S. dollars located in a U.S. or State-regulated financial institution
- Confirm that the payor(s) is the Borrower's current employer using the information in the Mortgage file
- Obtain and maintain the verification report(s) in the Mortgage file
- Submit the most current version of the verification report to Loan Product Advisor® or the API. If the Seller obtains an updated report, the updated information must be submitted to Loan Product Advisor or the API.
- Investigate and resolve any inconsistent or contradictory information between the verification report, information contained in Form 65, Uniform Residential Loan Application (including the Borrower's income and employment representations), and the Mortgage file and, if applicable, update information in Loan Product Advisor or the API with the correct information.

5905.4: Automated assessment results (11/06/22)

The results of the automated employment assessment related to the 10-day pre-closing verification (PCV) will be displayed in a message on the Feedback Certificate or reflected on the verification report with the "close-by-date."

The Note Date of the Mortgage must be on or before the “close-by-date” reflected in the Feedback Certificate or on the verification report for the 10-day PCV requirement to be met. If no such message is returned, the Seller must perform the 10-day PCV as described in Section 5302.2(d).

Alternatively, Sellers can obtain a verification report after the Note Date but prior to the Delivery Date of the Mortgage to confirm employment. In this case, the “close-by-date” will be after the Note Date; however, the 10-day PCV requirement will be met.

Sellers can use the verification report to satisfy the 10-day PCV requirement regardless of the income representation and warranty eligibility result or asset representation and warranty eligibility result as described in Sections 5901.5, 5902.5 and 5904.5. If the Seller does not use the automated employment assessment to meet the 10-day PCV requirement, then the Seller must obtain a 10-day PCV as described in Section 5302.2(d).

Chapter 6101: Fixed-Rate Cash

6101.1: Eligible Sellers for fixed-rate Cash (05/05/21)

In order to be eligible to sell Mortgages to Freddie Mac under fixed-rate Cash, the Seller must have entered into Purchase Contracts with Freddie Mac.

Freddie Mac may, at its sole discretion, require Sellers to post margin in connection with transactions under this Chapter 6101. In all events, Freddie Mac shall be the sole calculation agent with respect to the required margin amount and whether the margin amount is to be posted or returned.

If Freddie Mac provides notice of a margin deficit by 10:00 a.m. Eastern time on any Business Day, the Seller shall transfer any required margin no later than the close of business on such Business Day; if such notice is received after 10:00 a.m. Eastern time on any Business Day or on a day that is not a Business Day, the Seller shall transfer such margin no later than the close of business on the next Business Day.

Approved Sellers may establish a securities trading account with Freddie Mac. For information regarding how to request approval and to establish such an account, refer to Section 6103.1.

6101.2: Mortgages eligible under fixed-rate Cash (06/03/19)

(a) Eligible Mortgages under fixed-rate Cash

Freddie Mac will purchase fixed-rate Mortgages under fixed-rate Cash.

See Exhibit 17S, Available Mortgage Products, for more information regarding eligibility requirements for fixed-rate Mortgages sold under fixed-rate Cash.

Mortgages eligible for sale through Cash-Released XChange® under a Mandatory Cash Contract or a Best Efforts Contract can be found on Freddie Mac's website at
https://sf.freddiemac.com/content/_assets/resources/pdf/factsheet/available_products.pdf.

(b) Eligible original maturities

Although Section 4201.4 provides otherwise, the following requirements apply to fixed-rate Mortgages sold under fixed-rate Cash:

- Mortgages sold under contracts for 10-year Mortgages must have an original maturity greater than 84 months but not greater than 10 years from the Origination Date
- Mortgages sold under contracts for 15-year Mortgages must have an original maturity greater than 10 years but not greater than 15 years from the Origination Date
- Mortgages sold under contracts for 20-year Mortgages must have an original maturity greater than 15 years but not greater than 20 years from the Origination Date
- Mortgages sold under contracts for 30-year Mortgages must have an original maturity greater than 20 years but not greater than 30 years from the Origination Date

6101.3: Mandatory fixed-rate Cash Contracts (06/05/23)

(a) Offer amounts and procedures

Each Business Day, the Seller may take out Mandatory Cash Contracts to sell one or more Mortgages. Freddie Mac will endeavor to announce prior to the offer day if commitments will not be available due to holidays or other reasons.

The minimum amount for an individual Mandatory Cash Contract is \$1,000. Freddie Mac may, at its discretion and at any time, impose a maximum contract amount for individual Mandatory Cash Contracts. The Seller may enter into multiple mandatory cash contracts but may not exceed \$200 million in aggregate fixed-rate and WAC ARM (see Section 6102.4) commitment volume per day. The Seller may seek an exception to this amount by contacting the Cash Desk (Cash_Ex@FreddieMac.com or 571-382-5960). If this limit is exceeded without prior Freddie Mac approval, Freddie Mac may pair off the Seller's contract(s) or may require the Seller to pair off the contract(s) at the Seller's expense.

Under a Mandatory Contract, the Seller must:

- Sell to Freddie Mac one or more Mortgages that meet all of the contract requirements and have an aggregate UPB equal to the contract amount, subject to the purchase tolerance applicable to cash contracts under Section 6401.1
- Complete all requirements for the sale of the Mortgages by the close of business on the Purchase Contract Expiration Date

The terms of the Purchase Contract are provided in Loan Selling Advisor® and made available in Loan Selling Advisor's Purchase Contract Confirmation.

(b) Contract periods for Mandatory Cash Contracts

In Loan Selling Advisor, the Purchase Contract Effective Period is the period of time for which a price for eligible Mortgages provided to the Seller by Loan Selling Advisor is effective. The Seller may select a Purchase Contract Effective Period of between two and 90 days or such other time frame as permitted by Loan Selling Advisor. All of the requirements for all Mortgages under the Contract must be completed by the Purchase Contract Expiration Date.

(c) Pricing for Mandatory Cash Contracts

Pricing is available in Loan Selling Advisor each Business Day, and is based on prices Freddie Mac expects to receive in the securities market for the related UMBS® or MBS. The price also reflects the Mortgage Note Rate, the Minimum Contract Servicing Spread and the delivery period.

Freddie Mac will update prices on active Mortgage coupons throughout the day to reflect movements in the securities market. Posted prices assume a 0.250% Minimum Contract Servicing Spread and the use of the Standard Remittance Cycle.

The contract price the Seller receives through Loan Selling Advisor may be adjusted as the Seller allocates Mortgages to the contract or provides more detailed Mortgage data.

The Seller indemnifies Freddie Mac for any and all costs and expenses incurred by Freddie Mac as a result of the Seller's sale of a Mortgage that Freddie Mac priced and purchased under a Mandatory Cash Contract based on incomplete and/or inaccurate Mortgage data provided by the Seller for which Freddie Mac would have provided a different price if the Mortgage data provided by the Seller had been complete and accurate.

Once the Seller has accepted and agreed to the contract price provided by Freddie Mac, there is a binding commitment by Freddie Mac to purchase, and by the Seller to sell, Mortgages under the contract terms (subject to the conformity of each Mortgage to the requirements of the Purchase Documents).

(d) Specified payups for Mandatory Cash Contracts

For Mortgages with certain attributes, Sellers may be eligible to receive specified payups to standard cash pricing. The contract must be a 10-, 15-, 20- or 30-year mandatory fixed-rate contract. The cash payups are eligible for full commitment periods including extensions.

All Mortgages within the contract must meet the requirements of the payup. If a Mortgage does not meet the requirements for the applicable Cash Contract, the Seller will not be able to allocate the Mortgage to the contract.

Mortgage characteristics that are eligible for specified payups are available in Loan Selling Advisor.

Super conforming Mortgages sold under 100% super conforming Cash Contracts may be subject to price adjustments. See Chapter 4603 for special eligibility requirements for super conforming Mortgages. See Section 6302.31 for delivery requirements for fixed-rate Cash Contracts for super conforming Mortgages.

For more details go to <https://sf.freddiemac.com/working-with-us/selling-delivery/delivery-options-pricing/cash-payups>.

(e) Mandatory Cash Contract pairoffs

In the event the contract amount will not be fulfilled by delivery of Mortgages, the Seller may request a pairoff via Loan Selling Advisor or may wait until the contract expires and Loan Selling Advisor automatically calculates the pairoff fee.

The pairoff process used in Loan Selling Advisor is “two-way” and may result in either a fee due Freddie Mac from the Seller or a fee due the Seller from Freddie Mac, depending on market conditions.

The Seller may also choose to allocate Mortgages to “pair off and transfer to a new contract” (or pair off and recommit). With this functionality, the Seller may:

- Pair off part or all of a current contract
- Take out a new contract with different terms and/or a different amount
- Transfer non-funded loans to a new contract to extend the Purchase Contract Effective Period or increase the Purchase Contract amount

A pairoff fee calculated and provided by Loan Selling Advisor is non-negotiable. Freddie Mac reserves the right to amend the provisions of this section or Section 6401.1 relating to the Loan Selling Advisor pairoff process without prior notice.

(f) Mandatory Cash Contract extensions

In the event the contract amount specified in a Mandatory Cash Contract will not be fulfilled on or prior to the contract expiration date, the Seller may extend, in Loan Selling Advisor, the Mandatory Cash Contract at any time on or prior to the contract expiration date.

The Seller may extend the contract an unlimited number of times, as long as the total extension period does not exceed 30 days from the original contract expiration date.

In exchange for the contract extension, the Seller will be assessed a fee to be paid in accordance with Section 6303.2.

6101.4: Best Efforts Contracts under fixed-rate Cash (06/05/23)

(a) Offer amounts and procedures

Each Business Day, the Seller may take out a Best Effort Contract to sell a specific fixed-rate Mortgage. Freddie Mac will endeavor to announce prior to the offer day if commitments will not be available due to holidays or other reasons.

The minimum amount for an individual Best Efforts Contract is \$1,000. Freddie Mac may, at its discretion and at any time, impose a maximum contract amount for Best Efforts Cash Contracts.

Under a Best Efforts Contract, the Seller must:

- Use its best efforts to close and fund a specified Mortgage
- Sell the Mortgage to Freddie Mac, at a cash price determined by Freddie Mac, if the Mortgage with the same Borrower(s) and property address is closed and funded

The terms of the Purchase Contract are provided in Loan Selling Advisor®.

If the Mortgage specified under a Best Efforts Contract closes and funds after the Best Efforts Contract expires, the Seller remains obligated to sell the Mortgage to Freddie Mac under that same Best Efforts Contract. See Section 6101.4(c) for the impact on pricing of selling a Mortgage under a Best Efforts Contract that has expired. If despite the Seller's best efforts, the Mortgage is not closed and funded, the Seller will not be assessed a pairoff fee. However, the Seller indemnifies Freddie Mac for any and all costs and expenses incurred by Freddie Mac as a result of the Seller's failure to sell a Mortgage to Freddie Mac that is closed and funded by the Seller.

Furthermore, the Seller may not:

- Substitute a Mortgage with a different Borrower(s) or a different property address for the Mortgage specified in the Best Efforts Contract
- Take out another Best Efforts Contract or a Mandatory Cash Contract, either sequentially or at the same time, for the same Mortgage
- Take out a Best Efforts Contract with fictitious Borrower data or a fictitious property address
- Sell a Mortgage specified in a Best Efforts Contract to another investor

If the Seller fails to comply with the requirements specified above, Freddie Mac may immediately terminate the Seller's eligibility to sell under a Best Efforts Contract.

(b) Contract periods for Best Efforts Contracts

In Loan Selling Advisor, the Purchase Contract Effective Period is the period of time for which a price for eligible Mortgages provided to the Seller by Loan Selling Advisor is effective. The Seller may select a Purchase Contract Effective Period of between two and 90 days or such other time frame as permitted by Loan Selling Advisor. All of the requirements for the specified Mortgage under the contract must be completed by the Purchase Contract Expiration Date.

(c) Pricing for Best Efforts Contracts

Pricing is available in Loan Selling Advisor each Business Day at https://las.freddiemac.com/lsp_public/#/, and is based on prices Freddie Mac expects to receive in the securities market for the related UMBS® or MBS. The price also reflects the Mortgage Note Rate, the Minimum Contract Servicing Spread, the delivery period and the cost that Freddie Mac incurs for managing interest rate risk on behalf of the Seller.

Freddie Mac will update prices on active Mortgage coupons throughout the day to reflect movements in the securities market. Posted prices assume a 0.250% (25 basis point) Minimum Contract Servicing Spread and the use of the Standard Remittance Cycle.

Among other considerations, Freddie Mac will consider the Seller's success rate, under prevailing market conditions, in closing Mortgages that are allocated to Best Efforts Contracts. A Mortgage that fails to fund and close as specified in the Best Efforts Contract may adversely affect the Seller's pricing for future Best Efforts Contracts.

For Mortgages allocated to Best Efforts Contracts, if any of the characteristics change, the Seller must modify the Mortgage data. For example, if the Borrower switches from a 30-year fixed-rate Mortgage to a 15-year fixed-rate Mortgage, the Mortgage data must be modified without allocating the Mortgage to a new Best Efforts Contract. The contract will be re-priced using the prices in effect as of the date that the Seller originally accepted the Best Efforts Contract price.

In addition, if the Seller sells a Mortgage that has closed and funded after a Best Efforts Contract has expired, Freddie Mac will determine the price for that Mortgage at the time of sale.

The Seller indemnifies Freddie Mac for any and all costs and expenses incurred by Freddie Mac as a result of the Seller's sale of a Mortgage that Freddie Mac priced and purchased under a Best Efforts Contract based on incomplete and/or inaccurate Mortgage data provided by the Seller, for which Freddie Mac would have provided a different price if the Mortgage data provided by the Seller had been complete and accurate.

(d) Best Efforts Contract extensions

In the event the Mortgage specified in a Best Efforts Contract will not close prior to the contract expiration date, the Seller may extend, in Loan Selling Advisor, the Best Efforts Contract at any time prior to the contract expiration date.

The Seller may extend the contract an unlimited number of times, as long as the total extension period does not exceed 30 days from the original contract expiration date.

In exchange for the contract extension, the Seller will be assessed a fee, to be paid in accordance with Section 6303.2.

(e) Best Efforts Contract relocks

In the event the Mortgage specified in a Best Efforts Contract will not close prior to the contract expiration date, or if the Best Efforts Contract has a status of “unfulfilled” for less than or equal to 30 days either because (i) the Mortgage failed to close prior to the contract expiration date or (ii) the Mortgage was withdrawn, the Seller may relock, in Loan Selling Advisor, the Best Efforts Contract, which will be re-priced at the lower of the:

- Original accepted price minus the Best Efforts Contract relock fee, or
- Current market price minus the Best Efforts Contract relock fee

(f) Status notifications required

With respect to Mortgages sold under a Best Efforts Contract, no later than close of business on the Business Day following the day on which the Seller denies the Borrower’s Mortgage application or the Borrower exercises his/her right of rescission, the Seller must notify Freddie Mac of the change in the Mortgage application status or the rescission, as applicable, via Loan Selling Advisor (also known as “Withdraw Loan” status). Such notification must occur within the Purchase Contract Effective Period.

(g) Specified payups for Best Efforts Cash Contracts

For Mortgages with certain attributes, Sellers may be eligible to receive specified payups to standard cash pricing. The contract must be a 10-, 15-, 20- or 30-year Best Efforts fixed-rate contract. The cash payups are eligible for full commitment periods including extensions.

All Mortgages within the contract must meet the requirements of the payups. If a Mortgage does not meet the requirements for the applicable Cash Contract, the Seller will not be able to allocate the Mortgage to the contract.

Mortgage characteristics that are eligible for specified payups are available in Loan Selling Advisor.

6101.5: Purchase and settlement of Mandatory fixed-rate Cash and Best Efforts fixed-rate Cash Contracts (04/12/23)

(a) Funding Date

By the close of business on the Purchase Contract Expiration Date, the Seller must have completed all the requirements for the sale of the Mortgages to Freddie Mac. Sellers may request a specific Funding Date for each of the Mortgages sold under a Mandatory Cash or Best Efforts Contract or may elect to have funding occur as soon as practicable after the requirements for sale of the Mortgages to Freddie Mac have been met (“ASAP funding”).

(b) Funding amount

As each Mortgage funds, Freddie Mac will pay the Seller the amount calculated by multiplying the price specified in the Cash Purchase Contract by the UPB of the Mortgage.

If a Mortgage is subject to Credit Fees or credits for Credit Fees, Freddie Mac will net the fee or credit amounts against the amount paid to the Seller. Any subsequent change to Credit Fees and credits for Credit Fees will appear on the Seller’s monthly invoice.

(c) Interest paid to the Servicer in connection with Mortgage funding

In connection with the Mortgage funding, Freddie Mac will determine the amount of interest to pay the Servicer on each Mortgage by computing the interest on the UPB of the Mortgage from the first day of the Funding Date month through the day before the Funding Date using the Accounting Net Yield (ANY).

Thereafter, Freddie Mac will compensate the Servicer in an amount equal to the Servicing Spread for each Mortgage and authorizes the Servicer to retain the Servicing Spread out of the interest payments made by the Borrower and the Servicer will remit the ANY to Freddie Mac.

6101.6: Servicing options for Mandatory fixed-rate Cash and Best Efforts fixed-rate Cash Contracts (04/12/23)

(a) Servicing options

Subject to approval and conditions set by Freddie Mac, the Seller may sell fixed-rate Mortgages under Cash using one of the following Servicing options:

- **Servicing retained** — The Seller sells the Mortgage to Freddie Mac and agrees to service the Mortgages in accordance with the Guide and applicable Purchase Documents
- **Concurrent Transfer of Servicing** — The Seller sells the Mortgage to Freddie Mac and agrees to service the Mortgages in accordance with the Guide and applicable Purchase Documents and concurrently engages in a Transfer of Servicing initiated by the Seller to a Transferee Servicer with the Mortgage purchase and the Transfer of Servicing occurring on the Settlement Date. The Servicer selected by the Seller must be a Freddie Mac-approved Servicer eligible to service the particular Mortgage, and Freddie Mac must approve the Transfer of Servicing in accordance with Chapter 7101.
- **Cash-Released XChange[®]** — The Seller sells the Mortgage servicing-released in accordance with the requirements of Section 6101.7

(b) Remittance cycle

The remittance cycle that applies to Mortgages sold under a Mandatory Cash Contract or Best Efforts Contract is the Standard Remittance Cycle.

The price that the Seller receives for the Mortgages under a Mandatory Cash Contract or Best Efforts Contract will reflect the Standard Remittance Cycle.

(c) Minimum Contract Servicing Spread

The Servicing Spread applicable to any individual Mortgage delivered pursuant to a specific Purchase Contract may be greater than or equal to, but not less than, the Minimum Contract Servicing Spread selected by the Seller for that specific Purchase Contract.

The Minimum Contract Servicing Spread is selected by the Seller when taking out a Purchase Contract and is applicable to all the Mortgages delivered pursuant to that specific Purchase Contract. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread.

For fixed-rate Cash, the Minimum Contract Servicing Spread:

- Must be at least 0.250% and may not exceed 0.500% and
- Must equal 0.250% for Mortgages sold through Cash-Released XChange

For Mortgages with annual- or monthly premium lender-paid mortgage insurance, the Seller must select a Minimum Contract Servicing Spread that is sufficient to ensure that the Servicer receives the Minimum Servicing Spread plus the amount necessary to pay the mortgage insurance premium when due. Refer to Section 4701.2(b) for special eligibility requirements for Mortgages with lender-paid mortgage insurance.

6101.7: Requirements for fixed-rate Cash Contracts through Cash-Released XChange® (04/12/23)

When Mortgages are sold under a Mandatory Cash or Best Efforts Contract through Cash-Released XChange®, Freddie Mac arranges for a Transferee Servicer, as identified by Freddie Mac, to accept a Concurrent Transfer of Servicing from the Seller at the time the Seller sells the Mortgage to Freddie Mac.

The requirements applicable to the sale of Mortgages through Cash-Released XChange are set forth in this chapter and Exhibit 28A, Loan Servicing Purchase and Sale Agreement for Cash-Released XChange®. Sellers approved to sell eMortgages may sell these Mortgages through Cash-Released XChange and must comply with the requirements of Chapter 1402 and Seller's other Purchase Documents.

The Seller agrees to, and shall comply with, the terms of Exhibit 28A, which include, but are not limited to, requirements for the Seller and for each Transferee Servicer.

The price the Seller receives for the Mortgages sold servicing- released reflects the Standard Remittance Cycle. The Seller should see Section 6101.6(c) for the applicable Minimum Contract Servicing Spread.

A Seller must apply to Freddie Mac for approval and access to participate in Cash-Released XChange. If Freddie Mac determines that the Seller is eligible to participate in Cash-Released XChange, Freddie Mac will approve the Seller's use of and provide appropriate access to Cash-Released XChange. The Seller must call their Freddie Mac representative or 800-FREDDIE to inquire about the approval process.

Freddie Mac reserves the right, upon notice, (i) to limit the aggregate UPB of all Mortgages that a Seller may sell to Freddie Mac through Cash-Released XChange, (ii) to impose any additional requirements with respect to Cash-Released XChange, or (iii) to suspend or terminate the Seller's ability to sell Mortgages to Freddie Mac through Cash-Released XChange.

(a) Cash-Released XChange pricing

The price provided by Freddie Mac to the Seller under a Mandatory Cash Contract or Best Efforts Contract through Cash-Released XChange includes:

- The price offered by Freddie Mac for the purchase of the Mortgage(s), and
- The price offered by the Transferee Servicer for the Servicing Contract Rights related to each Mortgage

Prices and fees provided when the Seller enters into a Mandatory Cash Contract or a Best Efforts Contract through Cash-Released XChange are not final; instead, they are determined as of the Funding Date and reflect the Mortgage data provided by the Seller. In addition, the price will not include late fees that must be paid to Freddie Mac pursuant to Section

6101.7(h) or to the Transferee Servicer as provided in Exhibit 28A. Such additional late fees include fees for late delivery of documents to the Transferee Servicer and fees for failure to transfer or reconcile funds in a timely manner.

(b) Availability of servicing-released prices

Only fixed-rate Mortgages for which Loan Selling Advisor® provides a servicing released price may be sold servicing-released under a Mandatory Cash Contract or Best Efforts Contract. Not all Transferee Servicers will provide a bid for the assumption of Servicing Contract Rights for certain Mortgages. If no Transferee Servicer provides a bid for the assumption of Servicing Contract Rights for certain Mortgages, then Cash-Released XChange is not available for these Mortgages, which may otherwise be eligible for sale to Freddie Mac.

The Seller must supply all Mortgage data requested by Loan Selling Advisor (in the fields titled “Loan Fields Required for Pricing” and “Additional Loan Fields That Affect Pricing”) so that a Transferee Servicer may provide an accurate bid for the assignment and assumption of the Servicing Contract Rights. Failure to provide all Mortgage data requested by Loan Selling Advisor may result in a subsequent rescission of the Transferee Servicer’s bid. In that event, if there is no alternative Servicing bid and the Mortgage has been allocated to a Mandatory Cash Contract, the Seller will be subject to a pairoff fee as provided in Section 6401.1.

(c) Funding adjustments and net funding

Funding adjustments are comprised of the Escrow funds, interest adjustment, Servicing Spread, tax service fee, transaction fee and temporary subsidy buydown funds. The amount of funding adjustments will be identified on the Funding Date as follows:

- The Seller enters in Loan Selling Advisor the amounts held as Escrow funds and temporary subsidy buydown funds for each Mortgage sold servicing-released, and
- Loan Selling Advisor calculates the interest adjustment, Servicing Spread, tax service fee and transaction fee

Refer to Section 6302.26 for additional information regarding delivery requirements for Mortgages sold servicing-released under Mandatory Cash Contracts or Best Efforts Contracts.

The Seller is responsible for the accuracy of the Escrow fund amounts and temporary subsidy buydown fund amounts that the Seller submits via Loan Selling Advisor. Freddie Mac does not edit or validate these amounts. On the Funding Date, Freddie Mac will deduct the amount of the funding adjustments from the sales proceeds paid by Freddie Mac for the purchase of each Mortgage sold servicing-released. Freddie Mac will forward the deducted amount of the funding adjustments to the Transferee Servicer.

The Seller and Transferee Servicer are responsible for any reconciliation, correction or adjustment to the amount of Escrow funds or temporary subsidy buydown funds transferred to the Transferee Servicer. Freddie Mac will not adjust, calculate, refund or pay any amounts with respect to the Escrow funds or temporary subsidy buydown funds after the Funding Date.

(d) Identification of Transferee Servicers

The Seller authorizes Freddie Mac to select Freddie Mac-approved Servicers as Transferee Servicers to participate in Cash-Released XChange.

(e) Excluding Transferee Servicers

Through Loan Selling Advisor, Freddie Mac will inform the Seller of the identity of the Transferee Servicer(s) that may offer a price to assume the Seller's Servicing Contract Rights through Cash-Released XChange. The Seller has the right to exclude a Transferee Servicer from assuming the Seller's interest in the Servicing Contract Rights for Mortgages sold servicing-released.

Such exclusion will not apply to Mortgages sold servicing-released for which the Seller has already entered into a Mandatory Cash Contract or Best Efforts Contract before Seller excluded the Transferee Servicer.

When the Seller re-prices a servicing-released contract, a new bid for the assumption of the Seller's interest in the Servicing Contract Rights may be accepted. The Seller must verify the identity of the Transferee Servicer by reviewing the Contract Confirmation that will disclose the most current Transferee Servicer's bid.

If a Seller has excluded a Transferee Servicer under the first paragraph of this Section 6101.7(e), the Seller has the right to restore that Transferee Servicer's ability to assume the Seller's Servicing Contract Rights for Mortgages sold servicing-released.

(f) Authorization to disclose the Seller's identity

The Seller authorizes Freddie Mac to disclose and identify any Transferee Servicer or potential Transferee Servicer that the Seller is an eligible Seller of Mortgages and Transferor Servicer for the related Transfer of Servicing Contract Rights through Cash-Released XChange. In addition, Freddie Mac may, in its discretion, disclose the following information to any Transferee Servicer that services Mortgages that the Seller has sold to Freddie Mac through Cash-Released XChange:

- That the Seller is no longer a Freddie Mac-approved Seller/Servicer
- That the Seller is no longer eligible to sell Mortgages to Freddie Mac through Cash-Released XChange

(g) Servicer's rights to screen out the Seller

The Seller acknowledges that a Transferee Servicer may terminate the Seller's ability to transfer the Seller's Servicing Contract Rights to such Servicer at any time without notifying the Seller. The Seller will have no right of action, appeal or other recourse against Freddie Mac and releases all claims it may have against Freddie Mac and/or the Servicer in connection with such termination.

(h) Late fees

Freddie Mac may, in its sole discretion, charge the Seller a late fee of up to \$500 for each Mortgage for which the Seller fails to:

- Comply with the requirements in Section 4.2 of Exhibit 28A
- Correctly identify all funding adjustments or to reconcile with the Transferee Servicer all funding adjustments as required in Section 6101.7(c) or as required in Section 5.1 of Exhibit 28A

These late fees are in addition to any fees that the Seller may be required to pay the Servicer as provided in Exhibit 28A.

(i) Warranties

For Mortgages sold through Cash-Released XChange under a Mandatory Cash Contract or Best Efforts Contract, the Seller remains solely liable to Freddie Mac for all sale representations, covenants and warranties in the Purchase Documents (the "sale representations and warranties") of the Mortgages for which the related Servicing Contract Rights are assigned to the Transferee Servicer. The Transferee Servicer is liable to Freddie Mac for all Servicing duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities in the Purchase Documents with respect to the Mortgages related to the Concurrent Transfer of Servicing. See Section 7101.15 for liabilities with respect to Subsequent Transfers of Servicing of these Mortgages.

Freddie Mac will conduct quality control activities relating to the sale representations and warranties with the Seller. The Seller agrees that Freddie Mac may share information with the Transferee Servicer regarding the Mortgages sold to Freddie Mac servicing released including, but not limited to, quality control findings, the Seller's response to quality control findings and defect reports.

(j) Document Custody

Sellers are required to deliver the Notes for Mortgages other than eMortgages that are sold through Cash-Released XChange to a Document Custodian listed in Exhibit 43. See Section 2202.3(c) for the document custody requirements for Mortgages sold through Cash-Released

XChange. See Chapter 1402, **Directory 4** and the Seller's other Purchase Documents for the document custody requirements for eMortgages sold through Cash-Released XChange

6101.8: Pricing under Fixed-rate Cash (05/04/22)

Certain negotiated Credit Fees

Freddie Mac may, from time to time, assess certain negotiated Credit Fees. Any such pricing will be made available to the Seller on the Cash Purchase Contract loan-level fee breakdown screen in Loan Selling Advisor®.

In addition to the provisions of Section 1101.2(a)(ii), Freddie Mac may amend, supplement, revise or terminate any of the pricing or provisions implemented pursuant to this section in whole or in part, upon written notice to the Seller.

Chapter 6102: ARM Cash

6102.1: Eligible Sellers for ARM Cash (05/05/21)

In order to be eligible to sell Mortgages to Freddie Mac under ARM Cash, the Seller must have entered into Purchase Contracts with Freddie Mac.

Freddie Mac may, at its sole discretion, require Sellers to post margin in connection with transactions under this Chapter 6102. In all events, Freddie Mac shall be the sole calculation agent with respect to the required margin amount and whether the margin amount is to be posted or returned.

If Freddie Mac provides notice of a margin deficit by 10:00 a.m. Eastern time on any Business Day, the Seller shall transfer any required margin no later than the close of business on such Business Day; if such notice is received after 10:00 a.m. Eastern time on any Business Day or on a day that is not a Business Day, the Seller shall transfer such margin no later than the close of business on the next Business Day.

Approved Sellers may establish a securities trading account with Freddie Mac. For information regarding how to request approval and to establish such an account, refer to Section 6103.1.

6102.2: ARM Cash defined terms (08/03/20)

Sellers should be familiar with the definitions of the following terms as they relate to ARMs sold to Freddie Mac under ARM Cash:

- **Loan Attributes** — For ARMs sold under an ARM Cash Contract, the Loan Attributes are the Note Rate, Margin, Servicing Spread, Life Cap and Initial Period
- **Loan Level Tolerance** — For ARMs sold under an ARM Cash Contract, the Loan Level Tolerance is the range of values specified in the contract for the Loan Attributes of each ARM that may be allocated to the contract

6102.3: Eligible ARMs and purchase requirements for ARM Cash (10/01/21)

See Section 4401.5 for information regarding Initial Caps, Periodic Caps and Life Caps for ARMs sold under ARM Cash.

See Exhibit 17S, Available Mortgage Products, for more information regarding eligibility for ARMs sold under ARM Cash.

Under ARM Cash, the ARMs in a single contract may be delivered with Note Rates, Margins, Life Caps, Servicing Spreads and Initial Periods that vary within a specified range.

An Accounting Net Yield (ANY) will be calculated for each ARM delivered under an ARM Cash Contract and will be based on the individual ARM's Note Rate and Servicing Spread.

Unless specified otherwise in this chapter, the special eligibility requirements for ARMs set forth in Chapter 4401 apply to ARMs sold under ARM Cash.

Refer to Section 4401.4 for additional information about Margins for ARMs sold to Freddie Mac. Refer to Section 6102.5 for additional information about pricing for ARMs sold under ARM Cash.

6102.4: ARM Cash Contracts (12/07/20)

(a) Offer amounts and procedures

Freddie Mac will endeavor to announce prior to the offer day if commitments will not be available due to holidays or other reasons.

Contracts under ARM Cash are mandatory. Each Business Day, a Seller may take out contracts to sell ARMs under ARM Cash.

The minimum amount for each ARM Cash Contract is \$1,000. Freddie Mac may, at its discretion and at any time, impose a maximum contract amount for individual ARM Cash Contracts. The Seller may enter into multiple mandatory cash contracts but may not exceed \$200 million in aggregate fixed-rate (see Section 6101.3) and ARM commitment volume per day. The Seller may seek an exception to this amount by contacting the Cash Desk (Cash_Ex@FreddieMac.com or 571-382-5960). If this limit is exceeded without prior Freddie Mac approval, Freddie Mac may pair off the Seller's contract(s) or may require the Seller to pair off the contract(s) at the Seller's expense.

Under an ARM Cash Contract, the Seller must:

- Sell to Freddie Mac Mortgages that have an aggregate principal balance equal to the contract amount, plus or minus the greater of \$10,000 or 2.5% of the contract amount, and
- Have completed all requirements for the sale of the Mortgages by the close of business on the Purchase Contract Expiration Date

(b) Contract periods for ARM Cash Contracts

Sellers may select a Purchase Contract period of between two and 90 days or such other time frame as permitted by Loan Selling Advisor®.

Mortgages under an ARM Cash Contract may settle one at a time; however, all of the requirements for the sale of all of the Mortgages under the contract must be completed by the Purchase Contract Expiration Date.

(c) ARM Cash Contract pairoffs

In the event an ARM Cash Contract will not be fulfilled by delivery of Mortgages, the Seller may request a pairoff via Loan Selling Advisor or may wait until the contract expires and Loan Selling Advisor will automatically calculate the pairoff fee. The pairoff process used in Loan Selling Advisor is “two-way” and may result in either a fee due Freddie Mac from the Seller or a fee due the Seller from Freddie Mac, depending on market conditions. See Section 6401.1(a) for additional information regarding pairoffs of Cash Purchase Contracts.

A pairoff fee calculated and provided by Loan Selling Advisor is non-negotiable. Pairoff fees will be included in the Seller’s monthly invoice and paid as set forth in Chapter 6303. Freddie Mac reserves the right to amend the provisions of this section relating to the Loan Selling Advisor pairoff process without prior notice.

(d) ARM Cash Contract extensions

In the event the contract amount specified in a Mandatory ARM Cash Contract will not be fulfilled prior to the contract expiration date, the Seller may extend, in Loan Selling Advisor, the ARM Cash Contract at any time prior to the contract expiration date.

The Seller may extend the contract an unlimited number of times, as long as the total extension period does not exceed 30 days from the original contract expiration date.

In exchange for the contract extension, the Seller will be assessed a fee to be paid in accordance with Section 6303.2.

6102.5: Pricing under ARM Cash (05/04/22)

(a) Loan level tolerance

ARMs sold to Freddie Mac under an ARM Cash Contract may have Loan Attributes that vary within a specified range. The Loan Attributes are the:

- Life Caps
- Margin
- Note Rate

- Numbers of months to the next Interest Change Date
- Servicing Spread

When taking out an ARM Cash Contract, the Seller must provide all of the data required by Loan Selling Advisor®. Freddie Mac will use the data provided by the Seller to establish Loan Level Tolerances for each Loan Attribute.

(b) Obtaining pricing

Pricing for ARM Cash is available from Loan Selling Advisor each Business Day at https://las.freddiemac.com/lsp_public/#/. Once a Seller accepts and agrees to the contract price, the Seller may not increase the contract amount. The Seller may take out another contract to sell additional ARMs under ARM Cash.

(c) Certain negotiated Credit Fees

Freddie Mac may, from time to time, assess certain negotiated Credit Fees. Any such pricing will be made available to the Seller on the Cash Purchase Contract loan-level fee breakdown screen in Loan Selling Advisor.

In addition to the provisions of Section 1101.2(a)(ii), Freddie Mac may amend, supplement, revise or terminate any of the pricing or provisions implemented pursuant to this section in whole or in part, upon written notice to the Seller.

6102.6: Acceptance of offer under ARM Cash (08/03/20)

Except as provided in Section 1201.4(b), there is a binding commitment by Freddie Mac to purchase, and by the Seller to sell, ARMs under the contract terms (subject to conformity of each ARM to the requirements of the Purchase Documents) once the Seller has accepted and agreed to the contract price provided by Freddie Mac in Loan Selling Advisor®. The terms of the Purchase Contract are provided in Loan Selling Advisor.

6102.7: Servicing options for ARM Cash (04/12/23)

Subject to approval and conditions set by Freddie Mac, Sellers may sell ARMs under ARM Cash using the following Servicing options:

- **Servicing retained** — The Seller sells the Mortgage to Freddie Mac and agrees to service the Mortgages in accordance with the Guide and applicable Purchase Documents

- **Concurrent Transfer of Servicing** — The Seller sells the Mortgage to Freddie Mac and agrees to service the Mortgages in accordance with the Guide and applicable Purchase Documents and concurrently engages in a Transfer of Servicing initiated by a Seller to a Transferee Servicer with the purchase of the Mortgage and the Transfer of Servicing occurring on the Settlement Date. The Servicer selected by the Seller must be a Freddie Mac-approved Servicer eligible to service the particular Mortgage, and Freddie Mac must approve the Transfer of Servicing in accordance with Chapter 7101.

6102.8: Remittance cycle and Servicing Spreads for ARM Cash Contracts (08/03/20)

(a) Remittance cycle

The Standard Remittance Cycle applies to Mortgages sold under ARM Cash Contracts.

(b) Servicing Spreads

The Servicing Spread applicable to any individual Mortgage delivered pursuant to a specific Purchase Contract may be greater than or equal to, but not less than, the Minimum Contract Servicing Spread selected by the Seller for that specific Purchase Contract. The Minimum Contract Servicing Spread is referred to in Loan Selling Advisor® as servicing fee rate.

The Minimum Contract Servicing Spread is selected by the Seller when taking out a Purchase Contract and is applicable to all the Mortgages delivered pursuant to that specific Purchase Contract. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread.

When entering into an ARM Cash Contract, the Seller must select a Minimum Contract Servicing Spread for the contract that is no less than 0.250% and no greater than 0.375%. Freddie Mac will use the Minimum Contract Servicing Spread selected by the Seller to establish the acceptable Servicing Spread for ARMs allocated to the contract (Loan Level Tolerance).

6102.9: Purchase and settlement under ARM Cash Contracts (04/12/23)

(a) Funding Date

By the close of business on the Purchase Contract Expiration Date, the Seller must have completed all the requirements for the sale of the Mortgages to Freddie Mac. Sellers may request a specific Funding Date for each of the Mortgages sold under an ARM Cash Contract

or may elect to have funding occur as soon as practicable after the requirements for sale of the Mortgages to Freddie Mac have been met (“ASAP funding”).

(b) Funding amount

As each Mortgage funds, Freddie Mac will pay the Seller the amount calculated by multiplying the price (including all adjustments to price based on the ARM Loan Attributes) specified in the Cash Purchase Contract by the UPB of the Mortgage.

If a Mortgage is subject to Credit Fees or credits for Credit Fees, Freddie Mac will net the fee or credit amounts against the amount paid to the Seller. Any subsequent change to Credit Fees and credits for Credit Fees will appear on the Seller’s monthly invoice.

(c) Interest paid to the Servicer in connection with Mortgage funding

In connection with the Mortgage funding, Freddie Mac will determine the amount of interest to pay the Servicer on each ARM purchased under ARM Cash by computing the interest on the UPB of the ARM from the first day of the Funding Date month through the day before the Funding Date using the Accounting Net Yield (ANY).

Thereafter, Freddie Mac will compensate the Servicer in an amount equal to the Servicing Spread for each ARM and authorizes the Servicer to retain the Servicing Spread out of the interest payments made by the Borrower and the Servicer will remit the ANY to Freddie Mac.

Chapter 6103: Securities Trading Account

6103.1: Establishing a securities trading account with Freddie Mac (03/02/22)

A Seller may establish a trading account with Freddie Mac that allows the Seller to engage in the purchase and sale of Uniform Mortgage-Backed Securities and Freddie Mac Mortgage Participation Certificates.

To request approval to establish such an account, Sellers may email or call the Cash Window Trading Desk at cashdesk_traders@freddiemac.com, or (571) 382-3080.

Any securities trading activities are subject to the margining terms and credit limits set forth in Exhibit 102, Securities Trading Customer Agreement. Freddie Mac will be the calculation agent for purposes of determining any and all amounts payable pursuant to the terms of any margin provisions, and such determinations by Freddie Mac shall be final and binding.

Chapter 6201: Guarantor and MultiLender Swap Programs

6201.1: Summary of Guarantor and MultiLender Swap programs (06/03/19)

The provisions of this chapter set forth the terms for selling eligible Mortgages to Freddie Mac in exchange for UMBS™, MBS, Supers™ or WAC ARM PCs. Mortgages may be sold in exchange for securities through one of the following purchase programs:

- Guarantor program

- Fixed-rate Guarantor program

Conventional fixed-rate Mortgages may be sold to Freddie Mac in exchange for a UMBS or MBS representing an undivided interest in the same Mortgages. FHA/VA Mortgages may be sold to Freddie Mac in exchange for an MBS representing an undivided interest in the same Mortgages.

- WAC ARM Guarantor program

Conventional ARMs may be sold to Freddie Mac in exchange for a WAC ARM PC representing an undivided interest in the same Mortgages.

- MultiLender Swap program

Except as set forth in this Section 6201.1, conventional 15- and 30-year fixed-rate Mortgages may be sold to Freddie Mac in exchange for Supers backed by UMBS representing an undivided interest in the same Mortgages and, in some cases, Mortgages sold to Freddie Mac by one or more other Sellers.

Conventional 10- and 20-year fixed-rate Mortgages may be sold to Freddie Mac in exchange for an MBS representing an undivided interest in the same Mortgages. In addition, under the MultiLender Swap program, conventional 10-year fixed-rate Mortgages may be sold to Freddie Mac in exchange for a Supers if they are pooled together with conventional 15-year fixed-rate Mortgages, and conventional 20-year fixed-rate Mortgages may be sold to Freddie Mac in exchange for Supers if they are pooled together with conventional 30-year fixed-rate Mortgages.

The following fixed-rate Mortgages may be sold to Freddie Mac in exchange for an MBS representing an undivided interest in the same Mortgages:

- FHA/VA Mortgages

- Section 184 Native American Mortgages
- Section 502 GRH Mortgages

Delivery under the Freddie Mac Guarantor and MultiLender Swap programs is not mandatory, but delivery under Pricing Identifier Terms may be mandatory. See Section 1501.6 for further information regarding mandatory delivery requirements.

Unless the context requires otherwise:

- The term “Mortgages” used in this chapter refers to fixed-rate Mortgages and ARMs
- The phrase “Guarantor program” refers to the fixed-rate Guarantor program and the WAC ARM Guarantor program
- The requirements of this chapter apply to the Guarantor program and the MultiLender Swap program

For additional information on the Guarantor and MultiLender Swap programs, refer to the following chapters in the Guide:

Topic	Location
Fixed-rate Guarantor	Chapters 6202 and 6203
WAC ARM Guarantor	Chapters 6202 and 6204
MultiLender Swap	Chapters 6202 and 6205

Sections 6201.1(a) and 6201.1(b) summarize the types of securities issued under the Guarantor program or MultiLender Swap program. For detailed information, see Exhibit 17S, Available Mortgage Products.

For current Prefix information, contact Investor Inquiry at (800) 336-3672.

(a) Securities issued under the fixed-rate Guarantor and MultiLender Swap programs

The fixed-rate Guarantor program issues securities for pools of the following types of fixed-rate Mortgages:

- Conventional fixed-rate Mortgages with 10-, 15-, 20-, and 30-year terms
- Conventional fixed-rate Mortgages with 10- and 15-year terms may be pooled together in a 15-year security

- Conventional fixed-rate Mortgages with 20- and 30-year terms may be pooled together in a 30-year security
- FHA/VA Mortgages with 15-, 20- and 30-year terms
- FHA/VA Mortgages with 20- and 30-year terms may be pooled together in a 30-year security

The MultiLender Swap program issues securities for pools of the following types of fixed-rate Mortgages:

- Conventional fixed-rate Mortgages with 10-, 15-, 20-, and 30-year terms
- Conventional fixed-rate Mortgages with 10- and 15-year terms may be pooled together in a 15-year security
- Conventional fixed-rate Mortgages with 20- and 30-year terms may be pooled together in a 30-year security
- FHA/VA Mortgages with 15-, 20- and 30-year terms
- FHA/VA Mortgages with 20- and 30-year terms may be pooled together in a 30-year security

(b) Securities issued under the WAC ARM Guarantor program

The WAC ARM Guarantor program issues WAC ARM PCs for the eligible ARM products. Separate WAC ARM PCs will be issued based on the characteristics of the ARM. The following characteristics are used to form WAC ARM PCs:

- Index
- Lookback Period
- Initial and Periodic Caps
- Length of Initial Period
- Length of subsequent adjustment periods, and
- Whether the ARMs are subject to prepayment penalties or not

See Chapter 4401 and Exhibit 17S for detailed information on the combination of ARM characteristics that are acceptable for WAC ARM PCs.

6201.2: Sellers eligible to submit offers under the Guarantor and MultiLender Swap programs (07/12/17)

All Sellers are eligible to submit offers under the Guarantor and MultiLender Swap programs, provided that the Seller first enters into Pricing Identifier Terms with Freddie Mac. A Seller should contact its Freddie Mac Account Manager to discuss how to enter into such terms.

6201.3: Purchase requirements for Mortgages sold under the Guarantor and MultiLender Swap programs (10/01/21)

Mortgages sold to Freddie Mac under the Guarantor program and the MultiLender Swap program must meet the requirements set forth in the Purchase Documents.

(a) Fixed-rate Guarantor program

Under the fixed-rate Guarantor program, Freddie Mac will purchase fixed-rate Mortgages that have a Note Rate at least equal to the requested Coupon plus the Credit Fee in Yield (as adjusted for buyup or buydown) plus the Minimum Contract Servicing Spread.

For fixed-rate Guarantor, the Minimum Contract Servicing Spread must be at least 0.250% and for Mortgages sold under fixed-rate Guarantor the maximum Servicing Spread, may not exceed 0.500%. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread. For Mortgages with lender-paid mortgage insurance that have annual or monthly renewal premiums, the Minimum Contract Servicing Spread must be at least 0.250%, must include the amount necessary to pay the mortgage insurance premium when due and must not exceed 0.500%.

Refer to Chapter 6202 for pooling requirements for fixed-rate Mortgages under the fixed-rate Guarantor program.

(b) MultiLender Swap program

Under the MultiLender Swap program, Freddie Mac will purchase fixed-rate Mortgages that have a Note Rate (as adjusted for buyup or buydown, and inclusive of any lender-paid mortgage insurance premium) within the specified posted Note Rate range for that program.

For MultiLender Swap, the Minimum Contract Servicing Spread must be at least 0.250% and for Mortgages sold under MultiLender Swap the maximum Servicing Spread may not exceed 0.500%. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread.

Refer to Chapter 6202 for pooling requirements for fixed-rate Mortgages under the MultiLender Swap program.

(c) WAC ARM Guarantor program

Refer to Section 4401.4 for Margin requirements for SOFR-indexed ARMs.

For WAC ARM Guarantor, the Minimum Contract Servicing Spread must be at least 0.250% and may not exceed 2.00%.

For ARMs with lender-paid mortgage insurance that have annual or monthly renewal premiums, the Minimum Contract Servicing Spread must include the amount necessary to pay the mortgage insurance premium when due.

In addition, under the WAC ARM Guarantor program, the Seller selects a value for three discrete Minimum Contract Servicing Spreads:

- Minimum coupon servicing spread
- Minimum margin servicing spread
- Minimum lifetime ceiling servicing spread

Subject to the requirements below, the Seller may select the same value or a different value for any of the three discrete Minimum Contract Servicing Spreads. When the Seller selects a different value for any of the three discrete Minimum Contract Servicing Spreads, the affected ARMs are referred to as having variable servicing spreads.

■ Minimum coupon servicing spread

The minimum coupon servicing spread is the Minimum Contract Servicing Spread applicable to an ARM from the date that Freddie Mac purchases the ARM and during the period of time that the adjusted Note Rate is limited by the Initial Cap or Periodic Cap, as applicable.

The minimum coupon servicing spread may not vary by more than 0.250% from the minimum margin servicing spread and the minimum lifetime ceiling servicing spread.

■ Minimum margin servicing spread

The minimum margin servicing spread is the Minimum Contract Servicing Spread applicable to an ARM from the first time that the adjusted Note Rate is equal to the sum of the Index value plus the Margin.

The minimum margin servicing spread may not vary by more than 0.250% from the minimum coupon servicing spread and the minimum lifetime ceiling servicing spread.

- **Minimum lifetime ceiling servicing spread**

The minimum lifetime ceiling servicing spread is the Minimum Contract Servicing Spread applicable to an ARM, from the first time that the adjusted Note Rate is limited by the Lifetime Ceiling through the remaining term of the ARM.

The minimum lifetime ceiling servicing spread may not vary by more than 0.250% from the minimum coupon servicing spread and the minimum margin servicing spread.

Refer to Chapter 6202 for pooling requirements for ARMs under the WAC ARM Guarantor program.

6201.4: MultiLender Swap posting information (06/03/19)

On the first Business Day of each month, Freddie Mac will announce at https://capitalmarkets.freddiemac.com/mbs/data/FRE_Multilender_Table.txt and through various market information vendors the following information with respect to Mortgages Freddie Mac will purchase under the MultiLender Swap program:

- Mortgage term and final Settlement Dates
- WA Net Interest Rate (Coupon)
- Permissible Note Rate range
- Prefix
- Security Identifier (Pool Number)
- CUSIP Number

Freddie Mac provides information about the Gold Rush® fees assessed for use of a Settlement Cycle of less than five days at <https://sf.freddiemac.com/general/gold-rush-fees-for-accelerated-settlement-cycles-in-freddie-macs-loan-selling-advisor> and through various market information vendors. See Section 6205.4 for more information.

6201.5: Review of Mortgages for compliance with Seller's Maximum Annual Mortgage Purchase Amount (03/02/16)

If Freddie Mac has established a Maximum Annual Mortgage Purchase Amount with respect to the Seller, Freddie Mac will, after the commitment has been made, review the aggregate amount of Mortgages purchased from the Seller to date in the current calendar year. Freddie Mac, in its sole and absolute discretion, may purchase Mortgages from the Seller in an amount that exceeds the Seller's Maximum Annual Mortgage Purchase Amount or may rescind, in whole or in part, its acceptance of the Seller's offer to sell any Mortgages that will result in the Seller's exceeding its Maximum Annual Mortgage Purchase Amount. Any such rescission shall be made without the payment by Freddie Mac of any Seller claims. Freddie Mac reserves the right to charge a fee on the entire amount of any Purchase Contract that causes the Seller to exceed its Maximum Annual Mortgage Purchase Amount.

6201.6: Freddie Mac's obligation to sell UMBSTM, MBS, ARM PCs or SupersTM in exchange for Mortgages (06/03/19)

The obligation of Freddie Mac to sell UMBSTM, MBS, ARM PCs or SupersTM in exchange for Mortgages is subject to the Mortgages' eligibility for purchase, the Seller's compliance with any Maximum Annual Mortgage Purchase Amount established for the Seller and all other requirements of the Purchase Documents.

6201.7: Seller's election to sell with or without recourse under the Guarantor and MultiLender Swap programs (03/02/22)

Mortgages may be sold to Freddie Mac with or without recourse, as elected by the Seller and as set forth in the Purchase Documents.

(a) With recourse

A Seller who elects to sell Mortgages to Freddie Mac with recourse bears all risks and costs of a Borrower default, including the costs of foreclosure. Under a recourse obligation, the Seller must repurchase the Mortgage, plus accrued interest, upon completion of the foreclosure sale (or upon delivery of a deed-in-lieu of foreclosure), whether or not the Borrower retains an equity of redemption. The Seller may, at its option, repurchase any Mortgage that is 90 days delinquent in accordance with the requirements in Sections 3602.4

through 3602.6. The Seller may also, at its option, repurchase any Mortgage for which foreclosure has been initiated.

If the Seller elects to sell Mortgages to Freddie Mac with recourse, the Seller's financial ability to fulfill the required recourse obligation will be reviewed. If Freddie Mac determines that the Seller's financial condition is not sufficient to support a recourse obligation, the Seller may be required to meet additional requirements. There may be instances in which additional recourse sales from the Seller will not be allowed because of the Seller's financial condition.

In addition, if the Seller elects to sell Mortgages to Freddie Mac with recourse, Freddie Mac will monitor the Seller's continuing ability to fulfill its recourse obligations and may:

- Require that the Seller submit specific financial information relating to the Seller's ability to fulfill its recourse obligations
- Require that the Seller provide Freddie Mac with additional assurances, including guaranties, or pledges of collateral, to support recourse obligations
- Treat the Seller's failure to provide Freddie Mac with requested additional assurances as a failure to fulfill an obligation under the Purchase Documents

The Seller who elects to sell Mortgages with recourse represents and warrants to Freddie Mac that on the Date of Seller's Offer, the Seller's aggregate recourse obligations comply with all applicable federal and State regulations. The Seller should be aware that in the event of a Transfer of Servicing, the Transferee Servicer must be approved by Freddie Mac and may be subject to the same recourse obligations as the Seller of the related Mortgages.

For Mortgages sold to Freddie Mac with recourse, the Note must bear the proper endorsement for sales with recourse, as set forth in Section 6301.3.

(b) Without recourse

If the Seller elects to sell Mortgages without recourse, Freddie Mac assumes the risk of loss from Borrower defaults, subject to the terms and conditions of the Purchase Documents.

6201.8: Remittance cycles under the Guarantor and MultiLender Swap programs (05/01/19)

The Standard Remittance Cycle applies to Mortgages sold under the Guarantor and MultiLender Swap programs.

6201.9: Guarantor Pricing (05/04/22)

This section applies when a Seller's Rate Sheet (as defined below) issued through Loan Selling AdvisorSM states that the Seller is eligible to sell Mortgages to Freddie Mac through the Guarantor program or MultiLender Swap program.

(a) Defined terms

For purposes of this section, the following terms have the meanings ascribed to them below:

- (i) "Guarantor Pricing" means Credit Fees in Yield, Credit Fee in Yield Add-Ons, negotiated Credit Fee in Yield adjustments, buyup and buydown ratios, maximum buyup and maximum buydown, and/or certain negotiated Credit Fees, credits for Credit Fees and/or such other components as Freddie Mac may include from time to time
- (ii) "Pricing Day" means the day or days of the month on which Guarantor Pricing is available to the Seller in Loan Selling Advisor
- (iii) "Rate Sheet" means the Rate Sheet Results screen that is in Loan Selling Advisor and that contains the information described in Section 6201.9(b)(ii)

(b) Pricing Day and Pricing Notification

- (i) The Pricing Day will be stated on the Seller's Rate Sheet. If the Pricing Day is not a Business Day, Freddie Mac will make the Guarantor Pricing available to the Seller on the first Business Day after such Pricing Day.
- (ii) The Rate Sheet will include all applicable components of Guarantor Pricing, the Mortgage products eligible under the Rate Sheet and the applicable effective dates and Settlements Dates covered by the Rate Sheet and any applicable additional terms stated in the Business Arrangement Stipulations section of the Rate Sheet.

(c) Taking out Purchase Contracts

The Seller may take out Purchase Contracts for settlement in a particular month only after Freddie Mac has entered Guarantor Pricing on the Rate Sheet for the Purchase Contract for Settlement in such particular month.

(d) Acceptance of Guarantor Pricing

The Seller's delivery of Mortgages eligible under a Rate Sheet will be deemed to be the Seller's acceptance of the Guarantor Pricing stated in the Rate Sheet.

(e) Amendment and termination of Guarantor Pricing provisions

In addition to the provisions of Section 1101.2(a)(ii) Freddie Mac may amend, supplement, revise or terminate any of the provisions of this section including, but not limited to, establishing Guarantor Pricing for a Seller more than one time in a calendar month and changing the Guarantor Pricing provided in accordance with the above provision, in whole or in part, upon written notice to the Seller. The written notice may be in the form of new Guarantor Pricing being made available to the Seller on the Rate Sheet in Loan Selling Advisor. The effective date of changes will be stated on the revised Rate Sheet. The changes will not apply to contracts the Seller has taken out prior to the effective date of the changes.

6201.10: Buyup and buydown programs under the fixed-rate Guarantor and MultiLender Swap programs (02/06/20)

(a) Adjustments to Credit Fees in Yield

When taking out a Fixed-Rate Guarantor Contract or MultiLender Swap Contract, the Seller may request an adjustment to the Credit Fee in Yield by selecting one of the following buyup and buydown programs:

- Note-level, or
- Loan-level (if permitted under the Seller's Pricing Identifier Terms under which the Seller is taking out the Purchase Contract)

The adjustment will be based on the Note Rate, the Coupon, and the Minimum Contract Servicing Spread. For the note-level program, the Credit Fee in Yield will be adjusted in the same manner for all Mortgages with that Note Rate and remaining maturity. For the loan-level program, the Seller may select the specific Mortgages for which the Credit Fee in Yield is to be adjusted.

For purposes of this section, Credit Fee in Yield means the total Credit Fee in Yield, which consists of the Credit Fee in Yield stated on the Seller's Rate Sheet plus all applicable Credit Fee in Yield Add-Ons and negotiated Credit Fee in Yield adjustments.

(b) Selection of applicable option

For the note-level program, at the time the Seller takes out a Purchase Contract, the Seller must select one of the following options:

- Buyup and buydown
- Buydown only

- Buyup only, or
- Neither buyup nor buydown

For the loan-level program, the Seller will select the applicable option for each Mortgage at the time the Seller delivers the Mortgage. Refer to Section 6302.35 for delivery requirements for such Mortgages. If the Seller fails to deliver the required loan-level buyup and buydown ULDD Data Points for a Mortgage, the Mortgage will not be allocated to the Seller's Purchase Contract.

For both the note-level and loan-level programs, the Seller may update the specified buyup or buydown amount, as applicable, until the Purchase Contract for which the buyup or buydown amount applies is in settlement locked status.

(c) Buyup and buydown fees

In exchange for an increase to the Credit Fee in Yield (buyup) for certain Mortgages, Freddie Mac will make a cash payment to the Seller.

In exchange for a decrease in the Credit Fee in Yield (buydown) for certain Mortgages, the Seller will make a cash payment to Freddie Mac.

Buyup payments to be made to the Seller will be netted against buydown fees to be paid by the Seller and the result will be paid in accordance with the provisions relating to fees in Section 6303.2.

(d) Calculation of buyup proceeds and buydown fees

Freddie Mac will determine the amount of the increase or decrease in the Credit Fee in Yield for each Mortgage delivered based on the following information specified when taking out a Purchase Contract:

- Coupon for which the Mortgage is delivered
- Minimum Contract Servicing Spread
- Note Rate
- Credit Fee in Yield
- Buyup maximum amount

In determining the amount of any increase or decrease in the Credit Fee in Yield, Freddie Mac will use the following formula:

Note Rate	Minimum Contract Servicing Spread	Total Credit Fee in Yield	Coupon	=	Amount of increase or decrease in Credit Fee in Yield *
-----------	-----------------------------------	---------------------------	--------	---	---

* Expressed in basis points

If the result is a positive number, then the Credit Fee in Yield will be increased by the amount of that positive number, subject to the maximum buyup limit prevailing at the time the Purchase Contract is taken out. Any Mortgage with a positive number greater than the maximum buyup limit will retain a Servicing Spread greater than the Minimum Contract Servicing Spread specified at the time the Purchase Contract is taken out.

If the result is a negative number, then the Credit Fee in Yield will be decreased by the amount of that negative number, subject to the maximum buydown limit prevailing at the time the Purchase Contract is taken out, but will not be decreased to less than zero. A Note Rate must equal or exceed the Coupon plus the Credit Fee in Yield (as adjusted for the amount of the buyup or buydown) plus the Minimum Contract Servicing Spread to be accepted for purchase for the Coupon specified.

(e) Calculation of buyup and buydown fees

Buyup and buydown fees will be calculated in accordance with the following requirements:

For each basis point (0.010%) by which the Credit Fee in Yield for a Mortgage must be increased or decreased as determined by the preceding formula, a payment will be required in an amount equal to a fixed percent (expressed in basis points) of the UPB of the Mortgage. The number of basis points determined by Freddie Mac will depend on the Note Rate, the Mortgage product and whether a buyup or buydown is required.

(f) Application of buyup maximum amount for Note Rate program

Mortgages are subject to the buyup maximum amount applicable for Mortgage products as stated in the Seller's Purchase Documents. The Seller may enter a lower buyup maximum amount to be applied to the Fixed-Rate Guarantor Contract or MultiLender Swap Contract. If the Seller does not enter a value into the buyup maximum field for a Purchase Contract, Loan Selling Advisor® will apply the applicable buyup maximum amount as stated in the Seller's Purchase Documents.

(g) Buyup and buydown options under WAC ARM Guarantor program

The buyup and buy down options are not permitted under WAC ARM Guarantor program.

(h) Payment of buyup proceeds and buydown fees

All buyup proceeds and buydown fees will be paid in accordance with Section 6303.2.

Note: For general billing information, call the Customer Support Contact Center at 800-FREDDIE.

6201.11: Security wire instructions for the Guarantor and MultiLender Swap programs (06/03/19)

(a) Acknowledgment and consent to electronic transactions

In accordance with Chapter 1401, the Seller is bound by the security wire instructions it provides to Freddie Mac.

(b) Security wire verification

For information about wire transfer instructions and delivery of UMBS™, MBS, ARM PCs and Supers™, see Sections 6203.8, 6204.8, or 6205.8, as applicable.

(c) Liability

Freddie Mac is not liable for errors in the delivery of UMBS, MBS, ARM PCs or Supers, provided that Freddie Mac delivered the securities pursuant to security wire instructions that were provided by the Seller in accordance with the requirements of the Purchase Documents.

6201.12: Settlement under the Guarantor and MultiLender Swap programs (05/04/22)

As of the Settlement Date, ownership of, and (subject to the terms of any recourse obligation) risk of loss with respect to, the Mortgages being sold on the Settlement Date will pass from the Seller to Freddie Mac; and Freddie Mac will, in accordance with Section 6201.18, deliver to the Seller in Book-Entry Form the UMBS™, MBS, ARM PCs or Supers™ representing interests therein in the amount determined by Freddie Mac and verified by the Seller in the Loan Selling Advisor® “View Wire Instructions” screen.

Freddie Mac will credit or remit to the Seller on a post-settlement basis the sum of:

- An amount of interest equal to one of the following:
 - With respect to Pools and Supers Pools backed by Pools without the Note-level buyup and buydown feature, interest at the Credit Fee in Yield on the Mortgages for the period from the Issue Date to the day before the Settlement Date, inclusive

- With respect to Pools and Supers Pools backed by Pools in which the Note-level buyup and buydown feature has been used, the weighted average Credit Fee in Yield of the Mortgages in the Pool for the period from the Issue Date to the day before the Settlement Date, inclusive
- The excess, if any, of the aggregate UPB as of the Settlement Date of the Mortgages, over the aggregate original principal balance of the related UMBS, MBS, ARM PCs or Supers

The sum will be credited against any fees payable by the Seller to Freddie Mac for monthly invoiced fees, including, but not limited to, buydown fees, Gold Rush® fees and Credit Fees. If this sum exceeds post-settlement fees, a net amount is payable to the Seller. Payment of the net amount due to the Seller will be made in accordance with the Credit Fee and funding fee provisions stated in Chapter 6303.

If the Seller fails for any reason to transfer all or any portion of the Mortgages accepted for purchase by Freddie Mac, Freddie Mac will have no obligation to sell all or any portion of the UMBS, MBS, ARM PCs or Supers to the Seller. If the Seller fails for any reason to purchase all or any portion of the UMBS, MBS, ARM PCs or Supers from Freddie Mac, Freddie Mac will have no obligation to purchase all or any portion of the Mortgages from the Seller.

6201.13: Special Seller representations and warranties under the Guarantor and MultiLender Swap programs (03/02/16)

In addition to the representations and warranties made elsewhere in the Purchase Documents, the Seller represents and warrants that:

- The purchase information will be true and correct as of the related Settlement Date
- The ending principal balance shown on the Loan-Level Transaction that the Servicer transmits as of the close of the first monthly accounting reporting period following the Settlement Date is equal to the aggregate UPB of the related Mortgages
- As of the Settlement Date, the appraised value of the Mortgaged Premises is at least equal to the appraised value as of the date of the origination of such Mortgage
- For Construction Conversion and Renovation Mortgages, as of the Settlement Date, the appraised value of the Mortgaged Premises is at least equal to the appraised value as of the effective date of the most recent appraisal report

6201.14: Postsettlement adjustments for Mortgages purchased under the Guarantor and MultiLender Swap programs (06/03/19)

If, after any Settlement Date, Freddie Mac determines that the aggregate UPB, as of the Settlement Date, of the Mortgages purchased on such date (the “settlement balance”) was greater than the aggregate UPB verified for purchase (the “verified balance”) and greater than the original principal balance of the related UMBS™, MBS, ARM PC or Supers™, Freddie Mac will transfer back to the Seller ownership of the smallest number of Mortgages (“unfunded Mortgages”) having an aggregate UPB as of the Settlement Date at least equal to the excess of the settlement balance over the verified balance. If the aggregate UPB of the unfunded Mortgages transferred back to the Seller exceeds the difference between the settlement balance and the verified balance, the excess must be reported and remitted promptly by the Seller to Freddie Mac in accordance with Sections 8302.21 and 8303.18, as if such difference were a principal prepayment (Mortgage paid in full) on the related Mortgages.

Without Freddie Mac’s prior written approval, the Seller may not remedy an incorrect verified balance by offsetting any difference between the settlement balance and the verified balance against principal collections received on the Mortgages by the Seller after the Settlement Date. The amount of principal reduction reported by the Seller via the Loan-Level Transaction (or any other report developed for reporting accounting information) must, for each accounting reporting period, accurately reflect all principal collections actually received by the Seller on the verified balance plus any prepayment resulting from the transfer of unfunded Mortgages.

If, after the Settlement Date, Freddie Mac determines that the settlement balance of the Mortgages purchased on such date was less than the verified balance and less than the original principal balance of the related UMBS, MBS, ARM PC or Supers, the Seller must, at Freddie Mac’s option and within the time period and in the manner specified by Freddie Mac, either remit the amount of any such difference to Freddie Mac as a principal payment with respect to such Mortgages, or deliver additional Mortgages that would have been eligible for inclusion in the related Pool or Supers and that have an aggregate UPB at least equal to the difference between the verified balance and the settlement balance.

6201.15: UMBS™, MBS, ARM PCs, Supers™ and pool factors (06/03/19)

UMBS™ and MBS are offered for sale by Freddie Mac pursuant to the UMBS/MBS Offering Circular, and ARM PCs are offered for sale by Freddie Mac pursuant to the ARM PC Offering Circular. By entering into the Pricing Identifier Terms, the Seller acknowledges receipt of a copy of the applicable Offering Circular.

The Supers™ are offered for sale by Freddie Mac pursuant to the Supers Offering Circular. By entering into a MultiLender Swap Contract for a MultiLender Swap to exchange Mortgages for Supers, the Seller acknowledges receipt of a copy of the Supers Offering Circular.

A Seller may be identified as the Seller and/or Servicer of the Mortgages in such manner as Freddie Mac may determine, and will generally be identified on the published monthly list of pool factors for the Pools formed under the Guarantor program. Freddie Mac may, in its sole discretion, otherwise identify UMBS, MBS, ARM PCs or Supers sold pursuant to this chapter as representing interests in Pools or Supers Pools formed pursuant to the Guarantor or MultiLender Swap programs and release any information concerning the Mortgages, the UMBS, MBS, ARM PCs or the Supers.

6201.16: Disclosure requirements for UMBS™, MBS, ARM PCs and Supers™ (06/03/19)

(a) Disclosure for UMBS™, MBS and ARM PCs formed under the Guarantor program

For each Pool formed under the Guarantor program, Freddie Mac will provide a Pool Supplement on its website (www.freddiemac.com/mbs) and via a link in Loan Selling Advisor® to the Form 15 (Form 15A for UMBS™ and MBS, Form 15C for WAC ARM PCs) that contains information about the Mortgages in the Pool as of the Settlement Date. The Seller may also obtain a copy of the Pool Supplement by contacting Investor Inquiry at (800) 336-3672.

In preparing the Pool Supplement, Freddie Mac relies upon the accuracy and completeness of the Mortgage and Servicing information provided by the Seller. If the information in the Pool Supplement is inaccurate or incomplete, the Seller must immediately inform Freddie Mac and provide Freddie Mac with any corrections necessary. Neither the Seller nor any affiliate of the Seller (as affiliate is defined in Rule 405, 17 CFR SEC 230.405, promulgated under the Securities Act of 1933) may make any use of the Pool Supplement if any information contained therein is inaccurate or incomplete.

In addition to a Pool Supplement, Freddie Mac makes available on its web site and from information vendors, information about the Mortgages in the Pool that is updated on a monthly basis. Current information about information vendors may be obtained by contacting Freddie Mac (see **Directory 1**).

Seller/Servicers will also find additional information about Freddie Mac's UMBS, MBS and WAC ARM PC disclosure in Section 6202.2.

(b) Disclosure for UMBS, MBS and Supers™ formed under the MultiLender Swap program

For each Pool or Supers™ Pool formed under the MultiLender Swap program, Freddie Mac will make available on its website (www.freddiemac.com/mbs) and via a link in Loan Selling Advisor to Form 15 a Pool Supplement containing information about the Mortgages in the Pool, or a Supers Pool Supplement containing information about the UMBS underlying the Supers Pool, as of the Settlement Date. The Pool Supplement and Supers Pool Supplement are available on the first Business Day following the Securities Industry and Financial Markets Association's (SIFMA) Class D monthly securities settlement date. The Seller may also obtain a copy of the Pool Supplement and Supers Pool Supplement by contacting Investor Inquiry at (800) 336-3672.

In preparing the Pool Supplement and Supers Pool Supplement, Freddie Mac relies upon the accuracy and completeness of the Mortgage and Servicing information provided by the Seller. If the information about the Mortgages sold under the MultiLender Swap program is inaccurate or incomplete, the Seller must immediately inform Freddie Mac and provide Freddie Mac with any corrections necessary. Neither the Seller nor any affiliate of the Seller (as affiliate is defined in Rule 405, 17 CFR SEC 230.405, promulgated under the Securities Act of 1933) may make any use of the Pool Supplement or Supers Pool Supplement if any information contained therein is inaccurate or incomplete.

In addition to a Pool Supplement or Supers Pool Supplement, Freddie Mac makes available on its web site and from information vendors, information about the Mortgages in the Pool or UMBS underlying the Supers Pool that is updated on a monthly basis. Current information about information vendors may be obtained by contacting Freddie Mac (see **Directory 1**).

The aggregate information for Supers Pools formed under the MultiLender Swap program does not necessarily reflect, and may differ from, information derived from each of the Mortgages underlying each UMBS or Supers in that Supers Pool.

Seller/Servicers will find additional information about Freddie Mac's UMBS, MBS and Supers disclosure in Section 6202.2.

(c) Seller's disclosure obligations

The Seller's offer and sale of UMBS, MBS, ARM PCs and Supers must comply with all applicable federal securities laws and Freddie Mac requirements. If the Seller or an affiliate of the Seller offers for sale or sells any such security, the Seller must deliver to each person to whom the offer or sale is made, not later than the time a contract of sale is executed, all of the following:

- A copy of the most recent UMBS/MBS Offering Circular, ARM PC Offering Circular or Supers Offering Circular, as applicable, including any supplements in effect at the time of the related offer or sale
- Any applicable Pool Supplement or Supers Pool Supplement, and

- Any Additional Supplement required by applicable federal securities laws or by Section 6201.16(d)

If securities are sold to investment bankers, brokers, dealers or other entities for distribution, the Seller must assure that these entities will send or deliver such documents to investors before or with the confirmation of sale.

(d) Seller's obligations for Additional Supplements

In connection with the sale of Mortgages to Freddie Mac, the Seller must inform Freddie Mac in writing if any related offering materials, including the UMBS/MBS Offering Circular, ARM PC Offering Circular or Supers Offering Circular:

- Contain an untrue statement of a material fact, or
- Fail to state a material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading

Such information may obligate the Seller to prepare an Additional Supplement for the Pool or Supers Pool. (The Seller will provide such information in the Additional Supplement and only such information as is agreed between the Seller and Freddie Mac.)

(e) Other information provided by the Seller

The information provided in the Pool Supplement and any Additional Supplement or Supers Pool Supplement is the only information about a UMBS, MBS, ARM PC or Supers or the Mortgages in the related Pool or Supers Pool that the Seller can disclose to the public.

In no event may the Seller make available to any third party information regarding principal paydowns on the Mortgages or pool factors, except as have been made available to the public by Freddie Mac. To make available to any third party any other information with respect to the Mortgages that is not made publicly available by Freddie Mac, the Seller must first obtain Freddie Mac's consent by contacting Investor Inquiry at (800) 336-3672.

After obtaining Freddie Mac's consent, the Seller must provide such information to the third party in writing, and the information must include, on the first page in distinguishing typeface, a statement that the information has been prepared by the Seller and that Freddie Mac is not responsible for the accuracy or completeness of the information. Within one Business Day after the writing is first made available by the Seller to any third party, the Seller must provide a copy of it to Freddie Mac, together with the date the writing was first made available and the Seller's name, address and telephone number, at the following address:

FREDDIE MAC
1551 PARK RUN DRIVE
ATTN OFFICE OF THE REGISTRAR
MCLEAN, VA 22102

The information received from the Seller may be made available by Freddie Mac to any person upon request.

6201.17: Indemnification for liability relating to Seller's sale of UMBS™, MBS, ARM PCs and Supers™ (06/03/19)

The Seller must indemnify and hold Freddie Mac, its directors, officers, employees, successors, assigns and fiscal and transfer agents harmless from and against any and all losses, damages, claims, demands, actions, suits or liabilities, joint or several, to which Freddie Mac may become subject and shall reimburse Freddie Mac for any legal or other expenses reasonably incurred by Freddie Mac in connection with investigating or defending any such loss, damage, claim, demand, suit, liability or action in respect thereof, insofar as such losses, claims, damages, demands, suits, liabilities or actions arise out of or are based upon:

- Any untrue statement or alleged untrue statement of a material fact made or contained in any offering materials (other than the applicable UMBS/MBS Offering Circular, ARM PC Offering Circular or Supers Offering Circular) used by the Seller or its underwriters or agents in connection with any public or private offering or sale of any UMBS, MBS, ARM PCs or Supers, or
- Any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, or
- Any other act or failure to act by the Seller or its underwriters or agents in connection with any such sale or offering, including without limitation, a breach of any of the terms or conditions contained in Section 6201.16 or a breach of any warranty or representation made by the Seller pursuant to Section 6201.16

6201.18: UMBS™, MBS, ARM PC and Supers™ delivery (06/03/19)

Subject to the provisions of this Section 6201.18, Freddie Mac will deposit the UMBS™, MBS, ARM PCs and Supers™ in accordance with the instructions the Seller specifies on the applicable screens in Loan Selling Advisor®.

With respect to Mortgages sold under the Guarantor and MultiLender Swap Program, the Seller must complete all applicable delivery information and indicate the depository institutions and beneficiaries in whose accounts the UMBS, MBS, ARM PCs or Supers issued in Book-Entry Form must be deposited.

The Seller is responsible for assigning and managing its wire instructions for Mortgages sold under the Guarantor and MultiLender Swap Program. For information regarding security wire instructions, see Sections 6203.8, 6204.8 and 6205.8.

For all Mortgages sold to Freddie Mac under the Guarantor Program and MultiLender Swap Program, the Seller agrees to indemnify and hold harmless Freddie Mac, its successors, assigns, fiscal and transfer agents, from and against any and all claims, damages, liabilities, losses, demands, actions, suits, costs and expenses, joint and several, of every nature and character as the same may arise or be made against or be incurred by any of them, as a result of their deposit of any UMBS, MBS, ARM PC or Supers to any account, if such security is deposited in accordance with the Seller's security wire instructions, as entered on the applicable screens in Loan Selling Advisor.

With respect to the delivery instructions provided by the Seller, all UMBS, MBS, ARM PCs and Supers will be deposited in the accounts of the beneficiaries in Book-Entry Form.

6201.19: Freddie Mac remedies for Seller's breach of representations and warranties relating to securitized loans (06/03/19)

If the Seller breaches any representation or warranty made pursuant to this chapter or any of the purchase information is found to be incorrect, Freddie Mac may at its option:

- Rescind the transaction
- Require the Seller to repurchase any UMBSTM, MBS, ARM PCs or SupersTM that have been sold by the Seller
- Retain any fees otherwise refundable to the Seller pursuant to the Purchase Documents
- Require the Seller to take such other action as may be necessary or appropriate at Freddie Mac's sole discretion to remedy such breach or to cause the relevant Pool or Supers Pool to conform to the terms of the purchase information

The remedies set forth in this chapter are in addition to any remedies otherwise provided for in the Purchase Documents or available under applicable law including, without limitation, Freddie Mac's right to require repurchase or substitution of any Mortgage.

In addition to Freddie Mac's other remedies under this Guide, the breach by the Seller of any representation, warranty or agreement contained in this Guide will constitute grounds for suspension of the Seller's eligibility to sell Mortgages to Freddie Mac as provided in Chapter 2301.

Chapter 6202: Freddie Mac Swap Disclosure and Pooling Requirements

6202.1: Freddie Mac Swap disclosure and pooling requirements (07/01/19)

This chapter sets forth the pooling and disclosure requirements to ensure that eligible Mortgages delivered to Freddie Mac under the Guarantor and MultiLender Swap programs are pooled in a manner that promotes homogeneity and disclosure transparency.

Refer to:

- Section 6201.3 for Servicing Spread requirements
- Chapter 6201 for the terms under which the Seller may sell eligible Mortgages to Freddie Mac in exchange for UMBS®, MBS, ARM PCs or Supers®
- Chapter 6302 for specific delivery requirements
- Chapter 4401 for specific eligibility requirements for ARMs and Section 6302.7 for specific ARM delivery requirements

(a) Fixed-rate Guarantor program

Each UMBS or MBS Pool issued under the fixed-rate Guarantor program must consist of Mortgages acquired from a single Seller in exchange for a UMBS or MBS Pool representing an undivided interest in the same Mortgages. UMBS or MBS bear interest at the applicable Coupon and have an original principal balance rounded down to the nearest dollar.

In addition to selling Mortgages in exchange for UMBS or MBS with Coupons that are evenly divisible by 0.5%, a Seller may sell 15- and 30-year fixed-rate Mortgages in exchange for MBS with Coupons not divisible by 0.5%, provided that before selling such Mortgages to Freddie Mac, the Seller must obtain Freddie Mac's written approval by contacting its Freddie Mac representative or the Customer Support Contact Center at 800-FREDDIE.

(b) MultiLender Swap program

Each UMBS or MBS Pool issued under the MultiLender Swap program must consist of fixed-rate Mortgages that Freddie Mac has acquired from one or more Sellers.

Each Supers Pool issued under the MultiLender Swap program must consist of one or more UMBS representing an undivided interest in the fixed-rate Mortgages exchanged for those

UMBS. UMBS and Supers bear interest at the applicable Coupon and have an original principal balance rounded down to the nearest dollar.

(c) WAC ARM Guarantor program

Each WAC ARM PC Pool issued under the WAC ARM Guarantor program consists of ARMs acquired from a single Seller in exchange for a Pool that represents an undivided interest in the same Mortgages.

6202.2: Freddie Mac UMBS®, MBS, Supers® and WAC ARM PC disclosure (06/03/19)

(a) UMBS® and MBS disclosure

Freddie Mac's UMBS and MBS disclosure includes, in addition to the UMBS/MBS Offering Circular, original Pool level information, which is current information as of the Issue Date. UMBS or MBS Pool level information is updated monthly to reflect the Mortgages in a UMBS or MBS Pool paying off. The monthly updates for the UMBS or MBS Pool level information may be accessed at <http://www.freddiemac.com/mbs>.

Freddie Mac provides loan level information for each of the Mortgages backing Freddie Mac UMBS or MBS based on information furnished by the Sellers for Mortgages in a pool issued in December 2005 and later; the loan level information may be accessed at <http://www.freddiemac.com/mbs>.

For pools requiring Additional Supplements, Freddie Mac will post Additional Supplements on its website and can furnish them upon request for the convenience of investors.

For a complete listing and description of the disclosure data for UMBS or MBS that Freddie Mac provides for eligible fixed-rate Mortgages delivered to Freddie Mac under the Guarantor or, in certain cases, MultiLender Swap program, refer to the Disclosure Guide at http://www.freddiemac.com/mbs/docs/disclosure_guide.pdf.

(b) Supers® disclosure

Freddie Mac's Supers disclosure includes, in addition to the Supers Offering Circular and any related supplements, a pool supplement for each Supers Pool, available on the first Business Day following its Issue Date, that identifies the underlying Pools and/or Supers Pools. This aggregated information does not necessarily reflect, and may differ from, information derived from each of the Mortgages underlying each UMBS or Supers in the Supers Pool.

For a complete listing and description of the disclosure data for Supers, in addition to Pool Numbers and outstanding principal balances that Freddie Mac provides for the UMBS and

Supers that are backed by eligible fixed-rate Mortgages delivered to Freddie Mac, refer to the Disclosure Guide at http://www.freddiemac.com/mbs/docs/disclosure_guide.pdf.

(c) WAC ARM PC disclosure

Freddie Mac's WAC ARM PC disclosure includes, in addition to the ARM PC Offering Circular, original WAC ARM PC Pool level information, which is current information as of the Issue Date. Unless otherwise indicated below, WAC ARM PC Pool level information is updated monthly to reflect the Mortgages in a WAC ARM PC Pool paying off. The monthly updates for the WAC ARM PC Pool level information may be accessed at <http://www.freddiemac.com/mbs>.

Freddie Mac provides loan level information for each of the Mortgages backing Freddie Mac WAC ARM PCs based on information furnished by the Sellers for Mortgages in a pool issued in December 2005 and later; the loan level information may be accessed at <http://www.freddiemac.com/mbs>.

For pools requiring Additional Supplements, Freddie Mac will post Additional Supplements on its website and can furnish them upon request for the convenience of investors.

For a complete listing and description of the disclosure data for WAC ARM PCs that Freddie Mac provides for eligible adjustable-rate Mortgages delivered to Freddie Mac under the WAC ARM Guarantor program, refer to the Disclosure Guide at http://www.freddiemac.com/mbs/docs/disclosure_guide.pdf.

6202.3: Pooling requirements for UMBS® and MBS Pools and Supers® Pools (05/03/23)

This section outlines the pooling and disclosure requirements related to issuing UMBS® and MBS under the fixed-rate Guarantor program and UMBS, MBS and Supers® under the MultiLender Swap program.

(a) Term requirements

■ 30-year UMBS or MBS Pool and 30-year Supers Pool

The underlying fixed-rate Mortgages in each 30-year UMBS and MBS Pool and 30-year Supers Pool must have original terms greater than 15 years (180 months), but not exceeding 30 years (360 months). For example, 20-year (240-month) fixed-rate Mortgages may be pooled with 30-year (360-month) fixed-rate Mortgages, without limit.

■ 20-year UMBS or MBS Pool

The underlying fixed-rate Mortgages in each 20-year UMBS and MBS Pool must have an original term greater than 15 years (180 months), but not exceeding 20 years (240 months).

- **15-year UMBS or MBS Pool and 15-year Supers Pool**

The underlying fixed-rate Mortgages in each 15-year UMBS and MBS Pool and 15-year Supers Pool must have original terms greater than 84 months, but not exceeding 15 years (180 months). For example, 10-year (120-month) fixed-rate Mortgages may be pooled with 15-year (180-month) fixed-rate Mortgages, without limit.

- **10-year UMBS Pool**

The underlying fixed-rate Mortgages in each 10-year UMBS Pool must have an original term greater than 84 months, but not exceeding 10 years (120 months).

(b) Final pool maturity at issuance for UMBS and Supers

The following requirements apply to Freddie Mac UMBS and Supers:

- The final maturity of a 30-year Freddie Mac UMBS and Supers must be greater than 15 years and one month at issuance
- The final maturity of a 30-year Freddie Mac UMBS and Supers shall not exceed 361 months
- The final maturity of a 15-year Freddie Mac UMBS and Supers shall not exceed 181 months

(c) Minimum pool size requirements

- **UMBS or MBS Pool**

The underlying fixed-rate Mortgages in each UMBS and MBS Pool must have an aggregate UPB of at least \$1,000,000. The minimum dollar amount for a commitment entered into under the MultiLender Swap program is \$1,000.

- **Supers Pool**

The minimum dollar amount for a commitment entered into under the MultiLender Swap program is \$1,000. The underlying fixed-rate Mortgages in each Supers Pool must have an aggregate UPB of at least \$1,000,000.

(d) Note Rate requirements

- **Fixed-rate Guarantor program**

The underlying fixed-rate Mortgages in each UMBS or MBS Pool must have Note Rates no less than 25 basis points above the Coupon, but no greater than 112.5 basis points above the Coupon.

- **MultiLender Swap program**

The underlying fixed-rate Mortgages delivered in each UMBS, MBS or Supers Pool under the MultiLender Swap program must have Note Rates no less than 25 basis points above the posted Coupon, but no greater than 112.5 basis points above the posted Coupon.

(e) Requirements for fixed-rate Mortgages with special characteristics

The underlying Mortgages in each MBS Pool or MultiLender Swap delivery must have the same characteristics and features. Note that certain Mortgage types are not eligible for the MultiLender Swap program. In addition, unless otherwise noted, the Mortgage types listed below may not be included in a UMBS Pool.

The following are the pooling and disclosure requirements for fixed-rate Mortgages with special characteristics:

(i) FHA/VA Mortgages

The underlying Mortgages in each FHA/VA MBS Pool must be FHA/VA Mortgages, Section 184 Native American Mortgages or Section 502 GRH Mortgages.

Refer to Section 4205.4 for FHA/VA Mortgage eligibility requirements.

(ii) Section 184 Native American Mortgages

Section 184 Native American Mortgages must be pooled in an FHA/VA MBS Pool. The underlying Mortgages in each FHA/VA MBS Pool must be FHA/VA Mortgages, Section 184 Native American Mortgages or Section 502 GRH Mortgages.

Refer to Section 4205.3 for Section 184 Native American Mortgage eligibility requirements.

(iii) Section 502 GRH Mortgages

All Section 502 GRH Mortgages must be pooled in an FHA/VA MBS Pool. The underlying Mortgages in each FHA/VA MBS Pool must be FHA/VA Mortgages, Section 184 Native American Mortgages or Section 502 GRH Mortgages.

Refer to Section 4205.1 for Section 502 GRH Mortgage eligibility requirements.

(iv) Relocation Mortgages

If a fixed-rate Mortgage complies with the definition set forth below, the Mortgage must be sold to Freddie Mac as a relocation Mortgage in accordance with the terms of this section.

A relocation Mortgage is an owner-occupied purchase money Mortgage, originated pursuant to an established employee relocation program, administered by the employer (or its agent), where the employer relocates employees as part of its normal course of business.

Under the fixed-rate Guarantor program (UMBS), the aggregate UPB of all relocation Mortgages may not exceed 10% of the aggregate UPB of all Mortgages in the applicable UMBS Pool. If the UMBS Pool also includes Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents), the aggregate UPB of all relocation Mortgages, Extended Buydown Mortgages and Cooperative Share Loans (if permitted under the Seller's Purchase Documents) may not exceed 15% of the aggregate UPB of all Mortgages in the applicable UMBS Pool.

Under the fixed-rate Guarantor program (MBS), on a negotiated basis, the Seller may deliver MBS Pools that consist entirely of fixed-rate relocation Mortgages. The Seller should contact its Freddie Mac Account Manager for specific eligibility requirements.

Under the MultiLender Swap program, the aggregate UPB of all relocation Mortgages included in any delivery of Mortgages may not exceed 10% of the aggregate UPB of all Mortgages in that delivery. If the delivery also includes Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents), the aggregate UPB of all relocation Mortgages, Extended Buydown Mortgages and Cooperative Share Loans (if permitted under the Seller's Purchase Documents) may not exceed 15% of the aggregate UPB of all Mortgages in that delivery.

(v) Extended Buydown Mortgages

Under the Guarantor program (UMBS), the aggregate UPB of all Extended Buydown Mortgages may not exceed 10% of the aggregate UPB of all Mortgages in the applicable UMBS Pool. If the UMBS Pool also includes relocation Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents), the aggregate UPB of all Extended Buydown Mortgages, relocation Mortgages and Cooperative Share Loans (if permitted under the Seller's Purchase Documents) may not exceed 15% of the aggregate UPB of all Mortgages in the applicable UMBS Pool.

Under the MultiLender Swap program, the aggregate UPB of all Extended Buydown Mortgages included in any delivery of Mortgages may not exceed 10% of the aggregate UPB of all Mortgages in that delivery. If the delivery also includes relocation Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents), the aggregate UPB of all Extended Buydown Mortgages, relocation Mortgages and

Cooperative Share Loans (if permitted under the Seller's Purchase Documents) may not exceed 15% of the aggregate UPB of all Mortgages in that delivery.

Refer to Section 4204.4 for Extended Buydown Mortgage eligibility requirements.

(vi) Super conforming Mortgages

Under the fixed-rate Guarantor program (UMBS):

UMBS Pools may include both super conforming fixed-rate Mortgages and conforming fixed-rate Mortgages, subject to the following:

- For deliveries into 15-, 20-, and 30-year conforming UMBS, the aggregate UPB of all 15-, 20-, and/or 30-year fixed-rate super conforming Mortgages may not exceed 10% of the aggregate UPB of all fixed-rate Mortgages in the applicable UMBS Pool. If the UMBS Pool also includes relocation Mortgages, Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents), then relocation Mortgages, Extended Buydown Mortgages and Cooperative Share Loans (if permitted under the Seller's Purchase Documents) each may not comprise more than 10% of the UPB of all Mortgages in the UMBS Pool; provided, however, the aggregate UPB of all relocation Mortgages, Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents) combined may not exceed 15% of the aggregate UPB of all Mortgages in the applicable UMBS Pool. Thus, for each UMBS Pool, the aggregate UPB of super conforming Mortgages may not exceed 10%, and the aggregate UPB of relocation Mortgages, Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents) combined may not exceed 15% of the UPB of the UMBS Pool, or

Under the fixed-rate Guarantor program (MBS)

- On a negotiated basis, for deliveries into 15-, 20-, and 30-year super conforming MBS Pools, the aggregate UPB of all 15-, 20-, and/or 30-year fixed-rate super conforming Mortgages may be any percentage up to and including 100% of the aggregate UPB of all Mortgages in the applicable MBS Pool

For super conforming Mortgages with LTV ratios greater than 105%, the pooling and delivery requirements relating to Enhanced Relief Refinance Mortgages® set forth in Section 6302.40 apply.

Under the MultiLender Swap program:

Supers Pools may include both super conforming fixed-rate Mortgages and fixed-rate Mortgages, subject to the following:

- For deliveries into 15-, 20-, and 30-year UMBS Pools and Supers Pools issued under the MultiLender Swap program, the aggregate UPB of all fixed-rate super conforming Mortgages included in any delivery of Mortgages may not exceed 10% of the aggregate UPB of all Mortgages in that delivery. If the delivery also includes relocation Mortgages, Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents), then relocation Mortgages, Extended Buydown Mortgages and Cooperative Share Loans (if permitted under the Seller's Purchase Documents) each may not comprise more than 10% of the UPB of all Mortgages in the delivery; provided, however, the aggregate UPB of all relocation Mortgages, Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents) combined may not exceed 15% of the aggregate UPB of all Mortgages in that delivery. Thus, for each delivery, the aggregate UPB of super conforming Mortgages may not exceed 10%, and the aggregate UPB of relocation Mortgages, Extended Buydown Mortgages and/or Cooperative Share Loans (if permitted under the Seller's Purchase Documents) combined may not exceed 15% of the aggregate UPB of all Mortgages in that delivery, or
- On a negotiated basis, for deliveries into 15-, 20-, and 30-year super conforming MBS Pools issued under the MultiLender Swap program, the aggregate UPB of all 15-, 20-, and/or 30-year fixed-rate super conforming Mortgages may be any percentage up to and including 100% of the aggregate UPB of all Mortgages in the applicable pool

Refer to Chapter 4603 for super conforming Mortgage eligibility requirements.

(vii) Cooperative Share Loans

Under the Guarantor program (UMBS), the aggregate UPB of all fixed-rate Cooperative Share Loans may not exceed 10% of the aggregate UPB of all Mortgages and Cooperative Share Loans in the applicable UMBS Pool. If the UMBS Pool also includes relocation Mortgages and/or Extended Buydown Mortgages, the aggregate UPB of any Cooperative Share Loans and/or Relocation Mortgages and/or Extended Buydown Mortgages may not exceed 15% of the aggregate UPB of all Mortgages and Cooperative Share Loans in the applicable UMBS Pool.

Under the fixed-rate Guarantor program (MBS), on a negotiated basis, the Seller may deliver MBS Pools that consist entirely of fixed-rate Cooperative Share Loans. The Seller should contact its Freddie Mac Account Manager for specific eligibility requirements.

Under the MultiLender Swap program, the aggregate UPB of all fixed-rate Cooperative Share Loans included in any delivery of Cooperative Share Loans may not exceed 10% of the aggregate UPB of all Mortgages and Cooperative Share Loans in that delivery. If the delivery also includes relocation Mortgages and/or Extended Buydown Mortgages, the aggregate UPB of any Cooperative Share Loans and/or Relocation Mortgages and/or Extended Buydown Mortgages may not exceed 15% of the aggregate UPB of all Mortgages in that delivery.

Refer to Chapter 5705 for Cooperative Share Loan eligibility requirements.

6202.4: Pooling requirements for WAC ARM PC Pools (10/01/21)

This section outlines the pooling and disclosure requirements related to issuing WAC ARM PCs under the WAC ARM Guarantor program. ARMs may not be sold under the MultiLender Swap program.

(a) Term requirements

The underlying ARMs in each WAC ARM PC Pool must have an original term of 30 years (360 months) or less. For example, a 15-year (180-month) term ARM may be pooled with a 30-year (360-month) term ARM.

Refer to Section 4201.4 for original maturity requirements for Mortgages.

(b) Minimum pool size requirements

The underlying ARMs in each WAC ARM PC Pool must have an aggregate UPB of at least \$500,000.

(c) Note Rate requirements

The underlying ARMs in each WAC ARM PC Pool may have different Note Rates.

(d) Margin requirements

The underlying ARMs in each WAC ARM PC Pool may have different Margins.

(e) Lifetime Ceiling requirements

The underlying ARMs in each WAC ARM PC Pool may have different Lifetime Ceilings.

(f) Minimum Contract Servicing Spread requirements

Refer to Section 6201.3(c) for Servicing Spread requirements.

(g) Index requirements

The underlying ARMs in each WAC ARM PC Pool must adjust based on the same Index.

Refer to Section 4401.3 for the ARM Indices descriptions applicable to each eligible ARM product.

(h) Lookback Period requirements

The underlying ARMs in each WAC ARM PC Pool must have the same Lookback Period.

Refer to Section 4401.3 for the Lookback Period applicable to each eligible ARM product.

(i) Initial Period requirements

The underlying ARMs in each WAC ARM PC Pool must have the same Initial Period. For example, 3/6-Month ARMs may only be pooled with other 3/6-Month ARMs.

Refer to Section 4401.2 for the Initial Period applicable to each eligible ARM product.

(j) Periodic adjustments

The Initial Period of an ARM is followed by subsequent Note Rate adjustments that occur on a periodic basis. The underlying ARMs in each WAC ARM PC Pool must have the same time interval between subsequent periodic adjustments.

Refer to Section 4401.2 for the periodic adjustments applicable to each eligible ARM product.

(k) Note Rate adjustment cap requirements

(i) Initial Cap

The underlying ARMs in each WAC ARM PC Pool must have the same Initial Cap.

(ii) Periodic Cap

The underlying ARMs in each WAC ARM PC Pool must have the same Periodic Cap.

(iii) Life Cap

The underlying ARMs in each WAC ARM PC Pool may have different Life Caps.

Refer to Exhibit 17S, Available Mortgage Products, for the specific Note Rate adjustment caps for each eligible ARM product.

(l) Assumability feature requirements

The underlying ARMs in each WAC ARM PC Pool must be assumable but may have different assumability features.

Refer to Section 4101.10 for the specific assumability feature for each eligible ARM product. Refer to Section 4101.10 for a description of due-on-sale provisions.

(m) Pooling requirements for ARMs with special characteristics

The underlying Mortgages in each WAC ARM PC Pool must have the same characteristics and features.

The following are the pooling and disclosure requirements for ARMs with special characteristics:

- Under the WAC ARM Guarantor program, the aggregate UPB of all Extended Buydown Mortgages may not exceed 10% of the aggregate UPB of all the Mortgages in the applicable WAC ARM PC Pool
- Refer to Section 6302.18 for the delivery requirements for Extended Buydown Mortgages. Refer to Section 4204.4 for Extended Buydown Mortgage eligibility requirements

Chapter 6203: Sale of Mortgages through Loan Selling Advisor® under Fixed-Rate Guarantor Program

6203.1: Eligible Sellers for the fixed-rate Guarantor program through Loan Selling Advisor® (12/11/17)

In addition to meeting the requirements of Chapter 6201, the Seller must receive access to the fixed-rate Guarantor program functionality in Loan Selling Advisor® from Freddie Mac before the Seller can submit offers under the fixed-rate Guarantor program (see Section 2403.1).

6203.2: Eligible Mortgages sold through Loan Selling Advisor® under the fixed-rate Guarantor program (12/11/17)

Freddie Mac will purchase fixed-rate Mortgages under the fixed-rate Guarantor program.

See Exhibit 17S, Available Mortgage Products, for more information regarding eligibility and coding requirements for fixed-rate Mortgages sold under the fixed-rate Guarantor program.

6203.3: Purchase requirements for Mortgages sold through Loan Selling Advisor® under the fixed-rate Guarantor program (06/03/19)

Freddie Mac will purchase eligible fixed-rate Mortgages that meet the requirements of the Purchase Documents under the fixed-rate Guarantor program. The eligible Mortgages must have a Note Rate at least equal to the requested Coupon plus the Credit Fee in Yield (as adjusted for buyup or buydown) plus the Minimum Contract Servicing Spread, which for Mortgages with annual or monthly premium lender-paid mortgage insurance must be at least 0.250%, must include the amount necessary to pay the lender-paid mortgage insurance premium when due and must not exceed 0.500%.

Unless specified otherwise in this chapter, the provisions set forth in Chapter 6201 regarding the fixed-rate Guarantor program and the applicable provisions set forth in Chapter 6202 regarding Freddie Mac swap disclosure and pooling requirements for fixed-rate Mortgages under the fixed-rate Guarantor program apply to Mortgages sold to Freddie Mac under the fixed-rate Guarantor program.

6203.4: Offer procedures/amounts/optional delivery/contract cancelation for Fixed-Rate Guarantor Contracts (12/05/22)

The Seller may take out one or more Fixed-Rate Guarantor Contracts each Business Day. When taking out a Fixed-Rate Guarantor Contract, the information that the Seller must provide includes, but is not limited to, the Settlement Date and the Settlement Cycle:

- The Seller must select a Settlement Date that is a Business Day on or before the latest Settlement Date associated with the applicable Pricing Identifier (i.e., the Pricing Identifier Expiration Date)
- The Seller must select a 2, 3-, 4- or 5-day Settlement Cycle or for early pool disclosure select a 6- to 15-day Settlement Cycle

The Seller may change the Settlement Date as follows:

- If the Settlement Cycle has not commenced, the Seller may change the Settlement Date to a Business Day in the same month or another month provided that the new Settlement Date is on or before the latest Settlement Date associated with the applicable Pricing Identifier. It is also possible to change the Final Delivery Date.
- If the Settlement Cycle has commenced, the Seller may change the Settlement Date to a later Business Day in the same month provided that the new Settlement Date is on or before the latest Settlement Date associated with the applicable Pricing Identifier. The Final Delivery Date cannot change.

For Sellers that have selected a 6- to 15-day Settlement Cycle, Mortgage(s) may be removed from the early pool disclosure contract due to the Mortgage(s) being paid if the Settlement Cycle has commenced and the removal occurs 48 hours prior to the Settlement Date. Sellers must still meet the requirements of Chapter 6202 if any Mortgages are removed. To submit a request for a Mortgage to be removed, Sellers should contact the Customer Support Contact Center at 800-FREDDIE.

If the Seller selects a 2, 3- or 4-day Settlement Cycle, the Seller will be assessed a Gold Rush® fee, to be paid in accordance with Section 6303.2.

Gold Rush fee rates are:

- Expressed in basis points
- Applied to the aggregate UPB of the Mortgages allocated to a Fixed-Rate Guarantor Contract funded by Freddie Mac on the requested Settlement Date
- Subject to change on a monthly basis

- Posted at the following website:
<https://sf.freddiemac.com/general/gold-rush-fees-for-accelerated-settlement-cycles-in-freddie-macs-loan-selling-advisor>

Refer to Section 6202.3 for minimum pool amount requirements for UMBS™ and MBS.

Delivery under a Fixed-Rate Guarantor Contract is optional. The Seller may cancel a Fixed-Rate Guarantor Contract in Loan Selling Advisor® until 8:00 p.m. Eastern time on the Business Day immediately preceding the Settlement Date.

6203.5: Purchase and sale obligations and Commitment Amounts for Fixed-Rate Guarantor Contracts (12/11/17)

(a) Purchase and sale obligations

The Seller makes an offer to sell Mortgages to Freddie Mac when the Seller enters the required data into Loan Selling Advisor® to take out a Fixed-Rate Guarantor Contract. A binding contract is created when the Seller accepts the Fixed-Rate Guarantor Contract's terms and conditions made available to the Seller by Freddie Mac.

(b) Commitment Amounts

The Seller must monitor the aggregate UPB of all Mortgages the Seller delivers to Freddie Mac under Pricing Identifier Terms to ensure that the Commitment Amount tolerance is not exceeded.

6203.6: Providing data for Mortgages sold through Loan Selling Advisor® under the fixed-rate Guarantor program (12/11/17)

The Seller must provide the data for all loans sold under the Guarantor program by:

- Importing the required data into Loan Selling Advisor® or
- Importing the relevant Loan Product Advisor® loan data, based on the Key Number, into Loan Selling Advisor, or
- Manually entering the loan data for each Mortgage into Loan Selling Advisor

The Seller must then allocate those loans to a Fixed-Rate Guarantor Contract.

Loan Selling Advisor will automatically assign Freddie Mac loan numbers to Mortgages sold under the fixed-rate Guarantor program.

6203.7: Remittance cycle and Servicing Spreads for Mortgages sold through Loan Selling Advisor® under the fixed-rate Guarantor program (06/03/19)

Information and requirements relating to the remittance cycle and Servicing Spreads applicable to fixed-rate Mortgages sold under the fixed-rate Guarantor program through Loan Selling Advisor® are those set forth in Chapter 6201 as amended or supplemented by this chapter or Loan Selling Advisor.

(a) Remittance cycle

The Standard Remittance Cycle applies to Mortgages sold under a Fixed-Rate Guarantor Contract.

(b) Servicing Spread

In Loan Selling Advisor, Minimum Required Servicing Spread means Minimum Contract Servicing Spread as that term is defined in the Guide. The Minimum Contract Servicing Spread must be at least 0.25% and for Mortgages sold under fixed-rate Guarantor the maximum Servicing Spread may not exceed 0.500%. For fixed-rate Mortgages with lender-paid mortgage insurance that have annual or monthly renewal premiums, the Minimum Contract Servicing Spread must be at least 0.25%, must include the amount necessary to pay the mortgage insurance premium when due and must not exceed 0.500%.

6203.8: Wire transfer instructions/delivery of UMBS® and MBS for Mortgages sold through Loan Selling Advisor® under the fixed-rate Guarantor program (02/02/22)

The Seller must assign and manage their wire instructions for Mortgages sold under the fixed-rate Guarantor program through Loan Selling Advisor®.

Pursuant to Section 2403.11, the Seller must provide information to Freddie Mac regarding authorized Loan Selling Advisor users. Any employee or employees designated to perform the Setup Manager Role on the Seller's behalf must be designated by the Seller as one of the employees authorized to provide Freddie Mac with instructions (or modify instructions) to

transfer funds or securities on the Seller's behalf in connection with the sale of Mortgages to Freddie Mac on the Seller's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable. See Section 2201.1 for additional information regarding Certificate of Incumbency requirements.

In order for the Fixed-Rate Guarantor Contract to enter the Settlement Cycle, wiring instructions must be completed in Loan Selling Advisor no later than 8:00 p.m. Eastern time on the Final Delivery Date. If changes need to be made to the wire instructions, the Seller must provide the revised wire transfer instructions in Loan Selling Advisor no later than 8:00 p.m. Eastern time on the last Business Day before the Settlement Date.

In addition, if Pledged Mortgages are allocated to a contract, the Warehouse Lender must submit Form 996E, Warehouse Provider Release and Transfer through Loan Selling Advisor by no later than 8:00 p.m. Eastern time on the Final Delivery Date. However, the Seller may revise and resubmit the Form 996E by 12:30 p.m. Eastern time the last Business Day before the Settlement Date, if the wire instructions change.

The Seller is responsible to Freddie Mac for the accuracy of information provided by the Seller, including but not limited to the security wire instructions it transmits electronically through any mode of transmission (Section 6201.11). In addition, Freddie Mac shall not be liable for errors in the delivery of UMBS® or MBS, provided that Freddie Mac delivered the UMBS or MBS pursuant to information (provided by the Seller) that was not modified in accordance with the requirements of the Purchase Documents.

6203.9: Loan Purchase Statements and UMBS™ and MBS disclosure for Mortgages sold through Loan Selling Advisor® under the fixed-rate Guarantor program (12/05/22)

(a) Loan Purchase Statement

Form 15, Loan Purchase Statement (Form 15A for UMBS™ or MBS), will be accessible to the Seller in Loan Selling Advisor® by the first day of the Settlement Cycle.

Sellers that have selected a 6- to 15- day Settlement Cycle and removed Mortgages from an early pool disclosure contract, as permitted in Section 6203.4, should access updated Form 15.

(b) Disclosure for UMBS and MBS formed under the fixed-rate Guarantor program

For each Pool formed under the fixed-rate Guarantor program, Freddie Mac will provide a Pool Supplement on its website (www.freddiemac.com/mbs/) and via a link in Loan Selling

Advisor to the Form 15 (Form 15A for UMBS or MBS), which will be available on the first day of the Settlement Cycle. The Pool Supplement contains information about the Mortgages in the Pool as of the Settlement Date. The Seller may also obtain a copy of the Pool Supplement by contacting Investor Inquiry at (800) 336-3672.

Refer to Section 6201.16(a) for additional information regarding the Pool Supplement and other information Freddie Mac makes available on its website and through information vendors about the Mortgages in a Pool.

Chapter 6204: Sale of Mortgages through Loan Selling Advisor® under WAC ARM Guarantor Program

6204.1: Eligible Sellers for the WAC ARM Guarantor program through Loan Selling Advisor® (12/11/17)

In addition to meeting the requirements of Chapter 6201, the Seller must receive access to the WAC ARM Guarantor program functionality in Loan Selling Advisor® from Freddie Mac before the Seller can submit offers under the WAC ARM Guarantor program (see Section 2403.1).

6204.2: Eligible ARMs sold through Loan Selling Advisor® under the WAC ARM Guarantor program (12/11/17)

Under the WAC ARM Guarantor program, Freddie Mac will purchase the ARM products described in Section 4401.2 and Exhibit 17S, Available Mortgage Products.

See Section 4401.5 for information regarding Initial Caps, Periodic Caps and Life Caps for ARMs sold under the WAC ARM Guarantor program.

See Exhibit 17S for more information regarding eligibility requirements for ARMs sold under the WAC ARM Guarantor program.

6204.3: Purchase requirements for Mortgages sold through Loan Selling Advisor® under the WAC ARM Guarantor program (12/11/17)

ARMs eligible for sale to Freddie Mac under the WAC ARM Guarantor program must be non-convertible first lien Mortgages that fully amortize with an original maturity not exceeding 30 years. See Chapter 4401 for additional information regarding the eligibility requirements for ARMs sold to Freddie Mac.

In addition, ARMs eligible for sale under the WAC ARM Guarantor program:

- Must be sold in accordance with the WAC ARM Guarantor Contract

- Must have a Margin that is at least the sum of the Credit Fee in Yield plus the Minimum Contract Servicing Spread, which includes, for Mortgages with annual or monthly premium lender-paid mortgage insurance, the amount necessary to pay the lender-paid mortgage insurance premium when due

In addition, unless specified otherwise in this chapter, the provisions set forth in Chapter 6201 regarding the Guarantor program, as well as the applicable provisions set forth in Chapter 6202 regarding Freddie Mac swap disclosure and pooling requirements for ARMs under the WAC ARM Guarantor program, apply to Mortgages sold to Freddie Mac under the WAC ARM Guarantor program.

6204.4: Offer procedures/amounts/optional delivery/contract cancelation for WAC ARM Guarantor Contracts (12/05/22)

The Seller may take out one or more WAC ARM Guarantor Contracts each Business Day. When taking out a WAC ARM Guarantor Contract, the information that the Seller must provide includes, but is not limited to, the Settlement Date and the Settlement Cycle:

- The Seller must select a Settlement Date that is a Business Day on or before the latest Settlement Date associated with the applicable Pricing Identifier (i.e., the Pricing Identifier Expiration Date)
- The Seller must select a 2, 3, 4- or 5-day Settlement Cycle or for early pool disclosure select a 6- to 15-day Settlement Cycle

The Seller may change the Settlement Date provided that the Settlement Cycle has not commenced. The new Settlement Date must be a Business Day on or before the latest Settlement Date associated with the applicable Pricing Identifier. It is also possible to change the Final Delivery Date.

The Seller cannot change the Settlement Date if the Settlement Cycle has commenced.

For Sellers that have selected a 6- to 15-day Settlement Cycle, Mortgage(s) may be removed from the early pool disclosure contract due to the Mortgage(s) being paid if the Settlement Cycle has commenced and the removal occurs 48 hours prior to the Settlement Date. Sellers must still meet the requirements of Chapter 6202 if any Mortgages are removed. To submit a request for a Mortgage to be removed, Sellers should contact the Customer Support Contact Center at 800-FREDDIE.

If the Seller selects a 2, 3- or 4-day Settlement Cycle, the Seller will be assessed a Gold Rush® fee, to be paid in accordance with Section 6303.2.

Gold Rush fee rates are:

- Expressed in basis points
- Applied to the aggregate UPB of the Mortgages allocated to the WAC ARM Guarantor Contract funded by Freddie Mac on the requested Settlement Date
- Subject to change on a monthly basis
- Posted at the following website:
<https://sf.freddiemac.com/general/gold-rush-fees-for-accelerated-settlement-cycles-in-freddie-macs-loan-selling-advisor>

The underlying Mortgages allocated to a WAC ARM Guarantor Contract must have an aggregate UPB of at least \$500,000. See Section 6202.4 for additional information on aggregate UPB limitations for specific types of ARMs.

Delivery under a WAC ARM Guarantor Contract is optional. The Seller may cancel a WAC ARM Guarantor Contract in Loan Selling Advisor® until 8:00 p.m. Eastern time on the Business Day immediately preceding the Settlement Date.

6204.5: Purchase and sale obligations and Commitment Amounts for WAC ARM Guarantor Contracts (12/11/17)

(a) Purchase and sale obligations

The Seller makes an offer to sell Mortgages to Freddie Mac when the Seller enters the required data into Loan Selling Advisor® to take out a WAC ARM Guarantor Contract. A binding contract is created when the Seller accepts the WAC ARM Guarantor Contract's terms and conditions made available to the Seller by Freddie Mac in Loan Selling Advisor.

(b) Commitment Amounts

The Seller must monitor the aggregate UPB of all Mortgages the Seller delivers to Freddie Mac under Pricing Identifier Terms to ensure that the Commitment Amount tolerance is not exceeded.

6204.6: Providing data for Mortgages sold through Loan Selling Advisor® under the WAC ARM Guarantor program (12/11/17)

The Seller must provide the data for all loans sold under the WAC ARM Guarantor program by:

- Importing the required data into Loan Selling Advisor® or
- Importing the relevant Loan Product Advisor® data, based on the Key Number, into Loan Selling Advisor, or
- Manually entering the loan data for each Mortgage into Loan Selling Advisor

The Seller must then allocate those loans to a WAC ARM Guarantor Contract.

Loan Selling Advisor will automatically assign Freddie Mac loan numbers to Mortgages sold under the WAC ARM Guarantor program.

6204.7: Remittance cycle and Servicing Spreads for Mortgages sold through Loan Selling Advisor® under the WAC ARM Guarantor program (05/01/19)

(a) Remittance cycle

Information and requirements relating to the remittance cycle and Servicing Spreads applicable to ARMs sold under the WAC ARM Guarantor program are those set forth in Chapter 6201 as amended or supplemented by this chapter or Loan Selling Advisor®.

The Standard Remittance Cycle applies to Mortgages sold under a WAC ARM Guarantor Contract.

(b) Servicing Spreads

- (i)** In Loan Servicing Advisor, Minimum Required Servicing Spread means Minimum Contract Servicing Spread as that term is defined in the Guide. The Minimum Contract Servicing Spread for each ARM in a WAC ARM Guarantor Contract must be at least 0.250% and may not exceed 2.00%. For ARMs with lender-paid mortgage insurance that have annual or monthly renewal premiums, the Minimum Contract Servicing Spread must include the amount necessary to pay the mortgage insurance premium when due.
- (ii)** For ARMs sold under the WAC ARM Guarantor program, the Seller selects three discrete Minimum Contract Servicing Spreads:
 - Minimum coupon servicing spread
 - Minimum margin servicing spread
 - Minimum lifetime ceiling servicing spread

Subject to the requirements of Section 6201.3(c), the Seller may select the same or a different value for any of the three discrete Minimum Contract Servicing Spreads. When the Seller selects a different value for any of the three discrete Minimum Contract Servicing Spreads, the affected ARMs are referred to as having variable servicing spreads.

6204.8: Wire transfer instructions/delivery of ARM PCs for Mortgages sold through Loan Selling Advisor® under the WAC ARM Guarantor program (02/02/22)

The Seller must assign and manage their wire instructions for Mortgages sold under the WAC ARM Guarantor program through Loan Selling Advisor®.

Pursuant to Section 2403.11, the Seller must provide information to Freddie Mac regarding authorized Loan Selling Advisor users and their designated user roles. Any employee or employees designated to perform the Setup Manager Role on the Seller's behalf must be designated by the Seller as one of the employees authorized to provide Freddie Mac with instructions (or modify instructions) to transfer funds or securities on the Seller's behalf in connection with the sale of Mortgages to Freddie Mac on the Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable. See Section 2201.1 for additional information regarding Certificate of Incumbency requirements.

In order for the WAC ARM Guarantor Contract to enter the Settlement Cycle, wiring instructions must be completed in Loan Selling Advisor no later than 8:00 p.m. Eastern time on the Final Delivery Date. If changes need to be made to the wire instructions, the Seller must provide the revised wire transfer instructions in Loan Selling Advisor no later than 8:00 p.m. Eastern time on the last Business Day before the Settlement Date.

In addition, if Pledged Mortgages are allocated to a contract, the Warehouse Lender must submit Form 996E, Warehouse Provider Release and Transfer, through Loan Selling Advisor by no later than 8:00 p.m. Eastern time on the Final Delivery Date. However, the Seller may revise and resubmit the Form 996E by 12:30 p.m. Eastern time the last Business Day before the Settlement Date, if the wire instructions change.

The Seller is responsible to Freddie Mac for the accuracy of information provided, including but not limited to, the security wire instructions it transmits electronically through any mode of transmission (see Section 6201.11). In addition, Freddie Mac shall not be liable for errors in the delivery of WAC ARM PCs, provided that Freddie Mac delivered the WAC ARM PCs pursuant to information (provided by the Seller) that was not modified in accordance with the requirements of the Purchase Documents.

6204.9: Loan Purchase Statements and ARM PC disclosure for Mortgages sold through Loan Selling Advisor® under the WAC ARM Guarantor program (12/05/22)

(a) Loan Purchase Statement

Form 15, Loan Purchase Statement (Form 15C for WAC ARM PC®'s), will be accessible to the Seller in Loan Selling Advisor® by the first day of the Settlement Cycle.

Sellers that have selected a 6- to 15- day Settlement Cycle and removed Mortgages from early pool disclosure, as permitted in Section 6203.4, should access updated Form 15.

(b) Disclosure for ARM PCs formed under the WAC ARM Guarantor program

For each Pool formed under the WAC ARM Guarantor program, Freddie Mac will provide a Pool Supplement on its website (www.freddiemac.com/mbs/) and via a link in Loan Selling Advisor to the Form 15C, which will be available on the first day of the Settlement Cycle. The Pool Supplement contains information about the Mortgages in the WAC ARM PC Pool as of the Settlement Date. The Seller may also obtain a copy of the Pool Supplement by contacting Investor Inquiry at (800) 336-3672.

Refer to Section 6202.2 for additional information regarding the Pool Supplement and other information Freddie Mac makes available on its website and through information vendors about the Mortgages in a Pool.

Chapter 6205: Sale of Mortgages through Loan Selling Advisor® under MultiLender Swap Program

6205.1: Eligible Sellers for the MultiLender Swap program through Loan Selling Advisor® (12/11/17)

In addition to meeting the requirements of Chapter 6201, the Seller must receive access to the MultiLender Swap program functionality in Loan Selling Advisor® from Freddie Mac before the Seller can submit offers under the MultiLender Swap program (see Section 2403.1).

6205.2: Eligible fixed-rate Mortgages sold through Loan Selling Advisor® under the MultiLender Swap program (05/03/23)

See Exhibit 17S, Available Mortgage Products, for information regarding eligibility and coding requirements for fixed-rate Mortgages sold under the MultiLender Swap program.

6205.3: Purchase and pooling requirements for Mortgages sold through Loan Selling Advisor® under the MultiLender Swap program (06/03/19)

Under the MultiLender Swap program, Freddie Mac will purchase conventional fixed-rate Mortgages that have a Note Rate (as adjusted for buyup or buydown, and inclusive of any annual or monthly lender-paid mortgage insurance premium) within the specified posted Note Rate range for that program.

Mortgages sold under the MultiLender Swap program must have Note Rates at least 0.250% above the Security Coupon (or Coupon), but no greater than 1.125% above the Security Coupon.

Refer to Chapter 6202 for pooling requirements for fixed-rate Mortgages under the MultiLender Swap program.

Under the MultiLender Swap program, the minimum dollar amount for a commitment is \$1,000.

Unless specified otherwise in this chapter, the provisions set forth in Chapter 6201 regarding the MultiLender Swap program and the applicable provisions set forth in Chapter 6202 regarding

Freddie Mac swap disclosure and pooling requirements for fixed-rate Mortgages apply to Mortgages sold to Freddie Mac under the MultiLender Swap program.

6205.4: Offer procedures/amounts/optional delivery/contract cancelation for MultiLender Swap Contracts (06/03/19)

The Seller may take out one or more MultiLender Swap Contracts each Business Day. When taking out a MultiLender Swap Contract, the information that the Seller must provide includes, but is not limited to, the Settlement Month, the Pool or Supers Pool, the Settlement Date and the Settlement Cycle:

- The Seller must select a Settlement Month (the month when Freddie Mac issues a MultiLender Swap pool) that is no later than the month in which the latest Settlement Date associated with the applicable Pricing Identifier occurs
- The Seller must select a Pool or Supers Pool with a Final Settlement Date on or before the last day of the selected Settlement Month
- The Seller must select a Settlement Date that is on or before the Final Settlement Date of the selected Pool or Supers Pool
- The Seller must select a 1-, 3-, 4- or 5-day Settlement Cycle

The Seller may change the Settlement Date regardless of whether the Settlement Cycle has commenced or not. In addition:

- The new Settlement Date must be on or before the Final Settlement Date of the selected Pool or Supers Pool (the date on which the Pool or Supers Pool settles)
- If the Settlement Cycle has not commenced, it is also possible to change the Final Delivery Date
- If the Settlement Cycle has commenced, the Final Delivery Date cannot change

If the Seller selects a 1-, 3-, or 4-day Settlement Cycle:

- The requirements of Section 6302.4(f) must be met
- The Seller will be assessed a Gold Rush® fee, to be paid in accordance with Section 6303.2

Gold Rush fee rates are:

- Expressed in basis points

- Applied to the aggregate UPB of the Mortgages allocated to the MultiLender Swap Contract funded by Freddie Mac on the requested Settlement Date
- Subject to change on a monthly basis
- Posted at the following website:
<https://sf.freddiemac.com/general/gold-rush-fees-for-accelerated-settlement-cycles-in-freddie-macs-loan-selling-advisor>

Delivery under a MultiLender Swap Contract is optional. The Seller may cancel a MultiLender Swap Contract in Loan Selling Advisor® until 8:00 p.m. Eastern time on the Business Day immediately preceding the Settlement Date.

6205.5: Purchase and sale obligations and Commitment Amounts for MultiLender Swap Contracts (12/11/17)

(a) Purchase and sale obligations

The Seller makes an offer to sell Mortgages to Freddie Mac when the Seller enters the required loan data into Loan Selling Advisor® to take out a MultiLender Swap Contract. A binding contract is created when the Seller accepts the contract's terms and conditions made available to the Seller by Freddie Mac in Loan Selling Advisor.

(b) Commitment Amounts

The Seller must monitor the aggregate UPB of all Mortgages the Seller delivers to Freddie Mac under Pricing Identifier Terms to ensure that the Commitment Amount tolerance is not exceeded.

6205.6: Providing data for Mortgages sold through Loan Selling Advisor® under the MultiLender Swap program (12/11/17)

The Seller must provide the data for all loans sold under the MultiLender Swap program by:

- Importing the required data into Loan Selling Advisor®, or
- Importing the relevant Loan Prospector® data, based on the Key Number, into Loan Selling Advisor, or

- Manually entering the loan data for each Mortgage into Loan Selling Advisor

The Seller must then allocate those loans to a MultiLender Swap Contract.

Loan Selling Advisor will automatically assign Freddie Mac loan numbers to Mortgages sold under the MultiLender Swap program.

6205.7: Remittance cycle, Credit Fee in Yield and Servicing Spread for Mortgages sold through Loan Selling Advisor® under the MultiLender Swap program (06/03/19)

(a) Remittance cycle options

Information and requirements relating to the remittance cycle and Servicing Spreads applicable to fixed-rate Mortgages sold under the MultiLender Swap program through Loan Selling Advisor® are those set forth in Chapter 6201 as amended or supplemented by this chapter or Loan Selling Advisor.

The remittance cycle that applies to Mortgages sold under the MultiLender Swap program is the Standard Remittance Cycle.

(b) Credit Fee in Yield

For the MultiLender Swap program, the Credit Fee in Yield is as specified in the applicable Pricing Identifier Terms.

(c) Servicing Spread

For MultiLender Swap the Minimum Contract Servicing Spread is 0.250% and for Mortgages sold under the MultiLender Swap program the maximum Servicing Spread must not exceed 0.500%. The Minimum Contract Servicing Spread must be equal to or greater than the Minimum Servicing Spread.

6205.8: Wire transfer instructions/delivery of UMBS®, MBS and Supers® for Mortgages sold through Loan Selling Advisor® under the MultiLender Swap program (02/02/22)

The Seller must assign and manage its wire instructions for Mortgages sold under the MultiLender Swap program through Loan Selling Advisor®.

Pursuant to Section 2403.11, the Seller must provide information to Freddie Mac regarding authorized Loan Selling Advisor users and their designated user roles. Any employee or employees designated to perform the Setup Manager Role on the Seller's behalf must be designated by the Seller as one of the employees authorized to provide Freddie Mac with instructions (or modify instructions) to transfer funds or securities on the Seller's behalf in connection with the sale of Mortgages to Freddie Mac on the Seller's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable. See Section 2201.1 for additional information regarding Certificate of Incumbency requirements.

In order for the MultiLender Swap Contract to enter the Settlement Cycle, wiring instructions must be completed in Loan Selling Advisor no later than 8:00 p.m. Eastern time on the Final Delivery Date. If changes need to be made to the wire instructions, the Seller must provide the revised wire transfer instructions in Loan Selling Advisor no later than 8:00 p.m. Eastern time on the last Business Day before the Settlement Date.

In addition, if Pledged Mortgages are allocated to a contract, the Warehouse Lender must submit Form 996E, Warehouse Provider Release and Transfer, through Loan Selling Advisor by no later than 8:00 p.m. Eastern time on the Final Delivery Date. However, the Seller may revise and resubmit the Form 996E by 12:30 p.m. Eastern time the last Business Day before the Settlement Date, if the wire instructions change.

The Seller is responsible to Freddie Mac for the accuracy of information provided by the Seller, including but not limited to the security wire instructions it transmits electronically through any mode of transmission (see Section 6201.11). In addition, Freddie Mac shall not be liable for errors in the delivery of UMBS®, MBS or Supers®, provided that Freddie Mac delivered the UMBS, MBS or Supers pursuant to information (provided by the Seller) that was not modified in accordance with the requirements of the Purchase Document.

6205.9: Loan Purchase Statements and UMBS®/MBS/Supers® disclosure for Mortgages sold

through Loan Selling Advisor® under the MultiLender Swap program (06/03/19)

(a) Loan Purchase Statement

The Form 15, Loan Purchase Statement (Form 15A for UMBS® or MBS), will be accessible to the Seller in Loan Selling Advisor® by the first day of the Settlement Cycle for Mortgages sold under the MultiLender Swap program.

(b) Disclosure for UMBS, MBS and Supers® formed under the MultiLender Swap program

For each Pool or Supers Pool formed under the MultiLender Swap program, Freddie Mac will make available on its website (www.freddiemac.com/mbs), and via a link in Loan Selling Advisor to the Form 15 (Form 15A UMBS or MBS), a Pool Supplement containing information about the Mortgages in a UMBS or MBS Pool or a Supers Pool Supplement containing information about the UMBS underlying the Supers Pool as of the Settlement Date. The Pool Supplement and Supers Pool Supplement are available on the first Business Day following the Securities Industry and Financial Markets Association (SIFMA) Class D Monthly Securities Settlement Date. The Seller may also obtain a copy of the Pool Supplement and the Supers Pool Supplement by contacting Investor Inquiry at (800) 336-3672.

Refer to Section 6201.11 or 6201.16(b) for additional information regarding the Pool Supplement, the Supers Pool Supplement and other information Freddie Mac makes available on its website and through information vendors about the Mortgages in the Pools or Supers Pool.

Chapter 6301: Documentation Delivery

6301.1: Home Mortgage documentation delivery (03/02/16)

The Seller agrees, at its own expense and within the delivery period required under the purchase program, to deliver to Freddie Mac, or its designee, the documents required under the Purchase Documents, subject to Freddie Mac's approval regarding proper form and execution.

The Seller should plan for a reasonable processing and review period before the Funding Date or Settlement Date. The amount of the purchase price is adjusted for interest accrued through the day before the Funding Date or Settlement Date.

6301.2: Pledged Mortgage delivery (09/10/18)

Pledged Mortgages must be delivered as required by Section 6302.38 and Chapter 6305; see Section 1402.16 for Pledged eMortgages.

6301.3: Endorsement of Notes (08/19/20)

(a) Without recourse

For each Mortgage delivered to Freddie Mac (except for Mortgages sold with recourse under the Guarantor or MultiLender Swap program, pursuant to Section 6201.7(a)), the original of the Note must be delivered pursuant to the requirements of this chapter; and the Note must bear the following endorsement signed by the Seller's duly authorized representative:

PAY TO THE ORDER OF _____

WITHOUT RE COURSE

(Name of Seller-endorser)

(Signature of duly authorized representative)

(Typed name and title of signatory)

This endorsement "without recourse" will in no way affect the Seller/Servicer's repurchase obligations under the Purchase Documents. If the Seller is a corporation, the person endorsing the Notes must be a duly authorized officer of the Seller. If the Seller is a partnership or other type of organization that is not a corporation, the person endorsing the

Notes must be duly authorized by the Seller, in accordance with the organization's constituent documents and applicable law, to take such action on behalf of the Seller. Endorsement may not be made pursuant to a power of attorney.

(b) With recourse

For each Mortgage sold with recourse under the Guarantor or MultiLender Swap program, the original of the Note must be delivered bearing the following endorsement signed by the Seller's duly authorized representative:

PAY TO THE ORDER OF _____

(Name of Seller-endorser)

(Signature of duly authorized representative)

(Typed name and title of signatory)

If the Seller is a corporation, the person endorsing the Notes must be a duly authorized officer of the Seller. If the Seller is a partnership or other type of organization that is not a corporation, the person endorsing the Notes must be duly authorized by the Seller, in accordance with the organization's constituent documents and applicable law, to take such action on behalf of the Seller. Endorsement may not be made pursuant to a power of attorney.

(c) Chain of endorsement

If the Seller is not the original payee on the Note, the chain of endorsements must be proper and complete from the original payee shown on the Note to the Seller. At the time the Mortgage is sold to Freddie Mac, the Seller must endorse the Note in blank, in accordance with (a) or (b) above. With respect to each Note, Seller is responsible for all endorsement negotiability issues and represents and warrants to Freddie Mac that (i) each endorsement is valid for preservation of negotiability, and (ii) the Document Custodian did not endorse such Note. When a Transfer of Servicing occurs, the Transferor Servicer may not complete the blank endorsement or further endorse the Note.

Note: Endorsements are not applicable for eNotes because eNotes are Transferable Records under the Uniform Electronic Transactions Act (UETA) and the Electronic Signatures in Global and National Commerce Act (E-SIGN) and not subject to the UCC endorsement requirements applicable to paper promissory notes and other negotiable instruments.

(d) Facsimile signature

Notes may be endorsed by use of a facsimile signature stamp if the following conditions are met:

- The signature is that of a corporate officer of the Seller who has authority pursuant to a resolution of the Seller's Board of Directors

- The corporate officer whose signature is imprinted on the stamp authenticates his signature by affidavit which will be made available to Freddie Mac upon request
- Before the Delivery Date, the Seller must obtain an opinion of the Seller's counsel that the use of a facsimile signature constitutes a valid signature for an endorsement on each Note so endorsed. The Seller must furnish this opinion to Freddie Mac upon request.

(e) Use of an Allonge for the endorsement of a Note

The Seller may use an Allonge to endorse a Note if the following conditions are met:

- The Allonge is permanently affixed to the Note
- The Allonge references the Borrower's name, the property address and the original principal balance of the Note
- The form of the Allonge, and its use, complies with all applicable laws
- The use of the Allonge does not impair Freddie Mac's status as a "holder in due course" or any of Freddie Mac's rights under the Purchase Documents

6301.4: Power of attorney (05/05/21)

For Mortgages with Application Received Dates prior to June 30, 2021, the following power of attorney requirements apply:

Freddie Mac will permit the Note, the Security Instrument and other closing documents to be executed by a person acting as attorney-in-fact pursuant to authority granted by a Borrower under a power of attorney (POA) in the following circumstances:

- In a hardship or emergency situation; and
- When a Seller determines that applicable law requires use of a POA

The person acting as attorney-in-fact should have a familial, personal or fiduciary relationship with the Borrower, and should not be employed by or affiliated with any party to the loan transaction other than the Borrower. Each POA must be notarized and the Mortgage must be covered by a title insurance policy in accordance with Section 4702.1.

If the use of a POA is required by law, the Seller must include a written statement that explains the circumstances in the Mortgage file and deliver a copy of the statement to the Document Custodian with the POA.

Please refer to the POA delivery requirements outlined later in this section, which apply to all Mortgages with documents executed using a POA regardless of the Application Received Date or Note Date.

For all Mortgages with Application Received Dates on or after June 30, 2021, the Seller must comply with the following power of attorney requirements. Sellers may also choose to implement these requirements for Mortgages with Application Received Dates prior to June 30, 2021:

Sellers may allow use of a POA to close a Mortgage, including an eMortgage, in accordance with the following requirements. In accordance with Section 4201.10, relating to Wholesale Home Mortgages, the Seller's obligations herein may be performed by the broker, correspondent or other originator and the Seller remains responsible for compliance with this section and its representations and warranties relating to this section.

A POA may only be used when:

- There is an event such as a medical emergency, natural disaster, military deployment or other hardship preventing the Borrower from executing the requisite documents in person, by electronic signature or through other alternative electronic means (e.g., Remote online Notarization, eClosing), or
- Applicable law requires the Seller to accept use of a POA

A POA may not be used merely for the convenience of the parties. The POA must comply with the laws of the applicable jurisdiction, and the Borrower must have had the capacity to grant the POA at the time it was made. A notation, description or other information about the reason why a POA was used must be included in the Mortgage file whenever a POA is used. If the acceptance of a POA is required by law, the Seller must include a written statement that explains the circumstances in the Mortgage file.

The person using the POA to sign on behalf of the Borrower is called an "attorney-in-fact." The attorney-in-fact must:

- Have a familial or fiduciary relationship with the Borrower;
- Be an individual employed by the title insurer underwriting the title insurance product insuring the Mortgage; or
- Be an individual employed or engaged contractually by the title agency issuing the title insurance product for the Mortgage and closing the transaction, but only if the title insurer has issued a closing protection letter relating to the transaction (or has similar contractual indemnity to the Seller and assignees of the Seller) for such policy issuing agent

Neither the seller of the property in a purchase transaction nor an employee of the originating lender is eligible to be an attorney-in-fact under a POA.

A POA may be used to execute any of the Initial Loan Documents and Closing Documents in connection with any Mortgage type. The Borrower may execute the POA using an electronic signature. The POA must be executed by the Borrower prior to its use by an attorney-in-fact. The POA does not have to be specific to the Mortgage transaction.

For cash-out refinances only, after the terms of the Mortgage have been finalized and prior to closing, an employee of the originating lender or settlement agent must explain and discuss the terms of the Mortgage and use of the POA with the Borrower to confirm that the Borrower understands them. However, if the Borrower is in a Period of Military Service as defined in Section 8503.1 and is unavailable for the discussion or the Borrower is incapacitated such that he or she cannot participate in a discussion, then this requirement is waived as to that Borrower.

At a minimum, the discussion must include:

- Review of the rate, term and principal balance of the Mortgage,
- The address of the Mortgaged Premises,
- The fact that the attorney-in-fact uses the Borrower's POA to sign documents on behalf of the Borrower, and
- The scheduled or estimated closing date

This discussion must take place in person, telephonically or using a video conference system. It may take place just before closing and does not require the presence of the attorney-in-fact. It must be memorialized by a Borrower acknowledgment that may be in:

- Writing
- An e-mail exchange with the Borrower at an e-mail address provided by the Borrower, or
- A recording or a transcript of the telephone or video discussion with the Borrower

The acknowledgement must be retained in the Mortgage file and made available to Freddie Mac upon request.

The POA must be notarized; however, it may be remotely notarized where permitted by applicable law. The Mortgage must be covered by a title insurance product in accordance with Section 4702.1.

Please refer to the POA delivery requirements outlined below, which apply to all Mortgages with documents executed using a POA regardless of the Application Received Date or Note Date.

POA delivery requirements for all Mortgages with documents executed using a POA:

If the Note, Security Instrument and other closing documents were executed under a paper POA, the Seller must comply with the following delivery requirements, regardless of the Mortgage Application Received Date or Note Date:

- The Seller must deliver one of the following with the Note:
 - The original POA (signed in ink by the Borrower); or
 - A copy of the POA; or
 - A copy of the POA showing the recordation information

Note: If applicable law requires an original POA (signed in ink by the Borrower) for enforcement or foreclosure purposes, the Seller must deliver an original POA (signed in ink by the Borrower) to the Document Custodian.

- If the POA is recorded, whether or not it is required, and the copy of the POA with recordation information is not delivered to the Document Custodian along with the Note, the Seller must deliver the copy of the POA with recordation information received from the recording office to the Document Custodian within 30 days of receipt

If the Note, Security Instrument and other closing documents are executed under an Electronic POA, the following requirements apply:

- The Seller must deliver the Electronic POA along with the Note
- If the POA is recorded, whether or not it is required, and the copy of the Electronic POA with recordation information is not delivered to the Document Custodian along with the Note, the Seller must deliver the copy of the Electronic POA with recordation information received from the recording office to the Document Custodian within 30 days of receipt

Note: If the Document Custodian is not able to accept electronic documents, the Seller must send a paper copy of the POA to the Document Custodian.

Refer to Sections 1401.14 and 1401.15 for additional delivery requirements.

Refer to Section 1402.8 for power of attorney-originated eMortgage delivery requirements.

6301.5: Modifying instrument or assumption of indebtedness agreement (03/02/16)

The Seller must deliver the following documents with the original Note:

- If a Mortgage has been modified or converted from an ARM to a fixed-rate Mortgage: the original modification or conversion agreement, unless it is recorded with the Security Instrument. If the original modification or conversion agreement is recorded with the Security Instrument, a copy of the modification or conversion agreement must be delivered.
- For a Construction Conversion Mortgage or a Renovation Mortgage that uses Modification Construction Conversion Documentation, the original Construction Conversion Modification Agreement, unless it is recorded with the Security Instrument. If the original Construction Conversion Modification Agreement is recorded with the Security Instrument, a copy of the Construction Conversion Modification Agreement must be delivered.
- If the ownership of the Mortgaged Premises has been transferred in any way the ownership transfer instrument and assumption of indebtedness agreement

The Seller need not submit a modifying instrument that by its terms ceases to be effective upon purchase of the modified Mortgage by Freddie Mac.

6301.6: Assignment of Security Instrument (04/12/23)

The Seller/Servicer is not required to prepare an assignment of the Security Instrument to Freddie Mac. However, Freddie Mac may, at its sole discretion and at any time, require a Seller/Servicer, at the Seller/Servicer's expense, to prepare, execute and/or record assignments of the Security Instrument to Freddie Mac.

If an assignment of the Security Instrument to Freddie Mac has been prepared, the Seller/Servicer must not record it unless directed to do so by Freddie Mac. Any statement in the assignment to the effect that the assignment is made without recourse will in no way affect the Seller/Servicer's repurchase obligations under the Purchase Documents.

For transfer or assignment of Freddie Mac's interest in the Mortgage, the Seller/Servicer shall prepare at its own expense any assignment necessary to transfer the Security Instrument to Freddie Mac's assignee, designee or transferee.

Intervening Assignments must be prepared in accordance with the requirements of this section.

NOTE: Special provisions for preparing assignments for Mortgages secured by Manufactured Homes located in certificate of title States where there is no provision for surrender and cancelation of the certificate of title are set forth in Section 5703.7(c), paragraph 3. Mortgages secured by Manufactured Homes located in certificate of title States where there is no provision for surrender and cancelation of the certificate of title may not be registered with MERS®.

(a) Mortgages not registered with MERS

For a Mortgage not registered with MERS, the Seller/Servicer must ensure that the chain of assignments is complete and recorded from the original mortgagee on the Security Instrument to the Seller. If the Seller enters into a Concurrent or Subsequent Transfer of Servicing, an assignment to the Transferee Servicer must be completed and recorded where required, thus keeping the chain complete.

If a State does not accept assignments for recordation, the Seller must so state in an affidavit maintained with the unrecorded assignment.

(b) Mortgages registered with MERS

For a Mortgage registered with MERS, if MERS is not the original mortgagee of record, the Seller/Servicer must ensure that:

- An assignment of the Security Instrument to MERS has been prepared, duly executed and recorded in all places necessary to perfect a First Lien security interest in the Mortgaged Premises in favor of MERS, solely as nominee for the lender named in the Security Instrument and the Note, and the lender's successors and assigns. Mortgages subsequently assigned to MERS in the States of Montana, Oregon and Washington are not eligible for sale to Freddie Mac.
- The chain of assignments is complete and recorded from the original mortgagee to MERS

If the Seller/Servicer engages in a Concurrent or Subsequent Transfer of Servicing related to a Mortgage registered with MERS, no further assignments are required if the Transferee Servicer is a MERS Member. If the Transferee Servicer is not a MERS Member, or if the Mortgage has not been, or is no longer, registered with MERS, the Seller/Servicer must complete the assignments in accordance with the requirements in Section 6301.6(a).

(c) Mortgages registered with MERS naming MERS as original mortgagee of record

No assignments are required for a Mortgage registered with MERS if:

- The Mortgage is originated naming MERS as the original mortgagee of record, solely as nominee for the lender named in the Security Instrument and the Note, and the lender's successors and assigns, and
- The Seller/Servicer has ensured that the Security Instrument is properly executed, acknowledged, delivered and recorded in all places necessary to perfect a First Lien security interest in the Mortgaged Premises in favor of MERS, solely as nominee for the lender named in the Security Instrument and the Note, and the lender's successors and assigns

(d) Concurrent Transfers of Servicing

If the Mortgage is registered with MERS, and the Transferee Servicer is not a MERS Member, then the requirements for Mortgages not registered with MERS must be followed.

For a Concurrent Transfer of Servicing when a Mortgage is registered with MERS:

- The Seller must notify MERS of the Transfer of Servicing and reflect such Transfer of Servicing on the MERS System
- The Transferee Servicer must follow the document custodial procedures in Section 7101.9, and deliver the assignments to the Transferee Document Custodian to be verified and certified in accordance with the requirements of Section 6304.2, unless the Transferee Servicer has elected to retain all assignments for MERS-registered Mortgages in the Mortgage files. The Transferee Servicer must also supply its Document Custodian with any documentation necessary for the Document Custodian to determine whether the Seller/Servicer has elected to hold all assignments in the Mortgage files.

For a Concurrent Transfer of Servicing when a Mortgage is not registered with MERS:

- The Seller must record any Intervening Assignments to complete the chain of assignments from the original mortgagee to the Seller, in accordance with Section 6301.6(a)
- The Seller must then assign the Security Instruments to the Transferee Servicer and record the assignments
- The Transferee Servicer must follow the document custodial procedures set forth in Section 7101.9, and deliver the assignments to the Transferee Document Custodian, to be verified and certified in accordance with the requirements of Section 6304.2

Special provisions for Concurrent Transfers of Servicing of Mortgages secured by Manufactured Homes located in certificate of title States where there is no provision for surrender and cancelation of the certificate of title are set forth in Section 5703.7(c), paragraph 3.

6301.7: Accuracy and preparation of Mortgage data submitted (03/02/16)

The Seller warrants that the Mortgage data provided are true, complete and accurate. Erroneous data or omissions discovered may result in rejection of the Mortgage(s) involved when discovered before purchase or repurchase of the Mortgage(s) involved when discovered after purchase.

The essential accounting data for each Mortgage must agree with the underlying documents and the Seller's individual mortgagor accounting records.

Freddie Mac purchases Mortgage balances as reflected in the Seller's individual Mortgage accounts. The records or accounts used for Mortgages to be sold to Freddie Mac must be updated within 10 days before delivery of Mortgage documents to Freddie Mac (see **Directory 8**).

Using the most recent Mortgage trial balance or updated Mortgage records, the Seller must indicate the UPB and provide the remaining information required by Chapter 6302. It should not be assumed that payments due as of or before the date the balances are taken from the detailed Mortgage record have been paid. An installment that was due as of or before the date the balances are taken from the individual Mortgage records, but is unpaid, is considered delinquent. For example, a payment that was due on the first of a month, and is unpaid on the second or thereafter, is delinquent for this purpose.

6301.8: Completion of delivery (04/12/23)

Settlement cannot occur until delivery is complete. Delivery is complete upon:

- The delivery to, and acceptance by, Freddie Mac of all loan data and other information and documentation required by the Purchase Documents. When a Seller/Servicer registers a Mortgage on the MERS® System, the Seller/Servicer must, in addition to any requirements set forth in the MERS Governing Documents, register such Mortgages with MERS *prior* to loan delivery to Freddie Mac, and must supply the MIN for Mortgages registered with MERS at the time of delivery. The Seller/Servicer must indicate the MIN on the Security Instrument and related documents, regardless of whether the Seller/Servicer retains the documents or sends them to the Document Custodian.

For further information on MERS, refer to Exhibit 5A, Authorized Changes to Notes, Riders, Security Instruments and the Uniform Residential Loan Application.

- The delivery of the Notes and all other required documentation to, and certification of the Notes by, the Document Custodian. The Seller/Servicer must provide the Document Custodian with sufficient information so that if there is a Subsequent Transfer of Servicing, the Transferor Servicer and Freddie Mac can determine whether a Mortgage that is included in such Subsequent Transfer of Servicing is registered with MERS at the time of the transfer, as required by Section 7101.9.

Prior to certification, the Seller must identify and track the Notes and other loan documents on its system as Mortgages to be sold to Freddie Mac. In addition, Freddie Mac may require that, at the Seller's expense, the Freddie Mac loan number be affixed to the face of each Note.

In the event the Seller does not complete its Guarantor or MultiLender Swap delivery by 8:00 PM Eastern Time on the day immediately preceding the scheduled Settlement Date, Freddie Mac has the right, in its sole discretion, to cancel or postpone the settlement or funding until delivery

has been completed. For information regarding pair-off of Cash contracts, refer to Section 6401.1.

The Seller indemnifies and holds Freddie Mac, its directors, officers, employees, successors, assigns and fiscal and transfer agents, harmless from and against any and all losses, damages, claims, demands, actions, suits or liabilities, joint or several, to which Freddie Mac may become subject, and shall reimburse Freddie Mac for any legal or other expenses reasonably incurred by Freddie Mac in connection with any losses, damages, claims, demands, suits, liabilities or actions with respect to Freddie Mac's cancelation or postponement of any settlement or funding insofar as such losses, claims, damages, demands, suits, liabilities or actions arise out of or are based upon Freddie Mac's cancelation or postponement of a settlement or funding.

(a) Delivery and certification

The requirements of Sections 2202.2 and 2202.3 must be met, in addition to the following requirements:

- The Document Custodian must have received and certified, as required by Sections 6304.2 and 6304.3, the following:
 - Form 1034E, Custodial Certification Schedule, or the "Note Delivery Cover Sheet." Form 1034E and the Note Delivery Cover Sheet are available only through Loan Selling Advisor®. The Seller is not required to maintain a copy of the Form 1034E or the Note Delivery Cover Sheet.
 - For each Mortgage, the original Note, endorsed as required by Section 6301.3, along with the originals of any addenda or other modifying instruments to the Note
 - Any documentation, if applicable, indicating that the Mortgages were closed with MERS as original mortgagee of record
 - The original assignments of the Security Instruments, prepared and completed as required by Section 6301.6, unless the Mortgages are registered with MERS and the Seller/Servicer has elected to retain all required assignments in the Mortgage files

The Seller/Servicer must supply its Document Custodian with any documentation necessary for the Document Custodian to determine if it should expect to receive assignments for MERS-registered Mortgages.

If a recorder's office has not yet returned a recorded Intervening Assignment to the Seller/Servicer, the Seller/Servicer must deliver a certified copy of the assignment sent for recordation to the Document Custodian.

The original recorded assignment must be delivered to the Document Custodian immediately after the Seller/Servicer receives it from the recorder's office. If a jurisdiction does not accept assignments for recordation, the Seller/Servicer must so

indicate in an affidavit delivered to the Document Custodian with the unrecorded Intervening Assignment.

- The following documents, if applicable:
 1. The original Freddie Mac Multistate Agreement to Convert, Form 3180
 2. The original assumption agreement
 3. The original addendum
 4. The original or a certified copy of the power of attorney, if original is sent for recordation
 5. The original, or a certified copy if the original is sent for recordation, of the Multistate Loan Modification Agreement (to a Fixed Interest Rate), Form 5161, or comparable modification agreement that complies with the Guide
 6. The original or a certified copy of Form 3172, New York Consolidation, Extension and Modification Agreement (NY CEMA), if original was sent for recordation. See Section 4101.5 for additional documentation delivery requirements for Mortgages originated using a NY CEMA.
 7. For a Construction Conversion Mortgage or a Renovation Mortgage that uses Modification Construction Conversion Documentation, the original, or a certified copy if the original is sent for recordation, of the Construction Conversion Modification Agreement
 - Any other documentation that Freddie Mac, at its discretion, may require
- Freddie Mac's Mortgage Purchase Department (**see Directory 8**) must receive the following by the Delivery Date:
 - For Pledged Mortgages: the forms required by Sections 6305.3, 6305.4 and 6305.5
 - Any other documentation that Freddie Mac, at its discretion, may require
 - Freddie Mac (**see Directory 9**) must have received any other documentation that Freddie Mac, at its discretion, may require

(b) Additional Seller, Servicer, and Document Custodian Responsibilities

Prior to or immediately after settlement, the Seller must enter the Freddie Mac loan numbers assigned to the Mortgages into the Seller's system and associate such numbers with the Mortgages so that Seller can identify, track and service the Mortgages for Freddie Mac. If there is a Concurrent Transfer of Servicing, the Transferee Servicer must enter the Freddie

Mac loan numbers assigned to the Mortgages by Freddie Mac into the Transferee Servicer's computerized servicing system and associate such numbers with the Mortgages so that the Transferee Servicer may identify, track and service the Mortgages for Freddie Mac.

For all Mortgages, the Seller, Servicer, and Document Custodian must comply with all requirements in the Guide and other Purchase Documents.

The Seller, Servicer, Document Custodian, and/or their successors, assigns and transferees, as applicable, are fully responsible, on an ongoing basis, for the proper delivery, certification, identification and tracking of all Notes for Mortgages sold to Freddie Mac.

6301.9: Mortgage substitutions (03/02/16)

To substitute a Mortgage for another Mortgage previously delivered to Freddie Mac for sale, as permitted or required by Freddie Mac, the Seller must submit the documents required by Section 6301.8.

Upon confirmation of Freddie Mac's acceptance of a substitute Mortgage, the Seller/Servicer may obtain the Note and related documents for the previously delivered Mortgage from the Document Custodian in accordance with Section 8107.2(c).

If Freddie Mac requires substitution for a Mortgage, the Seller will deliver a Mortgage that meets all of the requirements of the Purchase Documents and has an outstanding principal balance that enables the Seller to fulfill the contract commitment amount. The Seller can change the terms of the contract to increase the commitment amount, by executing a contract change request; Seller will be required to pay a fee, if Freddie Mac deems this necessary. The Seller will be required to pay Freddie Mac any differential between the outstanding principal balance of the Mortgage being purchased by Freddie Mac and the Mortgage for which it is being substituted.

The Seller must deliver such substitute Mortgage by the contract Due Date. If a substitute Mortgage has a different Note Rate from that of the previously delivered Mortgage, it must be within the Note Rate range established for the contract.

6301.10: Purchase and settlement procedures (02/06/19)

(a) Preparation of Form 15/A/C, Loan Purchase Statement

After reviewing the submitted Mortgages, Freddie Mac will generate Form 15/A/C, Loan Purchase Statement, which will summarize the pertinent data, and will include a computation of the amount to be funded to the Seller.

Depending on the type of purchase, Freddie Mac will generate one of the following forms:

- Loan Purchase Statement for Cash sales
- Form 15A for fixed-rate Guarantor
- Form 15C for WAC ARM Guarantor

(b) Wire transfers

Wire transfers made in connection with the purchase of Mortgages will be made only to the account of the Seller maintained with an eligible banking institution, such as a Federal Home Loan Bank, a commercial bank or a Federal Reserve Bank. The Seller may maintain an account with the Federal Reserve Bank for clearing checks only or for receiving and disbursing of wire transfers. Before instructing Freddie Mac to make a wire transfer to an account at a Federal Reserve Bank, the Seller must ensure that the account is eligible to receive direct wire transfers and the Seller must have submitted to Freddie Mac, as applicable, an approved Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, that designates employees who are authorized to provide Freddie Mac with instructions (or to modify instructions) to transfer funds or securities on the Seller's behalf in connection with the sale of Mortgages to Freddie Mac. See Chapter 6305 regarding wire transfer instructions for the purchase by Freddie Mac of Mortgages subject to financing arrangements with Warehouse Lenders. Freddie Mac will not wire transfer funds for the credit of a Servicing Agent.

6301.11: Postsettlement purchase adjustments (03/02/16)

Generally, purchase balances cannot be adjusted after settlement because the Mortgages have been pooled for resale. After settlement and before pooling has taken place, however, it may be possible to adjust a purchase balance. If the Seller has any question regarding purchase balances before funding, the Seller should contact 800-FREDDIE immediately. Thereafter, any questions must be directed to the Seller's accounting representative at Freddie Mac (see **Directory 8**).

Chapter 6302: Mortgage Delivery Instructions

6302.1: Organization of delivery instructions for ULDD Data Points (05/22/23)

In addition to complying with the document delivery requirements set forth in Chapter 6301, Mortgages sold to Freddie Mac must comply with the delivery requirements of this chapter.

The following sections of this chapter describe the data that must be provided by the Seller in connection with Mortgages sold to Freddie Mac. The data delivery instructions set forth in this chapter are consistent with the data requirements for the Uniform Loan Delivery Dataset (ULDD). The technical document for implementing Freddie Mac's loan data delivery requirements for the ULDD is the Freddie Mac Implementation Guide for Loan Delivery Data ("Freddie Mac IG-LD"), which includes, among other resources:

- Appendix A, XML Data Requirements ("Appendix A"), which details the subset of loan delivery data points specified in the MISMO® Version 3.0 Reference Model ("MISMO v3.0") that is used for the ULDD
- Appendix A Addendum ("ULDD Addendum"), which sets forth corrections to the data contained in Appendix A and amends Appendix A, as published

For purposes of this chapter, references to Appendix A include the changes specified in the Appendix A Addendum.

The Freddie Mac IG-LD, Appendix A and the other technical documentation relating to implementing the ULDD are found under the Technical Resources tab on the ULDD page at: <https://sf.freddiemac.com/tools-learning/uniform-mortgage-data-program/uldd#technical-resources>.

(a) General data and documentation delivery requirements

(i) Effective dates of Mortgage data delivery requirements

For Mortgages delivered to Freddie Mac, the Seller must comply with the requirements for Mortgage data as applicable to the Application Received Dates and Delivery Dates specified in the table below:

Mortgage Data Requirements According to Mortgage Application Received Date		
Application Received Date	Delivery Date	Mortgage Data Requirements
Before December 1, 2011	On or after July 23, 2012	<p>The Seller must provide either:</p> <ul style="list-style-type: none"> a. The equivalent of the data previously captured on Form 11, Mortgage Submission Schedule, or Form 13SF, Mortgage Submission Voucher, as applicable, identified in Appendix A, “F11/13SF Equivalent Mandate 7-23-12” tab; or b. The data required for Phase 1 implementation identified in Appendix A, on the “Phase 1 Complete” tab
On or after December 1, 2011 and before August 1, 2012	On or after July 23, 2012	The Seller must provide the applicable Mortgage data required for Phase 1 implementation identified in Appendix A, on the “Phase 1 Requirements Mandate 7-23-12” tab.
On or after August 1, 2012 and before March 1, 2014	On or after November 26, 2012	The Seller must provide the applicable Mortgage data required for Phase 1 implementation identified in Appendix A, on the “Phase 1 Complete” tab.
On or after March 1, 2014	On or after August 25, 2014	The Seller must provide the applicable Mortgage data required for Phase 2 implementation specified in Appendix A on the “Phase 2 Complete Mandate 8-25-14” tab.
On or after January 1, 2019	On or after May 20, 2019	The Seller must provide the applicable Mortgage data required for Phase 3 implementation specified in Appendix A on the “Phase 3 Complete” tab.
On or after January 1, 2023	On or after May 22, 2023	The Seller must provide the applicable Mortgage data required for Phase 4a implementation specified in Appendix A on the “Phase 4a Complete” tab.

(ii) Data delivered in MISMO v3.0 format

The Mortgage data must be delivered in the MISMO v3.0 format pursuant to the guidance in the Freddie Mac IG-LD.

(iii) Documentation of delivery requirements

The documentation that the Seller must deliver for all Mortgages includes the delivery of Note(s) as described in Section 6304.2 and wire transfer instructions, if applicable, as described in Sections 2201.2, 6203.8, 6204.8, 6205.8, 6305.3 and 6305.4.

(iv) Timing of delivering data and documentation

For each Mortgage sold to Freddie Mac, the Seller must deliver all Mortgage data and documentation required by this chapter and other applicable sections of the Purchase Documents prior to:

- The Purchase Contract Expiration Date for Mortgages sold under the Cash program; or
- The Final Delivery Date for Mortgages sold under the Guarantor or MultiLender Swap program

(b) Organization of data delivery requirements

The data delivery instructions set forth in this chapter are grouped by the following general topics:

- Mortgages sold under the Cash, Guarantor and MultiLender Swap programs (Sections 6302.2 through 6302.4)
- All Mortgage Products sold to Freddie Mac (Section 6302.5)
- The specific attributes of fixed-rate Mortgages and ARMs (Sections 6302.6 and 6302.7)
- The property and Borrower information that is required for each Mortgage (Sections 6302.8 through 6302.9)
- The underwriting information required for each Mortgage (Sections 6302.10 and 6302.11)
- Mortgages with specific characteristics that require singular delivery instructions (Section 6302.12 et seq.)

The data delivery instructions are presented throughout this chapter in a tabular format, and include the following information:

- The column titled “Sort ID” refers to the ID number used in Appendix A for the particular ULDD Data Point
- The column titled “ULDD Data Point” sets forth the MISMO Data Point used in Appendix A
- The column titled “Valid Value” sets forth the Freddie Mac supported enumerations specified in Appendix A that are applicable to the Mortgages described in the table. If a value must be selected for a ULDD Data Point, all permissible values are listed in the “Valid Values” column. If there are no valid values specified for a particular ULDD Data Point, the Seller should refer to the “Notes” for specific instructions on completing the “ULDD Data Point” field.

- The column titled “Notes” provides specific delivery instructions for the ULDD Data Point that are consistent with the Implementation Notes set forth in Appendix A. If there are no notes for a particular ULDD Data Point, the Seller should enter the appropriate data based on the data point name and definition.
- The column headers are followed by rows that map the listed data points to Loan Selling Advisor® graphical user interface (GUI) screen headings and tabs

The data delivery instructions are organized so that those with more general applicability (for example, eligible delivery programs and Mortgage loan product types) appear earlier in this chapter, and the instructions relating to Mortgages with special characteristics follow. The delivery instructions are cumulative, so that, for example, the Seller must provide data regarding the specific delivery program, the particular Mortgage product, the property, loan and Borrower, as well as any special characteristics that the loan may have.

The data delivery instructions set forth in this chapter include requirements for delivery of Investor Feature Identifiers (IFIs) in connection with the sale of Mortgages to Freddie Mac, where applicable. IFIs identify a loan feature not defined by other attributes. A listing of IFIs is available in Exhibit 34, Investor Feature Identifiers.

(c) Relationship between this chapter and Appendix A

The data delivery instructions in this chapter are consistent with the data requirements set forth in Appendix A, and provide much of the same information as Appendix A. For example, the delivery instructions in this chapter provide the valid values for each of the ULDD Data Points required, together with any notes necessary to clarify the appropriate valid value; this information is similar to the columns of Appendix A titled “FRE-Supported Enumerations” and “Freddie Mac Implementation Notes.”

The delivery instructions in this chapter differ from Appendix A in that they do not include, for example, cross-references to the phase-in information, and some information such as conditionality, loan role or party role type is presented in a narrative form rather than in a chart format. Additionally, the delivery information in this chapter is organized by Mortgage characteristics rather than in the ULDD Sort ID order format used in Appendix A.

For a complete description of the delivery data required for Mortgages sold to Freddie Mac, the Seller must refer to Appendix A and any published addenda.

(d) Other delivery instructions in this chapter

This chapter also provides delivery instructions relating to eligible programs and pooling information. Additionally, this chapter describes the special delivery requirements applicable to modified Mortgages.

(i) Eligible delivery programs

The sections of this chapter relating to the specific attributes of fixed-rate Mortgages and ARMs (Sections 6302.6 and 6302.7) and to Mortgages with special characteristics (Section 6302.12 et seq.) specify any limitations in the delivery programs. For purposes of these sections:

- “Cash” means the Mortgage Product or offering is eligible under fixed-rate Cash and ARM Cash
- “Guarantor” means the Mortgage Product or offering is eligible under the fixed-rate Guarantor and WAC ARM Guarantor programs
- “MultiLender Swap” means the Mortgage Product or offering is eligible under the MultiLender Swap program

If the delivery programs are not specifically limited, the Mortgage Product or offering is eligible for all delivery programs.

(ii) Pooling information

The sections of this chapter relating to Mortgages with special characteristics (Section 6302.12 et seq.) also specify any special pooling requirements applicable to the Mortgages. If no pooling requirements are specified, refer to Chapter 6202 for general pooling requirements for fixed-rate Mortgages under the fixed-rate Guarantor or MultiLender Swap programs, and for ARMs under the WAC ARM Guarantor program.

(iii) Special instructions for modified Mortgages

The sections of this chapter relating to modified Mortgages (Section 6302.27 with respect to Seller-Owned Modified Mortgages and Section 6302.28(b)(iv) with respect to Construction Conversion or Renovation Mortgages with modification agreements) describe the special delivery instructions that are required to capture information about the Mortgage, both as modified and prior to modification. For modified Mortgages, all the applicable delivery data must be delivered under the “Modification” tab of the Loan Selling Advisor GUI rather than under the “Closing” tab of the GUI; data relating to the Mortgage prior to modification must be delivered under the “Closing” tab of the GUI. Additional loan data requirements specific to modified Mortgages are set forth in Sections 6302.27 and 6302.28(b)(iv).

(e) Seller’s warranties regarding accuracy of data

By delivering the required Mortgage data to Freddie Mac, the Seller warrants that the data is true, complete and accurate. Incorrect or missing loan or delivery information may result in rejection of the Mortgage(s) involved if discovered before purchase, or repurchase of the

Mortgage(s) involved if discovered after purchase. Additionally, Freddie Mac may pursue all other remedies available to it under the Purchase Documents and applicable law.

6302.2: Cash program delivery instructions (08/03/20)

(a) General requirements

The Seller may deliver eligible fixed-rate Mortgages after taking out a Cash Contract, as described in Sections 6101.3 and 6101.4, or eligible ARMs after taking out an ARM Cash contract, as described in Section 6102.4.

For Mortgages sold under the Cash program, a contract number (ULDD Data Point “Investor Contract Identifier”) will be available to a Seller immediately upon taking out a Cash Contract.

Delivery is mandatory unless the contract is a Best Efforts Contract. See Section 6101.4 for additional information regarding Best Efforts Contracts.

The Contract Commitment Amount specified on each Purchase Contract Confirmation must be at least \$1,000.

(b) Purchase tolerance

The purchase tolerance for Mortgages delivered under the Cash program is equal to the Contract Commitment Amount specified in the Cash Purchase Contract, plus or minus the greater of \$10,000 or 2.5% of the Contract Commitment Amount specified in the Cash Purchase Contract.

See Section 6401.1 for pairoff instructions if the delivery does not meet the Contract Commitment Amount less the purchase tolerance.

(c) Data delivery instructions

(i) Mortgages delivered under the Cash program

For Mortgages purchased by Freddie Mac under the Cash program, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages Delivered under the Cash Program			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
385	Loan Acquisition Scheduled UPB Amount		<p>For fixed-rate Mortgages, enter the scheduled UPB of the Mortgage as of the Funding Date.</p> <p>For ARMs, enter either the scheduled or the actual UPB of the Mortgage as of the Funding Date.</p> <p>The scheduled UPB must include reductions for:</p> <ul style="list-style-type: none"> ■ The principal due in the Funding Date month (even if not collected) and all prior months ■ The principal portion of any advanced (prepaid) installments received prior to the Funding Date ■ Any partial prepayments (curtailments) received on or before the Delivery Date
440	Last Paid Installment Due Date		<p>For newly originated Mortgages, enter the date through which interest is scheduled to be paid.</p> <p>For Mortgages for which there has been an advanced (prepaid) installment of interest, enter the date through which advanced (prepaid) installments of interest have been made.</p> <p>The related Glossary term is DDLPI.</p>

(ii) Mortgages with lender crediting the Borrower interest at closing

For Mortgages with respect to which the lender credits a Borrower interest at closing in an amount equal to the interest due from the first day of the month through the day before the Note Date, the Borrower's first monthly principal and interest payment is due the first day of the month immediately following the Mortgage closing. For such Mortgages, the

Seller represents and warrants that the lender credited the Borrower with interest at closing, and the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages Sold under Cash when Lender Credits Borrower Interest at Closing			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
440	Last Paid Installment Due Date		<p>For fixed-rate Mortgages, enter the Note Date or the first day of the month of closing.</p> <p>For ARMs, enter the first day of the month of closing.</p> <p>The related Glossary term is DDLPI.</p>

See Exhibit 8, Delivery Balance Examples.

6302.3: Guarantor program delivery instructions (06/03/19)

(a) Guarantor program requirements and instructions

For Mortgages sold under the Guarantor program, a contract number (ULDD Data Point “Investor Contract Identifier”) will be made available to the Seller immediately upon taking out a Guarantor contract.

In connection with each WAC ARM Guarantor Contract, the Seller must select the appropriate WAC ARM Security Product based on the characteristics of the ARMs.

(b) Purchase tolerance

For Guarantor contracts, any part of the Contract Commitment Amount specified in the Guarantor contract may be delivered, provided the minimum pool size is met.

The Seller can increase a Guarantor contract amount up to the remaining balance of the Commitment Amount plus the applicable tolerance.

(c) Data delivery instructions

(i) Mortgages sold under the Guarantor program

For Mortgages purchased by Freddie Mac under the Guarantor program, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages Sold under the Guarantor Program			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
385	Loan Acquisition Scheduled UPB Amount		<p>The scheduled UPB must include reductions for:</p> <ul style="list-style-type: none"> ■ The principal due in the month of settlement (even if not collected) and all prior months ■ The principal portion of any advanced (prepaid) installments received prior to the Settlement Date ■ Any partial prepayments (curtailments) received on or before the Delivery Date
440	Last Paid Installment Due Date		<p>For newly originated Mortgages, enter the date through which interest is scheduled to be paid.</p> <p>For Mortgages for which there has been an advanced (prepaid) installment of interest, enter the date through which advanced (prepaid) installments of interest have been made.</p> <p>The related Glossary term is DDLPI.</p>

(ii) Mortgages with lender crediting Borrower interest at closing

If a lender credits the Borrower interest at closing in an amount equal to the interest due from the first day of the month through the day before the Note Date, the Borrower's first monthly principal and interest payment is due the first day of the month immediately following the Mortgage closing. For such Mortgages, the Seller represents and warrants that the lender credited the Borrower with interest at closing, and the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages Sold under Guarantor when Lender Credits Borrower Interest at Closing			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
440	Last Paid Installment Due Date		<p>For fixed-rate Mortgages, enter the Note Date or first day of the month of closing.</p> <p>For ARMs, enter the first day of the month of closing.</p> <p>The related Glossary term is DDLPI.</p>

See Exhibit 8, Delivery Balance Examples.

(iii) ARMs with next Interest Change Dates in the month of settlement

For ARMs, if the next Interest Change Date is during the month of settlement, the Seller must deliver the following ULDD Data Points as if the Interest Change Date had already occurred. For example, if the Seller delivers an annually adjusting ARM on February 27 for settlement on March 23, and the Interest Change Date is March 1, the Seller must enter the following values:

ULDD Data Point	Calculation Instructions
Next Rate Adjustment Effective Date	March 1 of the following year
Per Change Rate Adjustment Effective Date For Adjustment Rule Type = “First”	March 1 of the current year
Current Interest Rate Percent	The Note Rate in effect as of March 1 of the current year
Principal And Interest Payment Amount	The amount of the principal and interest (P&I) payment due as of March 1 of the current year

(iv) ARMs past the first Interest Change Date

ARMs that are past the first Interest Change Date may be delivered with ARMs that are not past the first Interest Change Date.

(d) Pooling requirements

Refer to Chapter 6202 for pooling requirements for fixed-rate Mortgages under the fixed-rate Guarantor or MultiLender Swap programs and for pooling requirements for ARMs under the WAC ARM Guarantor program.

(e) Security wire instructions

Security wire instructions are required for all pools. See Section 2201.1 for information regarding Certificate of Incumbency requirements. See Sections 6203.8 and 6204.8 for information about security wire instructions. See also Section 2403.11 for information regarding authorized Loan Selling Advisor® users and their designated user roles and completion and submission of required forms.

(f) Use of a Settlement Cycle of less than five days for Guarantor deliveries

For Mortgages delivered to Freddie Mac with a Settlement Cycle of less than five days, the Document Custodian must certify the Mortgages in Loan Selling Advisor by no later than 8:00 p.m. Eastern time on the Final Delivery Date to satisfy the requirements for completion of delivery set forth in Section 6301.8. Refer to Section 6301.8(a) for additional requirements.

6302.4: MultiLender Swap program delivery instructions (12/11/17)

(a) General requirements

For Mortgages sold under the MultiLender Swap program, a contract number (ULDD Data Point “Investor Contract Identifier”) will be made available to the Seller immediately upon taking out a MultiLender Swap Contract. For more information, see Chapter 6205.

The Seller must complete delivery of all Mortgages on or before the Final Delivery Date as provided in the MultiLender Swap Contract.

The Contract Commitment Amount specified in the MultiLender Swap Contract must be in an amount at least equal to the minimum commitment amount specified in Section 6302.4(d).

(b) Purchase tolerance

For MultiLender Swap Contracts, any part of the Contract Commitment Amount specified in the MultiLender Swap Contract may be delivered, provided the minimum commitment amount is met. The maximum amount that Freddie Mac will purchase is the Contract Commitment Amount specified in the MultiLender Swap Contract, plus the greater of \$100,000 or 5% of the Contract Commitment Amount.

The Seller can increase a MultiLender Swap Contract amount up to an amount that does not exceed the remaining balance of the Commitment Amount plus the applicable tolerance.

(c) Data delivery instructions

(i) Mortgages sold under MultiLender Swap

For Mortgages purchased by Freddie Mac under the MultiLender Swap program, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages Sold under MultiLender Swap			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
385	Loan Acquisition Scheduled UPB Amount		<p>The scheduled UPB must include reductions for:</p> <ul style="list-style-type: none">■ The principal due in the month of settlement (even if not collected) and all prior months■ The principal portion of any advanced (prepaid) installments received prior to the Settlement Date■ Any partial prepayments (curtailments) received on or before the Delivery Date
440	Last Paid Installment Due Date		<p>For newly originated Mortgages, enter the date through which interest is scheduled to be paid.</p> <p>For Mortgages for which there has been an advanced (prepaid) installment of interest, enter the date through which advanced (prepaid) installments of interest have been made.</p> <p>The related Glossary term is DDLPI.</p>

(ii) Mortgages with lender crediting Borrower interest at closing

If a lender credits the Borrower interest at closing in an amount equal to the interest due from the first day of the month through the day before the Note Date, the Borrower's first monthly principal and interest payment is due the first day of the month immediately following the Mortgage closing. For such Mortgages, the Seller represents and warrants that the lender credited the Borrower with interest at closing, and the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages Sold under MultiLender Swap program when Lender Credits Borrower Interest at Closing			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
440	Last Paid Installment Due Date		For fixed-rate Mortgages, enter the Note Date or first day of the month of closing. The related Glossary term is DDLPI.

See Exhibit 8, Delivery Balance Examples.

(d) Minimum commitment amount

The minimum dollar amount for a commitment entered into under the MultiLender Swap program is \$1,000.

(e) Security wire instructions

Security wire instructions are required for all MultiLender pools. See Section 2201.1 for information regarding Certificate of Incumbency requirements. See Section 6205.8 for information about security wire instructions. See also Section 2403.11 for information regarding authorized Loan Selling Advisor® users and their designated user roles and completion and submission of required forms.

(f) Use of a Settlement Cycle of less than five days for MultiLender Swap program

For Mortgages delivered to Freddie Mac with a Settlement Cycle of less than five days, the Document Custodian must certify the Mortgages in Loan Selling Advisor by no later than 8:00 p.m. Eastern time on the Final Delivery Date to satisfy the requirements for completion

of delivery set forth in Section 6301.8. Refer to Section 6301.8(a) for additional requirements.

6302.5: Loan data required for all Mortgages (10/06/21)

(a) General requirements

This section sets forth the ULDD Data Points that have general applicability for all Mortgages sold to Freddie Mac. The delivery instructions in subsequent sections of this chapter relate to the specific attributes of the Mortgage Product, the property and Borrower information, and the special features or characteristics of the Mortgage. The delivery instructions in subsequent sections are cumulative and may supplement or modify the instructions in this section. See Section 6302.1 for further information.

See Sections 6302.2 through 6302.4 for instructions for specific programs under which the Mortgage is delivered.

(b) Data delivery instructions

(i) All Mortgages

For every Mortgage sold to Freddie Mac, the Seller must deliver the following ULDD Data Points:

Loan Data Required for All Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
93	Loan Role Type ^{1, 2}	Subject Loan	
252	Loan State Date ¹		Enter the Note Date of the Mortgage.
253	Loan State Type ^{1, 2}	At Closing	
→Product Information → Product Details

(B) Data delivery requirements for loans closed with Remote Online Notarization

For Mortgages with Remote Online Notarization, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Remote Online Notarization			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	J22	Enter this value for Mortgages with Remote Online Notarization, as described in Section 1401.16.

(iii) Mortgages closed with Remote Ink Notarization

For Mortgages closed with Remote Ink Notarization, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages closed with Remote Ink Notarization			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	J95	Enter this value for Mortgages with Remote Ink Notarization, as described in Section 1401.24.

6302.6: Loan data required for fixed-rate Mortgages (06/03/19)

(a) General requirements

Refer to Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for fixed-rate Mortgages sold under fixed-rate Cash, the fixed-rate Guarantor program or the MultiLender Swap program.

(b) Data delivery instructions

For conventional fixed-rate Mortgages, the Seller must deliver the following ULDD Data Point:

Loan Data Required for All Fixed-Rate Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Product Information → Product Details			
138	Loan Amortization Type ¹	Fixed	Enter "Fixed" for a fixed-rate Mortgage.

¹ This data point must be populated to save the file in Loan Selling Advisor®.

See Section 6302.26(b) for instructions for delivering data for Mortgages sold through Cash-Released XChange® under fixed-rate Cash.

(c) Delivery programs

10-, 15-, 20- and 30-year fixed-rate Mortgages may be sold only under the following:

- Fixed-rate Cash
- Fixed-rate Guarantor
- MultiLender Swap

(d) Pooling requirements for UMBS®, MBS and Supers®

Refer to Chapter 6202 for general pooling requirements for fixed-rate Mortgages sold under the fixed-rate Guarantor or MultiLender Swap programs.

6302.7: Loan data required for ARMs (10/01/21)

(a) General requirements

Refer to Chapter 4401 for special eligibility requirements for ARMs.

Refer to Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for ARM products sold under ARM Cash and the WAC ARM Guarantor program.

(b) Data delivery instructions

For ARMs, the Seller must deliver the following ULDD Data Points:

Loan Data Required for ARMs			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→Product Information → Product Details			
138	<i>Loan Amortization Type</i> ²	<i>Adjustable Rate</i>	<i>Enter “Adjustable Rate” for an ARM.</i>
→Note Information

			following each Interest Change Date. The related Glossary term is Payment Change Date.
110/111	Index Source Type/Index Source Type Other Description (In Loan Selling Advisor® this appears as “Index Source Type”)	<ul style="list-style-type: none"> ▪ Other – 30-day Average SOFR 	Enter “30DayAverageSOFR” for SOFR-indexed ARMs.
312	Disclosed Index Rate Percent		Enter the value of the index (Sort ID 110 – “Index Source Type”) used to generate the Settlement/Closing Disclosure Statement. Enter the value of the index used to calculate the initial Note Rate for an ARM (not taking into account any discounts or premiums). This is the value of the index in effect the day the Settlement/Closing Disclosure Statement provided to the Borrower was prepared.
113	Interest And Payment Adjustment Index Lead Days Count	45	Enter the number of days preceding the “Per Change Rate Adjustment Effective Date” (Interest Change Date). The related Glossary term is Lookback Period.
119	Margin Rate Percent		The related Glossary term is Margin.
114	Ceiling Rate Percent		Enter the sum of the Note Rate at origination plus the Life Cap. The related Glossary term is Lifetime Ceiling.
116	Floor Rate Percent		If a Lifetime Floor is stated in the Note, the

Loan Data Required for ARMs			
Sort ID	ULDD Data Point	Valid Value	Notes
			Seller is encouraged to deliver this ULDD Data Point. The Lifetime Floor must equal the Margin. For ARMs with Note Dates on or after October 1, 2016, if the Seller does not deliver this ULDD Data Point Freddie Mac will populate this ULDD Data Point with the Margin that the Seller delivers in the ULDD Data Point <i>Margin Rate Percent</i> (Sort ID 119). The related Glossary term is Lifetime Floor.
118	Interest Rate Rounding Type	Nearest	Enter if interest rate rounding is specified in the Note.
117	Interest Rate Rounding Percent	0.125	The value for interest rate rounding is “0.125.”
→→→ First Adjustment			
120	Adjustment Rule Type ¹	First	Use to describe the initial adjustment structure and caps.
124	Per Change Rate Adjustment Frequency Months Count		Enter the number of months between the initial rate adjustment and the second rate adjustment.
123	Per Change Rate Adjustment Effective Date (In Loan Selling Advisor®, this appears as “First Rate Adjustment Effective Date.”)		The related Glossary term is Interest Change Date.
122	Per Change Maximum Increase Rate Percent		Enter the Initial Cap.
121	Per Change Maximum Decrease Rate Percent		Enter the Initial Cap if it exists.

Loan Data Required for ARMs			
Sort ID	ULDD Data Point	Valid Value	Notes
→ → → Subsequent Adjustment			
120	Adjustment Rule Type ¹	Subsequent	Use to identify the periodic adjustment structure and caps.
124	Per Change Rate Adjustment Frequency Months Count		Enter the number of months between the second rate adjustment and the third rate adjustment.
123	Per Change Rate Adjustment Effective Date (In Loan Selling Advisor, this appears as “Subsequent Rate Adjustment Effective Date.”)		Enter the second (first periodic) Interest Change Date.
122	Per Change Maximum Increase Rate Percent		Enter the Periodic Cap.
121	Per Change Maximum Decrease Rate Percent		Enter the Periodic Cap if it exists.
LOAN – Current			
→ Payment Information			
→→ ARM Details			
355	Next Rate Adjustment Effective Date		Enter the next Interest Change Date occurring after the Mortgage is delivered to Freddie Mac. The related Glossary term is Interest Change Date.
436	Principal And Interest Payment Amount		Enter the value as of the Funding Date.
395	Current Interest Rate Percent		Enter the value as of the Funding Date.

¹ This data point name does not appear as a Loan Selling Advisor input field, but instead is reflected in a screen heading or tab.

² This data point must be populated to save the file in Loan Selling Advisor.

(c) Delivery programs

ARMs may be sold only under the following:

- ARM Cash

- WAC ARM Guarantor

(d) Additional requirements for WAC ARM Guarantor Contracts

Refer to Sections 6201.1(b) and 6204.1 for eligible ARM products that may be sold under the WAC ARM Guarantor program. Refer to Chapter 6201 for specific requirements for selling ARMs under the WAC ARM Guarantor program.

(e) Pooling requirements for WAC ARM PCs

Refer to Chapter 6202 for pooling requirements for ARMs under the WAC ARM Guarantor program.

6302.8: Property data required for all Mortgages (09/01/22)

(a) Property data for all Mortgages

To describe the Mortgaged Premises that secure Mortgages sold to Freddie Mac, the Seller must deliver the following ULDD Data Points:

Property Data Required for All Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information			
→→Subject Property Address			
10	Address Line Text (In Loan Selling Advisor®, this appears as “Street Address.”)		Enter the complete street address for the property.

			<p>was completed (not one-on-one).</p> <p>Enter “Home Study” if the Borrower completed homeownership education using Freddie Mac’s online CreditSmart® Homebuyer U.</p> <p>Enter “Individual” if one-on-one counseling was performed.</p> <p>Enter “Other – Borrower Did Not Participate” if the referenced Borrower did not participate in homeownership education, and the required homeownership education was completed by an occupying Borrower on the loan.</p>
--	--	--	--

(c) Data for non-individual Borrowers

(i) One or more Borrowers is a Living Trust

If one or more Borrowers on a loan is a Living Trust, the Seller must deliver the ULDD data points below for each Borrower that is a Living Trust. The Seller must identify the Borrower as a “Living Trust,” and complete the personal information fields based on the personal data of the Underwritten Settlor(s) of the trust. See Section 5103.5 for requirements regarding Mortgages with respect to which the Borrower is a Living Trust.

Data Required for Non-Individual Borrowers when one or more Borrowers is a Living Trust			
Sort ID	ULDD Data Point	Valid Value	Notes
BORROWER			
→ Borrower Information			
→→ Borrower Details			
545/546	Legal Entity Type/Legal Entity Type Other Description (In Loan Selling Advisor, this appears as “Non-Individual Borrower Type.”)	Other – Living Trust	
544	Full Name ¹ (In Loan Selling Advisor, this appears as “Non-Individual Borrower Name.”)		If the Borrower is a Living Trust, indicate the complete unparsed name of the Underwritten Settlor. For example, “John W. Johnson”

¹ This data point must be populated for the Primary Borrower in order to save the file in Loan Selling Advisor.

(ii) Borrower is a Native American tribe or tribal organization

Refer to Section 6302.13 for delivery requirements applicable to Section 184 Native American Mortgages when the non-individual Borrower is a Native American tribe or tribal organization.

6302.10: Loan Product Advisor® Mortgage underwriting data delivery requirements (06/01/23)

(a) General requirements

For each Loan Product Advisor® Mortgage delivered to Freddie Mac, the Seller is required to include the Key Number. A Mortgage delivered without a Key Number will be considered a Non-Loan Product Advisor Mortgage.

Refer to Chapter 5101 for additional information on Loan Product Advisor Mortgages.

(b) Data for Loan Product Advisor Mortgages

If the Mortgage is a Loan Product Advisor Mortgage, the Seller must deliver the following ULDD Data Points:

Loan Product Advisor Mortgage Underwriting Data Requirements			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Underwriting / Credit Information → Underwriting Details			
328	<i>Loan Manual Underwriting Indicator</i>	<ul style="list-style-type: none"> ▪ <i>false</i> ▪ <i>true</i> 	<p><i>Enter “false” if the loan underwriting decision is not based on manual underwriting and is based on the recommendation of Loan Prospector or Loan Product Advisor.</i></p> <p><i>Enter “true” if the LP or LPA Risk Class is Caution and the loan was manually underwritten prior to delivery.</i></p>
326/327	Automated Underwriting System Type / Automated Underwriting System Type Other Description (In Loan Selling Advisor®, this appears as “Automated Underwriting System Type.”)	Loan Prospector Other – Loan Product Advisor	For Loan Prospector Mortgages, enter “Loan Prospector.” Enter “Other – Loan Product Advisor” if Loan Product Advisor was used to assess the loan.
325	Automated Underwriting Recommendation Description	<ul style="list-style-type: none"> ▪ Accept ▪ Caution 	Enter the applicable Risk Class/Classification for Loan Prospector or Loan Product Advisor Mortgages.
322	Automated Underwriting Case Identifier		Enter the Loan Prospector AUS Key Number. The related Glossary term is Key Number.
LOAN – Current			
→ Product Information → Product Details			
→→Modification Details			
397	<i>Mortgage Modification Indicator</i>	<i>false</i>	

(c) Special delivery requirements for Mortgages with appraisal waivers

See Section 5602.3 for more information on automated collateral evaluation.

For Mortgages for which the Seller accepts an appraisal waiver, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Appraisal Waivers			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information			
→→ Property Details			
67	<i>Property Structure Built Year</i>		<i>Leave blank or enter “9999” if the Seller accepts an appraisal waiver.</i>
→→ Appraisal / Valuation Property Details			
89	<i>Property Valuation Method Type</i>	<i>None</i>	
83	<i>Property Valuation Amount</i>		<i>For refinance Mortgages, enter the “Borrower Estimated Value” that was provided in Loan Product Advisor®.</i> <i>For purchase Mortgages, enter the Purchase Price Amount of the delivered loan.</i>
LOAN – Current			
→ Product Information → Product Details			
376	Investor Collateral Program Identifier	Property Inspection Alternative	Enter “Property Inspection Alternative” if the Seller accepted an appraisal waiver offer.

6302.11: Non-Loan Product Advisor® Mortgage data delivery requirements (03/05/18)

(a) General requirements

The Seller must not deliver any Key Number for Non-Loan Product Advisor Mortgages.

(b) Data for Non-Loan Product Advisor Mortgages

For Non-Loan Product Advisor Mortgages, the Seller must deliver the following ULDD Data Points:

Non-Loan Product Advisor Mortgage Underwriting Data Requirements			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Underwriting / Credit Information → Loan Level Credit Details			
328	<i>Loan Manual Underwriting Indicator</i>	<i>true</i>	<i>Enter “true” if the loan underwriting decision is based on manual underwriting.</i>
251	Loan Level Credit Score Value		Enter if the Indicator Score exists. The related Glossary term is Indicator Score.
249	Loan Level Credit Score Selection Method Type	<ul style="list-style-type: none"> ▪ Average Then Average ▪ Middle Or Lower Then Average ▪ Middle Or Lower Then Lowest 	Enter if the Indicator Score exists.
247	Credit Score Impairment Type	<ul style="list-style-type: none"> ▪ Insufficient Credit History ▪ Significant Errors Score 	Enter if the Indicator Score does not exist or is not usable.

6302.12: Special delivery requirements for FHA/VA Mortgages (06/03/19)

(a) General requirements

See Section 4205.4 for special eligibility requirements for FHA/VA Mortgages.

See Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for fixed-rate FHA/VA Mortgages.

(b) Data delivery instructions

For FHA/VA Mortgages, the Seller must not deliver mortgage insurance ULDD Data Points.

(i) FHA Mortgages

For FHA Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for FHA Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Product Information → Product Details			
317	<i>Mortgage Type</i>	<i>FHA</i>	<i>Enter this value for FHA Mortgages.</i>
198	Section Of Act Type	■ 203B ■ 234C	Enter “234C” for condominiums and “203B” for all other FHA Mortgages.

(ii) VA Mortgages

For VA Mortgages, the Seller must deliver the following ULDD Data Point:

Data Required for VA Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Product Information → Product Details			
317	<i>Mortgage Type</i>	<i>VA</i>	<i>Enter this value for VA Mortgages.</i>

(c) Delivery programs

FHA/VA Mortgages may be sold only under the following:

- Fixed-rate Cash
- Fixed-rate Guarantor
- MultiLender Swap

(d) Pooling requirements for MBS

Refer to Chapter 6202 for pooling requirements for FHA/VA Mortgages under the fixed-rate Guarantor or MultiLender Swap programs.

6302.13: Special delivery requirements for Section 184 Native American Mortgages (06/03/19)

(a) General requirements

See Section 4205.3 for special eligibility requirements for Section 184 Native American Mortgages.

See Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for Section 184 Native American Mortgages.

(b) Data delivery instructions

For Section 184 Native American Mortgages, the Seller must not deliver mortgage insurance ULDD Data Points.

(i) All Section 184 Native American Mortgages

For Section 184 Native American Mortgages with no special characteristics, the Seller must deliver the following ULDD Data Points:

Loan Data Required for Section 184 Native American Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→Product Information → Product Details			
317/318	Mortgage Type/Mortgage Type Other Description (In Loan Selling Advisor®, this appears as “Mortgage Type.”)	Other – Public And Indian Housing	
198	Section Of Act Type	184	

(ii) Section 184 Native American Mortgages with special characteristics

For Section 184 Native American Mortgages with the indicated property characteristics, the Seller must deliver the following ULDD Data Points:

Loan Data Required for Section 184 Native American Mortgages If Applicable			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Property Details			
63	<i>Property Estate Type</i>	<i>Leasehold</i>	<i>Enter this value if the subject property is located on tribal trust land.</i>
LOAN – Current			
→ Product Information → Product Details			
368	<i>Investor Feature Identifier</i>	130	<i>Enter this value if the subject property is located on allotted land.</i>

(iii) Borrower is a tribe or tribal organization

If the Borrower is a Native American tribe or tribal organization, the Seller must not deliver First-Time Homebuyer or Co-Borrower ULDD Data Points.

If the Borrower is a Native American tribe or tribal organization, the Seller must deliver the following ULDD Data Points:

Data Required for Native American Tribe or Tribal Organization			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Property Details			
69	<i>Property Usage Type</i>	<i>Investment</i>	
LOAN – Closing			
→ Origination Information → Origination Details

BORROWER			
→ Borrower Information – Borrower 1 (Primary Borrower)			
→ → Borrower Details (Borrower 1)			
571	<i>Borrower Classification Type¹</i>	<i>Primary</i>	<i>Enter “Primary” when there is one Borrower.</i>

Data Required for Native American Tribe or Tribal Organization			
Sort ID	ULDD Data Point	Valid Value	Notes
545/546	<i>Legal Entity Type /Legal Entity Type Other Description (In Loan Selling Advisor, this appears as "Non-Individual Borrower Type.")</i>	<i>Other - Native American Tribe Or Tribal Organization</i>	<i>Enter this value when a Native American tribe or tribal organization is the non-individual title holder of the Mortgaged Premises.</i>
544	<i>Full Name¹ (In Loan Selling Advisor, this appears as "Non-Individual Borrower Name.")</i>		<i>Enter the name of the Native American tribe or tribal organization.</i>

¹ This data point must be populated to save the file in Loan Selling Advisor.

(c) Delivery programs

Section 184 Native American Mortgages may be sold only under the following:

- Fixed-rate Cash
- Fixed-rate Guarantor
- MultiLender Swap

(d) Pooling requirements for MBS

Refer to Section 6202.3 for special pooling requirements for Section 184 Native American Mortgages under the fixed-rate Guarantor or MultiLender Swap programs.

6302.14: Special delivery requirements for Home Possible® Mortgages (04/26/21)

(a) General requirements

See Chapter 4501 for special eligibility requirements for Home Possible® Mortgages.

See Section 5103.6 for requirements related to homeownership education.

See Section 4501.5 for requirements for Home Possible Mortgages with temporary subsidy buydowns.

See Section 4205.2 for special eligibility requirements for Home Possible Mortgages with RHS Leveraged Seconds.

See Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for Home Possible Mortgages.

(b) Data delivery instructions

(i) All Home Possible Mortgages

For Home Possible Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for Home Possible Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→Product Information → Product Details			
238	<i>Loan Affordable Indicator</i>	<i>true</i>	<i>Enter “true” for Home Possible Mortgages.</i>

LOAN – Current			
→ Secondary Financing / Related Loan Details			
517	Lien Priority Type	Second Lien	
519	Mortgage Type	USDA Rural Housing	

(v) Home Possible Mortgages originated with sweat equity

For Home Possible Mortgages originated with sweat equity as a credit towards the Down Payment and/or Closing Costs, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for Home Possible Mortgages in Section 6302.14(b)(i):

Data Required for Home Possible Mortgages with Sweat Equity			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	J11	Enter this value indicating Duty to Serve (DTS) sweat equity.

(c) Delivery programs

Home Possible Mortgages may be sold under the following:

- Cash
- Guarantor
- MultiLender Swap

6302.15: Special delivery requirements for Section 502 GRH Mortgages (06/03/19)

(a) General requirements

See Section 4205.1 for special eligibility requirements for Section 502 GRH Mortgages.

See Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for fixed-rate Section 502 GRH Mortgages.

(b) Data delivery instructions

For Section 502 GRH Mortgages, the Seller must not deliver mortgage insurance ULDD Data Points.

For Section 502 GRH Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for Section 502 GRH Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Product Information → Product Details			
317	<i>Mortgage Type</i>	<i>USDA Rural Housing</i>	<i>Enter “USDA Rural Housing” for Section 502 GRH Mortgages.</i>
198	Section Of Act Type	502	Enter “502” with Mortgage Type = “USDA Rural Housing.”

(c) Delivery programs

Assumable and nonassumable Section 502 GRH Mortgages may be sold only under the following:

- Fixed-rate Cash
- Fixed-rate Guarantor

- MultiLender Swap

Nonassumable Section 502 GRH Mortgages sold under the fixed-rate Guarantor or MultiLender Swap programs must be sold with conventional Mortgages.

(d) Pooling requirements for MBS

Refer to Section 6202.3 for special pooling requirements for assumable and nonassumable Section 502 GRH Mortgages under the fixed-rate Guarantor or MultiLender Swap programs.

6302.16: Special delivery requirements for refinance Mortgages (07/07/21)

(a) General requirements

6302.17: Special delivery requirements for fixed-rate relocation Mortgages (06/03/19)

(a) General requirements

See Section 6202.3 for the definition of a relocation Mortgage. A 10-, 15-, 20- or 30-year fixed-rate Mortgage that complies with the definition must be sold to Freddie Mac as a relocation Mortgage.

(b) Data delivery instructions

For relocation Mortgages that comply with Section 6202.3, the Seller must deliver the following ULDD Data Point:

Data Required for Relocation Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – At Closing			Enter “true” only if the Mortgage is a fixed-rate Mortgage that complies with Section 6202.3.
→ Underwriting / Credit Information → Loan Details			
241	<i>Relocation Loan Indicator</i>	true	

(c) Delivery programs

Fixed-rate relocation Mortgages may be sold only under the following:

- Fixed-rate Cash
- Fixed-rate Guarantor
- MultiLender Swap

(d) Pooling requirements for UMBS®, MBS and Supers®

Refer to Section 6202.3 for pooling requirements for fixed-rate relocation Mortgages under the fixed-rate Guarantor or MultiLender Swap programs.

6302.18: Special delivery requirements for subsidy buydown Mortgages (06/03/19)

(a) General requirements

See Section 4204.4 for special eligibility requirements for Mortgages with temporary subsidy buydowns.

See Section 4501.5 for eligibility requirements for Home Possible® Mortgages with temporary subsidy buydowns.

See Section 6302.26 for data requirements for loans with temporary subsidy buydowns sold through Cash-Released XChange®.

(b) Data delivery instructions

For Mortgages with temporary subsidy buydowns (including Seller-Owned Modified Mortgages), the Seller must deliver the following ULDD Data Points:

Data Required for Subsidy Buydown Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing and LOAN – Modification			
→ Note Information			
→ Note Details			
321	Note Rate Percent		<i>Enter the interest rate shown on the Note (without reference to the temporary buydown subsidy).</i>
268	Initial Principal and Interest Payment Amount		<i>Enter the monthly payment shown on the Note (without reference to the temporary buydown subsidy).</i>
→ Temporary Buydown Details

The scheduled UPB must include reductions for:</i></p> <ul style="list-style-type: none"> ■ <i>The principal due in the Funding Date month (even if not collected) and all prior months</i> ■ <i>The principal portion of any advanced (prepaid) installments received prior to the Funding Date</i> ■ <i>Any partial prepayments (curtailments) received on or before the Delivery Date</i>
440	<i>Last Paid Installment Due Date</i>		<p><i>For newly originated Mortgages with respect to which the first payment due date has not yet occurred, enter the date through which interest has been paid in the month of funding.</i></p> <p><i>For Mortgages for which there has been an advanced (prepaid) installment of interest, enter the date through which advanced (prepaid) installments of interest have been made.</i></p> <p><i>For all other Mortgages, enter the date of the Borrower's last paid installment.</i></p>

Data Required for Mortgages with Funding Dates No More than 10 Days Past the DDLPI, When the DDLPI and the Funding Date are in the Same Month			
Sort ID	ULDD Data Point	Valid Value	Notes
			The related Glossary term is DDLPI.

(ii) Mortgages with Funding Dates more than 10 days after the DDLPI, when the DDLPI and the Funding Date are in the same month

For Mortgages sold through Cash-Released XChange when the Funding Date is more than 10 days after the DDLPI, and when the DDLPI and the Funding Date are in the same month, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Funding Dates More than 10 Days after the DDLPI, When the DDLPI and the Funding Date are in the Same Month			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
385	<i>Loan Acquisition Scheduled UPB Amount</i>		<p><i>The scheduled UPB must include reductions for:</i></p> <ul style="list-style-type: none"> ■ <i>The principal due in the month after the Funding Date, the principal due in the month of settlement (even if not collected) and all prior months</i> ■ <i>The principal portion of any advanced (prepaid) installments received prior to the Funding Date</i> ■ <i>Any partial prepayments (curtailments) received on or before the Delivery Date</i>
440	<i>Last Paid Installment Due Date</i>		<p><i>For newly originated Mortgages with respect to which the first payment due date has not yet occurred, enter the date through which interest has been paid in the month of funding.</i></p> <p><i>For Mortgages for which there has been an advanced (prepaid) installment of interest, enter the date through which advanced (prepaid) installments of interest have been made.</i></p>

Data Required for Mortgages with Funding Dates More than 10 Days after the DDLPI, When the DDLPI and the Funding Date are in the Same Month			
Sort ID	ULDD Data Point	Valid Value	Notes
			<p><i>For all other Mortgages, enter the date of the Borrower's last paid installment.</i></p> <p>The related Glossary term is DDLPI.</p>

See Exhibit 8, Delivery Balance Examples.

(iii) Mortgages with Escrow accounts

For Mortgages with Escrow accounts sold through Cash-Released XChange, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Escrow Accounts, Sold through Cash-Released XChange			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Origination Information			
→ → Origination Details			
234	<i>Escrow Indicator</i>	<i>True</i>	
→ → Other Funds Collected at Closing Details			
158	Other Funds Collected At Closing Type	Escrow Funds	
157	Other Funds Collected At Closing Amount		Enter the total amount of all Escrow funds.
LOAN – Current			
→ Origination Information → Escrow Details			
363	Escrow Balance Amount		Enter the Escrow balance amount.
364/365	Escrow Item Type/ Escrow Item Type Other Description (In Loan Selling Advisor, this appears as "Escrow Item Type.")	<ul style="list-style-type: none"> ▪ Borough Property Tax ▪ City Property Tax ▪ County Property Tax ▪ District Property Tax ▪ Earthquake Insurance ▪ Flood Insurance ▪ Hazard Insurance ▪ Mortgage Insurance 	Enter the applicable valid value for each insurance or tax to be paid from Escrow.

247	<i>Credit Score Impairment Type</i>	<ul style="list-style-type: none"> ▪ <i>Insufficient Credit History</i> ▪ <i>Significant Errors Score</i> 	<i>Enter if the Indicator Score does not exist or is not usable.</i>

6302.27: Special delivery requirements for Seller-Owned Modified Mortgages (12/11/17)

(a) General requirements

See Chapter 4402 for special eligibility requirements for Seller-Owned Modified Mortgages.

(b) Data delivery instructions

For Seller-Owned Modified Mortgages, the Seller must deliver all required loan data for the original loan that was modified, as well as the ULDD Data Points for the modified Mortgage.

(i) Seller-Owned Modified Mortgages

For Seller-Owned Modified Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for Seller-Owned Modified Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Modification			
252	<i>Loan State Date</i> ¹		<i>Enter the effective date of the modification agreement.</i>
253	<i>Loan State Type</i> ^{1, 2}	<i>At Modification</i>	
→ Modification Information → Modification Details			
259	Loan Modification Effective Date ²		Enter the effective date of the modification agreement.
→ Product Information → Product Details			
313	<i>Lien Priority Type</i>		<i>Not required for Seller-Owned Modified Mortgages.</i>
→ Note Information → Note Details			
320	<i>Note Date</i>		<i>Not required for Seller-Owned Modified Mortgages.</i>
→ Underwriting / Credit Information → Streamlined Loan Details			
222	Related Loan Investor Type	Seller	Enter “Seller” for Seller-Owned Modified Mortgages.

Data Required for Seller-Owned Modified Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
→→Modification Details			
397	<i>Mortgage Modification Indicator</i>	<i>true</i>	

1 This data point name does not appear as a Loan Selling Advisor® input field, but instead is reflected in a screen heading or tab.

2 This data point must be populated to save the file in Loan Selling Advisor.

(ii) Original loan that was modified

For Seller-Owned Modified Mortgages, with respect to the original loan that was modified, the Seller must deliver the following ULDD Data Points:

Original Loan Data Required for Seller-Owned Modified Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing (Origination information for the loan prior to modification)			
332	Loan Role Type ¹	Subject Loan	Enter “Subject Loan” to indicate that the loan data applies to the Mortgage being delivered to Freddie Mac.
338	Loan State Date ¹		Enter the original Note Date of the modified Mortgage.
339	Loan State Type ¹	At Closing	Enter “At Closing” to indicate that the associated loan data is accurate as of the Note Date.
→Product Information			
→→ Product Details			
345	Lien Priority Type	First Lien	Enter the original lien priority of the Mortgage prior to modification.
347	Mortgage Type	Conventional	Enter the original mortgage type of the Mortgage prior to modification.
335	Interest Calculation Type	Simple	Enter the interest calculation type specified on the original Note prior to modification.

Original Loan Data Required for Seller-Owned Modified Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
342	Payment Frequency Type	Monthly	Enter the payment frequency on the original Note prior to the modification.
337	Balloon Indicator	false	Enter “false” unless the original Mortgage had a balloon feature prior to modification.
333	Loan Amortization Type	<ul style="list-style-type: none"> ▪ Adjustable Rate ▪ Fixed 	Enter the amortization type of the original Mortgage prior to modification.
→ →Interest Only Details			
337.2	Interest Only Indicator	false	
→Note Information → Note Details			
350	Note Date		Enter the original Note Date.
349	Note Amount		Enter the original Note amount of the loan prior to modification.
351	Note Rate Percent		Enter the interest rate as indicated on the original Note.
344	Scheduled First Payment Date		Enter the first payment date as stated on the Note prior to the modification.
340	Loan Maturity Date		Enter the maturity date on the original Note prior to modification.

¹ This data point name does not appear as a Loan Selling Advisor input field, but instead is reflected in a screen heading or tab.

(iii) Original ARM that was modified

For Seller-Owned Modified Mortgages, with respect to the original ARM that was modified, the Seller must deliver the following ULDD Data Points:

Original ARM Data Required for Seller-Owned Modified Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing (Origination information for the loan prior to modification)			
→Note Information → ARM Details			
337.1	Initial Fixed Period Effective Months Count		Enter the number of months for which the interest rate is fixed before the initial

			interest rate adjustment for the original Mortgage prior to modification.
→→→First Adjustment			
332.1	Adjustment Rule Type ¹	First	Enter “First” to indicate that the associated data relates to the initial adjustment structure and caps of the original Mortgage prior to modification.
332.2	Per Change Rate Adjustment Frequency Months Count		Enter the number of months between the initial rate adjustment and the second rate adjustment for the original Mortgage prior to modification.
→→→Subsequent Adjustment			
332.1	Adjustment Rule Type ¹	Subsequent	Enter “Subsequent” to indicate that the associated data relates to the periodic adjustment structure and caps of the original Mortgage prior to modification.
332.2	Per Change Rate Adjustment Frequency Months Count		Enter the number of months between the second rate adjustment and the third rate adjustment for the original Mortgage prior to modification.

¹ This data point name does not appear as a Loan Selling Advisor input field, but instead is reflected in a screen heading or tab.

6302.28: Special delivery requirements for Construction Conversion and Renovation Mortgages (08/01/21)

(a) General requirements

See Chapter 4602 for Construction Conversion and Renovation Mortgages.

There are three types of documentation structures for Construction Conversion and Renovation Mortgages: (1) Integrated Construction Conversion Documentation (Integrated Documentation); (2) Separate Construction Conversion Documentation (Separate Documentation); and (3) Modification Construction Conversion Documentation (Modification Documentation).

(b) Data delivery instructions

The ULDD Data Points and valid values that must be delivered are determined by both (1) the type of Mortgage (i.e., Construction Conversion Mortgage or Renovation Mortgage), and (2) the type of loan documentation used for the Mortgage.

(i) Construction Conversion and Renovation Mortgages

For all Construction Conversion and Renovation Mortgages, regardless of the type of loan documentation used, the Seller must deliver the following ULDD Data Point:

Data Required for Construction Conversion and Renovation Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
404	Loan Program Identifier	<ul style="list-style-type: none"> ▪ Construction Conversion ▪ Renovation 	Enter “Construction Conversion” for Construction Conversion Mortgages. Enter “Renovation” for Renovation Mortgages.

(ii) Mortgages with Integrated Documentation for site-built or Manufactured Homes

For Construction Conversion or Renovation Mortgages with Integrated Documentation for site-built homes and Construction Conversion Mortgages with Integrated Documentation for Manufactured Homes, the Seller must deliver the following ULDD Data Points:

Data Required for Construction Conversion or Renovation Mortgages with Integrated Documentation for Site-Built Homes and Construction Conversion Mortgages with Integrated Documentation for Manufactured Homes			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Construction Details			
51	Construction Method Type	<ul style="list-style-type: none"> ▪ Site Built ▪ Manufactured 	<i>If the valid value for Loan Program Identifier (Sort ID 404) is “Renovation,” enter “Site Built.”</i>

Data Required for Construction Conversion or Renovation Mortgages with Integrated Documentation for Site-Built Homes and Construction Conversion Mortgages with Integrated Documentation for Manufactured Homes			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Construction Details			
LOAN – Closing			
→ Underwriting / Credit Information → Construction Details			
167	Construction To Permanent First Payment Due Date		<p>Enter the Due Date of the first principal and interest (P&I) payment of the Permanent Financing as described in Section 4602.3(b). This is the Effective Date of Permanent Financing as described in the Glossary.</p> <p>This is the same as the Scheduled First Payment Date (Sort ID 272).</p>
165	Construction To Permanent Closing Type	One Closing	Enter “One Closing” as described in Section 4602.3(b).
163	Construction To Permanent Closing Feature Type	Automatic Conversion	Enter “Automatic Conversion” as described in Section 4602.3(b).
231	<i>Construction Loan Indicator</i>	<i>True</i>	<i>Enter “true” for Construction Conversion Mortgages and Renovation Mortgages.</i>
162	Construction Loan Type	Construction to Permanent	
→ Note Information → Note Details			
320	<i>Note Date</i>		<i>Enter the original Note Date of the integrated Interim Construction Financing and Permanent Financing documentation.</i>
321	<i>Note Rate Percent</i>		<i>Enter the rate in effect for the Permanent Financing.</i>

(iii) Mortgages with Separate Documentation for site-built homes or Manufactured Homes

For Construction Conversion or Renovation Mortgages with Separate Documentation for site-built homes and Construction Conversion Mortgages with Separate Documentation for Manufactured Homes, the Seller must deliver the following ULDD Data Points:

Data Required for Construction Conversion or Renovation Mortgages with Separate Documentation for Site-Built Homes and Construction Conversion Mortgages with Separate Documentation for Manufactured Homes			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Construction Details			
51	<i>Construction Method Type</i>	<ul style="list-style-type: none"> ▪ Site Built ▪ Manufactured 	<i>If the valid value for Loan Program Identifier (Sort ID 404) is "Renovation," enter "Site Built."</i>
LOAN – Closing			
→ Underwriting / Credit Information → Construction Details			
167	Construction To Permanent First Payment Due Date		<p>Enter the Due Date of the first P&I payment of the new Note for the Permanent Financing as described in Section 4602.3(b).</p> <p>This is the same as the Scheduled First Payment Date (Sort ID 272).</p>
165	Construction To Permanent Closing Type	Two Closing	Enter "Two Closing" as described in Section 4602.3(b).
163	Construction To Permanent Closing Feature Type	New Note	Enter "New Note" as described in Section 4602.3(b).
231	<i>Construction Loan Indicator</i>	True	<i>Enter "true" for Construction Conversion Mortgages and Renovation Mortgages.</i>
162	Construction Loan Type	Construction to Permanent	
→ Note Information → Note Details			
320	<i>Note Date</i>		<i>Enter the Note Date of the Permanent Financing documentation. This is the Effective Date of Permanent Financing as described in the Glossary.</i>
321	<i>Note Rate Percent</i>		<i>Enter the rate in effect for the Permanent Financing.</i>

(iv) Mortgages with Modification Documentation for site-built homes or Manufactured Homes

(A)Mortgages for permanent financing

For Construction Conversion or Renovation Mortgages with Modification Documentation and Construction Conversion Mortgages with Modification Documentation for Manufactured Homes, the Seller must use the “Modification” tab to enter the delivered Mortgage data, including the following ULDD Data Points:

Data Required for Construction Conversion or Renovation Mortgages with Modification Documentation for Site-Built Homes and Construction Conversion Mortgages with Modification Documentation for Manufactured Homes			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Construction Details			
51	<i>Construction Method Type</i>	<input checked="" type="checkbox"/> Site Built <input checked="" type="checkbox"/> Manufactured	<i>If the valid value for Loan Program Identifier (Sort ID 404) is “Renovation,” enter “Site Built.”</i>
LOAN – Modification			
252	<i>Loan State Date</i> ¹		<i>Enter the effective date of the modification agreement.</i> <i>Enter the Note Date of the new Note if a new Note is used instead of a modification agreement.</i> <i>See “Modification Agreement” as defined in Section 4602.3(b).</i>
253	<i>Loan State Type</i> ^{1, 2}	<i>At Modification</i>	
→ Modification Information → Modification Details			
259	<i>Loan Modification Effective Date</i> ²		<i>Enter the effective date of the modification agreement. This is the Effective Date of Permanent Financing as described in the Glossary.</i> <i>Enter the Note Date of the new Note if a new Note is used instead of a modification agreement.</i>
→ Note Information → Note Details			
321	<i>Note Rate Percent</i>		<i>Enter the rate in effect for the Permanent Financing.</i>
→ Underwriting / Credit Information → Construction Details			

Data Required for Construction Conversion or Renovation Mortgages with Modification Documentation for Site-Built Homes and Construction Conversion Mortgages with Modification Documentation for Manufactured Homes			
Sort ID	ULDD Data Point	Valid Value	Notes
167	Construction To Permanent First Payment Due Date		Enter the Due Date of the first P&I payment after the Date of the Modification Agreement or after the date of the new Note if a new Note is used instead of a modification agreement. This is the same as the Scheduled First Payment Date (Sort ID 272).
165	Construction To Permanent Closing Type	Two Closing	Enter “Two Closing” as described in Section 4602.3(b).
163	Construction To Permanent Closing Feature Type	Modification Agreement	Enter “Modification Agreement” as described in Section 4602.3(b).
231	<i>Construction Loan Indicator</i>	<i>true</i>	<i>Enter “true” for Construction Conversion Mortgages and Renovation Mortgages.</i>
162	Construction Loan Type	Construction to Permanent	
LOAN – Current			
→ Product Information → Product Details			
→→Modification Details			
397	<i>Mortgage Modification Indicator</i>	<i>true</i>	<i>Enter “true” for Construction Conversion and Renovation Mortgages with Modification Documentation.</i>

¹ This data point name does not appear as a Loan Selling Advisor® input field, but instead is reflected in a screen heading or tab.

² This data point must be populated to save the file in Loan Selling Advisor.

(B)Information for all construction loans

For Construction Conversion or Renovation Mortgages with Modification Documentation, with respect to the original construction loan that was modified, the Seller must deliver the following ULDD Data Points in the “Closing” tab:

Original Construction (Interim) Loan Data Required for Construction Conversion or Renovation Mortgages with Modification Documentation			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
332	<i>Loan Role Type</i> ¹	<i>Subject Loan</i>	<i>Enter “Subject Loan” to indicate that the loan data is the original construction loan data associated with the permanent loan sold to Freddie Mac.</i>
338	<i>Loan State Date</i> ¹		<i>Enter the original Note Date of the Interim Construction Financing documentation.</i>
339	<i>Loan State Type</i> ¹	<i>At Closing</i>	<i>Enter “At Closing” to indicate that the associated loan data is accurate as of the Note Date.</i>
→ Product Information			
→ → Product Details			
345	<i>Lien Priority Type</i>	<i>First Lien</i>	<i>Enter the lien priority of the Interim Construction Financing documentation.</i>
→ Note Information → Note Details			
350	<i>Note Date</i>		<i>Enter the original Note Date of the Interim Construction Financing documentation.</i>
349	<i>Note Amount</i>		<i>Enter the Note amount of the Interim Construction Financing documentation.</i>

¹ This data point name does not appear as a Loan Selling Advisor input field, but instead is reflected in a screen heading or tab.

6302.29: Special delivery requirements for Mortgages with Employer Assisted Homeownership (EAH) Benefits (07/06/17)

(a) General requirements

See Section 5501.4 and the sections referenced in that section for requirements regarding the use of Employer Assisted Homeownership (EAH) Benefits (EAH Benefits) as a source of funds for Down Payment, Closing Costs and reserves.

(b) Data delivery instructions

For Mortgages with EAH Benefits, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages with EAH Benefits			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	D25	Enter this value if the Mortgage has EAH Benefits.

6302.30: Special delivery requirements for Mortgages where Borrower uses credit card, cash advance or unsecured line of credit to pay fees (05/05/21)

(a) General requirements

See Section 5501.3(b) for requirements regarding Mortgages where Borrower uses a credit card or a cash advance on a revolving charge account or unsecured line of credit to pay fees associated with the Mortgage application process or for the credit report or appraisal report.

(b) Data delivery instructions

If the Borrower used a credit card, cash advance or unsecured line of credit to pay fees in connection with the origination of the Mortgage, the Seller must deliver the following ULDD Data Point:

Data Required when Borrower Used Credit Card, Cash Advance or Unsecured Line of Credit to Pay Fees			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
Underwriting / Credit Information			
290	Total Liabilities Monthly Payment Amount		Enter the monthly debt payment as defined in Section 5401.2, including the amount charged or advanced when it is included in the Borrower's total outstanding debt. Round to the nearest dollar.

6302.31: Special delivery requirements for super conforming Mortgages (12/01/22)

(a) General requirements

See Chapter 4603 for special eligibility requirements for super conforming Mortgages.

See Exhibit 17S, Available Mortgage Products, for more information about eligibility requirements for super conforming Mortgages.

(b) Data delivery instructions

For super conforming Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for Super Conforming Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information → Appraisal / Valuation Property Details			
89/90	<i>Property Valuation Method Type/Property Valuation Method Type Other Description (In Loan Selling Advisor®, this appears as “Property Valuation Method Type.”)</i>	<ul style="list-style-type: none"> ▪ Desktop Appraisal ▪ Full Appraisal ▪ Other – Desk Review ▪ Other – Field Review 	<p><i>Enter “Desktop Appraisal” if a desktop appraisal was used to value the subject property.</i></p> <p><i>Enter “Full Appraisal” if an interior and exterior inspection appraisal was used to value the subject property.</i></p> <p><i>Enter “Other – Desk Review” if a desk review was used to value the subject property.</i></p> <p><i>Enter “Other – Field Review” if a field review was used to value the subject property.</i></p>
82	<i>Appraisal Identifier</i>		<i>Enter the document file identifier of the appraisal (field reviews are not submitted to the Uniform Collateral Data Portal® (UCDP®)).</i>

(c) Delivery programs

Super conforming Mortgages are not eligible for sale under Best Efforts Contracts.

Sellers that have negotiated Pricing Identifier Terms permitting deliveries under the Guarantor Program of fixed-rate super conforming Mortgages may not deliver super conforming Mortgages under fixed-rate Cash Contracts.

(d) Delivery requirements for fixed-rate Cash Contracts

The UPB of all 10-, 15-, 20- and/or 30-year super conforming Mortgages delivered by the Seller under fixed-rate Cash Contracts during any month must not exceed \$2 million in

aggregate if the Seller's total cash deliveries are less than or equal to \$20 million or 10% of the UPB of each Mortgage product (10-, 15-, 20- or 30-year fixed rate) if the Seller's total cash deliveries are greater than \$20 million, not including:

- Freddie Mac Enhanced Relief Refinance® Mortgages with loan-to-value (LTV) ratios greater than 105% delivered by the Seller under fixed-rate Cash Contracts during such month; and
- Mortgages that receive cash specified payups in accordance with Section 6101.3(d)

(e) Pooling requirements for UMBS®, MBS and Supers®

Refer to Section 6202.3 for pooling requirements for fixed-rate super conforming Mortgages under the fixed-rate Guarantor or MultiLender Swap programs.

6302.32: Special delivery requirements for Mortgages with principal curtailments (03/02/16)

(a) General requirements

If the principal of a Mortgage is curtailed without recalculation of the monthly payment prior to the date the Mortgage is sold to Freddie Mac, the Seller must provide the data described in this section.

Mortgages with principal curtailments that result in modifications to recalculate the monthly payments must be delivered as Seller-Owned Modified Mortgages in accordance with Section 6302.27.

(b) Data delivery instructions

For Mortgages with principal curtailments that do not result in modifications to recalculate the monthly payments, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Principal Curtailments not Resulting in Recast Payment			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing			
→ Note Information → Note Details			
256	<i>Loan Maturity Date</i>		<i>Enter the date of the final monthly principal and interest (P&I) payment as indicated on the Note disregarding the effect of any curtailment.</i>

Data Required for Mortgages with Principal Curtailments not Resulting in Recast Payment			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Payment Information → Payment Details			
438	Aggregate Loan Curtailment Amount		Enter the total of all curtailments received as of the Funding Date.

6302.33: Special delivery requirements for Mortgages in which assets are used as a basis for repayment of obligations (09/14/17)

(a) General requirements

See Section 5307.1 for requirements regarding assets as a basis for repayment of obligations.

(b) Data delivery instructions

For Mortgages with respect to which assets are used as a basis for repayment of obligations, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages when Assets are Used as a Basis for Repayment of Obligations			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	H31	Enter this value if the Borrower uses assets as a basis for repayment of obligations.

6302.34: Special delivery requirements for Mortgages with secondary financing (05/22/23)

Refer to Bulletin 2023-9, which announced revisions related to ULDD Data Point *Initial Principal And Interest Payment Amount* (Sort ID 515.1) that will be effective after the Phase 4a mandate. Sellers may implement the new requirements prior to the September 1, 2023 effective version of this section.

(a) General requirements

See Sections 4204.1 and 4204.2 for requirements regarding Mortgages with secondary financing, including Affordable Seconds®.

See Section 4501.10 for requirements regarding Home Possible® Mortgages with secondary financing, including Affordable Seconds.

(b) Data delivery instructions

(i) Each subordinate lien

With respect to each subordinate lien, the Seller must deliver the following ULDD Data Points:

Data Required for All Subordinate Liens			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Secondary Financing / Related Loan Details (<i>Deliver for each Related Loan.</i>)			
510	Loan Role Type ^{1, 2}	Related Loan	
514	Loan State Date ¹		Enter the date the data is retrieved from the Seller's delivery system.
515	Loan State Type ¹	Current	
515.1	Initial Principal And Interest Payment Amount		Enter the dollar amount of the principal and interest payment as stated on the Note for the related loan. Enter “0” for Affordable Seconds® meeting the requirements of Section 4204.2(a)(iv), where the principal and interest payment on the related loan is not due for the first five or more years following the Note Date.
517	Lien Priority Type	<ul style="list-style-type: none"> ▪ Second Lien ▪ Third Lien ▪ Fourth Lien 	
519	Mortgage Type	Conventional	
PROPERTY			
→ Property Information			
→→ Secondary Financing / Related Loan Information (<i>Deliver for each Related Loan.</i>)			
513.1	Loan Affordable Indicator	<ul style="list-style-type: none"> ▪ false ▪ true 	Enter “false” unless secondary financing is an <i>Affordable Second</i> .

- ¹ This data point name does not appear as a Loan Selling Advisor® input field, but instead is reflected in a screen heading or tab.
- ² This data point must be populated to save the file in Loan Selling Advisor.

(ii) Each closed-end subordinate lien

For each subordinate lien that is a closed-end loan, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for all subordinate liens in Section 6302.34(b)(i):

Data Required for All Closed-End Subordinate Liens			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Secondary Financing / Related Loan Details – (Deliver for each Related Loan.)			
→→ Closed-end Second			
516	UPB Amount		Enter the balance of the closed-end subordinate Mortgage.
→→ HELOC Details			
513	HELOC Indicator	false	

(iii) Each Home Equity Line of Credit (HELOC)

For each subordinate lien that is a HELOC, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for all subordinate liens in Section 6302.34(b)(i):

Data Required for All HELOCs			
Sort ID	ULDD Data Point	Valid Value	Notes
TOTAL LOANS			
→ Additional LTV Details → Delivered LTV Values			
92	Home Equity Combined LTV Ratio Percent		<p>Enter the Home Equity Line of Credit total loan-to-value (HTLTV) ratio calculated in accordance with Section 4203.2.</p> <p>For Financed Permanent Buydown Mortgages, the Mortgage amount used to determine the HTLTV ratio includes the financed discount points.</p> <p>For super conforming Mortgages, when the field review value results in a different value from the appraised value, the value used to determine the HTLTV ratio is the least of the appraised value, field review value or sales price.</p>
LOAN – Current			
→ Secondary Financing / Related Loan Details (Deliver for each Related Loan.)			
→→HELOC Details			
513	HELOC Indicator	true	
511	Current HELOC Maximum Balance Amount		Enter the HELOC maximum credit line as of the Note Date of the First Lien Mortgage. If the maximum credit line has been modified, enter the modified maximum amount.
512	HELOC Balance Amount		Enter the disbursed amount of the HELOC, not the maximum credit line.

(iv) Mortgages with Affordable Seconds

For Mortgages with Affordable Seconds that have the following characteristics, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for all subordinate liens in Section 6302.34(b)(i) and for closed-end subordinate liens in Section 6302.34(b)(ii):

(A) All Mortgages with Affordable Seconds

For all Mortgages with Affordable Seconds, the Seller must deliver the following ULDD Data Points:

Data Required for All Mortgages with Affordable Seconds			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
PROPERTY			
→ Property Information			
→→ Secondary Financing / Related Loan Information (<i>Deliver for each Related Loan.</i>)			
513.1	Loan Affordable Indicator	true	Enter “true” for Mortgages with Affordable Seconds.

(B) Mortgages with Affordable Seconds entered into Loan Product Advisor® in the “Total Gift Fund” field

For Mortgages with Affordable Seconds entered into Loan Product Advisor® in the “Total Gift Fund” field, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages with Affordable Seconds Entered into Loan Product Advisor® in the “Total Gift Fund” Field			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	G18	<p>Enter this value for Mortgages with Affordable Seconds treated as a gift in Loan Product Advisor® version 4.8.01 or earlier as described in Bulletin 2020-26.</p> <p>Sellers are not required to enter this value for Mortgages with Affordable Seconds in Loan Product Advisor version 5.0.06 or higher.</p>

(C) Mortgages with Affordable Seconds from certain allowable sources

For Mortgages with Affordable Seconds from certain allowable sources described in Section 4204.2(a)(i), the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Affordable Seconds from Certain Sources			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	<ul style="list-style-type: none">▪ J07▪ J54	If applicable, the Seller must identify the source of the Affordable Second: Enter J07 to indicate “Non-profit not affiliated with Government Agency Affordable Second” as described in Section 4204.2(b)(i). Enter J54 to indicate “Mortgage with Seller-funded Affordable Second” for a Home Possible Mortgage as described in Section 4204.2(a)(i)(B).

(v) Home Possible Mortgages with RHS Leveraged Seconds

For additional delivery requirements for Home Possible Mortgages with RHS Leveraged Seconds, see Section 6302.14(b)(iv).

6302.34: Special delivery requirements for Mortgages with secondary financing (Future effective date 09/01/23)

(a) General requirements

See Sections 4204.1 and 4204.2 for requirements regarding Mortgages with secondary financing, including Affordable Seconds®.

See Section 4501.10 for requirements regarding Home Possible® Mortgages with secondary financing, including Affordable Seconds.

(b) Data delivery instructions

(i) Each subordinate lien

With respect to each subordinate lien, the Seller must deliver the following ULDD Data Points:

Data Required for All Subordinate Liens			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Secondary Financing / Related Loan Details (<i>Deliver for each Related Loan.</i>)			
510	Loan Role Type ^{1, 2}	Related Loan	
514	Loan State Date ¹		Enter the date the data is retrieved from the Seller's delivery system.
515	Loan State Type ¹	Current	
517	Lien Priority Type	<ul style="list-style-type: none"> ▪ Second Lien ▪ Third Lien ▪ Fourth Lien 	
519	Mortgage Type	Conventional	
PROPERTY			
→ Property Information			
→→ Secondary Financing / Related Loan Information (<i>Deliver for each Related Loan.</i>)			
513.1	Loan Affordable Indicator	<ul style="list-style-type: none"> ▪ false ▪ true 	Enter “false” unless secondary financing is an <i>Affordable Second</i> .

¹ This data point name does not appear as a Loan Selling Advisor® input field, but instead is reflected in a screen heading or tab.

² This data point must be populated to save the file in Loan Selling Advisor.

(ii) Each closed-end subordinate lien

For each subordinate lien that is a closed-end loan, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for all subordinate liens in Section 6302.34(b)(i):

Data Required for All Closed-End Subordinate Liens			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Secondary Financing / Related Loan Details – (<i>Deliver for each Related Loan.</i>)			
→→ Closed-end Second			

516	UPB Amount		Enter the balance of the closed-end subordinate Mortgage.
→→ HELOC Details			
513	HELOC Indicator	false	

(iii) Each Home Equity Line of Credit (HELOC)

For each subordinate lien that is a HELOC, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for all subordinate liens in Section 6302.34(b)(i):

Data Required for All HELOCs			
Sort ID	ULDD Data Point	Valid Value	Notes
TOTAL LOANS			
→ Additional LTV Details → Delivered LTV Values			
92	Home Equity Combined LTV Ratio Percent		<p>Enter the Home Equity Line of Credit total loan-to-value (HTLTV) ratio calculated in accordance with Section 4203.2.</p> <p>For Financed Permanent Buydown Mortgages, the Mortgage amount used to determine the HTLTV ratio includes the financed discount points.</p> <p>For super conforming Mortgages, when the field review value results in a different value from the appraised value, the value used to determine the HTLTV ratio is the least of the appraised value, field review value or sales price.</p>
LOAN – Current			
→ Secondary Financing / Related Loan Details (Deliver for each Related Loan.)			
→→HELOC Details			
513	HELOC Indicator	true	
511	Current HELOC Maximum Balance Amount		Enter the HELOC maximum credit line as of the Note Date of the First Lien Mortgage. If the maximum credit line has been modified, enter the modified maximum amount.

512	HELOC Balance Amount		Enter the disbursed amount of the HELOC, not the maximum credit line.
-----	----------------------	--	---

(iv) Mortgages with Affordable Seconds

For Mortgages with Affordable Seconds that have the following characteristics, the Seller must deliver the following ULDD Data Points in addition to the ULDD Data Points required for all subordinate liens in Section 6302.34(b)(i) and for closed-end subordinate liens in Section 6302.34(b)(ii):

(A) All Mortgages with Affordable Seconds

For all Mortgages with Affordable Seconds, the Seller must deliver the following ULDD Data Points:

Data Required for All Mortgages with Affordable Seconds			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
PROPERTY			
→ Property Information			
→→ Secondary Financing / Related Loan Information (Deliver for each Related Loan.)			
513.1	Loan Affordable Indicator	true	Enter “true” for Mortgages with Affordable Seconds.

(B) Mortgages with Affordable Seconds entered into Loan Product Advisor® in the “Total Gift Fund” field

For Mortgages with Affordable Seconds entered into Loan Product Advisor® in the “Total Gift Fund” field, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages with Affordable Seconds Entered into Loan Product Advisor® in the “Total Gift Fund” Field			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	G18	Enter this value for Mortgages with Affordable Seconds treated as a gift in Loan Product Advisor® version 4.8.01 or

Data Required for Mortgages with Affordable Seconds Entered into Loan Product Advisor® in the “Total Gift Fund” Field			
Sort ID	ULDD Data Point	Valid Value	Notes
			<p>earlier as described in Bulletin 2020-26.</p> <p>Sellers are not required to enter this value for Mortgages with Affordable Seconds in Loan Product Advisor version 5.0.06 or higher.</p>

(C) Mortgages with Affordable Seconds from certain allowable sources

For Mortgages with Affordable Seconds from certain allowable sources described in Section 4204.2(a)(i), the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages with Affordable Seconds from Certain Sources			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	<ul style="list-style-type: none"> ▪ J07 ▪ J54 	<p>If applicable, the Seller must identify the source of the Affordable Second:</p> <p>Enter J07 to indicate “Non-profit not affiliated with Government Agency Affordable Second” as described in Section 4204.2(b)(i).</p> <p>Enter J54 to indicate “Mortgage with Seller-funded Affordable Second” for a Home Possible Mortgage as described in Section 4204.2(a)(i)(B).</p>

(D) Purchase Mortgages with Affordable Seconds that are not a HELOC

For purchase Mortgages with Affordable Seconds that are non-HELOC, the Seller must deliver the following ULDD Data Points:

Data Required for Purchase Mortgages with Affordable Seconds that are not a HELOC			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Secondary Financing / Related Loan Details – (Deliver for each Related Loan.)			
→→ Closed-end Second			
515.1	Initial Principal And Interest Payment Amount		<p>Enter the dollar amount of the principal and interest payment as stated on the Note for the related loan.</p> <p>Enter "0" for Affordable Seconds meeting the requirements of Section 4204.2(a)(iv), where the principal and interest payment on the related loan is not due for the first five or more years following the Note Date.</p>
→→ HELOC Details			
513	HELOC Indicator	false	

(v) Home Possible Mortgages with RHS Leveraged Seconds

For additional delivery requirements for Home Possible Mortgages with RHS Leveraged Seconds, see Section 6302.14(b)(iv).

6302.35: Special delivery requirements for Mortgages eligible for sale using the loan-level buyup and buydown program (04/24/17)

(a) General requirements

See Section 6201.10 for requirements regarding the loan-level buyup and buydown program.

(b) Data delivery instructions

For Mortgages sold to Freddie Mac using the loan-level buyup and buydown program, the Seller must deliver the following ULDD Data Points:

Data Required for Loan-Level Buyup or Buydown Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
Execution Information → Loan Level Buyup/Buydown Details			
387	Loan Buyup Buydown Type	<ul style="list-style-type: none"> ▪ Buydown ▪ Buyup ▪ BuyupBuydownDoesNotApply 	Enter “Buyup” for loan-level buyup. Enter “Buydown” for loan-level buydown. Enter “BuyupBuydownDoesNotApply” when loan-level buyup and buydown does not apply.
386	Loan Buyup Buydown Basis Point Number		Enter, in basis points, the increase or decrease amount of the Credit Fee in Yield for each individual Mortgage allocated to a specific Guarantor or MultiLender Swap Contract. Leave blank if a loan-level buyup/buydown is not elected.

(c) Delivery programs

Mortgages may be sold only under the following programs:

- Fixed-rate Guarantor
- MultiLender Swap

6302.36: Special delivery requirements for Affordable Merit Rate® Mortgages (01/01/22)

Effective January 1, 2022, Section 6302.36 is deleted.

6302.37: Special delivery requirements for Mortgages secured by properties with resale restrictions (05/22/23)

(a) General requirements

See Chapter 4406 for special eligibility requirements for Mortgages secured by properties with resale restrictions.

(b) Data delivery instructions

- (i)** For Mortgages secured by properties with income-based resale restrictions, the Seller must deliver the following ULDD Data Points:

- (A)** For Mortgages secured by properties with income-based resale restrictions that survive foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure:

Data Required for Mortgages Secured by Properties with Income-based Resale Restrictions that Survive Foreclosure (or Expiration of Any Applicable Redemption Period) or Recordation of a Deed-in-lieu of Foreclosure

6302.42: Special delivery requirements for Community Land Trust Mortgages (10/03/22)

(a) General requirements

See Chapter 4502 for special eligibility requirements for Community Land Trust Mortgages.

(b) Data delivery instructions

For Community Land Trust Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for Community Land Trust Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information			
→→ Property Details			
63	Property Estate Type	Leasehold	
LOAN – Current			
→ Product Information → Product Details			
404	Loan Program Identifier	Community Land Trust	

(c) Delivery programs

Community Land Trust Mortgages may be sold under fixed-rate Cash or Guarantor.

6302.43: Special delivery requirements for CHOICERenovation® Mortgages (05/22/23)

(a) General requirements

See Chapter 4607 for special eligibility requirements for CHOICERenovation® Mortgages.

(b) Data delivery instructions

See Section 6302.28 for special delivery requirements for Construction Conversion and Renovation Mortgages.

For CHOICERenovation Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for CHOICERenovation Mortgages			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Closing and LOAN – Modification			
→ Affordable Information → Affordable Details			
193.1	<i>Alterations Improvements And Repairs Amount</i>		<p><i>Enter the total renovation costs amount associated with the renovation loan.</i></p> <p><i>The amount entered must be greater than “0” (zero).</i></p>
LOAN – Current			
→ Product Information → Product Details			
404	<i>Loan Program Identifier</i>	<i>Renovation</i>	
404	Loan Program Identifier	CHOICE Renovation	
404	Loan Program Identifier	CHOICE Renovation Mortgage With Recourse	
404	Loan Program Identifier	CHOICEReno EXpress	
404	Loan Program Identifier	CHOICEReno EXpress DTS Area	

(c) Data delivery instructions to receive the credit for Credit Fees for GreenCHOICE Mortgages®

For CHOICERenovation Mortgages eligible for the credit for Credit Fees for GreenCHOICE Mortgages pursuant to Section 4607.17(b), in addition to meeting the special delivery requirements above, the Seller must deliver the ULDD Data Point(s) specified in Section 6302.23.

Note: When entering the total renovation costs amount for ULDD Data Point *Alterations Improvements And Repairs Amount* (Sort ID 193.1) pursuant to Section 6302.43(b) above, the value entered for ULDD Data Point *Energy Improvement Amount* (Sort ID 244.1) would also be included in the total renovation costs amount.

6302.44: Special delivery requirements for Mortgages utilizing the age of documentation flexibility in Eligible Disaster Areas (10/27/19)

(a) General requirements

See Section 4407.3 for special eligibility requirements for age of documentation for Mortgages secured by properties located in Eligible Disaster Areas.

(b) Data delivery instructions

For Mortgages secured by properties located in Eligible Disaster Areas utilizing the age of documentation flexibility, the Seller must deliver the following ULDD Data Points:

Data Required for Mortgages Utilizing the Age of Documentation Flexibility in Eligible Disaster Areas			
Sort ID	ULDD Data Point	Valid Value	Notes
LOAN – Current			
→ Product Information → Product Details			
368	Investor Feature Identifier	H37	Enter this value indicating extended age of documentation for Eligible Disaster Areas.

6302.45: Special delivery requirements for Cooperative Share Loans (11/03/21)

(a) General requirements

See Chapter 5705 for special eligibility requirements for Cooperative Share Loans.

(b) Data delivery instructions

(i) All Cooperative Share Loans

For Cooperative Share Loans, the Seller must deliver the following ULDD Data Point:

Data Required for Cooperative Share Loans			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information			
→→ Property Details			
57	<i>Financed Unit Count</i>	1	
47	Project Legal Structure Type	Cooperative	
641.5/ 641.6	Taxpayer Identifier Type/Taxpayer Identifier Value (In Loan Selling Advisor®, this appears as “HOA or Cooperative Housing Corporation Taxpayer Identifier”)		If available, enter the Employer Identification Number (EIN) or Taxpayer Identification Number (TIN) for the Cooperative Housing Corporation. If the unit is located in a project with its HOA within a Master Association or Umbrella Planned Unit Development (PUD), enter the EIN or TIN of the HOA associated with the project, not the Master Association or Umbrella PUD.
42	Project Classification Identifier	<ul style="list-style-type: none"> ▪ Exempt From Review ▪ Full Review 	Enter “Exempt From Review” for Freddie Mac- owned “no cash-out” refinance Cooperative Share Loans or Refi Possible® Mortgages, as described in Section 5705.7. Enter “Full Review” for all Cooperative Share Loans that are not delivered as “Exempt From Review.”

(ii) Cooperative Share Loans that are not delivered as Exempt From Review

See Section 5705.7 for eligibility requirements for Exempt From Review.

For Cooperative Share Loans that are not delivered as Exempt From Review, the Seller must deliver the following ULDD Data Points:

Data Required for Cooperative Share Loans other than Exempt From Review			
Sort ID	ULDD Data Point	Valid Value	Notes
PROPERTY			
→ Property Information			
→→Property Details			
→→Condominium Details			
48	Project Name		Enter the legal name of the project.
41	Project Attachment Type	<ul style="list-style-type: none"> ▪ Attached ▪ Detached 	<p>Enter “Attached” if any unit in the project has a common wall or other direct physical connection with another unit.</p> <p>Enter “Detached” only if no unit in the project has a common wall or other direct physical connection with another unit.</p>
45	Project Dwelling Unit Count		Enter the number of units in the project (including phases that are not yet complete).
46	Project Dwelling Units Sold Count		Enter the number of units sold (including phases that are not yet complete).

(c) Delivery requirements for fixed-rate Cash Contracts

The UPB of all 10-, 15-, 20- and/or 30-year Cooperative Share Loans delivered by the Seller under fixed-rate Cash Contracts during any month must not exceed the greater of (i) \$2 million in aggregate, or (ii) 10% of the UPB of each fixed-rate Mortgage product.

(d) Pooling requirements for UMBS®, MBS and Supers®

Refer to Section 6202.3 for pooling requirements for fixed-rate Cooperative Share Loans under the fixed-rate Guarantor or MultiLender Swap programs.

6302.46: Special delivery requirements for Refi Possible® Mortgages (04/06/22)

(a) General requirements

See Section 4302.5 for special eligibility requirements for Refi Possible® Mortgages.

(b) Data delivery instructions

For Refi Possible Mortgages, the Seller must deliver the following ULDD Data Points:

Data Required for Refi Possible Mortgages			
Sort ID	Data Point Name	Valid Value	Notes
LOAN – At Closing → Underwriting / Credit Information			
→Loan Details			
315	<i>Loan Purpose Type</i>	<i>Refinance</i>	
294	<i>Refinance Cash Out Determination Type</i>	<i>No Cash Out</i>	
→ Streamlined Loan Details			
222	Related Loan Investor Type	FRE	
221	Related Investor Loan Identifier	<Associated FRE Loan #>	This is the 9-digit Freddie Mac-supplied number assigned to the original Mortgage by the Seller when the Mortgage was initially sold to Freddie Mac.
LOAN – Current			
Product Information→ Product Details			
368	Investor Feature Identifier	J05	Enter this value to indicate Refi Possible Mortgage.

(c) Delivery of Mortgages with recourse or indemnification

In connection with the delivery of each Refi Possible Mortgage where the Mortgage being refinanced had **recourse** as described in Section 4302.6, the Seller must deliver “001” (indicating the Mortgage is sold with recourse) in the ULDD Data Point *Investor Feature Identifier*, if the Mortgage being refinanced was sold with recourse for the life of the Mortgage or the Mortgage was credit enhanced with recourse for the life of the Mortgage after it was sold to Freddie Mac.

In connection with the delivery of each Refi Possible Mortgage where the Mortgage being refinanced had **indemnification** as described in Section 4302.6, the Seller must deliver “033” (indicating the Mortgage is sold with indemnification) in the ULDD Data Point *Investor*

Feature Identifier, as applicable, if the Mortgage being refinanced was sold with indemnification for the life of the Mortgage or the Mortgage was credit enhanced with indemnification for the life of the Mortgage after it was sold to Freddie Mac.

If the Mortgage being refinanced was either sold to Freddie Mac with a credit enhancement or credit enhanced after it was sold to Freddie Mac, with indemnification or recourse for less than the life of the Mortgage, the Seller must not deliver ULDD Data Point *Investor Feature Identifiers* “001” or “033” indicating the Refi Possible Mortgage is subject to recourse or indemnification. In this instance, Freddie Mac will manage the transfer of the credit enhancement from the Mortgage being refinanced to the Refi Possible Mortgage.

(d) Delivery of Mortgages with credit enhancements for less than the life of the Mortgage

If the Mortgage being refinanced was either sold to Freddie Mac with a credit enhancement, or credit enhanced for a period of less than the life of the loan after it was sold to Freddie Mac, the Seller must not deliver any credit enhancement related ULDD Data Point *Investor Feature Identifiers* indicating that the Refi Possible Mortgage is subject to a credit enhancement.

6302.47: Special delivery requirements for Mortgages with title insurance (09/01/22)

(a) General requirements

See Section 4702.3 for general Mortgage title insurance requirements.

(b) Data delivery instructions

For Mortgages delivered with an attorney opinion of title in lieu of a title insurance policy, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages without title insurance			
Sort ID	Data Point Name	Valid Value	Notes
LOAN – Current			
Product Information→ Product Details			
368	Investor Feature Identifier	J18	Enter this value to indicate an “Attorney Opinion of Title Letter,” as described in Section 4702.3.

6302.48: Special delivery requirements for Mortgages originated in rural areas and by Small Financial Institutions (12/01/22)

(a) Delivery requirements

See [**FHFA Duty to Serve Eligibility Data**](#) for general information on the requirements.

(b) Data delivery instructions

For Mortgages delivered by a Small Financial Institution that were originated in a rural area, as defined by the FHFA, the Seller must deliver the following ULDD Data Point:

Data Required for Mortgages originated in a rural area and by Small Financial Institutions			
Sort ID	Data Point Name	Valid Value	Notes
LOAN – Current			
Product Information → Product Details			
368	Investor Feature Identifier	J84	Enter this value to indicate a Mortgage originated in a rural area and by Small Financial Institutions, as defined by the FHFA.

Chapter 6303: Assessment and Payment of Fees

6303.1: Assessment of fees (05/04/22)

In connection with the delivery of certain Mortgages:

- The Seller may be required to pay Freddie Mac Credit Fees and/or other types of fees (including buydown fees, as defined in Section 6102.2), or
- Freddie Mac may:
 - Be required to pay the Seller proceeds (such as buyup proceeds), or
 - Apply a credit for a Credit Fee

The fees and proceeds will be calculated, assessed and paid, and credits for Credit Fees will be applied as described in this chapter.

(a) Credit Fees

(i) Assessment of Credit Fees

Credit Fees will be assessed and billed to the Seller in conjunction with the sale of Mortgages with certain loan attributes. The Seller must refer to Exhibit 19, Credit Fees, for information on Credit Fees. Credit Fees are paid in accordance with the Credit Fee provisions stated in Section 6303.2.

A particular Mortgage may be subject to more than one Credit Fee. Unless stated otherwise in the Seller's Purchase Documents, Credit Fees applicable to a Mortgage are cumulative.

(ii) Calculation of Credit Fees in Price

Credit Fees in Price are calculated by multiplying the Credit Fee in Price rate(s) by the UPB of the Mortgage on the Funding/Settlement Date.

The Seller must refer to Exhibit 19, Credit Fees. Credit Fees are paid in accordance with the Credit Fee provisions stated in Chapter 6303.

(iii) Indicator Score/Loan-to-Value (IS/LTV) Credit Fees

Credit Fees will be assessed and billed to the Seller in conjunction with the sale of all Mortgages with certain IS/LTV combinations.

Unless the Mortgage is sold through Cash-Released XChange®, for Indicator Score/Loan-to-Value (IS/LTV) Credit Fees applicable to Loan Product Advisor Mortgages, the applicable Credit Fee will be based on the LTV ratio calculated by Freddie Mac based on data delivered by the Seller, and the Indicator Score found on the Last Feedback Certificate.

If the Seller does not deliver the Key Number for a Loan Product Advisor Mortgage, that Mortgage will be assessed the below 620 IS/LTV fee. For Mortgages sold through Cash-Released XChange, the Seller must deliver ULDD Data Point *Loan Level Credit Score Value* regardless of whether the Mortgage is a Loan Product Advisor Mortgage, and the Mortgage will be assessed an IS/LTV Credit Fees based on ULDD Data Point *Loan Level Credit Score Value*.

For Non-Loan Product Advisor Mortgages, IS/LTV Credit Fees are assessed based on the Indicator Score delivered to Freddie Mac and the LTV ratio calculated by Freddie Mac in conjunction with the sale of Mortgages. Freddie Mac's LTV ratio calculation is based on data delivered by the Seller. If the Seller does not deliver the Indicator Score for Non-Loan Product Advisor Mortgages, the Mortgages will be assessed the below 620 IS/LTV fee.

(iv) Notification of changes to Credit Fees

Freddie Mac reserves the right to change an existing Credit Fee rate, (including credits for Credit Fees), to change the process used to determine whether a Mortgage is subject to a Credit Fee or eligible for a credit for a Credit Fee, or to implement a Credit Fee or credit for a Credit Fee on any Mortgage product and/or Mortgage attribute that is not subject to a Credit Fee or eligible for a credit for a Credit Fee, upon prior written notice to the Seller.

(b) Payment of buyup proceeds and buydown fees

All buyup proceeds and buydown fees will be determined in accordance with the provisions of Section 6201.10(d), as applicable. Credit Fees applicable to the Mortgage will be:

- Deducted from the amount of any buyup proceeds applicable to the Mortgage, or
- Added to the amount of any buydown fees, applicable to the Mortgage

(c) Gold Rush® fees

For Guarantor or MultiLender Swap Contracts, Gold Rush fees will be determined in accordance with the following sections:

- Section 6203.4 for Fixed-Rate Guarantor Contracts
- Section 6204.4 for WAC ARM Guarantor Contracts

- Section 6205.4 for MultiLender Swap Contracts

(d) Monthly invoice and account activity statement

Sellers may contact CashCollections@FreddieMac.com with questions about their monthly invoice and account activity statement.

(i) Monthly invoice

(A) Mortgages sold under Cash Purchase Contracts

For all Mortgages sold to Freddie Mac under Cash Purchase Contracts under the Cash program, Freddie Mac will net the amount of Credit Fees and credits for a Credit Fee against the amount paid to the Seller. All other types of fees applicable to Mortgages sold under the Cash program (for example, pairoff fees and any premium recapture described in Section 6303.5) will be assessed on the Seller's monthly invoice.

(B) Mortgages sold under Guarantor and MultiLender Swap Contracts

The net amount of initial Credit Fees, buyup proceeds and buydown fees applicable to Mortgages sold to Freddie Mac under Guarantor and MultiLender Swap Contracts will be drafted from the Automated Clearing House (ACH) account that the Seller has designated for payment of fees associated with the sale of Mortgages to Freddie Mac in accordance with the provisions of the daily ACH process described in Section 6303.2(a).

The net amount of all other monthly billed fees associated with the sale of Mortgages to Freddie Mac under the Guarantor and MultiLender Swap programs (such as pairoff fees, any adjustments to a Credit Fee applicable to Mortgages sold under the Guarantor and MultiLender Swap programs, and any premium recapture proceeds described in Section 6303.5) will be assessed on the Seller's monthly invoice and drafted from the Seller's ACH account monthly in accordance with the provisions of the monthly ACH process described in Chapter 6303.

(ii) Account activity statement

Included with the monthly invoice is a statement reflecting all open account activity and the total amount due on the Seller's account for the most recent calendar month. The statement will include late fees as described in Section 6303.6 for accounts past due and any account adjustments or credits received for previous months' activities.

6303.2: Payment of fees (05/04/22)

Freddie Mac will remit to or draft from the Automated Clearing House (ACH) account that the Seller has designated for payment of all fees associated with the sale of Mortgages to Freddie Mac (Seller's ACH account) in accordance with the following:

(a) Daily ACH process

Freddie Mac will draft from the Seller's ACH account the net amount of the fees specified below applicable to Mortgages sold to Freddie Mac under the Guarantor and MultiLender Swap programs on the fifth Business Day after each applicable Settlement Date. Adjustments and reversals to such fees will be made using the monthly ACH process described below or otherwise in accordance with instructions provided to the Seller by Freddie Mac.

Fees drafted five Business Days after applicable Settlement Date
Initial Credit Fees
Buyup proceeds and buydown fees
Buyup and buydown adjustments
Gold Rush® fees and adjustments
Guarantor settlement interest

In the alternative, if the Seller is due a credit, Freddie Mac will deposit the credit amount to the designated ACH account within five Business Days of the Settlement Date.

Freddie Mac will provide the Seller with a courtesy e-mail notice to the address specified by the Seller approximately two Business Days before the ACH draft of the net amount of fees described in this Section 6303.2(a); however, the Seller remains responsible for ensuring that the Seller's ACH account maintains sufficient funds to cover any drafts by Freddie Mac (see below).

Freddie Mac recommends that a Seller designate one or more members of its organization as a courtesy e-mail recipient. To designate, add, modify or delete a recipient, send a written request to Seller_Billing@FreddieMac.com. The request must include the Seller/Servicer number with contact information (name, e-mail and phone number).

(b) Monthly ACH process

Freddie Mac will draft the net amount of all other fees associated with the sale of Mortgages to Freddie Mac, such as pairoff fees, any adjustments to Credit Fees applicable to Mortgages sold under the Cash, Guarantor and MultiLender Swap programs and associated training fees from the Seller's ACH account monthly in accordance with this Section 6303.2(b).

In the alternative, if the Seller is due a credit, Freddie Mac will deposit the credit amount to the designated ACH account on the last Business Day of the month. If the monthly statement indicates a net amount due to Freddie Mac, Freddie Mac will draft the payment from the Seller's ACH account on the last Business Day of the month. The Seller's monthly account activity statement will reflect all ACH transactions completed during the statement period.

To establish ACH payment, the Seller must complete, execute and submit to Freddie Mac Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) for Seller/Servicers as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:

- Attach to an e-mail and deliver to Freddie Mac at CashCollections@FreddieMac.com; or
- Upload through the Freddie Mac eBill system

Freddie Mac and the Seller agree that the delivery of Electronic Records with Electronic Signatures are eligible Electronic Transactions (as defined in Section 1401.2) and are governed by the applicable provisions of Chapter 1401.

The employee authorized to execute Form 1132 on the Seller's behalf must be designated as an "Authorized Employee" on the Seller's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable.

The account identified in Form 1132 for the payment of fees must be a Demand Deposit Account that is separate from any Custodial Account required to be maintained pursuant to any of the Purchase Documents.

The Seller agrees to notify Freddie Mac immediately at Seller_Billing@FreddieMac.com of any changes to the status of the Seller's ACH account.

Except as set forth below with respect to the daily ACH process drafting, in the event that funds in the Seller's ACH account are insufficient to cover the statement amount, the Seller's ACH account is invalid, or if Freddie Mac is unable to draft from the Seller's ACH account for any reason, the statement will be subject to the late payment fees described in Section 6303.6. In that event, the Seller must remit the amount due in accordance with instructions provided by Freddie Mac.

Freddie Mac will not assess any late payment fee if funds in the Seller's ACH account are insufficient to cover the amount due from a daily ACH draft, or if Freddie Mac is unable to

draft from the Seller's ACH account under the daily ACH process for any reason. If any Seller ACH account amount due to Freddie Mac remains outstanding on the due date of the Seller's monthly statement, the Seller will be assessed the late payment fees described in Section 6303.6 on such outstanding amount from and after that due date.

6303.3: Refunds, repayments, credits and adjustments of Credit Fees (05/04/22)

(a) Refunding Credit Fees and repayment of credits for Credit Fees in connection with repurchases

During the first 12 months after funding/settlement, Freddie Mac may refund to the Seller all or a portion of the Credit Fees attributable to any Mortgage that:

- Freddie Mac deems ineligible for purchase
- The Seller is required to repurchase from Freddie Mac
- The Seller requests and is approved to repurchase voluntarily from Freddie Mac

With respect to any Mortgage that is deemed ineligible for purchase or that the Seller is required to repurchase from Freddie Mac, the Seller must reimburse Freddie Mac for any credit for a Credit Fee Freddie Mac has applied to the Seller's monthly invoice or the purchase price paid to the Seller for a Mortgage sold under the Cash program.

With respect to refunds of a Credit Fee, Freddie Mac may deduct a processing fee from any refund amount. The processing fee will be equal to 0.5% of the UPB of the Mortgage on the Funding/Settlement Date, except that in no event will the processing fee exceed the refund amount.

(b) Recalculating Credit Fees, credits for Credit Fees and proceeds

If, during the first six months after the month of funding/settlement, Freddie Mac or the Seller determines that for a particular Mortgage the Seller has not delivered the required data or the correct data to accurately calculate the Credit Fee or funding fee, credit for the Credit Fee in Price or the amount of any proceeds paid by Freddie Mac for that Mortgage, Freddie Mac will recalculate the Credit Fee or funding fee, credit for the Credit Fee or the proceeds for the Mortgage using the correct data identified by Freddie Mac. In that event, the Seller may be assessed an additional Credit Fee or may receive a refund of a Credit Fee, may receive a credit for the Credit Fee or be required to repay a Credit Fee, may receive additional proceeds or be required to repay proceeds received from Freddie Mac.

Adjustments to fees and proceeds will be included on a subsequent monthly invoice. Any other recalculation of Credit Fee or funding fees, credits or proceeds will be at Freddie Mac's discretion.

6303.4: Fee for Purchase Contracts that exceed the Maximum Annual Mortgage Purchase Amount (05/04/22)

If Freddie Mac has established a Maximum Annual Mortgage Purchase Amount with respect to the Seller, Freddie Mac may charge a reasonable fee based on the entire amount of any Purchase Contract that is rescinded pursuant to Section 1201.4(b). Freddie Mac will determine the amount of the fee at the time the fee is assessed. The Seller must remit to Freddie Mac the full amount of the fee in the same manner as the payment of Credit Fees set forth in Section 6303.2.

6303.5: Recapture of premiums and reimbursement of buyup proceeds (06/12/19)

For any Mortgage that is paid off (whether because of a refinance, a prepay or any other reason) within 120 days of the Freddie Mac Funding Date or Settlement Date, Freddie Mac may at its sole discretion require the Seller/Servicer to reimburse Freddie Mac for:

- With respect to a Mortgage delivery through the Cash program, any premium paid for the Mortgage calculated as the amount by which the purchase price exceeded the par price, multiplied by the outstanding UPB of the particular Mortgage on the Funding Date
- With respect to a Mortgage delivery through the Guarantor or MultiLender Swap program, any premium (expressed as a percentage) that was or would have been applicable to the Pool comprising the particular Mortgage, based on market conditions existing on the Settlement Date of such Mortgage as determined by Freddie Mac, multiplied by the outstanding UPB of the particular Mortgage on the date of the pay off
- Any buyup proceeds paid by Freddie Mac to the Seller in connection with the delivery of a Mortgage through the Guarantor or MultiLender Swap program

The amount of any such premiums and/or buyup proceeds will appear on the Seller account activity statement described in Section 6303.1(e) and will be drafted from the Seller's Automated Clearing House Account (ACH) account in accordance with Section 6303.2.

6303.6: Late payment policy (06/03/19)

Fees and remittances not paid or made when due will be subject to a late payment fee consisting of an interest reimbursement charge. The charge will be calculated on the amount due but unpaid as of the last day of the month in which the payment is due. Unless otherwise specified in the Guide for a specific unpaid fee or remittance, the rate of interest will equal the highest quoted prime rate on the last Business Day of the month in which the invoice is dated plus 3.000%. The

prime rate is published in the “Money Rates” section or other comparable sections of *The Wall Street Journal*. If the prime rate is not published, Freddie Mac will determine the interest rate.

The late payment fee calculation is as follows: (amount paid late or past due) multiplied by (prime rate + 3.000%) divided by 365, multiplied by the number of days in the calendar month in which the invoice is due but unpaid.

Freddie Mac reserves the right to assess a late payment fee against any Seller/Servicer for failure to make timely payments or remit any fee or remittance required to be made under any of the Purchase Documents, whether or not such fee or remittance is invoiced by Freddie Mac, and regardless of the manner and method of any billing notification. The amount of any repurchase late fee will appear on the Seller account activity statement described in Section 6303.1(e) and will be drafted from the Seller’s Automated Clearing House (ACH) account in accordance with Section 6303.2.

The interest reimbursement referred to above is in addition to any remedies Freddie Mac may have under the law or the Purchase Documents for violation of the Seller/Servicer’s obligation to make timely payments. In addition to such remedies, Freddie Mac reserves the right, in its sole discretion, to:

- Require payment before the Funding Date rather than as permitted under other provisions of the Purchase Documents
- Postpone any proposed Settlement Date for any Pools when the Seller/Servicer has fees that remain due and unpaid five Business Days before the proposed Settlement Date

Freddie Mac reserves the right, at any time and in its sole discretion, to change the late payment fee structure, including, but not limited to, changing the rate of interest assessed, changing the method of calculating the interest reimbursement or imposing a minimum interest reimbursement or a penalty amount, or both.

Freddie Mac, from time to time and upon giving 30 days’ written notice, may modify the terms and procedures for crediting and payment of proceeds by Freddie Mac, or payment of fees and remittances by the Seller/Servicer.

Freddie Mac also reserves the right, in its sole discretion, to require payment of fees and remittances before the Settlement Date rather than as permitted under other provisions of the Purchase Documents for reasons other than the breach of Seller/Servicer’s obligation to make timely payment. In such case, proceeds and credits, and fees and remittances will be paid in accordance with the procedures specified by Freddie Mac at the time such determination is made.

Chapter 6304: Document Custody

6304.1: Custody of Notes and assignments (09/13/21)

The Seller/Servicer selling Mortgages to Freddie Mac must deliver the original Notes for such Mortgages to a Document Custodian, which may be a Designated Custodian or another approved Document Custodian, chosen by the Seller/Servicer in accordance with the requirements of Sections 2202.2 and 2202.3. However, Freddie Mac may in special instructions, program announcements or individual Mortgage Purchase Contracts, require the Notes to be delivered to a Designated Custodian. For example, the Notes for Mortgages (other than eMortgages) sold through Cash-Released XChange® must be delivered to a Document Custodian listed in Exhibit 43, as set forth in Section 2202.3(c).

For purposes of delivering Notes to a Document Custodian, the term “Note” includes the Note evidencing the indebtedness along with any power of attorney or any applicable modifying instrument, such as a modification, a conversion agreement or an assumption of indebtedness and release of liability agreement. The term “assignment” refers to the Intervening Assignment and to the instrument necessary to assign the Security Instrument to Freddie Mac, as described in Section 6301.6.

When delivering Notes to the Document Custodian, the Seller/Servicer must also deliver all original assignments as described in Sections 6301.6(a) through 6301.6(c), unless the Mortgage is registered with MERS® and the Seller/Servicer has elected to retain all assignments for MERS-registered Mortgages in the Mortgage files. If the Seller has so elected for MERS-registered Mortgages, the Seller/Servicer must provide its Document Custodian with documentation that will enable the Document Custodian to verify that the Seller/Servicer has elected to hold assignments in the Mortgage files for MERS-registered Mortgages.

If the Seller/Servicer originates Mortgages using paper closing documents that have been electronically recorded in the recorder’s office, see Section 1401.14 for instructions for delivery to the Document Custodians.

If the Seller/Servicer originates Mortgages using electronically created closing documents that have been electronically recorded in the recorder’s office, see Section 1401.15 for instructions for delivery to the Document Custodians.

If the Seller/Servicer originates eMortgages, see Section 1402.12 for instructions for delivery to the Document Custodians.

6304.2: Delivery of Notes and assignments to a Document Custodian (11/04/20)

(a) In accordance with Section 6301.8, the Seller/Servicer must deliver the following items to the Document Custodian:

- **Form 1034E**

The Seller/Servicer must deliver the Form 1034E, Custodial Certification Schedule, or the Note Delivery Cover Sheet, to the Document Custodian.

- **Mortgage Documents**

For each Mortgage, the original Note, endorsed as required in Section 6301.3, along with the originals of any riders or other modifying instruments to the Note. The information on the Note must match the information for the corresponding Mortgage in Loan Selling Advisor®.

- **Assignments**

All original Intervening Assignments of the Security Instruments prepared and completed as required in Section 6301.6.

(b) For each Cooperative Share Loan, in addition to meeting the requirements of Section 6304.3(a), the Seller/Servicer must deliver the following to the Document Custodian:

- Original stock certificate, membership certificate or other instrument or agreement of similar import that is commonly used and is valid and enforceable in the applicable jurisdiction and evidences the Shareholder's ownership interest in the Cooperative Corporation;
- Original stock power, executed in blank;
- Original Proprietary Lease, occupancy agreement or other agreement of similar import that is commonly used and is valid and enforceable in the applicable jurisdiction;
- Original Assignment of Proprietary Lease executed in the name of Seller or blank;
- A copy of recorded UCC-1 financing statements and renewal assignment statements, if applicable, with original filing stamp;
- Original Form UCC-3 assigning interest to Freddie Mac in a form suitable for filing, but not filed;
- Original security agreement; and

- Original Recognition Agreement

6304.3: Document Custodian's functions and duties upon receiving Notes and assignments (11/04/20)

(a) Verifications

- (i)** Upon receiving the Notes and assignments from the Seller/Servicer for Mortgages delivered for purchase by Freddie Mac, the Document Custodian must verify and certify that the following requirements have been met:
 - **The Note:** The information on each Note matches all corresponding loan data for the related Mortgage contained in Loan Selling Advisor®. The Document Custodian is not required to verify the Seller/Servicer number.
 - **Note endorsement:** Each Note is endorsed as required by Section 6301.3. If the Seller/Servicer delivering the Note is not the original payee on the Note, the Document Custodian must verify that the chain of endorsements is proper and complete from the original payee on the Note to the Seller delivering the Note to Freddie Mac — not to the Servicer.
 - **Assignments:** The assignments of the Security Instruments from the original Mortgagee to the Seller/Servicer or to MERS® are prepared, executed and recorded where required, in accordance with Sections 6301.6 and 7101.6. The Seller/Servicer must provide its Document Custodian with any documentation necessary for the Document Custodian to determine whether the Seller/Servicer has elected to retain physical custody of all assignments for Mortgages registered with MERS and store the assignments in the Mortgage files, as provided in Section 6301.6.
- (ii)** For each Cooperative Share Loan, in addition to the requirements in Section 6304.3(a)(i), the Document Custodian must verify that the Seller has delivered to Document Custodian and has in its possession the following:
 - Original stock certificate, membership certificate or other instrument or agreement of similar import that is commonly used and is valid and enforceable in the applicable jurisdiction and evidences the Shareholder's ownership interest in the Cooperative Corporation;
 - Original stock power, executed in blank;
 - Original Proprietary Lease, occupancy agreement or other agreement of similar import is commonly used and is valid and enforceable in the applicable jurisdiction;
 - Original Assignment of Proprietary Lease executed in the name of Seller or in blank;

- A copy of recorded UCC-1 financing statements and renewal assignment statements, if applicable, with original filing stamp; and
- Original Form UCC-3 assigning interest to Freddie Mac in a form suitable for filing, but not filed;
- Original security agreement; and
- Original Recognition Agreement

(b) Certification

The Document Custodian must comply with the applicable requirements of the Purchase Documents when certifying Mortgages delivered for purchase by Freddie Mac.

The Document Custodian must not execute the Custodian Certification for a Mortgage if any of the information on the related Note, required to be verified and certified, does not match the corresponding loan data for the related Mortgage in Loan Selling Advisor as set forth in Section 6304.3(a) or if any discrepancy is not sufficiently justified. The Document Custodian must notify the delivering Seller/Servicer of any error, omission or other discrepancy that requires corrective action.

(c) Electronically recorded documents

See Sections 1401.14 and 1401.15 for information and instructions regarding electronically recorded paper documents and/or electronically recorded Electronic (as that term is defined in Section 1401.2) documents.

(d) Duties to Freddie Mac

Upon certification of the Notes, the Document Custodian must maintain physical custody of the Notes, any assignments, any power of attorney, any modification agreement and any other documents relating to the Mortgage, and, for Cooperative Share Loans, the documents listed in Section 6304.2(b), in trust, for the benefit of Freddie Mac. See Sections 8107.2(b) and (c) for requirements related to the physical or constructive possession of the Note in connection with the Servicing of a Mortgage.

Chapter 6305: Warehouse Financing Arrangements

6305.1: Warehouse financing arrangements (06/12/19)

This chapter addresses arrangements in which the Seller has entered into a Warehouse Agreement with a Warehouse Lender and has granted that Warehouse Lender a security interest in, or conveyed to that Warehouse Lender an ownership interest in, certain Mortgages that are subsequently offered for sale to Freddie Mac. In these situations, the Warehouse Lender also holds the Note and, at times, ancillary documents for those Mortgages, and delivers the Note (and, at times, ancillary documents) to Freddie Mac pursuant to the Seller's Purchase Contract with Freddie Mac. Subject to certain conditions, the Document Custodian will hold the Note and any ancillary documents relating to the Pledged Mortgages pending their purchase by Freddie Mac. This chapter sets forth and explains the relationships among the Seller, the Warehouse Lender and Freddie Mac. For additional requirements related to Pledged eMortgages, see Sections 1402.8(d) and 1402.16.

6305.2: Delivery and acceptance of Pledged Mortgages (10/02/19)

If the requirements of this chapter have been met, and until Freddie Mac purchases a Pledged Mortgage, the Document Custodian will hold the Note and any ancillary documents for that Pledged Mortgage subject to the interest of the Warehouse Lender created under the Warehouse Agreement unless Freddie Mac specifically agrees otherwise in writing. Freddie Mac recognizes no other statement of the condition of its receipt of these documents, including any trust receipt, bailee letter, or other purported statement of a continuing security or other interest.

6305.3: Wire transfer instructions for Pledged Mortgages sold for cash (12/09/20)

With each delivery of Pledged Mortgages to be sold to Freddie Mac for cash through Loan Selling Advisor®, the Seller must:

- Submit a completed, executed and duly authorized Form 987E, Wire Transfer Authorization for Warehouse Delivery, which is a general wire transfer authorization for all contracts under which Pledged Mortgages are offered for sale to Freddie Mac using Loan Selling Advisor. A separate Form 987E is not required for each contract, but the Seller must:
 - Execute a Form 987E for each of the Seller's Warehouse Lenders

- Provide Freddie Mac with a new Form 987E for any change to the wire transfer instructions
- Deliver Form 987E to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:
 - An attachment to an email and delivered to Freddie Mac at cashcollections@freddiemac.com, or
 - An upload through the Freddie Mac eBill system
- Complete a Form 996E, Warehouse Provider Release and Transfer, available only through Loan Selling Advisor for the Warehouse Lender to submit to Freddie Mac in Loan Selling Advisor by no later than 12:30 p.m. Eastern time on the Business Day immediately preceding the Funding Date.

Freddie Mac and the Seller agree that delivery of Electronic Records with Electronic Signatures are eligible Electronic Transactions, as defined in Section 1401.2, and are governed by the applicable provisions of Chapter 1401.

If Freddie Mac does not receive wire transfer instructions on Form 987E or the Warehouse Lender's release or transfer of its interest in the Pledged Mortgages on Form 996E in sufficient time to process payments, Freddie Mac may, in its sole discretion, postpone the Funding Date. If Freddie Mac does not receive the Warehouse Lender's Form 990SF in sufficient time to process it and to assign User Roles for the Warehouse Lender's access to Loan Selling Advisor or believes that the Certificate of Incumbency cannot be relied upon, or that its information is not reliable, Freddie Mac may, in its sole discretion, postpone the Funding Date.

6305.4: UMBS®, MBS and WAC ARM PC delivery instructions for Pledged Mortgages (02/02/22)

For Pledged Mortgages allocated to a Guarantor or MultiLender Swap Contract, the Seller must complete:

- All requested wire transfer information and instructions in the applicable screens in Loan Selling Advisor®, including
- Form 996E, Warehouse Provider Release and Transfer, which the Warehouse Lender must submit to Freddie Mac as described in Section 6305.8.

The employee authorized to perform the Setup Manager role (to approve wire transfer information and instructions in the applicable Loan Selling Advisor screens on the Seller's behalf) must be an "Authorized Employee" on the Seller's Certificate(s) of Incumbency (see Section 2201.1 for additional information); if the person performing the Setup Manager role is not an Authorized Employee, Freddie Mac may postpone the Settlement Date.

See Section 2403.11 regarding designating Authorized Employees. See Sections 6203.8, 6204.8 and 6205.8 for additional instructions for delivering Certificates of Incumbency and submitting Form 996E for fixed-rate Guarantor, WAC ARM Guarantor and MultiLender Swap Contracts, respectively.

The person who submits the Form 996E for the Warehouse Lender must be authorized on Form 990SF, Warehouse Provider Certificate of Incumbency, to provide Freddie Mac with instructions (or to modify instructions) to transfer funds on behalf of the Warehouse Lender (see Section 6305.12 for additional information); if the person submitting Form 996E is not an Authorized Employee, if Freddie Mac does not receive the Form 990SF in sufficient time to process it or believes that the Certificate of Incumbency cannot be relied upon or that the information on the Certificate of Incumbency is unreliable, Freddie Mac may, in its sole discretion, postpone the Settlement Date.

6305.5: Delivery procedures for Pledged Mortgages (09/10/18)

Form 996E, Warehouse Provider Release and Transfer, required for delivery under a Purchase Contract, includes an Appendix I showing each Mortgage in the delivery, the Freddie Mac contract number, Freddie Mac loan number, UPB, Borrower's name and the address of the Mortgaged Premises. Freddie Mac may, in its sole discretion, require the Seller, the Warehouse Lender and, in certain circumstances, the Document Custodian to enter into an addendum to the Form 996E (such addendum sometimes referred to as a "Quad Party Agreement").

6305.6: Acceptance for purchase or rejection of Pledged Mortgages (10/02/19)

If Freddie Mac determines not to purchase a Pledged Mortgage, the Seller will be notified of such decision, and the Note for that Pledged Mortgage will be delivered to the Warehouse Lender indicated on Form 996E, Warehouse Provider Release and Transfer, or to that Warehouse Lender's document custodian.

6305.7: Warehouse Lender's interest (10/02/19)

No Pledged Mortgage will be accepted for purchase by Freddie Mac if the Seller has assigned the Mortgage to a Warehouse Lender unless (i) if the assignment of the Pledged Mortgage has been recorded in the public records the Seller obtains an assignment of the Mortgage in favor of the Seller executed by the Warehouse Lender, in recordable form, to be effective on or before the Settlement Date of the Pledged Mortgage, such assignment to be promptly recorded in the public records of the appropriate jurisdiction by the Seller after the Settlement Date, or (ii) if the assignment of the Mortgage to the Warehouse Lender was not recorded, the Warehouse Lender returns that unrecorded assignment to the Seller prior to the Settlement Date.

No Pledged Mortgage will be accepted for purchase by Freddie Mac if the Warehouse Lender has filed a financing statement relating to the Pledged Mortgage in the public records of any jurisdiction unless (i) the Seller obtains an executed termination statement from the Warehouse Lender to be filed promptly in the public records of the appropriate jurisdiction by the Seller after the Settlement Date, or (ii) the security interest in the Pledged Mortgage by its express terms will be released automatically upon Freddie Mac's purchase of the Pledged Mortgage.

6305.8: Seller representations and warranties for Pledged Mortgages (10/02/19)

The Seller represents and warrants to, and covenants with, Freddie Mac that:

- As of the Settlement Date, each Pledged Mortgage is free and clear of any and all security interests, claims and encumbrances of any third party, including, without limitation, the Warehouse Lender and any party claiming through the Warehouse Lender.
- Seller will take or will cause the Warehouse Lender to take all such further action, including, without limitation, preparing, executing and filing additional documents and instruments to assure and confirm to Freddie Mac that each Pledged Mortgage is free and clear of any and all security interests, claims and encumbrances and that absolute and unencumbered title to the Pledged Mortgage is conveyed to Freddie Mac as of the Settlement Date.
- The wire transfer or UMBSTM, MBS or WAC ARM PC delivery instructions delivered to Freddie Mac are in accordance with the Seller's Warehouse Agreement and that the person providing the wire transfer or UMBS, MBS or WAC ARM PC delivery instructions is an "Authorized Employee" on the Certificate of Incumbency (see Section 2201.1 for additional information).

6305.9: Liability for a postponed Settlement Date for Pledged Mortgages (10/02/19)

Freddie Mac will not be liable to the Seller, the Warehouse Lender, or any third party for any losses, costs, expenses, or damages that such party may incur if the Settlement Date for a Pledged Mortgage is postponed due to the Seller's failure to deliver wire transfer instructions (Form 987E, Wire Transfer Authorization for a Cash Warehouse Delivery) into the applicable Loan Selling Advisor® screens or Form 996E, Warehouse Provider Release and Transfer, because the person executing Form 987E, the contact person on Form 996E or the employee performing the Loan Selling Advisor Setup Manager role is not designated as an "Authorized Employee" on the Seller's Certificate of Incumbency. (See Section 2201.1 for additional information.)

6305.10: Seller indemnification (02/02/22)

The Seller agrees to indemnify and hold Freddie Mac, its successors, assigns and transfer agents harmless from and against any and all losses, claims, demands, actions, suits, damages, costs and expenses (including reasonable attorney fees) of every nature and character that may arise or be made against or be incurred by Freddie Mac as a result of any of the following:

- The deposit of the Note and any ancillary documents with, and their maintenance by, the Document Custodian pending Freddie Mac's purchase of the Mortgages or the determination not to purchase certain Mortgages (and the subsequent return of rejected Notes and any ancillary documents)
- The delivery or transfer of any Purchase Proceeds by Freddie Mac or its agent to any person if:
 - Such Purchase Proceeds in the form of a UMBS®, MBS or WAC ARM PC are delivered in accordance with the terms of the Purchase Documents and security wire instructions inserted in Loan Selling Advisor® screens, or
 - Such Purchase Proceeds are delivered in accordance with the Purchase Documents and the Seller's wire transfer instructions on Form 987E, Wire Transfer Authorization for a Warehouse Delivery
- The Seller's failure to provide Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, Form 988SF – HFA, Certificate of Incumbency for Housing Finance Agency, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable, that designates employees authorized to provide Freddie Mac with wire transfer instructions (or modify instructions) to transfer funds or securities on the Seller's behalf

- The Seller's failure to provide complete, accurate and authorized wire transfer instructions or failure to notify Freddie Mac of any necessary or desired changes to the authorized wire transfer instructions
- Security interests, claims, encumbrances of any third party, including any Warehouse Lender, or the failure of any third party, including any Warehouse Lender, to release or to transfer to Freddie Mac all of the right, title and interest of whatever nature the third party may have with respect to or in the Note
- The failure of the Warehouse Lender to submit any required forms or documents, including Form 990SF, Agreement and Certificate of Incumbency: Warehouse Lender, or Form 996E, Warehouse Provider Release and Transfer, to Freddie Mac as described in Section 6305.12

6305.11: Reimbursement by the Seller for Pledged Mortgages (03/02/16)

No fees in addition to those associated with specific Mortgage programs described elsewhere in this Guide are charged pursuant to a delivery of Pledged Mortgages. However, the Seller agrees to reimburse Freddie Mac for any reasonable expenses incurred by Freddie Mac in connection with the delivery of Pledged Mortgages by Warehouse Lenders to Freddie Mac. The nature and amount of such expenses will be specified in a written notice to the Seller from Freddie Mac. The Seller must reimburse Freddie Mac for the amount of any such expenses within 10 Business Days of request by Freddie Mac.

6305.12: Special Warehouse Lender acknowledgments and agreements (02/02/22)

(a) Form 990SF

Each Warehouse Lender must provide Freddie Mac with an agreement and certificate of incumbency (“Certificate of Incumbency”) on Form 990SF, Agreement and Certificate of Incumbency: Warehouse Lender, with Exhibit A, which is a copy of resolution by the Warehouse Lender’s board of directors or other governing body (the “Resolution”) in the form provided by Freddie Mac (unless applicable law or other circumstances require another form). The Resolution must empower and authorize (a) employees identified by title or by name and title on the Form 990SF (each, an “Authorized Employee”) to provide instructions, or modifications of instructions, to Freddie Mac in conjunction with a Seller’s sale of Pledged Mortgages to Freddie Mac through Loan Selling Advisor® and (b) authorize Administrators to grant access to Authorized Employees with the External WHL Approver and External WHL Reviewer role.

A new Warehouse Lender will not be given access to Loan Selling Advisor until Freddie Mac has accepted the Warehouse Lender's Form 990SF. Any person identified on Form 990SF as performing the External WHL Approver and External WHL Reviewer roles (to submit a Form 996E through Loan Selling Advisor) must be designated as an Authorized Employee authorized to provide Freddie Mac with wire transfer instructions on the Warehouse Lender's Form 990SF.

The Certificate of Incumbency must contain either the pen and ink signature or an Electronic copy or representation of the pen and ink signature of each Authorized Employee.

The Certificate of Incumbency, Resolution, and any other required documents or forms, signed by the Warehouse Lender's Secretary, Assistant Secretary or legal counsel must be delivered to Freddie Mac as an Electronic Record, as defined in Section 1401.2, in Portable Document Format (PDF) and contain an Electronic Signature, as defined in Section 1401.2. The Electronic Signature must meet the requirements contained in Form 990SF itself and, at a minimum, be a copy or representation of the pen and ink signature of the Warehouse Lender's signatory attached thereto or logically associated therewith. Although Freddie Mac reserves the right to verify or authenticate any Seller/Servicer request for a change, the Seller/Servicer may not consider Freddie Mac's failure to do so an act of negligence.

By executing the complete Certificate of Incumbency and delivering it to Freddie Mac, the Warehouse Lender makes the same representations and warranties to, and covenants with, Freddie Mac as Sellers make to Freddie Mac in Section 2201.1.

Freddie Mac may, periodically and at its sole discretion, require the Warehouse Lender to submit a new Form 990SF and/or Resolution.

The Warehouse Lender must renew its Form 990SF every two years and its Resolution every four years, and determine if such renewal requires new or modified Wire Transfer Instructions. Freddie Mac will notify the Warehouse Lender approximately 120 days before the renewal due date. If a Warehouse Lender fails timely to deliver a replacement Certificate of Incumbency, Freddie Mac may, in its sole discretion, cancel or postpone purchasing any Pledged Mortgages financed by that Warehouse Lender until a renewal Certificate of Incumbency has been accepted by Freddie Mac and any other requirements have been met. The Warehouse Lender shall indemnify and hold Freddie Mac, its directors, officers, employees, successors, assigns and fiscal and transfer agents harmless from and against the consequences of any such cancellation or postponement.

(b) Form 475

As of October 31, 2018, Form 475 has been combined with Form 990SF. Since Form 475 is no longer used, this section has been deleted.

(c) Form 996E

In connection with Freddie Mac's purchase of Pledged Mortgages, the Warehouse Lender must submit a Form 996E, Warehouse Provider Release and Transfer, to Freddie Mac through Loan Selling Advisor.

Freddie Mac will not accept a 'bailee letter' or equivalent documentation with respect to any Pledged Mortgage. If a Warehouse Lender or any other party delivers such a document to Freddie Mac, Freddie Mac has the right, in its sole discretion, to cancel or postpone the Settlement Date for the related Pledged Mortgage(s).

Chapter 6306: Correspondent XChange®

6306.1: Correspondent XChange® (05/03/23)

(a) Correspondent XChange®

The provisions of this chapter apply to Correspondent XChange, one of the executions available under Servicing-Released XChange®, Freddie Mac’s suite of executions that provides market liquidity for Servicing Contract Rights and helps Sellers easily transfer Servicing to an approved Servicer.

A Seller must apply to Freddie Mac for approval and access to participate in Correspondent XChange as an Originator pursuant to the terms of Exhibit 29, Correspondent XChange® Operational Bifurcation Multi-Party Agreement. Freddie Mac-approved Originators will be provided appropriate access to the execution option. Sellers must call their Freddie Mac representative or 800-FREDDIE to inquire about the Correspondent XChange Originator approval process.

(b) Transfer of data to aggregators for Operational Bifurcated Mortgages

Under Correspondent XChange, Sellers that originate Freddie Mac-eligible Mortgages (“Originators” as defined in Exhibit 29) use Third Party Transaction Services (TPTS) functionality in Loan Selling Advisor® to transfer the data for their Mortgages to certain Freddie Mac-approved aggregators with whom they have an agreement to sell these Originator Mortgages for cash. The aggregators are Freddie Mac Sellers approved to sell Operational Bifurcated Mortgages to Freddie Mac.

Each Originator and Seller agree to be bound by the terms and conditions set forth in Exhibit 29, for each Operational Bifurcated Mortgage sold by the Originator to the Seller and then by the Seller to Freddie Mac under Correspondent XChange. For these Mortgages, the liability for “Origination and Sale Obligations” and “Servicing Obligations,” each of the obligations as described and defined in Exhibit 29, is allocated by Freddie Mac in accordance with the provisions of Section 7101.15 and Exhibit 29.

Chapter 6401: Nondelivery

6401.1: Pairoff (10/15/18)

A pairoff constitutes fulfillment of a mandatory obligation to deliver Mortgages to Freddie Mac under the Cash, Guarantor or MultiLender Swap programs.

The Seller may pair off a Cash Purchase Contract or a mandatory obligation to deliver Mortgages under a Pricing Identifier by repurchasing all or any portion of the respective contract in lieu of selling the Mortgages to Freddie Mac. Failure to deliver Mortgages pursuant to the terms of the respective contract or to otherwise fulfill a mandatory obligation to deliver Mortgages to Freddie Mac according to the requirements of this section subjects the Seller to the remedies for nondelivery provided in the Guide.

Best Efforts Contracts are not mandatory, and pairoff requirements do not apply. See Section 6101.4 for additional requirements applicable to Best Efforts Contracts.

(a) Pairoff procedures for Cash, Guarantor and MultiLender Swap Purchase Contacts

The pairoff amount for a Purchase Contract with a mandatory obligation to deliver Mortgages is equal to the Commitment Amount of such Purchase Contract, less the applicable purchase tolerance and less the amount of Mortgages previously purchased by Freddie Mac under the applicable Purchase Contract. The purchase tolerance is equal to the greater of 2.5% of the Purchase Contract amount or \$10,000.

The Seller may do any one of the following:

- Request a pairoff via Loan Selling Advisor® prior to the Purchase Contract Expiration Date
- Have Loan Selling Advisor automatically calculate the pairoff fee after the Purchase Contract Expiration Date
- Use the pairoff and recommit functionality as described in Section 6101.3(e)

The pairoff process is “two-way” and may result in either a fee due Freddie Mac from the Seller or a fee due the Seller from Freddie Mac, depending on market conditions. A pairoff fee calculated and provided by Loan Selling Advisor is non-negotiable.

Pairoff fees will be included in the Seller’s monthly invoice and must be paid as set forth in Chapter 6303. Freddie Mac reserves the right to amend the provisions of this section relating to the Loan Selling Advisor pairoff process without prior notice.

(b) Pairoff procedures for Commitment Amounts

The Seller may pair off a Commitment Amount associated with a Pricing Identifier that has a mandatory obligation to deliver Mortgages at any time before and including the Pricing Identifier Expiration Date. The Seller makes a pairoff request by contacting its Freddie Mac Account Manager.

The pairoff amount shall equal the applicable Commitment Amount, less:

- The purchase tolerance associated with the Pricing Identifier, and
- The Commitment Amount of any Cash Purchase Contracts fulfilled under the Pricing Identifier plus the UPB of Mortgages previously purchased by Freddie Mac under Guarantor or MultiLender Swap Purchase Contracts taken out in connection with the Pricing Identifier

Freddie Mac will determine the amount of the pairoff fee and will quote it to the Seller

Pairoff fees will be included in the Seller's invoice and must be paid as set forth in Section 6303.2.

6401.2: Penalty for nondelivery (07/12/17)

In addition to any other remedies it may have under law or in equity, Freddie Mac reserves the right, in its sole discretion, to take any appropriate action to protect its interest and enforce its rights in the event of nondelivery under a mandatory obligation to deliver Mortgages under the Cash, Guarantor or MultiLender Swap programs, including, but not limited to, disqualification or suspension of the Seller from eligibility to sell Mortgages to Freddie Mac under Chapter 2301.

The Seller can fulfill mandatory obligations to deliver Mortgages under a mandatory Purchase Contract by initiating a pairoff (see Section 6401.1).

Chapter 7101: Transfers of Servicing and Intra-Servicer Portfolio Moves

7101.1: Transfers of Servicing overview (03/04/20)

Freddie Mac's requirements for Transfers of Servicing are set forth in this chapter.

Subject to obtaining Freddie Mac's written approval, a Transfer of Servicing can result from either:

- A negotiation between the Transferor Servicer and the Transferee Servicer; or
- Certain changes in ownership of a Seller/Servicer that result in a conveyance or other transfer, in effect, of the Servicing Contract Rights. The Seller/Servicer is responsible for:
 - Determining when a Transfer of Servicing will occur due to an organizational change
 - Submitting the appropriate request specified in Section 7101.2
 - Complying with other requirements in this Guide, as applicable

See also Section 8105.2 regarding Servicing compensation to a new Servicer pursuant to a Transfer of Servicing initiated by Freddie Mac.

See Section 1402.13 for Transfer of Servicing requirements involving eMortgages.

7101.2: Submitting requests for Transfers of Servicing and Intra-Servicer Portfolio Moves (04/12/23)

The Transferor Servicer and Transferee Servicer must obtain Freddie Mac's written approval of each Transfer of Servicing request before the transfer takes place. In the event the Transferee Servicer is going to establish a subservicing arrangement with a new Servicing Agent, the Transferee Servicer and its proposed Servicing Agent must comply with the requirements of Chapter 8101, including submitting a complete and fully-executed Form 479A, Single-Family Servicing Agent Certification and Agreement.

Freddie Mac's prior written approval is required, regardless of whether the Transfer of Servicing is initiated or requested by a Servicer or any other party, such as a conservator, receiver or liquidator of the Servicer.

On or before the Effective Date of Transfer, the Transferor Servicer must provide to the Transferee Servicer copies of:

- All of the Transferor Servicer’s Purchase Documents applicable to the Transfer of Servicing (excluding any Credit Fees in Yield and other Credit Fees); and
- All of the Purchase Documents of any preceding Transferor Servicer that are applicable to the Transfer of Servicing (excluding any Credit Fees in Yield and other Credit Fees)

For Transfers of Servicing with an Effective Date of Transfer prior to April 11, 2018, Transferor Servicers must provide such Purchase Documents to a Transferee Servicer upon such Servicer’s written request.

(a) Concurrent Transfers of Servicing

For a Concurrent Transfer of Servicing, the Transferor Servicer must obtain Freddie Mac’s approval of the Transfer of Servicing before entering into Pricing Identifier Terms or other Purchase Contracts to sell the Mortgages to Freddie Mac. Freddie Mac will monitor the financial condition and performance of the Transferor Servicer (Seller) and the Transferee Servicer and may, in its discretion, rescind or suspend approval of the Concurrent Transfer of Servicing.

The Transferor Servicer and Transferee Servicer must complete Form 960, Agreement for Concurrent Transfer of Servicing of Single-Family Mortgages. A separate Form 960 is required for each Transferee Servicer. The fully executed Form 960 must be submitted to Freddie Mac (**see Directory 3**).

Freddie Mac will indicate approval, if appropriate, by executing and returning a copy of Form 960 to the Transferor Servicer and Transferee Servicer. Freddie Mac’s approval of the transfer is effective for Mortgages delivered on or after the date Freddie Mac executes Form 960. The Form 960 will expire on the expiration date the Transferor Servicer enters on Form 960. If no expiration date is entered, the Form 960 will remain in effect until Freddie Mac, the Transferor Servicer, or the Transferee Servicer terminate the Form 960.

The Transferor Servicer or Transferee Servicer may terminate the Form 960 by first providing notice to the other (Transferor Servicer or Transferee Servicer as applicable) and then provide written notice to Freddie Mac (**see Directory 3**) at least five Business Days prior to the requested termination date.

In instances where a Transferor Servicer submits multiple Concurrent Transfer of Servicing requests, Freddie Mac’s approval does not constitute approval to exceed the amount of the Transferor Servicer’s applicable Commitment Amount.

Freddie Mac will provide to the Transferee Servicer a funding detail report, which may be shared with the Transferee Servicer to aid it in preparing Servicing and accounting reports.

A Seller/Transferor Servicer may select only one Transferee Servicer for a given Purchase Contract.

The requirements for a Concurrent Transfer of Servicing of Mortgages sold to Freddie Mac through Cash-Released XChange® are contained in Exhibit 28A, Loan Servicing Purchase and Sale Agreement for Cash-Released XChange®. All other Concurrent Transfers of Servicing must follow the requirements in this chapter.

(b) Subsequent Transfers of Servicing

(i) Process

At least 45 days but not more than 60 days before the requested Effective Date of Transfer for a Subsequent Transfer of Servicing, the Transferor Servicer must access the Servicing Transfer Manager tool available via the **Servicing Gateway** (see Exhibit 88, Servicing Tools), go to the “Manage Portfolio” tab and select “Create a new STOS” request. The Transferor Servicer must complete all fields and respond to all questions designated to be completed by the Transferor Servicer, including selecting the Transferee Servicer. In addition, at least 45 days but not more than 60 days before the requested Effective Date of Transfer, the Transferor Servicer must submit the list of the Mortgages that are related to the Transfer of Servicing (the “Proposed Mortgage List”) through Servicing Transfer Manager.

Freddie Mac will notify the prospective Transferee Servicer of the requested Transfer of Servicing by e-mail using the e-mail address supplied by the Transferor Servicer in Servicing Transfer Manager. The Transferee Servicer must log into Servicing Transfer Manager, go to the “Manage Portfolio” tab and select the Transfer of Servicing transaction that was proposed by the Transferor Servicer. The Transferee Servicer must complete all fields designated to be completed by the Transferee Servicer for the proposed Transfer of Servicing.

Freddie Mac will provide the Transferor Servicer and Transferee Servicer with additional data related to the Proposed Mortgage List and populate the responses to certain questions based on data in Freddie Mac systems that was previously supplied to Freddie Mac (e.g., by the Seller, prior Servicer, or the Transferor Servicer). The Transferor Servicer must validate the accuracy and completeness of all data, the responses to all the questions, and the content of the Proposed Mortgage List.

Once all required fields are completed by both the Transferor Servicer and the Transferee Servicer and the Proposed Mortgage List is submitted, Servicing Transfer Manager will provide the Transferor Servicer and Transferee Servicer the opportunity to review an Electronic Agreement for Subsequent Transfer of Servicing of Single-Family Mortgages (“STOS Agreement”), which must be electronically signed by both Servicers, at least 45 days but not more than 60 days before the requested Effective Date of Transfer.

The Transferor Servicer will have the capability to add or remove Mortgages from the Proposed Mortgage List and revalidate the responses to the various questions to ensure they remain accurate in light of the added or removed Mortgages up to eight days prior to

the Effective Date of Transfer. In addition, Freddie Mac may require the Transferor Servicer to make changes to the Proposed Mortgage List. The Transferor Servicer and Transferee Servicer must agree on the final list of Mortgages related to the Transfer of Servicing prior to the Effective Date of Transfer (“Final Mortgage List”) and, in the event there were changes to the Proposed Mortgage List, the Servicers must electronically execute a new STOS Agreement related to the Final Mortgage List no later than eight days prior to the Effective Date of Transfer.

If there are no changes to the Proposed Mortgage List, then such list is the Final Mortgage List and the Servicers are not required to electronically execute a new STOS Agreement.

The Servicing Contract Rights related to any Mortgage with any of the following characteristics as of the day prior to the Effective Date of Transfer are not subject to any Transfer of Servicing notwithstanding the inclusion of such Mortgage’s loan number on the Final Mortgage List:

- Any Mortgage that has been paid off
- Any Mortgage that is a guaranteed or insured by the FHA or VA and has a scheduled foreclosure sale date
- Any Mortgage that is 90 days or more delinquent; or
- Any Mortgage that has been previously modified

Servicers that wish to transfer the Servicing Contract Rights related to Mortgages that are delinquent for 90 days or more or have been previously modified must do so in accordance with the Voluntary Partial Cancelation process outlined in Chapter 7102.

See Section 1101.3 for information about costs and claims that may become due and payable automatically upon the execution and submission of one or more STOS requests, as defined in the Glossary definition of “Claims Event,” or the execution and submission of one or more STOS Agreements, Voluntary Partial Cancelation Agreements, or Voluntary Full Cancelation Agreements that contemplate a Transfer of Servicing that will result in the transfer of all or, in Freddie Mac’s sole determination, substantially all of the Servicing Contract Rights of the Seller/Servicer or Seller/Servicer’s Freddie Mac Servicing portfolio, either in a single transaction or a series of transactions over a 180-day period. If triggered, the Transferor Servicer must pay the outstanding costs and Freddie Mac’s Claims as a condition of Freddie Mac’s approval of the Transfer of Servicing or obtain a written waiver of such condition from Freddie Mac.

(ii) Approval and execution

Upon Freddie Mac’s approval of the Transfer of Servicing, Freddie Mac will notify the Transferor Servicer and Transferee Servicer of Freddie Mac’s approval in writing and the

Servicing Transfer Manager status for the proposed Transfer of Servicing will change to an “approved” status. Freddie Mac reserves the right to withdraw its approval of the Transfer of Servicing at any time prior to the Effective Date of Transfer in the event the Servicer makes any changes to the Proposed Mortgage List, other than removal of Mortgages, or there is an intervening event that impacts the continuing eligibility of either Servicer to engage in the Transfer of Servicing (e.g., bankruptcy, regulatory prohibition, etc.). Provided Freddie Mac does not withdraw its approval, on or before the Effective Date of Transfer, Freddie Mac will electronically sign the STOS Agreement acknowledging its earlier approval for the Servicers to proceed with the Transfer of Servicing on the Effective Date of Transfer.

The Effective Date of Transfer must be the first day of the month.

Prior to its Electronic execution of the STOS Agreement, the Transferor Servicer must provide to the Transferee Servicer any and all data related to each Mortgage set forth in the Final Mortgage List, including the underlying data related to each such Mortgage for those questions that the Transferor Servicer answered and/or validated “yes” as the appropriate response in Servicing Transfer Manager. Specifically, the Transferor Servicer must inform the Transferee Servicer of each REO related to the Transfer of Servicing and, with respect to each Mortgage related to the Transfer of Servicing, specify by Freddie Mac loan number whether the Mortgage:

1. Has lender-purchased mortgage insurance and the terms of such insurance
2. Is subject to a credit enhancement and the type of such enhancement, if any
3. Is subject to a Trial Period Plan or mortgage modification and type of program for each (e.g., Home Affordable Modification ProgramSM (HAMP[®]), Freddie Mac Standard Modification, Freddie Mac Streamlined Modification, Freddie Mac Flex Modification[®], etc.)
4. Is subject to a Payment Deferral
5. Is or may become a Senior Subordinate Mortgage and in this instance, advise the Transferee Servicer of the Servicing Requirements set forth in Chapter 8601
6. Has any of the following characteristics and provide the data related to such characteristic:
 - Step-rate
 - Actual/actual remitting obligation
 - Partial principal forbearance
 - Originated pursuant to an affordable housing initiative

- Secured by a Manufactured Home
 - Transfer of Servicing is restricted under a negotiated term of business
 - Payment cap or option ARMs, or
 - Biweekly payments
7. Has a specific remittance option, and the type of remittance option
 8. Has a repurchase or remedy demand in any status; and/or
 9. Has a note that is an eNote, has an eModification Agreement or Electronic Payment Deferral Agreement and, in this case, names the repository holding such eNote, eModification Agreement or Electronic Payment Deferral Agreement

Prior to electronically executing the STOS Agreement, the Transferee Servicer must conduct due diligence on each Mortgage related to the Transfer of Servicing to ensure that it has received all relevant data pertaining to each Mortgage and, based on that information, determine that it has the operational capacity and capability to service each such Mortgage.

If the Transfer of Servicing constitutes a Claims Event, then pursuant to Section 1101.3, all of Freddie Mac's Claims related to the Transferor Servicer shall be deemed immediately and automatically due and payable, without the need for further action by Freddie Mac or any other party. If Freddie Mac's Claims have become due and payable in connection with the foregoing, the Transferor Servicer must pay, unconditionally and in full, any and all of Freddie Mac's Claims as a condition to receipt of Freddie Mac's approval of the Transfer of Servicing; provided, however, that Freddie Mac may at any time expressly waive or defer such payment obligation in writing in its sole and absolute discretion.

(iii) Electronic Signature Process

Servicers engaging in a Subsequent Transfer of Servicing must comply with the Servicing Transfer Manager Electronic signature process.

A Servicer's completion of all required fields, validation of the answers to all questions set forth in Servicing Transfer Manager related to the Final Mortgage List, and the Servicer's electronic execution and submission of the STOS Agreement in accordance with this chapter and any additional requirements set forth in Servicing Transfer Manager or the [**Servicing Transfer Manager User Guide**](#), is an Eligible Electronic Transaction as defined. In addition, the fully executed STOS Agreement is a Purchase Document. Each Servicer engaging in a Subsequent Transfer of Servicing must electronically sign the STOS Agreement and submit it to Freddie Mac via Servicing Transfer Manager as an

Electronic Record with its respective duly authorized employees' Electronic Signatures attached to or logically associated with such Electronic Record.

Freddie Mac will acknowledge its approval, if granted, by electronically signing the STOS Agreement in Servicing Transfer Manager and will notify both the Transferor Servicer and the Transferee Servicer of such approval and the availability of the fully-executed STOS Agreement in Servicing Transfer Manager. The Transferor Servicer and the Transferee Servicer each must download and retain the fully-executed STOS Agreement and Final Mortgage List in their respective Servicing systems.

For purposes of this Section 7101.2(b) the following terms are defined as follows:

- **Electronic** has the meaning set forth in Section 1401.2
- **Electronic Record** has the meaning set forth in Section 1401.2
- **Electronic Signature** has the meaning set forth in Section 1401.2
- **eNote** has the meaning set forth in Section 1402.2
- **eModification Agreement** has the meanings set forth in Sections 1401.2 and 1402.2
- **Electronic Payment Deferral Agreement** has the meaning set forth in Section 1401.2
- **Eligible Electronic Transaction** has the meaning set forth in Section 1401.2

(c) Denied Transfer of Servicing requests

Freddie Mac reserves the right to deny a Transfer of Servicing request. Freddie Mac may provide the Transferor Servicer written notice of the denial, but is not obligated to provide a written notice explaining the reason for denial.

(d) Freddie Mac's rights

(i) Unauthorized Servicing Transfer

Any actual or purported transfer, assignment and/or assumption of Servicing, Servicing Contract Rights, and/or the Servicing Contract by an unauthorized Transferor Servicer and purported Transferee Servicer without obtaining Freddie Mac's written approval (each an "Unauthorized Servicing Transfer") constitutes grounds for suspension or disqualification of both the unauthorized Transferor Servicer and purported Transferee Servicer as Seller/Servicers. Any Unauthorized Servicing Transfer constitutes a Claims Event under Section 1101.3, pursuant to which all Freddie Mac's Claims shall be deemed immediately due and payable. In addition to its rights at law and equity, Freddie Mac may exercise any of its other rights under the Purchase Documents.

An Unauthorized Servicing Transfer will result in the assessment of a compensatory fee determined by Freddie Mac not to exceed 1% of Freddie Mac's share of the UPB of the Mortgages that were related to the Unauthorized Servicing Transfer. The imposition of this compensatory fee does not limit Freddie Mac's rights to exercise any of its other rights under the Purchase Documents including, without limitation, suspension or disqualification of both the unauthorized Transferor Servicer and purported Transferee Servicer as Seller/Servicers, as well as causing all of Freddie Mac's Claims to be deemed immediately due and payable pursuant to Section 1101.3. If an Unauthorized Servicing Transfer occurs, the unauthorized Transferor Servicer and purported Transferee Servicer are jointly and severally liable to Freddie Mac with respect to any losses, costs and damages (including, but not limited to, attorney fees and related court and legal costs) incurred by Freddie Mac arising out of or related to the Unauthorized Servicing Transfer.

(ii) Post-transfer reviews

Freddie Mac may perform a post-transfer review of any approved Transfer of Servicing, which may include onsite visits, to determine whether the Transferor Servicer and Transferee Servicer complied with the requirements of the Guide and applicable Purchase Documents.

Freddie Mac may also request the Servicer to perform a post-transfer review and provide documentation of such review.

(e) Intra-Servicer Portfolio Move Request for Servicing of Single-Family Mortgages

Certain Servicers have been allocated two or more Seller/Servicer numbers with respect to specific Mortgages that they service for Freddie Mac. If a Servicer wishes to consolidate or reallocate the loan numbers attributable to one of its Seller/Servicer numbers to another of its Seller/Servicer numbers (the "New Seller/Servicer Number") (an "Intra-Servicer Portfolio Move"), the Servicer must submit an Intra-Servicer Portfolio Move Request for Servicing of Single-Family Mortgages and a list of such Mortgages via Servicing Transfer Manager, and obtain Freddie Mac's prior approval by undertaking the following steps:

- At least 45 days, but not more than 120 days, prior to the requested effective date of change, the Servicer must log into Servicing Transfer Manager, go to the "Manage Portfolio" tab, select "Create New Request" and then select "Intra-Servicer Portfolio Move Request"
- Complete all questions designated to be completed by the Servicer
- Submit the list of Mortgages related to the change in Seller/Servicer number
- Sign the Intra-Servicer Portfolio Move Request to acknowledge the terms and conditions associated with the change in Seller/Servicer number

Upon receipt of the Intra-Servicer Portfolio Move Request and the list of related Mortgages, Freddie Mac will review the list to ensure that the Servicing of such Mortgages may be reallocated to the New Seller/Servicer Number. Upon Freddie Mac's approval, the Seller/Servicer number associated with the Mortgages will change in Freddie Mac's systems as of the requested effective date of change and the Servicer must make corresponding changes in its systems as of the same date. An approved Intra-Servicer Portfolio Move does not result in any change to the rights, liabilities and obligations the Servicer owes towards Freddie Mac under the Purchase Documents.

Once the Servicer receives Freddie Mac's approval, the Servicer must inform its Document Custodian of the New Seller/Servicer Number.

Servicers must also ensure that Principal and Interest Payments and Escrow Funds received from Mortgages included in the Intra-Servicer Portfolio Move Request are deposited in the Custodial Account associated with the New Seller/Servicer Number. See Section 8302.1 for more information.

7101.3: Review of Transferor Servicer and Transferee Servicer (04/12/23)

(a) Freddie Mac review

- (i)** Freddie Mac will work with the Transferor Servicer and Transferee Servicer to approve a Transfer of Servicing, but reserves the right to approve with conditions. Freddie Mac is not obligated to approve a Transfer of Servicing. Freddie Mac will not approve a proposed Transfer of Servicing if Freddie Mac, in the exercise of its judgment and in its sole discretion, determines that such a transfer is not in the best interests of Freddie Mac or determines that the Transferor Servicer or Transferee Servicer will not be able to adequately service the Mortgages and/or REO subject to, or otherwise meet their respective obligations under, their respective Servicing Contracts. Freddie Mac will not approve a proposed Transfer of Servicing if the Final Mortgage List includes Mortgages that are 90 days or more delinquent or have been previously modified. Servicers who wish to transfer the Servicing Contract Rights related to Mortgages that are delinquent for 90 days or more or have been previously modified must do so in accordance with the Voluntary Partial Cancellation process outlined in Chapter 7102.
- (ii)** The Transferor Servicer and Transferee Servicer must be approved Seller/Servicers and must be in compliance with all the requirements of the Purchase Documents. When reviewing a Transfer of Servicing request, Freddie Mac will review both the Transferor Servicer and the Transferee Servicer. Transferor Servicers and Transferee Servicers must not be subject to any situations prohibited under Section 2301.2 unless approved by Freddie Mac. The review will focus on, but not be limited to, financial capacity to honor contractual obligations, existence of any outstanding obligations (such as repurchases),

delinquency and REO ratios, delinquency reporting and the Transferee Servicer's and Transferor Servicer's performance results on their respective Servicer Success Scorecards.

Freddie Mac's review of the Transfer of Servicing request may take additional time if either the Transferor Servicer or Transferee Servicer is subject to any situations prohibited under Section 2301.2, or the Purchase Documents reflect negotiated terms, including the sale of Mortgages to Freddie Mac with recourse.

(b) Transferor Servicer review

The Transferor Servicer must participate with the Transferee Servicer with respect to the Transferee Servicer's due diligence review on the Mortgages related to the Transfer of Servicing, Custodial Accounts, obligations under the Purchase Documents and any alternative to foreclosure and provide to the Transferee Servicer any missing data, documents or other information necessary for the Transferee Servicer to perform its obligations under the Guide, applicable Purchase Documents, and in accordance with the terms of the Mortgage and applicable alternatives to foreclosure.

The Transferor Servicer should consider adopting the best practices set forth in the *Servicing Transfer Best Practices* document published at https://sf.freddiemac.com/content/_assets/resources/pdf/factsheet/tos_best_practices.pdf. Upon request, the Transferor Servicer must provide to Freddie Mac the post-transfer review results.

(c) Transferee Servicer review

The Transferee Servicer must perform a due diligence review on the Mortgages related to the Transfer of Servicing and on Custodial Accounts, and to be aware of any obligations of the Transferor Servicer under the Purchase Documents that the Transferee is assuming and any alternative to foreclosure, whether offered and outstanding or currently in place with a Borrower. The Transferee Servicer's due diligence efforts should include, but are not limited to, a review of the following information that the Transferor Servicer may provide:

1. Reports and data that confirm and support information provided by the Transferor Servicer
2. Pertinent reports prepared by internal or external auditors, including any recently completed Freddie Mac audit

The Transferee Servicer should consider adopting the best practices set forth in the *Servicing Transfer Best Practices* document published at https://sf.freddiemac.com/content/_assets/resources/pdf/factsheet/tos_best_practices.pdf. Upon request, the Transferee Servicer must provide to Freddie Mac the post-transfer review results.

The Transferor Servicer may not provide a copy of its Servicer Success Scorecard to the Transferee Servicer without Freddie Mac's prior written approval.

7101.4: Additional conditions for Transfers of Servicing (04/12/23)

Transferor Servicer and Transferee Servicer each represent and warrant to Freddie Mac that it has met the requirements in this section for Mortgages related to a Transfer of Servicing, and each agrees and acknowledges that Freddie Mac's approval of a Transfer of Servicing is conditioned upon such representations and warranties.

(a) Mortgage insurance coverage

The Transfer of Servicing must comply with the requirements of each MI that insures any of the Mortgages. Before the Effective Date of Transfer, the Transferor Servicer must obtain a commitment from each MI to continue to provide coverage required by Freddie Mac for the benefit of the Transferee Servicer. If an MI will not continue such coverage, the Transferor Servicer must obtain a written commitment by another MI to provide equivalent coverage.

(b) Special requirements for Mortgages related to a Transfer of Servicing

No Mortgage subject to the Transfer of Servicing may be subject to:

- A prohibition on its Transfer of Servicing in the Purchase Documents (for instance, in a term of business) or as a condition of purchase or otherwise
- An outstanding requirement to be met by the Transferor Servicer prior to the Effective Date of Transfer, such as, for instance:
 - GreenCHOICE Mortgages® with energy or water efficiency improvements to the Mortgaged Premises that are not complete. (See Section 4606.7 for Transfers of Servicing involving GreenCHOICE Mortgages.)
 - For Subsequent Transfers of Servicing, CHOICERenovation® Mortgages with repairs or improvements to the Mortgaged Premises ("renovations") that are not complete. (See Section 4607.18 for Transfers of Servicing involving CHOICERenovation Mortgages.)
 - For Concurrent Transfers of Servicing, CHOICERenovation Mortgages delivered pursuant to Section 4607.1(b) where Freddie Mac's prior written approval has not been obtained pursuant to Section 4607.18
 - For Concurrent Transfers of Servicing, CHOICEReno eXPress® Mortgages with renovations that are not complete

Additional requirements apply to certain Mortgages and Mortgage types.

- To include the Servicing Contract Rights related to a Mortgage represented by an LNA in a Transfer of Servicing, Transferor Servicer must obtain Freddie Mac's prior approval using the procedure set forth in Section 8701.1 and must identify each such Mortgage to the Transferee Servicer and Transferee Servicer's Document Custodian
- eMortgages (as defined in Section 1402.2) must at all times be serviced by an approved Servicer of eMortgages for Freddie Mac or its Servicing Agent pursuant to Section 1402.9(a)

(c) Additional delivery data for Concurrent Transfers of Servicing

For Concurrent Transfers of Servicing, additional Mortgage delivery data required by Form 960, Agreement for Concurrent Transfer of Servicing of Single-Family Mortgages and Chapter 7101 must be submitted by:

- The Transferor Servicer, if submitted at Mortgage delivery, or
- The Transferee Servicer, if submitted after Mortgage delivery

For the Transferee Servicer to submit the data after Mortgage delivery

The Transferor Servicer must obtain Freddie Mac's prior written approval and provide to the Transferee Servicer copies of the Mortgage file documents required for accurate data delivery.

(d) Mortgages in a Trial Period

The Transferor Servicer must notify the Transferee Servicer if there are any Mortgages related to a Transfer of Servicing subject to a Trial Period Plan and must confirm that the Transferee Servicer will assume the additional responsibilities associated with these Mortgages.

If the Transfer of Servicing involves Mortgages in a Trial Period or already subject to a modification, the Transferor Servicer must affirmatively indicate that in Servicing Transfer Manager (see Exhibit 88, Servicing Tools) and identify for each Mortgage the modification initiative on the Proposed Mortgage List and Final Mortgage List, as those terms are identified in Section 7101.2(b) (e.g., Home Affordable Modification ProgramSM (HAMP[®]), Freddie Mac Standard Modification, Freddie Mac Streamlined Modification, Freddie Mac Flex Modification[®]).

(e) Modified Mortgages that have a step-rate provision or partial principal forbearance

The Transferor Servicer must affirmatively indicate in Servicing Transfer Manager whether any Mortgages related to a Transfer of Servicing are modified Mortgages that have a step-rate provision (i.e., the interest rate is subject to incremental increases beginning in year 6 of the modification) or a partial principal forbearance.

(f) Mortgages modified electronically

If any Mortgage related to a Transfer of Servicing has been modified electronically, as defined in Section 1401.17, the Transferor Servicer must affirmatively identify it in Servicing Transfer Manager (see Exhibit 88). See Section 9205.20(b) for requirements governing the HAMP eModification Agreement.

(g) Maintain financial eligibility requirements

Prior to the Effective Date of Transfer, the Transferor Servicer must evaluate whether the proposed Transfer of Servicing will in any way impair its ability to demonstrate to Freddie Mac's satisfaction that it has sufficient capitalization, profitability, liquidity and funding sources to support its ongoing operations and its commitments to Freddie Mac following the Transfer of Servicing. Transferee Servicer must conduct the same evaluation of itself.

(h) Mortgages subject to a Payment Deferral processed electronically

If any Mortgage related to a Transfer of Servicing is subject to a Payment Deferral processed electronically, as defined in Section 1401.17, with an Electronic Payment Deferral Agreement, the Transferor Servicer must affirmatively identify it in Servicing Transfer Manager (see Exhibit 88).

7101.5: Requirements for reporting Transfers of Servicing to Freddie Mac (04/12/23)

(a) Loan-level reporting

The Transferor Servicer must report to Freddie Mac all loan-level transactions, including payoffs and reporting revisions for the Accounting Cycle prior to the month in which the Effective Date of Transfer occurs. (For example, for Transfers of Servicing effective February 1st, the Transferor Servicer will submit all loan-level transactions before the close of business on January 31st and clear outstanding edits no later than January 31st plus one Business Day.)

Beginning on the Effective Date of Transfer, the Transferee Servicer must submit all loan-level reporting, whether required to be submitted electronically or by paper copy, in the name and Seller/Servicer number of the Transferee Servicer.

(b) Accounting reporting and drafting

All accounting reporting due to Freddie Mac must be submitted in accordance with Section 8303.3.

All of the following must be reported by, and will be drafted from, the Transferor Servicer:

- Payoffs for which the payoff date is before the Effective Date of Transfer
- Third-party foreclosure sales for which the sale date is before the Effective Date of Transfer
- Forecasted scheduled interest reported in the month before the Effective Date of Transfer that is due to Freddie Mac in the month of the transfer
- Principal reported in the Accounting Cycle immediately preceding the Effective Date of Transfer (e.g., principal reported between the P&I Determination Date and the end of the Accounting Cycle of the month immediately preceding the Transfer of Servicing)

Freddie Mac will draft the applicable amounts from the Transferor Servicer.

All of the following must be reported by, and will be drafted from, the Transferee Servicer:

- Payoffs for which the payoff date is on or after the Effective Date of Transfer
- Third-party foreclosure sales for which the sale date is on or after the Effective Date of Transfer
- Principal and interest reported on or after the Effective Date of Transfer

Freddie Mac will draft the applicable amounts from the Transferee Servicer.

7101.6: Endorsement of Notes and assignment of Security Instruments for Mortgages related to Transfers of Servicing (04/12/23)

The Notes for Mortgages sold to Freddie Mac are endorsed in blank in accordance with Section 6301.3. When a Transfer of Servicing occurs, the Transferor Servicer must prepare and complete assignments of the Security Instrument described below, but may not complete the blank endorsement on the Note or further endorse it. LNAs are not ‘live’ Notes and cannot be endorsed under any circumstance.

(a) Concurrent Transfers of Servicing for Mortgages not registered with MERS®

For Concurrent Transfers of Servicing, for each Mortgage that is not registered with MERS, the Transferor Servicer must:

- Record Intervening Assignments to complete the chain of assignments to it from the original mortgagee, in accordance with Section 6301.6(a)
- Assign the Security Instrument to the Transferee Servicer and record the assignment
- Follow the procedures set forth in Section 7101.9 and deliver the assignment to the Transferee Servicer's Document Custodian to be verified in accordance with the requirements of Section 6304.2

See Section 6301.6(a) for additional information.

(b) Concurrent or Subsequent Transfers of Servicing for Mortgages registered with MERS

For Subsequent Transfers of Servicing, for each Mortgage that is registered with MERS:

- If the **Transferee Servicer is a MERS Member**, no further assignment is needed and The Transferor Servicer must notify MERS of the Transfer of Servicing.
 - If the **Transferee Servicer is not a MERS Member**, then the Transferor Servicer must prepare and record an assignment of the Security Instrument (on behalf of MERS) from MERS to the Transferee Servicer
 - The Transferor Servicer must follow the procedures set forth in Section 7101.9, and deliver the assignment to the Transferee Servicer's Document Custodian to be verified and certified in accordance with the requirements of Section 6304.2

See Section 6301.6(b) for additional information.

(c) Subsequent Transfers of Servicing for Mortgages not registered with MERS

For Subsequent Transfers of Servicing of Mortgages that are not registered with MERS, the Transferor Servicer must:

- Recover and destroy any original unrecorded assignments to Freddie Mac
- Assign the Security Instrument to the Transferee Servicer and record the assignment
- Follow the procedures set forth in Section 7101.9, and deliver assignment(s) to the Transferee Document Custodian to be verified in accordance with the requirements of Section 6304.2

If the most recent assignment of the Security Instrument is to Freddie Mac and that assignment was recorded, the Transferor Servicer may not prepare an assignment to the Transferee Servicer.

7101.7: Concurrent or Subsequent Transfers of Servicing for a Mortgage secured by a Manufactured Home located in a certificate of title State (03/02/16)

The requirements in this section apply to preparing and completing assignments of the security interest in the Manufactured Home for Concurrent or Subsequent Transfers of Servicing when the Manufactured Home is located in a certificate of title State that does not provide for surrender and cancellation of the certificate of title (see Section 5703.7). In a certificate of title State, a lien on the Manufactured Home is evidenced and perfected by notation on the certificate of title to the Manufactured Home. The lien on the land on which the Manufactured Home is permanently attached is perfected by recording the Security Instrument.

Therefore, in addition to the procedures described in Section 7101.6 for preparing and completing assignments of the Security Instrument, the following procedures must be followed with respect to the Manufactured Home:

- If the Borrower holds the original certificate of title to the Manufactured Home, and the original certificate of title must be produced to note the assignment, the Seller/Servicer must obtain the original certificate of title from the Borrower and follow the applicable procedure to note the assignment on the certificate of title
- The Transferor Servicer must note any intervening assignments from the original mortgagee to the Transferor Servicer on the certificate of title and, if required, record the complete chain of assignments from the original mortgagee to the Transferor Servicer with the State motor vehicles administration or other authorized agency
- The Transferor Servicer must note the assignment of its interest in the Manufactured Home to the Transferee Servicer on the certificate of title and, if required, record the assignment with the State motor vehicles administration or other authorized agency
- If the Borrower holds the original certificate of title, the Transferor Servicer must make and retain a copy of the original certificate with the noted assignments before returning the original certificate of title with the noted assignments to the Borrower in accordance with applicable procedures
- The Transferor Servicer must deliver the certificate of title (or if applicable a copy of the certificate of title) evidencing the complete chain of title to the Transferee Servicer who must retain the certificate of title or a copy of the certificate of title, as applicable, in the Mortgage file

7101.8: Transfer of records (03/01/23)

(a) Transfer of Mortgage and REO files

No later than 30 days after the Effective Date of Transfer, the Transferor Servicer must deliver to the Transferee Servicer the following records for each Mortgage and REO for which Servicing is transferred:

- (i) Mortgage file:** The Mortgage file that the Servicer is required to maintain in accordance with Chapter 3302
 - If the Transferee Servicer does not have the same form of document and records maintenance (photographic, photostatic, microfilm, microfiche, electronic imaging, optical disk or laser disk storage) as the Transferor Servicer, then the Transferor Servicer must either convert the documents and records to the form of storage utilized by the Transferee Servicer or generate paper copies of all documents and records for the Transferee Servicer
 - Effective for Mortgages with Note Dates on or after July 1, 2013, Servicers may no longer make copies of original paper Mortgage file documents for any Mortgage file documents (excluding the paper original Mortgage file documents specified in Section 3302.2, which must always be maintained and stored as paper originals) using microfilm or microfiche. Servicers may copy original paper Mortgage file documents using scanning systems commonly used in the regular course of business at this time, and maintain copies of such documents as Portable Document Format (PDF), Tagged Image File (TIF) format, Joint Photographic Experts Group (JPEG) format or other electronic document formats commonly used in the regular course of business at this time.
- (ii) Payment history:** The complete history of Mortgage payments and, if applicable, Escrow disbursements (including the most recent Escrow analysis), with supporting documentation, from the Origination Date of the Mortgage
- (iii) Correspondence and reports:** Copies of all correspondence with and from, and reports to, the Borrowers and, as applicable, FHA, VA, RHS, MI, Freddie Mac and any government authority
- (iv) Notice of transfer:** A copy of the notice to the Borrowers regarding the Transfer of Servicing
- (v) REO history:** If REO is being serviced, the complete history of receipts, expenditures and management and marketing activities (including copies of any filed MI claims), with supporting documentation, from the date the REO was acquired

(b) Transfer of portfolio records

No later than the Effective Date of Transfer, the Transferor Servicer must deliver to the Transferee Servicer the following records for the Mortgages and REO related to the Transfer of Servicing:

- (i) **Notices to third parties:** The notices required in Section 7101.14, including documentation of MI approval and commitment to insure
- (ii) **Service contracts:** Copies of tax and flood hazard determination service contracts, if applicable
- (iii) **Unpaid charges:** A list of Escrowed charges due and unpaid as of the Effective Date of Transfer
- (iv) **Trial balances:** Trial balances, as of the close of the last Business Day immediately preceding the Effective Date of Transfer, showing:
 - Transfers of Ownership, payoffs and other Servicing exceptions in process
 - Escrows, Escrow advances and prepayments
 - Where applicable, buydown accounts and balances
 - Delinquencies, foreclosures, bankruptcies and REO
- (v) **Automatic payments:** A list of Mortgages subject to automatic drafting of monthly payments
- (vi) **Insurance policies:** A list of Mortgages showing expiration dates of the insurance policies on the Mortgaged Premises, whether or not premiums for these policies were Escrowed by the Transferor Servicer
- (vii) **Fair lending data elements:** Fair lending data elements for each Mortgage as described in Section 1301.2(f)
- (viii) **Other documents:** Ledger records and definitions of codes used in ledger records, trial balances or any other documents required by Freddie Mac to be transferred to the Transferee Servicer

(c) Additional requirements for Subsequent Transfers of Servicing

For a Subsequent Transfer of Servicing, the Transferor Servicer must deliver to the Transferee Servicer, no later than 30 days after the Effective Date of Transfer, the following documents in addition to those specified in Sections 7101.8(a) and (b):

- **Custodial Accounts:** A copy of the depository's reconciliation, as of the close of the bank's last business day immediately preceding the Effective Date of Transfer, for each Custodial Account maintained in accordance with Chapter 8304
- **Freddie Mac reports:** Copies of all Servicing and accounting reports filed with Freddie Mac for the three months immediately preceding the Effective Date of Transfer for additional information.

7101.9: Document custody requirements for Transfers of Servicing (05/03/23)

(a) Concurrent Transfers of Servicing

For a Concurrent Transfer of Servicing (other than for Mortgages sold servicing released), a Seller must submit Form 960, Agreement for Concurrent Transfer of Servicing of Single-Family Mortgages, to Freddie Mac as described in Section 7101.2(a) and deliver the Mortgage to the Servicer's Document Custodian to perform the certifications required in Sections 6301.8(a) and 6304.3(b). On the Settlement Date and concurrent with Freddie Mac's purchase of the Mortgage, Servicing of, and the Servicing Contract Rights related to, the Mortgage will transfer to the Servicer as Transferee Servicer. The Seller must cooperate with the Servicer and its Document Custodian to affect a smooth and orderly Concurrent Transfer of Servicing.

There is a Concurrent Transfer of Servicing to a Servicer selected by Freddie Mac for all Mortgages sold through Cash-Released XChange®, as described in Sections 6101.7(a), 7101.2(a) and Exhibit 28A, Loan Servicing Purchase and Sale Agreement for Cash-Released XChange®. Prior to delivering Mortgages other than eMortgages for sale to Freddie Mac, Seller must enter into a Tri-Party Agreement with an eligible Document Custodian (see Exhibit 43) as described in Section 2202.3(c). For deliveries of eMortgages sold through Cash-Released XChange, Seller/Servicers must use Freddie Mac as the eNote Custodian (see **Directory 4** and Chapter 1402). For special document custody requirements for eMortgages, see Section 2202.3(d).

For Concurrent Transfers of Servicing,

- **The Seller must:**

- Verify that the Servicer's Document Custodian has a contractual relationship with the Servicer on a Tri-Party Agreement
- Deliver the Notes with related documents, all assignments and Form 1034E, Custodian Certification Schedule, or the Note Delivery Cover Sheet, to the Servicer's Document Custodian, provided that delivery for Mortgages other than eMortgages

sold through Cash-Released XChange must be made to one of the eligible Document Custodians identified in Exhibit 43

- Verify that the Mortgages are registered and assigned to MERS®, and Mortgages closed with MERS as the original mortgagee of record, are identified as such. See Section 6301.6 for additional requirements for these Mortgages.

■ **The Servicer's Document Custodian must:**

- Verify and certify the Notes and assignments as required by Section 6304.3(b) and, for Mortgages other than Mortgages sold servicing released, verify that a copy of Form 960, Agreement for Concurrent Transfer of Servicing of Single-Family Mortgages, evidencing Freddie Mac's approval of the Transfer of Servicing accompanies the Note and assignments
- Update its document tracking system pursuant to Section 2202.2(b)

(b) Responsibilities for Subsequent Transfers of Servicing

The Transferor Servicer's Document Custodian (Transferor Document Custodian) and the Transferee Servicer's Document Custodian (Transferee Document Custodian) must cooperate to effect a smooth and orderly transfer. Refer to the Document Custody Procedures Handbook for additional information.

■ **Within 30 days following the Effective Date of Transfer, the Transferor Servicer must:**

- Complete the Form 1034T, Document Custodial Certification Schedule for Subsequent Transfers of Servicing, and forward it together with the "STOS Agreement" with the Final Mortgage List, as those terms are defined in Section 7101.2(b), to the Transferor Document Custodian so that the Transferor Document Custodian can deliver the Notes and assignments to the Transferee Document Custodian
- Identify to Transferee Servicer all Mortgages represented by an LNA

■ **Within 30 days after the Effective Date of Transfer, the Transferor Document Custodian must:**

- Verify that a copy of the Transferee Servicer's executed STOS Agreement with the Final Mortgage List accompanies the Transferor Servicer's request to deliver the Notes and assignments to the Transferee Document Custodian
- Deliver to the Transferee Document Custodian the Notes with related documents, all assignments in its custody and Form 1034T, Subsequent Transfer Document

Custodial Certification Schedule. Notes may be transported only by a nationally recognized commercial or bonded carrier or courier service.

- Verify that all Mortgages registered and assigned to MERS and all Mortgages closed with MERS as the original mortgagee of record are identified as such
- Work with the Transferor and Transferee Servicers, the Transferee Document Custodian and Freddie Mac to cure all document deficiencies prior to recertifying the Notes

■ **The Transferee Servicer:**

- Must notify the Transferee Document Custodian on or before the Effective Date of Transfer that a Transfer of Servicing (or transfer of custody) is in process
- Must provide the Transferee Document Custodian with documentation if it has elected to hold assignments for MERS-registered Mortgages in the Mortgage files. See Section 6304.1.
- Remains responsible for the Note and all related documents and for all representations and warranties with respect to the validity and enforceability of the Mortgage documents. See Section 8107.1(d)(iv) for special requirements relating to Mortgages with LNAs.

■ **The Transferee Document Custodian must:**

- Have a Tri-Party Agreement in effect with the Transferee Servicer in accordance with Section 2202.3 before the effective Date of Transfer
- Verify that a copy of the STOS Agreement evidencing Freddie Mac's approval of the Transfer of Servicing and Final Mortgage List accompanies the transfer of custody of Notes and all related documents
- Notify the Transferor Document Custodian within 35 days after the Effective Date of Transfer that it has (or has not) received boxes or envelopes that contain the appropriate number of transferred Note files
- Perform the verifications specified in Section 6304.3(a) for each Note for which custody is being transferred by verifying that the following information on the Note matches the information about the related Mortgage contained on the Form 1034T:
 - Freddie Mac loan number, if present on the Note; otherwise, the Document Custodian must validate the Freddie Mac loan number against data provided by the Transferee Servicer
 - Borrower's name, and

- Address of the Mortgaged Premises (excluding zip code)

and that:

- The Note is an original Note (unless there is an LNA and evidence that Freddie Mac has approved use of the LNA as described in Section 8107.1(d)(ii))
- The chain of endorsements is proper and complete from the original payee on the Note to the Transferor Servicer's endorsement to blank
- Remove from the Note file and destroy any recordable but unrecorded assignment from the Transferor Servicer to Freddie Mac
- On behalf of itself and the Transferee Servicer, complete, execute and deliver the Form 1034T to Freddie Mac (**see Directory 9**) within 180 days after the Effective Date of Transfer. By submitting the Form 1034T to Freddie Mac, the Transferee Servicer and the Transferee Document Custodian make the certifications contained in the Form 1034T, and represent and warrant to Freddie Mac that each of them is bound by the information and certifications contained in the Form 1034T.
- Retain the Form 1034T for at least three months after certification is completed. See Section 8107.2(d).
- Update its document tracking system to reflect the transfer of custody

(c) Subsequent Transfers of Servicing without a transfer of custody

The Transferor and the Transferee Servicers must cooperate to affect a smooth and orderly transfer.

■ The Transferor Servicer must:

- Prepare an assignment to the Transferee Servicer, which must be recorded and certified unless the Mortgage is registered to MERS and the Transferee Servicer is a MERS member
- Prepare and execute Form 1034T and deliver it and the assignment to the Document Custodian within 30 days after the Effective Date of Transfer
- Identify to Transferee Servicer all Mortgages represented by an LNA

- **The Transferee Servicer must:**
 - If it has elected to hold assignments for MERS-registered Mortgages in the Mortgage files, provide the Document Custodian with evidence of that election. See Section 6304.1.
 - Assume responsibility for the completeness of the Note and all related documents and for all representations and warranties with respect to the validity and enforceability of the Mortgage. See Section 8107.1(d)(iv).
- **The Document Custodian must:**
 - Remove from the file and destroy any recordable but unrecorded assignment from the Transferor Servicer to Freddie Mac
 - Execute Form 1034T on behalf of the Transferee Servicer and send a copy to Freddie Mac (**see Directory 9**) within 180 days after the Effective Date of Transfer
 - Retain the Form 1034T for at least three months after certification is completed. See Section 8107.2(d).

(d) Transfers of custody only

The Document Custodians must cooperate to effect a smooth and orderly transfer.

- **The Servicer must:**
 - Prepare and execute Form 1034T, leaving blank the information required for the Transferee Servicer, with and the Mortgage List and deliver it to the Transferor Document Custodian so that the Transferor Document Custodian can transfer custody of the Notes and assignments to the Transferee Document Custodian prior to the date on which custody of the Notes and related documents will occur, referred to in Form 1034T as the Effective Date of Transfer. The Servicer must identify to Transferee Document Custodian all Mortgages represented by an LNA.
- **The Transferor Document Custodian must:**
 - Within 30 days after the Effective Date of Transfer, deliver to the Transferee Document Custodian the Notes with related documents, all assignments in its custody and the executed Form 1034T with the Mortgage List. Notes and related documents

may be transported only by a nationally recognized commercial or bonded carrier or courier service.

■ **The Transferee Document Custodian must:**

- Notify the Transferor Document Custodian within 35 days after the Effective Date of Transfer that it has (or has not) received boxes or envelopes that contain the appropriate number of transferred Note files
- Perform the verifications specified in Section 6304.3(a) each Note for which custody is being transferred by verifying that the information on the Note set forth for Transferee Document Custodians to verify in Section 7101.9(a) matches the information about the related Mortgage from Form 1034T
- Update its document tracking system to reflect the transfer of custody

Transferor Document Custodian and Transferee Document Custodian must cooperate to effect a smooth and orderly transfer. Refer to the Document Custody Procedures Handbook for additional information.

7101.10: Transfer of funds (08/13/18)

(a) General

The Transferor Servicer must transfer all account balances (including, but not limited to, Escrows, prepayments and buydown funds) must be transferred to the Transferee Servicer's depository in a manner that ensures such funds are, at all times, held in a custodial capacity on behalf of Freddie Mac in accordance with Section 8302.6. A final reconciliation of all monies relating to such transfer must be made by the Transferor Servicer on the Effective Date of Transfer.

(b) Escrow accounts

The Transferor Servicer must forward the entire balance of all Custodial Accounts related to Escrows, buydown funds, repair accounts and replacement reserves (net of documented advances) to the Transferee Servicer's depository on the Effective Date of Transfer.

(c) Interest

Delinquent interest advanced to Freddie Mac by the Transferor Servicer as of the Effective Date of Transfer net of prepaid interest must be reimbursed to the Transferor Servicer by the Transferee Servicer no later than the date the funds are due to Freddie Mac.

(d) Principal

Delinquent principal advanced to Freddie Mac by the Transferor Servicer as of the Effective Date of Transfer net of prepaid principal must be reimbursed to the Transferor Servicer by the Transferee Servicer no later than the Effective Date of Transfer.

7101.11: Notice to Borrowers regarding Transfers of Servicing (08/13/18)

(a) Transferor Servicer's notice to the Borrower

The Transferor Servicer must provide timely notice to the Borrowers with Mortgages related to the Transfer of Servicing to ensure a smooth transition, avoid disruption in Mortgage payments and comply with applicable laws and regulations. The Transferor Servicer must provide written notice to each Borrower at least 15 days before the first payment is due to be received by the Transferee Servicer.

(b) Transferee Servicer's notice to the Borrower

The Transferee Servicer must provide to each Borrower written confirmation of the information in the Transferor Servicer's notice to the Borrowers within 15 days before the date the first payment is due to be received by the Transferee Servicer.

(c) Notice requirements

The notice must advise the Borrower of the following:

1. The Effective Date of Transfer
2. The name and address of the Transferee Servicer
3. The names and telephone numbers of the contact persons or departments of the Transferor Servicer and of the Transferee Servicer where the Borrowers' inquiries relating to the Transfer of Servicing should be directed. (If toll-free numbers are not available, the letter must indicate that collect calls will be accepted.)
4. The date when the Transferor Servicer will no longer collect the Borrowers' payments and when the Transferee Servicer will begin to collect them
5. Any previously Escrowed optional Mortgage life or accident and health insurance for which the Transferee Servicer will not assume responsibility, with appropriate suggestions or instructions for the Borrower to continue such coverage
6. Procedures for maintenance of automatic draft payments, if applicable

The notice may not amend the terms of a Mortgage other than those relating to where to send payments.

7101.12: Borrower issues and inquiries related to Transfers of Servicing (03/02/16)

The Transferor and Transferee Servicers must ensure that their staff and facilities are adequately prepared to process Servicing and accounting transactions and to respond to Borrower inquiries during the transfer transition period. The Transferee Servicer must assume responsibility for responding to Borrower inquiries received after the Effective Date of Transfer. If any Servicing or accounting problem cannot be resolved without the involvement of the Transferor Servicer, the Transferee Servicer, and not the Borrower, should initiate the contact with the Transferor Servicer.

During the transfer transition period, the Transferor and Transferee Servicers must make reasonable efforts to resolve disputes to the Borrowers' satisfaction when such disputes arise from legitimate Borrower misunderstanding of instructions in the notice of Transfer of Servicing. Late charges must be waived and, if applicable, appropriate adjustments to payment and credit records made for misapplied or unapplied payments due to the Transferee Servicer but received by the Transferor Servicer.

7101.13: Funds and correspondence received after Transfers of Servicing (08/13/18)

Within one Business Day of receipt, the Transferor Servicer must deliver to the Transferee Servicer any funds for, or correspondence regarding, any of the transferred Mortgages and REO related to the Transfer of Servicing if such funds or correspondence is received on or after the Effective Date of Transfer.

7101.14: Notices of Transfers of Servicing to third parties (06/10/20)

The Transferor Servicer must obtain the following approvals and provide the following notices, as applicable:

- Obtain MI approval and commitment to insure as required by Section 7101.4(a)

- Advise all applicable property insurers including, if applicable, Federal Emergency Management Agency, of the Transfer of Servicing and of the name and address of the Transferee Servicer to modify the mortgage clause required by Section 4703.6
- Provide the required notices to FHA, RHS and/or VA, if applicable
- Notify all other appropriate parties including, but not limited to, mortgage life and/or accident and health insurers, tax verification/reporting and flood zone hazard determination services, tax authorities, condominium associations, homeowners associations (HOAs), Cooperative Corporations (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), fee owners for leasehold Mortgages, other lienholders and public utilities levying assessments for which Escrow is collected

7101.15: Liabilities of the Transferor Servicer and Transferee Servicer (05/03/23)

(a) Warranties

Except as stated in the following paragraph, for Transfer of Servicing requests received by Freddie Mac, the Transferee Servicer, by executing Form 960, Agreement for Concurrent Transfer of Servicing of Single-Family Mortgages, or by electronically signing the Agreement for Subsequent Transfer of Servicing of Single-Family Mortgages (“STOS Agreement”) in Freddie Mac Servicing Transfer Manager (see Exhibit 88, Servicing Tools), is liable to Freddie Mac for all Seller and any prior Servicer’s duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities in the Purchase Documents with respect to the Mortgages related to the Transfer of Servicing, whether or not the Transferor Servicer had such liability. The Transferee Servicer’s assumption of such rights, duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities upon the Effective Date of Transfer does not release the Transferor Servicer, any prior Servicer, or the original Seller of their duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities with respect to the Mortgages and REO related to the Transfer of Servicing, all such parties’ liability being joint and several with the Transferee Servicer. However, a Transferor Servicer does not assume such liability for Servicing violations occurring in all respects on or after the Effective Date of Transfer and based solely and directly upon the actions or omissions of later Transferee Servicers.

(i) Mortgages sold through Gold Cash Xtra® and Cash-Released XChange® that are related to a Concurrent Transfer of Servicing

For Mortgages sold through Gold Cash Xtra® and Cash-Released XChange®, the Seller remains solely liable to Freddie Mac for all sale representations, covenants and warranties in the Purchase Documents (sale representations and warranties) with respect to the Mortgages related to the Transfer of Servicing. The Transferee Servicer is liable to

Freddie Mac for all Servicing duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities in the Purchase Documents with respect to the Mortgages related to the Transfer of Servicing. For subsequent Transfers of Servicing of such Mortgages:

- The Seller Transferor remains solely liable to Freddie Mac for all sale representations and warranties with respect to the Mortgages related to the Transfer of Servicing; and
- The subsequent Transferee Servicer is liable to Freddie Mac for all Servicing duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities in the Purchase Documents with respect to the Mortgages and REO related to the Transfer of Servicing, but the Transferee Servicer's assumption of these duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities upon the Effective Date of Transfer does not release the subsequent Transferor Servicer or any prior Servicer of their duties, obligations, responsibilities, representations, covenants, warranties, agreements and related liabilities with respect to the Mortgages related to the Transfer of Servicing, their liability being joint and several with the Transferee Servicer. However, a Transferor Servicer does not assume such liability for Servicing violations committed by the Transferee Servicer or any subsequent Transferee Servicer occurring in all respects after the Effective Date of Transfer and based solely and directly upon the actions or omissions of later Transferee Servicers.

Note: For provisions applicable to the Concurrent Transfer of Servicing rights of Mortgages sold to Freddie Mac through Gold Cash Xtra, see Exhibit 28, Loan Servicing Purchase and Sale Agreement.

(ii) Mortgages sold through Correspondent XChange®

For Operational Bifurcated Mortgages sold through Correspondent XChange, in accordance with Exhibit 29, Correspondent XChange® Operational Bifurcation Multi-Party Agreement, the "Originator" (as defined in Exhibit 29) is liable to Freddie Mac for all "Origination and Sale Obligations" (as defined in Exhibit 29) with respect to the Operational Bifurcated Mortgages related to the Transfer of Servicing. If Freddie Mac suspends or terminates the Originator's status as an approved Seller/Servicer, or if certain other events occur as described in the Correspondent XChange Operational Bifurcation Multi-Party Agreement, the Seller of the Operational Bifurcated Mortgages to Freddie Mac will be liable for the Origination and Sale Obligations.

The Transferee Servicer (the Seller of the Operational Bifurcated Mortgages to Freddie Mac) is liable to Freddie Mac for all "Servicing Obligations" (as defined in Exhibit 29) for the Operational Bifurcated Mortgages related to the Transfer of Servicing.

For Subsequent Transfers of Servicing of the Operational Bifurcated Mortgages:

- The Originator remains liable to Freddie Mac for all Origination and Sale Obligations with respect to the Operational Bifurcated Mortgages related to the Transfer of Servicing; and
- The subsequent Transferee Servicer is liable to Freddie Mac for all Servicing Obligations in the Purchase Documents with respect to the Operational Bifurcated Mortgages

Note: See Exhibit 29 for additional information and requirements applicable to a Subsequent Transfer of Servicing Contract Rights for Mortgages sold to Freddie Mac through Correspondent XChange.

(b) Hold harmless

The Transferor Servicer and the Transferee Servicer, jointly and severally, fully indemnify and agree to hold Freddie Mac, its successors and assigns, harmless from and against any and all losses, claims, demands, actions, suits, damages, costs and expenses (including reasonable attorney fees) of every nature and character that may arise or be made against or be incurred by Freddie Mac as a result of the Transferor Servicer's or the Transferee Servicer's failure to comply with applicable law or failure to comply with Freddie Mac's Servicing requirements as set forth in the Purchase Documents, including, but not limited to failure to provide the notices required by Section 7101.14, failure to make any payment to the appropriate parties for which Escrow is collected and failure to credit properly any payments received from Borrowers.

(c) Servicing

By executing Form 960 or electronically signing the STOS Agreement, the Transferee Servicer agrees to service the Mortgages related to the Transfer of Servicing (e.g., such as those set forth in the Final Mortgage List (as defined in Section 7101.2(b)) in Servicing Transfer Manager) in accordance with the terms of the Servicing Contract and assumes all Servicing obligations under the Transferor Servicer's Servicing Contract related to such Mortgages.

Chapter 7102: Voluntary Partial Cancellation of Servicing Contract Rights

7102.1: Overview (02/12/20)

(a) Defined terms

For purposes of this Chapter 7102, the following terms have the prescribed meaning set forth in Exhibit 30, VPC Agreement (RPL & NPL) Incorporated Provisions, and Exhibit 31, VPC Agreement (Flow) Incorporated Provisions, as applicable:

- Flow VPC Agreement
- Flow VPC Transfer(s) of Servicing
- VPC Agreement
- VPC Transfer(s) of Servicing

(b) Eligibility

This Chapter 7102 is not a general offering and is only available to specific Servicers. This Chapter 7102 does not apply unless and until Freddie Mac and the Servicer execute and deliver a VPC Agreement or a Flow VPC Agreement, as applicable, in form and substance acceptable to Freddie Mac in its sole and absolute discretion implementing these terms and conditions.

(c) Applicability

This chapter applies only to VPC Transfers of Servicing with Effective Dates of Transfer on or after March 1, 2020 where the applicable VPC Agreements include the required provisions stated in Section 7102.2. Any VPC Transfer of Servicing will generally use the Subsequent Transfer of Servicing process and procedures pursuant to the Guide.

7102.2: VPC Transfer of Servicing and Flow VPC Transfer of Servicing (02/12/20)

(a) VPC Transfer of Servicing

If Freddie Mac consents to a VPC Transfer of Servicing, it will indicate its consent only by executing a VPC Agreement, which must also be executed by the Servicer, in form and

substance acceptable to Freddie Mac in its sole and absolute discretion. All VPC Agreements must include the following language:

“This VPC Agreement incorporates the provisions of Chapter 7102 and the provisions of Exhibit 30 by reference as a substantive contractual part of this VPC Agreement such that the Servicer expressly agrees that (i) Chapter 7102 is operative as to the Servicer and (ii) the Servicer is bound by the terms and conditions set forth in Chapter 7102 and Exhibit 30.”

(b) Flow VPC Transfer of Servicing

If Freddie Mac consents to a Flow VPC Transfer of Servicing, it will indicate its consent only by executing a Flow VPC Agreement, which must also be executed by the Servicer, in form and substance acceptable to Freddie Mac in its sole and absolute discretion. All Flow VPC Agreements must include the following language:

“This Flow VPC Agreement incorporates the provisions of Chapter 7102 and the provisions of Exhibit 31 by reference as a substantive contractual part of this Flow VPC Agreement such that the Servicer expressly agrees that (i) Chapter 7102 is operative as to the Servicer and (ii) the Servicer is bound by the terms and conditions set forth in Chapter 7102 and Exhibit 31.”

Chapter 8101: General Freddie Mac Servicing Policies

8101.1: Servicers' general responsibilities (05/04/20)

The Servicer is responsible to act in the most timely, efficient and responsible manner to protect Freddie Mac's interests. Freddie Mac expects the Servicer's facilities and practices to be sufficient to safeguard Freddie Mac's interests and expects the Servicer to provide proper accounting and prompt response to the needs of both Freddie Mac and the Borrower.

The Servicer agrees that its duties include, but are not limited to, the payment, or verification of the Borrower's payment, of the following, as applicable:

- Property insurance premiums
- Mortgage insurance premiums
- Ground rents
- Property taxes
- Condominium/homeowners association (HOA) or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), and Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees
- Utility assessments
- Charges, fines and impositions attributable to the property or to the Mortgage

The Servicer also agrees that it will represent and defend Freddie Mac's interest in the applicable Mortgage(s) or REO to the same extent it would represent and defend its own interest.

The Servicer warrants that it will maintain adequate facilities and experienced staff and will take all actions necessary to ensure that the Mortgages and REO in which Freddie Mac has an interest are serviced in accordance with the Purchase Documents including this Guide as amended or supplemented from time to time, any applicable law, any applicable FHA/VA/RHS/MI regulation or requirement and any instructions issued by Freddie Mac. The Servicer also warrants that it has a business continuity plan in place that meets the requirements of Section 1302.3, to ensure its ongoing ability to conduct business operations and maintain or restore Freddie Mac Mortgage files and records in the event of a disaster or other interruption to business operations and processes.

If a disaster has affected or interrupted the Servicer's operations, the Servicer must notify Freddie Mac within 24 hours of the disaster, by calling the Customer Support Contact Center at 800-FREDDIE. See Exhibit 52, Federal Disaster Assistance, for more information.

To assist with Servicing activities, a number of Servicing Tools are available through Freddie Mac's website at <https://sf.freddiemac.com/working-with-us/servicing/overview>. These tools are accessible using a secure User ID and password that a Servicer may request on the web site. See Exhibit 88, Servicing Tools, for a list of available Servicing Tools.

8101.2: The Servicer to perform its obligations and duties at its own expense (07/23/18)

The Servicer is responsible for performing the obligations and duties required under the Servicing Contract at its own expense and without cost or charge to Freddie Mac, unless expressly provided for otherwise in the Servicing Contract. Any costs or expenses incurred by the Servicer may be charged or collected from the Borrower only to the extent allowed under the terms of the Security Instrument, the Servicing Contract and any applicable law.

8101.3: Servicer's limited power of attorney (11/14/18)

The Servicer agrees to accept a limited power of attorney from Freddie Mac empowering the Servicer to perform all duties of the mortgagee in canceling the Note and Security Instrument upon satisfaction of the Borrower's debt. In its discretion, Freddie Mac may give and the Servicer agrees to accept a power of attorney that grants broader powers to the Servicer. The Servicer must comply with all local recording requirements and is solely responsible for any recording fee assessed by the applicable authority. Freddie Mac may require that the Servicer identify to Freddie Mac all jurisdictions where Freddie Mac's power of attorney has been recorded. A sample limited power of attorney available from Freddie Mac, which outlines the types of documents a Servicer can execute, endorse, and acknowledge in Freddie Mac's name, is available in Exhibit 53, Limited Power of Attorney.

8101.4: Servicer's execution of documents (11/14/18)

All requests for Freddie Mac execution of documents must be submitted to Freddie Mac (see **Directory 9**). The documents that require Freddie Mac execution must be submitted with a Request for Assistance Form, which is available at:
https://sf.freddiemac.com/content/_assets/resources/pdf/fact-sheet/sats699.pdf.

Freddie Mac will return the executed documents after verifying that the requesting Servicer has met all conditions as necessitated by the type of action requested and applicable law.

Servicers should not submit documents for Freddie Mac's signature that they are authorized to sign under the limited power of attorney from Freddie Mac. They may execute the following documents in Freddie Mac's name when the Mortgage has been assigned to Freddie Mac:

- Release documents
- Assignments of the Security Instrument for initiating foreclosures
- Certain other documents outlined in Exhibit 53, Limited Power of Attorney

A Servicer may request a limited power of attorney in accordance with the requirements of Section 8101.3 by contacting Freddie Mac (**see Directory 9**). In addition, under certain circumstances, Freddie Mac may require that a Servicer obtain a limited power of attorney from Freddie Mac and use it to complete specific transactions according to the requirements of Section 8101.3.

8101.5: Borrower inquiries (03/02/16)

Regardless of whether a Mortgage is securitized or held by Freddie Mac, Servicers receive Mortgage payments from Borrowers on behalf of, and remit such payments to, Freddie Mac. As such, a Seller/Servicer should respond promptly to a Borrower's inquiry and must provide the Borrower with accurate information about the Borrower's Mortgage.

If a Borrower inquires about the ownership or assignee of his or her Mortgage, the Seller/Servicer may inform the Borrower that Freddie Mac owns the Mortgage once the Borrower's identity is verified. If the Seller/Servicer is unable, in a telephone conversation, to verify that it is the Borrower who is requesting the information, the Borrower's request for information must be made in writing. If requested, the Seller/Servicer may also provide the Borrower with Freddie Mac's address, telephone number and the Freddie Mac loan number associated with the Borrower's Mortgage, and the Seller/Servicer must explain to the Borrower that it services the Mortgage for Freddie Mac.

If the Seller/Servicer provides the Borrower with the requested information in a telephone conversation, the Seller/Servicer must follow up by providing the same information to the Borrower in writing.

The Freddie Mac address and telephone number that the Seller/Servicer must provide to the Borrower are:

FREDDIE MAC
8200 JONES BRANCH DR.
MCLEAN, VA 22102
(800) FREDDIE

See Sections 7101.11 through 7101.13, 8101.8 and 8104.1 for additional Servicing obligations relating to Borrower inquiries.

8101.6: Error resolution procedures related to the Servicing of a Mortgage (03/02/16)

Servicers must comply with the requirements set forth in this section in resolving errors asserted by a Borrower or Borrower's representative relating to the Servicing of a Mortgage.

Servicers must refer to Chapter 9101 for additional requirements pertaining to a Borrower's right to appeal a denial of a Trial Period Plan based on the Servicer's review of the First Complete Borrower Response Package.

The Servicer must have written policies and procedures to ensure that it reviews and responds to any written request received from a Borrower asserting an error relating to the Servicing of the Mortgage, provided the Borrower's written request includes:

- The Borrower's name
- Information that enables the Servicer to identify the Borrower's Mortgage file; and
- The error the Borrower believes has occurred

At a minimum, the Servicer must:

- Have a sufficient number of adequately trained staff to be able to track and respond to any written notice received from a Borrower asserting an error in accordance with the requirements of this section
- Maintain policies and procedures that are reasonably designed to ensure that the Servicer investigates, responds to and makes corrections in response to complaints asserted by Borrowers
- Conduct reasonable investigations and respond to a Borrower with either:
 - A written notification of the correction, the effective date of the correction and Servicer contact information, including a telephone number for further assistance; or
 - A statement that the Servicer has determined that no error occurred, the reasons for the Servicer's determination, a statement of the Borrower's right to request the documents the Servicer used to reach its decision, information on how the Borrower may request those documents, and contact information, including a telephone number

- Respond to the Borrower's notice of error within the time limits set forth under applicable law
- Regularly review and assess the adequacy of its internal controls and procedures used in connection with Servicing of Freddie Mac Mortgages to ensure compliance with the Guide and other Purchase Documents and applicable law
- Take remedial steps, as appropriate, if any deficiencies are identified as a result of its review of internal controls and processes, or if issues are identified from a review of a Borrower's notification asserting an error. The Servicer must formally document the results of such reviews and make the results available to Freddie Mac upon request.

The Servicer must maintain in the Mortgage file documentation of all communication regarding any case for which the Servicer has received written notification from a Borrower asserting an error, and provide such files or aggregated information to Freddie Mac for review upon request.

8101.7: Freddie Mac audits and access to Mortgage records (10/09/19)

Freddie Mac may at any time conduct an audit of the Mortgages for purposes of verifying the Servicer's compliance with the terms and conditions of the Purchase Documents. Mortgages to be audited will be selected by Freddie Mac. The Servicer must submit to Freddie Mac all files relating to the Mortgages. The files must contain, at a minimum, all documents required by the Purchase Documents. The audit rights contained in this Section 8101.7 in no way limit Freddie Mac's rights or remedies as otherwise provided in the Purchase Documents.

In addition, the Servicer agrees that at any reasonable time, as requested by Freddie Mac, it will disclose to or permit Freddie Mac to have access to or to examine, or will deliver to Freddie Mac copies of, any and all records, documents, files, information and data, including any of the same maintained in the Mortgage file or in any database or in any data processing, storage, or retrieval system (all such records, documents, files, information and data hereinafter referred to as "Mortgage records"), pertaining to any Mortgage serviced by the Servicer for Freddie Mac. The Servicer also agrees to take any of the foregoing actions with respect to any and all other records, documents, files, information and data maintained or held by the Servicer which Freddie Mac considers necessary to determine or assess the correctness and completeness of the Mortgage records pertaining to any Mortgage serviced by the Servicer for Freddie Mac or to assure that the Servicer is complying with the requirements of the Purchase Documents. Freddie Mac's request may be made by either spoken or written communication.

If Freddie Mac requests Mortgage records from a Servicer in connection with an audit or for any other purpose, including a Servicer Success file review, the Servicer must deliver such Mortgage records within 30 days from the date of the request. Freddie Mac, in its sole discretion, may request the documentation in a shorter or longer period of time based upon the circumstances at the time. A Servicer's failure to submit the requested Mortgage records will be considered a

violation of the Purchase Documents, and Freddie Mac will pursue all rights and remedies available under the Purchase Documents and applicable law.

The Servicer agrees that it shall cause each and every Servicing Agent, service bureau, or any other person which shall, at any time, process, maintain or store any Mortgage records for and on behalf of the Servicer, to consent in writing, to permit Freddie Mac, as requested by Freddie Mac, without further notice to or action required by the Servicer, to have access to, or to have disclosed to it, or to have copies of, any and all of such Mortgage records, pertaining to any Mortgage serviced by the Servicer for Freddie Mac, and any and all other records, documents, files, information and data maintained or held by such other person which Freddie Mac considers necessary to determine or assess the correctness and completeness of the Mortgage records pertaining to any Mortgage serviced by the Servicers for Freddie Mac or to assure that the Servicer is complying with the requirements of the Purchase Documents.

This Guide section authorizes Freddie Mac to execute, acknowledge and deliver such instruments and documents on the Servicer's behalf and take all such other actions as may be reasonably required on behalf of the Servicer, in order to effectuate the purposes of this section.

The Seller/Servicer also agrees to allow Freddie Mac to conduct monitoring from time to time in order to confirm that the Seller/Servicer is satisfying its obligations under the Guide to safeguard Borrower nonpublic personal information pertaining to Mortgages purchased by Freddie Mac.

8101.8: Treatment of personal and property information (03/01/23)

Through its Servicing of Mortgages for Freddie Mac, the Servicer may obtain information, including fair lending data elements as described in Section 1301.2(f), concerning the Borrower or the Mortgaged Premises that either is not publicly available or that is required to be protected under applicable privacy, securities, information security, consumer protection or other laws (collectively, "Protected Information"). Servicer will not use Protected Information or any information derived from Protected Information ("derivative information") or permit it to be used in any way that violates applicable law or that represents or could be construed to represent a conflict of interest or breach of confidentiality. In addition, this information and any derivative information may only be used for purposes of Servicing Mortgages for Freddie Mac and only as permitted under applicable law. The Servicer must maintain all such Protected Information and derivative information in such a way as to ensure the security and confidentiality of the information; protect against anticipated threats or hazards to the security or integrity of the information; and protect against unauthorized access to or use of such information.

(a) Disclosure of payment history information

The Servicer must disclose to the Borrower, or to any third party authorized in writing by the Borrower, information maintained by the Servicer concerning the Borrower's payment history if the Borrower (or any third party authorized by the Borrower) shall request such

information in writing. Information so disclosed must be correct, complete and up-to-date and must accurately reflect the Borrower's performance in meeting payment obligations without the use of codes or abbreviations.

(b) Disclosure of material information

Certain information about individual Mortgages or Mortgaged Premises obtained by the Servicer through its Servicing of Mortgages for Freddie Mac may be material to a purchaser or a seller of UMBS™, MBS or WAC ARM PCs representing interests in those Mortgages. This information is considered to be material if there is a substantial likelihood that a reasonable investor would consider the information to be important in determining whether to purchase or sell a UMBS, MBS or WAC ARM PC representing interests in the Mortgages. The Servicer may not purchase or sell such a UMBS, MBS or WAC ARM PC (or disclose material information relating to the UMBS, MBS or WAC ARM PC to a third party for its use) without disclosing such material information to the other party to the transaction. However, if disclosure of such information to other parties would contravene applicable law or regulations regarding disclosure of credit information, the Servicer must refrain from trading with respect to the UMBS, MBS or WAC ARM PC.

8101.9: Servicer agrees to indemnify (11/14/18)

The Servicer must indemnify Freddie Mac for and hold it harmless from any loss, damage or expenses (including court costs and attorney fees) that Freddie Mac sustains as a direct or indirect result of any failure on the Servicer's part to perform its services, duties and obligations under the Purchase Documents.

8101.10: Servicer as independent contractor (03/02/16)

Under the Purchase Documents, the Servicer contracts with Freddie Mac as an independent contractor to service Mortgages for Freddie Mac. The Servicer is not Freddie Mac's agent or assignee.

8101.11: Governing law (03/02/16)

Each Purchase Contract or other contract for the Servicing of Mortgages must be construed, and the rights and obligations of the parties thereunder determined, according to the laws of the United States. The laws of the State of New York are deemed to reflect the laws of the United States when there is no applicable precedent and when to do so would not frustrate any provision of the Purchase Contract or other contracts for Servicing.

8101.12: MERS® (03/02/16)

(a) Post-purchase MERS registration

When registering a Mortgage on the MERS System after the Mortgage is sold to Freddie Mac, the Servicer must notify MERS that Freddie Mac is the investor and provide MERS with the Freddie Mac loan number for the Mortgage.

Mortgages secured by Manufactured Homes located in certificate of title States may not be registered with MERS. Refer to Section 5703.7.

(b) MERS System Rules of Membership – Rule 14 (“MERS Rule 14”)

Servicers that are managing “Legal Filings” as described in MERS Rule 14 on behalf of Freddie Mac must provide, when applicable, the various notifications and information required by MERS Rule 14 to MERS on Freddie Mac’s behalf about such “Legal Filings.”

(c) MERS’ notices regarding liens or legal actions

As the mortgagee of record, MERS, rather than a Servicer, may receive notices about liens or legal actions related to Mortgages being serviced for Freddie Mac. When these notices provide information that enables MERS to identify the applicable Servicer, MERS will forward the notice directly to such Servicer. However, MERS may receive some notices that will not include enough information to enable MERS to identify either the Mortgage in question or the applicable Servicer. In such cases, MERS will electronically notify all MERS members about any unidentified notice(s) it has received. Each Servicer that services MERS-registered mortgages for Freddie Mac must establish procedures to ensure that it checks (on a daily basis) all electronic messages it receives from MERS to determine if the unidentified notice relates to a Mortgage serviced for Freddie Mac. If the Servicer is unable to determine if the notice relates to a Mortgage serviced for Freddie Mac, the Servicer must request additional information from MERS to make such determination.

The Servicer must take appropriate and timely action based on the notice, and advise MERS that the Servicer is Servicing the Mortgage so that MERS can promptly update its records.

(d) System-to-system reconciliation with MERS

Seller/Servicers must comply with all MERS-registered mortgage loan data reconciliation requirements set forth in the MERS Governing Documents.

(e) MERS signing officer

A Seller/Servicer must ensure that only its duly authorized officers or employees, as appointed by MERS pursuant to a MERS corporate resolution, are permitted to act as MERS signing officers.

(f) Deactivation of Mortgages from MERS

A Servicer may, in its discretion, “deactivate” a Mortgage from the MERS System. Upon deactivation, the Servicer must prepare an assignment of the Mortgage from MERS to itself in recordable form and, where required by law, record the executed assignment in the

applicable public land records. MERS will notify Freddie Mac of the deactivation of any Mortgage in which Freddie Mac has an interest.

Chapter 8102: Servicers and Servicing Agents

8102.1: Managing Servicing Agents (04/12/23)

(a) Servicer's and Servicing Agent's rights and responsibilities

The Servicer must service Mortgages purchased by Freddie Mac in accordance with the requirements of applicable law and the Purchase Documents. FHA, VA and Section 502 GRH Mortgages and Mortgages covered by mortgage insurance must be serviced in accordance with the Servicing requirements of the Purchase Documents and the applicable FHA, VA, RHS or MI requirements. To the extent that those requirements may conflict with the Purchase Documents, the FHA, VA, RHS or MI requirements, as applicable, will control.

A Seller that is not also a Servicer must enter into a Concurrent Transfer of Servicing to a Transferee Servicer in accordance with the requirements of Chapter 7101. The Servicer may request approval of a Transfer of Servicing to a Transferee Servicer or designate another Servicer as its Servicing Agent.

A Servicing Agent must be an approved Freddie Mac Servicer, and must comply with all Freddie Mac Servicing requirements set forth in the Guide and other applicable Purchase Documents containing Servicing requirements (e.g., Servicing provisions that amend the Guide). A fully executed Form 479A, Single-Family Servicing Agent Certification and Agreement, that has been approved and acknowledged by Freddie Mac is a Purchase Document. The Master Servicer and the Servicing Agent agree and acknowledge that the Servicing Agent is only authorized to review and use Mortgage data, including, but not limited to, review and use of data through access to any Freddie Mac Servicing Tool available through the [Servicing Gateway](#), related to the Mortgages for which the Servicing Agent has been engaged to perform the Servicing obligations of the Master Servicer.

Notwithstanding Freddie Mac's written approval of a Servicing Agent, in accordance with the provisions of this Section 8102.1, and notwithstanding the actual performance by the Servicing Agent of all or a portion of the Master Servicer's Servicing responsibilities, Servicing Agent and Master Servicer agree (a) that they are jointly and severally liable to Freddie Mac and shall indemnify, defend and hold Freddie Mac harmless from and against any and all loss, damage or expense, including court costs and attorney fees arising out of or relating to the Master Servicer's failure to comply with any Servicing requirement in the Guide or other applicable Purchase Documents that is a result of, or caused by, the Servicing Agent's failure to comply with any Servicing requirements within the scope of its Subservicing Agreement or violation of its representations, warranties, covenants and agreements set forth in its executed Form 479A and (b) that Freddie Mac may exercise any and all rights and remedies available under the Guide, other applicable Purchase Documents and applicable law against either or both the Master Servicer and/or the Servicing Agent for any such Servicing violation(s), provided however that under no circumstances will Freddie Mac be entitled to any duplicative recovery. The Master Servicer shall continue to be

responsible and liable to Freddie Mac for all Servicing requirements and all representations and warranties, in accordance with the terms of the Purchase Documents.

Each Master Servicer and its Servicing Agent agree and fully understand that:

1. The Master Servicer must disclose all relevant Purchase Documents containing Servicing requirements to its Servicing Agent prior to execution of Form 479A
2. The Master Servicer must maintain systems and/or processes to effectively manage and oversee its Servicing Agent's performance under both the Subservicing Agreement and Form 479A executed by both the Master Servicer and Servicing Agent whereby the Servicing Agent, among other things, agreed to service the Mortgages in accordance with the Servicing requirements of the Purchase Documents
3. The Servicing Agent's rights under the Subservicing Agreement are subject and subordinate in all respects to all rights, powers and prerogatives of Freddie Mac under the Purchase Documents, at law and in equity. The Guide and any applicable Purchase Document containing Servicing requirements shall supersede any inconsistent requirement or provision set forth in the Subservicing Agreement between the Master Servicer and Subservicing Agent. The Servicing Agent's rights under the Subservicing Agreement are without recourse to Freddie Mac of any kind whatsoever, such that the Servicing Agent's rights to perform the subservicing functions and to be compensated for the same (but not the Servicing Agent's indemnification rights, if any, against the Master Servicer) all pursuant to the Subservicing Agreement, are subject to extinguishment at any time. Freddie Mac's rights, powers and prerogatives include, without limitation, Freddie Mac's right to:
 - Suspend or terminate the Servicing Contract and related Servicing Contract Rights with the Master Servicer (in whole or in part, and with or without cause)
 - Suspend or terminate the Master Servicer and/or the Servicing Agent as an approved Freddie Mac Seller/Servicer (whether with cause or without cause); and/or
 - Terminate and/or transfer the Servicing Contract and related Servicing Contract Rights related to any Mortgage without regard to any provisions set forth in a Subservicing Agreement purporting to restrict Freddie Mac's rights including, without limitation, any purported rights of first offer, rights of first refusal, or other similar rights in favor of the Servicing Agent or any other third party with respect to, in whole or in part, the contractual rights to service Mortgages subject to a Subservicing Agreement for Freddie Mac
4. The Servicing Agent has no right to assume any part or the entirety of the Master Servicer's Servicing Contract with Freddie Mac
5. The Servicing Agent has no right to suspend or terminate Freddie Mac's Servicing Contract with the Master Servicer (whether in whole or in part, or with or without cause)

or the right to suspend or terminate the Master Servicer as an approved Freddie Mac Seller/Servicer or Servicer (whether with or without cause)

6. The Servicing Agent has no right to enter into a Transfer of Servicing or other agreement to transfer any rights or obligations under the Subservicing Agreement to a third party
7. The Servicing Agent is not a third-party beneficiary of any of the Purchase Documents between Freddie Mac and the Master Servicer
8. Freddie Mac is a third-party beneficiary of the Subservicing Agreement with respect to the rights of the Master Servicer and the duties and obligations owed by the Servicing Agent under the Subservicing Agreement with respect to the Mortgages serviced for Freddie Mac
9. The Servicing Agent has no rights, title or interest in the Servicing Contract between Freddie Mac and its Master Servicer or in any related Servicing Contract Rights
10. The Servicing Agent may *only* make any claims against Freddie Mac, arising out of or relating to its Subservicing Agreement or the Mortgages, through the Master Servicer
11. In any legal action or proceeding to defend or enforce Freddie Mac's rights with respect to Servicing the Mortgages under the applicable Purchase Documents or Freddie Mac's rights as a third-party beneficiary of the Subservicing Agreement, the prevailing party shall be entitled to recover reasonable attorney fees, court costs and expenses
12. The Master Servicer and Servicing Agent's execution of Form 479A and submission of the Annual Certification Report constitutes both the Master Servicer's and its Servicing Agent's express written consent to permit Freddie Mac to have access to, or to have disclosed to Freddie Mac, and to receive copies of:
 - i. Any and all Mortgage records pertaining to any Mortgage serviced by the Master Servicer and subserviced by its Servicing Agent
 - ii. The Subservicing Agreement, and
 - iii. Any and all other records, document, files, information and data maintained or held by the Servicing Agent (or by others on the Servicing Agent's behalf), which Freddie Mac considers necessary or desirable to determine or assess the correctness and completeness of the Mortgage records pertaining to any Mortgage serviced by the Master Servicer and subserviced by the Servicing Agent. Freddie Mac examines the records, documents, files, information and data to ensure that the Master Servicer and Servicing Agent are complying with the requirements of the Purchase Documents and that nothing in this consent shall diminish in any way Freddie Mac's ownership interest in and right to the Mortgage file and all data pertaining to the Mortgage.

13. On or before the 20th day (or if such day is not a Business Day, then the next succeeding Business Day) of each calendar month, the Master Servicer must provide Freddie Mac (see **Directory 3**) with a written report containing:
 - i. Any notice of default or event of default under the Subservicing Agreement received or sent by the Master Servicer
 - ii. Any notice of an act, event or circumstance indicating that, with the passage of time, without cure of such act, event or circumstance, there would be an event of default under the Subservicing Agreement received or sent by the Master Servicer, and
 - iii. Such other information or documents that Freddie Mac may request with respect to the Subservicing Agreement or the Mortgages, all in form and substance acceptable to Freddie Mac, to the extent that such other information or documents may be requested of other Servicers or Servicing Agents
14. If the Servicing Agent provides notice to the Master Servicer of (i) a default or event of default under the Subservicing Agreement, or (ii) an act, event or circumstance indicating that, with the passage of time without cure would become an event of default under the Subservicing Agreement, then the Servicing Agent will also provide a copy of such notice to Freddie Mac (see **Directory 3**). The Servicing Agent must also provide Freddie Mac (see **Directory 3**) with a written report from time to time upon request from Freddie Mac, containing such other information or documents as Freddie Mac may request with respect to the Subservicing Agreement or the Mortgages, all in form and substance acceptable to Freddie Mac, to the extent that such other information or documents may be requested of other Servicing Agents; and
15. Except as expressly required under the Guide or other applicable Purchase Document, Freddie Mac has no duty to provide notice to or otherwise deal with the Servicing Agent

(i) Termination or expiration of Subservicing Agreement

A Master Servicer must notify Freddie Mac (see **Directory 3**) in the event its Subservicing Agreement with an approved Servicing Agent expires or is terminated by either party within one Business Day of such an expiration or termination by submitting a new Form 479A. When the Form 479A is submitted, the Master Servicer must notify Freddie Mac as to whether the Master Servicer will service the designated Mortgages or the Master Servicer intends to engage a new Servicing Agent.

(ii) Suspension or disqualification of the Master Servicer or termination of Servicing

If Freddie Mac suspends or disqualifies the Master Servicer as an approved Freddie Mac Seller/Servicer or terminates the Master Servicer's Servicing Contract and related Servicing Contract Rights, then, notwithstanding any provision in the Subservicing Agreement entered into by and between the Master Servicer and an approved Servicing Agent with respect to the Servicing of Mortgages for Freddie Mac, Servicing Agent

agrees that any such Subservicing Agreement shall, without notice, demand or other action, immediately terminate and be of no further force and effect. For example, any purported rights of first offer, rights of first refusal, or other similar rights in favor of the Servicing Agent or any other third party with respect to, in whole or in part, the contractual rights to service for Freddie Mac the Mortgages shall also immediately terminate upon termination of the Subservicing Agreement and be of no further force and effect. Immediately following any such event, the Master Servicer and the Servicing Agent shall work with Freddie Mac to transfer all Mortgage file documents and Servicing records in accordance with Freddie Mac's instructions and do any and all other acts that Freddie Mac, in its sole discretion, deems necessary to facilitate a Transfer of Servicing to another Servicer designated by Freddie Mac. In such event, Freddie Mac, at its sole discretion, may contract separately with the Servicing Agent for the Servicing of the Mortgages which the Master Servicer was previously responsible for Servicing, and the Servicing Agent agrees to assume primary responsibility for Servicing such Mortgages in accordance with the terms of the Purchase Documents.

Notwithstanding any provision to the contrary in any Subservicing Agreement, in the event of the suspension, disqualification or termination of the Servicing Agent as a Freddie Mac Servicer, then any such Subservicing Agreement shall, without notice, demand or other action, immediately terminate and be of no further force and effect with respect to Freddie Mac Mortgages. Immediately following any such suspension, disqualification or termination, the Master Servicer and the Servicing Agent (as may be appropriate) shall execute and transfer all such Mortgage file documents and Servicing records and do all such acts as the Master Servicer may deem necessary to facilitate a transfer back to the Master Servicer or to a new Servicing Agent selected by the Master Servicer, provided Freddie Mac's approval of the new Servicing Agent has been obtained in accordance with this Section 8102.1, of all of the Servicing Agent's Servicing obligations with respect to the Mortgages.

(iii) Transfer of records, document custody requirements and transfers of funds

Whenever the performance of a Master Servicer's Servicing obligations with respect to a Mortgage or group of Mortgages is to be undertaken by a new Servicing Agent or will be undertaken directly by a Master Servicer following the termination or expiration of a Subservicing Agreement with its former Servicing Agent, the Master Servicer and the Servicing Agent shall comply with the requirements of Section 8102.2.

(iv) Master Servicer indemnification of Freddie Mac

The Master Servicer shall, and hereby agrees to, indemnify Freddie Mac from and against any losses, damages, claims or expenses (including court costs and reasonable attorney fees) incurred by Freddie Mac as a direct or indirect consequence of the Servicing Agent's bankruptcy, insolvency, or failure to comply with any of the requirements of the Purchase Documents.

(b) Approval

A Master Servicer may not engage more than one Servicing Agent for Freddie Mac Mortgages being serviced under a particular Freddie Mac Seller/Servicer number at any one time.

A Master Servicer must obtain Freddie Mac's written approval to use a Servicing Agent before the Servicing Agent may commence any Servicing activities on behalf of the Master Servicer. For example, a Seller/Servicer that intends to engage a Servicing Agent to perform all Servicing obligations on behalf of the Seller/Servicer must obtain Freddie Mac's written approval to use that Servicing Agent prior to delivery of a Mortgage to Freddie Mac that it intends to be serviced by the Servicing Agent. In addition, with respect to a Concurrent or Subsequent Transfer of Servicing, a Transferee Servicer that intends to use a Servicing Agent with respect to the transferred Servicing Contract and Servicing Contract Rights of the related Mortgages must obtain Freddie Mac's written approval before the Servicing Agent commences any Servicing activities on behalf of the Transferee/Master Servicer. To request approval, the Master Servicer must submit a Form 479A to Freddie Mac (see **Directory 3**) executed by both the Master Servicer and the Servicing Agent. Freddie Mac reserves the right to disallow use or rescind authorization of any Servicing Agent that it has determined does not service Mortgages in accordance with the Servicing Contract.

See Section 1402.9(b) for additional requirements applicable to the subservicing of eMortgages (as defined in Section 1402.2), including, but not limited to, a Servicing Agent's use of a Master Servicer's approved eNote Vault System (as defined in Section 1402.2).
(Note: An eMortgage Servicing Agent may use its own eNote Vault System, provided that the eMortgage Servicing Agent is separately approved to service eMortgages for Freddie Mac.)

Freddie Mac will indicate approval, if appropriate, by sending an e-mail with written confirmation of the approval of the submitted Form 479A. Freddie Mac's approval is effective until a new Form 479A is received indicating a new Servicing Agent or the Master Servicer as responsible for Servicing the Mortgages. Relationships between a Master Servicer and Servicing Agent that are dormant for a year (e.g., no Servicing activity is performed by the Servicing Agent) will be terminated.

See Section 2401.1(f) regarding requirements relating to Servicing Agent access to Freddie Mac Servicing Tools.

(c) Review of Servicing Agent

Before submitting the executed Form 479A, the prospective Master Servicer must carefully review the proposed Servicing Agent's procedures, methods of operation and minimum security standards, as set forth in Sections 1401.5 and 1401.6, for compliance with Freddie Mac's requirements. By submitting a Form 479A and proposing to use a particular Servicing Agent, the prospective Master Servicer shall be deemed to represent and warrant to Freddie Mac that it has carefully reviewed the Servicing Agent's procedures, methods of operation

and minimum security standards for compliance with Freddie Mac's requirements and has determined that the Servicing Agent has demonstrated the ability to service Mortgages in accordance with such requirements by having satisfactorily serviced for a reasonable period of time an existing portfolio of Mortgages of the same types as the Mortgages to be serviced for Freddie Mac.

(d) Oversight and surveillance

The Master Servicer must establish an oversight and surveillance program to monitor its Servicing Agent's compliance with the Servicing requirements of the Guide and other Purchase Documents applicable to the Master Servicer. In establishing an oversight and surveillance program, a Master Servicer should consider adopting the best practices set forth in the *Servicing Agent Oversight and Surveillance Program Best Practices* document published on https://sf.freddiemac.com/content/_assets/resources/pdf/factsheet/master_surveillance.pdf.

(e) Management experience of the Master Servicer

The Master Servicer must employ a seasoned Mortgage Servicing executive and experienced Mortgage Servicing staff to oversee the activities of the Servicing Agent, taking into consideration the volume of subserviced Mortgages and the complexity of the portfolio being serviced (e.g., non-performing high risk Mortgages). When determining the experience level, Master Servicers should consider the average years of experience, education, qualifications and demonstrated ability of the employee in relation to their respective levels of responsibility.

(f) Outsourced Vendors

Freddie Mac does not consider a Servicer's use of an Outsourced Vendor to constitute the use of a Servicing Agent. In addition, the use of an Outsourced Vendor does not require Freddie Mac's approval, unless otherwise provided in the Guide or the Servicer's other Purchase Documents. Without limiting the Servicer's responsibilities under Section 2401.1(e) with respect to Related Third Parties, the Servicer must ensure that the Outsourced Vendor has:

- i. Systems and software applications that function accurately and in compliance with all applicable laws
- ii. Systems security that complies with Chapter 1302, industry standards and all applicable privacy and data breach laws
- iii. A business continuity plan in place, consistent with Section 1302.3, to maintain and restore the information within a pre-determined time frame for all Mortgages serviced for Freddie Mac in the event of a disaster or other interruption of business operations and processes, and
- iv. Processes and procedures to ensure prompt and accurate responses to Borrowers. A Servicer that uses an Outsourced Vendor domiciled in, or who provides services to the

Servicer from, an offshore location (i.e., not in any State) must apply the same requirements and ensure the same level of service and compliance that is applicable to an Outsourced Vendor domiciled in and providing services to the Servicer from a State. Both the Master Servicer and its Servicing Agent must ensure that a Servicing Agent's Outsourced Vendor complies with the Servicing requirements in the Guide and other Purchase Documents.

The use of an Outsourced Vendor does not relieve the Servicer of any of Servicer's responsibilities to Freddie Mac under the Purchase Documents.

The Servicer shall continue to be responsible and liable to Freddie Mac for all the actions and omissions of any Outsourced Vendor used by the Servicer in accordance with the terms of the Purchase Documents.

8102.2: Obligations upon termination or expiration of Subservicing Agreement (04/12/23)

(a) Servicing obligations undertaken by new Servicing Agent or by the Master Servicer

Whenever the Master Servicer's Servicing obligations are undertaken by a new Servicing Agent (e.g., due to the termination or expiration of the Subservicing Agreement with a prior Servicing Agent) or performed directly by the Master Servicer itself, the Master Servicer and, if applicable, the new Servicing Agent must complete and submit (see **Directory 3**) the following information to Freddie Mac at least 30 days before the date the new Servicing Agent commences Servicing of the Mortgages:

- A fully executed Form 479A, Single-Family Servicing Agent Certification and Agreement, signed by both the Master Servicer and, if applicable, the new Servicing Agent, with a list of the specified Mortgage types and Mortgages with specified features included in the subservicing arrangement including, but not limited to, Mortgages in active alternatives to foreclosure and the terms of such alternatives, and
- A list of Mortgages that will be serviced by the new Servicing Agent or by the Master Servicer directly

(b) Mortgages modified electronically

If the portfolio being transferred as part of the subservicing arrangement includes Mortgages that have been modified electronically or subject to an Electronic Payment Deferral Agreement as defined in Chapter 1401, the Servicer that is transferring the Mortgage documents and Servicing records must indicate on Form 479A that:

- Mortgages with an eModification Agreement or an Electronic Payment Deferral Agreement

- Provide a list of such Mortgages, and
- Indicate the name of the repository holding the eModification Agreement or Electronic Payment Deferral Agreement

See Section 9205.20 for requirements governing the HAMP eModification Agreement.

Freddie Mac will indicate approval, if appropriate, by providing the signed Form 479A to the Master Servicer and, if applicable, the new Servicing Agent.

(c) Denied Form 479A requests

Freddie Mac reserves the right to deny a Master Servicer's request to use a new Servicing Agent or to undertake Servicing directly. Freddie Mac may provide the Master Servicer written notice of the denial, but is not obligated to provide a written notice explaining the reason for denial. In the event Freddie Mac denies a Master Servicer's request to use a new Servicing Agent or undertake Servicing directly, the Master Servicer agrees to work with Freddie Mac to identify a new Servicing Agent or engage in a Subsequent Transfer of Servicing of the Mortgages to a Transferee Servicer in accordance with the requirements of Chapter 7101.

(d) Freddie Mac's rights

Any unauthorized Servicing of Freddie Mac Mortgages by a new Servicing Agent or by the Master Servicer constitutes grounds for suspension or disqualification of both the Master Servicer and the purported Servicing Agent as Seller/Servicers. In addition, Freddie Mac may exercise any of its other rights under the Purchase Documents.

Freddie Mac may perform a post-transfer review following establishment of the subservicing arrangement, which may include onsite visits, to determine whether the Master Servicer and Servicing Agent, as applicable, complied with the requirements of the Guide and applicable Purchase Documents.

(e) Master Servicer and Servicing Agent reviews

The Master Servicer, the former Servicing Agent and, if applicable, the new Servicing Agent must participate with each other to conduct a due diligence review on the Mortgages related to the transfer, the transferred Mortgage files, Servicing data and records, Custodial Accounts, if applicable, obligations under the Purchase Documents and any alternative to foreclosure and provide to the Servicer that will perform the Servicing obligations with any missing data, documents or other information necessary for that Servicer to perform its obligations in accordance with the Guide, applicable Purchase Documents, terms of the Mortgage and applicable alternatives to foreclosure.

(f) Servicer to perform the Servicing obligations

The Servicer that will perform the Servicing obligations must perform a due diligence review on the Mortgages it will service and on any related Custodial Accounts, and be aware of any obligations under the Purchase Documents and any alternative to foreclosure, whether offered and outstanding or currently in place with a Borrower. The Servicer that will be performing the Servicing obligations must ensure that its due diligence efforts include, but are not limited to, a review of the following information:

1. Reports and data that confirm and support information provided to the Servicer
2. Pertinent reports prepared by internal or external auditors, including any recently completed Freddie Mac audit

Upon request, the Master Servicer and any Servicing Agent must provide to Freddie Mac the post-transfer review results.

(g) Servicing reporting

Beginning with reports due for the reporting cycle immediately following the day the new Servicing Agent or Master Servicer undertakes the performance of the Servicing obligations, all Servicing reports, whether required to be submitted electronically or by paper copy, must be submitted in the name and Seller/Servicer number of the Master Servicer.

(h) Transfer of Mortgage and REO files

No later than 30 days after the new Servicing Agent or Master Servicer undertakes the performance of the Servicing obligations, the Servicer that was performing the Servicing obligations must deliver to the new Master Servicer, or, if applicable, the new Servicing Agent, the following records for each Mortgage and REO for which Servicing is transferred:

- 1. Mortgage file:** The Mortgage file that the Servicer is required to maintain in accordance with Chapter 3302
 - If the Servicer that was performing the Servicing obligations does not have the same form of document and records maintenance (photographic, photostatic, microfilm, microfiche, electronic imaging, optical disk or laser disk storage) as the new Servicer Agent or Master Servicer, then the former Servicer must either convert the documents and records to the form of storage utilized by the new Servicer Agent or Master Servicer or generate paper copies of all documents and records for the new Servicer Agent or Master Servicer
 - Effective for Mortgages with Note Dates on or after July 1, 2013, Servicers may no longer make copies of original paper Mortgage file documents for any Mortgage file documents (excluding the paper original Mortgage file documents specified in Section 3302.2, which must always be maintained and stored as paper originals) using

microfilm or microfiche. Servicers may copy original paper Mortgage file documents using scanning systems commonly used in the regular course of business at this time, and maintain copies of such documents as Portable Document Format (PDF), Tagged Image File (TIF) format, Joint Photographic Experts Group (JPEG) format or other electronic document formats commonly used in the regular course of business at this time.

2. **Payment history:** The complete history of Mortgage payments and, if applicable, Escrow disbursements (including the most recent Escrow analysis), with supporting documentation, from the Origination Date of the Mortgage
3. **Correspondence and reports:** Copies of all correspondence with, and reports to, the Borrowers and, as applicable, FHA, VA, RHS, MIs, Freddie Mac and any government authority
4. **Notice of transfer:** A copy of the notice to the Borrowers regarding the change in entity performing the Servicing obligations (e.g., change of payment address)
5. **REO history:** If REO is being serviced, the complete history of receipts, expenditures and management and marketing activities (including copies of any filed MI claims) with supporting documentation from the date the REO was acquired

(i) **Transfer of portfolio records**

No later than the date the new Servicing Agent or Master Servicer undertakes the performance of the Servicing obligations, the Servicer must deliver to the new Servicing Agent or Master Servicer that will perform the Servicing obligations the following records for the Mortgages and REO that will be serviced by such Servicing Agent or Master Servicer:

1. **Service contracts:** Copies of tax and flood hazard determination service contracts, if applicable
2. **Unpaid charges:** A list of Escrowed charges due and unpaid as of the date the new Servicing Agent or Master Servicer undertakes the performance of the Servicing obligations
3. **Trial balances:** Trial balances, as of the close of the last Business Day immediately preceding the date on which the performance of Servicing obligations will transition to the new Servicing Agent or back to the Master Servicer, showing:
 - Transfers of Ownership, payoffs and other Servicing exceptions in process
 - Escrows, Escrow advances and prepayments
 - Where applicable, buydown accounts and balances

- Delinquencies, foreclosures, bankruptcies and REO
- 4. Automatic payments:** A list of Mortgages subject to automatic drafting of monthly payments along with Borrower authorization and all necessary information to continue without interruption, electronic payments on the Borrower's Mortgage, to the extent permitted by applicable law
- 5. Insurance policies:** A list of Mortgages showing expiration dates of the insurance policies on the Mortgaged Premises, whether or not premiums for these policies were Escrowed
- 6. Other documents:** Ledger records and definitions of codes used in ledger records, trial balances or any other documents required by Freddie Mac to be transferred to the Servicing Agent or Master Servicer that is undertaking the performance of the Servicing obligations
- **Custodial Accounts (if applicable):** A copy of the depository institution's reconciliation, as of the close of the bank's last business day immediately preceding the date on which the performance of Servicing obligations will transition to the new Servicing Agent or back to the Master Servicer, for each Custodial Account maintained in accordance with Chapter 8304
 - **Freddie Mac reports:** Copies of all Servicing and accounting reports filed with Freddie Mac for the three months immediately preceding the date on which the performance of Servicing obligations will transition to the new Servicing Agent or back to the Master Servicer

(j) Notices to the Borrower

The Servicer that is ceasing performance of the Servicing obligations must provide timely notice to the Borrowers to ensure a smooth transition, avoid disruption in Mortgage payments and otherwise comply with applicable laws and regulations. The Servicer must provide written notice to each Borrower at least 15 days before the first payment is due to be received by the Servicer Agent or Master Servicer that is undertaking the performance of the Servicing obligations.

(k) Master Servicer's or new Servicing Agent's notice to the Borrower

The Master Servicer or its new Servicing Agent, whichever is undertaking the performance of the Servicing obligations, must provide to each Borrower written confirmation of the information in the notice to the Borrowers provided by the Servicer that is ceasing performance of the Servicing obligations within 15 days before the date the first payment is due to be received by the Master Servicer or its Servicing Agent, as applicable.

(I) Notice requirements

The notice must advise the Borrower of the following:

1. The date the new Servicing Agent or Master Servicer undertakes the performance of the Servicing obligations
2. The name and address of the Servicer undertaking the performance of the Servicing obligations
3. The names and telephone numbers of the contact persons or departments where the Borrowers' inquiries relating to the transfer should be directed. (If toll-free numbers are not available, the letter must indicate that collect calls will be accepted.) Such names and telephone numbers must be provided for the party previously performing the Servicing obligations as well as the new Servicing Agent or Master Servicer undertaking the performance of the Servicing obligations.
4. The date when the party previously performing the Servicing obligation will no longer collect the Borrowers' payments and when the new Servicing Agent or Master Servicer undertaking the performance of the Servicing obligations will begin to collect them
5. Procedures for maintenance of automatic draft payments, if applicable. Every effort must be made to continue, without interruption, electronic payments on the Borrower's Mortgage, to the extent permitted by applicable law.

The notice may not amend the terms of a Mortgage other than those relating to where to send payments.

The Master Servicer and any Servicing Agent must ensure that their staff and facilities are adequately prepared to process Servicing and accounting transactions and to respond to Borrower inquiries during the transfer transition period. The Servicing Agent or Master Servicer undertaking the performance of the Servicing obligations must assume responsibility for responding to Borrower inquiries received after the date of such undertaking. If any Servicing or accounting problem cannot be resolved without the involvement of the Servicer that was performing the Servicing obligations, the new Servicing Agent or Master Servicer undertaking the performance of the Servicing obligations, and not the Borrower, should initiate the contact with the prior Servicer.

During the transfer transition period, the Servicers involved must make reasonable efforts to resolve disputes to the Borrowers' satisfaction when such disputes arise from legitimate Borrower misunderstanding of instructions in the notices to the Borrower. Late charges must be waived and, if applicable, appropriate adjustments to payment and credit records made for misapplied or unapplied payments due to a payment received by the Servicer that was performing the Servicing obligation instead of the new Servicing Agent or Master Servicer undertaking the performance of the Servicing obligations.

Within one day of receipt, the Servicer that was performing the Servicing obligations must deliver to the Servicing Agent or Master Servicer undertaking the performance of the Servicing obligations any funds for, or correspondence regarding, any of the Mortgages and REO related to the transfer that are received on or after the date the Servicing Agent or Master Servicer undertakes the performance of the Servicing obligations.

Chapter 8103: Servicer Accounting and Application of Payments

8103.1: Servicer fiscal responsibilities (04/12/23)

The Servicer must prepare its balance sheet and other financial statements that clearly reflects the sale of Mortgages to Freddie Mac as a sale of assets. This is required in addition to the file identification and marking of accounting records required elsewhere in this Guide.

Each Servicer acknowledges and agrees that any reference to a “mortgage servicing right” or “MSR” in its books and records or in any other third-party contract related to the Servicing of Freddie Mac-owned Mortgages and/or related to the compensation Freddie Mac pays or may pay in the future to such Servicer (i.e., in the form of a Servicing Spread) is in fact a short-hand reference for the term “Servicing Contract Right”. Although some participants in the mortgage industry refer to MSRs and mortgage servicing rights, initially used as accounting terms, instead of the more appropriate and complete term “Servicing Contract Rights”, for precision, Freddie Mac generally, and the provisions of our Purchase Documents, will continue to use the term “Servicing Contract Rights”. Notwithstanding any extra-contractual meanings associated with the terms “MSR” and “mortgage servicing rights”, the terms “MSR” and “Mortgage Servicing Rights” (and any references to ownership thereof by any Servicer) (i) are for convenience purposes only as a result of industry and accounting convention (e.g., pursuant to generally accepted accounting principles), and (ii) in fact refer to Servicing Contract Rights (1) that are conditional in nature (e.g., may be terminated in whole or in part by Freddie Mac in its unfettered discretion) and (2) are not owned by the Servicer, but rather with respect to which a Servicer may have rights sufficient to satisfy UCC § 9-203(b)(2).

8103.2: Mortgage accounting records (06/12/19)

(a) Permanent records

The Servicer must maintain permanent Mortgage accounting records for each Mortgage sold to Freddie Mac. The records must contain the complete Freddie Mac nine-digit loan number assigned to the Mortgage.

(b) Accounting system

Freddie Mac requires that the Servicer’s Mortgage accounting system be able to produce an account transcript for each Mortgage, itemizing the following in chronological order:

- The date, amount and breakdown of principal, interest and Negative Amortization of each payment

- The date to which interest is paid
- The date, amount and nature of each disbursement, advance, adjustment or other transaction affecting the amounts due from or to the Borrower

The system must also be capable of providing:

- The current outstanding principal balance and Negative Amortization of the Mortgage
- The current Escrow (impound) balance
- Disclosure of any insufficiency in Escrow balances for a Mortgage

(c) Accounting principles

The Servicer must maintain the accounts and records for Freddie Mac-owned Mortgages according to sound and generally accepted accounting principles in a manner that permits Freddie Mac's representatives or designees to examine and audit these accounts and records at any time.

8103.3: Accounting methods (03/02/16)

(a) Amortization method

The Servicer must use the amortization method of individual loan accounting, with interest calculated in arrears, for each Mortgage it services for Freddie Mac. Under this method, an individual Mortgage payment is applied to interest and principal by first calculating the interest portion and then applying the balance of the payment as a principal reduction.

Unless otherwise specifically required by law, the interest portion of the payment must be determined by computing one full month's interest on the outstanding principal balance (Exhibit 62, Interest Calculation: Amortization Method) regardless of the day on which the payment is actually received. To determine the interest due for the month, multiply the outstanding principal balance by the interest rate of the Mortgage and divide by 12.

Factors used for interest calculations must be carried to at least six decimal places, then rounded to the nearest decimal place based on the third digit. After applying the interest portion of the payment, the remainder is applied to principal.

The Fannie Mae/Freddie Mac Uniform Instruments provide for this amortization method, unless the law of the State where the Mortgaged Premises are located specifically requires a different method. If applicable law specifically requires a different method, the Servicer must so notify Freddie Mac (**see Directory 7**) in writing before remitting payments to Freddie Mac. When computations involve multiple installments, such as several delinquent installments, the interest from each may be computed using the same principal balance

(Exhibit 63, Interest Calculation: Amortization Method). The amount to be applied to interest from each installment also may be calculated in succession, using the principal balance remaining after the previous calculation and principal application (Exhibit 64, Interest Calculation: Amortization Method). Similarly, a method that strictly applies payments according to a predetermined amortization schedule is also acceptable.

For Initial InterestSM Mortgages, the monthly payment will be interest-only followed by fully amortizing principal and interest payments beginning on the First Amortizing Payment Date. For Initial Interest Mortgages, Servicers must have the ability to produce monthly payment statements for Borrowers.

In addition, for Initial Interest 3/1, 5/1 and 7/1 10-year Interest Only Period ARMs, Servicers must be able to track the first Interest Change Date and the First Amortizing Payment Date separately.

(b) Interest calculations involving a period of less than one month

For interest calculations involving a period of less than one month (for example, Mortgages paid in full or third-party sales), the amount of interest must be based on actual days and a 365-day year.

(c) Interest-in-advance

Freddie Mac does not permit the use of the prepaid interest or interest-in-advance methods on Mortgages purchased. Any Servicer using the interest-in-advance method must convert to the interest-in-arrears method for Mortgages purchased by Freddie Mac before delivering the Mortgages to Freddie Mac.

8103.4: Application of payments: general (03/02/16)

Except as described in Sections 8103.5 through 8103.7 all payments of the monthly installment due shall be applied as specified in the Security Instrument.

8103.5: Application of payments: differences in collection (03/02/16)

For each Mortgage, all payments received must equal or exceed the monthly principal, interest and Escrow, if applicable, unless a deficiency of \$50 or less occurs. The Servicer must not create a payment deficiency by deducting a late charge from the regular monthly payment. Refer to Section 9102.2 for further information on late charge collections.

A Mortgage payment, including Escrow amounts that is deficient by \$50 or less may be:

- Applied by reducing the amount credited to the Escrow balance
- Credited to an unapplied or suspense funds account until a full payment is received
- Returned to the Borrower for a complete payment

If the deficiency exceeds \$50, the partial payment must be either credited to unapplied or suspense funds until a full payment is received or returned to the Borrower.

Partial payments received from a Borrower during a repayment plan must be held in Freddie Mac's Escrow Custodial Account until a full payment is received.

Refer to Section 8302.4 for requirements regarding the deposit of partial payments to the Escrow Custodial Account.

Checks returned because of insufficient funds must be reflected as a complete reversal of the most recent Escrow, interest, Negative Amortization and principal application.

8103.6: Application of payments: Mortgage paid in full (06/12/19)

(a) General Servicer responsibilities

The Servicer must determine and accept the amount required to pay a Mortgage in full, including the interest to the payoff date and remit the total proceeds due Freddie Mac. The Servicer is responsible for providing payoff amounts to individual Borrowers or their agents and is liable to Freddie Mac for any errors in the amount of any payoff.

The Servicer must take all actions required by law, within statutory time limits, to release the lien and discharge the debt of a Mortgage that has been paid in full (paid off). The Servicer agrees to hold Freddie Mac, its successors and assigns, harmless from and against any and all losses, claims, demands, actions, suits, damages, costs and expenses (including reasonable attorney fees) of every nature and character that may arise or be asserted against or be incurred by Freddie Mac as a result of the Servicer's failure to comply with applicable law.

If the Mortgage is evidenced by a Security Instrument, or is insured or guaranteed under a federal program, that prohibits the charging of a release or reconveyance fee upon payoff, the Servicer may not charge such a fee even if permitted to do so under applicable law. This prohibition extends to trustees in deed of trust jurisdictions and applies to "release" fees, "processing" fees, "forwarding" fees, "document preparation" fees and similarly denominated charges. In deed of trust jurisdictions, a Servicer must not knowingly employ or retain a trustee who charges Borrowers for reconveyance services.

If permitted to do so under applicable law and the Security Instrument, the Servicer may charge the Borrower for the actual cost of recording the release or reconveyance.

The Servicer must request the release of the Note and other documents held by the Document Custodian in accordance with Section 8107.1 for a Mortgage that has been paid in full. The Servicer must comply with any and all statutory requirements and time frames regarding disposition of the Note, which may require returning the Note to the Borrower following pay off. For an eMortgage (as defined in Section 1402.2) that has been paid in full, the Servicer must also comply with the requirements in Section 1402.10(c).

Payoff proceeds received by the Servicer must be remitted and reported to Freddie Mac in accordance with applicable provisions of Chapters 8303 and 8304.

(b) Prepayment Penalty Mortgages

With respect to a Prepayment Penalty Mortgage, the Servicer must collect the amount of the prepayment penalty provided for in and under the conditions specified in the Mortgage loan instruments and:

1. For Prepayment Penalty Mortgages sold to Freddie Mac prior to October 14, 2005, the Servicer must not assess or collect a prepayment penalty if either:
 - The proceeds received for the payoff of the Mortgage are from the sale of the Mortgaged Premises, or
 - The payoff of the Mortgage is received from any source, including insurance proceeds, in connection with the workout of a delinquent Mortgage or due to a default under the terms of Security Instrument
2. For Prepayment Penalty Mortgages sold to Freddie Mac on and after October 14, 2005, the Servicer must not assess or collect a prepayment penalty if either:
 - The proceeds received for the payoff of the Mortgage are from the sale of the Mortgaged Premises and the prepayment period is more than three years or
 - The payoff of the Mortgage is received from any source, including insurance proceeds, in connection with the workout of a delinquent Mortgage or due to a default under the terms of the Security Instrument

(c) FHA/VA and Section 502 GRH Mortgages

For FHA/VA and Section 502 GRH Mortgages, any notice of prepayment or entitlement to interest past the date of payment-in-full must be waived by the Servicer on behalf of Freddie Mac. Escrow balances may be either credited to the mortgagor or returned separately.

When an FHA Mortgage is paid in full, the Servicer must collect the amounts due FHA for the adjusted prepayment premium and for pro rata earned mortgage insurance premiums. The Servicer must then complete any required notice and submit it directly to FHA with the required remittances.

(d) Buydown accounts

Any funds remaining in the buydown account of a Mortgage prepaid in full must be released according to the terms of the buydown agreement.

For further explanation of procedures to be followed in regard to conventional, FHA/VA and Section 502 GRH Mortgage payments-in-full, see Section 8303.9.

8103.7: Application of payments: partial prepayments (curtailments) (12/09/19)

The Servicer may accept partial prepayments of principal in any amount according to the terms of the Note. Upon request by the Borrower, the monthly principal and interest installments may be recalculated, provided that:

- The monthly payments are current
- There is no extension of the Note maturity date or the maturity date calculated in accordance with any modification agreement in force at the time of Freddie Mac's purchase of the Mortgage
- FHA, VA, RHS or MI approval is obtained, if applicable
- The rate of interest stated in the Note remains unchanged

The Servicer may determine, in its discretion and in compliance with applicable law, whether to require:

- A modification agreement executed by both the Borrower and the Servicer, or
- A Servicer-executed modification agreement

The Servicer must report Loan Level Reporting exception code 91(Recast) in the Accounting Cycle containing the Due Date of the new Mortgage principal and interest (P&I) monthly payment. Servicers must report Mortgages with a step rate via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) and report Loan Level Reporting exception code 91. If a prepayment(s), with the modified P&I constant, is received prior to the date the Mortgage P&I monthly payment changes, the Servicer must apply the payment in accordance with the Security Instrument, but not report the payment to Freddie Mac prior to the date the

Mortgage P&I monthly payment changes. However, if all contractual payments with the pre-modified P&I constant have previously been reported, then the recast exception code, the modified P&I constant and the modified Mortgage P&I payment may be reported in the Accounting Cycle prior to the Due Date of the modified Mortgage P&I payment.

If the original Security Instrument was registered with MERS®, the Servicer must execute the modification agreement on behalf of MERS. Freddie Mac does not need to approve any modification meeting the requirements in this Section 8103.7.

Freddie Mac will update its systems with the newly modified principal and interest payment as set forth in the modification agreement. The Servicer must also report and remit the new payment in accordance with the requirements in Chapter 8303.

The Servicer warrants that with respect to any modification agreement completed under this section, that the modified Mortgage retains its First Lien position and is fully enforceable at the time of modification, throughout its modified term and during any bankruptcy or foreclosure proceeding involving the Mortgage.

Freddie Mac's execution of any document submitted by the Servicer does not imply that it has reviewed the document for legal adequacy. This is the Servicer's responsibility. When required by local law or practice, the Servicer must obtain the consent of any statutory or contractual lienholder and binding confirmation by the title insurer that no loss in priority of the lien is incurred. The Servicer must make any necessary recordation. To the extent of local law and practice, the Servicer may require the Borrower to reimburse the Servicer's costs and pay expenses incurred in preparing or recording the modification agreement.

The Servicer must send one original modification agreement to the Document Custodian in accordance with the timing and other requirements of Section 9206.17; except for any Mortgage that is modified using a Servicer-executed modification agreement, the Servicer must send such agreement to the Document Custodian within 25 days of the Modification Effective Date. The Servicer must refer to Section 8103.7 for Freddie Mac's accounting requirements regarding this subject.

Principal curtailments can be made any Business Day of the month and must be applied no later than the day on which the curtailment is received. To determine the interest due for the next monthly payment, multiply the UPB by the interest rate of the Mortgage and divide by 12.

Funds received in consideration of a partial release of the Mortgaged Premises or the taking of the Mortgaged Premises in whole or in part by eminent domain will be applied as instructed by Freddie Mac in accordance with Sections 8401.1 and 8401.2.

(a) ARMs

For ARMs, curtailments must first be applied as a reduction of Negative Amortization and then as a reduction to principal. Both applications must be reported as principal due Freddie Mac in the loan-level transaction.

(b) Computing interest

For computing forecasted scheduled interest due in the next Accounting Cycle, the interest must be calculated on the current Accounting Cycle interest-bearing Ending UPB, after applying all principal payments (i.e., current monthly principal payment, curtailment and prepayments) received and reported in the current Accounting Cycle.

(c) Modifications

Modifications on Home Mortgages that result in reduced monthly payments due to curtailments may be approved by the Servicer without Freddie Mac's approval, provided that:

- The monthly payments are current
- There is no extension of the Note maturity date or the maturity date calculated in accordance with any modification agreement in force at the time of Freddie Mac's purchase of the Mortgage
- MI, VA, RHS or FHA approval is obtained, if applicable
- The Note Rate remains unchanged; and
- The modification is reflected in a written agreement and processed in accordance with the requirements in Section 8103.7. (Note: Per Section 1402.10(a), the Servicer must update the MERS® eRegistry (as defined in Section 1402.2) to provide notice of the modification agreement upon a recast modification of an eMortgage (as defined in Section 1402.2).)

Except as otherwise stated in the Guide or applicable Purchase Documents, the Servicer must obtain Freddie Mac's prior written approval before entering into a modification with a Borrower.

(d) Initial InterestSM Mortgages

For Initial InterestSM Mortgages, if the Borrower makes a principal curtailment during the Interest Only Period, then the next interest-only payment must be recalculated based on the new UPB. For an Initial Interest 3/1, 5/1 and 7/1 10-year Interest Only Period ARM, if there is a principal curtailment during the period when the interest rate has begun adjusting annually but the monthly payments are still interest-only, the Servicer must continue to recalculate the next interest-only payment based on the new UPB until the end of the Interest Only Period; after the Interest Only Period, the monthly payment should be recalculated in accordance with the Servicer's standard processes for ARMs.

If the Borrower makes a principal curtailment during the Interest Only Period, then the next interest only payment must be recalculated based on the new UPB. The Servicer must remit

interest based on the new UPB to Freddie Mac in the Accounting Cycle immediately following the date the Borrower made the principal curtailment.

Servicers must be able to comply with the terms of the Initial Interest Note and calculate (or recalculate) the first fully amortizing principal and interest payment based on the UPB after application of any partial prepayment received on or before the last interest only payment due date.

Before the effective date of any change in the Borrower's monthly payment, the Servicer must deliver or mail the Borrower a notice of such change. The notice must include the information required in the loan instruments or by applicable law, and must also include the following:

1. Name and address of Borrower
2. Address of property
3. Loan number
4. Change in monthly payment
5. New monthly payment amount
6. Reason for change (i.e., reduction in UPB; loan becomes fully amortizing; change in interest rate, if an ARM)
7. Title and telephone number of a person who will answer any questions

8103.8: Reapplication of prior repayments (03/02/16)

The Servicer may not automatically reapply prior prepayments or accumulated prepayments for payment of subsequent installments. Payments advanced to satisfy future installments must be accounted for as advanced (prepaid) installments of principal and interest. The Servicer should contact the Borrower if there is a question about the Borrower's intent.

8103.9: Accounting with respect to delinquency relief (03/02/16)

Freddie Mac's Servicing requirements regarding delinquency relief are described in Chapter 9203. These sections should be read in conjunction with the accounting requirements in this section.

When delinquency relief has been granted, the Servicer must apply funds collected from the Borrower according to the governing Note or repayment agreement. Regardless of cash collected from the Borrower, the Servicer must report to Freddie Mac in accordance with the net yield reporting concept. Freddie Mac will receive its proportionate share of principal collections and the Accounting Net Yield interest for the monthly reporting period.

Section 8303.16 sets forth the monthly reporting requirements.

Chapter 8104: Special Servicing

8104.1: Servicing Texas Equity Section 50(a)(6) Mortgages (02/15/17)

The Servicer must have in place adequate procedures to receive and timely respond to Borrower inquiries, claims of defects, and other complaints (whether or not the Borrower specifically references Article XVI Section 50(a)(6) of the Texas Constitution) received in connection with a Texas Equity Section 50(a)(6) Mortgage. In addition, if the Servicer receives a Borrower notification of the lender's failure to comply, or otherwise discovers that the lender or Servicer has failed to comply, with the provisions of Article XVI of the Texas Constitution with respect to a Texas Equity Section 50(a)(6) Mortgage, it must notify Freddie Mac within seven Business Days of receipt (see **Directory 5**) of the notification or discovery and provide Freddie Mac with a copy of the notification and/or related information. The Servicer must cure all curable defects related to the origination of the Mortgage, or for Borrowers in a Trial Period Plan, the terms of the Trial Period Plan, in accordance with the provisions of Section 50(a)(6) of Article XVI of the Texas Constitution within the time period specified in Section 50(a)(6). Refer to Section 9206.13 for additional notification and other requirements with respect to a complaint or objection to a mortgage modification.

8104.2: Biweekly payment plans (05/04/20)

A Borrower may choose to enter into a biweekly payment plan to accelerate the reduction in principal on a Mortgage by applying the equivalent of one or more extra monthly payments each year, thereby reducing total interest costs.

Biweekly payment plans do not change the conditions and terms of the Note regarding the amount of monthly payments, when monthly payments are due, the application of payments, the assessment of late charges and the calculation of Delinquencies, nor do they change the way payments are reported or remitted to Freddie Mac, or the way Delinquencies are reported to Freddie Mac.

If the Borrower asks about using a third party's biweekly payment plan and this third party is not a vendor who administers the plan for the Servicer, then the Servicer should advise the Borrower that the:

- Conditions and terms of the Mortgage still apply and will be enforced
- Borrower can make the extra payments directly to the Servicer without a formal plan and without the cost and potential risks of using a third party to administer such a plan (or the Servicer may offer such a plan to the Borrower if the Servicer has such a plan available)

- Borrower will be responsible for any late charges or payment shortages if the third party fails to make timely and sufficient payments to the Servicer
- Borrower should check the type of safeguards that will be in place to protect the Borrower's money from misuse by the third party before it is transferred to the Servicer
- Mortgage could be subject to foreclosure action if the third party fails to remit the Borrower's payment to the Servicer and the Mortgage becomes delinquent, even if the Borrower has taken legal action to recover any payments made to the third party that were not remitted to the Servicer

If the Servicer chooses to enter into a biweekly payment plan with a Borrower after the Mortgage has been sold to Freddie Mac, the Servicer must ensure that the following requirements for the administration of the plan are met:

1. A Servicer may offer or advertise the availability of a biweekly payment plan for Mortgages in the Servicer's portfolio, so long as the Servicer does not specifically target the offer or advertisement to Mortgages that are serviced for Freddie Mac
2. The Servicer must establish the biweekly payment plan pursuant to a separate agreement between the Borrower and the Servicer. The agreement must allow for cancellation by either the Borrower or the Servicer at any time, at which point the monthly payment schedule would be reinstated. The Borrower cannot be charged a fee for canceling the agreement.
3. Any fee that is charged to the Borrower for this service must be allowable under applicable law and be reasonable compared to other providers' fees in the market
4. The Servicer may administer the plan or contract with a third-party vendor to administer the plan
5. The plan must provide that two biweekly payments equate to one monthly payment due under the terms of the Note and that payments collected in a given month are applied as a monthly payment on the first day of the month following the month in which the payments were received. In any month in which a third payment is received, that payment is applied as a principal curtailment in the month following the month in which the payment was received.
6. All biweekly principal and interest payments received from the Borrower must be placed in an Escrow Custodial Account that meets the requirements of Chapter 8302. If the Servicer administers the plan, then the payments must be placed into the Escrow Custodial Account no later than the first Business Day after their receipt by the Servicer. If the Servicer administers the plan through a third party, then the payments must be placed into the Escrow Custodial Account no later than the second Business Day after the date on which the third party deposits the payments into the Servicer's payment clearing account. On the payment due date, sufficient funds to equate to one monthly payment must be posted to the Mortgage record and the funds transferred into the Principal and Interest Custodial Account. The Servicer may use the Escrow Custodial Account that is established for Escrow items such as property taxes and

- property and mortgage insurance premiums so long as the biweekly payment funds can be identified and accounted for separately for each Borrower using the plan, or the Servicer may set up a separate Escrow Custodial Account that meets the requirements of Chapter 8302.
7. If the Borrower does not pay the third biweekly payment in a month when a third payment is due under the plan, the Borrower may not be charged a late charge, nor may the Borrower be reported as delinquent
 8. The Servicer must be able to identify which Mortgages have biweekly payment plans and provide this information to Freddie Mac if asked to do so

8104.3: FHA, VA, RHS and MI Servicing requirements (03/02/16)

The Servicer must comply with and use its best efforts to obtain compliance by the original Borrower and any transferee of the Borrower with all requirements of the FHA, VA, RHS or MI for Mortgages serviced for Freddie Mac. References to FHA, VA, RHS and MI requirements are made elsewhere in this Guide, and some guidance is given as to the nature of these requirements. The Servicer must ensure that all applicable FHA, VA, RHS and MI requirements are satisfied, so that Freddie Mac receives full benefit of the FHA insurance or RHS guaranty, VA guaranty or Mortgage insurance.

8104.4: Servicing ARMs (03/02/16)

Refer to Chapter 8502 for special Servicing and reporting requirements for ARMs.

8104.5: Home Mortgages purchased in part (06/12/19)

Effective June 12, 2019, Section 8104.5 is deleted.

8104.6: Incomplete improvements (03/31/22)

In addition to all other Servicing requirements of the Servicing Contract, Servicers that service any Mortgage that was permitted to be delivered to Freddie Mac prior to completion of repairs and/or improvements (e.g., pursuant to Chapter 4606 or Sections 4607.1(b), 4607.1(c) or 5601.3) must comply with the Servicing requirements related to completion of such repairs and/or improvements. This includes, but is not limited to:

- Processing, management and performance of draw inspections and/or maintenance and management of disbursements of the completion escrow account (and application of any

remaining funds)

- Retention of certain documentation in the Mortgage file, such as the costs of the repairs and/or improvements, appraisal(s) and a certification of completion
- Receipt of a completion report including photographs of the completed items and, as applicable, evidence that the Mortgage remains a valid First Lien on the Mortgaged Premises in accordance with Section 4201.2, and
- For CHOICERenovation® Mortgages delivered pursuant to Section 4607.1(b), maintaining the Renovation Funds in their respective Custodial Account for Renovation Funds (as described in Section 4607.13), managing the contingency reserve requirements described in Section 4607.12(b) and requesting removal of recourse pursuant to Section 4607.15

For specific Servicing requirements related to post-delivery completion of repairs and/or improvements, see Chapter 4607 and Sections 4606.4, 4606.5 and 5601.3, as applicable. (Note: These Servicing requirements, which may be fulfilled by the Seller in its capacity as Seller/Servicer, are considered Selling obligations.)

8104.7: Servicing eMortgages (06/12/19)

Refer to Chapter 1402, as applicable, for special Servicing requirements for eMortgages (as defined in Section 1402.2).

8104.8: Servicing Community Land Trust Mortgages (06/12/19)

Refer to Chapter 8701 for special Servicing requirements for Community Land Trust Mortgages.

8104.9: Servicing Mortgages secured by properties subject to resale restrictions (04/14/21)

Freddie Mac purchases Mortgages secured by properties subject to resale restrictions including, but not limited to, income-based restrictions. Such resale restrictions either:

- Survive conveyance of the subject property following foreclosure or recordation of a deed-in-lieu of foreclosure; or
- Terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure

Refer to Section 8701.1(f) regarding resale restrictions included in the Community Land Trust Ground Lease (as described in Chapter 4502).

Refer to Sections 9202.16 and 9202.17 regarding property values and Mortgages secured by properties subject to resale restrictions.

Refer to Sections 9208.2(c) and 9208.5 for the Freddie Mac Standard Short Sale (“short sale”) evaluation requirements for Mortgages secured by properties subject to resale restrictions.

Refer to Sections 9301.31, 9301.32 and 9301.34 for foreclosure sale bidding requirements on properties subject to resale restrictions.

(a) Income-based resale restrictions

Pursuant to Sections 4406.1(c) and 4406.2(h), for Mortgages secured by properties subject to income-based resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, if Freddie Mac recovers from the sale or transfer of the REO property an amount satisfying the total indebtedness previously secured by the Mortgaged Premises, as well as any amount incurred during the REO holding period attributable to the REO, then the subsidy provider may be entitled to obtain any “excess proceeds” (not to exceed an amount equal to the subsidy provided to the previous property owner by the subsidy provider and secured by a subordinate lien) from Freddie Mac’s sale or transfer.

Note: Servicers will not be responsible for these REO activities.

8104.10: Right of first refusal (05/04/20)

In certain circumstances, the Servicer may be required to provide notice to the required parties allowing the timely exercise of certain rights available to a holder (or its designee) and its successors or assigns (the “option holder”) of any right of first refusal (e.g., right to provide a substitute purchaser, right to have the first option to purchase a property, or the right to approve a purchaser) if the right of first refusal has been retained by the option holder.

Note that, pursuant to Section 4702.4(d) regarding acceptable exceptions to the title insurance policy or to the attorney's opinion of title covering each Mortgage purchased by Freddie Mac, exceptions for restrictive agreements or restrictive covenants of record related to a right of first refusal are acceptable, provided that certain conditions are met. This includes that such restrictive agreements or restrictive covenants do not create or provide for any lien that would be prior to the lien of the Home Mortgage nor provide for the elimination of the lien of the Home Mortgage.

Refer to Section 4406.1(e) regarding any right of first refusal for Mortgages secured by properties subject to resale restrictions.

Refer to Section 4502.10 regarding “the right of first refusal” included in the Community Land Trust Ground Lease (as described in Chapter 4502).

Refer to Section 5701.6(g) regarding any right of first refusal for Mortgages secured by Condominium Units in New Condominium Projects.

Refer to Section 5705.6(b) regarding any right of first refusal for a Cooperative Share Loan secured by a First Lien on the Cooperative Interest to a Cooperative Unit.

8104.11: Servicing Cooperative Share Loans (05/04/20)

Refer to Chapter 8801 for special Servicing requirements for Cooperative Share Loans.

Chapter 8105: Servicing Compensation

8105.1: Compensation for Servicing Mortgages (04/12/23)

The compensation Freddie Mac pays to the Servicer for the performance of its duties and obligations under the Servicing Contract for each Mortgage purchased by Freddie Mac is the amount by which the Note Rate exceeds the Accounting Net Yield, with a Minimum Servicing Spread to provide adequate compensation. Each Servicer agrees that it does not retain any rights or legal ownership interest in such compensation or any portion of the interest or other amounts due or received from the Borrower under the terms of the Mortgage. Further, under no circumstance does a Servicer retain any legal ownership of the Servicing Contract or any related Servicing Contract Rights. Freddie Mac acknowledges that a Servicer may recognize Servicing Contract Rights as assets on its balance sheet in the form of “mortgage servicing rights” in accordance with generally accepted accounting principles (GAAP); however, such recognition under GAAP does not confer any legal ownership interest in any Servicing Contract Rights.

The Minimum Servicing Spread is 0.250% (25 basis points) for all Home Mortgages unless the Purchase Documents provide otherwise. (Note: For fixed-rate Home Mortgages with Settlement Dates on and after June 3, 2019, the maximum Servicing Spread is 0.500%.)

For Mortgages with single-premium lender-paid mortgage insurance, the Minimum Contract Servicing Spread must be no less than the Minimum Servicing Spread. For Mortgages with annual- or monthly-premium lender-paid mortgage insurance, the Minimum Contract Servicing Spread must meet the requirements of Section 4701.2(b)(i).

Refer to Sections 6101.6(c), 6102.8(b), and 6201.3(a), (b) and (c) for Servicing Spread requirements.

8105.2: Servicing compensation for a new Servicer (04/12/23)

(a) Voluntary Partial Cancellation of Servicing or termination of the Servicing Contract

If Freddie Mac terminates a Servicer’s Servicing Contract and related Servicing Contract Rights, with or without cause, in whole or in part, pursuant to the terms and conditions of the Purchase Documents, Freddie Mac reserves the right, at Freddie Mac’s discretion, to negotiate a new Servicing fee with the subsequent Servicer of the Mortgages related to the VPC Transfer of Servicing.

(b) Transfers of Servicing

For any Mortgages purchased by Freddie Mac, the Servicing compensation will be calculated on the entire interest-bearing UPB of the Mortgage. If the Note Rate minus the Accounting Net Yield (ANY) is not sufficient to pay a Transferee Servicer the required Servicing compensation plus any applicable mortgage insurance premium, the Transferor Servicer agrees to pay the balance of the required Servicing compensation to the Transferee Servicer. The Transferor Servicer acknowledges that its payment of Servicing compensation to the Transferee Servicer is necessary for adequate Servicing of the Mortgage in accordance with the Guide and applicable Purchase Documents. The Transferor Servicer also agrees that the Transferee Servicer and Freddie Mac have a right of offset against principal repayments payable to the Transferor Servicer in order to pay the required Servicing compensation if not otherwise done.

8105.3: Servicing obligations to be performed for the Servicing compensation (03/02/16)

In consideration for the Servicing Spread, a Servicer is responsible for the performance of all of its Servicing obligations described in the Guide and other Purchase Documents for each of the Mortgages purchased by Freddie Mac. The Servicer's Servicing obligations compensated by the Servicing Spread include, among other things, undertaking all activities required to protect Freddie Mac's interest in the Mortgage in the event of a foreclosure of the property or a bankruptcy of the Borrower, such as:

- Preparing and delivering foreclosure and bankruptcy referrals to attorneys
- Providing all documents and information necessary for the attorneys to prosecute foreclosure or bankruptcy cases (including, but not limited to, missing documents such as Notes, title insurance policies, and Intervening Assignments)
- When necessary, paying for the preparation and recordation of missing documents, such as Intervening Assignments, necessary for the prosecution of foreclosure or bankruptcy cases
- Resolving any title issues that are the result of the Seller's or Servicer's action or inaction
- Managing attorneys, including but not limited to:
 - Collecting, receiving, processing, reviewing and paying attorneys' invoices
 - Supervising and providing necessary assistance to attorneys in the foreclosure and bankruptcy proceedings
 - Making available any monitoring, management, reporting, information and document delivery processes or systems, and paying the fees and costs for such processes or systems (refer to Section 9501.9 for information on connectivity and invoice processing systems)

- Continuing to work with the Borrower to resolve the Delinquency through loss mitigation activities
- Handling the bankruptcy management activities specified in Chapter 9401

Nothing in the Guide is intended to prohibit a foreclosure or bankruptcy attorney from assisting a Servicer by working with a Borrower to facilitate a reinstatement of the Mortgage or loss mitigation activity.

Chapter 8106: Servicing Reports to Freddie Mac, Other Third Parties and the Borrower

8106.1: General requirements for Servicing-related reports to Freddie Mac, third parties and the Borrower (03/02/16)

A Servicer must report regularly to Freddie Mac on Servicing activities for Freddie Mac-owned Mortgages. Servicers are also required to report certain information to third parties as well as the Borrower.

Each report and all correspondence to Freddie Mac for a particular Mortgage must reference the Freddie Mac Seller/Servicer number and the Freddie Mac loan number.

(a) Computer facsimiles

Freddie Mac will accept computer-generated facsimiles for:

- Form 1013, 1-4 Unit Property Inspection Report
- Form 105, Multipurpose Loan Servicing Transmittal

Any computer-generated facsimiles of these forms must:

- Reflect the most current comparable Freddie Mac form available
- Be in the same format as the comparable Freddie Mac form with no alterations to the placement of the data fields and no deletions of data fields
- Provide at least two lines of space between detail lines

(b) Additional reports

The Servicer must submit such other reports as Freddie Mac may require from time to time.

(c) Noncompliance fees

Failure to provide timely, complete and accurate reports (regardless of the mode of submission or transmission) subjects the Servicer to the Servicing reporting noncompliance compensatory fees.

Investor Accounting reporting and Servicing reporting noncompliance compensatory fees are monitored and assessed separately.

Freddie Mac reserves the right to change all fees and other remedies at any time and at its sole discretion.

8106.2: IRS Form 1098, Mortgage Interest Statement (03/02/16)

The Servicer must provide IRS Form 1098, Mortgage Interest Statement, to the IRS and the Borrower as required under Section 6050H of the Internal Revenue Code. This reporting must be done for each Mortgage owned in whole or in part by Freddie Mac. The Servicer's name, address and federal identification number must be reported for "Recipient." The Borrower's name, address and Social Security number must be reported for "Payer."

The Servicer must maintain copies of all statements and reports that Freddie Mac requires the Servicer to provide directly to the Borrowers and the IRS in compliance with the above section of the Internal Revenue Code and make such copies available for examination by Freddie Mac upon request. The Servicer is responsible for any penalty levied by the IRS for nonreporting or reporting of inaccurate information, as applicable, with respect to those statements and reports which Freddie Mac requires the Servicer to provide directly to the Borrowers and the IRS.

8106.3: IRS Form 1099-A, Acquisition or Abandonment of Secured Property (11/30/16)

The Servicer must provide Internal Revenue Service (IRS) Form 1099-A, Acquisition or Abandonment of Secured Property, to the IRS and the Borrower as required under Section 6050J of the Internal Revenue Code. This reporting must be done whenever Freddie Mac or a third party acquires an interest in a property in full or partial satisfaction of Freddie Mac's secured debt or when Freddie Mac or the Servicer knows or has reason to know that a property has been abandoned. For the purposes of filing these reports, the following definitions apply:

- Freddie Mac acquires an interest in Mortgaged Premises either:
 - On the date of the foreclosure sale or the date the Borrower's right of redemption, if any, expires, whichever occurs later, or
 - At the time a deed-in-lieu of foreclosure is recorded
- A third party acquires an interest at the time of the foreclosure sale
- Abandonment has occurred when Freddie Mac or the Servicer has reason to know from all the facts and circumstances concerning the status of the Mortgaged Premises that the Borrower intended to and has permanently discarded the property from use. If a Servicer

determines that an abandonment has occurred and expects to commence foreclosure proceedings within three months, the reporting obligation generally arises at the end of the three-month period.

The following events trigger the reporting requirement:

- Freddie Mac acquisition. (Freddie Mac acquires the Mortgaged Premises at a foreclosure sale or by deed-in-lieu of foreclosure.)
- Third-party sale. (A third-party acquires the Mortgaged Premises at a foreclosure sale.)
- HUD, RHS or VA acquisition. (The Mortgaged Premises were acquired by HUD, RHS or the VA.)
- Abandonment. (The Mortgaged Premises have been abandoned, three months have passed and foreclosure proceedings have not begun.)

A completed IRS Form 1099-A must be filed electronically with the IRS on or before March 31 of the year following the calendar year in which the reportable event occurred. The Servicer must also furnish the Borrower with an information statement on or before January 31 of that year. The requirement for furnishing such statement to the Borrower can be satisfied by sending a completed IRS Form 1099-A to the Borrower's last known address. The form must show Freddie Mac's name and address and include a statement that the information is being reported to the IRS. On the form, the "account number" should include the nine-digit Freddie Mac loan number, followed by one space and the six-digit Seller/Servicer number.

See Section 8106.4 in the event that both IRS Forms 1099-A and 1099-C, Cancellation of Debt, may be filed as the result of a cancellation of debt in connection with a foreclosure or similar action in the same year for the same Borrower.

Instructions for completing IRS Form 1099-A are set forth in Freddie Mac Form 1065, Report of IRS Form 1099-A and Form 1099-C Filing. Servicers must comply with the IRS's and the various States' requirements, as amended from time to time, for filing IRS Form 1099-A. Servicers should consult with either their tax advisors or the IRS concerning questions on such requirements.

The Servicer must file all IRS Forms 1099-A with the IRS electronically.

(a) Electronic reporting

Servicers must file their reports with the IRS no later than March 31 of the year following the calendar year in which the reportable event occurred. Even though a Servicer reports to the IRS electronically, the Servicer is still responsible for providing a copy of the IRS Form 1099-A to the Borrower (copy B) and to those States that require it (copy C). Copy B must be furnished to the Borrower on or before January 31 of the year following the reportable event.

IRS requirements for filing electronically are set forth in IRS Publication 1220, *Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498 and W2-G*. A Servicer may obtain this publication by downloading it from the IRS website at www.irs.gov or by calling the IRS at 1-800-TAX-FORM (1-800-829-3676).

When filing electronically, the Servicer must:

- Insert appropriate header information on the electronic report it files with the IRS in accordance with the following record description:

Field Name	Data Description
“A” Record	
Payer’s TIN	520904874
First payer name line	Federal Home Loan Mortgage Corporation
Payer shipping address	8200 Jones Branch Drive
Payer city, State and zip	McLean, VA 22102-3100
“B” Record	
Payer’s account number	The nine-digit Freddie Mac loan number and the six-digit Seller/Servicer number, separating these two numbers by one space

- Notify Freddie Mac that the Servicer reported to the IRS electronically:
 - When the report is sent to the IRS, the Servicer must submit Form 1065 to Freddie Mac (**see Directory 3**)
 - A Servicer should not send Freddie Mac copies of the report that it filed with the IRS

(b) Correcting or voiding previously submitted IRS Forms 1099-A

To correct or void a previously submitted IRS Form 1099-A, the Servicer must refer to IRS requirements to determine how to report either for electronic corrections, or voids. To avoid or minimize penalties that may be imposed by the IRS, the Servicer must report corrections or voids to the IRS when an error is discovered. When corrections or voids are submitted to

the IRS, a copy of Form 1065 must be submitted to Freddie Mac (see **Directory 3**). Form 1065 should indicate the number of corrected or voided IRS Forms 1099-A submitted to the IRS.

(c) Filing accuracy and documentation

Servicers are responsible for completing the IRS Form 1099-A and for providing the information to the IRS and to the Borrower in a timely and accurate manner. The Servicer must maintain copies of all statements and reports that Freddie Mac requires the Servicer to provide directly to the Borrowers and the IRS in compliance with Section 6050J of the Internal Revenue Code. The Servicer must make such copies available for examination by Freddie Mac upon request until Freddie Mac agrees, in writing, that such records may be destroyed.

If the IRS penalizes Freddie Mac or assesses any fee for failure to produce such information or because a Servicer failed to file a return or statement or filed an untimely, incorrect or incomplete return or statement, the Servicer will be required to reimburse Freddie Mac for all costs incurred by Freddie Mac as a result of such penalty or assessment and an amount representing Freddie Mac's total tax liability resulting from such reimbursement. Such reimbursement will not be required if the Servicer can show that it met the filing requirements.

8106.4: IRS Form 1099-C, Cancellation of Debt (12/13/17)

The Servicer must report cancellations of Borrowers' mortgage debt on Internal Revenue Service (IRS) Form 1099-C, Cancellation of Debt, as required under Section 6050P of the Internal Revenue Code for all cancellations of mortgage debt of \$600 or more occurring on or after January 1, 2005, with respect to Mortgages owned or guaranteed in whole or in part by Freddie Mac. IRS Form 1099-C must be filed regardless of whether the Borrower must report the cancellation of debt as income.

Freddie Mac Form 1065, Report of IRS Form 1099-A and Form 1099-C Filing, includes instructions for completing IRS Form 1099-C.

(a) Coordination with IRS Form 1099-A, Acquisition or Abandonment of Secured Property

If, in the same calendar year, the Servicer cancels a debt in connection with a foreclosure or abandonment of the Mortgaged Premises, it is not necessary to file both IRS Form 1099-A, Acquisition or Abandonment of Secured Property (see Section 8106.3), and IRS Form 1099-C for the same Borrower. The Servicer will meet the filing requirement for IRS Form 1099-A by completing boxes 4, 5 and 7 on IRS Form 1099-C. However, the Servicer may complete both IRS Forms 1099-A and 1099-C separately; in that case do not complete boxes 4, 5 and 7

on IRS Form 1099-C. (See Form 1065 for filing instructions for IRS Forms 1099-A and 1099-C.)

(b) Requesting taxpayer identification numbers (TINs)

A Servicer must make a reasonable effort to obtain the correct name and TIN of the Borrower whose debt was cancelled. If the Servicer does not obtain the TIN before the debt is cancelled, it must request the Borrower's TIN. Such request must clearly notify the Borrower that the IRS requires the Borrower to furnish the TIN and that failure to furnish such TIN subjects the Borrower to a \$50 penalty imposed by the IRS. Use IRS Form W-9, Request for Taxpayer Identification Number and Certification, to request the TIN. However, a Borrower is not required to certify the TIN under penalties of perjury.

(c) Exceptions

Servicers are not required to report the following on IRS Form 1099-C:

(i) Certain bankruptcies

Debt cancelled in bankruptcy is not reported unless the debt was incurred for business or investment purposes. Single-family Mortgages may be incurred either for personal purposes or for business or investment purposes. Thus, Servicers should only file IRS Form 1099-C for discharges of debt in bankruptcy if they are aware that the Borrower is holding the property for investment and not as a Primary Residence or second home, such as in the case of an Investment Property Mortgage, determined at origination. In that case, report debt cancelled for the later of:

- The year in which the amount of cancelled debt first can be determined or
- The year in which the debt is cancelled in bankruptcy

(ii) Interest

Servicers do not need to include interest as part of the cancelled debt in box 2. However, if interest is reported as part of the cancelled debt in box 2, show the interest separately in box 3.

(iii) Nonprincipal amounts

Nonprincipal amounts include penalties, fines, fees and administrative costs. These do not need to be reported.

(iv) Release of a Borrower

IRS Form 1099-C need not be filed if one of the Borrowers on a Mortgage is released as long as the remaining Borrowers remain liable for the full amount of the unpaid Mortgage.

(v) Guarantor or surety

IRS Form 1099-C need not be filed for a guarantor or surety. A guarantor is not a debtor for purposes of IRS Form 1099-C, even if demand for payment is made to the guarantor.

(vi) Multiple Borrowers

For Mortgages originated after 1994 that involve Borrowers who are jointly and severally liable for the Mortgage, report the entire amount of the cancelled debt on each Borrower's IRS Form 1099-C. Multiple Borrowers are jointly and severally liable for a debt if there is no clear and convincing evidence to the contrary. If it can be shown that joint and several liability does not exist, an IRS Form 1099-C is required for each Borrower for whom you cancelled a debt of \$600 or more.

(vii) Mortgages originated before 1995

For Mortgages originated before 1995, the Servicer must file IRS Form 1099-C only for the primary (or first-named) Borrower.

(viii) Multiple Borrowers who were husband and wife

If the Servicer knows or has reason to know that the multiple Borrowers were husband and wife who were living at the same address when the debt was incurred, and the Servicer has no information that these circumstances have changed, the Servicer may file only one IRS Form 1099-C.

(ix) Entity borrowers

See the instructions to Form 1065 for the application of these rules to entity borrowers (i.e., estates or trusts).

(d) Definitions

For purposes of these reports, the following definitions apply:

- A debt may include all amounts owed, including stated principal, stated interest, fees, penalties, administrative costs, and fines. However, only stated principal is required to be reported. If accrued interest is included in the amount of the stated debt (in box 2), then it must be reported in box 3
- A debt is cancelled on the date an identifiable event occurs. An identifiable event is:

1. A discharge in bankruptcy under Title 11 of the U.S. Code (but see exceptions in Section 8106.4(c) above)
2. A cancellation or extinguishment making the debt unenforceable in a receivership, foreclosure or similar proceeding
3. A cancellation or extinguishment when the statute of limitations for collecting the debt expires, or when the statutory period for filing a claim or beginning a deficiency judgment proceeding expires. Expiration of the statute of limitations is an identifiable event only when the Borrower's affirmative statute of limitations defense is upheld in a final judgment or decision of a court and the appeal period has expired.
4. A cancellation or extinguishment when deficiency rights were not preserved during the foreclosure process
5. A cancellation or extinguishment when Freddie Mac (or its vendor per Section 9601.1) makes the determination not to pursue a deficiency action post-foreclosure and notifies the Servicer of such determination
6. A cancellation or extinguishment when a creditor elects foreclosure remedies that by law end or bar the creditor's right to collect the debt. This event applies if collection is barred by local law after a "power of sale" in the Mortgage or deed of trust is exercised.
7. A cancellation or extinguishment due to a probate or similar proceeding
8. A discharge of indebtedness under an agreement with the debtor to cancel the debt at less than full consideration (e.g., a short sale). Freddie Mac will advise the Servicer if such an agreement is reached with a Borrower.
9. A discharge of indebtedness because of a decision or a defined policy of the creditor to discontinue collection activity and cancel the debt. A creditor's defined policy can be in writing or an established business practice. A practice to stop collection activity and abandon a debt when a particular nonpayment period expires is a defined policy.

Facts and circumstances indicating that a debt was not cancelled include the existence of a lien relating to the debt (up to the value of the security) or the sale or packaging for sale of the debt by the creditor.

In the event of a foreclosure sale where deficiency rights were preserved, the Servicer must not initially file an IRS Form 1099-C. Freddie Mac will determine whether to pursue collection of the deficiency of that Mortgage. If Freddie Mac makes a determination not to pursue collection of the deficiency, Freddie Mac will notify the Servicer in the report described below and the Servicer must then file the IRS Form 1099-C.

Servicers must review the *1099-C Loan Detail* report, accessible via the “Default Reporting” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools), by the end of January annually, and ensure that an IRS Form 1099-C is filed with the IRS as required in Section 8106.4(e) and is provided to the Borrower as required in Section 8106.4(f) for all Mortgages in which the debt has been discharged in the prior year. This report will list all Mortgages owned or guaranteed in whole or in part by Freddie Mac whereby Freddie Mac has determined not to pursue collection of the deficiency in the prior year.

To help facilitate this annual review, from February 1 to December 31 each year, Servicers can monitor the *1099-C Loan Detail* report in the SPP, which also provides a tentative aggregate list of Mortgages for which Freddie Mac has decided to not pursue collection of the deficiency for the current year.

Servicers may use this current year’s list to prepare for the required annual review and reconcile any eventual IRS Form 1099-C filings; however, as the status of the Mortgage and/or the cancellation of debt may subsequently change, any Servicer that chooses to use this current year’s list in such a manner must, as part of the required annual review, reconcile the final report against any IRS Form 1099-C filings already prepared.

(e) Reporting IRS Form 1099-C to IRS

The Servicer must file IRS Forms 1099-C on Freddie Mac’s behalf. The Servicer must file all IRS Forms 1099-C with the IRS electronically.

IRS Publication 1220, *Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498 and W-2G*, sets forth the IRS requirements for filing electronic reports and corrections. The Servicer can obtain this publication by downloading it from the IRS web site at <http://www.irs.gov>, or by calling 1-800-TAX-FORM (1-800-829-3676).

When filing electronically through the IRS FIRE System, the Servicer must insert appropriate header information on the report it files with the IRS in accordance with the following record descriptions:

Field Name	Data Description
"A" Record	
Payer's TIN	520904874
First payer name line	Federal Home Loan Mortgage Corporation
Payer shipping address	8200 Jones Branch Drive

Field Name	Data Description
Payer city, State and zip	McLean, VA 22102-3100
"B" Record	
Payer's account number	The 9-digit Freddie Mac loan number and the 6-digit Seller/Servicer number, separating these two numbers by one space

Each Servicer must file its reports with the IRS not later than March 31 of the year following the calendar year in which the cancellation of debt occurs.

(f) Reporting to the Borrower

Even though a Servicer reports to the IRS electronically, the Servicer is still responsible for providing a paper copy of the IRS Form 1099-C to the Borrower (copy B) by January 31 of the year following the calendar year in which the cancellation of debt occurred. The Servicer can satisfy the requirement for furnishing such statement to the Borrower by sending a completed IRS Form 1099-C to the Borrower's last known address. The form must show Freddie Mac's name and address and include a statement that the information is being reported to the IRS.

The Servicer is also required to file IRS Form 1099-C with any State that requires this filing in accordance with the State's filing deadlines.

(g) Notification to Freddie Mac of electronic reporting

The Servicer must notify Freddie Mac that the Servicer reported IRS Form 1099-C to the IRS. When the electronic report is sent to the IRS, the Servicer must submit Form 1065 to Freddie Mac (**see Directory 3**).

(h) Correcting or voiding previously submitted IRS Form 1099-C

To correct or void a previously submitted IRS Form 1099-C, the Servicer must refer to IRS requirements to determine how to report either electronic corrections or voids. To avoid or minimize penalties that may be imposed by the IRS, the Servicer must promptly report corrections or voids to the IRS when an error is discovered. When the Servicer submits corrections or voids to the IRS, the Servicer must also submit a copy of Form 1065 to Freddie Mac (**see Directory 3**). The Servicer must indicate on Form 1065 the number of corrected or voided IRS Forms 1099-C submitted to the IRS.

(i) Filing accuracy and documentation

Servicers are responsible for completing the IRS Form 1099-C and for providing the information to the IRS and to the Borrower in a timely and accurate manner. The Servicer must maintain copies of all statements and reports that Freddie Mac requires the Servicer to provide directly to the Borrowers and the IRS in compliance with Section 6050P of the Internal Revenue Code. The Servicer must make such copies available for examination by Freddie Mac upon request until Freddie Mac agrees, in writing, that such records may be destroyed (which will be a minimum of four (4) years).

If the IRS penalizes Freddie Mac or assesses any fees for failure to produce such information, or because the Servicer failed to file a return or statement, or filed an untimely, incorrect, or incomplete return or statement, the Servicer will be required to reimburse Freddie Mac for all costs incurred by Freddie Mac as a result of such penalty or assessment and for the amount representing Freddie Mac's total tax liability resulting from such reimbursement. Freddie Mac will not require such reimbursement if the Servicer can show that it met the filing requirements.

8106.5: IRS Form 1099-MISC, Miscellaneous Income (03/02/16)

Servicers should not prepare or file IRS Form 1099-MISC ("Miscellaneous Income") using Freddie Mac's name or Taxpayer Identification Number. The Servicer should consult with its tax advisor to review its reporting obligations with regard to the filing of Form 1099-MISC.

8106.6: Reports to credit repositories (03/02/16)

For each Mortgage serviced for Freddie Mac under the Home Mortgage program, a Servicer must report on a monthly basis the payment status of the Mortgage to the credit repositories listed in Exhibit 51, Credit Repositories and Information to Report.

Freddie Mac does not specify a particular day of the month by which the Servicer must perform the full-file reporting. Freddie Mac requires only that the reporting be performed on a monthly basis for all Mortgages regardless of the Mortgage status. The Servicer may report after each month end to allow time for payment corrections, returned checks and other adjustments to be processed. Freddie Mac will audit Servicers for compliance with the full-file credit reporting requirements.

Note:

Full-file reporting includes Mortgages recently originated, current and delinquent Mortgages, Mortgages liquidated through workout options or foreclosure and charge-offs. Each credit repository will provide the Servicer with the applicable codes to use to report each Mortgage status type.

Freddie Mac will not require reporting to a repository that does not serve the jurisdiction for which a report must be filed. Written advice from a repository that it cannot accept a Servicer's report for a given jurisdiction because it does not serve that jurisdiction will be sufficient evidence to Freddie Mac that the Servicer is in compliance with Freddie Mac's requirements for that jurisdiction.

Borrowers, or their representatives, are permitted under the Federal Fair Credit Reporting Act (FCRA) to inquire about or dispute the accuracy of information in their credit repository files. This right to inquire about or dispute the accuracy of information applies to any Mortgage that the Servicer services for Freddie Mac, just as it does to any other indebtedness of a Borrower. A Borrower may send an inquiry or a notice of dispute concerning the accuracy of reported information about the Borrower's Mortgage directly to the Servicer, or to any of the credit repositories listed in Exhibit 51. Whenever the Servicer receives such an inquiry or notice of dispute from a Borrower, or receives a letter from a credit repository requesting verification or correction of Mortgage-related information, the Servicer must respond in accordance with the requirements of the FCRA.

Chapter 8107: Document Custody

8107.1: Servicer responsibilities related to document custody (10/20/21)

(a) Delivery of trailing documents to the Document Custodian

Upon receiving a Mortgage document that is required to be held by a Document Custodian, such as a modifying instrument or an original document from a recording office, the Servicer must promptly deliver it to the Document Custodian holding the related Note.

(b) Requests for Release of documents

Servicers may require possession of a Note to take action in conjunction with the payoff, foreclosure, repurchase, substitution, conversion, modification or assumption of a Mortgage or to take legal action, such as responding to a Borrower's bankruptcy, bringing or defending a lawsuit or other litigation relating to the maturity, prepayment, repurchase, substitution, conversion, modification, or assumption of a Mortgage, or a Freddie Mac Default Legal Matter (each such bankruptcy, suit, or litigation, a "Legal Action").

Servicers often require physical possession of a Note for Legal Actions. Even if the Servicer needs only one document from the Note file, the Document Custodian will release the entire file because it is important to keep all the documents comprising the Note file together. In certain circumstances, constructive possession, which can be obtained quickly, is legally sufficient to establish the Servicer as a "holder" of, or person entitled to enforce, the Note in a Legal Action. "Constructive possession" describes the situation in which someone controls an object without physically possessing it: in this context, a Servicer can control and direct a Note that is in the Document Custodian's vault. If constructive possession is appropriate for a Legal Action, the Servicer will automatically, immediately, and conclusively be deemed to have constructive possession of the Note from the earlier of the date that (i) the Legal Action commences or (ii) the Document Custodian receives the Servicer's request to release constructive possession of the Note until the Legal Action is concluded.

For physical possession, the Document Custodian will deliver the Note as directed by the Servicer. For constructive possession, the Document Custodian will promptly contact the Servicer by e-mail or otherwise when Document Custodian's tracking system has been updated to indicate the Servicer (rather than Freddie Mac) as the "owner" or "investor" of the related Mortgage. Upon Document Custodian's release of the Note, the Servicer shall automatically, immediately and conclusively be deemed to be (i) the holder of the Note, (ii) entitled to enforce the Note, and (iii) duly authorized by Freddie Mac to take Legal Action in connection with Servicing the related Mortgage and (iv) as appropriate, in physical possession of the Note.

Servicers request and return physical and constructive possession of Notes from Document Custodians (including eMortgages as defined in Section 1402.2) using Form 1036, Request for Possession or Control of Documents, or its equivalent (“Form 1036,” regardless of its format). A single form may be used to request multiple Notes if each Note is separately listed and identified.

An Electronic, as defined in Section 1401.2, or alternative version of Form 1036 must contain all information required by the Form 1036, regardless of format. Any request for release that is not delivered as hard copy is considered to be an Electronic Form 1036 (including a PDF of a paper document attached to an email). To use an Electronic Form 1036, the Servicer must enter into an agreement with the Document Custodian as described in Section 8107.2(b).

The procedures for requesting, processing and returning Notes are described below:

(i) To obtain physical or constructive possession of a Note, a Seller/Servicer must complete Form 1036 and deliver it to the Document Custodian.

To obtain physical or constructive possession of a Note from a Document Custodian other than The Bank of New York Mellon Trust Company, N.A. (“BNYM”) as Designated Custodian, a Seller/Servicer must complete Form 1036 and deliver it to the Document Custodian.

When the Servicer no longer requires possession of the Note, it must promptly:

- For physical possession, return the Note to the Document Custodian unless the Mortgage was repurchased or paid in full, or
- For constructive possession, send notice (a copy of the original Form 1036 with a request for termination of constructive possession) to the Document Custodian, which will then update its document tracking system

(ii) The Bank of New York Mellon Trust Company, N.A. (BNYM) as Designated Custodian

To obtain physical or constructive possession of a Note from BNYM, a Servicer may complete and send the Form 1036 as described above or make an electronic request using the Asset Repository and Collateral System (“ARK”). Contact BNYM for further information on ARK (see **Directory 4**).

When the Servicer no longer requires possession of the Note, it must promptly:

- For physical possession, return the Note to BNYM unless the related Mortgage was repurchased or paid in full as described above; however, Servicers using ARK to request a Note must use that method to return it and include a copy of the ARK-generated 1036 Release Receipt Report, or

- For constructive possession, notify BNYM by sending a copy of the original Form 1036 with a notice of termination of constructive possession or otherwise as instructed by BNYM which will then update its document tracking system.

(iii) eMortgage designated custodian

In States in which the Servicer must be the holder of an eNote (as defined in Section 1402.2) to commence foreclosure or other Freddie Mac Default Legal Matters, the Servicer must follow the requirements of Section 1402.11(f) and, if required to produce a copy of the eNote for a Legal Matter, Section 1402.11(g).

Servicers must follow prudent business practices to protect and safeguard all Notes and documents while in their possession, in transit and in the possession of foreclosure counsel or agents. At a minimum, these practices include protection from damaging elements, such as water and fire, identification as a Freddie Mac asset, secure storage and tracking and segregation from unrelated documents.

(c) Returning documents to the Document Custodian

When a Note is no longer needed for the reason cited on Form 1036, or when the Legal Action is concluded, the Servicer must promptly, and in all events within 90 days, return the Note to the Document Custodian. Notes and related documents may be transported only by nationally recognized commercial or bonded carrier or courier services and must be covered by in transit insurance. See Section 2202.5.

(d) Lost Notes

- (i)** If a Servicer becomes aware at any time that an original Note is lost, missing or has been inadvertently destroyed, the Servicer must promptly conduct a thorough and diligent search of its premises and business records and make diligent inquiry of any party that has had physical responsibility for the Note, such as a Document Custodian or foreclosure counsel. Servicer is responsible to Freddie Mac for the original Note even if it did not have physical possession of the Note at the time of loss. If Servicer cannot locate the Note after conducting the search, it must:

- Retain written records describing the search in the Mortgage file, and
- Immediately send an email to Freddie Mac (**Directory 9**) requesting Freddie Mac's permission to create a lost note affidavit (LNA) that meets the requirements of this Section 8107.1. In response to which Freddie Mac will issue:
 - An email indicating Servicer's authority to create an LNA subject to the terms and conditions set forth in this section
 - A written communication with a request for additional action

- Additional instructions for an alternate remedy, or
- A repurchase request, if the request is not granted

Upon Freddie Mac's approval of the request, the Servicer will create an LNA as described in subsection (ii) below and maintain the LNA as if it were the original Note, provided that a copy of Freddie Mac's approval of Servicer's creation of the LNA must be maintained with the LNA in the Note file. If a Document Custodian released an original Note, it is not permitted to accept return of an LNA without evidence of Freddie Mac's authorization to create the LNA.

Servicer must adhere to these procedures, whether it believes that it or another party was responsible for losing or destroying the Note, and must maintain written policies to implement these procedures.

(ii) LNA Requirements

Each LNA that Servicer creates must:

- Identify information regarding the related Mortgage, including the:
 - name(s) of the Borrower
 - the original principal balance
 - Note Date
 - recording information for the Security Instrument
 - address of the Mortgaged Premises (the zip code is not required)
 - Freddie Mac loan number; and
 - Servicer loan number
- Confirm that the person signing the LNA on behalf of the Servicer ("affiant") is over the age of 18, competent to testify, and either has independent knowledge of the facts set forth in the LNA or has made appropriate inquiry of persons having knowledge of such facts
- Identify Freddie Mac as owner of the Mortgage
- Set forth the name and function of the Servicer

- State the basis for affiant's assertion that the Note is lost or destroyed, including whether affiant is familiar with and has access to Servicer's business records as part of affiant's regular job functions
- Verify that Servicer received the original Note
- State that Servicer conducted a good faith, thorough and diligent search of Servicer's premises and business records and has been unable to locate the original Note
- State that, at the time that the Note was lost or destroyed, Servicer was entitled to enforce the Note
- State that Freddie Mac and its successors-in-interest and assignees may rely on the LNA
- Have attached to it a complete copy of the Note showing all endorsements through certification for purchase by Freddie Mac, if any
- Contain the notarized signature of an employee of Servicer who is identified on the LNA by printed or typed title; and
- Satisfy the requirements of applicable law to enforce the debt obligation in the State in which the Mortgage Premises is located

For each such State, Servicer must receive, and make available upon request for Freddie Mac's inspection, a legal analysis from either Servicer's in-house counsel or outside counsel that the form of LNA used is as valid and enforceable as the Note would be if it were present.

Certain States may require additional representations and information: for example, New York requires information regarding the original receipt of the Note and the methodology of Servicer's good faith efforts to determine that the Note was lost.

(iii) Servicer representations and warranties regarding enforceability of the Note; indemnification

Servicer acknowledges that creating an LNA does not relieve Servicer of any representation or warranty relating to enforceability of the Note and agrees to indemnify Freddie Mac under Section 8101.9 for any loss, damage, or expenses that arise because the original Note is unavailable.

Servicer must provide written testimony, witnesses, or other support to prove the LNA and enforce the debt obligation in a Legal Action, as defined in Section 8107.2, when requested by Freddie Mac, even when Servicer no longer services the related Mortgage and those activities support a Transferee Servicer's efforts to enforce the debt obligation or otherwise service that Mortgage. If the Servicer has transferred servicing of a

Mortgage with an LNA, Servicer must provide such support at the request of any subsequent Transferee Servicer or Freddie Mac.

(iv) Records and Reporting of LNAs

Servicer must maintain a list of all Mortgages with LNAs created pursuant to this section 8107.1 and provide the list to Freddie Mac upon request.

(v) “Found” Notes

If a Note is located after an LNA has been created, Servicer shall immediately notify Freddie Mac by sending an email to loan_delivery_funding_ops@freddiemac.com and deliver the Note as directed below.

If Freddie Mac owns the Mortgage, Freddie Mac may direct Servicer and Document Custodian to perform certain verifications, deliver the Note to the Document Custodian, and execute certain documents as further described in the Document Custody Procedures Handbook. After the Document Custodian accepts the Note, Freddie Mac will destroy, or direct the destruction of, the LNA, and the Servicer’s indemnification obligations shall terminate without further action by any party.

If Freddie Mac no longer owns the Mortgage when the Note is found, the Servicer must contact the new owner for instruction.

8107.2: Document Custodian’s custodial functions (11/01/20)

(a) General duties

Each Document Custodian must maintain custody of the Notes and assignments (collectively, as appropriate, “Notes,” see the definition in the Glossary), in trust, for the benefit of Freddie Mac by:

- Storing the Notes in secure, fire-resistant facilities as required by Section 2202.2(b). When a Servicer delivers supplemental or trailing documents, such as original modifying instruments, the Document Custodian must place them with the related Note
- Affixing the Freddie Mac loan number to the Note, if advised that Freddie Mac requires it and, if the Note contains the Freddie Mac loan number, changing the Freddie Mac loan number on a Note if advised by the Servicer that Freddie Mac has changed the Freddie Mac loan number for that Mortgage
- Complying with the requirements of this Section 8107.2 and all Tri-Party Agreements

(b) Requests for Release of Notes and assignments to Servicers

Servicers may require physical or constructive possession of Notes in conjunction with a Legal Action or for the payoff, foreclosure, repurchase, substitution, conversion, modification, or assumption of a Mortgage. Servicers must complete, sign, and submit a Form 1036, Request for Possession or Control of Documents, or its equivalent, such as the Web Release Request described in Section 8107.1(b), (“Form 1036” regardless of its format) to the Document Custodian. Absent manifest error, Document Custodians may rely on information received from Servicers on Form 1036.

Alternative versions of Form 1036 must contain all information required by the Form 1036, regardless of their format. A single form may be used to request multiple Notes if each Note is separately listed and identified.

A Form 1036 is considered to be Electronic, using the definition in Section 1402.2, if it is transmitted in any format other than paper, including PDFs of paper documents delivered as attachments to email. Before using an Electronic Form 1036, Freddie Mac requires that the Servicer and Document Custodian have in place a written agreement that:

- Defines Electronic Signature and the type(s) of electronic transmission(s) permitted
- States the Document Custodian’s requirements for accepting an Electronic Signature
- States the Servicer’s requirements for maintaining and controlling access to Electronic Signature information
- Clearly assigns liability when the terms of the agreement are violated

Document Custodian must retain for each Servicer a list of individuals authorized to request the release of documents electronically. The list must be dated and signed by an officer of the Servicer and contain sample signatures of the authorized individuals.

The Document Custodian should review and retain documentation of such review for each Note file to verify its completeness and that the Note is original before releasing it to the Servicer. This enables the Document Custodian to verify that the Servicer returns all the documents, including the original documents, that were released to it.

(c) Document delivery requirements

(i) Delivery and return of physical possession

Servicers may require physical possession of Notes to service Mortgages for a Legal Action or otherwise. Servicers must complete and sign Form 1036 and submit it to the Document Custodian. See Section 8107.1(b). Upon receipt of Servicer’s signed Form 1036, the Document Custodian shall transfer and deliver physical possession of the Note as directed by the Servicer. Notes may be transported only by a nationally recognized

commercial or bonded carrier or courier service and must be covered by in transit insurance. See Sections 2202.2 and 2202.5.

When a Note is no longer needed for the reason cited on Form 1036 or when the Legal Action is concluded, the Servicer must promptly (and in any event within 90 days) return the Note to the Document Custodian. Upon receiving the Note, the Document Custodian shall immediately resume its physical custody, in trust, for the benefit of Freddie Mac, as set forth in the Tri-Party Agreement, verify that all documents that were released have been returned and update its tracking system to reflect their receipt. See Section 8107.2(e) for instances in which the Document Custodian released an original Note and the Servicer returns an LNA in lieu of the original Note.

(ii) Delivery and return of constructive possession

The Servicer must complete, sign, and submit Form 1036 to request constructive possession from the Document Custodian. The constructive possession will commence on the earlier of the date on which the Document Custodian receives the Servicer's request for constructive possession and the Servicer commences the Legal Action.

The Document Custodian maintains physical custody of the Note for the benefit of the Servicer while the Servicer has constructive possession. For the duration of the Legal Action, the Servicer shall be:

- In constructive possession of the Note
- The holder of the Note
- Entitled to enforce the Note, and
- Authorized by Freddie Mac to take Legal Action to service the related Mortgage

Upon notice from the Servicer that the Legal Action is concluded, the Document Custodian shall automatically and immediately update its document tracking system and cease maintaining physical custody of the Note, in trust, for the benefit of the Servicer and resume maintaining physical custody of the Note, in trust, for the benefit of Freddie Mac.

(d) Form imaging and retention requirements

The Document Custodian must retain Form 1036 for three months after the date the Mortgage is paid off, but they need not retain Form 1034E, Note Delivery Cover Sheet Certification Schedules, after the related Mortgages have been certified. Documents and forms may be retained as Electronic Records on the terms and conditions for maintaining such Records set forth in Chapter 1401.

In disposing of documents, the Document Custodian must have in place and follow procedures and use destruction methods that ensure the confidentiality of Borrowers' private personal information.

(e) Lost Notes and LNAs

The Document Custodian may receive, either as a return of released documents or in a Transfer of Servicing or transfer of custody, an LNA rather than the original Note. The Document Custodian may accept an LNA only if the Servicer delivers evidence of Freddie Mac's approval of the use of an LNA for that Mortgage. Acceptable evidence of such approval includes a copy of a single loan exception or the text of an email from Freddie Mac, and must include specific reference to the related Mortgage, which may appear on a list. If the Servicer does not include such evidence, the Document Custodian must contact Freddie Mac immediately at loan_delivery_funding_ops@freddiemac.com and await further instruction.

The Document Custodian must verify that each LNA:

- Is an original, signed in ink by an officer of the Seller/Servicer that created the LNA, and notarized
- Must include the name of each Borrower on the Note, the original principal amount of the Note, the Note Date, and recordation information for the related Security Instrument
- Has attached to it a complete copy of the entire missing Note, including all required signatures and endorsements to the Servicer that created the LNA

If the LNA meets these requirements, the Document Custodian must verify the loan data from the Note copy attached to the LNA, and maintain the LNA on the same basis as it would if the LNA were an original Note. This includes observing all requirements relating to requests for release.

If at any time an original Note is recovered as described in Section 8107.1(d)(v), the Servicer will deliver it to the Document Custodian, and the Document Custodian will follow the process set forth in the Document Custody Procedures Handbook for "found Notes." Document Custodians may contact Freddie Mac (**see Directory 9**) for instructions and further information on verifying and managing LNAs.

Chapter 8201: Escrow

8201.1: Escrow for property taxes, ground rents and assessments or other charges (01/01/22)

The Servicer must obtain bills for and pay all Escrow items in accordance with the terms of the Mortgage before the applicable penalty or termination date. The Servicer must maintain adequate records to prove payment of all property taxes, ground rents and assessments or other charges that, if delinquent, are or may become First Liens on the property or that if not paid would result in the subordination of Freddie Mac's interests, as applicable. (See Section 9301.27 regarding expenses that may become First Liens on the property.)

If the Borrower requests, the Servicer may also collect and administer funds to pay expenses not provided for in the Mortgage, such as life insurance on the Borrower.

If the Servicer does not collect Escrow or discontinues collecting Escrow, then:

- The Servicer must require that the Borrower furnish proof of payment; and/or
- The Servicer may use other means (such as tax services) commonly employed by private institutional mortgage investors to satisfy itself that these items have been paid

(a) Annual Escrow analysis

At least annually, the Servicer must compute the required Escrow payment based on reasonable estimates of assessments and bills to determine that sufficient funds are being collected to meet all Escrow payments.

(i) Escrow surplus

If the amount held in Escrow by the Servicer, together with the future monthly installments of Escrow, exceeds the amount required to pay charges as they fall due, plus any "cushion" permitted by applicable law, the Servicer must either:

- Repay the excess promptly to the Borrower (if there is no default under the terms of the Security Instrument) or
- Credit the excess to the Borrower by a reduction in monthly Escrow installments.

Any interest payable to the Borrower for Escrow, when required by applicable law, or any other funds held by the Servicer, whether due to contractual agreement or operation of law, must be paid by the Servicer at its own expense.

(ii) Escrow shortages

If the Borrower is unable to pay an Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly payment (“Projected Monthly Escrow Shortage Payments”) on the Mortgage. If the Borrower must pay Projected Monthly Escrow Shortage Payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of not more than 60 months; and
- Account for any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

(b) Waiver of Escrow accounts

The Servicer must have a written policy governing the circumstances under which Escrow accounts may be waived. When a Servicer permits Escrow waivers, subject to the Mortgage Purchase Documents and applicable law, the Servicer’s written policies must provide that the waiver not be based solely on the LTV ratio of the Mortgage, but also on whether the Borrower has the financial ability to handle the lump sum payments of property taxes, property insurance premiums and other charges described in the Security Instrument.

The Servicer may, by written notification to the Borrower, and without Freddie Mac’s approval, start collecting Escrow previously waived.

Any Escrow account waiver must be in writing and grant the Servicer the right to resume collection of Escrow if there is any nonpayment of the items for which Escrow had previously been collected.

(i) Circumstances in which Escrow may be discontinued

Servicers must discontinue collecting Escrow when required by applicable law.

Other than as stated in Section 8201.1(b)(ii) below, if an Escrow waiver is requested by the Borrower, is not prohibited by applicable law and the Mortgage is current, Servicers may also discontinue collecting Escrow if:

- The unpaid principal balance for the Mortgage is less than 80% of the original appraised value; or
- The Mortgage has not been delinquent for 30 days or more at any time during the previous six months

Additionally, there is no minimum period having elapsed since the Origination Date of a Mortgage when evaluating an Escrow waiver request.

(ii) Circumstances in which Escrow may not be discontinued

Servicers may not discontinue or waive collecting Escrow on the following Mortgages if they had an Escrow account when sold to Freddie Mac:

- A Mortgage secured by a Manufactured Home or a 2- to 4-unit property
- An Affordable Gold® 97 Mortgage
- A Texas Equity Section 50(a)(6) Mortgage
- A Freddie Mac 100 Mortgage
- A Home Possible® Mortgage
- A HomeOne® Mortgage

Additionally, except Mortgages modified under the terms in Section 9206.5(e), a Servicer may not discontinue or waive collecting Escrow on Mortgages that have been modified under a Freddie Mac mortgage modification program.

Servicers must follow FHA, VA, RHS or MI Escrow waiver and reinstatement requirements.

(c) Non-payment of Escrow charges

(i) Mortgage with an Escrow account

If the funds held in Escrow are insufficient to pay charges when due, the Servicer should obtain the necessary additional funds from the Borrower before the latest date on which the charges may be paid prior to penalty, lapse of insurance policies, adverse impact to Freddie Mac's interest in the Mortgage, etc. If the Servicer is unable to obtain the funds from the Borrower, the Servicer must pay any charges due. The Servicer may either increase the Borrower's next payment to cover the entire advance or schedule the repayment of such advance over several months. The Servicer may not collect the advance by deducting from one or more regular monthly Mortgage payments.

For delinquent Mortgages, the Servicer must continue to pay Escrow items for the following expenses:

- Property taxes, property insurance premiums and other charges as described in the Security Instrument

- Mortgage insurance premiums, if applicable

Servicers must contact Freddie Mac (**see Directory 5**) and obtain Freddie Mac's written approval before paying the taxing authority when federal, State or local income tax liens would take priority over Freddie Mac's First Lien position.

However, if the Mortgage is secured by a Manufactured Home and the Borrower becomes 60 days or more delinquent, a Servicer must start collecting Escrow that was previously waived as a part of any repayment arrangement.

(ii) Mortgage without an Escrow account

If Escrow is not collected and the Servicer discovers nonpayment of any charge otherwise payable from Escrow, the Servicer must contact the Borrower and allow the Borrower 30 days to provide proof of payment. The Servicer must advance funds for the unpaid charge and any applicable penalty if the Borrower indicates inability to make the payment or does not provide proof of payment within the required 30 days. The Servicer must attempt to work out an arrangement with the Borrower for repayment of any advance and, if allowed by applicable law, must begin to collect Escrow for future bills.

If both:

- The Borrower fails to pay any charge otherwise payable from Escrow; and
- The Servicer has advanced funds for the unpaid charge and any applicable penalty

And either:

- A mutually satisfactory arrangement cannot be made for the Borrower's repayment of the advance or the Borrower fails to comply with the terms of any such arrangement; or
- The Borrower fails to pay Escrow to the Servicer after the Servicer starts collecting Escrow that was previously waived

Then the Servicer must comply with the collection, loss mitigation and, if necessary, foreclosure referral requirements set forth in Chapters 9101 or 9102, as applicable.

(d) Escrow waiver exception requests

If the Servicer believes that the Borrower should not need an Escrow account, even though the Borrower did not meet the requirements under Section 8201.1(c), then the Servicer must submit an exception request to Freddie Mac (**see Directory 5**) for review.

8201.1: Escrow for property taxes, ground rents and assessments or other charges (Future effective date 10/02/23)

The Servicer must obtain bills for and pay all Escrow items in accordance with the terms of the Mortgage before the applicable penalty or termination date. The Servicer must maintain adequate records to prove payment of all property taxes, ground rents and assessments or other charges that, if delinquent, are or may become First Liens on the property or that if not paid would result in the subordination of Freddie Mac's interests, as applicable. (See Section 9301.27 regarding expenses that may become First Liens on the property.)

If the Borrower requests, the Servicer may also collect and administer funds to pay expenses not provided for in the Mortgage, such as life insurance on the Borrower.

If the Servicer does not collect Escrow or discontinues collecting Escrow, then:

- The Servicer must require that the Borrower furnish proof of payment; and/or
- The Servicer may use other means (such as tax services) commonly employed by private institutional mortgage investors to satisfy itself that these items have been paid

(a) Annual Escrow analysis

At least annually, the Servicer must compute the required Escrow payment based on reasonable estimates of assessments and bills to determine that sufficient funds are being collected to meet all Escrow payments.

(i) Escrow surplus

If the amount held in Escrow by the Servicer, together with the future monthly installments of Escrow, exceeds the amount required to pay charges as they fall due, plus any "cushion" permitted by applicable law, the Servicer must either:

- Repay the excess promptly to the Borrower (if there is no default under the terms of the Security Instrument) or
- Credit the excess to the Borrower by a reduction in monthly Escrow installments.

Any interest payable to the Borrower for Escrow, when required by applicable law, or any other funds held by the Servicer, whether due to contractual agreement or operation of law, must be paid by the Servicer at its own expense.

(ii) Escrow shortages

If the Borrower is unable to pay an Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly payment (“Projected Monthly Escrow Shortage Payments”) on the Mortgage. If the Borrower must pay Projected Monthly Escrow Shortage Payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of not more than 60 months; and
- Account for any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

(b) Waiver of Escrow accounts

The Servicer must have a written policy governing the circumstances under which Escrow accounts may be waived. When a Servicer permits Escrow waivers, subject to the Mortgage Purchase Documents and applicable law, the Servicer’s written policies must provide that the waiver not be based solely on the LTV ratio of the Mortgage, but also on whether the Borrower has the financial ability to handle the lump sum payments of property taxes, property insurance premiums and other charges described in the Security Instrument.

The Servicer may, by written notification to the Borrower, and without Freddie Mac’s approval, start collecting Escrow previously waived.

Any Escrow account waiver must be in writing and grant the Servicer the right to resume collection of Escrow if there is any nonpayment of the items for which Escrow had previously been collected.

(i) Circumstances in which Escrow may be discontinued

Servicers must discontinue collecting Escrow when required by applicable law.

Other than as stated in Section 8201.1(b)(ii) below, if an Escrow waiver is requested by the Borrower, is not prohibited by applicable law and the Mortgage is current, Servicers may also discontinue collecting Escrow if:

- The unpaid principal balance for the Mortgage is less than 80% of the original appraised value; or
- The Mortgage has not been delinquent for 30 days or more at any time during the previous six months

Additionally, there is no minimum period having elapsed since the Origination Date of a Mortgage when evaluating an Escrow waiver request.

(ii) Circumstances in which Escrow may not be discontinued

Servicers may not discontinue or waive collecting Escrow on the following Mortgages if they had an Escrow account when sold to Freddie Mac:

- A Mortgage secured by a Manufactured Home or a 2- to 4-unit property
- An Affordable Gold® 97 Mortgage
- A Texas Equity Section 50(a)(6) Mortgage
- A Freddie Mac 100 Mortgage
- A Home Possible® Mortgage
- A HomeOne® Mortgage
- A HeritageOneSM Mortgage

Additionally, except Mortgages modified under the terms in Section 9206.5(e), a Servicer may not discontinue or waive collecting Escrow on Mortgages that have been modified under a Freddie Mac mortgage modification program.

Servicers must follow FHA, VA, RHS or MI Escrow waiver and reinstatement requirements.

(c) Non-payment of Escrow charges

(i) Mortgage with an Escrow account

If the funds held in Escrow are insufficient to pay charges when due, the Servicer should obtain the necessary additional funds from the Borrower before the latest date on which the charges may be paid prior to penalty, lapse of insurance policies, adverse impact to Freddie Mac's interest in the Mortgage, etc. If the Servicer is unable to obtain the funds from the Borrower, the Servicer must pay any charges due. The Servicer may either increase the Borrower's next payment to cover the entire advance or schedule the repayment of such advance over several months. The Servicer may not collect the advance by deducting from one or more regular monthly Mortgage payments.

For delinquent Mortgages, the Servicer must continue to pay Escrow items for the following expenses:

- Property taxes, property insurance premiums and other charges as described in the Security Instrument
- Mortgage insurance premiums, if applicable

Servicers must contact Freddie Mac (**see Directory 5**) and obtain Freddie Mac's written approval before paying the taxing authority when federal, State or local income tax liens would take priority over Freddie Mac's First Lien position.

However, if the Mortgage is secured by a Manufactured Home and the Borrower becomes 60 days or more delinquent, a Servicer must start collecting Escrow that was previously waived as a part of any repayment arrangement.

(ii) Mortgage without an Escrow account

If Escrow is not collected and the Servicer discovers nonpayment of any charge otherwise payable from Escrow, the Servicer must contact the Borrower and allow the Borrower 30 days to provide proof of payment. The Servicer must advance funds for the unpaid charge and any applicable penalty if the Borrower indicates inability to make the payment or does not provide proof of payment within the required 30 days. The Servicer must attempt to work out an arrangement with the Borrower for repayment of any advance and, if allowed by applicable law, must begin to collect Escrow for future bills.

If both:

- The Borrower fails to pay any charge otherwise payable from Escrow; and
- The Servicer has advanced funds for the unpaid charge and any applicable penalty

And either:

- A mutually satisfactory arrangement cannot be made for the Borrower's repayment of the advance or the Borrower fails to comply with the terms of any such arrangement; or
- The Borrower fails to pay Escrow to the Servicer after the Servicer starts collecting Escrow that was previously waived

Then the Servicer must comply with the collection, loss mitigation and, if necessary, foreclosure referral requirements set forth in Chapters 9101 or 9102, as applicable.

(d) Escrow waiver exception requests

If the Servicer believes that the Borrower should not need an Escrow account, even though the Borrower did not meet the requirements under Section 8201.1(c), then the Servicer must submit an exception request to Freddie Mac (**see Directory 5**) for review.

8201.2: Interest on Escrow accounts (03/02/16)

If the Servicer either has entered into an agreement or is required by law to pay interest on Escrow, the Servicer is solely and fully responsible for this payment. The accounting related to the payment of interest on Escrow may not be included with the regular Mortgage accounting for principal and interest.

Chapter 8202: Property Insurance

8202.1: General property insurance requirements (06/10/20)

For as long as Freddie Mac owns a Mortgage, the Servicer must ensure that the Mortgaged Premises are covered by insurance meeting the requirements of Chapters 8202 and 4703.

Servicers must ensure that each insurer or reinsurer that provides property or flood insurance coverage for each Mortgaged Premises securing a Mortgage owned by Freddie Mac meets the minimum licensing, assessment, and rating requirements outlined in Section 4703.1.

Insurance policies must include coverage for fire, windstorm, hurricane, hail, flood and localized perils, when applicable, and provide claims to be settled based on replacement cost.

Refer to Section 4703.2 for requirements for minimum property insurance types and amounts and Section 4703.3 for flood insurance requirements.

Servicers must:

- Ensure that the carrier, policy amount and coverage meet the minimum Freddie Mac requirements described in Chapter 4703
- Ensure property and flood, when applicable, insurance premiums are paid
- Obtain Lender-Placed Insurance if a Borrower is unable to pay their property or flood, when applicable, insurance premiums or is unable to maintain appropriate insurance coverage in accordance with the terms of the Security Instrument, the Guide and applicable law. See Section 8202.12 for Lender-Placed Insurance requirements.

8202.2: Minimum property insurance types and amounts (06/10/20)

For each Freddie Mac owned Mortgage it services, the Servicer must have policies and controls in place to ensure that the Mortgaged Premises is insured, and the coverage meets the minimum property insurance requirements outlined in Section 4703.2.

If at any time during the term of the Mortgage the Mortgaged Premises are not covered by the minimum property insurance requirements outlined in Section 4703.2, the Servicer must follow the Lender-Placed Insurance process under Section 8202.12.

8202.3: Flood insurance (06/10/20)

For each Freddie Mac owned Mortgage it services, the Servicer must have policies and controls in place to ensure that the Mortgaged Premises, when required, has and maintains flood insurance coverage that meets the minimum requirements outlined in Section 4703.3.

The Servicer must have policies, procedures and controls in place to ensure the property is adequately protected by flood insurance when required, with no lapses in coverage, and the flood insurance premiums are paid. If at any time during the term of the mortgage the Mortgaged Premises are not covered by flood insurance in the amount and with the deductible required, the Servicer must follow the Lender-Placed Insurance process under Section 8202.12.

The Servicer must have policies, procedures and controls in place to identify any map change that becomes effective on or after April 1, 1995 and determine which insurable improvements on Mortgaged Premises in the community affected by the map change become located in an SFHA and are required to have flood insurance. Flood insurance required under these provisions must be obtained within 120 days of the effective date of the map change.

If the area where the Mortgaged Premises is located is an SFHA but the community has become a nonparticipating community and flood insurance provided by the NFIP will not be renewed for that community, the Servicer must require the Borrower to obtain private flood insurance.

If the additional coverage cannot be obtained, the Servicer must immediately make appropriate recommendations to Freddie Mac (**see Directory 5**).

8202.4: Rent loss insurance (04/11/18)

Effective April 11, 2018, this section is deleted.

8202.5: Liability insurance for Condominium Projects and Cooperative Projects (06/10/20)

Servicers must have policies and controls in place to ensure that the liability insurance coverage for Condominium Projects and Cooperative Projects meets the minimum requirements outlined in Section 4703.4.

8202.6: Fidelity or employee dishonesty insurance for Condominium Projects and Cooperative Projects (06/10/20)

Servicers must have policies and controls in place to ensure that the fidelity or employee dishonesty insurance coverage for Condominium Projects and Cooperative Projects meets the minimum requirements outlined in Section 4703.5.

8202.7: Mortgage clause (06/10/20)

Servicers must ensure all insurance policies documenting insurance coverage(s) obtained in accordance with Freddie Mac's requirements for 1- to 4-unit properties include the insurance industry's standard Mortgage clause and meet the requirements outlined in Section 4703.6.

8202.8: Evidence of insurance (06/10/20)

For each property securing a Mortgage owned by Freddie Mac, the Servicer must maintain evidence of all required insurance coverages in one of the following forms:

- An original policy (including the Planned Unit Development (PUD) or condominium homeowners association, Cooperative Corporation or fee simple landowner/lessor's policy under which the required coverages may be provided in whole or in part) and applicable endorsements
- A copy of the original policy and applicable endorsements if the copy meets the requirements of Chapter 3302
- A certificate, evidence or declarations of insurance showing at least the following information:
 1. Name insured and mortgagee (where applicable, PUD or condominium homeowners association, Cooperative Corporation, fee simple landowner/lessor and PUD, or Condominium Unit, Cooperative Unit or ground lease community mortgagee for all units in which the mortgagee has an insurable interest)
 2. Property address
 3. Type, amount and effective dates of coverage
 4. Deductible amount and coverage to which each such deductible applies
 5. Any endorsement or optional coverage obtained and made part of the original policy

6. Insurer's agreement to provide at least 10 days' notice to the mortgagee (including any applicable PUD or Condominium Unit or ground lease community leasehold mortgagee) before any reduction in coverage or cancellation of the policy; or for Cooperative Projects, 30 days' notice to the mortgagee before cancellation
7. Signature of an authorized representative of the insurer, if required by law

The Servicer must maintain a specimen of each policy and endorsement for which a certificate, evidence or declarations of insurance is maintained in lieu of the policy and endorsement.

If the Servicer documents and tracks the master or blanket condominium homeowners association or Cooperative Corporation insurance policy maintained by a condominium homeowners association or Cooperative Corporation and can cross-reference to such policy each Condominium Unit Mortgage or Cooperative Share Loan the Servicer services for Freddie Mac in the condominium or Cooperative Project which is covered by such policy, the Servicer need not maintain and track a separate insurance certificate for each such Condominium Unit Mortgage or Cooperative Share Loan.

If the Servicer is unable to obtain evidence of insurance for a Borrower's unit in a condominium, Cooperative Project or a PUD insured under a master or blanket policy, one of the following insurance coverages obtained by the Servicer will meet the evidence of insurance requirements for the Borrower's unit:

- A blanket insurance policy carried by the Servicer which provides unit owner coverages as well as loss assessment coverage in the event of an uninsured loss for all Freddie Mac Condominium Unit Mortgages and Mortgages secured by units in a PUD and, if permitted by the Seller's Purchase Documents, Cooperative Share Loans serviced by the Servicer
- An agreement with an insurer to issue an insurance policy which provides unit owner coverage as well as loss assessment coverage in the event of an uninsured loss for all Freddie Mac Condominium Unit Mortgages, Mortgages secured by units in a PUD and, if permitted by the Seller's Purchase Documents, Cooperative Share Loans serviced by the Servicer

The blanket insurance policy or an agreement with an insurer to provide unit owner coverage as well as loss assessment coverage must meet the following requirements:

1. Be underwritten by an insurer with a current rating meeting the requirements outlined in Section 4703.1
2. Provide coverage for the Servicer and/or Freddie Mac
3. Provide for at least 180-days' written notice to the Servicer and, if applicable, Freddie Mac before canceling or terminating the coverage
4. Be approved by any regulatory authority to which the Servicer is subject, if such approval is required

The Servicer must carry mortgage impairment or mortgagee interest insurance if it elects not to maintain the documentation described above. The mortgage impairment or mortgagee interest policy must meet the following requirements:

1. Be underwritten by an insurer with a current rating meeting the requirements outlined in Section 4703.1
2. Provide coverage for the Servicer and/or Freddie Mac
3. Provide coverage in scope and amounts at least equal to those required under Sections 2101.5 through 2101.6
4. Provide for at least 180 days' written notice to the Servicer and, if applicable, Freddie Mac before canceling or terminating the coverage
5. Be approved by any regulatory authority to which the Servicer is subject, if such approval is required

Having a blanket insurance policy providing unit owners coverage, an agreement with an insurer to provide unit owners coverage, mortgage impairment or mortgagee interest policy does not relieve the Servicer of any of its Servicing obligations under the Purchase Documents, including the obligations to demonstrate to Freddie Mac that all the minimum insurance coverages required in Chapter 4703 and any other Purchase Document on a property securing a Mortgage serviced for Freddie Mac are indeed in force and to take all remedial actions required in this Chapter 8202 and any other Purchase Document when any such coverage is not in force.

In addition to all other remedies of Freddie Mac provided for in the Purchase Documents, the Servicer will indemnify Freddie Mac for any loss Freddie Mac sustains due to the Servicer's failure to verify that the required insurance is in force on the Mortgaged Premises. The Servicer's obligation shall in no way be limited to the amount of coverage in force under a mortgage impairment or mortgagee interest policy.

8202.9: Insurance charges (05/04/20)

Premiums for insurance covering the Mortgaged Premises will be paid when due by Borrowers or the Servicer if the Servicer collects Escrows for such purposes.

Premiums for insurance obtained by a Planned Unit Development (PUD), condominium homeowners association or Cooperative Corporation for the benefit of the PUD, Condominium Project or Cooperative Project will be paid as a common expense apportioned to each unit owner or Shareholder.

If the Condominium Project is located in Puerto Rico, premiums for insurance for a condominium homeowners' association policy for the benefit of the Condominium Project may be paid by the Servicer, if the Servicer collects Escrow for such purposes.

8202.10: Localized perils insurance (06/10/20)

Refer to Section 4703.7 for localized perils insurance requirements.

8202.11: Insurance loss settlements (07/15/20)

(a) Servicer responsibilities

Upon notification of loss or damage to the Mortgaged Premises, the Servicer must monitor and coordinate the claim process with the Borrower and the insurer. The Servicer must take appropriate action to:

- Verify the extent of the loss or damage
- Ensure judicious disbursement of insurance proceeds for the necessary repairs
- Protect the priority of the Mortgage by obtaining, where necessary, waivers of materialman's or mechanic's liens
- Document details concerning the loss or damage, completion of the repairs and disposition of the insurance proceeds in the Mortgage file
- Prohibit payment of fees out of the insurance loss proceeds to any public adjuster or other third party retained by the Borrower to assist with the recovery of those proceeds unless agreed to by Freddie Mac in writing
- Refer to Chapter 8403 for additional requirements on abandoned properties, distressed properties or properties that pose a Risk of Property Ownership

(b) Reporting damage

The Servicer does not need to submit a report and related recommendations to Freddie Mac unless:

- The Mortgage is in foreclosure
- The Mortgaged Premises is abandoned and/or has been acquired by the Servicer through foreclosure or deed-in-lieu of foreclosure. (See Section 9603.11(b) for remittance requirements for insurance loss settlements.)

- The insured improvements have suffered a total or near total loss
- The insured improvements cannot be rebuilt
- The Servicer wishes to apply insurance proceeds to the Mortgage debt instead of repairing the property, or
- Insurance proceeds exceed the amounts required to restore the property to its original condition

If any of the above conditions exist, the Servicer must submit the recommendation along with the appropriate documentation to Freddie Mac (**see Directory 5**), within five Business Days of learning of the situation.

(c) Disbursing loss proceeds

If a Servicer receives an insurance claim check for contents or living expenses, the Servicer must release the insurance funds to the Borrower without delay.

When the Mortgaged Premises has suffered a loss, the Servicer must follow the requirements in the below table for releasing proceeds:

Insurance loss draft	Mortgage current or less than 31 days delinquent at the time of loss	Mortgage 31 or more days delinquent at the time of loss
Initial loss draft	<p>The Servicer may release insurance proceeds up to the greater of:</p> <ul style="list-style-type: none"> ■ \$40,000 ■ 33% of insurance proceeds or ■ The amount by which the release funds exceed the sum of the UPB, accrued interest and advances on the Mortgage 	<p>If the proceeds are less than or equal to \$5,000, the Servicer may disburse in one payment.</p> <p>If the proceeds are greater than \$5,000, the Servicer may make an initial disbursement of 25% of the insurance proceeds but no more than the greater of:</p> <ul style="list-style-type: none"> ■ \$10,000 or ■ The amount by which the release funds exceed the sum of the UPB, accrued interest and advances on the Mortgage

Insurance loss draft	Mortgage current or less than 31 days delinquent at the time of loss	Mortgage 31 or more days delinquent at the time of loss
Additional loss drafts	The Servicer may distribute remaining funds based on the repair plan reviewed and approved by the Servicer.	The Servicer may distribute remaining funds in increments not to exceed 25% of the insurance loss proceeds.
Inspections	<p>The Servicer must inspect repairs prior to release of any remaining funds.</p> <p>For Mortgages that were current or less than 31 days delinquent at the time of loss, the Servicer may use either physical/onsite inspections or remote inspections to confirm the progress or completion of repairs at the property.</p> <p>The Servicer may use Borrower-submitted photos and/or video, or conduct Servicer-directed video calls with the Borrower to document the progress or completion of repairs at the property if the Servicer can, when conducting such inspections:</p> <ul style="list-style-type: none"> ■ Determine the documented repairs are from the location of the property ■ Authenticate when any Borrower-submitted photos or video were taken and that such photos or video were not altered in any way, and ■ Clearly identify the repairs that are being documented and confirm the repairs (a) were completed in accordance with the insurance adjuster's itemized estimate and the repair plan, and (b) do not affect the safety, soundness or structural integrity of the property or the ability to obtain an occupancy permit. <p>For remote inspections conducted by video call with the Borrower, the Servicer must also retain video or photo records of the call that clearly document the Servicer's compliance with the above requirements.</p> <p>For Mortgages that are more than 31 days delinquent at the time of loss, Servicers must schedule physical inspections to confirm the progress or completion of repairs.</p>	

Insurance loss draft	Mortgage current or less than 31 days delinquent at the time of loss	Mortgage 31 or more days delinquent at the time of loss
Funds payable	The Servicer may issue insurance proceeds payable only to the Borrower.	

A Servicer may unilaterally apply the insurance proceeds to the Mortgage's unpaid balance only to the extent allowed by applicable law and the Security Instrument. The Borrower, however, may unilaterally decide to have the proceeds applied to the Mortgage's unpaid balance.

If repair or reconstruction of the residence is expected to take more than three months, insurance funds retained by the Servicer pending disbursement for such repair or reconstruction must be maintained in a federally insured account that pays interest to the Borrower.

The Servicer may be named as loss payee on insurance drafts and must comply with any applicable law and, where applicable, any requirement of the FHA, VA, RHS or MI.

(d) Repair or reconstruction of the Mortgaged Premises

In overseeing the repair or reconstruction of damaged or destroyed residences, the Servicer should, to the extent applicable, practicable and required, ascertain that:

- The contractor chosen by the Borrower to repair or reconstruct the residence is:
 - Qualified and experienced to perform the types of work contracted
 - Financially able to complete the repair or reconstruction within scheduled time frames
- The plans and specifications for the work contracted:
 - Describe repair or reconstruction that is generally consistent with the damage or destruction suffered by the residence, as reported in the proof of loss filed by the Borrower with the property insurer and as documented by the insurer's adjuster
 - Establish a reasonable schedule for completion of each phase of repair or reconstruction
- The Borrower and the contractor have executed a contract by which they agree to the following:
 - The contractor will perform the work described in the plans and specifications

- The contractor will comply with applicable codes and regulations governing residential repair or reconstruction (including, but not limited to, building codes and zoning, permit and inspection regulations).

These codes and regulations may vary from State to State and, within the same State, from county to county. Therefore, Servicers should have adequate measures in place to verify contractors' and inspectors' compliance certifications to protect Freddie Mac's and the Servicer's respective investments.

If additional funds are needed to bring a damaged or destroyed residence into compliance with applicable codes and regulations, the Borrowers should determine whether their property insurer will waive any policy provision restricting payment for the increased cost of construction resulting from enforcement of codes and regulations.

- A specified dollar amount is the maximum amount that the contractor may charge for the work
- The contractor will be paid a specified advance (if applicable, usually not exceeding 10% of the total contract amount) and, subsequently, on a specified draw schedule contingent on verification of satisfactory completion of specified work phases. If the mortgage status at time of notification is 31 or more days delinquent at time of loss, released funds must not exceed 25% increments of insurance loss proceeds.
- The contractor, its subcontractors and its material suppliers will provide written acknowledgment of payment for work performed and materials supplied and the necessary lien waivers or releases so that the Mortgaged Premises may remain clear of all such liens and encumbrances.
- Each scheduled work phase has been satisfactorily completed in accordance with the plans and specifications in the contract.

The Servicer may choose to have the above described oversight functions performed by its staff or by a third party (such as a specialized firm or another Servicer). However, the Servicer is liable for the performance of any third party it retains. The third party may be compensated from insurance proceeds retained by the Servicer only to the extent agreed to by the Borrower and allowed under applicable law.

(e) Final inspection

The Servicer must follow the requirements below regarding the final inspection.

Loss proceeds	Mortgage current or less than 31 days delinquent at the time of loss	Mortgage 31 or more days delinquent at the time of loss
	A final inspection is not required.	A final inspection is always required to ensure all repairs are completed.

8202.12: Lender-Placed Insurance (07/01/16)

The Seller/Servicer must require the Borrower to obtain appropriate insurance coverage in accordance with the terms of the Security Instrument, the Guide and applicable law.

The Servicer must continuously monitor the Borrower and Mortgage to ensure that adequate coverage has been obtained and remains in force. If the Borrower's coverage is cancelled or in jeopardy of cancellation due to non-payment of premium, the Servicer must attempt to continue coverage by paying the premium on behalf of the Borrower in accordance with applicable law. If the Borrower and the Servicer do not or cannot continue such coverage or if the coverage obtained is cancelled or lapses, the Servicer must obtain Lender-Placed Insurance (LPI). The Servicer must then adjust the Borrower's Escrow payments accordingly or bill the Borrower to recover the advance if the Servicer does not maintain an Escrow account for the Borrower. If the Borrower fails to reimburse the Servicer, the Servicer may recommend acceleration to Freddie Mac for the Borrower's default under the terms of the Security Instrument.

If the additional coverage cannot be obtained, the Servicer must immediately make appropriate recommendations to Freddie Mac (**see Directory 5**).

If the Servicer obtains LPI coverage for the Borrower from an LPI carrier in accordance with this section, the following apply:

- The Servicer or agents, brokers or other entities affiliated with the Servicer may not receive any compensation in the form of commissions or similar incentive-based compensation regardless of its designation as commission, bonus, fees or other type of payment from LPI carriers; and
- The Servicer may not use its own affiliated entities to insure or reinsure LPI

For purposes of this section an "entity" is "affiliated" with the Servicer when it is owned or controlled, in whole or in part, by the Servicer, including, but not limited to, a subsidiary of or in a joint venture or partnership with the Servicer. An affiliated entity shall also include any entity that owns or controls, in whole or in part, the Servicer (e.g., the parent company of the Servicer) and any entity that is under common ownership or control with the Servicer (e.g., two subsidiaries of the same parent company). An affiliated entity shall not include a publicly-traded company of whose stock the Servicer owns less than 5%.

Required deductibles for LPI policies effective on or after July 1, 2016 are provided in the table below. The required deductible is based on the dwelling coverage amount provided by the LPI policy. These deductibles are required for all perils except wind, hail and flood, to the extent permissible under applicable State law.

Dwelling coverage	Deductible
Less than \$100,000	\$1,000
\$100,000 up to and including \$250,000	\$2,000
Greater than \$250,000	\$2,500

The Servicer must comply with all applicable law pertaining to administration of LPI, including providing notices to the Borrower and refund of premium for duplicate coverage.

The Servicer must, upon request from Freddie Mac, provide a copy of the insurance policy and any and all agreements with any LPI carrier used by the Servicer on Mortgages demonstrating compliance with the above requirements.

A Servicer's failure to comply with the above requirements may result in any of the remedies available to Freddie Mac in Section 3601.1.

Chapter 8203: Mortgage Insurance

8203.1: Mortgage insurance terms, warranties and other requirements (10/01/18)

(a) Terms

The following terms apply for purposes of this chapter:

- **HPA** — The Homeowners Protection Act of 1998, as amended
- **HPA Effective Date** — July 29, 1999, the first date on which requirements of the HPA applied to any HPA Mortgage
- **HPA Mortgage** — A 1-unit Primary Residence Mortgage with mortgage insurance originated on or after the HPA Effective Date. For purposes of canceling mortgage insurance in accordance with the requirements of Sections 8203.2 and 8203.4, an “HPA Mortgage” also includes any second home Mortgage (as defined in Section 4201.15) with mortgage insurance and any Pre-HPA Mortgage secured by a 1-unit Primary Residence.
- **HPA Mortgage Annual Notice** — A written statement that, pursuant to the HPA, the Seller/Servicer must send annually to a Borrower concerning the Borrower’s HPA Mortgage. The statement informs the Borrower of mortgage insurance cancelation and termination rights pertaining to the Borrower’s HPA Mortgage. The HPA requires different notices, the contents of which depend on whether the HPA Mortgage is a fixed-rate or adjustable-rate Mortgage.
- **Non-HPA Mortgage** — Any Home Mortgage with mortgage insurance, originated on or after the HPA Effective Date, that is not an HPA Mortgage. For purposes of canceling mortgage insurance in accordance with the requirements of Section 8203.3, a “Non-HPA Mortgage” also includes any Pre-HPA Mortgage secured by a 2- to 4-unit Mortgaged Premises or 1- to 4-unit Investment Property.
- **Pre-HPA Mortgage** — Any Home Mortgage with mortgage insurance originated before the HPA Effective Date
- **Pre-HPA Mortgage Annual Notice** — A written statement that, pursuant to the HPA, the Seller/Servicer must send annually to a Borrower concerning the Borrower’s Pre-HPA Mortgage. The statement gives instructions to the Borrower on how to contact the Seller/Servicer to determine if and how mortgage insurance may be canceled.

(b) General warranties and covenants and other requirements

The Seller/Servicer warrants that mortgage insurance has been obtained as required in Section 4701.1 and agrees and covenants that such mortgage insurance will be maintained unless canceled in accordance with the requirements of Section 4701.1 (for purposes of determining the “value” of Mortgaged Premises located in the State of New York), Sections 8203.2 through 8203.7 or pursuant to applicable law. Additionally, some of the requirements in Sections 8203.2 and 8203.4 are derived from, and are in addition to, requirements under the HPA.

The Seller/Servicer also warrants that the Borrower has been given, and agrees and covenants to provide, all disclosures required by applicable law including, but not limited to, the HPA, relating to the terms on which the Borrower-paid mortgage insurance may be canceled. Such disclosures may include an initial HPA-related notice given to a Borrower at the Mortgage closing and an HPA Mortgage Annual Notice or Pre-HPA Mortgage Annual Notice, as applicable.

(c) Pre-HPA Mortgage that is modified

The modification of a Pre-HPA Mortgage (a fixed-rate, adjustable-rate) does not cause the Pre-HPA Mortgage to become an HPA Mortgage or trigger any new obligation under this chapter relating to the Pre-HPA Mortgage.

(d) Determination of property securing the Mortgage

For mortgage insurance cancelation purposes, the occupancy of the Mortgaged Premises as stated in the Borrower’s Mortgage application must be used to determine whether the Mortgaged Premises is a Primary Residence, a second home (as defined in Section 4201.15) or an Investment Property.

(e) Other conditions for Borrower-requested cancelation of Borrower-paid mortgage insurance

When a Borrower requests cancelation of Borrower-paid mortgage insurance pursuant to Sections 8203.2 and 8203.3, except as may otherwise be provided in a Purchase Document, the Seller/Servicer must not request or require that a Borrower make a written certification or any other representation concerning the existence or nonexistence of a Second Mortgage or other subordinate lien on the Mortgaged Premises. If a Purchase Document contains a condition relating to such a written certification or representation by a Borrower, the Seller and the Servicer of the Borrower’s Mortgage must provide to the Borrower all disclosures required by applicable law with respect to the condition set forth in the Purchase Document.

(f) Borrowers impacted by an Eligible Disaster

When a Borrower impacted by an Eligible Disaster that resulted in the Mortgage being subject to a disaster-related forbearance plan pursuant to Chapter 8404 or other Purchase

Documents requests to cancel Borrower-paid mortgage insurance post-forbearance and after the Mortgage has been restored to a current status, any Delinquency that was a direct result of the Mortgage being subject to a disaster-related forbearance plan, and, following the disaster-related forbearance, transition to a relief or workout option to cure the Delinquency (e.g., repayment plan or Trial Period Plan) in accordance with Section 8404.6 or other Purchase Documents, must be considered an exception to the payment history requirements set forth in Sections 8203.2 and 8203.3.

8203.2: Borrower-requested cancelation of Borrower-paid mortgage insurance on an HPA Mortgage (12/14/22)

For Borrower-requested cancelation of Borrower-paid mortgage insurance, unless otherwise canceled pursuant to applicable law, the Seller/Servicer must cancel such mortgage insurance when the Borrower and the HPA Mortgage meet the requirements of Section 8203.2(a) or Section 8203.2(b), respectively.

In addition to processing and/or responding to Borrowers' written or verbal requests to cancel mortgage insurance in accordance with this section, the Seller/Servicer also may:

- Systematically identify all Mortgages that the Seller/Servicer services for Freddie Mac that may be close to, or have reached, the applicable mortgage insurance cancelation point set forth below; and
- Notify the Borrowers of such Mortgages of next steps, if any, that must be taken to determine if mortgage insurance may be canceled

Upon obtaining an eligible Borrower's verbal and/or written request or affirmation, the Seller/Servicer must cancel the related mortgage insurance upon ascertaining that all applicable conditions have been met.

(a) Borrower-requested cancelation of Borrower-paid mortgage insurance based on the original value

The table below lists the requirements for Borrower-requested cancelation of Borrower-paid mortgage insurance based on the **original value** (as "value" is defined in Section 4203.1):

1. Cancelation point	Based on the original value, the loan-to-value (LTV) ratio must be 80% or less. (Note: As opposed to the conditions set forth in row 1, <i>Cancelation point</i> , of Section 8203.2(b), there is no required minimum period having elapsed since the Origination Date of a Mortgage when determining the cancelation point.)
-----------------------------	---

	<p>At the option of the Borrower, the numerator of the LTV ratio may be based upon:</p> <ul style="list-style-type: none"> ■ The amortization schedule (irrespective of the Mortgage's current UPB); or ■ The Mortgage's current UPB (based on actual payments collected) <p>Note: Regarding the amortization schedule in the cancelation point requirements set forth above, this amortization schedule is the initial amortization schedule for a fixed-rate Mortgage or current amortization schedule following the most recent rate change for an ARM or Step-Rate Mortgage.</p>
2. Evidence of value	The Seller/Servicer must warrant that the original value of the Mortgaged Premises, at a minimum, supports the LTV ratio required to cancel mortgage insurance.
3. Payment history	<p>The Borrower's payment history must show:</p> <ul style="list-style-type: none"> ■ The Mortgage is current ■ There was no payment 30 days or more past due in the preceding 12 months (or since the Origination Date if the Mortgage was originated in the past 12 months); and ■ There was no payment 60 days or more past due in the preceding 24 months (or since the Origination Date if the Mortgage was originated in the past 24 months) <p>Pursuant to Section 8203.1(f) regarding Borrowers impacted by an Eligible Disaster, any Delinquency that is a direct result of the Mortgage being subject to a disaster-related forbearance plan and, following the disaster-related forbearance, transition to a relief or workout option to cure the Delinquency (e.g., repayment plan or Trial Period Plan) in accordance with Section 8404.6 or other Purchase Documents, must be considered an exception to the payment history requirements set forth above.</p> <p>Note: The reference to a "preceding" period in the payment history requirements set forth above means the specified time period that immediately preceded the later of: (i) the date on which the required LTV ratio was reached or (ii) the date on which the Borrower submits the request to cancel mortgage insurance.</p>

(b) Borrower-requested cancelation of Borrower-paid mortgage insurance based on the current value

The table below lists the requirements for Borrower-requested cancelation of Borrower-paid mortgage insurance based on the **current value**:

1. Cancelation point	<p>Based on the Mortgage's current UPB and the current value, the LTV ratio must be:</p> <ul style="list-style-type: none">■ 75% or less if the Mortgage is seasoned between 2 and 5 years■ 80% or less if the Mortgage is seasoned greater than 5 years <p>The minimum two-year seasoning requirement is waived if the Servicer determines the increased market value of the Mortgaged Premises since the Origination Date of the Mortgage is due to substantial improvements, the LTV ratio must be 80% or less.</p> <p>Regarding canceling mortgage insurance because of substantial improvements to the Mortgaged Premises, the following conditions must be met:</p> <ul style="list-style-type: none">■ The market value of the Mortgaged Premises must be calculated using the current market value estimate in a BPO or an appraisal that is ordered and obtained in accordance with row 2 of this table, <i>Evidence of value</i>, and prepared after the substantial improvements have been completed■ The substantial improvements must conform to local zoning and building codes; and■ The BPO or appraisal must state the specific nature, extent and cost of the improvements made and the effect of the improvements on the current estimated market value <p>Note: The reference to "substantial improvements" in the cancelation point requirements set forth above means that the improvements, made since the Origination Date, were any type of renovation(s) that substantially extended the useful life of the Mortgaged Premises. Examples of "substantial improvements" include, but are not limited to:</p>
-----------------------------	--

	<ul style="list-style-type: none"> ■ Significant structural alterations (including addition of square footage) ■ Construction requiring permits ■ Adding new components/appliances that previously didn't exist (e.g., adding a bathtub, hardwood flooring, central air conditioning) ■ Replacing components/appliances with energy-efficient versions <p>Repairs made to keep the Mortgaged Premises maintained and fully functional (e.g., replacing roofing/flooring/appliances with same materials) are not considered "substantial improvements."</p>
2. Evidence of value	<p>At the Borrower's expense, and performed no later than 120 days after the date on which the Borrower submits a request to cancel mortgage insurance, the Seller/Servicer must verify the current value by:</p> <ul style="list-style-type: none"> ■ A new BPO ordered and obtained through BPOdirect®, unless applicable law requires that an appraisal be used or the Seller/Servicer determines that an appraisal is in the Borrower's best interest (e.g., at the option of the Borrower). The BPO must be an interior and exterior BPO. (Refer to Sections 2406.4 and 9202.17 for details regarding Freddie Mac's process to obtain a property value.); or ■ If applicable law requires that an appraisal be used or the Seller/Servicer determines that an appraisal is in the Borrower's best interest, a new appraisal with an interior and exterior inspection. The Seller/Servicer may order and obtain the appraisal either directly from Freddie Mac through BPOdirect or from an appraiser of its choice. If a Seller/Servicer does not obtain the appraisal directly from Freddie Mac, then the Seller/Servicer must ensure that the appraisal complies with the requirements of Topic 5600. <p>Note: Prior to ordering a BPO or an appraisal in conjunction with a request to cancel mortgage insurance for an "unseasoned loan" on the basis of substantial improvements to the Mortgaged Premises (see row 1 of this table, <i>Cancelation point</i>), the Seller/Servicer must validate that improvements are qualifying and compliant.</p> <p>All required information must be entered in the Interior Access/Substantial Improvements field when placing the order in BPOdirect. Enter the interior access information first followed by properly vetted significant improvements. Reported improvements must include the cost, date and specific nature of the improvement</p>

	<p>and should not include minor cosmetic updates, repairs or maintenance or replacement of appliances, mechanicals, flooring, etc., with like items.</p> <p>If the Servicer is unable to obtain this information from the Borrower or otherwise believes the information provided does not support a substantial improvement of the Mortgaged Premises (e.g., expenses that maintain the existing property), the Servicer should not order a BPO as the request will not meet the requirements of Chapter 8203.</p>
3. Payment history	<p>The Borrower's payment history must show:</p> <ul style="list-style-type: none"> ■ The Mortgage is current ■ There was no payment 30 days or more past due in the preceding 12 months (or since the Origination Date if the Mortgage was originated in the past 12 months); and ■ There was no payment 60 days or more past due in the preceding 24 months (or since the Origination Date if the Mortgage was originated in the past 24 months) <p>Pursuant to Section 8203.1(f) regarding Borrowers impacted by an Eligible Disaster, any Delinquency that is a direct result of the Mortgage being subject to a disaster-related forbearance plan and, following the disaster-related forbearance, transition to a relief or workout option to cure the Delinquency (e.g., repayment plan or Trial Period Plan) in accordance with Section 8404.6 or other Purchase Documents, must be considered an exception to the payment history requirements set forth above.</p> <p>Note: The reference to a "preceding" period in the payment history requirements set forth above means the specified time period that immediately preceded the later of: (i) the date on which the required LTV ratio was reached or (ii) the date on which the Borrower submits the request to cancel mortgage insurance.</p>
4. Other conditions	<p>In addition to the payment history requirements set forth in row 3 of this table, <i>Payment history</i>, as they relate to Delinquency, there must be no other default under the terms of the Security Instrument in the last 12 months. Other defaults under the terms of the Security Instrument may include, but are not limited to:</p> <ul style="list-style-type: none"> ■ An impermissible Transfer of Ownership that requires acceleration of the debt under the terms of Chapter 8406 and the Security Instrument

- The Borrower's failure to pay taxes, ground rents, assessments and other charges requiring payment under the Security Instrument; or
- The Borrower's failure to maintain the Mortgaged Premises in accordance with the Security Instrument

8203.3: Borrower-requested cancelation of Borrower-paid mortgage insurance on a Non-HPA Mortgage (06/08/22)

For Borrower-requested cancelation of Borrower-paid mortgage insurance, unless otherwise canceled pursuant to applicable law, the Seller/Servicer must cancel such mortgage insurance when the Borrower and the Non-HPA Mortgage meet the requirements of Section 8203.3(a) or Section 8203.3(b), respectively.

In addition to processing and/or responding to Borrowers' written or verbal requests to cancel mortgage insurance in accordance with this section, the Seller/Servicer also may:

- Systematically identify all Mortgages that the Seller/Servicer services for Freddie Mac that may be close to, or have reached, the applicable mortgage insurance cancelation point set forth below; and
- Notify the Borrowers of such Mortgages of next steps, if any, that must be taken to determine if mortgage insurance may be canceled

Upon obtaining an eligible Borrower's verbal and/or written request or affirmation, the Seller/Servicer must cancel the related mortgage insurance upon ascertaining that all applicable conditions have been met.

(a) Borrower-requested cancelation of Borrower-paid mortgage insurance based on the original value

The table below lists the requirements for Borrower-requested cancelation of Borrower-paid mortgage insurance based on the **original value** (as "value" is defined in Section 4203.1):

1. Cancelation point	Based on the Mortgage's current UPB and the original value, the loan-to-value (LTV) ratio must be 65% or less. (Note: As opposed to the conditions set forth in row 1, <i>Cancelation point</i> , of Section 8203.3(b), there is no required minimum period having elapsed since the Origination Date of a Mortgage when determining the cancelation point.)
-----------------------------	--

2. Evidence of value	The Seller/Servicer must warrant that the original value of the Mortgaged Premises, at a minimum, supports the LTV ratio required to cancel mortgage insurance.
3. Payment history	<p>The Borrower's payment history must show:</p> <ul style="list-style-type: none"> ■ The Mortgage is current ■ There was no payment 30 days or more past due in the preceding 12 months (or since the Origination Date if the Mortgage was originated in the past 12 months); and ■ There was no payment 60 days or more past due in the preceding 24 months (or since the Origination Date if the Mortgage was originated in the past 24 months) <p>Pursuant to Section 8203.1(f) regarding Borrowers impacted by an Eligible Disaster, any Delinquency that is a direct result of the Mortgage being subject to a disaster-related forbearance plan and, following the disaster-related forbearance, transition to a relief or workout option to cure the Delinquency (e.g., repayment plan or Trial Period Plan) in accordance with Section 8404.6 or other Purchase Documents, must be considered an exception to the payment history requirements set forth above.</p> <p>Note: The reference to a “preceding” period in the payment history requirements set forth above means the specified time period that immediately preceded the later of: (i) the date on which the required LTV ratio was reached or (ii) the date on which the Borrower submits the request to cancel mortgage insurance.</p>
4. Other conditions	<p>In addition to the payment history requirements set forth in row 3 of this table, <i>Payment history</i>, as they relate to Delinquency, there must be no other default under the terms of the Security Instrument in the last 12 months. Other defaults under the terms of the Security Instrument may include, but are not limited to:</p> <ul style="list-style-type: none"> ■ An impermissible Transfer of Ownership that requires acceleration of the debt under the terms of Chapter 8406 and the Security Instrument ■ The Borrower's failure to pay taxes, ground rents, assessments and other charges requiring payment under the Security Instrument; or ■ The Borrower's failure to maintain the Mortgaged Premises in accordance with the Security Instrument

(b) Borrower-requested cancelation of Borrower-paid mortgage insurance based on the current value

The table below lists the requirements for Borrower-requested cancelation of Borrower-paid mortgage insurance based on the **current value**:

1. Cancelation point	<p>Based on the Mortgage's current UPB and the current value, the LTV ratio must be:</p> <ul style="list-style-type: none">■ 65% or less if the Mortgage is seasoned at least 2 years <p>The minimum two-year seasoning requirement is waived if the Servicer determines the increased market value of the Mortgaged Premises since the Origination Date of the Mortgage is due to substantial improvements, the LTV ratio must be 65% or less.</p> <p>Regarding canceling mortgage insurance because of substantial improvements to the Mortgaged Premises, the following conditions must be met:</p> <ul style="list-style-type: none">■ The market value of the Mortgaged Premises must be calculated using the current market value estimate in a BPO or an appraisal that is ordered and obtained in accordance with row 2 of this table, <i>Evidence of value</i>, and prepared after the substantial improvements have been completed■ The substantial improvements must conform to local zoning and building codes; and■ The BPO or appraisal must state the specific nature, extent and cost of the improvements made and the effect of the improvements on the current estimated market value <p>Note: The reference to "substantial improvements" in the cancelation point requirements set forth above means that the improvements, made since the Origination Date, were any type of renovation that substantially extended the useful life of the Mortgaged Premises. Examples of "substantial improvements" include, but are not limited to:</p>
-----------------------------	---

	<ul style="list-style-type: none"> ■ Significant structural alterations (including addition of square footage) ■ Construction requiring permits ■ Adding new components/appliances that previously didn't exist (e.g., adding a bathtub, hardwood flooring, central air conditioning) ■ Replacing components/appliances with energy-efficient versions <p>Repairs made to keep the Mortgaged Premises maintained and fully functional (e.g., replacing roofing/flooring/appliances with same materials) are not considered "substantial improvements."</p>
2. Evidence of value	<p>At the Borrower's expense, and performed no later than 120 days after the date on which the Borrower submits a request to cancel mortgage insurance, the Seller/Servicer must verify the current value by one of the following methods:</p> <ul style="list-style-type: none"> ■ A new BPO ordered and obtained through BPOdirect®, unless applicable law requires that an appraisal be used or the Seller/Servicer determines that an appraisal is in the Borrower's best interest (e.g., at the option of the Borrower). The BPO must be an interior and exterior BPO. (Refer to Sections 2406.4 and 9202.17 for details regarding Freddie Mac's process to obtain a property value.); or ■ If applicable law requires that an appraisal be used or the Seller/Servicer determines that an appraisal is in the Borrower's best interest, a new appraisal with an interior and exterior inspection. The Seller/Servicer may order and obtain the appraisal either directly from Freddie Mac through BPOdirect or from an appraiser of its choice. If a Seller/Servicer does not obtain the appraisal directly from Freddie Mac, then the Seller/Servicer must ensure that the appraisal complies with the requirements of Topic 5600. <p>Note: Prior to ordering a BPO or an appraisal in conjunction with a request to cancel mortgage insurance on the basis of substantial improvements to the Mortgaged Premises (see row 1 of this table, <i>Cancelation point</i>), the Seller/Servicer should request a list of substantial improvements, including the specific nature, cost and, when applicable, verification that the improvements conform to local zoning and building codes, from the Borrower and forward this list to Bpod_Escalations@FreddieMac.com when ordering a BPO through BPOdirect. If the Servicer is unable to obtain this information from the Borrower, or otherwise believes the information provided does not support a substantial improvement of the Mortgaged Premises</p>

	(e.g., expenses that maintain the existing property), the Servicer should not order a BPO as the request will not meet the requirements of Chapter 8203.
3. Payment history	<p>The Borrower's payment history must show:</p> <ul style="list-style-type: none"> ■ The Mortgage is current ■ There was no payment 30 days or more past due in the preceding 12 months (or since the Origination Date if the Mortgage was originated in the past 12 months); and ■ There was no payment 60 days or more past due in the preceding 24 months (or since the Origination Date if the Mortgage was originated in the past 24 months) <p>Pursuant to Section 8203.1(f) regarding Borrowers impacted by an Eligible Disaster, any Delinquency that is a direct result of the Mortgage being subject to a disaster-related forbearance plan and, following the disaster-related forbearance, transition to a relief or workout option to cure the Delinquency (e.g., repayment plan or Trial Period Plan) in accordance with Section 8404.6 or other Purchase Documents, must be considered an exception to the payment history requirements set forth above.</p> <p>Note: The reference to a “preceding” period in the payment history requirements set forth above means the specified time period that immediately preceded the later of: (i) the date on which the required LTV ratio was reached or (ii) the date on which the Borrower submits the request to cancel mortgage insurance.</p>
4. Other conditions	<p>In addition to the payment history requirements set forth in row 3 of this table, <i>Payment history</i>, as they relate to Delinquency, there must be no other default under the terms of the Security Instrument in the last 12 months. Other defaults under the terms of the Security Instrument may include, but are not limited to:</p> <ul style="list-style-type: none"> ■ An impermissible Transfer of Ownership that requires acceleration of the debt under the terms of Chapter 8406 and the Security Instrument ■ The Borrower's failure to pay taxes, ground rents, assessments and other charges requiring payment under the Security Instrument; or ■ The Borrower's failure to maintain the Mortgaged Premises in accordance with the Security Instrument

8203.4: Automatic cancelation of Borrower-paid mortgage insurance on an HPA Mortgage (10/01/18)

For automatic cancelation of Borrower-paid mortgage insurance, unless otherwise canceled pursuant to applicable law, the Seller/Servicer must cancel such mortgage insurance when the HPA Mortgage meets the requirements of this section.

Note: Non-HPA Mortgages are not eligible for automatic cancelation of Borrower-paid mortgage insurance. (Refer to Section 8203.3 regarding Borrower-requested cancelation of Borrower-paid mortgage insurance for Non-HPA Mortgages and Seller/Servicer solicitations of such requests.)

The table below lists the requirements for automatic cancelation of Borrower-paid mortgage insurance:

1. Cancellation point	Provided that the payment record requirements set forth in row 2 of this table, <i>Payment record</i> , are met, the earlier of: <ul style="list-style-type: none">■ The date on which the loan-to-value (LTV) ratio is first scheduled to reach 78% based on the original value (as “value” is defined in Section 4203.1) and the amortization schedule (irrespective of the Mortgage’s current UPB); or■ The date on which the midpoint of the amortization period of the Mortgage is reached. The midpoint occurs halfway through a Mortgage’s amortization period based upon the amortization schedule. For example, in the case of a 360-month or 30-year Mortgage with a payment Due Date on the first of each month, the midpoint is deemed to be the first day of the 180th month. Assuming that the payment record requirements set forth in row 2 of this table, <i>Payment record</i>, are met, the Seller/Servicer must have mortgage insurance canceled effective for the 181st month’s payment. Note: Regarding the amortization schedule in the cancelation point requirements set forth above, this amortization schedule is the initial amortization schedule for a fixed-rate Mortgage or current amortization schedule following the most recent rate change for an ARM or Step-Rate Mortgage.
2. Payment record	All principal and interest and Escrow installments (or all Seller/Servicer advances for unpaid charges otherwise payable from Escrow, if applicable) with Due Dates prior to the cancelation point must be paid by the Borrower on or before the cancelation point. (In the example set forth in row 1 of this table, <i>Cancellation point</i> , all such installments with Due Dates before the 180th month, must have been paid by the Borrower by

the first day of the 180th month in order for mortgage insurance to be canceled effective for the 181st month's payment.)

If any installment of principal and interest and Escrow (or any Seller/Servicer advance for unpaid charges otherwise payable from Escrow, if applicable) with a Due Date prior to the cancellation point has not been paid by the Borrower on or before the cancellation point, then the cancellation point must be deferred to the first day of the first month beginning after the date on which all such installments are paid by the Borrower.

8203.5: Cancelation of Borrower-paid mortgage insurance on modified Mortgages (10/01/18)

For the purpose of canceling mortgage insurance in accordance with the requirements of this Chapter 8203 on a modified Mortgage (HPA Mortgage, Non-HPA Mortgage or Pre-HPA Mortgage), the required loan-to-value (LTV) ratio and the amortization schedule or period, as applicable, must be based upon the modified terms of the Mortgage (see Section 9206.1 for examples of modified terms of a Mortgage). Additionally, the Mortgage's UPB is the total UPB, including any deferred (non-interest bearing) UPB as a result of a prior modification.

8203.6: Cancelation of Borrower-paid mortgage insurance on reset Mortgages (10/01/18)

Effective October 1, 2018, this section is deleted.

8203.7: Cancelation of Borrower-paid mortgage insurance on refinance Mortgages (10/01/18)

For the purpose of canceling mortgage insurance in accordance with the requirements of this Chapter 8203 on a refinance Mortgage (HPA Mortgage, Non-HPA Mortgage or Pre-HPA Mortgage), the original value is the appraised value relied upon to approve the refinance transaction.

8203.8: Cancelation of lender-paid mortgage insurance (03/02/16)

Lender-paid mortgage insurance is not cancelable. The Seller/Servicer must provide to the Borrower all related disclosures required by the HPA, if applicable.

8203.9: FHA insurance (03/02/16)

FHA insurance must not be canceled while Freddie Mac has an ownership interest in the Mortgage. The Seller/Servicer must, however, discontinue the collection of FHA insurance premiums from a Borrower automatically or pursuant to a Borrower's request in accordance with applicable law and FHA regulations.

8203.10: Transfers of mortgage insurance coverage (03/02/16)

The Seller/Servicer must not transfer the mortgage insurance coverage in effect at the time the Seller/Servicer delivered a Mortgage to Freddie Mac, unless:

1. Coverage must be replaced in conjunction with a third party's assumption of the Borrower's Mortgage obligations
2. The existing MI does not renew the existing coverage
3. Freddie Mac has terminated the approval status of the existing MI; or
4. Freddie Mac has instructed the Seller/Servicer to transfer the coverage

8203.11: Reporting mortgage insurance cancelations (05/01/19)

(a) Seller/Servicer reporting requirements

The Seller/Servicer must report the following mortgage insurance cancelation data to Freddie Mac:

1. Cancelation date

The cancelation date is defined as the date the Seller/Servicer specifies to the MI that the Seller/Servicer canceled the mortgage insurance.

2. Cancelation reason code

The cancelation reason code is a two-place, numeric-alpha code as follows:

- 1M — Cancelation resulting from a Borrower request based on original value of property in accordance with Sections 8203.2 through 8203.3 or applicable law
- 1N — Cancelation resulting from a Borrower request based on current value of property in accordance with Sections 8203.2 through 8203.3 or applicable law
- 1O — Cancelation based on automatic cancelation provisions of Section 8203.4 or applicable law

(b) Seller/Servicer reporting timeline

If there is no exception activity to report for a Mortgage whose mortgage insurance the Seller/Servicer has canceled, the Seller/Servicer must report the mortgage insurance cancelation data with its monthly loan-level accounting data within three Accounting Cycles after the calendar month of the cancelation date. For example, if the cancelation date is April 5th, the Seller/Servicer must report the mortgage insurance cancelation data with its monthly loan-level accounting data no later than the July Accounting Cycle.

If there is exception activity to report for the Mortgage, the Seller/Servicer must defer reporting the mortgage insurance cancelation data until the first available Accounting Cycle in which there is no exception activity to report for that Mortgage.

Refer to Section 8301.10 for requirements regarding Freddie Mac's reporting media.

8203.12: Directing MI disclosure of Mortgage information to Freddie Mac and reconciliation (05/16/22)

(a) Disclosure of MI Mortgage information

The Seller/Servicer must instruct, in writing, any MI providing current or prospective coverage for Freddie Mac Mortgages in accordance with Section 4701.1, to disclose to Freddie Mac (upon Freddie Mac's request) any and all information, data, and materials pertaining to any Freddie Mac Mortgage sold to and/or serviced for Freddie Mac by the Seller/Servicer.

The Seller/Servicer must continue to meet its obligations under the Purchase Documents to provide Freddie Mac information regarding Freddie Mac Mortgages regardless of whether the MI has provided, or may provide, required information and/or materials to Freddie Mac.

(b) Reconciliation of MI Mortgage information

Periodically, Freddie Mac will reconcile mortgage insurance information provided by an MI with the mortgage insurance ULDD Data Points (see Section 6302.21) provided when loans are delivered to Freddie Mac.

If discrepancies are identified, Freddie Mac will post data files containing the selected loans and mortgage insurance ULDD Data Points to the **Total MI Reconciliation** tool. (See Exhibit 88, Servicing Tools.) Within 10 Business Days of notification, Servicers must access the data files and provide updated information through the Total MI Reconciliation user interface in Servicing Gateway or the Total MI Reconciliation application programming interface. If the Servicer does not provide updated information within 10 Business Days, the selected loans may be referred to Servicing Remedy Management for review.

Note: Servicers should refer to Exhibit 10 for the number of digits in each MI's certificate number.

Chapter 8301: Basics of Investor Accounting

8301.1: Servicer's responsibilities in connection with Mortgage-Backed Securities and Participation Certificates (06/03/19)

The Servicer's responsibilities in connection with Mortgage-Backed Securities and Participation Certificates (i.e., UMBS®, MBS and WAC ARM PCs) backed by Freddie Mac-owned Mortgages include, among other things, collecting and accounting for payments received from Borrowers and passing through principal and interest to Freddie Mac from which Freddie Mac passes through the amount of principal and/or interest due to the UMBS, MBS or WAC ARM PC holders.

The accuracy and timeliness of the Servicer's performance of these responsibilities are vital and are part of the Servicer's warranties to Freddie Mac and Freddie Mac's UMBS, MBS and WAC ARM PC holders.

8301.2: Investor accounting responsibilities (04/12/23)

Once Freddie Mac purchases a Mortgage from a Seller that also services the Mortgage, or a Transferee Servicer that assumes the Freddie Mac Servicing Contract and related Servicing Contract Rights (as defined in Section 1101.2(c)), the Servicer must:

1. Maintain accurate Servicing records
2. Deposit all required funds into the appropriate Custodial Accounts
3. Report to Freddie Mac throughout the month and monthly as required
4. Resolve any discrepancies between the Servicer's and Freddie Mac's records

The Servicer must comply with the requirements in this chapter and Chapters 8302, 8303 and 8304. The Servicer's investor accounting responsibilities include the following:

(a) Cash accounting

The Servicer's responsibilities in administering funds it receives for Freddie Mac-owned Mortgages include:

1. Collecting, processing and depositing Borrowers' payments to the correct Custodial Accounts

2. Administering the Escrow accounts

(b) Investor reporting and drafting of funds

The Servicer's responsibilities for reporting to Freddie Mac include:

1. Reporting all loan activity and events to Freddie Mac
2. Reporting current information for each Mortgage that accurately reflects the Borrower's loan activity and loan history
3. Ensuring accounts are adequately funded to allow Freddie Mac to draft principal, interest and compensatory fees due to Freddie Mac by no later than the applicable due dates
4. Reconciling the Servicer's cash accounting and investor reporting systems with Freddie Mac's loan-level accounting records

(c) Custodial Accounts management

The Servicer's responsibilities for managing the Custodial Accounts for Freddie Mac's funds include:

1. Ensuring that Custodial Accounts are safeguarded, properly segregated and maintained at an Eligible Depository, and that Freddie Mac is authorized to draft funds from the Custodial Accounts
2. Ensuring that the Custodial Accounts are fully funded and reconciled
3. Ensuring that the Form 59, Principal and Interest Custodial Account Reconciliation Worksheet, and Form 59E, Escrow Custodial Account Reconciliation Worksheet, are properly prepared by and approved by different individuals reflecting the required segregation of responsibilities

8301.3: Investor reporting performance standards (01/01/17)

Freddie Mac will measure a Servicer's investor reporting performance against certain metrics, which may be amended by Freddie Mac from time to time.

Refer to the Servicer Success Scorecard for the specific metrics and to Section 3501.2 for additional information about the Servicer Success Scorecard.

8301.4: Accounting reporting methods (05/01/19)

The Servicer must account for all Mortgages it services for Freddie Mac. Except in instances noted in subsection (b), Servicers must use the net yield accounting reporting method to pass through principal and interest to Freddie Mac.

(a) Net yield

Under this method, the Servicer must report any principal payments collected in each Accounting Cycle and the forecasted scheduled interest for the next Accounting Cycle (forecasted scheduled interest and actual principal). Servicers must use the Accounting Net Yield (ANY) to determine the amount of interest due to Freddie Mac for each Mortgage it services for Freddie Mac. The Servicer may have to advance its own funds to ensure that Freddie Mac is able to draft the correct amount of interest. Refer to Exhibit 60, Loan-Level Reporting Data Description, and Exhibit 61, Interest and Principal Due Freddie Mac, for additional details regarding the net yield accounting reporting method.

(b) Alternate method

Freddie Mac allows the Servicer to use the alternate method of reporting only if one of the following conditions apply:

1. Applicable law prohibits the use of the net yield method
2. Freddie Mac has instructed the Servicer to use the alternate method of reporting Freddie Mac Mortgages

The principal and interest the Servicer reports depends on actual payments collected (actual interest and actual principal). If the Servicer does not collect interest, the Servicer does not report interest to Freddie Mac. If the Servicer collects payments for more than one Accounting Cycle, the Servicer reports all of the interest collected, and any applicable principal collected. Refer to Exhibit 61 for interest calculation formulas used in the alternate method of accounting reporting.

If the Servicer uses the alternate method of accounting reporting and Freddie Mac has not instructed the Servicer to do so, the Servicer must notify their Freddie Mac Investor Reporting Representative in writing or the Customer Support Contact Center at 800-FREDDIE in advance of the Accounting Cycle reporting for that period. Otherwise, Freddie Mac will assume that the Servicer is using the net yield interest method to report principal and interest to Freddie Mac.

8301.5: Calculating Mortgage interest due to Freddie Mac (05/01/19)

In the current Accounting Cycle, the Servicer must report the forecasted scheduled interest for the next Accounting Cycle due to Freddie Mac. The next cycle forecasted scheduled interest is calculated by multiplying Freddie Mac's share of the current Accounting Cycle interest-bearing Ending UPB, after applying all principal payments received from the Borrower, by the net yield divided by the applicable period of time. The Servicer must use the following principles when calculating Mortgage interest due Freddie Mac:

- Forecasted scheduled interest is reported in the Accounting Cycle prior to the Accounting Cycle it is due to Freddie Mac
- Interest is due in arrears
- Freddie Mac will draft the forecasted scheduled interest in the Accounting Cycle after it is reported
- Interest is due for full calendar months, based on a 12-month, 360-day year
- Interest is due for partial months based on the actual number of days, 365-day year
- To calculate forecasted scheduled monthly interest for:
 - Newly funded Mortgages, the Servicer must use the funded balance, which is the beginning gross UPB
 - For all other Mortgages, use either the current Accounting Cycle Ending UPB or, in the case of a modified loan, the interest-bearing UPB reported at the end of the current Accounting Cycle

For an adjustable-rate Mortgage that allows Negative Amortization, the amount by which the monthly interest calculated at the Note Rate exceeds the Borrower's scheduled monthly payment to the Servicer is a Negative Amortization increase and is accounted for in the calculation of principal due Freddie Mac.

8301.6: Freddie Mac's percentage of ownership (06/12/19)

Effective June 12, 2019, Section 8301.6 is deleted.

8301.7: Net yield interest (03/02/16)

The Servicer must calculate the interest due to Freddie Mac by using the Accounting Net Yield stated on the Form 15, Loan Purchase Statement, and the Funding Detail Report or as stated in the Transfer of Servicing records referenced in Section 7101.8.

The yield is dependent upon the method of pricing chosen at the time the Mortgage was sold to Freddie Mac. Generally, the yield equals the Note Rate minus the Servicing Spread. Refer to Chapters 6101 and 6102 for pricing methods and product descriptions.

8301.8: Servicing fee (03/02/16)

The Servicing fee, referred to as the Servicing Spread, is the compensation the Servicer earns for Servicing Freddie Mac-owned Mortgages.

Refer to Chapter 8105 for detailed information on Servicing fees and Section 8503.9 for SCRA-Capped Mortgages.

8301.9: Electronic reporting format (12/09/19)

Freddie Mac uses a common, industry-wide electronic data interchange (EDI) for the investor reporting format. The American National Standards Institute (ANSI), Accredited Standards Committee (ASC) is the nationally recognized governing body for the development and maintenance of electronic data standards. Freddie Mac uses the standardized investor reporting format, known as the Investor Reporting (203) transaction set, developed by ASC.

The Servicer may or may not be required to use EDI depending on the Servicer's selection of a reporting medium as follows:

- If the Servicer reports via the Freddie Mac Loan Level Reporting or Foreclosure Sale Reporting tools (see Exhibit 88, Servicing Tools), it is not required to use the EDI format
- If the Servicer reports via another electronic communication path, as described in Section 8301.10(2), it must use the EDI format
- If a service bureau reports data to Freddie Mac on a Servicer's behalf, the service bureau must use the EDI format

Refer to the Investor Reporting EDI Implementation Guide or call 800-FREDDIE for further information.

8301.10: Reporting media (12/09/19)

Freddie Mac requires Servicers to use one of the following methods to report activity on the Mortgages serviced for Freddie Mac:

1. The Freddie Mac Loan Level Reporting and Foreclosure Sale Reporting tools available through the **Servicing Gateway** (see Exhibit 88, Servicing Tools)
2. Internet-based communications method (referred to as Generic Connect Services (GCS)). GCS provides a variety of secure protocols that support a wide range of generic file transfer situations, such as bulk file transmissions transmitted by service bureaus or Servicers. Servicers that elect to use a service bureau to report activity on Mortgages serviced for Freddie Mac acknowledge and agree that Freddie Mac will send reports, data and information on these Mortgages that will include, but not be limited to, the daily Business-to-Business Response File and the Business-to-Business Draft File to the Servicer's service bureau. In the event a Servicer changes its service bureau or begins to use a service bureau for data reporting, it must notify Freddie Mac of the change in accordance with Section 8301.15 at least 45 days prior to the effective date of the change.

Investor Accounting reports, such as the Servicer's daily Edit Reports, Monthly Account Statement, System Cleared Edits, and Loan Reconciliation Difference Report are available through the Loan Level Reporting tool.

If the Servicer fails to comply with Freddie Mac's reporting requirements, Freddie Mac will assess a reporting noncompliance compensatory fee in accordance with the requirements of Sections 8303.36 and 8303.38. See Section 8301.9 for additional information on reporting formats.

For further information, call 800-FREDDIE.

8301.11: Loan-level transaction (05/01/19)

The term loan-level transaction refers to the required monthly and exception or liquidation reporting of all activity that occurs during each Accounting Cycle for each Mortgage serviced for Freddie Mac. Freddie Mac considers a loan-level transaction to be reported when it has been transmitted by the Servicer without errors and received by Freddie Mac.

Daily reporting is encouraged, but not required. Servicers must submit a loan-level transaction for each Mortgage serviced for Freddie Mac no later than 2:00 a.m. Eastern Time on the day following the P&I Determination Date. Servicers are required to report loan level activity from purchase date to liquidation. Refer to Exhibit 60, Loan-Level Reporting Data Description. Refer to Section 8303.1 for the definition of exception (or liquidation) activity.

8301.12: Accounting Cycle (05/01/19)

The Accounting Cycle will be the first day of the calendar month through the last day of the calendar month. Servicer reporting for the Accounting Cycle must be completed no later than the last day of the calendar month plus one Business Day.

8301.13: Cash float (05/01/19)

Freddie Mac does not draft monthly principal and interest until the P&I Draft Date. The Servicer may earn interest on the cash float of funds it deposits into the Custodial Accounts. Refer to Section 8304.4 for Freddie Mac's requirements regarding the investment of funds in the Custodial Accounts.

8301.14: Other reporting and remitting requirements (05/01/19)

Freddie Mac will draft the principal and interest for a repurchase in accordance with the requirements in Section 8303.14. The Servicer must transfer funds into the designated Custodial Account prior to Freddie Mac's draft of the repurchase proceeds.

Refer to Chapter 3602 for additional requirements for repurchases required by Freddie Mac or repurchases requested by the Servicer.

The following are default management procedures that have reporting and drafting requirements specified in other sections of the Guide:

Topic	Section
1. Repayment plans	9203.11
2. Loan modifications	9206.18
3. Short sales and make-whole preforeclosure sales	9208.8
4. Deeds-in-lieu of foreclosure	9209.8
5. Charge-offs	9210.5
6. Third-party foreclosure sales	9301.43

8301.15: Service bureau liability and notice of change of service bureau (05/01/19)

If the Servicer uses a service bureau for data processing, the Servicer remains responsible for all obligations to Freddie Mac under the Purchase Documents (Section 8102.1(d)). The Servicer must pay any noncompliance compensatory fees, even though it may be the Servicer's service bureau's error that causes the noncompliance.

Servicers that elect to use a service bureau to report activity on Mortgages serviced for Freddie Mac acknowledge and agree that Freddie Mac will send reports, data and information on these Mortgages that will include, but not be limited to, the daily Business-to-Business Response File and the Business-to-Business Draft File to the Servicer's service bureau.

If a Servicer changes its service bureau or begins to use a new service bureau for data reporting or would like Freddie Mac to send these files to a specific service bureau, it must notify Freddie Mac at least 45 days prior to the effective date of the change. The Servicer must provide this notification via e-mail ([Servicing Ops App Support IR@FreddieMac.com](mailto:Servicing_Ops_App_Support_IR@FreddieMac.com)) and include the Seller/Servicer number(s), point of contact, phone number, current and future service bureau with its contact information, and effective date of the change. Servicers acknowledge that the notification of a change of service bureau is necessary for Freddie Mac to provide reports, edits and feedback to the correct service bureau.

8301.16: Backup reporting (03/02/16)

If Freddie Mac does not receive a loan-level transaction by the required reporting date for any reason, the Servicer must be able to provide Freddie Mac (see **Directory 7**) with corrected or replacement transmissions within 24 hours of Freddie Mac's request and the Servicer will be subject to accounting reporting noncompliance compensatory fees. Refer to Chapter 8303 for noncompliance compensatory fees.

8301.17: Administering Custodial Accounts (03/02/16)

The Servicer is responsible for administering Custodial Accounts to safeguard funds due Freddie Mac. In addition, the Servicer must ensure that each account is adequately funded and reconciled monthly. Refer to Chapter 8302 for requirements on establishing Custodial Accounts and to Chapter 8304 for requirements on administering and reconciling the cash in the Custodial Accounts.

8301.18: Custodial Account reconciliation basics (05/01/19)

The Servicer must reconcile all Custodial Accounts monthly as of the end of the Accounting Cycle. A Custodial Account reconciliation compares the funds on deposit as of the end of the Accounting Cycle to the total liability as of the same date. Any differences between any two parts of the investor accounting process may cause a Custodial Account to be out of balance. Refer to Chapter 8304 for Freddie Mac's requirements.

8301.19: Servicer advances required (05/01/19)

The Servicer must advance its funds into the Principal and Interest Custodial Account if:

1. There are insufficient funds to cover the draft amount due Freddie Mac
2. The Servicer is completing a Mortgage repurchase
3. The Servicer has an unidentified and unresolved variance on the Custodial Account Reconciliation resulting in the account being under funded. See Chapter 8304.

The Servicer:

- Must make any advances for funds due Freddie Mac prior to the P&I Draft Date and/or the applicable Payoff Draft Date
- Must make a deposit advanced from its funds into the Escrow Custodial Account whenever a deficiency occurs in an individual Escrow account
- Must not use the Escrow collections from one Mortgage to offset the deficiency of another
- May not carry a negative balance in either the Principal and Interest Custodial Account or the Escrow Custodial Account even if permitted by its depository institution

The Servicer may reimburse itself for:

- Advances of Principal and Interest Payments upon subsequent receipt of any Principal and Interest Payments
- Advances of Escrow from Escrow Funds received for the Mortgage for which the Servicer made the advance

Chapter 8302: Investor Reporting and Remitting Functions

8302.1: Custodial Accounts required (05/01/19)

For all Mortgages serviced for Freddie Mac, the Servicer must open and maintain a Custodial Account for Principal and Interest Payments and a separate Custodial Account for Escrow Funds for each Seller/Servicer number. The Servicer must open these accounts in accordance with the requirements of this section, and utilize these accounts exclusively for the Mortgages it services for Freddie Mac. The Servicer must hold any funds the Servicer receives for Freddie Mac-owned Mortgages in a Custodial Account at all times. The Servicer must ensure that the accounts are adequately funded at all times, and may not carry a negative balance, even if permitted by its depository institution.

The Servicer must maintain these funds in their respective Custodial Accounts until Freddie Mac drafts the funds or the Servicer pays for allowed Mortgage expenses with the Escrow Funds in the Escrow Custodial Account:

(a) Principal and Interest Custodial Account

The Servicer must open a Principal and Interest Custodial Account for each Seller/Servicer number to deposit Principal and Interest Payments solely for the Mortgages the Servicer services for Freddie Mac. The Servicer has the option to open more than one Principal and Interest Custodial Account. If the Servicer opens more than one Principal and Interest Custodial Account, the Servicer must designate one of them as the primary account from which Freddie Mac will draft principal and interest payments and payoffs or, alternatively, the Servicer may open a separate Principal and Interest Disbursement Clearing Custodial Account. Refer to Section 8302.2 for the Disbursement Clearing Account requirements.

See Section 8304.5 for information on maintaining the Principal and Interest Custodial Account.

(b) Escrow Custodial Account

The Servicer must hold Escrow Funds in a separate Escrow Custodial Account for each Seller/Servicer number. Even if the Servicer does not collect Escrow Funds, the Servicer must open an Escrow Custodial Account in the event that the Servicer receives funds for insurance claims proceeds, partial payments or buydown funds. In addition, although Freddie Mac allows the Servicer to hold buydown funds in an Escrow Custodial Account, the Servicer has the option to open a separate Buydown Custodial Account for buydown funds.

See Section 8304.6 for information on maintaining the Escrow Custodial Account.

8302.2: Disbursement clearing accounts (05/01/19)

A disbursement clearing account is a bank account the Servicer maintains for the deposit of funds due to Freddie Mac or paid to third parties, such as insurance premiums or property taxes.

(a) Principal and Interest Disbursement Clearing Custodial Account

A Principal and Interest Disbursement Clearing Custodial Account is only necessary if the Servicer chooses to maintain the account from which Freddie Mac drafts funds as a separate account. The Servicer may not clear Freddie Mac's funds through an operating account or a general account through which the Servicer processes non-Freddie Mac Automated Clearing House (ACH) transfers.

If the Servicer chooses to open and use a Principal and Interest Disbursement Clearing Custodial Account, the Servicer must meet the following requirements:

1. Open, maintain and designate the account in accordance with the requirements of Sections 8302.3 through 8302.7
2. Deposit only funds due to Freddie Mac
3. Ensure that the disbursement clearing account is adequately funded prior to the applicable draft date

(b) Escrow Disbursement Clearing Account

Freddie Mac does not require the Servicer to maintain a separate Escrow Disbursement Clearing Account for Escrow Funds. However, if the Servicer elects to deposit Escrow Funds into an Escrow Disbursement Clearing Account, the Servicer:

- May deposit Escrow Funds for Freddie Mac's Mortgages into an Escrow Disbursement Clearing Account common to all Mortgages the Servicer services
- Must ensure that it transfers the Escrow Funds from the Escrow Custodial Account to its Escrow Disbursement Clearing Account no more than one Business Day prior to the disbursement of any Escrow Funds
- Must ensure that the Escrow Disbursement Clearing Account is adequately funded prior to the disbursement of any Escrow Funds

An Escrow Disbursement Clearing Account is not subject to Custodial Account designation or documentation requirements, as set forth in Sections 8302.6 and 8302.7.

8302.3: Opening Custodial Accounts (04/12/23)

The Servicer must open and maintain all Custodial Accounts at an Eligible Depository.

If the Servicer's institution is an Eligible Depository that meets the requirements contained in this chapter, the Servicer may open and maintain Custodial Accounts within its own financial institution. The Servicer must indemnify Freddie Mac for and hold it harmless from any loss, damage or expenses (including court costs and attorney fees) that Freddie Mac sustains as a direct or indirect result of the financial institution's bankruptcy, receivership, liquidation or insolvency. Refer to Sections 8302.4 and 8302.5 for Eligible Depositories.

The Servicer agrees to safeguard at all times the funds it maintains in Custodial Accounts on behalf of Freddie Mac. Even if the Servicer has complied with all Guide and Purchase Document requirements, Servicer agrees to indemnify and hold Freddie Mac harmless for any loss of funds deposited in a Custodial Account and any damages Freddie Mac suffers because of delays in obtaining the funds from a Custodial Account.

If the Servicer itself is a depository institution that meets the requirements contained in this chapter for an Eligible Depository, or the Servicer is a subsidiary of or under common ownership of such a depository institution, the Servicer may open and maintain a custodial clearing account and Custodial Accounts within such depository institution.

The Servicer may initially deposit Freddie Mac funds into one or more custodial clearing accounts prior to transferring such funds to the appropriate Custodial Account and the Servicer may record that initial deposit in a general ledger account or internal operating account for record keeping purposes provided that:

- The Servicer opens separate Custodial Accounts as otherwise required under the Guide and applicable Purchase Documents;
- The institution at which any custodial clearing accounts are maintained meets the requirements to be an Eligible Depository;
- The custodial clearing account is titled in accordance with Section 8302.6(e); and
- The Servicer and the institution maintain adequate records and audit trails to support all credits to, and charges from, the Borrower's payment records and the custodial clearing accounts and separate Custodial Accounts

Each Custodial Account must be a Demand Deposit Account or Interest-Bearing Deposit Account. The Servicer's use of an Interest-Bearing Deposit Account is conditioned upon Freddie Mac's ability to present a sight draft and to draft monthly principal and interest payments and payoffs when due. If a Custodial Account limits the number of withdrawals, or requires prior notice for withdrawals, the Servicer is responsible for any payments or penalties that result from excessive withdrawals or withdrawals where advance notice is insufficient.

The Servicer must maintain its books and records in good faith and in the regular course of business, and the Custodial Accounts and the funds held therein must be free and clear of any and all liens or claims of others, including security agreements.

If the Custodial Accounts are maintained in an Eligible Depository that is a FDIC-Insured Depository or a NCUSIF-Insured Depository, then:

- The Servicer's books and records must reflect that the funds in the Custodial Accounts are held in a custodial capacity for the benefit of Freddie Mac and/or other specified parties, and must identify the respective interests of all such persons;
- The Servicer must maintain the Custodial Accounts and its books and records in accordance with all requirements for full federal insurance coverage

The Custodial Accounts must permit Freddie Mac to directly draft funds for principal and interest payments and payoffs.

8302.4: Depository eligibility requirements (04/12/23)

To ensure the safety of funds in Custodial Accounts, Freddie Mac has specific eligibility requirements that a depository must meet.

An Eligible Depository for the Custodial Accounts must be one of the following:

- A Federal Reserve Bank
- A Federal Home Loan Bank
- An FDIC-Insured Depository
- An NCUSIF-Insured Depository

An FDIC-Insured Depository or an NCUSIF-Insured Depository must also meet Freddie Mac's acceptable risk threshold and minimum tier rating requirements specified in Section 8302.5.

Depositories for Escrow and Buydown Custodial Accounts must meet Freddie Mac's depository eligibility requirements and are also required to meet Freddie Mac's acceptable risk threshold as stated in Section 8302.5.

8302.5: Insured depository risk level (04/12/23)

An FDIC-Insured Depository or an NCUSIF-Insured Depository for Principal and Interest Custodial Accounts must maintain an acceptable risk threshold based upon Freddie Mac's confidential tolerance standards calculated using various key metrics. Servicers will be notified if its depository has fallen below the acceptable risk threshold.

In addition to the acceptable risk threshold, an FDIC-Insured Depository or an NCUSIF-Insured Depository must meet the following requirements:

- Be rated as "well capitalized" by its federal or State regulator; and
- Have a financial rating that meets at least one of the following criteria:
 1. Institutions with assets of \$30 billion or more must have either
 - A short-term issuer rating by S&P of "A-3" (or better) or, if no short-term issuer rating is available by S&P, a long-term issuer rating of "BBB-" (or better) by S&P; or
 - A short-term bank deposit rating by Moody's of "P-3" (or better) or, if no short-term bank deposit rating is available by Moody's, a long-term bank deposit rating of "Baa3" (or better) by Moody's
 2. Institutions with assets of less than \$30 billion must have either a:
 - 125 (or better) Bank safety rating issued by IDC Financial Publishing, Inc.; or
 - C+ (or better) KBRA Financial Intelligence (KFI) Score issued by Kroll Bond Rating Agency, LLC

The Servicer must monitor these ratings based on the frequency used by the ratings agency for publishing and updating rating changes to determine the continued eligibility of a depository institution.

Freddie Mac may require that funds be transferred out of an Eligible Depository—even if the institution satisfies Freddie Mac's financial rating criteria—or more quickly than indicated above if Freddie Mac decides that it is in its best interests or the interests of PC, MBS and/or UMBS® investors to do so.

A depository institution that is a subsidiary of a holding company or an affiliate of another depository may, on a case-by-case basis, have its rating affected by the rating of its holding company or affiliate. FDIC regulations may require related depository institutions to guarantee the obligations of the troubled depository institutions. As a result, the related depository institution may be subject to a risk of regulatory action and Freddie Mac may deem it to be ineligible even if it meets Freddie Mac's acceptable risk level. The Servicer may want to consider this when selecting or monitoring its depository.

8302.6: Custodial Account and custodial clearing account designation requirements (04/12/23)

The Servicer must designate Custodial Accounts exactly as stated in subsections (a) through (d) below and custodial clearing accounts stated in subsection (e) below. The Servicer's books and records pertaining to Custodial Accounts and custodial clearing accounts must at all times comply with these account designation requirements. The Servicer represents and warrants to, and covenants and agrees with, Freddie Mac that all books and records of the Eligible Depository pertaining to such Custodial Accounts and custodial clearing accounts shall at all times comply with requirements in subsections (a) through (e) below.

(a) Principal and Interest Custodial Accounts

The following account designation must be used: "(Name of Depositor/Servicer), as Custodian and/or bailee for Federal Home Loan Mortgage Corporation and/or various owners of interests in mortgages and/or mortgage-related securities and/or various mortgagors."

Alternatively, a Principal and Interest Custodial Account may be designated by the following abbreviated designation: "Freddie Mac P & I Custodial Account." However, if the abbreviated designation is used, then for all purposes of the Purchase Documents, and with respect to all rights and interests of Freddie Mac and/or various owners of interests in Mortgages and/or Mortgage-related securities and/or mortgagors, the abbreviated account designation shall be deemed to be the same as the unabbreviated account designation and shall be deemed to confer upon Freddie Mac and such persons the same rights and interests with respect to the Principal and Interest Custodial Account and the funds deposited or held therein.

(b) Principal and Interest Disbursement Clearing Custodial Accounts

The following account designation must be used: "(Name of Depositor/Servicer), as custodian and/or bailee for Federal Home Loan Mortgage Corporation and/or various owners of interests in mortgages and/or mortgage-related securities and/or various mortgagors."

Alternatively, a Principal and Interest Disbursement Clearing Custodial Account may be designated by the following abbreviated designation: "Freddie Mac P & I Clearing Custodial Account." However, if the abbreviated designation is used, then for all purposes of the Purchase Documents, and with respect to all rights and interests of Freddie Mac and/or various owners of interests in Mortgages and/or Mortgage-related securities and/or mortgagors, the abbreviated account designation shall be deemed to be the same as the unabbreviated account designation and shall be deemed to confer upon Freddie Mac and such persons the same rights and interests with respect to the Principal and Interest Disbursement Clearing Custodial Account and the funds deposited or held therein.

(c) Escrow Custodial Accounts

The following account designation must be used: "(Name of Depositor/Servicer), as trustee and/or custodian for Federal Home Loan Mortgage Corporation and various mortgagors, respectively."

Alternatively, an Escrow Custodial Account may be designated by the following abbreviated designation: "Freddie Mac Escrow Custodial Account." However, if the abbreviated designation is used, then for all purposes of the Purchase Documents, and with respect to all rights and interests of Freddie Mac and/or mortgagors, the abbreviated account designation shall be deemed to be the same as the unabbreviated account designation and shall be deemed to confer upon Freddie Mac and such persons the same rights and interests with respect to the Escrow Custodial Account and the funds deposited or held therein.

(d) Buydown Custodial Accounts

If an optional Buydown Custodial Account is used in accordance with the provisions of Section 8302.1(b), the following account designation must be used: "(Name of Depositor/Servicer), as trustee and/or custodian of mortgage loan subsidy buydown funds for Federal Home Loan Mortgage Corporation and various mortgagors, respectively."

Alternatively, a Buydown Custodial Account may be designated by the following abbreviated designation: "Freddie Mac Buydown Custodial Account." However, if the abbreviated designation is used, then for all purposes of the Purchase Documents, and with respect to all rights and interests of Freddie Mac and/or mortgagors, the abbreviated account designation shall be deemed to be the same as the unabbreviated account designation and shall be deemed to confer upon Freddie Mac and such persons the same rights and interests with respect to the Buydown Custodial Account and the funds deposited or held therein.

(e) Custodial clearing accounts

Servicers utilizing custodial clearing accounts must title the account to indicate it is custodial in nature and include at a minimum "for the benefit of the Federal Home Loan Mortgage Corporation" in the account title.

8302.7: Custodial Account documentation requirements (06/19/19)

The Servicer must submit the following documentation to Freddie Mac upon opening the Servicer's Custodial Accounts at an Eligible Depository. Freddie Mac bases the required documentation on whether the Servicer opens the accounts at its own financial institution or at another Eligible Depository.

(a) Custodial Accounts opened at the Servicer's own financial institution

If the Servicer is an Eligible Depository and opens Custodial Accounts at its own financial institution, the Servicer must complete, execute and return the following documentation to Freddie Mac (**see Directory 1**) for each Custodial Account:

1. Form 1059SF, Letter Agreement for Single-Family Principal and Interest, or P & I Disbursement Clearing Custodial Account
2. Form 1060SF, Letter Agreement for Single-Family Buydown or Escrow Custodial Account
3. Form 1060CR, Letter Agreement for Single-Family Custodial Account for Renovation Funds

The Servicer must also send Freddie Mac a copy of the bank statement or signature card for each account, designated as required in Section 8302.6. The documentation must identify the Eligible Depository at which the account is maintained and the bank account number.

(b) Custodial Accounts opened at another Eligible Depository

If the Servicer opens Custodial Accounts at an Eligible Depository other than its own financial institution, both the Servicer and the depository's representative must complete, execute and return the following documentation to Freddie Mac (**see Directory 1**) for each Custodial Account:

1. Form 1057SF, Letter Agreement for Servicer's Single-Family Principal and Interest, or P & I Disbursement Clearing Custodial Account
2. Form 1058SF, Letter Agreement for Servicer's Single-Family Buydown or Escrow Custodial Account
3. Form 1058CR, Letter Agreement for Seller/Servicer's Single-Family Custodial Account for Renovation Funds

The Servicer must also send Freddie Mac a copy of the bank statement or signature card for each account, designated as required in Section 8302.6. The documentation must identify the Eligible Depository at which the account is maintained and the bank account number.

(c) Additional requirements

For each Seller/Servicer number for the Principal and Interest Custodial Account or Principal and Interest Disbursement Clearing Custodial Account the Servicer selects as its remittance drafting account according to the requirements of Sections 8302.1(a) and 8302.2(a), Freddie Mac requires the Servicer to submit a copy of the Letter of Authorization (Exhibit 58, Draft Letter of Authorization), printed on the Servicer's institution's letterhead, to Freddie Mac

(see **Directory 1**). The sample letter included in Exhibit 58 provides the Servicer with the information that must be included in the letter of authorization. Even if the Servicer opens its Custodial Account at its own financial institution, the Servicer must execute this letter. The depository where the Servicer opened and maintains the account must keep a copy of this letter.

8302.8: Honoring sight drafts (03/02/16)

The Eligible Depository the Servicer selects must honor sight drafts Freddie Mac may present at any time against any Custodial Account and/or related Time Deposit that the Servicer maintains. Freddie Mac's authorized officer, employee, representative, agent or attorney must sign the sight draft. Freddie Mac will identify the authorized individual in Form 1061, Certificate of Incumbency and Authority to Draft Against Custodial Accounts, or a similar form containing identical information, including a photocopy or facsimile copy.

The sight draft Freddie Mac presents may be an original, a photographic or facsimile copy of Form 1062, Sight Draft, or a similar form containing identical information. Honoring such a sight draft is one of the requirements in the letter agreements referenced in Section 8302.7(a) or 8302.7(b).

8302.9: What funds to deposit to the Custodial Accounts (06/12/19)

The Servicer must deposit the following funds for Mortgages in which Freddie Mac holds an ownership interest to a Principal and Interest Custodial Account or an Escrow Custodial Account. The Servicer must not deposit funds from Mortgages that Freddie Mac does not own or from other investors into the Custodial Accounts that the Servicer maintains to hold funds for Freddie Mac's Mortgages:

(a) Principal and Interest Custodial Accounts

The Servicer must deposit only funds due to Freddie Mac into a Principal and Interest Custodial Account. As an exception, the Servicer may deposit the full Principal and Interest Payment received into the Principal and Interest Custodial Account and subsequently withdraw its Servicing fee. Following is a list of the funds the Servicer must deposit into the Principal and Interest Custodial Account for Freddie Mac's Mortgages:

1. Principal and Interest Payments on all of Freddie Mac's Mortgages whether received from the Borrower or paid on the Borrower's behalf, applied from the buydown account or advanced by the Servicer
2. Biweekly payments that require biweekly amortization based on the Note terms of Mortgages originally sold to Freddie Mac as biweekly

3. Principal curtailments
4. Payoff proceeds including those from short sales and third-party foreclosure sales
5. Prepayment penalties, if applicable
6. Repurchase proceeds

(b) Escrow Custodial Accounts

The Servicer must deposit all Escrow Funds for Freddie Mac's Mortgages into an Escrow Custodial Account opened and maintained according to Freddie Mac's requirements. Following is a list of the funds that the Servicer must deposit into the Escrow Custodial Account for Freddie Mac's Mortgages:

1. All Escrow Funds paid by, or on behalf of, the Borrower or advanced by the Servicer
2. Funds deposited by the Servicer on a Borrower's behalf such as property insurance claim proceeds
3. Payments held as unapplied or in suspense pending proper distribution such as, partial payments and biweekly payments from plans that allow for biweekly collection of payments on monthly amortizing Mortgages
4. Buydown funds scheduled for future application as part of a Borrower's Principal and Interest Payment. The Servicer may also choose the option of maintaining buydown funds separately as provided in Section 8302.1(b).

8302.10: When to deposit funds to the Custodial Accounts (04/12/23)

Servicers that utilize a custodial clearing account must deposit all funds the Servicer receives for Freddie Mac's Mortgages into the custodial clearing accounts on the day the Servicer receives the funds.

Servicers must deposit all funds the Servicer receives for Freddie Mac's Mortgage into Custodial Accounts no later than the first Business Day after the Servicer receives them. However, if the Servicer uses a lockbox service or other service to collect payments, the Servicer must apply the payment and deposit the funds to Freddie Mac's corresponding Custodial Accounts no later than the second Business Day after the day on which the lockbox or other service received the payment.

Other than a Borrower's payment, the Servicer must make all additional required deposits to the Custodial Accounts as referenced in Section 8302.9 so the funds are available by the remittance drafting or Escrow disbursement due date.

8302.11: Changing or transferring Custodial Accounts (03/02/16)

For information on changing or transferring the Servicer's established Custodial Accounts, refer to Sections 8304.10 through 8304.12 for Freddie Mac's requirements.

8302.12: Administering and reconciling Custodial Accounts (03/02/16)

The Servicer must reconcile all of Freddie Mac's Custodial Accounts on a monthly basis. Refer to Chapter 8304 for Freddie Mac's administration and reconciliation requirements.

8302.13: Setting up the automated cash remittance process (05/01/19)

Effective May 1, 2019, this section is deleted.

8302.14: Remitting via the automated cash remittance system (05/01/19)

Effective May 1, 2019, this section is deleted.

8302.15: Initiating remittances to Freddie Mac (05/01/19)

Effective May 1, 2019, this section is deleted.

8302.16: Changing or transferring the drafting account (05/01/19)

A Servicer must comply with the requirements in Sections 8304.10 through 8304.12 in order to change or transfer the Principal and Interest Custodial Account from which Freddie Mac drafts its monthly principal and interest payments and payoff amounts.

8302.17: Transmitting and receiving investor accounting information (12/09/19)

Freddie Mac requires the Servicer to submit all reports to Freddie Mac via one of Freddie Mac's automated systems. The Servicer's portfolio size and available technology will help determine which system or combination of systems the Servicer will need.

Below are the media the Servicer may use to transmit loan level data to Freddie Mac or to receive certain information from Freddie Mac:

ACTIVITY	MEDIA
Transmit loan level activity to Freddie Mac	<ul style="list-style-type: none">■ Loan Level Reporting and Foreclosure Sale Reporting (available through the Servicing Gateway) (see Exhibit 88, Servicing Tools)■ Internet-based transmission (GCS)■ Other Freddie Mac-approved reporting method
Receive transmission confirmations from Freddie Mac	<ul style="list-style-type: none">■ Loan Level Reporting and Foreclosure Sale Reporting (available through the Servicing Gateway)■ Internet-based transmission (GCS)
Receive reports and communications from Freddie Mac	<ul style="list-style-type: none">■ Loan Level Reporting and Foreclosure Sale Reporting (available through the Servicing Gateway)
Receive purchase statements and funding detail reports	<ul style="list-style-type: none">■ Loan Selling Advisor®

Freddie Mac provides the Investor Reporting EDI Implementation Guide as an additional resource related to investor accounting.

The Servicer may also visit Freddie Mac Learning at <https://sf.freddiemac.com/tools-learning/freddie-mac-learning/overview> to access training resources or call the Customer Support Contact Center at 800-FREDDIE.

8302.18: Pre-purchase activity (08/03/20)

Refer to the following chapters for Freddie Mac's Mortgage processing and purchase requirements:

- Chapter 6101, Fixed-Rate Cash
- Chapter 6102, ARM Cash
- Chapter 6301, Documentation Delivery
- Chapter 6302, Mortgage Delivery Instructions

8302.19: Mortgage purchase (04/12/23)

When Freddie Mac purchases a Mortgage, it will:

1. Make the following forms and data available via Loan Selling Advisor®
 - Form 15/A/C, Loan Purchase Statement
 - Funding Detail Report
2. Wire the Purchase Proceeds to the Seller for a Cash Purchase Contract or issue a security (UMBS®, MBS, WAC ARM PC or Supers®) for Guarantor or MultiLender Swap programs

(a) Loan Purchase Statement

Upon purchase, Freddie Mac will make available in Loan Selling Advisor Form 15/A/C which will summarize the pertinent data. Form 15/A/C will include a computation of the amount to be funded to the Seller.

Depending on the type of purchase, the Seller may access one of the following forms in Loan Selling Advisor:

1. Loan Purchase Statement for Cash Sales
2. Form 15A for fixed-rate Guarantor
3. Form 15C for WAC ARM Guarantor

(b) Funding Detail Report

Freddie Mac will make available to the Seller/Servicer a Funding Detail Report via Loan Selling Advisor when Freddie Mac purchases a Mortgage or when the Servicer assumes the Servicing Contract and related Servicing Contract Rights related to one or more of Freddie Mac's Mortgages through a Concurrent Transfer of Servicing. (See Chapter 7101 for information on Transfers of Servicing.) The Funding Detail Report contains all of the information the Servicer needs to set up and report a Mortgage (see Section 8302.20).

(c) Wiring the Purchase Proceeds or issuing a UMBS, MBS, WAC ARM PC or Supers

Freddie Mac will notify the Seller of Freddie Mac's purchase and initiate a wire transfer to credit the Seller's account on the Funding Date for Cash Purchase programs. See Section 2201.2 for additional information regarding establishing and maintaining wire transfer instructions for cash proceeds. For Guarantor or certain MultiLender Swaps, Freddie Mac will issue a UMBS, MBS or WAC ARM PC; for other MultiLender Swaps, Freddie Mac will issue a Super (see Section 6201.1 for more information).

The Seller is responsible for verifying the receipt of funds. If the Seller finds that the wired funds are not credited to the account by the morning of the next Business Day, the Seller must contact Freddie Mac Customer Support at 800-FREDDIE.

The Servicer must not utilize the Freddie Mac Custodial Account to receive sales proceeds for Mortgages sold to Freddie Mac.

8302.20: Setting up a Mortgage record (04/12/23)

The Seller/Servicer may access the Form 15/A/C, Loan Purchase Statement, and Funding Detail Report through Loan Selling Advisor®. (Call the Customer Support Contact Center at 800-FREDDIE to request access to Loan Selling Advisor for this purpose.) The Servicer must verify the data on the Funding Detail Report to the Note, Mortgage record and Purchase Documents and take the following actions for each newly funded Mortgage, including those related to a Concurrent Transfer of Servicing. For Subsequent Transfers of Servicing, the Transferor Servicer must supply the loan-level data to the Transferee Servicer.

Upon Freddie Mac's purchase, prompt identification of the accounting records for Mortgages sold to Freddie Mac is essential for accurate reporting and remitting. The Servicer must:

1. Identify on its Servicing system Mortgages in which Freddie Mac has an ownership interest

2. Deposit any principal and interest and Escrow Funds to the Custodial Accounts
3. Maintain the Mortgage files in accordance with the requirements of Section 8101.7 and Chapter 3302

Note: The Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools) imports Mortgage files daily. If a Mortgage record is missing from the Service Loans application, the Servicer should contact its investor reporting specialist or call the Customer Support Contact Center at 800-FREDDIE for assistance in setting up the Mortgage record.

8302.21: Purchase adjustments (06/03/19)

When the information on the Funding Detail Report does not match the information on the Note or the Seller's loan record, the Seller may request an adjustment to the amount Freddie Mac disbursed to purchase the Mortgage. The Seller must notify Freddie Mac in writing and include supporting documentation.

In most circumstances Freddie Mac will not adjust purchase balances after the Funding Date because Freddie Mac has pooled the Mortgages for resale as UMBS®, MBS or WAC ARM PCs. However, after Freddie Mac settles and before it pools the Mortgages, Freddie Mac may be able to adjust a purchase balance.

8302.22: Reporting and remitting on a newly-funded Mortgage (05/01/19)

The Mortgage balance and the timing of the Funding Date determine when the Servicer must report for the first time on a newly-funded Mortgage. The Servicer must report on the newly-funded Mortgage according to its Purchase Documents. When Freddie Mac purchases a Mortgage, Freddie Mac will pay the Seller interest on the funded principal balance at the net yield from the first of the month up to the Funding Date. The Servicer must ensure that it properly funds its Principal and Interest Custodial Account for this interest. The following table summarizes when the Servicer must report to Freddie Mac.

IF the Funding Date is...	AND the balance at the end of the Accounting Cycle...	THEN Freddie Mac's reporting requirements are...	AND, Freddie Mac's draft requirements are...
In the current Accounting Cycle	Is not different from the funded balance	Report the forecasted scheduled interest for the next Accounting Cycle	No funds are due. The forecasted scheduled interest will be drafted on the P&I Draft Date in the next Accounting Cycle.
	Is different from the funded balance	The Servicer must report principal and forecasted scheduled interest based on the Ending UPB	If reported before the P&I Determination Date, Freddie Mac will draft its share of the reported principal and zero interest on the P&I Draft Date in the current Accounting Cycle. If reported after the P&I Determination Date, Freddie Mac will draft its share of the reported principal and forecasted scheduled interest on the P&I Draft Date in the next Accounting Cycle.

Chapter 8303: Reporting and Drafting Requirements

8303.1: Definitions of terms specific to chapter (02/12/20)

The following additional terms are used in this chapter. The terms are italicized here and when they are used in the chapter.

(a) *Active Mortgage*

An *active* Mortgage is a current or delinquent Mortgage for which the Servicer reports and Freddie Mac drafts payments and payoffs.

(b) *Biweekly Mortgage*

A *biweekly* Mortgage is a Mortgage that is originated and delivered to Freddie Mac with a biweekly payment schedule in which the Borrower makes a principal and interest payment every two weeks pursuant to either the terms of the Note, a rider, or a separate agreement.

A Mortgage in which the Servicer and Borrower enter a biweekly payment plan in accordance with Section 8104.2 after the Mortgage has been sold to Freddie Mac is not considered a *biweekly* Mortgage.

(c) *Inactive Mortgage*

An *active* Mortgage becomes an *inactive* Mortgage in the Accounting Cycle it becomes 120 days delinquent (four payments past due). The Servicer must change the *reporting status* to *inactive* either by selecting “inactivation” in the Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools) or reporting Loan Level Reporting exception code 40 (Inactivation). If the Servicer does not inactivate a Mortgage in the Accounting Cycle it becomes 120 days delinquent, Freddie Mac will inactivate the Mortgage. Once a Mortgage is inactivated, no monthly principal and interest will be drafted unless the Mortgage is partially or fully reinstated.

(d) *Exception (or liquidation) activity*

Exception (or liquidation) activity is anything other than a regular monthly Principal and Interest Payment and partial prepayment. It includes:

- Payoff – matured
- Payoff – prepaid

- Payoff – repurchase
- Payoff – conversion (adjustable-rate Mortgage converting to a fixed-rate Mortgage)
- Payoff – short sale, charge-off or make-whole
- Third party foreclosure sale (conventional and FHA/VA)
- Transfer to REO
- Deeds-in-lieu of foreclosure
- FHA/VA foreclosure conveyance

(e) *Principal and interest activity*

Principal and interest activity is the regular monthly Principal and Interest Payment due to Freddie Mac and any partial prepayment. This is also referred to as *non-exception activity*.

(f) *Reporting status*

The *reporting status* represents the information listed in Exhibit 60, Loan-Level Reporting Data Description, that the Servicer may report daily, but must report to Freddie Mac at least monthly on or before the P&I Determination Date for all *active* and *inactive* Mortgages the Servicer services for Freddie Mac.

(g) *Exception interest*

Interest due to Freddie Mac calculated from the number of days from the first calendar day of the month up to, but not including, the exception date. The *exception interest* is calculated by multiplying the Ending UPB of the prior Accounting Cycle, multiplied by the ANY divided by 365, multiplied by the number of days.

8303.2: Freddie Mac's rights (05/01/19)

Freddie Mac reserves the right to assess compensatory and other fees in accordance with the requirements of this chapter if the Servicer fails to comply with Freddie Mac's reporting and drafting requirements. The compensatory and other fees are set forth in Sections 8303.34 through 8303.43.

8303.3: Reporting and drafting (12/09/20)

Reporting is the process of transmitting the Borrower's payment status of all Freddie Mac's Mortgages via one of the Freddie Mac-approved reporting media described in Section 8301.10. The Servicer's transmissions must be usable, accurate and timely.

Based on Servicer monthly reporting, Freddie Mac will draft principal and interest and payoff amounts that are due to Freddie Mac.

The Servicer must report a loan-level transaction on a monthly basis for all Mortgages serviced for Freddie Mac. Freddie Mac considers a loan-level transaction to be reported when it has been transmitted by the Servicer without errors and received by Freddie Mac. If a Servicer does not report a loan-level transaction or does not clear all edits by the end of the Accounting Cycle, Freddie Mac will simulate a loan-level transaction and account for each unreported Mortgage as delinquent based on the last reported DDLPI.

In addition, the Servicer is required to report *liquidation activity* to Freddie Mac as it occurs.

(a) Monthly reporting activity

Daily reporting is encouraged, but not required. The Servicer must report a loan-level transaction for each Mortgage serviced for Freddie Mac once a month no later than 2:00 a.m. Eastern Time on the day following the P&I Determination Date regardless of whether any activity has occurred on the Mortgage. For each Mortgage, Servicers must report any revisions that occur after the P&I Determination Date by the end of the month plus one Business Day. In addition, Servicers are required to monitor daily edit reports provided by Freddie Mac and correct edits promptly, as provided by Section 8303.30.

Failure to comply with Freddie Mac's reporting requirements will result in the assessment of compensatory fees as set forth in Sections 8303.34 through 8303.43.

(b) Remittance cycle and Automated Clearing House (ACH) draft

The Standard Remittance Cycle applies to all Mortgages serviced for Freddie Mac. Freddie Mac will initiate an Automated Clearing House (ACH) draft to collect monthly principal and interest payments and payoffs directly from the Servicer's designated Custodial Account in accordance with the requirements of this section.

Monthly principal and interest will be drafted on the P&I Draft Date. The principal drafted will be the actual principal collected and reported after 2:00 a.m. Eastern Time on the day following the P&I Determination Date of the previous Accounting Cycle and the actual principal collected and reported to Freddie Mac no later than 2:00 a.m. Eastern Time on the day following the P&I Determination Date of the current Accounting Cycle. Principal reported to Freddie Mac after 2:00 a.m. Eastern Time on the day following the P&I Determination Date will be drafted on the P&I Draft Date of the next Accounting Cycle. The

interest drafted will be the amount of forecasted scheduled interest reported in the prior Accounting Cycle.

To authorize ACH drafting of monthly principal and interest payments and payoffs or to make changes to ACH draft account instructions previously provided, the Servicer must:

- Have submitted a completed, executed and duly authorized Form 1132A, Authorization for Automatic Transfer of Funds from Principal and Interest Custodial Account Through the Automated Clearing House (ACH)
- Provide Freddie Mac with an updated Form 1132A for any change to the ACH instructions no later than 15 Business Days before the last Business Day of the first month in which Freddie Mac will initiate the first draft to set up or make certain changes to the draft account
- Deliver Form 1132A to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Servicer's Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:
 - Attached to an e-mail and delivered to Freddie Mac at the following e-mail address: cashcollections@freddiemac.com; or
 - Uploaded through the Freddie Mac eBill system

Freddie Mac and the Servicer agree that the delivery of Electronic Records with Electronic Signatures are eligible Electronic Transactions (as defined in Section 1401.2) and are governed by the applicable provisions of Chapter 1401.

The employee authorized to execute Form 1132A on the Servicer's behalf must be designated as an "Authorized Employee" on the Servicer's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable (see Section 2201.1 for additional information regarding the Certificate of Incumbency requirements). Freddie Mac will perform a call back to verify receipt of authorized Form 1132A ACH instructions and will also process a non-dollar transaction using the information provided on Form 1132A to verify the accuracy of the instructions.

The account the Servicer designates on Form 1132A as the ACH draft account for the payment of monthly principal and interest and payoffs must be a Principal and Interest Custodial Account or a Principal and Interest Disbursement Clearing Custodial Account.

The Servicer agrees to notify Freddie Mac immediately at cashcollections@freddiemac.com of any changes to the status of the Servicer's designated Custodial Account.

If funds in the Servicer's designated Custodial Account are insufficient to cover the amount due, or if Freddie Mac is unable to draft principal and interest payments or payoff amounts from the Servicer's Custodial Account for any reason, the Servicer may be assessed a delayed draft compensatory fee in accordance with Section 8303.42.

(c) Exception or liquidation activity

The Servicer must report repurchases and prepaid payoffs by the second Business Day after the activity. Matured payoffs must be reported by the earlier of the maturity date or within two Business Days after the date the Servicer receives the funds, as provided by Section 8303.9. For all other exception activity, the Servicer must report by the fifth Business Day after the activity.

If reported no later than the second Business Day after the activity, or in the case of matured payoffs, two Business Days after funds are received, Freddie Mac will draft payoff proceeds on the fifth Business Day after the Payoff Date.

If the Servicer fails to report the payoff of a Mortgage that has reached maturity, Freddie Mac will simulate a payoff transaction for the Mortgage as of the first calendar day of the month following the maturity date. The proceeds will post to the Draft Report and will be drafted on the second Business Day after Freddie Mac simulates the matured payoff transaction. However, if Freddie Mac elects not to draft a payoff transaction for a matured Mortgage, Freddie Mac, in its sole discretion, may exercise its right to require the Servicer to repurchase the Mortgage. The Servicer will be responsible for all accrued interest through the date of payoff and the Servicer will incur a compensatory fee if the funds are not available to Freddie Mac by the applicable Payoff Draft Date. In addition, Freddie Mac reserves the right to assess a delayed draft noncompliance compensatory fee (see Section 8303.42) for all matured Mortgages for which the Servicer fails to report timely.

The Servicer will receive an edit if the Servicer attempts to report a *principal and interest activity* in the next Accounting Cycle following the month of maturity.

The table below summarizes reporting requirements for exception activities and when Freddie Mac will draft the payoff amounts.

Transaction	Exception Date	Liquidation Transaction	Reporting Timeline*	Payoff Draft Date	Draft Amount
Matured Payoff	The earlier of the maturity date or	Payoff - Matured	The earlier of the maturity date or	When reported within two Business Days after the	Proceeds

Transaction	Exception Date	Liquidation Transaction	Reporting Timeline*	Payoff Draft Date	Draft Amount
	receipt of funds by Servicer		within two Business Days of the receipt of funds by Servicer	exception date: five Business Days after the exception date. When reported more than two Business Days* after the exception date: the second Business Day after the payoff transaction was successfully processed. If not reported in the month in which the Mortgage matures, Freddie Mac will simulate a payoff transaction at the end, plus one Business Day, of the Accounting Cycle following the maturity date, which will establish the payoff date as the first calendar day of the month following the maturity date. The proceeds will post to the Draft Report and will be drafted on the second Business Day after Freddie Mac simulates the matured

*Payoffs reported more than two Business Days after the exception date are considered to be reported late and may be subject to compensatory fees

If the Servicer needs to delete a previously reported payoff, it must transmit a revision within the same Accounting Cycle in which it occurred. If the Servicer reports a payoff to Freddie Mac in error and the Servicer does not reverse it within the same Accounting Cycle, Freddie Mac will not be able to reactivate the Mortgage and the Servicer must advance its own funds to its Custodial Account which Freddie Mac will draft to liquidate the Mortgage.

Freddie Mac requires the Servicer to report timely and accurately. If the Servicer reports late or submits inaccurate data, Freddie Mac incurs a loss. As a result, the Servicer may be subject to a Servicing reporting noncompliance compensatory fee or a late remittance compensatory fee.

Refer to the following exhibits about reporting and remitting to Freddie Mac:

- Exhibit 60, Loan-Level Reporting Data Description
- Exhibit 61, Interest and Principal Due Freddie Mac

These exhibits will provide the data elements and calculations necessary for each transaction.

Refer to Section 8303.4 for specific requirements for reporting and remitting for Mortgages with partial principal forbearance.

8303.4: Monthly reporting and remittance requirements for Mortgages with partial principal forbearance (05/01/19)

In addition to the loan-level reporting requirements for all Mortgages in Chapter 8303 and Exhibit 60, Loan-Level Reporting Data Description, Servicers must comply with the following monthly loan-level reporting requirements for all Mortgages with a partial principal forbearance:

Data Field	Description
Current UPB	For all Mortgages , report the UPB of the Mortgage as of the end of the Accounting Cycle. For Mortgages with partial principal forbearance , the reported UPB must equal the sum of the interest-bearing UPB (the amortizing principal balance of the Mortgage or the “interest-bearing UPB”) and the principal forbearance balance (“deferred UPB”), as of the end of the Accounting Cycle.
Interest-bearing UPB	For Mortgages with partial principal forbearance , report the amount of the interest-bearing UPB (the amortizing principal balance of the Mortgage) as of the end of the Accounting Cycle. (Note: Monthly “Interest Due Freddie Mac” must be calculated and reported based on the interest-bearing UPB only.)

Data Field	Description
Deferred UPB	For Mortgages with partial principal forbearance, report the amount of deferred UPB as of the end of the Accounting Cycle. (Note: The deferred UPB is non-interest-bearing and non-amortizing, and will be due in the form of a balloon payment upon the earlier of the transfer of all or a portion of the property, the payoff of the interest-bearing UPB, or the new maturity date of the modified Mortgage.)
Principal Due Freddie Mac	For all Mortgages, report Freddie Mac's share of principal payments, including prepayments of principal (i.e., curtailments) applied to the interest-bearing UPB of the Mortgage during the Accounting Cycle.
Deferred Principal Curtailment Amount	For Mortgages with partial principal forbearance, report the amount of any principal curtailment applied to the deferred UPB during the Accounting Cycle. This amount must be included in the "Deferred UPB" field.

(a) Reporting corrections

Servicers must comply with the requirements of Section 8303.24 in the event of an understatement or overstatement of principal reduction to either the interest-bearing UPB or the deferred UPB.

(b) Exception reporting and remitting for a payoff of a Mortgage with partial principal forbearance

Servicers must comply with the applicable exception reporting requirements set forth in this chapter except that, when reporting the payoff of a Mortgage with a partial principal forbearance, Servicers must also comply with the following:

- The Current UPB, Interest-bearing UPB and Deferred UPB fields must be reported as zero
- The amount of deferred UPB as reported in the previous Accounting Cycle must be reported in the "Deferred Principal Curtailment Amount" field
- The amount of the current UPB (i.e., combined interest-bearing UPB and deferred UPB) as reported in the previous Accounting Cycle, plus or minus the *exception interest*, will be drafted with the Servicer's exception remittance. *Exception interest* must be based on the interest-bearing UPB only.

Servicers must calculate payoff proceeds in accordance with the following:

	Interest-Bearing UPB
+	Deferred UPB
+/-	<i>Exception interest</i> (calculated based on the interest-bearing UPB)
=	Proceeds due Freddie Mac

(c) Application of partial prepayments of principal

If the partial prepayment of principal (“principal curtailment”) is less than the interest-bearing UPB, it must be applied to the interest-bearing UPB. If the principal curtailment is equal to or greater than the interest-bearing UPB, then the principal curtailment must first be applied to the deferred UPB and any remaining curtailment to the interest-bearing UPB.

Servicers must report the amount of any curtailment applied to the deferred UPB during the Accounting Cycle in the “Deferred Principal Curtailment Amount” data field.

(d) Monthly statements

Freddie Mac recommends the Servicer include the amount of the deferred UPB and the combined interest-bearing and deferred UPBs on the Borrower’s monthly statement.

8303.5: Correcting reporting errors (12/09/19)

The Servicer must monitor all Edit Error reports (Edits to be Cleared, System Cleared Edits, Warning and Loan Level Missing) provided by Freddie Mac daily. If the Servicer discovers an error after it has transmitted its accounting reporting information, the Servicer must take immediate action to:

1. Correct the source of the error
2. Transmit a revision to Freddie Mac that reflects the Borrower’s payment activity or disposition of the Mortgage

If unable to resolve the issue, the Servicer should call Freddie Mac (see **Directory 7**) for instructions on how to correct the information. Servicers may refer to the Investor Reporting Quick Reference Guide for a detailed description of edit codes.

The Edit Error reports may be accessed through the Loan Level Reporting tool (see Exhibit 88, Servicing Tools).

If the Servicer fails to send Freddie Mac the appropriate information to clear any reporting errors within the applicable time frame, Freddie Mac will make those corrections on the Servicer’s behalf subject to the applicable fees.

If the Servicer reports a payoff to Freddie Mac in error, the Servicer must transmit a revision within the same Accounting Cycle in which the Servicer erroneously reported it. If the Servicer reports a payoff to Freddie Mac in error and the Servicer does not reverse it within the same Accounting Cycle, Freddie Mac will not be able to reactivate the Mortgage for the Servicer. The Servicer must advance its own funds which Freddie Mac will draft to liquidate the Mortgage.

The Servicer must maintain accurate records for Freddie Mac's review and inspection of the actual principal reductions and adjustments made to correct any reporting errors.

8303.6: Freddie Mac drafting timelines (12/09/19)

(a) Monthly drafting

Freddie Mac will draft, via an Automated Clearing House (ACH) transaction, monthly principal and interest and payoffs directly from the Servicer's designated Custodial Account.

Monthly principal and interest will be drafted on the P&I Draft Date (the second Business Day after the P&I Determination Date) and will include:

- Current Accounting Cycle interest due (reported in the prior Accounting Cycle)
- Actual principal collected and reported to Freddie Mac after 2:00 a.m. Eastern Time on the day following the P&I Determination Date of the prior Accounting Cycle
- Actual principal collected during the current Accounting Cycle and reported to Freddie Mac no later than 2:00 a.m. Eastern Time on the day following the P&I Determination Date of the current Accounting Cycle
- Interest due on reinstated Mortgages

On a daily basis, Freddie Mac provides Servicers a Draft Report that provides a daily cumulative view of the amounts, including adjustments, that will be drafted during the Accounting Cycle. In addition, the report provides loan-level transaction details (e.g., principal and interest, liquidation amounts and adjustments). A preliminary Draft Report will be available daily in the Freddie Mac Cash Manager tool (see Exhibit 88, Servicing Tools) and updated based on daily reporting. A final version will be provided on the morning after the P&I Determination Date.

To authorize ACH drafting of monthly principal and interest and payoffs, the Servicer must complete, execute and submit to Freddie Mac Form 1132A, Authorization for Automatic Transfer of Funds from Principal and Interest Custodial Account Through the Automated Clearing House (ACH). See Section 8303.3 for additional information about Form 1132A delivery requirements.

Refer to Sections 8303.9 through 8303.14 for drafting requirements for payoffs and liquidations.

(b) Foreclosure, REO and Escrow

The only funds the Servicer must remit by check or wire are REO (refer to Section 9701.20) proceeds and Escrow refunds for taxes or property insurance premiums in connection with a foreclosure or REO. Principal and interest proceeds must be remitted via the automated cash remittance system as described in Chapter 8302.

8303.7: Availability of funds (05/01/19)

The Servicer must ensure funds are available no later than 9:00 am (Eastern Standard/Daylight Time) on the applicable draft date.

If sufficient funds are not available on the applicable draft date, Servicers may be assessed a draft delay noncompliance compensatory fee as referenced in Section 8303.42.

8303.8: Correcting a remittance (05/01/19)

Effective May 1, 2019, this section has been deleted.

8303.9: Payoff – matured or prepaid reporting and drafting requirements (05/01/19)

A payoff is the repayment of a Mortgage due to full amortization or prepayment-in-full. The Servicer must report the payoff as of the Payoff Date or the date the Servicer receives the funds (as applicable), and may not alter it for any reason.

The Servicer must complete the following steps to report a payoff of a Mortgage:

1. To report a prepayment-in-full, report the payoff by the second Business Day after the Payoff Date

To report the payoff of a matured Mortgage, report the payoff by the earlier of the maturity date or within two Business Days of the date the Servicer receives the funds. For Mortgages registered on the MERS® System, the Servicer must, by the second Business Day after the Payoff Date, update the MERS System to a loan status of “Paid in full” for Mortgages reported to Freddie Mac as matured or prepaid.

2. Do not report on this Mortgage in future Accounting Cycles.

Freddie Mac will draft the payoff amount (remaining UPB plus *exception interest*) directly from the Servicer's designated Custodial Account as follows:

(i) Principal

For a payoff of a matured Mortgage or a prepayment-in-full that is successfully reported within two Business Days of the *exception date*, Freddie Mac will draft the UPB due as reported in the previous Accounting Cycle on the fifth Business Day after the Payoff Date.

For a payoff of a matured Mortgage, or a prepayment-in-full that is successfully reported **more** than two Business Days after the exception date (which is considered late), Freddie Mac will draft the UPB due as reported in the previous Accounting Cycle on the second Business Day after the reported payoff is successfully processed.

(ii) Interest

For a payoff of a matured Mortgage or a prepayment-in-full that is successfully reported within two Business Days of the exception date, Freddie Mac will draft the *exception interest* on the fifth Business Day after the Payoff Date.

For a payoff of a matured Mortgage or a prepayment-in-full that is successfully reported **more** than two Business Days after the exception date, Freddie Mac will draft the *exception interest* on the second Business Day after the reported payoff is successfully processed.

Refer to Sections 8303.4 and 8303.5 for information regarding an erroneously reported payoff or rescinded payoff.

8303.10: Third-party foreclosure sale reporting and drafting requirements (12/09/19)

A third-party foreclosure sale is a sale of the property where title to the property is not conveyed to Freddie Mac. The Servicer must comply with the requirements of Chapter 9301 regarding foreclosures and Section 8106.3 regarding the submission on Freddie Mac's behalf of Internal Revenue Service Form 1099-A, Acquisition or Abandonment of Secured Property.

The Servicer must notify Freddie Mac through the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) of the third-party foreclosure sale by the first Business Day after the completion of the foreclosure by reporting a third-party Foreclosure Sale/Deed-in-Lieu and completing the applicable data fields. (See Section 9301.38 regarding reporting foreclosure sale results.)

The Servicer must complete the following steps when the Servicer receives the proceeds from a third-party foreclosure sale.

Note: The Servicer's receipt of the sale proceeds from a third-party foreclosure sale, when remitted by foreclosure counsel pursuant to Section 9301.43, is considered received when the Servicer receives the entire sale proceeds.

1. Report the transaction ID of "Foreclosure" and the sale result of "third-party sale" in the Loan Level Reporting tool (see Exhibit 88, Servicing Tools) no later than the second Business Day after the Servicer receives the proceeds. When reporting, the Servicer must ensure that:
 - Foreclosure sale date is the date that the foreclosure sale occurred
 - Ending gross UPB is zero
 - Principal due field is completed with the gross UPB as of the last reporting Accounting Cycle before the Mortgage was inactivated
 - DDLPI is the date of the last fully-paid monthly installment
2. Freddie Mac will draft directly from the Servicer's designated Custodial Account as follows:
 - (a) Freddie Mac will draft the prior Accounting Cycle Ending UPB on the fifth Business Day after the reported transaction is successfully processed in Loan Level Reporting.
 - (b) Freddie Mac will draft the exception and delinquent interest on the fifth Business Day after the reported transaction is successfully processed in Loan Level Reporting.
3. Charge-off adjustments for third-party foreclosure sales that settle in Freddie Mac systems on or before the Payoff Determination Date will be reflected in the Draft Report on the same date as the payoff draft. For transactions that settle in Freddie Mac systems after the Payoff Determination Date, charge-off adjustments will be reflected in the Draft Report on the second Business Day after the foreclosure sale settles in Freddie Mac systems. The Servicer must review the Draft Report with respect to charge-offs and report any discrepancies to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within the same Accounting Cycle in which Freddie Mac posts the amount to the Draft Report. Servicers may access the Draft Report through the Freddie Mac Cash Manager tool (see Exhibit 88, Servicing Tools).

When reporting a discrepancy, Servicers must input the calculation used to determine the variance and upload any documentation to support the request in the Servicing Data Corrections tool.

Discrepancies that are after the Accounting Cycle in which the initial adjustment is posted to the Draft Report closes, will be processed at Freddie Mac's discretion and may be subject to

a contract noncompliance and contract change compensatory fee (see Section 8303.43). If the post-settlement correction request is denied, the Servicer may be liable for any additional losses.

4. Do not report on this Mortgage in future cycles

8303.11: Short sale reporting and drafting requirements (12/09/19)

A short sale is the sale of a Mortgaged Premises for which the Servicer has received Freddie Mac's approval to sell for less than the total amount necessary to satisfy the Mortgage obligation. The Servicer must comply with the requirements of Sections 9208.1 through 9208.8 regarding a short sale and charging off a deficiency and Section 8106.4 regarding the submission on Freddie Mac's behalf of Internal Revenue Service Form 1099-C.

The Servicer must complete the following steps to report when the Servicer receives the funds for a short sale:

1. Report the short sale as "Short Sale/Charge-off/Make-whole" in the Loan Level Reporting tool (see Exhibit 88, Servicing Tools) by the second Business Day after the Servicer receives the settlement proceeds
2. Freddie Mac will draft the Ending UPB and delinquent and *exception interest* on the fifth Business Day after the exception date. If the short sale settles in Freddie Mac systems on or before the Payoff Draft Determination Date, charge-off adjustments will be reflected in the Draft Report on the same day as the payoff draft. If the short sale settles in Freddie Mac systems after the Payoff Draft Determination Date, the charge-off adjustment will be reflected in the Draft Report on the second Business Day after the short sale settles in Freddie Mac systems. See Section 8303.12 for additional requirements related to make-whole preforeclosure sales.
3. The Servicer must review the Draft Report with respect to charge-offs and report any discrepancies to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within 30 calendar days following Freddie Mac's posting of the amount to the Draft Report. Servicers may access the Draft Report through the Freddie Mac Cash Manager tool (see Exhibit 88, Servicing Tools).

When reporting a discrepancy, Servicers must input the calculation used to determine the variance and upload any documentation to support the request in the Servicing Data Corrections tool.

Discrepancies submitted more than 60 calendar days after the initial adjustment is posted to the Draft Report will be processed at Freddie Mac's discretion and may be subject to a contract noncompliance and contract change compensatory fee (see Section 8303.43). If the

postsettlement correction request is denied, the Servicer may be liable for any additional losses. Additionally, Freddie Mac may recover any workout incentives that were paid.

4. Do not report on this Mortgage in future Accounting Cycles

8303.12: Make-whole preforeclosure sale reporting and drafting requirements (12/09/19)

A make-whole preforeclosure sale is the sale of a Mortgaged Premises for which the Servicer has received Freddie Mac's approval to sell the property for less than the total amount necessary to satisfy the Mortgage obligation, however, there is a mortgage insurance claim payment or a Borrower contribution that satisfies the deficiency. The Servicer must comply with the requirements of Sections 9208.3(a)(2) and 9208.5(b) regarding a make-whole preforeclosure sale.

The Servicer must complete the following steps to report and remit when the Servicer receives the proceeds from a make-whole preforeclosure sale:

1. Report the Mortgage as "Short Sale/Charge-off/Make-whole" in the Loan Level Reporting tool (see Exhibit 88, Servicing Tools) by the second Business Day after the Servicer receives the settlement proceeds
2. Do not report on this Mortgage in future Accounting Cycles

Freddie Mac will draft the Ending UPB plus delinquent and *exception interest* on the fifth Business Day after the exception date. If the make-whole preforeclosure sale settles in Freddie Mac systems on or before the Payoff Draft Determination Date, charge-off adjustments will be reflected in the Draft Report on the same day as the payoff draft. If the make-whole preforeclosure settles in Freddie Mac systems after the Payoff Draft Determination Date, the charge-off adjustment will be reflected in the Draft Report on the second Business Day after the make-whole preforeclosure sale settles in Freddie Mac systems.

8303.13: Reporting a charge-off (12/09/19)

Freddie Mac's approval of a charge-off request ceases collection efforts on a delinquent Mortgage when the debt is deemed to be uncollectible or that a foreclosure should not be completed. In most cases, a charge-off will be accompanied by a lien release and cancellation of the Note (see Section 9210.4). The Servicer must comply with the requirements of Sections 9210.1 through 9210.5 regarding a charge-off.

The Servicer must complete the following steps to report a charge-off:

1. Report the charge-off as “Short Sale/Charge-off/Make-whole” in the Loan Level Reporting tool (see Exhibit 88, Servicing Tools) by the second Business Day after the Servicer receives Freddie Mac’s approval letter confirming the charge-off request
2. Freddie Mac will draft the Ending UPB and delinquent and *exception interest* on the fifth Business Day after the exception date. If the charge-off settles in Freddie Mac systems on or before the Payoff Draft Determination Date, charge-off adjustments will be reflected in the Draft Report on the same day as the payoff draft. If the charge-off settles in Freddie Mac systems after the Payoff Draft Determination Date, the charge-off adjustment will be reflected in the Draft Report on the second Business Day after the charge-off settles in Freddie Mac systems.
3. The Servicer must review the Draft Report with respect to charge-offs and report any discrepancies to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within 30 calendar days following Freddie Mac’s posting of the amount to the Draft Report. Servicers may access the Draft Report through the Freddie Mac Cash Manager tool (see Exhibit 88, Servicing Tools).

When reporting a discrepancy, Servicers must input the calculation used to determine the variance and upload any documentation to support the request in Servicing Data Corrections.

Discrepancies submitted more than 60 calendar days after the initial adjustment is posted to the Draft Report will be processed at Freddie Mac’s discretion and may be subject to a contract noncompliance and contract change compensatory fee (see Section 8303.43). If the post-settlement correction request is denied, the Servicer may be liable for any additional losses.

4. Do not report on this Mortgage in future Accounting Cycles

8303.14: Repurchase reporting and drafting requirements (12/09/19)

Repurchased Mortgages may be *active* or *inactive* Mortgages or Mortgages transferred to REO. The Servicer must comply with the requirements of Chapter 3602 regarding a repurchase.

For a repurchase required by Freddie Mac or a repurchase approved by Freddie Mac at the Servicer’s request, the Servicer must document the Mortgage file with Freddie Mac’s written notification requiring the repurchase, or with Freddie Mac’s prior written approval of the Servicer’s request.

There are three types of repurchases and their corresponding reporting and remitting requirements as described in the table below.

Repurchase Type	Reporting	Drafting
<p>Voluntary</p> <p>Freddie Mac has approved the Servicer's written request to repurchase a Mortgage.</p> <p>(Note: Only under exceptional circumstances, and on an individual basis, will Freddie Mac allow the Servicer to repurchase Freddie Mac's interest in a Mortgage.</p> <p>Generally, Freddie Mac will only allow the Servicer to repurchase a Mortgage that is 90 or more days delinquent or in foreclosure.)</p>	<p>Servicer must report within 30 days following the date of Freddie Mac's notification approving the Servicer's repurchase request, using the transaction type "Payoff – Repurchase."</p>	<p>Freddie Mac will draft the principal and interest on the fifth Business Day after the repurchase is successfully reported:</p> <ul style="list-style-type: none"> ■ UPB as reported in the previous Accounting Cycle ■ <i>Exception interest</i> and delinquent/reinstatement interest (if applicable) due Freddie Mac as of the Payoff Determination Date <p>Refer to Section 3602.5 for the calculation of the repurchase price for <i>active</i> Mortgages or <i>inactive</i> Mortgages.</p>
<p>Involuntary</p> <p>Freddie Mac requires the Servicer to repurchase a Mortgage</p>	<p>Servicer must report within 30 days if the repurchase request is pursuant to Section 3602.2 or 60 days if the repurchase request is pursuant Section 3602.3 following the date of Freddie Mac's notification requiring the repurchase, using the transaction type "Payoff – Repurchase."</p>	<p>Freddie Mac will draft the principal and interest on the fifth Business Day after the repurchase is successfully reported:</p> <ul style="list-style-type: none"> ■ UPB as reported in the previous Accounting Cycle ■ <i>Exception interest</i> and delinquent/reinstatement interest (if applicable) due Freddie Mac as of the Payoff Determination Date <p>Refer to Section 3602.5 for the calculation of the repurchase price for <i>active</i> Mortgages or <i>inactive</i> Mortgages.</p>
<p>REO</p>	<p>Servicer must report the Mortgage as transferred to REO. An REO repurchase must not be reported through the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing</p>	<p>(a) Freddie Mac will not draft. The Servicer must submit the proceeds to Freddie Mac (see Directory 6) with a copy of the repurchase letter and a copy of the Single-Family Servicing All-In Economic Gain/Loss Calculation that Freddie Mac sends to the Servicer within 30 days following</p>

Repurchase Type	Reporting	Drafting
	Tools) or any other reporting medium.	<p>the date of Freddie Mac's letter requiring or approving the repurchase</p> <p>(b) In the Servicer's monthly remittance, the Servicer must remit the monthly and/or reinstatement interest due to Freddie Mac in which the Servicer repurchased the Mortgage based on the remittance due date</p>

Do not report on these Mortgages in future Accounting Cycles.

8303.15: Loan-level transaction reporting (02/12/20)

The loan-level transaction is what Freddie Mac calls the monthly reporting of each *active* and *inactive* Mortgage the Servicer services for Freddie Mac, including reporting monthly net yield interest, principal reductions and principal increases due to Negative Amortization.

Principal reductions include curtailments and Negative Amortization decreases since the end of the previous Accounting Cycle, Scheduled Principal and prepaid Scheduled Principal. Refer to Exhibit 60, Loan-Level Data Reporting Description, and Exhibit 61, Interest and Principal Due Freddie Mac, for what the Servicer must report and how to calculate the draft due to Freddie Mac.

For *biweekly* Mortgages, Servicers must

- Report the biweekly contractual principal and interest payment as stated on the Note. If the Servicer reports more than one payment in an Accounting Cycle, then each loan-level transaction must reflect the cumulative principal received and forecasted scheduled interest for that Accounting Cycle
- Report the DDLPI for each biweekly installment. However, if the Due Date falls on the first day of the month, Servicers must report that DDLPI as the second day of the month.

Note: This does not apply to Mortgages where the Servicer and Borrower agree to a biweekly payment plan in accordance with Section 8104.2 after the Mortgage has been sold to Freddie Mac.

Requirements for reporting and drafting of *monthly principal and interest activity* and certain *exception* activities are detailed in Section 8303.16 and 8303.28.

8303.16: Monthly reporting and remitting requirements (05/01/19)

Effective May 1, 2019, this section is deleted.

8303.17: Quarterly reporting requirements for SCRA interest rate capped Mortgages (05/01/19)

If the Servicer elects to report adjustments to each Servicemembers Civil Relief Act (SCRA) - capped Mortgage on a quarterly basis, the Servicer must submit its report (see Exhibit 71, CSV File Format to Report Loans Eligible for the SCRA Interest Rate Subsidy) to Freddie Mac (see Directory 3) no later than the third Business Day prior to the end of the calendar month in March, June, September and December.

8303.18: Monthly remittance cycle (05/01/19)

All Mortgages serviced for Freddie Mac will follow the Standard Remittance Cycle.

Freddie Mac will directly draft the monthly principal and interest from the Servicer on the second Business Day after the P&I Determination Date.

8303.19: Draft dates (05/01/19)

The Servicer must make all funds due to Freddie Mac available for Freddie Mac to draft by the applicable draft date. If the applicable draft date is on a non-Business Day, the funds must be available to Freddie Mac on the preceding Business Day. Refer to Section 8303.7 for availability of remittances.

8303.20: Monthly reporting and drafting requirements, including exception activities (12/09/19)

The Servicer must report the following to Freddie Mac monthly on or before the P&I Determination Date:

1. All *principal and interest activities* for all *active* Mortgages
2. *Exception activities* listed in the chart below

3. The *reporting status* of all *inactive* Mortgages

Freddie Mac will draft, directly from the Servicer's designated Custodial Account, the principal and interest for all Mortgages on the second Business Day following the P&I Determination Date. See Section 8303.21 for information on inactivating a Mortgage.

Refer to Section 8303.7 for specific requirements about when funds must be available to Freddie Mac and to Section 7101.5 for initial reporting and remitting requirements on Transfers of Servicing.

The following chart summarizes the applicable draft dates for the *exception activity* the Servicer must remit to Freddie Mac monthly:

Activity (Parenthetical terms are used in the Freddie Mac Loan Level Reporting tool) (see Exhibit 88, Servicing Tools)	Description	Make funds available to Freddie Mac by the...
Inactivation (Inactivate)	The process of suspending the remittance of funds for a Mortgage in the Accounting Cycle it becomes 120 days delinquent	P&I Draft Date
Newly funded Mortgage	A Mortgage that was sold to Freddie Mac during the current Accounting Cycle	
Reinstatement (Reinstate)	A Mortgage that the Servicer inactivated during a previous Accounting Cycle that the Borrower has partially or fully reinstated, or for which the Servicer has completed a loan modification	
Principal balance correction	A Mortgage on which the ending UPB is higher than the beginning UPB for a reason other than negative amortization	

Activity (Parenthetical terms are used in the Freddie Mac Loan Level Reporting tool) (see Exhibit 88, Servicing Tools)	Description	Make funds available to Freddie Mac by the...
Deed-in-lieu of foreclosure	A Borrower's voluntary conveyance of clear title to the property with Freddie Mac's approval in exchange for a discharge of debt	<p>Inactive Mortgages</p> <ul style="list-style-type: none"> ■ No funds are due if the Mortgage was <i>inactive</i> <p>■ For details on credits for interest advanced for a delinquent Mortgage, refer to Section 8303.25 for deeds-in-lieu of foreclosure, Section 8303.26 for FHA/VA foreclosure conveyance and Section 8303.27 for transfers to REO</p>
FHA/VA foreclosure	A property that did not sell at the foreclosure sale for which the Servicer has filed a claim with FHA/VA	<p>Active Mortgages</p> <p>If the Mortgage was <i>active</i>, report any interest due to Freddie Mac by the P&I Determination Date.</p>
Transfer to REO	A property Freddie Mac acquired through foreclosure	
Principal balance adjustment, due to court order	A Mortgage on which the ending UPB is lower than the beginning UPB due to a court order. Includes court-ordered modifications and bankruptcy cramdowns.	The date the loan appears on the "Loan Modification Status Report" available in the Freddie Mac Service Loans application

8303.21: Reporting inactivation of a Mortgage (02/12/20)

Inactivation is the process to suspend remitting funds to Freddie Mac for a Mortgage that is 120 days delinquent. The Servicer must change the *reporting status* to *inactive* either by selecting "inactivation" in the Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools) or reporting Loan Level Reporting exception code 40 (Inactivation). If the Servicer does not inactivate a Mortgage in the Accounting Cycle the Mortgage becomes 120 days delinquent,

Freddie Mac will inactivate the Mortgage. Once a Mortgage is inactivated, no monthly principal and interest will be drafted unless the Mortgage is partially or fully reinstated.

Note: This does not apply to *biweekly* Mortgages that were originated and delivered with biweekly payment schedules that become 120 days delinquent. Servicers should report \$0 principal and \$0 scheduled interest, and not advance the DDLPI until at least one full biweekly payment is collected from the Borrower. If a Servicer attempts to inactivate a *biweekly* Mortgage that becomes 120 days delinquent by (1) selecting “inactivation” in the Loan Level Reporting tool or (2) reporting loan-level reporting exception code 40 (Inactivation), it will receive an edit. To clear the edit, the Servicer must report \$0 principal and \$0 scheduled interest and not advance the DDLPI until at least one full biweekly payment is collected from the Borrower. ***Please note, Mortgages where the Borrower and Servicer agree to a biweekly payment plan, pursuant to Section 8104.2, after the Mortgage was delivered to Freddie Mac must be inactivated in accordance with this Section 8303.21.***

The Servicer must not report the forecasted scheduled interest in the month for which the Mortgage is inactivated.

Once the Servicer has inactivated the Mortgage, the Servicer must report it to Freddie Mac monthly as *principal and interest activity* with zero principal and zero interest due. The Servicer must continue to report it in this manner until the Mortgage is reactivated by a full or partial reinstatement, paid off, sold at foreclosure sale or transferred to REO. The Servicer may accept and report partial payments, in increments of one full monthly payment for *inactive* Mortgages. See Section 8303.23(b) for information on partial reinstatements.

8303.22: Newly-funded Mortgage reporting and drafting requirements (05/01/19)

A newly-funded Mortgage is a Mortgage sold to Freddie Mac during the current Accounting Cycle. The Funding Date and the Mortgage balance at the end of the Accounting Cycle determine when the Servicer must report a newly-funded Mortgage. The Servicer must comply with the requirements of Section 8302.22 regarding the initial reporting and drafting of a newly funded Mortgage.

To report a newly funded Mortgage, the Servicer must:

1. Report prepayments or principal curtailments, if applicable, on a newly funded Mortgage to Freddie Mac in the current Accounting Cycle. The Servicer may report forecasted scheduled interest by the end of the current Accounting Cycle.
2. If prepayments or principal curtailments are reported prior to the P&I Determination Date, Freddie Mac will draft principal due to Freddie Mac on the P&I Draft Date. If prepayments or principal curtailments are received after the P&I Determination Date, they must be

reported by the end of the Accounting Cycle and principal will be drafted on the P&I Draft Date of the next Accounting Cycle.

3. Continue to report monthly. See Section 8303.3(a) for monthly reporting requirements.

8303.23: Reinstatement (05/01/19)

Reinstatement is the process of restoring a delinquent Mortgage or a Mortgage in foreclosure to current status. A full reinstatement requires full payment of all past-due amounts and brings an *inactive* Mortgage current. A partial reinstatement occurs when the Borrower makes a payment (at minimum, at least one full monthly principal payment and delinquent interest, if applicable) on an *inactive* Mortgage, but does not bring the Mortgage current. The Servicer must comply with the requirements as specified in Sections 9203.3 through 9203.7 regarding full and partial reinstatements.

(a) Full reinstatement of an *inactive* Mortgage

The Servicer must complete the following steps to report and remit when the Servicer fully reinstates an *inactive* Mortgage:

1. Report all delinquent principal and interest collected from the Borrower and forecasted scheduled interest for the next Accounting Cycle as follows:
 - If the DDLPI is on or before the inactivation date, Servicers must report principal from the previously reported DDLPI to the current Accounting Cycle (or later) and interest from the inactivation date to the current Accounting Cycle plus forecasted scheduled interest for the next Accounting Cycle
 - If the DDLPI is after the inactivation date, Servicers must report principal from the previously reported DDLPI to the current Accounting Cycle (or later) and interest from the previously reported DDLPI to the current Accounting Cycle plus forecasted scheduled interest for the next Accounting Cycle
 - If the Servicer reports principal and interest on or prior to the P&I Determination Date, Freddie Mac will draft the full amount of any principal due to Freddie Mac on the P&I Draft Date of the current Accounting Cycle. If reported after the P&I Determination Date, Freddie Mac will draft any principal due to Freddie Mac on the P&I Draft Date of the following Accounting Cycle
 - Delinquent and forecasted scheduled interest will be drafted on the P&I Draft Date of the following Accounting Cycle
2. Resume monthly P&I reporting on this Mortgage in future Accounting Cycles unless the reinstatement resulted in a payoff.

Note: Servicers are encouraged, but not required, to report Loan Level Reporting exception code 50 (Reinstatement). If exception code 50 is not entered prior to the end of the Accounting Cycle, Freddie Mac will update the Loan Level Reporting system with a reinstatement transaction.

(b) Partial reinstatement of an *inactive* Mortgage

The Servicer must complete the following steps to report when the Servicer partially reinstates an *inactive* Mortgage:

If the Servicer accepts at least one full monthly principal payment and delinquent interest, then the Servicer must advance the DDLPI one month for each full payment received. Until brought current, the Inactivation Date will not change and the Mortgage will remain *inactive* regardless of the number of delinquent payments accepted by the Servicer.

If the DDLPI is on or prior to the Inactivation Date, the Servicer must report the principal (increments of at least one full expected principal payment as of the new DDLPI) accepted and zero interest. If the Servicer reports the partial reinstatement on or before the P&I Determination Date, Freddie Mac will draft the principal on the P&I Draft Date. If reported after the P&I Determination Date, Freddie Mac will draft the principal on the P&I Draft Date in the following Accounting Cycle.

If the Servicer advances the DDLPI beyond the Inactivation Date, the Servicer must report the principal (increments of at least one full expected principal payment as of the new DDLPI) received and the Freddie Mac expected delinquent interest.

If the Servicer reports the partial reinstatement on or before the P&I Determination Date, Freddie Mac will draft the principal on the P&I Draft Date. If reported after the P&I Determination Date, Freddie Mac will draft the principal on the P&I Draft Date in the following Accounting Cycle. Delinquent interest will be drafted on the P&I Draft Date in the following Accounting Cycle.

8303.24: Principal balance correction (05/01/19)

If the Servicer reports an erroneous principal reduction amount, the Servicer must comply with the following requirements:

(a) Understated principal reduction

If the Servicer understates a principal reduction for an Accounting Cycle, it must adjust the amount of the understatement on the following Accounting Cycle's loan-level transaction by increasing the amount of total principal reduction.

(b) Overstated principal reduction

If the Servicer overstated the principal reduction for a given Mortgage by \$3,000 or less, it may adjust the principal balance in the following Accounting Cycle's loan-level transaction. This will result in an increase in the UPB of that Mortgage, which Freddie Mac refers to as negative principal reduction. A negative principal reduction occurs when the UPB of a Mortgage is increased during the Accounting Cycle for reasons other than Negative Amortization. (Refer to Exhibit 61, Interest and Principal Due Freddie Mac.)

If the overstatement of principal reduction is more than \$3,000, the Servicer must contact Freddie Mac to discuss correction options (see **Directory 7**). One of the options is that Freddie Mac may require the Servicer to repurchase the Mortgage.

The Servicer may confirm the processing of the UPB adjustment on the Negative Principal Reduction Report and the Loan Reconciliation Difference Report or by contacting Freddie Mac (see **Directory 7**). If Freddie Mac processes the principal balance adjustment, there are no special reporting requirements for future cycles. If Freddie Mac does not process the principal balance correction, contact Freddie Mac for reporting instructions for future cycles.

8303.25: Deed-in-lieu of foreclosure reporting and remittance requirements (12/09/19)

A deed-in-lieu of foreclosure is a Borrower's voluntary conveyance of clear title to the property in exchange for a discharge of debt. The Servicer must comply with the requirements of Sections 9209.1 through 9209.8 regarding a deed-in-lieu of foreclosure.

The Servicer must submit two separate transactions to Freddie Mac to report a deed-in-lieu of foreclosure as follows:

1. In the Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools), by the first Business Day after receiving the executed deed or, in the case of a leasehold Mortgage, an executed lease assignment or new lease (collectively the "lease"), report "Foreclosure Sale/DIL." If the Borrower was required to make a cash contribution as a condition of acceptance of the deed-in-lieu of foreclosure, the Servicer must remit the funds, see Section 9209.8(b) for remittance requirements, no later than the fifth Business Day after the receipt of funds.
2. In the Loan Level Reporting tool (see Exhibit 88, Servicing Tools), report the Mortgage as a Transfer to REO transaction by the end of the Accounting Cycle in which the Servicer receives the executed deed or executed lease

If the Mortgage was *inactive* as of the previous Accounting Cycle, a credit for the reimbursement of advanced interest (calculated from the DDLPI up to, but not including, the month the Servicer inactivated the Mortgage), if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as REO on or before the P&I Determination Date, or the next Accounting Cycle if reported as REO after the P&I Determination Date.

If the Mortgage was *active* as of the previous Accounting Cycle, a credit for the reimbursement of advanced interest (calculated from the DDLPI through the end of the previous Accounting Cycle), if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as REO on or before the P&I Determination Date, or the next Accounting Cycle if reported as REO after the P&I Determination Date.

Do not report on this Mortgage for future Accounting Cycles.

8303.26: FHA/VA foreclosure conveyance reporting and drafting requirements (12/09/19)

An FHA/VA foreclosure conveyance occurs when the Servicer forecloses on a Mortgage insured by the FHA or guaranteed by the VA and the property is not sold to a third party at the foreclosure sale. The Servicer must comply with the requirements of Chapter 9301 and Sections 9603.2 and 9603.3 regarding FHA/VA foreclosures.

The Servicer must notify Freddie Mac of the foreclosure sale by the first Business Day after the completion of the foreclosure sale by reporting a Foreclosure Sale/DIL and completing the applicable data fields.

The Servicer must submit two separate transactions to Freddie Mac via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) to report the FHA/VA conveyance:

1. By the first Business Day after the foreclosure sale, report the Foreclosure Sale/DIL transaction to inform Freddie Mac of the results of the sale
2. Report a Transfer to REO transaction by the end of the Accounting Cycle

If the Mortgage was *inactive* as of the previous Accounting Cycle, a credit for the reimbursement of advanced interest (calculated from the DDLPI up to, but not including, the month the Servicer inactivated the Mortgage), if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as FHA/VA conveyance on or before the P&I Determination Date, or the next Accounting Cycle if reported as FHA/VA conveyance after the P&I Determination Date.

If the Mortgage was *active* as of the previous Accounting Cycle, a credit for the reimbursement of advanced interest (calculated from the DDLPI through the end of the previous Accounting Cycle), if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as FHA/VA conveyance on or before the P&I Determination Date, or the next Accounting Cycle if reported as FHA/VA conveyance after the P&I Determination Date.

The Servicer must not report on this Mortgage in future Accounting Cycles.

8303.27: REO reporting and drafting requirements (12/09/19)

A transfer to REO occurs when the Mortgaged Premises is not sold to a third party at the foreclosure sale and Freddie Mac acquires the property. The Servicer must comply with the requirements of Sections 8106.3, 9301.38 through 9301.42, and Chapter 9603 regarding the submission on Freddie Mac's behalf of Internal Revenue Service Form 1099-A, Acquisition or Abandonment of Secured Property.

The Servicer must notify Freddie Mac through the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) of the foreclosure sale by the first Business Day after the completion of the foreclosure sale by reporting a Foreclosure Sale/DIL and completing the applicable data fields.

The Servicer must complete the following steps to report for a transfer to REO:

1. The Servicer must report the transfer of the property to REO in the Loan Level Reporting tool (see Exhibit 88, Servicing Tools) in the same Accounting Cycle in which the foreclosure sale occurs
2. For the interest the Servicer advanced for the delinquent Mortgage, the Servicer will be provided a credit calculated as follows:
 - (a) If the Mortgage was *inactive* as of the end of the Accounting Cycle prior to the foreclosure, a credit for the reimbursement of advanced interest, if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as REO on or before the P&I Determination Date, or the next Accounting Cycle if reported as REO after the P&I Determination Date
 - (b) If the Mortgage was *active* as of the end of the Accounting Cycle prior to the foreclosure, a credit for the reimbursement of advanced interest, if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as REO on or before the P&I Determination Date, or the next Accounting Cycle if reported as REO after the P&I Determination Date
3. Do not report on this Mortgage in future Accounting Cycles

Servicers are not required to wait until the end of the redemption period to report the REO transaction to recover the delinquent interest advanced to Freddie Mac.

8303.28: Additional monthly reporting requirements (01/01/22)

In addition to the loan-level transaction the Servicer must transmit to Freddie Mac each month, the Servicer must also submit the following report, if applicable.

Supplemental accounting report of Servicemembers Civil Relief Act (SCRA) Mortgages

If the Servicer elects to report adjustments to each SCRA-capped Mortgage on a monthly basis, the Servicer must submit its report (see Exhibit 71, CSV File Format to Report Loans Eligible for the SCRA Interest Rate Subsidy) to Freddie Mac (see **Directory 3**) no later than three Business Days prior to the end of the Accounting Cycle.

8303.29: Freddie Mac's reports to Servicers of discrepancies (05/01/19)

Freddie Mac will process the data the Servicer transmits, compare the data daily against Freddie Mac's database, and notify the Servicer of any discrepancies on the Edit Reports daily. The Servicer is responsible for ensuring the accuracy of the data the Servicer submits to Freddie Mac. If applicable, any discrepancies identified by Freddie Mac prior to the P&I Determination Date must be resolved on or before the P&I Determination Date. Discrepancies identified after the P&I Determination Date must be resolved prior to the end of the current Accounting Cycle. Refer to Sections 8303.5 and 8303.30 for additional information.

8303.30: Daily edit reports (06/10/20)

The Servicer must monitor the daily edit reports provided by Freddie Mac through the Freddie Mac Loan Level Reporting tool available through the **Servicing Gateway** (see Exhibit 88, Servicing Tools) and promptly correct the errors indicated on the reports (refer to Section 8303.29). Failure to promptly correct the errors indicated on the reports may negatively impact the Servicer's Servicer Success Scorecard. (See Section 3501.2 for additional information about the Servicer Success Scorecard.)

The daily edit reports provided by Freddie Mac are:

- 1. Freddie Mac Edits to be Cleared Report:** This daily report identifies loan-level transaction edits that prevent Freddie Mac from processing transactions the Servicer has reported. The Servicer must take immediate action to resolve the edit errors and transmit revised transactions to Freddie Mac that reflect the Borrower's payment activity.
- 2. Freddie Mac System Cleared Edits Report:** This daily report identifies loan-level transaction edits that Freddie Mac's system changed and continued processing. The Servicer

must review and determine the cause of the edit and take action, if necessary, by the end of the current Accounting Cycle to prevent the edit from recurring in future Accounting Cycles.

3. Warning Report: This daily report identifies loan-level transactions that were accepted by Freddie Mac that don't require the Servicer to take action but for which Freddie Mac recommends a review. Servicers must use this report to determine whether the correct loan transaction was processed. If the correct loan transaction was not processed, the Servicer must submit a revision.

4. Loan Level Missing Report: This report identifies Mortgages missing from the Servicer's monthly loan-level transactions. This includes any Mortgage:

- That the Servicer did not report to Freddie Mac
- With unresolved edits on the Edits to be Cleared Report
- Reported to Freddie Mac with an invalid Freddie Mac loan number, and/or
- For which Freddie Mac received a transaction, but the Mortgage was rejected by Freddie Mac's system

Freddie Mac will generate this report daily beginning two Business Days prior to the P&I Determination Date or when Freddie Mac processes 75% of the loan-level transactions for Mortgages the Servicer services for Freddie Mac, whichever occurs first. Servicers must analyze this report and ensure that any Mortgage due to be reported to Freddie Mac is reported no later than 2:00 a.m. Eastern Time on the day following the P&I Determination Date.

5. Response File: This report is an outbound file from Freddie Mac that is published multiple times per day and provides loan level details for each Loan Level Reporting file processed. This file contains both the successful and unsuccessful transactions.

The Servicer will need a secure User ID and password to retrieve these reports through the Loan Level Reporting tool.

8303.31: Monthly reports provided to Servicer (12/09/19)

Freddie Mac provides the Servicer the three monthly reports described below that the Servicer must use to reconcile the amounts reported to Freddie Mac and drafted by Freddie Mac from the Servicer's designated Custodial Account. The Servicer must review these reports timely and notify Freddie Mac in writing (**see Directory 7**) of any errors or discrepancies between its data and the report.

1. Loan Reconciliation Difference Report: Freddie Mac will make available to the Servicer the final Loan Reconciliation Difference Report through the Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools) on the second Business Day of the month following the end of the Accounting Cycle. This report provides the Servicer with detailed information about transactions that:

- Freddie Mac processed differently than the Servicer reported
- Freddie Mac added manually
- The Servicer reported as revisions that Freddie Mac did not process
- The Servicer reported as revisions that Freddie Mac did process
- The Servicer reported more than once during the Accounting Cycle
- The Servicer reported with an invalid Freddie Mac loan number
- The Servicer reported on Mortgages belonging to another Servicer

The differences identified on this report may be outstanding items on the Servicer's designated Custodial Account reconciliation or adjustments that the Servicer needs to make to the Servicer's cash remittance.

2. Monthly Account Statement (MAS): Freddie Mac will make available to the Servicer the final MAS through the Loan Level Reporting tool on the second Business Day of the month following the end of the Accounting Cycle. This report summarizes the total amount due to Freddie Mac as of the Accounting Cycle.

The ending balance on the MAS includes principal and interest due to Freddie Mac, amounts drafted from the Servicer and adjustments made by Freddie Mac. The ending balance is the amount outstanding (pending Freddie Mac's draft) and non-sufficient funds, if applicable, due to Freddie Mac as of the end of the Accounting Cycle.

The Servicer must reconcile the ending balance to the Principal and Interest Custodial Account balance using Form 59, Principal and Interest Custodial Account Reconciliation Worksheet—Monthly Account Statement, in accordance with Freddie Mac's requirements in Sections 8304.13 through 8304.17. If the Servicer disagrees with the ending balance on the MAS, the Servicer must notify Freddie Mac in writing (**see Directory 7**) within 90 days of the end of the Accounting Cycle. Call the Customer Support Contact Center at 800-FREDDIE for further information.

3. Draft Report: The Draft Report will provide summary and loan-level detail of the amounts due and offsetting adjustments associated with revisions, based on Servicer reporting. A preliminary Draft Report will be available in the Cash Manager tool (see Exhibit 88, Servicing Tools) and updated based on daily reporting. A final version of the Draft Report

for the current Accounting Cycle will be available in the Cash Manager tool on the morning after the P&I Determination Date.

The Draft Report details are as follows:

- (i) If the principal and forecasted scheduled interest are reported on or prior to the P&I Determination Date, then:
 - The principal will be reflected on the Draft Report for the current Accounting Cycle
 - The forecasted scheduled interest will be reflected on the Draft Report for the next Accounting Cycle
- (ii) If the principal and forecasted scheduled interest are reported after the P&I Determination Date, then the principal and forecasted scheduled interest amounts will be reflected on the Draft Report for the next Accounting Cycle
- (iii) If a principal and interest revision in the current Accounting Cycle is reported on or before the P&I Determination Date, then:
 - An offsetting principal adjustment will be reflected on the same day as the original transaction
 - An offsetting interest adjustment will be reflected on the same day as the original transaction
- (iv) If a principal and interest revision is reported after the P&I Determination Date, then an offsetting principal and interest adjustment will be reflected on the Draft Report for the next Accounting Cycle
- (v) If a payoff is reported by the Payoff Determination Date, the payoff transaction will be reflected on the Draft Report and drafted on the fifth Business Day after the Payoff Date
- (vi) If a payoff is reported after the Payoff Determination Date, the payoff transaction will be reflected on the Draft Report and drafted on the second Business Day after the payoff transaction is successfully reported to Freddie Mac
- (vii) If a payoff is revised prior to the Payoff Determination Date, an offsetting adjustment to the previously accepted payoff amount will be reflected on the Draft Report
- (viii) If a payoff is revised after the Payoff Determination Date, an offsetting adjustment will be reflected on the Draft Report on the second Business Day after the payoff revision is successfully reported to Freddie Mac
- (ix) If an REO was reported and the Mortgage was *inactive* as of the previous Accounting Cycle, a credit for the reimbursement of advanced interest (calculated from the DDLPI up

to, but not including, the month the Servicer inactivated the Mortgage), if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as REO on or before the P&I Determination Date, or the next Accounting Cycle if reported as REO after the P&I Determination Date.

- (x) If an REO was reported and the Mortgage was *active* as of the previous Accounting Cycle, a credit for the reimbursement of advanced interest (calculated from the DDLPI through the end of the previous Accounting Cycle), if applicable, will be reflected in the current Accounting Cycle Draft Report if reported as REO on or before the P&I Determination Date, or the next Accounting Cycle if reported as REO after the P&I Determination Date.

8303.32: Reports to reconcile monthly activity (12/09/19)

Freddie Mac will provide preliminary and final versions of the reports listed in Section 8303.31 as follows:

(a) Preliminary

If the Servicer reports and resolves all data discrepancies prior to the close of the Accounting Cycle, the preliminary Loan Reconciliation Difference Report will be available in the Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools), and the Draft Report will be available through the Freddie Mac Cash Manager tool (see Exhibit 88, Servicing Tools).

The Servicer may use the preliminary reconciliation reports to begin reconciling its monthly Mortgage activity and Principal and Interest Custodial Account, or use them to make revisions to the Servicer's loan-level transactions.

(b) Final reports

After Freddie Mac closes its Accounting Cycle, Freddie Mac will provide the Servicer the final MAS and the Loan Reconciliation Difference Reports through the Freddie Mac Loan Level Reporting tool.

Freddie Mac will provide the final Draft Report to the Servicer through the Cash Manager tool on the second Business Day of the month following the end of the Accounting Cycle.

The Servicer should use these reports to reconcile its investor reporting and the Servicer's Custodial Account activity for the month in accordance with Chapter 8304.

8303.33: Reconciling Seller/Servicer Remittance Analysis (05/01/19)

Effective May 1, 2019, this section is deleted.

8303.34: Noncompliance with reporting and drafting requirements (12/09/20)

The Servicer's failure to comply with Freddie Mac's requirements for reporting and drafting constitutes a violation of the Purchase Documents and the contractual obligations of the Guide. In addition to any other remedies Freddie Mac may have at law or in equity, the Servicer is subject to the assessment of compensatory fees for any violations.

Freddie Mac will charge the Servicer a noncompliance compensatory fee for the Servicer's failure to comply with Freddie Mac's Servicing reporting requirements contained in Section 8106.1 or the accounting reporting time requirements contained in this chapter. Servicing reporting and accounting reporting noncompliance compensatory fees are each monitored and assessed separately.

The Servicer will receive written notification of all compensatory and other fee assessments. Freddie Mac reserves the right to revise Freddie Mac's compensatory and other fee schedules and change Freddie Mac's methods of calculating compensatory and other fees at any time at Freddie Mac's sole discretion. The Servicer may direct any questions regarding the assessment of accounting reporting compensatory and other fees to Freddie Mac (**see Directory 7**).

See Section 8303.35 for instructions on remitting compensatory fees.

The Servicer must complete, execute and submit to Freddie Mac Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) for Seller/Servicers, as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Servicer's Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:

- Attach to an e-mail and deliver to Freddie Mac at the following e-mail address: cashcollections@freddiemac.com; or
- Upload through the Freddie Mac eBill system

Freddie Mac and the Servicer agree that the delivery of Electronic Records with Electronic Signatures are eligible Electronic Transactions (as defined in Section 1401.2) and are governed by the applicable provisions of Chapter 1401.

The employee authorized to execute Form 1132 on the Servicer's behalf must be designated as an "Authorized Employee" on the Servicer's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable.

The account identified in Form 1132 for the payment of fees must be a Demand Deposit Account that is separate from any Custodial Account required to be maintained pursuant to any of the Purchase Documents.

The Servicer agrees to notify Freddie Mac immediately at Servicer_Billing@freddiemac.com of any changes to the status of the Servicer's ACH account.

8303.35: Drafting noncompliance compensatory fees (12/09/20)

Freddie Mac will initiate an Automated Clearing House (ACH) draft to collect any compensatory fees billed on the Performing Loans monthly Servicing Billing Statement and the Non-Performing Loans Invoice. To authorize ACH drafting of compensatory fees, the Servicer must:

1. Submit a completed, executed and duly authorized Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) for Seller/Servicers, no later than 15 Business Days before the last Business Day of the first month in which the Servicer is liable to pay Freddie Mac any compensatory fees, to set up or make certain changes to the draft account. This form will authorize Freddie Mac to initiate an ACH draft, and designates an account from which Freddie Mac will collect any compensatory and other fees for which Freddie Mac may bill the Servicer on the Performing Loans monthly Servicer Billing Statement and the Non-Performing Loans Invoice, and
2. Designate an account other than one of Freddie Mac's Custodial Accounts from which Freddie Mac will draft the amount due; and
3. Deliver Form 1132 to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Servicer's Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:
 - Attach to an e-mail and deliver to Freddie Mac at the following e-mail address: cashcollections@freddiemac.com; or

- Upload through the Freddie Mac eBill system
- Freddie Mac and the Servicer agree that the delivery of Electronic Records with Electronic Signatures are eligible Electronic Transactions (as defined in Section 1401.2) and are governed by the applicable provisions of Chapter 1401.

The employee authorized to execute Form 1132 on the Servicer's behalf must be designated as an "Authorized Employee" on the Servicer's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable.

Servicers may establish one ACH account for the payment of invoices for both the Performing Loans monthly Servicer Billing Statement and the Servicer Non-Performing Loans Invoice, or establish two separate accounts. Servicers may submit billing inquires or billing-related requests to Servicer_Billing@freddiemac.com.

See Section 9102.1 concerning Non-Performing Loans remittances.

See Sections 7101.2, 8303.34, 8303.36 through 8303.43 and 9603.17 for information on these compensatory fees.

8303.36: Reporting noncompliance compensatory fees (05/01/19)

Freddie Mac assesses a compensatory fee when the Servicer fails to comply with Freddie Mac's Servicing reporting requirements for the reports listed in Section 8106.1 or with Freddie Mac's reporting requirements contained in this chapter and Section 9102.7.

If the Servicer commits more than one type of reporting offense within any consecutive 12-month period, the Servicer may be subject to more than one reporting noncompliance fee.

The Servicer will be subject to the applicable compensatory fee in accordance with Section 8303.38 for its failure to:

1. Submit complete and accurate Servicing reports, including the submission of error-free loan-level data within the required time frame
2. Report mandated data elements, such as the Last Payment Received Date (LPRD) or other fields as listed in Exhibit 60, Loan-Level Reporting Data Description
3. Provide information requested by Freddie Mac that is outside of the regular monthly reporting requirements of this chapter, or its failure to provide such requested information in a usable form within the required time frame

Freddie Mac will notify the Servicer in writing of all instances of noncompliance.

8303.37: Reporting noncompliance compensatory fees – all loans (05/01/19)

Effective May 1, 2019, this section is deleted.

8303.38: EDR noncompliance compensatory fees (03/02/16)

Freddie Mac assesses a compensatory fee when a Servicer fails to report applicable delinquent Mortgage information through EDR, within the first three Business Days of a month in accordance with Section 9102.7. The compensatory fees are based on the number of noncompliance violations the Servicer commits in any consecutive 12-month period starting with the month in which the first violation occurred and as shown below.

IF the noncompliance violation within a consecutive 12-month period is the Servicer's...	THEN the reporting noncompliance compensatory fee is...	AND the Servicer...
First violation	Greater of \$250 or \$50 per loan, up to \$5,000	
Second violation	Greater of \$500 or \$50 per loan, up to \$10,000	May be required to attend a reporting training seminar at the Servicer's expense
Third violation or more	Greater of \$1,000 or \$50 per loan, up to \$15,000	

In addition to the monetary compensatory fees, beginning with the second violation, Freddie Mac may require the Servicer to attend reporting training at the Servicer's expense. Freddie Mac reserves the right to invoke additional remedies, including suspension or disqualification as a Seller/Servicer or a full or partial termination of Servicing, in the event of continuing violations.

Freddie Mac will bill the Servicer for such fees on the Servicer Non-Performing Loans Invoice. Refer to Section 9102.1 for information on the payment of Servicing Non-Performing Loans Invoices via an Automated Clearing House draft.

8303.39: Unreported transactions and loan simulation compensatory fee (05/01/19)

Freddie Mac assesses a compensatory fee of \$100 per loan when a Servicer fails to clear outstanding edits or report loan-level activity by the end of the Accounting Cycle.

8303.40: Aged data errors compensatory fee (03/02/16)

Freddie Mac may assess a \$100 compensatory fee per loan, per occurrence, up to a maximum of \$15,000 per month in which there are unresolved loan-level reporting errors that appear on the Loan Reconciliation Difference Report 90 days or more category.

Freddie Mac will submit an Automated Clearing House (ACH) draft transaction for all data error compensatory fees the Servicer owes Freddie Mac on the last Business Day of the month in which the Servicer received the Performing Loans monthly Servicer Billing Statement from Freddie Mac stating the amount of the compensatory fees. Refer to Section 8303.35 for information on establishing the ACH draft.

8303.41: Next month late reported payoff noncompliance compensatory fee (05/01/19)

Freddie Mac assesses this compensatory fee when the Servicer fails to report a paid off Mortgage by the second Business Day of the month following the month in which the Servicer receives the funds. This compensatory fee is equal to one month's interest based on the net yield for each loan that the Servicer reports late. Freddie Mac may assess this compensatory fee in addition to other fees contained in this chapter.

Freddie Mac may assess a late reported payoff compensatory fee if the Servicer fails to report the payoff of a matured Mortgage in accordance with Section 8301.19.

Freddie Mac will submit an Automated Clearing House (ACH) transaction for all late reported payoff noncompliance compensatory fees the Servicer owes Freddie Mac on the last Business Day of the month in which the Servicer received the Performing Loans monthly Servicer Billing Statement from Freddie Mac indicating the amount of the compensatory fee. Refer to Section 8303.35 for information on establishing the ACH draft.

8303.42: Draft delay compensatory fee (05/01/19)

With respect to payoffs, Freddie Mac assesses this compensatory fee when the Servicer fails to report a payoff within two Business Days of the Payoff Date and the late report results in a

delayed Payoff Draft Date. (Note: If the Servicer fails to report a paid-off Mortgage by the second Business Day of the month following the month in which the Servicer receives the funds, then the compensatory fee is determined as provided in Section 8303.41 rather than this Section 8303.42.)

Freddie Mac calculates this compensatory fee by the amount of the payoff funds, multiplied by the number of calendar days the payoff draft was late as a result of the late reported payoff, multiplied by the highest quoted prime rate on the last Business Day of the month in which the late payoff draft occurred in the print edition of *The Wall Street Journal* in its regular column entitled “Money Rates” plus 3% divided by 365. If the prime rate is not published, then Freddie Mac will determine a comparable rate.

With respect to principal and interest or payoffs, Freddie Mac assesses this compensatory fee when the Servicer fails to have sufficient funds available for Freddie Mac to draft on the P&I Draft Date or on the Payoff Draft Date, as applicable. Freddie Mac calculates this compensatory fee by the amount of the principal and interest, or payoff, as applicable, multiplied by the number of calendar days the draft of principal and interest, or payoff, was late as a result of the failure of the Servicer to have sufficient funds available, multiplied by the highest quoted prime rate on the last Business Day of the month in which the draft failure occurred in the print edition of *The Wall Street Journal* in its regular column entitled “Money Rates” plus 3% divided by 365. If the prime rate is not published, then Freddie Mac will determine a comparable rate.

The minimum monthly compensatory fee will be based on the number of noncompliance violations the Servicer commits in any consecutive 12-month period starting with the month in which the first violation occurred and as shown below:

IF the noncompliance violation within a consecutive 12-month period is the Servicer's...	THEN the draft delay compensatory fee will be...
First instance	No less than \$250 in any given month
Second instance	No less than \$500 in any given month
Third instance or more in 12 months	No less than \$1,000 in any given month

Freddie Mac will submit an Automated Clearing House (ACH) draft transaction for all cash remittance interest reimbursement compensatory fees the Servicer owes Freddie Mac on the last Business Day of the month in which the Servicer receives the Performing Loans monthly Servicer Billing Statement stating the amount of the compensatory fee. Refer to Section 8303.35 for information on establishing the ACH draft.

Refer to Section 9603.17 for the compensatory fee assessed for late execution of a repurchase request for an REO.

8303.43: Contract noncompliance and contract change compensatory fees (09/01/19)

Freddie Mac may assess contract noncompliance compensatory fees based on the circumstances listed below.

Freddie Mac will submit an Automated Clearing House (ACH) draft transaction for all contract noncompliance and contract change compensatory fees the Servicer owes Freddie Mac on the last Business Day of the month in which the Servicer received the Performing Loans monthly Servicer Billing Statement and/or the Servicer Non-Performing Loans Invoice, as applicable, from Freddie Mac stating the amount of the fee. Refer to Section 8303.35 for information on establishing the ACH draft.

When a Servicer submits a post-settlement data correction request more than 60 days after the initial adjustment is posted to the Detail Adjustment Report, or in the case of mortgage modifications more than 60 days after the close of the Freddie Mac Accounting Cycle, Freddie Mac will assess a contract noncompliance and contract change compensatory fee of \$500 per Mortgage when Freddie Mac must:

- Research and perform database corrections to Freddie Mac's records to correct loan level cash or data discrepancies due to erroneous reporting by the Servicer, including, but not limited to, corrections to data transmitted through EDR and loss mitigation reporting errors
- Process the database changes necessary to complete an approved waiver to the Purchase Documents

8303.44: Freddie Mac resources related to reporting and remittance (05/01/19)

The following are additional resources related to the topics in this chapter:

1. Investor Reporting EDI Implementation Guide
2. Exhibit 60, Loan-Level Reporting Data Description
3. Exhibit 61, Interest and Principal Due Freddie Mac
4. Exhibits 62, 63, and 64, Interest Calculation: Amortization Method

5. Exhibit 82, Electronic Default Reporting Transmission Code List
6. Exhibit 88, Servicing Tools

The Servicer may also visit Freddie Mac Learning at <https://sf.freddiemac.com/tools-learning/freddie-mac-learning/overview> or call the Customer Support Contact Center at 800-FREDDIE for further information.

Chapter 8401: Changes to the Mortgaged Premises

8401.1: Partial releases, easements and acquisitions (08/10/22)

(a) Processing requests for partial releases and granting of easements

A Servicer may receive a request to release part of the Mortgaged Premises as security for the Mortgage (a partial release) or a request to approve the granting of an easement on a portion of the Mortgaged Premises. A partial release may be initiated at the Borrower's request or as a result of some other action such as a condemnation or a taking of the property by eminent domain. Except as noted below, the Servicer must obtain an appraisal report with an interior and exterior inspection that meets the requirements of Topic 5600 when considering such requests in order to determine the value of the Mortgaged Premises immediately before the release and the estimated value after the release.

The Servicer, under its delegated authority, may approve a partial release or grant an easement provided the following conditions are met:

1. The Borrower's monthly Mortgage payment is current at the time of the request and there is no change in the expectation that the Borrower can continue to make the monthly payment
2. The Servicer has received written approval of the FHA, VA, RHS or MI and all superior lien-holders, if applicable
3. At least 12 months have passed since the Origination Date, and
4. If either of the situations and the corresponding actions in the chart below are met:

Situation	Action
<p>If:</p> <ul style="list-style-type: none"> ■ The current loan-to-value (LTV) ratio of the Mortgage based on the value obtained at origination (as described in Section 4203.1) is less than 60%, and ■ The consideration the Borrower receives for the partial release or easement is not greater than 5% of the original value (this would include situations in which the Borrower receives no consideration), and ■ The transaction is arm's-length 	<p>Then:</p> <ul style="list-style-type: none"> ■ An appraisal is not required ■ The Borrower is not required to apply the consideration received for the partial release or easement to reduce the UPB of the Mortgage
<p>If:</p> <ul style="list-style-type: none"> ■ The current LTV ratio of the Mortgage based on original value is equal to or greater than 60%, or ■ The consideration the Borrower receives for the partial release or easement is greater than 5% of the original value or no consideration is received 	<p>Then:</p> <p>Before the easement or partial release is granted, the Servicer must order a new appraisal with interior and exterior inspection that provides current and estimated after release values, and:</p> <ul style="list-style-type: none"> ■ If based on the estimated value pre-release the LTV is greater than 60%, the Borrower must reduce the UPB of the Mortgage in an amount sufficient to create a post-release/easement LTV ratio, as determined by the appraisal, that is the higher of current LTV ratio or 60%, or ■ If based on the estimated value after the release the LTV ratio is less than 60%, the Borrower is not required to reduce the UPB of the Mortgage

Notwithstanding the above, the Servicer may require that any consideration received by the Borrower for the released land or easement be applied to the UPB of the Mortgage, if the Servicer determines that the intended use of the released land or easement would adversely affect the value or use of the remaining Mortgaged Premises. Upon release, the Servicer must ensure that all applicable tax authorities are notified for adjustment of applicable assessments.

The Servicer is responsible for ensuring that the title of the Mortgaged Premises after the partial release remains a valid First Lien as required in Section 4201.2 and the title insurance meets the requirements of Chapter 4702 after the partial release or easement has been granted.

If any of the above conditions are not met, the Servicer must complete and submit Form 715, Borrower Application for Partial Release or Easement, to Freddie Mac via e-mail at Distressed_property@freddiemac.com or fax at (571) 382-4933.

(b) Additional requirements for easements

In addition to the requirements noted in Section 8401.1(a), the Servicer must ensure that any special requirements for the granting of an easement as specified in the Security Instrument are met.

(c) Land acquisition

Freddie Mac does not object to the acquisition of land if the land to be added to the Mortgaged Premises is free and clear of title and does not pose any risks that could devalue Freddie Mac's asset.

8401.2: Prohibition of conversion of the Mortgaged Premises (05/04/20)

The Mortgaged Premises may not be converted from a 1- to 4-unit property to a Condominium Unit or Cooperative Unit, and any such conversion shall be treated as a transfer of the Mortgaged Premises under Section 8406.1. In addition, no individual units of a 2- to 4-unit property may be separately released from the Mortgaged Premises.

8401.3: Condemnation and eminent domain (03/02/16)

In addition to the requirements noted in Section 8401.1, the following conditions must be met in the case of a condemnation or a taking of the property by eminent domain:

1. The Servicer must ensure that any special requirements for a condemnation or the taking of a property by eminent domain as specified in the Security Instrument are met
2. The Servicer must submit the documentation specified in Section 8401.1 and any other applicable documentation, to Freddie Mac (see **Directory 5**) if:
 - The Mortgaged Premises will be taken in whole and the consideration to be paid to the Borrower will be insufficient to satisfy the UPB of the Mortgage or

- The Mortgaged Premises will be taken in part and:
 - The value of the property being taken is greater than the consideration being paid to the Borrower and
 - The loan-to-value ratio does not meet the conditions specified in Section 8401.1 for release without any consideration

Freddie Mac will review the request and provide the Servicer with instructions on how to proceed.

8401.4: Modification, waiver or release of terms (03/02/16)

The Servicer must not modify, waive, or release any term of any Note or Security Instrument, accept any prepayment, or consent to any postponement of performance by any Borrower of any obligation under a Note or Security Instrument, except as authorized by the Purchase Documents.

For leasehold Mortgages, the Servicer must not approve or consent to (i) any partition, subdivision or modification of the ground lease community and the leasehold estate; (ii) any surrender, abandonment or termination of the leasehold estate or the ground lease community; (iii) the termination or cancellation of the lease and any amendments to the lease that affect the rights of the leasehold mortgagee, without the written approval of Freddie Mac.

Chapter 8402: Property Seizure

8402.1: Property seizure (03/02/16)

Under various federal, State and local laws, a law enforcement agency may, in some circumstances, seize and cause the forfeiture of real property that is obtained with the proceeds of activities, or which is used to facilitate activities, committed in violation of federal, State or local laws. Such laws include those relating to controlled substances, gambling and prostitution. Actions that result in the loss of possession of real property by a legal action or process are called property seizures. These different laws commonly provide some avenue of relief from forfeiture for a mortgagee that can prove it is an “innocent owner” (or “innocent lienholder”).

An important course of action in protecting the mortgagee’s innocent owner status is prompt and cooperative communication with law enforcement agencies.

(a) The Servicer’s designee for contacts with law enforcement agencies

To properly handle the sensitive area of mortgagee-law enforcement agency cooperation, and maximize mutual benefits from such cooperation, the Servicer must limit contacts with, or from, law enforcement agencies to a designated management-level employee that the Servicer selects. The Servicer must alert its employees to direct all information regarding a property seizure to the appropriate designee, including, but not limited to, the following:

1. Unsolicited information
2. Government notices
3. Government or other third-party inquiries
4. Telephone calls or written correspondence

(b) Documentation

The management level employee selected as the Servicer’s designee to handle a property seizure must:

1. Maintain complete, detailed and accurate records of:
 - All information received, relayed or reported, including (where applicable) the names of all contacting and contacted parties
 - All actions taken by the Servicer
 - The dates of all contacts and actions

2. Confirm in writing communications with Freddie Mac and appropriate law enforcement agencies
3. Deliver the original Mortgage file to Freddie Mac (**see Directory 5**) when and if Freddie Mac requests the Servicer to do so

(c) Restriction on foreclosure action

The Servicer must contact Freddie Mac to request approval to initiate foreclosure (**see Directory 5**).

(d) Applicability of requirements

The requirements in Sections 8402.1 through 8402.6 address forfeitures arising from violations of federal, State or local laws specified in Section 8402.1(a). However, all of these requirements also extend to government seizure and forfeiture of the property for the Borrower's violation of any other laws.

Refer to Section 9401.2 for Freddie Mac rights when the requirements of this section and Sections 8402.2 through 8402.6 regarding government seizure and forfeiture of the property are not met.

8402.2: Unsolicited disclosure of pre-seizure information (03/02/16)

The Servicer must relay the following information to the asset forfeiture team in the Drug Enforcement Administration (DEA) office nearest to the location of the property:

1. Unsolicited information that the Servicer receives from any party (other than a law enforcement official) regarding a possible connection between alleged or suspected drug transactions and the Mortgage or the property. The Servicer must relay the information without verifying or passing judgment on its source or veracity.
2. Visual observations of suspected drug transactions by any party on the property as reported by a Servicer's employee or a contractor while on a routine inspection of the property

The Servicer must cooperate with all law enforcement agencies to the extent that applicable law allows. If the DEA or another law enforcement agency requests information about the Borrower, Mortgage or property, or requests that the Servicer take certain actions, whether or not in response to a voluntary disclosure of information, the Servicer must determine if:

1. The request complies with the provisions of applicable law including, but not limited to, the Right to Financial Privacy Act (RFPA)

2. The Servicer's compliance with the request is allowed under applicable law
3. The Servicer's compliance with the request would expose the Servicer or the Servicer's staff to potential harm and/or liability

(a) Reporting requirements

Within three Business Days of receiving the DEA's or other law enforcement agency's request, the Servicer must report the information in writing to the DEA or other law enforcement agency. The Servicer must send a copy of that report to Freddie Mac (**see Directory 5**) within three Business Days of reporting the information to the DEA or other law enforcement agency.

When submitting information to the DEA, the Servicer must:

1. Advise the DEA that the Servicer is Servicing the Mortgage for Freddie Mac
2. Disclose to the DEA the name, telephone number and mailing address of the Servicer's contact at Freddie Mac
3. Forward the information to any other applicable federal or local law enforcement agency as the DEA may request

All reporting to the DEA and/or to Freddie Mac must be in writing unless an emergency warrants reporting by telephone, in which case the Servicer must confirm such report in writing to Freddie Mac in accordance with Section 8402.1(b). The Servicer must also report all developments after the initial contact to Freddie Mac (**see Directory 5**) within three Business Days of any such development.

(b) Property inspection

The Servicer must order a property inspection within three Business Days of receiving unsolicited information regarding a possible connection or observation of alleged or suspected drug transactions in connection with the property. Freddie Mac will permit a curbside inspection as specified in Section 9202.12. The Servicer must submit a copy of the inspection report along with the Freddie Mac loan number and the name and phone number of the Servicer's point of contact to Freddie Mac (**see Directory 5**) within three Business Days of the Servicer's receipt of the report.

8402.3: Requested disclosure of pre-seizure information (03/02/16)

The Servicer must cooperate with all law enforcement agencies to the extent that applicable law allows. If the Drug Enforcement Administration (DEA) or another law enforcement agency

requests information about the Borrower, the Mortgage or the property, or requests that the Servicer take certain actions (whether or not in response to a voluntary unsolicited disclosure of information by the Servicer as provided in Section 8402.1), the Servicer must determine if:

1. The request complies with the provisions of applicable law including, but not limited to, the Right to Financial Privacy Act (RFPA)
2. The Servicer's compliance with the request is allowed under applicable law
3. The Servicer's compliance with the request would expose the Servicer or the Servicer's staff to potential harm and/or liability

(a) Reporting requirements

Within three Business Days of receiving the DEA's or other law enforcement agency's request, the Servicer must report the request to Freddie Mac (**see Directory 5**) reporting the request with a copy of the Servicer's response to the agency and any other information the Servicer submitted. The Servicer must also report to Freddie Mac (**see Directory 5**) all developments after the initial contact, within five Business Days of any such development.

When submitting information to the DEA or another law enforcement agency, the Servicer must:

1. Advise the agency that the Servicer is Servicing the Mortgage for Freddie Mac
2. Disclose to the agency the name, telephone number and mailing address of the Servicer's contact at Freddie Mac
3. Forward the information to any other applicable federal or local law enforcement agency as may be requested by the law enforcement agency making the request

All reporting to the DEA and/or to Freddie Mac must be in writing unless an emergency warrants reporting by telephone, in which case the Servicer must confirm such report in writing to Freddie Mac in accordance with Section 8402.1. The Servicer must also report all developments after the initial contact to Freddie Mac (**see Directory 5**) within three Business Days of any such development.

(b) Property inspection

The Servicer must order a property inspection within three Business Days of receiving a request from a law enforcement agency. Freddie Mac will permit a curbside inspection as specified in Section 9202.12. The Servicer must submit a copy of the inspection report along with the Freddie Mac loan number and the name and phone number of the Servicer's point of contact to Freddie Mac (**see Directory 5**) within three Business Days of the Servicer's receipt of the report.

8402.4: Government notice of property seizure to the Servicer (03/02/16)

When the Servicer receives notice that a law enforcement agency has seized and/or intends to initiate forfeiture proceedings against the property, the Servicer must comply with the procedures detailed below.

(a) Reporting to Freddie Mac

Within two Business Days of receiving the notice of seizure and/or intent to initiate foreclosure proceedings, the Servicer must forward such notice to Freddie Mac (see **Directory 5**). With the notice, the Servicer must submit all of the following:

1. The following information related to the Mortgage:
 - Freddie Mac loan number
 - Mortgage status (current, delinquent or in foreclosure)
 - UPB, interest and per diem interest amount
 - Any other outstanding amounts
 - Any other information regarding the Borrower or the property that the Servicer deems relevant to the law enforcement agency's action
2. A copy of the Note and any modifying instrument
3. A copy of the Security Instrument with applicable recording information
4. A copy of all assignments of the Security Instrument with applicable recording information relating to the property
5. Such other documents and information as Freddie Mac may request

Upon receiving the required documents from the Servicer, Freddie Mac will forward such documents to Freddie Mac's Legal Division, which will assume responsibility for representing Freddie Mac and the Servicer, where applicable, in the forfeiture proceedings. Where warranted, the Servicer will receive appropriate instructions from Freddie Mac.

If the Mortgage is delinquent, the Servicer must report to Freddie Mac via an EDR transmission within the first three Business Days of the month following the month that the law enforcement agency seized the property unless the Mortgage was current. If the Mortgage is current and a law enforcement agency seized the property, the Servicer may, but is not required to report the event in the EDR transmission. Use default action code 24

(Government seizure), and provide the date that the seizure occurred. For additional information on EDR requirements, refer to Section 9102.7.

(b) Reporting to FHA, RHS, VA or MI

The Servicer must report the seizure and Freddie Mac's role in seeking relief from forfeiture to the FHA, RHS, VA or MI, as applicable, and relay any response to Freddie Mac (see **Directory 5**) within three Business Days of receiving the response. The Servicer must include a copy of any instructions issued by the FHA, RHS, VA or MI as a result of the Servicer's report and, unless otherwise instructed by Freddie Mac, must comply with such instructions.

(c) Property inspection

The Servicer must order a property inspection on the property within three Business Days of receiving a notice of property seizure from a law enforcement agency. Freddie Mac will permit a curbside inspection as specified in Section 9202.12(b). The Servicer must submit a copy of the inspection report along with the Freddie Mac loan number and the name and phone number of the Servicer's point of contact to Freddie Mac (see **Directory 5**) within three Business Days of the Servicer's receipt of the report.

8402.5: Government notice of property seizure to Freddie Mac (03/02/16)

If Freddie Mac receives a notice of seizure and/or intent to forfeit, it will notify the Servicer as soon as possible. Within three Business Days of Freddie Mac's notification to the Servicer, or sooner if requested, the Servicer must submit to Freddie Mac (see **Directory 5**) all of the documents and information cited in Section 8402.4 and comply with all other requirements of that section.

8402.6: Reimbursement of expenses related to property seizures (09/27/21)

Freddie Mac will reimburse the Servicer for allowable expenses listed in Exhibit 57A, Approved Attorney Fees and Title Expenses, that the Servicer incurs to comply with Freddie Mac's requirements regarding property seizure only if the expenses are not legally collectible from the Borrower.

The Servicer must obtain Freddie Mac's written pre-approval prior to incurring expenses that are not listed, or that exceed Freddie Mac's expense limits, in Exhibit 57A by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (See Exhibit 88, Servicing Tools). If unusual or emergency circumstances do not allow the Servicer to request

Freddie Mac's prior written approval, then the Servicer must notify Freddie Mac via **PAID** by the next Business Day after the Servicer incurred the expense. If the Servicer's determination to incur the expense was reasonable, Freddie Mac will reimburse the Servicer for the expense.

Chapter 8403: Abandoned Properties, Distressed Properties and Properties that Pose a Risk of Property Ownership

8403.1: Servicing Mortgages on distressed properties and properties that pose a Risk of Property Ownership (09/27/21)

Servicers are responsible for acting without delay, and in an efficient and responsible manner to protect both the Servicer's and Freddie Mac's interests when the Servicer becomes aware of a Mortgaged Premises that becomes a distressed property. Refer to Section 9401.2 for information regarding Freddie Mac's rights when the Servicer becomes aware of a distressed property and fails to act to protect both the Servicer's and Freddie Mac's interests as required by this section.

A distressed property is real property subject to a Mortgage that may or may not pose a Risk of Property Ownership (see Section 9202.5) to Freddie Mac, and is a property that:

- Requires substantial repairs
- Has sustained significant physical deterioration; or
- Has been condemned by a local authority

Even if the owner has abandoned the Mortgaged Premises, a Servicer must report all Mortgages on distressed properties that are 30 or more days delinquent via an EDR transmission within the first three Business Days of the month following the month in which the Servicer identified the problem using default reason code 011 (Property problem) and the applicable occupancy code.

If a property is distressed, the Servicer must conduct a search of the records of the local code authority to determine if there is any outstanding health or safety violations filed against either the Borrower or the property. If a Servicer discovers any code violations on a distressed property, the Servicer must report them to Freddie Mac (**see Directory 5**) within three Business Days of identifying the violation. Servicers must attach a copy of the code violation and copies of the most recent six consecutive months (or less, depending on the level of Delinquency) of Form 1013, 1-4, Unit Property Inspection Report.

In addition to any reporting requirement set forth above for distressed properties, the Servicer must:

1. Maintain a record of when the condition was discovered and take all necessary actions to protect the property from waste, damage and vandalism and prevent any loss

2. Inspect the property monthly until the condition is resolved
3. Ensure that property insurance coverage is maintained. This includes taking all actions required in the mortgage clause of all applicable property insurance policies, including, but not limited to, providing all notices to the insurer required under such clause, in order to preserve the coverage and its maximum benefits for the Servicer and/or Freddie Mac, as mortgagee.
4. File a claim with the applicable property insurer on Freddie Mac's behalf if the property is damaged and the Borrower has not filed a claim
5. Comply with the requirements of the VA, RHS, FHA or MI, if applicable

Servicers must obtain Freddie Mac's written pre-approval before incurring expenses on distressed properties that exceed the limits contained in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts, by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). If unusual or emergency circumstances do not allow a Servicer to request Freddie Mac's prior written approval, then the Servicer must notify Freddie Mac via PAID by the next Business Day after the Servicer incurred the expense. If the Servicer's determination to incur the expense was reasonable, as determined in Freddie Mac's sole discretion, Freddie Mac will reimburse the expense.

Servicers must obtain Freddie Mac's prior written approval to initiate foreclosure of a Mortgage on a distressed property as required in Section 9301.8.

If a property securing a Mortgage has been identified as posing a Risk of Property Ownership, the Servicer must contact Freddie Mac and report the Mortgage to Freddie Mac (**see Directory 5**), even if the Mortgage is not delinquent, within three Business Days of identifying the risk. In such instances, the Servicer must attach copies of the most recent six consecutive months (or less, depending on the level of Delinquency) of Form 1013 and any other relevant information when reporting the Risk of Property Ownership to Freddie Mac.

8403.2: Servicing Mortgages on abandoned properties (09/27/21)

A Servicer is responsible for acting without delay and in an efficient and responsible manner to protect both the Servicer's and Freddie Mac's interests when the Servicer becomes aware of an abandoned property. Refer to Section 9401.2 for information regarding Freddie Mac's rights when Servicer becomes aware of a distressed property and fails to act to protect both Servicer's and Freddie Mac's interests as required by this section.

An abandoned property is real property to which the owner has voluntarily and intentionally relinquished possession, claim and control, or real property defined as abandoned property by applicable laws. Conditions that may lead to abandonment include: vacancy, waste, deterioration, lack of utilities or Delinquency.

A Servicer must report all Mortgages on abandoned properties that are 30 or more days delinquent to Freddie Mac via an EDR transmission within the first three Business Days of the month following the month the Servicer determined the property is abandoned, using occupancy code 07 (Abandoned).

In accordance with applicable law, the Servicer must first determine if the Borrower has, in fact, abandoned the property and then take the following actions:

1. Attempt to locate the Borrower and determine the reason for abandonment
2. Protect the property from waste, damage and vandalism, and ensure the continuation of utilities, where necessary. Exhibit 57, 1- to 4- Unit Property Approved Expense Amounts, describes the allowable preservation and maintenance expenses that may be incurred without obtaining Freddie Mac's pre-approval. (Refer to Section 9701.9 regarding reimbursement for property preservation expenses.)
3. Maintain accurate reports of any of these conditions, detailing actions to prevent losses
4. Ensure that property insurance is maintained. This includes taking all actions required in the mortgage clause of all applicable property insurance policies, including, but not limited to, providing all notices to the insurer required under such clause, in order to preserve the coverage and its maximum benefits for the Servicer and/or Freddie Mac, as mortgagee. If the property is damaged, file a claim with the applicable property insurance company.
5. Obtain interior and exterior inspections in accordance with Section 9202.12
6. Comply with the requirements of the VA, FHA, RHS or MI, if applicable
7. Initiate foreclosure proceedings if the Mortgage payments are delinquent. (Refer to Section 9301.26 regarding preserving the property during the foreclosure process.)
8. Provide to the Internal Revenue Service (IRS) and the Borrower, IRS Form 1099-A, Acquisition or Abandonment of Secured Property, as required under Section 6050J of the Internal Revenue Code. (For IRS filing requirements see Section 8106.3.)

Servicers must obtain Freddie Mac's prior written approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) before incurring expenses that either exceed the approval limits contained in Exhibit 57 or will be incurred after the date of a foreclosure sale, including where the property is sold to a third party. When a delay in taking protective action may result in impairment of the property, the Servicer must contact Freddie Mac via PAID for immediate approval. If the circumstance of incurring the expense is such that the Servicer cannot obtain Freddie Mac's prior approval, then the Servicer must notify Freddie Mac via PAID by the next Business Day after the Servicer incurred the expense. If the Servicer's determination to incur the expense was reasonable, as determined in Freddie Mac's sole discretion, Freddie Mac will reimburse the Servicer for the expense.

Chapter 8304: Managing Custodial Accounts

8304.1: Managing Custodial Accounts (05/01/19)

A Custodial Account is a Demand Deposit Account or Interest-Bearing Deposit Account the Servicer must establish and maintain at an Eligible Depository for the safekeeping of funds associated with Freddie Mac-owned Mortgages. The Servicer must maintain Principal and Interest Payments and Escrow Funds in separate Custodial Accounts until Freddie Mac drafts monthly principal and interest payments or loan payoffs or the Servicer remits funds to a third party. Only funds received in connection with the Servicing of Freddie Mac-owned Mortgages are to be deposited into the accounts.

Refer to Chapter 8302 for requirements on establishing Custodial Accounts and this chapter for requirements for administering and reconciling the cash in the Custodial Accounts.

All Freddie Mac accounts must be reconciled within 45 days of the end of each Accounting Cycle. The Servicer must identify and fund any shortages within 90 days of the Accounting Cycle even if the variance has not been identified. However, Freddie Mac reserves the right to request that funding occur immediately.

Managing Custodial Accounts completes the cycle of the Servicer's investor accounting responsibilities. The Servicer must comply with Freddie Mac's administrative and reconciliation requirements for Custodial Accounts.

- Sections 8304.3 through 8304.12 address administering Custodial Accounts, including Freddie Mac's requirements for recordkeeping, investing funds, monitoring depository eligibility and conditions for changing or transferring Custodial accounts
- Sections 8304.13 through 8304.22 address reconciling Custodial Accounts, including Freddie Mac's requirements for identifying and correcting differences between the Servicer's records and Freddie Mac's

8304.2: Freddie Mac's rights (05/01/19)

Freddie Mac reserves the right to:

1. Draft funds directly from the designated Custodial Accounts at any time. To designate the appropriate Custodial Account and to authorize Freddie Mac to draft monthly principal and interest payments and payoff proceeds, Servicers must submit a completed, executed and duly authorized Form 1132A, Authorization for Automatic Transfer of Funds from a Principal and Interest Custodial Account Through the Automated Clearing House (ACH), in accordance with Section 8303.3.

2. Request that the Servicer submit copies of Custodial Accounts and/or related Time Deposit records, such as bank account statements, detailed trial balances and completed reconciliations, variance logs, and supporting documentation for such records
3. Assess compensatory fees and/or seek repayment of losses sustained due to errors, omission or delays by the Servicer in complying with the requirements of this chapter

8304.3: Servicer responsibilities related to Custodial Accounts (03/02/16)

Servicers are responsible for properly reconciling and maintaining the Custodial Account(s), and for maintaining accurate records and supporting documentation. Servicers are required to establish and reconcile Custodial Account(s) for each Seller/Servicer number. Servicers may not consolidate multiple Seller/Servicer numbers into a single reconciliation.

The Servicer must, at all times, maintain records for each Custodial Account in which Freddie Mac has an interest that accurately reflect the following information:

1. Designating the accounts in accordance with the requirements of Section 8302.6
2. Account numbers
3. The amounts of Principal and Interest Payments and Escrow Funds deposited for each Mortgage
4. The dates on which funds were deposited
5. Supporting documentation of all deposits to and withdrawals from a Custodial Account
6. Freddie Mac's vested and ascertainable interest in funds deposited into each Custodial Account

8304.4: Investing Custodial Account funds (05/01/19)

The Servicer may invest funds deposited into any of Freddie Mac's Custodial Accounts as a Time Deposit or in federal funds. The Servicer may retain any interest earned on funds invested. Such investments must:

1. Contain only Freddie Mac's funds from one type of Custodial Account. The Servicer may not commingle funds from more than one type of Custodial Account or funds from any other source.

2. Be held at an Eligible Depository for that type of Custodial Account in accordance with the requirements of Sections 8302.4 through 8302.7
3. Mature within seven days of the date of the deposit
4. Mature prior to any date on which the Servicer must use the funds for remitting to Freddie Mac, disbursing the payment of an Escrow item, or applying buydown funds to a payment not to exceed seven days from the date of the deposit

Prior to remitting or disbursing funds from the Custodial Account, the Servicer must redeposit invested Custodial Account funds to their original Custodial Account so that they are available for Freddie Mac to draft principal and interest or payoff amounts, or for the Servicer to disburse Escrow payments or apply buydown funds to the Borrower's payment.

8304.5: Maintaining the Principal and Interest Custodial Account balance (05/01/19)

The Servicer must:

- Maintain Freddie Mac funds separately from the Servicer's general ledger account; a general ledger account is not a substitute for a Demand Deposit account
- Deposit all Freddie Mac funds into a Demand or Interest-Bearing Deposit Account in accordance with Section 8302.3
- Ensure that funds are available for Freddie Mac to draft principal and interest or payoff amounts. If the funds available in a Principal and Interest Custodial Account are less than the amount due to Freddie Mac on the applicable draft date, the Servicer must advance its funds so that the amount due to Freddie Mac is available before the applicable draft date.
- Maintain a positive daily balance in the Principal and Interest Custodial Account(s) at all times
- Perform a consolidated reconciliation if the Servicer has more than one Principal and Interest Custodial Account under a specific Seller/Servicer number

The Servicer may recover any funds it advanced for the payment of delinquent net yield interest from subsequent collections of Principal and Interest Payments.

8304.6: Maintaining the Escrow Custodial Account balance (03/02/16)

The Servicer must:

1. Establish and maintain at least one Escrow Custodial Account for each Seller/Servicer number, even if the Servicer does not collect Escrow Funds for Mortgages serviced under that number
2. Maintain the Escrow Funds separately from the Servicer's general ledger account; a general ledger account is not a substitute for a Demand Deposit Account
3. Deposit all Freddie Mac funds into a Demand Deposit or Interest-Bearing Deposit Account in accordance with Section 8302.3
4. Ensure that each Borrower's vested interest is ascertainable at all times
5. Ensure that funds are available for remittances before disbursing funds to third parties
6. Maintain a positive daily balance in the Escrow Custodial Account(s) at all times
7. Perform a consolidated reconciliation if the Servicer has more than one Escrow Custodial Account under a specific Seller/Servicer number
8. Deposit an advance from the Servicer's funds to the Escrow Custodial Account for any shortages on the same day the shortage occurs and before making any disbursements. The Servicer must not use the overages of one Borrower account to fund the negative Escrow or shortage of other Borrower accounts.

The Servicer may recover any Escrow advance from subsequent payments to the Escrow Custodial Account of the specific Mortgage for which the Servicer made the advance.

8304.7: Maintaining the Buydown Custodial Account (03/02/16)

Servicers may deposit buydown funds into the Escrow Custodial Account, or the Servicer may, at its option, open a separate Custodial Account for buydown funds. If the Servicer establishes a separate Buydown Custodial Account, the Servicer must comply with the requirements regarding Custodial Accounts generally, and the maintenance and reconciliation of Escrow Custodial Accounts set forth in the Guide for such Buydown Custodial Account.

8304.8: Monitoring depository eligibility (04/12/23)

The Servicer must maintain all Custodial Accounts and/or related Time Deposits in an Eligible Depository at all times. The Servicer must have its own oversight process to continually monitor its depository to ensure it is viable and in good standing and meet the requirements of Section 8302.4(a). The Servicer's obligation to transfer funds to an Eligible Depository is not dependent upon notification from Freddie Mac.

The Servicer may determine a depository's eligibility by subscribing to any of the rating services referenced in Section 8302.5 or by contacting Institutional_Eligibility@FreddieMac.com. In addition, the Servicer may determine a depository's ineligibility based on actual knowledge.

If the Servicer determines that a depository is no longer eligible, it must:

1. Open new Custodial Accounts and/or related Time Deposits within 30 days from the release date of the ratings that make the depository ineligible
2. Meet the requirements listed in Sections 8304.11 and 8304.12 for changing or transferring accounts

8304.9: Freddie Mac's right to remove accounts from specified depositories (03/02/16)

Freddie Mac reserves the right to determine, at Freddie Mac's sole discretion, that the Servicer may no longer deposit or hold Principal and Interest Payments and Escrow Funds in a particular depository. Freddie Mac's exercise of its rights under this section means that it may expressly prohibit a Servicer from maintaining Custodial Accounts and/or related Time Deposits with a particular Depository.

If Freddie Mac determines that a depository no longer meets Freddie Mac's requirements, Freddie Mac will give the Servicer written notice to remove the Custodial Accounts and/or related Time Deposits. The Servicer must comply with all requirements of the notice and take the following actions:

1. Close the Custodial Accounts and/or related Time Deposits within the time frame as specified in the notice
2. Open new Custodial Accounts in accordance with the requirements of Section 8304.11 in an Eligible Depository other than the depository specified in the notice

If the Servicer chooses to invest the Custodial Account funds in a Time Deposit at the new Eligible Depository, it must adhere to the requirements for Time Deposits in Section 8304.11(a).

8304.10: The Servicer's right to change or transfer accounts (03/02/16)

The Servicer may choose to change Custodial Accounts and/or related Time Deposits, or transfer them to another Eligible Depository. If the Servicer chooses to do so, it must adhere to the requirements of Section 8304.11.

8304.11: Requirements for changing or transferring accounts (03/02/16)

Changes to or transfers of Custodial Accounts and/or related Time Deposits may result from any of the following circumstances:

1. The ineligibility of a depository according to the requirements of Section 8304.8
2. A written notice from Freddie Mac to remove the account according to the requirements of Section 8304.9
3. The Servicer's choice to change or transfer the account according to the requirements of Section 8304.10
4. A change to the depository's name, account number or bank routing number

(a) Custodial Account and/or related Time Deposit

The Servicer must meet the requirements of Sections 8302.3 through 8302.7 to change or transfer any Custodial Account.

The Servicer must meet the requirements of Sections 8302.4 through 8302.7 and Section 8304.4 to change or transfer any Time Deposit related to a Custodial Account.

(b) Remittance drafting account

In addition to meeting the requirements above, if there is any change or transfer that affects the Custodial Account the Servicer chose as a remittance drafting account, the Servicer must also:

1. Contact Freddie Mac (**see Directory 1**)
2. Submit the documentation required by Section 8302.7(c) at least 15 Business Days before the Servicer plans to use the new account or modified bank routing instruction

3. Continue to use the existing account or bank routing instructions until Freddie Mac gives the Servicer written authorization to use the new account or modified bank routing instructions
4. Transfer funds from the former Custodial Account to the new Custodial Account when the Servicer receives Freddie Mac's written notice that Freddie Mac has processed the new remittance instructions

If Freddie Mac drafts and funds are not available because the Servicer changed its drafting account without receiving Freddie Mac's written authorization, the Servicer will be subject to an interest reimbursement compensatory fee as set forth in Section 8303.41.

8304.12: Liability for Custodial Account transfer costs (03/02/16)

Freddie Mac will not be liable to the Servicer for any costs, fees, penalties, loss of interest income or any other expenses directly or indirectly resulting from the transfer of any Custodial Account and/or related Time Deposit from one depository to another. Refer to Sections 8304.8 through 8304.10. This applies whether Freddie Mac requires the Servicer, or the Servicer chooses, to transfer the Custodial Account and/or related Time Deposit.

8304.13: Reconciling Custodial Accounts (10/12/22)

The Servicer must reconcile all Custodial Accounts within 45 days of the end of each Accounting Cycle. The purpose of the Custodial Account reconciliation is to enable the Servicer to:

- Identify, at the loan level, variances between the Servicer's receipts, cash disbursements and liabilities due to third parties and Freddie Mac's records
- Identify and correct the root cause of the items causing the variance
- Notify Freddie Mac of errors in Freddie Mac's records
- Fund shortages and clear all variances no later than 90 days from the end of each Accounting Cycle even if the Servicer has not identified the root cause. However, Freddie Mac reserves the right to request that funding occur immediately.

8304.14: Reconciling the Principal and Interest Custodial Account (10/12/22)

The Servicer must not consolidate multiple Seller/Servicer numbers into a single reconciliation. In reconciling the Principal and Interest Custodial Account, the Servicer must:

1. Reconcile the Principal and Interest Custodial Account within 45 days from the end of each Accounting Cycle
2. Establish a separate Custodial Account and reconciliation for each Seller/Servicer number
3. Use the ending balance of the Monthly Account Statement that corresponds to the Accounting Cycle
4. Consolidate all Principal and Interest Custodial Accounts for a specific Seller/Servicer number into a single reconciliation, if the Servicer has multiple Principal and Interest Custodial Accounts for a specific Seller/Servicer number
5. Properly document and account for any prepaid and delinquent interest in order to accurately determine the Custodial Account adjusted liability
6. Identify, at the loan level, variances between the Servicer's receipts, cash disbursements and liabilities due to third parties and Freddie Mac's records
7. Fund shortages and clear all variances within 90 days from the end of the Accounting Cycle, even if the Servicer has not identified the root cause of the issue. However, Freddie Mac reserves the right to request that funding occur immediately.
8. Use the Form 59, Principal and Interest Custodial Account Reconciliation - Monthly Account Statement (MAS), to reconcile the account and identify variances. The Servicer may use either the online version of Form 59 or a copy that is an exact replica of the form, to complete the reconciliation. The Servicer must document every line item on Form 59 of the custodial account reconciliation as follows:
 - Bank statements with a running daily balance that cover the Accounting Cycle
 - Bank statements that show deposits in transit, outstanding debits, and funding of shortage variances
 - The final version of the MAS
 - Delinquent and prepaid interest trial balances
 - Supporting documentation for other billings

- Cumulative variance logs
- Any additional documentation requested by Freddie Mac

If the Servicer disagrees with the ending balance or any adjustments listed on the Draft Report with the exception of short sale charge-offs applied to the MAS (see Section 9208.8), the Servicer must notify Freddie Mac (see **Directory 7**) within 90 days of the end of the Accounting Cycle represented by the MAS. Freddie Mac reserves the right to deny the Servicer's request for a refund or interest on a refund if the Servicer does not notify Freddie Mac within the required time frame.

Refer to Section 8304.15 for information on Freddie Mac's review of this reconciliation.

8304.15: Freddie Mac's Principal and Interest Custodial Account review (04/12/23)

Freddie Mac conducts periodic examinations of the Principal and Interest Custodial Account Reconciliation. At any time Freddie Mac may request, and the Servicer must provide, Freddie Mac with a complete reconciliation no later than the requested due date. The reconciliation package must include:

- A completed and fully executed Form 59, Principal and Interest Custodial Account Reconciliation Worksheet — Monthly Account Statement, along with supporting documentation for every line item on Form 59
- Bank statements, including any that show evidence of deposits of shortage variances
- Trial balance of delinquent and prepaid interest
- Variance logs and any supplemental information to explain the nature and age of the variance displaying the Freddie Mac loan number
- Any additional documentation requested by the Freddie Mac examiner

8304.16: Reconciling deposits to the Principal and Interest Custodial Account (04/12/23)

In reconciling a Principal and Interest Custodial Account, the Servicer must, as of the end of each Accounting Cycle, account for all payments received as well as advances and other billings due to Freddie Mac. Section 8302.10 specifies the time frames the Servicer must meet for the deposit of the funds listed below. The required deposits to the Principal and Interest Custodial Account by source are as follows:

(a) Freddie Mac's share of payments received:

1. Principal and interest collected on all Freddie Mac Mortgages, whether received from, or on behalf of, the Borrower or applied from a buydown account
2. Principal curtailments
3. Payoffs, including short sales and third-party foreclosure sale proceeds
4. Prepayment penalties, if applicable

If the Servicer chooses, it may also deposit and later withdraw the Servicing fees that it earns. If the Servicer does not withdraw these funds by the end of the Accounting Cycle, it must account for them in its reconciliation.

(b) Advances and other billings due from the Servicer:

1. Advances for remittance shortages
2. Interest due for newly funded Mortgages
3. Repurchase proceeds

8304.17: Reconciling withdrawals from the Principal and Interest Custodial Account (05/01/19)

In reconciling the Principal and Interest Custodial Account, the Servicer must, as of the end of the Accounting Cycle, account for all withdrawals from the account, including the following:

1. Principal and interest and payoffs to Freddie Mac
2. Earned Service fees and amounts in excess of the Minimum Gross Yield originally deposited with a full Principal and Interest Payment
3. Participant's share of Principal and Interest Payments
4. Recovery of advances for delinquent Mortgages
5. Deposit errors and other reconciling items
6. Transfers to a Principal and Interest Disbursement Clearing Custodial Account. Refer to Section 8304.22 for reconciliation requirements regarding this optional Custodial Account.

8304.18: Reconciling the Escrow Custodial Account (10/12/22)

The Servicer must not consolidate multiple Seller/Servicer numbers into a single reconciliation. In reconciling the Escrow Custodial Account, the Servicer must:

1. Reconcile the Escrow Custodial Account within 45 days from the end of the Accounting Cycle
2. Establish a separate bank account and reconciliation for each Seller/Servicer number
3. Complete a consolidated reconciliation if the Servicer has more than one Escrow Custodial Account under a specific Seller/Servicer number, and a consolidated reconciliation for its Escrow liabilities
4. Use the positive Escrow balance that corresponds to the end of the Accounting Cycle
5. Properly document and account for all Escrow balances in order to accurately determine the Escrow Custodial Account adjusted liability
6. Identify, at the loan level, variances between the Servicer's receipts, cash disbursements and liabilities due to third parties and Freddie Mac's records
7. Fund shortages and clear all variances within 90 days from the end of the Accounting Cycle
8. Include any buydown balances in the Servicer's Escrow Custodial Account reconciliation, if any buydown funds are deposited into the Escrow Custodial Account. The Servicer may complete a separate reconciliation for buydown subsidies if the Servicer chooses to set up an optional buydown Custodial Account. Refer to Section 8304.22 for requirements for reconciling a separate buydown Custodial Account.
9. Reconcile to the positive Escrow balance as of the end of the Accounting Cycle using Form 59E, Escrow Custodial Account Reconciliation Worksheet. The Servicer may use either the online version of Form 59E or a copy that is an exact replica of the form, to complete the reconciliation. The Servicer must document every line item on Form 59E of the Escrow Custodial Account reconciliation as follows:
 - Bank statement(s) with a running daily balance that cover the Accounting Cycle
 - Bank statements that show deposits in transit, outstanding debits, and funding of shortage variances
 - Loan level trial balance displaying the Escrow balances

- If the Servicer's trial balance nets the escrow liability, and add the negative escrow balance
- Cumulative variance logs that display the Freddie Mac loan number

Refer to Section 8304.19 for information on Freddie Mac's review of this reconciliation.

8304.19: Freddie Mac's Escrow Custodial Account review (04/12/23)

Freddie Mac conducts periodic examinations of the Escrow Custodial Account Reconciliation. At any time, Freddie Mac may request, and the Servicer must provide Freddie Mac with, a complete reconciliation no later than the requested due date. The reconciliation package must include:

- A completed and fully executed Form 59E, Escrow Custodial Account Reconciliation Worksheet, along with supporting documentation for every line item on Form 59E
- Bank statements, including any that show evidence of deposits or shortage variances
- Trial balance displaying all Escrow liabilities
- Variance logs and any supplemental information to explain the nature and age of the variance displaying the Freddie Mac loan number
- Any additional documentation requested by the Freddie Mac examiner

If the Servicer's trial balance reflects a net Escrow balance, the Servicer must add the negative Escrow to determine the liability.

The Servicer may use either the online version of Form 59E, or a copy that is an exact replication of the form, to complete the reconciliation. Upon Freddie Mac's request, the Servicer must be able to provide Freddie Mac with a paper copy of the completed Form 59E, together with any supporting documentation, for up to one year from the date of the related reconciliation worksheet. All documentation must be received by Freddie Mac no later than the requested due date. Refer to the instructions section of Form 59E for information on supporting documentation.

8304.20: Reconciling deposits to the Escrow Custodial Account (05/01/19)

In reconciling the Escrow Custodial Account, the Servicer must, as of the end of the Accounting Cycle, account for all Escrow Funds received, as well as advances or interest paid on Escrow. The Servicer is required to maintain an active Escrow Custodial Account even if no Escrow amounts are collected from the Borrower(s). The Escrow Custodial Account may also be used to deposit partial payments, suspense amounts where the Borrower has not established clear intent for the payment, and insurance payment proceeds. Section 8302.10 specifies the time frames the Servicer must meet for the deposit of funds to Custodial Accounts.

The following details the deposits to include in the reconciliation:

(a) Payments received:

1. Escrow Funds paid by the Borrower or deposited on the Borrower's behalf, such as insurance loss claim proceeds
2. Payments held in unapplied or suspense pending proper distribution such as, partial payments and biweekly payments from plans that allow for biweekly collection of payments on monthly amortizing Mortgages
3. Buydown funds, if applicable. Refer to Section 8304.22 for reconciliation requirements regarding an optional buydown Custodial Account

(b) Funds due from the Servicer:

1. Advances as specified in Section 8304.6
2. Interest on Escrow, if paid and deposited to the Borrower's Escrow account

8304.21: Reconciling withdrawals from the Escrow Custodial Account (05/01/19)

In reconciling the Escrow Custodial Account, the Servicer must, as of the end of the Accounting Cycle, account for all withdrawals made from the account. The following lists the withdrawals to include in the reconciliation:

1. Disbursements of Escrow Funds, including insurance proceeds resulting from a loss claim
2. Partial payments applied, including biweekly payment plan funds on monthly amortizing Mortgages

3. Buydown funds applied to the Borrower's Mortgage
4. Recovery of the Servicer's advances when the Servicer receives a subsequent Escrow payment for the Mortgage for which the Servicer made the advance
5. Refunds of surplus Escrow Funds resulting from an Escrow analysis or Mortgage payoff
6. Deposit errors and other reconciling items

8304.22: Reconciling an optional Custodial Account (05/01/19)

If a Servicer chooses to open an optional Custodial Account, as referenced in Sections 8302.1 and 8302.2, as of the end of the Accounting Cycle, the Servicer must complete the following consolidated reconciliations:

(a) Principal and Interest Disbursement Clearing Custodial Account

The balance of this type of Custodial Account must equal zero or the amount of a principal and interest payment or payoff amount due to Freddie Mac. The Servicer must only make deposits to this type of Custodial Account immediately prior to the applicable draft date. The Servicer must consolidate the Principal and Interest Disbursement Clearing Custodial Account reconciliation with the Servicer's Principal and Interest Custodial Account reconciliation. Refer to Sections 8304.13 through 8304.17 for requirements on reconciling the Principal and Interest Custodial Account.

(b) Buydown Custodial Account

The balance of this type of Custodial Account must equal the total of buydown funds deposited at the time Freddie Mac purchased a Mortgage, minus the monthly buydown amount times the number of payments applied since Freddie Mac's purchase. The balance in this Custodial Account may represent the buydown balance of more than one Mortgage. Refer to Section 8304.13 for requirements on reconciling this account.

Chapter 8404: Servicing Mortgages Impacted by a Disaster

8404.1: Introduction of Servicer responsibilities following a disaster (03/02/16)

This chapter provides Servicers with our requirements for assisting Borrowers whose Mortgaged Premises or places of employment are located in an Eligible Disaster Area.

A disaster may be a natural disaster (e.g., an earthquake, flood or hurricane) or a man-made disaster (e.g., a civil disturbance) that adversely affects a geographical area encompassing properties that secure Freddie Mac Mortgages or Borrowers' places of employment.

8404.2: Property protection activities following a disaster (02/01/22)

In conjunction with the requirements outlined in Section 8404.4, the Servicer is required to protect the Mortgaged Premises by following the requirements outlined in this section.

In the event of a disaster impacting Mortgages serviced for Freddie Mac, a Servicer must:

- Ascertain the number of such Mortgages and the extent of the damage that may have been caused by the disaster for each Mortgaged Premises, which may be completed by:
 - Determining the status of the property through discussions with the Borrower; and/or
 - Completing a property inspection per requirements outlined in Section 9202.12. Servicers are reminded that property inspections will be reimbursed based on the limits set forth in Section 9701.9. Property inspections that are completed outside of the requirements set forth in Section 9701.9 may not receive reimbursement.
- Secure an abandoned property if the Mortgaged Premises has not sustained significant or total damage
- Provide assistance to the Borrower regarding options for local, State or federal disaster assistance
- Monitor and coordinate the insurance claim process and the progress of repairs in accordance with Section 8202.11
- In addition to the requirements of Section 8202.11, comply with the insurance claim process requirements in accordance with Section 8404.3 for Eligible Disasters

If a Servicer determines that the disaster has affected a Mortgaged Premises and it may pose a Risk of Property Ownership (see Section 9202.5), the Servicer must notify Freddie Mac (**see Directory 5**) within five Business Days of learning of the situation. In such instances, the Servicer must attach copies of the most recent six consecutive months (or less, depending on the level of Delinquency) of Form 1013, 1-4 Unit Property Inspection Report, and any other relevant information when reporting the Risk of Property Ownership to Freddie Mac.

Refer to Section 8403.1 for additional requirements on properties that become distressed.

8404.3: Insurance loss settlements after an Eligible Disaster (03/02/16)

If the Mortgaged Premises has been damaged and is located in an Eligible Disaster Area, property insurance proceeds for structural losses must be disbursed in accordance with Section 8202.11.

8404.4: Delinquency management activities following a disaster (10/14/20)

In the event a disaster strikes, it is imperative that Servicers be considerate of the Borrower's circumstances and work to obtain quality right party contact with the Borrower as soon as possible. This section will outline specific activities that a Servicer must take to appropriately manage the Borrower's Delinquency if the Servicer believes the disaster resulted in a hardship for the Borrower and the disaster is an Eligible Disaster.

(a) Circumstances where quality right party contact has not been achieved

If the Servicer has not yet achieved quality right party contact then the Servicer, at its discretion, may place a Borrower who becomes 31 or more days delinquent due to an Eligible Disaster in a forbearance plan for up to 90 days, in accordance with the requirements in this section, Section 8404.6 and Sections 9203.12 through 9203.17. If a Borrower is 31 days or more delinquent at the time of impact due to an Eligible Disaster, the Servicer must achieve quality right party contact before approving forbearance.

The forbearance plan must not exceed 90 days without either achieving quality right party contact or receiving approval from Freddie Mac (**see Directory 5**). If the Servicer has relevant information regarding the Borrower's current financial circumstances and/or the extent of the property damage caused by the Eligible Disaster, the Servicer should consider these factors in its evaluation decision whether to provide forbearance.

If quality right party contact has not been achieved by the end of the forbearance period, then the Servicer must comply with the requirements of Section 8404.6(b), which provide the transition requirements when quality right party contact has not been achieved.

(b) Circumstances where quality right party contact has been achieved

- If the Borrower does not require any form of relief and there is no Risk of Property Ownership (see Section 9202.5) to Freddie Mac as a result of damage caused by the disaster, Servicers should continue to service the Mortgage in accordance with the requirements of the Guide
- If the Borrower does require a relief option or the Mortgaged Premises has damage that would pose a Risk of Property Ownership to Freddie Mac, Servicers have discretion to suspend collection and foreclosure proceedings by placing the Borrower into a forbearance plan for up to 12 months, based on the circumstances of each case. The Servicer is not required to obtain a complete Borrower Response Package from the Borrower and may offer:
 - Forbearance for a period of one to six months, and
 - If necessary, one or more successive forbearance plan periods of one to six months

Without prior approval from Freddie Mac, the forbearance plan may not be extended beyond a date that would cause the Delinquency to exceed a cumulative total of 12 months of the Borrower's contractual monthly Mortgage payment, including taxes and insurance if the Servicer is collecting Escrow for those expenses.

- When applicable, such a suspension of Servicing action must be pre-approved by the MI, FHA, RHS or VA to avoid jeopardizing benefits of any applicable insurance or guaranty
- Servicers should reassess each impacted Borrower on a regular basis during the forbearance period to determine if forbearance should be extended up to a total of 12 months or the hardship has been resolved
- If the Servicer believes forbearance beyond a total of 12 months is warranted, the Servicer should make that recommendation to Freddie Mac for consideration (see **Directory 5**).

In the event Freddie Mac participated in evaluating a Borrower for forbearance beyond a total of 12 months and Freddie Mac denied the request, the Servicer must refer to Section 1301.2(i) for more information on adverse action notices that must be provided to the Borrower on behalf of Freddie Mac under certain limited circumstances.

At the end of the forbearance period, the Servicer must reassess the Borrower's circumstances to determine whether the Borrower's hardship resulting from the Eligible

Disaster has been resolved. The determination may be based on information from the Borrower as a result of quality right party contact, and/or

- An updated property inspection assessment of the extent of property damage; or
- Discussions with the Borrower

If the hardship has been resolved and the Borrower is ready to transition to a permanent solution, the Servicer must evaluate the Borrower for the most appropriate workout option to cure the Delinquency in accordance with the requirements in Section 8404.6. If the hardship has not been resolved, then the Servicer must evaluate the Borrower's eligibility for extended forbearance.

(c) Mortgage eligibility and forbearance plan requirements

Except as otherwise provided in this section, when offering forbearance relief to Borrowers impacted by an Eligible Disaster, Servicers must utilize the requirements set forth in Chapter 9203.

The Mortgage may be secured by the following property types:

- Primary Residence
- Second home, or
- Investment Property

The property may be vacant or condemned, but not abandoned.

In situations where the Borrower is unable to send or receive documentation, the Servicer may waive the requirement that the forbearance plan be in writing. In these circumstances, the Servicer may enter the Borrower into a forbearance plan through a verbal agreement.

(d) Other Delinquency management activities

The Servicer must not assess late charges as long as the Borrower is on a forbearance plan or paying as agreed on a repayment plan.

8404.5: Disaster reporting requirements (04/21/21)

(a) Credit reporting for Borrowers impacted by an Eligible Disaster

Servicers must report Borrowers who are on a disaster-related forbearance plan, repayment plan or Trial Period Plan to the credit bureaus in accordance with applicable law, including the Fair Credit Reporting Act.

(b) Reporting loans affected by a disaster to Freddie Mac

Servicers must report all Mortgages that are affected by a disaster and are 31 or more days delinquent to Freddie Mac via an EDR transmission within the first three Business Days of the month following the month the Servicer learned of the disaster using default reason code 034 (Eligible Disaster Area).

(c) Reporting forbearance or repayment plans to Freddie Mac

A Servicer must report all Mortgages that are subject to a repayment plan or a forbearance plan resulting from disaster-caused hardship via an EDR transmission using default code 09 for forbearance or default code 12 for a repayment plan within the first three Business Days of the month following the month that the plan was entered into. The Servicer must continue to report that the Mortgage is under the plan until the Mortgage is fully reinstated or the plan ends. Refer to Chapter 9203 for more details.

8404.6: Transition following disaster-related forbearance (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

If the Borrower was placed on forbearance as a result of an Eligible Disaster, the Servicer must contact the Borrower on a periodic basis and prior to the end of the forbearance period to determine whether the hardship has been resolved and the most appropriate relief or workout option to cure the Delinquency. The Servicer must consider a number of factors including, but not limited to, the Servicer's ability to achieve quality right party contact, the Borrower's current financial circumstances and ability to resume making monthly payments, and the status of the Mortgage at the time of the disaster.

If, at the end of the disaster-related forbearance period, the Servicer is evaluating the Borrower for a foreclosure prevention alternative based on a Borrower Response Package, the documentation cannot be more than 180 days old as of the date of the evaluation for the foreclosure prevention alternative.

(a) Evaluation hierarchy

If QRPC is established with a Borrower who was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and the Borrower is unable to resolve the Delinquency through a reinstatement or repayment plan, the Servicer must evaluate the Borrower for the loss mitigation options in the following Disaster evaluation hierarchy:

1. Disaster Payment Deferral
2. Flex Modification
3. Standard Short Sale
4. Standard Deed-in-Lieu of Foreclosure

If the Borrower was not current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, the Servicer must conduct all loss mitigation evaluations in accordance with the standard loss mitigation evaluation hierarchy, as described in Section 9201.2, or must submit an exception request.

Note: In most cases, Borrowers impacted by an Eligible Disaster who qualify to be evaluated for a Disaster Payment Deferral will be transitioning from a forbearance plan, but forbearance is not a prerequisite.

(b) Solicitation for a Disaster Payment Deferral

The Servicer must proactively solicit the Borrower for a Disaster Payment Deferral in accordance with the requirements in Section 9203.26(e) within 15 days after the expiration of the disaster-related forbearance plan if:

- The Servicer is not able to establish QRPC during the disaster related forbearance plan, and
- The Mortgage was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- The Mortgage does not meet any of the criteria described in the “Eligibility Exclusions” in Section 9203.26(a)

Note: Refer to Section 9203.26 for complete requirements for the Disaster Payment Deferral.

(c) Solicitation for a Flex Modification

If the Borrower is ineligible for a solicitation for a Disaster Payment Deferral as described above, then the Servicer must evaluate the Borrower for a streamlined offer for a Flex

Modification in accordance with the special Flex Modification requirements for Borrowers impacted by an Eligible Disaster, as described in Section 9206.5(e). Otherwise, the Servicer must evaluate in accordance with regular Guide requirements for a streamlined offer for a Flex Modification, as described in Section 9206.5(c). The Servicer must send a streamlined offer for a Flex Modification to an eligible Borrower within 15 days of the expiration of the forbearance plan.

If the Borrower was eligible for a solicitation for a Disaster Payment Deferral but did not accept the offer, the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification following the same requirements as described above except that the Servicer must send the streamlined offer to an eligible Borrower within 15 days of the expiration of the Disaster Payment Deferral offer.

(i) Flex Modification evaluations for failed Disaster Payment Deferral

If the Borrower accepts a Disaster Payment Deferral, subsequently becomes 60 days delinquent within six months of the effective date, and the Servicer is unable to achieve QRPC, the Servicer must evaluate the Borrower for a Flex Modification based on the special eligibility criteria described below, and the Servicer is not required to collect a complete Borrower Response Package. A Flex Modification offer must be sent to an eligible Borrower under these requirements no later than the 75th day of Delinquency.

Complete requirements for Flex Modifications for Borrowers impacted by an Eligible Disaster can be found in Section 9206.5(e).

(d) Transition requirements for Borrowers who were on a Trial Period Plan at the time of the Eligible Disaster

If a Borrower who was performing in accordance with the terms of a Trial Period Plan is placed on forbearance as a result of an Eligible Disaster, then within 30 days prior to the end of the forbearance period, the Servicer must determine whether the Borrower's financial circumstances continue to be adversely impacted by the disaster based on verbal confirmation with the Borrower about his or her current financial condition and an updated assessment of the extent of the property damage resulting from most recent property inspection or the current conditions of the property based on discussions with the Borrower.

If the Borrower was performing on a Freddie Mac Flex Modification at the time of the Eligible Disaster, the Servicer must make a new streamlined offer to the Borrower for a Flex Modification Trial Period Plan meeting the requirements of Section 9206.5.

Regardless of the Borrower's financial circumstances, the Borrower must complete a new three-month Trial Period Plan that begins immediately following the forbearance plan in order to be eligible for a permanent modification.

8404.6: Transition following disaster-related forbearance (Future effective date 10/01/23)

If the Borrower was placed on forbearance as a result of an Eligible Disaster, the Servicer must contact the Borrower on a periodic basis and prior to the end of the forbearance period to determine whether the hardship has been resolved and the most appropriate relief or workout option to cure the Delinquency. The Servicer must consider a number of factors including, but not limited to, the Servicer's ability to achieve quality right party contact, the Borrower's current financial circumstances and ability to resume making monthly payments, and the status of the Mortgage at the time of the disaster.

If, at the end of the disaster-related forbearance period, the Servicer is evaluating the Borrower for a foreclosure prevention alternative based on a Borrower Response Package, the documentation cannot be more than 180 days old as of the date of the evaluation for the foreclosure prevention alternative.

(a) Evaluation hierarchy

If QRPC is established with a Borrower who was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and the Borrower is unable to resolve the Delinquency through a reinstatement or repayment plan, the Servicer must evaluate the Borrower for the loss mitigation options in the following Disaster evaluation hierarchy:

1. Disaster Payment Deferral
2. Flex Modification
3. Standard Short Sale
4. Standard Deed-in-Lieu of Foreclosure

If the Borrower was not current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, the Servicer must conduct all loss mitigation evaluations in accordance with the standard loss mitigation evaluation hierarchy, as described in Section 9201.2, or must submit an exception request.

Note: In most cases, Borrowers impacted by an Eligible Disaster who qualify to be evaluated for a Disaster Payment Deferral will be transitioning from a forbearance plan, but forbearance is not a prerequisite.

(b) Solicitation for a Disaster Payment Deferral

The Servicer must proactively solicit the Borrower for a Disaster Payment Deferral in accordance with the requirements in Section 9203.26(e) within 15 days after the expiration of the disaster-related forbearance plan if:

- The Servicer is not able to establish QRPC during the disaster related forbearance plan, and
- The Mortgage was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- The Mortgage meets all requirements described in Section 9203.26(g)

Note: Refer to Section 9203.26 for complete requirements for the Disaster Payment Deferral.

(c) Solicitation for a Flex Modification

If the Borrower is ineligible for a solicitation for a Disaster Payment Deferral as described above, then the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification in accordance with the special Flex Modification requirements for Borrowers impacted by an Eligible Disaster, as described in Section 9206.5(e). Otherwise, the Servicer must evaluate in accordance with regular Guide requirements for a streamlined offer for a Flex Modification, as described in Section 9206.5(c). The Servicer must send a streamlined offer for a Flex Modification to an eligible Borrower within 15 days of the expiration of the forbearance plan.

If the Borrower was eligible for a solicitation for a Disaster Payment Deferral but did not accept the offer, the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification following the same requirements as described above except that the Servicer must send the streamlined offer to an eligible Borrower within 15 days of the expiration of the Disaster Payment Deferral offer.

Complete requirements for Flex Modifications for Borrowers impacted by an Eligible Disaster can be found in Section 9203.26 and Section 9206.5(e).

(d) Transition requirements for Borrowers who were on a Trial Period Plan at the time of the Eligible Disaster

If a Borrower who was performing in accordance with the terms of a Trial Period Plan is placed on forbearance as a result of an Eligible Disaster, then within 30 days prior to the end of the forbearance period, the Servicer must determine whether the Borrower's financial circumstances continue to be adversely impacted by the disaster based on verbal confirmation with the Borrower about his or her current financial condition and an updated assessment of the extent of the property damage resulting from most recent property inspection or the current conditions of the property based on discussions with the Borrower.

If the Borrower was performing on a Freddie Mac Flex Modification at the time of the Eligible Disaster, the Servicer must make a new streamlined offer to the Borrower for a Flex Modification Trial Period Plan meeting the requirements of Section 9206.5.

Regardless of the Borrower's financial circumstances, the Borrower must complete a new three-month Trial Period Plan that begins immediately following the forbearance plan in order to be eligible for a permanent modification.

Chapter 8405: Occupancy Waivers

8405.1: 12-month occupancy waiver request (12/09/20)

For Mortgages secured by a Borrower's Primary Residence or a second home, the Fannie Mae/Freddie Mac Single-Family Uniform Security Instrument and the Second Home Rider provides that a Borrower, except as otherwise permitted by the instrument, must occupy the Mortgaged Premises within 60 days of executing the Security Instrument, or as applicable, occupy and use the property as the Borrower's second home, and continue to occupy the Mortgaged Premises, or as applicable, keep the Property available primarily as a residence for Borrower's personal use and enjoyment, for at least one year after the date of occupancy or as applicable the date of the Second Home Rider. When Freddie Mac approval is required, the Servicer must document the Borrower's request and forward a recommendation to Freddie Mac via e-mail to shortsales@freddiemac.com. Freddie Mac will review the request, supporting documentation and the Servicer's recommendation and notify the Servicer of its approval or denial of the request. The Servicer must maintain the Borrower's request, supporting documentation, if applicable, and Freddie Mac's decision in the Mortgage file.

Chapter 8406: Transfers of Ownership and Assumptions

8406.1: General policy on Transfers of Ownership and assumptions (03/02/16)

Ownership of the Mortgaged Premises securing a Mortgage that does not contain a due-on-transfer clause can be transferred without restriction. However, the Servicer must accelerate the maturity of a Mortgage that contains a due-on-sale or due-on-transfer clause when a Transfer of Ownership occurs, unless acceleration is prohibited by provisions of Sections 8406.3 or 8406.4 or applicable law. References in the Guide to “due-on-transfer clause” includes “due-on-sale clauses” and similar provisions in the Mortgage documents that require acceleration upon a Transfer of Ownership.

Servicers should review the definition of Transfer of Ownership in the Glossary for a list of impacted transactions. Servicers are reminded that when a Transfer of Ownership occurs that involves a modified Mortgage, they must review the modification documents in addition to the Note and Security Instrument to determine if a due-on-transfer clause has been triggered. In accordance with Section 9206.12, such clauses must be included in a modified Mortgage.

Upon learning of a Transfer of Ownership that is subject to acceleration under the terms of this chapter, the Servicer must accelerate the debt and initiate appropriate foreclosure action in accordance with applicable law, the terms of the Security Instrument and Chapter 9301. No penalty may be charged for a prepayment resulting from such acceleration.

It may be in the best interest of Freddie Mac to permit an assumption of a delinquent Mortgage by a creditworthy applicant, even if the Mortgage contains a due-on-transfer clause. Freddie Mac approval is necessary to approve or decline any request to assume a delinquent Mortgage. In these instances, refer to Sections 9207.1 through 9207.8 for workout Mortgage assumption requirements and contact Freddie Mac (**see Directory 5**) to determine whether a workout Mortgage assumption is an appropriate alternative to foreclosure.

Freddie Mac will not permit a change in the Note Rate upon a Transfer of Ownership of the Mortgaged Premises, except in connection with a simultaneous assumption and modification that meets the requirements set forth in Section 9207.2. A Servicer that intends to modify the Note Rate without meeting the requirements of Section 9207.2 must first repurchase Freddie Mac’s interest in the Mortgage in accordance with Chapter 3602.

8406.2: Transfers of Ownership and assumptions of Mortgages insured by the FHA or guaranteed by the VA or RHS (03/02/16)

The Mortgaged Premises securing Mortgages insured by the FHA or guaranteed by the VA or RHS may be transferred in accordance with applicable FHA, VA or RHS regulations.

The Servicer must comply with all applicable FHA, VA or RHS requirements to ensure that the FHA insurance, or VA or RHS guaranty is maintained and must provide all notices and disclosures required under the Equal Credit Opportunity Act, Truth-in-Lending Act and any other applicable law or regulation.

Freddie Mac need not be notified of any change of ownership allowed by the FHA, VA or RHS, but the Servicer must ensure that all insurance and guaranty documents reflect the change.

When prior FHA, VA or RHS approval is required and such approval is not granted, the Servicer must provide an adverse action notice to all applicable parties, in addition to any other notice or disclosure required under the Equal Credit Opportunity Act, Fair Credit Reporting Act, Truth-in-Lending Act and any other applicable law or regulation.

The application for assumption of a Mortgage insured by the FHA or guaranteed by the VA or RHS is not complete until the Servicer receives the following:

1. The completed application for approval of a loan assumption
2. An executed copy of the contract of sale or other document reflecting the Transfer of Ownership (e.g., quit claim deed)
3. With regard to (a) the continuation of the mortgage insurance provided by the FHA, the mortgage guaranty provided by the VA or the mortgage guaranty provided by the RHS, as applicable, and (b) the release of the prior Borrower of liability, when applicable, written approval from:
 - The FHA for Mortgages insured by the FHA
 - The VA for Mortgages guaranteed by the VA
 - The RHS for Mortgages insured by the RHS, and
4. All other information the FHA, VA or RHS, as applicable, may require

8406.3: Federal restrictions on the exercise of the due-on-transfer clause (03/02/16)

For the following Transfers of Ownership, when the Mortgaged Premises is occupied or is to be occupied by the Borrower, the Servicer may not accelerate the maturity of the indebtedness:

1. The creation of a lien or other encumbrance subordinate to the lender's Security Instrument, which does not relate to a transfer of rights of occupancy in the Mortgaged Premises, provided that the lien or encumbrance is not created pursuant to a contract for deed
2. The creation of a purchase-money security interest for household appliances
3. A transfer by devise, descent or operation of law on the death of a joint tenant or tenant by the entirety
4. The granting of a leasehold interest with a term of three years or less and without an option to purchase
5. A transfer in which the transferee occupies or will occupy the Mortgaged Premises and that is one of the following:
 - A transfer to a relative, resulting from the Borrower's death

Note: Freddie Mac will consider waiving the occupancy requirement. The Servicer should submit a recommendation for such a waiver to Freddie Mac (see **Directory 5**).

- A transfer wherein the spouse, domestic partner or a child of the transferor becomes an owner of the Mortgaged Premises
 - A transfer resulting from a decree of dissolution of a marriage or domestic partnership, a legal separation agreement or from an incidental property settlement agreement by which the spouse or domestic partner becomes an owner of the Mortgaged Premises
6. A transfer into an inter vivo trust in which the Borrower is and remains the beneficiary and occupant of the Mortgaged Premises unless, as a condition precedent to such a transfer, the Borrower refuses to provide the Servicer with reasonable means acceptable to the Servicer by which the Servicer will be assured of timely notice of any subsequent transfer of the beneficial interest or change in occupancy
 7. Any other transfer or disposition described in regulations of the Federal Home Loan Bank Board as a basis on which due-on-transfer clauses may not be exercised

Note: Except for the waiver of occupancy requirements for transferees in number 5 above for which Freddie Mac approval is required, Servicers may not evaluate the creditworthiness of a transferee, require a transferee to assume the Mortgage, or otherwise require the Servicer's or

Freddie Mac's approval of any of the Transfers of Ownership listed in this section. However, if the transferee wishes to assume the Mortgage and/or the transferor requests to be released of liability, the Servicer must determine the creditworthiness of the transferee. Refer to Sections 8406.5 and 8406.6 for additional information.

8406.4: Additional permitted Transfers of Ownership (10/20/21)

(a) Unrestricted Transfers of Ownership

In addition to the federal restrictions on the exercise of the due-on-transfer clause provided in Section 8406.3, Freddie Mac will not, and the Servicer may not, restrict a Transfer of Ownership of the Mortgaged Premises in the following situations:

- The Security Instrument does not contain a due-on-transfer clause
- The Security Instrument contains an unenforceable due-on-transfer clause
- The title is acquired by the junior lienholder (that is an institutional counterparty) as the result of a foreclosure or acceptance of a deed-in-lieu of foreclosure of the junior lien. However, Freddie Mac will require acceleration of the indebtedness if the title is further transferred after acquisition by the junior lienholder; or
- The title to the leasehold estate and the improvements are acquired by the fee simple landowner/lessor as the result of the Borrower being evicted from the leasehold estate by court order. However, Freddie Mac will require acceleration of the indebtedness if the title is further transferred to a new lessee after acquisition by the lessor.

In connection with any Transfer of Ownership listed in this Section 8406.4, a Servicer may not evaluate the creditworthiness of a transferee, require a transferee to assume the Mortgage, or otherwise require the Servicer's or Freddie Mac's approval of the transfer. However, if the transferee wishes to assume the Mortgage and/or the transferor requests to be released of liability, the Servicer must determine the creditworthiness of the transferee. Refer to Sections 8406.5 and 8406.6 for additional information.

(b) Permitted Transfers of Ownership subject to conditions

In situations where all of the following conditions are met, Freddie Mac will permit a Transfer of Ownership of the Mortgaged Premises:

- At least 12 months have passed since the Origination Date

- Either
 - The transfer is to a transferee who occupies or will occupy the Mortgaged Premises as a Primary Residence and is:
 - A parent or child of the transferor, or
 - A grandparent or grandchild of the transferor, or
 - A brother or sister of the transferor, or
 - An original co-Borrower of the transferor under the Note, whether or not related to the transferor
 - The transfer is to a limited liability company (LLC) or limited partnership (LP), provided that:
 - The managing member/general partner of the LLC/LP is the original Borrower. If there are multiple Borrowers, all of them must be members/partners of the LLC/LP, and at least one of them must be a managing member/general partner. If the transfer results in a permitted change of occupancy type to an investment property, such change must not violate the Security Instrument (e.g., the 12-month occupancy requirement for a Primary Residence), and
 - The Servicer notifies the original owner or natural person that the Mortgaged Premises transferred to an LLC/LP must be transferred back to the original owner or natural person prior to any subsequent refinance or modification application to meet Freddie Mac's underwriting requirements
 - The Servicer has complied with all mortgage insurance requirements applicable to the transfer

In connection with any Transfer of Ownership that meets the conditions of this Section 8406.4, a Servicer may not evaluate the creditworthiness of a transferee, require a transferee to assume the Mortgage or otherwise require the Servicer's or Freddie Mac's approval of the transfer. However, if the transferee wishes to assume the Mortgage and/or the transferor requests to be released of liability, the Servicer must determine the creditworthiness of the transferee. Refer to Sections 8406.5 and 8406.6 for additional information.

(c) Transfers of Ownership that require a determination of creditworthiness

In the following situations, the Servicer must determine the creditworthiness of the transferee, even if the transferee is not assuming the Mortgage, and process the Transfer of Ownership in accordance with Sections 8406.5 through 8406.10:

- The Security Instrument contains a due-on-transfer clause that does not allow unrestricted or automatic acceleration of the indebtedness upon transfer of the Mortgaged Premises to a creditworthy transferee, or
- The title is acquired by the junior lienholder (that is *not* an institutional counterparty) as the result of a foreclosure or acceptance of a deed-in-lieu of foreclosure of the junior lien. However, Freddie Mac will require acceleration of the indebtedness if the title is further transferred after acquisition by the junior lienholder.

(d) Assumptions, releases of liability and determination of creditworthiness

If the transferee requests an assumption of the Mortgage obligation as part of a Transfer of Ownership, the Servicer must determine the creditworthiness of the transferee in accordance with Topics 5100 through 5500. The Servicer must prepare a written assumption agreement that must be executed by all parties concerned as required in Section 8406.7.

In addition, if the transferor requests to be released of liability, once the Servicer has determined the creditworthiness of the transferee, the Servicer must require a written assumption and release of liability agreement, which then must be executed by all parties concerned in accordance with Section 8406.7.

Servicers must accelerate the Note if title is further transferred by the transferee to someone who is not an eligible transferee under Sections 8406.3 or 8406.4.

8406.4: Additional permitted Transfers of Ownership (Future effective date 10/02/23)

(a) Unrestricted Transfers of Ownership

In addition to the federal restrictions on the exercise of the due-on-transfer clause provided in Section 8406.3, Freddie Mac will not, and the Servicer may not, restrict a Transfer of Ownership of the Mortgaged Premises in the following situations:

- The Security Instrument does not contain a due-on-transfer clause
- The Security Instrument contains an unenforceable due-on-transfer clause
- The title is acquired by the junior lienholder (that is an institutional counterparty) as the result of a foreclosure or acceptance of a deed-in-lieu of foreclosure of the junior lien. However, Freddie Mac will require acceleration of the indebtedness if the title is further transferred after acquisition by the junior lienholder; or
- The title to the leasehold estate and the improvements are acquired by the fee simple landowner/lessor as the result of the Borrower being evicted from the leasehold estate by

court order. However, Freddie Mac will require acceleration of the indebtedness if the title is further transferred to a new lessee after acquisition by the lessor.

In connection with any Transfer of Ownership listed in this Section 8406.4, a Servicer may not evaluate the creditworthiness of a transferee, require a transferee to assume the Mortgage, or otherwise require the Servicer's or Freddie Mac's approval of the transfer. However, if the transferee wishes to assume the Mortgage and/or the transferor requests to be released of liability, the Servicer must determine the creditworthiness of the transferee. Refer to Sections 8406.5 and 8406.6 for additional information.

(b) Permitted Transfers of Ownership subject to conditions

In situations where all of the following conditions are met, Freddie Mac will permit a Transfer of Ownership of the Mortgaged Premises:

- At least 12 months have passed since the Origination Date
- The Servicer has complied with all mortgage insurance requirements applicable to the transfer
- Either
 - The transfer is to a transferee who occupies or will occupy the Mortgaged Premises as a Primary Residence and is:
 - A parent or child of the transferor, or
 - A grandparent or grandchild of the transferor, or
 - A brother or sister of the transferor, or
 - An original co-Borrower of the transferor under the Note, whether or not related to the transferor
 - The transfer is to a limited liability company (LLC) or limited partnership (LP), provided that:
 - The managing member/general partner of the LLC/LP is the original Borrower. If there are multiple Borrowers, all of them must be members/partners of the LLC/LP, and at least one of them must be a managing member/general partner. If the transfer results in a permitted change of occupancy type to an investment property, such change must not violate the Security Instrument (e.g., the 12-month occupancy requirement for a Primary Residence), and
 - The Servicer notifies the original owner or natural person that the Mortgaged Premises transferred to an LLC/LP must be transferred back to the original owner

or natural person prior to any subsequent refinance or modification application to meet Freddie Mac's underwriting requirements

- The Mortgage product type is a HeritageOneSM Mortgage, and the transfer is to the Eligible Native American Tribe (as defined in Section 4504.2(c)) within whose Tribal Area the Mortgaged Premises are located if, after acquisition, the Eligible Native American Tribe further transfers or will transfer the title to a transferee who occupies or will occupy such Mortgaged Premises as a Primary Residence, and at least one transferee is also an enrolled member of a Native American Tribe (as defined in Section 8901.1(a))

In connection with any Transfer of Ownership that meets the conditions of this Section 8406.4, a Servicer may not evaluate the creditworthiness of a transferee, require a transferee to assume the Mortgage or otherwise require the Servicer's or Freddie Mac's approval of the transfer. However, if the transferee wishes to assume the Mortgage and/or the transferor requests to be released of liability, the Servicer must determine the creditworthiness of the transferee. Refer to Sections 8406.5 and 8406.6 for additional information.

(c) Transfers of Ownership that require a determination of creditworthiness

In the following situations, the Servicer must determine the creditworthiness of the transferee, even if the transferee is not assuming the Mortgage, and process the Transfer of Ownership in accordance with Sections 8406.5 through 8406.10:

- The Security Instrument contains a due-on-transfer clause that does not allow unrestricted or automatic acceleration of the indebtedness upon transfer of the Mortgaged Premises to a creditworthy transferee, or
- The title is acquired by the junior lienholder (that is *not* an institutional counterpart) as the result of a foreclosure or acceptance of a deed-in-lieu of foreclosure of the junior lien. However, Freddie Mac will require acceleration of the indebtedness if the title is further transferred after acquisition by the junior lienholder.

(d) Assumptions, releases of liability and determination of creditworthiness

If the transferee requests an assumption of the Mortgage obligation as part of a Transfer of Ownership, the Servicer must determine the creditworthiness of the transferee in accordance with Topics 5100 through 5500. The Servicer must prepare a written assumption agreement that must be executed by all parties concerned as required in Section 8406.7.

In addition, if the transferor requests to be released of liability, once the Servicer has determined the creditworthiness of the transferee, the Servicer must require a written assumption and release of liability agreement, which then must be executed by all parties concerned in accordance with Section 8406.7.

Servicers must accelerate the Note if title is further transferred by the transferee to someone who is not an eligible transferee under Sections 8406.3 or 8406.4.

8406.5: Application for approval of Transfers of Ownership, assumptions and releases of liability (07/06/17)

For Transfers of Ownership that require the Servicer to first determine the creditworthiness of the transferee, and for all assumptions and releases of liability, the Servicer must obtain the following:

- A Form 65, Uniform Residential Loan Application, completed and executed by the transferee
- A copy of the executed contract of sale or other document reflecting the Transfer of Ownership (e.g., quit claim deed)
- A current credit report for the transferee, as described in Section 5203.1
- Income documentation and asset documentation for the transferee as required by Topics 5100 through 5500
- In accordance with requirements in Chapters 5302 through 5307 and Section 5501.3 for standard documentation
 - Written verification of the transferee's current employment and income from a reliable source and
 - Verification or other acceptable evidence of the source and amount of funds for the Down Payment and payment of prepaid items, as reported in the application

Refer to Section 8406.6 for underwriting requirements to determine whether a transferee is creditworthy.

The Servicer must comply with the Equal Credit Opportunity Act, Fair Credit Reporting Act, Truth-in-Lending Act and any other applicable law or regulation. (See also Section 1301.2 for additional compliance requirements.) The Servicer must also notify the transferee of the decision on the application within 25 days after the Servicer receives all information that constitutes a completed application.

8406.6: Reviewing the application and determining eligibility for Transfers of Ownership, assumptions and releases of liability (05/04/20)

When required to determine the creditworthiness of a transferee for assumptions and releases of liability, and as required for Transfers of Ownership under Section 8406.4, the Servicer must review the application to ensure compliance with Freddie Mac's credit underwriting guidelines in Topics 5100 through 5500 including, but not limited to, income and employment, source of funds for Down Payment and Closing Costs and credit history. The Servicer's analysis must be documented on Form 1077, Uniform Underwriting Transmittal Summary, or on another document in the Mortgage file, and the following requirements must be met, when applicable:

1. The transferee must be determined to be creditworthy in accordance with Section 5102.2(b)
2. A written assumption and release of liability agreement must be executed by all parties concerned in accordance with Section 8406.7. (Note: Freddie Mac will require acceleration of the indebtedness if title is further transferred by the transferee to someone who is not an eligible transferee under Section 8406.3 or 8406.4.)
3. If the Mortgage is being assumed, the transferee must pay at least 5% of the sale price in addition to all adjustments (e.g., for property taxes, and property and mortgage insurance premiums) from cash or other equity as defined in Sections 5501.1 and 5501.3. (Note: The transferee is not required to pay 5% for those Transfers of Ownership protected by federal restrictions on exercise of the due-on-transfer clause as set forth in Section 8406.3 or for those Transfers of Ownership permitted under Sections 8406.4(a) and 8406.4(b), even if, in those cases, the transferee is also assuming the Mortgage.)
4. There must be no changes in the terms of the Security Instrument and the Note other than a change to the name of the transferee, any release and subsequent assumption of personal liability, where applicable, and any change allowed in Section 8103.7
5. Mortgage insurance coverage must be maintained, if applicable

If the Mortgaged Premises to be transferred secures a Mortgage that is covered by a buydown agreement, the Servicer must underwrite the transferee according to the qualification requirements provided in Section 4204.4. See Section 8406.12 for additional information.

8406.7: Approval of the application for Transfers of Ownership (05/04/20)

The Servicer must approve the Transfer of Ownership if, based on its review in accordance with Section 8406.6, it reasonably determines that the security interest in the Mortgaged Premises will not be impaired by this transfer.

The Servicer is not required to notify Freddie Mac of the Transfer of Ownership permitted under Sections 8406.3 and 8406.4, provided the Mortgage is not assumed by the transferee or the transferor is not being released of liability, unless it becomes necessary later to communicate with Freddie Mac concerning this Mortgage.

The Servicer must prepare the necessary documents and have them executed by all parties concerned. In addition, if the transferor requests to be released of liability under the Note and Security Instrument, a written assumption and release of liability agreement must be executed. If State law requires Freddie Mac to execute the documents, the Servicer warrants that:

- The documents reflect terms that are consistent with the requirements of this chapter
- All statements set forth in the documents are accurate, and
- The documents comply with all applicable State and local requirements

The Servicer must:

1. Deliver the original executed assumption agreement and, as applicable, release of liability agreement, to the Document Custodian; and copies to all other parties concerned. (Note: Per Section 1402.10(b), the Servicer must update the MERS® eRegistry (as defined in Section 1402.2) to provide notice of the assumption agreement upon an assumption (with or without a release of liability) of an eMortgage (as defined in Section 1402.2)).
2. Retain a copy of the executed assumption agreement and, as applicable, release of liability agreement, in the Mortgage file
3. Arrange for any recordation commonly required by private institutional Mortgage investors or required by law to ensure the priority of the existing lien and assess any related costs to the transferee
4. Provide all notices and disclosures required under the Equal Credit Opportunity Act, Fair Credit Reporting Act, Truth-in-Lending Act and any other applicable law or regulation (see also Section 1301.2 for additional compliance requirements)
5. Ensure that all insurance policies reflect the change of ownership and take any action necessary to continue any required insurance coverage including, mortgage insurance, where applicable
6. Document transferee information in the Freddie Mac Post-Fund Data Correction tool (see Exhibit 88, Servicing Tools). Servicer must submit copies of the settlement statement and assumption agreement in accordance with instructions for use of the tool. If Servicer needs to submit more than one request to change information, Servicer may import the Post-Fund Data Correction Form excel spreadsheet (DCR Form) found on the Post-Fund Data Correction tool web page (<https://sf.freddiemac.com/tools-learning/servicing>).

[gateway/our-solutions/post-fund-data-correction](#)) into the Post-Fund Data Correction tool, in accordance with the spreadsheet instructions.

7. For Cooperative Share Loans, comply with the requirements in Section 8801.5(a)

When applicable, the Servicer may cancel mortgage insurance following the Transfer of Ownership of the Mortgaged Premises in accordance with Sections 8203.2 through 8203.4.

8406.8: Declination of the application for assumption (03/02/16)

If the application for a Mortgage assumption is declined, the Servicer must provide an adverse action notice to all applicable parties, or any other notice or disclosure required under the Equal Credit Opportunity Act, Fair Credit Reporting Act, Truth-in-Lending Act and any other applicable federal, State or local law. Freddie Mac must not be identified as a creditor in any notice or disclosure that may be required, as Freddie Mac is not participating in the decision on the application.

8406.9: File retention for Transfers of Ownership and assumptions (03/02/16)

The originals of all documents relating to the application must be kept in the Mortgage file.

If the application is approved, the documentation must be maintained in the Mortgage file for at least seven years from the date that Freddie Mac's interest in the Mortgage is satisfied.

If the application is declined, the documentation must be kept for the duration required under the Equal Credit Opportunity Act, Fair Credit Reporting Act or any other applicable law or regulation.

Copies of documents may be scanned and stored as Portable Document Format (PDF), Tagged Image File (TIF) format, Joint Photograph Experts Group (JPEG) format, or other electronic document formats commonly used by the mortgage industry in the regular course of business. Refer to Chapter 3302 for Mortgage file retention requirements including those requirements regarding documents for which the paper originals must be maintained.

8406.10: Transfer of Ownership fees (03/02/16)

Subject to applicable law or regulation, the Servicer may charge and retain a fee for processing a Transfer of Ownership of, or an interest in, the Mortgaged Premises securing a Mortgage

purchased by Freddie Mac. Where applicable law or regulation limits the amount of the allowable fee, the Servicer may not charge more than the lesser of:

- The maximum fee allowed under applicable law or regulation, or
- The maximum fee allowed by Freddie Mac as stated below

This fee must be set in accordance with the following provisions:

(a) Security Instruments without a due-on-transfer clause

The fee charged by the Servicer for changing its records for a Transfer of Ownership for which its consent was not required must not exceed \$100.

(b) Security Instruments with a due-on-transfer clause

When the Servicer must determine the creditworthiness of a transferee in connection with a Transfer of Ownership, the Servicer may charge and retain a fee equal to the greater of \$400 or 1% of the UPB, with a maximum fee of \$900. Transfer fees may be exclusive of out-of-pocket expenses paid to independent third parties for services required to comply with the application and approval process contained in Sections 8406.5 through 8406.8 and to record the change of ownership. Any other services (such as surveys, owner's title policies, etc.), requested by the transferee are the sole responsibility of the transferee. Loan discount fees, yield enhancement fees, lost opportunity fees and similar devices designed to circumvent these limitations or increase the effective interest rate or yield of the Mortgage previously sold to Freddie Mac, regardless of the Servicer's retained interest in the Mortgage, are expressly prohibited.

The Servicer may establish a transfer fee schedule that results in charges less than those permitted by Freddie Mac. However, if any fee charged by the Servicer on Mortgages sold to Freddie Mac exceeds the amounts stated above, it will be considered a breach of this Guide and, unless refunded to the Borrower, Freddie Mac may exercise any remedy available under this Guide or applicable law to remediate the violation.

8406.11: Assumability provisions and rate cap requirements for ARMs (03/02/16)

(a) Assumability provisions

The loan instruments used to originate an ARM contain the provisions governing the right of the lender to accelerate the loan, in the event of a Transfer of Ownership. These provisions determine whether or not the ARM is assumable by the party to whom the Mortgaged Premises is transferred, and if it is assumable, the transferee must agree to assume the Mortgage loan obligation. Some loan instruments provide that the ARM is assumable for the

life of the loan. Other loan instruments provide that the ARM is assumable only after the initial fixed-rate period has expired or until a specified event has occurred, and is thereafter not assumable.

The Servicer must review the loan instruments to determine the assumption provisions for an ARM. The Servicer must also refer to Sections 8406.6 and 9207.2 through 9207.8 regarding special circumstances in which Freddie Mac requires or permits an ARM to be assumed (e.g., a workout mortgage assumption and a simultaneous assumption and modification), notwithstanding the fact that the loan instruments indicate the ARM is not assumable.

(b) Rate cap requirements

If the Note for an ARM sold to Freddie Mac does not provide for a Lifetime Ceiling, the following provision or substantially similar provision must be included in the Mortgage assumption and release of liability agreement:

The interest rate I am required to pay after I assume this Mortgage obligation and for the entire term of this Mortgage will never be greater than (see note below) percent.

Note:

To determine the appropriate interest rate to insert in the preceding provision, the Servicer must add six percentage points to the sum of the Margin and the Index value in effect on the date of the Mortgage assumption and release of liability agreement, subject to applicable law, such as the Servicemembers Civil Relief Act. Refer to Chapter 8503.

8406.12: Transfers of ownership and buydown accounts (03/02/16)

Where a Transfer of Ownership is approved, any funds remaining in a related buydown account may continue to be used to reduce the Mortgage payments when:

- The Mortgaged Premises is sold and the Mortgage is assumed by the purchaser and
- The terms of the original buydown plan allow for the continued application of the buydown funds if the Mortgage is assumed

Chapter 8501: Special Requirements for Servicing Step-Rate Mortgages

8501.1: Servicer staff requirements related to Servicing Step-Rate Mortgages (03/02/16)

The Servicer must employ staff, including phone agents for both incoming and outgoing calls, that is adequately trained to discuss interest rate adjustments for Step-Rate Mortgages. Phone agents answering incoming calls must be able to identify potential default situations and promptly refer Borrowers to a default management unit with the ability to advise on default prevention options. Phone agents making outgoing calls must be able to discuss step-rate adjustments when making calls to delinquent Borrowers in accordance with Section 9102.5.

8501.2: Communicating upcoming interest rate adjustments (03/02/16)

The Servicer must send two separate written notifications to the Borrower prior to an initial interest step-rate adjustment on a Step-Rate Mortgage. These notifications must be sent in order to ensure that Borrowers are fully prepared for increases to their PITIAS Payment amounts, and have a full understanding of when and why the payment amount will increase. If after the initial step-rate adjustment the Mortgage will be subject to subsequent interest rate adjustments, the Servicer, in accordance with Section 8501.2(c), must send one notification letter prior to the payment due date associated with each subsequent adjustment.

(a) As early as the 150th day and no later than the 90th day prior to the first payment due date following the initial interest rate adjustment

The Servicer must provide the Borrower with a written notice of the initial interest rate adjustment that will occur as a result of a step-rate feature on the Borrower's Step-Rate Mortgage (i.e., at the end of a fixed-rate term).

(b) As early as the 75th day and no later than the 60th day prior to the first payment due date following the initial interest rate adjustment

The Servicer must provide the Borrower with a second written notice of the initial interest rate adjustment.

- Each written notice of an upcoming interest rate adjustment sent to the Borrower in accordance with the requirements in Section 8501.2(a), 8501.2(b) or 8501.2(c) must:

1. Provide the amount and effective date of the interest rate increase, and the amount and due date of the Borrower's first increased monthly payment at the new adjusted level
2. Explain that, pursuant to the terms of the modification agreement, at the end of the initial fixed-rate term, the interest rate will increase according to the schedule in the agreement until it reaches a pre-determined Interest Rate Cap. (Note: As applicable, the Servicer must explain how the Interest Rate Cap was derived, and that once the interest rate reaches its cap, it will remain fixed for the remaining Mortgage term.)
3. Explain that the monthly payment includes an Escrow for property taxes, hazard insurance and other escrowed expenses, which could also increase the monthly payment amount if those amounts are increased
4. Explain how the new payment is determined
5. Include a payment schedule table similar to the one included in the Borrower's modification agreement, which outlines the future interest rates and monthly payment amounts (identifying principal and interest, as well as Escrows), and the effective dates for each; alternatively, the Servicer may explain these terms, dates and amounts;
6. Include the Servicer's contact information and instructions for the Borrower to contact the Servicer if the Borrower has any questions regarding the content of the notice
7. Include the Homeowners HOPE™ Hotline Number (888-995-HOPE)
8. Explain that free budgeting assistance from the HUD-approved housing counseling agencies is available via HUD.gov; and
9. Provide information regarding the availability of additional information on Freddie Mac's Mortgage Help Resource Center web site (<http://myhome.freddiemac.com/>)

(c) As early as the 120th day and no later than the 60th day prior to the first payment due date at each subsequent adjusted rate level

Servicers must provide each Borrower with a written notice of each subsequent interest rate adjustment that will occur as a result of a step-rate feature on a Step-Rate Mortgage.

8501.3: Freddie Mac Flex Modification for Step-Rate Mortgages (10/01/17)

Servicers must refer to Section 9206.5 for complete requirements for a streamlined offer for a Flex Modification to a Borrower with a Step-Rate Mortgage.

Chapter 8502: Special Servicing and Reporting Requirements for ARMs

8502.1: ARM Servicing and reporting (05/01/19)

An ARM has a Note Rate that adjusts periodically based on a specified Index. The specific features of an ARM vary depending upon the terms of the Note.

All ARMs must be accounted for and reported under the net yield accounting reporting method, as described in Section 8301.4, and are reported via the transmission of the Loan-Level Transaction. Under this method, Freddie Mac receives its proportionate share of principal and interest collected each month including any Negative Amortization activity for the period. For purposes of reporting to Freddie Mac, interest is computed by multiplying the Ending UPB of the current Accounting Cycle of a loan by the Accounting Net Yield, using a 30-day month/360-day year.

See Chapters 8301 through 8304 for the accounting and reporting requirements for ARMs.

See Chapter 8303 for remittance requirements.

8502.2: Rate changes on ARMs (07/04/23)

(a) Determining the new Note Rate

The Servicer must adjust the Note Rate on an ARM in accordance with the provisions set forth in the Note and any applicable Adjustable-Rate Riders. The Note will specify the Index on which any adjustments must be based, as well as other factors that must be used to determine the new Note Rate. These factors include, but are not limited to:

- The dates on which the Note Rate may change (Interest Change Date)
- The date on which the Index value used to calculate the new Note Rate is determined, usually expressed as a number of days (known as the Lookback Period)
- The Margin, which is the number of percentage points that must be added to the current Index value to establish the new Note Rate
- The limitations on the amount that the Note Rate may change at the first adjustment, subsequent adjustments and during the life of the Mortgage (Initial Cap, Periodic Cap and Life Cap) and any associated rounding rules

Upon each Note Rate change, the Servicer must calculate a new monthly payment amount based on the new Note Rate that is sufficient to fully amortize the UPB of the ARM over the remaining term. Prepayments on ARMs will only be accepted if the Index is available for the DDLPI reported that corresponds to the prepayment.

(b) Notifying the Borrower

With respect to each ARM serviced for Freddie Mac, the Servicer must correctly calculate any and all adjustments to the interest rate or the monthly payment and give to the Borrower all notices of adjustment of interest rate and monthly payments in strict accordance with the requirements of applicable law and with the terms of the Note and the Security Instrument.

With respect to ARMs, in the notices of adjustment in the interest rate and monthly payment provided the Borrower before the effective date of the change, the Servicer must inform the Borrower that the Index value used to calculate the new interest rate is:

- For LIBOR-indexed ARMs with interest rate adjustments based on a lookback date after July 3, 2023, as applicable and as published on the website of Refinitiv Limited (Refinitiv):
 - Refinitiv USD IBOR Consumer Cash Fallback 1-Month*
 - Refinitiv USD IBOR Consumer Cash Fallback 6-Month* or
 - Refinitiv USD IBOR Consumer Cash Fallback 12-Month*

**Disclaimer provided by Refinitiv:* Refinitiv USD IBOR CashFallbacks are provided by Refinitiv and its Affiliates. Refinitiv and its Affiliates shall not be liable for any errors or delays in providing or making available the data contained within this service or for any actions taken in reliance on the same. Refinitiv USD IBOR CashFallbacks cannot be used for any commercial purpose (including redistribution) without a license. Please contact Refinitiv if you require a license. Refinitiv USD IBOR CashFallbacks is subject to Refinitiv's terms of use and disclaimer available at <https://www.refinitiv.com/en/financial-data/financial-benchmarks/usd-ibor-cash-fallbacks>.

- For SOFR-indexed ARMs, the 30-day Average SOFR as published by, or on the website of, the Federal Reserve Bank of New York
- For Constant Maturity Treasury (CMT)-indexed ARMs, the 1-year Weekly CMT, 3-Year Weekly CMT, and 5-Year Weekly CMT, as applicable, as published on the website of, or otherwise made available by, the Board of Governors of the Federal Reserve System (i.e., H.15 Release - Selected Interest Rates)

(c) Notification of the new Accounting Net Yield (ANY)

Freddie Mac will notify the Servicer via the ARM notification report of the revised Accounting Net Yield (ANY) that the Servicer will be required to send us on an ARM in accordance with the product requirements set forth at the time of purchase. The ARM

notification report will be available through the Freddie Mac Service Loan Level Reporting tool (see Exhibit 88, Servicing Tools).

The Servicer must verify the rate change notification information. If there are any differences or omissions, the Servicer must notify Freddie Mac of the discrepancy via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88) within the same Accounting Cycle the ARM notification report is published in the Freddie Mac Loan Level Reporting tool. Do not return the notification if the information on it is correct and complete.

The new ANY must be used for the Accounting Cycle date indicated in the notification. In the month of the Interest Change Date, the Servicer must report the forecasted scheduled interest for the next Accounting Cycle based on the new rate. The Servicer will be liable for all net yield interest deficiencies that result from differences in calculations between the ANY that Freddie Mac provides the Servicer and the Servicer's calculations.

Depending on the next Interest Change Date at the time of Mortgage delivery, the Servicer may not receive notification from Freddie Mac prior to the effective date of the new ANY.

8502.3: Negative Amortization (05/01/19)

Negative Amortization results whenever the amount of monthly interest calculated at the Note rate exceeds the Borrower's scheduled monthly interest payment to the Servicer. Increases and decreases in Negative Amortization are to be accounted for in the calculation of principal due Freddie Mac for each Accounting Cycle as set forth in Chapter 8301.

Chapter 8503: Servicing Requirements for Borrowers who are Servicemembers and their Dependents

8503.1: Definitions related to Servicing loans of Servicemembers (03/02/16)

As used in this chapter, the following terms shall have the same definitions as those provided in the Servicemembers Civil Relief Act (SCRA) and any applicable regulations as they shall be amended from time to time:

- Dependent
- Military Service
- Period of Military Service
- Servicemember

The term Permanent Change of Station (PCS) shall have the same meaning as that provided by the Joint Federal Travel Regulations, Volume 1, promulgated by the United States Department of Defense, Defense Management Travel Office.

The term “State Military Relief Law” shall mean any State law that provides benefits, protections or relief to members of the armed forces relating to a Mortgage. For example, and not by way of limitation, the New Jersey Soldiers’ and Sailors’ Civil Relief Act (N.J.S.A. §§ 38:23C-1 et seq.), is a State Military Relief Law. State Military Relief Laws generally extend SCRA protections to individuals not covered by the SCRA and therefore afford greater protections than the SCRA provides.

8503.2: Relief options exclusive to Servicemembers and their Dependents (10/11/17)

(a) Servicer responsibilities

Servicers must comply with the SCRA and all State Military Relief Laws as they apply to any Borrower or Mortgage. The Servicer must be familiar and comply with all the provisions of the SCRA and State Military Relief Laws and monitor changes to such laws to ensure continuing compliance.

Note:

- When provisions of the SCRA require a Servicemember to provide a copy of his or her military orders*, Servicers may accept: (a) official military orders that reflect the start date of the Period of Military Service; (b) a certification, including a certificate obtained from the Defense Manpower Data Center, that delineates the start date of a Servicemember's Period of Military Service; (c) a letter that is on official letterhead from the military unit to which the Servicemember is assigned, is signed by the Servicemember's commanding officer and contains the following: a statement that the letter is intended to be relied upon by creditors for SCRA purposes, the Servicemember's full name and Social Security Number, home address, start and end dates of the Period of Military Service and commander's contact telephone number; or (d) any document the Department of Defense deems a substitute for official orders.

*References to "military orders" in the Guide include the alternative documentation outlined above that Servicers may accept in lieu of official military orders.

- Servicers may accept written requests for the SCRA interest rate relief via facsimile, U.S. mail, or electronic submission, such as e-mail or transmitting an online form.
- Servicers may, but are not required to, accept an oral request for SCRA interest rate relief if the Servicer has established processes, policies and procedures that, at a minimum, positively identify the requestor and enable the Servicer to record the request and make the recording available to Freddie Mac upon request.
- Servicers must submit a request for SCRA interest reimbursement, in accordance with Section 8503.7, within 24 months of the end date of a Servicemember's Period of Military Service.

Freddie Mac will not reimburse Servicers for SCRA interest rate differential requests when the amount requested exceeds the amount of interest represented by the Note Rate minus 6%.

(b) Borrower eligibility for SCRA protection

The SCRA applies to any Borrower who is a Servicemember during a Period of Military Service if the following conditions are met:

- The Mortgage is the contractual obligation of the Servicemember as the Borrower or co-Borrower under the Note; or as obligee under a written agreement by which the Servicemember assumes the Borrower's liability under the Note and the Borrower is released from such liability, and
- The Servicemember executed the Note or the assumption agreement before the reporting date or effective date of the Servicemember's Period of Military Service as shown in military orders

Refer to Sections 8503.4 through 8503.10 for applying SCRA provisions on Mortgages.

(c) Foreclosure relief extended to Servicemembers and their Dependents by Freddie Mac in addition to SCRA provisions and State Military Relief Laws

Freddie Mac offers foreclosure relief in addition to that provided by the SCRA or State Military Relief Laws. Servicers must not initiate or, if already initiated, must not complete foreclosure of a Mortgage where a Servicemember is a Borrower, and the Mortgaged Premises is the Primary Residence of the Servicemember, regardless of when the Mortgage was originated, during his or her Period of Military Service or for one year after the date Military Service ends.

Additionally, Servicers must not initiate or, if already initiated, must not complete foreclosure on a Mortgage, during a Servicemember's Period of Military Service or for one year after the date Military Service ends, when the Borrower:

- Is a Dependent of a Servicemember and the Mortgaged Premises is the Primary Residence of the Servicemember or a Dependent of a Servicemember; or
- Was a Servicemember who died during the Period of Military Service and the Mortgaged Premises continues to serve as the Primary Residence of a Dependent of the Servicemember

For example, if the Borrower is the spouse of a Servicemember who left Military Service on January 1st, and the Mortgaged Premises are the Primary Residence of the Servicemember or the spouse, then the Servicer must not initiate or complete foreclosure until after January 1st of the following year.

If the Servicer believes that there are unusual circumstances that warrant initiating or completing foreclosure prior to the time allowed by this subsection 8503.2(c), such as the Mortgaged Premises being vacant or abandoned, the Servicer must contact Freddie Mac (**see Directory 5**) to obtain prior written approval to initiate or complete foreclosure proceedings.

The Servicer must report a Servicemember who is receiving relief from Freddie Mac as outlined in this subsection 8503.2(c) as "paying as agreed" to any consumer reporting agency to which the Servicer reports.

8503.3: Other relief and workout options for Servicemembers and their Dependents (03/02/16)

If a Servicemember or Dependent experiences an eligible hardship, such as receipt of PCS orders, and does not qualify for protection under the provisions of the SCRA or State Military Relief Laws, or qualifies but chooses to explore other options, the Servicer must evaluate the

Servicemember for the most appropriate relief or workout option in accordance with Chapter 9102.

If a Servicemember requires additional relief beyond what is currently available in the Guide, Servicers should contact their Freddie Mac representative.

8503.4: Applying SCRA provisions (10/11/17)

(a) Interest rate cap

If the Servicemember and the Mortgage qualify for the SCRA's maximum interest rate protection and the Servicemember has submitted a written request for protection in accordance with the SCRA, Freddie Mac will:

- For a Servicemember who is a member of a reserve component, begin applying the interest rate cap with the first monthly Mortgage payment due after the Servicemember receives his or her orders
- For a Servicemember who is a member of the uniformed services as defined by 10 U.S.C. 101(a)(5) or a Servicemember who belongs to the National Guard, begin applying the interest rate cap with the first monthly Mortgage payment due after the reporting date or effective date of the Servicemember's Period of Military Service
- Reinstate the Mortgage to its contractual rate of interest beginning with the second monthly Mortgage payment due one year after the date the Servicemember's Period of Military Service terminates

If the Borrower is delinquent on his or her monthly payments, the Servicer must contact Freddie Mac (**see Directory 5**) via Form 105, Multipurpose Loan Servicing Transmittal, no later than five Business Days after receiving the request for interest rate relief.

For reinstatement purposes, the contractual rate of interest is defined as follows:

- For a fixed-rate Mortgage, the same rate that was in effect before the reporting date or effective date of Military Service, or the date the Servicemember received orders (for members of a reserve component)
- For an ARM, the rate to be determined or calculated based on the last interest rate that would have been in effect, or the last payment adjustment that otherwise would have taken place, during the rate cap period

If the interest rate cap request is made by the Servicemember in accordance with the SCRA notice provisions and it is received by the Servicer no later than 180 days after the Period of Military Service terminates, the Servicer must apply the interest rate cap retroactively to the first monthly Mortgage payment due after the reporting date, effective date of Military

Service or date the Servicemember received orders (for members of a reserve component). However, Freddie Mac will bear the interest loss only from the first monthly Mortgage payment due after the Funding Date.

(b) Notice to Servicemember, Freddie Mac

Within 15 Business Days of receiving an interest rate cap request on a Mortgage that meets the requirements of the SCRA, the Servicer must provide written notice of approval to the Servicemember or the Servicemember's representative, as applicable. Freddie Mac does not prescribe a particular form of notice. The notice must contain the following at a minimum:

1. The amount of the monthly installment of principal and interest calculated at the rate of 6% per year
2. The amount of the monthly installment of Escrow, if any, which remains unchanged unless insurance coverage, property tax rates or other assessments are modified
3. The total amount and first Due Date of the new monthly Mortgage payment
4. The reinstatement of the monthly Mortgage payment to its contractual rate of interest beginning with the second monthly payment due following the date that is one year after the Servicemember is released from Military Service
5. If known at the time, the scheduled date the Servicemember will be released from Military Service and the Due Date of the first monthly payment at the reinstated contractual rate of interest

Within 30 Business Days of receiving the request, the Servicer must:

1. Retain a copy of military orders* evidencing the Servicemember's military status and start and end dates of his or her Period of Military Service and all other related documentation in the Mortgage file and make it available to Freddie Mac upon request
2. Send a CSV file (see Exhibit 71, CSV File Format to Report Loans Eligible for the SCRA Interest Rate Subsidy) to Freddie Mac (**see Directory 3**) documenting the start and end dates of the Servicemember's Period of Military Service

*References to "military orders" in the Guide include the alternative documentation outlined in Section 8503.2 that Servicers may accept in lieu of official military orders.

Once the Servicer has received a request from the Borrower (or the Borrower's authorized representative) and a copy of his or her military orders, the Servicer must implement the interest rate cap.

While the rate cap is in effect, the Servicer must report and remit on the Mortgage in accordance with Section 8106.1 and Chapter 8503.

(c) Assessing a Servicemember's ability to pay at the Note Rate

Unless there are unusual circumstances, Freddie Mac does not require the Servicer to assess the material effect of Military Service on a Borrower's ability to continue making payments on the Mortgage at the contractual rate of interest. The Servicer must implement the 6% rate cap, upon request of a Borrower, provided that the Borrower meets the requirements of the SCRA.

If the Servicer becomes aware of unusual circumstances that give it reason to believe the Servicemember's ability to pay at the contractual rate of interest is not materially affected by a call to Military Service, then the Servicer must notify its investor reporting specialist (**see Directory 3**) that Freddie Mac may wish to investigate the Servicemember's financial circumstances. The Servicer must include any facts to support its supposition and copies of the following:

- The military orders evidencing the Servicemember's call to Military Service
- Form 65, Uniform Residential Loan Application
- The Note

Freddie Mac may determine that a Servicemember's request for the interest rate cap should be challenged. If so, Freddie Mac will provide the Servicer with instructions on how to proceed.

Freddie Mac may decline to implement an interest rate cap if the rate cap was improperly granted to a Servicemember or if the Mortgage did not qualify for SCRA protection (for example, the Servicemember was already in a Period of Military Service at the time the Mortgage was originated). If Freddie Mac informs the Servicer that Freddie Mac declines the request, then within five Business Days, the Servicer must advise the Servicemember or the Servicemember's representative in writing, citing the specific reasons the Mortgage does not qualify for the interest rate cap and offer to consider other forms of assistance.

If further guidance is required, the Servicer may contact its investor reporting specialist (**see Directory 3**).

(d) Status updates, reinstatements

While the interest rate cap is in effect, the Servicer must periodically, but no less than every three months, verify that the Servicemember is still in a Period of Military Service or that no changes have been made to the duration/term of the Period of Military Service that may affect the Servicemember's eligibility to receive relief. If the Servicemember informs the Servicer, or if the Servicer learns by other means, that the Servicemember's Period of Military Service has ended, the Servicer must send a written notice to the Servicemember at least 30 days before the reinstatement of the contractual interest rate indicating that the

interest rate cap has been terminated and the monthly Mortgage payment has been reinstated to its contractual rate of interest. The written notice of reinstatement of the Mortgage should advise the Servicemember of the following:

- The amount of the monthly Mortgage payment when reinstated to its contractual rate of interest, specifying such interest rate
- The date the reinstated monthly payment amount is first due
- That he or she must furnish a copy of military orders showing any extension of the Period of Military Service beyond the originally scheduled release date, if applicable
- That he or she must furnish a copy of DD Form 214 to document his or her release from a Period of Military Service

The Servicer must follow the pertinent instructions in the chart below:

If:	Then the Servicer Must:
The military orders submitted with the interest rate cap request state the end date of the Period of Military Service	<ul style="list-style-type: none">■ 30 days prior to the release date, query the Defense Manpower Data Center web site (https://www.dmdc.osd.mil/appj/dwp/index.jsp) to determine if there has been a change to the duration/term of the Period of Military Service■ If the duration/term of the Period of Military Service has not changed, send the Servicemember or his or her representative a written notice that the Servicer will reinstate the monthly Mortgage payment to its contractual rate of interest, including the effective date of the payment change (which is the second monthly payment due following the date that is one year after the Servicemember's release date), 30 days before the end of the period for which the interest rate is capped at 6%

If:	Then the Servicer Must:
<p>The Period of Military Service has been extended based on notice from the Servicemember, his or her representative, or a certificate obtained from the Defense Manpower Data Center</p>	<p>Within 10 Business Days of learning of the extension, notify the Servicer's investor reporting specialist via CSV file (see Exhibit 71) that the end date of the Servicemember's Period of Military Service has changed. Retain a copy of the military orders evidencing the Servicemember's military status and Period of Military Service and all other related documentation in the Mortgage file and make it available to Freddie Mac upon request.</p>

If:	Then the Servicer Must:
<p>No evidence of extension of the Period of Military Service has been provided by the Servicemember or his or her representative within 30 days of the scheduled release date and a query of the Defense Manpower Data Center web site does not indicate a change to the duration/term of the Period of Military Service</p>	<p>Take the following steps:</p> <ul style="list-style-type: none"> ■ Send the Servicemember or his or her representative a written notice that the Servicer will reinstate the monthly Mortgage payment to its contractual rate of interest, including the effective date of the payment change (which is the second monthly payment due following the date that is one year after the Servicemember's release date), and request documentation of the Servicemember's release from Military Service (for example, DD Form 214)
	<ul style="list-style-type: none"> ■ Reinstate the monthly Mortgage payment to its contractual rate of interest beginning with the second monthly payment due following the date that is one year after the Servicemember's release date
	<p>If, as a result of the Servicer's notification, the Servicemember notifies the Servicer that his or her Period of Military Service has been extended and provides the Servicer with copies of military orders evidencing such extension or a query of the Defense Manpower Data Center web site reveals a change to the duration/term of the Period of Military Service, then the Servicer must notify its investor reporting specialist via CSV file (see Exhibit 71) that the end date of the Servicemember's Period of Military Service has changed within 10 Business Days of receiving the notification from the Servicemember and the Servicer must notify the Servicemember of the new date the Mortgage will reinstate to its contractual interest rate at least 30 days before the reinstatement of the interest rate occurs.</p> <p>Retain a copy of the of military orders evidencing the Servicemember's military status and Period of Military Service and all other related documentation in the Mortgage file and make it available to Freddie Mac upon request.</p>

If:	Then the Servicer Must:
The Servicemember's Period of Military Service has ended and a query of the Defense Manpower Data Center Web site does not indicate a change to the duration/term of the Period of Military Service	<p>Take the following steps:</p> <ul style="list-style-type: none"> ■ Reinstate the monthly Mortgage payment to its contractual rate of interest beginning with the second monthly payment due following the date that is one year after the Period of Military Service ended ■ Send the Servicemember or his or her representative written notice of the date the Mortgage will reinstate to its contractual interest rate at least 30 days before the reinstatement of the interest rate occurs ■ Remove the Mortgage from the Servicer's monthly (or quarterly) Interest Rate Differential text file (see Exhibit 72, Text File Format to Request SCRA Interest Rate Differential) the second month following the date that is one year after the Period of Military Service ended

(e) Foreclosure relief

The Servicer must not foreclose or initiate foreclosure proceedings against a Borrower who is a Servicemember except in accordance with the SCRA and State Military Relief Laws. See Sections 8503.2 and 8503.3 for Freddie Mac-specific foreclosure relief in addition to that provided by the SCRA or State Military Relief Laws.

When foreclosure is allowed to proceed and if a mortgage insurance claim is eventually filed, the Servicer must notify the MI that the Mortgage was subject to SCRA or State Military Relief Laws so that:

- Interest for SCRA-capped payments due, but unpaid by the Servicemember, is claimable at the Note rate, not at the SCRA-capped rate
- Claimable interest will not be curtailed by the MI for a delay that was caused solely by the Servicer's compliance with applicable law

For further guidance on relief or remedies (other than interest rate cap under the SCRA) involving Servicemembers who are serving or have served a Period of Military Service, the Servicer must consult with their legal counsel or contact Freddie Mac (see **Directory 5**).

(f) Late charges

The Servicer must waive all late charges or penalties resulting from Mortgage payments deferred, restructured or rate-capped under the SCRA or if required by State Military Relief Laws.

(g) Credit reporting

The Servicer must report a Servicemember who is receiving the protection of the SCRA or State Military Relief Laws as “paying as agreed” to the credit repositories.

The Servicer must fully comply with the SCRA and State Military Relief Laws as they relate to credit reports kept on Servicemembers who exercise their statutory rights to military relief.

(h) Documentation

The Servicer must maintain records of all communications with, and copies of all correspondence and documentation to or from, Servicemembers seeking Mortgage relief for hardship caused by Military Service in the Mortgage file.

(i) Transfers of Servicing

When a Transfer of Servicing includes Mortgages that have any type of military relief, including Mortgages with interest rates capped under the SCRA or with suspended foreclosures, the Transferor must identify each such Mortgage to the Transferee before transferring the Mortgage files to the Transferee. See Chapter 7101 for more information on Transfers of Servicing.

(j) Monthly reporting to Freddie Mac

Default action code 32 – “Military Indulgence”: Servicers should use only default action code 32 to report default processes that are delayed due to the Borrower being in a Period of Military Service and covered under the SCRA or foreclosure relief provided to Servicemembers and their Dependents in accordance with Section 8503.2. When utilizing default action code 32, Servicers must provide the date default processes were suspended and continue to report each month that the Servicemember is receiving foreclosure protection under the SCRA or Section 8503.2.

Default reason code 14 – “Military Service”: When reporting mortgage relief, loan modifications, or liquidation options extended to Servicemembers, Servicers must report the default action code associated with the specific relief, modification, or liquidation option. Servicers must also report the default reason code 14 to indicate the hardship was caused by military service.

For additional information about EDR, refer to Section 9102.7.

8503.5: Calculation of new monthly payment for SCRA-capped Mortgages (05/01/19)

If the interest rate on a Mortgage is capped in accordance with Section 8503.4, the Servicer may choose between the following two methods for calculating the new monthly payment amount:

- Reamortization of the Mortgage based on the interest rate of 6%, or
- Implementation of the 6% rate using the original amortization schedule

(a) Revised interest rate, reamortized Mortgage

This method applies in calculating the principal and interest (P&I) payment amount both at:

- The interest rate of 6%
- The reinstated contractual rate of interest

The Servicer must use the following formula:

$$P\&I = \frac{a \times (b/12)}{1 - (1 + b/12)^{-c}}$$

a = Mortgage UPB

1. For 6% rate: scheduled UPB after application of the last payment made before the Due Date of the first payment at 6%
2. For reinstatement to contractual rate: scheduled UPB after application of the last payment made before the Due Date of the second payment due one year after the Servicemember's Period of Military Service ends

b = interest rate

1. Rate applicable to the rate cap period: 6%
2. Rate applicable when reinstated to contractual rate: for fixed-rate Mortgages, use the original Note rate; for ARMs, use the current applicable index plus margin

c = actual number of remaining payments, using a calculated term to maturity

(b) 6% rate cap, original amortization schedule

Under this method, the Servicer must calculate the Borrower's monthly P&I at 6% as follows:

$$d + e = \text{monthly P\&I}$$

d = scheduled principal as calculated per amortization schedule in effect before rate cap

e = accrued interest = current cycle Ending UPB x (.06/12)

Upon reinstatement to the contractual rate of interest, the P&I amount will correspond to the amortization schedule in effect before the rate cap.

8503.6: Application of payments on SCRA-capped Mortgages (03/02/16)

Monthly payments made by Servicemembers on SCRA-capped Mortgages must be applied in accordance with Section 8103.4.

8503.7: Accounting reports for SCRA-capped Mortgages (06/12/19)

The Servicer must report each SCRA-capped Mortgage in accordance with Section 8303.28. Net yield interest due must be calculated based on the current Accounting Net Yield rate. The Servicer will receive credit for the interest rate differential, which is defined as follows:

- Interest rate differential = Accounting Net Yield less adjusted interest rate
- Adjusted interest rate or Mortgage with Note Rate higher than net yield = 6% less Servicing fee paid to the Servicer

Each month the Servicer must:

- Continue to report the contractual principal and interest payment in the monthly loan-level transaction for each Mortgage subject to the SCRA interest rate reduction
- Deposit the full contractual monthly payment of each Mortgage subject to the SCRA interest rate reduction into the Servicer's Freddie Mac Custodial Account
- Calculate the interest rate differential reimbursement due to the Servicer for the interest rate differential on each SCRA-capped Mortgage

To effectively manage Mortgages that are eligible for the SCRA interest rate cap, Servicers should take the following steps:

- Notify Freddie Mac via CSV file (see Exhibit 71, CSV File Format to Report Loans Eligible for the SCRA Interest Rate Subsidy) of each new Mortgage that becomes eligible for the SCRA interest rate cap
- Request reimbursement of the interest rate differential on a monthly (or quarterly) basis via text file. (See Exhibit 72, Text File Format to Request SCRA Interest Rate Differential.)
- Remove the loan from the text file (see Exhibit 72) and revert the Mortgage to the normal contractual interest rate 12 months after the end date of the Servicemember's Period of Military Service

Adjustments to each SCRA-capped Mortgage for the previous month must be reported via text file (see Exhibit 72) to Freddie Mac (**see Directory 3**) monthly, or if the Servicer chooses on a quarterly basis, not later than the third Business Day before the end of the month.

Freddie Mac will enter the total credit in the "Adjustment Line" of the Monthly Account Statement (MAS) and will apply the credit against the amount Freddie Mac drafts for that Accounting Cycle and make the appropriate adjustment to the Principal and Interest Custodial Account.

If, prior to the end of the month, an SCRA-capped Mortgage pays off or is involved in a Transfer of Servicing, or if the Servicemember's Period of Military Service ends, the Servicer must complete a separate text file (see Exhibit 72) for the affected Mortgage and submit it to Freddie Mac (**see Directory 3**) within five Business Days.

If the Servicer disagrees with the interest credit Freddie Mac gives the Servicer, the Servicer must notify Freddie Mac (**see Directory 3**) in writing within 30 days of the date of the MAS. The notification must state:

1. The Seller/Servicer number
2. The applicable Freddie Mac loan number(s)
3. A brief description of the problem
4. The unpaid balance for any disputed credit
5. Military orders* supporting the relief period requested

*References to "military orders" in the Guide include the alternative documentation outlined in Section 8503.2 that Servicers may accept in lieu of official military orders.

The Internal Revenue Service (IRS) Form 1098, Mortgage Interest Statement, that the Servicer files in accordance with Section 8106.2 should reflect the reduced interest amount paid by the Borrower during the rate cap period.

8503.8: Rate changes on SCRA-capped ARMs (03/02/16)

Freddie Mac notifies the Servicer of Accounting Net Yield changes on ARMs in accordance with Section 8502.2. When monthly net yield interest is reported on the Loan-Level Transaction for an SCRA-capped adjustable Mortgage, the Servicer must calculate the interest based on the new net yield shown in Freddie Mac's Notification of ARMs Group Net Yield Adjustment.

Freddie Mac will calculate the interest credit due to the Servicer in accordance with Section 8503.7.

8503.9: Servicing compensation for SCRA-capped Mortgages (06/12/19)

The Servicer's compensation for Servicing an SCRA-capped Mortgage will be based on a Servicing Spread that remains at the rate in effect before the first month to which the rate cap applies.

8503.10: Retroactive rate cap for SCRA-capped Mortgages (03/02/16)

Retroactive application of the SCRA rate cap under Section 8503.4 must be processed as follows:

(a) Reimbursement to the Servicemember

The Servicer must calculate the difference between the amount of interest paid by the Servicemember at the contractual rate of interest and the amount of interest due at 6%, for the applicable benefit period. At the Servicemember's option, the resulting amount may be credited to the UPB of the Mortgage or to reduce monthly Escrow installments, or refunded to the Servicemember.

(b) Reimbursement to the Servicer

The Servicer must calculate the credit that results from the retroactive interest rate differential and notify Freddie Mac (see **Directory 3**) of the amount of the credit the Servicer

is claiming (see Section 8503.7). Freddie Mac will validate the credit amount the Servicer requests and enters it on the “Adjustment Line” of the Servicer’s Monthly Account Statement (MAS).

Chapter 8504: Special Outreach Requirements for Servicing Mortgages with Deferred Balances

8504.1: Outreach requirements for Mortgages with low interest-bearing UPB and a Deferred Balance that are approaching the Mortgage maturity date or payoff of the interest-bearing UPB (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation before the mandatory October 1, 2023 effective date.

8504.1: Outreach requirements for Mortgages with low interest-bearing UPB and a Deferred Balance that are approaching the Mortgage maturity date or payoff of the interest-bearing UPB (Future effective date 10/01/23)

For Mortgages with an outstanding non-interest bearing UPB (or deferred balance) that is due at the time of maturity or payoff of the interest-bearing UPB, Servicers must complete additional outreach in accordance with the requirements below.

Servicers are reminded that for delinquent Borrowers, the Servicer must continue to follow all existing Guide requirements, including collection efforts in order to achieve quality right party contact, and the loss mitigation evaluation hierarchy unless they conflict with the requirements below.

(a) Outreach Requirements

As early as 180 days but no later than 150 days before the Mortgage maturity date or the projected payoff date of the interest-bearing UPB (the “projected payoff date”), the Servicer must take the following actions:

- Provide written notice to the Borrower informing the Borrower that the non-interest bearing UPB will become due and provide the projected payoff date or pending Mortgage maturity date, as applicable and the amount of the non-interest bearing UPB

- Upon establishing contact with the Borrower, discuss with the Borrower that the non-interest bearing UPB will become due on the projected payoff date or pending Mortgage maturity date and determine, based on communication with the Borrower, whether the Borrower is able to pay the non-interest bearing UPB on the maturity date or projected payoff date
- Send an exception review request to Freddie Mac, if the Servicer determines that the Borrower is unable to pay the amount due

As early as 75 days and no later than 60 days before the Mortgage maturity date or the projected payoff date, the Servicer must take the following actions:

- If the Servicer has not established contact with the Borrower, send an additional notice to the Borrower informing the Borrower that the non-interest bearing UPB will become due and provide the projected payoff date or pending Mortgage maturity date, as applicable, and the amount of the non-interest bearing UPB
- Upon establishing contact with the Borrower, discuss with the Borrower that the non-interest bearing UPB will become due on the projected payoff date or pending Mortgage maturity date and determine, based on communication with the Borrower, whether the Borrower is able to pay the non-interest bearing UPB on the maturity date or projected payoff date
- Send an exception review request to Freddie Mac, if the Servicer determines that the Borrower is unable to pay the amount due

After the initial solicitation but no earlier than 180 days before the maturity date or the projected payoff date, the Servicer may send additional notices at its discretion leading up to the maturity date or projected payoff date.

(b) Written notification requirement

When sending the required written notification set forth above in Section 8504.1(a) to Borrowers regarding the non-interest bearing UPB that is due, the Servicer must refer to Exhibit 1104, Borrower Notification – Non-Interest Bearing Balance. Use of this exhibit is optional; however, it contains the minimum information that must be conveyed to the Borrower.

Chapter 8601: Servicing Requirements for Senior Subordinate Mortgages

8601.1: Servicing Senior Subordinate Mortgages (07/13/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

Servicers of Senior Subordinate Mortgages must comply with all Servicing requirements of the Guide, including the additional Servicing requirements specified in this chapter that are applicable only to Senior Subordinate Mortgages. Freddie Mac will provide prior written notice to the Servicer of the date on which a Freddie Mac-Owned Mortgage becomes a Senior Subordinate Mortgage subject to the requirements set forth in this chapter. In any Guide section that requires a Servicer to act in Freddie Mac's best interests, Servicers of a Senior Subordinate Mortgage must continue to do so on behalf of Freddie Mac in its capacity as trustee and/or master servicer of a Senior Subordinate Trust. Except as set forth in Section 8601.12, unless a Servicer receives notification from Freddie Mac that it services a Senior Subordinate Mortgage, the Servicer must not apply any of the requirements set forth in this chapter, but rather, should continue Servicing in accordance with all other Servicing requirements of the Guide and applicable Purchase Documents. If any Servicing requirement in this Chapter 8601 is inconsistent with a Servicing requirement set forth elsewhere in the Guide, the Servicer must comply with the Servicing requirement set forth in this Chapter 8601 with respect to any Senior Subordinate Mortgage or Senior Subordinate Trust.

8601.2: Key terms and definitions used in this chapter (03/02/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

A Servicer that receives a notice that it services a Senior Subordinate Mortgage should be familiar with the following terms.

Senior Subordinate Mortgage – A Senior Subordinate Mortgage is a Mortgage previously owned by Freddie Mac that Freddie Mac has transferred to a Senior Subordinate Trust.

Senior Subordinate Trust – A securitization trust formed by Freddie Mac into which Freddie Mac transfers ownership of certain Freddie Mac-Owned Mortgages, which become Senior

Subordinate Mortgages upon transfer; Freddie Mac may serve as trustee, master servicer, master custodian and, with respect to certain securities issued by the Trust, guarantor of payments owed on those securities.

Freddie Mac-Owned Mortgage – Any Mortgage purchased by Freddie Mac that is owned by Freddie Mac, in whole or in part, and which currently is not owned by a securitization trust or deposited into a pool backing participation certificates.

Freddie Mac Guaranteed Mortgage – Any Mortgage purchased by Freddie Mac that is then deposited into or transferred to a securitization trust for which Freddie Mac is a guarantor of some or all of the payments owed to holders of the securities issued by that trust.

8601.3: Chapter contents (08/01/18)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This chapter sets forth requirements specific to Senior Subordinate Mortgages.

Topic	Section(s)
Freddie Mac's rights and Servicer rights, duties and obligations	8601.4
Limited power of attorney	8601.5
Requesting limited power of attorney	8601.6
Servicer use of Servicing Tools	8601.7
Borrower inquiries	8601.8
IRS Form 1099-A, Acquisition or Abandonment of Secured Property	8601.9
IRS Form 1099-C, Cancellation of Debt	8601.10
IRS Form 1099-MISC, Miscellaneous Income	8601.11
Concurrent and Subsequent Transfers of Servicing	8601.12
Declination of the application	8601.13
Modifying Exhibit 93 model letters for Senior Subordinate Mortgages	8601.14
Foreclosure – general requirements	8601.15
Referral to foreclosure documentation requirements	8601.16

Foreclosing in the Servicer's name	8601.17
Expedited foreclosures	8601.18
Deficiency rights	8601.19
Preserving the Mortgaged Premises	8601.20
Expenses that may become First Liens on the Mortgaged Premises	8601.21
Delivery of clear and marketable title	8601.22
Vesting the title and avoiding transfer taxes	8601.23
Non-routine default-related legal matters	8601.24
Counsel retained by Servicers pursuant to Servicer's duty to indemnify Freddie Mac	8601.25
Servicing Mortgages on distressed properties and properties that pose a Risk of Property Ownership	8601.26
Servicing Mortgages on abandoned properties	8601.27
Retention of firm	8601.28
Referral of Freddie Mac Default Legal Matters to firm	8601.29
REO - General Requirements	8601.30
REO - Documentation and reporting requirements	8601.31
REO - Notifying the taxing authority/HOA	8601.32

8601.4: Freddie Mac's rights and Servicer rights, duties and obligations (08/17/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

Freddie Mac retains all rights and remedies set forth in the Guide, including, but not limited to, Section 8101.9, except as modified below with respect to the rights set forth in Sections 9204.3, 7101.2(d), 9301.37 and 9301.38.

Unless otherwise specified in this chapter, a Servicer of a Senior Subordinate Mortgage shall continue to have the same rights, duties and obligations with respect to Freddie Mac as it does as a Servicer of any other Freddie Mac-Owned or Guaranteed Mortgage. Consistent with Section 8101.10, the Servicer shall remain an independent contractor of Freddie Mac. The Servicer may enter into a contract with a Senior Subordinate Trust provided it first obtains written approval

from Freddie Mac. Except as specified in a contract between the Servicer and Senior Subordinate Trust, a Servicer of Senior Subordinate Mortgages will not owe any duties or obligations to a Senior Subordinate Trust nor will it have any rights against the Senior Subordinate Trust.

Freddie Mac's rights

Consistent with Section 9204.3, Freddie Mac's approval or settlement of a workout does not limit its right to review the Mortgage file and invoke its remedies under the Guide. If Freddie Mac determines as a result of its review of the Mortgage file or otherwise discovers any failure by a Servicer to comply with Servicing requirements of the Guide or any other Purchase Documents, Freddie Mac has the right to require the Servicer to:

1. Compensate Freddie Mac and hold it harmless for any loss, damage or expense (including court costs, attorney fees and incentive payments) incurred by Freddie Mac, and/or
2. Repurchase a Mortgage that Freddie Mac repurchased from a Senior Subordinate Trust at any time under any of the circumstances outlined in Section 3602.3

Unauthorized Transfer of Servicing

With respect to the rights set forth in Section 7101.2(d) regarding a Servicer's transfer of its Servicing portfolio (in whole or in part) without Freddie Mac's prior written approval will result in the assessment of a compensatory fee as determined by Freddie Mac not to exceed 1% of the Senior Subordinate Trust's share of the UPB of the Mortgages that are being transferred.

8601.5: Limited power of attorney (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

Each Senior Subordinate Trust appoints Freddie Mac as attorney-in-fact to act on behalf of each Senior Subordinate Trust for purposes of signing all documents necessary to service the Senior Subordinate Mortgage, pursue foreclosure, release the lien, endorse the Note and execute other instruments and documents in connection with the Senior Subordinate Mortgage, take title to the Mortgaged Premises as a result of a deed-in-lieu of foreclosure or foreclosure sale, sell the Senior Subordinate Trust's REO and take all other necessary actions in connection with the Servicing of a Senior Subordinate Mortgage and for the preservation, maintenance and disposition of REO owned by the Senior Subordinate Trust. Further, each Senior Subordinate Trust authorizes Freddie Mac to further delegate to Servicers Freddie Mac's authority to act as attorney-in-fact on behalf of each Senior Subordinate Trust for the purposes stated above and, in furtherance of such authority, Freddie Mac has provided the Servicer with a limited power of attorney to act as attorney-in-fact on behalf of each Senior Subordinate Trust.

Before exercising the authority delegated by Freddie Mac under the limited power of attorney, the Servicer must determine, in consultation with its retained counsel, whether the Servicer may, under applicable law, rely on the limited power of attorney before pursuing foreclosure on behalf of the Senior Subordinate Trust or otherwise exercising the authority set forth in the limited power of attorney in connection with the Servicer's Servicing of a Senior Subordinate Mortgage and/or taking action in connection with the preservation, management or disposition of the REO. If the Servicer determines that it is unable to rely on the limited power of attorney in connection with its intended exercise of any of the authority granted under the limited power of attorney in connection with its obligations under the Guide, then the Servicer must notify Freddie Mac (see **Directory 5**) and await further instructions.

8601.6: Requesting a limited power of attorney (03/02/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

A Servicer that has determined they are in need of one or more limited powers of attorney in order to properly service one or more Senior Subordinate Mortgages must submit a request to Freddie Mac (see **Directory 5**) that includes the following:

1. The name of the applicable Senior Subordinate Trust, including the associated Series number
2. The legal name of the Servicer
3. A statement, in the subject line of the request, that specifies the request is for a limited power of attorney on behalf of a Senior Subordinate Trust
4. The number of limited powers of attorney requested
5. A shipping label, included as an attachment, listing the name, mailing address, and phone number of the Servicer employee that will receive the limited powers of attorney

8601.7: Servicer use of Servicing Tools (06/29/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

Any license, user agreement, term of use or similar document or requirement set forth in the Guide or other Purchase Document applicable to a Servicer's electronic communications with Freddie Mac or the Servicer's use of any Servicing Tools in connection with the Servicing of

Mortgages under the Guide shall govern, and the same terms, conditions, and obligations and requirements shall apply to, a Servicer's electronic communications or use of any Servicing Tools in connection with the Servicing of any Senior Subordinate Mortgage or REO owned by a Senior Subordinate Trust.

If the license, user agreement, terms of use, or similar document in the Purchase Document does not expressly permit the Servicer to use such Servicing Tools in connection with the Servicing of any Senior Subordinate Mortgage or REO owned by a Senior Subordinate Trust, such use is hereby deemed permitted, but subject to and conditioned on all other terms, conditions, obligations and limitations applicable to the Servicer's use of the such Servicing Tools contained in the applicable license, user agreement, terms of use or similar document in the Guide or applicable Purchase Document (including, but not limited to, all "as is" language, all liability limitations, and any restrictions governing use by third parties).

8601.8: Borrower inquiries (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 8101.5 to reflect special Servicing requirements for Senior Subordinate Mortgages.

The Servicer must respond promptly to any Borrower inquiries about the ownership or assignee of a Senior Subordinate Mortgage. When responding to such inquiries the Servicer may, after verifying the Borrower's identity, inform the Borrower that:

- The Mortgage is owned by the Senior Subordinate Trust designated in the Freddie Mac notice informing the Servicer that the Mortgage became a Senior Subordinate Mortgage
- Freddie Mac is master servicer and trustee to the Senior Subordinate Trust; and
- The Servicer services the Mortgage in accordance with Freddie Mac's Servicing requirements, as required by the Senior Subordinate Trust

If the Servicer is unable, for instance, in a telephone conversation, to verify that it is the Borrower who is requesting the information, the Borrower must request the information in writing. If requested, in addition to the information in the preceding bullets, the Servicer must also provide the Borrower with Freddie Mac's address, telephone number and the Freddie Mac loan number associated with the Borrower's Mortgage.

The address and telephone number that the Servicer must provide to the Borrower are:

[Insert legal name of Senior Subordinate Trust]
c/o FREDDIE MAC, Trustee

8200 JONES BRANCH DRIVE
MCLEAN, VA 22102
(800) FREDDIE

If the Servicer provides the Borrower with the requested information by telephone, the Servicer must provide the same information to the Borrower in writing.

See Sections 7101.11 through 7101.13 and 8101.8 for additional Servicing obligations related to Borrower inquiries.

8601.9: IRS Form 1099-A, Acquisition or Abandonment of Secured Property (11/30/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 8106.3 to reflect special Servicing requirements for Senior Subordinate Mortgages.

The Servicer must provide Internal Revenue Service (IRS) Form 1099-A, Acquisition or Abandonment of Secured Property, to the IRS and the Borrower as required under Section 6050J of the Internal Revenue Code. This reporting must be done whenever a **Senior Subordinate Trust** or a third party acquires an interest in a property in full or partial satisfaction of **the Senior Subordinate Trust's** secured debt or when Freddie Mac or the Servicer knows or has reason to know that a property has been abandoned. For the purposes of filing these reports, the following definitions apply:

- The **Senior Subordinate Trust** acquires an interest in Mortgaged Premises either:
 - On the date of the foreclosure sale or the date the Borrower's right of redemption, if any, expires, whichever occurs later, **and the Senior Subordinate Trust or the Servicer on the Senior Subordinate Trust's behalf is the winning bidder for the Mortgaged Premises**, or
 - At the time a deed-in-lieu of foreclosure is recorded
- A third party acquires an interest at the time of the foreclosure sale
- Abandonment has occurred when Freddie Mac or the Servicer has reason to know from all the facts and circumstances concerning the status of the Mortgaged Premises that the Borrower intended to and has permanently discarded the property from use. If a Servicer determines that an abandonment has occurred and expects to commence foreclosure proceedings within three months, the reporting obligation generally arises at the end of the three-month period.

The following events trigger the reporting requirement:

- Acquisition by the Senior Subordinate Trust (the Senior Subordinate Trust acquires the Mortgaged Premises at a foreclosure sale or by deed-in-lieu of foreclosure)
- Third-party sale (a third-party acquires the Mortgaged Premises at a foreclosure sale)
- HUD, RHS or VA acquisition (the Mortgaged Premises were acquired by HUD, RHS or the VA)
- Abandonment (the Mortgaged Premises have been abandoned, three months have passed and foreclosure proceedings have not begun)

A completed IRS Form 1099-A must be filed electronically with the IRS on or before March 31 of the year following the calendar year in which the reportable event occurred. The Servicer must also furnish the Borrower with an information statement on or before January 31 of that year. The requirement for furnishing such statement to the Borrower can be satisfied by sending a completed IRS Form 1099-A to the Borrower's last known address. The form must name the Senior Subordinate Trust that owns the Mortgage and identify it as the owner of the Mortgage, name Freddie Mac trustee to that Senior Subordinate Trust, list Freddie Mac's address and include a statement that the information is being reported to the IRS. On the form, the "account number" should include the nine-digit Freddie Mac loan number, followed by one space and the six-digit Servicer number.

See Section 8601.13 in the event that both IRS Form 1099-A and IRS Form 1099-C, Cancellation of Debt, may be filed as the result of a cancellation of debt in connection with a foreclosure or similar action in the same year for the same Borrower.

Instructions for completing IRS Form 1099-A are set forth in Form 1065A, Report of IRS Form 1099-A and Form 1099-C Filing for a Senior Subordinate Trust. Servicers must comply with the IRS's and the various States' requirements, as amended from time to time, for filing IRS Form 1099-A. Servicers should consult with either their tax advisors or the IRS concerning questions on such requirements.

The Servicer must file all IRS Forms 1099-A with the IRS electronically.

(a) Electronic reporting

Servicers must file their reports with the IRS no later than March 31 of the year following the calendar year in which the reportable event occurred. Even though a Servicer reports to the IRS electronically, the Servicer must provide a copy of the IRS Form 1099-A to the Borrower (copy B) and to those States that require it (copy C). Copy B must be furnished to the Borrower on or before January 31 of the year following the reportable event.

IRS requirements for filing electronically are set forth in IRS Publication 1220, *Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498 and W2-G*. A Servicer may obtain this publication by downloading it from the IRS web site at www.irs.gov or by calling the IRS at 1-800-TAX-FORM (1-800-829-3676).

When filing electronically, the Servicer must:

- Insert appropriate header information on the electronic report it files with the IRS in accordance with the following record description:

Field Name	Data Description
“A” Record	
Payer’s TIN	[Insert Senior Subordinate Trust’s TIN as provided in the written notice from Freddie Mac]
First payer name line	[Insert name of Senior Subordinate Trust as provided in the written notice from Freddie Mac]
Payer shipping address	c/o Freddie Mac, Trustee for [insert name of Senior Subordinate Trust]
Payer shipping address	8200 Jones Branch Drive
Payer city, State and zip	McLean, VA 22102-3100
“B” Record	
Payer’s account number	The nine-digit Freddie Mac loan number and the six-digit Seller/Servicer number, separating these two numbers by one space

- Notify Freddie Mac that the Servicer reported to the IRS electronically:
 - When the report is sent to the IRS, the Servicer must submit Form 1065A to Freddie Mac (**see Directory 3**)
 - A Servicer should not send Freddie Mac copies of the report that it filed with the IRS

(b) Correcting or voiding previously submitted IRS Forms 1099-A

To correct or void a previously submitted IRS Form 1099-A, the Servicer must refer to IRS requirements to determine how to report either for electronic corrections, or voids. To avoid or minimize penalties that may be imposed by the IRS, the Servicer must report corrections or voids to the IRS when an error is discovered. When corrections or voids are submitted to the IRS, a copy of Form 1065A must be submitted to Freddie Mac (see **Directory 3**). Form 1065A should indicate the number of corrected or voided IRS Forms 1099-A submitted to the IRS.

(c) Filing accuracy and documentation

Servicers are responsible for completing the IRS Form 1099-A and for providing the information to the IRS and to the Borrower in a timely and accurate manner. The Servicer must maintain copies of all statements and reports that Freddie Mac requires the Servicer to provide directly to the Borrowers and the IRS in compliance with Section 6050J of the Internal Revenue Code. The Servicer must make such copies available for examination by Freddie Mac upon request until Freddie Mac agrees, in writing, that such records may be destroyed.

If the IRS penalizes Freddie Mac **or any Senior Subordinate Trust** or assesses any fee for failure to produce such information or because a Servicer failed to file a return or statement or filed an untimely, incorrect or incomplete return or statement, the Servicer will be required to reimburse Freddie Mac for all costs incurred by Freddie Mac **or any Senior Subordinate Trust** as a result of such penalty or assessment and an amount representing Freddie Mac's **or any Senior Subordinate Trust's** total tax liability resulting from such reimbursement. Such reimbursement will not be required if the Servicer can show that it met the filing requirements.

8601.10: IRS Form 1099-C, Cancellation of Debt (12/13/17)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 8106.4 to reflect special Servicing requirements for Senior Subordinate Mortgages.

The Servicer must report cancellations of Borrowers' mortgage debt on Internal Revenue Service (IRS) Form 1099-C, Cancellation of Debt, as required under Section 6050P of the Internal Revenue Code for all cancellations of mortgage debt of \$600 or more occurring on or after January 1, 2005, **with respect to any Senior Subordinate Mortgage**. IRS Form 1099-C must be filed regardless of whether the Borrower must report the cancellation of debt as income.

Form 1065A, Report of IRS Form 1099-A and Form 1099-C Filing for a Senior Subordinate Trust, includes instructions for completing IRS Form 1099-C.

(a) Coordination with IRS Form 1099-A, Acquisition or Abandonment of Secured Property

If, in the same calendar year, the Servicer cancels a debt in connection with a foreclosure or abandonment of the Mortgaged Premises, it is not necessary to file both IRS Form 1099-A, Acquisition or Abandonment of Secured Property (see Section 8601.9), and IRS Form 1099-C for the same Borrower. The Servicer will meet the filing requirement for IRS Form 1099-A by completing boxes 4, 5 and 7 on IRS Form 1099-C. However, the Servicer may complete both IRS Forms 1099-A and 1099-C separately; in that case do not complete boxes 4, 5 and 7 on IRS Form 1099-C. (See Form 1065A for filing instructions for IRS Forms 1099-A and 1099-C.)

(b) Requesting taxpayer identification numbers (TINs)

A Servicer must make a reasonable effort to obtain the correct name and TIN of the Borrower whose debt was cancelled. If the Servicer does not obtain the TIN before the debt is cancelled, it must request the Borrower's TIN. Such request must clearly notify the Borrower that the IRS requires the Borrower to furnish the TIN and that failure to furnish such TIN subjects the Borrower to a \$50 penalty imposed by the IRS. Use IRS Form W-9, Request for Taxpayer Identification Number and Certification, to request the TIN. However, a Borrower is not required to certify the TIN under penalties of perjury.

(c) Exceptions

The Servicer is not required to report the following on IRS Form 1099-C:

(i) Certain bankruptcies

Debt cancelled in bankruptcy is not reported unless the debt was incurred for business or investment purposes. **Senior Subordinate Mortgages** may be incurred either for personal purposes or for business or investment purposes. Thus, Servicers should only file IRS Form 1099-C for discharges of debt in bankruptcy if they are aware that the Borrower is holding the property for investment and not as a Primary Residence or second home, such as in the case of an Investment Property Mortgage, determined at origination. In that case, report debt cancelled for the later of:

- The year in which the amount of cancelled debt first can be determined, or
- The year in which the debt is cancelled in bankruptcy

(ii) Interest

Servicers do not need to include interest as part of the cancelled debt in box 2. However, if interest is reported as part of the cancelled debt in box 2, show the interest separately in box 3.

(iii) Nonprincipal amounts

Nonprincipal amounts include penalties, fines, fees and administrative costs. These do not need to be reported.

(iv) Release of a Borrower

IRS Form 1099-C does not need to be filed if one of the Borrowers on a **Senior Subordinate Mortgage** is released as long as the remaining Borrowers remain liable for the full amount of the unpaid Mortgage.

(v) Guarantor or surety

IRS Form 1099-C does not need to be filed for a guarantor or surety. A guarantor is not a debtor for purposes of IRS Form 1099-C, even if demand for payment is made to the guarantor.

(vi) Multiple Borrowers

For **Senior Subordinate Mortgages** originated after 1994 that involve Borrowers who are jointly and severally liable for the Mortgage, report the entire amount of the cancelled debt on each Borrower's IRS Form 1099-C. Multiple Borrowers are jointly and severally liable for a debt if there is no clear and convincing evidence to the contrary. If it can be shown that joint and several liability does not exist, an IRS Form 1099-C is required for each Borrower for whom the Servicer cancelled a debt of \$600 or more.

- For Senior Subordinate Mortgages originated before 1995, the Servicer must file IRS Form 1099-C only for the primary (or first-named) Borrower
- If the Servicer knows or has reason to know that the multiple Borrowers were husband and wife who were living at the same address when the debt was incurred, and it has no information that these circumstances have changed, the Servicer may file only one IRS Form 1099-C
- See the instructions to Form 1065A for the application of these rules to entity borrowers (e.g., estates or trusts)

(d) Definitions

For purposes of these reports, the following definitions apply:

- A debt may include all amounts owed, including stated principal, stated interest, fees, penalties, administrative costs, and fines. However, only stated principal is required to be reported. If accrued interest is included in the amount of the stated debt (in box 2), then it must be reported in box 3.
- A debt is cancelled on the date an identifiable event occurs. An identifiable event is:
 1. A discharge in bankruptcy under Title 11 of the U.S. Code (but see exceptions in Subsection 8601.10(c), above)
 2. A cancellation or extinguishment making the debt unenforceable in a receivership, foreclosure or similar proceeding
 3. A cancellation or extinguishment when the statute of limitations for collecting the debt expires, or when the statutory period for filing a claim or beginning a deficiency judgment proceeding expires. Expiration of the statute of limitations is an identifiable event only when the Borrower's affirmative statute of limitations defense is upheld in a final judgment or decision of a court and the appeal period has expired.
 4. A cancellation or extinguishment when deficiency rights were not preserved during the foreclosure process
 5. A cancellation or extinguishment when Freddie Mac (or its vendor per Section 9601.1) makes the determination not to pursue a deficiency action post-foreclosure and notifies the Servicer of such determination
 6. A cancellation or extinguishment when a creditor elects foreclosure remedies that by law end or bar the creditor's right to collect the debt. This event applies if collection is barred by local law after a "power of sale" in the Mortgage or deed of trust is exercised.
 7. A cancellation or extinguishment due to a probate or similar proceeding
 8. A discharge of indebtedness under an agreement with the debtor to cancel the debt at less than full consideration (e.g., a short sale). Freddie Mac will advise the Servicer if such an agreement is reached with a Borrower.
 9. A discharge of indebtedness because of a decision or a defined policy of the creditor to discontinue collection activity and cancel the debt. A creditor's defined policy can be in writing or an established business practice. A practice to stop collection activity and abandon a debt when a particular nonpayment period expires is a defined policy.

Facts and circumstances indicating that a debt was not cancelled include the existence of a lien relating to the debt (up to the value of the security) or the sale or packaging for sale of the debt by the creditor.

In the event of a foreclosure sale where deficiency rights were preserved, the Servicer must not initially file an IRS Form 1099-C. Freddie Mac will determine whether to pursue collection of the deficiency of that Mortgage. If Freddie Mac makes a determination not to pursue collection of the deficiency, we will notify the Servicer in the report described below and the Servicer must then file the IRS Form 1099-C.

Servicers must review *the 1099-C Loan Detail* report, accessible via the “Default Reporting” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools), by the end of January annually, and ensure that an IRS Form 1099-C is filed with the IRS as required in Subsection 8601.10(e) and is provided to the Borrower as required in Subsection 8601.10(f) for all Senior Subordinate Mortgages in which the debt has been discharged in the prior year. This report will list all Freddie Mac-Owned or Guaranteed Mortgages whereby Freddie Mac has determined not to pursue collection of the deficiency on behalf of the Senior Subordinate Trust in the prior year.

To help facilitate this annual review, from February 1 to December 31 each year, Servicers can monitor the *1099-C Loan Detail* report in the SPP, which also provides a tentative aggregate list of Mortgages for which Freddie Mac has decided to not pursue collection of the deficiency on behalf of the Senior Subordinate Trust for the current year.

Servicers may use *this current year’s list* to prepare for the required annual review and any eventual IRS Form 1099-C filings; however, as the status of the Mortgage and/or the cancellation of debt may subsequently change, any Servicer that chooses to use *this current year’s list* in such a manner must, as part of the required annual review, reconcile *the final report* against any IRS Form 1099-C filings *already* prepared.

(e) Reporting IRS Form 1099-C to IRS

The Servicer must file IRS Forms 1099-C on *the Senior Subordinate Trust’s* behalf. The Servicer must file all IRS Forms 1099-C with the IRS electronically.

IRS Publication 1220, *Specifications for Electronic Filing of Forms 1097, 1098, 1099, 3921, 3922, 5498 and W-2G*, sets forth the IRS requirements for filing electronic reports and corrections. The Servicer can obtain this publication by downloading it from the IRS web site at www.irs.gov, or by calling 1-800-TAX-FORM (1-800-829-3676).

When filing electronically through the IRS FIRE System, the Servicer must insert appropriate header information on the report it files with the IRS in accordance with the following record descriptions:

Field Name	Data Description
"A" Record	
Payer's TIN	[Insert Senior Subordinate Trust's TIN as provided in the written notice from Freddie Mac]
First payer name line	[Insert name of Senior Subordinate Trust as provided in the written notice from Freddie Mac]
Payer shipping address	c/o Freddie Mac, Trustee for [insert name of Senior Subordinate Trust]
Payer shipping address	8200 Jones Branch Drive
Payer city, State and zip	McLean, VA 22102-3100
"B" Record	
Payer's account number	The 9-digit Freddie Mac loan number and the 6-digit Seller/Servicer number, separating these two numbers by one space

Each Servicer must file its reports with the IRS not later than March 31 of the year following the calendar year in which the cancellation of debt occurs.

(f) Reporting to the Borrower

Even though a Servicer reports to the IRS electronically, the Servicer is still responsible for providing a paper copy of the IRS Form 1099-C to the Borrower (copy B) by January 31 of the year following the calendar year in which the cancellation of debt occurred. The Servicer can satisfy the requirement for furnishing such statement to the Borrower by sending a completed IRS Form 1099-C to the Borrower's last known address. The form must identify the Senior Subordinate Trust that owns the Senior Subordinate Mortgage, name Freddie Mac as Trustee to the Senior Subordinate Trust, list Freddie Mac's address and include a statement that the information is being reported to the IRS.

The Servicer is also required to file IRS Form 1099-C with any State that requires this filing in accordance with the State's filing deadlines.

(g) Notification to Freddie Mac of electronic reporting

The Servicer must notify Freddie Mac that the Servicer reported IRS Form 1099-C to the IRS. When the electronic report is sent to the IRS, the Servicer must submit Form 1065A to the attention of (see **Directory 3**).

(h) Correcting or voiding previously submitted IRS Form 1099-C

To correct or void a previously submitted IRS Form 1099-C, the Servicer must refer to IRS requirements to determine how to report either electronic corrections or voids. To avoid or minimize penalties that may be imposed by the IRS, the Servicer must promptly report corrections or voids to the IRS when an error is discovered. When the Servicer submits corrections or voids to the IRS, the Servicer must also submit a copy of Form 1065A to Freddie Mac (see **Directory 3**). The Servicer must indicate on Form 1065A the number of corrected or voided IRS Forms 1099-C submitted to the IRS.

(i) Filing accuracy and documentation

Servicers are responsible for completing the IRS Form 1099-C and for providing the information to the IRS and to the Borrower in a timely and accurate manner. The Servicer must maintain copies of all statements and reports that Freddie Mac requires the Servicer to provide directly to the Borrowers and the IRS in compliance with Section 6050P of the Internal Revenue Code. The Servicer must make such copies available for examination by Freddie Mac upon request until Freddie Mac agrees, in writing, that such records may be destroyed (which will be a minimum of four years).

If the IRS penalizes Freddie Mac or the Senior Subordinate Trust or assesses any fees for failure to produce such information, or because the Servicer failed to file a return or statement, or filed an untimely, incorrect, or incomplete return or statement, the Servicer will be required to reimburse Freddie Mac for all costs incurred by Freddie Mac or any Senior Subordinate Trust as a result of such penalty or assessment and for the amount representing Freddie Mac's or any Senior Subordinate Trust's total tax liability resulting from such reimbursement. Freddie Mac will not require such reimbursement if the Servicer can show that it met the filing requirements.

8601.11: IRS Form 1099-MISC, Miscellaneous Income (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 8106.5 to reflect special Servicing requirements for Senior Subordinate Mortgages.

Servicers should not prepare or file Internal Revenue Service (IRS) Form 1099-MISC, Miscellaneous Income, using either Freddie Mac's or the Senior Subordinate Trust's names or Taxpayer Identification Numbers. The Servicer should consult with its tax advisor to review its reporting obligations with regard to the filing of IRS Form 1099-MISC.

8601.12: Concurrent and Subsequent Transfers of Servicing (11/01/21)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

In addition to the requirements governing Concurrent Transfers of Servicing and Subsequent Transfers of Servicing set forth elsewhere in the Guide, Servicer must inform Freddie Mac and the Transferee Servicer of any Transfers of Servicing with respect to Mortgages that are being sold or were sold to Freddie Mac under any Senior Subordinate Mortgage Purchase Document by designating on Form 960 or in the Electronic Agreement (as defined in Section 1401.2) for Subsequent Transfer of Servicing of Single-Family Mortgages ("STOS Agreement") in the Freddie Mac Servicing Transfer Manager (see Exhibit 88, Servicing Tools), as applicable, whether the Transfer of Servicing involves such Mortgages. In addition, the Seller/Transferor Servicer must, in the list of Mortgages that the Seller/Transferor Servicer provides to the Transferee Servicer and Freddie Mac, indicate the following status of each such Mortgage:

If a Mortgage has not yet been transferred to a Senior Subordinate Trust:

- The Mortgage is subject to a Senior Subordinate Mortgage Purchase Document; and
- Whether the Mortgage is the subject of a notice from Freddie Mac under Section 8601.1 that designates the date on which the Mortgage will become a Senior Subordinate Mortgage

If a Mortgage has been transferred to a Senior Subordinate Trust:

- The Mortgage is subject to a Senior Subordinate Mortgage Purchase Document
- The name of the Senior Subordinate Trust that holds the Mortgage

With respect to each Mortgage transferred to a Senior Subordinate Trust and subject to a Transfer of Servicing, the Seller/Transferor Servicer must promptly provide the Senior Subordinate Mortgage Purchase Document and any notice issued by Freddie Mac under Section 8601.1 to the Transferee Servicer. The Seller/Transferor Servicer also must inform the

Transferee Servicer as to the status of any post-funding quality control review that is underway for Mortgages that have not yet been transferred to a Senior Subordinate Trust.

The Transferee Servicer must comply with any obligations set forth in the Senior Subordinate Mortgage Purchase Document including, but not limited to, specific requirements pertaining to post-funding quality control reviews and Tri-Party Agreement version requirements (e.g., using a version of Form 1035, Form 1035DC, or Form 1035CS revised on or after February 2015).

For purposes of Bulletin 2015-5, a Transferee Servicer's execution of Form 960 or the STOS Agreement constitutes an agreement by the Transferee Servicer with Freddie Mac to service the transferred Mortgages that the Transferor Servicer designated as those that are or may become Senior Subordinate Mortgages in accordance with the requirements of this Chapter 8601.

8601.13: Declination of the application for assumption (03/02/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 8406.8 to reflect special Servicing requirements for Senior Subordinate Mortgages.

If the application for a Mortgage assumption is declined, the Servicer must provide an adverse action notice to all applicable parties, or any other notice or disclosure required under the Equal Credit Opportunity Act, Fair Credit Reporting Act, Truth-in-Lending Act and any other applicable federal, State or local law. **Neither Freddie Mac nor the Senior Subordinate Trust** may be identified as a creditor in any notice or disclosure that may be required, as **neither Freddie Mac nor the Senior Subordinate Trust** is participating in the decision on the application.

8601.14: Modifying Exhibit 93 model letters for Senior Subordinate Mortgages (03/02/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

When denying a Borrower for a loan modification of a Senior Subordinate Mortgage based on the First Complete Borrower Response Package, the Servicer must amend the appropriate Exhibit 93, Evaluation Model Clauses, model clause language pertaining to the Mortgage Servicing Regulatory Notice and Right of Appeal by adding the following sentence after the phrase **"You were not approved for a loan modification Trial Period Plan"**

Your Mortgage is owned by [name of Senior Subordinate Trust], which requires your loan to be serviced in accordance with the servicing requirements of Freddie Mac, the Master Servicer of your Mortgage Loan

and deleting the phrase “**the owner of your Mortgage loan**” after “Freddie Mac” in the sentence that currently reads:

You were evaluated for mortgage payment assistance based on the eligibility requirements of Freddie Mac, the owner of your mortgage loan

Use of the model clauses in Exhibit 93 is optional, and the Servicer may, instead, choose to use customized equivalent model clauses when meeting this requirement; however, as with Exhibit 93 model clauses, any equivalent model clauses, prior to use by the Servicer, must be modified, where applicable, to identify the appropriate Senior Subordinate Trust as the owner of a Senior Subordinate Mortgage, instead of Freddie Mac, and also identify Freddie Mac as the master servicer of the Senior Subordinate Mortgage, instead of as the owner. Further, these model clauses should inform the Borrower that the Borrower’s Senior Subordinate Mortgage is, as obligated by the Senior Subordinate Trust, serviced in accordance with Freddie Mac’s Servicing requirements and that any eligibility decisions were made in accordance with those requirements.

8601.15: General requirements for Freddie Mac Default Legal Matters (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9301.2 to reflect special Servicing requirements for Senior Subordinate Mortgages.

When following the requirements provided in Chapter 9301 while processing Freddie Mac Default Legal Matters, the Servicer must comply with:

1. The terms and conditions of the Mortgage documents, including the Note
2. Applicable federal, State and local laws and customs
3. Requirements of the FHA, VA, RHS or MI, if applicable
4. The Guide and other Purchase Documents

5. The limited power of attorney granted to the Servicer by Freddie Mac on behalf of the Senior Subordinate Trust

8601.16: Referral to foreclosure documentation requirements (05/04/20)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9301.9 to reflect special Servicing requirements for Senior Subordinate Mortgages.

For a Senior Subordinate Mortgage, appropriate foreclosure documentation includes, but is not limited to, all documents required by the foreclosure counsel to complete the first legal action. The Servicer must continue to comply with applicable law, but at a minimum, must supply the foreclosure counsel with the following:

1. A statement that informs foreclosure counsel that the Senior Subordinate Mortgage is owned by a Senior Subordinate Trust and that also provides counsel with the name of the Senior Subordinate Trust
2. A copy of the limited power of attorney provided to the Servicer by Freddie Mac authorizing the Servicer to pursue foreclosure on behalf of the Senior Subordinate Trust
3. Instructions, given along with the limited power of attorney, requiring foreclosure counsel to inform the Servicer if counsel determines upon referral or at any later time that the limited power of attorney provided to the Servicer by Freddie Mac cannot be relied upon under applicable law*
4. Copies of the Note (or the original Note if required by applicable law) evidencing the indebtedness along with any intervening assignments, endorsements, or any applicable modifying instrument, such as a modification agreement, a conversion agreement or an assumption of indebtedness and release of liability agreement
5. Mortgage or deed of trust
6. Copy of the original title insurance policy. For Cooperative Share Loans recognized as personal property, refer to Section 8801.1(f)(ii) regarding certain Servicer warranties when foreclosing on a Cooperative Share Loan.
7. Copy of the breach, acceleration or demand letter sent to the Borrower
8. Military affidavits

9. Executed Substitution of Trustee, as necessary
10. Payoff statement with per diem interest as of the date of the foreclosure referral
11. Send foreclosure counsel the following information by facsimile transmission or other electronic means:
 - Name, mailing address and telephone number of the Borrower(s)
 - Property address (if different from the Borrower's mailing address)
 - A statement that the Senior Subordinate Mortgage is a Freddie Mac Guaranteed Mortgage and include the nine-digit Freddie Mac loan number
 - Name and address of the person to contact in the Servicer's foreclosure department

*The Servicer must comply with any applicable requirements in Section 8601.7 if the Servicer makes the determination, on advice of foreclosure counsel or otherwise, that the limited power of attorney cannot be relied upon and the Servicer has also determined that a limited power of attorney issued directly by the Senior Subordinate Trust and/or action by Freddie Mac, such as the execution of documents, is necessary to the proper Servicing of the Senior Subordinate Mortgage.

Referral to foreclosure documentation requirements on a Senior Subordinate Mortgage secured by a Manufactured Home

In addition to the above requirements, if the Mortgage is secured by a Manufactured Home, the Servicer must notify the foreclosure counsel that the property is a Manufactured Home when it submits the case to the foreclosure counsel. The Servicer must also provide the foreclosure counsel with evidence that the property is legally classified as real property under the laws in the State where the property is located.

(a) Evidence that the property is real property in a non-certificate of title State

The Servicer must provide the foreclosure counsel with copies of the following documentation in non-certificate of title States (see Section 5703.7) evidencing that the Manufactured Home and the land are real property under the laws of the State where the property is located:

- Information stating the legal basis (statutory or common law) for determining that the Manufactured Home is real property that is exempt from certificate of title requirements. This information may be included in the documentation received at origination of the Senior Subordinate Mortgage from the title insurance company that the Manufactured Home is real property, and

- Evidence that a certificate of title has not been issued, such as the manufacturer's statement of origin, if the manufacturer's statement of origin is not required to be surrendered to a State agency

(b) Evidence that the property is real property in a certificate of title surrender State

The Servicer must provide the foreclosure counsel with copies of the following documentation in certificate of title surrender States (see Section 5703.7) evidencing that the Manufactured Home and the land are real property under the laws of the State where the property is located:

- A certificate of cancellation, notification letter or other acknowledgment from the Department of Motor Vehicles (DMV) or the appropriate State agency to which the certificate of title was surrendered, or a copy of the documents submitted in connection with the surrender along with evidence that the documents were delivered and received by the appropriate State agency, and
- Copies of the documents, such as an affidavit of affixture, recorded in the land records as part of the title surrender procedures to show the Manufactured Home has been converted to real property

(c) Evidence of clear and marketable title to the Manufactured Home and land in certificate of title States

The Servicer must provide the foreclosure counsel with the following documentation in certificate of title States (see Section 5703.7) evidencing the Borrower's ownership of both the Manufactured Home and the land on which it is permanently affixed and documentation evidencing that the land is legally classified as real property under the laws in the State where the property is located:

- The original or a copy of the certificate of title showing the Borrower as owner of the Manufactured Home. The certificate of title must have a notation of the original Seller/Servicer's security interest in the Manufactured Home in the name of the Seller and its successors in interest and assigns and have a notation of all intervening assignments from the original mortgagee to each successive Servicer, ending with the current Servicer, and
- A copy of the deed evidencing ownership of the land showing the owner of the land on the deed to be identical to the owner of the Manufactured Home on the certificate of title

This and any other relevant information must be provided within five days of the referral to foreclosure so that the foreclosure counsel has the information necessary to simultaneously enforce the liens (whenever possible) and so as not to unnecessarily lengthen the foreclosure process.

8601.17: Foreclosing in the Servicer's name (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9301.12 to reflect special Servicing requirements for Senior Subordinate Mortgages.

(a) Conducting the foreclosure

The Servicer must instruct the foreclosure counsel to process the foreclosure in the Servicer's name and in a manner that would avoid any obligation to pay a transfer tax. However, the Servicer may instruct foreclosure counsel to conduct the foreclosure in **the Senior Subordinate Trust's name** if applicable law:

- Precludes the Servicer from conducting the foreclosure in its name because it owns or services a subordinate Mortgage on the Mortgaged Premises, or
- Requires the foreclosure to be processed in **the Senior Subordinate Trust's name** to avoid any obligation to pay a transfer tax and foreclosure counsel could not otherwise process the foreclosure in a manner that would successfully avoid imposition of the transfer tax obligation

When Servicing Senior Subordinate Mortgages, the Servicer may not, under any circumstance, foreclose or take title in Freddie Mac's name, even if doing so would be necessary to avoid any obligation to pay a transfer tax.

For these special circumstances, the Servicer does not need to obtain written approval but must notify Freddie Mac within two Business Days of the Servicer's determination to foreclose in **the Senior Subordinate Trust's name** and record the basis of the decision in the Mortgage file. All notifications must be sent via e-mail (**see Directory 5**). For all other circumstances in which the Servicer may need to instruct foreclosure counsel to conduct the foreclosure in **the Senior Subordinate Trust's name**, the Servicer must obtain written approval from Freddie Mac (refer to Section 8601.24 regarding initiating legal actions on **the Senior Subordinate Trust's behalf**).

When processing the foreclosure in **the Senior Subordinate Trust's name**, all pleadings and related documents must comply with Section 8601.24. The Servicer remains obligated to notify Freddie Mac pursuant to Section 9501.12 in the event that any foreclosure conducted in **the Senior Subordinate Trust's name** evolves into a non-routine litigation matter (**see Section 8601.24**).

When a Servicer conducts the foreclosure in **the Senior Subordinate Trust's name**, the Servicer is not permitted to have the same foreclosure counsel represent the Servicer or another lien holder in the same proceeding. Freddie Mac, **as master servicer and/or trustee of**

the Senior Subordinate Trust, does not consent to dual representation of the Senior Subordinate Trust and another lien holder on the same property.

(b) Executing documents

If Freddie Mac needs to execute a document for the Servicer to process the foreclosure, or execute a document related to a foreclosure sale, the Servicer must submit Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (see **Directory 5**) with all supporting documentation, which may include, but is not limited to, the last recorded document in the chain of title, and include the document Freddie Mac needs to execute.

If an assignment of the Security Instrument to the Senior Subordinate Trust has been recorded and the Servicer is conducting the foreclosure in the Servicer's name, then the Security Instrument must be assigned back to the Servicer before the foreclosure counsel files the first legal action. Refer to Section 9301.16 for an explanation of first legal action.

The limited power of attorney provided to the Servicer by Freddie Mac authorizing the Servicer to pursue foreclosure on behalf of the Senior Subordinate Trust should provide the Servicer with the authority to assign the Security Instrument assigned back to the Servicer. The Servicer must comply with any applicable requirements in Section 8601.5 if the Servicer makes the determination that the limited power of attorney granted to the Servicer by Freddie Mac cannot be relied upon under the applicable State or local law.

If the Servicer is foreclosing on a Senior Subordinate Mortgage registered with MERS®, the Servicer must prepare and execute (using the Servicer's employee who is a MERS authorized "signing officer") an assignment of the Security Instrument from MERS to the Servicer. The Servicer must record the prepared assignment where required by State law. State mandated recordings are non-reimbursable by Freddie Mac, are not considered part of the Freddie Mac allowable foreclosure counsel fees and must not be billed to the Borrower.

If the Senior Subordinate Mortgage is an FHA, Section 502 GRH or VA Mortgage, then the Servicer must follow FHA, RHS or VA guidelines to determine in whose name the foreclosure action should be brought.

Refer to Sections 6301.6 and 6301.8 for additional information on Freddie Mac's requirements for assignments of the Security Instrument.

8601.18: Expedited foreclosures (03/02/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Sections 9301.19, 9301.21 and 9301.22 to reflect special Servicing requirements for Senior Subordinate Mortgages.

Servicers must always consider how to resolve a Freddie Mac Default Legal Matter in a legally-compliant manner that obtains the best result for the Senior Subordinate Trust. While Servicers are not required to use expedited methods identified in Chapter 9301 or corresponding expedited methods in this chapter, if a Servicer does proceed with an expedited method, it must adhere to the requirements set forth in those chapters.

Chapter 9301 and this section provide requirements for expediting Freddie Mac Default Legal Matters, such as:

- Waiving the Senior Subordinate Trust's right to pursue deficiency actions against a Borrower
- Expediting the foreclosure if the Mortgaged Premises is identified as vacant/abandoned
- Obtaining default judgment for an amount less than total amount owed by the Borrower
- State-specific methods for expediting Freddie Mac Default Legal Matters

(a) Expedited foreclosures – Illinois

In Illinois, Servicers may obtain a consent judgment from a Borrower and take title to the Mortgaged Premises in the name of the Senior Subordinate Trust instead of selling the Mortgaged Premises at foreclosure sale. In doing so, Servicers must follow the requirements of Section 9301.21.

(b) Expedited foreclosures – New York

Servicers may use the New York Foreclosure Inquest Program, as a method to expedite foreclosure actions on Senior Subordinate Mortgages in accordance with the requirements of Section 9301.22.

8601.19: Deficiency rights (03/02/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

In implementing the requirements of Sections 9301.23, 9301.24, 9601.1 and 9601.2, all references concerning the right to pursue a deficiency are the right of the Senior Subordinate Trust with respect to Senior Subordinate Mortgages. In addition, the Servicer must ensure that any consent judgment in Illinois results in title to the Mortgaged Premises being conveyed to the Senior Subordinate Trust and not to Freddie Mac or the Servicer.

8601.20: Preserving the Mortgaged Premises (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

The Servicer must comply with the requirements of Section 9301.26, except that, with respect to Senior Subordinate Mortgages, either the Servicer or the Senior Subordinate Trust would be the mortgagee, and not Freddie Mac.

8601.21: Expenses that may become First Liens on the Mortgaged Premises (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

With respect to the Servicing of Senior Subordinate Mortgages, the Servicer must protect the Senior Subordinate Trust's interest in the property and its First Lien Position to the same extent that it is obligated under Section 9301.27, with respect to Freddie Mac-Owned or Guaranteed Mortgages to protect "Freddie Mac's interest in the property" and "Freddie Mac's First Lien Position."

8601.22: Delivery of clear and marketable title (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9301.40 to reflect special Servicing requirements for Senior Subordinate Mortgages.

(a) Property located in a State without a redemption or confirmation period

When the Servicer is the purchaser of the property at a foreclosure sale, it must ensure that the foreclosure counsel provides **the Senior Subordinate Trust** with clear and marketable title to the property after the foreclosure sale. The title must be free of any liens, claims, defects and encumbrances. The title must be marketable so Freddie Mac can sell the property freely to others **on behalf of the Senior Subordinate Trust**.

The Servicer must instruct the foreclosure counsel to:

1. Submit the foreclosure deed for recordation within one Business Day after receipt of the deed
2. Obtain the recorder's receipt as evidence that the deed was presented for recordation
3. Send the Servicer the recorder's receipt within three Business Days after receiving it from the recorder
4. Provide the recorded deed to the Servicer within three Business Days after receiving the deed from the recorder's office. The Servicer must retain the deed in the Mortgage file.

(b) Property located in a State with a redemption or confirmation period

After the redemption period has expired or the foreclosure sale has been confirmed, the Servicer must ensure that clear and marketable title is obtained as stated in this Section 8601.22.

Executing documents

If Freddie Mac **or the Senior Subordinate Trust** needs to execute a document for the Servicer to process the foreclosure, or execute a document related to a foreclosure sale, the Servicer must submit Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 5**) with all supporting documentation, which may include, but is not limited to, the last recorded document in the chain of title, and include the document Freddie Mac **or the Senior Subordinate Trust** needs to execute.

8601.23: Vesting the title and avoiding transfer taxes (09/27/21)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9301.41 to reflect special Servicing requirements for Senior Subordinate Mortgages.

After the foreclosure sale, or when closing a deed-in-lieu of foreclosure transaction, the Servicer must ensure that title to the foreclosed property **purchased by the Senior Subordinate Trust** is vested to the appropriate party. (See Section 9209.8 regarding closing, reporting and remittance requirements for a deed-in-lieu of foreclosure transaction.)

(a) Conventional Mortgages

After the foreclosure sale, or when closing a deed-in-lieu of foreclosure transaction, the Servicer must ensure that title to the foreclosed property is vested in **the legal name of the Senior Subordinate Trust** if the property is not purchased by a third party. **The property may not at any time vest in the Servicer's or Freddie Mac's name, even when doing so would provide additional benefits to the Senior Subordinate Trust.**

Freddie Mac will not reimburse the Servicer for any transfer taxes, unless:

- Local authorities require the Servicer to pay the transfer tax to record a deed and ensure that title vests appropriately
- The transfer tax is paid under protest
- The Servicer submits the request for written pre-approval (RPA) for reimbursement of the transfer tax via **PAID (Payments Automated Intelligent and Dynamic)** (**see Exhibit 88, Servicing Tools**) (see Section 9701.15); and
- Counsel could not process the foreclosure and/or deed-in-lieu of foreclosure transaction in a manner that would successfully avoid the imposition of the transfer tax obligation

Servicers will not be reimbursed for transfer taxes if any of the above conditions and requirements do not exist or are not met.

If the foreclosure involves a Manufactured Home in a certificate of title State, the Servicer must conduct the replevin or other legal action necessary to repossess the home in the Servicer's name and have the new certificate of title issued in **the Senior Subordinate Trust's name**.

(b) Mortgages insured by the FHA or guaranteed by the VA or RHS

The Servicer must follow FHA, VA or RHS guidelines for conveying title to the foreclosed property to the applicable agency.

8601.24: Non-routine default-related legal matters (07/13/16)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9402.2 to reflect special Servicing requirements for Senior Subordinate Mortgages.

Freddie Mac reserves the right to direct and control all litigation involving a Senior Subordinate Mortgage, regardless of whether Freddie Mac or the Senior Subordinate Trust is a named party. The Servicer and any law firm handling the litigation must cooperate fully with Freddie Mac in the prosecution, defense and handling of the matter.

(a) Definition of routine and non-routine litigation

- **Routine litigation** generally is a contested action in which the Borrower alleges case-specific defenses or issues which, if successful, would not create negative legal precedent beyond the immediate case
- **Non-routine litigation** generally is a contested action in which the Borrower alleges case-specific defenses or issues, which, if successful, would create negative legal precedent beyond the immediate case

Examples of non-routine litigation that must be reported to Freddie Mac as non-routine litigation include, but are not limited to, the following:

- Actions that name Freddie Mac and/or the Senior Subordinate Trust as a party
- Action that seeks monetary relief against Freddie Mac and/or the Senior Subordinate Trust, including any claim (including counterclaims, cross-claims, or third-party claims in foreclosure or bankruptcy actions) for damages against Freddie Mac or its officers, directors, or employees and/or the Senior Subordinate Trust
- Actions that challenge the validity, priority, or enforceability of a Senior Subordinate Mortgage or seek to impair Freddie Mac's and/or the Senior Subordinate Trust's interest in an REO including, by way of example:
 1. An action seeking to demolish a structure on the property or the property as a result of a code violation
 2. An action seeking to avoid a lien based on a failure to comply with a law or regulation
 3. An attempt by a junior lienholder to assert priority over a Senior Subordinate Mortgage or extinguish Freddie Mac's or the Senior Subordinate Trust's interests
 4. A quiet title action seeking to declare the Senior Subordinate Trust's lien void, and
 5. An attempt by a Borrower to effect a cramdown of a Senior Subordinate Mortgage in bankruptcy as to which Freddie Mac has not delegated authority to the Servicer or law firm to address

- Actions that present an issue that may pose significant legal or reputational risk to Freddie Mac include, by way of example:
 1. Any issue involving Freddie Mac’s conservatorship, its conservator (FHFA), Freddie Mac’s status as a federal instrumentality, or an interpretation of Freddie Mac’s charter
 2. Any assertion that Freddie Mac is a federal agency or otherwise part of the United States Government
 3. Any “due process” or other constitutional challenge
 4. Any challenge to the methods by which Freddie Mac does business
 5. Any putative class actions involving **a Senior Subordinate Mortgage**
 6. Challenges to the standing of the Servicer or **the Senior Subordinate Trust** to conduct foreclosures or bankruptcies which, if successful, could create negative legal precedent with an impact beyond the immediate case
 7. Challenges to the methods by which MERS® does business or its ability to act as nominee under a Mortgage
 8. Any “show cause orders” or motions for sanctions relating to **a Senior Subordinate Mortgage**, whether against **a Senior Subordinate Trust**, Freddie Mac, the Servicer, a law firm, or a vendor of the Servicer or law firm
 9. Any appellate or other action for post-judgment relief in any foreclosure, bankruptcy or legal action in which Freddie Mac and/or the Senior Subordinate Trust is a named party
 10. Foreclosures on HUD-Guaranteed Section 184 Native American Mortgages
 11. Any environmental litigation relating to **a Senior Subordinate Mortgage**
 12. A need to foreclose judicially in a State where non-judicial foreclosures predominate
 13. Any claim invoking Home Affordable Modification ProgramSM (HAMP®) as a basis to challenge a foreclosure
 14. Any claim brought by a governmental body
 15. Cross-border insolvency proceedings under Chapter 15 of the Bankruptcy Code
 16. Any claim of predatory lending or discrimination in Mortgage origination or Servicing, and

17. Any claim implicating the interpretation of the terms of the Fannie Mae/Freddie Mac Uniform Mortgage Instruments

Given the evolving nature of default-related litigation, it is not possible to provide an exhaustive list of non-routine litigation. Each contested action presents unique circumstances, and the Servicer should evaluate each action on a case-by-case basis to determine whether a contested action is routine or non-routine.

(b) Legal actions and strategies initiated by the Servicer

A Servicer **must** obtain written approval (**see Directory 5**) from the Freddie Mac Legal Division prior to initiating the following legal actions and strategies:

- Filing a new legal action, other than a Freddie Mac Default Legal Matter, on behalf of Freddie Mac and/or the Senior Subordinate Trust
- Filing a motion to intervene in a pending legal action on behalf of Freddie Mac and/or the Senior Subordinate Trust
- Appealing or otherwise challenging a judgment in any foreclosure or bankruptcy proceeding, or any legal action in which Freddie Mac and/or the Senior Subordinate Trust is a named party
- Filing a notice of removal to federal district court for any legal action in which Freddie Mac and/or the Senior Subordinate Trust is a named party
- Asserting any position in a legal action that relates to Freddie Mac's status as a Government Sponsored Enterprise (GSE), its conservatorship, or its conservator, FHFA
- Propounding discovery requests or otherwise serving or providing any discovery responses on behalf of Freddie Mac and/or the Senior Subordinate Trust

(c) Referring to Freddie Mac in litigation

Freddie Mac must be described in legal proceedings as "Federal Home Loan Mortgage Corporation ("Freddie Mac"), a corporation organized and existing under the laws of the United States of America." Freddie Mac may not be referred to as a "government agency."

(d) Referring to the Senior Subordinate Trust in litigation

The Senior Subordinate Trust must be described in legal proceedings as "[insert legal name], an entity organized and existing under the laws of the United States of America." Servicers and counsel must not refer to any Senior Subordinate Trust as a "government agency."

(e) MERS-registered Mortgages

See Section 8101.12 for additional requirements relating to notices from MERS and MERS-registered Mortgages.

8601.25: Counsel retained by Servicers pursuant to Servicer's duty to indemnify Freddie Mac (07/13/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9402.4 to reflect special Servicing requirements for Senior Subordinate Mortgages.

From time to time, the Servicer may retain counsel to represent Freddie Mac, **the Senior Subordinate Trust** and the Servicer, **or any combination thereof**, with respect to litigation involving, related to, or arising out of allegations which, if true, could subject the Servicer to liability to Freddie Mac for a failure to comply with any selling or Servicing representation or warranty or requirement of the Guide or other Purchase Documents. When the Servicer retains counsel for this purpose, the Servicer remains liable for legal fees and costs incurred in the defense of any litigation, as well as any and all losses, judgments, damages and expenses, including fees and costs entered against and incurred on behalf of Freddie Mac. Freddie Mac will reimburse the Servicer for **the Senior Subordinate Trust's** proportionate share of expenses for responding to Borrower defenses.

Counsel retained and paid by Servicers pursuant to Section 8601.24 and this section do not need to be selected and engaged pursuant to Chapter 9501. **In all other Freddie Mac Default Legal Matters**, the Servicer must use counsel selected and engaged pursuant to Chapter 9501.

Servicers must notify Freddie Mac (**see Directory 5**) of its retention of counsel **not selected and engaged pursuant to Chapter 9501** and are required to comply with the reporting requirements in Section 9402.3(b).

The Servicer must ensure that the law firm to which the **Freddie Mac Default Legal Matter** was originally referred **is updated on the current** status of the **litigation** either by the Servicer or its **new** counsel. Once the **litigation** for which **new** counsel is retained **concludes**, unless the entire **legal matter or action** is resolved, the Servicer is responsible for transitioning the **Freddie Mac Default Legal Matter** back to the law firm to which it was originally referred for any required further proceedings **no later than one Business Day after the resolution of the litigation matter**.

In instances in which the Security Instrument provides for the Borrower to reimburse any legal fees and costs incurred by the Servicer, the Servicer should instruct its counsel to notify the Borrower about his or her responsibility for such expenses. The Servicer's counsel should

attempt to handle such matters by stipulation or any other expeditious manner that will reduce the fees and costs that the Borrower has to pay.

8601.26: Servicing Mortgages on distressed properties and properties that pose a Risk of Property Ownership (06/08/22)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 8403.1 to reflect special Servicing requirements for Senior Subordinate Mortgages.

Servicers are responsible for acting without delay, and in an efficient and responsible manner to protect the Servicer, Freddie Mac **and the Senior Subordinate Trust's** interests when the Servicer becomes aware of a Mortgaged Premises that becomes a distressed property. Refer to Section 9401.2 for information regarding Freddie Mac's rights when the Servicer becomes aware of a distressed property and fails to act to protect the Servicer's, Freddie Mac's and the **Senior Subordinate Trust's** interests as required by this section.

A distressed property is real property subject to a Mortgage that may or may not pose a Risk of Property Ownership (see Section 9202.5) to Freddie Mac **or the Senior Subordinate Trust**, and is a property that:

- Requires substantial repairs
- Has sustained significant physical deterioration; or
- Has been condemned by a local authority

Even if the owner has abandoned the Mortgaged Premises, a Servicer must report all **Senior Subordinate Mortgages** on distressed properties that are 30 or more days delinquent via an EDR transmission within the first three Business Days of the month following the month in which the Servicer identified the problem using default reason code 011 (Property problem) and the applicable occupancy code. If the problem identified is contaminated drywall the Servicer should report default reason code 032 (Contaminated Drywall) rather than default reason code 011 (Property problem).

If a property is distressed, the Servicer must conduct a search of the records of the local code authority to determine if there are any outstanding health or safety violations filed against either the Borrower or the property. If a Servicer discovers any code violations on a distressed property, the Servicer must report them to Freddie Mac (**see Directory 5**) within three Business Days of identifying the violation. The Servicer must attach a copy of the code violation and

copies of the most recent six consecutive months (or less, depending on the level of Delinquency) of Form 1013, 1-4 Unit Property Inspection Report.

In addition to any reporting requirement set forth above for distressed properties, the Servicer must:

1. Maintain a record of when the condition was discovered and take all necessary actions to protect the property from waste, damage and vandalism and prevent any loss
2. Inspect the property monthly until the condition is resolved
3. Ensure that property insurance coverage is maintained. This includes taking all actions required in the mortgage clause of all applicable property insurance policies, including, but not limited to, providing all notices to the insurer required under such clause, in order to preserve the coverage and its maximum benefits for the Servicer **and/or the Senior Subordinate Trust**, as mortgagee.
4. File a claim with the applicable property insurer on **the Senior Subordinate Trust's** behalf if the property is damaged and the Borrower has not filed a claim
5. Comply with the requirements of the VA, RHS, FHA or MI, if applicable

Servicers must obtain Freddie Mac's written pre-approval before incurring expenses on distressed properties that exceed the limits contained in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts, by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). If unusual or emergency circumstances do not allow a Servicer to request Freddie Mac's prior written approval, then the Servicer must notify Freddie Mac via PAID by the next Business Day after the Servicer incurred the expense. If the Servicer's determination to incur the expense was reasonable, as determined in Freddie Mac's sole discretion, Freddie Mac will reimburse the expense.

Servicers must obtain Freddie Mac's prior written approval to initiate foreclosure of a **Senior Subordinate Mortgage** on a distressed property as required in Section 9301.13. Approval requests should be sent to foreclosure@freddiemac.com.

If a property securing a Senior Subordinate Mortgage has been identified as posing a Risk of Property Ownership, the Servicer must contact and report the Senior Subordinate Mortgage to Freddie Mac (**see Directory 5**), even if the Senior Subordinate Mortgage is not delinquent, within three Business Days of identifying the risk. In such instances, the Servicer must attach copies of the most recent six consecutive months (or less, depending on the level of Delinquency) of Form 1013 and any other relevant information when reporting the Risk of Property Ownership to Freddie Mac.

8601.27: Servicing Mortgages on abandoned properties (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

The Servicer must comply with the requirements of Section 8403.2, except that, with respect to Senior Subordinate Mortgages, either the Servicer or the Senior Subordinate Trust would be the mortgagee, and not Freddie Mac.

8601.28: Retention of firm (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9501.5 to reflect special Servicing requirements for Senior Subordinate Mortgages.

(a) Servicer contract with firm

Unless the Servicer has entered into a contract with a selected firm and Freddie Mac has provided a “no objection” determination, then the Servicer must enter into a contract with the firm. The Servicer must notify Freddie Mac when the contract has been executed by updating the Servicer Attorney Tracking System (SATS) via <https://www.freddiemacsats.com>, and must provide a copy of the contract to Freddie Mac, upon request.

(b) Freddie Mac limited retention agreement with firm

Freddie Mac, **on its behalf and on behalf of each Senior Subordinate Trust that Freddie Mac creates**, will enter into a limited retention agreement that sets forth certain key retention provisions with each selected firm for each State in which the firm has received a “no objection” determination.

(c) Conflict between Servicer’s contract and limited retention agreements; Servicer’s respective consent

The Servicer acknowledges that the limited retention agreement recognizes and reflects a joint attorney-client relationship between the law firm, Freddie Mac, **each Senior Subordinate Trust**, and the Servicer, and the Servicer consents to such joint representation. The Servicer consents, in advance, to the selected firm’s representation of Freddie Mac, **the Senior Subordinate Trust, or both**, in any Freddie Mac Default Legal Matter that is or might be adverse to the Servicer, and further agrees that the firm can use in such representation any

information the firm gained in the course of jointly representing the Servicer, Freddie Mac and the Senior Subordinate Trust. In the event of any inconsistency or conflict between the terms and conditions of the Servicer's contract with the selected firm and the terms and conditions of Freddie Mac's limited retention agreement with the firm, Freddie Mac's limited retention agreement shall control.

8601.29: Referral of Freddie Mac Default Legal Matters to firm (03/02/16)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9501.7 to reflect special Servicing requirements for Senior Subordinate Mortgages.

(a) Requirements prior to referral

Prior to referring a Freddie Mac Default Legal Matter to a firm, the Servicer must confirm that the firm is eligible to receive a referral by ensuring that:

- The firm meets the Firm Minimum Requirements, as specified in Section 9501.3
- Freddie Mac has provided a “no objection” determination, as specified in Section 9501.4
- The firm has executed a contract with the Servicer requiring the firm to comply with all applicable Freddie Mac requirements, as specified in Section 8601.28
- The firm has executed a limited retention agreement with Freddie Mac, as specified in Section 8601.28(b)
- The firm has completed Freddie Mac training and any additional Servicer training, as specified in Section 9501.6
- There are no conflicts of interest with respect to the retention of the firm and referral of Freddie Mac Default Legal Matters to the firm

(b) Diversification of referrals

The Servicer must diversify its referrals of Freddie Mac Default Legal Matters to an appropriate number of firms in each State to protect the interests of Freddie Mac and to mitigate the risks related to a high concentration of Freddie Mac files. In selecting firms for referrals, the Servicer must consider firm capacity and management of staff to file ratios.

(c) Bankruptcy and foreclosure matters

The Servicer must not refer foreclosure matters directly to trustees listed on deeds of trust.

Refer to Section 9401.10(b) for additional referral requirements.

(d) Providing documentation to firm

The Servicer must identify a file as a Freddie Mac Default Legal Matter when sending the file to a firm. In this file, the Servicer must also include the name of the Senior Subordinate Trust that owns the delinquent Senior Subordinate Mortgage that prompted the referral and identify the Senior Subordinate Trust as owner of the Senior Subordinate Mortgage and Freddie Mac as both master servicer and trustee to the Senior Subordinate Trust.

When referring a file to a firm, the Servicer must provide all documentation required to initiate a foreclosure. If the firm requests any additional information and/or documentation at any time, the Servicer must provide such requested information and/or documents within three Business Days after receipt of the request, or within such earlier time frame if necessary to comply with timing requirements under applicable law or court orders and procedures.

For any Mortgage that the Servicer refers for foreclosure that is subsequently repurchased by Freddie Mac from the Senior Subordinate Trust and/or subsequently repurchased by the Servicer from Freddie Mac, whether voluntarily or involuntarily, the Servicer must notify foreclosure and/or bankruptcy counsel within two Business Days of the completed repurchase. (See Chapter 3602 for additional information about repurchases.)

(e) Contingency plan

All Servicers must have a contingency plan in place, either in the form of a stand-alone document or incorporated into policies and procedures, to redirect new foreclosure and bankruptcy referrals.

8601.30: REO – General requirements (05/04/20)

The brown font text used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9603.1 to reflect special Servicing requirements for Senior Subordinate Mortgages.

Once the Senior Subordinate Trust has acquired a property as an REO, and after the Servicer has successfully reported the foreclosure sale or deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) pursuant to Section 9603.9, the

Servicer will no longer be responsible for the following REO activities, including for properties located in States that have a redemption, confirmation process or ratification of sale:

1. Securing, maintaining, **protecting**, inspecting and **preserving** the property
2. Making advances to superior lienholders including condominium/homeowners association (HOA) or Cooperative Corporation assessments (**see Chapter 8801 for special Servicing requirements for Cooperative Share Loans**), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents
3. Evicting the occupants in the property
4. Marketing and rehabilitating the REO

Servicers are responsible for the following activities pending the sale of the REO by Freddie Mac, the MI, FHA, RHS or VA:

1. Filing and concluding FHA, RHS and VA claims, if applicable. (Freddie Mac will file MI claims.)
2. Filing and concluding property insurance claims, if applicable, and applying for premium refunds in accordance with Section 9603.11. The Servicer is required to cancel any existing property insurance policies no later than 14 days after the foreclosure sale or deed-in-lieu of foreclosure has been successfully reported to Freddie Mac. Freddie Mac may instruct the Servicer to maintain property insurance (even if the property is vacant and has no claimable damage). If Freddie Mac makes this request, the Servicer must continue the insurance coverage until Freddie Mac notifies the Servicer that Freddie Mac has sold the REO.
3. Referring all inquiries and offers regarding purchase of the REO to Freddie Mac (**see Directory 6**) within one Business Day of the inquiry or offer
4. Fulfilling all requests made by Freddie Mac, including attorney selection. If the Servicer requires the assistance of an attorney in fulfilling any of the obligations set forth in this chapter, the Servicer must use an attorney who meets the criteria in Section 9501.3.
5. Taking such action that Freddie Mac may request regarding a property

Servicers may review the REO Overview report, assessible via the “REO” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88), for the property status. The Servicer may also call the Customer Support Contact Center at 800-FREDDIE to obtain this information. Freddie Mac will not send the Servicer a written notice of the sale of the REO.

8601.31: REO – Documentation and reporting requirements (07/15/19)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9603.8 to reflect special Servicing requirements for Senior Subordinate Mortgages.

This section details Freddie Mac's requirements for submitting documentation and reporting information during the REO holding period.

The Servicer **may review the REO Overview report**, accessible via the “REO” tile of the Servicer's Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools) **for the property status, including the Property Condition Certificate (PCC) completion date**. The Servicer **may** also call the Customer Support Contact Center at 800-FREDDIE to obtain **this** information. Freddie Mac will not send the Servicer a written notice of the sale of the REO.

8601.32: REO – Notifying the taxing authority/HOA (07/15/20)

The **brown font text** used throughout this chapter denotes the special requirements for Servicing Senior Subordinate Mortgages. Text in black or green font denotes general Servicing requirements that also apply elsewhere in the Guide.

This section has been adapted from Section 9603.10, to reflect special Servicing requirements for Senior Subordinate Mortgages.

Within five days of successfully reporting the foreclosure sale or deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools), the Servicer must notify the taxing authority and condominium association, homeowners association (HOA) or Cooperative Corporation (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), as applicable, of **the Senior Subordinate Trust's ownership of the property and Freddie Mac's management of the property on behalf of the Senior Subordinate Trust to ensure that statements are sent to the appropriate location**.

When the Servicer contacts these organizations, the Servicer must **update the remitter's name** as follows:

[Legal Name of Senior Subordinate Trust]
c/o Radian Real Estate Management
7730 South Union Park Avenue, Suite 400

Midvale, UT 84047

Important: Freddie Mac will pay the property taxes, condominium/HOA or Cooperative Corporation assessments, Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents, as applicable, as they become due after the Servicer successfully reports the foreclosure sale or the deed-in-lieu of foreclosure. Freddie Mac may retain a vendor to conduct such activities.

There are special requirements for REO located in California. California taxing authorities reassess properties for supplemental taxes from the foreclosure sale date to the sale date of the REO. Also, taxing authorities often generate a supplemental tax statement long after the REO sale date. Therefore, the Servicer must notify the taxing authority in writing to send any supplemental tax bills to **the Senior Subordinate Trust** in care of the address above within five days following the foreclosure sale or the deed-in-lieu of foreclosure date.

Chapter 8701: Servicing Requirements for Community Land Trust Mortgages

8701.1: Servicing Community Land Trust Mortgages (04/14/21)

(a) Key terms used in this chapter

Key terms and definitions used in this Chapter 8701 (e.g., Community Land Trust and Community Land Trust Mortgage) can be found in the Glossary. Servicers of Community Land Trust Mortgages should be familiar with such key terms and definitions found therein.

Refer to Chapter 4502 for specific requirements for selling Community Land Trust Mortgages to Freddie Mac including, but not limited to, requirements for the specified form of ground lease (the “Community Land Trust Ground Lease”) and Form 490, Community Land Trust Ground Lease Rider. References to “ground lease, as amended” in this chapter refer to the executed and recorded Community Land Trust Ground Lease, as amended by Form 490.

(b) Tracking Community Land Trust Mortgages

Servicers of Community Land Trust Mortgages must implement policies, procedures and systems to identify and track Community Land Trust Mortgages to ensure that such Community Land Trust Mortgages are serviced in accordance with the Servicing requirements of the Guide and this chapter.

(c) Servicing requirements applicable to Community Land Trust Mortgages

Servicers of Community Land Trust Mortgages must service Community Land Trust Mortgages in accordance with the Servicing requirements of the Guide and this chapter. The Servicing requirements of this chapter are applicable only to the Servicing of Community Land Trust Mortgages. If any Servicing requirement in this chapter is inconsistent with a Servicing requirement set forth elsewhere in the Guide (except for requirements to comply with applicable law, which supersede any other Servicing requirement in the Guide), the Servicer must comply with the Servicing requirement set forth in this chapter with respect to any Community Land Trust Mortgage.

Servicers must not apply any of the requirements set forth in this chapter to a non-Community Land Trust Mortgage, but rather, should continue Servicing such Mortgages in accordance with all other Servicing requirements of the Guide and other applicable Purchase Documents.

(d) Community Land Trust Ground Lease Rider

In accordance with Section 4502.10, a Community Land Trust Mortgage must be originated using Form 490, completed and executed by both the lessor (Community Land Trust or its duly authorized representative) and each lessee (Borrower), and recorded in the land records along with the Community Land Trust Ground Lease and applicable Security Instrument.

A Servicer must comply with the provisions of Form 490 when Servicing the Community Land Trust Mortgage including, but not limited to, provisions related to the following:

- The Servicer must honor the lessor's timely exercise of certain rights that may be available to it under the ground lease, as amended
- The termination of any resale restrictions contained in the ground lease, as amended upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure
- For a Borrower being considered for an alternative to foreclosure, the Servicer is not required to obtain the lessor's approval of any proposed workout or relief options

(e) Leasehold Mortgages

Unless inconsistent with a Servicing requirement set forth in this Chapter 8701, all Servicing requirements of the Guide governing Mortgages secured by leasehold estates (leasehold Mortgages) apply to Community Land Trust Mortgages.

Refer to Sections 9301.26, 9401.3 and 9701.10(c) for requirements for Servicing leasehold Mortgages, if termination of the lease will jeopardize Freddie Mac's lien position or interest in the property. Refer to Sections 9206.4(a) and 9206.5(b) for requirements to negotiate the extension of the current term of a lease (or applicable renewal options) in the event the current term of a lease (or applicable renewal options) terminate earlier than five years after the maturity date of the proposed modification of a leasehold Mortgage.

(f) Resale restrictions

As described in Chapter 4502, the Community Land Trust Ground Lease includes resale restrictions. Unless inconsistent with a Servicing requirement set forth in this Chapter 8701, all Servicing requirements of the Guide governing Mortgages secured by properties subject to resale restrictions that terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure apply to Community Land Trust Mortgages.

Refer to Sections 9208.2(c) and 9208.5 for the Freddie Mac Standard Short Sale ("short sale") evaluation requirements for Mortgages secured by properties subject to resale restrictions, unless inconsistent with a Servicing requirement set forth in this Chapter 8701.

Refer to Section 9301.31 for foreclosure sale bidding requirements on properties subject to resale restrictions.

(g) General notice, disclosure and foreclosure requirements

In addition to any disclosures and notices required by applicable law, the Servicer must provide to the Borrower all disclosures and notices required under the ground lease, as amended, on a timely basis. The Servicer must retain copies of all such disclosures and notices in the Mortgage file.

Regardless of the additional Servicing requirements specified in this chapter that are applicable only to Community Land Trust Mortgages, in the event a foreclosure sale occurs, the Servicer's performance will be measured against Freddie Mac's State foreclosure timelines (refer to Exhibit 83, Freddie Mac State Foreclosure Timelines).

8701.2: Cancellation of Borrower-paid mortgage insurance (11/05/18)

For the purpose of canceling Borrower-paid mortgage insurance based on the original value, for a Community Land Trust Mortgage, "value" is determined in accordance with the requirements of Section 4502.7 (see also Section 4203.1).

8701.3: Concurrent and Subsequent Transfers of Servicing with respect to Community Land Trust Mortgages (04/14/21)

In addition to the requirements governing Concurrent Transfers of Servicing and Subsequent Transfers of Servicing set forth elsewhere in the Guide, the Transferor Servicer must inform the Transferee Servicer whether the Transfer of Servicing involves Community Land Trust Mortgages, and, upon request, must provide a list of such Community Land Trust Mortgages (identified, at a minimum, by Transferor Servicer loan number and Freddie Mac loan number) to the Transferee Servicer.

8701.4: Delinquency management for Community Land Trust Mortgages (02/10/21)

(a) Special Servicing and Early Delinquency Counseling

Unless otherwise noted below, the requirements for special Servicing and Early Delinquency Counseling as described in Sections 9101.2 and 9102.4, as applicable, apply to Community Land Trust Mortgages, regardless of the Mortgage product type.

If the Servicer has knowledge or reason to believe that a lessor (Community Land Trust or its duly authorized representative) has established program requirements to offer early delinquency counseling (e.g., analyzing the Borrower's financial situation during a counseling session and developing a plan of action for solving the Delinquency) and/or has offered early delinquency counseling to a delinquent Borrower on a Community Land Trust Mortgage, then the Servicer is not required to offer Early Delinquency Counseling.

If the Servicer is not required to offer Early Delinquency Counseling, as noted above, the Servicer must document the basis for not offering such counseling in the Mortgage file.

(b) Delinquency management process for Community Land Trust Mortgages

The steps below describe the process that Servicers must follow, in addition to other Servicing requirements of the Guide, when a Borrower obligated under a Community Land Trust Mortgage is delinquent in his or her Mortgage payments:

(i) Step 1 – Servicing requirements for Community Land Trust Mortgages during Delinquency

(A) Early Delinquency Counseling

Pursuant to Section 8701.4(a), if applicable, Servicers of Community Land Trust Mortgages must offer Early Delinquency Counseling as described in Sections 9101.2 and 9102.4, as applicable.

(B) Lessors rights during Delinquency

Certain rights available to the lessor under the ground lease, as amended, include, but are not limited to, curing the Delinquency on behalf of the Borrower, or, if curing the Delinquency on behalf of the Borrower is determined by the lessor not to be a viable solution to the Delinquency, paying off the Community Land Trust Mortgage (e.g., by finding a new potential lessee to purchase the property from the Borrower for an amount that pays off the total debt).

(ii) Step 2 – Servicing requirements for Community Land Trust Mortgages prior to referral to foreclosure

Servicers of Community Land Trust Mortgages must complete a pre-foreclosure referral account review in accordance with the requirements in Section 9301.4.

The Servicer must refer a Community Land Trust Mortgage to foreclosure if nothing in the Servicer's pre-foreclosure referral account review prevents the Servicer from referring the Community Land Trust Mortgage to foreclosure.

(iii) Step 3 – Servicing requirements for Community Land Trust Mortgages post-referral to foreclosure

During the foreclosure process, the Servicer may, but is not obligated to, provide notice to the lessor that describes how it may, via written notice to the Servicer, express its intention to exercise certain rights available to it under the ground lease, as amended.

Upon delivery of such notice to the lessor, if applicable, the lessor must give written notice to the Servicer of its intention to exercise certain rights available to it under the ground lease, as amended, within the time frame specified by the Servicer. If such written notice is given to the Servicer timely, upon receipt, the Servicer may suspend foreclosure proceedings to allow the lessor to exercise such rights. If a foreclosure sale date is scheduled, the Servicer may, to the extent possible and in accordance with applicable law, extend the foreclosure sale date.

Chapter 8801: Servicing Requirements for Cooperative Share Loans

8801.1: Servicing Cooperative Share Loans (09/27/21)

(a) Key terms

Key terms and definitions used in this Chapter 8801 (e.g., Cooperative Share Loan) can be found in the Glossary. Servicers of Cooperative Share Loans should be familiar with such key terms and definitions found therein.

Note: The terms “Mortgage” and “Mortgaged Premises” as used in the Servicing requirements of the Guide include (as the context requires) the terms “Cooperative Share Loan” and “Cooperative Unit”, respectively. As such, Servicing requirements pertaining to Mortgages or Mortgaged Premises apply respectively to Cooperative Share Loans or Cooperative Units.

(b) Servicers of Cooperative Share Loans

A Servicer does not need to obtain Freddie Mac's prior written approval to service Cooperative Share Loans nor must the Servicer be a Seller/Servicer approved to sell Cooperative Share Loans to Freddie Mac in accordance with Chapter 5705. (Refer to Chapter 5705 for specific requirements for selling Cooperative Share Loans to Freddie Mac including, but not limited to, the approval process to sell Cooperative Share Loans to Freddie Mac.)

For each Cooperative Share Loan being serviced for Freddie Mac, the Servicer must:

- Service the Cooperative Share Loan in accordance with the Servicing requirements of the Guide and this chapter
- Verify that the UCC-1 financing statements are current and valid to perfect Freddie Mac's security interest; and
- Recognize that it is responsible for understanding the responsibilities, rights and available remedies under the Cooperative Project Documents and the Recognition Agreement between the Cooperative Corporation and the lender, its successors or assigns, and will protect Freddie Mac's interest under the terms of such documents

(c) Servicing requirements applicable to Cooperative Share Loans

The Servicing requirements of this chapter are applicable only to the Servicing of Cooperative Share Loans.

If any Servicing requirement in this chapter is inconsistent with a Servicing requirement set forth elsewhere in the Guide (except for requirements to comply with applicable law, which supersede any other Servicing requirement in the Guide), then the Servicer must comply with the Servicing requirement set forth in this chapter with respect to any Cooperative Share Loan.

Servicers must not apply any of the requirements set forth in this chapter to a non-Cooperative Share Loan, but rather, should continue Servicing such Mortgages in accordance with all other Servicing requirements of the Guide and other applicable Purchase Documents.

(d) Combined Cooperative Units

A Cooperative Share Loan secured by a First Lien on the Cooperative Interest to Cooperative Units that were combined into a single unit must be serviced as a 1-unit dwelling, and, in the event of a foreclosure, the Cooperative Share Loan must be foreclosed as a 1-unit dwelling. (Refer to Section 5705.9 for selling requirements for combined Cooperative Units.)

(e) Proprietary Lease

Without the prior written consent of Freddie Mac, a Servicer must not approve or consent to any amendments to the Proprietary Lease if such amendment affects the rights of the Cooperative Share Loan Borrower.

See also Section 8801.5(b) for loan modification requirements for a Cooperative Share Loan and the Proprietary Lease.

(f) Cooperative Share Loans recognized as personal property

If a Cooperative Share Loan is recognized as personal property and a title insurance policy cannot be issued (refer to Section 4702.6 for title insurance requirements for cooperatives):

- (i) In the event of a loan modification, when it is necessary to record the modification agreement to retain the modified Cooperative Share Loan's First Lien position, where a title endorsement or similar title insurance product would otherwise need to be obtained pursuant to Section 9206.12 if a title insurance policy was issued, then the Servicer must warrant that:
 - The Cooperative Share Loan Borrower continues to have good and marketable title to the Cooperative Shares; and
 - The Cooperative Corporation continues to have good and marketable title to the Cooperative Project
- (ii) When foreclosing on a Cooperative Share Loan, in lieu of supplying foreclosure counsel with a copy of the title insurance policy pursuant to Section 9301.9 (or, for Senior

Subordinate Mortgages, pursuant to Section 8601.16), then the Servicer must provide evidence of title supporting the warranty that:

- The Cooperative Share Loan Borrower has good and marketable title to the Cooperative Shares; and
- The Cooperative Corporation has good and marketable title to the Cooperative Project

(g) Notifications to/from the Cooperative Corporation and insurers

- (i) The Servicer must have processes in place and must have given notice to all appropriate parties (including, but not limited to, the Cooperative Corporation and insurers, as applicable), as necessary, so that the Servicer is in receipt of the following notifications in a timely manner:
 - Notifications the Cooperative Corporation is legally bound to provide that are of a material and adverse nature to Sellers (refer to Section 5705.6(d) regarding the rights of cooperative Shareholders and Sellers)
 - Any notifications from the Cooperative Corporation relating to the rights granted to a lender, its successors or assigns, in the Cooperative Project Documents or Recognition Agreement (refer to Section 5705.6(h) regarding the Cooperative Corporation responsibilities and Seller/Servicer rights); and
 - Notifications regarding any substantive lapse in compliance with any of the insurance requirements. (Refer to Section 5705.6(d) regarding the rights of cooperative Shareholders and Sellers and Section 8801.3 for Servicing requirements in the event of a reduction or cancellation in insurance coverage.)
- (ii) Upon receipt of a notification regarding the following, the Servicer must notify Freddie Mac (distressed_property@freddiemac.com) and include the Servicer's recommendation on how to proceed:
 - A proposed action that requires the consent of a specified percentage of eligible lenders of Cooperative Share Loans
 - A lender's right to review and approve:
 - Any surrender, cancellation, modification, assignment or pledge of any documents evidencing ownership, possession, and use of the Shareholder's Cooperative Unit
 - Any further or additional pledge or mortgage of any documents evidencing ownership, possession, and use of the Shareholder's Cooperative Unit

- Any action to change the size, existence or form of ownership of the Cooperative Project

Freddie Mac must be provided sufficient opportunity, but no less than five Business Days before any deadline given, to review and provide comments.

(h) Stock transfer fee (“flip tax”)

For Cooperative Share Loans where the imposition of a flip tax is permitted (refer to Section 5705.5(f) regarding Cooperative Share Loans subject to a stock transfer fee), Freddie Mac will reimburse the Servicer the paid flip tax in the event it is imposed as a result of a foreclosure, in a transfer by the Cooperative Share Loan Borrower in lieu of foreclosure (“deed-in-lieu of foreclosure”), or a transfer of the Cooperative Share Loan Borrower’s interest in the Cooperative Unit as a result of a completed short sale.

To be reimbursed, the Servicer must obtain written pre-approval from Freddie Mac (by submitting a request for pre-approval (RPA) via the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).)

See also Section 8801.7 regarding reimbursement of expenses incurred on a Cooperative Share Loan.

8801.2: Transfers of Servicing with respect to Cooperative Share Loans (05/04/20)

A Transferee Servicer, whether in a Concurrent or Subsequent Transfer of Servicing involving Cooperative Share Loans, does not need to be a Seller/Servicer approved to sell Cooperative Share Loans to Freddie Mac in accordance with Chapter 5705 in order to service Cooperative Share Loans for Freddie Mac when engaging in the Transfer of Servicing with a Transferor Servicer.

In addition to the requirements governing Concurrent Transfers of Servicing and Subsequent Transfers of Servicing set forth elsewhere in the Guide, for each Cooperative Share Loan being serviced for Freddie Mac:

- The Transferor Servicer must verify that the UCC-1 financing statements are current and valid to perfect Freddie Mac’s security interest on the Effective Date of Transfer; and
- Consistent with the requirements in Section 7101.14, the Transferee Servicer must provide notice to all appropriate parties (including, but not limited to, the Cooperative Corporation and insurers, as applicable), as necessary, to avoid disruption in the Transferee Servicer’s timely receipt of any notifications from the Cooperative Corporation and insurers. (Refer to Section 8801.1(g) regarding notifications from the Cooperative Corporation and insurers.)

8801.3: Reduction or cancellation in insurance coverage maintained by the Cooperative Corporation (05/04/20)

For insurance being maintained by the Cooperative Corporation under Chapter 8202, when the Servicer learns that any of the required insurance coverage(s) will be reduced or no longer in force, the Servicer must contact the Cooperative Corporation to:

- Determine the reasons for the reduction or cancellation in insurance coverage and whether and when such insurance coverage will be reinstated; and
- Advise the Cooperative Corporation that the lack of adequate insurance coverage will make future Cooperative Share Loans in the Cooperative Project ineligible for sale to Freddie Mac

If the insurance coverage is not reinstated within 60 days after the reduction or cancellation, then the Servicer must:

- Advise its loan origination staff, if any, that future Cooperative Share Loans in the Cooperative Project are not eligible for sale to Freddie Mac; and
- Immediately notify Freddie Mac (distressed_property@freddiemac.com) of the reduction or cancellation in insurance coverage and include the Servicer's recommendation on how to proceed

8801.4: Cooperative Share Loan expenses that may become First Liens on the property (09/27/21)

In consideration of the requirements in Section 9301.27, if a delinquent expense (as listed below) is or may become a First Lien on the property or that if not paid would result in the subordination of Freddie Mac's interests, then the Servicer must obtain written pre-approval from Freddie Mac (by submitting a request for pre-approval (RPA) via the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools)) before advancing and paying any such expense, when and to the extent necessary, to protect Freddie Mac's interests. These expenses include:

- Cooperative Corporation assessments that represent the Pro Rata Share; and
- For a Cooperative Unit located in the State of New York, Cooperative Unit Maintenance Fees (and any associated collection expenses)

See also Section 8801.7 regarding reimbursement of expenses incurred on a Cooperative Share Loan.

8801.5: Loss mitigation for Cooperative Share Loans (05/04/20)

(a) Assumptions and workout loan assumptions

In the event an assumption or workout loan assumption (with or without a release of liability) of a Cooperative Share Loan is approved, then, in addition to the requirements listed in Sections 8406.7 and 9207.6, as applicable, the Servicer must:

- Obtain the consent of the Cooperative Corporation, if such consent is required by the Proprietary Lease, and obtain a new stock certificate, if applicable
- Ensure the transferee acquires the transferor's ownership interest in the Cooperative Corporation (e.g., evidenced in a stock certificate) and either obtains a new Proprietary Lease or assumes the existing Proprietary Lease; and
- If applicable, timely file a UCC-1 financing statement naming the transferee that became the debtor

(b) Loan modifications

When evaluating a Cooperative Share Loan Borrower for a loan modification under a Freddie Mac loan modification program, in addition to the modification requirements in Chapter 9206 and other loan modification requirements under the Purchase Documents, as applicable, the following requirements must be met:

- The Servicer must ensure that the term of the Proprietary Lease must not terminate earlier than the maturity date of the proposed modified Cooperative Share Loan. If the current term of the Proprietary Lease terminates earlier than the maturity date of the proposed Cooperative Share Loan, then the term of the Proprietary Lease must be renegotiated to satisfy this requirement.
- For purposes of calculating the housing expense-to-income ratio(s), as applicable, the Servicer must make reasonable efforts to obtain written documentation verifying the monthly amounts of Cooperative Corporation assessments and Cooperative Unit Maintenance Fees
- Consistent with the requirements in Section 9206.15, any delinquent Cooperative Share Loan expenses that may become First Liens on the property pursuant to Section 8801.4 may be capitalized, provided that such capitalization is not prohibited by applicable law

See also Section 8801.1(f)(i) regarding certain Servicer warranties required in the event of a loan modification.

(c) Short sales

- (i) When evaluating a Cooperative Share Loan Borrower for a Freddie Mac Standard Short Sale (“short sale”), in addition to the short sale requirements in Chapter 9208, the following requirements must be met:
 - For purposes of calculating the housing expense-to-income ratio, if applicable, the Servicer must make reasonable efforts to obtain written documentation verifying the monthly amounts of Cooperative Corporation assessments and Cooperative Unit Maintenance Fees
 - If the Servicer is considering a Cooperative Share Loan Borrower for a short sale, then the Servicer is not delegated to approve the short sale and the file must be sent to Freddie Mac. Pursuant to Section 9208.2, the Servicer must submit a recommendation to Freddie Mac for review with the following additional documentation:
 - A detailed explanation of the Servicer's recommendation and rationale for its recommendation documented in the comments section of Workout Prospector®. (Note: The Servicer must also identify that the recommendation pertains to a Cooperative Share Loan in the comments section.)
 - The monthly amounts of Cooperative Corporation assessments and Cooperative Unit Maintenance Fees, as well as the total amounts of any delinquent Cooperative Share Loan expenses that may become First Liens on the property pursuant to Section 8801.4
- (ii) In the event a short sale is approved, then, in addition to the requirements listed in Section 9208.8, the Servicer must:
 - Obtain the consent of the Cooperative Corporation, if such consent is required by the Proprietary Lease
 - Ensure the buyer acquires an ownership interest in the Cooperative Corporation (e.g., evidenced in a new stock certificate) and either obtain the assignment of the Proprietary Lease or a new Proprietary Lease
 - If applicable, timely file a termination statement for the UCC-1 financing statements; and
 - Unless otherwise instructed by Freddie Mac, pay, prior to and outside of the transaction, any delinquent Cooperative Share Loan expenses that may become First Liens on the property pursuant to Section 8801.4

(d) Deeds-in-lieu of foreclosure

- (i) When evaluating a Cooperative Share Loan Borrower for a Freddie Mac Standard Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”), in addition to the deed-in-lieu of foreclosure requirements in Chapter 9209, the following requirements must be met:
- For purposes of calculating the housing expense-to-income ratio, if applicable, the Servicer must make reasonable efforts to obtain written documentation verifying the monthly amounts of Cooperative Corporation assessments and Cooperative Unit Maintenance Fees
 - If the Servicer is considering a Cooperative Share Loan Borrower for a deed-in-lieu of foreclosure, then the Servicer is not delegated to approve the deed-in-lieu of foreclosure and the file must be sent to Freddie Mac. Pursuant to Section 9209.2, the Servicer must submit a recommendation to Freddie Mac for review with the following additional documentation:
 - A detailed explanation of the Servicer's recommendation and rationale for its recommendation documented in the comments section of Workout Prospector. (Note: The Servicer must also identify that the recommendation pertains to a Cooperative Share Loan in the comments section.)
 - The monthly amounts of Cooperative Corporation assessments and Cooperative Unit Maintenance Fees, as well as the total amounts of any delinquent Cooperative Share Loan expenses that may become First Liens on the property pursuant to Section 8801.4
- (ii) In the event a deed-in-lieu of foreclosure is approved, then, in addition to the requirements listed in Section 9209.8, the Servicer must:
- Obtain the consent of the Cooperative Corporation, if such consent is required by the Proprietary Lease, and obtain a new stock certificate
 - Ensure an ownership interest in the Cooperative Corporation is acquired (e.g., evidenced in a new stock certificate) and either obtain the assignment of the Proprietary Lease or a new Proprietary Lease
 - If applicable, timely file a termination statement for the UCC-1 financing statements; and
 - Unless otherwise instructed by Freddie Mac, pay any delinquent Cooperative Share Loan expenses that may become First Liens on the property pursuant to Section 8801.4

(e) Charge-offs

In the event a charge-off of a Cooperative Share Loan is approved, then, in addition to the requirements listed in Section 9210.5, the Servicer must, if applicable, timely file a termination statement for the UCC-1 financing statements.

See also Section 9210.2 regarding when a Servicer must recommend a charge-off of a Cooperative Share Loan to Freddie Mac.

8801.6: Delinquency management for Cooperative Share Loans (09/27/21)

(a) Pre-foreclosure referral account review

In addition to the requirements in Section 9301.4 regarding the pre-foreclosure referral account review, the Servicer must seek Freddie Mac's approval (foreclosures@freddiemac.com) to refer a Cooperative Share Loan to foreclosure if:

- The Servicer becomes aware of or has reason to believe that proceeding with foreclosure on the Cooperative Share Loan is not in Freddie Mac's best interest; and/or
- A charge off would produce a lesser estimated loss severity, as opposed to proceeding with foreclosure on the Cooperative Share Loan

If directed by Freddie Mac, the Servicer must submit a recommendation for a charge-off to Freddie Mac in accordance with the requirements in Section 9210.3.

(b) Foreclosure of a Cooperative Share Loan

When referring a Cooperative Share Loan to foreclosure, the Servicer must follow the requirements in Chapter 9301, as such requirements may be applicable to Cooperative Units. Additionally, consistent with the requirements in Section 9501.3, the Servicer must ensure that the firm accepting the foreclosure referral meets the Firm Minimum Requirements (as that term is described in Section 9501.3), including, but not limited to:

- Having experience in general housing-related issues such as Cooperative Share Loans; and
- No substantial part of the firm's practice includes matters that are adverse to financial institutions, such as Cooperative Corporation foreclosures

Servicers may submit any foreclosure-related questions or concerns when foreclosing on a Cooperative Share Loan to Freddie Mac (foreclosures@freddiemac.com).

See also Section 8801.1(f)(ii) regarding certain Servicer warranties required when foreclosing on a Cooperative Share Loan.

(c) Foreclosure attorney fees

Freddie Mac will reimburse the Servicer for attorney fees to foreclose on a Cooperative Share Loan if the Servicer has obtained Freddie Mac's written pre-approval (by submitting a request for pre-approval (RPA) via the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools)). (Refer to Exhibit 57A, Approved Attorney Fees and Title Expenses.)

See also Section 8801.7 regarding reimbursement of expenses incurred on a Cooperative Share Loan.

Note: In addition to the legal services included in the attorney fees for an uncontested foreclosure outlined in Section 9701.11, any transfer of the Cooperative Shares and Proprietary Lease is also considered included.

(d) Post-foreclosure/Real Estate Owned

Consistent with the requirements in Sections 8601.30 and 9601.3, as applicable, once Freddie Mac has acquired a Cooperative Unit in REO, Freddie Mac will pay the Cooperative Corporation assessments and Cooperative Unit Maintenance Fees.

Additionally, pursuant to Section 9603.9, for a Cooperative Unit in REO, the Servicer must submit to Freddie Mac any information Freddie Mac requests from the Servicer, whether from the Mortgage file or, for documents a Document Custodian maintains physical custody, from the Document Custodian. This includes, but is not limited to:

- The stock certificate, which evidenced the Cooperative Share Loan Borrower's ownership interest in the Cooperative Corporation
- The Cooperative Share Loan Borrower's Proprietary Lease; and
- The Recognition Agreement

8801.7: Reimbursement of Cooperative Share Loan expenses (09/27/21)

The Servicer must obtain written pre-approval from Freddie Mac (by submitting a request for pre-approval (RPA) via the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools)) to be reimbursed for the following expenses incurred on a Cooperative Share Loan:

- Flip tax pursuant to Section 8801.1(h)
- Attorney fees to foreclose on a Cooperative Share Loan pursuant to Section 8801.6(c); and
- Cooperative Share Loan expenses that may become First Liens on the property pursuant to Section 8801.4

See also Exhibit 74, Expense and Income Codes for Expense Reimbursement Claims, regarding expense codes 014005 (Foreclosure on a Cooperative Share), 080008 (Cooperative Share Loan – Flip Tax), 080009 (Cooperative Share Loan – Pro Rata Share Assessments) and 080010 (Cooperative Share Loan – Maintenance Fees).

Additionally, consistent with the requirements in Section 9701.21, standard supporting documentation (e.g., proof of disbursements) for reimbursement of expenses incurred on a Cooperative Share Loan include, but is not limited to, a copy of the Cooperative Project Documents, Recognition Agreement or other legal documents highlighting, if applicable, that:

- The Cooperative Corporation assessments that represent the Pro Rata Share and/or Cooperative Unit Maintenance Fees (and any associated collection expenses) may become First Liens on the property
- The Cooperative Share Loan is subject to the payment of a flip tax and the imposition of the flip tax is permitted

Chapter 8901: Servicing Requirements for HeritageOneSM Mortgages (Future effective date 10/02/23)

8901.1: Servicing HeritageOneSM Mortgages (Future effective date 10/02/23)

(a) Key terms used in this chapter

Key terms and definitions used in this Chapter 8901 can be found below and in Section 4504.2(c). Servicers of a HeritageOneSM Mortgage should be familiar with these key terms and definitions:

- **BIA:** U.S. Department of the Interior Bureau of Indian Affairs
- **Native American:** Any person recognized as being Native American, American Indian or Alaska Native by a Native American Tribe, the federal government or any State
- **Native American Tribe:** A federally recognized Indian tribe of the United States that is included in the BIA's most recent publication of the notice titled "Indian Entities Recognized by and Eligible To Receive Services From the United States Bureau of Indian Affairs". As used in this chapter, "Native American Tribe" includes any housing authority, utility, corporation, partnership or other entity that is partially or wholly owned by the Native American Tribe
- **Tribal Area:** A census tract, or any portion thereof, that is designated as both a HUD Indian Housing Block Grant (IHBG) Area and a rural area under FHFA's Duty to Serve Regulation and is identified as an "Indian area" in the current version of FHFA's Indian Areas File

Refer to Chapter 4504 for specific requirements for selling a HeritageOne Mortgage to Freddie Mac.

(b) Servicer approval/eligibility

This Chapter 8901 is not a general offering and is only available to specific Servicers approved by Freddie Mac due to the necessary expertise and additional requirements to service HeritageOne Mortgages. A Seller/Servicer must either complete a Concurrent Transfer of Servicing or have explicit Freddie Mac approval as outlined below:

- The Seller/Servicer (Transferor Servicer) must complete a Concurrent Transfer of Servicing to a Transferee Servicer designated by Freddie Mac in accordance with Chapter 7101 and the requirements of this Chapter 8901; and
- If the Seller/Servicer intends to retain the Servicing of HeritageOne Mortgages and fulfill the Servicing obligations in its capacity as Seller/Servicer, the Servicer must obtain explicit approval from Freddie Mac to service HeritageOne Mortgages

(c) Tracking HeritageOne Mortgages

Servicers of HeritageOne Mortgages must implement policies, procedures and systems to identify and track HeritageOne Mortgages to ensure that such Mortgages are serviced in accordance with the servicing requirements of the Guide and this chapter.

(d) Additional Servicing requirements applicable to HeritageOne Mortgages

For each HeritageOne Mortgage being serviced for Freddie Mac, the Servicer must:

- Be approved to service loans on the Native American Tribe's Tribal Area in which the property resides, in accordance with applicable law; and
- Service HeritageOne Mortgages in accordance with the Servicing requirements of the Guide, this chapter and applicable law

The Servicing requirements of this chapter are applicable only to the servicing of HeritageOne Mortgages. If any Servicing requirement in this chapter is inconsistent with a Servicing requirement set forth elsewhere in the Guide (except for requirements to comply with applicable law, which supersede any other Servicing requirement in the Guide), the Servicer must comply with the Servicing requirement set forth in this chapter with respect to any HeritageOne Mortgage.

Servicers must not apply any of the requirements set forth in this chapter to a Mortgage that is not designated a HeritageOne Mortgage; rather, the Servicer should continue Servicing such Mortgages in accordance with all other Servicing requirements of the Guide and other applicable Purchase Documents.

(e) HeritageOne leasehold Mortgages

Unless inconsistent with a Servicing requirement set forth in this Chapter 8901, all Servicing requirements of the Guide governing Mortgages secured by leasehold estates (leasehold Mortgages) apply to HeritageOne leasehold Mortgages.

Refer to Sections 9301.26, 9401.3 and 9701.10(c) for requirements related to Servicing leasehold Mortgages if termination of the lease will jeopardize Freddie Mac's lien position or interest in the property.

Refer to Section 9206.5(b) for requirements to negotiate the extension of the current term of a lease (or applicable renewal options) in the event the current term of a lease (or applicable renewal options) terminates earlier than five years after the maturity date of the proposed modification of a leasehold Mortgage. As noted in Section 4504.8(b), this may include obtaining approval from the U.S. Secretary of the Interior or the BIA, as applicable.

For additional requirements for HeritageOne leasehold Mortgages, refer to Section 4504.9.

(f) Resale restrictions

As described in Section 4504.5, HeritageOne Mortgages may be subject to resale restrictions. Unless inconsistent with a Servicing requirement set forth in this Chapter 8901, Servicers should refer to Chapter 4406 and Section 4504.5 for additional requirements regarding resale restrictions on HeritageOne Mortgages.

Refer to Sections 9208.2(c) and 9208.5 for the Freddie Mac Standard Short Sale (“short sale”) evaluation requirements for Mortgages secured by properties subject to resale restrictions, unless inconsistent with a Servicing requirement set forth in this Chapter 8901.

Refer to Sections 9301.31, 9301.32 and 9301.34 for foreclosure sale bidding requirements on properties subject to resale restrictions.

(g) General notice and disclosure requirements

The Servicer must provide all notices and disclosures to the Borrower obligated under a HeritageOne Mortgage and, as applicable, the Native American Tribe, the BIA and/or the Secretary of the Interior as required by applicable law, the Mortgage documents, and any applicable Freddie Mac HeritageOne memorandum of understanding, as outlined in this chapter.

All notices and disclosures must include any required response requirements and/or time frames.

(h) Occupancy attestation

The Servicer is highly encouraged, but not required, to have the Borrower obligated under a HeritageOne Mortgage complete an annual attestation in which the Borrower attests to the current occupancy status of the property. Upon completion, the Servicer is encouraged to add the attestation to the Mortgage file.

8901.2: Subsequent Transfers of Servicing with respect to HeritageOneSM Mortgages (Future effective date 10/02/23)

HeritageOneSM Mortgages must not be included in any Subsequent Transfers of Servicing unless the transfer is expressly approved by Freddie Mac.

8901.3: Delinquency management for HeritageOneSM Mortgages (Future effective date 10/02/23)

(a) Borrower communication and single point of contact (SPOC)

In addition to the communication and outreach requirements for delinquency as outlined in Chapters 9101 and 9102, Freddie Mac encourages, but does not require, the Servicer to use a SPOC model for communications with a Borrower obligated under a HeritageOneSM Mortgage to ensure contact continuity.

(b) Special Servicing and Early Delinquency Counseling

Unless otherwise noted below, the requirements for special Servicing and Early Delinquency Counseling as described in Sections 9101.2 and 9102.4, as applicable, apply to HeritageOne Mortgages, regardless of the Mortgage product type.

Additionally, Servicers may refer Borrowers obligated under a HeritageOne Mortgage who are not located in a Duty to Serve high-needs area as listed in Exhibit 40, Duty to Serve High-Needs Areas, for referral to Next Job re-employment services.

The Servicer is not required to offer Early Delinquency Counseling if the Servicer has knowledge or reason to believe that one of the following entities has established program requirements to offer its own early delinquency counseling (e.g., analyzing the Borrower's financial situation during a counseling session and developing a plan of action for solving the Delinquency) and/or has already offered early delinquency counseling to a delinquent Borrower obligated under a HeritageOne Mortgage:

- The Native American Tribe,
- A Native community development financial institution (CDFI), and/or
- A Tribal Designated Housing Entity associated with the applicable Native American Tribe

If the Servicer is not required to offer Early Delinquency Counseling, the Servicer must document the basis for not offering such counseling in the Mortgage file.

(c) Delinquency management process for HeritageOne Mortgages

The steps below describe the process that Servicers must follow, in addition to the other Servicing requirements of the Guide, when a Borrower obligated under a HeritageOne Mortgage is delinquent in his or her Mortgage payments.

(i) Step 1 – Servicing requirements for HeritageOne Mortgages during Delinquency

(A) Early Delinquency Counseling

Pursuant to Section 8901.3(b), if applicable, Servicers of HeritageOne Mortgages must offer Early Delinquency Counseling as described in Sections 9101.2 and 9102.4, as applicable.

(B) Property Inspections

The Servicer must order Property Inspections on the Mortgaged Premises in accordance with Section 9202.12 and applicable law on all HeritageOne Mortgages. The Servicer must meet any notification requirements per applicable law based upon the location of the Mortgaged Premises.

In accordance with Section 9202.12, in the event that extenuating circumstances cause property inspection delays, Servicers must document the Mortgage file explaining the cause of the delay(s) and any efforts to work with the Native American Tribe to access the property and complete the property inspection.

(C) Property preservation

The Servicer must follow property preservation requirements for abandoned properties in accordance with Section 8403.2 and for properties in foreclosure in accordance with Section 9301.26 for all HeritageOne Mortgages.

The Servicer must meet any notification requirements per applicable law based upon the location of the Mortgaged Premises. In addition, if the property contains Native American artifacts or remains, the Servicer must work with the Native American Tribe or the BIA to ensure proper handling of the artifacts or remains when maintaining the property.

(D) The Native American Tribe's rights during Delinquency

The Native American Tribe may have certain rights if a Borrower subject to a HeritageOne Mortgage becomes delinquent.

In accordance with applicable law, Chapter 4504, the Mortgage documents and any applicable Freddie Mac HeritageOne memorandum of understanding, these rights may include, but are not limited to:

- I. Right of first refusal; or
- II. In the case of a HeritageOne leasehold Mortgage, curing the Delinquency on behalf of the Borrower obligated under a HeritageOne Mortgage, or, if curing the Delinquency on behalf of the Borrower is determined by the lessor not to be a viable solution to the Delinquency, paying off the HeritageOne leasehold Mortgage (e.g., by finding a new potential lessee to purchase the property from the Borrower for an amount that pays off the total debt)

For additional requirements regarding right of first refusal on a HeritageOne Mortgage, see Section 4504.5.

(ii) Step 2 – Pre-foreclosure referral Servicing requirements for HeritageOne Mortgages

(A) Breach letter

In accordance with Section 9101.2, Servicers must mail the breach letter for all HeritageOne Mortgages, including First Lien Mortgages and modified Mortgages, no later than the 75th day of Delinquency (i.e., 105 days after the DDLPI).

If applicable law requires the breach letter (or any other pre-breach letter or notice) to be sent prior to the 75th day of Delinquency in order to be able to refer the Mortgage to foreclosure as required in Sections 9301.6 and 9301.7, the Servicer must send the breach letter on such earlier date.

Servicer must provide a copy of the breach letter to all parties as required by applicable law, which may include, but are not limited to the Borrower obligated under a HeritageOne Mortgage, Native American Tribe, any tribal entity named in a right of first refusal, BIA and/or the Secretary of the Interior.

(B) Pre-foreclosure referral account review

Within 15 days prior to foreclosure referral, the Servicer must review the Mortgage file to ensure that:

- The Servicer has made every attempt to achieve quality right party contact in accordance with Section 9102.3;
- At least one Borrower Solicitation Package or Borrower Solicitation Letter has been sent by the 45th day after the Due Date of an unpaid monthly installment and the response period has expired without an affirmative Borrower response;

- There is neither an approved payment arrangement nor an alternative to foreclosure offer pending for which the Borrower response period has not expired;
- The breach letter (1) has been issued and expired and (2) has been provided to all required parties in accordance with applicable law, which may include, but are not limited to, the Borrower obligated under a HeritageOne Mortgage, Native American Tribe, any tribal entity named in a right of first refusal, the BIA and/or Secretary of the Interior;
- If applicable, any additional required notices or demand letters, with the required time frame for response included, have been provided to appropriate parties in accordance with applicable law, any applicable Freddie Mac HeritageOne memorandum of understanding, and the Mortgage documents. Such appropriate parties may include, but are not limited to, the Borrower obligated under a HeritageOne Mortgage, Native American Tribe, any tribal entity named in a right of first refusal, the BIA and/or the Secretary of the Interior. Additionally, the Servicer must confirm the response time frame provided in the notices has expired.

(iii)Step 3 – Foreclosure Servicing requirements for HeritageOne Mortgages

(A) Additional notices post referral

Pursuant to applicable law, any applicable Freddie Mac HeritageOne memorandum of understanding and the Mortgage documents, the Servicer must provide any required foreclosure-related notices to the Native American Tribe, and any other required parties, that describes how the Servicer may express its intention to exercise any enforcement rights available to it under applicable law or the Mortgage documents.

Upon delivery of the foreclosure-related notices to the required parties, the required parties must give written notice to the Servicer of their intention to exercise any rights available to them under applicable law and the Mortgage documents within the time frame specified by the Servicer. Unless otherwise prohibited per applicable law, if such timely written notice is given to the Servicer, the Servicer may, upon receipt and in accordance with applicable law and the Mortgage documents, suspend foreclosure proceedings to allow the required party(ies) to exercise its rights. If a foreclosure sale date is scheduled, the Servicer may, to the extent possible and in accordance with applicable law, extend the foreclosure sale date.

(B) HeritageOne Mortgage foreclosure – State jurisdiction

If the State holds jurisdiction in the Mortgage proceedings (e.g., if the Mortgaged Premises is owned in fee simple and located within exterior boundaries of the reservation area) or the applicable tribal court chooses to apply State Mortgage laws

and procedures to its foreclosure proceedings, then the Servicer must follow the requirements in Chapter 9301 unless inconsistent with the Servicing requirements provided in this chapter.

(C) HeritageOne Mortgage Foreclosure – tribal jurisdiction

If the foreclosure must be conducted through tribal court, the Servicer must follow the requirements in Chapters 9301 and 8901 and all applicable tribal law and tribal court procedures.

(D) Tribal jurisdiction foreclosure Counsel

When the foreclosure must be processed through tribal court, the Servicer must refer the foreclosure to Counsel that meets the Firm Minimum Requirements, as specified in Section 9501.3, and is approved to appear in the Native American Tribe's reservation and applicable tribal courts in accordance with applicable law.

In the event that extenuating circumstances cause excessive delays in foreclosure processing on a HeritageOne Mortgage, Servicers are instructed to document the Mortgage file explaining the cause of the delays.

Chapter 9101: Delinquency Management for Mortgages Secured by Primary Residences

9101.1: Delinquency management for Mortgages secured by Primary Residences (03/02/16)

This chapter sets forth Servicing requirements relating to collection efforts, Borrower communications, foreclosure postponement and management of an appeals process in connection with a denial of a Trial Period Plan for Mortgages secured by Primary Residences. Except as otherwise noted in this chapter, Servicers must refer to Chapters 9102 through 9401 and Chapter 8404 for all other Delinquency management requirements.

9101.2: Servicer collection efforts for Mortgages secured by Primary Residences (06/14/23)

(a) All collection efforts

The Servicer must treat each Delinquency individually by varying the collection techniques to fit the individual circumstances. The Servicer must avoid establishing a fixed routine; this is particularly ineffective when dealing with chronically delinquent Borrowers.

All collection efforts must be based on the extent of the Delinquency and the Servicer's knowledge of the following factors:

1. Borrower's prior payment history
2. Borrower's credit history
3. Borrower's employment situation
4. Borrower's reason for default
5. Borrower's willingness and ability to repay
6. Borrower is deceased or the property is included as part of the Borrower's estate
7. Mortgaged Premises' condition
8. Mortgaged Premises' occupancy status

If there is a known potential risk of loss or ownership to Freddie Mac, the Borrower must be referred for loss mitigation immediately.

Borrowers on Automatic Withdrawal (Automated Clearing House (ACH))

Servicers should encourage Borrowers to set up ACH payment arrangements. If a Borrower agreed to have his or her monthly payments automatically withdrawn from a bank account, the Servicer must ensure that the correct monthly payment is withdrawn (especially after an Escrow analysis has taken place) and processed timely. If the ACH payment cannot be processed on the specified date the Borrower has agreed to, the Servicer must begin efforts to contact the Borrower within 48 hours to determine the reason for the missed payment.

(b) Minimum collection efforts

The Servicer must, at a minimum:

- Be readily available to the Borrower to offer financial counseling and advice on curing the Delinquency and explaining alternatives to foreclosure
- Make personal contact with the Borrower as early and often as necessary to promptly cure the Delinquency. (Mortgages in bankruptcy or litigation may be excluded if necessary under applicable law, rules of professional responsibility or court rules.)

Servicers are authorized to use alternative outreach methods to contact the Borrower as permitted by applicable law including, but not limited to, e-mail, text messaging or voice response unit (VRU) technology.

- Continue to contact the Borrower if satisfactory arrangements have not been made to cure the Delinquency or until the Servicer determines foreclosure is appropriate
- Issue the breach letter (may also be referred to as the “notice of acceleration” or “demand letter”) for all Mortgages no later than the 75th day of Delinquency. If State law requires the breach letter (or any other pre-breath letter or notice) to be sent prior to the 75th day of Delinquency in order to be able to refer the Mortgage to foreclosure as required in Sections 9301.6 and 9301.7, the Servicer must send the breach letter on such earlier date.

If the Servicer determines the property is vacant or abandoned pursuant to Section 9202.14, then the Servicer must:

- Issue a breach letter within 10 days of the determination, provided the Mortgage is greater than 30 days delinquent; and
- Refer all Mortgages secured by Primary Residences to foreclosure after expiration of the breach letter, but no earlier than 151 days from the DDLPI (121st day of Delinquency). Refer to Sections 9301.6 and 9301.7 for additional requirements related to foreclosure referral.

- Contact the lessor for leasehold Mortgages and any lender with a prior lien on the fee simple landowner/lessor's fee simple interest
- Continue skip trace efforts until all reasonable sources have been attempted or contact numbers and addresses have been verified

Servicers that maintain a call center must meet minimum call center performance standards as set forth in Section 9201.5.

The following chart lists the minimum collection efforts that must be made in an attempt to bring a delinquent Mortgage secured by a Primary Residence current.

Note: If the day a Servicer is required to call a Borrower is not a Business Day and the Servicer is not open on such day to conduct loss mitigation and collection activities, the Servicer may call the Borrower on the next Business Day.

Days after Due Date	Action required
17	<p>Mail late notices/reminder letters to delinquent Borrowers by the 17th day after the Due Date or the next Business Day if the 17th day after the Due Date is not a Business Day</p>
36	<p>Initiate contact with each delinquent Borrower as early in the delinquency cycle as possible to secure a payment or payment arrangement but no later than the 36th day after the Due Date of an unpaid monthly installment unless ACH payment arrangements or other arrangements to cure the Delinquency have been established. The Servicer may tailor its contact attempts appropriately based on the risk characteristics of the Mortgage, each Borrower's level of Delinquency and previous payment habits and the minimum contact requirements set forth in this section.</p> <p>Borrower contact must continue at least every seventh day at varying times throughout the day until the earlier of the 210th day after the Due Date of an unpaid monthly installment or quality right party contact is achieved and:</p> <ul style="list-style-type: none"> ■ The Servicer determines that the Borrower does not want to pursue an alternative to foreclosure; ■ The Delinquency is cured, the Servicer achieves quality right party contact and has obtained from the Borrower a promise to pay the delinquent amount by a specified date (not to exceed 30 days); ■ A complete Borrower Response Package is received in accordance with Section 9102.5; OR

Days after Due Date	Action required
	<ul style="list-style-type: none"> ■ The Borrower enters into a relief or workout option with the Servicer
45	<p>If a Servicer has not achieved quality right party contact and a resolution to the Delinquency, the Servicer must send at least one Borrower Solicitation Package to the delinquent Borrower no later than the 45th day after the Due Date of an unpaid monthly installment.</p> <p>If a Servicer has achieved quality right party contact and has obtained from the Borrower a resolution to the Delinquency, the Servicer is not required to send the Borrower Solicitation Package. However, in such instance, the Servicer must comply with any early intervention notice that may be required under applicable law. If the Borrower fails to perform under the conditions of a relief or workout option, the Servicer must resume collection efforts, including sending the Borrower Solicitation Package.</p> <p>Generally, the Borrower Solicitation Package must include a Borrower Solicitation Letter (see Exhibit 1145), Form 710, Mortgage Assistance Application, frequently asked questions (FAQs) and foreclosure rescue scam information. However, a Servicer may choose to send only the Borrower Solicitation Letter and elect to send Form 710, FAQs and foreclosure rescue scam information upon establishing quality right party contact. In addition, the Servicer may provide the FAQs and foreclosure rescue scam information on its website and provide a link to that information in the Borrower Solicitation Letter. See also Section 9102.5(c) for specific information on what must be included in the solicitation to the Borrower.</p> <p>Note: When sending the Borrower Solicitation Package, Servicers are authorized to edit Form 710, if permitted by applicable law, to exclude references to IRS Form 4506-C; or, to the extent required by applicable law, to indicate that such forms may be required to complete the application and the circumstances when such forms must be obtained or processed in accordance with Section 9102.5(b)(2).</p>

Days after Due Date	Action required
60-75	<p>Send the Freddie Mac Flex Modification® Solicitation Cover Letter and Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP as set forth in Section 9102.5 to Borrowers with Step-Rate Mortgages who are eligible for a streamlined offer for a Freddie Mac Flex Modification in accordance with Section 9206.5.</p> <p>Send 60-75 days after the Due Date of an unpaid monthly installment for an eligible Borrower with a Step-Rate Mortgage.</p> <p>Servicers must continue to make efforts to complete an incomplete Borrower Response Package to the extent required by applicable law and regulations.</p> <p>Order the initial property inspection on or after day 90 and obtain a complete property inspection report no later than day 120 unless: (i) the Servicer has established quality right party contact or (ii) a full monthly Mortgage payment has been received within the last 30 days.</p> <p>If the property is found to be vacant or the occupancy status is unknown, property inspections must continue as long as the Mortgage remains 90 or more days delinquent, regardless of whether the Servicer achieves quality right party contact or a prospective resolution to the delinquency.</p> <p>Contact each known superior lienholder, if applicable.</p>
75	<p>Mail the breach letter for all Mortgages, including First Lien Mortgages and modified Mortgages no later than the 75th day of Delinquency (i.e., 90 days after the DDLPI).</p> <p>If State law requires the breach letter (or any other pre-breach letter or notice) to be sent prior to the 75th day of Delinquency in order to be able to refer the Mortgage to foreclosure as required in Sections 9301.6 and 9301.7, the Servicer must send the breach letter on such earlier date.</p>
90-105	<p>Send the Freddie Mac Flex Modification® Solicitation Cover Letter and Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP as set forth in Section 9102.5 to Borrowers eligible for a streamlined offer for a Freddie Mac Flex Modification in accordance with Section 9206.5.</p> <p>Send 90-105 days after the Due Date of an unpaid monthly installment for all eligible Borrowers. Servicers are not required to re-solicit Borrowers with Step-Rate Mortgages who were previously solicited between day 60 and 75 of Delinquency.</p>

Days after Due Date	Action required
	Servicers must continue to make efforts to complete an incomplete Borrower Response Package to the extent required by applicable law and regulations.
106 and greater	Within 15 days prior to foreclosure referral, the Servicer must review the Mortgage file to ensure that: it made every attempt to achieve quality right party contact in accordance with Section 9102.3, the breach letter has been issued and expired, at least one Borrower Solicitation Package has been sent by the 45th day after the Due Date of an unpaid monthly installment and the response period has expired without an affirmative Borrower response and there is neither an approved payment arrangement nor an alternative to foreclosure offer pending for which the Borrower response period has not expired.
121 and greater	Refer all Mortgages secured by Primary Residences to foreclosure after expiration of the breach letter, but no earlier than 151 days from the DDLPI (121st day of Delinquency). Refer to Sections 9301.6 and 9301.7 for additional requirements related to foreclosure referral.
211	After the 210th day after the Due Date of an unpaid monthly installment, the Servicer has discretion on continuation and frequency of contact attempts with a delinquent Borrower. However, the Servicer must discontinue all contact attempts 60 days prior to a foreclosure sale date for a judicial foreclosure or 30 days prior to a foreclosure sale date for a non-judicial foreclosure, unless the Servicer is required to continue contact attempts by applicable law.

Use of a Collection and Loss Mitigation Tool

Servicers may use their own methodology or a tool that uses statistical models to predict worsening Delinquency and use the results of the tool to tailor its collection efforts (“Collection and Loss Mitigation Tool”), to determine when contact attempts should begin. Regardless of the methodology or tool employed, Servicers must comply with the minimum collection time frames in this section even if a Collection and Loss Mitigation Tool is used, including initiating contact attempts no later than 36 days after the Due Date of an unpaid monthly installment. Servicers using a Collection and Loss Mitigation Tool when managing contact attempts must make model specifications and code available to Freddie Mac upon request.

Servicers must conduct periodic reviews to ensure the effectiveness of the Collection and Loss Mitigation Tool, including compliance with applicable laws, such as anti-discriminatory laws. Freddie Mac reserves the right to require a Servicer to discontinue the use of a Collection and Loss Mitigation Tool for Freddie Mac Mortgages.

(c) Special Servicing and Early Delinquency Counseling

The requirements for special Servicing and Early Delinquency Counseling, as described in this section, apply to Home Possible® Mortgages (see Chapter 4501).

1. Special Servicing — Welcome Letter

Servicers must send the Borrower a letter, shortly after closing and before the first Mortgage payment is due, stressing the importance of making timely payments and advising the Borrower to contact the Servicer if he or she experiences any financial problems. The letter may be incorporated into the welcome letter sent to Borrowers after closing. The letter must include the following:

- Instructions on how to contact the Servicer if the Borrower is having difficulty making the Mortgage payment on time
- The Servicer's business hours
- A toll-free telephone number to reach the Servicer

2. Early Delinquency Counseling

The following provisions apply to Early Delinquency Counseling:

- Early Delinquency Counseling is counseling provided to a delinquent Borrower by a nonprofit third-party homeownership-counseling agency or an eligible Servicer that involves identifying the reason(s) a Borrower did not make a Mortgage payment on time and working with the Borrower to resolve any financial problems so that future Mortgage payments can be made on a timely basis. The counseling includes a personal and interactive relationship with the Borrower that deals with money management, budgeting and debt management counseling.
- Applicable Time Periods. Servicers must offer Early Delinquency Counseling including household budget management counseling at no charge to delinquent Borrowers for each Delinquency that occurs during the first year following the Note Date. In addition, if at any time during the life of the Mortgage, the Borrower is having difficulty making Mortgage payments, the Servicer should advise the Borrower to speak with the Servicer or contact a counseling agency for further assistance.

- Counseling. The Servicer must provide counseling in accordance with at least one of the following options:
 - A nonprofit third-party homeownership counseling agency
 - A Servicer. The Servicer may conduct the counseling provided the Servicer has policies and procedures in place to offer the same kind of comprehensive counseling, budgeting and advising capabilities as a counseling agency.
 - A HUD-approved national counseling agency specified by Freddie Mac. The Servicer may use this option to refer delinquent Borrowers with Home Possible Mortgages to Freddie Mac for counseling services provided by a national counseling agency, without charge to the Servicer.

To refer a delinquent Borrower for counseling services provided by an agency, the Servicer must complete the “Counseling Agency-Servicer Referral” template in accordance with the instructions provided in the template and send the referral via secure e-mail to Freddie Mac at FM_Counseling_Outreach@FreddieMac.com. The template is accessible at

https://sf.freddiemac.com/content/_assets/resources/xls/fact-sheet/counseling_servicer_referral.xls. The template contains instructions for carrying out referrals to the agencies and for identifying Mortgages that are ineligible for referral. After Freddie Mac receives the referral, Freddie Mac and the agency will contact the Borrower to offer counseling services to the Borrower.

For more information about the network of national counseling agencies, Servicers should visit <https://sf.freddiemac.com/articles/news/borrower-help-center>.

If a Servicer relies on a counseling agency, it must be fully aware of the status or outcome of all counseling efforts the counseling agency undertakes with a specific Borrower, including:

- Initial contact with delinquent Borrower. If the Borrower is experiencing a Delinquency, the Servicer must:
 - Send a letter advising the Borrower of the availability of free counseling
 - Contact the delinquent Borrower to determine the Borrower’s current financial situation and the reason for the Delinquency
- Counseling Process and Actions. The counseling must include the following:
 - Analyzing the Borrower’s financial situation and developing a plan of action for solving the Delinquency, which in most cases will be a budget worksheet or workout plan giving priority to the Mortgage payment

- Developing a budget and debt repayment plan enabling the Borrower to meet his or her financial obligations
 - Reviewing the budget worksheet or workout plan with the Borrower and the Servicer, if applicable, so a decision can be made on how to proceed
- In addition to minimum collection efforts set forth in this section, the Servicer must offer Early Delinquency Counseling no later than the 30th day after the Due Date and schedule or conduct the initial counseling session with the Borrower no later than the 45th day after the Due Date.
- If the Servicer or a third-party non-profit homeownership counseling agency chosen by the Servicer provides the counseling, the Servicer must include in the Mortgage file:
 - A copy of the “Welcome Letter” as described in Section 9102.4(c)(i)
 - The date(s) that counseling was offered
 - The Borrower’s response(s)
 - The name of the counseling agency providing the counseling (if not the Servicer)
 - A brief summary of the results of the counseling
- If the Servicer utilizes a HUD-approved national counseling agency specified by Freddie Mac to provide the counseling, as outlined above, the Servicer must include in the Mortgage file:
 - A copy of the “Welcome Letter” as described in Section 9102.4(c)(i)
 - The results of the counseling outreach as provided by Freddie Mac or the specified HUD national counseling agency, as applicable
- Transfer of Servicing. If the Mortgage is included in a Transfer of Servicing before the end of the one-year period during which Early Delinquency Counseling is required, the transferee Servicer must be informed of the requirement and must be able to provide the required counseling or make arrangements for a counseling agency, as necessary.

9101.3: Evaluation requirements and appeals process in response to the First Complete Borrower Response Package (04/14/21)

This section describes the requirements a Servicer must undertake to facilitate an appeals process when the Borrower is denied a Trial Period Plan based on the Servicer's evaluation of the First Complete Borrower Response Package. The appeals process described in this section does not apply to evaluation decisions that are offered based on a review of an incomplete or no Borrower Response Package.

(a) Evaluation timing and communication to Borrower

1. Within five days of an evaluation decision, but no later than 30 days following receipt of the First Complete Borrower Response Package, the Servicer must provide the appropriate Borrower Evaluation Notice as set forth in Section 9101.3(a)(3).
2. If the Servicer receives a complete Borrower Response Package 90 or more days before a scheduled foreclosure sale date or prior to the sale date being set, the Servicer must provide the appropriate Borrower Evaluation Notice, which informs the Borrower of:
 - The option to either accept or reject an offer of an alternative to foreclosure, and the additional option to appeal within 14 days of the date of the evaluation notice
 - The right to accept an offer of an alternative to foreclosure and simultaneously appeal a denial of a Trial Period Plan
 - The right to accept any offer of an alternative to foreclosure for which the Borrower is approved as a result of the appeal or to accept or indicate an intent to accept any original offer of an alternative to foreclosure, which will still be available as an option up to 14 days after the appeal decision has been sent to the Borrower
 - Any determination of ineligibility for the Freddie Mac Flex Modification® upon review of a complete Borrower Response Package; and
 - The right to appeal a denial of a Trial Period Plan and the process and timeline including:
 - The address to which the Borrower must submit the appeal, which must be in writing and must include the Borrower's name, property address and mortgage loan number
 - A statement that the Servicer's appeal determination is not subject to further appeal

- A statement that the foreclosure process will be suspended during the appeals process
- 3. The Servicer must send the Borrower the appropriate Borrower Evaluation Notice communicating the decision with one of the following outcomes:
 - Offer reinstatement
 - Offer a repayment plan (with or without a partial reinstatement offer)*
 - Offer a forbearance plan
 - Offer a Trial Period Plan as set forth in Chapter 9206 (e.g., Flex Modification)
 - Offer a short sale as set forth in Chapter 9208 (i.e., Freddie Mac Standard Short Sale)
 - Offer a deed-in-lieu of foreclosure as set forth in Chapter 9209 (i.e., Freddie Mac Standard Deed-in-Lieu of Foreclosure)
 - Non-Approval, Ineligible for Mortgage Assistance – Mortgage is Current
 - Non-Approval, Ineligible for Mortgage Assistance – Mortgage is Delinquent

Model letters describing each of these responses are included in Exhibit 93, Evaluation Notices. Use of the model letters is optional; however, they illustrate the level of specificity that is deemed to be in compliance with the requirements of this section. The model letters may be altered at the Servicer's discretion to meet the requirements of this chapter and Chapters 8404, 9203, 9206, 9208 and 9209 and must be altered by the Servicer as necessary to comply with applicable federal, State and local law.

Servicers must ensure that the model letters are revised as necessary to include denial reasons and information about the Borrower's right to appeal the Servicer's decision when the Borrower is denied a Trial Period Plan based on an evaluation of the First Complete Borrower Response Package. Exhibit 93 includes a list of denial reasons for use with the model letters. As a reminder, impermissible denial reasons include, but are not limited to, the following:

- Full lender recourse or indemnification – In situations where the Servicer chose not to repurchase the Mortgage from Freddie Mac or, in the case of indemnification, chose not to modify the Mortgage, the Servicer must disclose the reason it will not modify the Mortgage, which must be based on its own requirements. Servicers are reminded that they may repurchase any Mortgage subject to full lender recourse or indemnification in accordance with the requirements set forth in Bulletin 2012-10, and may choose to modify a Mortgage subject to indemnification in accordance with the requirements in Bulletins 2016-5 and 2021-14.

- FHA, RHS or VA Mortgage – The Servicer must determine eligibility for a loan modification under applicable agency requirements

*Note: A Servicer may combine the relevant contents of the Borrower Evaluation Notice for a reinstatement offer with the contents of the notice for a repayment plan offer when offering the Borrower a partial reinstatement of the Mortgage coupled with a repayment plan in accordance with the requirements of Chapter 9203. Further, if the offer for a foreclosure alternative is made 37 days or less prior to a scheduled foreclosure sale as set forth in Section 9301.28, a Borrower's intent to accept the offer may not be communicated verbally, but must be in writing, at this late stage in the foreclosure process. Therefore, the Servicer must delete the reference "at [SERVICER PHONE NUMBER] or" and otherwise amend the Evaluation Notice as appropriate.

Servicers must comply with applicable law when obtaining a complete Borrower Response Package. Refer to Chapters 8404, 9203, 9204, 9206, 9208 and 9209 for requirements related to forbearance, modifications, short sales and deeds-in-lieu of foreclosure.

(b) Managing the Borrower's response to an evaluation decision

The Servicer may only accept and review a valid appeal of the denial of any Trial Period Plan based on the evaluation of the First Complete Borrower Response Package within 14 days from the date of the Servicer's offer or denial notice. A valid appeal requires the Borrower to provide the following:

- An appeal of the denial for a Trial Period Plan in writing with his or her name
- Property address; and
- Mortgage loan number

Any Borrower appeal must be reviewed by different Servicer personnel than those responsible for the initial evaluation decision. The Borrower may, but is not required to, submit any supporting documentation at the time he or she notifies the Servicer of an appeal.

If the Borrower submits supporting documentation within 14 days of the date the Servicer sent the Borrower Evaluation Notice, the Servicer must evaluate the supporting documentation during the appeal review. If documentation presented causes the Borrower to no longer be eligible for an original alternative to foreclosure, then the Servicer must inform the Borrower that the Borrower is no longer eligible for that original alternative to foreclosure. The model clauses in Exhibit 93 include language that conditions the offers on continuing eligibility based on information known to the Servicer.

If the Borrower submits new information or documentation after the 14-day Borrower response period, the new information or documentation is not subject to the right of appeal process in this section and must be evaluated in accordance with Section 9201.2. However,

the Servicer may consider such new information as part of the appeal process within the time frames described in this section if it is feasible to do so.

The Servicer must have a policy applied consistently to all Mortgages to determine whether any new information received after the appeal decision is a material change in circumstance that warrants another review. Servicers must treat any new information and documentation received after the 14-day Borrower response period as a new Borrower Response Package.

If the Servicer concludes that a review of the updated complete Borrower Response Package is warranted, the Servicer must provide a decision to the Borrower within 30 days of receipt of the new information as provided under Section 9102.5(c).

The Servicer must provide the Borrower with an appeal decision notice within 30 days of receipt of the Borrower's appeal. The appeal decision must include the original offer, if any, provided the Borrower remains eligible for the original offer. If the Borrower is eligible for a Trial Period Plan with different terms or that was not part of the original offer, the Servicer must provide the new Trial Period Plan to that Borrower. The Servicer must provide the Borrower with 14 days (from the date the Servicer sends the appeal decision notice) to accept either the original offer, if the Borrower remains eligible, or indicate an intent to accept the new Trial Period Plan offer. If a payment is required under an offer, then the Servicer must follow the relevant requirements under Chapters 9203, 9205, 9206, 9208 and 9209 concerning legal acceptance for that offer. However, the Servicer must continue to suspend foreclosure until the deadline for submission of the first payment under that offer has passed.

Borrower acceptance of an original offer after an appeal decision

If the Borrower accepts the original offer after receiving the appeal decision and remains eligible for the original offer, the Servicer must:

- Reissue the original offer extended in the initial Borrower Evaluation Notice
- Reissue the original offer with a new first Trial Period Plan due date, if applicable and
 - Inform the Borrower that unpaid interest and other amounts that continue to accrue during the appeal, such as Escrows for taxes and insurance, will result in the Mortgage becoming more delinquent; and
 - Inform the Borrower that if the Trial Period Plan is successfully completed, then, at the time of modification, any additional arrearages will be capitalized into the modified UPB, if permitted by applicable law

When the original offer is reissued to the Borrower, the Servicer may either revise the Trial Period payment amount or keep it the same provided it applies the same method consistently to all similarly situated Borrowers for the Freddie Mac Mortgages it services. However, the Servicer must ensure the final terms of the modification reflect all arrearages, including any additional delinquent amounts accrued during the appeal review process.

Trial Period payment due date

If a new Trial Period Plan offer is made with the appeal decision, the Trial Period payment due date must be set in accordance with Section 9206.11, assuming that there is a new Trial Period Plan offer being made. The period for the Borrower to indicate an intent to accept the new Trial Period Plan offer is extended until 14 days following the new Trial Period Plan offer, and legal acceptance via payment, as required under the Trial Period Plan, remains unchanged.

The Trial Period payment due date of a new Trial Period Plan offer, or revised payment due date for an original Trial Period Plan offer, is based on when the appeals decision is sent by the Servicer to the Borrower. The Servicer must determine the Trial Period Plan Effective Date and the due date of the first Trial Period payment in accordance with the following instructions:

- If the Servicer sends the appeal decision on or before the 15th of the month, then the Trial Period Plan Effective Date and the due date of the first Trial Period payment is the first day of the next month
- If the Servicer sends the appeal decision after the 15th of the month, then the Trial Period Plan Effective Date and the due date of the first Trial Period payment is the first day of the month after the next month

For example, if the Servicer sends the appeal decision notice to the Borrower between June 1 and June 15, the Trial Period Plan Effective Date and first Trial Period payment due date are both July 1. If the Servicer sends the appeal decision notice to the Borrower between June 16 and June 30, the Trial Period Plan Effective Date and the first Trial Period payment due date are both August 1.

In response to the Servicer's decision, the Borrower's notification to the Servicer that he or she intends to accept an offer may be demonstrated as follows:

- Verbal notification, as permitted in Sections 9101.4 and 9301.28
- Written notification; or
- Remittance of payment due under the offer of an alternative to foreclosure that requires payment (e.g., a Trial Period Plan)

(See also foreclosure postponement requirements in Section 9101.4 in response to an evaluation decision.)

(c) Document retention

The Servicer must maintain in the Mortgage file documentation of all communications relating to appeals. The Servicer must provide appeal case files or aggregated information to Freddie Mac for review upon request.

9101.4: Foreclosure suspension obligations and additional short sale and deed-in-lieu of foreclosure requirements once the First Complete Borrower Response Package is received (03/02/16)

(a) General foreclosure suspension obligations

Servicers must comply with the following foreclosure suspension requirements for the First Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale. However, existing foreclosure suspension requirements set forth in Section 9301.28 still apply when:

- The First Complete Borrower Response Package is received 37 days or less prior to a scheduled foreclosure sale date; or
- The Mortgage is not secured by a Primary Residence; or
- The Mortgage is secured by a Primary Residence and the Servicer is reviewing a complete Borrower Response Package received after the First Complete Borrower Response Package

The Servicer must delay or ensure that foreclosure counsel delays filing the first legal action (as defined in Section 9301.19), the motion for judgment or order of sale, or if the motion has been filed, request the court to delay a hearing or ruling as permitted under State or local law, unless:

- The First Complete Borrower Response Package was received 90 or more days prior to a scheduled foreclosure sale, or received at any time prior to a foreclosure sale date being set, and (i) the Servicer has reviewed the First Complete Borrower Response Package, (ii) the Servicer notified the Borrower of its decision, and (iii) the Borrower has not requested an appeal within 14 days of the Servicer's evaluation decision or the Borrower's appeal has been denied
- The Servicer has reviewed the First Complete Borrower Response Package received less than 90 days prior to the foreclosure sale date and notified the Borrower of a denial decision. In this instance, the Servicer's decision is not subject to an appeal
- The Borrower rejects an alternative to foreclosure offered by the Servicer; or

- The Borrower fails to perform under the terms of an alternative to foreclosure, such as missing a Trial Period Plan payment

To accept an offer

A Borrower's notification to the Servicer that he or she intends to accept an offer may be demonstrated as follows:

- Verbal notification
- Written notification

Additionally, if a payment is required to accept an alternative to foreclosure offer, and the Borrower does not communicate a verbal or written rejection of the offer, the Servicer must postpone foreclosure actions where legally permitted until after the last day of the month in which the first payment is due under the terms of the alternative to foreclosure offer. If the Servicer receives the first payment timely in accordance with the terms of a Trial Period Plan, repayment plan or forbearance plan, the Servicer must delay the next legal action unless the Borrower breaches the plan.

(b) Freddie Mac Standard Short Sale (“short sale”) evaluations and foreclosure suspension obligations

The following requirements describe the actions a Servicer must take when the First Complete Borrower Response Package is received more than 37 days prior to a scheduled foreclosure sale and results in an offer to proceed with a short sale.

- The Servicer must provide a decision to the Borrower within five days of an evaluation decision but no later than 30 days from the Servicer's receipt of the complete Borrower Response Package
- The Servicer must include in the evaluation notice a date by which the Borrower must respond to the short sale offer (including a counteroffer to the purchase offer received), which must be 14 days from the date of the Borrower Evaluation Notice
- If a purchase offer was not submitted with the First Complete Borrower Response Package:
 - The Servicer must require the Borrower to provide a purchase offer no later than 45 days from the date of the Borrower Evaluation Notice, or the date of an appeal decision if applicable, for purposes of delaying the next legal action in the foreclosure process
 - The Servicer must communicate to the Borrower that if a purchase contract is not received by the due date, which is 45 days from the date of the Borrower Evaluation

Notice, the Borrower can continue to market the property after the expiration of the due date; however, foreclosure legal actions will commence or recommence

- ❑ Once a purchase offer is received within 45 days from the date of a Borrower Evaluation Notice, the Servicer must complete its review and provide a decision to the Borrower within 15 days of receipt of the purchase offer and, if the Servicer sends a counteroffer, it must require the Borrower to respond to the counteroffer within five Business Days of the date the Borrower receives the counteroffer

The Servicer must delay, or ensure that foreclosure counsel delays, filing the first legal action, the motion for judgment or order of sale, or if the motion has been filed, request the court to delay a hearing or ruling as permitted under State or local law during the following:

- The evaluation of the First Complete Borrower Response Package
- The Borrower response period to the Servicer's evaluation decision (i.e., 14 days from the date of the Borrower Evaluation Notice)
- The 45-day response period in which the Borrower must provide a purchase offer to the Servicer, provided the Borrower responded timely to the Servicer's evaluation decision
- The Servicer review period (up to 15 days) to provide a decision on a purchase offer received within 45 days from the date of a Borrower Evaluation Notice
- The appeal period, if applicable, if the Borrower exercises his or her right to appeal a denial of a loan modification. The Servicer must delay the next legal action during its review of the Borrower's appeal and up to an additional 14 days for the Borrower to respond to the appeal decision. In cases where a purchase offer was not submitted with the First Complete Borrower Response Package, the Servicer must adjust the time frame in which the purchase offer must be submitted, which is 45 days from the date of the appeal decision.

If the Servicer approves a purchase offer received within 45 days of the date of the Borrower Evaluation Notice, it must continue to delay filing the first legal action, the motion for judgment or order of sale, or foreclosure sale to permit settlement of the short sale.

If the purchase offer is rejected and the Borrower does not assert his or her right to appeal for a loan modification, or the purchase offer is not received within 45 days from the date of the Borrower Evaluation Notice, the Servicer must proceed with the next legal action in the foreclosure process. However, the Borrower may continue to market the property while foreclosure legal actions commence or recommence. If a purchase offer is eventually received, the Servicer must provide a decision within 30 days of receipt.

Refer to Sections 9208.2 through 9208.9 for additional requirements for completing a short sale and requirements specific to situations where the Servicer is not evaluating the First

Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale date.

(c) Freddie Mac Standard Deed-in-lieu of foreclosure (“DIL”) evaluations and foreclosure suspension obligations

The following requirements describe the actions a Servicer must take when the First Complete Borrower Response Package is received more than 37 days prior to a scheduled foreclosure sale and results in an offer to proceed with a DIL.

- The Servicer must provide a decision to the Borrower within five days of an evaluation decision but no later than 30 days from the Servicer’s receipt of the complete Borrower Response Package
- The Servicer must include in the evaluation notice a date by which the Borrower must respond to the DIL offer, which must be 14 days from the date of the Borrower Evaluation Notice
- If the Borrower is approved to proceed with the DIL and accepts the offer, the Servicer must receive all necessary approvals (e.g., title, secondary lien(s), MI) and execute the DIL within 60 days of the date the Borrower’s communication to accept the offer was received by the Servicer

The Servicer must ensure that foreclosure counsel delays filing the first legal action, the motion for judgment or order of sale, or if the motion has been filed, request the court to delay a hearing or ruling as permitted under State or local law, during:

- The evaluation of the complete Borrower Response Package in which the Servicer must provide a decision within five days of an evaluation decision but no later than 30 days from receipt of the Borrower Response Package
- The Borrower response period to the Servicer’s evaluation decision (14 days from the date of the Borrower Evaluation Notice)
- The appeal period, if applicable, if the Borrower exercises his or her right to appeal for a loan modification. The Servicer must delay the next legal action during its review of the Borrower’s appeal (up to 30 days) and up to an additional 14 days for the Borrower to respond to the appeal decision. The Servicer must adjust the time frame in which to delay foreclosure actions for up to 60 days to complete the DIL, to be based on the date of the Borrower acceptance of an offer after an appeal decision has been communicated.
- Completion of the DIL transaction within 60 days of the date the Borrower communicated acceptance of the DIL offer. The Servicer must continue to delay the next legal action in the foreclosure process to complete the DIL provided that the Borrower did not previously accept a short sale offer that was not viable and then subsequently accepts the DIL offer.

If the Servicer is unable to complete the DIL transaction within 60 days of the date of Borrower acceptance, the Servicer must proceed with the next legal action in the foreclosure process. The Servicer will be allocated an additional 30 days to complete the DIL transaction and must only delay the next legal action in the foreclosure process upon receipt of the executed deed and all required DIL documents.

In addition, if the Borrower was previously approved for a short sale and transitioned to a DIL because the short sale transaction was not successful, the Servicer must not delay the next legal action in the foreclosure process until the Servicer has received the executed deed and all required DIL documents.

Refer to Sections 9209.2 through 9209.8 for additional requirements related to the completion of a DIL, and requirements specific to situations where the Servicer is not evaluating the First Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale date.

Chapter 9102: Delinquencies

9102.1: General requirements for Servicing delinquent Mortgages (09/27/21)

(a) Servicer responsibilities

The Servicer must develop, follow and maintain prudent and efficient written procedures that meet Freddie Mac requirements for promptly curing Delinquencies and comply with all applicable laws.

The Servicer must employ staff that is experienced and skilled in financial counseling and Mortgage collection techniques. The Servicer's staff must assist a Borrower in bringing a Mortgage current, while protecting the Borrower's equity and credit rating and protecting Freddie Mac's interests. The Servicer must also employ staff that is adequately trained to discuss interest rate adjustments for Step-Rate Mortgages, in accordance with the requirements in Chapter 8501.

Freddie Mac encourages Servicers to develop a Borrower Delinquency management model that allows a Borrower to contact one individual or a dedicated team of individuals in the Servicer's organization to obtain accurate information on the various alternatives to foreclosure available to the Borrower.

If the Servicer develops a Borrower Delinquency management model, the individual or dedicated team of individuals should also be able to handle and resolve Borrower issues throughout the Delinquency management process and provide updates on the status of any request for an alternative to foreclosure and the status of pending foreclosure proceedings.

(b) Delinquency rates

The Servicer's continued eligibility to service Mortgages for Freddie Mac is contingent on maintaining Delinquency rates that are acceptable to Freddie Mac. Freddie Mac may disqualify or suspend a Servicer if the Servicer's 30-, 60- or 90+-day Delinquency rate or REO rate is more than 50% higher than the average 30-, 60- or 90+-day Delinquency rate or REO rate for all Mortgages owned or guaranteed by Freddie Mac nationally or in the same geographical area (which may include Standard Metropolitan Statistical Area, county or State) in which the Mortgaged Premises that secure the Mortgages serviced by the Servicer are located and with similar Mortgage and Borrower characteristics such as origination year, loan-to-value ratio and documentation type (e.g., full documentation, reduced documentation).

(c) Collection records

The Servicer must maintain records of all collection efforts and make the records available for Freddie Mac's inspection on request. The Servicer's collection records must evidence:

- Dates that letters and notices were mailed
- Dates and results of personal contacts with the Borrower via telephone, e-mail, face-to-face or other responsible collection techniques
- Reasons for prior and current defaults
- Terms of any repayment arrangements
- Documentation of property inspections, as required in Section 9202.11

(d) Buydown accounts

Funds in a buydown account should not automatically be used to bring a delinquent Mortgage current. Such funds may be applied for this purpose if permissible under the terms of the applicable buydown agreement and the Servicer has determined that, despite the reduction of funds in the buydown account, there is a reasonable prospect that the Borrower will be able to maintain the Mortgage current after the application of buydown funds to cure the Delinquency.

(e) FHA, RHS, VA and MI requirements

The Servicer must be familiar with and satisfy all applicable requirements of the FHA, RHS, VA or MI. The Servicer is required to file on a timely basis all notices to the FHA, RHS, VA or MI. Copies of routine notices sent to the FHA, RHS, VA, MI or the Borrower must be maintained in the Mortgage file but need not be sent to Freddie Mac, unless specifically requested.

Each notice to the MI must state that Freddie Mac is the owner of each related Mortgage.

(f) Freddie Mac rights

Freddie Mac retains the right in its discretion to:

- Impose additional Servicing requirements as Freddie Mac deems appropriate
- Direct the Servicer to transfer Servicing of any delinquent Mortgage serviced for Freddie Mac that has two or more payments outstanding as of a date in the month specified by Freddie Mac (the "Determination Date") to a Servicer designated by Freddie Mac. The Transfer of Servicing of delinquent Mortgages will occur monthly, effective as of a date in the month specified by Freddie Mac (the "Transfer Date"). Any Mortgage identified as

two or more payments in arrears on the Determination Date will transfer on the Transfer Date, regardless of whether the loan becomes current before the Transfer Date. Freddie Mac will provide the Servicer (the Transferor Servicer) with written notice at least 90 days in advance of the first Transfer of Servicing date for such Mortgages. With respect to such a Transfer of Servicing:

- The Servicing compensation for the Mortgages being transferred shall be determined by Freddie Mac and shall be payable to the new Servicer
- No compensation will be paid to the Transferor Servicer
- The Transferor Servicer will be responsible for any transfer-related expenses (see Section 3603.1(a)(i) for a description of such expenses)
- Such Mortgages will remain with the Transferee Servicer, whether or not they become current after the Determination Date

The Transfer of Servicing does not relieve the Transferor Servicer of any of its obligations under the Purchase Documents with respect to the Mortgages for which Servicing is transferred.

Freddie Mac may discontinue the monthly transfer of delinquent Mortgages at any time upon written notice to the Transferor Servicer, and may provide up to 180 days' notice prior to the discontinuation of the monthly transfer of delinquent Mortgages if requested by the Servicer.

The Transferor Servicer must cooperate with Freddie Mac and is responsible for:

- Facilitating, at its expense, the transfer of the Mortgage file, payment history, escrow account, copies of all correspondence with the Borrower and any other information, records or documentation pertaining to the Mortgages requested by Freddie Mac
- Providing the Borrower with any notice of the change with respect to the servicing activities as may be required by Freddie Mac
- Informing any necessary third parties, such as tax and insurance services, attorneys, and vendors of the change with respect to the servicing activities

(g) Remitting compensatory and other fees

Servicers may be assessed compensatory and other fees associated with its failure to comply with certain Freddie Mac requirements as provided under the Guide. For example, Servicers may be assessed fees for failing to comply with Freddie Mac's EDR requirements, late foreclosure sale reporting compensatory fees or State foreclosure timeline compensatory fees. Such fees will be billed to the Servicer on the Servicer's monthly Servicer Non-Performing Loans Invoice.

Servicers must remit payment of Servicer Non-Performing Loans Invoices via an Automated Clearing House (ACH) draft initiated by Freddie Mac. Freddie Mac will initiate the ACH draft on the last Business Day of the month in which the Servicer receives the Servicer Non-Performing Loans Invoice.

To authorize ACH drafting of Servicer Non-Performing Loans Invoices or to make changes to ACH draft account instructions previously provided, Servicers must complete, execute and submit a Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) for Servicers, no later than 15 Business Days before the last Business Day of the first month in which the Servicer owes any compensatory and other fees to Freddie Mac reflected on the Servicer Non-Performing Loans Invoice.

The Servicer must deliver Form 1132 to Freddie Mac as an Electronic Record (as defined in Section 1401.2), using a Portable Document Format (PDF) (or other Electronic Record format commonly used in the mortgage industry), that has been completed and contains the copy or representation of the pen and ink signature of the Servicer's Authorized Employee (such copy or representation of the Authorized Employee's signature shall be such Authorized Employee's adopted Electronic Signature as defined in Section 1401.2) and either:

- Attach to an e-mail and deliver to Freddie Mac at the following e-mail address:
CashCollections@FreddieMac.com; or
- Upload through the Freddie Mac eBill system

Freddie Mac and the Servicer agree that the delivery of Electronic Records with Electronic Signatures are eligible Electronic Transactions (as defined in Section 1401.2) and are governed by the applicable provisions of Chapter 1401.

The employee authorized to execute Form 1132 on the Servicer's behalf must be designated as an "Authorized Employee" on the Servicer's Form 988SF, Certificate of Incumbency for a Bank, Savings Bank, Savings and Loan Association, Credit Union, Corporation or Limited Liability Company, or Form 989SF, Certificate of Incumbency for Limited Partnerships, as applicable.

The account the Servicer designates as the ACH draft account must not be a Custodial Account. Servicers may establish one ACH account for the payment of invoices for both the Performing Loans monthly Servicer Billing Statement and the Servicer Non-Performing Loans Invoice, or establish two separate accounts. Servicers may submit billing inquiries or billing-related requests to [Servicer Billing@FreddieMac.com](mailto:Servicer_Billing@FreddieMac.com).

See Sections 8303.6 and 8303.35 concerning Performing Loans remittances.

The term "Performing Loans Invoices" on Form 1132 includes, but is not limited to, "Performing Loans monthly Servicer Billing Statements" and "PL001 (Performing Loans)."

The term “Nonperforming Loans Invoices” on Form 1132 includes, but is not limited to, “Servicer Non-Performing Loans Invoices” and “NPL01 (Non Performing Loans).”

(h) Receiving reimbursement of expenses/payment of incentives via ACH credit entries

To be reimbursed for expenses and paid incentives (see Section 9204.6 regarding Servicer compensation for alternatives to foreclosure), Servicers must authorize Freddie Mac to make such payments via ACH credit entries into their commercial checking accounts. See Section 2405.1 for information on authorizing receipt of ACH credit entries or making changes to ACH credit account instructions previously provided.

Servicers may submit ACH credit-related questions or concerns to:
104_Expense@FreddieMac.com.

Servicers should refer to Chapter 9701 for detailed information related to the reimbursement of expenses and the use of PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

Note: Before a Servicer may receive expense reimbursements and incentive payments via ACH credit entries, the Servicer must have completed the certificate of incumbency (“COI”) process requirements in Section 2201.1, and Freddie Mac must have accepted the Servicer’s COI and all other required forms and documents. The employee authorized to execute Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) For Sellers/Servicers (the “ACH Authorization”), on the Servicer’s behalf must be designated as an “Authorized Employee” on the Servicer’s Form 988SF or Form 989SF as applicable.

9102.2: Late charges (03/02/16)

(a) Late charge assessment

The Servicer must not assess a late charge in an amount greater than 5% of the principal and interest payment. On an FHA or VA Mortgage, a late charge may be assessed and collected in accordance with the applicable program terms. The Servicer is responsible for collecting from the Borrower any recording or similar costs incidental to the granting of relief.

The Servicer may not impose a late charge if the Mortgage is a Home Mortgage and the installment is received within 15 days* after the Due Date.

* If this date is a Saturday, Sunday or federal holiday, it is extended to the next Business Day. The Servicer may retain any late charge collected as additional Servicing compensation if the charge is allowed under the Note.

(b) Late charge collection

Regardless of any provision to the contrary in the Note or the Security Instrument, the Servicer may not collect a late charge by any of the following methods:

1. Charging the Borrower's Escrow or impound account
2. Deducting from a regular monthly installment
3. Deducting from a payment made to partially or fully cure a Delinquency
4. Adding to the outstanding principal balance of the Mortgage
5. Causing a Mortgage to become delinquent or be placed in foreclosure because of an unpaid late charge

For payment application requirements, refer to Sections 8103.4 through 8103.7.

9102.3: Establishing Borrower contact during Delinquency (03/01/19)

(a) Collection techniques

Servicing of a delinquent Mortgage must be based upon personal contact, either by telephone, e-mail or face-to-face interviews with a Borrower. Form letters and notices, while having a place in any Servicing program, generally are not as effective as personal contact and must not be used exclusively.

The Servicer's collection techniques must include the use of:

1. Telephone contacts or face-to-face interviews
2. Written communications such as notices and letters
3. Other responsible collection techniques as permitted under applicable law including, but not limited to, e-mail, text messaging, voice response unit (VRU) technology or a Servicer's web portal.

If the Servicer discovers that the Borrower's contact information (phone number or mailing address) is invalid, then it should initiate skip trace activities to obtain alternate phone numbers or mailing addresses.

(b) Quality right party contact

A Servicer's objective in contacting a delinquent Borrower is to establish quality right party contact.

Quality right party contact occurs when a Servicer establishes contact with the Borrower and discusses with the Borrower, co-Borrower or trusted advisor, such as a housing counselor, the most appropriate options for Delinquency resolution. A Servicer must make every attempt to achieve quality right party contact by:

- Determining the reason for the Delinquency and whether the reason is temporary or permanent in nature
- Determining the occupancy status of the property
- Determining the Borrower's ability to repay the debt
- Setting payment expectations and educating the Borrower on the availability of alternatives to foreclosure as appropriate
- Obtaining a commitment from the Borrower to either resolve the Delinquency through traditional methods (paying the total delinquent amount) or engaging in an alternative to foreclosure solution

The Servicer must notify Freddie Mac that it achieved quality right party contact with the Borrower via an EDR transmission within the first three Business Days of the month as follows:

- Report default action code AW and the date of the first quality right party contact established with the Borrower. Report the date one time in the month following the month that quality right party contact was established with the Borrower.
- Report default action code AX if any subsequent quality right party contact was made with the Borrower after the initial contact was established. Report the date of the last quality right party contact one time in the month following the month that the action occurred. Default action code AX may be reported in the same month as default action code AW if a Servicer establishes a subsequent quality right party contact with the Borrower in the same month that initial contact was achieved. If the Servicer is working with the Borrower over a period of several months to resolve the Delinquency, it must continue to report default action code AX with the date of the last quality right party contact for each month in which the action applies.

For additional information about EDR, refer to Section 9102.7 and Exhibit 82, Electronic Default Reporting Transmission Code List.

A Servicer will be measured on its effectiveness in achieving quality right party contact. Borrowers in bankruptcy are excluded from the quality right party contact performance standard.

Refer to Section 9201.5 for additional information on the quality right party contact performance standard.

The Borrower outreach and solicitation requirements specified in this chapter represent the minimum required effort a Servicer must make to reach Borrowers early in the Delinquency process and throughout the Delinquency cycle to more efficiently mitigate default. Freddie Mac encourages and fully supports Servicers that have or will implement additional processes, such as a single point of contact model, not currently required under the Guide or Servicers' other Purchase Documents for purposes of achieving contact continuity throughout the Delinquency process. If the Servicer elects to have a process supporting a single point of contact model and is using a team approach, the Servicer should provide the Borrower the ability to request and speak to a specific person from the assigned personnel team and leave a message. However, the Servicer may not use any additional processes that are not compliant with applicable law or otherwise adverse to Freddie Mac.

9102.4: Servicer collection efforts (06/14/23)

(a) All collection efforts

The Servicer must treat each Delinquency individually by varying the collection techniques to fit the individual circumstances. The Servicer must avoid establishing a fixed routine; which is particularly ineffective when dealing with chronically delinquent Borrowers.

All collection efforts must be based on the extent of the Delinquency and the Servicer's knowledge of the following factors:

1. Borrower's prior payment history
2. Borrower's credit history
3. Borrower's employment situation
4. Borrower's reason for default
5. Borrower's willingness and ability to repay
6. Borrower is deceased or the property is included as part of the Borrower's estate
7. Mortgaged Premises' condition
8. Mortgaged Premises' occupancy status

If there is a known potential risk of loss or ownership to Freddie Mac, the Borrower must be referred for loss mitigation immediately.

Borrowers on Automatic Withdrawal (Automated Clearing House (ACH))

Servicers should encourage Borrowers to set up ACH payment arrangements. If a Borrower agreed to have his or her monthly payments automatically withdrawn from a bank account, the Servicer must ensure that the correct monthly payment is withdrawn (especially after an Escrow analysis has taken place) and processed timely. If the ACH payment cannot be processed on the specified date the Borrower has agreed to, the Servicer must begin efforts to contact the Borrower within 48 hours to determine the reason for the missed payment.

(b) Minimum collection efforts

The Servicer must, at a minimum:

- Be readily available to the Borrower to offer financial counseling and advice on curing the Delinquency and explaining alternatives to foreclosure
- Make personal contact with the Borrower as early and often as necessary to promptly cure the Delinquency. (Mortgages in Bankruptcy or litigation may be excluded if necessary under applicable law, rules of professional responsibility or court rules.)

Servicers are authorized to use alternative outreach methods to contact the Borrower as permitted by applicable law including, but not limited to, e-mail, text messaging or voice response unit (VRU) technology.

- Continue to contact the Borrower if satisfactory arrangements have not been made to cure the Delinquency or until the Servicer determines foreclosure is appropriate
- Issue the breach letter (may also be referred to as the “notice of acceleration” or “demand letter”) for all Mortgages no later than the 75th day of Delinquency. If State law requires the breach letter (or any other pre-breach letter) to be sent prior to the 75th day of Delinquency in order to be able to refer the Mortgage to foreclosure by the 120th day of Delinquency (i.e., 150 days after the DDLPI), the Servicer must send the breach letter on such earlier date.

If the Servicer determines the property is vacant or abandoned pursuant to Section 9202.14, then the Servicer must:

- Issue a breach letter within 10 days of the determination, provided the Mortgage is greater than 30 days delinquent; and
- Refer the Mortgage to foreclosure after expiration of the breach letter, unless the Servicer establishes quality right party contact with the Borrower to resolve the Delinquency. Regardless of whether quality right party contact is achieved, the

Mortgage must be referred to foreclosure no later than the 120th day of Delinquency unless one of the exceptions to postpone foreclosure referral described in Sections 9301.6 and 9301.7 applies.

- Contact the lessor for leasehold Mortgages and any lender with a prior lien on the fee simple landowner/lessor's fee simple interest
- Continue skip trace efforts until all reasonable sources have been attempted or contact numbers and addresses have been verified

Servicers that maintain a call center must meet minimum call center performance standards as set forth in Section 9201.5.

The following chart lists the minimum collection efforts that must be made in an attempt to bring a delinquent Mortgage current.

Note: If the day a Servicer is required to call a Borrower is not a Business Day and the Servicer is not open on such day to conduct loss mitigation and collection activities, the Servicer may call the Borrower on the next Business Day.

Days after Due Date	Action required
17	Mail late notices/reminder letters to delinquent Borrowers by the 17th day after the Due Date or the next Business Day if the 17th day after the Due Date is not a Business Day
36	<p>Initiate contact with each delinquent Borrower as early in the delinquency cycle as possible to secure a payment or payment arrangement but no later than the 36th day after the Due Date of an unpaid monthly installment, unless ACH payment arrangements or other arrangements to cure the Delinquency have been established. The Servicer may tailor its contact attempts appropriately based on the risk characteristics of the Mortgage, each Borrower's level of Delinquency and previous payment habits and the minimum contact requirements set forth in this Section 9102.4.</p> <p>Borrower contact must continue at least every seventh day at varying times throughout the day until the earlier of the 210th day after the Due Date of an unpaid monthly installment or quality right party contact is achieved and:</p> <ul style="list-style-type: none">■ The Servicer determines that the Borrower does not want to pursue an alternative to foreclosure or the Delinquency is cured;

Days after Due Date	Action required
	<ul style="list-style-type: none"> ■ The Servicer achieves quality right party contact and has obtained from the Borrower a promise to pay the delinquent amount by a specified date (not to exceed 30 days); ■ A complete Borrower Response Package is received in accordance with Section 9102.5(c); OR ■ The Borrower enters into a relief or workout option with the Servicer.
45	<p>If a Servicer has not achieved quality right party contact and a resolution to the Delinquency, the Servicer must send at least one Borrower Solicitation Package to the delinquent Borrower no later than the 45th day after the Due Date of an unpaid monthly installment.</p> <p>If a Servicer has achieved quality right party contact and has obtained from the Borrower a resolution to the Delinquency, the Servicer is not required to send the Borrower Solicitation Package. However, in such instance, the Servicer must comply with any early intervention notice that may be required under applicable law. If the Borrower fails to perform under the conditions of a relief or workout option, the Servicer must resume collection efforts, including sending the Borrower Solicitation Package.</p> <p>Generally, the Borrower Solicitation Package must include a Borrower Solicitation Letter (see Exhibit 1145), Form 710, Mortgage Assistance Application, frequently asked questions (FAQs) and foreclosure rescue scam information. However, a Servicer may choose to send only the Borrower Solicitation Letter and elect to send Form 710, FAQs and foreclosure rescue scam information upon establishing quality right party contact. In addition, the Servicer may provide the FAQs and foreclosure rescue scam information on its website and provide a link to that information in the Borrower Solicitation Letter. See also Section 9102.5(c) for specific information on what must be included in the solicitation to the Borrower.</p> <p>Note: When sending the Borrower Solicitation Package, Servicers are authorized to edit Form 710, if permitted by applicable law, to exclude references to IRS Form 4506-C; or, to the extent required by applicable law, to indicate that such form may be required to complete the application and the circumstances when such form must be obtained or processed in accordance with Section 9102.5(b)(2).</p>

Days after Due Date	Action required
60-75	<p>Send the Freddie Mac Flex Modification® Solicitation Cover Letter and Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP as set forth in Section 9102.5 to Borrowers eligible for a streamlined offer for a Freddie Mac Flex Modification in accordance with Section 9206.5.</p> <p>Send 60-75 days after the Due Date of an unpaid monthly installment for an eligible Borrower with a Step-Rate Mortgage.</p> <p>Servicers must continue to make efforts to complete an incomplete Borrower Response Package to the extent required by applicable law and regulations.</p> <p>Order the initial property inspection on or after day 90 and obtain a complete property inspection report by day 120 unless: (i) the Servicer has established quality right party contact or (ii) a full monthly Mortgage payment has been received within the last 30 days.</p> <p>If the property is found to be vacant or the occupancy status is unknown, property inspections must continue as long as the Mortgage remains 90 or more days delinquent, regardless of whether the Servicer achieves quality right party contact.</p> <p>Contact each known superior lienholder, if applicable.</p>
75	<p>Mail the breach letter for all Mortgages, including First Lien Mortgages and modified Mortgages no later than the 75th day of Delinquency (i.e., 105 days after the DDLPI).</p> <p>If State law requires the breach letter (or any other pre-breach letter or notice) to be sent prior to the 75th day of Delinquency in order to be able to refer the Mortgage to foreclosure as required in Sections 9301.6 and 9301.7, the Servicer must send the breach letter on such earlier date.</p>
90-105	<p>Send Freddie Mac Flex Modification® Solicitation Cover Letter and Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP as set forth in Section 9102.5 to Borrowers eligible for a streamlined offer for a Flex Modification in accordance with Section 9206.3.</p> <p>Send 90-105 days after the Due Date of an unpaid monthly installment for all other eligible Borrowers who did not receive a solicitation between day 60 and 75 of Delinquency (i.e., certain Borrowers with Step-Rate Mortgages).</p>

Days after Due Date	Action required
105 and greater	Within 15 days prior to foreclosure referral, the Servicer must review the Mortgage file to ensure that: the Servicer made every attempt to achieve quality right party contact in accordance with Section 9102.3, the breach letter has been issued and expired, at least one Borrower Solicitation Package or Borrower Solicitation Letter has been sent by the 45th day after the Due Date of an unpaid monthly installment and the response period has expired without an affirmative Borrower response, and there is neither an approved payment arrangement nor an alternative to foreclosure offer pending for which the Borrower response period has not expired.
120	Refer all Mortgages secured by properties other than Primary Residences and Mortgages secured by Primary Residences when permitted by applicable law, including First Lien Mortgages and modified Mortgages with expired breach letters to foreclosure no later than the 120th day of Delinquency (150 days after the DDLPI) unless one of the exceptions in Sections 9301.6 and 9301.7 applies
121 and greater (or earlier if referral to foreclosure occurs prior to day 120)	Refer all Mortgages secured by Primary Residences to foreclosure after expiration of the breach letter, but no earlier than 151 days from the DDLPI (121st day of Delinquency). Refer to Sections 9301.6 and 9301.7 for additional requirements related to foreclosure referral.
211	After the 210th day after the Due Date of an unpaid monthly installment, the Servicer has discretion on the continuation and frequency of contact attempts with a delinquent Borrower. However, the Servicer must discontinue all contact attempts 60 days prior to a foreclosure sale date for a judicial foreclosure or 30 days prior to a foreclosure sale date for a non-judicial foreclosure, unless the Servicer is required to continue contact attempts by applicable law.

Use of a Collection and Loss Mitigation Tool

Servicers may use their own methodology or a tool that uses statistical models to predict worsening Delinquency and use the results of the tool to tailor its collection efforts (“Collection and Loss Mitigation Tool”), to determine when contact attempts should begin. Regardless of the methodology or tool employed, Servicers must comply with the minimum

collection time frames in this section even if a Collection and Loss Mitigation Tool is used, including initiating contact attempts no later than 36 days after the Due Date of an unpaid monthly installment. Servicers using a Collection and Loss Mitigation Tool when managing contact attempts must make model specifications and code available to Freddie Mac upon request.

Servicers must conduct periodic reviews to ensure the effectiveness of the Collection and Loss Mitigation Tool, including compliance with applicable laws, such as anti-discriminatory laws. Freddie Mac reserves the right to require a Servicer to discontinue the use of a Collection and Loss Mitigation Tool for Freddie Mac Mortgages.

(c) Special Servicing, Early Delinquency Counseling and NextJob® re-employment services

The requirements for special Servicing, Early Delinquency Counseling and NextJob® re-employment services, as described in this section, apply to Freddie Mac Home Possible® Mortgages (see Chapter 4501).

(i) Special Servicing — Welcome Letter

Servicers must send the Borrower a letter, shortly after closing and before the first Mortgage payment is due, stressing the importance of making timely payments and advising the Borrower to contact the Servicer if he or she experiences any financial problems. The letter may be incorporated into the welcome letter sent to Borrowers after closing. The letter must include the following:

- Instructions on how to contact the Servicer if the Borrower is having difficulty making the Mortgage payment on time
- The Servicer's business hours
- A toll-free telephone number to reach the Servicer

(ii) Early Delinquency Counseling

The following provisions apply to Early Delinquency Counseling:

- Early Delinquency Counseling is counseling provided to a delinquent Borrower by a nonprofit third-party homeownership-counseling agency or an eligible Servicer, that involves identifying the reason(s) a Borrower did not make a Mortgage payment on time and working with the Borrower to resolve any financial problems so that future Mortgage payments can be made on a timely basis. The counseling includes a personal and interactive relationship with the Borrower that deals with money management, budgeting and debt management counseling.
- Applicable Time Periods. Servicers must offer Early Delinquency Counseling including household budget management counseling at no charge to delinquent

Borrowers for each Delinquency that occurs during the first year following the Note Date. In addition, if at any time during the life of the Mortgage, the Borrower is having difficulty making Mortgage payments, the Servicer should advise the Borrower to speak with the Servicer or contact a counseling agency for further assistance.

- Counseling. The Servicer must provide counseling in accordance with at least one of the following options:
 - A nonprofit third-party homeownership counseling agency
 - A Servicer. The Servicer may conduct the counseling provided the Servicer has policies and procedures in place to offer the same kind of comprehensive counseling, budgeting and advising capabilities as a counseling agency.
 - A HUD-approved national counseling agency specified by Freddie Mac. The Servicer may use this option to refer delinquent Borrowers with Home Possible Mortgages to Freddie Mac for counseling services provided by a national counseling agency, without charge to the Servicer.

To refer a delinquent Borrower for counseling services provided by an agency, the Servicer must complete the “Counseling Agency-Servicer Referral” template in accordance with the instructions provided in the template and send the referral via secure e-mail to Freddie Mac at FM_Counseling_Outreach@FreddieMac.com. The template is accessible at

https://sf.freddiemac.com/content/_assets/resources/xls/fact-sheet/counseling_servicer_referral.xls. The template contains instructions for carrying out referrals to the agencies and for identifying Mortgages that are ineligible for referral. After Freddie Mac receives the referral, Freddie Mac and the agency will contact the Borrower to offer counseling services to the Borrower.

For more information about the network of national counseling agencies, Servicers should visit Freddie Mac’s My Home website at <https://sf.freddiemac.com/articles/news/borrower-help-center>.

If a Servicer relies on a counseling agency, it must be fully aware of the status or outcome of all counseling efforts the counseling agency undertakes with a specific Borrower, including:

- Initial Contact with delinquent Borrower. If the Borrower is experiencing a Delinquency, the Servicer must:
 - Send a letter advising the Borrower of the availability of free counseling
 - Contact the delinquent Borrower to determine the Borrower’s current financial situation and the reason for the Delinquency

- Counseling Process and Actions. The counseling must include the following:
 - Analyzing the Borrower’s financial situation and developing a plan of action for solving the Delinquency, which in most cases will be a budget worksheet or workout plan giving priority to the Mortgage payment
 - Developing a budget and debt repayment plan enabling the Borrower to meet his or her financial obligations
 - Reviewing the budget worksheet or workout plan with the Borrower and the Servicer, if applicable, so a decision can be made on how to proceed
- In addition to minimum collection efforts set forth in this section, the Servicer must offer Early Delinquency Counseling no later than the 30th day after the Due Date and schedule or conduct the initial counseling session with the Borrower no later than the 45th day after the Due Date.
- If the Servicer or a third-party non-profit homeownership counseling agency chosen by the Servicer provides the counseling, the Servicer must include in the Mortgage file:
 - A copy of the “Welcome Letter” as described in Section 9102.4(c)(i)
 - The date(s) that counseling was offered
 - The Borrower’s response(s)
 - The name of the counseling agency providing the counseling (if not the Servicer)
 - A brief summary of the results of the counseling
- If the Servicer utilizes a HUD-approved national counseling agency specified by Freddie Mac to provide the counseling, as outlined above, the Servicer must include in the Mortgage file:
 - A copy of the “Welcome Letter” as described in Section 9102.4(c)(i)
 - The results of the counseling outreach as provided by Freddie Mac or the specified HUD national counseling agency, as applicable
- Transfer of Servicing. If the Mortgage is included in a Transfer of Servicing before the end of the one-year period during which Early Delinquency Counseling is required, the transferee Servicer must be informed of the requirement and must be able to provide the required counseling or make arrangements for a counseling agency, as necessary.

(iii) NextJob re-employment services

Increasing homeownership opportunities in underserved markets across the nation, including in rural and high-needs areas, is a key component of Freddie Mac's Duty to Serve plan. High-needs areas include middle Appalachia, the lower Mississippi Delta and colonias and other tracts located in areas subject to persistent poverty. As part of our Duty to Serve plan, we are providing an opportunity for distressed Borrowers with a Home Possible Mortgage who reside in a high-needs area to receive re-employment services through NextJob. NextJob is a re-employment services company that assists Borrowers with job search skills and training to increase the Borrower's likelihood of re-employment after the loss of a job, reduced hours or other employment challenges that threaten the Borrower's ability to make timely mortgage payments.

NextJob will contact the Borrower and offer re-employment services, which include:

- One-on-one job coaching
- Access to "Job Talk" webinars, and
- Access NextJob's proprietary online job search training program

Servicers are encouraged to refer Borrowers with Home Possible Mortgages in Duty to Serve high-needs areas (refer to Exhibit 40, Duty to Serve High-Needs Areas) who have suffered a loss of income due to unemployment or underemployment to Freddie Mac for referral to NextJob.

The Borrower qualifications appear in the table below:

NextJob Re-employment Services Eligibility Requirements	
Borrower eligibility	<p>The Borrower must have:</p> <ul style="list-style-type: none">■ Suffered a loss of income due to unemployment or underemployment, and■ Requested loss mitigation assistance from the Servicer
Mortgage eligibility	<p>The Mortgage must be:</p> <ul style="list-style-type: none">■ Located in a designated Duty to Serve high-needs area listed in Exhibit 40■ A Home Possible Mortgage

NextJob Re-employment Services Eligibility Requirements

Eligibility exclusions	<p>The following Borrowers are not eligible for NextJob re-employment services:</p> <ul style="list-style-type: none">■ Borrowers who are 12 months or more delinquent at the time of Servicer evaluation■ Borrowers in active repayment plans■ Borrowers in active modification Trial Period Plans■ Borrowers approved for short sales or deeds-in-lieu of foreclosure■ Borrowers with Mortgages:<ul style="list-style-type: none">□ Subject to active non-routine litigation□ Subject to active bankruptcy proceedings□ That are FHA, VA or RHS insured□ With a foreclosure sale scheduled within the next 60 days, or□ That have been referred to foreclosure if the parties are in mediation
-------------------------------	--

If a Borrower meets the eligibility criteria above, Servicers participating in the NextJob program must provide the following information to Freddie Mac on a Microsoft Excel® spreadsheet for each Borrower the Servicer is referring, in the format provided in Exhibit 41, NextJob Referral Template for Borrowers with Home Possible Mortgages, which includes the following information:

- Freddie Mac loan number
- Borrower name
- Borrower phone number
- Borrower State of residence, and
- Servicer contact name and e-mail address

The Servicer must send the Excel spreadsheet to Rural_Borrower_Help@FreddieMac.com up to twice per month only on the 15th or 30th day of the month. Servicers with no eligible Borrowers for a particular month are not required to make a submission.

Three to six Business Days after receiving the submission, Freddie Mac will e-mail the Servicer a list of Borrowers who were referred to NextJob.

NextJob will contact Borrowers by phone and work with them to complete the “Homeowner Re-employment Registration” and “Waiver Agreement” to initiate the re-employment services. NextJob will attempt to contact the Borrowers for 20 days. NextJob will provide job skills services and ask the Borrower to complete a survey at the end of the skills training.

Freddie Mac will e-mail the Servicer monthly updates in a report entitled “Disposition of NextJob Referrals.”

9102.5: Borrower solicitation and communication (10/20/21)

This section sets forth Servicer communication, solicitation, and notification requirements during a Borrower’s Delinquency or upon receipt of a Borrower’s request for an alternative to foreclosure.

Servicers should be familiar with Freddie Mac’s definitions for the following terms as they relate to Borrower solicitation and communication:

- Borrower Evaluation Notice
- Borrower Response Package
- Borrower Solicitation Package

(a) Borrower solicitation

Borrower solicitation – pre-foreclosure

A Servicer may not solicit a Borrower whose Mortgage is current or less than 31 days delinquent (i.e., no more than one payment past due) for an alternative to foreclosure described in Section 9201.2.

In addition to the minimum collection efforts set forth in Section 9102.4, Servicers may begin soliciting Borrowers who are 31 or more days delinquent in accordance with the processes and timelines set forth below in order to determine the reason for Delinquency and solicit them for possible alternatives to foreclosure.

If a Servicer previously determined that a Borrower who was less than 60 days delinquent did not qualify for any alternative to foreclosure and the Borrower subsequently becomes 60 days delinquent, then the Servicer must continue its solicitation and collection efforts with the Borrower in accordance with the requirements of this chapter. Continued solicitation may include sending another Borrower Solicitation Package if documentation needs to be refreshed in order to perform the subsequent evaluation of the Borrower for alternatives to foreclosure.

(i) No later than the 45th day after the Due Date

Servicers must send at least one Borrower Solicitation Package or solicitation letter to the Borrower with information, including but not limited to, the availability of alternatives to foreclosure as set forth in Section 9102.5(b) below. See Section 9102.5(c) below for specific information that must be included in the Borrower Solicitation Package.

If the Servicer has not achieved quality right party contact and a resolution to the Delinquency, the Servicer is required to send at least one Borrower Solicitation Package or solicitation letter to the delinquent Borrower no later than the 45th day after the Due Date of an unpaid monthly installment.

The Servicer may send either:

- A Borrower Solicitation Package, which includes a Borrower Solicitation Letter (see Exhibit 1145), Form 710, Mortgage Assistance Application, frequently asked questions (FAQs) and foreclosure rescue scam information;

OR

- A Borrower Solicitation Letter (see Exhibit 1145) and elect to send Form 710, FAQs and foreclosure rescue scam information upon establishing quality right party contact. The Servicer may also provide the FAQs and foreclosure rescue scam information on its website and provide a link to that information in the Borrower Solicitation Letter.

If a Servicer has achieved quality right party contact and has obtained from the Borrower a resolution to the Delinquency, the Servicer is not required to send the Borrower Solicitation Package. However, in such instance, the Servicer must comply with any early intervention notice that may be required under applicable law. If the Borrower fails to perform under the conditions of a relief or workout option, the Servicer must resume collection efforts, including sending the Borrower Solicitation Package.

(ii) As early as the 90th day and no later than the 105th day after the Due Date, or, for a Borrower with a Step-Rate Mortgage who becomes 60 days delinquent within 12 months following the first payment due date resulting from an interest rate adjustment, as early as the 60th day and no later than the 75th day after the Due Date

When a Borrower becomes 90 days delinquent, or when a Borrower has a Step-Rate Mortgage and becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment, the Servicer must determine if the Borrower is eligible for a streamlined offer for a Flex Modification in accordance with Section 9206.5(c) and, if eligible, solicit the Borrower for such modification. The Servicer must send an initial Exhibit 1191, Freddie Mac Flex Modification® Solicitation Cover Letter, and a Flex Modification Trial Period Plan Solicitation Offer – Not Based

on an Evaluation of a BRP, included in Exhibit 93, Evaluation Notices, on or before the 105th day of Delinquency to a Borrower who becomes 90 days delinquent and is otherwise eligible. For a Borrower with a Step-Rate Mortgage who becomes 60 days delinquent and is otherwise eligible, the Servicer must send an initial Exhibit 1191B, Freddie Mac Flex Modification® Solicitation Cover Letter for Day 60 Rate Reset, and a Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP on or before the 75th day of Delinquency.

If the Borrower has been approved for a streamlined offer for a Flex Modification in accordance with the special requirements for Borrowers impacted by an Eligible Disaster described in Section 9206.5(e), the Servicer must send Exhibit 1191A, Freddie Mac Flex Modification® Post-Disaster Forbearance Solicitation Cover Letter, in place of Exhibit 1191. The Servicer must amend the applicable letter template as necessary to conform to the Flex Modification terms and requirements.

The Flex Modification Solicitation Cover Letter and the Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP may be altered at the Servicer’s discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.

If the Servicer fails to send the streamlined offer for a Flex Modification by the 105th day of Delinquency to a Borrower who becomes 90 days delinquent and is otherwise eligible, or by the 75th day of Delinquency to a Borrower with a Step-Rate Mortgage who becomes 60 days delinquent and is otherwise eligible, the Servicer must solicit eligible Borrowers as soon as possible to minimize the impacts of the delay. If the Borrower does not respond to the initial Flex Modification solicitation and otherwise remains eligible, then the Servicer may continue to solicit the Borrower for a Flex Modification at its discretion, in accordance with the “continuation of solicitation efforts” requirements in this section.

Continuation of solicitation efforts

The Servicer must continue to try to contact and solicit the Borrower for alternatives to foreclosure throughout the foreclosure process. After the 210th day after the Due Date of an unpaid monthly installment, the Servicer has discretion to continue contact attempts and must discontinue all contact attempts 60 days prior to a foreclosure sale date for a judicial foreclosure or 30 days prior to a foreclosure sale date for a non-judicial foreclosure, unless the Servicer is required to continue contact attempts by applicable law.

Attempts to solicit for alternatives to foreclosure while the Mortgage is in foreclosure must be communicated to and coordinated with the foreclosure attorney, as appropriate. A Servicer must keep the attorney informed of the status of relevant alternative to foreclosure negotiations and must notify the attorney within two Business Days after arrangements for an alternative to foreclosure have been agreed to or within two Business Days after the Mortgage is fully reinstated.

Borrower solicitation during bankruptcy

A Servicer is not required to solicit a Borrower in an active Chapter 7 or Chapter 13 bankruptcy. However, a Borrower in an active Chapter 7 or Chapter 13 bankruptcy case must be considered for an alternative to foreclosure if the Borrower, the Borrower's counsel or bankruptcy trustee (with the Borrower's written consent) submits a request to the Servicer.

(b) Documents and forms

The following documents and forms have been developed to fulfill the solicitation requirements of this section.

1. Solicitation documents

In accordance with Section 9102.5(a) above, the Servicer must send, via regular or electronic mail, at least one Borrower Solicitation Package no later than the 45th day after the Due Date of an unpaid monthly installment. The Borrower Solicitation Package consists of the following documents:

- Exhibit 1145, Borrower Solicitation Letter (sent to Borrowers by the 45th after the Due Date of an unpaid monthly installment)

And (the Servicer may elect to send the following upon establishing quality right party contact):

- Mortgage Assistance Application (Form 710); and
- Frequently asked questions and foreclosure rescue scam notice

Exhibit 1145 is the solicitation template that reflects content a Servicer must include in its Borrower Solicitation Package. In addition, Servicers must amend Exhibit 1145 as necessary to comply with applicable law. The content of Exhibit 1145 includes:

- A cover letter that includes a statement encouraging the Borrower to contact the Servicer, the Servicer's contact information, a description of loss mitigation options that are available, and contact information for homeownership counseling
- Information on available alternatives to foreclosure to help Borrowers understand the options they may have to stay in their home or leave their home, and avoid foreclosure
- Frequently asked questions (FAQs) to help answer Borrowers' questions regarding the Borrower Response Package and evaluation process. This information may also be provided on the Servicer's website.
- Important notices, such as tips for avoiding foreclosure scams. This information may also be provided on the Servicer's website.

In accordance with Section 9102.5(a) above, the Servicer must send via regular or electronic mail, the applicable Flex Modification solicitation cover letter and include the Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP to a Borrower in accordance with the requirements in Section 9206.3. Solicitation for the Flex Modification is in addition to, and not in place of, all other solicitation requirements described in this section.

The solicitation template included in Exhibits 1145, 1191, 1191A and 1191B may be altered in the Servicer's or attorney's discretion as it deems necessary to meet the requirements of this section and to comply with disclosure and other requirements under applicable law.

2. Use of the Mortgage Assistance Application

Form 710 is a required document that a Servicer must use to obtain Borrower and co-Borrower financial information, including the cause/reasons for the Borrower or co-Borrower's financial hardship. The financial information and hardship sections of Form 710 must be completed and the form must be executed by all Borrowers on the Mortgage.

The Servicer must require the submission of Form 710 by all Borrowers requesting consideration for an alternative to foreclosure. The Servicer may use a customized equivalent of Form 710, provided that it requests the same financial information, hardship affidavit and attestations from the Borrower. However, if the Servicer receives Form 710 rather than its customized equivalent, the Servicer must accept Form 710. References of Form 710 in the Guide include any customized equivalent to Form 710.

Note: When sending the Borrower Solicitation Package, Servicers are authorized to edit Form 710, if permitted by applicable law, to exclude references to IRS Form 4506-C; or, to the extent required by applicable law, to indicate that such form may be required to complete the application and the circumstances when such form must be obtained or processed in accordance with Section 9102.5(b)(2).

3. Model letters

The Servicer must send the Borrower the appropriate Borrower Evaluation Notice communicating the evaluation decision with one of the following outcomes:

- Reinstatement Notice*
- Repayment Plan Offer*
- Forbearance Plan Offer – Reduced Payment
- Forbearance Plan Offer – Suspended Payment

- Flex Modification Trial Period Plan Notice – Based on an Evaluation of a Complete BRP
- Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP
- Standard Short Sale
- Standard Deed-in-Lieu
- Non-Approval, Ineligible for Mortgage Assistance – Mortgage is Current
- Non-Approval, Ineligible for Mortgage Assistance – Mortgage is Delinquent

Model letters describing each of these responses are included in Exhibit 93. Use of the model letters provided in Exhibit 93 is optional; however, each model letter illustrates the level of specificity that is deemed to be in compliance with the requirements of Section 9102.5(c)(5) and the reinstatement, relief and workout requirements prescribed in the Guide. The model letters must be altered by the Servicer as necessary to comply with applicable federal, State or local law.

Servicers must ensure the model letters are revised as necessary to include Trial Period Plan ineligibility reasons and information about the Borrower's right to appeal the Servicer's decision when the Borrower is denied a Trial Period Plan based on an evaluation of the First Complete Borrower Response Package. Exhibit 93 includes a list of ineligibility reasons for use with the model letters. As a reminder, impermissible denial reasons include, but are not limited to, the following:

- Full lender recourse or indemnification – In situations where the Servicer chose not to repurchase the Mortgage from Freddie Mac or, in the case of indemnification, chose not to modify the Mortgage, the Servicer must disclose the reason it will not modify the Mortgage, which must be based on its own requirements. Servicers are reminded that they may repurchase any Mortgage subject to full lender recourse or indemnification in accordance with the requirements set forth in Bulletin 2012-10, and may choose to modify a Mortgage subject to indemnification in accordance with the requirements in Bulletins 2016-5 and 2021-14.
- FHA, RHS or VA Mortgage – The Servicer must determine eligibility for a loan modification under applicable agency requirements

*Note: A Servicer may combine the relevant contents of the Borrower Evaluation Notice for a reinstatement offer with the contents of the notice for a repayment plan offer when offering the Borrower a partial reinstatement of the Mortgage coupled with a repayment plan in accordance with the requirements of Chapter 9203. Further, if the offer for a foreclosure alternative is made 37 days or less prior to a scheduled foreclosure sale as set forth in Section 9301.28, a Borrower's intent to accept the offer may not be

communicated verbally, but must be in writing, at this late stage in the foreclosure process. Therefore, the Servicer must delete the reference “at [SERVICER PHONE NUMBER] or” and otherwise amend the Evaluation Model Clause as appropriate.

(c) Communications with the Borrower

1. Borrower Solicitation Package

The Servicer must provide in the cover letter included in the Borrower Solicitation Package a specific date by which the package must be returned, which must be 30 days from the date of the communication. In the event the 30th day falls on a non-Business Day, the Servicer must specify the following Business Day as the date by which the Borrower Response Package must be returned. Refer to Section 9102.5(b) for the documentation and content that must be included in a Borrower Solicitation Package.

2. Borrower Response Package

A complete Borrower Response Package must include the following:

- Completed and signed Form 710
- Income Documentation in accordance with Section 9202.3
- Hardship Documentation in accordance with Section 9202.2
- Completed and signed IRS Form 4506-C, Request for Transcript of Tax Return, if any of the following circumstances apply:
 - The Servicer must submit IRS Form 4506-C, as applicable, to the IRS to obtain a copy of the Borrower’s tax transcript. This is required:
 - To reconcile inconsistencies between other information the Borrower provided (e.g., information the Borrower provided in Form 710, Mortgage Assistance Application) and the income documentation; or
 - When the Borrower is self-employed or is a fiscal year tax filer but the Borrower has not provided any of the required documentation specified in Section 9202.3(b) to support his or her income type
 - As otherwise requested by Freddie Mac

A Servicer may accept and rely on any information and documentation submitted on behalf of a Borrower by the Borrower’s authorized trusted advisor, such as a HUD-approved housing counselor, provided the Servicer complies with applicable privacy and other laws and, when necessary, obtains and maintains in the Mortgage file evidence of

the Borrower's written consent to the Servicer's sharing of the Borrower's private financial and any other protected information with the Borrower's trusted advisor. A Servicer should notify Freddie Mac via an EDR transmission by reporting default action code H5 within the first three Business Days of the month following the month that it received a complete Borrower Response Package, but is not required to do so.

When a Borrower is in an active Chapter 7 or Chapter 13 bankruptcy, the Servicer may accept copies of the bankruptcy schedules and tax returns (if returns are required to be filed) in lieu of Form 710, and may use this information to determine Borrower eligibility (with the income documentation). Servicers should request the schedules and tax returns from the Borrower, Borrower's counsel or bankruptcy court. If the bankruptcy schedules are greater than 90 days old as of the date the Servicer first determines the Borrower submitted a complete Borrower Response Package, the Borrower must provide updated evidence of income.

To the extent that a Servicer receives sufficient information to evaluate the Borrower for a reinstatement or relief option in accordance with Chapter 9203 without the complete Borrower Response Package, the Servicer should do so.

3. Acknowledgement of receipt of Borrower Response Package

The Servicer must acknowledge to the Borrower receipt of the Borrower Response Package within five Business Days of receipt from the Borrower, and must indicate whether the package is complete or incomplete. The acknowledgement of receipt, which must be in writing, must include the following:

- The Servicer's evaluation process and timeline
- An explanation of the foreclosure process, including that:
 - Referral to foreclosure will not occur if the Servicer is reviewing a complete Borrower Response Package
 - Referral to foreclosure will not occur if the Servicer extends an offer for an alternative to foreclosure and the Borrower's deadline to respond has not expired
 - Following referral to foreclosure, the foreclosure process may continue during the evaluation
- For a Borrower who submits a complete Borrower Response Package 37 days or less prior to a scheduled foreclosure sale, an explanation of the Servicer's plans for evaluating the Borrower for an alternative to foreclosure and suspending the foreclosure, if appropriate

- A description of those situations where a court with jurisdiction over the foreclosure proceeding (if any) or public official charged with carrying out the activity could fail or refuse to halt a scheduled foreclosure sale, if applicable
- Any other disclosure as required under applicable law

The Servicer must maintain evidence of the date of receipt of the Borrower's Response Package in its records.

4. Incomplete information notice

Upon receipt of an incomplete Borrower Response Package, the Servicer is required to send an incomplete information notice to the Borrower at the same time as the acknowledgement of receipt of the Borrower Response Package, which is no later than five Business Days from receipt of the Borrower Response Package. The incomplete information notice must include the following:

- A list of documents or information needed to evaluate the Borrower for an alternative to foreclosure
- A reference to the HUD website for HUD-approved counseling agencies as resources available to help the Borrower complete the package
 - The U.S. Department of Housing and Urban Development (HUD) at (800) 569-4287 or www.hud.gov/counseling
 - The Consumer Financial Protection Bureau (CFPB) at (855) 411-2372 or <https://www.consumerfinance.gov/mortgagehelp/>
- A reminder that if the Borrower does not submit all required documentation or information, the Servicer may determine the Borrower to be ineligible for an alternative to foreclosure and foreclosure proceedings will continue, including referral to foreclosure if the Mortgage was not previously referred
- Statement indicating that, depending on when the necessary information or documentation is received, there is no guarantee that the Servicer may be able to evaluate the Borrower for alternatives to foreclosure and halt foreclosure proceedings
- A toll-free telephone number the Borrower may contact for questions on the necessary documentation

Within five Business Days of receiving the completed Borrower Response Package from the Borrower, the Servicer is required to acknowledge to the Borrower that the completed Borrower Response Package has been received.

A Servicer may, but is not required to, send an incomplete information notice to a Borrower who submits an incomplete Borrower Response Package 37 days or less prior to a scheduled foreclosure sale. The Servicer is strongly encouraged to work with a Borrower who submits an incomplete Borrower Response Package 37 days or less prior to a scheduled foreclosure sale to complete the Borrower Response Package and expedite a decision.

Notwithstanding receipt of an incomplete Borrower Response Package and the Servicer's transmittal of an incomplete information notice, the Servicer must still refer a Mortgage to foreclosure while attempting to obtain a complete Borrower Response Package

5. Evaluation requirements in response to a complete Borrower Response Package

Within five days of an evaluation decision but no later than 30 days following receipt of the complete Borrower Response Package, the Servicer must provide the appropriate Borrower Evaluation Notice communicating the decision to the Borrower, with one of the following possible outcomes:

- Offer reinstatement
- Offer a repayment plan (with or without a partial reinstatement offer)*
- Offer a forbearance plan
- Offer a modification as set forth in Chapter 9206 (i.e., Flex Modification)
- Offer a short sale as set forth in Chapter 9208 (i.e., Standard Short Sale)
- Offer a deed-in-lieu of foreclosure as set forth in Chapter 9209 (i.e., Standard Deed-in-Lieu of Foreclosure)
- Non-Approval, Ineligible for Mortgage Assistance – Mortgage is Current
- Non-Approval, Ineligibility for Mortgage Assistance – Mortgage is Delinquent

Refer to Chapter 9101 for additional requirements related to Borrower communication with respect to the receipt of the First Complete Borrower Response Package on a Mortgage secured by a Primary Residence.

In addition, refer to Section 9208.6 for specific evaluation timelines for a short sale and Section 9206.3 for requirements on evaluating a complete Borrower Response Package after a streamlined offer for a Flex Modification solicitation has been sent to the Borrower.

*Note: A Servicer may combine the relevant contents of the Borrower Evaluation Notice for a reinstatement offer with the contents of the notice for a repayment plan offer when offering the Borrower a partial reinstatement of the Mortgage coupled with a repayment

plan in accordance with the requirements of Chapter 9203. Further, if the offer for a foreclosure alternative is made 37 days or less prior to a scheduled foreclosure sale as set forth in Section 9301.28, a Borrower's intent to accept the offer may not be communicated verbally at this late stage in the foreclosure process. Therefore, the Servicer must delete the reference "at [SERVICER PHONE NUMBER] or" and otherwise amend the Evaluation Notice to specify that a Borrower's intent to accept the offer must be in writing.

Further, with respect to the evaluation notices that are offers for alternatives to foreclosure, Servicers must include in the evaluation notice a date by which the Borrowers must accept such offers, which must be 14 days from the date of the evaluation notice for most alternatives to foreclosure except a short sale or deed-in-lieu of foreclosure. The Servicer must suspend foreclosure referral, the foreclosure process generally, or the foreclosure sale, upon receiving a Borrower's verbal (where permitted) or written notification that he or she intends to accept an offer for an alternative to foreclosure other than a short sale or deed-in-lieu of foreclosure. Absent such written or verbal notification, the Servicer must suspend foreclosure referral, the foreclosure process, or the foreclosure sale upon receipt of a Borrower's first payment under a Trial Period Plan or other plan requiring payments (e.g., repayment or forbearance plan). However, the repayment, forbearance or Trial Period Plan will not be legally binding unless the first payment is made by no later than the last day of the month that the first payment is due under the terms of the plan. See Sections 9301.6, 9301.7 and 9301.28 for all foreclosure suspension requirements.

Model letters describing each of these responses are included in Exhibit 93. Use of the model letters is optional; however, they illustrate the level of specificity that is deemed to be in compliance with the requirements of this section. The model letters may be altered at the Servicer's discretion to meet the requirements of Chapters 9203, 9206, 9208 and 9209, and to comply with disclosure and other requirements under applicable federal, State or local law.

Servicer evaluation obligations once foreclosure has been initiated (See also Section 9301.28)

a. Borrower Response Package received after referral to foreclosure and greater than 37 days prior to the foreclosure sale date

If the Servicer receives a complete Borrower Response Package after referral to foreclosure, the Servicer is not required to suspend foreclosure proceedings to review the complete Borrower Response Package.

Borrower Response Package received without a short sale purchase offer and foreclosure sale is scheduled

If the foreclosure sale has been scheduled and the Servicer sends the Borrower a Borrower Evaluation Notice that is an intent to pursue a short sale based on receipt of

a complete Borrower Response Package but a purchase offer was not received, then the Borrower Evaluation Notice must be amended to indicate the following:

- *Contact a real estate broker to list your property for sale if it is not currently listed. If your property is not currently listed, there may not be adequate time to market the property or to review a potential buyer's offer prior to the foreclosure sale date*
- *Once you receive a potential buyer's offer, contact us immediately and we will review the offer to determine whether to accept it in full satisfaction of your obligation*

The “Standard Short Sale – All Other Scenarios” Evaluation Model Clause included in Exhibit 93 is representative of this Borrower Evaluation Notice.

Short sale evaluations

Once the Mortgage has been referred to foreclosure, the Servicer must continue with foreclosure proceedings during the short sale process, except where delay for motion of judgment is provided for Mortgages subject to judicial proceedings. However, the Servicer must not complete a foreclosure sale if the short sale has been approved based on a review of a purchase offer and a complete Borrower Response Package (or other streamlined documentation permitted in Section 9208.3). The Servicer must suspend the foreclosure sale where permitted under State or local law.

Deed-in-lieu of foreclosure evaluations

Once the Mortgage has been referred to foreclosure, the Servicer must continue with foreclosure proceedings during the deed-in-lieu of foreclosure process, except where delay for motion of judgment is provided for Mortgages subject to judicial proceedings. The Servicer may only suspend foreclosure sale once the executed deed and all required deed-in-lieu of foreclosure documents have been received by the Servicer. Additionally, the Servicer must receive an executed deed from the Borrower no later than 30 days prior to the scheduled foreclosure sale date.

When considering a Borrower for a deed-in-lieu of foreclosure, the Servicer must ensure that there is sufficient time to complete processing of the deed-in-lieu of foreclosure (inclusive of sending the deed-in-lieu of foreclosure offer to the Borrower) so that the Servicer receives the executed deed no later than 30 days prior to the foreclosure sale date.

b. Borrower Response Packages received 37-15 days prior to the scheduled foreclosure sale date

If a complete Borrower Response Package is received between 37 and 15 days, inclusively, before a scheduled foreclosure sale date, the Servicer must expedite its

review and make a determination regarding the Borrower's request for assistance at least seven days before the scheduled foreclosure sale date. This will ensure that the Servicer will be able to complete a foreclosure certification to the attorney seven days prior to a scheduled foreclosure sale date, if appropriate, or offer the Borrower an alternative to foreclosure.

c. Borrower Response Packages received less than 15 days prior to the scheduled foreclosure sale date

In cases where a complete Borrower Response Package is received less than 15 days prior to a scheduled foreclosure sale date, the Servicer must first determine whether it can conduct an expedited review of the Borrower Response Package and render a decision by the foreclosure certification date (i.e., seven days prior to the scheduled foreclosure sale date) and if so, complete the review.

(d) Electronic submission of documents

Servicers should refer to Chapter 1401 for the definition of the following terms used in this subsection:

- Electronic
- Electronic Record
- Electronic Transaction

In lieu of paper documents, loss mitigation documents may be prepared, signed and sent electronically by and between the Servicer to the Borrower or by a Borrower to the Servicer, provided these Electronic Transactions comply with the requirements of Chapter 1401 and this section.

With the exception of IRS Form 4506-C, Request for Transcript of Tax Return, all documentation required to be prepared, signed or sent by either the Servicer or the Borrower are considered "loss mitigation documents" for purposes of Section 1401.17. Refer to Section 9206.19 for requirements related to eModification Agreements of paper Notes and Sections 1402.10 and 1402.11 for additional requirements related to eModification Agreements of eMortgages.

Note: IRS Form 4506-C is only defined as a loss mitigation document for purposes of Section 1401.17 if the form is received from the Borrower in a manner that permits the Servicer to submit the form to the IRS in compliance with the IRS instructions and requirements.

All Electronic loss mitigation documents and any other Electronic Mortgage file documents are Electronic Records and must be able to be retrieved and printed in a manner that accurately reflects the information they originally contained. Additionally, all Electronic Records must be accessible (either electronically or on paper) and made available to Freddie Mac upon request.

9102.6: Investment Property and rental income during Delinquency (03/02/16)

If satisfactory arrangements for repayment of the Delinquency have not been made, the Servicer must request that the Borrower consent to the appointment of a real estate agent or other agent to collect rents, maintain the Mortgaged Premises and make payments to the Servicer. If such arrangements are not made, the Servicer must determine what means are available to obtain the rental income and submit a recommendation to Freddie Mac (see **Directory 5**).

9102.7: Monthly EDR (10/14/20)

(a) Reporting to Freddie Mac

A Servicer must report, within the first three Business Days of a month, applicable information through the Freddie Mac EDR tool (see Exhibit 88, Servicing Tools) for:

- All status and event codes for Mortgages that are current AND placed on a forbearance plan
- All status and event codes, if applicable, for Mortgages that are 30 or 60 days delinquent and Mortgages for which the Borrower was in bankruptcy during the previous month, regardless of whether the Borrower is current or delinquent in his or her Mortgage payments
- All Mortgages that were 90 or more days delinquent, including referral to foreclosure, or Mortgages for which the Borrower was in bankruptcy during the previous month
- Mortgages for which the Borrower is current in his or her Mortgage payments and for which the Servicer is pursuing an alternative to foreclosure (**Note:** Servicers must comply with all Guide requirements with respect to considering a Borrower who is current in his or her Mortgage payment for an alternative to foreclosure, including, as applicable, any requirement that the Borrower be in imminent default or found to have suffered an involuntary inability to pay.)

A Servicer must continue to report the applicable information through the EDR tool for each Mortgage until:

- The Mortgage is current and no longer on a forbearance plan
- The Mortgage is fully reinstated or paid off
- A workout is completed and settled in Freddie Mac's system
- A foreclosure sale is held

- The Borrower is no longer in bankruptcy and the Mortgage is current
- For current Mortgages under consideration for an alternative to foreclosure, there are no applicable default action codes to report for the month

If a Servicer services Mortgages under more than one Seller/Servicer number, the Servicer must report via the EDR tool for each number.

For each Mortgage reported, a Servicer must provide the Seller/Servicer Number and the Freddie Mac loan number. The Servicer may include the DDLPI (optional).

When reporting on a current Mortgage that was placed on a forbearance plan, the following data elements must be reported, as applicable:

- Default Reason
- Default action(s)
- Default action date(s) - Servicers must report the due date of the first payment due under the forbearance plan

When reporting on a Mortgage that is between 30 and 60 days delinquent, the following data elements must be reported, as applicable:

- Default action(s)
- Default action date(s)

A Servicer must also report the following data elements in the earliest EDR transmission after receiving the information, but no later than when reporting on a Mortgage that is 90 days delinquent:

- Default Reason
- Property Condition
- Occupancy Status

Refer to Exhibit 82, Electronic Default Reporting Transmission Code List, for descriptions of the default action, default reason, property condition, occupancy status and associated codes. For detailed programming instructions, please refer to the *Electronic Default Reporting (EDR) Quick Reference Guide*, available at https://sf.freddiemac.com/content/_assets/resources/pdf/other/edr_quickref.pdf.

(b) Reports from Freddie Mac

In response to a Servicer's monthly EDR transmission, Freddie Mac will make available, accessible via the "Default Reporting" tile of the Servicer's Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools), the following reports. The Servicer must retrieve these reports, review them and transmit any necessary information, as indicated below:

- ***EDR Edit Errors report*** — One Business Day after transmitting EDR information, a Servicer must retrieve this report, which is available in the SPP, that will contain any exceptions and errors on the Mortgages that were reported. The Servicer must correct all exceptions/errors documented on the report and transmit the corrected data to Freddie Mac by the sixth Business Day after accessing the report. For additional information, Servicers may refer to the *EDR Quick Reference Guide* available at https://sf.freddiemac.com/content/_assets/resources/pdf/other/edr_quickref.pdf
- ***EDR Loans Not Reported report*** — A Servicer must retrieve this report, which is available in the SPP, the morning of the fourth Business Day of the month. The report identifies any Mortgage that was reported as being 90 or more days delinquent during the prior month, but was omitted from the current month's EDR transmission and it was not reported as fully reinstated or paid off, that a foreclosure sale was held, or a workout option was completed. If the Mortgage is still delinquent, the Servicer must report the delinquent Mortgage by the sixth Business Day of the month. If the Servicer has not already reported a full reinstatement, payoff, foreclosure sale, or executed deed-in-lieu of foreclosure of the Mortgage, it must report the action to Freddie Mac (see Chapter 8303 or Sections 9203.6, 9209.8 and 9301.38 for these reporting requirements).

9102.8: Compensatory fees for failure to report via EDR (03/02/16)

A Servicer that fails to comply with the EDR requirements in Section 9102.7 will be subject to being assessed the noncompliance fees set forth in Sections 8303.36 and 8303.38.

Freddie Mac will bill the Servicer for such fees on the Servicer Non-Performing Loans Invoice. Refer to Section 9102.1 for information on the payment of Servicing Non-Performing Loans Invoices via an Automated Clearing House draft.

In addition, if the Servicer does not report a Mortgage to Freddie Mac as required via EDR and the Servicer requests reimbursement of expenses on that Mortgage, Freddie Mac reserves the right to deny reimbursement of those expenses on account of the Servicer's failure to report.

Chapter 9201: Freddie Mac Loss Mitigation Evaluation Hierarchy and Performance Standards

9201.1: Rationale for Servicer loss mitigation activities (04/12/23)

Freddie Mac's interest in a Mortgage, the Borrower and the home securing the Mortgage begins when Freddie Mac purchases the Mortgage. The Borrower's ownership of the home is jeopardized when he or she stops making monthly payments. Freddie Mac is committed to helping Borrowers find a solution to the Delinquency if they are experiencing financial difficulty in making the Mortgage payment.

The Borrower must make a commitment to reduce any discretionary, unnecessary expenditures as a condition of Freddie Mac granting a relief or workout option. Additionally, the Borrower is expected to work out similar relief or workout options with other creditors whenever possible.

Freddie Mac recognizes that not every Borrower who is experiencing financial difficulty can retain home ownership. When this is the case, the Servicer can help a Borrower understand the benefits of selling the property to avoid the consequences of foreclosure, where applicable, and the risk of a deficiency judgment.

Freddie Mac wants the Servicer to pursue alternatives to foreclosure whenever possible, because they benefit not only the Borrower, but also the Servicer, Freddie Mac and other interested parties in the Mortgage by:

1. Eliminating the staff time and expense the Servicer incurs to service a delinquent Mortgage or a Mortgage in foreclosure
2. Reinstating the Servicing fee income the Servicer earns if a Mortgage Delinquency is cured, or reinstating part or all of the Servicing fee income if a Mortgage is modified
3. Improving the Servicer's relationship with the Borrower
4. Minimizing Freddie Mac's credit losses
5. Reducing an MI or guarantor's claim payment, when applicable

Even after the Servicer has initiated foreclosure, it should still pursue alternatives to foreclosure to mitigate potential credit losses, whenever possible.

9201.2: Freddie Mac loss mitigation evaluation hierarchy (06/14/23)

If a Borrower who is current or less than 31 days delinquent contacts the Servicer for loss mitigation assistance, the Servicer must first evaluate the Borrower for a reinstatement and then a relief option as set forth in Chapter 9203.

If a reinstatement or relief option as provided in Chapter 9203 is not appropriate based on Borrower circumstances, the Borrower may qualify for a workout option under the Guide. The Servicer must consider a Borrower for workout options in the following sequence:

1. The Servicer must first consider the Borrower for a Freddie Mac Flex Modification in accordance with the requirements of Chapter 9206
2. If a Borrower is ineligible for, does not accept, or fails to complete the Trial Period Plan, the Servicer must next consider the Borrower for a Freddie Mac Standard Short Sale (“short sale”) pursuant to Chapter 9208
3. If a Borrower is ineligible for a short sale or a short sale is not a viable option, the Servicer must next consider the Borrower for a Freddie Mac Standard Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”) in accordance with the requirements of Chapter 9209

When a Borrower becomes 90 days delinquent, or when a Borrower has a Step-Rate Mortgage and becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment, the Servicer must determine if the Borrower is eligible for a streamlined offer for a Flex Modification in accordance with Section 9206.5(c) and if eligible, solicit the Borrower for such modification in accordance with Section 9102.5(a).

If the Borrower’s hardship is the result of an Eligible Disaster but the Borrower indicates he or she is able to resume making the existing contractual monthly payments on the Mortgage, the Servicer must evaluate the Borrower for Flex Modification as provided in Section 9206.5(e), if reinstatement, repayment plan, or Payment Deferral is not a viable option.

If the Borrower’s hardship is one of the four listed below and the Borrower has indicated a desire to sell or vacate the property, the Servicer may consider the Borrower for a short sale without first evaluating the Borrower for a home retention option; however, the Servicer must ensure that the Borrower is aware that a home retention option may be possible:

- Death of a Borrower or death of the primary or secondary wage earner in the household
- Long-term or permanent disability; serious illness of a Borrower/co-Borrower or dependent family member
- Divorce or legal separation; separation of Borrower unrelated by marriage, civil union or similar domestic partnership under applicable law

- Distant employment transfer, including Permanent Change of Station orders or relocation due to new employment, where the transfer or new employment location is greater than 50 miles one-way from the Borrower's current Primary Residence

If the Borrower is not eligible for a relief or workout option, but the Servicer believes that a relief or workout option is still the best solution to the Delinquency, then the Servicer may submit a recommendation to Freddie Mac for review along with the reason for the recommendation, in accordance with the submission procedures in the relevant chapters for relief or workout options.

Additionally, Freddie Mac has a charge-off option available to cease collection and loss mitigation activities on a Mortgage, under certain conditions. (See Sections 9210.1 through 9210.5 for requirements related to the charge-off option.)

9201.3: Servicer's responsibilities for loss mitigation activities (03/02/16)

The Servicer's loss mitigation activities must include:

1. Pursuing reinstatement as the first option to resolve a Delinquency
2. Analyzing the Borrower's financial situation, and determining his or her intention toward the Mortgage obligation
3. Determining the value and condition of the property to calculate the Borrower's equity position and Freddie Mac's potential loss if Freddie Mac were to acquire the property as an REO
4. Pursuing alternatives to foreclosure in accordance with the hierarchy set forth in Section 9201.2 when the Servicer determines the Borrower cannot reinstate
5. Continuing to pursue alternatives to foreclosure even after the Servicer has initiated foreclosure in accordance with Section 9102.4(b)
6. Managing the foreclosure process to ensure that expenses and accruing interest are minimized and obtaining clear and marketable title as soon as legally possible

In conducting loss mitigation activities, the Servicer must comply with:

1. The specific requirements in this chapter and Chapters 9102, 9203 through 9211, 9301 and 9401
2. All FHA, RHS, VA or MI requirements, if applicable

9201.4: Servicer's loss mitigation operations (03/02/16)

Loss mitigation activities must be an integral part of the Servicer's Servicing operations.

Freddie Mac expects the Servicer's collection and loss mitigation staffs to coordinate their efforts.

The Servicer must ensure that it has:

1. A documented process for loss mitigation activities and approving foreclosures
2. Skilled staff devoted to loss mitigation activities
3. Trained collections and loss mitigation staff who:
 - a. Have the ability to gain a Borrower's confidence, and help the Borrower explore alternatives to foreclosure
 - b. Provide counseling to a Borrower early in the Delinquency to explain potential options, and the consequences of foreclosure
 - c. Maintain a record of conversations with a Borrower in the Mortgage file or other form of data storage
 - d. Screen Borrower requests for assistance to identify eligible workout candidates

9201.5: Servicer default management performance standards (01/01/17)

Freddie Mac will measure a Servicer's default management performance against certain metrics, which may be amended by Freddie Mac from time to time.

The Servicer's performance in the metrics will comprise its overall Servicer Success Scorecard assessment in the default management category of the Servicer Success Scorecard.

In addition to the performance standards prescribed below, a Servicer must also refer to its Servicer Success Scorecard for the specific metrics and to Section 3501.2 for additional information about the Servicer Success Scorecard.

(a) Call center performance standards

The following terms are described for purposes of this section:

- **Blockage Rate:** Number of calls blocked, whether intentional or unintentional, as a percentage of inbound calls directed to a Servicer's call center. Example: A Borrower attempting to call the Servicer receives a busy signal as a result of a Servicer's inbound call center's failure to receive such call.
- **Abandon Rate:** Percentage of calls made by the Servicer to Borrowers or by a Borrower to a Servicer that are not intercepted by the Servicer (i.e., a live operator) before the Borrower disconnects.

Servicers that maintain a call center must meet the following minimum call center and other contact performance standards as measured in monthly increments:

- Average speed to answer a telephone call of 60 seconds or less
- 5% or less telephone call Abandon Rate
- 1% or less telephone call Blockage Rate
- Average time for a live operator to respond to e-mails of 48 hours or less after receipt (automated responses not included)
- Live operator chat response times of 5 minutes or less between chats

Servicers that maintain a call center must maintain data related to the performance standards described above, and must make such data available to Freddie Mac upon request.

(b) Quality right party contact performance standard

In its efforts to contact Borrowers, a Servicer must strive to achieve a quality right party contact benchmark of at least 60% on its 120-day delinquent Freddie Mac portfolio.

Borrowers in bankruptcy are excluded from the quality right party contact performance standard. A Servicer's obligation for establishing contact with a delinquent Borrower and scope of a quality right party contact is set forth in Section 9102.3.

Each time the Servicer achieves quality right party contact with a delinquent Borrower, the Servicer must notify Freddie Mac via an EDR transmission in accordance with the following requirements:

- First quality right party contact: Servicers must report default action code AW and the date of the first quality right party contact established with the Borrower within the first three Business Days of the month following the month that the first quality right party contact was established with the Borrower. Default action code AW is reported one time.

- Subsequent quality right party contact: Servicers must report default action code AX if any subsequent quality right party contact was made with the Borrower after the initial contact was established within the first three Business Days of the month following the month that the subsequent contact occurred. Default action code AX may be reported in the same month as default action code AW if a Servicer establishes a subsequent quality right party contact with the Borrower in the same month that initial contact was achieved.

A Servicer must continue to report default action code AX as often as it applies (that is, as often as the Servicer continues to establish quality right party contact with a Borrower when working with the Borrower to resolve a Delinquency) with the date of the last quality right party contact for each month in which the action applies.

For additional information about EDR, refer to Section 9102.7 and Exhibit 82, Electronic Default Reporting Transmission Code List.

(c) Alternative to foreclosure pull-through rate

Servicers will be measured on their ability to successfully transition newly 60-day delinquent Borrowers into an alternative to foreclosure in a given quarter.

At a minimum, Servicers must achieve at least a 60% alternative to foreclosure pull-through rate. The alternative to foreclosure pull-through rate is measured as follows:

Alternatives to foreclosure in the current quarter divided by the prior quarter's new 60-day delinquent Borrower inflows

Reinstatements, forbearance plans, repayment plans, trial period plans, payoffs, modifications, short sales and deeds-in-lieu of foreclosure are included in this performance standard. Mortgages in bankruptcy are excluded from this measurement.

9201.6: Alternatives to foreclosure (12/08/21)

Alternatives to foreclosure are reinstatements, and relief and workout options that, when used, result in a resolution of a Mortgage Delinquency without foreclosing on the property.

Below is a list of the all Freddie Mac alternatives to foreclosure:

(a) Reinstatements

A reinstatement restores a delinquent Mortgage to current status either with a lump-sum payment of all amounts due or a partial payment followed by a repayment plan.

Freddie Mac has two types of reinstatements:

- Full reinstatement

- Partial reinstatement

Refer to Chapter 9203 for additional information on reinstatements.

(b) Relief options

A relief option provides temporary relief to a Borrower and allows the Borrower to cure the Delinquency over a defined period of time. Freddie Mac's relief options are:

- Repayment plan
- Forbearance plan

Refer to Chapter 9203 for additional information on relief options.

(c) Workout options

A workout option is an alternative to foreclosure that eliminates or reduces the potential loss that Freddie Mac would incur if the property securing the Mortgage were acquired through a foreclosure sale.

A mortgage modification is a workout option that will enable the Borrower to retain homeownership.

Refer to Chapter 9206 for additional information.

Freddie Mac's workout options for situations where it is not feasible for the Borrower to retain the property are:

- Short sale
- Deed-in-lieu of foreclosure
- Workout mortgage assumption

Refer to Chapters 9207, 9208 and 9209 for additional information

(d) Charge-offs

Freddie Mac has a charge-off option available for use under certain conditions. A charge-off ceases collection efforts on a Mortgage. See Section 9210.2 for situations when Freddie Mac requires Servicers to make a recommendation for a charge-off.

Chapter 9202: Evaluating the Borrower

9202.1: Delinquency, default and imminent danger of default (09/01/19)

Throughout this chapter, Chapters 9203 through 9210 and 9301, Freddie Mac will use the term Delinquency, which is defined in the Glossary, rather than the term default. Many of the specific requirements for workout options are tied to the severity of the Delinquency.

Except as set forth in Sections 9206.7, 9208.3 and 9209.3, a Borrower is considered to be in imminent danger of default, if, based upon the facts and circumstances of the particular Mortgage and using prudent business judgment, it appears more likely than not that the Borrower will default on his or her Mortgage payments within the next 12 months.

A Borrower must be delinquent in his or her Mortgage payments, or be in imminent danger of default, to be considered for an alternative to foreclosure. The Borrower must document an eligible hardship to be eligible for certain workout and relief options.

Refer to Section 9202.2 for information on verifying a Borrower's hardship. In addition, refer to:

- Chapter 9203 for additional requirements related to relief options
- Chapters 9204 and 9206 through 9210 for additional requirements related to workout options

9202.2: Verifying a Borrower's hardship (06/01/18)

(a) Eligible hardships

A Borrower must have one or more of the eligible hardships identified below in order to be eligible for certain relief or workout options.

The Borrower must document the financial hardship by:

- Signing and submitting to the Servicer a completed Form 710, Mortgage Assistance Application; and
- Providing to the Servicer the applicable hardship documentation described below.

Hardship	Required Hardship Documentation
Unemployment	■ Not required

Hardship	Required Hardship Documentation
Reduction in income: a hardship that has caused a decrease in the Borrower's income due to circumstances outside the Borrower's control (e.g., elimination of overtime, reduction in regular working hours, or a reduction in base pay)	<ul style="list-style-type: none"> ■ Not required
Increase in housing expenses: a hardship that has caused an increase in the Borrower's housing expense due to circumstances outside the Borrower's control (e.g., uninsured losses, increased property taxes, or an HOA special assessment)	<ul style="list-style-type: none"> ■ Not required
Disaster (natural or man-made) impacting the property or Borrower's place of employment	<ul style="list-style-type: none"> ■ Not required
Long-term or permanent disability; serious illness of a Borrower/co-Borrower or dependent family member	<ul style="list-style-type: none"> ■ Written statement from the Borrower, or other documentation verifying disability or illness <p>Note: Detailed medical information is not required, and information from a medical provider is not required</p>
Divorce or legal separation	<ul style="list-style-type: none"> ■ Final divorce decree or final separation agreement; OR ■ Recorded quit claim deed
Separation of Borrowers unrelated by marriage, civil union or similar domestic partnership under applicable law	<ul style="list-style-type: none"> ■ Recorded quitclaim deed; OR ■ Legally binding agreement evidencing that the non-occupying Borrower or co-Borrower has relinquished all rights to the property

Hardship	Required Hardship Documentation
Death of a Borrower or death of either the primary or secondary wage earner	<ul style="list-style-type: none"> ■ Death certificate; OR ■ Obituary or newspaper article reporting the death
Distant employment transfer/ Relocation (transfer or relocation must be greater than 50 miles one-way from Borrower's current Primary Residence)	<p>For active-duty service members: Permanent Change of Station (PCS) orders or letter showing transfer</p> <p>For employment transfers/new employment:</p> <ul style="list-style-type: none"> ■ Copy of signed offer letter or notice from employer showing transfer to a new location or notice from employer showing transfer to a new location or written explanation if employer documentation is not applicable; AND ■ Documentation that reflects the amount of any relocation assistance provided (not required for those with PCS orders)
Other hardship that is not covered above	<ul style="list-style-type: none"> ■ Written explanation describing the details of the hardship and relevant documentation

(b) Situations not considered to be an eligible hardship

Any other events or circumstances other than those described above in Section 9202.2(a) are not considered eligible hardships for purposes of eligibility for a workout option or certain relief options under the Guide. For example, the following are not considered eligible hardships:

1. Depreciation in the value of the Mortgaged Premises
2. Temporary income interruption, but the Borrower has assets (liquid or that can be liquidated) available to pay the Mortgage
3. Interest rate adjustment on an ARM or re-amortization of an interest only Mortgage upon expiration of the interest only period

9202.3: Borrower income documentation for workout or relief options (06/14/23)

(a) Verification of income

A Servicer must verify the income for all Borrowers on the Note when evaluating a Borrower for certain workout or relief options. The Borrower's income must be supported by documentation that is not more than 90 days old as of the date the Servicer first determines that the Borrower submitted a complete Borrower Response Package. (Refer to Section 9102.5 for information on the Borrower Response Package.)

In addition to the income documentation required in Section 9202.3(b), in the following circumstances, a Servicer must obtain a Borrower's tax transcript by processing Internal Revenue Service (IRS) Form 4506-C, Request for Transcript of Tax Return.

- There are inconsistencies in the information the Borrower provided (e.g., information the Borrower provided in Form 710, Mortgage Assistance Application, and the income documentation);

The Borrower is self-employed or is a fiscal year tax filer (i.e., files federal income tax returns based on a fiscal year – a tax year beginning in one calendar year and ending in the following year) and the Borrower has not provided any of the required documentation specified in Section 9202.3(b) to support the income type; or

- As otherwise requested by Freddie Mac

IRS Form 4506-C is available at <http://www.irs.gov>. Servicers are encouraged to use the IRS Income Verification Express Service (IVES), which uses secure e-mail to deliver tax return transcripts to Servicers.

(b) Required income documentation

The Borrower must document all types of income by providing the following income documentation as part of the Borrower Response Package:

Income Types	Required Documentation
Income that requires IRS Form 4506-C to be obtained and processed	Borrowers who (i) are self-employed or (ii) are fiscal year tax filers and who have not provided any of the required documentation specified below, must provide IRS Form 4506-C, Request for Transcript of Tax Return.

Income Types	Required Documentation
Gross (pre-tax) wages, salaries and overtime pay, commissions, tips, and bonuses	<ul style="list-style-type: none"> ■ Most recent pay stub and documentation of year-to-date earnings if not on paystub; OR ■ Two most recent bank statements showing income deposit amounts <p>(NOTE: When bank statements provide net income, for this and subsequent income types, refer to Section 9202.3(c), below, for instructions on how to calculate gross income)</p>
Self-employment income	<ul style="list-style-type: none"> ■ Two most recent bank statements showing self-employed income deposits amounts; OR ■ Most recent signed and dated quarterly or year-to-date profit/loss statement; OR ■ Most recent complete and signed business tax return; OR ■ Most recent complete and signed individual federal income tax return
Rental income	<ul style="list-style-type: none"> ■ Two most recent bank statements demonstrating receipt of rent; OR ■ Two most recent deposited rent checks
Taxable Social Security, disability or death benefits, pension, public assistance, housing allowance or adoption assistance	<ul style="list-style-type: none"> ■ Two most recent bank statements showing deposit amounts; OR ■ Award letter or other documentation showing the amount and frequency of the benefits such as letters, exhibits, a disability policy or benefits statement from the provider
Non-taxable Social Security or disability income	<ul style="list-style-type: none"> ■ Two most recent bank statements showing deposit amounts; OR ■ Award letter or other documentation showing the amount and frequency of the benefits such as letters, exhibits, a disability policy or benefits statement from the provider
Unemployment benefits	<ul style="list-style-type: none"> ■ Not required

Income Types	Required Documentation
Non-Borrower income	<p>Servicers must include non-Borrower household income in the monthly gross income if:</p> <ul style="list-style-type: none"> ■ It is voluntarily provided by the Borrower ■ The Servicer verifies that the non-Borrower occupies the subject property as a Primary Residence based on a review of a credit report or other documentation (e.g., utility bills, paystubs, benefits statements); and ■ There is documentary evidence to support that the income has been, and reasonably can continue to be, relied upon to support the Mortgage payment <p>A Servicer should not consider expenses of non-Borrower household members, but may only consider the percentage of his or her income that the non-Borrower routinely contributes to the household.</p>
Investment or insurance income	<ul style="list-style-type: none"> ■ Two most recent investment or insurance income statements showing receipt of income; OR ■ Two most recent bank statements supporting receipt of the income
Other types of income not listed above (Note: Only include alimony, child support, or separate maintenance income if the Borrower chooses to have it considered for repaying the Mortgage)	<ul style="list-style-type: none"> ■ Two most recent bank statements showing receipt of income; OR ■ Other documentation showing the amount and frequency of the income

As outlined in Section 5302.4, the following are acceptable alternatives for the Borrower's signature on the tax return(s):

- Evidence the tax returns were filed electronically (e.g., signed Form 8879, IRS e-file Signature Authorization or equivalent), or
- Tax transcripts that validate the information on the unsigned tax returns, or

- A completed IRS Form 4506-C signed by the Borrower, or alternate form acceptable to the IRS that authorizes the release of comparable tax information to a third party

Note: All income must comply with all applicable federal, State and local laws, ordinances, regulations, orders and regulatory guidance in accordance with Section 1301.2.

(c) Determining gross monthly income

The Borrower's gross income includes all taxable and non-taxable income, before any payroll deductions, including, but not limited to, base wages and salaries, overtime pay, commissions, fees, tips, bonuses, housing allowances, other compensation for personal services, Social Security payments, including Social Security received by adults on behalf of minors or by minors intended for their own support, payments from annuities, insurance policies, retirement funds, and pensions, disability or death benefits, and positive net rental income, except that the Borrower may, but is not required to, provide alimony, child support or separation maintenance income.

The Servicer must gross up all non-taxable income received by the Borrower only if the Borrower is able to provide documentation verifying that the income is not taxable. The Servicer must maintain such documentation in the Mortgage file. To gross up non-taxable income, the Servicer must multiply the amount of the non-taxable income by 1.25; if the actual amount of federal or State taxes that would be paid is more than 25% of the Borrower's nontaxable income, the Servicer may use the actual percentage.

The Servicer must gross up all net income when the Borrower submits bank statements to support the income type.

To gross up net income, the Servicer must:

1. Establish the Borrower's monthly net income in accordance with this Section 9202.3; and
2. Multiply the amount of the monthly net income by 1.25 to determine the Borrower's monthly gross income

Refer to Exhibit 101, Income Calculation Guidelines for Alternative to Foreclosure Options, for additional instructions on calculating income.

(d) Substitution of income documents

When a Borrower is in an active Chapter 7 or Chapter 13 bankruptcy, the Servicer may accept copies of the bankruptcy schedules and tax returns (if returns are required to be filed) in lieu of Form 710, and IRS Form 4506-C, and may use this information to determine Borrower eligibility (with the income documentation). Servicers should request the schedules and tax returns from the Borrower, Borrower's counsel or bankruptcy court. If the bankruptcy schedules are more than 90 days old as of the date that such schedules are

received by the Servicer, the Borrower must provide updated evidence of income in accordance with this section.

(e) Use of Third Party Vendors

Servicers are reminded that per existing guidance around the use of outsourced vendors in Section 8102.1(f), they may utilize Third Party Vendors for the verification of income as outlined in Section 9202.3 above as long as they comply with all requirements in the Guide.

9202.4: Servicer reconciliation of inconsistencies; fraud detection; and document authenticity (03/02/16)

(a) Reconciling income and/or hardship information inconsistencies

If, based on the Servicer's good business judgment, the Borrower's income and/or the hardship information disclosed by the Borrower is inconsistent with the income and/or hardship documentation provided by the Borrower, the Servicer must attempt to reconcile such inconsistencies. The Servicer must also document such material differences in its servicing system.

(b) Fraud detection

The Servicer must not offer the Borrower a relief or workout option if there is reasonable evidence indicating the Borrower submitted false or misleading information or otherwise engaged in fraud in connection with the request for payment relief. A Servicer must use good business judgment in determining whether the evidence is reasonably indicative of a Borrower's intentional misrepresentation or submission of false or misleading information. Refer to Section 3201.2 for reporting requirements related to the discovery of fraud or possible fraud on a Mortgage.

(c) Document authenticity

A Servicer must use good business judgment when determining whether verification documents are authentic and accurate, and allow the Servicer to underwrite the Borrower in accordance with the requirements of this Guide. A Servicer may elect to accept documentation with imperfections (blank fields, erasures, use of correction tape, inaccurate dates, etc.) if the Servicer determines that the imperfections are immaterial to the eligibility decision, are not indicative of fraud and do not impact the Servicer's ability to verify the completeness and accuracy of the Borrower's financial representations.

9202.5: Risk of Property Ownership (08/01/18)

Risk of Property Ownership exists when there is a risk of liability to Freddie Mac if Freddie Mac becomes the owner of the property. For example, there is Risk of Property Ownership if the condition of the Mortgaged Premises, or its immediate surroundings, pose a threat to the health or safety of a property owner (e.g., condemnation), or there is otherwise a situation or presence that is exigent or atypical that would cause a potential property owner to incur extraordinary risk of liability if it becomes the owner of the property.

The Servicer must review the property inspection reports that the Servicer receives to determine if a Risk of Property Ownership exists. Refer to Section 8403.1 for the requirements for managing a property securing a Mortgage identified as posing a Risk of Property Ownership.

9202.6: Analyze the reason for Delinquency (12/01/18)

In the course of performing collection activities, the Servicer should have determined why the Borrower has not remitted its Mortgage payments. Additionally, the Servicer should have determined the Borrower's willingness to resolve the Delinquency problem and have counseled the Borrower about the consequences of the Delinquency.

If the Servicer has determined that the Borrower's reason for not paying the Mortgage payment is temporary, it may consider whether a partial reinstatement, a repayment plan or forbearance plan may be a solution to cure the Delinquency. For the Servicer to consider such alternatives, the Borrower must have the ability to make payments and bring the Mortgage current within one year.

If the Borrower's financial situation and/or circumstances will not permit him or her to bring the Mortgage current within a year, the Servicer must analyze the Borrower's financial situation and determine the Borrower's desire to retain ownership of the home to determine the appropriate solution to the Delinquency. See Section 9201.2 for the sequence in which a Borrower must be evaluated for loss mitigation solutions.

9202.7: Tenant-occupied properties built before 1978 (11/13/19)

Before considering a deed-in-lieu of foreclosure on a tenant-occupied property built before 1978, if the Servicer is aware of, or becomes aware of, any outstanding lead-based paint or health code citations or violations against the property or property owner, it must notify Freddie Mac (see **Directory 5**), and include a copy of the citation or violation and any other pertinent information.

After reviewing the documentation, Freddie Mac will provide the Servicer with instructions on the course of the action to take.

9202.8: Analyze the Mortgage characteristics and terms (03/02/16)

The Servicer must review the Mortgage characteristics and terms to determine what effect they might have on determining a course of action to resolve the Delinquency.

The Servicer must compare the UPB and any delinquent amounts to the probable sale price of the property to determine the Borrower's equity position and Freddie Mac's potential loss should Freddie Mac have to acquire the property, if the Delinquency cannot be cured or resolved.

The Servicer must also review the Mortgage product type and the current interest rate compared to current market interest rates to identify potential roadblocks in curing a Delinquency. For example, if the Mortgage is an adjustable-rate Mortgage, the Borrower may be facing a new monthly payment that he or she cannot afford.

9202.9: Determine the best course of action for Delinquency (12/01/18)

After evaluating the Borrower's financial information and circumstances, the value and condition of the property, and the Mortgage characteristics and terms, the Servicer must begin to determine the best course of action to resolve the Delinquency. Based on the information provided by the Borrower, the Servicer must determine which of the various relief and workout options is appropriate.

If the Borrower's property has been damaged by a natural or man-made disaster, or the Borrower has an extraordinary circumstance, the Servicer should consider recommending a forbearance plan. If the Borrower wants to keep the property and has a source of stable monthly income, the Servicer should consider whether to consider a repayment plan, reinstatement or forbearance plan, or recommend a loan modification. If the Borrower cannot or does not want to retain ownership of the property, the Servicer should consider recommending workout options that allow the Borrower to sell or transfer the property.

If a relief or workout option will not resolve the Delinquency, the Servicer must initiate foreclosure in accordance with the requirements in Chapter 9301.

Refer to Chapter 8404 for additional requirements for Mortgages secured by properties affected by a disaster.

9202.10: What is a property inspection? (03/02/16)

Except when an interior inspection is required (see Section 9202.12(c)), a property inspection is an exterior inspection of the property to determine:

1. The condition of the property
2. If there is any waste, deterioration or vandalism
3. The occupancy status
4. If the property has been abandoned
5. If the property is listed for sale
6. If there are obvious environmental hazards
7. If there is deferred maintenance or there are health and safety problems. The property is considered to have deferred maintenance when the Borrower has allowed the property condition to deteriorate to a point where general maintenance items such as trash removal, painting, yard work and general repairs have not been performed.
8. If visible asset preservation is needed

9202.11: Documenting property inspections (03/02/16)

(a) Form to use

A Servicer must document each inspection of the property with an inspection report that is prepared on Form 1013, 1-4 Unit Property Inspection Report, or a substitute report. The substitute report can be the Servicer's proprietary form or a form the inspection company performing the inspection prepares, including a computer-generated or automated form. The substitute form must contain all of the data elements on Form 1013.

(b) Retaining inspection reports

The Servicer must retain the inspection reports in the Mortgage file or other form of data storage for the same period of time that it retains the Mortgage file.

9202.12: When to order a property inspection (02/01/22)

The Mortgaged Premises must be inspected in accordance with the requirements below to determine the physical condition and occupancy status.

The Servicer may use a third party to conduct property inspections.

(a) Inspection dates

The Servicer must order a property inspection on or after the 90th day of Delinquency and obtain the complete inspection report by the 120th day of Delinquency. The Servicer must continue to obtain a newly completed property inspection report every calendar month. No two reports may be completed within a 20-day period while the Mortgage remains 90 days or more delinquent. However, weekly and biweekly ordinance-required property inspections (reimbursable under expense codes 404016 and 404017) are exempt from the 20-day limitation. The Servicer must discontinue obtaining newly-completed property inspection reports when or upon:

- The Servicer has achieved Quality Right Party Contact (QRPC) within the last 30 days
- The Borrower has made a full P&I payment within the last 30 days
- The Borrower has been approved for, or is performing under the terms of a reinstatement, relief option, or workout option
- The Borrower has filed for bankruptcy and is performing under the applicable bankruptcy plan, or where otherwise performing a property inspection would be considered a violation of the automatic stay provision
- The Servicer has successfully reported the foreclosure sale date or the deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) pursuant to Section 9603.1; or
- The property is sold to a third party at the foreclosure sale and the foreclosure action is complete. (Note that, depending upon the jurisdiction, a foreclosure action may not be complete until the sale is confirmed or ratified.)

If the property is found to be vacant or if the occupancy is unknown, property inspections must continue as long as the Mortgage remains 90 or more days delinquent regardless of the Servicer achieving quality right party contact or a prospective resolution to the Delinquency.

In the event that extenuating circumstances cause property inspection delays, Servicers are instructed to document the mortgage file explaining the cause of the delays.

(b) Curbside inspections

Freddie Mac does not generally consider a curbside or “drive-by” property inspection to be a sufficient exterior property inspection. However, Freddie Mac will permit a curbside inspection to be performed in the following circumstances:

- Legal constraints due to compliance with federal, State or local law, including, but not limited to, an active bankruptcy by the Borrower; or

- Personal danger to the inspector

(c) Abandonment or waste

When the Servicer learns that the Mortgaged Premises have been abandoned or are in a severe state of deterioration, waste or disrepair that warrants a physical condition rating of “poor” on Form 1013, 1-4 Unit Property Inspection Report, the Servicer must take action as required in Sections 8403.1 and 8403.2 including, but not limited to, ordering a monthly property inspection, even if the Mortgage payments are less than 60 days delinquent.

In addition, if the Mortgaged Premises have been confirmed as abandoned, the Servicer must obtain monthly interior inspections, in accordance with the terms of the Mortgage documents and applicable law.

(d) Property seizure

Refer to Sections 8402.2, 8402.3 and 8402.4 for property inspection requirements related to property seizure.

9202.13: Results of property inspection (03/02/16)

Review the completed inspection report and determine if any further action is needed.

**IF the property inspection indicated
that the property is...**

Listed for sale

THEN the Servicer must...

1. Obtain the name and telephone number of the listing broker and retain for future use
2. Enter in its monthly EDR, the date that it became aware that the property was listed for sale

Vacant and/or not maintained

Follow the requirements in Sections 8403.1 and 8403.2

9202.14: What is an abandoned property? (03/02/16)

An abandoned property is:

1. A property to which the owner has voluntarily and intentionally relinquished ownership, claim and control, or
2. As otherwise defined under local laws. Factors evidencing abandonment include vacancy, waste, deterioration and lack of utilities.

9202.15: Reimbursement of property inspections (03/02/16)

For each property inspection completed in accordance with the requirements set forth in Section 9202.12, Freddie Mac will reimburse the Servicer the lesser of:

- The actual cost of the property inspection
- The applicable expense limit stated in Exhibit 57, 1- to 4- Unit Property Approved Expense Amounts

Refer to Section 9701.9 for details regarding the reimbursement of property inspections.

9202.16: When to obtain a property value (03/31/22)

(a) Obtaining a property value to prepare foreclosure sale bidding instructions

Servicers are not required to obtain property values when preparing foreclosure sale bidding instructions on properties subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure (in accordance with Chapter 4406). The Servicer must refer to the applicable resale restrictions for details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met.

If State law requires that an appraisal report be used to set the bid, then the Servicer must obtain the appraisal report in sufficient time to complete the foreclosure by the scheduled foreclosure sale date. The Servicer may obtain the appraisal report either directly from Freddie Mac through BP Odirect® or from an appraiser of its choice.

If a Servicer does not obtain the appraisal report directly from Freddie Mac, then the Servicer must:

- Obtain Freddie Mac's prior written approval to order the appraisal report from an appraiser of its choice at least 30 days before the scheduled foreclosure sale date. Freddie Mac's approval can be obtained by submitting a request for pre-approval (RPA) via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). If a Servicer does not obtain Freddie Mac's prior approval, Freddie Mac will not reimburse the Servicer for the appraisal expense.
- Ensure the appraisal is obtained in accordance with applicable law, and the appraisal must comply with the requirements of Topic 5600 and Section 9301.33

When State law does not require an appraisal report to be used to set the bid, unless the foreclosure sale is of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the Servicer must comply with the credit bid

requirements in Section 9301.32 for First-Lien Mortgages not covered by mortgage insurance.

In States where the sheriff orders an appraisal to determine the opening bid at a foreclosure sale, the Servicer must still determine the maximum bid the Servicer is authorized to make on Freddie Mac's behalf. (See Sections 9301.31 through 9301.36 for instructions for bidding at a foreclosure sale.)

(b) Obtaining a property value in connection with an alternative to foreclosure

Servicers must obtain a property value from Freddie Mac when considering a Borrower for a workout. The requirements for obtaining a property value differ based on the type of alternative to foreclosure for which the Borrower is being considered. Refer to Chapters 9206 through 9210 for the requirements for obtaining a property value for each specific foreclosure alternative.

Note: If the Mortgage is covered by mortgage insurance, the Servicer must ensure that the property value it obtains is based on a property valuation type that is consistent with the MI's requirements.

9202.16: When to obtain a property value (Future effective date 10/02/23)

(a) Obtaining a property value to prepare foreclosure sale bidding instructions

Servicers are not required to obtain property values when preparing foreclosure sale bidding instructions on properties subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure (in accordance with Chapters 4406, 4502 or 4504, as applicable). The Servicer must refer to the applicable resale restrictions for details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met.

If State law requires that an appraisal report be used to set the bid, then the Servicer must obtain the appraisal report in sufficient time to complete the foreclosure by the scheduled foreclosure sale date. The Servicer may obtain the appraisal report either directly from Freddie Mac through BP Odirect® or from an appraiser of its choice.

If a Servicer does not obtain the appraisal report directly from Freddie Mac, then the Servicer must:

- Obtain Freddie Mac's prior written approval to order the appraisal report from an appraiser of its choice at least 30 days before the scheduled foreclosure sale date. Freddie Mac's approval can be obtained by submitting a request for pre-approval (RPA) via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

If a Servicer does not obtain Freddie Mac's prior approval, Freddie Mac will not reimburse the Servicer for the appraisal expense.

- Ensure the appraisal is obtained in accordance with applicable law, and the appraisal must comply with the requirements of Topic 5600 and Section 9301.33

When State law does not require an appraisal report to be used to set the bid, unless the foreclosure sale is of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the Servicer must comply with the credit bid requirements in Section 9301.32 for First-Lien Mortgages not covered by mortgage insurance.

In States where the sheriff orders an appraisal to determine the opening bid at a foreclosure sale, the Servicer must still determine the maximum bid the Servicer is authorized to make on Freddie Mac's behalf. (See Sections 9301.31 through 9301.36 for instructions for bidding at a foreclosure sale.)

(b) Obtaining a property value in connection with an alternative to foreclosure

Servicers must obtain a property value from Freddie Mac when considering a Borrower for a workout. The requirements for obtaining a property value differ based on the type of alternative to foreclosure for which the Borrower is being considered. Refer to Chapters 9206 through 9210 for the requirements for obtaining a property value for each specific foreclosure alternative.

Note: If the Mortgage is covered by mortgage insurance, the Servicer must ensure that the property value it obtains is based on a property valuation type that is consistent with the MI's requirements.

9202.17: Obtaining a property value (03/01/20)

Regardless of whether the Servicer, Freddie Mac or both are evaluating the Borrower for a workout or relief option, the Servicer must provide the Borrower such notices and valuations as are required by applicable law, including the Equal Credit Opportunity Act. This includes notices and valuations developed in connection with a workout or relief option that is considered to be an application for credit. The Servicer must give the Borrower the property valuation provided to the Servicer by Freddie Mac through BPOdirect® or other sources.

If Freddie Mac participated in evaluating a Borrower for a workout or relief option that gives rise to an obligation to provide the Borrower a valuation developed in connection with an application for a workout or relief option, then the Servicer must provide the valuation to the Borrower on behalf of Freddie Mac. In these cases, the communication from the Servicer to the Borrower transmitting the valuation must identify both the Servicer and Freddie Mac as providing the valuation.

(a) Obtaining a property value via BPOdirect

For requirements on obtaining a property value via BPOdirect, refer to Section 2406.4.

(b) Property values obtained via the Freddie Mac Real Estate Valuation and Pricing tool

Except for Mortgages secured by properties subject to resale restrictions (in accordance with Chapter 4502 or 4406, as applicable), the Servicer must obtain a property value through the Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools) for a Borrower being considered for a Standard Short Sale. Refer to Section 9208.5 for additional details on obtaining a short sale property value.

(c) Obtaining an HVE® point value estimate

The Servicer may determine the value of the Mortgaged Premises by obtaining an HVE® point value estimate through one of Freddie Mac's HVE distributors where permitted under the Guide. Refer to Section 9206.8 for additional requirements on obtaining an automated property value for a modification. For detailed information on HVE and Freddie Mac's distributors, visit <https://sf.freddiemac.com/tools-learning/home-value-suite/home-value-explorer>.

Contact Freddie Mac with any questions about obtaining a property valuation (see **Directory 6**).

9202.18: Checking the status of orders for property valuations (10/23/20)

A Servicer may determine the status of its BPO order by accessing BPODirect® and entering the Freddie Mac loan number. Contact Freddie Mac with any questions about a BPO order (see **Directory 6**).

A Servicer may determine the status of the property valuation ordered in the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools) for the purposes of a Freddie Mac Standard Short Sale pursuant to Section 9202.17. (See also Section 9208.5 for details on obtaining a short sale property value via the Freddie Mac Real Estate Valuation and Pricing tool.)

9202.19: Valuation costs (05/01/23)

Freddie Mac does not charge a fee for automated valuations. For all other valuations, the cost of the valuation depends on whether an interior or exterior valuation is conducted. Servicers should consult the chart below for further details related to the cost of the property valuations ordered through BPODirect® or Real Estate Valuation Pricing (see Exhibit 88, Servicing Tools):

Purpose of valuation order	Valuation type	Cost
<ul style="list-style-type: none"> ■ Short sale ■ Deed-in-lieu of foreclosure ■ Workout Mortgage assumption of: <ul style="list-style-type: none"> <input type="checkbox"/> A Mortgage secured by a 2- to 4-unit property, a Manufactured Home or a dwelling subject to a leasehold estate <input type="checkbox"/> A Cooperative Share Loan secured by a First Lien on the Cooperative Interest to a Cooperative Unit (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans) ■ Determine value for Borrower-requested cancelation of Borrower-paid mortgage insurance 	<p>BPO: Interior valuation with interior and exterior photographs</p> <p>Full interior/exterior appraisal</p> <p>1-unit single family property</p> <p>2-4 unit property</p> <p>Note: A Servicer should only order an appraisal when required by applicable law or the Servicer determines an appraisal is in the best interest of the Borrower</p>	<p>\$150</p> <p>\$775</p> <p>\$850</p>
<ul style="list-style-type: none"> ■ Modification of a Mortgage secured by a 1- to 4-unit property (not a Manufactured Home, a dwelling subject to a leasehold estate or a Cooperative Unit) <p>Note: A Servicer must not order a new BPO through BPOdirect® for a 1- or 2-unit property if the Servicer is required to use an available HVE® point value estimate or automated value in accordance with the requirements of Section 9206.8. (See Section 2406.4 regarding obtaining a property value via BPOdirect.)</p> ■ Modification of: <ul style="list-style-type: none"> <input type="checkbox"/> A Mortgage secured by a Manufactured Home or a dwelling subject to a leasehold estate 	<p>BPO: Exterior valuation with exterior photographs</p> <p>Exterior (drive-by) appraisal</p> <p>Note: A Servicer should only order an appraisal when required by applicable law or the Servicer determines an appraisal is in the best interest of the Borrower</p>	<p>\$100</p> <p>\$550</p>

9202.20: Remitting BPO cost reimbursements to Freddie Mac (03/02/16)

(a) BPOs ordered for loss mitigation or foreclosure sale bidding

For BPOs ordered for loss mitigation or foreclosure sale bidding, the Servicer must forward a check made payable to the Federal Home Loan Mortgage Corporation at the following address.

FREDDIE MAC
P.O. BOX 730453
Dallas, TX 75373-0453

Send overnight and courier deliveries to:

JP MORGAN CHASE
Dallas National Wholesale LB TX 1-0029
14800 Frye Road
Fort Worth, TX 76155

Attn: HomeSteps #73453

Whenever possible and if permitted by State law, the Servicer must collect the cost of any applicable BPOs from the Borrower if the Mortgage was fully reinstated, paid-off or modified pursuant to the modification requirements in Chapter 9206 or assumed under Freddie Mac's workout Mortgage assumption option in Chapter 9207. If the Servicer was unable to collect the cost of the BPO from the Borrower, it must document in the Mortgage file the reason it was unable to collect the funds. Freddie Mac will review the reasons for noncollection when it audits the Servicer's files.

If the Borrower is offering to fully reinstate the Mortgage and can pay all arrearages and costs, except for the cost of the BPO, the Servicer may reinstate the Mortgage without collecting the BPO cost. The Servicer is not required to remit the BPO funds to Freddie Mac, but must document the reason for nonremittance in the Mortgage file.

The Servicer may collect accrued late charges from the Borrower once all other arrearages and costs, including the BPO costs, are paid.

(b) BPOs ordered for Borrower-paid mortgage insurance cancelation

For BPOs ordered for cancelation of Borrower-paid mortgage insurance, the Servicer will be billed for the cost of the BPO on its Performing Loans monthly Servicer Billing Statement. This cost must be paid in accordance with the requirements for remitting payment of fees billed on the Servicer's billing statement. Refer to Section 8303.6 for information on remitting fees billed on the Performing Loans monthly Servicer Billing Statement.

Chapter 9203: Reinstatements and Relief Options

9203.1: Reinstatements and relief options (01/01/21)

The most desirable resolution to a Delinquency is reinstatement. Reinstatement is the act of restoring a delinquent Mortgage to current status. When the Servicer's collection efforts do not result in reinstatement of a delinquent Mortgage, the Servicer should consider offering the Borrower a relief option.

A relief option is an alternative to foreclosure that provides a Borrower with temporary relief or an opportunity to cure a Delinquency over a defined period of time or bring the Delinquency immediately current. Servicers must evaluate Borrowers for relief options in the following sequence:

- Reinstatement (Sections 9203.3 through 9203.7)
- Forbearance (Sections 9203.12 through 9203.17)
- Repayment plan (Sections 9203.8 through 9203.11)
- Payment Deferral (Sections 9203.18 through 9203.27)

If the Servicer has a Borrower whose situation does not meet Freddie Mac's relief option eligibility requirements, but the Servicer feels a relief option is still the best possible solution to cure the Delinquency, the Servicer must submit a request to Freddie Mac (**see Directory 5**) for Freddie Mac's review. The Servicer must use Form 105, Multipurpose Loan Servicing Transmittal, and explain why a relief option is the best solution to the Delinquency.

In lieu of having the Servicer or Borrower prepare, sign and send, return or submit paper documents necessary to process a reinstatement or relief option, the Servicer and Borrower may provide loss mitigation information and documents electronically. See Section 1401.17 for eligible documents and related requirements.

9203.2: General requirements for reinstatements and relief options (03/02/16)

For all reinstatements and relief options, the Servicer must:

1. Comply with the requirements of the FHA, VA, RHS or MI and obtain approval from the FHA, VA, RHS or MI, if applicable

2. Retain any written agreements in the Mortgage file
3. Within two Business Days of the date on which the Servicer receives a written request for payoff or reinstatement figures, the Servicer must provide complete, written figures as of the request date to the attorney, trustee, workout specialist or outsourcing vendor requesting the information.

For all reinstatements and relief options, the Servicer must not:

1. Demand payment of expenses from the Borrower in excess of the costs the Servicer actually incurred at the time the Borrower reinstates the Mortgage. These costs may not exceed Freddie Mac's approved expense amounts (see Exhibit 57A, Approved Attorney Fees and Title Expenses), unless the Servicer has obtained Freddie Mac's approval to exceed these amounts, which approval may be requested by submitting Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 5**) prior to incurring the expense.
2. Refuse to reinstate a Mortgage if the Borrower is unwilling or unable to pay a reinstatement or relief fee that is allowed by applicable law or the Purchase Documents. Among available options, the Servicer may defer collection of the fee until payoff of the Mortgage.
3. Charge the Borrower any of the costs itemized in Section 9701.15

9203.3: Types of reinstatement (10/09/19)

There are two types of reinstatement: full and partial.

(a) Full reinstatement

A full reinstatement occurs when the Borrower restores a delinquent Mortgage to current status by paying the total delinquent amount, including advances, delinquent principal and interest, legal costs and other expenses incurred and that are past due under the Note and the Security Instrument.

The Servicer must not charge or collect from the Borrower an amount that exceeds the expense limits specified in Exhibit 57A, Approved Attorney Fees and Title Expenses, except in cases where a higher expense amount is legally allowable and recoverable. In addition, the payment must not include reimbursement for costs the Servicer incurred if applicable law prohibits collection of those costs from the Borrower.

(b) Partial reinstatement

A partial reinstatement occurs when the Borrower makes at least one full contractual monthly payment on a delinquent Mortgage, but does not bring the Mortgage current. Servicers must report the loan level transaction in accordance with Section 8303.23.

(c) Partial reinstatement and repayment plan

A partial reinstatement should be coupled with a repayment plan to restore a delinquent Mortgage to current status, but doing so is not mandatory. When processing a repayment plan:

1. The Borrower must pay an amount that (i) equals or exceeds at least one full contractual monthly payment on a delinquent Mortgage, and (ii) is less than the total delinquent amount due, including delinquent principal and interest, advances, legal costs and other expenses incurred and that are past due under the Note and the Security Instrument;
2. The Borrower must agree to a repayment plan that provides for payment of the remaining arrearage, and a stipulation that suspends the foreclosure proceedings during the repayment plan and that allows the Servicer to recommence foreclosure at the point the foreclosure was suspended if the Borrower defaults on the repayment plan, unless otherwise prohibited by applicable law. (Note: Exhibit 93, Evaluation Model Clauses, includes a model repayment plan template and a model reinstatement template that the Servicer may combine and amend as necessary to comply with the requirements of this section and applicable law); and
3. The Servicer must not charge or collect from the Borrower an amount that exceeds the expense limits specified in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts, and Exhibit 57A unless those amounts were approved by Freddie Mac. In addition, the payment must not include reimbursement for costs the Servicer incurred if applicable law prohibits collection of those costs from the Borrower.

Servicers that choose not to pair a partial reinstatement with a repayment plan must continue to attempt to resolve the Delinquency and remain responsible for adhering to foreclosure timeline requirements.

9203.4: When to accept full reinstatement (03/02/16)

The Servicer must accept full reinstatement of a Mortgage if the payment, in cash or certified funds, includes the total amount delinquent, accrued interest, unpaid principal, actual legal costs including any advances, other expenses incurred including the cost of a BPO, if applicable, inspection fees and accrued late charges. With the exception of inspection fees, regardless of expenses incurred, the Servicer must not charge the Borrower an amount that exceeds the expense limits specified in Exhibit 57A, Approved Attorney Fees and Title Expenses. In addition, the payment must not include reimbursement for costs the Servicer incurred if State law prohibits collection of those costs from the Borrower.

The Servicer must not refuse to accept a full reinstatement if the Borrower offers to pay all amounts due except for the cost of the BPO, inspection fees and accrued late charges. The Servicer may make arrangements with the Borrower to pay the late charges after the Mortgage is reinstated. If the Borrower can pay all arrearages, inspection fees and costs, except for the cost of the BPO, the Servicer is not required to collect the BPO cost from the Borrower or remit the cost of the BPO to Freddie Mac. The Servicer must document the reason for nonremittance of the BPO cost in the file.

The Servicer must collect the cost of the BPO before it can collect any accrued late charges.

9203.5: When to accept partial reinstatement of a Mortgage in foreclosure (01/01/19)

The Servicer must accept partial reinstatement of a Mortgage referred to foreclosure if the following conditions are met.

1. The Borrower submits payment in cash or certified funds of:
 - (a) All outstanding legal fees and related expenses, in amounts not to exceed the expense limits specified in Exhibit 57A, Approved Attorney Fees and Title Expenses, and
 - (b) An amount equal to, at a minimum, the first payment due under the repayment plan
2. If there is an Escrow account on the Mortgage, the Borrower must enter into a repayment plan with the Servicer that includes an agreement to repay the remaining delinquent interest, principal and Escrow (if applicable) and the scheduled monthly payments, in no more than 12 months from the date the Servicer receives the partial reinstatement funds. The repayment plan must be in writing if the plan exceeds three months. If the Mortgage was referred to foreclosure prior to extending the repayment plan, the Borrower must make the first payment under the agreement in order to accept the terms of the plan. If there is no Escrow account on the Mortgage, the Servicer must establish one if the repayment period exceeds three months (unless prohibited by applicable law) and then may extend the repayment period to no more than 18 months without Freddie Mac's approval.

The plan must state:

- (a) The amount of the partial reinstatement payment
- (b) The total amount to be repaid
- (c) Beginning and end dates of the repayment period
- (d) The exact amount of the repayment plan payment that will be added to the Borrower's regular monthly payment

- (e) That the Borrower must pay all scheduled monthly payments during the period of the repayment plan
- (f) That the Borrower must continue monthly payments according to the terms of the Note at the end of the plan
- (g) The Borrower agrees that the foreclosure proceedings are suspended during the repayment plan and that the Servicer is entitled to recommence foreclosure at the point the foreclosure was suspended if the Borrower defaults on the repayment plan

Exhibit 93, Evaluation Notices, includes a model repayment plan template and model reinstatement template that the Servicer may combine and amend as necessary to comply with the requirements of this section and applicable law.

3. The Borrower must submit information demonstrating his or her financial ability to make the:
 - (a) Partial reinstatement payment
 - (b) Repayment plan payments (including the scheduled monthly payment) on a monthly basis
 - (c) Monthly payments at the end of the repayment plan

At the end of the repayment plan, the Servicer may make arrangements with the Borrower to collect accrued late charges, inspection fees and the cost of the BPO. However, the payment must not include reimbursement for costs the Servicer incurred if State law prohibits collection of those costs from the Borrower.

If the Servicer or the Borrower propose a partial reinstatement plan that does not meet Freddie Mac's criteria, but the Servicer believes it will result in the Borrower's reinstatement of the Mortgage, the Servicer must submit the plan on Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 5**) for consideration.

9203.6: Reporting and processing the reinstatement (06/12/19)

(a) Processing partial reinstatements and repayment plans

The Servicer must also notify Freddie Mac via an EDR transmission within three Business Days of the month following the month in which it accepted the initial payment on a repayment plan or a partial reinstatement of a Mortgage that was reported in foreclosure in

the previous month and needs to be moved to delinquent status from foreclosure status. The Servicer must include the following activity in the EDR transmission:

1. Default action code 12 (Repayment Plan) to indicate a repayment plan once the initial repayment plan payment is received. The Servicer must continue reporting this code for each month of the repayment period, except for the last month of the repayment period in which the Mortgage will be fully reinstated.
2. Default action code 20 (Reinstatement (Partial)) is only required if, as a result of the partial reinstatement without a repayment plan, the Servicer needs to change the Mortgage status from foreclosure to delinquent
3. Servicers should not report default action code 12 in the last month of the repayment period

The Servicer must continue to report the default action code 12 (Repayment Plan) for the Mortgage in its future monthly EDR transmissions, provided the Borrower is in compliance with the terms of the repayment plan, until the Mortgage has been fully reinstated (see above steps one through three), paid off or a workout completed.

If the Borrower fails to make a payment due under the repayment plan, the Servicer must discontinue reporting default action code 12 on its EDR transmission.

For additional information about EDR, refer to Section 9102.7.

If the Mortgage has been inactivated by Freddie Mac, the Servicer must report partial reinstatement in the Loan-Level Transaction as required in Section 8303.23.

(b) Processing requirements

If the Servicer accepts a full or partial reinstatement on a Mortgage that is or was in foreclosure, then it must process the transaction as follows:

1. Take all necessary actions to prevent additional foreclosure expenses from being incurred, if applicable
2. Pay any foreclosure expenses that were actually incurred
3. Apply any remaining funds to the Mortgage
4. Return the Note, if appropriate, with a paper copy of the original or electronic or system-generated version of Form 1036, Request for Physical or Constructive Possession of Documents, to the Document Custodian by certified mail. If one of Freddie Mac's Designated Custodians is holding the Note, submit the Note and any additional documentation, if required, as directed by the Designated Custodian. Seller/Servicers that use The Bank of New York Mellon Trust Company, N.A., as Designated Custodian, and

use its web-based process will include a copy of the electronically generated 1036 Release Receipt Report when returning such items to the Designated Custodian. See Section 8107.1.

9203.7: Reimbursement of expenses related to reinstatements (06/05/17)

If applicable federal, State or local law prohibits collection of incurred expenses (e.g., legal fees and/or legal costs) from the Borrower upon reinstatement of the Mortgage, Freddie Mac will reimburse certain expenses the Servicer incurs. (See Section 9701.5(f) regarding unrecoverable expenses.)

9203.8: What is a repayment plan? (03/02/16)

A repayment plan is an agreement between the Servicer and a Borrower that gives the Borrower a defined period of time to reinstate the Mortgage by paying normal regular payments plus an additional agreed upon amount in repayment of the Delinquency.

9203.9: Repayment plan requirements (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

For a Borrower to enter into a repayment plan, the Borrower must have the financial capacity to bring the Mortgage current.

Any repayment plan must:

1. Lead to full reinstatement or payoff at the conclusion of the plan
2. Be in writing and must specify:
 - (a) The total amount to be repaid
 - (b) The beginning and end dates of the repayment period
 - (c) The exact amount of the repayment plan payment that will be added to the Borrower's regular monthly payment

- (d) That the Borrower must pay all scheduled monthly payments during the period of the repayment plan
- (e) That the Borrower must continue monthly payments according to the terms of the Note at the end of the plan
- (f) That the Borrower agrees that the foreclosure proceedings are suspended during the repayment plan and that the Servicer is entitled to recommence foreclosure at the point the foreclosure was suspended if applicable, if the Borrower defaults on the repayment plan

Exhibit 93, Evaluation Notices, includes a model repayment plan that a Servicer may use and amend as necessary to comply with the requirements of this section and applicable law.

3. Be sent to the Borrower. The document does not have to be signed by the Borrower or returned to the Servicer as a condition of the repayment plan. However, the Borrower must make the first payment due if the Mortgage is in foreclosure at the time the repayment plan offer is extended in order to accept the terms of the plan. The repayment agreement must then contain a stipulation that the Servicer is entitled to recommence foreclosure at the point the foreclosure was suspended if the Borrower defaults on the repayment plan, unless otherwise prohibited by applicable law.

The Servicer must keep as part of the Mortgage file:

- (a) The repayment plan (do not send Freddie Mac a copy)
 - (b) The specifics of the repayment plan and the date the Servicer negotiated it with the Borrower
 - (c) When the Servicer sent it to the Borrower, if the plan exceeds three months
 - (d) The reason the Servicer agreed to the repayment plan
4. Have a term greater than one month and less than or equal to 12 months, unless a greater term is approved by Freddie Mac in writing or otherwise permitted for repayment of delinquent taxes, as outlined in Section 9203.10.

The repayment plan may include any accrued late charges due from the Borrower at the time the Servicer entered into the repayment plan with the Borrower. However, if the Borrower is paying as stipulated in the agreement, the Servicer must not accrue or collect late charges from the Borrower during the repayment plan. If the Borrower defaults on the terms of the repayment plan, late charge accrual may recommence from the date the Borrower defaulted on the plan.

9203.9: Repayment plan requirements (Future effective date 10/01/23)

(a) Repayment plan requirements

For a Borrower to enter into a repayment plan, the Borrower must have the financial capacity to bring the Mortgage current.

Any repayment plan must:

1. Lead to full reinstatement or payoff at the conclusion of the plan
2. Be in writing and must specify:
 - (a) The total amount to be repaid
 - (b) The beginning and end dates of the repayment period
 - (c) The exact amount of the repayment plan payment that will be added to the Borrower's regular monthly payment
 - (d) That the Borrower must pay all scheduled monthly payments during the period of the repayment plan
 - (e) That the Borrower must continue monthly payments according to the terms of the Note at the end of the plan
 - (f) That the Borrower agrees that the foreclosure proceedings are suspended during the repayment plan and that the Servicer is entitled to recommence foreclosure at the point the foreclosure was suspended if applicable, if the Borrower defaults on the repayment plan

Exhibit 93, Evaluation Notices, includes a model repayment plan that a Servicer may use and amend as necessary to comply with the requirements of this section and applicable law.

3. Be sent to the Borrower. The document does not have to be signed by the Borrower or returned to the Servicer as a condition of the repayment plan. However, the Borrower must make the first payment due if the Mortgage is in foreclosure at the time the repayment plan offer is extended in order to accept the terms of the plan. The repayment agreement must then contain a stipulation that the Servicer is entitled to recommence foreclosure at the point the foreclosure was suspended if the Borrower defaults on the repayment plan, unless otherwise prohibited by applicable law.

The Servicer must keep as part of the Mortgage file:

- (a) The repayment plan (do not send Freddie Mac a copy)
 - (b) The specifics of the repayment plan and the date the Servicer negotiated it with the Borrower
 - (c) When the Servicer sent it to the Borrower, if the plan exceeds three months
 - (d) The reason the Servicer agreed to the repayment plan
4. Have a term greater than one month and less than or equal to 12 months, unless a greater term is approved by Freddie Mac in writing or otherwise permitted for repayment of delinquent taxes, as outlined in Section 9203.10.

The repayment plan may include any accrued late charges due from the Borrower at the time the Servicer entered into the repayment plan with the Borrower. However, if the Borrower is paying as stipulated in the agreement, the Servicer must not accrue or collect late charges from the Borrower during the repayment plan. If the Borrower defaults on the terms of the repayment plan, late charge accrual may recommence from the date the Borrower defaulted on the plan.

(b) Failed repayment plan – solicitations

In order to promote a more seamless transition between loss mitigation options when a Borrower is unable to resolve their Delinquency with a repayment plan, the table below provides requirements for Servicers to conduct reviews for proactive Payment Deferral and Flex Modification offers following an unsuccessful repayment plan.

Failed Repayment Plan – Payment Deferral	
If....	Then...
The Borrower accepts an offer for a repayment plan but does not make the total monthly repayment plan payment by the end of the month in which it is due (“fails a repayment plan”), and the Servicer is unable to establish quality right party contact.	The Servicer must evaluate the Borrower for a proactive offer for a Payment Deferral, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Payment Deferral by the 15 th day of the following month (i.e., the 15 th day of the month following the month Borrower fails a repayment plan).
Eligibility	
The Borrower must be eligible for a Payment Deferral in accordance with the requirements of this chapter. However:	

- The Servicer is not required to have established quality right party contact, as described in Section 9203.20, and
- The Servicer is not required to confirm that the Borrower meets the Borrower eligibility requirements described in Section 9203.20(a)

Solicitation Requirements

The Servicer must solicit the Borrower using Exhibit 1105, Payment Deferral Post-Repayment Plan Solicitation Cover Letter, with Exhibit 1100, Payment Deferral Agreement, or its equivalent, making any appropriate changes to comply with applicable law. While use of Exhibits 1105 and 1100 is optional, it reflects the minimum level of information that the Servicer must communicate and illustrates a level of specificity that complies with the requirements of the Guide.

The Servicer must include instruction on how to accept the offer in the Payment Deferral agreement. The Servicer is authorized to consider the following as acceptance by the Borrower, subject to applicable law:

- The Borrower contacting the Servicer directly in accordance with any acceptable outreach and communication method,
- The Borrower returning an executed Payment Deferral agreement, or
- Any other method evidencing the Borrower's acceptance as determined by the Servicer

The Borrower must make their full monthly contractual payment during the month of solicitation if, as of the date of evaluation:

- The Mortgage is 6 months delinquent, or
- The Payment Deferral would cause the Mortgage to exceed 12 months of cumulative deferred past-due principal and interest payments resulting from non-disaster Payment Deferrals

In these circumstances, the Servicer must complete the Payment Deferral within the month of the solicitation after receipt of the Borrower's full monthly contractual payment due during that month.

Note: If the Servicer uses a processing month to complete the Payment Deferral, the Borrower must also make his or her full monthly contractual payment during the processing month. The Servicer must complete the Payment Deferral within the processing month after receipt of the Borrower's full monthly contractual payment during that month.

Failed Repayment Plan – Flex Modification

If...	Then...
<ul style="list-style-type: none"> ■ The Borrower fails a repayment plan, and 	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must

<ul style="list-style-type: none"> ■ The Servicer has not established quality right party contact, and ■ The Borrower is ineligible for a proactive offer for a Payment Deferral 	<p>send the Borrower a proactive offer for a Flex Modification by the 15th day of the following month (i.e., the 15th day of the month following the month the Borrower fails a repayment plan).</p>
<ul style="list-style-type: none"> ■ The Borrower fails a repayment plan, and ■ The Servicer has not established quality right party contact, and ■ The Borrower was eligible for a proactive offer for a Payment Deferral, but did not accept the offer by the acceptance date provided in the Payment Deferral agreement 	<p>The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15th day following the expiration of the Payment Deferral offer.</p>
Eligibility	
<p>The Servicer must evaluate the Borrower for eligibility for a proactive offer for a Flex Modification in accordance with the requirements of Section 9206.5(c).</p>	
Solicitation	
<p>The Servicer must send the Borrower Exhibit 1191, Freddie Mac Flex Modification® Solicitation Cover Letter, and the Exhibit 93 template for the Flex Modification Trial Period Plan Solicitation Offer – not based on an evaluation of a BRP evaluation notice, or its equivalent. Exhibits 1191 and 93 may be altered at the Servicer’s discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.</p>	

9203.10: Servicer approval authority for repayment plans (10/19/17)

The Servicer must obtain Freddie Mac’s approval for a repayment plan that exceeds 12 months in duration unless the repayment plan includes the repayment of delinquent taxes. To obtain Freddie Mac’s approval, the Servicer must submit the following to Freddie Mac (see **Directory 5**):

1. Form 105, Multipurpose Loan Servicing Transmittal
2. The complete Borrower Response Package (see Section 9102.5 for a description of the Borrower Response Package)

The Servicer may approve a repayment plan that has a term greater than one month and less than or equal to 12 months without obtaining Freddie Mac's approval, as outlined in the table below:

For all repayment plans...	In addition, if...	Then...
<ul style="list-style-type: none"> ■ The monthly repayment plan payment amount must not exceed 150% of the contractual mortgage payment (including taxes and insurance if the Servicer is collecting Escrow for such expenses) ■ The Borrower may make a payment that is applied prior to the Servicer's repayment plan evaluation (i.e., a Borrower may make a payment that may have a favorable impact to the repayment plan terms) ■ The repayment plan must be in writing (refer to Section 9203.9 for complete requirements for the written notice) 	<ul style="list-style-type: none"> ■ The Mortgage is less than or equal to 90 days delinquent; and ■ The repayment plan term does not exceed six months in length 	<ul style="list-style-type: none"> ■ A Borrower Response Package is not required; however, ■ Quality right party contact is required to verify that the Borrower has the financial capacity to bring the Mortgage current and cure the Delinquency as a result of the repayment plan
	<ul style="list-style-type: none"> ■ The Mortgage is greater than 90 days delinquent; or ■ The repayment plan term exceeds six months in length 	<ul style="list-style-type: none"> ■ A Borrower Response Package is required ■ Repayment plan terms that exceed 12 months in length must be submitted to Freddie Mac for review and approval ■ The Servicer must evaluate the Borrower for a streamlined offer for a Freddie Mac Flex Modification® if the Mortgage is greater than 90 days delinquent. However, if the Servicer has established quality right party contact and verified that the Borrower has the financial capacity to bring the Mortgage current and cure the Delinquency as a result of a repayment plan, then the Servicer must

For all repayment plans...	In addition, if...	Then...
		offer the Borrower a repayment plan.

In addition, if there is no Escrow account on the Mortgage for taxes, and taxes are not current or the Borrower has not entered into a repayment plan with the taxing jurisdiction, then the Servicer may approve a repayment plan of up to 18 months under the following conditions:

1. The Servicer must pay the delinquent taxes, and
2. The Servicer must set up an Escrow account for future taxes if the repayment period exceeds three months. In this case only, the Servicer may extend the repayment period to no more than 18 months.

The Servicer must document its reasons for approving a repayment plan in the Mortgage file.

9203.11: Reporting repayment plans (06/12/19)

In accordance with Section 9102.7, the Servicer must notify Freddie Mac via an EDR transmission with specific repayment plan activity after the Servicer has entered into a repayment plan with a Borrower. To validate the repayment plan, the Servicer must receive a repayment plan payment. Upon receipt of payment, the Servicer must report default action code 12 (Repayment Plan) once the initial repayment plan payment is received. The Servicer must continue reporting this code for each month of the repayment period, except for the last month of the repayment period in which the Mortgage will be fully reinstated.

The Servicer must continue to report that the Borrower is in a repayment plan until the Borrower has fully reinstated the Mortgage or the Borrower defaults on the repayment plan.

If the Borrower fails to make a payment due under the repayment plan, the Servicer must discontinue reporting default action code 12.

For additional information about EDR, refer to Section 9102.7.

9203.12: What is forbearance? (01/01/19)

A forbearance plan is a written agreement between the Servicer and the Borrower (or deceased Borrower's estate) that reflects the terms of the forbearance, including whether the Borrower may make either reduced or no monthly payments for a specific period of time. If the Servicer achieves quality right party contact and the Borrower meets the eligibility criteria for a forbearance plan in accordance with Section 9203.13, the Servicer must offer:

1. An initial forbearance term for a period of one to six months, and, if necessary
2. One or more forbearance term extensions of one to six months

The forbearance plan may not be extended beyond a date that would cause the Delinquency to exceed a cumulative total of 12 months of the Borrower's contractual monthly Mortgage payment, including taxes and insurance, if the Servicer is collecting Escrow for those expenses, without prior approval from Freddie Mac.

Prior to the expiration of the initial and any extension to the forbearance plan, the Servicer must evaluate the Borrower's eligibility for an extension of the initial forbearance plan based on quality right party contact. Each forbearance plan evaluation, including an evaluation for a forbearance plan extension, must be completed in accordance with all eligibility requirements described in this section and Sections 9203.13 through 9203.17. Additionally, there is no limit on the number of forbearance plans that an eligible Borrower can receive over the life of the Mortgage.

Exhibit 93, Evaluation Notices, includes forbearance agreements that a Servicer may use, but must amend, as necessary to comply with the requirements of this section, Sections 9203.13 through 9203.17 and applicable law.

At the end of the forbearance period, the Borrower must cure the Delinquency through one of the following options:

- Full reinstatement of the Mortgage
- Partial reinstatement followed by a repayment plan
- Payment of the Mortgage in full
- A repayment plan
- A loan modification
- Pay off the Mortgage through a short sale or deed-in-lieu of foreclosure

A loan modification is a type of workout option that enables the Borrower to retain homeownership (see Section 9201.6). If the Borrower can no longer afford to retain the property, the Servicer must pursue a workout option to liquidate the Borrower's interest in the property (see Section 9201.6), such as a short sale, deed-in-lieu of foreclosure, a workout Mortgage assumption, or a simultaneous modification and assumption.

Refer to Chapters 9205 through 9210 for requirements on workout options.

Refer to Chapter 8404 for additional requirements for Borrowers and Mortgages secured by properties affected by a disaster.

9203.13: Requirements for a forbearance plan (06/14/23)

(a) Borrower eligibility requirements for a forbearance plan

To be eligible for a forbearance plan, the Borrower:

- Must have an eligible hardship as described in Section 9202.2 and Form 710, Mortgage Assistance Application. The Borrower's hardship may be verbally stated. The Servicer must report the hardship reason via EDR in accordance with Section 9102.7.
- May be either current or delinquent, but the forbearance plan must not result in an overall Mortgage Delinquency that exceeds 360 days (i.e., to be in an active forbearance plan, the Borrower must not have missed more than 12 contractual monthly Mortgage payments)

NOTE: No Borrower documentation or written application (e.g., Form 710 or a Servicer's customized equivalent of Form 710) is required from the Borrower; however, the Servicer must achieve quality right party contact in accordance with the requirements in Section 9102.3(b).

(b) Mortgage eligibility and exclusions for a forbearance plan

Mortgages secured by the Borrower's Primary Residence, even if vacant, are eligible for forbearance.

The following Mortgages are ineligible for forbearance:

- Mortgages secured by abandoned or condemned properties
- Mortgages secured by second homes or Investment Properties

(c) Forbearance plan agreement with the Borrower

The Servicer must determine the terms of the forbearance agreement based on discussions with the Borrower. The forbearance agreement:

1. Must be provided to the Borrower in writing and signed by the Servicer. The document does not have to be signed by the Borrower or returned to the Servicer as a condition of the forbearance plan.
2. Must indicate the duration of the forbearance plan, including the effective date, the expiration date of the forbearance plan, and, if applicable, the due date of the first payment and the amount of such payment

Note: See Section 9203.13(d) for additional information about reduced payments (if applicable) under a forbearance plan.

3. Must state that, at the end of the forbearance period, the Borrower must either:
 - Cure the Delinquency through a full reinstatement, partial reinstatement plus repayment plan or a repayment plan, or payoff of the Mortgage, or
 - Submit a complete Borrower Response package to be evaluated for a workout option prior to the conclusion of the plan

Refer to Sections 9203.1 through 9203.11 for requirements on reinstatements and repayment plans, and to Chapters 9206 through 9210 for requirements on workout options.

4. Must state that foreclosure proceedings are suspended during the forbearance period so long as the Borrower complies with the forbearance agreement and that, unless prohibited by applicable law, the Servicer may recommence foreclosure at the point it was suspended if the Borrower defaults on the forbearance plan
5. May include a requirement to pay any accrued late charges due from the Borrower at the time the Servicer entered into the forbearance agreement with the Borrower. The Servicer must not accrue or collect late charges from the Borrower during the forbearance period, or any subsequent repayment plan period, if the Borrower is complying with the terms of such agreements. If the Borrower defaults on the terms of the forbearance agreement, late charge accrual may recommence from the date the Borrower defaulted on the agreement.

(d) Reduced payments under a forbearance plan

If a monthly payment is required under the terms of a forbearance plan:

- Such payment must be less than the Borrower's monthly contractual Mortgage payment, including, as applicable, principal, interest and Escrow payments
- The Servicer must receive such payment from the Borrower on or before the last day of the month in which it is due. If the Borrower fails to make timely forbearance payments, the forbearance plan must be canceled unless the Servicer determines that there are mitigating circumstances that caused the payment to be late.

If there are mitigating circumstances that prevents the Borrower from making the required reduced payment, the Servicer may determine whether to amend the forbearance plan to further reduce the required payment or allow the Borrower to make no payments under a new forbearance plan agreement.

If the Borrower fails to make timely payments and there are no mitigating circumstances, the Servicer must evaluate the Borrower for other alternatives to foreclosure (e.g., solicit the Borrower for a complete Borrower Response Package, conduct an evaluation for a streamlined offering of the Freddie Mac Flex Modification[®]) and otherwise, pursue foreclosure in accordance with Chapter 9301. The Servicer must use good business judgment to determine whether forbearance payments were received timely or if mitigating circumstances (such as a further reduction in income) caused the payment to be late. Exceptions to the timely payment requirement must be documented and retained in the Mortgage file.

9203.14: Contact requirements when transitioning from a forbearance plan (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve[®] before the mandatory October 1, 2023 effective date.

The Servicer has discretion to determine the appropriate frequency to contact the Borrower. However, the Servicer must initiate contact no later than 30 days prior to any forbearance plan end date. Borrower contact must continue until quality right party contact is achieved or until the forbearance plan has expired.

If quality right party contact is achieved, the Servicer must determine whether:

- The Borrower's hardship has been resolved;
- The Borrower intends to remain in the Mortgaged Premises;
- The Borrower must submit a complete Borrower Response Package to be evaluated for other workout or liquidation options; and
- The Borrower is eligible for a streamlined modification offer for a Freddie Mac Flex Modification[®] under Chapter 9206

The Servicer may use alternative outreach methods to contact the Borrower as permitted by applicable law including, but not limited to, e-mail, text messaging, voice response unit technology or a Servicer's web portal. In addition, the Servicer is authorized to mail, fax or electronically transmit the Borrower Solicitation Package or its equivalent to the Borrower.

If quality right party contact is not achieved, the Servicer must determine whether:

- To solicit the Borrower to submit a complete Borrower Response Package, and

- To offer the Borrower a streamlined offer for a Freddie Mac Flex Modification under Chapter 9206, if eligible

9203.14: Contact requirements when transitioning from a forbearance plan (Future effective date 10/01/23)

(a) Contact requirements

The Servicer has discretion to determine the appropriate frequency to contact the Borrower. However, the Servicer must initiate contact no later than 30 days prior to any forbearance plan end date. Borrower contact must continue until quality right party contact is achieved or until the forbearance plan has expired.

If quality right party contact is achieved, the Servicer must determine whether:

- The Borrower's hardship has been resolved;
- The Borrower intends to remain in the Mortgaged Premises;
- The Borrower must submit a complete Borrower Response Package to be evaluated for other workout or liquidation options; and
- The Borrower is eligible for a streamlined modification offer for a Freddie Mac Flex Modification® under Chapter 9206

The Servicer may use alternative outreach methods to contact the Borrower as permitted by applicable law including, but not limited to, e-mail, text messaging, voice response unit technology or a Servicer's web portal. In addition, the Servicer is authorized to mail, fax or electronically transmit the Borrower Solicitation Package or its equivalent to the Borrower.

(b) Post-forbearance plan – solicitations

In order to promote a more seamless transition between loss mitigation options when a Borrower who was on a forbearance completes the forbearance plan without a solution to the Delinquency, the table below provides requirements for Servicers to conduct reviews for proactive Payment Deferral and Flex Modification offers.

Post Forbearance Plan – Payment Deferral	
If....	Then...
The Borrower's forbearance plan ends and the Servicer is unable to establish quality	The Servicer must evaluate the Borrower for a proactive offer for a Payment Deferral, in

right party contact to evaluate for a post-forbearance solution to the Delinquency.	accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Payment Deferral by the 15 th day following expiration of the forbearance plan.
---	---

Eligibility

The Borrower must be eligible for a Payment Deferral in accordance with the requirements of this chapter. However:

- The Servicer is not required to have established quality right party contact, as described in Section 9203.20, and
- The Servicer is not required to confirm that the Borrower meets the Borrower eligibility requirements described in Section 9203.20(a)

Solicitation Requirements

The Servicer must solicit the Borrower using Exhibit 1102, Payment Deferral Post-Forbearance Solicitation Cover Letter, with Exhibit 1100, Payment Deferral Agreement, or its equivalent, making any appropriate changes to comply with applicable law. While use of Exhibits 1102 or 1100 is optional, it reflects the minimum level of information that the Servicer must communicate and illustrates a level of specificity that complies with the requirements of the Guide.

The Servicer must include instruction on how to accept the offer in the Payment Deferral agreement. The Servicer is authorized to consider the following as acceptance by the Borrower, subject to applicable law:

- The Borrower contacting the Servicer directly in accordance with any acceptable outreach and communication method,
- The Borrower returning an executed Payment Deferral agreement, or
- Any other method evidencing the Borrower's acceptance as determined by the Servicer

The Borrower must make their full monthly contractual payment during the month of solicitation and/ or during the processing month if, as of the date of evaluation:

- The Mortgage is 6 months delinquent, or
- The Payment Deferral would cause the Mortgage to exceed 12 months of cumulative deferred past-due principal and interest payments resulting from Payment Deferrals

In these circumstances, the Servicer must complete the Payment Deferral within the month of the solicitation or processing month after receipt of the Borrower's full monthly contractual payment due during that month.

Post Forbearance Plan – Flex Modification

If...	Then...
<ul style="list-style-type: none"> ■ The Borrowers forbearance plan ends, and ■ The Servicer has not established quality right party contact to evaluate for a post-forbearance solution to the delinquency, and ■ The Borrower is ineligible for a proactive offer for a Payment Deferral 	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15 th day of the month following the expiration of the forbearance plan.
<ul style="list-style-type: none"> ■ The Borrowers forbearance plan ends, and ■ The Servicer has not established quality right party contact to evaluate for a post-forbearance solution to the delinquency, and ■ The Borrower was eligible for a proactive offer for a Payment Deferral but did not accept the offer by the acceptance date provided in the Payment Deferral agreement 	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15 th day following the expiration of the Payment Deferral offer.
Eligibility	
The Servicer must evaluate the Borrower for eligibility for a proactive offer for a Flex Modification in accordance with the requirements of Section 9206.5(c).	
Solicitation	
The Servicer must send the Borrower Exhibit 1191 and the Exhibit 93 template for the Flex Modification Trial Period Plan Solicitation Offer – not based on an evaluation of a BRP evaluation notice, or its equivalent. Exhibits 1191 and 93 may be altered at the Servicer’s discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.	

9203.15: Borrowers in a Trial Period Plan (12/01/18)

If a Borrower was in a Trial Period Plan prior to entering into a forbearance plan, the Borrower may be re-evaluated for a new Trial Period Plan within 30 days prior to or upon completion of the forbearance plan. The Servicer must not resume or restart the terms of the previous Trial Period Plan prior to the start of the forbearance plan. Instead, the Servicer must evaluate the

Borrower based on the status of the Mortgage at the time of the new evaluation. If the Borrower meets all eligibility requirements upon completion of the forbearance plan and accepts a new Trial Period Plan offer, the Borrower will be required to start a new Trial Period Plan.

For any subsequent modification submissions, the Trial Period Plan prior to the start of the forbearance plan will not be considered a failed Trial Period Plan for a Flex Modification evaluation.

9203.16: Forbearance plan termination (12/01/18)

The forbearance plan must be terminated if:

- The Servicer determines that the Borrower has failed to meet the terms specified in the forbearance plan agreement
- Any of the eligibility criteria for the forbearance plan is no longer satisfied
- The Servicer becomes aware that the Borrower's hardship is resolved; or
- The Borrower requests termination of the forbearance plan

9203.17: Other forbearance plan conditions and requirements (02/09/22)

This section describes other requirements for processing a forbearance plan:

- EDR
- Mortgages subject to recourse
- Credit reporting
- Servicer procedures

(a) Notifying Freddie Mac of forbearance plans via EDR

At the end of the forbearance plan, the Servicer must work with the Borrower to cure the Delinquency via a reinstatement or repayment plan, or by completing a workout option. The Servicer must evaluate the Borrower in accordance with the loss mitigation hierarchy described in Section 9201.2 and must also comply with the appropriate EDR reporting requirement to inform Freddie Mac about the solution entered into. For example, if the Servicer enters into a repayment plan with the Borrower, the Servicer must report the repayment plan via EDR according to Section 9203.11.

If the Borrower enters into a workout option that brings the account current, such as a settled modification or payment deferral, the Servicer must no longer report the EDR code for forbearance.

For additional information about EDR, refer to Section 9102.7, or to the relevant Guide Section that describes EDR reporting for a specific loss mitigation option.

(b) Forbearance plans for Mortgages subject to recourse

For Mortgages subject to recourse including, but not limited to indemnification, Servicers are strongly encouraged, but not required, to consider eligible Borrowers for a forbearance plan. Entering into a forbearance agreement (whether approved by Freddie Mac or the Servicer) does not waive, delete, alter or supersede any recourse or indemnification requirements set forth in the Servicer's Purchase Documents and any other documents containing recourse or indemnification obligations, and such recourse or indemnification obligations will remain in full force and effect.

(c) Credit reporting for Mortgages in a forbearance plan

Servicers must continue to report a "full-file" status to the four major credit repositories for each Mortgage in a forbearance plan in accordance with the Fair Credit Reporting Act and credit bureau standards as provided by the Consumer Data Industry Association. See Exhibit 51, Credit Repositories and Information to Report.

(d) Servicer policy and procedures for forbearance plans

The Servicer must have written forbearance plan policies and procedures describing how to:

- Determine the Borrower's hardship
- Determine whether to require a reduced payment and any payment amount; and
- Document the Servicer's decision-making process, including, but not limited to, its application of discretion or business judgement

The Servicer must consistently apply these policies and procedures.

9203.18: What is a Payment Deferral (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

A Payment Deferral is a relief option to assist a Borrower who is 30 or 60 days delinquent to cure the Delinquency by deferring the delinquent principal and interest (“P&I”) amounts of the contractual monthly Mortgage payment(s) into a newly created or an existing non-interest bearing UPB. Those amounts will become due and payable at the earlier of the Mortgage maturity date, payoff date or upon transfer or sale of the Mortgaged Premises. All other terms of the existing Mortgage must remain unchanged.

9203.18: What is a Payment Deferral (Future effective date 10/01/23)

A Payment Deferral is a relief option to assist a Borrower who is at least 60 days but less than or equal to 180 days delinquent to cure the Delinquency by deferring the delinquent principal and interest (“P&I”) amounts of the contractual monthly Mortgage payment(s) and eligible advances into a newly created or an existing non-interest bearing UPB. Those amounts will become due and payable at the earlier of the Mortgage maturity date, payoff date or upon transfer or sale of the Mortgaged Premises. All other terms of the existing Mortgage must remain unchanged.

9203.19: Servicer approval authority for Payment Deferral (01/01/21)

The Servicer must evaluate the Borrower for a Payment Deferral under Sections 9203.18 through 9203.25 in accordance with the evaluation hierarchy in Sections 9201.2 and 9203.1.

Unless otherwise notified by Freddie Mac, all Freddie Mac Servicers are delegated to approve and offer a Freddie Mac Payment Deferral to eligible Borrowers in accordance with the requirements of the Guide and other applicable Purchase Documents.

9203.20: Eligibility requirements for a Payment Deferral (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

The Servicer must establish achieve quality right party contact with the Borrower in accordance with the requirements described in Section 9102.3(b).

(a) Borrower eligibility

In addition to the information required to achieve quality right party contact, the Servicer must confirm that the Borrower:

- Has a resolved hardship
- Has the financial capacity to continue making the existing contractual monthly Mortgage payment
- Is unable to afford a repayment plan or full reinstatement of the Mortgage

(b) Mortgage and property eligibility

The Servicer must ensure the following:

- As of the evaluation date, the Borrower must be 30- or 60- days delinquent (i.e., the Borrower is not past due for more than two contractual monthly payments)
- The Borrower must have made, at minimum, two consecutive monthly payments, resulting in the delinquency status remaining unchanged for at least three consecutive months
- Additionally, the Borrower is required to make a full contractual monthly payment during the month of evaluation, even if the Borrower has already made consecutive contractual payments in previous months

(c) Mortgage and property eligibility

The Mortgage:

- Must have been originated at least 12 months prior to the evaluation date for the Payment Deferral
- Must be a conventional First Lien Mortgage currently owned or guaranteed by Freddie Mac; and
- May be a fixed-rate Mortgage, an ARM or a Step-Rate Mortgage

The property may be a Primary Residence, second home or Investment Property, and may be vacant or condemned.

(d) Borrower documentation

The Servicer is not required to collect a complete Borrower Response Package (BRP) to evaluate the Borrower for a Payment Deferral.

If the Borrower submits a complete BRP, the Servicer:

- Must evaluate the Borrower in accordance with the requirements for reviewing and evaluating a complete Borrower Response Package as specified in the Guide.
- Is authorized to use an Evaluation Notice (refer to Exhibit 93, Evaluation Notices) in response to a complete BRP and must make the appropriate changes to reflect the terms of the Payment Deferral. For those Payment Deferrals offered without a complete BRP, the Servicer is not required to use an Evaluation Notice in addition to the Payment Deferral Agreement but may do so at their discretion

(e) Mortgages subject to indemnification agreement

If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the Payment Deferral requirements in Sections 9203.18 through 9203.25, the Servicer has the discretion to approve the Payment Deferral provided the following conditions are met:

- The Mortgage receiving the Payment Deferral retains its credit enhancement
- If the Servicer is not the credit enhancement provider, the Servicer must first obtain in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement to enter into a Payment Deferral that complies with the requirements of Sections 9203.18 through 9203.25
- The Servicer remits to Freddie Mac an annual payment for the amount of all Payment Deferral-related costs (e.g., interest rate shortfall). The loss amount calculations for the Payment Deferral will be determined by Freddie Mac in the same manner as the calculations for modification loss amounts. The Payment Deferral loss amounts due will be calculated on a monthly basis and billed on an annual basis for the life of the Mortgage that is subject to a Payment Deferral. If the Mortgage is subject to a partial indemnification, each year the Servicer will be billed the appropriate percentage of the Payment Deferral loss amount that corresponds with the partial indemnification agreement. The Payment Deferral loss amounts will be determined by Freddie Mac in accordance with a process described in Bulletins 2021-14 and 2021-31.

NOTE: The Servicer is not eligible for an incentive for completing a Payment Deferral on a Mortgage that is subject to an indemnification agreement.

(f) Mortgage insurance

If the Mortgage is subject to mortgage insurance, the Servicer must obtain delegation of authority from the MI or seek approval from the MI to complete the Payment Deferral.

(g) Texas Equity Section 50(a)(6) Mortgages

If the Borrower is eligible and qualifies for a Payment Deferral, the Servicer must offer the Payment Deferral to the Borrower. If the Servicer receives Borrower notification classifying the Payment Deferral as a loan modification and claiming that the terms of the modification agreement do not comply with the provisions of Article XVI Section 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:

- Freddie Mac loan number
- Servicer loan number
- Transaction type (e.g., Texas Home Equity modification)
- Accounting Cycle in which Freddie Mac settled the workout
- Servicer's analysis (e.g., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)

Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution.

9203.20: Eligibility requirements for a Payment Deferral (Future effective date 10/01/23)

The Servicer must establish achieve quality right party contact with the Borrower in accordance with the requirements described in Section 9102.3(b).

(a) Borrower eligibility

In addition to the information required to achieve quality right party contact, the Servicer must confirm that the Borrower:

- Has a resolved hardship
- Has the financial capacity to continue making the existing contractual monthly Mortgage payment, including amounts due as a result of an Escrow shortage, if applicable

- Is unable to afford a repayment plan or full reinstatement of the Mortgage

(b) Mortgage and property eligibility

The Mortgage:

- Must be at least 60 days delinquent but less than or equal to 180 days delinquent as of the evaluation date for the Payment Deferral
- Must have been originated at least 12 months prior to the evaluation date for the Payment Deferral
- Must be a conventional First Lien Mortgage currently owned or guaranteed by Freddie Mac; and
- May be a fixed-rate Mortgage, an ARM or a Step-Rate Mortgage

The property may be a Primary Residence, second home or Investment Property, and may be vacant or condemned.

(c) Borrower documentation

The Servicer is not required to collect a complete Borrower Response Package (BRP) to evaluate the Borrower for a Payment Deferral.

If the Borrower submits a complete BRP, the Servicer:

- Must evaluate the Borrower in accordance with the requirements for reviewing and evaluating a complete Borrower Response Package as specified in the Guide.
- Is authorized to use an Evaluation Notice (refer to Exhibit 93, Evaluation Notices) in response to a complete BRP and must make the appropriate changes to reflect the terms of the Payment Deferral. For those Payment Deferrals offered without a complete BRP, the Servicer is not required to use an Evaluation Notice in addition to the Payment Deferral agreement but may do so at their discretion

(d) Mortgages subject to indemnification agreement

If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the Payment Deferral requirements in Sections 9203.18 through 9203.25, the Servicer has the discretion to approve the Payment Deferral provided the following conditions are met:

- The Mortgage receiving the Payment Deferral retains its credit enhancement
- If the Servicer is not the credit enhancement provider, the Servicer must first obtain in writing any required approval under the terms of the credit enhancement from the entity

providing the enhancement to enter into a Payment Deferral that complies with the requirements of Sections 9203.18 through 9203.25

- The Servicer remits to Freddie Mac an annual payment for the amount of all Payment Deferral-related costs (e.g., interest rate shortfall). The loss amount calculations for the Payment Deferral will be determined by Freddie Mac in the same manner as the calculations for modification loss amounts. The Payment Deferral loss amounts due will be calculated on a monthly basis and billed on an annual basis for the life of the Mortgage that is subject to a Payment Deferral. If the Mortgage is subject to a partial indemnification, each year the Servicer will be billed the appropriate percentage of the Payment Deferral loss amount that corresponds with the partial indemnification agreement. The Payment Deferral loss amounts will be determined by Freddie Mac in accordance with a process described in Bulletins 2021-14 and 2021-31.

NOTE: The Servicer is not eligible for an incentive for completing a Payment Deferral on a Mortgage that is subject to an indemnification agreement.

(e) Mortgage insurance

If the Mortgage is subject to mortgage insurance and approval of the Payment Deferral is not covered by a delegation agreement, the Servicer must obtain delegation of authority from the MI or seek approval from the MI to complete the Payment Deferral.

(f) Texas Equity Section 50(a)(6) Mortgages

If the Borrower is eligible and qualifies for a Payment Deferral, the Servicer must offer the Payment Deferral to the Borrower. If the Servicer receives Borrower notification classifying the Payment Deferral as a loan modification and claiming that the terms of the modification agreement do not comply with the provisions of Article XVI Section 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:

- Freddie Mac loan number
- Servicer loan number
- Transaction type (e.g., Texas Home Equity modification)
- Accounting Cycle in which Freddie Mac settled the workout
- Servicer's analysis (e.g., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)

Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution.

9203.21: Eligibility exclusions for a Payment Deferral (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

The following Mortgages and Borrowers are ineligible for a Payment Deferral:

- FHA, VA and Guaranteed Rural Housing Mortgages
- Mortgages subject to recourse
- Mortgages that have received a prior Payment Deferral
- Borrowers who, within the 12 months prior to the evaluation date for a Payment Deferral, failed a non-disaster related modification Trial Period Plan (e.g., Flex Modification Trial Period Plan and the terms of that Trial Period Plan were determined in accordance with Section 9206.10(a))

Note: Converting from a modification Trial Period Plan to a forbearance plan, regardless of whether subject to an Eligible Disaster or not, is not considered to be a failed Trial Period Plan modification.

- Mortgages previously modified under the Flex Modification, or other non-disaster related modification, where the Modification Effective Date is within the previous 12 months of the evaluation date for a Payment Deferral
- Mortgages that are subject to an approved short sale or deed-in-lieu of foreclosure transaction
- Mortgages that are currently subject to an unexpired offer to the Borrower for another mortgage modification or other alternative to foreclosure, such as a forbearance plan or repayment plan)
- Borrowers who are currently performing under another modification Trial Period Plan, forbearance plan or repayment plan

9203.21: Eligibility exclusions for a Payment Deferral (Future effective date 10/01/23)

The following Mortgages and Borrowers are ineligible for a Payment Deferral:

- FHA, VA and Guaranteed Rural Housing Mortgages
- Mortgages subject to recourse
- Mortgages that have received a prior non-disaster related Payment Deferral with an effective date within 12 months of the evaluation date
- Borrowers who, within the 12 months prior to the evaluation date for a Payment Deferral, failed a non-disaster related modification Trial Period Plan (e.g., Flex Modification Trial Period Plan and the terms of that Trial Period Plan were determined in accordance with Section 9206.10(a))

Note: Converting from a modification Trial Period Plan to a forbearance plan, regardless of whether subject to an Eligible Disaster or not, is not considered to be a failed Trial Period Plan modification.

- Mortgages previously modified under the Flex Modification, or other non-disaster related modification, where the Modification Effective Date is within the previous 12 months of the evaluation date for a Payment Deferral
- Mortgages that are subject to an approved short sale or deed-in-lieu of foreclosure transaction
- Mortgages that are currently subject to an unexpired offer to the Borrower for another mortgage modification or repayment plan
- Borrowers who are currently performing under another modification Trial Period Plan or repayment plan
- Mortgages for which the Payment Deferral, if completed, would result in a cumulative total of more than 12 months of deferred principal and interest payments, including amounts deferred as a result of previous non-disaster related Payment Deferrals
- Mortgages with a maturity date that is within 36 months of the evaluation date
- Mortgages with a projected payoff date based on payments due under the existing amortization schedule that is within 36 months of the evaluation date

Note: If the Mortgage is within 36 months of its maturity date or projected payoff date but the Servicer determines based on the Borrower's individual circumstances that the Borrower

should be considered for a Payment Deferral, the Servicer may transmit an exception request to Freddie Mac.

9203.22: Determining the terms of a Payment Deferral (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

The Servicer must follow the steps below when determining the terms of the Payment Deferral. If the existing Mortgage includes a non-interest bearing UPB as a result of a prior modification, the terms impacting that non-interest bearing UPB will remain unchanged.

The Servicer must apply the Payment Deferral forbearance in accordance with the following steps:

Step 1: Deferring delinquent amounts. Defer the principal and interest (“P&I”) amounts of the delinquent contractual monthly Mortgage payment(s) into an existing or newly created non-interest bearing UPB (i.e., deferred UPB). The deferred UPB will become due on the earlier of:

- The Mortgage maturity date
- The Mortgage payoff date (e.g., refinance or payoff of the interest-bearing UPB); or
- Upon transfer or sale of the Mortgaged Premises

Step 2: Reporting the Payment Deferral. The Servicer must advance the DDLPI in order to bring the Mortgage to current status.

Step 3: Remaining payment schedule. Ensure the remaining payment schedule associated with the interest-bearing UPB remains unchanged from the Mortgage’s payment schedule before applying the Payment Deferral.

Step 4: Late charges. The Servicer must waive all accrued and unpaid late charges upon completion of the Payment Deferral.

Step 5: Remaining Mortgage terms. When offering the Payment Deferral, the Servicer must ensure all other remaining terms of the existing Mortgage remain unchanged including, but not limited to the:

- Remaining amortization schedule

- Monthly P&I portion of the existing contractual monthly Mortgage payment
- Interest rate (this includes maintaining the existing rate adjustment schedule for an ARM or a Step-Rate Mortgage)
- Maturity date; and
- Due dates of the remaining payment due under the Mortgage

The Servicer is not required to perform an Escrow analysis in conjunction with a Payment Deferral, and may continue to perform the Escrow analysis as regularly scheduled.

If the Servicer chooses to perform an Escrow analysis, any Escrow account shortage that is identified at the time of the Payment Deferral must not be capitalized and the Servicer is not required to fund any existing Escrow account shortage.

The Servicer is not required to revoke a previous waiver of Escrow, if applicable.

9203.22: Determining the terms of a Payment Deferral (Future effective date 10/01/23)

(a) Servicer requirements for determining the terms of a Payment Deferral

The Servicer must follow the steps below when determining the terms of the Payment Deferral. If the existing Mortgage includes a non-interest bearing UPB as a result of a prior modification, the terms impacting that non-interest bearing UPB will remain unchanged.

The Servicer must apply the Payment Deferral forbearance in accordance with the following steps:

Step 1: Deferring delinquent amounts. Defer at least 2 months and up to 6 months of past-due principal and interest (“P&I”) payment(s) and any other expenses or amounts that are permitted to be capitalized under the Flex Modification capitalization rules in Section 9206.15(b) into an existing or newly created non-interest bearing UPB (i.e., deferred UPB). The deferred UPB will become due on the earlier of:

- The Mortgage maturity date
- The Mortgage payoff date (e.g., refinance or payoff of the interest-bearing UPB); or
- Upon transfer or sale of the Mortgaged Premises

Step 2: Reporting the Payment Deferral. The Servicer must advance the DDLPI in order to bring the Mortgage to current status.

Step 3: Remaining payment schedule. Ensure the remaining payment schedule associated with the interest-bearing UPB remains unchanged from the Mortgage's payment schedule before applying the Payment Deferral.

Step 4: Late charges. The Servicer must waive all accrued and unpaid late charges upon completion of the Payment Deferral.

Step 5: Remaining Mortgage terms. When offering the Payment Deferral, the Servicer must ensure all other remaining terms of the existing Mortgage remain unchanged including, but not limited to the:

- Remaining amortization schedule
- Monthly P&I portion of the existing contractual monthly Mortgage payment
- Interest rate (this includes maintaining the existing rate adjustment schedule for an ARM or a Step-Rate Mortgage)
- Maturity date; and
- Due dates of the remaining payment due under the Mortgage

The maximum number of cumulative P&I payments that may be deferred for a Mortgage subject to non-disaster Payment Deferrals over the life of the Mortgage is 12.

(b) Escrow

Prior to or during the Servicer's determination of the Borrower's eligibility for a Payment Deferral, the Servicer must analyze the Borrower's Escrow to estimate if there is an Escrow shortage. If the Servicer completed an estimated analysis during evaluation, then upon completion of the Payment Deferral, the Servicer must perform a new Escrow analysis in accordance with the Real Estate Settlement Procedures Act (RESPA) and any applicable federal, State or local laws.

If, as a result of the analysis, the Servicer determines that there is an Escrow shortage, the Servicer must disclose the amount of the shortage to the Borrower before the Borrower accepts the Payment Deferral. If the Borrower is unable to pay the Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly principal, interest, taxes and insurance (PITI) payment. If the Borrower must make monthly Escrow shortage payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of 60 months, unless the Borrower chooses to pay off the shortage over a shorter period of time, not to be less than 12 months

- Take into account any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

If the Borrower is unable to afford a Payment Deferral based on the increased monthly payment resulting from an Escrow shortage repayment, the Servicer must evaluate the Borrower for a Flex Modification.

To complete a Payment Deferral, the Servicer must perform an actual Escrow analysis (as opposed to an estimate) in accordance with RESPA and any applicable federal, State or local law upon completion of the Payment Deferral and, if applicable, establish a repayment plan in accordance with the above requirements. Any Escrow shortage that is identified at the time of the Payment Deferral must not be deferred to the non-interest-bearing UPB, and the Servicer is not required to fund any existing Escrow shortage.

The Servicer is not required to revoke a previous waiver of Escrow, if applicable.

9203.23: Completing Payment Deferral (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve® before the mandatory October 1, 2023 effective date.

The Servicer must complete the Payment Deferral in the same month it determines the Borrower is eligible. If the Servicer is unable to complete the Payment Deferral within the same month of its determination, the Servicer may, at its option, use an additional month to allow for sufficient processing time (“processing month”) to complete the Payment Deferral. In this circumstance, the Borrower is required to make his or her full monthly contractual payment during the processing month. In addition, the Servicer must treat all Borrowers equally in applying the processing month, as evidenced by a written policy.

No later than five days after the completion (i.e., a closed/settled workout option) of the Payment Deferral, the Servicer must send the payment deferral agreement, or the Servicer’s customized equivalent of the payment deferral agreement, to the Borrower. If the Servicer elects to require the Borrower to sign and return the payment deferral agreement, it must receive the fully executed payment deferral agreement prior to the settlement date.

Use of the payment deferral agreement is optional. It reflects the minimum level of information that the Servicer must communicate to the Borrower and it illustrates a level of specificity that is deemed to be in compliance with the requirements of the Guide. The Servicer must ensure the payment deferral agreement complies with applicable federal, State or local law.

When processing a payment deferral agreement, the Servicer must also comply with the following requirements:

(a) Recordation

The Servicer must ensure that the Mortgage subject to the Payment Deferral retains its First Lien position and continues to be fully enforceable in accordance with its terms at the time of completion of the Payment Deferral, throughout the term of the Mortgage, and during any bankruptcy or foreclosure proceeding involving the Mortgage.

The Servicer must record the payment deferral agreement only when doing so is necessary to ensure its compliance with this First Lien retention and the Payment Deferral enforcement requirement.

(b) Title endorsement

The Servicer is responsible for ensuring that the Mortgage subject to the Payment Deferral complies with applicable law, retains Freddie Mac's First Lien position, and is enforceable against the Borrower(s) in accordance with its terms.

The Servicer must obtain a title endorsement or similar title insurance product issues by a title insurance company if the payment deferral agreement will be recorded.

(c) Document Custodian

After the Servicer has sent the executed Deferral Payment Agreement to the Borrower in accordance with the requirements in this section, the Servicer must comply with the following requirements:

- If the payment deferral agreement is not required to be signed by the Borrower, the Servicer must send a copy of the Servicer executed payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral completion.
- If the payment deferral agreement must be recorded, the Servicer must:
 - Send a certified copy of the fully executed payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral; and
 - Send the original payment deferral agreement when returned from the recorder's office to the Document Custodian within five Business Days of receipt
- If the payment deferral agreement must be signed by the Borrower but not recorded, the Servicer must send the fully executed original payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral.

9203.23: Completing Payment Deferral (Future effective date 10/01/23)

The Servicer must complete the Payment Deferral in the same month it determines the Borrower is eligible. If the Servicer is unable to complete the Payment Deferral within the same month of its determination, the Servicer may, at its option, and in accordance with the “processing month” requirements below, use an additional month to allow for sufficient processing time (“processing month”) to complete the Payment Deferral.

(a) Processing Month Requirements

If the Servicer is unable to complete (i.e., submit the case via Freddie Mac’s servicing system) the Payment Deferral before the 15th day of the evaluation month, then the Servicer is authorized to use an additional month to allow for sufficient processing time (a “processing month”) to complete a Payment Deferral. The Servicer must treat all Borrowers equally in applying the processing month, as evidenced by a written policy (i.e., the criteria for requiring a processing month must be the same for all Borrowers).

Additionally, the Servicer is not permitted to defer more than 6 months of principal and interest (P&I) payments as part of a Payment Deferral or to exceed 12 months of cumulative deferred P&I payments from all Payment Deferrals completed on the Mortgage. As a result, the Borrower must make their full monthly contractual payment during the processing month if, as of the evaluation date:

- The Mortgage is 180 days delinquent, or
- The Payment Deferral would cause the Mortgage to exceed 12 months of cumulative deferred past-due P&I payments

Otherwise, the Borrower is not required to submit a payment during the processing month for a Payment Deferral.

(b) Payment Deferral agreement

The Servicer must send Exhibit 1100, Payment Deferral Agreement, or equivalent to the Borrower no later than five days after the completion (i.e., a closed/settled workout option) of the Payment Deferral. If the Servicer elects to require the Borrower to sign and return the Payment Deferral agreement, it must receive the fully executed Payment Deferral agreement prior to the settlement date.

Use of Exhibit 1100 is optional. It reflects the minimum level of information that the Servicer must communicate to the Borrower, and it illustrates a level of specificity that is deemed to be in compliance with the requirements of the Guide. The Servicer must ensure the Payment Deferral agreement complies with applicable federal, State or local laws.

When processing a Payment Deferral agreement, the Servicer must also comply with the following requirements:

(c) Maintaining lien status

The Servicer's application of a Payment Deferral to the Mortgage must not impair Freddie Mac's First Lien position or enforceability against the Borrower(s) in accordance with its terms.

(d) Title endorsement

Not required.

(e) Document Custodian

After the Servicer has sent the executed Payment Deferral agreement to the Borrower in accordance with the requirements in this section, the Servicer must comply with the following requirements:

- If the Payment Deferral agreement is not required to be signed by the Borrower, the Servicer must send a copy of the Servicer executed Payment Deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral completion.
- If the Payment Deferral agreement is to be recorded, the Servicer must:
 - Send a certified copy of the fully executed Payment Deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral; and
 - Send the original Payment Deferral agreement that is returned from the recorder's office to the Document Custodian within five Business Days of receipt
- If the Payment Deferral agreement must be signed by the Borrower but not recorded, the Servicer must send the fully executed original Payment Deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral.

9203.24: Submission of Payment Deferral terms and settlement (05/15/23)

Refer to Bulletin 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after May 15, 2023, if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

Payment Deferrals can be processed and settled daily at Freddie Mac, except on the first Business Day of the month. Servicers can monitor the settlement status of all Payment Deferrals daily via the Modification Overview Report.

(a) Use of Servicer Proprietary System

The Servicer may use a proprietary system or a third-party system to generate the terms of the Payment Deferral; however, this data also must be entered in its entirety into Workout Prospector®. When relying on a proprietary or third-party system, the Servicer must ensure that their results comply with the requirements under Sections 9203.18 and 9203.25 and are the same as the data entered into Workout Prospector prior to sending the payment deferral agreement to the Borrower. If the results reflected in Workout Prospector are different than the Servicer's results, the Servicer must update the data in Workout Prospector to ensure that it corresponds with the terms of the payment deferral agreement, which, in turn, must accurately reflect the underwriting requirements under Sections 9203.18 through 9203.25, prior to sending the agreement to the Borrower.

(b) Workout Prospector®

To model the terms of the Payment Deferral in Workout Prospector® and complete the settlement, the Servicer must use the “Payment Deferral” path in accordance with the requirements in this section and the instructions provided in the [**Workout Prospector Users’ Guide**](#) for a Payment Deferral.

When submitting the settlement data for a Payment Deferral via the “Loan Modification Settlement” screen in Workout Prospector, the Servicer first must determine whether the settlement data submission is eligible for instant settlement. The eligibility requirements for determining the settlement data submission status are described below:

(i) Instant settlement

To process the Payment Deferral for immediate settlement, the requirements in Sections 9203.18 and 9203.25 must be met and the “Current UPB (pre-Payment Deferral UBP)” and “Current DDLPI” on the Mortgage Attributes screen in Workout Prospector must correspond with the UPB and DDLPI reported by the Servicer to Freddie Mac as of the last Accounting Cycle Cutoff in the month prior to the first payment due date.

To complete the settlement of the Payment Deferral, the Servicer must then navigate to the “Loan Modification Settlement” screen in Workout Prospector. All the data fields on the “Loan Modification Settlement” screen will be pre-populated and the Servicer will be unable to make edits to any data related to the Payment Deferral.

By transmitting the data to Freddie Mac via Workout Prospector for immediate settlement, the Servicer represents and warrants that it has complied with all applicable requirements in Sections 9203.18 through 9203.25 and applicable Purchase Documents governing (a) the Servicer’s delegated authority to process a Mortgage subject to the

terms of the Payment Deferral, and (b) the Servicer’s use of Workout Prospector, to complete the settlement.

(ii) Payment Deferrals not eligible for instant settlement

If the “Current UPB (pre-Payment Deferral)” and the “Current DDLPI” on the Mortgage Attributes screen in Workout Prospector does not correspond with the UPB and DDLPI reported by the Servicer to Freddie Mac as of the last Accounting Cycle Cutoff in the month prior to the first payment due date, the Payment Deferral is not eligible for instant settlement and the Servicer must comply with the following requirements.

After modeling the terms of the Payment Deferral in Workout Prospector in accordance with the requirements in Guide and the instructions provided in the **Workout Prospector Users’ Guide**, the Servicer must transmit the data to Freddie Mac prior to the first payment due under the terms of the Payment Deferral. After transmitting the terms of the Payment Deferral to Freddie Mac, then the Servicer must wait at least one Business Day before submitting the settlement data in the “Loan Modification Settlement” screen to Freddie Mac.

By transmitting the data to Freddie Mac via Workout Prospector for settlement, the Servicer represents and warrants that it has complied with all applicable requirements in the Guide and applicable Purchase Documents governing (a) the Servicer’s delegated authority to process a Mortgage subject to the terms of the Payment Deferral, and (b) the Servicer’s use of Workout Prospector, to complete the settlement.

9203.24: Submission of Payment Deferral terms and settlement (Future effective date 08/31/23)

Payment Deferrals can be processed and settled daily at Freddie Mac, except on the first Business Day of the month. Servicers can monitor the settlement status of all Payment Deferrals daily via the Modification Overview Report.

(a) Resolve®

Servicers must use Resolve for all Mortgages for which the Borrowers are being evaluated for a Payment Deferral under this chapter. Resolve requires the submission of specific data elements in order to return a suggested workout solution. The Servicer represents and warrants that all data input into Resolve is true, complete and accurate and that all data is entered correctly. Based on the information input by the Servicer, Resolve will determine the terms of the Payment Deferral. The Servicer must use Resolve “in accordance with the requirements in this section and the Payment Deferral instructions provided in **Resolve Online Help**.

(i) Instant settlement

To process the Payment Deferral for immediate settlement, the requirements in Sections 9203.18 and 9203.25 must be met.

To complete the settlement of the Payment Deferral, the Servicer must submit the settlement request in Resolve.

By transmitting the data to Freddie Mac via Resolve, the Servicer represents and warrants that it has complied with all applicable requirements in Sections 9203.18 through 9203.25 and applicable Purchase Documents governing (a) the Servicer's delegated authority to process a Mortgage subject to the terms of the Payment Deferral, and (b) the Servicer's use of Resolve, to complete the settlement.

(ii) Payment Deferrals not eligible for instant settlement

If the settlement request is submitted but the workout is not eligible for instant settlement, the Servicer is expected to follow the response provided by Resolve and correct any issues that were highlighted in Resolve's response and submit for settlement accordingly.

By transmitting the data to Freddie Mac via Resolve for settlement, the Servicer represents and warrants that it has complied with all applicable requirements in the Guide and applicable Purchase Documents governing (a) the Servicer's delegated authority to process a Mortgage subject to the terms of the Payment Deferral, and (b) the Servicer's use of Resolve, to complete the settlement.

9203.25: Other Payment Deferral conditions and requirements (07/01/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve before the mandatory October 1, 2023 effective date.

This section describes other conditions and requirements for processing the Payment Deferral:

(a) Delinquency status reporting

The Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Payment Deferral, the Servicer must continue reporting the appropriate delinquency status information to Freddie Mac through the EDR Tool in accordance with requirements in Section 9102.7 and Exhibit 88, Servicing Tools. After the Payment Deferral has been completed and the Mortgage is brought current the EDR status code must reflect the Mortgage as current.

If a Borrower redefaults and enters a new forbearance plan, the Servicer must report the new plan through the EDR Tool in accordance with the requirements described above.

(b) Request for reimbursement of expenses

Servicers may use PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88) to request reimbursement for the following fees associated with the Payment Deferral:

Expense Description	Expense Code	Expense Limit and Notes
Recordation fees	300003	Actual cost
Title costs, if applicable	300004	Reimbursable amounts are in accordance with the limits specified in Exhibit 57A
Notary fees	42001	\$150

If the Servicer submits a reimbursement request for Payment Deferral expenses and the Payment Deferral settlement date does not exist in Freddie Mac's systems, the expense reimbursement request will not be eligible for payment. All Payment Deferrals must have been submitted to Freddie Mac for settlement in its systems to be eligible for expense reimbursement.

(c) Credit reporting

For each Mortgage that is subject to the Payment Deferral, the Servicer must provide a "full file" status report describing the status of the Mortgage to each of the four major credit repositories in accordance with the credit bureau standards as provided by the Consumer Data Industry Association.

(d) Incentive payment

The Servicer is eligible to receive a \$500 incentive payment for each completed Payment Deferral.

(e) Servicing fee

The Servicer will continue to receive the Servicing fee it was receiving prior to completing the Payment Deferral.

(f) Future Flex Modification evaluations

If the Servicer is evaluating a Borrower for a future Flex Modification, the Payment Deferral will not count as a previous loan modification for purposes of calculating the number of times the Mortgage has previously been modified.

9203.25: Other Payment Deferral conditions and requirements (Future effective date 10/01/23)

This section describes other conditions and requirements for processing the Payment Deferral:

(a) Delinquency status reporting

The Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Payment Deferral, the Servicer must continue reporting the appropriate delinquency status information to Freddie Mac through the EDR Tool in accordance with requirements in Section 9102.7 and Exhibit 88, Servicing Tools. After the Payment Deferral has been completed and the Mortgage is brought current the EDR status code must reflect the Mortgage as current.

If a Borrower redefaults and enters a new forbearance plan, the Servicer must report the new plan through the EDR Tool in accordance with the requirements described above.

(b) Request for reimbursement of expenses

Servicers may use PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88) to request reimbursement for the following fees associated with the Payment Deferral:

Expense Description	Expense Code	Expense Limit and Notes
Recordation fees	300003	Actual cost
Title costs, if applicable	300004	Reimbursable amounts are in accordance with the limits specified in Exhibit 57A
Notary fees	42001	\$150

If the Servicer submits a reimbursement request for Payment Deferral expenses and the Payment Deferral settlement date does not exist in Freddie Mac's systems, the expense reimbursement request will not be eligible for payment. All Payment Deferrals must have been submitted to Freddie Mac for settlement in its systems to be eligible for expense reimbursement.

(c) Credit reporting

For each Mortgage that is subject to the Payment Deferral, the Servicer must provide a “full file” status report describing the status of the Mortgage to each of the four major credit repositories in accordance with the credit bureau standards as provided by the Consumer Data Industry Association.

(d) Incentive payment

The Servicer is eligible to receive a \$500 incentive payment for each completed Payment Deferral.

(e) Servicing fee

The Servicer will continue to receive the Servicing fee it was receiving prior to completing the Payment Deferral.

(f) Future Flex Modification evaluations

If the Servicer is evaluating a Borrower for a future Flex Modification, the Payment Deferral will not count as a previous loan modification for purposes of calculating the number of times the Mortgage has previously been modified.

(a) Failed Payment Deferral – Flex Modification solicitations

Failed Payment Deferrals – Flex Modification solicitations	
If:	Then:
The Borrower has accepted a Payment Deferral and: <ul style="list-style-type: none">■ Subsequently becomes 60 days delinquent within 6 months of the Payment Deferral effective date, and■ The Servicer is unable to establish quality right party contact	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 75 th day of Delinquency.
Eligibility	
The Servicer must evaluate the Borrower for eligibility for a proactive offer for a Flex Modification in accordance with the requirements of Section 9206.5(c) except when the Mortgage is not required to be 90 days or more delinquent.	
Solicitation	

The Servicer must send the Borrower Exhibit 1191, Freddie Mac Flex Modification Solicitation Cover Letter, and the Exhibit 93 template for the Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP evaluation notice or its equivalent. Exhibits 1191 and 93 may be altered at the Servicer’s discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.

9203.26: Disaster Payment Deferral (07/01/23)

Refer to Bulletin 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after May 15, 2023, if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve before the mandatory October 1, 2023 effective date.

A Disaster Payment Deferral is a relief option to assist Borrowers who were impacted and became delinquent due to an Eligible Disaster as defined in Section 8404.1. The Disaster Payment Deferral is designed to cure the Delinquency by deferring the delinquent principal and interest (“P&I”) amounts of the contractual monthly Mortgage payment(s) into a newly created or an existing non-interest bearing UPB. Those amounts will become due and payable at the earlier of the Mortgage maturity date, payoff date or upon transfer or sale of the Mortgaged Premises. All other terms of the existing Mortgage must remain unchanged.

Unless otherwise notified by Freddie Mac, all Freddie Mac Servicers are delegated to approve and offer a Freddie Mac Disaster Payment Deferral to eligible Borrowers in accordance with the requirements of the Guide and other applicable Purchase Documents.

(a) Eligibility requirements and exclusions

The Servicer must achieve qualified right party contact (QRPC) with the Borrower in accordance with the requirements described in Section 9102.3(b).

(i) Borrower eligibility

In addition to the information required to achieve QRPC, the Servicer must confirm that the Borrower:

- Has a resolved hardship
- Is capable of continuing to make the existing contractual monthly Mortgage payment

- Is unable to afford a repayment plan or full reinstatement of the Mortgage

(ii) Delinquency and payment requirements

The Mortgage must:

- Have been current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- Be at least 30 days delinquent (i.e., one month) but less than or equal to 360 days delinquent (i.e., twelve months) as of the date of evaluation

Note: If a Borrower's hardship is the result of an Eligible Disaster but the Mortgage was 60 or more days delinquent as of the date of the disaster and the Servicer determines the borrower can maintain the existing monthly contractual Mortgage payment, the Servicer must submit an exception request via Workout Prospector® to Freddie Mac.

(iii) Mortgage and property eligibility

The Mortgage:

- Must be a conventional First Lien Mortgage currently owned or guaranteed by Freddie Mac, and
- May be a fixed-rate Mortgage, an ARM or a Step-Rate Mortgage

The property may be a Primary Residence, second home or Investment Property, and may be vacant or condemned.

(iv) Borrower documentation

The Servicer must not require a complete Borrower Response Package (BRP) to evaluate the Borrower for a Disaster Payment Deferral if the Borrower has been evaluated in accordance with all requirements in the Guide and the eligibility requirements are satisfied.

(v) Eligibility exclusions

The following Mortgages and Borrowers are ineligible for the Disaster Payment Deferral:

- FHA, VA and Guaranteed Rural Housing Mortgages
- Mortgages subject to recourse
- A Mortgage subject to a previous Disaster Payment Deferral related to the same Eligible Disaster event

- Mortgages subject to an approved short sale or deed-in-lieu of foreclosure transaction
- A Mortgage currently subject to an unexpired offer to the Borrower for a mortgage modification or other alternative to foreclosure
- Borrowers currently performing under a modification Trial Period Plan, a non-disaster forbearance plan or repayment plan

(vi) Mortgages subject to indemnification agreements

If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the Disaster Payment Deferral requirements in this section, the Servicer has the discretion to approve the Disaster Payment Deferral provided the following conditions are met:

- The Mortgage receiving the Disaster Payment Deferral retains its credit enhancement
- If the Servicer is not the credit enhancement provider, the Servicer first obtains in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement
- The Servicer remits to Freddie Mac an annual payment for the amount of all Disaster Payment Deferral-related costs (e.g., interest rate shortfall). The loss amount calculations for the Disaster Payment Deferral will be determined by Freddie Mac in the same manner as the calculations for modification loss amounts. The Disaster Payment Deferral loss amounts due will be calculated on a monthly basis and billed on an annual basis for the life of the Mortgage that is subject to a Disaster Payment Deferral. If the Mortgage is subject to a partial indemnification, each year, the Servicer will be billed the appropriate percentage of the Disaster Payment Deferral loss amount that corresponds with the partial indemnification agreement. The Disaster Payment Deferral loss amounts will be determined by Freddie Mac in accordance with the process described in Bulletins 2016-5 and 2017-1.

Note: The Servicer is not eligible for an incentive for completing a Disaster Payment Deferral on a Mortgage that is subject to an indemnification agreement.

(vii) Mortgage insurance

If the Mortgage is subject to mortgage insurance, and the MI is not included in our list of delegated mortgage insurance companies found in Exhibit 10, the Servicer must obtain delegation of authority from the MI or seek approval from the MI to complete the Disaster Payment Deferral.

(viii) Texas Equity Section 50(a)(6) Mortgages

If the Borrower is eligible and qualifies for a Disaster Payment Deferral, the Servicer must offer the Disaster Payment Deferral to the Borrower. If the Servicer receives Borrower notification classifying the Disaster Payment Deferral as a loan modification and claiming that the terms of the modification agreement do not comply with the provisions of Article XVI Section 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:

- Freddie Mac loan number
- Servicer loan number
- Transaction type (e.g., Texas Home Equity modification)
- Accounting Cycle in which Freddie Mac settled the workout
- Servicer's analysis (e.g., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)

Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution.

(b) Determining Disaster Payment Deferral terms

The Servicer must follow the steps below when determining the terms of the Disaster Payment Deferral.

If the existing Mortgage includes a non-interest bearing UPB as a result of a prior modification, the terms impacting that non-interest bearing UPB will remain unchanged. The Servicer must apply the Payment Deferral forbearance as follows:

- Defer the delinquent principal and interest ("P&I") and any other expenses or amounts that are permitted to be capitalized under the Flex Modification capitalization rules in Section 9206.15(b) into an existing or newly created non-interest bearing UPB (i.e., deferred UPB). The deferred UPB will become due on the earlier of:
 - The Mortgage maturity date
 - The Mortgage payoff date (e.g., refinance or payoff of the interest-bearing UPB), or
 - The transfer or sale of the Mortgaged Premises

The Servicer must:

- Advance the DDLPI to bring the Mortgage to current status

- Ensure the remaining payment schedule associated with the interest-bearing UPB remains unchanged from the Mortgage's pre-Disaster Payment Deferral payment schedule
- Waive all accrued and unpaid late charges upon completion of the Payment Deferral

When offering the Payment Deferral, the Servicer must ensure all other remaining terms of the existing Mortgage remain unchanged including, but not limited to the:

- Remaining amortization schedule
- Monthly P&I portion of the existing contractual monthly Mortgage payment
- Interest rate. This includes maintaining the existing rate adjustment schedule for an ARM or a Step-Rate Mortgage.
- Maturity date
- Due dates of the remaining payment due under the Mortgage

Note: The maximum number of monthly payments that may be deferred as part of a Disaster Payment Deferral is twelve.

Prior to or during the Servicer's determination of the Borrower's eligibility for a Disaster Payment Deferral the Servicer must analyze the Borrower's Escrow to estimate if there is an Escrow shortage. If the Servicer completed an estimated analysis during evaluation, then upon completion of the Disaster Payment Deferral, the Servicer must perform a new Escrow analysis in accordance with the Real Estate Settlement Procedures Act (RESPA) and any applicable federal, State or local law.

If, as a result of the analysis, the Servicer determines that there is an Escrow shortage, the Servicer must disclose the amount of the shortage to the Borrower before the Borrower accepts the Disaster Payment Deferral. If the Borrower is unable to pay the Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly principal, interest, taxes and insurance (PITI) payment. If the Borrower must make monthly Escrow shortage payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of 60 months, unless the Borrower chooses to pay off the shortage over a shorter period of time, not to be less than 12 months
- Take into account any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not

accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

If the Borrower is unable to afford a Disaster Payment deferral based on the increased monthly payment resulting from an Escrow shortage repayment, the Servicer must evaluate the Borrower for a Flex Modification.

Any Escrow account shortage that is identified at the time of the Payment Deferral must not be capitalized and the Servicer is not required to fund any existing Escrow account shortage.

Any Escrow advances must be included in the deferred balance, as described in the “Delinquent Disaster Payment Deferral” section above.

In addition, the Servicer is not required to revoke any Escrow account waiver.

(c) Completing a Disaster Payment Deferral

The Servicer must send a Disaster Payment Deferral agreement (Exhibit 1101 or the Servicer’s customized equivalent of the Disaster Payment Deferral agreement) to the Borrower no later than five days after completion (e.g., a closed/settled workout option) of the Disaster Payment Deferral. If the Servicer elects to require the Borrower to sign and return the Disaster Payment Deferral agreement, it must receive the fully executed Disaster Payment Deferral agreement prior to the settlement date.

Use of the payment deferral agreement is optional. It reflects the minimum level of information that the Servicer must communicate to the Borrower, and it illustrates a level of specificity that is deemed to be in compliance with the requirements of the Guide. The Servicer must ensure the payment deferral agreement complies with applicable federal, State or local law.

When processing a payment deferral agreement, the Servicer must also comply with the following requirements:

(i) Recordation

The Servicer must ensure that the Mortgage subject to the Payment Deferral retains its First Lien position and continues to be fully enforceable in accordance with its terms at the time of completion of the Payment Deferral, throughout the term of the Mortgage, and during any bankruptcy or foreclosure proceeding involving the Mortgage.

The Servicer must record the payment deferral agreement only when doing so is necessary to ensure its compliance with this First Lien retention and the Payment Deferral enforcement requirement.

(ii) Title endorsement

The Servicer is responsible for ensuring that the Mortgage subject to the Payment Deferral complies with applicable law, retains Freddie Mac's First Lien position, and is enforceable against the Borrower(s) in accordance with its terms.

The Servicer must obtain a title endorsement or similar title insurance product issues by a title insurance company if the payment deferral agreement will be recorded.

(iii) Document Custodian

After the Servicer has sent the executed payment deferral agreement to the Borrower as required in this section:

- If the payment deferral agreement is not required to be signed by the Borrower, the Servicer must send a copy of the Servicer executed payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral completion.
- If the payment deferral agreement must be recorded, the Servicer must:
 - Send a certified copy of the fully executed payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral, and
 - Send the original payment deferral agreement when returned from the recorder's office to the Document Custodian within five Business Days of receipt
- If the payment deferral agreement must be signed by the Borrower but not recorded, the Servicer must send the fully executed original payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral.

The Servicer must complete the Disaster Payment Deferral in the same month it determines the Borrower is eligible. If the Servicer is unable to complete the Disaster Payment Deferral within this time frame, the Servicer may use an additional month to allow for sufficient processing time ("processing month") to complete the Disaster Payment Deferral. The Servicer must treat all Borrowers equally in applying the processing month, as evidenced by a written policy (i.e., the criteria for requiring a processing month must be the same for all Borrowers). Additionally, the Servicer is not permitted to defer more than 12 months of payments as part of a Payment Deferral, so if a processing month is used for a Borrower who is already twelve months delinquent, the Servicer must require a payment during the processing month. Otherwise, the Borrower is not required to submit a payment during the processing month for a Disaster Payment Deferral.

The Servicer must process a Disaster Payment Deferral agreement in compliance with the requirements for processing a regular payment deferral agreement, as described in Section 9203.23. This includes the requirements for recording, title endorsement and document custody.

(d) Evaluation hierarchy

To be eligible for a Disaster Payment Deferral, a Borrower must have been current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster. Otherwise, the Servicer must conduct all loss mitigation evaluations in accordance with Freddie Mac's standard loss mitigation evaluation hierarchy, as described in Section 9201.2, or must submit an exception request for Freddie Mac approval.

If QRPC is established with a Borrower who was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and the Borrower is unable to resolve the Delinquency through a reinstatement or repayment plan, the Servicer must evaluate the Borrower for the loss mitigation options in the following Disaster evaluation hierarchy:

1. Disaster Payment Deferral
2. Flex Modification
3. Standard Short Sale
4. Standard Deed-in-Lieu of Foreclosure

Note: In most cases, Borrowers impacted by an Eligible Disaster who qualify to be evaluated for a Disaster Payment Deferral will be transitioning from a forbearance plan, but forbearance is not a prerequisite.

(e) Solicitation for a Disaster Payment Deferral

The Servicer must proactively solicit the Borrower to offer a Disaster Payment Deferral within 15 days after the expiration of the forbearance plan if:

- The Servicer is not able to establish QRPC during the disaster related forbearance plan, and
- The Mortgage was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- The Mortgage does not meet any of the criteria described in the "Eligibility Exclusions" section

Exhibit 1102 is a solicitation letter template that the Servicer may use at its discretion, but every solicitation letter must, at a minimum, provide the details of the Disaster Payment Deferral and instructions on how to accept the offer. The Borrower may accept the Disaster Payment Deferral offer by:

- Contacting the Servicer directly in accordance with any acceptable outreach and communication method, or
- Returning an executed Disaster Payment Deferral agreement, if applicable, or
- Any other method evidencing the Borrower's acceptance, in compliance with applicable law (e.g., making the monthly payment due under the terms of the Disaster Payment Deferral offer)

The Solicitation Letter must include language that additional forbearance options are available, as applicable, if the Borrower's hardship is ongoing, or a Flex Modification may be available if the Borrower needs payment relief.

Note: If the Servicer is permitting payment to constitute acceptance of the Disaster Payment Deferral offer, the Servicer must require the Borrower's payment to be submitted so it is received by the Servicer in the same month as the Payment Deferral offer is sent. This requirement must be described in the Solicitation Letter, if applicable.

(f) Solicitation for a Flex Modification

If the Borrower is ineligible for a solicitation for a Disaster Payment Deferral as described above, then the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification in accordance with the special Flex Modification requirements for Borrowers impacted by an Eligible Disaster, as described in Section 9206.5(e). Otherwise, the Servicer must evaluate in accordance with regular Guide requirements for making a streamlined offer for a Flex Modification, as described in Section 9206.5(c). The Servicer must send a streamlined offer for a Flex Modification to an eligible Borrower within 15 days of the expiration of the forbearance plan.

If the Borrower was eligible for a solicitation for a Disaster Payment Deferral but did not accept the offer, then the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification following the same requirements as described in the preceding paragraph, except that the Servicer must send the streamlined offer to an eligible Borrower within 15 days of the expiration of the Disaster Payment Deferral offer.

(i) Flex Modification evaluations for failed Disaster Payment Deferral

If the Borrower accepts a Disaster Payment Deferral, subsequently becomes 60 days delinquent within six months of the effective date, and the Servicer is unable to achieve QRPC, the Servicer must evaluate the Borrower for a Flex Modification based on the special eligibility criteria described below, and the Servicer is not required to collect a complete Borrower Response Package. A Flex Modification offer must be sent to an eligible Borrower under these requirements no later than the 75th day of Delinquency.

(ii) Reduced Flex Modification requirements

In lieu of the Guide requirements for Flex Modification eligibility in Sections 9206.5 and 9206.6, Mortgages will be excluded from eligibility only under the following circumstances:

- The Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage
- The Mortgage is subject to recourse
- The Borrower is currently performing under another forbearance plan, Trial Period Plan or repayment plan
- The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure
- The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other foreclosure prevention alternative, such as a forbearance plan or repayment plan

If the Servicer was not collecting Escrows on the existing Mortgage, the Borrower is not required to establish an Escrow account as a condition of the modification unless otherwise required by applicable law or the Servicer confirms that the taxes and insurance premiums have not been paid and are past due.

(g) Workout Prospector

To model the terms of the Disaster Payment Deferral and complete the settlement process, Servicers must use the “Payment Deferral” path in Workout Prospector. Servicers must comply with the requirements in Section 9203.24 and the instructions provided in the **Workout Prospector Users’ Guide** to complete the submission and settlement process for a Disaster Payment Deferral.

Servicers may use a proprietary system or third-party system to generate the terms of the Disaster Payment Deferral; however, this data also must be entered in its entirety into Workout Prospector. The Servicer must ensure that its results comply with the requirements in Sections 9203.18 through 9203.25 and are the same as the data entered into Workout Prospector prior to sending the Disaster Payment Deferral agreement to the Borrower.

(h) Reporting requirements

In most cases, the Disaster Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Disaster Payment Deferral, the Servicer must continue reporting the appropriate delinquency status through the Loan Level Reporting tool in accordance with requirements in Section 8303.15 and default information to Freddie Mac through EDR in accordance with requirements in Section 9102.7. Once the Disaster Payment Deferral has been completed and the Mortgage is brought current, the Servicer must report the Mortgage as current through the Loan Level Reporting tool.

However, the Servicer must report Status Code H6, Payment Deferral Offer, to notify Freddie Mac that the Mortgage is subject to an active Disaster Payment Deferral offer in the following instances:

- The forbearance period ends prior to settlement of an accepted Disaster Payment Deferral (e.g., the Servicer elected to use a processing month and the forbearance plan expires), or
- The Servicer has made a proactive offer following the expiration of a forbearance plan in accordance with the “Solicitation for a Disaster Payment Deferral” section above

In these instances, the Servicer must continue to report Status Code H6 until the offer has expired or the Payment Deferral has been completed.

(i) Other requirements for the Disaster Payment Deferral

(i) Delinquency status reporting

The Disaster Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Disaster Payment Deferral, the Servicer must continue reporting the appropriate delinquency status information to Freddie Mac through the EDR Tool in accordance with requirements in Section 9102.7 and Exhibit 88, Servicing Tools. After the Disaster Payment Deferral has been completed and the Mortgage is brought current, the EDR status code must reflect the Mortgage as current.

If a Borrower redefaults and enters a new forbearance plan, the Servicer must report the new plan through the EDR Tool in accordance with the requirements described above.

(ii) Request for reimbursement of expenses

Servicers may use PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to request reimbursement for the following fees associated with the Disaster Payment Deferral:

Expense Description	Expense Code	Expense Limit and Notes
Recordation fees	300003	Actual cost
Title costs, if applicable	300004	Reimbursable amounts are in accordance with the limits specified in Exhibit 57A
Notary fees	42001	\$150

If the Servicer submits a reimbursement request for Disaster Payment Deferral expenses and the Disaster Payment Deferral settlement date does not exist in Freddie Mac’s systems, the expense reimbursement request will not be eligible for payment. All Disaster

Payment Deferrals must have been submitted to Freddie Mac for settlement in its systems to be eligible for expense reimbursement.

(iii) Credit reporting

For each Mortgage that is subject to the Disaster Payment Deferral, the Servicer must provide a “full file” status report describing the status of the Mortgage to each of the four major credit repositories in accordance with the credit bureau standards as provided by the Consumer Data Industry Association.

(iv) Incentive payment

The Servicer is eligible to receive a \$500 incentive payment for each completed Disaster Payment Deferral.

(v) Servicing fee

The Servicer will continue to receive the Servicing fee it was receiving prior to completing the Disaster Payment Deferral.

(vi) Future Flex Modification evaluations

If the Servicer is evaluating a Borrower for a future Flex Modification, the Disaster Payment Deferral will not count as a previous loan modification for purposes of calculating the number of times the Mortgage has previously been modified.

(j) Future Payment Deferral evaluations

If the Servicer is evaluating a Borrower for a future non-Disaster Payment Deferral in accordance the requirements of with Sections 9203.19 through 9203.25, the Disaster Payment Deferral will not cause the Borrower to be ineligible.

9203.26: Disaster Payment Deferral (Future effective date 08/31/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve before the mandatory October 1, 2023 effective date.

A Disaster Payment Deferral is a relief option to assist Borrowers who were impacted and became delinquent due to an Eligible Disaster as defined in Section 8404.1. The Disaster Payment Deferral is designed to cure the Delinquency by deferring the delinquent principal and interest (“P&I”) amounts of the contractual monthly Mortgage payment(s) into a newly created or an existing non-interest bearing UPB. Those amounts will become due and payable at the

earlier of the Mortgage maturity date, payoff date or upon transfer or sale of the Mortgaged Premises. All other terms of the existing Mortgage must remain unchanged.

Unless otherwise notified by Freddie Mac, all Freddie Mac Servicers are delegated to approve and offer a Freddie Mac Disaster Payment Deferral to eligible Borrowers in accordance with the requirements of the Guide and other applicable Purchase Documents.

(a) Eligibility requirements and exclusions

The Servicer must achieve qualified right party contact (QRPC) with the Borrower in accordance with the requirements described in Section 9102.3(b).

(i) Borrower eligibility

In addition to the information required to achieve QRPC, the Servicer must confirm that the Borrower:

- Has a resolved hardship
- Is capable of continuing to make the existing contractual monthly Mortgage payment
- Is unable to afford a repayment plan or full reinstatement of the Mortgage

(ii) Delinquency and payment requirements

The Mortgage must:

- Have been current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- Be at least 30 days delinquent (i.e., one month) but less than or equal to 360 days delinquent (i.e., twelve months) as of the date of evaluation

Note: If a Borrower's hardship is the result of an Eligible Disaster but the Mortgage was 60 or more days delinquent as of the date of the disaster and the Servicer determines the borrower can maintain the existing monthly contractual Mortgage payment, the Servicer must submit an exception request via Resolve® to Freddie Mac.

(iii) Mortgage and property eligibility

The Mortgage:

- Must be a conventional First Lien Mortgage currently owned or guaranteed by Freddie Mac, and
- May be a fixed-rate Mortgage, an ARM or a Step-Rate Mortgage

The property may be a Primary Residence, second home or Investment Property, and may be vacant or condemned.

(iv) Borrower documentation

The Servicer must not require a complete Borrower Response Package (BRP) to evaluate the Borrower for a Disaster Payment Deferral if the Borrower has been evaluated in accordance with all requirements in the Guide and the eligibility requirements are satisfied.

(v) Eligibility exclusions

The following Mortgages and Borrowers are ineligible for the Disaster Payment Deferral:

- FHA, VA and Guaranteed Rural Housing Mortgages
- Mortgages subject to recourse
- A Mortgage subject to a previous Disaster Payment Deferral related to the same Eligible Disaster event
- Mortgages subject to an approved short sale or deed-in-lieu of foreclosure transaction
- A Mortgage currently subject to an unexpired offer to the Borrower for a mortgage modification or other alternative to foreclosure
- Borrowers currently performing under a modification Trial Period Plan, a non-disaster forbearance plan or repayment plan

(vi) Mortgages subject to indemnification agreements

If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the Disaster Payment Deferral requirements in this section, the Servicer has the discretion to approve the Disaster Payment Deferral provided the following conditions are met:

- The Mortgage receiving the Disaster Payment Deferral retains its credit enhancement
- If the Servicer is not the credit enhancement provider, the Servicer first obtains in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement
- The Servicer remits to Freddie Mac an annual payment for the amount of all Disaster Payment Deferral-related costs (e.g., interest rate shortfall). The loss amount calculations for the Disaster Payment Deferral will be determined by Freddie Mac in

the same manner as the calculations for modification loss amounts. The Disaster Payment Deferral loss amounts due will be calculated on a monthly basis and billed on an annual basis for the life of the Mortgage that is subject to a Disaster Payment Deferral. If the Mortgage is subject to a partial indemnification, each year, the Servicer will be billed the appropriate percentage of the Disaster Payment Deferral loss amount that corresponds with the partial indemnification agreement. The Disaster Payment Deferral loss amounts will be determined by Freddie Mac in accordance with the process described in Bulletins 2016-5 and 2017-1.

Note: The Servicer is not eligible for an incentive for completing a Disaster Payment Deferral on a Mortgage that is subject to an indemnification agreement.

(vii) Mortgage insurance

If the Mortgage is subject to mortgage insurance, and the MI is not included in our list of delegated mortgage insurance companies found in Exhibit 10, the Servicer must obtain delegation of authority from the MI or seek approval from the MI to complete the Disaster Payment Deferral.

(viii) Texas Equity Section 50(a)(6) Mortgages

If the Borrower is eligible and qualifies for a Disaster Payment Deferral, the Servicer must offer the Disaster Payment Deferral to the Borrower. If the Servicer receives Borrower notification classifying the Disaster Payment Deferral as a loan modification and claiming that the terms of the modification agreement do not comply with the provisions of Article XVI Section 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:

- Freddie Mac loan number
- Servicer loan number
- Transaction type (e.g., Texas Home Equity modification)
- Accounting Cycle in which Freddie Mac settled the workout
- Servicer's analysis (e.g., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)

Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution.

(b) Determining Disaster Payment Deferral terms

Based on the information provided by the Servicer, Resolve will determine the terms of the Disaster Payment Deferral as described in this Section 9203.26(b).

If the existing Mortgage includes a non-interest bearing UPB as a result of a prior modification, the terms impacting that non-interest bearing UPB will remain unchanged.

The Servicer must:

- Apply the Payment Deferral forbearance as follows:
 - Defer the delinquent principal and interest (“P&I”) and any other expenses or amounts that are permitted to be capitalized under the Flex Modification capitalization rules in Section 9206.15(b) into an existing or newly created non-interest bearing UPB (i.e., deferred UPB). The deferred UPB will become due on the earlier of:
 - The Mortgage maturity date
 - The Mortgage payoff date (e.g., refinance or payoff of the interest-bearing UPB), or
 - The transfer or sale of the Mortgaged Premises
- Advance the DDLPI to bring the Mortgage to current status
- Ensure the remaining payment schedule associated with the interest-bearing UPB remains unchanged from the Mortgage’s pre-Disaster Payment Deferral payment schedule
- Waive all accrued and unpaid late charges upon completion of the Payment Deferral

When offering the Payment Deferral, the Servicer must ensure all other remaining terms of the existing Mortgage remain unchanged including, but not limited to the:

- Remaining amortization schedule
- Monthly P&I portion of the existing contractual monthly Mortgage payment
- Interest rate. This includes maintaining the existing rate adjustment schedule for an ARM or a Step-Rate Mortgage.
- Maturity date
- Due dates of the remaining payment due under the Mortgage

Note: The maximum number of monthly payments that may be deferred as part of a Disaster Payment Deferral is twelve.

Prior to or during the Servicer's determination of the Borrower's eligibility for a Disaster Payment Deferral the Servicer must analyze the Borrower's Escrow to estimate if there is an Escrow shortage. If the Servicer completed an estimated analysis during evaluation, then upon completion of the Disaster Payment Deferral, the Servicer must perform a new Escrow analysis in accordance with the Real Estate Settlement Procedures Act (RESPA) and any applicable federal, State or local law.

If, as a result of the analysis, the Servicer determines that there is an Escrow shortage, the Servicer must disclose the amount of the shortage to the Borrower before the Borrower accepts the Disaster Payment Deferral. If the Borrower is unable to pay the Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly principal, interest, taxes and insurance (PITI) payment. If the Borrower must make monthly Escrow shortage payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of 60 months, unless the Borrower chooses to pay off the shortage over a shorter period of time, not to be less than 12 months
- Take into account any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

If the Borrower is unable to afford a Disaster Payment deferral based on the increased monthly payment resulting from an Escrow shortage repayment, the Servicer must evaluate the Borrower for a Flex Modification.

Any Escrow account shortage that is identified at the time of the Payment Deferral must not be capitalized and the Servicer is not required to fund any existing Escrow account shortage.

Any Escrow advances must be included in the deferred balance, as described in the "Delinquent Disaster Payment Deferral" section above.

In addition, the Servicer is not required to revoke any Escrow account waiver.

(c) Completing a Disaster Payment Deferral

The Servicer must send a Disaster Payment Deferral agreement (Exhibit 1101 or the Servicer's customized equivalent of the Disaster Payment Deferral agreement) to the Borrower no later than five days after completion (e.g., a closed/settled workout option) of the Disaster Payment Deferral. If the Servicer elects to require the Borrower to sign and

return the Disaster Payment Deferral agreement, it must receive the fully executed Disaster Payment Deferral agreement prior to the settlement date.

Use of the payment deferral agreement is optional. It reflects the minimum level of information that the Servicer must communicate to the Borrower, and it illustrates a level of specificity that is deemed to be in compliance with the requirements of the Guide. The Servicer must ensure the payment deferral agreement complies with applicable federal, State or local law.

When processing a payment deferral agreement, the Servicer must also comply with the following requirements:

(i) Recordation

The Servicer must ensure that the Mortgage subject to the Payment Deferral retains its First Lien position and continues to be fully enforceable in accordance with its terms at the time of completion of the Payment Deferral, throughout the term of the Mortgage, and during any bankruptcy or foreclosure proceeding involving the Mortgage.

The Servicer must record the payment deferral agreement only when doing so is necessary to ensure its compliance with this First Lien retention and the Payment Deferral enforcement requirement.

(ii) Title endorsement

The Servicer is responsible for ensuring that the Mortgage subject to the Payment Deferral complies with applicable law, retains Freddie Mac's First Lien position, and is enforceable against the Borrower(s) in accordance with its terms.

The Servicer must obtain a title endorsement or similar title insurance product issues by a title insurance company if the payment deferral agreement will be recorded.

(iii) Document Custodian

After the Servicer has sent the executed payment deferral agreement to the Borrower as required in this section:

- If the payment deferral agreement is not required to be signed by the Borrower, the Servicer must send a copy of the Servicer executed payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral completion.
- If the payment deferral agreement must be recorded, the Servicer must:

- Send a certified copy of the fully executed payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral, and
- Send the original payment deferral agreement when returned from the recorder's office to the Document Custodian within five Business Days of receipt
- If the payment deferral agreement must be signed by the Borrower but not recorded, the Servicer must send the fully executed original payment deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral.

The Servicer must complete the Disaster Payment Deferral in the same month it determines the Borrower is eligible. If the Servicer is unable to complete the Disaster Payment Deferral within this time frame, the Servicer may use an additional month to allow for sufficient processing time (“processing month”) to complete the Disaster Payment Deferral. The Servicer must treat all Borrowers equally in applying the processing month, as evidenced by a written policy (i.e., the criteria for requiring a processing month must be the same for all Borrowers). Additionally, the Servicer is not permitted to defer more than 12 months of payments as part of a Payment Deferral, so if a processing month is used for a Borrower who is already twelve months delinquent, the Servicer must require a payment during the processing month. Otherwise, the Borrower is not required to submit a payment during the processing month for a Disaster Payment Deferral.

The Servicer must process a Disaster Payment Deferral agreement in compliance with the requirements for processing a regular payment deferral agreement, as described in Section 9203.23. This includes the requirements for recording, title endorsement and document custody.

(d) Evaluation hierarchy

To be eligible for a Disaster Payment Deferral, a Borrower must have been current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster. Otherwise, the Servicer must conduct all loss mitigation evaluations in accordance with Freddie Mac’s standard loss mitigation evaluation hierarchy, as described in Section 9201.2, or must submit an exception request for Freddie Mac approval.

If QRPC is established with a Borrower who was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and the Borrower is unable to resolve the Delinquency through a reinstatement or repayment plan, the Servicer must evaluate the Borrower for the loss mitigation options in the following Disaster evaluation hierarchy:

1. Disaster Payment Deferral
2. Flex Modification

3. Standard Short Sale
4. Standard Deed-in-Lieu of Foreclosure

Note: In most cases, Borrowers impacted by an Eligible Disaster who qualify to be evaluated for a Disaster Payment Deferral will be transitioning from a forbearance plan, but forbearance is not a prerequisite.

(e) Solicitation for a Disaster Payment Deferral

The Servicer must proactively solicit the Borrower to offer a Disaster Payment Deferral within 15 days after the expiration of the forbearance plan if:

- The Servicer is not able to establish QRPC during the disaster related forbearance plan, and
- The Mortgage was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- The Mortgage does not meet any of the criteria described in the “Eligibility Exclusions” section

Exhibit 1102 is a solicitation letter template that the Servicer may use at its discretion, but every solicitation letter must, at a minimum, provide the details of the Disaster Payment Deferral and instructions on how to accept the offer. The Borrower may accept the Disaster Payment Deferral offer by:

- Contacting the Servicer directly in accordance with any acceptable outreach and communication method, or
- Returning an executed Disaster Payment Deferral agreement, if applicable, or
- Any other method evidencing the Borrower’s acceptance, in compliance with applicable law (e.g., making the monthly payment due under the terms of the Disaster Payment Deferral offer)

The Solicitation Letter must include language that additional forbearance options are available, as applicable, if the Borrower’s hardship is ongoing, or a Flex Modification may be available if the Borrower needs payment relief.

Note: If the Servicer is permitting payment to constitute acceptance of the Disaster Payment Deferral offer, the Servicer must require the Borrower’s payment to be submitted so it is received by the Servicer in the same month as the Payment Deferral offer is sent. This requirement must be described in the Solicitation Letter, if applicable.

(f) Solicitation for a Flex Modification

If the Borrower is ineligible for a solicitation for a Disaster Payment Deferral as described above, then the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification in accordance with the special Flex Modification requirements for Borrowers impacted by an Eligible Disaster, as described in Section 9206.5(e). Otherwise, the Servicer must evaluate in accordance with regular Guide requirements for making a streamlined offer for a Flex Modification, as described in Section 9206.5(c). The Servicer must send a streamlined offer for a Flex Modification to an eligible Borrower within 15 days of the expiration of the forbearance plan.

If the Borrower was eligible for a solicitation for a Disaster Payment Deferral but did not accept the offer, then the Servicer must evaluate the Borrower for a streamlined offer for a Flex Modification following the same requirements as described in the preceding paragraph, except that the Servicer must send the streamlined offer to an eligible Borrower within 15 days of the expiration of the Disaster Payment Deferral offer.

(i) Flex Modification evaluations for failed Disaster Payment Deferral

If the Borrower accepts a Disaster Payment Deferral, subsequently becomes 60 days delinquent within six months of the effective date, and the Servicer is unable to achieve QRPC, the Servicer must evaluate the Borrower for a Flex Modification based on the special eligibility criteria described below, and the Servicer is not required to collect a complete Borrower Response Package. A Flex Modification offer must be sent to an eligible Borrower under these requirements no later than the 75th day of Delinquency.

(ii) Reduced Flex Modification requirements

In lieu of the Guide requirements for Flex Modification eligibility in Sections 9206.5 and 9206.6, Mortgages will be excluded from eligibility only under the following circumstances:

- The Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage
- The Mortgage is subject to recourse
- The Borrower is currently performing under another forbearance plan, Trial Period Plan or repayment plan
- The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure
- The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other foreclosure prevention alternative, such as a forbearance plan or repayment plan

If the Servicer was not collecting Escrows on the existing Mortgage, the Borrower is not required to establish an Escrow account as a condition of the modification unless otherwise required by applicable law or the Servicer confirms that the taxes and insurance premiums have not been paid and are past due.

(g) Resolve

To model the terms of the Disaster Payment Deferral and complete the settlement process, Servicers must use the “Payment Deferral” path in Resolve. Servicers must comply with the requirements in Section 9203.24 and the instructions provided in [Resolve Online Help](#) to complete the submission and settlement process for a Disaster Payment Deferral.

(h) Reporting requirements

In most cases, the Disaster Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Disaster Payment Deferral, the Servicer must continue reporting the appropriate delinquency status through the Loan Level Reporting tool in accordance with requirements in Section 8303.15 and default information to Freddie Mac through EDR in accordance with requirements in Section 9102.7. Once the Disaster Payment Deferral has been completed and the Mortgage is brought current, the Servicer must report the Mortgage as current through the Loan Level Reporting tool.

However, the Servicer must report Status Code H6, Payment Deferral Offer, to notify Freddie Mac that the Mortgage is subject to an active Disaster Payment Deferral offer in the following instances:

- The forbearance period ends prior to settlement of an accepted Disaster Payment Deferral (e.g., the Servicer elected to use a processing month and the forbearance plan expires), or
- The Servicer has made a proactive offer following the expiration of a forbearance plan in accordance with the “Solicitation for a Disaster Payment Deferral” section above

In these instances, the Servicer must continue to report Status Code H6 until the offer has expired or the Payment Deferral has been completed.

(i) Other requirements for the Disaster Payment Deferral

(i) Delinquency status reporting

The Disaster Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Disaster Payment Deferral, the Servicer must continue reporting the appropriate delinquency status information to Freddie Mac through the EDR Tool in accordance with requirements in Section 9102.7 and Exhibit 88, Servicing Tools. After the Disaster Payment Deferral has been completed and the Mortgage is brought current, the EDR status code must reflect the Mortgage as current.

If a Borrower redefaults and enters a new forbearance plan, the Servicer must report the new plan through the EDR Tool in accordance with the requirements described above.

(ii) Request for reimbursement of expenses

Servicers may use PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to request reimbursement for the following fees associated with the Disaster Payment Deferral:

Expense Description	Expense Code	Expense Limit and Notes
Recordation fees	300003	Actual cost
Title costs, if applicable	300004	Reimbursable amounts are in accordance with the limits specified in Exhibit 57A
Notary fees	42001	\$150

If the Servicer submits a reimbursement request for Disaster Payment Deferral expenses and the Disaster Payment Deferral settlement date does not exist in Freddie Mac's systems, the expense reimbursement request will not be eligible for payment. All Disaster Payment Deferrals must have been submitted to Freddie Mac for settlement in its systems to be eligible for expense reimbursement.

(iii) Credit reporting

For each Mortgage that is subject to the Disaster Payment Deferral, the Servicer must provide a "full file" status report describing the status of the Mortgage to each of the four major credit repositories in accordance with the credit bureau standards as provided by the Consumer Data Industry Association.

(iv) Incentive payment

The Servicer is eligible to receive a \$500 incentive payment for each completed Disaster Payment Deferral.

(v) Servicing fee

The Servicer will continue to receive the Servicing fee it was receiving prior to completing the Disaster Payment Deferral.

(vi) Future Flex Modification evaluations

If the Servicer is evaluating a Borrower for a future Flex Modification, the Disaster Payment Deferral will not count as a previous loan modification for purposes of calculating the number of times the Mortgage has previously been modified.

(j) Future Payment Deferral evaluations

If the Servicer is evaluating a Borrower for a future non-Disaster Payment Deferral in accordance the requirements of with Sections 9203.19 through 9203.25, the Disaster Payment Deferral will not cause the Borrower to be ineligible.

9203.26: Disaster Payment Deferral (Future effective date 10/01/23)

A Disaster Payment Deferral is a relief option to assist Borrowers who were impacted and became delinquent due to an Eligible Disaster as defined in Section 8404.1. The Disaster Payment Deferral is designed to cure the Delinquency by deferring the delinquent principal and interest (“P&I”) amounts of the contractual monthly Mortgage payment(s) into a newly created or an existing non-interest bearing UPB. Those amounts will become due and payable at the earlier of the Mortgage maturity date, payoff date or upon transfer or sale of the Mortgaged Premises. All other terms of the existing Mortgage must remain unchanged.

Unless otherwise notified by Freddie Mac, all Freddie Mac Servicers are delegated to approve and offer a Freddie Mac Disaster Payment Deferral to eligible Borrowers in accordance with the requirements of the Guide and other applicable Purchase Documents.

(a) Eligibility requirements and exclusions

The Servicer must achieve quality right party contact (QRPC) with the Borrower in accordance with the requirements described in Section 9102.3(b).

(i) Borrower eligibility

In addition to the information required to achieve QRPC, the Servicer must confirm that the Borrower:

- Has a resolved hardship
- Is capable of continuing to make the existing contractual monthly Mortgage payment
- Is unable to afford a repayment plan or full reinstatement of the Mortgage

(ii) Delinquency and payment requirements

The Mortgage must:

- Have been current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and
- Be at least 30 days delinquent (i.e., one month) but less than or equal to 360 days delinquent (i.e., twelve months) as of the date of evaluation

Note: If a Borrower's hardship is the result of an Eligible Disaster but the Mortgage was 60 or more days delinquent as of the date of the disaster and the Servicer determines the borrower can maintain the existing monthly contractual Mortgage payment, the Servicer must submit an exception request via Resolve® to Freddie Mac.

(iii) Mortgage and property eligibility

The Mortgage:

- Must be a conventional First Lien Mortgage currently owned or guaranteed by Freddie Mac, and
- May be a fixed-rate Mortgage, an ARM or a Step-Rate Mortgage

The property may be a Primary Residence, second home or Investment Property, and may be vacant or condemned.

(iv) Borrower documentation

The Servicer must not require a complete Borrower Response Package (BRP) to evaluate the Borrower for a Disaster Payment Deferral if the Borrower has been evaluated in accordance with all requirements in the Guide and the eligibility requirements are satisfied.

(v) Eligibility exclusions

The following Mortgages and Borrowers are ineligible for the Disaster Payment Deferral:

- FHA, VA and Guaranteed Rural Housing Mortgages
- Mortgages subject to recourse
- A Mortgage subject to a previous Disaster Payment Deferral related to the same Eligible Disaster event
- Mortgages subject to an approved short sale or deed-in-lieu of foreclosure transaction

- A Mortgage currently subject to an unexpired offer to the Borrower for a mortgage modification or repayment plan
- Borrowers currently performing under a modification Trial Period Plan or repayment plan
- A Mortgage with a maturity date that is within 36 months of the evaluation date
- A Mortgage with a projected payoff date based on payments due under the existing amortization schedule that is within 36 months of the evaluation date

Note: If the Mortgage is within 36 months of its maturity date or projected payoff date but the Servicer determines based on the Borrower's individual circumstances that the Borrower should be considered for a Disaster Payment Deferral, the Servicer may transmit an exception request to Freddie Mac.

(vi) Mortgages subject to indemnification agreements

If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the Disaster Payment Deferral requirements in this section, the Servicer has the discretion to approve the Disaster Payment Deferral provided the following conditions are met:

- The Mortgage receiving the Disaster Payment Deferral retains its credit enhancement
- If the Servicer is not the credit enhancement provider, the Servicer first obtains in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement
- The Servicer remits to Freddie Mac an annual payment for the amount of all Disaster Payment Deferral-related costs (e.g., interest rate shortfall). The loss amount calculations for the Disaster Payment Deferral will be determined by Freddie Mac in the same manner as the calculations for modification loss amounts. The Disaster Payment Deferral loss amounts due will be calculated on a monthly basis and billed on an annual basis for the life of the Mortgage that is subject to a Disaster Payment Deferral. If the Mortgage is subject to a partial indemnification, each year, the Servicer will be billed the appropriate percentage of the Disaster Payment Deferral loss amount that corresponds with the partial indemnification agreement. The Disaster Payment Deferral loss amounts will be determined by Freddie Mac in accordance with the process described in Bulletins 2016-5 and 2017-1.

Note: The Servicer is not eligible for an incentive for completing a Disaster Payment Deferral on a Mortgage that is subject to an indemnification agreement.

(vii) Mortgage insurance

If the Mortgage is subject to mortgage insurance, and the MI is not included in our list of delegated mortgage insurance companies found in Exhibit 10, the Servicer must obtain delegation of authority from the MI or seek approval from the MI to complete the Disaster Payment Deferral.

(viii) Texas Equity Section 50(a)(6) Mortgages

If the Borrower is eligible and qualifies for a Disaster Payment Deferral, the Servicer must offer the Disaster Payment Deferral to the Borrower. If the Servicer receives Borrower notification classifying the Disaster Payment Deferral as a loan modification and claiming that the terms of the modification agreement do not comply with the provisions of Article XVI Section 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:

- Freddie Mac loan number
- Servicer loan number
- Transaction type (e.g., Texas Home Equity modification)
- Accounting Cycle in which Freddie Mac settled the workout
- Servicer's analysis (e.g., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)

Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution.

(b) Determining Disaster Payment Deferral terms

Based on the information provided by the Servicer, Resolve will determine the terms of the Disaster Payment Deferral as described in this Section 9203.26(b).

If the existing Mortgage includes a non-interest bearing UPB as a result of a prior modification, the terms impacting that non-interest bearing UPB will remain unchanged.

The Servicer must:

- Apply the Payment Deferral forbearance as follows:
 - Defer the delinquent principal and interest ("P&I") and any other expenses or amounts that are permitted to be capitalized under the Flex Modification

capitalization rules in Section 9206.15(b) into an existing or newly created non-interest bearing UPB (i.e., deferred UPB). The deferred UPB will become due on the earlier of:

- The Mortgage maturity date
- The Mortgage payoff date (e.g., refinance or payoff of the interest-bearing UPB), or
- The transfer or sale of the Mortgaged Premises
- Advance the DDLPI to bring the Mortgage to current status
- Ensure the remaining payment schedule associated with the interest-bearing UPB remains unchanged from the Mortgage's pre-Disaster Payment Deferral payment schedule
- Waive all accrued and unpaid late charges upon completion of the Payment Deferral

When offering the Payment Deferral, the Servicer must ensure all other remaining terms of the existing Mortgage remain unchanged including, but not limited to the:

- Remaining amortization schedule
- Monthly P&I portion of the existing contractual monthly Mortgage payment
- Interest rate. This includes maintaining the existing rate adjustment schedule for an ARM or a Step-Rate Mortgage.
- Maturity date
- Due dates of the remaining payment due under the Mortgage

Note: The maximum number of monthly payments that may be deferred as part of a Disaster Payment Deferral is twelve.

Prior to or during the Servicer's determination of the Borrower's eligibility for a Disaster Payment Deferral the Servicer must analyze the Borrower's Escrow to estimate if there is an Escrow shortage. If the Servicer completed an estimated analysis during evaluation, then upon completion of the Disaster Payment Deferral, the Servicer must perform a new Escrow analysis in accordance with the Real Estate Settlement Procedures Act (RESPA) and any applicable federal, State or local law.

If, as a result of the analysis, the Servicer determines that there is an Escrow shortage, the Servicer must disclose the amount of the shortage to the Borrower before the Borrower accepts the Disaster Payment Deferral. If the Borrower is unable to pay the Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly principal,

interest, taxes and insurance (PITI) payment. If the Borrower must make monthly Escrow shortage payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of 60 months, unless the Borrower chooses to pay off the shortage over a shorter period of time, not to be less than 12 months
- Take into account any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

If the Borrower is unable to afford a Disaster Payment deferral based on the increased monthly payment resulting from an Escrow shortage repayment, the Servicer must evaluate the Borrower for a Flex Modification.

Any Escrow account shortage that is identified at the time of the Payment Deferral must not be capitalized and the Servicer is not required to fund any existing Escrow account shortage.

Any Escrow advances must be included in the deferred balance, as described in the “Delinquent Disaster Payment Deferral” section above.

In addition, the Servicer is not required to revoke any Escrow account waiver.

(c) Completing a Disaster Payment Deferral

The Servicer must send a Payment Deferral agreement (Exhibit 1100 or the Servicer’s customized equivalent of the Payment Deferral agreement) to the Borrower no later than five days after completion (e.g., a closed/settled workout option) of the Payment Deferral. If the Servicer elects to require the Borrower to sign and return the Payment Deferral agreement, it must receive the fully executed Payment Deferral agreement prior to the settlement date.

Use of the Payment Deferral agreement is optional. It reflects the minimum level of information that the Servicer must communicate to the Borrower, and it illustrates a level of specificity that is deemed to be in compliance with the requirements of the Guide. The Servicer must ensure the Payment Deferral agreement complies with applicable federal, State or local law.

When processing a Payment Deferral agreement, the Servicer must also comply with the following requirements:

(i) Maintaining lien status

The Servicer's application of a Disaster Payment Deferral to the Mortgage must not impair Freddie Mac's First Lien position or enforceability against the Borrower(s) in accordance with its terms.

(ii) Title endorsement

Not required.

(iii) Document Custodian

After the Servicer has sent the executed Payment Deferral agreement to the Borrower as required in this section:

- If the Payment Deferral agreement is not required to be signed by the Borrower, the Servicer must send a copy of the Servicer executed Payment Deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral completion.
- If the Payment Deferral agreement is to be recorded, the Servicer must:
 - Send a certified copy of the fully executed Payment Deferral agreement to the Document Custodian within 25 days of the effective date of the Payment Deferral, and
 - Send the original Payment Deferral agreement that is returned from the recorder's office to the Document Custodian within five Business Days of receipt
- If the Payment Deferral agreement must be signed by the Borrower but not recorded, the Servicer must send the fully executed original Payment Deferral agreement to the Document Custodian within 25 days of the effective date of the Disaster Payment Deferral.

(d) Processing month

The Servicer must complete the Disaster Payment Deferral in the same month it determines the Borrower is eligible. If the Servicer is unable to complete the Disaster Payment Deferral before the 15th day of the evaluation month, then the Servicer is authorized to use an additional month to allow for sufficient processing time (a "processing month") to complete the Disaster Payment Deferral. The Servicer must treat all Borrowers equally in applying the processing month, as evidenced by a written policy (i.e., the criteria for requiring a processing month must be the same for all Borrowers).

The Borrower must make a complete monthly contractual payment during the processing month if, as of the date of evaluation, the Mortgage is 12 months delinquent. In this

circumstance, the Servicer must complete the Disaster Payment Deferral within the processing month after the receipt of the Borrower's full monthly contractual payment due during that month.

(e) Disaster Payment Deferral agreement

The Servicer must process a Disaster Payment Deferral agreement in compliance with the requirements for processing a regular Payment Deferral agreement, as described in Section 9203.23.

(f) Evaluation hierarchy

To be eligible for a Disaster Payment Deferral, a Borrower must have been current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster. Otherwise, the Servicer must conduct all loss mitigation evaluations in accordance with Freddie Mac's standard loss mitigation evaluation hierarchy, as described in Section 9201.2, or must submit an exception request for Freddie Mac approval.

If QRPC is established with a Borrower who was current or less than 60 days delinquent (i.e., less than two months delinquent) as of the date of the Eligible Disaster, and the Borrower is unable to resolve the Delinquency through a reinstatement or repayment plan, the Servicer must evaluate the Borrower for the loss mitigation options in the following Disaster evaluation hierarchy:

1. Disaster Payment Deferral
2. Flex Modification
3. Standard Short Sale
4. Standard Deed-in-Lieu of Foreclosure

Note: In most cases, Borrowers impacted by an Eligible Disaster who qualify to be evaluated for a Disaster Payment Deferral will be transitioning from a forbearance plan, but forbearance is not a prerequisite.

(g) Post-forbearance plan – solicitation for a Disaster Payment Deferral

In order to promote a more seamless transition between loss mitigation options when a Borrower who was on a disaster-related forbearance completes the forbearance plan without a solution to the delinquency, the table below provides requirements for Servicers to conduct reviews for proactive Disaster Payment Deferral and Flex Modification offers:

Post Forbearance Plan – Disaster Payment Deferral	
If....	Then...
The Borrower's forbearance plan ends and the Servicer is unable to establish quality right party contact to evaluate for a post-forbearance solution to the delinquency.	The Servicer must evaluate the Borrower for a proactive offer for a Disaster Payment Deferral, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Disaster Payment Deferral by the 15 th day following expiration of the forbearance plan.
Eligibility	
<p>The Borrower must be eligible for a Disaster Payment Deferral in accordance with the requirements of this chapter, except:</p> <ul style="list-style-type: none"> ■ The Servicer is not required to have established quality right party contact, as described in Section 9203.26(a), and ■ The Servicer is not required to confirm that the Borrower meets the Borrower eligibility requirements described in Section 9203.26(a)(i) 	
Solicitation Requirements	
<p>The Servicer must solicit the Borrower using Exhibit 1102, Payment Deferral Post-Forbearance Solicitation Cover Letter, with Exhibit 1100, Payment Deferral Agreement, or its equivalent, making any appropriate changes to comply with applicable law. While use of Exhibits 1102 or 1100 is optional, it reflects the minimum level of information that the Servicer must communicate and illustrates a level of specificity that complies with the requirements of the Guide.</p> <p>The Servicer must include instruction on how to accept the offer in the Payment Deferral agreement. The Servicer is authorized to consider the following as acceptance by the Borrower, subject to applicable law:</p> <ul style="list-style-type: none"> ■ The Borrower contacting the Servicer directly in accordance with any acceptable outreach and communication method, ■ The Borrower returning an executed Payment Deferral agreement, or ■ Any other method evidencing the Borrower's acceptance as determined by the Servicer <p>The Borrower must make their full monthly contractual payment during the month of solicitation and/or processing month if, as of the date of evaluation, the Mortgage is 12 months delinquent. In this circumstance, the Servicer must complete the Disaster Payment Deferral within the month of solicitation after receipt of the Borrower's full contractual payment due during that month.</p> <p>Note: If the Servicer uses a processing month to complete the Payment Deferral, the Borrower must also make his or her full monthly contractual payment during the</p>	

processing month if the Mortgage is 12 months delinquent. The Servicer must complete the Payment Deferral within the processing month after receipt of the Borrower's full monthly contractual payment during that month in these instances.

Post Forbearance Plan – Flex Modification	
If...	Then...
<ul style="list-style-type: none"> ■ The Borrowers forbearance plan ends, and ■ The Servicer has not established quality right party contact to evaluate for a post-forbearance solution to the delinquency, and ■ The Borrower is ineligible for a proactive offer for a Disaster Payment Deferral 	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15 th day of the month following the expiration of the forbearance plan.
<ul style="list-style-type: none"> ■ The Borrowers forbearance plan ends, and ■ The Servicer has not established quality right party contact to evaluate for a post-forbearance solution to the delinquency, and ■ The Borrower was eligible for a proactive offer for a Disaster Payment Deferral but did not accept the offer by the acceptance date provided in the Payment Deferral agreement 	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15 th day following the expiration of the Payment Deferral offer.
Eligibility	
The Servicer must evaluate the Borrower for eligibility for a proactive offer for a Flex Modification in accordance with the requirements of Section 9206.5(e).	
Solicitation	
The Servicer must send the Borrower Exhibit 1191A, Freddie Mac Post-Disaster Forbearance Flex Modification Solicitation Cover Letter, and the Exhibit 93 template for the Flex Modification Trial Period Plan Solicitation Offer – not based on an evaluation of a BRP evaluation notice, or its equivalent. Exhibits 1191A and 93 may be altered at the Servicer's discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.	

(h) Failed repayment plan - solicitation for a Disaster Payment Deferral

In order to promote a more seamless transition between loss mitigation options when a Borrower is unable to resolve their Delinquency with a repayment plan, the table below provides requirements for Servicers to conduct reviews for proactive Payment Deferral and Flex Modification offers following an unsuccessful repayment plan.

Failed Repayment Plan – Payment Deferral	
If....	Then...
The Borrower accepts an offer for a repayment plan but does not make the total monthly repayment plan payment by the end of the month in which it is due (“fails a repayment plan”), and the Servicer is unable to establish quality right party contact.	The Servicer must evaluate the Borrower for a proactive offer for a Disaster Payment Deferral, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Payment Deferral by the 15 th day of the following month (i.e., the 15 th day of the month following the month Borrower fails a repayment plan).
Eligibility	
The Borrower must be eligible for a Payment Deferral in accordance with the requirements of this chapter. However:	
<ul style="list-style-type: none"> ■ The Servicer is not required to have established quality right party contact, as described in Section 9203.26(a), and ■ The Servicer is not required to confirm that the Borrower meets the Borrower eligibility requirements described in Section 9203.26(a)(i) 	
Solicitation Requirements	
The Servicer must solicit the Borrower using Exhibit 1105, Payment Deferral Post-Repayment Plan Solicitation Cover Letter, with Exhibit 1100, Payment Deferral Agreement, or its equivalent, making any appropriate changes to comply with applicable law. While use of Exhibits 1105 and 1100 is optional, it reflects the minimum level of information that the Servicer must communicate and illustrates a level of specificity that complies with the requirements of the Guide.	
The Servicer must include instruction on how to accept the offer in the Payment Deferral agreement. The Servicer is authorized to consider the following as acceptance by the Borrower, subject to applicable law:	
<ul style="list-style-type: none"> ■ The Borrower contacting the Servicer directly in accordance with any acceptable outreach and communication method, ■ The Borrower returning an executed Payment Deferral agreement, or ■ Any other method evidencing the Borrower’s acceptance as determined by the Servicer 	

The Borrower must make their full monthly contractual payment during the month of solicitation if, as of the date of evaluation, the Mortgage is 12 months delinquent. In this circumstance, the Servicer must complete the Disaster Payment Deferral within the month of solicitation after receipt of the Borrower's full contractual payment due during that month.

Note: If the Servicer uses a processing month to complete the Disaster Payment Deferral, the Borrower must also make his or her full monthly contractual payment during the processing month if the Mortgage is 12 months delinquent. The Servicer must complete the Payment Deferral within the processing month after receipt of the Borrower's full monthly contractual payment during that month in these instances.

Failed Repayment Plan – Flex Modification	
If...	Then...
<ul style="list-style-type: none"> ■ The Borrower fails a repayment plan, and ■ The Servicer has not established quality right party contact, and ■ The Borrower is ineligible for a proactive offer for a Disaster Payment Deferral 	<p>The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15th day of the following month (i.e., the 15th day of the month following the month Borrower fails a repayment plan).</p>
<ul style="list-style-type: none"> ■ The Borrower fails a repayment plan, and ■ The Servicer has not established quality right party contact, and ■ The Borrower was eligible for a proactive offer for a Disaster Payment Deferral but did not accept the offer by the acceptance date provided in the Payment Deferral agreement 	<p>The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 15th day following the expiration of the Payment Deferral offer.</p>
Eligibility	
<p>The Servicer must evaluate the Borrower for eligibility for a proactive offer for a Flex Modification in accordance with the requirements of Section 9206.5(e).</p>	

Solicitation

The Servicer must send the Borrower Exhibit 1191, Freddie Mac Flex Modification Solicitation Cover Letter, and the Exhibit 93 template for the Flex Modification Trial Period Plan Solicitation Offer – not based on an evaluation of a BRP evaluation notice, or its equivalent. Exhibits 1191 and 93 may be altered at the Servicer’s discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.

(i) Failed Disaster Payment Deferral – solicitations

In order to promote a more seamless transition between loss mitigation options when a Borrower who accepted a Disaster Payment Deferral and is unable to remain current, the table below provides requirements for Servicers to conduct reviews for proactive Flex Modification offers following an unsuccessful Disaster Payment Deferral.

Failed Payment Deferral – Flex Modification	
If...	Then...
The Borrower has accepted a Disaster Payment Deferral and: <ul style="list-style-type: none">■ Subsequently becomes 60 days delinquent within 6 months of the Payment Deferral effective date, and■ The Servicer is unable to establish quality right party contact	The Servicer must evaluate the Borrower for a proactive offer for a Flex Modification, in accordance with the eligibility criteria described below. If eligible, the Servicer must send the Borrower a proactive offer for a Flex Modification by the 75 th day of delinquency.
Eligibility	
The Servicer must evaluate the Borrower for eligibility for a proactive offer for a Flex Modification in accordance with the requirements of Section 9206.5(e).	
Solicitation	
The Servicer must send the Borrower Exhibit 1191, the Freddie Mac Flex Modification Solicitation Cover Letter, and the Exhibit 93 template for the Flex Modification Trial Period Plan Solicitation Offer – not based on an evaluation of a BRP evaluation notice, or its equivalent. Exhibits 1191 or 93 may be altered at the Servicer’s discretion as it deems necessary to meet the requirements of this section and Chapter 9206, and to comply with disclosure and other requirements under applicable law.	

(j) Reduced Flex Modification requirements

In lieu of the Guide requirements for Flex Modification eligibility in Sections 9206.5 and 9206.6, Mortgages will be excluded from eligibility only under the following circumstances:

- The Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage
- The Mortgage is subject to recourse
- The Borrower is currently performing under another forbearance plan, Trial Period Plan or repayment plan
- The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure
- The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other foreclosure prevention alternative, such as a forbearance plan or repayment plan

If the Servicer was not collecting Escrows on the existing Mortgage, the Borrower is not required to establish an Escrow account as a condition of the modification unless otherwise required by applicable law or the Servicer confirms that the taxes and insurance premiums have not been paid and are past due.

(k) Resolve

To model the terms of the Disaster Payment Deferral and complete the settlement process, Servicers must use the “Payment Deferral” path in Resolve. Servicers must comply with the requirements in Section 9203.24 and the instructions provided in [Resolve Online Help](#) to complete the submission and settlement process for a Disaster Payment Deferral.

(l) Reporting requirements

In most cases, the Disaster Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Disaster Payment Deferral, the Servicer must continue reporting the appropriate delinquency status through the Loan Level Reporting tool in accordance with requirements in Section 8303.15 and default information to Freddie Mac through EDR in accordance with requirements in Section 9102.7. Once the Disaster Payment Deferral has been completed and the Mortgage is brought current, the Servicer must report the Mortgage as current through the Loan Level Reporting tool.

However, the Servicer must report Status Code H6, Payment Deferral Offer, to notify Freddie Mac that the Mortgage is subject to an active Disaster Payment Deferral offer in the following instances:

- The forbearance period ends prior to settlement of an accepted Disaster Payment Deferral (e.g., the Servicer elected to use a processing month and the forbearance plan expires), or

- The Servicer has made a proactive offer following the expiration of a forbearance plan in accordance with the “Solicitation for a Disaster Payment Deferral” section above

In these instances, the Servicer must continue to report Status Code H6 until the offer has expired or the Payment Deferral has been completed.

(m) Other requirements for the Disaster Payment Deferral

(i) Delinquency status reporting

The Disaster Payment Deferral does not have an associated unique EDR status code. For each Mortgage subject to the Disaster Payment Deferral, the Servicer must continue reporting the appropriate delinquency status information to Freddie Mac through the EDR Tool in accordance with requirements in Section 9102.7 and Exhibit 88, Servicing Tools. After the Disaster Payment Deferral has been completed and the Mortgage is brought current, the EDR status code must reflect the Mortgage as current.

If a Borrower redefaults and enters a new forbearance plan, the Servicer must report the new plan through the EDR Tool in accordance with the requirements described above.

(ii) Request for reimbursement of expenses

Servicers may use PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to request reimbursement for the following fees associated with the Disaster Payment Deferral:

Expense Description	Expense Code	Expense Limit and Notes
Recordation fees	300003	Actual cost
Title costs, if applicable	300004	Reimbursable amounts are in accordance with the limits specified in Exhibit 57A
Notary fees	42001	\$150

If the Servicer submits a reimbursement request for Disaster Payment Deferral expenses and the Disaster Payment Deferral settlement date does not exist in Freddie Mac’s systems, the expense reimbursement request will not be eligible for payment. All Disaster Payment Deferrals must have been submitted to Freddie Mac for settlement in its systems to be eligible for expense reimbursement.

(iii) Credit reporting

For each Mortgage that is subject to the Disaster Payment Deferral, the Servicer must provide a “full file” status report describing the status of the Mortgage to each of the four major credit repositories in accordance with the credit bureau standards as provided by the Consumer Data Industry Association.

(iv) Incentive payment

The Servicer is eligible to receive a \$500 incentive payment for each completed Disaster Payment Deferral.

(v) Servicing fee

The Servicer will continue to receive the Servicing fee it was receiving prior to completing the Disaster Payment Deferral.

(vi) Future Flex Modification evaluations

If the Servicer is evaluating a Borrower for a future Flex Modification, the Disaster Payment Deferral will not count as a previous loan modification for purposes of calculating the number of times the Mortgage has previously been modified.

(n) Future Payment Deferral evaluations

If the Servicer is evaluating a Borrower for a future non-Disaster Payment Deferral in accordance the requirements of with Sections 9203.19 through 9203.25, the Disaster Payment Deferral will not cause the Borrower to be ineligible.

9203.27: Electronic Payment Deferral Agreements (04/14/21)

(a) Definitions

For the purposes of this section:

- **Electronic** has the meaning set forth in Section 1401.2
- **Electronic Record** has the meaning set forth in Section 1401.2
- **Electronic Payment Deferral Agreement** has the meaning set forth in Section 1401.2
- **Loss Mitigation Documents** has the meaning set forth in Section 1401.17

Refer to Section 1402.2 for the definitions of “eNote,” “eVault” and “MERS eDelivery.”

(b) Electronic Payment Deferral documents

In lieu of paper documents, a Servicer may prepare, sign and send Payment Deferral documents to the Borrower for the Borrower's Electronic signature and Electronic return to the Servicer, provided these transactions comply with the Guide, including the requirements in Section 1401.17 and Section 9206.19.

All Electronic loss mitigation documents, including Payment Deferral documents and any other Electronic Mortgage file documents, are considered Electronic Records and must be able to be retrieved and printed in a manner that accurately reflects the information they originally contained. Additionally, all Electronic Records must be accessible, either electronically or on paper, and made available to Freddie Mac upon request.

Freddie Mac will not reimburse any costs resulting from a Servicer's decision to use an Electronic Payment Deferral Agreement and the Borrower may not be charged for any associated costs.

(c) General requirements for all Electronic Payment Deferral Agreements

Servicers must:

- Process, modify and store Electronic Payment Deferral Agreements for Freddie Mac Mortgages under requirements that are no less stringent than applicable industry standards when electronically processing, modifying and storing its own Electronic Payment Deferral Agreements for Mortgages that it owns or services for others
- Consult with their legal counsel to ensure that the use, processing and storage of an Electronic Payment Deferral Agreement complies with all applicable federal, State and local laws
- Provide for Electronic notarization when applicable and required, subject to applicable law and the requirements set forth in Section 1401.16
- Comply with all requirements in the Servicing Contract to service the Mortgage, as modified by an Electronic Payment Deferral Agreement including, but not limited to, Servicing obligations related to a payoff or short sale (e.g., cancellation of the Mortgage, Note and Electronic Payment Deferral Agreement), grant of a deed-in-lieu of foreclosure, foreclosure, repurchase of an electronically modified Mortgage and litigation
- Ensure that the signing platform has a robust audit trail of all key events starting from the creation of the Electronic Payment Deferral Agreement through and including Servicer and Borrower execution (as applicable) so that the Servicer can reproduce upon request.

If the Servicer must have the payment deferral agreement recorded or in recordable format to comply with Section 9203.23(a), the Servicer may use an Electronic Payment Deferral Agreement, provided the Servicer is able to comply with the recording jurisdiction's

recording, Electronic format requirements and the requirements set forth in Section 1401.15.

(d) Document custodial requirements for paper Notes

Requirement	If the note is not Electronic
Borrower signature is not required	Within 25 days of the effective date of the Payment Deferral, the Servicer must send an Electronic copy of the Servicer executed Electronic Payment Deferral Agreement to the Document Custodian to be maintained or logically associated with the Note.
Borrower signature is required, and recording is not required	Within 25 days of the effective date of the Payment Deferral, the Servicer must send an Electronic copy of the fully executed Electronic Payment Deferral Agreement to the Document Custodian to be maintained or logically associated with the Note.
Recording is required, and will not be recorded electronically	<ol style="list-style-type: none"><li data-bbox="804 977 1429 1205">1. Within 25 days of the effective date of the Payment Deferral, the Servicer must deliver an Electronic copy of the fully executed Electronic Payment Deferral Agreement to the Document Custodian to be maintained or logically associated with the Note, and<li data-bbox="804 1216 1429 1526">2. The Servicer must also deliver the recorded Electronic Payment Deferral Agreement with recording information therein or another form of recorder's office confirmation with recording information therein (Recording Confirmation) to the Document Custodian within five Business Days of receipt from the recorder's office.
Recording is required, and will be recorded electronically	<ol style="list-style-type: none"><li data-bbox="804 1548 1429 1769">1. Within 25 days of the effective date of the Payment Deferral, the Servicer must deliver an Electronic copy of the fully executed Electronic Payment Deferral Agreement to the Document Custodian to be maintained or logically associated with the Note, and

Requirement	If the note is not Electronic
	<p>2. The Servicer must also deliver the electronically recorded Electronic Payment Deferral Agreement with recording information therein or Recording Confirmation to the Document Custodian within five Business Days of receipt from the recorder's office.</p>

Note: If the Document Custodian is not able to accept Electronic documents, the Servicer must deliver a paper copy of the Electronic Payment Deferral Agreement to the Document Custodian.

Refer to Section 1402.11 for delivery requirements of Electronic Payment Deferral Agreements related to eMortgages.

(e) Storage and safekeeping of Electronic Payment Deferral Agreement

Servicers must store Electronic Payment Deferral Agreements in an eVault or similar eStorage System (as defined in Section 1402.2) and must store copies of Electronic Payment Deferral Agreements (including printed paper copies of facsimiles thereof) in the Mortgage file in accordance with the Guide requirements for storing Mortgage file documents. Electronic Payment Deferral Agreement must be logically associated with the paper Mortgage file so that all Servicing records (both paper and Electronic) that constitute the Mortgage file are identified and associated with the Mortgage transaction.

(f) Transfers of Servicing

Upon a Transfer of Servicing involving Mortgages with an Electronic Payment Deferral Agreement, the Transferor Servicer must comply with Section 7101.2(b)(ii) and inform the Transferee Servicer of the name of the eVault or eStorage System holding the Electronic Payment Deferral Agreement. The Transferor Servicer must ensure that its eVault or eStorage System provider transfers the Electronic Payment Deferral Agreement and all related data to the Transferee Servicer's eVault or eStorage System provider in a manner that ensures the ongoing validity and enforceability of the Electronic Payment Deferral Agreement and its associated Electronic Signature (as defined in Section 1401.2). A Transferor Servicer may not satisfy its obligations under this section by relying on Section 7101.8(a) by generating paper copies of the payment deferral agreement for the Transferee Servicer.

(g) Disaster Recovery/Business Continuity Plan

Refer to Section 1302.3 for Seller/Servicer business continuity planning requirements.

Chapter 9204: Freddie Mac Workout Options

9204.1: Freddie Mac workout options (03/02/16)

Servicers must evaluate Borrowers in accordance with the Freddie Mac loss mitigation evaluation hierarchy set forth in Section 9201.2. The evaluation hierarchy states the order in which a Servicer is to evaluate a Borrower for Freddie Mac's available workout options which include mortgage modifications, workout mortgage assumptions, short sales, deeds-in-lieu of foreclosure and charge-offs.

If a Borrower's situation does not meet all the requirements for a particular workout option, but the Servicer believes that the workout option is still the best solution to the Delinquency, then the Servicer may submit a recommendation and rationale for the recommendation to Freddie Mac for review, in accordance with the submission procedures in this chapter.

9204.2: Servicer approval authority for workouts (10/20/21)

Freddie Mac Servicers are delegated to approve the following:

- A Freddie Mac Flex Modification, which is a modification that meets the requirements of Section 9206.2 and Sections 9206.5 through 9206.18, in accordance with the requirements of the Guide or other Purchase Documents. Refer to Sections 1301.2(h) and 9206.5 for additional information about delegated authority and adverse action notice requirements.
- A Freddie Mac Standard Short Sale ("short sale"), including the Streamlined Short Sale, that meets the requirements of Sections 9208.1 through 9208.8. All other short sales must be submitted to Freddie Mac for review and approval.
- A Freddie Mac Standard Deed-in-Lieu of Foreclosure ("deed-in-lieu of foreclosure"), including the Streamlined Deed-in-Lieu of Foreclosure, that meets the requirements of Sections 9209.2 through 9209.8. All other deeds-in-lieu of foreclosure must be submitted to Freddie Mac for review and approval.

For all other workouts in the Guide, the Servicer must submit its recommendation for a workout to Freddie Mac (see **Directory 5**) for review. Additionally, if the Mortgage is an FHA, VA or RHS Mortgage, the Servicer must obtain approval from the FHA, RHS, or VA, if applicable. The Servicer must also obtain any necessary approvals from the MI for any workout on a Mortgage with mortgage insurance.

9204.3: Freddie Mac's rights related to workout options (08/17/16)

Freddie Mac's approval or settlement of a workout does not limit its right to review the Mortgage file and invoke its remedies under the Guide. If Freddie Mac's review of the Mortgage file discloses any failure to comply with the Guide or any other Purchase Documents, Freddie Mac has the right to require the Servicer to:

1. Compensate Freddie Mac and hold it harmless for any loss, damage or expense (including court costs, attorney fees and incentive payments) that Freddie Mac sustains
2. Repurchase Freddie Mac's interest in the Mortgage at any time under any of the circumstances outlined in Sections 3602.2 and 3602.3

9204.4: Steps for processing a workout recommendation (03/02/16)

Refer to Bulletins 2022-21 and 2022-26, which announced updates that permit Servicers to process Flex Modifications® in Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

Refer to Bulletin 2022-9, which announced updates that require Servicers to process short sale transactions in Resolve.

The following are the required steps for completing a workout:

- The Servicer must collect and analyze the required documentation and information in accordance with this chapter and Chapter 9202
- If the Servicer does not have delegated authority to approve the workout, the Servicer must submit the required documentation and its recommendation to Freddie Mac for review. Freddie Mac will review the documentation and the Servicer's recommendation and advise the Servicer of its decision. The Servicer must ensure that all approval conditions are met.
- If the Servicer does have delegated authority to approve the workout, the Servicer must evaluate the Borrower and process the workout in accordance with the Guide and other Purchase Documents
- The Servicer must perform all activities required for closing a workout within Freddie Mac's required time frames

Closing a workout is the process to complete a workout transaction. Closing includes a settlement transaction (if applicable), recording any required documents with the appropriate government jurisdiction, timely and accurately reporting the transaction to Freddie Mac, remitting all funds collected as part of the workout to Freddie Mac, and ensuring that Freddie Mac receives the Servicer's request for reimbursement of any allowable expenses within 30 days of the settlement date.

In addition to the steps described above, the Servicer must comply with the following requirements when submitting a workout solution via Workout Prospector® for approval and closing in Freddie Mac's systems, regardless of whether the workout was approved under the Servicer's delegated authority or approved by Freddie Mac through the exception process.

(a) Accuracy of data

Workout Prospector requires the submission of specific data elements in order to return a suggested workout solution. The Servicer represents and warrants that all data input into Workout Prospector is true, complete and accurately entered into the system.

(b) Delegation of authority to the Servicer

The Servicer may not deem Freddie Mac to have reviewed the terms of any approved workout solution for compliance with the Servicer's obligations under the Guide or other Purchase Documents or to have approved any workout or their terms based on the Servicer's use of Workout Prospector including, without limitation:

- Workout Prospector's generation of terms for any retention or liquidation solution,
- Freddie Mac's settlement in its systems of any retention or liquidation solution entered into by the Servicer under its delegated authority or expanded delegated authority in accordance with a Freddie Mac approval of an exception, or
- Freddie Mac's notification that the modification or liquidation transaction has been processed in Freddie Mac's systems via the Loan Modifications processed report or the Charge Off processed report, respectively

(c) Use of Servicer proprietary system

The Servicer may use a proprietary system or a third-party system to generate the terms of a Freddie Mac retention or liquidation option; however, Freddie Mac data also must be entered in its entirety into Workout Prospector. When relying on a proprietary or a third-party system, Servicers must ensure that the results comply with the underwriting requirements of this chapter, and are the same as the results reflected in Workout Prospector prior to sending the appropriate Borrower Evaluation Notice or modification agreement, if applicable, to the Borrower. If the results reflected in Workout Prospector are different than the Servicer's results, the Servicer must update the data in Workout Prospector to ensure that it matches the terms of the retention or liquidation solution, which, in turn must accurately reflect the

underwriting requirements of this chapter, prior to sending the appropriate Borrower Evaluation Notice or modification agreement, if applicable, to the Borrower.

9204.5: Borrower documentation for workout options (03/02/16)

Generally, all Borrowers must submit a complete Borrower Response Package in order to be considered for a workout option under this chapter, unless otherwise specified. Section 9102.5 describes the contents of a Borrower Response Package.

9204.6: Servicer compensation for alternatives to foreclosure (06/14/23)

Servicers are eligible to receive compensation for completing certain alternatives to foreclosure. These amounts are incentives and are not considered to be base Servicing compensation. Freddie Mac may change these incentive payments at any time.

(a) Compensation for settled workouts and successful repayment plans

For eligible settled workouts and successful repayment plans, the Servicer will be compensated as follows:

Workout/ Relief Type	Incentive Amount	Comments
Repayment Plan	\$500	To qualify for the repayment plan incentive, the following conditions must be met: <ul style="list-style-type: none">■ The Mortgage was 60 or more days delinquent at the time the Borrower entered into the repayment plan■ The Borrower completely reinstated or paid off the Mortgage The Servicer reported the repayment plan to Freddie Mac via EDR as specified in Section 9203.11.

Payment Deferral (all types)	\$500	
Freddie Mac Flex Modification	\$1,000	
Servicer incentives are capped at a total of \$1000 per Mortgage for all repayment plans, Payment Deferrals and Flex Modifications. Workout and relief options completed or begun prior to July 1, 2020 are not subject to the incentive cap.		
Freddie Mac Standard Short Sale and Make- Whole Preforeclosure Sales	\$2,200	
Freddie Mac Standard Deed-in- Lieu of Foreclosure ("DIL")	\$1,500	

Servicers should direct questions regarding the status of workout incentives to NPL_Invoices@FreddieMac.com.

The Servicer is not eligible to receive compensation if:

- The Mortgage was sold to Freddie Mac with recourse
- The Mortgage is insured by the FHA
- The Mortgage is guaranteed by the VA or RHS
- The Mortgage is subject to indemnification

(b) Paying compensation

Servicers must elect to receive these funds via the Automated Clearing House (ACH) by following the steps outlined in Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) For Sellers/Servicers. (See Section 2405.1 for delivery instructions for Form 1132.)

Freddie Mac will track all workouts a Servicer settles on a daily basis. Freddie Mac will also send the loan detail for all of the eligible workouts the Servicer settled and successful repayment plans that occurred during the period for which the Servicer is being compensated. Freddie Mac considers a workout settled when Freddie Mac has received and successfully processed the documentation and received the remittance and transmission(s) specified below.

Documentation/Transmission	Mortgage Modification	Payment Deferral	Short Sale Payoff	Deed-in-Lieu of Foreclosure
Completion and transmission of loan modification settlement data or Payment Deferral settlement data in Workout Prospector®	Required	Required		
Mortgage paid in full-prepaid (Note: Servicers should remit only the net proceeds due to Freddie Mac for a short sale payoff)			Required	
Completion and transmission of short sale settlement data in Workout Prospector			Required	
The original negotiated promissory note(s), if applicable			Required	Required
Borrower cash contribution, if applicable			Required	Required
Foreclosure sale/DIL to report the acquisition of the property and loan-level transaction to report Mortgage as a transfer to REO				Required

Freddie Mac will determine if a Servicer is entitled to compensation for a successful repayment plan of a Mortgage that was 60 or more days delinquent based on the information the Servicer transmits to Freddie Mac via EDR and the Servicer's monthly loan-level reporting as follows. The Servicer must have:

1. Informed Freddie Mac that the Borrower has entered into a repayment plan (default action code 12)
2. Notified Freddie Mac that the Mortgage is current or is paid in full

9204.6: Servicer compensation for alternatives to foreclosure (Future effective date 08/31/23)

Servicers are eligible to receive compensation for completing certain alternatives to foreclosure. These amounts are incentives and are not considered to be base Servicing compensation. Freddie Mac may change these incentive payments at any time.

(a) Compensation for settled workouts and successful repayment plans

For eligible settled workouts and successful repayment plans, the Servicer will be compensated as follows:

Workout/ Relief Type	Incentive Amount	Comments
Repayment Plan	\$500	To qualify for the repayment plan incentive, the following conditions must be met: <ul style="list-style-type: none">■ The Mortgage was 60 or more days delinquent at the time the Borrower entered into the repayment plan■ The Borrower completely reinstated or paid off the Mortgage The Servicer reported the repayment plan to Freddie Mac via EDR as specified in Section 9203.11.
Payment Deferral (all types)	\$500	

Freddie Mac Flex Modification	\$1,000	
Servicer incentives are capped at a total of \$1000 per Mortgage for all repayment plans, Payment Deferrals and Flex Modifications. Workout and relief options completed or begun prior to July 1, 2020 are not subject to the incentive cap.		
Freddie Mac Standard Short Sale and Make-Whole Preforeclosure Sales	\$2,200	
Freddie Mac Standard Deed-in-Lieu of Foreclosure (“DIL”)	\$1,500	

Servicers should direct questions regarding the status of workout incentives to NPL_Invoices@FreddieMac.com.

The Servicer is not eligible to receive compensation if:

- The Mortgage was sold to Freddie Mac with recourse
- The Mortgage is insured by the FHA
- The Mortgage is guaranteed by the VA or RHS
- The Mortgage is subject to indemnification

(b) Paying compensation

Servicers must elect to receive these funds via the Automated Clearing House (ACH) by following the steps outlined in Form 1132, Authorization for Automatic Transfer of Funds Through the Automated Clearing House (ACH) For Sellers/Servicers. (See Section 2405.1 for delivery instructions for Form 1132.)

Freddie Mac will track all workouts a Servicer settles on a daily basis. Freddie Mac will also send the loan detail for all of the eligible workouts the Servicer settled and successful repayment plans that occurred during the period for which the Servicer is being compensated. Freddie Mac considers a workout settled when Freddie Mac has received and successfully

processed the documentation and received the remittance and transmission(s) specified below.

Documentation/Transmission	Mortgage Modification	Payment Deferral	Short Sale Payoff	Deed-in-Lieu of Foreclosure
Completion and transmission of loan modification settlement data or Payment Deferral settlement data in Resolve®	Required	Required		
Mortgage paid in full-prepaid (Note: Servicers should remit only the net proceeds due to Freddie Mac for a short sale payoff)			Required	
Completion and transmission of short sale settlement data in Resolve			Required	
The original negotiated promissory note(s), if applicable			Required	Required
Borrower cash contribution, if applicable			Required	Required
Foreclosure sale/DIL to report the acquisition of the property and loan-level transaction to report Mortgage as a transfer to REO				Required

Freddie Mac will determine if a Servicer is entitled to compensation for a successful repayment plan of a Mortgage that was 60 or more days delinquent based on the information the Servicer transmits to Freddie Mac via EDR and the Servicer's monthly loan-level reporting as follows. The Servicer must have:

1. Informed Freddie Mac that the Borrower has entered into a repayment plan (default action code 12)

2. Notified Freddie Mac that the Mortgage is current or is paid in full

9204.7: Prohibition of certain Borrower fees; non-refusal of workout options due to late charges (03/02/16)

The Servicer may not charge any additional fees to the Borrower other than those provided for in Freddie Mac's relief and workout options. The Servicer may not refuse to consider a workout option or require payment of accrued late charges as a condition of doing a workout.

9204.8: Mortgage insurance claims (03/02/16)

Freddie Mac will file a claim for loss with the MI if the Mortgage is covered by mortgage insurance and Freddie Mac will manage the claims payment process with the MI. The Servicer must provide all information and documentation pertaining to the claim to the MI no later than 60 days after the foreclosure sale, short sale or acceptance of a deed-in-lieu of foreclosure, or within any shorter time frame as specified by the mortgage insurance master policy or by Freddie Mac.

If the MI reduces, suspends or denies the claim due to the Servicer's actions or inactions including, but not limited to, failure to comply with the Guide or applicable mortgage insurance requirements, then Freddie Mac may exercise its remedies provided by the Guide and the other Purchase Documents for the amount that is reduced, suspended or denied. Refer to Chapter 3602 regarding repurchases, repurchase alternatives and other remedies.

Chapter 9205: Home Affordable Modification Program

9205.1: Home Affordable Modification Program overview (06/14/23)

This chapter provides Servicing requirements with respect to those Borrowers who received a modification under the Home Affordable Modification ProgramSM (HAMP®). Servicers may no longer evaluate Borrowers for a HAMP Trial Period Plan or enter into a HAMP modification agreement with a Borrower.

The following topics are covered in this chapter (some topics may have been deleted due to HAMP retirement):

Topic	Section
HAMP documentation (deleted)	9205.2
Delegation of authority and HAMP waivers, Supplemental Directives, Frequently Asked Questions and issues logs (deleted)	9205.3
Eligibility (deleted)	9205.4
Step-Rate Mortgages (deleted)	9205.5
Verification of eligibility (deleted)	9205.6
Determining imminent default (deleted)	9205.7
Underwriting the Borrower (deleted)	9205.8
Modification process (deleted)	9205.9
Foreclosure actions and Borrowers in bankruptcy (deleted)	9205.10
Transfers of Servicing and document retention requirements	9205.11
HAMP incentives (deleted)	9205.12

Topic	Section
Special investor reporting and remitting requirements	9205.13
HAMP activity reporting requirements (deleted)	9205.14
Disclosures and communications with Borrowers (deleted)	9205.15
Fair treatment and legal compliance	9205.16
Responsiveness to Borrower inquiries (deleted)	9205.17
Compliance (deleted)	9205.18
Special requirements for Mortgages with a second mortgage lien (deleted)	9205.19
Electronic Transactions	9205.20

9205.2: HAMP documentation (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.3: Delegation of authority and HAMP waivers, Supplemental Directives, Frequently Asked Questions and issues logs (06/14/23)

Effective June 14, 2023, this section is deleted.

9205.4: Eligibility for HAMP (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.5: Step-Rate Mortgages modified under HAMP (06/14/23)

Effective June 14, 2023, this section is deleted.

9205.6: Verification of eligibility for HAMP (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.7: Determining imminent default (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.8: Underwriting the Borrower for HAMP (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.9: Modification process for HAMP (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.10: Foreclosure actions and Borrowers in bankruptcy (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.11: Transfers of Servicing and document retention requirements (06/14/23)

(a) Transfers of Servicing

When a Transfer of Servicing includes Mortgages modified under HAMP, the Transferor Servicer must provide special notification to the Transferee Servicer. Specifically, the

Transferor Servicer must advise the Transferee Servicer that Mortgages modified under HAMP are part of the portfolio being transferred and must confirm that the Transferee Servicer is aware of and agrees to assume the additional responsibilities associated with the Servicing of these Mortgages.

If the portfolio being transferred includes Mortgages modified under HAMP, the Transferor Servicer must so indicate in the Servicing Transfer Manager tool (see Exhibit 88, Servicing Tools) as part of its request for Freddie Mac's approval for the Subsequent Transfer of Servicing. In addition, the Servicer must indicate whether the transfer includes modified Mortgages that have a step-rate provision (i.e., the interest rate is subject to incremental increases beginning in year 6 of the modification) or a partial principal forbearance.

If the portfolio being transferred includes Mortgages that have been modified electronically, the Transferor Servicer must so indicate that the eModification Agreement is Electronic (as defined in Section 1402.1), provide a list of such Mortgages and indicate the name of the repository holding the eModification Agreement.

Servicers must comply with all other requirements with respect to Transfers of Servicing provided under Chapter 7101.

(b) Document retention requirements

Servicers must retain all documents and information received during the process of determining Borrower eligibility for a modification under HAMP, including the Borrower Response Package, total monthly Mortgage payment and total monthly gross debt payment calculations, NPV calculations and results (Treasury NPV Model and version used, assumptions, inputs and outputs), evidence of the Servicer's application of each step of the waterfall, Escrow analysis, Escrow advances, and Escrow set up. Servicers must retain all documents and information related to the monthly payments during and after the Trial Period, as well as incentive payment calculations and such other required documents.

All documents, records, data and information required to be maintained by the Servicer under this Chapter 9205 are, will be, and will remain at all times, the property of Freddie Mac. The Servicer must retain such documents, records, data and information in a custodial capacity and otherwise comply with the Mortgage file retention requirements set forth in Chapter 3302. All documents required to be maintained under this Chapter 9205 must be maintained in the Mortgage file.

As it relates to imminent default, a Servicer must have documented in its servicing system the basis for its determination that a Borrower is in imminent default and retain all documentation and data used to reach its conclusion. The Servicer's documentation must also include any Imminent Default Indicator® input and output files and data.

Servicers must retain detailed records of Borrower solicitations or Borrower-initiated inquiries regarding HAMP, the outcome of the evaluation for modification under HAMP and

specific justification with supporting details if the Borrower was determined to be ineligible for a modification under HAMP.

Servicers must maintain appropriate documentary evidence of their HAMP-related activities, including, but not limited to, the following:

- The Servicer's process for pre-screening non-performing Mortgages against the basic HAMP requirements
- All HAMP-related communications, whether verbal or written, with or to the Borrower or person identified in a written authorization by the Borrower and provided to the Servicer in accordance with Section 9102.5(c) (Authorized Person) (including, but not limited to, the dates of communications, names of contact person(s), and a summary of the conversation), including any e-mail correspondence to or from the Borrower or Authorized Person
- Phone contact with Borrowers or Authorized Persons relating to HAMP
- Policies and procedures that include HAMP-related activities
- Training materials relating to HAMP
- Pre-screening of Mortgages for HAMP prior to referring any Mortgage to foreclosure or conducting scheduled foreclosure sales
- Postponement of scheduled foreclosure sales in applicable scenarios
- Substitution of income documents for Borrowers in active Chapter 7 or Chapter 13 bankruptcy
- Certification prior to foreclosure sale
- Evidence of receipt of the Borrower Response Package from a Borrower
- Any reports, memoranda, or other documentation relating to HAMP
- The decision-making process when applying good business judgment in accordance with HAMP and, where applicable, referencing the Servicer's associated policies and procedures

With respect to phone contact with Borrowers or Authorized Persons related to HAMP, well-documented Servicer system notes (including, but not limited to date, names of contact persons, and a summary of the conversation) constitute appropriate documentation. Written correspondence should be retained in the Mortgage file and made available upon request by Freddie Mac.

Records must also be retained to document the reason(s) for a Borrower's failure to successfully complete the Trial Period. If a HAMP modification is not pursued because the NPV test result is negative, the Servicer must document its consideration of other alternatives to foreclosure. If a Borrower under a HAMP modification loses good standing by becoming 90 days or more past due (e.g., three monthly payments are due and unpaid on the last day of the third month), the Servicer must retain documentation of its consideration of the Borrower for other loss mitigation alternatives.

With respect to requirements related to the request for Borrower and co-Borrower information for government monitoring purposes, the Servicer must retain the appropriate documentation in the Mortgage file.

Servicers must retain required documents for the period set forth in Section 3302.3.

If the Mortgage is subject to an indemnification agreement, the Servicer must remit to Freddie Mac an annual payment for the amount of all modification-related costs (e.g., interest rate shortfall) as calculated by Freddie Mac pursuant to Freddie Mac's "Modification Loss Amount" methodology. The Modification Loss Amounts due will be calculated on a monthly basis and billed on an annual basis for the life of the modified Mortgage. If the Mortgage is subject to a partial indemnification, each year the Servicer will be billed the appropriate percentage of the Modification Loss Amount that corresponds with the partial indemnification agreement. Modification Loss Amounts will be determined by Freddie Mac in accordance with a process described in Bulletins 2016-5 and 2017-1.

NOTE: Pursuant to Section 9204.6, the Servicer is not eligible to receive an incentive for completing a modification on a Mortgage that is subject to an indemnification agreement.

9205.12: HAMP incentives (06/14/23)

Effective June 14, 2023, this section is deleted.

9205.13: Special investor reporting requirements for Mortgages modified under HAMP (06/14/23)

(a) Monthly reporting

In addition to the loan-level reporting requirements for all Mortgages pursuant to Chapter 8303 and Exhibit 60, Loan-Level Reporting Data Description, Servicers must comply with the following monthly loan-level reporting requirements for all Mortgages modified under HAMP, including Mortgages with a partial principal forbearance:

Data Field	Description
Current UPB	<p>For all Mortgages, this is the UPB of the Mortgage as of the end of the Accounting Cycle.</p> <p>For Mortgages with partial principal forbearance, the reported UPB must equal the sum of the interest-bearing UPB (the amortizing principal balance of the Mortgage) (the “interest-bearing UPB”) and the principal forbearance balance (“deferred UPB”), as of the end of the Accounting Cycle.</p>
Interest-bearing UPB	<p>For Mortgages with partial principal forbearance, report the amount of the interest-bearing UPB (the amortizing principal balance of the Mortgage) as of the end of the Accounting Cycle. (Note: Monthly “Interest Due Freddie Mac” must be calculated and reported based on the interest-bearing UPB only.)</p>
Deferred UPB	<p>For Mortgages with partial principal forbearance, report the amount of deferred UPB as of the end of the Accounting Cycle. (Note: The deferred UPB is non-interest-bearing and non-amortizing, and will be due in the form of a balloon payment upon the earlier of the transfer of all or a portion of the property, the payoff of the interest-bearing UPB, or the new maturity date of the modified Mortgage.)</p>
Borrower incentive curtailment (BIC)	<p>For all Mortgages modified under HAMP, report the amount of any Borrower “Pay for Performance” incentive payments paid by Freddie Mac and applied to the UPB during the Accounting Cycle. This is reported to Freddie Mac only once a year for each eligible Mortgage.</p> <p>(Note: The Borrower Pay for Performance incentive is paid once a year and must be applied upon receipt to the interest-bearing UPB of the Mortgage and then to any principal forbearance amount (i.e., Deferred UPB), if applicable. (See Sections 9205.12(b) and 9205.13(c) for additional information.)</p>

Data Field	Description
Principal Due Freddie Mac	<p>For all Mortgages, Freddie Mac's share of principal payments, including prepayments of principal (i.e., curtailments) applied to the interest-bearing UPB of the Mortgage during the Accounting Cycle.</p> <p>(Note: This field does not include curtailments resulting from the Borrower's Pay for Performance incentive payment.)</p>
Deferred Principal Curtailment Amount	<p>For Mortgages with partial principal forbearance, report the amount of any principal curtailment applied to the deferred UPB during the Accounting Cycle. This amount must be included in the "Deferred UPB" field. (See Section 9205.13(c) below for additional information on the application of partial prepayments of principal.)</p>

Reporting corrections

Servicers must comply with the requirements of Section 8303.24 in the event of an understatement or overstatement of principal reduction to either the interest-bearing UPB or the deferred UPB.

In the event of an overpayment of disbursed funds to the Servicer, a correction of such overpayment will result in a draft back of any funds owed to Freddie Mac. If a previously applied BIC payment must be reduced or reversed, the UPB of the Mortgage will be increased in the same manner in which the BIC payment was previously applied. That is, if the BIC payment was applied as a reduction to the interest-bearing UPB, then the Servicer must report an increase in the interest-bearing UPB for the amount of the correction, using the principal balance correction exception code. (Refer to Exhibit 60 for information on reporting a principal balance correction exception code.)

(b) Interim reporting and drafting requirements for a payoff of a Mortgage with partial principal forbearance

Servicers must comply with the applicable interim reporting requirements set forth in Chapter 8303 except that, when reporting the payoff of a Mortgage with a partial principal forbearance, Servicers must also comply with the following:

- The Current UPB, Interest-bearing UPB and Deferred UPB fields must be reported as zero
- The amount of deferred UPB as reported at the end of the previous Accounting Cycle must be reported in the "Deferred Principal Curtailment Amount" field

- Ensure funds equivalent to the amount of the current UPB (i.e., combined interest-bearing UPB and deferred UPB) as reported in the previous Accounting Cycle, plus or minus the exception interest, are available for Freddie Mac to draft on the Payoff Draft Date. Exception interest, as defined in Section 8303.1, must be based on the interest-bearing UPB only.

Servicers must calculate payoff proceeds in accordance with the following:

$$\begin{aligned}
 & \text{Interest-Bearing UPB} \\
 + & \text{Deferred UPB} \\
 +/- & \text{Borrower Incentive Curtailment Amount (if applicable)} \\
 +/- & \text{Exception interest (calculated based on the interest-bearing UPB)} \\
 = & \text{Proceeds due Freddie Mac}
 \end{aligned}$$

(c) Application of partial prepayments of principal and HAMP Pay for Performance or HAMP Year Six Pay for Performance incentives

The Servicer must apply a HAMP Pay for Performance incentive or a HAMP Year Six Pay for Performance incentive as a principal curtailment in accordance with the following requirements:

If the principal curtailment...	Then the Servicer must apply the funds...
Is less than the interest-bearing UPB	To the interest-bearing UPB
Is greater than or equal to the interest-bearing UPB	<p>In the following order to the:</p> <ol style="list-style-type: none"> 1. Deferred UPB, if any, and then 2. Interest-bearing UPB <p>Note: After applying a HAMP Pay for Performance incentive or a HAMP Year Six Pay for Performance incentive in the above order, the Servicer must remit any remaining incentive payment directly to the Borrower.</p>

Servicers must report the amount of any curtailment applied to the deferred UPB during the Accounting Cycle in the “Deferred Principal Curtailment Amount” data field.

(d) Monthly statements

Freddie Mac recommends the Servicer include the amount of the deferred UPB and the combined interest-bearing and deferred UPBs on the Borrower's monthly statement.

(e) Credit bureau reporting for all Mortgages with a partial principal forbearance

Servicers can access additional information on credit reporting unique to HAMP including the reporting of Mortgages with a partial principal forbearance from the Consumer Data Industry Association, which gives general credit reporting guidelines for Mortgage and home equity loans in response to current financial conditions, at <http://www.cdiaonline.org>.

9205.14: HAMP activity reporting requirements (06/14/23)

Effective June 14, 2023, this section is deleted.

9205.15: Disclosures and communications with Borrowers (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.16: Compliance with applicable law on Mortgages modified under HAMP (04/11/18)

The Servicer's implementation of HAMP and all actions taken under this chapter must comply with all applicable federal, State and local laws and regulations including, but not limited to, those laws set forth in Section 1301.2.

9205.17: Responsiveness to Borrower inquiries (06/14/23)

Effective June 14, 2023, this section is deleted.

9205.18: Servicer compliance with HAMP requirements (06/14/23)

Effective June 14, 2023, this section is deleted.

9205.19: Special HAMP requirements for Mortgages with a second mortgage lien (04/11/18)

Effective April 11, 2018, this section is deleted.

9205.20: HAMP electronic modification (04/11/18)

Servicers should refer to Chapter 1401 for the definition of the following terms used in this section:

- Electronic
- Electronic Record
- Electronic Signature
- Electronic Transaction

(a) Electronic HAMP documents

In lieu of having the Servicer or Borrower, as applicable, prepare, sign and return paper documents, certain documents may be prepared, signed and sent electronically by a Servicer to the Borrower or by a Borrower to the Servicer, provided such Electronic Transactions comply with the requirements of Chapter 1401 and this section. With the exception of IRS Form 4506T-EZ, Short Form Request for Individual Tax Return Transcript, or IRS Form 4506-T, Request for Transcript of Tax Return, all documentation required to be prepared, signed or sent by either the Servicer or the Borrower under HAMP are considered “loss mitigation documents” for purposes of Section 1401.17. Refer to Section 9205.20(b) for additional requirements related to the Home Affordable Modification Agreement (the HAMP eModification Agreement).

All Electronic loss mitigation documents, and any other Electronic Mortgage file documents are Electronic Records, and must be capable of being retrieved and printed in a manner that accurately reflects the information originally contained in the Electronic Records. All Electronic Records must be accessible (either electronically or on paper) and promptly made available to Freddie Mac upon request.

(b) HAMP eModification agreements

(i) Special representations and warranties

A Servicer that allowed Borrowers to receive, transmit or electronically sign a HAMP eModification Agreement represents and warrants to Freddie Mac that it has complied with the requirements of the Guide and that the HAMP eModification Agreement is authentic, its terms are valid and enforceable against the Borrower, and the Mortgage maintains a First Lien position.

(ii) General requirements applicable to all Freddie Mac HAMP eModification Agreements

Servicers must:

- Store HAMP eModification Agreements of Freddie Mac-owned Mortgages electronically under no less stringent requirements than the Servicer follows when electronically storing its own mortgages in its portfolio
- Consult with their legal counsel to ensure that the Servicer's use and storage of a HAMP eModification Agreement complies with all applicable federal, State and local laws, including, without limitation, the federal Electronic Signatures in Global and National Commerce ("E-SIGN") Act and/or the Uniform Electronic Transactions Act (UETA), as enacted in the local jurisdiction, the Gramm-Leach-Bliley Act, and its implementing regulations, and other applicable privacy, disclosure, and data security laws and regulations
- Provide for Electronic notarization when required, subject to applicable law
- Be able to comply with all Guide requirements to service the Mortgage, as modified by a HAMP eModification Agreement, including, but not limited to, Servicing obligations related to payoff (e.g., cancellation of the Mortgage, Note and HAMP eModification Agreement), grant of a deed-in-lieu of foreclosure, foreclosure, repurchase of an electronically modified Mortgage, and litigation
- Notify Freddie Mac when initiating legal action, including foreclosure, on a Mortgage that has been electronically modified, and further, must use counsel that has the experience or demonstrated ability to enforce claims under electronically created Mortgages, Notes or other financial instruments

(iii) Additional requirements when the HAMP Modification Agreement must be recorded or in recordable format

If, at the time a Servicer entered into a HAMP Modification Agreement, Freddie Mac required the HAMP Modification Agreement to be recorded or in recordable format, a Servicer must record any HAMP eModification Agreement in compliance with the recording jurisdiction's recordation and electronic format requirements in order to ensure compliance with the Servicer's obligations under Section 9206.12.

(iv) Document custodial requirements

If recordation of a HAMP eModification Agreement that is in recordable format is required, the Servicer must provide a copy of the recorded HAMP eModification Agreement or a copy of any evidence of recordation together with a copy of the executed HAMP eModification Agreement to its Document Custodian in accordance with the requirements in Section 1401.15 applicable to recordation of an Electronic Record.

(v) Storage and safekeeping of HAMP eModification Agreements

HAMP eModification Agreements (including printed paper copies of facsimiles of HAMP eModification Agreements) must be stored in accordance with the Guide requirements for storing Mortgage file documents. HAMP eModification Agreements must be associated with all paper Mortgage file documents so that all Servicing records (both paper and electronic) are identified with, and associated to, the particular Mortgage transaction.

(vi) Transfers of Servicing

For requirements related to the Transfers of Servicing of an eModification, refer to Section 9205.11(a).

(vii) Data security requirements and data privacy protection

Servicers must follow the data security requirements in Sections 1302.2 and 1401.5 and the data privacy protection standards in Section 8101.8. Servicers are required to maintain their Servicing records storage system and conduct periodic information security reviews of the data stored and maintained in their Servicing records storage system based on, but not limited to, applicable federal, State and local laws and regulations and the Guide.

Freddie Mac reserves the right to require a Servicer to implement additional security measures regarding its Servicing records storage system.

(viii) Disaster Recovery/Business Continuity Plan

Servicers must create and maintain a Disaster Recovery/Business Continuity Plan (DR/BCP) that includes a backup storage site that is not susceptible to the same types of major disasters as the primary storage site. The DR/BCP must provide for recovery of functionality, availability, and data services back to the point of failure within a commercially reasonable period of time (usually within 48 hours of a disaster).

9205.21: Authorized services under the Amended Servicer Participation Agreement (06/14/23)

Effective June 14, 2023, this section is deleted.

Chapter 9206: Modifications

9206.1: What is a loan modification? (03/02/16)

A modification is a written agreement that the Servicer enters into with the Borrower that permanently changes one or more of the original terms of the Note, such as:

1. An increase in the amount of the UPB caused by capitalization of interest or non-interest arrearages, Escrow amounts and/or other advances
2. A change in the Note Rate
3. A change in the monthly payment
4. A change in the maturity date
5. A forbearance of a portion of the principal balance (no write-off or permanent reduction of the UPB, delinquent interest or other non-interest arrearages of the Mortgage is allowed)
6. Change in the product type (e.g., an ARM to a fixed-rate Mortgage)

9206.2: When to consider a Freddie Mac Flex Modification[®] (10/01/17)

The Servicer must evaluate the Borrower for a Freddie Mac Flex Modification[®] under this chapter in accordance with the evaluation hierarchy in Section 9201.2.

Unless otherwise notified by Freddie Mac, all Freddie Mac Servicers are delegated to approve, and must offer, a Freddie Mac Flex Modification to eligible Borrowers in accordance with the requirements of the Guide and other applicable Purchase Documents. Refer to Section 1301.2(i) for additional information about delegated authority and adverse action notice requirements.

9206.3: Freddie Mac Streamlined Modification (10/01/17)

Effective October 1, 2017, the content of this section has moved to Section 9206.5(c), with updates made to reflect the Freddie Mac Flex Modification[®].

9206.4: Capitalization and Extension Modification for Disaster Relief (10/01/20)

Effective October 1, 2020, the Capitalization and Extension Modification for Disaster Relief is no longer available due to the implementation of the Payment Deferral for Disaster Relief. See Section 9203.26 for requirements.

9206.5: Eligibility requirements for a Freddie Mac Flex Modification[®] (07/01/23)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve[®]. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve before the mandatory October 1, 2023 effective date.

To be eligible for a Freddie Mac Flex Modification[®], the Servicer must ensure that the following Borrower and Mortgage eligibility requirements are met and that the Mortgage is not otherwise excluded from eligibility as set forth in Section 9206.6.

If any of the eligibility requirements are not met, but the Servicer believes, based on an evaluation of a complete Borrower Response Package, that the Borrower should be considered for a Flex Modification, the Servicer must transmit the exception request via Workout Prospector[®] to Freddie Mac. Refer to Section 9206.10 for additional information on Workout Prospector.

In addition, if there is a Risk of Property Ownership (see Section 9202.5) and the Mortgage is not otherwise eligible for a Flex Modification, the Servicer may submit a recommendation to Freddie Mac to consider a Flex Modification.

In the event Freddie Mac participated in evaluating a Borrower for a Flex Modification and Freddie Mac denied the request, the Servicer must refer to Section 1301.2(i) for more information on adverse action notices that must be provided to the Borrower on behalf of Freddie Mac under certain limited circumstances.

(a) Borrower eligibility

The Borrower must:

- Submit a complete Borrower Response Package and:
 - Have an eligible hardship as described in Section 9202.2. The hardship must currently be causing or be expected to cause a long-term or permanent decrease in the Borrower's income or increase in the Borrower's expenses. **NOTE: Unemployment is considered a temporary hardship. Servicers must consider unemployed Borrowers for a forbearance plan under Sections 9203.12 through 9203.17.**
 - Have verified income
- Be 60 days or more delinquent. However, a Borrower who is current or less than 60 days delinquent (i.e., less than three monthly payments past due) **and** at least one Borrower occupies the property as a Primary Residence is also eligible provided the Borrower is first determined to be in imminent default in accordance with Section 9206.7.

(b) Mortgage eligibility

- The Mortgage must have been originated at least 12 months prior to the evaluation date for the Flex Modification
- The Mortgage must be a conventional First Lien Mortgage currently owned or guaranteed in whole or in part by Freddie Mac
- The Flex Modification must result in a principal and interest (P&I) payment that is less than or equal to the pre-modification P&I payment. (Refer to Section 9206.10 for additional payment reduction requirements that may apply.)

When determining whether the modification results in a P&I payment that is less than or equal to the pre-modification P&I payment, the Servicer must consider the following:

- If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must consider the P&I payment in effect prior to the date the SCRA relief was granted rather than the temporarily reduced monthly payment based on the SCRA interest rate cap
- If the Mortgage being modified is an ARM or an interest-only Mortgage, the Servicer must consider the P&I payment, or interest only payment, as applicable, in effect at the time the Servicer determines eligibility for a Flex Modification Trial Period Plan
- If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the requirements of this chapter, the Servicer has discretion to approve the mortgage modification provided the following conditions are met:
 - The modified Mortgage retains its credit enhancement

- If the Servicer is not the credit enhancement provider, the Servicer must first obtain in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement to enter into a modification agreement that complies with the requirements of this chapter; and
- The Servicer remits to Freddie Mac an annual payment for the amount of all modification-related costs (e.g., interest rate shortfall) as calculated by Freddie Mac pursuant to Freddie Mac's "Modification Loss Amount" methodology. The Modification Loss Amounts due will be calculated on a monthly basis, and billed on an annual basis for the life of the modified Mortgage. If the Mortgage is subject to a partial indemnification, each year the Servicer will be billed the appropriate percentage of the Modification Loss Amount that corresponds with the partial indemnification agreement. Modification Loss Amounts will be determined by Freddie Mac in accordance with a process described in Bulletins 2016-5 and 2021-14.

NOTE: Pursuant to Section 9204.6, the Servicer is not eligible to receive an incentive for completing a modification on a Mortgage that is subject to an indemnification agreement.

- If the Mortgage is secured by a leasehold estate, the term of the lease (or any exercised option to renew the lease, or any renewal options that are enforceable by the leasehold mortgagee, whichever is applicable) must not terminate earlier than five years after the maturity date of the proposed modified Mortgage. In the event that the current term of the lease (or applicable renewal options) terminates earlier than five years after the maturity date of the proposed modified Mortgage, the term of the lease must be renegotiated in order to satisfy this requirement prior to offering the Borrower a Trial Period Plan.

Servicers must refer to the special requirements in Section 9206.5(e) for Borrowers who experience a hardship as a result of an Eligible Disaster and who were current or less than 31 days delinquent as of the date of the disaster.

(c) Streamlined eligibility for certain Borrowers

Certain eligibility exceptions apply for a Borrower who:

- Is 90 days delinquent or greater; or
- Has a Step-Rate Mortgage and:
 - Becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment
 - Has not submitted a complete Borrower Response Package

For these Borrowers, the eligibility requirements in Section 9206.5(a) are not applicable. In these instances, a Borrower Response Package is not required, and the Servicer is not

required to confirm a Borrower's hardship or income. The Servicer must continue to comply with the requirements in Section 9206.5(b) and Section 9206.6 to determine eligibility.

The Servicer must offer an eligible Borrower who (i) becomes 90 days delinquent, or (ii) has a Step-Rate Mortgage and becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment, an offer for a Flex Modification Trial Period Plan in accordance with the solicitation requirements in Section 9102.5. Before offering such Borrower a Flex Modification Trial Period Plan, Servicers must either obtain the applicable MI's approval of the terms of each modification on a case-by-case basis, or ensure that the applicable MI has provided a delegation of authority that applies to the requested modification.

Note: Borrowers who reach the applicable Delinquency threshold for a streamlined offer for a Flex Modification remain eligible for the Flex Modification even if one or more payments is subsequently received, resulting in the Borrower becoming less delinquent than the eligible Delinquency threshold. In these instances, the Servicer must provide the eligible Borrower a streamlined offer for a Flex Modification within the required time frame, provided the Borrower's payments has not resulted in the full reinstatement of the Mortgage.

Refer to Section 9102.5 for additional information on solicitation of delinquent Borrowers.

(d) Complete Borrower Response Package received

If the Borrower submits a complete Borrower Response Package prior to the Borrower becoming 90 days delinquent, the Servicer must acknowledge receipt of the package and review it in accordance with the evaluation hierarchy found in Section 9201.2.

The Servicer must send an eligible Borrower an offer for a Flex Modification in accordance with the requirements of Section 9206.5(c) once the Borrower reaches the applicable Delinquency threshold if:

- The Servicer has not received a complete Borrower Response Package, or
- The Servicer previously conducted an evaluation of a complete Borrower Response Package and determined that the Borrower was not eligible for any alternative to foreclosure, or
- The Borrower has rejected all other alternatives to foreclosure offered by the Servicer

In addition, if a Borrower with a Step-Rate Mortgage submits a complete Borrower Response Package prior to becoming 90 days delinquent, and the Borrower has not yet accepted the offer for a Flex Modification, the Servicer must complete its review of the package for all alternatives to foreclosure in accordance with the Guide. However, if the Borrower has accepted the existing Trial Period Plan offer, the Servicer must determine if the Borrower is eligible for additional payment relief as a result of the post modification housing expense to income ratio (PMHTI) component of the Flex Modification terms described in Section

9206.10. If the Borrower is eligible for additional payment relief, then the Servicer must permit the Borrower to continue making the existing Trial Period Plan payments, but must update the modification agreement to reflect the lower payment amount. The post modification P&I must reflect the lower payment amount in these instances.

(e) Special requirements for Borrowers impacted by an Eligible Disaster

The requirements of this Section 9206.5(e) apply to Borrowers who were current or less than 31 days delinquent as of the date of an Eligible Disaster and experienced a hardship due to their Mortgaged Premises or places of employment being located in an Eligible Disaster Area.

The Servicer must evaluate the Borrower for a streamlined Flex Modification if the Borrower is 90 or more days delinquent, or the Borrower has a Step-Rate Mortgage and is at least 60 days delinquent, provided the Borrower became at least 60 days delinquent within 12 months following the first payment due date resulting from an interest rate adjustment, provided a Borrower Response Package has not been submitted by the Borrower and one of the following conditions is met:

- The Borrower is not eligible for a solicitation for a Disaster Payment Deferral as described in Section 9203.26

The following special requirements apply when the Flex Modification is offered as a result of the Borrower experiencing a hardship as the result of an Eligible Disaster:

- The Servicer is not required to have previously solicited the Borrower for a foreclosure prevention alternative
- The following Mortgages are ineligible for a Flex Modification. These exclusions are in lieu of the exclusions described in Section 9206.5(b) above.
 - The Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage
 - The Mortgage is subject to recourse
 - With the exception of a disaster-related forbearance plan, the Mortgage is currently performing under another forbearance plan, Trial Period Plan or repayment plan
 - The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure
 - The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other foreclosure prevention alternative, such as a non-disaster-related forbearance or repayment plan

If the Servicer was not collecting Escrows on the existing Mortgage, the Borrower is not required to establish an Escrow account as a condition of the modification unless

otherwise required by applicable law, or the Servicer confirms that the taxes and insurance premiums have not been paid and are past due.

9206.5: Eligibility requirements for a Freddie Mac Flex Modification[®] (Future effective date 08/31/23)

See Bulletin 2023-10 for updates related to Payment Deferrals, including Disaster Payment Deferrals. Servicers are encouraged to begin implementation using Resolve before the mandatory October 1, 2023 effective date.

To be eligible for a Freddie Mac Flex Modification[®], the Servicer must ensure that the following Borrower and Mortgage eligibility requirements are met and that the Mortgage is not otherwise excluded from eligibility as set forth in Section 9206.6.

If any of the eligibility requirements are not met, but the Servicer believes, based on an evaluation of a complete Borrower Response Package, that the Borrower should be considered for a Flex Modification, the Servicer must transmit the exception request via Resolve[®] to Freddie Mac. Refer to Section 9206.10 for additional information on Resolve.

In addition, if there is a Risk of Property Ownership (see Section 9202.5) and the Mortgage is not otherwise eligible for a Flex Modification, the Servicer may submit a recommendation to Freddie Mac to consider a Flex Modification.

In the event Freddie Mac participated in evaluating a Borrower for a Flex Modification and Freddie Mac denied the request, the Servicer must refer to Section 1301.2(i) for more information on adverse action notices that must be provided to the Borrower on behalf of Freddie Mac under certain limited circumstances.

(a) Borrower eligibility

The Borrower must:

- Submit a complete Borrower Response Package and:
 - Have an eligible hardship as described in Section 9202.2. The hardship must currently be causing or be expected to cause a long-term or permanent decrease in the Borrower's income or increase in the Borrower's expenses. **NOTE: Unemployment is considered a temporary hardship. Servicers must consider unemployed Borrowers for a forbearance plan under Sections 9203.12 through 9203.17.**
 - Have verified income
- Be 60 days or more delinquent. However, a Borrower who is current or less than 60 days delinquent (i.e., less than three monthly payments past due) **and** at least one Borrower

occupies the property as a Primary Residence is also eligible provided the Borrower is first determined to be in imminent default in accordance with Section 9206.7.

(b) Mortgage eligibility

- The Mortgage must have been originated at least 12 months prior to the evaluation date for the Flex Modification
- The Mortgage must be a conventional First Lien Mortgage currently owned or guaranteed in whole or in part by Freddie Mac
- The Flex Modification must result in a principal and interest (P&I) payment that is less than or equal to the pre-modification P&I payment. (Refer to Section 9206.10 for additional payment reduction requirements that may apply.)

When determining whether the modification results in a P&I payment that is less than or equal to the pre-modification P&I payment, the Servicer must consider the following:

- If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must consider the P&I payment in effect prior to the date the SCRA relief was granted rather than the temporarily reduced monthly payment based on the SCRA interest rate cap
 - If the Mortgage being modified is an ARM or an interest-only Mortgage, the Servicer must consider the P&I payment, or interest only payment, as applicable, in effect at the time the Servicer determines eligibility for a Flex Modification Trial Period Plan
- If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the requirements of this chapter, the Servicer has discretion to approve the mortgage modification provided the following conditions are met:
 - The modified Mortgage retains its credit enhancement
 - If the Servicer is not the credit enhancement provider, the Servicer must first obtain in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement to enter into a modification agreement that complies with the requirements of this chapter; and
 - The Servicer remits to Freddie Mac an annual payment for the amount of all modification-related costs (e.g., interest rate shortfall) as calculated by Freddie Mac pursuant to Freddie Mac's "Modification Loss Amount" methodology. The Modification Loss Amounts due will be calculated on a monthly basis, and billed on an annual basis for the life of the modified Mortgage. If the Mortgage is subject to a partial indemnification, each year the Servicer will be billed the appropriate percentage of the Modification Loss Amount that corresponds with the partial

indemnification agreement. Modification Loss Amounts will be determined by Freddie Mac in accordance with a process described in Bulletins 2016-5 and 2021-14.

NOTE: Pursuant to Section 9204.6, the Servicer is not eligible to receive an incentive for completing a modification on a Mortgage that is subject to an indemnification agreement.

- If the Mortgage is secured by a leasehold estate, the term of the lease (or any exercised option to renew the lease, or any renewal options that are enforceable by the leasehold mortgagee, whichever is applicable) must not terminate earlier than five years after the maturity date of the proposed modified Mortgage. In the event that the current term of the lease (or applicable renewal options) terminates earlier than five years after the maturity date of the proposed modified Mortgage, the term of the lease must be renegotiated in order to satisfy this requirement prior to offering the Borrower a Trial Period Plan.

Servicers must refer to the special requirements in Section 9206.5(e) for Borrowers who experience a hardship as a result of an Eligible Disaster and who were current or less than 31 days delinquent as of the date of the disaster.

(c) Streamlined eligibility for certain Borrowers

Certain eligibility exceptions apply for a Borrower who:

- Is 90 days delinquent or greater; or
- Has a Step-Rate Mortgage and:
 - Becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment
 - Has not submitted a complete Borrower Response Package

For these Borrowers, the eligibility requirements in Section 9206.5(a) are not applicable. In these instances, a Borrower Response Package is not required, and the Servicer is not required to confirm a Borrower's hardship or income. The Servicer must continue to comply with the requirements in Section 9206.5(b) and Section 9206.6 to determine eligibility.

The Servicer must offer an eligible Borrower who (i) becomes 90 days delinquent, or (ii) has a Step-Rate Mortgage and becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment, an offer for a Flex Modification Trial Period Plan in accordance with the solicitation requirements in Section 9102.5. Before offering such Borrower a Flex Modification Trial Period Plan, Servicers must either obtain the applicable MI's approval of the terms of each modification on a case-by-case basis, or ensure that the applicable MI has provided a delegation of authority that applies to the requested modification.

Note: Borrowers who reach the applicable Delinquency threshold for a streamlined offer for a Flex Modification remain eligible for the Flex Modification even if one or more payments is subsequently received, resulting in the Borrower becoming less delinquent than the eligible Delinquency threshold. In these instances, the Servicer must provide the eligible Borrower a streamlined offer for a Flex Modification within the required time frame, provided the Borrower's payments has not resulted in the full reinstatement of the Mortgage.

Refer to Section 9102.5 for additional information on solicitation of delinquent Borrowers.

(d) Complete Borrower Response Package received

If the Borrower submits a complete Borrower Response Package prior to the Borrower becoming 90 days delinquent, the Servicer must acknowledge receipt of the package and review it in accordance with the evaluation hierarchy found in Section 9201.2.

The Servicer must send an eligible Borrower an offer for a Flex Modification in accordance with the requirements of Section 9206.5(c) once the Borrower reaches the applicable Delinquency threshold if:

- The Servicer has not received a complete Borrower Response Package, or
- The Servicer previously conducted an evaluation of a complete Borrower Response Package and determined that the Borrower was not eligible for any alternative to foreclosure, or
- The Borrower has rejected all other alternatives to foreclosure offered by the Servicer

In addition, if a Borrower with a Step-Rate Mortgage submits a complete Borrower Response Package prior to becoming 90 days delinquent, and the Borrower has not yet accepted the offer for a Flex Modification, the Servicer must complete its review of the package for all alternatives to foreclosure in accordance with the Guide. However, if the Borrower has accepted the existing Trial Period Plan offer, the Servicer must determine if the Borrower is eligible for additional payment relief as a result of the post modification housing expense to income ratio (PMHTI) component of the Flex Modification terms described in Section 9206.10. If the Borrower is eligible for additional payment relief, then the Servicer must permit the Borrower to continue making the existing Trial Period Plan payments, but must update the modification agreement to reflect the lower payment amount. The post modification P&I must reflect the lower payment amount in these instances.

(e) Special requirements for Borrowers impacted by an Eligible Disaster

The requirements of this Section 9206.5(e) apply to Borrowers who were current or less than 31 days delinquent as of the date of an Eligible Disaster and experienced a hardship due to their Mortgaged Premises or places of employment being located in an Eligible Disaster Area.

The Servicer must evaluate the Borrower for a streamlined Flex Modification if the Borrower is 90 or more days delinquent, or the Borrower has a Step-Rate Mortgage and is at least 60 days delinquent, provided the Borrower became at least 60 days delinquent within 12 months following the first payment due date resulting from an interest rate adjustment, provided a Borrower Response Package has not been submitted by the Borrower and one of the following conditions is met:

- The Borrower is not eligible for a solicitation for a Disaster Payment Deferral as described in Section 9203.26

The following special requirements apply when the Flex Modification is offered as a result of the Borrower experiencing a hardship as the result of an Eligible Disaster:

- The Servicer is not required to have previously solicited the Borrower for a foreclosure prevention alternative
- The following Mortgages are ineligible for a Flex Modification. These exclusions are in lieu of the exclusions described in Section 9206.5(b) above.
 - The Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage
 - The Mortgage is subject to recourse
 - With the exception of a disaster-related forbearance plan, the Mortgage is currently performing under another forbearance plan, Trial Period Plan or repayment plan
 - The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure
 - The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other foreclosure prevention alternative, such as a non-disaster-related forbearance or repayment plan

If the Servicer was not collecting Escrows on the existing Mortgage, the Borrower is not required to establish an Escrow account as a condition of the modification unless otherwise required by applicable law, or the Servicer confirms that the taxes and insurance premiums have not been paid and are past due.

9206.5: Eligibility requirements for a Freddie Mac Flex Modification[®] (Future effective date 10/01/23)

To be eligible for a Freddie Mac Flex Modification[®], the Servicer must ensure that the following Borrower and Mortgage eligibility requirements are met and that the Mortgage is not otherwise excluded from eligibility as set forth in Section 9206.6.

If any of the eligibility requirements are not met, but the Servicer believes, based on an evaluation of a complete Borrower Response Package, that the Borrower should be considered for a Flex Modification, the Servicer must transmit the exception request via Resolve® to Freddie Mac. Refer to Section 9206.10 for additional information on Resolve.

In addition, if there is a Risk of Property Ownership (see Section 9202.5) and the Mortgage is not otherwise eligible for a Flex Modification, the Servicer may submit a recommendation to Freddie Mac to consider a Flex Modification.

In the event Freddie Mac participated in evaluating a Borrower for a Flex Modification and Freddie Mac denied the request, the Servicer must refer to Section 1301.2(i) for more information on adverse action notices that must be provided to the Borrower on behalf of Freddie Mac under certain limited circumstances.

(a) Borrower eligibility

The Borrower must:

- Submit a complete Borrower Response Package and:
 - Have an eligible hardship as described in Section 9202.2. The hardship must currently be causing or be expected to cause a long-term or permanent decrease in the Borrower's income or increase in the Borrower's expenses. **NOTE: Unemployment is considered a temporary hardship. Servicers must consider unemployed Borrowers for a forbearance plan under Sections 9203.12 through 9203.17.**
 - Have verified income
- Be 60 days or more delinquent. However, a Borrower who is current or less than 60 days delinquent (i.e., less than three monthly payments past due) **and** at least one Borrower occupies the property as a Primary Residence is also eligible provided the Borrower is first determined to be in imminent default in accordance with Section 9206.7.

(b) Mortgage eligibility

- The Mortgage must have been originated at least 12 months prior to the evaluation date for the Flex Modification
- The Mortgage must be a conventional First Lien Mortgage currently owned or guaranteed in whole or in part by Freddie Mac
- The Flex Modification must result in a principal and interest (P&I) payment that is less than or equal to the pre-modification P&I payment. (Refer to Section 9206.10 for additional payment reduction requirements that may apply.)

When determining whether the modification results in a P&I payment that is less than or equal to the pre-modification P&I payment, the Servicer must consider the following:

- If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must consider the P&I payment in effect prior to the date the SCRA relief was granted rather than the temporarily reduced monthly payment based on the SCRA interest rate cap
 - If the Mortgage being modified is an ARM or an interest-only Mortgage, the Servicer must consider the P&I payment, or interest only payment, as applicable, in effect at the time the Servicer determines eligibility for a Flex Modification Trial Period Plan
- If the Mortgage is subject to an indemnification agreement and is otherwise eligible under the requirements of this chapter, the Servicer has discretion to approve the mortgage modification provided the following conditions are met:
 - The modified Mortgage retains its credit enhancement
 - If the Servicer is not the credit enhancement provider, the Servicer must first obtain in writing any required approval under the terms of the credit enhancement from the entity providing the enhancement to enter into a modification agreement that complies with the requirements of this chapter; and
 - The Servicer remits to Freddie Mac an annual payment for the amount of all modification-related costs (e.g., interest rate shortfall) as calculated by Freddie Mac pursuant to Freddie Mac's "Modification Loss Amount" methodology. The Modification Loss Amounts due will be calculated on a monthly basis, and billed on an annual basis for the life of the modified Mortgage. If the Mortgage is subject to a partial indemnification, each year the Servicer will be billed the appropriate percentage of the Modification Loss Amount that corresponds with the partial indemnification agreement. Modification Loss Amounts will be determined by Freddie Mac in accordance with a process described in Bulletins 2016-5 and 2021-14.

NOTE: Pursuant to Section 9204.6, the Servicer is not eligible to receive an incentive for completing a modification on a Mortgage that is subject to an indemnification agreement.

- If the Mortgage is secured by a leasehold estate, the term of the lease (or any exercised option to renew the lease, or any renewal options that are enforceable by the leasehold mortgagee, whichever is applicable) must not terminate earlier than five years after the maturity date of the proposed modified Mortgage. In the event that the current term of the lease (or applicable renewal options) terminates earlier than five years after the maturity date of the proposed modified Mortgage, the term of the lease must be renegotiated in order to satisfy this requirement prior to offering the Borrower a Trial Period Plan.

Servicers must refer to the special requirements in Section 9206.5(e) for Borrowers who experience a hardship as a result of an Eligible Disaster and who were current or less than 31 days delinquent as of the date of the disaster.

(c) Streamlined eligibility for certain Borrowers

Certain eligibility exceptions apply for a Borrower who:

- Is 90 days delinquent or greater; or
- Has a Step-Rate Mortgage and:
 - Becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment
 - Has not submitted a complete Borrower Response Package

For these Borrowers, the eligibility requirements in Section 9206.5(a) are not applicable. In these instances, a Borrower Response Package is not required, and the Servicer is not required to confirm a Borrower's hardship or income. The Servicer must continue to comply with the requirements in Section 9206.5(b) and Section 9206.6 to determine eligibility.

The Servicer must offer an eligible Borrower who (i) becomes 90 days delinquent, or (ii) has a Step-Rate Mortgage and becomes 60 days delinquent within the 12 months following the first payment due date resulting from an interest rate adjustment, an offer for a Flex Modification Trial Period Plan in accordance with the solicitation requirements in Section 9102.5. Before offering such Borrower a Flex Modification Trial Period Plan, Servicers must either obtain the applicable MI's approval of the terms of each modification on a case-by-case basis, or ensure that the applicable MI has provided a delegation of authority that applies to the requested modification.

Note: Borrowers who reach the applicable Delinquency threshold for a streamlined offer for a Flex Modification remain eligible for the Flex Modification even if one or more payments is subsequently received, resulting in the Borrower becoming less delinquent than the eligible Delinquency threshold. In these instances, the Servicer must provide the eligible Borrower a streamlined offer for a Flex Modification within the required time frame, provided the Borrower's payments has not resulted in the full reinstatement of the Mortgage.

Refer to Section 9102.5 for additional information on solicitation of delinquent Borrowers.

(d) Complete Borrower Response Package received

If the Borrower submits a complete Borrower Response Package prior to the Borrower becoming 90 days delinquent, the Servicer must acknowledge receipt of the package and review it in accordance with the evaluation hierarchy found in Section 9201.2.

The Servicer must send an eligible Borrower an offer for a Flex Modification in accordance with the requirements of Section 9206.5(c) once the Borrower reaches the applicable Delinquency threshold if:

- The Servicer has not received a complete Borrower Response Package, or
- The Servicer previously conducted an evaluation of a complete Borrower Response Package and determined that the Borrower was not eligible for any alternative to foreclosure, or
- The Borrower has rejected all other alternatives to foreclosure offered by the Servicer

In addition, if a Borrower with a Step-Rate Mortgage submits a complete Borrower Response Package prior to becoming 90 days delinquent, and the Borrower has not yet accepted the offer for a Flex Modification, the Servicer must complete its review of the package for all alternatives to foreclosure in accordance with the Guide. However, if the Borrower has accepted the existing Trial Period Plan offer, the Servicer must determine if the Borrower is eligible for additional payment relief as a result of the post modification housing expense to income ratio (PMHTI) component of the Flex Modification terms described in Section 9206.10. If the Borrower is eligible for additional payment relief, then the Servicer must permit the Borrower to continue making the existing Trial Period Plan payments, but must update the modification agreement to reflect the lower payment amount. The post modification P&I must reflect the lower payment amount in these instances.

(e) Special requirements for Borrowers impacted by an Eligible Disaster

The requirements of this Section 9206.5(e) apply to Borrowers who were current or less than 31 days delinquent as of the date of an Eligible Disaster and experienced a hardship due to their Mortgaged Premises or places of employment being located in an Eligible Disaster Area.

The following special requirements apply when the Flex Modification is offered as a result of the Borrower experiencing a hardship as the result of an Eligible Disaster:

- The Servicer is not required to have previously solicited the Borrower for a foreclosure prevention alternative
- The following Mortgages are ineligible for a Flex Modification. These exclusions are in lieu of the exclusions described in Section 9206.5(b) above.
 - The Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage
 - The Mortgage is subject to recourse
 - With the exception of a disaster-related forbearance plan, the Mortgage is currently performing under another forbearance plan, Trial Period Plan or repayment plan

- The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure
- The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other foreclosure prevention alternative, such as a non-disaster-related forbearance or repayment plan

If the Servicer was not collecting Escrows on the existing Mortgage, the Borrower is not required to establish an Escrow account as a condition of the modification unless otherwise required by applicable law, or the Servicer confirms that the taxes and insurance premiums have not been paid and are past due.

For special requirements related to solicitations for streamlined offers for Flex Modifications for certain Borrowers, the Servicer must refer to Section 9203.26. If the Borrower is ineligible for streamlined offers under the requirements of Section 9203.26 and this section but is at least 90 days delinquent, the Servicer must evaluate the Borrower in accordance with the requirements of 9206.5(c).

9206.6: Ineligibility for Freddie Mac Flex Modification® (01/01/21)

The following Mortgages and Borrowers are ineligible for a Freddie Mac Flex Modification®:

- FHA/VA and Guaranteed Rural Housing Mortgages
- Mortgages subject to recourse
- Mortgages secured by second homes or non-owner occupied properties (i.e., Investment Properties) where the Borrower is current or less than 60 days delinquent

The following Mortgages and Borrowers are also ineligible for a Flex Modification. However, if the Servicer believes, based on the Borrower's individual circumstances, that the Borrower should be considered for a Flex Modification, the Servicer should submit the request to Freddie Mac. (Refer to Section 9206.5 for information on submitting an exception request to Freddie Mac.)

- Mortgages that have been previously modified three or more times
- Mortgages previously modified with the Flex Modification terms determined in accordance with Section 9206.10(a) where:
 - The Mortgage became 60 or more days delinquent within 12 months of the Modification Effective Date, and

- The Borrower has not brought the Mortgage current following the Delinquency
- Borrowers who, within 12 months of the evaluation date, failed a Flex Modification Trial Period Plan and the terms of that Trial Period Plan were determined in accordance with Section 9206.10(a)
- The Mortgage is subject to an approved short sale or deed-in-lieu of foreclosure transaction
- The Borrower is currently performing under another Trial Period Plan, forbearance plan or repayment plan
- The Mortgage is currently subject to an unexpired offer to the Borrower for another modification or other alternative to foreclosure, such as a forbearance, repayment plan, or a Payment Deferral

Any Borrower who is ineligible for a Flex Modification must provide a complete Borrower Response Package in order to be evaluated for the most appropriate workout solution in accordance with the evaluation hierarchy in Section 9201.2.

9206.7: Determining imminent default for a Freddie Mac Flex Modification® (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

(a) Overview

In order to be eligible for a Freddie Mac Flex Modification®, Borrowers who are current or less than 60 days delinquent must be determined to be in imminent default and must be occupying the property as a Primary Residence. The Servicer must verify that at least one Borrower is occupying the property as a Primary Residence based on a review of a credit report. If the credit report does not indicate that the property securing the Mortgage is the Primary Residence for a Borrower, then the Servicer must use good business judgment in reconciling the inconsistency. This additional due diligence on the part of the Servicer must be documented in the Mortgage file/servicing system.

An imminent default evaluation is necessary when the status of the Mortgage is current or less than 60 days delinquent as of the date the Servicer commences the initial evaluation of the Borrower's financial condition using the imminent default evaluation business rules as described in Section 9206.7(b).

The Servicer must rely on the same Mortgage status used to initiate the imminent default evaluation to complete the imminent default determination process, regardless of whether the Borrower becomes 60 days or more delinquent during the imminent default evaluation.

(b) Imminent default evaluation business rules

Any Borrower who is current or less than 60 days delinquent at the time the Servicer commences the initial evaluation is in imminent default if the Borrower meets the requirements of the following business rules:

Imminent Default Evaluation Business Rules	
To be considered in imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:	
Business Rule 1	<ul style="list-style-type: none">• Business Rule 2, or• Business Rule 3 <p>Each Borrower must:</p> <ul style="list-style-type: none">■ Submit a complete Borrower Response Package■ Be current or less than 60 days delinquent (i.e., less than three monthly payments past due) on the Mortgage as of the evaluation date■ Occupy the property as a Primary Residence; or at least one Borrower on the Mortgage must occupy the property as his or her Primary Residence■ Have Cash Reserves less than \$25,000■ Have an eligible hardship as described in Section 9202.2
Business Rule 2	<p>The Borrower is considered in imminent default if the Borrower meets the requirements of Business Rule 1, and</p> <ul style="list-style-type: none">■ The Borrower's FICO® score is less than or equal to 620 determined in accordance with Section 9206.7(e); AND EITHER<ul style="list-style-type: none"><input type="checkbox"/> The Mortgage has had two or more 30-day Delinquencies in the most recent 6-month period; OR<input type="checkbox"/> The Borrower's pre-modification housing expense-to-income ratio is greater than 40% <p>If the Borrower has one of the Imminent Default Hardships described below in Business Rule 3, the Borrower may be determined to be in imminent default even if these Business Rule 2 requirements are not met.</p>
Business Rule 3	The Borrower is considered in imminent default if the Borrower meets the requirements of Business Rule 1, and the Borrower

Imminent Default Evaluation Business Rules	
To be considered in imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:	
	<ul style="list-style-type: none"> • Business Rule 2, or • Business Rule 3 <p>provided the documentation required in Section 9202.2 supporting one of the Imminent Default Hardships listed below:</p> <ul style="list-style-type: none"> ■ Death of a Borrower or death of either the primary or secondary wage earner in the household ■ Long-term or permanent disability; or serious illness of a Borrower/co-Borrower or dependent family member ■ Divorce or legal separation; separation of Borrower unrelated by marriage, civil union or similar domestic partnership under applicable law; or ■ Principal and interest payment increase as a result of an interest adjustment applied to a Step-Rate Mortgage no more than 12 months prior to the evaluation date <p>The Imminent Default Hardship must currently cause and be expected to continue to cause a long-term or permanent decrease in income or increase in expenses.</p>

The Servicer must submit all information for Business Rule 1 and Business Rule 2 in all instances, even if the Borrower does not meet the requirements under Business Rule 2 and instead is approved based on the Imminent Default Hardship under Business Rule 3.

(c) Income and asset documentation and verification

(i) Documentation and verification

To be evaluated for imminent default, a Borrower must, at a minimum, provide a complete Borrower Response Package as defined in Section 9102.5(c). In addition to the income documentation required under Section 9202.3, the Servicer must obtain the Borrower's FICO score in accordance with Section 9206.7(e).

(ii) Verification of income and assets; resolution of material inconsistencies

Servicers must review all documentation submitted by the Borrower to identify any material inconsistencies, including material inconsistencies with a tax return or tax transcript if one was obtained under Section 9202.3. If, based on the Servicer's good business judgment, there are material inconsistencies with respect to the income or asset information disclosed by the Borrower or with other documentation relevant to the imminent default decision, the Servicer must obtain other documentation to reasonably reconcile such material inconsistencies. Servicers must also document such material

differences in their servicing system. If the Servicer cannot reconcile such material differences, the Borrower cannot be considered in imminent default.

(d) Cash Reserves test

The Servicer must complete an evaluation of the Borrower's Cash Reserves. The Borrower **must** have Cash Reserves of less than \$25,000 to be further evaluated for imminent default. If the Borrower either discloses or provides documentation indicating the Borrower has Cash Reserves equal to or greater than \$25,000, then the Borrower is not in imminent default.

(i) Definition of Cash Reserves

For purposes of determining imminent default, Cash Reserves are defined as follows:

Cash Reserves: Any non-retirement liquid asset the Borrower has available for withdrawal from any financial institution or brokerage, including funds on deposit in the Borrower's checking, savings, money market or certificate of deposit account or other depository account, stocks, bonds, mutual funds, U.S. Government Securities and other securities that are traded on an exchange or marketplace generally available to the public (e.g., New York Stock Exchange, National Association of Securities Dealers Automated Quotations, Midwest SE, Chicago Board of Trade or Over the Counter) for which the price can be readily verified through financial publications.

Assets are only considered retirement assets if they are held in a qualified retirement account such as a 401k 403b, 457, Individual Retirement Account (IRA) or pension fund. If the assets are not held in a retirement account, the assets must be considered Cash Reserves.

(ii) Calculating Cash Reserves

The Servicer must calculate the Borrower's Cash Reserves in accordance with the following requirements:

1. The Servicer must determine that, for every Borrower on the Mortgage, all of the Borrower's Cash Reserves have been accounted for on Form 710, Mortgage Assistance Application
2. In making the determination that all Cash Reserves have been accounted for, the Servicer must review all information provided by the Borrower to determine if the asset information stated on Form 710 is reasonably consistent with information available from all other information provided by the Borrower, including verbal information shared by the Borrower. If there are inconsistencies between the Borrower's disclosure of assets and the information provided by the Borrower, then the Servicer must obtain the Borrower's tax return or tax transcript in order to reconcile the inconsistencies.

If, upon reviewing the Borrower's tax return or tax transcript, if applicable, the Servicer observes interest, dividend income or gains/losses that, in total, that could not be reasonably produced by the Borrower's disclosed Cash Reserves, and such income indicates deposits, securities holdings or other assets that could be in excess of the amounts disclosed by the Borrower on Form 710, the Servicer must reconcile the inconsistency with the Borrower. The Servicer must require the Borrower to produce a signed federal tax return and all relevant schedules, in the event the Servicer used a tax transcript in lieu of a tax return, along with any other relevant documentation that verifies the disposition and/or current status of those assets, which produced the income or gains/losses to resolve the inconsistency.

The Servicer must ensure that the Borrower's disclosure of assets is reasonably accurate despite the inconsistency between the disclosed assets and the income or gain/loss from assets reported on the tax return or tax transcript. In determining what documentation is needed to reconcile an inconsistency, the Servicer must review the detailed tax return schedules and forms, and request from the Borrower copies of recent and past statements from those asset holdings or transactions indicated on the schedules and forms that produced the income or gain/loss (e.g., checking, savings, brokerage account statements, asset sale statements or records, etc.).

3. If there are inconsistencies between the Borrower's disclosure of assets and the tax return information that cannot be reconciled, the Borrower cannot be considered in imminent default

If the Servicer determines that the Borrower has Cash Reserves of less than \$25,000 and meets all other requirements of Section 9206.7(b) then the Borrower is considered to be in imminent default.

(e) Imminent default credit score

Servicers must choose one FICO score that is adequately indicative of the credit reputation of all Borrowers currently on the Mortgage. Servicers must use a credit score based on the FICO credit-scoring model. This score must be obtained and determined in accordance with the requirements below.

(i) Obtaining FICO scores for each Borrower

The Servicer must request a FICO score for each Borrower on the Mortgage from any one of the following three credit repositories:

- Equifax Credit Information Services
- Experian Information Systems and Services
- TransUnion Credit Information Company

The Borrower's FICO score must be less than 90 days old on the date the Servicer performs the imminent default evaluation.

Borrowers with no available FICO score

It is unusual for any Borrower who has obtained a Mortgage not to have a FICO score. If no single FICO score can be identified for a Borrower, the Servicer must recheck the information provided when ordering the FICO scores and resubmit a request. If the Servicer is still unable to obtain a FICO score for that Borrower, it may rely on the FICO scores of all other Borrowers as determined in accordance with this section.

Absent a FICO score for any Borrower on the Mortgage, the Borrower may not be determined to be in imminent default under the requirements of Business Rule 2, and the Servicer must proceed to evaluate the Borrower under the requirements of Business Rule 3 in Section 9206.7(b). In such instances when a FICO score is not available for any Borrower on the Mortgage, the Servicer must:

1. Maintain documentation in the Mortgage file that demonstrates the Servicer's attempts to obtain FICO scores from all three credit repositories on all Borrowers
2. Enter the result that a FICO score is not available for any Borrower on the Mortgage into Workout Prospector®
3. Proceed to the Imminent Default Hardship test in Business Rule 3 to determine if an Imminent Default Hardship exists

(ii) Determining the Imminent Default Credit Score

The Servicer must identify the Imminent Default Credit Score in accordance with the following:

- The Servicer must first select a single FICO score for each Borrower on the Mortgage. If the Servicer obtains multiple FICO scores for a single Borrower, the Servicer must use the middle/lower method to select the single FICO score for that Borrower. This method is the most predictive when determining a single Borrower's overall credit reputation. If three FICO scores are obtained for a Borrower, the single score for that Borrower is the one with the middle value. For example, if the FICO scores were 660, 656 and 640, the single FICO score selected by the Servicer should be 656. When there is a duplicate score, the Seller must select that score to be the single score. If the FICO scores for a Borrower were 660, 660 and 640, the Servicer should select 660. If two FICO scores were obtained for a Borrower, the Servicer must select the lower of the two FICO scores to be the single FICO score for that Borrower.

- If there is only one Borrower on the Mortgage, the single FICO score, determined in accordance with the above requirements, is considered the Imminent Default Credit Score
- If there are multiple Borrowers on the Mortgage, the Servicer must determine the single FICO score for each Borrower using the method described above. The Servicer must then select either the lowest FICO score across all Borrowers on the Mortgage or the average FICO score from all Borrowers' single scores. (Note: Whichever method is used, the Servicer should choose the single FICO score using the same method and procedure for all Borrowers and for all Mortgages consistent with fair lending laws.)

(f) Calculating pre-modification housing expense-to-income ratio

The Servicer must use verified income to determine that the Borrower's pre-modification housing expense-to-income ratio is greater than 40%. For purposes of this determination, the Servicer must divide the Borrower's current monthly housing expense by the Borrower's monthly gross income (or the Borrowers' combined monthly gross income in the case of co-Borrowers) plus any allowable non-obligor household income.

The Borrower's current monthly housing expense consists of the following, as applicable:

- Monthly P&I payment
- Monthly pro rata amount for real estate taxes
- Monthly pro rata amount for property or flood insurance
- Monthly pro rata amount for homeowners association (HOA) dues, Condominium Unit or Cooperative Unit Maintenance Fees and ground rent
- Any escrow shortage currently included as part of the monthly contractual payment

If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must use the principal and interest payment and the contractual rate of interest in effect on the Note prior to the granting of the SCRA relief rather than the temporarily SCRA reduced interest rate and related SCRA monthly payment when calculating the Borrower's current monthly housing expense-to-income ratio.

If a Borrower has indicated that there are condominium/HOA or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, or ground rents, but has not been able to provide written documentation to verify these amounts,

the Servicer must rely on the information provided by the Borrower if the Servicer has made reasonable efforts to obtain the amounts in writing.

The current monthly housing expense does not include mortgage insurance premium payments, payments due to holders of subordinate liens, or projected escrow shortages.

For each imminent default evaluation under Business Rule 2, the Servicer must report the housing expense-to-income ratio, in addition to the FICO score and payment history as described below, to Freddie Mac via Workout Prospector.

(g) Payment history

For imminent default evaluations under the requirements of Business Rule 2, the Servicer must determine whether the Mortgage has had two or more 30-day Delinquencies in the most recent six-month period. For each imminent default evaluation under Business Rule 2, the Servicer must report the payment history, in addition to the FICO score and pre-modification housing expense-to-income ratio, to Freddie Mac via Workout Prospector.

Note: The Servicer must not consider a missed contractual payment that becomes 60 or more days delinquent as a Mortgage having two or more 30-day Delinquencies in the most recent six-month period.

(h) Imminent default evaluation results

If the Borrower meets the requirements of Business Rule 1 and meets the requirements of either: (i) Business Rule 2, or (ii) Business Rule 3, the Borrower is in imminent default. The Servicer must evaluate the Borrower for a Flex Modification Trial Period Plan and no further analysis is required by the Servicer to determine imminent default.

(i) General requirements and information

If the Servicer determines that a Borrower is in imminent default, the Servicer must continue evaluating the Borrower using the applicable underwriting requirements outlined in Chapter 9206 to determine if the Borrower qualifies for a Flex Modification.

9206.7: Determining imminent default for a Freddie Mac Flex Modification® (Future effective date 08/31/23)

(a) Overview

In order to be eligible for a Freddie Mac Flex Modification®, Borrowers who are current or less than 60 days delinquent must be determined to be in imminent default and must be occupying the property as a Primary Residence. The Servicer must verify that at least one Borrower is occupying the property as a Primary Residence based on a review of a credit

report. If the credit report does not indicate that the property securing the Mortgage is the Primary Residence for a Borrower, then the Servicer must use good business judgment in reconciling the inconsistency. This additional due diligence on the part of the Servicer must be documented in the Mortgage file/servicing system.

An imminent default evaluation is necessary when the status of the Mortgage is current or less than 60 days delinquent as of the date the Servicer commences the initial evaluation of the Borrower's financial condition using the imminent default evaluation business rules as described in Section 9206.7(b).

The Servicer must rely on the same Mortgage status used to initiate the imminent default evaluation to complete the imminent default determination process, regardless of whether the Borrower becomes 60 days or more delinquent during the imminent default evaluation.

(b) Imminent default evaluation business rules

Resolve® will evaluate the information the Servicer provides against the imminent default business rules. Any Borrower who is current or less than 60 days delinquent at the time the Servicer commences the initial evaluation is in imminent default if the Borrower meets the requirements of the following business rules:

Imminent Default Evaluation Business Rules	
To be considered in imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:	
Business Rule 1	<ul style="list-style-type: none">• Business Rule 2, or• Business Rule 3 <p>Each Borrower must:</p> <ul style="list-style-type: none">■ Submit a complete Borrower Response Package■ Be current or less than 60 days delinquent (i.e., less than three monthly payments past due) on the Mortgage as of the evaluation date■ Occupy the property as a Primary Residence; or at least one Borrower on the Mortgage must occupy the property as his or her Primary Residence■ Have Cash Reserves less than \$25,000■ Have an eligible hardship as described in Section 9202.2
Business Rule 2	The Borrower is considered in imminent default if the Borrower meets the requirements of Business Rule 1, and

Imminent Default Evaluation Business Rules	
To be considered in imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:	
	<ul style="list-style-type: none"> • Business Rule 2, or • Business Rule 3
	<ul style="list-style-type: none"> ■ The Borrower's FICO® score is less than or equal to 620 determined in accordance with Section 9206.7(e); AND EITHER <ul style="list-style-type: none"> <input type="checkbox"/> The Mortgage has had two or more 30-day Delinquencies in the most recent 6-month period; OR <input type="checkbox"/> The Borrower's pre-modification housing expense-to-income ratio is greater than 40% <p>If the Borrower has one of the Imminent Default Hardships described below in Business Rule 3, the Borrower may be determined to be in imminent default even if these Business Rule 2 requirements are not met.</p>
Business Rule 3	<p>The Borrower is considered in imminent default if the Borrower meets the requirements of Business Rule 1, and the Borrower provided the documentation required in Section 9202.2 supporting one of the Imminent Default Hardships listed below:</p> <ul style="list-style-type: none"> ■ Death of a Borrower or death of either the primary or secondary wage earner in the household ■ Long-term or permanent disability; or serious illness of a Borrower/co-Borrower or dependent family member ■ Divorce or legal separation; separation of Borrower unrelated by marriage, civil union or similar domestic partnership under applicable law; or ■ Principal and interest payment increase as a result of an interest adjustment applied to a Step-Rate Mortgage no more than 12 months prior to the evaluation date <p>The Imminent Default Hardship must currently cause and be expected to continue to cause a long-term or permanent decrease in income or increase in expenses.</p>

The Servicer must enter all information in Resolve for Business Rule 1 and Business Rule 2 in all instances, even if the Borrower does not meet the requirements under Business Rule 2 and instead is approved based on the Imminent Default Hardship under Business Rule 3.

(c) Income and asset documentation and verification

(i) Documentation and verification

To be evaluated for imminent default, a Borrower must, at a minimum, provide a complete Borrower Response Package as defined in Section 9102.5(c). In addition to the income documentation required under Section 9202.3, the Servicer must obtain the Borrower's FICO score in accordance with Section 9206.7(e).

(ii) Verification of income and assets; resolution of material inconsistencies

Servicers must review all documentation submitted by the Borrower to identify any material inconsistencies, including material inconsistencies with a tax return or tax transcript if one was obtained under Section 9202.3. If, based on the Servicer's good business judgment, there are material inconsistencies with respect to the income or asset information disclosed by the Borrower or with other documentation relevant to the imminent default decision, the Servicer must obtain other documentation to reasonably reconcile such material inconsistencies. Servicers must also document such material differences in their servicing system. If the Servicer cannot reconcile such material differences, the Borrower cannot be considered in imminent default.

(d) Cash Reserves test

The Servicer must complete an evaluation of the Borrower's Cash Reserves. The Borrower **must** have Cash Reserves of less than \$25,000 to be further evaluated for imminent default. If the Borrower either discloses or provides documentation indicating the Borrower has Cash Reserves equal to or greater than \$25,000, then the Borrower is not in imminent default.

(i) Definition of Cash Reserves

For purposes of determining imminent default, Cash Reserves are defined as follows:

Cash Reserves: Any non-retirement liquid asset the Borrower has available for withdrawal from any financial institution or brokerage, including funds on deposit in the Borrower's checking, savings, money market or certificate of deposit account or other depository account, stocks, bonds, mutual funds, U.S. Government Securities and other securities that are traded on an exchange or marketplace generally available to the public (e.g., New York Stock Exchange, National Association of Securities Dealers Automated Quotations, Midwest SE, Chicago Board of Trade or Over the Counter) for which the price can be readily verified through financial publications.

Assets are only considered retirement assets if they are held in a qualified retirement account such as a 401k 403b, 457, Individual Retirement Account (IRA) or pension fund. If the assets are not held in a retirement account, the assets must be considered Cash Reserves.

(ii) Calculating Cash Reserves

The Servicer must calculate the Borrower's Cash Reserves in accordance with the following requirements:

1. The Servicer must determine that, for every Borrower on the Mortgage, all of the Borrower's Cash Reserves have been accounted for on Form 710, Mortgage Assistance Application
2. In making the determination that all Cash Reserves have been accounted for, the Servicer must review all information provided by the Borrower to determine if the asset information stated on Form 710 is reasonably consistent with information available from all other information provided by the Borrower, including verbal information shared by the Borrower. If there are inconsistencies between the Borrower's disclosure of assets and the information provided by the Borrower, then the Servicer must obtain the Borrower's tax return or tax transcript in order to reconcile the inconsistencies.

If, upon reviewing the Borrower's tax return or tax transcript, if applicable, the Servicer observes interest, dividend income or gains/losses that, in total, that could not be reasonably produced by the Borrower's disclosed Cash Reserves, and such income indicates deposits, securities holdings or other assets that could be in excess of the amounts disclosed by the Borrower on Form 710, the Servicer must reconcile the inconsistency with the Borrower. The Servicer must require the Borrower to produce a signed federal tax return and all relevant schedules, in the event the Servicer used a tax transcript in lieu of a tax return, along with any other relevant documentation that verifies the disposition and/or current status of those assets, which produced the income or gains/losses to resolve the inconsistency.

The Servicer must ensure that the Borrower's disclosure of assets is reasonably accurate despite the inconsistency between the disclosed assets and the income or gain/loss from assets reported on the tax return or tax transcript. In determining what documentation is needed to reconcile an inconsistency, the Servicer must review the detailed tax return schedules and forms, and request from the Borrower copies of recent and past statements from those asset holdings or transactions indicated on the schedules and forms that produced the income or gain/loss (e.g., checking, savings, brokerage account statements, asset sale statements or records, etc.).

3. If there are inconsistencies between the Borrower's disclosure of assets and the tax return information that cannot be reconciled, the Borrower cannot be considered in imminent default

If the Servicer determines that the Borrower has Cash Reserves of less than \$25,000 and meets all other requirements of Section 9206.7(b) then the Borrower is considered to be in imminent default.

(e) Imminent default credit score

Servicers must choose one FICO score that is adequately indicative of the credit reputation of all Borrowers currently on the Mortgage. Servicers must use a credit score based on the FICO credit-scoring model. This score must be obtained and determined in accordance with the requirements below.

(i) Obtaining FICO scores for each Borrower

The Servicer must request a FICO score for each Borrower on the Mortgage from any one of the following three credit repositories:

- Equifax Credit Information Services
- Experian Information Systems and Services
- TransUnion Credit Information Company

The Borrower's FICO score must be less than 90 days old on the date the Servicer performs the imminent default evaluation.

Borrowers with no available FICO score

It is unusual for any Borrower who has obtained a Mortgage not to have a FICO score. If no single FICO score can be identified for a Borrower, the Servicer must recheck the information provided when ordering the FICO scores and resubmit a request. If the Servicer is still unable to obtain a FICO score for that Borrower, it may rely on the FICO scores of all other Borrowers as determined in accordance with this section.

Absent a FICO score for any Borrower on the Mortgage, the Borrower may not be determined to be in imminent default under the requirements of Business Rule 2, and the Servicer must proceed to evaluate the Borrower under the requirements of Business Rule 3 in Section 9206.7(b). In such instances when a FICO score is not available for any Borrower on the Mortgage, the Servicer must:

1. Maintain documentation in the Mortgage file that demonstrates the Servicer's attempts to obtain FICO scores from all three credit repositories on all Borrowers
2. Enter the result that a FICO score is not available for any Borrower on the Mortgage into Resolve
3. Proceed to the Imminent Default Hardship test in Business Rule 3 to determine if an Imminent Default Hardship exists

(ii) Determining the Imminent Default Credit Score

The Servicer must identify the Imminent Default Credit Score in accordance with the following:

- The Servicer must first select a single FICO score for each Borrower on the Mortgage. If the Servicer obtains multiple FICO scores for a single Borrower, the Servicer must use the middle/lower method to select the single FICO score for that Borrower. This method is the most predictive when determining a single Borrower's overall credit reputation. If three FICO scores are obtained for a Borrower, the single score for that Borrower is the one with the middle value. For example, if the FICO scores were 660, 656 and 640, the single FICO score selected by the Servicer should be 656. When there is a duplicate score, the Seller must select that score to be the single score. If the FICO scores for a Borrower were 660, 660 and 640, the Servicer should select 660. If two FICO scores were obtained for a Borrower, the Servicer must select the lower of the two FICO scores to be the single FICO score for that Borrower.
- If there is only one Borrower on the Mortgage, the single FICO score, determined in accordance with the above requirements, is considered the Imminent Default Credit Score
- If there are multiple Borrowers on the Mortgage, the Servicer must determine the single FICO score for each Borrower using the method described above. The Servicer must then select either the lowest FICO score across all Borrowers on the Mortgage or the average FICO score from all Borrowers' single scores. (Note: Whichever method is used, the Servicer should choose the single FICO score using the same method and procedure for all Borrowers and for all Mortgages consistent with fair lending laws.)

(f) Calculating pre-modification housing expense-to-income ratio

The Servicer must use verified income to determine that the Borrower's pre-modification housing expense-to-income ratio is greater than 40%. For purposes of this determination, the Servicer must divide the Borrower's current monthly housing expense by the Borrower's monthly gross income (or the Borrowers' combined monthly gross income in the case of co-Borrowers) plus any allowable non-obligor household income.

The Borrower's current monthly housing expense consists of the following, as applicable:

- Monthly P&I payment
- Monthly pro rata amount for real estate taxes
- Monthly pro rata amount for property or flood insurance

- Monthly pro rata amount for homeowners association (HOA) dues, Condominium Unit or Cooperative Unit Maintenance Fees and ground rent
- Any escrow shortage currently included as part of the monthly contractual payment

If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must use the principal and interest payment and the contractual rate of interest in effect on the Note prior to the granting of the SCRA relief rather than the temporarily SCRA reduced interest rate and related SCRA monthly payment when calculating the Borrower's current monthly housing expense-to-income ratio.

If a Borrower has indicated that there are condominium/HOA or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, or ground rents, but has not been able to provide written documentation to verify these amounts, the Servicer must rely on the information provided by the Borrower if the Servicer has made reasonable efforts to obtain the amounts in writing.

The current monthly housing expense does not include mortgage insurance premium payments, payments due to holders of subordinate liens, or projected escrow shortages.

For each imminent default evaluation under Business Rule 2, the Servicer must report the housing expense-to-income ratio and the FICO score as described below, to Freddie Mac via Resolve.

(g) Imminent default evaluation results

If Resolve determines the Borrower meets the requirements of Business Rule 1 and meets the requirements of either: (i) Business Rule 2, or (ii) Business Rule 3, the Borrower is in imminent default. The Servicer must evaluate the Borrower for a Flex Modification Trial Period Plan and no further analysis is required by the Servicer to determine imminent default.

(h) General requirements and information

If Resolve determines that a Borrower is in imminent default, the Servicer must continue evaluating the Borrower using the applicable underwriting requirements outlined in Chapter 9206 to determine if the Borrower qualifies for a Flex Modification.

9206.8: Property valuation requirements for a Freddie Mac Flex Modification® (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are

operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

The Servicer must obtain a property valuation to determine the property value for each Mortgage under consideration for a Freddie Mac Flex Modification®. The property value must not be more than 90 days old on the date the Servicer evaluates the Borrower for a Flex Modification. This value must be used to calculate the mark-to-market loan-to-value (MTMLTV) ratio of the Mortgage to determine eligibility for a Trial Period Plan and the terms of the modification (see Section 9206.10 regarding determining the terms of a modification).

If the Servicer has previously obtained a Freddie Mac-compliant property valuation (i.e., Freddie Mac-provided BPO, Freddie Mac-provided appraisal or an appraisal obtained in compliance with Topic 5600), the Servicer must use the Freddie Mac-compliant property valuation in connection with a modification evaluation provided it is not more than 90 days old on the date the Servicer evaluates the Borrower for a modification. The Servicer may not obtain a new property valuation in this circumstance.

Notwithstanding the requirements in this section, the Servicer must ensure that the property value it obtains is based on a property valuation type consistent with the MI's property valuation requirements when the Mortgage is covered by mortgage insurance.

The Servicer represents and warrants that all information it provides for the purpose of obtaining the property value, including the address of the Mortgaged Premises, is true, complete and accurate.

The Servicer must maintain the property valuation information to evidence compliance with this section.

With respect to the determination of property value for a modification, the Servicer has the following options:

When:	The Servicer must:
The Mortgage is secured by a 1- or 2-unit property (excluding a Manufactured Home, a dwelling subject to a leasehold estate or a Cooperative Unit)	<p>Choose one of the following options if an acceptable property value is available under one or more of the options:</p> <p>Option One: Home Value Explorer® (HVE®)</p> <ul style="list-style-type: none">• The Home Value Explorer (HVE) point value estimate must be obtained through one of Freddie Mac's Home Value Explorer (HVE) distributors• The Servicer may use the Home Value Explorer (HVE) point value estimate provided it has a Forecast Standard Deviation that is no greater than 0.20

When:	The Servicer must:
	<p>(corresponding to a Confidence Level of “H” (high) or “M” (medium))</p> <ul style="list-style-type: none"> • Detailed information on Home Value Explorer (HVE) and Freddie Mac’s distributors is available at: https://sf.freddiemac.com/tools-learning/home-value-suite/home-value-explorer <p>Option Two: Automated Valuation Model (AVM)</p> <ol style="list-style-type: none"> 1. Freddie Mac’s BPODirect® website <ul style="list-style-type: none"> ■ When an automated value is displayed in the BPODirect “Auto Value” field, the Servicer may use that automated value in accordance with Sections 2406.4 and 9202.17 ■ Detailed information on BPODirect is available at Servicing Gateway 2. Freddie Mac’s <i>Automated Valuation Model (AVM)</i> report <ul style="list-style-type: none"> ■ The AVM report is limited to Mortgages that are more than 30 days delinquent ■ When an automated value is displayed in the “Current AVM Value” field in the <i>Automated Valuation Model (AVM)</i> report, accessible via the “Default Reporting” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools), the Servicer may use that automated value. This report in the SPP will be updated by the last Friday of each month.
The Mortgage is secured by a 3- or 4-unit property, a Manufactured Home or a dwelling subject to a leasehold estate	Order an exterior property valuation through BPODirect in accordance with Sections 2406.4 and 9202.17.

When:	The Servicer must:
The Cooperative Share Loan is secured by a First Lien on the Cooperative Interest to a Cooperative Unit (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans)	Order an exterior property valuation through BPODirect in accordance with Sections 2406.4 and 9202.17.
The Mortgage is secured by a 1- or 2-unit property (excluding a Manufactured Home, a dwelling subject to a leasehold estate or a Cooperative Unit) and an HVE point value estimate or automated value is not available or does not meet the requirements in Option One or Option Two above	Order an exterior property valuation through BPODirect in accordance with Sections 2406.4 and 9202.17.
Note: Consistent with the requirement in Section 8101.1 to act in the most timely, efficient and responsible manner to protect Freddie Mac's interests, a Servicer must not order a new BPO through BPODirect for a 1- or 2-unit property if there is an available HVE point value estimate or automated value in accordance with the requirements of Option One or Option Two above.	

9206.8: Property valuation requirements for a Freddie Mac Flex Modification® (Future effective date 08/31/23)

Based on the information provided by the Servicer, Resolve® will determine the property value of each Mortgage under consideration for a Freddie Mac Flex Modification®.

9206.9: Borrower Documentation for a Freddie Mac Flex Modification® (10/01/17)

Effective October 1, 2017, the content of this section has moved to Section 9206.5(a), with updates made to reflect the Freddie Mac Flex Modification®. Refer to Section 9206.5(c) for reduced Borrower documentation requirements for the Flex Modification for certain delinquent Borrowers eligible for a streamlined offer.

9206.10: Determining the terms of a Freddie Mac Flex Modification® (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

(a) Determining the terms of the modification

The Servicer must first determine the post-modified mark-to-market loan-to-value (MTMLTV) ratio of the Mortgage in order to determine the terms of the modification. The post-modified MTMLTV ratio is the gross UPB of the Mortgage, including, if applicable, any principal forbearance amount and/or arrearages that may be capitalized, divided by the property value obtained in accordance with Section 9206.8.

The Servicer must follow the steps below when evaluating the Borrower for a Trial Period Plan and again when preparing the modification agreement using the modified Mortgage terms once final capitalized amounts are known.

(i) Mortgages with a post-modified MTMLTV ratio equal to or greater than 80%

Step 1: Capitalize the arrearages in accordance with the requirements of Section 9206.15.

Step 2: Determine the interest rate that will be used to calculate the Trial Period payment and the terms of the modification agreement in accordance with the interest rate requirements in Section 9206.10(a)(iii).

Step 3: Extend the amortization term to 480 months from the Modification Effective Date.

Step 4: For a Mortgage with a post-modification MTMLTV ratio (which includes capitalized amounts) greater than 100%, forbear principal until the earlier point at which (i) a post-modification interest-bearing MTMLTV ratio of 100% or (ii) 30% of the post-capitalized UPB (“the Forbearance Cap”) is achieved. The post-modification MTMLTV ratio is determined by dividing the sum of the interest-bearing UPB plus any applicable non-interest bearing UPB and/or capitalized arrearages, by the property value obtained in accordance with Section 9206.8. Interest will not accrue on the forborne (or deferred) principal. Deferred principal is payable upon maturity of the loan modification, sale or transfer of the property or refinance of the Mortgage or payoff of the interest-bearing UPB.

Step 5 (NOTE – this step applies to all Mortgages with an MTMLTV ratio greater than or equal to 80%):

(A) Mortgages that are less than 90 days delinquent

If the Steps 1 through 4 above do not achieve at least a 20% principal and interest (P &I) payment reduction **and** a post-modification housing expense-to-income (PMHTI) ratio (calculated in accordance with Section 9206.10(a)(iv)) that is equal to or less than 40%, the Servicer must continue to forbear principal in \$100 increments until whichever of the following occurs first:

- A 20% P&I payment reduction and PMHTI ratio equal to or just below 40% are both achieved
- An MTMLTV ratio as close as possible to, but not below, 80% is achieved; or
- The aggregate forbearance amount equals or is no less than \$100 below the Forbearance Cap

For example, if the Forbearance Cap equals \$30,000, the Servicer may forbear in \$100 increments to an aggregate forbearance amount of \$29,901 to \$30,000, but may not exceed \$30,000 in total forbearance.

If the Forbearance Cap or 80% MTMLTV ratio is reached first, the Servicer must offer the modification to the Borrower with the maximum permitted forbearance amount provided that the modification still results in a P&I payment that is less than or equal to the Borrower's pre-modification P&I payment. In this circumstance, neither the 20% payment reduction nor 40% PMHTI ratio must be obtained.

(B) Mortgages that are 90 or more days delinquent

The Servicer must follow the modification steps in Section 9206.10(a)(i)(A), excluding the PMHTI ratio component.

(ii) Mortgages with a post-modified MTMLTV ratio less than 80%

Step 1: Capitalize the arrearages in accordance with Section 9206.15.

Step 2: Determine the interest rate that will be used to calculate the Trial Period payment and the terms of the modification agreement in accordance with the interest rate calculations in Section 9206.10(a)(iii).

Step 3: Extend the amortization term to 480 months from the Modification Effective Date.

(iii) Determining the Freddie Mac Flex Modification® interest rate

Determine the interest rate that will be used to calculate the Trial Period payment and the terms of the modification agreement using the chart below.

Mortgages with MTMLTV ratios less than 80%	
If the existing Mortgage is:	...then
A fixed-rate Mortgage (including ARMs and Step-Rate Mortgages with no additional interest rate adjustments or steps scheduled)	The Servicer must use the existing interest rate on the Mortgage to calculate the Trial Period Plan payment and use that same rate to establish the terms of the modification agreement
An ARM or a Step-Rate Mortgage with additional interest rate adjustments or steps scheduled	<p>The Servicer must use the lesser of:</p> <ul style="list-style-type: none"> ■ Freddie Mac's modification interest rate in effect and posted on https://sf.freddiemac.com/general/fred-die-mac-modification-interest-rate as of the date the Servicer evaluates and determines the Borrower is eligible for a Trial Period Plan; or ■ The maximum step-rate/lifetime cap note rate to calculate the Trial Period Plan payment <p>Use the same rate to establish the terms of the modification agreement.</p>
Mortgages with MTMLTV ratios greater than or equal to 80%	
If the existing Mortgage is:	...then
Fixed-rate Mortgage (including ARMs and Step Rate Mortgages with no additional interest rate adjustments or steps scheduled)	<p>The Servicer must use the lesser of:</p> <ul style="list-style-type: none"> ■ Freddie Mac's modification interest rate in effect and posted on https://sf.freddiemac.com/general/fred-die-mac-modification-interest-rate as of the date the Servicer evaluates and determines the Borrower is eligible for a Trial Period Plan; or ■ The existing interest rate on the Mortgage to calculate the Trial Period Plan payment

	Use the same rate to establish the terms of the modification agreement.
ARM or Step-Rate Mortgage with additional interest rate adjustments or steps scheduled	<p>The Servicer must use the lesser of:</p> <ul style="list-style-type: none"> ■ Freddie Mac's modification interest rate in effect and posted on https://sf.freddiemac.com/general/fred-die-mac-modification-interest-rate as of the date the Servicer evaluates and determines the Borrower is eligible for a Trial Period Plan; or ■ The maximum step-rate/lifetime cap note rate to calculate the Trial Period payment <p>Use the same rate to establish the terms of the modification agreement.</p>

(iv) Calculating the PMHTI ratio

- **Primary Residence**

If the subject property is a Primary Residence, the PMHTI ratio is the post-modification monthly PITIAS Payment (excluding mortgage insurance), divided by the Borrower's monthly gross income (as defined in Section 9202.3(c))

- **Second homes**

If the subject property is a second home, the post-modification monthly housing expense on the second home (PITIAS Payment excluding mortgage insurance) must be added to the monthly housing expense on the Borrower's Primary Residence, and the combined amount must be divided by the Borrower's gross monthly income

- **Investment Properties**

If the subject property is an Investment Property:

- **Net rental income** on the subject property must be included in the Borrower's gross monthly income for purposes of calculating the monthly housing expense-to-income ratio. When there is net rental income on the subject property, the monthly housing expense component of the ratio would only include the expense on the Borrower's Primary Residence. The income component of the ratio is the Borrower's gross monthly income, which includes the net rental income on the subject property.

- Net rental loss** on the subject property must be added to the monthly housing expense on the Borrower's Primary Residence, and the combined amount must be divided by the Borrower's gross monthly income
- If the Borrower is currently not receiving rental income on the subject property, then the post-modification monthly housing expense on the subject property must be added to the monthly housing expense on the Borrower's Primary Residence, and the combined amount must be divided by the Borrower's gross monthly income
- Net rental income (or loss) is determined by subtracting the post-modification monthly debt service (i.e., principal, interest, taxes, insurance, including mortgage insurance and association fees, if applicable) on the property from the amount that is 75% of the monthly gross rental income

(b) Determination of eligibility based on Trial Period payment

For a Flex Modification, the Servicer must determine that the estimated monthly modified P&I payment calculated when determining the terms of the Trial Period Plan would comply with applicable P&I payment reduction and PMHTI ratio requirements as set forth in Sections 9206.5 and 9206.10.

If the Borrower makes all Trial Period payments timely, the Servicer must modify the Mortgage, even if, due to variances between estimated capitalization amounts and final capitalization amounts, the Flex Modification does not meet the applicable requirements above. When determining eligibility for a Trial Period Plan offer, the Servicer is responsible for ensuring that its estimate of the amounts to be capitalized includes all known amounts.

(c) Workout Prospector®

Servicers must use Workout Prospector for all Mortgages for which Borrowers are being evaluated for a Trial Period Plan and modification under this chapter. Servicers represent and warrant that they will only use Workout Prospector for the purpose of modifying Freddie Mac Mortgages and not mortgages owned by other investors. Both the input and output of Workout Prospector is Freddie Mac confidential information that the Servicer must not disclose to third parties, except as authorized by Freddie Mac. Servicers using Workout Prospector are bound by all of the provisions of the Workout Prospector User Agreement, included in this Guide as Exhibit 86, to the same degree as if they had signed such Agreement as a "User."

Once the Servicer has sufficient information to underwrite the Borrower, the Servicer must access the Workout Prospector application and submit all required data for Borrowers under consideration for a Flex Modification:

- For Borrowers who are current or less than 60 days delinquent, the Servicer must first evaluate the Borrower for imminent default in accordance with Section 9206.7 and enter the Imminent Default Hardship reason, if applicable, into Workout Prospector
- Upon successful completion of the Trial Period, the Servicer must update the principal balance as of the Modification Effective Date and any applicable fields to reflect the final amounts that must be capitalized

Servicers must confirm that the terms reflected in Workout Prospector for the Trial Period Plan or modification agreement for the Borrower accurately reflect the Servicer's underwriting of the Borrower in accordance with the requirements of this chapter. If a Servicer is unable to complete a submission of a Trial Period Plan or modification agreement via Workout Prospector, the Servicer should contact 800-FREDDIE.

(i) Accuracy of data

Workout Prospector requires the submission of specific data elements in order to return a suggested workout solution. The Servicer represents and warrants that all data input into Workout Prospector is true, complete and accurate and that all data is entered correctly.

(ii) Delegation of authority to the Servicer

The Servicer may not deem Freddie Mac to have reviewed the terms of a Trial Period Plan or modification agreement for compliance with the Servicer's obligations under the Guide or other Purchase Documents or to have approved a Trial Period Plan or modification or their terms based on the Servicer's use of Workout Prospector including, without limitation:

- Workout Prospector's generation of terms for a Trial Period Plan or modification agreement
- Freddie Mac's settlement on its systems of a modification entered into by the Servicer under its delegated authority or expanded delegated authority in accordance with a Freddie Mac approval of an exception, or
- Freddie Mac's notification that the modification has been processed in Freddie Mac's systems via the Loan Modifications Processed report

(iii) Use of Servicer proprietary system

Servicers may use their own proprietary system or a third-party system to generate the terms of the Trial Period Plan and the modification agreement; however, the Freddie Mac data also must be entered in its entirety into Workout Prospector. In relying on their own proprietary or a third-party system, Servicers must ensure that their results comply with the underwriting requirements of this chapter and are the same as the results reflected in Workout Prospector prior to sending out the appropriate Trial Period Plan Borrower

Evaluation Notice or modification agreement to the Borrower. If the results reflected in Workout Prospector are different than the Servicer's results, the Servicer must update the data in Workout Prospector to ensure that it matches the terms of the Trial Period Plan or modification agreement, which, in turn, must accurately reflect the underwriting requirements of this Chapter 9206, prior to sending out the appropriate Trial Period Plan Borrower Evaluation Notice or modification agreement to the Borrower.

9206.10: Determining the terms of a Freddie Mac Flex Modification[®] (Future effective date 08/31/23)

(a) Determining the terms of the modification

Based on the information provided by the Servicer, Resolve[®] will determine the terms of the Freddie Mac Flex Modification according to the following:

(i) Mortgages with a post-modified MTMLTV ratio equal to or greater than 80%

Step 1: Arrearages capitalized in accordance with the requirements of Section 9206.15.

Step 2: The interest rate used to calculate the Trial Period payment and the terms of the modification agreement will be determined in accordance with the interest rate requirements in Section 9206.10(a)(iii).

Step 3: The amortization term will be extended to 480 months from the Modification Effective Date.

Step 4: For a Mortgage with a post-modification MTMLTV ratio (which includes capitalized amounts) greater than 100%, principal will be forborne until the earlier point at which (i) a post-modification interest-bearing MTMLTV ratio of 100% or (ii) 30% of the post-capitalized UPB ("the Forbearance Cap") is achieved. The post-modification MTMLTV ratio is determined by dividing the sum of the interest-bearing UPB plus any applicable non-interest bearing UPB and/or capitalized arrearages, by the property value obtained in accordance with Section 9206.8. Interest will not accrue on the forborne (or deferred) principal. Deferred principal is payable upon maturity of the loan modification, sale or transfer of the property or refinance of the Mortgage or payoff of the interest-bearing UPB.

Step 5 (NOTE – this step applies to all Mortgages with an MTMLTV ratio greater than or equal to 80%):

(A) Mortgages that are less than 90 days delinquent

If the Steps 1 through 4 above do not achieve at least a 20% principal and interest (P &I) payment reduction **and** a post-modification housing expense-to-income (PMHTI)

ratio (calculated in accordance with Section 9206.10(a)(iv)) that is equal to or less than 40%, principal will be forborne in \$100 increments until whichever of the following occurs first:

- A 20% P&I payment reduction and PMHTI ratio equal to or just below 40% are both achieved
- An MTMLTV ratio as close as possible to, but not below, 80% is achieved; or
- The aggregate forbearance amount equals or is no less than \$100 below the Forbearance Cap

For example, if the Forbearance Cap equals \$30,000, principle is forborne in \$100 increments to an aggregate forbearance amount of \$29,901 to \$30,000, but may not exceed \$30,000 in total forbearance.

If the Forbearance Cap or 80% MTMLTV ratio is reached first, the Borrower will be offered the modification with the maximum permitted forbearance amount provided that the modification still results in a P&I payment that is less than or equal to the Borrower's pre-modification P&I payment. In this circumstance, neither the 20% payment reduction nor 40% PMHTI ratio must be obtained.

(B) Mortgages that are 90 or more days delinquent

The modification terms will be determined in accordance with Section 9206.10(a)(i)(A), excluding the PMHTI ratio component.

(ii) Mortgages with a post-modified MTMLTV ratio less than 80%

Step 1: Arrearages capitalized in accordance with Section 9206.15.

Step 2: The interest rate used to calculate the Trial Period payment and the terms of the modification agreement will be determined in accordance with the interest rate calculations in Section 9206.10(a)(iii).

Step 3: The amortization term will be extended to 480 months from the Modification Effective Date.

(iii) Determining the Freddie Mac Flex Modification® interest rate

Resolve will determine the interest rate that will be used to calculate the Trial Period payment and the terms of the modification agreement using the chart below.

Mortgages with MTMLTV ratios less than 80%	
If the existing Mortgage is:	...then
A fixed-rate Mortgage (including ARMs and Step-Rate Mortgages with no additional interest rate adjustments or steps scheduled)	The existing interest rate on the Mortgage will be used to calculate the Trial Period Plan payment and that same rate will be used to establish the terms of the modification agreement
An ARM or a Step-Rate Mortgage with additional interest rate adjustments or steps scheduled	<p>The lesser of:</p> <ul style="list-style-type: none"> ■ Freddie Mac's modification interest rate in effect and posted on https://sf.freddiemac.com/general/fred-die-mac-modification-interest-rate as of the date the Servicer evaluates and determines the Borrower is eligible for a Trial Period Plan; or ■ The maximum step-rate/lifetime cap note rate to calculate the Trial Period Plan payment <p>The same rate will be used to establish the terms of the modification agreement.</p>
Mortgages with MTMLTV ratios greater than or equal to 80%	
If the existing Mortgage is:	...then
Fixed-rate Mortgage (including ARMs and Step Rate Mortgages with no additional interest rate adjustments or steps scheduled)	<p>The lesser of:</p> <ul style="list-style-type: none"> ■ Freddie Mac's modification interest rate in effect and posted on https://sf.freddiemac.com/general/fred-die-mac-modification-interest-rate as of the date the Servicer evaluates and determines the Borrower is eligible for a Trial Period Plan; or ■ The existing interest rate on the Mortgage to calculate the Trial Period Plan payment <p>The same rate will be used to establish the terms of the modification agreement.</p>

<p>ARM or Step-Rate Mortgage with additional interest rate adjustments or steps scheduled</p>	<p>The lesser of:</p> <ul style="list-style-type: none"> ■ Freddie Mac's modification interest rate in effect and posted on https://sf.freddiemac.com/general/fred-die-mac-modification-interest-rate as of the date the Servicer evaluates and determines the Borrower is eligible for a Trial Period Plan; or ■ The maximum step-rate/lifetime cap note rate to calculate the Trial Period payment <p>The same rate will be used to establish the terms of the modification agreement.</p>
---	--

(iv) Calculating the PMHTI ratio

- **Primary Residence**

If the subject property is a Primary Residence, the PMHTI ratio is the post-modification monthly PITIAS Payment (excluding mortgage insurance), divided by the Borrower's monthly gross income (as defined in Section 9202.3(c))

- **Second homes**

If the subject property is a second home, the post-modification monthly housing expense on the second home (PITIAS Payment excluding mortgage insurance) will be added to the monthly housing expense on the Borrower's Primary Residence, and the combined amount will be divided by the Borrower's gross monthly income

- **Investment Properties**

If the subject property is an Investment Property:

- **Net rental income** on the subject property will be included in the Borrower's gross monthly income for purposes of calculating the monthly housing expense-to-income ratio. When there is net rental income on the subject property, the monthly housing expense component of the ratio would only include the expense on the Borrower's Primary Residence. The income component of the ratio is the Borrower's gross monthly income, which includes the net rental income on the subject property.
- **Net rental loss** on the subject property will be added to the monthly housing expense on the Borrower's Primary Residence, and the combined amount will be divided by the Borrower's gross monthly income.

- If the Borrower is currently not receiving rental income on the subject property, then the post-modification monthly housing expense on the subject property will be added to the monthly housing expense on the Borrower's Primary Residence, and the combined amount will be divided by the Borrower's gross monthly income
- Net rental income (or loss) is determined by subtracting the post-modification monthly debt service (i.e., principal, interest, taxes, insurance, including mortgage insurance and association fees, if applicable) on the property from the amount that is 75% of the monthly gross rental income

(b) Determination of eligibility based on Trial Period payment

For a Flex Modification, the estimated monthly modified P&I payment calculated when the terms of the Trial Period Plan are determined must comply with the applicable P&I payment reduction and PMHTI ratio requirements set forth in Sections 9206.5 and 9206.10.

If the Borrower makes all Trial Period payments timely, the Servicer must modify the Mortgage, even if, due to variances between estimated capitalization amounts and final capitalization amounts, the Flex Modification does not meet the applicable requirements above. When determining eligibility for a Trial Period Plan offer, the Servicer is responsible for ensuring that its estimate of the amounts to be capitalized includes all known amounts.

(c) Resolve

Servicers must use Resolve for all Mortgages for which Borrowers are being evaluated for a Trial Period Plan and modification under this chapter. Servicers represent and warrant that they will only use Resolve for the purpose of modifying Freddie Mac Mortgages and not mortgages owned by other investors. Both the input and output of Resolve is Freddie Mac confidential information that the Servicer must not disclose to third parties, except as authorized by Freddie Mac. Servicers and any Users that use or access Resolve are bound by all of the provisions of the Master System License (see Section 2401.1) and the Servicing Gateway System-Specific License (see Section 2404.2).

Once the Servicer has sufficient information to underwrite the Borrower, the Servicer must access the Resolve application and submit all required data for Borrowers under consideration for a Flex Modification:

- For Borrowers who are current or less than 60 days delinquent, the Servicer must enter the information required for Resolve to make an imminent default determination in accordance with Section 9206.7 and enter the Imminent Default Hardship reason, if applicable, into Resolve

- Upon successful completion of the Trial Period, the Servicer must update the principal balance as of the Modification Effective Date and any applicable fields to reflect the final amounts that must be capitalized

Servicers must confirm that the terms reflected in Resolve for the Trial Period Plan or modification agreement for the Borrower accurately reflect the Servicer's underwriting of the Borrower in accordance with the requirements of this chapter. If a Servicer is unable to complete a submission of a Trial Period Plan or modification agreement via Resolve, the Servicer should contact 800-FREDDIE.

(i) Accuracy of data

Resolve requires the submission of specific data elements in order to return a suggested workout solution. The Servicer represents and warrants that all data input into Resolve is true, complete and accurate and that all data is entered correctly.

(ii) Delegation of authority to the Servicer

The Servicer may not deem Freddie Mac to have reviewed the terms of a Trial Period Plan or modification agreement for compliance with the Servicer's obligations under the Guide or other Purchase Documents or to have approved a Trial Period Plan or modification or their terms based on the Servicer's use of Resolve including, without limitation:

- Resolve's generation of terms for a Trial Period Plan or modification agreement
- Freddie Mac's settlement on its systems of a modification entered into by the Servicer under its delegated authority or expanded delegated authority in accordance with a Freddie Mac approval of an exception, or
- Freddie Mac's notification that the modification has been processed in Freddie Mac's systems via the Loan Modifications Processed report

9206.11: Trial Period Plan requirements (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

A Borrower who is evaluated and determined eligible for a Freddie Mac Flex Modification® must enter into a Trial Period Plan under which the Borrower will be required to remit three monthly payments at an estimated modified payment amount. (See also Section 9206.11(b) for Trial Period extension requirements for Borrowers in bankruptcy.)

The Servicer may utilize an interim month following the end of the Trial Period to facilitate processing of the modification agreement in accordance with Section 9206.16(b). A payment is not required during the interim month.

(a) Processing the Trial Period Plan offer

If the Borrower qualifies for a modification, the Servicer must offer the Borrower a Trial Period Plan.

(i) The Flex Modification Trial Period Plan Notice

Within five days of an evaluation decision, but no later than 30 days following receipt of the complete Borrower Response Package, the Servicer must send the Borrower a Borrower Evaluation Notice indicating the outcome of its decision. If the Borrower is approved for a Flex Modification, the Servicer must send the Borrower a Freddie Mac Flex Modification Trial Period Plan Notice – Based on an Evaluation of a Complete BRP.

The Flex Modification Trial Period Plan Notice communicates the qualification decision to the Borrower and is included in Exhibit 93, Evaluation Notices.

See Section 9206.11(a)(iii) below for additional requirements for Mortgages with post-modification mark-to-market loan-to-value (MTMLTV) ratios less than 80%.

(ii) The Flex Modification Trial Period Plan Solicitation for offers under Section 9206.5(c)

If the Borrower who is eligible under Section 9206.5(c) is approved for an offer for a Flex Modification, the Servicer must send the Borrower a Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP with Exhibit 1191, Freddie Mac Flex Modification® Solicitation Cover Letter, or Exhibit 1191B, Freddie Mac Flex Modification® Solicitation Cover Letter for Day 60 Rate Reset, as applicable, in accordance with the requirements described in Section 9102.5(a). If the Borrower is approved for a streamlined offer for a Flex Modification due to an Eligible Disaster in accordance with the requirements of Section 9206.5(e), the Servicer must send the Borrower the Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP, amended as set forth in Exhibit 93 for Eligible Disasters, and Exhibit 1191A, Freddie Mac Flex Modification® Post-Disaster Forbearance Solicitation Cover Letter.

The Flex Modification Trial Period Plan Notice communicates the qualification decision to the Borrower and is included in Exhibit 93.

(iii) Special requirements for Mortgages with post-modification MTMLTV ratios less than 80%

In addition to the requirements above, the Servicer must ensure the Trial Period Plan Notice for a Borrower whose Mortgage has a post-modified MTMLTV ratio less than 80% includes a statement reminding the Borrower that once the Mortgage has been modified, the Borrower can always pay more than the contractual payment without penalty if he or she desires to pay down the debt faster.

(iv) The Disaster Relief Modification Trial Period Plan Notice

If the Borrower is approved for a Disaster Relief Modification in accordance with the requirements in Section 9206.4, the Servicer must send the Borrower a Disaster Relief Modification Trial Period Plan Notice.

The Disaster Relief Modification Trial Period Plan Notice communicates the qualification decision to the Borrower and is included in Exhibit 93.

(v) Authorized changes to Trial Period Plan Notices

The Servicer may amend a Trial Period Plan Notice as necessary to request any Borrower cash contribution the Borrower promises to pay for expenses and delinquent amounts not capitalized, if applicable. Servicers may also amend a Trial Period Plan to condition the approval of the mortgage modification on obtaining any necessary court and/or trustee approvals for Borrowers in bankruptcy and to address situations where a Borrower files for bankruptcy during the Trial Period. In addition, Servicers must amend the Trial Period Plan Notice as necessary to ensure compliance with applicable laws, rules and regulations.

If the Borrower previously received a Chapter 7 bankruptcy discharge, but did not reaffirm the mortgage debt under applicable law, the Servicer must add the following language to the Trial Period Plan Notice under the section “Additional Trial Period Plan Information and Legal Notices:”

If you previously received a Chapter 7 bankruptcy discharge, but did not reaffirm the mortgage debt under applicable law:

- *You agree that you were discharged in a Chapter 7 bankruptcy proceeding subsequent to the execution of the Loan Documents. Based on this representation, Lender agrees that you will not have personal liability on the debt pursuant to this Trial Period Plan.*

If under applicable law, a Servicer may not establish an Escrow account, the Servicer must delete the following language from the Trial Period Plan Notice:

Page 3:

Your new monthly payment will include an escrow for property taxes, hazard insurance and other escrowed expenses. If the cost of your homeowners insurance,

property tax assessment or other escrowed expenses increases, your monthly payment will increase as well.

Page 3:

If your monthly payment did not include escrows for taxes and insurance, you are now required to do so:

- You agree that any prior waiver that allowed you to pay directly for taxes and insurance is revoked. You agree to establish an escrow account and to pay required escrows into that account.

(vi) Effective Date of the Trial Period Plan

When preparing the Trial Period Plan Notice, the Servicer must determine the Trial Period Plan Effective Date and the due date of the first Trial Period payment in accordance with the following instructions:

If the Servicer sends the Trial Period Plan Notice to the Borrower:	... then the Trial Period Plan Effective Date and the due date of the first Trial Period payment is:
On or before the 15th of the month	The first day of the next month
After the 15th of the month	The first day of the month after the next month

For example, if the Servicer sends the Trial Period Plan to the Borrower on June 10, the Trial Period Plan Effective Date and first Trial Period payment due dates are both July 1. If the Servicer sends the Trial Period Plan to the Borrower on June 17, the Trial Period Plan Effective Date and first Trial Period payment due date are both August 1.

Notwithstanding the requirement above, after the Trial Period Plan Notice was sent to the Borrower, the Servicer may commence the Trial Period on the first day of the next month if the Borrower consents to commence the Trial Period earlier than the effective date requirements set forth above.

If the Borrower fails to submit the first Trial Period payment on or before the last day of the first Trial Period month (e.g., on or before July 31st in the example above) the Servicer **must** consider the Trial Period Plan offer to be rejected by the Borrower.

(vii) Borrower acceptance of offer

A Borrower's notification to the Servicer indicating an intent to accept a Trial Period Plan offer within 14 days of the date of the offer constitutes sufficient notice solely for purposes of suspending foreclosure referral or sale in accordance with Sections 9301.6, 9301.7 and 9301.28.

For purposes of legal acceptance, Borrowers are not required to sign or return the Trial Period Plan Notice. Timely receipt of the first payment due under the Trial Period Plan Notice is evidence of the Borrower's acceptance of the Trial Period Plan terms and conditions. The Servicer must receive the Borrower's first Trial Period payment on or before the last day of the month in which the Trial Period Plan Effective Date occurs (Trial Period Plan Offer Deadline). Otherwise, the Servicer must consider the Trial Period Plan offer to have expired.

(b) Requirements during the Trial Period

The first Trial Period payment is due by the Trial Period Plan Offer Deadline. The Servicer must require the Borrower to remit timely payments. Each Trial Period payment must be received no later than the last day of the month in which the Trial Period payment is due. Borrowers who fail to make timely Trial Period payments are considered to have failed the Trial Period. Servicers must use good business judgment in determining whether Trial Period payments were received timely or if mitigating circumstances caused the payment to be late. Exceptions must be documented in the Servicer's records.

Although the Borrower may make scheduled Trial Period payments earlier than expected, the payments may not result in acceleration of the Modification Effective Date.

During the Trial Period, the Servicer must:

- Continue to report to Freddie Mac in accordance with the investor reporting requirements set forth in the Guide, which include the advancing of forecasted scheduled interest (and principal, if applicable) under the existing Mortgage terms to Freddie Mac, provided that the Servicer has not inactivated the Mortgage
- Report any specific loan-level activity via EDR as provided in Sections 9102.7 and 9206.13(a)
- Credit to an unapplied or suspense funds account, payments made by the Borrower during the Trial Period. Once enough funds have accumulated in the unapplied or suspense funds account to satisfy the oldest payment due under the existing Mortgage terms (including applying the portion of the Trial Period payment allocable to escrowed items to the existing or newly established Escrow account provided those amounts were due at the time of the oldest delinquent payment due date), the Servicer must apply the payment in accordance with the current Note and Security Instrument, or prior modification agreement, if applicable.

(i) Recommencement and/or initiation of collection efforts and foreclosure actions

A Borrower is considered to have failed a Trial Period Plan if the Borrower fails to:

- Make a Trial Period payment by the last day of the month in which the payment is due

- Comply with the terms of the Trial Period Plan

If the Borrower fails the Trial Period Plan per the above requirements or the plan is canceled because the Borrower failed to execute and return the modification agreement within the applicable 14-day time frame set forth in Section 9206.16, the Servicer must begin or recommence collection efforts in accordance with Section 9102.4 or, if applicable, recommence any suspended foreclosure action or proceeding.

After determining a Borrower has failed or the Trial Period was canceled according to the requirements under this Section 9206.11(b), the Servicer must report any initiated or resumed collection or foreclosure activity through EDR. See Section 9102.7 for information on EDR.

Late charges may accrue during the Trial Period subject to the requirements of Section 9102.2. However, all accrued and unpaid late charges must be waived in the event the Mortgage is modified.

(ii) Changes to tax and insurance premium payments

If there are changes in a Borrower's tax and insurance premium payments after the Borrower has been qualified for a Trial Period Plan, the Servicer is not required to re-qualify the Borrower based on the subsequent changes in taxes and insurance. However, the Servicer should provide written notice to the Borrower that explains the impact of the new Escrow payment on the modification.

(iii) Borrowers in Trial Period Plans

If a Borrower was in a Trial Period Plan prior to entering into a forbearance plan, the Borrower may be re-evaluated for a new Trial Period Plan within 30 days prior to or upon completion of the forbearance plan. Servicers must not resume or restart the terms of the previous Trial Period Plan prior to the start of the forbearance plan. Instead, the Servicer must evaluate the Borrower based on the status of the Mortgage at the time of the new evaluation and, if the Borrower meets all eligibility requirements, the Servicer must send a new Trial Period Plan offer to commence on or after the completion of the forbearance plan.

For any subsequent modification submissions, the Trial Period Plan that the Borrower was in prior to the start of the forbearance plan will not be considered a failed Trial Period Plan for a Flex Modification evaluation.

(iv) Borrowers filing for bankruptcy during the Trial Period

Borrowers who are in a Trial Period Plan and subsequently file for bankruptcy may not be denied a modification on the basis of the bankruptcy filing. The Servicer and its counsel must work with the Borrower or Borrower's counsel to obtain any court and/or

trustee approvals required in accordance with local court rules and procedures. Servicers should extend the Trial Period Plan as necessary to accommodate delays in obtaining court approvals or receiving a full remittance of the Borrower's Trial Period payments when they are made to a trustee, but they must not extend the Trial Period beyond nine months, resulting in a total 12-month Trial Period. In the event of a Trial Period extension, the Borrower must make a Trial Period payment for each month of the Trial Period, including any extension month, in order to remain eligible for a modification. See Section 9206.13(a) for information on reporting an extended Trial Period Plan via EDR.

(v) Chapter 13 bankruptcy

When a Borrower in an active Chapter 13 bankruptcy is in a Trial Period Plan and the Borrower has made post-petition payments on the Mortgage in the amount required by the Trial Period Plan, a Servicer must not object to confirmation of a Borrower's Chapter 13 plan, move for relief from the automatic bankruptcy stay, or move for dismissal of the Chapter 13 case on the basis that the Borrower paid only the amounts due under the Trial Period Plan, as opposed to the non-modified Mortgage payments.

(vi) Chapter 7 bankruptcy

Borrowers who have received a Chapter 7 bankruptcy discharge in a case involving the Mortgage and who did not reaffirm the Mortgage debt under applicable law, are eligible for a modification.

9206.11: Trial Period Plan requirements (Future effective date 08/31/23)

A Borrower who is evaluated and determined eligible for a Freddie Mac Flex Modification® must enter into a Trial Period Plan under which the Borrower will be required to remit three monthly payments at an estimated modified payment amount. (See also Section 9206.11(b) for Trial Period extension requirements for Borrowers in bankruptcy.)

The Servicer may utilize an interim month following the end of the Trial Period to facilitate processing of the modification agreement in accordance with Section 9206.16(b). A payment is not required during the interim month.

(a) Processing the Trial Period Plan offer

If the Borrower qualifies for a modification, the Servicer must offer the Borrower a Trial Period Plan.

(i) The Flex Modification Trial Period Plan Notice

Within five days of an evaluation decision, but no later than 30 days following receipt of the complete Borrower Response Package, the Servicer must send the Borrower a Borrower Evaluation Notice indicating the outcome of its decision. If the Borrower is approved for a Flex Modification, the Servicer must send the Borrower a Freddie Mac Flex Modification Trial Period Plan Notice – Based on an Evaluation of a Complete BRP.

The Flex Modification Trial Period Plan Notice communicates the qualification decision to the Borrower and is included in Exhibit 93, Evaluation Notices.

See Section 9206.11(a)(iii) below for additional requirements for Mortgages with post-modification mark-to-market loan-to-value (MTMLTV) ratios less than 80%.

(ii) The Flex Modification Trial Period Plan Solicitation for offers under Section 9206.5(c)

If the Borrower who is eligible under Section 9206.5(c) is approved for an offer for a Flex Modification, the Servicer must send the Borrower a Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP with Exhibit 1191, Freddie Mac Flex Modification® Solicitation Cover Letter, or Exhibit 1191B, Freddie Mac Flex Modification® Solicitation Cover Letter for Day 60 Rate Reset, as applicable, in accordance with the requirements described in Section 9102.5(a). If the Borrower is approved for a streamlined offer for a Flex Modification due to an Eligible Disaster in accordance with the requirements of Section 9206.5(e), the Servicer must send the Borrower the Flex Modification Trial Period Plan Solicitation Offer – Not Based on an Evaluation of a BRP, amended as set forth in Exhibit 93 for Eligible Disasters, and Exhibit 1191A, Freddie Mac Flex Modification® Post-Disaster Forbearance Solicitation Cover Letter.

The Flex Modification Trial Period Plan Notice communicates the qualification decision to the Borrower and is included in Exhibit 93.

(iii) Special requirements for Mortgages with post-modification MTMLTV ratios less than 80%

In addition to the requirements above, the Servicer must ensure the Trial Period Plan Notice for a Borrower whose Mortgage has a post-modified MTMLTV ratio less than 80% includes a statement reminding the Borrower that once the Mortgage has been modified, the Borrower can always pay more than the contractual payment without penalty if he or she desires to pay down the debt faster.

(iv) The Disaster Relief Modification Trial Period Plan Notice

If the Borrower is approved for a Disaster Relief Modification in accordance with the requirements in Section 9206.4, the Servicer must send the Borrower a Disaster Relief Modification Trial Period Plan Notice.

The Disaster Relief Modification Trial Period Plan Notice communicates the qualification decision to the Borrower and is included in Exhibit 93.

(v) Authorized changes to Trial Period Plan Notices

The Servicer may amend a Trial Period Plan Notice as necessary to request any Borrower cash contribution the Borrower promises to pay for expenses and delinquent amounts not capitalized, if applicable. Servicers may also amend a Trial Period Plan to condition the approval of the mortgage modification on obtaining any necessary court and/or trustee approvals for Borrowers in bankruptcy and to address situations where a Borrower files for bankruptcy during the Trial Period. In addition, Servicers must amend the Trial Period Plan Notice as necessary to ensure compliance with applicable laws, rules and regulations.

If the Borrower previously received a Chapter 7 bankruptcy discharge, but did not reaffirm the mortgage debt under applicable law, the Servicer must add the following language to the Trial Period Plan Notice under the section “Additional Trial Period Plan Information and Legal Notices:”

If you previously received a Chapter 7 bankruptcy discharge, but did not reaffirm the mortgage debt under applicable law:

- *You agree that you were discharged in a Chapter 7 bankruptcy proceeding subsequent to the execution of the Loan Documents. Based on this representation, Lender agrees that you will not have personal liability on the debt pursuant to this Trial Period Plan.*

If under applicable law, a Servicer may not establish an Escrow account, the Servicer must delete the following language from the Trial Period Plan Notice:

Page 3:

Your new monthly payment will include an escrow for property taxes, hazard insurance and other escrowed expenses. If the cost of your homeowners insurance, property tax assessment or other escrowed expenses increases, your monthly payment will increase as well.

Page 3:

If your monthly payment did not include escrows for taxes and insurance, you are now required to do so:

- You agree that any prior waiver that allowed you to pay directly for taxes and insurance is revoked. You agree to establish an escrow account and to pay required escrows into that account.

(vi) Effective Date of the Trial Period Plan

When preparing the Trial Period Plan Notice, the Servicer must determine the Trial Period Plan Effective Date and the due date of the first Trial Period payment in accordance with the following instructions:

If the Servicer sends the Trial Period Plan Notice to the Borrower:	... then the Trial Period Plan Effective Date and the due date of the first Trial Period payment is:
On or before the 15th of the month	The first day of the next month
After the 15th of the month	The first day of the month after the next month

For example, if the Servicer sends the Trial Period Plan to the Borrower on June 10, the Trial Period Plan Effective Date and first Trial Period payment due dates are both July 1. If the Servicer sends the Trial Period Plan to the Borrower on June 17, the Trial Period Plan Effective Date and first Trial Period payment due date are both August 1.

Notwithstanding the requirement above, after the Trial Period Plan Notice was sent to the Borrower, the Servicer may commence the Trial Period on the first day of the next month if the Borrower consents to commence the Trial Period earlier than the effective date requirements set forth above.

If the Borrower fails to submit the first Trial Period payment on or before the last day of the first Trial Period month (e.g., on or before July 31st in the example above) the Servicer **must** consider the Trial Period Plan offer to be rejected by the Borrower.

(vii) Borrower acceptance of offer

A Borrower's notification to the Servicer indicating an intent to accept a Trial Period Plan offer within 14 days of the date of the offer constitutes sufficient notice solely for purposes of suspending foreclosure referral or sale in accordance with Sections 9301.6, 9301.7 and 9301.28.

For purposes of legal acceptance, Borrowers are not required to sign or return the Trial Period Plan Notice. Timely receipt of the first payment due under the Trial Period Plan Notice is evidence of the Borrower's acceptance of the Trial Period Plan terms and conditions. The Servicer must receive the Borrower's first Trial Period payment on or before the last day of the month in which the Trial Period Plan Effective Date occurs (Trial Period Plan Offer Deadline). Otherwise, the Servicer must consider the Trial Period Plan offer to have expired.

(b) Requirements during the Trial Period

The first Trial Period payment is due by the Trial Period Plan Offer Deadline. The Servicer must require the Borrower to remit timely payments. Each Trial Period payment must be received no later than the last day of the month in which the Trial Period payment is due. Borrowers who fail to make timely Trial Period payments are considered to have failed the Trial Period. Servicers must use good business judgment in determining whether Trial Period payments were received timely or if mitigating circumstances caused the payment to be late. Exceptions must be documented in the Servicer's records.

Although the Borrower may make scheduled Trial Period payments earlier than expected, the payments may not result in acceleration of the Modification Effective Date.

During the Trial Period, the Servicer must:

- Continue to report to Freddie Mac in accordance with the investor reporting requirements set forth in the Guide, which include the advancing of forecasted scheduled interest (and principal, if applicable) under the existing Mortgage terms to Freddie Mac, provided that the Servicer has not inactivated the Mortgage
- Credit to an unapplied or suspense funds account, payments made by the Borrower during the Trial Period. Once enough funds have accumulated in the unapplied or suspense funds account to satisfy the oldest payment due under the existing Mortgage terms (including applying the portion of the Trial Period payment allocable to escrowed items to the existing or newly established Escrow account provided those amounts were due at the time of the oldest delinquent payment due date), the Servicer must apply the payment in accordance with the current Note and Security Instrument, or prior modification agreement, if applicable.

(vii) Recommencement and/or initiation of collection efforts and foreclosure actions

A Borrower is considered to have failed a Trial Period Plan if the Borrower fails to:

- Make a Trial Period payment by the last day of the month in which the payment is due
- Comply with the terms of the Trial Period Plan

If the Borrower fails the Trial Period Plan per the above requirements or the plan is canceled because the Borrower failed to execute and return the modification agreement within the applicable 14-day time frame set forth in Section 9206.16, the Servicer must begin or recommence collection efforts in accordance with Section 9102.4 or, if applicable, recommence any suspended foreclosure action or proceeding.

After determining a Borrower has failed or the Trial Period was canceled according to the requirements under this Section 9206.11(b), the Servicer must report any initiated or resumed collection or foreclosure activity through EDR. See Section 9102.7 for information on EDR.

Late charges may accrue during the Trial Period subject to the requirements of Section 9102.2. However, all accrued and unpaid late charges must be waived in the event the Mortgage is modified.

(viii) Changes to tax and insurance premium payments

If there are changes in a Borrower's tax and insurance premium payments after the Borrower has been qualified for a Trial Period Plan, the Servicer is not required to re-qualify the Borrower based on the subsequent changes in taxes and insurance. However, the Servicer should provide written notice to the Borrower that explains the impact of the new Escrow payment on the modification.

(ix) Borrowers in Trial Period Plans

If a Borrower was in a Trial Period Plan prior to entering into a forbearance plan, the Borrower may be re-evaluated for a new Trial Period Plan within 30 days prior to or upon completion of the forbearance plan. Servicers must not resume or restart the terms of the previous Trial Period Plan prior to the start of the forbearance plan. Instead, the Servicer must evaluate the Borrower based on the status of the Mortgage at the time of the new evaluation and, if the Borrower meets all eligibility requirements, the Servicer must send a new Trial Period Plan offer to commence on or after the completion of the forbearance plan.

For any subsequent modification submissions, the Trial Period Plan that the Borrower was in prior to the start of the forbearance plan will not be considered a failed Trial Period Plan for a Flex Modification evaluation.

(x) Borrowers filing for bankruptcy during the Trial Period

Borrowers who are in a Trial Period Plan and subsequently file for bankruptcy may not be denied a modification on the basis of the bankruptcy filing. The Servicer and its counsel must work with the Borrower or Borrower's counsel to obtain any court and/or trustee approvals required in accordance with local court rules and procedures. Servicers should extend the Trial Period Plan as necessary to accommodate delays in obtaining court approvals or receiving a full remittance of the Borrower's Trial Period payments when they are made to a trustee, but they must not extend the Trial Period beyond nine months, resulting in a total 12-month Trial Period. In the event of a Trial Period extension, the Borrower must make a Trial Period payment for each month of the Trial Period, including any extension month, in order to remain eligible for a modification. See Section 9206.13(a) for information on reporting an extended Trial Period Plan via EDR.

(xi) Chapter 13 bankruptcy

When a Borrower in an active Chapter 13 bankruptcy is in a Trial Period Plan and the Borrower has made post-petition payments on the Mortgage in the amount required by the Trial Period Plan, a Servicer must not object to confirmation of a Borrower's Chapter 13 plan, move for relief from the automatic bankruptcy stay, or move for dismissal of the Chapter 13 case on the basis that the Borrower paid only the amounts due under the Trial Period Plan, as opposed to the non-modified Mortgage payments.

(xii) Chapter 7 bankruptcy

Borrowers who have received a Chapter 7 bankruptcy discharge in a case involving the Mortgage and who did not reaffirm the Mortgage debt under applicable law, are eligible for a modification.

9206.12: Modified Mortgage conditions (10/20/21)

The Servicer must ensure that the modified Mortgage:

1. Retains its First Lien position and continues to be fully enforceable in accordance with its terms at the time of modification, throughout its modified term, and during any bankruptcy or foreclosure proceeding involving the Mortgage. The Servicer must record the modification agreement only when doing so is necessary to ensure its compliance with this First Lien retention and modification enforcement requirement. If recordation is not immediately necessary but may be required in the future to comply with this First Lien retention and modification enforcement requirement, the Servicer must have the modification agreement in recordable form. The modification agreement must be executed by the Borrower(s).

Notwithstanding the foregoing, the Servicer must:

- (a) Ensure the following are current, as applicable: property taxes ground rents and assessments or other charges that, if delinquent, are or may become First Liens on the property or that if not paid would result in the subordination of Freddie Mac's interests. (See Section 9301.27 regarding expenses that may become First Liens on the property.)
- (b) Obtain a title endorsement or similar title insurance product issued by a title insurance company prior to or at the time of the modification whenever it is necessary to record the modification agreement to retain the modified Mortgage's First Lien position. For Cooperative Share Loans recognized as personal property, refer to Section 8801.1(f)(i) regarding certain Servicer warranties required in the event of a loan modification.
- (c) Obtain subordination agreements from any junior lienholders, if required by the title insurance company
- (d) Record the executed loan modification agreement, even if the jurisdiction where the property is located does not require the Servicer to do so, whenever recordation is

necessary to retain the modified Mortgage's First Lien position, if, in the future, recordation is necessary to enforce the terms of the modified Mortgage (e.g., pre-foreclosure), or if it contains provisions related to the assignment of leases and rents

2. Retains all living signers on the existing Note as obligors. Except as otherwise provided in Section 9206.13(e), all Borrowers and any other signatory to the Security Instrument must sign the modification agreement and all other required documents.
3. Contains a due-on-transfer provision if the existing Mortgage documents do not contain such a provision (see Exhibit 78, Modification Due on Transfer Rider, for an example of a due-on-transfer rider)
4. Does not have any secondary financing included in the UPB
5. Does not provide any cash-out to the Borrower
6. Except as set forth in Section 9206.5(e), has an Escrow account (see Chapter 8201) even if the existing Mortgage does not have an Escrow account
7. Retains mortgage insurance coverage if the existing Mortgage has such coverage, and the loss coverage percentage must remain the same
8. Contains an assignment of rents rider if the property is a 1-unit Investment Property or a 2- to 4-unit property (see Exhibit 77 for an example of an assignment of rents rider)
9. Retains any existing credit enhancement, such as an indemnification agreement. (Note: Mortgages subject to recourse are not eligible for a Freddie Mac Flex Modification[®].) If the Servicer is not the provider of the credit enhancement, it must obtain written approval from the institution providing the enhancement.
10. Contains a Modification Bankruptcy Disclosure Rider for a Borrower who has been discharged from the Freddie Mac debt (see Exhibit 78A, Modification Bankruptcy Disclosure Rider, for an example of the rider)
11. Is a fully amortizing fixed-rate Mortgage. The Mortgage after modification must not be an interest-only Mortgage, a bi-weekly Mortgage or a daily simple interest Mortgage.
12. Has flood insurance coverage if the property is located in an area that has been identified by the Director of the Federal Emergency Management Agency (FEMA) as a Special Flood Hazard Area (SFHA). The Servicer must determine if the area where the property is located has been identified as a SFHA. This step must be taken even if the property was not located in a SFHA when the Mortgage was originated. If the property is located in a SFHA, then the Servicer must require that the Borrower purchase flood insurance as required in Section 8202.3.

9206.13: Other modification conditions and requirements (04/12/23)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

This section describes the following requirements for processing a Freddie Mac Flex Modification®:

- EDR
- MI approval
- Servicing Spread
- Escrows
- Execution of documents
- Texas Equity Section 50(a)(6) Mortgages

(a) EDR

Servicers must report specific Flex Modification activity to Freddie Mac as follows:

- **BF – “Standard Modification Trial Period.”** Report default action code BF to notify Freddie Mac that the Borrower has entered into a Trial Period for the Flex Modification. Servicers must report this code along with the Trial Period Plan Effective Date each month during the Trial Period. In addition, Servicers must report this code if they elect to use the interim month option under the Trial Period Plan or extend the Trial Period Plan to accommodate a Borrower’s bankruptcy filing. See Section 9206.16(b) for information on the interim month option and Section 9206.11(b) for information on extending a Borrower’s Trial Period Plan when the Borrower is in bankruptcy; or
- **HD – “Modification in Review.”** Report default action code HD to notify Freddie Mac that the Borrower is being evaluated for a modification. Servicers must report this code along with the date they began reviewing the Borrower for the modification. Report this code one time in the month following the month in which the evaluation took place.
- **HE – “Ineligible/Cancel Modification.”** Report default action code HE to notify Freddie Mac that the Borrower is ineligible for a modification or the Trial Period has been canceled. Servicers must report this code along with the date they made the

decision. Report this code one time in the month following the month in which the decision took place.

(b) MI approval

Servicers must obtain MI approval of a modification before offering the Borrower a Trial Period Plan. Additionally, if the Borrower cannot pay all amounts due plus the modification expenses, the Servicer must inquire if the MI will make an advance claim payment to pay all or part of the amounts due.

(c) Servicing Spread

Upon modification, the Servicing Spread for Servicing a modified mortgage is equal to the lesser of (i) the current Servicing Spread on the modified Mortgage, or (ii) 25 basis points per annum multiplied by the interest-bearing UPB. For Mortgages with a partial principal forbearance, the Servicing Spread is based on the interest-bearing UPB.

(d) Escrows

Servicers must establish an Escrow account on the Mortgage if an Escrow account is not currently maintained on the Mortgage, provided its establishment is not prohibited under applicable federal, State or local law.

Prior to or during the Servicer's determination of the Borrower's eligibility for a modification, the Servicer must perform an Escrow analysis in accordance with the Real Estate Settlement Procedures Act (RESPA) and any applicable federal, State, or local law. The Servicer must then establish the Escrow account at the time the Trial Period Plan becomes effective and provide any disclosures required by applicable federal, State, or local law within the time periods prescribed by such laws. In addition:

1. Any advances previously made by the Servicer or any advances that will be made during the Trial Period to pay property taxes or insurance premiums must be capitalized in the modified UPB as long as they were or will be paid to third parties prior to the Modification Effective Date.
2. For taxes and insurance premiums that are not yet due before the Modification Effective Date, the Servicer must determine the amount needed to establish the escrow account (Escrow shortage) that, together with the monthly Escrow payment included in the modified monthly Mortgage payment, will be sufficient to pay all future taxes and insurance premiums when they fall due. If the Borrower is unable to pay the Escrow shortage as a lump sum payment, then the Borrower must pay the shortage as part of the monthly payment on the modified Mortgage ("Project Monthly Escrow Shortage Payments") as set forth in Section 9206.15(b). This amount may not be capitalized in the UPB of the Mortgage.

3. Once the Escrow account is established, the Borrower must continue to make monthly Escrow payments, even if the Borrower fails to comply with the Trial Period Plan and the Mortgage subsequently reinstates.

(e) Execution of documents

The Servicer must require all Borrowers and any other signatory to the Security Instrument to sign the modification agreement and all other required documents to qualify for a modification except the following:

- A Borrower, co-Borrower or any signatory to the Security Instrument who is deceased, as evidenced by a death certificate, or an obituary or newspaper article reporting the death
- A Borrower, co-Borrower or any signatory to the Security Instrument who is divorced or legally separated from another party, as evidenced by a divorce decree signed by the court or court filed separation agreement, except for the Borrower or co-Borrower retaining possession and title to the property
- A Borrower, co-Borrower or any signatory to the Security Instrument who is unrelated by marriage, civil union or similar domestic partnership under applicable law and who purchased or owned the property and has since vacated and no longer occupies the property, provided the remaining Borrower submits a copy of a recorded quit claim deed evidencing that the departed party has relinquished all rights to the property; or
- Any signatory to a Security Instrument who is not a Borrower obligated on the Note provided the Security Instrument contains a provision that authorizes any Borrower to modify the terms of the Security Instrument or the Note without such signatory's consent

Servicers may evaluate requests on a case-by-case basis when the Borrower is unable to sign due to circumstances such as mental incapacity, military deployment, etc.

For Mortgages secured by a property owned by an eligible Living Trust all Flex Modification-related documents must be executed by the Borrower as follows:

- In his or her individual capacity; and
- By the trustee on behalf of the Living Trust

(f) Texas Equity Section 50(a)(6) Mortgages

When the Mortgaged Premises is secured by a Texas Equity Section 50(a)(6) Mortgage:

- If the Borrower is eligible and qualifies for a Trial Period Plan and/or modification, the Servicer must offer the Borrower a Trial Period Plan and/or modification in accordance with Freddie Mac's requirements in Chapters 9205 and 9206

- If the Servicer receives Borrower notification stating that the terms of the modification agreement do not comply with the provisions of Article XVI Section, 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:
 - Freddie Mac Loan Number
 - Servicer Loan Number
 - Transaction type (i.e., Texas Home Equity modification)
 - Accounting Cycle in which Freddie Mac settled the workout
 - Servicer's analysis (i.e., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)
- Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution

9206.13: Other modification conditions and requirements (Future effective date 08/31/23)

This section describes the following requirements for processing a Freddie Mac Flex Modification[®]:

- EDR
- MI approval
- Servicing Spread
- Escrows
- Execution of documents
- Texas Equity Section 50(a)(6) Mortgages

(a) EDR

Servicers may report specific Flex Modification activity to Freddie Mac as follows:

- **BF – “Standard Modification Trial Period.”** Report default action code BF to notify Freddie Mac that the Borrower has entered into a Trial Period for the Flex Modification. Servicers may report this code along with the Trial Period Plan Effective Date each month during the Trial Period. In addition, Servicers may report this code if they elect to use the interim month option under the Trial Period Plan or extend the Trial Period Plan to accommodate a Borrower’s bankruptcy filing. See Section 9206.16(b) for information on the interim month option and Section 9206.11(b) for information on extending a Borrower’s Trial Period Plan when the Borrower is in bankruptcy; or
- **HD – “Modification in Review.”** Report default action code HD to notify Freddie Mac that the Borrower is being evaluated for a modification. Servicers may report this code along with the date they began reviewing the Borrower for the modification. Report this code one time in the month following the month in which the evaluation took place.
- **HE – “Ineligible/Cancel Modification.”** Report default action code HE to notify Freddie Mac that the Borrower is ineligible for a modification or the Trial Period has been canceled. Servicers may report this code along with the date they made the decision. Report this code one time in the month following the month in which the decision took place.

(b) MI approval

Servicers must obtain MI approval of a modification before offering the Borrower a Trial Period Plan. Additionally, if the Borrower cannot pay all amounts due plus the modification expenses, the Servicer must inquire if the MI will make an advance claim payment to pay all or part of the amounts due.

(c) Servicing Spread

Upon modification, the Servicing Spread for Servicing a modified mortgage is equal to the lesser of (i) the current Servicing Spread on the modified Mortgage, or (ii) 25 basis points per annum multiplied by the interest-bearing UPB. For Mortgages with a partial principal forbearance, the Servicing Spread is based on the interest-bearing UPB.

(d) Escrows

Servicers must establish an Escrow account on the Mortgage if an Escrow account is not currently maintained on the Mortgage, provided its establishment is not prohibited under applicable federal, State or local law.

Prior to or during the Servicer’s determination of the Borrower’s eligibility for a modification, the Servicer must perform an Escrow analysis in accordance with the Real Estate Settlement Procedures Act (RESPA) and any applicable federal, State, or local law. The Servicer must then establish the Escrow account at the time the Trial Period Plan becomes effective and provide any disclosures required by applicable federal, State, or local law within the time periods prescribed by such laws. In addition:

1. Any advances previously made by the Servicer or any advances that will be made during the Trial Period to pay property taxes or insurance premiums must be capitalized in the modified UPB as long as they were or will be paid to third parties prior to the Modification Effective Date.
2. For taxes and insurance premiums that are not yet due before the Modification Effective Date, the Servicer must determine the amount needed to establish the escrow account (Escrow shortage) that, together with the monthly Escrow payment included in the modified monthly Mortgage payment, will be sufficient to pay all future taxes and insurance premiums when they fall due. If the Borrower is unable to pay the Escrow shortage as a lump sum payment, then the Borrower must pay the shortage as part of the monthly payment on the modified Mortgage (“Project Monthly Escrow Shortage Payments”) as set forth in Section 9206.15(b). This amount may not be capitalized in the UPB of the Mortgage.
3. Once the Escrow account is established, the Borrower must continue to make monthly Escrow payments, even if the Borrower fails to comply with the Trial Period Plan and the Mortgage subsequently reinstates.

(e) Execution of documents

The Servicer must require all Borrowers and any other signatory to the Security Instrument to sign the modification agreement and all other required documents to qualify for a modification except the following:

- A Borrower, co-Borrower or any signatory to the Security Instrument who is deceased, as evidenced by a death certificate, or an obituary or newspaper article reporting the death
- A Borrower, co-Borrower or any signatory to the Security Instrument who is divorced or legally separated from another party, as evidenced by a divorce decree signed by the court or court filed separation agreement, except for the Borrower or co-Borrower retaining possession and title to the property
- A Borrower, co-Borrower or any signatory to the Security Instrument who is unrelated by marriage, civil union or similar domestic partnership under applicable law and who purchased or owned the property and has since vacated and no longer occupies the property, provided the remaining Borrower submits a copy of a recorded quit claim deed evidencing that the departed party has relinquished all rights to the property; or
- Any signatory to a Security Instrument who is not a Borrower obligated on the Note provided the Security Instrument contains a provision that authorizes any Borrower to modify the terms of the Security Instrument or the Note without such signatory’s consent

Servicers may evaluate requests on a case-by-case basis when the Borrower is unable to sign due to circumstances such as mental incapacity, military deployment, etc.

For Mortgages secured by a property owned by an eligible Living Trust all Flex Modification-related documents must be executed by the Borrower as follows:

- In his or her individual capacity; and
- By the trustee on behalf of the Living Trust

(f) Texas Equity Section 50(a)(6) Mortgages

When the Mortgaged Premises is secured by a Texas Equity Section 50(a)(6) Mortgage:

- If the Borrower is eligible and qualifies for a Trial Period Plan and/or modification, the Servicer must offer the Borrower a Trial Period Plan and/or modification in accordance with Freddie Mac's requirements in Chapters 9205 and 9206
- If the Servicer receives Borrower notification stating that the terms of the modification agreement do not comply with the provisions of Article XVI Section, 50(a)(6) of the Texas Constitution, the Servicer must notify Freddie Mac within seven Business Days of receipt of such objection or complaint via Freddie Mac Servicing Data Corrections and include the following:
 - Freddie Mac Loan Number
 - Servicer Loan Number
 - Transaction type (i.e., Texas Home Equity modification)
 - Accounting Cycle in which Freddie Mac settled the workout
 - Servicer's analysis (i.e., Borrower complaint related to Section 50(a)(6) of the Texas Constitution)
- Upon receipt of Freddie Mac's instructions, the Servicer must comply with any required response time frames to claims of defects and any other complaint in accordance with Section 8104.1 and the Texas Constitution

9206.14: Loan modification expenses (03/02/16)

Subject to applicable law, loan modification expenses may include, but are not limited to:

1. Notary fees
2. Recordation fees if they meet the requirements in Section 9206.12

3. Title report according to the requirements of Section 9206.12. To reduce the expenses, order any required title report from a vendor that is an agent of the current title insurer, when possible.
4. Updated title endorsement or a new title insurance policy according to the requirements of Section 9206.12
5. Legal and settlement fees
6. Property inspection
7. BPO cost, if a BPO is used as the property valuation. See Section 9202.19 for BPO cost details.

The Servicer may not charge the Borrower any processing fee or other administrative fee in connection with the processing of a loan modification.

If the Servicer does not modify the Mortgage, the Servicer must refund to the Borrower all prepaid, but unused expense funds.

9206.15: Expenses, delinquent amounts, capitalization rules and expense reimbursements for modifications (03/01/22)

(a) Expenses and delinquent amounts

Whenever possible the Borrower must pay, subject to applicable federal, State, and local law and the Mortgage, the following expenses and delinquent amounts in the form of a cash contribution as a condition of the modification:

- Delinquent accrued interest
- Expenses paid to a third party specifically related to the loan modification (e.g., title costs, not to exceed the reimbursable expense limits in Exhibit 57A, Approved Attorney Fees and Title Expenses, notary fees, recordation fees, if applicable, and credit report fees)
- Funds advanced by the Servicer, or to be advanced and paid to a third party, prior to the date the Borrower executes the loan modification agreement for the payment of any property taxes and property and mortgage insurance premiums
- Incurred foreclosure costs, including attorney fees and title costs incurred as part of the foreclosure process, not to exceed the reimbursable expense limits in Exhibit 57A

- Property preservation expenses and property inspection fees, not to exceed the reimbursable limits in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts, and further subject to limitations on the amount or frequency of inspections under applicable federal, State or local law
- Any other expenses that were advanced and paid to a third party related to the preservation of Freddie Mac's lien priority, as specified in Sections 9301.27 and 9701.10
- Escrow shortages (i.e., the amount needed to establish the Escrow account or to bring it current that, together with the monthly Escrow payment included in the monthly Mortgage payment, will be sufficient to pay the next twelve months of property taxes, property and mortgage insurance premiums, etc., when they fall due)
- Any other amounts due and owing that are secured indebtedness under the current Mortgage

The Borrower must agree to contribute funds held in a buydown account, if any, to reduce the Delinquency or amount capitalized.

The Servicer may not charge the Borrower or capitalize any processing fee or other administrative fees in connection with the processing of a loan modification.

(b) Capitalization rules

If the Borrower has inadequate cash reserves or assets that he or she cannot liquidate to pay all of the expenses and delinquent amounts in the form of a cash contribution under Section 9206.15(a), any cash contribution the Borrower is able to make must be applied to expenses and amounts that may be capitalized.

Generally, a Borrower is expected to pay all expenses and other amounts due. If the Mortgage has mortgage insurance, the Servicer must contact the MI prior to capitalizing any amounts to determine if the MI will pay all or a portion of the expenses and delinquent amounts due. The Servicer may capitalize any expense or delinquent amount set forth in the table below provided that such capitalization is not prohibited by applicable federal, State or local law, the amount to be capitalized is part of the indebtedness secured by the current Mortgage, and the expense complies with Exhibits 57 and 57A.

Expense or delinquent amount	May be capitalized <i>(if part of the secured indebtedness and subject to applicable law)</i>
Delinquent accrued interest	Yes

Expense or delinquent amount	May be capitalized (if part of the secured indebtedness and subject to applicable law)
Expenses paid to a third party specifically related to the loan modification (e.g., title costs, notary fees, recordation fees, if applicable, and credit report fees)	No
Funds advanced by the Servicer, or to be advanced and paid to a third party, prior to the date the Borrower executes the loan modification agreement for the payment of any property taxes and property and mortgage insurance premiums	Yes
Escrow shortages to fund an Escrow account for future post-modification advances	No
Incurred foreclosure costs, including attorney fees and title costs incurred as part of the foreclosure process	Yes (not to exceed the reimbursable expense limits in Exhibit 57A)
Property preservation expenses and property inspection fees	Yes (not to exceed the reimbursable limits in Exhibit 57)
Any other expenses that were advanced and paid to a third party related to the preservation of Freddie Mac's lien priority, as specified in Sections 9301.27 and 9701.10	Yes

With respect to Escrow shortages, if the Borrower is unable to pay the Escrow shortage as a lump sum, then the Borrower must pay the shortage as part of the monthly payment (“Projected Monthly Escrow Shortage Payments”) on the modified Mortgage. If the Borrower must pay Projected Monthly Escrow Shortage Payments, then the Servicer must:

- Spread the repayment of the Escrow shortage amount in equal monthly payments over a period of 60 months, unless the Borrower chooses to pay off the shortage as a lump sum or over a shorter period of time, not to be less than 12 months
- Take into account any remaining unpaid amount of the Escrow shortage in any subsequent Escrow analysis to ensure that the Borrower is able to continue to pay all

Escrow shortage amounts over the remaining portion of either the current remaining Escrow shortage repayment period or a period up to 60 months. The Servicer may not accelerate or compress the remaining Escrow shortage amount into a new Escrow payment or shorter repayment period as a result of a future Escrow analysis.

(c) Reimbursement of expenses

Servicers may use the PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to request reimbursement for the following mortgage modification expenses associated with all modification types that would otherwise be paid by the Borrower and that may not be capitalized:

Expense Description	Expense Code	Expense Limit and Notes
Recordation fees	300003	Actual cost
Title costs, if applicable (except with respect to title costs in connection with a foreclosure proceeding)	300004	Reimbursable amounts are in accordance with the limits specified in Exhibit 57A
Notary fees	042001	\$150
Home Value Explorer® (HVE®)	400003	\$150

Additionally, Freddie Mac will reimburse certain expenses (e.g., legal fees and/or legal costs) considered unrecoverable from the Borrower under applicable federal, State or local law upon completion of a mortgage modification in accordance with Section 9701.5(f).

All reimbursement requests must be received by Freddie Mac in accordance with Section 9701.5(a). If the Servicer submits a reimbursement request for mortgage modification expenses and the mortgage modification settlement date does not exist in Freddie Mac's systems, the expense request will not be eligible for payment. All modifications types, excluding modifications with Mortgages insured by the FHA, or guaranteed by the VA or RHS, must have been submitted to Freddie Mac for settlement in its systems to be eligible for expense reimbursement via PAID.

For modifications with Mortgages insured by the FHA, or guaranteed by the VA or RHS, refer to Section 9701.5 for requirements related to expense submission time frames.

9206.16: Preparing to close the loan modification (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

The Servicer should allow sufficient processing time to prepare the modification agreement and provide it to the Borrower for execution, so that the Borrower has sufficient time to return it to the Servicer and make the first modified payment by its due date. The first modified payment due date is the first day of the month following the final Trial Period month, or, if applicable, the first day of the month following an interim month.

(a) Preparing the modification agreement and providing it to the Borrower

The Servicer must:

1. Prepare an original modification agreement for the Borrower's signature (see Exhibit 76, Loan Modification for Delinquent Mortgages, for an example of a modification agreement and Exhibit 76A, for authorized changes to Exhibit 76)

The modification agreement:

- Must be revised as necessary to conform with federal, State and local law and the terms of the modification
- Must not include any language that requires the Borrower to waive rights he or she may have under applicable law, including the Consumer Credit Protection Act, as a condition of the modification
- Must have a Modification Effective Date and a due date of the first payment due after the Trial Period (the "First Modified Payment") of the first day of the month following the end of the Trial Period, or, if applicable, the first day of the month following the end of the interim month
 - Must be in recordable form in the following circumstances: (1) if State or local law requires the modification agreement be recorded to be enforceable, (2) if the Mortgage is secured by property located in New York, (3) if the modification agreement must be recorded pursuant to Section 9206.12(1)(d), or (4) if the Servicer's practice for modifying Mortgages in its portfolio is to create modification agreements in recordable form

The new interest rate and new principal balance on the modified Mortgage are effective retroactive to the first day of the month just prior to the First Modified Payment due date

(i.e., to allow for payment of interest in arrears). (See below for information on the “interim month option.”)

2. Deliver to the Borrower an unsigned copy of the modification agreement, together with any applicable riders and disclosures, and provide a date by which the Borrower must sign and return the executed modification agreements (and applicable riders and disclosures), which must be no more than 14 days from the date the Servicer sent the modification agreement
3. Once the Borrower has signed the modification agreement and made the last required monthly payment due during the Trial Period and the Servicer determines the Borrower otherwise remains in compliance with the terms of the Trial Period Plan, the Servicer must sign the modification agreement, and return a copy with all signatures to the Borrower in order for the modification to take effect. The Servicer may not sign the modification agreement until the Borrower has signed the modification agreement and complied with all requirements of the Trial Period Plan.
4. Prepare an assignment of rents rider, if applicable (see Section 9206.12)
5. Prepare a due-on-transfer rider, if applicable (see Section 9206.12)
6. Prepare a Modification Bankruptcy Disclosure Rider, if applicable (see Section 9206.12)
7. Prepare any documents necessary to modify the Mortgage, including applicable disclosure statements
8. Arrange to obtain a title endorsement or similar title insurance product, if applicable. Refer to Section 9206.12 for specific information.

(b) Interim month option

In the event the Borrower does not pay the final Trial Period payment on or before the due date set forth in the Trial Period Plan Notice, then the Servicer may, at its option, prepare the modification agreement such that the Modification Effective Date and the due date of the First Modified Payment is the first day of the second month following the final Trial Period month. However, in this case, interest will not begin to accrue at the modified interest rate on the modified principal balance until the first day of the month following the final Trial Period month to accommodate the First Modified Payment’s payment of interest in arrears (“interim month option.”)

For example, if the final Trial Period payment is due March 1 and the Servicer elects the option described above, the Borrower is not required to make any payment during April, and the First Modified Payment under the modification agreement is due on May 1. During the month of March, interest will accrue at the current pre-modification rate under the current loan documents, which may impact the amount of the modified principal balance. The modified interest rate and the modified principal balance will take effect on April 1. The First

Modified Payment due on May 1 will include interest in arrears that accrued during April on the modified principal balance at the modified interest rate.

If the Servicer elects this option, the Borrower will not be required to make an additional Trial Period payment during the month (the “interim month”) between the final Trial Period month and the month in which the First Modified Payment is due.

A Servicer must treat all Borrowers the same in applying this option by selecting, in its discretion and evidenced by a written policy, the date by which the final Trial Period payment must be submitted (“cutoff date”) before the Servicer applies this option. The cutoff date must be after the due date for the final Trial Period payment as set forth in the Trial Period Plan Notice.

In the event the Borrower does not submit funds during the interim month, the effects of the interim month and attendant capitalization of arrearages on the terms of the modification agreement may not alter the Servicer’s previous determination of the Borrower’s eligibility.

The Servicer, when sending the modification agreement for signature, must include a cover letter that informs the Borrower of (i) the delay of the Modification Effective Date and First Modified Payment due date by one month and (ii) the effects of the interim month, including, but not limited to, the delay in the effective date of the modified interest rate, any increase in the delinquent interest capitalized.

EDR

If the Servicer elects to use the interim month option in accordance with the requirements under this Section 9206.16(b), the Servicer must report the interim month to Freddie Mac through EDR. In doing so, the Servicer must report default action codes “BF” under the Freddie Mac Flex Modification® Trial Period Plan. In addition, the Servicer must also report the Trial Period Plan Effective Date as the default action date until the default action codes would no longer apply once the Mortgage is modified.

Refer to Section 9102.7 for information on EDR and Exhibit 82, Electronic Default Reporting Transmission Code List, for descriptions of the default action codes and default reason codes.

9206.16: Preparing to close the loan modification (Future effective date 08/31/23)

The Servicer should allow sufficient processing time to prepare the modification agreement and provide it to the Borrower for execution, so that the Borrower has sufficient time to return it to the Servicer and make the first modified payment by its due date. The first modified payment due date is the first day of the month following the final Trial Period month, or, if applicable, the first day of the month following an interim month.

(a) Preparing the modification agreement and providing it to the Borrower

The Servicer must:

1. Prepare an original modification agreement for the Borrower's signature (see Exhibit 76, Loan Modification for Delinquent Mortgages, for an example of a modification agreement and Exhibit 76A, for authorized changes to Exhibit 76)

The modification agreement:

- Must be revised as necessary to conform with federal, State and local law and the terms of the modification
- Must not include any language that requires the Borrower to waive rights he or she may have under applicable law, including the Consumer Credit Protection Act, as a condition of the modification
- Must have a Modification Effective Date and a due date of the first payment due after the Trial Period (the "First Modified Payment") of the first day of the month following the end of the Trial Period, or, if applicable, the first day of the month following the end of the interim month
 - Must be in recordable form in the following circumstances: (1) if State or local law requires the modification agreement be recorded to be enforceable, (2) if the Mortgage is secured by property located in New York, (3) if the modification agreement must be recorded pursuant to Section 9206.12(1)(d), or (4) if the Servicer's practice for modifying Mortgages in its portfolio is to create modification agreements in recordable form

The new interest rate and new principal balance on the modified Mortgage are effective retroactive to the first day of the month just prior to the First Modified Payment due date (i.e., to allow for payment of interest in arrears). (See below for information on the "interim month option.")

2. Deliver to the Borrower an unsigned copy of the modification agreement, together with any applicable riders and disclosures, and provide a date by which the Borrower must sign and return the executed modification agreements (and applicable riders and disclosures), which must be no more than 14 days from the date the Servicer sent the modification agreement
3. Once the Borrower has signed the modification agreement and made the last required monthly payment due during the Trial Period and the Servicer determines the Borrower otherwise remains in compliance with the terms of the Trial Period Plan, the Servicer must sign the modification agreement, and return a copy with all signatures to the Borrower in order for the modification to take effect. The Servicer may not sign the

modification agreement until the Borrower has signed the modification agreement and complied with all requirements of the Trial Period Plan.

4. Prepare an assignment of rents rider, if applicable (see Section 9206.12)
5. Prepare a due-on-transfer rider, if applicable (see Section 9206.12)
6. Prepare a Modification Bankruptcy Disclosure Rider, if applicable (see Section 9206.12)
7. Prepare any documents necessary to modify the Mortgage, including applicable disclosure statements
8. Arrange to obtain a title endorsement or similar title insurance product, if applicable. Refer to Section 9206.12 for specific information.

(b) Interim month option

In the event the Borrower does not pay the final Trial Period payment on or before the due date set forth in the Trial Period Plan Notice, then the Servicer may, at its option, prepare the modification agreement such that the Modification Effective Date and the due date of the First Modified Payment is the first day of the second month following the final Trial Period month. However, in this case, interest will not begin to accrue at the modified interest rate on the modified principal balance until the first day of the month following the final Trial Period month to accommodate the First Modified Payment's payment of interest in arrears ("interim month option.")

For example, if the final Trial Period payment is due March 1 and the Servicer elects the option described above, the Borrower is not required to make any payment during April, and the First Modified Payment under the modification agreement is due on May 1. During the month of March, interest will accrue at the current pre-modification rate under the current loan documents, which may impact the amount of the modified principal balance. The modified interest rate and the modified principal balance will take effect on April 1. The First Modified Payment due on May 1 will include interest in arrears that accrued during April on the modified principal balance at the modified interest rate.

If the Servicer elects this option, the Borrower will not be required to make an additional Trial Period payment during the month (the "interim month") between the final Trial Period month and the month in which the First Modified Payment is due.

A Servicer must treat all Borrowers the same in applying this option by selecting, in its discretion and evidenced by a written policy, the date by which the final Trial Period payment must be submitted ("cutoff date") before the Servicer applies this option. The cutoff date must be after the due date for the final Trial Period payment as set forth in the Trial Period Plan Notice.

In the event the Borrower does not submit funds during the interim month, the effects of the interim month and attendant capitalization of arrearages on the terms of the modification agreement may not alter the Servicer's previous determination of the Borrower's eligibility.

The Servicer, when sending the modification agreement for signature, must include a cover letter that informs the Borrower of (i) the delay of the Modification Effective Date and First Modified Payment due date by one month and (ii) the effects of the interim month, including, but not limited to, the delay in the effective date of the modified interest rate, any increase in the delinquent interest capitalized.

EDR

If the Servicer elects to use the interim month option in accordance with the requirements under this Section 9206.16(b), the Servicer may report the interim month to Freddie Mac through EDR. In doing so, the Servicer may report default action codes "BF" under the Freddie Mac Flex Modification® Trial Period Plan. In addition, the Servicer must also report the Trial Period Plan Effective Date as the default action date until the default action codes would no longer apply once the Mortgage is modified.

Refer to Section 9102.7 for information on EDR and Exhibit 82, Electronic Default Reporting Transmission Code List, for descriptions of the default action codes and default reason codes.

9206.17: Loan modification documents and settlement data submissions (12/14/22)

Refer to Bulletins 2022-21 and 2022-26, which announced updates to Resolve®. Servicers may implement the new requirements on or after December 5, 2022 if they are operationally ready to do so. The new requirements must be implemented on or before August 31, 2023.

After the Servicer has sent a copy of the fully executed modification agreement to the Borrower as required by Section 9206.16(a), the Servicer must comply with the following requirements:

- If the modification agreement must be recorded (see Sections 9206.12 and 9206.16), the Servicer must:
 - Submit the fully executed original modification agreement for recordation within five Business Days of receiving either the Borrower executed modification agreement or the final Trial Period payment, whichever is later. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents.)
 - If the original Security Instrument was registered with MERS®, execute the modification agreement on behalf of MERS

- Within 25 days of receiving the executed modification agreement from the Borrower:
 - If the modification agreement will not be electronically recorded, send a certified copy of the fully executed modification agreement to the Document Custodian to be maintained with the Note
 - If the modification agreement will be electronically recorded, send the fully executed modification agreement to the Document Custodian to be maintained with the Note. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents and related delivery requirements to the Document Custodian or Designated Custodian, as applicable.)
- Send the modification agreement that is returned from the recorder's office to the Document Custodian within five Business Days of receiving it. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents and related delivery requirements to the Document Custodian or Designated Custodian, as applicable.) For eMortgages, if the modification agreement is electronically recorded, deliver an electronic copy of the recorded modification agreement to the eNote custodian's eVault, using MERS eDelivery, within five Business Days of receipt from the recording office.
- If recordation is not required, send the fully executed modification agreement to the Document Custodian within 25 days after receiving it from the Borrower
- Retain a copy of the fully executed modification agreement in the Mortgage file. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents and related modification storage requirements by the Servicer in the Mortgage file.)
- Per Section 1402.11(a), the Servicer must update the MERS® eRegistry (as defined in Section 1402.2) to provide notice of the modification agreement upon a modification of an eMortgage (as defined in Section 1402.2)
- Complete the “Loan Modification Settlement” screen in Workout Prospector® and transmit the status for all Mortgages due for settlement into Workout Prospector no later than the 4th Business Day of the month in which the first modified payment is due. When submitting the data for a modification via the “Loan Modification Settlement” screen, the Servicer must comply with the instructions for each Freddie Mac modification offer set forth in the Workout Prospector Users’ Guide.

By completing the “Loan Modification Settlement” screen in Workout Prospector and submitting the data for a modified Mortgage, the Servicer represents and warrants to Freddie Mac that it has completed the data entry in accordance with the instructions set forth in the Workout Prospector Users’ Guide and that all information set forth on the “Loan Modification Settlement” screen is accurate. In submitting the modification terms via the

“Loan Modification Settlement” screen, the Servicer represents and warrants, among other things, that:

- The “Current UPB (pre-modification)” and the DDLPI entered on the “Loan Modification Settlement” screen matches the UPB and DDLPI reported to Freddie Mac as of the end of the last Accounting Cycle in the month prior to the first modified payment due date
- The data entered on the “Loan Modification Settlement” screen matches the terms of the modification agreement and those terms comply with the underwriting requirements applicable to the modification.

In its sole discretion, Freddie Mac may choose not to accept for settlement any modification and data related to such modification undertaken by the Servicer where required settlement documentation is not provided in accordance with the time frame set forth above or that otherwise does not comply with the underwriting requirements of the Guide or other applicable Purchase Documents. If Freddie Mac does accept a modification for settlement, such acceptance does not waive any rights Freddie Mac may have available under the Guide or other applicable Purchase Documents including, without limitation, the right to withhold workout compensation for any modifications undertaken by the Servicer where required settlement documentation or accurate settlement data is not provided in accordance with the time frame set forth above or the terms of the modification do not comply with the underwriting requirements of the Guide or other applicable Purchase Documents.

Once the data entered onto the “Loan Modification Settlement” screen has been submitted to Freddie Mac, Servicers should monitor the *Modification Pending Update* report, accessible via the “Modifications” tile of the Servicer’s Servicer Performance Profile (SPP). (See Exhibit 88, Servicing Tools.) All Mortgages that are scheduled to be processed in Freddie Mac’s systems will appear on this report in the SPP.

In addition, Freddie Mac will notify Servicers that the modification has been processed in Freddie Mac’s systems via the *Modification Status Overview* report in the SPP. If a Servicer attempts to report a monthly loan-level transaction on a Mortgage based on the modified terms prior to the modification being processed in Freddie Mac’s systems, the Servicer will not be able to successfully complete the transaction.

- Comply with the reporting requirements set forth in Section 9206.18 to complete the loan modification. Freddie Mac will enter a credit for its proportionate share of the capitalized amount, if applicable, on the Adjustment line of the Servicer’s Monthly Account Statement (MAS) plus an adjustment for any miscellaneous interest, if applicable.

9206.17: Loan modification documents and settlement data submissions (Future effective date 08/31/23)

After the Servicer has sent a copy of the fully executed modification agreement to the Borrower as required by Section 9206.16(a), the Servicer must comply with the following requirements:

- If the modification agreement must be recorded (see Sections 9206.12 and 9206.16), the Servicer must:
 - Submit the fully executed original modification agreement for recordation within five Business Days of receiving either the Borrower executed modification agreement or the final Trial Period payment, whichever is later. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents.)
 - If the original Security Instrument was registered with MERS®, execute the modification agreement on behalf of MERS
 - Within 25 days of receiving the executed modification agreement from the Borrower:
 - If the modification agreement will not be electronically recorded, send a certified copy of the fully executed modification agreement to the Document Custodian to be maintained with the Note
 - If the modification agreement will be electronically recorded, send the fully executed modification agreement to the Document Custodian to be maintained with the Note. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents and related delivery requirements to the Document Custodian or Designated Custodian, as applicable.)
 - Send the modification agreement that is returned from the recorder's office to the Document Custodian within five Business Days of receiving it. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents and related delivery requirements to the Document Custodian or Designated Custodian, as applicable.) For eMortgages, if the modification agreement is electronically recorded, deliver an electronic copy of the recorded modification agreement to the eNote custodian's eVault, using MERS eDelivery, within five Business Days of receipt from the recording office.
 - If recordation is not required, send the fully executed modification agreement to the Document Custodian within 25 days after receiving it from the Borrower
 - Retain a copy of the fully executed modification agreement in the Mortgage file. (See Section 1401.14 for requirements pertaining to Electronic recording of paper post-closing documents and related modification storage requirements by the Servicer in the Mortgage file.)

- Per Section 1402.11(a), the Servicer must update the MERS® eRegistry (as defined in Section 1402.2) to provide notice of the modification agreement upon a modification of an eMortgage (as defined in Section 1402.2)
- Complete the “Settlement Request” screen in Resolve® and transmit the status for all Mortgages due for settlement into Resolve no later than the 4th Business Day of the month in which the first modified payment is due. When submitting the data for a modification via the “Settlement Request” screen, the Servicer must comply with the instructions for each Freddie Mac modification offer set forth in the Resolve Online Help.

By completing the “Settlement Request” screen in Resolve and submitting the data for a modified Mortgage, the Servicer represents and warrants to Freddie Mac that it has completed the data entry in accordance with the instructions set forth in the Resolve Online Help and that all information set forth on the “Settlement Request” screen is accurate. In submitting the modification terms via the “Loan Modification Settlement” screen, the Servicer represents and warrants, among other things, that:

- The “Current UPB (pre-modification)” and the DDLPI entered on the “Loan Modification Settlement” screen matches the UPB and DDLPI reported to Freddie Mac as of the end of the last Accounting Cycle in the month prior to the first modified payment due date
- The data entered on the “Settlement Request” screen matches the terms of the modification agreement and those terms comply with the underwriting requirements applicable to the modification.

In its sole discretion, Freddie Mac may choose not to accept for settlement any modification and data related to such modification undertaken by the Servicer where required settlement documentation is not provided in accordance with the time frame set forth above or that otherwise does not comply with the underwriting requirements of the Guide or other applicable Purchase Documents. If Freddie Mac does accept a modification for settlement, such acceptance does not waive any rights Freddie Mac may have available under the Guide or other applicable Purchase Documents including, without limitation, the right to withhold workout compensation for any modifications undertaken by the Servicer where required settlement documentation or accurate settlement data is not provided in accordance with the time frame set forth above or the terms of the modification do not comply with the underwriting requirements of the Guide or other applicable Purchase Documents.

Once the data entered onto the “Settlement Request” screen has been submitted to Freddie Mac, Servicers should monitor the *Modification Pending Update* report, accessible via the “Modifications” tile of the Servicer’s Servicer Performance Profile (SPP). (See Exhibit 88, Servicing Tools.) All Mortgages that are scheduled to be processed in Freddie Mac’s systems will appear on this report in the SPP.

In addition, Freddie Mac will notify Servicers that the modification has been processed in Freddie Mac's systems via the *Modification Status Overview* report in the SPP. If a Servicer attempts to report a monthly loan-level transaction on a Mortgage based on the modified terms prior to the modification being processed in Freddie Mac's systems, the Servicer will not be able to successfully complete the transaction.

- Comply with the reporting requirements set forth in Section 9206.18 to complete the loan modification. Freddie Mac will enter a credit for its proportionate share of the capitalized amount, if applicable, on the Adjustment line of the Servicer's Monthly Account Statement (MAS) plus an adjustment for any miscellaneous interest, if applicable.

9206.18: Modification reporting and drafting requirements (12/09/19)

Freddie Mac will process and settle mortgage modifications daily, except on the first Business Day of the month, and notify the Servicer through the Loan Modification Status Report when a loan modification has settled. During settlement, Freddie Mac will update the DDLPI to be the Modification Effective Date.

The Servicer must comply with the following reporting requirements:

(a) Before the first modified payment is due

The Servicer must report in accordance with the Note and Security Instrument, and any modification agreement, if applicable. In doing so, the Servicer must report to Freddie Mac as follows:

If the mortgage modification was settled in the current Accounting Cycle....	Then the Servicer must....
With the first modified payment due in the following month	Report the next month's forecasted scheduled interest based on the modified terms in the current Accounting Cycle
With the first modified payment due in the current month	Report the principal and forecasted scheduled interest based on the newly modified terms in the current Accounting Cycle. Note: If the mortgage modification settles after the P&I Determination Date and the Servicer does not report the modified loan

If the mortgage modification was settled in the current Accounting Cycle....	Then the Servicer must....
	data, Freddie Mac will simulate the loan activity.
And the Modification Effective Date is in a past Accounting Cycle, the Mortgage will remain inactive after the mortgage modification	Complete a full reinstatement. Refer to Section 8303.23(a) for reporting the corresponding payment and DDLPI date change. (The DDLPI would change to the same date as the Modification Effective Date).

If a Trial Period Payment is received in the same month that Freddie Mac settles the mortgage modification and the pre-modified UPB is equal to the UPB reported in the current Accounting Cycle, the Trial Period Payment will be applied as a miscellaneous principal adjustment.

(b) After the modification has been executed

Once the modification has been executed, the Servicer must update their Mortgage records to reflect the modified terms.

In the next monthly Accounting Cycle after the effective date of the modification, the Servicer must report to Freddie Mac as follows:

1. Report the Mortgage in its Loan-Level Transaction using the modified terms and report any payments received after the modification agreement has been executed. If the modified Mortgage includes capitalized amounts, then the UPB field must reflect the modified UPB amount. Freddie Mac will enter a credit for its proportionate share of the capitalized amount, if applicable, on the Adjustment Line of the Servicer's Monthly Account Statement (MAS).
2. On the P&I Draft Date, Freddie Mac will draft all modified principal and interest payments to Freddie Mac. The Servicer must update its Mortgage records to reflect the modified terms of the Mortgage as soon as the modification agreement has been executed.

(c) Drafting

Freddie Mac will draft principal and interest payments in accordance with Section 8303.3(b). Adjustments for loan modification capitalized interest, miscellaneous principal, miscellaneous interest or reinstatement interest, if applicable, will be posted to the Draft Report in the month the loan modification settles on or before the P&I Determination Date. If the Loan Modification settles after the P&I Determination Date, these adjustments will be posted to the following month's Draft Report.

(d) Post-settlement discrepancies

The Servicer must report any post-settlement discrepancies to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within 30 calendar days following the close of Freddie Mac's Accounting Cycle in which the settlement occurred.

When submitting a request to correct a post-settlement discrepancy, Servicers must upload the executed modification agreement or court documents to support the requested change in the Servicing Data Corrections tool and explain why the modification was not initially settled with data elements matching these documents.

Freddie Mac may assess a contract noncompliance and contract change compensatory fee (see Section 8303.43) for any post-settlement discrepancies submitted more than 60 calendar days after the close of Freddie Mac's Accounting Cycle in which the settlement occurred. Additionally, in the event the modification agreement did not comply with Freddie Mac's requirements, Freddie Mac may pursue available remedies depending on the nature of the modification violation, including, but not limited to, a repurchase demand, repurchase alternative and/or recovery of any workout incentives that were paid.

Refer to Section 8303.4 for specific reporting requirements for Mortgages with partial principal forbearance.

9206.19: Electronic solicitation and modification (04/14/21)

(a) Defined terms

For purposes of this section:

Borrower means, as applicable to eModification Agreements, in addition to the definition contained in the Glossary, a person defined as a consumer under E-SIGN, to the extent E-SIGN applies to a transaction. For the purposes of this section, "Borrower" also includes any and all persons obligated under the terms of any applicable Note as the context shall permit or require.

Electronic has the meaning set forth in Section 1401.2.

Electronic Record has the meaning set forth in Section 1401.2.

Electronic Signature has the meaning set forth in Section 1401.2.

Electronic Transaction has the meaning set forth in Section 1401.2.

eModification Agreement has the meaning set forth in Section 1401.2.

eStorage System has the meaning set forth in Section 1402.2.

eNote has the meaning set forth in Section 1402.2.

E-SIGN has the meaning set forth in Section 1402.1.

eVault has the meaning set forth in Section 1402.2.

UETA has the meaning set forth in Section 1402.1.

(b) Electronic submission of documents

Refer to Section 9102.5(d) for requirements regarding electronic submission of documents.

(c) Electronic solicitation

Servicers may solicit Borrowers for a modification electronically and may add new Borrowers and release Borrowers pursuant to Electronic assumption and release of liability agreements provided the Servicer complies with the requirements of Section 1401.17 and other applicable Guide sections.

(d) eModification Agreements

The requirements of this Section 9206.19(d) apply only to eModification Agreements of paper Notes and related Security Instruments. See Section 1402.11(a) for requirements for eModification Agreements that modify an eMortgage.

(i) Special representations and warranties

A Servicer allowing Borrowers to receive, transmit or electronically sign an eModification Agreement represents and warrants to Freddie Mac that it has complied with the requirements of the Guide and that the eModification Agreement is authentic, its terms are valid and enforceable against the Borrower, and the modified Mortgage complies with the requirements of Section 9206.12.

(ii) Restrictions on the use of an eModification Agreement

An eModification Agreement may be a Category 3 SMARTDoc (v1.02), unless this Chapter 9206 requires the eModification Agreement to be recorded or in recordable format and the recording jurisdiction does not support the Category 3 SMARTDoc format.

Servicers may **not** use an eModification Agreement if:

- The Mortgage, as modified by the eModification Agreement, would be invalid or unenforceable or would no longer be in First Lien position
- The jurisdiction in which the eModification Agreement would be recorded, when recordation is required, does not permit or provide for recordation of Electronic documents
- The Servicer is unable to comply with the recording jurisdiction's recordation and formatting requirements for an Electronic document or the jurisdiction does not permit or provide for recordation of Electronic documents, and Sections 9206.12 or 9206.16 requires the Modification Agreement to be recorded or in recordable form

Freddie Mac will not reimburse any costs that result from a Servicer's decision to use an eModification Agreement, and such costs may not be assessed to the Borrower.

(iii) General requirements applicable to all Freddie Mac eModification Agreements

Servicers must:

- Process, modify, and store eModification Agreements of Freddie Mac Mortgages under requirements that are no less stringent than applicable industry standards when electronically processing, modifying and storing its own Electronic modification agreements for mortgages that it owns or services for others
- Consult with their legal counsel to ensure that the Servicer's use, processing, and storage of an eModification Agreement complies with all applicable federal, State and local laws
- Provide for Electronic notarization when required, subject to applicable law
- Comply with all requirements in the Servicing Contract to service the Mortgage, as modified by an eModification Agreement including, but not limited to, Servicing obligations related to payoff or short sale (e.g., cancelation of the Mortgage, Note and eModification Agreement), grant of a deed-in-lieu of foreclosure, foreclosure, repurchase of an electronically modified Mortgage and litigation
- Assure that the signing platform has a robust audit trail of all key events starting from the creation of the eModification Agreement through and including the Borrower and Servicer execution that the Servicer can reproduce upon request by Freddie Mac

(iv) Additional requirements when the eModification Agreement must be recorded or in recordable format

When an eModification Agreement must be recorded or in recordable format as required in Sections 9206.12 or 9206.16, a Servicer may use an eModification Agreement,

provided the Servicer is able to comply with the recording jurisdiction's recordation and Electronic format requirements.

(v) Document custodial requirements

Upon execution of an eModification Agreement, the Servicer must provide a copy of the executed eModification Agreement to its Document Custodian in a format that is acceptable to the Document Custodian, to be maintained or logically associated with the Note.

If recordation is required, the Servicer must provide a copy of the recorded eModification Agreement or a copy of evidence of recordation together with a copy of the executed eModification Agreement to its Document Custodian.

(vi) Storage and safekeeping of eModification Agreements

eModification Agreements (including printed paper copies of facsimiles of eModification Agreements) must be stored in accordance with the Guide requirements for storing Mortgage file documents and must be stored in an eVault or eStorage System.

eModification Agreements must be logically associated with all paper Mortgage file documents so that all Servicing records (both paper and Electronic) are identified and associated with the affiliated Mortgage transaction.

(vii) Transfers of Servicing

Upon a Transfer of Servicing involving Mortgages with eModification Agreements, the Transferor Servicer must comply with Section 7101.2(b)(ii) #8 and inform the Transferee Servicer of the name of the eVault or eStorage System holding the eModification Agreement. The Transferor Servicer must cause its eVault or eStorage System provider to transfer the eModification Agreement and all related data to the Transferee Servicer's eVault or eStorage System provider in a manner that ensures the ongoing validity and enforceability of the eModification Agreement and its associated Electronic Signature. A Transferor Servicer may not satisfy its obligations under this section by relying on Section 7101.8(a) by generating paper copies of eModification Agreements for the Transferee Servicer.

(viii) Data security requirements and data privacy protection

Servicers must follow data security requirements in Sections 1302.2 and 1401.5 and the data privacy protection standards in Section 8101.8. Servicers are required to maintain their eStorage System and conduct periodic information security reviews of the data stored and maintained in such systems based on, but not limited to, applicable federal, State and local laws and regulations and the Guide.

Freddie Mac reserves the right to require a Servicer to implement additional security measures regarding its Servicing eStorage System.

(ix) Disaster Recovery/Business Continuity Plan

Refer to Section 1302.3 for Seller/Servicer business continuity planning requirements.

Chapter 9207: Workout Mortgage Assumption

9207.1: What is a workout Mortgage assumption? (03/02/16)

A workout Mortgage assumption permits a qualified applicant to assume title to the property and the Mortgage obligation from a Borrower who is currently delinquent or in imminent danger of default on his or her Mortgage because of an eligible hardship.

This workout option has different requirements than the requirements for Transfers of Ownership allowed under certain Mortgage documents or federal law. (For example, the workout Mortgage assumption recommendation must be submitted to Freddie Mac for its approval.) Refer to Chapter 8406 for those requirements.

9207.2: When to consider a workout Mortgage assumption (06/09/21)

If the Borrower's eligible hardship, as described in Section 9202.2, is permanent or long term and he or she cannot or does not want to retain ownership of the property, but is cooperative and has a potential buyer for the property, then the Servicer should explore the possibility of a workout Mortgage assumption in accordance with the requirements in Sections 9207.3 through 9207.8 as a solution to the Delinquency.

Simultaneous assumptions, relief options and modifications

The Servicer must also consider an assumption of the Mortgage in situations where all Borrowers are deceased or one or more Borrower on the Note has an eligible hardship as described in Section 9202.2 and the hardship is expected to cause a long-term or permanent decrease in the Borrower's income or increase in the Borrower's expenses such that all Borrowers on the Note are unable or unlikely to continue making the monthly mortgage payment obligation. In this circumstance, if a natural person with a legal or beneficial interest in the Mortgaged Premises wishes to assume the Mortgage obligation ("non-Borrower applicant") then the Servicer must first determine if the non-Borrower applicant meets the transfer of ownership requirements under Chapter 8406. If the non-Borrower applicant does not meet the transfer of ownership requirements under Chapter 8406 and the due-on-transfer clause has been triggered or the Mortgage is delinquent, the Servicer must explore all available relief options as described in Chapter 9203, including forbearance and payment deferral. For purposes of this section, a natural person with a beneficial interest in the Mortgaged Premises includes:

- An heir or legatee who will inherit the Mortgaged Premises following completion of probate or distribution of the assets of the estate of the deceased Borrower; or

- A person awarded title to the Mortgaged Premises pursuant to a court decree or court approved separation agreement where a quit claim deed has not been executed or recorded. If a Servicer is uncertain whether a person has a beneficial interest in the Mortgaged Premises, it should consult its legal counsel or submit the case to Freddie Mac via Workout Prospector®.

If the non-Borrower applicant meets the transfer of ownership requirements under Chapter 8406 and the due-on-transfer clause has not been triggered or the Mortgage is delinquent, and the Servicer determines that a relief option is unlikely to lead to a resolution of the default or Delinquency, the non-Borrower applicant may be considered for a simultaneous assumption and modification under the Freddie Mac Flex Modification® requirements. The non-Borrower applicant must provide the Servicer with a complete Borrower Response Package and the Servicer must evaluate the non-Borrower applicant as if he or she were a Borrower.

Servicers may first consider whether the non-Borrower with a legal or beneficial interest in the property can qualify using the non-Borrower income requirements specified in Section 9202.3(b). If the applicant does not meet the non-Borrower income criteria in Section 9202.3(b) and/or wishes to assume the Mortgage obligation, then Servicers must follow the requirements below to submit a recommendation to Freddie Mac for a simultaneous assumption and modification.

Servicers must obtain Freddie Mac's approval prior to offering an otherwise eligible non-Borrower applicant a simultaneous assumption and modification.

- To submit a recommendation for a simultaneous assumption and Flex Modification, the Servicer must submit its recommendation to Freddie Mac via Workout Prospector and indicate in the comments that the Borrower should be considered for a simultaneous modification and assumption with a Flex Modification
- Supporting documentation must be submitted to Freddie Mac (**see Directory 5**) upon request

If Freddie Mac does not approve the request for a simultaneous assumption and modification, the Servicer must refer to Section 1301.2(i) for information on adverse action notices that must be provided to the non-Borrower applicant on behalf of Freddie Mac.

The requirements in this Section 9207.2 also apply in cases where the only remaining Borrower is a trust and to other transfers that require acceleration of the Note.

Refer to Chapter 8406 for additional information regarding Transfers of Ownership.

9207.2: When to consider a workout Mortgage assumption (Future effective date 08/31/23)

If the Borrower's eligible hardship, as described in Section 9202.2, is permanent or long term and he or she cannot or does not want to retain ownership of the property, but is cooperative and has a potential buyer for the property, then the Servicer should explore the possibility of a workout Mortgage assumption in accordance with the requirements in Sections 9207.3 through 9207.8 as a solution to the Delinquency.

Simultaneous assumptions, relief options and modifications

The Servicer must also consider an assumption of the Mortgage in situations where all Borrowers are deceased or one or more Borrower on the Note has an eligible hardship as described in Section 9202.2 and the hardship is expected to cause a long-term or permanent decrease in the Borrower's income or increase in the Borrower's expenses such that all Borrowers on the Note are unable or unlikely to continue making the monthly mortgage payment obligation. In this circumstance, if a natural person with a legal or beneficial interest in the Mortgaged Premises wishes to assume the Mortgage obligation ("non-Borrower applicant") then the Servicer must first determine if the non-Borrower applicant meets the transfer of ownership requirements under Chapter 8406. If the non-Borrower applicant does not meet the transfer of ownership requirements under Chapter 8406 and the due-on-transfer clause has been triggered or the Mortgage is delinquent, the Servicer must explore all available relief options as described in Chapter 9203, including forbearance and payment deferral. For purposes of this section, a natural person with a beneficial interest in the Mortgaged Premises includes:

- An heir or legatee who will inherit the Mortgaged Premises following completion of probate or distribution of the assets of the estate of the deceased Borrower; or
- A person awarded title to the Mortgaged Premises pursuant to a court decree or court approved separation agreement where a quit claim deed has not been executed or recorded. If a Servicer is uncertain whether a person has a beneficial interest in the Mortgaged Premises, it should consult its legal counsel or submit the case to Freddie Mac via Resolve®.

If the non-Borrower applicant meets the transfer of ownership requirements under Chapter 8406 and the due-on-transfer clause has not been triggered or the Mortgage is delinquent, and the Servicer determines that a relief option is unlikely to lead to a resolution of the default or Delinquency, the non-Borrower applicant may be considered for a simultaneous assumption and modification under the Freddie Mac Flex Modification® requirements. The non-Borrower applicant must provide the Servicer with a complete Borrower Response Package and the Servicer must evaluate the non-Borrower applicant as if he or she were a Borrower.

Servicers may first consider whether the non-Borrower with a legal or beneficial interest in the property can qualify using the non-Borrower income requirements specified in Section 9202.3(b). If the applicant does not meet the non-Borrower income criteria in Section 9202.3(b) and/or wishes to assume the Mortgage obligation, then Servicers must follow the requirements

below to submit a recommendation to Freddie Mac for a simultaneous assumption and modification.

Servicers must obtain Freddie Mac's approval prior to offering an otherwise eligible non-Borrower applicant a simultaneous assumption and modification.

- To submit a recommendation for a simultaneous assumption and Flex Modification, the Servicer must submit its recommendation to Freddie Mac via the Resolve User Interface. See [Resolve Online Help](#) for additional details. Freddie Mac's decision will be available in the Resolve Dashboard accessible via [Servicing Gateway](#).
- Supporting documentation must be submitted to Freddie Mac (see **Directory 5**) upon request

If Freddie Mac does not approve the request for a simultaneous assumption and modification, the Servicer must refer to Section 1301.2(i) for information on adverse action notices that must be provided to the non-Borrower applicant on behalf of Freddie Mac.

The requirements in this Section 9207.2 also apply in cases where the only remaining Borrower is a trust and to other transfers that require acceleration of the Note.

Refer to Chapter 8406 for additional information regarding Transfers of Ownership.

9207.3: Eligibility requirements for a workout Mortgage assumption (05/04/20)

To recommend a Borrower for a workout Mortgage assumption, the Servicer must complete Form 1077, Uniform Underwriting and Transmittal Summary, and ensure that all of the following eligibility requirements are met:

1. The Borrower must have an eligible hardship
2. The Borrower must be delinquent in his or her payments, or in imminent danger of default
3. The Borrower must submit a complete Borrower Response Package (see Section 9102.5 for information on the Borrower Response Package)
4. The Borrower must be cooperative and allow access to the interior of the property for a BPO for:
 - A Mortgage secured by a 2- to 4-unit property, a Manufactured Home or a dwelling subject to a leasehold estate

- A Cooperative Share Loan secured by a First Lien on the Cooperative Interest to a Cooperative Unit (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans)
5. The indebtedness-to-value (ITV) ratio must be equal to or greater than 85%. The total ITV ratio is the total indebtedness under the terms of the Mortgage, which includes the UPB, accrued interest, Escrow advances and expenses (see Exhibit 57A, Approved Attorney Fees and Title Expenses, for the applicable expense limits) divided by the probable sales price determined by Freddie Mac.
 6. The applicant assuming the Mortgage must meet Freddie Mac's underwriting guidelines in Topics 5100 through 5500 and Section 8406.5 as documented on Form 1077
 7. The applicant must pay a Down Payment of at least 5% of the total indebtedness unless the Transfer of Ownership meets the criteria listed in Sections 8406.3 or 8406.4

9207.4: Submitting a workout Mortgage assumption recommendation to Freddie Mac (03/31/22)

To recommend a workout Mortgage assumption, the Servicer must:

- Obtain a property valuation through BPOdirect® (see Section 2406.4 regarding obtaining a property value via BPOdirect). For a Mortgage secured by a 1-unit property (excluding a Manufactured Home, a dwelling subject to a leasehold estate or a Cooperative Unit), the Servicer must, unless otherwise noted below, use an available automated value. If an automated value is not available for the Mortgage secured by a 1-unit property, or, pursuant to Section 9207.3, the Borrower must be cooperative and allow access to the interior of the property for a BPO, then the Servicer must order a new property valuation in accordance with Sections 2406.4, 9202.17 and 9202.19, if necessary. The property valuation must be less than 90 days old on the date the Servicer recommends the workout Mortgage assumption to Freddie Mac. (Note: The Servicer does not need to submit the valuation to Freddie Mac because Freddie Mac will have access to the value via BPOdirect.)

Notwithstanding the requirements above, if the Servicer has previously obtained a Freddie Mac-compliant property valuation (i.e., Freddie Mac-provided BPO, Freddie Mac-provided appraisal or an appraisal obtained in compliance with Topic 5600), the Servicer must use the Freddie Mac-compliant property valuation in connection with a workout Mortgage assumption evaluation.

- Submit all of the following to Freddie Mac (**see Directory 5**)
 - The Borrower's complete Borrower Response Package. (See Section 9102.5 for a description of the Borrower Response Package.)

- Completed Form 1077, Uniform Underwriting and Transmittal Summary, detailing the Servicer's underwriting of the applicant
- A copy of the fully executed sales contract and addenda
- Estimated seller Closing Costs, if applicable
- If the Mortgage is covered by mortgage insurance, fax a copy of the approval from the MI to Freddie Mac within two Business Days of the Servicer's receipt of the MI's approval

9207.5: Freddie Mac's decision about a Servicer's recommendation for workout Mortgage assumption (03/02/16)

Freddie Mac will review the documentation the Servicer submits and make a decision to approve or deny the workout Mortgage assumption request.

(a) Approval of request

If Freddie Mac approves the assumption request, it will send the Servicer an approval letter detailing any conditions of Freddie Mac's approval.

(b) Denial of request

If Freddie Mac denies the assumption request, it will send the Servicer an explanation of why Freddie Mac denied the request and provide the Servicer with the course of action it must take to resolve the Delinquency. The Servicer must provide an adverse action notice to all applicable parties, in addition to any other notice or disclosure required under the Equal Credit Opportunity Act, Fair Credit Reporting Act, Truth-in-Lending Act and any other applicable law or regulation.

Refer to Section 1301.2(i) for more information about adverse action notice requirements.

9207.6: Approval conditions for a workout Mortgage assumption (05/04/20)

If Freddie Mac approves the Servicer's recommendation to allow an assumption of the Mortgage, the Servicer must ensure that all conditions listed on Freddie Mac's approval letter are met, and must:

1. Obtain approval from the FHA, RHS, VA or MI, if applicable; for leasehold Mortgages, obtain the consent of the fee simple landowner/lessor to the assignment of lease, if required under the lease
2. Complete an Escrow analysis or establish an Escrow account to ensure that there are sufficient funds to pay the property taxes, property and mortgage insurance premiums, etc.
3. Process the assumption so that the settlement occurs within 30 days of Freddie Mac's approval and submit the assumption agreement for recordation within one Business Day of the settlement. (Note: Per Section 1402.11(b), the Servicer must update the MERS® eRegistry (as defined in Section 1402.2) to provide notice of the assumption agreement upon a workout Mortgage assumption (with or without a release of liability) of an eMortgage (as defined in Section 1402.2).)
4. Comply with the documentation requirements in Section 8406.9
5. Ensure that the Borrower does not receive any cash-out from the transaction unless Freddie Mac receives all sums due to it
6. Ensure that all delinquent amounts are brought current at the time of settlement
7. Retain any credit enhancement, if the existing Mortgage has a credit enhancement. (If the Servicer is not the provider of the credit enhancement, it must obtain written approval from the institution providing the enhancement.)
8. For leasehold Mortgages, ensure the transferee has acquired the transferor's leasehold interest either by obtaining a new lease or assuming the existing lease and that the transfer of the leasehold interest is recorded
9. For Cooperative Share Loans, comply with the requirements in Section 8801.5(a)

9207.7: Closing requirements for workout Mortgage assumption (03/02/16)

After the workout Mortgage assumption has been closed, submit the following to Freddie Mac (**see Directory 5**) to settle the workout:

1. A copy of the settlement statement
2. A copy of the executed assumption agreement
3. A copy of the deed
4. Borrower's contribution or promissory note, if applicable

5. A copy of the written approval from the provider of the credit enhancement, if applicable

9207.8: Servicer fee for workout Mortgage assumption (03/02/16)

The Servicer may charge the applicant a fee not to exceed the greater of \$400 or 1% of the UPB of the Mortgage, to a maximum fee of \$900.

Chapter 9208: Freddie Mac Standard Short Sale

9208.1: What is a short sale? (03/02/16)

A Freddie Mac Standard Short Sale (“short sale”) is the sale of the Mortgaged Premises for less than the total amount necessary to satisfy the Mortgage.

When the sale proceeds are less than the total amount due, but there is a mortgage insurance claim payment or a Borrower cash contribution that results in Freddie Mac’s receiving all sums owed on the Mortgage, then Freddie Mac considers the transaction a “make-whole” preforeclosure sale rather than a short sale. The Servicer does not need to obtain Freddie Mac’s prior approval for a make-whole preforeclosure sale. Refer to Section 9208.8 for Freddie Mac’s reporting and closing requirements for a make-whole preforeclosure sale.

9208.2: Short sale eligibility requirements and Servicer approval authority (07/31/22)

If the Borrower’s eligible hardship is permanent or long-term and the Borrower is unable or unwilling to sustain homeownership, then the Servicer should determine if the Borrower meets the eligibility requirements for a Freddie Mac Standard Short Sale (“short sale”). The Servicer must evaluate the Borrower for a short sale under this chapter once the Servicer has otherwise complied with the evaluation hierarchy in Section 9201.2.

If the Mortgage is subject to a recourse or indemnification agreement, the Servicer may approve a short sale provided the Servicer reports and Freddie Mac drafts a full payoff to Freddie Mac and the Servicer absorbs any losses and expenses related to the Delinquency.

If the Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage, the Servicer must comply with the requirements of the applicable agency when approving a short sale in a manner that ensures continued coverage of the Mortgage.

The Servicer must use the Borrower’s Delinquency status to determine eligibility, documentation requirements and Borrower contributions. The Servicer determines the Delinquency status at the time of evaluation for eligibility and Borrower contribution in accordance with the following:

- When determining eligibility in accordance with this section, the Servicer must use the Delinquency status of the Mortgage on the date the Servicer begins the evaluation using required documentation pursuant to Section 9208.3(a)
- When the Servicer’s evaluation for eligibility did not include a review of a purchase offer, the Servicer must evaluate the Borrower for a contribution, if applicable, once the purchase offer is received. The Servicer must determine the Delinquency status of the Mortgage when

beginning the review of the purchase offer. If the credit report is now greater than 90 days old from the date of initial evaluation for eligibility, the Servicer must order a new credit report.

(a) Eligibility requirements for a short sale

Every Borrower, regardless of Delinquency status, is eligible to be considered for a short sale, provided the following requirements are met:

- Borrowers who do not meet the requirements for a Streamlined Short Sale must be experiencing or have experienced one of the eligible hardships listed in Section 9202.2(a)
- The sale must be an arm's length transaction as defined in Section 9208.7
- The Borrower has listed the Mortgaged Premises for sale with a licensed real estate broker who in turn must have listed the Mortgaged Premises on the Multiple Listing Service (MLS) covering the market in which the Mortgaged Premises is located for at least five consecutive days. The listing period must include at least one weekend (i.e., Saturday and Sunday). The listing must be in an "active" status for at least the five days immediately preceding the day on which the purchase offer is accepted by the Borrower and submitted to the Servicer for approval. If the Mortgaged Premises is located in an area that is not covered by an MLS, then it must be advertised for sale by the real estate broker in a manner customary for that real estate market at least five consecutive calendar days, which must include at least one weekend. The Servicer must retain a copy of the MLS listing of the Mortgaged Premises in the Mortgage file (or documentation of the advertisement(s) if the Mortgaged Premises is located in an area not covered by an MLS). The Borrower may not act as the listing agent or attempt to sell the Mortgaged Premises without a licensed real estate professional.
- The Borrower has not acquired a new Mortgage in the six months preceding the Borrower's Delinquency or, if the Borrower is current, in the six months preceding the evaluation of the Borrower for a short sale. The Borrower is only permitted to have obtained a new Mortgage if the Borrower's eligible hardship was distant employment transfer.
- The Borrower must not have entered into a program or arrangement where a third party takes title to the Mortgaged Premises and arranges a short sale in exchange for a fee

A Borrower who is current or less than 60 days delinquent must meet the imminent default requirements as described in Section 9208.3(c).

(b) Servicer approval authority

Unless otherwise notified by Freddie Mac, all Servicers are delegated to approve a short sale that meets the eligibility requirements of Section 9208.2(a).

Servicers must refer to the requirements in Sections 8801.5(c) and 9208.3 through 9208.7 for additional circumstances for which Servicers are not delegated to approve a short sale transaction.

(c) Submitting a short sale recommendation to Freddie Mac

For situations where the Borrower does not meet the eligibility requirements for a short sale and the Servicer determines a short sale may be the best option for addressing the Delinquency or imminent Delinquency, the Servicer must use Resolve® to submit a recommendation to Freddie Mac for review with the following required documentation:

1. Complete Borrower Response Package or other documentation as permitted in Section 9208.3
2. A copy of the fully executed sales contract on the Mortgaged Premises with addenda, stating that it is being purchased in “as-is” condition. If the buyer obtains FHA, RHS or VA financing, then the contract does not need to include the “as-is” condition if FHA, RHS or VA requires the condition to be removed.
3. Preliminary Settlement/Closing Disclosure Statement
4. For Mortgages secured by properties subject to resale restrictions (in accordance with Chapter 4502 or 4406, as applicable), the applicable resale restrictions containing details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met
5. For Cooperative Share Loans, the additional documentation listed in Section 8801.5(c)(i)

In addition, the Servicer may submit a recommendation to Freddie Mac for consideration if the Borrower does not have an eligible hardship but one of the following conditions exists and, in the Servicer’s judgment, the short sale is an appropriate resolution to the Delinquency:

- There is a Risk of Property Ownership to Freddie Mac (see Section 9202.5)
- Litigation is pending that affects the Mortgaged Premises or the Mortgage and could jeopardize a successful foreclosure sale
- Other special circumstances (e.g., the Mortgaged Premises deteriorated resulting in an unexpected decline in the value)

Note: All non-delegated short sales submitted through Resolve will be available for review in the Resolve dashboard.

9208.2: Short sale eligibility requirements and Servicer approval authority (Future effective date 10/02/23)

If the Borrower's eligible hardship is permanent or long-term and the Borrower is unable or unwilling to sustain homeownership, then the Servicer should determine if the Borrower meets the eligibility requirements for a Freddie Mac Standard Short Sale ("short sale"). The Servicer must evaluate the Borrower for a short sale under this chapter once the Servicer has otherwise complied with the evaluation hierarchy in Section 9201.2.

If the Mortgage is subject to a recourse or indemnification agreement, the Servicer may approve a short sale provided the Servicer reports and Freddie Mac drafts a full payoff to Freddie Mac and the Servicer absorbs any losses and expenses related to the Delinquency.

If the Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage, the Servicer must comply with the requirements of the applicable agency when approving a short sale in a manner that ensures continued coverage of the Mortgage.

The Servicer must use the Borrower's Delinquency status to determine eligibility, documentation requirements and Borrower contributions. The Servicer determines the Delinquency status at the time of evaluation for eligibility and Borrower contribution in accordance with the following:

- When determining eligibility in accordance with this section, the Servicer must use the Delinquency status of the Mortgage on the date the Servicer begins the evaluation using required documentation pursuant to Section 9208.3(a)
- When the Servicer's evaluation for eligibility did not include a review of a purchase offer, the Servicer must evaluate the Borrower for a contribution, if applicable, once the purchase offer is received. The Servicer must determine the Delinquency status of the Mortgage when beginning the review of the purchase offer. If the credit report is now greater than 90 days old from the date of initial evaluation for eligibility, the Servicer must order a new credit report.

(a) Eligibility requirements for a short sale

Every Borrower, regardless of Delinquency status, is eligible to be considered for a short sale, provided the following requirements are met:

- Borrowers who do not meet the requirements for a Streamlined Short Sale must be experiencing or have experienced one of the eligible hardships listed in Section 9202.2(a)
- The sale must be an arm's length transaction as defined in Section 9208.7
- The Borrower has listed the Mortgaged Premises for sale with a licensed real estate broker who in turn must have listed the Mortgaged Premises on the Multiple Listing

Service (MLS) covering the market in which the Mortgaged Premises is located for at least five consecutive days. The listing period must include at least one weekend (i.e., Saturday and Sunday). The listing must be in an “active” status for at least the five days immediately preceding the day on which the purchase offer is accepted by the Borrower and submitted to the Servicer for approval. If the Mortgaged Premises is located in an area that is not covered by an MLS, then it must be advertised for sale by the real estate broker in a manner customary for that real estate market at least five consecutive calendar days, which must include at least one weekend. The Servicer must retain a copy of the MLS listing of the Mortgaged Premises in the Mortgage file (or documentation of the advertisement(s) if the Mortgaged Premises is located in an area not covered by an MLS). The Borrower may not act as the listing agent or attempt to sell the Mortgaged Premises without a licensed real estate professional.

- The Borrower has not acquired a new Mortgage in the six months preceding the Borrower’s Delinquency or, if the Borrower is current, in the six months preceding the evaluation of the Borrower for a short sale. The Borrower is only permitted to have obtained a new Mortgage if the Borrower’s eligible hardship was distant employment transfer.
- The Borrower must not have entered into a program or arrangement where a third party takes title to the Mortgaged Premises and arranges a short sale in exchange for a fee

A Borrower who is current or less than 60 days delinquent must meet the imminent default requirements as described in Section 9208.3(c).

(b) Servicer approval authority

Unless otherwise notified by Freddie Mac, all Servicers are delegated to approve a short sale that meets the eligibility requirements of Section 9208.2(a).

Servicers must refer to the requirements in Sections 8801.5(c) and 9208.3 through 9208.7 for additional circumstances for which Servicers are not delegated to approve a short sale transaction.

(c) Submitting a short sale recommendation to Freddie Mac

For situations where the Borrower does not meet the eligibility requirements for a short sale and the Servicer determines a short sale may be the best option for addressing the Delinquency or imminent Delinquency, the Servicer must use Resolve® to submit a recommendation to Freddie Mac for review with the following required documentation:

1. Complete Borrower Response Package or other documentation as permitted in Section 9208.3
2. A copy of the fully executed sales contract on the Mortgaged Premises with addenda, stating that it is being purchased in “as-is” condition. If the buyer obtains FHA, RHS or

VA financing, then the contract does not need to include the “as-is” condition if FHA, RHS or VA requires the condition to be removed.

3. Preliminary Settlement/Closing Disclosure Statement
4. For Mortgages secured by properties subject to resale restrictions (in accordance with Chapters 4406, 4502 or 4504, as applicable), the applicable resale restrictions containing details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met
5. For Cooperative Share Loans, the additional documentation listed in Section 8801.5(c)(i)

In addition, the Servicer may submit a recommendation to Freddie Mac for consideration if the Borrower does not have an eligible hardship but one of the following conditions exists and, in the Servicer’s judgment, the short sale is an appropriate resolution to the Delinquency:

- There is a Risk of Property Ownership to Freddie Mac (see Section 9202.5)
- Litigation is pending that affects the Mortgaged Premises or the Mortgage and could jeopardize a successful foreclosure sale
- Other special circumstances (e.g., the Mortgaged Premises deteriorated resulting in an unexpected decline in the value)

Note: All non-delegated short sales submitted through Resolve will be available for review in the Resolve dashboard.

9208.3: Borrower documentation for a short sale (07/31/22)

(a) Borrower documentation

The table below describes Borrower documentation requirements for a short sale by delinquency status. In addition to the requirements below, all Borrowers must provide the Servicer a copy of the fully executed sales contract with any addenda and the preliminary Settlement/Closing Disclosure Statement once those documents are available.

If the Mortgage delinquency status at of the time of evaluation is...	The Servicer must...
Current or less than 90 days delinquent	<p>Evaluate the Borrower based on a complete Borrower Response Package (BPR) as defined in Section 9102.5.</p> <p>Note: If the Mortgage is current or less than 60 days delinquent, the Servicer must determine that the Borrower's monthly payment is in non-retention imminent default in accordance with Section 9208.3(b)(i)(C).</p>
Between 90 days and 18 months delinquent	<p>Evaluate the Borrower based on a complete BRP, unless one of the following conditions applies:</p> <ul style="list-style-type: none"> ■ The Borrower failed a Freddie Mac Flex Modification® Trial Period Plan within the 12 months prior to evaluation for a short sale or deed-in-lieu of foreclosure ■ The Borrower previously received a Freddie Mac Flex Modification and became 60 days or more delinquent within the first 12 months of the effective date of the modification without curing the Delinquency ■ The Borrower previously completed three or more modifications; or ■ The Borrower received a forbearance plan as a result of a hardship due to their Mortgaged Premises or places of employment being located in an Eligible Disaster Area or COVID-19 and became 90 days or more delinquent prior to the evaluation for a short sale; or ■ The Mortgage is not secured by an Investment Property, as identified at origination and the Borrower's FICO® credit score is less than or equal to 620 <p>In these cases, the Servicer must evaluate the Borrower for a Streamlined Short Sale or Streamlined Deed-in-Lieu of Foreclosure.</p>
Greater than 18 months delinquent	<p>Evaluate the Borrower for a Streamlined Short Sale.</p> <p>A Streamlined Short Sale is a Standard Short Sale where the Servicer is not required to obtain the Borrower Response Package or to verify an eligible hardship.</p>

If the debt secured by the Mortgaged Premises has been discharged in a bankruptcy proceeding filed pursuant to Chapter 7 of the U.S. Bankruptcy Code, the Borrower is eligible for a short sale evaluation regardless of delinquency, occupancy or property type and without requiring a BRP. The Borrower must provide the Servicer a copy of the order and

accompanying documents showing that the debt was discharged. The Servicer must retain those documents in the Mortgage file.

The Borrower's FICO score must be no more than 90 days old as of the date the Servicer evaluates the Borrower for a short sale. If there is more than one Borrower on the Mortgage, the Servicer must choose one FICO score that is adequately indicative of the credit reputation of all Borrowers currently on the Mortgage. The Servicer must first select a single FICO score for each Borrower on the Mortgage. If the Servicer obtains multiple FICO scores for a single Borrower, the Servicer must use the middle/lower method to select the single FICO score for that Borrower. If there are multiple Borrowers on the Mortgage, the Servicer must determine the single FICO score for each Borrower using the method described above. The Servicer must then select either the lowest FICO score across all Borrowers on the Mortgage or the average FICO score from all Borrowers' single scores. Whichever method is used, the Servicer must choose the single FICO score using the same method and procedure for all Borrowers and for all Mortgages consistent with fair lending laws.

If the Borrower was previously determined to be eligible for a Streamlined Short Sale and had yet to receive a purchase offer, then when a subsequent purchase offer is received, the Servicer may use the same FICO score obtained for the Servicer's initial evaluation of the Borrower for a short sale even if the FICO score has become more than 90 days old. However, if the Borrower has since brought the Mortgage current, then the Borrower is no longer eligible for a Streamlined Short Sale and is required to submit a complete Borrower Response Package to the Servicer to be evaluated for the short sale.

(b) Evaluating the Borrower

(i) Evaluating the credit report

The Servicer must obtain a credit report for each Borrower on the Mortgage (or a joint report for co-Borrowers). The credit report must be no more than 90 days old as of the date the Servicer evaluates the Borrower for a short sale. The Servicer must review the credit report to verify that the Borrower meets the relevant requirements for a short sale and to evaluate the Borrower's ability to make a contribution.

(A) Verifying occupancy

For Borrowers who are current or less than 60 days delinquent, the Servicer must review the credit report to verify that at least one of the Borrowers is occupying the Mortgaged Premises as a Primary Residence. If the credit report does not indicate that the Mortgaged Premises is the Primary Residence for at least one Borrower, then the Servicer must use good business judgment in reconciling the inconsistency.

(B) New Mortgages

Unless a Borrower is eligible for a Streamlined Short Sale, the Servicer must review the Borrower's credit report to determine whether the Borrower obtained a new

Mortgage(s) in the six months preceding the Borrower's Delinquency or, if the Borrower is current, in the six months preceding the evaluation of the Borrower for a short sale.

If the Servicer's review of the credit report reveals a new Mortgage, the Servicer may approve the short sale only if the hardship was due to distant employment transfer, relocation due to new employment or Permanent Change of Station (PCS) orders and the Servicer verifies that:

- The Borrower intends to occupy the property securing the new Mortgage as the Borrower's Primary Residence
- The new employment location is greater than 50 miles one-way from the subject property
- The new property address is reasonably near the Borrower's new employment location

If the Borrower has any other hardship and the Servicer determines a new Mortgage has been obtained, the Servicer is not delegated to approve the short sale and must submit the request to Freddie Mac for consideration.

If the Servicer's review of the credit report indicates that a mortgage creditor has made an inquiry within the previous four-month period, the Servicer must contact the Borrower to determine the following on the Mortgage sought:

- The address of the property,
- The purpose of the inquiry (e.g., refinance or purchase Mortgage) and
- The result of the inquiry (e.g., refinance or purchase Mortgage is pending, closed or canceled)

If a purchase Mortgage was obtained, then the Servicer is not delegated to approve the short sale and the file must be sent to Freddie Mac. Refer to Section 9208.2 regarding submission of a short sale to Freddie Mac.

(C) Special requirements for Borrowers who are current or less than 60 days delinquent

If a Borrower is current or less than 60 days delinquent at the time of initial evaluation, he or she must be considered to be in non-retention imminent default following the business rules in the chart below unless the Borrower was discharged from a Chapter 7 bankruptcy in order to be eligible for a short sale.

(I) Non-retention Imminent default evaluation business rules

Any Borrower who is current or less than 60 days delinquent at the time the Servicer begins the initial evaluation is in imminent default if the Borrower meets the requirements of the following business rules:

Non-retention imminent default evaluation Business Rules	
To be considered in non-retention imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:	
	<ul style="list-style-type: none">• Business Rule 2, or• Business Rule 3
Business Rule 1	<p>Each Borrower must:</p> <ul style="list-style-type: none">■ Submit a complete Borrower Response Package■ Be current or less than 60 days delinquent (i.e., less than three monthly payments past due) on the Mortgage as of the evaluation date■ Occupy the property as a Primary Residence; or at least one Borrower on the Mortgage must occupy the property as his or her Primary Residence■ Have Cash Reserves less than \$25,000■ Have an eligible hardship as described in Section 9202.2 <p>Note: Requirements related to occupancy and non-retirement liquid assets do not apply if the Borrower is a Servicemember with PCS orders and the property securing the mortgage is or was the Borrower's Primary Residence, where the transfer or new employment location is greater than 50 miles one-way from the property securing the Mortgage.</p>
Business Rule 2	<p>The Borrower is considered in non-retention imminent default if the Borrower meets the requirements of Business Rule 1, and</p> <ul style="list-style-type: none">■ The Borrower's FICO score is less than or equal to 620 determined in accordance with Section 9206.7(e); AND■ The Mortgage has had two or more 30-day Delinquencies in the most recent 6-month period; OR■ The Borrower's housing expense-to-income ratio is greater than 40% as of the evaluation date

Non-retention imminent default evaluation Business Rules	
<p>To be considered in non-retention imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:</p> <ul style="list-style-type: none"> • Business Rule 2, or • Business Rule 3 	
	<p>If the Borrower has one of the Imminent Default Hardships described below in Business Rule 3, the Borrower may be determined to be in imminent default even if these Business Rule 2 requirements are not met.</p>
Business Rule 3	<p>The Borrower is considered in non-retention imminent default if the Borrower meets the requirements of Business Rule 1, and the Borrower provided the documentation required in Section 9202.2 supporting one of the Imminent Default Hardships listed below:</p> <ul style="list-style-type: none"> ■ Death of a Borrower or death of either the primary or secondary wage earner in the household ■ Long-term or permanent disability; or serious illness of a Borrower/co-Borrower or dependent family member ■ Divorce or legal separation; separation of Borrower unrelated by marriage, civil union or similar domestic partnership under applicable law; or ■ Distant employment transfer or relocation due to new employment or PCS orders where the property securing the Mortgage being evaluated is the Borrower's Primary Residence. The new employment location must be more than 50 miles one-way from the property securing the Mortgage being evaluated. <p>The Imminent Default Hardship must currently cause and be expected to continue to cause a long-term or permanent decrease in income or increase in expenses.</p>

The Servicer must always submit all information for Business Rule 1 and Business Rule 2, even if the Borrower does not meet the requirements under Business Rule 2 and instead is approved based on the Imminent Default Hardship under Business Rule 3.

(II) Income and asset documentation and verification

(a) Documentation Verification

To be evaluated for non-retention imminent default, a Borrower must, at a minimum, provide a complete Borrower Response Package as defined in Section 9102.5(c). In addition to the income documentation required under Section 9202.3, the Servicer must obtain the Borrower's FICO score in accordance with Section 9208.3(C).

(b) Verification of income and assets; resolution of material inconsistencies

Servicers must review all documentation submitted by the Borrower to identify any material inconsistencies, including material inconsistencies with a tax return or tax transcript if one was obtained under Section 9202.3. If, based on the Servicer's good business judgment, there are material inconsistencies with respect to the income or asset information disclosed by the Borrower or with other documentation relevant to the imminent default decision, the Servicer must obtain other documentation to reasonably reconcile such material inconsistencies. Servicers must also document such material differences in their servicing system. If the Servicer cannot reconcile such material differences, the Borrower cannot be considered in imminent default.

(III) Cash Reserves test

The Servicer must complete an evaluation of the Borrower's Cash Reserves. The Borrower must have Cash Reserves of less than \$25,000 to be further evaluated for imminent default. If the Borrower either discloses or provides documentation indicating the Borrower has Cash Reserves equal to or greater than \$25,000, then the Borrower is not in imminent default.

(a) Definition of Cash Reserves

For purposes of determining imminent default, Cash Reserves are defined as follows:

Cash Reserves: Any non-retirement liquid asset the Borrower has available for withdrawal from any financial institution or brokerage, including funds on deposit in the Borrower's checking, savings, money market or certificate of deposit account or other depository account, stocks, bonds, mutual funds, U.S. Government Securities and other securities that are traded on an exchange or marketplace generally available to the public (e.g., New York Stock Exchange, National Association of Securities Dealers Automated Quotations, Midwest SE, Chicago Board of Trade or Over the Counter) for which the price can be readily verified through financial publications.

Assets are only considered retirement assets if they are held in a qualified retirement account such as a 401k, 403b, 457, Individual Retirement

Account (IRA) or pension fund. If the assets are not held in a retirement account, the assets must be considered Cash Reserves.

(b) Calculating Cash Reserves

The Servicer must calculate the Borrower's Cash Reserves in accordance with the following requirements:

1. The Servicer must determine that, for every Borrower on the Mortgage, all of the Borrower's Cash Reserves have been accounted for on Form 710, Mortgage Assistance Application
2. In making the determination that all Cash Reserves have been accounted for, the Servicer must review all information provided by the Borrower to determine if the asset information stated on Form 710 is reasonably consistent with information available from all other information provided by the Borrower, including verbal information shared by the Borrower. If there are inconsistencies between the Borrower's disclosure of assets and the information provided by the Borrower, then the Servicer must obtain the Borrower's tax return or tax transcript in order to reconcile the inconsistencies.

If, upon reviewing the Borrower's tax return or tax transcript, if applicable, the Servicer observes interest, dividend income or gains/losses that, in total, that could not be reasonably produced by the Borrower's disclosed Cash Reserves, and such income indicates deposits, securities holdings or other assets that could be in excess of the amounts disclosed by the Borrower on Form 710, the Servicer must reconcile the inconsistency with the Borrower. The Servicer must require the Borrower to produce a signed federal tax return and all relevant schedules, in the event the Servicer used a tax transcript in lieu of a tax return, along with any other relevant documentation that verifies the disposition and/or current status of those assets, which produced the income or gains/losses to resolve the inconsistency.

The Servicer must ensure that the Borrower's disclosure of assets is reasonably accurate despite the inconsistency between the disclosed assets and the income or gain/loss from assets reported on the tax return or tax transcript. In determining what documentation is needed to reconcile an inconsistency, the Servicer must review the detailed tax return schedules and forms, and request from the Borrower copies of recent and past statements from those asset holdings or transactions indicated on the schedules and forms that produced the income or gain/loss (e.g., checking, savings, brokerage account statements, asset sale statements or records, etc.).

3. If there are inconsistencies between the Borrower's disclosure of assets and the tax return information that cannot be reconciled, the Borrower cannot be considered in imminent default.

If the Servicer determines that the Borrower has Cash Reserves of less than \$25,000 and meets all other requirements of Section 9208.3(C) then the Borrower is considered to be in imminent default.

(IV) Imminent default credit score

Servicers must choose one FICO score that is adequately indicative of the credit reputation of all Borrowers currently on the Mortgage. Servicers must use a credit score based on the FICO credit-scoring model. This score must be obtained and determined in accordance with the requirements below.

(a) Obtaining FICO scores for each Borrower

The Servicer must request a FICO score for each Borrower on the Mortgage from any one of the following three credit repositories:

- Equifax Credit Information Services
- Experian Information Systems and Services
- TransUnion Credit Information Company

The Borrower's FICO score must be less than 90 days old on the date the Servicer performs the imminent default evaluation.

Borrowers with no available FICO score

It is unusual for any Borrower who has obtained a Mortgage not to have a FICO score. If no single FICO score can be identified for a Borrower, the Servicer must recheck the information provided when ordering the FICO scores and resubmit a request. If the Servicer is still unable to obtain a FICO score for that Borrower, it may rely on the FICO scores of all other Borrowers as determined in accordance with this section.

Absent a FICO score for any Borrower on the Mortgage, the Borrower may not be determined to be in imminent default under the requirements of Business Rule 2, and the Servicer must proceed to evaluate the Borrower under the requirements of Business Rule 3 in Section 9208.3(a). In such instances when a FICO score is not available for any Borrower on the Mortgage, the Servicer must:

1. Maintain documentation in the Mortgage file that demonstrates the Servicer's attempts to obtain FICO scores from all three credit repositories on all Borrowers
2. Enter the result that a FICO score is not available for any Borrower on the Mortgage into Resolve®
3. Proceed to the Imminent Default Hardship test in Business Rule 3 to determine if an Imminent Default Hardship exists

(b) Determining the Imminent Default Credit Score

The Servicer must identify the Imminent Default Credit Score in accordance with the following:

- The Servicer must first select a single FICO score for each Borrower on the Mortgage. If the Servicer obtains multiple FICO scores for a single Borrower, the Servicer must use the middle/lower method to select the single FICO score for that Borrower. This method is the most predictive when determining a single Borrower's overall credit reputation. If three FICO scores are obtained for a Borrower, the single score for that Borrower is the one with the middle value. For example, if the FICO scores were 660, 656 and 640, the single FICO score selected by the Servicer should be 656. When there is a duplicate score, the Seller must select that score to be the single score. If the FICO scores for a Borrower were 660, 660 and 640, the Servicer should select 660. If two FICO scores were obtained for a Borrower, the Servicer must select the lower of the two FICO scores to be the single FICO score for that Borrower.
- If there is only one Borrower on the Mortgage, the single FICO score, determined in accordance with the above requirements, is considered the Imminent Default Credit Score
- If there are multiple Borrowers on the Mortgage, the Servicer must determine the single FICO score for each Borrower using the method described above. The Servicer must then select either the lowest FICO score across all Borrowers on the Mortgage or the average FICO score from all Borrowers' single scores. (Note: Whichever method is used, the Servicer should choose the single FICO score using the same method and procedure for all Borrowers and for all Mortgages consistent with fair lending laws.)

(V) Calculating housing expense-to-income (HTI) ratio

The Servicer must use verified income to determine that the Borrower's housing expense-to-income (HTI) ratio is greater than 40%. For purposes of this

determination, the Servicer must divide the Borrower's current monthly housing expense by the Borrower's monthly gross income (or the Borrowers' combined monthly gross income in the case of co-Borrowers) plus any allowable non-obligor household income.

The Borrower's current monthly housing expense consists of the following, as applicable:

- Monthly P&I payment
- Monthly pro rata amount for real estate taxes
- Monthly pro rata amount for property or flood insurance
- Monthly pro rata amount for homeowners association (HOA) dues, Condominium Unit or Cooperative Unit Maintenance Fees and ground rent
- Any escrow shortage currently included as part of the monthly contractual payment

If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must use the principal and interest payment and the contractual rate of interest in effect on the Note prior to the granting of the SCRA relief rather than the temporarily SCRA reduced interest rate and related SCRA monthly payment when calculating the Borrower's current monthly HTI ratio.

If a Borrower has indicated that there are condominium/HOA or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, or ground rents, but has not been able to provide written documentation to verify these amounts, the Servicer must rely on the information provided by the Borrower if the Servicer has made reasonable efforts to obtain the amounts in writing.

The current monthly housing expense does not include mortgage insurance premium payments or payments due to holders of subordinate liens.

For each imminent default evaluation under Business Rule 2, the Servicer must report the housing expense-to-income ratio, in addition to the FICO score and payment history as described below, to Freddie Mac via Workout Prospector.

(VI) Payment history

For imminent default evaluations under the requirements of Business Rule 2, the Servicer must determine whether the Mortgage has had two or more 30-day

Delinquencies in the most recent six-month period. For each imminent default evaluation under Business Rule 2, the Servicer must report the payment history, in addition to the FICO score and pre-modification housing expense-to-income ratio, to Freddie Mac via Resolve.

Note: The Servicer must not consider a missed contractual payment that becomes 60 or more days delinquent as a Mortgage having two or more 30-day Delinquencies in the most recent six-month period.

(VII) Imminent default evaluation results

If the Borrower meets the requirements of Business Rule 1 and meets the requirements of either: (i) Business Rule 2, or (ii) Business Rule 3, the Borrower is in imminent default. The Servicer must evaluate the Borrower for a short sale and no further analysis is required by the Servicer to determine imminent default.

(VIII) General requirements and information

If the Servicer determines that a Borrower is in imminent default, the Servicer must continue evaluating the Borrower using the applicable underwriting requirements outlined in this chapter to determine if the Borrower qualifies for a short sale.

9208.4: Short sale Borrower contributions and relocation assistance (04/01/23)

(a) Borrower contributions towards the deficiency

If the Servicer determines that the Borrower's Cash Reserves exceed \$10,000 or the Borrower's housing expense-to-income (HTI) ratio is less than or equal to 40%, the Servicer must request a cash contribution in accordance with the requirements below. The Servicer must verbally confirm the assets reported on Form 710, Mortgage Assistance Application, and reconcile any differences with documentation following the procedure in Section 9202.3. A Servicer may negotiate contribution amounts less than the initial contribution requests, which must be determined in accordance with the cash contribution formula in this section. When a Servicer negotiates a contribution that is less than the initial request, the Servicer must document the reason for its decision(s) in the Mortgage file and note the specific financial circumstances that limit the Borrower's ability to contribute towards the deficiency.

Unless Freddie Mac has delegated authority with the MI or communicates otherwise, if the Mortgage is covered by mortgage insurance and the MI requires a contribution from the Borrower that is greater than the contribution limits required by this section in order to approve the short sale, the Servicer must require the Borrower to make the contribution required by the MI as a condition of approval.

Borrowers are not required to make a contribution in the following instances:

- Borrowers who are service members with Permanent Change of Station orders, provided the property securing the Mortgage is or was previously the Borrower's Primary Residence where the transfer or new employment location is greater than 50 miles one-way from the property securing the Mortgage being evaluated
- Borrowers who qualify for a Streamlined Short Sale (refer to Section 9208.3)
- Applicable law prohibits requesting or receiving a contribution

1. Determining a cash contribution amount

If the Borrower's Cash Reserves exceed \$10,000 or his or her HTI ratio is less than or equal to 40%, the Servicer must request the greater of 20% of the Cash Reserves or four times principal, interest, taxes and insurance (PITI) as a cash contribution. The cash contribution must not exceed the total amount of the deficiency.

- Borrowers who are current or less than 60 days delinquent and meet the criteria described in the Cash Reserves Test
 - If the Borrower is current or less than 60 days delinquent and meets the criteria described in the Cash Reserves test, the Borrower must contribute a minimum of 20% of their Cash Reserves. If the Borrower is unwilling to contribute 20% of their Cash Reserves, the Servicer must submit the case to Freddie Mac for review.
- Borrowers who are 60 or more days delinquent

If a Borrower who is 60 or more days delinquent cannot contribute 20% of his or her Cash Reserves, the Servicer may negotiate a lower level of contribution. If the Servicer negotiates and collects less than 20% of the Cash Reserves, the Servicer must document the specific financial circumstances that limit the Borrower's ability to make the initially requested level of cash contribution (i.e., 20% of the Borrower's Cash Reserves) in the Mortgage file.

Based on the Servicer's assessment of the Borrower's written or stated ability to pay in combination with its evaluation of the Borrower's financial and hardship information, the Servicer is authorized to negotiate a lower contribution amount. Additionally, the Servicer may determine that the Borrower's individual circumstances warrant a lower starting point to cash contribution negotiations or no contribution. If a Borrower refuses to contribute an amount the Servicer deems acceptable, then the short sale is not delegated and must be submitted to Freddie Mac following the process in Section 9208.2. If the Servicer determines the Borrower is unable to contribute at least \$500 toward the deficiency, then the Servicer must not collect a cash contribution.

If the Borrower's Cash Reserves are in excess of \$50,000, the Servicer must submit the short sale request to Freddie Mac for review.

Refer to Section 9208.2 regarding the details for submitting a short sale recommendation to Freddie Mac.

(b) Borrower relocation assistance

If the Servicer determines that the Borrower is not required to make a financial contribution toward the deficiency, the Borrower is eligible to receive up to \$7,500 in relocation assistance provided that the Borrower occupies the Mortgaged Premises as his or her Primary Residence. The Borrower is not eligible to receive relocation assistance in the following circumstances:

- The Borrower will receive relocation assistance from a source other than Freddie Mac or the Servicer, such as an employer, and the amount is equal to or greater than \$7,500. If the Borrower will receive relocation assistance from a source other than Freddie Mac or the Servicer and the amount is less than \$7,500, the Servicer must reduce the amount of Freddie Mac's relocation assistance by the amount received from the other source.
- The Servicer determines that the Borrower's Cash Reserves exceed \$10,000 or his or her HTI ratio is less than or equal to 40%, regardless of whether the Borrower makes a contribution. If the Servicer believes such a Borrower is experiencing financial circumstances necessitating relocation assistance, the Servicer may submit the file to Freddie Mac. Refer to Section 9208.2 regarding the details for submission to Freddie Mac.
- The Borrower is subject to PCS orders and receives government assistance with the relocation.

For example, if the Borrower receives \$1,000 of relocation assistance from his or her employer, Freddie Mac may provide the Borrower with an additional \$6,500 of relocation assistance.

The Servicer must instruct the settlement agent to pay the Freddie Mac relocation assistance from sale proceeds and itemize it and any relocation assistance received from other entities separately on the Settlement/Closing Disclosure Statement to the extent that the Servicer is aware of other relocation or transition assistance payments being paid as part of the short sale transaction.

In addition to the relocation assistance offered by Freddie Mac, the Servicer may in its discretion offer the Borrower an additional financial incentive to complete the short sale. Any relocation assistance provided by the Servicer will be in addition to the relocation assistance amount provided by Freddie Mac and the Servicer's assistance amount does not have to be subtracted from the assistance amount Freddie Mac will pay. If the Servicer does offer its own financial assistance, it must not deduct this payment from the proceeds of the short sale

and must provide the incentive from its own funds, either by payment made directly to the Borrower, or through the settlement agent closing the short sale transaction. Payments made to the Borrower by the Servicer must be reflected on the Settlement/Closing Disclosure Statement in accordance with applicable law.

The relocation assistance payment may not be applied to other debts secured by the Mortgaged Premises.

9208.5: Property valuation and minimum net proceeds for short sales (07/31/22)

(a) When to obtain a property valuation

If the Servicer has evaluated the Borrower for all other alternatives to foreclosure in accordance with Freddie Mac's evaluation hierarchy set forth in Section 9201.2 and believes that the Borrower meets the eligibility requirements for a Freddie Mac Standard Short Sale ("short sale"), then, unless otherwise instructed by Freddie Mac, the Servicer must obtain an interior property valuation in accordance with the Guide, if the Borrower:

1. Has listed the Mortgaged Premises for sale; or
2. Has expressed interest in a short sale; or
3. Notifies the Servicer of a purchase offer on the Mortgaged Premises

The Servicer must obtain a short sale property value from Freddie Mac, as applicable, when one of the above situations occurs. An evaluation for a Borrower contribution should not delay the Servicer's request for a property valuation.

(b) How to obtain a short sale property value and minimum net proceeds

With the exception of Mortgages secured by properties subject to resale restrictions (in accordance with Chapter 4502 or 4406, as applicable), the Servicer must submit a request to Freddie Mac for the short sale property value and the minimum net proceeds via the "Obtain Valuation" tab in Freddie Mac Real Estate Valuation and Pricing tool when considering a Borrower for a short sale.

The Servicer must advise the Borrower that the person evaluating the Mortgaged Premises must be given interior access and that the Borrower must otherwise cooperate with the inspection.

An "estimated market value" of the Mortgaged Premises and the "minimum net proceeds" as determined by Freddie Mac will be returned by the Real Estate Valuation and Pricing tool with a "good through date" indicating the expiration date of the property value and minimum net proceeds amount. If the Servicer is unable to render an evaluation decision on a purchase

offer prior to the good through date, a new property value and minimum net proceeds must be obtained via the Real Estate Valuation and Pricing tool to evaluate the purchase offer.

Refer to Chapter 2404 for terms and requirements for using Freddie Mac's Servicing Tools.

Note: If the Servicer enters a short sale into Resolve® without obtaining a property value or minimum net proceeds or if those values have expired, Resolve will obtain the property value and minimum net proceeds automatically.

(c) Listing price guidance

If a short sale property value and minimum net proceeds were obtained, the Servicer should provide listing price guidance to the Borrower or real estate broker based upon the property value obtained from Freddie Mac. However, the Servicer must inform the Borrower or real estate broker of the following when providing such guidance:

- The value provided is only guidance. Such guidance should not be presented as the required listing price to the Borrower or real estate broker. The Borrower and the real estate broker are responsible for determining the list price for the Mortgaged Premises.
- All transactions must meet the minimum net proceeds required by Freddie Mac regardless of the value provided. An offer at or above the value provided by the Servicer may not necessarily result in an acceptable level of net proceeds.

In addition to providing listing price guidance, Servicers must communicate a list of acceptable closing expense categories to the Borrower and the real estate broker as described in Section 9208.7(d).

(d) Mortgages secured by properties subject to resale restrictions

Servicers are not required to obtain short sale property values and minimum net proceeds on Mortgages secured by properties subject to with resale restrictions (in accordance with Chapter 4502 or 4406, as applicable). If the Servicer is considering a Borrower for a short sale on a Mortgage secured by a property subject to resale restrictions, then the Servicer is not delegated to approve the short sale and the file must be sent to Freddie Mac. Refer to Section 9208.2 regarding submission of a short sale to Freddie Mac.

For listing price guidance and acceptable closing expense categories which may be specific to Mortgages secured by properties subject to resale restrictions, Servicers must refer to the applicable resale restrictions.

9208.5: Property valuation and minimum net proceeds for short sales (Future effective date 10/02/23)

(a) When to obtain a property valuation

If the Servicer has evaluated the Borrower for all other alternatives to foreclosure in accordance with Freddie Mac's evaluation hierarchy set forth in Section 9201.2 and believes that the Borrower meets the eligibility requirements for a Freddie Mac Standard Short Sale ("short sale"), then, unless otherwise instructed by Freddie Mac, the Servicer must obtain an interior property valuation in accordance with the Guide, if the Borrower:

1. Has listed the Mortgaged Premises for sale; or
2. Has expressed interest in a short sale; or
3. Notifies the Servicer of a purchase offer on the Mortgaged Premises

The Servicer must obtain a short sale property value from Freddie Mac, as applicable, when one of the above situations occurs. An evaluation for a Borrower contribution should not delay the Servicer's request for a property valuation.

(b) How to obtain a short sale property value and minimum net proceeds

With the exception of Mortgages secured by properties subject to resale restrictions (in accordance with Chapters 4406, 4502 or 4504, as applicable), the Servicer must submit a request to Freddie Mac for the short sale property value and the minimum net proceeds via the "Obtain Valuation" tab in Freddie Mac Real Estate Valuation and Pricing tool when considering a Borrower for a short sale.

The Servicer must advise the Borrower that the person evaluating the Mortgaged Premises must be given interior access and that the Borrower must otherwise cooperate with the inspection.

An "estimated market value" of the Mortgaged Premises and the "minimum net proceeds" as determined by Freddie Mac will be returned by the Real Estate Valuation and Pricing tool with a "good through date" indicating the expiration date of the property value and minimum net proceeds amount. If the Servicer is unable to render an evaluation decision on a purchase offer prior to the good through date, a new property value and minimum net proceeds must be obtained via the Real Estate Valuation and Pricing tool to evaluate the purchase offer.

Refer to Chapter 2404 for terms and requirements for using Freddie Mac's Servicing Tools.

Note: If the Servicer enters a short sale into Resolve[®] without obtaining a property value or minimum net proceeds or if those values have expired, Resolve will obtain the property value and minimum net proceeds automatically.

(c) Listing price guidance

If a short sale property value and minimum net proceeds were obtained, the Servicer should provide listing price guidance to the Borrower or real estate broker based upon the property value obtained from Freddie Mac. However, the Servicer must inform the Borrower or real estate broker of the following when providing such guidance:

- The value provided is only guidance. Such guidance should not be presented as the required listing price to the Borrower or real estate broker. The Borrower and the real estate broker are responsible for determining the list price for the Mortgaged Premises.
- All transactions must meet the minimum net proceeds required by Freddie Mac regardless of the value provided. An offer at or above the value provided by the Servicer may not necessarily result in an acceptable level of net proceeds.

In addition to providing listing price guidance, Servicers must communicate a list of acceptable closing expense categories to the Borrower and the real estate broker as described in Section 9208.7(d).

(d) Mortgages secured by properties subject to resale restrictions

Servicers are not required to obtain short sale property values and minimum net proceeds on Mortgages secured by properties subject to resale restrictions (in accordance with Chapters 4406, 4502 or 4504, as applicable). If the Servicer is considering a Borrower for a short sale on a Mortgage secured by a property subject to resale restrictions, then the Servicer is not delegated to approve the short sale and the file must be sent to Freddie Mac. Refer to Section 9208.2 regarding submission of a short sale to Freddie Mac.

For listing price guidance and acceptable closing expense categories which may be specific to Mortgages secured by properties subject to resale restrictions, Servicers must refer to the applicable resale restrictions.

9208.6: Communication timelines for short sales (03/02/16)

The following chart sets forth the required response times when a Freddie Mac Standard Short Sale (“short sale”) is being considered as a solution to the Delinquency for either: (i) a Mortgage that is not secured by a Primary Residence or (ii) a Mortgage that is secured by a Primary Residence and the Servicer is not evaluating the Borrower for a short sale using the First Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale date.

Short sale: Submission of purchase offer and Servicer decision	
Days	Action required
5 Business Days	<p>The Servicer must acknowledge receipt of the purchase offer within five Business Days.</p> <p>If the purchase offer is submitted with insufficient information, the Servicer must notify the Borrower of the information needed to evaluate the offer within five Business Days of receipt of the offer.</p>
30 days	<p>The Servicer must respond to the Borrower with a purchase decision within 30 days of receipt of the purchase offer. If the purchase offer does not meet Freddie Mac's minimum net proceeds threshold, and/or is denied by Freddie Mac, the Servicer must notify the Borrower and include an acceptable counteroffer in its response.</p> <p>Note: In the event that a Borrower has submitted a complete Borrower Response Package and a purchase offer simultaneously, the response period for evaluating both the complete Borrower Response Package and the purchase offer is the same as outlined in this section (i.e., provide a decision within 30 days following receipt of purchase offer and Borrower Response Package).</p>
Short sale: Counteroffers (if purchase offer is less than the minimum net proceeds)	
Days	Action required
5 Business Days	Borrower must respond to the Servicer's counteroffer within five Business Days of the date the counteroffer is received
10 Business Days	Servicer must respond to the Borrower within 10 Business Days of receipt of the Borrower's response to the counteroffer

The Servicer must maintain documentation of all communications to and from the Borrower, whether verbal or written, and including status updates, either in the Mortgage file or in the Servicer's servicing system. In addition, the Servicer must provide the information to Freddie Mac for review upon request.

Refer to Section 9101.4 for foreclosure suspension requirements when the First Complete Borrower Response Package is received more than 37 days prior to a scheduled foreclosure sale.

Refer to Sections 9102.5(c) and 9301.28 for foreclosure suspension requirements for a Mortgage that has been referred to foreclosure and is either: (i) not secured by a Primary Residence or (ii) secured by a Primary Residence and the Servicer is not evaluating the Borrower for a short sale using the First Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale date.

9208.7: Short sale transaction and processing requirements (04/01/23)

In order for the Freddie Mac Standard Short Sale (“short sale”) to be approved by either the Servicer or Freddie Mac, the short sale transaction must meet the following requirements:

(a) Sales proceeds

The Servicer must review the executed sales contract and preliminary Settlement/Closing Disclosure Statement to ensure the minimum net proceeds amount provided by Freddie Mac via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools), if applicable, will result from the sale unless otherwise permitted by Freddie Mac in writing.

The Borrower must not receive any proceeds from the sale of the Mortgaged Premises other than relocation assistance paid to the Borrower in accordance with the requirements of Section 9208.4 and reflected on the Settlement/Closing Disclosure Statement.

(b) Determining if the transaction meets the minimum net proceeds

If applicable, when determining whether the transaction meets or exceeds the minimum net proceeds as provided by the Real Estate Valuation and Pricing tool, the Servicer must deduct from the gross sales price the following allowable transaction costs up to the maximum amount as described below:

- Allowable Closing Costs reasonable and customary for the jurisdiction where the Mortgage Premises is located, including:
 - Property taxes and other assessments prorated to the date of closing
 - Typical and customary local and state transfer taxes and stamps
 - Title and settlement charges typically paid by the seller
 - Seller’s attorney fees for settlement services typically provided by a title or escrow company
 - Wood-destroying pest inspections and treatment, when required by local law or custom

- Past-due condominium/ homeowners association (HOA) or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents, as applicable
- The following transaction costs are subject to more specific parameters, as indicated below:
 - Real estate broker commission, including any short sale negotiation fees, if applicable, as described in Section 9208.7(e) and 9208.7(f)
 - Borrower incentives (if applicable), as described in Section 9208.4
 - Payment to subordinate mortgage holders (if applicable), as provided in Section 9208.7(c)
 - Any other amounts authorized by Freddie Mac
- The following transaction costs are prohibited by Freddie Mac:
 - Real estate sales commissions paid to the Borrower or the purchaser
 - Buyer's discount points or mortgage loan origination costs; or
 - Fees that are not usual or customary to the local market
- Borrower contributions must not be counted toward the minimum net proceeds

For example, if the purchase offer submitted by the Borrower/real estate broker is \$100,000 then the Servicer will determine whether the minimum net proceeds are met as follows:

\$100,000	(Gross sales price)
-\$9,000	(Allowable Closing Costs including real estate commission)
-\$6,000	(Payment to subordinate mortgage holders)
-\$7,500	(Borrower relocation assistance)

\$77,500	(Determine whether this amount meets or exceeds the minimum net proceeds provided in the Real Estate Valuation and Pricing tool)
----------	--

The Servicer must not disclose the minimum net proceeds to any party, if applicable, including, but not limited to, the Borrower, the real estate broker and any prospective buyer, except as authorized by Freddie Mac.

As applicable, the Servicer must ensure that the transaction meets or exceeds the minimum net proceeds amount prior to approving a short sale transaction. If the minimum net proceeds

are not met, the Servicer must provide a counteroffer for an amount that would meet the minimum net proceeds in accordance with the response time frames set forth in Section 9208.6. Under no circumstances is the Servicer delegated to approve a transaction if the amount to be remitted to Freddie Mac at closing is less than the minimum net proceeds amount, if applicable. If the transaction does not meet the minimum net proceeds established by Freddie Mac, the Servicer may submit the Mortgage to Freddie Mac for further review. (Refer to Section 9208.2 for more information regarding the requirements for submitting a recommendation to Freddie Mac).

(c) Payments to subordinate mortgage holders

For each short sale completed in accordance with Sections 9208.1 through 9208.8, the Servicer may authorize the settlement agent closing the short sale transaction to pay subordinate mortgage holders an aggregate amount of six thousand dollars (\$6,000.00) from sales proceeds at the same time that all other payments, including the payoff to Freddie Mac, are disbursed by the settlement agent. The subordinate mortgage holders may not receive any other payments, in cash, promissory note or otherwise, from the Borrower in connection with approval of the short sale.

If there are multiple subordinate mortgage holders, the Servicer has the discretion to divide the subordinate mortgage payment among them so as to maximize the chances that all subordinate mortgage holders will approve the short sale.

Payment of any amount to subordinate mortgage holders is contingent upon agreement by all mortgage holders to release their Mortgages and, if they are accepting a payment from Freddie Mac, extinguish the indebtedness secured by the Mortgaged Premises. In addition, subordinate mortgage holders accepting payment from Freddie Mac must agree in writing to waive all rights to seek a deficiency judgment against the Borrower. If a subordinate mortgage holder releases its Mortgage to allow the short sale to close, but does not extinguish the indebtedness, the mortgage holder will not receive a payment from Freddie Mac. Regardless of whether payment is made to a subordinate mortgage holder, the Servicer must obtain written commitment from the subordinate mortgage holder(s) to release the Mortgage(s).

All payments made to subordinate mortgage holders must be documented on the Settlement/Closing Disclosure Statement in accordance with applicable law. The Servicer must have established written policies governing how subordinate mortgage payments are paid and the Servicer must provide evidence to Borrowers that the subordinate mortgage holder has agreed to accept the payment, extinguish the secured indebtedness and waive all rights to seek a deficiency judgment against the Borrower.

Note: Only Mortgages, deeds of trust or security deeds recorded in the land records and constituting a valid lien against the property are eligible for a payment from Freddie Mac. Any and all other types of liens including, but not limited to, judgments, mechanic's and materialman's liens and common interest association liens, are not eligible for the subordinate mortgage payment.

(d) Closing Costs

The Servicer is permitted to deduct reasonable Closing Costs customarily paid by a seller in the jurisdiction where the Mortgaged Premises are located.

(e) Real estate broker commissions

Unless a real estate broker's sales commission exceeds 6% of the Mortgaged Premises sales price, the Servicer must not, as a condition of the Servicer's acceptance of an offer, renegotiate the real estate broker's sales commission to an amount that is lower than the amount that was originally agreed upon between the broker and the Borrower. In the event the sales commission exceeds 6%, the Servicer must renegotiate the commission to limit it to 6% of the Mortgaged Premises' sales price.

Neither the Borrower nor the purchaser may receive a commission from the sale of the Mortgaged Premises.

(f) Short sale negotiation fees

Fees paid to any party to evaluate, negotiate or process a short sale with the Servicer, which are commonly referred to as "short sale negotiation fees," "short sale processing fees," "marketing fees," or "administrative fees," may be included as part of the real estate broker's commission at the discretion of the real estate broker. Negotiation fees must not be deducted from sales proceeds or charged to the Borrower. Additionally, neither the Servicer nor its agents may charge Freddie Mac or the Borrower, either directly or indirectly, any fee whatsoever in connection with processing a short sale on any Mortgage. Standard and customary real estate commissions and settlement service fees agreed to by the Borrower and paid to the real estate brokerage and settlement agent are not prohibited.

(g) Waiver of Escrow funds or prepaid items

The Borrower must waive reimbursement of any Escrow, buydown funds or prepaid items and assign any insurance proceeds to Freddie Mac, if applicable.

(h) Short sale affidavit

The Servicer must obtain a short sale affidavit in which the parties to the transaction attest that the sale is an "arm's length" transaction. An "arm's length transaction" is a transaction between parties who are unrelated and unaffiliated by family, marriage or commercial enterprise, other than the purchase and sale of the Mortgaged Premises between the Borrower(s) and the purchaser(s) that is the specific subject of the proposed short sale as disclosed to the Servicer. This affidavit must be executed before or at the time of closing of the sale of the Mortgaged Premises by all Borrower(s), purchaser(s), real estate brokers representing any of the parties, the escrow/closing agent and the transaction facilitator (if any). Each signatory must certify under penalty of perjury that to the best of his or her knowledge and belief:

- The sale of the Mortgaged Premises is an arm's length transaction, between parties who are unrelated and unaffiliated by family, marriage, or commercial enterprise;
- There are no agreements, understandings or contracts between the parties that the Borrower will remain in the Mortgaged Premises as a tenant or later obtain title or ownership of the Mortgaged Premises, except if the Borrower is permitted to remain as a tenant on the Mortgaged Premises for a short term, but no longer than ninety (90) days, in order to facilitate relocation;
- Neither the Borrower(s) nor the purchaser(s) will receive any funds or commissions from the sale of the Mortgaged Premises. The Borrower may receive a relocation assistance payment if it is offered by the Servicer and reflected on the Settlement/Closing Disclosure Statement;
- The seller(s)/listing agent has presented all offers for the purchase of the Mortgaged Premises to the Borrower and no offers have been held, concealed or delayed due to action or inaction by a real estate agent;
- There are no agreements, understandings or contracts relating to the current sale or subsequent sale of the Mortgaged Premises that have not been disclosed to the Servicer;
- All amounts to be paid to any party, including holders of other liens on the Mortgaged Premises, in connection with the short sale transaction have been disclosed to and approved by the Servicer and will be reflected on the Settlement/Closing Disclosure Statement;
- Each signatory understands, agrees and intends that the Servicer and Freddie Mac are relying upon the statements made in the affidavit as consideration for the reduction of the payoff amount of the Mortgage and agreement to the sale of the Mortgaged Premises;
- A signatory who makes a negligent or intentional misrepresentation agrees to indemnify the Servicer and Freddie Mac for any and all loss resulting from the misrepresentation including, but not limited to, repayment of the amount of the reduced payoff of the Mortgage;
- The certification will survive the closing of the transaction; and
- Each signatory understands that a misrepresentation may subject the party making the misrepresentation to civil and/or criminal liability

The affidavit must contain the name of the Servicer, the Servicer loan number for the subject Mortgage, the property address of the Mortgaged Premises and the date the sales contract that is the subject of the short sale was ratified by the parties.

The affidavit must contain the printed name and signature of each signatory and all signatures to the affidavit must be dated. The signature of a real estate agent or settlement agent signing as a representative for the brokerage or settlement service provider is acceptable so long as the representative capacity is clearly identified. The Servicer may modify and integrate its own requirements into the affidavit so long as it contains the minimum requirements contained in this section. The short sale affidavit must be a separately identifiable document, distinct from other closing or pre-closing documents, such as the sales contract. (See Exhibit 97, Short Sale Affidavit, for an example of a short sale affidavit.)

If the closing agent is prohibited from signing the affidavit by applicable local, State, or federal law, the Servicer may waive the closing agent's signature requirement upon request. The Servicer must condition the waiver upon the closing agent's agreement that it will not also act as the closing agent on a subsequent transaction involving the Mortgaged Premises within one year of closing the short sale transaction. In all other circumstances, signatures from all parties identified above are required as a condition to Freddie Mac's agreement to accept a short sale of the Mortgage.

If a party reveals an agreement, understanding or contract relating to the current sale or subsequent sale of the Mortgaged Premises that indicates the transaction is not an arm's length transaction, or otherwise indicates bad faith, collusion or fraud on the part of the parties, the Servicer must withdraw agreement to the short sale and immediately notify Freddie Mac at [Mortgage Fraud Reporting@FreddieMac.com](mailto:Mortgage_Fraud_Report@FreddieMac.com).

(i) Re-sale deed restriction

The Servicer must instruct the settlement agent to ensure that the deed conveying the Mortgaged Premises from the Borrower to the purchaser contains a provision to restrict any re-sale of the Mortgaged Premises for 30 days following the short sale closing, and to restrict re-sales of greater than 120% of the short sale's sales price for the period beginning 31 days after the short sale closing and ending 90 days from the short sale closing.

The deed must contain the following provision:

Grantee herein is prohibited from conveying captioned property for any sales price for a period of 30 days from [DATE – short sale closing]. After this 30-day period, Grantee is further prohibited from conveying the property for a sales price greater than \$(120% of short sale price) until 90 days from [DATE – short sale closing]. These restrictions shall run with the land and are not personal to the Grantee.

The provided language may be amended as necessary to comply with applicable law.

Note: If the Servicer believes a re-sale restriction is not appropriate for a particular short sale transaction (such as a short sale transaction under the Homeowners Assistance Program provided by the United States Department of Defense), then the Servicer must submit the Mortgage to Freddie Mac for review prior to instructing the settlement agent to insert the above referenced deed provision. The Servicer's submission must include a thorough explanation of the reason(s) why it is requesting additional review.

(j) Resolve®

Services must use Resolve to submit short sale transactions on Freddie Mac-owned Mortgages. The Servicer represents and warrants that its use of Resolve to process short sales is in compliance with this Chapter 9208, other applicable Purchase Documents, and the Resolve Users' Guide.

If a Servicer is unable to complete a submission via Resolve, the Servicer should contact Customer Support at 800-FREDDIE.

(k) Mortgage insurance

The Servicer must approve and process a short sale in compliance with all requirements of applicable mortgage insurance policies so as to preserve and not to impair existing mortgage insurance coverage, if any. When approving and processing a short sale, unless Freddie Mac has delegations of authority with the MI, the Servicer must either obtain the applicable MI's approval of the terms of each short sale on a case-by-case basis, or ensure that the applicable MI has provided a delegation of authority to the Servicer that applies to the requested short sale.

If the Servicer is notified that the MI will curtail or deny a claim for any reason including, but not limited to, failure of the Servicer to comply with mortgage insurance conditions such as payment of a Borrower contribution, the Servicer may not approve the short sale; however, the Servicer must submit the proposed short sale to Freddie Mac.

9208.8: Closing, reporting, drafting and remittance requirements for short sales and make-whole preforeclosure sales (07/31/22)

(a) Servicer review of the Freddie Mac Standard Short Sale (“short sale”) closing documentation

The Servicer must:

1. Prior to and outside of the transaction, pay any delinquent property taxes, ground rents, and assessments or other charges that are or may become First Liens on the property or that if not paid would result in the subordination of Freddie Mac's interests. (See Section 9301.27 regarding expenses that may become First Liens on the property.) Freddie Mac will reimburse the Servicer for these expenses in accordance with Chapter 9701.
2. Ensure that the Borrower pays all cash contributions in the form of cash or certified funds at settlement
3. Ensure that the title is conveyed directly from the Borrower to the buyer

4. Complete the short sale closing within 60 days of approving the purchase offer
5. Waive its rights to any accrued late fees or property inspection costs
6. Maintain the original short sale affidavit in the Mortgage file in accordance with the requirements of Section 3302.3 and provide Freddie Mac with a copy of the short sale affidavit upon request
7. Review the Settlement/Closing Disclosure Statement prior to closing to ensure proper transfer of title directly from the Borrower to the buyer
8. Review the Settlement/Closing Disclosure Statement and deed within five Business Days after closing to validate compliance with this chapter and the Servicer's approval instructions, including:
 - The name of the buyer on the Settlement/Closing Disclosure Statement is the same as shown on the sales contract
 - The Settlement/Closing Disclosure Statement is consistent with the closing instructions, especially regarding ineligible transfer of title to related parties; and
 - The deed will be recorded in the name of the buyer and contains resale restriction language as required in Section 9208.7(i)
9. For Cooperative Share Loans, comply with the requirements in Section 8801.5(c)(ii)

(b) Reporting the transaction, remitting the proceeds and submitting the settlement data

To close a short sale, or a make-whole preforeclosure sale in Freddie Mac's systems, complete the following accounting, reporting and remittance steps:

1. Report the Mortgage as a "Short Sale/Charge-off/Make-whole" via the Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools) by the second Business Day after the Servicer receives the settlement proceeds. When reporting, ensure that the:
 - Ending UPB is zero
 - Principal collected is the ending balance of the Mortgage (Not the proceeds collected from the sale of the property)
 - Payoff date is the date the Servicer received the Settlement Proceeds
 - DDLPI reflects the due date of the last fully paid installment

Freddie Mac will draft the full UPB plus exception interest. Refer to Section 8303.11 for details on payoff requirements and charge-off adjustments. See Sections 8303.11 and 8303.12 for additional requirements related to short sale reporting and drafting.

2. Complete the “Short Sales Settlement” screen in Resolve® and transmit the data to Freddie Mac. In circumstances where a short sale settlement requires a manual settlement review by Freddie Mac, Freddie Mac may request copies of documentation including, but not limited to, the following:

- A copy of the Settlement/Closing Disclosure Statement
- Copies of the sales contract and any addenda to the sales contract

(c) Make-whole preforeclosure sale

To notify Freddie Mac that the Servicer has approved a make-whole preforeclosure sale, the Servicer must submit the following to Freddie Mac (**see Directory 5**):

- Completed and signed Form 710, Mortgage Assistance Application (or other documentation as permitted in Section 9208.3)
- Copy of the executed sales contract
- Copy of the MI’s approval letter (if applicable and if not previously delegated by the MI)
- A breakdown of the transaction to show how the sale of the Mortgaged Premises plus any other proceeds will result in a total satisfaction of the debt

Upon receipt of the required documentation as described above, Freddie Mac will review the file and provide the appropriate decision in Resolve. In all cases, the Servicer will need to monitor Resolve for the decision and process the file accordingly. Report and close the transaction in accordance with the requirements in this Section 9208.8.

Freddie Mac will draft the full UPB plus exception interest. Refer to Section 8303.12 for details on payoff requirements and charge-off adjustments.

(d) Charging off the deficiency

The amount that Freddie Mac has determined to be charged off will be reflected on the Draft Report. The Servicer must review the Draft Report and report any discrepancies between its records and the amount on the Draft Report to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within the same Accounting Cycle in which Freddie Mac posts the amount to the Draft Report. Servicers may access the Draft Report through the Cash Manager tool (see Exhibit 88, Servicing Tools).

When reporting a discrepancy, Servicers must input the calculation used to determine the variance and upload a copy of the Settlement/Closing Disclosure Statement and of the sales contract and any addenda to the sales contract in the Servicing Data Corrections tool to support the request and explain why the short sale and any related deficiency was not initially settled with data elements matching these documents.

Discrepancies submitted after the Accounting Cycle in which the initial adjustment is posted to the Draft Report closes will be processed at Freddie Mac's discretion and may be subject to a contract noncompliance and contract change compensatory fee (see Section 8303.43). If the postsettlement correction request is denied, the Servicer may be liable for any additional losses. Additionally, Freddie Mac may recover any workout incentives that were paid.

(e) Remitting additional proceeds

If there are any proceeds that were not included in the proceeds check (for example, property insurance premium rebate, refunded Escrow advance prepayments), remit the full amount of such proceeds to Freddie Mac by wire transfer or check and send it to Freddie Mac (see **Directory 5**) within five Business Days of receipt of the proceeds.

(f) Release of deficiency if participants have acted in good faith and in compliance with all applicable law

If the Borrower has acted in good faith and in compliance with the Guide and all applicable local, State and federal law, then Freddie Mac will not pursue the Borrower for the entire amount owed under the current Mortgage. Freddie Mac will accept the proceeds of sale and the cash contribution by the Borrower and the Servicer must instruct the closing agent to release the lien on the Mortgaged Premises and mark the previous Note as canceled. For a short sale completed with respect to an eMortgage (as defined in Section 1402.2), the Servicer must also comply with the requirements in Section 1402.11(c).

However, if the Borrower had knowledge of and/or consented to a transaction that was not in compliance with the Guide and all applicable local, State and federal law, Freddie Mac reserves its rights to pursue any and all participants including, but not limited to, the Borrower, for the full amount owed under the Mortgage, the amount of any other loss or damage Freddie Mac may have suffered and other costs and expenses, including, but not limited to, attorney fees. Failure to fully execute and provide the short sale affidavit required by Section 9208.7 is considered bad faith and noncompliance with the Guide.

(g) Requesting reimbursement

Request reimbursement for any applicable expenses, in accordance with the requirements in Chapter 9701. For claim submissions on Mortgages insured by the FHA or guaranteed by the VA or RHS not subject to recourse or indemnification, expense reimbursement will occur after Freddie Mac receives the claim payment from the applicable entity and determines that all other requirements for reimbursement have been satisfied. (Refer to Section 9603.2 on FHA/VA/RHS claim filing and Section 9603.5 on receipt of claim payment.)

9208.9: Fraudulent transactions related to short sales (03/02/16)

Any party to the transaction who engages in fraudulent activity with respect to a short sale transaction may be added to the Freddie Mac Exclusionary List, barring future involvement in Freddie Mac business, and reported to applicable regulatory authorities.

See Chapter 3201 for more information on Freddie Mac requirements for fraud prevention, detection and reporting.

Chapter 9209: Freddie Mac Standard Deed-in-Lieu of Foreclosure

9209.1: What is a deed-in-lieu of foreclosure? (03/02/16)

A Freddie Mac Standard Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”) is a Borrower’s voluntary conveyance of clear and marketable title to the property to Freddie Mac in exchange for a discharge of debt.

9209.2: Deed-in-lieu of foreclosure eligibility requirements and Servicer approval authority (05/04/20)

If the Borrower’s eligible hardship is permanent or long-term and neither a home retention alternative to foreclosure nor a Freddie Mac Standard Short Sale (“short sale”) is a viable solution to the Delinquency or imminent Delinquency, then the Servicer must determine if the Borrower meets the eligibility requirements for a Freddie Mac Standard Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”). The Servicer must evaluate the Borrower for a deed-in-lieu of foreclosure under this chapter once the Servicer has otherwise complied with the evaluation hierarchy in Section 9201.2.

If the Mortgage is subject to a recourse agreement, the Mortgage is ineligible for a deed-in-lieu of foreclosure.

Additionally, Mortgages for which the Borrower is engaged in litigation related to the Mortgage or Mortgaged Premises, with the exception of a foreclosure action, are ineligible for a deed-in-lieu of foreclosure.

If the Mortgage is an FHA, VA or Guaranteed Rural Housing Mortgage, the Servicer must comply with the requirements of the applicable agency when approving a deed-in-lieu of foreclosure in a manner that ensures continued coverage of the Mortgage.

The Servicer must determine the Borrower’s Delinquency status for purposes of establishing eligibility, documentation requirements and Borrower contribution requirements in accordance with Sections 9209.2 through 9209.4. The Servicer must use the Delinquency status of the Mortgage on the date the Servicer begins the evaluation of the Borrower for a deed-in-lieu of foreclosure using the documentation required in Section 9209.3.

(a) Eligibility requirements for a deed-in-lieu of foreclosure

Every Borrower, regardless of Delinquency status, is eligible to be considered for a deed-in-lieu of foreclosure, provided the following requirements are met:

- Borrowers who do not meet the requirements for a Streamlined Deed-in-Lieu of Foreclosure must be experiencing or have experienced one of the eligible hardships listed in Section 9202.2(a)
- The Borrower must be able to convey clear and marketable title to the Mortgaged Premises to Freddie Mac
- The Borrower has not acquired a new Mortgage in the six months preceding the Borrower's Delinquency or, if the Borrower is current, in the six months preceding the evaluation of the Borrower for a deed-in-lieu of foreclosure. The Borrower is only permitted to have obtained a new Mortgage if the Borrower's eligible hardship was distant employment transfer.

If the debt secured by the Mortgaged Premises has been discharged in a bankruptcy proceeding filed pursuant to Chapter 7 of the U.S. Bankruptcy Code, the Borrower is eligible for a deed-in-lieu of foreclosure regardless of Delinquency, occupancy or property type. The Borrower must provide the Servicer a copy of the order and accompanying documents showing that the debt was discharged. The Servicer must retain those documents in the Mortgage file.

A Borrower who is current or less than 60 days delinquent must meet the imminent default requirements as described in Section 9209.3(c).

(b) Servicer approval authority

Unless otherwise notified by Freddie Mac, all Servicers are delegated to approve a deed-in-lieu of foreclosure that meets the eligibility requirements of Section 9209.2(a).

When evaluating a Borrower who is a service member with Permanent Change of Station orders and is current or less than 90 days delinquent, the Servicer is encouraged to submit a recommendation to Freddie Mac for review if the Servicer believes a deed-in-lieu of foreclosure is the most appropriate option given the Borrower's circumstances.

If a property inspection reveals that the property has been poorly maintained, needs major repairs, or has structural or foundation problems, then the Servicer is not delegated to approve a deed-in-lieu of foreclosure. However, if the Servicer believes a deed-in-lieu of foreclosure is still the most appropriate remedy, then the Servicer must submit a recommendation to Freddie Mac for approval.

Servicers must refer to the requirements in Sections 8801.5(d) and 9209.1 through 9209.8 for additional circumstances where Servicers are not delegated to approve a deed-in-lieu of foreclosure.

(c) Property requirements

If the BPO obtained according to the valuation requirements in Section 9209.5 or any previous or subsequent Servicer inspection indicates that the Mortgaged Premises has been poorly maintained, needs major repairs, or has structural or foundation problems, the Servicer is not delegated to approve a deed-in-lieu of foreclosure. However, if the Servicer believes a deed-in-lieu of foreclosure is still the most appropriate remedy, then the Servicer must submit a recommendation to Freddie Mac for approval in accordance with Section 9209.2(b).

In addition, if the Servicer has any indication that the Mortgaged Premises contains environmental contamination or hazardous substances, the Servicer is not delegated to approve a deed-in-lieu of foreclosure. Examples of environmental contamination and hazardous substances include:

- High sulfur building content, such as drywall
- Interior mold
- Exposed asbestos
- Exposed or chipping lead-based paint
- Evidence of illegal activity having taken place on the premises, such as growing or manufacturing illegal substances
- Mortgaged Premises is or is part of a superfund site
- Mortgaged Premises exhibits other conditions that could negatively impact the health of occupants

(d) Submitting a deed-in-lieu of foreclosure recommendation to Freddie Mac

For situations where a Borrower does not meet the eligibility requirements for a deed-in-lieu of foreclosure and the Servicer feels a deed-in-lieu of foreclosure may be the best option for addressing the Delinquency or imminent Delinquency, the Servicer may submit a recommendation and rationale for the recommendation to Freddie Mac for review with a complete Borrower Response Package or other documentation as permitted in Section 9209.3 (see **Directory 5**). For Cooperative Share Loans, the additional documentation listed in Section 8801.5(d)(i) must be with the Servicer's recommendation.

9209.3: Borrower documentation for deeds-in-lieu of foreclosure (02/09/22)

(a) Borrower documentation

The table below describes Borrower documentation requirements for a deed-in-lieu of foreclosure by delinquency status.

If the Mortgage delinquency status at of the time of evaluation is...	The Servicer must...
Current or less than 90 days delinquent	<p>Evaluate the Borrower based on a complete Borrower Response Package (BPR) as defined in Section 9102.5.</p> <p>Note: If the Mortgage is current or less than 60 days delinquent, the Servicer must determine that the Borrower's monthly payment is in non-retention imminent default in accordance with Section 9209.3(c).</p>
Between 90 days and 18 months delinquent	<p>Evaluate the Borrower based on a complete BRP, unless one of the following conditions applies:</p> <ul style="list-style-type: none">■ The Borrower failed a Freddie Mac Flex Modification® Trial Period Plan within the 12 months prior to evaluation for a short sale or deed-in-lieu of foreclosure■ The Borrower previously received a Freddie Mac Flex Modification and became 60 days or more delinquent within the first 12 months of the effective date of the modification without curing the Delinquency■ The Borrower previously completed three or more modifications; or■ The Borrower received a forbearance plan as a result of a hardship due to their Mortgaged Premises or places of employment being located in an Eligible Disaster Area or COVID-19 and became 90 days or more delinquent prior to the evaluation for a deed-in-lieu of foreclosure; or■ The Mortgage is not secured by an Investment Property, as identified at origination, and the Borrower's FICO® credit score is less than or equal to 620 <p>In these cases, the Servicer must evaluate the Borrower for a Streamlined Deed-in-Lieu of Foreclosure ("Streamlined DIL").</p>

Greater than 18 months delinquent	<p>Evaluate the Borrower for a Streamlined DIL.</p> <p>A Streamlined DIL is a Standard Deed-in-Lieu of Foreclosure where the Servicer is not required to obtain the Borrower Response Package or to verify an eligible hardship</p>
-----------------------------------	---

The Borrower's FICO score must be no more than 90 days old as of the date the Servicer evaluates the Borrower for a deed-in-lieu of foreclosure. If there is more than one Borrower on the Mortgage, the Servicer must choose one FICO score that is adequately indicative of the credit reputation of all Borrowers currently on the Mortgage. The Servicer must first select a single FICO score for each Borrower on the Mortgage. If the Servicer obtains multiple FICO scores for a single Borrower, the Servicer must use the middle/lower method to select the single FICO score for that Borrower. If there are multiple Borrowers on the Mortgage, the Servicer must determine the single FICO score for each Borrower using the method described above. The Servicer must then select either the lowest FICO score across all Borrowers on the Mortgage or the average FICO score from all Borrowers' single scores. Whichever method is used, the Servicer must choose the single FICO score using the same method and procedure for all Borrowers and for all Mortgages consistent with fair lending laws.

If during the current period of Delinquency the Borrower was determined eligible for a Streamlined Short Sale (refer to Section 9208.3), then the Borrower is also eligible for a Streamlined DIL outlined above, even if the FICO score that was used previously to determine eligibility for the Streamlined Short Sale is now more than 90 days old at the time of the deed-in-lieu of foreclosure evaluation. However, if the Borrower has since brought the Mortgage current, then the Borrower is no longer eligible for a Streamlined Short Sale or Streamlined DIL and is required to submit a complete Borrower Response Package to the Servicer to be evaluated for a deed-in-lieu of foreclosure.

(b) Evaluating the Borrower

(i) Evaluating the credit report

The Servicer must obtain a credit report for each Borrower on the Mortgage (or a joint report for co-Borrowers). The credit report must be no more than 90 days old as of the date the Servicer evaluates the Borrower for a deed-in-lieu of foreclosure. The Servicer must review the credit report to verify that the Borrower meets the relevant requirements for a deed-in-lieu of foreclosure and to evaluate the Borrower's ability to make a contribution.

(A) Verifying occupancy

For Borrowers who are current or less than 60 days delinquent, the Servicer must review the credit report to verify that at least one of the Borrowers is occupying the Mortgaged Premises as a Primary Residence. If the credit report does not indicate that

the Mortgaged Premises is the Primary Residence for at least one Borrower, then the Servicer must use good business judgment to reconcile the inconsistency.

(B) New Mortgages

Unless the Borrower is eligible for a Streamlined DIL, the Servicer must review the Borrower's credit report to determine whether the Borrower obtained a new Mortgage(s) in the six months preceding the Borrower's Delinquency or, if the Borrower is current, in the six months preceding the evaluation of the Borrower for a deed-in-lieu of foreclosure.

If the Servicer's review of the credit report reveals a new Mortgage, the Servicer may approve the deed-in-lieu of foreclosure only if the eligible hardship for a Borrower who was 90 or more days delinquent was due to distant employment transfer, relocation due to new employment or Permanent Change of Station (PCS) orders and the Servicer verifies that:

- The Borrower intends to occupy the property securing the new Mortgage as the Borrower's Primary Residence
- The new employment location is greater than 50 miles one-way from the Mortgaged Premises
- The new property address is reasonably near the Borrower's new employment location

If the Borrower has any other hardship, or if the above referenced hardship was for a Borrower who was less than 90 days delinquent, and the Servicer determines a new Mortgage has been obtained, the Servicer is not delegated to approve the deed-in-lieu of foreclosure and must submit the request to Freddie Mac for consideration.

If the Servicer's review of the credit report indicates that a mortgage creditor has made an inquiry within the previous four-month period, the Servicer must contact the Borrower to determine the following on the Mortgage sought:

- The address of the property
- The purpose of the inquiry (e.g., refinance or purchase Mortgage) and
- The result of the inquiry (e.g., refinance or purchase Mortgage is pending, closed or canceled)

If a purchase Mortgage was obtained, then the Servicer is not delegated to approve the deed-in-lieu of foreclosure and the file must be sent Freddie Mac. Refer to Section 9209.2 regarding the submission of a deed-in-lieu of foreclosure to Freddie Mac.

(C) Special requirements for Borrowers who are current or less than 60 days delinquent

If a Borrower is current or less than 60 days delinquent, he or she must be considered to be in non-retention imminent default following the business rules in the chart below unless the Borrower was discharged from a Chapter 7 bankruptcy.

(I) Non-retention imminent default evaluation business rules

Any Borrower who is current or less than 60 days delinquent at the time the Servicer commences the initial evaluation is in non-retention imminent default if the Borrower meets the requirements of the following business rules:

Non-retention imminent default evaluation Business Rules	
To be considered in non-retention imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:	
	<ul style="list-style-type: none">■ Business Rule 2, or■ Business Rule 3
Business Rule 1	<p>Each Borrower must:</p> <ul style="list-style-type: none">■ Submit a complete Borrower Response Package■ Be current or less than 60 days delinquent (i.e., less than three monthly payments past due) on the Mortgage as of the evaluation date■ Occupy the property as a Primary Residence; or at least one Borrower on the Mortgage must occupy the property as his or her Primary Residence■ Have Cash Reserves less than \$25,000■ Have an eligible hardship as described in Section 9202.2 <p>Note: Requirements related to occupancy and non-retirement liquid assets do not apply if the Borrower is a Servicemember with PCS orders and the property securing the Mortgage is or was the Borrower's Primary Residence, where the transfer or new employment location is greater than 50 miles one-way from the property securing the Mortgage.</p>
Business Rule 2	<p>The Borrower is considered in non-retention imminent default if the Borrower meets the requirements of Business Rule 1, and</p> <ul style="list-style-type: none">■ The Borrower's FICO score is less than or equal to 620 determined in accordance with Section 9206.7(e); AND

Non-retention imminent default evaluation Business Rules	
<p>To be considered in non-retention imminent default, the Borrower must meet all requirements under Business Rule 1, and must meet the requirements for either:</p> <ul style="list-style-type: none"> ■ Business Rule 2, or ■ Business Rule 3 	
	<ul style="list-style-type: none"> ■ The Mortgage has had two or more 30-day Delinquencies in the most recent 6-month period; OR ■ The Borrower's housing expense-to-income ratio is greater than 40% as of the evaluation date <p>If the Borrower has one of the Imminent Default Hardships described below in Business Rule 3, the Borrower may be determined to be in non-retention imminent default even if these Business Rule 2 requirements are not met.</p>
Business Rule 3	<p>The Borrower is considered in non-retention imminent default if the Borrower meets the requirements of Business Rule 1, and the Borrower provided the documentation required in Section 9202.2 supporting one of the Imminent Default Hardships listed below:</p> <ul style="list-style-type: none"> ■ Death of a Borrower or death of either the primary or secondary wage earner in the household ■ Long-term or permanent disability; or serious illness of a Borrower/co-Borrower or dependent family member ■ Divorce or legal separation; separation of Borrower unrelated by marriage, civil union or similar domestic partnership under applicable law; or ■ Distant employment transfer or relocation due to new employment or PCS orders where the property securing the Mortgage being evaluated is the Borrower's Primary Residence. The new employment location must be more than 50 miles one-way from the property securing the Mortgage being evaluated. <p>The Imminent Default Hardship must currently cause and be expected to continue to cause a long-term or permanent decrease in income or increase in expenses.</p>

The Servicer must submit all information for Business Rule 1 and Business Rule 2 in all instances, even if the Borrower does not meet the requirements under Business Rule 2 and instead is approved based on the Imminent Default Hardship under Business Rule 3.

(II) Income and asset documentation and verification

(a) Documentation and verification

To be evaluated for imminent default, a Borrower must, at a minimum, provide a complete Borrower Response Package as defined in Section 9102.5(c). In addition to the income documentation required under Section 9202.3, the Servicer must obtain the Borrower's FICO score in accordance with Section 9206.7(e).

(b) Verification of income and assets; resolution of material inconsistencies

Servicers must review all documentation submitted by the Borrower to identify any material inconsistencies, including material inconsistencies with a tax return or tax transcript if one was obtained under Section 9202.3. If, based on the Servicer's good business judgment, there are material inconsistencies with respect to the income or asset information disclosed by the Borrower or with other documentation relevant to the imminent default decision, the Servicer must obtain other documentation to reasonably reconcile such material inconsistencies. Servicers must also document such material differences in their servicing system. If the Servicer cannot reconcile such material differences, the Borrower cannot be considered in imminent default.

(III) Cash Reserves test

The Servicer must complete an evaluation of the Borrower's Cash Reserves. The Borrower must have Cash Reserves of less than \$25,000 to be further evaluated for imminent default. If the Borrower either discloses or provides documentation indicating the Borrower has Cash Reserves equal to or greater than \$25,000, then the Borrower is not in imminent default.

(i) Definition of Cash Reserves

For purposes of determining imminent default, Cash Reserves are defined as follows:

Cash Reserves: Any non-retirement liquid asset the Borrower has available for withdrawal from any financial institution or brokerage, including funds on deposit in the Borrower's checking, savings, money market or certificate of deposit account or other depository account, stocks, bonds, mutual funds, U.S. Government Securities and other securities that are traded on an exchange or marketplace generally available to the public (e.g., New York Stock Exchange, National Association of Securities Dealers Automated Quotations, Midwest SE, Chicago Board of Trade or Over the Counter) for which the price can be readily verified through financial publications.

Assets are only considered retirement assets if they are held in a qualified retirement account such as a 401k, 403b, 457, Individual Retirement Account (IRA) or pension fund. If the assets are not held in a retirement account, the assets must be considered Cash Reserves.

(ii) Calculating Cash Reserves

The Servicer must calculate the Borrower's Cash Reserves in accordance with the following requirements:

1. The Servicer must determine that, for every Borrower on the Mortgage, all of the Borrower's Cash Reserves have been accounted for on Form 710, Mortgage Assistance Application
2. In making the determination that all Cash Reserves have been accounted for, the Servicer must review all information provided by the Borrower to determine if the asset information stated on Form 710 is reasonably consistent with information available from all other information provided by the Borrower, including verbal information shared by the Borrower. If there are inconsistencies between the Borrower's disclosure of assets and the information provided by the Borrower, then the Servicer must obtain the Borrower's tax return or tax transcript in order to reconcile the inconsistencies.

If, upon reviewing the Borrower's tax return or tax transcript, if applicable, the Servicer observes interest, dividend income or gains/losses that, in total, that could not be reasonably produced by the Borrower's disclosed Cash Reserves, and such income indicates deposits, securities holdings or other assets that could be in excess of the amounts disclosed by the Borrower on Form 710, the Servicer must reconcile the inconsistency with the Borrower. The Servicer must require the Borrower to produce a signed federal tax return and all relevant schedules, in the event the Servicer used a tax transcript in lieu of a tax return, along with any other relevant documentation that verifies the disposition and/or current status of those assets, which produced the income or gains/losses to resolve the inconsistency.

The Servicer must ensure that the Borrower's disclosure of assets is reasonably accurate despite the inconsistency between the disclosed assets and the income or gain/loss from assets reported on the tax return or tax transcript. In determining what documentation is needed to reconcile an inconsistency, the Servicer must review the detailed tax return schedules and forms, and request from the Borrower copies of recent and past statements from those asset holdings or transactions indicated on the schedules and forms that produced the income or gain/loss (e.g., checking, savings, brokerage account statements, asset sale statements or records, etc.).

3. If there are inconsistencies between the Borrower's disclosure of assets and the tax return information that cannot be reconciled, the Borrower cannot be considered in imminent default.

If the Servicer determines that the Borrower has Cash Reserves of less than \$25,000 and meets all other requirements of Section 9206.7(b) then the Borrower is considered to be in imminent default.

(IV) Imminent default credit score

Servicers must choose one FICO score that is adequately indicative of the credit reputation of all Borrowers currently on the Mortgage. Servicers must use a credit score based on the FICO credit-scoring model. This score must be obtained and determined in accordance with the requirements below.

(i) Obtaining FICO scores for each Borrower

The Servicer must request a FICO score for each Borrower on the Mortgage from any one of the following three credit repositories:

- Equifax Credit Information Services
- Experian Information Systems and Services
- TransUnion Credit Information Company

The Borrower's FICO score must be less than 90 days old on the date the Servicer performs the imminent default evaluation.

(ii) Borrowers with no available FICO score

It is unusual for any Borrower who has obtained a Mortgage not to have a FICO score. If no single FICO score can be identified for a Borrower, the Servicer must recheck the information provided when ordering the FICO scores and resubmit a request. If the Servicer is still unable to obtain a FICO score for that Borrower, it may rely on the FICO scores of all other Borrowers as determined in accordance with this section.

Absent a FICO score for any Borrower on the Mortgage, the Borrower may not be determined to be in imminent default under the requirements of Business Rule 2, and the Servicer must proceed to evaluate the Borrower under the requirements of Business Rule 3 in Section 9206.7(b). In such instances when a FICO score is not available for any Borrower on the Mortgage, the Servicer must:

1. Maintain documentation in the Mortgage file that demonstrates the Servicer's attempts to obtain FICO scores from all three credit repositories on all Borrowers
2. Enter the result that a FICO score is not available for any Borrower on the Mortgage into Workout Prospector®
3. Proceed to the Imminent Default Hardship test in Business Rule 3 to determine if an Imminent Default Hardship exists

(iii) Determining the Imminent Default Credit Score

The Servicer must identify the Imminent Default Credit Score in accordance with the following:

- The Servicer must first select a single FICO score for each Borrower on the Mortgage. If the Servicer obtains multiple FICO scores for a single Borrower, the Servicer must use the middle/lower method to select the single FICO score for that Borrower. This method is the most predictive when determining a single Borrower's overall credit reputation. If three FICO scores are obtained for a Borrower, the single score for that Borrower is the one with the middle value. For example, if the FICO scores were 660, 656 and 640, the single FICO score selected by the Servicer should be 656. When there is a duplicate score, the Seller must select that score to be the single score. If the FICO scores for a Borrower were 660, 660 and 640, the Servicer should select 660. If two FICO scores were obtained for a Borrower, the Servicer must select the lower of the two FICO scores to be the single FICO score for that Borrower.
- If there is only one Borrower on the Mortgage, the single FICO score, determined in accordance with the above requirements, is considered the Imminent Default Credit Score
- If there are multiple Borrowers on the Mortgage, the Servicer must determine the single FICO score for each Borrower using the method described above. The Servicer must then select either the lowest FICO score across all Borrowers on the Mortgage or the average FICO score from all Borrowers' single scores. (Note: Whichever method is used, the Servicer should choose the single FICO score using the same method and procedure for all Borrowers and for all Mortgages consistent with fair lending laws.)

(V) Calculating housing expense-to-income ratio (HTI)

The Servicer must use verified income to determine that the Borrower's housing expense-to-income ratio is greater than 40%. For purposes of this determination,

the Servicer must divide the Borrower's current monthly housing expense by the Borrower's monthly gross income (or the Borrowers' combined monthly gross income in the case of co-Borrowers) plus any allowable non-obligor household income.

The Borrower's current monthly housing expense consists of the following, as applicable:

- Monthly P&I payment
- Monthly pro rata amount for real estate taxes
- Monthly pro rata amount for property or flood insurance
- Monthly pro rata amount for homeowners association (HOA) dues, condominium unit or cooperative unit maintenance fees and ground rent
- Any escrow shortage currently included as part of the monthly contractual payment

If the Borrower has been granted interest rate relief under the Servicemembers Civil Relief Act (SCRA), the Servicer must use the principal and interest payment and the contractual rate of interest in effect on the Note prior to the granting of the SCRA relief rather than the temporarily SCRA reduced interest rate and related SCRA monthly payment when calculating the Borrower's current monthly housing expense-to-income ratio.

If a Borrower has indicated that there are condominium/HOA or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, or ground rents, but has not been able to provide written documentation to verify these amounts, the Servicer must rely on the information provided by the Borrower if the Servicer has made reasonable efforts to obtain the amounts in writing.

The current monthly housing expense does not include mortgage insurance premium payments or payments due to holders of subordinate liens.

For each imminent default evaluation under Business Rule 2, the Servicer must report the housing expense-to-income ratio, in addition to the FICO score and payment history as described below, to Freddie Mac via Workout Prospector.

(VI) Payment history

For imminent default evaluations under the requirements of Business Rule 2, the Servicer must determine whether the Mortgage has had two or more 30-day Delinquencies in the most recent six-month period. For each imminent default

evaluation under Business Rule 2, the Servicer must report the payment history, in addition to the FICO score and pre-modification housing expense-to-income ratio, to Freddie Mac via Workout Prospector.

Note: The Servicer must not consider a missed contractual payment that becomes 60 or more days delinquent as a Mortgage having two or more 30-day Delinquencies in the most recent six-month period.

(VII) Imminent default evaluation results

If the Borrower meets the requirements of Business Rule 1 and meets the requirements of either: (i) Business Rule 2, or (ii) Business Rule 3, the Borrower is in imminent default. The Servicer must evaluate the Borrower for a deed-in-lieu of foreclosure and no further analysis is required by the Servicer to determine imminent default.

(VIII) General requirements and information

If the Servicer determines that a Borrower is in imminent default, the Servicer must continue evaluating the Borrower using the applicable underwriting requirements outlined in this chapter to determine if the Borrower qualifies for a deed-in-lieu of foreclosure.

9209.4: Deeds-in-lieu of foreclosure Borrower contributions and relocation assistance (04/01/23)

(a) Borrower contributions towards the deficiency

If the Servicer determines that the Borrower's Cash Reserves exceed \$10,000 or the Borrower's housing expense-to-income (HTI) ratio is less than or equal to 40%, the Servicer must request a cash contribution in accordance with the requirements below. The Servicer must verbally confirm the assets reported on Form 710, Mortgage Assistance Application and reconcile any differences with documentation following the procedure in Section 9202.3. A Servicer may negotiate contribution amounts less than the initial contribution requests, which must be determined in accordance with the contribution formula in this section. When a Servicer negotiates a cash contribution that is less than the initial request, the Servicer must document the reason for its decision in the Mortgage file and note the specific financial circumstances that limit the Borrower's ability to contribute towards the deficiency.

Unless Freddie Mac has delegated authority with the MI or communicates otherwise, if the Mortgage is covered by mortgage insurance and the MI requires a contribution from the Borrower that is greater than the contribution limits required by this section in order to approve the Freddie Mac Standard Deed-in-Lieu of Foreclosure ("deed-in-lieu of

foreclosure”), the Servicer must require the Borrower to make the contribution required by the MI as a condition of approval.

Borrowers are not required to make a contribution in the following instances:

- Borrowers who are service members with Permanent Change of Station (PCS) orders who are 90 or more days delinquent. The property securing the Mortgage is or was previously the Borrower’s Primary Residence where the transfer or new employment location is greater than 50 miles one-way from the property securing the Mortgage being evaluated.
- Borrowers who qualify for a Streamlined Deed-in-Lieu of Foreclosure (refer to Section 9209.3)
- Applicable law prohibits requesting or receiving a contribution

1. Determining a cash contribution

If the Borrower’s Cash Reserves exceed \$10,000 or his or her HTI ratio is less than or equal to 40%, the Servicer must request the greater of 20% of the Cash Reserves or four times the Borrower’s principal, interest, taxes and insurance (PITI), rounded to the nearest \$100 as a cash contribution. The cash contribution cannot exceed the total amount of the deficiency.

If a Borrower is 60 or more days delinquent and cannot contribute 20% of his or her Cash Reserves, the Servicer may negotiate a lower level of contribution. If the Servicer negotiates and collects less than 20% of the Borrower’s Cash Reserves, then the Servicer must document in the Mortgage file the specific financial circumstances that limit the Borrower’s ability to make the initially requested level of cash contribution (i.e., 20% of the Borrower’s Cash Reserves). Based on the Servicer’s assessment of the Borrower’s written or stated ability to pay in combination with its evaluation of the Borrower’s financial and hardship information, the Servicer is authorized to negotiate a lower contribution or agree that the Borrower’s individual situation and circumstances warrant a lower starting point to cash contribution negotiations or no contribution. If a Borrower is unwilling to contribute an amount the Servicer deems acceptable, then the deed-in-lieu of foreclosure is not delegated and must be submitted to Freddie Mac in the manner outlined in Section 9209.2. If the Servicer determines the Borrower is unable to contribute at least \$500 toward the deficiency, then the Servicer must not collect a cash contribution.

If the Borrower’s Cash Reserves are in excess of \$50,000, the Servicer must submit the deed-in-lieu of foreclosure request to Freddie Mac for review in the following instances:

Refer to Section 9209.2 regarding the details for submitting a deed-in-lieu of foreclosure recommendation to Freddie Mac.

(b) Borrower relocation assistance

If the Servicer determines that the Borrower is not required to make a financial contribution toward the deficiency, the Borrower is eligible to receive up to \$7,500 in relocation assistance provided that the Borrower occupies the Mortgaged Premises as his or her primary residence. The Borrower is not eligible to receive relocation assistance in the following circumstances:

- The Borrower will receive relocation assistance from a source other than Freddie Mac or the Servicer, such as an employer, and the amount is equal to or greater than \$7,500. If the Borrower will receive relocation assistance from a source other than Freddie Mac or the Servicer and the amount is less than \$7,500, the Servicer must reduce the amount of Freddie Mac's relocation assistance by the amount received from the other source.
- The Servicer determines that the Borrower's Cash Reserves exceed the greater of \$10,000 or four times the Borrower's total monthly mortgage payment, regardless of whether the Borrower makes a contribution. If the Servicer believes such a Borrower is experiencing financial circumstances necessitating relocation assistance, the Servicer may submit the file to Freddie Mac. Refer to Section 9209.2 regarding the details for submission to Freddie Mac.
- The Borrower is subject to PCS orders and receives government assistance with the relocation

Once the final amount of relocation assistance has been determined and the deed has been executed, the Servicer must disburse to the Borrower the relocation assistance payment. Unless otherwise instructed by Freddie Mac, the Servicers must distribute the relocation assistance funds no more than 30 days after execution of the deed. Servicers may request reimbursement for the relocation assistance from Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

In addition to the relocation assistance offered by Freddie Mac, the Servicer may in its discretion offer the Borrower an additional financial incentive to complete the deed-in-lieu of foreclosure. Any relocation assistance provided by the Servicer will be in addition to the relocation assistance amount provided by Freddie Mac, and the Servicer's assistance amount does not have to be subtracted from the assistance amount Freddie Mac will pay. If the Servicer does offer its own relocation assistance, it must provide the assistance from its own funds, as a payment made directly to the Borrower.

The relocation assistance payment may not be applied to other debts secured by the Mortgaged Premises.

9209.5: Property valuation requirements for deeds-in-lieu of foreclosure (03/31/22)

(a) When to obtain a property valuation

If the Servicer has evaluated the Borrower for all other alternatives to foreclosure in accordance with Freddie Mac's evaluation hierarchy set forth in Section 9201.2 and believes that the Borrower meets the eligibility requirements for a Freddie Mac Standard Deed-in-Lieu of Foreclosure ("deed-in-lieu of foreclosure"), then the Servicer must obtain an interior property valuation in accordance with Section 9202.17. Servicers must ensure that the property valuation is no more than 90 days old as of the date of the deed-in-lieu of foreclosure evaluation decision.

If the Servicer has previously obtained a Freddie Mac-compliant property valuation (i.e., Freddie Mac-provided BPO, Freddie Mac-provided appraisal, or an appraisal in compliance with Topic 5600), the Servicer must use the Freddie Mac-compliant property valuation in connection with a deed-in-lieu of foreclosure evaluation provided it is less than 90 days old on the date of the deed-in-lieu of foreclosure evaluation decision. The Servicer may not obtain a new property valuation in this circumstance.

An evaluation for a Borrower contribution should not delay the Servicer's request for a property valuation.

(b) Obtaining a property valuation for a deed-in-lieu of foreclosure and verification of property condition

If the Servicer believes the Borrower is generally eligible for a deed-in-lieu of foreclosure, the Servicer must obtain a property value from BPOdirect® as set forth in Section 9202.17, if the Borrower:

- Intends to vacate or has vacated the Mortgaged Premises and expresses an interest in a deed-in-lieu of foreclosure; or
- Is ineligible for, failed or does not accept another alternative to foreclosure and a deed-in-lieu of foreclosure is the best solution to the Delinquency

The Servicer must advise the Borrower to grant interior access to the person evaluating the Mortgaged Premises and otherwise cooperate with the inspection.

Once the Servicer receives the BPO, it must review the property condition information carefully to verify that the Mortgaged Premises meets the condition requirements described in Section 9209.2(c).

9209.6: Borrower communication and execution timelines for deeds-in-lieu of foreclosure (03/02/16)

In addition to the response requirements related to Borrower Response Packages addressed in Section 9102.5, the following chart sets forth the required response times when a Freddie Mac Standard Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”) is being considered as a solution to the Delinquency for either: (i) a Mortgage that is not secured by a Primary Residence or (ii) a Mortgage that is secured by Primary Residence and the Servicer is not evaluating the Borrower for a deed-in-lieu of foreclosure using the First Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale date.

Deed-in-lieu of foreclosure: Submission of Borrower Response Package or streamlined documentation	
Days	Action required
30 days	Within five days of an evaluation decision, but in no event later than 30 days following the receipt of a complete Borrower Response Package or streamlined documentation, the Servicer must send an Evaluation Notice to the Borrower. The Evaluation Notice must include approved model language for a deed-in-lieu of foreclosure, or similar language drafted by the Servicer.
14 days	The Servicer must allow the Borrower 14 days from the date the Evaluation Notice is sent to accept the offer to pursue a deed-in-lieu of foreclosure
60 days (no later than 90 days)	The Servicer must receive all necessary approvals (e.g., title, secondary lien(s), MI) and execute the deed-in-lieu of foreclosure within 60 days of the date the Borrower’s communication to accept the offer was received. If the Servicer is unable to execute the deed-in-lieu of foreclosure within 60 days due to delays encountered as a result of issues with title, secondary lien(s), or MI approval, the Servicer must continue working with the Borrower to resolve these issues. In these instances, the Servicer will be allotted an additional 30 days to execute the deed-in-lieu of foreclosure, and during this time the Servicer must provide weekly status updates to the Borrower (90 days maximum from the date the Borrower’s communication to accept the offer was received to the date the deed-in-lieu of foreclosure is executed).

The Servicer must maintain documentation of all communications to and from the Borrower, whether verbal or written, and including status updates, either in the Mortgage file or in the Servicer's servicing system. In addition, the Servicer must provide the information to Freddie Mac for review upon request.

Refer to Section 9101.4 for foreclosure suspension requirements for deeds-in-lieu of foreclosure when the First Complete Borrower Response Package is more than 37 days prior to a scheduled foreclosure sale and results in an offer to proceed with a deed-in-lieu of foreclosure. Refer to Sections 9102.5(c) and 9301.28 for foreclosure suspension requirements when the Mortgage has been referred to foreclosure for either: (i) a Mortgage that is not secured by a Primary Residence or (ii) a Mortgage that is secured by a Primary Residence and the Servicer is not evaluating the Borrower for a deed-in-lieu of foreclosure based on the First Complete Borrower Response Package received more than 37 days prior to a scheduled foreclosure sale date.

9209.7: Deed-in-lieu of foreclosure transaction and processing requirements (09/27/21)

In order for the Freddie Mac Standard Deed-in-Lieu of Foreclosure ("deed-in-lieu of foreclosure") to be completed by the Servicer, the Servicer must work with and assist the Borrower to ensure that the deed-in-lieu of foreclosure transaction meets the following requirements:

(a) Prior to approval

The Servicer must:

1. Ensure the Borrower meets all eligibility requirements and negotiates a Borrower contribution, if applicable
2. Obtain mortgage releases from all applicable subordinate mortgage holders as follows:
The Servicer may authorize payment to subordinate mortgage holders in an aggregate amount of six thousand dollars (\$6,000.00). The subordinate mortgage holders must not receive any other payments from the Borrower, in cash, promissory note or otherwise, in connection with approval of the deed-in-lieu of foreclosure. If there are multiple subordinate mortgage holders, the Servicer has the discretion to divide the payment among those mortgage holders so as to maximize the chances that all subordinate mortgage holders will approve the deed-in-lieu of foreclosure. Payment of any amount to subordinate mortgage holders is contingent upon agreement by all mortgage holders to release their Mortgage and, if they are accepting a payment from Freddie Mac, extinguish the indebtedness secured by the Mortgaged Premises. In addition, subordinate mortgage holders accepting payment from Freddie Mac must agree in writing to waive all rights to seek a deficiency judgment against the Borrower. If a subordinate mortgage holder releases its Mortgage to allow the deed-in-lieu of foreclosure to close, but does not extinguish the indebtedness, the mortgage holder will not receive a payment from Freddie

Mac. Regardless of whether payment is made to a subordinate mortgage holder, the Servicer must obtain written commitment from the subordinate mortgage holder(s) to release the Mortgage(s).

All payments made to subordinate mortgage holders must be documented and the documentation must be provided to Freddie Mac upon request.

The Servicer must have established written policies governing how subordinate mortgage payments are paid and evidence of their agreement is provided to the Borrower. For deeds-in-lieu of foreclosure completed in accordance with this chapter, the Servicer must advance the amount to the subordinate mortgage holder or holders and request reimbursement for such advancement from Freddie Mac via PAID (Payments Automated Intelligent and Dynamic)(see Exhibit 88, Servicing Tools).

Note: Only Mortgages or deeds of trust recorded in the land records and constituting a valid lien against the property are eligible for a payment from Freddie Mac. Any and all other types of liens including, but not limited to, judgments, mechanic's and materialman's liens and common interest association liens, are not eligible for the subordinate mortgage payment.

3. Approve and process a deed-in-lieu of foreclosure in compliance with all requirements of applicable mortgage insurance policies and any delegated authority granted to the Servicer by the MI so as to preserve and not to impair existing mortgage insurance coverage, if any.

If the MI indicates that it will curtail or deny a claim for any reason, including but not limited to, failure of the Servicer to comply with mortgage insurance conditions such as payment of a Borrower contribution, the Servicer may not approve the deed-in-lieu of foreclosure; however, the Servicer must submit the proposed deed-in-lieu of foreclosure to Freddie Mac.

(b) Post-approval activities

1. The Servicer must obtain clear and marketable title to the property
2. The Borrower must:
 - (a) Contribute to any loss, according to the requirements in Section 9209.4(1)
 - (b) Vacate the property and leave it in undamaged, broom-swept condition and provide the Servicer with the keys to the property at the time of conveyance, unless the property is a 2- to 4-unit property and Freddie Mac allows one tenant to remain in the property
 - (c) For leasehold Mortgages, obtain the consent of the fee simple landowner/lessor, if required under the lease, and provide evidence of consent to the Servicer

- (d) Execute a personal property release for any personal property the Borrower has left at or in the Mortgaged Premises. The Servicer may use Exhibit 100, Personal Property Release, as a template and revise it as necessary to comply with applicable law or to incorporate it into the Servicer's own forms.
3. The Servicer must obtain the executed deed-in-lieu of foreclosure and all other required deed-in-lieu of foreclosure documents (including the personal property release). For leasehold Mortgages, the Servicer must obtain either an assignment of the lease or a new lease of the same priority

(c) Workout Prospector®

Servicers must use Workout Prospector to submit deed-in-lieu of foreclosure transactions on Freddie Mac-owned Mortgages. Servicers represent and warrant that they will only use Workout Prospector on Freddie Mac Mortgages and not Mortgages owned by other investors. Both the input and output of Workout Prospector is confidential information that the Servicer must not disclose to third parties, except as authorized by Freddie Mac. Servicers using Workout Prospector are bound by all of the provisions of the Workout Prospector User Agreement, included in the Guide as Exhibit 86, to the same degree as if they had signed such Agreement as a "User." The Servicer represents and warrants that its use of Workout Prospector to process deed-in-lieu of foreclosure transactions is in compliance with this Chapter 9209, other applicable Purchase Documents and the Workout Prospector Users' Guide. In addition, Servicers must ensure that all data input into Workout Prospector is true, complete and accurate and that all data is entered correctly. (Refer to Section 9204.4 for additional requirements when submitting any workout solution via Workout Prospector for approval and closing in Freddie Mac's systems.)

If a Servicer is unable to complete a submission via Workout Prospector, the Servicer should call the Customer Support Contact Center at 800-FREDDIE.

9209.8: Closing, reporting and remittance requirements for deeds-in-lieu of foreclosure (09/27/21)

To close the Freddie Mac Standard Deed-in-Lieu of Foreclosure ("deed-in-lieu of foreclosure") in Freddie Mac's systems, the Servicer must complete the following steps once it receives the executed deed, or for a leasehold Mortgage, the executed lease assignment or a new lease, as applicable (collectively, the "lease").

(a) Reporting requirements and settlement data submissions

1. Report the transaction to Freddie Mac via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) as a foreclosure sale/deed-in-lieu of foreclosure,

within one Business Day of receiving the executed deed or lease. The date the Servicer received the executed deed or lease is the date that must be used for the Sale Reported Date.

2. Forward to Freddie Mac within five Business Days of receiving the executed deed or lease:
 - a. The Borrower's contribution, if applicable (**see Directory 5**)
 - b. For a leasehold Mortgage, a copy of the lease via e-mail (**see Directory 6**)
 - c. A copy of the signed personal property release via e-mail (**see Directory 6**)
3. Report the Mortgage to Freddie Mac via the Freddie Mac Loan Level Reporting tool (see Exhibit 88, Servicing Tools) as a Transfer to REO by the end of the Accounting Cycle in which the Servicer receives the executed deed or lease and ensure that the:
 - a. Ending gross UPB is the ending balance of the Mortgage
 - b. Principal due field is zero
 - c. REO acquisition date is the date the deed or lease was executed
 - d. DDLPI reflects the due date of the last fully paid installment

If any of these data elements are incorrect, the Servicer should contact its investor reporting specialist or the Customer Support Contact Center at 800-FREDDIE.

4. Following completion of the reporting and remittance requirements, complete the "Deed-in-lieu of Foreclosure Settlement" screen in Workout Prospector® and transmit the data to Freddie Mac

(b) Remittance requirements

Remit any funds, including funds contributed by the Borrower, via wire transfer or check to Freddie Mac (**see Directory 5**) following completion of the reporting requirements in Section 9209.8(a)(3), but no later than six Business Days of receipt of the executed deed or lease

(c) Other requirements

1. Ensure that:
 - a. Clear and marketable title, or for a leasehold Mortgage, a marketable real estate leasehold interest is conveyed to Freddie Mac; issuance or purchase of a letter of indemnity, title insurance or similar form of indemnification does not constitute, and

may not be used in lieu of, provision of clear and marketable title to the Mortgaged Premises

- b. The deed or lease is submitted for recordation within five Business Days of the Servicer's receipt of the executed deed or lease
 - c. The recorded deed or lease is e-mailed to Freddie Mac (**see Directory 6**) within one Business Day after the Servicer receives it from the recorder's office
 - d. The recorded deed or lease and all other required deed-in-lieu of foreclosure documents (including the personal property release) are maintained in the Mortgage file and available to Freddie Mac upon request
2. Request reimbursement for any applicable expenses, in accordance with Chapter 9701. For expenses incurred on Mortgages insured by the FHA or guaranteed by the VA or RHS not subject to recourse or indemnification, expense reimbursement will occur after Freddie Mac receives the claim payment from the applicable entity and determines that all other requirements for reimbursement have been satisfied. (Refer to Section 9603.2 on FHA/VA/RHS claim filing and Section 9603.5 on receipt of claim payment.)
3. Release the First Lien within the time frame required by the applicable State or local law after the delivery of the deed or lease of the Mortgaged Premises, or if the local or State law does not require release within a specified time frame, the Servicer must submit the lien release for recordation within 30 Business Days of the receipt of the deed or lease and Mortgaged Premises
4. Report the acquisition of the property to the IRS in accordance with the requirements in Section 8106.3 on IRS Form 1099-A, Acquisition or Abandonment of Secured Property
5. Release of deficiency if participants have acted in good faith and in compliance with all applicable law.

If the Borrower has acted in good faith and in compliance with the Guide and all applicable local, State and federal law, then Freddie Mac will not pursue the Borrower for the entire amount owed under the current Mortgage. Freddie Mac will accept the deed or lease and the cash contribution by the Borrower and the Servicer must release the lien on the Mortgaged Premises and mark the previous Note as canceled. For a deed-in-lieu of foreclosure completed with respect to an eMortgage (as defined in Section 1402.2), the Servicer must also comply with the requirements in Section 1402.11(c).

However, if the Borrower had knowledge of and/or consented to a transaction that was not in compliance with the Guide and all applicable local, State and federal law, Freddie Mac reserves its rights to pursue any and all participants, including but not limited to the Borrower, for the full amount owed under the Mortgage, the amount of any other loss or damage Freddie Mac may have suffered and other costs and expenses, including, but not limited to, attorneys' fees.

6. If the Mortgage is covered by mortgage insurance and the MI has not provided a delegation of authority to the Servicer or Freddie Mac, fax a copy of the approval from the MI to Freddie Mac (**see Directory 5**) within two Business Days of the Servicer's receipt of the MI's approval
7. For Cooperative Share Loans, comply with the requirements in Section 8801.5(d)(ii)

Chapter 9210: Charge-off

9210.1: What is a charge-off? (05/04/20)

A charge-off ceases collection efforts on a Mortgage when all appropriate measures have been exhausted to collect on the delinquent Mortgage and the Servicer has deemed the debt to be uncollectible or that a foreclosure should not be completed. In most cases, a charge-off will be accompanied by a lien release and cancellation of the Note (see Section 9210.4).

A charge-off may be appropriate in varying situations, including:

1. A charge-off of a balance remaining after a short payoff. A short payoff may result from, among other things:
 - A negotiated settlement with the Borrower, a legal settlement or an agreement to resolve a legal dispute
 - A settlement related to: (i) a Condominium Project or Cooperative Project (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans) termination; or (ii) a unit of a Condominium Project or Cooperative Project that is damaged and its repair is not feasible
 - A court order
 - A bankruptcy cramdown (see Section 9401.8 regarding completing and transmitting the final terms of a confirmed bankruptcy cramdown to Freddie Mac via the "Court Mandated Modification" screen in *Workout Prospector*[®]); or
 - A receivership
2. A full charge-off of:
 - A Mortgage that is secured by a Mortgaged Premises that is subject to property seizure
 - A Mortgage that is not subject to a recourse or repurchase obligation under the Purchase Documents, and it is not practical or possible to complete foreclosure or other enforcement of Freddie Mac's rights under the Note or Mortgage and/or to obtain clear title to the Mortgaged Premises
 - A low balance Mortgage that is delinquent and Freddie Mac has determined to not complete a foreclosure of the Mortgage (see Section 9210.2 for more details)
 - A Mortgage or Cooperative Share Loan that is secured by a unit of a Condominium Project or Cooperative Project, respectively, and: (i) the project is not presently

economically viable; (ii) has been terminated; or (iii) the unit is damaged and its repair is not feasible

- A Mortgage that is secured by a Mortgaged Premises that has been impacted by a natural or manmade disaster, or other like circumstance, and rebuilding on the land is determined by the Servicer to be impracticable or impossible
- A Mortgage that is secured by undeveloped land or any above-grade primary structure has been demolished and removed by the Borrower, jurisdiction or other party; and the vacant land (and any remaining outbuilding, if applicable) has been protected from waste, damage and vandalism
- A Mortgage that is secured by a Mortgaged Premises that a third party is willing to accept any risk of liability if it becomes the owner of the property. (Note: This may also include a charge-off of a balance left over after a short payoff as the result of a negotiated settlement with the third party.)
- A Mortgage that is secured by a Mortgaged Premises that has been identified as posing a Risk of Property Ownership (see Section 9202.5 for more details)

9210.2: When a Servicer must recommend a charge-off (05/04/20)

The Servicer must recommend a charge-off to Freddie Mac instead of proceeding with foreclosure when the debt that is secured by the Mortgaged Premises is deemed uncollectible and/or any of the following situations in numbered paragraphs 1 through 9 below exist:

1. A short-payoff has been approved by Freddie Mac and a balance is left over (see Section 9210.1)
2. The Mortgaged Premises is subject to property seizure (see Section 9210.1)
3. For any Mortgage not subject to recourse or repurchase obligations under the Purchase Documents, the Servicer determines that it is not practical or possible to complete foreclosure or other enforcement of Freddie Mac's rights and/or to obtain clear title to the Mortgaged Premises (see Section 9210.1)
4. The Servicer identifies a low balance Mortgage with a UPB that is \$5,000 or less, regardless of the equity in the property, and the criteria of both (a) and (b) below are met:
 - (a) Prior to the Mortgage becoming 120 days delinquent or the Mortgage maturing prior to becoming 120 days delinquent, the Servicer must:

- Solicit a payoff or other form of workout from the Borrower and respond to all Borrower inquiries and requests about the Mortgage; and
- Ensure that payments have been correctly applied to the Mortgage. (In certain circumstances, Freddie Mac may request that the Servicer provide documentation to substantiate that payments have been applied correctly to the Mortgage. If Freddie Mac determines that the payments were not applied correctly, the Servicer may be required to satisfy the affected debt.)

(b) The following eligibility requirements must be met:

- The property is owner-occupied
- Property inspections continue to show the property maintenance to be both up to neighborhood standards and compliant with municipal requirements
- The Mortgage is at least 120 days delinquent or has matured prior to becoming 120 days delinquent; and
- The Borrower is not currently performing under a relief or workout arrangement or a bankruptcy plan

Note: In the event the Servicer identifies a Mortgage with a UPB that is greater than \$5,000, but all other above criteria in both (a) and (b) are met, the Servicer may make a recommendation for a charge-off to Freddie Mac.

5. The Mortgage or Cooperative Share Loan (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans) is secured by a unit of a Condominium Project or Cooperative Project, respectively, and: (i) the project is not presently economically viable; (ii) the project has been terminated; or (iii) the unit is damaged and its repair is not feasible (see Section 9210.1)
6. The Mortgaged Premises has been impacted by a natural or man-made disaster, or other like circumstance, and rebuilding on the land is determined by the Servicer to be impracticable or impossible (see Section 9210.1)
7. The Mortgage is secured by undeveloped land or any above-grade primary structure has been demolished and removed by the Borrower, jurisdiction or other party; and the vacant land (and any remaining outbuilding, if applicable) has been protected from waste, damage and vandalism (see Section 9210.1)
8. A third party is willing to accept any risk of liability if it becomes the owner of the property (see Section 9210.1)
9. The Mortgaged Premises poses a Risk of Property Ownership to Freddie Mac (see Section 9202.5)

In addition to the above requirements, if the Mortgage is a matured Mortgage, the Servicer must comply with the requirements of Section 8303.3 with respect to the payoff of such matured Mortgage and only submit a charge-off request if the Mortgage is delinquent at time of maturity, or becomes delinquent following maturity, and meets any of the above criteria.

9210.3: Submitting a recommendation for a charge-off to Freddie Mac (08/01/18)

The Servicer must take the steps listed below in this section when it recommends a charge-off of a Mortgage to Freddie Mac. Before making the recommendation, the Servicer must have filed and settled any property insurance claim(s) with the applicable property insurer. Additionally, the Servicer must model the Mortgages in Workout Prospector® and transmit all recommendations to charge off a Mortgage via Workout Prospector to Freddie Mac.

The Servicer must submit the following documentation to Freddie Mac via the contact information provided in **Directory 5**, unless otherwise instructed by Freddie Mac, on all recommendations to charge-off a Mortgage:

- (a) A detailed explanation of the Servicer's recommendation documented in the comments section of Workout Prospector
- (b) Documentation describing the condition of the property, including copies of the most recent six consecutive months of property inspection reports with photographs. For charge-off recommendations on low balance Mortgages (see Section 9210.2), the Servicer may submit less than six consecutive months of property inspection reports depending on the level of Delinquency.

Note: If the Servicer has previously provided this information in accordance with Section 8403.1, the Servicer does not need to submit this information again as part of the charge-off recommendation.

- (c) A Hazard Distressed BPO obtained through BPOdirect®, if applicable, if the recommendation to charge off a Mortgage is due to condemnation, disaster or other Risk of Property Ownership (see Section 9202.5). The Hazard Distressed BPO must be less than 90 days old on the date the Servicer makes the recommendation to charge off the Mortgage, unless expressly approved by Freddie Mac.
- (d) A payoff statement
- (e) A copy of any property insurance claims filed, including a copy of either:
 - An explanation of benefits and proof of payment received by the Servicer on any paid claim(s); or

- Any notification documenting reason(s) for non-payment of a claim and if an appeal was filed by the Servicer that was also denied for payment of a claim
- (f) A copy of any estimates that may have been obtained by the Servicer for necessary repairs
- (g) In the case of Delinquency, a copy of the Servicer's collection records for the present period of Delinquency; and
- (h) If the Mortgage is secured by a Manufactured Home, the Servicer must provide the documentation specified in Section 9301.9(a) or 9301.9(b) to evidence that the Manufactured Home and the land are real property under the laws of the State where the property is located. If the Manufactured Home is located in a certificate of title State (see Section 5703.7), then the Servicer must provide the documentation specified in Section 9301.9(c).

Freddie Mac will contact the Servicer should it require additional documentation following the submission of a recommendation to charge off a Mortgage.

9210.4: Freddie Mac's decision about a Servicer's charge-off recommendation (04/12/23)

Freddie Mac will review the documentation the Servicer submits and make a decision to approve or deny the charge-off request.

(a) Approval of request

If Freddie Mac approves the charge-off request, the Servicer may access the approval letter in Workout Prospector®. This letter will include instructions on whether to complete a lien release and cancellation of the Note as part of the transaction. Additionally, upon approval of the request, the Servicer must not incur any new expenses for taxes, insurance, property preservation, legal fees, or any other fees or costs if Escrow is insufficient to pay charges when due without Freddie Mac's prior approval (see **Directory 5**).

In most cases, when Freddie Mac approves a charge-off request, Freddie Mac will instruct the Servicer to release its lien on the property and cancel the Note as part of the closing of an approved charge-off request (see Section 9210.5). However, in situations in which future funds are anticipated (e.g., when Freddie Mac or the Servicer is negotiating a settlement with the Borrower or a third party), Freddie Mac will retain its lien on the property and will instruct the Servicer not to release the lien or cancel the Note on the approval letter in Workout Prospector until such time that funds are received by Freddie Mac.

(b) Denial of request

If Freddie Mac denies the charge-off request, Freddie Mac will provide the Servicer the response in Workout Prospector, stating the reason Freddie Mac denied the request together

with the course of action the Servicer must take to resolve the Delinquency, including the resumption of normal default Servicing activity, including all Escrow advances, property preservation and legal activities, if applicable.

9210.5: Closing, reporting and remittance requirements for charge-offs (05/04/20)

(a) Closing requirements

Within seven Business Days of receiving Freddie Mac's approval letter, the Servicer must:

1. Notify the Borrower in writing that the Servicer will no longer service the Mortgage. The written notice must include:
 - Freddie Mac's nine-digit loan number and the Servicer's loan number
 - Information that either:
 - The lien on the property is being released and the Note is being canceled; or
 - The lien is not being released and the Note is not being canceled, the Mortgage is being assigned to Freddie Mac, and the Borrower remains financially obligated to the Note and Security Instrument
 - Instructions that the Borrower remains responsible for paying property taxes and property insurance premiums and that such payments should be made directly to the taxing authority or insurer, even if the Mortgage had an Escrow account prior to the charge-off
2. If the Mortgage had an Escrow account prior to the charge-off, the Servicer must notify the local taxing authority in writing to send all tax bills directly to the Borrower

(b) Lien release requirements

1. If Freddie Mac instructs the Servicer not to complete a lien release as part of the approved charge-off request, upon receiving a request from a Freddie Mac-approved vendor (see Section 9601.1 for details on this process), the Servicer must prepare and submit all of the following documentation to the Freddie Mac-approved vendor:
 - Original Note
 - Original Security Instrument

- A copy of the assignment of the Security Instrument to “Federal Home Loan Mortgage Corporation” sent to the local recorder’s office; and
- A copy of the original loan application

The Servicer must forward the recorded assignment to Freddie Mac (**see Directory 5**) when the Servicer has received it from the recorder’s office. When sending the documentation to a Freddie Mac-approved vendor, the Servicer must not send the entire Servicing file, but only those items listed above.

2. In the event Freddie Mac approves a charge-off request and instructs the Servicer to release the lien on the property and cancel the Note, the Servicer must prepare and execute a satisfaction of Note and/or release of lien. For Cooperative Share Loans, the Servicer must also comply with the requirements in Section 8801.5(e).

(c) Reporting requirements

Within two Business Days after the Servicer receives Freddie Mac’s approval letter, the Servicer must:

1. Reinstate the Mortgage if it was inactivated; and
2. Report the Mortgage as a “Short Sale/Charge-off/Make-whole” and ensure that the:
 - a. Ending gross UPB is zero
 - b. Principal due field is completed with the gross unpaid ending balance of the Mortgage
 - c. Payoff date is the date the Servicer received the approval letter from Freddie Mac; and
 - d. DDLPI reflects the due date of the last fully paid installment

If any of these data elements are incorrect, the Servicer should contact its investor reporting specialist or call Customer Support Contact Center at 800-FREDDIE.

(d) Settlement data submissions

Following completion of the reporting and remittance requirements, complete the “Charge-off Settlement” screen in Workout Prospector® and transmit the data to Freddie Mac within 30 days of receiving Freddie Mac’s approval letter. When submitting the data entered on the “Charge-off Settlement” screen, the Servicer must comply with the instructions for a charge-off described in the Workout Prospector Users’ Guide.

If the Servicer has not submitted the charge-off for settlement within 30 days of receiving Freddie Mac's approval letter, then the Servicer should provide a status update to Freddie

Mac at ShortSales@FreddieMac.com and on a monthly basis thereafter until the charge-off has been submitted via Workout Prospector.

(e) Charging-off the Delinquency

The amount that Freddie Mac has determined to be charged off will be reflected on the Draft Report. The Servicer must review the Draft Report and report any discrepancies between its records and the amount on the Draft Report to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within the same Accounting Cycle in which Freddie Mac posts the amount to the Draft Report. Servicers may access the Draft Report through the Cash Manager tool (see Exhibit 88, Servicing Tools).

When reporting a discrepancy, Servicers must input the calculation used to determine the variance and upload any documentation to support the request in the Servicing Data Corrections tool.

Discrepancies submitted after the Accounting Cycle in which the initial adjustment is posted to the Draft Report closes will be processed at Freddie Mac's discretion and may be subject to a contract noncompliance and contract change compensatory fee (see Section 8303.43). If the post-settlement correction request is denied, the Servicer may be liable for any additional losses.

(f) Remittance requirements

Following completion of the reporting requirements in Section 9210.5(c), but no later than three Business Days after the Servicer's receipt of Freddie Mac's approval letter, the Servicer must submit any proceeds received on a Mortgage that has an approved charge-off request via wire transfer or check to Freddie Mac (see **Directory 5**), regardless of whether the lien is released or not.

(g) Requesting reimbursement

The Servicer must request reimbursement for any applicable expenses, in accordance with the requirements in Chapter 9701.

In order for the Servicer to be reimbursed, Freddie Mac must receive, and accept for settlement, the charge-off submitted via Workout Prospector. Additionally, failure to submit the charge-off in the appropriate time frame could forfeit the Servicer's ability to be reimbursed, in part or in whole, for otherwise reimbursable expenses or amounts.

Chapter 9211: Hardest Hit Fund

9211.1: Hardest Hit Fund (12/08/21)

Section 9211.1 is deleted effective December 8, 2021. Refer to Section 9212.1 for requirements for handling mortgage assistance fund from third parties.

Chapter 9212: Third Party Mortgage Assistance Funds

9212.1: Mortgage assistance funds (06/08/22)

This section highlights the requirements relating to mortgage assistance administered by State and local governments along with other third-party organizations.

(a) General Requirements

The facilitating organization determines Borrower eligibility criteria and underwrites the Borrower. Unless permitted by the organization, Servicers may not determine Borrower eligibility or communicate a determination of eligibility or qualification for mortgage assistance to a Borrower.

Servicers must accept such mortgage assistance funds on behalf of a Borrower as though they were from the Borrower and apply the funds in accordance with the Security Instrument, the Guide and applicable law. Should the funds received be insufficient to bring the Mortgage current (see Sections 9203.3 through 9203.7 on partial reinstatements) or represent only a partial payment, the Servicer must not waive rights under the Mortgage to collect the unpaid amount, continue collection efforts and attempt to establish Quality Right Party Contact (QRPC) as outlined in Chapters 9101 and 9102.

For Borrowers where mortgage assistance funds result in a partial prepayment, refer to Section 8103.7 and Section 8303.4(c).

(b) Borrower authorization

In connection with a Borrower's request for mortgage assistance, Servicers must receive authorization from each Borrower to release his or her nonpublic personal financial information to an authorized mortgage assistance organization. The Borrower's authorization to release his or her nonpublic personal financial information to the mortgage assistance organization and all communications that include a Borrower's nonpublic personal information must comply with Section 1301.2 and all applicable laws.

(c) Mortgages with credit enhancements

Servicers must comply with the requirements of, and obtain approvals as necessary from the FHA, VA, RHS and/or MI. Credit enhancement on a Mortgage must stay in place regardless of the Borrower's participation in a mortgage assistance program.

(d) Another relief or workout arrangement

Servicers must not deny or delay consideration of a Borrower for a relief or workout option pending approval for mortgage assistance. If a Borrower is currently performing under a relief or workout arrangement that has not been completed and the Borrower requests assistance from a mortgage assistance program, the Servicer must permit the Borrower to continue with the relief or workout arrangement. As noted in Section 9212.1(a), any funds received from the mortgage assistance program should be treated as funds from the Borrower and applied in accordance with the Security Instrument, the Guide and applicable law. Servicers should refer to Chapters 9203 through 9210 for relief and workout options guidance accordingly.

For streamlined evaluations for a Flex Modification, the Servicer must refer to guidance provided in Section 9206.5(c) in the event the Mortgage is reinstated, but in no instance must any Flex Modification Trial Period Plan already evaluated for an offered be revoked as a result of reinstatement.

The Servicer must cancel an active forbearance plan, an active repayment plan or a payment deferral that has not yet been completed if the Mortgage is fully reinstated as a result of mortgage assistance funds.

If the Borrower requests additional assistance following reinstatement, the Servicer must evaluate the Borrower for relief and workout options in accordance with the evaluation hierarchy in Section 9201.2 and with the requirements for the specific relief and workout options (Chapters 9203 through 9210).

(e) Foreclosure actions

Servicers may postpone foreclosure activity in accordance with the Guide and applicable law for up to 45 days if they have been notified that the Borrower is participating in a mortgage assistance program and they have a good faith belief that the participation with the program will cure the Borrower's delinquency.

The Servicer may extend the suspension of foreclosure actions beyond 45 days, as necessary, to facilitate the processing of the mortgage assistance, provided that:

- It continues to validate with the mortgage assistance provider that the Borrower's status has not changed
- The action is in compliance with its agreement with the mortgage assistance provider; and
- It obtains Freddie Mac's prior approval for any suspension beyond 60 days

Servicers must submit approval requests for foreclosure activity suspension beyond 60 days to foreclosure@freddiemac.com.

Servicers should refer to appropriate Guide sections on pre-foreclosure activities including Sections 9301.4 and 9301.29. Servicers must note the reason for the postponement in the Mortgage file (e.g., third-party mortgage assistance). In the event a foreclosure sale occurs, the Servicer's performance will be measured against Freddie Mac's State foreclosure timelines (refer to Exhibit 83, Freddie Mac State Foreclosure Timelines).

Servicers are reminded that if they postpone foreclosure activity, they can resume foreclosure activity without delay if the mortgage assistance program and/or any loss mitigation solution is unable to resolve the Borrower's delinquency. Servicers are further reminded that when communicating a postponement request for a pending foreclosure sale to foreclosure counsel, the Servicer must identify the reason for the postponement (i.e., third-party mortgage assistance).

If a notice of trustee/sheriff sale has been recorded and the trustee/sheriff sale is scheduled less than seven days from the date the Servicer is notified of Borrower approval for mortgage assistance, the Servicer is not required to accept the mortgage assistance payment. The Servicer should refer to Section 9301.29(b), the terms of the Note and applicable law accordingly for further guidance.

(f) Reporting

The Servicer must be able to readily identify any Borrower who receives third party mortgage assistance funds from any state or local governmental agency, such as an HFA or its designee. The Servicer must be able to provide this information to Freddie Mac upon request.

Chapter 9301: Foreclosure

9301.1: Foreclosures on Freddie Mac Mortgages (03/02/16)

The Servicer must refer to, manage and complete foreclosure in accordance with this chapter when there is no available alternative to foreclosure. Additionally, Freddie Mac requires the Servicer to manage the foreclosure process to acquire clear and marketable title to the property in a cost-effective, expeditious and efficient manner.

9301.2: General Servicer requirements for Freddie Mac Default Legal Matters (03/02/16)

When following the requirements provided in this chapter while processing Freddie Mac Default Legal Matters, the Servicer must comply with:

- The terms and conditions of the Mortgage documents, including the Note
- Applicable federal, State and local laws and customs
- Requirements of the FHA, VA, RHS or MI, if applicable
- The Guide and other Purchase Documents

9301.3: Freddie Mac's rights (03/02/16)

Among other rights available under applicable law and the Guide, Freddie Mac reserves the right to:

1. Select the foreclosure counsel
2. Direct and manage the actions taken by the foreclosure counsel, on a case-by-case or jurisdiction-wide basis
3. Assess compensatory fees and/or seek repayment of losses sustained due to errors, omissions or delays by the Servicer or its agent
4. Limit the amount of a reimbursement for attorney fees if those fees exceed the expense limits in Exhibit 57A, Approved Attorney Fees and Title Expenses, or the fees commonly charged for similar services in the area where the services are being performed

If Freddie Mac determines that the Servicer has directly or indirectly passed or charged to Freddie Mac any non-reimbursable expenses itemized in Section 9701.15 or charged Freddie Mac for Servicing Contract obligations covered by the Servicing Spread (as set forth in Section 8105.3) or in violation of Section 9501.8(a) or 9502.6(a), then Freddie Mac may pursue any or all the remedies specified in the Guide and the other Purchase Documents, as applicable.

9301.4: Pre-foreclosure referral account review (06/08/22)

Within 15 days prior to referral to foreclosure, the Servicer must review the Mortgage file to verify that it made every attempt to achieve quality right party contact in accordance with Section 9102.3, and there is no approved payment arrangement or pending alternative to foreclosure offer for which the Borrower response period has not expired.

In the event that the Servicer finds that there is an approved payment arrangement or a pending offer for an alternative to foreclosure for which the Borrower response period has not expired, then the Servicer must not refer the Mortgage to foreclosure.

The Servicer must document the results of its review in the Mortgage file or servicing system.

Prior approval required from Freddie Mac

The Servicer must seek Freddie Mac's approval to refer the Mortgage to foreclosure if the property inspections or any other information provided to the Servicer indicates that proceeding with referral may not be in Freddie Mac's best interest or that the property is considered a distressed property (see Section 9301.8 for a list of affected property conditions). See also Section 8801.6(a) regarding prior approval required from Freddie Mac for Cooperative Share Loans. Servicers must send approval requests to Foreclosures@FreddieMac.com.

Refer to Chapter 8403 for additional Servicing Contract requirements for Servicing Mortgages on distressed properties.

Refer to Chapter 9101 for additional Servicing Contract requirements for Servicing Mortgages that secure Primary Residences.

9301.5: Referral to foreclosure (03/02/16)

Referral to foreclosure is the submission of a Mortgage case and appropriate foreclosure documentation to foreclosure counsel after taking all appropriate actions to accelerate the Mortgage. Refer to Sections 9301.6 and 9301.7 for requirements for when to refer a Mortgage to foreclosure.

9301.6: When to refer a Mortgage to foreclosure – Primary Residence (12/08/21)

(a) General requirements

The Servicer must refer a Mortgage to foreclosure after expiration of the breach letter, but no earlier than 151 days from the DDLPI (121st day of Delinquency). However, Servicers may not refer a Mortgage to foreclosure if prohibited by applicable law or one of the following situations applies:

- There is an approved payment arrangement or an alternative to foreclosure; or
- A complete Borrower Response Package is received and the Servicer is still within the 30-day evaluation time period for evaluating the package as prescribed in Section 9102.5(c); or
- The Servicer has extended an offer for an alternative to foreclosure and the period for the Borrower's response has not expired; or
- The Borrower has accepted an offer for an alternative to foreclosure and is performing in accordance with its terms; or
- The time period for the Borrower to exercise a right to appeal a denial of a Trial Period Plan or loan modification (per Section 9101.3) has not expired, the Servicer is reviewing the Borrower's appeal, or the Borrower's time period to respond to the Servicer's decision on the appeal and any acceptance period for an alternative to foreclosure offered as part of that decision has not expired

Refer to Section 9101.4 for additional foreclosure suspension requirements when the First Complete Borrower Response Package is received more than 37 days prior to a scheduled foreclosure sale date.

To accept an offer

A Borrower's notification to the Servicer that he or she intends to accept an offer of an alternative to foreclosure may be demonstrated as follows:

- Verbal notification
- Written notification

If a payment is required to legally accept an alternative to foreclosure offer, and the Borrower does not communicate a verbal or written rejection of the alternative to foreclosure offer, the Servicer must postpone referral to foreclosure, where legally permitted, at least through the last day of the month in which the first payment is due under the terms of the alternative to

foreclosure offer or until the deadline for Borrower acceptance has passed. If the Servicer receives the first payment timely in accordance with the terms of a Trial Period Plan, repayment plan or forbearance plan, the Servicer must delay the next legal action unless the Borrower breaches the plan.

(b) Mortgages insured by the FHA or guaranteed by the VA or RHS or covered by mortgage insurance

The Servicer must comply with the foreclosure referral requirements of the FHA, VA, RHS or MI, if applicable.

(c) Performance measurement

Regardless of the reason for the delay in referral to foreclosure beyond 151 days from the DDLPI (121st day of Delinquency), the Servicer's performance will be measured against Freddie Mac's State foreclosure timelines (refer to Exhibit 83, Freddie Mac State Foreclosure Timelines).

9301.7: When to refer a Mortgage to foreclosure for a non-Primary Residence (06/08/22)

(a) General requirements

The Servicer must refer a Mortgage to foreclosure no later than 150 days from the DDLPI (120th day of Delinquency) unless the pre-referral accounts review indicates that:

- There is an approved payment arrangement or an alternative to foreclosure; or
- A complete Borrower Response Package is received and the Servicer is still within the 30-day evaluation time period for evaluating the package as prescribed in Section 9102.5(c); or
- The Servicer has extended an offer for an alternative to foreclosure (except for an offer for a Freddie Mac Standard Short Sale (“short sale”) or Freddie Mac Standard Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”)), and the period for the Borrower’s response has not expired; or
- The Borrower has accepted an offer for an alternative to foreclosure and is performing in accordance with its terms

Note: The Mortgage must be referred to foreclosure and foreclosure proceedings must continue if the Servicer sends the Borrower an offer to pursue a short sale or deed-in-lieu of foreclosure.

To accept an offer

A Borrower's notification to the Servicer that he or she intends to accept an offer to an alternative to foreclosure may be demonstrated as follows:

- Verbal notification
- Written notification

If a payment is required to legally accept an alternative to foreclosure offer, and the Borrower does not communicate a verbal or written rejection of the alternative to foreclosure offer, the Servicer must postpone referral to foreclosure, where legally permitted, at least through the last day of the month in which the first payment is due under the terms of the alternative to foreclosure offer or until the deadline for Borrower acceptance has passed. If the Servicer receives the first payment timely in accordance with the terms of a Trial Period Plan, the Servicer must delay the next legal action unless the Borrower breaches the plan.

Additionally, unless Freddie Mac requires the Servicer to obtain Freddie Mac's approval prior to referral to foreclosure (refer to Section 9301.9 for instances where Freddie Mac must approve the referral of the Mortgage to foreclosure), if the Borrower has abandoned the property, then the Servicer may refer to foreclosure as soon as it is legally possible to do so. The Servicer must send approval requests to Foreclosures@FreddieMac.com.

(b) Mortgages insured by the FHA or guaranteed by the VA or RHS or covered by mortgage insurance

The Servicer must comply with the foreclosure referral requirements of the FHA, VA, RHS or MI, if applicable.

(c) Performance measurement

Regardless of the reason for the delay in referral to foreclosure beyond 150 days from the DDLPI (120st day of Delinquency), the Servicer's performance will be measured against Freddie Mac's State foreclosure timelines (refer to Exhibit 83, Freddie Mac State Foreclosure Timelines).

9301.8: Approving referral to foreclosure on a First Lien Mortgage (11/13/19)

(a) Referral to foreclosure on a First Lien Mortgage

The Servicer is responsible for referral to foreclosure on a First Lien Mortgage. The Servicer does not need Freddie Mac's approval unless one or more of the following conditions exist.

If the Property Has...	Then the Servicer Must...	And...
Hazardous Substances located on or near that could impact the habitability, value or occupancy of the property	Request Freddie Mac's approval to refer to foreclosure by submitting a detailed description of the issue and the Servicer's recommendation for a First-Lien Mortgage to Freddie Mac (see Directory 5) within five Business Days of discovering the condition	Freddie Mac will approve or deny the referral to foreclosure and provide any necessary instructions to the Servicer
Damage from fire, flood or natural or man-made disaster		
Deteriorated and requires asset preservation or the property is a Manufactured Home that has significantly decreased in value		
A forfeiture action being litigated		

If the 2- to 4-unit property was built before 1978 and located in Massachusetts, refer to Section 9301.8(c) before initiating foreclosure. If the property was built before 1960 and located in New York City (Brooklyn, Bronx, Manhattan, Queens or Staten Island), refer to the requirements in Section 9202.7 before initiating foreclosure.

Refer to Chapter 8403 for additional Servicing Contract requirements for Servicing Mortgages on distressed properties.

Refer to Chapter 8404 for additional Servicing Contract requirements for Mortgages secured by properties affected by a disaster.

(b) Referral to foreclosure on Servicemembers or their Dependents

The Servicemembers Civil Relief Act, State Military Relief Laws and Freddie Mac-specific protections provided in Chapter 8503 limit the ability of a Servicer to refer to or complete foreclosure on Mortgages involving Servicemembers or Dependents, as those terms are defined in Chapter 8503. If the Servicer believes there are circumstances that warrant an exception to these requirements, the Servicer must submit Form 105, Multipurpose Loan Servicing Transmittal for a First-Lien Mortgage, and provide all relevant information supporting the exception request. Refer to Chapter 8503 for further details regarding foreclosure limitations involving Servicemembers and Dependents.

(c) Tenant-occupied properties built before 1978

Before referring a Mortgage to foreclosure on a tenant occupied property built before 1978, if the Servicer is aware of, or becomes aware of, outstanding lead-based paint or health code citations or violations against the property or property owner, then the Servicer must notify Freddie Mac (see **Directory 5**) and include the following:

1. A copy of the citation
2. Copies of documentation related to a lead-based paint violation

After reviewing the documentation, Freddie Mac will provide the Servicer with instructions on the course of action to take.

9301.9: Referral to foreclosure documentation requirements (05/04/20)

Appropriate foreclosure documentation includes, but is not limited to, all documents required by the foreclosure counsel to complete the first legal action. The Servicer must continue to comply with applicable law, but at a minimum, must supply the foreclosure counsel with the following:

1. Copies of the Note (or the original Note if required by applicable law) evidencing the indebtedness along with any intervening assignments, endorsements, powers of attorney or any applicable modifying instrument, such as a modification, a conversion agreement or an assumption of indebtedness and release of liability agreement
2. Mortgage or deed of trust
3. Copy of the original title insurance policy. For Cooperative Share Loans recognized as personal property, refer to Section 8801.1(f)(ii) regarding certain Servicer warranties required when foreclosing on a Cooperative Share Loan.
4. Copy of the breach, acceleration or demand letter sent to the Borrower
5. Military affidavits
6. Executed Substitution of Trustee, as necessary
7. Payoff statement with per diem interest as of the date of the foreclosure referral
8. Send foreclosure counsel the following information by facsimile transmission or other electronic means:

- Name, mailing address and telephone number of the Borrower(s)
- Property address (if different from the Borrower's mailing address)
- A statement that the Mortgage is a Freddie Mac-owned Mortgage and includes the nine-digit Freddie Mac loan number
- Name and address of the person to contact in the Servicer's foreclosure department

If Freddie Mac needs to execute a document that is not authorized for the Servicer to execute under the Limited Power of Attorney (see Exhibit 53) for the Servicer to conduct the foreclosure, the Servicer must submit the document with Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 5**). Refer to Section 9301.12 for assigning Security Instruments back to the Servicer if an assignment of the Security Instrument to Freddie Mac has been recorded. Refer to Sections 8101.4 and 8601.6 for requirements on obtaining a Limited Power of Attorney for Freddie Mac to sign documents on behalf of Freddie Mac.

Referral to foreclosure documentation requirements on a Mortgage secured by a Manufactured Home

In addition to the above requirements, if the Mortgage is secured by a Manufactured Home, the Servicer must notify the foreclosure counsel that the property is a Manufactured Home when it submits the case to the foreclosure counsel. The Servicer must also provide the foreclosure counsel with evidence that the property is legally classified as real property under the laws in the State where the property is located.

(a) Evidence that the property is real property in a non-certificate of title State

The Servicer must provide the foreclosure counsel with copies of the following documentation in non-certificate of title States (see Section 5703.7) evidencing that the Manufactured Home and the land are real property under the laws of the State where the property is located:

- Information stating the legal basis (statutory or common law) for determining that the Manufactured Home is real property that is exempt from certificate of title requirements. This information may be included in the documentation received at origination of the Mortgage from the title insurance company that the Manufactured Home is real property, and
- Evidence that a certificate of title has not been issued, such as the manufacturer's statement of origin, if the manufacturer's statement of origin is not required to be surrendered to a State agency

(b) Evidence that the property is real property in a certificate of title surrender State

The Servicer must provide the foreclosure counsel with copies of the following documentation in certificate of title surrender States (see Section 5703.7) evidencing that the Manufactured Home and the land are real property under the laws of the State where the property is located:

- A certificate of cancellation, notification letter or other acknowledgment from the Department of Motor Vehicles (DMV) or the appropriate State agency to which the certificate of title was surrendered, or a copy of the documents submitted in connection with the surrender along with evidence that the documents were delivered and received by the appropriate State agency, and
- Copies of the documents, such as an affidavit of affixture, recorded in the land records as part of the title surrender procedures to show the Manufactured Home has been converted to real property

(c) Evidence of clear and marketable title to the Manufactured Home and land in certificate of title States

The Servicer must provide the foreclosure counsel with the following documentation in certificate of title States (see Section 5703.7) evidencing the Borrower's ownership of both the Manufactured Home and the land on which it is permanently affixed and documentation evidencing that the land is legally classified as real property under the laws in the State where the property is located:

- The original or a copy of the certificate of title showing the Borrower as owner of the Manufactured Home. The certificate of title must have a notation of the original Seller/Servicer's security interest in the Manufactured Home in the name of the Seller and its successors in interest and assigns and have a notation of all intervening assignments from the original mortgagee to each successive Servicer, ending with the current Servicer, and
- A copy of the deed evidencing ownership of the land showing the owner of the land on the deed to be identical to the owner of the Manufactured Home on the certificate of title

This and any other relevant information must be provided within five days of the referral to foreclosure so that the foreclosure counsel has the information necessary to simultaneously enforce the liens (whenever possible) and so as not to unnecessarily lengthen the foreclosure process.

9301.10: Choosing a judicial or nonjudicial foreclosure process (09/27/21)

In States where the Servicer has the option of pursuing a judicial or nonjudicial foreclosure process, the Servicer must choose the nonjudicial process. However, if the Servicer determines its filing of a judicial foreclosure will preserve the right to pursue a deficiency judgment, and/or is in Freddie Mac's best interests, the Servicer should refer to Exhibit 57A, Approved Attorney Fees and Title Expenses, to determine if Freddie Mac has approved judicial foreclosure attorney fees in the State.

If Freddie Mac has approved judicial foreclosure attorney fees in the State, the Servicer may pursue a judicial foreclosure process without Freddie Mac's approval.

If Freddie Mac does not have approved judicial foreclosure attorney fees in the State, or the filing of a judicial foreclosure will incur additional attorney fees exceeding the expense limits in Exhibit 57A, the Servicer must obtain Freddie Mac's approval prior to referral to judicial foreclosure by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

Refer to Section 9301.24 regarding when to request Freddie Mac's approval to preserve deficiency rights.

9301.11: Obtaining the original Note (02/14/18)

If physical or constructive possession of the original Note is needed to perform the foreclosure, the Servicer must request the Note from the Document Custodian maintaining the Note by submitting to the Document Custodian a completed Form 1036, Request for Physical or Constructive Possession of Documents, or an electronic or system-generated version of the form (or, in the case of The Bank of New York Mellon Trust Company, N.A. as the Designated Custodian, a copy of the electronically generated 1036 Release Receipt Report) in accordance with the requirements of Section 8107.1(b).

If there is a full or partial reinstatement of the Mortgage, the Servicer must return the Note to the Document Custodian with either the original Form 1036 or a copy.

9301.12: Foreclosing in the Servicer's name (11/14/18)

(a) Conducting the foreclosure

The Servicer must instruct the foreclosure counsel to process the foreclosure in the Servicer's name and in a manner that would avoid any obligation to pay a transfer tax. However, the

Servicer may instruct foreclosure counsel to conduct the foreclosure in Freddie Mac's name if applicable law:

- Precludes the Servicer from conducting the foreclosure in its name because it owns or services a subordinate Mortgage on the Mortgaged Premises, or
- Requires the foreclosure to be processed in Freddie Mac's name to avoid any obligation to pay a transfer tax and foreclosure counsel could not otherwise process the foreclosure in a manner that would successfully avoid imposition of the transfer tax obligation

For these special circumstances, the Servicer does not need to obtain written approval but must notify Freddie Mac within two Business Days of the Servicer's determination to foreclose in Freddie Mac's name and record the basis of the decision in the Mortgage file. All notifications must be sent via e-mail (**see Directory 5**). For all other circumstances in which the Servicer may need to instruct foreclosure counsel to conduct the foreclosure in Freddie Mac's name, the Servicer must obtain written approval from Freddie Mac (refer to Section 9402.2 regarding initiating legal actions on Freddie Mac's behalf).

When processing the foreclosure in Freddie Mac's name, all pleadings and related documents must comply with Section 9402.2(c). The Servicer remains obligated to notify Freddie Mac pursuant to Section 9501.12 in the event that any foreclosure conducted in Freddie Mac's name evolves into a non-routine litigation matter (see Section 9402.2).

When a Servicer conducts the foreclosure in Freddie Mac's name, the Servicer is not permitted to have the same foreclosure counsel represent the Servicer or another lien holder in the same proceeding. Freddie Mac does not consent to dual representation of Freddie Mac and another lien holder on the same property.

(b) Executing documents

If Freddie Mac needs to execute a document that is not authorized for the Servicer to execute under the Limited Power of Attorney (see Exhibit 53) for the Servicer to: (i) process the foreclosure, or (ii) execute a document related to a foreclosure sale, the Servicer must submit Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 5**) with all supporting documentation, which may include, but is not limited to, the last recorded document in the chain of title, and include the document Freddie Mac needs to execute. Refer to Sections 8101.4 and 8601.6 for requirements on obtaining a Limited Power of Attorney for Freddie Mac to sign documents on behalf of Freddie Mac.

If an assignment of the Security Instrument to Freddie Mac has been recorded and the Servicer is conducting the foreclosure in its name, then the Security Instrument must be assigned back to the Servicer before the foreclosure counsel files the first legal action. Refer to Section 9301.16 for an explanation of first legal action.

To have the Security Instrument assigned back to the Servicer, the Servicer must submit a completed assignment with a Request for Assistance Form (available at:

https://sf.freddiemac.com/content/_assets/resources/pdf/fact-sheet/sats699.pdf), to

Freddie Mac (see **Directory 9**). Freddie Mac will endeavor to execute the assignment and return it to the Servicer within 10-12 Business Days of receiving the documents.

If the Servicer is foreclosing on a Mortgage registered with MERS®, the Servicer must prepare and execute (using the Servicer's employee who is a MERS authorized "signing officer") an assignment of the Security Instrument from MERS to the Servicer. The Servicer must record the prepared assignment where required by State law. State mandated recordings are non-reimbursable by Freddie Mac, are not considered part of the Freddie Mac allowable foreclosure counsel fees and must not be billed to the Borrower.

If the Mortgage is an FHA, Section 502 GRH or VA Mortgage, then the Servicer must follow FHA, RHS or VA guidelines to determine in whose name the foreclosure action should be brought.

Refer to Section 6301.6 for additional information on Freddie Mac's requirements for assignments of the Security Instrument.

9301.13: Solicitation during the foreclosure process (10/19/17)

If a Servicer previously determined that a Borrower, who was less than 60 days delinquent at the time of evaluation, did not qualify for any alternative to foreclosure and the Borrower subsequently becomes 60 days delinquent, then the Servicer must continue its solicitation and collection efforts with the Borrower in accordance with the requirements of Chapter 9102. Continued solicitation includes sending another Borrower Solicitation Package, as applicable, if documentation needs to be refreshed in order to perform the subsequent evaluation of the Borrower for alternatives to foreclosure.

Unless required to continue contact attempts by applicable law, attempts to contact any delinquent Borrower and related loss mitigation solicitations must discontinue 60 days prior to a foreclosure sale date for judicial foreclosures or 30 days prior to a foreclosure sale date for non-judicial foreclosures.

Loss mitigation solicitations while the Mortgage is in foreclosure must be communicated to and coordinated with the foreclosure counsel, as appropriate. A Servicer must keep the foreclosure counsel informed of the status of relevant alternative to foreclosure negotiations and must notify the foreclosure counsel within two Business Days after arrangements for an alternative to foreclosure have been agreed to or within two Business Days after the Mortgage is fully reinstated.

9301.14: Servicer's responsibility to work with foreclosure counsel (03/02/16)

(a) After Servicer referral

Once the Servicer has referred a Mortgage to foreclosure, the Servicer must work with the foreclosure counsel to:

1. Identify any viable alternatives to foreclosure
2. Monitor the progress of the foreclosure
3. Facilitate prompt and efficient completion of the foreclosure proceedings and acquisition of clear and marketable title, including conducting the foreclosure in a way that will expedite an eviction of the tenant or Borrower

(b) Communication

Servicer must maintain communication with the foreclosure counsel so that the Servicer can manage the foreclosure effectively. No less than one time per month, the Servicer must require the foreclosure counsel to report the status of the foreclosure, request any documentation needed from Servicer and report any relevant information to the Servicer. The Servicer must maintain this information in the Mortgage file or on its Mortgage system.

(c) Compliance

A Servicer must ensure foreclosure counsel complies with the Servicemembers Civil Relief Act (SCRA) and all State Military Relief Laws as they apply to any Borrower or Mortgage including verification that the Borrower is not a Servicemember currently serving a Period of Military Service (as those terms are referenced in Section 8503.1), or if the Borrower was a Servicemember, that more than one year has elapsed since their period of Military Service ended. (See Section 9701.11 regarding when verification should be completed by foreclosure counsel).

(d) Providing information to the foreclosure counsel

For any Mortgage that the Servicer refers for foreclosure, the Servicer must provide complete written reinstatement or payoff figures to foreclosure counsel, workout specialist or outsourcing vendor requesting the information. This information must be provided within two Business Days of the date on which a written request is received. The Servicer may provide the written reinstatement or payoff figures via a paper document, facsimile or e-mail.

If the foreclosure counsel requests additional information and/or documentation from the Servicer (such as certificates of judgment), at any time, the Servicer must provide such requested information and/or documents within three Business Days after receipt of the

request, or within such earlier time frame if necessary to comply with timing requirements under applicable law or court orders and procedures.

(e) Foreclosure counsel fees

Foreclosure counsel fees and costs must be reasonable and comparable to those customarily charged in the area where the property is located. Exhibit 57A, Approved Attorney Fees and Title Expenses, provides Freddie Mac's expense limits for foreclosure counsel fees. The Servicer must obtain Freddie Mac's written approval prior to incurring foreclosure counsel fees in excess of the expense limits. Refer to Section 9701.3 for details on obtaining Freddie Mac's written pre-approval for exceeding the expense limits in Exhibit 57A.

(f) Fees and Borrower's defenses

Freddie Mac will reimburse the Servicer for Freddie Mac's proportionate share of expenses for responding to Borrower defenses. Refer to Section 9402.2 and Chapter 9701 for details regarding expense reimbursements.

9301.15: Reporting requirements (03/02/16)

The Servicer must notify Freddie Mac via an EDR transmission within the first three Business Days of the month following the month that the Servicer referred the Mortgage to foreclosure. Use a default action code of 43 and provide the date the Mortgage was referred to foreclosure. For additional information on EDR requirements, refer to Section 9102.8.

(a) Monthly foreclosure reporting

Once the Servicer has reported that a Mortgage has been referred to foreclosure the Servicer must report a default action code 68 (Date of first legal action) with the corresponding date of the first legal action (as defined in Section 9301.16). The Servicer must continue to report that the Mortgage is in foreclosure in its monthly EDR transmission using a default action code of 43 (Referred to foreclosure) until:

- The Servicer reports the results of a foreclosure sale or the execution of a deed-in-lieu of foreclosure, or
- The Servicer reports that the Mortgage is fully reinstated or paid off, or
- A workout is completed

For additional information on EDR requirements, refer to Section 9102.7.

(b) Responding to and reporting Borrower defenses

(i) Responding to Borrower defenses

The Servicer must respond to legal actions brought by the Borrower during the foreclosure. Refer to Chapter 9401 for specific requirements for handling bankruptcy and routine litigation and Chapter 9402 for non-routine litigation actions.

(ii) Reporting a bankruptcy filing

If the Borrower files bankruptcy during the foreclosure process, the Servicer must report the bankruptcy filing to Freddie Mac. The Servicer must submit this notification via an EDR transmission within the first three Business Days of the month following the month that the bankruptcy was filed. The Servicer must include the date of the filing and the applicable default action code to indicate the bankruptcy chapter number, as shown below.

Bankruptcy Chapter	Default Action Code
Chapter 12 bankruptcy petition filed	59
Chapter 7 bankruptcy petition filed	65
Chapter 11 bankruptcy petition filed	66
Chapter 13 bankruptcy petition filed	67

The Servicer must also notify Freddie Mac when the bankruptcy plan is confirmed by reporting a default action code of 69 (Bankruptcy plan confirmed), and providing the date the plan was confirmed, or in the event of a scheduled Bankruptcy Cramdown, by reporting a default action code of 35 (Bankruptcy Cramdown Scheduled). The Servicer must continue to report each month that the Borrower is in bankruptcy until the bankruptcy is cleared or the stay lifted and the Servicer has reported the event to Freddie Mac.

When the bankruptcy is cleared or the stay is lifted, the Servicer must notify Freddie Mac via an EDR transmission within the first three Business days of the month following the month that the action occurred. Use a default action code of 76 (Bankruptcy court clearance obtained/stay lifted) and provide the date that the action occurred.

For additional information on EDR requirements refer to Section 9102.7.

(iii) Reporting a contested foreclosure and/or other litigation

The Servicer must notify Freddie Mac of a contested foreclosure. The Servicer must also notify Freddie Mac of any pending litigation that affects the enforceability of the Mortgage or the marketability of the property securing the Mortgage. (Refer to Section 9402.2.) The Servicer must submit this notification via an EDR transmission within the first three Business Days of the month following the month in which the Servicer became aware of the contested foreclosure or other litigation. Use a default action code of 33 (Contested foreclosure and litigation) and provide the date that the action occurred.

The Servicer must report each month that the foreclosure is being contested or about the other litigation as long as the case is pending.

For additional information on EDR requirements, refer to Section 9102.7.

(c) Reporting the scheduled foreclosure sale date

The Servicer must notify Freddie Mac via an EDR transmission within the first three Business Days of the month following the month that a foreclosure sale has been scheduled, by reporting a default action code of 71 (Foreclosure sale scheduled) along with the scheduled sale date. When the Servicer reports the scheduled foreclosure sale in its EDR transmission, the Servicer must also indicate that the Mortgage is in foreclosure using a default action code of 43 (Referred to foreclosure). Therefore, the Servicer will be reporting multiple default action codes in the same EDR transmission.

For additional information on EDR requirements, refer to Section 9102.7.

9301.16: What is the first legal action in the foreclosure process? (03/02/16)

The first legal action is the first public action required in the jurisdiction where the property is located to commence the foreclosure process. The first legal action may include:

- For judicial foreclosures, a complaint, petition, order to docket or notice of hearing
- For non-judicial foreclosures, recording a notice of default or publication of a notice of sale
- For foreclosures other than judicial and non-judicial foreclosures, if any, the earliest document that establishes, sets or schedules a date for a foreclosure sale

This first legal action must take place after the referral to foreclosure. (Refer to Sections 9301.5, 9301.6, 9301.7 and 9301.9.)

9301.17: Expedited foreclosure if property is vacant or abandoned (09/27/21)

Some jurisdictions permit an expedited or alternative foreclosure process if the Mortgaged Premises is vacant or abandoned. If the Servicer decides it is in Freddie Mac's best interest to pursue an expedited foreclosure as a result of the occupancy status of the Mortgaged Premises, then the Servicer may proceed with an expedited foreclosure.

Requesting additional attorney fees

If the Servicer believes that pursuing an expedited foreclosure is in Freddie Mac's best interest and knows that additional attorney fees will be incurred when processing this expedited foreclosure, the Servicer must submit a request for pre-approval to Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to recommend incurring additional attorney fees to complete the expedited foreclosure. The Servicer must send the recommendation to Freddie Mac before the Servicer incurs additional fees; otherwise, Freddie Mac will not reimburse for those fees. Under no circumstances should the Servicer delay initiating foreclosure to obtain Freddie Mac's approval to pursue an expedited foreclosure.

9301.18: Obtaining judgment for less than total indebtedness (03/02/16)

While Servicers are required to obtain judgment against the Borrower for the total indebtedness due under the Note and Mortgage in accordance with applicable law and the Guide, there may be cases where the foreclosure proceeding will be significantly shortened if the Servicer only seeks judgment for any amount less than the total indebtedness (e.g., for only principal and interest owed by the Borrower). If the Servicer determines that obtaining judgment for any amount less than the total indebtedness is in Freddie Mac's best interest, it may do so. The Servicer must record the decision to obtain judgment for a lesser amount and the grounds for its decision in the Mortgage file.

Prior to obtaining final judgment of foreclosure on any amount less than the total indebtedness, the Servicer must ensure that:

- All requirements of the Guide have been met
- The ratio of the sum of principal and interest to the market value of the Mortgaged Premises is 100% or more. The Servicer must obtain the value of the Mortgaged Premises in accordance with Section 9202.16, as if the Servicer were obtaining an "estimated market value" of the Mortgaged Premises for a short sale (see Section 9208.5(b) for instructions on obtaining a short sale property value).

- In the event the Borrower reinstates or satisfies the Mortgage after judgment is obtained, the Servicer must instruct foreclosure counsel to vacate the judgment. If this is not possible and the Servicer has unreimbursed expenses or advances that are not collectable because it obtained judgment for an amount less than the total indebtedness, the Servicer may not seek reimbursement from Freddie Mac for those expenses or advances.

9301.19: Expedited foreclosures (03/02/16)

Servicers must always consider how to resolve a Freddie Mac Default Legal Matter in a way that obtains the best result for Freddie Mac and in a legally-compliant manner. While Servicers are not required to use expedited methods identified in this chapter, if a Servicer does proceed with an expedited method, it must adhere to the requirements set forth in this chapter.

This chapter provides requirements for expediting Freddie Mac Default Legal Matters, such as:

- Waiving Freddie Mac's right to pursue deficiency actions against a Borrower
- Expediting the foreclosure if the property is identified as vacant/abandoned
- Obtaining default judgment for an amount less than total amount owed by the Borrower
- State-specific methods for expediting Freddie Mac Default Legal Matters

9301.20: Expedited foreclosures – Florida (09/27/21)

(a) Determining the judgment method

In the State of Florida, Servicers may obtain judgment in connection with a foreclosure in several ways, including the following:

- Motion for summary judgment
- Bulk trial foreclosures
- Order to show cause
- Obtaining judgment for less than the total indebtedness as described in Section 9301.18

Foreclosure timeline requirements set forth in Section 9301.45 will not be waived regardless of the procedure the Servicer follows when foreclosing the Mortgage.

(b) Motion for summary judgment

Servicers may move for summary judgment against the Borrower using the expense limits set forth in Exhibit 57A, Approved Attorney Fees and Title Expenses.

(c) Bulk trial foreclosures

Servicers may utilize bulk trial foreclosures to accelerate foreclosures. This option can be used for Freddie Mac Default Legal Matters that were:

- Referred to law firms on or after June 1, 2013 or
- Referred to law firms before June 1, 2013 and for which the foreclosure complaint has been filed, but final judgment of foreclosure has not yet been entered

Servicers and their counsel must use their discretion to determine whether the bulk trial foreclosure process is appropriate for the jurisdiction, the Mortgage and the Mortgaged Premises that is the subject of the foreclosure.

Reimbursement of expenses

Pursuant to Section 9701.11, Freddie Mac will reimburse Servicers for approved attorney fees as set forth in Exhibit 57A. Servicers must submit expenses for additional attorney fees associated with the use of the bulk trial foreclosure process through PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). Freddie Mac will reimburse up to a maximum of \$1,750, including legal fees for all necessary work to complete bulk trial foreclosures, including, but not limited to:

- Identification of bulk trial foreclosure candidates
- Pre-trial preparation and correspondence
- Preparation of trial orders
- Witness preparation
- All necessary court appearances

This fee is in addition to the foreclosure attorney fee. Servicers must use expense code 010009 (Bulk Trial Foreclosure/Inquest Process) when submitting an expense in PAID (see Exhibit 88, Servicing Tools) for the additional trial fees associated with the bulk trial foreclosure process. Legal expenses paid by the Servicer must match or exceed the reimbursement request.

(d) Order to show cause

Servicers may foreclose using motions for order to show cause against the Borrower subject to the expense limits set forth in Exhibit 57A.

(e) Default judgment

Servicers may move for default judgment against the Borrower in accordance with Sections 9301.18 and 9301.23.

9301.21: Expedited foreclosures – Illinois (09/27/21)

In Illinois, Servicers may obtain a consent judgment from a Borrower and take title to the Mortgaged Premises on behalf of Freddie Mac instead of selling the Mortgaged Premises at foreclosure sale.

Servicers must comply with the requirements in Section 9301.2 and applicable law prior to obtaining a consent judgment pursuant to this section. Servicers may also offer a relocation incentive to a qualified Borrower as described in this section.

(a) General requirements

- The Mortgaged Premises must be located in Illinois
- Servicers may seek reimbursement from Freddie Mac, subject to the expense limits set forth in Exhibit 57A, Approved Attorney Fees and Title Expenses
- Payments from Freddie Mac or the Borrower to subordinate lienholders, if any, are not permitted. Most subordinate liens will be extinguished by operation of law once the consent judgment is final.

(b) Relocation incentive requirements

The Servicer may pay a relocation incentive of up to \$3,000 to the Borrower in a manner similar to the relocation assistance for completion of a Freddie Mac Deed-in-Lieu of Foreclosure (“deed-in-lieu of foreclosure”) if the Borrower occupies the Mortgaged Premises as his or her Primary Residence at the time the Borrower consents to judgment provided that:

1. If the Borrower receives relocation assistance from a source other than Freddie Mac or the Servicer, such as an employer, the Servicer must reduce the amount of Freddie Mac's relocation assistance by the amount received from the other source. If the Borrower will receive relocation assistance from a source other than Freddie Mac or the Servicer and the amount is equal to or greater than \$3,000, Freddie Mac will not provide any relocation assistance to the extent that the Servicer is aware of such payment.

2. Borrowers subject to Permanent Change of Station (PCS) orders will not be eligible for Freddie Mac relocation assistance as the government assists in defraying the costs of the service member's relocation
3. The Servicer must conduct an interior inspection of the Mortgaged Premises to ensure that it is vacant, undamaged and in broom-swept condition in the same manner and under the same requirements as stated in Section 9209.5 for a deed-in-lieu of foreclosure, unless the property is a 2- to 4-unit property and Freddie Mac allows tenants to remain in one or more unit(s); in which case, the Servicer must ensure the remaining units are vacant, undamaged and in broom-swept condition. The Servicer must take all necessary actions to protect the Mortgaged Premises from waste, damage and vandalism.
 - If the property inspection reveals any environmental hazards or legal concerns as described in Section 9209.2(c), the Servicer must contact Freddie Mac for approval prior to obtaining the consent judgment
 - If the property inspection indicates that the Mortgaged Premises was not left in broom-swept condition or there is damage to the Mortgaged Premises, the Servicer must proceed to judgment and do all of the following:
 - Estimate the costs for remediating the issues
 - Reduce the Borrower relocation assistance by the estimated amount
 - Secure the property following the requirements in Section 9603.1
 - Freddie Mac will reimburse the Servicer for the actual cost of a final property inspection conducted by an outside service up to the expense limits stated in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts. Refer to Section 9701.9 for details regarding reimbursement of property inspection costs.
4. Once the final amount of relocation assistance has been determined, the consent judgment has been obtained and the Mortgaged Premises have been inspected and found to be in acceptable condition, the Servicer must disburse to the Borrower the relocation assistance payment. The Servicer must distribute the relocation assistance funds no more than 30 days after entry of judgment. The Servicer may request reimbursement for the relocation assistance from Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).
5. In addition to the relocation assistance offered by Freddie Mac, the Servicer may in its discretion offer the Borrower an additional financial incentive to obtain the consent of the Borrower to entry of judgment. Any relocation assistance provided by the Servicer will be in addition to the relocation assistance amount provided by Freddie Mac and the Servicer's assistance amount does not have to be subtracted from the assistance amount Freddie Mac will pay. If the Servicer does offer its own relocation assistance, it must provide the assistance from its own funds, as a payment made directly to the Borrower.

6. The relocation assistance payment may not be applied to other debts secured by the Mortgaged Premises or retained by the Servicer for any reason

(c) Foreclosure sale reporting

The Servicer must report the Mortgage as reverting to REO through a foreclosure sale, and not a deed-in-lieu of foreclosure. The Servicer must report the “sale results” as the amount of the judgment (as there is no foreclosure sale) and the Servicer must report the “sale date” as the date the judgment is entered.

If the Servicer also waives the deficiency in connection with obtaining the consent judgment, then the Servicer must notify Freddie Mac that the deficiency rights have not been preserved at the time the foreclosure sales results are being reported as provided in Section 9301.38.

9301.22: Expedited foreclosures – New York (09/27/21)

In New York, certain counties or courts have established guidelines for an alternative course of legal action, the New York Foreclosure Inquest Program and/or bulk trials, as a method to expedite foreclosure actions.

Servicers may utilize the New York Foreclosure Inquest Program and/or bulk trials as an alternative foreclosure process to accelerate Freddie Mac Default Legal Matters in New York. Servicers and their counsel must use their discretion to determine if the use of the New York Foreclosure Inquest Program and/or bulk trials is in Freddie Mac’s best interest based on the local jurisdiction, the Mortgage and the Mortgaged Premises that is the subject of the foreclosure, and if the foreclosure action meets the eligibility criteria for inclusion in the New York Foreclosure Inquest Program as determined by the participating county or judge.

Foreclosure timeline requirements set forth in Section 9301.45 will not be waived as a result of using the New York Foreclosure Inquest Program and/or bulk trials, and will remain in effect.

Reimbursement of expenses

Pursuant to Section 9701.11, Freddie Mac will reimburse Servicers for approved attorney fees as set forth in Exhibit 57A, Approved Attorney Fees and Title Expenses. Servicers must submit expenses for additional attorney fees associated with the use of the New York Foreclosure Inquest Program and/or bulk trials through PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). Freddie Mac will reimburse up to a maximum of \$1,750, which is the maximum legal fee for all work necessary to complete an inquest, including, but not limited to:

- Identification of Foreclosure Inquest Program candidates
- Pre-trial preparation and correspondence

- Preparation of trial orders
- Witness preparation
- All necessary court appearances

This fee is in addition to the approved foreclosure attorney fee. Servicers must use expense code 010009 (Bulk Trial Foreclosure/Inquest Process) when submitting a claim request in PAID for the additional trial fees associated with a Mortgage proceeding in the New York Foreclosure Inquest Program. Legal expenses paid by the Servicer must match or exceed the reimbursement request.

9301.23: When to preserve/waive deficiency rights (03/09/16)

(a) When to preserve deficiency rights

In all instances, except as set forth in this section, where the foreclosure timeline will not be extended or additional fees/costs will not be incurred above the approved expense limits set forth in Exhibit 57A, Approved Attorney Fees and Title Expenses, Servicers must work with their foreclosure attorney to preserve Freddie Mac's right to pursue a deficiency action. Freddie Mac reserves the right to pursue deficiencies after the foreclosure sale on a case-by-case basis.

If the Mortgage has mortgage insurance, the Servicer must follow the MI's instructions for pursuing deficiency judgments or waiving deficiency judgments.

(b) When to waive deficiency rights

The Servicer must adhere to the requirements provided in this section in order to waive Freddie Mac's right to pursue a deficiency judgment against a Borrower.

In many jurisdictions, applicable law provides Freddie Mac the right to pursue a deficiency balance after a foreclosure sale. In some instances, it may be in Freddie Mac's best interest to waive the right to collect the deficiency including, but not limited to, cases where a waiver will do one of the following:

- Expedite the foreclosure
- Expeditiously resolve litigation and/or bankruptcy in Freddie Mac's favor
- Result in a consent judgment conveying the Mortgaged Premises to Freddie Mac in Illinois

- Obtain a Borrower's consent to the final judgment of foreclosure on an expedited basis
- Expedite or result in the entry of an order confirming or ratifying the foreclosure sale by the court
- Minimize or avoid the imposition of additional redemption, confirmation or ratification periods, if State law would impose such additional periods

If the Servicer determines that waiving Freddie Mac's right to pursue a deficiency is in Freddie Mac's best interest, then the Servicer may use its discretion without obtaining Freddie Mac's prior approval to waive Freddie Mac's right to pursue a deficiency.

If the Servicer waives Freddie Mac's right to pursue a deficiency, then at the time it reports the foreclosure sale results as required by Section 9301.38, the Servicer must notify Freddie Mac that the deficiency rights have not been preserved.

The Servicer must record that it waived Freddie Mac's deficiency rights, as well as the grounds for its decision, in the Mortgage file.

Servicers must meet the requirements of Section 9301.38 when waiving deficiency rights.

9301.24: Circumstances where preserving deficiency rights requires additional expense (09/27/21)

If the Servicer knows that additional attorney fees will be incurred when preserving Freddie Mac's right to pursue a deficiency action, and the Servicer believes it is in Freddie Mac's best interest to preserve Freddie Mac's right to pursue a deficiency action against the Borrower, the Servicer must submit a request for pre-approval (RPA) to Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to recommend incurring additional attorney fees to perfect Freddie Mac's rights to pursue a deficiency action. If possible, the Servicer should send the recommendation to Freddie Mac before the Servicer refers a Mortgage to foreclosure. However, under no circumstances should the Servicer delay referring a Mortgage to foreclosure to obtain Freddie Mac's approval to preserve Freddie Mac's deficiency rights. When submitting a recommendation to Freddie Mac, the Servicer must follow the instructions provided below.

Servicers must only send a recommendation to Freddie Mac if the Servicer or its attorney is able to provide justification that would outweigh both the delays in the foreclosure process, and the increased fees and costs. Servicers should include an explanation for the request in the RPA comment field along with the electronic attachment of any supporting documentation.

Servicers will not receive foreclosure timeline compensatory fee consideration for delaying the foreclosure process unless explicitly stated by Freddie Mac in its response to the Servicer's recommendation.

For all other issues related to preserving deficiency rights where additional expenses are required, Servicers should direct their questions to Freddie Mac (see **Directory 5**).

9301.25: Abandonment (03/02/16)

Preservation of deficiency rights should be sought against a Borrower who has abandoned the property. When these cases fall outside of the requirements set forth in Section 9301.23, it is the Servicer's responsibility to send a recommendation to Freddie Mac by submitting a request for pre-approval to Freddie Mac within five Business Days of discovering the property is abandoned.

For all other issues related to abandonment as it relates to the preservation of deficiency rights, Servicers should direct their questions to Freddie Mac (see **Directory 5**).

9301.26: Preserving the property during the foreclosure process (09/27/21)

The Servicer must take the following actions to preserve and maintain the property during the foreclosure process:

1. Ensure the property is covered by property insurance throughout the foreclosure process, in accordance with the requirements of Section 9603.11. This includes taking all actions required in the mortgage clause of all applicable property insurance policies, including, but not limited to, providing all notices to the insurer required under such clause, in order to preserve the coverage and its maximum benefits for the Servicer and/or Freddie Mac, as mortgagee.
2. Take all necessary steps to protect the property from waste, damage and vandalism, and winterize, as appropriate (see Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts, for an outline of winterization requirements)

Obtain approval from Freddie Mac for any property preservation expenses that either exceed Freddie Mac's approval limits or will be incurred after the date of a foreclosure sale, including where the property is sold to a third party by submitting a request for pre-approval of expenses (RPA) to Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). (Refer to Section 9701.9 regarding reimbursement for property preservation expenses.)

3. Comply with any property preservation requirements of the FHA, RHS, VA or MI, if applicable
4. For leasehold Mortgages, ensure that payments required under the terms of the lease (i.e., ground rents) are made to prevent termination of the lease, if termination of the lease will impair Freddie Mac's lien position or interest in the property

Reporting lead-based paint violations

If during the foreclosure process the Servicer becomes aware of lead-based paint violations on the property, then the Servicer must report such violations to Freddie Mac (see **Directory 5**) within five Business Days of learning of the violation. The Servicer must include:

- A copy of the citation
- Copies of documentation related to a lead-based paint violation

9301.27: Expenses that may become First Liens on the property (05/04/20)

The Servicer must obtain bills and make payment for all expenses requiring payment under the Security Instrument. Such expenses may include, but are not limited to, property taxes, ground rents, and assessments or other charges (e.g., utility assessments, condominium/homeowners association (HOA) or Cooperative Corporation assessments, and Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees) that, if delinquent, are or may become First Liens priority on the property or that if not paid would result in the subordination of Freddie Mac's interests. (See Section 8801.4 regarding Cooperative Share Loan expenses that may become First Liens on the property.) If the Borrower's Escrow Funds are insufficient to pay these items as they become due during foreclosure, or, if there is no Escrow account or if the Escrow account does not hold funds for these expenses, the Servicer must advance funds to pay these expenses, when and to the extent necessary, to protect Freddie Mac's interests.

Additionally, the Servicer must contact Freddie Mac (see **Directory 5**) and obtain Freddie Mac's written approval before making payments to taxing authorities when federal, State or local income tax liens would take priority over Freddie Mac's First Lien position.

9301.28: Complete Borrower Response Packages received after referral to foreclosure (09/27/21)

(a) First Complete Borrower Response Package received after referral to foreclosure and greater than 37 days prior to the foreclosure sale date

Refer to Section 9101.4.

(b) All other Borrower Response Packages received after referral to foreclosure and greater than 37 days prior to the foreclosure sale date

If the Servicer receives a complete Borrower Response Package after referral to foreclosure, the Servicer is not required to suspend foreclosure proceedings to review the complete Borrower Response Package and notify the Borrower of the decision.

To accept an offer

A Borrower's notification to the Servicer that he or she intends to accept an offer may be demonstrated as follows:

- Verbal notification
- Written notification

If a payment is required to legally accept an alternative to foreclosure offer, and the Borrower does not communicate a verbal or written rejection of the alternative to foreclosure offer, the Servicer must postpone foreclosure actions where legally permitted at least through the last day of the month that the first payment is due under the terms of the alternative to foreclosure offer or until the deadline for Borrower acceptance has passed. If the Servicer receives the first payment timely in accordance with the terms of a Trial Period Plan, repayment plan or forbearance plan, the Servicer must delay the next legal action unless the Borrower breaches the plan.

In the event a foreclosure sale occurs, the Servicer's performance will be measured against Freddie Mac's State foreclosure timelines without consideration given to the Servicer's postponement of the foreclosure sale (refer to Exhibit 83, Freddie Mac State Foreclosure Timelines).

Borrower Response Package received without a short sale purchase offer and foreclosure sale date is scheduled

If the foreclosure sale has been scheduled and the Servicer sends the Borrower a Borrower Evaluation Notice that is an intent to pursue a short sale based on receipt of a complete Borrower Response Package but a purchase offer was not received, then the Borrower Evaluation Notice must be amended to indicate the following:

- *Contact a real estate broker to list your property for sale if it is not currently listed*
- *Once you receive a potential buyer's offer, contact us immediately and we will review the offer to determine whether to accept it in full or partial satisfaction of your obligation*

Short sale evaluations

Once the Mortgage has been referred to foreclosure, the Servicer must continue with foreclosure proceedings during the short sale process, except where delay for motion of judgment is provided for Mortgages subject to judicial proceedings. However, the Servicer must not complete a foreclosure sale if the short sale has been approved based on a review of a purchase offer and a complete Borrower Response Package (or other streamlined documentation permitted in Section 9208.3). The Servicer must suspend the foreclosure sale where permitted under State or local law.

Deed-in-lieu of foreclosure evaluations

Once the Mortgage has been referred to foreclosure, the Servicer must continue with foreclosure proceedings during the deed-in-lieu of foreclosure process, except where delay for motion of judgment is provided for Mortgages subject to judicial proceedings. The Servicer may only suspend a foreclosure sale after the executed deed and all required deed-in-lieu of foreclosure documents have been received by the Servicer. Additionally, the Servicer must receive an executed deed from the Borrower no later than 30 days prior to the scheduled foreclosure sale date.

When considering a Borrower for a deed-in-lieu of foreclosure, the Servicer must ensure that there is sufficient time to complete processing of the deed-in-lieu of foreclosure (inclusive of sending the deed-in-lieu of foreclosure offer to the Borrower) so that the Servicer receives the executed deed no later than 30 days prior to the foreclosure sale date.

(c) Borrower Response Package received 37-15 days prior to the scheduled foreclosure sale date

If a complete Borrower Response Package (including a short sale purchase offer, as applicable) is submitted between 37 and 15 days before a scheduled foreclosure sale date, the Servicer must expedite its review and make a determination regarding the Borrower's request for assistance at least seven days before the scheduled foreclosure sale date. This will ensure that the Servicer will be able to determine whether it must send a foreclosure certification to the foreclosure counsel at least seven, but no more than 15 days prior to a scheduled foreclosure sale date, if appropriate or offer the Borrower an alternative to foreclosure.

For a short sale transaction, if the Servicer has approved the short sale based on a review of a purchase offer and a complete Borrower Response Package (or other streamlined documentation as permitted), the Servicer must suspend the foreclosure sale where permitted under State or local law.

If the Servicer sends the Borrower a Borrower Evaluation Notice that is an intent to pursue a Freddie Mac Standard Short Sale based on receipt of a complete Borrower Response Package but a purchase offer was not received, then the Borrower Evaluation Notice must be amended to indicate the following:

- *Contact a real estate broker to list your property for sale if it is not currently listed. If your property is not currently listed, there may not be adequate time to market the property or to review a potential buyer's offer prior to the foreclosure sale date.*
- *Once you receive a potential buyer's offer, contact us immediately and we will review the offer to determine whether to accept it in full or partial satisfaction of your obligation*

The “Standard Short Sale – All Other Scenarios” model clause included in Exhibit 93, Evaluation Model Clauses, is representative of this Borrower Evaluation Notice.

(d) Borrower Response Package received less than 15 days prior to the scheduled foreclosure sale date

If a complete Borrower Response Package is received less than 15 days prior to a scheduled foreclosure sale date, the Servicer must first determine whether it can conduct an expedited review of the Borrower Response Package and render a decision by the latest foreclosure certification date (i.e., seven days prior to the scheduled foreclosure sale date) and if so, the Servicer must complete the review.

If the Servicer offers the Borrower a home retention alternative to foreclosure, and the expiration of the 14-day Borrower response period will occur on or after a scheduled foreclosure sale date, it must not provide the certification to the foreclosure counsel and must make every effort to suspend the foreclosure sale for up to 14 days where legally permitted under State or local law (see Section 9301.28 for foreclosure suspension requirements related to short sales). The Servicer is not in violation of this requirement if:

- A court with jurisdiction over the foreclosure proceeding (if any), or the bankruptcy court in a bankruptcy case, or the public official charged with carrying out the activity or event, fails or refuses to halt some or all activities or events in the matter after the Servicer has made reasonable efforts to move the court or request the public official for a cessation of the activity or event
- The Servicer has taken action to protect the interests of Freddie Mac in response to action taken by the Borrower or other parties in the foreclosure process (e.g., bankruptcy filed by the Borrower, situations where the Borrower files a motion that requires a response, or similar situations)

The Servicer must document in the Mortgage file if any of the foregoing exceptions to the requirement to halt an existing foreclosure action are applicable. In the event a foreclosure sale occurs, the Servicer’s performance will be measured against Freddie Mac’s State

foreclosure timelines without consideration given to the Servicer's postponement of the foreclosure sale (refer to Exhibit 83).

Solely for the purpose of suspending foreclosure sale, a Borrower's notification to the Servicer that he or she intends to accept an offer may be demonstrated as follows:

- Written notification
- Remittance of a payment due under an alternative to foreclosure offer that requires payment (i.e., forbearance, repayment or Trial Period Plan)

If the Borrower communicates an intent to accept the alternative to foreclosure within 14 days from the date of the Borrower Evaluation Notice offer as described above, the Servicer must suspend the foreclosure sale where legally permitted under State or local law.

Additionally, in cases where a payment is required under the terms of an alternative to foreclosure offer, and the Borrower communicates a written intent to accept an alternative to foreclosure offer, the Servicer must suspend the foreclosure sale until the last day of the month that the first payment is due under the terms of the alternative to foreclosure offer. If the Servicer receives the first payment timely in accordance with the terms of a Trial Period Plan, the Servicer must delay the next legal action in the foreclosure process until the first month following the end of the Trial Period Plan. If the Servicer receives the first payment timely in accordance with the terms of a repayment plan or forbearance plan, the Servicer must delay the next legal action unless the Borrower breaches the plan.

If the Borrower complies with the terms of the Trial Period or other plan and the Mortgage is modified with a fully executed modification agreement or the Delinquency is cured, the Servicer must then cancel the foreclosure action as permitted by State or local law.

(e) Foreclosure sale postponements

Servicers are delegated the authority to approve foreclosure sale postponements. When determining whether to postpone a foreclosure sale, the Servicer must comply with the requirements in Sections 9301.28(a), (b), (c) and (d).

Regardless of the reason for the foreclosure sale postponement, in the event a foreclosure sale occurs, the Servicer's performance will be measured against Freddie Mac's State foreclosure timelines (refer to Exhibit 83).

Foreclosure attorney fees for actions required to postpone the foreclosure sale are included in the attorney's fees listed in Exhibit 57A when complying with the requirements in Sections 9301.28(a), (b), (c) and (d). Additionally, with prior written approval from Freddie Mac, the Servicer may be reimbursed for foreclosure attorney fees that exceed the expense limits in Exhibit 57A. To obtain written approval from Freddie Mac, the Servicer must submit a request for pre-approval (RPA) using the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

If a foreclosure sale is postponed due to Servicer non-compliance with the Guide including, but not limited to, the Servicer failing to provide the foreclosure certification, the Servicer will not receive any credit or consideration of State foreclosure timeline compensatory fees and will also be subject to any loss, expenses or other damages.

9301.29: Reviews and certifications prior to foreclosure sale (03/02/16)

(a) Pre-sale account review by the Servicer

The Servicer must have written policies and procedures requiring a review of the Mortgage at least 30 days prior to the scheduled foreclosure sale date.

The Servicer must review the account history to verify compliance with all required Borrower outreach, solicitation and evaluation requirements specified in Chapters 9101 and 9102 and that there is no approved payment arrangement, pending alternative to foreclosure offer or appeal for which the Borrower response period has not expired. The Servicer must document the results of their review in its Mortgage file or servicing system.

(b) Certification to foreclosure counsel

At least seven, but no more than 15 days prior to foreclosure sale, the Servicer must review the account and send written certification to the foreclosure counsel indicating that the foreclosure sale must continue unless:

- The account review reveals that all Borrower outreach, solicitation and evaluation requirements have not been achieved, or
- There is an approved payment arrangement, pending alternative to foreclosure offer or appeal for which the Borrower response period has not expired

If any of the above exceptions apply, then the Servicer must not provide the certification and must make every effort to stop a scheduled foreclosure sale.

The Servicer must document the results of its review in its Mortgage file or servicing system.

The Servicer must work with the foreclosure counsel to develop a process for receipt of the foreclosure certification to prevent unnecessary delays. If the foreclosure counsel cancels the foreclosure sale due to the Servicer's failure to provide the foreclosure certification timely, the Servicer will be subject to compensatory fees for delays resulting from such a cancellation.

9301.30: Foreclosure sale date extensions (03/02/16)

In some instances, it may be in Freddie Mac's best interest to extend the foreclosure sale date including, but not limited to, cases when an extension of the sale will do one of the following:

- Expedite the foreclosure
- Expeditiously resolve litigation and/or bankruptcy in Freddie Mac's favor
- Obtain a Borrower's consent to the final judgment of foreclosure on an expedited basis

If the Servicer determines that extending the foreclosure sale date is in Freddie Mac's best interest, then the Servicer may use its discretion without obtaining Freddie Mac's prior approval to extend the sale. The Servicer must record the decision to extend the foreclosure sale date and the basis for its decision in the Mortgage file.

Foreclosure timeline requirements set forth in Section 9301.45 will not be waived in consideration of extending the foreclosure sale date. Servicers and their counsel must use their discretion to determine whether extending the foreclosure sale date is in Freddie Mac's best interest based on the jurisdiction, the Mortgage and the Mortgaged Premises that is the subject of the foreclosure.

9301.31: Delegated bidding (03/01/20)

The Servicer must offer a bid on all foreclosures. Freddie Mac delegates to the Servicer responsibility to establish the bid according to the guidelines in Sections 9301.34 through 9301.36. However, if any of the following conditions exist, the Servicer must contact Freddie Mac at least ten Business Days prior to the foreclosure sale date:

1. It is not in Freddie Mac's best interest for the Servicer to enter a bid in accordance with the guidelines	The Servicer must e-mail Form 105, Multipurpose Loan Servicing Transmittal, for a First-Lien Mortgage to Freddie Mac at ShortSales@FreddieMac.com
2. A hazard insurance claim is pending and the bid will jeopardize the approval or payout of the claim	The Servicer must e-mail Form 105 for a First-Lien Mortgage to Freddie Mac at Distressed_Property@FreddieMac.com
3. The Servicer is unable to obtain a credit bid (see Section 9301.32 on obtaining a credit bid for foreclosure sale bidding) and bid in accordance with Section 9301.34, or the Servicer disputes the credit bid obtained in connection with a	<p>The Servicer must e-mail Form 105 for a First-Lien Mortgage to Freddie Mac at ShortSales@FreddieMac.com.</p> <p>If the Servicer disputes the credit bid obtained in connection with a scheduled</p>

<p>scheduled foreclosure sale</p>	<p>foreclosure sale, and Freddie Mac decides to update or change the credit bid obtained by the Servicer via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools), Freddie Mac will notify the Servicer that the credit bid has been updated prior to the foreclosure sale date. (See Section 9301.32 on updated credit bids.)</p>
<p>4. The Servicer is unable to obtain a credit bid via the Freddie Mac Real Estate Valuation and Pricing tool (and bid in accordance with Section 9301.34) because the foreclosure sale is of a property subject to resale restrictions (in accordance with Chapter 4502 or 4406, as applicable), but the resale restrictions terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure</p>	<p>The Servicer must e-mail Form 105 for a First-Lien Mortgage to Freddie Mac at ShortSales@FreddieMac.com</p>

If Freddie Mac provides bidding instructions and/or offers a bid for a foreclosure sale in response to the contact requirements above, the Servicer must cooperate with Freddie Mac and make every effort to ensure that foreclosure counsel receives the updated bidding instructions in a timely manner so as not to delay, cancel or stop a scheduled foreclosure sale.

9301.31: Delegated bidding (Future effective date 10/02/23)

The Servicer must offer a bid on all foreclosures. Freddie Mac delegates to the Servicer responsibility to establish the bid according to the guidelines in Sections 9301.34 through 9301.36. However, if any of the following conditions exist, the Servicer must contact Freddie Mac at least ten Business Days prior to the foreclosure sale date:

<p>1. It is not in Freddie Mac's best interest for the Servicer to enter a bid in accordance with the guidelines</p>	<p>The Servicer must e-mail Form 105, Multipurpose Loan Servicing Transmittal, for a First-Lien Mortgage to Freddie Mac at ShortSales@FreddieMac.com</p>
<p>2. A hazard insurance claim is pending and the bid will jeopardize the approval or payout of the claim</p>	<p>The Servicer must e-mail Form 105 for a First-Lien Mortgage to Freddie Mac at Distressed_Property@FreddieMac.com</p>

3. The Servicer is unable to obtain a credit bid (see Section 9301.32 on obtaining a credit bid for foreclosure sale bidding) and bid in accordance with Section 9301.34, or the Servicer disputes the credit bid obtained in connection with a scheduled foreclosure sale	<p>The Servicer must e-mail Form 105 for a First-Lien Mortgage to Freddie Mac at <u>ShortSales@FreddieMac.com</u>.</p> <p>If the Servicer disputes the credit bid obtained in connection with a scheduled foreclosure sale, and Freddie Mac decides to update or change the credit bid obtained by the Servicer via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools), Freddie Mac will notify the Servicer that the credit bid has been updated prior to the foreclosure sale date. (See Section 9301.32 on updated credit bids.)</p>
4. The Servicer is unable to obtain a credit bid via the Freddie Mac Real Estate Valuation and Pricing tool (and bid in accordance with Section 9301.34) because the foreclosure sale is of a property subject to resale restrictions (in accordance with Chapters 4406, 4504 or 4502, as applicable), but the resale restrictions terminate upon foreclosure (or expiration of any applicable redemption period) or recordation of a deed-in-lieu of foreclosure	<p>The Servicer must e-mail Form 105 for a First-Lien Mortgage to Freddie Mac at <u>ShortSales@FreddieMac.com</u></p>

If Freddie Mac provides bidding instructions and/or offers a bid for a foreclosure sale in response to the contact requirements above, the Servicer must cooperate with Freddie Mac and make every effort to ensure that foreclosure counsel receives the updated bidding instructions in a timely manner so as not to delay, cancel or stop a scheduled foreclosure sale.

9301.32: When to obtain a credit bid for foreclosure sale bidding (03/01/20)

The Servicer must obtain a credit bid when preparing bids on First Lien Mortgages not covered by mortgage insurance, or when State law does not require that an appraisal report be used to set the bid (see Section 9202.16 on obtaining an appraisal report to prepare foreclosure sale bidding instructions). Servicers are not required to obtain credit bids when preparing bids on properties subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure (in accordance with Chapter 4406). The Servicer must refer to the applicable resale

restrictions for details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met.

To ensure the Servicer has a credit bid in time for the foreclosure sale, Freddie Mac recommends that the Servicer obtain the credit bid via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools) no less than 30 and no more than 90 days before the scheduled foreclosure sale date (see Chapter 2404 for information about access to the Real Estate Valuation and Pricing tool). If the “good through date” returned with the credit bid is set to expire prior to the scheduled foreclosure sale date, then the Servicer needs to proactively request an updated credit bid in time for the scheduled foreclosure sale.

Freddie Mac may decide, in its sole discretion or in response to a Servicer’s dispute of the credit bid (see Section 9301.31 regarding a Servicer’s dispute of the credit bid obtained in connection with a scheduled foreclosure sale), to update or change the credit bid obtained by the Servicer via the Real Estate Valuation and Pricing tool. In such cases, Freddie Mac will notify the Servicer that the credit bid has been updated prior to the foreclosure sale date, and the Servicer must cooperate with Freddie Mac and make every effort to ensure that foreclosure counsel receives the updated bidding instructions in a timely manner so as not to delay, cancel or stop a scheduled foreclosure sale.

If the Servicer is unable to provide the updated bidding instructions to foreclosure counsel in a timely manner, or foreclosure counsel could not use the updated bidding instructions, then the Servicer must document it in the Mortgage file. Under no circumstance should the foreclosure sale be delayed because of the Servicer’s receipt of an updated credit bid.

9301.32: When to obtain a credit bid for foreclosure sale bidding (Future effective date 10/02/23)

The Servicer must obtain a credit bid when preparing bids on First Lien Mortgages not covered by mortgage insurance, or when State law does not require that an appraisal report be used to set the bid (see Section 9202.16 on obtaining an appraisal report to prepare foreclosure sale bidding instructions). Servicers are not required to obtain credit bids when preparing bids on properties subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure (in accordance with Chapters 4406, 4502 or 4504, as applicable). The Servicer must refer to the applicable resale restrictions for details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met.

To ensure the Servicer has a credit bid in time for the foreclosure sale, Freddie Mac recommends that the Servicer obtain the credit bid via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools) no less than 30 and no more than 90 days before the scheduled foreclosure sale date (see Chapter 2404 for information about access to the Real Estate Valuation and Pricing tool). If the “good through date” returned with the credit bid is set to expire prior to the scheduled foreclosure sale date, then the Servicer needs to proactively request an updated credit bid in time for the scheduled foreclosure sale.

Freddie Mac may decide, in its sole discretion or in response to a Servicer's dispute of the credit bid (see Section 9301.31 regarding a Servicer's dispute of the credit bid obtained in connection with a scheduled foreclosure sale), to update or change the credit bid obtained by the Servicer via the Real Estate Valuation and Pricing tool. In such cases, Freddie Mac will notify the Servicer that the credit bid has been updated prior to the foreclosure sale date, and the Servicer must cooperate with Freddie Mac and make every effort to ensure that foreclosure counsel receives the updated bidding instructions in a timely manner so as not to delay, cancel or stop a scheduled foreclosure sale.

If the Servicer is unable to provide the updated bidding instructions to foreclosure counsel in a timely manner, or foreclosure counsel could not use the updated bidding instructions, then the Servicer must document it in the Mortgage file. Under no circumstance should the foreclosure sale be delayed because of the Servicer's receipt of an updated credit bid.

9301.33: Requirements for and reimbursement of appraisal reports (03/31/22)

(a) Requirements for appraisals

If State or local law requires an appraisal report to establish the bid amount, and Freddie Mac has given the Servicer approval to obtain an appraisal report pursuant to the provisions of Section 9202.16(a), then the appraisal report must:

1. Be completed in accordance with the requirements in Topic 5600
2. Be dated no more than 120 days before the foreclosure sale date
3. Be completed by an appraiser who meets the requirements of Section 5603.1 and who is free from any conflict of interest or financial interest in the transaction other than the appraiser's reasonable fee for such an opinion
4. Be based on an exterior inspection, if an interior inspection cannot be obtained
5. Document any conditions that relate to the existence of Hazardous Substances or conditions that would affect the habitability, safety, value or occupancy of the property

When the appraisal report has become greater than 120 days old, the Servicer must have the appraiser recertify the appraisal report. The Servicer must not order a new appraisal report.

(b) Reimbursement of appraisal reports

Freddie Mac will reimburse the Servicer for the cost of an appraisal report ordered in compliance with Section 9202.16(a) and this section. If the Servicer needs to reaffirm the

value of the property after 120 days, Freddie Mac will reimburse for a recertification of the appraisal report.

9301.34: Bidding instructions for First Lien Mortgages not covered by mortgage insurance or subject to credit enhancements (03/01/20)

For a First-Lien Mortgage not covered by mortgage insurance or subject to a credit enhancement, the Servicer must bid in accordance with the requirements provided below:

1. Unless State law requires that an appraisal report be used to set the bid or the foreclosure sale is of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure (in accordance with Chapter 4406), Freddie Mac recommends that the Servicer obtain the credit bid via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools) no less than 30 days, but no greater than 90 days prior to the scheduled foreclosure sale date. (See Section 9301.32 on obtaining a credit bid for foreclosure sale bidding and Section 9202.16 on obtaining an appraisal report to prepare foreclosure sale bidding instructions.)
2. The Servicer must then start its bid at the minimum required by State law. If State law would impose a redemption, confirmation or ratification period because the foreclosure sale price was below a certain amount, the Servicer must bid a sufficient amount that would minimize or avoid any such additional periods from being imposed. Also, if applicable State law gives the Borrower a post-foreclosure sale right of redemption, and the Borrower can redeem the property for the successful foreclosure sale price, the Servicer must start its bid, as applicable, at an amount equal to the lesser of:
 - i) 100% of the credit bid obtained from the Real Estate Valuation and Pricing tool
 - ii) Total indebtedness, which includes the UPB, accrued interest, Escrow advances and expenses (see Exhibit 57A, Approved Attorney Fees and Title Expenses, for the applicable expense limits)
 - iii) Such other amount as may be required by applicable State law (e.g., amount of the judgment); or
 - iv) For the foreclosure sale of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the property valuation and/or the restricted resale price
3. In the event the Servicer worked with its foreclosure attorney to preserve either Freddie Mac's or the MI's right to pursue a deficiency action pursuant to Sections 9301.23 and 9301.35, respectively, or filed a judicial foreclosure to preserve the right to pursue a deficiency judgment pursuant to Section 9301.10, the Servicer should bid an amount at

foreclosure sale that reserves the right to pursue deficiencies after the foreclosure sale on a case-by-case basis

4. If a third party enters a bid, the Servicer must bid, as applicable, an amount up to, but not exceeding, an amount equal to the lesser of:
 - i) 100% of the credit bid obtained from the Real Estate Valuation and Pricing tool
 - ii) Total indebtedness, which includes the UPB, accrued interest, Escrow advances and expenses (see Exhibit 57A for the applicable expense limits)
 - iii) Such other amount as may be required by applicable State law (e.g., amount of the judgment); or
 - iv) For the foreclosure sale of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the property valuation and/or the restricted resale price

As applicable, in the event that the minimum bid required by State law exceeds the credit bid, but is less than total indebtedness or such other amount as may be required by State law, then the Servicer does not need to bid an amount more than the minimum bid required by State law. However, if the minimum bid required by State law exceeds the credit bid, total indebtedness, and such other amount as may be required by State law, or, for the foreclosure sale of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, exceeds the property valuation and/or restricted resale price, then the Servicer must follow the instructions in Section 9301.31.

5. Notwithstanding the requirements above, for the foreclosure sale of a property subject to with resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the Servicer must refer to the applicable resale restrictions for details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met.

9301.34: Bidding instructions for First Lien Mortgages not covered by mortgage insurance or subject to credit enhancements (Future effective date 10/02/23)

For a First-Lien Mortgage not covered by mortgage insurance or subject to a credit enhancement, the Servicer must bid in accordance with the requirements provided below:

1. Unless State law requires that an appraisal report be used to set the bid or the foreclosure sale is of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure (in accordance with Chapters 4406, 4502 or 4504, as applicable), Freddie Mac recommends that the Servicer obtain the credit bid via the Freddie Mac Real Estate Valuation and Pricing tool (see Exhibit 88, Servicing Tools) no less than 30 days, but

no greater than 90 days prior to the scheduled foreclosure sale date. (See Section 9301.32 on obtaining a credit bid for foreclosure sale bidding and Section 9202.16 on obtaining an appraisal report to prepare foreclosure sale bidding instructions.)

2. The Servicer must then start its bid at the minimum required by State law. If State law would impose a redemption, confirmation or ratification period because the foreclosure sale price was below a certain amount, the Servicer must bid a sufficient amount that would minimize or avoid any such additional periods from being imposed. Also, if applicable State law gives the Borrower a post-foreclosure sale right of redemption, and the Borrower can redeem the property for the successful foreclosure sale price, the Servicer must start its bid, as applicable, at an amount equal to the lesser of:
 - i) 100% of the credit bid obtained from the Real Estate Valuation and Pricing tool
 - ii) Total indebtedness, which includes the UPB, accrued interest, Escrow advances and expenses (see Exhibit 57A, Approved Attorney Fees and Title Expenses, for the applicable expense limits)
 - iii) Such other amount as may be required by applicable State law (e.g., amount of the judgment); or
 - iv) For the foreclosure sale of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the property valuation and/or the restricted resale price
3. In the event the Servicer worked with its foreclosure attorney to preserve either Freddie Mac's or the MI's right to pursue a deficiency action pursuant to Sections 9301.23 and 9301.35, respectively, or filed a judicial foreclosure to preserve the right to pursue a deficiency judgment pursuant to Section 9301.10, the Servicer should bid an amount at foreclosure sale that reserves the right to pursue deficiencies after the foreclosure sale on a case-by-case basis
4. If a third party enters a bid, the Servicer must bid, as applicable, an amount up to, but not exceeding, an amount equal to the lesser of:
 - i) 100% of the credit bid obtained from the Real Estate Valuation and Pricing tool
 - ii) Total indebtedness, which includes the UPB, accrued interest, Escrow advances and expenses (see Exhibit 57A for the applicable expense limits)
 - iii) Such other amount as may be required by applicable State law (e.g., amount of the judgment); or
 - iv) For the foreclosure sale of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the property valuation and/or the restricted resale price

As applicable, in the event that the minimum bid required by State law exceeds the credit bid, but is less than total indebtedness or such other amount as may be required by State law, then the Servicer does not need to bid an amount more than the minimum bid required by State law. However, if the minimum bid required by State law exceeds the credit bid, total indebtedness, and such other amount as may be required by State law, or, for the foreclosure sale of a property subject to resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, exceeds the property valuation and/or restricted resale price, then the Servicer must follow the instructions in Section 9301.31.

5. Notwithstanding the requirements above, for the foreclosure sale of a property subject to with resale restrictions that survive foreclosure or recordation of a deed-in-lieu of foreclosure, the Servicer must refer to the applicable resale restrictions for details on the property valuation and/or the restricted resale price, as well as any other terms and conditions that must be met.

9301.35: Bidding instructions for Mortgages covered by mortgage insurance or subject to credit enhancements (03/02/16)

For a First Lien Mortgage covered by mortgage insurance, the Servicer must bid an amount approved by the MI. If the MI elects not to issue bidding instructions, or Freddie Mac has a delegation of authority from the MI for foreclosure sale bidding, the Servicer must follow the instructions in Section 9301.34.

Notwithstanding the above, in the event the Mortgage has mortgage insurance and the MI's bidding instructions or requirements include preserving deficiency rights, where permitted by applicable law, regardless if the MI has delegated authority to Freddie Mac for foreclosure sale bidding, the Servicer must preserve the MI's right to pursue a deficiency action and should bid an amount at foreclosure sale that reserves the right to pursue deficiencies after the foreclosure sale on a case-by-case basis.

For a Mortgage subject to a credit enhancement, the Servicer must bid an amount approved by the responsible party.

9301.36: Bidding instructions for Mortgages insured by the FHA or guaranteed by the VA or RHS (03/02/16)

If the Mortgage is insured by the FHA or guaranteed by the VA or RHS, then the Servicer must follow FHA, VA or RHS guidelines for bidding instructions. If the Mortgage is a VA Mortgage, then the Servicer may not enter a bid on Freddie Mac's behalf in excess of the upset price established by the VA. If the Servicer does not receive the VA upset price, the Servicer must

contact Freddie Mac for instructions by submitting Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (see **Directory 5**).

9301.37: Bidding appropriately and pursuit of surplus proceeds or overbid funds (09/27/21)

The Servicer must bid at the foreclosure sale:

- In accordance with the requirements in Sections 9301.31 through 9301.36, and
- To preserve Freddie Mac's rights to a deficiency according to the requirements in Sections 9301.23 through 9301.25

If the property is purchased by a third party at the foreclosure sale and there are any surplus proceeds or overbid funds, the Servicer must pursue and claim to retain the funds, so long as it is determined to be in Freddie Mac's best interest, to the extent:

- The funds will satisfy or reduce the total indebtedness under the terms of the Mortgage or such other amount as may be allowed by State law (e.g., amount and terms of the judgment) and the costs and expenses of the sale, if possible; and
- It is permitted under applicable State law

If the Servicer knows that additional attorney fees will be incurred when pursuing any surplus proceeds or overbid funds, and the Servicer believes it is in Freddie Mac's best interest to pursue and claim to retain any surplus proceeds or overbid funds, the Servicer must submit a request for pre-approval (RPA) to Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to recommend incurring additional attorney fees.

9301.38: Reporting foreclosure sale results (12/09/19)

(a) Reporting requirements

The Servicer must notify Freddie Mac of the results of all foreclosure sales, including successful third-party bids. The Servicer must notify Freddie Mac of the foreclosure sale results via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) (i.e., foreclosure sale/deed-in-lieu of foreclosure ("DIL") submission) and complete the applicable data fields, including whether deficiency rights were preserved, no later than the Business Day immediately following the date of the foreclosure sale.

- If the property was purchased by a third party at the foreclosure sale and either the sale price is less than the total indebtedness or the Servicer is owed reimbursable expenses or amounts, then the Servicer must use Workout Prospector® to settle the third-party

foreclosure sale transaction once the foreclosure sale is confirmed or ratified and the Servicer has received the sale proceeds. (Refer to Section 9301.43 regarding reporting and remittance requirements for third-party sales.)

If the result of a foreclosure sale reported to Freddie Mac needs to be corrected or removed for reasons noted in Section 9301.39(a), the Servicer must notify Freddie Mac by requesting a “rollback” pursuant to Section 9301.39.

Once a foreclosure sale is held, a Servicer does not need to continue to report applicable information through EDR for the Mortgage. (See Section 9102.7 regarding monthly EDR transmissions.)

(b) Compensatory fee for failing to comply with reporting requirements

Failure to comply with the requirements of Section 9301.38 will result in the assessment of a compensatory fee to the Servicer of \$100 per day for every day that the foreclosure sale is not reported correctly. If the results of the foreclosure sale are not reported correctly, Freddie Mac may exercise its remedies provided by the Guide and the other Purchase Documents. Refer to Chapter 3602 regarding repurchases, repurchase alternatives and other remedies.

Freddie Mac will bill the Servicer for such compensatory fees on the Servicer Non-Performing Loans Invoice. Refer to Section 9102.1 for information on the payment of Servicing Non-Performing Loans Invoices via an Automated Clearing House draft.

Servicers are not required to but may appeal a compensatory fee for late foreclosure sale reporting. Appeals must be submitted to Freddie Mac via the Freddie Mac Default Fee Appeal System.

Freddie Mac considers the notification to be correctly reported when Freddie Mac has received and successfully processed the foreclosure sale/DIL submission without errors.

9301.39: Rollbacks (12/09/19)

If the result of a foreclosure sale reported to Freddie Mac needs to be corrected or removed for various reasons including, but not limited to, the reasons noted in subsection (a), the Servicer must notify Freddie Mac by requesting a “rollback.”

(a) Reporting requirements

1. The Servicer must notify Freddie Mac, via Freddie Mac Servicing Data Corrections (see Exhibit 88, Servicing Tools), within one Business Day of the Servicer’s determination, in coordination with foreclosure counsel, that the foreclosure sale is legally invalid or void (e.g., a prior bankruptcy filing renders the sale void).

- Following the Servicer’s determination that the foreclosure sale is legally invalid or void, if appropriate, the Servicer must take legal action to obtain relief and seek validation of the foreclosure sale. The Servicer must process the foreclosure according to all applicable Guide requirements and continue to monitor the status of all pending legal action(s). For example, if a bankruptcy petition has been filed and the Servicer files a motion to obtain relief or annul the automatic stay and obtain validation of the foreclosure sale, the Servicer must monitor the status of the motion.
 - Subsequent to Freddie Mac’s receipt and processing of the rollback, and prior to any validation of the foreclosure sale, if any, the Servicer must continue to report all applicable information through EDR for the Mortgage. (See Section 9102.7 regarding monthly EDR transmissions.) If the court grants a motion for relief and/or enters an order validating the foreclosure sale, the Servicer must re-report the foreclosure sale results (pursuant to the reporting requirements in Section 9301.38) within one Business Day of entry of the order by the court.
 - In circumstances where a Chapter 11, 12 or 13 bankruptcy filing would not legally invalidate or void the foreclosure sale but the Servicer is applying payments under any bankruptcy repayment plan, the Servicer must notify Freddie Mac, via the Servicing Data Corrections tool. In these cases, it may be in Freddie Mac’s best interest to process a rollback to allow the Servicer to report applicable information relating to the bankruptcy repayment plan. Subsequent to Freddie Mac’s receipt and processing of the rollback, if the court dismisses the bankruptcy case or grants a motion for relief from the automatic stay, the Servicer must re-report the foreclosure sale results within one Business Day of entry of the order by the court and use the date of entry of the order as the foreclosure sale date.
2. If a third party enters an upset bid per applicable State law on a property that Freddie Mac acquired at the foreclosure sale (i.e., REO property), the Servicer must notify Freddie Mac, via the Servicing Data Corrections tool, within one Business Day of the upset bid
 - The Servicer must report the foreclosure sale results based on the final upset bid within one Business Day of receiving notification from Freddie Mac that the rollback has been processed, and the upset bid period has expired
 3. If the property is sold to a third party, but the sale falls through and the Servicer determines it must foreclose the Mortgaged Premises again, the Servicer must notify Freddie Mac of its determination within one Business Day via the Servicing Data Corrections tool.

In the event the Mortgaged Premises needs to be re-foreclosed, the Servicer must process the foreclosure according to all applicable Guide requirements once the foreclosure action is validated. Additionally, subsequent to Freddie Mac’s receipt and processing of the rollback, the Servicer must continue to report all applicable information through EDR for the Mortgage.

4. If the Servicer incorrectly reported that Freddie Mac acquired the property at the foreclosure sale and needs to re-report the correct foreclosure sale results, the Servicer must notify Freddie Mac via the Servicing Data Corrections tool
 - The Servicer must report the correct foreclosure sale results within one Business Day of receiving notification from Freddie Mac that the rollback has been processed

5. If the Servicer approved the Borrower for an alternative to foreclosure prior to the foreclosure sale, but did not cancel the foreclosure sale, the Servicer must notify Freddie Mac within one Business Day, via the Servicing Data Corrections tool, its determination that the foreclosure sale can be rescinded
 - The Servicer must contact the foreclosure counsel to confirm the foreclosure sale can be rescinded and indicate such determination in the Servicing Data Corrections tool when notifying Freddie Mac of the rollback
 - The Servicer must comply with the requirements set forth in the Guide and other Purchase Documents for the applicable alternative to foreclosure. To the extent permitted by applicable law, the Servicer must not rescind the foreclosure sale until the Borrower executes the applicable agreement, makes the appropriate payment (if required) and otherwise complies with the terms of the alternative to foreclosure.
 - Subsequent to Freddie Mac's receipt and processing of the rollback, if the Borrower does not comply with the requirements of the applicable alternative to foreclosure, the Servicer must cancel the agreement and notify Freddie Mac via the Servicing Data Corrections tool within one Business Day of the cancelation. Additionally, the Servicer must comply with all other reporting requirements applicable to the specific alternative to foreclosure, and re-report the foreclosure sale results immediately following all other reporting requirements being completed.
 - Post-sale alternative to foreclosure reviews and/or approvals are generally prohibited. A rollback request due to the approval of an alternative to foreclosure after the foreclosure sale will not be processed by Freddie Mac except for reasons noted in this Section 9301.39(a) or any other applicable Guide sections. However, if payments are made and applied by the Servicer after the foreclosure sale, in absence of a pre-sale agreement, it may be in Freddie Mac's best interest to process a rollback.

For all rollback requests, the Servicer must ensure that title vests to the appropriate party in the event the rollback has been processed, and/or the foreclosure sale has been rescinded.

The Servicer does not need to request a rollback if the Servicer reported that a third party purchased the property at the foreclosure sale, erroneously or otherwise, and needs to report that Freddie Mac acquired the property at the foreclosure sale. Instead, the Servicer must re-report the foreclosure sale results within one Business Day of the Servicer's determination that Freddie Mac acquired the property at the foreclosure sale.

(b) Compensatory fee for failing to comply with reporting requirements

The Servicer will be assessed a compensatory fee in an amount equal to \$1,000 per occurrence for administrative costs plus any third-party costs when Freddie Mac must process a rollback in accordance with Section 9301.39(a). Freddie Mac will not reimburse foreclosure fees and costs for the improper foreclosure that resulted in a rollback.

Freddie Mac will bill the Servicer for such compensatory fees on the Servicer Non-Performing Loans Invoice. Refer to Section 9102.1 for information on the payment of Servicer Non-Performing Loans Invoices via an Automated Clearing House draft.

Freddie Mac considers the notification to be correctly reported when Freddie Mac has received and successfully processed the foreclosure sale/deed-in-lieu of foreclosure submission without errors.

9301.40: Delivery of clear and marketable title (08/17/16)

(a) Property located in a State without a redemption or confirmation period

When the Servicer is the purchaser of the property at a foreclosure sale, it must ensure that the foreclosure counsel provides Freddie Mac with clear and marketable title to the property after the foreclosure sale. The title must be free of any liens, claims, defects and encumbrances. The title must be marketable so Freddie Mac can sell the property freely to others. Issuance or purchase of a letter of indemnity, title insurance or similar form of indemnification does not constitute, and may not be used in lieu of, provision of clear and marketable title to the Mortgaged Premises.

The Servicer must instruct the foreclosure counsel to:

1. Submit the foreclosure deed for recordation within one Business Day after receipt of the deed
2. Obtain the recorder's receipt as evidence that the deed was presented for recordation
3. Send the Servicer the recorder's receipt within three Business Days after receiving it from the recorder
4. Provide the recorded deed to the Servicer within three Business Days after receiving the deed from the recorder's office. The Servicer must retain the deed in the Mortgage file.

(b) Property located in a State with a redemption or confirmation period

After the redemption period has expired or the foreclosure sale has been confirmed, the Servicer must ensure that clear and marketable title is obtained as stated in Section 9301.40(a).

Executing documents

If Freddie Mac needs to execute a document for the Servicer to process the foreclosure, or execute a document related to a foreclosure sale, the Servicer must submit Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 5**) with all supporting documentation, which may include, but is not limited to, the last recorded document in the chain of title, and include the document Freddie Mac needs to execute.

9301.41: Vesting the title and avoiding transfer taxes (09/27/21)

After the foreclosure sale, or when closing a deed-in-lieu of foreclosure transaction, the Servicer must ensure that title to the property is vested to the appropriate party. (See Section 9209.8 regarding closing, reporting and remittance requirements for a deed-in-lieu of foreclosure transaction.)

(a) Conventional Mortgages

After the foreclosure sale (if the property is not purchased by a third party) or when closing a deed-in-lieu of foreclosure transaction, the Servicer must ensure that title to the property is vested in Freddie Mac's name; that is, unless it is in Freddie Mac's best interest to have the title to the property vested in the Servicer's name after the foreclosure sale. In such cases, the Servicer must then have the title to the property transferred to Freddie Mac via special warranty deed or quitclaim deed and must ensure that the transfer of title will not impair Freddie Mac's sale of the REO. In Florida, a special warranty deed is required to transfer the title to the property to Freddie Mac. If applicable, the transfer to Freddie Mac's name should generally be completed within 30 days of vesting the title in the Servicer's name. For example, if having the title to the property vested in the Servicer's name after the foreclosure sale limits the liability for Freddie Mac to reimburse homeowners association (HOA) assessments, then the Servicer should proceed in such a manner. If the Servicer determines it is in Freddie Mac's best interest, the Servicer must record in the Mortgage file the decision to vest the title in the Servicer's name and the basis for its decision.

After the foreclosure sale, or when closing a deed-in-lieu of foreclosure transaction, title to the property should be vested in a manner that does not result in an obligation to pay transfer taxes. Freddie Mac will not reimburse the Servicer for any transfer taxes, unless:

- Local authorities require the Servicer to pay the transfer tax in order to record a deed and ensure that title vests appropriately
- The transfer tax is paid under protest
- The Servicer submits the request for written pre-approval (RPA) for reimbursement of the transfer tax via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) (see Section 9701.15), and
- Counsel could not process the foreclosure and/or the deed-in-lieu of foreclosure transaction in a manner that would successfully avoid the imposition of the transfer tax obligation

Servicers will not be reimbursed for transfer taxes if any of the above conditions and requirements do not exist or are not met.

If the foreclosure involves a Manufactured Home in a certificate of title State, the Servicer must conduct the replevin or other legal action necessary to repossess the home in the Servicer's name and have the new certificate of title issued in Freddie Mac's name.

(b) Mortgages insured by the FHA or guaranteed by the VA or RHS

The Servicer must follow FHA, VA or RHS guidelines for conveying title to the foreclosed property to the applicable agency.

9301.42: Reporting and remittance requirements for redemptions and confirmation date changes (09/27/21)

The Servicer must notify Freddie Mac if either the projected expiration of the redemption period changes, or the scheduled confirmation date changes from the date the Servicer notified Freddie Mac of the foreclosure sale/deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools).

The Servicer must report the change by submitting Form 105, Multipurpose Loan Servicing Transmittal, to Freddie Mac (**see Directory 6**) no later than one Business Day after the Servicer receives notification of the change.

(a) Redemptions of REO properties

(i) Reporting requirements for REO redemptions

The Servicer must notify Freddie Mac that the REO property is redeemed no later than one Business Day after redemption by completing and submitting Form 105 to Freddie Mac (**see Directory 6**) for a 1-unit property or 2- to 4-unit properties. If Freddie Mac

must execute any documents related to the redemption, the Servicer must send the documents with Form 105 to the appropriate address.

(ii) Remitting REO redemption proceeds – 1-unit and 2- to 4-unit properties

If the property is redeemed, the Servicer must forward to Freddie Mac the principal and interest amount due (through the redemption date), as well as all amounts that are reimbursable by Freddie Mac pursuant to Chapter 9701 within five Business Days of receiving the redemption proceeds.

If included in the redemption proceeds, the Servicer may net out any amounts that are due to the Servicer from the Borrower but are not reimbursable by Freddie Mac (e.g., late fees, NSF fees, property inspections and other items permitted by applicable law); that is, so long as the redemption proceeds after any netting are sufficient to cover the amounts required to be forwarded to Freddie Mac.

If the redemption proceeds are not sufficient to cover the amounts required to be forwarded to Freddie Mac, then the Servicer must remit the entire redemption proceeds to Freddie Mac.

Checks should be made payable to the Federal Home Loan Mortgage Corporation and must reference the property address and the nine-digit Freddie Mac loan number on the check. Remittances should be forwarded to the appropriate business address below.

Overnight mail or courier deliveries:

JP Morgan Chase
National Wholesale LockBox TX 1-0029
14800 Frye Road
Fort Worth, TX 76155
Attn: Freddie Mac #730453

Wire proceeds:

JP Morgan Chase Bank
Benefit FHLMC
55 Water Street
New York, NY 10041
ABA #021000021
FAO: Freddie Mac #9102418887

Submit the related expenses to Freddie Mac via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88) System available at
<http://www.freddiemac.com/singlefamily/service/>.

(b) Reporting and remittance requirements for redemptions following third-party foreclosure sales

The remittance requirements for redemptions following third-party foreclosure sales are the same as the remittance requirements for third-party foreclosure sales. If a Servicer receives redemption proceeds, the Servicer must remit the required principal and interest owed to Freddie Mac (as required in Section 8303.10) no later than five Business Days after the Servicer receives the proceeds.

Servicers must comply with the investor reporting and remitting requirements in Chapter 8303.

If, after remitting the required amount to Freddie Mac, the Servicer is owed reimbursable expenses or reimbursable principal and interest, then the Servicer must request reimbursement of expenses following the redemption in the same manner it requests reimbursement following a third-party foreclosure sale, as described in Section 9301.43.

9301.43: Third-party sale proceeds, reimbursement of expenses and reporting and remittance requirements (04/13/22)

(a) Remitting the sale proceeds

If a third party purchases the property at the foreclosure sale the Servicer must instruct the foreclosure counsel conducting the sale to remit the sale proceeds (i.e., sale proceeds without any netting by foreclosure counsel of their fees and/or costs from the sale proceeds check) to the Servicer via overnight mail or wire transfer no later than three Business Days after the foreclosure counsel receives the proceeds.

If the Servicer has not received the sale proceeds from the foreclosure counsel who conducted the sale within 60 days from the foreclosure sale, then the Servicer should provide a status update to Freddie Mac at ShortSales@FreddieMac.com, and on a monthly basis thereafter until the Servicer receives the proceeds.

(b) Obtaining reimbursement for foreclosure counsel fees and costs

The foreclosure counsel must obtain reimbursement of all fees and costs from the Servicer. The foreclosure counsel should not net their fees and/or costs from the sale proceeds check. If applicable law mandates that certain expenses (e.g., sheriff or auctioneer fees) be deducted from the sale proceeds before remitting them to the foreclosure counsel, the Servicer must instruct the foreclosure counsel to send the Servicer an itemization of the distribution of the proceeds with the sale proceeds. This itemization of the distribution of the proceeds may be needed as supporting documentation if the Servicer intends to be reimbursed for any shortage in the sale proceeds.

Note: Freddie Mac will not reimburse the Servicer for foreclosure fees and costs incurred on a Mortgage that was sold to Freddie Mac with recourse.

(c) Reporting and remittance requirements for third-party sales

To complete the third-party foreclosure sale, the Servicer must complete the following steps:

1. The Servicer must notify Freddie Mac of the third-party sale no later than the Business Day immediately following the date of the foreclosure sale pursuant to Section 9301.38
2. Following the Servicer's receipt of the proceeds from a third-party sale, the Servicer must complete all reporting and remittance requirements pursuant to Section 8303.10
3. The Servicer must use Workout Prospector® to settle the third-party foreclosure sale transaction (see Section 9301.43(d) for details on using Workout Prospector for third-party foreclosure sales) if, after remitting the required amount to Freddie Mac, the Servicer is owed:
 - Reimbursable principal and interest (pursuant to Section 8303.32)
 - Any shortage in the sale proceeds (e.g., sheriff or auctioneer fees), and/or
 - Reimbursable expenses or amounts (pursuant to Chapter 9701), including amounts not legally collectable from the third-party purchaser

The Servicer must submit all required data for settling the third-party foreclosure sale transaction via Workout Prospector no later than the 15th Business Day following the Servicer's receipt of the sale proceeds.

4. If the Servicer is owed reimbursement of any shortage in the sale proceeds, and/or reimbursable expenses or amounts, including amounts not legally collectable from the third-party purchaser, then the Servicer may submit its request for reimbursement via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). (Refer to Section 9701.5 for time frames to submit expenses.) When submitting reimbursement requests, Servicers must offset these expenses or amounts by income as set forth in Section 9701.19. Additionally, for expense reimbursement requests on Mortgages insured by the FHA or guaranteed by the VA or RHS not subject to recourse or indemnification, reimbursement will occur after Freddie Mac receives the claim payment from the applicable entity and determines that all other requirements for reimbursement have been satisfied. (Refer to Section 9603.2 on FHA/VA/RHS claim filing and Section 9603.5 on receipt of claim payment.)

In order for the Servicer to be reimbursed, Freddie Mac must receive, and accept for settlement, the third-party foreclosure sale transaction submitted via Workout Prospector. Additionally, failure to submit the third-party foreclosure sale transaction in the appropriate

time frame could forfeit the Servicer's ability to be reimbursed, in part or in whole, for otherwise reimbursable expenses or amounts.

For a third-party sale where the net sale proceeds meet or exceed the total indebtedness (e.g., the UPB, accrued interest, Escrow advances and expenses), the Servicer should not settle the third-party foreclosure sale transaction via Workout Prospector or submit a request for reimbursement via PAID.

(d) Workout Prospector

If the property was purchased by a third party at the foreclosure sale, the Servicer must use Workout Prospector to settle the third-party foreclosure sale transaction following the foreclosure sale being confirmed or ratified and the Servicer having received the sale proceeds, in the following circumstances:

- The sale price is less than the total indebtedness; and/or
- The Servicer is owed reimbursable expenses or amounts, including expenses that were deducted from the sale proceeds before being remitted to foreclosure counsel pursuant to applicable law

Servicers represent and warrant that they will only use Workout Prospector on Freddie Mac Mortgages and not Mortgages owned by other investors. Both the input and output of Workout Prospector is confidential information that the Servicer must not disclose to third parties, except as authorized by Freddie Mac. Servicers using Workout Prospector are bound by all of the provisions of the Workout Prospector User Agreement, included in this Guide as Exhibit 86, to the same degree as if they had signed such Agreement as a "User." Refer to the Workout Prospector Users' Guide for information on processing third-party foreclosure sale transactions through Workout Prospector. In addition, Servicers must ensure that all data input into Workout Prospector is true, complete and accurate and that all data is entered correctly. (Refer to Section 9204.4 for additional requirements when submitting a workout or transaction via Workout Prospector for approval and closing in Freddie Mac's systems.)

(e) Supporting documentation

Freddie Mac generally will not require the Servicer to send supporting documentation with the submission of a third-party foreclosure sale transaction via Workout Prospector. However, there are situations where Freddie Mac may instruct the Servicer to provide standard supporting documentation.

Standard supporting documentation includes, but is not limited to, the following:

- Form 1160, Third-Party Sale Transmittal Worksheet, with Section D Indebtedness completed, itemizing the complete total debt figure including the UPB, accrued interest, Escrow advances less any positive Escrow balances, as well as expenses after being offset by any income (pursuant to Section 9701.19)

- Itemization of the distribution of the sale proceeds, if the sale proceeds are less than the sale price (e.g., if the foreclosure court order required the payment of sheriff expenses from the sale price). If the sale proceeds equal 100% of the sale price, then this itemization is not needed.
- Copy of the BPO or appraisal report, if used for the foreclosure bid
- Copy of the sale proceeds check, or other documentation (e.g., proof of wire transfer) verifying the amount of sale proceeds received
- Copy of the sheriff's appraisal, or other documentation used to establish the opening bid, if required by applicable State law
- If there are amounts not legally collectable from the third-party purchaser that need to be reimbursed to the Servicer, supporting documentation, including but not limited to, the applicable State statute

Freddie Mac will contact the Servicer should it require supporting documentation following submission of a third-party foreclosure sale transaction via Workout Prospector.

9301.44: File retention for foreclosure proceedings (03/02/16)

The Servicer must maintain accurate and complete records of the foreclosure proceedings for Mortgages in the Mortgage file. The Servicer must maintain the Mortgage file for at least seven years from the date of the foreclosure sale.

9301.45: State foreclosure timelines (12/13/17)

A foreclosure timeline is the time it takes to process a foreclosure. The timeline is measured in days from the DDLPI to the date of the foreclosure sale.

Therefore, the timeline consists of the time it should take from the DDLPI to the date the Mortgage is referred to foreclosure counsel (see Sections 9301.4 and 9301.5 through 9301.7), plus the time it takes from the referral date of foreclosure to the foreclosure sale date.

The timeline does not include any post-sale redemption or confirmation periods. Freddie Mac has a timeline for each State which is the number of days it should take to process a foreclosure in the State under most circumstances.

For conventional Mortgages, the Servicer must complete the foreclosure sale within the foreclosure timeline (from DDLPI to foreclosure sale) for the State in which the property is located, as listed in Exhibit 83, Freddie Mac State Foreclosure Timelines. The Servicer must comply with FHA, VA and RHS timelines for all Mortgages insured by the FHA or guaranteed by the VA or RHS.

If the foreclosure sale was delayed due to one of the allowable State foreclosure timeline delays listed in Section 9301.46, the timeline from DDLPI to the foreclosure sale date will be increased to account for the allowable delay based on the information the Servicer reports to Freddie Mac via EDR. Refer to Exhibit 83A, Determining State Foreclosure Timeline Compensatory Fees, for details on how Freddie Mac determines the additional time to be granted for allowable delays.

The Servicer must have procedures and processes in place to manage its State foreclosure timeline performance. To assist with monitoring performance, the Servicer may access reports, accessible via the “Foreclosures” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools), on foreclosure sales completed. The reports in the SPP will be based on information and data the Servicer reported to Freddie Mac. Servicers should review the reports regularly to ensure the information and data they reported was complete and accurate.

Reduction in timelines

At any time and in its sole discretion, Freddie Mac may reduce a State’s foreclosure timeline set forth in Exhibit 83 and further, may subject loans to revised timelines and associated compensatory fee calculations that were referred to foreclosure as of the effective date of the reduced timeline.

9301.46: Allowable delays in completing a foreclosure (06/14/23)

Exhibit 83, Freddie Mac State Foreclosure Timelines, sets forth Freddie Mac’s foreclosure timeline for each State. Freddie Mac’s State foreclosure timeline (DDLPI to foreclosure sale) will be extended for a Mortgage under the following circumstances, provided the Servicer complies with the applicable EDR requirements (refer to Section 9102.7 for information on EDR reporting requirements):

- When a Borrower files for bankruptcy protection
- Delays due to probate, military indulgence and contested foreclosures
- Delays caused by the Borrower being offered or entering into a Freddie Mac Flex Modification Trial Period plan but failing to comply with the terms of the plan
- Delays caused by the Borrower entering into an unemployment forbearance plan

- Delays caused by the Borrower exercising his or her right to appeal a modification denial, pursuant to Section 9101.3

Refer to Exhibit 83A, Determining State Foreclosure Timeline Performance Compensatory Fees, for information on how Freddie Mac calculates the additional time granted for each of the allowable delays listed above.

Moreover, a Servicer may delay completing the foreclosure, if necessary, when the delay is required due to:

- Applicable federal, State or local law, but only if the delay was necessary or inevitable despite the Servicer's best efforts to incorporate such laws into its foreclosure procedures and timelines
- Emergency, exigent or unusual circumstances that do not occur in the regular course of business and that are both unforeseeable and outside the control of the Servicer (this includes delays resulting from Eligible Disasters, pursuant to Section 8404.4)
- The Servicer waiting for instructions from Freddie Mac on how to proceed with a distressed property (see Section 8403.1 for an explanation of a distressed property)
- The Servicer being unable to complete the foreclosure sale due to the Borrower being approved for, or performing under, the terms of an alternative to foreclosure
- The Borrower's approval for a Freddie Mac Standard Short Sale or Freddie Mac Standard Deed-in-Lieu of Foreclosure being based on a review of a First Complete Borrower Response Package, pursuant to Section 9101.4
- The Borrower being conditionally approved for mortgage assistance under the State Housing Finance Agency program in accordance with Section 9211.1

Regardless of a delay for any of the above reasons, the Servicer's State foreclosure timeline performance will be measured against Freddie Mac's State foreclosure timeline and compensatory fees. The Servicer may appeal the decision and must provide to Freddie Mac at the time of appeal any and all information and documentation supporting the claim that the delay was necessary and required.

9301.47: State foreclosure timeline performance assessment (03/13/19)

For Mortgages that resulted in a foreclosure sale on or after January 1, 2019:

(a) Determination of State foreclosure timeline performance

Freddie Mac will evaluate the Servicer's State foreclosure timeline performance on a calendar year basis. Based on all foreclosures the Servicer completes in the year being evaluated, Freddie Mac will determine a Servicer's State foreclosure timeline performance for each Mortgage that went to foreclosure sale in the year being evaluated on a national basis.

Freddie Mac will determine how long it took the Servicer to complete each foreclosure sale based on the information that the Servicer reports to Freddie Mac via the monthly EDR submissions and the foreclosure sale transmission after the completion of the foreclosure sale. Freddie Mac will calculate the amount of compensatory fees, if any, in addition to any actual losses, costs or damages caused by Servicer non-compliance with the Guide, including State foreclosure timeline requirements.

To determine the Servicer's overall State foreclosure timeline performance, Freddie Mac will complete the following steps:

Step 1 – Calculating actual foreclosure timeline performance for each Mortgage:

Freddie Mac will determine how many days it took the Servicer to complete each foreclosure sale during the calendar year and whether the number of days exceeded or were managed under the applicable State foreclosure timeline standard as listed in Exhibit 83, Freddie Mac State Foreclosure Timelines. Freddie Mac will then calculate the compensatory fee amount for each individual foreclosure sale to determine whether each Mortgage will result in a compensatory fee or credit. The amounts calculated in this step on an individual foreclosure sale basis will be negative (a credit) for those foreclosure sales that were managed under that State's foreclosure timeline and will be positive (a compensatory fee) for those foreclosure sales that exceeded that State's foreclosure timeline.

Step 2 – Calculating the aggregate compensatory fee on a national basis: Freddie Mac will calculate the Servicer's aggregate State foreclosure timeline compensatory fee amount by netting the compensatory fees and credits determined in Step 1 for all foreclosure sales that were completed in the calendar year.

Step 3 – Determining whether to assess a compensatory fee: If the Servicer's aggregate compensatory fee calculated in Step 2 is \$300,000 or less, then no compensatory fee will be assessed. However, if the Servicer's aggregate compensatory fee calculated in Step 2 is greater than \$300,000, and the Servicer is not otherwise exempt under Section 9301.47(b), a compensatory fee will be assessed.

Refer to Exhibit 83A, Determining State Foreclosure Timeline Performance Compensatory Fees, for additional details regarding how Freddie Mac calculates compensatory fees.

The State foreclosure timelines used in determining the Servicer's performance will be adjusted for the period of time for which the foreclosures were delayed due to any of the allowable delays in Section 9301.46(a), provided the Servicer complied with the applicable EDR requirement and/or the appeals process in Section 9301.47(c).

(b) Compensatory fee process

If the Servicer's performance exceeded Freddie Mac's State foreclosure timeline requirements as outlined in Section 9301.47(a), then the compensatory fee process is as follows:

- **Step 1:** Freddie Mac will automatically waive a Servicer's potential State foreclosure timeline compensatory fees if its exposure amount is \$300,000 or less for that calendar year. This is considered the *de minimis* billing exception. (Note: \$300,000 = previous monthly *de minimis* threshold of \$25,000 x 12 months).
- **Step 2:** For those Servicers that did not receive a waiver under Step 1, Freddie Mac will calculate the Servicer's overall Servicer Success Scorecard ranking for that calendar year against the respective rank group the Servicer belongs to on December 31 of that calendar year (see Section 3501.2(b) regarding Servicer performance results). If a Servicer's overall ranking for that year is in the top 75% of its rank group on December 31 (i.e., not in the bottom 25% of that rank group), its State foreclosure timeline compensatory fees will automatically be waived.

Note: This step does not apply to a Servicer where an overall ranking is not provided, whether because no Servicers in that Servicer's rank group are provided an overall ranking or the individual Servicer did not receive an overall ranking within its rank group. Additional information on rankings and the Servicer Success Scorecard is available at <https://sf.freddiemac.com/tools-learning/servicing-gateway/our-solutions/servicer-performance-profile>.

- **Step 3:** If a Servicer remains subject to the assessment of State foreclosure timeline compensatory fees after steps 1 and 2, the Servicer may be placed into an action plan. If the Servicer is placed into an action plan, the assessment of its compensatory fee exposure balance will be suspended until Freddie Mac determines whether the Servicer met the terms of the plan. If Freddie Mac determines that a Servicer complied with the required terms of the plan, its State foreclosure timeline compensatory fee assessment will be waived automatically. If the Servicer is not eligible for an action plan, the Servicer will be assessed its compensatory fee exposure balance.
- **Step 4:** If a Servicer still remains subject to the assessment of State foreclosure timeline compensatory fees after steps 1 through 3, the Servicer will be assessed its compensatory fee exposure balance if not previously assessed. The Servicer will have 90 days to submit any loan-level appeals in accordance with Section 9301.47(c). If after the appeals process is completed a Servicer continues to have a compensatory fee exposure balance of greater than \$300,000, then the Servicer will be billed for such fees in accordance with Section 9301.47(d).

(c) Servicer appeal process for State foreclosure timeline compensatory fees

The Servicer may appeal a pending compensatory fee prior to Freddie Mac billing the compensatory fee.

The calendar year's estimated State foreclosure timeline compensatory fees will be available in the *Foreclosure Timeline Compensatory Fees Overview* report, accessible via the "Foreclosures" tile of the Servicer's Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools). This report will be updated monthly, on the fifth Business Day of each month to reflect the year-to-date State foreclosure timeline performance through the end of the prior month.

Servicers are not required to submit appeals and it is recommended that Servicers do not submit any appeals until all steps outlined in Section 9301.47(b) have been completed and the Servicer has been notified that the compensatory fees are now assessed and subject to billing.

Servicers must submit, in their original appeal, a description of all delays along with all related documentation. Any information that is received after the original appeal is submitted will not be considered.

The Servicer has 90 days to submit an appeal to Freddie Mac using the Freddie Mac Default Fee Appeal System (which can be accessed at <https://sf.freddiemac.com/tools-learning/servicing-gateway/our-solutions/default-fee-appeal-system>) as described in Section 2406.5.

(d) Billing process for compensatory fees

Compensatory fees to be billed will appear on the Servicer's Monthly Non-Performing Loans Billing Statement in the first monthly cycle after the date in which all appeals have been submitted to, and decisioned by, Freddie Mac. Refer to Section 9102.1 for information on the payment of Servicing Non-Performing Loans Invoices via an Automated Clearing House draft.

Chapter 9401: Bankruptcy

9401.1: Bankruptcy (10/12/16)

This chapter provides Servicers with Freddie Mac's requirements for Servicing Mortgages subject to bankruptcy proceedings or litigation. The Servicer must take appropriate action to protect Freddie Mac's interest during bankruptcy proceedings in which the Borrower is the debtor.

(Refer to Chapter 9402 for requirements for Servicing Mortgages subject to other litigation.)

9401.2: Freddie Mac's rights (08/01/18)

In addition to any other remedies it may have at law or in equity, Freddie Mac reserves the right, at its sole discretion, to:

1. Require the Servicer to submit copies of any and all records related to Freddie Mac's Mortgages
2. Require the Servicer to compensate Freddie Mac and hold Freddie Mac harmless for any loss, damage or expense, including without limitation, previously paid incentives, expense reimbursements, court costs and attorney fees, that Freddie Mac sustains as a result of the Servicer's failure to comply with the provisions in this chapter, Chapter 8402, Chapter 8403, Section 9402.1 and Section 8601.26, or that result from errors, omissions or delays by the Servicer or the Servicer's agent
3. Use or require the Servicer to use Freddie Mac's counsel or trustee for any Freddie Mac Default Legal Matter
4. Limit the amount of a reimbursement for attorney fees if those fees exceed the limits in Exhibit 57A, Approved Attorney Fees and Title Expenses, or the fees commonly charged for similar services in the area where the affected property is located
5. Limit the amount of a reimbursement for preservation and maintenance expenses if those expenses exceed the limits in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts
6. If the Servicer does not obtain Freddie Mac's prior written approval as required, deny the Servicer's request for reimbursement of expenses incurred as a result of Servicing Freddie Mac's Mortgages under the requirements of this chapter and Chapter 8402
7. Assess compensatory and other fees and exercise any remedies provided by the Guide and the other Purchase Documents if the Servicer fails to comply with the requirements contained

in this chapter, Chapter 8402, Chapter 8403, Section 9402.1 and Section 8601.26. Refer to Chapter 3602 regarding repurchases, repurchase alternatives and other remedies.

9401.3: Bankruptcy general requirements (04/12/23)

When the Servicer receives notice, or confirms information that a Borrower has filed a bankruptcy petition, at a minimum, the Servicer must:

1. Comply with all applicable laws and regulations, including working with the debtor's pre-bankruptcy credit counseling agency on a debt management plan, if applicable
2. Obtain a copy of the Borrower's (debtor's) bankruptcy petition or other bankruptcy notice
3. Accurately complete and file a proof of claim, including all required proof of claim forms, within the time limitations set by the bankruptcy court. This may include, but is not limited to, providing timely information, documentation (e.g., Borrower payment history) and payoff and reinstatement figures necessary for bankruptcy counsel to meet the time limits set by the bankruptcy court if counsel is representing the Servicer in the case. If additional costs are incurred after confirmation of the bankruptcy plan, work with the trustee to ensure all steps are taken to recover those costs allowable by applicable law from the debtor through the plan, if applicable. The Servicer must, prior to filing any proof of claim or motion for relief from the stay with respect to a Mortgage registered on the MERS® System, prepare and execute (using the Servicer's employee who is a MERS authorized "signing officer") an assignment of the Security Instrument from MERS to the Servicer. The Servicer must record the prepared assignment where required by State law. State mandated recordings are non-reimbursable by Freddie Mac, are not considered part of the Freddie Mac allowable foreclosure counsel fees and must not be billed to the Borrower.
4. Monitor the bankruptcy filing and obtain status of the proceedings from the trustee in a timely manner. This includes, at a minimum, assisting with any motions for relief of stay and monitoring the first meeting of creditors, proof of claim and/or confirmation of the bankruptcy plan, pre- and post-petition payments, pleadings and notices. If counsel requests additional documentation and/or information from the Servicer, at any time, the Servicer must provide such requested information and/or documents within three Business Days after receipt of the request, or within such earlier time frame if necessary, to comply with timing requirements under applicable law or court orders and procedures.
5. Maintain copies of all relevant documents related to the bankruptcy including the notice of first meeting of creditors, proof of claim, pleadings, notices, etc.
6. Determine whether the Borrower wishes to keep the property
7. Not require the Borrower to sign a reaffirmation of debt agreement. If the Servicer chooses to have the Borrower reaffirm the debt, the Servicer must comply with all applicable laws, including obtaining the court's approval of the reaffirmation agreement, if necessary. Freddie

Mac will not reimburse the Servicer for any legal costs incurred in obtaining a reaffirmation agreement.

8. Review any bankruptcy reorganization plan proposed under Chapters 11 or 13 of the U.S. Bankruptcy Code (refer to Section 9401.8 regarding the Servicer's Servicing responsibilities should a bankruptcy judge order a bankruptcy cramdown) and respond in a manner that protects Freddie Mac's interests. Likewise, review any bankruptcy plan proposed under Chapter 12 of the U.S. Bankruptcy Code and respond in a manner that protects Freddie Mac's interests. Such review includes verifying that the bankruptcy repayment plan does not extend past the maturity date of the Mortgage, and the bankruptcy repayment plan sets forth the proper monthly payment to include the outstanding debt and sufficient funds to pay property taxes, and all property insurance and mortgage insurance premiums when they become due. If the bankruptcy repayment plan will extend past the maturity date of the Mortgage, the Servicer must object.
9. If appropriate, file an action with the bankruptcy court to secure a determination that the property is abandoned. In the event the court considers the property abandoned, file an order lifting the automatic stay.
10. Monitor and properly apply payments received under any bankruptcy repayment plan. If the Borrower becomes delinquent in his or her payments under a bankruptcy repayment plan, pursuant to Sections 9401.6 and 9401.7, as applicable, the Servicer must instruct counsel to take immediate action to modify the stay order and initiate, or resume, foreclosure proceedings.
11. Conduct a monthly inspection of the property for any delinquent Mortgage unless a bankruptcy repayment plan is in place and being adhered to
12. Verify that the Borrower is current on his or her property taxes and property and mortgage insurance premiums, as applicable, or, if there is an Escrow account, perform an Escrow analysis to determine if a bankruptcy repayment plan must include additional Escrow Funds to maintain the Escrow account. In addition, perform a periodic Escrow analysis and notify the trustee of any change to the payment amount resulting from the analysis.
13. Immediately notify the trustee of any Transfer of Servicing (both the Transferor Servicer and Transferee Servicer must notify the trustee). See Chapter 7101 for specific requirements for Transfer of Servicing, including Concurrent Transfers of Servicing and Subsequent Transfers of Servicing.
14. For leasehold Mortgages:
 - If termination of the lease will impair Freddie Mac's lien position or interest in the property, take appropriate action to assume the lease payments to the lessor if the lease is rejected by the Chapter 7 trustee in bankruptcy and the Borrower ceases making payments required under the terms of the lease (i.e., ground rents)

- Object to any Chapter 13 plan that does not provide for payment of ground rents
15. In cases when the trustee will pay post-petition payments, it is the Servicer's responsibility to notify the trustee of all changes, including any missed post-petition payment, and to send copies of breach/acceleration letters to the trustee
16. Immediately upon release of bankruptcy, if the Mortgage is delinquent, the Servicer must either:
- Resume foreclosure activities, if the Mortgage was in foreclosure previous to the bankruptcy filing, in accordance with Chapter 9301, or
 - Initiate or resume collection activity in accordance with Chapter 9102

Servicers must inform the Borrower, Borrower's counsel or bankruptcy trustee, that an approved modification is conditioned on obtaining the bankruptcy court's approval, if necessary, to modify the Mortgage prior to the due date of the first modified payment.

9401.4: Multiple bankruptcy filings (03/02/16)

A Borrower may file for bankruptcy protection more than once or under different chapters of the bankruptcy laws. When the Servicer receives notice of a Borrower filing a petition for protection under the bankruptcy laws, the Servicer must check its Mortgage records to determine if the Borrower has previously filed for bankruptcy protection. If the Servicer's records disclose a previous bankruptcy filing for that Borrower and the Mortgage is delinquent, the Servicer must refer the bankruptcy case to counsel.

The Servicer must direct counsel to take appropriate action including:

- If the Borrower has filed multiple times, but the bankruptcies are more than 12 months apart:
 1. Motion to annul the automatic stay to confirm foreclosure sale if the Servicer was unaware that the Borrower had filed for bankruptcy and the Servicer had conducted a foreclosure sale
 2. Motion to dismiss the bankruptcy case if it can be shown that there has been no substantial change in the Borrower's financial circumstances since the last bankruptcy filing, or it can be shown the Borrower has no prospect of repayment under a reorganization plan
 3. Object to the confirmation of a Chapter 13 Plan and a motion to dismiss in connection with a Chapter 13 bankruptcy in which the reorganization plan appears to be infeasible, offered in bad faith or it can be shown that there has been no substantial change in the Borrower's financial circumstances since the last bankruptcy filing

4. Motion for “in rem” relief or 180 day bar to prevent the Borrower from filing another bankruptcy case in the future affecting the property securing Freddie Mac’s Mortgage when there are successive filings with a scheme of fraudulent property transfers
 5. Any other actions as deemed appropriate and permitted under the *Bankruptcy Abuse Prevention and Consumer Protection Act of 2005*
- If the multiple filing is within 12 months of the previous filing:
 1. Object in the event that the Borrower petitions to extend the automatic stay when (i) the Borrower’s bankruptcy is presumptively filed not in good faith under the Bankruptcy Code, (ii) the Servicer believes that the filing was offered in bad faith or (iii) if there has been no substantial change in the Borrower’s financial circumstances since the last bankruptcy filing. (See Exhibit 57A, Approved Attorney Fees and Title Expenses, for the related allowable fee for filing an objection to an extension of the automatic stay and attending the related court hearings.)
 2. Any other actions as deemed appropriate and permitted under the *Bankruptcy Abuse Prevention and Consumer Protection Act of 2005*

9401.5: Notifying Freddie Mac of bankruptcy proceedings (03/02/16)

The Servicer must report a bankruptcy filing to Freddie Mac, regardless of whether the Borrower is current or delinquent in his or her Mortgage payments. The Servicer must submit this notification via an EDR transmission within the first three Business Days of the month following the month in which the Servicer received notice of the filing. The Servicer must also include the filing date and the applicable default action code (as listed below) to indicate the bankruptcy chapter number.

Refer to Section 9301.46 and Exhibit 83A, Determining State Foreclosure Timeline Performance Compensatory Fees, for allowable State foreclosure timeline delays related to the Borrower filing for bankruptcy protection.

The bankruptcy petition chapters and applicable default action codes are:

Bankruptcy chapter	Default action code
Chapter 7	65
Chapter 11	66
Chapter 12	59
Chapter 13	67

The Servicer must also notify Freddie Mac when the court confirms the bankruptcy plan by reporting default action code 69 (Bankruptcy plan confirmed) or in the event of a scheduled Bankruptcy Cramdown by reporting a default action code of 35 (Bankruptcy Cramdown Scheduled) within the first three Business Days of the month following the month in which the confirmation occurred.

The Servicer must continue to report via an EDR transmission each month that the Borrower is in bankruptcy until the court clears the bankruptcy or lifts the stay. The Servicer must notify Freddie Mac within the first three Business Days of the month following the month in which either of these actions occur via an EDR transmission using default action code 76 (Bankruptcy court clearance obtained/Stay lifted). Include the date the action occurred.

If a bankruptcy converts from one Chapter to another, the Servicer must report a default action code 76 (Bankruptcy court clearance) to close the prior bankruptcy Chapter. The conversion date is the bankruptcy release date for the prior bankruptcy Chapter and the filing date for the new Chapter.

For example, if a Chapter 13 converted to a Chapter 7 on 01/30/xx, the Servicer would report default action code 76 using 01/30/xx to close the Chapter 13 status and a default action code 65 using 01/30/xx to open the Chapter 7 bankruptcy.

For additional information on EDR reporting requirements, refer to Section 9102.7.

9401.6: Managing new bankruptcy filings (09/27/21)

(a) For Mortgages current at the time of filing

If a Borrower is current in his or her Mortgage payments at the time the Borrower files a Chapter 7, 12 or 13 bankruptcy petition, the Servicer is not required to refer the matter to counsel and Freddie Mac will not reimburse the Servicer if the Servicer does so.

If the Servicer determines that special circumstances exist that require case management by counsel on a current Mortgage (for example, if the Servicer receives a proposed reorganization plan that includes a bankruptcy cramdown), then the Servicer must obtain Freddie Mac's prior written approval via e-mail (**see Directory 5**) to obtain counsel and to incur the legal expense by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

All Chapter 11 bankruptcy cases must be referred to counsel as soon as the Servicer receives notice that the Borrower has filed for bankruptcy protection, regardless of whether the Mortgage payments are current.

If applicable, refer to Section 9401.7 for requirements related to managing Mortgages that become delinquent subsequent to bankruptcy filing.

(b) For Mortgages delinquent at the time of filing, or for bankruptcy filings after a foreclosure sale

The Servicer must refer the bankruptcy to counsel, whether a Chapter 7, 11, 12 or 13 bankruptcy petition, within three Business Days of the Servicer's receipt of notice that a petition has been filed if:

1. The Borrower is at least 30 days delinquent in his or her Mortgage payments at the time bankruptcy is filed
2. The Borrower files a bankruptcy petition after the foreclosure sale and the bankruptcy filing invalidates the foreclosure sale. (See Section 9301.39 for requirements on requesting a rollback if the Servicer determines that the foreclosure sale is legally invalid or void.)
3. The Borrower files a bankruptcy petition after the foreclosure sale but prior to the expiration of a redemption, confirmation or ratification period. (See Section 9301.39 regarding circumstances where it may be in Freddie Mac's best interest to process a rollback to allow the Servicer to report applicable information relating to a bankruptcy repayment plan, if applicable.)

Freddie Mac will reimburse the Servicer for expenses the Servicer incurs in accordance with Section 9401.11 and Chapter 9701.

The Servicer must instruct counsel to file a motion for relief from the automatic stay:

1. In a Chapter 7 case:
 - If the Borrower is at least 60 days delinquent in his or her Mortgage payments at the time of filing, at the same time the Servicer refers the case to counsel
 - If the Borrower is less than 60 days delinquent in his or her Mortgage payments at the time of filing, no later than the 60th day of Delinquency

2. In a Chapter 11, 12, or 13 case, upon determining the Borrower became 60 days delinquent in his or her post-petition and/or plan payments to either the Servicer or the trustee but no later than the 75th day of Delinquency

9401.7: Managing Mortgages that become delinquent subsequent to bankruptcy filing (08/14/19)

If the Borrower was current at the time of filing bankruptcy and subsequently becomes at least 30 days delinquent in payments to either the Servicer or the trustee, then the Servicer must refer the case to counsel. Freddie Mac will reimburse the Servicer for expenses the Servicer incurs in accordance with Section 9401.11 and Chapter 9701.

The Servicer must instruct counsel to file for relief from the automatic stay:

1. In a Chapter 7 bankruptcy case, no later than the 60th day of Delinquency
2. In a Chapter 12 or 13 bankruptcy case, upon determining the Borrower became 60 days delinquent in his or her post-petition and/or plan payments to either the Servicer or the trustee but no later than the 75th day of Delinquency

For Chapter 11 bankruptcy cases already referred to counsel pursuant to Section 9401.6(a), the Servicer must instruct counsel to file for relief from the automatic stay upon determining the Borrower became 60 days delinquent in his or her post-petition and/or plan payments to either the Servicer or the trustee but no later than the 75th day of Delinquency.

9401.8: Bankruptcy cramdowns (08/14/19)

When a Borrower files bankruptcy and the value of the property has declined to a value less than the amount owed on the Mortgage, a federal bankruptcy judge may, in some instances, order a division of the bankruptcy claim.

Under this process, the court divides the Mortgage debt into two claims: a secured claim in the amount of the current appraised value of the property and an unsecured claim for the remaining balance of the debt.

All of, or a portion of, the remaining unsecured claim balance is forgiven upon completion of the court-ordered repayment plan. This is known as a bankruptcy cramdown. Bankruptcy cramdowns are not permitted on Mortgages secured by the Primary Residence of a Borrower who has filed a Chapter 13 bankruptcy.

(a) Notifying Freddie Mac of a proposed bankruptcy cramdown

If the Servicer receives a proposed reorganization plan that includes a bankruptcy cramdown, the Servicer must advise its counsel to file an objection to the reorganization plan. In doing so, the Servicer must direct its counsel to assert that the proposed plan may not modify the original Security Instrument and Note by means of a bankruptcy cramdown.

Additionally, the Servicer must complete and send a copy of Form 1155, Bankruptcy Cramdown Pre-Confirmation Proposal of Settlement Terms, to notify Freddie Mac (see **Directory 5**) of the proposed plan within one Business Day of receiving the plan. Freddie Mac will review Form 1155 that the Servicer submits and make a decision to approve or make a counter-offer to the terms of the proposed plan. In some instances, Freddie Mac may request additional information in its review.

The Servicer must ensure that all terms of the proposed plan are updated and correctly stated on each amendment, if applicable.

If a proposed reorganization plan includes a bankruptcy cramdown that is not in compliance with Chapter 9204, the Servicer must object and Freddie Mac will not agree to the terms of the reorganization plan. If the Servicer agrees to a reorganization plan without Freddie Mac's written approval, Freddie Mac reserves the right to exercise any remedies provided by the Guide and the other Purchase Documents. Refer to Chapter 3602 regarding repurchases, repurchase alternatives and other remedies.

(b) Notifying Freddie Mac of a confirmed bankruptcy cramdown

If a reorganization plan that includes a bankruptcy cramdown has been confirmed, the Servicer must notify Freddie Mac of the confirmed plan within one Business Day of receiving the plan. In doing so, the Servicer must transmit the final terms of the confirmed bankruptcy cramdown (a "bankruptcy cramdown modification") to Freddie Mac via the "Court Mandated Modification" screen in Workout Prospector®.

By completing the "Court Mandated Modification" screen in Workout Prospector and submitting the bankruptcy cramdown modification for settlement, the Servicer represents and warrants to Freddie Mac that it has completed the data entry in accordance with the instructions set forth in the Workout Prospector Users' Guide and that all information set forth on the "Court Mandated Modification" screen is accurate and in accordance with the terms of the confirmed plan. In submitting the bankruptcy cramdown modification via the "Court Mandated Modification" screen, the Servicer represents and warrants, among other things that:

- The "Current UPB (pre-modification)" and the DDLPI entered on the "Court Mandated Modification" screen matches the UPB and DDLPI reported to Freddie Mac at the time of confirmation of the reorganization plan

- The data entered on the “Court Mandated Modification” screen matches the final terms of the confirmed bankruptcy cramdown
- The property value is either the BPO or appraisal, depending on what was required by the court

Once the data entered onto the “Court Mandated Modification” screen has been submitted to Freddie Mac, Servicers should monitor the *Modification Pending Update* report, accessible via the “Modifications” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools). All Mortgages that are scheduled to be processed in Freddie Mac’s systems will appear on this report in the SPP.

In addition, Freddie Mac will notify Servicers that the bankruptcy cramdown modification has been processed in Freddie Mac’s systems via the *Modification Status Overview* report in the SPP. If a Servicer attempts to report a monthly loan-level transaction on a Mortgage based on the modified terms prior to the bankruptcy cramdown modification being processed in Freddie Mac’s systems, the Servicer will not be able to successfully complete the transaction.

(c) Other requirements

The Servicer must ensure that proper EDR requirements are followed in accordance with Section 9401.5.

Upon determining the Borrower became 60 days delinquent in his or her payments under a confirmed reorganization plan that includes a bankruptcy cramdown but no later than the 75th day of Delinquency, the Servicer must instruct counsel to file for relief from the automatic stay (see Sections 9401.6 and 9401.7, as applicable, regarding filing for relief from the automatic stay). For any other default under the terms of a confirmed reorganization plan that includes a bankruptcy cramdown, the Servicer must notify Freddie Mac (see **Directory 5**) within one Business Day of such default and indicate the type of default and include the Servicer’s recommendation as to how to proceed.

9401.9: Servicing bankruptcies on Mortgages secured by income properties (03/02/16)

If a Borrower on a Mortgage secured by income producing property files a bankruptcy petition and Freddie Mac has an assignment of rents, the Servicer must take action to prohibit the Borrower from using any income from the property for any purpose other than making payments on the Mortgage by instructing counsel to:

1. File a motion for sequestration of rental income, or
2. Obtain an adequate protection order

9401.10: Selecting bankruptcy counsel, bankruptcy referrals and the Servicer's responsibility to work with bankruptcy counsel (03/02/16)

(a) Selecting bankruptcy counsel

For requirements applicable to Freddie Mac Default Legal Matters, which include bankruptcy matters, refer to Chapter 9501.

(b) Bankruptcy referrals

1. If the Borrower is referred to foreclosure after the bankruptcy referral, the Servicer is not required to refer the foreclosure to the same law firm that handled the bankruptcy matter. However, the Servicer should give preference to the law firm that handled the bankruptcy matter if the Servicer determines it is in Freddie Mac's best interest.
2. If the Borrower is in foreclosure at the time of the bankruptcy referral, or the Borrower files a bankruptcy petition after the foreclosure sale (see Section 9401.6 regarding managing bankruptcy filings after a foreclosure sale), the Servicer is not required to refer the bankruptcy case to the same law firm handling the foreclosure. However, the Servicer should give preference to the law firm handling the foreclosure if the Servicer determines it is in Freddie Mac's best interest.

If the Servicer does not refer the bankruptcy case to the law firm handling the foreclosure, then the Servicer must ensure that it periodically updates the foreclosure counsel regarding the status of the bankruptcy matter. Once the bankruptcy matter is resolved, the Servicer is responsible for transitioning the foreclosure back to the law firm handling the foreclosure for any further required proceedings immediately upon release of bankruptcy, but no later than one Business Day after the resolution of the bankruptcy matter.

3. When referring a bankruptcy case to counsel, the Servicer must provide all documentation and/or information required to handle the bankruptcy matter and work with the bankruptcy attorney to facilitate either timely reinstatement or relief from the automatic stay.

(c) Servicer's responsibility to work with bankruptcy counsel

When the Servicer refers a bankruptcy case to counsel, the Servicer must provide complete written reinstatement or payoff figures to the attorney, trustee, workout specialist or outsourcing vendor, as applicable, at the time of referral unless the Borrower is in foreclosure at the time of the bankruptcy referral and the Servicer refers the bankruptcy case to the law firm handling the foreclosure. Also, the Servicer must respond to any additional requests for reinstatement and/or payoff figures after referral within two Business Days of the date on

which the Servicer receives a written request. The Servicer may provide the written reinstatement or payoff figures via a paper document, facsimile or e-mail.

If the bankruptcy counsel requests any additional information and/or documentation at any time, the Servicer must provide such requested information and/or documents within three Business Days after receipt of the request, or such earlier time frame, if necessary to comply with timing requirements under applicable law or court orders and procedures.

A Servicer must maintain communication with the bankruptcy attorney so that the Servicer can manage the bankruptcy case effectively. No less than one time per month, the Servicer must require the bankruptcy attorney to report the status of the case, request any documentation needed from the Servicer and report any relevant information to the Servicer. The Servicer must maintain this information in the Mortgage file or on its Mortgage system.

9401.11: Reimbursement of expenses related to a bankruptcy (09/27/21)

When legally permissible, the Servicer must attempt to obtain payment of the attorney fees and costs resulting from the bankruptcy proceedings directly from the Borrower and/or the bankruptcy court.

Freddie Mac will reimburse the Servicer for expenses the Servicer incurs in accordance with the limits listed in Exhibit 57A, Approved Attorney Fees and Title Expenses, and according to the requirements contained in Chapter 9701. The Servicer must obtain Freddie Mac's written pre-approval for any fees in excess of the fees listed in Exhibit 57A by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

Freddie Mac will not reimburse Servicers for attorney fees or legal costs on any bankruptcy case if:

1. The Borrower was current on the Mortgage at the time the Borrower filed for bankruptcy protection, has remained current, and Freddie Mac did not approve a referral to bankruptcy counsel for special circumstances
2. The Servicer incurred costs for reaffirmation agreements
3. The Servicer incorrectly reported or failed to report the bankruptcy through EDR. See Section 9401.5 for more details on how to report bankruptcies through EDR.
4. The firm was not eligible to receive referrals of Freddie Mac Default Legal Matters, as specified in Chapter 9501

Chapter 9402: Other Litigation Involving Freddie Mac-Owned or Guaranteed Mortgages

9402.1: Freddie Mac rights (07/13/16)

Freddie Mac reserves the right to direct and control all litigation involving a Freddie Mac-owned or guaranteed Mortgage, regardless of whether Freddie Mac is a named party. The Servicer and all law firms handling the litigation, whether selected and engaged pursuant to Chapter 9501, Section 8601.25 or Section 9402.4, must cooperate fully with Freddie Mac in the prosecution, defense and handling of the matter.

Refer to Section 9401.2 for Freddie Mac rights when the requirements of this section regarding Servicer and law firm cooperation with Freddie Mac in the prosecution, defense and handling of litigation involving Freddie Mac-owned or guaranteed Mortgages are not met.

9402.2: Routine and non-routine litigation (06/12/19)

(a) Definition of routine and non-routine litigation

- **Routine litigation** generally is a contested action in which the Borrower alleges case-specific defenses or issues which, if successful, would not create negative legal precedent beyond the immediate case
- **Non-routine litigation** generally is a contested action in which the Borrower alleges case-specific defenses or issues, which, if successful, would create negative legal precedent beyond the immediate case

Examples of non-routine litigation that must be reported to Freddie Mac as non-routine litigation include, but are not limited to, the following:

- Actions that name Freddie Mac as a party
- Action that seeks monetary relief against Freddie Mac, including any claim (including counterclaims, cross-claims, or third-party claims in foreclosure or bankruptcy actions) for damages against Freddie Mac or its officers, directors, or employees
- Actions that challenge the validity, priority, or enforceability of a Freddie Mac-owned or guaranteed Mortgage or seek to impair Freddie Mac's interest in an REO including, by way of example:
 1. An action seeking to demolish a structure on the property or the property as a result of a code violation

2. An action seeking to avoid a lien based on a failure to comply with a law or regulation
 3. An attempt by a junior lienholder to assert priority over a Freddie Mac-owned or guaranteed Mortgage or extinguish Freddie Mac’s interests
 4. A quiet title action seeking to declare Freddie Mac’s lien void; and
 5. An attempt by a Borrower to effect a cramdown of a Mortgage in bankruptcy as to which Freddie Mac has not delegated authority to the Servicer or law firm to address
- Actions that present an issue that may pose significant legal or reputational risk to Freddie Mac include, by way of example:
 1. Any issue involving Freddie Mac’s conservatorship, its conservator, FHFA, Freddie Mac’s status as a federal instrumentality, or an interpretation of Freddie Mac’s charter
 2. Any assertion that Freddie Mac is a federal agency or otherwise part of the United States Government
 3. Any “due process” or other constitutional challenge
 4. Any challenge to the methods by which Freddie Mac does business
 5. Any putative class actions involving a Freddie Mac-owned or guaranteed Mortgage
 6. Challenges to the standing of the Servicer to conduct foreclosures or bankruptcies which, if successful, could create negative legal precedent with an impact beyond the immediate case
 7. Challenges to the methods by which MERS® does business or its ability to act as nominee under a Mortgage
 8. Any “show cause orders” or motions for sanctions relating to a Freddie Mac-owned or guaranteed Mortgage, whether against Freddie Mac, the Servicer, a law firm, or a vendor of the Servicer or law firm
 9. Any appellate or other action for post-judgment relief in any foreclosure, bankruptcy or legal action in which Freddie Mac is a named party
 - 10. Foreclosures on HUD-Guaranteed Section 184 Native American Mortgages
 - 11. Any environmental litigation relating to a Freddie Mac-owned or guaranteed Mortgage

12. A need to foreclose judicially in a State where non-judicial foreclosures predominate
 13. Any claim invoking Home Affordable Modification Program (HAMP®) as a basis to challenge a foreclosure
 14. Any claim brought by a governmental body
 15. Cross-border insolvency proceedings under Chapter 15 of the Bankruptcy Code
 16. Any claim of predatory lending or discrimination in Mortgage origination or Servicing; and
 17. Any claim implicating the interpretation of the terms of the Fannie Mae/Freddie Mac Uniform Mortgage Instruments
- Actions involving an eNote or eMortgage (as those terms are defined in Section 1402.2)

Given the evolving nature of default-related litigation, it is not possible to provide an exhaustive list of non-routine litigation. Each contested action presents unique circumstances, and the Servicer should evaluate each action on a case-by-case basis to determine whether a contested action is routine or non-routine.

(b) Legal actions and strategies initiated by the Servicer

A Servicer must obtain written approval (**see Directory 5**) from the Freddie Mac Legal Division prior to initiating the following legal actions and strategies:

- Filing a new legal action, other than a Freddie Mac Default Legal Matter, on behalf of Freddie Mac
- Filing a motion to intervene in a pending legal action on behalf of Freddie Mac
- Appealing or otherwise challenging a judgment in any foreclosure or bankruptcy proceeding, or any legal action in which Freddie Mac is a named party
- Filing a notice of removal to federal district court for any legal action in which Freddie Mac is a named party
- Asserting any position in a legal action that relates to Freddie Mac's status as a Government Sponsored Enterprise (GSE), its conservatorship, or its conservator, FHFA
- Propounding discovery requests or otherwise serving or providing any discovery responses on behalf of Freddie Mac

(c) Referring to Freddie Mac in litigation

Freddie Mac must be described in legal proceedings as “Federal Home Loan Mortgage Corporation (“Freddie Mac”), a corporation organized and existing under the laws of the United States of America.” Freddie Mac may not be referred to as a “government agency.”

(d) MERS-registered Mortgages

See Section 8101.12(b) for additional requirements relating to notices from MERS and MERS-registered Mortgages.

9402.3: Reporting and notification requirements for litigation (10/20/21)

The Servicer must monitor all Freddie Mac Default Legal Matters.

(a) EDR requirements

The Servicer must act without delay and in accordance with applicable law when responding to any litigation matter.

If litigation involves a Mortgage that is 30 or more days delinquent, the Servicer must report the litigation matter to Freddie Mac via EDR within the first three Business Days of the month following the month in which the Servicer became aware of the litigation, using default action code 33 (Contested Foreclosure and Litigation).

(b) Legal reporting requirements for non-routine litigation

(i) Notifying Freddie Mac of non-routine litigation

The Servicer must act without delay and notify Freddie Mac within two Business Days of determining that the Freddie Mac Default Legal Matter involves or evolves into non-routine litigation. All notifications must be sent via e-mail (**see Directory 5**).

If the Servicer retains counsel not selected and engaged pursuant to Chapter 9501 to handle the non-routine litigation matter (see Section 8601.25 and Section 9402.4), the notification to Freddie Mac must include the name, address, phone number, and e-mail address of the Servicer’s counsel and a brief summary including but not limited to: the issues presented, the Freddie Mac loan number, docket number, case caption and court and any relevant pleadings.

Once Freddie Mac has been notified accordingly, the Servicer and the law firm(s) handling the non-routine litigation matter must periodically update Freddie Mac on the progress of the litigation. Freddie Mac must be provided sufficient opportunity, but no

less than five Business Days before the filing deadline, to review and comment upon any substantive pleadings including, but not limited to: motions, replies, briefs and proposed orders.

(ii) Notification of a modification of a Mortgage subject to active non-routine litigation

If the Mortgage is subject to active non-routine litigation and the Servicer determines the Borrower is eligible for a Freddie Mac Flex® Modification, the Servicer must conduct a review through its in-house or outside counsel to determine that it is appropriate to send the Trial Period Plan offer per applicable laws, ensure that any active litigation and settlement negotiations by Servicer's counsel are not undermined and that Freddie Mac's interests are not adversely impacted. If it is deemed appropriate to send based upon the aforementioned review, the Servicer or the Servicer's counsel must send the Trial Period Plan offer to an eligible Borrower's counsel, or, if not represented, to the Borrower directly, when that Borrower's Mortgage is subject to active non-routine litigation.

(c) Legal expenses for non-routine litigation

The Servicer must obtain Freddie Mac's prior written approval before incurring any expenses in the Servicing of a non-routine litigation matter. To obtain Freddie Mac's approval, the Servicer must first contact Freddie Mac with details of the non-routine litigation matter (**see Directory 5**) according to the reporting requirements in Section 9402.3(b). If legal expenses related to the non-routine litigation matter are reimbursable to the Servicer, then the Servicer must submit a request for pre-approval (RPA) in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools), including an estimate of the attorney's fees and litigation costs and the attorney's hourly rate.

When a delay in taking protective action might result in the impairment of the property or jeopardize Freddie Mac's lien position, the Servicer must immediately submit an RPA. If unusual or emergency circumstances do not allow the Servicer to request Freddie Mac's prior written approval, then the Servicer must notify Freddie Mac via PAID by the next Business Day after the Servicer incurred the expense. If the Servicer's determination to incur the expense was reasonable, as determined in Freddie Mac's sole discretion, Freddie Mac will reimburse the Servicer.

9402.4: Counsel retained by Servicers pursuant to Servicer's duty to indemnify Freddie Mac (07/13/16)

From time to time, the Servicer may retain counsel to represent Freddie Mac and/or the Servicer with respect to litigation involving, related to, or arising out of allegations which, if true, could subject the Servicer to liability to Freddie Mac for a failure to comply with any selling or Servicing representation or warranty or requirement of the Guide or other Purchase Documents. When the Servicer retains counsel for this purpose, the Servicer remains liable for legal fees and costs incurred in the defense of any litigation, as well as any and all losses, judgments, damages and expenses, including fees and costs entered against and incurred on behalf of Freddie Mac.

Freddie Mac will reimburse the Servicer for Freddie Mac's proportionate share of expenses for responding to Borrower defenses.

Counsel retained and paid by Servicers pursuant to Section 9402.2 and this section do not need to be selected and engaged pursuant to Chapter 9501. In all other Freddie Mac Default Legal Matters, the Servicer must use counsel selected and engaged pursuant to Chapter 9501.

Servicers must notify Freddie Mac (**see Directory 5**) of its retention of counsel not selected and engaged pursuant to Chapter 9501 and are required to comply with the reporting requirements in Section 9402.3(b).

The Servicer must ensure that the law firm to which the Freddie Mac Default Legal Matter was originally referred is updated on the current status of the litigation either by the Servicer or its new counsel. Once the litigation for which new counsel is retained concludes, unless the entire legal matter or action is resolved, the Servicer is responsible for transitioning the Freddie Mac Default Legal Matter back to the law firm to which it was originally referred for any required further proceedings no later than one Business Day after the resolution of the litigation matter.

In instances in which the Security Instrument provides for the Borrower to reimburse any legal fees and costs incurred by the Servicer, the Servicer should instruct its counsel to notify the Borrower about his or her responsibility for such expenses. The Servicer's counsel should attempt to handle such matters by stipulation or any other expeditious manner that will reduce the fees and costs that the Borrower has to pay.

Chapter 9501: Selection, Retention and Management of Law Firms for Freddie Mac Default Legal Matters

9501.1: Servicer's management of law firms for Freddie Mac Default Legal Matters (03/02/16)

This chapter sets forth requirements for the Servicer's review and evaluation, selection, retention and management of law firms (referred to throughout this chapter as "firms") for Freddie Mac Default Legal Matters.

Effective June 1, 2013, all referrals of Freddie Mac Default Legal Matters must be conducted in accordance with the requirements of Chapter 9501. Chapter 9501 governs the referral of Freddie Mac Default Legal Matters to law firms selected by the Servicer under the requirements of Section 9501.7.

Effective August 1, 2013, Servicers must comply with all requirements of this chapter in order to refer Freddie Mac Default Legal Matters to law firms. Refer to Chapter 9502 for requirements related to Default Legal Matters referred prior to the August 1, 2013 effective date.

Each Servicer is responsible for retaining firms for Freddie Mac Default Legal Matters. Freddie Mac will continue to retain firms directly for REO-related legal services: eviction, REO closing, and related litigation (refer to Chapters 9401 and 9402 for more information relating to litigation).

9501.2: Review and evaluation of firms (03/02/16)

(a) Due diligence

As part of its selection process, each Servicer is responsible for obtaining and evaluating documentation and information from firms, and conducting due diligence to ensure that selected firms meet the requirements set forth in Section 9501.3. As part of the process, each Servicer must:

- Obtain and review all required documentation and information submitted by each firm
- Ensure that it selects from a pool of potentially acceptable firms that is diverse, and includes minority and women-owned firms and other diverse firms when feasible; and

- Ensure that the firm or any entity or individual performing work for the firm is not on the Freddie Mac Exclusionary List in accordance with Section 3101.1

(b) Due diligence documentation

The Servicer must provide to Freddie Mac upon request a copy of each firm's application information and related due diligence documentation. Freddie Mac reserves the right to review the process, procedures and due diligence used by the Servicer to evaluate and select a firm.

(c) Document retention requirements

The Servicer must retain all information submitted by a firm in support of the firm's application and all information otherwise gathered by the Servicer regarding the firm. The Servicer must maintain any information relating to firms that are selected and retained by the Servicer for as long as the firm is providing legal services with respect to Freddie Mac-owned or guaranteed Mortgages and, thereafter, for the longer of any retention period applicable to the Servicer or seven years. The Servicer must maintain any information relating to firms that are not selected and retained by the Servicer for the longer of any retention period applicable to the Servicer or seven years.

9501.3: Firm Minimum Requirements (05/04/20)

The Servicer must ensure that all firms selected and retained to handle Freddie Mac Default Legal Matters meet the firm minimum requirements specified in this section ("Firm Minimum Requirements"), and all other applicable Freddie Mac requirements. The Firm Minimum Requirements are as follows:

(a) Firm practice

The firm's practice areas must include end-to-end default-related legal services: foreclosure, bankruptcy, loss mitigation (e.g., deeds-in-lieu of foreclosure), default-related litigation and REO-related legal services: eviction, REO closing and related litigation.

The firm must:

- Be familiar with industry standards in the State in which it practices
- Understand the State legal processes and requirements in default-related and REO-related legal services; and
- Understand the substantive legal issues in the State (e.g., standing)

Additionally, the Servicer must consider firm experience in the following areas: foreclosure mediation, the Fair Debt Collection Practices Act, title curative issues, and general housing-

related issues (e.g., rent control, Section 8, lead paint liability, health code violations, foreclosure redemption, confirmation and ratification, condominium associations, homeowners associations (HOA), mobile home matters, and Cooperative Share Loans (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans)). The firm should also have some experience with delegation for loss mitigation.

The Servicer must also consider the firm's membership in default-related and REO-related trade and industry groups, attendance or participation in State bar associations, seminar and lecture participation and attendance, and any other activities relevant to default-related and REO-related law practice.

(b) Presence in State

Firms generally must have a staffed office in the State in which the firm is retained for Freddie Mac Default Legal Matters.

In addition:

- The legal work must be performed by the attorneys licensed in the State where the Mortgaged Premises is located
- The firm must be registered, as necessary, with appropriate State authorities
- For the States in which an appropriately staffed office is required, the firm must disclose to the Servicer the extent, if any, to which work will be performed by an office of the firm in another State
- The Servicer must require the firm to disclose to the Servicer where the staff handling the work in the particular State is located, and to whom the staff in that office regularly reports; and
- The Servicer must obtain office addresses for each firm it seeks to retain

1. Judicial foreclosure States

In judicial foreclosure States, the firm must have an appropriately staffed office in the State in which the firm is retained for Freddie Mac Default Legal Matters.

2. Non-Judicial foreclosure States

In non-judicial foreclosure States, a firm must have an appropriately staffed office located in the State in which the firm is retained, except in the following non-judicial foreclosure States: Alaska, District of Columbia, Idaho, New Hampshire, Rhode Island, Montana, West Virginia and Wyoming. In those States, Servicers should give preference to firms that have staffed offices in those States. However, out-of-State firms may be used to handle Freddie Mac Default Legal Matters, provided that the firm is located in the

same region of the country and is able to demonstrate that it has policies, procedures and processes in place to handle cases from out of State.

Servicers may use firms outside of Puerto Rico, the U.S. Virgin Islands and Guam to handle foreclosure and bankruptcy matters in those States. Servicers should give preference to firms that have staffed offices in the State, but out-of-State firms may be used, provided that they are able to demonstrate that they have policies, procedures and processes in place to handle cases from outside the State.

If a Servicer has difficulty finding a sufficient number of firms with appropriately staffed offices in States other than those listed in the exceptions above, the Servicer may contact Freddie Mac to request an exception to the requirement that a firm have an appropriately staffed office located in the State. Requests should be sent to Freddie Mac (**see Directory 1**).

(c) State-specific industry references

The Servicer must obtain from the firm at least two State-specific mortgage servicers or default-related references, or if the firm has been in existence less than one year, the partners or shareholders of the firm must provide at least two Servicer or default-related references in connection with work performed in the particular State.

(d) Statewide coverage and use of local counsel

The Servicer must ensure that the firm has the ability to cover foreclosure, bankruptcy, eviction, REO closing matters and default-related litigation throughout the State.

If the firm has partnerships or relationships with third parties (e.g., local counsel, trustee companies or title companies) that will perform or complete some aspect of the default-related and REO-related work, the Servicer must require the firm to: (i) obtain disclosure from the firm regarding such relationships and the extent to which third parties will be relied upon and (ii) determine whether the firm has a reasonable contingency plan for the loss of any of those relationships or operational processes. In evaluating any such third-party relationship, the Servicer must consider the length of time the relationship has existed and the adequacy of the firm's written policies to mitigate third-party risk.

If a firm uses local counsel to handle matters within the State, the Servicer must ensure that the firm has a process to select, manage, and review the local counsel and their work product. The process must be designed to ensure that local attorneys are qualified and adequately trained and have a satisfactory history with respect to bar complaints, sanctions and similar matters.

For a firm's contested caseload (e.g., contested foreclosures and litigated cases), the firm's reliance on local counsel must be minimal. Any use of local counsel for these matters must be structured so that the retained firm will direct and manage the local counsel on those matters.

(e) Prior volume experience

Servicers must confirm the firm and/or managing attorney(s) has completed a sufficient number of foreclosure, bankruptcy, loss mitigation, eviction and REO matters within the past 24 months to demonstrate that the firm has experience in representing creditors in default-related matters.

For the 24-month period, the Servicer must review the total number of matters referred, the total number of matters completed and the number of matters currently pending for each of the following areas: foreclosure, bankruptcy, loss mitigation, eviction and REO closing.

What constitutes a sufficient number of completed default-related and REO-related legal services will vary depending upon the State at issue, the volume the Servicer expects to refer to the firm, and the relative size of the firm. Servicers must consider these factors when making this determination.

(f) Firm has adequate, relevant State-specific experience

The Servicer must confirm that the firm has one or more managing attorney(s) or partner(s) with no less than 8 years of relevant, State-specific experience in foreclosure (including where applicable, confirmation, redemption and ratification matters), bankruptcy, loss mitigation, eviction, and REO closings and litigation. Servicers may make exceptions to this requirement for documented reasons in the event a firm is otherwise qualified.

The Servicer must obtain the names and the years of experience in each area (foreclosure, bankruptcy, eviction, REO closings and related litigation) for the firm's managing attorney(s) or partner(s) and associates.

If the principals or partners of the firm are not actively involved in the management of the firm, the Servicer must consider the level of experience of those actively involved in managing the firm.

(g) One or more of the firm's lead attorneys has adequate, relevant litigation experience in the State

The Servicer must determine whether the firm has at least one lead attorney to handle Freddie Mac Default Legal Matters with a minimum of five years of experience in default-related and REO-related litigation in the State. The firm's partner(s) or managing attorney(s) may act as the lead attorney for Freddie Mac Default Legal Matters. If the firm will utilize staff attorneys for Freddie Mac Default Legal Matters, one or more staff attorneys must have at least three years of experience in handling default-related and REO-related litigation in the State.

(h) Attorney licensing

The Servicer must confirm that the firm's attorneys who will handle Freddie Mac Default Legal Matters are licensed to practice, and in good standing, in the State in which the firm is being retained. Legal work must be performed by attorneys licensed in the State.

(i) Staff experience

The Servicer must determine whether the firm's non-attorney staff has reasonable experience. In determining what constitutes reasonable experience, the Servicer must consider the average years of experience, education, qualifications and demonstrated ability of the non-attorney staff in relation to their respective levels of responsibility.

(j) Staff oversight

The Servicer must confirm that the firm has appropriate attorney-to-staff ratios to ensure appropriate staff oversight given the size of the firm and the firm's operational structure. The Servicer must consider whether the firm practices in a judicial or a non-judicial State, the firm's case management practices, the State-specific process, attorney and staff experience, firm technology and firm infrastructure.

(k) File oversight

The Servicer must confirm that the firm has appropriate (i) attorney-to-file and (ii) staff-to-file ratios, given the size of the firm and the firm's operational structure. The Servicer must take into consideration whether the firm practices in a judicial or a non-judicial foreclosure State, the firm's case management practices, the State-specific processes, attorney and staff experience, firm technology and firm infrastructure.

(l) Firm capacity

As of the date of the submission of the Servicer Selection Form via <https://www.freddiemacsats.com/Security/Login>, the Servicer must confirm that the firm has the ability to accept additional referrals. Additionally, the Servicer must confirm that the firm is not operating at full capacity, given the existing facilities, personnel, and technology or, alternatively, the firm must outline to the Servicer's satisfaction the steps and time frame necessary to be in a position to handle additional referrals while still maintaining appropriate firm-to-file and staff-to-file ratios. The Servicer must confirm that the firm has contingency plans to deal with a contraction in the market.

(m) Ethics and professional standards

The firm must demonstrate a history of legal practice that comports with applicable legal and ethical standards, reflecting high professional standards. The Servicer must conclude that the firm does not, in the totality of the circumstances, pose a legal and/or reputational risk or exhibit systematic issues that may lead to reputational and/or legal risk to Freddie Mac.

The Servicer must obtain the following information from the firm in order to evaluate the sufficiency of the firm's professional standards:

- Any sanctions against the firm or any of its present or former attorneys in the past five years, including the nature of the sanctions and if they relate to a loan-level matter or systemic firm practice, and if related to firm practice, any corrective actions taken by the firm
- Any bar complaints/reprimands against present and former firm attorneys in the past ten years and whether the complaints were closed, pending or resulted in some form of adverse action
- Any government investigations involving firm practices in the past ten years and whether the investigations involved firm practices or are related to client investigations
- Any damages or settlement of claims as a result of an allegation of professional negligence against the firm or its attorneys in the past five years (i) in excess of \$20,000 in any single occurrence, \$50,000 in the aggregate, or (ii) reflect a possible pattern of professional negligence, regardless of amount; and
- Any significant litigation asserting systemic issues with firm processes or legal work, such as any class action lawsuit against the firm

If the Servicer is aware of any of the above items that involve the firm's professional standards, but which were not disclosed by the firm, the Servicer must disclose them to Freddie Mac in the Servicer Selection Form.

The Servicer must obtain a disclosure from the firm regarding whether the firm (or any of its partners, shareholders, or employees while acting as a partner, shareholder, or principal at another firm) has been previously terminated by Freddie Mac or Fannie Mae or had referrals suspended by Freddie Mac or Fannie Mae.

The Servicer must obtain a certification from the firm that, to the best of the firm's knowledge, the firm's documents have been and continue to be prepared, executed and/or notarized in compliance with applicable law. If the firm reports that the firm, its attorneys, notaries or third-parties that the firm relies on to perform any aspect of default-related or REO-related services have previously prepared, executed or notarized documents that have not been in compliance with applicable law, the Servicer must conclude that the firm has instituted controls, procedures, and processes to address the contributing cause(s) of the firm's failure to comply with applicable law in order to execute the Servicer Selection Form.

Freddie Mac expects Servicers to exercise sound judgment and consider the totality of the circumstances in evaluating the potential legal and reputational risks posed by a firm to Freddie Mac. The items for consideration outlined above are not intended to be exhaustive or

to disqualify a firm from retention if the Servicer concludes that the firm is acceptable considering the totality of the circumstances.

(n) Timelines

The Servicer must review the firm's completion timelines, and confirm that the firm is able to track, monitor and complete foreclosure and bankruptcy matters in compliance with applicable law and Freddie Mac timeline requirements, taking into consideration outside factors that impact compliance with Freddie Mac timelines such as new foreclosure requirements and court delays.

(o) Information privacy

The firm must maintain physical, technical and procedural controls and effective information security and data management to:

- Ensure the security and confidentiality of personally identifiable information (PII) and confidential information, whether in paper, electronic or other form
- Protect against any threats or hazards to the security or integrity of such information; and
- Protect against unauthorized access to or use of such information

The firm must implement controls meeting or exceeding industry standards, including, as applicable, standards promulgated by the International Office for Standardization (ISO) or National Institute for Standards and Technology (NIST). The firm must ensure that PII that is stored on the firm's systems and workstations is encrypted at rest at all times. The firm must have secured storage for promissory notes and other original documents to prevent theft and to ensure protection against fire, flood or other damage. The firm may not perform, outsource, or send to any affiliate outside of the United States or its territories, any legal work on Freddie Mac-owned or guaranteed Mortgages, including any storage of Freddie Mac data. The firm may not send any PII underlying Freddie Mac-owned or guaranteed Mortgages, outside the United States. The firm must have written policies, procedures, and processes in place by the date of the submission of the Servicer Selection Form, related to protection of PII and fraud prevention, including policies, procedures and processes related to: background checks of all employees; protection of PII; fraud prevention and identification; and incident response and notification protocols for data breaches and other security incidents. The Servicer must review and confirm that the firm meets these requirements for information security, data management, protection of PII and fraud prevention.

(p) Daily reporting to Freddie Mac

The Servicer must confirm that the firm has the capability to provide daily reporting to Freddie Mac of key metrics (i.e., volume, milestones, delays, loss mitigation successes, litigation detail, etc.) via the Attorney Data Reporting (ADR) System, a Servicing Tool,

pursuant to Section 9501.10. The Servicer must also ensure that the firm has staff responsible for reporting data directly to Freddie Mac using ADR.

(q) Technology

The Servicer must confirm that the firm has adequate technology in place or technological capabilities to provide reporting, communication and tracking of key events and milestones, including access to PACER/ECF or other similar systems to obtain case and docket information from federal appellate, district and bankruptcy court records.

Additionally, the Servicer must confirm that the firm is able to provide status reports and track significant dates and events for foreclosure, bankruptcy, evictions and REO closings and has the capability to measure the duration between various process stages, to identify process impediments (e.g., holds) and to parse holds into different categories.

If a firm is multi-jurisdictional or has partnerships or relationships with third parties (e.g., local counsel, trustee companies or title companies) that will perform or complete some aspect of the default-related or REO-related work or if the firm relies on other offices to perform some aspect of the work or provide operational support, the Servicer must confirm that the firm maintains a reliable and secure means of exchanging matter information between each office and any third party the firm relies upon.

The Servicer must require the firm to describe whether the firm currently uses a universal translation technology to communicate information between their technological system and the various Servicers' systems, or explain its method for transmitting information efficiently, accurately and securely to Servicers.

(r) Technology staffing

The Servicer must confirm that the firm has adequate in-house technical expertise or readily available vendor support to ensure compliance with Freddie Mac's automated reporting requirements.

(s) Insurance requirements

The Servicer must confirm that the firm has an appropriate level of malpractice and errors and omissions insurance coverage in place or be able to obtain an appropriate amount of insurance by the date of the submission of the Servicer Selection Form. The appropriate level of insurance coverage will depend upon the total number of Freddie Mac and Fannie Mae files the firm is managing or expects to manage when being evaluated by the Servicer. The firm must have the ability to obtain the appropriate amount of insurance coverage under the new requirements as follows:

- Tier I, volume of 0-4,499 foreclosure matters, coverage of not less than \$1 million per occurrence with an aggregate of not less than \$3 million

- Tier II, volume of 4,500-19,999 foreclosure matters, coverage of not less than \$5 million per occurrence with an aggregate of not less than \$5 million; and
- Tier III, volume of 20,000 or more foreclosure matters, coverage of not less than \$8 million per occurrence with an aggregate of not less than \$8 million

The required level of insurance is determined by the higher of the Freddie Mac or Fannie Mae pending foreclosure volume. By way of example, if a firm had 2,000 Freddie Mac foreclosure matters and 4,501 Fannie Mae foreclosure matters, the firm would fall within Tier II and the required coverage would be not less than \$5 million per occurrence with an aggregate of not less than \$5 million. Beginning in 2014, Servicers must conduct an updated coverage analysis annually, with the appropriate level of insurance to be determined by the number of matters being handled as of June 1 of each year. When an annual review reveals a need to increase a firm's coverage, firms will have until December 31 of each year to obtain any required increased coverage. Servicers may grant firms additional time to obtain increased coverage, if necessary, to reach the routine renewal date for the firm's policy but may not grant extensions beyond June 1 of the following year.

(t) Financial resources

The Servicer must confirm that the firm has adequate financial resources and the financial ability to make required advances in connection with filing fees and costs necessary to process default-related and REO-related matters.

The Servicer must review the firm's financial statements and/or other firm financial documents in order to confirm that the firm has sufficient reserves or credit lines to manage operating expenses.

(u) Business continuity

The Servicer must confirm that the firm has business continuity and/or disaster recovery plans in place to recover critical business functions. The firm must have a documented succession/continuity plan in the event of loss of the firm owners/partners.

(v) Quality control

The Servicer must confirm that the firm has written policies, procedures and/or processes in place by the date of the submission of the Servicer Selection Form, to ensure the proper management and supervision of staff and the proper preparation, review, execution and notarization of default-related documents and REO-related documents. The Servicer must also confirm the firm has an escalation process for employees to raise document execution and other quality control issues to firm management.

The Servicer must obtain documentation and information related to the firm's process for ensuring compliance with its policies, procedures, processes and training, such as an internal compliance program and/or quality control reviews.

(w) Employee training

The Servicer must confirm that the firm has written policies for employee training, including privacy training. When determining whether a firm's employee training is adequate, the Servicer must review the frequency of training, the presence of policies and procedures and firm handbooks, manuals and job aids.

(x) Adverse matters

No substantial part of the firm's practice can include matters that are adverse to financial institutions, including Freddie Mac or Fannie Mae. Adverse matters to financial institutions include:

- Condominium association, HOA or Cooperative Corporation foreclosures
- Consumer debtor or mortgagor representation
- Bankruptcy trustee representation; or
- Any other client(s) that may create a potential conflict of interest

(y) Conflicts of interest

Attorneys must not be affected by a conflict of interest or a potential conflict of interest when handling Freddie Mac Default Legal Matters. The Servicer must retain the most qualified attorneys in compliance with Freddie Mac requirements to assist with processing Freddie Mac Default Legal Matters without regard to arrangements that could provide a financial or personal benefit directly or indirectly to the Servicer, its employees, outsource companies or third-party vendors utilized by the Servicer to assist in Servicing defaulted Mortgages.

On the Servicer Selection Form, the Servicer must disclose to Freddie Mac any current, past (within the last five years), or pending personal and/or financial relationships between (i) the Servicer and the firm, including its partners and shareholders (as applicable) and (ii) the firm, including its partners and shareholders (as applicable), and any outsourcing company or other third-party vendor utilized by the Servicer to assist in Servicing defaulted Mortgages.

(z) Disclosure of third-party service providers

The Servicer must require the firm to disclose the identity of, and relationship with, any entities the firm relies upon to provide third-party support functions performed on the Servicer's behalf, including, but not limited to, title searches, title insurance, posting, publication, and process services.

The Servicer must also require the firm to disclose whether the firm has a process to select and regularly review costs and performance of vendors of related sources to ensure competitive pricing and high quality.

(aa) Referrals

The Servicer is responsible for ensuring that the firm complies with Freddie Mac requirements and applicable laws regarding referrals and payment of related fees and benefits, as further described in Sections 9501.7 and 9501.8.

The Servicer must not require the firm to use vendors, outsource companies or other third-parties specified by the Servicer as a condition of receiving a referral of a Freddie Mac Default Legal Matter.

(bb) Diversity data

The Servicer must confirm that the firm has the capability to report diversity data to the Servicer and Freddie Mac, if necessary.

9501.4: Selection of firm (03/02/16)

(a) Servicer selects firm

If the Servicer determines that a firm meets the Firm Minimum Requirements specified in Section 9501.3 and all other Guide requirements, then the Servicer must complete and submit a Servicer Selection Form to Freddie Mac, via

<https://www.freddiemacsats.com/Security/Login> and receive Freddie Mac's "no objection" determination before entering into an agreement with a firm to handle Freddie Mac Default Legal Matters. If Freddie Mac requests additional information from the Servicer as part of this process, the Servicer must provide the requested information within the time frame requested by Freddie Mac. Servicers may not rely upon a previous submission of a Servicer Selection Form with respect to a firm by another Servicer that received a "no objection" determination. Each Servicer must conduct its own due diligence, submit a Servicer Selection Form and receive a "no objection" determination for each firm that the Servicer wishes to retain to handle Freddie Mac Default Legal Matters.

If a firm practices in multiple States, the Servicer must submit a Servicer Selection Form for each State office for which the Servicer wishes to retain the firm.

Servicer Attorney Tracking System (SATS) registration

Servicers must use the Servicer Attorney Tracking System (SATS), an online process, to submit a Servicer Selection Form to Freddie Mac for each law firm selected to handle Freddie Mac Default Legal Matters. To establish access to SATS, Servicers must first register to create a user ID and password at

<https://www.freddiemacsats.com/Security/Login>. After completing the registration process, SATS will allow users to submit the information required in the Servicer Selection Form to Freddie Mac for review. SATS will also allow Servicers to respond to Freddie Mac's requests for additional information, as necessary, and will allow Servicers to track each submission's status during the review process.

Freddie Mac will not review any Servicer Selection Form completed and submitted to any Freddie Mac e-mail address. Servicers must complete and submit the Servicer Selection Form via <https://www.freddiemacsats.com/Security/Login>.

(b) Freddie Mac review of Servicer Selection Form

After Freddie Mac receives the Servicer Selection Form, Freddie Mac will notify the Servicer via the Servicer's registered e-mail address with SATS whether Freddie Mac:

- Objects to the Servicer's retention of the firm to handle Freddie Mac Default Legal Matters
- Has no objection to Servicer's retention of the firm to handle Freddie Mac Default Legal Matters; or
- Needs additional information or documentation, or due diligence to be conducted before deciding whether the firm may be retained. If requested, the Servicer must provide any additional information or documentation to Freddie Mac via <https://www.freddiemacsats.com/Security/Login>, and must conduct any further due diligence requested by Freddie Mac within the time period stated in Freddie Mac's request.

(c) Freddie Mac's response to Servicer firm selection

(i) Freddie Mac provides a “no objection” response

The Servicer must enter into a contract with the firm (if a contract does not already exist) as further specified in Section 9501.5, to handle Freddie Mac Default Legal Matters.

(ii) Freddie Mac provides an “objection” response

If the Servicer determines not to retain a particular firm, or if Freddie Mac objects to the retention of a particular firm, the Servicer must notify the firm that the firm cannot be hired for Freddie Mac Default Legal Matters.

(d) The Servicer decides not to retain firm

The Servicer is not obligated to inform Freddie Mac:

- If the Servicer determines that a firm does not meet the Firm Minimum Requirements; or

- If the Servicer decides not to retain a firm

(e) Diversity

Servicers are reminded that they must be aware of, and comply with, Freddie Mac's requirements in Sections 1201.10 and 1301.2. The Servicer must commit to practice the principles of equal employment opportunity and non-discrimination in all its business activities, including the retention and hiring of firms retained pursuant to this section.

9501.5: Retention of firm (03/02/16)

(a) Servicer contract with firm

If the Servicer has not already entered into a contract with a selected firm and Freddie Mac has provided a "no objection" determination, then the Servicer must enter into a contract with the firm. The Servicer must notify Freddie Mac when the contract has been executed by updating the Servicer Attorney Tracking System (SATS) via <https://www.freddiemacsats.com/Security/Login>, and must provide a copy of the contract to Freddie Mac, upon request.

(b) Freddie Mac limited retention agreement with firm

Freddie Mac will enter into a limited retention agreement that sets forth certain key retention provisions with each selected firm for each State in which the firm has received a "no objection" determination.

(c) Conflict between Servicer's contract and limited retention agreements; Servicer's respective consent

The Servicer acknowledges that the limited retention agreement recognizes and reflects a joint attorney-client relationship between the law firm, Freddie Mac and the Servicer, and the Servicer consents to such joint representation. The Servicer consents, in advance, to the selected firm's representation of Freddie Mac in any Freddie Mac Default Legal Matter that is or might be adverse to the Servicer, and further agrees that the firm can use in such representation any information the firm gained in the course of jointly representing the Servicer and Freddie Mac. In the event of any inconsistency or conflict between the terms and conditions of the Servicer's contract with the selected firm and the terms and conditions of Freddie Mac's limited retention agreement with the firm, Freddie Mac's limited retention agreement shall control.

9501.6: Training of firms (03/02/16)

(a) Training prior to referral

The Servicer must not refer any Freddie Mac Default Legal Matters to a firm until the Servicer verifies that the firm has executed a limited retention agreement with Freddie Mac and has completed Freddie Mac's new firm training.

A firm is only required to attend Freddie Mac's new firm training once, regardless of the number of Servicers that select and retain the firm.

(b) Ongoing training

The Servicer must ensure that each firm obtains appropriate training to keep the firm apprised of updated Freddie Mac requirements. If the Servicer provides its own standard training and/or other communication materials to a firm, the Servicer must include information regarding Freddie Mac's requirements.

9501.7: Referral of Freddie Mac Default Legal Matters to firm (03/02/16)

(a) Requirements prior to referral

Prior to referring a Freddie Mac Default Legal Matter to a firm, the Servicer must confirm that the firm is eligible to receive a referral by ensuring that:

- The firm meets the Firm Minimum Requirements, as specified in Section 9501.3
- Freddie Mac has provided a “no objection” determination, as specified in Section 9501.4
- The firm has executed a contract with the Servicer requiring the firm to comply with all applicable Freddie Mac requirements, as specified in Section 9501.5
- The firm has executed a limited retention agreement with Freddie Mac, as specified in Section 9501.5
- The firm has completed Freddie Mac training and any additional Servicer training, as specified in Section 9501.6; and
- There are no conflicts of interest with respect to the retention of the firm and referral of Freddie Mac Default Legal Matters to the firm

(b) Diversification of referrals

The Servicer must diversify its referrals of Freddie Mac Default Legal Matters to an appropriate number of firms in each State to protect the interests of Freddie Mac and to mitigate the risks related to a high concentration of Freddie Mac files. In selecting firms for referrals, the Servicer must consider firm capacity and management of staff to file ratios.

(c) Bankruptcy and foreclosure matters

The Servicer must not refer foreclosure matters directly to trustees listed on the deeds of trust.

Refer to Section 9401.10 for additional referral requirements.

(d) Providing documentation to firm

The Servicer must identify a file as a Freddie Mac Default Legal Matter when sending the file to a firm. When referring a file to a firm, the Servicer must provide all documentation required to initiate a foreclosure. If the firm requests any additional information and/or documentation at any time, the Servicer must provide such requested information and/or documents within three Business Days after receipt of the request, or within such earlier time frame if necessary to comply with timing requirements under applicable law or court orders and procedures.

For any Mortgage that the Servicer refers for foreclosure that is subsequently repurchased by the Servicer, whether voluntarily or involuntarily, the Servicer must notify foreclosure and/or bankruptcy counsel within two Business Days of the completed repurchase. (See Chapter 3602 for additional information about repurchases.)

(e) Contingency plan

All Servicers must have a contingency plan in place, either in the form of a stand-alone document or incorporated into policies and procedures, to redirect new foreclosure and bankruptcy referrals.

9501.8: Prohibitions related to Freddie Mac Default Legal Matters (03/02/16)

Servicers must not require the firm to perform any foreclosure or bankruptcy-related services on any Freddie Mac Default Legal Matter without compensation.

(a) Prohibition against charging for, contracting for, or making arrangements to receive benefits for Servicing obligations

A Servicer, whether acting directly or through an affiliate, service provider, vendor or outsourcing company, must not directly or indirectly:

- Charge Freddie Mac or the firm for any foreclosure or bankruptcy-related Servicing obligations, including expenses covered by the Servicing Spread; or
- Contract or make any arrangements with the firm whereby the Servicer (or its affiliate, service provider, vendor or outsourcing company) receives, directly or indirectly, any financial or other benefits (including, but not limited to, payments, the provision of employees or free or discounted services or products) from the firm in connection with any Freddie Mac Default Legal Matter or Freddie Mac-owned or guaranteed Mortgage

Refer to Section 8103.3 for additional information on Servicing obligations.

(b) Prohibitions with respect to use of specific vendors, services and/or products

The Servicer, and not a service provider, vendor or outsourcing company assisting the Servicer in Servicing defaulted Mortgages, must select the firm to handle Freddie Mac Default Legal Matters, and Servicers must not permit service providers, vendors, outsourcing companies, or others to participate in or influence, in any way, the Servicer's referral process.

A Servicer must not, whether acting directly or through an affiliate, service provider, vendor or outsourcing company:

- Require the firm to contract with or use a particular service provider, vendor or outsourcing company, or to use, or pay for, a particular service or product
- Refuse to refer a file to the firm because the firm chooses not to contract with or use a particular service provider, vendor or outsourcing company, or chooses not to use, or pay for, a particular service or product; or
- Charge the firm for any aspect of the file referral or management process, including, but not limited to, the use of connectivity or invoice processing systems (e.g., licensing or subscription fees, "click" charges, or any other payment) in order for the firm to provide services necessary to handle Freddie Mac Default Legal Matters (e.g., to prosecute the foreclosure or bankruptcy case)

However, a Servicer may require the firm to use certain connectivity or invoice processing systems, provided that the firm is not required to pay for the use of, or access to, such systems.

Refer to Section 9501.9 for information about use of, and reimbursement for, connectivity and invoice processing systems.

9501.9: Servicer use of connectivity and invoice processing system (03/02/16)

A Servicer, whether acting directly or through any vendor, service provider or outsourcing company, may employ electronic monitoring, management, reporting or information and document delivery processes technology, referred to in this section as a “Connectivity System,” and an invoice processing system as outlined below.

(a) Connectivity System

A Servicer may employ a Connectivity System to assist with fulfilling Servicing obligations such as:

- Packaging and referring foreclosure and bankruptcy cases to the firm
- Communicating information and delivering documents between the Servicer and the firm as well as any other third parties requiring access to the Connectivity System; and
- Managing and monitoring foreclosure and bankruptcy cases

If a Servicer uses a Connectivity System:

- Freddie Mac will reimburse the Servicer for the actual cost of the connectivity fee up to the maximum expense limit specified in Section 9701.11
- The Servicer must provide the firm with use of and access to the identical Connectivity System
- The Servicer must permit, or continue to permit, the firm to integrate its own technology systems with the Connectivity System at no cost to the firm; and
- The Servicer must not pass on any Connectivity System related charges to the Borrower or the firm

(b) Invoice processing system

A Servicer may employ an invoice processing system for managing the submission and payment of invoices.

If a Servicer, whether acting directly or through a vendor or outsourcing company, processes firm invoices electronically:

- Freddie Mac will reimburse the Servicer for the actual cost of the invoicing fee up to the maximum expense limits specified in Section 9701.11; and

- The Servicer must not pass on any invoice processing related charges to the Borrower or the firm

The amounts specified in Section 9701.11 for connectivity and invoice processing systems are the maximum amounts for which a Servicer may seek reimbursement for the life of the default (i.e., the duration of the foreclosure, including any Freddie Mac Default Legal Matter such as bankruptcy).

For example, if a Servicer has already referred a Mortgage to foreclosure and it then becomes necessary to take action with respect to a bankruptcy related to such Mortgage, or if a Servicer has already referred a file for bankruptcy and foreclosure has commenced following the bankruptcy referral, the Servicer may be reimbursed only for one connectivity fee. Likewise in this scenario, if the Servicer is using an invoice processing system, then the Servicer may only seek reimbursement for one invoicing fee associated with the foreclosure and for one invoicing fee associated with the bankruptcy during the life of the default.

9501.10: Servicer reporting on Freddie Mac Default Legal Matters (06/29/16)

The Servicer must provide reports related to firm performance, management of foreclosure and bankruptcy processes, oversight of firm compliance and performance and other related matters as required by Freddie Mac. Servicers must ensure that all firms retained for Freddie Mac Default Legal Matters report data required by Freddie Mac directly to Freddie Mac accurately and in the time frames prescribed. This includes required daily reporting by its retained law firms, via the Attorney Data Reporting (ADR) System, of key metrics such as:

- Milestones during the lifecycle of Freddie Mac Default Legal Matters
- Delays affecting prompt and efficient completion of the Freddie Mac Default Legal Matter
- Successful loss mitigation activities
- Litigation detail during the lifecycle of certain non-routine litigation matters
- Completion of the Freddie Mac Default Legal Matter

Key metrics generally must be reported to Freddie Mac within 24 hours of occurrence, unless otherwise prescribed in related training materials for the web-based attorney reporting system. Servicers may obtain access to ADR, and monitor their law firms' reporting progress, by completing the **ADR Servicer Access Request Form** available on the Freddie Mac Default-Related Legal Services web page at <https://sf.freddiemac.com/working-with-us/servicing/default-related-legal-services>.

If a Servicer has further questions regarding ADR access, they may contact Freddie Mac at Foreclosures@FreddieMac.com.

9501.11: Servicer monitoring and management of firm (03/02/16)

The Servicer is responsible for managing and monitoring all aspects of the firm performance, providing necessary assistance to the firm relating to Freddie Mac Default Legal Matters, and for undertaking all activities required to protect Freddie Mac's interest in the Mortgage. The Servicer must also ensure that the firm is in compliance with applicable Freddie Mac requirements, and that the firm receives all training and documentation relating to applicable Freddie Mac requirements, either separately or as part of the Servicer's standard training.

(a) Compliance processes

The Servicer must develop and have in place policies and procedures regarding oversight and compliance of firms handling Freddie Mac Default Legal Matters. The Servicer must have policies and procedures reasonably designed to ensure that firms handling Freddie Mac Default Legal Matters are in compliance with the limited retention agreement, the applicable provisions of the Guide, and applicable law.

The Servicer's ongoing compliance monitoring must address the following minimum elements:

- Ongoing eligibility under the Firm Minimum Requirements specified in Section 9501.3
- Compliance with the limited retention agreement, including the fee and cost guidelines; and
- Firm performance and processes necessary to ensure Servicer's compliance with applicable Guide requirements

The Servicer must conduct periodic compliance reviews and training as appropriate. In determining the frequency of firm compliance reviews, the Servicer must consider the overall risk posed to Freddie Mac by the firm (legal, reputational, and financial), firm file volume, performance, any changes in staffing ratios or levels, any litigation against the firm alleging systemic issues, any media coverage regarding the firm and the prior results of any firm compliance reviews.

(b) Freddie Mac review of compliance process

Freddie Mac reserves the right to review the Servicer's compliance process. Freddie Mac may require Servicers to conduct additional compliance activities related to firms handling Freddie Mac Default Legal Matters, such as additional firm compliance reviews.

The Servicer must make available to Freddie Mac upon request the materials relating to its performance and compliance monitoring of firms handling Freddie Mac Default Legal Matters, including:

- Information regarding the scope and methodology of the Servicer's compliance monitoring
- The schedule of firm compliance reviews conducted
- The identity of any vendors used in the firm compliance reviews
- All documentation from the firm compliance reviews; and
- All findings, reports or remediation plans resulting from the firm compliance reviews

In addition, Freddie Mac may require a Servicer to change the scope of its compliance process used to monitor firms handling Freddie Mac Mortgages.

(c) Freddie Mac right to audit firm

Freddie Mac also reserves the right to directly conduct firm audits and firm on-site visits as Freddie Mac deems necessary. Freddie Mac audits and visits may focus on items such as fee and cost compliance, Servicer compliance with Freddie Mac requirements, and high-risk issues, including compliance with applicable laws, reputational risk, unsatisfactory results of Servicer firm compliance reviews and conflicts of interest involving Freddie Mac-owned or guaranteed Mortgages.

9501.12: Escalation of firm issues to Freddie Mac (03/02/16)

(a) Escalation of issues

The Servicer must notify Freddie Mac via e-mail (**see Directory 1**), within two Business Days of discovery or sooner if circumstances warrant, if the Servicer becomes aware of any issues or concerns relating to a firm (including a specific employee or vendor of a firm), or a Freddie Mac Default Legal Matter, including, but not limited to:

1. Any information regarding a firm that may warrant a firm's suspension, termination or Servicer request to transfer Freddie Mac Default Legal Matters to another firm
2. Information suggesting legal or reputational risk posed by the firm such as bar complaints, sanctions, or litigation alleging systemic issues with the firm, firm attorney, or the firm's practices

3. Security incidents that compromise the security, confidentiality or integrity of “sensitive customer information” and that security incident is related to Freddie Mac-owned or guaranteed Mortgages (refer to Section 1301.2(f))
4. Actual or alleged fraud on the part of the firm
5. Federal, State, or local governmental inquiries, including congressional inquiries, regarding a firm, Freddie Mac-owned or guaranteed Mortgages, or Freddie Mac or Servicer practices affecting Freddie Mac-owned or guaranteed Mortgages
6. Non-routine litigation (as described in Section 9402.2)
7. Media inquiries relating to Freddie Mac, a firm, or Freddie Mac-owned or guaranteed Mortgages
8. Volume or capacity issues with the firm
9. Breach of the limited retention agreement between the firm and Freddie Mac, or the contract between the firm and the Servicer
10. Legal matters such as regulatory updates and specific reporting on certain matters (e.g., transfer tax matters)
11. Any systemic issues with the firm
12. Systemic Servicer issues related to file suspensions and foreclosure holds (e.g., failure to properly implement new statutory changes); and
13. Any material change in the ownership, partnership, or organization of the firm after executing the limited retention agreement. Such notifications should include instances where a named partner leaves the firm or a major practice group separates from the firm.

(b) Procedures relating to issues and concerns

When a Servicer provides Freddie Mac notice of an issue requiring Freddie Mac’s attention, the Servicer must designate in its e-mail one or more points of contact. Freddie Mac may request that the Servicer obtain additional information from the firm regarding the issue that was escalated to Freddie Mac, and the Servicer must promptly provide the requested information to Freddie Mac.

(c) Freddie Mac rights

Freddie Mac reserves the right to issue direction to Servicers and firms regarding escalated issues. Refer to Section 9501.15 for more information about Freddie Mac’s reservation of rights

(d) Escalated issue – confidential information

Any issue that is identified and escalated to or by Freddie Mac pursuant to this section (other than non-routine litigation) is considered to be “confidential information” as defined in Sections 1201.8 and 8101.8. The Servicer must comply with the requirements of such sections with respect to treatment of any escalated issue.

9501.13: File transfers, termination and suspension of firms (05/18/16)

(a) Servicer-directed suspension of referrals, Freddie Mac Default Legal Matter transfers and terminations

If a Servicer becomes aware of information regarding a firm’s handling Freddie Mac Default Legal Matters that might warrant a suspension of referrals of new Freddie Mac Default Legal Matters, the transfer of Freddie Mac Default Legal Matters to another firm, and/or termination of the firm (such as for legal, reputational, or operational risk), the Servicer must:

- Notify Freddie Mac within two Business Days via e-mail or sooner if circumstances warrant, as set forth in Section 9501.12; and
- Conduct due diligence with respect to the issue

If the Servicer intends to suspend referrals of new Freddie Mac Default Legal Matters, transfer Freddie Mac Default Legal Matters, and/or terminate a firm, the Servicer must provide Freddie Mac with at least five Business Days’ notice (**see Directory 1**) prior to implementing the decision. Additionally, the notification must provide Freddie Mac with the implementation plan for the course of action chosen by the Servicer, pursuant to Section 9501.14.

For the transfer of Freddie Mac Default Legal Matters, once a Servicer has determined the eligible law firm(s) that will receive such file transfers, the following must also be included in the notification to Freddie Mac:

- Servicer name and the six-digit Seller/Servicer number
- The nine-digit Freddie Mac loan number
- Servicer loan number
- Date of transfer
- Original law firm name

- New law firm name
- Freddie Mac Default Legal Matter being transferred (e.g., foreclosure, bankruptcy proof of claim (POC) or bankruptcy motion for relief (MFR)) to the new law firm
- The State in which the Mortgaged Premises is located

In addition, the Servicer must:

- Upon request, provide Freddie Mac with the reason for the decision and the due diligence materials or other information supporting the decision
- Inform the firm of the decision; and
- Keep Freddie Mac periodically updated with respect to the status of implementation of the decision

Refer to Section 9501.14 for additional information relating to implementation of terminations, transfer of Freddie Mac Default Legal Matters and suspensions.

(b) Freddie Mac-directed suspension of referrals, matter transfers and terminations

Freddie Mac may direct the Servicer to initiate an investigation of a firm if Freddie Mac becomes aware of information that might warrant a suspension of referrals of new Freddie Mac Default Legal Matters, the transfer of Freddie Mac Default Legal Matters, or termination of the firm. Freddie Mac also may conduct due diligence and investigations as necessary. Freddie Mac may instruct Servicers to suspend some or all referrals of new Freddie Mac Default Legal Matters, to transfer some or all existing Freddie Mac Default Legal Matters, or to terminate a firm.

In the event of a decision by Freddie Mac to suspend referrals of new Freddie Mac Default Legal Matters, transfer Freddie Mac Default Legal Matters, or terminate a firm, Freddie Mac will:

- Inform the Servicer of the decision and provide direction with respect to required Servicer actions, including direction with respect to transfers of Freddie Mac Default Legal Matters
- Inform the firm of the decision and provide direction to the firm with respect to required firm actions; and
- Terminate the limited retention agreement between Freddie Mac and the firm, as appropriate

(c) Documentation of due diligence review

The Servicer must maintain documentation of the due diligence review, the Servicer's decision, and all other information supporting the decision for a period of seven years after such decision.

9501.14: Implementing file transfers and/or the termination and suspension of firms (03/02/16)

(a) Implementation plan

Prior to implementing any decision to terminate a contract with a firm, suspend referrals of new Freddie Mac Default Legal Matters and/or transfer Freddie Mac Default Legal Matters from a firm, the Servicer must develop an implementation plan which addresses:

- File transfers
- The capacity of other eligible firms in the State to handle additional Freddie Mac Default Legal Matters and/or transferred Freddie Mac Default Legal Matters
- Proration of fees and costs between the transferor and transferee firms
- Contract provisions during any transition period, including insurance; and
- Other issues as necessary

The implementation plan must take into account any legal, operational or reputational risks that may arise during the transition period, and must address these risks in the most cost-efficient and effective manner. Freddie Mac reserves the right to require the modification of the implementation plan, and provide additional Servicer requirements relating to the termination of any firm, the suspension of referrals of new Freddie Mac Default Legal Matters and the transfer of Freddie Mac Default Legal Matters.

(b) Servicer monitoring of implementation plan

The Servicer must take all necessary steps to ensure that the implementation plan proceeds in an orderly manner and that all Freddie Mac interests are protected during the implementation. Such steps include, but are not limited to:

- Transferring files relating to Freddie Mac Default Legal Matters to eligible firms
- Addressing any issues arising from the transfer of files, the suspension of referrals and the termination of a firm

- Reporting periodically to Freddie Mac on the status of the plan, including such details as how many files are transferred to each new firm, which new firms receive the files and the timing of transfers; and
- Such other details as requested by Freddie Mac

Servicers may not charge Freddie Mac or Borrowers for any fees or costs associated with transferring Freddie Mac Default Legal Matters, and such amounts may not be added to Borrower Mortgage balances.

(c) Freddie Mac's rights to manage termination, suspension and/or file transfers

Freddie Mac may decide, in its sole discretion, that the legal, operational or reputational risks necessitate Freddie Mac's management of the:

- Termination of any firm with respect to its handling of Freddie Mac Default Legal Matters
- Suspension of referrals of Freddie Mac Default Legal Matters to a firm; and/or
- Transfers of files relating to Freddie Mac Default Legal Matters

In such case, the Servicer must cooperate with Freddie Mac in such management and provide all necessary documentation, files and information as requested by Freddie Mac.

9501.15: Reservation of rights and remedies for non-compliance concerning litigation (03/02/16)

Freddie Mac reserves the right to direct and control all litigation involving a Freddie Mac loan. The Servicer and firm handling the litigation must cooperate fully with Freddie Mac in the prosecution, defense or handling of the matter.

In addition, Freddie Mac reserves the right to:

1. Select the foreclosure counsel for a particular case, whether the case is routine or non-routine litigation
2. Direct and manage the actions taken by the foreclosure counsel, on a case-by-case or individual State basis
3. Assess additional compensatory fees against the Servicer and/or seek repayment of losses, costs or damages from the Servicer sustained due to errors, omissions or delays by the Servicer or its agent; and

4. Direct and manage the actions taken by Servicers and firms relating to escalated issues specified in Section 9501.12

Remedies for non-compliance

If a Servicer fails to comply with the provisions under Chapter 9501, Freddie Mac, in its sole discretion, and in addition to any other remedies specified in the Guide or the Servicer's other Purchase Documents, reserves the right to:

- Refuse to reimburse the Servicer for any legal fees and costs
- Offset the entire legal fee from future foreclosure expenses otherwise eligible for reimbursement from Freddie Mac or seek the Servicer's reimbursement of the entire legal fee with interest, if Freddie Mac has already reimbursed the Servicer for the costs involved in the particular foreclosure or bankruptcy
- Require the Servicer to reimburse the firm or Freddie Mac for any prohibited payments or other financial benefits
- Prohibit the Servicer from contracting, directly or through any service provider, vendor or outsourcing company, with a firm with respect to products or services ancillary to a foreclosure or bankruptcy case
- Prohibit the Servicer from contracting with the service provider, vendor or outsourcing company involved in the prohibited activities with respect to Freddie Mac-owned or guaranteed Mortgages
- Seek Servicer repayment of losses, costs or damages sustained by Freddie Mac due to errors by the Servicer or its agent; and/or require repurchase of impacted Mortgage

Chapter 9502: Retention of Counsel for Freddie Mac Default Legal Matters Referred Prior to August 1, 2013

9502.1: Retention of counsel for Freddie Mac Default Legal Matters referred prior to August 1, 2013 (03/02/16)

If a Freddie Mac Default Legal Matter is referred to a law firm prior to August 1, 2013, the Servicer must comply with the requirements relating to the selection and retention of counsel as set forth in this chapter rather than the requirements of Chapter 9501. However, Servicers must comply with the requirements in Chapter 9501 related to the monitoring and management of a law firm, reporting, escalation of issues and termination and suspension of law firms for matters referred to counsel on or after June 1, 2013.

9502.2: Litigation counsel eligibility criteria for Freddie Mac Default Legal Matters referred prior to August 1, 2013 (03/02/16)

Having a single law firm handle a Mortgage from foreclosure through eviction, including bankruptcy, increases efficiency and effectiveness by eliminating learning curve problems and delays caused by hand-offs and duplicative title work. Therefore, Servicers are required to ensure that counsel retained for Freddie Mac's Mortgage foreclosures, evictions, deeds-in-lieu of foreclosure and bankruptcies meet the following criteria:

- The law firm retained as litigation counsel must have expertise in all four of the following areas: residential foreclosures, deeds-in-lieu of foreclosure, evictions and secured creditor representation in bankruptcy cases. For foreclosures or evictions on 2- to 4-unit properties, the law firm must also have experience in handling litigation matters on income-producing properties, including appointing receivers and enforcing assignment of rents.
- The attorneys at the law firm who are actually handling Freddie Mac's cases must have a minimum of three years' experience in their particular areas of expertise. For example, an attorney handling a bankruptcy case must have at least three years' experience representing secured creditors in bankruptcy cases. In the event that the attorney handling a matter for Freddie Mac is unavailable, the firm must have an attorney with similar relevant experience who can substitute for the absent attorney without causing a delay.

In addition, when selecting a law firm to handle foreclosures and bankruptcies, Servicers should consider the reputation of the firm as well as whether the firm's attorneys, principals, or managers are, or have been, subject to:

- Disciplinary action by any regulatory authority
- Sanctions imposed by a court or licensing authority
- Legal action by any governmental or regulatory authority resulting from the firm's involvement in single-family loan-level foreclosure, bankruptcy, eviction or property closing activities
- Legal action by consumers resulting from the firm's involvement in single-family loan-level foreclosure, bankruptcy, eviction or property closing activities

Refer to Sections 9401.6 through 9401.10 regarding when to refer a bankruptcy case to counsel and our requirements for bankruptcy counsel and Sections 9402.1 through 9402.3 regarding litigation.

9502.3: How to select foreclosure counsel for Freddie Mac Default Legal Matters referred prior to August 1, 2013 (03/02/16)

The Servicer is responsible for selecting counsel, and its selection decisions must not be influenced by inappropriate considerations. Refer to Section 9502.6 for additional information on prohibitions relating to foreclosure and bankruptcy referrals.

When making foreclosure and bankruptcy referrals, the Servicer must ensure that it is diversifying referrals by engaging in a relationship with at least two law firms in higher-volume States (States in which the Servicer has 250 or more Freddie Mac foreclosure and bankruptcy referrals in a calendar year).

In higher-volume States, the Servicer must take one of the following approaches to diversifying foreclosure and bankruptcy referrals:

1. The Servicer must make foreclosure and bankruptcy referrals on Mortgages it services on behalf of Freddie Mac to at least two law firms, ensuring that at least a substantial minority of the referrals are made to the law firm that receives the fewest referrals; or
2. The Servicer must make foreclosure and bankruptcy referrals to at least two law firms, with respect to its entire Servicing portfolio, ensuring that at least a substantial minority of the referrals are made to the law firm that receives the fewest referrals

In addition, all Servicers must have a contingency plan in place, either in the form of a stand-alone document or incorporated into policies and procedures, to redirect new foreclosure and bankruptcy referrals in the event a law firm the Servicer is using is no longer able to accept new referrals.

The Servicer must use the same entity that it retains to represent it in a bankruptcy action on a Mortgage to process the foreclosure.

The foreclosure counsel must be free from any conflict of interest with the Borrower.

The foreclosure counsel the Servicer chooses must meet the eligibility requirements in Section 9502.2.

When selecting the foreclosure counsel, the Servicer must base the selection on the prior performance of the foreclosure counsel in the following areas:

1. Completing foreclosures
2. Delivering clear and marketable title to Freddie Mac
3. Facilitating reinstatements and workouts with Borrowers
4. Resolving litigation delays (foreclosure counsel only)

The Servicer must communicate Freddie Mac's State foreclosure time line expectations and Freddie Mac's allowable fee schedule to the foreclosure counsel whom the Servicer selects. The Servicer must also communicate to the counsel that if they pay the Servicer or its vendor, either directly or indirectly, for any of the Servicing obligations covered by the Servicing Spread or any expenses itemized in Section 9701.15, Freddie Mac may preclude the counsel who pays any such expenses on Freddie Mac Mortgages from processing future foreclosures or bankruptcies for Freddie Mac.

9502.4: Selecting bankruptcy counsel for Freddie Mac Default Legal Matters referred prior to August 1, 2013 (09/27/21)

The Servicer must diversify foreclosure and bankruptcy referrals in higher-volume States (States in which the Servicer has 250 or more Freddie Mac foreclosure and bankruptcy referrals in a calendar year). In addition, the Servicer must have a contingency plan to redirect new foreclosure and bankruptcy referrals in the event a law firm that the Servicer is using is no longer able to accept new referrals (see Section 9502.3).

Bankruptcy counsel must be free from any conflict of interest with the Borrower.

Servicers must use the same entity retained in a foreclosure action on a Mortgage to represent the Servicer in a subsequent bankruptcy. Likewise, if at the dismissal or completion of the bankruptcy the Mortgage progresses to foreclosure, the Servicer must use the same law firm to handle the foreclosure as it used for the bankruptcy.

If the Servicer does not use the same entity representing the Servicer in a foreclosure action to represent it in a subsequent bankruptcy, Freddie Mac may, in its sole discretion, elect not to reimburse the Servicer. See Chapter 9701 for more details on reimbursement for bankruptcy costs and fees.

If a Servicer determines that special circumstances exist that require case management by counsel on a current Mortgage, then the Servicer must obtain Freddie Mac's prior written approval to obtain counsel in accordance with the requirements in Section 9502.2 and incur the legal expense by submitting a request for pre-approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

9502.5: Foreclosure time line compensatory fee protection for use of designated counsel when required for Freddie Mac Default Legal Matters referred prior to August 1, 2013 (03/02/16)

For Mortgages referred to foreclosure prior to October 1, 2011:

The Servicer will not be subject to compensatory fees for a foreclosure and/or bankruptcy handled by a designated counsel that is not completed within Freddie Mac's required time lines, as long as the delay was not caused by the Servicer's failure to refer the Mortgage to foreclosure in accordance with the Guide requirements and/or send all of the documentation, information, signatures and/or funds to the designated counsel as required.

If the Servicer elects to use Freddie Mac's designated counsel, and the Servicer does not use that same designated counsel for both foreclosure and bankruptcy, Freddie Mac will not give the Servicer credit for using designated counsel for purposes of foreclosure time line compensatory fee protection.

9502.6: Prohibitions relating to foreclosure and bankruptcy referrals for Freddie Mac Default Legal

Matters referred prior to August 1, 2013 and Freddie Mac remedies for non-compliance (03/02/16)

Freddie Mac requires that all foreclosure and bankruptcy-related Servicing obligations, and all services and products purchased in connection with such Servicing obligations, be done in the most effective, efficient and cost-conscious manner. Servicers must not require the law firm to perform any foreclosure or bankruptcy-related services on any Freddie Mac Legal Matter without compensation.

(a) Prohibition against charging for, contracting for, or making arrangements to receive benefits for Servicing obligations

A Servicer, whether acting directly or through an affiliate, service provider, vendor or outsourcing company, must not directly or indirectly:

- Charge Freddie Mac, the counsel for any foreclosure or bankruptcy-related Servicing obligations, including expenses covered by the Servicing Spread; or
- Contract or make any arrangements with counsel whereby the Servicer (or its affiliate, service provider, vendor or outsourcing company) receives, directly or indirectly, any financial or other benefits (including, but not limited to, payments, the provision of employees, or free or discounted services or products) from the counsel in connection with any Freddie Mac Mortgage

Refer to Section 8105.3 for additional information on Servicing obligations.

(b) Prohibition against Servicers requiring firms to use specific vendors, services and/or products

A Servicer must not, whether acting directly or through an affiliate, service provider, vendor or outsourcing company:

- Require counsel to contract with or use a particular service provider, vendor or outsourcing company, or to use, or pay for, a particular service or product;
- Refuse to refer a file to counsel because the attorney chooses not to contract with or use a particular service provider, vendor or outsourcing company, or chooses not to use, or pay for, a particular service or product; or
- Charge counsel for any aspect of the file referral or management process, including, but not limited to, the use of connectivity or invoice processing systems (e.g., licensing or subscription fees, "click" charges, or any other payment) in order for an attorney to provide services necessary to prosecute the foreclosure or bankruptcy case

However, a Servicer may require counsel to use certain connectivity or invoice processing systems provided that the attorney is not required to pay for the use of, or access to, such systems.

(c) Prohibition against service providers, vendors, outsourcing companies or others influencing selection of foreclosure counsel

The Servicer, and not a service provider, vendor or outsourcing company assisting the Servicer in Servicing defaulted Mortgages, must select counsel to work on Freddie Mac Mortgages, and Servicers must not permit service providers, vendors, outsourcing companies, or others to participate in or influence, in any way, the Servicer's selection process.

(d) Remedies for non-compliance

If a Servicer fails to comply with the provisions of Section 9502.6(a), (b), or (c) above, Freddie Mac may, in its sole discretion and in addition to any other remedies specified in the Guide or the Servicer's other Purchase Documents:

- Refuse to reimburse the Servicer for any counsel fees and costs;
- Offset the entire legal fee from future foreclosure expenses or seek reimbursement of the entire legal fee with interest, if Freddie Mac has already reimbursed the Servicer for the costs involved in the particular foreclosure or bankruptcy;
- Require the Servicer to reimburse the counsel or Freddie Mac for any prohibited payments or other financial benefits;
- Prohibit the Servicer from contracting, directly or through any service provider, vendor or outsourcing company, with counsel with respect to products or services ancillary to a foreclosure or bankruptcy case; and/or
- Prohibit the Servicer from contracting with the service provider, vendor or outsourcing company involved in the prohibited activities with respect to Freddie Mac Mortgages

9502.7: Providing information to the foreclosure counsel and Servicer use of connectivity and invoice processing systems for Freddie Mac Default Legal Matters referred prior to August 1, 2013 (03/02/16)

(a) Responsibility to provide information to foreclosure counsel

For any Mortgage that the Servicer refers for foreclosure, the Servicer must provide complete written reinstatement or payoff figures to the counsel workout specialist, or outsourcing vendor requesting the information. This information must be provided within two Business Days of the date on which a written request is received. The Servicer may provide the written reinstatement or payoff figures via a paper document, facsimile or e-mail.

If the foreclosure counsel requests additional documentation from the Servicer (such as certificates of judgment or proofs of claim) while a case is pending, the Servicer must provide the additional documentation within two Business Days of receiving the request.

For any Mortgage that the Servicer refers for foreclosure, but the Mortgage is subsequently repurchased by the Servicer, whether voluntarily or involuntarily, the Servicer must notify foreclosure and/or bankruptcy counsel within two Business Days of the completed repurchase. (See Chapter 3602 for additional information about repurchases.)

(b) Connectivity and invoice processing systems

A Servicer, whether acting directly or through any vendor, service provider or outsourcing company, may employ electronic monitoring, management, reporting or information and document delivery processes technology, referred to here as a “Connectivity System,” and an invoice processing system as outlined below.

i) Connectivity System

A Servicer may employ a Connectivity System to assist with fulfilling Servicing obligations such as:

- Packaging and referring foreclosure and bankruptcy cases to counsel;
- Communicating information and delivering documents between the Servicer and its counsel as well as any other third parties requiring access to the Connectivity System; and
- Managing and monitoring foreclosure and bankruptcy cases

If a Servicer uses a Connectivity System:

- Freddie Mac will reimburse a Servicer for the actual cost of the connectivity fee up to the maximum expense limit specified in Section 9701.11;
- The Servicer must provide all attorneys the use of and access to the identical Connectivity System;
- The Servicer must permit, or continue to permit, counsel to integrate their own technology systems with the Connectivity System at no cost to the counsel; and

- The Servicer must not pass on any Connectivity System related charges to the Borrower or the counsel

ii) Invoice processing system

A Servicer may employ an invoice processing system for managing the submission and payment of invoices.

If a Servicer, whether acting directly or through a vendor or outsourcing company, processes counsel invoices electronically:

- Freddie Mac will reimburse the Servicer for the actual cost of the invoicing fee up to the maximum expense limits specified in Section 9701.11; and
- The Servicer must not pass on any invoice processing related charges to the Borrower or the counsel

The amounts specified in Section 9701.11 for connectivity and invoice processing systems are the maximum amounts for which a Servicer may seek reimbursement for the life of the default (i.e., the duration of the foreclosure, including any related bankruptcy referral).

For example, if a Servicer has already referred a file to foreclosure and it then becomes necessary to take action with respect to a bankruptcy related to such Mortgage, or if a Servicer has already referred a file for bankruptcy and foreclosure has commenced following the bankruptcy referral, the Servicer may be reimbursed only for one connectivity fee. Likewise in this scenario, if the Servicer is using an invoice processing system, then the Servicer may only seek reimbursement for one invoicing fee associated with the foreclosure and for one invoicing fee associated with the bankruptcy during the life of the default.

Chapter 9601: Deficiency Recovery

9601.1: Working with vendors to collect deficiencies (07/13/16)

Freddie Mac may use vendors to assist in the collection of deficiencies. The Servicer must assist such vendors to obtain any necessary case file documentation upon the vendor's request. This would include data reporting or case file documentation that firms, selected and retained by the Servicer to handle Freddie Mac Default Legal Matters, may have obtained in the course of handling a particular case. At the time the vendor requests documentation for this purpose, as part of the request, the vendor will provide a letter of authorization from Freddie Mac to obtain such information.

The Servicer may only execute deficiency assignment documents that transfer deficiency rights from the Servicer to Freddie Mac when requested by an MI or third-party vendor. Refer to Section 9601.2 for requirements on assigning deficiency rights.

9601.2: Assigning deficiency rights after the foreclosure sale (03/02/16)

If the Mortgage has mortgage insurance and is not covered by any other credit enhancement, the Servicer must not execute any assignment of the right to pursue a deficiency or assignment of a deficiency judgment to an MI or a third party. These documents must be sent directly to Freddie Mac (see **Directory 5**). Freddie Mac will coordinate the execution of these assignment documents.

The Servicer may execute deficiency assignment documents that transfer deficiency rights from the Servicer to Freddie Mac when requested by an MI or third-party vendor.

For all other issues related to assigning deficiency rights after foreclosure sale, Servicers should direct their questions to Freddie Mac (see **Directory 5**).

9601.3: Charging off the deficiency (12/09/19)

The amount that Freddie Mac has determined to be charged off will be reflected on the Draft Report. The Servicer must review the Draft Report and report any discrepancies between its records and the amount on the Draft Report to Freddie Mac via the Freddie Mac Servicing Data Corrections tool (see Exhibit 88, Servicing Tools) within 30 calendar days following Freddie Mac's posting of the amount to the Draft Report. Servicers may access the Draft Report through the Freddie Mac Cash Manager tool (see Exhibit 88).

When reporting a discrepancy, Servicers must input the calculation used to determine the variance and upload any documentation to support the request in the Servicing Data Corrections tool.

Freddie Mac will process, at its discretion, discrepancies that are submitted more than 60 calendar days after the initial adjustment is posted to the Draft Report. Such discrepancies may be subject to a contract noncompliance and contract change compensatory fee (see Section 8303.43). If the post-settlement correction request is denied, the Servicer may be liable for any additional losses.

Chapter 9602: Post-Sale Reporting to Other Entities

9602.1: Servicer reporting of foreclosure sales to credit repositories (03/02/16)

The Servicer must report all foreclosure sales to the credit repositories listed in Exhibit 51, Credit Repositories and Information to Report, according to the requirements in Section 8106.6.

9602.2: Servicer reporting to the IRS (03/02/16)

The Servicer must report the acquisition or abandonment of the property to the Internal Revenue Service (IRS) according to the requirements in Section 8106.3 on IRS Form 1099-A, Acquisition or Abandonment of Secured Property.

In the event that deficiency rights were not preserved during the foreclosure process as may be allowed under Section 9301.23, the Servicer must also report the cancellation of debt to the IRS according to the requirements in Section 8106.4 on IRS Form 1099-C, Cancellation of Debt.

Chapter 9603: REO

9603.1: General Servicer requirements for REO properties (05/04/20)

Once Freddie Mac has acquired a property in REO and the Servicer has successfully reported the foreclosure sale or deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting and Loan Level Reporting tools (see Exhibit 88, Servicing Tools) pursuant to Section 9603.9, the Servicer will no longer have the responsibility for the following REO activities, including for properties located in States that have a redemption, confirmation process or ratification of sale:

1. Securing, maintaining, inspecting, protecting and preserving the property
2. Making advances to superior lienholders including condominium/homeowners association (HOA) or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents
3. Evicting the occupants in the property
4. Marketing and rehabilitating the REO

Servicers are responsible for the following activities until the sale of the REO by Freddie Mac, the MI, FHA, RHS or VA:

1. Filing and concluding FHA, RHS and VA claims, if applicable. (Freddie Mac will file MI claims.)
2. Filing and concluding property insurance claims, if applicable and applying for premium refunds, in accordance with Section 9603.11. The Servicer is required to cancel any existing property insurance policies no later than 14 days after the foreclosure sale or deed-in-lieu of foreclosure has been successfully reported to Freddie Mac. Freddie Mac may instruct the Servicer to maintain property insurance (even if the property is vacant and has no claimable damage). If Freddie Mac makes this request, the Servicer must continue the insurance coverage until Freddie Mac notifies the Servicer that Freddie Mac has sold the REO.
3. Referring all inquiries and offers regarding purchase of the REO to Freddie Mac (**see Directory 6**) within one Business Day of the inquiry or offer
4. Fulfilling all requests made by Freddie Mac, including attorney selection. If the Servicer requires the assistance of an attorney in fulfilling any of the obligations set forth in this chapter, the Servicer must use an attorney who meets the criteria in Section 9501.3.
5. Taking such action that Freddie Mac may request regarding a property

Servicers may review the REO Overview report, accessible via the “REO” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88), for the property status. The Servicer may also call the Customer Support Contact Center at 800-FREDDIE to obtain this information. Freddie Mac will not send the Servicer a written notice of the sale of the REO.

9603.2: FHA/VA/RHS claim filing (03/02/16)

On a Mortgage that is insured by the FHA or guaranteed by the VA or RHS, the Servicer must process the claim for FHA insurance or VA or RHS guaranty benefits within the agency’s established time frames and according to the agency’s requirements to ensure that the claim recipient receives the maximum claim payment amount.

(a) FHA, VA or RHS claim filing for Mortgages subject to a recourse obligation, including indemnification

The Servicer must file the claim to ensure that payment is made directly to the Servicer. Because the Servicer is the claim recipient, the Servicer should ensure that it receives the maximum claim payment amount to apply towards any expenses incurred as Freddie Mac will not reimburse the Servicer for expenses incurred on Mortgages subject to a recourse obligation (see Section 9701.4 on Freddie Mac’s rights).

(b) FHA, VA or RHS claim filing for Mortgages not subject to a recourse obligation or indemnification

The Servicer must file the claim in Freddie Mac’s name to ensure that payment is made directly to Freddie Mac (see **Directory 6**). Because Freddie Mac is the claim recipient, the Servicer should ensure that Freddie Mac receives the claim payment, in the maximum claim payment amount, before seeking reimbursement for expenses incurred on the Mortgage.

9603.3: Primary mortgage insurance claim filing (03/02/16)

Freddie Mac will file a claim for loss with the MI if the Mortgage is covered by primary mortgage insurance and will manage the claims payment process with the MI. The Servicer must provide all information and documentation pertaining to the claim to the MI no later than 60 days after the foreclosure sale, short sale or acceptance of a deed-in-lieu of foreclosure, or within any shorter time frame as specified by the mortgage insurance master policy or by Freddie Mac.

9603.4: Offers to purchase the property with a pending mortgage insurance claim (07/15/19)

A Servicer that receives an inquiry or an offer regarding purchase of an REO property must contact its Freddie Mac REO claim specialist (**see Directory 6**) within one Business Day of receiving the inquiry or offer.

9603.5: Receipt of claim payment (03/02/16)

If the Servicer receives a claim payment intended for Freddie Mac, whether from the MI or applicable entity (see Section 9603.2 on FHA/VA/RHS claim filing and Section 9603.3 on primary mortgage insurance claim filing), the Servicer must send the funds to Freddie Mac (**see Directory 6**) within 10 Business Days after the Servicer receives them. The Servicer must also include all supporting documentation relating to the claim payment received from the MI or applicable entity, including a copy of the claim payment check.

However, if the Mortgage insured by the FHA, or guaranteed by the VA or RHS is subject to a recourse obligation, including indemnification, the Servicer does not need to send the funds to Freddie Mac.

9603.6: Reduced, suspended or denied claims (03/02/16)

If the claim payment amount is reduced, suspended or denied by the MI due to the Servicer's actions or inactions including, but not limited to, failure to comply with the Guide or applicable mortgage insurance requirements, then Freddie Mac may exercise its remedies provided by the Guide and the other Purchase Documents for the amount that is reduced, suspended or denied. Refer to Chapter 3602 regarding repurchases, repurchase alternatives and other remedies.

9603.7: Remittance of primary mortgage insurance claim payments (03/02/16)

When Freddie Mac receives the claim payment from the MI, Freddie Mac will remit any portion of the proceeds due to the Servicer, less any outstanding amounts due to Freddie Mac from the Servicer.

9603.8: Property Condition Certificate (PCC) process (07/15/19)

The Servicer may review the REO Overview report, assessible via the “REO” tile of the Servicer’s Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools), for the property status, including the Property Condition Certificate (PCC) completion date. The Servicer may also call the Customer Support Contact Center at 800-FREDDIE to obtain this information. Freddie Mac will not send the Servicer a written notice of the sale of the REO.

9603.9: Required REO documentation and reporting (05/04/20)

When reporting an REO, the Servicer must report the transaction ID of “Foreclosure” and sales result “Freddie Mac” via the Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools) no later than the Business Day immediately following the date of the foreclosure sale. Refer to Section 9301.38.

The Servicer must submit to Freddie Mac (**see Directory 6**) any information Freddie Mac requests from the Mortgage file within 15 Business Days of the date of its request. (Refer to Section 3302.3 for Freddie Mac’s record retention requirements for Mortgage files on foreclosed Mortgages.) Additionally, for a Cooperative Unit in REO, the Servicer must submit the information listed in Section 8801.6(d) if requested by Freddie Mac.

9603.10: Notifying the taxing authority/HOA of REO (10/20/21)

Within five days of successfully reporting the foreclosure sale or deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools), the Servicer must notify all organizations that require notice of Freddie Mac’s ownership of the property to ensure that statements are sent to the appropriate location. This includes, but is not limited to, the taxing authority, condominium association, municipality, homeowners association (HOA) or Cooperative Corporation (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), and any organization as required by law.

When the Servicer contacts these organizations, the Servicer must update the remitter’s name as follows:

Federal Home Loan Mortgage Corporation
c/o Radian Real Estate Management
7730 South Union Park Avenue, Suite 400
Midvale, UT 84047

Important: Freddie Mac will pay the property taxes, condominium/HOA or Cooperative Corporation assessments, Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents, as applicable, as they become due after the Servicer successfully reports the foreclosure sale or the deed-in-lieu of foreclosure. Freddie Mac may retain a vendor to conduct such activities.

There are special requirements for REO located in California. California taxing authorities reassess properties for supplemental taxes from the foreclosure sale date to the sale date of the REO. Also, taxing authorities often generate a supplemental tax statement long after the REO sale date. Therefore, the Servicer must notify the taxing authority in writing to send any supplemental tax bills to Freddie Mac at the address above within five days following the foreclosure sale or the deed-in-lieu of foreclosure date.

9603.11: Property insurance for REO (09/27/21)

The Servicer must maintain or cancel the existing property insurance policy according to the requirements in this section and Section 8202.12. Additionally, the Servicer must assist in the filing of a property insurance claim, when applicable, according to requirements in subsection 9603.11(b) below.

(a) Maintaining or canceling property insurance

The Servicer must take all actions required in the mortgage clause of all applicable property insurance policies including, but not limited to, providing all notices to the insurer required under such clause, in order to preserve the coverage and its maximum benefits for the Servicer and/or Freddie Mac, as mortgagee. The Servicer must cancel such policies within 14 days after the foreclosure sale or deed-in-lieu of foreclosure has been reported to Freddie Mac, even if there is claimable damage to the property or if the property has sold.

(b) Filing claims

A property recovery firm will handle the insurance claim filing process on Freddie Mac's behalf. The Servicer must provide that firm with the necessary information to file and process the claim within three Business Days of their request for such information.

(c) Obtaining a refund for the unearned insurance premiums

After canceling the policy, the Servicer must submit a request for the unearned portion of the insurance premium to the insurance company for any premium that the Servicer paid on behalf of the Borrower, if applicable. The Servicer must offset any refund it receives from the insurance company against expenses the Servicer requests via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

9603.12: Canceling utilities for REO (07/15/19)

Once the Servicer has successfully reported the foreclosure sale or deed-in-lieu of foreclosure to Freddie Mac, Freddie Mac or its agent/vendor will transfer the utilities to Freddie Mac. The Servicer can obtain reimbursement for any utility bills it paid that Freddie Mac approved in advance or the Servicer incurred up to the foreclosure sale or deed-in-lieu of foreclosure pursuant to the process for reimbursement of expenses in Section 9603.15.

9603.13: Condominium/HOA or Cooperative Corporation assessments, ground rents and property taxes for REO (05/04/20)

(a) REO located in a Condominium Project, Planned Unit Development or Cooperative Project, or subject to a leasehold estate

Pursuant to Section 9603.1, the Servicer is no longer responsible for paying condominium/homeowners association (HOA) or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents, as applicable, upon the successful reporting of the foreclosure sale or deed-in-lieu of foreclosure to Freddie Mac via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools).

Freddie Mac may require the Servicer in special circumstances to pay assessments after the foreclosure sale date, in order to protect Freddie Mac's interests.

(b) Reimbursement of duplicate assessments and property tax payments

In the event the Servicer has complied with the requirements of this section and the duplication of assessments and property tax payments exists, Freddie Mac will reimburse the Servicer for its portion of the duplicate payment(s) in accordance with the requirement in this chapter and Chapter 9701.

To receive reimbursement for the duplicate payment(s), the Servicer must submit a request for reimbursement to Freddie Mac via e-mail (**see Directory 6**) and include in that request proof of the Servicer's compliance with the applicable requirements and proof of the payment of the expenses.

Freddie Mac will not reimburse the Servicer for any such duplicate payments if the Servicer does not meet the requirements in this section and/or the requirements in Chapter 9701. In such instances, the Servicer may seek a refund from the condominium association, HOA or Cooperative Corporation, or taxing authority to which duplicate payments were made.

9603.14: Eviction requirements for REO (07/15/19)

Freddie Mac will conduct the eviction proceedings if the property is occupied. If Freddie Mac requests information or documentation from the Servicer pertaining to the eviction, then the Servicer must provide the information or documentation to Freddie Mac within the requested time frames.

9603.15: Reimbursement of expenses incurred on an REO property (03/02/16)

For an REO not acquired by a third-party at the foreclosure sale, or for legal expenses not legally collectible from the third-party purchaser, Freddie Mac will reimburse the Servicer for reasonable expenses incurred in accordance with the provisions in Chapter 9701, Exhibit 57A, Approved Attorney Fees and Title Expenses, and/or those approved by Freddie Mac during the foreclosure process.

9603.16: Final settlement between the Servicer and Freddie Mac for REO (09/27/21)

After Freddie Mac has received all proceeds from the sale of the REO and the Servicer has submitted all expense reimbursement requests to Freddie Mac through PAID (Payments Automated Intelligent and Dynamic Tools), Freddie Mac will calculate and complete the final settlement of foreclosure e) (see Exhibit 88, Servicing expenses between the Servicer and Freddie Mac.

Freddie Mac will bill the Servicer for the Servicer's proportionate share of any expenses Freddie Mac has advanced during the REO holding period if Freddie Mac is not able to recover them from the Servicer's share of the proceeds. Otherwise, Freddie Mac will net these expenses against the Servicer's proportionate share of the sale proceeds and Freddie Mac will send the balance of the Servicer's share to the Servicer. Freddie Mac will also collect any fees, charges or other amounts the Servicer owes Freddie Mac with this settlement.

9603.17: Late execution of REO repurchase (05/01/19)

Freddie Mac may request a Servicer to repurchase a Mortgage post-foreclosure and after investor reporting ceases and the loan has been transferred to REO. If the Servicer does not remit proceeds to Freddie Mac in accordance with the time frame and requirements in Section 8303.14, the Servicer will be assessed a late execution of REO repurchase compensatory fee.

The compensatory fee will be calculated by multiplying the amount of the remittance shortage by the highest quoted prime rate on the last Business Day of the month in which the REO repurchase occurred in the print edition of *The Wall Street Journal* in its regular column entitled “Money Rates” plus 3%. If the prime rate is not published, then Freddie Mac will determine the comparable rate.

The amount of the late remittance and the number of days that the remittance is late is based on a 365-day year and determines the amount of the late execution of REO repurchase compensatory fee due to Freddie Mac. There is a minimum charge of \$50 on any late remittance. For purposes of calculating the charge, Freddie Mac uses the rate described above for any late remittances occurring between the first day after the Accounting Cycle, up to and including the last day of the following Accounting Cycle.

Refer to Section 8303.42 for the compensatory fee assessed for late execution of a repurchase request if not an REO.

Chapter 9701: Reimbursement of Expenses

9701.1: Reimbursement of expenses (09/27/21)

This chapter contains Freddie Mac's guidelines and requirements for using PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to request and obtain reimbursement for eligible expenses incurred in connection with a workout or foreclosure of a Mortgage serviced for Freddie Mac.

The expense reimbursement process is governed by the requirements in this chapter, Sections 2401.1 and 2404.2, Chapter 2405, other Purchase Documents, and the following:

1. The terms and conditions of the Mortgage documents
2. Applicable law
3. Requirements of FHA, RHS, VA or the MI, if applicable

If foreclosure proceedings are discontinued, all fees and costs the Servicer incurs must be collected from the Borrower (unless prohibited by applicable law). The Servicer must not charge the Borrower for:

- Any costs or fees that the Servicer has not incurred, and
- Reinstatement or relief fees that are not allowed by applicable law or the Purchase Documents

If applicable law prohibits reimbursement from the Borrower, Freddie Mac will share the expenses with the Servicer in proportion to Freddie Mac's interest in the Mortgage.

9701.2: Servicer expense approval authority (03/02/16)

Servicers may incur legal and other expenses in accordance with the established limits in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts, and Exhibit 57A, Approved Attorney Fees and Title Expenses, without Freddie Mac's prior approval.

9701.3: Request for pre-approval (RPA) (09/27/21)

Prior to the Servicer incurring the expense or expenses, if possible, the Servicer must obtain written pre-approval from Freddie Mac by submitting a request for pre-approval (RPA) via the

RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools) to:

- Exceed the expense limits in Exhibits 57 and 57A
- Incur certain expenses as set forth in Exhibit 74
- Incur expenses not set forth in Exhibit 74

All RPAs will require the Servicer to submit supporting documentation. Freddie Mac will not provide pre-approval for, or reimbursement of, expenses considered non-reimbursable (as set forth in Section 9701.15).

9701.4: Freddie Mac's rights concerning expense reimbursement (06/12/19)

Freddie Mac reserves the following rights:

1. Freddie Mac may deny the Servicer's request for reimbursement or curtail a portion of such expenses if Freddie Mac does not receive the Servicer's request within the required time frames specified in Section 9701.5
2. Freddie Mac will not reimburse the Servicer for expenses incurred on Mortgages repurchased by the Servicer, or Mortgages subject to full recourse or indemnification. However, when applicable, the Servicer must submit expenses on any Mortgage that is pending repurchase. If the Servicer is required to repurchase Freddie Mac's interest in a Mortgage in accordance with Chapter 3602, Freddie Mac's calculation of the repurchase price will include all amounts the Servicer was reimbursed.
3. If Freddie Mac does not exercise its right to set off amounts owed to Freddie Mac against other funds owed to a Servicer, Freddie Mac will bill the Servicer for expenses and/or losses incurred or discovered after the repurchase notification date and/or the date of Freddie Mac's receipt of the repurchase proceeds from the Servicer
4. If Freddie Mac audits the Servicer's reimbursement requests and determines that a previously reimbursed expense was not eligible for reimbursement, Freddie Mac may bill the Servicer for any amounts due to Freddie Mac on the Servicer's monthly Servicer Non-Performing Loans Invoice. (Refer to Section 9102.1 for information on the payment of Servicing Non-Performing Loans Invoices via an Automated Clearing House draft.)
5. The expenses submitted on the final claim for a Mortgage insured by the FHA, or guaranteed by the VA or RHS not subject to recourse or indemnification will not be reimbursed until Freddie Mac has received the full amount of claim proceeds from the applicable entity

Note: Freddie Mac will reimburse the Servicer for additional expenses that appear on the claim forms the Servicer submits to the applicable entity only if Freddie Mac receives these funds in the claim proceeds from the applicable entity.

6. Freddie Mac reserves the right to require the Servicer to obtain competitive bids from multiple vendors on property preservation work that exceeds the expense limits specified in Exhibit 57, 1- to 4- Unit Property Approved Expense Amounts.

9701.5: Expense reimbursement submission time frames (09/27/21)

Expenses for which the Servicer is seeking reimbursement must be submitted in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

Servicers may enter expenses in PAID as they are accrued; however, Servicers will not receive reimbursement until the mortgage modification, short sale or charge-off has settled on Freddie Mac systems or the deed-in-lieu of foreclosure, third-party sale or foreclosure sale has been successfully reported to Freddie Mac.

Expense reimbursement submission time frames provided for in this Section 9701.5 are not applicable for Mortgages insured by the FHA, or guaranteed by the VA or RHS. For expenses incurred on Mortgages insured by the FHA, or guaranteed by the VA or RHS not subject to recourse or indemnification, the Servicer must submit expenses in PAID after Freddie Mac has received the claim payment from the applicable entity (see Section 9603.2 on FHA/VA/RHS claim filing and Section 9603.5 on receipt of claim payment), but no later than 60 days after Freddie Mac has received the claim payment.

(a) Reimbursement of loan modification expenses

With the exception of recordation fees, Servicers must enter all loan modification related expenses in PAID that were not capitalized in the modification or otherwise paid by the Borrower (including unrecoverable expenses described in Section 9701.5(d)) no later than 90 days after the settlement date in Freddie Mac systems. Recordation fees (expense code 300003) must be submitted no later than 180 days after the settlement date in Freddie Mac systems.

(b) Reimbursement of expenses for short-sales; charge-offs; deeds-in-lieu of foreclosure; third-party sales; and forclosure sales

Servicers must enter the initial expenses related to a short-sale, charge-off, deed-in-lieu of foreclosure, third-party foreclosure sale or a foreclosure sale in PAID that were not paid by the Borrower (including unrecoverable expenses described in Section 9701.5(d)) no later than 45 days after the workout is settled on Freddie Mac systems or the foreclosure sale is successfully reported to Freddie Mac. Additional expenses must be entered no later than 60

days after the workout is settled on Freddie Mac systems or the foreclosure sale is successfully reported to Freddie Mac.

NOTE: During the REO holding period (i.e., the time period from Freddie Mac's acquisition of the property to the sale of the REO), the Servicer may review the status of the REO by monitoring the REO Overview Report, accessible via the "REO" tile of the Servicer's Servicer Performance Profile (SPP) (see Exhibit 88, Servicing Tools). The Servicer may also call the Customer Support Contact Center at 800-FREDDIE to obtain this information. Freddie Mac will not send the Servicer a written notice of the sale of the REO. Usually the Servicer only needs to submit one claim, referred to as the "final" claim. Any additional claim submissions are referred to as "supplemental."

(c) Reimbursement of other expenses

Servicers must enter the initial expenses for the following expenses in PAID no later than 45 days after completion of the event, and any additional expenses must be entered no later than 60 days:

- Expenses (e.g., legal fees and/or legal costs) considered unrecoverable from the Borrower under applicable federal, State or local law upon reinstatement or payoff of the Mortgage (including unrecoverable expenses described in Section 9701.5(d));
- Bankruptcy completion on a current Mortgage for which the Servicer obtained Freddie Mac's written pre-approval to incur the legal expense via the request for pre-approval (RPA) functionality in PAID pursuant to Section 9401.6(a)

(d) Unrecoverable expenses

Freddie Mac will reimburse certain expenses (e.g., legal fees and/or legal costs), as set forth in Exhibit 74, Expense and Income Codes for Expense Reimbursement Claims, considered unrecoverable from the Borrower under applicable federal, State or local law upon reinstatement or pay off of the Mortgage, or upon completion of a mortgage modification.

For any other expense a Servicer believes to be unrecoverable from the Borrower under applicable federal, State or local law, the Servicer must obtain written pre-approval from Freddie Mac by submitting a request for pre-approval (RPA) via the RPA functionality in PAID.

9701.6: Reimbursement of property taxes (09/27/21)

The Servicer must administer all funds in the Borrower's Escrow account to pay expenses in accordance with the terms set forth in the Note and the Security Instrument, in addition to applicable federal, State and local laws. The Servicer must maintain sufficient Escrows and/or verify timely payments of property taxes in accordance with Sections 8201.1 and 9301.27.

Freddie Mac will reimburse the Servicer that is in compliance with the requirements of Sections 8201.1 and 9301.27 for property taxes that were incurred and paid to a taxing authority as follows:

- For foreclosure sales and deeds-in-lieu of foreclosure, property taxes are reimbursable if incurred up to 12 months prior to the DDLPI through the foreclosure sale or the deed-in-lieu of foreclosure date
- For short-sales, charge-offs or third party sales, property taxes are reimbursable if incurred and paid to a taxing authority up to 12 months prior to the DDLPI through the payoff date. (Refer to Section 9701.5 for a description of expense reimbursement requests and submission time frames.)

If the Servicer advanced property taxes as required in Section 8201.1 and entered into a repayment plan for the property taxes with the Borrower, and the Borrower breached the repayment plan during the repayment period, Freddie Mac will reimburse the Servicer for the property taxes the Borrower did not pay if the Servicer provides Freddie Mac with documentation of:

1. The repayment plan and the sequence of events
2. Evidence that the Servicer initiated foreclosure as required in Section 8201.1

Except as otherwise provided herein, Freddie Mac will reimburse the Servicer for the first tax penalty incurred on a non-escrowed Mortgage that goes to foreclosure on the condition that the Servicer has complied with the requirements of Section 8201.1. Freddie Mac will not reimburse the Servicer for the interest or other charges accrued on delinquent property taxes.

Freddie Mac will reimburse Servicers for the first and second tax penalty incurred on a non-escrowed Mortgage in the State of California only in instances where the Servicer is not notified of unpaid property taxes on a non-escrowed Mortgage until the second tax penalty was assessed.

Freddie Mac will not reimburse the Servicer for any late fees, interest and penalties other than:

- The first tax penalty on a non-escrowed Mortgage (including interest if the taxing authority considers interest as a penalty, or includes it as part of the penalty)
- The first and second tax penalties on a non-escrowed Mortgage in California

In California, properties are reassessed for supplemental taxes from the foreclosure sale date to the REO settlement date. A supplemental tax statement is often generated long after the REO settlement date. Therefore, within five days following the foreclosure sale or the deed-in-lieu of foreclosure date, the Servicer must notify the taxing authority, in writing, to send any supplemental tax bills to Freddie Mac (**see Directory 6**). The Servicer must also send Freddie Mac a copy of the letter sent to the taxing authority.

9701.7: Reimbursement of insurance premiums (12/08/21)

Freddie Mac will reimburse the Servicer for property insurance premiums if they were incurred and paid to the insurer up to 12 months prior to the DDLPI.

After the DDLPI, the following insurance expenses are reimbursable in every jurisdiction:

1. Mortgage insurance premiums are reimbursable if incurred after the DDLPI and before:
 - The REO acquisition date. The acquisition date is the foreclosure sale date, the date of the expiration of the redemption period and/or the confirmation/ratification date, whichever occurs last
 - A deed-in-lieu of foreclosure has been successfully reported to Freddie Mac through the Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools)
 - A short sales has been settled on Freddie Mac systems
2. Property insurance premiums paid through an escrow account are reimbursable for a period up to:
 - Twelve months after the foreclosure sale or cancelation of the policy (whichever occurs earlier)
 - 14 days after the foreclosure sale or deed-in-lieu of foreclosure has been successfully reported to Freddie Mac through the Freddie Mac Foreclosure Sale Reporting tool, if the property did not revert to REO through foreclosure sale; or
 - For short-sales, charge-offs or third party sales, 14 days after completion of the workout settlement. (Refer to Section 9701.5 for a description of expense reimbursement requests and submission time frames.)
3. Lender-Placed Insurance (LPI) premiums are reimbursable for a period up to 14 days after the final non-REO activity or up to 14 days after the foreclosure sale and or the deed-in-lieu of foreclosure has been successfully reported through the Foreclosure Sale Reporting tool. Freddie Mac will not reimburse the Servicer for LPI premiums for periods in which the Borrower obtained coverage meeting the requirements outlined in Chapter 8202 was already in place. LPI premiums for which the Servicer or an affiliated entity received compensation in violation of Section 8202.12 are not reimbursable.

9701.8: Reimbursement of liens (09/27/21)

Freddie Mac will reimburse the Servicer in most instances where the Servicer must pay expenses that, if delinquent, are or may become First Liens on the property or that if not paid would result in the subordination of Freddie Mac's interests, as provided in the Guide. (Refer to Sections 9301.27 and 9701.10.) To be reimbursed, the Servicer must obtain written pre-approval from Freddie Mac (by submitting a request for pre-approval (RPA) via the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools)).

9701.9: Reimbursement for property inspection and property preservation expenses (09/27/21)

For each property inspection completed in accordance with the requirements of Section 9202.12, Freddie Mac will reimburse the Servicer the lesser of:

- The actual cost of the property inspection; or
- The applicable expense limit stated in Exhibit 57, 1- to 4-Unit Property Approved Expense Amounts

In addition, the Servicer will be reimbursed for an interior property inspection obtained for a Freddie Mac Standard Deed-in-Lieu of Foreclosure pursuant to the requirements of Section 9209.6.

In the case of abandoned properties, it may be necessary for the Servicer to incur certain property preservation expenses, such as the cost of utilities and expenses incurred to protect the property from waste, damage and vandalism. The Servicer will be reimbursed for Freddie Mac's proportionate share of such property preservation expenses according to the guidelines in Exhibit 57 and Section 8403.2 for expenses incurred from the DDLPI through the reported foreclosure sale date, when the property reverts to REO. If the expense of the preservation exceeds Freddie Mac's approval limits, or the expense will be incurred after the date of a foreclosure sale, including where the property sold to a third party, the Servicer must obtain Freddie Mac's approval prior to incurring the expense by submitting a request for pre-approval of these costs via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

If the Servicer exceeds the expense limit in Exhibit 57 for emergency repairs, Freddie Mac may reimburse the Servicer if Freddie Mac is notified of the emergency via PAID by the next Business Day after the expense was incurred. If the Servicer's determination to incur the expense was reasonable, as determined in Freddie Mac's sole discretion, Freddie Mac will reimburse the Servicer for the expense.

The Servicer is no longer responsible for property preservation expenses and will not be reimbursed for property preservation costs, including utility expenses, incurred after (i) the

reported foreclosure sale date or (ii) if the property sold to a third party at the foreclosure sale, the foreclosure action is complete.

9701.10: Reimbursement of condominium/HOA or Cooperative Corporation assessments, and ground rents (09/27/21)

(a) For Mortgages with Note Dates prior to February 14, 2014

Pursuant to Section 9603.1, Freddie Mac will pay the condominium/homeowners association (HOA) or Cooperative Corporation assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents, as applicable, as they become due after the Servicer has successfully reported the foreclosure sale or deed-in-lieu of foreclosure via the Freddie Mac Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools).

If applicable State law creates a lien priority over Freddie Mac's First Lien position for delinquent condominium/HOA or Cooperative Corporation assessments assessed pre-foreclosure, then Freddie Mac will reimburse the Servicer for its payment of regular assessments assessed pre-foreclosure in an amount no greater than the lesser of:

- The actual amount in regular assessments advanced by the Servicer
- The maximum amount in regular assessments that, per the project declaration or bylaws, would take priority over Freddie Mac's First Lien position
- The maximum amount in regular assessments that, per applicable State statute, would take priority over Freddie Mac's First Lien position
- For Cooperative Share Loans, see Section 8801.4 regarding Cooperative Share Loan expenses that may become First Liens on the property

Unless otherwise provided in the Guide, Freddie Mac will not reimburse the Servicer for late fees, interest, collections expenses or attorney fees, regardless of whether such amounts may be included under the lien pursuant to applicable State law.

(b) For Mortgages with Note Dates on or after February 14, 2014

Pursuant to Section 9603.1, Freddie Mac will pay the condominium/HOA or Cooperative Corporation assessments, Condominium Unit maintenance fees or Cooperative Unit Maintenance Fees, and ground rents, as applicable, as they become due after the Servicer has successfully reported the foreclosure sale or deed-in-lieu of foreclosure via the Foreclosure Sale Reporting tool (see Exhibit 88, Servicing Tools).

If applicable State law creates a lien priority over Freddie Mac's First Lien position for delinquent condominium/HOA or Cooperative Corporation assessments assessed pre-foreclosure, then Freddie Mac will reimburse the Servicer for its payment of regular assessments assessed pre-foreclosure in an amount equal to the lesser of the actual amount advanced or:

- For Mortgages secured by property in the State of Florida – no more than 12 months (or any lesser amount provided by State statute)
- For Mortgages secured by property in the State of Connecticut – no more than nine months (or any lesser amount provided by State statute)
- For Mortgages secured by property in all other States (including States that provide an exception for Freddie Mac Mortgages) – no more than six months (or any lesser amount provided by State statute)
- For Cooperative Share Loans, see Section 8801.4 regarding Cooperative Share Loan expenses that may become First Liens on the property

Unless otherwise provided in the Guide, Freddie Mac will not reimburse the Servicer for late fees, interest, collections expenses or attorney fees, regardless of whether such amounts may be included under the lien pursuant to applicable State law.

(c) Ground rents

For leasehold Mortgages, if termination of the lease will impair Freddie Mac's lien position or interest in the property, Freddie Mac will reimburse the Servicer for any payments it made pursuant to the terms of the lease (i.e., ground rents) to prevent termination of the lease and protect Freddie Mac's lien position and interest in the property.

Freddie Mac will reimburse the Servicer that is in compliance with the requirements of Sections 9301.26 and 9401.3 regarding leasehold Mortgages for ground rents paid as follows:

- For foreclosures and deed-in-lieu of foreclosure, ground rents are reimbursable if incurred and paid up to 12 months prior to the DDLPI through the foreclosure sale date
- For short-sales; charge-offs or third-party sales, ground rents are reimbursable if incurred and paid up to 12 months prior to the DDLPI through the payoff date. (Refer to Section 9701.5 for a description of expense reimbursement request and submission time frames.)

9701.11: Reimbursement of fees and costs incurred during legal proceedings (09/27/21)

Certain legal fees and costs are reimbursable when the Servicer forecloses on a property or takes other routine or non-routine legal action. All foreclosure and related legal fees and costs must be reasonable and comparable to those customarily charged in the area where the property is located (see Section 9301.14 regarding foreclosure counsel fees). Those fees and costs include such items as:

1. Foreclosure attorney fees as set forth in Exhibit 57A, Approved Attorney Fees and Title Expenses, and foreclosure attorney fees incurred that exceed the expense limits in Exhibit 57A, if the Servicer has submitted and Freddie Mac has granted written pre-approval of the Servicer's request via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

Foreclosure attorney fees listed in Exhibit 57A are the approved attorney fees for an uncontested foreclosure. This generally includes but is not limited to:

- All activities necessary to complete the first legal action
- Review of supporting documentation and loan status
- Verification that the Borrower is not a Servicemember currently serving a Period of Military Service (as those terms are referenced in Section 8503.1), or if the Borrower was a Servicemember, that more than one year has elapsed since his or her Period of Military Service ended (see Section 8503.2 regarding foreclosure relief options exclusive to Servicemembers and their Dependents). Verification must be completed following the referral of a Mortgage to foreclosure but prior to the first legal action, and again prior to foreclosure sale.
- Review of title examination
- Preparation and filing of all necessary papers and notices, including the publication and posting of notices of foreclosure or other legal proceedings as required by State or local law, as well as obtaining service of process on all defendants or parties entitled to notice
- Obtain orders for alternate or special service, if doing so will expedite service of process at little or no additional cost
- All necessary court appearances required in an uncontested foreclosure
- Preparing documentation for and obtaining entry of judgment in a judicial foreclosure action, or preparing all documentation necessary to conduct the foreclosure sale in a non-judicial foreclosure action

- Handling the foreclosure sale including any actions required to postpone (see Section 9301.28 regarding foreclosure sale postponements), reset and set aside the sale, and
- Preparation and recording of conveyance deeds
- For Cooperative Share Loans, any transfer of the Cooperative Shares and Proprietary Lease (see Section 8801.6 regarding delinquency management for Cooperative Share Loans)

If during the pendency of a foreclosure, a Servicer relies upon its foreclosure counsel, as a vendor, to perform or handle services associated with Servicer functions, including Delinquency management requirements as provided in Chapters 8402 through 8404, 9201 through 9211, 9301, 9401, 9402, 9501, 9601 and 9602, then any additional fees or service charges billed by a law firm should be paid by the Servicer at its own expense. (See Section 9701.15 regarding non-reimbursable expenses.)

2. Filing costs and other costs required by a court, as well as the cost of obtaining a copy of a death certificate if needed to facilitate prompt and efficient completion of the legal proceeding
3. Costs as set forth in Exhibit 57A for title work required for foreclosures, which include the cost of an update to the title if required by the State, or to ensure clear and marketable title to the Mortgaged Premises after the foreclosure sale. Freddie Mac will not reimburse for any additional title abstract, commitment or policy. If the Servicer must obtain an additional update to the title because the original is stale due to bankruptcy delay, Freddie Mac will reimburse the Servicer up to \$125 for the update in Maryland, Ohio and Virginia, and \$75 for all other States. Servicers must contact Freddie Mac for written pre-approval for an additional update if the title becomes stale for any other reason.
4. Costs of serving legal notices, when required by applicable law
5. Cost of publication of notices of foreclosure or other legal proceedings as required by State or local law. Reimbursable costs incurred for the publication of such legal notices include actual charges imposed by the newspaper or publication. The foreclosure attorney fees in Exhibit 57A cover fees for acquiring the publication, including the cost of preparing, submitting and verifying the legal notices.
6. Cost of posting of notices of foreclosure or other legal proceedings, as required by State or local law. Reimbursable costs incurred for the posting of such legal notices are for actual charges imposed for the physical posting of notices on the property.
7. Postage for certified or registered mail that is required for legal notices as required by applicable law
8. Bankruptcy costs and fees as set forth in Exhibit 57A, and bankruptcy expenses incurred that exceed the expense limits in Exhibit 57A, if the Servicer has submitted and Freddie Mac has

granted written pre-approval of the Servicer's request via PAID. However, if the Borrower is delinquent and files for bankruptcy protection and a reorganization plan is approved, the Servicer must seek reimbursement for its allowable expenses through the Borrower's bankruptcy plan.

If the Borrower breaches the bankruptcy plan, the Servicer must not submit a claim for expense reimbursement until after the applicable event or activity described in Section 9701.5.

9. Contested foreclosure fees and court costs required to continue with the foreclosure process, if the Servicer has submitted and Freddie Mac has granted written pre-approval of the Servicer's request via PAID.

For legal expenses that are related to a non-routine litigation matter and are considered reimbursable, Servicers must first contact Freddie Mac with details of the non-routine litigation matter according to the reporting requirements in Section 9402.3(b), and include an estimate of the attorney's fees and litigation costs, as well as the attorney's hourly rate, in the Servicer's request for Freddie Mac's pre-approval via PAID.

Contested foreclosure fees and court costs are:

Contested Foreclosure Resolved by Motion for Summary Judgment (Judicial)	Foreclosure attorney fee for a contested foreclosure in which a defendant files an answer requiring the filing of a summary judgment motion. This includes work leading up to the filing of the summary judgment motion, all court appearances and all written discovery.
Responding to a Motion to Dismiss (Judicial)	Foreclosure attorney fee for responding to a motion to dismiss, including the preparation and filing of a response and attendance at all hearings.
Contested Foreclosure Resolved by Trial (Judicial)	Foreclosure attorney fee for trial, set by court upon its own motion including, but not limited to, pre-trial preparation and correspondence, preparation and filing documents necessary for trial, witness preparation and all necessary court appearances.

Contested Foreclosure Resolved by Motion to Dismiss (Non-Judicial)	Foreclosure attorney fee for a contested foreclosure (i.e., Borrower's filing of a lawsuit to challenge a non-judicial foreclosure) resolved by the filing of a motion to dismiss and subsequent entry of an order granting motion to dismiss. This includes all work leading up to the filing of the motion to dismiss and all necessary court appearances.
Contested Foreclosure Resolved by Summary Judgment Motion (Non-Judicial)	Foreclosure attorney fee for a contested foreclosure (i.e., Borrower's filing of a lawsuit to challenge a non-judicial foreclosure) resolved by the filing of a motion for summary judgment and subsequent entry of an order granting motion for summary judgment. This includes all work leading up to the filing of the summary judgment motion, all court appearances and all written discovery.
Probate Proceedings	Foreclosure attorney fee for probate proceedings during a contested foreclosure.
Motion for Mediation in a Contested Foreclosure	Foreclosure attorney fee for attendance and appearance at a mediation session for a contested foreclosure that is not part of a State or local law pre-foreclosure mediation program.
Borrower Initiated Motions	Foreclosure attorney fee for responding to a motion initiated by the Borrower or Borrower's counsel, including the preparation and filing of a response and attendance at all hearings.
Reply to Affirmative Defenses/Motion to Strike	Foreclosure attorney fee for responding to affirmative defenses or a motion to strike filed by or on behalf of the Borrower in a contested foreclosure, including the preparation and filing of a response and attendance at all hearings.

Discovery (Request for Production of Documents, Request for Admissions, Interrogatories)	Foreclosure attorney fee for responding to a discovery request or propounding discovery in a contested foreclosure, including the preparation and filing of a response and attendance at all hearings.
Contested Foreclosure Fee – Other	Foreclosure attorney fee for additional work needed to resolve a contested foreclosure that enters into litigation, whether routine or non-routine, in order to proceed with the foreclosure.

10. For the life of the default, the actual cost of system connectivity fees, technology fees and invoice processing fees up to the following maximum expense limits:
- Connectivity fees are reimbursable up to a maximum of \$25 per referral, on or after April 1, 2011, for the life of the default
 - Technology fees are reimbursable up to a maximum of \$5 per referral, before April 1, 2011, for the life of the default
 - Invoicing fees are reimbursable up to a maximum of \$5 to process foreclosure invoices and an additional maximum of \$5 to process bankruptcy invoices for the life of the default on referrals on or after April 1, 2011
- For details on system connectivity and invoice processing, refer to Section 9501.9.
11. Attorney fees to shorten a redemption period, when allowed by applicable State law, if the Servicer has submitted and Freddie Mac has granted written pre-approval of the Servicer's request via PAID
12. Attorney fees to foreclose on a Cooperative Share Loan (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans), if the Servicer has submitted and Freddie Mac has granted written pre-approval of the Servicer's request via PAID
13. Attorney fees for appearance and attendance at a status, conciliation or case management conference, when required by State or local law or set by the court, if the Servicer has submitted and Freddie Mac has granted written pre-approval of the Servicer's request via PAID. This includes fees for appearance and attendance at pre-mediation hearings or conferences, when required by State or local law or set by the court.
14. Certain expenses (e.g., legal fees and/or legal costs) considered unrecoverable from the Borrower under applicable federal, State or local law upon reinstatement or payoff of the Mortgage, or upon completion of a mortgage modification. (Refer to Section 9701.5(f) regarding unrecoverable expenses.)

In the event of a foreclosure of the property or a bankruptcy of the Borrower, attorneys' invoices paid by the Servicer pursuant to Section 8103.3 must match or exceed the claim for reimbursement in PAID. Servicers must pay attorneys' invoices timely and should not be delaying the payment of attorneys' invoices until after the expenses have been reimbursed by Freddie Mac.

Freddie Mac will not reimburse the Servicer for attorney's fees and litigation costs on Mortgages sold to Freddie Mac with full recourse or subject to indemnification. For Mortgages sold to Freddie Mac with recourse or subject to indemnification, the Servicer must inform counsel retained for foreclosure, eviction or bankruptcy that the Servicer is responsible for paying all associated fees and costs.

9701.12: Reimbursement requirements when foreclosure must be restarted (09/27/21)

In certain States, if the Servicer must restart a foreclosure proceeding, in whole or in part, due to an allowable delay as defined in Section 9301.46, Freddie Mac will reimburse the Servicer as follows:

1. All of the reimbursable actual costs (per the requirements of the Guide) of each foreclosure attempt and the completed foreclosure
2. Up to 70% of the approved foreclosure attorney fees for the first foreclosure attempt
3. Up to 100% of the approved foreclosure attorney fees for the completed foreclosure

Additionally, for any foreclosure attempt subsequent to the first foreclosure attempt, except for the completed foreclosure, the Servicer may be reimbursed up to 70% of the approved foreclosure attorney fees with prior written approval from Freddie Mac. To obtain written approval from Freddie Mac, the Servicer must submit a request for pre-approval (RPA) via the RPA functionality in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools).

Freddie Mac will not reimburse the Servicer for any fees or costs associated with a restarted foreclosure if the Servicer has to restart a foreclosure proceeding due to a delay that is not considered an allowable delay as defined in Section 9301.46, or due to Servicer non-compliance with the Guide.

The States affected by this requirement are identified in Exhibit 57A, Approved Attorney Fees and Title Expenses.

In all other States, Freddie Mac will reimburse the Servicer for only one occurrence of the foreclosure attorney fee and reimbursable actual costs (per the requirements of the Guide).

9701.13: Reimbursement of BPO/appraisal reports (03/02/16)

Since the Servicer does not incur an expense when it orders a BPO or appraisal report from Freddie Mac via BPOdirect® in connection with a workout or a foreclosure, a BPO or appraisal report via BPOdirect is not an expense for which the Servicer may seek reimbursement. Freddie Mac will only reimburse the Servicer for an appraisal report ordered from an appraiser of its choice if the Servicer has complied with Section 9202.16.

9701.14: Reimbursement of Scheduled Principal (05/01/19)

Effective May 1, 2019, this section is deleted.

9701.15: Non-reimbursable expenses (09/27/21)

Consistent with Section 8101.2, standard operating costs incurred by a Servicer, or its Servicing Agent and/or Outsourced Vendor(s), as applicable, in connection with the Servicer's obligations and duties owed to Freddie Mac are part of the Servicer's cost of doing business, and, therefore, are not reimbursable by Freddie Mac, unless expressly provided for otherwise in the Servicing Contract.

Standard operating costs and expenses that are non-reimbursable by Freddie Mac (together referred to as "non-reimbursable expenses") include, but are not limited to:

1. Appraisal reports, except when approved by Freddie Mac in advance
2. Attorney's fees resulting from correction of matters that should have been resolved pre-foreclosure, including any costs to resolve real property title issues that are the result of the Seller's or Servicer's actions or inactions
3. Documentary stamp taxes/transfer taxes/excise taxes on real estate conveyance (Freddie Mac is exempt under Title 12 of the United States Code, Section 1452(e)), unless the Servicer received Freddie Mac's prior written approval via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). (See Section 9301.41 for additional requirements for reimbursement of transfer taxes after a foreclosure sale, or when closing a deed-in-lieu of foreclosure transaction).
4. Sales tax
5. Facsimile transmission (fax) charges

6. Interest, penalties (except for the first tax penalty (and second tax penalty in California as provided in Section 9701.6) incurred as defined in Section 9701.6), late charges, collection expenses or legal fees for late payment of property taxes or condominium/homeowners association (HOA) or Cooperative Corporation assessments unless otherwise provided in the Guide. (See Chapter 8801 for special Servicing requirements for Cooperative Share Loans.)
7. Long distance telephone calls
8. Mailgram charges
9. Mileage or travel costs
10. Mortgage credit life insurance premiums
11. Other costs of an attorney, such as time or fees for curing a Delinquency, document preparation, word processing or notary public services performed by an attorney; co-counsel fees; referral fees, packaging fees or other similar fees and new case start-up fees
12. Photocopy costs
13. Photographs
14. Regular postage
15. The actual or imputed value of in-house counsel time expended when the reimbursable matter is handled by in-house counsel
16. Additional fees for preparing a foreclosure deed because the cost of doing so is included in the attorney's fees listed in Exhibit 57A, Approved Attorney Fees and Title Expenses
17. Credit reports
18. Additional fees or service charges billed by a law firm, or any entities the firm relies upon to provide third-party support functions performed on the Servicer's behalf, that are considered included in the attorney's fees listed in Exhibit 57A
19. Additional fees or service charges that are billed by a law firm or any entity the Servicer relies upon and are associated with Servicer functions. Servicers should pay vendors for handling such Servicer functions at their own expense.

For non-reimbursable expenses, Servicers or their Permitted Vendors (see Section 2405.7 regarding use of PAID by Permitted Vendors) should not be requesting Freddie Mac's written pre-approval by submitting a request for pre-approval (RPA) via the RPA functionality in PAID for these expense amounts.

If Freddie Mac determines that the Servicer has directly or indirectly passed or charged to Freddie Mac any non-reimbursable expenses or charged Freddie Mac for Servicing obligations covered by the Servicing Spread (as set forth in Section 8103.3), then Freddie Mac may pursue any or all remedies available under the Guide, other Purchase Documents and applicable law.

9701.16: Denials and adjustments of expense reimbursement requests (09/27/21)

Freddie Mac reserves the right to withhold payment on a reimbursement request if:

1. Servicer fails to provide Freddie Mac with supporting documentation requested or in the time frame Freddie Mac requires
2. Freddie Mac did not receive the request within the expense reimbursement submission time frames (see Section 9701.5)
3. The request includes expenses that are typically non-reimbursable, unless the Servicer has obtained Freddie Mac's written pre-approval
4. The request includes expenses for an amount in excess of the expense limits in Exhibit 57, 1-to 4-Unit Property Approved Expense Amounts, and Exhibit 57A, Approved Attorney Fees and Title Expenses, unless the Servicer obtained Freddie Mac's written pre-approval

If Freddie Mac adjusts or denies the Servicer's reimbursement request:

- Information on the reason why Freddie Mac either adjusted or denied an expense reimbursement will be available in PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools)
- The Servicer may resubmit the reimbursement request via PAID provided the resubmission is within Freddie Mac's time frame requirements, the Servicer claims only the disallowed expense, and the appropriate documentation is attached and includes a justification for why the disallowed expense should be reimbursed

9701.17: Default reporting requirements and reimbursement of claims (09/27/21)

The legal fees and costs the Servicer submits must reflect the same default action dates as reported via EDR. Failure to report Delinquency, foreclosure, bankruptcy and other relevant EDR data will result in the adjustment or denial of the request.

9701.18: REO related costs and expenses (03/02/16)

Freddie Mac will reimburse the Servicer for post-acquisition activities which a Servicer must perform for Freddie Mac, the MI, FHA and/or the VA. (Refer to Chapter 9603 for information on these activities.)

9701.19: Expense offsets (03/02/16)

The Servicer must deduct certain funds from expenses incurred. These funds include positive Escrow balances at default, interest on Escrow balances, property insurance and primary mortgage insurance premium refunds.

The Servicer's requested expense reimbursements must be offset by any positive Escrow balance. Funds remaining in the Borrower's Escrow account at default must be accounted for with the Servicer's reimbursement request as income to offset expenses. Funds remaining in a temporary buydown account before the foreclosure action was started must be applied as set forth in Section 4204.4. Additionally, the Servicer is required to offset any incurred reimbursable expenses with the proceeds of rental income it receives during the foreclosure or REO holding period.

Mortgage insurance premium refunds should be refunded directly to Freddie Mac by the MI on the claim for loss. If, however, the MI sends a refund of the mortgage insurance premium to the Servicer directly, the Servicer must credit the MI premium refund on the claim as income when it submits a request for expense reimbursement.

In the following instances, Freddie Mac will bill the Servicer for the funds on the Performing Loans monthly Servicer Billing Statement or the Servicer Non-Performing Loans Invoice, respectively:

- If the income reported by the Servicer exceeds the expenses requested
- If the Servicer has no expenses currently being processed to offset the income that is due to Freddie Mac

Refer to Section 9102.1 for information on the payment of the Servicer Billing Statement and Non-Performing Loans Invoice via an Automated Clearing House (ACH) draft.

The Servicer must not offset anticipated or received mortgage insurance claim payments, property insurance claim proceeds or sales proceeds against any expenses incurred. (Refer to Section 9701.20 for information on remitting these funds to Freddie Mac.)

9701.20: Forwarding remittances to Freddie Mac (11/30/16)

The Servicer is required to forward, via wire transfer or check, non-REO related funds to Freddie Mac (see **Directory 5**) and REO related funds to Freddie Mac (see **Directory 6**) within 10 Business Days of the Servicer's receipt of the funds. Such funds typically include, but are not limited to, mortgage insurance claim proceeds and property insurance claim proceeds.

The Servicer must forward the funds to Freddie Mac via check or wire transfer as follows:

- For non-REO related funds, the Servicer must forward the funds via check payable to the Federal Home Loan Mortgage Corporation and include the Freddie Mac loan number along with copies of related documentation with the check
- For REO related funds, the Servicer must forward the funds via (a) check or (b) wire transfer
 - (a) Remittances forwarded by check must be payable to the Federal Home Loan Mortgage Corporation and include the Freddie Mac loan number along with copies of related documentation with the check
 - (b) Remittances forwarded by wire transfer must reference the Freddie Mac loan number, address of property, and the type of proceeds (e.g., REO repurchases, mortgage insurance claim proceeds, and property insurance claim proceeds)

The Servicer must not offset any expenses against property insurance claim proceeds or mortgage insurance claim proceeds.

9701.21: Standard supporting documentation for expense reimbursement (05/04/20)

With the exception of Mortgages insured by the FHA, or guaranteed by the VA or RHS not subject to recourse or indemnification, Freddie Mac generally will not require the Servicer to submit supporting documentation with its expense reimbursement requests and resubmission of denied reimbursement requests. However, there are situations, such as audits of reimbursement requests, where Freddie Mac will instruct the Servicer to provide standard supporting documentation. Standard supporting documentation for expense reimbursement requests includes, but is not limited to:

1. Proof of all disbursements: Copies of original bills/invoices of services performed for expenses submitted on the claim, that include, but are not limited to, the following: legal fees and costs, property inspection, property preservation costs, primary mortgage insurance premiums and condominium/homeowners association (HOA) or Cooperative Corporation

assessments (see Chapter 8801 for special Servicing requirements for Cooperative Share Loans)

2. A copy of the project declaration highlighting, if applicable, the portion of the condominium/HOA assessments that may take priority over the Mortgage. For Cooperative Share Loans, refer to Section 8801.7 regarding standard supporting documentation for reimbursement of expenses incurred on a Cooperative Share Loan.
3. Copy of the Mortgage history beginning twelve months prior to the DDLPI through the date Freddie Mac requests the Mortgage history. Proof of payment of normal Escrow items is not required if shown in the history. However, if property tax payments are not consistent with the other taxes or if they were paid in a lump sum, the Servicer must submit documentation from the taxing authority providing the breakdown of the tax amount, including any late charges, penalties and interest (if applicable).
4. The buydown account balance, if applicable

For expense reimbursement requests on Mortgages insured by the FHA, or guaranteed by the VA or RHS not subject to recourse or indemnification, Freddie Mac requires the Servicer to provide supporting documentation including, but not limited to:

- A copy of the claim for benefits filed with the applicable entity
- Any communication or requests for information from the applicable entity regarding the claim, including any response, and
- Documentation showing the itemization of the distribution of the claim payment received from the applicable entity (e.g., loss claim packet or advice of payment letter)

In the event a Servicer is required to submit supporting documentation for Freddie Mac to process the claim, the Servicer's submission must meet the appropriate submission deadline in Section 9701.5 or any deadline given in Freddie Mac's request for documentation.

9701.22: Expense reimbursement audits (09/27/21)

Freddie Mac will perform audits of expenses to ensure compliance with Freddie Mac's requirements. If Freddie Mac finds that an expense is not in compliance with applicable requirements, Freddie Mac may deny the reimbursement or adjust the claim.

Freddie Mac will communicate an audit request to the Servicer via PAID (Payments Automated Intelligent and Dynamic) (see Exhibit 88, Servicing Tools). The Servicer will then be required to submit the standard supporting documentation via PAID within seven Business Days. (Refer to Section 9701.21.) If the Servicer fails to submit the required documentation by the deadline, the Servicer's expense reimbursement request will be denied and the Servicer will not be permitted to resubmit the claim to Freddie Mac.

If Freddie Mac determines through the audit that an expense was not eligible for reimbursement, Freddie Mac will:

- Provide the Servicer with an explanation of Freddie Mac's audit findings, and
- Release the expense back to the Servicer or adjust the expense based on Freddie Mac's audit findings

If Freddie Mac determines through an audit that a previously reimbursed expense was not eligible for reimbursement, Freddie Mac will bill the Servicer for the amounts due back to Freddie Mac on its monthly Servicer Non-Performing Loans Invoice. (Refer to Section 9102.1 for information on the payment of Servicing Non-Performing Loans Invoices via an Automated Clearing House draft.)

If Freddie Mac determines through the audit that Freddie Mac owes funds to the Servicer, Freddie Mac will remit the funds to the Servicer within 30 calendar days of the date Freddie Mac notifies the Servicer of the audit findings.

9701.23: Consent Agreement terms and conditions (06/10/20)

(a) Defined terms

For purposes of this Section 9701.23, the following terms have the prescribed meaning set forth in Exhibit 103, Consent Agreement Incorporated Provisions:

- Advance Financing
- Advances
- Consent Agreement
- Reimbursement Amounts

(b) Eligibility

This Section 9701.23 is not a general offering and is only available to specific Servicers. This Section 9701.23 does not apply unless and until Freddie Mac and the Servicer execute and deliver a Consent Agreement, in form and substance acceptable to Freddie Mac in its sole and absolute discretion, implementing these terms and conditions.

(c) Consent Agreements

With the prior express written consent of Freddie Mac, a Servicer, in order to obtain Advance Financing, may grant a security interest to a third party lender in all of such Servicer's present and future rights, as expressly set forth in, and subject to the limitations of the Guide and/or the other Purchase Documents, for the reimbursement of Advances required to be made by the Servicer under the Guide and/or the other Purchase Documents, including, but not limited to, the requirements of Chapter 9701, and Sections 8301.19 and 7101.10.

If Freddie Mac consents to an Advance Financing, it will indicate its consent only by executing a Consent Agreement, which must also be executed by the Servicer and its Secured Party, in form and substance acceptable to Freddie Mac in its sole and absolute discretion.

All Consent Agreements must include the following language:

"This Consent Agreement incorporates the provisions of Section 9701.23 of the Guide and the provisions of Guide Exhibit 103 by reference and such provisions are a substantive contractual part of this Consent Agreement such that each of the Servicer and its Secured Party expressly agrees (i) that Guide Section 9701.23 is operative as to the Servicer and its Secured Party and (ii) each of the Servicer and its Secured Party is bound by the terms and conditions set forth in Guide Section 9701.23 and Guide Exhibit 103.

Any purported or attempted assignment, sale, hypothecation, pledge or transfer of, or grant of a security interest in Reimbursement Amounts or any other purported or attempted Advance Financing transaction, without execution and delivery of a Consent Agreement is prohibited and shall be null and void. The Reimbursement Amounts are not an interest in nor a component of Servicing Contract Rights, nor are they proceeds or cashflow derived from Servicing Contract Rights. No Advance Financing shall be construed as a division of the Servicing Contract Rights. A Servicer may make a separate request to Freddie Mac for consent to enter into a financing transaction secured by Servicing Contract Rights, and the proceeds and cashflow derived from the Servicing Contract Rights (a "Servicing Contract Rights Financing"), pursuant to Guide Section 1101.2(c) and Guide Exhibit 33. In no event shall any Advance Financing be cross-collateralized with any Collateral under any Servicing Contract Rights Financing. Any collateral under any Advance Financing is and will continue to be at all times separate and distinct from any and all Collateral under any Servicing Contract Rights Financing."

(d) Collateral Pledge Agreements

Freddie Mac reserves the right to condition its entry into a Consent Agreement on the Servicer's pledge of collateral pursuant to a Collateral Pledge Agreement in substantially the form and substance of Exhibit 104.
